

SEOUL DEMONSTRATORS VENT ANGER—South Koreans burn the contents of assembly speaker Lee Ki Poong's home in Seoul after ransacking the house during the citywide demonstration against President Syngman Rhee's government. It was Lee's unpopularity, of vice president John M. Chang in last month's election that gave rise to one of the fraud charges leading to the nationwide uprising. (AP Wirephoto via radio from Seoul)

South Korea's Weep, Family Kill Selves

SEOUL, South Korea (AP)—Lee Ki-poong, his wife and two sons committed suicide today in oriental atonement for the revolt Lee's election as South Korea's vice president touched off. Ten hours after Lee and his family died in a cottage on the grounds of the presidential mansion, the chief casualty of the revolt, ex-President Syngman Rhee, left the president's house 100 yards away and was driven with his Austrian-born wife to a modest hillside villa where they took up life as private citizens. Sentimental, friendly crowds along Rhee's route applauded him and women wept in sharp contrast to the bloody rioting which forced the 85-year-old father of modern Korea to end his 12-year rule over South Korea. The old man waved and smiled occasionally at the crowds. Rhee's successor, Acting President Huh Chung, named six independents to his cabinet, bringing the new government to nine members. All politically independent, they include a noted surgeon, an educator and two bankers.

Still vacant is the key post of minister of defense, as well as the agriculture and communications ministries. Four more members of the National Assembly, all members of Rhee's Liberal party, resigned today. The Assembly had demanded that they quit, charging they were involved in rigging the March 15 elections which named Rhee to a fourth term and Lee Ki-poong to the vice presidency. Earlier, Huh's government issued warrants for the arrest of the former home minister, Choi In-kyu and six others charged with responsibility for the voting frauds. Charges of fraud, intimidation and police brutality during the election set off the six-week revolt that overthrew the Rhee regime. Choi has been in hiding since the bloody climax of the revolt April 19. There have been unconfirmed reports that he has fled the country. Others whose arrest was ordered were Lee Kang-hak, former director of the Hangeul National Police under Choi, and Han Hui-suk, Rhee's campaign manager. The death of Lee and his family was announced by the army command, which still is in charge of maintaining order in Seoul and other major cities under martial law.

Rattlesnakes are becoming a common sight in Snyder these days and they don't seem to object to being killed. One woman called the police department to come kill a rattlesnake curled in her flower bed. Another woman discovered one in a basket of leaves she was scooping from a wagon. That didn't scare her half as much as realizing she had picked that same pile up just a few minutes before. With frequent reports of snakes, not always identified as rattlers, the police department urges that everyone be especially careful in their spring raking and cleaning. Colorado City was the terminal of the Texas & Pacific Railroad. It was also an era when Colo-

rado City was considered quite a metropolis, with 65 telephone saloons, a race track, and a gambling district. But with the farmer came the tumbleweed—Russian thistle that found its way to this country in contaminated flax seed. Watching the tumbleweeds tumble across the screen in TV Westerns fascinated Mrs. Harry Snyder in Cincinnati. She asked her husband, a floral manufacturer, if he couldn't do something with the bouncing prairie weeds. While a few imaginative Texans had gilded tumbleweeds as a substitute for Christmas trees, it took Snyder's experience and ingenuity to see their commercial possibilities. During his travels, Snyder found the biggest, bounciest and most abundant tumbleweeds around Colorado City. The establishment of the tumbleweed processing plant followed, and has set off the biggest shindig since the cattleman's ball.

Tumbleweed Fete Opens In C-City

COLORADO CITY, Tex. (AP)—The tumbling tumbleweed—the scourge of the West for nearly a century—attains respectability and employment today in one of the biggest celebrations ever staged in this West Texas town. Thanks to the tumbleweed and the ingenuity of an Ohio manufacturer, this one-time frontier town has a new factory turning out floral wreaths, holiday decorations and women's hats. To herald the new industry will be Gov. Price Daniel, Atty. Gen. Will Wilson, 20 floats featuring the beauty of tumbleweeds, and Sons of the Pioneers, Hollywood singers who helped make the song "Tumbling Tumbleweeds" popular. The two-day celebration is one of the biggest since the 1930s when a 45-piece orchestra from St. Louis was imported for the cattleman's ball. Those were days when Colorado City was the terminal of the Texas & Pacific Railroad. It was also an era when Colo-

Turkey Has Martial Law After Student Rioting

Herter Says CENTO Aid To Continue

By JOSEPH E. DYAN
TEHRAN, Iran (AP)—Secretary of State Christian A. Herter told members of the Central Treaty Organization today the United States will continue to give strong support to their alliance against communism. The United States sponsored the organization when it was formed as the Baghdad Pact several years ago but did not become a full member. It has separate alliances with several CENTO members, and Herter said America's indirect CENTO ties would continue in the interests of world peace. He said President Eisenhower is going to next month's summit meeting in Paris as part of his "unwavering quest for peace." The State Department announced the CENTO's three Moslem members—Iran, Pakistan and Turkey—stand solidly behind their Western Allies. Foreign Secretary Selwyn Lloyd of Britain gave the CENTO members an outline of three Western objectives for the summit meeting. Speaking at the opening session of the CENTO ministerial council meeting in the Iranian Senate chamber, Lloyd stressed disarmament as the prime Western aim and said progress toward an international settlement could best be obtained in this way. "Firstly, a genuine and concrete beginning along the road to comprehensive disarmament under effective international control. Secondly, an agreement to suspend nuclear tests also under international control. Thirdly, evidence by deed as well as word that the great powers are not going to interfere in the internal affairs of other countries by threats or pressures of any sort." U.S. Secretary of State Christian A. Herter read a message to the ministers from President Eisenhower expressing the President's confidence that the current CENTO meeting would "prove fruitful." The three day discussions with allies string across the gap between West European NATO and the Far Eastern SEATO alliance were regarded as an important step for the United States and

Seek Ouster Of Menderes

ISTANBUL, Turkey (AP)—The government proclaimed martial law today following an outbreak of student rioting against Premier Adnan Menderes. At least four persons were reported killed as thousands of students broke through police lines around the University of Istanbul and swarmed through the city demanding Menderes' resignation. The students broke through police lines around the University of Istanbul and surged through the city shouting for Menderes' resignation. The demonstrations were sparked when the Menderes government ordered a three-month ban on all political activities. About 5,000 students rushed through police cordons around the university and headed for the center of the city. Fifty students and police were injured in fierce fights. Witnesses said they saw three students and one policeman killed in the crush in front of the university. Police said they could not confirm these reports. In view of the developing situation Menderes earlier had called off a flight to Iran to attend a meeting of the Central Treaty Organization. About 800 university students refused to go to classes. They marched down the streets singing the nation's independence anthem and shouting slogans praising the Korean youth who brought down the government of Syngman Rhee this week. The students broke through the police lines after they had been herded back to the university from milder demonstrations. The rioting appeared confined to students. Other citizens halted work to watch but did not appear inclined to join. The students broke up into smaller groups to march on the Menderes headquarters. There they shouted slogans of approval for Korean youth who died in riots which led to Rhee's resignation. Police stood four deep around the headquarters building to prevent the students from getting too close. Recent political developments in Turkey and South Korea display some parallels. Both lie on the edge of the Communist world, and both have developed fierce anti-Communist policies under pressure from the Reds. But the governments in both countries also became increasingly authoritarian in recent years. Rhee's government fell amid opposition charges that his party tried to fix last month's elections. The Turkish opposition charges it is being hindered in election campaigning here. Today's outbreak followed passage of a bill Wednesday night in the Turkish Parliament broadening the powers of a parliamentary committee that has been investigating the opposition Republican party of ex-President Ismet Inönü. Established by Parliament April 19, the committee is controlled by Menderes' Democrat party. All political activity has been suspended during the investigation.

Jaycees Set Banquet Here

Snyder Jaycees will hold their annual installation banquet Friday night at the Martha Ann Woman's Club. Time for the event originally set for 7:30 p.m. has been changed to 7 p.m. Jaycee officials announced today. Col. Homer Garrison Jr., director of the Texas Dept. of Public Safety will be guest speaker. They (Jaycees) will install new officers and name the city's outstanding young man for 1959. Tickets sell for \$2 each and reservations should be made by noon Friday with Billy Joe Brown. Brown may be contacted at telephone No. 3-9472.

Austin Tries Negotiation

By GARTH JONES
AUSTIN (AP)—A new effort to negotiate in the lunch counter desegregation situation here apparently was under way today. There were no pickets on the march along Congress Ave. in downtown Austin during the morning rush hour in contrast to Wednesday when white and Negro students carried placards demanding desegregation. A group of leading white and Negro students carried placards demanding desegregation. A group of leading white and Negro citizens agreed Wednesday night to formulate a bi-racial action committee to attempt to resolve the question. The decision was reached at a meeting called by Mayor Tom Miller. A spokesman for the Austin Council of Churches, the Rev. Charles A. Sumner, said Wednesday night it was agreed after a conference of white and Negro business men there was no picketing before Saturday. Leaders of student demonstrators—Jack Ashkin and Negro— from the University of Texas and other schools called a meeting Friday night to chart their next moves. They said these would be governed by whether merchants appeared ready to desegregate lunch counters. Some observers were of the opinion there still might be sit-ins before the weekend. "We're ready for them," said a waitress in a downtown hotel soda fountain. She let a reporter see a sign that says "No whites" on the counter. The sign read "Fountain closed." Negro and white students completed a daylong picketing of the entire downtown business section at 4 p.m. Wednesday without announcing plans today. "Sit-ins. It's up to you" read one of the placards carried Wednesday by the pickets that

West Virginia Race 'Made' For Humphrey

By ARTHUR EDSON
CHARLESTON, W. Va. (AP) —

West Virginia politics seem especially homespun for the likes of Sen. J. H. Humphrey (D-Minn.).

Much has been made of what the religious issue may mean in the Democratic presidential primary here May 10. Too much, both candidates agree.

But even if Sen. John F. Kennedy (D-Mass.) weren't a Roman Catholic running in a predominantly Protestant state, Humphrey would have a lot of other things going for him in West Virginia.

For Humphrey speaks the language of the country. He can tear into the Republicans with the fervor of a fundamentalist preacher on revival day. He can go into the industrial areas, and point to his votes on union labor legislation.

And when the time comes where the bills are high and the income is low, he can, and does, remind voters that unlike the well-to-do Kennedy, the Humphreys have seen some mighty hard times.

"I know what it is to be poor," Humphrey will say, and he looks hungrily at the voters who obviously know what it means to be poor, too.

Yet so great is the magic of the Kennedy name that even here Humphrey is no shoo-in. Humphrey says he is the underdog, and he could be right. As of now, neutral observers are saying it could be close right down to the wire.

This reporter has spent two days traveling over West Virginia roads with Humphrey — a trip that started here and ended in many a hairpin curve later in the northeastern part of the state at Charleston.

For anyone without Humphrey's personal optimism, this journey would have been written off as a disaster.

It was poorly planned. No one went ahead to drum up interest. Political crookedness, amox, an spontaneity, a large gathering, usually means a little thinking and a lot of hard work have been combined to make it successful.

On the first test vote Wednesday, the question whether to consider the measure at all, enough Southern Democrats left the Republican-Southern coalition to give the bill a favorable preliminary vote of 214-158. But a provision against segregation in housing would probably solidify Southern opposition.

The main provision of the bill is the billion-dollar fund with which the Federal National Mortgage Assn. could purchase at face value government-backed mortgages on low and moderate priced homes.

That goes considerably beyond what President Eisenhower recommended.

A narrow for YEW and American Legion members and their guests will be held Saturday night at the Veterans Club here.

The dance will be held from 9 p.m. to midnight.

Music will be provided by The Starlighters, a six-piece dance band. Admission charge will be \$3 per couple.

A wire carrying an electric current is being heated electrically.

The second day was particularly to a halt. No small detail is missed. Humphrey was up at 5.30 to shake hands at a plant, and then he was off on a long, tiring trip. He hit the small towns, mostly, and after seven speeches, usually from the courthouse square, he probably hadn't addressed more than 700 persons.

He can tear into the Republicans with the fervor of a fundamentalist preacher on revival day. He can go into the industrial areas, and point to his votes on union labor legislation.

And when the time comes where the bills are high and the income is low, he can, and does, remind voters that unlike the well-to-do Kennedy, the Humphreys have seen some mighty hard times.

White Minister Fights Segregation

MARSHALL, Tex. (AP) — A white minister moved into Marshall Wednesday night in his avowed crusade against segregation.

The Rev. Ashton Jones, 63, from Los Angeles, went directly to the campus of Wiley College, one of two all-Negro schools here.

He spoke to an estimated 70 students, from which a number jumped in demonstrations against segregated lunch counters here last month.

Fortunately, Crouch and West came from Cabin Creek, W. Va., and Crouch used the old home loyalty — plus the hint that this might be considered treasonable by West's future employers, the Minneapolis Lakers' pro basketball team.

"I talked him out of it all right," Crouch said.

Humphrey beamed approvingly. In West Virginia, which could be the end of the presidential trail for Robert H. Humphrey, the same pro-basketball player, who left an unimpaired record.

The 1960 census showed 334,140 American Indians in the United States.

Newsmen saw no sign of peace officers and there were no incidents.

READYING FOR SUMMER CAMP—Sp. 4 Charles W. Nichols, pistol in hand, fires qualifying rounds Sunday of the Abilene Rifle Range in preparation for summer camp at North Fort Hood, which begins late in June. Nichols is a member of Co. B in Sweetwater. Looking on is his coach, Pfc. Bill Smith of Co. A in Snyder.

Brady Rancher Is Adjudged Insane

AUSTIN, AP—Brady rancher Thelma White Ledbetter has been adjudged insane and will not be freed on a charge of murdering her husband until, and if, he is found sane.

Judge Charles Betts Wednesday committed Ledbetter to a mental institution after a Criminal District Court jury took 64 minutes to return an insanity verdict.

After spending seven full days in picking a jury, the sanity hearing came as a surprise. He is charged with killing his wife by placing poison in a hiball knowing she would drink it.

Defense attorneys had made it clear during questioning of prospective jurors they would raise the issue of Ledbetter's soundness of mind, but they had not indicated they would ask for a full sanity hearing prior to start of testimony.

On the 12th juror was sworn Wednesday morning, the defense withdrew its plea of insanity and filed an affidavit of insanity. Brannanwood Dist. Atty. Gordon Griffin Jr. in charge of the prosecution agreed to the hearing.

The state charged Ledbetter with killing his wife in April 1954 by mixing strychnine in a bottle of whiskey. The case was first moved to Mason and then transferred here after failure to get a jury at Mason.

Ledbetter, who wore dark glasses throughout proceedings, which began a week ago today, appeared unconcerned as Betts committed him.

Principal psychiatric witness was Austin psychiatrist, David Wade. The state offered to conduct testimony.

Dr. Wade described Ledbetter as a "paranoid type schizophrenic" with a "split in his personality" and "delusions of persecution."

Griffin, in whose jurisdiction the case arose, told the jury that late last week he instructed a sheriff and a Ranger to seek witnesses in the Brady area who could testify an insanity claim.

Griffin said the two officers returned with word that they could find "no one who would testify Ledbetter was of sound mind."

"My conclusion was that, with out a doubt, the defendant is insane," said Griffin.

Defense Attorney Earl Smith of San Angelo, told the jury Ledbetter was not capable of understanding the nature and consequences of his acts and could not comprehend the seriousness of the charge against him.

L. Pat Ryan of Brady, testified Ledbetter had returned from military service telling stories of shooting down bombers with a rifle and dressed as a master sergeant, although his highest rank was look private.

The commission acted on a request from the city for help in improving portions of Houston Avenue, Proctor Street and Woodworth Boulevard, 1.5 miles. The state estimated the project would cost \$81,500.

Amendment Threat To Housing Bill

WASHINGTON, AP—An amendment to bar racial discrimination threatened new trouble today for backers of a billion-dollar housing bill.

The measure, which may come to a vote in the House today, is opposed by most Republicans and many Southern Democrats.

One of the opposing Republicans, Rep. Clarence J. Brown of Ohio, served notice that the racial issue would be raised. He said the proposed amendment would deny use of the bill's billion-dollar mortgage buying fund for housing in which there is discrimination on racial basis.

Such an amendment would put Northern Democratic backers of the bill on the spot. To vote against it might impair their civil rights records, but to vote for it would imperil the bill.

On the first test vote Wednesday, the question whether to consider the measure at all, enough Southern Democrats left the Republican-Southern coalition to give the bill a favorable preliminary vote of 214-158. But a provision against segregation in housing would probably solidify Southern opposition.

The main provision of the bill is the billion-dollar fund with which the Federal National Mortgage Assn. could purchase at face value government-backed mortgages on low and moderate priced homes.

That goes considerably beyond what President Eisenhower recommended.

WAC Nears A Birthday

The Women's Army Corps, which celebrates its 18th birthday next month, has begun one of the biggest recruiting campaigns in its history.

A sidelight of that campaign is a search for the girl who was born to be a WAC, said SFC Jack Thomas, "a girl whose birthday is the same as the Corps' (May 14) and who will join the WAC that day."

The campaign is by any means limited to this single search.

As the WAC approaches its 20th year, it is beginning to feel the pinch of retirement which threatens to cut back its total strength.

During the next few years, many officers and enlisted women will be retiring. The problem is to recruit enough replacements.

Wacs are now being used in areas and jobs which have been "left limits" to them in the past and they will be moving into more and more fields in the future.

"For instance, missiles," said SFC Thomas. "Two years ago their abilities were tested in the missile field for the first time. Now, it's a standard procedure to assign Wacs to these projects."

Another killer is carbon monoxide, which accounted for more than three-fourths of the deaths caused by poisonous gas.

Eighty-seven Texans died from solid and liquid poisons during World War II, more deaths than killed from deadly gases.

Children age to two years old are involved in 65 to 70 per cent of all cases reported to poison control centers.

The biggest killers are aspirin and noxious foods, such as toad.

Another killer is carbon monoxide, which accounted for more than three-fourths of the deaths caused by poisonous gas.

Eighty-seven Texans died from solid and liquid poisons during World War II, more deaths than killed from deadly gases.

The Snyder (Texas) Daily News, Thurs., April 28, 1960

Between You And Me

By Jerry Jackson

Coach Jim Stehley is in the process of casting an understandably hungry eye toward Austin following the Tigers' romp to the regional title this past Saturday.

Prior to the all-important state meet, however, Snyder has a week to wait and a caper with the team's time due to be well taken up at the Hobbs Relays.

Nothing juicy can be gained at Hobbs, other than a little prestige which is worth nothing at this particular stage of the hall game. A win there would enhance the accompanying hallway which they are sure to take with them to Austin and would serve to make believers of any existing non-believers. But that's the sum and substance of it.

The stage is set in almost identical manner to that which faced the Snyder cindermen a couple of weeks ago as they went to Andrews to compete in the Mustang Relays being held there. The week previous to the meet the Ti-

gers had grabbed off the district title with an ease which startled, and went into the Mustang Meet heralded as the "team to beat" should host Andrews slub its toe.

How ever, Snyder failed to scratch in the meet, as a trio of top hands were held out of the competition in forms of Stanley Woollever, Jimmy Maroney, and Jesse Crawford. Disbelief was expressed by many on the "Tigers' inability to pick up even a single point in the meet with some advancing the theory that "We've had it," as Andrews piled up 71 plus points in finishing second to Midland.

The following week with the chips down the Bengals dealt the shocker by winning regional, tallying 116 points in the process to Andrews' total of 106.

So win or lose, the Hobbs affair coming up is no more than a transitional meet and nothing to get particularly excited or dejected about. The cookie jar is at Austin.

Now, Turning Back A Page . . .

SNYDER FINISHED FOURTH in the state get-together last year, but was only a mere 7 points out of second. Andrews romped to the title on the strength of their running up a total of 71 points—50 of which were garnered in the two relays and the 440 yard dash. Gainesville followed with 36, Bay City 30, and Snyder 29.

Stehley has advanced the opinion—which has a solid ring to it—that the Tigers should improve on last year's showing and finish no lower than second in the upcoming shot at the lucrative laurels.

Although each and every one of the seven Tiger tracksters who graced the state meet last year managed to mark in the scoring column, the closest they were able to come to a blue-ribbon finish was Woollever's second place finish in the high hurdles. A pair of "birds" were picked up as Woollever gained that slot in the 100 yard dash and Tiger sprint relay team in that event. The remainder of the points were the "barely" variety, or fifth places.

Woollever should get one or both of the first places, which evaded him in last year's meet. Not only has he got an addition-

al year of seasoning under his belt to heighten his chances, but he also has been consistently turning in some of the top times in the state in the hurdles, his 18.8 second finish in the 100 yard dash being the top Texas schoolboy time of the year for that event. No one has come near touching that time, as a pair of 19.1's are the closest ones to it.

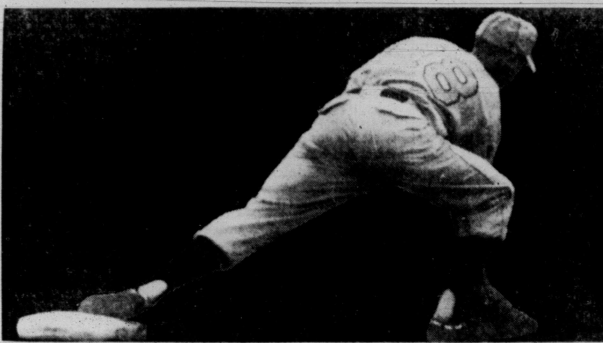

Crawford has been pushing him for low hurdle honors all season, which has helped immensely in spurring Woollever on to his best efforts in that event throughout the year. It's a healthy situation.

A first and a second in the 100 yard dash at Austin by Woollever and Crawford, respectively, or vice versa—would mean 18 points in the Tiger team, which Stehley considers to be not only a possibility but a probability. That coupled with another likelihood—Wool-

ever's first or second in the 100 yard dash—would garner the Tigers practically as many points in those two events as they were able to pick up last year in 1959, which is an old Latin term meaning "kit and kaboodle."

mendable leg in the 440 relay, along with Crawford, Mike Morris, and John Wedder. Perry Culwell is the remaining Tiger who will be in line for points with pole vaulting being his particular specialty.

Things look "powerful peach" in general for the locals from all indications. A strong bid for the title should be theirs.

BENNIE GREENFIELD
Who's On First?

San Angelo Is Today's Tiger Foe

The Snyder Tigers, currently riding a three-game winning streak and leading the District 3-AAA area with a 11-1 while 2-0 record, board the Non-Conference Express today with San Angelo the worthy foe facing them.

The game will get underway at 4:30 this afternoon within the Bobcat confines. In their "top" pre-season meeting of the year, the Algodons doctored Snyder by 3-2, as Ronnie Jones dropped a four-hitter. In district play, the Bobcats now stand 5-2, and are tied for the top spot in their loop. Over the season they can boast of a 15-3 non-loss mark, while the Tigers are 18-1.

Noel Glaslon, Tiger right-hander who has compiled a 7-2 mark through the season and has received credit for both district wins, will be on the hill for Coach J. C. Crawford. The most likely prospect to take the mound will be Mike Talley, who is 2-0.

The remainder of the Tiger lineup will see Ronnie Wible catching either Bennie Greenfield or Barry Walker on first, depending on whether the ball gets through a right or left hander. Steve Free on second, Jerry Guthrie, third, Spencer Dyer, shortstop, Waldon Ware, left field, Mike Moffitt, center field, and Frank Moore, right.

On the Algodons' lineup will be Bob Franklin, catcher, Ken Lyons, first, Bud Ewing, second, Gary Gallegher, third, Tommy Ford, short, Sammy Soto, left, Ronnie Stephens, center, and Lester Turner, right.

Following today's contest, the Tigers will return home for a game tomorrow against Rotan, which has only recently been added to the slate. Game time for that one is a 7 o'clock and it will be held off on the Texas Park diamond.

The Los Angeles Dodgers have 12 minor league clubs in their farm system, including three in top-rated Class AAA leagues.

"A DAD-BURNED SHAME" Hoosier U. Called On NCAA Carpet

ATLANTA (AP)—Members of the National Collegiate Athletic Assn. Council headed home today after slapping Indiana University with one of the stiffest penalties on record—four years probation for six recruiting violations.

"It's a terrible blow," said University President Herman B. Wells at Bloomington, Ind. Phil Dickers, Indiana football coach, called it "a dad-burned shame." We thought we had done everything possible to avert anything like this.

The punishment means Indiana is ineligible for NCAA championship competition, cannot make postseason appearances such as

Palmer Again In Role Of Favorite

HOUSTON (AP)—Arnold Palmer was a heavy favorite for today's start of the \$3,000 Houston Golf Classic despite a final round round of 81 by "Big Bird."

Palmer, with the Masters and four other 1960 titles already recorded, was a 4-1 favorite to win the second tournament here with three wins.

Quoted at 4-1 were Ken Venturi, winner of the Bing Crosby Invitational, and powerful Mike Souchak, the 1955 Houston winner who likes the long fairways at the 7,122-yard, par 72 Memorial Park course.

Jack Burke Jr., the defending champion, and gallery favorite, and Billy Casper, National Open champion, drew 8-1 odds.

Until Tuesday, Palmer had not played a round of golf since winning the Masters nearly three years ago. He warmed up Tuesday with a 78 and followed Wednesday with a 72.

Hebert had a 32-31-65 Wednesday for the 36-36 layout.

TOUGH ON LEADERS

KC, Pittsburgh Set Torrid Pace

By ED WILKS

Associated Press Sports Writer
The Kansas City Athletics, a gang of guys other clubs figured they could do without, may not be able to keep it up, but they've been making it tough on the big teams in the American League race.

After eight games with the defending champion Chicago White Sox, Cleveland and hot-running Detroit, the A's are tied for third at 500, just 1 1/2 games behind the first place Tigers. They got there by beating Detroit 3-1 last night on a six-hitter by ex-Tiger Ray Herbert, a top-run single by Harry Chitt, a onetime Chicago Cub, and a home run by ex-New York Yankee Bob Cerv.

It was the second straight setback for the Tigers, who won their first five, but they strayed a half-game ahead of the Yankees, beaten 5-4 by Washington. Baltimore beat Boston 8-3 in the only other game scheduled in the AL.

In the National League, the first place Pittsburgh Pirates won their sixth straight, longest streak in either league, with a 3-2 decision at Philadelphia that put them a game ahead of the San Francisco Los Angeles defeated the Chicago Cubs 9-4 and Milwaukee rapped Cincinnati 2-5.

Herbert, 29, walked just two and struck out five while putting away his second one-run game for the A's by blanking the Tigers on three hits over the last seven innings. Detroit scored on singles when Chitt's single followed a single by Rocky Colavito, Chico Ferraro and Lou Berberet in the second.

The A's, without a single prospect of their own farm system in the lineup, beat southpaw Hank Aguirre 6-1 in the fourth inning, when Chitt's single followed a single by Cerv and a double by Dick Williams. Cerv then homered in the eighth off reliever Bob Bruce.

Washington 5-3 tied the A's for third with a four-run eighth inning, capped by Jim Lemon's sacrifice. He was later dismissed by Whitey Ford 1-1. Rookie Don Munster also homered for the Senators.

Left-handed rookie Jim Kaat gained his first major league victory with a save by Pete Ramos. Kaat allowed just three hits, one Bill Skowron's solo homer in the seventh, walked two and struck

out four before being lifted for a pinch-hitter in the eighth. The Yanks got their other runs, all unearned, in the fourth.

Arnie Portocarrero 1-0 had a two-hit stint for seven innings and finished with a six-hitter for the Orioles in his first 1960 start. Jim Gentile drove in three runs for the third consecutive game for

the Orioles. He was credited with one in the first inning against loser Frank Sullivan 0-1 when he grounded out, and then hit a two-run single that triggered a clinching, four-run hit.

Instead In Houston For Bowling Forum

HOUSTON—Jerry Instead of The Town and Country Bowling Lanes, Snyder is here this week to attend a Bowling Proprietors' Training Forum sponsored by American Machine and Foundry Distributors, Inc.

He will be receiving instruction on how to manage, operate and promote his bowling center from some of the nation's leading specialists in these fields.

Baylor Exes Sign With Los Angeles

LOS ANGELES (AP)—Two ex-teammates at Baylor University have signed playing contracts with the Los Angeles Rams for the 1960 pro football season.

They are tackle Paul Dickson and quarterback Buddy Humphrey. Dickson signed for 1960 and Humphrey for 1960 and 1961. The Rams have two other Baylor alumni, end Del Shofner and tackle Charlie Bradshaw.

DeGaulle Says His Nation, America Standing Together

By LEIF ERICKSON
SAN FRANCISCO (AP)—France and the United States stand together in wanting all peoples to determine their own destiny. Gen. Charles de Gaulle declared Wednesday night.

This goal of the common ideals of the two nations amounts to political realism in the modern world, said the visiting president of France in his address to a glittering banquet audience of 4,000 in civic auditorium.

The dinner capped a day started with a parade and welcome called the greatest San Francisco ever, has given a foreign chief of state.

De Gaulle winds up his first journey to California today with a tour of a major electronics laboratory, the new Palo Alto Hospital

and Stanford Medical Center in Palo Alto, then departs by jet transport for New Orleans.

De Gaulle, tall and austere leader of France in crisis, showed frank emotion. He stood two hours in the parade's slow progress through crowds that surged closely around his open car in the Montgomery St. financial district.

Police Chief Tom Cahill estimated the sidewalk throngs along the route at 250,000. He said it was the greatest crowd he had seen in San Francisco in his 30-year career.

The emotional peak of the day came at a reception by San Francisco's French colony at the Palace of The Legion of Honor. After shaking hundreds of hands, De Gaulle strode to a microphone and said:

"This is the first time I have come to San Francisco and perhaps the last."

The crowd shouted in protest, "Non! Non!"

With ringing pride in his voice, De Gaulle went on:

"The impression you make here renders a service to France."

"We have faith in our destiny. France, after a few hard years, now holds a good place in the free world."

"France now stands upright."

De Gaulle bowed and stepped back. The crowd burst into La Marseillaise. Handkerchiefs and tears were evident across the room.

At the civic dinner he rose to speak after Mayor George Christopher had likened him to America's Abraham Lincoln—"all not only in stature, but tall in intellect, tall in performance and tall in dedication to his country's ideals."

"The deep reason we are together in heart and spirit is that we have the same ideals, which correspond to political realism."

"Together we desire that all peoples of the world have the right of self-determination, within themselves as well as outside."

"France wishes wholeheartedly that, in the dangerous world-in which we live, you Americans and we Frenchmen will stay side by side to exert our actions and influence from one end of the earth to the other."

Burnetts To Open Store Tomorrow

Burnett's Department Store tomorrow will become Snyder's newest business establishment.

The new store is located on the north side of the town square in the building formerly occupied by the J. C. Penney Co.

Owners and operators of the store are Mr. and Mrs. John Burnett, who recently moved here from Rocky Mount, Va.

Burnett is a native of Rocky Mount, while Mrs. Burnett is a native of Lanesville.

They opened a store in Rocky Mount 13 years ago when Burnett was released from active duty in the armed forces. They will continue to operate the store there, but have elected to make their home in Snyder.

The Burnetts have a son, Danny, who will be a junior in high school next year. The family recently purchased a home at 2903 Forty-seventh Street in the Bassridge Addition.

Mr. and Mrs. Burnett said the new department store would bring top quality merchandise direct from the mills to the customers.

"Our objective is to bring the

JOHN BURNETT

people of Snyder top buys in clothing and shoes for the entire family," the owners said.

Conservatives Plan Parley

MARSHALL, Tex. (AP)—Conservative young Democrats plan to hold a convention of their own, the president of the Harrison County young Democrats club, George Draper, said Wednesday.

He termed the maneuvering at the liberal-controlled state convention of the young Democrats at Houston last week "sickening."

"Delegations of conservatives from Dallas and the University of Texas were rejected at the Houston convention. Draper said conservative forces are mapping a concerted plan of action to establish a legal convention."

He said a "parliamentary maneuver" resulted in a resolution endorsing Negro sit-ins which was adopted in the final moments of the Houston meeting Sunday.

Bishops Deplore Social Drinking

DENVER, Colo. (AP)—Methodist bishops, in their episcopal message to the church's quadrennial general conference Wednesday night, said that "even among Protestants, with our traditional emphasis upon sobriety, social drinking appears to be on an upward trend."

"This insidious endeavor to cover the vice of drinking with the cloak of respectability," they said, "demands an honest search for scientific truth and for the mind of Christ on this relentless problem."

Yugoslavia has a population of 16 million.

Nike Zeus Fired Today

WASHINGTON (AP)—An Army Nike Zeus antimissile missile test model was fired today from an underground launching site at the White Sands Missile Range, New Mexico.

An Army announcement said this was the first disclosure that the Nike Zeus, intended to destroy enemy intercontinental ballistic missiles in flight, might be launched from protected underground positions when it is ready for operational use.

Today's launching involved only the first-stage booster rocket with a 450,000-pound thrust. The second stage engine and warhead sections were dummies.

The Army also said that this was the first time that an engine with 450,000-pound thrust had been fired successfully from an underground launcher.

In the five previous Zeus tests, the missiles were fired from ordinary above ground launching pits.

The Army said all objectives in today's test were achieved.

Army officials said that an underground cell, if proven practical, would be cheaper to build and more resistant to enemy attack than aboveground launch.

Coffin Covers Are Found At Houston

HOUSTON, Tex. (AP)—Two steel coffin covers, each weighing 450 pounds—found from Ohio to Mississippi—were found Wednesday on the banks of White Oak Bayou.

Lt. Roxie Simmons said police were unable to determine how the covers were shipped or how they ended up near the bayou. They were found in cardboard and steel bands.

The covers were shipped by the Clark Vault Co., Columbus, Ohio, to the Jackson Casket Co., Jackson, Miss.

There are 19 countries or dependencies in the Near East.

Publishers To Conclude Parley Today

NEW YORK (AP)—The four-day annual convention of the American Newspaper Publishers Assn. closes today with election of officers.

Mark Ferree, an executive of the Scripps-Howard Newspapers, New York, was slated to succeed J. Tennant Bryan, of the Richmond, Va., Times-Dispatch and News Leader, as ANPA president.

An optimistic report on the future of newspapers was given the final session by Joyce A. Swan, executive vice president of the Minneapolis, Minn., Star and Tribune.

Swan conceded that growth of newspaper circulation had not kept pace with total population growth, but stressed that it exceeded that of adult population growth.

He said "daily circulation has

climbed 43 per cent since 1940 while adult population 18 years and over has gone up 24 per cent in the same period."

Swan also granted that there were fewer newspapers in 1959 than in 1949 but emphasized that circulation was at an all-time high of more than 58 million daily.

He said newspapers don't get the same percentage of total advertising they once did, but that investment in daily and Sunday newspaper advertising increased from \$1,916,000,000 in 1949 to \$3,517,000,000 in 1959.

Thief Comes Back For Rest Of Loot

MEMPHIS, Tenn. (AP)—An electric razor was stolen from a home April 16 but the burglar overlooked the cord.

John Leonard Owens, 40, Elledale, Tenn., was caught by police in the same house Monday night.

His loot: The cord.

Detective Chief Charles Young said Owens was charged with stealing both items.

Law Day Marked By Proclamation

Sunday will be "Law Day, U.S.A." and the local bar association has made plans to call special attention to the observance in this area.

Proclamations have been issued by executives from the President to mayors, and in Snyder the event has been officially marked by a proclamation by Mayor John Hamblen.

Hamblen's Proclamation follows the rights and individual freedoms which Americans accept as a government of laws and a system of independent courts in which every citizen enjoys equal protection and

proclaim Sunday, May 1, 1960, as LAW DAY in our community, and urge that our churches, schools, civic and fraternal organizations join in the observance through appropriate programs—the school and other civic observances to take place either on May 2 or on a date approximate to May 1. I also urge that members of the legal profession lend their support to the end that this important event will be made informative and meaningful for all our citizens.

John Hamblen, Mayor

A PERSONAL MESSAGE FROM

J. L. BROWNING
Consider this my personal invitation to attend our general meeting at the 37th Street Church of Christ from May 2 through May 11, Time 9:30 a.m. and 7:30 p.m. daily.

Your vote for this man will be justified — Let's elect him our Sheriff for the next four years.

"IT'S COOL INSIDE"

ARCTIC CIRCLE V-SERIES AIR COOLERS

ELECTRICITY

Your CLEAN way to cook

You'll be delighted to discover how little effort and care it takes to keep your kitchen fresh and bright when you cook with clean electricity. An electric range cooks with heat as clean as electric light so your kitchen utensils, walls and curtains require only a minimum of cleaning and care. And you'll be delighted with the many other pleasures of cooking the modern electric way. See your electric range dealer soon... or visit Texas Electric Service Company for information.

Clean electric cooking is another of the many ways in which your dependable low-cost electric service helps you live better... electrically!

Clean electric cooking is a feature of all "Live Better Electrically" Medallion Homes

TEXAS ELECTRIC SERVICE COMPANY
B. L. BROWN, Manager Phone HI 3-5461

On the hottest days you can be sure it's cool inside when you cool your home with an Arctic Circle V-Series Air Cooler.

Its powerful multi-blade blower brings in a steady flow of fresh air—cleans it, cools it and circulates it in your home, driving out stale, used air and tobacco smoke.

Arctic Circle V-Series Coolers are the result of more than twenty-one years of leadership in cooler design. They are years ahead in features that assure better cooling, greater convenience and more dependable and economical service—features unmatched by any other coolers.

NEW SNAP-LOCK PAD FRAMES **NEW RECESSED COOLER PADS**

To remove—just lift the two snap locks near the top of each frame and pull the frame toward you. No tugging. No struggling! You replace merely set the frame in position and snap the locks down. An exclusive V-Series feature.

A diamond mesh steel separator holds the motorized cooling pad away from the louvers—minimizes alkaline deposits on the louvers and adds extra years of service to the pad frame. Another exclusive V-Series feature.

PLUS: MICROGLASS to keep out dirt and pollen. ALL WELDED cabinets of DURCO-COATED steel and many other exclusive features.

Sun Photo By Own X-Rays Is Obtained

By FRANK CAREY
Associated Press Science Writer
WASHINGTON (AP) — Using "shoobox camera" techniques in a space rocket, the Navy has obtained the first picture of the sun by its own invisible X-ray light.

Dr. Herbert Friedman of the Naval Research Laboratory reported the development today in a paper prepared for the annual meeting of the Academy of Sciences.

X-rays from the sun help at times to bevel radio and other communications on the earth. And the new experiment conceivably will help in the effort to combat them, the report indicated.

Friedman said the unique photo of the sun was taken last week from a rocket soaring 130 miles above New Mexico. The experiment used a camera based on the pinhole method familiar to a lot of do-it-yourself amateur photographers.

This is a method in which a pinhole is poked into one end of a shoebox to admit light, while a tiny square patch is cut in the other end of the box and covered with tissue paper to serve as a viewing piece. The image on the tissue paper appears inverted and its size is proportional to the length of the box. The finer the pinhole, the sharper the image.

In the Navy's rocket camera, Friedman said, the pinhole was only five thousandths of an inch in diameter and the camera was only six inches long. Thus, visible light was blocked but X-rays from the sun got through.

These X-rays do not penetrate the earth's atmosphere below a height of 60 miles, but the high-flying rocket-borne camera — as evidenced by a photo Friedman displayed — caught the sun in sharp array.

These X-rays do not penetrate the earth's atmosphere below a height of 60 miles, but the high-flying rocket-borne camera — as evidenced by a photo Friedman displayed — caught the sun in sharp array.

Turned Down By Orphanage

FORT WORTH, Tex. (AP) — Buckner Orphans Home in Dallas has refused to admit Kyle Adcock, 3, whose parents met there in a love match that ended in a shotgun killing at nearby Arlington, Tex.

His father, Alton Richard Adcock, is in jail here accused of murder in the April 22 slaying of his pretty wife, 22. Adcock has admitted the killing.

Supt. G. G. Dickey of the Baptist orphanage where the Adcocks fell in love as inmates, explained his decision not to admit their child this way:

"We felt it wasn't wise if any other place for the child could be found. The cards would be stacked against the boy if he were reared here."

"Everybody here knows about what happened, and we just don't think it would be the environment for a child to grow up in. It would be packed and charged with memories of this heinous thing."

An aunt is keeping the child, Nell Clay, who was a baby sister for the couple, said she understood Adcock wanted the boy placed in the Buckner home.

Urges Unity In Churches

LUBBOCK (AP) — A San Antonio minister called for unification of Christian churches as the Texas convention of Christian Churches opened Wednesday night.

Dr. Earl Waldrop, pastor of the Central Christian Church in San Antonio and president of the convention, said Christian churches in Texas must add 4,000 members per year during the 1960s. He called it a "decade of decision."

Dr. Tilford Swearingen, of Fort Worth, was installed as chief executive of Texas Christian Churches, the first such officer in the state. His appointment was termed the first step in a program of unification during the next 10 years.

More than 7,000 ministers and lay persons are expected for the convention, which runs through Sunday.

Dr. Earl Waldrop, pastor of the Central Christian Church in San Antonio and president of the convention, said Christian churches in Texas must add 4,000 members per year during the 1960s. He called it a "decade of decision."

A PERSONAL MESSAGE FROM

ART ROBERTS
I want to extend a personal invitation to all my friends in Snyder to attend a series of gospel lessons at the 37th Street Church of Christ Auditorium, May 2nd through 11th.

Youth, 19, Is Executed

HUNTSVILLE (AP) — Neaveel Moon, 19, convicted of killing three persons, died in the electric chair early this morning at the State Prison while repeating over and over, "I'm innocent, I'm innocent, I'm innocent."

A last-minute effort by his attorneys to save the Houston youth failed.

Moon was pronounced dead at 12:09, seven minutes after entering the death chamber and four minutes after the first charge of electricity.

He was convicted of the shooting death of Bertram J. Appleton, Appleton's son, Roy, 11, and Lee W. Hanson, all of Houston. They were shot in some woods after giving Moon permission to fire their .22 caliber pistol. Moon took their wallets following the shooting.

He signed a confession and his only defense was insanity.

When asked by Warden H. E. Moore if he had anything to say before being executed, Moon replied, "Yeah, I'm innocent."

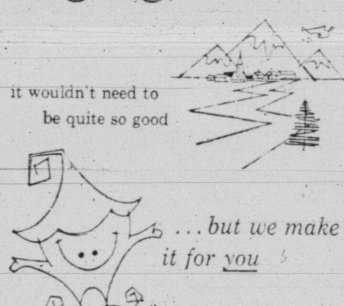

Moon was visited by his mother, father, four sisters, four brothers, an uncle and aunt and attorney Ray Reeves of Houston Wednesday.

Reeves told newsmen after the meeting that he believed Moon was insane.

Funeral services were to be held this afternoon at the Concord Baptist Church near Centerville in Leon County. His family lives in Houston but formerly lived at Centerville.

He signed a confession and his only defense was insanity. When asked by Warden H. E. Moore if he had anything to say before being executed, Moon replied, "Yeah, I'm innocent." If we made Gladiola Flour for Zigzag, Ore...

it wouldn't need to be quite so good

...but we make it for you

Gladiola Land is just a little bigger than Texas. What's it famous for? Biscuits, cakes and pies turned out by the best home bakers in America.

When it comes to flour, these ladies are as choosy as a princess picking a husband. Only snow-white Gladiola Flour is good enough. So, naturally, it outsells every other brand.

If you're from Zigzag, Ore., we hope we haven't hurt your feelings. We just wanted to make sure you realize that Gladiola Flour is different. It has to be. And by the way, it costs only about 1¢ a day more than the cheapest flour.

Bake and be Glad—with

GLADIOLA FLOUR

The best-selling flour in the Southwest

(Zigzag is a little south of Portland—but not straight)

Chessman Is Calm, But Busy

By MOE RAISER
SAN QUENTIN, Calif. (AP) — How is Cary Chessman spending his final days awaiting his ninth scheduled execution May 27?

The convict-author is a calm but busy man—with mixed emotions.

One moment he is hopeful. The next he believes his 12-year fight for survival will end in the green gas chamber next Monday.

Many of Chessman's daytime hours are occupied by newsmen and photographers from many parts of the world.

They visit him in a small room and one question invariably asked is, "How do you feel about your coming execution?"

"When I saw Chessman this week he commented, 'If you ask me how I feel about my approaching execution, let me say I do not believe I can project my feelings to anyone. I have been through this so many times that I just can't say how I feel.'"

"If I should live, I would like to drop back into complete anonymity. This life in a goldfish bowl is not pleasant."

Chessman was convicted in 1948

as the Los Angeles "Red Light Bandit" who forced sexual abuses on two women victims.

He has steadfastly denied the charges. He has refused to "finger" or identify a man he says was the bandit. Although all of his judicial appeals are exhausted.

Chessman's eighth scheduled execution was last Feb. 19. A 60-day reprieve by Gov. Edmund G. Brown saved him then.

Chessman described his nearness to death as terrifying.

"It's almost as though you're walled off from the living. There is an awareness, hard to describe, that pours in on you, like waves pounding against a beach."

He will face the same ordeal again soon. He sits in small cell at night and waits, and reads until late in the morning. He sleeps only five hours, eats sparingly.

His typewriter is stilled. From it flowed countless court appeals, short stories and four books, including "Cell 2455, Death Row," a best seller.

Chessman still has things to do before May 2. He must arrange for disposal of his estate, which he said is small. And for his own funeral.

Reeves told newsmen after the meeting that he believed Moon was insane. Funeral services were to be held this afternoon at the Concord Baptist Church near Centerville in Leon County. His family lives in Houston but formerly lived at Centerville.

Perle-Mesta Picks LBJ For President

DALLAS, Tex. (AP) — Former ambassador and noted hostess Perle Mesta Wednesday predicted Sen. Lyndon B. Johnson, D-Tex., would be the next president of the United States.

She said that in 1956 she called the senator her favorite candidate. "I guess I was too early," she said.

Revenue Agents Use Water Pistol

PITTSBURGH (AP) — Internal Revenue Service agents raiding an alleged numbers establishment Wednesday used a water pistol to keep the watchdog away.

The officers squirted ammonia at the dog. One whiff and he took off. But the agents found nobody in the place.

In three other raids, however, the agents nabbed seven men on charges of failing to obtain federal gambling stamps.

Lily Pons Picks Dallas For Home

DALLAS, Tex. (AP) — Lily Pons, the opera singer, has moved into a swank Dallas apartment and announced that from now on this will be her home.

"But of course I will keep my Palm Springs home. I expect to spend the winter there," she said Wednesday.

Her furniture was trucked from New York, where Miss Pons lived for 15 years.

"Why am I moving to Dallas? I have many friends here. And I like the nature — the flowers and the plants."

Racial Issue May Plague Methodists

By GEORGE W. CORNELL
 AP Religion Writer
 DENVER, Colo. (AP)—A racial-ly partitioned church structure which enabled Northern and Southern Methodists to unite 20 years ago, today loomed as a possible wedge that could drive them apart again.

This was the crucial issue faced by the nation's largest Protestant denomination, as the quadrennial Methodist General Conference went into its first session on the matter.

On the eve of the test, bishops of the church said Wednesday night that the outcome will have a greater effect than any other conference decision on the present and future strength of Methodism in America and beyond.

Up for consideration was a complex, explosive report on racial policy, drawn up by a 70-member

commission in a four-year, \$200,000 study that involved public hearings in 24 cities across the country.

It recommends continuance of a separate administrative jurisdiction for Negroes, arguing that this gives them the strongest voice in top echelons of the church. But the system is keenly opposed by some Northerners as a "symbol of segregation."

On the other hand, the report also proposed linking jurisdictional affairs, both white and Negro, more closely with the overall church government. This feature is strongly protested by some Southerners as an invasion of regional autonomy.

The 74 bishops in their keynote episcopal address, commended the "general method and spirit" of the report, and said no course "will be acceptable that disregards the rights of any major segment of the church."

But they also reminded the 800 voting delegates of the church's official stand against any "racial discrimination or enforced segregation."

"Our problem is not a new pronouncement but to bring our actions into line with our professions," they told the church's supreme governing body.

In Alabama and Mississippi, some Methodists in resistance to any scrapping of the jurisdictional setup, have backed passage of state laws authorizing them to withdraw church property from the denomination. A similar law is being pushed in Delaware.

Churchmen North and South have said the unity of the 10-million-member denomination rests on the solution.

Charles C. Parlin, New York attorney and chairman of the study commission, defended retention of the separate Negro jurisdiction as giving Negroes higher representation—16.7 per cent—in top church agencies than their numbers—3.7 per cent—could command if placed in white jurisdictions.

Sculpture In Cedar Goes To Ashpile

PORTLAND, Ore. (AP)—A mammoth, 24-foot-high modern sculpture in cedar called "Monarch of the Forest" fell victim of the ashpile.

"I'm outraged," bemoaned the sculptor, Manuel Izuquero Wednesday.

"I'm guilty," asserted Thomas Kerr, new president of Pacific International Livestock Exposition.

Richard Jeh Stewart, who recently paid an undisclosed sum for the Monarch that had cost lumbermen who commissioned it \$150,000, said he would sue for full value.

The Monarch was created in three months by Izuquero, who said it symbolized "the lumber and forests of Oregon." It was an assortment of wood shapes, jutting in all directions.

It had stood in the center of the Forest Products Building at the Oregon Centennial Exposition here last summer.

Stewart revealed Wednesday that about 10 days ago it was burned on a dump. He said he had planned to have it taken in parts and reassembled at a summer art workshop near Salem.

Kerr, obviously agitated by the commotion over the work, said the sculpture "was partially destroyed and had been dismantled by vandals."

He added, "Kids had gone in with hot rods, whirled around it. It seemed sensible to get it out of there. It was a fire hazard and blocks from it could be used to smash windows and damage property."

Kerr said he met with the P.I. exposition board and they agreed that it should go. "It was no value to us," he added.

"I think it was an interesting use of wood, but when we took it over it wasn't of any value to anyone," Kerr said of the Monarch.

Izuquero, the artist, quavered. "It is very sad. The idea of burning it, burning it without consulting anyone."

"Do quote me as very chagrined and saddened."

Teacher Is Fired For 40 Paddlings

PITTSBURGH (AP)—Bohdan J. Pashkowsky, 30-year-old Langley High School teacher, has been dismissed because they didn't know their lessons.

The Pittsburgh Board of Public Education's decision came Wednesday night after a lengthy hearing.

A resolution passed unanimously by the board said, in part:

"Mr. Pashkowsky did on March 18 willfully and grossly violate the rules of the board by the mass use of corporal punishment as a teaching technique."

There were 48 excursions under civil law in the United States in 1959.

ANNIVERSARY PICTURE

New Items Added Daily To Expanding Arizona Scenery

BY INEZ ROBB
TUCSON, Ariz. — Something decidedly new, something decidedly old and something decidedly interesting has been added to this mushrooming community in the few days I have been here.

The something new, just announced by Uncle Sam, is an \$80,000,000 Titan intercontinental ballistic missile base. The something old, so precious that no real value can be placed on it, is a gift by the Samuel H. Kress Foundation of 26 paintings by the 15th Century Spanish artist Fernando Gallego to the University of Arizona.

And the something decidedly interesting is a grant of \$114,900 by the National Science Foundation to the university to "further its attack on the problem of controlling clouds." That term, boiled down for us peasants, means the problem of rain-making.

The rain-maker and his abracadabra go back to the dawn of time. He has been the butt of much credulity and an equal amount of mirth. But science, the dour ex-machina of the 20th Century, has been getting further and further into the act.

Now the National Science Foundation is willing, to the tune of \$114,900, to back the studies, over a three-year period, of the modern rain-maker. In this instance he is Dr. M. L. Corrin, physicist of the University of Arizona, who has already made a pilot study of the project.

The university's Institute of Atmospheric Physics has already had a gift of \$250,000 to examine the nature of clouds and the possibility of changing them, i.e., of squeezing more water out of them, particularly with silver iodide.

"This is the type of research where you follow your nose," says modest Dr. Corrin. But if Dr. Corrin's nose leads to more rainfall

in this and other desert lands, grateful desert rats will erect a statue to his school.

The latest Kress gift to the University of Arizona, for which the state has constructed a special building, is the famous retablo of the Cathedral of Ciudad Rodrigo. It is regarded as the climactic work of the Hispano-Flemish schools. It is a special treasure in a community marked by Spanish and Mexican influences.

Rush Kress, 82, who succeeded his late brother as head of the foundation, presided at the ceremonies attended upon unveiling the prodigious gift. Mrs. Kress, a University of Arizona alumna, was also on hand to applaud the enrichment of her alma mater.

The Gallego retablo extends the previous gift of Renaissance art from the Kress Foundation to the university. This university, which produces a rodeo as well as a football squad, owns a gallery of mouthwatering masterpieces by such artists as Tiepolo, Ribera, Cranach, the Elder, Del Sarto and Tintoretto, thanks to the Kress Foundation.

Now the university is embarked upon a new and commendable venture. It is planning to take a portion of its splendid collection to small communities throughout the state. Like the bookmobiles or traveling libraries that are a fixture of the American scene in thousands of small and rural communities, the university's artmobile will take masterpieces of painting to the people, instead of books.

The details of this project are not yet worked out, but it is probable that the exhibit will travel at first in two station wagons. Then the pictures will be hung temporarily in any hall available in the community.

However, there is talk of a specially equipped van in which, eventually, the pictures could

travel and be shown, but it is the decision of the university to take its art on the road for the enjoyment and edification of small communities that I find so noteworthy. More noteworthy even than an \$80,000,000 ICBM base. If man has the sense God gave geese, the art will be here long after the base has been forgotten.

Copyright, 1960, by United Feature Syndicate, Inc.

Little Likely To Happen At Summit

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The American people are being prepared not to expect much more from the Paris summit meeting May 18 than a pleasant get-together between the West and the Soviet Union.

Is anything going to be solved there? Probably not. President Eisenhower Wednesday and French President Charles de Gaulle last week played down the idea of solutions and played up the hope the summit would produce better relations with the Soviets.

A great deal of time, a number of meetings, and a lot of visiting back and forth by heads of state and their foreign ministers have gone into the preparations of the Western Allies for the Paris conference.

What they seem to lack is new

Little Things Add A Lot To Man's Life

By HAL BOYLE
NEW YORK (AP)—It's the little things that stand out in a life. The scientists may invent atom bombs and moon rockets, and the statesmen crap-shoot for the world at summit meetings. Rebellions may arise and earthquakes come and go. Your average man is more likely to remember the day they came out with a new kind of beer bottle cap.

The big glories and big disasters find a page in human history. But it is the small glories—the little disaster, that write the history of the individual human heart.

Our memory—which is our life—is a summary of unforgettable personal moments which had no impact on the world at large but which changed us forever. Add these moments up and what do you have? Yourself.

One man's mental album, for example, might contain such landmark moments as:

Stabbing your foe as a barefoot child and reaching the philosophic conclusion, in the midst of excruciating pain, that you could not be physically immortal, or you wouldn't hurt so.

Staring at yourself in the mirror as a small boy until your mind reeled at the mystery, "Who am I? What am I?"

The thrill of pride when you finally learned to whistle through your front teeth. Later, after you got your upper plate, you had the problem of learning how not to whistle.

The thrill of pride when you saved up enough money to buy your first pair of long pants and felt at last you were a man.

The thrill, 40 years later, when you put on your first pair of Bermuda shorts, of feeling almost like a boy again.

The pleasant discovery, the day your Boy Scout outfit arrived, that the girls really do go for a guy in uniform.

The later discovery that while women enjoy being put on a pedestal before marriage, after marriage they'd rather sit down, take their shoes off, and rest their feet.

The day you first noticed your mother was getting gray hair, and the day the barber confided your own hair was getting a bit thin on the top.

ideas. What they seem to have is rigidity. If all that the statesmen and diplomats have said—in speeches, statements and communications—could be wrapped into one tight bundle this would be it.

They are determined to stand solidly together in resisting Soviet demands; they haven't talked of making demands of their own.

At his news conference Wednesday Eisenhower was asked about his hopes for the summit session with De Gaulle, Soviet Premier Nikita Khrushchev, and British Prime Minister Harold Macmillan.

"I think the most we can hope for, at this time," he said, "is ease of tensions, so some evidence that we are coming closer together—sufficiently so that people have a right to feel a little bit more confident in the world in which they are living and its stability."
