

Truman Says Production Comes First

Bus Strike Ties Up Southwest Traffic

KANSAS CITY, MO. —(P)—Bus drivers and other employees of Southwestern Greyhound Lines, Inc., left their jobs at midnight Sunday night in seven Southwestern states, joining striking Greyhound workers in 19 Eastern states.

Approximately 300 workers walked out in Texas. Other points affected were in Oklahoma, Missouri, Kansas, New Mexico, Colorado and Arkansas.

In Houston, military authorities and city police persuaded Greyhound officials to return baggage and parcels of stranded customers, after first refusing to do so. One WAC at Houston, with tears in eyes, complained that she had spent most of her money on a ticket.

A bus load of soldiers destined for Camp Wolters, were told in Fort Worth of the strike. They debated on telephoning the camp to ask for army trucks for transportation, lest they be AWOL.

A number of wounded servicemen were stranded by the walkout in Dallas. The bus terminal there was filled with travelers when the strike began.

1,000 Stranded at El Paso
El Paso reported the probability of a thousand or more travelers being temporarily stranded in that important east-west terminal. No buses left El Paso over the Greyhound routes north and east before midnight, drivers reported.

Officials of the International Amalgamated Electric Railway Street and Motor Coach Operators Union of America (AFL) said the strike is aimed at obtaining pay increases to offset loss of extra pay due to cancellation of the Office of Defense Transportation 35-mile-per-hour speed limit.

Drivers had been receiving a 15 per cent bonus during the period of the speed limit.

Texaco 1 Thomas Has Oil-Cut Mud In McKee-Simpson

By JAMES C. WATSON, Oil Editor

The Texas Company No. 1 Thomas, West Ector County Ordovician exploration, recovered 600 feet of drilling mud, heavily cut with oil, during a two hour and 30-minute drillstem test at 8,993-9,067 feet, in the McKee section of the upper Simpson.

Some observers estimated oil content of the mud as high as 50 per cent.

More Shows Drilled
Operator then drilled ahead to 9,138 feet, had, apparently encountered another saturated sand section, and Monday morning was taking a drillstem test to that level. Located at center of northwest quarter of northeast quarter of section 8, block 45, TP survey, T-1-S, this development is one-half mile east of the initial Ellenburger producer in the TXL field.

The Texaco test is showing more possibilities of production from the Simpson than has been indicated by any other exploration in the TXL district, which has already shown for prolific production from the Devonian and the Ellenburger and in addition has shown for production from the Silurian.

1-R Completed
Stand Oil & Gas Company and Continental Oil Company No. 1-R University, South-Central Andrews County prospect, 660 feet from south and east lines of section 5, block 9, University survey, and more than a mile south of closest production on south side of the Fuhrman-Mascho area, has completed as a discovery, by pumping 104.53 barrels of oil in 24 hours, plus 13.53 barrels of water.

The pay section at 4,340-4,466 feet is making the petroleum natural. The hole drilled to total depth of 5,539 feet. Tools were lost on bottom and operators were never able to get them out so the lower section could be investigated. The test was plugged back and completed in the San Andres.

Good Oil Flow
Humble Oil & Refining Company No. 1-B McCutchen, 1,980 feet from south and west lines of section 15, block D-2, psi survey, on southeast side of the Keystone-Ellenburger field, in North Winkler County was to drill ahead in the Ellenburger, after top zone of that formation flowed 42.28 barrels of oil in one hour.

The section at 9,522-72 feet was tested on the drillstem. The principal purpose of the investigation in that horizon was to check for gas.

In Top Of Zone
Gas came to surface in 35 minutes, water blanket flowed at surface in 21 minutes and was recovered in 56 minutes. Oil was turned to tanks, through separators, in 87 minutes and the flow was run for one hour and 15 minutes and the 42.28-barrel production was gauged in 60 minutes. Gas-oil ratio was 1,310-1. Operator is to go ahead (Continued on Page Four)

Husband Number Two

(NEA Telephoto)
Discharged T/Sgt. Patrick O'Keef, 23, Marquette University student, is still in a muddle. His wife, Marjorie Devere-O'Keef whose picture he holds, is also the wife of Bob Devere who has been reported dead since May, 1942. Mrs. Devere O'Keef said "It's the most awful decision I ever had to make in life... But I love Pat."

Chinese Reds Call U.S. Policy 'Lie'

By SPENCER MOOSA

CHUNGKING —(P)—The Chinese Communist New China Daily News reached new heights of violence against the United States Monday in charging that Lt. Gen. Albert C. Wedemeyer's promise that Americans would avoid participation in Chinese internal strife was "nothing but a lie."

The charge against the commander of American troops in China was carried in a dispatch from the Communist headquarters at Yenai. The Americans, it said, not only armed and equipped Central Government troops, "but have invaded our liberated areas in North China, opened fire on us, arrested some of our army personnel and disarmed some of our troops."

When American Marines first landed at Chihwangtao, the Communists sent representatives to contact them, but "they were fired upon and had to reply," the dispatch said, adding the Communists withdrew after an hour of hostilities.

After the Marines had occupied Chihwangtao and the nearby town of Haiyang, the dispatch said, the Communists, who were not informed of the Americans' intentions, and considering China's "territorial rights involved" sent six representatives to negotiate with them.

The Americans arrested the negotiators without explanation and releasing them, asserted the News, "threatened that the Communists would be dealt with by the American fleet and Marines."

The dispatch also charged that: (1) Oct. 18 a detachment of 30 American and Chinese police arrested five members of the staff of the Communist office in the former British concession in Tientsin.

(2) Ten American planes from Nanyuan air field in the suburbs of Peking flew over the Communist-held town of Kuan on Oct. 21 and dropped leaflets warning the Communists to withdraw in three days.

(3) Later the same day 14 American planes strafed Kuan while a mass meeting was being held. Earlier, in a dispatch from one of its correspondents, the Communist paper had charged the Marines with "positively" participating in armed intervention in China's undeclared civil war.

"American Marines at Chihwangtao in cooperation with Kuomintang troops attacked Communist-liberated areas for days," it said. "70,000 Marines in China."

Around 70,000 U. S. Marines have been stationed in the Tientsin-Peking area of North China to aid Nationalist forces of Generalissimo Chiang Kai-Shek in disarming Japanese forces, and in policing until Chiang can move in reinforcements. (Continued on Page Four)

GOP May Run Taft, Lodge In '48

WASHINGTON —(P)—A House Republican urged Monday that Senator Robert Taft of Ohio be the party's candidate for President in 1948.

The suggestion came from Rep. Mason (Ill.) in what he termed "the opening gun" of the 1948 GOP Presidential campaign.

Mason, in an address prepared for House delivery, also:

1. Proposed a cabinet team he said should be placed before voters along with Taft.

2. Proposed that "Jeffersonian Democrats" line up with "Lincoln Republicans" against New Dealers, Socialists, Communists, professional do-gooders and give-aways."

He suggested that former Re-

publican Senator Henry Cabot Lodge of Massachusetts be the vice presidential candidate and that Taft be bound to name a cabinet including:

Proposed Cabinet
Secretary of state, Senator Arthur Vandenberg (R-Mich); treasury, Former Commerce Secretary Jesse Jones, a Democrat; war, Gen. Douglas MacArthur; navy, Rep. James Wadsworth (R-NY); attorney general, Gov. Earl Warren of California; postmaster general, former GOP National Chairman John D. M. Hamilton; interior, Alf M. Landon, 1936 Republican Presidential nominee; agriculture, Rep. August Andresen (R-Minn); commerce, Eric Johnston, president of the United States Chamber of Commerce; and labor, Rep. Dirksen (R-Ill.).

Dutch Plan Fight To Finish With Java Natives

BATAVIA, JAVA —(P)—Dutch officials were understood Monday to be considering a plan to gain firm control of a small part of Western Java and establish that area as a rallying ground from which they could extend their efforts to end the native nationalist uprising in the East Indies.

The Dutch plan to bring in many more troops, although there has been no official announcement on the subject. Some unofficial estimates of the size of the reinforcements run as high as 20,000 men before Christmas.

Strife-torn Java was quiet Monday following the flare up of sporadic fighting in the northern section of Batavia during the night, but it was like the quiet before the storm. The picture as a whole is blacker and more ominous, with tens of thousands of trigger-happy Indonesians armed to the teeth and determined on revolution.

Jap Psychologist Says Surrender And Yank Occupation Beneficial

By RUSSELL BRINES

TOKYO —(P)—One of Japan's leading psychologists, Dr. Sadaji Takagi of Tokyo Imperial University asserted Monday that both the surrender to the Allies and the following occupation of his country by American troops would benefit the Japanese people.

"Japan paid a big price in the war, but it learned a good lesson," he added.

For the first time, explained Dr. Takagi, the average Japanese has learned that his nation isn't the only one, nor even the best, in the world.

The war and surrender shattered his illusion of being "a frog in a well."

"At first the people feared Americans because of stories of their brutality," he said. "But they found out that wasn't true. Now they will attempt to adopt the (American) friendly, efficient way of doing things."

All feelings are undergoing a change as a result of the surrender. Reaction takes time, but I believe there will be fundamental changes in the people."

Draft Ends For Fathers Of Three Children

WASHINGTON —(P)—Selective Service Monday banned the induction of all men with three or more children under 18 years of age.

This will apply, in practice, to men 18 through 25, since older men have been exempt from the draft since the end of the war.

Selective Service said it had acted at the request of Secretary of War Patterson and Secretary of the Navy Forrestal.

CITY POLICE ARREST FOUR IN CUTTING SCRAPES

City police Monday reported four arrests in connection with Saturday night negro cutting scrapes.

They were investigating theft of jewelry from a Midland residence which was believed to have been done by a juvenile.

WTCC To Continue Referendum System

ABILENE —(P)—Representatives of the members of the West Texas Chamber of Commerce in 134 towns Monday morning ratified their votes to continue the referendum system used during the war to form the annual program of work but did not close the door to the return to the all-out general conventions as held before Pearl Harbor.

Chief Executive Urges Settlement As Labor, Management Confer

WASHINGTON —(P)—President Truman told management and labor Monday they must solve their differences because controversies "cannot be allowed to stop us" in the struggle to reconvert to peacetime production.

Addressing the opening session of a labor-management conference of 18 industrial leaders and a like number of organized labor heads, the President said the American people do not like industrial strife that has retarded prosperity, "especially after the solemn promise" of both groups that they would "cooperate with their government."

"I make no effort to fix the blame," Truman said to the conference assembled in the auditorium of the Labor Department.

Outside, a picket line had been started before the meeting began by some independent unions whose representatives were not participating.

Asserting he was anxious to remove all wartime controls as fast as it is possible, Truman said labor and management must find a way of resolving their differences "without stopping production," he added.

"Finding the best way to accomplish that result without government directive to either labor or industry—that is your job."

Country Is Worried
The President said the country is worried and "has a right to be" about industrial relations.

"You have it in your power to stop that worry," he said.

"The time has come for labor and management to handle their own affairs in the traditional, American, democratic way."

"I hope that I can give up the President's wartime powers as soon as possible, so that management and labor can again have the full and undivided responsibility for providing the production that we must have to safeguard our domestic economy and our leadership in international affairs."

The President said the conference presented an opportunity to prove that the two groups "can come to an understanding and agreement without political or governmental pressure."

The American people, he said, "never expected anything like the amount of strife which has been threatened" since the war. Truman continued:

"And I know that the American people do not like it—especially after the solemn promise by representatives of both management and labor that they would cooperate with their government through the reconversion period."

"If labor and management in an industry or in a company, find that they cannot come to agreement, a way must be found of resolving their differences without stopping production."

Duty to Bargain
At the basis of the problems involved, Truman said, "is not only the right, but the duty, to bargain collectively."

The President said a substitute must be found for jurisdictional strikes and management must not look upon labor relations "as a stepchild."

"Business simply 'cannot stop,' Truman declared, "there can be no moral or economic justification for stopping production while rival organizations contend with each other. Labor has a particular interest in this matter—for nothing is so destructive of public confidence in the motives of trade unionism as a jurisdictional strike."

"On the other hand, management too often has looked upon labor relations as a stepchild of its business, to be disregarded until the controversy has reached a point where real collective bargaining becomes difficult—if not impossible. It happens all too frequently that in the actual process of collective bargaining, delaying tactics are practiced with the result that there is no real bargaining. There can be no justification for such tactics at the present time, or in the future."

Former Midland Boy Dies In Guam Crash
First Lt. George Eugene Godsey, former Midland High School student, 25-year-old son of Mr. and Mrs. John T. Godsey of Monahans, died as a result of injuries received in a crash on Guam September 7, according to word received by his parents.

Lieutenant Godsey was attached to the 314th Bomb Wing, 30th Bomb Squadron, 19th Bomb Group. The "Pyote to Tokyo" B-29 pilot had been awarded the Air Medal with three clusters and the Distinguished Flying Cross.

This record discloses that Prince Philip of Hesse, now in Allied custody, was the go-between in German and Italian negotiations. The prince was the husband of Princess Mafalda of Italy, who died in an Allied bombing of Buchenwald.

Hesse phoned Hitler from Rome at 10:25 p. m., Friday, March 11, just 31 minutes after Arthur Seyss-Inquart, Nazi puppet in Vienna, had agreed to a Goering-detected telegram requesting German intervention to prevent "bloodshed."

Chancellor Kurt Schuschnigg's Austrian government had resigned (Continued on Page Four)

the seizure of Austria over international telephone lines. Their transcripts, labelled "secret archives," were tossed into a heap of rubbish in the air ministry courtyard when the Red Army swept into Berlin.

Editor's Note: The following is one of a series of stories on the Anschluss of Austria, as told in the recorded secret telephone conversations of Nazi officials recovered from the ruins of Berlin.)

By DANIEL DE LUCE
Copyright, 1945, by The Associated Press.

BERLIN —(P)—Adolf Hitler knew in 1938 that he would be in a "frightful" military position should the other powers protect Austria, and he eagerly forwarded Mussolini's submission to the Anschluss with a pledge that he would "never forget" the Duce's magnanimity.

Hitler's fears of foreign intervention are revealed in records compiled by functionaries of Reichsmarshal Hermann Goering's Air Ministry, who took down every word as Nazi conspirators maneuvered

LATE NEWS FLASHES

BERLIN —(AP)— The United States, Britain and the Soviet Union will proceed with plans for a central administration for Germany without French participation if France persists in her opposition to central rule, an official informant said Monday.

BUDAPEST, HUNGARY — (AP) — The Small Holders Party, representing the center and conservative elements in Hungary, apparently swept the country Sunday in the first free general elections held in Central Europe since the war.

YOKOHAMA — (AP) — Brig. Gen. John H. Stadler of San Antonio, Texas, Monday was appointed provost marshal for the Yokohama area. He formerly commanded the Fifth Cavalry Brigade which relieved the homebound Americal Division.

Past Policy And Present Problems

Two of the fundamentals of foreign policy that President Truman included in his Navy Day speech have a particular bearing on some of the worst of the world's present problems. They are the second and four planks of that 12-plank platform, and read as follows:

"We believe in the eventual return of sovereign rights and self-government to all peoples who have been deprived of them by force."

"We believe that all peoples who are prepared for self-government should be permitted to choose their own form of government by their own freely expressed choice, without interference from any foreign source. That is true in Europe, in Asia, in Africa, as well as in the Western Hemisphere."

These beliefs, it should be remembered, were not whipped up at a moment's notice to meet a current crisis. They are elaborations of ideas expressed in the Atlantic Charter, as were most of Truman's other foreign policy statements. And their basic ideas go considerably farther back than August, 1941, in the history of this country's foreign policy.

So it cannot be thought that Truman meant them as a specific warning to Russia or anyone else. When the late President Roosevelt and former Prime Minister Churchill spoke of restoring sovereign rights, they obviously were referring to peoples under Axis domination. But the reference still applies, to the Russian-dominated Baltic and Balkan states, to Austria and to British-dominated Greece.

In the second quoted paragraph, Truman took pains to specify that our belief in freely chosen self-government extends to all the world's continents. In doing so he surely was mindful of the Indians, the Algerians and the Tunisians, and of the Annamites and Javanese who are now fighting for their independence.

But who is to judge when peoples are "prepared" for self-government? What standards of judgment are to be used? How, in general, is this country going to put all its expressed beliefs on foreign policy into practice—and when?

Thus far there has been an inclination to temporize as well as to compromise. This government has blown hot and cold toward the Peron regime in Argentina. It has permitted the British and Dutch to use American lend-lease weapons in their colonial wars.

No one can deny that the whole problem of practical foreign relations is a delicate and difficult one. And no one can say that compromising and temporizing can always be avoided. But perhaps it will make the task a trifle easier to restate and reaffirm this country's historical position as clearly and forcefully as Truman has done.

Statistical Story

The Navy's complete list of United States war vessels lost in the European and Pacific war tells, in its statistical tables, a rather interesting story of the decline and fall of the Jap battle fleet.

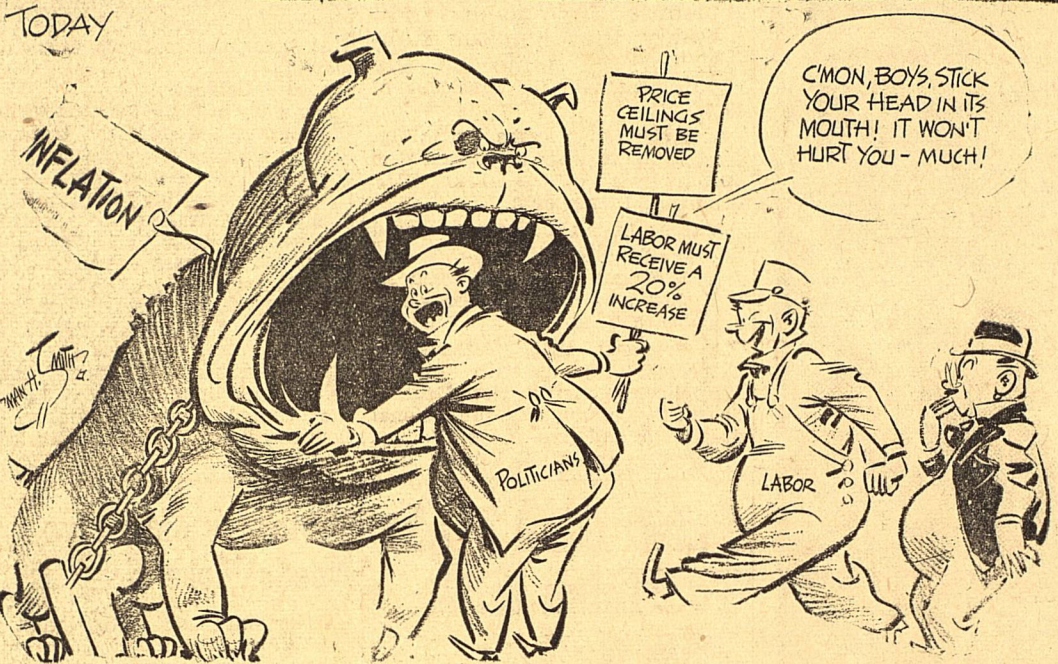

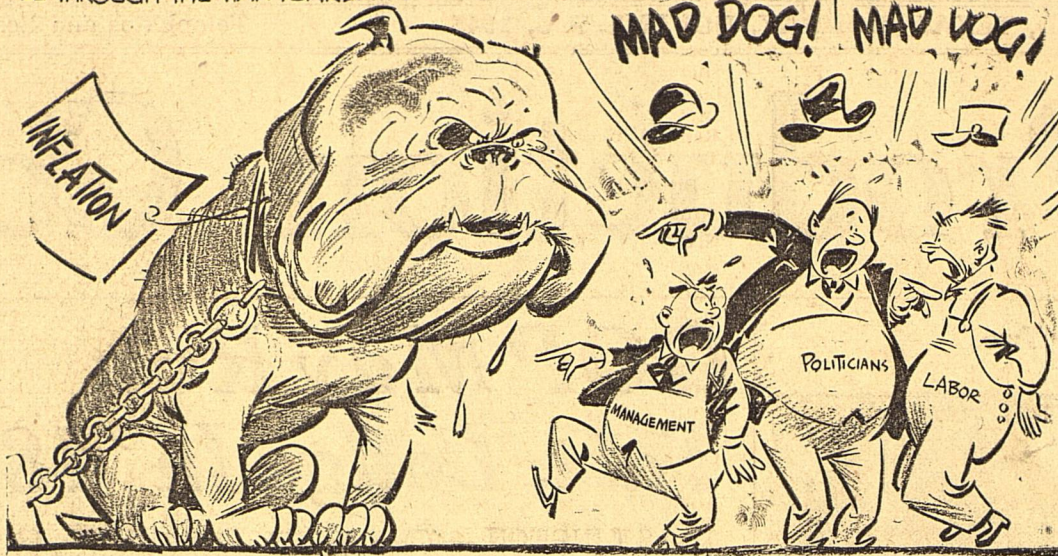

Of the 696 vessels lost, only 47 were sunk by the fire of Japanese surface ships. And from October, 1943, until the end of the war, the guns of Jap surface craft accounted for only 12 American vessels—one escort carrier, two destroyers and a destroyer escort, one submarine chaser, three PT boats, three LCIs and an LCS.

When folks are reducing, good things are the things that are not good for them.

Your difficulties are frequently the spectacles through which others see your character.

Our Changing World

ILL THROUGH THE WAK YEARS

MacKENZIE'S COLUMN

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

U. S. Ambassador W. Averell Harriman's report that Marshal Stalin isn't ill, as had been widely rumored, but is in good health, is big news.

They say no man is indispensable—that anyone's place can be filled. But history provides instances which disprove the general rule. As a supreme and unquestioned head of the Soviet Union, Stalin wields such vast individual power that fate certainly would be making a rash gamble if she removed him from control at this moment of world crisis.

One doesn't have to believe in Communism or even to agree with all of Moscow's actions, in order to recognize this fact: Russia has other able statesmen, but Stalin's leadership has been unique. His word is accepted by his followers as final, and so it has come about that in international affairs his voice is the voice of the entire Soviet Union.

The signs long have been that no important decision is taken without Stalin's approval. I may have mentioned in a previous column that recently I heard an internationally military personage state that the marshal, not only in name but in fact, was the generalissimo of the Red armies. The broad strategy for the whole Soviet effort is said to have been his, and it was the opinion of the general in question (who wasn't a Russian) that Stalin is one of the great strategists of his time.

Political Strategy

What has been true of war has been true of other things. The political strategy is credited to him. And going back a score of years to the time when he took over the leadership after Lenin's death, we find him charting the great Soviet industrial program, after ousting the fiery Trotsky who wanted to throw all Russia's energy into making world revolution.

Well, now, you couldn't remove a

captaincy like Stalin's without at least temporarily causing confusion in Russia and consequently over the globe at large. Ia could easily produce grave results in the midst of the critical situation which now exists throughout Europe and Asia, and will continue for many months.

So it's a relief to learn from Ambassador Harriman that the marshal not only is well, but appears greatly refreshed by his vacation in the Black Sea region.

As President Truman said in his New York address Saturday, the present differences among the Allied powers are not hopeless or irreconcilable. However, differences are like weeds—they grow fast and strangle the good plants unless uprooted.

If the fresh exchange between President Truman and Marshal Stalin gets the Big Three back onto the straight and narrow path, it will be a great achievement of statesmanship.

It Pays to Advertise.

Experiments Indicate Trans-Ocean Rockets

LONDON —(P)—Winged rockets equipped with a special 100-ton booster mechanism, will be able to travel from New York to London in less than an hour if current experiments develop successfully, W. G. A. Perring told the Royal Aeronautical Society.

The British aeronautic expert said that rocket ranges of 1,500 to 3,000 miles "now appeared to be possible."

"Flight at over 8,000 miles an hour is contemplated," he said.

Additions of wings to rockets has raised the current ranges from about 180 to 350 miles, Perring reported. "Even more striking," he added, is the effect of boosters which the Germans were developing after early rocket failures.

"However, I do not want to minimize the difficulties of this problem," he said. "As yet practically nothing is known about control at these speeds, nor of difficulties that will be encountered in passing through the speed of sound."

Throng Pickets Ford Co. Plant In Canada

WINDSOR, ONT.—(P)—A throng of union pickets, estimated by police at 2,500, threw up a barricade of autos and buses on two streets adjoining the strike-bound Ford Motor Company plant Monday.

Windsor police said there had been no incidents as the strikers used the vehicles to establish the barricade on streets at the front and one side of the plant.

Workers at Windsor plants of General Motors, Chrysler, Kelsey-Hayes Wheel Company, Truscon Steel and Motor Products, Ltd., struck Monday in sympathy with Ford workers. Union spokesmen predicted at 8,500 members of Local 195 United Auto Workers (CIO) would join the walkout, which affects 10,000 members of Ford Local 200.

Heavily re-enforced police details were held in reserve.

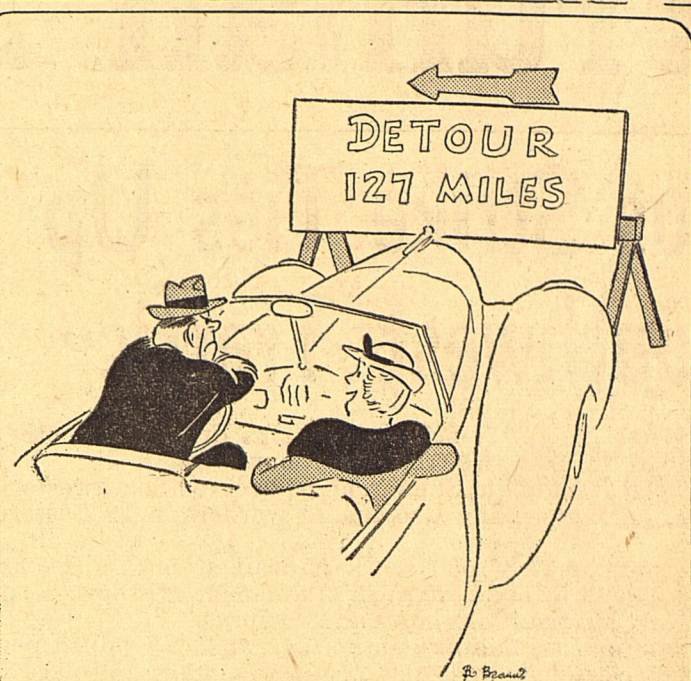

NATION'S TRAFFIC DEATHS INCREASE 40 PER CENT

CHICAGO —(P)—The nation's traffic deaths in September—the first full calendar month of unrestricted buying of gasoline—were 2,830, an increase of 40 per cent over the same month last year, the National Safety Council announced.

WLB Orders Textile Operators To Report

WASHINGTON —(P)—Two Texas textile mill operators have been summoned by the War Labor Board to "compliance conferences" to answer complaints they disregarded WLB directives.

The Texas companies are the Hillsboro Cotton Mills, Hillsboro, and Itasca Cotton Manufacturing Company, Itasca. They were ordered to appear before the WLB November 15.

CIO textile workers have complained that the two Texas companies have not complied with directive orders dealing with maintenance of membership, check-off and vacation provisions.

Marjorie Price And Gayle Crawford Are Wed In Fort Stockton

The marriage of Miss Marjorie Price of Fort Stockton and Gayle Crawford of Midland was solemnized at 9 a. m. Sunday at the First Presbyterian Church in Fort Stockton.

Rites for the ceremony were performed as the couple stood at the altar decorated with baskets of white caryophyllus. White tapers in candelabra added soft illumination to the setting.

Miss Joan Montgomery of Fort Stockton attended the bride as maid of honor. Best man was Wayne Moore of Midland.

Following a reception, the bridal couple left for a wedding trip to Houston.

They will make their home in Midland where he is a geologist with Stanolind Oil and Gas Company.

"It tastes better"

It's High Time You Ignored These 'Old Wives' Tales About Beauty

By ALICIA HART
NEA Staff Writer

Let's take a debunker's hammer to those beauty superstitions or "old wives' tales which can hold a girl back in her pursuit of good looks.

When, for instance, you fall for this one—that hair shouldn't be washed oftener than once a week—you may find yourself away behind others in the race for beauty.

Hair can be dunked daily, if you like it that fresh and if it's THAI oily. Many a screen lovely appears before the camera with locks that are shampooed daily. Of course, you wouldn't if your scalp were dry, and ditto your hair. In that case you would shampoo less often and apply oils or pomades to your scalp just as you do cream to your skin to counteract dryness.

Beliefs Debunked

Old wives' tale No. 2 that needs to be knocked down is the ancient one that warns you to pass up lanolin face cream if you don't want to become as hairy as the bearded lady of the circus. If that were true, bald-headed gents, who long ago would have used lanolin cream to grow hair, would be as extinct as the dodo.

So stop allowing this silly belief to keep you from using one of the best friends a dry or aging complexion can claim—a lanolin-based cream which many chemists and doctors claim can penetrate the skin and is tops for softening it. Whooping up the eye-lashes? Stop wasting your time putting stuff on to make them grow thicker or longer. Spend it stepping up the vitamin A content of your diet, if it's deficient. If it's not, master the technique of threading in a few

ANN MILLER: Lanolin holds no horrors for this star.

phony lashes to run handsome awnings out over your lids.

That tightly drawn top-knots will make you bald, or that permanent or hair-dyes used on your hair will make it stop growing, are two more fallacies that need debunking. Scrubbing hair up into a bun won't scalp you, and perms, dyes or bleaches used on it won't halt or slow down its growth.

Pluck one gray hair and in comes a flick? You really don't believe that one, do you?

Coming Events

TUESDAY

The Crafts group of the AAUW will meet at 8 p. m. at the home of Mrs. Ellis H. Scooby, 807 Cuthbert.

Members of the Wesley Bible Class of the First Methodist Church will meet for a social at 2:30 p. m. in the Scharbauer Educational Building.

A meeting of the Civic Theater will be held at 7:30 p. m. in the Civic Auditorium.

Wives of MAAF officers are invited to attend a luncheon at 1:30 p. m. at the Officers' Club.

A meeting of John M. Cowden Junior High School P-TA will be at 7:30 p. m. at the school.

WEDNESDAY

Mrs. W. H. Rhodes will be hostess for a luncheon meeting of the Lula Brunson Class of the First Baptist Church at 12:30 p. m. at her home, 510 West Tennessee.

A meeting of the Modern Study Club will be held at 3 p. m. at the home of Mrs. Ivan E. Hood, 111 Ridglea.

The Woman's Wednesday Club will meet at 3 p. m. with Mrs. R. M. Turpin, 811 Cuthbert.

Communion will be held at the

Trinity Episcopal Church at 10 a. m. The Bible Class will begin at 10:30 a. m.

The Star Club will meet at 1 p. m. at the Masonic Hall.

THURSDAY

A meeting of the Lt. William Brewer chapter of the DAR will meet at 3 p. m. at the home of Mrs. George Glass, 911 West Texas.

Mrs. Ralph Troseth, 1005 West Texas, will be hostess for a meeting of the book group of the AAUW at 8 p. m.

The Russian language group of the AAUW will meet at 8 p. m. at the home of Mrs. Ernest Sidwell, 1907 West Indiana.

FRIDAY

The Belmont Bible Class will meet at 3 p. m. at the Scharbauer Educational Building of the First Methodist Church.

Mrs. Robert Muldrow, III, and Mrs. Robert Wood will be hostess for the luncheon meeting of the Ladies Association of the Midland Country Club at 1 p. m. at the club. Comedy golf games will be played at 9:30 a. m., and progressive bridge is scheduled for the afternoon.

SAVE WASTE FATS

Try Making Cough Syrup at Home. Quick Relief

Saves You Big Dollars. And It's So Easy! No Cooking.

No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It certainly does the work in a hurry.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired.

Rental Time On Books At Midland Library Changed

A number of the rental books at the Midland County Library has been changed to the seven-day shelves and some of the seven-day books have been changed to the two-weeks list.

Rental Books Changed To Seven Days

Brown, Joe E., Your Kids and Mine; Crane, Frances, The Indigo Necktie; Crofts, Freeman W., Enemy Unseen; De La Roche, Mazo, The Building of Jaina; De La Torre, Lillian, Elizabeth Is Missing; Govan, Christine N., Jennifer's House; Graves, Robert, Wife of Mr. Milton; Hayes, Dorsha, Who Walk With the Earth; Hendryx, James B., Strange Doings on Halfday Creek.

Also: Holland, Marty, Fallen Angel; Macdonald, John, Darkly the River Flows; Marsh, Ngalo, Died in the Wool; Marshall, Edson, The Upstart; Maxwell, William B., The Folded Leaf; Renault, Mary, The Middle Mist; Santayana, George, The Middle Span; Sheriff, Robert C., Chedworth; Short, Luke, And the Wind Blows Free; Stein, Gertrude, Wars I Have Seen; Wentworth, Patricia, Silence in Court, and Wilson, P. W., Black Tarn.

Seven-Day Books Changed To Two Weeks

Bradley, Alice, Alice Bradley Menu-Cook Book; Bristow, Owen, Tomorrow Is Forever; Bromfield, Louis, What Became of Anna Bolton; Chase, Ilka, In Bed We Cry; Cowles, Florence A., 1001 Sandwiches; Farnol, J., Adam Penfeather, Buccaneer; Fosdick, Harry Emerson, A Great Time To Be Alive; Gautier, Emile, Sahara; Grief, M., Professional Hero.

Also: Habe, Hans, Katherine; Hammerstein, Oscar, Gdalahomai; Landon, Margaret D., Anna and the King of Siam; Lawson, Captain Ted, Thirty Seconds Over Tokyo; Myerson, Dorothy, Homemakers' Handbook; Parrish, Mrs. Mary, How to Cook a Wolf; Pedler, Margaret, No Gifts From Chance; Rae, Barbara, Cooking Without Meat; Rives, Fern, Friday, Thank God; Scott, Col. Robert L., God Is My Co-pilot, and Sharp, Margery, Stone of Chastity.

A rack under the meat keeps it from cooking in its own juices and permits heat to circulate around the meat as it cooks.

Australian Wife Of Yank Flyer Likes Texans, But Wants To Meet Aussies

If any other Australian wives of Army personnel live in Midland, Mrs. John L. Nelson certainly would like to see them.

Mrs. Nelson, who arrived in Midland Friday, is a long, long way from her home in Sydney, Australia, and Texans are friendly and all that but Mrs. Nelson wants to see an Australian.

The tiny, blue-eyed Aussie is not exactly new to Texas. She arrived in the United States last June and has lived with her 13th Air Force husband at San Marcos, Pampa and Childress since that time.

She was one of thousands of Australian girls, she says, who thought the Yanks arriving in Australia in 1942 were "cute." At first the Australians didn't know how to take the easy-going, jiggerbugging strangers from the U.S.A.

"The Australian boys were sure angry when we girls started dating the Americans and going out jitterbugging," she said.

"I got a little ill feeling between Australians and Yanks for a while, but when the British came we Aussies and Yanks got to liking each other and disliking the British. Then everything was all right."

West Texas is very much like Australia, she said. The ranches in Australia are larger than ranches in Texas, she added. She told of an uncle who has 17,000 sheep on a 11,000-acre ranch and "it's only a small one."

"In Australia we call ranches 'stations.' Most ranchers raise sheep but there are many cattle 'stations.'"

For Americans caught in the present clothing shortage, Mrs. Nelson

reminds that Australians haven't had anything but cheap coarse material for more than five years, and that is hard to find.

Mrs. Nelson complimented American fighting equipment but pointed out that Australian boys rank with the best soldiers on earth. Aussies have fought all over the world for the British Empire, she said, but they've never fought at home. "Australians think General MacArthur is as good a general as they come," she said. "My people like him."

Her husband, Lt. John L. Nelson of San Antonio, wears the South Pacific Ribbon with seven battle stars and the Air Medal. The Nelsons don't know where they're going to live in Midland, but Mrs. Nelson wants any Australian wives in the vicinity to contact her through her husband at MAAF.

GIRLS GIVE POLICE STATION THAT FEMINE APPEARANCE

ALBANY, CALIF. (AP)—Patrolmen reporting to headquarters stared in amazement at unquestionably feminine lingerie hanging on a line in the squadroom.

Sgt. Arthur K. Smith explained he had found Ruby Reaves, 20, and Patricia Bitney, 21, standing on the sidewalk outside a Naval housing project from which they had suddenly been evicted with their wash half done.

He said he had invited them—laundry and all—to take temporary refuge in the police station.

Closely-set eyes can be made to appear farther apart by using shadow a bit more heavily toward the outer corners of the lids.

Tip On Night Coughing

Modern Way Relieves Colds-Irritation, Eases Coughs, Invites Restful Sleep

Now when a cold causes irritation or head stuffiness that leads to night coughing, just do this at bedtime... Rub throat, chest and back with Vicks VapoRub. Results are so very good because VapoRub...

Penetrates to cold-irritated upper bronchial tubes with special, soothing, medicinal vapors. Stimulates chest and back surfaces like a warming poultice.

Then For Hours VapoRub's special action keeps on working to soothe the cold-irritated throat, invite restful sleep.

Only VapoRub gives you this special penetrating-stimulating action that brings such grand comfort. So be sure you get the one and only VICKS VAPORUB.

"GREATEST FORD EVER BUILT"

Says Public From Coast to Coast!

"How Soon?" and "How Much?" Ask Throngs in Dealer Showrooms

On October 25 the new Fords for 1946 went on display in dealer showrooms the country over. In city after city, town after town, dealers reported that the crowds who came to view these fine new automobiles equalled those who greeted the introduction of the famous Ford Model "A" back in 1927 — when showroom attendance passed the 10,000,000 mark.

The opening day throngs were matched by those who came Saturday and later. And their opinion has been unanimous. The words most frequently heard have been "The Greatest Ford Ever Built." They backed up their acclaim with orders—326,840 on "V-8 Day," October 26—and Saturday, October 27.

This advertisement is published to record the

deep gratification of the entire Ford organization at this splendid public reception... and to answer, as directly as we possibly can, the two questions most often asked.

"How Soon Can I Get My New Ford?" We sincerely believe the answer is: "Sooner than you think!" And here's why—Ford, first with assembly line production of postwar cars, first to stock dealers for a nationwide display, is first in quantity production—1,000 units a day reached last week... 2,000 a day in prospect within 30 days.

"How Much Will My New Ford Cost?" We think the answer to this is found in Ford's unvarying policy through more than 40 years of operation: always the highest quality at the lowest possible cost.

TO THOSE WHO HAVE NOT YET SEEN THE NEW FORDS: All our dealers have them on display. Please make it a point to see if you, too, don't agree that these are the "Greatest Fords Ever Built."

"There's a Ford in Your Future"

FORD MOTOR COMPANY

Midlanders Attend W.T.C.C. Meeting

M. C. Ulmer, a past president, and James N. Allison, a Midland director, were in Abilene Monday to attend the 28th annual meeting of the West Texas Chamber of Commerce.

Sessions of the meeting opened at 10 a. m.

Ulmer will attend a meeting for past presidents scheduled Monday.

Termed a streamlined session, the WTCC meeting will have Olin Culbertson, chairman of the State Railroad Commission, as guest speaker.

Houston Busy Financing Berth For USS Texas

AUSTIN —(P)— Officials of the City of Houston, the Houston Chamber of Commerce and Harris County are considering means of financing the reception and berthing of the U. S. S. Texas, veteran battleship which the Navy Department has offered to the State of Texas for a shrine.

Gov. Coke R. Stevenson said he had received a letter from Secretary of the Navy Forrestal offering to the state the 33-year-old veteran of the fleet.

He added that since no state funds are available for berthing and maintaining the ship the proposition was referred to Houston and Harris County for discussion which are now under way.

The governor said considerable expense might be involved in berthing the U.S.S. Texas in the Houston ship channel since it would be necessary to dredge a space for it outside of the channel proper. Maintenance funds would raise another state problem. The governor said he felt confident that a plan would be developed eventually for properly berthing the ship.

Supreme Court Members Visit President

Seldom photographed as a group, members of the U. S. Supreme Court are pictured as they pay their annual visit to the White House. In front row, left to right, are Chief Justice Harlan F. Stone, the President, Justices Hugo L. Black and Felix Frankfurter; middle row, Justices Stanley F. Reed, Harold H. Burton, Wiley B. Rutledge and Frank Murphy; in back row are Justice William O. Douglas, Clerk Charles E. Moore, Solicitor General J. Howard McGrath, Marshal Thomas E. Waggaman and Attorney General Tom Clark. Justice Robert H. Jackson is in Europe, to serve as U. S. prosecutor at the Nuremberg war crimes trials.

Chinese —

(Continued from Page One)

American officials have emphasized that the Marines have been ordered to stand clear of China's civil strife and take no sides.

Official reports reaching Chungking Monday said 10,000 Chinese Communists were attacking Nationalists in the suburbs of Kweisui, capital of Suiyuan Province in Inner Mongolia.

A government spokesman claimed, however, that Kweisui was "fortunately" still in the hands of the defenders.

He said that Tatung, northern Shensi Province junction town on the Tatung-Puchow and Peiping-Suiyuan railroads, still was in Kuomintang hands, but admitted the situation was "grave" at both places.

The official Central News Agency asserted that Communist forces "have been on the offensive since the middle of October" and admitted the loss by Kuomintang forces of several towns, including Tsao-yang, about 145 miles northwest of Hankow.

Several Communist columns, including one more than 15,000 strong, are engaged in the "widespread offensive action."

Three Midlanders Are Discharged From Navy

Three Midland men have been discharged from the U. S. Navy under the point system. They are Harry Lee Harrison, machinist mate, first class, 800 N. Big Spring St. Hollis Maxwell Newham, ship fitter, first class, 705 North D St., and Thomas Troy Blansett, seaman, first, 900 South Colorado St.

The men were separated at the Puget Sound Navy Yard, Bremerton, Wash.

Truman Wants Pay Hike For Civil Service

WASHINGTON —(P)— A Senate committee was advised Monday President Truman wants the pay of federal civil service workers raised a straight 20 per cent.

He also wants the pay of Congressmen boosted to \$20,000 a year and the salaries of cabinet members to \$25,000. Congressmen now receive \$10,000 and cabinet members \$15,000.

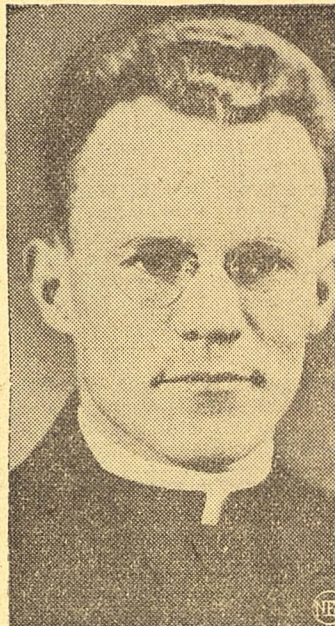

Arthur S. Flemming, of the Civil Service Commission, told the Civil Service Committee that he was authorized to state that such increases would be "in conformity with the program of the President."

HILLSBORO CIO PRESIDENT IS ATTACK VICTIM

HILLSBORO —(P)— A CIO official said the president of the local union was attacked early Monday as he and others were returning to work after a three-week strike at the Hillsboro Cotton Mills.

Paul Schuler, regional director of the Textile Workers of America (CIO), said that B. B. Powers, president of the Hillsboro CIO union, had been attacked by three men. No formal complaint has been filed by Powers against the attackers.

Envoy to Tito

The Vatican has named Bishop Joseph Patrick Hurley, above, of St. Augustine, Fla., to its top diplomatic post in Belgrade, in an attempt to solve difficult problems facing the Roman Catholic Church in Yugoslavia.

With the title of Regent to the Apostolic Nunciature, Bishop Hurley will hold a rank corresponding to Ambassador, and will probably head the diplomatic corps.

Carter Is Appointed Rural Mail Carrier

J. L. Carter, employee at the Midland postoffice for many years, has been appointed rural route carrier, replacing Troy Eiland, who resigned to devote his time to farming interests.

A former clerk at the postoffice, Carter said: "I intend to give the same faithful and efficient service Eiland rendered and I am anxious to get acquainted with my customers as soon as possible."

Bullet Shot At Plane Injures Two At Dallas

DALLAS —(P)— Officers are investigating Monday the cause of a .22 caliber rifle bullet shot Sunday which hit a Delta Air Lines plane, resulting in the slight injury of two persons.

The plane was flying at about 700 feet two miles west of Love Field when the bullet entered the plane, the pilot said. The bullet broke a window, causing a scratch on the finger of Stewardess Virginia Caldwell of Denton, and W. D. Alberts, a passenger of Los Angeles.

Harry Wiess Elected Trustee Of Princeton

PRINCETON, N. J. —(P)— Election of Harry C. Wiess, president of the Humble Oil and Refining Company, of Houston, Texas, as a charter trustee of Princeton University was announced Monday by Dr. Harold W. Dobbs, president of the university.

Wiess, who has been in the Texas oil business since his graduation from Princeton in 1909, was one of the organizers of the Humble Company in 1917 and has been president since 1937.

JUSTICE JACKSON INSPECTS NUERNBERG COURT

NUERNBERG, GERMANY —(P)— Supreme Court Justice Robert Jackson witnessed a dress rehearsal for the Nuernberg trial of Germany's war criminals Monday.

The mock trial was the first of several scheduled to make sure there are no kinks in the elaborate mechanical system by which the proceedings will be conducted in four languages.

CITY POLICE ATTEND FUNERAL IN ANDREWS

Jack Ellington, chief, and other members of the Midland Police Department were expected Monday to attend funeral services in Andrews of Bill Mead, city marshal of that town, who died Sunday night.

Texaco —

(Continued from Page One)

and penetrate the Ellenburger further.

Humble No. 1 Parker, South Andrews County discovery for flowing production in the McKee-Simmons, as swabbing to test on perforated section at 8,700-50 feet, through four shots to the foot.

Swabbing To Test

Early Monday operator was swabbing to cleanout, and was showing about five per cent oil. Fluid was standing 1,300 feet from surface. The recovery was largely drilling mud and water. This section is the interval where commercial oil is expected to be developed.

Humble No. 1 Buchanan, Midland County discovery for oil production was taking an official Railroad Commission potential test Monday. The zone from which the petroleum is coming is in the Strawn-remnant section at 10,370-390 feet.

E. M. Wahlenmaier and associates have staked location for 3,600-foot wildcat in Southeast Runnels County. It will be No. 1 J. W. Barr, and is 1,980 feet from the south and 1,946 feet from east lines of survey No. 230, C. Montez grant, abstract 353.

Southeast Of Ballinger

It is 10 miles southwest of Talpa and 12 miles southeast of Ballinger. The wildcat is on a 3,200 acre block.

John I. and P. D. Moore No. 1 Southland Royalty Company-Wadell, South Crane County exploration in section 19, block 2, H&TC survey, was shutdown for orders on a bridged-back bottom of 6,100 feet in the Devonian.

No Production

The section at 5,950-66 feet was perforated with 23 shots in the casing and a five-hour drillstem test was taken.

After three hours and eleven minutes there was a slight show of gas. Recovery, when the drill-pipe was broken down, was 1493 feet of salt water, slightly cut with gas, and with a trace of oil.

This project drilled to total depth of 8,013 feet and tested back to the current level, without developing signs of production.

King, Warren and Dye No. 1 Nystel, Northwest Oklahoma County wildcat, in northwest quarter of section 382, block D, John H. Gibson survey, was on total depth of 5,510 feet, in lime, shutdown, awaiting orders.

The wildcat had not reported any appreciable shows of oil or gas.

Down For Repairs

Corrigan and Crump No. 1 Nystel, Southeast Terry County exploration in southwest corner of section 8, block 38, psl survey, was bottomed at 4,916 feet in lime, making rig repairs.

A core at 4,899-4,916 feet recovered 14 feet of lime with some porosity and some oil stain, along with some bubbly water.

When the equipment is back in working condition operators plan to take another core.

J. R. Shorn and R. C. Barnes have staked location for No. 3-E M. E. Crum, as a test to the Ellenburger on southeast side of the Keystone - Ellenburger field, in North Winkler County.

It will be 600 feet from south line of section 7, block B-2, psl survey, and one location east of same owners' No. 1-E Crum, a producer from the lower Ordovician.

Extension Is D&A

Skelly Oil Company No. 1-V University, 600 from north and 1,980 feet from west lines of section 32, block 9, University survey, one-half mile east of discovery well of the Clabberhill field, where the oil is from the Holt-Permian, has been plugged and abandoned on total depth of 5,575 feet, in dry lime.

The project cored from 5,450 feet to the bottom and did not develop any commercial oil.

BRITISH MAY TAKE OVER INDEPENDENT HOSPITALS

LONDON —(P)— Legislation to bring Britain's independently operated hospitals under state control was predicted in parliamentary circles Monday as the next objective of the new Labor government in its expanding nationalization program.

Wichita Falls Man Shot During Robbery

WICHITA FALLS —(AP)—Otis Morgan, local businessman, is in a serious condition Monday after a masked man shot him in the back Sunday night, then robbed him and Leo Camp of \$3,250, Police Capt. Frank Burns said.

Morgan and Camp were sitting in Morgan's office. Burns said, when the robbery took place. The police captain said a one-armed man first entered the room, and informed the pair of the holdup.

Morgan was shot by a second man standing outside a window while he reached for a gun.

Burns said the men made away with the cash and checks in Morgan's car.

Partly Cloudy Weather To Bring Surface Wind

Continued partly cloudy weather was forecast for Midland and vicinity Monday afternoon with increased surface winds Monday night.

Midland was not expected to have to brace for a further but it might become colder here. Army weather observers were informed. Arctic air masses were forming in Canada early Monday morning. They could move south and rapidly, it was pointed out.

Official weather forecast by the Army at Midland Air Field was partly cloudy Monday afternoon and Tuesday with little change in temperature. Cloudy weather was expected to remain for 18 to 24 hours.

The temperature was 73 degrees in Midland Monday noon and had climbed from 54 degrees early in the morning. The mercury dropped as low as 41 degrees early Sunday morning but climbed to 78 for high during the day.

'Bohemian Girl' To Be At Big Spring Monday

"The Bohemian Girl" will be presented in Big Spring at 8:15 p. m. Monday at the Civic Auditorium. Merle Cornelius, formerly of Midland, will appear in the production.

Reserved seat tickets are 90 cents and general admission is 60 cents. Tickets may be purchased at the box entrance of the auditorium.

If you need to BUILD UP RED BLOOD!

Due To Monthly Losses
If you lose so much during monthly periods that you feel weak, "dragged out" this may be due to low blood-iron—so try Lydia E. Pinkham's Tablets—one of the greatest blood-iron tonics you can buy. Pinkham's Tablets are also famous to help relieve symptoms of monthly functional disturbances. Follow label directions.

Lydia E. Pinkham's TABLETS

What's Wrong With This Picture?

Nothing really wrong, but you'll agree it's quite odd to see an all-boy audience wildly cheering and almost swooning over—Frank Sinatra, of all people. And odd, yet—"The Voice," seems to leave the few girls in the front row pretty cold. Boys went ga-ga over Frankie when he addressed them at New York's Benjamin Franklin High School, pleading for racial tolerance after recent race disturbances there.

Police Investigate Geologists' Death

HOUSTON—(AP)—Officers are investigating Monday the mysterious death of William Billingsley Milton, 40-year-old Houston geologist who had been missing five days, and whose body was found in shallow waters of Brays Bayou here.

Justice of the Peace Tom Maes returned an inquest verdict of suicide by drowning. Maes said a note was found in a pocket of the man's body.

District geologist for the Houston Oil Company, Milton had been missing since Tuesday morning when he left his office.

Texas Sailor Killed In Freak Accident

OCEANSIDE, CALIF.—(AP)—Silas A. Dean, 35, electrician's mate third class from Houston, Texas, was fatally wounded here Sunday when a policeman stumbled against a clothesline and his gun went off, Deputy Coroner E. A. Turner reported.

The sailor, attached to the Amphibious Training Base here, was wounded in the chest and died later in a nearby Naval hospital.

Two policemen who were dispatched to the scene said they did not think at first that Dean was badly wounded, as he walked to the car.

Culberson Sees Bright Future For West Texas Area

ARLINGTON—The Interstate Commerce Commission's recent order reducing freight rates throughout the Southwest "carries possibilities that even the imagination cannot conceive," Chairman Olin Culberson of the Texas Railroad Commission declared here Monday.

Culberson was the principal speaker at the West Texas Chamber of Commerce's joint freight rate victory celebration and director's and referendum assembly held here.

Suggesting that the readjustment of freight charges be coupled to Texas' rich storehouse of natural resources for immediate industrial expansion, the speaker pointed out that full employment cannot come until we increase our prewar productivity by more than 50 per cent.

"This is a big job for us. This is going to be the test of our financial and industrial leadership—whether they have the initiative and aggressiveness to step out and develop such lines of endeavor and see that such industrial expansion develops in their regions, geared to their own resources," the commission chairman said.

Income Increases
"Texans' per capita income has increased perceptibly during the last decade," Culberson reminded West Texas citizens.

Consequently, it is not wishful thinking to say that much of the market, perhaps most of it, for new Southwestern industry is in the Southwest.

"And this market will continue to improve as we grow more industrialized."

Culberson said he was "not such an optimist as to think that the industry we shall see come into being will be gigantic plants. Rather, I believe that they will be small or modest proportions whose products will be utilized by larger assembling activities."

"Such items as generally move on 'class rates' and to such activities as this, the ICC order will contribute immeasurably."

"The Southwest must, under its own leadership and finances, develop new industries which fit the resources and environment of this great area."

"Let's go after them," Culberson concluded.

Texas Delivers Horse To Buyer In Hotel Room

CLAYTON, N. M.—(AP)—John Haverfield, Scott City, Kan., cattle buyer, and some of the boys were discussing horses in Haverfield's hotel room.

After a particularly glowing description of a colt from Larry Kehoe, Texline, Texas, Haverfield made this proposition:

"I'll buy him without ever seeing him if you'll bring him right up here in this room and tie him to the bedpost."

And—to the cheers of a crowd in the lobby—that's just what Kehoe did.

It is estimated that present synthetic rubber plants will produce 1,100,000 tons in 1946.

FAIR WARNING!

The jewelry and gift shows, at which retail jewelers usually buy their Christmas merchandise, were not held this Fall because manufacturers and wholesalers did not have sufficient merchandise to sell that would justify the expense of holding a show.

Anticipating just such a condition, we have been buying heavily in all markets during the summer months and now have one of the most complete stocks of precious metal jewelry in West Texas.

This merchandise will not be here or elsewhere at Christmas time. Therefore we urge you to take advantage of our convenient lay-away plan to supply your Christmas needs now.

Be sure to see our complete line of ladies' diamond watches, the ideal gift for her.

Labor, Management To Open Conference In Critical Showdown

By JAMES MARLOW
WASHINGTON—(AP)—The labor-management conference opens Monday at a critical time in American life.

Some real and lasting good may come of it. Or it may break up in bitterness. No one is predicting a howling success for it.

Fred C. Smith, the conference publicity director, already has cautioned reporters not "to expect too much from the conference."

President Truman called the conference in an effort to get labor and management to work out some way of settling their disputes more peacefully and reasonably than in the past.

It may last for weeks. Thirty-six representatives of labor and industry—18 from each—are at the conference.

They will run the show, make their own decisions. The government will not try to tell them what to do.

The 18 labor men do not see eye-to-eye on all their problems. Nor do the 18 industry men agree fully.

This shows some of the difficulty in getting agreement among the 36 representatives on far-reaching solutions for their headaches.

Yet this conference is being held at a time when the country is trying to shift over soundly to peacetime living.

Need For Production
There is deep need now for high employment and full production to get the country launched on prosperous years.

Wide labor troubles in the next six months—with plant shutdowns, strikes and unemployment—might change the future of this country and the rest of the world which is banking on American production and prosperity.

Strikes have piled up in the past few months. Not a single major dispute wages has been settled. And two huge potential strikes—in the auto and steel industries—hang fire as the conference opens.

If the conference fails and there is real domestic labor strike compression may step in through impatience or under pressure of public opinion.

Neither labor nor industry is anxious for Congressional action.

The conference will talk about—maybe suggest—machinery for settling disputes between workers and employers. But the kind of machinery is one of the big conference questions.

Joseph Harwell Is Enroute To U. S.

WITH THE 14TH ANTI-AIRCRAFT COMMAND IN THE WESTERN PACIFIC—T/Sgt. Joseph E. Harwell, son of Mr. and Mrs. J. E. Harwell, is enroute home from the Philippines after serving two years in the Southwest Pacific. Sergeant Harwell has made an excellent combat record, having earned three Bronze Battle Stars for participation in the New Guinea, Bismarck Archipelago, and Southern Philippines campaigns. He also wears the Asiatic Pacific Theater Ribbon, Good Conduct Medal, and Philippine Liberation Ribbon.

Sergeant Harwell was the personnel sergeant major of his organization, and in that capacity did a fine job handling military correspondence and personnel records. His Army career has been devoted to administrative work. He entered the Army in August of 1942.

He is a graduate of Midland High School. He was formerly employed by the Phillips Petroleum Company. Upon his release from the Army, he believes he may take a vocational course of study under the provisions of the GI Bill of Rights.

FORMER ST. LOUIS EDITOR TO BE BURIED TUESDAY

ST. LOUIS—(AP)—Oliver K. Bovard, 73-year-old former managing editor of the St. Louis Post-Dispatch, died of bronchial pneumonia Saturday night. Funeral services for the well-known journalist will be Tuesday afternoon with burial in Bellefontaine Cemetery here.

The China-Burma-India pipeline, longest in the world, is about a fourth longer than the U. S. "Big Inch."

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

ESME OF PARIS by Esme Davis

RUSSIAN NOBILITY IN EXILE

XXVII

WHEN I arrived in Paris, I was shocked beyond measure to see how ill mother looked and how much she had aged in the past few months. The first thing I did was call in Doctor Gros of the American Hospital in Neuilly, despite her protestations, and when he arrived I had the greatest difficulty persuading her to allow an examination. When it was over, he had a long talk with me and very frankly said that mother was seriously ill, that unless she had complete rest from work, worry, and agitation, her illness could take a very dangerous turn. He had found her very hard to handle and had decided not to be in Paris at that time, as she had every intention of rejoining the Swedish project.

She was nervous and ill all through Christmas, worrying continually about getting back to work and my brother's needs. I wrote father about her health, begging him to come as soon as possible. When he cabled that he would be with us in early summer, she immediately decided not to be in Paris at that time, as she had every intention of rejoining the Swedish project.

Bunnie promised to stay with her while I went down to Nice for the New Year's engagement. I had accepted some months previously for the Rhul. That was one of the saddest New Years I ever spent, for I had to work the contract and named the money, but the thought of mother's condition was always with me.

Upon returning to Paris, I signed a contract with Henri Varina for the new revue at the Palace. WE had a mild March, that year of grace 1926, and mother began to improve. She went out a little but was still not herself and often felt very sad. It was hard for me, too. I could not be

with her enough and do all the work I had contracted for, and I longed for my father to come over.

One day, while driving past the Banque de Varsovie, near the Bourse, I noticed the familiar figure of a tall elegant man dressed in livery, opening the doors of the bank to the callers. There was something about him that caused me to slacken speed, and as I drew alongside the curb, I recognized him as Prince Alexis, the husband of Helena Solitoff, daughter of the Princess I had known as a child. He was so happy to see me again he nearly cried, and told me his wife and sister-in-law Choura were both sewing lingerie in the Galerie Lafayette (the large department store). I invited them all to dinner, and upon this occasion, mother, for the first time in weeks, perked up. We saw a great deal of her old Russian friends from then on, many of whom we did not even know were in Paris.

They were an extraordinary colony, most of them living from hand to mouth, but many working hard were getting along pretty well.

Mother, always happy when she was exhausting herself running about for people she liked, badgered all her friends into buying lingerie from Helena and Choura. She also obtained a position for Alexis with the Isola Brothers' offices at the Opera Comique. As in Constantinople, Russians flooded the house, and those we could not help overflowed into Violette's chateau in Marseilles. One evening Alexis arrived at the Palace, where I was working, with another Russian friend, Prince Poutine, to fetch me for a surprise party they were giving for both mother and myself.

THE party was a typical Russian evening, held in the Pouta-

times' tiny house on the Cite des Fleurs, an ancient street in Montmartre where the houses seemed to be holding each other up as they sagged and drooped from old age. Our hosts' place was one of these and had three steps leading down to the front door, which had just given way under the weight of entering guests and were in consequence a trifle hard to navigate. Once inside, though, the scene was perfectly charming, for Princess Poutine had somehow or other obtained a few portraits and souvenirs from Russia, and the rest of the furnishings were antiques bought for a few francs in the Foire des Puces. Restored and arranged with perfect taste, they made a delightful interior.

The rooms were lighted with candles, and there were flowers everywhere. Our hostess, a beautiful tall woman, was gowned, as were Helena, Choura, and the others, in perfect creations which must have cost all kinds of money. The elite of the Russian colony had gathered together that night, all the men in faultless evening clothes, and in the corner of the room were the inevitable Tzigan-ski singers with guitars.

Tables were piled high with caviar, chicken, and buckets of champagne. There was an even more expensive Russian custom besides the classic one of breaking glasses, which consisted of a pyramid built with champagne goblets, over which a servant poured wine till it formed a cascade and spilled onto the floor. As each guest took a glass, drained it and hurled it behind him, the Tzigan songs rose to a wild crescendo. I was astounded at such a reckless display of luxury and wondered how on earth they had managed it. When I questioned them they said, "This is a party we will never forget. We want to be happy just this one night, even if we starve for the rest of the year. Tonight everything must be perfect, like the old days in Russia. Please understand and enjoy yourself with us." I spent the rest of the evening reciting Pushkin, while mother sang the songs they loved. I think they were really happier than they had been for a long time.

(To Be Continued)

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY

America's Card Authority

It is about time we had another interesting hand from Harry J. Fishbein's "little black book." There are several ways of bidding this hand. South's bidding showed a very powerful hand with three suits, but North felt that the spade suit was not sufficiently solid to play it a no-trump.

Before going into the play, look at the hand and see if you think

♠ A J 10 5 2 ♥ 8 5 ♦ 9 4 ♣ A Q 10 4		♠ 9 6 ♥ 10 6 3 ♦ 8 6 2 ♣ J 8 7 5 3	
♠ K Q 7 3 ♥ 9 7 4 2 ♦ J 10 7 5 ♣ 3		N E S Dealer	
♠ 8 4 ♥ A K Q J ♦ K Q ♣ K 9 6 2		Rubber—Neither vul.	
South	West	North	East
1 ♠	Pass	1 ♠	Pass
2 ♥	Pass	3 ♠	Pass
3 ♠	Pass	5 ♠	Pass
4 ♠	Pass	Pass	Pass
Opening—♠ K.		5	

it is possible for declarer to make the six-club contract. The opening lead was won with the ace of spades, the ace of clubs cashed, and declarer had the sad news.

I think you will agree that he should cash three rounds of hearts, then lead the fourth heart. When West follows with the nine-spot, declarer must trump with dummy's queen of clubs. Now should East discard his nine of spades? Let me show you what happens if he does.

Declarer will lead a spade from dummy. Having nothing but trumps, East will have to ruff with the five of clubs, and no matter what club he returns, declarer will make the balance of the tricks. Instead of discarding the nine of spades, East should under-trump the queen of clubs with the five. Then there is no possible way for declarer to make the contract.

James Holt Discharged At Fort Bliss Center

It has been announced by the Separation Center at Fort Bliss, Texas, that S/Sgt. James W. Holt of Midland has been honorably discharged from the Army.

Army Recruiters To Be Here Wednesday

Army recruiters who will be in the Midland postoffice Wednesday from 12 to 5 p. m. report that Nov. 21 has been set as the deadline for re-enlistment in the Army of all men who were discharged between May 12 and Nov. 1, 1945, who desire to maintain their former ratings. They will also receive the re-enlistment bonus of \$50 per year for every year of service if the enlistment becomes effective within 90 days after discharge.

Men discharged from the Army after Nov. 1 will have a period of 20 days from date of discharge to re-enlist and receive their ratings and their re-enlistment allowances, the recruiters report.

Men enlisting for three years do not have to take their 90 day enlistment furlough at the beginning of the enlistment. A man re-enlisting may sign a waiver as to when he wants to take his re-enlistment furlough.

One year enlistments are no longer being taken. However, a man now in service may ask for a discharge for the purpose of re-enlisting for one year. The re-enlistment furlough must be taken at the beginning of the enlistment under this system.

Eighteen per cent of home accident fatalities were children under five years of age during 1944.

Archaeologists Find Civilized Mankind Existed 5,000 B. C.

NEW YORK—(AP)—The New York Times said in a news dispatch from London that archaeologists have unearthed findings in Iraq which place the beginnings of civilized mankind between 5,000 and 6,000 B. C., 2,000 years earlier than previous evidence had shown.

The findings, which were made at Hassuna, 400 miles north of Ur, the site of the civilization of Abraham were reported by Dr. Najib Al Asil, director of antiquities for the Iraq government and leader of the Iraq delegation to the United Nations Education Conference, the paper said.

Dr. Al Asil said a team of archaeologists, led by Seton Lloyd, an Englishman, and Fuad Safar of Iraq had spent two years in an effort to discover positive evidence of the civilization.

Liberated Europe To Get Dairy Products

WASHINGTON—(AP)—Liberated Europe will receive greatly increased quantities of dairy products from this country in the last three months of 1945, the Agriculture Department announced Monday.

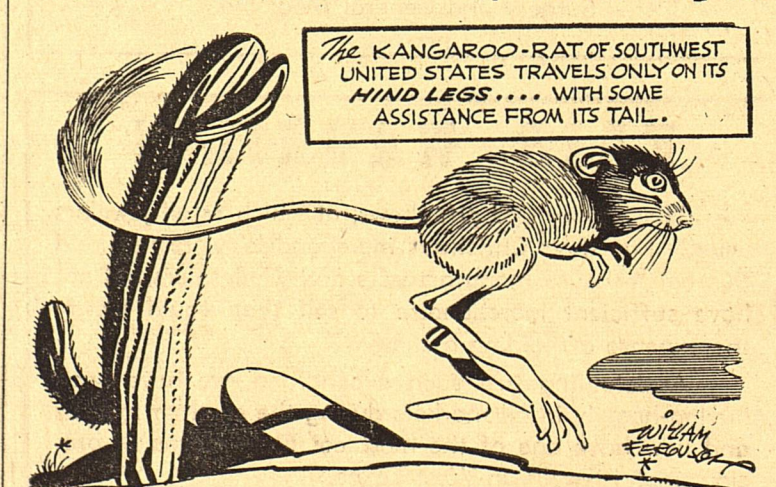

France, including French North Africa, Belgium, the Netherlands and the United Nations Relief and Rehabilitation Administration have been allocated more than 450,000,000 lbs. of dairy products for the quarter.

This is about four times more than this country has made available in any previous quarter.

Despite the increased exports, the department said in a statement, more butter, cheese, evaporated milk and dried milk will be available for U. S. civilians.

Death Is Cheated

Death in the waters of Lake Ontario seemed certain for the occupants of this car when it plunged down the sheer sides of Scarborough Cliffs at Toronto, Canada. Instead, the car wedged in a crevice 30 feet above the water. Two men and two women in the auto were only slightly injured.

Congress Ponders Threat Of British Wool To Market

By WILLIAM E. LOWELL

WASHINGTON—(P)—Congressmen from wool producing states put on their thinking caps Monday to see what could be done to remove what they regard as the threat of the British-owned stockpile.

Rep. Barrett (R-Wyo.) asserted in a statement that Britain has made informal proposals to the Defense Supplies Corporation looking toward sale of the 530,000,000 pounds stored in the U. S. during the war as insurance against transportation difficulties.

"I don't believe they can sell off that wool to the detriment of this country," said Senator Gurney (R-S. D.), member of the special Senate Wool Committee. "The Wool Committee, however, will look into the situation if there is any danger that the British stockpile is going to be a threat to the domestic market."

The United States government has been purchasing the entire domestic supply during the past few years, just as Britain is buying all wool grown in the United Kingdom.

Barrett says the Commodity Credit Corporation has about 530,000,000 pounds on hand and its holdings

Army To Play Irish Saturday In Classic

NEW YORK—(AP)—One of the top gridiron spectacles of the year—the annual clash between Army and Notre Dame—matches the first two ranking teams of the country Saturday in a game which may decide the mythical national championship.

A crowd of 75,000 will jam New York's Yankee Stadium to see the Cadets go gunning for their 16th straight victory over a two-year span while the unbeaten Irish will be striving to avenge the 59-0 licking they took from Army last season.

The Irish come up to the big tussle fresh from the eventful 6-6 tie with Navy Saturday while the Cadets were polishing off Villanova 54-0. Notre Dame outplayed the Middles throughout the contest.

Navy will need all its good fortune Saturday when it takes on the improved Michigan Wolverines at Baltimore in the No. 2 contest of the day. Fritz Crisler's youngsters staged another impressive last period offensive in overwhelming Minnesota 26-0.

Mansfield Wins Garden Call Roping Contests And \$5,000 In Prizes

By JACK HAND

NEW YORK—(AP)—The yippee-ki-yi boys packed their boots and saddles in Boston-bound trunks Monday and headed into the stretch of the rodeo campaign with Bill Linderman of Red Lodge, Mont., riding ahead on the unofficial national all-around cowboy crown.

Although there will be some bronc-busting at Dallas and Los Angeles before the season closes, the competition in the Boston Garden opening Thursday could clinch the title for Linderman, one of seven brothers from Red Lodge.

If Bill misses out on the championship, held by Louis Brooks of Sweetwater, Texas, for the last two years, brother Bud probably will take the big money for they are running head and head. Bill has won almost \$20,000 for the season in recognized rodeos.

Toots Mansfield, a seasoned campaigner from Rankin, Texas, added the \$2,000 calf roping championship to his laurels, the fourth time he has taken the event in the Garden. A second place in the wild cow milking contest topped his New York take to over \$5,000.

G. K. Lewallen of Blackwell, Texas, scored a decisive 500-point victory in the wild bull riding contest.

The 213 cowboys split up \$145,825 as their share of the estimated gross gate of \$1,500,000 contributed by continuous sellout crowds of 15,000 Wild West fans.

The first three in each event included: Calf roping, second place, Tom Tyler, Spofford, Texas.

Bulldogs To Rest Week As 'B' Team Plays Big Spring

Coming out of the San Angelo set-to without any regrets and no physical hinderances, the Midland High Bulldogs rest this week before an engagement here two weeks hence with the Cisco Lobos.

If the Bulldogs had three wishes about that Cisco game, all three would be: "Give us a dry field." The weatherman served up a slicker last year on the Lobos' home grass.

There will be football in Midland Saturday night when Coach Jack Mashburn's Bulldog "B" eleven clashes with Big Spring.

Most eyes of the 3-AA circuit this week will be on the Odessa-at-Sweetwater game. Big Spring goes to San Angelo. Abilene visits Lamesa.

Standings of the district:
Team W L T Pct.
Sweetwater 3 0 0 1.000
Odessa 3 0 0 1.000
San Angelo 2 1 0 .667
Abilene 1 2 0 .333
Lamesa 1 2 0 .333
Midland 1 3 0 .250
Big Spring 0 3 0 .000

Odessa-Sweetwater Tilt Rates High In Week's State Football Race

By HAROLD V. RATLIFF
Associated Press Sports Editor

Only five of the 16 districts of Texas schoolboy football have undisputed leaders as the campaign enters its final month.

Paschal tops the Fort Worth district, Crozier Tech is the Dallas pace-setter, Waco leads in District 10, Milby is the No. 1 team at Houston and Galveston is out in front in District 14. The other districts present this picture:

1. Amarillo, Plainview and Pampa tied for the lead.
2. Wichita Falls and Vernon tied.
3. Odessa and Sweetwater.
4. Austin (El Paso) and El Paso High.
5. Paris and Denison.
6. Denton undefeated but Highland Park (Dallas) has not yet played a conference game.

9. Brownwood and Breckenridge.
11. Marshall and Tyler. Longview undefeated but once tied.
12. Jacksonville and Lufkin.
15. Austin, Corpus Christi, Jefferson (San Antonio) and Brackenridge (San Antonio) tied for the lead.

16. Brownsville and Edinburg tied for the top.

This week brings some of the most crucial games of the conference race.
In District 1 Amarillo meets Plainview, in District 3 Odessa tangles with Sweetwater, in District 5 Paris plays Denison, in District 6 Denton tackles Highland Park, in District 12 Breckenridge clashes with Brownwood, in District 11 Tyler engages Longview and in District 16 Brownsville plays Edinburg.

The Odessa-Sweetwater, Paris-Denison, Highland Park-Denton, Breckenridge-Brownwood and Brownsville-Edinburg games are considered as decisive struggles in the district championship battles.

Milby probably will become the first district champion actually crowned. The Buffs have either to beat or tie Austin Friday night to clinch the title.

Just eight teams remained undefeated and untied in the state and more than half of these appear in danger of falling this week. The schools with perfect records are Pampa, Plainview, Odessa, Paris, Brownwood, Lufkin, Milby and Brownsville. Plainview faces all sorts of trouble from Amarillo, Odessa may find Sweetwater hard to handle, Paris is none too sure about beating Denison, Brownwood has a rugged foe in Breckenridge, Milby might lose to Austin and Brownsville is uncertain against Edinburg. Lufkin should beat Nacogdoches without trouble and Pampa should take Lubbock.

DOWN SPORTSLANE

TANNER LAINE

Sportsmen call it "fighting heart". Various terms have it everything from "will to win" to "inescapable fortitude". Whatever it is, that intangible urge that sends smaller men against bigger men with fury and fight in any kind of contest, Midland has it. We're talking about that light but eager-weaver band of bulldogs. And the way they go about this football business warms your heart. You always hear the sermon preached, "Wait 'Til Next Year". Well, folks, you may have to wait that long. If you saw them surging in the San Angelo game for that fourth quarter score, you know what we mean. If you'll watch them take on Cisco here in a couple of weeks, you'll see.

—SL—
A lot of football's best elements have come from sandlots and other unorthodox spots, maybe even in an alley can-kicking contest. Men, playing this game of football, have put on many "finer" points of the game at the most unusual places. There was the "flying wedge", finally outlawed, but its principle still is evident. Take forward passing. One college once used a smaller ball to augment its passing attack and then told the other team about it, after they had won the game. The varied formations, T and otherwise, have sometimes been dreams of a coach or player, or fan. Now Friday night Midland used a "naked reverse." It caught San Angelo napping. It would have gone for a score with a little luck and speed.

—SL—
Want to hear how the Bulldogs pulled the slicker. Okay, like this: all night long, young Mr. Yeager had been handling the ball from the T-formation and a lot of times handing it off to fast Mr. Hightower on the usual reverses. Come the right spot to percolate, foxy Yeager did this. He got together with brother Hightower and the two whispered a plan. They worked it. Yeager took the pass from center, spun, and it sure looked like he gave the pigskin to Hightower. But he didn't. San Angelo's defense thought he did. They sucked to Midland's left where the play looked like it was headed. Blockers faked out ahead of Hightower, who stimulated all the hustle and bustle of picking up yardage possessed of the ball. Meanwhile Yeager was streaking out wide to his own right, all alone out there, too. He had the ball. He was wide of the San Angelo end and wide of the flatzone defensive halfback. The stands of the Bobcats moaned and shouted warning. A mohair country back finally awoke and managed to haul Yeager down. But not before the fans had seen a beauty. A "naked reverse." This means Hightower was "undressed" but he hugged the imaginary ball with much reality. A Lamesa scout swallowed his uppers on that one.

—SL—
They had to keep a foot on the football out at the negro ball game Friday night, and we really mean just that. The officials, for fear the Hornets and Eagles would filch the ball when they weren't looking, kept their number 10s on the ball between downs. Midland sometimes did not wait for all festivities to cease before running off another play. The JayCees got a big crowd out for the night game. Now the Hornets of Midland can be dressed up for coming games.

—SL—
RUNNING UP THE STRAYS.
Tater Cole, daddy of Bobby Cole of the Bulldogs, says his milk bill is pretty high, now that the high school back is picking up weight. . . . We aren't a cuckoo but it's time to tell about CURFEW. The Bulldogs are now operating under a 9:30 curfew. . . . No late shows, dates, and other activity at night, if you please, boys. . . . It's for training and it's for the good of the team. . . . Early to bed makes good football players. . . . Ask yourself, how a piece of pie knots in the stomach after a hard tackle. . . . Hit the sack, Bulldogs, and early. . . . And win some ball games. . . . okay?

\$421,156,932 WAGERED ON HORSES IN NEW YORK
NEW YORK — (AP)—A record-breaking sum of \$421,156,932 was wagered on thoroughbred racing in New York state this year with Jamaica's \$4,330,471 handle Saturday winding up the regular 144-day campaign which started on May 21.

A&M, Texas And TCU Tied For Lead In Southwest Conference

By The Associated Press

Three more of those "sudden death" games are scheduled this week in a Southwest Conference football race that may be decided by discharges from the armed service.

The campaign has reached that stage where a defeat is enough to kick any team out of the championship picture.

Returning service men already are taking a big hand in the proceedings as the race rolls down its final four weeks.

At Dallas Saturday Bobby Layne, who got out of the Merchant Marine a few days before Texas played Southern Methodist, passed and ran the Longhorns to a 12-7 victory that shoved the Orange back in the middle of the title drive.

In that game Doak Walker, who was discharged from the Merchant

Marine the same time as Layne, almost carried S. M. U. to victory. He made the Mustangs more potent than any time this season and indicated the Methodists would be powerful factors in deciding where the championship is to rest.

Texas faces Baylor at Austin Saturday. The Bears cling only to a mathematical chance of figuring in the title. Defeat by Texas would definitely kick the Bruins into the discard along with Arkansas, which was trounced 34-0 by Texas A. and M. last week.

Three Teams Lead
On the other hand, Texas, now tied for the lead with A. and M. and Texas Christian, would find itself pretty close to the shadow of the eight-ball should it lose to Baylor.

Down at College States Southern Methodist and Texas A. and M. will

battle it out for survival while Rice risks its chances at Houston against Arkansas.

Texas Christian is the only team that runs no risks this week. The Horned Frogs play Texas Tech at Lubbock.

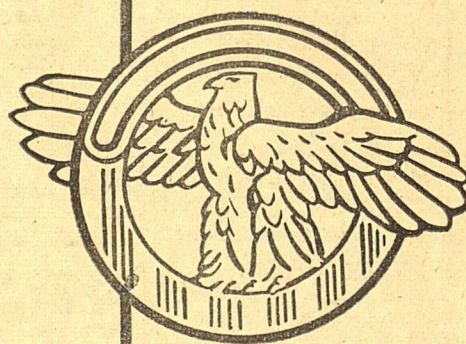

T. C. U. did itself proud last Saturday in toppling Oklahoma 13-7 to improve the conference's inter-sectional record and to show Texas will have its hands full November 17 when the Frogs play the Longhorns at Austin. Texas had all sorts of trouble beating Oklahoma. T. C. U. did it comparatively easy.

Baylor downed Southwestern 19-0 and Rice beat Texas Tech 13-0 in other non-conference tilts.

The first state to levy a registration fee on automobiles was New York, in 1901.

NOV. 21, 1945

AN IMPORTANT DATE FOR
THOUSANDS OF ARMY VETERANS
NOW IN CIVILIAN LIFE

BETWEEN now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new peacetime Regular Army. Because—men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the same grade as they held at the time they were discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 20 days after discharge and before FEBRUARY 1, 1946.

"BEST JOB IN THE WORLD"

Can you think of any other job that gives you good pay, food, clothing, quarters, medical and dental care, world-wide travel, 30 days' furlough every year, education and training in any of 200 skills or trades, and enables you to retire with a life income any time after 20 years' service?

There isn't any! That's why a job in the new peacetime Regular Army has been called "The Best Job in the World."

These are only highlights of the new Armed Forces Voluntary Recruitment Act of 1945. Every American should know the full story. Stop at your Army Recruiting Station and get all the facts.

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

- Enlistments for 1½, 2 or 3 years. (One-year enlistments permitted for men who have been in the Army six months.)
- Enlistment age from 17 to 34 years inclusive, except for men now in the Army, who may reenlist at any age, and for former service men, depending on length of service.
- Men reenlisting within 20 days after discharge and before February 1, 1946, retain their present grades. The same applies to men discharged between May 12 and November 1, 1945, who reenlist before November 21, 1945.
- The best pay scale, medical care, food, quarters and clothing of any army.
- An increase in the reenlistment bonus to \$50 for each year of active service since such bonus was last paid, or since last entry into service.
- 20% extra pay for overseas service.
- A paid furlough (up to 90 days depending on length of service) with furlough travel paid to home and return, for men now in the Army who enlist.
- A 30-day furlough every year at full pay.
- Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
- An increase of 5% in pay for every 3 years of service—in addition to the many other promotions possible.
- Option to retire at half pay for the rest of your life after 20 years' service—or three-quarters pay after 30 years' service. (Retirement income in grade of Master Sergeant up to \$155.25 per month for life.) All active federal military service counts toward retirement.

12. Benefits under the GI Bill of Rights.

13. Family allowances for the term of enlistment for dependents of men who enlist or reenlist before July 1, 1946.

14. Opportunity to learn one or more of 200 skills and trades taught in Army schools in U. S. or occupied countries.

15. Choice of branch of service and overseas theater in the Air, Ground or Service Forces on 3-year enlistments.

16. Privilege of benefits of National Service Life Insurance.

17. Reserve and A. U. S. commissioned officers released from active duty may be enlisted in Grade 1 (Master or 1st Sergeant) and still retain their reserve commissions.
