Wright Patman's Weekly Letter

First Congressional Dist. of Texas
"Heart of the Gulf Southwest"

PRESIDENT LINCOLN called it: "A day of Thanksgiving and Praise to our beneficent Father." In the midst of their worldly dealings, people generally recognize that no duty is more urgent than that of giving thanks. On this occasion, the American people recognize an obligation that transcends good manners and becomes good morals.

PRESIDENT KENNEDY, one hundred years later, included these words in his Thanksgiving proclamation: "Today we give thanks, most of all, for the ideals of honor and faith we inherit from our forefathers..." Here again it is pertinent to note that the concept of a nation includes the honored dead who founded and nurtured it, as well as the living who continue it.

PRESIDENT JOHNSON in his Proclamation this November reminds us that America is the "beneficiary of good fortune beyond that of any nation in history." Americans are prone to self-criticism, but perhaps on this Thanksgiving Day we can be forgiven if we remember the many things that are good in our great and incomparable nation, and give our humble thanks to the Lord from whom all blessings flow.

FANTASTIC YIELDS! The U. S. Department of Agriculture estimates that our national corn production in 1968 will average 83 bushels per acre — 4.8 bushels more than the preceding year which was itself a record. At this rate our 55.9 million acres of land planted in corn will produce over 4.6 billion bushels of this truly American farm product. To fully grasp the remarkable progress being made in corn production it must be realized that the average corn yield in 1930 was only 26 bushels per acre. It is expected that within a decade our best farms will be harvesting from 250 to 300 bushels of corn per acre which is more than 10 times the yield of the acres I helped to cultivate and harvest during the 1920's.

YOUNG DISABLED VIETNAM VETERANS under age 24, may be eligible for social security disability benefits in addition to the veteran's compensation. These payments are made when the veteran is unable to do any gainful work, and his disability has lasted or is expected to last for at least 12 months. Recent changes in the Social Security Law provide that for persons up to age 24, only six quarters of social security coverage are needed to qualify for benefits. Six quarters would be 1½ years work, and the extra credits earned

Rebels Win Opener From Atlanta 54-49

The Rivercrest Rebels opened their 1968 basketball season with a 54-49 upset victory over Atlanta Thursday night at Talco.

Eddie Williams paced the Rebels with 22 points and Norman got nine rebounds for the Rebels. Atlanta's Sesser had 18 points in the contest.

Atlanta won the "B" boys contest 32-31. Rebel Lawrence Norman scored 13 points in that game.

Mrs. Berta Harrison accompanied her sister, Mrs. Virgil Davis and Mr. Davis of Valdosta, Ga., to Hamlin to attend the funeral of their brother-in-law, Pat Wright. Mrs. Harrison returned home Sunday.

1870-1970. According to my records the following communities in the First Congressional District will be celebrating the 100th anniversary of their founding or establishment of their first post office during the year 1870: Atoy in Cherokee County; Hallsville in Harrison; Cotton Plant in Lamar; Mim's Store in Marion; Avery in Red River; and Cookville (under the name of Clay Hill) in Titus. Delta County will also have its 100th Birthday in 1970.

"GALLONS PER ACRE" is the term jokingly used in some parts of the country to describe a farm's capacity to produce a powerful but illicit alcoholic beverage. It may soon, however, become a term in excellent standing in the community since hydrologists (water engineers) are predicting that the shortage of fresh water will make it profitable for farmers in hilly regions to harvest rainwater by covering their land with a plastic material and draining the water into a reservoir for sale to cities and industries.

NOTICE

ALL RESIDENTS OF THE TALCO-BOGATA SCHOOL DISTRICT —

As the results of a special meeting of the Board of Trustees of the Talco - Bogata CISD held on November 25, 1968, the following statement is made.

"Contrary to comments and rumors you may have heard, the Superintendent and Board of Trustees HAVE NOT made plans to move all or part of the Bogata Elementary School to Talco. Moving the Junior High HAS BEEN DISCUSSED as well as other proposals to improve the housing situation in the school system. Moving ALL of the school has NEVER been discussed under the present administration.

"Because of the consolidation resolutions, no definite decision would have been made before getting the approval of the people. Due to the apparent feeling that has already been expressed by the Bogata residents that they prefer having the Junior High remain in Bogata, it is the recommendation of the Superintendent and the Board of Trustees that it remain in Bogata."

The above statement was approved by a unanimous vote of the Board of Trustees and is now entered in the official Board Minutes.

Talco - Bogata CISD

Austin. — Lt. Gov. Preston Smith is making arrangements to take office as governor on January 21. He already has selected some of his official family. Jim Oliver of the Legislative Budget Board, which Smith now heads, will be come director of the executive budget office. Oliver is working on the budget which the new governor will recommend to the Legislature.

Jerry Hall, chief of the Capitol Bureau for Newspapers, Inc., — the Austin, Waco, Port Arthur and Lufkin dailies — will become Smith's press secretary.

Certain to have a top job, either as secretary of state or as chief administrative assistant, will be Harold Dudley, who managed Smith's campaigns.

SCHOOL — New members of the Legislature came to Austin for two days to learn the ropes about the legislative process. Speaker-to-be Gus Mutscher of Brenham, with the help of the Legislative Council, arranged the orientation sessions. Freshman legislators will thus have an insight into how the legislative process works when they start the 140-day session on Jan. 4.

Turn-over in the legislature this year was low. Only 30 new members were named to the 150-member House, and only three new senators among the 31-member Senate. Two of the senators have been in the Legislature before, so there are only 31 in all who have not had legislative service.

POVERTY — With 28.8 per cent of the Texas families having incomes under \$3,000, well above the national average of 21.4 per cent, Gov. John Connally feels that Texas should continue to make every effort to find and cure the cause of poverty.

In his report on operations of the Texas Office of Economic Opportunity, the governor said that \$113,038,642 in Federal money was allocated to anti-poverty programs in Texas during the year ending Aug. 31. Grants ranged from mths \$18,055,846 used to operate the three Job Corps centers at San Marcos, McKinney and New Waverly to the \$8,345,358 allocated to 94 colleges to provide campus jobs for 28,073

college students who needed jobs to stay in school.

COURTS SPEAK — On January 8 the State Supreme Court will review an Amarillo mans suit against a TV station which identified him as a robbery suspect after he had been released as blameless by police. Lower court held for the station.

High court will hear arguments January 15 in a suit where in Ford Motor Company is charged as negligent in manufacturing a brake assembly on a new Ford truck that hit an Amarillo couple's car.

Trinity River Authority was loser in its effort to enforce a condemnation award for property it sought in San Jacinto County. Supreme Court overruled the application for mandamus.

Another loser was a Lubbock man trying to collect damages for arm cuts suffered when he accidentally rammed a fist thru a liquor store glass door. Supreme Court declined to reverse the Tyler court of civil appeals rejection of a jury award of \$2,524.

OIL YEAR BRIGHT — For the fourth straight month the Railroad Commission left the allowance unchanged at 41.3 per cent of potential, permitting a December maximum production of 3,027,299 barrels daily.

December pattern will average out the year at 44.9 per cent of potential which (by the old standard) means 164.3 million flowing days — highest since the 171-days of production during the 1956-57 Suez crisis.

Five of 14 major Texas crude oil buyers asked bigger allowance, three less and six the same.

LAND BOOM — Buyers aplenty showed up at the Veterans Land Board's sealed-bid sale at which 233 repossessed tracts were offered to high bidders.

Total number of bids was 898, and the Board accepted the high bids on all the tracts except four. One 74-acre farm in Guadalupe County drew 90 bidders. High man was Marion A. Coulter, who bid \$22,502.

Board even managed to sell a 350-acre tract in Maverick County on which no bids were received the first four times it was of-

fered. It was one of the "black deals" from the veterans land scandals of the 1950's, and this time it drew 10 bidders.

WELFARE — Social workers for the State Department of Welfare soon will begin to spend their time trying to help solve the problems of people on welfare, instead of checking on their income.

A new policy was announced by State Welfare Commissioner Burton Hackney, after the U. S. Department of Health, Education and Welfare decided to try the new system nationwide.

Persons applying for federal-state grants because they are needy will merely fill out a declaration form, and they will be accepted.

Hackney said states that have tried this system, and then tested it by spot-checking, have found that very few people give untruthful information.

So the time of the highly-trained social welfare workers can be spent trying to arrange job training or other programs to help get recipients off the welfare rolls. In the past, much of their time has been spent in a "policeman's role," checking to make sure that those who get old-age assistance, aid to dependent children, aid to the needy blind or totally disabled, did not have hidden sources of income.

Medical certification from a doctor still will be required on those claiming benefits as being totally disabled.

A pilot program has been under way in the Austin, Nacogdoches and Houston areas. It will be expanded statewide by July 1.

SCREW WORM INVESTIGATION ASKED — A Rockdale lawmaker, Rep.-elect Dan Kubiak, has called on House Speaker Ben Barnes to order an investigation of the screw worm spread in Texas.

Kubiak claimed steps must be taken to eliminate the screw worm fly, which he said has returned to menace Texas cattle with a vengeance after a seven-year effort to stamp out the disease-causing pest. Kubiak said 5,000 cases reported last month are more than when the anti-screw worm program began.

Rebels Take Two From Atlanta

The Rivercrest Rebels boys basketball teams took two from Atlanta at Rivercrest Saturday night.

In the "B" game, Rivercrest won 48-32 behind the shooting of Troy Brown with 16 points. Lance Norman with 10 points, and Curtis Galloway with 10 points. High for Atlanta was Long with 13 points.

The Rebels edged Atlanta 65-62 in the "A" game, despite 35 points by Atlanta's Sasser. High for Rivercrest were Eddie Williams with 19 points, Danny Coline with 16 points, and Amos Brown and Corrie Minter with 10 points each.

Laverne Norman pulled in 13 rebounds in the game for the Rebels and Ricky Logan came up with some good defensive plays.

Mrs. Van Winkle and Mrs. Parker have recently made a record album, "Jesus Is Mine," and a new supply has been received. They have had their heart set on making an album for years as they've sung so many places and people have encouraged them to make recordings. They hope their album will be a blessing to each and everyone who hears it. Mr. and Mrs. Parker have made their home in Talco for many years and the Van Winkles are former residents.

Pleasant Independent School District in Titus County. The project provides for 52 weeks of training for 20 unemployed workers who are to be licensed practical nurses. The Manpower Development and Training Act of 1962 is aimed at helping train persons for occupations where qualified workers are in short supply. Total cost of the training program will be \$84,681 with the additional \$3,646 to be provided by local sources.

DID YOU KNOW?

THE DRIVE TO SAFETY

SKIPPING WAS ONE OF THE MAJOR CAUSES OF NEARLY 13 MILLION AUTO ACCIDENTS LAST YEAR, RESULTING IN OVER 50,000 DEATHS AND ABOUT 2 MILLION INJURED AND DISABLED.

SCIENTISTS HAVE FINALLY DEVELOPED A DEVICE TO HELP PREVENT SKIDDING AND SWERVING—THE LEE MYLES ROAD PILOT, AN ANTI-SKID AUTO STABILIZER. IT'S A COMPACT, FULLY ENCLOSED INSTRUMENT THAT HOUSES A HORIZONTAL PENDULUM AND WHEN ANCHORED TO THE TRUNK, INSTANTLY AND AUTOMATICALLY HELPS THE DRIVER MAINTAIN CONTROL ON OIL SLICKS, WET OR SNOWY ROADS, PANIC STOPS OR BLOWOUTS AND CURVES.

HOW IT WORKS

WHEN A SKID STARTS THE REAR OF THE VEHICLE GOES IN THE OPPOSITE DIRECTION TO THE POSITION OF THE STEERING WHEEL. THE PENDULUM IN THE STABILIZER MOVES TO "PUSH" THE REAR END BACK TO A STRAIGHT LINE. POLICE, BUS AND FIRE FIGHTING VEHICLES ARE NOW INSTALLING THE LEE MYLES ANTI-SKID AUTO STABILIZER.

Phone Call Gets Aid For Injured

An alert telephone operator and a gracious neighbor saved Mrs. Ed Lovell of Bogata a painful night on the floor of her home with a broken hip Wednesday evening of last week.

Mary Shelton, a long distance operator in the Paris office of Southwestern Bell, answered a signal on a Bogata long distance line and heard faint sounds as if someone was calling for help.

The operator notified Virginia Jackson, the assistant chief operator. In trying to distinguish the sounds, they heard a voice say "I'm Mrs. Lovell and I need help."

They called Kenneth Jeffery, manager of the Lone Star State Telephone Company in Bogata, and told him of the problem. He left immediately for Mrs. Lovell's residence.

The Paris operators, still trying to assist, learned from Mrs. Lovell that her neighbor was a Mrs. Clifton. They placed a call to Mrs. Clifton and told her of the problem. Mrs. Clifton rushed next door, took a screen off the window and entered the house.

She found Mrs. Lovell with a broken hip, unable to move. Somehow she had managed to knock the receiver off the phone.

A quick call to Dr. E. E. Brooks assured immediate medical aid.

The series of telephone calls, the alert telephone operators and a concerned neighbor were credited with saving more serious consequences for Mrs. Lovell.
