TWINKLES
It's not the gold standard that's worrying us. We haven't seen any gold lately. Our main problem is to stay on the silver standard, and our dimes are getting almost too few to rattle.

But we'll get along. Americans are ingenious. Our landlord may be worrying, but he knows we'll pay him at the first minute possible. All it will take to clear up this situation will be for everybody to keep faith with everybody else.

The Boys who went to Germany with the army of occupation can tell you something about debasing money. We've got to be sensible, and calm, and resourceful, but the productivity of the country is unimpaired and we are merely in a temporary technical crisis. In other words, we are pretty well wound up in red tape but Mr. Roosevelt will cut that in due time.

Mrs. Gushaway is "in her element." She just adores borrowing from the neighbors, and now she has a good excuse.

A NEWS employee says Mr. Hoover was cheated of the opportunity to take a Saturday night bath because Mr. Roosevelt moved in that day. But under present conditions, we don't imagine Mr. Hoover is feeling very remorseful about it.

DUTIES OF EDITORS—
In the best days of any decade, a few editors manage to get rich enough to do only the things which the public thinks they do regularly.

In times which are not booms, most editors do a full day's work and then, weary and worn, turn to the editorial writing, letter writing, and other things which the public thinks are the main fare. There are editors and editors. There are managing editors who do the work and owner-editors who carry their names in the masthead of the paper but spend most of their time golfing or warming themselves in the watering places of the south. There are some editors who deserve to be called newspapermen and some who ought to have other classifications.

In every daily newspaper is a managing editor who must w-o-r-k, but there is an immense amount of detail which the public is in no position to realize. Small details seldom can afford the kind of editors who do not work. Times like these put most editors to work. Telephones ring constantly with questions, and the editor is supposed to be an oracle.

A LOT OF IPS
A young man asked us our opinion about entering the newspaper field; we answered this way, says the Mineral Wells Index:

If he can listen with a smile to three things he's heard oftentimes before; if he can refuse to do what three or four people ask him to do without making them mad; if he can write in a way to make people laugh when he feels like cussing, or in a way to make them weep when he feels like cracking his heels together and laughing out loud; if he can remain silent when he feels like he'll burst wide open if he does not talk; if he can argue without getting mad

PROBLEM OF 'SPEAKS' SHOULD BE LEFT TO STATES

NO FUNDS FOR LIQUOR

APPROPRIATION CUT IS REASON FOR NEW INSTRUCTIONS

WASHINGTON, March 8 (AP)—W. Woodcock, enforcement director, on liquor manufacturers and transporters to enforce prohibition, leaving speakeasy prosecutions to the states.

As announced today by Amos W. W. Woodcock, enforcement director, the new plan puts into immediate effect the restrictions laid down by Congress to apply after July first. This means no more liquor tapping or purchase of liquor as evidence for consumption by agents.

Woodcock placed the decision on the grounds of economy, necessitated by the huge cuts in enforcement funds made by the last Congress. The order was dated March 3, the day before the Roosevelt administration took office.

How the new setup will affect states having no local enforcement acts remains to be seen. Woodcock said complaints against speakeasies hereafter would be referred to local authorities. In the main, and predicted more attacks on the sources of supply as a result.

Childress Man Heads Magnolia Dealers Group

W. A. Long of Childress was elected president of the Magnolia wholesale and retail dealers association at a meeting in the Schneider hotel yesterday afternoon.

Jack Gibson of Wellington was named vice-president, retiring president and Roy Burton of Claude, secretary. W. S. Norman of Amarillo, retiring president, opened the meeting.

Thirty-five wholesale and retail dealers were present from towns and cities in the North Panhandle area. Plans for an active year were discussed and an outline of activities will be presented at the next meeting.

Discussion of business methods under present conditions took up considerable time during the meeting. It was decided that "business" would be as usual during bank holidays.

Golfer Struck On Head By Ball Is Near Death

ABILENE, March 7 (AP)—Struck on the head by a golf ball late yesterday at a local course, Cecil H. Pollard, 33, today was at the point of death in a hospital, his body partially paralyzed.

Pollard, assistant to the general agent of the Burlington lines, of which the Wichita Valley railroad is a part, was playing with D. M. Dickey, Anson agent for the Wichita Valley.

Dickey "shot" just as Pollard knelt to place his own ball. Pollard became unconscious several hours later at his home. A blood clot had formed on the brain just above the right ear. Doctors hold little hope for his recovery.

BANKER ACQUITTED
BAIRD, March 8 (AP)—S. Foster Baird, former banker of Cross Plains, won acquittal in 42nd district court today in a case in which he was charged with swindling R. W. and C. F. McNeel, brothers and depositors in the Farmers National bank of which Baird was vice-president. The bank closed in June 1931.

"Whispering" Proved To Be Utterly False

(Editorial)
Wholly irresponsible, untruthful rumors are being circulated in Pampa by persons who should know better and by some who falsely think they have nothing to lose if the community is damaged thereby.

One of them, perhaps the most despicable of all, is that Pampa business men are discounting pay checks and otherwise mistreating customers during the financial moratorium. The Pampa Daily News has run down rumor after rumor and FOUND THEM ALL LIES. Pampa business men are actually making sacrifices in many cases to serve their patrons. No essential to health is lacking. The moratorium is a about over and business is going forward as usual. The outlook to trained observers is actually the best in months, for needed basic adjustments are being made nationally.

If you hear a rumor which reflects on the community, telephone THE NEWS at once. This newspaper uses the facts and only the facts, and local people should throttle all slanderous rumors, which multiply rapidly, feeding upon the lies in which they have their inception.

OIL PRODUCERS ARE PRORATED UNDER DECREE

Injunction Writ Will
Be Decided On
March 13

Forty-eight Danciger Oil & Refining company wells and their off-sets in the Panhandle field were shut in to proration schedule this morning on a decree entered in the docket at Fort Worth yesterday afternoon restraining the Danciger company from exceeding the railroad commission's proration allowable. Formal notice was given to the Danciger company last night by W. B. Hamilton, assistant deputy commissioner, here.

The decree, entered by Judge James C. Wilson, will remain in effect until a three-judge hearing scheduled for March 13, in which the Danciger company will ask for a permanent injunction to restrain the railroad commission from prorationing the Danciger production.

The commission posted a bond of \$500 before the decree was entered. The commission was defendant in the original suit, but filed a cross-action through Assistant Attorney General Maurice Cheek.

Danciger wells and off-sets had been producing at potential under an injunction and agreement between Danciger and the attorney general's department. It has been carried through all the courts and the ruling of the three judges Monday is expected to be final.

REDUCING THE DOCKET
Judge W. B. Ewing of 31st district court has marked more than 100 odd cases off the docket in going over it with attorneys this week.

Many of the cases were filed as far back as 1927, some in 31st district court and many in the 114th. Several of the attorneys who filed the suits have since moved to other parts of the state.

IDEAS ARE NOT REVEALED

TO ASK FOR POWER TO
EFFECT ECONOMIES
IN MESSAGE

By FRANCIS M. STEPHENSON.

WASHINGTON, March 8 (AP)—President Roosevelt intends to keep firm command of the national banking system and tomorrow will ask the new Congress for broad powers to permit him to carry on until permanent banking reform legislation is enacted.

He will issue another proclamation tomorrow night when the present four-day holiday ends, renewing his control over the American gold supply to protect it from hoarders and raiders.

In the meantime, the treasury has worked out a plan for the circulation of currency instead of scrip. Mr. Roosevelt will put before Congress tomorrow the first part of the governmental reorganization plan by which he expects to balance the budget and assure the national credit.

Still cheerful and smiling, the president talked over his plans and views today in his first interview with newspapermen, but not for quotations.

His ideas for the future were

Cline To Speak To Rotarians On Thursday Night

The Rotary Club will have as its guest speaker at a ladies night meeting next Thursday evening, Walter Cline of Wichita Falls, past director of Rotary International and one of the outstanding speakers of the country. His subject will probably be "International Relations," a topic of which he is thoroughly familiar.

The meeting will start at 7 o'clock at the Methodist church. Presidents of neighboring Rotary clubs have been invited to attend. The program arrangements are in charge of F. D. Keim.

In the program today Mrs. May Foreman Carr presented Miss Helen Marie Jones and Mrs. Earl Thomas in piano solos and vocal solos. Both Miss Jones and Mrs. Thomas will appear in Amarillo next week in district contests.

Miss Katherine Vincent told of the organization and objects of the Pampa Business and Professional Women's club and of the convention to be held in Pampa in April.

C. M. Bryson of Tyler, former member of the Pampa Rotary club, told of the club at Tyler and compared general conditions in the two towns.

High School's Revue Will Be Held on Friday

Prolific and fun will be provided in abundance when the high school revue, sponsored by the high school Parent-Teacher association, is held Friday evening at 8 o'clock in the school's gymnasium. Nearly 200 boys and girls will take part. They will include the tumbling teams, the band and orchestra, the violin quartet, and the dramatic class.

Admission will be 10 and 25 cents, proceeds to be used to pay cafeteria expenses. Money left after the expenses are paid will be used to buy National Honor society pins.

R. F. C. ALLOTS GRAY COUNTY A TOTAL OF \$8,000 TO BE USED IN MARCH BY RELIEF AGENCIES

No Provision Is Made
For Fund To Be
Used In April

GRAY COUNTY'S application for federal relief funds has been honored by the Reconstruction Finance corporation, which has set aside \$8,000 for use in this county this month, according to information received by C. H. Walker, chairman of the county committee, from the state executive department.

This sum will raise to more than \$20,000 the federal relief used in Gray county since last fall. Unless congress takes action, there will be no such federal relief—which is deducted from Texas' federal road allocations.

Sharp Slayer Sentenced To Die

LUBBOCK, March 8 (AP)—A jury in seventy-second district court today sentenced Paul Mitchell, 24, to death in the electric chair for the hold-up slaying of Robert Sharp, young grocery clerk, here October 15, 1932. It was the first death sentence ever given in Lubbock county.

Mitchell was convicted on a charge of robbery with firearms. A slight twitching of his lips was the only emotion the young Amarillo man showed as Judge Homer L. Vickers read the verdict. He sat motionless in a chair beside Chief Defense Attorney J. E. Vickers while the verdict was read and the jurors fled from the room.

Vickers announced an appeal would be filed.

LATE NEWS

WASHINGTON, March 8 (AP)—Secretary Woodin of the treasury department today planned an inquiry, on the basis of private information to him that the Federal Reserve bank at Kansas City was not advancing funds to member banks for food shipments and deliveries.

This sum will raise to more than \$20,000 the federal relief used in Gray county since last fall. Unless congress takes action, there will be no such federal relief—which is deducted from Texas' federal road allocations.

WASHINGTON, March 8 (AP)—Henry Morgenthau, Jr., new chairman of the Federal Farm Board, said today that the grain stabilization corporation has disposed of all of its cash wheat and has reduced holdings of futures to 30,391,000 bushels.

C. of C. Groups Planning Banquet For This Month

Pampa's senior and Junior chambers of commerce will have a community banquet as an annual event later in the month. It was decided last night.

Each group will contribute to the program. F. M. Culbertson is chairman of the senior committee and R. L. Bowden of the Jaysees. The date of the event has not yet been fixed, but will be announced after the committees meet in joint session.

The B. C. D. last night decided to postpone good will trips to neighboring communities until banking conditions are more settled.

Circulation of Actual Money Being Planned

SCRIP FORBIDDEN UNLESS TREASURY CONSENT IS OBTAINED; GOLD TO BE EXCHANGED FOR CURRENCY; TO ISSUE MORE CASH

By The Associated Press
SECRETARY WOODIN of the treasury eliminated the question of using scrip to ease the national bank situation today by an announcement that a plan was being formulated to circulate actual currency.

With gradually loosening restrictions, the bank holiday will be continued until congress passes new legislation.

Meantime, gold can not be paid out but banks depositing gold with their federal reserve banks will receive in return currency which they can pay out now for necessities.

(By The Associated Press.)
BANKS in the larger cities of Texas took the lead today in resuming financial transactions, suspended last week-end by President Roosevelt's proclamation, but were cautious not to exceed powers designated to them by Secretary of the Treasury Woodin.

Uncertainty that existed regarding the federal and state restrictions let some bankers to hesitate to reopen at all. Several clearing house associations were ready to take action which would affect local conditions but awaited definite instructions from Washington.

Under agreement of their clearing house association, Dallas banks opened to take advantage of limited transactions, including provision of currency and silver coin for payroll purposes, free access of customers to safe deposit boxes and receipt of cash deposits to be placed in special accounts, on which there was no limitation on withdrawals.

The Dallas clearing house association later clarified instructions issued by the treasury.

Backed by a treasury department order reopening federal reserve banks for limited transactions with members, financial institutions in many localities resumed business today on a restricted basis. In some instances these activities

Calf From New Mexico Winner At Stock Show

AMARILLO, March 8 (AP)—Nelson Ainsworth of Milnesand, N. M., exhibited the grand champion baby beef of the Amarillo Fat Stock show. His junior calf won over a field of 169 entries, the largest number ever exhibited at the Amarillo show. Another junior calf, shown by Lattie Messick, Plainview, Tex., won the reserve championship.

Exhibits went on the auction block today. The sales will continue through Thursday morning, the last day of the show.

The judging of exhibits has been completed except in the rabbit show which is an annual side attraction.

Lamb county swept through the cured meat department, winning 21 of the 30 prizes awarded. One-third of the entries were from Lamb county. Hale county baby beavers won first place in the carload lot, Swisher second, and Gray third.

The youthful feeders were guests of the Amarillo cowmen at a banquet last night. Jay Taylor, president of the Panhandle Livestock Breeders association, which is in annual convention during the show, presided.

Announcement was made that President Roosevelt intends to continue his command of the monetary situation until permanent legislation is possible and that a new proclamation is due on Thursday night when the present national holiday ends.

Stock Show To Open March 10 At Fort Worth

FORT WORTH, March 8 (AP)—All of the rodeo livestock for the Southwestern Exposition and Fat Stock show which will open Friday night March 10, has been received. It includes outlaw broncs for bareback riding and bronc riding, steers for bulldogging and steer riding and calves for roping contests.

Capt. Charles Muller has been appointed marshal for the parade to be held in the business district Friday afternoon, celebrating the opening of the exposition. Sweetwater's 52-year-old chuck wagon, rodeo contestants on horseback, decorated floats, five bands and one drum and bugle corps will be among the features.

R. O. T. C. day has been set for Saturday, March 18 and platoons will compete from the North Texas Agricultural college, Arlington, the John Tarleton college, Stephenville and the Fort Worth public schools.

THIS "DEBUNKING" BUSINESS

Every once in a while some "debunker of history" comes along to toss a little mud at the memory of the nation's heroes.

And now after diligent research into old records, A. Salley, secretary of the South Carolina Historical association, feels he has the proof that George Washington actually told a lie.

Mr Salley relates that it happened like this:

When Washington was a provincial colonel heading two companies of Virginia militia against the French and Indians at Fort Necessity, in Pennsylvania, he was surrounded by a force which outnumbered his command three to one. During a lull in the firing, De Villiers, the French commander, called to Washington to demand the name of a sentry who had killed three of the French without the customary challenge.

"He was killed on duty," Washington is represented as having replied, although the sentry was standing directly behind him.

If Mr. Salley's account is correct and George Washington did tell this lie, it was uttered to save a human life. But this is quite beside the point. Quite probably, it contained no element of malice, it brought Washington no selfish gain.

Mr. Salley never set out to injure our picture of Washington. The point is that there is nothing to be gained by attempts to besmirch the reputations of men, long since dead, who have become revered heroes of the nation and the personification of ideals that we are trying to inculcate into growing boys and girls.

Whether George Washington actually did tell a lie 50 years ago is now of no importance; but the influence toward truthfulness and character that his reputation has exerted on many generations of American youngsters is of great importance.

There's enough wrong with the world today without rummaging around in tombs to find more.

Outlawing most of the current attire for men, merchant tailors prescribe dress coats with longer tails, gray uxedods and silk waistcoats in pastel shades. This should give men something to think about while they meditate behind the curtains at the pants presser's.

One thing to be said for the Japanese-Chinese hostilities is that has served pretty well to rout Huey Long from the front page.

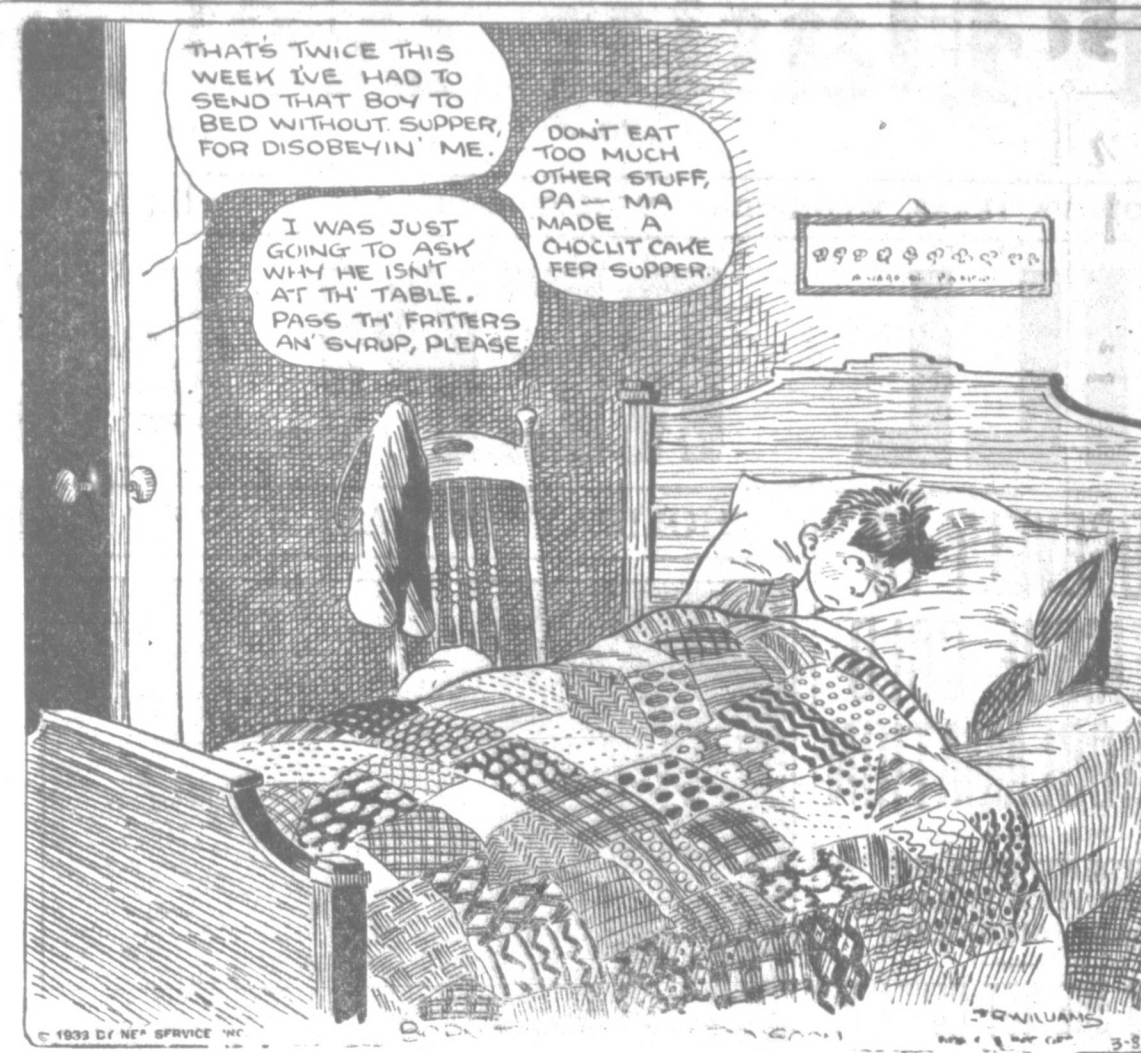

The future may be full of opportunity for youth, but just now the youngsters can't get near the jig-saw puzzle for the grown-ups crowded around.

The fellow who's quick on the trigger has to beware of going off half-cocked.

A lot of people would be given work, says the new secretary of labor, if the one-day-of-rest-in-seven Biblical rule were enforced. Yes, but dad and the kids don't like to wash the Sunday dinner dishes.

It's said the best way to banish troubles is to talk them over with someone. But the folks coming back from the income tax collector don't seem to be in such a cheerful frame of mind.

Borger's Scrip Bank Backed By Company Checks

BORGER, March 8 (P)—Borger merchants opened a "bank" today with \$30,000 worth of scrip backed by company checks, and good anywhere in Hutchinson county, or adjoining counties where the participating firms operate.

The exchange was set up in the old Borger State bank building, under the direction of G. W. Newsum, former cashier of the Stinnett State bank, which recently closed. Borger has been without a bank almost two years.

The scrip was printed in denominations of 25 cents, 50 cents, \$1 and \$5. Payroll checks can be exchanged for the scrip, which in turn will be accepted by merchants. The scrip later will be redeemed by participating firms.

Piccard Flies Over West Texas

DALLAS, March 8 (P)—Prof. Auguste Piccard and his brother, Dr. Jean Piccard, left by plane today for Chicago after resting here a day upon completion of a flight from El Paso.

Prof. Piccard, who has soared higher in the air than any other man, revealed he had suffered slightly from air sickness when the plane ran into headwinds at 10,000 feet while passing over West Texas. Nevertheless, he was enthusiastic about the trip.

He said that Texas, or better yet, Mexico, would be an ideal location for another flight by balloon into the stratosphere.

Mrs. E. L. Fowler, district magazine chairman for district 1 of the Texas Federation of Business and Professional Women's clubs, will address the club at Dalhart this evening. She will be accompanied by Miss Clara Lee Shewmaker.

First White House Press Conference Is Given By Wife

WASHINGTON, March 8 (P)—In the first White House press conference that a president's wife has granted, Mrs. Franklin D. Roosevelt said today that the "time is one that requires courage on everybody's part—and common sense."

Asked for an expression to the women of the country, in recognition of the national crisis, Mrs. Roosevelt first declined on the ground that it would be presumptuous, but later pressed by the correspondents, she said:

"Women's duty is exactly the same as the men's duty. The time is one that requires courage on everybody's part—and common sense."

Mrs. Roosevelt came to the conference carrying a box of candied orange peel which she passed around before seating herself. The newspaper women formed a circle on the floor around her feet.

Commander Of Legion Coming To Panhandle

AMARILLO, March 8.—The largest assemblage of World War Veterans the Panhandle has witnessed in recent years is expected here on Friday, March 17, when National Commander Louis A. Johnson comes to this city.

Hanson post, American Legion, is preparing to make this a gala day, with the expectation that more than 30 Legion posts of this territory will be strongly represented.

The national commander will arrive about noon and will be met here by State Commander Carl Nesbitt and other high ranking officers of the Legion. His arrival will be signalled by a parade through the business district, with bands, Legion drum corps, the high school cadet corps and other appropriate units in line.

In the evening, Commander Johnson will speak at the municipal auditorium, which seats 2,800 and will accommodate 3,500, on the principles and policies of the American Legion. All citizens interested in firsthand information as to the Legion's aims and ideals in the betterment of America are invited to hear this address. It will also be broadcast jointly by stations WDAK and KORS (1410 kilocycles), beginning at 8:30 p. m.

After the speaking, all visiting Legionnaires and their ladies are invited to be guests of Hanson post at a reception and dance in the Legion clubrooms in the north wing of the auditorium.

FRECKLES AND HIS FRIENDS

We Can Hardly Wait!

By BLOSSER

VALIANT DUST by Percival Christopher Wren

MEANWHILE Margaret, sick with indignation, fear, anger, resentment, and a terrible sense of helplessness, passed a bad hour. Had her intuition been right when she first became engaged to Jules, and was there a yellow streak in his character? She had told him, at the time, that she did not love him, and had talked about a twelve-months' engagement.

Here Margaret pulled herself up sharply, once again.

Whoever he was, and whatever he was, she had married him of her own free will, and with her eyes open—and she would make the best of it. He was her husband, and she would make the best of him.

If he were weak, she must try and strengthen him; and if Morocco had a bad effect upon him, she must get him out of the country, and never let him come back to it.

And, in any case, they must get out of this horrible place. It was like living in the Tower of London in the days of Richard the Third, or Henry the Eighth.

And meanwhile what to do? How to find Jules?

How long had she been in this beastly room? And what would happen if she merely sat tight? Elia Beth el Ain—her mother-in-law!—had simply said, "If you insist on remaining in this room, I'll leave it."

Another hour passed, and a gnawing hunger was added to Margaret's other troubles.

If she grew tired of waiting, and went away, would she be readmitted if she returned?

On the other hand, she would look rather foolish if she merely sat there suffering a self-inflicted imprisonment. She was being absurd. Everybody had treated her perfectly kindly, and she had had nothing whatever of which to complain—save for Ralsul's incredible madness of last night.

Of course this woman Elia Beth el Ain was bitterly jealous of her, but surely she would do her own son's wife no harm, nor permit anybody else to injure her.

Anyhow, this was no good. Springing up, Margaret went to the outer door and hammered upon it, as Elia Beth el Ain had told her to do. Almost at once the heavy lock was turned, a big bolt withdrawn, and the door opened by Hassan, el Miskeen.

"I want to find my husband," the Sidi Jules Maligni," she said; repeated the statement in French, and attempted it in a shocking jargon of Spanish and Arabic, as she realized that it was a waste of time to address this dirty old man in English or French.

Hassan el Miskeen, smiling pleasantly, shook his head and then, opening widely a cavernous mouth, made patent the fact that he had no tongue.

Margaret shuddered, pushed past him, and rushed down the corridor, turned to the right at the end of it, and tried to remember whether the turning that she should take out of this passage was the third or fourth on the left, or the second or third on the right.

She could try both sides, and if one passage did not lead her to the stairs, another would.

The second on the right seemed familiar, and yes, there were the steep, worn stone steps that led down to the inner courtyard which was the garden and place of recreation.

But no, this was wrong. There should be three flights of stairs, and she had only come down two flights. Should she go back, or follow this gloomy tunnel-like passage in search of another descending flight of steps, and if so, should she turn to the left or to the right?

Well, she could explore in both directions, and return to these steps, if she did not find the other flight that she must descend to get down to the courtyard.

She must not get lost, and she must not yield to panic. She must remember that she was an English girl, staying with her husband in the house where his parents dwelt. She must fight against this foolish fear, this idiotic feeling that she was caught, trapped, and in some hideous danger.

Turning the corner at the end of the passage, Margaret stopped. What was that sound?

Had somebody coughed or spoken, or dropped something?

Or had it been the sound of a footstep?

(Copyright, 1932, P. A. Stokes Co.) Margaret meets a surprising man, Monday, and is offered aid.

By this time we ought to realize we won't have to bank the curves on the road to prosperity.

Japan Completes Seizure Of Jehol And Chinese Wall

CHANG QUIT-- WARLARD SAYS HE'S FAILURE

JAPS' DETERMINATION TO ABANDON LEAGUE MORE APPARENT

JEHOL CITY, Jehol, March 8 (AP)—The Japanese army completed today the seizure of 250 miles of the great wall of China, extending from the inner Mongolia border to the Yellow sea.

General Tadashi Kawahara's 16th infantry brigade, which climaxed the invasion of Jehol with the capture of this city last Saturday, occupied Kupeikow, the great wall gateway to Peiping, at noon today. It engaged in a six-hour final battle to oust the Chinese from the last pass they held in the wall on the southern Jehol frontier.

Chinese fled in the direction of Peiping, 65 miles southeast of Kupeikow. Airplanes bombed the retreating columns. The Chinese commander of the desperate last stand was Wang Yiche.

The Japanese halted at the pass. For the time being they are remaining there, having denied they intend to push on to Peiping unless reprisals against the Japanese population in that city, the center of the international treaty area of North China, forced them to.

The Japanese are establishing garrisons in the great wall passes which have been fortifications of the Chinese since their construction in the third century B. C., as a defense against tartar invasions. With Jehol brought within its boundaries, the Japanese-sponsored state of Manchukuo is to have the wall for its southern defense line.

PEIPING, China, March 8 (AP)—Acknowledging his failure to stem the Japanese advance, Marshal Chang Hsiao-Liang resigned today as commander-in-chief of the Chinese armies.

Only 35 years old, Marshal Chang was the last Chinese warlord of Manchuria and directed the losing fight against the Japanese for the past 18 months in that territory, at Shanhaikwan and in Jehol.

Japan's determination to withdraw from the League of Nations as a result of the Sino-Japanese dispute becomes more apparent.

This determination was made evident as her forces rested momentarily after taking over the most important pass through the great wall of China, south of Jehol City.

The Japanese cabinet, after the matter had been submitted to the emperor, approved and sent to the Privy council the draft of a communication which is expected to be submitted to the league about March 20 calling for permanent withdrawal from that organization.

House Passes Bill To Delay Foreclosures

AUSTIN, March 8 (AP)—A bill to suspend for one year the foreclosure of lines, mortgages, executions and orders of sale on real estate was passed today by the Texas house of representatives, 113 to 11.

There was virtually no discussion on the proposal, although the bill was stoutly contested several days ago when it was engrossed.

The bill was introduced by Representative Joe Greathouse, of Fort Worth.

The legislature last week passed a bill to suspend foreclosures and forced sale of real estate for one month. The bill was signed immediately by Governor Miriam A. Ferguson and prevented the forced sale today of properties that had been advertised for sale.

The one month suspension was ordered as a result of the financial emergency and the bank moratorium.

GOING TO PANHANDLE

Miss Ruby Adams, home demonstration agent, went to the C. B. Haney home in the Merten community today to demonstrate refinishing of furniture and this afternoon was to illustrate making of American cheese. Later in the day she was to go to Panhandle to direct a poultry school for club women of Gray and Carson counties.

Floyd Archer, formerly deputy sheriff here and now connected with the Humble Oil & Refining company in East Texas, is here on business.

TOO LATE TO CLASSIFY

FOR SALE — Majestic cabinet radio, cheap for cash. Leaving town. Frank Stapp, 309 N. Banks. 3d-84

When Dr. Walter Purviance became mayor of Pampa on May 22, 1915 the water problem had been solved to the temporary satisfaction of residents, and electric lights were something to look forward to in an indefinite future.

At that time W. R. Byrdler who owned and operated the town's first picture show, then located in a frame building where the Brownbilt shoe store is now situated, furnished electricity for the few lights in the town. He had acquired an engine for theater purposes from the Rums of Amarillo, but when he found that it was capable of producing more "juice" than he anticipated, he made a contract with the city to furnish street lights.

And There Was Light

Electric lights were distinct novelties in the village in 1914 and 1915, and curious residents used to watch Mr. Byrdler turn on the lights. Dr. Purviance remembers in particular a street light that was located near the Leduc home. Of an evening Mr. Byrdler would say to the group watching his engine generate "juice," "now watch her go on!"

HOW'S your HEALTH

Edited by Dr. Lago Goldson Academy of Medicine

MEAT IN THE DIET

In the minds of many, proteins in general and meats in particular are subject to suspicion.

Let there take place even a mild gastric upset, and at once the blame is cast upon meat. In discussions of amateur dietitians, the advice to cut out meats and proteins is all too common.

Science is partly to blame for this common suspicion cast upon proteins and meats. In the early days of physiologic chemistry, we were much too preoccupied with the so-called catabolic end results of proteins.

Urea and uric acid occupied a large place in medical literature and were suspected as contributing to a host of diseases.

With our better knowledge of nutrition, metabolism and of physiologic chemistry, the proteins have been vindicated. More than that, we have come to recognize that they are a very essential element in nutrition.

They are not only imperatively needed for the growth of the body and for the repair of worn-out tissue, but more than that, if man would enjoy full health and sustained vigor, his consumption of protein food must necessarily be liberal.

Experience has demonstrated that the sufferer with Bright's disease whose urine is laden with albumin, requires liberal portions of protein foods in his diet to enable him to replace the proteins (the albumin) which are lost through the kidneys whose filtering power has been impaired.

It has been shown that Bright's disease can be better controlled with a diet supplying the patient the amount of protein he requires, than with one which is protein-poor.

Dr. James S. McLeister, at a recent session of the American Medical association, pointed out:

"In general it can be said that if the adult with nephritis takes a quart of milk daily, two eggs and one large serving of meat, his protein for protein will be covered and no harm will be done to his kidneys."

Continuation of the broad wartime powers is believed necessary by Mr. Roosevelt because of the fast-moving events that have resulted from the closing of the banking institutions. He wants to make sure of the situation before laying before Congress a permanent plan of banking reorganization.

He wants no more emergencies in this field.

The president realizes additional currency is necessary as a result of hoarding and the banking holiday to permit the citizens to carry on the functions of life.

First ideas for the use of a temporary scrip—clearing house certificates based on assets in the banks were sidetracked for what the president feels is a sounder proposition.

High government officials said President Roosevelt will ask the new Congress this week to grant him the widest authority possible under the constitution to effect immediate economies in government costs.

The request will be especially directed at the veterans' compensation. Under the president's plan, it was stated, he would ask for authority to review all cases relating to veterans, and power to merge departments and cut statutory appropriations.

A HABIT WITH GARNER

WASHINGTON, March 8 (AP)—Jack Garner may have to preside over the senate but they can't make him eat there.

At lunch time yesterday Garner was eating in the house restaurant, just as he has off and on for 30 years. Some of his friends joked him about it.

"I'll be over here to eat often than you think," was the vice president's reply.

Along about this time, Pampa was pestered with small town "rascals" who attempted to ignore officers when they wanted to raise a rumpus. Some of these racket-

that extended on Cuyler street north from the Kingsmill intersection.

Dr. Purviance has not practiced medicine all the time he has lived in Pampa. He first came to the Panhandle in 1900 to cure himself of what doctors said was tuberculosis.

He spent a year on his brother Carroll Purviance's ranch in Carson county and was fit a year. Then he went back to his native state, Illinois, and finished his medical course. When he first came to Pampa he operated a drug store and his biggest single sale that year was a shipment of alarm clocks to farmers who had to get up in time to sow their wheat crops.

It was while he operated the drug store that he was mayor. Meanwhile, residents were aware that he was a physician and they called him in on cases now and then, although literally he did not have out his shingle.

Went To France

When the U. S. entered the World War, Dr. Purviance enlisted in the medical corps and went with the A. E. F. to France. He returned in time to vote to move the courthouse from LeFors to Pampa, but that was not to take place until over 10 years later. He worked in the First National bank here for a time after he was discharged from the army, and then went into partnership with Dr. A. Cole.

More Tenants Than Farms On South Plains

LUBBOCK, March 7 (AP)—Literally hundreds of tenant farmers are seeking rent farms in the vast reaches of virgin tillable soil on the South Plains of Texas.

Dealers in real estate and big landowners have received from 12 to 100 applications from tenants for every farm that has been rented in Hockley, Cochran, Howard, Borden, Terry, Yoakum, Gaines and Bailey counties. A good many farms are being sold, but the number of buyers is small in comparison with those wanting "a place to live and chance to make a living." Real estate dealers report that most of the applicants were formerly farmers and would make good tenants.

Some of the landowners are taking advantage of the situation and colonizing tracts of from 1,500 to 1,800 acres with from 10 to 15 tenants to the tract. The plan can not be interpreted as community farming, but the fact that the land is subdivided and improved in one operation makes a good many savings possible in the drilling of wells, building of fences, and the purchase of equipment.

Real estate dealers claim that the price of raw land has declined but little, and that improved farms still are commanding a good price.

Uncle Sam Keeps On Minting Coins

PHILADELPHIA, March 8 (AP)—Although the United States treasury and the banks are not handing out any money, Uncle Sam is keeping right on manufacturing it. At the mint today it was stated the presidential proclamation has not yet affected the money factory.

The mint is now engaged in coining \$20 gold pieces and pennies. "We have no orders with regard to the present situation," it was stated by a mint official.

"This is just a factory and we send out money only on orders from the treasury department."

Magnolia Retailers Reorganize Today

Members of the retail department of the Magnolia Petroleum company in this area reorganized in a meeting at the Schneider hotel at 2 o'clock this afternoon. Representatives from cities in the north Panhandle area were to be present.

Election of officers for 1933 was on the program. Plans for 1933 were also to be discussed. W. S. Norman of Amarillo is the retiring president.

Regular pep meetings are held throughout the area and a general acquaintance is the result.

He Recognized Baby 5th Time

NEW YORK, Mar. 8 (AP)—Smiles in Wall Street were worth almost as much as dollars today. A banker got a rather hearty giggle with the following:

Last Friday, he said, at one of the savings bank branches on New York's East Side, there was quite a line of depositors waiting to draw out cash. At the end of the line a woman appeared with a baby in her arms.

"Please," she asked, "will you let me go ahead?"

Both men and women in the line gave way, and in a few moments the infant carrier had her money. Shortly thereafter another woman appeared, holding a baby. She, too, went to the head of the line. When this had happened several times, the paying teller put his head out of the window and closely scrutinized the baby.

"Nothing doing," he said to the woman with the infant. "This is the fifth time today that baby has been up here."

And it developed that a thrifty foreign-born mother had been renting out her child for 25 cents to various women who were in a hurry to withdraw their savings.

Scout Training Course To Begin In Near Future

The spring training course for adult Scout leaders will be planned soon by W. O. Christian, who will be in charge, and others interested.

Preliminary arrangements were made last night by Scouters at the monthly round-table discussion. Various church, civic, and business groups will be asked to send representatives to the training school.

Last night it was reported that the recent roundup had been of great value to scoutmasters. The troops are growing in enrollment and the boys already are talking about what they will enter in next year's event.

The round-table discussions will be held on each first Monday hereafter at 8 p. m.

Borger's Recall Fight Forgotten As Ballot Nears

BORGER, March 8 (AP)—Borger city commission recall election fight which has been in the courts for a year, probably will be forgotten because of the approach of a regular city election on April 4.

The case completed its legal course recently when the supreme court denied a rehearing on its recent refusal to grant the city commissioners a writ of error in appealing from the seventh court of civil appeals, Amarillo.

As the case now stands, the commission, under a mandamus issued by District Judge E. J. Pickens last spring, would be required to call an election within "not less than 20 nor more than 40 days," to give the people of Borger an opportunity to decide whether Mayor John R. Miller and the four commissioners should be recalled. The regular city election, however, will fall within that period.

The commission appealed from the orders of the district court. Judge Pickens was upheld by the Appeals court and the fight finally was taken to the state supreme court.

The original recall petition filed Feb. 23, 1932.

Whether the present mayor and commissioners will seek reelection has not been announced.

Curtis Douglas of Panhandle here on business.

Mrs. Siler Faulkner returned to Pampa this morning from Dallas where she was ill in a hospital for some time. She is doing nicely now.

Pampa Eastern Stars Are Guests of Amarillo Group

THREE GROUPS ARE FETED IN LOCAL HOMES

ST. PATRICK MOTIF IS EMPHASIZED AT PARTIES

ST. PATRICK'S day, falling on March 17, furnished the theme for attractive parties given as a courtesy to three local bridge clubs—Tuesday Afternoon Bridge, London Bridge, and Amusu—on Tuesday afternoon.

MRS. BRALY, HOSTESS AT BRIDGE DESSERT The home of Mrs. Tom E. Rose made a lovely setting for the bridge dessert given by Mrs. Clifford Braly for the Amusu club.

Before the games, the group was served pie with whipped cream, olive roses, cheese puffs, and coffee. The St. Patrick theme was emphasized throughout. At the close of the playing, Mrs. C. T. Hunkapillar, who made the fortunate cut, was presented a dainty vanity set.

Members attending were Mesdames J. H. Kelley, J. M. Dodson, J. M. McDonald, C. T. Hunkapillar, William M. Craven, George Walstead, Alex Schneider, W. A. Bratton, L. McCullough, John, Tom E. Rose, and Charlie Thut. The special guests were Mesdames E. C. Will, Henry Thut, T. F. Smalling, H. H. Hicks, and I. B. Hughey.

CLUB FAVORED IN FAULKNER HOME

Miss Virginia Faulkner entertained with the St. Patrick party for members of the London Bridge club. At the close of the games, Mrs. Clarence Barrett was awarded for high score and Mrs. Jack Dunn for high among the guests, and refreshments were served in two courses.

Mrs. A. B. Goldston, Mrs. M. C. Overton, Jr., and Mrs. Jack Dunn were the special guests, while members attending were Mesdames H. Otto Stader, Clarence Barrett, Arthur S. Swanson, John Sturgeon, Julian Barrett, B. C. Low, W. M. Lewright, W. H. Curry, Buck Miller, J. M. Lybrand, Henry Charles, Roy Wight, and Miss Margaret Cullick.

MRS. LEDRICK HAS PARTY FOR CLUB

Complimenting the Tuesday Afternoon Bridge club, Mrs. P. C. Ledrick entertained with three tables of bridge. She employed the St. Patrick theme in game appointments, table decorations, and refreshments.

Mrs. Lee Ledrick scored high among the guests, and Mrs. Roy Bourland held high score among members. Others attending were Mrs. Dade Balthrope, a guest, and Mesdames Elmer Elliott, Carl Bos, F. M. Culberson, Floyd McCon- nell, Roger McConnell, Felix Stalls, Skeet Roberts, Jim White, and Sherman White.

Rev. Fieler Is School Speaker

The Rev. O. E. Fieler of Perryton spoke to San Houston school pupils at their chapel period this morning at 9 o'clock.

Magazine Binding Is New Service For Pampa Women

If a magazine is worth reading, it is worth keeping. The commercial printing department of the Pampa Daily News has begun a new service—magazine binding—which promises to be of special interest to Pampa club women, and other women who are well-read. Bound magazines, especially if they are indexed, become libraries in themselves.

Magazines of six months, or even a year, can be permanently bound into one volume by The NEWS, and such additions to one's library become of endless pleasure and value.

Miss Ruby Adams went to Panhandle this morning.

R. C. McCubbin of LeFors was a Pampa visitor yesterday.

BRINGS SOCIALIST'S ZEAL

FRANCIS PERKINS, secretary of labor in the Roosevelt cabinet, is used to desks loaded with many problems. Long experience in dealing with industrial relations and problems in New York state is expected to aid her in the new post.

NEW YORK, Mar. 8. (AP)—America's first woman cabinet member has an eager eye for such things as shop windows filled with bargain price frocks.

To Frances Perkins, new secretary of labor, price tags unreasonably low suggest the possibility of sweat shop conditions for the girls who make the dresses.

New York, under the direction as state industrial commissioner, has been active in attempting to eradicate the sweat shop.

Hers Is Many-Sided Attack

Not only sweat shops, but old age pensions, unemployment insurance, minimum wage laws, labor exchanges, fuller statistics on unemployment—all of these items which have engaged her attention on a state-wide scale now become points of attack on a national basis.

WEST TEXANS ADVANCE TO THIRD ROUND

TALLEST TEAM MEETS MISSOURIANS AT 4 p. m. TODAY

KANSAS CITY, March 8 (AP)—Two semi-finalists of last year's tournament will battle tonight for a quarter-final berth in the A. A. U. National basketball championships which swung into the third round with only two favorites in the discard.

The headliner contest is between Schuessler Athletic club of Chicago and Southern Kansas state lines of Kansas City, the same teams which a flock of new faces—which fought it out for third place last year in the playoff game between the defeated semi-finalists.

It occupies the "spot"—9 p. m.—because they played a closely contested game a year ago with Schuessler victorious, 26-24.

Likely contenders dropped by the bye yesterday were the Brown Paper Mills of Monroe, La., and Dakota Wesleyan of Mitchell, S. D.

The Wichita (Kas.) Henrys, defending champions, were favorites to advance to the semi-finals after having easily bowled over their first and second round opponents.

Last night they defeated the Ascension club of Minneapolis 47-21. The Henrys have a third round engagement today with the Grindley Motors from their home town.

Second round results yesterday: Warrensburg, Mo., Teachers 36; Brown Paper Mills, Monroe, La., 30; Grindley Motors, Wichita, Kansas, 40; Edenside club, Louisville, 29; Schuessler, A. BABE 'RAZZED' AND PRAISED

Writers React Differently To Ruth's Demand That He Must Have \$50,000.

NEW YORK, March 8 (AP)—Babe Ruth's flat announcement that he would retire from baseball rather than sign a \$50,000 contract with the New York Yankees has met with widely differing reactions from major league baseball observers.

Some took the position that Ruth, as the greatest drawing card in the game, was worth as much money as he could get. A somewhat larger percentage believed the slugger was pursuing a poor policy in view of the financial situation.

One of the Babe's strongest supporters was Neal O'Hara of Boston. Writing in the Boston Traveler, O'Hara quoted the huge salaries paid radio and motion picture luminaries and said:

"This is no time to try chiseling the real stars, especially when the stars are as well heeled as Ruth. The Yankees will need Babe in these whacking hitters this year you can bet. It is an axiom of the amusement industry that in tough times it takes the topnotchers to lure them to the box office."

Ed Pollock, sports editor of the Public and Evening Ledger, Philadelphia, was in accord with the viewpoint and said he thought Ruth "is worth as much as he can get."

Stony McLinn, columnist of the Philadelphia Record, took the other side of the question.

"Babe Ruth should consider himself lucky to be able to get \$50,000 for one season in these days of depression," he said. "He should take it and shake hands with himself and thank Col. Ruppert for making the ante that high. The Babe has made more than a million out of baseball when the making was good, and there's no reason why he should string along with the rest of us now. Fifty grand is a lot of money and the Babe will make a mistake if he doesn't grab it."

James W. Gantz, sports editor of the Philadelphia Record, called Ruth a "bull in a barn market" and added that the "day is past when he can strangle his terms and have them met because of his drawing powers at the gate."

HARVESTER GRID TEAM FOR 1933 REPORTS FOR PRACTICE

Coach Not Disappointed As Boys Show Fair Ability In Initial Workout.

Future Harvester football boys went into practice with a vim yesterday afternoon as the experienced boys joined the "greenies" who have been out for the past two weeks.

Assistant Coach Argus Fox, in charge of spring training, started the session with a lengthy session of calisthenics, which, in the opinion of the red birds, is the right way to get a football squad into condition.

The coach then followed up with blocking and charging exercises that made his eyes sparkle. There were several boys on the lot that looked better than the veterans at the same stage of training last year.

Coach Fox would excitedly remark to Principal L. L. Sone or the writer that "there is a real tackle prospect" or "how does that boy look for a guard?"

Although a number of little fellows turned in their uniforms after the game last Friday, more than 80 boys were in uniform yesterday afternoon. The boys who got out of school at 3 o'clock worked on exercises and they "played" while the second group went through their work an hour later. The play was anything but easy. It consisted of carrying the ball, tackling, and running interference.

MICHAEL AND KID GRANITE TAKE EVENTS

WRESTLING PROVIDES MOST EXCITEMENT OF EVENING

Pampa "sport lovers" called for blood last night at the first American Legion Athletic show in the Pla-Mor auditorium and were rewarded twice but all danger of knockouts was missing. They apparently remembered the type of wrestling they had been getting in the past, with more fist and feet than science.

However, Red Michael and Tex Thrower, Berger ice man, gave them what they wanted in a wrestling match that was partly on the mat and the rest of the time on the floor. Had it not been for Dr. V. E. von Bruhin, fans would not have seen very much of the affair.

The doctor stepped in and separated the two maulers, who were on the floor as a result of the red head's throwing Thrower through the ropes. The Berger boy went back into the ring with a chair which Red kicked back at him, only to have his foot caught and himself dragged through the ropes.

Referee Oscar Dotson was loath to get down on the floor with the pair, having been knocked nearly out of the ring in the first minute of "play." The match was a grudge from the first hold and honors were about even for the first five minutes, when many holds were exchanged. Then the ice man got mad and the redhead followed his example. The Pampa boy nearly lost out when he Schenbergered Thrower and went into the crowd. However, he came back to take Thrower for an airplane spin and then slammed him for the fall in 12 minutes.

Kid Finishes Well

Old Kid Granite took the main event from Wildcat Balls with a strong finish after a lagging start. Balls was not exactly in condition and instead of following his handler's advice, he rushed the veteran during the last three rounds to get the worst of the slugging. The boys started out in a fight which failed to please the crowd. Granite worked to the stomach while Balls tried for the head. Experience told, and the Kid covered up well. The boxers stood toe to toe in the fourth round out of three from the Country. Fred Fischer of the Thirty Fighters took high series score with high single game.

MADAM SECRETARY

WASHINGTON, March 8 (AP)—The first woman cabinet member took over her office today and immediately set two rules: Her name was put down in the labor department's files as Frances Perkins, and she decided she should be addressed as Madam Secretary.

She credited coinage of this title to Henry T. Rainey, who is to be speaker of the house in the new congress.

THOSE I. O. U.'S

DALLAS, March 8 (AP)—Reports went the rounds today that Texans might do well to revise their state song a bit. Some suggested that the "The I. O. U.'s of Texas Are Upon You" would be more appropriate than "The Eyes of Texas Are Upon You."

Edwina is the name given to the baby girl born to Mr. and Mrs. S. T. Beauchamp Sunday in Worley hospital. The baby's grandmother, Mrs. W. E. O'Neal of Mineral Wells, is expected in Pampa Friday.

The next round was wild and woolly with honors again even. However, Balls spent himself and the Kid walked to the front in the eighth and ninth when he beat Balls to the punch repeatedly. The last round started fast with Balls leading but he faded and Granite finished strong. It was Granite's 35th fight.

The Kid showed his old-time caution and ability to cover in tight places, but his lack of speed was noticed. He is going into politics now, having announced for city marshal of Hobart, Okla., and Pampa fans are behind him. Rusty Cahill referred the bout and was cheered loudly.

Slow, Cautious Fight

The battle between Joe Vernon, substituting for Johnnie Peltz, and Sammy Squires, local boy, was a slow, cautious affair that was anybody's battle. Squires covered a lot to escape the long punches thrown by Vernon, but he stepped through to get in many effective blows. Vernon's reach gave him the advantage and he jabbed at Squires' head, but mostly found it gone.

Both boys showed flurries in the fifth and sixth rounds that saved the day. Vernon opened an old cut over Squires' eye in the last round and the blood poured freely.

Blood Flows Freely

The bout of the night saw Orin Bowers of Berger and Virgil Eckroft of Clayton, N. M., stand toe to toe for four rounds and never stop slugging leather. The Berger boy had all the advantage the first two rounds and had Eckroft bleeding freely in the first round. However, the Clayton youth came back strong to take the last two rounds. Bowers had the advantage of experience but the Clayton youth had the stamina and fight that appeals to the crowd.

Tuffy Simons of Berger started the second preliminary bout with Ray Young of Perryton like fire and took the first two rounds but Young came back to have all the advantage of the last two rounds. The youngsters put up a real battle that started the night out in fine style.

Kid Mix of Berger and Baby Martinez, local flash, went four rounds of fast boxing. Mex outweighed the Pampa boy but he didn't have the fight the little fellow displayed. The kids went hammer and tongs for the distance. Sammy Carlton was the third man in the ring for the first four bouts.

The next athletic show will be one week from tonight.

TWENTY-EIGHT BOYS OUT FOR TRACK SQUAD

GOOD MATERIAL SHOWS UP FOR FRST PRACTICE

Twenty-eight prospective track and field men reported for practice yesterday afternoon in answer to Coach Odus Mitchell's call for candidates. It was the first real practice of the season. Several of the boys had been working out for the past week and showed good condition.

Coach Mitchell devoted the practice hour to showing the boys positions for the various events and in having them go through limbering-up exercises. The boys then went to the gymnasium and exercised on the parallel bars before their show-up.

The team will have to be developed in a hurry and little preliminary work will be undertaken. The first meet of the season will be March 18 with Amarillo coming here. The Amarillo team has been working for several weeks and is reported in excellent condition.

Several new boys showed plenty of ability in their exercises and should give the veterans plenty of trouble. Only fourteen of the boys were out for the team last year. One boy who was missing and who was expected to make the distance events with ease was Bill Seeds. He threw a knee out of joint and will probably be out for the entire season.

The squad will be allowed to mill around for a couple of days before being divided into divisions. However it is a well known fact that Leon Robinson, Orville Heiskell, Dick Sullins, Bert Stevens, and Ralph O'Keefe will be devoting most of their time to the dash events. Wayne Kelley and Miles Marbaugh will be hurling the javelin and Robert Woodward, and

West Texas Loop Meeting Delayed

AMARILLO, March 8 (AP)—Wilbur C. Hawk, president of the newly organized West Texas-New Mexico baseball league, yesterday for the second time postponed the meeting of officials at which forfeit bonds were due to be posted.

"I believe it will be a good idea to declare a holiday in league activities until the present financial situation is allayed," he explained. Amarillo, Lubbock, El Paso and Albuquerque, N. M., are initial members of the league. Plans are being made to form a team also for Roswell, N. M.

Emmett Gatcher is in Amarillo today.

Ralph O'Keefe will be looking into the jumping events. Marbaugh will work with the discus and. Kelley will likely do some high jumping along with Clinton Adair. Jack Bovington is the veteran distance man. Fullingim will be out for the hurdles.

Reserve Banks 'Invited' To Put Money To Circulating

CURRENCY FOR GOLD IS NEW WOODIN ORDER

SCRIP IDEA BEGINS TO WANE AS NEW PLAN IS ANNOUNCED

WASHINGTON, March 8. (AP)—An invitation to trade frozen gold for currency to finance essential everyday affairs, such as the meeting of payrolls and food purchases, was put today before the vast Federal Reserve system.

The invitation—almost a direction—was in the form of new regulations sent to Federal Reserve banks by Secretary Woodin of the treasury. Briefly, he told reserve banks they could give currency to members for "absolutely necessary" purposes in exchange for gold or gold currency.

Since President Roosevelt's drastic proclamation Sunday night, the gold reserve member banks held had been so locked up as to be virtually useless for currency purposes. Under the new regulations, however, it may be traded to the reserve banks for currency to carry out the limited operations already approved by Secretary Woodin.

There were indications that this new gold-currency exchange order was to be coupled with an effort to obtain expansion under the Glass-Steagall act, which became a law a year ago. Under this act, reserve banks were authorized to issue currency based on 40 per cent gold and 60 per cent to be supplied by eligible commercial paper, and it was argued that currency expansion under that provision would tend to restrict credit by tying up more of that class of paper.

More Money In Circulation. Until President Roosevelt declared his gold embargo, however, few banks had taken advantage of the opportunity to use excess gold for additional currency. Administration officials apparently hoped that with the permission to transfer free gold to Federal Reserve banks and get currency in its place, a wider utilization of this power would result.

Clearing House associations in various parts of the country were preparing issues of scrip, a special "money" which may be paid out under the authority of Treasury Secretary Woodin starting tomorrow, but, with the Federal Reserve banks beginning for the first time this week to provide member banks with currency for necessities, the scrip idea began to wane.

Plan Gaining Ground. In both Washington and New York, the opinion that the Federal Reserve system provided a ready-made means of emergency issuing of currency was said to be gaining ground, while the plan of having regional clearing house groups issue scrip or certificates had become involved in difficulties when means were sought to make such a medium nationally negotiable.

The order issued by treasury Secretary Woodin, providing for resumption of reserve bank operations, was first made public late last night by the New York Reserve bank and, among other things, that a Reserve bank may not make advances to a member until the member has exchanged all of its gold and gold certificates for other currency. Furthermore, suggestions to tax gold or make it acceptable only at a discount after a certain date have been discussed as measures to bring the metal out of hoarding. The New York Federal reserve bank has for years made it a practice to take names and addresses of persons withdrawing substantial amounts of gold.

DEATH FOR ASSASSIN. AUSTIN, March 8. (AP)—A bill to provide the death penalty for attempted assassinations such as the recent attempt on the life of Franklin D. Roosevelt was introduced in the Texas senate today. The proposal was offered by Senators Clint C. Small of Amarillo and Walter Woodul of Houston.

he can refuse a woman's request for free publicity without making all the members of her set mad at the paper; if he can react to the loss of a good news story and catch a better one on the rebound; if he can explain a typographical error without using up more than 30 minutes' time; if he can concentrate and write intelligent copy while three different conversations are going on around him, several typewriters clicking away, the telephone ringing and the subdued hum of the presses in the next room drumming on his ears; if he can explain why Mrs. Jones' poem on "The Sylvan Depth of October Woods" did not appear in the paper without her husband stopping his advertising; if he can take a four-line story and spread it to a column, or take a two-column story and condense it to two paragraphs; if he can read proofs without overlooking an error and write headlines without murdering the king's English; if he has a nose for news, an itch for writing and an inclination to work fifteen hours a day, then we'd advise him to get into the game.

SCHOOLBOY IDEA.

From a schoolboy's essay on editors: "Newspapers are sheets of paper on which stuff to read is printed. The Bible says nothing about editors and I never heard of one being in heaven. I guess the editor is the missing link between fellows talk about. The first editor I ever heard of was the fellow who wrote upon the Flood. He has been here ever since."

"Some editors belong to church and some try to raise whiskers. All of them raise hell in the neighborhood and all of them are liars, at least all I know and I only know one. Editors never die. At least I never saw a dead one. Sometimes the paper dies and then the people feel glad, but some one starts it up again. Editors never went to school because editors never get licked. Our paper is a mighty poor one, but we like it so we can use it on our pantry shelves. Our editor didn't amount to much but paw says he had a poor chance when he was a boy. He goes without underclothes in winter, has no socks, and has a wife to support him. Paw hasn't paid his subscription and doesn't intend to."

THE WOMAN OF IT.

Opposed instantly by organized labor, Miss Frances Perkins (Wilson) may surprise labor with the zeal she exhibits for better conditions for working men, women and children. Her sin is that she is not a union laborer of the ranks, with a record of direct allegiance. Her record in New York is good, and she is said to have perhaps the best female brain in public service. Mr. Roosevelt is said to deny that he chose her as a gallant tribute to women in business and public life.

LEADERSHIP AS NEED.

It will be pointed out by republicans that Mr. Roosevelt will not sit down at the cabinet tables with the type of strong and fearless leaders whom the boasted party during the political campaigns. That is true, yet no president ever found the public-minded men of the nation more eager to contribute their full measure of intelligence in order that the nation's jobless may obtain work. As a matter of truth, Mr. Hoover had fully adequate advice, but he personally lacked the ability to choose the courses which Roosevelt is charting, and keep the leadership to project the nation along a fearless course.

THE REAL HOOVER.

Mr. Hoover was not without leadership in his immediate administrative family. He dominated those who worked with him to a greater degree than the nation realizes. Had he had the luck Mr. Coolidge had, he would be regarded as a great and mighty man. History will weigh and record what we of this troubled age are not ready to recognize—that Mr. Hoover had a very high conception of government and that he projected many movements for purpose of translating these ideals into realities. While he could not meet the depression as Mr. Roosevelt aspires to meet the current crisis, he measured up to other demands of the presidency in a way to impress the future historians, who will see the depression from an international standpoint. Ultimately, this nation will realize that it expected far too much of Mr. Hoover, that it is now expecting too much of Mr. Roosevelt, and basic changes in the governmental structure will be adopted.

WHEN HOUSE LEADERSHIP PASSED TO RAINEY

EMBLEMATIC of the "new deal" as applied to Congress was this scene in which Speaker Garner, the new vice president, passed on his gavel to Rep. Henry T. or making the other fellow mad; if sued earlier, explaining that all cash advanced to meet payrolls would be restricted to 20 per cent of the payroll total and would be made only on employers' affidavits of urgent necessity. A misunderstanding led many persons to present individual pay checks at the tellers' windows when the banks opened at 9 a. m. Virtual abandonment of the discussed plan to issue scrip was reported at noon, following the Washington announcement of Woodin that he thought the substitute currency would be unnecessary.

Thirteen Houston banks began business but received applications for withdrawals for emergency purposes, to be passed upon by bankers at an emergency bureau. The applications were in the form of affidavits. Galveston established a clearing house where depositors also were required to make affidavits as to their immediate needs. Lower Rio Grande valley institutions also opened for the first time since last week.

San Antonio's banks likewise opened under restrictions. Amarillo banks, through their clearing house association, were preparing plans for reopening Friday. They intended to resume business on a unified and cooperative basis. They already had established money changing headquarters and were permitting access to safety deposit vaults. Amarillo financial leaders considered that no emergency situation existed there as in some eastern cities for drafts covering foodstuffs and other necessities.

The Eleventh District Federal Reserve bank at Dallas was open for the restricted business it was called upon to transact in assisting member banks. The authority to reopen also applied to branches in Houston, El Paso and San Antonio. After an extended conference among bankers at Ennis, the announcement was made that two banks at Ennis and others at Bardwell, Palmer and Ferris would open, with restrictions, tomorrow. Scrip flowed freely in Borger business channels as wholesalers agreed to accept it from merchants. Scrip to the value of \$5,200 was issued yesterday, backed by industrial company checks. It was used almost altogether and the financial tension of the last several days was somewhat relieved.

which reach this office and reach the field offices are in regard to "speakeasies." Woodcock said in a statement this forenoon.

"In the future the officials of this bureau must refer such complaints, in the main, to the local authorities. It is to make this fact clear that this statement is made."

"Since the bureau will concentrate its attention upon the sources of supply in the future, it should be much more effective against them."

"While it will not operate very effectively against speakeasies themselves, it should operate much more effectively in the future than in the past upon the sources of supply of such speakeasies."

"If the local authorities care to assume their share of responsibility it would seem the good rest Congress has, in its wisdom, placed in the law, will effect a fairer distribution of responsibility than has been possible under mere administrative action."

Mr. Walker was advised as follows: "You are advised that the sum of \$8,000 has been allocated by the Reconstruction corporation for relief of destitution in your county during the month of March."

"Because of the proclamation of the president of the United States declaring a bank holiday, it is impossible to transfer these funds to your account until the general banking situation is clarified, or some specific provision for the handling of relief funds are authorized.
