More Cigarettes LIONS CLUB SPONSORING HERE

Another shipment of cigarettes
to the boys overseas has been
sent from Hall County. This time,
10,250 packages were shipped.
The Lions Club is sponsoring
this movement in Memphis and
members have put jars in many
of the stores around town, so that
any person may contribute five
cents or any larger amount.
At the rate of five cents per
package, these cigarettes may be
sent to any foreign country ex-
cept possessions of the United
States. They must be sent in lots
of one thousand packages, that is
\$50 worth of cigarettes at one
time. There is no profit made on
the cigarettes. The company turns
the cigarettes over to the govern-
ment and they are sent wherever
designated.

So far, the two leading coun-
ties in this district are Hall and
Collingsworth. The last shipment
included 10,250 packages from
Hall and 7,000 from Collings-
worth. Total shipment from this
district was 47,000 packages.
N. W. Durham is chairman of
the committee, and he and H. B.
Estes, president of the Lions club,
ask that the public cooperate in
giving their nickels or any amount
to send these cigarettes overseas.
If anyone cares to donate a large
amount of money toward this
movement, he may hand it to the
merchant where a jar is placed or
he may give it to Mr. Durham or
Mr. Estes, or any member of the
Lions club.
"We appreciate what the peo-
ple have done in the past toward
sending cigarettes to these boys.
We know the boys appreciate get-
ting them and hope we can send
an even larger amount next
time," stated Mr. Estes.

Papers Complete On One-Variety Association Plan

Sign-up papers for four Hall
County Cotton Improvement As-
sociations, membership of which
includes practically every cotton
producer in the county, were
mailed this week by W. E. Hooser,
county agent.
Members of these associations
which also include all gins of the
county, agree to plant only one
variety of cotton within each
group.
The Delta 14 variety is produc-
ed by the Estelline Association,
which takes in the gins at Estel-
line, Hulve and Parnell.
Georgia Hybrid is to be pro-
duced by the remaining three as-
sociations. Two gins at Turkey
and one at Weatherly are in-
cluded in the Turkey area. All
other gins of county are included
in the Georgia hybrid group in the
Estelline association.
Benefits of the one-variety as-
sociation plan include free clas-
sing, which costs non-group mem-
bers 15 cents per bale, and post-
age which totals on an average
of 20 cents.
Last season, 1207 farmers were
in this group, farming 76,575
acres with a total of 43,576 bales
of cotton produced; thereby sav-
ing approximately \$9,000 on
classing fees and postage.

Small Group to Lubbock Friday

Of the six men who went to
Lubbock Friday, July 16 for their
second physical examinations, only
two were accepted.
Courtney Denny Scott and B.
F. Jackson were accepted for the
Seabees.
These were included in the
group and were rejected: Oliver
McMurry, John Marshall Griffith,
Verlon Lee Taylor, Delbert Elmer
Cook.
Lt. Irby was born in Turkey
January 23, 1917. As a boy he
worked at odd jobs on the farm.
He was graduated from Turkey
high school in 1934, then enrolled
in Texas Technological college at
Lubbock. He was transferred to
the University of Texas. Although
he had planned to be an engineer,
he wound up with a BS in phar-
macy in 1939 and came back home
to work in a drug store.
He entered the Army Air Forces
as an aviation cadet in December
1941. He was trained in Cali-
fornia, Washington and Arizona.
June 23, 1942, was a big day in
his life. He received his commis-
sion and wings at Phoenix and
married Dollie Mae Farley.
He has not seen his four months
old son, Richard Lynn Irby. Two
pictures of the boy have been
sent, but the family does not
know whether he has received
them.
Irby is a flight commander.

Case of Infantile Paralysis Reported

One case of infantile paralysis
has been reported in Hall Coun-
ty. The nine-year-old son of J.
L. Palmer was treated the first
of the week for the disease and
was taken to Paris Tuesday for
further treatment.
The Palmers are living three
miles south of Lesley but their
home is in Paris. The case is re-
ported to be a rather mild one
and since the child has been
moved, it is hoped that the dis-
ease will not spread.
Doctors and health officers are
asking the people to dispose of
their garbage properly and to keep
flies out of the houses. Flies, mos-
quitoes and mice breed on filth
and infantile paralysis can be
spread by them.
It takes only a few minutes to
convert an army jeep into a
stretcher carrier with wooden
frames that fit over its hood and
rear compartments.

PRESIDENT—Chas. A. Williams, president of the Old Settlers Association. Mr. Williams has served in that capacity since June, 1941.

SPEAKER — Judge A. S. Moss, who will deliver the principal address at the Old Settlers Reunion Thursday evening.

Union Revival At Lakeview

Beginning Sunday, July 25, a
Union Revival will be held in
Lakeview at the southeast corner
of the Lakeview townsite. All
services except the Sunday morn-
ing meeting will be held at the
brush arbor. Services will be held
Sunday morning at the churches.
The revival will continue for
two weeks or longer and will be
conducted by Rev. I. T. Hoggatt
and Rev. C. C. Hardaway.
"We want to extend an invita-
tion to the entire public to attend
these meetings. We are having
this revival in the brush arbor
where it will be cool. Interest is
being shown in these coming ser-
vices and good attendance is ex-
pected," stated the pastors.

Registration On Courthouse Lawn Thursday Morning;
At City Park During Afternoon; Basket Supper at
Six O'clock at Park; Variety of Numbers on Program

Hail, Wind LIGHTNING

Little Rain

Hail, wind and lightning dam-
aged crops, outhouses and one
residence over the county last
Friday and Sunday.
The house on the Floyd McEl-
reath place, occupied by Eugene
McElreath was damaged for the
fifth time Friday by lightning.
It struck in the kitchen and the
ball of fire rolled into the bed-
room. The kitchen caught fire but
was easily extinguished. Several
years ago, lightning struck this
same house and killed Mrs. Floyd
McElreath's father, Mr. Burke.
Friday at Deerlake, hail de-
stroyed the cotton crop of A. S.
Bevers and damaged the crops
of his neighbors. Mr. Bevers re-
ported heavy hail and hard wind
but not much rain. Outhouses on
his place were blown down but
the feed crop did not suffer much
damage.
At the same time east of Lake-
view, Porter Johnson and neigh-
bors suffered crop hail damage
and had a good rain.
Sunday afternoon, the Harrell
Chapel community received a good
rain and quite a bit of hail. There
was a hard shower in the Hulve
community at that time.
Very little moisture has fallen
in Memphis during the past week,
and lawns and gardens are be-
ginning to need rain badly. Tempera-
tures are staying high and the
nights are not much cooler.

District Governor Visits Rotary Club

W. M. "Pie" Larmour of Gra-
ham, district governor of the
127th District Rotary Interna-
tional, made his official visit with
the Memphis Rotary club the first
of the week.
Mr. Larmour met with the di-
rectors and chairmen of different
committees Monday evening at a
dinner. He gave instructions to
officers as to the duties of their
offices.
Tuesday at the club's regular
meeting, the district governor
continued his instructions and
called the members' attention to
the objects of Rotary. A true Ro-
tarian uses his acquaintance as an
opportunity for service, extend-
ing his good will from his home
town to an international under-
standing, stated Larmour.
Mr. Larmour has been a mem-
ber of the Rotary Club of Graham
since June 1926 and has attend-
ed one or more club meetings a
week since July 6, 1928. He has
served as program chairman, vice
president, secretary and president
of his club and has been editor of
the club publication since July
1934. He has been active in civic
affairs of his city and the Boy
Scout work in his district.

Local Firm Buys Turkey Compress

Purchase of the Turkey Com-
press from M. A. Joy by the Mem-
phis Compress Company was an-
nounced this week. It will be
a branch of the local compress.
The superintendent has not been
named.
Cotton will be received in Tur-
key and shipped to Memphis.
"We expect to offer the people
of Turkey the same courteous and
reliable service they have been
receiving in the past. It will be
operated under the management
of the Memphis Compress Com-
pany," stated the owners.

Dist. Encampment For 4-H Club Boys Aug. 3-5

District Encampment for the 4-
H club boys will be held at Lake
McClellan August 3, 4, 5. Twenty-
four boys have been selected from
this county. These boys are select-
ed on their merits of 4-H club
work and there are limited num-
bers selected from each county.
At the encampment there will
be 250 boys, ten agricultural
specialists from A & M, a spe-
cialist from the United States Ri-
fle Association, 22 county agents,
one district agent and several
sponsors.
Boys to go from Hall County
are: Don Hancock, Billy Hancock,
Don Hillis, Carroll Fowler, Har-
old Rappy, Jack Moreman, T. T.
Robinson Jr., Tommy Hillis, James
Wesley Smith, James Beeman,
Gayle Stephens, Jim Whaley, Jim
Hutchins, Laddie Sloan, Ted
Bruce, Roy Gresham, Freddie
Phillips, Sammy Stout, Billy Joe
Wynn, Colbert Chappell, Jackie
Lee Melton, Bob Ellis and Weldon
Jester.

Miss Faye Jones Marries Corporal Oscar R. Finson

Miss Faye Jones of Memphis and Corp. Oscar R. Finson of Boston, Mass., were married Friday, July 2, Justice of the Peace J. A. Merrick read the single ring ceremony.

The bride wore a black dress with matching accessories. She is the daughter of Mr. and Mrs. A. H. Jones.

Corporal Finson is stationed at Camp Maxey. Mrs. Finson will remain here with her parents for the present.

Martha Joy Reed Birthday Honoree At Lakeview

Martha Joy Reed was the guest of honor at a birthday party given in the home of her parents, Mr. and Mrs. Clyde J. Reed of Lakeview, Friday afternoon of last week from 4:30 until 6:30.

After the games were played the gifts were presented. Refreshments of cake and punch were served.

Those present were Kenneth Ray Bevers, Betty, Marthlyn and Jerry Burnett, Don Douglas, Derrel Davis of Pampa, Billie and James Dickey, Rita Joyce Durrett, Lavelle and Nedra Sue Hodge, Bobbie Sue and Jackie Lee Milton, June Payne, Dell and Don Davis, Jerry and Sandy Smith, Jo Ann Sullivan, and Mesdames Virge Bevers, J. L. Burnett, V. C. Durrett, W. A. Davis, F. O. Hodge, Pat Lewis, Robert Milton, Paul Smith, John Sullivan and Mr. and Mrs. Jack Davis of Pampa.

Women Work

By INEZ BAKER

Mrs. R. H. Wherry has been very happy this week because of the following letter she received from a soldier boy who found her card in his Comfort Kit. The personal touch no doubt added to the value of the gift.

Letterman General Hospital, San Francisco, Calif.

Dear Mrs. Wherry:

I received your Red Cross ditty bag on the boat coming back from

Helen Purvis Cadet Joe B. Farrar Marry

Miss Helen Purvis, formerly of Memphis, and Aviation Cadet Joe B. Farrar were united in marriage in Waco, Sunday, July 11. Rev. Roy L. Smith performed the ceremony.

Only close friends and relatives attended the wedding.

The bride was dressed in white. Cadet Farrar is stationed at Keesler Field, Biloxi, Miss.

overseas. Thanks very much. Best wishes and good luck to you.

I remain, very truly yours,

Wm. J. Branigan

Have you noticed the WAC poster in Stanford Pharmacy window, which bears the slogan: "Speed them back—Join the WAC?"

The face adorning this poster is that of Staff Sergeant Annie Marie Bradley, formerly of Philadelphia but now supply sergeant of the WAC detachment in North Africa.

Sgt. Bradley recently broadcast from North Africa over a 740 station hookup in the United States. "Mine is not a particularly big job," she said. "All of the girls brought along a plentiful supply of clothing, enough to last for quite a while. I think my biggest task is keeping the equipment in good shape. That means we must obtain many services locally. The local people are most cooperative. They usually speak some English—and we do manage with hand signs. The politeness of the natives is very touching and they have been most kind."

Has your club or class given a day to surgical dressings? If not, plan to do so, many others are.

The T. E. L. Sunday School class, Mrs. J. W. Fitzjarrald teacher, gave an afternoon recently and made army dressings. Such cooperation is deeply appreciated by Mrs. W. C. Davis and her corps of supervisors.

We know of nothing that gladdens the heart of a housekeeper like long rows of home canned fruits and vegetables. The green beans, red tomatoes, beet, and the golden pineapple just about makes up the prettiest picture we can think of now. If you missed canning pineapple you surely missed something. It is easy bag on the boat coming back from

to do, saves money and points.

R. L. TEMPLETON, WELLINGTON YOUTH, TALKS TO BOMBARDIERS

The article below appeared in the Star-Telegram last week. It is about R. L. Templeton of Wellington, who is a son of the late Judge R. H. Templeton and is the nephew of the late District Judge R. L. Templeton, for whom he is named.

Midland, July 13.—When this year's tenth class of "Hell From Heaven Men" is graduated Thursday morning at the Nation's No. 1 bombardier school here it will

hear a man who is a veteran of 21 bombing missions over Germany and occupied Europe.

Graduation speaker will be R. L. Templeton, who has been working as an inspector on the final assembly line at the Dallas division of North American Aviation, Inc., since his career as a Royal Canadian Air Force bomber pilot was cut short by a crash.

Born at Wellington, Templeton

became the pilot of a Wellington bomber. Of an original group of 45 pilots who left Canada in March, 1942, to be attached as bomber pilots with the Royal Air Forces, he is today the only one alive and free. He joined the RCAF in the fall of 1940, after having been "washed out" of the United States Army Air Forces. One month after he received his wings at Brantford, Ontario, he participated in his first raid. The target was Rostok, Hitler's important Baltic port, and was the longest raid made up to that time by the RAF.

During the next five months he participated in raids on Brest, on the Ruhr Valley, and finally drew a place in the 1,000-plane raid which laid Cologne flat last year.

In all, he participated in 16 raids over Germany proper and five over occupied France and Holland. He was rated as sergeant-pilot.

His youngest brother, Pat Neff Templeton, was killed, along with his crew, when his RAF bomber, bullet and flak-riddled, crashed after a bombing mission over Germany in September, 1942. His older brother, John W. Templeton, is now training as an aerial gunner with the AAF Bomber Command; his brother-in-law, Lyle D. Scott, is in the Marine Corps, and his two sisters are working in an aircraft factory.

'Typical WAC'

Swinging the bat is Alice Behenna, 23, chosen "typical WAC" of Camp Grant, Ill. Specifications: five-one, soft brown hair, ready smile. She's a camp clerk, short-center on softball team, camp musical show chorine.

Daisy Snood

A snood set off with felt daisies makes an attractive brightener for the teen-ager's summer ensemble.

Molly Pitcher Tag Day, Aug. 4

The modern Molly Pitcher will greet you throughout the nation on August 4th when brigades of Mollys will tag every buyer of War Bonds and Stamps. They will carry on the tradition of the Revolutionary War heroine who has gone down in history because she aided her fighters at the battle of Monmouth in 1778.

United War Chest Plans State-Wide Unified Appeals

The United War Chest of Texas has completed plans for the first state-wide unified war appeals drive ever conducted in Texas. George A. Butler, Houston attorney heading the organization, announced this week.

Plans to raise approximately \$5,000,000 as the share of Texas in the National War Fund are now being worked out following the perfecting of the state organization in Dallas, July 7. At the Dallas meeting Butler was named

GEO. A. BUTLER

president and campaign chairman of the State War Chest. Governor Coke Stevenson was named honorary chairman. Other officers include Roy Farrar, Houston banker, treasurer, and Wayland D. Towner, formerly of the San Antonio Community Chest, secretary and general manager. Twenty-one vice presidents representing every section of Texas are yet to be named by board of directors.

"Each community and each Texas county will determine its own role in the National War Fund program," Butler announced. "In every instance, the campaign will be carried out by the local leadership," he said. "The program is one of aid to our own boys on all fronts of the war, to our allies in every corner of the globe, and to the home front."

President Roosevelt's War Relief Control Board has approved the following agencies for participation in the National War Fund which plans to raise \$125,000,000 in its national campaign this fall: USO (United Service Organizations), United Seamen's Service, War Prisoners Aid, Belgian War Relief Society, British War Relief Society, French Relief Fund, Greek War Relief Association, Norwegian Relief, Polish War Relief, Queen Wilhelmina Fund,

Russian War Relief, and the United States committee for the Care of European Children.

BRICE

By MRS. D. S. JOHNSON

Mr. and Mrs. Ray Finchum of Dumas visited friends and relatives here this week.

Marland Pittman, who has been in defense work in Alaska the past two years, visited his uncle, M. L. Pittman, this week. He is moving to Colorado where he will be employed.

Lt. and Mrs. L. F. Bennett of Childress spent the week-end here with her parents, Mr. and Mrs. Z. L. Salmon.

Sgt. Virginia Lemons has not forgotten the little Baptist church where she attended Sunday school as a child. In a letter to her mother this week, she enclosed \$5.00 for the church. Sgt. Jim Lemons of Arizona is too far away to come to Sunday school, but he sent \$10.00 a few days ago.

Pvt. and Mrs. Pete Salmon are visiting friends and relatives here this week.

Bobble and Max Johnson have returned after a two weeks visit

in Lockney with their aunt, Mrs. Thomas Perkins.

Cal Holland, Zack Salmon and Laurell Holland made a business trip to Amarillo Sunday.

Miss Billie Salmon and Veda Faye Holland have entered Fleming's business college in Amarillo.

Ads On "Harmless" Talk By United Gas Pipe Line Co.

Cooperating in the nationwide effort to closely guard all information which might be of value to the enemy, United Gas Pipe Line company and associated companies are publishing an advertisement this week in the Democrat and more than 300 other daily and weekly papers in the Gulf South which points out how information, closely passed, can aid the enemy.

Illustrated by a drawing of a jigsaw puzzle being put together by an Axis spy, the advertisement points out that "Freedom of Speech is a sacred heritage, but in wartime every American must be careful how he exercises the privilege. Unless we are cautious, 'harmless remarks' give enemy agents information that may mean death for our fighting men."

The sponsoring organization is engaged in production and transportation of natural gas to meet the fuel requirements of war industries, cities and military centers throughout the Gulf South. Its oil production is going to meet military requirements in this country and at distant battle fronts.

Post-War Project No. 1 or 2 —The Motor Trip of Your Dreams

You know some challenging hills to be mastered with skill. You know some glorious vistas that will refresh your war-weary mind. You're probably impatient even now for your typically American Post-War Project No. 1—or No. 2 at the latest... a trip by car!

But don't hope for a brand new car. Even in ordinary times, the new models are a year or so in development. After Peace, the auto industry will hustle, but you'll be months ahead of it by keeping your present car fit.

Don't let today's limited mileage wear it out needlessly!

You're driving so seldom, so slowly, and heating the engine so briefly, that your little-used wartime car is endangered by engine acids—once minimized by old-time speeds, frequent use, and sustained engine heat. But now you need special precautions, and you get them by having your engine OIL-PLATED with Conoco Nth motor oil.

OIL-PLATING, made possible by the synthetic in popular-priced Conoco Nth oil, seems strongly "magnetized" against all draining down from inner engine surfaces—for hours—days—and longer.

Now on chromium-plating, when metal drops stay a while, you don't fear serious corrosion. And you needn't fear it while acid stays a while in your OIL-PLATED engine. The ordinary combustion process must leave acid when your engine stops. But you can lessen the worst risk by OIL-PLATING with Nth oil at your Mileage Merchants Conoco station, Continental Oil Company

The Hitching Post

Or Deacon's Corner
(By F. W. S.)

Some of our "Ninety-Day Wonders" and Dollar-a-Year men down in Washington seem to be as misty as the skipper's big Colie dog. To follow the old rhyme: "She's an old cow dog that never seen a cow. She couldn't head a calf 'cause she don't know how." The odds, however, are much in favor of the dog since she makes no pretensions, accepts her limitations and therefore gets along with everybody, including the office cat.

Wonder what has become of the Tin Can Tourist, who, back in the old days, proudly spurned the relief set-up and for whom even the WPA had no attraction.

As time goes on we are getting accustomed to Wila the Welder and Ruby the Riveter and Belinda the Boiler-maker, and I guess they are now generally accepted. But we know some soldiers who still think the WACs are Wacky.

Ever stop to consider what are the qualifications and fortitude of a really competent farmer's wife, and how many of our modern wags would stack up 100 per cent? It's a good thing the Farmer's Union didn't go in for wage and hour regulations.

A photograph received recently from my son, an X-ray technician in the Army down at San Antonio, brings to mind a reflection on our modern civilization, and a sad commentary it is. Look, that boy is now filling the place I occupied just twenty-five years ago, before he was born, and any number of ex-service men find themselves today in like circumstances. We fought for world freedom and democracy in a war to end wars. We overthrew a lot of kings and emperors and then came home to try to serve our country and try to pay back in taxes the money it cost to accomplish the peace we thought we had. Now our sons are carrying the torch to overthrow the dictators who stepped in where the kings left off. I almost have come to the conclusion that permanent peace is impossible of accomplishment, and that the price of freedom is one that must be paid in installments, of blood and sacrifice, that never end. Jefferson or someone of his time said, "Eternal Vigilance is the Price of Liberty." But we are never vigilant, it seems, until it is too late. But after all, the hope of having that boy back safe with the rest of a family free to live their lives their own way and according to their own choice is worth this installment, and it always will be for people who have lived and tasted the American way of life.

The following was handed your scrivener by a West Memphis old-timer this week:

The Japs we hold in great contempt.

They tore Old Glory down, sir.

They thought that Pearl Harbor Would win them great renown, sir.

But the Rising Sun that's on their flag,

It now must take it's turn, sir.

For John Doughboy will tear it down,

And with it wipe his feet, sir.

Estelline Sunday afternoon.

Mrs. Wallace has gone to see her husband in the army. She plans to be gone four weeks.

Morris Odum spent Sunday with David Nelson.

Mrs. Amy Turner and son George Parks are visiting her sisters, Mrs. C. T. Read, Mrs. A. M. Sims and Mrs. J. O. Cobb. They have also visited her husband who is employed in Amarillo.

A. J. Berry is visiting his parents, Mr. and Mrs. Fred Berry of Estelline. He is to report to California for further training in the Naval Air Corps.

The son of Mr. and Mrs. John McWhorter received a broken leg when a bicycle he was riding ran into a culvert.

ARTIFICIAL RUBBER NEWS

Phillips Petroleum Company

Announces the Completion and First Operation of its 90,000,000 Lb. Butadiene Manufacturing Plant

for an annual production of rubber equivalent to 11,000,000 tires

MODERN miracle of petroleum research and chemistry has figuratively transformed a few acres in the Panhandle of Texas into one-third of a million acres of rubber plantation.

Rubber will be drilled from the depths of the U. S. instead of tapped from East Indian and Malayan trees.

The wells overlying the greatest raw gas field ever discovered will come the natural gas to be processed into butadiene, the basic and major ingredient in synthetic rubber.

The great plant... designed and built by Phillips... Phillips research... using Phillips own patented process... independent of German research... will make it possible for an equivalent of 30,000,000 rubber trees.

This brought nearer the no-longer distant day of U. S. self-sufficiency in rubber. Thus is Victory made more certain with that great day will come the full peacetime of this outstanding wartime development.

VICTORY... Buy U.S. War Savings Bonds and Stamps

Brief Notes about Phillips as Trail Blazer in the Synthetic Rubber Field

Tires containing rubber produced from Phillips butadiene have been on the nation's highways for more than two years.

In 1941 Phillips produced, for commercial rubber use, more than four times as much butadiene as any other oil company.

Phillips has freely supplied technical data on butadiene, styrene, and other related processes, to the petroleum and other industries participating in the Government rubber program. As a matter of company policy, Phillips advocated the production of butadiene by all dependable processes, from all possible raw materials, including products of the farm.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up at night, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Dr. Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

NEWS about boys in the Service

Sgt. Rufus Jones of Scottsbluff, Neb., visited here last week-end with his mother, Mrs. Bill Jones. He is an engineer gunner in the Army Air Forces.

Wayne Moore, U. S. Marine Corps, visited here Monday and Tuesday with his cousin, Mrs. Horace Tarver and family. Moore was on Guadalcanal for six months and was sent back to the States to recover from malaria fever. He is spending his leave at his home in Cordell, Okla. Miss Jane Tarver accompanied him home for a visit.

Pfc. Grady H. Phillips, who has been across with the U. S. Army for the past seven months, is ill in a New York hospital with diabetes. He is the son of Mrs. Verne Phillips.

Sgt. Roy L. Strigel visited here last week-end with his parents, Mr. and Mrs. W. B. Strigel. He is stationed at Fort Riley, Kans. He has been there since April 22, 1942.

Aviation student, Temple H. Deaver has arrived at Western Reserve University in Cleveland, Ohio, for a course of instruction prior to his appointment as an aviation cadet. Upon completion of the course he will be classified as a navigator, pilot or bombardier. He is the son of Mr. and Mrs. T. H. Deaver.

The following letter is written by Pfc. Jimmie Moore to his parents, Mr. and Mrs. Oscar Moore. Jimmie is back in the States in a Naval hospital in Oakland Calif., recovering from malaria contracted in the South Seas. He is in the U. S. Marine Corps. Dear Mother and Dad:

I've written you twice about money there in the bank, but I just want to make sure you get one of them, wire me one hundred and sixty-five dollars as quick as I get the money and get my clothes laundered, I am putting in for a leave.

I don't know whether or not I will get it just now, on account of malaria, I mean the attack I had the day we got here.

I mentioned I might get transferred to a hospital at Dallas after my furlough, but I found out I couldn't get one there so guess it will be near Oklahoma City, at Norman.

Most of the boys have been get-

ting about thirty or forty days. So I guess I will get about that many. How is the gas and tire situation? I'm glad you have a saddle horse, I guess I'll have to go 'courting on horse back, like the old days, huh?

If I didn't get to go any place, I'd be happy just to see you and dad. You don't know how much I have missed you and dad in the last year and a half. I thought at times I would never get to see you again and often wondered how my picture would look in the paper, with the words, "Killed in Action" and what people would say about it, kinda silly thoughts but when things get hot, a guy thinks a lot.

I used to lay awake in my fox-hole at night and think of things that you and dad told me when I was home, but I'm back now, and I probably won't ever go out again, so I'm going to try to forget those things but some a guy can't. Like one day we got caught in a trap and I saw fourteen of my buddies killed and wounded in about a minute, things happen so fast, you can't even think, but we made those little fellow japs pay double for everyone they got of us.

Well, enough for that, as you probably don't want to hear about it.

Write me and tell me all the dope. Be sweet.

Your loving son,
Pfc. Jimmie R. Moore

Pfc. L. D. Moore, son of Mr. and Mrs. Oscar Moore, who is with the U. S. Army overseas, has recently written and ask that The Democrat be sent to him.

Master Sergeant Earl Woods of Jacksonville, Fla., visited here last week-end with his sister, Mrs. O. V. Alexander and husband.

Staff Sgt. Willie Ben Wilson of Fort Worth Army Air Field came Friday for a visit with his parents, Mr. and Mrs. W. B. Wilson. He is in the Army Air Forces.

Cotton Subsidies For Association Farm Members

The Cotton Improvement Association, a separate and different organization, is in effect in this county. This association provides for producers of Delta cotton to receive subsidies. There are two classes, Class A and Class B, with approximately 160 members, with approximately 160 members.

This territory was approved for raising Delta variety of cotton and the organization has received a charter from the Secretary of State. There is no set community, but members are scattered over the county.

W. B. Hooser, county agent, says that in order to draw the subsidy on cotton seed, it will be necessary that seeds be grown and handled in accordance with the following specifications:

1. Cotton must be isolated in the field a distance of 50 yards or more, and this distance must be planted in row crops.

2. It must be picked and ginned separately.

3. If gin is not on a 100 percent one-variety basis, the gin machinery must be thoroughly cleaned before ginning the approved production.

4. It is important that seed be treated with Cerex.

Each member of the association planting the A seed will receive \$2.25 per hundred pounds and the B seed will receive \$1.10 per hundred pounds.

Some Picnic Units At City Park

Grain Quality Much Improved

Quality of Texas wheat has greatly improved over a five year period, and this year's crop is expected to continue the progress, in the opinion of E. A. Miller, agronomist for A. & M. college.

Mixtures of hard red winter and soft red winter wheats in Texas shipments practically have disappeared, he explains. A survey made by USDA marketing specialists reveals that in 1937, 237 car loads of mixed wheat were reported in Texas. No shipments of mixed wheat were reported at markets in 1942. The previous year there were 15 cars of mixed wheat.

A greater decline in smutty wheat is something for Texas growers to be proud of, Miller says. A total of 894 carloads of smutty wheat were reported for Texas during 1937, and in 1942 the number was down to 32. The "low year" for smut was in 1941 when only six carloads of damaged wheat were reported. This is due to a large extent to increased seed treatment for smut. Continuing this smut treatment will keep smut damage to a minimum.

A new variety, Comanche, which is a cross between Tenmarq and Oro, likely will become popular as soon as enough seed is available because of its good baking qualities, better yield and test weight than Tenmarq. There will be a fair supply of Comanche but not enough to meet the entire demand.

Locals and Personals

Mrs. L. G. Doshier of Oklahoma City is visiting here with her sister, Mrs. A. W. Howard and family. She plans to visit another sister, Mrs. Emma Gene Storr of San Antonio before returning home.

Mr. and Mrs. M. D. Richards of Abilene are visiting their son, Louis Richards and family. Mrs. Richards is an aunt of Bill Kesterson.

Mrs. Earl Summers of Austin came Tuesday to visit her mother, Mrs. Bill Jones.

Mrs. John Ward left Thursday of last week for her home in Swenson after a visit here with her parents, Mr. and Mrs. John Barber. Mr. Ward came after his wife.

Miss Maud Miam, who is attending W T S C, Canyon, visited here last week-end.

Miss Carman Duren of Leveland spent last week-end with her parents and friends of Lakeview. Misses Bobby Barnett and Betty Gene Milam and Mrs. William Lavender accompanied her home Sunday and returned Monday.

Gloria Virginia Howard visited from Wednesday of last week until Saturday in Amarillo with relatives.

Mrs. Roy Guthrie returned Sunday from Charles City, Iowa, where she attended the Dr. Salisbury Poultry school.

Mrs. D. A. Neeley left Tuesday night for Denver, Colo., for a visit with her sister.

D. M. Jarrell of Swearingen underwent a tonsilectomy in a local hospital Monday.

Mr. and Mrs. Bill Fraser and son Billy and Miss June Jarrell of Tampa are visiting here with their parents, Mr. and Mrs. D. M. Jarrell of Swearingen.

Mrs. C. W. Broome left Tuesday night for Denver, Colo., where she will visit with her step-son.

Mrs. Clarence Stroehle and daughter Billie Jean visited here last week-end with Mrs. Stroehle's parents, Dr. and Mrs. J. W. Fitzjarrald. Mrs. Stroehle is attending W T S C, Canyon.

Pharmacists Mate C. W. Davis of the U. S. Navy and Mrs. C. W. Davis of Dallas and Mrs. Mary Owen returned Saturday from Los Angeles, Calif., where they visited with Mrs. Davis' sister and Mrs. Owen's daughter, Mrs. Floyd Baird and husband.

Miss Ann Compton is visiting in Fort Worth with relatives and friends.

Mrs. George Hammond left Sunday for Long Beach, Calif., for a visit with her son, Joe Hammond and family.

Miss Mamie Shafer of Knox City visited here last week-end with Mrs. Foster Watkins and son.

Mr. and Mrs. Tom Harrison were business visitors in Matador Friday.

Mrs. Duke Grant is visiting this week in Amarillo with her daughter, Mrs. Jim Cornelius and family. She plans to visit in Lubbock also.

Sharon Harrison, young daughter of Mr. and Mrs. Carl Harrison underwent a tonsilectomy in a local hospital Tuesday. She is reported to be doing fine.

Mr. and Mrs. David Park and Mr. and Mrs. David Park Jr. and children of Amarillo visited Sunday with Mrs. David Park's brother, C. W. Hawkins and family.

Mrs. Baker Jones of Eli is ill this week.

Mrs. Hap Johnson returned Monday from Waycross, Ga., where she had been with her husband who was stationed there but has been moved. Mrs. Johnson will stay here indefinitely with her parents, Mr. and Mrs. Carl Abernathy.

Mr. and Mrs. C. S. Compton visited last week-end in Lorraine with relatives.

Classifications Of Cotton Free To One Variety

Free cotton classification and market news service for the 1943 crop will be available to organized improvement groups in Texas if applications are filed within fixed time limits. Applications from counties lying east of the one hundredth meridian must be filed by August 1, and for the remainder of Texas counties by August 15. This information comes from the office of L. J. Cappelman, Dallas, regional administrator of the Food Distribution Administration.

J. R. Kennedy, regional chief of FDA's cotton and fiber division says that more applications already have been received for this service than ever before. Last year samples were classified for 117,841 members of more than 1,276 organized improvement groups in the state. Total applications this year are expected to exceed those of 1942.

The classing and market service began under the Smith-Dooley act in 1938. Since then the increasing demand for it from farmers has caused the service to spread progressively throughout the cotton producing states. Reasons for the popularity of the service are attributed to increased production per acre and higher prices per pound for cotton produced. Some cotton improvement areas in Texas have reported increases in return of more than \$7 an acre.

Application forms for the free classing and market news service may be obtained from county agricultural agents or from the regional office of Food Distribution Administration at Dallas.

also is giving consultation services throughout the project. Mrs. Margaret B. Land and Mrs. Isabel Work Cromack are the home economics specialists conducting the program under the supervision of Miss Hazel Bratley, regional nutrition representative of the project.

Objectives of the program include the instruction of the homemakers in improved nutrition for their families and the development and use of methods and materials within the understanding and use of each racial group. At the conclusion of this demonstration recommendations will be made by the personnel working on this project for conducting effective nutrition work among low income groups throughout the nation.

Clothing Affected By Government Conservation Order

Clothing is catching the war-spirit. A new government conservation order means there will be an increase in the output of clothing for women and children from the available supply of cotton, rayon, and wool.

For the duration women can expect to be well dressed in simple clothing, says Mrs. Dora R. Barnes, clothing specialist for the A. & M. college. She explains that control on materials for dresses is planned so that peg-top skirts and evening skirts will be narrowed down. And to help save material, trimming allowances will be figured on the square inches of fabric used in a dress.

Bows, ruffles, revers, jabots and the like are restricted in width and thickness, and cuffs are to be made with only two buttons and button holes. For two-piece suits, double-breasted fronts and bi-swing backs have been abandoned on jackets. Pockets have been limited to two, although more flaps for false pockets are permissible.

THURSDAY, JULY 29

THE privilege of having just such a meeting as the Old Settlers Reunion is one of the reasons we are fighting this war. A time for old friends to meet and visit with each other, to talk about the days past and the days to come—that's the purpose of this year's reunion.

In other years, big events have taken place—some times two and three days affairs. These were what we might refer to "as the good old days," before the horrors of war descended on us and our boys were scattered to every corner of the world protecting our rights.

This year, only one day of carefree entertainment is being planned, all day Thursday, July 29. The afternoon will be devoted entirely to visiting and talking and during the evening various numbers will be given on the program. A variety that should please both young and old.

We are urged not to travel, not to spend our money unnecessarily and not to spend our time in idleness. We can enjoy this day and not do any of these things. Very few miles will need to be traversed to get to the City Park. No extra money need be spent in fixing our lunches—that's the only thing the committees have asked that we bring—and we have to eat at home.

And, the time surely will not be spent in idleness. If there was ever a time in which we need to relax for a day, to enjoy the companionship of real friends, and to think of the beauties of our country and everything it stands for, now is that time.

So, make your plans to attend the Old Settlers Reunion Thursday, July 29 at the City Park. Come early and stay late! Bring your friends and bring your lunch!

Press Paragraphs

SELECTED FROM THE
DEMOCRAT'S EXCHANGE

It is rather amusing at times to hear a group of men discussing what the war is doing to them, individually. The salaried man tells you that it is wrecking him, since his salary has not increased, but the cost of living is up, and there is nothing he can do to offset this increase. Men in some lines of business and some professions find that they are completely wiped out, and they are having to change occupations for a mere living. Many business men will tell you that they have the greatest opportunities in their lives, if they could only get the goods to sell; but that every day they keep their stores open, their stocks are just that much more depleted; and they are burned up with reports, reports, reports. The farmer will tell you that he is having to reduce his operations at a time when the nation needs more food simply because he cannot get help and machinery. And so on, and on. Which leads to one conclusion: Every one of us are hit, and hit hard by the war.—Canyon News.

Clean-up Now

The virus of infantile paralysis may be transmitted by flies, mosquitoes or mice, we are told in a joint statement of the Wichita Falls health unit and the Wichita County Medical Society. Accumulating garbage in cans, barrels, boxes or piles on the ground breeds flies. Uncut weeds and grass on vacant lots, streets, alleys, along ditches and in back yards harbor mosquitoes. Grass and debris of all kinds shelter rats and mice, and gar-

bage fattens them. These facts known to all make it our imperative duty to clean up not only as a move to prevent the spread of infantile paralysis, but other diseases as well. The City of Wichita Falls and every citizen ought to get busy in this matter. —Wichita Daily Times.

The women here in Wellington are getting the canning fever and the temperature of some of them is high. One lady told me that she had put up 114 cans of string beans. It is fine to can all the food you can, but I would hate to have to eat 114 cans of green beans. Personally, I prefer some of my beans dry and cooked with a nice hunk of side meat for seasoning.—Wellington Leader.

I still contend that there's only one way to eat watermelon with the proper enjoyment, still sticking to Emily Post rules of etiquette. Slice off about one-eighth of a melon the long way, hold it up high and slightly in front of you, point your nose to the south, sink your teeth deep into the red meat and start traveling north, sucking and chewing as you go. This way you lose very little of the juice and practically none of the meat. After getting to the north end, take a deep breath and start back south.—Dalhart Texan.

If you think the home front isn't suffering from shortages, you just haven't been very observing. The ice cream situation has long been a serious one, but it reached a climax Sunday when we saw Ernest Husband come out of a local drug store with his little red-headed son munching an empty ice cream cone.—Saint Jo Tribune.

Tight hats worn by women are likely to result in baldness, according to one physician.

Town and Farm In Wartime

(Weekly News Digest prepared by the Rural Press Section, OWI News Bureau)

Marvin Jones Crop Report
War Food Administrator Marvin Jones said recently that, on the average, farmers are meeting this year's production goals for field crops. Earlier reports indicated that livestock and livestock products also will reach production goals. Mr. Jones said: "We will have enough food in this country given at least average weather for the rest of the year —to give civilians adequate and healthful diets, in addition to meeting military and other essential wartime requirements. This does not mean, of course, that there is any better chance than appeared earlier for having all the food that civilians would like to buy, or that civilian supplies for some individual items

will not be far below the demand. "For some important crops—including rice, oats, flaxseed and potatoes, estimated 1943 acreage is well above the year's goals.

Soldiers' Life Insurance
Soldiers—at home or abroad—are reminded that less than three weeks remain in which they can get National Service Life Insurance without a physical examination. Until August 10, 1943, every application will be accepted regardless of the individual's medical condition. After August 10 a rigid physical examination will be required.

Dairy Products
Civilians will get 8 out of every 10 pounds of butter produced in the year which began July 1, the War Food Administration has announced. The armed forces will get 1 1-2 pounds, and the Russian army will get around a half a pound. Civilians will also get

5 1-2 of every 10 pounds of cheese, and 4 1-9 cases of evaporated milk out of every 10.

Soldiers May Send Money By Radio
American soldiers overseas except those in Alaska, Hawaii, Panama Canal Zone and Puerto Rico may now send money home by radio. In a recent week more than 9,000 soldiers sent nearly \$1,000,000 in amounts of \$10 or more, with no maximum limit. Money may be transmitted to an individual payee, or to a bank. The process is speedy and sure.

Frozen Food Locker Prices
New operators of frozen food lockers must charge prices in line with those charged by firms in business in March 1942, OPA has ruled.

No Corn for Liquor
Corn cannot be used for manufacture of distilled spirits and

high wines, a recent directive of the WPB says. The action was taken to conserve stocks of corn for essential purposes, although the amount of corn saved is likely to be small because distillers already had shifted largely to use of wheat.

No Cotton Quotas for 1943

There will be no quotas for the 1943 cotton crop and no quotas will be in effect for the 1944 crop. On July 1, farmers were cultivating about 8 million acres less cotton than the acreage permitted in 1943, and about a million and a half fewer acres than they were cultivating on July 1, 1942.

Farm Land Values

Farm land values on March 1, 1943, were higher than they were in 1942, the Bureau of Agricultural Economics said, in explaining that the index of average per acre values in March 1942 was 91. A low point of 33 was reached in 1933 in the aftermath of inflation started during the last war.

Locals and Personals

Miss Maurine Thompson returned Sunday from a visit in Dallas.

Miss Marjha Draper returned Saturday from a visit in Dallas.

Mrs. Nora Tipton is visiting this week in Amarillo with relatives.

A. Anisman left Sunday for a visit in Colorado Springs, Colo.

Mrs. Clinton Strygley, who is attending W T S C, Canyon, visited here last week-end with her husband.

Frank Bownds of Dalhart came Sunday for a visit here with his mother, Mrs. Ida Hensley.

Roy Gilmore of Turkey visited here Saturday afternoon with relatives en route to his home from a visit with Mr. and Mrs. Roy Garner of Los Angeles, Calif.

Kenneth Oren of Port Arthur came Sunday for a visit here with his parents, Mr. and Mrs. Chas. Oren. Mrs. Oren and children have been here several weeks visiting with her parents, Mr. and Mrs. Joe Weathersbee.

Mrs. H. Gilmore and daughter Pauline and Roy Gilmore of Turkey visited here Sunday with Mrs. Gilmore's son, H. B. Gilmore and family.

Mrs. Chas. Levi left Tuesday for Los Angeles, Calif. She plans to meet her husband, C. A. Levi, first class petty officer of the U. S. Navy at San Francisco.

R. S. Greene left Sunday for a business trip to St. Louis, Mo.

Merry-Go-Ro

By DREW PEARSON

While the Office of Administration is being quarantined in Washington, very real tribute to the can system of government in which local officials—more than 5,000 of them—standing up valiantly to the gathering storm of the 1941, to nation times. The nothing about rationing did. Formal rationing was thing with which Americans had no experience, automobiles, typewriters, and then—along the Atlantic board—gasoline, which is ally inflammable. Never has there been a distributed work load of groups of inexperienced women, assigned the task of rationing their neighbors. A great blow-up has been inevitable because of the able peaks of work, because was not enough money recently to hire good help. The equipment has been to operate against the human nature. In a country accustomed for the answer, they have say No. They stand up in the path of the desire of the can people. It is their duty to render this war service. The members resent the methods, but there is loyalty to the program. Generally, members develop from a tude of casualness toward ness. Their loyalty under rific pounding they get ing. These past months have hard on the morale of men and women, but there is no remarkable increase in nations from boards. Elements fight OPA. Members stand up and whatever may be happen OPA in Washington, falling apart in the field. —Buy Bonds—Buy Bombs—

Mrs. H. W. Stringer, of Yarbrough and Mr. and H. Widener went to May day. Mr. Widener returned the others remained for weeks visit.

An Editor takes his pen in hand...

Power for Victory

In the war news, the big headlines go to the air raids, the commando landings and the taking of large territories and great cities. The loudest acclaim naturally goes to those who take the biggest risks and make the most sensational achievements. Yet full credit should also go to those on the home front whose daily service is essential to victory. This vast group includes not only those who build ships, planes, tanks and other war equipment but every person who works faithfully in an industry that is bolstering the war effort. The electric power industry, for instance, is one without which no other war industry could operate. There must be power for the lathes, punches, riveters and other machines that make our war weapons, power to light our factories for night shifts, power to take workers from their homes to their jobs and back. One of our main defense aims is to protect our power plants; one of the main objects of our bombers is to destroy the enemy's generating plants. General Cable Corporation, which makes wires and cables through which electric power is transmitted, does well to call public attention* to what the power industry is doing to hasten the day of victory. This industry has given the United States more electric generating capacity than all the rest of the world and has delivered this power to the places where it was most needed and could most readily be harnessed to the war effort. In this and other essential industries, every worker should know that victory depends on his doing his part and should have recognition for unusual performance.

*The electric industry, under business management, has met the wartime needs of the nation in full, without increase in cost and without rationing.

County Men in the Armed Forces

val J. Gilreath, son of Mrs. F. H. O'Neal, has graduated from the parent school of the Air Forces command. During the training period in Scott, Pfc. Gilreath received in radio operation and is now qualified as a member of a flight crew. He may be sent to an advanced radio school, or an operating school, where he will receive instruction as part of "team."

Pvt. L. A. Richard Jr. of Bryan came Thursday for a visit here with his parents, Mr. and Mrs. Louis Richards.

Pvt. Sam Prather left Saturday after a visit here with his parents, Mr. and Mrs. Claude Prather. He is stationed with the U. S. army at Camp McCain, Miss.

William H. Lavender, son of Mrs. Mable Lavender, and Cecil I. Grimes, son of Mr. and Mrs. J. S. Grimes, have reported to Western Reserve University in Cleveland, Ohio, for a course of instruction lasting approximately five months prior to their appointment as aviation cadets in the Army Air Forces. During this period they will take numerous academic courses, as well as elementary flying training. Upon completion of this course they will be classified as a navigator, pilot or bombardier, and go to

schools of the Flying Training Command for training in these specialties.

Buy Bonds—Buy Bombs—July 3, 1943

Dear Mr. Wells:

Just a few lines from another Hall County boy to let you know that he has enjoyed the old home town paper and to say thanks a million for sending it to us boys.

I have been intending to write you for quite some time, but just didn't get around to it. It has now been about six weeks since

THE SPIRIT OF THE UNITED NATIONS is symbolized by three Filipino officers shown here in Washington at the Philippine Government offices. All three are now serving with the armed forces of the United States. Like 7,000 other Filipinos in the Army and Navy, they have pledged themselves to restore the freedom of their Philippine homeland and of all other occupied nations. On the left is Midshipman Sergio Molano of the U. S. Naval Academy; Ensign Enrique S. Estevanez of the U. S. Coast Guard is in the center; and on the right is 2nd Lt. Leon J. Hernandez, of the Air Forces, who was graduated from Annapolis this year.

I last received a copy of The Democrat and I really miss it. I ran into W. R. Landis here the other day, and was really glad to see him as you know he is formerly of Memphis, and one of my old school chums.

Well, that is about all the news for this time.

Sincerely yours,
L. E. Jenkins

Buy Bonds—Buy Bombs—The caribou doe is the only antlered female deer in North America.

Locals and Personals

Mrs. A. W. Hicks of Fort Worth visited here Friday night and Saturday with her parents, Mr. and Mrs. E. N. Hudgins and her mother-in-law, Mrs. M. E. Hicks. Mrs. Hicks accompanied her daughter-in-law home for a visit.

T. M. Washam went Monday to Wichita Falls to visit his son, Pfc. Jack Washam, cadet at Sheppard Field. Mr. Washam has another son, Corp. Sidney Washam in North Africa.

B. M. Shields, route 2 Wellington, was here Monday and subscribed for The Democrat.

Mrs. James A. Spruill and two children of Santa Maria, Calif., have been visiting her father, T. M. Washam. They returned home Wednesday accompanied by her father, who will visit in California.

Mrs. Charles Champion of Vernon returned to her home after a visit here with her mother, Mrs. Emma Baskerville. Charles Jr. remained here for a visit with his grandmother.

Miss Louise Williams, home demonstration agent of Wilson County, Floresville, is visiting this week with her parents, Mr. and Mrs. C. A. Williams.

CARD OF THANKS

We wish to express our thanks to our many friends for the deeds of kindness and words of sympathy shown us in the death of our father, May each of you have such friends in your time of need, is our prayer.

WHY DON'T MY HENS LAY?

There's A REASON

We wish to express our sincere thanks and appreciation to our friends for their sympathy and beautiful floral offerings through the brief illness and death of our darling mother.
Mr. and Mrs. A. J. Pace
The Calhoun children and families.
The Hale Brothers and Children.
Buy Bonds—Buy Bombs—Peanuts were known as far back as 950 B. C.

Yes, Mr. Poultryman, there's a reason if your hens don't lay. First: Are they free of worms? If you have not given them a good worm capsule within the past 90 days, they are probably wormy. Wormy hens don't lay.

The hen is a factory. She will lay if she is healthy, and has the necessary ingredients out of which she can make an egg. These ingredients include Protein, Carbohydrates, Calcium, Phosphorus, and the various vitamins, especially Vitamins A, D, and G. All of these vital ingredients are furnished in ample quantities in Mayfield's Laying Mash.

Get your supply today. It's patriotic to produce. Give your hens a chance and they will repay you. We have a complete stock. You'll be welcome at our store.

"Harmless" REMARKS SOLVE THE AXIS AGENT'S PUZZLE...

Don't help the Axis spies complete their jig-saw puzzle. Every piece of information, loosely passed, helps them to solve it.

Freedom of Speech is a sacred heritage, but in wartime every American must be careful how he exercises the privilege. Unless we are cautious, harmless remarks give enemy agents information that may mean death for our fighting men.

In the Middle West, a mother remarks that her boy has just sailed . . . in the East a father says his son is being trained in coast invasion tactics . . . and in the Gulf South a war worker tells his neighbor how many parts he's turned out on his lathe. Harmless? Seemingly. But they're facts the enemy agents pick up—study, sift, check—until often a complete picture appears . . . a picture that gives America's plans to the enemy.

IT WILL HELP FOR ALL OF US TO REMEMBER THIS RULE!

If you HEAR it from someone—don't repeat it.
If you SEE it yourself—don't repeat it.
But if you read it in the newspapers or magazines or hear it on the radio, then it's public property—and it may be discussed publicly without concern.

State Directors Of United War Chest Of Texas Named

Hall County Included In Region 18 Along With Twenty-Six Other Counties

State directors of the United War Chest of Texas from Region 18 have been announced by Geo. A. Butler, president and campaign chairman of the State War Chest.

"An attempt has been made to have every section and virtually every interest thoroughly represented on the board which now includes more than 350 Texas men and women," Mr. Butler announced. "We feel that we have one of the finest boards ever selected in the state."

Members of the board from Region 18 include E. C. Barks of Tulsa, president Grain and Feed Dealers Association of Texas; A. A. Callaghan of Panhandle, Carson county USO campaign chairman; Dolbert C. Dalby of Amarillo, first vice president Amarillo community and war chest; Tom V. Ellzey of Perryton, Ochiltree county USO chairman; C. W. Furr of Amarillo, president Amarillo community chest; Lawrence Hagy of Amarillo, United War Chest of Texas regional chairman; Jack Hanna of Pampa, Gray county USO chairman; J. Howard Harrison of Childress, Childress county USO chairman; J. A. Hazelwood of Amarillo; Wes Izard of Amarillo, president Panhandle Press Association; Rt. Rev. Eugene C. Seaman of Amarillo, bishop of Amarillo; C. R. Sears of Amarillo, vice president State Federation of Labor, District 5; T. A. Singer of Dimmitt, Castro county USO chairman; Deskin Wells of Wellington, Collingsworth county USO chairman; Homer N. Wheeler of Amarillo; Mrs. Hattila White of Amarillo, president Texas Business and Professional Women's club; S. B. Whittenburg of Amarillo, Amarillo Times.

The following counties are in Region 18: Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler.

The Sierra Nevada Range is nearly as extensive as the French Swiss and Italian Alps combined.

One part ester oil and one part ethyl cellulose is the composition of a new plastic used as a rubber substitute in articles which do not need the "Bounce" of natural rubber.

Information Given On Mailing Xmas Packages Overseas

Christmas Packages May Be Mailed Without Request September 15 to October 15

Theodore H. Hoffman, director, home service of the American Red Cross says that overseas packages may be mailed without request from September 15 to October 15.

Quoted below is an official War Department press release of June 24:

"Christmas packages may be mailed to American soldiers serving overseas with out presentation of a request from the soldier, using the period from September 15 to October 15, which has been designated as Christmas mail month for soldiers overseas, the War Department announced today.

These Christmas gift packages will be accepted for mailing only within the present limitations of weight and size—five pounds in weight, fifteen inches in length, and thirty-six inches in length and girth combined.

"Christmas packages mailed during this period should bear the endorsement 'Christmas Gift Parcel.' Only one such package will be accepted for mailing by or on behalf of the same person or concern to or for the same addressee during any one week.

"Under the relaxation of the overseas mail restrictions during this period, it will not be necessary for the mailer to present either a request or any envelope bearing an APO cancellation at the time of mailing. Perishable articles will not be accepted for mailing, and every effort will be made to discourage the mailing of fragile articles.

"The Army Postal service of the Army Service Forces reports that only through the wholehearted cooperation of the mailing public in complying with the above mailing rules and dates will it be possible to deliver on time the tremendous volume of Christmas mail to American soldiers overseas which is expected this year."

Packages must be wrapped securely. Experience has been that many packages reach the Port of Embarkation in such a condition that they are unfit to be sent on to the soldier. This information should be heeded by all persons who plan to send packages overseas.

Interest Good in Assembly of God Revival Meeting

Wednesday night was family night at the Assembly of God revival meeting and prizes were given to the largest family present and to the person who brought the most people to the service.

The subject, "Divine Healing," will be discussed Friday night by the evangelist, Mrs. J. M. Cockrell.

"When we started our revival, we had planned to run it two weeks, but interest is very high so we may continue it another week. The decision on this matter will be announced," stated the pastor, John C. Cox.

Seabee Interviews At Navy Recruiting Station, Amarillo

M. C. Lockey, Lt. CEC and Ben Blackwell, Lt. MC, will be at the Navy recruiting sub-station at the post office building, Amarillo, July 24 and 25 to interview and certify men from 18 to 50 years of age for the Navy Construction Battalion.

This is an opportunity for men with trades to enter the Navy at petty officer ratings. Applicants between 18 and 38 years of age must be in 1-A or 3-A Selective Service classification. All applicants should have two letters of recommendation as to their ability in their trades.

Pvt. and Mrs. Herman A. Valance of Rantoul, Ill., are the parents of a girl born July 17. She was named Emma Jean. He is stationed at Chanute Field.

Mr. and Mrs. Larry Thompson of Pampa are the parents of a girl, Junia Suzanne. She was born July 14.

A girl was born July 15 to Mr. and Mrs. S. G. Fuston of Turkey. Judith Ann weighed 6 pounds and 13 ounces and is the granddaughter of Mrs. Ruby Hardwick.

A boy was born July 20 to Mr. and Mrs. Holland McMurray.

Charles Donald was born July 17 to Mr. and Mrs. C. W. McGee. Mrs. McGee is making her home in Brice and he is in the Navy.

Pvt. and Mrs. Rufus Melton Saunders are the parents of a girl born July 16. She was named Judy Diane. Private Saunders is stationed at Amarillo Air Field.

Mr. and Mrs. Granville Wood of Hedley are the parents of a boy born July 21.

Needle Craft Club Entertains With Chicken Barbecue

The Needle Craft club met at 8:30 o'clock Tuesday evening in the home of Mrs. T. D. Weatherby and entertained members and their husbands with a chicken barbecue.

Those present were Mr. and Mrs. T. J. Hampton, Mr. and Mrs. Lloyd Phillips, Mr. and Mrs. C. R. Sargent, Mr. and Mrs. R. C. Cummings, Mr. and Mrs. J. M. Ferrel, Mr. and Mrs. B. B. McMillan, Mrs. Bess Crump, Mr. and Mrs. Glen Carlos and Mr. and Mrs. T. D. Weatherby.

The next meeting will be at 8 o'clock Tuesday afternoon, August 3 in the home of Mrs. C. R. Sargent.

PARKS MITCHAMS CELEBRATE 54TH ANNIVERSARY

Mr. and Mrs. Parks Mitcham held a family reunion at the City Park Tuesday. They have been married for 54 years and have lived in Hall County 37 years.

Apicnic lunch was served to Mr. and Mrs. Mitcham and Robert, Mr. and Mrs. C. L. Easley and family of Beaumont, Mr. and Mrs. Harry Blair and family of Clarendon, Mrs. G. M. Terry and son Cecil of Wapato, Wash., and Mrs. H. A. Vawter of Los Angeles, Calif.

Other relatives present were Mr. and Mrs. Bill Greene of Clarendon, Mr. and Mrs. J. E. Roper and Mrs. S. O. Greene.

It is estimated that the United States can obtain new supplies of synthetic and natural rubber amounting to 308,000 tons in 1943.

The mythical fliers Daedalus and Icarus were supposed to have lived on the island of Crete.

Memphians' Nephew Dies In Arkansas

Mr. and Mrs. D. B. Kennedy and Mrs. W. F. Ritchie were called last week to Mount Holly, Arkansas to attend the funeral of Lyle D. Hughes who passed away at his home there on July 11. He was a nephew of Mrs. Kennedy and Mrs. Ritchie.

Hughes was in construction work at Pearl Harbor in Honolulu at the time of the Japanese attack on that base December 7, 1941, and took a part in the rescue work which resulted from the attack. When the Japanese planes first appeared and began dropping bombs, Hughes, knowing something unusual was taking place but not realizing it to be an attack on the harbor, took a number of pictures from the roof of his hotel. These films were turned over to the government later for development.

Hughes served nineteen months in Honolulu and was stricken with a fatal disease soon after his return home in March of this year. He was the son of Mr. and Mrs. J. M. Hughes of Mount Holly, and was buried in the family cemetery at that place. His father and mother, one sister and one brother, survive him. He was also a nephew of J. J. Hughes of Lubbock.

Warm Clothing For Russians

Warm clothing is needed in Russia, says Mrs. J. W. Walker of Plainview, Texas, director of Scholastic War and a member of the War Savings staff.

The 1913 Study Club of Memphis is sponsoring this drive here and are asking the people to contribute any warm clean clothing that they do not need.

There will be a box at Greene Dry Goods Co. for the clothing, or it may be taken to the home of Mrs. R. S. Greene. Mrs. Walker has almost a carload of clothing ready for shipment and would like for the people to bring it in as soon as possible.

County School Board Will Meet Saturday

The Hall County school board will meet Saturday, July 24, at 10 o'clock in the County Superintendent's office for the purpose of setting up bus routes for the coming school year.

Few changes will be made because of Office of Defense Transportation regulations, stated Miss Mary Foreman, county superintendent.
