SHIP IS NAMED FOR LAMESA HERO—A Texas infantryman, posthumously awarded the Congressional Medal of Honor for heroism in Italy, has been honored in the renaming of an Army transport as the Sgt. George D. Keathley. Mrs. Geneva Keathley of Lamesa, the widow of the heroic soldier, presented a photograph of him and a copy of the Medal of Honor citation to Capt. Robert Morgan, skipper of the ship. Left to right: Capt. Morgan; Mrs. W. F. Keathley, the sergeant's mother; Mrs. Geneva Keathley, and Major General J. A. Lester, port of San Francisco commander.

Official Fears "Gouging" By Some Owners

Average Landlord Reported Getting Fair Return Here

By EDWARD WELSH
Journal Staff Writer

"If rent controls are abolished in the Lubbock area we can expect some rents to be increased as much as 100 to 200 per cent," Roy B. Carnes, director of the Lubbock office of the housing expediter said today.

Carnes made this statement in answer to a question as to what the effects would be on rental properties in this area if the present bill approved by the House of Representatives should be approved by the Senate in its present form.

Plans Are Unknown

"Of course we don't know yet just what the congressmen propose to set up in the nature of the suggested 'home rule' plan," Carnes admitted. "There is no telling at this time whether areas would be controlled through a state, county, city or regional administration. Then too, there is the possibility that there will be no control whatsoever."

In clarifying his statement on some anticipated exorbitant increases, Carnes explained that he felt sure that a majority of the landlords would stay in line. Any increases they might make would be small and would be enough to allow a fair return on their property. In these cases they would be entirely justified, he said.

Some Profits Are Excessive

On the other hand, Carnes pointed out, there are some property owners who are already getting excessive returns and profits from their rentals. A number of these persons have expressed their intentions of getting still more, if and when the controls are lifted.

"It is the gougers that hurt the rest of the property owners," Carnes stated. "The few that practice these tactics have given a black eye to landlords as a whole and have aroused the public against them."

In general Carnes felt that the average landlord in the Lubbock area was getting a nice return on his investment. Those who feel they are not getting a proper and fair rent return have only to make application to the office of the housing expediter here and it their argument has merit they can expect a fair readjustment.

Increases Here Granted

Carnes said that 34 such petitions had been filed since January 1, 1949. Of this number more than 80 per cent of the requested increases were granted. The rent boosts averaged $4 per month per unit.

"It's rather remarkable," Carnes continued, "that so few applications have been filed. We hear complaints all the time. In fact at a recent public meeting a number of landlords stated that they were

MORE THAN 2,000 WILL ATTEND

Teachers Meeting Will Open Tonight

Officially opening the 14th annual convention of the West Texas Teachers association, the house of delegates will meet tonight at 7 o'clock in Lubbock Senior High school auditorium.

Dr. Doyle D. Jackson, president of WTTA, will be in charge of the session.

The nominating committee headed by Frank Monroe, superintendent of Midland schools, will hold a pre-convention session at 4 p. m. today on the Hilton hotel mezzanine, to decide on recommendations for new officers. The committee will report and a new slate of officers will be named at the house of delegates meeting tonight.

Top Educators To Speak

The first general session will be held in the high school auditorium at 10 a. m. Friday, and will feature laymen as speakers, highlighted by an address by Delbert Downing, secretary of the Midland Chamber of Commerce.

Between 2,000 and 2,500 teachers from District IV of the Texas State Teachers association who hold membership in the WTTA are expected to attend the gatherings.

Featured speakers will include Dr. Henry H. Hill, president of George Peabody college, Nashville, Tenn.; Dr. D. M. Wiggins, president of Texas Technological college; William B. Deaderick, Odessa attorney; Joe C. Humphrey, Abilene, president of the TSTA; Murry H. Fly, president of Odessa Junior college; G. C. Dowell, member of the board of education of Lubbock public schools; and I. T. Graves of Floydada, membership chairman of the WTTA.

At the first session, at which laymen will speak, Downing will talk on "Education as a Joint Enterprise," which also is the general theme of the convention. Dowell's address will be "A Veteran's Viewpoint of Modern Education," and Deaderick will speak on "The Necessity of Adequate School Plants and How to Acquire Them."

The second general session will

Frat And Sorority Ban Is Proposed

AUSTIN, March 17. (U.P.)—Fraternities, sororities and secret societies would be banned in all public schools of Texas under a bill introduced today by Rep. O. E. Latimer of San Antonio.

The measure would prohibit such societies from the elementary grades on through high school, but exempts all universities.

A similar proposal was passed by the 50th legislature but was vetoed by Gov. Beauford Jester.

Penalty for violation of the act would range from $25 to $200.

Latimer's bill pointed out "that high school fraternities, sororities and secret societies are seriously interfering with the proper instruction of pupils of tender age, and are tending to create class consciousness and discrimination inimical to democratic government."

Beer Is Taken By Hijackers

Two men in a new automobile rolled up behind a car occupied by two college students early today between Monroe and Abernathy, represented themselves to be officers, and hijacked the students of two cases of beer.

That report, made to the police by W. L. Sharpe of 2822 Twenty-second, was transferred to attention of the sheriff's department at midmorning.

Officers Have Lead

Sheriff's deputies said they planned to investigate the case this afternoon in another county. They hope to be able to confront two suspects with their accusers, it was announced. They said they had a lead of sorts to work on.

Sharpe was related to have told this story, in substance. He and his companion stopped when another car drove up alongside and

End Of World Rumor Creates Minor Panic

FRANKFURT, Germany, March 17. (AP)—A minor panic gripped backward rural areas of western Germany today over rumors of the "end of the world."

The rumors that today is the last day for mankind have been growing throughout Germany for several weeks. They have been based upon a publicized prediction of an astrologer whom nobody can identify.

The Weather

WEST TEXAS—Partly cloudy, colder this afternoon, colder tonight except in Panhandle and South Plains. Freezing rain or snow in Panhandle, ending this afternoon. Friday partly cloudy, warmer in Panhandle and South Plains in the afternoon.

EAST TEXAS—Mostly cloudy this afternoon, occasional rain in north and central portions, colder in north and west portions. Cloudy tonight, showers in east and south portion, colder in north and central portions. Friday partly cloudy, showers near the upper coast, warmer in northwest and extreme north portions in the afternoon. Fresh to occasionally strong southerly winds on the coast, shifting to northerly on the upper and midle coast late tonight and Friday.

Couple Arrested At Pampa In Kidnaping

PAMPA, March 17. (AP)—Two men were arrested at a Pampa tourist court today after Ralph Early, 27, told Armstrong county sheriff John W. Moore that two men had kidnaped his wife.

Pampa police, who made the arrest, said Mrs. Lora Early, 27, was found in the tourist court when the arrest was made. They quoted her as saying the pair threatened her life if she made an outcry.

Early, a magazine salesman of El Monte, Calif., said he and his wife were hitchhiking and that two men in a cattle truck gave them a ride near Memphis, Tex.

Near Claude, he said, he was forced out of the truck.

The arrests were made at 4 a. m., after Pampa police had received a pickup order on the men from Claude.

British Meat Ration Is Reduced Further

LONDON, March 17. (U.P.)—The government announced today it is reducing further Britain's already-meager meat ration because meat shipments from Argentina have been delayed.

Effective March 27, Britons will get only 10 pence—about 17 U. S. cents—worth of meat a week instead of the shilling's worth—about 20 cents' worth—comprising the present ration.

Cold Air Mass Sweeps Plains

Passage of a cold front caused snow and freezing drizzle in the Texas Panhandle this morning and brought a swift drop in temperature on the South Plains.

Temperature dropped from 56 degrees at 12:30 a. m. to 39 degrees at 1:30 a. m. at the U. S. Weather bureau station north of Lubbock. The minimum this morning was 32 degrees.

The 56 degrees recorded at 12:30 o'clock probably will be the maximum for the day. The high this afternoon is expected to be about 40 degrees, the weather station reported. Minimum temperature tonight likely will be from 28 to 30 degrees, according to the forecast.

Light Snow Falls

Light snow fell from Amarillo to the northeast and the northwest. Low clouds and fog and some freezing drizzle were reported.

With the exception of southwest Texas and the gulf coast region, skies were generally overcast over the state today. Drizzling rain fell at Waco, Dallas, Fort Worth and Wichita Falls.

Amarillo reported temperature of 26 degrees; Clarendon, 30; Childress, 33; El Paso, 50; San Antonio, 62; Brownsville, 69; Houston, 57; Austin, 62; Texarkana, 59; Lufkin, 58; Beaumont, 61; Dallas, 60; Fort Worth, 63 and Big Spring, 51.

The temperature soared to 90 degrees yesterday at Presidio in the Big Bend country.

Pacific Defense Line Altered

West Coast Is Prime Target If War Starts

Forces Are Scanty; Role In Cold War Proving Secondary

(By The Associated Press)

PEARL HARBOR, March 17.—Only four years after winning mastery of the Pacific from Japan, the United States is backtracking its main defense line on this great ocean to its own West coast.

The one weapon not being cut down in the Pacific is the submarine.

Pacific commanders here decline discussion, but obviously the line they would like to man and hold is as far from the U. S. mainland and as close to Asia as possible.

Forces Too Scanty

Under present and contemplated budgets, however, forces left for the Pacific are too scanty for maintenance of a distant line. Supply and shipping costs would be tremendous to maintain in Japan, Okinawa and the Marianas the kind of perimeter defense which Pacific commanders would like.

With priorities concentrated on Europe, the Mediterranean and elsewhere, the Pacific's role in the cold war strategy seems even more secondary than in World War II.

American military observers here—where the memory of Dec. 7, 1941, is still green—agree the West Coast's industrial and plane-producing belt would be the prize target for an enemy surprise attack by long-range bombers or submarine-launched guided missiles.

Cutbacks Are Made

With expense as a controlling factor in Pacific deployment, they feel the best defense that can be afforded against such attack is to concentrate major defending ele-

Safe Is Discovered Near Buffalo Lakes

The sheriff's office was informed this afternoon of the discovery of a battered safe that had been abandoned "below Buffalo lakes."

Neither the sheriff's office nor police—each of which had sent investigators in search of the safe just before 2 p. m.—knew where the property belonged.

Several safes recently removed from business houses over this area have never been reported found, however.

Truck Strewn 700 Feet; Driver Unhurt

FORT WORTH, March 17 (AP)—Truck parts and engine fragments were strewn for 700 feet along the tracks when a Fort Worth & Denver City freight train plowed into a six-wheel gasoline trailer truck here today.

The driver, Grady J. Burroughs, 20, of Fort Worth, stepped from the wreckage, unhurt.

Bread And Potatoes Main Diet; 30 Loaves A Week Required

13-Year-Old Father Is Growing Desperate For Job; 11 People Squeezed Into Shack

(By The Associated Press)

PAW PAW, Mich., March 17—In a two-room tarpaper shack behind the city dump, an increasingly desperate 13-year-old father waited today for something—anything—to happen.

Crowded into the tiny house are Carl Harvey Blake, jr., his wife Winifred, 16, their three-week-old son and eight in-laws.

Carl is jobless. There is no prospect of work despite all his efforts.

Icy March winds seep through the cardboard-lined walls. The main diet for all the family is bread and potatoes.

"We eat 30 loaves a week," said Leo Singleton, 43, the father-in-law. His $20 weekly earnings from a junkyard job buy little more.

Winifred recently tore the baby's four ragged diapers in half to make them go farther. She has sacrificed her own food to buy him canned milk.

But in spite of everything, she and Carl want above all else to remain together.

Officials were silent on the question of whether Carl would be sent back to school.

Carl quit the sixth grade last year, prior to his marriage, and doesn't want to return.

But even though his plight had gained nationwide publicity, his chances of getting a

SOUTHERNERS, GOP IN SADDLE

HST Plans Bogged Down By Coalition

(By The Associated Press)

WASHINGTON, March 17 — Congressional leaders today conceded privately that the Truman program for the 81st Congress is in deep trouble.

It is clearly apparent, they told newsmen, that from now on a coalition of Republicans and southern Democrats will call the turn on legislation despite the fact that Democrats have nominal control in both the Senate and the House.

The coalition rolled in high gear this week when (1) the House riddled the President's rent control bill with amendments, (2) the administration took a beating in the Senate on its filibuster fight and (3) a Senate committee shelved the President's nomination on Mon Wallgren to head the National Security Resources board.

More Defeats Seen

House Republican Leader Martin of Massachusetts predicted that other major proposals of the President would fare just as badly.

"If they wait for Truman's program to be enacted, we'll be here when the snow flies in December, 1950," Martin told reporters.

The 81st Congress expires then and a new one will replace it in January, 1951.

Martin would not admit that there is such a thing as formal coalition in the House, but one of his lieutenants summed up the situation this way:

"It just happens that many of the Democrats in Congress see things eye to eye with the Republicans. This is particularly true of

Break Is Made In Burglaries

Two more burglaries—in Meadow and Brownfield—were laid at the door of four young Lubbock men already incriminated by signed statements of some of them with other burglaries, it was announced here this afternoon.

The announcement followed questioning of two of the four suspects by Dep. Sheriff Buel Powell of Brownfield, Dep. Sheriff Elmer McCutcheon of Meadow, Dep. Sheriff Earl Horton of Lubbock and Texas Ranger Razz Renfrow, of Lubbock.

Incidents Related

Chester Wayne Morgan, 17, of 1614 Main, and Robert Lee Davis, 20, of 2411 North Third admitted that they and two other Lubbock persons, Ferion Dwain McCreary, 20, of Slaton Highway, and J. B. Jackson, 19, of Myrtle drive, had broken into Dep. Sheriff McCutcheon's Cosden service station at Meadow the night of March 9 and taken a $70 .22 pistol. They went on to Brownfield and burglarized the International Harvester agency, they said, cutting into a safe with a an oxy-acetwlene torch.

Charges naming the four will be filed today, the Terry county officials indicated, in Terry county.

The four already are under charge of burglary in the March 10 breaking and entering of Has-

Girl Tells Officers Of Vast Theft Ring

OKLAHOMA CITY, March 17 (AP)—A pretty 22-year-old girl told police here yesterday that she and others have been stealing throughout Oklahoma and in the Southwest and sending the loot to a Paris, Tex., warehouse.

Oklahoma City police said they have asked Texas officers to look inside the warehouse and see if it is packed with the loot, which includes narcotics.

The girl told her story after police arrested her and a male companion in a hotel room Tuesday.

Several punch boards were found in the room. Both the man and the woman are in the city jail. He was charged with the possession of gambling equipment and she is held for investigation.

Explosion Of Stove Is Fatal To Woman

PORT ARTHUR, March 17. (AP)—Mrs. Annie Andrews, 38, was fatally burned today when a cook stove exploded in her kitchen.

With her dress aflame, Mrs. Andrews jumped into a bed and pulled the bedcovers over her. But the bedclothing ignited, burning her more severely. Neighbors heard her screams and put out the blaze.

Cattle, Sheep Die In Storms

(By The United Press)

Ranchers, stockmen and state agriculture officials estimated today that more than half a million cattle and sheep died in the blizzards of 1949, but experts said there would be no meat shortage.

Despite the fact that this winter's livestock losses were among the heaviest in history, they were expected to have little effect on the nation's overall meat supply.

Estimates On Totals

The total cattle loss in the winter storms in western and midwestern states was estimated at 165,000 head, compared with a nationwide cattle population of almost 50,000,000, not including dairy cattle.

The estimated sheep loss was 422,000, compared with a total sheep and lamb population of almost 32,000,000.

The estimates were pieced together from reports from industry sources and state agriculture officials in the stricken areas. They said that the estimates were rough and subject to correction.

Two and a half months after the first blizzard howled across the western plains, last Jan. 2, only a few thousand scattered carcasses had been found. Much of the record-breaking snow blanket had melted, but there still was no accurate count of dead animals dotting the vast western ranges.

Dollar Loss Heavy

The dollar loss in cattle was estimated at $25,000,000 and the sheep loss at more than $8,000,000. The total property loss in one of the most severe winters the west has experienced was estimated at $235,000,000.

Since the first of the year, 252 persons throughout the nation had died as a direct result of the weather.

On an overall basis, the livestock loss was not enough to have much repercussion on the nation's diet. But in localized areas it was severe.

Divorces Assured For South Carolina

COLUMBIA, S. C., March 17 (INS)—South Carolina became virtually assured today of joining the 47 other states in allowing divorces.

The state Senate today voted 29-13 in favor of legalized divorce in the only state which does not now permit it.

Only a perfunctory third reading of the bill remains to make the House-approved measure law in the state. The governor's signature is unnecessary.

The bill allows adultery, desertion, habitual drunkenness and physical cruelty as grounds for divorce.

A companion bill setting up divorce machinery has been passed by the House and is now before the Senate judiciary committee.

"Exciting" New Experiments With Atoms Underway

Plane Powered With Atomic Energy Planned By Air Force, Science Conference Learns

(By The Associated Press)

WELLESLEY, Mass., Mar. 17—An atomic energy commissioner told today of Air Force plans for a plane that would be powered by an atomic engine.

Robert F. Bacher of the commission told a science conference celebrating the 75th anniversary of Wellesley college that this is "probably the most exciting" of new experiments with atoms.

It was announced recently that the Navy was working on a nuclear engine that might enable its ships to roam the seven seas without refueling.

Bacher's speech, as released in advance of delivery, said the direction taken by the development of atomic energy will be determined by international conditions.

But he said regardless of whether tools of peace or weapons of war are made, it will mean progress in this new field because "peacetime applications of atomic energy are closely related to wartime potential."

The development of atomic energy during the war was for the sole purpose of producing an atomic bomb, Bacher said. But now innumerable uses are being explored.

For one thing, he said, it is "at least technically possible" to produce electrical energy from atoms, or new varieties of the elements found in nature, or entirely new elements.

"These new elements are produced by the process of transmutation, which the alchemists sought in vain to

Smuggling Of Uranium Into Mexico Cited

FBI Agents Work On Leads Seeking Origin Of Theft

(By The United Press)

MEXICO CITY, March 17.—A leak in U. S. atomic security through which at least one piece of refined uranium was smuggled to Mexico is under investigation by American and Mexican secret agents, the United Press learned today.

Mexican authorities found the uranium—a cylindrical slug about 2½ inches long, an inch in diameter and weighing 220 grams—in the possession of a Mexican detained by a highway patrolman on a routine matter.

Working On Leads

It was not known whether any other atomic material has been smuggled out of the United States. It was learned that FBI agents in the United States are working on leads which they hoped would disclose origin of the leak.

Scientific analysis of the contraband uranium found here indicate it probably was stolen from a laboratory somewhere in the chain of U. S. atomic energy production.

The case of the smuggled uranium, one of the principal ingredients of the atomic bomb, included alleged "torture" of one would-be seller, and offer to procure more than $1,000,000 worth of the material and a cloak-and-dagger-type investigation involving agents of the U. S. and Mexican governments.

700 Grams Offered

While authorities tried to trace the origin of the slug of atomic material, another group offered a private operator 700 grams of "uranium." The price was $2,000 a gram—$1,400,000. However, the sellers never were able to produce the material they claimed they had, and investigators believed they probably never had any.

Last fall, a Mexican approached an American living in Mexico who was involved in sale and delivery of arms, and offered to sell him

End Nears In Lamesa Trial

LAMESA, March 17. (Special)—The trial of R. D. Taylor, about 35, charged with aggravated assault on Ray Culp, Lamesa school principal, today continued through its second day before another standing-room-only crowd of more than 500 persons in the district courtroom.

The trial, marked by frequent heated clashes between opposing attorneys, was resumed at 1 p. m. today, after testimony by both state and defense witnesses this morning.

Motions Are Overruled

In all, 10 motions for a mistrial by the defense had been overruled by County Judge R. W. Herndon.

Final arguments were expected to be concluded this afternoon, as the case was nearing readiness for the jury.

Both Culp and Taylor appeared Wednesday on the witness stand and Culp, who allagedly was severely beaten by Taylor after the school principal had whipped Taylor's 15-year-old son with a piece of rubber tubing as a matter of school discipline, was called back to the stand today.

In Wednesday's testimony, Culp said that difficulty arose after he struck Denver Taylor, the defendant's son, five times with the tubing to punish the boy for running through the hall of the school.

Was Called To Porch

On the night of Feb. 18, the date of Culp's alleged beating at the hands of Taylor, Culp said that Taylor and Taylor's brother-in-law, Jack Allredge, named in a companion case, came to his home and called him to the porch, where Taylor beat him while Allredge held Mrs. Culp.

Culp said he suffered several

Bigshot Trying To "Speed Up Sloe Gin"

Famed Character, Who Does Not Exist, Given Commission

By ROY CALVIN
United Press Staff Writer

DALLAS, March 17. — Now they've got Sam Mitnik in the Air Force, and who can tell what will happen next?

For a guy who doesn't even exist, Mitnik has turned up in some strange places.

Mitnik is on his way to becoming the "Kilroy" of the entertainment world.

He may become one of the Warner brothers' most valuable properties. George Bannen, who puts out blurbs about the stars for Warners in the Southwest, got nebulous Mitnik a commission in the Air Force—honorary captain of the 27th Fighter group, recently arrived at Bergstrom Airbase, Austin, from its former headquarters in Nebraska.

Does Commissioning

Col. Cy Wilson did the commissioning.

"I think Mitnik should be at least a four-star general," bellowed Bannen. "But then, after all, it's in the line of duty. If you need Mitnik to be a captain, he'll damn sure be a captain."

The colonel's comment on Mitnik has been lost to posterity, but it is reasonable to assume he did not share Bannen's enthusiasm about hanging a general's stars on a guy who doesn't exist.

Now—about this character Mitnik. He is the brainchild of Film Stars Dennis Morgan and Jack Carson and of Paul Hochuli, who writes movie reviews and related matter for the Houston Press.

They dreamed up Mitnik in San Antonio last year. A lot of people were pestering Carson and Morgan, and they felt the need of a buffer. So, out of the order went: "Clear everything with Sam Mitnik."

Bellboy Pages Mitnik

That day, for four hours, a bellboy paged Sam Mitnik in a hotel lobby.

That night, Mitnik had a place at the head table in a swank banquet honoring Morgan and Carson. Mitnik didn't show up, and Carson, with straight face, explained it away: "He's tied up on a million-dollar deal. You'll hear about it, and confidentially it'll rock the industry."

Mitnik's fame grew. Bill Hendricks, a Warner publicist from Hollywood, rode the Merci train across the country this winter and some 30 Frenchmen aboard were so impressed with tales of Mitnik's prowess and wisdom that they demanded to meet him.

Hendricks stalled them off, but they went home impressed.

"I wouldn't be surprised if Mitnik gets the legion of honor," Hendricks has said.

Shows Up Aagain

Mitnik showed up again recently—in the international set. At a party in Matamoros, Mexico—part of the festivities for introducing the new picture "South of St. Louis" at Brownsville,—nightclub orchestras serenaded loud and long the stars who were present—Alexis Smith and Joel McCrea.

Hochuli—who has faithfully recorded "The Adventures of Sam Mitnik" in his newspaper column—was among the party goers. It is assumed he passed along the word that "Mitnik is here, too." At any rate, the orchestras soon were serenading Mitnik.

Miss Smith and McCrea took bows to acknowledge the musical bouquets that came their way. Not "bigshot" Mitnik.

As Hochuli explained, "Mitnik was too busy. While everyone else at the party was eating and dancing, Mitnik was at work on his formula to speed up sloe gin."

All In A Lifetime — Things To Worry About

Farm Youth Saddened By Death Of Pup Hangs Self With Rope

FORT WAYNE, Ind., March 17 (AP)—Carl Keener, 13, delayed doing his farm chores when he came from school yesterday after he discovered his dog had given birth to several pups.

Carl rushed into the house to tell his mother and aunt about the new arrivals in the barn. He was given permission to bring the puppies into the house to protect them from the cold.

Carl's joy, however, appeared dimmed and he told his mother that one of the pups was dead. He told her he was going to bury it. Carl's brother, Roger, continued with the chores as he prepared to dig a grave for the pup.

Near supper time, Carl hadn't returned. His father, Paul Keener, a truck driver for a Fort Wayne firm, was due home soon, so Mrs. Keener and Carl's aunt, Mrs. Lyndell Keener, went out to look for the boy.

They found his body hanging by a rope from a hay loader in the barn.

Artificial respiration failed to revive him. Coroner H. Paul Miller said his verdict would be suicide.

Grant Chosen Head Of Journalism Meet

Franklin P. Grant, jr., a senior journalism major from Pyote, was elected student president of the Southwestern Journalism Congress in a special election held at Texas Tech Wednesday.

Clint Formby, student council president, said that around 30 students who are either majoring or minoring in journalism cast ballots. Grant will serve as student president of the tri-state congress that will be held at Tech in April. He takes the place of Ray Cook, a senior journalist, who was elected to the office last year when the congress met in Austin.

Prof. Cecil Horn, head of the Tech journalism department, will serve as president of the congress. Horne said that speakers who were nationally known in journalism were being contacted to take part in the event. The entire program has not been released.

"GLASS WAX" HERE TO EASE SPRING CLEAN-UP CHORES

Lasting Gleam for Porcelain, Enamel, Tile

"GLASS WAX," the astonishing Gold Seal pink chemical, is the answer to keeping bathrooms sparkling clean.

Such simple care to restore the glistening beauty of porcelain tubs and basins . . . tile walls and floors . . . enamel, chrome, and stainless steel fixtures! Mirrors and glass shower stalls, too, are cleaned quickly and easily with "GLASS WAX." No more, back-breaking scrubbing—just wipe "GLASS WAX" on, wipe it off. No more scarring abrasives . . . "GLASS WAX" is safely gentle.

Invisible Film Guards Lustre

And remember, too, that "GLASS WAX" leaves its crystal-clear protective film on every gleaming surface. This means longer-lasting beauty, easier future cleaning. So be sure to use pink "GLASS WAX," the Gold Seal Co.'s sensational glass and metal cleaner in the pink can.

Brighter Bathrooms

ANOTHER OF 101 USES for "GLASS WAX" around the house. No other cleaner brightens bathroom fixtures so quickly, so effortlessly, so lastingly.

Local Gold Seal Sales Office

The sales office of the Gold Seal Company, makers of "GLASS WAX," is located at 1201 Commerce Street, Houston 14, Texas; Telephone Preston 6127.

Quick, Easy, Neat To Use

Host of Letters Laud "GLASS WAX" As Miracle For All Housecleaning

These unsolicited comments are a few of the hundreds that pour into the Gold Seal Company offices every day. Full name and address of any writer may be had from the Gold Seal Chicago office.

"I have never been as excited about a labor saver as I am about this one. I have 90 windows in my home that sparkle, thanks to 'GLASS WAX.' So easy, and the results are perfect."—Mrs. A. G. B.

"Never in my 35 years of keeping house, has any silver polish equalled 'GLASS WAX'"—Mrs. E. H. H.

"After forty years searching for relief from cloudy windows after taking the trouble to wash them, I've tried 'GLASS WAX' and find it superb. The shine is something unheard of."—Mrs. M. A.

"Let me tell you how thrilled I am about 'GLASS WAX.' I have silver on which I had tried at least five different polishes and cleaners. Never did it look real clean. Now, with 'GLASS WAX,' with one rub or two, it is beautiful."—Mrs. A. T.

"After making my windows and mirrors sparkling clean, my biggest surprise with 'GLASS WAX' was when I used it on a badly soiled toaster. It looks like new."—Mrs. P. S.

"I used your 'GLASS WAX' this morning and I'm wild about it. Chrome, electric utensils, picture glass, mirrors, plastic radio, glass dresser tops, faucets—in fact everything of that nature just glistens in no time at all, and no effort. No damage to my hands and finger nails—and that is important to a secretary who works in an office."—Miss H. F.

"Calling 'GLASS WAX' the miracle cleaner is the understatement of the year. Bought my first can last week and started on my windows and mirrors. Well, you know the usual result. But when I started using it on my sterling flatware that is eighteen years old, and on 'uncleanable' pewterware and saw the sparkling newness return, it was simply amazing."—Mrs. B. R. S.

"When your advertisement on 'GLASS WAX' first appeared I said, 'That's for me'—for I have twenty-two windows, many mirrors, plenty of chromium, enameled surfaces and silverware to polish. Well, right in the can of 'GLASS WAX' I bought is the answer to all that hard work. Believe me, it's marvelous! My windows shine like diamonds and I can wash them (all of them) in less than one-half the time it took me before."—Mrs. I. H.

"Besides making things shine like I've never seen before, 'GLASS WAX' saves me the bother of carrying my mirrors and bric-a-brac to the kitchen when they're dirty. I just clean them all in the living-room or wherever they are, and never have any mess left over."

Mrs. J. B.

Guarantee Backs "GLASS WAX"

Laboratory proof of "GLASS WAX" superior quality and results enables the Gold Seal Company to guarantee satisfaction to the user. If you are dissatisfied for any reason, your dealer will gladly refund the full purchase price upon receipt of the unused portion of "GLASS WAX."

Women Hail Gold Seal Chemical for Ending Housework Drudgery

Silver For 8 Brightened in 20 Minutes

There's a new ease awaiting you in keeping silver bright, for "GLASS WAX" removes the most stubborn tarnish and stain with amazing speed.

Simple as anything, wipe "GLASS WAX" on, wipe it off—you'll marvel at the luxurious, long-lasting sheen that appears.

Safer for Silver

"GLASS WAX" contains no harsh abrasives, requires no tedious burnishing—fast, safe chemical action does the job. That's why so many jewelers recommend "GLASS WAX" for the finest sterling or plate.

Chrome, too, and other metals respond just as easily, just as brilliantly to this astonishing Gold Seal cleaner. And "GLASS WAX" guards against future tarnish and dullness with its crystal-clear protective film.

There's nothing better anywhere for cleaning glass and metalware.

WAFFLE-IRONS, TOASTERS, other chrome appliances gain quick, lasting brilliance.

STORES, OFFICES

Glass, Metal Polished Up in Seconds

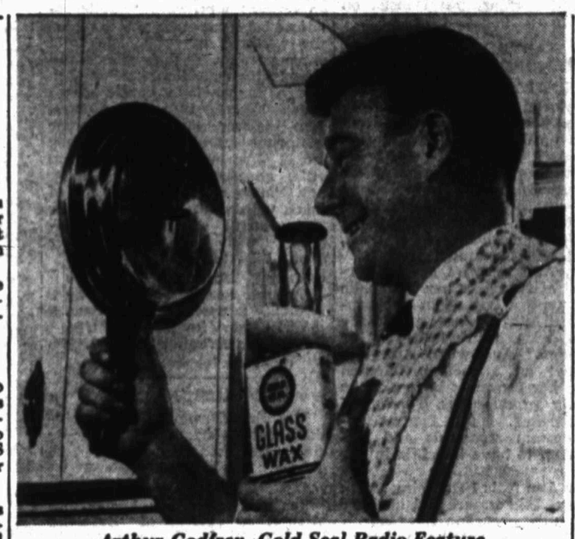

It was a great day for store managers when customers came back to tell them the miraculous glass cleaning results obtained with "GLASS WAX."

Store managers, looking around their own stores, saw acres of glass showcases, windows, mirrors, chrome and brass—a terrific cleaning and polishing task (not always too well done).

Inevitably, "GLASS WAX" was used right in their stores where before it had only been sold.

It was found that simply by wiping on the pink "GLASS WAX"—then wiping it off with another cloth—these large glass areas were cleaned quicker and better than ever before. No pressure, no rubbing, no water, no muss—just easy wipe-off.

Offices with their many glass-top desks, glass partitions, doors, and cabinets are kept lustrous bright with easy-to-use "GLASS WAX." Time and money are saved when the one and only "GLASS WAX" is used.

Arthur Godfrey, Gold Seal Radio Feature

"Just Wi-i-ipe It On . . . Wi-i-ipe It Off," says Hilarious Arthur Godfrey

Radio listeners throughout the country are making it a point to hear the Gold Seal Show every weekday morning. Sponsored by the makers of "GLASS WAX," the program features affable Arthur Godfrey, the most popular attraction in daytime radio. Supporting Godfrey on the 167-station CBS Network program are Janette Davis, lovely and talented singer, the Mariners, outstanding male quartet, and Archie Bleyer's orchestra.

Aimed at wide audience appeal, the Gold Seal Show presents Godfrey's inimitable impromptu humor, backed by pleasing popular music. Highlight of the program—if such there be in a consistently amusing routine—is Godfrey's reading of the letters, both humorous and serious, telling of new or unusual uses for "GLASS WAX" discovered by listeners. Everyone's certain to enjoy the hilarious fifteen-minute Gold Seal Show.

Chemists Find 30 Kinds of Dirt on Glass

While developing "GLASS WAX," Gold Seal chemists collected and studied sample window panes from homes in many states. Analysis revealed 30 different kinds of dirt and discoloration.

- Greasy soot streaks and salt water minerals dirtied glass in eastern mill towns.
- Sticky pollens, lime dust and tars dulled midwestern windows.
- Stubborn silica deposits stole the gleam from southern and western panes.

Even minute amounts of certain rare minerals were found killing the sparkle of glass in some areas.

Gold Seal chemists found that "GLASS WAX" removed every one of the stubborn grimy films with one easy, streakless application!

Wipes Glass, Metals Clean; No Scrubbing

Hailed by millions of housewives in other sections of the nation, a new and startling chemical discovery, "GLASS WAX," today became available in this city.

This new Gold Seal cleaner for glass and metal surfaces has been widely acclaimed for its amazing ability to remove quickly and easily all dirt and grime, and to add gleaming sparkle to windows, mirrors, table tops, silverware, porcelain, and all metal surfaces.

Homemakers in this city who want to buy this new product will find it at leading grocery, drug, hardware, variety and department stores.

This safe new chemical discovery saves hours of time, because it instantly removes smudges, stains, and tarnish without back-breaking scrubbing and buffing.

Quick, Easy—Wipe On, Wipe Off

"GLASS WAX" cleaning is tops in simplicity. All that's needed are two dry cloths and "GLASS WAX." Pour a small amount of this sensational chemical on one cloth, wipe on surface to be cleaned, wipe off with the other cloth. All dirt and stain disappear—only glistening brilliance remains. No water, no hard rubbing, no streaks.

"GLASS WAX" cleans 30 kinds of dirt in 30 seconds. Nothing like this amazing speed and ease of cleaning, to sparkling brightness was ever known before.

"GLASS WAX" was introduced less than a year ago by the Gold Seal Co. Now millions call it "a cleaning miracle."

New Uses Discovered

Day after day, letters pour in about new and wonderful uses for "GLASS WAX." Millions now benefit through its quick, easy, safe and inexpensive use—cleaning and polishing windows, mirrors, silver, nickle, tile, chrome, brass, copper, pewter, porcelain—all glass, metal, and baked-on enamels.

REMEMBER—There is only one "GLASS WAX," a product of the Gold Seal Co.

Crystal-Clear Film Protects Lustre

After safely dissolving blemishing grime, "GLASS WAX" leaves a transparent protective film that resists new fingerprints, spatters and stains.

A secret chemical in "GLASS WAX" leaves this dirt and moisture resisting film. It cannot be seen, but it is there, automatically making any cleaned surface less attractive to lustre-killing grime.

Next Cleaning Easier

That means once you start cleaning with "GLASS WAX" you'll find surfaces less soiled, easier to restore to sparkling radiance. The crystal-clear film left by "GLASS WAX" helps keep your windows and metal surfaces gleaming bright longer.

Mary Haworth's Mail . . .

Attractive Girl Insists She Cannot Give Parties Unless Mother Leaves The House

DEAR MARY HAWORTH: My daughter Ann, 17, is attractive, wholesome, athletic and has many friends, both boys and girls. I try to get the teen-age viewpoint and feel that I am lenient with her, but she resents any kind of restriction or supervision, and insists that the mothers of her friends allow them to do many things which I don't approve.

When Ann was about 13 I gave a barbecue supper and dance for her in our playroom. I left the children to themselves until I noticed they were dancing with all lights out. I went down, turned on the lights, danced a few minutes with a wallflower boy, then left again. Ann still refers to that incident as the most humiliating of her life.

We have a nice home and I want Ann to have her friends in; but she refuses to give a party for boys and girls unless I leave the house. I want to greet her friends, at least, then fade from the scene. I don't mind going to bed and reading, but I insist on being in the house.

GIRL WANTS MOTHER TO BE MORE CASUAL

RECENTLY a girl friend who entertained with a picnic supper had her mother leave and not return until 2 a. m.—and to Ann this was a perfect set-up. Apparently these parties leave the place in a shambles, and while I don't mind a noisy good time—dancing, etc.—I don't approve of broken windows, smashed objects d'art, ruined rugs, trampled gardens.

Also Ann thinks I am too formal. It embarrasses her if I shake hands with a boy when he is introduced. She wants me to be casual, with a "Hello there" or "Hi, Tom." And when Ann told me that an attractive, talented girl in her crowd is known to be sexually promiscuous, I admit I was shocked. I felt I must uphold certain standards and forbade Ann to have this Lila in our home.

Now Ann feels I am being mean. She says Lila is accepted in other homes and everyone likes her. I recently sought out the mother of one of Ann's friends to discuss the Lila affair, and the only satisfaction I got was, "The girls will undoubtedly solve their problems in their own way." Am I being too stuffy, too critical? I am a widow, and it is difficult to meet these questions alone, so please advise me. Signed A.K.

PRETTY FINE GIRL IN FAST COMPANY

DEAR A. K.: Judging by your long letter here condensed, Ann seems to be a pretty fine girl, naturally endowed with a good cooperative disposition. But it also appears that she is running a bit wild with a pretty fast crowd; and the other mother's dry response to your scandalized inquiry about Lila rather implies that Ann may be known as reckless, too. It sounds like a cryptic reminder not to throw stones.

Now, about yourself. Your concepts of a parent's social obligations are perfectly sound, an expression of good sense and good taste. And if the other parents are as lax, or as subservient to their children's notions, as they're said to be, then they certainly aren't models to copy. In fact, they are shirking, or waiving, responsibility, at serious risk to their children's welfare.

However, it appears there are two flaws in your performance, one in the "social supervisor" role, another in the role of domestic executive. In the one role you take the right tack, but with an air of uncertainty, which moves Ann to criticize—because it leaves her uncertain, too, as to whether you're right and what her friends may think, supposing you might be "wrong" by "worldly" standards.

GIRL IS FIGHTING SMOTHER-INTEREST

IN THE purely domestic role, you are rather too fussy—for example, in laboring your concern about the fact that Ann (as yet) doesn't care to cook, when otherwise she is a willing cheerful household helper. This is crowding her. It isn't allowing her comfortable margin for growth at her own pace; and possibly here is the rub that breeds filial antagonism, which hardly recognizes why it's "sore," and thus backfires in terms of fighting your social tenets, wherein she has gang support.

If Ann were en rapport with you domestically, she would feel en rapport with your "public relations" views, too; or at least she wouldn't take her cue from other parents. Rather, she would be socially considerate of you, in return for private consideration shown her. As I see the picture, Ann dislikes you, due to your hectoring interest in her every move; thus my advice is to find other absorbing interests besides her. You seem to be a bit out of touch with adults, as witness your unsuccessful attempt to "commune" with the other mother about Lila. M.H.

Vigilant Husband Encouraged As Wife Shows Improvement

DALLAS, March 17 (AP)—A. L. Mapes has not left the hospital beside of his wife since she was critically burned in a Feb. 12 fire which destroyed their home four and a half miles north of Carrollton.

His long vigil, which put meaning into the words "until death do us part," became happier last night. His wife seems to be mending.

After the fire doctors said Mrs. Mapes couldn't live. When highly contagious gas gangrene started sapping her strength he moved with her to the isolation ward, where there are other communicable diseases.

Mapes hasn't slept in a bed since the fire. He caught naps in his bedside chair.

Mrs. Mapes' leg was amputated to prevent spread of gangrene to the rest of her body.

Before the fire she weighed 87 pounds. In the hospital she dwindled to 60 or 65 pounds. Now she weighs about 70 pounds.

Mapes, who lost all his worldly possessions in the fire except a 25-cent piece, is encouraged.

Man Charged With Forgery Is Held

A charge of forgery was filed by A. W. Salyars, assistant district attorney, this morning against John Henry Bigbie, jr., in the court of C. E. Lynn, justice of peace, and the sheriff's department subsequently announced that the defendant is in custody at Odessa.

The charge accused Bigbie of having passed a forged $47.50 check Sept. 11 to Dunlap's store here. The check was signed "Johnny R. Rand."

Arthur B. Watkins swore to the complaint. A car license number had been scribbled on the check by Watkins, officials said.

Kiwanis Club Gives Bond To Donald Edwards Of Frenship

The Kiwanis club today made its annual presentation of a $25 savings bond to an outstanding future farmer of Lubbock county. The boy receiving the award was Donald Edwards of Frenship school.

Donald won his award for having had the grand champion barrow at the recent Lubbock County stock show at Slaton. Donald is a member of the FFA and a senior in high school. Although a consistent winner at shows, it was Donald's first grand champion.

Following the presentation of the Kiwanis award, the club was entertained by a varied musical program. Accordian numbers were played by Ned Hardin, junior at Lubbock high school; violin and piano selections were offered by Mr. and Mrs. Robert Pipkin and the "Noteables," a barbershop quartet sang several harmony numbers.

Guests Attend Meeting

More than 150 members and guests were present at the meeting which was held in the Lubbock hotel. Two new members, Joe W. Jones and Kenneth H. Woods, were introduced to the club. There were five visiting Kiwanians; J. H. Posey, Austin; Polly Parrott, Amarillo; Joe Long, Amarillo; R. A. Coverdale, Long Beach, Cal., and F. E. Yeager, Lynwood, Calif.

Guests include, J. C. Groves, J. H. Galey, B. B. Williams, Howard Munson, Edward Welsh, J. E. Vickers, R. D. Ford, V. E. Wilson, Clay Turner and O. R. Hawkins. The entire Lubbock high school basketball team were guests along with their coach, Roy Morris.

President Fred Sparks presided over the meeting.

Answers Returned In Three Special Issues

A 99th district court jury reported answers about 8:30 p. m. Wednesday to three special issues in the debt action of Bill Crawford against M. E. Tew.

Answers returned to Judge G. V. Pardue found that Tew owes Crawford $1,345.29 for electrical work, but that Crawford owes Tew, on Tew's cross action suit, $581.54 for plumbing materials and $551 for labor.

No motion for judgment had been made by counsel for either side: Ed Napier for Crawford, L. A. Howard, of the firm of McWhorter, Howard and Cobb, for Tew.

Judge Pardue dismissed his jury panel for the remainder of the week, after having been informed this morning that Homer L. Pharr, attorney representing Berch Scott, was ill. The case of Scott against C. H. Doggett and wife Helen, suit on attachment and on note, was passed. James O. Cade represents the Doggetts.

Wellington Woman Dies In Hospital

Mrs. M. E. Black, 57, long-time resident of Wellington, died about 6 o'clock this morning in Lubbock Memorial hospital after an extended illness. Since last September, she had made her home with a niece, Mrs. R. J. Jeffers of 1625 Eighteenth.

The body was taken to Sanders Funeral home. Definite funeral arrangements had not been made this morning. It was thought by relatives, however, that a short service would be read here, after which the body will be taken to Wellington for services and burial beside her husband.

Survivors include two sisters, Mrs. J. H. Hager of Marlow, Okla., and Mrs. F. A. Wade of Floydada; two brothers, W. R. Smith of Elk City, Okla., and J. T. Smith of California; and two nieces, Mrs. Jeffers of Lubbock and Mrs. R. L. Brown of Santa Fe, N. M.

Mrs. J. D. Henly's Father Is Claimed

C. B. Fleet, 80, father of Mrs. J. D. Henly, of 1509 Twenty-fifth, died early this morning in St. John's hospital in Fort Worth after suffering a heart attack.

Mr. Fleet had resided in Fort Worth since 1927, and prior to that time had lived in Greenville.

The body was to be carried to Greenville by Gray-Sorrels Funeral home of that city for funeral services at 10 o'clock Saturday morning. Burial will follow in the family plot in a Greenville cemetery.

Survivors include the wife, Mrs. C. B. Fleet of Fort Worth; the daughter, Mrs. Henly; two grandsons, Wayne Henly, display advertising manager for The Avalanche-Journal, and Grady Henly of Monroe.

Mr. and Mrs. J. D. Henly left this morning for Fort Worth after receiving word of her father's death. Mr. and Mrs. Wayne Henly and Mr. and Mrs. Grady Henly were to leave this afternoon for Greenville to attend the services.

British Halt Head Hunting Second Time

LONDON, Mar. 17 (AP)—They've quit head hunting in Sarawak — for the second time.

The British colonial office reported "not a single case" in the Borneo colony during 1947.

A full report of Sarawak's affairs for that year was published today in London.

The report said head-hunting was a "passion" among some Sarawak tribes a hundred years back. It was suppressed completely a generation ago but it broke out again during the war.

When the Japanese invaded, said the report, "hundreds of them lost their heads in the traditional manner."

Now, British police and Sarawak constables have put down once more the favorite outdoor sport of the tribesmen—lopping off an enemy's head and reducing it by various treatments to the size of a tennis ball.

Radiant heat waves travel in straight lines like light rays and have the same speed, 186,000 miles per second.

Second Spying Charge Made

WASHINGTON, March 17. (AP)—The government today moved to re-arrest 27-year-old Judith Coplon, until recently a Justice department employe, after charging her with specific acts of spying against the United States.

A federal grand jury here late yesterday returned a second indictment against the young woman. She was first arrested 14 days ago in New York City along with Valentine A. Gubitchev, 32, Russian engineer employed at United Nations headquarters.

The two were jointly indicted by a New York grand jury last week on espionage conspiracy charges.

New Charge Stated

The new indictment in the District of Columbia specifically accuses Miss Coplon, former political analyst in the Justice department's foreign agents registration section, of copying and removing official department documents. It alleges she acted "with intent and reason to believe the information was to be used to the injury of the United States and to the advantage of a foreign nation."

The grand jury said the material included data on the national defense and confidential reports of the FBI on spy and counter-spy activity in this country.

Miss Coplon pleaded innocent to the conspiracy charge at New York, and was resealed on $20,000 bond. Gubitchev, however, has challenged the entire proceeding, claiming diplomatic immunity from arrest. He has refused to enter a plea, hire or accept a court-appointed attorney, or make any move toward posting the $100,000 bond fixed for his release.

The State and Justice departments and United Nations officials have asserted that diplomatic immunity could not be claimed in response to such an accusation.

Man Takes Engine On Toot; Lands In Jail

LOS ANGELES, March 17 (AP) Here's one Irishman who must celebrate St. Patrick's day in jail because he took a locomotive out on a toot.

Police testified in court yesterday that Edward O'Sullivan, 28, strolled down to the railroad yards, spotted a diesel engine, climbed aboard and applied the throttle. He was charged with tampering with a locomotive.

Railroad officials said the excursion tangled yard traffic.

Judge Louis J. Kaufman said 180 days.

CHILD HIDDEN MOST OF HIS LIFE

Record Of Son's Birth Might Have Let Sin Remain Secret

BOSTON, March 17. (AP)—The sin that shocked a frightened mother into holding her 13-year-old illegitimate son in captivity most of his life might have remained secret forever had she recorded his birth.

City Registrar Michael J. Manning said that if Mrs. Ann Sullivan had recorded the child's birth no one would have known of the illegitimacy "except herself and the reputed father."

"The child of a married woman is legally presumed to be the legitimate offspring of her husband," Manning said. "All Mrs. Sullivan had to do when Gerald was born was to declare that she was married at the time—which she was."

Police said the shock of the indiscretion apparently drove the woman into hiding the child in a barren room for the greater part of his life.

But the 45-year-old mother insisted the boy had the freedom of the house, although, she said, he was not allowed to go out.

She thought that if he lived a normal life neighbors would learn her secret and it would reflect on her two strapping Marine corps sons and a daughter .

The woman admitted, police said, that the child was conceived and born while she was separated from her husband, who is still missing. Gerald's father is dead.

An official of the Massachusetts Society for the Prevention of Cruelty to Children expressed doubt today that the boy had never been outside the house until he was found in the street Sunday night.

Opinion Stated

"This boy, in my opinion, has been out with people," said Robert Mumford, secretary of the society. "He talks and responds in excellent English and his vocabulary is surprising."

Mumford said a doctor's examination showed that the boy was in "better physical condition than a majority of youngsters who come to the home."

"He has no real nutritional deficiency," the society official said. "The doctor doesn't even think he has rickets."

The report seemed to bear out the mother's insistence that he was well fed.

Gerald began his schooling today in a society shelter where about 20 other youngsters are confined. He can not read or write. But officials expressed the belief he will advance rapidly. They described him as a responsive youngster with "fine possibilities."

A new device measures irregular areas, like those of skins or hides, by sweeping light beams across them and recording the result by means of photocells. Each light beam is of known width, and the number of sweeps across the piece being measured adds up to the total area.

Children Wreck 'Driverless' Car

LONGVIEW, March 17 (AP)—What motorists thought was a driverless car was occupied by two children, officers learned when it was involved in a wreck.

Milam Smith, 14, and Warren Moore, 5, were occupants of the car. Officers said motorists couldn't see the youngsters in the vehicle as it went down the highway.

Texas Highway Patrolman J. O. Nails said Smith was driving the car yesterday when it was involved in head-on collision with a truck driven by W. W. Beaver of Dallas.

Beaver escaped injury.

The youngsters were not hurt badly, but were hospitalized.

Milam is the son of Mr. and Mrs. M. A. Smith of nearby White Oak community. Warren is the son of Mr. and Mrs. E. W. Lofton of Pampa, visitors at White Oak.

Italian Communist Filibuster Holds Up Defense Pact Vote

ROME, March 17 (AP)—A Communist filibuster held up a chamber of deputies vote on Italian adherence to the North Atlantic pact today after an all-night talking marathon.

Demanding their right to speak as they voted—under the chamber procedure—each Communist and extreme left wing member launched into a harangue against the North Atlantic agreement.

The question up was a vote of confidence on the government's proposal to become a member.

At 5 a. m. (EST) today, some 19 hours after the filibuster started, it was still going strong in a boring, repetitious fashion. An estimated 150 deputies—Communist and extreme left wing Socialists—still remained to speak.

Approval Seen

If each averaged the 15 to 20 minutes consumed by those who argued through the night and early hours of the dawn the vote could be drawn out until noon tomorow.

Terms of the pact—already sent to the Italian government for study—are to be made public throughout the world tomorrow.

Approval by the chamber is foregone since the Christian Democratic party of Premier Alcide De Gasperi holds a majority of 305 in the chamber of 570. At a recent caucus the party voted almost unanimously for the Western defense agreement.

One of the most bitter Communist criticisms during the four-day debate has been that the government has not given any clear indication of what is in the pact.

Police Deployed

After chamber action the matter goes to the senate for debate.

Outside Montecitorio palace, the deputies building, strong forces of police were deployed. They rode in jeeps and were armed with tommy-guns. This was a precaution against any possible Communist demonstration.

The Communist - dominated Rome chamber of labor announced, meanwhile, it had called a one hour strike today "as the first protest" against Italy's adherence to the North Atlantic agreement. The strike is to sart an hour before regular quitting time of the workers to give union leaders a chance to explain the "dangers" of the alliance.

A two-hour demonstration yesterday at Lecco, near Como in northern Italy, saw several hundred workers stone police, who fired machine guns into the air and used tear gas.

Premier Jeered

Red-eyed, sleepy deputies slipped out of the chamber to grab a bite for breakfast. Every now and then there were exchanges of angry words between the two factions.

De Gasperi, subjected to a storm of jeers and abuse when he made the government's concluding speech last night, stayed at his place on the government bench all night, leaving for only a few minutes.

At times there were a scant 50 deputies in the chamber. They nodded, dozed, jerked awake and dozed again as the Communists droned through their futile oratory.

Palmiro Togliatti, Communist leader, left the chamber for a short nap on a couch nearby but soon returned.

Rites Set Today For Former Lubbock Man

Funeral services for S. A. Richmond, 93, former Lubbock resident who died Wednesday in Dallas in the home of his daughter with whom he had lived for a number of years, were to be conducted at 2 o'clock this afternoon in Sanders Funeral home chapel.

Dr. J. Ralph Grant, pastor of First Baptist church, was to officiate. Sanders was to direct burial in Lubbock cemetery.

Mr. Richmond, who came to Lubbock in 1900, had lived in Dallas since 1919. He was a member of First Baptist church and of the Masonic Lodge of San Angelo.

Survivors include the daughter, Mrs. W. O. Tubbs of Dallas; a niece, Mrs. Bob Crump of Shallowater; a grandson, Solon Tubbs, of Dallas; a granddaughter, Mrs. R. F. Rayburn of Joinerville; five great grandchildren; and one great-great granddaughter.

Pallbearers named were Roscoe Clark, Jack Boren, C. A. Tubbs, Fenner Tubbs, Frank Revier, jr., and Paul Revier.

Aroused Women Set Off War On Crime, Vice

Unemployed Gamblers Able To Get Compensation In Indiana

GARY, Ind., March 17. (AP)—Gamblers who are out of work probably can collect unemployment insurance in Indiana. But prostitutes can't.

The distinction is that prostitutes are classified as independent contractors, says Lyman K. Bilts, manager of the Indiana unemployment compensation bureau here.

The bureau noted an increase in claim files yesterday, a week after a throng of aroused Gary women had set off a war on crime and vice.

Bilts said many of the men listed their trades as poker dealers, bet takers and slot machine maintenance men. He said the women admitted they were prostitutes.

Slaying Started Drive

"It looks like the gamblers will be paid $20 for 20 weeks unless they go back to work sooner because, under the law, I'm supposed to find work for them, and I certainly can't do that," Bilts said.

The anti-crime campaign started two weeks ago after the slaying of Miss Mary Cheever, 45-year-old Wallace high school teacher, who was shot in an alley near her home. Police attributed the shooting to a purse snatcher.

Four days later, more than a thousand Gary women held a mass meeting, marched on the city hall, where the council was meeting, and demanded that gambling and prostitution be halted.

An all-out campaign followed. This week the women met again and named an 18-member secret vigilante group to work for law enforcement.

Contracts On New School Addition Let

Contracts totaling $89,687.90 for construction, heating and lighting of a new addition to Cottage school were let last night at a meeting of the board of trustees of Lubbock Independent School district at the school business office.

Contract for general construction was let to Sampson Bros. Construction company on a low bid of $73,299.90, and contracts for plumbing and lighting went to McKinley Plumbing company and Nelson Electric company on bids of $13,300 and $3,095 respectively.

Other bids on general construction were as follows: Gilstrap Construction company, $74,385; Tom McAbee, $74,695; Tidmore Construction company, $76,374; and Givens Construction company, $76,720.

The board also let a contract to Cyclone Fence company to fence in Chapman field with a six-foot Cyclone fence. The company submitted a bid of $5,375, lowest of four submitted.

The trustees also authorized A. C. Jackson, business manager, to proceed with plans for lighting the baseball diamond at Chapman field.

Board members present at the meeting included Clyde G. Tatum, president, Dr. M. M. Ewing, Glenn Woody and G. C. Dowell. Superintendent of Schools R. W. Matthews and O. R. Walker, architect for the Cottage school addition, were also present.

Texas Tech Band To Make Concert Tour

Eighty members of the Texas Tech spring band will make a three day tour through five West Texas and New Mexico cities beginning Tuesday.

Prof. D. O. Wiley, director of the band, said that it would play from two to three concerts daily on the trip. Stops are planned in Big Spring, Midland, Odessa, Kermit and Jal, New Mexico.

THE NEW Plymouth-on display Friday

Now there's more difference than over in low-priced cars . . . and the great New Plymouth makes the difference!

New Beauty

There's beauty in every sweeping new low line of it—and throughout its brilliant new interior. And this is beauty that's built on advanced engineering . . . to give you a great new automobile that handles easier, rides smoother, performs better—the greatest in a long line of great Plymouths!

New Vision

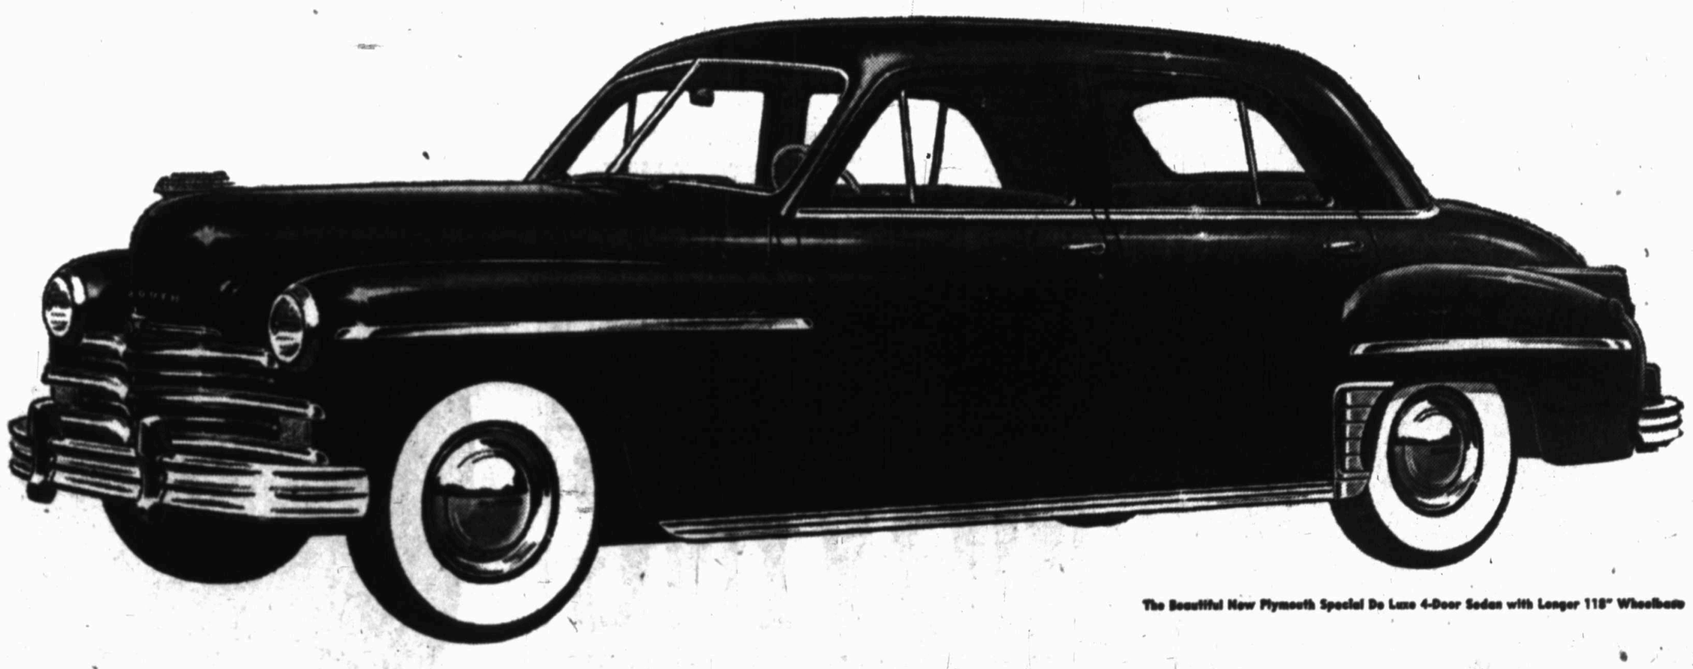

The greatly increased glass area is exactly where you need it—in the windshield and rear window. And the new design of the hood and the entire body gives the driver a clear, undistorted view of the road—in all directions—day or night—rain or shine! Blind spots are practically eliminated.

New Features

You just turn the ignition key and the engine starts! No buttons to push, no choke to pull. You save on oil and get longer engine life with new oil control piston rings and the brand-new chrome compression ring. These are just two of the great new features in the great New Plymouth.

New Comfort

Talk about room for comfort—the New Plymouth has it! Those famous chair-height seats are now even wider, and deeper from front to back. Long legs can stretch out and hats stay put. Diagonally mounted rear shock absorbers reduce sidesway. You drive for hours without fatigue.

New Safety

Safety has always been first with Plymouth—and this new car is safer than ever! It has a lower center of gravity. It hugs the road better. A completely new body construction makes it a sturdier automobile. Body and frame are 23% more rigid. You drive with a great new sense of security.

New Convenience

Because of less overhang, the New Plymouth is easy to park, easy to put in the garage. Fenders flow into the body but they're separate and detachable—and it doesn't cost a fortune to repair them! Windows lift and lower easier. Doors open wide—you get in and out of this car with ease!

New Performance

There's greater power in the New Plymouth engine. This comes from a newly designed cylinder head, a higher compression ratio and a new intake manifold. When you step on it, you'll instantly feel this new surge of power. Here's the best performer of all the great performing Plymouths!

Greatest New Value

The only way to discover all of the great new things in the great New Plymouth is to see it—to sit in it—to drive it. Do this and you'll be convinced that—feature for feature—dollar for dollar—here's the greatest value of all! Compare it to any car at any price. See it NOW!

Record Field Slated For Annual Southwestern Track Meet

Texas, Aggies In Spotlight

By ED FITE
United Press Sports Writer

FORT WORTH, March 17—At least 11 records may be in danger this weekend when a record throng of 1,600 athletes compete in the 26th annual Southwestern Recreation track and field meet, but the team championship duel between Texas and Texas A. and M. may steal the spotlight.

Nine of those believed endangered by this year's fine crop of competitors are in the university division where the Texas Longhorn thinly-clads will attempt to duplicate their feat of last week in the Border Olympics—dethroning the champion Aggies.

Aggie Stars Predominate

And, while Aggie stars predominated among those given the best chances of cracking existing marks, they will have to pick up some points in the field events if they hope to wipe out that 58-55 setback handed them by the Longhorns last week at Laredo.

Four of the seven university marks threatened on the basis of last Saturday's showings at Laredo hinged on the flying feet of Aggie speedsters, two by a Tulane sprinter, two by a Southern Methodist hurdler and the other by a Texas sprint relay quartet.

Three individuals—J. D. Hampton of the Aggies, Paul Bienz of Tulane, John Rowland of SMU—each were potential record-shatterers in two events.

Mile Mark Better

Hampton's 4:18.7 mile and 9:36.0 two-mile performances at Laredo were better than the existing Recreation track carnival—4:24.5 in the mile and 9:52.3 in the two-mile.

Rowland raced across the 220-yard low hurdles in 23.6 seconds at Laredo, two-tenths of a second below the record here, and topped the 120-yard highs in 14.3 seconds, the same as the current mark here.

Bienz' best times in the 100 and 220 dashes are 9.4 and 20.6 seconds compared to the meet records of 9.5 and 21 flat.

The Aggies' crack quarter-miler, Ray Holbrook ,may shatter one mark—the 440-yard dash—and help break another—the mile relay.

Holbrook sped around the Border Olympic track in 48 seconds flat, a full 1.5 seconds below the track record here, and anchored the Aggie relay group in a 3:17.1 performance as compared to a mark of 3.21.3 here.

Parker Dash Threat

The Texas sprint relay quartet was clocked in 42.2 seconds at Laredo, three-tenths of a second below the record set here three years ago.

The other two records believed in the most danger were in the college division 440-yard relay and the high school division 200-yard low hurdles.

The North Texas quartet fashioned a 42.6-seconds lap at Laredo, good enough to best the 43.9 mark held by another North Texas squad here.

Bobby Dean, Corpus Christi high's speedster, may break his own low hurdle mark of 22.8 seconds established last year. He turned the trick in 22.9 at Laredo

Texas' Flying Charley Parker also may tie or break the 220-yard dash mark of 21 seconds. He flashed the one-eighth mile at 21.1 at Laredo.

Competition will be held in five divisions this year with the addition of the preparatory-freshman class to the high school, junior college, college and university divisions.

High school preliminaries are scheduled tomorrow afternoon, preliminaries in other divisions Saturday morning and all finals Saturday afternoon .

Mesquite Team Drubs Cotton Center Girls

DALLAS, March 17. (AP)—Finals play in the Southwestern AAU girls basketball tournament opens here today.

In the high school division Yantis was matched against Mesquite of near Dallas.

Two Dallas teams, the Bell Cleaners and the Dallas Dannies, were matched in the independent division.

Last night Mesquite bowled over Cotton Center 36-23 and Yantis edged Penelope 32-29 to neter the finals.

The Dannies tripped Nicholson-Jones of Fort Worth 24-12 and the Bell Queens stopped Wayland college of Plainview 25-15.

Morse, Gallatin and Desdemona joined Campbell in the semifinal bracket of the consolation round. Morse nipped Allen 20-16, Gallatin squeezed by Woodhouse, 15-13 and Desdimona took a 29-22 victory over Priddq.

Jo Ann Miller tallied 21 points to lead Mesquite's victory and capture high-scoring honors for the night.

Raider Track Hopefuls Plan Trip To Fort Worth Friday

Tomorrow, a semi-experienced 11-man track squad from Texas Tech will journey to Fort Worth, where it will compete in the Twenty-Sixth Annual Southwestern Recreation Track and Field Meet Friday and Saturday.

Coach Maxey McKnight, hampered by cold winds this spring, as usual, hopes for a good showing from his varsity men, as well as his five-man freshman team. The two squads aren't as advanced as they might be, due to theerratic weather, but some of the runners have shown promise of developing.

He is taking primarily a track squad to Fort Worth, with only one man going along for the field events. Jim Elliott has been throwing the javelin well in practice and might earn a place in the big meet. So far his best distance is 180 feet, which isn't bad and it might earn him win, place or show. For that matter, he might heave the iron even farther.

Track times have been somewhat off championship pace to date, but the Raiders haven't faced competition, nor have they run too hard. Last year, with no more training than they have had so far, the Raider squad placed third in Fort Worth.

In the 100-yard dash, all three runners have failed to crack 10 seconds, with 10.1 the best time to date. Charley Reynolds, Seth Murphey and Moon Mullins have all turned in this time and under meet conditions probably can run it faster.

Murphey has turned in a 22.5 time in the 220-yard dash, best of the three sprinters in that event, and the best quarter so far has been 51.5, equalled by Ben and Joe Wilson and Costin Bufkin.

Harold Barber of Midland has turned in the best half-mile mark so far of 2.08, while Edgar Hawkins, in an unpaced mile, ran the distance in slightly under five minutes. Rounding out the track events entered by Tech is the mile relay team, which has turned in a 3:28.2 mark. The sprint relay team is untested.

This is the major portion of the squad going to Fort Worth by bus Friday morning, with Charley Pinnell, Joe Overton and Ed Clepper for hurdles and broad jump events. Freshmen making the trip will be Earl Hutcheson, Norm McNeil, Charlie Ritchie, John Shinn and Albert Stanford.

Lamesa Fields Veteran Nine

LAMESA, March 17 (Special)—Local baseball followers, after watching the Golden Tornadoes of Lamesa High school in action since early March, feel that Coach Jack Wetzel's diamond crew will be the ones to beat in the District 3-AA race.

Seven lettermen and five squadmen from last year head up the list of 25 candidates for the starting nine. Last year's team won seven, lost five and wound up in third place in the district chase.

San Angelo's Bobcats are preseason favorites to retain the title they won last year, but the Golden Tornadoes are expected to be one of their strongest challengers for the district bunting.

Hurlers Experienced

A strong, experienced pitching staff is expected to help make the Tornadoes a title contender. Included on the mound roster are Jamie Pearson, Donald Conner, Royce King, Bill Hart, Jerry Phillips and Ronald Chapman. Most of this sextet saw considerable service last season.

Other top prospects for regular diamond berths include catchers Walter Massengale, Jim Bob Boothe and Don Holt; infielders Warren Massengale, Lewis Duncan, Larry Lattimore, Jerry Millsapps and Frank Loop; and outfielders Frank Rose, Bill Cox, Delbert Dickenson and Edwin Thomas. Team manager is Winford McNeill.

Coach Wetzel says it is unlikely that any practice games will be carded since the squad has but little time to get ready for the district opener with Odessa's Broncos here March 25. He said that one pre-season tilt may be scheduled with a team in this area.

Will Meet 4-AA Titlist

The District 3-AA champion will be the team with the best won-lost record at the completion of the schedule; and will meet the 4-AA titlist in a best two-out-of-three game series for the right to go to the state meet. All games will be 7-inning affairs. The Tornadoes will play their home games at Lobo field, home of Lamesa's West Texas-New Mexico league entry, as soon as the newly-planted grass there can withstand play. Otherwise, home games will be staged on the team's new practice field in north Lamesa near the site of the new senior high school which is under construction.

Lamesa's complete 12-game, district schedule follows: March 25, Odessa here; April 1, Abilene here; April 5, Midland there; April 8, Sweetwater here; April 12, Big Spring here; April 15, San Angelo there; April 19, Odessa there; April 26, Abilene there; April 29, Midland here; May 3, Sweetwater there; May 6, Big Spring there; May 10, San Angelo here.

Lamesa Track Squad To Compete In Meet

LAMESA, March 17 (Special)—An eight-man track squad will represent Lamesa High school at the Southwestern Track and Field Meet in Fort Worth Friday and Saturday, Coach Bob Harrell announced.

It is the first time in several years that the local track squad has been represented in a major meet.

Making the trip today will be Bobby Hawkins, Dick Echols, T. J. Womack, Johnny Montgomery, Don Hackney, Benny Eggleston, Lowell Fancher and Don Fennell.

Tornado track hopefuls have been working out under Harrell's direction since March 1, but the local cindermen are lacking both in quantity and quality of material.

The stand-out prospect for honors at Fort Worth and in future meets is Hawkins, who has turned in a 2:05 half-mile in practice despite the fact that the Tornadoes are working out on grass-covered McCollum field. A new track will be ready before another season rolls around.

Other entries at Fort Worth will include Echols and Fennell in the 100-yard dash along with Hackney; Womack in the 200-yard low hurdles; Womack, Montgomery and Hackney in the 220-yard dash; Fancher in the 440-yard dash; and Eggleston in the shot-put and discus throw. The sprint relay foursome will consist of Echols, Womack, Montgomery and Hackney.

Coach Harrell said the Tornadoes would possibly send several entries to the Bluebonnet Relays at Brownwood late in March, depending on the results attained at Fort Worth.

Musial Paces Cards To Win Over Bosox

ST. PETERSBURG, Fla., March 17. (U.P.)—You can't convince the fans of St. Petersburg that Ted Williams is a greater hitter than Stan Musial.

It didn't look that way yesterday, at any rate, when the St. Louis Cards beat the Boston Red Sox, 5 to 4. It was Musial's long triple in the ninth that tied the score at 4-4 and then he, himself, scored the winning run on Ed Sauer's fly ball.

Lubbock Team Leaves Today

An eight-man Westerner track team left for Fort Worth this morning on a chartered bus to participate in the Twenty-sixth Annual Southwestern Recreation Track and Field meet.

Teams in five separate division—university, college, junior college, prep schools and freshman, and high school—will try for records in 15 events in each division, and some of the best talent in this section of the country will be entered in the meet. A total of 1,557 athletes were entered last year.

It was previously announced that nine boys would make the trip, but Wayne Stroud has been ill for several days and will be unable to go. So only eight will participate in the meet, to be held March 18-19.

To make matters worse, Charlie Williams, who had been turning in a good performance in practice in the 100-yard and 220-yard dashes has been limping the past two days from a sprained muscle in the back of his right leg, suffered in a practice meet Monday with the Texas Tech freshmen. Therefore his effectiveness at Fort Worth may be sharply reduced.

These two sprinters have been counted on heavily in the two dashes and the 440-yard relay team. Without Stroud, the team turned in a time of :45 Monday against Tech. If Williams runs in Fort Worth the 440 team will be composed of Williams, Malcolm Young, Donald Decker, and Danny Boone. Boone will replace Stroud.

In addition to running on the relay team Decker will be entered in the 220-yard low hurdles. The 120-yard high hurdles will be run by Donnie Rawls.

The half-mile, 880-yard, run will be entered by Eddie Goetze. His best time this year has been 2:09 against the Tech freshmen, but he trailed the Techsan all the way and did not set his own pace. He can be expected to run the course in a faster time this weekend.

In the field events, Douglas Ross will handle the discus, and Alfred Adair will enter the shot-put, high jump, and pole vault. He vaulted 11 feet earlier this year.

The broad jump will be left up to Boone and Williams, and Williams and Young will be in the 100-yard dash.

Making the trip with the team are Coaches Fred Brown and Pat Ferris, and the manager Davis Hopper.

INDIANS BOUNCE SOX

TUCSON, Ariz., March 17. (U.P.)—Rookie Shortstop Artie Wilson, who reportedly is ticketed for a berth with San Diego, was doing everything in his power today to remain with the parent Cleveland Indians. The newly-signed negro infielder collected three to Cleveland's nine hits yesterday plus a walk to lead the Indians to a 4 to 2 triumph over the Chicago White Sox.

JIM WILSON IMPRESSIVE ON MOUND

Westerners Pound Tech Squad, 10-7

Foul weather, which hurt the Westerner baseball practice last year, has given the local team the breaks so far, and only one practice has been held in doors this year, that being Tuesday afternoon.

Already in the second week of training, the high school boys under Coach Fred Taylor has been concentrating on developing their hitting and pitching.

In a practice game Wednesday with a team composed of Tech students who just want to play ball, the Westerners came out on the long end of a 10-7 score.

In doing this the high schoolers only made four safe hits, one a long home run by Jessie Fullerton into deep right field in the third inning. But they worked the Tech hurler for 10 walks, and three men reached first base on errors.

Fullerton Homers

Three of the Westerner runs came in the first inning on a hit and six walks given up by Archie Campbell. Two were made in the second frame on no hits, a walk, a passed ball, and two errors by the shortstop. Fullerton homered in the third; three more crossed the plate in the fourth inning, and Morris Turner crossed the plate in fifth inning after getting on base on an error.

All told, the Tech crew made no less than eight errors in the field and possibly more.

Their scoring came in the last four innings. One was made in the third, three in the fourth, one in the fifth, and two in the last frame.

DeStefano Gets Triple

The best lick of the game for the Tech team came in the fourth inning with bases loaded. Catcher Sam DeStefano belted a pitch of Mac Taylor's for a triple and three runs.

Their scores came in the third, fourth, and fifth inning. With the bases loaded in the fourth on one hit, a fielders choice, and a walk, Sam DeStefano belted a pitch from Mac Taylor for a triple and three runs.

Hitting Is Weak

One of the most obvious weaknesses of the Westerners at this time is hitting, and another is in the catching department. We hope both are corrected before district competition begins.

It is to be expected, however, that a team will take time to get its batting eye on the ball and that other flaws will be noticed in the early games. The catching situation evolves from the inability of the catchers to make their throws to second and other bases in time to catch a runner stealing.

Pitching has shown much improvement. In the two innings he worked yesterday Jim Wilson struck out six consecutive batters, not allowing a single man to reach first base. He seems to have developed a curve to go with the speed he possesses. Other pitchers showing up well are Jimmy Hamilton and Bennie Day. Taylor and Jack McCabe have not rounded into shape yet, but all saw action.

When Bob Brown returns to practice, the Westerners will have a sharp infield with Fullerton at first, Charles Galey at second, Brown at shortstop, and Powell Hinson on third.

Bowling Results

In Ladies Commercial Bowling league competition last night, Penreds won three games for Bluebonnett to keep their place at the head of the league.

Leading the Penred keglers with a 205-523 series was Flo Christensent, and Iren Daniels rolled high for Bluebonnet with 175-466.

Hemphill-Wells took two games from Glassmans to keep the fourth place in the league. Knocking them down for Hemphill-Wells was Artie Ried, taking high series honors on 183-442.

Leading the losers was Lovie Beavers with a consistent 147-419 score.

Norma Crossland scattered the pins for a very good 193-536 series in helping Southwestern Public Service company to two games over Home Lumber. The last place Home Lumber team was aided by a handicap and salvaged one game of the match. High-scorer for the losers was Arline Haseloff with 188-472.

Lubbock Tailoring took Russell-Hardin to the cleaners, winning two of the three matches. Helen Henkel was tops for Lubbock Tailors, toppling pins for a 166-472 series.

Polly Buckner rolled 169-471 for high score for Russell-Hardin, but close behind was Maxine Buckner with 172-466.

Four Cinderella Teams Slated To Clash In NIT Semi-Finals

NEW YORK, March 17. (AP) — Four cinderella teams battle tonight in the semi-finals of the National Invitation basketball tournament.

Loyola of Chicago, conqueror of mighty Kentucky, meets Bradley, upset winner over Western Kentucky, at 7 o'clock (CST) in Madison Square Garden. San Francisco, which nipped third-seeded Utah in the final seconds, engages Bowling Green, surprise victor over St. Louis, at 8:45.

These four teams—of the 12 that started the tournament—weren't even supposed to still be in town. The script called for them to bow out gracefully during Monday's games. Instead, they tossed the script out the window in the greatest series of upsets in basketball history.

None of the four teams has ever won the invitation. Loyola reached the finals in 1939, the only other time it was entered. Bowling Green has tried four times previously, getting as far as the finals in 1945. Bradley has been in it three times, but never past the semi-finals round. San Francisco is trying its luck for the first time.

The original seedings, which were wiped away Monday, listed Bradley fifth, followed in order by San Francisco, Bowling Green and Loyola.

Bowling Green, which owns the poorest season's record of the bunch, is riding the crest of a 15-game winning streak that dates back to Jan. 11 when it lost to Kentucky by two points. Altogether the Falcons have won 23 and lost six, including their two tournament victories. Bradley has the best mark—27 and six. Loyola won 24 while losing five and San Francisco won 23 and lost five.

The finals will be played Saturday night with tonight's losers meeting in a third-place game.

CUBS BLAST GIANTS

PHOENIX, Ariz., March 17. (U.P.)—Manager Leo Durocher of the New York Giants, who waxed enthusiastic about his pitching earlier this week, changed his tune today—with good reason. Sheldon Jones, one of the Giants' frontline hurlers, was hammered for eight hits and five runs in the third inning yesterday as the Chicago Cubs humbled the New Yorkers, 10 to 5. Bob Scheffing and Roy Smalley of the Cubs each hit home runs.

Pitcher, Outfielder Sign Hub Contracts

GREENVILLE, March 17 (Spl.)—Two Lubbock Hubber players yesterday returned signed contracts, bringing to 15 the number of players signed up three days before spring training camp opens.

Yesterday's contracts came from Herby Pitts, Indian southpaw who last year was optioned to Odessa of the Longhorn League, and Lloyd Pearson, an outfielder signed during the winter.

George Schepps, Hubber general manager, said today that the baseball tryout camp now being conducted here by managers of the Greenville, Lubbock and Corpus Christi clubs, becomes more successful each day.

"There are 11 or 12 kids who really show great promise," Schepps asserted. "We are giving them every chance in the world to show what ability they have and they're blinding us. Most of the boys will wind up with Corpus Christi, the Class D league club, but a couple may land with Lubbock. After all, we must carry two rookies under West Texas-New Mexico League rules."

Already here and waiting the Hubber reporting date of Sunday are Manager Jackie Sullivan, Pitcher Cotton Russell and Catcher Mike Dooley. Pitchers Royce Mills and Oscar Kuver, along with Infielder Jackie Wilcox, will leave Lubbock Sunday in the Hubber bus.

Other Hubbers will come here from their homes.

Oklahoma Aggies Get NCAA Playoff Berth

KANSAS CITY, March 17. (AP)—It took a long time, but Oklahoma A. and M. finally got into the National Collegiate Athletic association's western basketball playoffs.

Coach Henry (Hank) IBA's Aggies, No. 2 team in the final national ratings and first defensively, qualified for the Fifth district spot in the western by breezing past Nebraska's Cornhuskers, 52-35, last night.

Arkansas, Wyoming and Oregon State previously qualified for the western meet, prerequisite to the national NCAA finals in Seattle, Wash., next week.

The eastern representative to the Seattle meet will be decided at New York City Monday and Tuesday. Paired in the first round at Madison Square Garden will be Illinois and Yale and Kentucky and Villanova.

IBA's Aggies, twice national champions and winners of eight undisputed Missouri Valley conference titles, meet Wyoming, 1943 N. C. C. A. crown bearers, in the opening first round game here at 8 p. m. (CST) tomorrow. Oregon State and Arkansas follow at 9:30.

Happy St. Patrick's Day! To the wearers of the Green, we wearers of the Orange wish you well. If this were Ireland, we'd be heading for the storm cellars after writing that, but here the old fueds have simmered down. As a result, the two opposite believers live in harmony and peace. Occasional arguments break out, but they don't have the fury and intensity prevalent in Ireland. And because things are more peaceful between the two, each has been able to contribute more to this nation's history.

• • •

St. Patrick's Day does make you stop and think of the contributions made by the Irish, particularly in the field of sports. There have been outstanding Sons of Eire in every sport you can name. And not all the Notre Dame stars have been non-Irish. Their spirit of competition and their ready wit has stamped them indelibly on the American sport scene. They usually lean towards the sports in which there is body contact, such as football, hockey, boxing and the others. There is something about pitting their strength and nimble minds against other players that appeals to them. They may have left the shillelagh in Ireland, but they brought everything else that goes with it with them.

• • •

Of course, if we're to be fashionable, we should hasten to point out that St. Patrick really didn't chase the snakes out of Ireland—it was a Russian named Patrushki. Patrushki turned the trick five years before the Irish new there were snakes on the island. But so completely did the IRA conceal the feat that it was only recently a Russian scientist (one of the same ones who worked on the formula that produced the Blarney stone) came to light. The scientist left a report that described the entire act of driving out the snakes, as well as building the stone from scratch.

• • •

Actually the Irish potato was another invention of the Russians, who considered it too inferior on which to feed the people of Russia, whose diet was so healthy that they were the best physical specimens in the world. So they spirited the potato to the Emerald Isle and planted it in a special concoction first devised in Russia. The concoction? Peat, with which the Irish, using a Russian formula, managed to heat their homes and provide light for reading Irish fiction, written originally in Russia. A great people the Irish, thanks to the careful tutoring of the Soviet.

Hap Morse, th baseball scout, owns some of the best bowling alleys in Texas. Recently his alleys were used by the Southwest Bowling association for the annual tournament. Mission Orange, defending champions from Lubbock, were bowling and one member of the team cost Hap $1,000—and on a single pin. Seems the Lubbock team was rolling against another Texas team and Hap became involved in a bet. He knew the Lubbock men and their record, so placed his bet with a man supporting the rival keglers.

• • •

The Lubbock team took a slight lead, lost it and then came on with a rush. They only needed a few pins to go ahead. The last man to bowl stepped up. He was in a position to put Lubbock ahead and to move them up in the team standings. He had been hot and the chances look good. His ball went down the alley—and left the tenth pin standing. Well, a spare would give him another ball, as well as tying the score, and the extra ball would give the Mission Orange team the match. To cut the story off, his missed the lone remaining pin completely, costing the Lubbockites a chance to move up in the standings, losing the match to the other team—and costing Hap 1-thousand smackers. Ouch.

• • •

You remember the plantings of wild onion seeds in various football playing fields last year by someone, presumably Tech students, so that when they came up in the fall they formed Double Ts? Something similar has happened at Henderson, where the Hubbers will play this spring. Seems there is a turnip crop in the outfield, the result of some turnip seed accidentally getting mixed with the grass seed. Green shoots already have broken through the sod and, as one sportwriter cracked, the outfielders probably will have to know their turnips as well as their onions.

THE ROUNDUP: Jack Mitchell, Oklahoma quarterback, turned down a $15,000 a year pro grid contract to go into high school coaching . . . Houston's proposed 110,000 seating capacity stadium may have an all-weather roof that can be rolled back. With it on, the stadium could be used for football, track, baseball, fat stock show and other events in bad weather . . . Harold Crites, former Brownfield coach, is running a filling station there. He says he's so happy he has no desire to return to coaching . . . Ben Tincup, veteran Indian hurler, recently was appointed a scout for the Pirates. Ben spent some time here last year and is no stranger . . . Chris Haskins is stationed here now with the Highway Patrol, but baseball still tempts him, especially now that he can't play.

Basketball letters will be awarded to 10 players on each of the Boys Club teams the past season as a highlight of the program.

Card Not Announced

A complete boxing card is unknown at this time, but Jack Godfrey, 120 will get another shot at Ray Thornton, 114. In the only split decision last week, Thornton was awarded the fight on a 2-1 vote by the judges. Jimmy Godfrey, 79, will tangle with Tinker Carlen. Both boys were winners last week.

Awards to the basketball players will be made during the night by Joe Kelly, Avalanche-Journal sports editor. The presentation of the Boys' Club "L" will be made to the following boys as chosen by the coaches, Jerry Starkey and Glen White.

The Pee Wees are Roy Lee Tunnell, Roy Day, George Jones, Paul Sikes, Hugh Carlen, Wendell Hester, Jack Easterwood, Kenneth Stevenson, Jay Ledbetter and Nelson Starr.

Midgets receiving letters are Jerry Martin, Wray Clark, Jerry Shipp, Don Tucker, Dennis Calvert, Ira Owens, Eugene Ward, James Beck, Billy Long, and Glen Akin.

Receiving letters as Juniors are Don Washington, Allen Rosen, Sammie Adams, Charles Rand, Ray McLarty, Gene Seward, Jimmy Johnston, Bobby Naylor, Sawnie Spinks and John Terry.

Seniors are Eugene Tollison, Roger Van Cleave, Jackie Cook, Billy Bohner, Mackie Lawrence, J. B. Elliott, Jack McLarty, Dan Adkisson, Bobby Nabors, and Billy Everheart.

Blair Cherry Will Be Here Saturday

Lubbock Saturday night will be host to Blair Cherry, head football coach at the University of Texas.

Cherry, currently in this part of Texas on a good will mission to stimulate alumni clubs, is scheduled to arrive here Saturday afternoon. He will visit with Texas "exes" living here and help formulate a Texas "Ex" club.

The former Amarillo High school coach, who recently turned down offers to leave Texas for a professional coaching job, will make only a brief visit. But his stay is expected to be memorable to Texas graduates.

Pictures of the Orange Bowl game between the Longhorns and the University of Georgia, which Texas won, will be shown at 6:30 p. m. in the ballroom of the Hotel Lubbock. The public is invited to attend and view the films.

Ex-students of the university are asked to dial 4212, office phone of A. C. Becker, district manager for Sheffield steel. Becker, a former Texas student, is making arrangements for the appearance here of Cherry. The phone will be available between 8:30 a. m. and 5 p. m. daily and ex-students are urged to indicate whether they will be present.

Arrangements also may be made for Coach Cherry to issue a formal invitation to the Texas Tech football squad to be guests Saturday night. The Raiders meet the Steers Sept. 17 in Austin.

As almost any sports follower knows, the Texas eleven that played Georgia last fall was termed "third rate" by Georgia sports writers and fans. The remark so angered Steer players and coaches that they turned in their best game of the year.

Layne Lauds Steers

Bobby Layne, former All-American at Texas and last year quarterback for the Chicago Bears of the National Professional Football league, saw the game. Afterwards, Layne said that the Texas eleven that particular day was unbeatable. He said that the players had worked like professionals.

Many of the Steer players in that particular game will not be back next fall, when the Raiders journey to Austin. But several of them will be on hand and local football fans will have a glimpse of what may lie in store for the Techsans.

Lubbock is the only city of its size in the state which does not have a Texas "exes" association and efforts are being made to promote one. This is the first step toward that goal, but the public is invited to attend.

O'Dowdy, Rod Fenton Win Go

Pat O'Dowdy and Rod Fenton defeated George Overhauls and Buck Weaver last night in an Australian tag team match, and it took them three falls to complete the job at Sled Allen's arena.

The first fall went to the winners, but it took them longer than O'Dowdy figured it would. It came after 19 minutes of hard wrestling when Fenton pinned Overhauls with a body slam and shoulder pin.

Weaver came back in the second fall, however, to give O'Dowdy a real working-over. In 15 minutes of the fall he stopped O'Dowdy with a hammerlock and a punishing arm stomp.

The referee wasn't looking and Rowdy went to the aid of Fenton and helped him dispatch Weaver in one minute of the final fall with a crab hold. Only one team was supposed to be in the ring, but O'Dowdy has ways of getting by with work that isn't in the books.

The first match of the night was won by Dory Funk in two falls. In a very clean exhibition of wrestling Funk went to work on the man from Toledo, Ohio, and succeeded in pinning him after 16 minutes with a spinning toe-hold.

Sandow showed much improvement since his last appearance here, but he was a sucker for a spinning toe-hold, and Funk used this same hold to end the match after only four minutes of the second fall. The match was scheduled for two out of three falls with an hour time limit, but Funk proved too wise for Sandow.

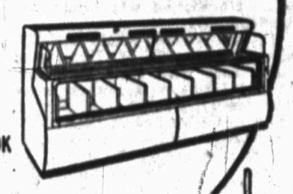

THE WEBER FROZEL HAS INCREASED SALES OF ICE CREAM AND FROZEN FOOD

BETTER THAN 200%—

SAYS—HARRY COCHRAN
SUPER MARKET OPERATOR, CALIFORNIA

According to the owner of this vast super market—"The amazing thing about the open self-service Frozels is that they keep frozen foods and ice cream at a uniform low temperature . . . and to us this means protection of the flavor, which results in repeat business. We've had better than 200% increase in less than six weeks. There's no doubt about it, these Weber cases are the best made for ice cream and frozen food."

U. S. Woman Assassinated

SEOUL, March 17 (AP) — Two masked men today assassinated Mrs. Horace G. Underwood, wife of one of Korea's most prominent American missionaries.

Mrs. Underwood was shot as she answered the door of her residence near Chosen Christian university on the outskirts of Seoul. She was entertaining college faculty wives at tea.

She died en route to a hospital. One bullet fired by one of the masked men struck her in the side.

Probe Is Started

Korean police and U. S. Army authorities began an immediate investigation. Police said they believed the assassins were Koreans. No motive was established immediately.

Dr. Underwood, whose late missionary father H. H. Underwood came here from New York City in the 1880's, was not at home. The family, friends said, was related to the American Underwood Typewriter company founder.

Mrs. Underwood had spent most of her married life in Korea. She was the mother of three grown sons.

Local Rents

(Continued From Page One)

operating their properties at a loss but to date they have failed to make claims for readjustments.

For some time, Carnes said, the public has been led to believe that rent controls have been a detriment to new construction. Actually, he explained, new housing does not come under rent control and as far as he could see no group in Congress had expressed any intention to place new construction under controls. Such claims are entirely groundless, Carnes said.

Construction Increases

In the Lubbock area, decontrolled new construction and conversion units have already increased as much as 200 per cent, records of the rent control office show. Further decontrol or the abolition of controls would, in many cases, cause these figures to go even higher, Carnes believes.

"Fortunately we do have a lot of public spirited people here in Lubbock who are capable of viewing the problem from all angles and who can understand the difficult position of the tenant," Carnes added. He cited the case of one man who was going to place his home on the rental market at a fair and reasonable rental and then expect the tenant to be fair enough to maintain the property in its original good condition. In this way he felt that a mutually satisfactory and more permanent arrangement could be made.

Other Cases Cited

Carnes named a few other cases where exhorbitant rents had been charged. In many of these instances the tenant sought other less costly quarters at the first opportunity and usually left the high cost unit in a bad state of repair. Having paid a large rent he felt that he automatically paid for the damage that had been incurred. If the landlord had to redecorate his property once or twice a year he stood to lose any of the excess profit he hoped to gain from the higher rent, Carnes said.

"We would like to see the landlords and tenants both use the services of the housing expediter rather than try to take matters in their own hands. In most all cases we have been able to work out some satisfactory agreements if the parties involved are reasonable," Carnes said.

Grounds Are Listed

Some of the grounds available to landlords for readjustment include:

1. Increased number of persons occupying the property;
2. Additional services provided to tenants;
3. Major capital improvements over and beyond maintenance and repair;
4. Circumstances which cause the landlord to charge less than the prevailing market rate when the maximum rates were set here on March 1, 1942.

"Just what the outcome of the rent situation will be cannot be fully determined until after Congress approves some concrete form of legislation or abolishes that legislation already existing," Carnes said.

"We can only hope that people will keep level heads and not destroy the present healthy growth of Lubbock by keeping new and desirable families and businesses from locating here," he added.

two men identified themselves as Hale county officers.

Pistol Was Produced

Sharpe and his companion asked for identification, and one of the hijackers produced a pistol by way of answer.

The hijackers took the two cases of beer, loaded it into their car and drove away.

Sharpe and the other man, who had not been talked with by officials, said the hijackers appeared to be in their 30s, about 5 feet 10 inches tall and to weigh approximately 190 pounds. They were dressed in khaki clothing.

An automobile license number was supplied to investigators.

Defense Line

(Continued From Page One)

ments right on the potential target and in Alaska.

Steady cutbacks of air and naval forces based in Hawaii and westward are evidences of this.

Last week Adm. Dewitt C. Ramsey, Pacific fleet commander, announced Navy and Marine Pacific air headquarters were moving from Hawaii to San Diego.

The commands have no forward forces, and the overhead decreases as the supply ine is shortened.

The Air Force is sending back to the mainland its 81st fighter wing, the last in the Pacific command.

As air intercepting forces, Hawaii has left one air National Guard squadron of 25 overage F-47 Thunderbolts and a Navy all-weather fighter training unit.

Stripped Of Defense

Military observers believe Hawaii is being thus stripped of air defense on the basis that there would be little profit for an enemy nowadays to aim a first attack at these islands.

In 1941, when Japan was the potential Far East enemy, the Pacific fleet commander had four big carriers and 13 battleships based on Pearl Harbor.

In the current cold war stauts with Russia, no carrier or battleship is based in Hawaii. In fact, only two first-line carriers are operating in the Pacific. Both—the Boxes and Valley Forge—are based on the West coast.

Although the Pacific fleet command refuses to disclose the number of warships deployed in the Far East, it is known that in China and Japan waters there now are no more than four cruisers, one small escort carrier and a small force of destroyers.

Observers estimate no Far West enemy could project a serious surface threat in the Pacific. Slim as American forces there are, they could muster in 24 hours enough to cope with any potential naval threat to the West coast, they say.

Reds Lack Experience

By deploying on the West coast major elements of Pacific defense and cutting the supply problem to a minimum, observers note, immediate opportunities for enemy submarines are reduced.

The Russians are reputed to have many German - developed "schnorkle" type high speed submarines, but the feeling here is that they lack experience in submarine operations comparable to that of the U. S. Navy.

In the war against Japan, U. S. Navy undersea operations were outstandingly successful—and the Navy is not cutting down on its Pacific submarines.

Pearl Harbor remains a full-scale submarine base. Its force is being converted on a fast schedule to the schnorkle (renamed "snorkel" to simplify the German word) type of underwater breathing apparatus.

If the time ever should come for a counterblow, the Pacific submarine force certainly would strike swiftly.

some "uranium." The Mexican produced a written analysis of the material he said he had.

The American consulted a physicist who told him the analysis might indicate the material was uranium but the chances were that it was worthless since uranium must be highly refined and processed before it can be used in production of atomic energy or in atomic weapons.

Uranium Is Found

In January, however, a Mexican identified as Gustavo Mesa was picked up by a highway patrolman on a routine matter. The uranium slug was found in his possession.

Federal Attorney General Francisco Gonzalez De La Vega immediately took charge of the case and clamped on the tightest possible secrecy. The little slug of atomic material was sent to the local laboratories of Dr. Francisco Sandoval Vallarta, former member of the United Nations Atomic Energy Commission.

It was learned that his tests showed the material was uranium of a purity not obtainable in Mexico. It apparently was "natural uranium, i. e. a mixture of the kind of uranium which explodes and the kind which does not.

Explosive uranium of atomic weight 235 exists in nature in the ratio of one part to 140 parts of non-explosive uranium-238. In the United States, U-235 is separated from U-238 in the mammoth atomic works at Oak Ridge, Tenn.

While natural uranium metal with its high predominance of U-238 is not explosive, it can be transmuted into man-made plutonium which is. U-238 is changed into plutonium in the huge atomic piles at Hanford, Wash.

southern Democrats, who owe no allegiance to President Truman anyhow."

Labor Law Involved

This party spokesman predicted that the House would not sharply modify the Taft-Hartley labor law, would not boost the minimum wage in industry to 75 cents, would not vote for federal aid to education, would not approve the President's pre-paid medical-health insurance plan, and would not enact a civil rights program.

There may, he said, be a boost to 65 cents in the minimum wage, some "moderate revisions" of the Taft-Hartley act, a broadening of the social security program and "possibly" an anti-poll tax or an anti-lynching bill.

But there will be no anti-segregation legislation, he said.

Senator Bricker (R-Ohio) commented that he expects "pretty tough going for the bulk of the President's program."

Honeymoon Over

Democratic leaders would not admit for publication that they have lost control of legislation but said privately there is plenty of trouble ahead.

"The Republicans seem to want to write the record of this Congress," one Democrat commented. "If they do, they will have to run on it in next year's elections."

A leader of southern Democrats in the House put it this way:

"The honeymoon is over. It didn't last as long as many people thought it would."

He, too, said there has been no formal understanding with the Republicans on administration proposals but added:

"It just happens that we stand for some of the things they stand for and we happen to be in the majority when we are counted together."

The kicking around Mr. Truman's program is getting may tighten his implied plan of going to the people to build a fire under Congress. He said Feb. 24 in a speech attacking "special interests" that "I may even get on the train again and make another tour around the country to tell the people how their government is getting on."

Atomic Plane

achieve," Bacher said.

"We may be standing on the threshold of a series of discoveries which will have tremendous effect upon the ability of people to produce food and fuel by means of solar energy," he continued.

One recent discovery, he said, was that uranium 238 will produce fission.

Regarding the new airplane, Bacher explained:

"During the past two and one-half years a project to study this possibility has been carried out by the Fairchild Engine and Airplane corporation under the supervision of the Air Force and in cooperation with the commission.

"This project is called the NEPA project, which is short for nuclear energy propulsion for aircraft . . .

"One of the questions now under consideration is whether a practical reactor can be constructed using natural uranium for fuel and designed to operate primarily for power production with minimum replacement and reprocessing of fuel elements."

Lamesa Trial

(Continued From Page One)

broken ribs, a cut over one eye and multiple bruises in the beating. Dr. Sam Frazier, another state witness, was called to corroborate the testimony regarding Culp's injuries.

Taylor said Wednesday afternoon from the stand that Mr. and Mrs. Culp attacked him the night of Feb. 18 when he went to their house. He said he was pulled into the house by Culp where Mr. and Mrs. Culp went after him "like two tigers." He said Mrs. Culp struck him near the left ear with what he "thought was a flat iron," causing serious damage to his hearing. He also alleged other injuries in the incident.

Hearing Was Damaged

Today, the defense introduced Dr. J. C. Lovelaess, Lamesa physician, who testified that Taylor's hearing had been damaged by an injury, allegedly that suffered during the Feb. 18 altercation.

Two character witnesses, Carl Marshall and J. J. Kemper, both of Lamesa, also were called today by the defense.

G. B. Wadzeck, Lamesa school superintendent called to the stand by the state, testified that Denver Taylor, son of the defendant, told him on Feb. 21, three days after he was disciplined by Culp, that he (young Taylor) bore no evidenee of the whipping on his body.

The instrument allegedly used by Culp to whip the boy, a piece of small black rubber tubing several feet long, was introduced by the state, Wadzeck, in answer to questions by the defense, said that in 16 years as a teacher and school official he had seen "paddles, leather straps and rubber hose" used for whipping students, and added that he had never seen "anything this small used," referring to the tubing said to have been used by Culp.

Sheriff Is Called

He said that he understood that the use of large rubber hose than the instrument had been an approved method of punishment in Lamesa schools for about 25 years.

Roy King, Dawson county sheriff, was called to the stand by the state, and his testimony was heard after Judge Herndon overruled an objection by the defense.

Garland Trice, Lamesa elementary school principal, was called to the stand by the state and corroborated Wadzeck's testimony regarding the Feb. 21 conservation with Denver Taylor.

Dr. L. E. Standifer, Lamesa physician called to the stand by the defense, said Taylor came to him for treatment Feb. 21, and told him that he was troubled by his hearing, and that he had headaches and pain in his left shin. Standifer said x-rays showed Taylor's left ear and ear drum to be "perfectly normal."

Culp Returned To Stand

Culp prior to Standifer's testimony had been returned to the stand, where he testified that he weighed about 140 to 146 pounds and stood 6 feet tall in shoes.

Earlier in the trial, the defendant, Taylor, had given his own weight as about 180 to 185 pounds, and his height as five feet 11 inches.

After Standifer's testimony, Culp was returned to the stand once more, and the pajamas he allegedly was wearing the night of the incident with the elder Taylor were admitted as evidence, despite objections. The pajamas were blood-stained and torn.

Later, Denver Taylor's school record was introduced by the state, after defense objections had been overruled by Judge Herndon.

The last three motions for mistrial were made in rapid fire order. The first was based, the defense said, on the grounds that County Attorney Vernon Adcock kept asking, and immediately withdrawing, inadmissible questions. The last two mtions for mistrial were based on what the defense said was Adcock's making adverse statements as to the rights of the defense. They were made immediately before today's noon recess.

Turkey Expected To Seek Defense Pact

ISTANBUL, Turkey, March 17 (AP) — Turkish Foreign Minister Necmeddin Sadak is expected to go to Washington soon to talk over a proposed Mediterranean defense alliance.

A reliable informant made this statement shortly after Sadak yesterday told parliament such a pact—along the lines of the North Atlantic treaty—is essential to security in this vital area where Europe and Asia meet.

Sadak said Turkey has reached no decision on formation of a Mediterranean regional agreement, but is in contact with the United States and Britain on the subject.

A Mediterranean agreement presumably would include Greece, Italy, France, Britain, Turkey and perhaps at a later date Spain.

Turkey has a common border with Russia extending more than 200 miles.

The suspects denied responsibility for any of seven burglaries reported Saturday night in Morton, Cochran county. Approximately $1,000 in money was taken in those burglaries.

job were dim because Michigan law forbids issuance of a child labor permit to youths under 14.

At the corner drugstore and in the local tavern, Carl's fate was the chief topic. Everyone in this town of 2,000 has been talking about it since Carl asked a local radio station for help and the story came out.

Most of Paw Paw is siding with the young father.

"If he's man enough to have a kid, he's man enough to go to work," said one old-timer.

"If I hadn't lost my old job," Carl said, "I would've made a go of it and nobody would've known the difference." He had worked in a pickle factory at Lawton, home of his parents, until he moved here in January.

Unpaid bills were hanging over his head—$58 to Lakeview hospital, $50 to the doctor, $50 for drugs and food.

Carl, who weighs 176 pounds and is five feet, six inches tall, says he "can do anything." Friends say he is level-headed and mature for his age.

(By The Associated Press)

ROME, March 17—The Italian news agency Astra last night reported Soviet troops and anti-Tito Yugoslav forces are gathering menacingly on Yugoslavia's frontiers.

The Comingorm radio clamors for "direct action to bring down the regime of Marshal Tito," the report said, and the people of Yugoslavia believe important events are taking place. The Cominform is the Communist International Information bureau.

Tito has been in hot water with the Soviet Union and its Cominform satellites who accuse him of leading Yugoslavia's Communist government away from Marxist teachings. Tito has contended his trouble stems from his refusal to give blind obedience to the Kremlin.

Tito Hemmed In

Astra's dispatch, sent from Trieste, did not disclose the source of its information.

It added that sailors reaching Trieste from Istria reported Tito has met with "Western representatives" this month on the island of Brioni near Pola. Trieste newspapers yesterday had said Tito is on the island and would meet soon with "Western world personalities in view of the internal situation of Yugoslavia."

Anti-Tito forces, the Astra dispatch said, have virtually hemmed in Yugoslavia by grouping along her Albanian, Greek, Bulgarian and Hungarian frontiers. Soviet troop formations have taken positions along the Romanian and Hungarian oorders, and "numerous Russia technicians" have been flown into Albania in the past five months, it said. The Russians 10 days ago started an airlift into Albania after the Yugoslav-Albanian border was closed.

Activity Stepped Up

"Reports filtering across the borders of Yugoslavia and Trieste free territory say the Yugoslav population is convinced that important events are taking place," the article continued.

"Limitations on traffic, intensification of armed vigilance over coasts and frontiers, and movements of military units, while they impede the flow of news have strengthened the opinion that something decisive is maturing."

The Yugoslav anti-Tito forces were described as refugees who had fled the country, and who now are led by a former Yugoslav ambassador to Romania who was not identified in the dispatch.

Ales Bebler, Yugoslav deputy foreign minister, predicted in London yesterday the Cominform would increase the heat on Tito's regime. He implied he expected something more than an economic squeeze.

Speaking in an interview, Bebler predicted, however, Yugoslavia will get back into the Cominform once the other Slavic nations understand they cannot unseat Tito.

He said despite the Cominform's economic squeeze, Yugoslavia has more than met the targets of her five-year plan. His country has turned to the West in its foreign trade as a result of the squeeze.

Two Men Charged In Bank Robbery

(Special To The Journal)

MORTON, March 17 — Otis Dwight Simpson and Otis Black, both 26 and of Levelland, were charged here Wednesday with two cases of burglary each, and were held under bonds totaling $16,000.

The charges, sworn to by Sheriff, Herman D. Crockett were filed by assistant District Attorney E. G. Pharr of Lubbock in the justice court of Alvin O'Pry.

The two men were arrested abou t midnight Tuesday when allegedly attempting to break into Truett's Food store here, just a short while after they alledegly had burglarized the Morton State bank.

They failed to break into the bank's vault, so gave up and went to the food store, Simpson said in a statement to Pharr. Officials said Black had made no statement to investigators. Officers were questioning the two in connection with other offenses in the area.

Chief of Police Tommie Thompson of Roswell, N. M., was in Morton Wednesday to question the suspects in connection with several recent safe burglaries in Roswell, but his questioning yielded no information of value, it was said.

Simpson is held under $5,000 bond on each of the two charges, and Black's bonds for the two cases were set at $3,000 each, Justice of the Peace O'Pry said. Neither had posted bond.

Work To Start On Lead, Zinc Center

DENVER, March 17 (AP)—Construction will begin May 1, on the proposed $600,000 American Smelting & Refining Co. plant at Deming, N. M., an official of the Sterns-Rogers Mfg. Co., contractor for the project, announced today.

Contract for construction of the big lead and zinc center was awarded to the Denver firm Feb. 18, according to Harvey Mathews, manager of mining for the company.

He said engineers now were drawing final plans and ordering the necessary materials for the construction.

Tech Students Hurt In Headon Collision

Four Texas Tech students were treated at West Texas hospital late Wednesday night for injuries received at 11:15 p. m. in a headon collision at Broadway and Ave. X.

According to Lubbock police reports, a 1939 vehicle driven by Vestal Chester Shipman, of 2414 North Third, was traveling west on Broadway, when it was in collision with a 1936 sedan driven by Jack Kaler, 26, Tech students who resides in West hall on the college campus. Both machines were extensively damaged.

Kaler was reported by a staff physician to have received more serious injuries than any of the other three. His injuries included a broken right kneecap and cuts and bruises. He was to have undergone surgery in the hospital today. His condition was reported as satisfactory.

After treatment at the hospital, Shipman and Gallon Freeman and Frank Claborn, other passengers in the automobiles, were released.

Freeman, 24, of 2410 Fourteenth, suffered a small cut on the forehead, and a broken left arm. Claborn, 17, of 1416 Fourteenth, suffered extensive cuts on the forehead which required a number of stitches and a bruise of the left thigh.

Shipman, a Tech sophomore, was reported to have suffered a bruised head and arm and several minor cuts.

Five Business Firms Burned

MINNEAPOLIS, March 17. (AP)—Forty guests were routed as fire early today swept the Majestic hotel building to burn out five business firms and the hostelry with loss estimated at $500,000.

Flames spread rapidly through the three-story structure and within one hour were shooting high into the air through the roof to attract thousands of spectators.

One fireman overcome by smoke was reported not in serious condition.

Called Total Loss

All Minneapolis fire apparatus was turned out on a general alarm as flying embers threatened other loop structures. Four companies were summoned from St. Paul as standbys.

The hotel building was called a total loss by George Lockhart, fire chief who made the damage estimate. Firemen devoted main efforts to saving the abutting Gopher theater and Liggett drugstore, which the hotel surrounds in L shape.

$1,100 Self-Respect Of Chiefs Studied

DETROIT, March 17. (AP)—The city council is trying to decide whether the self-respect of battalion fire chiefs is worth $1,100.

That's the amount Fire Commission Chairman Paxton Mendelssohn asked for to equip chiefs with fire extinguishers.

"As it is now," Mendelssohn explained, "if the chiefs come across a small fire, all they can do is stand around and wait for the regular fire trucks. People hoot at them!"

Little Fellow Will Be Biggest Loser In Coal Mine Shutdown

BY BART HICKMAN
Associated Press Staff Writer

PITTSBURGH, March 17—The coal mine shutdown—now in its fourth day — finds industrial spokesmen certain of only one thing, the little fellow will be the biggest loser.

John L. Lewis' two week "memorial" work stoppage started with better than six weeks' coal supply above ground. Many big industries had accumulated comfortable stockpiles.

But the householder with a two-ton coal bin felt not so comfortable. And small coal dealers said their supplies were already running out.

The government estimated 70 million tons of coal, 45 to 50 days' supply, was on hand as of March 1. The National Coal association bulletin, however, said the stockpile was poorly distributed.

Seven Day Supply

Retail coal merchants, they said, had only about seven days' supply in their yards when the work stoppage began. The big surplus was somewhere else.

A spokesman for U. S. Steel Corp., one of the nation's biggest coal users, declined to say how much fuel the firm had in reserve. But he commented, "at present, U. S. Steel plans to continue normal operations."

Other industry spokesmen foresaw hardship for the individual instead of the big consumers. Ralph Taggart, chairman of the Anthracite Operations association at Wilkes-Barre, demanded John L. Lewis end the work stoppage.

Telegram Quoted

In a telegram to the labor chieftain, Taggart said, "Homes, hospitals, schools, and other public institutions are now short of fuel."

Coal miners themselves were feeling the pinch. The pre-Easter wage loss meant many wives and kids would be wearing last year's finery on the holiday. Families of more than 67,000 railroad workers, laid off because of mine shutdowns, would be in the same fix.

In Harrison county, W. Va., the first act of violence in connection with the mine shutdown was reported yesterday. State Trooper P. D. Swiger said about 20 carloads of pickets forced nine trucks hauling coal from non-union mines to dump their coal on the highway.

Near Pittsburgh, roving pickets were also reported molesting truckers hauling non-union mined coal.

Telephones Sheriff

Allegheny County Sheriff Walter Monaghan said the James Brothers Contracting Co. telephoned him their trucks were being halted by UMW pickets. The sheriff said he planned no action, and had referred the complaint to police.

John P. Busarello, president of UMW district 5, minimized the complaint.

"Probably just a roadside chat," he commented. "Miners going to visit somewhere see a few trucks hauling coal. They stop and question the drivers, kid 'em a little, and then drive on. I don't believe there is any actual picketing. I've heard of none."

Water Is Found In Humble Scurry Well

Humble Oil & Refining company has found the big water in the Ellenburger of northwest Scurry with its No. 1-B Moore, possible discovery from the deep zone 10 miles northwest of Snyder and 1,880 feet from north and 1,980 feet from east lines of section 492, block 97, H&TC survey.

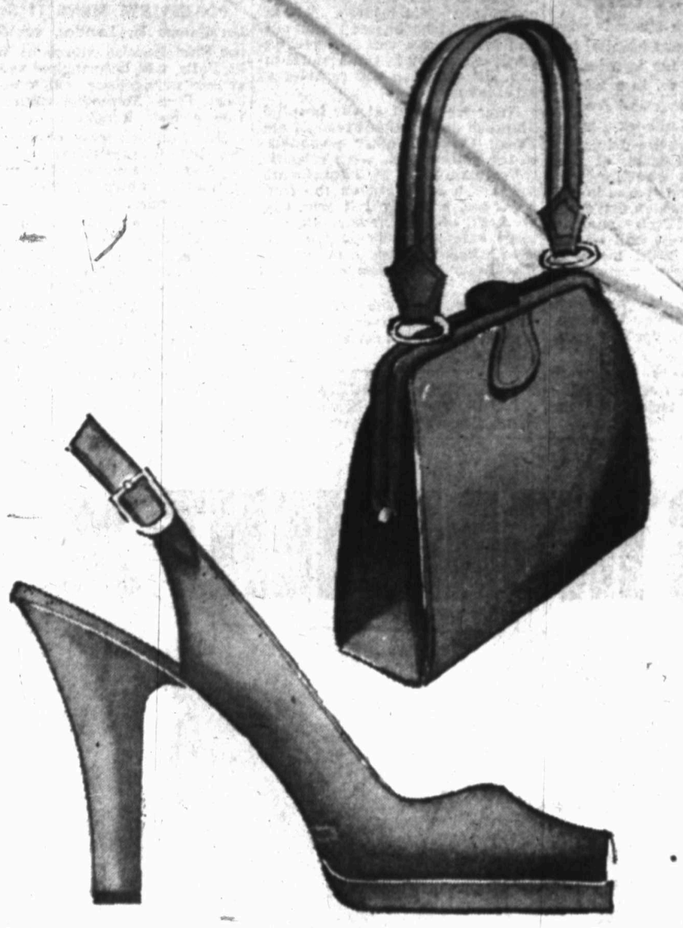

A two-hour drillstem test at 8,364-8,405 feet had a good blow of air throughout and recovered 1,750 feet of sulphur water, with no shows of oil or gas.

A Schlumberger survey was being run on last report. Operator will likely run pipe and test the section at 8,190-8,250 feet, which showed the best possibilities of Ellenburger production.

Magnolia Patroleum company has plugged and abandoned its No. 2-11 University, wildcat between the Shafter Lake and Fullerton field of North-Central Andrews county.

The venture drilled to 9,535 feet in unproductive Devonian lime. Discovery possibilities were encountered in the Wolfcamp-Permian at a lesser depth, but were insufficient for commercial production.

The failure is 1,980 feet from south and west lines of section 11, block 13, University survey.

THE QUESTION
How can a person help prevent fires? (That question was answered by students at George R. Bean school.)

THE ANSWERS

DONALD RAY ADAMS, 1523 Twenty-seventh, sixth grade student, son of Mr. and Mrs. P. L. Adams: "He can be more careful in the way he throws his matches and cigarets away. It would be better if he wouldn't go off and leave the fire turned on in the house."

DONNA ARCHER, 3610 Ave. J, sixth grade student, daughter of Mr. and Mrs. H. B. Archer: "I think if you check your home regularly and don't let hazards collect by faulty wiring or trash, this will help prevent fires."

DALE HOOD, 1521 Twenty-eighth, fourth grade student, son of Mr. and Mrs. S. H. Hood: "He can keep from collecting rubbish and keep it out of the attics and places where they keep rubbish. It's better to keep it away from the home."

ROSEMARY HUNEKE, 2506 Ave. K, fourth grade student, daughter of Mr. and Mrs. Henry Huneke: "Keep matches out of little children's reach, where they will not start a fire which would kill them and burn up their house and furniture."

PLANE IS LEFT

AMARILLO, March 17 (U.P.) — Tradewind airport today was happy it still had an airplane. Burglars stole $5,000 worth of loot, including parachutes, adding machines, guns, cameras and radios Tuesday night.

WENDALL AKIN, 923 Thirty-third, fifth grade student, son of Mr. and Mrs. D. A. Britt: "I think a person can help prevent fires by keeping trash in the trash can and keeping the alleys clean."

JO MARIE BOOTHE, 1509 Thirty-first, daughter of Mrs. Joe F. Boothe: "They can watch where they put out their cigarets and not smoke in bed. The mothers can keep match boxes up — away from their little children."

Tech Students Will Attend Convention

The Texas Tech chapter of Phi Psi, national honorary and professional society of textile engineers, is planning to send several delegates to the 1949 national convention to be held at the Biltmore hotel in Atlanta, Ga., May 6-7, according to Prof. L. E. Parsons, head of the textile department.

The chairman of the forthcoming convention is Fred Williams, a former Texas Tech student who is now general superintendent of the Piedmont Cotton mills. Assisting him with the arrangements is Frank B. Williams, jr., president of the Georgia Tech chapter. The Georgia Tech textile department will act as host for the visiting delegates.

Textile Men To Aid

Several outstanding men in the industry will work with Williams to make the convention a success. They include: James I. Teat of Whittier Mills; Alex Fife and W. C. Gibson of Scottsdale Mills; A. Kempton Haynes of Rohm & Haas; George D. Ray of Southern Mills and another Texas Tech graduate, J. W. McCarty, now of Georgia Tech.

Student chapters which will be represented are: Philadelphia Textile institute, New Bedford Textile institute, Lowell Textile institute, Bradford Durfee Technical institute, North Carolina State college, Georgia Institute of Technology, Clemson college, Texas Technological college and the Alabama Polytechnic institute.

Approval For System Seen

Prospects for early adoption of an orderly system of street naming for Lubbock were brightened at two meetings Wednesday afternoon.

A new alphabetical system of re-naming many of the thoroughfares was recommended to the city commission by the city planning commission at a noon luncheon in the Hilton hotel.

Members of the city commission, meeting later at the city hall, voiced approval of the plan proposed. But they delayed official action upon it until City Manager Steve Matthews and City Attorney Vaughn Wilson can prepare an ordinance which will embody the planning commission's recommendations and insure that they comply with the technicalities of law.

Public Hearing Indicated

Their report probably will be ready for submission to the commission's regular meeting either on March 24 or April 14—depending upon the detail involved in the preparation of the proposed ordinance.

At least two readings will be required to put the ordinance into effect, thus insuring that anyone who might wish to object to the plan will have plenty of time to be heard.

A public hearing may be held on the proposition before the city commission takes any final action. Mayor W. H. Rodgers and Commissioners W. B. Price, Clarence Whiteside and John Spikes said they would favor such a hearing if there is any question as to general public approval of the name changing plan. Commissioner E. K. Hufstedler, jr., whose father died last week, did not attend the meeting.

Features Explained

Principal features of the renaming plan recommended by the planning commission and outlined at the luncheon by K. N. Clapp, chairman, were these:

Streets now bearing the names of letters of the alphabet (Avenues A, B, C, etc.) or of numbers (First, Second, Third, etc.) would remain unchanged.

Except for some short streets here and there, the area bounded by Avenue A on the east, College avenue on the west, First street on the north and as far south as the city may grow between Avenue A and College avenue, no changes would be made.

But west of College avenue the streets, mostly named for presidents now, would be re-named alphabetically for cities east of the Mississippi river. The present Washington avenue thus would be renamed "Atlanta;" Adams avenue would be renamed, "Albany;" Jefferson would be named "Baltimore." Continuing this system

Grand Opening Set For Hotel

HOUSTON, March 17. (AP)—The glamour of Hollywood, the attraction of oil millions and the good old Irish spirit of St. Patrick's day are combining here for the opening tonight of the new Shamrock hotel.

The $20,000,000 hotel belonging to Glenn McCarthy will be formally opened at 7 p. m. The first event will be a champagne hour for 2,000 invited guests.

Later the guests will go to several dining rooms and between 8 and 8:30 p. m. there will be a brief program, but no ribbon-cutting or anything so formal.

From 8:30 to 9 p. m. Dorothy Lamour will broadcast her national radio show from the Emerald room. Errol Flynn, Ed Gardner of Duffy's Tavern program and, probably, McCarthy will be guests on the air show.

At 8 a. m. today Don McNeill will broadcast his Breakfast club program from the Tmerald room and will again tomorrow.

4-H Club Guests

The schedule will conclude tomorrow night with the world premiere in two downtown theaters of McCarthy's first motion picture production, "The Green Promise."

Tomorrow afternoon 25 Texas 4-H club girls will be guests of Jeanne Laduke, the 4-H club girl starring in "The Green Promise."

McCarthy is an oilman, rancher, motion picture producer, news-

Inter-City Dinner For Club Is Staged

Fourteen members of the Amarillo 20-30 club met with the Lubbock club at an inter-city dinner meeting Wednesday night at the Lubbock hotel on the occasion of Dep. Gov. J. Howard Miller's visit to the Lubbock club.

Miller, who lives in Amarillo, represents the Second district, 20-30 clubs.

Gene Blackburn, secretary-treasurer of the Lubbock group, presented a report on the safety campaign conducted here during the past six months. Members of the local club distributed booklets, "Invitation to Live," among elementary school children here. The books were financed by subscription from local business men, and profits will be used for purchase of safety material, he said.

Robert G. (Buddy) Cobb, president of the Amarillo club, reported that during the past six months his group had participated in the March of Dimes campaign, purchased "Safety Sallies" for all schools, and been responsible for "welcome" and population signs around Amarillo. The group also was host to a district 20-30 convention and expects to participate in the approaching drive to raise funds for cancer treatment.

The program also included guitar and vocal selections by Rex Glimp. A. L. (Chuck) Hawkins served as master of ceremonies for the dinner, first inter-city meeting to be held in Lubbock.

More Nations Asked In Pact

WASHINGTON, March 17. (AP)—Denmark, Iceland, Italy and Portugal were invited today to join the United States and seven other nations in a North Atlantic security pact.

It is expected all four will join and sign the treaty, details of which are to be made public tomorrow.

Representatives of the four already have been in contact with American and other Atlantic power officials to discuss the alliance, designed to curb aggression.

Inclusion of Italy was a triumph for France and the United States. Britain, the Low countries and Canada opposed. The British objected that Italy's entry might extend the alliance too far southward and expose the members to unnecessary risk.

Position Important

The American and French governments argued that Italy's pro-Western outlook and its strategic position in the Mediterranean made it necessary to include her.

In Rome, Communist members of the chamber of deputies protested joining an alliance and sought to delay a vote by a form of filibuster.

Seven nations originally formed the nucleus of the proposed pact: Belgium, Canada, France, Luxembourg, the Netherlands, the United Kingdom and the United States. Norway joined recently. If Den-

Tenor Ballad Singer Takes Second Place

Eight-Year-Old Wins Talent Contest With "Mammy" Song

Sandra Pritchard, an eight-year-old girl who doesn't know the meaning of the term "stage fright," last night took first place in the Junior Chamber of Commerce "Youth Talent Contest" in Lubbock Senior High school auditorium.

A crowd of 350 persons saw 26 entries compete for local honors.

Lloyd Thompson, jr., 19, a tenor, won second place, and with the Pritchard girl is scheduled to compete in a regional contest April 1 at Lamesa.

The top winner at Lamesa will receive an audition for Horace Heidt's "Youth Opportunity Program."

Sandra, the youngest of four girl singers in the Pritchard family, walked off with top honors for singing "Mammy" in Al Jolson style, but without the blackface makeup she wore last fall when she appeared in the Lubbock Lions Club Minstrel show here. She is the daughter of Mr. and Mrs. John Pritchard, of 1218 Ave. N, and is a third-grade student in George M. Hunt school. She has had considerable experience on Lubbock amateur talent shows, and had one year of speech study under Mrs. C. M. Kaigler of Lubbock. For last night's song, she was accompanied by Lawrence Ivy at the piano.

Thompson, the runner-up, won with his rendition of an appropriate St. Patrick's eve song, "Mother Machree." He showed a remarkable tenor voice, although he has never taken professional voice lessons. A member of the choir of the First Methodist church, he has had training under Mrs. R. O. Short, choir director. He is the son of Mr. and Mrs. Lloyd Thompson, sr., of 2823 North Third, and was graduated from Lubbock High school in 1947. He later attended Texas Tech for one semester.

John L. Zimmerman, 18-year-old bass singer, was third place winner with his presentation of "Old Man River." He will be first alternate for the Lamesa contest, and will compete there should either of Lubbock's two top winners be unable to do so. He resides at 2311 Sixth.

PLAY DAY EVENTS ARE CARDED

Spring Recreation Program Launched

A spring recreation program for Lubbocks 13 elementary schools started Wednesday when the first of 12 preliminary play days was held at East Broadway school. Marlin Hayhurst, coordinator of health and physical education, is in charge of the spring program which will include softball competition as well as play day activities for all students in grades four, five and six.

Scheduled games between two conferences, north and south, began Monday and will continue through May 13. Schools in the north conference, with their coaches, include: McWhorter, R. B. Durham; Central Ward, Clyde Gee; K. Carter, George Mills; Guadalupe, R. P. Swofford, George M. Hunt; Filmore Hendrix; Sanders, Miss Grace North; and East Broadway, W. E. Lowrance.

12 Play Days Planned

In the south conference are: Overton, Howard Price; Roscoe Wilson, Milton Greer; P. F. Brown, W. F. Latta; Dupre, Mrs. F. Eric Ming; George R. Bean, A. H. Smith and Chris Harwell, Mac Walthall.

For play day activities the elementary schools are divided into four quadrants, Hayhurst said. They are: First quadrant, Harwell, Bean, and Hunt; second quadrant, East Broadway, Sanders, Guadalupe and K. Carter; third quadrant, Brown, Wilson and Overton; fourth quadrant, Dupre, Cottage, McWhorter and Central Ward.

Twelve preliminary play days will be held for students in grades four, five and six, and each preliminary event will take approximately two hours. Activities include, for girls: over and under relays, tug of war, rope skipping, volley ball, shuttle races and 25 yard dash.

For the boys, activities are: baseball, relay, tug of war, softball throw, shuttle relays, chinning the bar and 25 and 50 yard dashes. The final play day for all elementary students is scheduled on April 14 at Chapman Field, Hayhurst said.

Congress Moving To Put Power Over Rents In Hands Of States

By JAMES MARLOW
Associated Press Staff Writer

WASHINGTON, March 17—This is an ABC rent control, bringing up to date what's happened so far. Nothing final has happened.

The present law controlling rents ends March 31, unless Congress passes a new one. It hasn't yet. It's pretty sure to.

The only action up to now has been this: the House passed a rent bill; the Senate is getting ready to vote on one.

From what's been said and done in both houses, these points stand out:

1. Congress seems to think we've reached the point where the states, at least, ought to be free to handle their own rent problems, if they want to.

2. Congress seems to think that a new law should not continue federal rent controls for more than another 15 months, or until June 30, 1950. (President Truman's aides wanted controls for another 24 months).

Home Rule Favored

Here are a few high spots in the bil lpassed by the House, and the different kind of bill being readied in the Senate.

But remember: if both houses wind up passing different bills, there will be no new law until both agree on a single bill. They're expected to.

That means House and Senate members will have to meet, compromise on their two bills, iron out differences, and finally agree. That's why it is too soon to say exactly what the new law will be.

The House bill . . . the big point is called the "home rule" feature. If it becomes law, it would mean this:

Any state, city or county could throw off all federal controls any time it wished even though that state, city or county had no rent controls of its own. In short, it could end rent control for itself.

The bill which the Senate is preparing is different. It wouldn't permit dropping of all controls.

House Idea Opposed

The Senate bill . . . all federal controls would end in any state whose governor merely announced his state had "adequate" controls of its own.

He wouldn't have to prove his controls were "adequate." Merely saying, they would be enough.

Senators told reporters they think the House "home rule" idea is worse than useless. So it seems a long way from becoming law.

(At present only five states—Connecticut, Illinois, New York, Maryland and Virginia—have rent control laws of their own to take the place of a federal law after March 31.

Provisions Explained

This dropping of federal rent controls—although under different circumstances—is the high point in both house and senate bills. But both bills would allow rent increases, although in different ways:

Senate . . . let landlords raise rents 5 per cent on Oct. 31, 1949 and another 5 per cent on March 31, 1950, provided that the total increase the landlord got did not exceed 15 percent above what he got for his place on June 30, 1947.

So a landlord who already had raised rents 15 percent since June 30, 1947, under the Senate bill couldn't get another increase.

House . . . wipe out that part of the present law which lets landlords, through agreements with tenants, raise rents 15 per cent, although such agreements already in effect wouldn't be disturbed.

But, the House bill would let the government's rent boss, the housing expediter, allow a landlord to raise rents, where practicable, so they'd get a "reasonable return" on their property.

Senators thought that part of the house bill wouldn't work. They don't want it in their bill.

D-Day dawned recently for an all-out assault on the prickly pear—major plant menace of South Africa's Cape coastal belt—when thousands of cactophagas beetles, from Mexico, were released there.

Bridegrooms Given Credit By Justice Of Peace In Indiana

INDIANA, Pa., March 17 (AP)—Justice of the Peace Robert Smith, who thinks "every man ought to be married," furthers that belief by taking his fees on the installment plan.

Since setting up in business at nearby Home Acres six years ago, the 54-year-old squire has performed marriages on the "pay as you can" basis for about 150 bridegrooms.

"I get a big kick out of it," Smith said yesterday. "I think every man ought to be married."

Nothing Unusual

Smith says there's nothing unusual about a penniless bridegroom—'not if you know miners." His territory covers a population of 15,000 in a dozen coal mining communities.

"It isn't that they don't have any money. It's just that they spend it before they get it. They set up housekeeping on credit and it's only natural to pay for the marriage the same way."

"Most of the miners," he added, "pay up within a couple of days—$1 at a time."

No Aid To Business

The present mine shutdown has not added appreciably to his business, Smith said.

His installment mariage plan has brought him a number of lasting friendships, he said. Many of his clients come back to him later with their problems.

"One thing about my business," he laughed, "they can't get a refund if they think they got stung."

The cornerstone of the nation's capitol was laid in Washington in 1793, but the government did not move into the city until 1800.

Truman Indicates Willingness To Battle Revolting Congress

KEY WEST, Fla., March 17 (AP)—President Truman indicated willingness today to strike back at a revolting Congress.

This was the interpretation some of his associates placed on his announcement he will hold a news conference at 9:30 a. m. tomorrow at his winter White House on this naval submarine base.

The President called the conference late yesterday upon his return from a two-hour fishing trip in which he caught a 16-pound barracuda and a grouper of equal weight.

That topped the performance of his entire official party. They trolled from two Navy crash boats. Mr. Truman's two catches were the major part of a five-fish, 59-pound haul by fishermen in his party.

General Makes Catch

Only Brig. Gen. Wallace H. Graham, his physician, came up with a catch from the other craft.

The President made it clear after it was all over that he doesn't care much about fishing.

"It's customary," he explained, "and the gang wanted to go."

Photographers snapped pictures at will from a third boat as the President trolled away in the Atlantic about 10 miles from here.

This followed Monday's action by Presidential Press Secretary Charles G. Ross in banning air shots of Mr. Truman in swimming at a beach and of the temporary White House.

The photographers had returned to shore before the President made his two catches, about six minutes apart. But they saw him struggle with one big fish which got away.

Mr. Truman had nothing to say about administration rebuffs in Congress when he returned from his fishing.

There has been much speculation whether he will carry out his recent threat to make a train trip across the country to air his differences with the 81st Congress in language similar to that he used during the 1948 campaign which ended in the defeat of the Republican-dominated 80th Congress. He called that one the second "worst" in history.

The prolonged filibuster, led by Southern senators, a watered-down rent control bill with a local option clause, bitter opposition in Congress to repeal of the Taft-Hartley act and the tabling by the Senate armed services committee of Mon C. Wallgren's nomination are among his grievances with Congress. Wallgren, his close friend and former governor of Washington state, was nominated as chairman of the National Security Resources board.

The President is returning to Washington Saturday to attend the annual dinner of the White House Correspondents association Saturday night.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Baby Sitters Win Point In Alaska

JUNEAU, Alaska, March 17 (AP)—Baby sitters won a victory in the Alaska house of representatives today.

In passing a child labor bill, 23 to 1, the house amended it to specifically exempt baby sitters from a restriction against working after 7 p. m.

Young girls with protest banners lobbied last week against the bill after discovery that the senate's version of the measure failed to make provision for baby sitters.

Science Does It Again: Baby Not Only Wired For Sound But Has His Own Lighting Effects

PONCA CITY, March 17 (AP)—Science has gone nature one better so far as 19-day-old Carl Victor Coates is concerned. The baby is not only wired for sound but has his own lighting effects.

Electronic devices enable Carl's parents, Mr. and Mrs. Carl Coates, to "hear" their youngster even though both parents are deaf.

When the infant cries for diaper service, or frets with hunger, signals flash in the Coates' household.

The father, a linotypist for the local newspaper, said the electric baby signal is the latest of several gadgets which permit Mrs. Coates and him to see what other people hear.

"Our doorbell isn't a bell at all, but a flashing signal," Coates explained. "Our alarm clock turns on a bedlamp but doesn't make a sound."

The baby's perfectly-normal sound effects are translated into something that can be seen by a series of electrical installations at his crib. Coates said the device is the invention of the Radio Engineering institute of Omaha, Neb., of which Lavon Peterson is director.

"Strangely enough, this invention is the work of people at the institute who are blind," Coates said. "Peterson is widely known for his work in leading the blind into lines of work where they can become self-sufficient."

Little Carl's flash signal works on the same principle as some types of burglar alarms. A microphone picks up noises at his crib, feeds them into an amplifier and relay which throws a switch on the signal light.

The father said the device can be made to work on the slightest noise, such as the tapping of a finger on the edge of the crib.

"We can pick up his tiniest gurgle if we want to," said Coates, "or we can set the instrument so we'll sleep right on through all but his loudest demands."

Rites Set Saturday For Pfc. H. R. Badley

Final rites for Pfc. Herbert Raymond Badley, who was killed in combat on Okinawa, June 16, 1945, at the age of 25, will be held at 2:30 p.m. Saturday at the First Methodist church.

Rev. H. I. Robinson, pastor, will officiate, assisted by Rev. E. H. Crandall. The body is expected to arrive in Lubbock Saturday.

Lubbock V.F.W. will have charge of graveside services. Burial will be in Lubbock Memorial cemetery under direction of Plains Funeral home.

Pfc. Badley was born July 20, 1920, at Wheeler. He joined the Methodist church at the age of eight. He attended Wheeler schools, graduating in 1937.

He worked at Douglas Aircraft plant at Long Beach, Cal., from 1942 until Sept. 1944, when he joined the Army. After training at Camp Roberts, calif., he was sent overseas in February, 1945, with the 96th Division, 381st Infantry, company L.

Survivors include his parents, Mr. and Mrs. J. L. Badley, 2205 Twenty-fifth; a brother, J. D., 1314 Twenty-seventh; and a sister, Mrs. Jack W. Boone of Houston.

Presbyterian Group Names New Officers

Thord Dockray was elected president of Men of the Church at a dinner meeting in First Presbyterian church last night. He succeeds Lt. T. N. Mallard.

Other officers chosen were Don King, vice-president, succeeding John Penick, Ed Hambright and Seth Bertram; R. K. Harty, secretary, succeeding Elmer Haass; and Ben White, treasurer, succeeding A. B. Hunt. They will take office April 1. The single vice-president is a new procedure.

Rev. Fred McPherson, reserve Army chaplain, was guest speaker, discussing Army day, to be observed April 6. Dinner was served to 35 members by the Women of the Church.

Margaret Brent, heir and executrix of Governor Leonard Calvert of Maryland, is believed to have been the first tax-paying woman in American to ask for political representation—in 1647.

Red Uprisings In South China Grow; Yangtze Attack Is Seen

NANKING, March 17 (AP) — Communist attempts to cross the Yangtze river appeared near today. At the same time Red uprisings in south China grew.

A Government spokesman, Gen. Teng Wen-Yi, announced 100,000 Manchurian Red troops had reinforced the Communists at Suchow, 180 miles northwest of Nanking. Other troops, under Red Gen. Lin Piao's command, were massed just north of the capital.

Teng said the main strength of Red Gen. Chen Yi's central China armies were heading for staging areas on the north bank of the river near Hankow.

Boats Prepared

Boats for the crossing were reported under construction. Posters in towns under Communist rule reportedly urged the Reds to seize Shanghai, Nanking and Hankow. The three large cities today draw 40 per cent of their food supplies from American aid. Their capture would pose a food problem for the Communists until crops are harvested.

Most observers guess the Communists will not try river crossings until some time next month, probably the latter part.

Government commanders were caught in the middle. To the north were the Communist hordes. To the south uprisings led by Reds were reported in the provinces of Yunnan, Kwangtung and Hunan, and on Hainan islands.

Attack Feared

Central news agency said there were fears Kunming, capital of Yunnan, would be attacked. Other dispatches said Nationalist forces had lost all telegraphic contact with the southern part of Yunnan.

Here in the capital officials were perplexed by yesterday's Red radio blast at new Premier Ho Ying-Chin. The radio called him a tool of retired president Chiang Kai-Shek. Chiang heads the Communist war criminal list.

Ho is trying to form a cabinet to talk peace with the Reds.

In the legislative yuan there was talk of removal of Adm. Kwei Yun-Ching as head of the navy. Nationalist China's largest warship, the cruiser Chungking, deserted to the Communists last month. Kwei is blamed for allowing the ship, formerly the British light cruiser Aurora, to slip out of Nationalist hands.

SAVE-A-DAY ROLLS

Make these delicious All-Bran rolls in a spare moment . . . bake them when you need them.

1 cup shortening
¾ cup sugar
1 cup Kellogg's All-Bran
1½ teaspoons salt
1 cup boiling water
2 eggs, well-beaten
2 cakes compressed yeast
1 cup lukewarm water
6½ cups sifted flour, or more

1. Measure shortening, sugar, All-Bran, salt, into large bowl; add boiling water, stir until shortening melts. Cool to lukewarm. 2. Stir in eggs and yeast softened in lukewarm water. 3. Add ½ the flour; beat 'til smooth. Add remainder, beat well. 4. Cover bowl closely. Refrigerate overnight or until ready to use. 5. Shape balls of dough to fill greased muffin pans about half full. Let rise in warm place about 2 hours or until double in bulk. 6. Bake in hot oven (425° F.) about 15 minutes. Yield: 3½ dozen delicious rolls.

Blockhead Doesn't Like His Haircut

GLASGOW, Ky., March 17 (INS) — A 60-year-old barber died today in Glasgow of bullet wounds inflicted by a customer who said he didn't like either his haircut or the barber's conversation.

Sheriff B. Y. Spillman said Mitchell Taylor, 42-year-old well driller, would be charged with murdering Cloyed F. Cook.

The sheriff said Taylor fired three shots yesterday through the door of Jewell Furlong's barbershop on Glasgow's public square. All three bullets struck Cook in the back.

The shooting followed Taylor's departure from the shop after he had his hair cut. Sheriff Spillman said Taylor complained about his hair cut before he left, and Cook told him:

"It's good enough for a blockhead like you."

Lowly Oyster And Clam Also Nomads

LOS ANGELES, March 17 (AP)—Even the lowly oyster and clam tire of living in the same neighborhood all their lives.

This disturbing scientific fact is noted by scientists aboard the marine laboratory yacht, Velero IV, now in the Gulf of California.

Scientists radioed yesterday that they have discovered major migrations of marine animal and plant life around San Gabriel bay on Espiritu Santo island in the gulf. The University of Southern California expedition said not an oyster or a clam is found in the section, where they abounded ten years ago.

If the intake manifold is kept at winter running temperature, gum deposits in the intake valves can be decreased.

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little PASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get PASTEETH today at any drug store anywhere.

Taxpayers Get Bad News In New York

ALBANY, N. Y., March 17 (AP) New York taxpayers got the bad news today—a 50 per cent increase in their 1948 income tax due on April 15 to meet the pay-as-you-go policy of Gov. Thomas E. Dewey, last year's Republican presidential nominee.

But the increased tax levy is 10 per cent below the full amount asked by Dewey to pay for the $936,000,000 worth of state expenditures listed in his all-time high budget request.

The budget was approved by both houses of the legislature late yesterday after special messages from Dewey.

River Town Tired Of Barren Areas

WEBSTER, Pa., March 17 (AP)—Residents of this river town, hard by teeming industrial plants, are tired of smog and barren backgrounds in which not even grass will grow.

They formed a society for better living which today asked the U. S. Department of Agriculture to make a survey of soil conditions in their western Pennsylvania community.

The society's petition also sought recommendations from federal officials on how to maintain "plant life, trees, grass and other vegetation usually grown in and about homes."

Their town is directly across the Monongahela river from Donora, Pa., where 21 persons died last October during a dense fog.

"OLD ENOUGH TO BE HIS MOTHER"

*That's one of the signs of a Borderline Anemia**

We've all met women who seem years older than their husbands — pale, dispirited, no fun to be near.

Yes, and their loss of pep and healthy color may very well come from red blood cells that are faded and weak. They may have a Borderline Anemia—due to a ferro-nutritional deficiency of the blood. Medical studies show that up to 68% of women—many men and children—experience this tiring blood condition.

Weariness and pallor have many causes — always consult your doctor regularly. But if you have this Borderline Anemia, remember: Ironized Yeast Tablets can help you reclaim your vitality and healthy good looks. They are specially formulated to help build up faded, shrunken and fagged-out blood cells. To feel better—to look better—to act more alert and alive — try IRONIZED YEAST TABLETS!

To prepare onions to accompany hamburgers, liver or steak, peel them, cut them in half and then slice into lengthwise strips. Saute the onion strips in hot fat for a few minutes, turning frequently, then cover the saucepan and let them steam until they are as tender as desired. A few drops of gravy coloring sauce added when they are cooked will insure a good rich brown; mix the onion strips with the sauce well before serving.

Wabash Strike In Third Day

ST. LOUIS, March 17 (AP) — Trains on the strike-bound Wabash railroad remained idle today for the third straight day with no indication of a settlement.

Some 3,000 operating employes are on strike. If no back-to-work arrangement is made, 9,000 other employes are due to be laid off beginning Saturday.

President Truman has signed an order calling for a 60-day postponement of the strike while a fact-finding board considers the dispute.

But union leaders said once a strike has started there is no compulsion for them to send the men back to work. They said they are awaiting official notice of President Truman's order.

Wages Not Issue

Unions involved are the Brotherhood of Railway Trainmen, the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginmen and the Order of Railway Conductors.

Wages are not an issue. The strike was called over approximately 100 individuals' claims against the railroad. The Wabash operates in Illinois, Michigan, Ohio, Missouri, Iowa and Indiana.

Brotherhood officials met at Cleveland yesterday and said the matter would be handled by union officials here. Union representatives here indicated they were awaiting further word from Cleveland and Washington.

Industrial effects of the strike are being felt.

The Lincoln-Mercury assembly plant at Robertson, Mo., said it will lay off 1,500 workers if the dispute isn't settled shortly. The Decatur, Ill., Milling company said it will have to shut down in a few days.

Cheap, Lightweight Models Are Hinted By Auto Industry

By DAVID J. WILKIE
Associated Press Staff Writer

DETROIT, March 17—Auto industry circles are hearing renewed talk about shorter wheelbase and lighterweight cars.

What the talk portends can be only guessed at, but most sources believe it may evolve into industry-wide production some time during the year ahead. The industry, of course, would not devote any time to smaller wheelbase and lighter weight vehicles unless there were some hope of production economies.

Producers Seek Advantage

Production economies mean lower prices. Lower prices mean competitive advantage. Every auto maker is looking for such advantages right now.

Certainly as the car market begins to level off to something approaching normal, industry observers say some surprises may be anticipated.

"Leveling off" is just another way of saying a decline in demand. The car makers say they will welcome a return to competitive merchandising. Yet they don't want a decline in demand if they can help it.

Possibilities Analyzed

So they are analyzing all possibilities of stimulating buyer interests. One way of keeping demand at higher levels is to get prices down. The car makers insist the only way this can be done is to save on weight and to build less elaborate vehicles.

Discussing the leveling off demand, Ward's Automotive reports this weekend:

Passenger car stocks (in dealers' hands) have increased 60 per cent in the last six months, but the number of automobiles per dealer, on an industry-wide basis, still is not alarming.

Dealer stocks throughout the United States, as of Jan. 31, 1949, are estimated at 587,121, as compared with 365,781 at the end of 1947. The close of January, 1941, saw 522,000 cars in dealers' hands."

Nude Wolf In Crew Cut Startles Nurse

GLENDALE, Calif., March 17 (AP)—This is the story of a wolf in no clothing.

Miss Veda Davis, 23-year-old nurse, told police that a youth drove his car along the curb last night, and asked her politely "which way is Montrose?" At first noticing only that he had a crew haircut she replied: "about two miles that way."

Then she saw that a crew haircut was all the young man had on. He started climbing out of the car, apparently more interested in getting to Miss Davis than Montrose.

She dashed into a nearby house and called police. The nudist had fled by the time the law arrived.

Air Reserve Group Plans Special Meet

Members of the 707th bomb squadron, West Texas Air Force Reserve unit, will meet in a special called session at 7:30 o'clock tonight in Building 62, Lubbock Air Force base, to meet their new instructor and get a new flying and training program underway.

The Auxiliary will meet at the same time in the Squadron club.

Three airplanes have been returned here and will be available for flying daily, beginning today, according to Capt. C. E. Jennings, assistant operating officer.

There are two living species of walrus, one found in the Atlantic, the other in the Pacific.

GOP Chief Flings "Do Nothing" Label Back To Administration

BOSTON, March 17 (AP) — The Republican national chairman said today GOP candidates may base their 1950 campaign on the issue of an "incompetent president" who can get nothing from a Congress controlled by his own party.

Commenting that the 81st Congress has been in session for two and a half months, Rep. Hugh Scott, jr., said that—aside from extending some Republican-passed laws—it has done little but raise President Truman's pay and give "federal bureaucrats" a four-day holiday for his inauguration.

Filibuster Called Frameup

"One must admit that in the matter of improving Mr. Truman's personal privileges and tax exemptions the present Congress has worked with him as he promised," Scott said.

He said the recent Senate filibuster war brought about by administration leaders as "a deceitful effort to find a good excuse not to keep their promises of a program of civil rights."

If Senate leaders had wanted to break a Southern talkathon, Scott said, they could have broached their controversial rules change earlier in the session, when "the Senate met two or three days a week for an hour or two at a time and then adjourned or recessed.'

Program Attacked

Instead, he said, "they waited until other legislation, such as the extension of rent controls which must be done before the end of this month, had piled up and then they brought in their proposal to change the rules.

"Now they are screaming because there is a filibuster—the same filibuster they asked for by a course of action which can be charitably described as stupid."

Scott described the President's program as a group of "proposed experiments in creeping socialism," and said:

"One thing is sure—the Republican party is the only agency available to drive out of Washington the present gang which seeks to enthrone special interest and pressure group privilege on a national scale and to use the public treasury to buy votes on election day."

Atlantic Pact

(Continued From Page One)

mark, Iceland, Italy and Portugal join as expected, the alliance will boast 12 nations.

The United States also has a somewhat similar treaty with Latin American nations to protect the new world from aggression.

Signing Scheduled

The State department, announcing the new invitations today, said signing of the treaty would take place in April.

It also said full publicity would be given details of the pact, officially a secret to date but unofficially known in most of its major points.

It would commit each of the signatory powers to join in resisting an attack on any one of them. Each nation would decide for itself whether it would use armed force in meeting the attack.

The State department said full public discussion would be invited. Along these lines, a meeting is scheduled for today and tomorrow with 200 representatives of national organizations.

Following the encouraging reception of a French automobile in the United States, all car manufacturers in France are speeding up production for the American market.

Street Naming

(Continued From Page One)

through the alphabet would take care of street names until the city has expanded approximately 30 blocks—more than four miles—westward from College avenue.

Other Means Proposed

North of First street, thoroughfares would be given the names of colleges and universities. North Second street, for example, would become "Amherst." North Third would become "Alma." North Fourth would become "Baylor." Provision for orderly naming thus would be made until the city has grown about four miles north of First.

East of Avenue A, trees would supply the names for streets. East Ave. B would become "Ash." East Ave. C would be renamed "Aspen." East Ave. D would become "Birch." And so on through the alphabet.

Provision for orderly street naming thus would be made in every direction of possible growth. Streets in suburban additions could be given names fitting into the pattern when, and if, the growing city should engulf them.

If and when the names supplied by these methods should be exhausted—and Lubbock would be a city of 300,000 to 500,000 population if that happened—Clapp suggested counties of Texas or cities west of the Mississippi as two of many sources for new material.

Present at the luncheon, additional to Clapp, were Planning Commission Members J. H. Murdough, J. D. Hassell, jr., W. L. Bradshaw, Homer D. Grant and Chas. A. Guy; Mayor Rodgers and City Commissioners Price, Spikes and Whiteside; City Manager Matthews; City Engineer R. L. Oldham and assistant city engineer J. C. Griggs.

Following the joint session, members of the city commission went immediately to the city hall for a recessed meeting devoted almost entirely to the disposition

Proposed Ordinance Tabled

A proposed ordinance which would involve licensing and other severe regulations operating to the advantage of commercial photographers now established in business in Lubbock was tabled without action.

A call was issued for bids to be opened April 14 for salvage rights, including maintenance, at the city dump ground. This was recommended by Gerald E. Jarvis, director of the city-county public health and welfare program.

Also on Jarvis' recommendation, the commission authorized the purchase of three war surplus buildings at the former South Plains Army Air field for $150. Plans are to convert them into a city health center. They are well adapted to that purpose, Jarvis said.

Lease Proposal Rejected

The commission likewise approved the purchase for $3,000 of another SPAAF building which will be moved to Northeast Lubbock for use as headquarters by the State Highway Patrol and Texas Rangers. The city will receive about $200 a month rent for the structure.

A proposal from the Texas & Pacific Oil and Gas co. to renew a mineral lease expiring April 3 on a city-owned 320-acre tract northeast of the city limits for $15 an acre was rejected. The land is only about a mile from proved oil production. Members of the commission said others will be given opportunity to bid if the mineral rights are leased. But the indications were that the commission will wait awhile to watch developments before doing anything.

Hasie & Green, consulting engineers, were awarded a contract to make contours of 16 sections of city owned suburban land on a bid of $2,320, the lowest of three submitted.

Increases of approximately 8 per cent in pay rolls, amounting to about $535 a month, for the city engineering department were approved for inclusion in the city budget for the fiscal year which starts April 1.

Britain's Lords Hear Plan To Limit Test Tube Babies Donor Can Sire At One Time

LONDON, March 17 (AP)—The House of Lords was told yesterday of a proposal to limit to 100 the number of "test tube" babies a donor can sire at one time.

Lord Merriman told his fellow peers that the medical union has said it is prepared to make such a limitation on donors in artificial insemination cases.

"What is going to happen to the next generation?" he asked.

"That means that in the range of the practice of any given doctor a man may be siring 100 boys and girls at one time.

"What is going to happen when they fall in love with each other 20 years later, half-brother and half-sister?"

Joins In Debate

Lord Brabazon joined in a heated debate over a recent court ruling that a child conceived by artificial insemination is illegitimate.

He said male donors involved must be megalomaniacs "of the very first order." Megalomania is a type of insanity in which the subject thinks of himself as great or exalted, and is inclined to brag.

Brabazon said "anybody who desired a large family completely unknown and without sympathy, love and personal contact with a woman must be well on the way to a lunatic asylum."

The Rev. Geoffrey Fisher, archbishop of Canterbury, said artificial insemination by a donor is "wrong in principle and contrary to Christian standards."

Viscount Addison, leader of the House of Lords, promised that the government will give full consideration to the entire question.

He said frequently "husbands long for children and find that their wives are sterile, but nobody suggests that they should introduce into their families children fathered by them and by other women."

The Marquess of Reading said it underground.

to pass a law against artificial insemination might merely drive

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and to aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Solons Irked By Decision To Let Reds Attend U. S. Meeting

WASHINGTON, March 17 (AP)—Critical lawmakers said today that if Soviet delegates are to be admitted to this country for a "world peace conference," Americans should get equal treatment from Russia.

Several times in the past, Moscow has refused to let in congressional committees or individual lawmakers.

But the State department said yesterday that 22 delegates from Russia and other Communist dominated nations will be allowed to attend a peace conference called by the National Council of the Arts, Sciences and Professions. It will be held in New York beginning March 25.

Critical Of Action

Chairman Wood (D-Ga) of the House un-American activities committee said his group may look into the matter. Senators Mundt (R-SD) and Ferguson (R-Mich) were critical of the State department's action.

The department itself said in its statement that the Communist delegates surely will find it impossible to express any view "other than that dictated by the political authorities in Moscow." And it forecast that "Communists will attempt to use and manipulate" the conference.

Wood said he would like to know why it was necessary to let in people when the government believes they are merely going to be Red puppets.

"We'll Talk It Over"

"We'll take up this matter, and others, when we have a meeting tomorrow," he told a reporter. "I don't know what can be done now, but we'll talk it over."

Asked whether a committee investigator will be assigned to keep an eye on the conference, Wood smiled and said:

"Well, we've usually had them at things like that in the past."

The committee staff is reported to have been going over a list of foreigners who probably will come here for the conference. This check-up is understood to have shown that many are Communists or have strong Communist ties.

Senator Mundt, a former member of the committee, sized up the forthcoming conference this way:

Very Sour Dividends

"I'm afraid like all previous appeasement gesturs toward international Communism—of which there already have been too many—this one will reap only a harvest of very sour dividends."

He predicted that Americans attending the conference are "likely to be dominated by left-wing and Communist elements."

"The least the State department could do," he added, would be to insist that a similar conference be held in Russia for which visas will be granted to Americans."

Invitations to the meeting were sent to many countries by a committee headed by Dr. Harlow Shapley, Harvard astronomer. He issued a statement in New York last night expressing pleasure at America's continuance of a tradition of "opening its doors to the free exchange of cultural and scientific thought."

Russia had demanded diplomatic visas for its representatives at the conference—which would have given them such privileges as freedom from arrest on criminal and civil charges and freedom from customs inspection of their baggage—but the State department turned that down.

PAMPA QUARTET COMING—One of the nine out-of-town quartets to sing at the Lubbock SBEBSQSA chapter's second annual Parade of Quartets at Lubbock Senior High school Saturday night at 8 o'clock will be the Melody Menders, pictured above, of Pampa. Left to right, they are: Knox Bartee, tenor; Harold Pain, lead; C. V. (Curly) Minnear, baritone; and Calvin Jones, bass. Tickets for the Saturday night program are on sale in the lobby of the Hilton hotel. Reservations may be made by dialing 3-7892. Twenty per cent of the proceeds go to the Lubbock Boys' club building fund.

Wilson Okays Bonds For School Building

WILSON, March 17. (Special)—A $175,000 bond issue for construction of a new high school building and remodeling of the present combination school plant for a grade school was approved by voters of the Wilson school district in a recent election, Supt. J. P. Hewlett announced Wednesday. Vote was 109 for, to 12, against.

Voters also approved the maximum tax rate from $1 to $1.50 per $100 valuation, he stated.

Hopes that the new high school building would be ready for use by the opening of the 1949-50 school year were voiced by Hewlett. A Lubbock architectural firm is drawing up plans now, he said.

The present three-story school is to be remodeled into a two-story structure and modernized throughout, the superintendent said.

Junior Play Slated At Monroe Tonight

The Junior class of New Deal High school will present its annual class play at 7:45 o'clock tonight in the school auditorium at Monroe.

This year's play is "Look Me In The Eye," a three-act play which deals with hypnosis. Directors are Floyd Sumrow, English teacher in the high school and Toby Waggoner, school principal.

Members of the class who are cast in roles in the play include Raynell Agnew, LaRuth Faubion, Leonard Harris, Sue Benningfield, J. R. Landry, Floy Mae Teeter, Kathleen Atterbury, Chick Holbert, Alton Abbe, Freddy Harkey, Murle Billingsley, and Jimmy Lilly.

Members of the Senior class of the high school comprise the programs and ushers committees. On the programs committee are Bobbie Young, Marjorie Snider, Mary Belle Rowell, and Marie Wales. Ushers will be Paul Crosnoe, Bob Beaver, Herbert Holbert, and Perry Looney.

Admission will be 15 cents for grade school students, 25 cents for high school students, and 50 cents for adults.

New Plymouth To Be Displayed In Lubbock Showrooms Friday

The new line of Plymouth automobiles, with outstanding mechanical improvements and up-to-the-minute styling, make their appearance in three dealer showrooms here and throughout the nation Friday.

Hub Motor company, 901 Ave. H; Fenner Tubbs, 1302 Tenth; and Dickinson Motor company, 1413 Ave. J, will show various models of the new cars starting tomorrow morning.

Completely Redesigned

Completely redesigned and streamlined, the new Plymouth contains a 97-horsepower engine which is smoother, livelier, and more economical. Other changes make notable contributions to beauty, safety, and passenger comfort.

Wheelbase has been increased for a better ride and more road stability but at the same time the over-all length has been reduced for ease of handling. Although lower and narrower, the new bodies provide greater interior room for passengers. The car's appearance reflects a complete change from last year's models.

"Common Sense" Streamlining

Designers have achieved a "common sense" streamlining in which ease of handling, safety and comfort have received strong consideration. Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal masses so costly to repair or replace.

Increased visibility is provided in the windshield which is 37 per cent larger and the rear window which is 35.4 percent larger. Windshield wipers clear 61.5 percent greater area.

Seats Are Wider

Sedan seats are wider and deeper, both in front and rear. The width of both cushions has been increased (5" in front, 6" in rear —front seat width 56," rear seat width 57") with panels and arm rests so located as to take maximum advantage of the interior space. Rear seat room in the Club Coupe has been increased to the equivalent of the sedan. There is more head and leg room in the sedan rear seat.

The new Plymouth line includes nine distinct automobiles. There are four special deluxe and two deluxe types on a 118-inch wheelbase, one inch longer than last year's. In addition, Plymouth will build three deluxe models on a brand new 111-inch wheelbase. This wheelbase group consists of a two-door sedan, a three-passenger coupe, and a new body type, the Suburban.

NEW PLYMOUTH ON DISPLAY FRIDAY—Plymouth's new special deluxe four-door sedan, pictured above, is one of the new Plymouths with beautifully streamlined bodies, lower, narrower with wider seats and more headroom, which will be on display in the showrooms of three local Plymouth dealers Friday, the Hub Motor Company, 901 Ave. H, Fenner Tubbs company, 1302 Tenth, and Dickinson Motor company, 1413 Ave. J.

Engine Performance Improved

Available on the 118-inch wheelbase will be a club coupe and a four-door sedan in the deluxe series, while the special deluxe group will include both the club coupe and four-door sedan in addition to the convertible club coupe and the station wagon.

Engine performance and efficiency has been improved with a new design cylinder head which increases compression ratio to 7-to-1. A new chrome plated compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly-designed intake manifold induces quicker, smoother engine warm-up and produces faster response to throttle opening.

"Cradle Ride" Provided

The longer wheelbase allows a "cradle ride," as passengers are more nearly centered between the axles. Another contribution toward smooth riding qualities is the addition of diagonally-mounted shock absorbers at the rear of the car, greater rebound control in the front shock absorbers, and the newly designed rubber limit bumpers. The new shock absorbers also allow greater road clearance and reduce sidesway.

Interior design of the Plymouth provides many driver and passenger comforts and conveniences. Sedans have the rear door hinged from the center post for easy entrance and exit. The seats, front and rear, have a three-pillow cushion while seat backs have a full pillow on each side and three vertical pipes in the center. Imitation leather kick pads are carried around the seat bases and on the door base. New, more rugged window regulators close or open windows with half the number of turns formerly required. Instrument panels with a new grain finish have been redesigned and relocated for ease in reading gauges. A new, easily operated vent window lock has been designed to reduce theft of articles from parked cars, and the ignition cable has been heavily armored from the ignition switch through to the engine compartment as a safeguard against car theft.

New Electric Choke

A new automatic electric choke, of the same type used on other Chrysler Corporation cars, has been added. Among the outstanding innovations is the combination ignition and starter switch which completely eliminates the starter button. The car starts by turning the ignition key slightly beyond the "ignition on" position. When released, the key automatically returns to "ignition on" position. The device is not only a driver convenience, but makes it impossible for children to move cars which are parked and left in gear by accidentally pushing the starter button.

A new fresh air car heater, which steps up defrosting and more readily removes window fog, is available in three models. Located under the hood, the new heater operates quietly and is easily installed. It may be used in warm weather as a fresh air circulator.

Other Improvements Listed

There are numerous improvements in the new Plymouth's electrical and lighting system. Headlights equipped with a bullseye lens in the center of the sealedbeam lens provide substantially increased light output. Plastic lenses have been installed in the stop, tail, and parking lights. The lenses are more resistant to breakage, and provide better sealing at points where dust and dirt might enter. A new enclosed circuit breaker, interchangeable with those used on other Chrysler Corporation cars, eliminates the need for replacing lighting system fuses.

The addition of a 10,000 ohm suppressor permits the use of a larger initial spark plug gap, resulting in improved idling and low speed, light load performance. The push-pull type of switch for headlights, panel lights and heater has been replaced with rotary-action, dust-proof switches, and a new magnetic-type fuel gauge gives immediate reading when the ignition switch is turned on.

Venezuela will offer for sale 2,000,000 barrels a month of royalty crude oil.

And now you can start enjoying a Maytag right away!

All models slightly higher with discharge pump.

DID YOU KNOW that you can get a genuine Maytag for as low as $134.95—scarcely more than for the very lowest-priced washer?

AND DID YOU KNOW that Maytag prices have increased far less that those of washers in general? In fact, Maytag's percentage of increase is less than half as much as the average—comparing all today's washer prices with those of all washers in 1941. Yes, Maytag is your best buy. Easy to pay for too—with a small down-payment and convenient monthly terms.

YOU CERTAINLY KNOW Maytag's reputation for quality and all-around excellence . . . the extra-fast, extra-efficient washing performance . . . the rugged dependability that's built into every part. These are some of the reasons for its being the world's most popular washer. Over five million Maytags have been sold—far more than any other make.

AND YOU DON'T HAVE TO WAIT ANY LONGER to start enjoying Maytag's advantages. See your most conveniently located Maytag dealer, whose name is below, today. House Group Approves School Bills After Long Work Spree

AUSTIN, March 17. (AP)—The House education committee in an all-night work spree sent the three besieged public school reorganization bills to the calendar, recommending passage.

Members were so groggy they could hardly talk after the 10 hour and 10 minute session that apparently broke all Texas legislative records for duration of a committee hearing.

Around 400 of the original 3,000-plus spectators stuck it out until the committee adjourned at 5:40 a. m. The meeting started at 7:30 p. m. yesterday.

Opponents were still stubbornly fighting the Senate-approved measures when the last votes were taken just before dawn. They promised to carry their fight to the floor of the House.

Committee Acts

This is what the committee did:

Voted 16 to 5 for an amended version of Senator Jim Taylor's central education agency bill that would drastically reorganize the state's direction of public schools.

Voted 17 to 2 in favor of the bill by Senator Ottis Lock of Lufkin, providing a minimum foundation program of education.

By the same vote, recommended passage of the bill by Senator A. M. Aikin, jr., of Paris, to finance the program.

Opponents started strong, winning the first preliminary skirmish by an 11 to 9 vote. Then, after Rep. George Nokes of Corsicana succeeded in amending the Senate-approved bill in an effort to meet some of the major objections to it, foes of the bill were slapped down 13 to 8 in an effort to send the measure to an unfriendly subcommittee.

Brings Long Session

The 11 to 9 ballot was what brought on the prolonged session. By that count, the committee decided to consider the three bills separately and it just took all night to hear all the witnesses and argue the amendments.

It deteriorated into as weird a scene as any oldtimer around the capitol could remember.

As re-written by Nokes, the central education agency bill calls for a 21-member elective state board of education. The Senate version had nine members.

Nokes' bill also gives no authority to the new central education agency to close or consolidate any independent or common school district. Textbook or bond companies would be forbidden to contribute to the campaign expenses of board of education members.

MEET THE MANAGER—Guy Waller Small, manager of Shaw Jewelry company, was born March 15, 1914, at Palestine, Texas. He was educated in Palestine schools, Texas Military college and Louisiana college, where he took electrical engineering. He taught electrical engineering in Chicago public schools one year, went into the jewelry business in 1938 with Shaw's in Dallas. Starting in the office, he changed to sales and became assistant manager of the Dallas store. He served as a chief electrician's mate with the Navy in the Pacific. Returning to Shaw's he became manager of the Lubbock store when Shaw's bought it Jan. 12, 1947. In college he won 16 letters at the two colleges he attended, and he played semi-pro baseball after leaving school. He is a member of Thirty-fourth Street Baptist church, Rotary club and Lubbock Advertising club. Mr. and Mrs. Small live at 2708 Thirty-third and have one son, John, 6. Taking motion pictures is one of Small's hobbies. (Staff Photo.)

Japanese-American To Teach In Denver

DENVER, March 17 (INS)—The first woman of Japanese extraction to achieve a permanent teaching position in the Denver public schools, or in Colorado, takes up her task at Wyatt elementary school Monday.

Mrs. Shyoko Hiraga, 21, received her teaching certificate at the close of the current semester at Denver university where she had graduated with high honors with a bachelor of arts degree in December of 1947.

Harry Nicholson of the Denver public school system's business office said Mrs. Hiraga was hired on the basis of her ability.

He added, "it is the finest compliment to her capabilities that she won the job in equal competition with persons of all other races."

Mrs. Hiraga graduated from manual training high school in 1944 with an excellent record, and advanced through Denver university with highest grades.

In addition to her school work, Mrs. Hirago devoted much of her time during all of her school years in assisting with the publication of the Rocky Shimpo, a Japanese daily of Denver published by her father, Shiro Toda. Her sister, Mary Toda, is editor.

Texas Youth Found Guilty In Sex Case

DENTON, March 17 (AP)—A district court jury yesterday convicted Farrell Petty, 19, of Fort Worth on a sex charge. It gave him a four-year prison term.

The trial of Bobby G. Vinson, 19, of Fort Worth, on a similar charge, was docketed for today. Both youths were indicted after a student at Texas State College for Women accused them of forcing her into an auto last Dec. 10, driving to a side road, and attacking her.

Both also have been indicted on charges of assault with intent to rape. Trials on those charges have not been set.

U. S. Soldier Claims Russians Threaten To Harm His Family

BERLIN, March 17. (AP)—An American soldier held captive for four days by the Russians in Berlin said today they threatened to harm his family in America if he didn't give them information.

The soldier, Pvt. Fred J. Jacobson of Birmingham, Ala., was released today. He said he was under almost constant questioning for four days but was otherwise well treated.

The incident was disclosed by Col. Thomas F. Lancer, Berlin provost marshal, after Jacobson was released through what is left of four-power channels.

First Was Missed

Jacobson first was missed when he failed to report to his company last Sunday. He is assigned to the photo section of the 7773 Signal Service company. Military police, acting on a hunch, asked the Russians if they were holding the soldier. The Russians said they were not.

Three days later the Russians admitted they were holding Jacobson and asked the Americans to come and get him.

Jacobson said he had been picked up by two Russian officers in a cafe just inside the Russian zone. Americans may enter the Soviet sector of Berlin but may not enter the Soviet zone, that part of Russian-occupied Germany outside Berlin proper. He said he had been visiting a German girl friend, had been in the area many times and never had been bothered before.

Something Significant

The cafe's "proximity to a Russian airfield and Jacobson's job in a photo section probably seemed like a great big significant thing to the Russians," Lancer said.

Lancer said the Russians asked Jacobson "a lot of questions, mostly about life in the United States.

"Jacobson said they threatened harm to his family in America if he failed to give them information. When they found he didn't have any to give, they finally let him go."

Jews Disadvantaged In Seeking College Education In U. S.

WASHINGTON, March 17. (INS)—The American council on education reported last night that U. S. colleges are discriminating against Jewish applicants, especially in the northeastern part of the country.

The report said, however, that Jewish high school seniors succeed in going to college more often than Catholics or Protestants, because proportionately more of them apply.

The study was based in spring and fall interviews with 15,000 young persons who left high schools and sought to enter colleges in 1948. The interviews were conducted by the staff of Elmo Roper, the pollster, and financed by the Anti-Defamation league and B'Nai' B'rith.

Groups Disadvantaged

The report said that on the average colleges accept 77 per cent of Protestants, 67 percent Catholics, and 56 per cent of Jews who apply.

It said that 88 per cent of Protestants, 87 per cent of Jews and 81 per cent of Catholics who sought college enrollment were accepted by some institution, but that many of the Jews were in colleges which were their second choice. The report continued:

"The study indicates clearly that Jews are a definitely disadvantaged group when it comes to getting into college, but the situation is complex and cannot be described in the simple terms of general, across-the-board discrimination.

Concentrated In Northeast

"In the first place, a much larger proportion of Jewish high school seniors apply to colleges than Protestants or Catholics, and the Jewish applicants are heavily concentrated in the geographic area of greatest over-all application pressure, the northeast."

The report indicated that proportionately 2.5 times as many Jews as non-Jews decide to go to college, and that Jews on the average apply to 2.4 institutions as compared to 1.7 for Protestants and 1.6 for Catholics.

A third of all the high school seniors interviewed definitely applied for admission to colleges, and another 20 per cent said they hoped to some time. Under present circumstances, girls had a slightly easier time gaining admission than boys.

Division Set In Holy City

By L. S. CHAKALES
Associated Press Staff Writer

RHODES, March 17.—Isreal and Trans-Jordan agreed last night on armistice lines dividing the Holy City of Jerusalem between them.

They left the issues of mutual use of roads and accessibility to holy place for future settlement. Jerusalem is scared to Christians, Moslems and Jews.

The agreement, based on their Nov. 30 truce lines, covers the entire Jerusalem sector. It establishes an armistice line that starts at a point near the village of Al Walaja southwest of Jerusalem, cuts through the Holy City and swings back to the west, completing a semi-circle, an Israeli spokesman said.

Discussions Slated

Discussion of the reduction and withdrawal of forces in the entire combat zone is scheduled for today.

Meanwhile Dr. Ralph J. Bunche, United Nations mediator, announced that U. N. observers have found no basis for Trans-Jordan complaints that Israeli and Arab forces clashed recently in the Aquaba area.

He said it has been established that Israeli troops moved south to the Gulf of Aqaba, occupying the hamlet of UMM Resh Resh on the Isreali side of the Trans-Jordan border, but that the move was accomplished without a fight. He added that the occupying force numbered 200 Israelis, not 3,000, as had been reported.

No Units Found

Bunche said the U. N. observer staff found no Trans-Jordan units west of their country's frontier. Neither, he said, was there confirmation of complaints that a small Jewish force crossed into Egypt on the way to UMM Resh Resh, but the report is being checked further.

Israeli and Trans-Jordan emissaries are scheduled to make immediate flying trips to consult their home governments concerning a long list of differences which still confront the armistice negotiators here.

Boxer Max Baer Says Acting Is "World's Softest Racket"

By BOB THOMAS
Associated Press Staff Writer

HOLLYWOOD, March 17. — Shake hands with Max Baer the actor—if you don't mind risking loss of your hand.

We find the mammoth ex-champ in his dressing room on the "Love Is Big Business" set. He is playing gin rummy, but manages to continue the game and still deliver some Noel Coward-like lines.

How does he like the thespian art?

Had Chance Early

"This is the sofest racket in the world. I've been hit in the head for 20 years, but I can do it. I shoulda stuck to this all along."

Baer had his first fling at emoting in "The Prize-Fighter and the Lady" in 1933. He co-starred with Myrna Loy.

"I coulda had a career out here, guess," he says in his rumbling bass. "But I was a fresh young punk and I thought I could become champion."

As a matter of fact, he did, by knocking out Primo Carnera in the 11th round at Long Island City. A year later, the crown was tipped off his large head by Jim Braddock.

Acting "Much Easier"

"This acting game is much easier," he says. "Although I guess a lot of actors around here are finding out it ain't so rosy these days. You gotta know your stuff or you don't work.

"Me, I'm lucky. I saved my dough. So if I don't get a job in pictures for a while, I can live on my annuities."

Capsule review: "Mother Was A Freshman," casts Loretta Young as a college freshman and Van Johnson as an English lit. Professor. Before you say "oh, no!" Let met add that they act their ages (thirtyish) in a wholesome fable about a mother who accompanies her daughter to college. Rudy Vallee adds to the genial fun.

GENIUS EXHIBITED

CAMBRIDGE, Mass. (AP)—Harvard University is exhibiting 45 pieces of scientific aparatus used at the university during the colonial and revolutionary periods. Exhibits include several electricity-making machines designed by Benjamin Franklin.

Pipeline Firm And Union In Agreement

DALLAS, March 17 (AP) — The CIO International Oil Workers union and the Magnolia Pipeline company agreed yesterday on a two-year contract.

It will be in force until March, 1951. Included are pay raises of one to six cents an hour in 18 job classifications. It has an eight-cents-an-hour "cost of living" bonus which will be renegotiated in December.

A company spokesman said the contract hadn't been signed, but all parties were agreed. Union members were expected to ratify it soon. More than 1,100 workers in eight states are involved.

Both company and union officials said it was the first two-year contract between a union and major oil company in this area. R. W. Lawrence, international representative of the union, called the contract and the bargaining which produced it models in union-management relations.

The "grey" in greyhound is the Icelandic word for dog, and has no reference to color.

Instructor At Tech To Attend Meeting

T. W. Alexander, geology and language instructor, will leave Friday for Dallas where he will attend the Goethe Bicentennial festival at Southern Methodist university.

A series of scholastic papers in German and English will be given by speakers from Texas university, Tulane, Newcombe college of New Orleans and Louisiana State university.

Part of Goethe's play "Faust" will be presented by the SMU students. Texas Tech foreign language students will celebrate the festival this summer.

WE have just finished reading "The Naked and the Dead," thus far the most talked-of book to come out of World War II.

The book, written by Norman Mailer, is long (721 pages) and crowded with minute description covering day-by-day island fighting in the Pacific. Starkly realistic, "The Naked and the Dead" is a little spoiled for the average reader by too great an emphasis on detail.

Definitely for adults and not recommended for reading by women, Mailer's book must be accepted as an authentic account of the way soldiers lived and fought and feared and dreamed through the campaign against the Japanese. Although some will deny it, "The Naked and the Dead" pictures pretty accurately the way men live together, especially when under stress and strain.

The dialogue, while sometimes brutal and nearly always profane, obscene and ugly, mirrors men-talk in the lower stratas.

Author Mailer attempts to preach no moral, but the moral is there just the same.

His story illustrates over and over again the inanities of war; the damage it does to men's minds and souls apart from the damage to their physical beings.

"BREATHES there no man with soul so dead who never to three others said: "Let's harmonize!" "

Yeah, bo!

It is doubtful if any other one form of noise has ever brought more pleasure—or, in some instances, more pain—to more people than the Barber Shop Quartet.

Uninhibited males, safely out of hearing of the femmes, long have made a practice of singing together, but it was not until a dozen years ago that quartetists were organized on a national scale. Now the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America is a very going concern and from Maine to California members lift their voices in everything from "Sweet Ad-o-ine" to "Catfisht a-Foatin' Down the River."

Come Saturday evening at 8 chimes, the Lubbock chapter of the SPEBSQSA will play host to a Parade of Quartets — singers coming from near and far to compete against each other and furnish two solid hours of just as solid harmony.

The locale will be the Senior High school auditorium and people who like close harmony—and who doesn't? —will have a field day.

The audience will be given a chance to "jine in" from time to time, under leadership of Walter Jenkins, of Houston. Mr. Jenkins is something special in the way of a leader of mob singing.

Pat Cunningham, president of the local SPEBSQSA (No. 1 chapter in Texas) and Vice-President Ray Wells expect at least 500 to 600 out-of-towners at the gathering so Lubbock folks will be wise to get their reserved seat tickets ahead of time.

Saturday night ought to be a humdinger, vocally speaking.

WE got a letter the other day from Leslie D. Bond, 2418 Main street, calling our attention to an editorial in the Tech student paper, The Toreador.

The editorial, written by a student journalism major named Charles Schafer, called attention to what it alleges are filthy conditions in some eating and drinking places adjacent to the college campus.

Mr. Schafer carefully pointed out that he was not including all the eating and drinking spots adjacent to the Tech campus in his charges. Many, he said, are above reproach. But he insisted that some of them are very unsanitary and said that the Health department of the City of Lubbock ought to get on its mule and do something to clean up offending joints.

Of course, young Schafer is as right as rain.

If there are dirty eating places near Tech—or anywhere else—they should be closed up, but quick, and kept closed until they get themselves decent.

★ ★ ★

Mr. Bond was prompted to send us the Tech editorial because of three unhappy experiences within the past month.

His family found a piece of bandage in a loaf of bread; a worm in a can of peas, and then got a rotten egg which came from a box marked "fresh."

Of course, only one of Mr. Bond's experiences can be chalked up against the City Health department and that only by a stretch of imagination. This one experience had to do with the bread.

However, it's good once in awhile for people to keep their eyes open in regard to lapses in sanitation in places where food and drink are handled.

Lubbock used to have a lot of dirty, lousy conditions, but they largely were cleaned up when a new ordinance was passed and real efforts made to enforce the ordinance. Maybe new crackdowns are necessary to force some food and drink purveyors to meet the law and the City of Lubbock should make certain such crackdowns are made whereever needed.

★ ★ ★

THE City of Lubbock soon will embark upon a 360-block paving program, which is fine, double-fine and triple-fine.

It also is a larrupin' big program—much larger than customarily is tackled by cities a great deal larger than Lubbock.

However, in this connection, we have a suggestion to make.

Since some time will have to pass before the big program will be using paving machinery, why not start a couple of weeks early and pave up the holes in the streets we already have?

In various parts of Lubbock we have "leave outs" and other patches evidently made of chewing gum with a few rocks mixed in. They are full of holes most of the time, and the holes are darned irritating.

A little "warming up" on the holes before the big paving project begins would be helpful—and would make a lot of people happy.

PICTURE of a Man with His feet on the Desk: Up in New York they've indicted two people on charges of spying on the U. S. and only one of the two works for the American government. Mr. Truman will say that's only half a red herring, hey? . . . It probably will be a year before all the mud left on Lubbock streets by snow and slush has disappeared. Tons of it still lie along gutters . . . If Lubbock's corporate limits are extended as they should be within the next nine months, this city will show more than 70,000 population in 1950 . . . Amarillo, scared to death over Lubbock's growth over the past eight years is breathing a little easier at the moment. Deep oil tests less than 100 miles from Amarillo indicate a big new field, from which Amarillo expects added business and population.

BY DREW PEARSON: MYSTERIOUS AMERICAN HEADS ANTI-RUSSIAN RING IN GERMANY

General Marshall Peeved At General Wedemeyer

WASHINGTON. — Uncensored diplomatic reports indicate that the Soviet government is planning to place before the United Nations the strange case of an American citizen reported to be the leader of the anti-Russian underground in Poland and Germany.

PEARSON

The mysterious American, who owns a farm 12 miles outside Hillman, Minn., operates under various names including Edward F. T'Kach, Count Heinrich Von Tanthen, Heinrich Woyceho, Dr. Edward Von Rothkirch, or sometimes just Baron X.

According to associates, he is the head of the Frei corps of Barbarossa, the name of the anti-Russian underground in parts of Poland and the Soviet zone of Germany. Baron X has raised considerable amounts of money in the United States and is reputed to have smuggled arms and ammunition into the Soviet areas via Austria and Scandinavian ports. He is also reported to have terrorized Soviet officials and been a constant- thorn in the side of the Russian government in these areas.

U. S. officials have made it clear, however, that Baron X has no connection whatsoever with the U. S. government. On the contrary, they have frowned on his activities and fear he may cause serious trouble between the United States and Russia.

For that reason, the State department has consistently refused any passport. His wife, who was reached by telephone at Hillman, Minn., under the name of Mrs. Von Rothkirch, said that her husband had left by car and was driving to New York. She said he went away for long periods of time during which she did not hear from him. She declined to comment on his activities in Germany except to say: "I know that the Soviets have found out about him."

In Cleveland, one of Von Rothkirch's lieutenants, Wilhelm Uldenhorst-Zeichmenn, said that Von Rothkirch was head of the Frei corps of Barbarossa, and that he had gone back and forth to Germany without an official passport. Other quarters reported that Von Rothkirch had used merchant seaman's papers.

The mysterious "baron" served for a time with the German Luftwaffe in Spain during the Spanish revolution, then entered the U. S. Army after Pearl Harbor. For a time he also served as chief bosun's mate in the U. S. Coast guard in a temporary, nonpaying capacity. At that time he used the name T'Kach.

• • •

In 1946, he registered under the name of Edward Von Rothkirch as a lobbyist for the Central European Research council, and was active on Capitol hill among isolationist congressmen and congressmen of German descent.

He was, also connected in 1946 with the Central European Rehabilitation association, with headquarters at 201 Division Ave., Brooklyn, and headed by Father Don Odo, self-proclaimed Duke of Wurttemberg.

Some indication as to where Baron X has been able to raise his funds may be had from the fact that the assets of the Central European Rehabilitation association in the Riggs National bank jumped from $5 to $169,000 in less than a year in 1946-47. It is believed that some of these funds were drawn on to finance underground operations in Soviet areas in central Europe.

Baron X is reputed to have the best intelligence service in side the Russian areas—despite the large amounts of money spent on intelligence by the U. S. government since the war. He is also reported to have intimate contacts inside Czechoslovakia, Austria and Hungary.

U. S. records show that Von Rothkirch's father was born in Odessa, Russia, under the name of Fred T'Kach, and that his mother was also born in Odessa in 1897. Von Rothkirch himself was born in St. Paul, Minn.

EX-SECRETARY of State George Marshall is so peeved at war plans chief Gen. Al Wedemeyer he has privately threatened to speak against him if Wedemeyer is nominated to succeed General Clay in Germany . . . Other likely candidate to succeed Clay is Gen. Mark Clark, former commander of the 5th Army in Italy . . . There was something very fishy about the delay in confirming Ernest Gruening as governor of Alaska. The salmon lobby was again' him . . . At first Secretary of State Acheson was inclined to overlook the pro-Nazi board of governors selected to govern the Ruhr steel industry until he saw a blistering cartoon in the Washington Post. Then he cabled Clay to oust the pro-Nazis . . . Hitherto Clay has run Germany as he wished. It will be interesting to see whether Clay or Acheson now wins out.

Congratulations to Sam P. McKenzie and the Junior Chamber of Commerce in Atlanta for urging that Atlanta pass laws banning KKK masks in public . . . Bullet-proof glass may be built around the Senate and House galleries as the result of the suicide 50 feet from the Senate chamber last week. Some nervous solons now want protection from trigger-happy spectators . . . The Agriculture department is warning that all the west from Michigan to California and from Canada to Texas will be hit by grasshoppers this summer. Deep snow protected grasshoppers' eggs and, as a result, the worst plague in ten years is expected. In 1938 grasshoppers ate a $200,000,000 hole in farmers' pockets.

• • •

While Southern senators filibustered 28 hrs., 45 mins., other senators talked for 39 hrs., 55 mins., which, in effect, helped the filibuster. . . Prime Minister Attlee has ordered all members of the British embassy to keep their mouths shut about Britain's recovery. Attlee doesn't want anyone else to brag about how fast Britain is coming back, especially at a time when Congress is debating how much Britain should get under the Marshall plan . . . The council of economic advisers will file a new report on the economic health on the nation on April 1 . . . Joe Lawrence, one of Democratic Chairman Howard McGrath's top aides, will resign from the national committee within two weeks. It was Lawrence who accurately predicted that the Midwest farm vote would swing the election to Truman . . . Dr. B. W. Wineyer of London and other British physicians attending the American Cancer society meeting in Memphis refuted the American medical lobby's charge that national health insurance had flopped in Britain. The British health program, said the British medicos, has been working satisfactorily . . . Col. Sydney Grubbs, commanding officer of Bolling field, has inaugurated a "goldfish bowl" press-relations policy. Says Grubbs: "If we make any mistakes we're going to be men enough to admit it. Secrecy is a favorite device of bunglers."

"Anybody Here Want To Cast The First Lump?"

BY ROBERT C. RUARK

Bullwhip, Pistol And Kitchen Stool Due For Pampered Pup

NEW YORK, March 17. — The baby is night onto a year old now, and we have been raising him progressively, allowing slack rein to his lusty inclinations, stifling no single whim, and I might say you never met a more insufferable little stinker. I refer, naturally, to Baron the Admiral Schnorkel Doenitz Von Ruark, a boxer puppy who will assuredly conquer the world unless steps are taken.

RUARK

Mama's itsy bitsy baby puppy, alias wonder dog, alias nature's wonder dog, alias beauty boy, alias a lot of other stomach-turning endearments, stands upon the threshold of adult dogdom with no complexes, no frustrations, no scars on his psyche. He has been raised according to the latest bulletins from veterinarians, psychiatrists, pediatricians, and Mary Hayworth. He is a liar, a thief, a wastrel, a saboteur, a bully, a braggart, a ham actor and a glutton. He is as big as a Shetland pony, and he still regards himself as a dwarfed chihuahua.

• • •

Also A Snob

He is also a snob. Ever since a distant kinsman won the title of best of show in the garden, and another fague ancestor got his picture printed in life, the monster has been too good for us common folks. He strikes show-dog poses in front of the mirror. He makes us walk behind him on strolls, and when running free, ignores us as poor relations.

We have lavished a fortune on this blooded beast, in squeaking rubber mice, ersatz bones with built-in sound effects, toy cats, and similar trinkets which the dog couturieres sell to suckers. To date, however, nothing has seemed to toothsome as the long-handled bathroom brush, which leads me to believe that there's a scullery-maid in his ancestry somewhere.

Yet he is able to dash from the sordid to the sublime, which is to say he adores his guardian's new hats and ties. He must have a vitamin deficiency, despite the monthly statements from the vet, for he shows an inordinate fondness for trouser legs, and only when freshly pressed. He sneers at horse meat and slavers after sirloin.

• • •

WE know he is a sporting dog, because he will never chew anything that is easily reached. When he tears the neckties from the rack, he never shreds a Christmas gift. Only the best ones please his palate.

He is one of the dumbest mutts I ever educated. He will scream and flee from the china piggy-bank or a toy ukulele. But he consistantly seeks quarrels and engages in combat with adult doberman pinschers and German shepherds. He loses the fights. We've just endowed a new wing on the dog hospital.

He loves bums and hates cops. He also loves cats. He thinks they are nice little dogs. He loves most humans. He thinks they are nice big dogs who will feed him if he nags them long enough. He is generally right.

He understands English perfectly. "Get off the bed!" is an invitation to play fullfight, except that he is the matador, you are the bull, and he waves the bedspread at you. "Get out of the kitchen!" also is crystal-clear to him. That means bring everything in the kitchen, from the icebox to the trashcan, into the living room and spread it around on the rug.

• • •

Expresses Displeasure

This generosity, or share-the-wealth program, is always invoked when he is left alone. To express his displeasure at solitude. He is a real smart mutt along some lines. Recently I have seen him attempt to swallow a butcher knife to attract attention, and he is extra-fond of carpet tacks as hors d' oeuvres. An enthusiastic critter, he always greets the guests by hurling his 60-odd pounds of muscle down the full flight of stairs, generally striking the guest in the chest. This is disconcerting to all except heavyweight wrestlers, and so few of them come to call, now that tevelision's here.

We have despaired of raising Baron the Admiral etcetera according to moderndogma. My next purchase, for his own good, is going to be a bullwhip, a kitchen stool, and a pistol liberally charged with loud blanks. I read somewhere that you can intimidate lions that way, and a lion is what they seem to have sold me.

Today's Thought

Therewith bless we God, even the Father; and therewith curse we men, which are made after the similitude of God.—James 3:9.

Delusions, errors, and lies are like huge, gaudy vessels, the rafters of which are rotten and worm-eaten and those who embark in them are fated to be ship-wrecked. —Buddha.

BY RUTH MILLETT: TO THE LADIES

The Feminine Viewpoint

LOTS of housewives who think they are overworked and tired down have time for things a working girl can't manage.

Time for long, chatty telephone conversations with other house wives.

Time for an afternoon tea or bridge game now and then.

Time to shop leisurely enough to hunt for bargains or find just the right dress or hat.

MILLETT

Time to catch a short nap when the children are taking theirs, if the day has been especially hard.

Time to do their marketing in the morning before the markets are crowded, instead of having to wait until the five to six o'clock rush.

TIME FOR PARTIES

TIME to spend hours preparing for a party, when they entertain.

Perhaps, even time for membership in a club or two, or for some handicraft that can be done in the home.

Time to put things off until tomorrow, if today isn't going too well.

What the woman who feels she is tied to her home fails to take into consideration is the fact that the working girl whose freedom she sometimes envies is also tied—only she is tied to an office. And being tied to a home is in no way as confining as being tied to an office day after day.

Remember that next time you get to feeling sorry for yourself because you are tied down.

Journal Jabs

THERE wasn't much character assination in the old days. A man knew that he would be challenged to a duel if he told a lie on another.

A soap opera seems to be one tragedy after another.

It has been demonstrated that hot dogs can be cooked by radar. It seems that science can do anything but balance the national budget.

By Bennett Cerf

"Try And Stop Me"

ALFRED HOOPER, the renowned mathematician, was introduced to the student body of Wellesley by an effusive lady who enjoyed the sound of her own voice. Hooper wooed his audience back to good humor with a story that should come in handy to all victims of over-long introductions:

An Italian farmer, bringing a calf to market, was stymied by a bridge over a creek. The calf refused to cross it. The farmer cajoled and prodded, but made no impression whatever.

Finally a motorist drove up. The calf blocked his way. After a brief conference with the farmer, the latter dropped behind the car, and the motorist let out a loud blast with his electric horn. The panic-stricken calf made a wild leap over the railing of the bridge and was promptly drowned in the whirling current below.

The philosophical farmer summed up the situation in one sentence: "Too bigga da honk for so smalla da calf!"

Today's Journal Editorial

MORE CONTROL—NOT LESS!

Millions of Americans cannot view with other than disgust the latest of many demonstrations that one ill-tempered, cantankerous old man, in the person of John L. Lewis, can throw a monkey wrench into larger segments of the national economy, wholly without fear of retribution.

Lewis was not allowed to dictate the appointment to an office—that of director of the U. S. Bureau of Mines—which is supposed to serve and protect the interests of all Americans. So Lewis orders most of the nation's coal mines closed—as he has done many times before. He imposes hardships, if not actual danger, upon an entire nation to seek an unfair advantage for the small minority represented by his coal miners.

Lewis invariably has gotten away with acts which have been an outrage to the nation. Probably he will this time. If so, it will supply another reason why so many Americans feel inclined to sneer when official Washington pretends the role—as it does constantly—of champion of fair play and the best interests of the most people.

Lewis' latest performance proves that what the nation needs is a strengthening, instead of a weakening, of laws governing excesses of labor czars.

12. Legal Notices

ORDINANCE NO. 902

AN ORDINANCE ANNEXING ALL OF BLOCKS 1, 2, 3 AND 4, DENISON HEIGHTS ADDITION, TO THE CITY OF LUBBOCK, LUBBOCK COUNTY, TEXAS, DESCRIBING AND EXTENDING THE ALTERED CORPORATE BOUNDARY LIMITS BY METES AND BOUNDS; PROVIDING FOR PUBLICATION AND FINAL PASSAGE UNDER THE PROVISIONS OF SECTION 3A, ARTICLE I, CHAPTER I, OF THE CHARTER OF THE CITY OF LUBBOCK.

WHEREAS, Guy L. McAfee and wife Leslie Opal McAfee as sole owners of Blocks 1, 2, 4 and South one-half (S½) of Block 2, Denison Heights Addition, have petitioned the Governing Body of the City of Lubbock to extend the corporate limits of the City of Lubbock to include said lands, and,

WHEREAS, the Governing Body finds said area together with the North one-half (N½) of Block 2, Denison Heights Addition, adjoins the existing city limits and boundaries and that all of Block 1, 2, 3 and 4 of said Denison Heights Addition is in the line of development, growth and expansion being experienced by the City of Lubbock and the Governing Body of said City finds that the inclusion of the entire area here referred to and hereafter described by metes and bounds, within the corporate limits to be in the public interest, and,

WHEREAS, the City Commission is empowered by Section 3a, Article I, Chapter I of the Charter of the City of Lubbock to annex by Ordinance additional territories lying adjacent to the City of Lubbock THEREFORE,

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF LUBBOCK:

Section 1. That Blocks 1, 2, 3, 4 and South one-half (S½) of Block 2, Denison Heights Addition, described by metes and bounds as follows, to-wit:

Beginning at a point in the center of the intersection of Taylor Avenue and 30th Street, in the present City Limits of the City of Lubbock, Lubbock County, Texas, said point being 1320 feet North and 1320 feet west of the Southeast corner of Section 15, Block B, Lubbock County, Texas; Thence West along the present city limits line, a distance of 685 feet to the West line of Fillmore Avenue at the intersection of 30th Street; Thence South along the West line of Fillmore Avenue 157.5 feet to the North line of the alley in Block 2 of Denison Heights; Thence West 625 feet to the center line of Pierce Avenue; Thence South along the center line of Pierce Avenue a distance of 802.5 feet to the center line of 32nd Street; Thence East 1320 feet to the center line of Taylor Avenue, same being a point in the present City Limits; Thence North along the present City limits line 960 feet to the place of beginning.

BE and the same is hereby annexed to and included within the corporate limits of the City of Lubbock.

Section 2. And the North one-half (N½) of Block 2, Denison Heights Addition, otherwise described by metes and bounds to be as follows, to-wit:

Beginning at a point 685 feet West of the center of the intersection of Taylor Avenue and 30th Street in the present City Limits of the City of Lubbock, Lubbock County, Texas; said point being 1320 feet North and 2005 feet West of the Southeast corner of Section 15, Block B, Lubbock County, Texas; Thence West along the present City Limits line and the center line of 30th Street a distance of 635 feet to the center line of Pierce Avenue; Thence South 157.5 feet to a point on the projection of the North line of the alley in Block 2, Denison Heights; Thence East 635 feet to the West line of Fillmore Avenue; Thence North 157.5 feet to the point of beginning.

BE and the same is hereby annexed to and included within the corporate limits of the City of Lubbock.

Section 3. The boundary limits of the City of Lubbock are hereby altered and extended to include the areas described in Sections 1 and 2 of this Ordinance so that the extended city limits line shall hereafter be located as follows, to-wit:

Beginning at a point in the center of the intersection of Taylor Avenue and 30th Street in the present limits and boundaries line of the City of Lubbock, Lubbock County, Texas, said point being 1320 feet North and 1320 feet West of the Southeast corner of Section 15 Block B, Lubbock County, Texas; Thence South on the center line of Taylor Avenue 660 feet to the center of the intersection of Taylor Avenue and 32nd Street; Thence West along the center line of 32nd Street 1320 feet to the center of the intersection of 32nd Street and Pierce Avenue; Thence North 660 feet to the center of the intersection of Pierce Avenue and 30th Street to intersect the existing boundary limits of the City of Lubbock.

Section 4. This Ordinance shall be published in a daily newspaper published in the City of Lubbock one time and shall not thereafter be finally acted upon until at least thirty (30) days have elapsed after such publication and if finally passed in its present form the boundary limits of the City of Lubbock shall thereafter be fixed to include the extension described in Section 3 of this Ordinance.

On motion of Commissioner Price, seconded by Commissioner Wylie-side, and unanimously carried by an affirmative vote of the City Commission of the City of Lubbock, Texas, this Ordinance ordered to be published at a Recessed Regular meeting of the City Commission held the 15 day of March, 1949.

Soviet Returns Vessel To U. S.

PHILADELPHIA, March 17 (AP) The cruiser Milwaukee proudly displayed the U. S. ensign today after years of flying the Soviet Union's hammer and sickle.

The days of the Navy veteran, however, are numbered.

Anchored at the Philadelphia naval base, the Milwaukee soon will lose its guns prior to her scrapping or sale to a salvage company.

The first lend-lease vessel returned to the Unitede States by the Soviet Union, the Milwaukee patrolled the sea lanes to the Russian port of Murmansk during World War II.

Ceremonies Held

Official transfer ceremonies took place late yesterday off Lewes, Del.

Capt. Joseph U. Lademan, jr., USN, and Russian Admiral E. G. Glinkov, Soviet embassy attache, signed the transfer paper in the quarters of the ship's captain.

Later, the Russian crew of 356 officers and men boarded the Soviet Freighter Molotov for the return voyage to their homeland.

Americans Take Over

An American crew took over the Milwaukee for her "tow trip" up the Delaware river to Fort Mifflin.

American crewmen said they found the Milwaukee in "excellent shape for operations," but newsmen taken aboard described the quarters as "filthy" with the "odor of the great unwashed."

During the transfer ceremonies, the Russian officers and men stood at ease about the decks.

Blind Boy Is Told Of Parents Dying In Montana Storm

GREAT FALLS, Mont., March 17 (INS) — Jackie Stout, 10-year-old blind boy, waited in vain today for the sound of his parents' voices in the Montana state school for the deaf and blind at Great Falls.

Mr. and Mrs. Robert J. Stout, the parents, left their farm home near Ballantine, Mont., Monday to visit Jackie.

They hadn't seen him since Christmas when he came home to spend the holiday with his three sisters, a brother and the parents.

Then Jackie went back to the school, where he is learning to get along despite his handicap. He was looking forward to the visit yesterday, but the day wore on and he failed to hear the familiar voices.

Bodies Are Found

Today, officials of the school had to tell Jackie he will never hear them again.

Bodies of the couple were found in their stalled car 10 miles north of Harlowtown. With them was the body of Ed Schoenfield, 31, of Lewistown, whose car was found nearby.

The three had huddled in the car, running the motor to keep the car heater going during a blizzard. The tragedy was discovered by road crews clearing the snow-drifted highway.

A coroner said death was caused by carbon monoxide gas. Death came, he said, almost before they were aware. The father apparently had made a desperate but unsuccessful attempt to open a window as he was dying.

Wealthy Socialite To Wed Airline Hostess

REDWOOD CITY, Calif., March 17 (INS)—Charles Sailor, wealthy San Francisco peninsula socialite and a litigant in a heated divorce case last year, today obtained a marriage license with a pretty airline hostess from Chicago.

The bride-to-be is Barbara C. Quigley, 26, daughter of Mrs. Eugene Quigley.

The couple met when Sailor flew to Australia a year ago.

As they posed for pictures at the Redwood City courthouse, Sailor declared:

"This time it's going to work."

Miss Quigley added an emphatic "right."

The first Mrs. Sailor was Patricia McKeon, a model, who charged in her divorce suit that she was "a kissless bride."

Sailor retorted with charges of adultery. Mrs. Sailor was awarded the divorce a year ago January.

TO ASK NO BASES

LISBON, March 17. (U.P.)—The United States has assured Portugal it would not ask for peacetime military bases in Portuguese territory under the Atlantic pact, official quarters said today.

Looms from the United States will increase Bolivia's rayon piece goods production.

Stock Market

ADVANCE IS FRACTIONAL

NEW YORK, March 17 (AP)—The stock market advanced fractionally today, with a small group of favored issues rising as much as 2 points or so.

Closing prices were about the best for the day.

Volume expanded sharply for a handful of stocks, some of which reached top prices for the year.

Turnover was at the rate of around 600,000 shares for the full session.

Among the larger gainers were Douglas Aircraft, Pullman, J. W. Bliss, Illinois Power, Bigelow-Sanford, Cincinnati Milling Machine, Mission Corp., Montgomery Ward, J. I. Case, Du Pont, Caterpillar Tractor, Union Pacific, and American Woolen.

Unfavorable dividend news helped to lower Bendix home appliances more than a point to a new low for the year. Magnavox, another selling target, also hit a new low.

Superior Oil of California, a high-priced stock, tripped up with a 5-point loss at 155.

Cotton Market

NEW YORK REPORT

NEW YORK, March 17 (AP)—Cotton futures moved lower in trading dominated by the nearby March delivery which expired at noon today. There was a total of 61 March transferable notices issued which induced considerable switching from March to later months. A leading spot firm switch an estimated 20,000 bales of March contracts into the May 1949 delivery.

Active mill buying and commission house demand carried prices to new highs for the day in the final hour. Prices closed around the best levels.

Futures closed 45 to 95 cents a bale higher than the previous close.

Segregation In Guard Ended

HARTFORD, Conn., March 17 (AP) — Connecticut negroes today had begun to show an interest in enlisting in the National Guard.

Governor Chester Bowles (D) yesterday signed a bill prohibiting racial segregation in the guard, making Connecticut the second state in the nation to defy the Army's policy of requiring the enlistment of negroes and whites in separate units. New Jersey previously had amended her constitution to prohibit segregation in the National Guard.

Seek Information

At Bridgeport, Maj. Joseph J. Siskovic, commanding officer of the 242nd anti-aircraft group, said more than a dozen negroes sought enlistment information last night at the company drill. At Meriden, Capt. John J. Carroll of Company L, 102nd Infantry regiment, said a single negro sought to enlist.

Both officers said they were awaiting receipt of official orders from Maj. Gen. Frederick G. Reincke, state adjutant general to enlist negroes, provided they could pass the physical requirements.

The general immediately after the law had been signed, ordered all commanding officers to enlist all men "regardless of race, creed or color."

The governor issued a statement as he signed the bill, saying passage of the measure by the general assembly was "particularly heartening since it comes at a time when a stubborn group of reactionary legislators in the Congress of the United States is waging a violent war against President Truman's civil rights program."

Animal-Lovers Split Over Use Of Trough

DALLAS, March 17 (AP)—Dallas animal-lovers were badly split today. It's about an old watering trough set up in 1888 to giving passing horses a drink.

The Dallas Human society presented it to the city and trough, about shoulder-high, was ihstalled at a downtown intersection.

This week the Humane society reported a count of horses passing the spot indicates there is no further use for the trough. The society asked that the fountain be removed. The city council, somewhat gleeful, passed a resolution yesterday to that effect.

Today the Dallas Society for Prevention of Cruelty to Animals protested. Mrs. Emilie Schuyler, SPCA executive vice president, said SPCA was not informed of the plans. SPCA believes, said Mrs. Schuyler, that the trough would get some use if it were put back into operation.

A frilled shark, one of the rarest of creatures that swims the sea, has been caught off the coast of California. Previously caught specimens had been known only from Japan and the west coast of Europe.

Mare Sojourns In Cellar For 45 Days

LANSFORD, N. D., March 17. (AP)—The story of a mare which lived 45 days in a cellar on canned fruit and vegetables while her owner wintered in Oregon came to light today.

The 4-year old mare fell into the farmhouse cellar through an outside door. She was imprisoned during most of the time when snow-storms and blizzards raged here, just 20 miles from the Canadian border.

Missing since Mid-January, she was found by Albert Maitern, son-in-law of Mr. and Mrs. George Blowers, the owners. He heard a commotion in the cellar when he visited the farm. He led her out via the stairway and door she had entered.

He estimated the animal caused $500 damage.

She smashed all of about 500 quarts of canned fruits bruied in straw, which provided roughage—and a bed.

She gnawed away at some poles with damaging effect.

And she lost about 200 pounds while on the semi-human diet.

Few Chinese Have Heart Disease

Chinese Restaurants Popular With Health-Seeking Persons

By HAL BOYLE
Associated Press Staff Writer

NEW YORK, Mar. 17.—One of the mysterious things about the mysterious east is that the comparatively few Chinese have heart disease or ulcers.

This cheerful fact is partly responsible for a boom in Chinese restaurants. People come to them in the hope that if they eat like the Chinese they'll feel as good as the Chinese.

"Now there are more than a thousand Chinese restaurants around New Yor," said Jimmy Yoeng, a patriarch in this field.

Restaurants Are Modernized

Jimmy, a smiling, ageless gnome who weighs only 110 pounds with a chopstick in each hand, is perhaps the man here who did most to transform the old off-the-bowery Chinese chop suey parlor. He moved it uptown, kicked out the teakwood and mother-of-pearl tables, modernized it, and put in dance band music.

Yoeng said only "newcomers and schoolchildren" order the twin standbys of the oldtime Chinese restaurant—chop suey and chow mein.

"People now want to eat real Chinese dishes—the dishes we eat ourselves."

His own favorite is chow sang gai pan, described on his Lun Far restaurant menu as "fresh white meat of chicken deliciously sauted with hearts of box choy, bamboo shoots, water chestnuts, fresh mushrooms and a touch of ginger."

American doctors have a high rate of heart disease. It is perhaps more than a coincidence, then, that many of Jimmy's patrons are doctors.

"One doctor has sent me more than 50 of his patients who suffer from high blood pressure," he said. "I order the meals for many of them. After I talk to them a few minutes I can tell what is good for them."

Jimmy believes Cantonese cooking is the healthiest in the world because of its variety, and because it always combines vegetables with meat.

"In American cooking meat is usually fried, baked or broiled," he said. "But Chinese cooks can prepare meat from 50 to 75 different ways."

Jimmy is convinced after a lifetime in the business that Americans eat too much—and too often.

Jimmy's solution for all mankind's stomach ills is "moderation."

Pair Reunited After 25-Year Separation

ROME, Ga., March 17 (AP)—Mr. and Mrs. Charles Wimpee were re-married here yesterday after 25 years apart. The separation ended after their daughter located Wimpee in a veterans' hospital at Amarillo, Tex.

For Mrs. Anna Lee Wimpee Carson of Washington, D. C., the ceremony was the fulfillment of a dream she had prized ever since she was a little girl.

Anna Lee was two years old when Wimpee left his home here in 1924. Her parents later divorced.
