85 Killed In Plane Crash Near Tahoe

By BILL STALL
Associated Press Writer

TAHOE VALLEY, Calif., (AP)—Air searchers found the wreckage today of a four-engine plane where it crashed into a Sierra peak, east of Lake Tahoe, killing all 85 persons aboard.

A doctor, taken by helicopter to the remote scene at the 8,800 foot level of a snowy mountain, confirmed there were no survivors.

The Paradise Airlines Constellation vanished in a snowstorm Sunday while carrying 81 passengers to Nevada's casinos and ski resorts on a flight from San Jose, Calif.

Lt. Col. Alexander S. Sherry, deputy commander of the Western Air Rescue Center, Hamilton Air Force Base, told an airport news conference the wreckage was spotted just west of the hamlet of Genoa, Nev.

Just before the conference, a helicopter pilot told The Associated Press the wreckage was found 200 feet below the top of a rugged peak towering among those which rise up to 10,000 feet or more in the ski and gambling playland around Lake Tahoe.

The mountain where California's biggest air tragedy occured is named Genoa Peak.

The spotting helicopter was one of 17 which flew out today over the rugged wilderness scene near the site of the 1960 Squaw Valley winter Olympics.

The plane, loaded to capacity, vanished about noon Sunday. Veteran pilot Henry Norris, 43, had just radioed that he was starting his 27-mile approach down 22-mile long Lake Tahoe to the airport in Tahoe Valley.

It was the first mishap in the two-year-old Paradise Airlines' operation.

In Washington, the Civil Aeronautics Board said it was sending three investigators, headed by George R Baber, to the scene.

The 81 passengers were flying toward a gay Sunday at Nevada's gambling casinos, theaters, bars and restaurants —only two miles from the airport at the south end of Lake Tahoe.

Fifteen other pleasure seekers—who had purchased $15.75 tickets for the 15-mile flight from San Jose—were unable to get seats. They were taken 50 miles to Oakland to board another plane — but were turned back with a report the weather was bad.

Eighteen of the 81 passengers were employes of two discount houses, the Monte Mart in Salinas and the Monte Mar in nearby Monterey.

Snyder Gets Presidency Of Forum

Snyder was selected as the scho l to furnish the president of the West Texas Forum of Student Councils for next year at the conclusion of the Forum's meeting here Saturday.

Schools, rather than individuals are selected, and normally the Forum officers are chosen from the student council officers of the various schools. Big Lake was elected to furnish the vice president, and the parliamentarian will come from Colorado City. The position of secretary is a three-year office, and is presently held by McCamey.

More than 300 students representing 28 schools in West Texas were present for the meeting.

Jack Mashburn, executive secretary of the Texas Association of Student Councils, was present at the meeting, and addressed the 34 sponsors who also attended.

In their discussion groups, the students discussed such items of interest to student councils as workshops, interschool relations, council activities, service to schools, welcoming new students and year-long programs.

In their final business session the student council members selected San Angelo for the fall meeting and Odessa for the spring meeting.

The state convention of student councils will be held in Houston Mar. 19 through 21. The newly-elected officers of the Snyder Student Council and their sponsor, Miss Virginia Groves, are planning to attend this state convention.

School Week Observance Is Underway

Texas Public School Week is being observed across the state and in Snyder.

The week is set aside each year as a time when parents and interested persons are especially urged to visit the schools.

It has been asked that, where possible, visitors abide by the visitation schedule which was furnished each student to take home to his parents. Visitation today is being done in grades 1 and 6.

Grades 2 and 5 will welcome parents and friends Tuesday. Wednesday grades 3 and 6 will have their visitors.

Visitors to the schools this week may, if they desire, have lunch with the students. A charge of 50 cents for the visitors meals will be made.

Snyder Schools will be closed Friday. The teaching staff will be in Midland at the Texas State Teachers Association Meeting.

WEATHER

SNYDER TEMPERATURES: High Saturday, 65 degrees; low, 30 degrees; high Sunday, 66 degrees; low 31 degrees; reading at 7 a.m. today, 33 degrees.

North Central Texas: Partly cloudy and mild today and Tuesday. Windy Tuesday. Low tonight 48 to 58. Low Tuesday 70 to 76.

Northeast Texas: Decreasing cloudiness today with a few showers in east. Partly cloudy tonight and Tuesday. A little warmer Tuesday. Low tonight 50 to 58. High Tuesday 68 to 74.

Northwest Texas: Fair and a little warmer today, cloudy and a little warmer tonight. Mostly cloudy, windy and colder Tuesday with a few showers, mainly in north. Low tonight 31 to 48. High Tuesday 43 to 67.

Coast: North to northeast winds 12 to 22 knots today, diminishing tonight and becoming southeast 8 to 18 knots Tuesday.

South Central Texas: Clear to partly cloudy today and tonight, increasing cloudiness Tuesday. Low tonight 45 to 55. High Tuesday 65 to 75.

Southeast Texas: Partly cloudy today and Tuesday. Low tonight 46 to 54. High Tuesday 64 to 75.

South West Texas: Clear to partly cloudy today, increasing cloudiness tonight. Cloudy Tuesday with a few showers possible late Tuesday. Low tonight 36 to 46. High Tuesday 68 to 72.

Order To Redistrict Texas Affirmed By Supreme Court

'RATHER PLEASED'—President Johnson, speaking at a news conference in Washington, said he is "rather pleased" with what the nation has accomplished in the first 100 days of his administration. (AP Wirephoto)

Panel Hears Witness From Las Vegas

WASHINGTON (AP) — Edward Levinson, Las Vegas, Nev., hotel owner and gambling casino operator, showed up at the Senate Rules Committee today to testify in the Bobby Baker investigation.

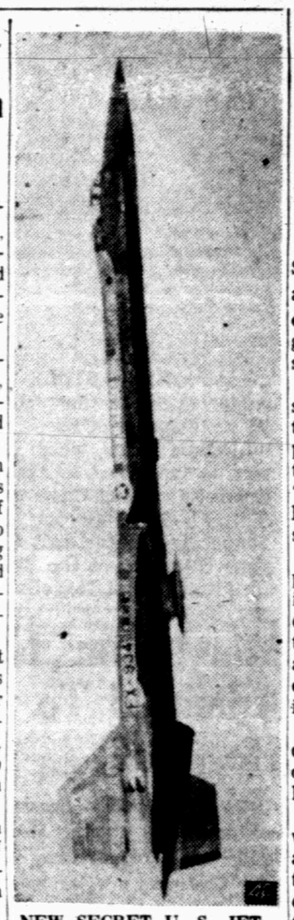

Sen. B. Everett Jordan, D-N.C., the committee chairman, said Levinson came to the committee's office and accepted service of a subpoena.

Testimony from Levinson was scheduled for today's hearing, after questioning of William Kentor, a Chicago meat dealer, about fees being paid Baker on meat imported from a slaughterhouse in Haiti owned by the Murchison interests of Texas.

The committee said last week it had U.S. marshals searching for Levinson and for Benjamin Sigelbaum, a Miami, Fla., real estate operator.

Committee aides said no word had been received from Sigelbaum.

Both Levinson and Sigelbaum are stockholders in the Serve-U Corp., a vending machine company in which Baker has a major interest.

NEW SECRET U. S. JET—President Johnson revealed at his news conference in Washington, the existence of this new U. S. super secret jet fighter plane, designated A-11. He said it far exceeds the performance of any other aircraft in use in the world today. (AP Wirephoto)

Door Open For Delay

WASHINGTON (AP) — The Supreme Court affirmed today a decision that Texas statutes establishing the state's 23 congressional districts are unconstitutional.

The high court said its decision was without prejudice to the right of state officials to apply, by April 1, to the U.S. District Court in Houston for "further equitable relief in light of present circumstances."

The circumstances, the Supreme Court said, include "the imminence of the forthcoming election and the operation of the election machinery of Texas noted previously by the federal District Court in Houston in an opinion."

The high tribunal also ordered continued a stay in the case granted by Justice Hugo L. Black on Oct. 23, 1963.

This stay, the court ordered, will continue "pending timely application" for the relief mentioned previously in today's order and the final disposition of the case by the federal District Court in Houston.

The Houston court, in a 2-1 decision, found the Texas districts invalid, over objections by Gov. John Connally and other Texas state officials. These officials appealed to the Supreme Court asking reversal of the District Court decision.

The high tribunal acted, by coincidence, on Texas' Independence Day. On March 2, 1836, Texas proclaimed freedom from Mexico.

The Supreme Court's unsigned order in the Texas case was followed by a notation that Justice Tom C. Clark, a Texan, joined in today's action, "But upon the grounds stated in his separate opinion" in the Supreme Court's decision two weeks ago in a congressional districting case in Georgia.

The court said in that case that congressional districts must represent the same number of voters, so far as is practicable.

Says Texas May Delay Enforcement

By ERNEST STROMBERGER

AUSTIN (AP)—State officials said today the Supreme Court ruling on the Texas congressional redistricting case apparently allows Texas to delay the enforcement of the ruling until after 1964 elections.

Several officials, who asked not to be quoted by name, said the decision is in line with the state's request to the high court.

The officials said the ruling apparently relieves the state of pressure for a special legislative session at once, to realign congressional district boundaries. Gov. John Connally has said he did not want to call a special session.

In a brief filed shortly after the Supreme Court's Feb. 17 ruling on the Georgia redistricting case, Atty. Gen. Waggoner Carr said "indescribable chaos" would result if Texas 23 congressmen were forced to run in the state at large. Carr asked for a delay of the effect of any adverse ruling until after the elections.

The Supreme Court's ruling, which affirmed the Houston federal court's findings that Texas congressional districts are unconstitutional, jolted a traditional lethargy which has held redistricting to a minimum in Texas for 30 years.

Texas has the largest congressional district in the nation, the Dallas district with close to one million persons.

This district has almost as many people as the combined total of four other districts — 1, 3, 4 and 21—all mostly rural areas where population has declined.

BRITISH LINER CRASH

Team Begins To Remove Bodies

INNSBRUCK, Austria (AP)—Helicopters took Austrian rescue teams to an Alpine ravine today to begin the grim job of removing the bodies of 83 victims from the wreckage of a British airliner which crashed Sunday.

It was one of two crashes Sunday and the third major commercial air crash in five days.

A U.S. Air Force search plane spotted the blackened tail of the four-engine Bristol Britannia Sunday between two peaks.

Austrian officials said the airliner, trying to land through fog at Innsbruck Airport, slammed into 8,800-foot Mt. Gamslahner Spitz southeast of the resort where the 1964 Winter Olympics were held.

The big Turboprop plane, its fuel tanks still nearly half full, apparently struck the mountain at full speed and exploded. Debris and bodies were strewn over a 2,000-yard area in the gully between Gamslahner and Glungezer peaks.

The 75 passengers included 73 Britons bound for a skiing holiday, an Austrian and a Canadian. The airline, International Eagle, said there were 18 married couples aboard and at least five children. The plane carried a crew of eight.

"It is horrible," said an Alpine rescue service member. "Arms, legs and heads are strewn about in the debris. I don't see how we could ever identify the victims."

Tape-recorded messages between the pilot, 40-year-old Capt. E. Williams, and the Innsbruck Control Tower roused suspicions that the plane's altimeters were defective. Williams gave his altitude as 10,000 feet, which would have been well above the peaks.

Dr. Leopold Koehler of the Austrian Civil Aviation Office said Williams, described as one of Eagle's veteran pilots, was given a detailed weather report and told that airport visibility was above international safety limits.

"Apparently the pilot was prepared to land because he did not inform the control tower of any intention to divert to an alternate airport," Koehler said.

Officials at the Innsbruck tower said radio messages from the plane showed the pilot "had everything ready for a landing and then suddenly veered off course."

Court Gets Invitation To Webb AFB

The Scurry County commissioners court this morning received a formal invitation to visit Webb Air Force Base next Wednesday.

Also included in the invitation were members of the county's airport board. Those invited will be the guests of Webb AFB for a luncheon and a tour of the construction areas of the base.

The letter from the Air Force base indicated that the invitation was extended as a mark of their gratitude for the use of Winston Field during the construction at Webb AFB, and also an opportunity to show exactly what the construction there consisted of.

Judge Sterling Taylor and commissioners Bill Hairston, Thayne Mebane and Marion Dabbs indicated that they would accept the invitation. Several members of the airport board will also attend.

In other business the court heard a report from Texas Highway Patrolman Wendell Rehm that a delegation would be calling on the court in the near future to request a drag strip in the county. Patrolman Rehm said he thought the court might like to know of the pending action so that they might give it some thought before the petition is presented.

BROKEN GREEK TANKER

Ship's Survivors Reach Halifax

HALIFAX, N.S. (AP) —Thirty-four survivors of the broken Greek tanker Amphialos arrived in Halifax early today aboard a Canadian warship after a dramatic rescue from the stormy North Atlantic.

Two members of the 36-man Greek crew perished after the 15,800-ton tanker split in two under the battering of gale winds and 20-foot waves off the Nova Scotia coast Saturday. Five of the survivors were taken to a hospital on stretchers.

Capt. Stamantis Polemis, the Amphialos' skipper, said he and his men clung for hours to a rail of the stern section until they were picked up Sunday afternoon by the Canadian destroyer escort Athabaskan. A 300-foot bow section of the 630-foot ship floated away and sank.

The survivors were wrapped in navy blankets as they left the Canadian warship. Most appeared cheerful but tired. They shook hands with the Canadian sailors and in broken English expressed their gratitude.

Asked to confirm the number of men aboard his ship, Polemis said briskly, "We had 36. Now we have 34."

The rescue followed a chance observation by a Canadian air force plane during a training mission. The pilot, Lt. Laurie Friesen, spotted an oil slock about 220 miles southeast of Halifax-presumably from the sunken bow.

"A couple of minutes later we saw two ships," Friesen said. "The nearest was a navy ship-Athabaskan - and about eight miles away was another ship. The second vessel looked different from a normal ship."

As he swooped down, he made out the stern of a ship sticking out of the water.

About That Coliseum

How do you go about building a coliseum and how will it be operated after it is built?

That is a question Scurry County's taxpaying voters may ponder as they prepare to go to the polls March 14 and write their decision on a bond proposal to finance construction of a coliseum.

The first requirement for getting a coliseum built, of course, is community interest —enough to get the issue before the public. That initial requirement was met when a petition with some 1,600 signatures was presented to the commissioners court requesting that the bond election be called.

The second step was fulfilled when the commissioners court called the election in response to the petition. The next step will come March 14 when taxpaying voters make their decision at the polls.

These three steps must be taken before anything else can be done on the project.

If the bond issue is approved, more preliminary work will be required, but all of it will be directly related to actual construction. The commissioners court's next step would be the hiring of an architect to confer with the court and other community leaders to determine exactly the type of building desired so that it may be designed to serve its intended purpose.

Then, of course, there will be such procedures as selection of a site and the awarding of the contract for actual construction.

Once it is constructed, the coliseum will be operated as a public facility, probably similar in manner to operation of the county park system, including the various community centers of the county.

It will fall in the same general category as a park, or community center.

Of course its operation is in the future, regardless. The next step is the bond election.

Eight In School Race At Fluvanna

FLUVANNA — Eight candidates have filed for the school board in Fluvanna.

Three places will be up for election. Those presently holding the positions are K. D. Ball, Paul Turner and R. L. Jordan. All are candidates for re-election.

Also for filing for the school board posts are Ray Herring, W. O. Mathis, Roy Lee Beaver, James E. Beaver and Glenn Toombs.

Deadline for filing is Mar. 4. The election will be held Apr. 4. Absentee voting will be held at the superintendent's office, and will end Mar. 31.

'Ruby Has Deteriorated' Says Defense Psychiatrist

By RELMAN MORIN

DALLAS (AP) — A defense psychiatrist talked with Jack Ruby for more than an hour before court resumed today in Ruby's trial on a charge of murder with malice.

Dr. Manfred Guttmacher, chief medical officer for the Supreme Bench of Baltimore, told reporters he will examine Ruby again and he wants to study the electroencephalograms (brain wave tracings) taken on Ruby.

Guttmacher came to the court with Melvin Belli, Ruby's chief lawyer.

"I think he's deteriorated some," Guttmacher told reporters. "He doesn't look as well as the last time I saw him," Guttmacher examined Ruby Dec. 21 and 22.

"He seems more anxious and more tense," the doctor said.

Judge Joe Brown held defense lawyer Joe Tonahill in contempt of court after an angry exchange between Tonahill and Asst. Dist. Atty. Jim Bowie. He was fined $25.

Tonahill argued with Bowie over a point of law. Suddenly Tonahill took a pencil, broke it and threw the pieces on the floor. They bounced over toward the judge's bench.

Tonahill quickly apologized: "I am sorry, your honor. I got a little provoked."

The judge said quietly, "Mr. Tonahill, I cannot tolerate that."

Belli told the judge Tonahill "has the greatest respect for this court and all courts." Belli said the last time he had risen to defend a colleague who had been cited for contempt of court he found himself also cited. "I don't want that to happen again here," he said.

When he finished speaking, the judge told Tonahill, "I hold you in contempt of court."

The wrangling took place when Belli was examining the day's first prospective juror, George Staton.

Numerous prosecution objections to his line of questioning caused Belli to characterize the state's statements as "the same old hogwash we've been hearing for the last two weeks."

Hill Rites Here Today

Funeral services were to be held at 2 p.m. today at the First Methodist Church for Mr. Charlie Hill, 84.

Born Dec. 26, 1879, in Bowie County, Mr. Hill moved to Scurry County in 1929. For the past 12 years he had been a resident of a Roscoe nursing home.

Mr. Hill died at 3 p.m. Saturday at Cogdell Hospital.

The funeral services were to be conducted by the Rev. Harry Vanderpool, pastor of the church with burial in Snyder Cemetery under the direction of Bolger Funeral Home.

Mr. Hill is survived by two daughters, Mrs. R. N. Corbell of Snyder and Mrs. John L. Daniels of Stanton; two sons, C. I. (Bunker) Hill of Snyder and Leslie A. Hill of Lubbock; one brother, David Hill of Wichita Falls; 18 grandchildren and 27 great-grandchildren.

Billie Sol's Associates Behind Bars

AMARILLO (AP) — Two former associates of promoter Billie Sol Estes, himself bankrupt and under prison sentences, started serving their time behind bars Sunday night.

It was the end of a fight to stay free which began nearly two years ago for Coleman McSpadden, 47, of Lubbock and Ruel W. Alexander, 36, of Amarillo.

Along with Estes they were arrested March 29, 1962, on charges of mail fraud, based on dealings in mortgages secured by non-existent farm fertilizer tanks.

Estes, 39, under $140,000 in bonds, remains out of jail pending the outcome of appeals against state and federal prison terms totaling 23 years.

McSpadden drew 10 years in the penitentiary and Alexander six years on guilty pleas. Along with Harold E. Orr, 33, of Amarillo, also sentenced to 10 years, they were allowed to delay going to prison as long as they remained available to testify against Estes.

Orr was found dead Friday with the engine of a car running in a closed garage at his home, and a doctor said carbon monoxide poisoning caused death. A coroner's jury is due to weigh an inquest verdict Wednesday.

McSpadden and his wife drove here Sunday from Lubbock. After visiting the Alexander home, the two men called on the widow and parents of Orr before surrendering to Deputy U.S. Marshal Glenn Beaver.

They were lodged in the Potter County jail. Federal authorities would not say where the prisoners will be sent or when the transfer will be made.

It appeared likely that they will remain here until the March 16 trial of Robert E. Clements, 69, at Wichita Falls.

Clements, one of the founders of the Townsend old-age pension plan, sold Superior Manufacturing Co. in Amarillo to Orr, McSpadden and Alexander. He was convicted of stealing a $37,690 check from the firm but recently won a new trial.

Stolen Car Is Recovered Here

Snyder city police officers recovered a 1959 Chevrolet here at 9:19 p.m. Sunday which had been reported stolen in Merkel.

The theft was reported at noon Sunday, and the information put out on the police department's teletype network. Charges are to be filed in Merkel in the case.

Five Area Mishaps Are Investigated

Snyder police were searching this morning for the driver of an auto which was involved in a hit-and-run accident at 10:30 a.m. in the 1100 block of Thirty-fifth Street.

Floyd (Dad) Wellington, a pedestrian, was taken from the scene of the accident to Cogdell Hospital by Bolger Ambulance Service. He was not believed to be seriously injured.

The Texas Highway Patrol investigated two mishaps early this morning.

At 3 a.m. a 1957 Ford driven by Lorenzo (Bobby) Garcia struck an embankment at Thirty-seventh Street and Avenue C and overturned. The driver was taken to Cogdell Hospital by Bell Ambulance where he is said to be suffering from numerous cuts and bruises.

Investigating officers said that Garcia was being pursued by city police officers and was headed south on Avenue C. He also was reported to be driving without headlights.

The Highway Patrol also investigated a mishap just north of the county barn on the Ennis Creek Road. The mishap occurred about 2 a.m., and involved a 1955 Chevrolet driven by Gerald Wayne Sharp, Rt. 3, which went through a fence, out into a field, back through the fence onto the road, back through the fence into the field, back onto the road, and finally came to rest across the fence. There were no injuries in the mishap.

The Snyder police department also reported a car-truck mishap at 6:01 p.m. Sunday at Twenty-fifth Street and Avenue C. Involved were a 1962 White trailer-truck driven by Merle E. Lawson of Burleson and a 1958 Ford driven by Sandra June McFarland of Lubbock.

Damage to the car was estimated at $250. The truck was not damaged and there were no injuries.

At 10:03 a.m. today the department investigated a mishap at Twenty-first Street and Avenue T. Involved in that mishap were a 1951 Cadillac driven by Samuel B. Compton, 2700 Twenty-first Street, and a 1950 Ford driven by George Ray Ritchie, West Twenty-first Street. Each car suffered an estimated $75 damage. There were no injuries.

CHAMPIONSHIP STOCK went on the auction block Saturday as exhibitors in the Junior Livestock Show sold their animals to the highest bidders. Here Charlie White, manager of Furr's Super Market looks at the Grand Champion lamb shown by Dennie Belew, which his store bought for $2.20 per pound. The reserve champion lamb, shown by Weldon Beck, brought $1.15 from Jess Everett. Connie Robinson's Grand Champion steer sold for $1.10 to the Diamond M Foundation; Sahala Eicke's Reserve Champion went to Snyder National Bank for 65 cents per pound. Terry Sterling's Grand Champion barrow sold for $1.75 to McCormick & Sons Oil Co., and the Reserve Champion barrow, shown by Luann Parks, sold for $1.09 to West Texas State Bank.

MacArthur Is Admitted To Hospital

NEW YORK (AP) — General of the Army Douglas MacArthur flew by plane today to enter Washington's Walter Reed Army Hospital for "observation and evaluation of abdominal complaints," an aide said.

The spokesman said the general flew in a military aircraft and was accompanied by his wife and Maj. Gen. Courtney Whitney, an aide.

Further details were not learned of the illness of the soldier who celebrated his 84th birthday Jan. 26.

MacArthur underwent a prostate operation at New York's Lenox Hill Hospital in January 1960.

He recovered rapidly from that and since has led an active life.

In the summer of 1961 he went to the Philippines to revisit World War II scenes and last year the late President John F. Kennedy appointed him to arbitrate a dispute between the Amateur Athletic Union and the National Collegiate Athletic Association over eligibility requirements for Olympic athletes. He effected a settlement.

Of late he has accepted his advancing years philosophically.

On leaving the Philippines in 1961, he commented that his visit there was his last.

Recharging Of Wells On Schedule

Recharging of a portion of the well field in Martin County is progressing on schedule for the Colorado River Municipal Water District.

Through Thursday, two months had passed since the experiment in storing lake water nearer Odessa for peak summer demands was started. O. H. Ivie, assistant general manager, said 85 million gallons had been injected into two wells, an average of about a million and a half counting lost time in handling a sand problem in one well. He hopes another 80 million can be stored by April 27.

With the exception of the sand, occasioned probably by a zone being long dewatered, no serious obstacles to the reinjection have yet appeared.

Contract has been awarded to F. C. Wheeler Drilling Company of Stanton to sink three wells to a depth of about 175 feet for recovery purposes. These 14-inch holes will be put at a lower elevation, about a half a mile from the injection wells, in order to intercept and recover any migrating injected water. So far, the water level has been increased only one foot half a mile from the injection wells. At the wells, it has come up 10 feet.

The contract calls for $2,850 for the first well, including 30-feet of bottom screen and 145 feet of casing. Subsequent wells will be $100 less. Additional depth will go at $9.50 per foot.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Our son's wife just produced a third son. They named their first after my son, Thomas. They named their second son after her father, Richard. Naturally, the boys are called "Tom" and "Dick." Now, just because of that silly expression, "Tom, Dick, and Harry," they went ahead and named the third little fellow "Harry." I thought it was disgraceful and told them so. They think it's cute. I would like your opinion. This is no gag.

DISGUSTED

DEAR DISGUSTED: Harry is a good solid name, and I see nothing "disgraceful" about it. Some years ago, a woman in Trenton, New Jersey gave birth to triplets, which she named "Eenie, Meenie and Mine-ee" because she said there wasn't going to be any "Moe." (This is no gag, either.)

• • •

DEAR ABBY: I found a young girl's picture in my husband's wallet. He said she was a girl he danced with at a bar in town. To prove himself, he took me there, pointed her out, and then danced with her once, "just to talk to her." Afterwards he brought me home, pledged his love and tore up the picture. The next night he was out 'til 4 o'clock in the morning. When he was asleep, I checked his wallet and found another picture of the same girl. Also her telephone number. After he left for work, I called her. He had told her he was single, that I was a neighbor who kept his bachelor apartment clean, and whom he had taken out just to be nice. Abby, I love him. Should I give him a divorce so he can marry her? Or should I live with him for the sake of our two babies, and sleep apart?

VERY VERY HURT

DEAR HURT: Don't assume he WANTS a divorce. Tell him what you know, and insist that he accompany you to your clergyman, a marriage counselor, or to The Family Service Associaion, which has qualified counselors. Sleeping apart will only provide him with an excuse for sleeping elsewhere.

DEAR ABBY: I know that I would make a very good salesman, but I can't get a job. Everywhere I apply I am told that they are looking for a young man with experience. Abby, how can I get experience if no one will hire me? I can sell anything.

NO EXPERIENCE

DEAR NO: You cannot "sell anything" if you can't sell yourself. A man is not likely to hire a person to sell for him if that person takes "no" for an answer, without attempting to convince him to say "yes."

• • •

DEAR ABBY: How true it is that kissing someone who has no teeth is nothing. I am the one without teeth (occasionally) and my husband tells me that kissing me when I do not have my dentures in is like drinking flat beer.

SOMETIMES TOOTHLESS

Areas Get Heavy Rains

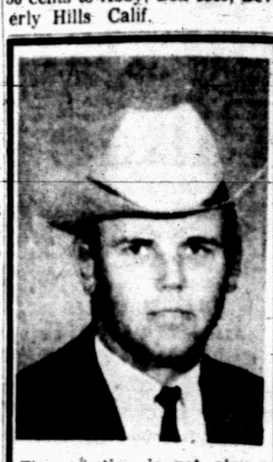

By The Associated Press

Heavy rains soaked sections in the eastern half of Texas today as a tornado alert period passed with no twisters reported.

A 2.61 inch rain drenched Lufkin with .70 of the total falling within an hour. Sherman reported 1.36 inches. Numerous points reported lesser amounts.

The southeast corner of the state was under a tornado alert but the 9 a.m. deadline passed with no twisters being reported.

The Weather Bureau warned in a special 3 a.m. advisory against a few severe thunderstorms and a tornado or two in a sector 100 miles wide and centering on a line from Beaumont to 40 miles north of Baton Rouge, La.

The question is not always where do we stand, but in what direction are we going. Your vote for Clarence L. Minton is a step in the right direction.

FATHER-DAUGHTER BANQUET — Nearly 300 persons attended the Girl Scout Father-Daughter banquet held Friday evening in the High School cafeteria. Each girl prepared a meal and brought it in a gayly decorated box for her father and herself. A small stage bedecked with flowers and plaques was erected in the center of the room. Each girl took part in the program. Pictured above are: seated from left, Miss Fane Downs of Abilene, district advisor, Mrs. Austin McCloud of Colorado City, area advisor, and Miss Harriet Redwine of Abilene, assistant district advisor. Standing, Melvin Newton, special guest, Patty Smyth, mistress of ceremonies, Chere Reneau, who was presented a First Class Rank Award (She has received 10 badges in her three years as a member) John Boren, local treasurer, and Mr. Austin McCloud of Colorado City, board director.

Miss Austin, Mr. Haigwood Wed In Colo.

Miss Ginger Annetta Austin became the bride of A 3-c Buddy Ray Haigwood on December 14th at 8 p.m. The bride is the daughter of Mr. and Mrs. Garth Austin and A 3-c Haigwood is the son of Mr. and Mrs. Herman Haigwood.

The ceremony was performed in Chapel No. 4 at Lowery Air Force Base, Denver, Colorado. Chaplain Richards, captain of United States Air Force performed the rites.

The bride wore a formal gown of chantilly lace over satin. The neckline was adorned with tiny seed pearls similar to those atop her crown-type tiara which held her bridal veil of peau de soie. She carried a Bible topped with white roses. The wedding gown was something borrowed, she wore a blue slip, carried an old handkerchief belonging to a friend, and a new penny in her shoe.

Ushers were dressed in formal blues.

Miss Kay Irwin of Ohio was maid of honor and carried a long stem red rose.

Best man was A 3-c Richard A. Weir of Wisconsin.

The traditional wedding march and recessional was played.

Mrs. Haigwood was graduated from Snyder High School in 1963. Prior to the wedding she was employed as an assistant laboratory technician at Cogdell Memorial Hospital. She is now employed at the Childrens' Hospital as a laboratory receptionist in Denver, Colo.

Haigwood was graduated from Snyder High School in 1962. He is stationed at Lowery Air Force Base, Denver Colo., and attending Tech school.

The couple are at home at 1525 Madison, Denver, Colo.

Mr. and Mrs. Buddy Haigwood

Ladies Golf Assn. To Elect Officers Tuesday Meeting

The Ladies Golf Association will hold election of officers at a noon meeting to be held Tuesday at the Country Club.

All members and prospective members are urged to attend.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem. The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It feels like nothing on but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim" is the peak achievement of the designer-genius, Olga.

Be "Suddenly Slim" today in either girdle or panty version. Featured at

Cornbread & Light Bread
Green Salad w-Spinach
Peanut Butter Cookies
Milk

You'll shorten the stirring time if, when you make a soft custard sauce you heat the milk before combining it with the eggs and sugar.

BACKACHE & NERVE TENSION SECONDARY TO KIDNEY IRRITATION

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondarily, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at druggists. Feel better fast.

Freedom Vs. Communism

Mao Tse-tung became Dictator of the Chinese Communist Party in 1936.

Already they have their satellite system in their control of North Korea, North Vietnam, and Tibet. Chinese Communists plan to take over all of Asia, including Taiwan, South Korea, South Vietnam, and eventually Japan and the Phillipines.

WOMEN'S CALENDAR

TUESDAY

Ladies Golf Association meets at Country Club. 18-hole tee-off 8:30 a.m., 9 hole tee-off, 9 a.m.

Duplicate Bridge at 2404 Forty-second Street. Open to players with less than 20 masterpoints.

Martha Ann Ladies game day, 9:30 a.m.

Twentieth Century Club, 3 p.m. at Martha Ann Woman's Club. Helen Clemmer, hostess.

Lambda Kappa Chapter of Beta Sigma Phi meets with Linda King and Fran Shamburger, hostesses, and Jacque Ayers, program.

Art Guild Study Club, 7:30 p.m. at Martha Ann Clubhouse. Dell Smith, hostess.

W. W. Club meets with Mrs. Iva Woodson, 600 Twenty-fourth Street at 7 p.m.

Snyder TOPerettes meet at 7 in Stanfield Elementary cafeteria.

WEDNESDAY

Cosmorama Club, 3:45 p.m. at Martha Ann Woman's Club. Tizzy Hall and Charlene Erwin, hostesses.

Altrurian Daughters Club meets at 2:30 p.m. at Martha Ann Woman's Club with Mrs. Jake Greene, hostess.

Acacia Study Club meets at 3:45 p.m. at Martha Ann Woman's Club with Mrs. William Henderson, hostess.

THURSDAY

Snyder Garden Club, 10 a.m. for workshop at Martha Ann Woman's Club. Mrs. John O'Banion Jr. hostess.

Gamma Upsilon Chapter of ESA meets with Lucille Kiker, hostess.

City Council P-TA meets at 1:30 p.m. at school administration building.

FRIDAY

Duplicate Bridge at Country Club, 9:30 a.m. Open.

Family night at Snyder Country Club, 8 p.m.

Country Cousins Square Dance Club hosts to Squararama. Jack Anderson of Stinnet, caller.

El Feliz Club meets at 2:30 p.m. at Union Community center with Mrs. H. L. Wren, hostess.

SATURDAY

Squararama at National Guard Armory.

SUNDAY

Buffet luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 5 p.m. Saturday.

Want a "different" stuffing for deviled eggs? Mash the egg yolks (removed from the halved hard - cooked eggs) with butter and Roquefort cheese. Season to taste and pile the stuffing back into the cavities of the egg whites. Ruffle with a fork and sprinkle with paprika.

AAUW Has Workshop In Lamesa

The Lamesa Branch of the American Association of University Women were hosts Saturday to Area II, Texas Division workshop. The workshop boasted 100 per cent membership in attendance with members present from Abilene, Sweetwater, San Angelo, Big Spring, Seminole, Brownfield, Tahoka, Kerrville and Snyder.

The meeting was held in the Caprock room of Turner's Grill. Fellowship and coffee began promptly at 9:30 a.m., closed at 10 a.m. with the workshop getting enthusiastically underway at that time and gaining momentum as the day progressed.

Mrs. Allena Pace of San Angelo was director. She gave the purpose of the meeting and was followed by Miss Georgia Griffith of Kerrville, aid to the president, who challenged the group with an overview of the aims, purposes and accomplishments of AAUW.

Members then divided into three groups and set to work, to study, and to come forward with new approaches; to work out the emerging issues, or problems of local interest. These will in the final analysis help to frame the topic to be studied by the association in 1966-68.

This procedure is the unique history of the 75 years of the association. Here-to-fore topics for study for the biennium were chosen by the administrative board, working internationally, nationally and state-wise. Plans include ideas, ideals and ideologies beginning on local level, with each member participating in the planning.

At the noon hour, a delicious meal was enjoyed by the 59 present. Mrs. Andrew Essary, president of the Lamesa branch presided, with Lamesa members giving the invocation and the devotional.

The conclusions of the workshop will be studied along with those of the other seven Texas division areas, at the State Leadership Training Conference to be held in Austin, March 20-21.

The final Area II conference will be held in San Angelo May 16.

Members from Snyder attending were: Laura Holladay, Nellie Smith and Lida Rhoades.

SHS Class Of 1944 To Plan Reunion

The Class of 1944 of Snyder High School will meet at 7:30 p.m. Tuesday at Martha Ann Woman's Club to make plans for the 20th reunion to be held the second weekend in July.

All graduates or those that would have graduated, since this was during the war and some were in service, are urged to attend.

WHAT'S GOING ON

Mr. and Mrs. Gene Prestridge, 215 Twenty-sixth Street, and Mr. and Mrs. Ira Riggs, southwest of city, attended the funeral of an aunt, Mrs. Cora Tanner at Mineral Wells over the weekend.

Tempt winter - jaded appetites with a favorite summertime dessert like peach or strawberry shortcake. Prepare biscuit dough, adding a little sugar with the enriched flour and other dry ingredients, if you wish. Bake the biscuits, split and fill with thawed frozen peaches or strawberries and top with whipped cream.

TIME OF DECISION

After 100 Days In Office Johnson Still Moves Slowly

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — After 100 days in office President Johnson is still feeling his way in foreign affairs, with Congress, with the press, and in his own reaction to criticism.

He reached his 100th day Saturday but, while he searches, his standing in the public opinion polls is very high.

Johnson, an old Congress hand with 24 years in House and Senate, has seemed most sure with the men in the Capitol, and most successful. He still faces big tests there.

He got off on the right foot by promising economy and offering a budget lower than President Kennedy's of last year. This pleased Congress, which rammed through a tax-cut bill for him, largest in history, and a foreign aid bill not too skimpy to live with.

A major test of Johnson's leadership with Congress will be in trying to get through intact the civil rights bill he asked.

He also called for a program of medical care for the aged and a war on poverty.

He will be a miracle man if he can get approval of medical care and the war on poverty will be long drawn-out.

Foreign problems multiplied for Johnson faster than for Kennedy in the same length of time. Riots in Panama, trouble with Fidel Castro in Cuba, an ugly, deteriorating war in South Viet Nam.

Johnson has shown extraordinary sensitivity to criticism, although it got under other presidents' skins too. But Johnson reacted to it early in such an exaggerated way that this got him more criticism.

Several weeks ago he was so incensed at his critics—of whom Republicans were the severest—that he bracketed them with "our other enemies." This could be interpreted as meaning that criticizing him was disloyal.

After he got a fresh going-over for that, he shifted ground and last week was calling for patient understanding of his critics.

Ever since taking office Johnson seems to have been seeking a way to handle the press. He would talk with newsmen individually or call a sudden news conference with the few reporters who happened to be in the White House at the time.

But for 100 days he avoided the kind of live, televised news conference which Kennedy, with his ease and quickness, made a delight even if it wasn't always newsworthy.

For a month, until Saturday, Johnson did not meet with the press at all. The questions intensified: Why? On Saturday he finally had a live, televised meeting with a pack of reporters, a meeting announced a day ahead of time.

He did not say much. He talked mostly in generalities. And he made it clear this kind of conference was not going to be the rule. He said he would hold one occasionally but meanwhile would talk to reporters in other ways.

Columnist Opens His Mail Again

By HAL BOYLE

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

American working girls are going to town in a big way. Around 1900, one out of five employed women earned her pay on a farm or ranch. Today only one out of 40 does.

But the women are getting more valuable—they now are buying 20 per cent of all new life insurance policies issued in this country.

It has been found that dogs reflect the personalities of their owners. Cats, on the other hand generally lead their lives according to their own sense of discipline.

Fire is man's most warming friend—and still one of his most expensive foes. Annual property losses from fire have exceeded a billion dollars a year for the last seven years.

In ancient Greece, Aristotle once counted the teeth of his housekeeper and those of a male servant. He found the woman had four fewer teeth, so for hundreds of years it was taken for granted that men had four more teeth than women.

Our quotable notables: "A fanatic is someone who can't change his mind and won't change the subject" — Winston Churchill.

Japan is building a new $20-million imperial palace. It will have an underground garage for 150 cars, a dining room that will seat 500 persons and a front garden that will accommodate 18,000 persons for afternoon tea.

Folklore: To cure a sore throat, tie around your neck at bedtime a stocking you have worn during the day. If you trim your fingernails on Friday you won't have a toothache for a week. Wearing a silver ring will help protect you from fits.

Woodrow Wilson was the first U.S. president to earn his doctoral degree the hard way. His thesis on congressional government, published in 1884, ran into 15 editions and won him a Ph. D. from Johns Hopkins University.

The American Medical Association has warned that those who imbibe up to eight highballs daily may develop fatty liver no matter how well-rounded their diet.

Quickies: A tobacco seed in five months can produce a plant 20 million times its own weight. Insomnia is a problem to one out of two people. Five out of six nudists are male.

It was Francois Rabelais who said in his last will and testament, "I owe much; I have nothing; the rest I leave to the poor."

Mexico Stock Sales Up

MEXICO CITY (AP)—Trading on the Mexico City Stock Exchange increased 700 per cent during the first two months of this year compared to 1963, the weekly financial newsletter Inside Mexico reports.

It said the Mexican exchange was the world's fastest rising last year and predicted it would reach new heights this year.

More than 1,750,000 shares were traded in January and February, compared to 223,014 for the corresponding months of 1963, the publication said. It said last year's total was 2,035,591 shares.

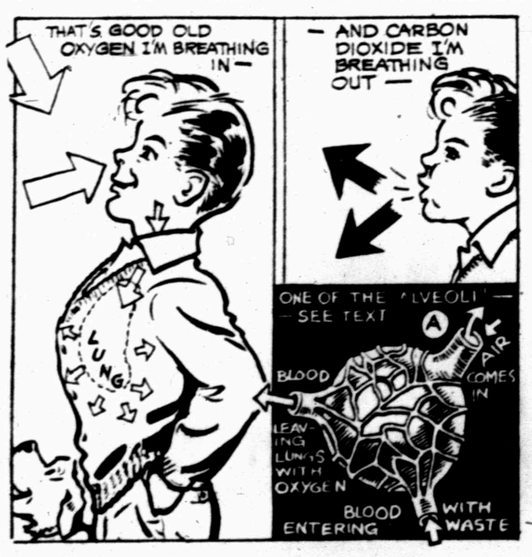

If the current trend continues, the publication said, more than 10 million shares will be traded this year.

Sniffs Glue, Boy Jumps To Death

NEW YORK (AP) — Police say a 15-year-old Bronx boy apparently tried to leap 15 feet between the roofs of two buildings and plunged five stories to his death.

An open tube of airplane glue, which has a narcotic effect when sniffed, was found on the roof from which Michael Vance apparently jumped, police reported. His body was discovered Sunday atop a store between two tenements near his home.

Junior Editors Quiz on BREATHING

QUESTION: Why do we need lungs?

• • •

ANSWER: The air around us is full of the gas, called oxygen. This is very fortunate for us, because the living cells in our bodies must have oxygen—without it, they would quickly die. Oxygen combines with the carbon in our food in a process called oxidation; it is related to the burning of a substance to give out a great deal of heat and energy. The kind of oxidation going on inside us does not burn us like fire, but it does give off heat and energy, both of which are necessary—one to keep the body warm, and the other to give us the vigor and drive we need in order to lead our lives. After the oxygen and carbon have burned inside us, carbon dioxide is left; but we do not need this, and we breathe it out, as Harry is doing in the drawing.

Our lungs are needed to transfer the oxygen in the air to the minute cells which make up the body. Inside the lungs are millions of tiny air sacs called "alveoli" one of which we show. A network of tiny blood vessels surround each sac and these pull the oxygen through the thin sac walls and start it on its way through the bloodstream. Alveoli also collect unneeded carbon dioxide, so we can breathe this out (A)

• • •

FOR YOU TO DO: Would you say that the carbon dioxide we breathe out is then wasted? If you say yes, you are wrong. Plants take much of the carbon dioxide and use it in photosynthesis, the process by which they manufacture vital food stuffs, such as starches and fats. 3-2

(Sheryl Hansen of Greeley, Colo., wins today's grand prize of a 20 volume set of the World Book Encyclopedia for this question. Mail yours on a postcard to Junior Editors in care of this newspaper, and you may win a set too.)

Six Former Champs In State Meet

By The Associated Press

Six former champions are in the field that goes to Austin this week for the Texas schoolboy basketball tournament. Four of them will be among the favorites for 1964 titles.

Houston Austin, which will enter the Class AAAA tournament with the top record—35-1—was state champion in 1961. Fort Worth Haltom, Dallas Adamson and San Antonio Lee furnish the opposition.

Two ex-champs are in the Class AAA tournament—Clear Creek, which won last year, and South San Antonio, the kingpin in 1961 Graham and Kilgore are the other teams.

Canyon, which might well be the favorite in Class AA, was Class A champion in 1950. Lancaster, Sour Lake Hardin-Jefferson and San Diego are the other three in the Class AAA division.

There isn't a champion in the lot in the Class A tournament teams. Talco, which took out defending state champion West Sabine in the regional tournament, will rate the favorite's nod in this division. It will have Sanford-Fritch, Henrietta and East Chambers to contend with.

McAdoo, with a 33-3 record and four starters back from the team that won the Class B title in 1963, will be an easy choice to repeat. McAdoo has been a two-time state champion.

Opposing McAdoo's efforts will be Hawley, Celeste, Frankston, the state champion in 1961, Hutto and Wall.

All-state players are quite numerous among the tournament teams. Haltom has Billy Arnold, Austin has Ken Spain and San Antonio Lee has Larry Miller.

There also are three all-staters in Class AAA—Mike Lochner of Graham, Jimmie Dale Lenox of Clear Creek and Larry Black of South San Antonio.

Lenox, a member of the famous basketball clan that includes Bennie, star of Texas A&M, makes Clear Creek a favorite to again win the AAA championship, something it did last year on its seventh trip to the state tournament.

Season records of the state tournament teams:

Class AAAA—Haltom (25-4), Dallas Adamson (25-4), Houston Austin (35-1), San Antonio Lee (27-4).

Class AAA—Graham (20-3), Kilgore (24-3), Clear Creek (24-6), South San Antonio (32-3).

Class AA—Canyon (28-0), Lancaster (28-4), Sour Lake (28-5), San Diego (28-2).

Class A—Sanford-Fritch (28-5), Henrietta (25-2), Talco (32-4), East Chambers (21-7).

Class B—McAdoo (33-3), Hawley (32-5), Celeste (30-6), Frankstaon (34-5), Hutto (24-5), Wall (26-6).

Pascual Is Demanding 10-G Hike

By JOE REICHLER
Associated Press Sports Writer

MIAMI (AP)—Camilo Pascual, the refugee from Cuba who has made Miami his permanent home, threatened today to stay there all summer unless the Minnesota Twins agree to his demand for a $10,000 increase in salary.

The 30-year-old pitcher, who is generally regarded as the best right-hander in the American League, twice has returned a proferred contract calling for $40,000. This represents a $2,000 increase over his earnings last year when he won 21 of 30 decisions and led all pitchers in his league with 202 strikeouts.

"I think I'm entitled to a good sized increase," Pascual said. "I have won 20 or more games two straight years and in the last three I led the league in strikeouts. Right now I'm at my peak. If I don't make it now, when will I make it? When I'm 40?

"After I sent back the contract for the second time, Mr. Griffith (Twins' President Calvin Griffith) called me on the telephone and said I was money hungry.

"I am asking for the $10,000 raise not only because the club made money last year," he said, "but also because I produced. I reminded Mr. Griffith that I won 21 games although I was out more than three weeks because of a shoulder injury.

"Do you know what was his answer? He said, 'the kind of money you're asking, you should win 30 games.'"

Among the currently active pitchers whose salary is reputed to be above the $40,000 mark are Whitey Ford, Warren Spahn, Don Drysdale, Sandy Koufax, Jack Sanford, Bob Friend, Ralph Terry and Lew Burdette.

"I'm not mad at Mr. Griffith," insisted Pascual. "I told him that before he hung up. I told him if he wants me to pitch this year, then pay me what I'm worth. If not, I'll just stay home."

THE GLOVE AND THE KNUCKLERS—The Chicago White Sox have knuckle ball pitchers Hoyt Wilhelm, left, and Eddie Fisher and the king-size glove held by manager Al Lopez for catching the tricky pitch. Major leagues are considering outlawing the glove, but, it will be used this year by the White Sox. Batterymen are in their training at the Sox camp at Sarasota, Fla. (AP Wirephoto)

Baylor, Aggies Appear Top Border Olympics Entries

LAREDO (AP)—Texas track legions looked toward Laredo today as Baylor arose as chief challenger to Texas A&M for the Border Olympics championship.

The Golden Bears, with a glaring point potential in the field, swept up the Southwestern Recreation meet at Fort Worth last weekend, beating Abilene Christian, the defending champion here, quite badly.

As a result, Abilene Christian faded as the projected favorite in this meet under the Rio Grande stars next Saturday night.

Texas arose as another stiff challenger when it captured a triangular meet with Texas A&M and Rice. But the Aggies appear to have a better chance here and probably will be the favorites.

A record-shattering meet is anticipated here. Half a dozen universities — Houston, Rice, Baylor, Texas A&M, Abilene Christian and Texas—along with nine colleges, headed by powerpacked Texas Southern, and 10 junior colleges will swing into town Friday for the start of the big cinder show.

Then there will be 50 or more high schools, with Baytown defending its championship. The schoolboy class could contribute mightily to the record parade.

Entered in a golf meet which starts Thursday are 13 high schools, with Corpus Christi Carroll defending its championship, and 16 colleges and universities, featuring Houston.

The overall shot put record appears to be in the most danger. Danny Roberts of Texas A&M already has pitched the steel ball 58 feet 9 inches and Jim Lancaster of Baylor has tossed it 57-3. The record is 57-5¾.

Loy Gunter of Texas should wipe out the 880-yard record of 1:52.7, Richard Romo of Texas could endanger the mile mark of 4:09.2, Roberts and Roger Orrell of Abilene Christian might tumble the discus record of 167-9 and Billy Foster of Southern Methodist, who won the 100 at Fort Worth Saturday in a blustery 9.5, might take dead aim on the Border Olympics record of 9.4.

George Hunt of Texas Southern equalled the record for the 880-yard run in the college division—1:53.2. He did it while Texas Southern was wiping up the opposition in the Southwestern Recreation meet. David Harris of Texas Southern broad jumped more than 24 feet and the overall record here is 24-9.

Howard County, the national junior college champion with probably its best team yet, should sweep up the junior college division and contribute quite a few records, including Bob Parker in the high hurdles, the 440-yard relay team, the mile relay team, Steve Langham in the 440 and A. J. Williams in the broad jump. Gilbert Smith of Blinn should trim the 220 record.

Warren McVea, more noted as a football player but a crack sprinter, might do something with the high school dash record of 9.6. McVea is from San Antonio Brackenridge. Walter Reyna of San Diego may take down the mile record of 4:19.9, Gary Hobson of Kermit the pole vault mark of 13 feet and Gerald Holtzman of Corpus Christi Ray the discus record of 162-10¾.

Pressure Is On Wichita Tonight

By The Associated Press

The pressure is on fifth-ranked Wichita tonight. The Shockers must defeat last-place North Texas at Wichita to share the Missouri Valley basketball crown with Drake and set up a playoff for an NCAA tournament berth Friday night at Kansas.

Another sellout crowd will watch Ralph Miller's club seek Wichita's first Valley basketball title since the school entered the league in 1945. Drake's Cinderella club—last a year ago—clinched at least a share of its first Valley basketball title since 1939 by beating St. Louis 56-50 Saturday at Des Moines. Wichita clipped Tulsa 98-79 to keep pace.

Drake wound up regular season play with a 10-2 league record and 20-5 season mark, best in school annals. Wichita is 9-2 in the Valley and 20-5 for all games. The Shockers were second in 1954 with 8-2 and finished 27-4 after losing in the National Invitation Tournament at New York.

The playoff, if held at the 17,000-seat Kansas Fieldhouse in Lawrence, would be a site about halfway between the two schools. Drake likely would get an NIT bid if it loses, but Coach Maurice John says "we're not even thinking about the NIT." The winner goes to the NCAA Midwest Regional at Wichita March 13-14.

Wichita was banned from the NIT for two years—but not the NCAA—and fined $1,000 last Aug. 29 by the Valley for a recruiting violation.

The North Texas game and the playoff, if held, will close the career of Ernie Moore, ballhawking Wichita backliner who has a 17.5 scoring mark for six second semester games.

The NCAA has ruled him ineligible for its tourney because his competition must be completed within three seasons, with one year permitted for red shirting, or withholding from competition.

Wichita's All America candidate, Dave Stallworth, hit 32 against Tulsa and needs 27 tonight for his second straight Valley scoring crown. Ron Bonham of Cincinnati scored 33 in his team's 104-91 victory over North Texas to finish with a 24.2 average for 12 league games. Stallworth is 24.0. Bill Kusleika of Tulsa made 37 and finished at 21.9.

Louisville lost at Ohio U. 88-79 and Bradley won at home from Northern Michigan 83-66 in games against outside teams Saturday.

The regular schedule closes with St. Louis at Kentucky tonight, Xavier vs. Cincy at Cincinnati Gardens Wednesday and Bradley at St. Louis Saturday.

SWC Goes Into Final Week's Play

By HAROLD V. RATLIFF
Associated Press Sports Writer

They wrap up the Southwest Conference basketball season this week, even if there is a playoff.

The playoff doesn't appear likely. Texas A&M, leading the race by two games over Texas Tech, would have to lose both its remaining tests—against Texas Christian at Fort Worth Tuesday and Texas at College Station Thursday.

In addition, Texas Tech would have to win its last two games—against Rice at Lubbock Tuesday and Baylor at Waco Thursday.

If that should come about, Texas A&M and Tech would clash at Dallas Saturday to determine the NCAA representative for the Midwest regional. This will be in Dallas Monday night when the Southwest Conference representative plays Texas Western and Creighton meets Oklahoma City University.

The Aggies beat Texas Tech 82-70 and Southern Methodist 75-70 last week to clinch at least a tie for the championship. They can sew it up by beating winless Texas Christian Tuesday night. They could even lose that one should Texas Tech stumble before Rice.

Tech beat Arkansas 87-86 Saturday night to stay in the running for a share of the title.

There are eight games closing out the campaign this week. In addition to A&M's and Texas Tech's two, SMU and Baylor tangle at Dallas while Arkansas and Texas play at Austin Tuesday. Southern Methodist and Rice close out at Houston and TCU and Arkansas meet at Fayetteville Thursday.

CHECKING LEG STRENGTH — Jerry Lynch, Pittsburgh Pirates outfielder, takes his turn in getting his legs checked for strength as all players under go the test at spring training camp in Ft. Myers, Florida. The multiple angle testing apparatus is operated by Jay Bender, professor of physiology at Southern Illinois University. It is primarily a check to determine any deficiency in leg strength from former injuries. (AP Wirephoto)

Class AAA All-State '5' Picked

HOUSTON (AP) — The 1964 Class AAA all-state high school basketball team named by the Texas Sports Writers Association today.

And if members of the mythical team ever got together on one court, it theoretically could average more than 104 points a game.

Jimmie Lenox of Clear Creek, Mike Lochner of Graham, Bruce Hurt of Seguin, Larry Black of South San Antonio and Gary Sibley of Hurst Bell make up the first team.

There were no unanimous selections. Black, South San Antonio's two-year scoring leader, was top vote receiver from the statewide Class AAA committee with 89 points. All the other first teamers received at least 75 points.

All are seniors except Sibley, a junior.

Lenox averaged 18.1 points in leading Clear Creek to its 11th straight district title. Lochner has the best average, 22.8, and is a three-year regular at Graham.

Hurt, who averaged 21.9, sparked Seguin to its best record in history. Black, with a 17.2 average, was a key man in South San Antonio's district championship drive. Sibley averaged 21.9 points in pacing Bell to a repeat district crown.

Heading the sports writers' second team is Seminole's Chester Sample. Others on the No. 2 unit are Jimmy Hubenak of Wharton, Bill Osborne of Orange, Lawrence Johnson of San Antonio Houston and Derrick Wheeler of Austin Lanier.

The third team is made up of David Kitch of Robstown, Willie Hayes of Bridge City, Max Mainford of Greenville, Larry Lewis of Phillips and Bill Howard of Clear Creek.

Golf Title To Tascosa

SWEETWATER — Amarillo Tascosa's crack golf team won the Sweetwater High School links tournament here Saturday with a 36-hole team total of 614.

Jay Herring was the medalist with 150, while his Tascosa team-mate, Buddy Hamilton was the second low individual with 151.

Sweetwater placed second and Lubbock Monterey was third. Snyder finished 13th in the 15-team meet. Individual scores for Snyder golfers included Richard Waters 173, Larry Black 180, Jimmy Featherston 183 and Glenn Ward and Darrell Haney 187 each.

Leader among New York's thoroughbred trainers during 1963 was Howard (Buddy) Jacobson with 112 winners.

Tigers Open '64 Slate In Lubbock

The Snyder High School baseball Tigers will open their 1964 season tomorrow when they take on Tom S. Lubbock. The game will be played at 4 p.m. on Lowery Field in Lubbock.

Speedy Moffett's defending bi - district champions, have a schedule that looks like murderer's row. Snyder will play 13 non - district games before district warfare begins, and everyone of them will be against foes of 4A classification. The Tigers also play a doubleheader with Andrews of district 2-AAA, but it will be later on in the season, after district competition begins.

There are 14 lettermen back from last year's team, so this year's squad has a little more experience than usual. The team consists of five seniors, 12 juniors and 7 sophomores.

The Tigers will play their first home contest Friday, this one with Monterey of Lubbock. They will play Tom S. again next Tuesday, in Snyder.

Tigers Eye Own Relays

The Snyder High track team had its first taste of official competition of the season Saturday in the Comanche Relays at Ft. Stockton. The Tigers tallied 16 points, good enough for a tie for tenth place.

The Tigers are now preparing for the Canyon Reef Relays, which will be run off here Saturday. Some twenty teams, including a number of the outstanding individuals in Texas, will be on hand for the meet.

The Snyder team produced one winner at Ft. Stockton and one boy who tied for second place. Harley Bynum won the 120-yard high hurdles in the fine time of 14.8 seconds. Phillip Floyd tied for second in the high jump with a leap of 5'10".

Dutch Stehley, head track coach, said a number of the Tigers made fair showings, even though they did not place. Jackie Rice, a sophomore, pole-vaulted 11 feet, and with a borrowed pole. J. B. Murphy ran the half-mile in about 2 minutes and 6 seconds, which was not bad for this early in the season, considering that he has had very little experience in that event.

Bynum qualified for the finals in the 180-yard low hurdles with a time of 20.8 seconds, but failed to place, although he was running real close to several boys. Leon Smith turned in a creditable time of 53.07 seconds in the open 440.

Tom Kincaid ran the 220-yard dash around a curve in 23.8 seconds, Jerry Smith ran the mile in 5:03 and Craig Stokes threw the discus about 133 feet.

Stehley said that the 440-yard relay team looked fairly good, although not good enough to place. Boys running in that event were Kincaid, Charley Park, Leslie Anderson and John Finke.

The Canyon Reef meet will be one of the major attractions that Snyder offers. As it takes a large number of men to run off such a meet as this, many volunteers will be needed. Anyone willing to help is urged to notify either Horrace Bostick or James Stehley.

Rudolph In Lead By 4 In Finals

By BEN THOMAS
Associated Press Sports Writer

NEW ORLEANS (AP) — Mason Rudolph goes in today's final round of the $50,000 Greater New Orleans Open Golf Tournament with a four-stroke advantage over big Jack Nicklaus.

Tied for the lead the first day, Rudolph took sole possession of first place the second day and kept it Sunday. His 54-hole score was 68-71-70—208.

Nicklaus, who rates the Lakewood Country Club course, at 7,020 yards, as one of the six toughest on the PGA tour, carded an erratic 72 Sunday.

Wes Ellis Jr. stood one stroke behind Nicklaus with a 213 after shaving five strokes off par Sunday with a 67—best round of the tournament.

Rudolph threatened to run away with the lead until he came to the 18th hole, a long par four. For the first time Sunday, he missed a green.

Nicklaus was the only one of golfing's elite to fare well.

Arnold Palmer, nearing the half-million dollar mark in winnings, scrambled to a 72 with what he called a very miserable round.

Palmer was tied at 219 with Julius Boros, U.S. Open champion, who will turn 44 Tuesday. Boros carded a 73.

South African Gary Player three-putted three greens and ballooned to a 74 for a 223—barely surviving the cut for the final 18 holes.

MEN PAST 40

Troubled with GETTING UP NIGHTS Pains in BACK, HIPS, LEGS Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that give temporary relief will not remove the causes of your troubles.

Neglect of Glandular Inflammation often leads to premature senility, and incurable conditions.

The past year men from 1,000 communities have been successfully treated. They have found soothing relief and improved health.

RECTAL-COLON Are often associated with Glandular Inflammation.

Reducible Hernia is amenable to a mild Non-Surgical treatment.

Any of these disorders may be treated at the same time you are receiving Glandular Inflammation treatments.

The Excelsior Medical Clinic has a New FREE BOOK that tells how these troubles may be corrected by PROVEN NON-SURGICAL TREATMENTS. This book may prove of utmost importance in your life. Use coupon below. No obligation.

ASSOCIATED PRESS NEWS IN PICTURES

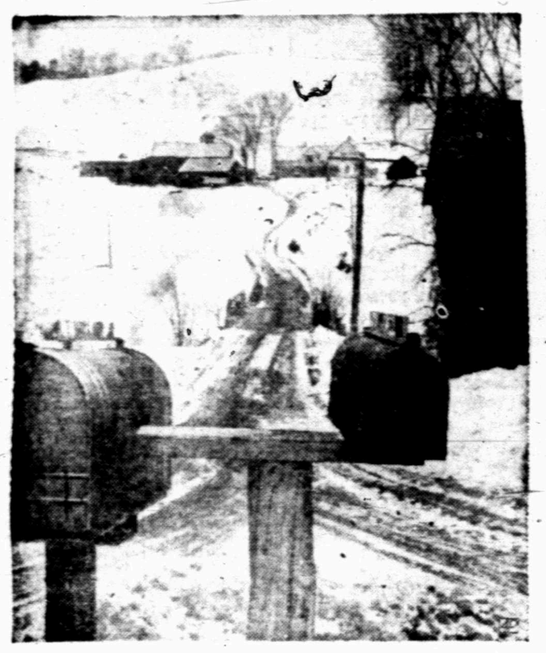

FRENCH TOUCH— Paris has introduced a control platform from which gendarmes can direct traffic. It provides 360 degree movability and is stilted for visibility.

FUN WHILE IT'S COLD — The trolley doesn't have any motive power but then it isn't going anywhere as children frolic aboard it in a St. Paul, Minn., park. Work by Parker Sailer of East Jordan, Mich., was set up for the winter carnival in the city.

RHYTHM FOR RECITAL — Sister Pierre du Sauveur, left, and Sister Thomas Edward beat out the accompaniment for their singing colleagues at a Washington benefit for African missions. Concert by the White Sisters of Africa featured native folk songs.

WINTER SCENE— This is a typical New England farm approached by a winding road passing over a bridge at East Corinth, Vt. Mailboxes belong to residents on road.

A 'WHALE' AT WORK -- Gary Gubner of NYU is a study in strained coordination as he puts the shot during meet in Madison Square Garden. Gubner, a consistent winner in the event, is pointing for a berth on the U.S. Olympic team for the Games in Tokyo.

CHILD'S DELIGHT— Little Susanne Karel views an early 19th century English Pedlar doll, part of a collection placed on exhibit for charity purposes, in London.

NEW ENVOY—Andrew V. Corry, 61-year-old foreign service officer, is the new U.S. ambassador to the African nation of Sierra Leone. He succeeds A.S.J. Carnahan in the post.

STUDY SIGHT— A technician poses with special glasses developed at MIT to study eye movements and establish a data network. A computer records and analyzes data from the studies made as the eyes follow a moving target.

THE STAGE IS SET — The Unisphere, symbol of the 1964-1965 World's Fair, is in position in center area at Flushing, N.Y. About 85 per cent of the exposition buildings are under roof with major participants setting up their wares for the April opening.

TEE TO SUDS— Pro golfer Arnold Palmer gags it up in New York as he announces he has added a New York laundry and dry cleaning business to his other enterprises.

IDEA AIDE— Professor Eric Goldman of Princeton University is an assistant to President Johnson. He'll round up ideas on foreign and domestic policy for the Chief Executive.

SNOOZING IN THE SUN — Having settled for the first available body support, this polar bear dozes precariously in the warm winter sunshine at the Rome, Italy, zoo.

PAST REVIEWED — Lenin and Stalin lived again, at least on the stage, in the impersonations of Luther Adler, left, and Peter Falk in New York. They were leads in "The Passion of Josef D." Play about the Russian revolution was authored by Paddy Chayefsky.

IMPORT FROM USA— This is Franca Duval, a young American, who will star in the next show of the famed Folies Bergeres. She wears traditional feather costume.

Atom Building 'Good-Guy' Factors In Its Reputation

By FRANK CAREY
Associated Press Science Writer

WASHINGTON (AP) — The Jekyll and Hyde atom is enhancing the good-guy side of its reputation with the help of such things as goat hairs in Australia and potatoes in Canada.

The same type of atomic radiation that is feared in A-bombs and H-bombs is continually finding new uses in industry.

Such developments are occurring, the Atomic Energy Commission says, in the relatively new business of process radiation, which already is a $20-million annual business for a few American and foreign firms.

New industrial chemicals are being created, and processes for producing certain others are being improved with the aid of atomic rays which can influence chemical reactions in various ways, the commission said in its annual report to Congress.

The same type of rays—produced by radioactive by-products of nuclear reactors—also are being used to sterilize various materials, such as medical supplies, and even to process vegetables headed for market.

The radiation comes mostly from heavily shielded solid materials, which are made radioactive by being placed in nuclear reactors. The most commonly used material is radioactive cobalt—once considered for jacketing atomic bombs to enhance their radioactivity.

In telling Congress of the progress to date in this field, the AEC credited the American Chemical Society with helping round up many of the details.

Goat hair sterilization by means of atomic radiation was listed in a society publication as being an enterprise of the Westminister Carpet Co. of Australia. The firm treats 2,250 tons of goat hair each year with radioactive cobalt.

The goat hair must be sterilized—to assure that it is free of germs of anthrax, a disease recognized chiefly in goats, cattle, sheep and horses, but transmissible to humans. Both the animal and human disease are relatively rare in the United States.

The AEC's own part of the round-up described:

—Use of process radiation by Canadian government scientists to prevent sprouting of potatoes designed for marketing. Such irradiated spuds were first approved for human consumption in Canada during 1960.

—Development by the Esso Research and Engineering Co. of a radiation process for the production of new types of detergents. These detergents can be broken up by normal, harmless bacteria in rivers and other streams — thus preventing the undesirable foaming other detergents have produced in the past.

—Use of radiation by the Dow Chemical Co. to help produce ethyl bromide, an important organic intermediate product employed in the synthesis of a number of chemicals and pharmaceuticals.

—Development of plastic wrapping and insulation materials with the help of atomic rays.

—Promising research, aided by AEC funds, to further improve the process of producing wood-plastic combinations, using radiation as a binding force. Shoe lasts, furniture, doors, sporting goods, and special chemical processing equipment are envisioned as possible products growing out of such research.

—Progress in research looking toward radiation in the cracking of coal. Success in this field, said the AEC, "could make the conversion of coal into liquid fuels an economic reality."

Man Sees Jet Slice Into Home

SUPERIOR, Wis. (AP)—Lawrence Nordlund watched in horror Sunday as an Air Force jet fighter sliced through his home where his wife was working in the kitchen.

The house and the plane, which crashed in a valley beyond, erupted in flame. Nordlund found his wife, Julieann, 45, in the basement and carried her out before the house was consumed.

Capt. Kenneth C. Hite, 33, pilot of the F106B fighter interceptor from nearby Duluth (Minn.) Air Force Base, was killed. His passenger, Col Earl L. Bastian, 45, the deputy base commander was burned slightly but parachuted safely.

Mrs. Nordlund was in serious condition in a Superior hospital. She suffered fractures and first and second-degree burns.

Nordlund was in his yard and was not hurt.

Hite and Bastian were on a flight to Tyndall Air Force Base in Florida. Cause of the crash was not known.

Hite is a native of Shelbyville, Ky. Bastian of Scranton, Pa.

Zoo Bear Felled By Bullets

TACOMA, Wash. (AP)—Fuzzy, a lumbering polar bear befriended by thousands of children at the Point Defiance Zoo, is dead, felled by a sniper's bullets.

A patrolman heard some shots Friday night. Saturday morning, a zoo keeper found Fuzzy in his grotto and blood in his pool.

A veterinarian gave Fuzzy medicine to stop the external bleeding, but the 600-pound bear was too weak for surgery.

He died about 10 hours after he was found.

Cecil Brosseau, zoo manager, said Fuzzy had one bullet in his brain and another over his lungs.

"I can't understand the kind of a guy who would do a thing like this," Brosseau said. "It's a sadistic thing."

THE "Write" WAY

By RUTH FOWLER BROWN

Dear Ruth:

My husband took part in a gas station robbery when he was 20. The judge gave him five years. Do you think he'll be pardoned before the five years are up?

MRS. L. L. J.

Dear Mrs. L. L. J.

I wish handwriting analysis could foretell the future, and I could assure you that your husband will be pardoned. But handwriting can only predict the future in so far as a person's character and abilities point toward a possible future goal.

get plenty to eat

The two samples you sent — the one written in 1961 and the recent one from prison— show that his character has been strengthened. He's learned more self control, is less thoughtless and wild; his temper has been curbed and he seems to be developing a real sense of responsibility. Even a layman

could see you and the baby

should be able to see the restraint and responsibility signified in the second script.

Since there is marked constructive ability in his script, I hope he is learning a trade behind the walls, so that when he is restored to society, he'll have a means of making a decent and honorable living.

Dear Ruth:

My first grade boy is just learning to print his ABC's. Can you tell anything from these first efforts, or is he still too young?

Mother

Dear Mother:

As far as character anlysis is concerned, he's too young. But his printing does show good muscle control for such a tender age.

• • •

Dear Ruth:

I'm a teen ager and I'm constantly criticized by my family. I'm "sloppy, careless, lazy, extravagant." I talk on the phone too long and too much, and I stay out too late at night. But who wants to go-home to a family of naggers? Does my handwriting show how bugged I am?

Teen Ager

Dear Teen Ager:

Your handwriting shows a touch of teen-age thoughtlessness and selfishness. I don't see any overwhelming compassion or understanding either. But I do see intelligence, initiative, enthusiasm, appeal and charm.

show how bugged I am?

You've got a lot there — why don't you try to make your parents proud of you by acting more grown-up? Show them you love them—or do you?

BUSINESS and INDUSTRIAL NEWS

LIFETIME FENCE DISPLAYED—Gene Best, owner of Caprock Materials, is pictured with a completed section of fencing at the Caprock yard at Avenue Q and Twenty-third Street. The fence is built using the new concrete posts produced by the firm. The steel corner braces, hinges and gates are also available at Caprock. Anyone who is interested in building a permanent fence will be interested in the Caprock posts.

Modern Fencing On Display At Caprock Materials Here

What farmer, plagued with the never-ending chore of mending fences, hasn't often wished that somebody would come up with a fence that would never need attention?

Well now he can quit lifting his eyes heavenward and wishing. Somebody has developed just such a fence. And he doesn't have to go to Dallas or Houston to get it either. All he has to do is go to Caprock Materials right here in Snyder.

Think of it. A fence that will stand for a lifetime. A fence that will ignore grass fires as they sweep by. A fence whose posts will ignore termites, rot, or rust.

A fence made from concrete posts, will, throughout the years serve as a reliable property line marker since once it's installed it stays right there.

Caprock Materials makes two concrete fence posts. The corner posts are 7 feet 9 inches long, 5½ inches square. Inside the post are four steel reinforcing bars tied and welded into the proper position before the concrete is poured.

Also before the concrete is poured, steel pipes are put into position so that when the post is complete, there will be holes in the post, in the proper places, for corner bracing assemblies or for hanging gates. There's no time spent measuring and drilling holes in a Caprock fence post. The holes are already there, and they're already in the right place.

The other posts made by Caprock Materials are three-cornered "line" posts. Four inches across and 6 feet 6 inches long, these posts each have three pieces of reinforcing steel made in them to insure their long life.

The best part is that concrete fence posts are priced competitively with less durable fencing materials which are in present use such as cedar posts and metal posts.

Caprock Materials will welcome the opportunity to show anyone these posts and explain their many benefits.

For the person who values his time, and begrudges the time spent in maintaining fences, Caprock Materials has the answer. Of course, if a person enjoys the time he spends in fixing fences, he'll keep right on in the old-fashioned way. But the modern farmer who realizes that "time is money," will investigate concrete fencing at Caprock Materials.

Johnson Visits With Texas Group

WASHINGTON (AP)— President Lyndon Johnson dropped in on a flock of his Texas friends Sunday.

The President came to an advance Texas Independence Day celebration by the Texas State Society of Washington.

"There was a lot of talk about football and films of some of the games which brought the University of Texas the national championship were shown.

Coach Darrell Royal of the Longhorns was an honor guest. He and his wife and two sons were entertained at the White House Saturday afternoon and Sunday.

The President and Mrs. Johnson gave the Royals a personally conducted tour of the White House.

About 800 Texans who live in the nation's capital jumped the gun one day in marking the anniversary of the day Texas proclaimed its independence from Mexico.

Johnson, a former president of the Texas State Society, dropped by the Statler Hotel affair for a few minutes en route from church services. He shook hands and nodded greetings to several score of the early arrivals, then left for the White House.

U.S. Dist. Judge Homer Thornberry of El Paso, here to receive an award this week from Gallaudet College, world famed school for the deaf, received an ovation. He and Mrs. Thornberry are White House guests.

This was the first time the state society and the Texas exes organization have joined in the independence celebration.

At the end of the meeting each elected these officers for 1964-65:

Txas State Society: Everett Hutchinson, member of the Interstate Commerce Commission, president, succeeding Frank Ikard, president of the American Petroleum Institute; Mrs. Howard Burris and Rep. Graham Purcell, D., of Wichita Falls, vice presidents.

Texas exes, Washington chapter: Rep. Jack Brooks, D., of Beaumont, president; Bill Moyers, aide to President Johnson, vice president; Harold Kennedy, secretary-treasurer.

Tax Cut Seen As Economy 'Heater'

By EDMOND LEBRETON

WASHINGTON (AP) — The Senate-House Economic Committee today predicted good times in 1964 as tax savings spread through the economy.

But it cautioned that either prices hikes by private producers or excessive budget cuts by the government could spoil the picture.

And the Republican minority of the committee accused President Johnson's administration of unduly heating up the economy this election year, and thus risking a bust later.

The committee of senators and House members presented its study of the President's annual economic report in two sharply contrasted sections, with the Republican criticism running almost three times as long as the majority document.

The Democratic majority found special encouragement in the timing of the tax cut enacted last week, saying it "will accelerate an existing expansion instead of being called upon to counteract recession."

The Democrats said Johnson has shown that economies can be made while still increasing spending on vital national needs, and they especially praised defense economies. But they also said "an increase in unemployment is too great a price to pay for balancing the budget."

The Republicans, accusing the administration of compiling "a dismal catalog of economic failures," said the economy was rebounding with the assistance of "the wise policies of the previous administration" when the Democrats took over in 1961 so that subsequent prosperity is largely veneer.

"In its anxiety to insure a particularly good economic performance in 1964, the Johnson administration offers an economic policy which, by its own admission, will heat up the economy this year more than three times greater than in any other peacetime year," the Republicans said.

This policy, the minority charged, is "inviting inflation and other excesses," especially when 119 major collective bargaining contracts are up for renewal and unions are seeking substantial wage increases.

The Republicans concluded that "rather than cutting spending—as he claims to have done—the President is increasing expenditures but at a less rapid rate than in recent years."

Ethiopia, on the northeast shoulder of Africa, boasts a 3,000 - year tradition of sovereignty. It is ruled by Haile Selassie I, emperor of Ethiopia, elect of God, king of kings.

Scott Says High-Ups Hiding Facts

WASHINGTON (AP) — Sen. Hugh Scott charges that the government is determined to block the Bobby Baker investigation and asks, "What do people high in the government have to hide?"

Scott, a Pennsylvania Republican, is a member of the Senate Rules Committee which is investigating Baker's dealings while he was secretary to the Senate's Democrats. The committee wants to find whether any conflict of interest was involved.

Baker resigned his $19,600 post under fire last October and has refused to testify about his dealings. He has invoked the Fifth Amendment protection against possible self-incrimination.

Scott released a statement Saturday night asking:

"What do people high in the government have to hide? What have they done that the public must not know? To what lengths will they go to prevent this investigation from continuing?

"It seems clear that the government as a matter of policy, or individuals high in the government who influence policy, are determined to prevent the Rules Committee investigation of conflicts of interest from proceeding further."

The Senate investigators plan to hear two witnesses today and a staff investigator was to summarize all of Baker's bank dealings before his resignation.

New Dow-Jones Record Said To Be Psychological Boost

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—The long-drawn-out flirtation of the Dow-Jones industrial averages with the 800 mark that has fascinated stock market aficianados finally came to the moment of truth. After several times pushing the popular index that high earlier in the day only to see if fall back, the bulls finally scored a closing figure of 800.14 Friday.

The psychological victory is due to the round figure's capture of public fancy.

But many critics think this and other popular averages aren't the best indicators of the market as a whole. They mirror only blue chips, even if some of these may have become a bit pallid in recent years or months. The general market hasn't swung up as vigorously. Many stocks—perhaps some of yours—haven't moved at all or have fallen back.

Reasons for the long upturn in the popular indexes are closely tied to psychology as well as to the dollar and cents matters of earnings and dividends.

The federal tax cut has bolstered confidence in an upcoming surge in the business of many of the corporations whose stocks appear in the averages. Stock traders long may have discounted this factor, but the general public tended to respond only as the bill took final form. It may well carry this confidence into actual stock buying when the benefits of the tax cut are realized in pay checks.

Both the public and the big institutional buyers apparently have concentrated for several months on blue chips and dealt more gingerly with less known or newer issues. It has been a general period of caution in business and finance.

And institutions are a big factor in the market now. The New York Stock Exchange reported Thursday that of the $411.3 billion market value of all its listed securities at the end of 1963, a record of 20 per cent, or $82.4 billion, was owned by institutions—pensions funds, insurance companies, mutual funds, foundations, bank trust funds, college and university endowments. Their steady buying because of swelling cash inflow has buoyed the market for the stocks on the index.

Even so, not one of the 30 stocks on the Dow Jones industrial index was at its record high Friday. But five were near their peaks set earlier this year. Three others set their highs in 1963, seven in 1961 and four in 1960. The other 10 on the list made theirs before 1960.

But the general advance of most of the stocks since Nov. 21, 1963 from previous lows has carried the index from 732.65 to its new grandeur. Wall Street now tends to regard the sharp break in prices Nov. 22 when President Kennedy was killed as too temporary and exceptional to be truly significant.

Socks on the list setting their record highs in February 1964 are A.T.&.T., International Harvester, Sears Roebuck, Jersey Standard Oil, and Texaco. The three at their peaks in 1963 are Chrysler, General Motors, and California Standard Oil. Those dating back before the 1960s are Alcoa, American Can, Anaconda, Bethlehem Steel, Goodyear, International Paper, Swift, Union Carbide, United Aircraft, Steel.

Alabama Race Has Negro Candidate

JASPER, Ala. (AP)—For the first time since Reconstruction Day, a Negro is running for Congress from Alabama.

Mrs. Amelia P. Boynton of Selma qualified Saturday to oppose Rep. Kenneth Roberts of Anniston under the state's unique 9-8 elimination plan used to select Democratic nominees.

Alabama lost a congressional seat and was unable to reach agreement on redistricting. So each of the old nine districts nominates a candidate in the May 5 Democratic primary and the winners enter a runoff June 2 with the eight high candidates getting the nomination.

Mrs. Boynton, a native of Savannah, Ga., is an insurance agent in Selma.
