Rain, falling late Saturday night, February 28, and during the early hours Sunday, gave this area up to an inch of rain, and was followed Monday night by additional moisture in some sections of the county.

Ninety-eight hundredths of an inch was recorded in Wellington Sunday, but the Monday night rain amounted to only .01 inch, Jim Williams, who has the government rain gauge, reported.

Last week snow had given the county .26 inch of moisture, making a total of 1.25 inches for the one-week period.

Most wheat growers were highly optimistic following the moisture, feeling it was sufficient to carry the crop for several weeks at this period of the year. A little wheat in scattered sections had been blown out by high winds just prior to the rain.

Sunday's rain varied considerably. Southeast of Wellington, Harold Keller reported an inch and a quarter was measured and Moon Royal got an inch and a half. Around an inch was reported at Dodson Sunday and another half inch Monday night. Horton Kutch reported only one-half inch.

Around an inch of rain fell Sunday in the Shinnery area and an additional quarter inch Monday night. Quail had .60.

The heaviest rainfall in this section was by Vernon Peters of Vinson, approximately two inches.

The rain fell to the north toward Shamrock about as it did in the Wellington area, but east of Lutie the fall grew considerably lighter.

Former Residents Die in Accident In Pennsylvania

Two former Wellington residents, Mrs. Kate Gimmel and her son, James Gimmel, of Littlefield were killed in an automobile collision seven miles from Allentown, Pennsylvania, Saturday, February 28. They were en route to Waltham, Mass., where Mr. Gimmel and Miss Jane Day, the third occupant of the car, were to have been married later this month.

Mrs. Gimmel was a sister of Mrs. E. M. Hix and Mrs. Joe Baumgardner of Wellington, and a member of a pioneer Collingsworth County family.

Funeral services for Mrs. Gimmel and her son will be held in Lubbock at the Donald Funeral Home Friday, March 6, and burial will be in that city. Their bodies are being flown back and will arrive in Lubbock Thursday afternoon.

Mr. and Mrs. Baumgardner, Miss Priscilla Baumgardner, Mrs. Hix, and her daughter, Mrs. Kenneth Neal and children of Roswell, N. M., who were visiting here when word of the tragedy came, will attend the services.

According to information received here, the accident occurred when the driver of the vehicle immediately ahead of the Gimmel car made a left-hand turn without warning and Mr. Gimmel was unable to avoid hitting it. He was killed instantly and his mother died a few hours later in an Allentown hospital. Miss Day's condition was reported as serious.

Mrs. Gimmel, about 59, was born (Continued on Page Twelve)

On Wischkaemper and Alexander Land

Two New Oil Tests Announced In Samnorwood, Lutie Section

The north part of Collingsworth county came into the oil spotlight again with the announcement during the week end of two new locations, one on land owned by A. F. Wischkaemper Jr. west of Samnorwood and the other on land belonging to J. L. Alexander a mile west of Lutie.

At the same time, work continued on the Panama Oil Co. No. 1 Coleman well at Dozier and on the Avilla Oil No. 1 McDowell.

The two new locations were announced Sunday, March 1, in the Amarillo News. The Tatum, Bennett & DePauw Company—A. F. Wischkaemper Jr., No. 1 is located 330 feet from the south and west lines of Section 28, block 16, a mile and a half west and a mile south of Samnorwood. The probable depth will be around 5200.

The B. B. Carter Drilling Company L. T. Alexander No. 1 was announced at 2310 feet from the north and east lines of section 4, block 16, a mile west of Lutie, with a probable depth of 5800 feet.

The site has been leveled for the Wischkaemper well, the slush pit dug and some equipment moved in. Other equipment is due momentarily.

Interested in this well are Clyde

G. Tatum, John Depauw and R. O. Bennett, three Lubbock business men. B. B. Carter of Amarillo is the drilling contractor.

Mr. Wischkaemper, contacted after the location was announced, said he had been told the contract or expected to complete the well in 21 days, with favorable weather.

The drilling block is part of a 20,000 acre lease tract worked up during the last year and a half by Bob Stephenson of Wellington for H. S. Jondahl of Lubbock. Lease work was finished up last week.

The leases for a solid tract which Mr. Stephenson described as running approximately from Highway 83 shortly north of Salt Fork to a point about two miles north of Lutie, west to a point about three miles west of Samnorwood, then south beyond Salt Fork approximately two miles, but stopping two miles north of Marella. All leases have been taken on the geophysical structure, he said.

Mr. Stephenson said that he had been told the Alexander well will be drilled immediately after the Wischkaemper well is finished, and regardless of the finding in the Wischkaemper test.

The Coleman well, a gasser, put down by Panama Oil Company, has been acidized during the past week in an effort to increase production. It is at a depth of 2080 feet. A spudder rig has been moved back to the well.

Reports, unconfirmed but considered reliable, from an out of county source are that an effort is being made to increase the well from 350,000 cubic feet to 700,000 cubic feet.

This well is on a large block which extends roughly from Highway 83 west to the FM highway extending north from Dozier to the county line. It joins the Jondahl leases on the south and goes north to the county line.

Mr. Coleman early this week commented that he could stand at his house and see three rigs, his own, the McDowell well and the

Wischkaemper test — the first time anything like that has existed in Collingsworth County.

The McDowell well, located in section 107, block 22, was reported Sunday as drilling at about 200 feet.

Quail Independent Ball Tournament Opens March 10

By JAMES GLASSCOCK

Independent basketball teams from a large part of the Eastern Panhandle and one team from Western Oklahoma will meet at Quail Tuesday evening, March 10 to open a four-day basketball tournament. The finals will be played Saturday night, March 14. Wednesday evening of that week will feature any action. All of the games will start at 7:00 p.m.

"Teams that are already entered in this tournament are Hedley, Kirkland, Shamrock, Clarendon, Memphis, Wellington, Quail, Quail high school team, and Plainview, Oklahoma. Each of these teams will furnish a lot of good strong competition, according to Boots Graham, who is in charge of arrangements.

"We plan to give first, second, and consolation prizes as well as awards for the all-star team, best all-round player, most sportsman-like player, and many other similar awards, he continued.

"We have some fine entertainment lined up for the entire family and we would like to see a lot of people there," he concluded.

This tournament is expected to have many upsets in it with possibly none of the teams having the edge over the other. The final night calls for the 1953 Bobwhites to play an exhibition game against some strong outside competition.

Game time for all the games will be at 7:00 p.m. except on Wednesday night which is an open night.

Min. Paul Lusby Goes to Amarillo Church of Christ

Minister Paul Lusby recently resigned his ministry at the Church of Christ in Wellington to accept the work at the Pleasant Valley Church of Christ in Amarillo.

Mr. Lusby has served the church here for the past four years, coming from Pine Bluff, Ark. During the time he and his family were here, they carried on an active program within the church.

"He was a fine gospel preacher and will do a good job in his new work," V. P. Robertson, a leader in the church said.

Pleasant Valley Church of Christ is one of the newer churches in Amarillo, having been organized about three years ago. While it is now a little smaller than the Wellington church, both Minister Lusby and members here feel this newer field offers him a wider opportunity he could not turn down.

A new minister has not been called, but Mr. Robertson said several guest preachers will appear before a choice is made.

Ocie Scott Asks Mayor's Office

Ocie Scott, Wellington machinery dealer, this week authorized The Wellington Leader to announce his candidacy as Mayor, subject to the election Tuesday, April 7, Mr. Scott said.

"In announcing as candidate for Mayor of the City of Wellington, I feel that I am acquainted with the problems of our community having lived in and around Wellington for thirty-eight years. I also think anything that is good for our citizens is good for our city. I stand for economy of our city government and the enforcement of its laws without prejudice. If I am elected as your Mayor I will abide by the ordinances of the Council and will endeavor at all times to serve the City and her citizens well."

Patsy White Wins Soil Essay Contest

The essay contest is a part of the Save the Soil and Save Texas program sponsored by the Scripps-Howard newspapers of Texas. The three prize winning essays will appear in next week's Wellington Leader.

4-H Clubs to Observe Week With Display

Four-H Clubbers of Collingsworth County will join with members throughout the nation in observing National 4-H Club Week March 8 to 14.

Miss Mary Trammel, home demonstration agent, reported that the 4-H girls are being urged to make a display in some of the windows of Wellington stores showing phases of study in their projects.

Each club will show a different project, such as clothing, food preservation, home management, gardening, etc. Miss Trammel will work with the girls in setting up their displays, which will remain throughout the week.

The Samnorwood 4-H Club has put up the "Welcome to Collingsworth County" sign along Highway 83, at the Wheeler county line. The Samnorwood boys and girls made the entire sign. Dodson Club had set up a sign earlier, and the Wellington and Quail clubs will have theirs up within a short time.

Home Manage Specialist Here

Miss Bernice Clator, home management specialist for the Extension Service, was here Friday, February 27, to work with home management demonstrators of the county clubs, Miss Mary Trammel, home demonstration agent, said.

In addition to her work with the demonstrators, two homes were visited, those of Mrs. E. M. Cook, member of the Midway Home Demonstration Club, and Miss Patsy White, member of the Quail 4-H Club.

There were no witnesses to the tragedy, and the cause of the accident is not known. It occurred shortly before 6:00 p.m.

Mrs. Hester had operated a beauty shop here for a number of years and was widely known throughout the Wellington trade area.

She had been active in the work of the Methodist Church throughout the time she lived here, and had been a member of that church since girlhood. She was also treasurer of the Dorcas Sunday School Class.

A member of the Eastern Star for many years, she held the office of Ruth this year, and previously she had served as chaplain and Esther.

Rockets Open Spring Football Training

By JAMES GLASSCOCK
Soreness and aching muscles signified the opening week of the month-long spring training program for the 1953 Wellington Skyrocket football team, according to Maxey McKnight, the head coach.

"The opening day about 45 boys were issued uniforms. Most of the first week has been devoted to heavy work in calisthenics and learning the fundamentals in tackling and blocking.

"Things are expected to pick up this week. Running plays and special work will help find the flaws of the Rocket squad. At the end of this training program Coach

McKnight should have a tip-top squad. Most of the boys are coming right along," he stated.

This Friday afternoon at 4:00 p.m. an inter-squad game will be played between the Senior members of this past year's squad and the football team for 1953. The public is invited.

"It may be the last time for you to see Vesta Orr, Floyd Hood, and many others of this past year's team play," Coach Maxey McKnight reminded.

Assisting Coach McKnight is Don Briggs and Clifford Niles, assistant coaches, and five or six of the 1952 senior boys.

POWER
OF EVERY
BUICK-

Special Super and Roadmaster!

World's newest V8

Television treat—
the BUICK CIRCUS HOUR—
every fourth Tuesday

It's more than pride that makes a man want a lot of horsepower beneath the hood of the car he owns. For the real point in reaching record horsepower and compression ratios goes beyond miles per hour. It steps up performance and economy in normal driving.

That's what Buick engineers did when they upped the power and compression of each 1953 Buick—SPECIAL, SUPER and ROADMASTER—to the highest figures in Buick's fifty-year history.

In the SUPER and ROADMASTER, they put a new kind of V8 Engine—first passenger-car V8 with 8.5 to 1 compression, and a long list of other major engineering advances.

For the SPECIAL, they redesigned the famed F-263 Fireball 8 Engine—gave it

shorter flame travel, faster firing, higher horsepower and compression. And to these spirited engines they coupled the new Twin-Turbine Dynaflo Drive* that adds flash-fast, quiet getaway to utter smoothness.

Just to give you an example of what all this means: The 1953 Buick SPECIAL with Dynaflo can beat the mighty 1952 ROADMASTER on getaway—can reach 30 mph (when the law allows) with a combined speed and jerk-free smoothness no other car can equal.

Of course, there's far more to these new Buicks for 1953—some seven dozen new features alone.

But why not come in and see for yourself that these are the greatest Buicks—and the greatest values—in fifty great years.

One Year Under The Safety Inspection Law

With the repeal of the Texas Safety Inspection Law up before the legislature, it is well to review the record of the law as it operated during the past year.

Many of its defects came glaringly to light. There are a number of things about it that need to be changed, but according to information from the Highway Safety Council of Texas, the law has saved lives on Texas highways, and that is what counts.

Further facts brought out by the council are given here.

Texas has had the Uniform Traffic Safety Code specifically authorizing uniform automobile safety inspections since 1947. The 1951 Motor Vehicle Inspection law is an enforcement measure. It was passed because, without a multi-million dollar budget increase, the State Highway Patrol could never secure enough manpower to undertake thorough inspections of the State's 3,500,000 vehicles.

What is the purpose of automobile inspection?

It's to make highways safer by making the automobile operated on them safer. Thirteen per cent of the moving accidents each year are caused solely by mechanical defects. In 1952, the first year of uniform inspections, the average declined nearly one half.

Do automobile inspections accomplish their purpose?

Yes, believe the Highway Safety Council. In 1950, the death rate per 100 million traffic miles in states not having inspection laws as 8.0, while in states which did have periodic inspection the death rate (average) was 6.4 and in some states it was as low as 4.7.

What types of inspections are used in other states?

Two types primarily 1) state appointed garages and (2) state-owned operated stations.

How much does inspection in Texas cost Texas tax-payers?

Nothing. Twenty-five cents of each inspection sticker pays all State costs. Each of the 3,500 inspection stations pays for its own equipment.

How much does average repair run for Texas car owners?

A survey of inspection stations in 1952 showed that about 52 per cent of the automobiles inspected had no repair bill whatsoever. For the others, the repair bill totaled about \$4.40 average, with headlamp and brake adjustments being the principal cause for repairs.

In this day of new automobiles, why do we need inspection?

New automobiles are precision mechanisms, hydraulic brakes, power steering, etc., all requiring more attention or closer attention because a minor defect, such as leaking brake fluid may easily be fatal without much advance warning. Likewise, as better automobiles are built, the life of each automobile is lengthening. The Automobile Manufacturers Association estimates that more than 40 per cent of the autos in use today are more than 10 years old, compared to less than 20 per cent in 1941.

Has the Motor Vehicle Inspection Law reduced traffic fatalities?

The final and official figure as to the number of persons killed on Texas highways and streets during 1952 will not be available until later this month, but on January 20 the Department of Public Safety issued a report showing that, as of that date, the traffic fatalities or 1952 were 2,472 persons. This represents a decrease in traffic deaths of 74 over the year 1951. For the first time since 1949, we have had a decrease in traffic fatalities, although traffic mileage increased more than 9 per cent over 1951.

This means that for 7 persons 1952 the traffic death rate in Texas will fall below 7 persons per 100 million vehicle miles, for the first time since the creation of the Department of Public Safety.

The Buck Creek Philosopher

Editor's note. The Buck Creek Philosopher on his Johnson grass farm on Buck Creek is off on topics he doesn't know much about again this week, which is customary with him.

Dear editor:

Last week in my letter to you I was talking about the school teachers' problem, how there was a shortage of teachers in Texas due to the fact the profession apparently has been under-paid and is failing to attract enough young people, all the smart ones want to go into something that pays better, and how a lot of people believe the solution is to give the teachers an increase in pay.

This may be right, but I'm afraid the request comes anywhere from fifteen to thirty years too late to help with the present adult population.

You can look around you now and see that what this country needed thirty years ago, add or subtract a few years, was an increase in teachers' pay in order to

attract a lot better class of teachers, that it, just judging by the amount of education you and me and a lot of others I could name absorbed.

The argument for more teachers and better teachers and more money to attract em is pretty plain, when you examine the state of a lot of grown people's education. I ain't sayin if they'd paid my teachers more money they'd had any better luck with me, but I reckon I'm getting close to sayin it.

But I didn't start out to discuss the teachers' problems, what I started out to say is everybody has problems. For example, before he had any notion of runnin for President, Eisenhower bought a farm up in Pennsylvania and the newspapers were full of his plans about it. He and a partner were goin to operate it and split the profits fifty-fifty.

Well, the other day I noticed in a newspaper that up to now there haven't been any profits to split and that President Eisenhower has decided he hasn't got time to be President and look after a farm too.

I know what he means. Runnin a farm is a full-time job and the day never was made with enough hours in it to run a farm and the Presidency too.

But I notice Eisenhower is holdin on to the place, and I'm glad of it. Just because a farm don't show any profit is no reason for sellin it. If it was, the real estate people in this country would get rich on commissions.

Yours faithfully,
J. A.

BIBLE COMMENT

Only Society Based on Love Is Free

Communism is a challenge to Christians to make their Christianity real. It is a golden opportunity to prove to the world that a free society established on the idea of love, and emphasizing the principles that Jesus taught, offers more hope to humanity than totalitarian power.

Many people are looking on the church today as a barrier against communism. They are hoping it will block atheistic communism especially.

The things Jesus emphasized were not concerned with material power and authority. These are the tokens of earthly kings and kingdoms. His emphasis was on such things as ideas, faith, vision and the motives that control conduct.

Pilate asked Jesus, "Art thou a king?"

Jesus answered, "Thou sayest that I am a king. To this end was I born, and for this cause came I into the world, that I should bear witness unto the truth. Everyone that is of the truth heareth my voice."

Pilate did not take Jesus seriously, merely shrugging, "What is the truth?" Then he joked with Jesus' enemies, asking, "Shall I crucify your king?"

But it was the soldiers who gave history its most noble crown when they jestingly wove the crown of thorns and jammed it on His head. They carried their brutish joke a step further, robing Him in purple and calling: "Hail, King of the Jews!"

Today the "King of the Jews" has become, in a sense, King of the world. Some nations are so intent, believing in a false king, that they

earthly kingdom. They used this to report Him to Roman authorities.

Others, His friends, hailed Him as the Messiah who had come to

build a kingdom on earth. But to His friends, Jesus gave the assurance that His was a spiritual kingdom ruling the hearts, not the na-

tions of men.

Deck's DIDACTICS

—By Deskins Wells

Gas wells to the north of us and irrigation wells to the southeast of us and water from the skies. That is a headline and not a sentence; but anyway it has caused the hopes of many people to rise sharply. The rain and snow have done the most to raise the spirit of the people. It would not take many more to change the picture for this year from one that is uncertain to one that is very bright. No section of the United States can come back faster than our own if we get sufficient moisture.

Four oil and gas tests are going to be put down; but there have been so many of these that little attention is paid to most of them by most people.

But the development that excites me is the irrigation wells southeast of town. After two failures, Sandy Parsons Sr. has brought in a good well on his farm south of Kelly corner and Woody Wood is believed to be bringing in another farther east that may establish a definite trend of the underground water in connection with the two wells Elvis Crawley has producing. Bura Handley and Mr. Parsons are of the opinion that we need to learn considerably more about how to drill these wells. Bura thinks that there were some core tests that were not properly tested and he thinks we are on the bare fringe of what might cause a revolution in the economy of the Wellington area.

It costs about \$5,000 and up, depending on the size of the hole and the depth of the well, to put down and equip a producing well here; but it costs much less than that to make a core test and find out what the possibilities are. Bura tells me, however, that a core test can be misinterpreted entirely.

If you want to see a number of our rising young business men make donkeys of themselves, perhaps you should attend the Kiwanis show to be held Friday, March 6. I won't guarantee anything about the artistry of the show; but I can tell you that it is for a good cause. It should be considerable fun.

Perhaps there is some power in the press. At least a common sense suggestion is often welcomed at the higher levels of governing authorities. A few weeks ago I wrote about the need for more signs farther away from the city limits in order to let the heavy loaded trucks slow down before they reached the 30 mile speed zone on Highway 83. Bill McDonald and Clyde Drake inform me that this suggestion is being carried out by orders of the Highway Department. It is about time.

E. M. Purdy, formerly of Wichita Falls, has leased the Wellington Hotel and will move here about March 20 to make this his home. His wife is experienced in hotel work and it is their intention to make the hotel what it should be. Some people know this and some don't; but I have been the legal operator of the hotel, western union station and the bus agency since last June when the tenant Charles Gordon forged a Western Union draft and departed in the middle of the night. He has been indicted; but thus far he has not been found.

My sister Clay had looked after the operation while I was executive secretary of the Texas Press Association; but she washed her hands of the hotel when I concluded my work with the press association. Knowing the score and how much work Clay and I had done on something in which neither of us own a dime, my nephew, James Sullivan, said that he would look it up. But something of the bulldog that was in my father started coming up in me, and I went down to see what could be done about the situation.

I was fortunate in securing the services of Mrs. Sam Hollingsworth, and we started cleaning out and cleaning up the hotel. She proved to be a very capable person. I had to spend a tremendous amount of the company's money in repairing plumbing and other things. We operated the Western Union, the bus agency and the hotel and we found they would make money.

I think you will like Mr. and Mrs. Purdy. They are going to keep Mrs. Hollingsworth on as an employee. That is a good decision. Mr. Hershey of Western Union told me that our agency had the most efficient record of any in the Panhandle since Mrs. Hollingsworth took charge. I am also confident that you can recommend the Wellington Hotel to your friends as a place where they can get clean rooms at a very moderate

price.

Told a couple of my key employees of the events above at different times. One of them heaved a sigh of relief and said: "You spent two thirds of your time on that hotel. I think the Leader would have been considerably better off if you had spent as much time on the paper."

Emmett Passmore is bringing "The Snows of Kilimanjaro" to the Ritz next Wednesday and Thursday. I have never seen the movie; but I have read the book by Ernest Hemingway. I suspect that it is one of those shows you should see if you like high adventure, realism and man's eternal effort to rise from his physical chains to a higher spiritual realm. The movie has four very seductive looking women in it. You could go to see this picture for two reasons.

I love to see little children play on the school ground and I love to see them dance together whether it be around a maypole or in a folk dance. They shout with childish and innocent glee as their bodies move in rhythm as they learn the beauty of motion. It is the same to them as they stand in the church choir and sing the blessed songs and learn something of the beauty of music. It is the same to them as they see a wonderful garden of flowers in the spring or gloriously colored trees in the fall and learn something of the beauty of color.

Do you have any baby clothes you no longer need? If so, please contact Miss Katherine Boverie. She has a case where the woman is expecting her seventh child and has no clothes for the baby whatever.

they attended the Baylor Coaching School held February 19th to the 21st in Waco.

NOTICE To Dog Owners

Due to numerous complaints to the City Council that dogs run loose without tags and apparently without owners, creating a menace and nuisance to the public and sometimes destroying property, we have instructed all city officers to kill and dispose of all dogs that are not properly tagged, indicating they have vaccinated against rabies.

It is not our desire or intent to kill anybody's pet, so please co-operate in helping us rid the town of all stray dogs.

If your dog needs vaccinating, you can call the city office, leave your name and address and a veterinarian will be notified. Or you can contact a licensed veterinarian at Childress or Shamrock.

Have your tag registered at the time your dog is registered.

If your dog has been vaccinated in the last year and has lost his tag, please come to the city office with proper certificate and a new tag will be issued.

Loco News

By MRS. GEORGE ADKINS

(Intended for Last Week)

There seems to be no end to the sand storms, but I guess we can't expect that until we get a general rain.

Estel McCarver of Kirkland visited in Loco Monday.

Bill Wolf butchered two fat hogs Thursday. Helping him were John and Henry Wolf of Wellington and L. H. Wolf.

Merritt Durfee and Mr. Taylor were Memphis visitors Tuesday and Wednesday. They bought some farming equipment.

Jack Brown suffered three cracked ribs in a fall in his home here last Wednesday night. He became ill and in trying to get outside in the fresh air, he fainted and fell on a chair. He received treatment in Wellington and is able to be up some now.

The conference at Loco last Sunday was well attended. All four churches were able to give good reports.

Mrs. Lula Poling of Arlie and Mrs. Leona Covey of near Dodson visited Mrs. G. W. Adkins and Mrs. E. V. McClendon Tuesday. Also visiting in the McClendon home Tuesday were Mr. and Mrs. R. J. Holland of Dodson.

George Adkins was transacting business in Childress Saturday.

Congratulations to Mr. and Mrs. Joe Bob Wyrick of Arlie who have a new son. The baby was born in the St. Joseph's Hospital in Wellington. He is the grandson of Mr. and Mrs. Willie West, Mr. and Mrs. J. B. Guthrie of Hollis, Oklahoma and Mr. and Mrs. Willis Wyrick of Midland.

Another new baby in our neighborhood is the new son of Mr. and Mrs. J. B. Killian. He is the grandson of Mr. and Mrs. Roy Young.

A sister of Mrs. George Adkins, Mrs. Cecil Cayton of Vega, is in the Canyon Hospital suffering from a broken left hip and leg. She was injured as she fell from a moving car. Mrs. Cayton had opened the door at the mail box and had evidently not closed it very securely. At the family reunion of a close family friend, Mr. Cayton turned the corner and the door flew open. Mrs. Cayton was taken to the Noblitt Hospital where she had been for the past three weeks.

Mrs. W. D. Durfee and son, Merritt, were in Granite, Oklahoma Saturday.

Mr. and Mrs. T. A. Hamilton received a card from their son, Alfred, and he was with the S. U. A.

and had stopped over a few hours in Fort Worth.

The farm-to-market highway is being extended from 2 miles east of Loco to past the Arlie store. This will give six miles of hard surfaced highway here.

Rev. and Mrs. L. D. Cleveland and Bessie of Wellington visited Mr. and Mrs. G. W. Adkins after conference last Sunday.

Mr. and Mrs. Clyde Duke and children and Mr. and Mrs. Joe Duke and children of Allison were dinner guests in the Mannahan home Sunday. The Duke boys were reared here. They have a radio program over the Shamrock station each day at 12:35.

L. A. Sachse has lost a number of cattle from some poisoned feed he purchased. Cattle may not be so high now but it still hurts to lose them.

Mr. and Mrs. B. F. King of Wellington visited in the Lloyd King and G. W. Adkins home Sunday.

We extend our deepest sympathy to Mrs. N. L. Ray and children at the death of Mr. Ray. They formerly lived here for about two years.

Mr. and Mrs. Paul Browning and family of Wellington spent Sunday in the C. J. Browning home at Midway.

Mr. and Mrs. Earl Reynolds and Mr. and Mrs. Max Sachse and sons of Amarillo spent the week end with Mr. and Mrs. L. A. Sachse.

Several farmers report wheat losses from the sand.

J. H. McDanel and G. T. Austin are building new storm cellars this week.

Bill Wolf is helping Lake Sachse build a brooder house. Mr. Austin finished his new brooder house about two weeks ago.

See Your School Well Staffed, Warns Cryer

Curtis Cryer, superintendent of the Borger schools, warned Wellington parents Monday night that they should give concern that their schools are properly staffed — this year, next year, and particularly year after next.

Mr. Cryer, guest speaker at the Wellington Public School week program, pointed to the growing birth rate, to the fact that fewer young people are training themselves to be teachers, and to the fact that even now many more teachers are needed than are available.

The free public school seems to be in the philosophy of the American way of living, he told the group, in the philosophy that everyone in the free public school has an opportunity to get the foundation of education, and the opportunity for those wanting more education to get it.

In the public school, the fusion of all classes of youngsters is a learning process which is to be cherished by American society, Mr. Cryer declared to the approximately 700 listeners.

The 45-minute musical program included both band and vocal music with approximately 430 students from all grades taking part. These included:

Bobwhites Win 26; Lose 6

Quail Splits Pair With Irish to Close Season

By JAMES GLASSCOCK
"Basketball 1953" is in the record books as for as the Quail Quails and Bobwhites are concerned. These two fine teams closed out their season by splitting a double-header with the Shamrock Irishmen and Lassies. The favored Bobwhites took the first game of the evening by a 44 to 34 win, while the Quails ran up against a lot of trouble and finally dropped a hard-fought 43 to 38 ball game.

The girls game was a slow-starting affair and before the half time marker the Bobwhites were well on their road to victory.

The Bobwhites cause was hurt to some extent by the absence of

Fayteen Peeples. She received a sprained arm in the intramurals and was not in action. Fouls took their toll on the Bobwhites squad and many of their stellar players were forced to retire before the half. However, the reserves did a fine job and made themselves quite a good name.

The Bobwhites top scorer for the evening was Jo Helen White. She scored 23 points. She didn't get to play the entire game because of her fouling out before the half. Mary Phipps was second with 16 points.

Connie Lewis was the top hooper for the evening with a total of 24.

With the conclusion of the game the Bobwhites season record stands as having 22 wins and 6 losses.

The boys game developed into a thrilling, chilling ball game. Even the homesteading Shamrock fans were a little chilled as they watched the lead change back and forth.

The Quails put on one of those famous come-backs that they are so well noted for. However, this time the deficit was too great and they fell behind and lost by only five points. The final score was a 43 to 38 Irish win.

The top scorer for the Quails was Wallace Blasingame with 15 points. Jasper Peeples was second with 11 points.

The top Irish scorer was Leroy Passons with 17.

The final season record for the Quails was 19 wins and 7 losses.

Vagabond Kings Down Texans in Side-Splitter

By JAMES GLASSCOCK

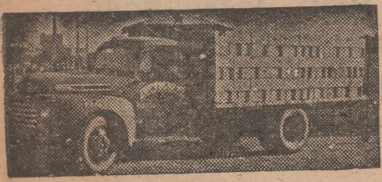

"The greatest show on earth" was put on Monday night, Feb. 23, at Quail by the internationally known Vagabond Kings and the West Texas All-Stars. The Vagabonds won the ball game by a close score of 68 to 62, but they were never hard pressed during any of the ball game. This side-splitting game was played before a capacity crowd, and extra seating arrangements had to be made.

From the time that they went out on the court until the game was over the crowd roared in laughter. Every trick in the basketball trade was performed and something new every minute was introduced.

Those skilled players have now won 94 games and lost four. Most of the Vagabond players have been stars in their college days. The standout on the team was 7 foot Bill Spivey. He can touch the rim of the basket without any trouble, and accounts for plenty of points. He was the top scorer for the evening with 39 points.

The West Texas All-Stars were all right in their performance and they played slam-bang ball. Ted O'Neil, Bill Phillips, Boots Graham, and Garland Fielding were the top stars for the "Texans." The top scorers were Phillips and O'Neil with 13 points each.

Paul Spillman was the referee for the evening.

Rockets, Rockettes Split Twin-Bill In Final Conf. Game

By JAMES GLASSCOCK

In their final conference go of the season the Rockettes and the Rockettes split a twin bill with the Memphis boys and girls. The Rockettes took the first game of the double-header by a score of 33 to 27. The ill-fated Rockets dropped a hard-fought 48 to 43 ball game.

Betty Cagle was high point maker with 12. Shirley Prichard was second with 9. It was a low-scoring ball game all the way. Neither team took any sizeable lead during the game.

With this game the Rockettes had run their conference victories to six straight. Next for the Rockettes will be the regional tournament at Canyon.

This game with Memphis concluded the Wellington Skyrockets 1952 basketball season. It was a hard loss for the Rockets, but they took it in good stride. The final score indicated just how close the game was. It was definitely a crowd-pleaser.

Lonnie Woods, the Rockets ace scored the most with a huge 27 points. Ed Bawcom was second with 8 points.

D. Miller of Memphis was the leader of his team in scoring with 20.

It costs a lot to be an American. But not too much. The American principle of personal and economic liberty provides more opportunity and more good for more people than any other system devised by man. Privately owned and operated industry is the American principle at work.

In America, private industry pays its own way. Pays the lion's share of taxes necessary to support our government. Were it not for private, tax-paying industry your individual tax would be much greater—for the burden of government would rest entirely on your shoulders.

Paste this in your hat. And when you file your income tax return, take off your hat to the American way of life.

Bobwhites Third-Time Victors

Quail Teams Win Annual Junior Tournament

By JAMES GLASSCOCK

The home-standing Quail Junior Quails and Junior Bobwhites walked away with the top honors at the third annual Quail Junior basketball tournament which was held last Thursday, Friday, and Saturday.

The boys championship game pitted two old school rivals against each other. The Quail Junior Quails and the Samnorwood Junior Eagles faced each other in the last game of this three day tournament.

The game developed into a fast-moving ball game and until the final gun it was a rip-roaring ball game. The first quarter ended with the Quails leading by a slim three to two margin. The second quarter ended with the Quails leading by a 11 to five score. However, the final quarter was a see-saw battle with the Junior Quails winning by a 18 to 15 win.

The top scorer for the Quails was Darwin Johnson with 6 points. Darwin Homer and Darrol Morris were a close second with five points each.

Tippie and Dougherty were the top flingers for the Eagles with 9 and five points, respectively. The champion Quail boys record is now 15 wins and 2 losses.

The girls championship game pitted the Quail Junior Bobwhites against the Alnreed girls. It was a good fast ball game all the way with the Bobwhites leading from the jump-go. The half-time marker read Quail 13, Alnreed 8. In the final part of the ball game both teams scored often and the game ended with the Bobwhites the tourney's champions. The final score was 28 to 22.

This is the third consecutive year that the Junior Bobwhites have won the championship.

The top hoopster for the Bobwhites was Martha Johnson with 24 points. Genevieve White and Sherie Graham tied for second place honors with two points each. All of these girls played a superb ball game.

Witmoth of Alnreed scored the most for her team with 12 points. The boys consolation bracket sent the Wellington Junior Rockets against the Lela boys. The Rockets took this game easily by virtue of a 38 to 28 win.

This was a good fast moving ball game with the Rockets holding the upper hand all the way. D. Ray Ussell of Wellington scored the most for the Rockets with 10 points, while trailed closely by R. W. Warren with 9 points. Ferguson and Whatley of Lela tied with 8 points each.

Two county rivals fought it out in the girls consolation match. The Junior Rockets and the Junior Eagleslettes slugged it out to a 27 to 14 win for the Eagleslettes. Samnorwood led through the ball game, but late in the fourth quarter the Rockets put on a good scoring surge. However, it was too late and the Eagleslettes took the win and the trophy.

Carole Strickland of Wellington led the scoring for the Rockets with 8 points. Amerson scored 12 points to round-up the Eagleslettes scoring.

All of the games were very interesting and each session ran on a clock-like basis. It was a well managed tournament and a lot of credit goes to Coach Bill Phillips. The final scores of all the tour-

nament games appears as follows:

GIRLS' GAMES
Quail 27, Wellington 13; Wellington "B" 29, Lela Lake 9; Samnorwood 23, Lela 14; Kellerville 17, Lela 14; Quail 36, Wellington "B" 20; Wellington "A" 25, Lela Lake 20; Alnreed 17, Samnorwood 16.

BOYS' GAMES
Quail "A" 44, Lela 15; Samnorwood 31, Lela Lake 10; Quail "B" 29, Kellerville 17; Wellington 29, Alnreed 34; Alnreed 28, Kellerville 16; Samnorwood 25; Alnreed 17.

land, France, Greece, Austria, Germany, Italy and Lebanon will be overseas beneficiaries. In America, clothing is distributed in a carefully planned self-help program in needy rural areas of eight Southern states in which the Federation operates its school sponsorship program.

Many children in the American areas served come from families with cash incomes of less than \$400 a year. If it were not for Save-The-Children Bundle Week clothing collections, many of these children would not be able to attend school in bad weather. Clothing is distributed to needy families on Indian reservations and to children both in and out of school. Clothing in Korea will be distributed through the Unified Command.

Superintendent Roberts said, "Wellington Public Schools will do their share in meeting the state quota," adding, "we are happy to take part in this humanitarian cause which serves not only the child victims of war abroad but helps so many needy children in our own country. Leaflets will be given to all children in the school system to take home during the week, stating the purpose of the drive and asking the cooperation of parents."

This trip came as part of the tribe's study of water conservation.

Making the tour were Frances Drake, Hannah Clark, Mary Parsons, Janet Jones, Carolyn Couch, Patricia Hughes, Faye Pope and the Camp Fire guardian, Mrs. Clyde Drake.

Another recent project of these girls is planning a flower plot. They have tentatively selected one at Marian Airpark.

Herman Moseley, superintendent of the Quail school, will be in charge of the work in that district.

Mrs. Donald Coleman will take the census in the Samnorwood district.

The Dodson worker has not been announced.

"We urge every parent to see that his children are enumerated this year. If you are not at home when the census taker comes, or if for any other reason you are not contacted about your children, please get in touch with the enumerator or the superintendent. Players Try Out On Dowell's Dolls

Jo Helen White and Fern Neely of Quail, Goldie Tippie, and Bonnie Kidwell of Samnorwood were honored this past Friday and Saturday night, February 27 and 28, in Amarillo, when they tried out with the Dowell's Dolls, an independent girls basketball team.

In the Friday game they dumped the Dumas girls squad by a resounding 45 to 23, while Saturday night they faced the international known Wayland Flying Queens. The Queens were nearly dethroned, but somehow they won by a tight 50 to 44.

Jo White was the leading scorer for the Collingsworth County crew. In the first game she scored 13 points and Bonnie Kidwell scored 9. She did even better against the Queens; her total for that game was 20 points.

Most of Fern Neely's work was the great job of guarding the opposition and she did a swell job of doing it. From all reports she and the other county girls were definitely outstanding.

Bonnie Kidwell and Goldie Tippie put in some good performances during the ball game. They did not get to play as long as the other two girls, but while they were in there they made their pressure felt.
