Paratroopers Score In Jungle

CHARGED WITH EMBEZZLEMENT—The Rev. Frederick D. Reese is brought handcuffed into the Dallas County Courthouse in Selma, Ala., by a sheriff's deputy to await a hearing on three charges of embezzling a total of $1,850 in funds belonging to the Dallas County Voters League. The league, of which Reese is president, spearheaded the much publicized civil rights demonstrations in Selma earlier this year. Authorities said the investigation into Reese's finances was begun at the request of Negro civil rights workers. (AP Wirephoto)

U. S. Cotton Acreage Dips

WASHINGTON (AP) — The Agriculture Department estimated today that 14,205,000 acres were planted to cotton this year, 4 per cent less than last year.

The Texas acreage was estimated at 5,850,000, down six per cent.

The department made no forecast on production. Should it turn out to be at or near the recent yield of 492 pounds per acre, the crop would be around 14,200,000 bales. Last year's crop was 15,180,000 bales and the five-year average was 13,905,000 acres.

The crop is being grown under a program of acreage allotments and marketing quotas. Excess sales are subject to cash marketing penalties.

This year's crop will be supplemented by a reserve and surplus of around 13.5 million bales, or about 1.4 million more than a year earlier and the largest since 1956.

The department said this year's planted acreage was 7 per cent less than the 1959-63 average. Under a control program, the department had allotted 16.2 million acres among growers. But many planted less than their allotments to take advantage of payments offered to growers reducing planting. Such underplanting was heaviest in the Southeast and Oklahoma. It was very light in California.

In the eastern and central belts, cool wet weather in March and April delayed planting. With only limited rainfall in May, soils dried and many growers had to replant.

The department said late May and June rains improved crop stands and caused rapid growth, but excessive June rain in many areas hindered cultivation and increased insect infestation.

By late June, Weather was favorable and the crop was making good progress early this month.

In Texas, heavy rains in May and June provided moisture for early season growth in central and southern areas and for planting in the northwest.

The department said crop prospects were very good in the Lower Rio Grande Valley of Texas and that plant growth was relatively heavy in the coastal area of that state.

Cool weather delayed planting in Oklahoma. More than average replanting followed heavy rains in southwest Oklahoma.

The New Mexico crop made excellent progress. In Arizona and California cool weather and crusted soil resulted in poor germination, causing much replanting.

THE ART OF JUNGLE WARFARE IN VIET NAM—Painted figure on tree with crude drawing of grenade on chest is passed by Allied task force soldiers during search for the enemy in Viet Cong-infested D Zone jungle. The figure warns nearby farmers and other Viet Cong of the mined and booby-trapped area. The Allied task force of Americans, Vietnamese and Australians found little life in D Zone except hostile dogs. (AP Wirephoto via radio from Saigon)

Viet Cong In Ambush

SAIGON, Viet Nam (AP) — U.S. paratroopers have scored heavily in a series of clashes with the Viet Cong 25 miles northeast of Saigon in the D zone jungle, American authorities reported today. They said 25 of the guerrillas were known dead and it was estimated Red casualties Wednesday totaled more than 100.

On the other side, the Viet Cong ambushed a Vietnamese government battalion 37 miles northwest of Saigon today and a U.S. spokesman said most of the battalion apparently was wiped out.

Casualties in the ambush were not immediately known, but a survivor said they were heavy. The battalion was reported under strength and probably numbered about 300 men.

Four U.S. advisers were with the battalion, the spokesman said. Their fate was not known.

The ambush was sprung as the battalion was rushing to relieve a besieged outpost at Xom Dua in Binh Duong Province. The relief battalion was sent from the nearby district capital of Tri Tam. The Communists apparently were lying in wait for the reinforcements.

As the Viet Cong sprang the trap, Communist 81mm mortars began a barrage of Tri Tam. Results were not immediately reported.

U.S. authorities reported that paratroopers of the American 173rd Airborne Brigade fought a series of clashes with the Viet Cong Wednesday in the big combined force operation in "D" zone and enemy casualties were estimated at more than 100.

There was no report of American casualties.

The action in the Communist-controlled jungle 25 miles northeast of Saigon was the biggest engagement the paratroopers have fought since their arrival in Viet Nam in May.

The paratroopers along with Australian and Vietnamese forces have been carrying on a "search and destroy" sweep through the area since Tuesday. Until Wednesday they had made little contact with the enemy.

The Viet Cong kept up its pressure in the central highlands with a mortar attack early today on the district headquarters at Kontum a provincial capital 260 miles north of Saigon. Spokesmen said a number of shells hit the headquarters but there was no immediate word that the guefrillas followed up with an assault.

Kontum is 20 miles from Dak To, a district capital overrun by the Viet Cong Tuesday and apparently still in Red hands. Spokesmen said there had been no contact with Dak To, manned by about 150 government troops, or with the town of Dak Sut, about 18 miles to the north. The military posts in both towns have been frequent targets of the Viet Cong.

A U.S. spokesman announced that a U.S. Air Force F105 jet fighter-bomber was shot down over North Viet Nam Wednesday and the pilot apparently was captured after bailing out.

The spokesman said the plane was one of four Thunderchiefs that atacked a bridge and ferry installation 25 miles southeast of Vinh.

Red China's New China News Agency said earlier that two U.S. planes were shot down Wednesday and the pilots killed.

McCormack Derides Plea For Coalition

By JOHN BECKLER

WASHINGTON (AP) — House Speaker John W. McCormack said today a Southern Democrat's appeal for votes for the Republican version of a voting rights bill had put House Republicans "in a very untenable position."

McCormack, meeting with newsmen just before the House went into its third day of debate on the bill, referred to a speech Wednesday by Rep. William M. Tuck, D-Va.

Tuck urged members opposed "to these so-called voting rights bills", to vote for the GOP substitute offered by minority leader Gerald R. Ford of Michigan and Rep. William M. McCulloch, R-Ohio.

McCormack said Tuck's call amounted to a plea for a coalition of Republicans, who favor a milder voting bill than the one backed by the administration, and Southerners who are against any civil rights bill.

The House still has several hours of debate to finish before it reaches the stage where amendments can be offered. No vote on the Ford-McCulloch proposal is likely before tonight, and it may be delayed until Friday.

If enough Southerners heed Tuck's call it could be a nip-and-tuck vote.

House leaders, however, think they have the votes to turn back the GOP challenge. They put the maximum strength of any Republican - Southern Democrats coalition at 200, short of the 218 majority needed.

Tuck, a former governor of Virginia, said the Ford-McCulloch bill was "relatively moderate" compared to the administration bill sponsored by Rep Emanuel Celler, D-N.Y.

"If we are to have any federal legislation on the subject of voting rights," Tuck said, "the McCulloch bill is far more preferable than the Celler bill, although I am opposed to both."

Then, speaking what he called "the plain, unvarnished truth," Tuck said "a vote against the McCulloch substitute will be, in effect, a vote for the Celler bill. Thus, I hope every member opposed to these so-called voting rights bills will vote for the McCulloch substitute."

The major difference between the two bills is that the GOP bill would apply in any locality, but only after 25 persons have complained they were denied the right to vote. The Celler bill would take effect automatically in seven Southern states where less than 50 per cent of the adult population voted or was registered in the last election.

Both bills, with their different approaches, would provide federal examiners to register qualified Negroes.

The administration bill also would abolish literacy tests for voting in seven Southern states — Alabama, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Virginia.

Action Pushed On Health Care Bill

By JOE HALL

WASHINGTON (AP) — Senate Democratic leaders pushed for final action today on the Social Security-health care bill after disposing of 14 amendments Wednesday in a burst of speed.

Sen. Russell B. Long, D-La., the bill's floor manager, told newsmen "I see no reason why we cannot finish this bill tonight unless its opponents want to string it out, and there is no good reason for them to do so."

However, two Republican senators announced they would offer a number of amendments to the bill, which is one of President Johnson's most important legislative proposals.

Sen. Winston L. Prouty, R-Vt., said he would propose at least three changes affecting the benefits in the present Social Security system.

Sen. Carl T. Curtis, R-Neb., a strong foe of the new health care for the aged program in the bill, told a reporter he would make a sweeping recommittal motion to send the legislation back to the finance committee.

Under the Curtis motion, the committee would be directed to return the bill to the Senate by March 1 next year with a new health program patterned on the one now available to federal employes.

This would allow a choice of private insurance firms. Elderly persons with sufficient incomes would be required to pay the cost; there would be federal aid for the needy to pay premiums.

Long predicted the Republican amendments would be defeated easily.

The basic hospitalization plan in the bill would be available to the 19 million Americans 65 or older as a matter of right.

A voluntary supplemental plan, covering chiefly doctors fees, would be open to anyone over 65 who wishes to enroll and pay a $3 a month premium. The estimated $6.8 billion yearly cost of the program would be financed mainly through increased Social Security taxes.

Ambassadors Nominated

WASHINGTON (AP) — President Johnson announced today he will nominate six ambassadors. They are:

Parker Hart, now ambassador to Saudi Arabia, to be ambassador to Turkey.

David D. Newsom, a career officer, as ambassador to Libya.

David Bane, also a career diplomat, as ambassador to Gabon.

George J. Feldman, New York, lawyer, to be the first U.S. ambassador to Malta.

Hugh M. Smythe, New York sociologist, to Syria.

William Porter, a career officer, to Saudi Arabia replacing Hart.

Drownings Claim 13

AUSTIN (AP)—Thirteen persons drowned over the July 4 holiday in water recreation accidents, the Parks and Wildlife Department said today. The season total is 134.

Over 60 Set To Support College Bid

At noon today, more than 60 Snyder citizens had made arrangements to attend the Texas Board of Education hearing in Austin Monday.

At that hearing the fate of the proposal to locate a junior college in Snyder will be in large part decided. A favorable decision from the board would allow Scurry County voters to vote on the issue.

The meeting will be held in the ballroom of the Stephen F. Austin Hotel starting at 8:30 a. m. It is not known when Snyder's proposal will be heard, but all visitors to the Board's meeting are expected to be in their seats at the starting hour.

A decision was to be made late this afternoon on the number of buses which will make the trip from Snyder to Austin. Some of those who will attend the meeting in Austin are planning to make the trip by private car.

One bus will definitely make the trip and if there are enough who prefer the bus to private cars, a second bus will be chartered. Those going to Austin by bus will leave from the north side of the Snyder Square at 1:30 p.m. Sunday, and will return to that point late Monday afternoon.

Reservations will be made for those wishing them through the Chamber of Commerce office. The Snyder visitors will stay in the Stephen F. Austin Hotel rather than in the Driskill Hotel as was previously announced.

Backers of the junior college proposal were encouraged this morning by the support being given to the proposal, and noted that the community backing of such projects is a vital factor in the Board's decisions to grant junior college districts.

WEATHER

SNYDER TEMPERATURES: High Wednesday, 98 degrees; low, 75 degrees; reading at 7 a.m. today, 78 degrees.

South Central Texas: Clear to partly cloudy and hot tonight and Friday. Low tonight 74 to 80. High Friday 97 to 102.

Northeast Texas: Clear to partly cloudy and warm tonight and Friday. Showers over 20 per cent of east today. Low tonight 72 to 78. High Friday 94 to 99.

Northwest Texas: Clear to partly cloudy tonight and Friday. Late thunderstorms over 30 per cent of Panhandle. Low tonight 65 to 79. High Friday 96 to 102.

South Central and Southeast Texas: Clear to partly cloudy and warm tonight and Friday. Low tonight 72 to 80. High Friday 90 to 102, except 86 to 98 in Southeast Texas.

Southwest Texas: Clear to partly cloudy and warm tonight and Friday. Low tonight 70 to 78. High Friday 94 to 102.

Heat Wave To Continue

By The Associated Press

July steamed ahead today with thundershowers heightening the humidity at a few points in Texas.

Forecasts again promised no letup, however, in the hottest weather so far this season.

Presidio in the torrid Big Bend of West Texas posted Wednesday's high of 106 degrees and the number of 100-plus points increased. Wichita Falls registered 104, Mineral Wells 102, San Angelo and Wink 101, and Dallas, El Paso and Fort Worth 100.

Scattered showers dotted the Texas Panhandle in early morning and others fell in East Texas between Paris and Tyler.

Weather Bureau observers expected showers again by evening over about a third of the Panhandle but none in other sections of the state.

Panel Okays Cotton Plan

WASHINGTON (AP) — The House Agriculture Committee approved today a 4-year cotton program which would involve low price support loans and supplementary direct payments to cooperating growers.

The bill also would permit any farmer to grow all the cotton he wishes without penalty but without any government loans or supports.

Committee aides said the bill was approved 20-13.

The bill is to be included in an over-all farm bill on which the committee is working.

John Schnittker, undersecretary of agriculture who worked with the committee on the cotton bill, said it "is in a form the secretary has supported" and that "we will take a look at it in detail to see just what it may cost."

He and committee aides said the program proposed might cost above $600 million a year.

The bill would retain the present 16 million-acre minimum national allotment but require that any farmer participating in the program must cut his allotted acreage by 15 per cent. He could cut it up to 35 per cent.

Reedy Steps Out Of Post

WASHINGTON (AP)—George E. Reedy, President Johnson's press secretary, announced today he is suffering from a painful foot ailment and is bowing out of his White House post—at least for some months.

Reedy reported that doctors tell him he may face a series of operations that could sideline him for at least six months.

He said the duties of press secretary will be performed in his absence by Bill D. Moyers, one of Johnson's top special assistants.

There was considerable doubt among newsmen at the White House whether Reedy ever would return to his $28,500-a-year job as press secretary.

Confusion Surrounds Gold Situation

By RICHARD L. GRAVES

NEW YORK (AP) — New confusion, compounded by seemingly contradictory government pronouncements, has grown up around the U.S. balance of payments and gold problems.

The confusion may have hit a high point a few days ago when:

—Treasury Secretary Henry H. Fowler indicated the voluntary program to trim the U.S. balance of payments deficit is working so well he is worried about overoptimism.

—The Federal Reserve announced the greatest weekly outflow of gold in six years, $359 million.

The statements were the latest zig-zags in the government's on-again, off-again enthusiasm about its efforts to preserve the United States' dwindling gold stock.

Here are some basic questions, figures that some other nations and answers on the current U.S. gold and balance of payments situations:

Q: What is the status of the U.S. gold stock now?

A: The U.S. monetary gold stock now is worth $13,934,000,000. It has declined $1,454,000,000 since Jan. 1. The outflow in six months of 1965 is exceeded only by the total yearly losses in 1958 and 1960. The present supply of gold is now back to the level it was in 1938 before the nation built up its vast gold pile during World War II.

Q: Why has the gold stock declined?

A: Because the United States has had a balance of payments deficit every year since 1949 (except 1957). A deficit results when the nation spends more overseas than foreign nations spend in the United States. Since we have a deficit, it will have a surplus. Some foreign governments convert their surplus dollars into gold. The United States guarantees it will buy or sell gold at the fixed price of $35 a troy ounce.

Q: What is the so-called voluntary program and how does it fit into the picture?

A: The program was established by the government in February via "guidelines" to banks and manufacturers. One of the basic features of the program calls on organizations to limit their overseas investments to 105 per cent of their 1964 investment. Foreign investment was one of the biggest single items in the 1964 balance of payments deficit. That deficit provided the vast pool of dollars which some foreign governments are converting into gold this year.

Q: What is the U.S. balance of payments position now?

A: Despite optimism about the voluntary program, the United States deficit in the first three months of the year was $733 million. The program did not really begin to tell until the second three months. Though statistics presently are not available for the second quarter of 1965, it is believed the balance is showing a surplus. Some economists project the net deficit for 1965 at about $1 billion, or one-third the total deficit for 1964.

Q: Is that good or bad?

A: A little of both. It is good because it shows the voluntary program is working. It is bad because there is still a deficit.

The voluntary program is like a first-aid tourniquet — a temporary device that preserves the patient until there can be surgery to repair the injury.

At this stage, the voluntary tourniquet chafes. But the bankers and industrialists who complain about it are unlikely to loosen it until doctor government gives the word.

Q: What kind of permanent treatment has been proposed?

A: That's one of the problems. So far, government and the private sector seem to agree only that there is a problem to be taken care of. No program has been worked out. Treasury Secretary Fowler says the voluntary program must hold tight for at least a year.

Q: What happens next?

A: Probably the United States will lose more of its gold stock, since foreign governments still hold billions of dollars convertible into gold. But some economists feel the gold loss will taper off for three reasons: The voluntary program has limited dollars going overseas. The United States is still the world's number one department store and purchases are made with dollars, and many governments prefer to keep their dollar holdings in dollars or interest-bearing U.S. dollar securities rather than in bullion.

Q: Why is gold so important?

A: Many economists say gold is important only because so many people think it is important. Actually, gold has little useful value. Its value as money is mostly psychological. The mystique surrounding gold is rooted deep in history. But whatever the psychological or historical reasons, gold is readily convertible into currency, goods, or services in almost any part of the world.

Q: What has that got to do with the U.S. economy?

A: Because of the psychological importance of gold, many individuals and some nations

Landing Is Made To Play It Safe

By FRED S. HOFFMAN

WASHINGTON (AP) — The landing of 8,000 more Marines in South Viet Nam was a move to "play it safe" and strengthen U.S. forces against a possible major thrust by beefed up Communist troops, military sources said today.

The action was not prompted by any specific emergency situation, the sources said.

Intensive Communist activity in the central highlands of Viet Nam, coupled with indications that the equivalent of a North Vietnamese army division may be spread through the area, has caused concern.

If the Reds should mount an assault with seven to 10 battalions against one of the U.S. enclaves along the South China Sea coast, the sources said, they might cause considerable havoc.

It was learned that Gen. William C. Westmoreland, the top U.S. commander in Viet Nam, asked for the additional Marines from Okinawa because they could be brought in quickly. He said Wednesday that more "substantial confrontations" could be expected before long.

More Army troops are on their way to Viet Nam from the United States but are not due for a while yet.

Both military and civilian officials pointed to Westmoreland's current visit to Hawaii as an indicator that no imminent crisis is expected in Viet Nam.

They claimed there is no hidden significance to the general's trip — that it is mainly for the rest and a few days with his family in Honolulu.

As the U.S. buildup in Viet Nam continued, House Republican Leader Gerald R. Ford said Wednesday the United States should bomb Soviet-built missile sites in North Viet Nam.

Settlement Hopes Voiced

DALLAS (AP) — Officials involved in a costly strike which has halted major Dallas County construction projects hold out hope for an early settlement.

A spokesman said Dallas County Construction Employers Association and laborers union representatives would explore problems in the dispute at a meeting this afternoon.

"The DCCEA is hopeful an early solution to the problem can be reached," he said.

Elmer Davis, regional director for the NLRB, said a tentative date had been set for a hearing before an NLRB trial examiner but he would not disclose the date.

The complaint, Davis said, will allege refusal by the DCCEA to recognize the bargain collectively with the laborers' union Local 859, stating this local represents a majority of the laborers employed by the contractors.

Mothers Get New Weapons

ST. LOUIS, Mo. (AP) — R. W. Peck, a Berlin, Wis., hardware store owner, has sent six new baseball bats to those mothers who patrol Franz Park daily to guard against vandalism and harassment of younger children.

The mothers received the bats Wednesday and Mrs. Melvin Schmidt said they would carry them while they were on patrol. The bats were mailed to the Police Department for Mrs. Schmidt.

Peck congratulated the mothers and advised the bats could be "used in the manner for which they were made" when they are no longer needed for protection.

There have been no reports of intimidation of younger children by older youths or vandalism at the park since the mothers began their daily watch several weeks ago armed with old bats.

Cotton, Tobacco In Larger Quantities

WASHINGTON (AP) — Of the major farm commodities supported by government price programs, only cotton and tobacco are held by the government in larger quantities than a year earlier.

On June 1, the government investment in price support commodities totaled $6,819,172,000 compared with $7,435,059,000 a year earlier.

GOLD

(Continued from Page 1)

regard the level of gold backing currency as a barometer of the true value of the currency. That view prevails in many European countries, particularly France and Germany, where disastrous inflations in the past have wrecked the economies of the countries. France and Germany in recent years have been the largest buyers of U.S. gold.

Q. Does the U.S. government regard gold highly as a reserve?

A. No. The United States position is that a currency is only as strong as the economy behind it. The government contends that as long as the U.S. economy is strong, the dollar is strong.

Q. What is a sign of world regard for the dollar and what does it show?

A. Possibly the clearest sign of the world attitude is the price of gold in dollars on the London market where prices are bid up or down each day. When confidence in the dollar slips for some reason, the price of gold goes up. When confidence in the dollar is strong, the price buyers near the U.S. fixed price level (plus an 8¾ cents an ounce service charge). Currently, the London price of gold has been ranging between $35.09 and $35.11 a troy ounce.

FOR TESTING, ONE OLD STONE—Joan Gibbons of Chicago displays a 14-pound cube of stone she brought to Washington upon starting her vacation from a U.S. Information Service job in Cairo, Egypt. The stone is from a 2,000-year-old temple. American scientists will test it to help determine where the temple should be placed when it is moved to the United States. The dismantled building formerly stood in an Egyptian valley near Aswan dam. (AP Wirephoto)

Britons Get Mailing Tips

LONDON (AP) — The British Postoffice urged its clients today not to send:

Chewing gum to the Soviet Union.

Opium pipes to the Philippines.

Toy pistols to Cyprus.

Honey to Basutoland.

Candles to Algeria.

Skimmed milk to Singapore.

Roulette wheels to El Salvador.

Communist tracts to Colombia.

Used sacks to Iceland.

Elm trees to Ireland.

Rubber balloons to Iraq.

All these, said the postoffice guide for 1965, are likely to be seized in the countries named. The Soviet Union also bans second-hand clothes and shoes.

Three Die In Road Mishap

ROCKDALE, Tex. (AP) — Three persons died at about 5:30 a.m. today when a small pickup truck moving an aluminum camper collided headon with a Mayflower moving van.

The wreck occurred on U.S. 77 at Minerva, 7 miles north of Rockdale.

Highway Patrolman Tom Kirchoff said the van was moving south and the other going north.

All three occupants of the pickup were killed.

They were Clifford Aubrey Black, 41, of De Soto, Tex., the driver; his wife, and their son, Gary Eugene Goodman, 16.

The driver of the van, John Parker, 42, of Marlin and his son, Johnny, escaped injury.

The van overturned after the collision and was dragged by the tractor about 60 feet.

The patrolman said the Goodman youth carried identification indicating that he lived or had lived at Longview.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I am a 17-year-old girl who was married with my parents' consent during my junior year in high school. (It wasn't a "have to" case, either.) I found out last February that I was expecting a baby in August. When I told my principal about it, I was not allowed to take part in the graduation exercises with my class because I wouldn't have had my baby then and it would have looked "bad." My doctor said my health is fine and he saw no reason why I could not graduate with my class. I earned the right to wear a cap and gown, but my principal had my diploma mailed to me. I checked and there is no "law" about this, it was all up to the principal. Do you think this was fair?

DISAPPOINTED

DEAR DISAPPOINTED: No. In view of the fact that you are a respectably married woman, and chose to complete your high school education with your class, you should have been permitted to participate in the graduation exercises.

* * *

DEAR ABBY: A relative of mine has been sending me carbon copies of letters she sends to about five other people. The letters all begin with a general greeting like, "Howdy, stranger," or "Hi, all!" When I write to her I write personal letters containing news that I think would interest her. But in return I get these "form letters," full of references to people I don't even know. It's more like a newsletter or a diary. She has no children so she can't use that as an excuse for her carbon copies. She always closes with, "Why doesn't anybody write to me?" Apparently the others on her mailing list are about as fed up with her carbon copies as I am. Should I tell her off or let it go? I'm holding off writing to her until I hear from you.

FED UP

DEAR FED: Sit down and write this relative a letter telling her exactly what you think of her carbon copy "newsletters." Then tear it up. The momentary satisfaction derived from "telling her off" would probably not be worth the regrets you'd have later. If her letters bore and irritate you, discard them unread. And don't bother to answer.

* * *

DEAR ABBY: We have always enjoyed a good reputation in town and now we are worried about what people will think and say. Our 26-year-old son, a college graduate, is now employed by a large firm. He has a bright future. He met and fell in love with a girl from another state, and he brought her home last week-end for us to meet her as they plan to marry. She is 23, a pretty little thing, and so quiet and polite. We all fell in love with her.

Last evening our son told us there was "something" he wanted us to know. It seems the girl has a 4-year-old illegitimate son. She made a mistake when she was younger and decided to keep the baby and raise it herself. With the help of her mother, she finished college, worked, and managed to do this. When she and my son marry, he wants to adopt the boy, and they will live in this town. My husband was horrified. I was shocked, but being a woman, I am more understanding. What should we tell people when she comes here with her child?

AFRAID TO TALK

DEAR AFRAID: You owe the townspeople no explanations. They'll probably assume that the child is hers from a previous marriage. Let them assume it.

* * *

CONFIDENTIAL TO APPALLED IN APPLETON: Don't blame the children. It's practically impossible for youngsters to learn good manners when they rarely see any.

Chaplain: Rev. Royce Sanders

ADMISSIONS: May Stubblefield, 910 Avenue O; Thomas Lewis, Abilene; Amanda Viola McCauley, Box 1002; Teresa Emery, 2506 Twenty-ninth; Gertrude Mae Hobbs, Box 83; Darrell Lee Haney, Rt. 1; Etheline Schwartz, 2812 Avenue G; Hazel White, 2707 Twenty-sixth; Lillie McDonald, 2503 Twenty-seventh; Connie Garland, Ravville, La.; Willie Ross Sanders, 3704 Noble.

DISMISSALS: Mattie Morris; May Stubblefield; Mary Hatter; Bill King; Marie Ray; Martha Ellison; James Galyean; John J. Eades.

Mrs. Johnson Busy Around Ranch Home

STONEWALL, Tex. (AP) — Mrs. Lyndon Johnson, who stayed at the LBJ Ranch when the President returned to Washington Tuesday, has been working around the house and at Johnson's boyhood home in nearby Johnson City, her press secretary said today.

"She tries to set aside two weeks each July to attend to the long list of things that come up in every home," said Mrs. Elizabeth Carpenter.

Mrs. Johnson has been paying particular attention to supervising the canning of vegetables from the Johnson garden, Mrs. Carpenter said.

SKIN ITCH
DON'T SCRATCH IT!

Scratching spreads infection, causing MORE pain. Apply quick-drying ITCH-ME-NOT instead. Itching quiets down in minutes and antiseptic action helps speed healing. Fine for eczema, insect bites, foot itch, other surface rashes. If not pleased, your 48c back at any drug store. TODAY at Irwin Drug Store.

NAUTICAL RED, white and blue swim suit is two piece but still sea worthy. Of Chemstrand stretch nylon, suit dries quickly, is comfortable to wear on deck all day. Read and white gingham bra top has the wider set shoulder straps, navy maillot is trimmed with a gingham border, tiny pearl buttons.

New Never Fail Popover

Summer can be the most nervous season of all in the menu-planning department. For homemakers, the hunt is on — for something - different entrees that are pretty enough to rate raves from party guests, good enough to please family critics, and easy enough to allow the cook to enjoy a measure of leisure.

One happy answer to the quick - to - cook quest can be found in a new and versatile popover recipe which rises above the routine to add a special glamour to creamed fowl, fish, or even leftover meats.

Accustomed to shying away from the guess-and-gamble uncertainty which used to make popovers a culinary treat only expert bakers dared attempt, today's fast - moving cooks are largely unacquainted with the versatile potential for variations offered by this golden - crowned aristocrat among breads.

Starting with the basic Peacemaker Popover ingredients, even beginners can adapt and experiment with different herbs and seasonings — with no fear of failure. Grated onions, cheeses, even pizza or curry flavors can be added to make the popover shells a crisp complement to whatever filling the cook chooses.

As for the filling itself, family preferences and time requirements are the only limitations to be reckoned with: for quick lunches or elegant late suppers, variations range from canned meats to any one of the new and delicious frozen creamed foods — chicken, crab, or shrimp. Diced lamb or beef roasts can be curried and creamed, thereby transforming them from leftover to compliment - winning delicacy. And by adding green peas or beans to the cream sauce as well, clever homemakers can create an entree which needs only a salad accompaniment to become a treat compleat.

POPOVERS

1 cup peacemaker all - purpose flour, sifted
¼ teaspoon salt
2 eggs.
⅞ cup milk (¾ cup plus 2 tablespoons)
1 tablespoon melted butter

Combine flour and salt, and mix well. In a separate bowl, beat eggs until light, add milk and butter, and add slowly to the flour, stirring until well blended. Beat 1 minute with an electric beater (or 2 minutes with rotary hand beater): batter will be thin and smooth.

Meanwhile, butter 6 custard cups or muffin tins heavily, and put in oven until sizzling hot. (If cups are used, set on cookie sheet with sides not touching.) Fill each ½ full of batter. Bake in 450 degree oven for 20 minutes, then reduce heat to 350 degrees and bake an additional 15 minutes. Don't open oven before last 10 minutes of baking time! When popovers are puffed and golden, remove from cups and, with a sharp fork, prick one or two small holes in side of each to allow steam to escape. Cool on wire rack, slice off top, fill and serve.

SUMMER-LIGHT and summer-easy, these peacemaker popovers make light work of hot-weather cookery for family or guests. Filled with creamed chicken, shrimp, or crab, the golden-brown puffs become an airy entree for temptingly different lunches or suppers.

Corned beef hash will brown well if you dip the slices (from a can) in the flour before placing them in the skillet.

Zadkine Recognized As A Leading Sculptor

By PRESTON GROVER
Associated Press Writer

PARIS, (AP) — "I work much with wood. I am an ebeniste, a worker in fine woods. I am truly an ebeniste."

That is the description of himself given one morning by Ossip Zadkine as he paced back and forth in front of a museum's worth of his own sculpture packed into his studio in Paris' Latin Quarter. (Literally, the word means cabinet - maker.)

His description is only a fraction of the truth, for this little white-haired man is moving toward his 75th birthday (July 14) with a wealth of his sculptures shown in museums, private collections and public parks across the face of the earth. He is one of the world's leading sculptors.

He is Russian, born in Smolensk in 1890, but left the country when he was a boy and now would not dream of going back.

"I don't want to go back. Everything is built of cement. Homes too. How awful. Communism is only skin deep. The true Russia goes deeper."

As a boy he was an indifferent student, and his parents did not approve of his interest in art. When he was 15 his father, a Latin professor, decided he should go to England "to learn English and manners."

He traveled alone from Smolensk to Sunderland and went immediately to work in the cabinet-making shop of his uncle, John Lester, carving wooden ornamentation on furniture. Soon he was occupied only with art and moved to London. There he got such a rude brush-off by the rising and controversial young artist, Jacob Epstein, that he threw into the Thames River, the statue he wanted Epstein to see, and went back to Smolensk.

That was in 1909. His father told him that if he wanted to study art he should go to Paris, which he did the same year. Years later he learned that his parents died in the Bolshevik Revolution.

In Paris his rise was not dramatic. He was past 40 before important recognition came. Perhaps his best known statue is the huge bronze on the Leuvehaven Pier in Rotterdam, called "The Destroyed City." It commemorates the Nazi bombing of Rotterdam in 1940, when Holland was attacked without warning.

The distorted, cubist - style legs support a body which is turned half around to face the east, from where the bombers came. Huge angular arms rise in protest and a great bronze mouth opens in a bellow of pain and indignation. It is the only statue that I ever saw that I felt I could hear scream — a brassy, male scream.

I told Zadkine my impressions of it. He simply commented: "It is very good."

He arrived in Paris when Picasso and other experimenters were developing cubism. Too young and lacking in experience to share the artistic debate, Zadkine could only admire and follow the pack.

"Cubism was a sort of monasticism," he said. "It is with me as if I had been a monk. Once a monk, you always show signs of having been in a monastry. After that I develeoped independently and came to do only what comes from deep inside." He gestured of something starting deep in his vitals and moving out through his face.

"It is more than just something from the earth, from the peasant. It is prehistoric. I see things without covering, the raw thing underneath."

There seems no limit to what he will try. That which distinguishes a man or a god is likely to become a part of the figure. The lute is part of the body of Orpheus. A 'cellist plays an instrument whose strings are stretched to the length of his body.

There are more than 80 pieces in the studio and in a little garden outside. Most shapes are clearly recognizable. If abstraction has touched him, it is only lightly. Books have been written about him, filled with words of praise not only by the critics, but by Zadkine himself — for he is no man to hide his light under a bushel.

Sea Going Meat Balls

If you're looking for a unique preparation of a very popular dish, try these "meat balls in a boat." Hollow a long loaf of French bread by removing the top in one long slice and scraping the inside of the loaf with a fork. Fill the loaf with canned meat balls and gravy. Top with thin slices of onion and a sprinkling of Parmesan cheese and place top slice over all. Wrap the loaf in foil and bake in a gas oven, set at 350 degrees for 20 to 25 minutes. Serve on a platter or tray garnished with olives and parsley.

Light For Outdoor Chores

Besides providing a soft, charming glow for barbecue dinners, modern gas lawn or patio lights can be an efficient helper for those after - dark, summertime chores like taking in the kids' toys, pulling in the lawn sprinkler and otherwise "battening - down the hatches." The latest model gas lights are availabe in a wide variety of styles and designs to match any pocket-book or taste.

Cotton can be spun very fine.

WHAT'S GOING ON

Mrs. Lionel Pierce and son Brent, of El Paso are visiting this week with her parents, Mr. and Mrs. G. B. Hayes, 3612 Avenue V. Other recent guests were Mr. and Mrs. George M. Davis and four children of Jal, N. M., and Mr. and Mrs. Pate Harrison of Big Spring.

Tailored Heat

Not so many decades ago, heating requirements exercised a strong influence over home architecture. Now it's the other way around. There is a type of gas central heating equipment to suit any style of architecture, whether it's a ranch house, Cape Codder or Colonial mansion. This is one of the reasons most homeowners prefer gas heat, GAMA says.

If you're in the market for central air conditioning, this ad can save you hundreds of dollars!

GAS AIR CONDITIONING SAVES MONEY AND HEADACHES YEAR AFTER YEAR

You save in operating efficiency, low maintenance, amazingly long service. Combined heating and cooling costs with gas are substantially lower than for electric heating and cooling. Add to that the savings in maintenance and electric compressor replacements and you'll see why gas is your best home air conditioning investment.

LOW DOWN PAYMENT, AS LITTLE AS $25/MO. FOR 2,8-TON UNIT

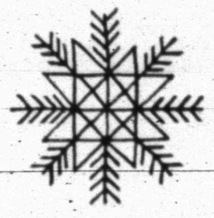
This new gas unit for medium-size homes both cools and heats . . . puts the world's finest air conditioning in reach of every one.

HOW GAS UNITS CAN LAST TWICE AS LONG AS ELECTRIC

Gas cooling for homes has no compressor. A simple gas flame is the heart of the cooling cycle —with few moving parts to wear or need repair. No wonder the life expectancy of gas air conditioning is double that of compressor types!

SPECIAL SUMMER GAS AIR CONDITIONING RATES

Owners of gas air conditioners get reduced gas rates for cooling during the hot summer months. This makes for even more economy from an efficient gas unit!



CALL FOR A FREE ESTIMATE ON GAS AIR CONDITIONING. NO OBLIGATION.

Don't be fooled by "horseback estimates" on costs! Get a bona fide air conditioning price from Lone Star Gas and compare with the price of the same size electric unit. You'll find the little extra per month to buy a gas unit buys you a lot more air conditioning over the years! There are two types of gas systems for the home: a combination cooling and heating system and an add-on cooling system. Investigate the possibility of gas air conditioning your home now.

New Switches In Soviet Expected

By WILLIAM E. RYAN

Signs of strain between the reformers and conservative Communists in the Soviet Union suggest that Kremlin officialdom may be in for a new round of [illegible]

Some of the signs:

—The Communist leadership apparently has decided to put off the party congress, the [illegible] body for nearly 12 million party members and meets every four years. The last congress was in October 1961.

—Four high-ranking government and Communist party leaders have been missing for five or six weeks from important official gatherings. All rose to prominence under Nikita S. Khrushchev.

—The absence of these persons may be connected with the downfall earlier this year of two other Khrushchev proteges. It could mean that powerful forces have undertaken a determined campaign to rid the party leadership of "the Ukrainians" and economic reformers who came up under Khrushchev's wing.

Almost from the day of Khrushchev's fall last October, there have been hints of a clash between the two who divided his powers: Party Chief Leonid I. Brezhnev and Premier Alexei N. Kosygin. The clash seems to stem from differences on economic reforms, the effect of such reforms on party leadership and the extent of party authority which, in conservative opinion, should dominate every aspect of Soviet life even if it interferes with production.

Conservatives — those who distrust anything suggesting lessened central authority — have been restive in recent years.

The intrusion of other factors besides the division over economics makes it difficult to single out the members of the contending camps. But it seems likely that Brezhnev, despite his position as party chief, may be in the reformer group and Kosygin may represent the conservatives.

Identities of the four missing leaders bolsters a theory that "the Ukrainians" are in difficulty with the troubles affecting the younger reformers. Perhaps the [illegible] will be questioned.

The missing men are:

1. Nikolai N. Podgorny, former Ukraine party chief who became a top secretary of the Soviet party under Khrushchev.

2. Pyotr Y. Shelest, metallurgical engineer, also Ukraine party chief under Khrushchev. He rose to candidate member of the ruling party presidium, achieving full membership after Khrushchev fell.

3. Gennady I. Voronov, whom Khrushchev made premier of the biggest Soviet state, the Russian republic, and a member of the top party presidium.

4. Pyotr N. Demichev, one of Khrushchev's bright young men. At 46 he represented the leadership's young element. A party secretary since 1961, he was its bureau chairman for chemicals and light industry. He is a candidate member of the top presidium.

BRITISH MILITARY PLANE CRASH KILLS 41—A helicopter hovers over smoldering wreckage of a British Royal Air Force transport plane that blew up and plunged into barley field near Dorchester, England killing all 41 men aboard. The plane was carrying British servicemen on a parachute training mission. (AP Wirephoto via cable from London)

Graham Man Heads Assn.

MINERAL WELLS (AP) — Bruce Street of Graham was elected president at the final organization meeting Wednesday of the board of trustees of the Texas Oil Producers Marketing Association.

Also attending were trustees R. L. Foree Sr. of Dallas, Tom Medders Jr. of Wichita Falls, L. W. Brooks Jr. of Breckenridge, Balcolm Abel of Midland, George Graham of Wichita Falls and Lester Clark of Breckenridge.

The group adopted resolutions stating:

1. The scope of the association shall be limited to assisting any producer or area in the orderly marketing of its crude oil.

2. All activities are to be apart from any industry trade associations and shall be those of individuals or corporate operators.

Fabrics of cotton and wool do not pull apart at the seams.

Powder Pufffers Set Celebration

CHATTANOOGA, Tenn. (AP) — Weary officials and an overworked computer looked forward to the celebrations today as the 19th annual Powder Puff Derby headed toward a grand finale.

Seventy-one planes, their female pilots and a white French poodle Wednesday completed the 2,400-mile air race from El Cajon, Calif., to Chattanooga. Locked in a tight race for the crown were a Florida investment broker and a seven-time Powder Puff champion from California.

The winner had been due to receive her trophy Wednesday night, but a large number of last-day arrivals caused officials to give up trying to figure the complicated handicap scores.

A computer will figure the winner on a complicated formula involving only actual flying time and the rated ability of the individual planes.

"I don't have a chance now," said June Douglas, manager of a Palm Beach, Fla., investment firm, after a disappointing final lap. But derby officials disagreed, saying she's still very much in the running.

Miss Douglas, who soloed, had been first in the standings, but lost time when she had to fly around rain and thunderstorms on her flight here from Savannah, Ga.

Neck and neck with Miss Douglas was Frances Bera, a flight instructor from Long Beach, Calif. She's the most experienced flyer in the field, competing in the derby 15 years and winning seven times.

Mrs. Bera and her co-pilot, Margaret A. Mead, also of Long Beach, completed the race Tuesday and missed the turbulent Georgia weather.

The French poodle, a white one named "Candy," seemed none the worse for the cross-country trek with Esther Phipps of Sacramento, Calif., and her daughter, Judy Phipps Lagomarsino of Yuba City, Calif.

Joining the Phipps mother-daughter duo were two other moms and their flying offspring as well as one sister team.

Woman Threatens To Leap From Viaduct

KANSAS CITY, Mo. (AP) — A 46-year-old housewife perched outside the railing of the Grand Avenue railroad viaduct in downtown Kansas City and threatened to jump 40 feet to the tracks below until pulled back by police Wednesday night.

Dorothy Stewart hung on to the railing for 15 minutes, screaming that she had nothing to live for. Then she took off her blouse and shoes, but agreed to entreaties from officers that she talk to her husband, Melrose Stewart.

They brought Stewart, and when her attention was diverted, pulled Mrs. Stewart away from the railing. She was taken to General Hospital.

Huge Turtle Caught

MARSHALL (AP)—A 97-pound alligator snapping turtle was brought out of Caddo Lake in Northeast Texas recently, approaching the world's record of 114 pounds for this species. The turtle was caught on a trotline.

Racial Issue Is Renewed In Bogalusa

BOGALUSA, La. (AP) — Civil rights advocates have renewed their protests against [illegible] segregation in Bogalusa and a segregationist group says it will hold counter-rallies.

A predominantly Negro group of 350 paraded in rain through nearly empty streets Wednesday to kick off the new wave of demonstrations.

Negro leaders say they'll march again today.

The National States Rights party, headquartered at Montgomery, Ala., distributed leaflets saying it would hold a counter-rally tonight, "and every night until the Communists, beatniks, and other race-mixing groups have been defeated in their brazen attempt to take over the white Christian community of Bogalusa."

A federal judge in New Orleans was expected to issue his ruling late today on a request by Bogalusa civil rights groups for an injunction against city authorities for allegedly interfering with demonstrations.

A spokesman for the Bogalusa Civil and Voters League, affiliated with the Congress of Racial Equality, said CORE's national director, James Farmer, would return here to help direct the renewed campaign.

Bogalusa became a racial hot spot in the spring when Negroes began protests. The town, located on the Louisiana-Mississippi border northeast of New Orleans, had been a center of Ku Klux Klan activity.

The demonstrations subsided when Negro Deputy Sheriff Oneal Moore was shot to death while driving in a patrol car near Bogalusa on June 2.

Right To Disobey Draws Challenge

By ROBERT GOLDENSTEIN

CHICAGO (AP) — The concept of "righteous civil disobedience" to achieve civil rights or other goals is incompatible with the American legal system and society, says an American Bar Association official.

Morris I. Leibman, chairman of the organization's Committee on Education Against Communism, said in an article published in the current issue of the American Bar Association Journal: "I cannot accept the right to disobey when the law is not static and effective channels for change are constantly available."

The Journal is the official journal for the bar association's 120,000 member-lawyers.

A leader in the civil rights movement, Dr. Martin Luther King Jr., is an advocate of passive civil disobedience. Such demonstrations, King said Wednesday in Chicago, become "a weapon dramatizing the evils of injustice." He was here to confer with leaders of a continuing demonstration protesting alleged de facto racial segregation in the city's public schools.

Leibman, a Chicago lawyer, argued that the concepts of "freedom now" and "righteous civil disobedience" are "semantic traps and only add heat to the problems of freedom and justice for all."

He said: "'Freedom now' is an illusion. The desire for self-expression can be satisfied only in an atmosphere of freedom, and freedom is not an absolute. It exists only within the confines of the necessary restraining measures of society."

Another Journal article said the laws of India do not condone all the passive resistance practices used by the late Mohandas K. Gandhi in leading that country to independence from Britain.

Guilty Plea Heard

Shirley Ann Wells of Snyder, charged on May 6 with illegal sale of whiskey, changed her earlier plea of not guilty to a plea of guilty Wednesday afternoon in county court.

She was assessed a fine of $200 plus costs of $26.35 and was sentenced to 15 days in jail.

Maine is the only state in the continental United States which touches only one other state.

STRICTLY 'NEW-HAT' EVERY DAY!

There's nothing brighter, fresher, newsier and more welcome than your daily paper. It keeps you current on world affairs, stimulates your mind, tickles your sense of humor, puts facts at your fingertips.

It's short-lived — but it grows old gracefully. Today's paper won't be dead tomorrow or even the day after that. So much that's in it is timeless as well as timely. Things like expert financial and medical advice, recipes, do-it-yourself hints, special features and stories, pictures — these are just a few of the ageless extras your daily paper gives you.

In this era of mass communications, your newspaper stands out as a tangible document. It's yours to read, put down, pick up and read again, clip and save.

The Snyder Daily News

New York Water Problem Worsens

PHILADELPHIA (AP) — New York City, in the grip of a dry spell, tonight was ordered to cut its use of Delaware River water and also release water from its dams as part of a four-state water emergency declaration.

At a meeting here Wednesday, the Delaware River Basin Commission declared the 30-day water emergency immediately for the states of New York, New Jersey, Pennsylvania and Delaware. The commission directed New York City to reduce its consumption of Delaware water by 75 million gallons a day.

The commission, made up of representatives of the four states and of the United States Department of the Interior, also ordered New York to release 200 million gallons of water daily from its dams in the western Catskills.

The action was to help maintain the flow of fresh water in the Delaware estuary in efforts to save the Philadelphia-Camden, N.J., water supply from the imminent threat of salt contamination.

The water supply in the Delaware River Basin serving more than 20 million persons is extremely short for the fourth straight year of far-below-normal rainfall. The state of emergency runs to Aug. 10, but can be extended, and, if necessary, tightened.

The emergency action was the first by the commission since its creation in 1961 under the Delaware River Compact, a joint venture of the four states and the federal government aimed at developing the area's water resources.

New York City has been diverting an average of 410 million gallons a day from its reservoirs in the upper basin.

New York City gets about half its water from the Delaware.

OFF DUTY RIGHTS ON TRIAL—Michael B. Hannon, a policeman temporarily relieved of duty, poses in Los Angeles with his wife, Sylvia, during a recess in the hearing of charges brought against him by Chief of Police William H. Parker. One issue on trial at the hearing is whether a policeman has as much right as anyone else to engage in civil rights and foreign policy demonstrations during his off-duty hours. (AP Wirephoto)

Model Prisoner In Surprise Walk

SEAGOVILLE, Tex. (AP) — Thomas Robinson Jr., a former Vanderbilt University law student who climbed to the top of the FBI's "most wanted" list three decades ago, walked away from the minimum security federal reformatory here.

Robinson was under a life sentence for kidnaping Mrs. Alice Stoll, a Louisville, Ky., socialite.

"He is a mystery to me why he left," Warden Henry Davis said Wednesday night. "He has been one of our model inmates since coming here last year. He was interviewed by the parole board recently and was very optimistic about his chances for release."

Robinson disappeared Tuesday. "Since the institution outside Dallas is near a main highway, he would have had no difficulty with transportation," Davis said.

He eluded police for two years after the kidnaping in 1934, and was placed at the top of the FBI wanted list during that period.

Sentenced to life behind bars, Robinson continued his study of law while confined in Alcatraz and prepared his own appeal for a new trial. Under a unique legal provision, he received a death sentence when he lost this case in court.

The kidnaper, a mother, forbidden in Nashville, carried a gun in a fight to save her son's life, according to President Harry Truman, who commuted the sentence to life in prison.

After losing a bid for parole in 1961, when he first became eligible, Robinson escaped from a federal prison at Tallahassee, Fla., in 1962. He said he wanted to see his mother once more.

Federal authorities picked him up in Chicago shortly thereafter and took him to Nashville for a reunion with Mrs. Robinson.

Watchdog Becomes Loot In Burglary

ABERDEEN, Md. (AP) — After burglars broke into the Aberdeen Ice Co. and made off with $4 in change and some beer Tuesday, the owners installed a watchdog.

Burglars broke into the place again Wednesday, police reported. Missing were $4 in change and some beer and the watchdog.

Lawyer Will Ask Hearing

DALLAS (AP) — A defense lawyer said Wednesday he will ask a full disqualification hearing for Dist. Judge Joe Brown in connection with the pretrial handling of the Jack Ruby case.

The lawyer, Phil Burleson, said he would present proof for the hearing before Judge Louis Holland of Mesquite, who was appointed June 22 to replace Brown in the Ruby proceedings.

Burleson said he would call several witnesses. It was presumed that Brown could be one of these.

Asst. Dist. Atty. A. D. Bowie said the state would ask denial of the motion because Brown is out of the case and it is a moot question.

Holland will hear a murder case in Brown's court July 19, Bowie said, and the hearing is expected after that trial.

Defense lawyers, attempting to get information about Brown into court records, claim the judge only excused himself from the Ruby matters.

They contend Brown did not disqualify himself or answer allegations that he mishandled the case and had a monetary interest because he is writing a book about it.

Brown resigned with a brief note to presiding Dist. Judge Dallas Blankenship and indicated he would explain later. He has made no public comment on the case since.

Mrs. Nutt's Father Is Critically Injured In Saturday Night Mishap

James Earl Brake, 52, of Plainview, the father of Mrs. Fay Nutt of Snyder, is reported to be in critical condition in Northwest Texas Hospital in Amarillo.

Mr. Brake was injured Saturday night when the pickup truck in which he was a passenger missed a bridge and crashed into a dry creek bed. Driver of the truck was Bill Conklin, 31, also of Plainview, who was also injured although not critically.

The mishap occurred when the truck left FM 1036 southwest of the Sammorwood community. Both men were trapped in the vehicle for 15 minutes before they were discovered. They are both employes of the Conklin Brothers Construction Co. of Plainview.

Blaze Threatens High Explosives

SWANNANOA, N.C. (AP) — Fire at a jet fuel manufacturing plant threatened for hours today to touch off 3,000 pounds of high explosives and forced evacuation of thousands from within a mile area in western North Carolina's mountains.

Chances of a huge explosion were reported to have diminished at 7 a.m., and an inspection team went to the plant to evaluate the situation.

Firefighters had been kept away for fear of explosion. Sheriff's officers and plant officials, describing the fire as uncontrollable during early morning hours, said the blaze would have to burn itself out.

The Buncombe County sheriff's office said upwards of 5,000 persons were evacuated from within a mile of the plant.

The fire at the Amcel Propulsion Laboratory at Swannanoa, about 12 miles east of the resort city of Asheville, was discovered about 1 a.m.

The plant, a division of Celanese Corp. of America, manufactures fuel for jet aircraft and missiles.

Rescue units, the Red Cross and sheriff's deputies evacuated all persons within one mile of the plant. They were taken to a nearby Veterans Hospital and a high school.

Fred Cooper, safety director at the plant, said the blaze was confined to a processing plant next door to a room where 3,000 pounds of high explosives were stored.

Four From Houston Are On Council

WASHINGTON (AP) — Four of the 13 new members of the National Petroleum Council for fiscal 1966 named Wednesday by Secretary of the Interior Stewart Udall are Houston men.

Udall also reappointed 84 council members.

The Houston men are Harold Burrow, president of Tennessee Gas Transmission Co.; Baxter Goodrich, president of Texas Eastern Transmission Corp.; Basil Kantzer, president of Transwestern Pipeline Co., and John W. Mecom.

The council was established in 1946 to advise and make recommendations on the petroleum industry. It will meet here July 20.

Jake Hamon of Dallas is chairman of the council.

Other new members include: E. H. McCollough, president of Amerada Petroleum Corp., New York; Richard McCurdy, president of Shell Oil Co., New York; William Smith, president of Kewanee Oil & Gas Co., Bryn Mawr, Pa.; Harold Bible, president of Lion Oil Co., St. Louis; John Kelly of Roswell, N. M., who resigned June 30 as assistant interior secretary for mineral resources; W. M. Vaughey of Vaughey & Vaughey, Jackson, Miss.; Richard von Hagen, president of Western Oil & Gas Association, Beverly Hills, Calif., and Red Hartley, president of Union Oil Co. of California, Los Angeles.

Cross Is Burned Beside Mailbox

ATLANTA, Ga. (AP) — An Atlanta man found a two-foot high wooden cross burning beside his mailbox Wednesday night, police reported.

Patrolman A. L. Bassett said R. E. Shrider, who works at the Bethlehem Community Center, told him some Negroes he works with had visited his home earlier.

Mr. and Mrs. Shrider are white.

Town Church Rebuilt By Volunteers

KLAMATH, Calif. (AP) — This tiny logging town, wiped out in northern California's $300 million flood last Christmas week, today has its first rebuilt church — the work of volunteer strangers from 300 miles away.

The church, the Calvary Temple of the Assembly of God, was built in a week of 17-hour days by a handful of unpaid volunteers from a sister Assembly of God congregation at Oakland, Calif.

Painting will be completed this week.

This time the church was constructed on high ground, in a quiet Redwood grove where the pastor's wife hopes to face nothing worse than an occasional friendly bear.

The site lies three miles from where only bare concrete slabs attest to the location of the previous church, swept away with Klamath's three-block downtown sector and scores of homes by the Klamath River, gorged by unceasing rains and mountain runoff.

No deaths were reported in the 1,000-population community but only four buildings are left downtown — a gas station, restaurant, bait shop and market.

The pastor of the new church, the Rev. Jack Iness, said that he and his wife Betty and their children Thelma, 13, Daniel, 11, and Chelesta, 9, escaped with their lives "and nothing else."

Truck Blaze Gives Elephants Hot Foot

CONCORD, Mass. (AP) — The fire wasn't serious, but it gave some elephants the hot foot.

A blaze flared up Wednesday in the wheel bearings and tires of a truck containing four elephants of the Clyde Beatty-Cole Bros. Circus.

While firemen battled flames, the truck's metal floor got hot and the pachyderms began to dance.

After the fire was doused, workers opened the cages and freed the elephants.

Buffs Meet Dodgers For Championship

The Pony League champion will be decided tonight when the Dodgers meet the Buffs in a playoff game at 8 p.m. in Towle Memorial Park.

Each team has eight victories against three defeats on the season, and the winner of tonight's contest will carry with them the Pony League championship. The Dodgers beat the Buffs last Monday night 8-0 to force the league into a playoff. If the Buffs had won Monday, they would have been the league champions, but the Dodgers exploded to stay alive in the league race.

Directly after the championship affair, the 1965 Pony League All-Stars will be announced. The All-Stars will be composed from the best players of the Pony League teams. The Pony League Teams are the Sports, Braves, Dodgers, and Buffs.

The All-Stars will begin state wide competition July 19 when they meet the Colorado City All-Stars in Colorado City for the first of a three game series. The second game of the series will be played in Snyder on the 20th, and if the third game is needed, it will be back in Colorado City.

All games played will be on elimination basis. A team must keep winning to remain in competition.

CARDINALS WIN SKIEN ENDED

Reds Again Take NL Lead With Victory

By JIM HACKLEMAN
Associated Press Sports Writer

No. 100 didn't help, and 101 couldn't do it. So 84 became the magic number as Cincinnati again went .002 ahead of Los Angeles.

The Reds regained the National League lead by two percentage points Wednesday night when Leo Cardenas belted a home run with two out in the bottom of the ninth inning that provided a 7-6 victory over the Dodgers.

Cardenas' clinching blow was his third hit of the night and his 84th of the season. Earlier in the slugging match, Vada Pinson's 100th hit had gone to waste, and so had Pete Rose's 101st.

It had appeared a romp for the Reds — against Sandy Koufax — when they shelled the prized left-hander for five runs in the first two innings. They finally chased Koufax, winner of eight straight in the fifth, but the Dodgers caught fire, and eventually caught up when Jim Lefebvre's two-run homer made it 6-6 in the eighth.

But Cardenas gave Cincinnati its second victory in the three-game set with his homer off Bob Miller in the ninth.

In other NL action — Tom Haller homered with two on in the 13th against Bob Gibson, lifting San Francisco to a 4-2 decision that ended St. Louis' winning string at seven games; Chris Short's three-hit pitching and Clay Dalrymple's eighth-inning homer enabled Philadelphia to nip Pittsburgh 1-0; Rico Carty's hitting led Milwaukee over Houston 5-2, and Larry Jackson ran his lifetime record to 11-0 against New York as the Chicago Cubs beat the last-place Mets 8-3.

In the AL — Minnesota won its seventh straight, 5-2 over Boston; Cleveland swept a pair from the Chicago White Sox by 4-2 scores, the second in 11 innings; the New York Yankees shaded Detroit 4-3; Baltimore blanked Kansas City 1-0, and Washington trimmed the Los Angeles Angels 3-1.

Gibson, who struck out 12 in his 13-inning stint against the Giants, was touched for a two-run single by Willie Mays before Haller connected for his clinching homer. Each side scored a run in the 12th, the Cards with the help of two San Francisco errors.

Masanori Murakami, the Japanese left-hander, won in relief.

Short allowed three singles, walked three and struck out seven in outpitching Bob Friend in the Phils-Pirates squeaker. Philadelphia muffed a couple of chances to score before Dalrymple's homer in the eighth.

Carty drove in two Milwaukee runs with a homer and single and set up another run with a double, while Hank Aaron chipped in with a homer for the Braves. Houston's runs came off homers by Walt Bond and Jim Wynn. Ken Johnson was the winning pitcher, Bob Bruce the loser.

Rookie Chris Krug batted across four runs with a pair of bases-loaded singles, with Billy Williams adding a homer and two singles to the 11-hit Cub attack. Jackson gave way to reliever Ted Abernathy in the eighth, but the Cubs had put it out of reach with five runs in the top of the inning.

Miller Untouchable For Nine Full Weeks

By JIM VAN VALKENBURG
Associated Press Sports Writer

KANSAS CITY (AP) — Stu Miller, Baltimore's great little relief pitcher who has been almost untouchable for nine straight weeks, insists he has only the three standard pitches — it's his motion that fools the batters.

"I don't know why they call my change-up a flutter ball and it's not true I throw it at different speeds," Miller said Wednesday night after another scoreless relief job, saving a 1-0 victory over Kansas City.

"I just throw a fast ball, curve and change-up," he said, but my arm snaps down with the same motion on every pitch.

"The batter can't tell what's coming and it ruins his timing," Miller said.

In the past nine weeks Miller has pitched in 29 games, spanning 51 2-3 innings and has permitted just two runs in that time, both homers. He won six, saved 11 more, compiled an amazing 0.35 earned run average and not one runner put on by preceding pitchers scored against him.

His season earned run average is 1.36, his won-lost is 6-3 and including saves he has had a hand in 17 victories.

Use of cotton antedates written history by many centuries.

Snyder Redlegs Host Two Teams For Games

Snyder's Redlegs will be the host Friday night of a three team doubleheader with the Redlegs appearing in both ends of the affair.

The Big Spring Cardinals and a Anson team will furnish the competition in Northside Park for the locals. The two games will not begin until 8:30 p.m.

The Redlegs will enter the doubleheader with a recent win over the Odessa Angels 13-11 which boosted their season record to ten wins with only four defeats.

Editor Tells Final Seconds Of Fight To Committee Men

By HARRY KELLY
Associated Press Writer

WASHINGTON (AP) — It was no smoky hangout of the fight crowd. It was in the big airy hearing room of the House Commerce Committee. But Nat Fleischer, the editor of Ring Magazine, told once again about the final crazy seconds of the Liston-Clay fight.

Chairman Oren Harris, a lean Arkansas Democrat, grinned down from his chair as the little aging man who had spent a lifetime in the rosin and sweat atmosphere of boxing hopped up and down in the witness chair explaining how it was.

After refereeing more than a 1,000 fights and devoting 62 years to athletics, "I never saw such a confused affair" as the one in Lewiston, Maine, said Fleischer with indignation.

How was it that it was Fleischer and not one of the officials who had yelled to referee Jersey Joe Walcott that it was all over — that Liston had been counted out.

Fleischer drew himself up to tell it for the 100th time. When he arrived at his ringside seat, he found there was no table to write on, so the official knockdown timer squeezed over to make room for him.

When Liston was knocked down by Clay in the first round, the knockdown timer was supposed to jump up — and Fleischer jumped up from the witness chair to show how it should be done — and start counting off the seconds with a sweep of his arm.

"But we were wedged in there so tight he couldn't stand up . . . he counted up to 20 . . . finally he asked me to try to get Walcott's attention."

And that's how Jersey Joe got the word the fight was over. In the angry backwash from the fight came a handful of bills for the committee to consider, aimed at cleaning up boxing by establishing a federal boxing commission.

But Cus D'Amato, famed in ring circles for his tilting at the establishment and for being the former manager of Floyd Patterson, told the committee, "There was nothing wrong with the Clay-Liston bout."

Stocky, fast-talking D'Amato said that the ringside television camera beaming the fight to theater spectators around the country wasn't in position to catch the knockout punch.

So, explained Cus, "The people watching on closed circuit didn't see the blow . . . they thought it was what we call a tank job."

Peter Snell May Retire

PRAGUE, Czechoslovakia (AP) — Peter Snell, New Zealand's Olympic gold medalist in the 800 and 1,500-meters at the Tokyo Games last year, but who hasn't won on his current European tour may retire after a 1,500-meter race here Friday.

"If I run a good time, this race here in Prague will be my last," Snell said Wednesday. "If not, I will continue to compete until I achieve again a top performance. I would not want to leave the track as an average runner."

PALMER ONE STROKE BACK

Tony Lema In Early Lead As British Open Moves

By THOMAS A. REEDY
Associated Press Sports Writer

SOUTHPORT, England (AP) — Defending champion Tony Lema fired a one-under-par 72 for a score of 140 Thursday but Arnold Palmer turned loose one of his typical finishes to move within a single shot of the leader in the British open golf championship.

Scoring an eagle on the 17th green after a scrambling round, Palmer shot a 71 and went into a tie with Brian Huggett, of Wales.

The diminutive Huggett, a member of Britain's Ryder Cup team, matched Lema's record-breaking 68 of the opening round.

Palmer, bidding for his third British Open title, thrilled a huge gallery forming Britain's version of Arnie's Army with some spectacular recovery shots.

On the 10th hole, he needed three strokes to reach the green but he banged in a 25-footer for a par four. On the 15th, the Latrobe, Pa., professional hit his tee shot into some shrubbery and could only hack it out a few yards.

He reached the 536-yard green in four and two-putted for a fortunate bogey.

Two tremendous shots put him on the par five 17th and there he ran in a putt of 45 feet for his eagle.

Lema's round was matched by Terry Dill of Muleshoe, Tex., whose 75-72—147 seemed certain to survive the day's cut when the field will be reduced to the low 45 and ties. The rangy Texan one-putted the first seven holes, got his par from a gravel path at the 11th and eagled the 517-yard 13th.

Lema ran into trouble at the 393-yard 16th hole. He slightly hooked his drive and the ball wound up on a hill. Then he hooked a short iron into a bush and found himself with an unplayable lie.

Charles Lawrie, deputy chairman of the championship committee, ruled that Lema could have free drop. Lema dropped and yet again the ball rolled near the scaffolding. Lawrie said he could have another free drop. But Lema decided to take the shot — though his back swing still was slightly impeded.

He held the club low down and despite all his problems finished with a bogey five.

The flamboyant, confident Californian, playing the tournament with only two days' practice, started with a birdie at the 493-yard first hole where he laid three-wood second shot on the green and two-putted from 30 feet.

Another birdie four came at the 17th where he sent a three iron approach screaming to the green and took two putts. He bunkered his three iron second shot at the home hole, blasted out well and only just missing holing out. The ball went six feet past and he just missed the putt for a par five.

US Has Slight Tennis Edge Over Mexico

MEXICO CITY (AP) — The comparatively low altitude of Dallas may favor the United States in the Davis Cup zone matches against Mexico, Mexican star Rafael Osuna said Wednesday.

The zone matches will be held July 31-Aug. 2 in Dallas.

Mexico's team, which also includes Antonio Palafox and Vincente Zaranua, is accustomed to the mile-and a half altitude of Mexico City.

First the Mexicans must dispose of the winner of the New Zealand - Jamaica matches, which New Zealand now leads. Only if Mexico survives this clash, in about two weeks, will it meet the U.S. players in Dallas.

NL All-Stars Have Edge Over AL Because Of Power

NEW YORK (AP) — From a slugging standpoint, at least, the National League All-Stars will have a decided edge over the Americans when the two squads meet in the annual mid-summer classic at Bloomington, Minn., next Tuesday.

Already boasting a powerful starting line-up, the Nationals added an attractive auxiliary group Wednesday that included sluggers Johnny Callison of Philadelphia, Billy Williams and Ron Santo of Chicago, Roberto Clemente of Pittsburgh and Frank Robinson of Cincinnati.

This group shapes up at least favorably with the American League alternates featuring sluggers Harmon Killebrew, Jimmie Hall and Tony Oliva of Minnesota, Elston Howard of New York, Max Alvis of Cleveland, Al Kaline and Bill Freehan of Detroit.

Oliva and Freehan were substituted for ailing Mickey Mantle of the New York Yankees and Carl Yastrzemski of the Boston Red Sox. Both are hobbled by injuries not expected to heal in time for the interleague game.

National League All-Star Manager Gene Mauch, unlike his counterpart, Al Lopez, departed from custom and passed over three second choices in picking his nine alternates for the 1965 All-Star team.

Generally, in the past, the All-Star managers have picked players who finished second in the balloting for starting positions. But Mauch passed over first baseman Gordie Coleman of the Reds, second baseman Frank Bolling of the Milwaukee Braves and center fielder Vada Pinson of the Reds.

In their places, he chose Ed Kranepool of the New York Mets, Cookie Rojas of the Phillies and Clemente. Robinson was his utility pick.

Mauch's other selections included catcher Johnny Edwards and shortstop Leo Cardenas of the Reds, third baseman Santo, left fielder Williams and right fielder Callison.

Earlier, he had named Managers Dick Sisler of Cincinnati and Bobby Bragan of Milwaukee as his coaches.

The selection left only the world champion St. Louis Cardinals and Houston Astros without a representative. Under All-Star game rules, every club must be represented by at least one player.

This means that at least one pitcher from each of those two clubs will have to be named when the hurlers are announced Friday.

The NL starters will be Joe Torre of the Braves, catcher; Ernie Banks, Cubs, first base; Pete Rose, Reds, second base; Maury Wills, Dodgers, shortstop; Will Stargell, Pirates, left field; Willie Mays, Giants, Center field; Henry Aaron, Braves, right field.

The American League starters will include Earl Battey, twins, catcher; Bill skowron, White Sox, first base; Felix Mantilla, Red Sox, second base; Brooks Robinson, Orioles, third base; Dick McAuliffe, Tigers, shortstop; Rocky Colavito, Indians, right field; Vic Davalillo, Indians, center field; Willie Horton, Tigers, left field.

Bobby Richardson of the Yankees and Zoilo Versalles of the Twins completed the American League reserves.

Through Wednesday's games the National League All-Star squad led the Americans in home runs, 188 to 169, and in runs batted in, 702 to 665.

Controversial Sculpture Is Dedicated In Arizona

PHONIX, Ariz. (AP) — Untouched by the controversy surrounding her, "Diana of the Woods" stands smiling in the mall of the new multimillion-dollar Maricopa County govrnment complex.

Dedicated Wednesday the stone sculpture gave pause to countless admirers, despite the charges that as the huntress of Greek mythology, she was "a cruel goddess," and a killer.

Mrs. Gilbert Hall donated the Italian-made sculpture placed in the complex's fountain and dedicated it to the Arizona Humane Society.

The animal crusaders of Arizona opposed the gesture from the start.

"Humane societies have always opposed cruelty, including blood sports," said Betty L. Eilers, the group's executive secretary.

"Not even the human side of Diana is pleasant," she said.

"When the son of a king surprised her bathing, she turned him into a stag and wasn't satisfied or revenged until his own hounds ran him down and tore him to bits," Mrs. Eilers said.

Undaunted, Mrs. Hall didn't budge an inch.

"Good art not only gives pleasure," Mrs. Hall said, "but it also stimulates an appreciation for the beautiful."

Not so, said Mrs. Eilers, who made her group's view known to the county supervisors.

The supervisors sided with Mrs. Hall, agreeing that Diana would give pleasure to visitors to the recently dedicated complex.

Mrs. Hall admits the tempest was something of an ordeal before it blew over.

"A hideous experience and one I don't want to go through again," she said. "They claimed Diana was a killer. Why, in Italy, Diana is known as a protectress and there is a festival each year in her name."

Report ABC Ponders Purchase Of Circus

NEW YORK (AP)— Purchase of the Ringling Brothers and Barnum & Bailey Circus reportedly is being considered by American Broadcasting Companies, Inc., and the Madison Square Garden Corp.

Irvin Feld, MSGC president, and John Ringling North, circus president, were said to have held preliminary disscussions on a sale when they met in Europe some time ago.

Teen-Agers Held After Cross Burned

EAST MEADOW, N.Y. (AP) —Five white teen-agers were arrested Wednesday night in connection with burning a six-foot cross and breaking two windows at the home of an interracial couple.

The couple, Mr. and Mrs. Vincent Wright, said that since they moved into the all-white neighborhood almost two years ago, they been harassed by abusive telephone calls and vandalism, including damage to their car. Mrs. Wright, 24, is white, her husband, 31, is a Negro.

Nassau County police said they arrested the youths separately. In their statements, authorities said, all denied that their acts had any racial overtones.

Police arrested Vincent Dantone Jr., 17, Mark Sanko, 16, and a 15-year-old boy in connection with the burning cross.

Seized and accused of taping a firecracker to a window of the Wrights' home were Clifford J. Snyder, 17, and James Kayler, 19.

All but Kaylor are students at East Meadow High School, police said, adding that Kaylor is a construction laborer.

Major Figures Uncle Sam Got A Bargain In Missions

By HAL BOYLE

DA NANG, South Viet Nam (AP) — Maj. James A. Minish and his men have cost Uncle Sam $21,241,250 in 99 days — but feel the government got its money's worth.

"It may even have been a bargain," said Maj. Minish, his taciturn face breaking into a smile. "Over-all, we feel we did a good job."

The $21-million figure reflects the cost of the ordnance his squadron of F100 fighter planes expended while flying nearly 1¾ million miles and 2,200 sorties.

It doesn't include the fuel consumption, salaries of the flyers, or the value of two planes lost in action.

The major, a native of Yellowstone Park, Wyo., whose wife and four children now live at Alexandria, La., started posting the ammunition costs at the beginning of the squadron's tour of duty.

"I wanted to teach them this stuff is too valuable to waste," said Manish. "It caught their interest to see the cost of a mission in terms of dollars and cents."

The $21-million-plus total included 750,000 20mm cannon shells at $2.05 each, 3,500 bombs at $350 each, 2,250 napalm bombs at $275, and 17,200 rockets at $1,950 apiece.

On his 99th day the major lowered his wheels and came in for a perfect landing. It was his 107th mission, 10 more than any other member of his squadron.

"I expended 800 rounds of 20mm fire at some Viet Cong in a tree area northwest of here," he said. "I never thought about it being my last mission. It was just like any other one.

"I haven't been sweating out the last few particularly. Flying as many missions as we have, someone is bound to be hit now and then. But I've never been concerned over my own welfare.

"I've never carried good luck charms. I feel our training has made us competent, and I have faith in our planes and our crew chiefs."

Manish is admired at the base here for his qualities of character and leadership and the deep concern he has shown for the welfare of the officers and men in his command. Not one of his men has cracked up under combat strain or grueling 14- to 16-hour days on repair work.

The squadron flew 1,400 sorties in South Viet Nam and 800 against North Vietnamese targets.

"We think our work here helped the whole effort," the major said. "Sometimes you come back feeling unsatisfied when you've bombed the Viet Cong in heavy foliage. All you can see are the explosions. You can't tell the results.

"But in several heavy ground battles, our F100s have made the difference. So over-all, we're going home with a feeling of satisfaction."

Chances are their respite won't be a long one. Tactical fighter squadrons usually spend from 260 to 280 days a year away from their home base.

Minish, who has more than 5,000 hours in the air, is a 19-year veteran. He has served in Alaska, Morocco, Germany, Japan, Africa and the Middle East, as well as Southeast Asia.

Junior Editors Quiz on HARMONICAS

QUESTION: Can you tell me how to play the harmonica?

• • •

ANSWER: All we can do is to give you the general idea, so that with a bit of persistance you should be able to teach yourself to play. Harmonicas have a set of square openings; inside are metal reeds which make one sound as you blow in, and another as you suck out. The great trick is to be able to blow in or suck out through only one opening at a time. To do this, cover holes to left with your tongue and have the edge of your mouth cover those to the right, so only one square hole remains open. Move machine back and forth getting right opening for each note needed. To get chord accompaniment, lift up tongue with regular beat, allowing chord reeds at left to sound. It helps to make a cardboard mask, as shown, with opening cut out. Put this over the front of the harmonica, blowing through or sucking back to find which opening gives which note. First, find out where the scale is, such as lower C, then D, E, F, G, A, B and higher C. Become expert playing this scale in clear single notes and then you can pick out the ones you need to play tunes with. Players often arch their two hands around the back of the harmonica to get a deeper, more musical sound. Holding the harmonica with a glass also helps.

• • •

FOR YOU TO DO: Stick with your harmonica until you've learned the location of each note — then suddenly you'll be playing tunes. You'll find it fun. 7-8

(Charlene Houston of Chicago, Ill., wins this week's grand prize of a 15-volume set of Compton's Pictured Encyclopedia for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

State, Local Levies Keep Tax Bills Up

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — If you suspect that despite all the talk about tax cuts your tax bills have been adding up to as much or even more than ever, you may well be right.

Much of this is due to rising state and local taxes. The total tax is estimated at around $50 billion this year. In 1963 these levies averaged out to about $250 per capita. This year the figure is close to $290 per capita.

But the federal government, too, has been taking in more than before it cut the rates. Its receipts from all sources are up $4 billion over a year ago.

The Treasury explains that with two million more persons employed now than before the tax cut early in 1964, and with many others getting higher pay and working longer hours, the total personal income has been rising. So there is more subject to tax, even if the rates have been lowered.

Also corporate profits have been soaring. The corporate income tax rate was lowered in two steps — from 52 per cent to 48 per cent. But tax collections on the larger earnings netted the Treasury nearly $2 billion more in the fiscal year that ended June 30.

The Treasury also suspects that much of the increase in collections in the past year has been due to their new computers. These machines keep a closer eye on an individual's sources of income, such as interest and dividends. And more of these are being reported now than when tax forms were inspected only by the human eye, and on a sampling basis.

Some taxes you pay the federal government aren't included in the cut on income rates. Social Security levies, for instance, have risen as more persons were employed. And next year the percentage withheld from pay chcks will be steeper than ever.

But the biggest percentage rise in tax collections has been at the state and local level.

The Tax Foundation, a New York-based research agency, reports that from fiscal 1955 to 1965 federal tax receipts rose 72 per cent. In the same 10 years state tax receipts jumped 136 per cent, and local governments increased their take by 117 per cent.

Some of this was due to increased prosperity supplying higher incomes and swelling property values on which to levy taxes. Much of it was due to use of new taxes or higher rates on old ones.

If the U.S. Treasury could take in about $4 billion more from all sources in the 1965 fiscal year, the state and local collectors probably did at least as well.

One way or another, many Americans will be paying more taxes this year, even if the federal income rate has been cut.

New Deep Field Is Found Offshore

NEW IBERIA, La. (AP) — Chevron Oil Co. reported Wednesday it has discovered a new deep oil field offshore from Iberia Parish.

It is about 40 miles from the nearest land in Block 9 of the South Marsh Island area.

The test well, drilled to 17,175 feet and perforated for production between 15,656 and 15,663 feet, showed a daily potential of 334 barrels of 32 gravity oil.

The lost continent that geologists call Gondwanaland sank beneath the sea ages ago, leaving exposed the islands that form New Zealand.

Session On Car Insurance Is Rejected

AUSTIN (AP) — Two Port Arthur legislators' request for a special session to deal with rising auto insurance costs was rejected Wednesday by Gov. John Connally.

"I seriously doubt that any practical effect could be gained from a special session at this time," Connally said.

Reps. Carl Parker and J. D. Weldon proposed the session Monday. The Texas Insurance Board recently ordered an average increase of 13.4 per cent in premiums on all types of car insurance.

Pointing out that 34 states and the District of Columbia have higher auto liability rates, Connally said Texas "has been more successful in holding down these costs than a majority of other states, even though we have been faced with the same tragic increase in traffic accidents."

The governor said auto insurance rates are closely related to traffic accidents and the legislature refused to enact his highway safety proposals, including revision of driver's license laws, increasing the highway patrol and establishing a statewide driver training program.

"Two official legislative inquiries in recent years found no fault with rate making methods, and I am assured by the State Board of Insurance that all of the data, procedures and formulae used in rate making are available to legislators, the press and the public," Connally said.

War In Viet Nam Appears Headed For An Explosion

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — The war in Viet Nam is headed toward an explosion. All the signs point to it.

U.S. forces are building up. Viet Cong guerrillas are stepping up raids and attacks. The American commander, Gen. William C. Westmoreland, says more "substantial confrontations" may be expected.

That's a complicated way of saying much bigger ground fighting is in store.

Westmoreland also says the Viet Cong "are less confident of success than they were earlier."

U.S. intelligence sources believe North Viet Nam's 325th year, has moved into South Viet Nam to join the Viet Cong in the fighting.

Malcolm W. Browne of The Associated Press in Saigon says that for the past few weeks, guerrilla forces of unprecedented strength have burst across the Vietnamese highlands, smashing one important post after another.

Browne says thousands of South Vietnamese government forces have been killed or captured.

The more the South Vietnamese are smashed, the more U.S. forces must get involved to bail them out.

Only last week guerrillas slipped through the heavy Marine guard surrounding the Da Nang Air Base, killed one American and destroyed three U.S. planes on the ground.

And last Monday they overran the jungle outpost of Ba Gia and made off with two 105mm howitzers, the largest weapons they've captured yet, plus ammunition which, with the howitzers, may be used against Americans later.

Still, there has been no big showdown yet between the Marines and the Viet Cong or the 325th Division from North Viet Nam.

But more U.S. troops — about 8,000 Marines — are being put ashore South Viet Nam, raising American military strength there to about 60,000 men.

These don't include another 16,000 to 21,000 Marines and Army troops who, Secretary of Defense Robert S. McNamara said in mid-June, were being sent to Viet Nam.

And, while the United States builds up ground forces, it gets deeper into the war in the air.

Three times now American B52 bombers have flown the 2,200 miles from Guam to bomb Viet Cong locations in South Viet Nam, some within 35 miles of Saigon.

At the same time American bombers continued to plaster North Viet Nam, although staying away from such population centers as the capital city of Hanoi and the seaport, Haiphong.

While President Johnson was pondering all this, he learned of more unpleasant news which sooner or later may require a decision from him.

Several Russian-built missiles sites are nearing completion in North Viet Nam near Hanoi and Haiphong. These are for surface to air missiles which can be used against bombers.

It's possible they will never be used, unless the United States attacks those two cities.

But their very presence, and the danger implicit in them, raises the question: Should the United States wipe out those missile sites before they can be used against American planes?

But that might involve the United States with Russia, more or less.

Johnson has to make the decision to bomb or lay off. But Wednesday in Congress the House Republican leader, Gerald R. Ford, said the United States should bomb the missile bases before they're ready for use.

Montevideo Set To 'Pawn' Gold

By KENNETH L. DAVIS

MONTEVIDEO, Uruguay (AP) — This little cattle and wool country, just one step ahead of the bill collector, is pawning the family gold to get a breathing spell.

Uruguay will send about $80 million in gold bars abroad. With this bait, it will try to get loans from private banks totaling about $110 million.

It's a big blow to the national pride. For 30 years Uruguay has prided itself on being, in certain measure, the South American banker because it had such a stable economy.

Now that's history.

Uruguayan social welfare programs, among the most elaborate in the world, are not the only items contributing to the malaise along the River Plate, but they are the biggest.

An Uruguayan worker 50 years old with 30 years of work behind him can retire on full pay. An employe of a bank who has 10 years employment with that institution isn't out of a job if the bank goes broke. He retires on full pay for the rest of his life.

Behind the scenes, many economists are fairly optimistic. But the country has $171 million in assets and $330-350 million in debts. It needs help fast.

At first blush things look worse than they are. The 1964 national budget was for $109 million of which half represented a deficit.

Fortunately, spending doesn't reach the imaginative peaks of the budget makers, who load the budget with pet projects of various officials. Spending runs about 40 per cent behind income.

Most of the loans Uruguayan leaders hope to get from the banks will go to pay for past and future imports, with some for servicing the national debt.

The only way Uruguay can come up with the cash is by selling wool and meat.

Meat, the other major Uruguayan export, is in short domestic supply just from the attempt to export as much as possible.

Merit Plan In Military Under Study

WASHINGTON (AP) — An effort by Secretary of Defense Robert S. McNamara to emphasize merit rather than seniority in military promotions got a cautious but generally favorable reception today among some key legislators.

"All of us subscribe to the general idea," said Rep. Porter Hardy Jr., D-Va., a high ranking member of the House Armed Services Committee. "You have to have promotion or you stifle talent in the lower ranks. Maybe he has got some good ideas. We need to know more about it."

Sen. Leverett Saltonstall of Massachusetts, top Republican on the Senate Armed Services Committee, said, "Of course we ought to make the military just as efficient and give it as good leadership as we can, but any great change in the system that has gone on over the years has to receive very careful consideration."

The Associated Press learned Wednesday that McNamara sent a June 18 memorandum to the secretaries of the Army, Navy and Air Force voicing "increasing concern" over the way generals and admirals are picked.

He asked the service secretaries to report by July 15 on current policies on the selection of generals and admirals, and the prospect for the next 10 years.

Apple Pie Donor Dead

LULING, Tex. (AP) — Mrs. Virginia McCleary, who sent an apple pie to Nakita Khrushchev in 1960, was buried Wednesday.

She died at the age of 40 Monday from what a justice of the peace held was a self inflicted gun shot wound.

Mrs. McCleary mailed the pie to Khrushchev, then Soviet premier, during his visit to the United Nations. It gave New York postal officials a scare when an inspection device indicated metal inside the package.

It wasn't a bomb, police discovered—just an apple pie with a necklace of small trinkets in the center representing the sender's hopes for international goodwill.

Mrs. McCleary occasionally issued news releases under the letterhead of the "National Association for the Advancement of the American People."

Survivors include her husband, C. B. McCleary of Luling, and a son.

Stunt Flier Killed In Movie Scene Crash

HOLLYWOOD (AP) — Stunt flier Paul Mantz, 61, was killed today while flying a specially built plane for a movie scene on location near Yuma, Ariz., Twentieth Century-Fox studios reported.

The crash occurred in Buttercup Valley, Calif., 17 miles west of Yuma.

The movie making was for the picture "The Flight of the Phoenix" which stars Jimmy Stewart and features Ernest Borgnine, Peter Finch and others.

None of the stars was present, however.

Mantz and Frank Tallman operated the Tallmantz Air Service, which supplies flying thrills for movies and television and does test piloting.

Mississippi Man's Body Is Identified

MARSHALL, Tex. (AP) — State Police experts Wednesday identified a body found near a pond north of here in East Texas as that of William Martin Jr., 27, of Ocean Springs, Miss.

He had been missing since July 2, the day he left home en route to Fort Worth. His pickup truck has not been found. Officers said he may have been shot by a hitchhiker.

Army Drops Its Camelot

WASHINGTON (AP)—The Defense Department announced today cancellation of the controversial Army project Camelot which aimed at determining how Communists capitalize on revolutionary change in underdeveloped countries.

It said in a terse, four-line statement that after a re-evaluation "it has been concluded that the project as currently designed will not produce the desired information and the project is therefore being terminated."

The project which the Pentagon said has cost $300,000, drew attention several weeks ago when appearance of a Camelot researcher in Chile caused a public flare-up there.

Sen. Eugene McCarthy, D-Minn., demanded that the Senate Foreign Relations Committee probe the roject.

Questions were raised about the propriety of a military move into an area so close to foreign relations.

Kidnap Victims Freed Unharmed

By JERRY RANKIN

WOODLAND, Calif. (AP) — Six kidnap victims were released unharmed here Wednesday night by two gunmen charged with killing an Oregon deputy sheriff and fleeing to California with the hostages.

Police said a massive manhunt was under way in nearby Sacramento, where the gunmen released the three adults and three children — then fled on foot.

Federal Bureau of Investigation agents were questioning the freed hostages at a Woodland motel, but agents declined to divulge details of the day of terror.

Two of those released were Mrs. David Corbin, 33, and her son by a previous marriage, Clinton Clark, 12.

Mrs. Corbin and Clinton had been the objects of a wide search throughout western Oregon since they vanished Tuesday shortly after Deputy Sheriff Carlton E. Smith, 33, father of six children, was gunned down by a shotgun blast and six pistol bullets.

The other four hostages were Mr. and Mrs. Uldis Rieksting of Seattle, their son and a friend of their son.

In Springfield Ore., Mrs. Corbin's hometown, police outlined this sequence of events:

Soon after Smith was killed, two gunmen invaded the nearby home of Mrs. Corbin. They forced her and her son to drive them into the Cascade Mountains east of Springfield.

Near Marion Forks, about 125 miles northeast of Springfield, her car became mired in the mud. The gunmen commandeered the camper truck of the Rieksting, and they evaded police patrols into California.

The gunmen fled the camper on foot in Sacramento, but the hostages continued to Woodland before Mrs. Corbin telephoned her Springfield home to inquire about the four children she had left behind.

An all-points bulletin had been broadcast earlier throughout the West for Wilbur Marion Grey, 30, a native of Brunswick, Ga., and Karl Cleses Bowles, 24, a native of Amarillo, Texas.

They completed terms at the Oregon prison only last week.

No other extensively grown crop approaches cotton in per acre income.

The only real cotton is 100 per cent cotton. Check the label on every cotton item you buy.

FAT OVERWEIGHT

Available to you without a doctor's prescription, our product called Odrinex. You must lose ugly fat or your money back. Odrinex is a tiny tablet and easily swallowed. Get rid of excess fat and live longer. Odrinex costs $3.00 and is sold on this guarantee: If not satisfied for any reason, just return the package to your druggist and get your full money back. No questions asked. Odrinex is sold with this guarantee by: Irwin Drug Store—Snyder—Mail orders Filled.

GET A TEXAS-SIZE DEAL ON A PLYMOUTH VALIANT

Plymouth sales in Texas are booming!

What are the reasons for Plymouth's popularity in Texas? The Plymouth Valiant is one. Texans hear about Valiant's smart styling, peppy performance and low, low price and they head for their Plymouth Dealer's showroom. There they discover that Valiant is the compact that hasn't forgotten why you buy a compact. There's something else that Texans go for . . . Valiant's 5-year/50,000-mile engine and drive train warranty*. So when you tote up Valiant's plus features, you can see why Plymouth sales in Texas are booming!

*HERE'S HOW PLYMOUTH'S 5-YEAR/50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU:
Chrysler Corporation confidently warrants all of the following vital parts of its 1965 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential and rear wheel bearings. Required maintenance: The following maintenance services are required: Effective warranty, change engine oil every 2 months and 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.
