arrival of a daughter, Sandra
Gay, on Friday, September 12.

In the first conference game of
the season the Sanderson squad
won over the Alpine Bucks by
a score of 20-7, in Alpine Friday
night. Many Sanderson fans
were on hand to lend their sup-
port to the Eagles.

No scoring threats were made
during the first quarter play
and not until the last minutes
of the second period did a possi-
bility loom. Joe Mussey, on a
pass from "Red" Russell, scored
the first touchdown for the lo-
cal squad. Quarterback Robert
Dishman converted the extra
point.

Sanderson received the kick-
off in the second half and Ho-
mer Hill ran the ball back to
the 35-yard line. The Eagles re-
tained possession of the ball un-
til the second touchdown was
scored by Robert Dishman. Jack
Harrell scored the extra point.

The Bucks, after the kick-off,
began a series of line drives
which terminated with a touch-
down. They converted the extra
point in the closing minutes of
the third quarter, going into the
last period with a trailing score
of 7-14. The third touchdown of
the Eagles was made by Joe
Mussey in the last minute of
play in the fourth quarter, on
an end-around run. The try for
the extra point failed.

The entire Eagle squad was
outstanding in defensive play,
and great improvement has been
shown in the over all ability of
the light and fast Eagle team.

down—6 each; passes attempt-
ed and completed—Alpine 5-1,

They Can Still Play-- Gridiron To Be Dedicated By Local Men in Game Saturday

To prove to themselves and
their fans of years gone by that
they still have the ability and
youth to indulge in the gridiron
sport, local men will be engag-

dedication of the new football
field, Saturday night at eight
o'clock. Present plans are pit-
ting teams composed of the

and entertaining game is to be

around the playing field to keep
the spectators a respectable dis-
tance from the sidelines.

From where I sit... by Joe Marsh

"It's Living
That Counts"

I stole the title of this column from a magazine article that said a whole lot better than I can what farm and country life can mean.

We talk about farm profits, production, research, and mechanical improvements... but isn't it true, what we really value is the life country living offers us?... the chance to be close to our families and neighbors... children sharing in the chores... working with our own hands at a worthwhile job.

And country pleasures are simple: good talk at day's end, and

a glass of mellow beer with friends... the companionship of man and wife, untroubled by distractions of the city... the mutual tolerance of one another's tastes—in choosing a friend, or a glass of beer, or a candidate for Governor.

Mind, I'm all for material improvements. But from where I sit, the real goodness of our country life is that spirit of tolerance, moderation, and good fellowship.

Building permits, due for a
seasonal hike during August
dropped 11 per cent below July
totals as construction in most
parts of the State took a tumble.

The records showed that the
seasonally-adjusted index took
a 25 per cent slump during the
month, since permits slid down-
ward instead of rising in ac-
cordance with the usual July-
to-August pattern.

On the bright side of the pic-
ture, however, was the fact that
permits stood 55 per cent above
year-ago figures and were still
five times above prewar (1935-
39) levels.

Most construction materials
are becoming more plentiful,
but contractors who watch the
price structure expect a rise in
costs of materials in spite of in-
creased supply.

were made to the United States
Gypsum Co. to channel emer-

prolonged shortage resulting
from the strike at the company's
Sweetwater plant.

Workers on strike since July
24 have caused a critical situa-
tion which has been made more
severe by the strike at an Okla-
homa plant. Scarcity of the wall
board has sent prices soaring 3
times above normal costs and in
many instances contractors were
forced to lay-off their labor
