Foster and Son Grocery, Barr's Bakery, Young and Cochran Barber Shop.

Cross Plains schools will also be closed Monday in observance of Armistice Day. It was announced yesterday by Superintendent Lewis C. Norman.

Cross Plains merchants have not yet decided which Thursday in November will be celebrated as Thanksgiving here, however, members of the Chamber of Commerce will probably have this worked out in time for publication in next week's issue of the Review.

Cross Plains schools will likewise observe one of the days, however, The Review had not learned at press time whether it would be the "old" or the "new" Thanksgiving date.

W. H. Wetherby, A & M College Extension Service poultry specialist, addressed a meeting of poultrymen in the high school auditorium here Wednesday afternoon. A large crowd attended the gathering.

Mr. Wetherby presented suggestions about selecting turkey breeding stock for 1941. He also discussed a poultry management program that would help in preventing many poultry troubles.

Questions were asked by listeners and discussed by the speaker and the audience.

PIONEER P. T. A. IN MEETING OCTOBER 22. The Pioneer Parent-Teacher Association met in regular session October 22.

The president, Mrs. J. R. Ramsey read an interesting article by the "National vice president."

Mrs. Ramsey also reported on a recent county council meeting.

Further plans for the Halloween carnival were discussed.

The second grade had the most mothers present in the grammar grades and the Sophomore class had the most in high school.

MRS. EFFIE WILKINS PURCHASES HOME HERE. A deal was closed recently between Mrs. Effie Wilkins, of Zephyr, Texas, and Martin Jones, whereby the former became the owner of the house, known as the Crook place.

Mrs. Wilkins plans to occupy the house in the near future.

COMMISSIONERS COURT WILL NOT MEET MONDAY. Meeting of Callahan Commissioners Court, scheduled Monday, has been postponed because of Armistice Day.

All offices in the court house will be closed November 11.

Mexico does not have a general policy of expropriation.

LAST CONFERENCE GAME TONIGHT FOR CROSS PLAINS 11

Meet Santa Anna Team There In What Promises To Be Unusually A Close Game

Cross Plains high school Buffaloes go to Santa Anna Friday night for their last conference game of the present season. After the Santa Anna game Cross Plains will meet Baird and Rising Star, both games to be played here.

Comparative dope indicates Santa Anna and Cross Plains to be of about equal strength, with possibly the scales balancing slightly in favor of the Buffaloes. Never have the Mountaineers been able to upset the thundering herd, however, and they are reported to be enthusiastically pointing to the Cross Plains game.

The locals came through the Ballinger game without serious injury and all of coach Soc Walker's charges who saw service last Friday are expected to be in the pink of condition for the Santa Anna fracas.

If the locals are able to come through victoriously Friday night, they are expected to wind up their conference schedule in a deadlock with Coleman for fourth place.

Winters is at present leading district S-A with four wins and no ties or losses. Brady is in the second slot with three straight wins. Ballinger comes next with three triumphs and one set-back. Coleman now occupies fourth place with two wins, one loss and one tie. Cross Plains is fifth with one win, three losses and one tie. Santa Anna is sixth with one victory and three losses. Mozelle trails with six straight set-backs.

Death Claims Noah Johnson, Pioneer Cross Plains Man

Death claimed a pioneer citizen of this place Friday when Noah Johnson, passed away after an illness of over a year. Funeral services were conducted from the residence Saturday afternoon by Rev. S. P. Collins, pastor of the Presbyterian church here.

Mr. Johnson was born June 1, 1860, in Grand Ridge, Florida. Soon afterward his family moved to Alabama. From there he came with his family to Texas.

He was married August 26, 1886, to Miss Mary Victoria Hitt, in Arlington, Texas. They came to Callahan county in 1889.

Mr. Johnson was a prominent farmer of this area. Until recently, he was a director of the Citizens State Bank here.

Surviving him are three children, Flen of Cross Plains; Mrs. Frank Ferrell of this place; and Mrs. Thomas E. Neill.

Paul bearers were Elmer Vestal, Carlos McDermott, P. W. Payne, Oscar McDermott, Fred Stacy and Olan Wilson.

Interment was in Dressy cemetery. Higginbotham's, Cross Plains, were in charge.

Nation's First Third Term

Franklin D. Roosevelt

NATION'S FIRST CHIEF EXECUTIVE FOR A 3RD TERM

Cross Plains Polls 383 Votes; Democrats Get 317; G.O.P. 56, 10 Haven't Preference

A precedent more than 150 years old was shattered Tuesday as voters over the nation treked to the polls and overwhelmingly re-elected Franklin Delano Roosevelt President of the United States for a third term.

The Democratic standard bearer was assured 40 or more states by returns which were incomplete as the Review went to press. Wendell L. Willkie, Republican candidate, conceded defeat as scattered returns only served to increase the Roosevelt majority.

Strong Texas approval for a third term for Roosevelt was indicated as returns showed the president to have garnered more than 80 percent.

As usual, the state democratic ticket won by an even wider margin. Gov. W. Lee O'Daniel, with more than 96 percent of the votes, was far ahead of the republican gubernatorial candidate, George C. Hopkins. However, J. E. McDonald, seeking reelection as commissioner of agriculture, trailed his party ticket because of widespread criticism for William N. Corry. But on a basis of votes counted he was running ahead by nearly three to two.

Closest Texas vote appeared to be that for the proposed constitutional amendment on Red River county taxes. This measure held a slight lead, with the outcome still in doubt. The other three proposed amendments won easily. The amendment providing for direct appeal to the supreme court in certain cases was approved by more than two to one. Majorities nearly as large were indicated for the amendments on appointment of notaries and removal of the limitation on municipal appointments.

In Cross Plains 383 were polled, according to S. F. Bond, presiding judge. Of the 383, Roosevelt was given 317, Willkie 56 and 10 did not vote for either candidate.

WALLACE BENNETT IS SELECTED AS MEMBER OF STATE F.F.A. BAND

Wallace Bennett, son of Mr. and Mrs. Bryan Bennett of Cross Plains, has been chosen as one of the 50 F.F.A. members in Texas to play in the State F.F.A. Band at the National F.F.A. convention to be held November 9-16 in Kansas City.

Young Bennett left here early Thursday morning for Denton where he will join the other bandmen. All expenses of the trip are to be borne by the state FFA organization.

Wallace will play a bass horn in the FFA band.

OBSERVATIONS

We have all heard of Chemurgy, but few of us realize just how important it really is to us. Here are a few things we have learned, through Chemurgy, of the importance of corn—the common field variety. Besides our well known uses of corn in our every day life some of the chemurgic sources are as follows: Artificial silk, safety glass, explosive, liniments, paints and varnish removers, coated papers, lacquers, metal cleaners, patent leather, dyestuffs, polishes, penetrating oils, antifreeze, shellac, inks, perfumes, antiseptics, and liquid soaps.

What color is man?—When he is mad we call him—red. When he is a coward we call him—yellow. When he is straightforward we call him white. When he is loyal we call him true blue. When he is running over with enthusiasm, full of vim, vigor, and pep we say he is colorful. When he is not over ambitious, quiet, reserved—we say he is colorless. What color is he anyway?—From the school section of the Albany News.

The five most populous states, according to reports, in the United States are New York, Pennsylvania, Illinois, Ohio, and Texas.

There are more than 100,000 more men in Texas than women, and of the 116,000,000 christians in the United States 75,000,000 are Protestants and 41,000,000 are Catholics.

The story is told of a very young bride who decided to serve chicken for lunch. In purchasing the fowl she complained of the price, twenty-five cents per pound, as being too high. "The store across the street advertises them for twenty-one cents," she said.

"Do his chickens have the feet on?" asked the butcher.

"No, I don't think so."

"Well, that explains it, when we

Feathers Featured On Ladies Bonnets Cause Controversy

Featuring feathers again on milady's hat in West Texas and elsewhere this season is bringing some strong accusations of wholesale and ruthless slaughter of our valuable songbirds to suit the whims of the millinery trade. A recently conducted survey, for example, by the National Association of Audubon Societies indicates that illegal trade in feathers is now booming, with many kinds of birds in the United States facing a virtual extinction.

Very few people are aware of the fact feathers of more than 40 species of wild birds, including the game birds we have in Texas, are now being offered for sale illegally via the new hat route. Plumage of foreign birds is also found for sale on milady's hats in many trade and federal laws.

This brings about a situation that is very delicate for our game wardens and other enforcement agents to handle. They cannot keep guard over every hat shop or every clump of bushes, but they can request millinery shops to be aware of purchasing hats where adornment consists of feathers from the golden eagle, the bald eagle, the osprey and the blue heron. Texas millinery shops are in hot water over the matter of illicit feathers, since in every instance they purchased their stocks of fall hats and other goods without being aware of the fact certain hat manufacturers have been illegally utilizing the coverings of our feathered friends.

Feathers from domestic fowls, it seems to us, should be entirely sufficient to satisfy the many needs of the millinery trade without resorting to the illegal practice of killing off our remaining game birds, and those birds protected from year to year by closed seasons. Turkeys and dove feathers, for instance, when properly dyed, are attractive enough to adorn almost any hat turned out today.

JORDAN CAN FIX IT

C. W. Kemper was a Baird visitor Wednesday.

"The greatest gift of God to man is will-power." This was a favorite saying of Dr. A. C. Scott, Sr., founder of the internationally famous Scott & White Hospital and Clinic in Temple. And friends of the celebrated surgeon—whose death occurred a few days ago at the age of 75—say that his own chief characteristic was, having once made up his mind, he stuck to his purpose.

He graduated in medicine before he was 21, returned to his native town of Gainesville to enter the practice and one of his first patients was a young lawyer, whose throat needed treatment every week end after strenuous campaigning. The lawyer was running for Congress and his name was Jo Bailey. Dr. Scott was placed in charge of the Santa Fe Railroad hospital, then newly-established in Temple; built it up steadily; afterward, founded the King's Daughters Hospital, which has grown into one of the largest in the State; and then he and the late Dr. R. R. White started the hospital which bears their names, paying \$1,000 in cash.

His studies in cancer and his philanthropies made Dr. Scott a truly great man. The hospital which he headed at the time of his death has 17 buildings of varying sizes, a staff of 54 physicians and it annually come thousands from all parts of the South and Southwest and from Mexico, Central and South America. Back of it all was a quiet, modest, kindly man (this writer met him just a few weeks ago and will always treasure the experience) who never tired of working and studying.

Had a most interesting incident recently—for the first time I heard my own voice. Of course that's no novelty to my long-suffering friends. Beeman Fisher, assistant to the president of Texas Electric Service, and Paul Harmon, company publicist, invited me to be interviewed on a radio program by general Gene Arnold, singer, pianist, poet, lecturer, actor—that's all one man.

A recording was made of the program and I heard what sounded to me like a complete stranger saying the things I'd said. It's an odd sensation; you'd never recognize your own voice.

Incidentally, it was only an hour and a half after we went off the air that the recording was ready, which calls to mind the story of the negro soldier in the World War No. 1. He had just reached the front-line trenches and, standing with head and shoulders exposed, he yelled, "Bring on dem Boches!" Bring on dat war! I craves action!" Just then a bullet hit his steel helmet a glancing lick and knocked it into the trench. He jumped down, picked it up and said, "Brothah, dat's what I calls service."

BUFFALOES LOSE TO BALLINGER ELEVEN FRIDAY NIGHT 19-0

Cross Plains high school's fighting Buffaloes journeyed to Ballinger Friday night and came home with what practically amounts to a moral victory over the Bearcats.

The score was 19-0 in favor of the little contenders from this city kept the tallies from being higher. Only the week before the Ballinger eleven had held Brady to one touchdown and had roundly outplayed the Buffaloes much of the way. The local club lost earlier in season the loop leaders by a count of 41 to nothing and the weightier, more experienced Bearcats figured to wallop the Buffs by a larger margin than the scoreboard recorded.

Bob Wright, son of the Ballinger coach, Felton Wright, scored two of the victor's touchdowns in the District S-A game. Both of Wright's counters came in the second half. The Bearcats' Striplin made the other tally and added the extra point. All scores were made from close range.

Cross Plains made 9 first downs while Ballinger was making 13.

The line-ups:

Cross Plains—Scott and Smith ends; Lovelady and Upton, tackles; Warren and Huckaby, guards; Wolfe, center; Wright, Striplin, Green and Long, backs.

Ballinger—Berry and Sides, ends; Duxkemper and Harville, tackles; Wolff and Morris, guards; Lowry, center; Wright, Striplin, Green and Long, backs.

Here's what former Governor Francis of Missouri once said, "The editor, in proportion to his means, does more for his home town than any other 10 men, and in all fairness he ought to be supported—not because you like him or admire his writings but because the local paper is the best investment a community can make. The editors of the local papers do the most for the least of any people on earth."

"Ain't never been a boss that ain't been rode; Ain't never been a rider that ain't been throwed."

Here and there—Bill Quinn, for a good while the editor of the Van Banner, is now editor also of the Grand Saline Sun. In his spare time, he probably will take up the study of Esperanto—The election of Dorman Nickels as Wharton County prosecuting attorney attracted interest as far away as Austin where Nickels earned money as a soda fountain attendant and in similar work to complete his education. He campaigned hard—made a speech at 10 o'clock the night before the election—O. O. Electrician Proves It's Always SOUTHERN SELECT

A conscientious electrician knows that the way to be sure about anything is to test it. So although Southern Select was already his favorite beer, Alton Fisk triple-tested it just the same. He says:

Williams And Pioneer To Collide Friday Afternoon

What promises to be one of the most interesting class B football games in this section during the current season, Pioneer high school will collide with the Williams Bulldogs on the Pioneer Friday afternoon, starting at 2:30 p. m.

The crest of six straight wins and having yielded not a score thus far, coach Austin Williams' Bulldogs are considered favorites, however, coach Carol Aiken and his Pioneer Panthers are pointing to the Williams' several weeks now and are expecting a quarter.

Williams' team will be near the peak of strength, however, Pioneer will have several minor injuries in the game with Scranton. Aiken and Williams are also nursing their squadmen due to school difficulties, however, only one of the quartet was a regular.

Boys' boots odd shape some might say, but they were built up by accident. Every odd pair of boots has its story.

After a layoff, Coach Frank Kimbrough said today his starting combination will be the same as in the latest win over Texas Mines.

H-SU COWBOYS ARE FACED WITH HEAVY NOVEMBER SCHEDULE

After a mid-season breathing spell the Hardin-Simmons Cowboys, undefeated in eight starts and only once beaten and once tied in their last twenty-one games, has bucked down to tackle the heaviest November schedule in years.

Five November games, three of them with ranking Catholic schools, Loyola of Los Angeles, Catholic Cardinals in Washington, and the University of San Francisco, began Saturday with a tussle with the West Texas Buffaloes at Canyon. The Catholic foes for the Baptist Cowboys then follow in order.

The Cowboys hold a marked edge in the West Texas State series, with 12 wins in 14 meetings since 1921. Last Buffalo victory was in 1924, and Hardin-Simmons has annexed all 10 games played since.

A year ago, in the rain here, the Cowboys came from behind to snatch an 18 to 13 win, with 72 passes tossed and all five touchdowns coming by the aerial route.

L. B. Russell and Co-captain Owen Goodnight, as last year, again lead the Rancher offensive, sparking an air-minded attack that has the linemen leading the backfield in scoring.

As last year, H. C. Burrus, the high scoring end from Lubbock, is leading the scorers, with 18 points. He is chased by Russell with 12 and Murray (Boom Town) Evans, Burkett, reserve center, has 10, all accounted for with his kicking toe.

After a layoff, Coach Frank Kimbrough said today his starting combination will be the same as in the latest win over Texas Mines.

WAR PRICES

With virtually every commodity that goes into the making of a newspaper rising in price from week to week, and apparently no end to the increase in sight, the fact begins to definitely become known that subscription prices of all publications will soon have to be raised in order to avoid heavy losses. Blank print paper alone has shown an advance of more than twenty-five per cent within the past six months. Comparative advances have been shown in ink, mailing paper, and every other item that is used in and around a newspaper.

It is not the desire of the publishers at this time to increase the rate, although it is clearly obvious that every economy must be affected in order to keep from doing the very thing that we hope not to do. Only recently, the Dallas Semi-Weekly Farm News, one of the oldest papers of its kind in the southwest reached a decision to discontinue its publication all because of the increased cost that was involved.

Sizing the situation up from every angle, the following proposition has been agreed on and is herewith submitted to the large family of readers on the subscription rolls of the Review.

Beginning now, and until further notice, any subscriber who lives in Callahan or any adjoining county may advance his figures twelve months for \$1.00. Readers who live in other sections of the country may take advantage of the usual regular rate of \$1.50 for twelve months. It is urged

Representatives From Callahan County Attend District A.A.A. Meet In Abilene

Seven representatives of Callahan County will attend a district AAA meeting in Abilene Thursday and Friday, November 7 and 8, to study the 1941 AAA Program and discuss the cotton situation in connection with the cotton marketing quota referendum to be held December 7.

Delegates to the meeting from this county will be E. L. Pierson, Callahan County Administrative Officer; J. Lester Farmer, Chairman of the County AAA Committee; Fred W. Stacy, vice-chairman of the AAA Committee; S. S. Harville, Member of the AAA Committee; Ross H. Brison, County Agricultural Agent; Miss Clara Brown, county home demonstration agent, and Miss Tennessee E. Read, county home demonstration agent at large, who is working in Callahan county, at this time.

Chairman for the first day of the two-day meeting will be Mr. W. L. Glass, Extension Service agent for this district, while Mr. Howard T. Kingsberry, the district's member of the state AAA committee, will preside the second day.

Mr. and Mrs. O. B. Edmonson of May, were week end visitors here.

Mr. and Mrs. Fred Hyser of Baird were visitors here Saturday.

Mrs. Dick Stone spent the week in Brownwood visiting her daughter, Mrs. Hattie Woodbridge.

Fred Tunnell visited his son, Freddie, J. in Stephenville Thursday evening.

Mr. and Mrs. J. W. Dunlap, accompanied by Miss Katherine Dunlap from Brownwood, visited in Comanche Sunday.

That all who wish to avail themselves of this saving send or bring in remittances now. There is no way to determine just how long this rate can be maintained. If all the readers who are on the list pay now on the basis of the rates quoted above then it is possible that no advance will be necessary for the very good reason that it will eliminate many extra items of cost in billing, mailing, etc. For this reason every old reader can well afford to send in a renewal on this low rate, even tho the present figures may be well extended into next year.

This open statement is issued in all fairness to readers who have proved so loyal in the years gone by. There is no way to determine what will happen during the coming year. Whatever readjustments are necessary will have to be met. Let us hope that an increase in subscription rates will not be one of them. The one sure way to avoid the penalties of such eventualities is to pay your subscription to the Review now on the basis of the present low rates.

SURE THERE'S A WILL BUT WHERE IS THE BANK

Jacqueline Isaacs of Detroit has a will but not a way—to capitalize upon that will.

The will bequeaths him \$1,800. He can't find a way to benefit from the will because he can't find the \$1,800.

The will is in the handwriting of his wife, Refugia Sorriana de Isaacs who died in August. It designates \$1,800 "in the bank."

Neither Isaacs nor his attorney can find the bank.

Mrs. Carmen Wright and Mrs. Robert Cunningham attended a grand chapter session of the Order of Eastern Star in Mineral Wells Monday through Thursday of last week.

Mr. and Mrs. Merrel Burkett, of Burkett, visited her parents, Mr. and Mrs. W. M. Freeman Thursday night.

I'LL TUNE OUT THE ALKA-SELTZER ANNOUNCEMENT

Don't—THAT'S THE MOST IMPORTANT THING YOU'LL HEAR TONIGHT

"When statements about Alka-Seltzer are made over the air, please believe them."

Mrs. Oma Catherine Jones

MILLIONS suffer less from Headache, Acid Indigestion, Distress of Colds "Morning After" and Muscular Fatigue because they have heard—and believed—Alka-Seltzer radio announcements. To these millions, the relief obtained by the use of Alka-Seltzer is worth far more than the genuine enjoyment they get from the broadcasts.

The most important parts of our radio program, both to you and to us, are the commercial announcements. Once you have tried Alka-Seltzer, we believe you will agree with us.

But try Alka-Seltzer because it is an unusually effective medicine not because you enjoy the radio programs.

WHY ALKA-SELTZER IS SO EFFECTIVE

The pain-relieving analgesic in Alka-Seltzer is in complete solution, ready to ease the distress as soon as you swallow it. The pain-relieving action is made more effective by alkaline buffers. The alkalizing elements in Alka-Seltzer reduce excess stomach acidity.

Get Alka-Seltzer the next time you pass a drug store.

United States Marines Recall Origin In 1775

Long years of service to the Nation will be remembered by the U. S. Marines, who celebrate their 165th anniversary on November 10. Above: their first rendezvous at Tun Tavern in Philadelphia and two sea soldiers of the Revolution. Below: detachment of Marines as they appeared at the New York World's Fair.

Thumbing their way through their logbook to the date of their origin, the U. S. Marines will turn back its fading pages to the year 1775, when they pass their 165th milestone on November 10.

Dimming records reveal that the Continental Marines gathered in old Tun Tavern in Philadelphia when they rallied their members to fight for the freedom of the colonies. From this quaint hostelry, now no longer a landmark, the Marines sallied forth with rattlesnakes painted on their drums and with high hopes in their hearts to win recruits for the "Cause."

Those were the days when the tavern was famous for its broiled steaks and tankards of ale, while sturdy patriots gathered in its upper rooms to smoke long churchwarden pipes and to discuss the rising tide of public opinion which eventually rolled into the over-

whelming flood of the Revolution. Sailing vessels on the Delaware River pointed their jibsoms straight at the tavern, while occasionally a stagecoach clattered over the cobblestones to drop patrons at its doors.

It was an ideal spot to enlist men "able to serve to advantage by sea when required." This was one of the stipulations made by the Continental Congress in 1775 when it authorized the formation of two battalions of Marines on the day they observe as their birthday.

All during the Revolution they performed loyal service on both land and sea. With the struggle for independence only a memory, the Corps was permanently organized in 1798 to follow in succeeding years the illustrious example set by its forebears.

Stirring chapters of the Marines' logbook reveal that they were aboard Old Ironsides in her days of

glory, helped to sweep piracy from the seas at home or abroad, mounted Old Glory for the first time on the battlements of a Tripolitan fortress, carried their banners to the uttermost ends of the earth and fought in all the big and little wars of our country.

Scores of countries have witnessed the prowess of the globe-trotting sea soldiers who on nearly 200 occasions have landed on errands for Uncle Sam. They have performed every task from chasing seal poachers in the Bering Sea to fighting our Nation's enemies, or guarding Americans in distant lands.

It is a far cry from the creaking sailing frigates of our first fleet to the floating fortresses of steel which now guard our shores against the assaults of some possible enemy, for the Marines have come a long way in the intervening years.

OVER 100,000 NEW MATTRESSES IN USE BY TEXAS FAMILIES

Members of more than 100,000 Texas farm families are sleeping on new mattresses this fall!

Late in October 190,286 new cotton mattresses had been made in the state under the Department of Agriculture's program for aiding low-income farm families and reducing the cotton surplus. This figure was compiled in the office of Mildred Horton, vice director and state home demonstration agent of the A. and M. College Extension Service.

The cooperative program provides that educational work and supervision of mattress making centers shall be furnished by the Extension Service, cotton and ticking shall be made available by the Surplus Marketing Administration and certification of eligible families shall be the responsibility of county agricultural conservation committees of the Triple-A.

To date centers have been set up in 2,654 Texas communities and mattresses are being made in 150 counties, Miss Horton reported. Voluntary leaders who supervise mattress making in the centers number 37,290—24,859 of them women and 12,431 men.

More than a million farm families in the Southern States will receive mattresses under the 1940 demonstration program, according to a report received by Miss Horton from Mrs. Ola Powell Malcolm, Ex-

PIONEER CLASS HAS DINNER WEDNESDAY

Holding a formal luncheon Wednesday, with Maverick Cook serving as hostess and assisted by Mary Jo Sheehan, the Pioneer Home-making III class had as their guests Mrs. Pete Usery, Mrs. Abe Harris and Mrs. DeWitt Drake.

The table was centered with marigolds and bachelor buttons. Places were marked with attractive cards slipped through marigold stems. Juanita Crisp, Mollie Mae Cox, and Mahotah Cook acted waitresses.

Menu consisted of beef soup, crackers, cheese souffle, tomatoes, stuffed with lima beans, perfection, hot rolls, butter, apricot tarts and hot tea.

The class has been making an intensive study of the infant and the mother.

EVANGELIST TO TALK AT OLD TIME GOSPEL MISSION MONDAY NIGHT

Rev. Walter N. Casey, evangelist, preacher, lecturer and writer, will talk to men and boys only, Monday night, November 11, at the Old Time Gospel Mission here, according to Rev. Abb Fox, pastor. The sermon will be of especial interest to men of draft age, Rev. Fox stated.

Rev. Mr. Casey is a member of the American Legion, and of the Veterans of Foreign Wars. He saw action in France during the World War, and was one of the youngest members of the A.E.F.

He was a member of America's merchant marine after his discharge from the Army.

All men will be given a cordial welcome, Rev. Fox said.

More Deer and Turkey

Not only will hunters have more deer and turkey to hunt in the sections which have been popular for years, but should the Texas Game, Fish and Oyster Commission continue to get as good results the next few years as have been attained this season on eleven deer and turkey areas set up as Pittman-Robertson game restoration projects, Lone Star State hunters will have many more sections in which to shoot gobblers and bucks.

Reports reaching the executive secretary of the Game Department indicate a larger crop of deer and turkey throughout all the ranges in the state. Ideal weather during the spring and early summer months made possible the survival of more young turkeys and deer. Nesting in South Texas was more than a month late due to the continued drought through the early months of 1940, but that section will also have a large crop of young deer and turkey.

The Game Department has obtained under lease or co-operative agreement eleven large areas of land totaling more than 150,000 acres. These are scattered throughout the state. Deer and turkey or turkey or deer, in some instances, were planted and have thrived. Game managers report large increases in game on practically all of the areas and an increase on each of them.

The areas include sections planted with grains and other plants upon which deer and turkey thrive. Area keepers hold the predators at a low level.

From these areas game is expected to spread and it is considered likely that more than 500,000 acres of Texas land will be restocked as a result of deer and turkey moving in. Turkeys have been found as far as eight miles away from the point where they were released.

Nurses Wild, Tame Fawns

A doe on the H. J. Russa Ranch in Bandera County has defied civilization in order to continue nursing one of the two fawns born to her this year and yet also nurses the wild one, a member of the Texas Game, Fish and Oyster reports.

One of the doe's fawns was picked up in the woods by a ranch hand several months ago and taken to the ranch house. It was not long before the mother appeared, jumped the fence of the enclosure where her baby had been placed, and nursed it. She has continued to do so daily every day since. She returns to the woods immediately after nursing the fawn held in captivity and nurses her other offspring, which is extremely wild. The captured fawn is very tame.

Not only does the mother deer continue to defy civilization in feeding her tame fawn, but any time a dog gets anywhere near the wild fawn she gives battle.

Defends Mourning Doves
Mourning doves have been accused of pulling young corn, especially after it has just shot up out of the ground. However, investigations by Game Department biologists have shown that the mourning doves do very little, if any harm to young corn. Not a grain of corn was found in any of the crops of fourteen mourning doves taken in and around the corn fields in Robertson County in April and May. Croton, Johnson, glass and a variety of other seeds were found. Farmers had claimed depredation.

MOTHER AT 15

LOGAN, W. Va. —Mrs. Meile Irwin was married at 14, became a mother at 15 and a grandmother at 30. Now, with jubilation, she is announcing she is a great grandmother at 55.

CARD OF THANKS

We wish to thank friends and neighbors for the beautiful floral offering, for their many manifestations of friendship and every kindness during our bereavement caused of the passing of our husband and father.

Mrs. Noah Johnson, Mr. and Mrs. Flen Johnson, Mr. and Mrs. Frank Ferrell, Mr. and Mrs. Thomas E. Neill.

One of the world's richest copper deposits lies under the city of New York. It was placed there by man, in the form of cables and wires.

WAR PRICES

With virtually every commodity that goes into the making of a newspaper rising in price from week to week, and apparently no end to the increase in sight, the fact begins to definitely become known that subscription prices of all publications will soon have to be raised in order to avoid heavy losses. Blank print paper alone has shown an advance of more than twenty-five per cent within the past six months. Comparative advances have been shown in ink, mailing paper, and every other item that is used in and around a newspaper.

It is not the desire of the publishers at this time to increase the rate, although it is clearly obvious that every economy must be affected in order to keep from doing the very thing that we hope not to do. Only recently, the Dallas Semi-Weekly Farm News, one of the oldest papers of its kind in the southwest reached a decision to discontinue its publication all because of the increased cost that was involved.

Sizing the situation up from every angle, the following proposition has been agreed on and is herewith submitted to the large family of readers on the subscription rolls of the Review. Beginning now, and until further notice, any subscriber who lives in Callahan or any adjoining county may advance his figures twelve months for \$1.00. Readers who live in other sections of the country may take advantage of the usual regular rate of \$1.50 for twelve months. It is urged that all who wish to avail themselves of this saving send or bring in remittances now. There is no way to determine just how long this rate can be maintained.

If all the readers who are on the list pay now on the basis of the rates quoted above then it is possible that no advance will be necessary for the very good reason that it will eliminate many extra items of cost in billing, mailing, etc. For this reason every old reader can well afford to send in a renewal on this low rate, even tho the present figures may be well extended into next year.

This open statement is issued in all fairness to readers who have proved so loyal in the years gone by. There is no way to determine what will happen during the coming year. Whatever readjustments are necessary will have to be met. Let us hope that an increase in subscription rates will not be one of them. The one sure way to avoid the penalties of such eventualities is to pay your subscription to the Review now on the basis of the present low rates.

Short News

American Automobile factories have produced 79 million motor vehicles valued at \$3 billion dollars in forty years.

Agricultural products from nearly 2,500,000 acres of the nation's land went into the manufacture of motor vehicles in 1940. Automobiles currently on the market each use an average of 90 pounds of cotton and three and one-half pounds of wool and mohair.

During the past ten years an average of 2,388,000 motor vehicles annually have been scrapped.

Just 21 years ago the first state tax on gasoline, a mere 1-cent a gallon levy, was inaugurated by Oregon. In 1939, state gasoline taxes reached a record high of \$816,433,000.

With rapid improvements in cars in recent years, the automobile industry has become the nation's No. 1 customer for steel, malleable iron, nickel, lead, mohair and other commodities. The motor plants spend about \$1,000,000 an hour for raw materials and fabricated parts when production is good.

From a few mechanics and bench hands who puttered away in barns making a handful of cars at the turn of the century, present-day automobile manufacturing makes possible, directly and indirectly, an annual employment of 6,500,000 people.

Since the first Automobile Show, the wages generated by the use of motor vehicles have amounted to more than \$5 billion dollars, or five times all the monetary gold now held in the United States.

Travelling to the farthest corners of the United States are 140,000 buses. Public schools are responsible for operation of 85,700 of these vehicles.

TRINITY TO TRY TO HALT JACKETS MARCH TO TITLE

BROWNWOOD.— Dominating the Texas Conference football race again with the only undefeated record, Howard Payne's Yellow Jackets enter their last lap of the current season Friday night when they are hosts in Brownwood to the offensive minded Trinity University, a team that has yet to be blanked in a game this year.

Flush from a last minute thriller victory over Texas Wesleyan in Fort Worth Saturday night when they came from behind to down the Rams, 14-10, with only 20 seconds to go, the Yellow Jackets are expecting one of their hardest battles against the Trinity eleven.

A victory for the Waxahachie team would give the Tigers a chance for undisputed championship honors for the conference, since Trinity has lost only one game along with Abilene Christian and Texas Wesleyan. Trinity plays seven conference games to the remaining circuit clubs' six, thus allowing Coach Alvin Boggs' team a percentage advantage over the rest of the pack.

Another reason why so many eyes will be turned toward Brownwood for one of the greatest scoring duels of the season. The Jackets, flashing one of the greatest offensive machines in the history of the school, has already scored 150 points this season, tallying 127 of these against conference opponents. And the Tigers have not found a club this fall either in or out of the league that has held them short of a touchdown.

Kellys In Coleman To Attend Dinner In Honor Of His Mother

Mr. and Mrs. T. W. Kelly, Wendell Morris, Cross Plains, and Mr. and Mrs. Raleigh Rutledge of Brownwood attended a birthday dinner in honor of Mr. Kelly's mother in Coleman. It was the occasion of her eightieth anniversary.

The elder Mrs. Kelly makes her home with a son, Mack, of West 12th Street in south Coleman.

Others attending the dinner were: Mr. and Mrs. W. J. Jackson, Talpa; Mr. and Mrs. O. H. Kelly of near Coleman; Mr. and Mrs. W. T. Kelly, Talpa; Mr. and Mrs. Mack Kelly; many grandchildren, great grandchildren and friends.

Carol Purvis made a business trip to Corpus Christi last week.

Mr. and Mrs. Howard Pillans and son are spending this week at Austin visiting Mr. Pillans' parents, Mr. and Mrs. S. S. Pillans.

The young ladies Sunday school class of the Missionary church and their escorts were entertained Halloween night by Mrs. Clint Brashear and Mrs. Ben Riffe at the home of the former. The rooms were decorated in Halloween colors.

Numerous games were played after which sandwiches, cookies and drinks were served to the following guests:

Misses Laverna and Lois Lovelady, Doris Rouse, Lee Ola Wrinkle, Winon and Doyce Purvis, Ruby Nell and Ella Mae Riffe, Messrs. Leonard Pillans, C. H. Lovelady, Delbert McWilliams, D. T. Wrinkle, F. C. Scott, Jr.

Tiny U.S. flags were party favors.

Making a meal attractive and having a happy atmosphere at the table was the demonstration given by Miss Reed for the Atwell home demonstration club, at Mrs. J. C. Brashear's Tuesday evening. It was a very interesting discussion and Miss Reed was a very interesting speaker. She is supplying for Miss Brown at present. After the meeting cookies and coffee were served.

GIRLS OF ROAD ON WAY TO THE LIBERTY THEATRE

They're "on the road" and it's all down-grade...homeless girls!... hunted...jailed...murdered... driven from state to state... hit-chalking their way to disaster... their paths unknown... their futures uncertain... their story unforgettable... in the sheer shock of its nerve-lashing power... America's unwanted women in a drama that must be seen... "Girls of the Road."

Ann Dvorak, Helen Mack, Lola Lane lead the cast of Columbia's "Girls of the Road" which opens Thursday at the Liberty Theatre with its dramatic, dynamic story revealing the true facts of one of America's most pressing social problems. Nick Grinde directed from an original story by Robert D. Andrews.

FAINT-HEARTED BANDIT FLEES FROM FAIR LADY

It was a timid bandit who walked into Mrs. Charles Tuminello's grocery Monday. And as timid bandits

go, he went.

So did Mrs. Tuminello. She told police that the man walked in, flashed a gun, demanded her money. She fled the back door. The bandit fled the front. He got nothing but exercise, police said.

SCHOOL HOME

Home Town Gossip

The rumor it around that "Red" Usery may soon make plans for the old home town. As yet, however, the reports are unconfirmed.

Plains, who coached a White high school team to many glorious victories a few years back, returns here Friday night to pit Baird Bears against Coach Walker's thundering herd.

Walker's team will be high and the Bears promises to provide the game in thrills and excitement.

It will be strange to see old Baird's opposing bench will be the first time this season a White coached team, hoping they'd be smooth in defeat.

Remembered, over, that Bill White never a team on the field which not inspired to make a "ditch" fight and equipped a repertoire of plays to outwit most any defense.

Walker's verve passing attack and the shoulders of the 11 young men is fit to start, this game is fit to start, this game is fit to start, this game is fit to start.

So did Mrs. Tuminello. She told police that the man walked in, flashed a gun, demanded her money. She fled the back door. The bandit fled the front. He got nothing but exercise, police said.

NORTHER ARRIVES ON HEELS OF RAIN FOR SEVERAL DAYS

The first icy breath of winter swept over the Cross Plains trade territory Tuesday, killing most all vegetation in its wake. Indications late yesterday were for a lifting of the cold-snap and prospects were good for a moderately warm week-end.

Freeze Follows Rain
The north came on the heels of several days of rainy, drizzly weather which yielded slightly more than an inch and a half of moisture here, according to a government rain gauge kept by the Review.

The precipitations were recorded as follows: November 7, .76; November 8, .78; November 9, .94 inches.

Last week's precipitations brought the year's rainfall in Cross Plains to a total of 24.31 inches, which is said by local weather statisticians to be almost the normal yield. The rainfall has been recorded as follows: January 29, February 2.22, March 4.2, April 4.74, May 3.35, June 5.43, July 2.7, August 3.98, September 1.08, October .95 and thus far in November 1.58.

Hog Killing Time
Many farmers took advantage of the first cold-spell this week to kill hogs and lay in a portion of the winter's meat supply. Fresh, home-killed pork has been in abundance here the past few days, with most all food stores featuring the item.

Although the reports of bursted pipes or automobile radiators have been heard, many local motorists returned to town late Tuesday night, however, to have their car radiators filled with non-freezing fluids.

SAFETY IS NOW BEING
FEATURED IN NEW CARS
One noticeable trend of automobiles now being displayed at the national automobile show, according to reports, is the fact that safety, and not speed or eye-appeal, is getting most attention. Naturally, this is the result of the public's desire for safe driving first, and the automobile industry always has demonstrated its ability to give the motoring public the kind of car it wants.

Sometimes it's economy, sometimes speed, sometimes it's greater riding comfort that the public desires most in cars, and that every year the leaders in the industry gauge the popular demand and have a product that meets it. As long as the public puts a premium on safety features, the cars of 1941 and for several years to come will be made safer.

Already safe features on cars has been cut from 17.4 to 12 per cent, and now the experts see no reason why it shouldn't drop to 6 per cent.

BROWNWOOD ARMY CAMP
NOW CALLED CAMP BOWIE
When those assigned to military training at the great army camp at Brownwood get mail from home it will not be addressed to "Camp Brownwood" as has been expected, but will be posted "Camp Bowie," Brownwood, Texas, instead.

The new name has been assigned to the 36th division National Guard training center there, according to announcement from Washington, D. C., and will carry on the famous 36th division which trained at old Camp Bowie in Fort Worth during the World War.

Mrs. Mamie Swafford visited Mr. and Mrs. Norman Swafford in Burkett Sunday afternoon.

Mr. and Mrs. Harry Bailey and Mrs. Clara Foster attended to business in Abilene Tuesday.

Mr. and Mrs. W. A. Williams and W. A. Jr., were Lubbock visitors Monday.

Officials for the game been named as the Review press yesterday afternoon.

Mr. and Mrs. U. Beebe tucky, were visitors in the Dr. and Mrs. John Ru week.

Don't Overlook Our Dollar

Again we call attention "Dollar Bargain Days" Review, which was announced a few weeks ago.

While the response to nomenclature has been ening the campaign has not off with the zip we have for. It would please much if all our readers make it a point to take their renewals right away get the matter over with the holiday rush.

Remember one dollar a full year for both renew new subscribers in the Plains territory. Let's today while we think a You will need the Review than ever now to keep the draft news.
