First Cycle Rally Here On August 1

Wellington Cycle Club will host its first motorcycle rally, the Golden Spread Poker Run, Sunday, August 1.

Between 250 and 300 participants are expected, and with them will come their families and motorcycle enthusiasts from throughout a wide area, according to John Alf Thomas, vice-president of the club, who is spearheading plans.

The rally itself will be headquartered at Collingsworth Pioneer's Park with registration starting at 12:30 p.m. and the run at 2:00.

A meal, the time yet to be decided, will be served and there will be free soft drinks, and drawings for merchandise.

Racers will follow a marked course of around 70 miles on surfaced roads and trophies will go to first, second and third place riders, first place passenger and the one coming farthest to participate. Everyone who registers will get a Wellington Cycle Club tour pin.

The public is invited to come and watch, Thomas said. The rally is open, and anyone can enter who wishes to, with discounts going to Texas Road Riders Association members.

Mr. Thomas explained the operation of a poker run, which is for big machines.

Speed is not the biggest factor in winning, and luck plays a major part.

Riders will follow the indicated route, all on pavement. Intersections will be marked 100 feet before they are reached, each marking indicating a turn. However, the riders will not know which direction to turn, and each makes a choice. If it is the correct one, he will pass a white marking a little distance away. If it is the wrong turn, he sees no marking, turns around and tries another

Bob Price Brings Race to County

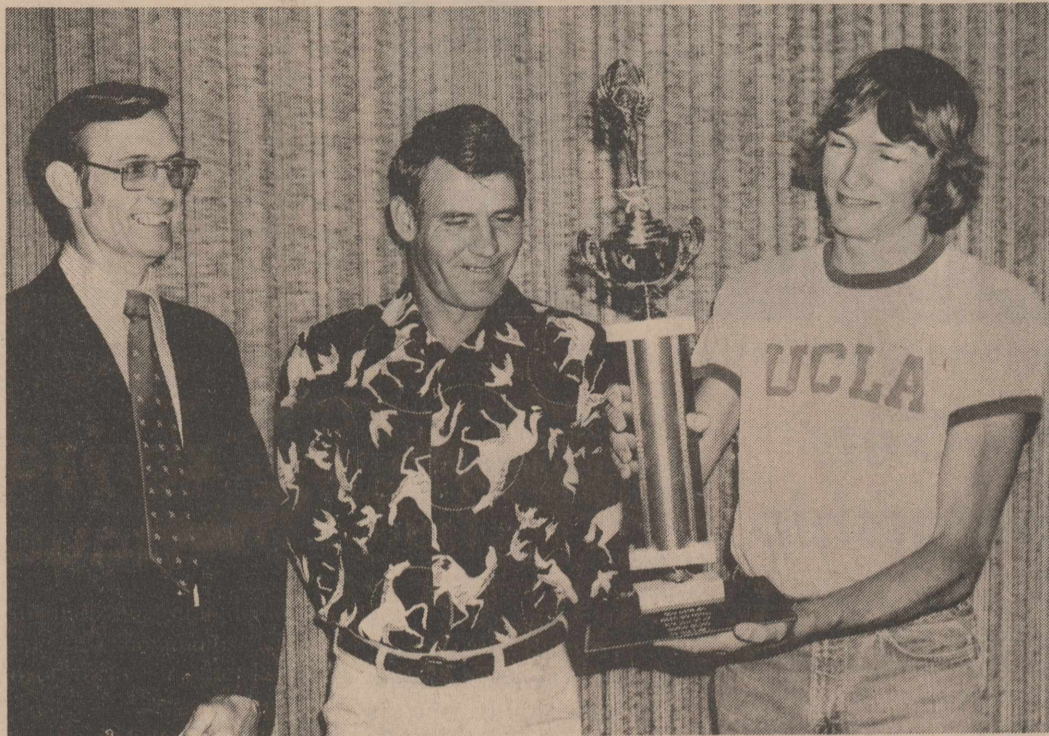

Speaking before a group of Collingsworth County supporters Tuesday evening, Bob Price, candidate for United States Representative, said he believes: "the people of this district want a representative who has experience in business, who is capable of deriving solutions to problems, and who can provide innovative ideas."

This meeting was held in the home of Mr. and Mrs. J.C. Hartman west of Wellington and attended by approximately 25 Republican leaders.

The former congressman told the group he had been running a combine all day and got down off of it just in time to fly to Wellington. He was accompanied by Rex Boynton of Pampa.

In his informal talk, Mr. Price urged that Congress enact a fast tax off for business as an incentive to business growth. This would in turn cut unemployment and the accompanying welfare payments.

He opposed renegotiation of the Panama Canal, calling it "vital to the defense of the country, and we have never denied anyone the use of it.

BOB LILLY AWARD

Jack Neeley, left, chairman of the Collingsworth County Easter Seal campaign, has presented the Bob Lilly Award to Shane Tarver, a Skyrocket. Coach James Williams looks on. The Rockets raised more money for the Easter Seal Campaign than any other high school team in the state.

Skyrockets Win State Bob Lilly Trophy

The Skyrockets have won again!

The Wellington High School Skyrockets are the winners in the Class A division of Lily Day for Crippled Children on behalf of the Easter Seal Society for Crippled Children and Adults of Texas. The contest chairman is former Cowboy Bob Lilly.

Notice of the award was received by Head Coach James Williams from William E. Russell, executive director of the Easter Seal Society for Cripple Children and Adults of Texas.

To win this award, members of the Skyrocket football team raised more money for the Easter Seal Campaign than any other Class A high school team in Texas—\$276.06. In fact, they raised more money than the winning AA team, the Spearman High School Lynx.

A handsome trophy, one of the largest that will rest in the school's trophy case, was received and presented by Jack Neeley, a vice-president

of the Wellington State Bank, and long-time county chairman of the Easter Seal Campaign. Receiving the award on behalf of the team was Shane Tarver.

"My personal 'thank you' to each member of your team who helped make Lily Day a success," Mr. Russell told Coach Williams.

Winners in the other

classifications, with the amount raised, included:

AAAA Odessa High School Bronchos, \$2,600.25.

AAA Ector High School Eagles, \$1,714.19.

AA Spearman High School Lynx, \$241.52

B Santa Anna High School Mountaineers, \$133.68.

Two Injured in Spectacular Wreck

Two men were hospitalized, four head of cattle lost and a cattle truck and pickup heavily damaged in a rear-end collision one-half mile north of Wellington on US 83 shortly before 1:00 p.m. Friday, June 18.

The highway was partially blocked until about 3:30 and traffic was directed around the wreckage, or along First Street to FM 1035 and State 203.

Roy Allen Newman, 63, driver of the pickup, was taken to Collingsworth General then transferred to St. Anthony's Hospital as a precautionary measure, according to Highway Patrolman Jackie Gunnels, who directed the investigation. He was treated for three broken ribs and other possible injuries.

Driver of the 1975 White truck-tractor semi-trailer was identified as Derrell Caver, 26, of Prattville, Alabama, driver for D.G. Gilbert, Co., of Montgomery, Ala. He was hospitalized for a slight cut on the head and bruises.

Sheriff John Rainey and his department assisted in the investigation and handling traffic.

Patrolman Gunnels said both vehicles were traveling north on US 83 when Caver apparently fell asleep and hit the pickup from the rear, pushing it into the east bar ditch, where it overturned. The truck jackknifed and fell onto the left side, then skidded 50 to 60 feet and stopped with the cab in the

Dodson and Quail May Lose Post Offices

The Dodson Post Office is under review by the Management Section Center, Lubbock, with the possibility that it may be closed.

Dodson boxholders and Route 1 patrons received notification of the review in form letters on Tuesday, June 15, they have told The Wellington Leader. The letter requested a reply by June 21, with suggestions or comments on the closing.

Elmer J. Reed, Jr., management Section Center manager, Lubbock, was in Dodson Friday, June 11, for a survey, he told the newspaper. Dodson residents, as completely united on this as on anything the town has faced in many years, are almost unanimous in saying closing the post office at this point would severely penalize the town after a year of unusual

progress. In lieu of a post office, the postal service would offer rural or star route service out of Wellington. "...so that it

will not be necessary for you to walk to the postoffice," patrons were told in the letter. Carriers would also accept mail for dispatch, sell stamps,

money orders, etc. Many of the patrons have filed opposition to the change, not only with the Management Section of the Center,

Wellington Loses Sunday Mail Delivery Service

Postmaster L.B. Bratten has been notified that effective Sunday, July 4, the Sunday run of the contract star route between Childress and Shamrock, serving Wellington, will be discontinued. This means that Wellington will have no incoming our outgoing mail on Sunday.

This notification came from the Post Office Department Section Center in Lubbock.

In addition, the customer

window of the Wellington office will not be open on Saturday, Mr. Bratten added. Saturday, July 3, is the last day for this service.

In so far as incoming mail is concerned, the only ones hurt by the discontinuance of Sunday mail are those who have post office boxes. "Our biggest concern now is those who receive the Sunday Amarillo Globe News, 26 patrons. For the interim period, I will go down and put

those papers in the boxes on Sunday morning," Mr. Bratten said. The ultimate solution will be for the reader to have the paper delivered by carrier or buy it at the news stand if they want to read it on Sunday. Route patrons have been getting their Sunday papers on Monday all along. Mr. Bratten warned that the last mail dispatch for the week end is 4:30 p.m. Saturday, and this is mail deposited in the boxes at the curb.

Hay Camp Hosts Second Big Golf Tournament This Week

Hay Camp Country Club will host its second major golf tournament of the season, the Tall Tower Open, Saturday and Sunday, June 26 and 27, with a full field of 120 playing.

The tournament is sponsored annually by KVII-TV, Amarillo, and each year a different course is chosen.

Hay Camp Golf Professional Jim Terry said tournament plans are complete. Players will come from an area ranging from Oklahoma City to Albuquerque, N.M. Many Panhandle and southwest Oklahoma towns will be represented, and Wellington has given excellent response. At the deadline, 129 men had signed up. A number had to be turned away.

The breaking point is a 13 handicapper. Those below 13 will play in the afternoon and 13 or higher will play in the morning, Terry said.

There will be a shotgun start at 9:30 for the morning groups both Saturday and Sunday. The afternoon groups tee off at 2:30 p.m. Prizes will be \$100 per flight, \$50, \$30 and \$20 for first, second and third places.

All those playing will receive bag tags and T-shirts. Lower Panhandle-Southwest Oklahoma people are invited to come out and form the gallery, going along with the players to watch the action. There will be no charge for this, Terry said.

"We will have some very fine golfers" said Terry. "There will be some zero handicapp players who may not be known locally, but are some of the finest players in the area. Most of the top Wellington players are in."

Some players from over the area have been to Hay Camp to practice, one or more times, and they are impressed with what they saw. "Some have come back several times," according to the pro.

"All of them like the course. They find it a little more confining than some they have played on in the fact that the rough is rough. When you get on the green, it's not a cinch to putt. It's headwork all the way. You've got to think your way through. We don't have a long course, but it's a thinking man's golf course. There are no cince putts and a lot of breaks on the greens. It

requires every shot in the books.

Golf carts are available to players on reservation basis. Food will be served at the pool both days.

There will be a dance Saturday night for the contestants and their wives at Hay Camp Country Club House. This starts at 9:00 p.m. with music by the Show Buds

from Childress.

The Ladies Golf Association will have a contest Saturday and Sunday for those coming nearest to the hole on third and fifth holes. Prizes will be given.

"We want all visitors to feel they are members of the club, and they will be treated like members. We want them to use the pool, the bar, the

club house, the dance floor—all the facilities," Terry declared.

The golf course is a little on the dry side, the pro said. As much as can be covered is being irrigated. Because of this, players are asked to keep their carts on the cart trails and not go onto the fairway with them. This condition will be

CATTLE RESCUE

Volunteers worked to remove cattle from this overturned semi-trailer rig which overturned north of Wellington Friday. A hole large enough for the animals to pass through, was cut in the trailer roof and this cattle trailer backed against it. Other men were inside prodding the frightened cattle to leave. Sheriff John Rainey is at the back of the trailer. A similar operation was under way at the back of the rig.

Railroad Commission Postpones Gas Hearing

The Texas Railroad Commission has postponed indefinitely the hearing on a motion by the City of Wellington to dismiss the Lone Star Gas Co. appeal from the action of the city council in denying them a rate increase, Paul Spillman, city legal representative, told the City Council Monday, June 21.

In other action during that short session, the council voted to give \$100 to the Collingsworth County Bicentennial Committee for its fireworks fund. The committee proposes the largest fireworks display in Wellington's history

for the closing night of the County Fair Saturday, September 11.

The Council also entered into an agreement with Mrs. T.B. Wilkins to reimburse her for the cost of water and sewer installation on residential lots she is developing in southeast Wellington. This is in keeping with the policy now followed by the city.

Mayor Bill Hatch reported that Mrs. Cheryl Pentina of the Dallas office of Housing and Urban Development and Benny Lawrence, director of regional planning of Panhandle Regional Planning Commission, were here for an on-site inspection of improvements proposed by the city in its application for block grant funding of almost \$100,000. They, with Mayor Hatch, City Manager Tiny Taylor and County Judge Zook Thomas

visited those parts of Wellington which would benefit from the funds. The two were pleased with the improvements, which would be carried out, the mayor said.

In another motion, approval was given to install a lowered ceiling in the firemen's room on the second floor of Bura Handley Community Center. It has been damaged through use.

Immediately after the council adjourned Mayor Hatch left to attend a Civil Defense meeting in Austin, held Tuesday through Thursday. Mrs. Hatch accompanied him.

Present for the meeting were Mayor Hatch, Mr. Taylor, Council members Lyndon Crelia, Tom Wilkins, Gus Barton and J.L. Harper, and Mrs. Lorene Jenkins, city secretary.

Farm Bureau Queen Contest Announced

A beauty to wear the 1976 Collingsworth Farm Bureau Queen crown, and a talent team to represent the county, will be chosen Saturday, July 24. These are two of the major community honors available to young people here.

The contest will be held in Bura Handley Community Center at 8:00 p.m. with out of town judges making the selections. Albert Fulcher is contest chairman.

The winners chosen will represent the county in District 1 competition at Amarillo later, and may

possibly follow other girls and other talent teams who have represented the Panhandle on the state level.

State winners receive a trip to the National Farm Bureau Convention late this year.

Entries will be accepted in both contests until the time of rehearsal Friday evening, June 23, but anyone who takes part in the contests must also be present for the rehearsals, emphasized Mrs. G.N. Davis, Farm Bureau office manager.

Linda Coffee is the reigning Collingsworth County Farm

Vernon Dusters Take Softball Tourney Title

Vernon Dusters won the Wellington Invitational Slow-Pitch softball tournament over Budweiser of Amarillo 4-3, when Railsback hit an incise-the-fence home in the bottom of the sixth. The score had been tied 3-3 through two innings of play.

The game was played at 6:00 p.m. Sunday, June 20 to end the double elimination tournament. Budweiser had lost an early game and was then forced into four consecutive games Sunday afternoon, which they won, before coming up against Vernon. This in itself was probably a determining factor in the outcome of the championship game.

Crowell Rangers placed third in a game played at 5:00 p.m. Sunday, which Budweiser took 13-7. Cary Klein, Vernon Catcher, won the Outstanding Player trophy.

Big crowds were present for much of the tournament, even the late night games, and there was much comment by both players and spectators on the fine new facilities Wellington's Marian Airpark has to offer. The stands were filled for many of the games, and spectators milled about hunting a good watching point. Others sat in cars that ringed the field outside the chair-link fence.

Home runs were frequent, but high wind during part of the play limited over-the-fence runs to two.

There were no injuries. Of the Wellington Softball Association teams, Calvary Baptist of Childress remained in play longest, dropping out only in the finals of the loser's bracket to Mr. Burger, 7-4.

The championship was decided when Vernon's Railsback homered in the bottom of the sixth, breaking a 3-3 tie that had lasted through two full innings.

Budweiser failed to score in the top of the seventh, and that ended play.

Burton was the winning pitcher, while Payne was tagged with the loss. There were no substitutions in this game.

Vernon scored three runs in the first inning, off the bat of Shelton, Barton and Kline, coming up consecutively.

Curtis scored in the second for Budweiser, and Evans and Payne crossed home plate in the third. That was all of it for the Amarillo team.

In the game just prior to this, with Budweiser defeating Crowell Rangers 13-7, the winners scored six runs in the first inning. Three of these were in-park home runs by Trickey, Jones and Curtis. Maples Jackson and Van Bakel scored on runs.

Van Bakel scored again in the third. Maples and Jackson came across home plate in the fourth, Morrow hit an inside fence homer in the fifth.

Maples and Evans came across on hits in the sixth and Morrow got a hit in the

seventh. Crowell scored three times in the first period, and four in the seventh. Whiteley had a run each time, Ryan came in during third; Varquizo scored in both innings and his brother, another Varquizo, homered in the third. Christopher came home on a hit in the seventh.

ford's Conoco 1.

The former congressman strongly opposed increasing the national debt or deficit spending.

"Many people are riled up about the presidential race. They should place more focus—more attention should be paid to congress. Congress passes the money bills. The president just carries out these orders."

"The present Congressman has failed to exert any leadership," Price stated, "he has not introduced any proposals to solve problems, nor has he presented any constructive approaches to deal with district or national concerns."

Furthermore, Price asserted, "Our current member in Congress, in the last session, spoke a sum total of 30 seconds before the House of Representatives. When Congress meets each day to consider proposals drafted in committee, normally the legislation is debated before final vote. The record clearly shows our Congressman failed to speak out on hundreds of pieces of legislation raised for discussion."

Price mentioned several key pieces of legislation he sponsored which have become law:

The Emergency Livestock Loan Act.

The escalator clause adopted in present Agriculture farm Bill.

Increase in Farmers Home Administration farm operating loan from \$35,000 to \$50,000.

Increase in FHA farm ownership loan, \$50,000-\$100,000.

Burleson-Curtis estate tax bill recently adopted (Price introduced this legislation in 1967).

He said complete copies of Legislation sponsored by him are available by writing: Bob Price Headquarters, p.o. box 2476, Pampa, Texas 79065.

In concluding the Wellington meeting, Price urged all in attendance to support his candidacy and to work for his November re-election.

Ending Friday's play at midnight was First Baptist Blue of Amarillo 13, Johnny Mote's Garage 9.

SATURDAY PLAY:

Mr. H's of Amarillo 10, Levi Strauss of Amarillo 5.

Budweiser of Amarillo 13, Mr. Burger of Amarillo 10.

This ended first round play. Games in the losers bracket started immediately at 10:00 a.m. and included:

Calvary Baptist 18, Martin Seed 6. The loser in this and other games that followed in this bracket were out of play.

Owens Farm Service 13, Davis Thriftway of Memphis 11.

Johnny Mote's Garage 17, Langford Conoco 10.

Mr. Burger of Amarillo 13; Levi Strauss of Amarillo 5.

Calvary Baptist of Childress 11, Owens Farm Supply 10.

Mr. Burger 16, Johnny Mote's Garage 7.

Saturday play ended with Mr. Burger winning over Calvary Baptist 7-4 in the midnight game, and Mr. Burger advanced to play in the winner's bracket.

Play in the winner's bracket opened at 2:00 p.m. with Crowell Rangers defeating the Childress A's 16-14. Other second round games were:

Anthony's of Pampa 12 and Hardin & Roth of Pampa 6.

Vernon Dusters 16, First Baptist Blue, Amarillo, 7.

Budweiser, 11, Mr. H's 10.

Play in the semi-finals included:

Crowell Rangers 11, Anthony's 8.

Vernon Dusters 10, Budweiser 8. This is the game that caused Budweiser to win four consecutive games before going into the championship finals with the Vernon Dusters.

Hardin & Roth 12, Childress A's 3.

Mr. H's 7, First Baptist Blue 5.

Sunday 1:00 a.m., Hardin & Roth 12, Mr. H's 10. This ended the Saturday schedule.

Finals played Sunday opened at 1:00 p.m.

Vernon Dusters 12, Crowell Rangers 10.

Budweiser 7, Anthony's 6.

Budweiser 15, Mr. Burger 9.

Budweiser 13, Crowell Rangers 7. This gave Crowell third place.

The championship game, Vernon Dusters 4, Budweiser 3.

BRUCE BLANTON WITH AWARD, DAVID BLANTON

Bruce Blanton Gets Santa Fe Scholarship

Bruce Blanton was awarded a scholarship valued at \$500 and awarded by the Santa Fe Railroad during the New Mexico State Convention of Future Farmers of America, held recently on the campus of New Mexico State University, Las Cruces.

The scholarship was awarded by Ellis H. Adderson, Jr., of Santa Fe., who lives in Amarillo.

Blanton and his younger brother, David, attended the convention as voting delegates from the Zuni, N.M. FFA chapter, where they lived until early this year. They presently belong to the Wellington chapter. This was the third convention Bruce has attended.

The scholarship awarded to Bruce was based on his farming experience in FFA, on

his leadership in chapter and community affairs, his other activities, and upon the recommendation of his vo-ag instructor, Bill Hines, and others in the community. He has held most offices, including president, of the Zuni chapter. He is vice-president of N.M. District 2, FFA, this year. David is treasurer of the Zuni chapter.

Bruce will attend New Mexico State University next year and plans to major in agriculture education. He will also be a candidate for New Mexico State FFA President.

The convention's keynote speaker was a national vice-president, Leo Snderson of Wyoming. New Mexico has 55 FFA chapters, and approximately 500 boys and girls attended, 200 of them voting delegates.

Bureau Queen. There was no talent find contest in 1975.

Jerry Scott, Farm Bureau president, has announced contest rules:

Any girl in the county is eligible to compete for queen honors if her family belongs to Farm Bureau, if she is between the ages of 16 and 22 and has never been married. There is no limit to the number of girls who can participate.

The talent team can be an individual or a group, and there are a number of types of entertainment that may be included.

Talent find contestants may be between 17 and 30 years of age. Contestants families must belong to Farm Bureau.

Anyone wishing additional information should contact Mrs. G.N. Davis, office manager; Albert Fulcher, contest chair; or Mr. Scott.

The girl who is chosen 1976 Farm Bureau Queen will join 22 previous winners. More than any other county, Collingsworth has dominated the district contest. Eight

county girls were district winners and three others were runners-up.

This county has had a state Queen, a runner up for this honor, and a state talent contest.

Fayteen Peoples Holman of Dallas, the first Queen contestant the county ever had, won district and state honors, in 1953.

In 1959, her cousin, Kaye Peoples Henderson of Canyon, was district Queen and state runner up.

In 1966 a talent team from Wellington won state honors and played "Long Tall Texan" and "Wipeout" at the national convention in Chicago. Sharon Daves, now Mrs. Bob Bell, was the drummer, and guitarists were Earl Lynn Feemster, now of Oklahoma City, Kenneth Patterson, John Abernathy, now of Amarillo and Don Morris.

ditch on the east side of the highway.

Caver was pinned in the cab 15 or 20 minutes and released by members of the Wellington Volunteer Fire Department, joined by the driver of a cattle truck from Kansas City, who stopped to help.

The Alabama truck, en route to the McLean Feedlot,

was carrying 54 head of cattle, weighing around 700-800 each, Gunnels said. Two were killed. Two others were injured and butchered with this meat going to Westview Boys Home.

Wellington farmers and ranchers brought stock trailers and volunteered to remove the cattle from the truck. These were held overnight at Wellington Livestock Commission pens then delivered to McLean Saturday by Cudd Brothers.

During the unloading, five or six head escaped into nearby fields, and it was not until Saturday morning that all of them were rounded up by volunteers and officers.

"People did a tremendous job helping us," Gunnels praised. In addition to the workers, the wreck, because of its nature, drew an unusually large number of spectators.

Educational Philosophy, Goals Get Board Approval

The Wellington School Board adopted the following educational philosophy and educational objective at its last meeting. This guideline will be used in the operation of the school system during the coming year.

Supt. E.W. Clement has submitted it to the Texas Education Agency for its approval and adoption.

EDUCATIONAL PHILOSOPHY

The basic purpose of the Wellington Independent School District is to provide an educational environment contributing to the maximum intellectual, physical, and social growth of each individual student. In this environment the school, along with the home, the church, and the community has the responsibility to give guidance and to provide opportunities for the youth to develop traits of honesty, sportsmanship, and respect for the rights of others.

Wellington School students, in the majority, are divided into three different interest groups: college bound, vocational-school bound, and those who will have no further formal training. Each group will need to develop basic skills in reading, writing, spelling, mathematics, science and the ability to express themselves both orally and in writing. The school feels that excelling academically is as important as excelling athletically and in other extra-curricular activities.

The college-bound students need enrichment in literature, science, mathematics, and grammar. Stress should be placed on the importance of a good academic background.

More vocational-educational opportunities need to be made available and the vocational program should be broadened

for the student who does not plan to further his education past high school so that he will be able to secure employment.

Students should have a thorough understanding of our American heritage and the responsibilities and privileges of citizenship in the local community, state, and country. They should gain a knowledge of the principles of government and economics—especially the importance of the free enterprise system to the American way of life.

To insure that students are able to assume an active role in their community, the development of leadership abilities should be stressed.

Economic knowledge and the management of functions pertaining to personal income, tax obligations, purchasing, and obtaining desirable employment should be included.

Students should be given an opportunity to achieve competence in a foreign language. Students should be taught or made aware of the fine arts and culturally related forms of various culture groups and their contributions.

The importance of personal hygiene, nutritional values, and physical exercise to the maintenance of personal health should be stressed, as well as the dangers to health from the consumption of harmful materials that cause addiction and harm to the body.

Since punctuality, dependability, and reliability are important traits needed by adults, the importance of school attendance should be

He hit two home runs in the tournament and received the

stressed to help teach these character traits.

The public school occupies a position of public trust, and it shares with the parents and the community the responsibility of molding students into useful, self-supporting, and productive citizens.

EDUCATIONAL OBJECTIVES

1. To develop a strong program of study in the disciplines of math, natural and social sciences, and the fine arts.

2. To teach reading, comprehension, and assimilation of written material.

3. To encourage additional knowledge on a continuing basis through reading and formal-informal educational experiences.

4. To teach an understanding of the principles of government and an appreciation of our American heritage.

5. To assist students in assuming responsibility for their lives and permit them to earn a good life as well as a good living.

6. To encourage skills in thinking—not blind acceptance of "authority".

7. To encourage students to express themselves and to become more appreciative of how others express themselves.

8. To enable students to adjust mentally and emotionally to acceptable change in society through a personal

Most Valuable Player trophy.

Money, as any other commodity, is a marketable item, and the price of that money is the interest you pay for it.

Interest rates, as borrowers know, can fluctuate from month to month, even day to day, and are influenced by many factors.

Most authorities agree that long-term interest rates are influenced by expectations as to the future value of money itself, and many lenders who see inflation ahead will not lend unless the return looks high enough to offset the use of the money and compensate for the probable decline in its value before the money is repaid.

Lending money is a business just as any other, and banks, as all businesses, expect to make a moderate profit. Banks are in the business to lend money. They aren't, however, in business to give it away without a reasonable return. They also have to "buy" money and pay interest for it.

It is this system of "buying and selling" that makes American banking one of the most stable in the world.

"The more you know about our business, the more we can help you!"

Safe Boating Keeps July 4 Accident-Free

The July 4 three-day weekend is sure to increase the traffic on Texas roads--and on our waterways. With boat owners numbering almost half a million, Texas Safety Association, in recognition of Safe Boating Week, July 4 - 10, reminds boaters to keep an eye out for each other.

Each year between 400 and 500 Texans die in drowning accidents, mainly during holiday periods. To assure that your holiday is free from injury, keep in mind these boating safety tips:

* Check to see that your boat and trailer are in tip-top shape before leaving home.

* Always have sufficient life preservers accessible to everyone on board.

* Carry filled fire extinguishers -- and use caution when filling fuel tanks.

* Remember that the rules for safe driving apply on the water, too. Hot rodding and drinking while boating are taboo!

Water safety rules also apply to fishermen, swimmers and waterskiers who will be enjoying the water along with boaters. Waterskiers, in particular, should remember to confine their skiing to areas where there is no swimming or skin diving; to wear approved life jackets; and, to exercise caution. Excessive speed and sudden contact with obstacles in unfamiliar channels can end

National Guard Goes Into Summer Training

The Amarillo based Second Battalion of the 142d Mechanized Infantry arrived at Ft. Hood, Texas Sunday, June 13 for their two weeks of annual summer training.

The 99 vehicle convoy of the Panhandle mechanized infantry battalion was the longest Texas Army Guard troop movement to pull into the Texas Army Guard's 48th

Armored Division training area near Gatesville, Texas.

The twelve units in the Second Battalion have convoyed with their vehicles from ten cities in the Texas Panhandle, joining up before entering their summer training site.

The citizen-soldiers come from Amarillo, Lubbock, Brownfield, Pampa, Borger, Shamrock, Levelland, Plainview, Wellington and Tulia.

The Guardsmen will be testing a year's worth of armory training during their two weeks training in a combat environment.

From their tents at North Ft. Hood, the companies in the Second Battalion will be fanning out over the 250,000 acre military reservation to fire their weapons both day and night.

The Second Battalion of the 142d Mechanized Infantry, part of the 49th Armored Division, will be training with the entire armored division. The 49th has split its units into two overlapping segments for this year's annual training. The first segment arrived one week ago. The second increment, which the Panhandle battalion is joining, arrived Sunday.

The second week of the three week training period will include the entire complement of the Lone Star Division. It will mark the first time the 49th has trained as a single unit since its activation for the Berlin Crisis in 1961. Approximately 13,000 Guardsmen are expected to train with the division during the three week period.

Father's Day guests in the Albert Gollighugh home at Quail were Mr. and Mrs. W.F. Howard, Jr., Bill, Kelly and Dennis, of Mobeetie; Mr. and Mrs. Eugene Vernon, Darryl and Betty Annette and Mr. and Mrs. Larry Gollighugh, Cynthia and Rhonda of Wellington and Dub Gollighugh of Quail.

LEPTOSPIROSIS

Leptospirosis (Lepto) is a contagious disease of animals and man due to an infection of *Leptospira* spp. The organisms are what is known as spirochetes which localize in the kidneys. The infected animal sheds the organisms in the urine and if untreated may do so for a number of months or years.

Natural infection is from urine contact or by the intake of urine-contaminated feed or water. The organisms survive well in surface waters such as tanks and creeks. An infected or shedder animal may spread the disease through a herd in dirt tank or for miles down a creek or river. Wild animals such as deer and rodents as well as dogs, hogs, cattle, horses and man may be affected and also carriers of the disease.

Cattle are generally affected in two ways. Abortions may occur in the later stages of pregnancy or a fever anemia and death occur. More commonly a chronic type condition is apparent where the cow is anemic and icteric (pale and yellowish gums and eye lids), sluggish and refuses to eat. The urine may also be a reddish-brown color if excess red blood cell break down by the leptospirae has occurred.

Swine "lepto" is also characterized by abortions in sows and an anemia and hemorrhaging in pigs. Swine act as a reservoir of infection for men and other animals because they may have the disease and not show any signs.

Horses affected show a soreness over the kidneys may or may not have a brownish urine, and often appear short of breath after very little work due to the anemia.

This disease produces a very short immunity by either the disease or vaccination, therefore, it is necessary to vaccinate all species of animals at least yearly. The three most common forms affecting animals in the U.S. are L. pommona, L. icterohaemorrhagiae, and L. Canicola. In the past few years L. Grippityphosa and L. Harjo have been identified in the U.S. As a general rule cattle, swine, and horses should be vaccinated yearly with the combination of the first three species.

Esther Group of the United Methodist Women met Friday, June 18, at 10:00 a.m. in the home of Mrs. Bob McAlister.

Mrs. Cecil Masten called the meeting to order, and Mrs. S.L. Lindsey gave the opening prayer.

Mrs. John Holton gave a devotion from a book by Charles Allen comparing the Christian's life with races in the sports field.

She chose to make a comparison with the game of golf reading, "Wherefore seeing we also are compassed about with so great a cloud of witnesses, let us lay aside every weight and sin which doth so easily beset us and let us run with patience the race which is set before us."

She brought out if one expects to win, one must concentrate on winning the game, but if one looses he can start over. "So it is in the Christian's race", she pointed out. "If we make a mistake

REDDY'S HELPFUL FREEZER TIPS

LOCK IN FLAVOR: Use moisture and vapor-proof materials especially designed for freezers to wrap your foods. Tightly sealed, these lock in flavor and moisture and prevent "freezer burn" (surface drying) on foods. Don't use wax paper, bread paper or regular cellophane for freezer foods.

LABEL PACKAGES: Date and identify freezer packages so (1) you don't accumulate a lot of mysterious shapes and (2) you'll be able to pick out foods that have been in the freezer longest.

TAKE ADVANTAGE OF SALES: Avoid overstocking with commercially frozen food that's always available; use your freezer as your own bargain counter and store foods you can buy on sale. But do allow space for short-time baked goods, leftovers and special party foods.

Young Family Holds Annual Reunion at Athens Recently

Relatives came from across the continent to attend the annual Young family reunion—the 53rd or 54th, members are not certain—which was held this year in Athens, with almost 100 relatives present. The three sisters living here, Mrs. Jack Lowry, Mrs. Rufus Sweat, and Mr. and Mrs. H.L. Lowry, attended. Altogether, four generations of the family attended. These are the descendants of the late Mr. and Mrs. J.H. Young of Lutie.

All meetings were in Athens, but included, in addition to Dr. Young's home, the Athens Country Club for Sunday festivities, and the fellowship of the Athens First United Methodist Church Saturday night.

The reunion began with the Saturday luncheon, served under the big trees beside the swimming pool of the John Young home. Barbecue and smoked turkey highlighted the

Saturday night meal.

The older members visited and there was much singing. The children swam.

Wellington was selected as the reunion site for 1977.

One of the sisters, Mrs. Ruth Thompson of South Gate, Calif., had returned from West Point, New York, where a grandson, Lt. Dennis Thompson, was graduated from the United States Military Academy.

W.H. Stout Family Chooses Pioneer's Park for its Reunion

Collingsworth Pioneer's Park was chosen by members of the W.H. Stout family for their reunion Friday and Saturday, June 11 and 12.

The Stout family came to Collingsworth County in 1921.

The children attended school at Kessler, Kelley and Fresno Schools, and also Wellington. In 1929, the family moved to the Tom Campbell Ranch south of Wellington and children went to school at Loco. A son, the Rev. John J. Stout, was pastor of Quail Baptist Church for several years recently.

"The Stout Family extends their thanks to Collingsworth County for a well-kept, clean rest area that we enjoyed so much—especially 'the crick,'" said Mrs. Fred Miller of Channing, one of those who helped with arrangements.

Those attending were Mrs. H.W. Stout of Borger, who

heads this family; Rev. and Mrs. John H. Stout of Clarendon, Mr. and Mrs. Jim Stout and girls of Odessa, Mr. and Mrs. Fred Miller (Bessie) of Channing, Mr. and Mrs. James Bryant and Tawnya of Amarillo, Mr. and Mrs. J.R. Blackwell and Terry of Hereford,

Dodson Needs Help to Save Its Post Office

People who get their mail at Dodson and on Route 1, Dodson, have been notified their post office has been surveyed for closing. It is one of a number over the country.

This is not surprising, but it will be most unfortunate if the service is removed. Dodson people are not accepting this as the final word. They are writing the Post Office Department, congressmen and senators. They are asking their friends and everyone else interested in preserving postal service in that town to join them.

Senator Lloyd Bentsen has already announced that he is asking that the action closing these small rural post offices be rescinded.

The form letter each Post Office patron received speaks of the added convenience of being on a mail route. The people who are on the scene know this isn't correct. What they have now is most convenient for them and they want to keep it.

No good comes from losing a post office. This strikes Dodson just as it is getting some new residents and has had two new businesses in recent months. More of its young people are staying in the area or returning to it. It is not post offices such as Dodson's that have given the department its problems. They are well run and they provide a service. Dodson needs all the help it can get.

On Watermelons

Modern-day airconditioning may be a blessing, especially when the July sun melts you like a popsicle, but we pay for the comfort in many small ways.

Remember how good lemonade used to taste? Remember how refreshing was a big frosty glass of iced tea on a hot summer day? Remember when a quart of ice cream was a delightful bonanza when the temperature soared into the 90s and 100s?

None of these pleasantries of life mean as much now when we can take refuge in homes and automobiles. All of them have lost their allure to some extent.

And remember when a slice of cold watermelon created a heaven-on-earth when you tore into it on a torrid afternoon, allowing the sweet juices to roll down your chin and savoring the crunchy, cold red meat? What does modern life have to offer that is half as joyous?

But now the watermelon has lost out to air-conditioning and cold beer and will never be what it once was! The Weatherford, Tex., area was once famous for its melons. Amon Carter, it is said, once shipped 100-pounders in tubs to his friends from Weatherford.

Now the Weatherford melon industry has gone to seed and most melons bought today come from the Rio Grande Valley.

But what really dealt the death blow to watermelons was the air-conditioner. A big juicy melon just doesn't taste as good in a 70-degree room as it did in a 100-degree room, or as it did out in the blazing June or July sun many decades ago.

Town Cleanup

We ran across an article in the Las Animas, Colo., newspaper last week that shows what a small city can do to improve its appearances.

Las Animas is a city about the size of Hollis.

The article was a reminder that Las Animas has an ordinance requiring property owners to remove weeds, trash and rubbish from lots and other privately owned tracts of property within the city between June 15 and July 15.

If the property is not cleaned, city crews do the work and the city clerk will assess the cost to their taxes. The article also says a 10 percent penalty will be added if the amount is not paid by the time it is certified to the county treasurer for collection.

Incidentally, Las Animas is a very clean, attractive small city.

AUSTIN—Texas doctors have expressed increasing concern about the swine flu (A/New Jersey) immunization program.

"The medical risks probably will be low for patients. But health care providers may suffer from a plague of liability suits," said Dr. Jack Haley, president-elect of the Texas Academy of Family Physicians.

Haley told public health workers here doctors probably will participate fully in the massive immunization in spite of feared legal risks.

Haley predicted pharmaceutical firms and physicians will be major targets for lawsuits. Such claims, he stated, could "prove troublesome at the least," though collections are unlikely.

A/New Jersey flu immunizations should prove "low-risk" to patients who are not allergic to eggs, doctors report.

"It now appears the federal government and the Texas Department of Health Resources will be unable to provide liability protection," Dr. Haley said. "Some doctors will have to supervise huge clinics immunizing hundreds of people very quickly. There is no way a physician can personally oversee each injection and still have everyone immunized before flu season."

Haley reported a Texas Medical Association survey shows more than 50 percent of physicians responding have quit doing surgery and delivering babies, procedures which cause many suits.

The survey showed another fourth of Texas doctors will lose their malpractice insurance within a few months.

Dams Need Repair

Sixty-two Texas dams need major correction, and more than 600 are in need of repair or some changes. Another 250 have no permits, as was discovered in inspections going back to 1968.

Some steps already are being taken to fix the 62 dams which are in the worst shape.

Leakage and seepage are common. Some spillways are eroded, and caverns have been found beneath Red Bluff Dam on the Pecos River in Reeves and Loving counties.

Leases Draw \$5.6 Million

Bonus payments totaling more than \$5.6 million were received in a recent auction of University of Texas oil and gas land leases.

Bonus payments and future royalties, in event of production, will go into the Permanent University Fund which now contains more than \$800 million.

Nearly 100,000 acres of University lands were leased for oil and gas exploration at the auction last week.

Biggest bonus payment was \$410,000 bid by a group headed by Monsanto for a 320-acre tract in Ward County.

Courts Speak

The U.S. Supreme Court established boundary line between Texas and Louisiana in the Sabine River, awarding title to islands in the western half of the Sabine River to Texas. The court also found the middle pass in Sabine Lake was part of the middle-of-the-river line. In effect, Texas picked up 2,000 more leaseable acres.

The top court set for hearing later this year a Texas case involving needed steps to assure racial and ethnic representation on grand juries.

The State Supreme Court held a millionaire rancher owed Cayuga Independent School District \$30,686 in delinquent property taxes. Third Court of Civil Appeals reversed a trial court and directed Comptroller Bob Bullock to hand back \$20,000 in sales taxes to a key punch firm which computerizes data as a service to other firms.

AG Opinions

A school district's records on names, sex, ethnicity, salary, title and dates of hiring of employees and officers are subject to public disclosure, along with student achievement test scores and racial-ethnic composition, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

The state cannot require the Veterans Administration to obtain a state certificate of need or exemption to construct a hospital.

Date of an offense is the controlling event in violation of probation of a suspended driver's license.

The fee for citation in small claims court is four dollars.

Texas Air Control Board may make public any information which does not relate to secret processes or methods of manufacture even though labeled confidential when submitted. TYC Asks Budget Hike

Texas Youth Council's staff has recommended a 45 per cent budget increase, to \$87 million, for the next biennium.

TYC asked \$3.2 million in additional funds for commitment of juvenile offenders. The six institutions received funds this fiscal period for an average daily delinquent population of 1,080. According to TYC Executive Director Ron Jackson, the enrollment is already 1,301 and is estimated to be 1,406 by 1979.

The council will make its formal budget request July 15 after reviewing the staff figures.

Short Snorts

First joint hearings on 1978-79 state agency budgets begin here June 21 with appellate court requests.

Field nominations for purchase of Texas crude oil next month totalled 3,266,356 barrels daily, and additional demand totalled 702,756 barrels a day — an increase of 31,039 over June.

The Railroad Commission approved unitization of proposed Eliasville (Caddo) Unit of the Stephens County Regular Field. Texas Pacific Oil Company Inc. predicted secondary recovery operations will produce an additional 12 million barrels of oil.

Farmers Union Meet Planned at Memphis

A "Listening Conference" sponsored by the Texas Farmers Union will be held in Memphis on Thursday, July 1. The conference will begin at 8:00 p.m. with a covered dish supper at the Memphis Community Center. A number from Collingsworth County will attend.

According to Texas Farmers Union President Jay Naman, of Waco, the purpose of the "Listening Conferences" being held throughout West Texas is to receive comments and recommendations from Farmers Union members on issues now before the Congress.

"We know that farmers and ranchers are greatly concerned about current legislation. We want to discuss these issues which are of great importance to producers and farm families including reform in the federal estate-tax laws, natural gas deregulation, the cotton check-off program, grain inspection legislation and the beef check-off and promotion act.

"It is important that we know how Farmers Union

members across the country feel about these issues. The whole purpose of our trip is to hear directly from our members," Naman said.

Attending the series of conferences along with Naman will be Victor Ray, Director of the Department of Planning and Development for the National Farmers Union, from Denver, Colorado, and Kenneth Moss, Director of Field Operations for Texas Farmers Union.

Ray, who also serves as Assistant to the President of the nation wide general farm organization, is a nationally recognized expert in the field of group dynamics and is a frequent participant in national and regional farm conferences.

"With Victor Ray assisting us in these meetings and utilizing his expertise, we expect to have a series of very challenging and beneficial meetings for both the Farmers Union members attending and their farm organization spokesmen," Naman commented.

With the Fourth of July holiday just around the corner, many families will visit area lakes and parks to ski, boat, and picnic. Keeping picnic foods safe to eat is easy if the right foods are selected and stored properly.

The main point to remember is to keep cold foods cold and hot foods hot.

Several layers of newspaper serve as an excellent insulator for both hot and cold foods. Leakproof containers wrapped in several thickness of newspaper and tied or taped to secure the ends and prevent heat or cold from escaping will keep well for three to four hours.

Without an insulated bag or wide-mouthed vacuum jar, it is probably best to take along foods that do not need to be kept hot. Hot main dishes prepared with meat, fish, eggs or mayonnaise must be kept hot to prevent spoilage and food poisoning.

Sandwiches can be prepared in advance and individually wrapped or the "makings" carried in plastic containers to make the sandwiches just before eating.

Butter might be substituted for mayonnaise as a picnic sandwich spread to insure safety of the sandwiches for a longer period of time.

Ingredients for vegetable salads can also be carried in separate containers and made just before eating.

Baked goods such as cakes, cookies and brownies travel and keep well, posing few storage problems.

Beverages are best kept in thermal containers to keep them at the proper temperature.

Follow these simple rules and the holiday will be the fun it was intended to be.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic levels, race, color, sex, religion or national origin.

Two-County FB Plans Measure the Candidate

Donley County Farm Bureau, with the Collingsworth County unit cooperating, is sponsoring the appearance of Congressman Jack Hightower and former Congressman Bob Price in a Measure the Candidate meeting Friday, August 20.

This will be held in the auditorium of Clarendon

Junior College, Clarendon, in the evening, with the hour to be announced.

Farmers are invited to submit questions for their discussion, according to Jerry Scott, Collingsworth FB president. These must be submitted to the Wellington office not later than Tuesday, July 20, he emphasized.

These questions may cover such issues as the farm program, estate tax reform, natural gas production, land use planning, the Environmental Protection Agency, and the proposed fuel tax increase, and others.

In addition, the two will give their general statements on their qualifications, philosophy and their platforms.

"In order for this meeting to be successful, we need to know what the people want to ask them," said Scott. "We are sure the people have a lot of questions they would like to have discussed."

We are asking for questions ahead of time so these can be co-ordinated and no time will be wasted with questions being asked over and over."

Fire Destroys Barn, Rabbits

Fire, believed to have started from burning trash, destroyed a barn belonging to Howard Vaughan in northwest Wellington late Sunday evening, June 20.

In addition to the barn, Mr. Vaughan, who raises rabbits, said he lost 10 grown does.

Mr. Vaughan said that about an hour before the barn fire was discovered, he had burned some trash that caught dry grass. Using a water hose, he thought he had put out the fire, he said.

There was no insurance on the large wood building, the owner said.

We have short memories. There are more cars on the roads than ever before. Car dealers are selling the big models and can't give the economy models away. Motor home sales are booming and we have gotten off the "Conserve Energy" kick that was so popular a year ago.

Well, the OPEC countries are quietly reaching a compromise agreement which will make all of us wonder why we haven't gotten our own energy house in order. It's only a matter of strategy and timing. The OPEC countries have to extend the current oil-price freeze until next fall. By then, the economic recovery of the West and Japan will have strengthened to where a price increase of at least 8% and possibly more can be posted without putting a dent in the current business boom.

There has been a steady increase in world oil demand. The OPEC countries are pumping 30 million barrels per day, up from just under 27 million barrels in January. The U.S. will import about 7.2 million barrels daily which is 42% of total U.S. oil consumption compared to 29% in 1972. And that's with states such as Texas pumping 100% of the allowable every month.

The push for a price increase by the oil producing countries is caused by massive spending programs in those countries started in the cushy big-income days following the hike in oil prices three years ago. However, the big spenders were caught in a world-wide recession, oil consumption dropped sharply and so did their incomes. The OPEC countries would have rammed through a big price increase long ago but the members were disorganized and undecided on the best time for an increase.

A Shell Transport and Trading Co. official believes a 10% increase will be the minimum and that it could come as early as this October. Iraq, Algeria and Venezuela

Low Income Texans May Receive IRS Funding

DALLAS--Thousands of low-income North Texans may be eligible for checks of up to \$400 each from the Internal Revenue Service. All they need to do is file a tax return and ask.

The Dallas office of the IRS said today that the extra cash, called Earned Income Credit, has been applied for by only 125,000 individuals in North Texas so far this year. Earned Income Credit, a tax break for parents who supported at least one child during 1975 and earned less than \$8,000, was available for the first time on 1975 tax returns.

Many people who are eligible for Earned Income Credit have such low incomes that they are not legally required to file tax returns. IRS officials say there are thousands of these qualified recipients who are simply unaware that Earned Income Credit exists or do not know how to go about getting it.

Even if they paid no withholding tax and have no income tax liability, indivi-

duals eligible for Earned Income Credit will receive payments equalling ten percent of their earned income, to a maximum of \$400 on an income of \$4,000. Over \$4,000, the credit is reduced by \$10 for each \$100 of income.

Individuals who feel they may qualify for Earned Income Credit should contact their local IRS office or call for advice on the IRS' toll-free number, 800-492-4830.

Wellington Leader that the Quail Post Office is under the same kind of review. He said he has received letters from that community also.

Mrs. Worth Shields, postmistress at Samnorwood, said late last week that she has received no notice of review. That post office, along with Wellington, are served out of the Amarillo Management Center.

In a letter to Mrs. John Coleman, county Democratic Chairman, Senator Lloyd Bentsen said:

"I know every effort must be made to reduce its (the Post Office) deficit, but I believe that rural Americans have as much right to quality postal service as their big-city neighbors. In February I co-sponsored legislation requiring the Service to consider a number of important factors before deciding to close a small community post office..."

"I have called upon the Senate Post Office Committee to impose a moratorium upon the closing of small offices as a condition of any appropriation. Last week the Committee agreed. During the course of a two-year study, no post service 35 or more families will be closed. I am hopeful that Congress will agree with that provision," Senator Bentsen concluded.

closing 6 or 7 rural post offices in our district." Hightower said. "We are very much opposed to these closings and we will do everything we can to prevent them. However, under the postal reorganization act passed 5 years ago, the Postal Service has been made much more independent, and if they choose to ignore us they can."
