The Terry County Herald

VOL. 14. BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY FEBRUARY 28, 1919 NO. 33

TO ISSUE $15.000.00 BONDS.

The County Board of Trustees consisting of John S. Powell, Fred C. Smith, J. F. Winston, Joe J. McGowan and Tom Glover, met last week, and consolidated the Groves, Graves and Newberry school districts, and these people will in the near future issue bond for at least $15,000.00 for the erection of a modern brick school building and a teachers home.

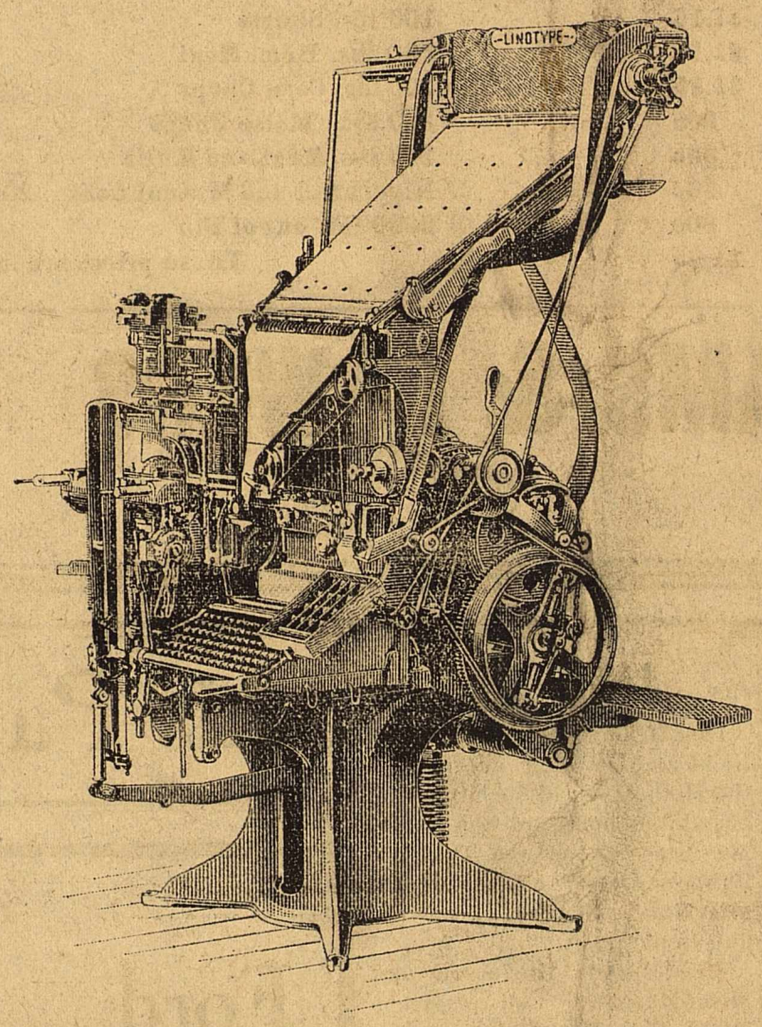

We understand, that the biggest tax payer in the district urges the issuance of $30,000.00 bonds, and proposes to give two acres of land for the school building and thirty acres for agricultural purposes.

We are not at liberty to give his name, but this is the kind of wealthy citizens that builds up a community.

RESULT OF GUESSING CONTEST

Strange as it may seem, there were seem, there were exactly six people who exactly guessed the number of seed in the two kershaws, in the Barrier Brothers Guessing Contest, that closed last Saturday afternoon. They were, Mrs. J. M. Shields, A. B. Cook, Milton Goode, J. M. Bingham, A. M. McBurnett and Mrs. A. W. Endersen.

The prize was a real nice cabinet phonograph, and being that several guessed the number of seed the machine was put up and sold to the highest bidder, bringing $60 00, Dr. T. L. Treadaway being the purchaser. The money was equally divided between those named.

This contest proved very popular, and all seemed to be pleased with the way it was conducted.

MUCH GRAIN BEING SHIPPED OUT

We cannot get statistics from the railroad company any more, being a violation of some of their rules of etiquitte, but from our own observation, and from what we can gather from grain men, there has been about 60 cars of feed shipped from this station alone, divided as follows: Maize about 15 cars, corn about same, and about 25 or 30 cars of baled maize and sorghum; and it's still moving.

This is not all. Nearly every available warehouse in town is welled stocked with recleaned corn, maize, feterita and cane, which the owners will soon begin selling the drouth belt farmers at long prices.

Great is old Terry.

THE 1918 COTTON CROP

As stated last week, Friday and Saturday were the two last gin days, and the total was 659 bales including bolies. This is about 159 bales above the conservative estimate at the beginning of the season.

The six champion cotton raisers of the county were: Flemming & McCoy. 26 bales; J. L. Hyman, 21; J. P. Nichols and T. H. Green, 17 each; E. Hunter and W. D. Winn, 14 each; the whole Green family got 41 bales, and several bolies.

Aside from this, there was about 300 tons of cotton seed, and together they added near $100,000.00 to the wealth of old Terry.

Mrs. Mathis will have new Spring hats next week. Watch for announcement in Herald.

Sidney Stinson, having received his discharge from Camp Travis, is here visiting his parents, Mr. and Mrs. B. W. Stinson. He makes his home with his sister in Dallas.

Johnson Home and others ending in an appeal to the Aid Society of this church to do better work.

The following officers were elected: Mrs. W. A. Bell, pres., Mrs. Young, vice pres., Mrs. Boyce Cardwell,Sec., Mrs. Newlin, Treas., Mrs. Flippin, Mrs. Randal,Supt., Mission Society., Mrs. Hicks, Cor., Sec., Mrs. Downing Agent for Voice.

We notice from the Slaton Slatonite,that Rev. F. A. Whiteley,who held such an able meeting for the Baptist congregation at this place last summer, has resigned the pasturage of the Baptist church at Slaton, and is going to pastor a church near his old home in Arkansas.

Seminole and Gaines county will vote in a few weeks on the issuance of bonds for $75,000.00 for the erection of a modern fire proof courthouse. How does this sound to east Texans, when they consider that Gaines county has less than 2500 people? Is the west progressive? Well, we guess.

A. O. Lilly,of Crosbyton, Tex., and wife,have decided to cast their lot in Brownfield, and he has purchased half interest with Fred Scudday in the City Barber Shop. Mrs. Lilly is a sister to Harry Allen.

These boys took civil service examinations down there early in the fall,and made such excellent grades that Postmaster Spear decided he needed them. We hope the boys much success,and rapid promotion in their new position.

Will Dowing came in and renewed for himself and father. Will can always be depended on to happen in at renewal time.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs.. in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Thedford's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-131

ESTABLISHES PUBLIC INFORMATION BUREAU

STATE TUBERCULOSIS SANATORIUM HAS CORRESPONDENCE COURSE OF INSTRUCTION.

SERVICE OPEN TO ALL ALIKE

Estimates Economic Loss to State at Ninety Million Dollars Per Year From This One Cause.

For the benefit of those who have tuberculosis, and for agencies interested in the stamping out of the disease the State Tuberculosis Sanatorium, located at Carlsbad, Tom Green County, Texas, maintains a Bureau of Correspondence and Information for the dissemination of knowledge on the prevention and treatment of tuberculosis. The matter is primarily one of education and, recognizing this, the Thirty-Fifth Legislature made an appropriation of $20,000.00 to be used by the Sanatorium, "For lecturing in colleges, schools and public gatherings, publishing pamphlets, books, and literature to be circulated, including general work to educate the public, and prevent as much as possible the spread of tuberculosis."

Service to the Tuberculous.

The Bureau obtains names of the tuberculous from physicians, anti-tuberculosis societies, ex-patients of the Sanatorium and others. To the tuberculous, and others interested, are mailed pamphlets bearing on the treatment and prevention of tuberculosis. A special effort has been made to get in contact with Texas soldiers discharged from army camps on account of tuberculosis.

Service to the Physician.

Once each month a carefully selected article on methods and treatment is mailed out to all the physicians of the State and it is believed this service is appreciated. Tuberculosis is one of the most curable of diseases, provided treatment is begun in time. If this was not true half of the population or more would die from it.

Importance of Instructing Children.

It has been said that if all children could be protected from infection tuberculosis would be stamped out in a decade. This somewhat exaggerates the truth, but it is now believed by competent authorities that tuberculosis is rarely, if ever, contracted in adult life. The infection takes place in childhood and later, usually in young manhood at a time when the system is weakened either through disease, excesses, mental or physical strain, the breakdown comes.

Fortunately, it is not a difficult matter to protect the young. To do so requires only that those who have active cases of tuberculosis be required to avoid infecting others. Practically the only way of spreading infection is through the sputum, therefore if the sputum of consumptives was carefully collected and destroyed, one of the main sources would have been controlled. Those consumptives who fail to protect the public in this way should be placed in special institutions just as are lunatics or criminals. Other common ways of infecting others are; through kissing, and coughing and sneezing without covering the face. Where children are exposed to infection in the home the consumptive should be isolated from them as much as possible. Separate utensils should be provided—or at any rate all dishes used by the consumptive should be boiled after use.

No Danger to Others.

A careful consumptive is not a danger to anyone and if this fact could be borne in mind much mental anguish, much persecution of those who can least stand it, would be avoided. This unreasoning fear of the consumptive is known as phthisiphobia.

Service of the Bureau Open to All Alike.

If, as has been estimated, the economic loss to the State from tuberculosis is Ninety Million Dollars per year, this alone should prove a cogent reason for active steps being taken to control the disease. It was for the purpose of arousing the people of the State to action, so that more active combatting of the disease might be entered into, that the Bureau was established. There was no thought of supplanting or hindering well established abencies and the Bureau's service is open to all; to physicians, anti-tuberculosis societies and others, and particularly to the tuberculous. The main function of the Bureau will be to encourage the establishing of county sanatoria and preventoria, to furnish sputum cups and supplies to the tuberculous at cost, and to give information on the subject of tuberculosis, its prevention and treatment, to anyone who will receive it. To obtain such service address R. E. Luhn, Jr., Director, Bureau of Correspondence and Information, State Sanatorium, Carlsbad Texas.

SEC. 50. The Legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the State in aid of or to any person, association, or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation, whatsoever, except that the Legislature shall have the power to give or to lend, or to authorize the giving or lending, of the credit of the State for the purpose of assisting native born or naturalized citizens who are heads of families and who will become in good faith actual occupants, to acquire or improve their homes; and for this purpose the State is authorized to acquire, improve, sell or lease real estate or assist such citizens to acquire or improve their homes upon such terms and conditions and in such manner and subject to such limitations as the Legislature may from time to time prescribe. The terms of this Act shall not apply, or be extended to any person who is not a bona fide resident citizen of the State of Texas and who has not been such citizen at least two years prior to the extension of such aid, nor shall the terms of this Act ever be applied to any lands outside of the State of Texas. SEC. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

SEC. 4. That the sum of $5000.00, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election.

All Smoking Tobaccos are Flavored

"Your Nose Knows"

The Encyclopaedia Britannica says about the manufacture of smoking tobacco, " . . . on the Continent and in America certain 'sauces' are employed . . . the use of the 'sauces' is to improve the flavour and burning qualities of the leaves."

Your smoke-enjoyment depends as much upon the Quality and kind of flavoring used as upon the Quality and aging of the tobacco.

Tuxedo tobacco uses the purest, most wholesome and delicious of all flavorings—*chocolate!* That flavoring, added to the finest of carefully aged and blended burley tobacco, produces Tuxedo—the perfect tobacco—

"Your Nose Knows."

Try This Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep—its delicious, *pure fragrance* will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment—*"Your Nose Knows."*

OUR CELEBRATION

La Bourboule,
Avergne Leave Area,France
January 4, 1919.

Dear Little Wife:-

Back safe from the front, I write you from La Bourboule, a beautiful French village high up in the mountains of south central France,where I am spending a few days leave. Doubtless you have followed the newspaper reports of the great closing drive of the world war. However you will be interested to hear something of my experiences and impressions during the last campaign.

On Sept. the 12th, just before dawn,we went into the fight at St. Mihiel in the drive toward Metz. After a few days there,in which we wiped out that salient, we started on a five nights forced march to take up positions in the Argonne Forest, "the graveyard of a million dead" around Verdun. Can you imagine the movement of six hundred thousand men,silently through the night on all roads from all directions, without lights of any description—not even a cigarette glowing—by day sleeping concealed in the woods or ruined villages, and finally going into battle,moving ever forward with irresistable force, no let up day or night,and to be a part of this machine of liberty. We were there in the thick of it and heard the last guns of the world war echo into silence near the historic battlefield of Sedan.

It was a furtive life. Stripped to primitive necessities, we became night prowling animals, by day crawling into holes, caves, dugouts,ditches,trenches,or concealing ourselves among the trees or dense under brush of the forest. So we lived for sixty one days under shell fire, pressing forward always and carrying on our wark.

Late on November the tenth my regiment was near Sedan. Word had come that in the morning we would take up the march to the rear,as our Corps had been relieved. Rumors of the pending armistice had filtered through, but all was speculation. So on the morning of November 11th we shouldered our packs and started on the long hike out. The guns were booming as usual. It did not sound like peace. Up in the day we began to get word from passing couriers that the armistice was signed. We laughed at them, for the guns still roared away. But at 11 a. m. came the silence and we heard no more guns. We halted for our noon meal and then resumed the march.

From time to time during the afternoon we got news from passing trucks and Laiasen men but still nothing official. Finally we halted for supper and prepared to camp for the night. We were dog tired. A drizzling rain was falling. In the gathering dusk we lined up for chow It was then that the Colonel came along and said "Boys,you may build fires and have all the light you want—it is finished." We were almost too tired to cheer. A celebration was in order. You can't celebrate much in rain and mud, nor spread very much joy with corned beef, hardstack and coffee.

But we did celebrate—we built fires. Can you realize what it meant to us? For sixty one days to live in the dark;never to light even a match or cigarette in the open after dark;to sleep in dark holes in the ground;to close every crack and cranny that might admit a little light, before we dared light a candle; to carefully guard our fires under cover,so that no spark escaped; to hear always at night the hum of aeroplanes overhead and to listen in the dark and identify the peculiar intermittent whirr of the hun raider and know that death was in the air and wonder where the next bomb would hit; to dread the moonlight and hope for clouds and drizzle;to go to sleep and wake up and live with the never ceasing roar of the guns;to pass through horrors daily till we become indifferent to the sight of them;to hear the zip of machine gun bullets, or flatten out against the earth as shell fragments cut weeds and brush all around. And then to hear the words "boys, build your fires—it is ended." So we gathered scraps of plank and broken timbers,splinters of torn trees and fences,and each group built a fire. Then we sat around those fires and talked, and talked,and talked,with just the safe stars overhead. And I can tell you that the silence that night shouted to us louder than all the bells and whistles and noise-makers of christendom. We just built fires,that was our celebration.

So we will come home as new beings,as those who have been born again, for life will start anew with each of us. We will see all things with new eyes and recognize their true worth. All the simple homely objects of daily life will henceforth be precious;they will carry an enhanced value for us—we have done without and learned their worth. To just wash ones face in a clean bowl,to dry on a clean towel,to sleep in a clean bed, no matter how poor—what pleasure! To sit down once more amid decent surroundings—what joy! Then to realize that the world has been purged by fire, to feel that civilization has at last fought its fight and stands triumphant with its ideals of the brotherhood of men once and forever placed before the eyes of all people—it makes life sweet and worth living.

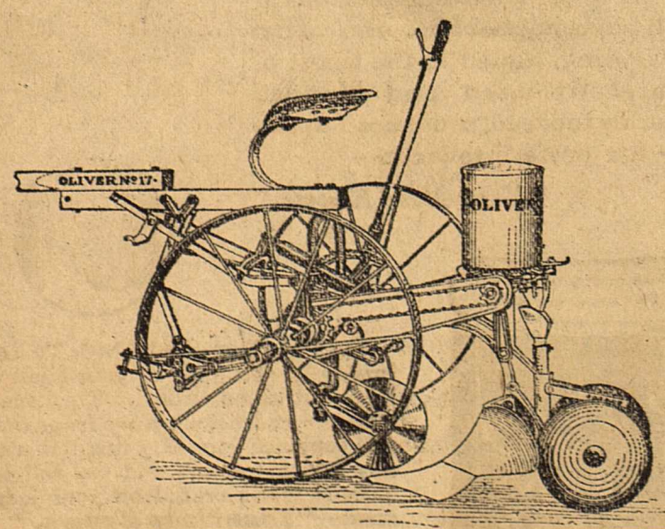

So,my people, we're coming home,citizens of the world and sons of the United States, proud to stand with our faces toward the light and to work for the further realization of the ideals for which we have fought, just you all.
