US To Speed Bombing In Expanding Viet War

TANK SURVIVES EXPLOSION IN IOWA—An M-48 tank, used to train National Guardsmen, was scorched by explosion and fire that destroyed the Keokuk, Iowa, armory during a square dance. Guardsmen cranked up the tank and moved it from the wreckage the day after the explosion in which several persons perished. (AP Wirephoto)

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara, back home from Viet Nam, said today the Communists are tripling the rate of infiltration from the north.

But he also declared that "We've stopped losing the war."

McNamara, with Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff, talked with newsmen as he stepped out of a jet plane that had flown him nonstop from Guam.

McNamara said he believes there are now nine North Viet Nam regular regiments in South Viet Nam.

He said the rate of infiltration from the North had been about 1,500 a month during the recent rainy season, but the rate during the dry season is expected to be 4,500 a month.

McNamara said the Communists had been defeated in their effort to cut South Viet Nam in two, and their casualty rate had risen 100 per cent over what it was a year ago. But he said the enemy has "very substantially raised the level of infiltration."

He was asked about the proposal of Sen. Richard B. Russell, D-Ga., chairman of the Senate Armed Services Committee, to bomb the port of Haiphong in North Viet Nam.

McNamara did not comment directly on that, saying only that the bombing of North Viet Nam is designed to attack the lines of infiltration.

He again said there will be increased emphasis on the bombing.

McNamara and Wheeler stopped for three hours at the Guam Air Force Base from which the heavy B52s launched.

When the officials arrived there, a mission of B52s already had taken off for strikes at targets in South Viet Nam and were not scheduled to return until after McNamara had left for Washington.

McNamara and Wheeler made no comment on reports that the number of B52s on Guam may be increased.

HIGH LEVEL HUDDLE—President Lyndon B. Johnson seems to be calling the play during a lull in a celebration in San Antonio. From left are Sen. Ralph Yarborough, D-Tex.; Congressman Henry B. Gonzales, D-Tex., and Mexican comedian Cantinflas. The President went to San Antonio to help celebrate Gonzales's election four years ago this month. (AP Wirephoto)

McNamara was asked about reports U.S. strength in South Viet Nam may be increased to 300,000 from a present level of about 165,000.

He replied that "I don't want to forecast," then added that "it will be a long road ahead."

Wheeler said the new 1st Cavalry, Airmobile, Division is "performing admirably" and is proving the concept of this type of division.

Wheeler was asked how many more such divisions he thinks the Army should have. He replied that he thinks one for now.

McNamara left Washington only last Thursday night. In the interval he held conferences in Paris and visited the men on the other side of the world.

There was no immediate certainty when McNamara will meet with President Johnson who now is at his Texas ranch.

Conference Proposes NATO-Warsaw Pact

WASHINGTON AP — A non-aggression pact between the North Atlantic Treaty Organization and the Soviet-led Warsaw Treaty Organization was proposed today to the White House Conference on International Cooperation.

The conferences's Committee on Arms Control and Disarmament, which made the suggestion in a report, also said that in the long run Communist China will have to be included in any system for international security and disarmament. But it added that "the long run can be very long."

The committee reported to the conference, which was called by President Johnson is support of the United Nations' International Cooperation Year. The report was submitted for discussion papers concerned with keeping the peace.

Vice President Hubert H. Humphrey told the conference's space panel Monday the United States vigorously supports the U.N. resolution against placing weapons in orbit around the earth and has set an example by reporting to the international orgnization every object it has sent into orbit. Other nations, he suggested, might follow this example and also might press for general observance of the anti-weapons resolution.

The Disarmament Committee is headed by Dr. Jerome B. Wiesner, a former presidential science adviser and present dean at Massachusetts Institute of Technology.

The committee said an agreement between the rival military alliances in Europe would recognize "that the situation in central Europe - including the situation in Berlin - can be changed only by mutual consent, not by force."

The committee also argued that the United States need not wait for better relations with mainland China before seeking agreements with the Russians on such things as reducing strategic forces or freezing nuclear stocks.

For years to come, the report said, such agreements could be "safely implemented while the Chinese continue their efforts to develop their own nuclear force."

But the committee said the United States should try to open bilateral talks with China on arms control, find out the conditions under which China might qualify for and accept the responsibility of U.N. membership, and support efforts to bring the big Communist country into a disarmament conference.

WEATHER

SNYDER TEMPERATURES: High Monday, 66 degrees; low, 27 degrees; reading at 7 a.m. today, 27 degrees.

Coast: North winds 5 to 15 knots today, becoming light and variable tonight and southerly 10 to 20 knots Wednesday.

South Central Texas: Clear to partly cloudy this afternoon with increasing cloudiness and a little warmer tonight and Wednesday. Lowest tonight 36 to 46 north and 46 to 56 south. Highest Wednesday 66 to 78.

Southeastern Texas: Clear to partly cloudy and cool tonight. Increasing clouds and warmer Wednesday. Lowest tonight 34 to 44, except 44 to 54 on coast. High Wednesday 64 to 72.

Southwest Texas: Partly cloudy and warmer tonight and Wednesday. Low tonight 28 to 38 in north, 38 to 48 in south. High Wednesday 62 to 74.

North Central Texas: Fair and warmer tonight, Partly cloudy and warmer Wednesday. Low tonight 36 to 41. High Wednesday 68 to 74.

Northeast Texas: Fair tonight and Wednesday, warmer Wednesday. Low tonight 32 to 37. High Wednesday 68 to 74.

Northwest Texas: Partly cloudy to clear and warmer tonight. Mostly cloudy in south to partly cloudy in north Wednesday. Low tonight 28 to 42. High Wednesday 64 to 71.

Inter-American Changes Planned

By CLAUDE E. ERBSEN

RIO DE JANEIRO (AP) — The conference of 19 American republics ends today after laying the groundwork for a sweeping overhaul of the inter-American system.

Chief U.S. delegate W. Averell Harriman said the meeting was "of historical significance." He said its most significant action was a proposal to incorporate into the charter of the Organization of American States the social and economic principles of the Alliance for Progress.

The conference early today approved by acclamation an "Economic and Social Act of Rio de Janeiro" containing a series of proposed amendments to the OAS charter. It is a companion to political recommendations approved Sunday.

Both will be submitted to another conference in Buenos Aires next July for incorporation into the OAS charter.

The act states that "it is essential to incorporate into the economic and social field of the inter-American system, as juridically binding principles of mutual security, solidarity, cooperation and assistance."

The act provides a blueprint for a great society for Latin America.

It calls for more equitable distribution of the fruits of land, labor, capital and an end to subsidies, fair prices and access to markets for exporters, reduction in barriers to trade, and economic integration of the hemisphere with a Latin-American common market as the goal.

For the first time the more-developed nations of the hemisphere will have a binding obligation to aid their less-advanced neighbors.

The act also calls on all OAS members to refrain from carrying out any economic policy [illegible] adversely.

The act urges joint action to beat down barriers against Latin-American products abroad.

The political proposals approved Sunday are designed to strengthen the OAS machinery. They include annual inter-American meetings and creation of political, economic and social, and educational and cultural councils for the organization.

Gymnast Charged With 2 Murders

TUCSON, Ariz. (AP) — Charles Schmid, a former high school gymnastics champion, must stand trial charged with murdering two young sisters who disappeared one night last summer.

Schmid, 23, was bound over for trial Monday by Justice of the Peace Toby LaVetter, who denied a request for bond. No trial date has been set.

A four-day preliminary hearing ended for Schmid on charges of murdering Gretchen Fritz, 17, whom he once dated, and her sister, Wendy, 13, daughters of a Tucson heart specialist and surgeon.

Another preliminary hearing for Schmid begins Dec. 13 on a charge that he murdered Alleen Rowe, 15, whose body has not been found. The Rowe girl vanished May 31, 1964.

John Saunders, 19, and Mary Rae French, 19, both also were charged with murder in the Rowe girl's death. The charge against Miss French was reduced last week to being an accessory to murder and concealing and compounding a murder, and she pleaded guilty. Saunders pleaded guilty to first-degree murder.

Both will testify against Schmid, Pima County Atty. Norman Green said.

A skull found in the desert search for Miss Rowe's body could not be that of the missing girl, Sheriff Waldon V. Burr said today.

The sheriff said University of Arizona authorities believe the skull is that of an Indian woman, age 25 to 35.

This Girl's No Genius?

LONDON (AP)—Little Maybelle Thompson can solve complicated algebra problems. She can read (likes history books), write, spell and yet she can't get into school.

Maybelle is only 4—and British authorities say she must wait until she's 5.

Her father, James Thompson, an American from Newark, N.J., is a teacher at a Hertfordshire school who is privately developing a new form of education technique.

"I don't consider Maybelle to be a genius," he said. "Anybody can learn. She is desperate to start school and be with other children."

Mrs. Thompson, a Formosan who met her husband while he was a United Nations adviser, said, "Maybelle is like any other little girl. She's bright but she acts like any child her age."

Maybelle was able to spell words like "apple" at 21 months. A year later she had a 400-word vocabulary.

Living Costs Hit All-Time Summit

WASHINGTON (AP)— Living costs rose two-tenths of 1 per cent in October to an all-time high, the Labor Department said today. All major items except groceries went up.

Housing, clothing, transportation and medical care costs all went up, bringing the government's consumer price index to 110.4, the Bureau of Labor Statistics said.

The index figure means it took $11.04 to purchase typical products that cost $10 in the 1957-59 base period.

Assistant Commissioner Arnold Chase said the increase brought the yearly rise in the index to 1.6 per cent since October of 1964, compared with the annual rise of about 1.2 per cent in previous years.

"We're still all right," Chase said, adding it is the yearly rise indicated inflationary danger signs.

He added, "This is about as much of a rate of price increases as we should have."

The biggest increase in October was in new car prices, which rose 1.2 per cent largely because auto dealers offer fewer concessions at the start of a new model year.

Chase said this reported increase did not conflict with a Texas White House statement that retail prices for new 1966 models had dropped eight-tenths of 1 per cent compared with a year ago.

The 1.2 per cent increase is based on a comparison with September.

Chase said that as auto dealers clear out leftover 1965 models, new car prices will show a further increase in November.

Rhodesia Expecting British Token Force

By COLIN FROST

LONDON (AP) — Prime Minister Harold Wilson was expected to announce today that Britain is sending a token military force to Rhodesia's northern frontier.

Qualified sources said Wilson had agreed to a request from President Kenneth Kaunda of Zambia for help in protecting the Kariba hydroelectric dam on the Zambia-Rhodesia frontier. Last Friday, saboteurs blew up a tower on the power line which carries electricity from the dam to Zambia's copper belt.

Military correspondents of British newspapers reported the prime minister would tell the House of Commons that a force already was on the way. It was believed to consist of Royal Air Force reconnaissance planes and technicians.

Qualified sources said Wilson had agreed to send the force on condition that it would stay in Zambian territory, that it would remain under British control and that no other foreign troops would be allowed into Zambia while the British are there.

Informed sources in Lusaka, the Zambian capital, said RAF personnel began arriving there late last week.

Political sources said Conservative leader Edward Heath and his inner circle decided Monday night to support Wilson's dispatch of troops so long as it was emphasized that the move held no direct threat to Rhodesia.

Heath apparently accepted the argument spread by the Laborites that if Britain did not send troops, Kaunda would seek them from other nations who have offered aid. These are understood to include Ghana, the United Arab Republic and Communist China.

Zambia has an army of only 1,200 men and it normally is occupied with internal security duties.

Some right-wing Conservative backbenchers feared that once British troops were in the area, Wilson would come under pressure to use them against the rebel white minority government of Rhodesian Prime Minister Ian Smith.

Wilson has said he will rely on economic sanctions to try to bring the rebel regime down. Political sources said stiff new sanctions against Rhodesia will be announced soon.

Hurls To Death From Windmill Tower

SALINAS, Calif. (AP) — Terry Weber, 19, was hurled to his death from a windmill Monday while trying to slow it by inserting a piece of lumber between the blades.

The youth fell 30 feet and hit his head on a concrete block.

Duties Ended For Sun-Seeking Satellite

WASHINGTON (AP) — The space agency has shut down one of its most widely traveled satellites — the sun-seeking OSO-2, which made 4,100 orbits around the earth.

Equipped to gather data about the sun, the OSO-2 relayed 2.2 million bits of information back to earth on each orbit. The satellite launched Feb. 3 exceeded its life expectancy by more than 50 per cent.

Pair Hurt Critically In Explosion

ARTESIA, N. M.— Two Snyder men were listed in critical condition at an Artesia hospital following a blast at an oilwell where they were working Monday.

Arthur Crain and Shelby Jones, employes of C. E. Knight & Co. Casing Pullers, both suffered leg and internal injuries. They underwent surgery Monday night at an Artesia hospital.

Crain, Jones and George Wortham, 24, were standing at the well head when a nitroglycerin charge went off. Wortham was less seriously injured.

Haskell Templeton, 38, of Hermleigh, said a four-man crew was pulling casing from the well. The casing stuck and four charges were set off without success.

Templeton said the nitroglycerin used in a fifth charge was jammed a few feet below the surface. The Hermleigh man said as he started to drive to another well for a weight, his car passed over a wire and the charge was set off.

The well was located six miles west of Loco Hills, N. M.

Wintry Weather Invades Southland

By The Associated Press

A late autumn cold snap gripped the midcontinent today and sent a sharp chill deep into the Southland.

The mercury fell below zero in the Dakotas and Minnesota and into the teens as far south as Alabama and Virginia.

The wintry temperatures maintained a heavy snow cover which blanketed portions of the Northeast during the weekend. Flurries continued from the Great Lakes region to the Appalachians and more fell along the eastern shores of the lower lakes.

Snow squalls earlier had dumped two feet of snow at Conneaut, Ohio, and heavy snow was reported in much of northeastern Ohio and northwestern Pennsylvania. In New York State, a foot of snow was on the ground in western areas and 16 inches in the north-central region.

The Weather Bureau issued warnings of a hard freeze tonight in Arkansas, northern Mississippi, Tennessee and Kentucky.

Readings early today ranged down to 17 degrees at Richmond, Va., 19 at Birmingham, Ala., 22 at Jacksonville, Fla., and 24 in Atlanta, Georgia. Minot, N.D., reported 30 below zero and it was 2 below at Bismarck, N.D. Light rain fell during the night and early morning in Washington and parts of Florida. Gale warnings were posted for the Northwest coast as a new Pacific storm approached the region.

Texas Cold Is Spotted

By The Associated Press

An erratic cold spell settled on Texas today, sending temperatures tumbling in some southern spots and leaving some normally cooler northern cities in relatively warm weather.

There was no question, however, that it was cold in West Texas where virtually all cities reported freezing weather.

The lowest temperature reported was 19 degrees at Dalhart.

Points to the south such as San Antonio and Lufkin reported freezing weather but Fort Worth and Dallas in North Central Texas showed higher marks.

Fort Worth's Meacham Field, north of the city, reported 32 degrees. At Dallas' Love Field the minimum was 37.

Amarillo and Lubbock had 27, Wichita Falls and Alpine 28, San Angelo 29 and Texarkana 32.

The Weather Bureau said scattered light rain that soaked at many places across North Tex-

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Every time I see a letter in your column from a mother grieving because some nasty boy got her "innocent" little daughter in trouble, my blood pressure rises. My 16-year-old son is dating steady (and I DO mean steady) a 15-year-old girl. He practically lives at her house. We've tried to impress upon him the pitfalls of too much familiarity. But about the time we get the message across to him, and he breaks away from her for an evening, the girl's mother invites him to dinner or for a day-long outing. The girl is available any time of night or day on a moment's notice. She seems to have no restrictions. They go to school together, eat lunch together, and if they don't spend the evening together, they're on the phone talking. When they're here, they're constantly holding hands, scuffling or necking. I assume they behave the same way at her house. Perhaps this girl's mother doesn't know what she is doing. Your publishing this letter might wake her up.

ONE BOY'S MOTHER

DEAR MOTHER: In the absence o. restrictions from the girl's parents, YOU should set up a few. I'll publish your letter not only to awaken that girl's mother, but to awaken countless other parents who need it.

• • •

DEAR ABBY: What do you think of a hostess who asks, "Would you like a cold drink, a sandwich, coffee or something?" Then she sits on her bottom without making a motion toward the kitchen? Shouldn't a hostess place the refreshments in front of her guests without any hemming and hawing? I know that 99 out of 100 people would really like to have something, but when it is put to them like this they, say, "No, thank you, don't go to any bother."

OFTEN A GUEST

DEAR OFTEN: The hostess who "offers" refreshments in such a half-hearted gesture is hoping she'll be turned down because she's too lazy to move. Yes, the hostess who sincerely wants to serve her guests doesn't "inquire"—she acts.

• • •

DEAR ABBY: We have to do a "career book" for school and my chosen career is modeling. (Fashion modeling.) I have always wanted to be a model, Abby, and I don't think that is anything to be ashamed of. People snicker when I say I want to be a professional model as though modeling were not much of a profession. Some have even hinted that it isn't very respectable. Others say there is no future in it. I have been told I have the figure for it. I am 5 ft. 8 inches tall and weigh 112. I am 17 years old and have done some amateur modeling, and people in the fashion business have told me I am good. Will you please tell me the truth about modeling?

WANTS TO MODEL

DEAR WANTS: Modeling is a respectable profession. (It's name.) And as for the future: Grace Kelly, who married the Prince of Monaco, was a model. Does that answer your question?

• • •

CONFIDENTIAL TO G. S. L.: Your motives are admirable, but the man who doesn't have what it takes to ask for his own job rarely keeps it long.

• • •

Troubled? Write to ABBY, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Deer Must Like Stores

KANE, Pa. (AP) — A deer strayed into a shoe store and a supermarket on the first day of deer season Monday.

Jose Grandinetti, owner of the shoe store, said a doe opened the front door by itself and scampered into the rest room at the rear of the store. He said he chased the animal out the back door.

The animal next entered a nearby supermarket by means of an automatic electric-eye door.

After sprinting down an aisle amid a chorus of screams from female clerks, the deer jumped atop a dairy case, scattering and crushing cartons of milk, eggs and cottage cheese.

Three hunters shopping in the store finally subdued the doe, carried it out and released it. They described it as "tired, but apparently healthy."

Ashley Due Second Trial

GATESVILLE, Tex. (AP)— A second trial for Leslie Ashley, once convicted with Carolyn Lima in the 1961 slaying of Houston real estate man Fred Tones, is tentatively set for Jan. 10 before Dist. Judge Truman Roberts.

The convictions were thrown out by federal court on the ground that the prosecution withheld material evidence. Stays of execution had been issued a scant four hours before the pair was to die.

Miss Lima was convicted again, sentenced to five years, credited for time in custody and now is free.

Ashley was adjudged insane. Subsequently he escaped from a mental hospital, was recaptured by FBI agents months later and ruled sane at a second hearing. He was granted a change of venue from Wharton to Corvell County for the murder trial.

Pleas Are Entered

Two Snyder residents pleaded innocent Monday to charges of possession of beer.

Entering not guilty pleas were Pete Davis and Lorene Kellum. Both were released on $500 bond. They were arrested Saturday. Trial will be set at a later date.

Speaks To Lions

Police Chief Chester Simons today spoke at a noon meeting of the Snyder Lions Club. He outlined the functions and operation of the Snyder Police Department.

Pair Were Treated Well As Captives

PHNOM PENH, Cambodia (AP) — Two American soldiers released by the Viet Cong said today they had been well treated during their two years of captivity.

Spec. 5 Claude E. McClure, 25, of Chattanooga, Tenn., said his captors cared for his wounds, shared their food with him and allowed him mail from his family and Red Cross packages.

"Had it been the Saigon government I would have been tortured," said McClure.

Sgt. George E. Smith of Chester, W. Va., said he believed his liberation was "the direct result of protests in America against U.S. involvement in the Viet Nam war."

The Viet Cong in announcing their release Saturday said they were being freed to show good will toward Americans opposing the war.

The two soldiers appeared at a news conference arranged by the Cambodian information minister. They had crossed the border after their release and were brought to the Cambodian capital Monday.

"I have known both sides," said Smith, and the war in Viet Nam is of no interest to the United States.

Smith, asked about the morale of the South Vietnamese government troops, said government officers frequently ran away whenever there was a fight.

Smith said he was returning home "so Americans can see the light about the war in Viet Nam."

Both soldiers said they expected "harassment" when they got home.

McClure said the Viet Cong did not try to indoctrinate its prisoners. He said his captors gave him books to read and paper for his letters. He said he didn't do much work in the camp.

Smith, 27, said "the Saigon government is not the government of the people. I have seen South Vietnamese villagers who were ready to help the Viet Cong."

Burglary Reported

Burglars took $18 in cash, a $15 car kit and two hand controllers valued at $6.98 each in a recent burglary of the Race Arama, Big Spring Highway.

Police said entry to the building was gained through an air conditioning duct on the roof. The money ws taken from a cash register at the firm. Officers said the theft was reported Sunday evening. Owner of the firm is Buddy Whittenburg.

Fire Extinguished

City Firemen answered a call at 10:50 p.m. Monday to a trash fire on West Thirtieth Street. Damage was minor, according to firemen, who said the blaze occurred when the trash fire got out of control.

Steelmen Retain Bargaining Plan

By NEIL GILBRIDE

WASHINGTON (AP) — The nation's big Steelworkers Union, ready to quit industry-wide bargaining after the recent crisis, has changed its mind.

The decision to stick with the long tradition of bargaining in concert with the Big 10 steel companies apparently settles a sharp internal division within the million-member AFL-CIO United Steelworkers Union.

Union President I. W. Abel, who unseated longtime Steelworkers chief David J. McDonald in the midst of the recent steel crisis, made it clear the union will continue its 10-year system of negotiating with the major companies that represent 80 per cent of the nation's steel production.

"The record shows that our industry-wide program really paid off," Abel said Monday in a talk here.

But the newly elected Steelworkers' leadership sang a different tune when it returned to Pittsburgh from the White House in September to persuade a fired-up membership to accept the settlement reached after President Johnson had laid specific "suggestions" before deadlocked negotiators and kept them virtually locked up until they reached agreement.

There was fear at the time that the powerful Wage Policy Committee of the union might reject the White House settlement.

At a secret policy meeting, the top union leaders at the time, Steelworkers Vice President Joseph Malony, with Abel also present, said: "Next time we'll take them (the companies) on one at a time and beat hell out of them."

The Teamsters Union, which has the power to halt most of the nation's trucking, has for many years used to good effect the "falling-domino" theory of negotiations, in which one big company at a time is picked off without creating a national crisis and government intervention.

But Abel, in tracing the history of steel bargaining, said that "I don't share this great concern" about crisis bargaining. Abel spoke to a collective bargaining conference being held here by the AFL-CIO Chemical Workers Union.

A Steelworkers spokesman confirmed it was Abel's first public reaffirmation of industry-wide steel negotiations.

HOSPITAL NOTES

Martin Is Promoted By Fire Dept.

The Snyder Fire Department today acquired a Lieutenant when Butch Martin, a regular driver, was announced by Fire Chief A. A. Kohl.

In other changes at the Fire Department, Delbert Hataway a native of Snyder, was hired effective today as a replacement for Bill McCright, who resigned to be employed by SCAT. McCright, was with the volunteer and paid department a total of about five years.

The promotion of Martin to Lieutenant is the first time the Department has had a Lieutenant since Mark Vaughn left the department to go to Alaska. Vaughn, since then, has returned and now is a Volunteer.

Martin began his career with the Snyder Fire Department Dec. 14, 1961 as a Volunteer. He joined the paid department Aug. 12, 1963.

No changes in shifts were anticipated by the promotion. G. L. Autry retains his position as Captain or Fire Marshall, and members of the Department continue to work shifts of 24 on and 24 off.

Hataway, the new employe, attended school in Fluvanna. He is married to the former Becky Sumerlin of Roby, and they are parents of one daughter, 3-year-old Jamie. The family resides on Route 1 on Thirty-seventh Street.

The Snyder Fire Department has a current strength of 33 volunteers and 12 regulars. The main station and two substations are equipped with seven trucks.

MODERN MEN ARE JUST DYEING TO GET AHEAD!

By SALLY RYAN
AP Business News Writer

NEW YORK (AP) — A man will dye, dye, dye for his job, not for the woman next door.

Sales of men's hair coloring products have boomed 75% per cent this year, the biggest jump in the men's toiletries field. Barbers report a big business in touching up the gray.

One manufacturer, L'Oreal of Paris, has developed a line of 12 shades of coloring Clairol which made hair coloring for women socially acceptable, is entering the field, advertising "Does he or doesn't he? Hair coloring so natural only his barber can tell for sure."

Dr. W. G. Eliasberg, a psychiatrist and author, says older men color their hair because they are afraid of losing their jobs to younger men, not because they want to enhance their sex appeal.

"Some men make sex their careers. On the whole, these are the real exceptions," he said. "The man at age 40 to 45 who hasn't sown his wild oats is an exception, and an industry can't be built on him."

What the hair coloring industry is built on, he said, is the man who is concerned about his career.

"It is a matter of economics," Eliasberg said. "You must not look as if you still want to be promoted. So if you have the misfortune to lose your hair or have it turn gray, you cover up."

Eliasberg, who has a full shock of white hair, said in an interview that prejudices against wigs, wiglets, hair spray and coloring have fallen.

There is a trend for both sexes toward rejuvenation, to appear younger than you have the misfortune of being," Eliasberg said. "You have to appear youthful. Everyone who is in that boat does it."

ANNOUNCEMENT

It is our pleasure to announce the recent installation in our offices of a Mackay-Marg Electronic Tonometer. This method of testing intraocular pressure for possible early indication of glaucoma was developed at the University of California. It is safe, easy and accurate. Because we believe that pressure testing should be a part of every eye examination, especially for those Over 40, we are adopting it as a routine office procedure.

VELVET TUNIC—Boulevard velvet steps out for a young social life with a gay new twinkle, via a band of beads and sequin discs trimming the tunic skirt, in this captivating slip of a dress. Fringed satin bow pinpoints the high Empire waistline that is the youthful fashion signature for this season.

Lucky 13, Gay 20 Have Dance

The Lucky 13 and Gay 20 Clubs held their annual Thanksgiving dance Saturday evening. The "Sensations" of Midland furnished music. Snyder High School students and exe's were present.

Members of Lucky 13 Club and their dates were: Janice Amos and David Holt, Sharrylon Ator and Jerry Vestal, Susan Boren and Keith Noble, Vicki Dean and John Flynn, Empress McFarland and Jackie Rice, Susan Miller and Tom Duke, Kris Stevenson and Roy Kizer, Donna Davis and J. B. Murphy;

Emily Kincaid and Ricky Hall, Mary Wilson and Mike Graves, Gayle Thompson and Dale Fielder, Janeen Clements and Rob Golden, Regina Ellis and Joe Rue Beavers, Cheril Stevenson and Billy Wilson, Barbara Favor and Jimmy Nix, Debra Raines and Murry Bowden, Cary Lynn Richardson and Drake Snyder, Barbara Crowell and Don McCowen, Sammie Raines and Jay Williamson, Garylon Walton and Ronnie Shields.

Gay 20 members and dates were: June Westfall and Terry Williamson, Cynthia Westbrook and Roy Rogers, Sue Sealy and Randy Keagan, Murray Anne Jackson and Jack Greene, Debbie Mebane and Richard Waters, Debbie McCants and Jim Rannefield, Shannon Traugott and Powers Boothe, Dotty Denson and George Norris, Pam Cole and Ray Kizer.

Sorority Has Dinner Meeting

The annual Thanksgiving covered dish dinner for the Iota Psi chapter of E S A was held Tuesday evening at the home of Virginia McMillan.

Helen Breeden brought a festive Thanksgiving poem to remind each of the many things we have to be thankful for before chicken, dressing and all the trimmings were served to Opal Coffee, Beverley Ainsworth, Faydean Hart, Wanda Rhodes, Jonnie Harber, Anita Payne, Ann Mathews, Virginia Johnston, Helen Breeden and Virginia McMillan.

Holiday Spills

After spot-cleaning those holiday spills on your carpet, rug, or upholstery, use your hair drier to direct warm air over the damp area. This not only speeds the drying, it helps to lift the nap.

An early automobile manufacturer of little faith equipped each horseless carriage with a whip socket on the grounds that a horse would be needed sooner or later to pull the vehicle home.

Christmas Wrapping

Save the empty carton in which a jumbo-size roll of metal foil is packaged, and use it to hold spools of gift ribbon when you are doing your Christmas wrapping. Stand the spools vertically in the carton side by side. Cut slits in the carton top—one for each spool—and pull the ribbons through.

WOMEN'S CALENDAR

1966 Buick. The tuned car. At your 1966 Buick dealers today.

What makes a car a car is styling, performance, ride and handling. Only when they're all tuned together is the car a Buick. Like this 1966 Skylark Gran Sport pictured above. Wouldn't you really rather have a Buick?

There's an authorized Buick dealer near you. See his Double-Checked used cars, too.

Tech Retains 10th Ranking

By The Associated Press

Ten days ago Notre Dame battled Michigan State in what well could have been the game for the national college football championship. Today, a lot of fight having gone out of the Irish, Notre Dame finds itself barely a member of the Associated Press' Top Ten.

Because of a scoreless tie with Miami, Fla., the Irish tumbled from sixth place last week to ninth in this week's balloting.

The final poll will be taken following the post-season bowl games in which eight of the current Top Ten play.

Notre Dame was fourth before the game with No. 1 Michigan State Nov. 20 but fell to sixth following the 12-3 loss. This week the Irish received 79 points, just 22 ahead of 10th ranked Texas Tech.

Besides the Irish, the only other Top Ten team not headed for a bowl game is eighth-ranked Southern California.

Michigan State, which closed its regular season against Notre Dame, accumulated 35 to 46 first-place votes and a total of 446 points.

The bowl game picture shows No. 1 Michigan State and No. 5 UCLA in the Rose Bowl, No. 2 Arkansas and unranked Louisiana State in the Cotton, No. 3 Nebraska and No. 4 Alabama in the Orange, No. 6 Missouri and unranked Florida in the Sugar, No. 7 Tennessee and Tulsa in the Bluebonnet and No. 10 Texas Tech and Georgia Tech in the Gator.

The Top Ten with first-place votes in parentheses, season records and total points on a 10-9-8, etc., basis:

1. Mich. State (3)	10	0	0	446
2. Arkansas (1)	10	0	0	390
3. Nebraska	10	0	0	348
4. Alabama (1)	8	1	1	286
5. UCLA	7	1	1	256
6. Missouri	7	2	1	186
7. Tennessee	6	1	2	109
8. Southern Calif.	7	2	1	91
9. Notre Dame	7	2	1	78
10. Texas Tech	8	2	0	56

Gallatin Fired, McGuire Hired

By DICK COUCH

NEW YORK (AP) — The New York Knickerbockers are convinced the only way to escape the National Basketball Association depths is at a gallop. As a result Harry The Horse Gallatin is set at a job for the sec- 11 months to the day after Gallatin time in 11 months.

The Knicks moved in the NBA's Eastern Division cellar for the sixth straight season to fire Gallatin - their coach for coeding Eddie Donovan, who less than a year - Monday and moved up to general manager, named Dick McGuire, another former New York ace, to succeed him.

The unexpected coaching change was dictated by the Knicks' inability to win despite their acquisition of scoring stars Walt Bellamy and Dick Barnett the NBA playoffs four straight times. Since giving up in early-season trades and by the Piston's post, McGuire has been a salesman for a New York firm.

McGuire, one of the top playmakers in the game when he and Gallatin were New York Knickerbockers, was traded to the Pistons in 1957, and Gallatin was named coach of the Knicks. McGuire, 39, played eight seasons with the Knicks, was traded to Detroit in 1967 and coached the Pistons from December 1959 through the 1962 season. His Detroit clubs reached the NBA playoffs four straight times. Since giving up coaching, McGuire has been a salesman for a New York firm.

CAGE TICKETS NOW 75 CENTS

Admission prices for Snyder High School basketball games this year will be 75 cents each for adults and 25 cents for students, school officials reminded today.

Heretofore, Snyder had charged 50 cents for adult basketball tickets. However, District 5-AAA, University Interscholastic League of which Snyder High School is a member, has set prices at 75 cents each for adults and all members of the district must charge that figure for both conference and non-conference games.

Travis Quintets Swat Sweetwater

SWEETWATER—Travis made a clean sweep of it here Monday night with the 8th grade team disposing of the Ponies, 15-11, and the 9th graders winning, 56-38. Both games opened the basketball season for the two schools.

Benny Ward paced the older boys with 23 points and Kenny Sebested was runnerup with 12 points. Others who scored: Roy Lee 10, Danny Brinner 2, Randy Rushing 1, David McGinnis 2, Willie Garcia 1, Jerry Tate 2, Harvey Browning 2, and Doug Morris 1.

After leading 17-13 after one quarter and 28-21 at halftime, the Travis 9th grade steadily began pulling away, holding a 45-25 lead at the end of three periods. High point man for Sweetwater was Brown with 17 points. Harris netted 10.

In the 8th grade contest, Wesley Bishop scored 11 points for Snyder. Others who tallied: Dennis Carlton 2, Ronald Ward 1, and Don Light 1. Atkins was high point man for Sweetwater with eight points.

The younger boys led through out the game, 2-2, 5-5, 11-7 and 15-15 at the respective quarters.

8th Wins, 9th Loses

The 8th grade Lamar basketball team waxed Colorado City, 43-24, but the 9th graders lost, 35-51, on the Texan court here Monday night.

Lee McNair led 8th grade scorers with 24 points. Others who tallied: Billy Bowden 5, Phil Ajor 2, Larry Green 6, and Randy Levens 4. Skeet Smith garnered 11 points for Colorado City.

Two 9th grade boys finished in double figures. Mitch Rambin with 14 and Steve Holder with 11. Others who clicked: Jerry January 4, Gary Tucker 2, and Leland Herod 4.

Randy Parker, 9th grade Colorado City boy, was high point man for the night, netting 34 points. However, he was the only 9th grader to finish in the double columns for the Wolves.

Buffs Host Wolves

The Fluvanna basketball team hosts Colorado City tonight. The "B" game begins at 6:15 p.m., followed by the varsity contest.

The Wolves won an earlier clash between the teams of the two schools. The Buffs will be out to even the score.

Violent Crime Rate Continues To Climb

WASHINGTON (AP)—The incidence of violent crime remains on the rise this year, but the FBI says the emphasis is away from the big cities.

The national increase during the first nine months of 1965 was 5 per cent compared with the same period last year. But the suburbs registered an 8 per cent rise, while communities with from 10,000 to 50,000 persons showed a 7 per cent gain.

In cities with more than one million population, the increase was only 2 per cent. Rural areas reported no change in the crime level.

Lady Luck Has Hand In Gemini 6 And 7 Prospects

By JIM STROTHMAN
AP Aerospace Writer

CAPE KENNEDY, Fla. (AP) — The experts will hand half the credit to Lady Luck if Gemini 7 and 6 can be launched in a brief enough time span to permit rendezvous in space.

"If we can get them both off the ground," however, said flight director Christopher Kraft, "the odds of achieving rendezvous are high."

Air Force Lt. Col. Jack Albert, launch director in charge of the Titan 2 booster rockets, said Gemini 6 astronauts Walter M. Schirra Jr. and Thomas P. Stafford have a 50-50 chance to soar into space in time to catch the orbiting Gemini 7 crew, Frank Borman and James A. Lovell Jr.

Borman and Lovell are to lift off at 2:30 p.m. (EST) Saturday on a marathon two-week flight. Schirra and Stafford are to blast off from the same lunch complex, nine days later, on Dec. 13.

"Unquestionably, we're going to have to have a lot going for us" during those nine days, Kraft said.

There is only one launch pad equipped for Gemini at Cape Kennedy. Teams must clean up the launch area after Borman and Lovell take off, erect another Titan 2 and spacecraft and check out all the systems. Normally, this takes 29 days.

"We've got a good chance of doing it," said Kraft. "There are three factors involved: How well the spacecraft 7 operates. How well we do with the checkout of the Gemini 6 space and launch vehicle, and the weather.

"If you run into an area where you've got to do extra testing, then you might have a problem. We don't want to launch Gemini 6 unless we're absolutely convinced we've done everything humanly possible to have everything right."

He said the Gemini 6 launch could be delayed up to 12 or 13 days after Gemini 7 blasts off, if Gemini 7 is functioning properly.

4-H Club Girls Model Own Creations

CHICAGO (AP) — Girls from all 50 states modeled their own fashion creations today in the dress revue of the national 4-H club congress.

The outfits, designed and executed by the models, ranged from formal evening gowns to gay sport ensembles. Others fell into the "fit for any occasion" category.

The girls were the tops among 389,500 4-H Club members participating in the national dress program. For being adjudged the best in their home states, each received an expense-paid trip to the congress.

Harvests Gain Speed

AUSTIN (AP) — Texas peanut and cotton harvests are picking up, the U.S. Department of Agriculture reported Monday.

Cotton gathering is one-half finished and peanut harvest in the Cross Timbers is continuing ahead of last year's schedule.

Sorghum combining is 98 per cent complete, on schedule with last year.

Wheat is furnishing ample grazing for cattle in most areas, and oats also are being stocked with every available animal.

Rapid progress has been made planting the 1966 flax crop, with good moisture for germination.

Green pepper shipments are heavy in the Lower Rio Grande Valley, where cabbage movement is increasing. Citrus volume remains moderate.

Carrots are in good supply on the High Plains and vegetable harvest is active in the San Antonio-Winter Garden area.

Sen. Mansfield Ends Visit In Cambodia

BANGKOK, Thailand (AP) — Senate Majority Leader Mike Mansfield returned to Bangkok today after a one-day visit to Cambodia.

The Montana Democrat made no comment to newsmen regarding his conference with the Cambodian chief of state, Prince Norodom Sihanouk. He was the first high-ranking American to see Sihanouk since Cambodia broke relations with the United States last May.

LIGHTEST MEXICO

BY JOHN ABNEY

GUANAJUATO, Mexico — This up- and -down city built in the bowl of rugged mountains has often been compared in appearance to Toledo, Spain.

It is really of exclusive Spanish origin and grew out of the estate of Rodrigo Vazquez, one of the Spanish conquistadores.

There was an Indian village here named Quanashuato, or something that sounds like it. When Mr. Vazquez arrived in 1546 to take over his new territory, he found only a deserted village.

The Indians, who were allergic to Spaniards by that time, had moved out and left the place to the frogs. Apparently there were jillions of them around because the original name translated to "mountainous place of the frogs."

Some 12 years after Vazquez thought he had settled down to a quiet country life a group of mule drivers discovered gold and silver here. Business picked up and all of a sudden Vazquez found himself living in the middle of a town.

Spanish architects beetled around putting up authentic Spanish buildings and laying out authentic twisting Spanish streets, paved with cobblestones.

Most of the streets are still intact. They wind through canyons of antique houses splashed across the mountain sides. The main traffic on the narrow, winding lanes is burro and pedestrian. But occasionally you see an automobile or pickup truck come bounding through an opening that looks like a crack in the buildings.

The mines are practically defunct now. But by the end of the 17th century this was one of the chief mining centers of New Spain. There were four main camps called "royals."

The most important of these camps was Santa Fe. And for a long time the little city was known as "Villa de Santa Fe in the Royal and Mines of Guanajuato." Sounds awkward but the word royal here meant something like mining camp.

Postmasters all over the world must have had terriffic headaches when they had mail for Guanajuato. The addresses probably ran three times around a regular envelope.

In 1741, King Phillip V granted Guanajuato the title of "City" in consideration (he said) of "its good and copious fruits, benign climate, purity of water and air."

There is a possibility the royal mines had something to do with this decree since Phil got the royal fifth in withholding [illegible] from all the gold and silver produced by the Indian volunteers and their Spanish advisers.

The mining was quite a venture, even by modern standards. The main shaft of La Valenciana mine went 1,600 feet straight down. And the famed mother lode was something like 16,000 yards long.

This subterranean bank produced from five to six million pesos a year from the time of its discovery until 1810 when the Spaniards were invited to go home. A span of almost three centuries, which adds up to many, many pesos.

Although gold and silver production has dropped to a mere trickle, new minerals have been discovered in the ancient tunnels. And the mining gentlemen are convinced the mountains still hold vast, utapped riches.

Research May Help Solve Complex Personal Problems

By WICK TEMPLE

ST. LOUIS, Mo. (AP) — Twelve years of sex research by two scientists at Washington University here may provide answers to what they call some of the most perplexing problems of the human race.

Dr. William H. Masters, gynecologist, and his assistant, Virginia Johnson, will publish a book early next year on their findings in the heretofore unexplored field of human sexual response.

Just as Alfred C. Kinsey explored sex sociologically, Dr. Masters and Mrs. Johnson have explored it physiologically, in the laboratory, with 696 volunteers.

Some of the problems to which their research may find answers are the sex life of older persons, sexual inadequacy, and a safe sex life for cardiac and hypertension patients. They say they also have developed the first natural contraceptive that can be injected.

"The most important thing to come out of this research is knowledge that human sexual response can be directly investigated," Masters said.

Kinsey's research answered questions on the what and why of sex. The research of the Washington University team answers the "how" questions.

"Medicine has never before tackled the problem of what happens to the body during sexual experience," Masters said.

The research began in 1954 and was not publicized until this year, although the team published 25 articles in medical journals.

The work became known because of criticism. Dr. Leslie H. Farber of Washington, D.C., a psychoanalyst, criticized the St. Louis experiments in a commentary magazine, saying the researchers were "scientizing" sex and reaching possible false answers due to taking sex out of its total context in the laboratory atmosphere.

Masters calls this fair criticism, but contends that the body functions are the same, no matter what the context. Also, he says he does not intend to waste time defending himself against criticism.

"I am interested only in turning the tide of misinformation about sexuality," he said.

The volunteers, primarily married couples from a cross-section of the population of this metropolitan area, are carefully screened and interviewed. Half are rejected. Those accepted attend orientation sessions with Masters and Mrs. Johnson.

During the research, the team has treated frigidity and impotence, which Masters calls basic factors of divorce. Results of these treatments will not be announced until the scientists have completed five-year histories of a meaningful number of patients.

"Our first cases were right out of divorce courts," Masters said. "The first year we treated 27 pairs and we have treated several hundred since. We don't consider the treatment successful unless the results are lasting. On the basis of the fifth-year report, we have learned that 24 of the first 27 pairs considered the treatment successful."

The laboratory contains color movie cameras and considerable scientific apparatus, including electrocardiographs and brain-wave and biochemical equipment.

After observing 7,500 female sexual stimulations and 2,500 in men, the team believes it now can advise doctors what to tell cardiac patients about their sex lives. They can tell members of the growing "over-50" population that they can have normal sexual experience. They can advise pregnant women on sexual problems.

In their study of conception and contraception, the researchers said they discovered a sperm-killing vaginal substance in certain women. When injected, it kills sperm in 10 seconds, Masters said. Since this would be a natural contraceptive substance, Masters believes it might meet some religious objections.

Masters, 50 and bald, did pioneer work in sex steroid field before beginning research on sexual response. He is married and has two children.

Mrs. Johnson, 40, studied psychology and sociology but had no advanced degrees. She was divorced a year before she joined the research group.

Masters started the first class in sexual response at Washington University Medical School five years ago. Since then, 25 other medical schools have started the course.

Washington University was the first medical school to allow sex research. Masters is an associate professor in obstetrics and gynecology.

Masters and Mrs. Johnson, with the aid of dozens of scientists and St. Louis civic leaders, have founded the Reproductive Biology Research Foundation, a nonprofit agency financed by private donations and grants.

Masters and Mrs. Johnson have a demanding schedule of research, writing and speaking to medical groups from coast to coast on their research. Masters also has a private practice in gynecology. Letters pour in from the public, but they had no time to answer them.

Their book, to be published in April by Little, Brown & Co., is entitled "Human Sexual Response". A second book, "Human Sexual Inadequacy", will include their findings on frigidity and impotence.

Masters and Mrs. Johnson declined to discuss their findings in detail prior to the publication of the book.

The books, Masters and Mrs. Johnson hope, will be as helpful to ministers and sociologists who help people with their problems as to the medical profession.

The presence of both sexes in the laboratory has made it easier to find the 378 women and men who have taken part in the experiments, Masters said. Ages range from 18 to 89.

Masters says he expects some criticism from the general public. "The opposition is cultural in its base line," he said, "from those who have uncomfortable and fearful feelings about sex." He said the only real question is whether the field of sexual response should or should not be researched. Masters and Washington University believe it should be.

Masters said the local medical profession generally favors the work, but there are some doctors who do not agree that the field of sexuality should be subjected to science. Masters said the opposition is not formidable.

On the wall of Masters' office hangs a quotation that sums up his attitude toward criticism:

"It is certainly not the obligation of science to explain everything. We must collect the facts. Once the facts have been assembled, the explanation emerges of itself."

Giant tortoises on the arid Galapagos Islands store water from the scant rainfall in neck sacs. Shipwrecked mariners have been saved from death by tapping the unusual water supply.

Houston Leads State In Murders

WASHINGTON (AP) — Houston led Texas cities in the number of murders for the first nine months of this year, the FBI reported today in its regular report of the man you want to [illegible]

Houston's 96 murders, [illegible] slaughter, compare with 93 during the same period a year ago. The murders placed Houston eighth in the nation, behind Chicago 297, Detroit 139, Los Angeles 171, New York 464, Philadelphia 158, St. Louis 106 and Washington, D.C., 113.

The comparable number of murders for the first nine months in other Texas cities, the 1964 figure given first: Amarillo 7-6, Austin 15-13, Beaumont 10-9, Corpus Christi 10-7, Dallas 119-81, El Paso 4-5, Fort Worth 52-44, Lubbock 8-5, San Antonio 43-39, Waco 3-4, and Wichita Falls 4-3.

Rape figures, 1964 given first: Amarillo 8-6, Austin 30-24, Beaumont 13-7, Corpus Christi 16-13, Dallas 94-99, El Paso 15-29, Fort Worth 31-40, Houston 204-81, Lubbock 24-18, San Antonio 57-81, Waco 5-12, and Wichita Falls 3-2.

Robberies: Amarillo 46-48, Austin 49-82, Beaumont 29-24, Corpus Christi 66-71, Dallas 494-410, El Paso 136-89, Fort Worth 237-281, Houston 1,136-961, Lubbock 42-35, San Antonio 229-253, Waco 32-45, and Wichita Falls 28-27.

Burglary: Amarillo 1,149-800, Austin 1,376-1,354, Beaumont 581-673, Corpus Christi 1,435-1,454, Dallas 4,069-5,677, El Paso 1,854-2,189, Fort Worth 2,742-2,896, Houston 10,609-9,137, Lubbock 965-1067, San Antonio 4,977-5,333, Waco 1,044-1,243, and Wichita Falls 375-526.

Life Insurance Salesmen Reveal Tricks Of The Trade

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — You may work harder but you play more. You use your friends and relatives and social affairs to get your foot in the door. And you learn how to handle the secretary of the man you want to [illegible] tells you when this prospect is wasting your time.

This is a composite picture of how you can sell a million dollars or more of life insurance a year and keep right on doing it. In fact, the going gets easier as your prestige builds up. And your own income goes up, too.

The pictures of these salesmen comes in part from a survey answered by 2,000 members of the Million Dollar Round Table for the Survey Research Center of the University of Michigan. The tricks of the trade come from several of the men who [illegible]

[illegible] need only three to 10 interviews a week to maintain their sales [illegible] in the prospect's office rather than his home. If the interview hasn't already been set up, the salesmen treats the secretary with the dignity and respect her importance demands.

The majority of the superstar salesmen say they work a 50-hour week, with one or two evenings included in that. But most speakers and authors take from four to six weeks of vacation a year and four per cent take 13 weeks or more.

The average income of the [illegible] more than $300,000.

While 60 per cent are college graduates, 40 per cent who didn't get as far as high school.

Most admit they need friends and relatives to help them find prospects. But they stress that involvement in social events and civic affairs is a prime help. Many build up prestige by [illegible] as lecturers, writers, officers in local, state or national [illegible] representatives, and more take on local political chores.

[illegible] field for selling to existing policyholders as these clients climb the success ladder and garner higher incomes.

Bank Board Grants Charter In Laredo

AUSTIN (AP) — The Texas Banking Board granted a charter Monday to the Bank of Commerce of Laredo and refused to charter the proposed West Texas State Bank of Canyon.

The board held there was no public necessity and a lack of business to support the Canyon bank.

It also heard unopposed applicants for the First State Bank at Covington, and two applications opposed by existing banks — for the First State Bank of Keller and the Frontier State Bank at Eagle Pass.

Two More Texans Die In Viet Nam

WASHINGTON (AP) — The Defense Department released the names Monday of 31 soldiers and Marines — two from Texas — who were killed in action or died of wounds in View Nam.

The Texans were Marine Pfc. Tony Vale, son of Mr. and Mrs. Tony Vale, 6642 Avenue N, Houston, and Army Pfc. Charles Collier, son of Mr. and Mrs. Charlie Collier, Mount Pleasant.

STRICTLY 'NEW-HAT' EVERY DAY!

There's nothing brighter, fresher, newsier and more welcome than your daily paper. It keeps you current on world affairs, stimulates your mind, tickles your sense of humor, puts facts at your fingertips.

It's short-lived — but it grows old gracefully. Today's paper won't be dead tomorrow or even the day after that. So much that's in it is timeless as well as timely. Things like expert financial and medical advice, recipes, do-it-yourself hints, special features and stories, pictures — these are just a few of the ageless extras your daily paper gives you.

In this era of mass communications, your newspaper stands out as a tangible document. It's yours to read, put down, pick up and read again, clip and save.

New Economic Hardships Hit Struggling Indonesia

JAKARTA, Indonesia (AP) — A new set of economic rules has heaped more hardships on the Indonesian people already gripped in the vise of inflation.

The Indonesian economy was sick before the Communists and their allies tried to stage a coup Oct. 1. It is sicker now as the army chases Communists and Chinese businessmen, fearful of being caught in the roundup, take to cover.

The common people are apprehensive as the cost of living skyrockets.

The price of rice, second quality, has reached 2,000 rupiahs per liter. In the last week of June it was 310 rupiahs. This is a 677 per cent increase.

Other essential commodities have risen in the same proportion.

An unstable situation in trade circles resulted in a near panic among businessmen — notably Chinese, who are reported smuggling their capital abroad.

A presidential decree gave the government the right to seize control of key private enterprises.

The price of gasoline was increased along with railway and inter-island shipping fares.

Finally, a new economic-financial policy for 1966 was decreed by President Sukarno.

This called for an austerity program in development projects but stilpulated that spending would be continued on Sukarno's political and prestige enterprises.

The policy put all imports and exports under increased government control.

The new policies were issued either by Sukarno or by his civilian aides apparently without the consent of the army, which has been virtually ruling the country since the attempted coup.

Army-controlled newspapers and sympathizers said the new economic rules were issued to divert the people from the anti-Communist campaign.

Supporters of the military fear that the army may be blamed for the deteriorating economic conditions.

Sukarno wants the Communist groups — religious and communist — to be kept so that his balance of power concept in government remains alive. "Nasakom" calls for co-operation between nationalist, communists and religious elements. Key figure of the Indonesian Communist party — represent the "Nasakom."

Actress Natalie Wood Breaks Engagement

HOLLYWOOD (AP) — Actress Natalie Wood has returned a huge diamond engagement ring to Ladislav Blatnik, Venezuelan shoe tycoon, and ended their engagement.

Miss Wood confirmed Monday that she had returned the ring, but declined other comment. Blatnik also declined to discuss the reason for the break-up. He said he will return to Caracas.

N-Powered Enterprise Joins 7th Fleet

MANILA (AP) — The 85,000-ton Enterprise, the world's largest aircraft carrier, entered the South China Sea today for the first combat patrol ever undertaken by a nuclear-powered surface ship.

The Enterprise sailed from the U.S. naval base at Subic Bay late Monday and set a westerly course to join units of the 7th Fleet operating against the Communists in Viet Nam.

The giant ship's movements are classified, and a Navy spokesman would only say the Enterprise is "no longer in Subic Bay." However, the Navy had announced earlier that the "Big E" would be assigned to alter the Pacific crossing from California. During the stay in Subic Bay, the Navy kept the carrier under security wraps with the 7th Fleet.

The Navy said that her crew and her nuclear-powered guided missile frigate, the Bainbridge, have been assigned indefinitely to Pacific waters. Two more nuclear-powered surface ships will join them early next year.

The Navy spokesman said that in keeping with policy concerning ship movements, no further announcements concerning the Enterprise could be expected for some time.

Interview Is Censored

ANTWERP, Belgium (AP) — An interview with space scientist Wernher von Braun has been kept off television in Antwerp, Belgium, because of protests over his part in the development of German missiles in World War II.

Berlin Wall Topic For Assembly

The Berlin Wall will be the topic of a special assembly program at 8:30 a.m. Wednesday at Snyder High School.

The speaker will be Paul (Tex) Yearout, world traveler who is noted as a dynamic youth speaker.

He has traveled extensively with "Teen Teams" across the United States, Canada, Mexico and Europe. Recently he spent four months in Europe with a seven - member "Teen Team" of musicians appearing on over 100 high school and college assemblies.

Yearout made nine trips behind the wall into East Berlin and had a number of secret contacts with East Berlin young people. His "Berlin Story" is factual, current and enriched by vivid accounts of many dramatic personal experiences on both sides of the wall.

Money Bag Proves Doubly Valuable

WASHINGTON (AP) — Herbert A. Poole, a Washington businessman, wasn't short-changed when he went to the bank Monday.

As he returned to his car, two gunmen surprised him.

"This is a holdup," one said as he jumped in. Poole stepped on the gas.

The gunman was jolted out of the auto, but not before he fired a shot. The bullet struck Poole's heavily stuffed money bag, penetrated some bills and deflected weakly off a roll of silver. Poole suffered a slight thigh injury.

Says Cotton To Lose To Man-Made Fiber

WASHINGTON (AP) — The Agriculture Department predicted today that cotton will lose more ground this year to other fibers in consumer uses.

A report indicated cotton's share of total fiber consumption in this country during 1965 will drop to a record low of 52.9 per cent.

Man-made fiber consumption is expected, it said, to reach a record high of more than 41 per cent.

The department said sharp reductions in prices of man-fibers have contributed heavily to their increased use.

Harlem Group Proposes Separation Of The Races

NEW YORK (AP) — Each night in a makeshift Harlem theater a group of young Negroes give vent to their hatred of white people.

They act out dreams of a day when the Negro will stand apart from the white world, and Harlem will be an independent nation.

Their leader is the bitterly antiwhite poet-playwright, LeRoi Jones, 31. He founded the seven-months-old Black Arts Repertory Theater-School, partly supported by federal funds.

"I don't see anything wrong with hating white people," says Jones. "Harlem must be taken from the beast and gain its sovereignty as a black nation."

Jones rejects integration as a solution for the American race problem. He advocates force to bring about outright separation of black and white.

"The force we want," he once wrote, "is of 20 million spooks (Negroes) storming America with furious cries and unstoppable weapons. We want actual explosions and actual brutality."

Last April Jones left his cold water Greenwich Village flat, his Jewish wife and their two children, and with several other Negro artists moved "to Harlem with our people."

They founded the theater to provide a platform for the artists and, in Jones words, "to re-educate the nearly half a million Harlem Negroes to find new pride in their color."

A three-story tenement in the center of Harlem was converted to their purposes. Classes were set up in such subjects as the cultural history and political philosophy of the black man in America, play-writing, painting, dance and sculpture.

Remedial reading and math courses were taught to about 80 children between the ages of 7 and 13. Jones said they were also instructed in "hard core nationalism."

In the theater the use of white actors is avoided by rubbing black faces with chalk.

All the productions seethe with rage against "Whitey," an all-inclusive term for whites, who usually are portrayed as homosexuals.

The word "Negro" is avoided as a white invention. "Black man," is a term of pride.

The project's pace stepped up after $40,000 in federal antipoverty funds was made available. Four hundred students were recruited for an eight-week summer teaching session.

The group also put on a five-week outdoor program, attracting thousands to thrice-weekly night presentations of drama, poetry readings, dance and jazz concerts on dimly lit street corners.

The 12 to 15 actors who form the repertory company's core, along with the 20 or so writers, sculptors and painters who teach at the school, address each other as "brother" and "sister."

The late black nationalist Malcolm X is spoken of reverently. A photograph of Malcolm hangs over the desk of Jones' secretary.

Bayard Rustin, architect of the 1963 civil rights march on Washington, says the preaching and teaching of Jones and his followers is having little impact.

Alexander J. Allen, executive director of the Greater New York League, thinks the group might have some value, explaining: "It is creating a new cultural awareness and that is a constructive thing.

"There are certain aspects of the need for heritage and the need for pride in blackness that are very constructive. For too long we have been afflicted by a set of values that made white a positive value and black a negative one," Allen says.

A police official commented that "as a group we don't feel they represent a threat."

Junior Editors Quiz on TOY DOGS

QUESTION: Is it true that toy dogs originated in China?

• • •

ANSWER: Most breeds of dogs were developed to help their human masters in various forms of hunting, such as the beagles, hounds, setters, pointers and so on. But, at an early time, men discovered how much pleasure could be derived from breeding and raising dogs purely as pets. Small dogs were more practical to keep inside a house, and so came the cultivation of the toy breeds.

Ancient China had a large part in this development: The most striking of toy dogs, the Pekinese, was bred in the royal Chinese court to typify a regal appearance. The tiny Pekes, some so small as to be carried inside a Chinese sleeve, still bear themselves with pride, being very intelligent and quite aggressive. The Chinese also developed the larger chow-chow and the pug dog, as well as a hairless breed of dog said to have been carried by sailors to Mexico, and now called the Mexican hairless dog (1). China, however, cannot claim all the toy breeds. England developed the toy spaniel; Italy, a miniature greyhound; Germany, several toy breeds. The tiny Chihuahua (2), toy among toys, originated in Mexico.

• • •

FOR YOU TO DO: Many of you may possibly feel that a toy dog is not as much of a dog as a big one. Find someone who has a toy dog and pay a visit. You will find that although the little fellows may weigh less, they are just as protective, affectionate and doglike as the big ones. 11-30

(Ellen Watson of Champaign, Ill., wins this week's grand prize of a 15-volume set of Compton's Pictured Encyclopedia for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Pavement Plato's Comments:

By HAL BOYLE

NEW YORK (AP) — Curbstone comments of a Pavement Plato:

One of the luck things in this world is to have something obviously wrong with you.

It ordinarily helps a human being to get ahead if he has a recognizable but not too repulsive a defect.

This is one way in which people differ from chickens, and other perhaps lower forms of zoological life.

The pecking order in chickens requires complete similarity. If you put a spot of blood on a healthy chicken, the other chickens will surround and peck it to death, feeling it is a threat to the rest of the flock. They suspect it of being diseased.

The difference between the chicken flock and the human herd is simply this: Chickens unreasonably require perfection in their leaders and each other; people are suspicious of perfection claimed by their leaders or claimed by followers of such leaders. And to some extent they are aware of their own limitations.

We expect excellence always from our champions, and usually from each other. But we also expect failure and lack of performance from them sometimes, too.

One of the things we like about Babe Ruth is that, although he knocked 714 home runs, he also struck out a lot of times.

One of the things we like about George Washington is that, for all his granite force of character, he now and then let his temper get the better of him—and blew his stack, even as you and I.

One of the things we like about Abraham Lincoln is that, for all his political sagacity and eloquence in sustaining the American Union, he was homely and perhaps mildly henpecked. So was Socrates.

Every hero that has embedded himself deeply and lastingly in the affections of mankind has had a recognizable wart. This enables the rest of us to identify ourselves with him, and smile and say, "Well, after all, he was human, too."

It is hardly satisfactory to be sympathized with merely for one's warts. Every human heart also yearns to be remembered for something about it that is right. This takes a bit of demonstrating.

Veterinarians Die In Mexico Crash

DALLAS (AP) — Funerals for prominent Dallas veterinarian and his son, killed Sunday night in a plane crash in Mexico, are pending.

Dr. Jack R. Buie, 45, and his son, Jack Michael Buie, 20, a sophomore at the University of Texas, were killed landing at an unlighted airfield near Saltillo.

Chinese Waging War Of Nerves

By CONRAD FINK

NEW DELHI, India (AP) — Communist Chinese troops are probing west and along India's Himalayan frontier. Some Indian blood is being spilled.

Peking is flooding New Delhi with protest notes charging India with provocations and warlike activity.

Why this Chinese war of nerves? Two theories are popular in government circles.

—The Chinese, frustrated by a lack of success in Africa and Southeast Asia, are hardening their stance from India to Korea so as to exploit every opportunity to cause trouble, especially for the United States.

—The Chinese intend to give moral support to Pakistan in its conflict with India and at the same time create "irritations" and conflicting claims that could be propaganda preparation for renewed hostilities against India.

New Delhi doesn't expect a major Chinese attack soon, however.

One of Prime Minister Lal Bahadur Shastri's top Chinese experts points out that the winter snows have closed the mountain passes leading south from Chinese-held Tibet to the Indian plains.

Neither do Indian experts expect a major Chinese intervention in the Viet Nam war or a trial of strength elsewhere against American armed might.

The Chinese for the moment seem willing to let the Vietnamese take the punishment inherent in tangling with the Americans, these experts say.

No such inhibitions are evident among the Chinese troops on the Indian front. They push across the border with impunity.

One Indian expert on China said Peiping's current examination seems aimed at removing the last vestiges of restrictions left over from the 1962 border war.

After that bloodletting, China unilaterlly announced demilitarized zones had been established along its frontier with India.

"Lines of control" were set up. The Chinese now have violated their own ground rules and obviously no longer consider them valid.

This, the Indians fear, may be groundwork for a new, serious attack — perhaps after the passes are clear of snow next spring.

Farmers Union Chief Plans Retirement

ST. PAUL, Minn. (AP) — James G. Patton will retire next year as president of the National Farmers Union. He made a surprise announcement Monday night before the Minnesota Farmers Union convention that he was stepping down in March after 25 years in office.

Patton, 63, said he would reject any draft at the convention in Denver, Colo., next march.

Brezhnev Back From East Berlin Visit

MOSCOW (AP) — First Secretary Leonid I. Brezhnev of the Soviet Communist party returned to Moscow Monday after three days visiting in East Germany for talks "in an atmosphere of cordiality, fraternity and full unity of views."

No reasons for the trip was given in the official announcement.

PENNILESS HEIRESS—Anna Marie Hitz Bierschenk, 18-year-old heiress to a Swiss fortune, and her 25-year-old husband, Ulrich, are shown in Caracas, Venezuela. The heiress, who was reported missing by her mother in Washington, says she plans to settle in Venezuela with her husband after he gets a job in business or teaching. A friend said the couple arrived in Venezuela penniless. (AP Wirephoto by radio from Caracas)

Shortages Blamed On Ian Smith

By KENNETH WHITING

ACCRA, Ghana (AP) — The breakaway Rhodesian regime has served to strengthen Ghana President Kwame Nkrumah's position at home and in the rest of Africa.

Mobilization of Ghana's armed forces — including recruitment of an unpaid militia just started — will require belt-tightening by the people, Nkrumah says.

Government papers have announced that any commodity shortages and other hardships should be blamed on Rhodesia's white prime minister, Ian Smith.

No mention was made of scarcities which have been occurring sporadically here for more than a year because of mismanagement and corruption.

Ghana imported consumer goods worth more than $280 million to make Accra appear a well-stocked showcase during last month's African summit conference.

These goods are mostly gone and stringent controls have been restored. Some clothing, shoes and various foodstuffs already are scarce.

"Of course I am hoarding," said one Ghanaian matron cheerfully as she strolled from an Accra shop carrying 25 pounds of sugar.

Wide powers have been assumed by the government under the Africa defense bill rammed through Parliament last Friday. Under it, the president assumed the equivalent of martial law control.

Nkrumah's prestige in the rest of Africa, which appeared at a low point at the end of the summit meeting, has risen sharply in the period since Rhodesia broke away.

The Ghanaian leader has for years advocated a unified military high command in Africa to deal with such situations as Rhodesia.

Nigerian papers have praised Nkrumah's criticism of British Prime Minister Harold Wilson and questioned the effectiveness of sanctions ordered by Britain and tacitly backed by Nigerian Prime Minister Sir Abubakar Tafawa Balewa.

Ambassador James Roosevelt Follows Family Tradition

By WILLIAM N. OATIS

UNITED NATIONS, N.Y. (AP) — Ambassador James Roosevelt, carrying on a modern family tradition of service with the United Nations, has begun his new career in the footsteps of his mother on the path of human rights and welfare.

Like his mother he shows a readiness to speak what is uppermost in his mind — in this case the Rhodesian crisis.

He thinks American, British and Dutch suppliers would respect a world oil embargo against Rhodesia if convinced it could be made effective. But he suspects that Rhodesia's white minority government might manage to thwart it by getting oil from the South Africans, the French and even the Russians.

He said this in an interview after the U.N. Security Council called on all countries "to do their utmost in order to break all economic relations with Southern Rhodesia, including an embargo on oil." The United States, Britain, the Netherlands and the Soviet Union joined in a 10-0 vote for the council's embargo resolution a week ago. France abstained.

Ambassador Roosevelt did not take part there, since he is U.S. delegate on the Economic and Social Council. But his section was in on U.S. mission talks about the prospects for an oil embargo — and he said, "I think we have moved closer to the opinion that it might be effective."

Rhodesian Prime Minister Ian Smith has declared the colony independent of Britain in resistance against British efforts to hurry it toward majority rule involving its 4 million Negroes in addition to its 220,000 whites. The embargo is intended to remove the white minority regime by non-violent means.

British-Dutch and U.S. companies supply Rhodesia with most of its oil through Portuguese Mozambique. As to their attitude toward the embargo, Roosevelt said:

"Nobody, I suppose, rejoices at the idea. But I think that if they were convinced it would work effectively, they would go along. The Rhodesian market is not that big."

However, he said, "There's oil available from South African sources. There's also some oil available from Soviet sources. And you may have noticed that France abstained on the resolution. So there is French oil that can go to Rhodesia."

Though the Soviet Union voted for the resolution, he remarked, Iron Curtain oil could go to the Rhodesians nevertheless under certain circumstances.

terviewer over breakfast at the Warwick Hotel and in a car en route to the U.S. mission. He had attended his first meeting of the Economic and Social Council the day before. As a U.S. delegate to the General Assembly, he had been attending meetings of the assembly's economic committe for almost two months.

Texas Almanac For '66-'67 Out

Maps of leading lakes and historical sites, new U.S. Census business data, ZIP codes for all Texas post offices and many other new features are found in the 1966-67 Texas Almanac, just published by The Dallas Morning News.

Larger by 48 pages than the last edition, this issue marks the 125th anniversary of the establishment of the firm which publishes The News and the 110th anniversary of the founding of the Texas Almanac. Dr. DeWitt Reddick, director, Schools of Communication and Journalism, University of Texas, is author of the history of "Texas Oldest Business Institution" in this edition.

Other exclusive features in the Texas Almanac listed by Editor Walter B. Moore include:

Population estimates for Texas cities, towns and counties.

Individual County maps and information.

A guide to pronunciation of difficult Texas place names.

Individual pages of economic information for each of Texas' 40 largest cities.

Twenty pages with scenes and maps of historic towns and counties.

Reproductions of work by leading Texas artists.

An expanded recreation section, with color pictures and an introduction by Frank Tolbert of The News.

Election returns for 1964 and earlier years, including Texas' vote in all presidential and gubernatorial elections.

Complete text of the Texas Constitution, with amendments adopted through 1964 and submitted in 1965 and for 1966.

Lists of state, county and municipal officials and summaries of state, county and municipal governments and finances.

Also listed are more than 500 Texas trade and professional organizations, colleges and universities, libraries and museums and theater groups.

Agricultural information and chapters on plant life, weather, minerals, employment and labor, banking, wholesale and retail trade, service industries, insurance and numerous other topics have been compiled with the assistance of hundreds of Texans who are authorities in their fields.

Often called "The Encyclopedia of Texas," the Texas Almanac is a standard reference in schools, public offices, business institutions and elsewhere. It also is widely used as a gift by individuals and business firms and a tourist guide. The publication is completely indexed and contains more than 450 illustrations.
