Yanks Land In 300 Miles Of Mindanao

Full Scale Assault Started At Aachen

Troops Pouring Across Frontier In Many Places

By WILLIAM F. BONI
Associated Press Staff Writer

SUPREME HEADQUARTERS, AEF, Friday, Sept. 15.—The American First Army opened a full-scale assault on the great Siegfried line citadel of Aachen today, driving to within a mile of the city from the country, and poured tanks and infantry across the German frontier at a number of points in a general offensive extending southward more than 90 miles.

Aachen, an important industrial city as well as a gateway to the Nazis' prized Ruhr and Rhineland regions, was already partially ringed from the west as well as the south as American armored power plowed through tank traps and pill boxes and rolled through half a dozen outlying villages to close in on the border bastion.

New Penetration

Southward 40 miles the Americans made a new penetration of Germany, driving into Nazi territory some eight miles at a point northwest of Prum. This is 30 miles above Trier, near where the first invasion of Germany was made, and 40 miles west of Coblenz on a main road to that important city.

Near Trier, at the lower end of the 90-mile invasion front, Yankee infantrymen and tanks fought into the Siegfried line for a depth of two miles and widened their breach to four miles through thinly-manned and lightly-armed fortifications.

American reconnaissance fliers returning to U. S. Ninth Air force headquarters in France reported sighting American vehicles 16 miles inside the German border at one point, not immediately identified.

Nazis Admit Losses

The First Army in closing in on Aachen captured Hergenrath and Cemmenich, Belgian border towns three miles south and three miles southwest of Aachen, respectively, and seized the Nazi village of Forstebach two miles inside the border and five miles south of Aachen.

The Germans made no effort to hide the success of the American attack, announcing that "with the largest array of forces" at Aacheh the invaders had "suc-

Reds, Poles Lay Siege To Warsaw

By W. W. HERCHER
Associated Press Staff Writer

LONDON Friday Sept. 15—Russian and Polish troops yesterday captured Warsaw's industrial sururb of Praga on the east bank of the Vistula river and immediately laid siege to the great Polish capital taken by the Germans in the first month of the war five years ago by shelling enemy positions on the 130-foot bluffs across the wide stream.

Marshal Konstantin K. Rokossovsky's First White Russian Army troops and the first division of Lt. Gen. Zigmund Berling's First Polish Army crushed the German garrison of Praga after an all-night street battle much of it hand-to-hand fighting a midnight Soviet communique said.

Patriots Watch Battle

Polish patriots fighting inside Warsaw could see the Russians and Poles coming to their aid. Thousands of Poles have lost their lives in the Warsaw struggle but Moscow dispatches early today said the Poles still were battling the enemy and attempting to secure west bank stretches of the river to aid a possibly imminent Russian-Polish crossing from the Praga area.

Four bridges span the Vistula, which varies from 450 to 650 yards wide at Praga. Front dispatches did not say whether these had been blown up by the Germans.

The Russians and Poles already hold bridgeheads across the Vistula 25 and 100 miles south of Warsaw, and the coming decision on the Eastern front is expected to be fought out in the 150-mile strip of plains between that river and Germany's Oder.

In Area For Weeks

Rokossovcky's troops reached the suburban areas southeast of Praga a month and a half ago, but the final battle which carried into Praga began only several days ago. After gruelling struggles the Russians overwhelmed the Germans and captured 15 localities, including Zielonka, five miles northeast of Praga; Stary- and Nowy-Rembertow, four miles to the east; Saska Kepa, just below Praga along the river, and Miedzeszyn, eight miles to the southeast.

The capture of Praga, 325 airline miles from Berlin, concided

Unrest Said Mounting In Nazi Capital

By WADE WERNER
Associated Press Staff Writer

LONDON, Sept. 14—Gestapo chief and home army leader Heinrich Himmler announced tonight a strengthening of the Berlin police command only a few hours after broadcast of an unconfirmed French radio report that a small group of rebels had "routed an SS (elite guard) formation" in a peace riot and then fled into hiding before the arrival of reinforcements.

Unmistakable evidence of growing panic in Germany after the American Army's crossing of the western Reich frontier came meanwhile from the Nazis themselves as well as from neutral border points.

Desertions Increasing

One Nazi newspaper complained that a belief the "end of the war cannot be far off," was sweeping the country "like a psychosis." Army desertions were reported increasing and there was "open absenteeism" in German war plants.

Himmler "retired" Lt. Gen. Otto Klinger, Berlin security police commandant, naming Maj. Gen. of Police Erik von Heimbur in his place, the Berlin radio said.

Nerves Are Frazzled

The French Lyon radio did not give the source of its report on rioting in the capital, but dispatches from Switzerland said war production and communications insid Germany had been disrupted and that civilian nerves were so frazzled as to be getting out of control.

German gauleiters were armed with arbitrary powers under total mobilization decrees and they threatened "relentless measures" against ill-managed war factories and wobbling workers therein.

Paul Joseph Goebbels, Nazi propaganda minister, writing in the magazine Das Reich admitted Germany's "territorial losses are grave."

GOEBBELS ADMITS NAZI LOSSES TREMENDOUS

(By The Associated Press)

Paul Joseph Goebbels, German mobilization director, acknowledged today in Das Reich that Germany's territorial losses were grave and said that some German divisions could not be dispatched to the front because they "could not be supplied with necessary war equipment."

There was a warning to the Allies, however, in his article; broadcast from Berlin:

"In this war there can be no greater mistake than to allow successes to lull oneself into a sense of security. No nation is vanquished just because it has suffered a series of military setbacks.

"We know now exactly what we are up against. We know what we have to defend and where our forces have to be employed to protect our national life. We are defending our country and the existence of our nation.

He said the German nation is drawing its belt tighter, "ready and determined for everything and anything."

GOEBBELS SAYS NAZIS WILL NOT CAPITULATE

LONDON, Sept. 14. (AP)—"Germany will not capitulate . . . Germany cannot be conquered," Paul Joseph Goebbels today assured the Japanese people in a broadcast interview with the correspondent of the newspaper Mainichi.

The Nazis are coming up with "tremendous new weapons," Goebbels told the Japanese reporter and promised that Germany would fight on with "new divisions" raised by total mobilization.

CHILD DIES OF BURNS

AUSTIN, Sept. 14. (AP)—Billy Joe Gifford, 4, son of Mrs. Margaret Gifford, died today of burns received when his clothes became ignited in a playhouse. Funeral services will be held Saturday at Baylor.

SPARKPLUGS AND LOCATIONS OF DRIVES ON GERMANY—Map shows Allies' quintuple drive on Fortress Germany, and insets show commanders of the armies involved. Operations of the British Second Army and the U. S. Seventh may develop into a giant pincers at opposite ends of the Siegfried line, while Patton's Third pins down bulk of German reserves with threat of frontal assault by break-throughs on the Moselle river sector.

New Nimitz Blow Dealt

MacArthur's Men Land On Morotai; Nip Losses From Air Assaults Stupendous

By OLEN CLEMENTS
Associated Press War Editor

GEN. DOUGLAS MacARTHUR'S invasion forces have landed on little Morotai island in a surprise northwestward leap toward the Philippines, Southwest Pacific headquarters announced last night. Morotai is about 300 miles below the southern Philippines.

The landing capitalized on a terrific naval air plastering of the southern and central Philippines which wiped out 173 of the enemy's vital shipping and destroyed 501 of the warplanes he has zealously hoarded. Adm. Chester Nimitz announced this smashing four-day victory yesterday.

Morotai is the most northerly of the Halmahera islands which stand between MacArthur's Dutch New Guinea bases and Mindanao, mostly southerly of the Philippine islands the Allies are heading for.

84 More Ships, 233 Planes Are Smashed

By WILLIAM L. WORDEN
Associated Press Staff Writer

U. S. PACIFIC FLEET HEADQUARTERS, Pearl Harbor, Sept. 14.—In four days of Philippines raids within range of Japan's ring of airdromes around Manila, American planes from carriers of Adm. William F. Halsey's Third Fleet knocked the Japanese airforce out of the sky, accounted for 501 enemy planes, sank or damaged 173 surface craft and devastated ground defenses.

Adm. Chester W. Nimitz announced the complete results today of a victory which cost the Americans relatively light air losses and not a single warship, as Japan's fleet—last seen when it disappeared in mid-June behind the Philippines after defeat off the Marianas—remained in hiding.

Totals Are Boosted

Nimitz' latest communique Boosted previously announced totals by 233 more aircraft and 84 more ships. Two previous communiques, covering a Sept. 8 attack on Mindanao, and a Sept. 11 raid in the central Philippines, had accounted for 268 planes and 89 surface craft, including 37 sampans.

Sampans Not Included

Today's communique extended the raids through Sept. 12 and 13.

The overall total of 173 surface craft did not list an unspecified number of sampans accounted for Sept. 12 and 13.

The newly announced strikes were a continuation of the heavy central Philippine raids which began Sept. 11.

The first day of that attack previously was announced and today's communique added that American planes returned to Panay, Cebu and Negros and visited Leyte Sept. 12 and 13. (west longitude date—U. S. time).

Yank planes shot down many enemy aircraft as they ran into "considerable" enemy opposition Sept. 11. They found the enemy still formidable the next day through night time reinforcements.

Japs Do Not Attack

The enemy confined his efforts to intercepting American planes. He made no effort to attack U. S. carriers or escort ships.

American planes were effective enough so the aerial opposition on the third day was "entirely nonexistent." Anti-aircraft fire was meager.

The breakdown for the newly announced raids showed ships sunk were two large cargo ships, one medium transport, two destroyer escorts, and 35 small craft. Five cargo ships, one medium oiler, 36 small ships and two motor torpedo boats were damaged.

The Navy declared many sampans also were sunk but did not specify the number.

Aircraft Losses Light

United States aircraft losses were described as "relatively light."

Ashore, U. S. planes bombed and strafed several airfields, fired oil storage facilities, ammunition dumps, warehouses and other buildings.

The communique added that U. S. carrier aircraft also hit the Palau group of islands again Sept. 12 with 90 tons of bombs and 165 individual rockets. Targets were selected on Angaur, Peleliu and Ngesebus islands, including coastal guns, warehouses and a lighthouse.

ALEUTIANS BOMBERS SINK FIVE JAP SHIPS

ALEUTIAN HEADQUARTERS, 11th Air Force, Sept. 11 (Delayed) (AP) — Aleutian-based medium Mitchell bombers sank five Japanese ships and possibly two others off the Kurile islands today in the biggest kill yet scored in the series of offensive sweeps started last May. Naval Venturas of Fleet Air Wing 4 attacked Araido, Onekotan and Paramushiro islands.

One of the ships sent to the bottom by bombs and machine gun strafing was a 3,000-ton freighter transport.

The others, and the two possibles, were 100-ton picket boats.

Two Mitchells, piloted by Capt. Edward Fenner, Cincinnati, Ohio, and 2nd Lt. Bob Collier, Fort

(Turn to Page 11, Column 8, Please)

Japs Caught Off Guard By Landing

By MURLIN SPENCER
Associated Press Staff Writer

ALLIED HEADQUARTERS, New Guinea, Friday, Sept. 15—American forces, completely fooling the Japanese, landed in strength today against light opposition on the southwest coast of little Morotai island within 700 miles—fighter plane range—of Gen. Douglas MacArthur's long sought objective, the Philippines.

After decoying the Japanese by weeks of heavy air attacks into massing ground defenses further south in Halmahera group, MacArthur sent his invasion forces to the northernmost part of the Moluccas and put them ashore under heavy air and naval cover.

Ground Losses Minor

Ground losses in the landing were described as minor. There were no plane and warship losses.

"The Halmahera - Philippines line now has been penetrated," General MacArthur said, "and enemy conquests to the south are imperiled by threat of envelopment.

"Rolling up the remainder of this line would cut off and isolate garrisons in the East Indies estimated at 200,000 men of the 16th and 19th armies and would sever the vital supply to the Jap mainland of oil and other war essentials."

The Morotai invasion vaulted MacArthur's point of advance more than 300 miles northwest of its previous location at Sansapor, Dutch New Guinea.

Heavies Resume Blows On Nazis

LONDON, Friday. Sept. 15. (AP)—Allied heavy bombers roared over the continent during the night in a renewed assault on German targets after bad weather had restricted aerial warfare yesterday.

Nazi radios sounded alerts and the Hungarian radio warned of an attack in the region of Pecs, near the Yugoslav frontier.

With low clouds and rain squalls keeping British-based heavy bombers grounded during daylight yesterday, medium bombers shouldered the brunt of the aerial offensive against the enemy—now rounding out a week of constant attack.

Nazis At Brest Pounded

A 50-minute blasting was given the French port of Brest, where a German garrison still is holding out sutbbornly.

Six separate formations of Marauders and Havocs of the U. S. Ninth Air force dropped more than 250 tons of explosives on five enemy fortresses on the Crozon peninsula south of Brest.

Other mediums dropped nearly 2,000,000 safe-conduct surrender leaflets on Nazi holdout nests at Dunkerque, Calais and Boulogne.

These daylight efforts followed a night attack on Berlin by RAF Mosquito bombers, the 31st raid on Hitler's capital since D-day and the fourth on successive nights, and concentrated blows against enemy targets in Greece, Hungary and Poland by Italy-based bombers and U. S. heavies operating from shuttle bases in Russia.

GAS OFFICIAL DIES

DALLAS, Sept. 14. (AP)—Carl Clifton Kizer, 58, assistant treasurer of the Lone Star Gas company, died tonight at his home here.

Hurricane Batters Eastern Seaboard

(By The Associated Press)

Winds up to 90 miles an hour battered the Atlantic coast last night as a severe hurricane sped toward New England forced many seaside residents to flee for safety, dashed a 250-foot freighter upon the shore and caused widespread damage.

The freighter Thomas Tracy, driven aground at Rehoboth Beach, Del., broke in two under lashing by huge waves within an hour after coast guards rescued her crew of 31 men.

The 90-mile-an-hour reading was recorded at the Coast Guard station at Manasquan, N. J., about eight miles south of the resort city of Asbury Park. Winds as high as 83 miles an hour were recorded earlier on the Virginia coast.

Community Under Water

Water five to six feet deep, all from rain, blocked highways in the vicinity of Hicksville, N. Y., a Long Island community in an area hard hit by the famous hurricane of 1938.

Hundreds of automobiles were stalled along the Jericho turnpike on the northern coast of Long Island and elsewhere. Fishing craft and other small boats were reported washed ashore on the southern side of Long Island and in harbors on the north side.

Trees up to 60 feet high were toppled in the area of Hicksville and Riverhead.

Sheriff W. C. McCollom of Suffolk county, N. Y., reported abnormally high tides in the area. Electric service in the area was "off and on," he said.

The weather bureau reported in an advisory that the storm center was expected to pass across eastern Long Island and enter southern New England. But hurricane warnings were lowered from Delaware breakwater to Norfolk, Va.

Repeated breaks in the Long Island railroad signal system caused difficulty in keeping trains moving.

Ferry operations between New York and Hoboken, N. J., were suspended because docks were covered with two feet of water. Withdrawn from operations were the Lackawanna railroad ferry at 23rd street and the Barkley street ferry.

Beaches along the southern

Dewey-Bricker Club Organized

An appeal for the "restoration of constitutional government" was sounded at an organization meeting for a Lubbock county Dewey-Bricker club Thursday night in the 72nd district courtroom of the courthouse.

Dr. Clifford B. Jones, president emeritus of Texas Technological college, was one of the speakers.

There was an endorsement of the Dewey-Bricker combination as a means of setting in order a national government which would provide the "American way of life" to returning servicemen.

Vickers Heads Club

Special Judge J. E. Vickers of the 99th district court was elected president of the club, and M. D. Temple secretary.

Approximately 80 persons, including many anti-Roosevelt Democrats, were present.

John L. Vaughan, accountant and former Lubbock postmaster, served as chairman at the meeting in his capacity as chairman of the Republican county committee.

Vaughan said the organization was not a Republican one. "It is strictly non-partisan. It is a club of Americans interested in seeing the election of Dewey and Bricker."

To Broaden Activity

Talks were made by Dr. Jones, Dr. H. L. Kent, administrative assistant at Texas Tech, and Judge Vickers.

Vaughan declared the club had a starting membership of approximately 100. He said the organization plans activity in each of the county precincts, and that it probably would lead in the formation of other Dewey-Bricker clubs on the South Plains.

"We have yet to work out our strategy," Vaughan said, "but we plan extensive work in behalf of our choice."

Pioneer San Angelo Photographer Dies

SAN ANGELO, Sept. 14 (AP)—M. C. Ragsdale, 95, pioneer San Angelo photographer who first pitched his tent studio here in 1875, died today. Funeral services were held here today.

He bought his first automobile at the age of 60 and toured the United States, giving up driving at 93. A son in San Angelo and a daughter in California survive.

Nazis Brace Up Gothic Defense

ROME, Sept. 14 (AP)—Field Marshal Gen. Albert Kesselring was officially reported throwing the combined weight of all his arms into battle tonight in an effort to hold the Gothic line against the reinforced U. S. Fifth Army and the British Eighth.

Lt. Gen. Mark Clark's Fifth Army troops struck heavily at the great barrier before the Po valley and Italy's industrial heart. An undisclosed number of American divisions and several fresh British divisions trampled over Nazi outposts on a 25-mile front from Pistoia to Lucca, northwest of Florence.

19 Divisions At Line

Eight Nazi divisions were reported opposite the Fifth Army and eleven divisions opposite the Eighth Army, whose front runs eastward from Florence to the Adriatic.

The German divisions, possibly under-staffed, are banking more on fortifications and guns of all kinds rather than manpower.

Nazi resistance was officially described as "increasing tremendously" as concrete emplacements, mine fields, trenches, tank obstacles, partly buried tanks and "everything conceivable to make positions strong" loomed ahead of the Allied forces.

Some vanguards had thrust into the highly fortified zone and officers said bluntly that "tough fighting" was ahead.

Senate Group Okays Insurance Legislation

WASHINGTON, Sept. 14 (AP)—A Senate judiciary subcommittee today approved legislation to remove the insurance business from terms of the Sherman and Clayton anti-trust acts. The Bill, already passed by the House, is expected to come before the full committee for action Monday.

Approval of the legislation follows a Supreme court decision holding that insurance is interstate commerce and is subject to federal supervisions under the anti-trust laws.

Pioneer Rancher In Gaines County Dies

SEMINOLE, Sept. 14 (Special) Owner of extensive ranch holdings in Gaines county, Bert M. Ancel, 66, who came to this county in 1902, died about 6 o'clock this afternoon of a heart attack at his residence here.

Funeral services will be held here at 3 o'clock Friday afternoon. Burial will be in the local cemetery.

Ancel is survived by his wife; four sons, S/Sgt. Lee Ancel with the U. S. Air corps in England, Corp. Burl Ancel with the U. S. Marines on Guam, John and Jerry Ancel, Seminole: two daughters, Miss Pauline Ancel, Brownfield, Dorothy Ancel, Seminole; two brothers, R. L. Ancel, Electra, Tex., Tom Ancel, Fairplay, Colo., and one sister, Miss Belle Ancel, Dallas.

The body is at Singleton Funeral home.

Germany Off For 'Revolter' Session

DALLAS, Sept. 14. (AP)—E. B. Germany of Dallas, one of the anti-Roosevelt leaders whose control of the state party machinery was overthrown in the state convention closed yesterday, left for New Orleans for conferences tomorrow with revolting Democrats from other southern states

24 Air Force Vets Among Dead In Wreck; Many Hurt

TERRE HAUTE, Ind., Sept. 14. (AP)—Twenty-four air force veterans who had completed up to 50 missions in overseas combat were among 27 persons killed early today in a headon collision of a passenger train and an express train on a single track three miles north of here. About 40 others, including 15 more air force veterans, were injured.

The soldiers, who had just completed 30-day furloughs, were en route to a redistribution center in Florida. They occupied the first three pullman cars of the 14-coach Chicago and Eastern Illinois Dixie Flyer, which crashed into an express and mail train bound from Florida to Chicago. The express carried no passengers.

Ironically, the only coaches to hurtle from the tracks after the collision were those carrying the soldiers. Thirty-nine non-commissioned air force officers occupied the first coach and 34 commissioned officers were in the two following pullmans. Army authorities withheld a full list of the dead and injured servicemen until the next of kin have been notified.

The first coach burst wide open, spewing torn bodies along the right of way. Many soldiers were crushed in their berths. Air Medals and Purple Heart decorations were strewn among the wreckage. The other pullman cars, two baggage coaches, the locomotive and tender piled up along the tracks.

The trains crashed at 2:20 a. m. (cwt) in a heavy fog which enveloped the scene of death and destruction and hindered rescuers trying to locate the cries of the injured. Three of the dead were members of the Dixie crew. The other, besides the soldiers, was a member of the Women's Army corps.

Emergency Blood Plasma

Doctors and ambulances arrived from Terre Haute shortly after the crash. An emergency consignment of blood plasma was flown from Chicago in a plane chartered by the Chicago Herald-American. Additional plasma arrived later from Indianapolis.

Army Lt. E. B. Owens of Chicago, on the Dixie, said:

"I was asleep in the second pullman. All I remember was was waking up in the aisle. Our car was derailed and tipped over somewhat. I counted 15 bodies as they were removed from the wreckage. At least two or three more were in there at the time. I helped with the injured until I became too ill to continue."

Engineer, Fireman Die

The engineer of the Dixie Flyer, Frank O. Blair, 52, of Farmersburg, Ind., died at noon of scalds and burns. He was found wandering along the track in a dazed condition. He had set the emergency brakes on the Flyer and jumped when he saw the express loom up in the murky night. Escaping steam from the locomotives enveloped him.

Lewis Rause of Evansville, Ind., fireman of the Flyer, was killed in the crash. Torches had to be used to free his body from the wreckage.

C. & E. I. officials said the wreck was the first on its line involving passenger fatalities since 1905.

Negro Sailors Face Trial For Mutiny

SAN FRANCISCO, Sept. 14. (AP)—Fifty negro enlisted men today went on trial on charges of mutiny in refusing to load a Navy ammuniton ship as an aftermath of the Port Chicago explosion July 17 which claimed 322 lives.

Lt. Commdr. Felthan Watson, senior judge advocate of the Twelfth Naval district, termed it the largest mass trial in Navy court martial history.

Comdr. Joseph R. Tobin, commanding officer of the Mare Island barracks testified he personally issued the loading order and said one of the men told his superior officer:

"I don't refuse to work, but I'm afraid of ammunition."

Maximum penalty for conviction of mutiny is death.

SILVER SPURS STOLEN

DALLAS, Sept. 14. (AP)—Here is a case for the Lone Ranger. Salvadore Buentelle, reported that while he had his horse hitched, a thief removed a pair of fancy, silver plated Mexican spurs from his saddle where he had tied them.

Pros Besiege Latham, And Answer Is Promised Today

AUSTIN, Sept. 14 (AP)—A definite answer was promised tomorrow by Secretary of State Sidney Latham to the pro-Roosevelt delegation which today requested him to exchange the list of electors already filed with him by the May convention, and substitute the "pro-Roosevelt" electors selected at the September convention in Dallas.

Latham refused to be "stampeded" into a decision but promised to give this question which has never before arisen in the history of the state his immediate study and prompt action.

Wright Patman of Texarkana, chairman of the committee selecting electors at the September convention, who headed the pro-Roosevelt delegation calling on the secretary of state today told Latham he should "embrace" this opportunity to make the party whole and pure, by ousting the so-called "anti-Roosevelt" electors chosen at the May convention and replace them with the "pro-Roosevelt" electors selected at the September convention.

Eddy, Patman and other members of the delegation said to Latham several times "is it not true that you are an appointee of the governor and as such whatever action you take is credited to him?"

Latham emphatically denied that as an appointee of the governor he was bound by the dictates of the governor. "Never since I have been secretary of state, said Latham, has Stevenson by direct word or implication told me what to do."

Confronted with the suggestion

Russia Seen As Only Backer For China's Racial Equality Appeal

By R. H. SHACKFORD
United Press Staff Writer

WASHINGTON, Sept. 14. (U.P.)—China's anticipated request that the future world security organization acknowledge the principle of equality of all races was expected today to receive support only from Soviet Russia among the big powers.

The United States and Great Britain—as in 1919—probably will oppose any attempt to have such a clause in the document of the new organization. They can be expected to contend that it is not germane to a security organization, and that such a statement would lead to demands for similar statements on religious freedom, etc.

Two Strange Aspects

There are two strange aspects to the racial issue. One is that Russia and China, who agree on the racial equality principle, will not meet at the Dumbarton Oaks conferences, since they are conferring with the Anglo-American delegates separately. The other is that China, at war with Japan for more than seven years, will be playing the same role in this generation to eliminate racial discrimination as that played by Japan at the 1919 peace conference.

The Chinese document for the Dumbarton Oaks conference has not been made public but is the only plan submitted which advocates that members of the security organization should accept the principle of equality of all states and all races.

The Russian proposals are very similar to those outlined in a recent article in the Leningrad Zvezda which advocated for the new organization:

Would Be Ousted

"Expulsion of any state which propagandizes and practices racial, religious and national discrimination, adheres to the theory of the domination of one nation or race over others, or other similar theories of a fascist character. Such states may neither enter the international organization or remain members of it."

Great Britain, primarily because of her Pacific dominions where there is strong anti-Oriental feeling, and the United States, because of both the negro problem and the anti-Japanese attitude on the west coast, were not expected to be any more willing than they were in 1919 to accept the principle for the new league.

Ex-Army Prisoners Of Germany Coming Back

WASHINGTON, Sept. 14 (AP)—The War department has announced the names of 233 sick or wounded army officers and enlisted men, former prisoners of war of Germany who are en route to the United States aboard the Swedish motorship Gripsholm following an exchange of prisoners at Gotesburg, Sweden.

The ship is due to arrive in the United States late this month.

After physical examinations, the returning soldiers will be granted leave or furlough, if physical condition permits, or continued hospitalization for those requiring it.

Pay accounts will be settled in full upon their arrival, and any decorations or awards authorized will be presented.

The returning soldiers, with nams and addresses of next of kin, include:

James E. F. Collins, sergeant, Air corps—Mrs. Birtie P. Collins, wife, Odessa.

Paul E. Trotter, private first class, infantry—Mrs. Esther Trotter, mother, Sherman.

SOLDIER'S BODY FOUND

SAN ANTONIO, Sept. 14. (U.P.)—The body of a soldier found Monday in the San Antonio river was identified today by fingerprints and a pass as that of Pvt. Stephen Bryan, jr., of Tampa, Fla., who had been stationed at Camp Barkeley, Abilene. An autopsy was to be performed to determine the cause of death.

More Tires Sought For Crop Movement

An immediate additional allotment of 1,000 passenger tires and 1,000 small truck tires for the Lubbock, Panhandle and El Paso areas is being sought for the movement of grain and cotton crops, according to a telegram received Thursday by Howard Gholson, district director of Office of Price Administration, from Rep. George Mahon.

Gholson sent telegrams Wednesday to Representatives Mahon, Eugene Worley and R. E. Thomason asking them to contact OPA Washington officials in an effort to sesure an extra allotment of tires for movement of bumper cotton and grain crops.

Because of a labor shortage of tire manufacturers, tire quotas for the district were cut about 25 per cent for September and October. Last year an additional number of tires were granted the three areas for the fall season.

Publisher Of Time Sues For Divorce

RENO, Nev., Sept. 14. (AP)—Pierrepont Isham Prentice, 45, publisher of Time Magazine, today filed suit for divorce from Mildred Belcher Prentice, Pelham Manor, N. Y.

The complaint charges "extreme cruelty of a mental nature." Filed with the complaint was an affidavit and order for publication of summons. Mrs. Prentice had not entered an appreance.

John Shaw Field, attorney for Prentice, said the couple had been separated since June and that the wife had received a "substantial sum."

WASP Is Killed In Brownsville Crash

BROWNSVILLE, Tex., Sept. 14 (U.P.)—Army air base officials announced today that WASP Alice Lovejoy of Scarsdale, N. Y., was killed Wednesday when two planes collied while in flight.

The woman's instructor parachuted safely and the pilot of the second plane managed to land his craft. He was uninjured.

Miss Lovejoy was the daughter of Mr. and Mrs. Frank W. Lovejoy of Scarsdale.

Pin Lodges In Baby's Lung, Operation Set

PHILADELPHIA, Sept. 14. (AP)—Diana Jordan, 14 months old, who was flown from her Magnolia, Ark., home after she swallowed a common pin, remained under observation today at the Chevalier Jackson bronchoscopic clinic of Temple university hospital.

Physicians said an operation would be performed later. Although X-rays showed the pin to be lodged in her lung, her condition was reported not serious. She is the daughter of Mr. and Mrs. Paxton Jordan of Magnolia, who accompanied her here.

Improvement Noted In Crop Prospects

AUSTIN, Sept. 14. (AP)—Improved prospects for grain, sorghums, peanuts, sweet potatoes and pecans, but lower indicated production of rice, compared with a month ago, are shown in the Sept. 1 crop report of the U. S. department of agriculture.

Cotton, corn and hay crops were the same as on Aug. 1, with other crops showing little if any change.

The forecast of cotton production, at 2,450,000 bales, remained unchanged from a month ago. The indicated yield is 165 pounds per acre.

The corn crop was estimated at 64,649,000 bushels, the same as a month ago.

The production of grain sorghum for combining or heading, indicated 84,706,000 bushels, compared with the forecast of 82,355,000 bushels a month ago.

The indicated rice yield was lowered 3.0 bushels per acre and production was indicated at 17,640,000 bushels, compared with 18,816,000 bushels last month.

Pecan prospects continued favorable and production of 43,500,000 pounds was indicated on Sept. 1 as the crop neared maturity. Production in 1943 was 26,000,000 pounds.

Grapefruit and orange groves were adversely affected by hot dry conditions and limited irrigation water supplies the first half of August, but trees and fruit were greatly benefited by generous rains the latter part of the month.

Soldiers Prevent Big Camp Wolters Fire

CAMP WOLTERS Tex., Sept. 4 (U.P.)—Prompt action by two enlisted men, Pvts. Lester Gunzenhauser, Marengo, Ia., and Harry L. Brandt, Memphis, Tenn., was credited by Camp Wolters authorities to day for preventing a fire from destroying the enlisted men's service club at the camp.

The privates noticed smoke pouring from a window of the club as they passed on a bus. They broke down a door and kept the fire subdued with fire extinquishers until camp firemen arrived to extinguish the blaze. Damage was estimated at $5,000.

"Buy A War Bond TODAY"

President Of Boeing Aircraft Succumbs

WICHITA, Kan., Sept. 14. (U.P.)—Philip G. Johnson, 50, president of the Boeing Aircraft corporation, died this afternoon in St. Francis hospital here.

Johnson suffered a stroke Tuesday night in a hotel room here. He had stopped in Wichita en route from New York and Washington to Seattle to confer with officials here of the Boeing corporation plant.

With him at the time of his death were his wife, their daughter, Esther, 18, and son, Philip, jr., 14. They flew to Wichita yesterday from Seattle.

Johnson's company was the builder of the famous Fortress and the B-29 Superfortress.

Super-Locomotive Is Under Construction

PHILADELPHIA, Sept. 14 (AP)—The Pennsylvania Railroad company today announced it has under construction a powerful new steam locomotive, capable of drawing 125 loaded freight cars at speeds in excess of 50 miles an hour.

The company said the newly developed mechanical powerhouse will help accelerate movement of wartime freight by "moving trains much faster while actually running on the run" and by "making longer continuous runs without stopping for coal."

U. S. Casualties In Combat Are 389,125

WASHINGTON, Sept. 14. (U.P.)—Announced U. S. combat casualties in this war have reached a total of 389,125, official reports disclosed today.

Secretary of War Henry L. Stimson said at a news conference that army casualties in all theaters through Aug. 29 were 327,616, including 62,357 killed, 172,042 wounded, 48,181 prisoners, and 45,036 missing.

Navy, Marine corps, and Coast guard casualties announced as of today total 61,509, including 24,450 dead, 23,064 wounded, 9,529 missing and 4,466 prisoners.

In addition, the Navy reported as of today that the Merchant marine had suffered 5,803 casualties as a result of enemy action in this war. The total included 722 dead, 4,521 missing, and 560 prisoners.

Stimson said that of the total army wounded, 72,542, have returned to duty.

The population of El Reno, Oklahoma, jumped about 145,000 persons in a single day in 1901 when the last free land in Oklahoma was opened to white settlers.

Two weeks after Bob Montgomery had been knocked out in one round by Al Davis he came back to win the New York lightweight title from Beau Jack. Two weeks after Jack had lost the title to Montgomery he came back to trounce Davis with ease.

European Political Issues Take Spotlight At Victory Conference

By DOUGLAS B. CORNELL
Associated Press Staff Writer

QUEBEC, Sept. 14—The Quebec conference veered from the Pacific today and, with the impending arrival of British Foreign Secretary Anthony Eden, European political issues came into strong, sharp focus.

Eden, lugging a heavy brief case, was flying the Atlantic. The

EDEN ARRIVES

MONTREAL, Sept. 14 (AP)—Foreign Secretary Anthony Eden has arrived at Quebec after a non-stop flight from Britain by way of Iceland and Labrador, it was announced here tonight by the RAF Transport command.

fact that he was bucking foul weather underlined the importance of his trip.

Whether Secretary of State Hull would follow him to Quebec, as he did a year ago, was uncertain. Hull told Washington reporters he had no plans to come here. In any event, prolongation of the conference beyond the week-end was described as unlikely.

Wanted For Consultation

A British spokesman asserted that Eden was not coming "as an adviser on any one specific topic," and that he believed Prime Minister Churchill wanted his foreign secretary here for consultations on "general requirements" and "a wide range of subjects."

Before the announcement that Eden was coming, the stress here had been on the battle of the Pacific. Now, however, the major military decisions of the conference, centering around strategy for hammering Japan into submission, are complete.

The military planners have time on their hands. Admiral Ernest J. King, commander of the fleet, and Admiral William D. Leahy, chief of staff to the president, idle along Dufferin Terrace, favorite Quebec strolling place. Members of the White House staff find time for shopping.

Churchill Has Some Time

Prime Minister Churchill is able to devote more time to Canadian officials.

Obviously, the way was being cleared for discussions of any and all facets of European political puzzles, brought into existence by the war, by the sweep of Allied might on the continent and by armed jabs at the gateways into Germany herself, which demand solution before a Nazi collapse.

The touchy subject of Russian-Polish relations appeared to be in line for consideration, inasmuch as Eden conferred in London yesterday with Premier Stainslav Mikolajczyk of the Polish government-in-exile. But certainly no final solution could be found here, at a conference in which Russia has no representation.

Commander No Topic

The question of selecting a supreme commander for the Pacific, it was learned, has not figured in the discussions which have taken place in the recesses of Quebec's lofty Citadel, nor is it likely to. For the campaigns of the immediate future, the necessary decisions on command were made when President Roosevelt saw Gen. Douglas MacArthur and here see no need for selecting him now.

Admiral Chester W. Nimitz at Pearl Harbor less than two months ago.

Eventually, a top commander may be needed for the conquest of Japan but the chiefs of staff

Posts Seek Talent For Hospital Shows

Lt. Ben E. Cowling of the South Plains Army Air field asked assistance in securing talent for programs to be given patients in both army hospitals, at a regular meeting of the Llano Estacado Camp and Hospital council sponsored by the American Red Cross held at the station hospital of the Lubbock Army Air field Thursday afternoon.

Lt. Cowling also suggested that groups of four to six people might care to visit the recreations rooms of the patients for informal parties, giving an opportunity to small groups in surrounding communities to visit patients in the station hospitals.

The meeting was presided over by Mrs. W. V. Terry of Sudan, president. The next regular meeting for the Council will be held Thursday, October 12, at South Plains Army Air field.

Texas Safety Office For Schools Set Up

AUSTIN, Sept. 14. (U.P.)—Establishment of a safety education office in the state education department was provided today by the Texas Safety association.

R. B. Roaper of Houston said here the association will underwrite expenses of the office until Sept. 1, 1945, with hope that the legislature will appropriate funds for its operation after that.

State School Superintendent L. A. Woods said Cecil Yarborough, former head of the intercultural division of the department, will be the new safety office director. Yarborough will prepare a uniform school safety program for different grade levels.

Roaper said a constant safety program is needed, pointing out that one out of three deaths of school age children—5 to 19 years—in the nation in 1943 was the result of an accident.

Horribly Mangled Woodland Graveyard Of Mystery Weapon

By WILLIAM A. WILSON
United Press War Writer

WATTEN, France, Sept. 13. (Correct)—Fifty acres of horribly torn woodland near this little town in the Pas de Calais are the graveyard of a German secret weapons its builders boasted would burn London to the ground.

The weapon never was used, but it was so important in the Nazi scheme of war that 5,000 workmen labored day and night to complete it despite one of the most concentrated aerial bombardments in history.

Allied troops who visited the forest today stood in awe before the cubist's nightmare piled up by RAF's bombs. Giant blocks of concrete, many of them 10 feet thick, had been flung 50 feet into the air onto the top of the main building.

You come away wondering what horror was brewing here that provoked so devastating an attack.

Construction men of the German Todt organization told the French peasants the weapon was intended to burn London, and they hinted that huge generators were being installed which would emit a "death ray" capable of stopping airplane motors.

An engineer officer who inspected the site told me his private guess was that it was intended to be a powerful station to jam the English-location system on the opposite side of the channel.

Nowhere did I see any indication that these massive concrete buildings were planned for the launching of projectiles. British Air force communiques describing the Watten bombings mentioned them as connected with German "long range weapons"—a euphemy for rockets.

Africa, with 20 percent of the area of the world, has but 7.5 percent of the population.

Jester Studies Proposed Pact

WASHINGTON, Sept. 14. (AP)—The Anglo-American oil pact awaiting action by the Senate was being studied here today by Chairman Beauford Jester of the Texas Railroad commission.

After conferences with Chairman Connally (D-Tex) of the Senate Foreign Relations committee, administration and oil industry leaders, the Texan prepared to return home with data which he said probably would determine whether the Texas commission would endorse or disapprove the treaty.

Unprepared yet to announce his own position definitely, the Texas official nevertheless said in an interview he is "skeptical" of the wisdom of this nation entering into the pact. He said one other member of the three-man commission, Olin Culberson, is inclined to view the treaty in the same light, while the remaining commissioner, Ernest O. Thompson, has spoken favorably of it.

Hearings Delayed

Connally assured Jester that hearings on the treaty, which have been postponed at least until after the November election, would give both sides ample opportunity to be heard. Although Connally has not expressed his own views publicly, he is understood to look with disfavor upon the pact.

Jester said his own skepticism arose largely through fear that it would be an entering wedge for establishment of federal control over domestic production.

He has urged that as soon as the war is over the Petroleum Administration for War be abolished and all regulatory powers returned to the states.

Proposed U. S. Road Contributions Cut

WASHINGTON, Sept. 14. (AP)—The Senate roads committee today rewrote the postwar highway bill to slash proposed federal contributions by more than a half billion dollars and require states to match government payments on a 50-50 basis.

Seeking to win over economy-minded senators the committee revised the bill to:

1. Reduce federal contributions to the road system from $650,000,000 to $450,000,000 annually for three postwar years.

2. Require the states to put up matching funds on a dollar-for-dollar basis rather than 40 percent provided in the original bill.

The federal contributions would be fixed at $200,000,000 for the old federal-aid highway system $125,000,000 for farm-to-market roads and $125,000,000 for urban highways.

New Political Form Asked For Mexico

MEXICO CITY, Sept. 14. (AP)—The rightest National action party, in national convention today, studied a proposal for "a new political structure" in Mexico.

The party proposed laws to prohibit and punish "any public, political, economic or physical coercion, or the use of public funds, for formation or maintenance of a political party." Political patries, the proposal added, should be "constitutional rather than officials."

National action has long been critical of the predominant Mexican revolutionary party, to which all congressmen except one belong.

The ancient Romans had skyscrapers.

TODAY'S GAG

A COUPLE of men who met in a mid-west city were making conversation as they walked along the street. As they chatted they passed the window of a fish store where row on row of cod, with glassy eyes staring sightlessly out at the crowd, were displayed.

"Gee, Joe," blurted out one of the wholesalers. "Hafta excuse me. Old Man. I just remembered —I'm due right now to address a sales meeting."

• • •

HOSPITAL CORPS SONG

AMERICA'S fighting men write songs about every phase of the service and now the Hospital Corps song has made its appearance. We haven't heard the music but the words are these:

We're a hard working band
With a cross on the arm.
We have taken our stand
To keep shipmates from harm.

If you're nipped in the fight
And it's sick bay for you
We will soon have you right
And returned to your crew.

We're men of the naval hospital corps
With fleet Marines, ashore or on the sea
We'll do the job they're training us for
And strike a solid blow for victory.

We'll stand beside the man at the gun
To give first aid and nurse him anywhere.
Till we beat the Jap and Hun
And a glorious victory's won.

In the thick of the fight the hospital corp'll be there
Every man in the corps is proud of the name they bear.

INFERIORITY COMPLEX

IF YOU have tuned to the "Blind Date" show over KFYO on Monday nights at 7:30 o'clock, you may have thought the mistress of ceremonies, Arlene Francis, has never known what it is to be shy or frightened. She seems so sure of herself as she wise cracks gaily with six bright young service men who compete for dates with three pretty girls, you think it must be a natural talent. But by her own admission, Arlene Francis has overcome a terrific inferiority complex and has known heartache and failure.

She is of Armenian descent. Her family name is Kazanjian. And when she was a little girl and realized she was different from her playmates, she used to almost knock herself out trying to think of jokes and bright things to say so the girls would like her.

The star of the popular radio show wanted to be an actress more than anything in the world and because of that burning ambition she landed parts in six Broadway shows but all were flops. Finally she got a role in "Doughgirls" which proved to be a hit and from there to "Blind Date" was only a step. It sounds easy but there were seven long years between the day she set her goal and the day it was accomplished.

• • •

RATHER TYPICAL

WE READ a little story the other day that illustrates with what contempt and lack of fear some of the British faced the danger of the pilotless planes which fortunately seem to be on their final flights.

A chap was asked what he thought of the things. "Well," he said, "when the blank Jerries loose 'em off they got to find their way across the Channel. And when they've done that they've got to find my town, and then they've got to find my street and my house in it, and then, like as not, I'll be in the local!"

Bride Elect Honored At Several Parties

Miss Marjorie May was honored with a luncheon Thursday noon in the home of Miss Jean Smith and Mrs. Clyde Smith, 1915 Twenty-ninth, when they entertained several of Miss Mays friends.

Miss May is the bride-elect of Ensign Cullen Chapman. The couple will be married Sunday.

The table was covered with a maderia cloth and centered with an arrangement of roses and asters. A gift was presented to the honoree by the hostesses.

Those present were Misses Martha Kuykendall and Pat Collins of Elmhurst, Ill. and Mesdames Henry N. Lawson, Robert Coble, Allen R. Marcus, Ernest F. Peshau, sr., Sidney Keaton, A. W. May.

• • •

Mrs. Allen Ray Marcus entertained the bride-elect, Miss May with a pottery shower in the Marcus home Tuesday evening.

A breakfast was to be given by Miss Dorothy Underwood at her home, 3107 Nineteenth in honor of Miss May Friday morning.

Saturday night a rehearsal dinner will be held at the Mexican Inn concluding a series of parties honoring Miss May.

Red Cross Afghan Completed By Club

An Afgan was completed for the Red Cross Thursday afternoon at the meeting of the Energetic Club in the home of Mrs. Roxie Crausby.

Next meeting will be in the home of Mrs. Earl Hobbs with Mrs. Flora Nutt as hostess October 12 at 3 p. m.

Two guests present were Mrs. J. H. Parks and Mrs. Bullock.

Refreshments were served and members present were Mesdames Tom Arnett, Creek Brown, Exa Ewing, R. C. Hopping, Nutt, Frances Van Dyke, J. B. Walker, Knight.

WMS, Sunbeams Meet At Baptist Church

Members of the East Side Baptist Women's Missionary Society were entertained with a Royal Service program Thursday afternoon at the church.

Mrs. H. W. Holysield gave the devotional and prayers were led by Mrs. W. V. Lamb and Mrs. Holysield.

The Sunbeams also met with Mrs. Neal Hill at the church. Bible stories were included on the program.

MUSICAL PROGRAM GIVEN

A musical program was presented by the fifth and sixth grade pupils at the Sanders Parent-Teachers association Thursday afternoon at the school.

Two new officers elected included Mrs. Dave Crues, treasurer, and Mrs. Orville McDaniel, secretary. Mrs. George Moore and Mrs. J. T. Ross resigned.

Approximately 30 persons were present at the get acquainted meeting.

Tea Honors Bride; Club Organized; Lone Star Club Hears Randal; Luncheon Given

Loyal Women's class of the First Christian church honored Mrs. Holly C. Shuler, jr., recent bride, with a tea and miscellaneous shower Wednesday afternoon in the home of Mrs. George P. Kuykendall, 2201 Sixteenth. Mrs. Shuler, the former Miss Betty Jean Sessums, is making her home with her parents, Mr. and Mrs. George Sessums, while her husband is on active duty with the Army Air Forces.

Her gifts at the tea included an almost complete set of pottery together with linens, crysal and china.

Mrs. Sessums, mother of the bride, poured tea at a table done in a miniature altar scene, lit by tapers set in candelabra. About the bridal centerpiece were arranged tiny pink asters and touches of Queen Anne's lace. The bride's colors were repeated in the gift package wrappings and in the floral decorations of the Kuykendall home.

Mesdames Grady West, P. L. Payne, A. M. Johnson and Jeff P. Watson assisted in serving. Forty guests called during the afternoon.

• • •

The Stich-N-Time Needle club was organized recently in the home of Mrs. Charles Bowman, 2803 Jefferson.

Officers elected to serve during the coming club year are: Mrs. G. D. Bray, president, Mrs. Robert Todd, vice president, and Mrs. J. R. McDaniel, secretary-treasurer. It was agreed that the club would meet in the homes of members every other Wednesday.

Members of the newly-formed club present, in addition to the officers, were Mesdames Robert Woods, Clark Wood, Don King and Dora Olsen.

• • •

The Lone Star Newcomers club met Wednesday at the Hilton hotel for luncheon and a special program on Lubbock given by Jack Randal, president of the chamber of commerce, and by Mayor Overton W. Ribble.

Mrs. Wilda Stewart, district representative of the Lone Star company, outlined the Newcomers aims and objectives as an organization.

Forty members and guests were present for the luncheon program. Visitors were Mesdames Joe Baldridge, John Halsey and W. W. Rix.

• • •

A 1 o'clock luncheon was entertainment for the Junior Sunshine Child Study Club Thursday afternoon in the Hilton Hotel.

The table was centered with roses and asters.

Members present included five charter members, Mesdames Rudolph Peel, J. H. Portwood, Ralph Robinson, Marvin Poor and Herman Bruckner. Others present were Mesdames Gordon Sanders, Lester Cooper, Donald Robertson, Melvin Havis, Hall McCrummen, John Nugent, Raymond Painter, Maurice Cowan, O. C. Tune, June L. Roberts, Carl Knight, Ollie Bruton, and Kenneth Stanley.

In the Franco-Prussian war, besieged Parisians moved 88 persons and more than four million letters out of Paris by balloon.

Personals

Mrs. W. H. of Aspermont is here visiting Mr. and Mrs. R. J. Ledbetter, 1913 Seventh.

Lt. and Mrs. Charles R. Stewart and their daughter, Linda Sue, stopped over in Lubbock Thursday for a visit with Mrs. Stewart's parents, Mr. and Mrs. W. C. Wolaver, en route to Long Beach, Calif. Lt. Stewart, a veteran of 70 bombing missions, holds the Distinguished Flying Cross, the Air Medal and four oak leaf clusters. He will be remembered as pilot of the bomber, "Calamity Jane." Having just completed navigation school at Monroe, La., Lt. Stewart will be attached to the Air Transport command at Long Beach.

Mrs. Dean Redus has returned to Lubbock to make her home with her parents, Mr. and Mrs. Charles H. Read, 2619 Twenty-first, while Ens. Redus is on active duty with the U. S. Navy. Mrs. Redus came here from Asbury Park, N. J.

Today's Events...

Fidelis Class, 1 p. m., First Methodist church, luncheon.

Wives of Officers Over Seas, 6 p. m., Mexican Inn, dinner.

Recreation Bridge Club, 3 p. m., Mrs. John Lane, hostess, in Mrs. J. L. Stimson's home, 1411 Fourteenth.

Happy Hour Needle club, 3 p. m., Mrs. C. P. Cox, 2001 9th St.

Loyalty club, 2 p. m., Mrs. E. V. Stubbs, 2224 28th St.

Merry Bidders club, 3 p. m., Mrs. Pebbie Talley, 1510-B Ave. M. Mesdames Minnie Pickas and Mae Flynn, hostesses.

Lubbock Garden club, 8:30 to 10 p. m., Mr. and Mrs. J. A. Fortenberry, Levelland highway, garden party.

Red Cross Prisoner of War committee meeting, 7:30 p. m., First Methodist church.

Good News club, 3:30 p. m., Community center.

TEA PLANNED BY CLASS

A luncheon was held by the members of the Euzelian Class of the First Baptist church when they met Thursday afternoon in the activities center. Plans were made for an installation tea to be held next Thursday, Sept. 21 in the home of Mrs. L. H. Hobbs, 2409 Twenty-second at 7:30 p. m.

Mrs M. E. West gave the devotional and 19 were present.

NEEDLE CLUB MEETS

Colonel Needle Club met with Mrs. Jeff Graham, 2313 Twenty-first Thursday afternoon.

One visitor present was Miss Jo Graham.

Next meeting will be Sept. 28 at 1 p. m. for luncheon with Mrs. B. F. Foster, 2321 Main.

The first air combat occurred in World War I when a British pilot flew over a German plane and shot at it with a revolver.

Texas FDR Democrats Resolve Party Purge

DALLAS, Sept. 14 (AP)—Following is the text of the platform resolution passed by the state Democratic convention at Dallas "purging" the party of members who fail to support party nominees:

"Common honesty and good faith make it the duty of those who participate in Democratic party primaries as individuals and as candidates to support the party nomines.

"Any candidate of the party who openly declares that he will not do this but will vote for the candidate of another party or who advocates defeat of party nominees is no longer entitled to party consideration nor entitled to receive any honor or nomination of the party.

"Those who declare themselves Democrats but who openly declare they desire the defeat of the party nominees are advocating the destruction of the party and our system of selection of public officials."

Another section of the resolution called for each county chairman in Texas to announce that he will support and vote for the nominees of the national Democratic convention at Chicago, also that county chairmen who do not intend to so vote should immediately resign.

NAZI PRISONER ESCAPES

PAMPA, Sept. 14. (AP)—A German prisoner of war escaped from the McLean camp near here last night, the FBI announced. He is Gunter Arndt, 26, 5 feet 9 inches tall, with fair complexion and red-blond hair. He walks with a limp from a knee injury.

Dallas Writer Wins Study At Harvard

DALLAS, Sept. 14 (AP)— David E. Botter, jr., political reported for the Dallas Morning News, is among ten additional working newspapermen who have been awarded Neiman fellowships for a year's study at Harvard university.

The university announced yesterday Botter would have as his topics for study labor relations, race problems and economics.

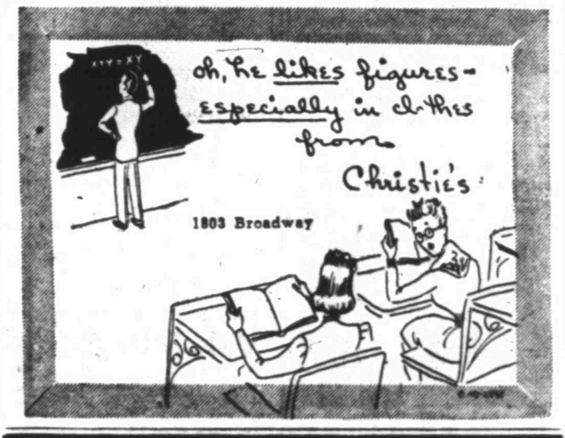

Botter, 27, a native of Palestine, Tex., was reporter and night editor of the Herald-Press from 1937-1940. He later served as state editor and as sports editor of the Austin American, as assistant director of public relations at the university. He holds a master's degree from the university in arts.

Botter joined the Dallas News staff in July, 1943.

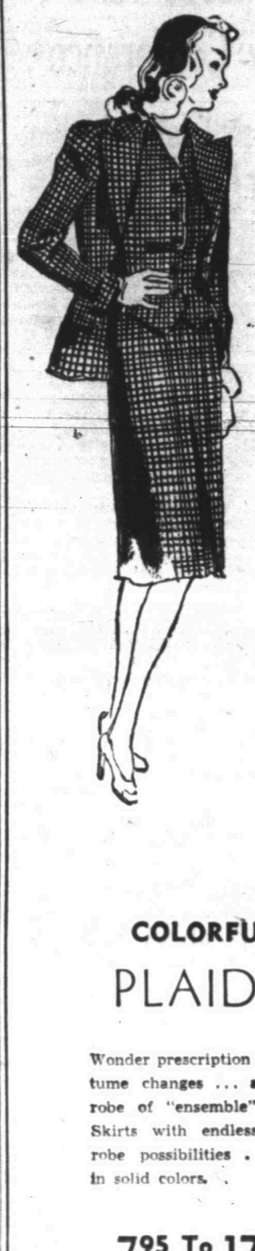

Haiti and Liberia are the only Negro republics in the world.

City Authorizes Contract With Harry Roberts For Water Survey

Investigation of the possibilities of both a surface supply and an underground supply of water or a combination of the two of sufficient capacity to supply a city of 125,000 at the rate of an estimated 30 million gallons a day was authorized by the city commission Thursday afternoon.

Mayor O. W. Ribble and City Manager Marlin R. Smith were instructed to enter into a contract subject to approval of City Attorney Durwood Bradley with H. N. Roberts, local engineer, for a survey of the water supply possibilities. Roberts' bid of $1,000 for the work was the lowest submitted by several firms of engineers.

Job Of Engineer

Roberts' report will include recommendations as to the most suitable area or areas from which the water supply may be obtained, the number of wells required in each area, the spacing of wells, the estimated safe withdrawal of gallons per minute, specific recommendations as to the areas required for furnishing the supply, recommendations for the obtaining of water rights, and all necessary maps, tables and other pertinent facts and recommendations to an exhaustive survey of the city. The water supply for the city. The investigation will also consider the possibility of concentrating the water in such a manner as to be able to treat the flow from one (or possibly two) treatment plants.

Action on the water survey came after the commission had considered the problem for several months and had written engineers asking for bids on the project. The State Board of Water Engineers has promised cooperation in the project and officials of the board were expected to arrive here late Thursday to aid in the study.

Audit Is Discussed

Authorization of the water study contract highlighted an otherwise routine meeting of the commission. Lengthy discussion was held on the project and also on the report of C. A. White, auditor for Cornell & company, of the annual city audit to extend the session more than four hours.

Approval of the audit costing $1,500; the purchase of a Gar Wood load-packer type garbage truck; transfer of $1,000 to the City-County Welfare Fund and the hearing of a request for continued appropriation for the local units of the Texas State Guard were other items acted on during the afternoon.

The enclosed type garbage collection unit will cost $2,575 and will be mounted on a truck the city now owns.

City Manager Smith was instructed to settle the claim of H. J. Willson, 316 Ave. V, for a horse Willson owned which fell in a sewer ditch on the night of Sept. 6 and was killed, on an equitable basis.

Guard Unit Report

The commission decided to ask for a detailed financial report and budget of the guard units and to hold conferences with the county commissioners and the Slaton city commission before acting on the guard officials' request. Walter Smith, J. M. Moreau, C. M. Trout and Paul Willis appeared in behalf of the guard proposal. The commission appropriated 50 per cent of the funds last year, $1,428 and the county and Slaton commission made up the rest of the $2,857 total.

Approval of gas fitter's and public works bonds for J. A. Dagley, electrician's bond for Fred B. Otto, bond for moving a building for C. C. Bryant and a general contractor's bond for J. L. Hair was also given.

Mayor Ribble presided at the meeting. Present were: Commissioners Hub Jones and F. H. Childress, City Manager Smith and City Secretary Lavenia Williams.

Congratulations To:

S/Sgt. and Mrs. Wilburn Finis Sargent of Levelland on the birth of a daughter, weighing 6 pounds 12 ounces, at 2:30 a. m. Thursday in Lubbock Army Air field station hospital. The father is overseas.

Apprentice Seaman and Mrs. David Weaver of Abernathy, route 1, on the birth of a daughter, weighing 7 pounds 9 ounces, at 12:40 a. m. Thursday in St. Mary's hospital.

Mr. and Mrs. Otis Odell Hall, route 5, Lubbock, on the birth of a son, weighing 8 pounds 4 ounces, at 1:55 a. m. Thursday in St. Mary's hospital. The father is a farmer.

Mr. and Mrs. A. H. Osborn of route 6, Lubbock, on birth of a daughter weighing 10½ pounds at 10:10 p. m. Wednesday in the Osborn residence, Lubbock General hospital reported. The father is a truck driver.

Mr. and Mrs. Wayne Warren of 2209 Fifth, on birth of a daughter weighing 7 pounds 7 ounces at 4:47 p. m. Thursday in Lubbock General hospital. The father is an employee of the Fielder Parts Co.

F/O and Mrs. Wm. C. Richards of 202 Ave. H on birth of a son weighing 3 pounds 4 ounces at 2:50 p. m. Thursday in the Porter-Sistrand clinic. The infant was placed in an incubator at the Lubbock General hospital. The father is stationed at Fort Maxton, N. C.

Cab Driver Slugged By Pair Of Negroes

R. J. Jeffers, 56-year-old Dominо cab driver, received a possible fractured skull Thursday night when he was assaulted by two negro fares in an alley in 2100-block Twenty-eighth street.

Jeffers told Policemen Joe Brooks and Marlin Brothers that he picked up two negro men at servant quarters in the block, in answer to a call.

The negroes took no money off him, Jeffers said.

He was unable to explain what weapon the blacks used.

Brothers said Jeffers must have been unconscious for more than an hour. He drove his car back downtown after regaining consciousness.

Jeffers was in Lubbock General hospital.

Approximately 40 per cent of the total aircraft employees in the U. S. are women.

Hurricane Damage

(Continued From Page One)

shore of Long Island, including such exclusive resorts as Southampton, were evacuated.

Police Clear Shore

Police cleared a 12-mile stretch of the Rhode Island shore between Watch Hill and Weekapaugh, one of the sections hardest hit by the 1938 storm.

In New York City, sidewalks were virtually deserted. Wind whipping sheets of rain around the corners of tall buildings smashed plate glass windows.

Four persons were cut by flying glass when the window of a Broadway self-service restaurant was blown in.

Residents at seaside points northward from North Carolina were evacuated during the day, and as the storm progressed the population along Massachusetts and Rhode Island southern coastline were advised to follow suit.

Shore Dwellers Warned

Gov. Leverett Saltonstall of Massachusetts broadcast an appeal to shore dwellers to leave their homes for safer places and Rhode Island state police issued a similar warning.

Two vessels described as coal barges ran aground at Rehoboth Beach, Del., and were being battered by a severe gale. Whether crews were aboard was undetermined.

Power and telephone lines were downed in some areas.

In Atlantic City, N. J., the weather bureau reported wind velocity at 66 miles an hour.

Children there and in numerous other seashore communities were sent home from schools.

Water driven into the streets of Wildwood, N. J., threatened to maroon 100 homes. Small boats in the area were driven ashore. A utility company spokesman said 5,000 homes in the vicinity went without electricity for a half hour.

Mitchell Field Cleared

At Mitchell Field on Long Island, New York, all Army planes for which there was no room in hangars were flown to other airports inland.

Four huge war plants in Nassau county, New York, employing approximately 70,000 workers, were closed to permit employes to reach their homes safely.

The main force of the hurricane was expected to continue up the coast just off shore, striking inland over Rhode Island and southeastern Massachusetts.

Although the hurricane's center still was at sea, weather experts predicted its fringe would lash the entire east coast with winds reaching velocities in excess of 60 miles an hour.

The Washington weather bureau urged that safeguards be taken against high tides in Long Island and southern New England. Hurricane warnings were posted from Virginia to Maine.

Meanwhile, civilian authorities and Army, Navy and Coast Guard officials along the coast alerted residents and took steps to be ready for any emergency.

The Virginia Red Cross reported the Army's 3rd Service command, with headquarters in Baltimore, had ordered evacuation of all military personnel in coastal areas.

Class At SPAAF To Finish Today

Following in the footsteps of their buddies who have been making airborne history in recent weeks in the invasion of Normandy and southern France, another record sized group of Winged Commandos will receive their wings as glider pilots and appointments as flight officers at 10 o'clock Friday morning in the post theater at South Plains Army Air field.

Major Roscoe A. Betz of Springport, Mich., commanding officer of a training group at SPAAF, will present the wings to the group. The oath of office will be administered by Lt. Elizabeth Burke of Portales, N. M., school secretary. Capt. Howard A. Long, Protestant chaplain, will give the invocation and benediction.

Special Awards

One of the highlights of the morning's ceremonies will be the presentation of specially engraved silver glider pilots wings to the two outstanding soldiers and the two best athletes of the group. Col. James A. DeMarco, commanding officer at SPAAF, will present the awards.

Furnishing the music for the occasion will be the SPAAF band under the direction of Warrant Officer Harry Dunham.

Eighteen Texans are included in this graduating group, one of the largest such groups of Texas men yet to receive their wings at one ceremony at the nation's largest advanced glider pilot training center.

Texans In Group

The Texans include, as flight officers, Felix Lamar Duke of Kingsville, Ray Edwin Codding of Wichita Falls, Albert N. Norman of Tahoka, George E. Schwarts of El Paso, Franklin P. Bowen of Galena Park, Joseph Dudley Harrison of Brenham, Jesse C. Woolverton of Stephenville, Thomas C. Brown of Alvord, Marvin R. Bryant of Beaumont, S. E. Andrews of Gainesville, Raymond Douglas Johnson of Austin, Maxwell E. Welch of New Boston, Frank M. O'Brien, jr., of Paris, Clifford Ward Wheeler, William K. Waller, jr., and William M. Phillips, all of Dallas.

Flight Officers Duke and Codding were student officers and held their rank before starting their training.

Alert Cops Shake Down Youth, Find Misplaced Cache

Alert work by prowl car officers Marlin Brothers and Joe Brooks early Thursday morning resulted in the recovery of $2,500 in war bonds, 25 in cash, gasoline stamps and valuable personal papers for Mrs. Leona Garrett, a Lubbock visitor at the home of her mother, Mrs. Frank Dysart, 1809 Texas Ave.

The policemen noticed a youth loitering about 1:30 a. m. near the theater where Mrs. Garrett had unknowingly left her purse. They discovered the property stuffed in the youngster's pocket, and the purse torn to shreds.

John Wilson, juvenile officer, said a hearing for the youth, 14, would be held this morning before County Judge G. V. Pardue. Wilson said the youth already was under parole in connection with several thefts.

Crosby Pioneer Dies At His Cone Home

RALLS, Sept. 14.—M. T. (Uncle Tom) Travis, 71, who had lived in Crosby county 36 years, died at 8:10 a. m. today at his home in Cone.

Funeral services will be conducted at the Primitive Baptist church in Cone Friday afternoon at 3 o'clock with Rev. W. R. Dale, pastor, officiating. Burial will follow in Cone cemetery under direction of Marr Funeral home of Ralls.

Survivors include his wife, Mrs. Betty Travis; three sons, George M., of Odessa; M. T., jr., and Curtus of Amarillo; a daughter, Mrs. Milton Poteet of Farwell, and 12 grandchildren, all of whom will be present for the funeral except one grandson who is overseas.

Pallbearers will be: Ray Reed, Elmer Carroll and Bish Travis of Cone, H. B. Handley of Lockney, Finis Holland of Floydada and Frank Cowan of Petersburg.

News Briefs

Condition of Mrs. T. W. Withrow of Levelland, who was critically wounded Tuesday night by a wild rifle shot at the home of her husband's parents northeast of Lubbock, remained unchanged at midnight, a West Texas hospital authority said. Her condition still was considered grave. Meanwhile, the sheriff's department was preparing to send a .22 caliber rifle and bullets to Texas Department of Public Safety experts at Austin. The gun was turned over to officers by the mothers of two local youths who were hunting in the vicinity of the Withrow residence at the time of the shooting. One bullet was recovered from Mrs. Withrow's abdomen, the other from a wall in the Withrow house.

A car stolen in Lubbock Wednesday from Elzie McCullough of Lubbock route 3 was recovered early Thursday night in 200-block Avenue K by police patrolmen Mark McCurry and Charles Lackey.

Mrs. Mary Williams Dies At Dermott

DERMOTT, Tex., Sept. 13. (Special)—Mrs. Mary M. Williams, 76, died here this afternoon at 4:30 o'clock at her residence.

Funeral services will be held Friday afternoon at 2:30 o'clock here, with Rev. A. T. Mason, pastor of the Methodist church at Fluvanna, officiating. Burial will follow at Bookout cemetery near Dermott, with the Bryan McDonald and Son Funeral home of Lubbock directing.

Survivors include her husband, L. A. Williams; 2 sons, J. L. Sullenger of Fluvania and J. T. Sullenger of Dermott; 5 daughters, Mrs. Pete Hart of Snyder; Mrs. Earnest Joseph of Sanger, Calif.; Mrs. Sam Hatley of Grants, N. M.; Mrs. R. R. Merrical of Van Nuys, Calif.; and Mrs. C. E. Spencer of Los Angeles, Calif.; 2 step-sons, Fred Williams of Dermott and Ed Williams of Lubbock; 2 step-daughters, Mrs. Mertie Edmonson of Dermott and Mrs. O. H. Greenfield of Sylvester; 25 grandchildren and 10 great-grandchildren.

The 120 feet covered by the Wright brothers on their first flight is about the wingspan of a Flying Fortress.

Lubbock, Odessa Play Grid Opener

By MACK TURNER
Morning Avalanche Sports Editor

* * *

THE Odessa Bronchos will thunder into Lubbock today for the opening of another West Texas football season, and a traditional battle with the Lubbock Westerners tonight at Texas Tech stadium. The kickoff is scheduled for 8:30 p. m.

The Bronchos, rated as one of the outstanding teams in the state, and the most likely team to upset the return trip to a state title by the San Angelo Bobcats, will be a worthy foe for the Westerners in the first test of the new season.

The Bronchos will be out to reap revenge for the 13 to 6 thumping the Westerners handed them last season at Odessa in the grid opener. The Westerners will be out to repeat, although the hero of that game, Jim Joe Reiger will not be on hand this season.

In the last year's opener, Reiger scored three touchdowns in two minutes time to hang up the victory for the Westerners.

Star Studded Lineups

Both teams have star studded lineups, many of them veterans of last season's battle. Both teams have a greatly improved ball club over last season at the time of the opener, and a real battle is in prospect.

Odessa fans are expected to follow the Bronchos into Lubbock in great numbers, and a banner turnout for a season's opener is expected. Tickets were sent to Odessa early in the week, and reports from there later said they didn't last long.

The Odessa team is due to arrive in Lubbock at noon, and will establish headquarters at the Hilton hotel.

Rival coaches in District 3-AA point to the Odessa backfield with just pride, and rate Coach Clayton Hopkins ball carrying unit as the greatest backfield in Texas. The line is also reported to be plenty rugged with All-District Walter Edrington, 178 pound tackle, as the keynote of the powerful line.

Odessa lost only three games last season, dropping games to Lubbock, Sweetwater and San Angelo. Lubbock was beaten by San Angelo, Amarillo and Plainview.

While Odessa has a ball club with eight lettermen, only seven are expected to see service tonight, with Dennis Bates, backfield ace, on the sidelines with a knee injury.

Seven Local Lettermen

Matching this array of power and stars, the Westerners will also present a team with seven lettermen in the starting lineup, and one that appears to be much more powerful than the team of last year.

R. W. Moyers, 790 pound fullback, is expected to start the ball game, but a knee injury makes him a doubtful performer. Otherwise the Westerners will start the ball game in top shape for the battle. Pressley and Brewer have been slowed somewhat with an outbreak of boils, but are expected to be able to go at top speed tonight.

Leading the Westerners into the battle will be co-captains Johnny Pearson and Clinton Benefield, two of the seven lettermen starters. Billy Bob Harris at the other end, O. C. Foster at tackle and Charles Pressley at center are other lettermen in the line.

Two lettermen will start in the backfield, with two squadmen of last season holding down the other two posts. George Brewer, a squadman, has been stealing the show in pre-season workouts, and will team with lettermen Johnny Davis and Moyers at taking care of most of the ball carrying. Johnny Cole, another squadman, will get the nod at the other backfield post, the blocking back position.

The game has been rated by the Associated Press as one of the outstanding games of the state, and will share the spotlight with the Childress and Amarillo clash for District 1-AA interest.

Other 1-AA games will find Hollis, Okla., playing at Plainview, in the third ranking game of the day. Borger and Pampa will battle with Class A foes with Borger meeting Panhandle and Pampa facing the powerful Phillips club.

Probable Lineups

Odessa		Pos.		Lubbock

Meadow Eleven Blasts Tahoka

TAHOKA, Sept. 14 (Special)—The Meadow High school grid eleven stormed across the Tahoka gridiron here tonight to blast out a 45-to 0 victory over the Tahoka "B" team in the first 1944 football game in the South Plains area.

Earl Hobbs and Jake Jones, a pair of fancy stepping backfield stars accounted for most of the scoring, each of them unlimbering some brilliant runs. Hobbs scored twice and kicked three extra points and Jones romped to three touchdowns.

Hobbs started off the scoring by skirting left end for 30 yards and a touchdown, and a few minutes later broke away again for 35 yards. He added the extra point after both scores.

Jones started the scoring in the second period with a 50 yard run through a broken field. A moment later he took a lateral and weaved his way downfield for 43 yards and a score. He capped off the night's work with a 15 yard gallop to score.

Ray Locke circled right end for a 20 yard touchdown sprint for another Meadow touchdown and Gregory scored the finale with a 15 yard touchdown run.

Denver City Eleven To Invade Levelland

LEVELLAND, Sept. 14 (Special)—The Levelland Lobos, champions of District 5-A, open the new grid season here tonight with the speedy Denver City Mustangs.

Levelland will present a rugged line, bolstered by four lettermen, and a backfield that remains in doubt. Coach Gano Tubbs has had 47 boys out for the team, most of them out for the first time. The lettermen in the line are Alfred Bickham, Billy Vardeman, Glynn Mears and Orville Zickefoose.

Coach Wilson Head's Mustangs are expected to turn loose a fast running attack against the locals with W. C. Harrison and B. Miller, a pair of scat backs heading the cast.

The Mustangs are light and speedy, and are rated as a top contender in District 6-A and expected to battle it out with Tahoka and Seminole for the district crown.

Red Durrett Stars As Bums Nip Braves

BROOKLYN, Sept. 14 (AP)—A home run by Red Durrett, who fought with the Marines on Guadalcanal, in the eighth tied the score and a single with the bases loaded in the ninth by Augie Galan gave the Brooklyn Dodgers a 5-4 victory over the Boston Braves in th opener of a curtailed double header today. The second game was postponed by rain after an inning and a half had been completed.

Fred Wells, righthanded pitcher obtained from New Orleans several days ago, pitched the first seven innings for the Dodgers, and gave up all the Braves runs in his last inning. A two-run homer by Stu Hofferth and Tommy Holmes' double accounted for the runs.

VOISELLE WINS NO. 20

NEW YORK, Sept. 14 (AP)—Bill Voiselle became the first New York Giant pitcher in seven years to win 20 games in a single season by hurling his mates to a 12 to 1 verdict over the Philadelphia Phils in the first half of a curtailed twin bill today.

The second game was postponed because of rain.

CUBS, REDS SPLIT

CHICAGO, Sept. 14 (AP)—Roy Hughes, Cubs' third baseman, hit a home run inside the park with two on to beat Cincinnati, 4 to 2, in the second game of a doubleheader after the Reds took a 13-inning opener, 3 to 2. Ray Mueller, who set a record in the opener by catching his 134th consecutive game in one season, celebrated with his tenth home run.

Petersburg To Open With Lockney Club

PETERSBURG, Sept. 14 (Special)—The 1944 edition of the Petersburg High school Buffaloes will blast the football lid Friday afternoon when they journey to Lockney to engage the Longhorns of that city.

Six men form a nucleus about about which Coach Leroy Saul is building his club and squadmen from last years aggregation fill out the additional berths. Ralph White, fullback and big Art Hegi, tackle are co-captains of the Petersburg team.

Beau Jack is the only fighter in recent New York history to be a principal in three bouts attracting more than $100,000. He drew $104,976 with Henry Armstrong, $111,954 in his third meeting with Montgomery and $132,823 with Davis.

South Plains Grid Season Openers Carded For Today

King Football takes his throne today on the South Plains.

Season openers will dot the map of the South Plains this afternoon and tonight as schoolboy gridmen start the campaign for another football season that will test the old champions, and maybe crown some new.

It will be a bigger and better football season than last year. Many teams that sat on the sidelines last season are back in the battle this year with teams that promise to provide real thrillers for the home town fans.

There will probably be football games played over the area that have not been reported to the Avalanche-Journal sports department, but a close survey of the schedules received lists 14 games other than the grid opener in Lubbock between the Westerners and Odessa.

Class B Opener

One conference race will get under way today in the battle at Plains of the Class B Plains and Ropes elevens, with the game expected to turn out a real thriller between two clubs that appear evenly balanced.

Two district championship teams and one regional champion are to be found on the schedule for today, with the regional champion Seminole Indians leaving Texas soil to find a foe for the opener, clashing with the powerful Hobbs, N. M., eleven in a game at Hobbs.

The coach of that regional championship club of last season, Marlin R. "Shorty" Hayhurst, will take a green, but willing gang of Lubbock lads, the Golden Cowhands, back to his old district to tangle with a favored Seagraves eleven in a night game tonight.

Spur's mighty Bulldogs, two time champions of their district, journey today to Haskell to tangle with the ever powerful Indians of that city. Coach Christian's Bulldogs are expected to prove to be another powerful eleven this year.

Mustangs Visit Lobos

The other district champion, the Levelland Lobos, will unveil their new team tonight in Levelland, facing the speedy Denver City Mustangs in perhaps the feature attraction of the Class A picture.

Another game that will be closely watched tonight is the battle at Lamesa, where Coach Leo Jackson will offer the first showing of his power-packed Tahoka Bulldogs against the Class AA Lamesa Golden Tornadoes who blossom out under a new coaching setup this season, and to date remain a darkhorse eleven.

District 5-A teams get away with the starter's gun with several games that are of unusual interest, headlined by the Morton-Sudan tussle at Sudan. An early leader in the district race will be determined on the outcome of this game.

Other 5-A teams will take to the road today for their openers with Olton going to Hereford for a night game and Littlefield invading Dimmitt to round out a very promising opening schedule.

Football Results

Meadow 45; Tahoka "B" 0.
Fort Worth Poly 34; Cisco 0.
Thomas Jefferson (San Antonio) 44; T. M. I. (San Antonio) 6.
South San Antonio 33; Edgewood (San Antonio) 0.
Crozier Tech (Dallas) 12; Forest Avenue (Dallas) 0.

OUR PLEDGE

WE pledge allegiance to the flag of the United States of America, and to the Republic for which it stands: One Nation, indivisible, with Liberty and Justice for all.

A Job Which Must Be Done

AS ALLIED demolition of German armies continues and unconditional surrender draws nearer, the old, old question rises with new and more intense meaning: "What shall be done with Germany?"

The chief task of the European Advisory commission, set up at London last November after the Hull-Eden-Molotov conference at Moscow, is to frame a suitable answer to the question of what to do with Germany after its surrender to the Allies. The answer to this question has an intimate relation to the problem of postwar security for all nations.

The choice appears to lie between (1) long-continued Allied surveilance of German industry and education and of many other types of activity within the Reich, and (2) actual partition of prewar Germany to destroy the power of Prussian militarism and remove thethreat o fa third World war.

The second course is strongly advocated by Sumner Welles, former Undersecretary of State.

Whatever may be the ultimate recommendation of the European and advisory commission, one substantial loss of territory seems inevitable for Germany. A transfer of East Prussia, and perhaps of parts of Pomerania and of Silesia to Poland—to compensate for losses of Polish territory to Russia east of the Curzon line—has emerged as one of the post-war objectives of Josef Stalin.

Prussia owed its position of domination within Germany in part to the three partitions of Poland during the latter years of the Eighteenth century. By the first partition, Prussia obtained 20,000 square miles of territory that separated Pomerania from East Prussia along the Baltic sea. The second and third partitions added 40,000 square miles of territory and doubled the size of Prussia as it had existed before the partitions.

The rise of Prussia dates from 1701, when the elector of Brandenburg had himself crowned as Frederick 1, "king in Prussia," with the reluctant consent of the emperor at Vienna. Under his son, Frederick William, and his grandson, Frederick the Great, the Prussian military establishment became a model for Europe. It was well drilled and equipped, its officers were chosen from the nobility and carefully educated. The Prussian armies were humbled by Napoleon, but their prestige was restored by the six-weeks war with Austria in 1866 and the easy victory over France in 1870-1871.

Prussia's power was reduced by the losses of World War 1, and the distribution of voting strength in the Reichstag under the Weimar constitution, but Prussian militarism again achieved supremacy when Hitler was brought to power in 1933.

The United Nations now have the task of uprooting it so completely that Prussian militarism can never rise to plague the world again.

And that is a task which must not be left undone.

The Cotton Country's Friend

PEOPLE of the South whose brea dand butter depends wholly or in large part upon cotton may have friends that are as staunch and alert as Senator Bankhead of Alabama. But certainly there is none who can be placed ahead of the Alabama statesman in this regard.

If there has been an important piece of cotton legislation in which Senator Bankhead has not been active since he entered the Senate 14 years ago, it does not come to mind. Usually he has been the sponsor of measures intended to promote or protect the interests of the cotton farmer and the Southern cotton man.

To mention all such legislation with which he has been connected would be impractical, even if the full record were available. But a few months ago he pushed through, over seemingly impossible opposition, a bill which stabilized cotton prices in a ration to price ceilings of finished products. Right now he is working to raise prices to parity levels—which means more dollars for cotton men of all kinds. And these have been typical of his entire public career.

He has been so active—so effectively active—that few could challenge the statement that he is cotton's No. 1 champion in Congress, if not in the entire scope of public life.

The School of Experience hands out only one kind of degree, namely: The third degree.

The One Minute Sermon

Awake, O sword, against my shepherd, and against the man that is my fellow, saith the Lord of hosts: smite the shepherd, and the sheep shall be scattered: and I will turn mine hand upon the little ones.

And it came to pass, that in all the Land, saith the Lord, two parts therein shall be cut off and die; but the third shall be left therein.

And I will bring the third part through the fire, and will refine them as silver is refined, and will try them as gold is tried; they shall call on my name, and I will hear them: I will say, It is my people: and they shall say, The Lord is my God.—Zechariah 13:7-9.

Believe It Or Not --- By Robert Ripley

The Life Of Eisenhower

By Francis Trevelyan Miller

(Copyright, 1944, NEA Service, Inc.)

"WE COME AS FRIENDS . . ."

XVI

At the end of October, a story was "planted" in the newspapers to the effect that General Eisenhower had been recalled to the United States for a series of discussions. This rumor accounted for his absence, an absence later explained by the fact that the general went to Gibraltar. He was given command of the fortress.

"Never in my wildest dreams in my West Point days," he said, "did I ever think that I—an American general — would ever command the British fortress of Gibraltar."

His headquarters were under 1400 feet of solid rock and constituted 40 rooms. The only exercise the general and his staff was able to get consisted of running to their offices through a dripping tunnel. Many a private was startled at the sight of his commander and his staff sprinting through the narrow passageway.

To outwit Hitler and divert German attention, General Eisenhower had ordered that units of American forces be outfitted for the Arctic. The Eisenhower strategy worked perfectly. The Germans were reported to be bolstering their defenses in Norway.

All though the night of Nov. 7, General Eisenhower worked in his cavern headquarters. Great events were impending: great chances were being taken. The die was being cast. In his hand he held a decoded message. It was from General Marshal, back in Washington, and read:

"You and your command sailed with the hopes and prayers of America. For months you have planned, trained, and conditioned yourselves for the great task ahead. Godspeed to your success. I have complete confidence in your leadership and in the aggressive fighting quality of your troops."

General Eisenhower, his features tense and lined by tremendous strain, read dispatches, issued orders, and waited. . . .

On the morning of Nov. 8, 1942, the world was startled by the news: "The Americans have landed in North Africa."

The greatest armada in the world's history, up to that time—850 ships—had brought the first American army to the battlefront. They had landed during the night hours and at daybreak were engaged in a gigantic pincer movement. Within 76 hours they had won 1300 miles of the coast of North and West Africa, advancing from Algiers and Morocco.

Eisenhower, with the aid of the Britsh, had outwitted Hitler and Mussolini.

• • •

General Eisenhower's only comment as he left Gibraltar to advance his headquarters to North Africa was, "The only thing I was disappointed in was the resistance of the French Navy, particularly the coast batteries. We don't want to fight the French and they are opposing us, holding up the job and expending effort which might well be used against the common enemy—Germany."

General Eisenhower's mission was to liberate the French from their Nazi captives, not to engage in warfare against them. Appealing to them in his name this message was broadcast:

"Frenchmen of North Africa, the forces which I have the honor of commanding, come to you as friends to make war against your enemies. This is a military operation directed against the Italian-German military forces in North Africa. Our only objective is to defeat the enemy and to free France. I need not tell you that we have no designs either on North Africa or on any part of the French Empire. We count on your friendship, and we ask your aid.

"I have given formal orders that no offensive action be undertaken against you on condition that you for your part take the same attitude. To avoid any possible misunderstanding, make the following signals: Fly the French tricolor and the American flag, by day, one above the other. I repeat, by day, fly the French tricolor and the American flag, one above the other, or two—I repeat, two tricolors, one above the other. By night, turn on a searchlight and direct it vertically toward the sky. I repeat, by night, turn on a searchlight and direct it vertically toward the sky.

"We come, I repeat, as friends—not as enemies, we shall not be the first to fire. Follow exactly the orders which I have just given you. Thus you will avoid any possibility of a conflict, which could only be useful to our enemies. We summon you as comrades to the common fight against the invaders of France. The war has entered the phase of liberation."

The voice over the radio, speaking in General Eisenhower's name, rang out over land, sea and air.

"Frenchmen of North Africa: Faithful to the traditional and age-old friendship of the government and people of the United States for France and French North Africa, a great American army is landing on your soil. The purpose of the mission is to protect the people of French North Africa from the threat of Italo-German invasion. Our principal aim is the same as in 1917, that is to say, the annihilation of the enemy and the complete liberation of invaded France. The day when the Italo-German threat no longer menaces French territory we will leave your soil. The sovereignty of France over French territory remains complete. We know we can count on your support to open the road which leads to victory and peace. All together we shall triumph."

Within two days an armistice was reached—the French ceased firing and Algiers and French Morocco surrendered on Nov. 9, 1942.

NEXT: Why Darlan.

Registration Permits At Tech Total 1,873

Registration permits for the 1944-45 college session had been issued to 1,873 students at Texas Tech college at 5 o'clock Thursday afternoon, closing the final formal registration day, Registrar W. P. Clement announced Thursday. Clement said that this figure was "a favorable enrollment, showing an approximate increase of 20 per cent over last fall's enrollment." At this same time last fall, 1,560 students had received permits.

Of the total registered this semester, 625 men students had passed the Dean of Men's office, and 1,248 women students had gone through the Dean of Women's office, indicating another "two women to every man" ratio this fall.

Many other students are expected to register within the next few days.

Classes began this morning at 8 a. m.

Austrian Pretender Arrives In Quebec

QUEBEC, Sept. 14. (AP) — Archduke Otto, pretender to the throne of Austria, arrived in Quebec today from Washington.

His trip was described by friends as one of his periodic visits to his mother, former Empress Zita, who lives here. Otto, however, expected to have personal talks with some of the statesmen at the Quebec conference.

Austria, formerly part of the Hapsburg empire, was assured postwar independence by Prime Minister Churchill, President Roosevelt and Premier Stalin at the Teheran conference.

SOLON NOMINATED

DENVER, Sept. 14. (AP)—With all of the 479 precincts of the second congressional district reporting today, David Miller, Greeley attorney, held a final lead of 441 votes over Homer G. Preston of Brighton for the Democratic nomination for Congress. Miller will oppose Rep. William S. Hill, Republican incumbent congressman, at the November election.

Looking At Life - - - - - - By Erich Brandeis

YOU have, of course, all come under the romantic spell of perfumes.

Their names alone are enough to make your mouth water and what male can resist the charm of the seductive female who is liberally sprinkled with "Charmante Parisienne" or "Delices d'Amour" or "Shangri-La"?

Now come the dear scientists and shatter all our dreams of romance and perfume-laden moonlight nights, with a perfectly prosaic survey of smells.

They have come to the conclusion that there are only four basic odors, namely: (1) fragrant or sweet, (2) acid or sour, (3) burnt and (4) ceprylic or putrid.

All other odors are simply combinations of these. And if you think that the beautiful and enchanting aroma has anything to do with love or passion or romance just listen to this:

Smell is purely chemical, say the scientists, being produced by gases or vapor in the atmosphere which are brought into contact with sensitive nerve endings in our nose when we breathe.

So the next time you are out with your beloved and you are hypnotized by the sweet fragrance of her love creeping into your heart, remember—its only gas tickling the nerve endings of your nose.

• • •

Now then; what odors are the most popular? That, too, has been scientifically determined by the scientists.

The flowery odors were the favorites, found the learned researcher: fruity and spicy odors came second, and resinous, burnt and putrid odors were third, fourth and fifth.

Rose was the favorite of all the odors, with lilac and pine in second place. Then came lily-of-the-valley, violet, coffee, balsam, cedar, wintergreen, chocolate, carnation, orange and vanilla.

So there you are—this may be a guide to you in your courtship.

• • •

AND, by the way, for no reason at all, it reminds me that many years ago I was completely smitten with a girl who worked behind a soda fountain.

Finally she consented to go out with me. It was a lovely evening and I was very young.

As I was about to embrace her, a faint odor of vanilla emanated from her lovely person.

Moon, spring, flowers, a rippling brook, all came to naught when I smelled the vanilla, vanilly always having been one of my pet aversions.

The romance ended right there and then, and even now, whenever something is repulsive to me I smell a faint odor of vanilla.

How do the scientists explain that?

The National Whirligig

The News Behind The News

WASHINGTON
By Ray Tucker

A PERMANENT, professional Army of at least 500,000 fighting men and a reserve of an annual 1,000,000 young trainees is the national defense program which the military planners have tentatively framed for postwar America. To maintain the Air Forces and the Navy at only half their present strength will require at least another 3,000,000 in service or in training.

The General Staff of the War department regards such an establishment as the minimum which the United States should keep on hand for at least another decade. President Roosevelt has indicated his approval of the general idea, and topnotch members of the Military and Naval Affairs committees on Capitol Hill are agreeable to this scheme.

As a starter toward this ideal, the Selective Service system will be continued long after Berlin and Tokyo have been conquered, although the numbers called to arms will be reduced gradually. Thus, even though Congress fails to act on the Roosevelt-Marshall blueprint, we shall have a tremendous, trained force and reserve for many years to come, assuming that the average age of new draftees is about 20.

The Navy now has approximately 800 combat ships—around 3,600,000 tons. These figures take into consideration only battleships, airplane carriers, cruisers, destroyers and submarines; they do not include auxiliary vessels.

The personnel totals about 3,600,000 individuals—a man for each ton of fighting craft. And FDR's Naval Chief of Staff, Admiral William Leahy, believes that this force should not be reduced more than a third, in ships or sailors.

• • •

BELATED: The Democratic 1936 platform called for an Army and Navy "adequate for defense," but it is not generally realized how weak the United States was on land, water and in the air at the time Hitler attacked Poland in September 1939. Here are a few pertinent reminders that figure in the military experts' present-day planning:

The Army had been increased by only 50,000—from 131,000 to 181,0000—between 1932 and 1939, although Japan first went on a rampage in China in 1932, Hitler came to power in January 1933, and Mussolini attacked Ethiopia in 1935. The increase in appropriations during this period was merely $192,000,000.

In May 1940, only a month before the fall of France, we had less than 1,000 first-class fighting planes. The guns we tried to rush to Paris as the Nazi hordes swept through the Low Countries were old-fashioned, first World war 75s exhumed from their ancient wrappings and warehouses. Reynaud never received them because he was forced to capitulate before they arrived on the battl fronts.

Despite the 1936 pledge, it was not until November 1942, when we began to play a major role with our invasioon of North Africa, that the United States was fully prepared for global warfare. And even our belated readiness was due largely to the fact that British and French orders had geared our industries to military pitch.

• • •

OPERATIONS: It has been commonly assumed that the Navy, President Roosevelt's favorite arm of the national defense system, was increased greatly during this period as a bulwark against the rising tide of dictators to the east and west. But charts now on the President's desk prove otherwise.

The jump in actual annual expenditures from 1932 to 1939 was only $94,000,000 according to the official figures. Tonnage was raised in that dangerous era by only 54,000—from 1,000,186 tons to 2,040,000.

Personnel was doubled—from 107,000 to 213,000. A large percentage of the force, naturally, was stationed on shore and not at sea.

As with the Army, it was not until 1942 that the Navy was ready to engage in large-scale operations in the Pacific theater.

• • •

DEFENSES: Indeed, when in 1940 Admiral Ernest King was given command of an Atlantic fleet consisting of a few training ships and outmoded vessels, he complained rather ruefully to his old friend, President Roosevelt.

"You have given me mighty little butter," he said, "to cover this vast expanse of bread."

Washington is determined that our defenses shall never again fall into such sad shape. Because of the 1932-1939 neglect the necessary, feverish rearming has forced the public debt from 45 billion in 1939 to approximately 215 billion at the present moment. It may go above 300 billion before Hitler and Hirohito are liquidated.

The proposed Army-Navy-Air setup for the future may easily cost the taxpayers some 10 billion dollars annually, although that figure can be pared down gradually as prices fall and service pay is reduced. But it is believed in high places that a yearly expenditure of this amount will prove cheaper in the long run.

• • •

WINNING THE WAR
Albert Leman

GENERAL EISENHOWER'S veterans may have slow and tough going as they bayonet their way over shell-swept terrain and throw flames into the concrete pillboxes of the West Wall.

But by pinning down the defenders they will prevent the enemy from rushing reinforcements to the north or south flanks of the Seigfried Line in an attempt to block encircling movements of the Allies.

Hitler no longer has men enough to plug his leaking dikes, according to Secretary Stimson's latest announcement. The gravity of the Nazi manpower shortage is discernible in the following information from Army intelligence reports and from German documents and newspapers that have reached New York by way of neutral capitals.

• • •

HARSH: Desperate measures are in force to increase production of weapons to replace those lost in France and Poland.

War factory hands, including fresh recruits from retail stores, professions and other white collar sources, now must sweat at drop-hammers and forges 12 hours a day, minimum, six days a week. Miners in Upper Silesia are on an 86 hour workweek.

A speed-up piece rate system is in operation in most armament plants. As extra wages in a superrationed country are of little value, the incentive for efficiency is additional and better food. Doctors are forbidden to issue sick certificates unless fully warranted. One decree reads: "Light and medium cramps hereafter cannot be accepted as an excuse."

The Nazis are now paying for their shortsighted teachings that woman's only place was in the home; most wives try subterfuges to avoid machine shop employment. Harsh punishments were dealt in Hanover recently to women who refused to enroll at the police stations for the Reich labor services.

• • •

REBELLION: Now, besides the necessity of turning out more guns and gunpowder there is urgent need of German civilians to strengthen the defensive systems and to build new barricades behind the lines. In zones menaced by advancing Anglo-Americans and Russians every person except an expectant mother must report to the military commander with his own shovel or pick, blanket, eating utensils and food for three days.

Rifles are issued to even the smallest towns. Civilians are given simplified military training in gymnasiums and target practice by veterans of the last war. Shirkers are bluntly asked, "Would you rather drill now or be sent to a Siberian concentration camp should the Russians break through?"

Earlier this year gauleiters in occupied countries were ordered to round up 2,000,000 more foreign workers. The number of aliens in the Reich would thus have been increased to 14,000,000. Newcomers were scheduled to take the places of farm and industrial employes drafted by the Reichswehr. But the swift liberation of France, Belgium and Poland knocked this dragnet scheme into a cocked hat.

Previously, SA home guards and many SS combat formations were earmarked to police the civilian population. But now these professionals are being sped to the battlefields to fill the gaps left by troops captured and killed.

Here And There In Texas

State Health Department Collecting Blood Plasma

By GORDON SHEARER
United Press Correspondent

AUSTIN, Sept. 14.—On the home front as well as on the battle fields blood plasma is essential for saving human lives, and the State Health department soon will broaden its plasma collecting program to be prepared for most any need.

At least by November 1 the department hopes to have a second mobile unit to tour Texas communities and towns to collect blood. This is not in competition with the valiant work of the Red Cross, Dr. George W. Cox, state health officer, explains.

The state's program is purely local, and military officials have asked the department to take care of plasma needs on the home front. In some instances where a state mobile unit was taking blood in a community, a Red Cross unit has come into town and immediately the state unit left in deference to the organization.

• • •

Program Four Years Old

The state program was begun in 1940 as the outgrowth of a collecting system used by the erstwhile NYA. Blood from men in the camps was brought to the health department laboratories where it was processed and returned to camp hospitals.

The department put the program on a statewide basis when the NYA folded and since that time the laboratory has processed more than 2,000,000 cubic centimeters of plasma.

Presently the state has on hand about 75,000 cubic centimeters of plasma.

The state mobile unit will bleed in a community when at least 100 persons have been signed as donors. The unit has a staff of five and a local doctor is always on hand.

• • •

EIGHTY per cent of the plasma from the community is returned to a hospital for local use, and the remaining amount is kept at the state laboratory for emergency use and to replenish community supplies.

No large emergency call has ever been made on the state's supply, Dr. S. W. Bohls, director of the laboratory, says, pointing out that replacements in communities have been mostly routine.

He explained that the plasma is good for as long as five years, and that some persons have been given as much as a gallon of blood in a year.

Local health officers have charge of plasma supplies sent by the state to hospitals in Houston, Dallas, San Antonio, Fort Worth, Tyler, Midland, El Paso, Corpus Christi, Lubbock, Amarillo, San Benito, Wichita Falls, Sherman, Texarkana and Waco.

• • •

The health department is not "pushing" its plasma campaign because of the heavy war demand, Dr. Bohls said. But several West Texas communities have asked for the state unit and it has not been sent due to long travel distances and the Red Cross work.

"Our object is one of preparedness to assure towns of having plasma which may save a life," Dr. Cox said. "Many of the smaller places do not have blood banks, but if we can make plasma available it can mean the difference between life and death."

• • •

NEWLY nominated members of the 49th Texas House of Representatives have already started visiting the capitol to pick out desks where they will sit when the session begins next January.

Returning members have first selection privileges, and then the neophytes may pick from the remainder.

Already selections have been made by Nominees Sam Sellers of Waco, Fred Jones of Lone Oak, Frank E. White of Groveton, and Hubert A. Lee of Paducah.

• • •

Where experience means a great deal is in the enrolling room of the House of Representatives. For that reason there is going to be some difficulty next January in finding someone to replace Mrs. Elsie Rupert.

Mrs. Rupert served as enrolling clerk for seven legislative sessions—14 years.

She and her husband have moved to Brownsville where he will represent an Austin printing company in the Rio Grande Valley.

• • •

A CHASE through the Houston down town area, part of the time in the middle of Main street, dodging traffic and winding through two theater lobbies, ended with a dope peddler under arrest and Detective Emmet Dailey slightly winded.

Crowds along the street gasped as the wanted man dodged cars, the officer right behind him.

Dailey reported four packages of heroin were found on the peddler.

• • •

Trap Found In Street

Mrs. T. L. Roberts, of Houston, found a device marked "booby - trap — dangerous" lying in the street.

She picked it up and carried it home.

Police Captain Tom Eubanks explained to her when he came to get the trap that it was used in Army training and was made to explode when picked up.

He said that the trigger evidently had not been set.

Although there is no explanation for the device being left in the streets, police assume it was lost by Army personnel.

Takers Are Plentiful For Air Base Jars

WARRENSBURG, Mo., Sept. 14. (U.P.) — Personnel at the Sedalia Army Air base here believe they have things well "bottled up."

They found 10,000 glass jars of all sizes around the base. So they inserted an advertisement in newspapers of nearby towns, and farm and town women, caught in the middle of a jar shortage and a victory garden abundance, walked as far as three miles for a sack of jars.

The air base stockpile is dwindling fast.

39—Legal Notice

THE STATE OF TEXAS
To the Sheriff or any Constable of LUBBOCK County, Greeting:

LONA ELIZABETH SHELL, Temporary Administrator, of the Estate of H. H. SHELL, Deceased, having filed in our County Court her Final Account of the condition of the Estate of said H. H. SHELL, Deceased, numbered 1032, on the Probate Docket of Lubbock County, together with an application to be discharged from said Temporary Administratorship.

You Are Hereby Commanded, That by publication of this Writ one time and said publication shall be not less than ten days before the return day hereof, in a Newspaper printed in the County of LUBBOCK, STATE OF TEXAS, you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on Monday the 25th day of September, A. D. 1944, at the Court House of said County, in Lubbock, Texas, when said Account and Application will be acted upon by said Court.

Given Under My Hand and seal of said Court, at my office in the CITY of Lubbock, Texas, this 13th day of September, A. D. 1944.

ED D. ALLEN,
Clerk, County Court, Lubbock County, Texas.
(Seal)
By Louie F. Moore, Deputy

I Hereby Certify that the above and foregoing is a true and correct copy of the Original Writ now in my hands.

TOM ABEL,
Sheriff Lubbock County, Texas.
By Verlie Shearer, Deputy

To Whom It May Concern: A hearing will be held by the Texas War Food Administration Wage Board on September 20, 1944, nine a. m., in main ballroom second floor Hotel Lubbock, Lubbock, Texas, for the purpose of obtaining evidence and information pursuant to the establishing of special wage ceiling regulations for cotton picking and pulling in the Wichita, Abilene and Lubbock cotton producing areas. Testimony will be taken concerning the type of work to be controlled, the exact areas to be subject to control, the crop or crops to be affected, the wage rates paid and of matters relative to the establishment of a wage ceiling. All interested persons may appear and testify. Similar hearings will be held at Paducah, September 21, and Sweetwater, September 22. Dated this 14th day of September, 1944. Signed E. R. Alexander, acting chairman, Texas War Food Administration Wage Board.

PRICES CONTINUE TO LOSE

NEW YORK, Sept. 14 (AP)—Stocks generally continued in the losing groove today for fractions to a point or more although selling was less urgent and scattered market favorites managed to pull themselves on to fairly solid ground.

The Associated Press average of 60 stocks was off .4 of a point at 52.9. Of 862 issues registering, 512 were down, 140 up and 210 unchanged. Transfers of 727,675 shares compared with 880,420 the day before.

Prominent on the offside were American Telephone (ex-divident), Santa Fe, Southern Railways, Chrysler, Goodrich, Sears Roebuck, Woolworth, International Harvester, Westinghouse, Texas Co., J. C. Penney and Sperry. Pittsburgh Steel preferred dropped 13 points at 82 on a 100-share sale, first transaction in this stock for some time.

Texas Pacific Land Trust was the most active stocks of the session, up ⅛ on reports of new oil discoveries on this company's property. Improvement was retained by Bethlehem, propped by word that the concern had Navy orders running into 1947; Great Northern, Graham-Paige, Public Service of N. J., and International Nickel.

Cotton . .

NEW YORK FUTURES

NEW YORK, Sept. 14 (AP)—Trading in cotton futures was restricted today pending Washington action on the Bankhead cotton loan bill expected next week. Hedge selling and liquidation depressed prices as much as 50 cents a bale but losses were partially recovered on mill and local buying. There was a fair amount of switching from the near to distant months.

Futures closed 5 cents a bale lower to 40 cents higher.

	High	Low	Last
Oct.	21.52	21.44	21.51
Dec.	21.36	21.24	21.36

July	20.55	20.40	20.55

Middling spot 22.03N.
N—Nominal.

NEW ORLEANS REPORT

NEW ORLEANS, Sept. 14 (AP) — Trade and commission house buying supported cotton futures here today. The market closed steady 15 to 40 cents a bale higher.

	High	Low	Close
Oct.	21.54	21.44	21.54
Dec.	21.35	21.27	21.35
March	21.16	21.07	21.15
May	20.94	20.84	20.93
July	20.55	20.45	20.55

AVERAGE PRICE

NEW ORLEANS, Sept. 14 (AP)—The average price of middling 15-16ths-inch cotton today at ten designated southern spot markets was 15 cents a pound lower at 21.30 cents a pound; average for the past 30 market days 21.42; middling ⅞ths-inch cotton 20.12.

Rites Set At Abilene For Mrs. Alexander

Funeral services for Mrs. E. J. Alexander, 52, who died Wednesday night in St. Mary's hospital following a long illness, will be held this afternoon at 2 o'clock at the Elliott Funeral home in Abilene, with Rev. Dave Reed, pastor of the Abilene Emanuel Baptist church, officiating.

Mrs. Alexander was a recent resident of Shallowater, and a former resident of Abilene.

Burial will be in the Abilene cemetery, with Bryan McDonald and Son Funeral home directing.

Survivors include here husband; two daughters, Mrs. Bennie Judd of Shallowater and Mrs. Opal Earnest of Abilene, and three grandchildren.

Oklahoma Woman Dies Here Thursday

Funeral services for Mrs. L. M. Branum, 78, of Chattanooga, Okla., who died after a short illness Thursday afternoon in West Texas hospital, will be held Sunday in the First Baptist church at Chattanooga. The time has not been set.

Mrs. Branum was visiting with her daughter, Mrs. Effie Gebhart of Levelland, when she became ill 10 days ago.

Other survivors are five sons, S. A. Branum of Lyons, Kans., A. M. Branum of Oklahoma City, Okla., Walter Branum and Jessie Branum, both of Chattanooga, Okla., and Lee Branum of Maundridge, Kans.; and one brother, Sam Mundell of Stillwell, Kans.

W. L. Marr Sells His Ralls Furniture Store

RALLS, Sept. 14. (Special) — Sale of the Marr Furniture store to Harvell Littlefield of Ralls was announced today. The sale is effective at once.

The closing of the deal marks an end to the 24 years W. L. Marr has been in the furniture business here.

Marr is to retain his funeral home and insurance business which he operated in connection with the store. He also has funeral homes at Crosbyton and Lorenzo.

At A Glance . .

NEW YORK, Sept. 14. (AP)—
Stocks: Lower; downward trend continues.
Bonds: Irregularly lower; rails in supply.
Cotton: Mixed; hedge selling and mill buying.
CHICAGO:
Wheat: Weak. Lack of demand.
Rye: Weak; same as wheat.
Hogs: Active and fully steady; top $14.75.
Cattle: Steady.

Grain . .

FT. WORTH REPORT

FORT WORTH, Sept. 14 (AP) — Wheat No. 1 hard 1.60@1.68.
Barley No. 1 1.01@1.03.
Sorghums No. 2 yellow milo or No. 2 white kafir per 100 lbs. 1.77@1.82.
Oats No. 2 white 70@71.

CHICAGO REPORT

CHICAGO, Sept. 14 (AP)—Wheat, corn and rye were weak in late futures trading today but oats and barley were trim to strong in quiet markets.

Surprisingly low prices, as much as 13 ⅜ cents below the ceiling, were quoted for corn when trading in futures of that grain was resumed today. A flood of selling orders was in the market at the opening and buyers backed away. The market steadied later on support from local traders.

At the close wheat was ½ to 1 ⅜ lower than yesterday' finih, September $1.56 ⅞. Oat were unchanged to ⅛ higher, September 59 ⅞-60 ⅛. Rye was off ⅞ to 1 ½, September 93 ⅝. Barley was ¼ higher to ⅛ lower, September 99 ¼. Compared with today's opening quotations, corn closed ¾ higher to 1 ¾ lower, December $1.07 ⅜.

Livestock . .

KANSAS CITY REPORT

KANSAS CITY, Stept. 14 (AP)—(WFA)—Cattle 3,700; calves 1,100; largely steady on all classes; slaughter steers mainly common and medium grassers and shortfeds 10.00-12.00; few lots held around 13.00 and above; odd head medium and good cows 10.00-11.50; good and choice vealers 12.50-14.00.

Hogs 1,800; steady; good and choice 180-240 lbs 14.50; 241 lbs up and sows mostly 13.75.

Sheep 6,000; nothing sold early; opening bids on slaughter lambs lower but asking prices fully steady; good and choice natives and range lambs held above 14.00.

FORT WORTH REPORT

FORT WORTH, Sept. 14 (AP) — Cattle 4200; calves 1800; about steady. Medium to good slaughter yearlings 11.00-14.00; beef cows 7.00-12.00; good and choice slaughter calves 12.00-13.25; stocker calves and yearlings 7.00-11.50.

Hogs 900; steady; good and choice 180-240 lb butcher hogs 14.55, the ceiling. Heavier butchers mostly 13.80.

Sheep 6000; spring lambs steady to 25 cents higher; other killing classes unchanged; medium to good spring lambs 11.00-13.00; medium to good yearlings 8.75-10.00.

Produce . .

CHICAGO REPORT

CHICAGO, Sept. 14 (U.P.)—Butter: Receipts 265,586 lbs.; market firm and unchanged; 93 AA 41 ½; 92 score 41; 90 score 40 ¾; 89 score 40 ¼; 88 score (cooking grade) 39.

Eggs: 9,467 cases; market easier and unchanged; extra 42-46 ½; standards 37-39 ½; current receipts 34-36; dirties 27-31 ½; checks 27-30 ½.

KANSAS CITY REPORT

KANSAS CITY, Sept. 14 (AP) — Eggs specials 42-43; other produce unchanged.

Reds At Warsaw

(Continued From Page One)

with other important developments along a front stirring into action at various key points.

Driving eight miles northwest of Lomza, Narew river stronghold 75 miles northeast of Warsaw, Gen. G. F. Zakharov's Second White Russian Army captured Nowogrod, only 15 miles south of East Prussia on the road to Allenstein.

On Slovak Frontier

Far south of Warsaw other Soviet forces aided by Czech legions improved their positions near Dukla pass an the Polish-Czechoslovak frontier, and Czech sources in Moscow said patrols already had crossed into Slovakia. The east Beskids chain of the Carpathians are not so high in this area

In Transylvania, Russian and on the road to imperilled Hungary. Romanian troops overrun 110 more towns and villages, driving to within 13 miles of Cluj, Transylvanian capital and rail city controlling the main escape routes for German and Hungarian troops withdrawing to the west.

The Russians now have conquerer approximately 4,200 square miles of territory which Hungary took from Romania with German consent in 1940. Aiding Marshal Rodion Y. Malinovsky's Second Ukraine Army are 12 Romanian divisions, and some Romanian troops were reported fighting within 135 miles of Budapest in the western Romanian town of Arad.

West Side of Carpathian

In yesterday's advances of 35 or more miles the Russians captured Gheorgheni, on the western side of the Carpathian mountain wall 71 miles north of Brasov. Ditrau seven miles to the northwest and Praid 25 miles to the southwest also were seized. The fall of Praid put the Russians within 25 miles east of the important city of Targu-Mures.

Other Soviet columns driving on Cluj in a race to cut off the Germans and Hungarians falling back through the Mures river valley captured Turda 13 miles southeast of Cluj and also took Maros-Bogata, 22 miles west of Targu-Mures.

It is possible that Romanian troops already have crossed the prewar Hungarian border since a Budapest communique told of fighting east of Szeged, which is six miles inside Hungary and only 98 miles from the Hungarian capital.

Farther south Marshal Tito's Yugoslav partisans were reported by the Yugoslav radio to have made a junction with the Red Army, and Berlin said that Marshal Feodor I. Tolbukhin's Third Ukraine Army had crossed into Greece from capitulated Bulgaria.

Siege At Aachen

(Continued From Page One)

ceeded in penetrating fortified positions of the westwall at two points."

American artillery joined in the Aachen assault, blazing away at the city itself and knocking out a German railway train in one of its first supporting barrages.

Engineers also played a vital role in this first big breakthrough, clearing the way through chains of "dragon's teeth" and other tank obstacles so that the American advance could keep rolling.

An American staff officer summed up a day of measured but great success as "very satisfactory —very much so!"

Opposition Is Light

Field dispatches described German opposition as still surprisingly light in the Aachen area, with some forts in the Siegfried line not even manned, but the thin Nazi forces opposing the invasion northwest of Trier fought like fanatics and had to be blasted to pieces, bunker by bunker and pillbox by pillbox. German villages were burned to the ground to route their suicide defenders.

American troops had a tremendous advantage in firepower, at some points literally pulverizing with tanks and artillery sections of the Siegfried line manned by Germans dependent upon rifles and machineguns.

Launching of the first great assault of the war on German soil, tanks and doughboys skidded forward across terrain drenched by an all-night rain and pocked with thousands of holes from a thunderous preliminary artillery bombardment. Within an hour the first crust of enemy defenses in the Trier area was broken, and pillboxes by-passed by the first attacking wave were being destroyed pointblank by tanks.

Aerial Support Reduced

Heavy weather drasticaly reduced aerial support for the advancing troops.

Late today the German radio reported the advanced defenses of the Siegfried line had been penetrated by "far superior forces," but predicted optimistically that the "sheer weight of the armored impact of our defensive barriers will soon blunt the edge of the Allied spearheads."

Lt. Gen. George S. Patton's Third Army continued to slash east and north from its half-dozen firm bridgeheads across the Moselle river near Nancy in northern France, rolling the Nazis back under sledge-hammer blows of armor and artillery.

New Moselle Bridgehead

Troops under Gen. Patton occupied Mirecourt, 25 miles south of Nancy and 10 miles southwest of Charmes, where the Americans threw another bridgehead across the Moselle. A steady stream of Third Army infantry and armor poured across the river between Toul and Metz, a 21-mile stretch in the Nancy area.

Fighting edged closer to the Moselle west of Metz and in Thionville to the north, late front dispatches said. American infantrymen pushed east of Pont-A-Mousson.

German broadcasts reported that a Third Army spearhead had reached Chateau Salins, about 18 miles east of the Moselle, and that the fortress city of Metz was under heavy attack.

With Patton's right wing about to make a firm juncture with Lt. Gen. Alexander M. Patch's American and French Seventh Army below Nancy, it was pointed out at headquarters tonight that the Nazis soon must attempt to check the Allies along a line of more than 250 miles—with fewer troops probably available than failed to do the same job on a 70-mile front in Normandy.

No Civilian Resistance

There were no reported instances of resistance by German civilians to the forces swiftly overrunning their soil.

Associated Press correspondent Don Whitehead disclosed that an infantry unit commanded by Capt. Kimball Richmond of Windsor, Vt., smashed the first belt of fortifications before Aachen.

Numerous German villages were overrun in the area immediately east of Rotgen, the little border town nine miles southeast of Aachen which was the first to fall to Lt. Gen. Courtney Hodges' First Army.

Yesterday's aggregate advance in that area was about six miles, placing Hodges' troops well east of Aachen.

Sertorius' Forecast

Capt. Ludwig Sertorius, Nazi military commentator, predicted that the Americans, once they succeeded in breaking through at Aachen, would veer sharply northward in a drive to envelop the nearby industrial Rhineland containing such famous armament centers as Essen, home of the Krupp works; Cologne, Dusseldorf, Dortmund and Wuppertal. The British Second Army, he concluded, would at the same time sweep through southern Holland and form a junction with Hodges' Army in the Essen area.

Headquarters announced a new crossing of the Dutch frontier near Maastricht, 15 miles north of Liege, but did not say whether it was by British or American troops.

Canadian infantry advancing along the northern coast of Belgium were reported fighting fiercely to hold a crossing of the 300-foot wide Leopold canal they made late yesterday at Moerkerke, north of Brugge. They were under heavy enemy artillery fire.

Tough For Canadians

The Canadians were fighting difficult going through country which had been flooded by the Nazis. Their tanks were confined to the roads, where they made easy targets for enemy anti-tank guns.

American troops fought into the streets of the besieged port of Brest on the Brittany peninsula, and heavy explosions heard within the city possibly were from German demolitions. Ninth Airforce bombers — among the few Allied planes to get into the air during a day of terrible weather —made a 50-minute assault on Brest and reported they saw Yank troops fighting in the western section of the port where the Nazis built their bomb-proof submarine pens.

The British Second Army, which took 39,000 prisoners in the first 12 days of September as it drove across Belgium, was pushing the Germans back from the Leopold onto the Schelde canal. Some Nazis were believed to be trapped between the two waterways, as they prematurely blew up many bridges over the Schelde, and the only one left standing was in Allied hands.

Youth Held For Theft, Pillaging

A 17-year-old youth was held by police Thursday night for investigation into the theft of a car and a variety of articles from parked cars in the southwest part of the city Wednesday night.

The youth was discovered early yesterday morning hiding in a service station at 1202 Main street.

Police said the youth is believed to have stolen the car from the operator of the station, Drew E. Warren. They said he had been employed at the station. The car was taken from a grease rack at the station and apparently was driven "most of Wednesday night." The car was found near the station.

Sample Stock Looted

One of the cars looted belonged to John H. Wilson, a salesman living at 2521 Twenty-third street, from which was taken 100 sample school class rings, a man's suit, rifle and shotgun. Officers said most of the rings, the clothing and the guns had been recovered.

Police said Wilson's property and articles taken from other cars had been hidden in various parts of the city. Most of the property has been recovered.

Policemen figuring in the investigation were Mark McCurry, Gilbert Newton, Marlin Brothers and Joe Brooks.

Latham's Answer

(Continued From Page One)

that whatever he did would be "interpreted" by the general public as stemming from the governor, Latham replied: "I am not afraid of what the people might think or what they impute to me so long as I perform my duty as I see it under the law."

The best legal minds of Texas are primed to battle this case if it goes to the Supreme court which is the last-ditch stand of either side.

The Supreme court is now recessed and not scheduled to convene until September 18. Chief Justice James P. Alexander, who is in Chicago attending the national bar convention, will return by the end of the week and is expected to call the court into immediate session in order to render a decision in time for one group or the other to be certified with the secretary of state.

Keeps His Promise

Latham, in his promise to give an answer tomorrow kept his word that he would expedite the matter as much as possible to meet the deadline of Septembr 25 which he has established for final certification by a party for place on the presidential ballot in November.

Appearing with Patman to plead the Pro-Roosevelt case were: Elmer Lincoln of Texarkana, Geo. Eddy of Dallas, W. H. Kittrell of Dallas and Harry L. Seay of Dallas.

The delegation held that "since the electors chosen in the May convention cannot be trusted to vote in the electoral college in accordance with the desire and will of the Democrats of Texas, they have forfeited and vacated their office as electors."

Headed For Courts

Latham said that the case seemed headed for court either way he decided inasmuch as the May convention electors had been selected according to law, had been properly certified to him, and had been upheld as the duly elected electors of the Democratic party by a Supreme court ruling.

However, the fact that since the Chicago convention 15 of the original electors have indicated by written statement they would not support Roosevelt and Truman as nominees of the Democratic party, does put a different light on the case than was present when tried in the Supreme court.

The September convention in making up its new set of electors retained the 7 who have pledged themselves to vote for Roosevelt and added 16 new names to replace the expunged 16 "anti-Roosevelt" electors.

Those Retained

The seven retained are: J. E. Wheat of Woodville; Tom Nelson of Round Rock; Fred Minor of Denton; Harry Starr of McAllen; Tom J. Pitts of Odessa; Tom Jones of Canadian; Homer Pharr of Lubbock.

Patman said this Democratic split "might mean stealing a presidency and a national scandal."

"This goes back two years when the so-called American Democratic association started assembling money to do its dirty work," said Patman. "They are building up the greatest conspiracy known to history, and with more money than ever assembled in history and plan to steal the election by throwing the vote into the House of Representatives."

Patman said that the money behind the anti-Roosevelt movement was "oil money from Pennsylvania and carpet baggers money."

Pacific Blows

(Continued From Page One)

Worth, Tex., swooped down upon the convoy of Japanese craft and accounted for all the damage and sinkings.

Maj. Gen. Davenport Johnson, commander of the 11th Air force, said the sinkings brought the total for the "hunting season," thus far, to 15.

The general went hunting himself, a few days ago, as copilot of a Mitchell, but fog obscured all shipping near the Kuriles.

In today's foray, the larger ship was sunk between Suno Cape and Nakagawa bay, at the southwestern tip of Shimushu island, and the picket boats in Nakagawa bay.

Eden's Rush Trip Stirs Rumors Of Big Developments In Europe

By KIRKE L. SIMPSON
Associated Press Staff Writer

QUEBEC, Sept. 14 — The arrival of the British foreign minister to join the Quebec conference circle has stirred speculation as to whether there might have been developments in the European war theater calling for the instant attention of Prime Minister Churchill and President Roosevelt.

Until there is more official light on Eden's trip, its possible connection with an early collapse of organized German resistance cannot be ruled out.

SIMPSON

That has tended to shift attention here for the moment from the avowed purpose of the conference to blueprint the final attack on Japan, back to the European scene. And there have been startling swift developments in the west since Messrs. Roosevelt and Churchill reached Quebec which London has translated into estimates that six weeks or less will see the end of major hostilities in Europe, whatever mopping-up of isolated Nazi groups remain to be done.

No Echo At Conference

Such predictions find no echo in conference circles. The stress of all official outgivings here has been kept continuously upon the war beyond the Pacific. It is certain, however, that the war maps at Chateau Frontenac show a more detailed picture of the situation on the Western front than is available to the public under General Eisenhower's news blackout.

That is a matter of tactics rather than strategy. It is calculated to keep the Nazis uncertain as to where the main blows will fall in the gigantic multi-Army vice which Eisenhower is closing upon the Rhineland hump, west of the river itself, from the Maastrict gateway to the Lorraine and Belfort gaps.

What is disclosed tends to confirm the view of some military observers that at least the outer section of the "west wall" is definitely lacking in defensive quality. It was constructed, in their view, not to ward off attack but as the base from which the blitzkrieg that swept France out of the war was loosed in 1940.

Might Be Quickly Over

If that is true, and, despite hastily improvised new fortified zones, the tremendous air and ground forces now available to Eisenhower might make short work of the Rhineland hump to reach the river itself. They are already testing out the notion, dating back to the other World war, that German resistance will end short of permitting the war aground to roll over German soil as it already has from the air.

That estimate of the breaking point in Germany's will to resist must be modified by the strong-arm organizations the Nazis have perfected at home to guard against a "pease revolt." It must also be weighed in the light of the fact that any German move for an armistice, however received, would be referred to General Eisenhower, and would be met by the stern unconditional surrender answer provided by his directives from highest Allied authority.

Peace Overtures Possible

There have been internal convulsions in Germany, however, including the attempt on Hitler's life. Until Eden's visit to Quebec is otherwise explained, there will remain a question as to whether peace overtures from inside Germany, authoritive enough to warrant immediate consideration not only by Roosevelt and Churchill but by Stalin, have not come to hand through diplomatic channels. The possibility that such a question could be dropped into the lap of the Quebec conferees to change the whole noture of this assembly can not be wholly dismissed. It will come sooner or later, although to date there has been no evidence whatever that the Allies expected it to coincide with the Quebec deliberations or that it actually has cropped up now, aside from the mystery surrounding the circumstance that brought Eden flitting across the Atlantic for a "chat" with his chief.

Approximately 175,000,000 square feet of pierced steel airplane landing mats have been shipped from the U. S. to combat-areas since Pearl Harbor.

More Polygamists To Be Tried In Utah

SALT LAKE CITY, Sept. 14. (AP)—After a summer respite, Utah's campaign against ploygamous marriage practices opens its fall run tomorrow in the trial of 34 persons charged with conspiring to advocate the practice of one man's having more than one wife.

Eleven defendants are women in the third trial since the arrest of 46 members of the "fundamentalist" cult March 7. Twenty-one members were convicted in previous federal and state hearings. Fourteen of these also face the conspiracy charges.

Claude T. Barnes, a defense attorney, said "we're ready to carry all of these cases to the United States Supreme court, because these people are not guilty."

Heading the 34 defendants in one of the biggest mass trials in Utah's history are John Yates Barlow, 70-year-old portly president of the fundamentalists," and Joseph White Musser, 75, white-haired editor of the group's magazine "Truth."

Borger Flier Given Award In Pacific

SOMEWHERE IN THE SOUTHWEST PACIFIC, Sept. 14. (AP)—Lieutenant General George C. Kenney, commander of the Allied air forces in the southwest Pacific, has awarded a second and third bronze Oak Leaf cluster to the Air Medal to Lieutenant James W. Bennett, Borger, Texas.

The award was for meritorious achievement while participating in sustained operational flight missions in the southwest Pacific area for December 8, 1943 to May 22, 1944, during which hostile contact was probable and expected. Supplies were dropped and troops transported to advanced positions.

"Romeo" To Be Tried In "Gardenia" Murder

LOS ANGELES, Sept. 14 (U.P.)—Roger Lewis Gardner, 30-year-old professional Romeo who left a trail of disillusioned Juliets across the nation, today was ordered to face trial Oct. 27 for the "gardenia" murder of Mrs. Ora Murray.

The suave impersonator pleaded innocent yesterday to murder charges and two counts of grand theft involving $900 in cash and jewelry he allegedly bilked from Mrs. Jeanette Walser, one of his admirers.

Mrs. Murray's semi-nude body, a gardenia crushed beneath it, was found on a local golf course July 26, 1943, the morning after she had been out with Gardner.

Gardner was convicted several months later in New York of impersonating a federal officer and sentenced to three years in federal prisons. He was released to local authorities to face the murder charge.

Four Die When Two C-47's Crash, Burn

SEDALIA ARMY AIR FIELD, Warrensburg, Mo., Sept. 14. (U.P.)—Four men were killed last night when two C-47 planes crashed and burned during a routine flight here, commanding officers announced today.

A board of army officers has been appointed to determine the cause of the accident. Officials said no other details of the crash were available.

The dead included:

Lt. John M. V. Boomgaard, 26, San Antonio, Tex., husband of Mrs. Betty A. Boomgaard, Sedalia.

Women pilots were first employed by the ferrying division of the Air Transport Command, Army Air Forces, in September, 1942.

4000 New York cabs get Top Mileage from

GENERAL SYNTHETIC TIRES

You must have your present tires recapped, if possible. But, when you get a precious new-tire certificate, use it for the best America's Top-Quality Tire.

SINCE 1923, General Tires have been first choice among cab operators in New York City ... leading all other makes by a large margin.

WHEN SYNTHETIC TIRES CAME, it was only natural for these same operators to look to General for continued long-mileage leadership. Since the first General synthetics went on the wheels in Sept., 1943, 4000 cabs have rolled up the astounding total of 698,400,000 tire miles.

TYPICAL among these is the huge fleet of Terminal System, Inc., which is 100% on General synthetics. Using General Tires exclusively since 1930, Daniel Arnstein, President, *knows* when he says, "Mileage from the original treads is highly satisfactory and because of General's stronger carcass these tires take the same number of recaps as pre-war."

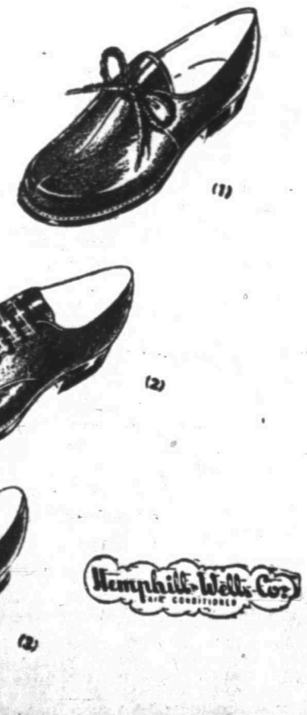

NO STRONGER PROOF of mileage can be found than this performance of General synthetics under the terrific wartime demands of the most punishing passenger tire treatment in America.

Mailing For Christmas Overseas Starts Today; Suggestions Given

By GEM BOB CALLEY
Avalanche Staff Writer

Today marks the beginning of the biggest overseas mailing season in the history of postal service-i. e. Christmas packages you send to your G. I. Joe or Jane abroad between now and Oct. 15.

Encouraging war news from Europe has caused a great deal of optimisim and speculation concerning the fall of Germany and when Johnny will come marching home. But even if the war in Europe should end during the special Christmas overseas mailing campaign, keep sending those holiday packages to men overseas. They'll still be there to receive them.

Gradual Demobilization

Gradul demobilization of troops in the European area will have no great effect on the number of men coming home. The bulk of servicemen will be overseas long after Christmas because even if they are discharged at the fast rate of 1,000 men an hour, it will still take ten months to send all the men home, Army officials say.

While hopes are high that your particular servicemen will be among those discharged, it is expected that at least some of the European troops will be shifted to other theaters of war. A Christmas package from home will be most welcome, whether it arrives in France or the Pacific.

Consider Localities

If you know exactly which theater of war your package is to go, consider what would be most useful and desired while your serviceman is in that particular area. Your shopping should be systametic and intelligent, so start with a list and check the available survey lists as to what is permissible to send, and what items are wanted in various war zones.

Research among servicemen and women shows the need for different articles, varying with the country and climate, but servicemen everywhere want letters, snapshots, pocket-size books, games, film, home-town newspapers, and playing cards. For your G.I. stationed in the British Isles send billfolds, stationery, watches, flashlights, fountain pens, socks, razor blades, shaving soap, toothpaste, cigarettes, cigars, electric razors, pipe cleaners, lighters, pipe tobacco, marshmallows, jellies, and fountain pens. Those in France need about the same articles, the survey reveals. From the South Pacific, replies to the research inquiries show that lighters, pipe cleaners, pipe tobacco, pipes, cigarettes, cigars, razors, shaving soap, toothpaste, foot sticks, G. I. shirts, handkerchiefs, long shoelaces, socks, underwear, swim suits, flashlights, watches, stationery, fountain pens, hard candy and fruit cakes top the list for needed gifts.

Mailing gifts to servicemen and women abroad is just as important as buying them. Government rules for overseas mailing are virtually the same as they were last year, except the mailing period for both Army and Navy overseas forces is the same-Sept. 15 to Oct. 15. Postmaster Amos H. Howard of the Lubbock postoffice said that after Oct. 15 no gift parcel may be mailed to a soldier without the presentation of a written request from him.

Basic rules to follow in mailing a package are: purchase a standardized box, a package must not be over five pounds in weight, not more than 15 inches long or 36 inches in length and girth combined, wrap it in heavy paper, tie firmly with strong twine, and label it "Christmas Parcel." The address should be typewritten or printed plainly in waterproof ink. A duplicate address and return address should be placed **inside** the box.

Destination Address

The destination address should include the rank and full name, serial number, service organization and unit of the service person. It should also include the proper Army Post Office or Fleet Post Office number and the port from which it will leave. The return address should be complete. Postage on all parcels must be fully prepaid-fourth class on packages over eight ounces, third class under that weight.

Many articles are strictly taboo for mailing: inflammables like matches and lighter fluids, perishable foods, intoxicants, weapons, and poisons. Only one package may be sent by or on behalf of the same person or concern to or for the same soldier in one week during the mailing period.

If the war in Europe should be over before Christmas, holiday packages from home will be doubly welcome. At least they'll provide a miniature forecast of the real bang-up Christmas that's going to be his when he comes home.

NEW O'DONNELL PASTOR

O'DONNELL, Sept. 12 (Special) Garnie Atkisson, former pastor of the Tahoka Church of Christ, assumed duties last week of the O'Donnell Church of Christ. He and his wife moved here Sept. 4.

Home Owners Urged To Refrain From Pleas For Lumber

Homeowners were asked to refrain from attempting to get ratings for any but the most essential emergency needs until the War Production Board is able to relax its present stringent instructions, in a statement issued Tuesday by E. T. Stearns of Fort Worth, district director of the FHA.

Lumber remains at the top of the critical materials list of the WPB and priorities can be granted only in extreme emergencies, Stearns said. The FHA office acts as agent of the WPB in processing preference ratings for critical building materials.

For making small repairs, lumber can be purchased on uncertified and unrated orders from lumber dealers who have been allotted small quantities of building supplies for the third quarter of 1944 as long as such supplies last, Stearns said. However, homeowners can not get WPB preference ratings through the FHA except for extreme emergencies.

Emergency ratings for lumber are justified when a house is rendered unfit for continued occupancy through damage by fire, flood or similar catastrophe, Stearns explained. He added that deterioration of lumber because of wear and tear will not be considered an emergency need for lumber, is parts to be replaced will function without repair for at least three months.

LITTLE CROP LOSS

WASHINGTON, Sept. 14. (AP) — Volunteer workers have made it possible to pack the 1944 crop of small fruit and vegetables "with little or no loss due to manpower factors," Chairman Paul McNutt of the War Manpower commission said today.

Do FALSE TEETH Rock, Slide or Slip?

PASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. PASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get PASTEETH at any drug store.—Adv.

SUPPORTS FDR

Editor, The Avalanche: I see so much said about the New Deal, and staying with the government and Democrats, that I just want to ask what has become of the WPA workers? Most of them of middle age have some sort of home either on a farm or in town. How did they do it? By government help, after removing Hoover and putting a Democratic government—the first that has ever helped the individual. Call it New Deal, or anything you please.

The Democratic row is like a family row. Come on, let's stay one more night and settle it in the morning, then there will be no more said—and I think they will stay.

While rapping the President, why not rap Congress as well, because he cannot do anything without Congress? Put all the blame on the President. He is a tired old dobbin and will stay in the collar 'till the load leaves the bag. Congress has him staying and making every hardship fall on you and me just alike. Your boy did not go to war and leave my boy to go fishing and play hookey. No, they are both in the same fox hole; and I cannot get any more sugar stamps than you or anyone else. So let's bury the hatchet and not go back to Hooverizing again. I don't like it, do you? I tried it once. No likee!

A Crosbyton Reader.

NEWS FREEDOM ASKED

LONDON, Sept. 14. (AP) — The Newspaper World, a leading weekly publication for the British newspaper profession endorsed today the resolution of Rep. Fulbright (D-Ark) asking the United States Congress to declare itself in favor of international agreements guaranteeing world-wide freedom of news exchange.

Lean Beef Tops Menus For Fall

Now's the time for homemakers to bring forth favorite recipes for beef pot roasts, stews, meat loaves and pies. With increasing quantities of lean non-rationed beef coming to market, and fewer high-grade roasts and steaks, these favorites stewed and braised dishes will be the mainstay for many delicious meals.

There's a reason for the scarcity of high-grade beef. During the first six months of this year one-third fewer cattle went to feed lots to be fattened for plump roasts we used to get for Sunday dinner. And nearly half (45 per cent) of the top grades of beef now produced under federal inspection is going to the Armed Forces. That means civilian consumers won't find many of these cuts in retail markets.

Still Plenty to Be Had

However, there's still plenty of lean beef to be had. Large numbers of cattle are on ranges and farms, and there will be unusually heavy marketings of these cattle, fed on the lush grasses of plains and prairies. This in the lean beef you'll find non-rationed in the markets. It has the same good beef flavor and all the nutritional value to be found in a prime rib roast from a blue-ribbon steer. But it needs long, slow, moist cooking to be as tender as you would desire. That's why it's suited to such tasty dishes as braised Mexican steak, ground beef patties, beef and kindney pie, and beef stew with dumplings.

Following are tested recipes for preparing lean beef for delicious and tender results:

BAKED MEXICAN STEAK

4 pounds round steak
¼ cup flour
2 teaspoons salt
⅛ teaspoon pepper
3 tablespoons bacon drippings
2½ cups tomatoes
1 teaspoon Worcestershire sauce
1 onion, sliced
1 green pepper, chopped
1 cup celery, chopped

Have steak cut 3 inches thick. Season flour with salt and pepper and pound flour into meat with mallet or edge of plate. Brown steak on both sides in hot drippings. Add tomatoes, Worchestershire sauce, onion, green pepper and celery. Cover. Place in oven to bake for three hours at 300° F.

ALL-AMERICAN HAMBURGER

¾ pound ground beef
¼ pound ground pork
1 teaspoon salt
¼ teaspoon pepper
Cream to moisten
½ cup finely minced onion
2 tablespoons Worcestershire sauce

Mix ground meat with seasonings and cream. Press hamburger into very thin flat cakes. Put two cakes together with a filling made from the finely chopped raw onion mixed with Worchestershire sauce. Press edges of cakes together firmly. Brown on both sides in hot skillet, then reduce heat and turn meat often until cooked.

COFFEE, FRUIT AND CHEESE make a delectable dessert

Blending Cheese And Fruit . . .

Coffee Coeur A La Creme Is Tasty Dessert For Fall Days

THERE'S a deep affinity between cheese and fruit. In these days when cheese is so precious and hard to come by, we all want to make the best possible use of what we can get. We'd suggest that from now on through the fall, while a variety of fruit is still plentiful, you save the cheese you buy for cheese-fruit desserts.

One of the most famous French desserts is Coeur a la Creme, a cheese concoction, prepared in a heart-shaped mold, and usually served with tiny, bright red wild strawberries, known as "fraises des bois," which have some of the flavor of the warm sun in them.

We can all make Coeur a la Creme, but only a few of us can pick wild strawberries, even in season, so our suggestion for you today is a completely American "heart of cream," which adds to the blending of cheese and fruit the thoroughly American flavor of coffee.

COFFEE COEUR A LA CREME

2 teaspoons unflavored gelatin
¼ cup cold coffee
¾ cup strong, hot coffee
2 teaspoons sugar
¼ teaspoon salt
6 ounces cream cheese
2 egg whites, stiffly beaten
Sliced peaches (or other fruit)

Soften gelatin in cold coffee about five minutes. Add hot coffee. Stir until dissolved, and add sugar and salt. Beat cream cheese with fork until soft, and stir in gelatin mixture gradually. Chill until mixture begins to set, then fold in stiffy beaten egg whites. Pour into mold. Chill in refrigerator. When ready to serve, unmold and surround with sliced peaches or other fruit. Makes six servings.

This is a very rich dessert and therefore servings should be small. The recipe may be doubled or tripled for party service. Cottage cheese may be substituted from cream cheese, but it must be pressed through a fine sieve. Instead of using sliced peaches to decorate the outside of the plate, you might make them into a sauce to be served in a separate dish by sprinkling them well with sugar to draw the juice and letting them stand for a half hour in the refrigerator.

If you can find some domestic Blue cheese or Gorganzola, serve it with well chilled pears or apples, "as is." This type of cheese is one of the best we make in this country and its flavor complements that of solid-meat fruits beautifully. There could be no better ending to a good dinner. Serve the coffee right along with it.

Combine cheese and fruit in tart shells for an interesting dessert. Remember when we used to top fruit tarts with whipped cream? Here's the solution, in my opinion, only the "topping" goes underneath!

PLUM-CHEESE TARTS

4 tart shells
1 pound plums
¾ cup water
1 tablespoonu lemon juice
¼ cup sugar
1 teaspoon cornstarch
3 teaspoons cold water
¼ pound cottage cheese
Bit of cream

Wash and pit the plums and stew them in the combined ¼ cup water, lemon juice and sugar until soft, but not completely disintegrated. When nearly done, add cornstarch mixed with three teaspoons of cold water, and cook, stirring frequently, at least ten minutes longer. Chill thoroughly. When ready to serve, smooth the cottage cheese with enough cream to get a soft, but not runny consistency. Place a bed of this cheese in each tart shell and pile the plum mixture on top.

CHICKENS POPULAR

A government bulletin makes the surprising statement that the total meat produced by chickens in the United States is between four and five times as much as the lamb and mutton produced. Obviously, it's not only southerners who like their chicken!

APRICOT NECTAR GOOD

The generous apricot crop has made possible an augmented supply of apricot whole fruit nectar. Look for the 12 ounce can on the grocer's shelf. There will be many more opportunities this year, than last, to have the delectable beverage appear on your menus.

Tea spots should be sponged with lukewarm water before sudsing.

GOOD "FILL IN"

A relish tray featuring contrasting colors and textures is an excellent means to "fill in" a slim meal. Raw, crisp, bright carrot sticks, shiny, chewy, black ripe olives, crunchy, golden toasted almonds does it!

Princess Margaret of England has been wearing her big sister's hand-me-downs since the war began.

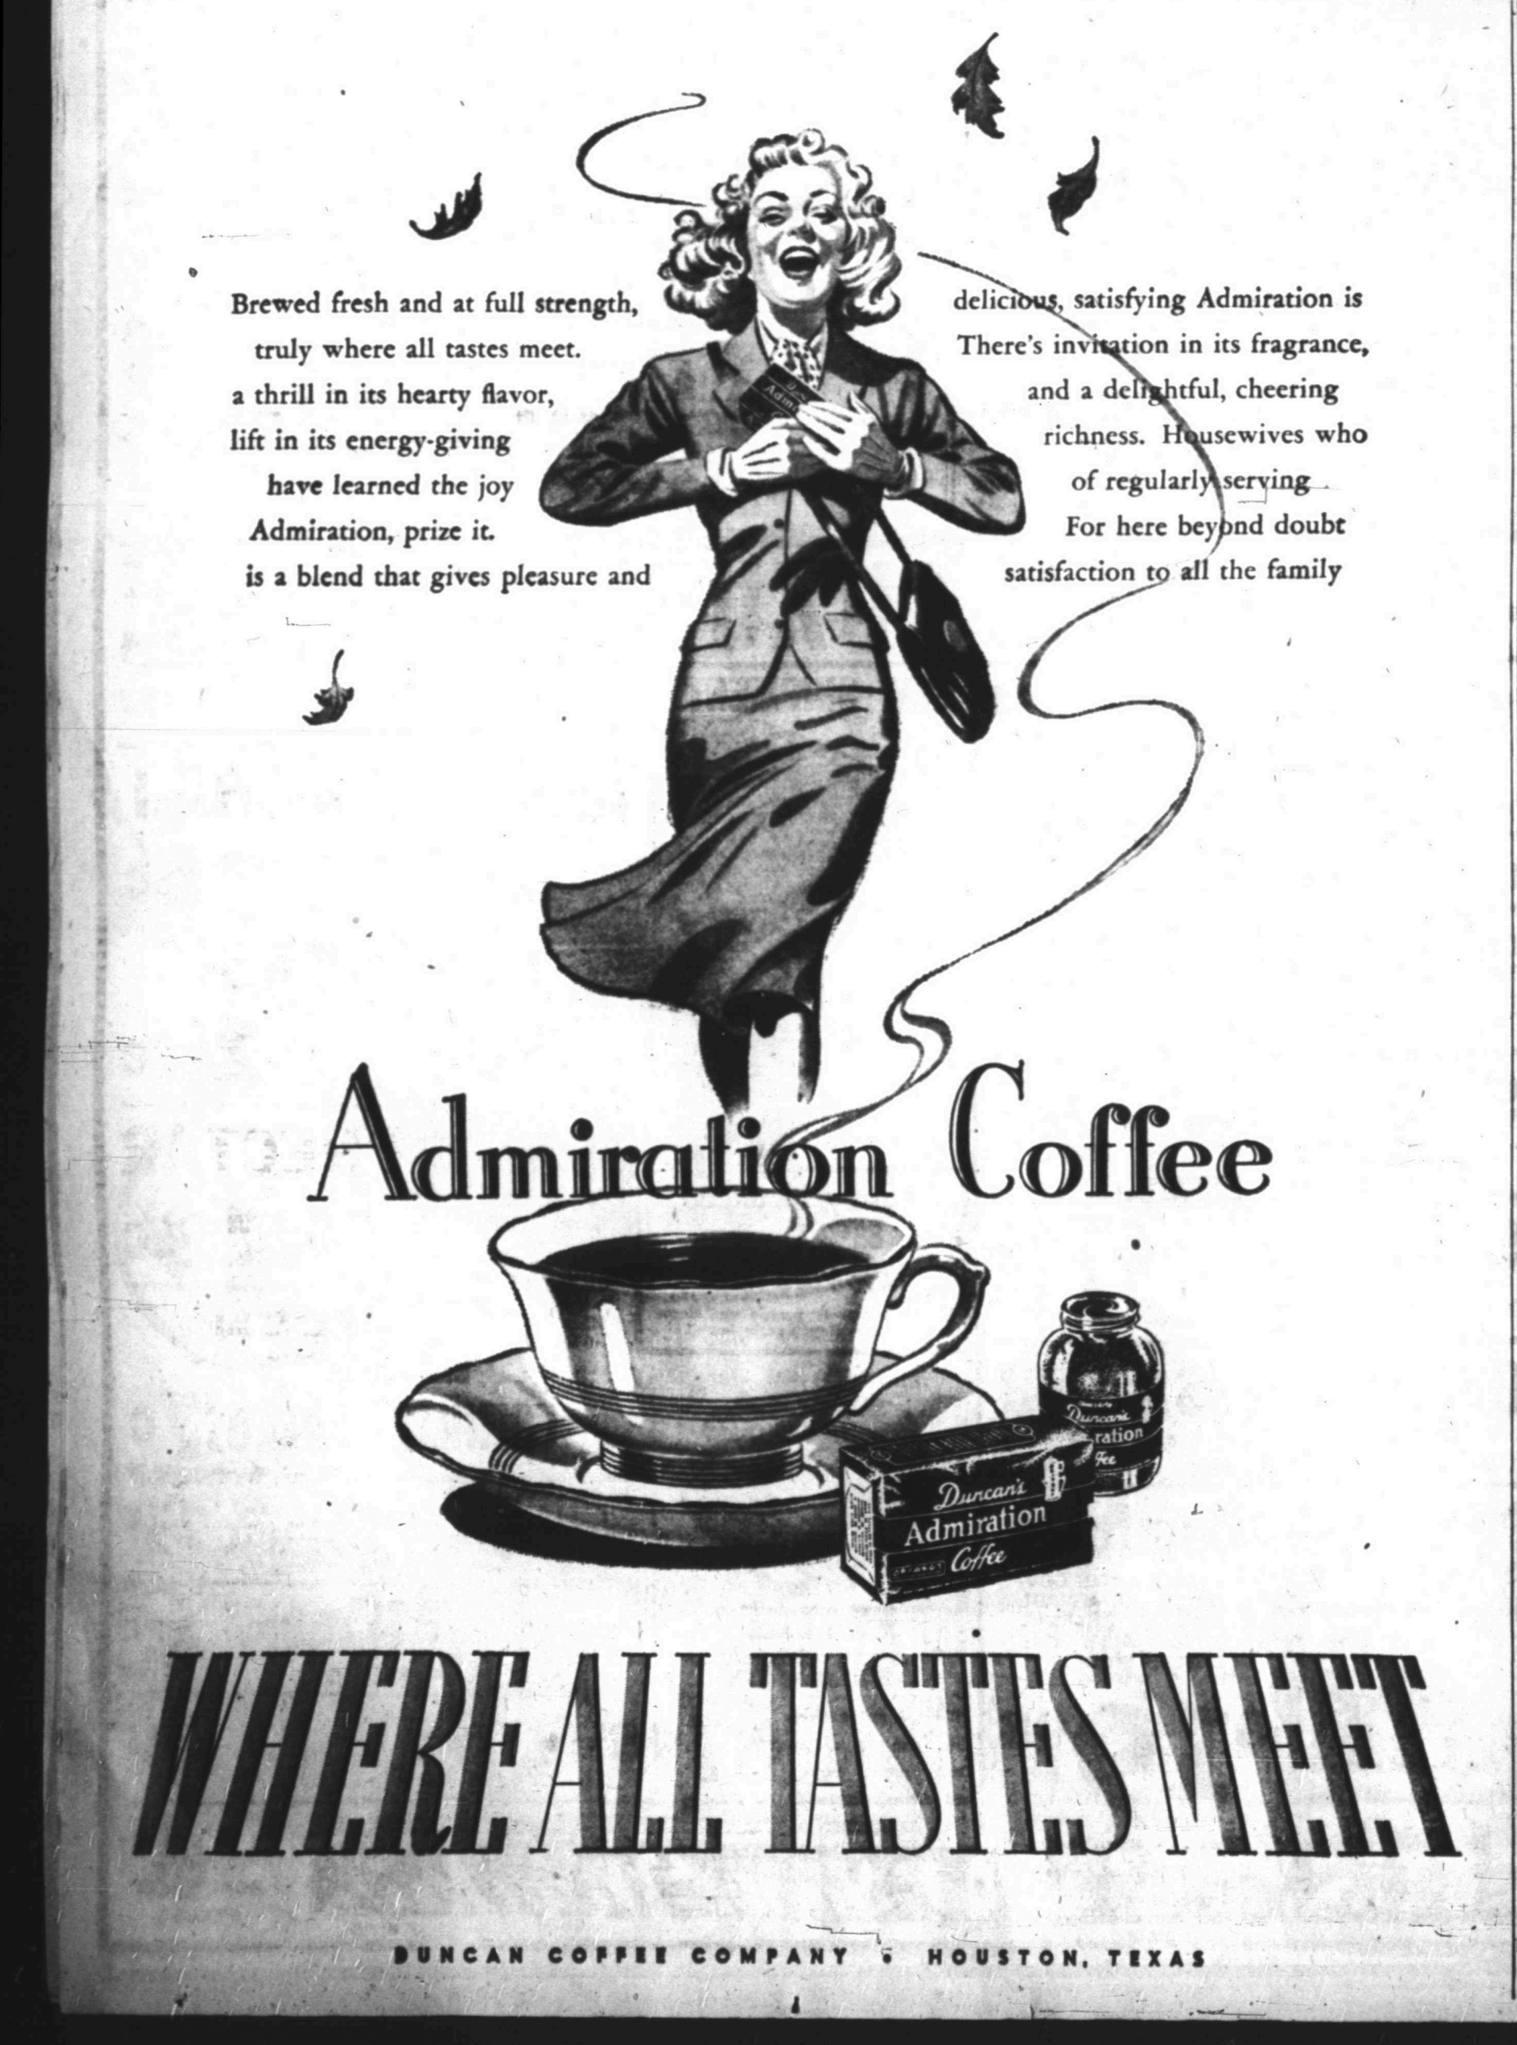

With cold sliced lamb try sour cream to which some prepared horseradish has been added.

Uniform Price For Harvesting Of Cotton Crop In Area Sought

Establishment of uniform price for harvesting cotton this fall on the South Plains and in other West Texas cotton producing counties is under consideration of producers and agricultural officials, according to County Agent Jason O. Gordon.

Public hearings are to be conducted within the next 10 days in Lubbock, Sweetwater and Paducah to determine if farmers and laborers desire a uniform price system in a 70-county area, Gordon said.

The Lubbock hearing will be held next Wednesday.

Price Would Be General

The agent said a ceiling price would be set under the plan which would apply in all counties, and that producers could pay any price under or at that figure.

The plan would be operated under authority granted the War Food administration by Congress.

Gordon said the stabilization program is designed to prevent wage increases likely to lead to greater labor cost which would endanger stability of prices; help in the control of farm wages, in relation to industrial wage rates, so as to prevent shifting of manpower; prevent wage spiralling due to competition among farmers for labor, and to prevent labor "pirating."

Would Call Elections

Should public hearings disclose sentiment for the program, elections would be called in each of the 70 counties, Gordon said. A majority vote of cotton producers would be necessary to put the plan in operation, he said.

The program would be flexible, Gordon said, to enable farmers in counties where weather conditions have made cotton poor to offer a higher price to attract laborers.

Last fall's harvesting price in the South Plains averaged $1.50 a hundred pounds, including delivery to gins. The cost gradually rose as the season progressed, and in some areas $2.10 a hundred for both services were paid in November.

Gordon said labor "pirating" and excessive harvesting costs were negligible in Lubbock county last year, but went exceedingly high in some sections of the South Plains. Lubbock county, he pointed out, usually "pulls" more cotton hands than other counties of the area.

Greek Patriots In Control Of Big Area

NEW YORK, Sept. 14 (AP)—The British radio today quoted its Cairo correspondent as reporting that "Greek patriot forces now control the whole of the central Greek plateau" and that 40,000 well-armed Greeks were attacking the retreating Germans.

As recorded by the OWI, the London broadcast added that about 100,000 Greek reservists "are waiting to strike when the Germans reach their area."

Texan Named Deputy Chief At Panama

BALBOA, Panama Canal Zone, Sept. 14 (AP) — Maj. Gen. Ralph Meyer has assumed duties as deputy commander of the Panama canal department, departmental headquarters announced today.

Meyer, formerly in command of coast artillery forces here, returned Thursday from Fort Sam Houston, Tex., where he had undergone medical treatment for two months. His home is in San Antonio, Tex.

Indictments Charge 174 Aliens With Nazi Affiliation Conspiracy

NEW YORK, Sept. 14 (U.P.)—Sealed indictments charging 174 German aliens, one of whom is a baron, with concealing or conspiring to conceal their affiliations with the Nazi party were opened today in federal courts at New York and Newark, N. J.

The German nobleman was 35-year-old Baron Louis Karl Dethard Kurt Wolf von Matthiesen, known here as Wolf Matthiesen, of Briarcliff Manor, N. Y., and employed as film editor for the March of Time.

Registered Falsely

Attorney General Francis Biddle said at Washington the aliens concealed their affiliations by registering falsely during the 1942 alien registration. Matthiesen was charged with continuing his affiliation, which took place in Switzerland in 1933 according to the justice department, while he was in the United States.

Biddle said the case was the first against members of the Nazi party in this country and that for reasons of security prosecution had to be delayed.

The indictments, he said, climaxed more than four years of investigation into the intricate ramifications of the American branch of the national socialist—party of Germnay."

Attempt To Defraud

The Brooklyn grand jury named 31 defendants on the same charge.

Because of the length of the investigation, the statute of limitations for prosecuting violations of the 1940 registration act as such had run out, and the conspiracy charge, carrying a maximum penalty of $10,000 fine and two years' imprisonment, was used instead.

Thirty-five individuals—15 in Brooklyn, 14 in Newark, and six in New York—were charged in separate indictments with making false and deceptive statements in connection with the registration of alien enemies in 1942.

Many Now Interned

The indictment stated, Biddle said, that all of the defendants are residents or former residents of the New York-northern New Jersey area. Many of them currently are interned as dangerous enemy aliens and some temporarily detained by the immigration and naturalization service at Ellis island.

The German ambassador and members of the German consulate in New York city were described as co-conspirartors of the defendants but were not named individually, with the exception of Friedhelm Braeger and Hans Vogel, who were leader and secretary respectively, of the Nazi party here and who were German consular officials in New York.

Bill To Save Sooner Liquor Is Prepared

OKLAHOMA CITY, Sept. 14 (U.P.)—Attorney General Randall S. Cobb was preparing a bill today, sponsored by State Rep. Arthur Reed of LeFlore county, which would direct law enforcement officers to give confiscated federal tax-paid liquor to the American Red Cross.

Reed said he planned to introduce the measure at the January session of the Oklahoma legislature. Reed, Poteau druggist, said the present law which calls for destruction of all seized liquor benefits no one and only results in waste.

The Red Cross would be authorized under terms of the proposed bill to dispose of the liquor "to the best advantage," thereby opening the way, if desired, to sell it in wet states, or to distribute it for medical purposes.

Only this week in Oklahoma City, destruction was started on more than 22,000 pints of liquor valued at thousands of dollars.

Charles Carroll of Carrollton, Md., was the last of the signers of the Declaration of Independence to die, succumbing in 1832.

New LAAF Class One Of Most Colorful; War Vets Included

One of the most colorful classes of the year has begun advanced training at Lubbock Army Air field. Included on the roster of Class 44-J are several who have returned from duty outside the continental limits of the United States. One is Major John J. Stark who graduated from the United States Military Academy at Westpoint in 1934, served for four years as aide-de-camp to General Woodruff in Hawaii as an infantry staff officer, later served at Fort Bragg, N. C. and in Boston with the regular Army and then entered glider pilot training. After graduating in May, 1943, he took up power flying. He holds a private pilot's license and is well on his way toward bomber pilot's wings.

A/C J. E. England, jr., holds the Air Medal and the Purple Heart acquired during eleven months as navigator on a B-24 operating out of the Aleutians. After his return to the U. S. he served as a navigation instructor until he entered flight training. A/C Robert P. Godwin also saw action in the Aleutian campaign as a bombardier while 2nd Lieut. C. J. Flynn, jr. was for several months with the ATC wing in the China-Burma theater, being alternately stationed at Kunming, China and Chamba, India. Lt. Flynn, whose home is Victoria, Texas has a brother in the navy and their father is serving his country in the marchant marine.

They See Frozen North

A/C H. M. Ream and A/C P. W. Holzgraf also saw enough of the frozen north to last them a lifetime, Ream during his twenty-two months with an anti-aircraft battery and Holzgraf as a civilian engineer during the building of the Alcan highway. A/C Millard Mead was one of the early aircraft engineers sent to our bases in Newfoundland, serving there from May, 1942 until August 1943.

Members of 44-J come from 44 states and the District of Columbia, with the west coast predominating. California leads all states, with Texas not a very close second, Illinois third and Washington state fourth. Their civilian occupations run the gauntlet from coffin upholsterer to owner of the champion fat steer at the 1939 Worlds Fair.

Varied Occupations

A/C V. J. Landon was supervisor of public school music in two Kansas towns and A/C J. W. Johnson was director of the Yazoo City, Miss. band. A/C J. Z. Racz was the Connecticut AAU 220-yard free style swimming champ in 1941 and still holds the college record for the 220 and 440 yards events. A/C G. S. Stockton was a field executive for the Boy Scouts of America with headquarters at Hobbs, N. M. and A/C E. F. Hart owns two Ford dealerships and an implement store in the state of Iowa.

Lt. J. D. McGovern who graduated from LAAF with 43F and now holds the Distinguished Flying Cross, Air Medal and several Oak Leaf clusters is a brother of A/C J. L. McGovern of 44-J. Aviation Cadets M. L. Myer, R. G. Wallace, R. P. McFarland and T. S. Webb are all hoping to see combat service so that they can avenge the deaths of brothers who have died fighting in this war. Many other members of the class have brothers and sisters in service.

Precautions Taken On New Gas Ration Books

The new A gasoline rationing book now being issued for use beginning Sept. 22 have two special safety features, the District Office of Price administration announced Thursday. All coupons have serial numbers which will be useful in spotting stolen tickets since the numbers and person to whom issued will be recorded by the War Price and Rationing board.

As a protection against counterfeiting, the coupons are printed on special safety paper which responds to secret tests known only to the government identification experts.

News Briefs

Bill Petree and Betty Lou Cone were elected president and secretary respectively of the sophomore class at Lubbock High school Thursday. Elected cheerleaders were Delight Hardin and John Reagan Teague. Vice-presidents named in class elections Wednesday were Rita McCauley, Billye Jo Stephens, Jo Ann Murphey, Lillian Smith, Carolyn Lockhart, Billie Rosenthal, Bill Carter, Buddy Maner, Leon Littleton, Jack Houk, and Jack Alderson.

Slide farmers will meet tonight at 9 o'clock in the Slide community store to discuss cotton picking and combine problems, it was announced by W. O. Reiger, assistant county agent.

There are more than 450 kinds of woodpeckers in the world.

Commissioner For Big Bend Area Approved

WASHINGTON, Sept. 14 (AP)—Legislation authorizing appointment of a U. S. commissioner for the Big Bend National park in Texas was approved today by the House public lands committee.

To be appointed by the Western Texas Federal District court, the commissioner would have jurisdiction in making arrests for law violations in the park. Rep. Thomason (D-Tex), author of the bill, said that the salary probably would be about $1,800 a year.

SUPER SERVICE PLANNED

WASHINGTON, Sept. 14. (AP)—A super de luxe air transportation service between Hawaii and California, with staterooms in its double decker four-engine planes is planned by Pan-American Airways, Harold M. Bixby, Pan-American vice-president, told the Civil Aeronautics board today.

BAR NOMINATES

CHICAGO, Sept. 14. (AP)—David A. Simmons of Houston, Tex., was nominated without opposition today for the presidency of the American Bar association, to succeed Joseph W. Henderson of Philadelphia.

West Texas Farmers Depend On Us To Get The Job Done Too!
The transportation of labor in and out of West Texas during the harvest season is an important job to which we give our every effort and knowledge of handling passengers. This job, together with Uncle Sams chartered bus service for soldiers and the normal fall increase of regular traffic requires skill and experience. We are glad to be of service to the people of this great agricultural area as well as our government. We will do our job to the very best of our ability.

Dewey Steps Up Attack On FDR; Regimentation Said Main Issue

By GARDNER BRIDGE
Associated Press Staff Writer

SHERIDAN, Wyo., Sept. 14. — Stepping up his direct attack on President Roosevelt, Thomas E. Dewey today attributed to "one man" the "incredible accomplishment" of having prolonged the depression 11 years.

The Republican presidential nominee told an applauding station crowd on his arrival here that the issues in this campaign are "whether we shall go on down the New Deal road toward a completely regimented and totalitarian society, or whether we shall start going up the road toward a free society in which we can achieve both security and jobs for all."

Going Down 12 Years

The New York governor said:

"We have been going downward for 12 years. The first seven years of this New Deal were peacetime years in which, with 58 billion dollars to spend and more power than any previous administration in the United States, one man managed to make a depression last 11 years, an incredible accomplishment—twice as long as any other in the history of the country."

At a news conference in the oak paneled dining room of Sheridan Inn, Dewey assailed the federal government's acquisition of western land by executive order as "characteristic of the deviousness of the New Deal's lack of respect for the rights and opinions of the people affected."

He expressed belief that Wyoming's indignation at what he called the govenment "grab" of 220,610 acres at Jackson Hole "will boil over."

First Hostile State

This was the candidate's first stop in a politically hostile state since he began his transcontinental tour a week ago. Wyoming, which has three electoral votes, gave President Roosevelt a 7,000 majority in 1940.

As his train crawled up through the Rocky Mountains into a country made historic by Custer's last stand at the Little Big Horn, Dewey prepared to confer with representatives of the sugar beet industry covering here from the area in between Michigan and California.

His next major speech is scheduled for Monday night in Seattle. He leaves tomorrow night for Coeur D'Alene, Idaho for a round of conferences with lumber, labor and agriculture leaders.

Nimitz' Promotion To Be Retroactive

WASHINGTON, Sept. 14 (AP)—President Roosevelt asked the Senate today to make Adm. Chester W. Nimitz' present temporary Navy rank as a full admiral effective as of Dec. 31, 1941.

The nomination would not change the war-time rank of the admiral, now commander-in-chief in the Pacific, but would date his commission back to the start of 1942.

The President also asked the Senate to make Adm. Royal E. Ingersoll's rank effective from July 1, 1942. Ingersoll, from La Porte, Ind., is commander in chief of the Atlantic fleet.

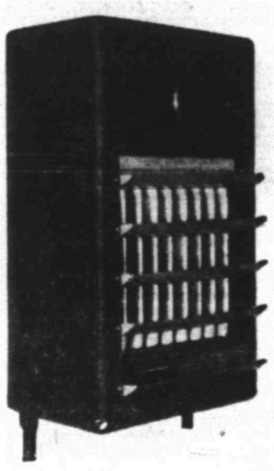

FRENCH AREA FREED

LONDON, Sept. 14. (AP) — The whole region of southwestern France between the Loire and the Allier—a river paralleling the Rhone 60 miles to the west, has been liberated from German control, the French Forces of the Interior announced tonight. Another 5,000 prisoners were taken south of Nevers.

PIGGLY WIGGLY — KNOWN 'ROUND THE WORLD BUT LOCALLY OWNED

Dixon Finds Rapid Advance Not All Flowers, Fruit And Kisses

By KENNETH L. DIXON
Associated Press Staff Writer

WITH THE U. S. SEVENTH ARMY, In Southern France, Sept. 8 (Delayed) — Despite the good cheer it must be bringing all around the world and despite its pleasant contrasts with some aspects of other campaigns, this swift Seventh Army drive northward through France is not all flowers, fruits and kisses flung by lovely liberated lasses.

DIXON

For one thing, we must have moved a million times the past month, and every time we move it rains. Ask any soldier two unfailing signs of a move and he will tell you 10-in-one rations instead of K-rations or C-rations for supper and the start of a slight drizzle.

Come Along and Watch

For another thing, it is cold, bitterly, bone chillingly cold. But come along and see for yourself. Watch moving day — which is any day in this campaign.

It still is in the night hours before dawn when you are routed out. You sit in the middle of a wet bedroll, shivering, groping for boots and pants and wondering how wet they got during the night. Then you stumble through a steadily increasing downpour to the kitchen tent.

Ten-in-one rations, which only finally caught up last night, already have been packed for the next move so you gulp down a few cups of hot coffee, go back and roll up your boggy mess of blankets, pile on a truck or jeep and hit the road.

Ashore Back In August

If you were dressed for it the rain wouldn't be so bad and the cold would only seem a pleasant fall chill high in the alpine hills. But after all, you came ashore on this invasion in mid-August when even olive drab pants left you sweltering.

According to advertisements all jeeps and command cars come equipped with tops and some even with curtains, but that is FOB Detroit. This is FOB France after four campaigns. If you are lucky enough even to get a vehicle with a top, it inevitably leaks so badly that it is a question whether you get wetter with or without it. Curtains are unheard of.

Try This Recipe

By sunrise, which is strictly a designation of time because the sun never shows, every stitch of your clothes is thoroughly soaked.

In order to get in the proper frame of mind to continue reading this you should stand fully clothed under a shower 10 minutes, then go out into the backyard and sit in a pool of cold dirty water. The only trouble is the backyard won't bounce.

By this time you are completely lost in a world composed of nothing but cold rain. Nobody ever heard of the little French town you are trying to find. A military policeman, shivering at a road junction, seems a wonderful sight until he says, "Beats hell outa me, Joe. Just got here myself, sorry."

Reach Blown-up Bridge

You cough, sneeze and sniffle along four kilometers until you reach a bridge which the Germans have blown up.

It would be nice to put a happy ending here and say we drove blindly off the blown bridge and everybody was drowned and put out of his misery.

But life is not that way. You turn around in the muddy road slowly, gingerly waiting for the explosion of mines which the Germans always plant thickly around blown bridges.

Everything else is merely a miserable repetition of the foregoing. Until somewhere between midafternoon and midnight you continue the search through a cold rain.

The Unanswerable Question

Finally arriving, you find everything in the new camp soaking wet, too. Then just as you are sloshing around loaded with bedroll, musette bag and other junk and swearing loudly, some lout inevitably says:

"Quit beefing. What if you were in the infantry?"

That is the unanswerable question.

MEXICANS ON TOUR

HOUSTON, Sept. 14. (AP)—On a tour of southwestern colleges, 20 medical students from the University of Puebla, Mexico, visited the University of Texas medical school at Galveston today and return here tomorrow to participate in the Houston celebration of Mexican independence.

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
