Exemption Policy Discussed

High School Move Set For Christmas Break

Colorado City schools superintendent Lloyd McKee informed CISD board members during their Monday night regular meeting that the move into the new high school has been delayed by failure of delivery for some needed items and the move will take place during the Christmas holidays.

Also holding up the move, McKee told the board, are problems in getting the paving done, both for the parking lot, being done by Price Construction of Snyder for the school and by the state on the highway in front of the building complex.

Price Construction was to begin oiling the parking lot area Wednesday morning but that had to be delayed

because of a moisture condition. The oiling process will take five days to cure, McKee said, so the lot will not be paved by Monday afternoon as he had hoped.

"So it looks like we won't make the move until during the Christmas holidays," McKee said.

Workers are having difficulty in cleaning and in paving and "we don't want anything but top notch shape for moving into the building," he added.

Architect Tommie Huckabee was in Colorado City Tuesday and Wednesday to check deficiencies in construction areas in preparation for the board to meet sometime next week and

officially approve the building. High School Principal Bill Everett met with the board to present information about the school's exemption policy, a request which had been made during last month's meeting.

Current policy is to exempt students on this basis: any student maintaining a passing grade and having only two absences during the trimester, either excused or unexcused, is exempt from taking final exams in a subject.

Past exemptions were granted on this basis:

--An A in a subject and only 5 absences.

--A B in a subject and only 3 absences.

--A C in a subject and only 1 absence.

During discussion of the policy, the board members seemed to be divided into two groups: those who feel that final exams should be used as a teaching tool to prepare college-bound students for preparation and taking of college finals and those who felt that giving exemptions on the present basis would keep attendance high and motivation for preparing daily lessons at a premium.

One drawback of the policy pointed out by board member Truman Bodine, is that students too sick to attend classes may come to school, thus spreading germs to other students.

Board member Drew Ballard expressed his feelings by pointing out that a C student with a perfect attendance would be exempt while an A student who happened to get sick and

miss three days of classes would have to take the exams.

Final outcome of the discussion was the board members asking the question, "What is best for the student?" and a determination to look further into the matter during June's meeting with school principals.

Two resignations were accepted and two new teacher appointments made:

--Mrs. Rita Latimer submitted her resignation as math teacher at CHS. Mrs. Latimer has taught in the system for the past six years and was instrumental in planning the Bilingual program at Kelley. This was her first year to teach in high school.

--Mrs. Betty Tomb resigned as 4th grade teacher at Hutchinson. Mrs. Tomb has taught in the school system for a number of years and is moving to San Francisco, McKee said.

--Miss Leslie Schnauffer was appointed as speech and drama teacher. In addition to her teaching credentials, Miss Schnauffer has done substitute teaching and graduate assistant teaching at West Texas State U., has worked in public relations for Panhandle State and held a job as newswoman for KFDA-TV in Amarillo, doing feature news reports. She is also well-versed in drama, taking lead roles in productions which include

WATERLINE BREAK in an 8-inch pipe at 2nd and Walnut was reported about 6:30 a.m. Tuesday and repaired by 2:30 p.m. City Manager James Campbell said an 8-foot section of pipe was replaced with 8-inch cast iron pipe and the reason it took city crews some time to make the repair was digging through the asphalt and concrete paving.

Cemetery Committee Appointed By Council

State officials and an engineering firm hired by the city of Colorado City have determined that the city can modify its existing sewage treatment plant and will not have to build a new one under the upcoming bond program. City Manager James Campbell told the city council Tuesday night.

The bond program was one of many items discussed during the regular monthly meeting of the council.

Items of discussion included a proposed rate hike by Southwestern Bell Telephone Co., appointment of a committee to determine needed improvements at the

city cemetery, appointment of Colorado City Housing Authority members and council granted a request by Eddie Swinney to place a double-wide mobile home at the Hi-Way 80 Motel.

The council also met for a short time in executive session and afterwards said the purpose of the meeting was to discuss Margaret Oyler, Civic Center manager, who has reached the city's mandatory retirement age of 65.

The council voted to waive the mandatory retirement of

Mrs. Oyler for the next year and keep her as manager of the city facility.

The council also decided to hold their regular monthly workshop Dec. 16 instead of Dec. 23 due to the latter date being so close to Christmas. The Christmas dinner for city employees will be held Dec. 17 at the Civic Center, Campbell told the council.

Campbell read an ordinance reappointing housing authority members, adding his praise for the work done

by the board. Reappointed to two-year terms were

Basket Project Planned

The Ministerial Alliance in Mitchell County is once again sponsoring a Christmas basket project for the needy.

Sunday has been designated as the date for each church to take an offering for the project. Gifts may be made through local churches or by mailing a donation to the Rev. Bob Grayson, 967 E. 15th, Colorado City, Texas 79512.

Canned goods may be brought to the local church or to the Community Building at the Housing Authority, corner of 5th and Oak. The office at the Housing Authority building will be manned from Dec. 17 to Dec. 23 from 10 a.m. until 2 p.m. weekdays only.

Anyone knowing a needy family may register names at the office or phone 728-3150, a spokesman said.

4-H Party

Mitchell County 4-H members have set their annual Christmas party for 7 p.m. Monday in the Medallion Room of Lone Wolf Electric. Iris Kalich, 4-H and Youth specialist from San Angelo, will present the short program and 4-H Club members will bring refreshments of sandwiches, chips and dips, cookies and soft drinks.

CONFISCATED BOOZE taken in a city wide raid on city residences last Friday night organized by the Sheriff's Department, city police and Texas Alcoholic Beverage Commission (ABC) agents includes 196 24 oz. cans of beer, 15 12 oz. cans of beer and 36 half pints of whiskey and vodka. Six houses were raided and eight people arrested in connection with the raids.

McGuire Presents Incentive Pay Plan

A short agenda was quickly disposed of by Mitchell County commissioners in their regular monthly meeting Tuesday morning.

Meeting briefly with the court were Mitchell County Sheriff Bill McGuire and John Deere heavy equipment representative Jim Smith of Godsey-Tillison of Odessa.

McGuire presented a request for a new car for the Sheriff's Dept. and Smith asked if he could demonstrate a new grader which John Deere has developed for road maintenance and other heavy duty use.

The commissioners gave their approval in both cases.

McGuire will draw up specifications for a new car similar to the last car purchased, bids to be opened Dec. 23 at 10 a.m. The car to be traded in has 81,000 miles on the speedometer and is needing repairs, he said. It recently underwent a transmission overhaul.

Smith said the grader would arrive in Colorado City from Big Spring late Wednesday afternoon and be used by city and county crews in demonstrations all day today.

Sheriff McGuire also reminded the commissioners once again of his idea, which is also a recommendation of a statewide law enforcement agency, that deputies be given incentive pay raises when certain steps in certification are reached, saying that the sheriff's department is competing with private industry and other law enforcement bodies in hiring qualified personnel.

Commissioners listened

with interest to McGuire's presentation, instructing him to draw up some sort of chart to go by for consideration in their January meeting.

McGuire outlined three basic levels of certification: basic, intermediate and advanced, stating that requirements vary according to college hours or experience.

He also said that he, along with personnel in the Council of Governments - Law Enforcement Council, are currently studying the possibility of obtaining a grant for purchase of a boat for use in enforcing rules and regulations recently passed by the commissioners at Lake Colorado City.

Judge Bill Carter told the court he has received communication from the Texas Parks & Wildlife Dept. acknowledging their receipt of a copy of the rules and regulations for the lake and the department expressed the intention to cooperate fully in enforcing them.

"We've also ordered the buoys to be used to mark restricted areas at the lake and they should be installed by mid-February," Judge Carter said.

In other action, the commissioners accepted resignation of O. B. Trulock as election judge for Precinct 1.

Middle School Chatter

This second trimester in homecoming we are studying about citizenship in our home, in our neighborhood, in other's homes, at school, in public places, at get-togethers, on the job, and our country. Homemaking might not sound very interesting, but it is a very fun class to be in. Later in this trimester we will learn how to cook foods. Mrs. Martha Matthews is our teacher. If you join homemaking, I'm sure you'll like it.

Last Thursday the 7th grade went to Ballinger and won 31 to 18. Coach Van Hoozer said we played a good game, but still could improve. Those who did well on the boards were: Doug Johnson with 9 rebounds and 10 points, Barry Blackmon with 6 rebounds; Jay Green with 1 rebound and 2 points; Jerry Jackson with 2 points and Mark Carter with 4 points.

In the second half, the coach put in Donald Owens, James Johnson, Terry Creswell, Tommy Romero and Jerry Pharris. Donald Owens and James Johnson scored, and the rest did a good job on defense.

Last Thursday the 8th Grade basketball team played Ballinger and were defeated 34 to 24. The first quarter was exciting as both teams scored. In the second

quarter the Bearcats went ahead of the Wolves and stayed ahead. Scoring for the Wolves were: Russell Noel, 4 points; J. D. Lewis, 7 points; Steve Schauwecker, 2 points; Chuck Claxton, 4 points; Mike Johnson, 1 point and Charles Edwards, 2 points.

In the rebound department J. D. Lewis had 7, Russell Noel, 4, Steve Schauwecker, Raul Gomez had 4; Kirk Williams had 3. The team as a whole did a much better job of rebounding.

Good defense was played by Schauwecker (real impressive), Gomez, Noel, Lewis, Baker, Sayger, Claxton and Johnson. Coach Gier-

hart was very pleased by the defensive effort.

On offense, Coach Gierhart thinks we're still turning the ball over and not making our shots.

This year's new honor society members are just great. We have quite a few new members. From the 7th grade we have Barry Blackmon, Lynn Bradbury, Mark Carter, Kelley Dockery, Kim Fuller, Melinda Fuller, Robert Godina, Melissa Gorman, Kim Hardegree, Sam Houston, Toni Hutto, Marji Maddox, Kari Morren, Mark Piland and Henry Reyna. Mark Raschke and James Edwards are our two new members from the 8th

grade. We welcome our new members.

In 8th grade history class we have been making posters and reports about some of the African Indian Tribes. The African Indian tribes are the Tiv, the Tiriki, the Afikbo Ibo, the Berbers, the Dodoth, The Swazi, the Yoruba, the Kpelle and the Bushmen of the Kalahar Desert. On the posters we drew what we thought the village looked like. Our reports had to be two pages long. It was fun and at least, we didn't have to work!

Sometime early last month a "new student" wandered in to M.S. Some

teachers were not very friendly for they chased him out of the building. When they did this, he just walked across the campus and sat down on Mr. Hargrove's car-making himself very much at home. The 6th grade girls felt sorry for him and saved their lunch for

him. Later on in the day, he disappeared. No one knows where he went. Mr. Turkey, we hope you didn't turn up on someone's table at Thanksgiving.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

chairman D. M. (Jake) Merritt, Sefton Pickens and R. B. Baker. Reappointed for one-year terms were Wayne Griffin and L. L. Thomas.

Appointed to study needs at the cemetery were Mayor Pro-Tem Dr. Elton Berkman, Councilman Rick Perkin, Mrs. C. C. Thompson, Huron Dorn, Rev. Bob Ford and Mrs. Dona Reed. Advising the committee will be Bill Seale and Doyle Kiker of Kiker-Seale Funeral Home and City Manager Campbell.

Dr. Berkman said after the committee gets organized, it will hold a public hearing to determine the public's thoughts on the needs at the cemetery.

The cemetery will be included on the bond issue the city council is now working on. Other items discussed relating to the bond issue at the meeting Tuesday night included a street survey which the council will receive next week, and the need for new equipment including a loader and a garbage truck.

In discussing the needs at the sewage treatment plant, Campbell reported that the state believes the physical set-up of the existing plant is sufficient to handle sewage disposal for many years to come. The only things that need changing include the treatment process which can be done at the existing location and with much of the existing structures (concrete tanks).

Campbell told the Record he doesn't know how much modifying the treatment plant will cost but it will be less than the city's share would have been to build a new one. If a new one was built the state and federal government would bear a large part of the cost.

Three officials of Southwestern Bell were present for the meeting to explain what is being done to solve local telephone service problems. Those present included District Manager Bill Gilliland of Snyder, local wire chief John Trotter and Danny Storch of Sweetwater, who started with the telephone company as an installer in Colorado City and is now in charge of

service operations in a four-county area.

Gilliland explained that a great deal of work has gone into the local telephone service area, part to solve problems and part to handle growth that has been experienced during the past few years. He said 400 lines and 400 terminals have been added, one fulltime employee and one part-time employee have been added to the local work force.

Trotter, using a map of telephone lines in the city to emphasize trouble areas, explained telephone lines and service in the city and what is being done to correct problems.

He said that 50 per cent of the problems that have occurred during past years have been cured within the past year with installation of new cable and cable originally installed in 1926 is now being replaced that will solve another 25 per cent of the problems that have been experienced. The final 25 per cent of the problems will be solved during the first quarter of 1976.

Storch added that this work would normally take about 2 1/2 years to complete but is being done in a 1 1/2 year period here.

In addition, Storch added, the operator service will be moved from Sweetwater to Abilene in the first quarter of 1976 to hopefully solve some of the problems Colorado City has had with operator service as Abilene has more modern equipment and a larger operator force than Sweetwater.

Dr. Berkman told the telephone company representatives that service is the matter in question and when the telephone company can live up to service standards the council would be glad to consider the rate increase which he (Dr. Berkman) considers to be in line.

Gilliland appeared before the council during the workshop meeting in November at which time Mayor Larry Hamner described the telephone service here as lousy. Since that time, Colorado City has gotten the attention of telephone officials throughout the state, Gilliland pointed out.

Sweetwater defeated the Wolves Tuesday for the second time this year 41-60 in Sweetwater.

C-County was cold most of the night, hitting only 21° of their shots from the floor. However, the Wolves were only down by 7, 35-42 at the end of the third period. Sweetwater then made 18 fourth period points, while the Wolves could manage only 6, as Sweetwater pulled away.

Jackie Ellis made 11 points and Craig Carter sank 9 to lead the Wolves in scoring. Jim Jordan and Frank Sanchez added 6 each to C-County's total.

The Wolves next game will be tonight against the Coleman Bluecats, there at 7:30.

★ School From Page 1

"The Rainmaker," "Becket," "Oklahoma," "Carousel," and "The Sound of Music." She has done photographic modeling and in her spare time and summers, helps with the family's cattle farming operation in Colorado.

Miss Deborah McMeans was hired for the 4th grade spot, her first teaching assignment. She is getting her bachelor's degree in education from Angelo State University, did student teaching at Phantom Elementary in San Angelo and was quite active in her high school days at Lake View High School, McKee said.

Appointed to the Textbook Committee to study and make recommendations for textbook adoption in math and spelling on the elementary level were the following: Thelma Powell, Earline Sellier, Dortha Hunter, Juan Espinoza, Wilma Reynolds, Betty Richardson and Jane Horton. McKee, according to policy, is official head of the committee. He said copies of the textbooks being considered will be available for anyone interested to inspect in the superintendent's office.

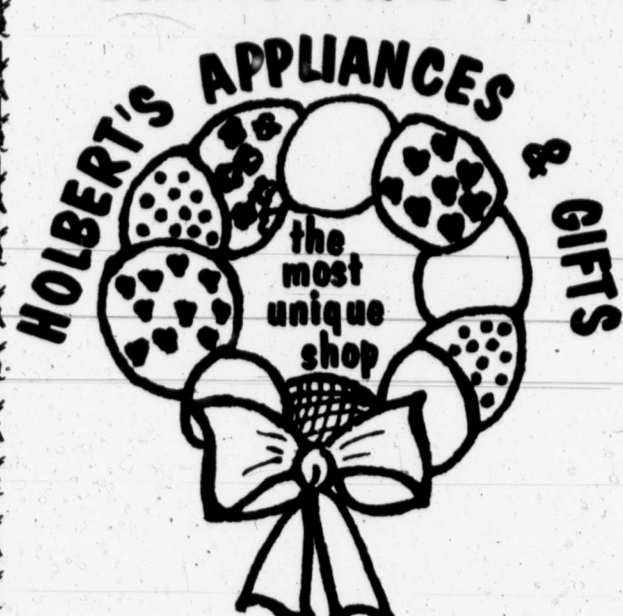

Athletic director Mike Farda met with the board in executive session following the regular session of the board. The executive session was called because it involved a complaint against a school employee and McKee said that during the closed meeting, Farda gave the board information concerning the school's athletic program.

When the closed session was over, board president Tom Rees went on record commending Farda for his work and the entire athletic program in the school system.

Save by Winterizing Your House Now...SAVE BY FINANCING IT THROUGH

Make ready for Winter. We'll help with a low cost home improvement loan!

FIRST STATE BANK

Loraine

These simple tools can help you save energy.

If your home doesn't have good insulation, you're wasting a lot of energy.

But you can do something about it. By installing proper insulation and weatherstripping, you can lock the heat out in the summer and hold it in during the winter.

And that means you'll be using electricity for air conditioning or heating much more efficiently.

You can check your attic insulation with a ruler. If the insulation is less than six inches thick, you may need to add more.

To check the weatherstripping around exterior doors, have someone shine a flashlight around the edges of each closed door. If you can see light, you may have to add new or replace worn weatherstripping.

Saving electric energy takes very little effort on your part, but it's worth the effort.

Oil Lease Suit Filed

Three out-of-state residents who own property in Mitchell County have filed suit against Exxon Corp. for allegedly failing to develop the land leased to the oil company more than 30 years ago.

While a portion of the land has been productive, the suit states, Exxon, formerly Humble Oil Co., failed to attempt to drill for oil on the east half of the section.

Filing the suit are Preston Burchard of Palo Alto, Calif., Alice Vickrey of Sacramento, Calif. and Irene Skinner of Tampa, Fla. The suit states they are the rightful owners since the deaths of two of the original owners, Lucy Mildred and S. R. Coleman.

The property was leased by the Colemans and Eleanor C. Burchard to Humble Oil in 1943.

The plaintiffs want the lease agreement to be forfeited, and they want equitable relief for any alleged loss of money.

Exxon denies the allegations and claims that the two-year and four-year statutes of limitations bar the granting of any judgment against it.

The suit was originally filed by Colorado City attorney Frank Ginzel in 32nd Judicial District in Mitchell County, but was transferred to Federal District Court.

Everett 1st Team Pick

Bill Everett, Colorado High School senior who was unanimously elected to the 6-AA All-District football team, has also been elected to the All-West Texas team as defensive linebacker.

The members of the All-West Texas team are elected by sportswriters in the entire area.
