DAWSON COUNTY COURIER

Volume 15 Associated Press News and Pictures The Dawson County Courier, Thursday, June 28, 1945 Associated Press News and Pictures Number 50

Team Managers To Meet, Half Of Season Is Ended

The matches slated for this afternoon (Thursday, June 28) between the Fire Department and Acckerly, and between Osborns Drive-Inn and Welch will conclude the first half of the summer schedule for the major softball league, according to Robert Kirk, president for the league.

Osborns Drive-Inn is the top team of the league thus far, having won the largest number of games this season.

President Kirk announces that there will be a meeting Saturday afternoon of all team managers for the league. The meeting has been announced for 4 p. m., and will be held in the District Court Room.

At that time the group will discuss the possibilities of holding a July Fourth baseball tourney in this city.

Arrangements will also be made for the second half of the summer schedule, which will be printed in this paper as soon as it is announced.

Lt. D. L. Callaway Reported Dead By War Department

Mrs. David L. Callaway received letter from the War Department Monday, June 25, stating that every effort had been made to trace her husband 1st Lt. David L. Callaway, who was reported missing in the European Theatre of War June 19, 1944. The communication stated that because 1 year had elapsed since he was placed in the missing status, and since no further information had been received or evidence found to show that he was still alive, 1st Lt. Callaway was presumed dead.

A pilot of a P-51 Mustang, Lt. Callaway held the Distinguished Flying Cross, Air Medal and several Clusters among other decorations. He had received recognition for knocking out enemy planes and trains.

He left for overseas duty in December of 1943, and had been in service for approximately 3 1/2 years when he was reported missing.

He was the son of Mr. and Mrs. G. H. Callaway, who reside 10 miles south and 1 mile east of town on the Big Spring Highway. His wife, the former Miss Marie Yates, and young daughter, Helen, make their home in this city with her parents, Mr. and Mrs. W. M. Yates.

Lt. Callaway is a graduate of Lamesa High School and was employed at Baldwin's Store in the shoe department prior to his entry into service.

\$73,491 Secured By R. L. Price To Benefit Veterans

County Judge Kilmer B. Corbin received the letter which is printed below from A. O. Williams of Austin who is director of the Veteran's State Service Office. The letter concerns the efforts and services of R. L. Price, Dawson County Service Officer.

June 25, 1945
County Judge, Dawson County, Lamesa, Texas,
Dear Sir:

I feel that you will be interested in knowing of the splendid service being rendered to veterans and their dependents in Dawson County by your Service Officer Mr. R. L. Price. According to the records of this office the amount of \$73,491.00 in veterans' benefits has been secured through the efforts of Mr. Price for Dawson County covering the period from September 1, 1944 to March 31, 1945. Since April 1, 1945, I feel certain that this amount has been practically doubled. No doubt other benefits have been secured on claims cleared through her channels than this office, by Mr. Price.

Mr. Price has been cooperating with this department to the fullest extent and I want to assure you that it is our desire to extend him the wholehearted cooperation of our department.

Yours very truly,
A. O. Williams, Director.

Mr. and Mrs. J. L. Morris of Klondike have been informed of the promotion of their son Dwight Morris from the rank of 1st Lt. to captain. Capt. Morris is stationed in Etampes, France, near Paris, where he serves as a troop movement officer in the Engineer Corps Overseas since January, 1944 he first landed in England, and was transferred to France shortly after D-Day. Capt. Morris entered service in July, 1942, receiving his training at Fort Belvoir, Va., and Camp Claiborne, La. Also, stationed in Yuma, Arizona, he built pontoon bridges in the desert near Imperial Dam. Capt. Morris is a Lamesa High School graduate as well as a 1940 graduate of Texas University where he finished with honors. Prior to entering service, he was connected with the AAA office here.

Johnny Lyons And J. R. Earnest Have Bought The Vogue

Announcement of the change in ownership of The Vogue, local dress shop, was made this week. The store is now owned by Johnny Lyons and J. R. Earnest, both well known Lamesa men who purchased the business June 16, from Mrs. Jack Ladd.

Johnny Lyons is serving as manager of the store which will continue to operate under the name of The Vogue, and the same personnel employed by Mrs. Ladd will be maintained.

Lyons has served in this field of business for approximately 15 years. From April of 1943 until May 1, this year, he was connected with Bryant-Link Company in this city.

Wounded On Luzon S-Sgt. Tom Lewis Gets Purple Heart

WITH THE FIRST CAVALRY DIVISION ON LUZON — Staff Sergeant Tom B. Lewis, husband of Mrs. Robert Lewis, Motor Route B, Lamesa, has been awarded the Order of the Purple Heart for wounds received in action on Luzon Island.

The award was made by Brigadier General Hugh Hoffman, commanding general of the First Cavalry Division.

Now fully recovered from his wounds, Sergeant Lewis has returned to duty with his unit.

Ensign Price Jr., Is Operations Officer At A Pacific Base

A story appearing in the June 26, issue of the Fort Worth Star-Telegram related duties of a group of Texans who are now stationed on Palawan in the Pacific Theatre of War. Among those listed in the story was Ensign R. L. Price Jr., the son of Mr. and Mrs. R. L. Price Sr., of this city.

Ensign Price serves as operations officer with a Combat Aircraft Supply Unit, which provides supplies for two combat squadrons in the Pacific Theatre.

The young ensign is a former Lamesa High School football and basketball player who entered the Navy when he graduated in 1942.

Service Office Is Moved To The U. S. Employment Office

Headquarters for the Dawson County Service Officer have been moved from the Courthouse to the United States Employment Office, according to R. L. Price, local service officer.

Persons wishing to contact him should take note of the change and go to the United States Employment Office which is located across the street from the First Methodist Church to consult him.

A glass industry was operating in Mycenae, Greece, in the fourth century, B. C.

Cpl. Joe Morris is another of Mr. and Mrs. J. L. Morris' sons in the military service. He is now located in Victorville, California, where he serves in the clerk's department of the Air Corps, and instructs in radar. Volunteering for the service immediately after Pearl Harbor, Corporal Morris first served with the Coast Artillery, taking his training at Camp Callan which is located in California. From there he was sent to Bremerton, Washington, where he remained for a period of one year. Corporal Morris then volunteered for the Air Corps, and has been connected with that branch of the service since that time. A graduate of the high school in this city, Corporal Morris, also attended school in Austin.

MISS GLENODINE ESMOND, TEACHER IN McALLEN, TO SPEND SUMMER HERE

Miss Glenodine Esmond, daughter of Mr. and Mrs. Glen E. Esmond, will return to this city around July 1, to spend the summer here.

She has been teaching home economics at the high school in McAllen.

Pvt. Cecil Blair, son of Mr. and Mrs. Bill Blair and husband of Mrs. Wanda Blair of this county was reported killed April 17, on Leyte. Pvt. Blair was serving with the Infantry and had been overseas two months at the time of his death. He entered service during the first part of this year, receiving his training at Camp Wolters, prior to being assigned foreign duty in the Pacific Theatre of Operations. Pvt. Blair attended school in this county and graduated from Lamesa High School, where he was a member of the football and basketball teams. He is survived by his parents, his widow and baby daughter, two brothers, Carl and William who are also in service, and a sister.

Pfc. Delmer W. Wilson, son of Mr. and Mrs. Cleave E. Wilson of San Diego, California, who formerly made Lamesa their home, has been stationed overseas for the past twenty months. During that time he has served with the Army Engineers in North Africa and India. Pfc. Wilson entered the Army in May of 1942, receiving his training at Camp Abbott, Oregon, and in Pittsburg, California. He is a former student of Union School and Lamesa High School. Prior to entering the service, Pfc. Wilson was employed at A. G. Waugh Company in this city.

Horace Tatum Jr., of Welch Community received his honorable discharge from service through the Army's demobilization plan at the Separation Center at Fort Bliss on June 19.

Council Meet To Be Held Saturday

Mrs. Myrtle Dickie Neely county home demonstration agent, has announced that the home demonstration council will meet Saturday afternoon, June 20, at 2:30 p. m., in the council room located in her office.

Mrs. B. E. Miller, vice president of the organization, will preside at the session.

Mrs. J. H. Adkins, chairman of the scrap paper committee expects to have plans formulated for the collection of a carload of waste paper, and hopes to announce the plans for the project at the Saturday council meeting.

Other business items will be brought before council members which will be of interest to persons belonging to that organization.

Members Of Troop 22 Met On Tuesday

Members of Scout Troop 22 held their regular meeting Tuesday night, June 26, at which time tender foot investiture ceremonies were held for Martin Burkhead and Jim Booth, new troop members.

Two visitors, including Joe Lee Kelly and Raymond Renner, were present at the session.

Rev. Morton To Be Honored At Friday Reception

Members of the First Baptist Church of this city have planned a reception for their new minister, the Rev. Clarence A. Morton, who is moving to this city after serving for eight years as minister of the Ballinger First Baptist Church.

The reception will be held Friday evening, June 29, with the program to be given in the church auditorium, after which refreshments will be served on the lawn.

An interesting program has been planned for the occasion, and it will open at 8:45 p. m., with a song by the audience. A prayer will follow with a religious pageant to succeed that.

The pageant will feature the various departments of the church and representatives of the Deacons, Sunday School, W. M. U., Training Union, Music and the church as a whole will have part in the pageant.

Preceding greetings to the new pastor from local ministers, a special musical program will be heard.

The program will culminate with music and the Pledge of Allegiance to the Christian Flag by the audience.

All Dawson County citizens are invited to attend the reception Friday night.

Rev. Morton is expected to assume his duties as the local First Baptist Church pastor on Sunday, July 1. He is moving to this city with his wife and daughter, Miss Barbara Ann Morton.

Pvt. D. B. Matlock, An Infantryman, Killed On May 30

Mr. and Mrs. S. M. Matlock of Woody Community have been informed of the death of their son Pvt. Denver Bert Matlock, who was killed May 30, on Mindanao in the Philippines.

Pvt. Matlock had been overseas since May 20, of this year and was serving with the Infantry. He entered service eight months ago.

The twenty-five year old infantryman is a former student of the Woody School. He farmed in Woody Community until 5 years ago, when he moved to Houston and accepted employment.

His wife and 3 year old daughter reside in Houston now.

A brother, Joe Wright Matlock is also in the service and serves with the United States Navy. He is presently stationed in the Philippines.

Post Office Box Rents Have Been Raised In Area

Box rent prices have been raised to conform with the operations of the local post office. Owen Taylor, local postmaster, explains that the additional cost has been assessed this area, because the post office receipts here exceed \$40,000, and the office operates as a first class institution.

As long as the office's business was in the \$10,000 to \$40,000 range, rates of 60 cents, 75 cents, \$1.00 and \$1.50 were charged to renters of boxes. Since July 1, 1944 the institution has surpassed the \$40,000 range, and has been operating as a first class office.

Box rents were not raised in July of 1944 because official notice from the post office department to change rates was not received until recently.

Under the new set up 75 cents, \$1.00, \$1.50 and \$2.00 will be charged. The new rates are for the September quarter, including rent on the months of July, August, and September, thereafter.

The local postmaster states that box rents for the September quarter must be paid by July 2.

He further states that there is a shortage of boxes at the post office, and requests that persons desiring to rent them be patient. Taylor explains that until the war ends, no more materials are available, steps will be taken to relieve the shortage.

Last October a sub-station was opened on the east side of town in Powell's Grocery for residents of this area, to help relieve the post office box shortage, but there were not near enough boxes to care for everyone.

Postmaster Taylor states that he is anxious to supply everyone with a box and asks that you be patient until materials are again available.

Subscribers Are Asked To Check Expiration Date

Courier readers are asked to watch the expiration dates on their paper in order that they may not miss a single issue of The Dawson County Courier, your home town newspaper.

In other words, if the number following your name on the paper read 7-45 that means that your subscription will expire on July 1, 1945 and that unless your subscription is renewed your paper will be stopped at that time.

The subscription price of the Courier is \$3.00 a year in Dawson, Martin, Gaines, Borden and Lynn Counties, and \$2.00 for six months. For a limited time only a 2 year subscription will be offered for \$5.00, or you can save one dollar by taking a two year subscription. The subscription price outside this territory is \$4.00 a year, except for men in the armed services which remains at \$3.00 a year.

Pvt. D. B. Matlock, An Infantryman, Killed On May 30

Local Residents Must Buy Hard To Reach Their E Bond Quota Before July 9

Dawson County must buy hard and fast in the next week if it is to reach its E bond quota in the Mighty Seventh War Loan Drive, according to reports received by county chairman Ed Dubose.

He states that the over-all sales are still on the rise in this area until they are approaching the \$800,000 mark, which is well above the over-all quota assessed this area, but E bond sales are still lagging.

He estimates that \$100,000 in E bonds needs to be sold before the \$45,000 E bond quota is reached and reports that all this series of bonds which are accredited to Dawson County in the Federal Reserve Bank in Dallas by July 9, will be county on the quota.

Dubose states that a herculean effort will be made to raise the remainder of the quota.

The Allies are on their way to Tokyo. The United States flag flies once again over Corregidor. The cost was great in blood and pain, but the fighting men did not turn back. And on Iwo Jima, four thousand men and more died to take the long step forward to victory. Twenty thousand suffered wounds.

At home, your contribution to victory is measured in dollars. The Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

The 7th Bond Drive is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans.

As the fighting men raise Old Glory all over the world, you are asked to help raise the money back home by purchasing as many E bonds as you can possibly afford.

Roy Carlisle Has Received His Army Discharge

Released through the demobilization plan, Roy E. Carlisle, received his army discharge papers at the Separation Center at Camp Beale, California, June 11, after serving for 3 years at overseas stations.

Overseas from March 8, 1942 to March 15, 1945, Carlisle served in the Asiatic-Pacific Theatre of War and participated in the battle for the Eastern Mandates and in campaigns in the Western Pacific.

Holder of the Combat Infantryman Badge, the Asiatic-Pacific Campaign Medal, American Defense Service Medal and Good Conduct Medal, Carlisle served as a sergeant with the 165th Infantry Regiment prior to receiving his discharge.

In civilian life, he was a salesman.

Fire Reported At Henningsen's Feed Department June 21

Luther Standifer, local fire truck driver reported that the fire department answered a call Thursday afternoon, June 21, at Henningsen Lamesa, Inc., Feed Department.

The east end of the building caught fire, and damages were estimated at \$15.

The fire occurred at about 5 p. m., and was quickly extinguished.

Ways To Control The Pocket Gopher Given

T. A. Barfield, County Agent states that now is the time of the year that the pocket gopher will be doing most of his damage. He states, "He is indeed a saboteur of the home front, in that he destroys enough food from gardens each year and eats enough to feed a number of fighting men."

Poison grain which is used for getting rid of the gopher can be obtained at the County Court House from the janitor, and a probe used for locating the gopher's runway can be borrowed from your County Agent's office. In a short time, enough seed can be put in the gopher's runway to eliminate him.

A soldier in active service, or a mariner while at sea, can make an oral or unwritten will which is called a nuncupative will or testament.

Plans For July County Wide 4-H Club Meet Given

Approximately 39 were present for the county wide 4-H club meeting held Saturday afternoon, June 22, in the recreation hall at the city park.

The meeting opened with a demonstration given by Mrs. Mabel Phinizy, emergency war food assistant of Dawson and Borden Counties, who presented a study on the control of garden insects and the use of various types of insecticides.

Following this T. A. Barfield, county agent, gave a demonstration on the identification of cotton insects and selected cotton insect reporters.

The meeting culminated with the group playing games.

The next county wide 4-H club meeting has been set for July 28. County Agent Barfield states that the program for that session will be based on farm safety, in keeping with the proclamation published by President Harry S. Truman, who called upon the people of the United States to observe the week commencing July 22, as National Farm Safety Week.

The President is greatly concerned in preventing accidents which would keep men away from work. Accordingly, he requests all persons and organizations working with agriculture and farm life to use all possible means to encourage and help farm people to guard against hazards which might lead to accidents. At the same time he asks people to help build up a nationwide determination to stop the needless waste of farm manpower and property which cannot be replaced during wartime. He also urges that farm people everywhere make National Farm Safety Week the opportunity for a safety check in their home and on their farms.

The July 28th 4-H program will include a team demonstration on farm safety, and in addition instructions will be given relative to a farm safety essay contest.

Drought Makes Crop Prospects Gloomy In County

Prospects for crops in Dawson County this year are gloomy, a situation which has developed from the drought the county is now experiencing.

C. E. Tarter, administrative officer at the local AAA office, reports that only a small amount of the cotton which has been planted will come up, and states that cotton which does come up will die unless moisture is received in the near future.

According to the reports he has received, between 10,000 and 15,000 acres of cotton are already planted and up in the county.

He states, "Unless rain is received in the next 15 days, feed crops will fail here too. Very little feed has been planted thus far. Some farmers residing in areas which received showers last week, planted feed and a percentage of the crops have sprouted. This will die unless it rains, because the roots will soon reach the dry streak just underneath the top moisture."

Administrative Officer Tarter reports that some farmers are planting black-eyed peas, and feel that they can make a crop if moisture is received within a month. Others indicate they will plant black-eyed pea crops if they can secure seed.

Ens. C. Jacobs Is Top Man In His Graduation Class

NAVAL AIR STATION, NEW ORLEANS — Top man in a class at the Navy's renowned school for Primary Flight Instructors in New Orleans was Ensign Charles E. Jacobs of 710 South First Street, Lamesa.

During formal graduation exercises, Ensign Jacobs was presented a certificate as a qualified flight instructor, Commander Charles T. Fitzgerald, USN, commanding officer at the field in making the award stated, "Ensign Jacobs was an exemplary student here. His airmanship and instructional ability were all that could be desired. He now has the important task of training the Navy's future combat pilots. We are confident he will produce many of the world's finest."

Ensign Jacobs is the son of Mr. and Mrs. Alva Earl Jacobs, Lamesa. He attended Texas University, Austin, where he participated in all major sports.

He has been assigned to train aviation cadets at the Naval Air Station, Ottumwa, Iowa.

Local Business Houses To Close On July Fourth

An announcement received this week from the local Chamber of Commerce reveals that a survey has been made of the city to see if business houses would be closed on the Fourth of July.

Officials stated that twenty-five businesses around the square have already indicated that they will be closed the entire day in observance of July 4, 1776 when the Liberty Bell cracked from its enthusiastic tolling of the spirit of freedom.

With twenty-five already indicating their intentions to close, it is believed that most of the merchants will not be open for business July 4.

Elder M. Smith, Is New Pastor For Primitive Baptists

Elder Marvin Smith of Manitou, Oklahoma, has assumed duties as pastor of the Primitive Baptist Church, which is located on the Stanton Highway, approximately twelve miles from Lamesa.

Elder Smith was accompanied to this city by his family, and is making his home just outside the city limits on the Seminole Highway.

Everyone is invited to become acquainted with the new pastor and to attend services of the Primitive Baptist Church.

Saturday Sermon To Be Given By Rev. E. Phillips

Regular Saturday afternoon preaching services were postponed June 23, because of the Bond program held on the courthouse lawn that afternoon.

Mrs. Cal C. Wright and Cal Jr. left this week for Las Vegas for a two months visit.

Ensign and Mrs. Bob Crawley left this week for California after spending the past several weeks here visiting.

Clyde Brandon returned Saturday from Dallas where he spent several days attending to business.

Latest News From COUNTY AGENT

T. A. BARFIELD
County Agricultural Agent

Following is a summary of Texas wheat harvest information received in the office of County Agent, T. A. Barfield.

Combine operators, tractor drivers, and harvest hands are now needed in Hale, Castro, Swisher, Briscoe, Armstrong, Deaf Smith, Randall, Potter, Carson, Gray, Roberts, Sherman, Hansford, and Ochiltree Counties.

The South portion of the Texas Panhandle wheat area is about 75 per cent harvested, with the central area of the Panhandle only about 40 per cent cut and the high plains area of the Panhandle now started cutting.

Oklahoma is now cutting through out the state, as they have been delayed by rains. They report sufficient labor and enough combines except in isolated areas and in the

northern counties of the state.

Mr. E. H. Leker, Assistant Farm Labor Supervisor, Great Bend, Kansas, states that Kansas will probably not need any outside labor or combines before July 1.

The Texas small grain harvest rapidly is moving toward its peak with labor and some combines and tractors needed in several areas. Rains and continued dry weather are making row crop planting spotty.

According to Caesar Hohn, State Farm Labor Supervisor, wheat harvesting commenced in the area north of Amarillo this week. Reports indicate that the grain is ripening rapidly and will be ready for cutting in all Panhandle counties at about the same time. Meanwhile, harvesting is progressing rapidly in the area from Plainview to Amarillo.

Although the demand for labor and harvesting machinery is not as acute as last year, reports to the Farm Labor Office at College Station show that harvest labor is needed in Hartley, Hansford, Sherman, Armstrong, Carson, Gray, Randall, Hutchinson, Potter, Briscoe, Castro, Hale and Swisher counties. Labor for threshing is needed in Coleman County and harvest hands are in demand in Jack County.

Indicating progress, reports reveal that wheat harvesting in Cottle County is ninety per cent completed, eighty-five per cent in Childress and seventy per cent in Archer and practically finished in Baylor. Harvesting of oats also is well advanced with completion reported in the Ballinger, Brady and Coleman areas, and near completion in Concho County.

Although few definite estimates of wheat yields have been received from the fields, it is the opinion of farm labor field assistants that production may be larger than earlier surveys indicated. Farmer County, for example, reported yields ranging from four to 25 bushels an acre.

Weather conditions continued to have varying effects upon the planting of row crops in west Texas. Several counties near the base of the caprock have received good rains, but in others it is still too dry to

JOBS IN THE GARDEN NOW AS ALWAYS

Don't lay the garden by now that hot weather has arrived, for the garden is a year-round enterprise, J. F. Rosborough, horticulturist for the A. and M. College Extension Service, urges Texas' million Victory gardeners.

Where onions have been harvested, these should be bunched and hung up in barn or smokehouse to cure completely. If Irish potatoes show signs of water blisters from remaining too long in wet gardens, these should be spread out to dry in the shade. Rosborough warns they should not be allowed to lie on the ground, however. When they are stored, they should be spread on small poles and covered with hay or pine straw. This will give the needed protection from moist soil.

The space available after potato digging should not be left to harbor weeds which sap moisture and soil fertility, the horticulturist emphasizes. Sweet potato slips or vine cuttings can still be set out, and okra and black-eyed peas can be planted now. Late corn, lima beans, bush beans, and late watermelons all are worth a trial. Where moisture is sufficient, Rosborough suggests growing tomato plants for fall production. Rutgers, Marglobe, and Pritchard are the varieties recommended. The Porter tomato is also good if seed are available.

Corn planted now should be a drought resistant variety, such as Honey June or Indian. In East Texas, collards can be planted for October greens, and fall pumpkins and cushaws also will withstand hot weather.

Just now, Rosborough says, the observant gardener will realize the need for a compost heap for his garden. This home-made humus helps keep soil from packing and vegetables from burning under the summer sun. It also helps plants bear fruit more quickly.

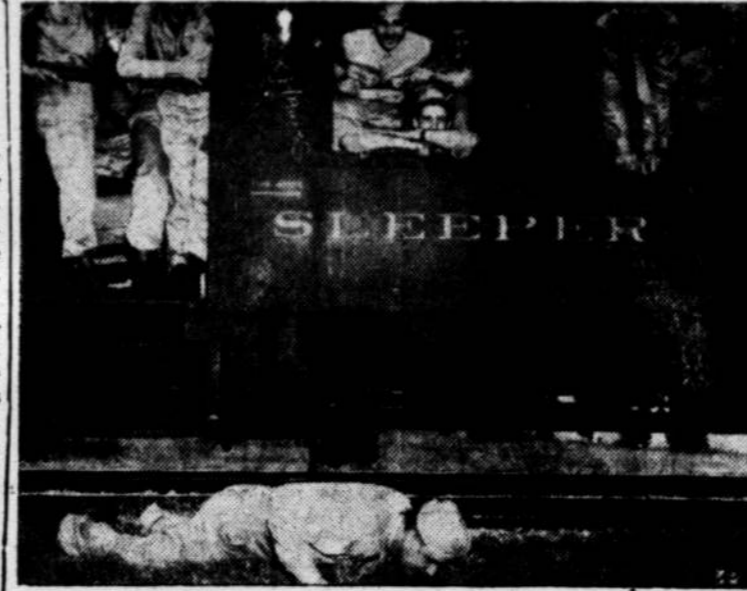

TEXAS Wheat HARVEST IN FULL SWING

In the week ending June 23, the Texas wheat crop was falling before the sweep of a big army of combines, with prospects for a greater total yield than earlier reports of condition had indicated.

According to information from J. B. Kidd, farm labor field assistant at Plainview, to Caesar Hohn, state farm labor supervisor, every county between Plainview and Amarillo called for more combines and laborers at the beginning of the week. At that time harvesting from Crosby County northward was in full sweep, Kidd reported, with more acreage likely to be cut than has been expected previously. Moreover, the wheat being cut was producing more grain than earlier forecasts had promised. Laborers were coming into the area from the south plains where it still was too dry to plant row crops, and were supplementing the contract equipment with small combines from their farms. By the end of the week, Kidd estimated, combines would be slashing the stands of wheat in Hansford and Ochiltree counties. These are likely to be among the heaviest producers in the Panhandle.

The Extension farm labor office in Kansas is routing many combines to the Texas high plains, and Kidd believes enough machines would be received from that source to relieve the shortage. The situation in the Panhandle was complicated by less acreage abandonment than had been reported, and by a larger number of farmers than last year seeking contract harvesting. Kidd reported, however, that with combines and labor from northern states reinforced by combines moving north from the completed harvests in the Crosby and Floyd regions "we will be in position to take

plant. Howard County has received enough rain to start on row crops. On the other hand excessive rainfall last week retarded farm work and damaged crops in parts of North Texas, while hail and grasshoppers have left a trail of damage to crops in Taylor County.

TEXAN KISSES NATIVE SOIL—Pfc. Thomas J. England of Waco could hardly wait to kiss that good old Texas soil as he arrived at Fort Sam Houston with Members of the 86th Division. (AP Photo from U. S. Signal Corps).

care of the situation in good shape." According to Kidd, the rain on June 16 was not widespread and at this time the Panhandle and south plains have not received sufficient moisture to plant row crops.

Vast Nazi Records Give Army Picture

By LOUIS P. LOCHNER

AP Newsfeatures
SAALFELD, Germany — The human cost of Hitler's lost war of conquest — the millions of dead, maimed and missing German soldiers — soon may be closely de-

termined from German army archives which came into Allied hands.

Included also in the bulky records are Allied prisoner lists from which it will be possible to trace many Allied soldiers whose whereabouts are unknown. The prisoner records were taken to nearby Meiningen where 500 German clerks, working under Allied supervision, are sorting them according to nationalities so they can be sent to the government concerned.

The only big gap in the records is for those German soldiers who fell on the Russian front, many of whom are not listed. Filing an estimated 8,000,000 to 12,000,000 cards, the records are

Subscribers Are Asked To Check Expiration Date

Courier readers are asked to watch the expiration dates on their paper in order that they may not miss a single issue of the Dawson County Courier, your home town newspaper.

In other words, if the number following your name on the paper reads 7-45 that means that your subscription will expire July 1, 1945 and that unless your subscription is renewed your paper will be stopped at that time.

The subscription price of the Courier is \$3.00 a year in Dawson, Martin, Gaines, Borden and Lynn Counties, and \$2.00 for six months. For a limited time only a 2 year subscription will be offered for \$5.00, or you can save one dollar by taking a two year subscription. The subscription price outside this territory is \$4.00 a year, except for men in the armed services which remains at \$3.00 a year.

arranged according to army units and other groupings, which will be instructive to the Allies in their post mortem of the German war machine.

It also will be possible to find who served under the immediate orders of the top Nazis — who, for instance, was at Hitler's headquarters, both officers and enlisted men.

The bulky archives were kept in Berlin. But when things got too hot in the capital early this year, the nearly 2,200 tons of files were loaded into 145 freight cars and hauled out here on the Thuringian plain, about 150 miles southwest of Berlin.

Material concerning German soldiers alone fills six barracks blocks.

Lt. and Mrs. Jim Neill left this week for Fort Dix, New Jersey after visiting here this past week with Mrs. J. H. Clark.

Mrs. Don Altman will leave Saturday for her home in Iowa after visiting here with her parents, Mr. and Mrs. J. C. Hart.

Pfc. Sheldon Hawkins and wife of Almagordo, New Mexico will spend several days here this next week visiting with her mother Mrs. Ola Tinkler.

Mr. and Mrs. W. A. Edgmon and Mrs. J. J. Taylor spent the past week end in Lubbock visiting with relatives.

THE THIEF ON THE CROSS. Luke 23:39-43

I. He Realized He Was Condemned

Verse 40.
1. He that believeth not is condemned. John 3:18.
2. He that believeth on him is not condemned. John 3:18.

II. He Admitted That He Was a Sinner

Verse 41.
1. All have sinned and come short of the glory of God. Rom. 3:23
2. For there is not a just man upon the earth that doeth good and sinneth not. Eccl. 7:20.

III. He Admitted That He Deserved Punishment

Verse 41.
1. He had violated the law of man and deserved punishment.
2. He had broken God's Law, therefore deserved punishment.

IV. He Admitted That Christ Was Innocent

Verse 41.
1. Christ came, not to destroy the law, but to fulfill it. Matt. 5:17.

Some Lessons We Learn From This Story

I. Christ Can Save The Vildest Sinner

1. The thief had broken man's law and God's Law.
2. Paul said, "Christ Jesus came into the world to save sinners, of whom I am chief. 1 Tim. 1:15.

II. Salvation Can Be Had In A Moment of Time

1. "TO-DAY shall thou be with me in Paradise. Verse 43.
2. THIS DAY is SALVATION come to this house. Luke 19:9.

III. Salvation Is By Faith In Jesus Christ

1. Believe on the Lord Jesus Christ and thou shalt be saved. Acts 16:31.
2. Thy sins are forgiven... Thy faith hath saved thee. Luke 7:50-52.

2. 'He had done no violence.' Isa. 53:9.

V. He Believed That Christ Could Save Him

Verse 42.
1. 'Wherefore he is able to save them to the uttermost. Heb. 7:25.

2. For he that cometh to God must believe that he is, and that he is a rewarder of them that diligently seek him. Heb. 11:6.

VI. He Committed His Soul Into Christ's Care.

Verse 42.
1. This was all he could do, because he was nailed to the cross.
2. He could not keep the Law, reform his life, observe any ordinances, get into any church, be baptized, or perform any good deeds. All he could do was to trust in Christ. That was sufficient for Salvation. "Believe on the Lord Jesus Christ and thou shalt be saved. Acts 16:31.

IV. Where Saved People Go At Death

Verse 43.
1. TO-DAY shall thou be WITH ME.
2. Paul said, "Absent from the body—Present with the Lord."
2 Cor. 5:8. Wherever Christ is will be Heaven to his people.
V. Our Boys On The Battle Field Can Be Saved Wherever They Are
In the air, in foxholes, on the sea, or anywhere else that they call upon God. One man said, "God be merciful to me a sinner. Luke 18:13. Our men in Service are not criminals, but Military HEROES, yet they need Christ and can have Him as their Saviour wherever they are.

Whoever Shall Call Upon The Name of the Lord Shall Be Saved. Rom. 10:13

Why Phillips is Today One of the Country's Greatest Producers of Butadiene for Synthetic Rubber

The fast-rolling truck pictured above is one of the famous "Red Ball Express" that kept the supplies rolling across France in the wake of the victorious Yanks.

But that truck also represents one of the biggest headaches tire men—and oil men—have had to face in this war!

You see, our synthetic rubber program has had to overcome more than the lack of raw rubber from the Jap-held East Indies. It has had to cope with a fantastic demand for tires for Army trucks and other vehicles.

Why is that demand fantastic? Just imagine speeding along roads pitted by shellfire and sprinkled with shrapnel... hub-deep in mud, or rutted in frozen ridges. Under those terrible conditions, tires have become frayed and useless at an appalling rate.

That American industry has been able to meet this terrific demand for all-important truck tires is due, to a great extent, to companies like Phillips.

For long before Pearl Harbor, Phillips scientists foresaw the possibilities of butadiene in producing synthetic rubber. As a result, when the blow fell at Pearl Harbor, Phillips great research and production facilities were ready to step into the breach.

Today, the Phillips 66 Shield stands for one of America's leading producers of butadiene for synthetic rubber... as well as a great producer of 100-Octane Aviation Fuel, and an almost endless list of newer and better products from petroleum gases and petroleum.

THE CHURCHES OF CHRIST SALUTE YOU. Rom. 16:16 "Ye Must Be Born Again." Jno. 3:7 "He that BELIEVETH AND IS BAPTIZED SHALL BE SAVED. Mk. 16:16 "Except a man BE BORN OF WATER AND OF THE SPIRIT he cannot enter." Jno. 3:5 The new birth is explained in Acts of Apostles.—(Were they Saved the Moment they Believed?) (a) THE THREE THOUSAND ON PENTECOST. Acts 2. The Holy Spirit guided the apostles to PREACH JESUS CHRIST unto the people—When the people heard the message they were "PRICKED IN THEIR HEARTS" (believed it). They asked, "WHAT TO DO?" and Peter, guided by the Spirit, said, "RE- PENT AND BE BAPTIZED... FOR THE REMISSION OF SINS."—Three thousand OBEYED THIS MESSAGE and were added to the CHURCH. They were BORN AGAIN—BORN OF WATER AND OF THE SPIRIT—REGENERATED.

Newsprint Shortage Turns The Swiss Yodel To A Howl

By ERNEST G. FISCHER AP Newsfeatures BERNE—Suggestive of the heated discussions about newsprint rationing in the United States, the Swiss government and the Swiss press have been taking potshots at each other over the reduced newsprint supplies in this country.

Effective last May 1 available newsprint was cut to 60 per cent of normal. Daily newspapers now are of six or eight pages, Sunday issues up to 16.

The government made a deal with France whereby Switzerland, normally a newsprint-importing country, agreed to export newsprint to France in return for certain raw materials. France needed newsprint for the dissemination of information, it was argued; democratic reconstruction there was Switzerland's interest.

"What about us?" the press retorted in unison, declaring that they, too, were public servants and guardians of liberty.

Zurich newspaper, Die Tat, said that to the bureaucrats "the daily press is the same as a cheap novel or a horoscope sheet."

Actually the coal shortage and the reduced electrical energy during the winter months are major factors in the country's paper shortage. Switzerland normally uses about 81,000 tons of coal for the annual production of 150,000 tons of paper and pasteboard. The coal quota for those factories was cut to eight per cent.

That meant that most paper mills had to be converted to the use of electricity. But the production of electrical energy is low during the winter. Then the summer production of paper has to be doubled in an effort to keep up with consumption.

In addition to those difficulties, fire destroyed a huge warehouse of paper in Basel.

EVER SEE RED POINTS CLEANING STREETS? CHICAGO (AP) — Keeping all of Chicago alleys free of garbage poses quite a problem. From one civic organization came a denunciation of "filthy" conditions and a suggestion that part of the clean-up job be assigned to pigs and goats. But, after mulling over the idea, cooler heads raised a question. Who, in times like these, would protect the roving animals from carnivorous citizens?

MIAMI, Fla. (AP) — The Army is erecting a "city" of 250 hutsments and 124 tents at the Army Air Transport Command's field here to house part of the 50,000 veterans expected to return monthly by plane from overseas. The "city" will house more than 2,000 men at a time. They'll be here about 24 hours before being sent to Camp Blanding, Fla., and from there to reception centers near their homes.

ARMY BUILDS 'CITY' FOR RETURNING VETS

MIAMI, Fla. (AP) — The Army is erecting a "city" of 250 hutsments and 124 tents at the Army Air Transport Command's field here to house part of the 50,000 veterans expected to return monthly by plane from overseas. The "city" will house more than 2,000 men at a time. They'll be here about 24 hours before being sent to Camp Blanding, Fla., and from there to reception centers near their homes.

T-Sgt. B. Williams Gets Bronze Star For His Services

FIFTH AIR FORCE, PHILIPPINE ISLANDS — Gunner on a B-25 with the 345th Bombardment Group "Air Apaches," a veteran low level attack unit of the Fifth Air Force, Burnie L. Williams, 20, son of Mr. and Mrs. Burnie Williams, Star Route 2, Lamesa has been promoted to Technical Sergeant.

Sergeant Williams, who has flown 23 missions against the Japs, was awarded the Bronze Star Medal for "meritorious service" last October after a Jap suicide plane dove into a U. S. Transport ship in a Philippines harbor. The resulting explosions of bombs and plane killed and wounded several men, and set fire to the forward hold. Despite the danger from flames, and possibility of further attacks, the Lamesa airman joined other rescuers in the burning hold and helped remove injured and fight fire, thus saving lives and preventing possible destruction of the ship.

Formerly attached to Fifth Air Force Headquarters, Sergeant Williams served in New Guinea and in the Netherlands East Indies. Since joining the Air Apaches, he

participated in the Philippines campaign, and has flown on long range strikes against Jap shipping in the South China Sea and Formosa areas.

A graduate of Sparenberg High School, Sergeant Williams was a sales clerk in a Lamesa dry goods store before entering the Army in June, 1941.

Levelland Rodeo To Open Tuesday, July 3

The annual rodeo, sponsored by the Levelland Rodeo Association, will get underway at the rodeo arena in South Levelland at 3 p. m. Tuesday, July 3, with other performances scheduled for 9 p. m. Tuesday and Wednesday night and 3 p. m. Wednesday. A parade in downtown Levelland is set for Tuesday and Wednesday at 10:30 a. m.

The rodeo contest will include bulldogging, bronc riding, calf roping, team tying, square dancing on horses, a sponsor contest for girls up to eighteen years of age, and a senior contest for girls over eighteen. A feature of the show will be an exhibition ride by David Powell, an 80-pound youngster, on a brahma steer. In addition dances will be held and chuck wagon meals will be served.

Riddles were known to the ancient Egyptians.

MISS PHOTOGRAPHY—Miss Maie Lee Ng (pronounced Ing) of San Antonio is "Miss Photography" of the University of Texas. She was chosen by camera club members as the best all-around model for photography at the university.

Freeze Your Extra Vegetables In The Refrigerator

If garden peas, beans or greens get ahead of family appetites now and then, a small quantity may be held over in the freezing compartment of the home refrigerator, according to Mrs. Winifred J. Levenenz, specialist in food preservation of the A. and M. College Extension Service.

For the finest eating quality, garden vegetables must be gathered when they reach just the right stage of maturity and tenderness. Left in the garden beyond this stage, they lose flavor and food value and become tough. Gardeners will be wise to pick all vegetables when they are just right, even if there are more than the family can use on that day. The extras may be frozen and kept in the refrigerator for meals a few days ahead.

Wash and prepare the vegetables as for cooking. Put them in a cheese-cloth bag and dip in boiling water for the length of time recommended for freezing in lockers—approximately two minutes. Then cool immediately by dipping

NO-HIT QUEEN — Mrs. Jo Kennedy, Fort Worth's no-hit queen of softball, has pitched two games this season in which the opposition didn't get a bingle or a run. But it's old stuff for the wife of the Tarrant Field corporal. In nine seasons she has hurled 63 no-hit games. She pitches for an aircraft corporation team.

A SHOT OF OIL
NEW YORK (AP) — An extra drop of oil the size of a pin-head can spoil the efficiency of a \$12,000 torpedo, according to Carl G. Preis, general manager of the American Can Company's Ameritop plants. The course of the torpedoes is directed by gyroscopes, so delicately adjusted they are oiled with hypodermic needles.

Every Liberty ship has its own distillation system to make sea water drinkable.

Board Re-Classified Local Group Tuesday

The local selective service board met Tuesday, June 27, and re-classified the following group of men: Robert Castillo is 1-A.

Men classified 1-C included include Theodore Pearce, Noble Brower, L. D. Bingham, Calvin Lauderdale, Buddy Winter, Frank B. Nichols, Gene C. Stealy, Ricardo Bela, J. Todd, Arlene Roberts, James Martin, Ignacio Vargas, Winford Ham.

Robert McLean is 1-C discharged, as is Otto Lisenbee.

J. B. Gresham is 2-A, James Wilson and L. W. Rifeout are 2-B. Herman Coon and P. J. York are 4-F. Troy Plew is 4-F discharged.

In the fifth century, the Venetian Republic became the world leader in the glass industry.

Junior Baseball Club Played In Lubbock Sunday

Members of the local American Legion Junior Baseball Club were in Lubbock Sunday afternoon, where they played a match with the Lubbock Club. The local team played the second game in a double header which was opened with a match between Shallowater and Lubbock.

Lubbock's group won over the Lamesa team with the final score standing at 11-1. Officials state that Lubbock will probably play a return match and come to this city in the near future.

J. R. Bizzell and George Hart of the local club did the pitching Sunday afternoon, with Homer Rippey and W. L. Patterson doing the catching. The game Sunday provided everyone of the local boys making the trip a chance to participate.

The match did not affect the standing of the Lamesa Junior Club, as this city is in a different district from Lubbock.

Joe Spikes, manager of the local team, states that an effort is being made to arrange to have the district 3 tournament for American Legion Junior Baseball Clubs played in this city. The tourney will be played sometime between now and July 15, and San Angelo and Ballinger will be competitive teams.

In case the Lamesa boys should win the district title, they would play in the division tournament which would involve teams from the Lubbock, Abilene, and Alpine districts.

The musk ox has no muck, and is not an ox.

PEACHES ADD VARIETY TO SUMMER MENUS

With prospects bright for a big peach crop this summer, homemakers can add variety and interest to their meals for the next few weeks by use of fresh peaches in their menus, says Miss Edith Lawrence, specialist in food preparation for the A. and M. College Extension Service.

Yellow peaches are not only delicious, but they also furnish a fairly generous amount of Vitamin A. All peaches contain some Vitamin B and compare favorably with strawberries, cantaloupes, plums and pineapples in Vitamin C content.

It is desirable to serve at least two fruits in each day's meals, and peaches particularly lend themselves to simplicity in serving. One of the best ways is to wash them, arrange them in a wooden, glass, pottery or silver bowl and serve them as a beginning course or as a dessert. For dinner, serve them in a peach chiffon pie made with corn syrup. Peach crisp is a quick, easy dessert, and peach cobbler or shortcake are old and favorite recipes. For supper serve the family frozen peach salad, or cottage cheese salad with peaches.

Miss Lawrence suggests an excellent recipe for a cottage cheese salad mold with peaches: Soften one envelope gelatin in cold water. Place bowl over boiling water and stir until gelatin is dissolved. Mash two cups cottage cheese very fine, add one-eighth teaspoon paprika and three-fourths teaspoon salt for seasoning, one-half cup cream or milk and the gelatin. Turn into ring mold that has been rinsed in cold water. Chill. When firm, unmold ring on lettuce. Fill center with peaches and serve with a favorite dressing.

For peach crisps, place sliced peaches in a buttered baking dish. Cover with one-half cup corn syrup. Mix one cup sifted flour, one teaspoon cinnamon, one-fourth teaspoon salt, one-half cup butter and one-fourth cup corn syrup together and spread over peaches. Bake in moderate oven (about 350 F.) for 45 minutes. (Honey is very good used in place of syrup).

Garlic salt will put zest in summer salad dressings.

W. L. Holt Grocery & Market Able To Fill Your Needs

The difficult season of meal planning is just ahead, and the wide variety of foodstuffs offered every day at W. L. Holt Grocery & Station will make your job of providing for meals a pleasure, rather than a worry.

The grocery department has recently been re-arranged to add to the patron's convenience. Additional space has been added and more shelves have been constructed for display purposes. You will find the store neat and clean and a convenient place to trade.

There are plenty of meal ideas in the wide selection of foods there. All types of staple groceries, canned goods, meats, fresh fruits and vegetables are included in their stock. Bakery goodies can be had fresh daily, and the firm receives

Brands That Are Your Assurance Of Quality Stocked At Waugh's

Good news to Dawson County residents is the fact that A. G. Waugh Company is receiving additional shipments of parts and merchandise for their stocks regularly. A. G. Waugh owner of the firm, reports that the store now carries a more complete line of merchandise than it has since the war opened, a fact which he contributes to the release of a number of articles which have been frozen enabling the manufacturers to make them available for the public once again. He states that there are still shortages in some lines of merchandise.

You will want to visit A. G. Waugh Company, which for more than two decades has been a leading store in this territory, and to inspect their store thoroughly, visiting every department and seeing for yourself how fully they are prepared to cater to your every require-

fresh plums, peaches and pineapples for their customers.

They stock Northrup seeds for persons planning to plant gardens and can provide you with all types of vegetable garden seeds.

Recently W. L. Holt, owner of the firm, built two apartments near his grocery business, which he is renting. His plans are to construct two others in the future. The apartments are 12x18 feet each, and include a 10x12 foot bedroom, and 8x8 foot kitchen and a bath.

Persons renting these find them most convenient, as they are located near his combination grocery business and filling station.

At his filling station, Mr. Holt sells Humble products, and you can get your car serviced with quality gas and oil there at all times. In addition to this nice assortment of car accessories are stocked.

The W. L. Holt Grocery & Market is open to serve you seven days a week. If it's meats, groceries, or anything else for your table, you can be assured of satisfaction if you buy at their grocery department. If it's car service you need, you can rely on them for the best in gas and oils.

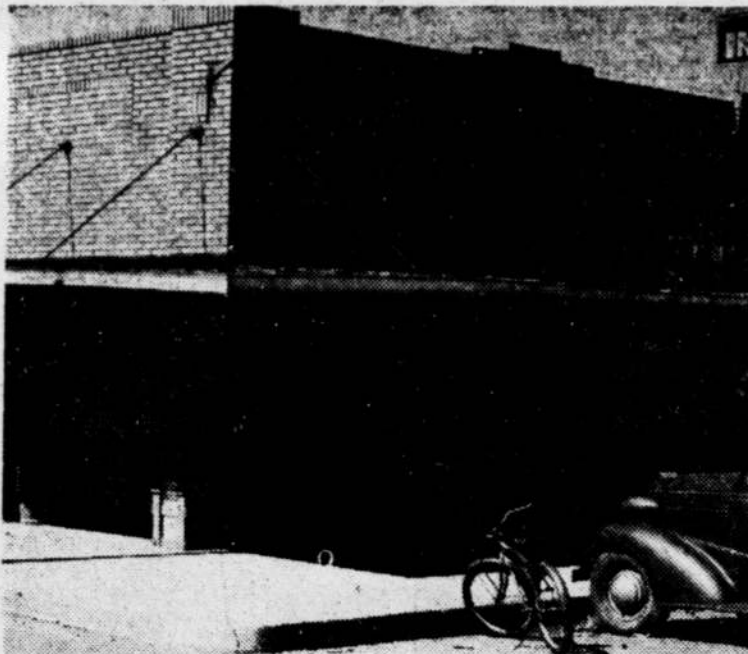

Shop at the W. L. Holt Grocery & Market with pleasure and safety.

ment in parts and accessories. Observe the merchandise they carry and notice the nationally-advertised brands they display—brands that are your assurance of quality merchandise.

Among their stocks are Bonney tools, Timken bearings, Fram Oil filters, Fram cartridges, Casite, Simonize and Johnson car polishes and wax, Surety Hand Soap, Alemitte and Lincoln grease guns, Duco automobile paint is available there also to freshen up those old cars which have become scuffed and worn from their years of service.

Other quality articles sold there are clutch parts, axle shafts, springs, water pumps and parts, fuel pumps, Gates fan belts, radiator hose, fuel lines, fittings, brake linings, parts and fluid, pistons, valves, connecting rods and main inserts, gaskets, hand tools, sockets, chisels, punches, hammers, wrenches, paints and enamels, mufflers and tail pipes, seat covers, and work clothing.

Make A. G. Waugh Company your headquarters for anything in the parts and accessory lines—and don't fail to call on them for information and any other help they are able to give.

E. W. Renner who manages Lamesa Creamery which is pictured above, reports that sugar shortages will cut the output of ice cream, but asserts that despite the shortages the quality of Espuella Ice Cream will not be affected. He also gives the outlook for the butter and milk programs and reports that he feels that the dairy business will continue to operate in a successful manner in the pre-war period.

Shortages Will Not Affect The Quality Of Any Espuella Products

E. W. Renner, manager of Lamesa Creamery which handles Espuella products, reports that effective July 1, restrictions on the production of sugar will be enforced. Under the new set up he explains that sugar for ice cream output will be 50 per cent of what it was in 1941, a cut in the previous allotment of 70 per cent. Some are finding it impossible to buy sugar now even though they have coupons for purchases.

Mr. Renner further states, that at present there is a shortage on the market for sugar substitutes such as syrup and honeys. "For these reasons," he explains, "citizens cannot expect too much ice cream for the next three months, as sugar must be used for more necessary purposes than the manufacture of ice cream."

It will be good news to the public to know, however, that what Espuella Ice Cream they can buy will be of pre-war quality and will afford that same delicious taste that has been theirs in the past with every dish of Espuella Ice Cream.

The drought in Dawson County has caused a below average production in milk at a season when there is usually a surplus, according to the manager of Lamesa Creamery. He states that if the county receives sufficient moisture in the near future, he anticipates that the milk supply for this area will be normal by Fall.

Butter sales during the past week have slowed up, which is accredited to the fact that 24 points are needed with the purchase of each pound of butter. The cut in sales has resulted in an adequate supply of this dairy item.

In connection with the butter situation, Mr. Renner states that for the past few months the producers have received a subsidy payment of 17 cents per pound for butter fat, which equalizes their feeding costs in their butter production programs. He states that the creameries receive a 5 cent subsidy payment per pound in butter manufacture, which helps to hold the market price of butter at its present level. He points out that with the producer receiving a subsidy payment of 17 cents, the creameries a subsidy payment of 5 cents, and with the price of butter set at 50 cents, it means that an actual pound of butter is 72 cents per pound.

The local manager states that the creamery business has continued to operate through good and bad times and reports that he feels the dairy business will be in good condition a number of years after the war, and that the problems which arise will be cared for in a successful manner.

Details Of Pfc. B. Aten's Death On Iwo Jima Given

Editor's Note: Details of the death of Marine Pfc. Buford Aten were received recently by his parents, Mr. and Mrs. G. C. Aten in a letter written by Charles H. Cole of Cleburne, Pfc. Aten was reported killed February 18, 1945 on Iwo Jima, where he served with the 28th Division which captured Mt. Suribachi on Iwo Jima and raised the flag on the volcanic mountain. At the time of his death Pfc. Aten had been in service 2 years. He had served on Iwo Jima for a period of 8 months, and had served in the Pacific area for periods of from 3 to 6 weeks on several occasions.

Holder of the Purple Heart with 3 combat stars, Marine Pfc. Aten was a graduate of O'Donnell High School. He had attended Lamesa High School, and while a student there, was a member of the Golden Tornado Football team. He lacked just 5 days being 21 years of age at the time he was killed. His parents read in the paper recently about the son of Charles H. Cole of Cleburne being on Iwo Jima at the same time their son was killed, and wrote Cole a letter. Below is printed the communication which they received in answer to their letter which relates some of the details of the death of Pfc. Aten: June 7, 1945

Mr. and Mrs. G. C. Aten, O'Donnell, Texas.

Dear Friends: We have just received a letter from our son with the 28th Marines in which he answered our questions about your son, Buford. Charles said, "I can't tell you why it is but we don't look on death in combat like we do at home." With that information, he said he would not write to you, but he would in time receive full details relative to your son from the government. Charles knew Buford but they had never been closely associated. Some of his Corpsmen friends knew him well. He asked some of them to write you but they felt as he did about it. He talked with the Corpsman who was with Buford at the time of his death and he gave us this information to pass to you. It was early one morning as some Marines were knocking out a Jap pillbox that your son was shot through the head. He never knew what hit him. He suffered no pain. By your son and his buddies knocking out this pillbox they were enabled to reach their objective. That was the morning the Marines fought their way across the island in two and one-half hours, cutting

For Feet That Sweat With Offensive Odor
Emerald Oil Must Give Complete Satisfaction or Money Back

Don't wait another day. You can remove the disagreeable odors quickly with a few drops of this powerful penetrating Antiseptic Oil. Drugging everywhere who know, say that Emerald Oil is the speediest and most effective preparation they have ever handled for such perspiring, ill-smelling feet. The very minute that this wonderful foot balm touches these sore, tender, aching feet, you will get relief. It's simply amazing how quickly it acts, and no matter what others may tell you, there's nothing just as good.

McCALL PARSONS DRUG

All Laxatives Are Not Alike

THANKS

We have sold our business. The Home Oil Company to the Westex Oil Company and will not be in business any longer.

We want to thank our many friends who have patronized us during the many years we have been in business in Lamesa, and will ever feel grateful to you for the part you had in helping us make the success in business that we have.

MR. and MRS. ED ANDERSON

off Mt. Suribachi. I trust this small bit of information and the fact that your son was spared the long hours of suffering that comes to so many, will in a way lighten the grief that is yours in this loss. Our sympathy and prayers are with you in these sad hours. Of course we do not know just what it means to lose a son in the war, but we do know what it means to spend sleepless nights for fear of what the day will bring. May we at home live worthy of the sacrifice our sons are making that we might live in a Christian Democracy. We have a very dear friend whose home is O'Donnell. She is Mrs. Ethel Everett. If you ever see her, remember us to her. Yours, Charles H. Cole.

SAND Julia Grayson

We invite all to church Sunday as Brother Aslin will preach. Mrs. Roy Brooks and James Royce and Lean Rae Nichols spent Sunday with Mr. and Mrs. Alvin Menix.

Mrs. Alva Lee and Charlotte of Denver, Colorado are visiting in the Grayson and Lee homes for a few weeks. Mrs. Jude Smith and baby of Houston are visiting Mr. and Mrs. C. K. Smith.

Mrs. Calvin McGuire has returned home from Gulfport, Mississippi where she visited with her husband, Mr. and Mrs. V. A. Welty and baby spent Monday afternoon with Mr. and Mrs. Fitzgerald.

County Home Demonstration Agent
MABEL TUCKER PHINIZY

Emergency War Food Assistant
Eggs are becoming more and more important in meal-planning, and while the supply is plentiful, they are welcome additions to the diet, as they are rich in vitamins, minerals and protein. They are adaptable, too, and may be served in a variety of ways, and though they are regarded as a breakfast dish, they are easily adaptable to lunch and dinner menus.

Suggestions for variations of the egg theme in menu-planning: Instead of the traditional cheese soufflé—try a vegetable soufflé using minced onion, finely chopped green pepper, chopped celery and diced cooked vegetables such as peas, asparagus, or snap beans folded into the beaten eggs.

Custards make a good main dish, too. Leave out the sugar, vanilla and nutmeg, and use meat broth or vegetable liquid in the place of part or all the milk. Then serve with a vegetable plate.

Eggs make a good stretcher for meat when used in quick egg noodles cooked in meat broth. Beat one or two eggs with a little salt until they are foamy. Blend two tablespoons of flour for each egg, and pour the batter in a steady stream into the simmering broth. Cook the noodles just two minutes. Homemakers will find that with planning and ingenuity on their part, their families will enjoy these egg dishes, and at the same time get their required daily protein requirement for good nutrition.

'SKY' IS RESTORED
NEW YORK (AP)—Those New Yorkers who don't have much chance to see the full panoply of the night heavens from the canyon-like streets of their home town are able once more to get a synthetic view. Illuminated starry skies spread across the vaulted ceiling of Grand Central Terminal, 118 feet above the grand concourse, have been repainted for the first time in 32 years. It was a 10-month job.

There are 60,000,000 radio sets in use in the United States.

Local 4-H Insect Reporters Are Selected By Agent

Each year the 4-H club boys of Texas have helped in controlling cotton insects by reporting infestations from each community. This work will be carried on again, and the boys who participate will each receive a certificate in recognition of their work.

The following boys have been chosen by County Agent, T. A. Barfield to serve as insect reporters for Dawson County: Donovan Phipps and Leon Archer from Grandview; Douglas Yates and Adell Crumpler from Lamesa; Corkey Grissom and Edd Lauderdale from Sparenberg; Harold Hancock from Woody; Wayne Popnoe and Robert Isaacs from Harmony; Jeff Raney and Jack Henley from Dawson; Charles Fields from Klondike; Leland Miller from Union; James Billingsley and J. P. West from Ackery; Paul Crow and Bobby Hawkins from Key; and Ben Mac Dopson and James Fillpot from Hancock.

Destructive insects levy a tax upon cotton farmers even before the public tax collector gets around. But, according to Paul Gregg, entomologist for the A. and M. College Extension Service, growers do not have to pay it if they follow proven methods of insect control recommended by the Extension Service of A. and M. College. Extension publication C-142, "Guide for Controlling Insects," which may be obtained free from the county agricultural agents, gives details for controlling boll weevils, flea hoppers, leafworms and other pests.

It is estimated that these insects cost the farmers of the Cotton Belt something like two hundred and thirty million dollars yearly, or an average of one hundred and forty-five dollars each. Dusts, of course, are an expense to cotton growers, but it has been demonstrated that this outlay represents a profit when placed against the loss which might occur if no control measures were used, according to Gregg.

"It is especially necessary to save every item of food possible this year," Gregg states, "and cotton is one of the most important sources of food and feed. Cotton insects destroy a vast amount of both yearly. It is estimated that nearly three hundred million pounds of cottonseed oil, urgently needed for rationed shortening, and other foods are lost each year in the cotton growing states because cotton crops are not well protected against insects. Moreover, about eight hundred and fifty million pounds of cottonseed meal and cake, needed to produce scarce, rationed meats, also are among the toll which weevils, worms and flea hoppers take from the farmers' field each season."

He continues, "The large amount of cottonseed hulls, and cotton linters and cotton fiber also destroyed in the fields as the pests feed on the growing plants emphasizes the importance of a good control program."

Gregg recommends laying in a sufficient supply of insecticides as the first step toward control, and then using them promptly when needed. You can also consult your county agricultural agent for ways to save as high a percentage as possible of your cotton crop.

FSA Families Asked to Salvage All Waste Fats

The 80 families of Dawson and Borden counties are urged to cooperate with the Farm Security program this week by lending their support to War Food Administration and OPA in a vigorous fat salvage campaign, according to William D. Mitchell, FSA Supervisor, in Lamesa.

Recent reduction in raw materials for civilian supplies of margarine, shortening, and other cooking oils intensifies the seriousness of the fats and oils situation. Needs for high explosives in fighting the Japs and for other essential war items are greater today than ever before. FSA families in these counties can set individual goals by turning in as much waste fat as possible during the next three months. Also Mitchell is requesting that any breakdown in the salvage campaign be reported to the County Agent or FSA office. Merchants who are unable to get containers for the waste fat may contact these of-

fices, and families should encourage their merchants to participate by serving as depositories. The young people of FSA families can cooperate through the 4-H Club and the Future Farmers of America to do their part in the drive. "Many youngsters, now that schools are out, can use the time they are not needed in farm work in salvaging fat for war needs."

Safe And Sane Burma-India Air

LONDON (AP)—A world safety record is claimed by the India-based R.A.F. transport command which flies a daily average equal to the circumference of the earth in maintaining internal services for India and Burma.

In 78,500 hours flying over eleven million miles, only four fatalities occurred. During the past fifteen months the transport group has carried 100,000 passengers, 15,000,000 pounds of freight and nearly 5,000,000 pounds of mail over an 18,000-mile route.

To get some idea of the distances involved, a flight from Delhi to Rangoon equals London to Moscow.

Do "Plate-Sores" Bother You?

If your "GUMS" itch, burn, or cause you discomfort, druggists will return money if the first bottle of "LETO'S" fails to satisfy. (6) CLARK-McDONALD DRUG

BLUEPRINT
for peace
IN THE KITCHEN

The new Modern CP Gas Range will offer a solid foundation for that New Freedom Gas Kitchen to be planned, come the peace. In it you'll find every modern convenience that your heart could possibly desire. It'll be beautiful to look at—that's a certainty. It'll cook, bake, broil, fry, saute, cook the "waterless" way and do everything else that you've ever wanted a range to do. That's a promise made to you by the manufacturers of the new CP gas ranges.

About all you can do now is to dream, but after peace has come, you will be glad you included the new Modern CP Gas Range in your New Freedom Gas Kitchen, and that you bought War Bonds to make that dream come true.

West Texas Gas Company

When the thermometer sizzles, when the pavements melt, and when your feet throb... then you'll need the most comfortable shoes you can find. So, take these three steps NOW to get them:

1. stop in our Catalog Office.
 2. ask to see our new Mid-summer Sale Book, and
 3. place your order for the coolest, most comfortable pair of shoes you've ever had. They range in price from \$2.09 to \$3.98 unrationed.
- Ask for a Sale Book to take home and show the family why we're called...

Pfc. T. W. Green Brother Of Local Lady, Is Killed

Mrs. Sam Stevens of 208 North First Street in this city recently learned of the death of her brother, Marine Private First Class Thomas W. Green, son of Mr. and Mrs. David Green of Midland.

According to a news release from a Marine Combat correspondent on Okinawa, Marine Green was killed by a Japanese artillery shell a few days after he met his brother, Lomer, 23, an Army corporal on the island.

Tom had blown up a cave after the Japs inside refused to surrender. When he returned to the road he found that among the men who had been watching him was his brother. It was their first meeting in more than three years.

Private First Class Green, a member of the Midland Mustang Club, previously saw action at Cape Gloucester and Peleliu, where, as a result of his coolness under fire, he was placed in charge of demolitions squad.

He had been overseas 14 months at the time of his death, having entered the service almost 2 years ago.

His brother, Lomer, is a chaplain's assistant on Okinawa, and was formerly in a tank battalion. He fought at Kwajalein in the Marshalls, and at Leyte. Before he joined the army he was studying for the ministry.

Mr. and Mrs. Green are in receipt of a letter from Lomer's Chaplain, and a portion of the letter reads: "Lomer is my assistant and is

the best assistant I have ever had. He is a splendid young man and one of whom you will always be proud. Tommy was not in this command but was stationed near enough that the two boys visited together several times. Quite recently Tommy spent the day with Lomer in our area and many of us became acquainted with him then. Tommy was a young man highly respected and honored by his associates and loved by all of us who knew him. I know you have received many letters from members of his group and know how he is missed."

Pfc. G. M. Boswell Wounded June 26 On Okinawa

A communication received by Glenn M. Boswell of this city Tuesday, June 26, informed him that his son, Pfc. Glenn Boswell Jr., had been wounded.

The telegram which was from the war department stated, "The Secretary of War desires me to express his deep regret that your son, Pfc. Glenn M. Boswell Jr., was slightly wounded on Okinawa May 23, 1945." Pfc. Boswell is a member of the Infantry and has been overseas for more than a year during which time he has been stationed in the Pacific Theatre of Operations.

He entered service 3 years ago, and received his training in Lincoln, Nebraska and at Fort Bliss.

Pfc. Boswell, who is a Lamesa High School graduate, has five brothers in service. They are Lt. Commander L. G. Boswell who is a member of the Merchant Marines, and Captain Aubrey Boswell who is now in this city on furlough after serving overseas in the European Theatre of War. Other brothers include Audrey Boswell, a navigator in the Air Corps who is presently stationed in San Francisco, and T-Sgt. Oscar Boswell, a member of the Air Corps who is stationed at Fort Deming, New Mexico.

Another brother is Ensign H. E. Boswell a member of the United States Navy, who is now on leave and is visiting in Fort Worth with his wife. Ensign Boswell is stationed on Guam.

JIMMY M. HORTON NAMED HONOREE AT DINNER WEDNESDAY

Mrs. Laura Horton assisted by her daughter Miss Mary Horton entertained for Jimmy Murphy Horton Seaman 2-C of San Diego, California with a dinner Wednesday evening at their home. He has been visiting here for the past two weeks but will leave today for California.

The serving table was laid with a white lace cloth and centered with an arrangement of white daisies.

Guests attending were Frances Jean Barnes, Marjorie Cruise, Potty Baldwin, Nancy Walker, Anna Marie Bailey, Anita Oliver, Betty Jean Stanfield, Onita Esmond, Polly Carroll, Jimmy Murphy Horton, Speedy Nieman, Dan Boone, Glenn White, John Shillingburg, Bill Taylor, C. T. Beckham, Tom Branon, Thurman Self, Otis Roberts and Douglas Moore.

THE BULLET ALSO HAD A NAMEPLATE ON IT

GRAND ISLAND, Neb. (AP) — During the Yanks' headlong cleanup of Germany, Pvt. Dale W. Hongsmeier caught a glimpse of a house whose nameplate bore his mother's maiden name.

Shortly afterward he was shot in the shoulder. An exchange of letter with his parents, Mr. and Mrs. William Hongsmeier of Grand Island, established that he was wounded in action near his mother's birthplace.

A. C. Hornbeck, Q. M. 2-C Spends His Leave Here

A. C. Hornbeck, Q.M. 2-C of the United States Navy, has been here for several weeks visiting his father, George W. Hornbeck.

Seaman Hornbeck is a veteran of the Pacific Theatre of War, having served on a repair ship for a period of 20 months. He served on Ellice Islands, Marshall Islands, Admiralty Islands, Palau Islands and the Philippine Islands during his overseas service and wears the American Theatre, Asiatic-Pacific, and the Philippine Liberation Ribbons.

Returning to San Pedro, California, May 28, Seaman Hornbeck arrived here June 1, for a 30 day leave. He must report to El Paso Saturday for reassignment.

While on foreign duty, Seaman Hornbeck contacted three local boys, including Perry Land, Leon Foreman and Perry Moss whose home is in Klondike. All of the men were with the United States Navy.

Seaman Hornbeck is a former student of the Lamesa High School and prior to his entry into service, was employed in this city.

TOWN and FARM IN WARTIME

CIVILIANS AT WAR

The Government needs and asks its citizens in the 186th week of war against Japan to:

1. Keep your family well-fed by using the many alternates for scarce foods. Careful planning will help you to serve healthy and attractive meals despite shortages.

2. Budget your wartime spending. Saving now helps hold prices down. Spending later will stimulate prosperity when war production ceases.

3. Back up the men who will bring victory over Japan by becoming a Wave. 20,000 are needed for hospital and other assignments. Write Waves, Washington 25, D. C. for information.

FARM LOANS FOR RETURNING SERVICE MEN

The Farm Security Administration has been authorized by Congress to lend \$25,000,000 in the next 12 months to returning service men who want to buy family size farms and will start making these earmarked loans on July 2, through more than 2,000 county offices. Part of an additional \$25,000,000 not restricted for the use of veterans, also may be used to make loans to discharged service men.

The loans, made under terms of the Bankhead-Jones Farm Tenant Act of 1937, can cover the full purchase price of a farm and allow up to 40 years for repayment. They bear interest at 3 per cent on the unpaid balance. Applicants must find for themselves the farms they wish to purchase. Each farm is appraised, and a loan is made only when the purchase price is in line with the farm's actual value, based on its longrange earning capacity.

EXTRA GASOLINE RATIONS FOR SERVICE MEN

Additional gasoline rations may now be obtained by service men having furloughs of more than 30 days. OPA Administrator Chester Bowles announced, "Furlough gasoline will still be issued at the rate of a gallon a day." Mr. Bowles explained, "but the 30-gallon limit is being removed for the benefit of released American prisoners of war who get leave or temporary duty assignments for sixty days in this country and for those members of our armed forces who return from overseas and get more than 30 days leave."

"Service men applying for furlough gasoline rations should follow these three easy rules:—1. Apply at any local war price and rationing board. 2. Bring along the mileage rationing record for the car to be used, and 3. Be ready to show furlough papers."

CONSUMER PROSPECTS FOR FOOTWEAR

Consumers will be given an opportunity to buy men's and women's "odd lot" shoes ration-free and at markdown prices when a small percentage of shoes in these categories is released to the public during the three-week period July 9 through July 28, OPA announced. "Odd lot" shoes must be sold to consumers at prices at least 25 percent below the prices at which they were being offered for sale on June 1, 1945, OPA said. Women's shoes with heel heights of one inch or less may not be included in the release as those shoes are usually the type worn by growing girls and do not accumulate on dealers shelves as odd lots. Dealers are requested to limit sales of "odd lot" shoes to no more than a pair to each customer. The first complete inventory of the Nation's stocks of both rationed and non-rationed shoes will be taken by shoe dealers on July 31, OPA also announced. This is to determine how many pairs of shoes can be allotted to consumers and whether any shoes can be released from rationing.

Celling prices have been given for all sales in civilian channels of eighteen rubber footwear items rejected by the Armed Forces as not up to required standards. The ceilings, effective June 18, 1945, apply to men's and women's rubber boots, overshoes or artics, rubbers, flying boots, jungle boots, tennis and gym shoes. A retail selling price of forty cents a pair for men's black rubber half soles, also rejected by the Army, will become effective June 26, 1945. This ceiling applies to sales by chain, hardware and

RETURN OF THE VICTORS — Texans of the 86th division, back from fighting in Germany, display a captured Nazi flag at Denison, Texas, where their special train stopped June 20 enroute to the Fort Sam Houston, Texas, reception center where the men arrived June 21. From the reception center they went on 30-day furloughs before reassembly at Camp Gruber, Okla., for training for the Pacific.

other retail stores of soles a quarter of an inch thick and in military sizes seven to 13.

PRODUCTION OF BEDDING AND ELECTRICAL APPLIANCES INCREASED

Production of bedsprings, box springs, innerspring mattresses, studio couches and other types of bedding will be increased in the coming months, says WPB, but not to any appreciable extent, as the supply of textiles and other materials is still limited. Limitations have been removed on the manufacture of the following electrical appliances—air heaters, household toasters, casseroles, chafing dishes, heating pads, household waffle irons, dry shavers, hair clippers, permanent wave equipment and home dishwashers. Continuing scarcity of materials, however, will also limit the number of these items available to consumers for many months. To provide more work socks for civilians, WPB removed the freeze on circular hosiery knitting machines above 72 needles that had been frozen to the production of wool socks for the Armed Services.
