Official County Paper of Ochiltree County

Official Paper of City of Perryton, Texas

PERRYTON, OCHILTREE COUNTY, TEXAS, THURSDAY, APRIL 4, 1940

NUMBER 14

## Census Taking Gets Under Way Here Tuesday

### Bank Statements Paint A Strong Financial Picture

#### Deposits On Increase As Loans Fall

Figures Compare Favorably With Last Year Report

Financial reports of the First and Perryton National Banks show a vivid picture of financial stability in this area with a substantial increase in deposits and cash and sight exchange on hand over the corresponding period in 1939. Loans are down a contrast with the increase, which may be considered an accurate barometer of business conditions.

Total deposits in the two banks of March 26, 1940, were \$826,175, compared with \$585,459.31 for the same date in 1939. This means an increase in deposits of \$240,716.44. United States Bonds and other securities, cash and sight exchange of the two banks doubled that of 1939 with \$519,956.14 as compared with \$254,770.34. This is an increase of \$265,185.80 on hand, indicating a still more favorable picture to the picture was a decrease in loans and discounts from \$349,498 in 1939 to \$396,332.68 in 1940, exactly \$27,152.30 less than the corresponding period.

#### Sun in Eclipse by Moon Sunday, April 7

Residents of this area will be in on one of the most nearly complete eclipses of the sun in recent years, when the moon passes between Old Sol and the earth Sunday, April 7, for an annular or ring eclipse.

Observers say that the moon's disc will cover approximately 86 per cent of the sun, producing a pronounced twilight effect during which the atmosphere will have a peculiar transparency, tinted an eerie, greenish yellow.

The full magnitude of the show will be evident to about 2,000,000 Americans living from Texas to Florida, and varying degrees of the moon-made dusk will be observed over virtually all of the North American continent and in northern areas of South America.

The last annular spectacle was seen in this county in 1865, and there will not be a repeat performance until May 10, 1994.

#### Funeral Rites Held Sunday

Friends of W. W. McLarty, a pioneer of Ochiltree County, gathered Sunday afternoon in the First Baptist Church for impressive funeral services conducted by Rev. P. E. Yarborough, Methodist pastor, and Rev. Leon Berry, Christian pastor. Interment was in the Ochiltree Cemetery.

A male quartet composed of Omar and Heno Truax, Roy Hogland and Robert Lawrence sang his favorite hymns, "Have Thine Own Way, Lord," "Nearer My God to Thee" and "Going Down the Valley" with Mrs. A. P. McCelvey at the piano.

The floral offerings were indeed beautiful and were carried by Mrs. Ralph Taliaferro, Mrs. Dean McLarty, Mrs. LaRue Norris, Miss Beth Richardson, Miss Alta Todd, and Miss Mary Hibbs. Nephews acting as pallbearers were G. A. Rupprecht, Earl Glasgow, Jack Lovett, Dean McLarty, Elmer Rupprecht, and Billy Glasgow. Honorary pallbearers were J. S. Talley, Geo. M. Perry, J. B. Cartwright, R. T. Shindler, W. B. Dennison and J. W. Richardson.

#### Obituary

William Winn was born to T. S. and Madora Winn McLarty on October 22, 1873, Douglasville, Ga., and passed away in Perryton on March 28 at the age of 66 years, 5 months and 6 days.

He came to Texas with his parents in 1890 and settled in Briscoe County, moving to Ochiltree County in 1898, where he since made his home.

He was married to Miss Selma See No. 5, Back Page

#### Organize Sons of The Legion Squadron in Perryton

A Sons of the Legion squadron was organized at the Monday night meeting of the Pierce Johnson Post of The American Legion. Officers as follows were elected: Harold Hudson, Captain; H. D. Hearn, 1st Lieut.; Clifford Gyger, 2nd Lieut.; Clinton Hearn, Adjutant; Sidney Murel Jines, Finance Officer; John Luthi, Sergeant-at-Arms; Billy Herndon, Chaplain; and Jack Morris, Allen, Historian.

The charter application has been forwarded to Austin and caps ordered so that the boys will have them to wear at the 18th District convention in Perryton on April 27-28. Plans are being made for the organization of a Drum and Bugle corps. Forty-six members have already joined the Squadron. Only sons of American Legionnaires are eligible for membership. The age limit is one minute up.

Boys who joined Monday night are: Alfred K. Dowers, Paul D. Dowers, Sidney Murel Jines, Dudley Hargrove, James R. Woodworth, Jimmie Lee Hudson, Ralph Wilson Allen, Jimmie Boston, Gale S. Rogers, William H. Flowers, Wayne See No. 6, Back Page

#### County Wide Sing-Song Is For April 12

The County Council of Parent Teachers is sponsoring a program of songs to be held in the school auditorium on Friday evening, April 12. This is the second year for a program of this nature and from reports school children over the county are looking forward with much enthusiasm for this second meet.

Each school will have one special number, either music or reading, which will not exceed ten minutes to give and the entire group will sing several selections. The numbers to be sung in union are "Oh, My Darling Clementine," "Morning Hymn of Praise," "Old Black Joe," "The Eyes of Texas," "Playtime Song," "America" and "Row, Row, Row Your Boat."

Mrs. P. B. Sumpter, president of the County Council, states that all schools of the county are cooperating in this movement and a profitable evening of entertainment awaits the public on April 12.

#### Judge Allen Trims Hutchinson Docket

Clogged with 358 cases a little more than a year ago, the docket of the Hutchinson County district court at Stinnett has been trimmed until a little more than one hundred cases are listed.

Court observers credit Judge Jack Allen with much of this gain in disposing of carried over litigation.

When Judge Allen came into office in January, 358 cases were docketed. When the present term of court closes tomorrow there will be only 110 cases unruly upon. Thus the court has gained 248 cases on the backlog. In the present term the court has disposed of 77 cases.—Borger Herald.

#### Mrs. J. J. Dobbs Dies at Waples

Funeral services were conducted for Mrs. J. J. Dobbs, age 64, at the First Christian Church of Waples this week-end with Rev. J. D. Pummill in charge of the services. Burial was made in the Miller Cemetery, Hood County. Mrs. Dobbs, who was the mother of Claude Dobbs, Mrs. Johnnie Jines and Mrs. J. A. McClung of Perryton, passed away at her home in Waples, March 25.

A host of relatives and all seven children attended the funeral and four daughters were at her bedside when she passed on.

She is survived by her husband; three sons, H. L. and Vance Dobbs, Los Angeles, Calif. and Claude Dobbs, Perryton; four daughters, Mrs. Maude Wright, Los Angeles, Calif., Mrs. Johnnie Jines and Mrs. J. A. McClung, Perryton, and Mrs. Bill Spencer, Las Animas, Colo.; fourteen grandchildren and three great grandchildren. Also one brother, L. M. Miller who lives in Granbury.

Everything for the business office at Stewart Printing Co.

#### Third Grade Hold Open House and Pot Luck Supper at School Thursday Nite

Open house was held Thursday night, March 28, for the parents and friends of the third grade and the pot luck supper in the cafeteria, a classroom teaching demonstration was given by the third grade teachers, Mrs. Dorothy Dunlap and Miss Ethel Watson.

The room-mothers are to be commended on their work in planning the menu, thereby making the supper a success. Third grade room-mothers are Mrs. I. R. Buchanan, Mrs. Glen Shrader, Mrs. L. L. Willis, Mrs. G. M. Dietrich and Mrs. W. L. Herndon.

#### Lions Entertain Basketball Girls

The Perryton Lions Club was host to 29 members of the girls' basketball team of the Perryton schools and their coach, Miss Oleta Kelley, with an annual banquet and ladies' night Tuesday evening in the Hotel Perryton. There were approximately 70 persons present to hear Jack Atkins, Borger basketball coach, deliver the principal address. Lion President A. P. Spicer was toast-master.

The program was as follows: Opening song; Invocation, Lion Oscar Flowers; Welcome address, A. P. Spicer; Response, Hazel Cook; vocal solo, "Hawaiian Paradise," Suzanne Sellers, accompanied at the piano by Mrs. A. P. McCelvey; vocal solo, "Careless," Earline Ballard, accompanied by Ona Grace Francis; principal address, "Sportsmanship in Athletics and Effect in Later Life," Jack Atkins.

Lion Ralph Headlee was awarded a bronze medal for work during the recent membership drive.

#### Joint Meeting of Council & Chapter

Mrs. A. J. Kelly, president of the Ochiltree County Chapter for the Prevention of Infantile Paralysis, and A. P. Spicer, president of the Ochiltree County Coordinating Council, announce a joint session for the organizations in the court-house on Monday evening, 7:30 o'clock.

Important business will be discussed and all members and anyone else interested is urged to be present. Mr. Spicer states that ways and means for helping with a county library will be brought before the Council.

#### Old Age Pension Office is Opened

Miss Irene Knight, old age assistance worker serving four counties will make headquarters in Perryton effective April 1. She will consult with those seeking information about old age pensions here the second Tuesday of each month at the county welfare office. The four counties which she serves are Ochiltree, Roberts, Hemphill and Lipscomb. Miss Knight was formerly located at Canadian.

#### Hancock Funeral To Be Held Friday P. M.

Funeral services will be held Friday afternoon, 2 o'clock in the First Christian Church for Mrs. Laura J. Hancock, age 81, who passes away early this morning, Thursday, following an illness of several weeks. Leon Berry, pastor, will officiate.

Mrs. Hancock was born in Mississippi on May 16, 1858. She moved with her family to Ochiltree County in 1911 and has since made her home on a farm in the southwest part of the county. Mr. Hancock passed away in 1911.

Survivors are three sons, Johnnie Hancock, Perryton, Joe Hancock, Nacona, Texas, and Walter Hancock, Venita, Okla.; three daughters, Mrs. Rette Bryant, Perryton, Mrs. C. E. Bryant, Shattuck, Okla., and Mrs. Beedie Allree, Wilson, Okla.; several other relatives and many friends.

#### Summer Round-up for Pre-School Age Will Be Sponsored by PTA Council

#### Aldermen Are Returned to Office Tues.

G. T. Leatherman, Sam Herget and J. A. Graves were returned as city aldermen for a two-year term at the election held Saturday at the city hall. The names of the above aldermen were the only candidates named on the ballot and were placed there by friends. Little interest was shown in the election with only 134 votes cast.

Holdover members with one more year to serve are Howard Holt and Frank Dodson. Mayor Forbes and City Clerk M. M. Cudd each have another year to serve.

Votes were canvassed at the meeting of the city council Tuesday night and those elected will take office immediately.

Election judges were: J. N. Conley, presiding judge; J. W. Richardson, judge; Mrs. E. M. Allen and Clarence Neufeld, clerks.

#### Bowlers Meet Here Sunday

Invitations have been sent to 32 towns in this area to participate in Perryton's spring "Duck Pin" Tournament of men's teams and individual play at Ranger Alley Sunday, April 7, according to T. D. Moss, manager. It is thought that the majority of the towns invited will be represented in the play which starts at 9 a. m. The competition will be handled on match play basis. Persons and teams entering will draw each time for opponents.

Much interest has been shown in requesting the local alleys to hold the spring tournament by surrounding towns because of the number of alleys available at the Ranger Alley.

Entry fees will be \$1.00 per person, limited to seven per team, and 50 cents extra for a chance at the individual prizes. Cash awards will be made in both team and individual play.

The public is invited to attend as a score of crack teams are expected to be in attendance and they will furnish some good entertainment.

#### Rangers Open Grid Season

The Perryton Ranger football team opened spring training at Ranger Stadium Monday to prepare for an attempt to live up to a heavier and more experienced team's record last year in winning the championship of Region One. Sixty-five uniforms were issued by Coaches Otis Burk and George Philbrick to a team that is expected to be built around three lettermen returning for the 1940 season, Willis Neal Liddy, Tom Ben Boston and Chellie Gidley.

One month of extensive training will be conducted and it is probable that another crack team will take the field against all opponents in the battle for glory next fall.

Outstanding men to strengthen the line of offense will include Gene Lawrence, Emil Reimer, Charles Linville, Robert Werneburg, H. G. Evans, Ray Schwab, Willis McCoy, Johnny Luthi, Leroy Halsey, Jack Allen, Charles Shepherd and Joe LaMaster.

The Ranger schedule for 1940 follows: Sept. 30—Dalhart\* Here Sept. 27—Shamrock\* There Oct. 4—Wellington\* Here Oct. 11—Canadian Here Oct. 18—Tulia\* Here Oct. 25—White Deer Here Nov. 1—Spearman Here Nov. 8—Phillips Here Nov. 15—Panhandle There \* Non-conference.

#### Food Sale Saturday By Nazarene Ladies

The ladies of the Nazarene Church will hold a cooked food sale in Bryan's Food Store on Saturday, April 6. Homemade pies and cakes will be on display. Take one home for your Sunday dinner.

### Enumerators Begin Canvass of Perryton and County's Inhabitants Under Carroll Smyers

Common sense has apparently overcome the bugaboo regarding the too personal questions being asked by census takers, Carroll Smyers, district census supervisor, announced here Wednesday afternoon following a report from several workers in Perryton, who started work compiling figures on Perryton's population Tuesday.

"Is that all the questions you are going to ask?" is the remark heard from most persons interviewed, according to the enumerators. "Why we thought we would have to give access to all our family records and secrets," remarked one head of a family. "The questions are few and seem fair enough to me."

"Persons who have been contacted in the census which started in Perryton Tuesday have been exceptionally cooperative," Mr. Smyers said. "We urge everyone to cooperate in making Perryton's census the outstanding one in the country."

In this vicinity county appointees named by Smyers following competitive examinations held in the high school auditorium were: Ochiltree County: Sherwood Johnson, Herring Lance, Harley H. Stump, Margaret Rupprecht, Robert H. Moore and F. M. McGee. Hemphill County: Austin G. Caldwell, Welford L. Helton, Troy Dean Newton and Gerald Sprague. Hansford County: Mathew R. Grandon, Spearman; Mrs. John H. Spivey, Gruver; Jesse E. Womble, Spearman.

Lipscomb County: Joseph Howard Carter, Darrouzett; Francis M. Simpson, Darrouzett; Mrs. Nawas V. Whalley, Pollett; Mrs. Francis T. Owens, Canadian.

Now is a mighty good time for everyone to burn the weeds that are piled up in the fence rows. Seems like the accumulation is greater this year than ever before. There is no question but what that millions of insects can be destroyed by burning the weeds at this time.

The great success of Herald newspaper advertising was demonstrated again last Saturday when an estimated 1,500 people attended the Goodrich Store opening in their new location in the Hotel Perryton building. The only publicity on this opening was carried in the Herald. No hand See No. 4, Back Page

#### Spearman Man Heart Victim

Frank Hardin, age 49, prominent business man and a member of city council of Spearman, died suddenly Wednesday afternoon, March 27, at his grain elevator following a heart attack. Beside running his grain and oil business in Spearman, Mr. Hardin was owner of the Hardin Grain and the Sinclair Wholesale of Perryton.

Short funeral services were held Friday afternoon, 1 o'clock, in the Edgar Wamble home, Spearman. The body was then taken overland by the Wilson Funeral Home to the former home in Tulsa, Okla., where church services were held Saturday afternoon. The remains were in charge of the final rites at the Lenora Cemetery, where the remains were laid to rest in the family burial plot.

Mr. and Mrs. W. A. Cone, accompanied the family to Oklahoma, returning to Perryton Sunday evening.

#### Car Licenses Show Gains

Following the trend of steady gain, 1940 shows an increase of license plates for motor vehicles operated by car owners in Ochiltree County, according to J. S. Talley, sheriff. On April 3, 1,213 plates had been sold as compared with 1,115 April 1, 1939. Of this year's number sold were 948 for passenger cars, 107 for commercial trucks and 158 for farm trucks.

This was an increase of 78 licenses over last year. On April 1 last year 903 passenger cars, 90 commercial truck and 130 farm trucks were registered.

Officials said that a penalty would be assessed on all vehicles operated without license after April 1. No penalty will be added on cars or trucks not operated, since the first of the year but will be subject to a deduction by months of the year not operated.

#### To Elect School Trustees Saturday

Elections for school trustees of the Perryton Independent District and the other consolidated and common school districts of Ochiltree county will be held on Saturday, April 6.

There will be three trustees to elect in the Perryton district and the only names to appear on the ballot will be the three members whose terms expire: Dr. Maude Wood, W. C. Bryan and J. H. Neufeld. Their names have been filed for reelection by friends and they have agreed to serve if reelected.

Election boxes for the Perryton school with Sam Hrgert in charge; and at the Parnsworth school with L. R. Conner presiding.

County Schools Trustees of the various common and consolidated districts whose terms expire this year include: Ridge: Fred Turner, secretary; Taz: Harry Brummett, secretary; Blodgett: W. M. Deck, secretary; Black: L. P. Brown, president; Hinton: A. C. Emberson, secretary and J. W. Day; Alfalfa: J. W. Daniel, president, Cedar Bluff: A. L. Swink, secretary; McMillen: Delbert Davis, secretary; Lakeview: Knox Pipkin, secretary; Waka Independent District: J. B. Wiebe, president, and Ray G. Burger.

#### Goodrich Store Has Open House Saturday

More than 1,500 persons from Perryton's trade territory filed thru the Goodrich Store in their new location in the Hotel Perryton last Saturday, according to Jack Smith, manager. The occasion was the grand opening and open house held by the organization.

In addition to being highly entertained with music by the Perryton Playboys in the evening, favors and novelties were given those attending. P. E. Gidley received the beautiful Mantola home radio given away absolutely free at 9 p. m. There were 967 registered for the gift.

The management expressed appreciation at the interest shown in the opening of the store and said that the change had been made in order to increase stock to better serve customers in this area.

#### Perryton Markets

| Thursday, April 4, 1940 |        |
|-------------------------|--------|
| Wheat                   | 86     |

KATHLEEN ALLEN

um," an overture by Erik W. G. Leiden and "The Little Giant March" They will also participate See No. 1, Back Page

#### New CCC Camp Head on April 1

Captain D. S. Holton, who was commander of CCC Camp 2874 in 1936, has been reassigned as commanding officer of the local camp effective April 1. Holton replaces W. C. Hogg who was transferred to Corsicana.

Holton will be remembered by many here. During his absence he served in CCC camps in various parts of the country. He also was in a special class of coast artillery school, Ft. Monroe, Virginia. He comes here from Thornton.

## New Martha Raye Story Coming

IT'S THE STORY OF "The Farmer's Daughter" who turned Broadway wise-guys into handy men, with Martha Raye playing the title role and Charlie Ruggles in the principal featured assignment. Paramount's "The Farmer's Daughter" is due at the Ellis Theatre Tuesday and Wednesday, April 9-10.

## Romance of the West

Romance of the West—Miriam Hopkins and Errol Flynn are co-starred for the first time in "Virginia City" which will be shown at the Ellis Theatre Sunday and Monday, April 7-8.

## Royalty Comes Up for Air

Queen Elizabeth, followed by King George VI, emerges from tomb-like air raid shelter in London's Kensington Palace Court. Frequent inspection tours of England's defenses to bolster spirits of the people is royalty's wartime task.

## Jessel, Young Showgirl Delay Wedding

Romance of veteran comedian George Jessel and Lois Andrews, 16-year-old showgirl, hit a snag when the girl's mother suggested the couple delay marriage plans. Jessel and Miss Andrews affirm they are still in love and plan to be married at some future date.

## Roaring West Lives Again on Screen "Virginia City" Tells Lusty Tale

### Reynaud Heads French Cabinet

There will be thrills and excitement—plenty at the Ellis Theatre Sunday and Monday, April 7-8, when the stirring Warner Bros. film, "Virginia City" makes its local debut. The picture co-stars Errol Flynn and Miriam Hopkins as two people whose conflicting missions take them on a hazardous journey across the Painted Desert.

Errol Flynn as a tough, two-fisted adventurer is said to have surpassed even his success in "Dodge City," and a new, vivid Miriam Hopkins is revealed in the part of a dancing, fighting spitfire.

"Virginia City" is an intriguing story of gold-smuggling during the final stages of the Civil War. Errol Flynn, a Union Intelligence officer, escapes from a Confederate prison and learns of a conspiracy to smuggle five million dollars worth of gold out of Virginia City to aid the South, but he doesn't realize that Miriam Hopkins, with whom he is deeply in love, is one of the conspirators. The situation becomes even more exciting when Humphrey Bogart, as a notorious bandit attacks the Union Garrison outside of Virginia City and the gold caravan starts its mad dash during the raid.

Humphrey Bogart, Frank Hugh, Alan Hale and Quinn "Big Boy" Williams all give excellent performances in the supporting roles. The original screen story was written by Robert Buckner and directed by that popular director of many impressive films—Michael Curtiz.

Athrilling story of an unwritten chapter in the history of the Old West—"Virginia City" will make a top rating on the long list of great Warner films.

Paul Reynaud, above, fighting foe of Nazism, heads the new French cabinet as premier following resignation of Edouard Daladier's government. Reynaud was finance minister in the Daladier cabinet.

### Balko

Mrs. Harry Miller spent several days in Beaver Hospital last week. She has improved and came home Saturday, but is not able to be up and about as yet.

The Balko school went on a spring picnic Monday in the sand hills north of Beaver.

Mr. and Mrs. B. O. Taylor, Amarillo, were visiting over the week-end with Mr. and Mrs. I. M. Whittaker. Mrs. Taylor and Mrs. Whittaker are sisters.

Mrs. N. G. Nelson was ill with a cold last week. Her daughter Idella and little son are expected home this week. She lives near Guymon.

Mr. and Mrs. Clark Smith and Raymond and Mr. and Mrs. J. W. Cayler called to see Mrs. Harry Miller Sunday afternoon.

Mr. Holiday and Dale came home to their farm the last of the week. They have spent the winter in Colorado. The remainder of the family will return after school is out.

Mrs. Harry Miller went to Liberal, Kansas, Sunday evening to meet Mrs. Miller's sister who lives in New York. She will spend a couple of days here and will go to California to visit her mother.

Mr. and Mrs. Clark Smith returned from Enid Friday where they have been visiting with their son, Dean, who is in a hospital there. Raymond accompanied them to Enid.

Mrs. J. W. Cayler entertained her Sunday School class Tuesday evening. The young people spent a pleasant evening of games. April Fool refreshments were served at a late hour—Mrs. J. W. Cayler, reporter.

## Hollywood's Glamour Careers Analyzed

A story so real and thrilling that it might well be a chapter out of her own meteoric rise to fame brings lovely Linda Darnell to the Ellis Theatre, Thursday and Friday, April 4-5, in "Star Dust," her new 20th Century-Fox stellar vehicle.

Production Chief Darryl F. Zanuck chose John Payne as her handsome and talented leading man, while others who score are Roland Young, Charlotte Greenwood, William Gargan, Mary Beth Hughes, Mary Healy and Donald Meek.

Walter Lang directed this grand film of the adventure that is Hollywood, while Kenneth Macgowan was associate producer.

Mary Healy sings "Star Dust," that unforgettable Hokey Carmichael-Mitchell Parish ballad, and Mack Gordon contributed two other hit tunes, "Secrets in the Moonlight" and "Don't Let It Get You Down."

## Whirlwind Action

Whirlwind with action as two-fisted Charles Starrett smashes a brutal bandit mob terrorizing a western community. Columbia's "Two-Fisted Rangers" shows Saturday, April 6, at the Ellis Theatre with Iris Meredith featured as the star's leading lady, the Sons of the Pioneers again singing their inimitable range ballads, Kenneth MacDonald, Dick Curtis and others. Joseph Lewis directed.

## Workers Need Social Security Numbers

"Workers looking for employment should carry their Social Security number cards with them," Dewey Reed, manager of the Amarillo Social Security Board office said today. Furthermore, the worker should be sure to show the card to the employer immediately upon being hired.

"This procedure is very important," Reed continued, "as the Social Security number is the means of identifying the worker's wage account with the Federal Government." If the employee does not show his card to the employer, the latter might report the wages without an account number. In this case, the wages cannot be posted to the worker's account by the Social Security Board.

Since the benefits payable under the Old-Age and Survivors Insurance provisions by the Social Security Act are related to the worker's wages, the importance of having all wages posted to worker's account is obvious. "The new benefits under the Social Security act amendments are of vital importance to workers and their families. Therefore, we urge each wage earner to assure for himself full credit for his wages by showing his card to each employer," Reed said. If any worker does not have a number, he should go to the Social Security Board office, 324 New Post Office Building, Amarillo, where he will receive a number in a very few minutes.

More than a million volumes were circulated among the students last year by the University of Texas library, largest in the South and thirteenth in size in the United States.

A few flowers in the garden add to its attractiveness.

## SMITH SAYS:

"Why take chances of running short on your most frequently used printed forms? I've found that it pays to take an inventory of all my supplies several times a year. In that way, I never have to use make-shifts until I get a fresh supply. While you're at it, be sure that you get the best printing you can. How? Just let Stewart's handle all of your printing needs. You can't buy better work! I know from experience."

## CITATION BY PUBLICATION

No. 588  
D. A. McCLURE  
VS.  
DORIS McCLURE  
IN THE DISTRICT COURT,  
OCHILTREE COUNTY, TEXAS.  
The State of Texas to the Sheriff or any Constable of Ochiltree County—GREETING:  
YOU ARE HEREBY COMMANDED, that by making publication of this Citation in some newspaper published in the County of Ochiltree once in each week for four consecutive weeks previous to the return day hereof, you summon Doris McCLURE whose residence is unknown, who is alleged to be a non-resident of the State of Texas, to appear at the next regular term of the District Court of Ochiltree County, to be held at the Court House thereof, in the City of Perryton, on the third Monday in April A. D. 1940, the same being the 15th day of April A. D. 1940, then and there to answer a petition filed in said Court on the 8th day of March A. D. 1940, in a suit numbered on the Docket of said Court, No. 588 wherein D. A. McCLURE is plaintiff, and Doris McCLURE is defendant; the nature of plaintiff's demand being substantially, as follows, to-wit: plaintiff sues for divorce and annulment of marriage of plaintiff to defendant which said marriage was solemnized on or about April 19, 1921, in El Paso County, Texas. Plaintiff alleges that said defendant abandoned his bed and board on or about February 11, 1932 and that said defendant voluntarily left and that said defendant was no fault of plaintiff.  
HEREIN FAIL NOT, but have you before said Court on the said first day of next term thereof this writ with your return, showing how you have executed the same.  
Given under my hand and seal of said Court, at office in the City of Perryton, Texas, this 8th day of March A. D. 1940.  
WITNESSES:  
IRVIN R. BUCHANAN  
Clerk of District Court in and for Ochiltree County, Texas.

## General Sorosis Met Wednesday

The April meeting of all departments of the Perryton Sorosis Club was held Wednesday afternoon, April 3, in the Hotel Perryton with Mrs. L. T. Tucker, president in charge.

The program consisted of two piano selections, "Solitude" and "Springtime" by Mrs. Dean Blank; talk on "Wills" by Judge Oscar C. Flowers; and discussion of the county library movement. Miss Dorothy Staley, Amarillo, regional supervisor of state WPA libraries, and Mrs. Hostetter, Hereford, and Mrs. A. K. Wooten, supervisor of the local sewing room, were guests and gave some instructive pointers in connection with the library discussion.

Those present were Mesdames A. P. Spier, L. T. Tucker, Roy Orrill, W. B. LaMaster, W. B. Reid, W. L. Herndon, W. M. Boston, O. A. Schuster, Roger A. Burgess, Jack Allen, C. B. Rogers, Clyde F. Milam, Paul Bowen, R. T. Correll, J. O. Wooten, Leonard Wright, A. J. Kelly, F. A. Finch and Miss Nellie Perry.

## Legion and Auxiliary To Have Pot Luck

The monthly social and pot luck supper for The American Legion and Auxiliary will be held in the Legion Hall Monday evening, April 15. Hostesses for the evening are Mrs. A. S. Brillhart, chairman, Mrs. C. W. Barker, Mrs. J. W. Buckhaults and Mrs. S. L. Brillhart.

Discussion of plans for the District Convention to be held here on April 27 and 28 will be held and Mrs. Blansit Carter, unit president, and Roy Orrill, Legion president, are very desirous that each member be present.

Any eligible member or visiting member is extended a cordial invitation to be present.

## Attend Methodist Meet in Plainview

Mrs. Roger A. Burgess, district secretary, and Mrs. T. V. Elzey, district leader of spiritual life, returned Thursday evening from the annual session of the Western Missionary Society of the Northwest Texas Conference, held in Plainview.

Miss Thelma Stephenson, Nashville, Tenn., and Miss Sue Stanford, a returned missionary from China, were prominent speakers during the three day session.

## Two-in-One Hat Gets Trial

Handy fashion item for spring is this two-piece hat composed of white wool turban, with two yellow centered daisies, and brim of novelty weave straw and white ruff. Brim may be removed for wear on dressier occasions.

## Lower Waistline in New Frock

Silhouette of silk print frock, left, suggests with subtlety the new lower waistline that is a spring dress feature. Practically invisible seams join the bodice to the circular skirt. Profile hat is of white felt with scarlet grosgrain trimming. Stoles and cape-stoles like chic model of sleek Alaska seal skin, right, are smart for spring wear. Shown in the wonderful shade "matara," it is worn over sheer wool dress and would go well over suit or light spring coat.

## Mrs. Cayler Hostess For Entre Nous

The Entre Nous bridge club met in the Hotel Perryton Thursday afternoon with Mrs. W. R. Cayler, the charming hostess.

After several hours of pleasant games, scores were tallied and prize awards given to Mrs. George Clennan, high, and Mrs. Max Boyer, second high. A tasty refreshment course was served.

Others playing were Mrs. Ray Weir, Mrs. Henry Richardson, Mrs. Charley Kent, Mrs. Jake LeMaster, Mrs. A. W. Blue, Mrs. Glen McGibbon, Mrs. Miles Edwards, Mrs. Cecil Dodd and the hostess.

## Surprise Party on Birth Anniversary

Miss Ruby Hardy of the McMillen community was the hostess Saturday evening for a surprise party honoring John Hardy on his birthday anniversary.

After a pleasant social hour, delicious refreshments were served to Mr. and Mrs. Pat Gilbert, Mr. and Mrs. R. E. Matthews Jr., Mr. and Mrs. Kenneth McLain, Mr. and Mrs. Owyn Blackwell, Paye Marie Deck, Beryl Dodson, Mary Belle Swink, Paye Hardy, Christine Swink, Carlene Taylor, Lois Flowers, Rosie Barnes, Maxine McGarrugh, Ruth Ann Urban, Kenneth Edwards, Chester Barnes, Norman Swink, Wayne Bryan, Lester Barnes, Jack Dodson, Eldon Smith, Paul Ben and John Hardy, Neil McGarrugh and the hostess.

J. H. Brashears left Tuesday for Childress where he will attend an opening of a new drug store. Mrs. Brashears, who has been visiting with relatives is expected to return to Perryton with him during the latter part of the week.

## Baptist Missionary Have Social Meet

Mrs. W. B. Reid, Mrs. G. I. Horne, Mrs. J. M. Grigsby, Mrs. Holly Palmer, Mrs. J. F. Klapp and Mrs. J. M. North shared the hostess duties Thursday afternoon when the Baptist Missionary society met in the church for an enjoyable meet.

After opening the meeting with songs "America" and "Battle Hymn of Republic" Mrs. G. M. Parker gave the devotional. Her theme was "Steadfast in a Changing World." Slides showing the work of missionaries in Cuba and the southland were shown and commented on by Mrs. I. R. Buchanan. The ladies made plans for a banquet to be given on April 19 for the high school seniors.

Refreshments were served by the hostesses to Mesdames J. O. Wooten, G. D. Holt, G. M. Parker, A. J. Kelly, Ralph Francis, W. E. Landrum, K. K. Thomas, Rose Mitchell, Virgil Castle, J. R. Thomas, B. Lee, J. R. Gunter, H. E. Shotwell, W. L. Werneburg, Earl Miller, R. L. Duke, J. L. Flowers, C. H. Williams, S. R. McClung, Robert Lawrence, Tom Evans, Paul Bowen, I. R. Buchanan, Herman Morgan, S. D. Key and L. T. Tucker.

## George-Renfro Rites Held Monday Night

The marriage of Miss Juanita Renfro and Mr. Earl George was solemnized Monday evening, April 1, eight o'clock, in the Dave Shanks home. Judge Shanks performed the ceremony in the presence of Miss Juanita, Callahan and Harold Witt.

The bride, daughter of Mrs. Lillian Renfro, graduated from the Perryton High School with the class of 39. She has made her home with her mother in Perryton for a number of years, coming here from Colorado.

The bridegroom, son of Mr. and Mrs. Ervin George, has grown to manhood here. During his school days he was an outstanding member of the Perryton band. He is associated with his father in the farming business and the newly weds will be at home to their many friends on the George farm, northwest of town.

## Has Party Saturday On Fifth Anniversary

Mrs. Henry Richardson entertained Saturday afternoon with a delightful party for her daughter, Marilyn, on the latter's fifth birthday anniversary.

Little guests were entertained with various games from 2:30 to 4 o'clock and birthday cake and other refreshments were served.

Those present to help Marilyn celebrate were David and Dianne Kent, Patcy and Tommy O'Dell, Nancy and Addie Lou Dodd, Marjanna McGibbon, Phyllis Vernon, Patcy Reynolds, Joan Bryan, Kay Cayler, Winnifred Clennan, Larry Norris, Jimmy Nelson and Bennett Thomas.

## Kingdom Builders Attend Borger Meet

Members of the Kingdom Builders class of the Baptist Sunday School went in a body to Borger last Thursday evening for revival services conducted by Hymanne Allen, Baptist evangelist. The class planned this trip to take place of their regular monthly social.

Those going were Mr. and Mrs. Mark Burton, Mr. and Mrs. Herman Morgan, Mr. and Mrs. Don Shockley, Mr. and Mrs. James Morris, Mr. and Mrs. Norman Crum, Mr. and Mrs. Shirley Horan, Mr. and Mrs. C. D. Russell, Mr. and Mrs. Ralph Francis and Mr. and Mrs. S. D. Key.

## Mrs. Cartwright Is Honored at Shower

A group of Perryton friends motored to Borger Friday afternoon and surprised Mrs. Garland Cartwright with a pink and blue shower. In the evening, the husbands arrived and a pleasant visit was enjoyed.

Going from Perryton were Mr. and Mrs. Jake LeMaster, Mr. and Mrs. Rose Leathman, Mr. and Mrs. Miles Edwards, Mr. and Mrs. Fred Nies and Helen Manphel. Gifts were sent by Mrs. Crawford Sims and Clara Bailey.

## Local Youth With John Tarleton Singers

Like a regular trouper Bob Lawrence of this city will start on a four day tour of West Texas with the Tarleton Singers, a mixed chorus of John Tarleton College students. Under the direction of R. Berton Coffin, professor of Voice, the group will travel over a thousand miles and sing in approximately twenty west Texas towns. This tour is an annual affair with the Tarleton organization. Invitations have been received from many towns desiring the appearance of this musical organization. Public appearances and radio broadcasts have served to spread the members' reputation as capable artists.

## Measle Epidemics Come in Cycles

AUSTIN, Texas—"During 1939 over eight thousand cases of measles were reported to the State Department of Health. This large number is not unusual, since the disease characteristically assumes a cyclic nature with alternate periods of high and low incidence. 1937 represented a year of expected large number of cases, with a total of 14,768, while 1938 dropped to 5,710 cases. Lowest incidence of the past half decade was in 1935 with 4,073 cases of measles reported," states Dr. George W. Cox, State Health Officer.

"Of considerable importance, however, is the fact that parents of small children frequently are entirely indifferent to this disease. Assuming a more or less fatalistic attitude, many of them believe that the sooner the disease is contracted by their young children the quicker the trouble will be over. This viewpoint undoubtedly is the result of a false sense of security regarding measles."

"That many cases of measles are mild in comparison with those of the other communicable diseases is true. It is a fact, also, that many victims recover without grave consequences. Nevertheless, there is another side to the story that deserves consideration.

"In children under five years of age measles is a serious disease. The illness is more severe, the complications more numerous, and death occurs much more frequently than in those who are attacked at an older age. Though only a fraction of the total measles cases occur in the age group under five years, the greatest majority of deaths result from these comparatively few cases. Moreover, undernourished children and those already suffering from other diseases, regardless of age, are more severely affected than are normal children."

"It should be apparent, therefore, that every care should be taken to protect young children from exposure until they have passed that period of life in which the disease takes its greatest toll."

"If efforts to protect fail, it follows naturally that nursing care and medical advice should be applied promptly, especially whenever a child under five years of age contracts the disease."

"It is important that a sufficient

The personnel of the Tarleton Singers are: Virginia Dye, Breckenridge; Elizabeth Nell Dyess, Albany; Dorothy Slaughter, Stephenville; Martha Polson, Stephenville; R. Berton Coffin, director; Kathryn Nutt, Stephenville; Joy Jean Eaton, Comanche; Jane Rae Lowe, Cross Plains; Kathleen Collum, Stephenville. Second row: La Verne Savage, Hico; Margaret Leach, Stephenville; Texada Camrud, Stephenville; Laura Helen Saylor, Goldthwaite; Mrs. R. Berton Coffin, accompanist; Jenie Lowe Bartung, Ranger; Margaret Lovett, Fort Worth; Maxine Nichols, Comanche; Janelyn Davis, Stephenville; Ada Belle Williams, Lipsan; Charlene Waller,

period of isolation, particularly among school children, should be had to prevent needless transmission of the disease. An isolation period of two weeks is usually sufficient."

Mr. and Mrs. Wayne Vaughn, Dumas, enjoyed Monday dinner with the C. B. Rogers family.

Mrs. J. J. Long, who has been confined to her home several days with the flu, is improved and now able to be up.

Breckenridge, Third Row: Harold Gage, Lampasas; Bob Lawrence, Perryton; August Behling, Albany; Joe Hayes, Graham; James Sikes, Stephenville; Jack James, Graham; Glenn Wilson, Houston; Billy Marshall, Laredo. Fourth Row: Herschel Davis, Bluffdale; Merle Proctor, Winters; Earnest Jones, Eastland; E. G. Bailey, Dexter, Mo.; Sam Hilburn, Wichita Falls; Zane Smith; Stanley Davis, Jr.

**\$80,000,000 Scrawl**

Old King Belshazzar once had an evening spoiled because of some handwriting he couldn't read. American business is having the same sort of trouble—\$80,000,000 dollars worth a year.

Belshazzar's writing appeared on the wall of his banquet hall, and he called in his personal astrologers and soothsayers to tell him what it said. They couldn't, and even the wise men of Babylon were unable to read the mysterious scrawl. Finally along came Daniel, and the message was deciphered for the king.

American business has neither astrologers nor soothsayers, and as yet has found no Daniel. Wise men of our modern Babylon have invented no machine that can decode illegible handwriting. Like Horace Greeley, the average writer has all he can do to read his own penmanship.

Trouble occurs not only with the alphabet's 26 carelessly scrawled letters, but also with the millions of figures that are penned in tight ruled columns by bookkeepers and accountants, salesmen and order clerks. On department store sales slips are found perhaps the worst examples of hieroglyphic scrawls, though memo pads run a close second.

Pennmanship teachers have long tried to develop master writers at the motive end of U. S. pencils, and department stores often employ instructors for clerks. Yet poor hand writing, inability to interpret sales slips and misreading of figures ran business losses into the millions in 1939.

Until pupils take more interest in their instruction, it appears that America must continue to endure handwriting on the blackboard like that on the wall.

**Service of Your Newspaper**

What do you expect from your newspaper? Well, you expect more from your newspaper than you do from any other person or institution with whom you do business.

You expect your newspaper to give you all the news, local, state and national.

You expect your newspaper to take the lead in advocating changes for the betterment of the community.

You expect your newspaper to expose graft in public affairs, to forestall it by publishing itemized accounts of all public money spent.

You expect your newspaper to maintain a high standard of morality, condemning things that are wrong.

You expect your newspaper to boost for every community enterprise, devoting column after column to publicity supporting the bands, the baseball team, chamber of commerce, junior chamber of commerce, Boy Scouts, Girl Scouts, civic clubs, community celebrations, school activities, home talent plays and dozens of such causes and events.

You expect your newspaper to boost for good roads and protect your community's claim to its share of road improvements.

You expect your newspaper to build up confidence in your home town financial institutions.

You expect your newspaper to combat the peddler nuisance. You expect your newspaper to establish friendly contact with the rural dwellers so as to induce them to make your own town their town.

You expect your newspaper to urge support of poor relief benefits, library drives, Red Cross drives, Christmas seal drives, Legion and Auxiliary drives, poppy sales, Salvation Army drives, minstrel shows, etc.

You expect your newspaper to publish church notices, church programs, club news, farm bureau information, demonstration unit news, market news, weather news, weather forecasts and cover all kinds of many semi-public organizations.

You expect your newspaper to support every meritorious organized effort for the city's good.

And—  
The point we make here is that your newspaper expects you to expect all of those things and is glad to do them and be of service to you.—Pampa News.

**Taxes and Religion**

In Biblical times the tithe, or tenth was the highest rate of taxation but with some modern politicians the sky is the limit.

Every man or woman who ever served in a church or charity drive knows from experience that the excuse or reason most often given for failure to adequately respond is "higher taxes."

High taxes hamper church work, handicap denominational programs, and impede charitable activities.

In the Bible we find that the tax gatherer was once placed in the same category with a sinner.

Moderate taxes encourage thrift, engender progress, and promote the moral and material welfare of the community.

We pay more for taxes than we do for food or rent and twice as much as is spent for clothing.

Many corporations are compelled to pay out more money in taxes than they do in dividends or in salaries and wages.

**Beauty vs. New York's Finest**

When professional models picketed society girls modeling at a fashion show, New York policemen had pleasant task of keeping the picket beauties moving. Models protested the rich girls' talking jobs away from professionals.

INTERNATIONAL  
SUNDAY SCHOOL LESSON

## Words of Prophet Apply Today

The International Uniform Sunday School Lesson for April 7  
Text: Amos 5:1, 10-15, 21-24

PROPHETIC words of the Hebrew writer Amos concerning his own time are found to apply with equal intensity and reality to the world of today.

Amos was a herdsman who tended his flocks in Tekoa, a little village about 12 miles south of Jerusalem. He had something of the farmer's sense of values and clearness of vision; and, when he came into Jerusalem and observed what was happening in the towns and cities, he was shocked and was moved to protest, just as a plain, honest, hard-working man might be disturbed today with much that he sees in our modern city life.

It was a time of so-called prosperity in Palestine, but what Amos saw was extreme contrast of wealth and poverty. Some were living lives of indulgence and luxury, while others starved. Amos saw not only this contrast, but he also saw that beneath it, and in some measure causing it, there were real injustices.

It was not only that those who possessed were unwilling to share with those who had not, but society itself was full of materialism and corruption. The rich and powerful were exploiting the poor for their own ends and their own gain.

Amos describes what he saw in vivid words, as the poor were

being trampled upon. He saw also corruption in political life, bribery and dishonesty. He said that the man who is prudent would keep silence at such a time. But Amos himself was not prudent; he was above all things honest and fearless. As he saw these great evils in the society of the time, he appealed to the people to seek good and not evil. He warned them that the course they were pursuing was bound to bring destruction upon them.

RELIGION itself was perverted from its true ways and its emphasis upon holiness and righteousness. It had become very largely a matter of form. The people were observing their feasts and meeting in their solemn assemblies. They were bringing burnt offerings, but they were not offering their own lives as sacrifices unto God in holiness.

So Amos poured out his wrath on these things. He represents the Almighty as despising these things and taking no delight in these assemblies. And it is not only the voice of God that he bears in the great passage of the final verse of our lesson: "Let justice roll down as waters and righteousness as a mighty stream."

Surely one can read the application of all this to our own day. Amos, as a prophet of Israel, preaches directly to our own time as much as if he actually stood in our midst.

## Christian Science

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 7.

The Golden Text is: "Truly in vain is salvation hoped for from the hills, and from the multitude of mountains: truly in the Lord our God is the salvation of Israel" (Jeremiah 3:23).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof; but he that doeth the will of God abideth for ever" (1 John 2:15-17).

The Lesson-Sermon also includes the following from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If the disciple is advancing spiritually, he is striving to enter in. He constantly turns away from material sense, and looks towards the imperishable things of Spirit" (page 21).

Contrary to a notion that some people have, cheese is a highly digestible food.

## FREE ICE!

We would like to make Saturday, April 13, Ice Cream Day for every family in Perryton's Trade Territory.

You are welcome to 50 lbs. ice FREE at—

SHEARER  
Produce & Ice Co.

## PERSONAL FIT

Ladies' hosiery, slips, gowns, housecoats and robes made by Real Silk. Also ladies' tailored suits.

Men's suits and tailored shirts. Suits sold on budget plan. Low payments.

Women Have Equal  
Voice Determining  
Democratic Policy

Passage of the resolution by the Democratic National Committee last month recommending that women be given an equal voice on the national convention platform committee has turned the thoughts of the women in the party and out of it, too—toward a consideration of what planks they want in the 1940 platform.

Three women, Mrs. Mary R. Beard, Representative Caroline O'Day and Miss Constance Rourke, all well qualified to speak by their knowledge of both national and international affairs, give their views on platform policies in the March issue of *The Democratic Digest*, official publication of the Women's Division, Democratic National Committee.

Regarding foreign policy they say, in almost a single breath, "reaffirm this nation's determination to stay out of foreign wars." They differ considerably, however, as to methods.

On the domestic front, they want the Administration's liberal program not only held but broadened and strengthened.

Mrs. Beard, who collaborated with her husband in writing "The Rise of American Civilization," and more recently "America in Mid-Passage," writes as an independent voter.

America, she declares, should settle its own problems before trying to settle those of other nations. Our immediate goal is full employment, she says. "Upon the successful grappling with this issue nearly everything else will turn, especially reduction in relief expenditures and increase in tax revenues."

As a practical step toward solving the unemployment problem, Mrs. Beard suggests a conference to survey prime national needs in food, clothing and shelter and then to draft a legislative program "of increased production of wealth, duly itemized by commodities and industries, with enlarged payrolls where necessary to absorb the increased production."

Caroline O'Day, three-term Representative-at-large from New York,

and a leader in numerous peace organizations, urges that America make every effort to bring "peace and stabilization to a war-torn world," but "refuse to be drawn into war by European nations." America must be willing to make "any economic sacrifices" to remain at peace, she says.

As to domestic issues, Mrs. O'Day wants planks improving and strengthening New Deal humanitarian legislation and guaranteeing continued vigilance of Civil Liberties.

American social historian and biographer, Miss Rourke advocates a basic, far-reaching program concerned with the standards of living, conservation and peace. She suggests a seven-point program approving and extending the Trade Agreements Act, the Wagner Act, the Administration agricultural program, the Social Security and Child Labor Acts, efforts for low-cost housing, the merit system, and the conservation of human and natural resources. She calls for a "permanent relief program, federally administered."

Miss Rourke also urges inclusion of a plank announcing America's "unalterable opposition to the rule of lawless force, and which will ex-

press American willingness to participate in 'measures short of war' by which such rule may be overthrown." America's weight, she writes, should be thrown "where our sympathies lie—with Poland, Finland, Czechoslovakia and the Allies." She holds that such measures will not send American troops to Europe, because the sentiment against such a course, but they will help prevent a "deep descent into a maelstrom which cannot but affect us."

The cost of producing a barrel of oil in Texas averages 81 cents. The average selling price of the oil in 1939 was about 81.

Miss Rourke also urges inclusion of a plank announcing America's "unalterable opposition to the rule of lawless force, and which will ex-

## His Hobby Is Fortune Raising

Poultry raising has its merits, but for pure profits farmers might try breeding chinchillas. Earl C. Allen of Lakeside, Calif., raises the squirrel-like animals as a hobby and finds the 15 he now owns are worth nearly twice their weight in gold. As breeders, chinchillas like the one above sell at \$1600 a pair.

As a practical step toward solving the unemployment problem, Mrs. Beard suggests a conference to survey prime national needs in food, clothing and shelter and then to draft a legislative program "of increased production of wealth, duly itemized by commodities and industries, with enlarged payrolls where necessary to absorb the increased production."

## Speech Class Give Three Plays

Orchids to Miss Harris and her Speech Class for their very, very good plays and for making \$30. We wish also to give orchids to Mac Yarbrough for his amusing and life-like portrayal of Donnie in "A Young Man's Fancy." The second play produced a laugh a minute and the first play started the evening off just right. Every member of the speech class took part in the plays in some way and did an excellent job. I am sure everyone enjoyed Ruth Neufeld's scorching solos between acts too. "A Young Man's Fancy" will be the play sent to the contest in Pampa on April 12. Miss Harris would like for everyone that is interested in speech to enroll next week. After these plays I do not see how anyone could resist.

## English II News

The members of Mrs. Burk's English class showed their appreciation of her Monday by giving her a candy shower. If all the students gave to their feelings as this class did I am sure there would be many candy showers. Mrs. Burk certainly appreciated this token of their thoughtfulness.

An Indian mound, 190 feet long, 140 feet wide and 30 feet high, located on the Red River near Texas, has given up to the University of Texas and WPA excavators seven prehistoric dwelling levels of early Texas Indians.

Swell "Youth Treatment:" Change oil for Spring Better yet: Change to OIL-PLATING

What's worse than a late Winter?... The late Winter's oil still slopping around in your engine! Changing now is true economy—and you're a regular economy "shark" to change to OIL-PLATING—at Your Mileage Merchant's Conoco station today.

All he does to give you an OIL-PLATED engine is to drain and then re-fill with Conoco Germ Processed oil—at a perfectly usual price. But extremely unusual is the costly man-made extra substance in this patented oil. It bonds

lubricant to engine parts—like fine PLATING. That's your OIL-PLATING, which can't fly off, or drain down during all-day runs and all-night stands. That's why your OIL-PLATED engine can't even start unlubricated. The less of that oil-starved starting, the less risk of a worn engine that over-eats oil. Change to OIL-PLATING today at Your Mileage Merchant's. Takes no extra time. But it's an extra long time till you need your next quart of Germ Processed oil. Continental Oil Company

## The Problem: Stopping Yanks, Baseball's Greatest Ball Team

BY IRVING DIX

EVEN the most critical baseball observers are prepared to concede in the belief that the 1940 edition of the New York Yankees is the greatest team ever assembled in organized baseball.

If they're not yet convinced they probably will be before the season is over. Only the Yankee outfit of 1927 has been said forth as a better club than the 1940 Yanks but when you analyze Joe McCarthy's wrecking crew you come to the following conclusions:

The Yankee infield is practically invulnerable. With Babe Dahlgren on first, Joe Gordon at second, Frank Crosetti at short and Red Rolfe at third you've got the finest inner defense in the game today.

DAHLGREN, although he never could match Lou Gehrig's hitting, is a much better fielder. Critics say the arthritic Joe Gordon will wind up as the greatest second sacker baseball has known even better than Charley Gehring and the immortal Larry Laine.

Crosetti is a pepper-box unrivaled today. He's the brains and the spark of the champions' infield. Red Rolfe has few peers at the hot corner.

In the outfield Joe DiMaggio already is being mentioned in the same breath as Tris Speaker and if Charley Keller doesn't turn out to be one of the all-time greats everyone will be surprised. George Selkirk could play with any club in the majors, and so too could Tommy Henrich, the Yanks' first reserve.

WHEN you get to Bill Dickey behind the bat you're talking about the ultimate in catching. Red Rolfe is 37 years old but the big right-hander, trouble-shooter and all, is still the most respected pitcher in the league.

The old stand-bys, Lefty Gomez, Bump Hadley, Monte

Joe Gordon . . . greatest second-sacker in game today.

Pearson and Oral Hildebrand will more than do, and there are some sweet youngsters in Atley Donald, Marius Russo and Steve Sundra. They're predicting big things, too, for rookies Marvin Brenner and Tommy Reis.

Add up the whole business and wrap it up in the deadliest power hitting that has ever graced a single club and you'll understand why the Yankees are a cinch for their fifth straight world championship.

## A Typical Study Hall

Virginia Barker gossiping with Juanita Beck.

Clarine Buller gazing off into space and thinking of "him."

Johnnie L. concentrating on geometry and thinking of Virginia at the same time.

Camille Black playing with dolls. It looks like poppy from here.

Charlie, Adrian and Leon talking about Oklahoma.

Ben Hardy just coming out from a day dream and yawning so big I saw his toenails.

"Pete" Black keeps running up here to see what I am writing.

Norman Cook acts as if he has a hanger.

There are a lot of library workers. They're supposedly looking for material but I wonder?

There are Lloyd, Alva, Clinton, Charles, Willis Neal and Johnnie all in the library.

Bushman and Buller are in deep conversation. Could it be about a female?

Lenora Reimer gazes at a certain gold ring with a diamond in it and then off into space. What could she be thinking about?

I should be able to write shorthand to take down all these queer things. From the looks on the "pans" of these "Students" I had better be scotching along.

Contour strips of close-growing vegetation have proved their value both on terraced and unterraced fields.

Nearly one-third of all the oil produced in Texas comes from old pumping or stripper wells.

The Panhandle gas field is the largest natural gas reservoir in the world.

Pasture development will always be stressed, because pastures are not only the cheapest, but they are also the best dairy feeds.

## Man Wanted

Wanted—A man for hard work and rapid promotion who can find things to be done without the help of a manager and three assistants.

A man who is neat in appearance and does not sulk for an hour's overtime in emergencies.

A man who listens carefully when he is spoken to and asks only enough questions to insure carrying out instructions.

A man who moves quickly and makes little noise.

A man who looks you straight in the eye and tells the truth.

A man who is cheerful, courteous to everyone, and determined to "make good."

—The Shield.

maintain the right degree of humidity throughout entire food compartment

Here is an entirely new kind of electric refrigeration—that prevents rapid drying out of foods—makes it unnecessary to use covered dishes. Revolutionary new MOIST-MASTER models by Kelvinator maintain the right degree of humidity throughout the entire food compartment, retarding evaporation and keeping foods fresh, sweet and wholesome.

How MOIST-MASTER System Works Kelvinator MOIST-MASTER Models have two refrigerating units instead of one. The first is a separate, completely-sealed double-walled freezer maintaining very low temperatures for freezing ice cubes

and for cold storage. The second is a set of twin cooling coils that circulate moist, cool air to every nook and corner of the food compartment . . . and seldom frost up or need defrosting under average home conditions.

See the new MOIST-MASTER Today See the new Kelvinator MOIST-MASTER Models at our showroom today. ## America's HOME WEEK

Bring SPRING Into Your Home . . . .

## Perhaps It's Your Bedspring That's Causing Your Spring Fever

Many people who suffer from Spring fever would be surprised to know that their trouble isn't with Spring, but with the bedspring. Spring fever very likely may be just a seasonal way of saying "incomplete rest on an uncomfortable bed."

## Two Factors Involved

The bedspring is the foundation of a comfortable bed. No bed can be completely satisfactory if the bedspring is either worn-out or the wrong kind for the mattress that's being used.

Being able to tell if the bedspring is right for the mattress requires more study. A modern mattress and spring are designed to be used together. The right bedspring should supply one-third of the bed's resilience when used with an inner spring mattress, and two-thirds with a solid mattress.

Since a mattress and bedspring lead such a closely cooperative life, it is always wise to purchase them together. However, if you have to buy a new bedspring to combine with a mattress already in use, there are certain precautions that you can take to insure getting the correct type.

## For Inner Spring Mattress

If the mattress is an inner spring, the bedspring should be either a coil spring with a platform top or closed coils, or a firm boxspring. Either of these provides a sufficiently firm foundation to prevent the upholstery and small springs of the inner spring mattress from being forced down into the bedspring.

A solid mattress filled with cotton or hair, on the other hand, requires a bedspring that has more "give" or resilience. Either an especially flexible boxspring or a coil spring with open-top coils would be a correct choice. These give the solid mattress as much support as is needed, and at the same time contribute additional resilience.

## Furnishing of Home a Thrill For 1940 Bride

Brides of 1940 (as have American brides from 1607 on!) will find furnishing the new home a real adventure. Hero of the piece, of course is he who foots the bills, whether the father or the new husband, plays the role. Villain is he who tempts the novice home-maker off the straight and narrow path of adhering to a given, preconceived plan, which will provide for the necessities and at the same time create an harmonious home.

Students of home economics and furnishings have set up three classifications: 1 Necessities; 2 Conveniences; 3 Finishing Touches—or luxuries, if you find them in that category.

## Necessities Come First

Under the necessity heading will come equipment for "living"—(reading, writing, entertaining, etc.); equipment for sleeping; for preparing food; and for eating it. A musical instrument may be a necessity for one person—a luxury for another, depending on tastes and habits.

For the living room, seating accommodation for at least 6 persons may be considered the minimum—usually this is made up of sofa or

studio couch and three chairs; at least two tables and two or three lamps and some form of floor covering and window treatment will round out the bare needs. Under "conveniences" we might add, now or later, a desk, desk chair and lamp, a bookcase or bookshelf, additional chairs, tables, mirror, lamps, etc. The finishing touches always depend upon individual tastes and wants.

For the bedroom, the usual minimum is bed (with mattress and spring), chest, and dresser or vanity. A chair is almost a necessity, a bedside table is desirable, and a reading lamp could conceivably come under the convenience heading, though most folks think it a necessity. Floor covering of one sort or another are needed, but small rugs may suffice for a time, if you are sure you can get a real bedroom rug in the not-too-distant future.

## Storage Space Important

Chaise lounge, desk, easy chair, and sewing equipment may fit into individual wants and needs. Storage space is all important in most homes, and, fortunately, this usually is taken care of by the American custom whereby the groom-to-be or father gives the bride-to-be a cedar chest in which to treasure her belongings. This, frequently, is the cornerstone about which bedroom furnishings are built. Also, the chest will fit into living room or hall—if it is one of those attractive console models.

Dining rooms differ in city apartment and suburban or small town home. In the former, a dinette may suffice—and later may become a breakfast set. In the house, with a dining room, the minimum usually is a table and six chairs. While one can "get by" with four chairs, they prove hard to match at a later date, and if possible, eight chairs at the start are a wise investment. The dining room floor covering should harmonize with that in the living room. For convenience and finishing touch classifications, a buffet, china cabinet, and a server, with such things as tea-wagons, will be useful.

## For the Kitchen

For the kitchen, much will depend on whether the home is owned or rented with equipment supplied. Minimum requirements here are range, refrigerator, work table and storage equipment. A kitchen cabinet is almost a necessity, and not expensive to acquire. Linoleum probably is best for the floors.

Greeting Cards for every occasion at Stewart Printing Co.

## It's America's Home Week In Perryton Store

The Perryton Furniture Co. this week unveils the newest creation of the home furnishing designers' art. The occasion is "America's Home Week," opening April 6, when stores all over the nation reveal the style trends of the season, and dedicate the week as an "Open House" for inspection of the furniture, floor coverings, bedding, draperies, and other household equipment which has been arriving in their store and warehouse for the past fortnight.

A. P. McCelvey went to the nation's style centers, to view manufacturers' new lines. He shopped more than 1,000 displays in order to make selections for local selling. He compared styles and values; he hunted out the "hard-to-find" and unusual; he investigated the new trends, and placed his orders accordingly.

## New Furnishings Here

Manufacturers went to work and only recently began to ship the merchandise ordered . . . and the new stock now on display presages what economists believe will be one of the best selling periods in the history of home furnishings. The coming of spring brings increased traffic to the stores, because home furnishings have become drab and dusty during the winter. Housecleaning and moving time make April and early May one of the two best selling seasons of the year. Realizing that investment in home furnishings is a serious and even momentous problem for the average family this store has set aside the special week for a preview of what's new, what's different, and what's appropriate for Perryton homes.

Most homes are furnished two or three times in a lifetime, it is pointed out. The "newlywed" market is one of the most important in home furnishings, and 1940 promises to have a bumper crop of weddings. New home building is another source of business for furnishings, and a substantial pick-up in this area will boost home equipment sales tremendously. Finally, the replacement market for seedy, worn-out pieces which were once proud possessions, now reduced to kindling and rags, reaches its greatest heights during the spring.

## Record Sales Expected

All of these factors, combined with improved business, point to a record year in the sale of furniture and allied items.

Despite increased prices for raw materials and higher wage scales, prices of furniture today have advanced scarcely at all over last fall.

Manufacturers pointed out that they were able to maintain price levels through increased production, and passed their savings on to stores. They appreciated that higher prices without substantially increased income for the general public would retard rather than improve sales, so that such advances as were made were small, and in general, an adjustment to today's market prices. Students of home furnishings economics forecast further and possibly more substantial advances in the second and third quarters, if business continues on its present basis.

## Card of Thanks

We wish to express our sincere appreciation for the many acts of kindness shown our loved one during his illness and add our heartfelt thanks for the expressions of sympathy shown us in our bereavement.

Mrs. W. W. McLarty and family.

## Universal Makes Shop Improvement

The Universal Motor Company announced that the mechanical department in the rear has been completely remodeled for more efficient service to their customers in Perryton's trade territory.

Among the improvements has been the addition of several feet of hoist track and removal of the washing and painting and metal department to more spacious quarters in the rear. The shop entrance door has been widened two feet. The automatic greasing unit has been reconditioned.

The changes were made to enable the rendering of better service, Garland Redfern, manager, said.

Mr. and Mrs. W. I. Byron, Eunice, New Mexico, visited from Saturday until Monday afternoon with Perryton friends. Mr. Byron was a former band director here, going to Eunice from Perryton.

## Hospital Notes

Doc Patton was in the hospital over night last Thursday. He received a broken arm in football practice.

Glen Muir underwent an appendectomy Tuesday and is reported doing nicely.

J. W. Payne, who fell January 4, and received a broken hip, was in the hospital Tuesday to have the cast removed. He will be confined to his bed, 603 Southwest Fourth street, for another month at least. Mrs. Wm. Seymour underwent a major operation Thursday morning.

Mr. and Mrs. Marshall Hinds and son, Marshall Don, of Fort Worth, spent the week-end visiting in the home of her parents, Mr. and Mrs. W. C. Bryan, Sunday afternoon, both families visited in the George Wright home, Optima, Okla.

Patronize Herald advertisers. They make possible the publication each week of your Home Demonstration activities.

Mr. and Mrs. W. E. McMillen and Jas. E. Barbour left Saturday evening for a few days visit with Mrs. Barbour and other relatives in Albuquerque.

Mrs. Annie Teague returned Saturday from a three months stay with her mother, Mrs. Ewing, Cleburne, and visiting in Dallas, Fort Worth and Waco. Mrs. Ewing is much improved after a very serious illness.

Donald McLarty left Wednesday to return to his home in Albuquerque, N. M. His cousin, Miss Eva Glasgow accompanied him to Clovis, where she is taking a beauty course.

Vernie Black returned to El Paso Monday after spending the week-end in the W. W. McLarty home. His wife, who had been at the bedside of her father for several weeks will remain in Perryton for a few more weeks.

Everything for the business office at Stewart Printing Co.

# Better HOMES Week

## BUILDING MATERIAL

... FOR EVERY NEED!

When you think of "Better Homes" you immediately think of our Building Material dealer who is always glad to confer with you regarding any of your building problems. We invite you to bring your plans for new building, remodeling, repairing or fixing up your home in any way, to us. Our services are available to you with no obligation on your part.

## A NEW HOUSE

How could you better observe "Better Homes Week" than by starting a new house. Let us explain to you how you can have a new house and pay for it like rent.

## TRELLIS and FENCES

Now is the time of the year to plan and build trellis and ornamental fences. We have many approved designs for your study. It's a part of our building service.

## SCREENS

Declare war on flies. Install new screens on windows and doors. We have them ready to hang.

## REMODEL — REPAIRS

"Better Homes Week" and Springtime bring thoughts of remodeling and repairing the home. We have all the needed materials and will be glad to assist with your plans.

## WALL PAPER

Brighten up your home with new wall paper. Good selection of the new patterns in all the newest colors.

... and we believe you'll enjoy seeing our **NEW PAINT and COLOR STYLE SERVICE**...

Come in and see how easy it is to select beautiful color combinations for your house and rooms. Nothing is left to the imagination. We have literally turned the paint can inside out and put it on large panels which show just how the colors will look in or on your home. This service is free. There is no obligation to buy. We will be glad to help you.

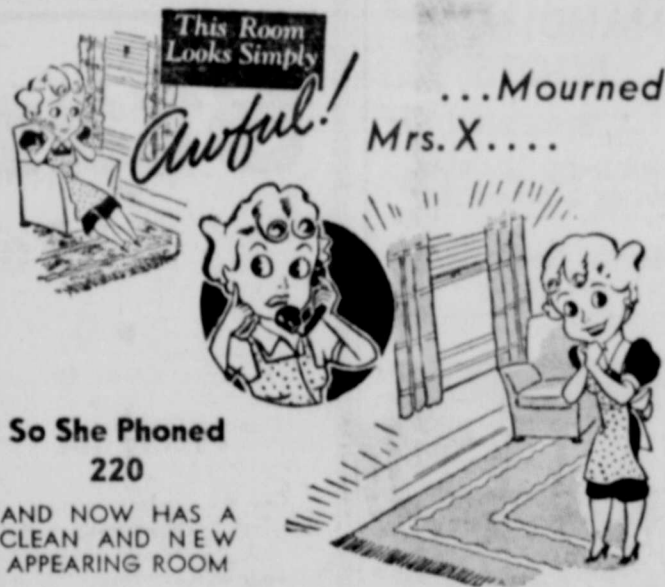

Let us explain the convenient Sherwin-Williams Budget Payment Plan which allows you to paint now and pay for labor and material on easy monthly payments.

**SHERWIN-WILLIAMS PAINTS**

**White House Lumber Co.**  
DEPENDABLE BUILDING SERVICE  
SINCE 1898

Have The Home You Want! Buy, Build or Remodel Your Home This Spring! Re-decorate and Repaint! Don't Forget Your Furniture!

Rugs soiled? Drapes dirty? Upholstery dirty and worn out? Floors need polishing? Doesn't it give you a feeling of depression when conditions are like that? Well, there's an easy solution... just phone 220. Perryton Cleaners will be on the other end of the wire ready and willing to quote low, economical prices for revitalizing soiled rugs, draperies, upholstery and floors. Our cleaning will make rooms seem like new again... they'll be fresh and sparkling as Spring itself. Our methods are thorough but safe.

**PERRYTON CLEANERS**

## New Refrigerators Graded Cooling

All are designed to fit plans for new kitchens, or for renovating old ones, providing for a "line production" method of food preparation. The line goes from refrigerator to sink to stove to table. The arrangement of the kitchen, no matter what its shape, should conform as closely as possible to this scheme for preparing meals.

**Many Improvements Made**  
In the food preparation center, as distinct from the sink and cooking centers, the refrigerator is the most important unit. So many improvements have been made in household refrigerators during the last five years that those who still are using old-fashioned models are really enjoying only about half the convenience and economy that is possible today in refrigeration.

This year, for example, most of the new models give you graded cooling for various classes of food. For such perishables as milk, eggs, and butter, the upper shelf space is extra cold—about 40 degrees. In most models there is a separate porcelain enameled container for meats, immediately below the freezer or ice cube compartment.

The result of the newer developments in refrigeration is much more convenient food storage at lower cost. The cooling mechanism is more efficient than ever before, using less electric current and yet performing a better job.

Clifford Davis, district superintendent of the WPA labor division, Amarillo, was visiting in Perryton Wednesday.

Mr. and Mrs. Arthur Pearson returned Sunday evening from Ponca City, Okla., where they were called Wednesday to their daughter, Thaylia, who was operated on for acute appendicitis and is now a patient in the Ponca City hospital. She was doing very nicely when they left.

15¢ Each or Free with the purchase of or more of

**WATERSPAR 400 FLOOR VARNISH**

Waterspar 400 Varnish resists the action of alcohol, acid, hot or cold water. Its use results in a "Smooth as Glass" finish. You'll like the way it lasts. Withstands hard scrubbing far better than the average varnish available for use on floors or woodwork.

For a limited time only—a Glass Bank free with each purchase.

This sensational new bank is on exhibition in our store window. Every member of your family will want one.

### Cat Becomes a Busy Mother

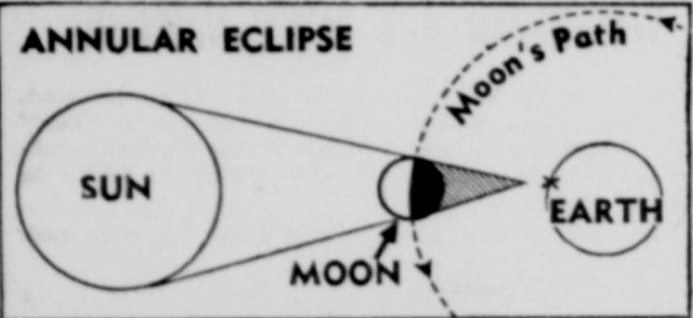

Strange family mothered by Teddy, North Bellmore, N. Y., cat includes three kittens, four adopted chicks. When there are no chicks to care for, Teddy spends her time chasing dogs.

### Quintuplets are Born to Goat

There's a rush at dinner time for Mile High Roberta II, goat that gave birth to five kids, an unusual event in the animal world. The goat is owned by James Beckham of Los Angeles.

### U. S. to See Ring Blackout of Sun

Because moon is farther away from earth than usual at time its shadow eclipses sun, total blackout will not occur during coming solar phenomenon. Man at X will see ring of light around sun in this annular (from Latin for "ring") eclipse. Visible all over the U. S. in afternoon of April 7, the eclipse will be seen in ring form only in southern part of states bordering Gulf of Mexico. If moon was closer, as it sometimes is, man at X would see total blackout.

### School and Land Troubles are Keeping Amish on the Move

Amish farmers and produce. Women are in typical somber garb.

DUST bowl migrants in California gained fame in story and motion picture, but it is the Amish of southeastern Pennsylvania who are the original traveling farmers.

In their continued struggle to live a plain life, close to the soil and to God, the Amishmen have frequently packed their belongings into rickety carts and junked to rural regions where they could live unmolested. Carrying out their proud tradition that hard work is the best, they have become known as master farmers as well as members of a quaint religious sect.

Forebears of the traveling Amish were those Mennonites of the 17th century who fled Europe because of religious persecution. They first settled on lands near the present site of Germantown, Pa., and later spread to Ohio, Indiana, the middle west, Mexico and Canada.

SOMETIMES it has been poor land that brought on Amish migration; at others, it was because the land was too rich. More often they moved because of government interference with their methods of schooling and religious beliefs.

About 15,000 Mennonites migrated from Canada and the U. S. to Mexico early in the 1920s, cultivated land that no one had been able to cultivate before, established their own schools, homes and towns. Heavy taxes, bandit raids and conflict with the government there recently

### WPA Record is Amazing Since Inception of Program in July of 1935

SAN ANTONIO, March 19—State Work Projects Administrator H. P. Drought reported today that 21,217 miles of highways, roads and streets have been built or improved by WPA workers in Texas since the inception of the Federal Works Program in July, 1935.

Drought's report on WPA improvements to land and air transportation facilities in Texas was the first in a series of four statements to be issued outlining WPA's physical accomplishment in this state during the four and one-half years of the agency's existence.

Of the total mileage improved by WPA workers, 19,208 miles were on farm-to-market roads. Pavement was applied to 1,605 miles of rural roads, including 1,201 miles of new construction and 404 miles of reconstruction.

WPA workers built or improved 1,822 miles of streets and alleys in Texas cities. Of this total 934 miles were paved. New streets built and paved by WPA in Texas cities numbered 669 miles.

In addition to highways, county roads and city streets, WPA built and improved 187 miles of drives in parks and recreational centers.

Included in WPA's Texas road-building program was the construction of 3,970 bridges and viaducts and improvements to an additional 1,589 such structures. Of these there were 3,583 wood bridges and viaducts built and 1,289 improved; 130 steel bridges and viaducts built and 99 improved; 255 masonry bridges and viaducts built and 101 improved.

There were 15,044 culverts built by WPA workers and 3,267 such structures were improved. Roadside drainage was aided by the installation of 1,045 miles of ditch and 29 miles of pipe. In addition, 2,101 miles of drainage ditch were improved and improvements were added to 33 miles of drainage pipe.

Sidewalks and paths totaling 352 miles were built and 28 miles were improved. Of this total, 299 miles of new sidewalk and 25 miles of improved sidewalk were paved.

There were built 641 miles of curbs and 20 miles were improved; 78 miles of gutters were built and 7 miles were improved. WPA workers built 12 miles of guardrails and guardwalls.

Incidental to the road and street improvement program was the equipping of 323 miles of roads and streets with lighting and the installation of 475 light standards and the improvement of 314 others. Four grade crossings were eliminated. There were erected 18,511 traffic signs and three miles of traffic control line was painted. Landscaping was improved alongside 650 miles of roadside. There were removed 80 miles of single line car and railroad tracks from city streets.

Airport and airway construction work in Texas included the building of four landing areas, improving of 21 such areas, and building additions to two landing areas. There were constructed 81,306 feet of runways and 44,720 feet were improved. Of these 21,708 feet of new construction was paved and pavement was added to 21,085 feet of existing runways. One airport building was constructed and four were improved. Floodlights were added to two landing areas and floodlighting facilities were improved in two additional areas. There were 621

boundary lights installed and 49 such lights were improved. Airway markers were painted on 375 runways. Five airway beacons were installed.

**IT HOLDS FIRST PLACE in Pep, Power and Pick-up among all low-priced cars!**

**1st in Value, just as it's 1st in Sales!**

You drive the leader when you drive a Chevrolet for '40—the leader in pep, power and pick-up—and the leader in style, stamina and sales!

It holds first place in acceleration—first place in hill-climbing—first place in all-round performance with all-round economy—among all cars in its price range.

That's why Chevrolet for '40 is first in sales... why more people buy Chevrolets than buy any other make of car... and why your Chevrolet dealer strongly recommends that you eye it—try it—buy it—today!

### Now is Time To Contour Pasture Land

While there is a good supply of moisture in the soil from the recent winter snows, it is an excellent time to contour furrow pasture land, according to Ralph H. Headlee, Jr. Soil Conservationist, of the Soil Conservation Service Camp SCS-12-27 located at Perryton.

Contour furrowing is beneficial regardless of the time of the year when it is done, but is more effective when the grass has a chance to use the moisture stored in the soil. However, the work should be halted before the grass heads out to permit maximum seeding.

Contour furrows catch and hold rainfall that otherwise might be lost by run off, permit the moisture to soak into the soil, and always result in a thicker plant growth along the furrow. Shallow furrows close together usually more effective than deeper furrows or ridges farther apart. More furrows mean a more even distribution of moisture and of the thickened forage crop.

Shallow furrows disturb the grass less in a permanent pasture, do not turn up the subsoil, and are more easily crossed with farm machinery. Ridges are more likely to become broken as a result of cow trails and other low places in them, when heavy rains occur. With the deeper furrows there also is danger of causing the water to penetrate to such a depth that it will be of little or no benefit to the grass roots, especially if the subsoil is gravel.

Small furrows about five inches deep, placed far enough apart to prevent overlapping of the furrow slice and leaving an undisturbed strip of sod between, have been found to give better results in most localities. In this locality the best results have been obtained where furrows were made with a three row lister with the middle bottom removed. In some instances a narrower furrow made with a shovel attachment has given excellent results, especially where blue grama is the predominating grass, while the lister furrows have usually given better results where the principal grass is buffalo.

Paul Siple, the Boy Scout selected to accompany the Byrd expedition to the South Pole in 1928, is commander of the West Base with the current expedition commanded by Admiral Byrd for further exploration.

William D. Boyce, a Chicago business man, receives credit for bringing the Boy Scout program to this country from England 30 years ago.

### Boyd, Oklahoma

We are having warm days and nights and my, how the weeds are growing! It tried to rain Thursday but only sprinkled enough to make one run for shelter.

Wanda Duff enjoyed a visit with her two brothers from Inola, Okla. last week.

We are very sorry to hear of the passing of W. W. McLarty and sympathize with the family in their loss. Not everyone has the large

number of friends that Mr. McLarty had.

LaVeta Mae Peters was confined to the Perryton hospital several days for injuries received at school last week.

Leon Gibson is expected home from the Epworth Hospital soon.

We had the pleasure of watching two youngsters harness and hitch up two oxen, Saturday. They will drive them in the Guymon parade May 2.

Emma Claybrook visited with Mrs. Jess Hill, Wednesday.

Mr. and Mrs. F. D. Dore, the Ed Claybrook home, John Cowan and son, spent Friday evening at Kruse and son.

Mr. and Mrs. Frank Forest visited Wednesday with R. P. Duff home.

James E. West, Chief Scout Executive, Scouts of America, was here today of the movement.

## MOLINE WHEATLAND DISC PLOWS

**The GREAT LAND AND MONEY SAVERS**

Cut your plowing costs in half with the original M-M big disc Wheatland plow—because of its wide cut and light draft in comparison with any moldboard plow. The Moline does a better job of plowing, from 3 to 9 inches deep. It scours well and is remarkably free from clogging with its big 26-inch discs, spaced 10 inches apart. The plowing job compares favorably with a moldboard plowed field that has been nicely harrowed.

Prepares an ideal seed bed for small grain—BECAUSE it mixes trash and stubble with the soil in such a way that there are no air pockets, and there is good capillary action between subsoil and seed bed.

The Moline Wheatland disc plow is strong, sturdy and rigid, built entirely of strong steel bar angles and castings. Farmers say it "can't wear out or give." Other important points also make it the outstanding plow of its kind on the market today.

Come in and get free literature and complete facts. Let us show you how it cuts your plowing bill. The Moline Wheatland is also ideal for summer fallowing . . . gets the weeds and moves all the ground.

## Standard 'U'

**"Power at a Touch"**

The Standard 'U' is the only tractor of this type made with a 5 speed transmission, except the MM Standard. It is also designed for comfort and tractiveness and built to give many extra years of hard grinding service that MM Twin City tractor noted for.

**5 SPEED TRANSMISSION**

The Standard 'U' is equipped with a 5-speed, quiet running transmission. All parts are fully enclosed and operate in a bath of oil. The inner portion of the transmission is protected against dust and dirt felt seals, with patented leather seals retaining the oil. Gears and shafts are made of special long-life alloy steel mounted on anti-friction bearings—12 Timken, 5 ball, and 1 Hyatt. Spiral bevel gears and pinions used on the differential drive and the belt pulley drive to assure utmost in quiet, smooth operation. The large diameter, live rear axles are double sealed. A composition seal, kept tight by spring tension, eliminates oil leaks, and a felt seal keeps the transmission free of dirt.

See us for complete information on the "U" and the rest of the M-M line.

## Spring Snow Buries New York Roads

Spring blizzard in upstate New York piled roads high with 20 feet of snow and left cars and trucks buried where owners abandoned them. Quick thaw followed, brought threat of flood to many storm-struck regions.

Treasure Island, on San Francisco Bay, site of the 1940 Golden Gate International Exposition, is the world's largest man-made island. It more than 400 acres in extent and was dredged from the bottom of the bay.

Jesse E. Stanton, color architect for the 1940 Golden Gate International Exposition, says he derives his inspiration from the coloring of the beautiful women for which California is famous.

It will be smart to visit the 1940 Golden Gate International Exposition on Treasure Island and delight to be the recipient of the cordial Western welcome that awaits all those doing so.

The total value of all farm land and buildings increased about five billion dollars from 1933 to 1938.

## Land Owners Get Results From Soil Conservation in Proportion to What They Put Into Program

AMARILLO, Texas—Texas farmers considering the formation of soil conservation districts under provisions of the state law enacted in 1939 should realize that they will get out of districts just about what they put into them, declares H. H. Fennell, regional conservator of the Soil Conservation Service.

"Farmers who favor a soil conservation district only because they hope to get something free from federal or state agencies may be doomed to disappointment," the regional conservator states.

"Farmers who exert themselves to check soil erosion and to maintain the fertility of their land are the ones who should rightly expect all possible assistance from federal and state agencies. When groups of such farmers organize their own soil conservation district, they are in a position to request and receive available assistance from agencies that may be in a position to help in the solution of the district's problems."

Since 1935, Fennell pointed out, four CCC camps assigned to work with the Soil Conservation Service in the Texas Panhandle have been assisting farmers cooperating in carrying out demonstrational programs of soil and water conservation.

These camps are located at Littlefield, Lamesa, Memphis and Perryton, and work within a 25 mile radius.

"Complete demonstrations of the effectiveness of soil and water conservation practices have been carried out on hundreds of Texas Panhandle farms and ranches in the present work areas," the regional conservator said.

"In keeping with the policy of the Service, available CCC camps will be assigned to work with organized soil conservation districts where assistance can be given to the greatest number of interested farmers."

"The camp located at Perryton already is cooperating with wind erosion districts in Lipscomb, Ochiltree and Hansford counties, but there is a possibility that the number of camps in the Panhandle may be reduced as a result of the proposed 25 per cent cut in funds for CCC camps now pending before Congress," Fennell said.

In cooperating with districts, as during the demonstrational periods, CCC camp technicians will assist cooperating farmers in planning complete conservation programs on their land. Enrollees, as in the past, will assist farmers in building terraces, contour furrowing range land, construction of stock water dams, relocation and building of fences, and similar work. The cooperating farmer will furnish materials and make other appropriate contributions in carrying out the work program on his land.

Work areas of CCC camps will continue to be limited to a 25-mile radius, so in some instances where soil conservation districts are adjacent, it may be possible for one camp to serve two or more districts, it is pointed out.

Under the Emergency Relief Appropriation Act of 1939, Fennell stated, it is possible for farmers of a soil conservation district that is cooperating with the Department of Agriculture to sponsor WPA projects.

Where the districts include sufficient work, supervisors of the district can sponsor such a WPA project with local labor being used where travel is practical. Such projects may be set up to work in a portion or the entire area of a district, but generally WPA labor will not be needed in areas where assistance of CCC camps is being received.

Farmers in a soil conservation district sponsoring a WPA project will pay 25 per cent of the cost of the work which may include cash, materials, supplies, equipment or other contributions, it is explained.

"While farmers may obtain such assistance through the organization of soil conservation districts, they

should remember that the program is their responsibility and that the success attained in the application of soil and water conservation practices on their land will be measured in direct proportion to their own initiative in carrying out the program," the regional conservator declared.

## Spring Check-Up Cars is Important

Motorists who want to get maximum satisfaction from their cars next summer should take time out within the next few weeks for the Spring check-up, lubrication and adjustment which every car needs in order to give a perfect account of itself during the months of warm weather ahead.

This is the advice of Ed Hedner, national service and mechanical manager for Chevrolet. He added that the company's dealer organization is ready, with factory-trained mechanics and factory-approved equipment, to give prompt, economical attention to all spring check-ups.

"Dealer's experience," he said, "has shown that motorists are much more careful about installing their winter lubricants and antifreeze in the fall than they are about taking the reverse step when spring rolls around. This is probably because they know that if the matter is neglected they are likely to awake some morning and find their engine frozen, or their transmission-case lubricant so thick that they can not shift gears."

"There is no such worry to remind them to remove the winter lubricant and drain out the antifreeze at warm weather's approach. But there is good reason why both of these details should be taken care of."

"In the case of the lubricant, the reason is that lubricants are effective only under the conditions for which they were designed. Winter demands a thin-bodied lubricant which will not solidify at low temperatures, but retain its lubricating quality no matter how cold it becomes. Cars operate at much higher temperatures in summer than in winter—temperatures at which the winter lubricant, already thin, would liquefy still further and lose much of its effectiveness. And even though the damage resulting from this thinning might not make itself apparent at once, it would be no less real and no less costly to repair."

"In the case of anti-freeze, the situation is somewhat similar. Regardless of the type used, it should be drained in the spring. The varieties subject to evaporation vaporize very quickly in warm weather, and even a day's driving may reduce the cooling solution level to the point where the radiator steams. The non-evaporating type on the other hand, sometimes develops acidity when left in the car all summer, and, of course, tends to corrode the cooling system."

"Many motorists make an annual practice of having their radiators flushed out at the approach of summer, and the old solution replaced with fresh water. This is one of the best ways to insure efficient cooling regardless of summer heat."

"The battery should be checked at the start of spring, and at frequent intervals thereafter, for the level of the solution drops much more rapidly in warm weather than in cold. Battery Terminals should be cleaned if they are corroded and cables and wiring checked. A little inexpensive attention to distributor points, spark plugs and ignition coil will be a good investment, and owners of cars not equipped with heavy-duty generators should have the charging rate set somewhat lower than it was through the winter months."

"The fact that speeds will average substantially higher in summer than in winter suggests the wisdom

## Modern Warriors in Ancient City

Anzac, Australian troops in Palestine, trod the ancient cobbles of Jerusalem in sightseeing expedition to acquaint themselves with the land they may have to defend. These troops are part of large allied contingent assembled in the Near East.

## UNUSUAL FACTS REVEALED

Behind Prison Gates

**BRIAN DONLEVY**  
WHO WAS A MEMBER OF THE FAMOUS LAFAYETTE ESCADRON DURING THE WORLD WAR WAS WOUNDED IN THE HEAD IN AN AERIAL COMBAT. LATER BLINDED, HE MANAGED TO BLOW DOWN HIS PLANE AND DISCOVERED HE HAD SET IT DOWN IN FRONT OF A HOSPITAL.

of having the tires looked over carefully, with a view to repair or replacement before the period of severe war begins. Many dealers will be offering spring check-up service, covering most or all of these items, within the next few weeks, and motorists who want to enjoy maximum satisfaction from their cars could do no worse than to select a reliable dealer and have this important work done."

## An Open Letter To The CITIZENS OF PERRYTON

Whereas, it has been brought to our attention that some citizens of Perryton are keeping, or raising chickens and allowing same to range at large off their premises. This is in strict violation of a city ordinance and is punishable by fine. Those letting fowls run at large are hindering the efforts of others who wish to plant gardens and flowers, and are warned to keep all fowls penned up or be liable to such punishment as provided by law.

Keeping of hogs within the city limits is also a violation of a city ordinance and punishable by a heavy fine. As it is impossible to keep hog pens in a sanitary condition, they are always breeding places for flies. Anyone who lives within the city limits and is keeping hogs should remove them immediately.

Dogs which are not licensed are classed as a nuisance and the city ordinance relating to such provides that all dogs allowed to run at large on streets and alleys and which do not have a license tag attached to them, shall be killed. Licenses for your dog are \$2.50 and \$5.00.

These things are mentioned so that we may ask your cooperation in righting these matters and in that way make Perryton a better and cleaner place in which to live.

In order to keep down mosquitos and flies in the city we are asking that all citizens cut weeds and gather up old tin cans, and other rubbish around their premises and place together at the alleys so the city truck may pick up and haul this trash to the city dumping grounds. Remember that mosquitos breed in old cans which catch and hold rain water and in rank growths of weeds, so help us to keep this nuisance down by cooperating in this clean-up work.

Another matter that has been brought to our attention is radio interference in the city. Almost everyone has a radio and wants to listen to programs on the air. Interference caused by electrical equipment in some sections of the city prevent radio reception at times. We think you owe it to your neighbor to have your electrical equipment fixed so that it will not interfere with radio reception. We are sure no one wants his electrical equipment to be a nuisance to others, so won't you call a radio man or electrician and have him check and correct this trouble?

Again asking for your cooperation, we are  
Yours very truly,  
YOUR CITY COUNCIL

## Beaver County to Have Hot Politics

Candidates announcing for the political ring in Oklahoma through the Herald-Democrat, Beaver, this week include the following: E. T. Venable, county commissioner, second district; Lee Hulse, county superintendent; Otto Barby, county judge, reelection; Floyd Harrington, Beaver County representative to the State Legislature.

The above are in addition to those previously announced in the Herald-Democrat and authorized announcement in the issue of March 28. A steadily increasing number of aspirants for various offices indicate a big political year for Beaver County.

An internationally-known marionette show, that has pleased the people of old world capitals, has been booked for the 1940 season of the Golden Gate International Exposition on Treasure Island on San Francisco Bay.

Complete in every detail, a Lilliputian town will occupy 2500 square feet in the Homes and Gardens Building on Treasure Island. The exhibit, which will be one of the most interesting of the 1940 season of the Golden Gate International Exposition, is sponsored by the American Institute of Architects and the Associated General Contractors of America.

## Bette Davis Chooses Blue and White

Navy blue and white, the perennial favorite combination, is selected by dramatic screen star Bette Davis for her spring outfit. She wears suit, left, of navy bengaline with flared skirt. Brief jacket has rounded front and horizontal slot seams. Gloves, boutonniere, string blouse and hat are white. Spring dress, right, is linen with artichoke green bodice and skirt of green, corse and beige panels.

## Sausage and Apples for Tempting Luncheon Fare

The flavor of sausage is so appetizing that it is welcome at any meal—breakfast, luncheon or dinner. In fact, many a homemaker relies upon it frequently to solve her menu problems for it is easily prepared and combines well with many other foods.

Sausage and waffles or sausage and pancakes are two of the favorite combinations of foods for breakfast. Sausage and fried apple slices make a perfect pair for luncheon. Sausage may be served for dinner in a casserole combination with macaroni, encased potatoes, or any number of vegetables. Sausage fills the bill equally well for the impromptu supper party when something tempting and hearty is desired. In fact, sausage is one of those foods which may be served at any time and for any occasion.

It is a good idea to know a variety of ways of serving sausage so that it may be used as often as convenient with no danger of monotony. Cooking it with other foods is a way of extending the spicy, tempting flavor.

Here are two ways, somewhat out of the ordinary, to use little link sausage. They are suggested by Inez S. Wilson, home economist.

## Sausage Meat Loaf

10 or 12 link sausage  
1 1/2 pounds ground beef

1 cup fine dry bread crumbs  
1 medium onion, finely chopped  
1 teaspoon salt  
1/2 teaspoon pepper  
2 eggs, slightly beaten  
1 cup milk  
Combine ground beef with bread crumbs, finely chopped onion and salt and pepper. Moisten with slightly beaten eggs and milk. Mix well. Arrange sausage links in loaf pan in diagonal design. Pack loaf mixture tightly around the sausage links. Bake in a slow oven (350 degrees F.) about one and a half hours.

## Sausage With Sweet Potato

1 pound link pork sausage  
4 medium sweet potatoes or yams  
1/2 cup milk  
Buttered bread crumbs  
Salt and pepper

Place sausage in skillet and brown it. Cook sweet potatoes in boiling water until tender. Drain, mash and season them with butter, salt and pepper. Add hot milk. Lay two browned links of sausage side by side and cover with a tablespoon of mashed potatoes. Sprinkle with buttered bread crumbs and place in a moderately hot oven long enough to brown them, about fifteen minutes.

**Liver Rolls with Sausage Stuffing**  
2 large slices liver  
6 to 8 links cooked pork sausage  
1 cup fine dry bread crumbs  
1 small onion, grated  
1/2 cup hot water  
Salt  
Pepper  
6 slices bacon

Pour hot water over the liver slices. Sausage left over from breakfast may be cut into pieces for sausage stuffing. If no cooked sausage is on hand, brown and partially cook the sausage first. Combine with bread crumbs. Season with grated onion, salt and pepper and moisten with hot water. Pile a teaspoonful of bread dressing on each of the scalded liver slices. Roll and wrap a slice of bacon around the outside. Fasten the ends with toothpicks. Place in a baking dish. Add one-half cup hot water, cover and cook slowly in a moderate oven for forty-five minutes. Remove the cover during the last fifteen minutes in order to brown the bacon.

Another tasty liver dish which is quite out of the ordinary but very delicious is liver chow mein.

**Sausage Links with Pineapple**  
1 link sausage  
2 tablespoons flour  
1 1/2 cups crushed pineapple and juice  
Toast

Place the sausage in a cool frying-pan. Add 2 tablespoons water, cover and steam for five minutes. Remove cover, pour off liquid and brown. Take up sausage. Add flour to drippings and brown. Add crushed pineapple, stirring until it is heated. Serve on toast points with link sausage on top.

## Have Best Safety Record in History

Railroads of the United States in 1939 had the best general safety record in their history, surpassing the previous record made in 1938, J. J. Peiley, President of the Association of American Railroads announced today.

Fewer persons lost their lives in railroad accidents in 1939 than in any year since the Interstate Commerce Commission began the compilation of these reports in 1888.

In the field of passenger safety, 13 persons lost their lives in train accidents in 1939, compared with 52 in 1938. Of the 13 passenger fatalities in train accidents in the past year, 9 occurred in one accident which, according to an investigation by the Interstate Commerce Commission, was caused by sabotage. Out of 52 fatalities in 1938, 40 resulted from one accident, for which a cloudburst was responsible.

Fourteen passengers were fatally injured in train-service accidents in 1939, compared with 17 such fatalities in 1938. Train-service accidents to passengers consist, for the most part, of accidents in getting on or off moving trains.

Fewer employees were killed and injured, as compared with the number of hours worked, than ever before. As compared with the previous record year of 1938, the decline in the fatality rate among employees was 2.6 per cent, and in the injury rate it was 2 per cent.

Fatalities to trespassers on railroad property were 2,294, four less than in 1938. Fatalities from high-way-railroad grade crossing accidents were less than any year since 1915. Trespasser and grade crossing fatalities totaled 86 per cent of all fatalities connected with the railroads in 1939.

## Civil Service Exams For Student Nurses

The United States Civil Service Commission has announced an open competitive examination to secure student nurses for employment at the St. Elizabeth's Hospital (Federal Institution for Treatment of Mental Disorders), Department of the Interior, Washington, D. C. Application must be on file with the Commission's office at Washington, D. C. not later than April 29 if received from States east of Colorado, and not later than May 2, 1940, if received from Colorado and States westward.

The hospital offers a 3-year training course for the student nurses, and pays them a salary of \$288 a year with quarters, subsistence, laundry, and medical attention. Those who satisfactorily complete the training course and receive certificates of graduation will be eligible for promotion to positions in the nursing staff, if vacancies are available.

Applicants must have been grad-

## "The Road to Better Roads"

AUSTIN, TEXAS—Because a small group of interested citizens in one Texas county had the determination and energy to delve into the machinery of its county government and see what could be done toward decreasing waste and extravagance and increasing efficiency, the rest of the nation's three thousand counties may get a valuable lesson in road building and planning.

Bruce Boone describes a movement launched recently by citizens of Tarrant County in an article, "The Road to Better Roads," in the February issue of Texas Parade.

"For years," he writes, "Tarrant County has been what might be considered an average Texas county. Some inefficient practices had grown up, largely through precedent, in the administration of the county's affairs.

"A little more than a year ago, however, things began happening in a quiet way in Fort Worth. The changes brought about by a rather unimpressive and unostentatious beginning bid fair to improve the entire county governmental setup in Tarrant County, especially the administration of the county's roads. About a year ago, at the annual meeting of the board of directors of the Chamber of Commerce, a Civic Affairs Committee was appointed. This committee decided that responsibility went along with honor and that it would concern itself with something other than the easy, non-controversial subjects of tree planting and beautification. The committee determined to seek ways of obtaining more economy and efficiency in public administration.

This committee, in the year it spent educating itself, found that extravagance and costly overlapping and duplication of functions were problems of state, federal and local governments. In the administration of county roads the committee believed greater service could be rendered for less money if the county adopted the 'unit system' of administering the roads, instead of adhering to the archaic method of precinct administration followed in all but a few of the State's counties. Under the precinct plan, each commissioner has complete charge of the road operations in his precinct. Hence, there was costly duplication of supervision and equipment.

"The Civic Affairs Committee learned that some counties had effected notable economies through use of the unit system of county road administration. The committee found that some of the principles of the unit plan were being complied with in Tarrant County, such as centralized purchasing. It found, in addition, however, that further centralization of road planning, keeping of accounts, inventory of material and equipment, etc., likely would result in greatly improved service to the road users and effect substantial economies.

"With the complete co-operation of the Commissioners' Court the committee made a thorough survey of the county road system. It held several meetings, with and without the commissioners, and finally drew up a set of recommendations which the court unanimously approved and planned to put into effect.

"General principles of the recommendations included (1) a unified plan of operation of the road and bridge system for the county as a whole, subject to the statutory limitations requiring that all road tax money be spent from the precinct within which it is collected; (2) central planning by the court, as a whole, of work to be done on this system and of purchases and expenditures for labor, materials and equipment; (3) co-ordination of purchases under the county purchasing agent and keeping a perpetual inventory of county road equipment and materials; (4) co-ordination of construction and maintenance of roads and bridges under the county engineer, subject to the approval of the commissioners' court; (5) uniform system of reports for the four precincts, giving costs of road and bridge projects, cost of maintaining and operating equipment, use of man-power and disposition of materials.

"On the day the committee submitted its recommendations to the court, the unit plan received a powerful and unexpected endorsement in Washington by Carl Wilcox, chief engineer of WPA road and bridge projects. Wilcox, greatly impressed with the possibilities of the unit system of road administration and long range planning of county roads, has urged that Tarrant County take the initiative in long range county road planning. In taking the lead, it not only would better itself, but would lead the way to better government for the other 3,607 counties in the United States.

used from an accredited high school giving a 4-year course upon completion of at least 16 units, including certain units of English, mathematics, science, and history. Senior students now in attendance in their last year of high school will be admitted to the examination under certain conditions. They must have reached their eighteenth birthday, but need not have passed their thirtieth birthday. These age limits will not be waived in any case.

Full information may be obtained from Arvie Hale, Local Secretary of the U. S. Civil Service Board of Examiners, at the post office in this city, or from the Secretary of the U. S. Civil Service Board of Examiners at any first- or second-class post office.

## Sure Signs Of Spring

Spring is here when motorists dig out the road maps and lay their plans for seeking the "open road," and sailors the country over begin their annual "fitting-out" activities, preparing sleek water craft for the first jaunt of the season. Here Skipper Ted Skinner begins operations under the watchful eye of Miss Tony Clark, who motored down to the boatyard in her new 1940 Chevrolet.

## UNUSUAL FACTS REVEALED

—by "Movie Spotlight"

## Missouri Ave. Club

PICTURE FRAMING, Daley Glass Shop, 12-14-c

We should begin to train our children for family life while they are young, then as they grow older they will adjust themselves to the give and take of their own family, their school chums and later to the responsibilities of marriage, were comments of Mrs. J. S. Slaughter, president of the Missouri Avenue club, at the meeting of the club Friday, March 29, two o'clock, in the home of Mrs. Fred Huston.

Our first thoughts in this training is to make the children happy. Take time to share in their games and pleasures; consider their problems, they may seem small to you but big to the child; teach them to be polite and thoughtful of others. Give them responsibilities and praise them when a task is well done. Teach them to share their pleasures with their playmates for none admires a selfish child. Children should be taught obedience but by love, not through fear.

Mrs. Roach discussed "Spending" and stressed "If a thing is worth having, it is worth working for." Children should be taught the value of money and how to spend it to the best advantage.

"Security for Children" was the topic for Mrs. Eton Lawrence's talk and she said the child should be taught that he has a place in the home, that he is loved and wanted, and that his cooperation is necessary in making the home the happiest and most pleasant place to live.

The district meeting in Amarillo on April 16 was discussed and plans made for several to attend. Present for the afternoon were Mrs. Earl McCarragh, Mrs. C. O. Roach, Mrs. Eton Lawrence, Mrs. J. S. Slaughter, Mrs. L. E. King, Miss Edna Huston and the hostess, Mrs. J. H. Kershaw, reporter.

## Missouri Ave. Club To Meet on April 12

The Missouri Avenue Home Demonstration club will meet in the home of Mrs. G. M. Cooper on Friday, April 12. Mrs. Hazel Martin, home demonstration agent, will demonstrate the preparing and planting of shrub beds. Visitors are welcome.

A representative beauty from each California county will be selected to play a major role in the opening of the Golden Gate International Exposition, May 23, according to plans now under way. Lucky winners will bear their county titles and may be chosen to act as Exposition hostesses in their own county exhibits throughout the run of the 1940 Fair.

Troop 84 met Monday, April 1, in the Methodist Church.

Those present were: Bill Herndon P. L., Wayne Lee A. P. L., Finley Hamman, Dick Thomas, Jack Allen and Gale Rogers, Wolf Patrol; Jimmie Denman P. L., Joe Cox A. P. L., and Gerald Murray, Bob White Patrol; William Martin P. L., John Dunlavy A. P. L., Junior Pease and Bob Chase, Eagle Patrol; Kenneth LaMaster P. L., J. J. Keim A. P. L.

P. L., John Fucheng, J. L. Miles, Rumpster and Seymour, Panther Patrol. Places in the contest: March 25, stand; Panther, 1st; Wolves 21; and 15.

Others present were: Wayne Lee Scoutmaster, and Assistant Scoutmaster—Scribe.

New stage shows, bands and new entertainers the world of music, and radio will be featured in the 1940 Golden Gate International Exposition.

Treasure Island on the Bay boasts one of the oldest roads in the world with the distinction of having the only square roundabout world.

## HOME DEMONSTRATION CLUB NEWS

### McMillen Club

"Children who are taught to think for themselves before starting to school find making friends and booklearning easy," stated Mrs. Fred Tarbox, council delegate, at the meeting of the McMillen Home Demonstration club in the home of Mrs. James Hardy on March 28.

When a child makes an apology it should be sincere and not merely "I'm sorry" which he dismisses without thought. A child who loses, yet can congratulate his opponent is a much worthier person, than a conceited winner, for he has dismissed selfishness from his mind. Benefit boxes, for the exiled children from belligerent nations, are being placed in schools over our nation. This is a lesson in sharing for the American children.

Present for the meeting were Mesdames Pat Gilbert, Queen Blackwell, Thurman Trew, C. G. Clement, E. Omar Barnes, Linus Taylor, B. H. Murphy, A. C. Nies and Miss Evelyn Taylor, visitors; Mesdames Willis Hardy, Samuel McLain, Delbert Davis, Kenneth McLain, Fred Tarbox, Earl Schwalk, A. C. Dial, B. L. Barnes, B. E. Plummer, Harvey Urban, James Hardy and Miss Julia Hamilton, members—Miss Julia Hamilton, reporter.

### McMillen Club Meets Thursday, April 11

The McMillen Home Demonstration club will hold its next meeting in the home of Mrs. Willis Hardy on Thursday, April 11, at 2 o'clock. Mrs. Hazel Martin, home demonstration agent, will be present and give a demonstration on the preparation of shrub beds and the planting of shrubs. Visitors are always welcome.

### Perryton Club Meets

The next meeting of the Perryton Home Demonstration Club will be held in the home of Mrs. B. B. Lee on Wednesday, April 10. Members are asked to be present. Visitors are solicited.

### Perryton Club

"Living together in the family is a problem in adjustment for each family member," stated Mrs. B. B. Lee in her discussion of "Family Relationship" to members of the Perryton Home Demonstration Club which met March 27 in the home of Mrs. W. G. Hibbs. "It is necessary that the successful family members think of others in the family before himself," she continued.

Others taking part on the program were Mrs. William Dull and Mrs. Lake Patton. Miss Hallie Brannon sang.

## We Rarely Count the Blessings

We rarely count the multitude of advantages that Natural Gas Service affords, day in, day out, over other fuel services.

Overnight, temperatures plunge to record lows! You awaken in a numbing cold—fumble for a match—light the gas stoves and feel warmth flow through the house. You do not pause to think of vigilant gas company men who make this instant comfort possible. They have been awake during the small hours, opening gas well valves, manning compressors, checking pressures.

This constant vigilance and readiness to serve is another of the great advantages of Natural Gas that we rarely consider.

## Open House At CCC Camp Sunday

Residents of Ochiltree County will be given an opportunity to visit the Perryton CCC Camp No. 2874 during the annual open house session to be held there Sunday afternoon, April 7, Captain D. S. Holten announced Wednesday. The open house will be held from one to three o'clock. A tour of the camp will be made.

The event is being planned in connection with the observance of the seventh anniversary of the CCC Camps. Arrangements have not been made for any particular program, but talks will be made, Holten said.

Legislation creating the CCC was enacted March 31, 1933, the corps was created by executive order, April 3, the first boy enrolled April 7, and the first camp established April 17.

The Perryton camp was built here and opened in August, 1935.

James J. McEntee, successor to the late Robert Fehmer, director of the CCC, will speak to all CCC personnel over the blue network of the National Broadcasting Company Sunday afternoon from 4:15 to 4:30 o'clock in connection with the anniversary.

## Aldon Bell Is Equity Mgr.

Aldon Bell, for the past year manager of the accounting department of the Perryton Equity Exchange, was named as general manager of the Equity at a meeting of the board of directors Monday. Mr. Bell assumed his new responsibilities at once.

Mr. Bell is well qualified for this important position as head of one of the largest farm cooperative grain businesses in the nation. The Perryton Equity operates elevators at Perryton, Lord, Farnsworth, Waka, Blackwell and Huntoon. In addition to the buying and selling of grain, they operate a large retail feed and coal business, maintaining a modern mixing plant in this city.

Aldon Bell was born and raised in this community and knows the people and their ups and downs. He is the son of Mr. and Mrs. F. L. Bell, prosperous farmers of the Union community, just across the line in Oklahoma. After completing his early schooling in the Union school, he graduated from PAMC at Goodwell and went on to Oklahoma University at Norman where he received his degree in Business Administration.

During vacation periods from school and during the summers of the three years he taught the Bethany school, Mr. Bell was employed by the Perryton Equity. In 1933, he went to Enid where for six years he was in the employ of the Union Equity Cooperative Exchange, returning to Perryton on May 1 of last year.

In taking over the general management of the Equity, Mr. Bell states that no changes in policy or managers or employees is contemplated and that he wants to continue the same friendly relationship that has existed in the past between customers and the Equity.

## NO. 4—CONTINUED FROM FRONT PAGE

ills, no direct mailing, nothing but straight newspaper advertising.

One hundred and nineteen voters in the Groom precinct in Carson county have signed a petition asking for a local option election. Groom has been "wet" since Carson county voted to make the sale of alcoholic beverages legal several years ago. There are 375 voters in the precinct.

And while we're thinking about beer, did you know that you can drive from Austin, up through Burnet, Lampasas, Coleman, Abilene, Stamford, Anson, Crowell, Quanah and Childress and that at Shamrock you'll find the first legal beer after leaving the state capital.

And we understand that all the towns between Amarillo and Big Springs are bone dry insofar as legal sales are concerned. Now, we're not saying that you can't buy a thing in any of these places for we're pretty sure that the "leggers" are on the job in every town in varying degrees of boldness according to the strictness of local law enforcement.

Mayor Forbes is working on a plan whereby he hopes to make possible the paving of a number of east and west streets in the residence section of Perryton. Under the Mayor's plan, no property assessment will be made.

J. A. Willis who is with the the Rock Island at Dalhart was in our office today. "Curley" says that he finds that the folks of the Dalhart country are mighty strong for Max Boyer in his race for the State Senate and that from present indications he will come out of that section with almost a unanimous vote.

Carroll Symers, district supervisor for the federal census, was a visitor at today's meeting of the Perryton Rotary Club. Mr. Symers, whose home is at Memphis, spoke to the club on the progress of the census. He also gave some very interesting information on the workings of the Food stamp plan that is now in operation at Memphis. While this food stamp plan is now operating on an experimental basis in a limited number of cities and counties, it is very likely to be enlarged by the present Congress. If the plan is adopted universally Perryton should be laying the ground work right now to be one of the first on the approved list.

Experience is not what happens to a man. It is what a man does with what happens to him—Adolph Hitley

## Newly Weds Honored With Dinner Wed. Eve

Miss Malolah Ruth Pipkin and Mr. Orville H. Pullbright son of Mr. and Mrs. R. R. Pullbright, Spearman were united in marriage by Judge Dave Shanks Wednesday afternoon, March 27.

At eight o'clock that evening they were honored with a wedding dinner in the home of the bride's parents, Mr. and Mrs. Knox Pipkin of the southwest part of the county.

Both families and Rev. and Mrs. Paul Baily and children, Mrs. Susie Dacus and Marylee, Miss Kathleen Greener, all of Spearman, Miss Jean and Carl Scroggs, Waka, and Mr. and Mrs. C. Igou of the Lake View community, were present for the evening.

The young couple will reside on a farm near Spearman.

## NO. 5—CONTINUED FROM FRONT PAGE

Rupperecht September 22, 1906 at Glazier, Texas, and in the same year entered the mercantile business in Ochiltree moving with the town to Perryton in 1919.

He was a true pioneer, ever ready to help the less fortunate. As a merchant he did much for the town and community, living his belief that the man who scatters flowers in the pathway of his fellowmen, who lets into the dark places of life the sunshine of human sympathy and kindness, is following in the footsteps of his Master. Mr. McLarty was converted and joined the Baptist Church during his boyhood days. He never forgot the hospitable ways of the pioneer.

Though in failing health for several years, he never complained. In February, his condition became serious and he was taken to the Perryton Hospital, where death came at 3:30 o'clock Thursday afternoon. Survivors are the wife, Mrs. Selma McLarty; two daughters, Mrs. Selden Caradine, Perryton, and Mrs. Vernie Black, El Paso; four sons, Thomas and Willard of Perryton, Don of Albuquerque, N. M., and W. B. of Follett; four grandchildren, Max, Billie Maxine, Donna Mable and J. W. of Follett; one sister, Mrs. Emma Glasgow, Perryton; two brothers, Tom of Goltzy, Okla., and Marvin of Wichita, Kansas; a number of nieces and nephews and a host of friends.

## NO. 1—CONTINUED FROM FRONT PAGE

In sight reading and marching. The three orchestras registered are: Hereford, Class B; Lefors, Class C; Lubbock Junior High, Class E.

Three Class A bands, Amarillo Senior High, Lubbock Senior High, Pampa Senior High, are entered. Sixteen Class B bands will be there. They are: Harrell, Slaton, Electra, Hereford, Phillips, Plainview, Borger, Shamrock, Memphis, Brownfield, Perryton, White Deer, Portales, N. M., Spur, Floydada, Dalhart.

Sixteen bands are also entered in Class C as follows: Crosbyton, Canyon, Happy, Panhandle, Tulsa, Hale Center, Dumas, McLean, Miami, Spearman, Clarendon, Dimmitt, Tahoka, Sunnsett, Canadian and Stratford.

In Class D five bands are entered. They are Lockney, Tatum, N. M. Friona, Booker, Patton Springs. The entry list in Class E includes four bands: Lubbock, Plainview, Pampa and Amarillo, all junior high school bands.

In Class EE, or grade school, there are six bands: Skellytown, Hereford, Woodrow Wilson and Sam Houston, both of Pampa.

Band members making the trip are Bill Allen, Jack Allen, Kathleen Allen, Clair Brilliant, Wendell Buckhaults, Gene Budock, David Burger, Roy Cudd, Neida Beth Dodson, Newton B. Dodson, Charles Elzey, Leon Engleman, H. G. Evans, R. A. Flowers, John Fogle, Leroy Halsey, Bill Hammond, Finley Hammon, Dudley Hargrove, Clinton Hearn, Robert Holland, Robert Holt and Doris Jines.

## Camp Enrollees Get Discharges

Thirty-seven enrollees of Civilian Conservation Camp 2874 were honorably discharged April 1, camp officials said Wednesday. The discharged group was composed of enrollees who had found other means of employment and those that had completed the two year enrollment period. Total number of enrollees in the camp at present is 136.

New recruits will be enrolled about the middle of April and the local camp's quota will be filled from those entering the corps at that time.

Those discharged were as follows: Harvey Albright, James Baker, Amarillo; Victor Baker, Elmus Heatley, Frank Woodruff, Sterling Grant, Borger; Don Ballowe, Raymond Lewis, Archer City; Aubrey Carnes, George Manning, Cecil Cook, Roby; Robert Eldson, Roy Grider, Troy Ramsey, Andy Reese, Cleveland Watson, Wichita Falls; Troy Gatlin, James Sims, B. B. O'Dell, Memphis; Tony Griffin, Johnnie Henderson, Obia Cole, Joe Kilman, Shamrock; Lawson Hudson, Pampa; Joe Lenzi, Mineral Well; Archie Middlebrooks, Jackboro; Charles Moats, Tulsa; Thurman Rutledge, Spur; Barney Thomas, Farwell; Adrien Tucker, Jackboro; Glen Wells, Boaring Springs; Henry Lane, Mobeetie; William Kinnaman, Bowie; Durward Rankin, Lela; Hayward Hampton, Grady Hearson, Dumas; Julius Thomas, Lefors.
