Keeping tab on our neighbors:

Like Scurry, Mitchell County has a candidate out for County School Superintendent who has pledged to abolish the office.

"Olson Sweat, retired teacher and school administrator, has announced his candidacy for county school superintendent with the intention of closing the office when he wins the election," reported the Colorado City Record.

Sweat is the only candidate in the race there.

"The trend across Texas in recent years has been for people who are concerned about the waste of money in maintaining an antiquated system left over from horse and buggy days to run for the office of county school superintendent with the expressed purpose of doing away with the office as soon as they win the election," the Colorado City newspaper continued.

Noting that the United States is headed for the metric system of weights and measurements, Charles Didway in the Post Dispatch, said one of their readers sent in what he called "Alternatives to the Metric System."

One deals with a political opponent's measure, and goes like this:

Two nincompoops equal one fathead. Two fatheads equal one incompetent. Three incompetents equal one opportunist. Three opportunists equal one Machiavelli.

Another dealt with alcoholic beverage measure, and goes like this:

Two fingers equal one tot. Two tots equal one shot. Two shots equal one slug. Four slugs equal one snootful. Two snootfuls equal one night in jail.

Today In History

By THE ASSOCIATED PRESS

Today is Friday, Feb. 8, the 39th day of 1974. There are 326 days left in the year.

Today's highlight in history:

On this date in 1904, the Russo-Japanese War began as the Japanese besieged Port Arthur in Manchuria.

On this date:

In 1587, Mary Queen of Scots was beheaded after being accused of plotting the murder of England's Queen Elizabeth I.

In 1609, Mohawk Indians and French troops attacked Schenectady, N. Y.

In 1725, Peter the Great of Russia died and was succeeded by his widow.

In 1861, Arkansas troops seized the U. S. arsenal at Little Rock as Southern states were rebelling against the federal government.

In 1940, in World War II, the Germans shot every tenth person in two villages near Warsaw, Poland, in reprisal for the deaths of two German soldiers.

In 1955, Soviet Premier Georgi Malenkov resigned and was succeeded by Marshall Nikolai Bulganin.

Ten years ago...Princess Irene of Holland renounced her rights to the throne to marry Roman Catholic Spanish Prince Carlos Hugo of Bourbon-Parma.

Five years ago...President Ayub Khan of Pakistan was re-elected head of the country's ruling party.

One year ago...a one-day strike on the Penn-Central railroad ended as Congress ordered a 90-day cooling-off period.

AFTER RECORD 84-DAYS IN SPACE

Skylab 3 Crew Home Safely

ABOARD USS NEW ORLEANS (AP) — Skylab 3's astronauts ended an era in exploration today when they returned from man's longest journey in space. They appeared in excellent physical condition after a pinpont landing in the Pacific Ocean.

Gerald P. Carr, William R. Pogue and Edward G. Gibson all waved and flashed big smiles as they emerged from their Apollo taxi ship on the deck of the New Orleans.

Just an hour before, they had concluded a record 84-day orbital flight which the space agency said proved "America can do anything in manned space flight that it so desires."

The spacemen had to overcome a late propellant leak in their Apollo steering rockets, shifting to a second system for the crucial dive through the earth's atmosphere. Mission Control did not consider it a serious problem, however.

It will be at least another decade before America attempts another long-term space flight.

"I feel great, it's great to be home," Gibson said as he walked with a slightly unsteady gait upon exiting the spacecraft.

"They're in fine shape," reported Dr. Jerry Hordinsky, a space agency physician after a quick examination.

The astronauts were lifted aboard after they parachuted into the sea within 3.4 miles of the New Orleans.

Helicopters immediately dropped frogmen into the sea to secure the floating capsule and the New Orleans steamed alongside. A crane lifted the 3,000-pound craft on deck with the astronauts still inside.

The hatch on the Apollo was opened and Hordinsky moved inside to take blood pressure, pulse and heart beat readings on the three crewmen, who had been exposed to weightlessness longer than any human beings.

"We have three very, very happy guys in there," was the initial report.

Carr, Pogue and Gibson were quickly taken to a medical facility on the ship for a planned 6½ hours of extensive examinations.

During nearly three months in space, the astronauts had circled the globe 1,214 times, traveled 34½ million miles and gathered a wealth of scientific and medical data on man, his earth and his solar system.

The astronauts hit gentle waters 176 miles southwest of San Diego, Calif., at 11:17 a.m. EDT after a journey of 84 days, 1 hour and 16 minutes, breaking the previous Skylab 2 record of 59½ days.

With visibility of 10 miles, hundreds of white-clad sailors on the deck of the New Orleans had a ringside view of the landing.

Helicopters were overhead almost immediately to drop frogmen into the ocean to secure the bobbing spacecraft with a floatation collar.

The recovery ship immediately steamed toward the Apollo, ready to hoist it aboard as quickly as possible so space agency doctors could begin extensive medical examinations to determine how well the astronauts withstood their long exposure to space weightlessness.

"What a beautiful sight," Commander Carr reported.

Pledge US Role In Canal Zone

By MICHAEL J. SNIFFEN
Associated Press Writer

PANAMA CITY (AP) — Secretary of State Henry A. Kissinger has pledged that the United Sates will eventually return the Canal Zone to Panama and will launch a major new commitment to the Western Hemisphere.

He spent 10 hours flying from Washington to Panama and back Thursday to spend five hours here to sign an agreement on principles that would govern the negotiation of a new canal treaty. The treaty eventually would return complete control of the canal to Panama.

But his remarks after the signing ceremony, televised live in 15 Latin American countries, were aimed mainly at the meeting in Mexico City later this month of Western Hemisphere foreign ministers.

"I have come here to tell you on behalf of our President that we are now fully committed to a major effort to build a vital Western Hemisphere community," he said.

He used the agreement with Panama as an example of how such a community could work. "It can be the first step toward a new era which we believe will be given fresh hope and purpose when we meet again with the foreign ministers of all the hemisphere."

The agreement shows "that Panama's sovereignty and the vital interests of the United States in the Panama Canal can be made compatible," he said. The principles state that the new treaty, yet to be negotiated, will phase out rather than eliminate immediately U.S. jurisdiction over the 10-mile-wide Canal Zone that bisects this nation.

But otherwise, Kissinger laid out few details of the "new era" in his speech, which made no mention of the Organization of American States or the Alliance for Progress, the last major U.S. aid program for Latin America, which began in the Kennedy administration.

Energy Vote Set Feb. 19

WASHINGTON (AP) — The Senate has scheduled a vote on emergency energy legislation 11 days from today.

Under the agreement announced today by Majority Leader Mike Mansfield, the Senate will vote Tuesday, Feb. 19, on a motion to recommit the bill to conference.

If that move fails, Mansfield said, the Senate will then vote on passage of the bill that would roll back the price of roughly one-quarter of the oil drilled in the United States.

Senate Interior chairman Henry M. Jackson, D-Wash., floor manager of the bill, said earlier this week he was confident it would pass once it came to a vote.

Tape Request Is Dismissed

WASHINGTON (AP) — A federal judge today dismissed the Senate Watergate committee's request for a court order directing President Nixon to give it five presidential tapes.

"The select committee has not established by a preponderence of the evidence that it is entitled at this particular time to an injunction directing the President to comply with its subpoena for the five tape recordings," U.S. District Judge Gerhard A. Gesell ruled.

"The application of the President's counsel for dismissal of the complaint is granted," the judge said.

More Trucks On Road; Violence, Talks Continue

By THE ASSOCIATED PRESS

More trucks were reported on the road today as scattered incidents of violence continued and mediators attempted to persuade independent drivers to end their nine-day protest shutdown.

Increased truck traffic was noted by officials in Pennsylvania, Missouri and Kansas, but there was no sign that the shutdown to gain reduced fuel rates and other concessions was ending.

Pennsylvania Gov. Milton J. Shapp, the self-appointed mediator who initiated negotiations between dissidents and federal officials in Washington, journeyed to a truck stop in Bartonsville, Pa., to explain the settlement to protesters.

The manager of the Stop 76 in Bartonsville, Bill Fry, reported that truckers from nearby areas had gathered for the meeting with Shapp. But, Fry said, most remained opposed to the tentative agreement reached early Thursday.

Among other things, the government promised to provide the drivers with all the diesel fuel they need, and to allow a surcharge on freight rates to cover the recent hikes in fuel prices.

But National Guardsmen remained on duty in eight states to keep the peace and escort truck convoys of gasoline and food. Federal officials said they might call out federal troops if necessary.

State police in at least 10 states said that truck traffic was up, but still far below normal levels.

In almost every case, drivers speaking out Thursday on the proposed settlement echoed the view of Roger Gallaway of Overdrive magazine.

"It is a sellout," he said. "They sold these guys down the river."

Violence was down considerably Thursday after the proposal was announced. There were reports of tire slashings, hose cuttings and scattered shootings. A bullet struck a policeman's car in Oklahoma.

There were still more than 100,000 workers laid off, and some more layoffs were expected to be felt briefly even if the strike ends. There were also predictions of scattered food shortages in the Northeast.

Explosions, Fire Hit Refinery

BAYTOWN, Tex. (AP) — A series of explosions followed by a major fire struck the Exxon refinery here today. It is one of the larger plants operated by the company. Nearby schools were evacuated.

Leroy Thompson, 34, of Hankamer, near Baytown, suffered burns on the face and hands, a Baytown hospital spokesman said. He was transferred to the burn center at John Sealy Hospital in Galveston.

Witnesses described the fire as spectacular with flames shooting hundreds of feet into the air and the smoke column visible for miles.

Cause of the explosions was not known.

The flames were confined to one unit of the multi-unit plant and by mid-morning were being contained. The explosions occurred about 8:30 a.m.

Eight hundred pupils in Baytown Junior High School were evacuated to Robert E. Lee High School. The junior high is across the street from the plant.

The DeZavalla Special Education School's 13 pupils were removed from the vicinity.

Baytown is a major industrial area with about 50,000 population in the city and immediate area. It is about 15 miles from the eastern edge of Houston.

Abscences In Schools Go Higher

School absences, nearly all attributed to a viral type illness, increased to 23 per cent of the student body in Snyder this morning, as some schools reported a substantial surge while a few had more pupils in school than the day before.

The absentee count reached 853. However, decreases in absenteeism were reported at Travis Junior High, where the figure dropped from 130 to 121; at Northeast Elementary, with a drop from 165 to 155; and West Elementary, with a drop from 44 to 38.

There was an increase in absences at the senior high school with 136 out today, compared to 107 Thursday. Others included Lamar Junior High, 76, up from 73; North Elementary, 63, up from 50; Central, 135, up from 97; East, 75, up from 63; Stanfield, 43, up from 37, and Humble-Smith, 21, up from 17.

Although the figures are slightly higher than normal, the absentee rate for teachers has been substantially less than that for pupils. Less than 10 per cent of the teachers were out due to illness today

Riley Withdraws From Supt. Race

Tommy Riley has announced that he is withdrawing as a candidate for County School Superintendent of Scurry County.

His withdrawal leaves two in the race, Myron Crawford and Roy Carter, with the latter pledged to take steps to abolish the office if he is elected. Riley said that he did not know the issue of the need for the office would become a factor in the race when he announced.

"In announcing as a candidate for the office of county school superintendent, I did so with a positive attitude, that being the office could provide a beneficial service to the people of Scurry County," Riley said in announcing his withdrawal. "I still maintain this attitude.

"I announced as a candidate with the idea in mind that this would be a political race based on the capabilities of the candidates, to present myself to the voters in this manner and accept their decision. However, since my announcement, the aspects of the office have changed. The voters will now be determining the need for this office rather than the candidate's capabilities.

"The voters of Scurry County must now make a very important decision, one that will affect all the people of Scurry County. I feel that with the two competent men running, one supporting each side of the issue, the voters will be presented the issue in proper perspective. A third candidate could only serve in the capacity of confusing the issue.

"With these thoughts in mind and the interest of Scurry County at heart, I will respectfully withdraw as a candidate for this office.

"I sincerely appreciate those fine people who encouraged me and would have supported me in this election," Riley concluded.

Miners Reject Heath Plea

LONDON (AP) — Britain's coal miners today rejected a last-minute plea from Prime Minister Edward Heath to put off their strike until after the Feb. 28 national elections.

Union leaders decided instead to call out the nation's 280,000 miners on schedule from midnight Saturday, raising the specter of widespread electricity cuts during the three-week election campaign and paralysis of British industry by spring.

Mrs. Thomas Seeks Legislative Post

BIG SPRING—Mary Thomas, who filed just before the deadline as a candidate in the Democratic Primary for state representative for the 63rd District, has issued a formal announcement.

Mrs. Thomas, 37, is the wife of George T. Thomas, a Big Spring attorney. She is a native of Big Spring and was employed by Mobil Oil Co. at Kermit for two years, by the attorney general of the State of Washington for two years and for 14 years has worked in her husband's law office.

"I ask support for State Representative of the 63rd Legislative District, and pledge, to the extent possible under our system, to see that the voice of the individual citizen is heard; and that your money——and it is your money——is spent economically, on a sound fiscal basis, particularly in the face of the predicted economic recession in which not only all of us, but all levels of government will be called upon and should heed the demands of a balanced budget," Mrs. Thomas said.

"If elected, I shall consider myself personally responsible to all citizens of my legislative district, always available and accessible to those I would serve, and spend the time and effort necessary to thoroughly understand the business of the people and respond to their needs.

"My aims are simply those of good government, equally offered and equally applied to everyone. I will attempt to contact personally as many voters as possible, and will welcome any inquiries from the people in my district."

Affair with wife's sister is no joke

By Abigail Van Buren

© 1974 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I have a widowed sister who is 10 years older than I am. Edith has always been the good looking one in the family, and she still has a way with men.

Alfred [my husband] is a great kidder, and he used to tell me that he and Edith were having an affair, but I figured if it was true he wouldn't be telling me about it.

Alfred said he was going to a lodge meeting, so you can imagine how I felt when I saw his car parked in front of my sister's house. I rang the doorbell, and her dog barked for 20 minutes before Edith came to the door. Then Alfred appeared because he knew I saw his car was out in front. He said he stopped by to fix her water heater. They both looked guilty as sin. I didn't say anything, but I thought plenty.

A week later I found a letter in Alfred's tobacco pouch. It was in Edith's hand, and addressed to Alfred in care of a post office box I never even knew he had. In the letter she told him how much she "loved" him, and what a close call they had had, and that they would have to be more careful. Alfred is 79, and Edith is 78!

My heart is broken, but a divorce at my age is out of the question. What should I do? IN SHOCK

DEAR IN: Tell Alfred you found the letter, and let him do the talking. But don't be too hard on him or Edith. They may not be playing with a full deck.

DEAR ABBY: My son is engaged to a girl I'll call Myrtle. She's as lazy as they come, never smiles, and can sleep around the clock after having done nothing all day. The only good thing I can say about Myrtle is that she seems to love my son.

I'm not writing to complain about Myrtle. I am writing to ask you if I should tell her what kind of man she's marrying. My son is no bargain. He's a terrible liar. He has seen other girls behind Myrtle's back, and I have to keep my cash locked when he's around or it would be gone in a flash.

Should I tell this unsuspecting girl what she doesn't know about my son? Or should I let her find out for herself? HIS MOTHER

DEAR MOTHER: Examine your motives, Mother. Do you want to break up the match because Myrtle is no bargain? Or because you're disgusted with your son? I say, let sleeping dogs lie. Your son may reform. And so may Myrtle.

CONFIDENTIAL TO "TO WHOM IT MAY CONCERN": Your husband could be going thru the male counterpart of "change of life." A man who has worked hard for 27 years, and has been a good husband and father, is not likely to go off the deep end permanently.

Almost every man after 50 becomes a little worried about growing old, and losing his appeal. His ego needs a boost, and there are plenty of predatory females around, ready to flatter him and make him feel "young" again. He falls like a ton of teakwood; then the big thrill wears off and he comes crawling home to mama, feeling a little ashamed, but with a nice warm glow inside, reassured that there's life in the old boy yet.

The smart wife doesn't put on an Academy Award scene. She swallows her pride, accepts a little "blame" for not being as affectionate and reassuring as she might have been. And above all, she never mentions it again, and she tells NO ONE!

If the woman above is you, and the man is your husband, try this advice, and your man will probably spend the rest of his life knocking himself out trying to make it up to you.

Readings Drop In Texas

By THE ASSOCIATED PRESS

Clearing skies caused sharp drops in temperatures early Friday morning with freezing temperatures reaching all but the lower Coastal Bend and the Lower Rio Grande Valley.

Biting north winds accompanied the drop in temperatures.

Skies were clear at dawn except in the Sabine River Valley.

It was coldest in the Texas Panhandle partly because of the two inches of snow that covered parts of that section Thursday.

Thermometer readings dropped to 13 degrees at Amarillo where it still was icy and to 16 at Dalhart and Perryton which escaped the snow.

Readings elsewhere in the freezing zone included Lubbock 14, Childress 20, Abilene 21, Wichita Falls 22, Mineral Wells, Midland-Odessa, Dallas-Fort Worth and Wink 24, El Paso, San Angelo and Tyler 25, San Antonio 27, Waco 28, Lufkin 30 and Austin and Longview 31.

The warmest early morning spot was Brownsville at 43.

Fair weather was forecast for all the state with another cold night in prospect.

New Info May Add Charges

DALLAS (AP) — The District Attorney's Office announced today it is expecting additional information from police about a series of grocery store shootings for possible additional charges against Jessie Ray Jones, 30.

Jones, arrested Wednesday on a warrant charging him in a Jan. 21 holdup and shooting, was in jail pending a $500,000 bond.

A spokesman for the District Attorney's Office said police had submitted additional information to the office about the fatal shooting of William Cain Jan. 15 during the holdup of the E—Z Way Food Store.

"But no charges have been filed," the spokesman said.

Jones was still under police questioning in connection with other robberies in the Dallas area.

Detectives said Jones told them he and a companion, because of his desperate need for $40 rent money, made a Jan. 25 stickup in which storekeeper Forrest Fuller suffered a critical head wound.

Police said Jones went with four detectives to show where a cash register from Fuller's store was hidden, and it was found in a ditch about four miles from the store.

Questioners said the companion was implicated by Jones. He is one of five other persons jailed for questoning after the bath tub arrest.

Officers said a witness signaled Jones out in a police station lineup Thursday night as one of two bandits who beat and robbed Ella Hensley at her drivein store last Nov. 8.

Investigators said a fingerprint Jones left on a beer can at one shooting scene led to his arrest but a tedious check to identify it was futile until the state police computer identification system supplied his name and address.

Nixon Postpones Physical Again

WASHINGTON (AP) — President Nixon headed for the naval hospital in suburban Bethesda, Md., today for a physical checkup, but snowstorm traffic tie-ups forced him to return to the White House before reaching his destination.

The White House said that Nixon left unannounced for his annual physical exam shortly after 8 a.m.

SIGNS PROCLAMATION—Mayor Bill Seale(seated) signs a proclamation designating February American Heart Month. Witnesses to the signing are, from left to right, standing, Rev. Wallace Kirby, publicity chairman of the Scurry County Chapter of the American Heart Association; Mrs. C. A. Ramsey, Heart Sunday chairman; Mrs. John Voelkel, campaign chairman; and Roy McCloskey, president. In signing the proclamation Mayor Seale stated that heart and blood vessel diseases claim more than a million lives each year and account for 53 per cent of deaths from all causes. During American Heart Month, local volunteers join the more than 2,000,000 volunteers nationwide to distribute heart-saving information and collect funds for research programs, and educational and community projects dedicated to combating diseases of the heart and circulatory system.

'Heart Month' Is Designated Here

Mayor Bill Seale signed an official proclamation Thursday designating February as "American Heart Month in Snyder."

Witnesses to the signing were Roy McCloskey, president of the Scurry County Chapter of the American Heart Association; Mrs. John Voelkel, campaign chairman; Mrs. C.A. Ramsey, Heart Sunday chairman; and, Rev. Wallace Kirby, publicity chairman. Next Sunday, Feb. 10, has been designated as Heart Sunday in Snyder. Volunteer workers will make a door-to-door canvass for funds for the Heart Association on that day.

McCloskey pointed out that the Heart Association raises its fund through volunteer workers. The goal for the local chapter this year is $6,000. The chapter began its 1974 drive for funds with a workers breakfast at Western Texas College Thursday morning.

Text of the proclamation follows:

"Be it hereby known:

"That as of this date, Feb. 7, 1974, the Scurry County Chapter of the American Heart Association is commencing its annual drive.

"The American Heart Association has one aim; the reduction of premature death and disability due to cardiovascular diseases. A part of each dollar you contribute goes to support programs in our local community. Your money is returned to you in the form of community education education programs and varied information materials. And, it supports local research that could have far reaching effects in our town, or around the world.

"Therefore:

"I hereby designate February as American Heart Month, and I urge all citizens to assist with their talents, time and money in this vital work.

"Signed,

"Bill Seale, Mayor."

Ramon Is Acquitted

By GARY GARRISON
Associated Press Writer

CORPUS CHRISTI (AP) — A jury found Cameron County Judge Ray Ramon and County Civil Defense Director Carlos Carrasco innocent today of charges of conspiracy to murder a county commissioner.

There was a collective gasp from the spectators when the verdict was read.

Ramon turned and smiled at his wife, Nancy, as the jury's decision was announced. Then they embraced across the rail separating the defendants from courtroom spectators.

Mrs. Ramon was in tears.

The two were charged with conspiring to murder County Commissioner Adolph Thomae Jr. of San Benito. The state alleged the reported conspiracy grew out of political differences.

The jury deliberated about two hours Thursday after final arguments were completed. Then District Court Judge Darrell Hester sent them to a motel for the night.

The jurors today asked that testimony be read back to them concerning a telephone call between Carrasco, a Brownsville grocer, and a federal agent from Laredo who was posing as a hit man.

Daniel Reports On Convention

By LEE JONES
Associated Press Writer

AUSTIN (AP) — Speaker Price Daniel Jr. said today there are unresolved legal problems over when a new constitution can be submitted to the voters.

But so far, he said, Atty. Gen. John Hill has not been asked to resolve them with a formal legal opinion.

Daniel said he would like to have the constitution sent to the voters for a final decision as soon as possible after the constitutional convention ends, preferably at the party primary elections in May or June.

If done at the primaries, however, there are questions about where independents might vote, among other things, he said.

"I envision a very rapid and steep decline (of public interest and awareness) the further you get from the convention," said Daniel, convention president.

He said the convention was progressing "right on or maybe a little ahead" of the 90-day schedule set for it by the delegates.

Floor action on major education and voting rights articles should start next Thursday or Friday, and "from that point forward we will be in deliberations on the floor," Daniel told a news conference.

Daniel said he was grieved by the threat of Texas AFL-CIO President Harry Hubbard to fight a new constitution if a so-called "right to work" provision is submitted, even as a separate issue.

He noted that some county judges have made similar threats if the constitution makes major changes in county government.

"I hate to see one little issue cause anybody, whether Harry Hubbard or the county judges, say, 'If I don't get my way on this, the whole thing is bad'" Daniel said.

He added that he personally doesn't want "right to work"—already a state law—in the constitution and would vote against it if he were called on to break a tie.

Talk Fails But Fist Does Job

SHREVEPORT, La. (AP) — Bank manager Patrick Shaw failed to stop a holdup with persuasion but succeeded with his fist.

It happened Thursday at the South Shreveport branch of Louisiana Bank & Trust Co.

Police said Shaw told them the encounter went like this:

Taking a seat beside Shaw's desk, a man asked if their conversation could be overheard. Assured that it was private, he exhibited a .44 caliber pistol and said he was holding up the bank.

Shaw said he tried to talk the man out of it, telling him he was "all mixed up" and if he needed money why not consider a loan.

When the man insisted, Shaw stood up and told him, "Let's go to the teller's window, then."

He stepped casually around the desk, closer to the man, and as the man started to arise he knocked him down.

A startled security guard rushed over and handcuffed the man.

Asst. Police Chief J.K. Lanigan identified the prisoner as Lester Leander Strong, 53, of Logansport, La.

BRISCOE COUNTERS

Sissy Does Not Understand Law

AUSTIN, Tex. (AP) — Gov. Dolph Briscoe said late Thursday that a suit filed against him by Frances Farenthold, his opponent in the next Democratic primary, showed she doesn't understand the new state election laws.

Mrs. Farenthold filed a $3.2 million suit against Briscoe earlier in the day alleging violation of a 1973 statute that requires appointment of a campaign treasurer before acceptance of contributions.

The suit centers around an Oct. 30 fund-raising dinner for Briscoe in Austin.

"Every cent collected for the dinner prior to my designation of a campaign manager has been earmarked for either the expenses of the dinner or the retirement of my 1972 campaign deficit," Briscoe said.

A Briscoe spokesman said only funds received after the appointment of the campaign manager would be used for this year's campaign.

Calling the action "mud-slinging in the courts," Briscoe said Mrs. Farenthold "reached a new low in Texas politics. I look forward to seeing her in court."

Briscoe reported Wednesday in a paper filed with the secretary of state's office that the dinner raised $640,393.

Mrs. Farenthold asked for double the amount of the challenged contribution for herself and for triple that amount for the people of Texas, both of which she claimed the new law authorized.

She also asked Atty. Gen. John Hill be made a party to the suit as a plaintiff to enforce the laws of Texas.

Of $455,000 netted by the dinner, $160,000 was given to the governor to retire 40 per cent of his debt for the 1972 campaign, in which Mrs. Farenthold was defeated during a runoff for the Democratic nomination.

Briscoe earmarked the remaining $295,000 for his reelection war chest.

Earlier Thursday, Mrs. Farenthold accused Briscoe of disregard of the school finance crisis, failure to do anything about child care scandals and failure to give the legislature a chance to vote down daylight saving time.

She also blasted Briscoe for what she called broken campaign promises concerning urban mass transit, a state budget commission and decentralization of mental health and mental retardation facilities.

Special Third In TV Rating

NEW YORK (AP) — CBS' highly acclaimed dramatic special "The Autobiography of Miss Jane Pittman" was one of the nation's top-rated TV shows in the week ending Feb. 3, according to A. C. Nielsen Co. ratings made public today.

The heavily promoted special about the life of a 110-year-old former slave came in third over-all in the week's ratings, topped only by two other CBS shows—"All in the Family" and "The Waltons."

A new ABC series, "Happy Days," fared well against its main Tuesday night opposition for the third week in a row, edging past CBS hit "Maude" series by a fraction of a rating point.

The nation's 20 top-rated shows for the week, in order:

"All in the Family," "The Waltons" and "The Autobiography of Miss Jane Pittman" (all CBS); Sanford and Son" (NBC); "ABC Tuesday Movie;" "Six Million Dollar Man" (ABC); "M-A-S-H" (CBS); "Walt Disney" (NBC); "Bob Newhart," "Mary Tyler Moore," "Here's Lucy," "Gunsmoke" and "Dick Van Dyke" (all CBS); "ABC Sunday Movie;" "Sonny and Cher" and "Kojak" (both CBS); "Happy Days" (ABC); "Maude" (CBS); "Marcus Welby" (ABC) and "Carol Burnett" (CBS).

For the second consecutive week, ABC's "Partridge Family" series came in last among 58 programs rated. The series appears opposite CBS' "All in the Family" on Saturday nights.

WINTER WONDER MEAL—is made with grilled ham steak and french fried bananas. The cheerful meal is echoed in the bright yellow daffodils picked up at the supermarket along with the bananas and ham.

Tired Of Same Old Thing? Try French Fried Bananas

Isn't it nice to think that even on grey winter days, meals can find a touch of the sunny tropics with a product familiar at your supermarket? Bananas are the lift that winter meals need. Their cheerful color, mellow taste, texture, and well-rounded supply of vitamins and minerals make this fruit a treasure trove for winter eating.

Everybody eats bananas out of hand but at this season, it's a good idea to use them to cook with, too. The United Fresh Fruit and Vegetable Association reminds us that bananas are in good supply right now at most welcome prices. It's fun to serve bananas as a vegetable for a change. When cooked, they take on qualities that make them ideal for accompanying meats to the table. A combination of french fried whole bananas with ham steak or chicken is a fine idea for tonight's dinner. The bananas are peeled and breaded with crisp corn flake crumbs before deep fat frying to a turn.

Here's an unusual main dish—it's bananas wrapped in slices of Canadian bacon and broiled. The refreshing, fruity taste of the bananas with the rich, robust flavor of the Canadian bacon makes a memorable combination.

Now is the time, too, to make a luscious Banana Chocolate Pie. Put the sumptuous filling in a graham cracker crust to save time; make the filling with chocolate pudding mix as a time-saver, too. As for the bananas, they need only slicing to be ready to go into the pie.

Bananas are a quick and easy fruit to use, so weave them often into wonderful dishes to keep your family well-fed and happy at the dinner table.

FRENCH FRIED BANANAS

4 medium size firm bananas
Fresh lemon juice
1 egg, beaten
¼ cup corn flake crumbs (approximately)
Oil or shortening for deep frying

Peel bananas; brush with lemon juice. Dip first in egg, then in corn flake crumbs. Deep fat fry in salad oil or vegetable shortening heated to 375 degrees F. for 3 to 4 minutes or until golden brown. Drain of absorbent paper. Serve with grilled ham steak or chicken.

Makes: 4 servings.

BANANAS BROILED WITH CANADIAN BACON

2 large bananas, peeled and cut in thirds on the diagonal
2 tablespoons honey
2 teaspoons lemon juice
6 slices Canadian bacon

Brush peeled slices of bananas with honey and lemon juice. Wrap bacon slices around bananas, as far as they will go, securing them with wooden picks. Place on broiler pan and broil 4 inches from heat, turning to broil all sides.

YIELD: 6 servings.

BANANA CHOCOLATE PIE

Crumb Shell:
1 ¼ cups graham cracker crumbs
¼ cup butter or margarine, melted
¼ cup sugar

Mix crumbs, butter and sugar. Firmly press over bottom and side of 9-inch pie plate. Bake in 375 degree F. oven 8 minutes; cool completely.

Filling:
1 package (3⅝ ounces) chocolate pudding mix
2 cups milk
2 bananas

Prepare chocolate pudding with milk according to directions on package; cool slightly. Peel and slice bananas; arrange in crumb crust. Pour pudding over bananas. Chill at least 2 hours. Before serving, garnish with shipped cream and additional banana slices.

Makes: 6 to 8 servings.

SATURDAY NIGHT FARE
Chicken Little
Cheese and Crackers
Fruit Candy

Choose your cooking method.
3 pounds chicken wings
½ cup salad oil ½ cup lemon juice
1 clove garlic, crushed
1 teaspoon salt
⅛ teaspoon pepper
½ cup finely chopped pimiento-stuffed olives

Cut through wings at both joints. (Do not use wing tips in this recipe, but save them to add in making broth.) Mix remaining ingredients and marinate chicken in mixture in refrigerator, tightly covered, for several hours or overnight, turning a few times. To cook on an indoor or outdoor charcoal grill, arrange chicken on grill about 5 inches from medium coals; grill until tender — 7 to 10 minutes on each side; spoon marinade over pieces several times during broiling. Or arrange chicken on a rack in a shallow roasting pan; bake in a preheated 450-degree oven until tender — 35 to 45 minutes; spoon marinade over pieces several times during baking. Makes about 32 pieces. Serve pick-up fashion with paper napkins.

Refrigerate eggs as soon as you get them. Store in the original carton or in a covered container with the small end down. Left uncovered, they will lose moisture through the shell, notes Mrs. Gwendolyne Clyatt, consumer marketing information specialist, Texas Agricultural Extension Service, Texas A&M University System.

Christmas Club Plans Can Be Good Savings

COLLEGE STATION—As bills stack up from Christmas spending, some people vow, "Never again! Next year it'll be different."

"These people are prime targets for Christmas club plans," Lillian Cochran, home management specialist with the Texas Agricultural Extension Service, The Texas A&M University System, said.

"Considered an alternative to excessive after-Christmas debts, last year more than 18-million Americans stashed away $3 billion in these accounts. Banks, savings and loan associations and other thrift institutions offer them."

The specialist explained the program's principle is "to get people in the habit of saving.

"By joining a Christmas club, they feel a responsibility or commitment to save. In addition, savings institutions impose a sense of needed discipline by sending out regular reminders."

Some consumers wonder about the success of such programs.

"According to surveys, about 80 per cent of those joining these clubs reach—or exceed—their savings goals, with an average account containing $175 at maturity."

Although that sounds good, Miss Cochran pointed out an often overlooked factor—interest.

"Many savers receive no interest on their money. Most forget about it or just assume they're getting it.

"Some institutions contend they can't pay interest because of high costs involved in handling the numerous small deposits.

"Although this lost interest may be small, a regular interest-bearing account in the same institution would yield an end-of-the-year bonus," she noted.

"So, Christmas clubs offer a route for those who need incentive to save. But for others, there may be better ways to avoid the 'after-Christmas blues' next year," the specialist concluded.

Socialite Promotes Health Education

By VIVIAN BROWN
AP Newsfeatures Writer

NEW YORK (AP) — Families of the mentally ill need help, too, says Nedda Logan, lovely wife of Broadway director Joshua Logan. In her soft-spoken manner she was describing her role in coping with the illness of her husband, a manic-depressive, during his bad years.

"It is one of the problems of mental health — they take care of the patient, but they don't help the families," she observed.

Fortunately, her own doctor provided strength when she needed it, she says, and she was able to cope.

But some families do not recognize mental illness and some do not know how to cope with it if they are aware, she has concluded.

"Manic depressives are up and down. When they are depressed, it is easier because they need the family. When they are high, they don't need anyone. They are in euphoria, spending a lot of money and going for days without sleep. Their brains race — Josh could learn a whole language when he was in the hospital," Mrs. Logan recalled.

Interviewed in her New York apartment, Mrs. Logan says her husband has lost all his fears and has been in fine shape for many years.

But in her opinion, more education would promote better understanding of mental health — some families may be ashamed or try to hide the problem. The way to start, she says, is with the young.

For example, she is trustee of the Museum of the City of New York which has been providing exhibitions and lectures on topics of interest to youth in the last few years. A program on drugs was a big success, she said, and one on venereal disease is coming up.

She says they will go on from there, emphasizing visual presentations which seem to be extremely effective in teaching young people.

She was co-chairman of the museum's 50th anniversary celebration, a $100-a-ticket affair with a fashion show sponsored by the American fur industry, using prominent socialites as models. Such events, she said, help maintain the museum and its special programs.

The museum captured Mrs. Logan's interest in 1955 when it did a special exhibition of the work of her father, playwright-actor Edward Harrigan.

Harrigan owned his own Broadway theater and his plays in the 1870s and 1880s depicted New York City life. Memorabilia from that era dots the unique decor of the Logans' apartment, where a background of sketches, family paintings and photographs spills into every room. Intermingled are turn-of-the-century bibelots, fine French furnishings and a collection of decorative art pieces.

Mrs. Logan did the decorating. In addition to her daughter, Ann Connolly Perrow, and two granddaughters, the Logans have a daughter, Susan, and son, Thomas.

Audience Flocks To Free Concerts

WASHINGTON (AP) — More than 40,000 persons attended the 20 free concerts in Kennedy Center's holiday festival, "The 12 Days of Christmas," in the Concert Hall and Grand Foyer Dec. 21-Jan. 1. The festival was sponsored for the second year by McDonald's restaurants.

Additional seats were placed on stage when possible and standing room was necessary. Some 1,000 persons had to be turned away from one event, the "Messiah Sing-In," which featured the Paul Hill Chorale and musicians from the Local 161-710, Federation of Musicians.

Concert Hall events alone attracted 21,000, surpassing last year's entire attendance of 19,000.

Ellington's Nonmusical Self-Portrait

MUSIC IS MY MISTRESS. By Duke Ellington. Doubleday. 522 Pages. $14.95.

Music is his life and he loves it, Duke Ellington makes clear in his autobiography. He thinks about it while he's driving to an engagement with Harry Carney. He often writes it all night. He hears his band play it every night of the week. He's inspired to write it by everything from beautiful scenery, a new place he's been, a statement by Marshall McLuhan, his feelings about God, a beautiful woman.

This is a very interesting book, not at all "and then I wrote." The early days in Washington, D.C. are fascinating; so are glimpses of after-hours joints in Harlem. There are sections devoted to personality sketches of musicians who have worked with Ellington, journals from foreign trips, passages of the juicy, poetic prose which flows from Ellington as descriptively as music.

But what we liked best about this book is what it tells about Ellington himself.

For instance, there is a discussion of "The Deep South Suite" and its second movement, "There Was Nobody Looking," which "illustrated the theory that, when nobody is looking, many people of different extractions are able to get along well together." The music told about a puppy and a breeze, both fascinated by a flower, with "no animosity or friction between dog and breeze, for each respected the other's right to court the flower." One hearer complained later that Ellington should have written out-and-out protest but "I felt it was good theater to say it without saying it. That is the art."

In his sketch on cornetist Rex Stewart, Ellington writes, "Since I refer to it often, I should say that commanding respect, in my view, is a social credit that will never become outdated." He explained to some musicians in Japan, "I must always be on guard against condescension, for that is the vilest of offenses."

And in the sketch on Louis Armstrong, he wrote: "Louis Armstrong was the epitome of jazz and always will be." But Ellington ended the sketch with something even more important to him: "I loved and respected Louis Armstrong.

Altrurian Daughters Present New Officers

Altrurian Daughters Study Club met Wednesday at the Martha Ann Woman's Club with Mrs. Dillard Teal, president, presiding.

The nominating committee presented the new officers for the next two years who are Mrs. Grover Eaton, presdient and Mrs. Borden Gray, vice president. Others are Miss Bess Johnston, recording secretary; Mrs. Douglas Hill, corresponding secretary and Mrs. Dillard Teal, treasurer.

Mrs. Teal reported the president's report and other reports had been mailed to the district chairman of each department.

A letter was read from the Scurry County Museum asking for pieces of interest to add to the collection the Museum already has.

Club members contributed twenty books of trading stamps, plus eight dollars cash to the board of directors of the Martha Ann Woman's Club to be used in getting new tables for the club house.

A program entitled, "Awareness of Modern Poetry" was presented to the club by three Snyder School teachers, Mrs. B. J. Dryden, Mrs. G. M. Cockran and Miss Emily Kincaid. Guitar accompaniment was by Mrs. Cockran and Miss incaid.

Mrs. Douglas Hill was hostess to twenty members and three guests.

Dylan Signs For Britain

LONDON (AP) — Island Records has signed Bob Dylan for the British market.

The contract was negotiated in the United States with David Geffen, president of Elektra-Asylum Records, and Dylan's attorney, David Braun.

First album will be "Planet Waves," which was recorded with the Band in Los Angeles.

It is anticipated that Dylan will be touring Europe with the band early this summer.

Developing Saving Trend Helps Housing Picture

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — There may be a house in your immediate future, after all. It didn't look that way just a matter of weeks ago, when builders and lenders were looking into what seemed to be a bottomless pit.

It isn't that the outlook has improved very much.

But the trends in savings which generally forecast an upturn in housing now seem to be developing. That is, the savings dollar is pouring back into the thrift institutions, which provide most home mortgages.

About one year ago the savings and loan associations and mutual savings banks began losing money to Treasury and industry securities and to big bank certificates of deposit that provided higher yields.

The money continued to pour out right through the summer. But by fall the flow was reversed.

When that happens the thrifts begin to get back into business. Once again they have money to put into home mortgages, which is their primary investment. And when that happens builders begin to do their thing.

If the trends continue it could mean not only that mortgage money will be easier to obtain but it might even come at a slightly lower price.

Interest rates already have dipped in some areas, although only by fractions. In December, for example, the effective rate for government-backed mortgages fell to 9.03 per cent from 9.08 per cent a month earlier.

Some private mortgage companies and commercial banks also have quoted slightly lower rates, although the amounts are too small and the instances too spotty to make a trend.

While it might still be early for those frustrated homeseekers to resurrect plans that were buried a year ago, there is still another factor that might add to the supply for mortgage money.

That is, Treasury and federal agency securities aren't paying returns as high as they were a year ago, suggesting that more savers will prefer to bank their money with thrift institutions rather than investing in securities.

In summary, the outlook is improving for housing and, barring unforeseen and adverse economic developments, it should continue to improve except in one category — price.

The house you would have bought a year ago if you could have obtained a mortgage most likely will cost more now because of increases in materials and labor costs.

Royal Family Tour Auckland

AUCKLAND, New Zealand (AP) — Queen Elizabeth and members of the British royal family toured the main shopping thoroughfare of Auckland while droves of New Zealanders crowded around to watch.

Police mounted what was described as the tightest security net in New Zealand history. The city center was jammed with the biggest crowds ever seen here.

Rockefeller Giving Art To Asia Society

NEW YORK (AP) — John D. Rockefeller III is giving the Asia Society a collection of Asian art valued at $10 million to $15 million.

"After being involved in three land wars in Asia in one generation, we Americans must seek afresh to develop understanding and cooperation with the two-thirds of the human family who live in Asia," Rockefeller told a news conference Thursday.

Phillips Talbot, president of the cultural society based in New York, said the collection consists of several hundred pieces from mainly four Asian cultures — Indian, Chinese, Japanese and Khmer Cambodian.

Office Collections Not Easy

By HAL BOYLE

NEW YORK (AP) — You never really know what the human herd is like until you take up an office collection.

Suppose, for example, that Millicent, the plump little girl in the stenographic pool, has just had a baby and you have been drafted into trying to pry a buck apiece out of the other hired hands in the office to buy the kid a present.

Here is a typical sampling of the remarks that greet you:

"See me payday."

"Count me out on moral principles. I'm against the birth explosion. If we start rewarding babies for being born, we'll be up to our armpits in them."

"I'll give the baby a buck when the father gives me a cigar — and not until then."

"Nobody gave me money for being born. They just stole the pewter spoon out of my mouth."

"See me payday after next."

"When I first came here 40 years ago, the only thing they took up office collections for was the widow when one of the old-timers died. Today they take up a collection to buy flowers for a guy if he stays home from work two days because his sinuses are clogged."

"Pass me on this one. I've got six children of my own at home to buy presents for every other Christmas if I can make it."

"Here's my buck. Any kid crazy enough to be born in these times needs all the help he can get."

"When are you going to take up a collection for me? I've been working for this sweatshop 18 years, and I have yet to see my first merit raise."

"Sure, here's a buck for the little tyke — and here's another in case he wants to go to college later."

"A dollar is too much, but I'll gladly contribute 50 cents if you assure me I can deduct it from my income tax as a business charity."

"I've only got one buck left, and I plan to buy a Martini for lunch with it. Who do you think needs that Martini most — me or the baby?"

Sandy Baron Still Missing

LOS ANGELES (AP) — One month ago today, comedian Sandy Baron checked out of the Essex House Hotel in New York. He walked out the door and hasn't been heard from since.

Baron's estranged wife and business associates are unable to explain his Jan. 8 disappearance but they believe he is hiding out somewhere.

Baron, 37, who costarred on television's "The Della Reese Show" and toured nationally as Lenny Bruce in the play "Lenny," reportedly had been depressed for more than six months because of the breakup of his marriage and other reasons.

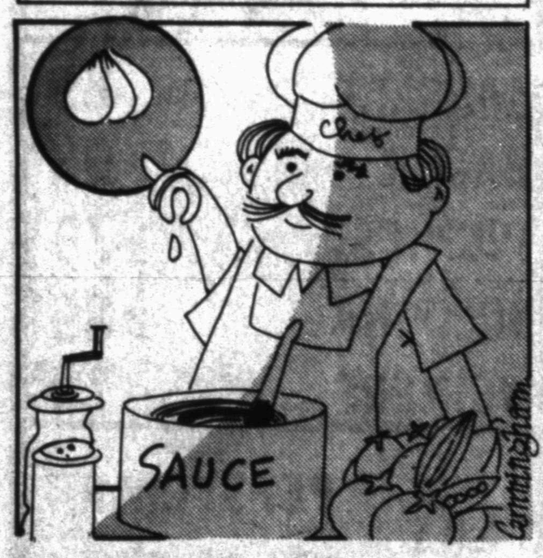
Junior Editors' Quiz on GARLIC



QUESTION: *What is garlic?*

* * *

ANSWER: Garlic is a bulb plant, a European herb belonging to the lily family. It is a relative of the onion. The garlic bulb differs from the onion in formation and it is divided into several parts or cloves. A paper-thin covering envelopes the whole bulb. Garlic is raised much like onions. The stem grows about 2 feet high and bears white flowers. Sometimes it is propagated by seed, but frequently the bulb is divided and the separate cloves are planted.

Garlic has been used since ancient times. The Egyptians used it in cooking and embalming. It is mentioned in the Old Testament concerning the food of the Israelites during their Egyptian captivity. The ancient Romans believed garlic possessed magical powers. In the Mediterranean area it forms part of almost every dish. Garlic seems to be liked or disliked with great intensity. It is a pleasant flavoring when used with discretion. Good cooks use it sparingly. A clove of garlic rubbed on the side of the salad bowl usually produces a desirable flavor.

Westerners Put Down Frank Phillips, 76-69

BORGER—The Western Texas College Westerners dominated the boards here last night as they scored a 76-69 triumph over Frank Phillips Junior College in a Western Junior College Athletic conference basketball clash.

The victory boosts the Westerners' record to 16-8 for the season and 6-6 in conference play. Phillips now is 8-10 for the season and 3-8 in conference action.

The Westerners took an early lead and led all the way. They were ahead by as much as nine points in the first half and by as much as 10 points in the second half. Phillips pulled within four points with 3½ minutes remaining, but Danny McDaniel, 6-2 sophomore guard from Little Rock, Arkansas, tallied for quick baskets for the Westerners and they coasted in the remainder of the game.

McDaniel had an outstanding night for the Westerners, scoring 31 points. Harold Ward pushed in 15 points while Eugene Harris and Norman Barnes put in 12 points each. For Phillips, Terry Scott roped 20 points, Ronnie Williams mashed 19, and George collected 16.

Phillips actually outshot the Westerners, but WTC had a big height advantage and was able to dominate the boards. The Westerners scored a lot of tip ins and rebound shots. Harris and Ward led WTC rebounders with 17 each while the team as a whole held a 53-19 advantage over Phillips on the boards.

The Westerners hit 33 of 74 from the floor for 46 per cent, and put in 10 of 15 at the line for 67 per cent.

Defensively, the Westerners employed a 2-1-2 zone all night.

"It's good to win on the road—Phillips has beaten some good teams on their home court," declared Mike Mitchell, WTC coach.

The Westerners meet San Angelo's junior varsity at 5:30 p.m. Saturday in the San Angelo Coliseum. Mitchell said probable starters will include Ken Fowler, Danny McDaniel, Harold Ward, Norman Barnes and Eugene Harris. The Westerners beat the Angelo State Junior Varsity, 88-75, earlier in the season.

Arlington Hires Bud Elliott

ARLINGTON, Tex. (AP) — Harold "Bud" Elliott, football coach at Emporia State in Kansas three years, was named head coach at the University of Texas-Arlington Thursday.

He succeeds John Symank, who resigned to become an assistant on the New York Giants staff.

Elliott's Hornet teams at Emporia won 17 games, lost 12 and tied 1. They won the Great Plains Conference championship in 1972 and tied for it in 1973.

Plunkett Inks Saints Pact

NEW ORLEANS (AP) — Southern Mississippi fullback Wilson Plunkett, a free agent, signed with the New Orleans Saints of the National Football League Thursday.

Plunkett, of Aiken, S.C., stands 5-feet-11 and weighs 205 pounds. He carried the ball 217 times for Southern Mississippi last season, gaining 886 yards and scoring six touchdowns.

Pistons Defeat Golden State

By FRED ROTHENBERG
AP Sports Writer

Willie Norwood used to have a physical attachment to the Detroit bench — now it's emotional.

"The thing that really makes us stronger is our bench," said Norwood, a former benchwarmer whose 27 points in a starting role sparked the Detroit Pistons to a 110-86 victory over the Golden State Warriors in Thursday night's only National Basketball Association game.

In the American Basketball Association, a federal court awarded George Gervin to the San Antonio Spurs Wednesday for at least 10 days, but the Virginia Squires, Gervin's old team, still overpowered the Carolina Cougars 120-97, while the Spurs lost to the Utah Stars 86-83. The Denver Rockets trimmed the Memphis Tams 105-94.

Norwood used to get up for the pre-game National Anthem and then sit right down again. But since forward Don Adams has missed the last seven games with a pulled hamstring muscle, Norwood stays standing for the opening tip-off, then sits on the opposition.

In his last three games, all as a starter, Norwood has totaled 72 points — not bad for a fellow with a 6.9 average entering Thursday night's contest.

"Willie Norwood has just been fantastic," said Detroit Coach Ray scott. "Right now he's our starting forward."

While Adams has been on the mend, the Pistons have compiled a 6-1 record, stretching their third-place marks in the NBA's Midwest Division to 38-19 — two games behind the Chicago Bulls and four games in back of the Milwaukee Bucks.

Norwood, making the most of his starting opportunity, popped for 16 points in the first quarter as the Pistons built a 14-point lead after 12 minutes, increased it to 17 at the half and pulled away to a 84-58 edge after three quarters.

Rick Barry, the Warriors' leading scorer this season, had just six points.

Stars 86, Spurs 83

On the Gervin issue, the court ruled in San Antonio's favor, but Utah had the final decision against the Spurs Thursday night.

"I was missing some plays. I know I was mixing everybody up out there," said Gervin, who has averaged 25 points a game. He had 12 points in his debut with San Antonio.

Ron Boone's 23 points led the Stars to their ninth straight victory — tying the New York Nets' earlier streak as the ABA's longest.

Squires 120, Cougars 97

The Gervin-less Squires didn't seem to miss the 21-year-old forward as Virginia's front line accounted for 78 points. Cincy Powell had 28 and Jim Eakins 18.

Rockets 105, Tams 94

Byron Beck, the game's leading scorer with 24 points, teamed with Ralph Simpson to score the last six points of the night and provide Denver's cushion over Memphis.

Chargers Receive Dear John Letter

By THE ASSOCIATED PRESS

Thursday was pen pal day in much of the National Football League but Virgil Carter used a poison pen and wrote a Dear John letter to the San Diego Chargers.

Four more first-round draft picks signed with the NFL — Colorado fullback Bo Matthews with San Diego, UCLA defensive tackle Bill Sandifer with San Francisco, Michigan defensive tackle Dave Gallagher with Chicago and Southern California offensive tackle Steve Riley with Minnesota.

But the NFL received a blow hen Carter, a 28-year-old quarterback who once belonged to the Chicago Bears, Buffalo Bills and Cincinnati Bengals and was traded to San Diego following the 1973 season, became the first player to jump to the fledgling World Football League.

And two other big name NFL draftees — Tennessee State defensive tackle Ed "Too Tall" Jones, the No. 1 pick, and All-American quarterback David Jaynes of Kansas — refused to commit themselves to the established league.

Carter, who led the NFL in passing percentage with Cincinnati in 1971 but missed last season with an injury, was one of three players signed by the WFL's Chicago Fire. The others were Mark Kellar of Northern Illinois, the nation's leading rusher last fall, and wide receiver John Wright, who retired from the NFL's Detroit Lions in 1971.

Carter said he was "delighted and satisfied" with his WFL contract. It was reported to be a two-season pact totaling $100,000. He said it was better than the contract offered by the Chargers.

"This is the best deal, all things considered," he said.

Both Jones, who was drafted by the Dallas Cowboys, and Jaynes, Kansas City's third-round choice after being the No. 1 pick in the WFL draft a week earlier, said they would take the best offer.

"I'll be looking out for my best financial security," said Jones, who was picked by Detroit of the WFL in the third round.

Jaynes, selected by Memphis of the WFL, said he was "disappointed that I wasn't drafted higher in the NFL." He described his bargaining position thus:

"Oh, man! I tell you, I was born in the right year. I just want whatever I'm worth to either team."

Jones' college teammates, linebacker Waymond Bryant, also said he was "very open-minded about the two leagues."

Minnesota also signed center Scott Anderson of Missouri, the Vikings' third-round pick.

Lee Elder Takes Lead

PALM DESERT, Calif. (AP) — Lee Elder has the putting woes, an aching wrist, a date with a hospital — and a share of the lead.

"As soon as this tournament is over, I'm going in a hospital in Los Angeles and have the wrist drained," Elder said Thursday after his hard-won 71 gave him a tie for the top spot with big Labron Harris after two rounds of the $160,000 Bob Hope Desert Classic.

"I think they call it a ganglia," said Elder, one of the few blacks on the pro tour. "I've got some fluid in the back of the left wrist. I've got to get it out. It hurts pretty bad sometimes, particuarly when I break my wrists on the backswing."

Elder has missed a total of 25 putts from 15 feet or less in compiling his two-round total of 140, four under par.

He and Harris, who spiced his second consecutive 70 with an eagle three, shared a one-stroke lead over Johnny Miller, John Mahaffey, Hubert Green, Grier Jones, Mike Reasor and John Lister of New Zealand, all tied at 141.

Miller, Green, Jones and Reasor all had 69s in the bright, warm desert sunshine, Mahaffey had a 70 and Lister 71. First round leader Mark Hayes slipped to a 74—142.

Defending champion Arnold Palmer improved to a 70 for 146 and still had hopes of winning his sixth title in this event.

Rookie Ben Crenshaw improved 10 strokes to a 71, but the big comeback was by DeWitt Weaver. Weaver went from an opening 82 to a 64, a stroke a hole better.

One lap behind were Rene Pijnen of Holland and Rik Van Linden of Belgium.

Tigers, Dogs Vie In Crucial Tilt

The Snyder Tigers will be weakened by the flu when they take on the Plainview Bulldogs at 7:30 p.m. tonight in Plainview in a District 4-AAAA basketball contest. The sophs tangle at 4 p.m., and the junior varsity squads square off at 5:45 p.m.

"This will probably be our most important game of the year," said Tiger Coach Bob Moore. He said if the Tigers can be beat Plainview then they definitely will be in the thick of the race for the second half crown.

The Bulldogs and Hereford tied for the first half crown with 4-1 district records. Both Snyder and Plainview are 1-0 in second half action. The Tigers beat Lubbock 81-79 and the Bulldogs bested Coronado 53-45. For the season, Snyder is 9-17 and Plainview is 15-13. Plainview beat Snyder in the first round, 51-49, in double overtime.

"They have a tall team and will be tough," said Moore.

Included in the Bulldog lineup are three 6-5 men—Danny Huffhine and Doug Berry, both of whom play post, and Mark Mangrum, a center. Rounding out the lineup are Steve Horn, 6-2 guard, and Jerry Wade, 6-0 guard.

Coach Moore has had five lads out with the flu this week. All of them showed up together for the first time at practice yesterday, but several of them are still weakened from their bout with the flu. The five are Larry Johns, Robert Alderete, Greg Gary, Roy Lee Carter and Randy Gressett.

Carter and Johns are the only starters among the five, but the Tigers will not have as much bench strength as they'd like to have.

"Carter and Johns will probably start tonight," said Moore. Both join Welton Cobb to form a triple post attack. At guard will be Tim Jones and Chester Cobb.

Ready for reserve action will be Sid Perry, Greg Gafford, Eric Schrader, Danny Brumley, and, hopefully Gary, Gressett and Alderete.

Shooting records still in existence show that there was a target-shooting club in Geneva, Switzerland, in 1474. In Germany numerous clubs held regular tournaments as far back as the 16th century.

SLA Is Holding Kidnaped Girl

By MIKE SILVERMAN
Associated Press Writer

BERKELEY, Calif. (AP) — An underground terrorist group which says it is holding kidnaped newspaper heiress Patricia Hearst may have abducted her as ransom for two of the group's "soldiers" who are charged with murder, police said today.

The mysterious Symbionese Liberation Army claimed responsibility for the abduction in a letter received Thursday and the Hearst family today awaited demands for her release. The militant group said she would be executed if anyone tries to rescue her.

Both police and a family spokesman raised the possibility that the ransom demand, when it comes, might be the freedom of two men charged with murdering Oakland schools Supt. Marcus Foster Nov. 6.

"It's on everybody's mind," said Richard Berger, a Berkeley police spokesman. He said no demand for their freedom had been made.

In its communique, the SLA called the 19-year-old coed a "prisoner of war" and her father, newspaper executive Randolph Hearst, a "corporate enemy of the people."

Hearst, president and editor of the San Francisco Examiner, said, "If this is a political problem it may become very, very difficult."

In the letter Thursday to Berkeley radio station KPFA, the radical group claimed the girl was alive and unharmed. But it added:

"Should any attempt be made by authorities to rescue the prisoner, or to arrest or harm any S.L.A. elements, the prisoner is to be executed."

Hearst said he believed his daughter was alive.

Miss Hearst, a University of California student, was kidnaped Monday night from her Berkeley townhouse in a flurry of gunfire.

The same group has said it was responsible for the cyanide-bullet assassination last November of the black superintendent of the Oakland schools. Two alleged Symbionese Liberation Army members are being held in the murder of Marcus Foster Nov. 6. At that time, the group vowed vengeance on "the fascist state."

The group's only demand was that the letter be published in full.

Hearst said Thursday night he expected further word by mail today or Saturday.

Hearst said, "I just hope whatever demands they make are of a kind that are possible to fulfill." He spoke to newsmen clustered at the doorstep of his home in the fashionable suburb of Hillsborough, 15 miles south of San Francisco.

King Orders Inquiry

AMMAN, Jordan (AP) — King Hussein has ordered a top-level inquiry into five days of unrest among previously steadfast units of his Bedouin army.

Well informed sources here said disciplinary action cannot be ruled out if ringleaders of the uprising are found. But the feeling here is the movement appears to have arisen spontaneously among approximately 2,000 men based at the military garrison of Zerqa, 15 miles north of Amman.

Personal visits by Hussein to the units involved and a quickly announced pay increase for the army apparently have quelled the disturbances that included at least two days of disorderly demonstrations at Zerqa.

In Beirut, Lebanon, the newspaper An Nahar reported that at the height of the disturbances some soldiers broke into foodstores and began to distribute sugar and rice to people free of charge.

It is generally acknowledged that skyrocketing food prices and resentment over special privileges for high-ranking officers provoked the unrest which has been described as a mutiny by Jordanian travelers reaching Beirut.

Demands for better pay broadened into the political field when some troops called for the removal of Premier Zaid Rifai who was blamed for failing to control the rising cost of living.

Embargo Impact Is Less Severe

By STAN BENJAMIN
Associated Press Writer

WASHINGTON (AP) — The federal government has been told that the impact of the Arab oil embargo may be less severe than had been expected.

And, a semiadvisory group reported Thursday, oil imports may actually increase in February and March.

For the first quarter of 1974, the group said, the United States may face an 11 per cent oil shortage instead of the 14 per cent predicted only last December.

The report was made to the Emergency Petroleum Supply Committee — an oil industry advisory group with a government official as its chairman — by one of its subcommittees.

Walter Uhle, a retired Caltex vice president who presented the subcommittee report, said the Arab oil embargo was most severe in December, before the Arab nations began relaxing their oil cut-off to all but a few nations considered friendly to Israel.

"The relaxation has improved the situation, essentially, outside the United States," Uhle said.

For the first quarter of this year, he said, Europe can expect a five per cent oil shortage instead of the 18 per cent predicted in December; Japan and South Korea may be 10 per cent short instead of 15 to 25 per cent; and the "free world" shortage should be about 7 per cent instead of 13 per cent.

Uhle said the new first quarter estimates assume that the Arabs will continue their embargo against the United States, the Netherlands, Portugal and South Africa.

Even so, the United States was expected to benefit from increased Arab oil production.

Federal officials have admitted some Arab oil was being leaked to the United States.

Most of the tiny islands in the western Pacific Ocean are of volcanic origin.

Alioto's Wife Joins Campaign

VALLEJO, Calif. (AP) — San Francisco Mayor Joseph Alioto has a new sidekick on the campaign trail — his wife.

Angelina Alioto was reunited with her husband this week after an 18-day disappearance, the purpose of which she said was to "punish" her husband for ignoring her. She disclosed later she had vanished on a pilgrimage of California missions.

"At an affair where my husband is honored, I just want to be introduced," Mrs. Alioto said during a question and answer session before the Junior Chamber of Commerce here Thursday. Alioto was to have given a speech, but instead discussed his marriage.

Campaign aides believe Mrs. Alioto's disappearance may prove a boon to the mayor's bid for governor.

"We've had calls from a great lot of women who are fantastically interested in Mrs. Alioto," said Charles O'Brien, campaign manager. "They want her to be part of the campaign. She is going to be part of the campaign."

No other building material offers as many advantages as wood. It is low cost, readily available. Wood is strong yet light in weight; it is flexible, easy to cut, shape and handle. Wood has exceptional insulation values, and for decorative uses no other material can match its warmth and beauty.

"The words of a wise man's mouth are gracious." Ecclesiastes 10:12.

Words hold society together and
perhaps are immortal too
(If one might judge from the
scriptures whose words are
convincingly new).
No one can measure the love a
few little words could convey,
Or the beauty, or melody one
might pen,
or the wisdom one might say,
Yet words are weapons too and
carry cruel blows
That should never be borrowed
at any time from the arsenal of
foes.

Episcoplian Money Situation Critical

SAN ANTONIO (AP) — The Episcopal Church's financial situation is critical but there are signs in West Texas congregations of a "renewed evangelism and spirit," a church leader says.

The Rt. Rev. Harold C. Gosnell, bishop of the Episcopal Diocese of West Texas, spoke Thursday to the 70th annual council of West Texas Episcopalians.

"When it becomes necessary to increase the income of a parish, diocese or national church by more than seven per cent just to maintain the present level, we are in a critical position," Bishop Gosnell said.

And, in the past five years, "There were dissension, suspicion and mistrust, which resulted in many persons becoming inactive in our corporate life and in a resultant drop in communicant strength, baptisms, confirmations and church attendance," he said.

However, he said, "In 1973, we had the first increase in confirmation and receptions in five years, and while it was a gain of only four per cent, it is indicative of a renewed evangelism and spirit in most of our congregations."

"It is my personal opinion that we have turned a corner and are now walking in a direction of unity and growth," the bishop said.

He asked that churchmen keep "confrontation to a minimum" as they seek answers to social and economic pressures.

The bishop said he expects the country's social problems to demand a constant reaffirming of strong religious beliefs.

St. Eliz. Catholic

The Rev. James A. Coleman, pastor of St. Elizabeth's Catholic Church, 3005 Ave. A., will hold Saturday evening Mass (Sunday's liturgy) at 7:30 p.m. Sunday Masses are at 8:30 a.m. and 10 a.m. Confessions are heard before Mass. Daily Mass is at 7:30 a.m.

Religion classes for the school children will be held on Wednesday evening from 7 p.m. to 8 p.m.

"Most governments have been based, practically, on the denial of equal rights of men...ours began by affirming those rights.

They said some men are too ignorant and vicious to share in government. Possibly so, said we; and by your system, you would always keep them ignorant and vicious. We proposed to give all a chance, and we expected the weak to grow stronger, the ignorant wiser, and all better and happier together."

"Nearly 80 years ago, we began by declaring that all men are created equal; but now from that beginning we have run down to the other declaration that for some men to enslave others is a 'sacred right of self-government.'

These principles cannot stand together. They are as opposite as God and mammon, and whoever holds to the one must despise the other."

"Let us discard all this quibbling about this man and the other man, this race and that race and the other race being inferior, and therefore they must be placed in an inferior position...let us discard all these and unite as one people, throughout this land, until we shall once more stand up declaring that all men are created equal."
