

Jap Snipers Fail To Hit MacArthur

Truman Takes Peace Charter To Senators

WASHINGTON — (AP) — President Truman presented the United Nations charter in person to the Senate Monday and urged its "prompt ratification."

"The choice before the Senate is now clear," said the Chief Executive in a brief speech.

"The choice is not between this charter and something else. It is between this charter and no charter at all."

The Senate must ratify the United Nations charter for world security to assure this nation's participation.

The President went to the Capitol less than 24 hours after his return from a trip during which he addressed the closing session of the United Nations Conference which drafted the blueprint for a lasting peace.

"No Other Road"

"This charter points down the only road to enduring peace," the President said. "There is no other. Let us not hesitate to join hands with the peace-loving peoples of the earth and start down that road—with firm resolve that we can and will reach our goal."

Truman reviewed the Congressional background favoring an international peace organization—the Connally lasting peace resolution and the Fulbright resolution of the House which were adopted more than a year ago—and told the Senate the peoples of the earth will "watch our action here with great concern and high hope."

"For they looked to this body of elected representatives of the people of the United States to take the lead in approving the charter and statute and pointing the way for the rest of the world," he said.

Plan To Be Discussed

The President made no attempt to go into the details of the charter, telling his former colleagues he was sure they are familiar with its proposed workings and that they will be thoroughly discussed in Senate debate.

Declaring the charter the product of many hands and influences, Truman said it comes from the "reality of experience in a world where one generation has failed twice to keep the peace. The lessons of that experience have been written into the document."

He urged the Senate, in its decision, to act promptly.

Wildcat In Irion Flows 94.52 Bbls. Oil In 24 Hours

By JAMES C. WATSON, Oil Editor

Shell Oil Company, Inc., No. 2 Tankersley, Southeast Irion County possible wildcat discovery from the Pennsylvania, in section 10, GCS&F survey, flowed 94.52 barrels of 45-degree gravity oil, plus 348 barrels of salty water, during a 24-hour period, after being shut in for 13 hours.

The fluid came from perforated horizon at 7,195-7,200 feet, over plugged-back total depth of 7,246 feet. The flow was through a 9/64-inch choke on two-inch tubing. Operator was continuing to test. The well had been treated with 250 gallons and 500 gallons of acid.

Set A Whippstock

Gulf Oil Corporation No. 1 Starnes, Southwest Irion County exploration to around 7,500 feet, in section 1, of Julia Prater survey, abstract 351, eight and one-half miles northwest of McCamey, set a whippstock at 4,273 feet, to drill by lost tools over original total depth of 5,081 feet.

J. R. Sharp and R. C. Barnes No. 1 Crum, in southwest corner of section 7, block B-2, psi survey, 10,500-foot test to the Ellenburger in southeast side of the Wheeler-Ellenburger area in North Winkler County, was bottomed at 8,116 feet, in the Silurian, and was to take drillstem test.

After getting good indications of oil, operators tried a test Sunday, but it failed on account of a hole in the drill-pipe.

Found A Stray

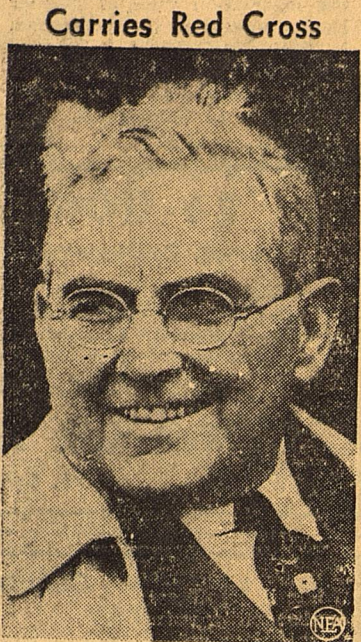

Magnolia Petroleum Company No. 1-B Tucker, Southeast Crane County prospector to the Simpson in section 25, block 1, H&C survey, was coming from 4,211 feet, in lower Permian, after "bumping into" a stray streak in the Permian, below the Tubb, which showed some oil from 4,208-11 feet.

Out Of Permian

The Atlantic Refining Company No. 1 Iowa, Southeast Crane County prospector to the Simpson in section 25, block 1, H&C survey, was coming from 4,211 feet, in lower Permian, after "bumping into" a stray streak in the Permian, below the Tubb, which showed some oil from 4,208-11 feet.

The Atlantic Refining Company No. 1 Iowa, Southeast Crane County prospector to the Simpson in section 25, block 1, H&C survey, was coming from 4,211 feet, in lower Permian, after "bumping into" a stray streak in the Permian, below the Tubb, which showed some oil from 4,208-11 feet.

Peace Pact Ratification Is Certain

By The Associated Press

LONDON — Quick ratification of the San Francisco Peace Charter appeared certain Monday in the capitals of virtually all the United Nations.

From Russia to Peru, government leaders are setting in motion machinery for formal approval, and it is possible that every nation will have acted by late Fall.

The treaty designed to safeguard the world against aggression might attain unanimous ratification even earlier but for the necessary preliminary in some nations of re-instituting legislative bodies which were strangled during Germany occupation.

All capitals expressed interest in the drive for quick endorsement in the United States Senate, but no government spokesman suggested that his government might wait to see what the United States would do.

Associated Press Correspondent

Eddy Gilmore in Moscow reported that "what the United States does or what is said in debate there certainly is not likely to affect Russia's stand one iota." He added that the Soviet Union "undoubtedly will be one of the first nations to approve the charter."

The only delay in Britain's formal acceptance probably will be the interlude before the new parliament convenes Aug. 1. The British cabinet's approval of treaties is announced formally in Commons.

Even quicker action was probable in France, where an official spokesman said Gen. De Gaulle's government could ratify the pact merely through publication in the official journal after approval by the cabinet, with no action by the consultative assembly needed.

China to Act Promptly

In Chungking, China's ratification was expected shortly and without the slightest hitch.

Wen Wen-Hao, acting president of the legislature Yuan, will refer the charter to the Supreme National Defense Council, which meets Monday.

Way must await parliamentary election. Ratification in Belgium and Norway in the fall, but the new government in Holland has announced that one of its first steps will be the creation of an emergency Parliament, which would have authority to ratify.

Denmark's Riksdag, now in session, was expected to act promptly after Danish delegates return to Copenhagen from San Francisco.

Argentina's foreign minister, Cesar Ameghino, said ratification could be expected "soon," presumably by an executive decree by President Edelmiro Farrell.

Mexico's Congress convenes in September and is expected to endorse the agreement quickly.

Rain And Cooler Weather Arrives; More Predicted

Midland County's thirsty farms and ranches soaked up rain, which started falling Sunday afternoon and by noon Monday had averaged about an inch over most of the county, a survey made by the Midland County AAA office indicated.

The rain was heavier in Midland than in many parts of the county with an estimated inch and a half of precipitation Sunday afternoon and Monday morning. Monday, rain caused water to rise almost to the sidewalk level on some downtown streets.

The rain was lighter in the western part of the county as the thunderstorm front moved in from the east. The gauge at Midland Army Air Field registered only .22 of an inch, but more showers were predicted by weather observers for Monday afternoon.

The rains not only brought welcome moisture but cooler weather. The mercury dropped in one hour from a high of 82 degrees at 2 p. m. Sunday to 72 degrees at 3 p. m., and by 3 a. m. Monday the thermometer registered 68 degrees.

Ranches Aided

A. G. Bohannon reported three-eighths of an inch of precipitation at his place 12 miles northwest of Midland, while George Glass reported about an inch and a half at his ranch 14 miles northeast. A light shower was reported at the Frank Cowden ranch 10 miles north of Midland, and 13 miles northwest of Midland Sam Midkiff received a light shower.

Four miles west of Midland Les Floyd received about half an inch. Jay Floyd received rain on part of his ranch 21 miles southeast of the city. Jim Baker reported about two inches falling at his place three miles south, while three miles farther south Herd Midkiff received about one and a fourth inches. J. L. McGrew had about an inch of precipitation at his place five miles east of Midland.

Midland County apparently received more rain than most counties of this section. However, a heavy rain was reported in the Sterling City area.

At 7:30 a. m. Monday, Big Spring had received .06 of an inch while Abilene had only .01 of an inch. Hobbs, N. M., received only a trace of moisture, as did Carlsbad, N. M. Lubbock received only a trace of precipitation, and San Angelo received .18 of an inch.

County Agent J. H. Green predicted planting would get well underway in the county as soon as the farmers can get to the fields. Planting has been delayed because of continued dry weather.

Attempt Made To End Interurban Strike

WACO — (AP) — Waco civic and union leaders met in Dallas Monday with officials of the Texas Electric Railway Company to attempt settlement of the four-day-old dispute which has tied up the company's interurban operations and transportation facilities.

Mayor Frank Wilcox, Garland Butler, field representative for the United Railroad Workers of America, CIO, local union president, S. C. Ivey, and a committee of local workers are to go to Dallas, Wilcox said.

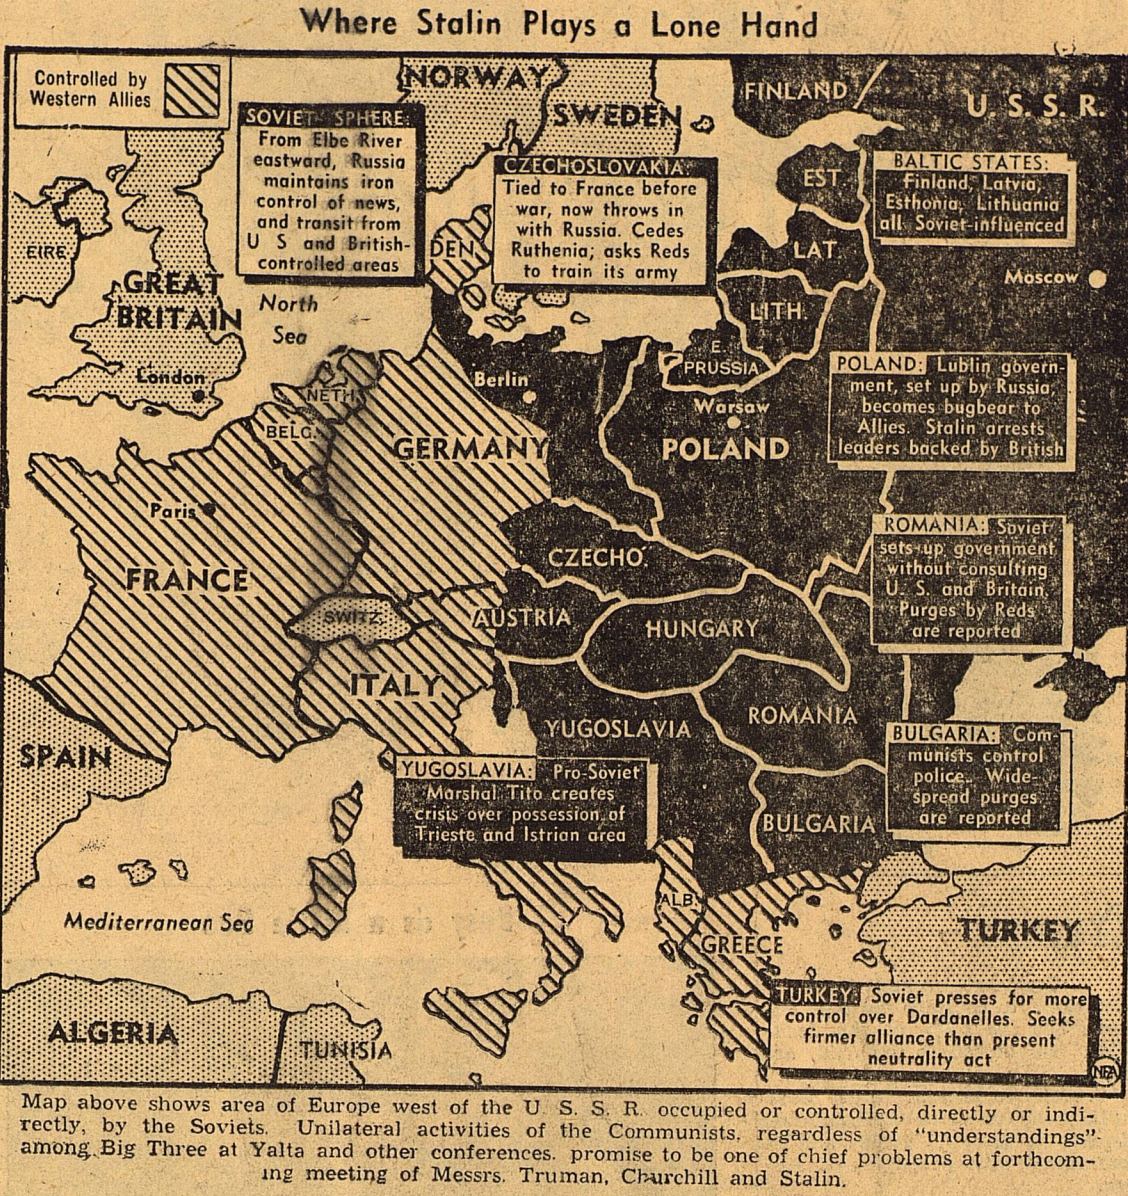

Railway employees voted Saturday to maintain their work stoppage until an arbitrator negotiates a settlement with the company, Ivey said.

The work stoppage, resulting from contract differences, has crippled transportation between Sherman and Denison and Dallas and Waco.

Japs Lost 419,035 Men In Philippines

MANILA — (AP) — With scattered Japanese units cracking before the steady advance of Americans and Filipino guerrillas enemy losses in the Philippines have risen to 419,035, Gen. Douglas MacArthur's Headquarters said Monday.

The total includes 9,774 prisoners, some of whom are predicting an early peace.

Americans Map Plans For Complete Decentralization Of German Nation

By The Associated Press

PARIS — Plans looking toward the complete decentralization of Germany were mapped by the U. S. group of the Allied Control Council Monday as American occupation troops trekked toward Berlin preliminary to the Big Three meeting there later this month.

Dispatches from Frankfurt said members of the U. S. control group were moving to Berlin with the American troops and within 10 days would be in a position to place their proposals before representatives of Russia, Britain and France.

The American program for decentralization of Germany—both politically and economically—calls for breaking Germany down into a number of "lander," or militarily impotent districts.

Work already has begun on breaking up the United States Western Reich District—one of two military areas over which the American Army will have control—into three "Landers." American regional commanders will assume control over all German governmental agencies within their own region.

Similar Policy

Advices from Frankfurt said a similar policy was expected to be carried out throughout Germany as soon as the program can be adopted by the quadripartite Control Council in Berlin.

It was expected here that the movement of American troops to Berlin would be completed by July 4 and that the withdrawal of forces of the Western Allies from areas allotted to the Russians would be finished at the same time.

A dispatch from Magdeburg disclosed that Red Army troops already had occupied that center of Germany's synthetic oil industry following the withdrawal of American and British forces.

While there was no official announcement concerning the identity of the American force en route to Berlin, it was understood that it was the Second Armored Division. The 82nd Airborne Division was expected to follow, or perhaps take over the assignment later.

British Sub Sinks Japanese Cruiser

WASHINGTON — (AP) — The Navy announced Monday a sinking of a Japanese cruiser by a British submarine operating under American control in the Southwest Pacific.

In addition, the communique said U. S. submarines have reported the sinking of 10 enemy vessels in far eastern waters.

The cruiser was of the Haguro class. Jane's Fighting Ships described this class as of 10,000-ton standard displacement with a complement of 692 and carrying 10 eight-inch guns.

A Navy spokesman said the British identified the submarine which sank the cruiser as the HMS Trem-chant.

War Bulletins

SAN FRANCISCO — (AP) — Radio Tokyo asserted Monday that Allied troops effected a landing 31 miles northeast of Balikpapan, Sunday, while putting ashore "their main force at three places, at Balikpapan itself."

ROME — (AP) — Departure of the U. S. First Armored Division from Italy to become part of the American occupation force was disclosed Monday.

LONDON — (AP) — Allied invasion forces used pneumatic breakwaters to control waves on the beaches during the Normandy invasion, it was disclosed Monday by Sir George Beharrell, chairman of the Dunlop Rubber Co., Ltd. Clamped to concrete keels set in line, a number of these units can reduce a six-foot wave to one foot, he said.

MELBOURNE — (AP) — During MacArthur's long sweep back toward Japan, amphibious forces under his command have put ashore 1,076,000 men in a total of 53 large and small landings, a naval commander informed Melbourne Herald Correspondent Tim Keane at a briefing on Sunday's Balikpapan invasion.

WAR AT A GLANCE

By The Associated Press

- BORNEO: Australian troops stormed rich oil port of Balikpapan.
- JAPAN: Almost 600 Superfortresses spewed a record 4,000 tons of fire bombs on Kure, Nippon's greatest naval base, and three important Japanese manufacturing cities.
- PHILIPPINES: Yanks mopping up in the Philippines raised Japanese casualties to 419,035.
- CHINA: Chinese captured Weichow Island off China's south coast.
- BURMA: British troops captured two enemy-held villages in Sittoung River Valley, 71 miles northeast of Rangoon.

Odessa's Mayor Challenges OPA

ODESSA — (AP) — Mayor A. J. Burks of Odessa in a proclamation climaxing a series of advertisements has sponsored against the Office of Price Administration Sunday appointed every property owner in Odessa city limits a special officer. A suit charging rent control violation was filed against Mayor Burks in Pecos Federal District Court June 20.

The mayor asserted in his proclamation "a dangerous condition has arisen in Odessa," and that he was appointing the property owners special officers, "to check any further confiscation of property without due process of law."

"No. 1 Enemy"

He said that upon being duly sworn in by him the property owners would have full authority to protect life and property at any and all times.

In his proclamation the mayor said "Odessa's and America's No. 1 enemy has been operating in Odessa for some two years and is a complete failure."

He asserted the OPA had "forced our dairies out of business, starved our children for want of milk, almost stopped raising of cattle and hogs x x x confiscated our homes, stopped any income from investments, x x x allowed all prices to rise beyond any reason except rents, x x x made it unsafe for a property owner to ask a renter to move."

Submarines Sink 11 Small Nip Warships As Forts Blast Cities

By LEONARD MILLIMAN
Associated Press War Editor

Japanese snipers tried again to get Gen. Douglas MacArthur when he joined Australian veterans Sunday in a third Borneo invasion, front dispatches disclosed Monday as nearly 600 fire-spilling Superforts struck the war's heaviest air blow against Japan and submarines claimed 11 more enemy ships.

A British submarine sank a 10,000-ton Japanese cruiser of the Haguro class in the Southwest Pacific. American submarines bagged 10 more—two small warcraft, six freighters and two tankers—running their wartime total to 1,163.

A record 4,000 tons of incendiaries scattered by B-29s set fires raging through four Japanese cities including Nippon's magnesium producing center and the Kure Naval Base.

General MacArthur personally directed the Sunday invasion of the Balikpapan oil area on Southeastern Borneo. Enemy snipers spotted him when he visited the most advanced positions and sent a hail of bullets singing around him. Combat troops ducked. The general remained erect, and unharmed.

Five thousand Aussies, by Japanese estimate, made the Balikpapan landing after the most elaborate naval and aerial preparation of the war.

Assault waves swept over abandoned enemy beach defenses, through accurate mortar and artillery fire and seized the last ridge before the blazing city of Balikpapan by mid-afternoon Sunday. The ridge was littered with enemy dead. Many Japanese were reported fleeing to the jungle.

The invasion, with previous landings May 1 off the Northeast Borneo coast, and June 10 at Brunei Bay on the northeast shores, gave the Aussies a three-cornered grip on the island. General MacArthur, who landed four hours after the first assault wave, said the Allies now had secured domination of all Borneo and had virtually completed tactical control of the Southwest Pacific. Brunei Bay and Balikpapan have good fuel, anchorages from which the Allied forces can continue inroads into almost any remaining sector of Japan's southern empire.

Elaborate invasion preparations paid off with light initial losses for the tank-led Seventh Australian Division. Air forces rained 3,500 tons of explosives on the area in a month, minesweepers spent 15

Successful War Bond Campaign Is Closed Here

The Mighty Seventh War Loan campaign ended in Midland with the county greatly over both its Series E and over-all quotas.

Midland County went almost three-quarters of a million dollars above its \$1,425,000 over-all quota with total sales of \$2,149,170.25 reported. The county probably has some unreported credits with the Federal Reserve Bank at Dallas, which likely will send the over-all total past the record \$2,300,000 registered in the Sixth War Loan campaign.

Met Huge Quota

Mayor A. N. Hendrickson, chairman of the highly successful campaign, predicted early in the campaign the most difficult task would be for the county to meet the huge \$600,000 Series E quota, but Midland County's smaller War Bond buyers demonstrated they were solidly behind the war effort by purchasing a total of \$681,307.25 Series E Bonds. The county probably will receive credit for more Series E purchases as some of the large company payroll deductions are cleared through the Federal Reserve Bank.

A total of \$30,074 worth of War Bonds was purchased in Midland Saturday, the last day of the campaign. Of the total \$19,200 was in Series E Bonds.

Finish Battle On FEPC Promised

WASHINGTON — (AP) — The fate of a projected House recess hung in the balance Monday as two embattled groups dug in for a finish fight over the Fair Employment Practice Committee.

"We'll stay here all summer if necessary to provide funds for P. E. P. C. to continue," said Representative Marchant (Am. Lab.-N.Y.) one of the more outspoken advocates of the agency originally created by President Roosevelt in an effort to prevent job discrimination because of race, creed or color.

"F. E. P. C. is dead and we intend to keep it that way," retorted Representative Colmer (D.-Miss), a leader of the Southern Democrats opposing the agency on the ground it would interfere with the South's own handling of its racial problems.

Ask Committee For Aid

Marchant and his group hoped to persuade the Rules Committee to approve procedure which would permit the House to act on a Senate-voted fund of \$250,000 for P. E. P. C. for the fiscal year which started Sunday.

The \$250,000 was a compromise—downward from \$445,000 that broke a four-day Senate deadlock.

But proponents were not optimistic over their chances in the Rules Committee, which repeatedly has turned thumbs down on legislation to make F. E. P. C. a permanent agency and to provide it with funds.

Should they lose in the Rules Committee, F. E. P. C. backers hope to be able to urge the Appropriations Committee to recommend acceptance of the Senate fund, or at least some part of it. The Appropriations Committee will receive the bill if the Rules group refuses to approve it.

Senate Confirms Byrnes' Nomination

WASHINGTON — (AP) — James F. Byrnes was confirmed unanimously by the Senate Monday as secretary of state, succeeding Edward R. Stettinius, Jr.

Action was taken in a matter of minutes after the nomination was received from the White House.

The Senate suspended its rules which require hearings on cabinet nominations and a day layover before a vote can be taken on such an appointment.

Confirmation placed Byrnes next in line for the presidency, under present statutes, should Truman not complete his term.

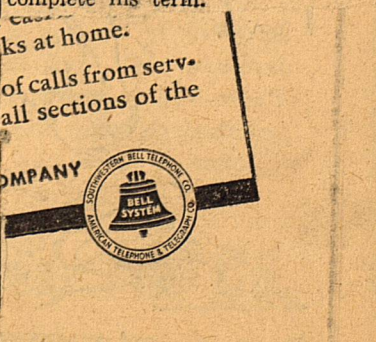

Byrnes is a native Kansan, and at home.

He has served in all sections of the government.

TRUMAN'S SIGNATURE

WASHINGTON — (AP) — President Truman's signature to a bill dramatically flown to him in Kansas City brought OPA safely through a fiscal year-end crisis.

The measure extending price and stabilization controls one year was signed into law shortly before their Saturday midnight expiration.

Postwar Air Preparedness

A committee of the National Planning Association has issued a clear and thoughtful interim report on recommended national policies for the reconversion and postwar development of the air craft industry—policies which, it might be added, are conspicuously lacking at present.

The report expresses concern over this lack, and recommended that legislation be enacted to enable this country to maintain an alert, modern and adequate postwar defense. As things stand now, military aircraft production will end with the end of hostilities, according to provisions of the War Mobilization and Reconversion Act.

"On V-Day," says the report, "we undoubtedly shall have the world's biggest and most modern air force, but it will be largely obsolete with respect not only to the most recent developments in conventional aircraft types, but also to developments in jet propulsion and other radical changes.

"The temptation to rely on the size and quality of our existing air forces, neglecting the means by which they were produced and by which alone their continued development can be assured, will be great in the inevitable period of letdown following the end of hostilities."

Speaking of the aircraft program now scheduled to end with V-J Day, the report states: "If this continues to be our national policy, there will be complete interruption of military procurement for an unpredictable length of time. The effect of this policy on aircraft manufacturing companies will be that few, if any, could keep their vital research, engineering, labor and management skills together."

The committee, of course, leaves determination of the size of our postwar air force to Congress, whose decisions will in turn rest on the success and requirements of the world security organization. But, insisting that we shall need an air force, it suggests that a useful life of military aircraft be estimated at four years, and that there be an annual 25 per cent replacement with new, superior planes in an air force of constant size.

It recommends further that the research program not be confined to the building of a few prototypes, but that it be combined with industrial activity, including exhaustive tests and the solution of production problems.

The report warns that there might not be another chance to get a "running start" on production by filling foreign orders, as happened in this war. It urges that we maintain an industrial nucleus capable of rapid expansion.

All this is sound thinking, not sword rattling. We shall certainly need an air force in the new league to keep the peace. We should have the best. So far Congress has done nothing about bringing that into being. We cannot afford to let our military aircraft production halt and die, as it did after 1918, and still contribute adequately to national and world defense.

Friendless Franco

The San Francisco Conference's disavowal of Falangist Spain was not one of the main events on the schedule, but it was one of the most significant and, to many of us, most pleasant happenings of the entire meeting.

Following the lead of Mexico, the 50 nations represented there joined in an unanimous decision that Francisco Franco could not lead his country in to the fraternity of the United Nations. Fascism, they told him in effect, is not only dead in Italy and Germany. Its founding child in Spain is completely discredited.

So now, while Dictator Franco cannot be said to be without a friend in the world, he can count those friends on one hand. They are not strong friends. They cannot lend him prestige, nor assist him in putting his still exhausted country on its economic feet again.

Whether this action in San Francisco will lead to a break in diplomatic relations by this and other countries remains to be seen. It seems to us that it should. We and the others have nothing to gain by a pretense of cordiality to the last Fascist government in Europe.

But one thing at least seems certain. The United Nations' sharp rebuke has deflated Franco's stock at home and all over the world. And it has taken a pull on the rope with which he seems destined to hang himself.

There would be fewer accidents if drivers would keep their eyes on the car behind the car in front of them.

liberation; to consider not only the words but the spirit of the document. Its objectives, he said, are clear:

"It seeks to prevent future wars.

"It seeks to settle international disputes by peaceful means and in conformity with principles of justice.

"It seeks to promote worldwide progress and better standards of living.

"It seeks to achieve universal respect for and observance of human rights and fundamental freedoms for all men and women—without distinction as to race, language or religion.

"It seeks to remove the economic and social causes of international conflict and unrest."

"I urge ratification. I urge prompt ratification."

Familiar Path
The President traveled a familiar path in his appearance in the Senate—this time as ambassador for the nations that want freedom from war.

Here in the ornate Senate chamber where he served 10 years, Truman had a dramatic date with history.

The President chose to deliver personally the treaty of San Francisco, the pact of 50 United Nations to outlaw war.

The Senate, eager to act on the treaty, dropped all other duties to accept the document from the Chief Executive.

His departure for Berlin and his first meeting with Prime Minister Churchill and Premier Stalin is imminent.

More than two-thirds of the senators already have lined up in favor of the charter, and not one has come out against it.

This situation is a far cry from the air of dissension and hostility which surrounded the Senate of 25 years ago when the Versailles Peace Treaty and the League of Nations were rejected.

U. S. ARMED FORCES GET OIL FROM BORNEO

WASHINGTON—(AP)—The U. S. armed forces already are receiving oil from the newly liberated island of Tarakan, off Borneo, and from the invaded Brunei area of Borneo, under reverse lend-lease from the Netherlands government, the Foreign Economic Administration announced Saturday.

Use cut-up celery tops to flavor steaks and soups.

Busy as a Little Bee

Helge Johnson, Joliet, Ill., had a honey of a job on his hands when he found a city ordinance provided a stinging fine of \$1 to \$10 for each day that each of his 400,000 bees were loose in the town. Equipped with a head net, Johnson is shown rounding up his colony for a bee-line shipment out of Joliet.

Machinery To Govern Beaten Germany Being Installed By Allies

By DON WHITEHEAD

FRANKFURT ON THE MAIN—

(AP)—The machinery under which the United States, Russia, Britain and France will govern beaten Germany—a job which is certain to show how far they can cooperate to solve one of the world's major problems is beginning to roll.

Already the four zones of occupation have been agreed upon and are being occupied. Ahead is the larger task of working out jointly the future of the bandit state, which, it is agreed must never be permitted to foment another war.

Officially this Allied government of Germany will become operative with the first formal meeting in Berlin of the control council, composed of commanders, Gen. Eisenhower, Marshal G. K. Zhukov, Field Marshal Montgomery and Gen. De Lattre De Tassigny.

No Date Set

No date has been set yet for this meeting but it is expected within the next few weeks. Correspondents assigned to cover the council have been waiting for days in Weimar but they were told delays had resulted from lack of housing in Berlin, lack of communications and the working out of final details.

It is intended that policies and government structure be uniform in all zones of occupation as decided by the control council and carried out by the council's coordinating committee of four.

At the top is the control council composed of the four commanders. Each of them has a representative on the coordinating committee and each committee member has his control staff of 12 divisions—transport; politics; economics; finance; reparations deliveries and restitution; army ground forces, air and navy; internal affairs; communications; legal; prisoners of war and displaced persons, and manpower.

Lt. Gen. Lucius D. Clay of Georgia, U. S. civil affairs administrator in occupied Germany, is Eisenhower's representative on the coordinating committee and is busy getting his divisional staff completed. The coordinating committee may hold its first meeting within the next month.

STRIKER GETS NEW JOB WITH TRANSIT COMPANY

DENISON—(P)—A city bus driver for the Texas Electric Railway Company, one of 400 employees who walked out in a labor dispute, has a new job.

He was hired Saturday as night watchman—by the Texas Electric Railway Company.

Miss Margaret Iden Becomes Bride Of Lt. Francis C. Dodd

Marriage vows were repeated by Miss Margaret Bernice Iden of Topeka, Kan., and Lt. Francis Conrad Dodd of the Midland Army Air Field Friday in the MAAF Chapel. Chaplain F. Orford performed the single ring ceremony.

Mrs. Robert T. C. Miller of Odessa was a witness at the wedding, and best man was Lt. Joseph A. Pilarsky of MAAF.

The bride was attired in a white linen dressmaker suit with which she wore a starch'd lace high crown cloche with black velvet trim. Her accessories were white and she carried a bouquet of salmon gladioli with white baby asters and salmon ribbon.

Mrs. Dodd is the daughter of Mr. and Mrs. J. B. Iden of Topeka. She is a graduate of Monett High School, Monett, Mo., and a member of Alpha Tau Phi.

A son of Mrs. Linda Dodd of Berkeley, Calif., Lieutenant Dodd attended St. Mary's College in California and graduated from Polytechnic College of Engineering in Oakland, Calif. He spent 13 months in the U. S. Army Air Forces in Italy and Switzerland. He wears the Air Medal and the ETO Ribbon with four stars.

SPECIAL POWDER BANISHES SHINE

By ALICIA HART
NEA Staff Writer

"What can you suggest for nose-shine that still gleams after you've tried all the usual aids?"

A doctor's chemist, to whom I put this reader's question, says a face powder containing a small percentage of sulphur would be the answer, provided Mrs. "X" doesn't have an allergy to sulphur.

To make sure that she doesn't—and you, too, if you want to use one of these specially formulated powders to blot up shine from an oily skin—try the powder out on a small area of your forehead before using it on your face. If there's no reaction after you make the patch test, a sulphur powder is safe to use. What's more, it will give you as much cosmetic flattery as any other face powder because it is available in as beguiling tints.

'Static' Will Remain With Army Air Force

BIGGS FIELD, EL PASO.—(P)—Cpl. Obadiah Curlee, 42, Army Air Forces electrician from Greensboro, N. C., is leaving the Army and his unit.

He decided not to take "static" (the pup) along when he is discharged because "static" habitually gravels at all strange civilians.

WOMEN '38 to '52' are embarrassed by HOT FLASHES?

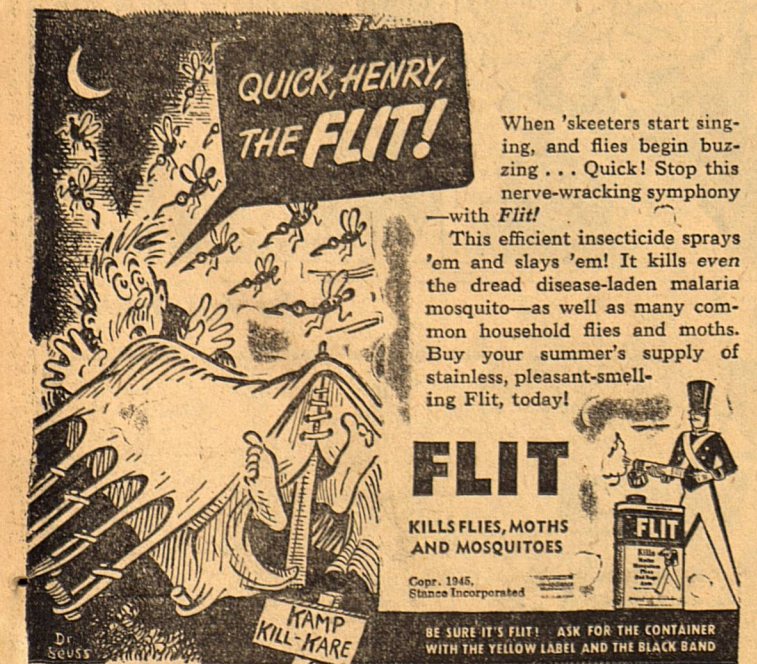

If you suffer from hot flashes, feel weak, nervous, highstrung, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Lydie E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound helps nature. It's one of the best known medicines for this purpose. Follow label directions.

Emily Jane Lamar Named Honoree At Coke Party Saturday

Miss Emily Jane Lamar who is leaving soon to make her home in Pasadena, Calif., was named honoree of a coke party Saturday afternoon. The entertainment, held at the home of Mrs. Bob Baker, 1109 West College, was given by girls of The Texas Company where Miss Lamar has been employed the past year.

The honoree was presented a lovely gift of lingerie.

Calling during the afternoon were Mrs. M. J. Rodgers, Elaine Leger, Dave Polen, Harold Draegkamp, Tom Fry, Jack Matthews, and Miss Charlotte Kimsey.

Coming Events

TUESDAY

A business and social meeting of the Wesley Bible Class of the First Methodist Church will be held at 7 p. m. in the Scharbauer Educational Building.

A meeting of the Ladies Club of Midland Army Air Field will be held at 1:30 p. m. at the Officers' Club.

Mrs. R. J. Rhorer will be hostess for a meeting of the MOW Club at 8 p. m.

The Gray Ladies will meet with Mrs. S. S. Stinson, 1608 Holloway, at 10 a. m.

WEDNESDAY

Spotters Group 4 will meet with Mrs. D. W. Ryan, 2001 West Texas, at 1:30 p. m.

THURSDAY

Miss La Maryll Wall of Odessa will broadcast on the Midland County Library program over KRLH at 4 p. m.

FRIDAY

The Ladies Golf Association will have lunch and play progressive bridge at 1 p. m. at the Midland Country Club. Reservations may be made by calling one of the hostesses, Mrs. Dave Goggins, Mrs. E. A. Culbertson, or Mrs. J. R. Gibbins.

SATURDAY

Children's movies will be shown in the courthouse basement at 2:30 p. m.

No Divorce Suits Filed During Week

Cupid won a complete victory in Midland last week. Five marriage licenses were issued during the week at the office of County Clerk Susie G. Noble, and not a divorce suit was filed with District Clerk Nettie Romer.

Tickets Go On Sale For JayCees' Dance

Tickets for the Midland Junior Chamber of Commerce's Fourth of July dance at 9 p. m. Wednesday in the air-conditioned Crystal Ballroom of the Scharbauer Hotel went on sale Monday at the Chamber of Commerce. By noon a number of tickets had been sold.

Cliff Bruner and his show boys will furnish music for the event. Clint Dunagan, well known JayCee and civic worker, has heard the Cliff Bruner orchestra and highly recommended the band to the Midland JayCees for their Fourth of July celebration.

Inquiries from nearby cities indicate a large out-of-town attendance for the event, Russell Howard, special entertainment chairman for the JayCees, said Monday.

The JayCee dance is the only special Fourth of July celebration event scheduled for Midland.

BILL SKEETER WINS MEDALIST HONORS

ABILENE.—(P)—Bill Skeeter of Dallas, defending champion, shot a three-under-par 67 Sunday for medalist honors in the 19th annual Abilene Country Club invitation golf tournament. Tied for second place with par 70's were Don Cherry of Wichita Falls, Chick Trout of Lubbock, T. M. Montgomery of San Angelo and Doug Jones of Abilene.

THE WAR TODAY

By DEWITT MacKENZIE
AP Foreign Affairs Analyst

General MacArthur's grand new victory in Borneo—this time in the amphibious invasion at the great oil port of Balikpapan on the east coast—is a double triumph.

As the general himself points out, by securing domination of Borneo the Allies have split the East Indies and virtually have completed their tactical control of the Southwest Pacific. That in itself is a notable achievement, but it's far from the whole story.

The oil wells of Borneo produce large quantities of petroleum so sure that it can be used for fuel, lubrication and diesel power without refining. The conquest of Borneo thus will give us a badly needed oil base right in the heart of the operations against Japan.

Japs Dependent on Reserves
Borneo had, of course, been Japan's principal source of oil until our blockade severed her communications. Since then she has been largely dependent on her reserves. The petroleum of Borneo, Sumatra and Java for some time has been to them like Midas' gold—worthless.

We salute our Australian Allies in this Borneo show. It was Seventh Division Aussies who surged ashore at Balikpapan, just as it was "diggers" who made the landings at Tarakan, on the northeast coast of Borneo, May 1, and at Brunai Bay, on the northwest coast, June 10. Balikpapan was heavily defended but the most intensive pre-invasion bombardment ever made in the Southwest Pacific softened the Jap resistance so that Allied casualties thus far reported have been light.

General Sibert Is Too Busy To Attend Son's Graduation

WIESBADEN, GERMANY.—(P)—One of the generals who did not get home to see his son graduate from West Point this year was Brig. Gen. Edwin Luther Sibert, Chief of the G-2 section of the 12th Army Group.

This son, William C. Sibert, and the sons of about 40 other generals became second lieutenants in the U. S. Army June 5. Lieutenant Sibert hopes to be sent to the China-Burma-India theater.

Young Sibert has something of a stranglehold on West Point's tradition for in addition to himself he has a cousin, an uncle, a father, two grandfathers and one great grandfather who were graduated from there. The rebel of the family was his older brother, Edwin Luther Jr., who chose the Naval Academy and now is on a destroyer in the Pacific.

Cousin Battles Japs
Lieutenant Sibert's cousin is Franklin R. Sibert who commanded a battalion in the Huertgen forest before transferring to the Pacific to command a battalion against the Japanese.

His uncle is Maj. Gen. Franklin C. Sibert, commanding general of the 10th Corps in the Philippines. When all the Army group commands disappear in the next few weeks, Brig. Gen. Sibert will assume charge of the over-all G-2 section for the American Forces Headquarters.

This calls for some reorganization. With Germany destroyed, the job becomes more of an FBI affair with the primary function that of de-Nazifying the country.

Consequently Brig. Gen. Sibert is getting ready for a long stay in Germany. It will be nice, he thinks, if the Army permits families to come over.

TEST SUN GLASSES FOR FLAWS FIRST

By ALICIA HART
NEA Staff Writer

Best coat to choose for sun glass lenses—if you're casting about for anti-glare shields to keep sparklers safe—is green, the tint that is oculists' first choice because it best preserves natural color values.

After many tests, green became the Army's and Navy's choice for GI's who need protection against both infra red (heat) and ultra violet (light) rays.

When your mind's worry is light and not heat from the sun, gray in any one of the shades offered might be a very satisfactory choice of color for your sun glass lenses.

Sun glasses, of course, should be flaw-proof to keep your vision from being obstructed by waves, seed, air bubbles, scratches or uneven coloring. Of the two ways to make sure that lenses are unflawed, one is to buy from a dependable optical shop. The other guarantee is a label on your glasses certifying that lenses are essentially free of the above-named defects.

PROMOTION WON BY R. L. BARR IN NAVY

U. S. NAVAL AIR STATION, HILLO, HAWAII.—Raymond Lankard Barr, husband of Mrs. Eunice Marie Barr of Midland, has been advanced to the rating of painter third class, the Navy Department announced.

Barr received his advancement after completing a course of study prescribed for the new rating.

STATE REVENUE INCREASES

AUSTIN.—(P)—The State Treasurer Saturday announced a total of \$2,207,055 in stamp tax revenue for June of this year, which compares with \$1,829,373 for last June and \$1,877,545 for May 1945.

Guam Soap Factory Resumes Operations After Japs Defeated

By ROBBIN COONS
GUAM.—(P)—A day or so after Guam was recaptured from the Japanese a year ago, Josef Martinez Ada went down to the beach by shell-shattered Agaña town.

All that was left of the \$24,000 modern soap factory that had once been his was there. The broken walls, the rusty machines were part of a scene of desolation; for Agaña, long mellowed to beauty by sun and rain, was now just another war-made shambles.

American warships' guns had pounded Josef's factory as impartially as they had decapitated most of the palm trees on his beach. But Josef was not sad. Almost from childhood he had had his share of Japanese "co-prosperity" and he was happy to see it end.

Makes Soap Again
This day when he came back down from the hills Josef came back to his factory's wreckage and began making soap again. Just one or two crude bars, but soap. American Government found him there, and so.

Josef Martinez Ada, private entrepreneur, is back in his old business, keeping clean the bright-flowered clothing and the bright olive faces of Guamanians.

Under government auspices, Ada and his scores of native helpers—acconut pickers and driers—produced 5,913 pounds of soap in May, a jump from 1,900 pounds in March, which was quite a jump from those first crude bars. Soon, Ada and AMG hope, they will produce enough to keep all Guam clean and supply part of service needs.

Utah's Governor Says Federal Regulations To Become Unpopular

MACKINAC ISLAND, MICH.—(P)—Sounding the keynote of the 37th annual governors' conference, Gov. Herbert B. Maw of Utah declared Monday that the American public does not want federal regulation of its life when peace comes.

Maw, chairman of the conference, led off a half dozen speeches which dwell primarily with the asserted competency of the states to cope with postwar reconversion and other problems—always with the note that the federal government should help but not direct this activity.

New Stamp Issues Expected Here Soon

The new Roosevelt and Two Jima postage stamps are expected to be on sale at the Midland Postoffice soon, N. C. Oats, acting postmaster, said Monday.

Cates said he had ordered the new issues and expected them to arrive any time. Numerous inquiries have been received at the Postoffice concerning the stamps. The Two Jima stamp will have a reproduction of the famous and graphic Associated Press picture of the flag raising.

Agreement Reached On War Leaders' Trial

LONDON.—(P)—A responsible informant said Monday that the four major western powers had reached general agreement on the American plan for a collective trial of German war leaders before an international military tribunal.

WONDERFUL RELIEF From Bladder Irritations!

Famous doctor's discovery acts on the kidneys to increase urine and relieve painful bladder irritations caused by excess acidity in the urine

SOUTHWESTERN BELL TELEPHONE COMPANY

We Flew Without Guns

This is a true story of the men who fly the "hump"—carry the passengers and cargo over the high Himalayas between India and China. Pilots call it the roughest airline route in the world.

UNSUSPECTED TREASURE XIX

THE day after we wired Bond I met Tony Mercide in Kuning. He was upset at the thought of our leaving so soon. "Hell," he said, "I'm going to be here another month. My contract was up a long time ago, but I agreed to stay on until summer." He broke off abruptly and snapped his fingers. "Listen: how about another hunting trip before you go? I'll get hold of Vince in Calcutta tomorrow or the next day and make the arrangements, and we can spend a few days up in Tongsa. Maybe we'll get a leopard or a tiger or something. And you and Gingsiss can hang around Calcutta for a week or two after that, and by then I'll be ready to go back to the States with you."

I agreed for both Gingsiss and myself. Three days later Tony hopped out of an Army transport at Dinjan and announced that everything was set. Elephants and guides and all the paraphernalia for the safari would be ready for us at the Maharajah's lodge within two days.

As a vacation and a complete change from flying transports over the hump, that hunting expedition turned out to be just the thing. We even found something to take the place of oxygen. (The only pity was that it had to be the Great White Trader's favorite brand of Scotch.) But as a game-bagging proposition, the trip was pretty much a bust. It was until the last day, that is.

TONY was on the leading elephant, Gingsiss rode the second

and I followed up the rear as we moved slowly along the jungle trail.

We were passing through a kind of glen formed by lumpy, moss-covered rocks and overhanging trees that sprang up and behind them, when I heard the soft crackling of twigs underfoot of a habitant of the jungle. It seemed to come from very near the trail and a little off to the left. I decided to investigate. Without making the mistake Gingsiss had made when he spotted his over-age tiger, I said absolutely nothing out of the chair and slid off the elephant's back. I landed upright in the tall grass with surprisingly little noise and took about two short steps forward. Crouching low in that position for at least three or four minutes, I decided it must have been my imagination and was just about to throw the rifle over my shoulder when my Number One Boy to my left let out a scream, "Sahib! Sahib!"

I flinched and pulled my gun around at the same time—just to see the boy's spear flash through the air toward a point a little above and in back of me. I shot a glance toward the low branches of the heavy jungle oak, and there she was—130 pounds of leopard, claws unsheathed and ready to spring—less than six feet away with nothing between us but the clearest kind of space—when I fired. She was in the air when the bullet struck; I could see it jerk her head back. Almost at the same time there was a sharp crack from Tony's gun. He had crept behind me. And then the huge beast crashed at my feet—lifeless.

GINGSISS, Tony and I were examining the leopard when I heard, directly behind me, a mewling sound like that of a small kitten.

ten, and yet it had had a slight growl. I grabbed my gun, cocking it at the same time, ready for action. The native boys had already raised their spears, poised for the kill—but nothing happened. We waited that way for fully a couple of minutes when the sound was repeated. This time it was louder and I could tell it came from an animal; however, I forged steadily forward and under the thick vine-like growth for about five or six yards, half on my stomach, half on my hands and knees. I was about to give it up as a false alarm when I noticed just ahead of me a cave-like opening. I pushed aside the branches and foliage and there in a pocket of a huge gray rock sprawled three baby leopards, sound asleep.

They were within six feet of where I stood, and my first feeling was one of bitter disappointment. I didn't have my camera. I was cursing softly to myself when I realized I was out hunting leopards—that's why I was here in the jungle—and practically within my very grasp were three of the finest prizes a man could possibly find; evidently the cubs of the mother I had just killed in self-defense. . . .

I HAD my rifle in my hand but, knowing I wouldn't need it for these kittens, I laid it down and signaled for Gingsiss and Tony to come near. I figured we would each of us creep up very quietly and grab one of them. The native boys knew something was up by this time and they circled back to see what it was. Just as they arrived I sprang into the cave and caught one of the cubs in my hands. The other two let out yips and tried to scramble out of reach, but Gingsiss and Tony had followed my example, and in a matter of a few seconds we were standing in a group, panting and laughing, each of us with a startled and shivering baby leopard in our arms.

(To Be Continued)

Government Operates Texas Company Plant Following Walkout

PORT ARTHUR —(P)—The Texas Company refinery here was operating under government supervision Monday following an order by President Truman designed to end a walkout of 250 negro employees.

One of the nation's greatest producers of 100-octane gasoline and Navy fuel, the 5,000-worker plant was taken over Sunday by A. P. Frame, director of refining for the Petroleum Administration for War, and Harry King, his assistant.

Frank L. Wallace, manager, continues to run the refinery under supervision of the PAW. William H. Davis, director of economic stabilization, recommended seizure. In a statement he said 50,000 barrels of the refinery's daily output of 135,000 barrels of oil products are assigned directly to military needs.

22 Negro Employees Suspended The work stoppage followed suspension of 22 negro employees last Wednesday. A union official said it was caused by "racial discrimination as to pay."

In New York, M. Halpern, vice-president in charge of refining for The Texas Company, said the Presidential action was "the result of the violation by certain employees of their obligations under the contract between the company and the Oil Workers International Union, Local 23 (CIO)."

It was the second refinery in Texas to be taken over by PAW in less than a month's time. June 22, the Humble Oil and Refining Company's refinery at Ingleside was seized.

Russians and Poles engaged in forced labor in Germany were forbidden to go to church by their captors.

McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY America's Card Authority

Recently I wrote a series of articles on some of the old-line whist and bridge, and I received numerous letters asking me why I did not include certain old-timers. Well, of course, I could not get them all in the series, but the letters brought back some pleasant memories.

My old friend, Carl T. Robertson, Cleveland, O., did not take

A 104 765 A9854 65

kindly to contract. However when he did accept it, he had no patience with approach bids. He bid no trump at every opportunity. Here is a typical Carl Robertson hand.

The opening lead was won with ace of diamonds and a diamond returned, which Carl won. He now played a spade, and North won with thace. Back came the diamond, and Carl now cashed his three good spades and, when Smith let go a heart, he brought in four hearts which gave him his contract.

Army Assignments Kept Kansas Citian Busy

KANSAS CITY —(P)—Drill, KP, and others sundry tasks at his army camp near Greenville, S. C., kept Pfc. Paul Vatschow Miller, 22, from reading his hometown newspapers. When the unread paper filled all available duffel bags and were stacked by his bed, inspection officers and his buddies began to complain.

To ease the situation, he offered the papers to the Greenville Public Library, the Greenville county Courthouse, and a Greenville business concern. No luck. Finally, as a last resort, he offered them to the paper salvage drive and the offer was accepted. The papers weighed 400 pounds.

WAR WORKER IS KILLED IN BLAST

BRIDGEPORT, CONN. —(P)—An explosion which rocked the four-story Aluminum Company of America's south end plant, and centered in the magnesium room Saturday killed one war worker and injured at least eight others, four critically.

Bitter Dose for Japs

Gen. Douglas MacArthur has appointed Gen. Joseph W. (Vinegar Joe) Stilwell to be commander of the American 10th Army on Okinawa, succeeding the late Lt. Gen. Simon Bolivar Buckner, Jr. In this newly received picture, Stilwell is shown (right) wearing old Army campaign hat as he inspects an operations map with Lt. Col. Albert V. Hartl on Okinawa.

Guerrilla Editor Returns To Fight

SAN FRANCISCO (AP)—A 29-year-old Filipino who suffered Japanese torture and risked his life to spread the news of General MacArthur's advance toward the Philippines now is getting ready to go home to carry on the fight for "a square deal for our people."

He is Manuel Manahan and has been here from the outset of the world security conference, reporting for a pool of some 13 newspapers now operating on a very limited scale in the liberated parts of the islands.

A tall, good looking youth, Manahan did espionage work during the Japanese invasion and after Bataan fell, he helped publish the Liberator, a small monthly newspaper that told the story of America's war effort and exposed Filipino collaborators.

Arrested by Japs The Japanese arrested him, his father and five whom he used regularly behind the enemy lines to spy on Japanese troop and supply movements.

The Japanese slapped his face with a .45 revolver, cracked his skull, broke his arm, and threw acid on him in a vain attempt to make his "squel" on other members of his group. After seven months' imprisonment in Fort Santiago, he was released. He shrank in weight from 187 to 101 pounds.

Shortly afterwards, Manahan met a guerrilla leader, Capt. Benedicto Valenzona in Manila and the two laid their plans. With a duplicating machine, an unregistered short-wave radio and about 20 or 30 native newsmen they began publishing the Liberator.

Skyrocket Fleet Flying Boys Home

By HARRY GRAYSON NEA Staff Correspondent

CASABLANCA —Cazes Field, the first objective captured by American troops where they stormed the North African beaches, Nov. 7, 1942, is now the busiest air base in the world. In addition to its normal business of shuttling precious cargo and passengers to Europe and the China-Burma-India theater, the North African Division of the Air Transport Command has undertaken to fly home 600,000 veterans from the European and Mediterranean theaters.

Thus historic Casablanca becomes the hub of the greatest air movement of troops in history.

There are two good reasons for this speed and the need elsewhere for shipping. The return of 600,000 veterans by air in a year will save more than 600 crossings of the Atlantic by Liberty ships. The Army Air Forces have the planes and night just as well use them. The air-borne redeployment movement is geared to increase acceleration until 40,000 troops monthly will be shuttled through Casablanca. The overall operation will move 50,000 troops by air monthly, the remainder leaving direct from Paris and Prestwick, Scotland.

The first group of war-weary ground force veterans quickly tagged the operation "The Skyrocket Home," and are tickled. The "Skyrocket Fleet" is being increased until 100 of the 40-passenger C-54's will be carrying troops in August.

Hank Greenberg Makes Impressive Return To Game

By JOE REICHLER
Associated Press Sports Writer

Hank Greenberg's impressive return to baseball indicated Monday that former major league stars now in service may be as good as ever when they come back to the game.

The cynosure of former diamond heroes who are afraid a long lay-off will endanger their baseball careers, the 34-year-old Greenberg demonstrated Sunday that four years in the service have not dimmed his batting eye, by smashing a home run for Detroit before 47,729 encouraging rooters.

The round tripper, the 250th of his major league career and his 1,300th hit, helped the Tigers sweep a doubleheader from Philadelphia's Athletics 9-5 and 5-3. The final results extended the Mackmen's losing streak to 13 straight and increased the Tigers' first-place lead to three and a half games over the New York Yankees, who lost twice to the Chicago White Sox.

Holmes Gets Three Homers

Greenberg's auspicious comeback debut stole the spotlight from Boston's Tommy Holmes, whose three homers, two in the nightcap, helped the Braves win from the world champion St. Louis Cardinals 6-3 and 8-7.

Brooklyn increased its first-place lead in the National League to four and a half games over the Redbirds by dividing with Pittsburgh, the Pirates winning the first 4-3 and the Dodgers taking the second 4-2.

A pair of big Chisox innings ruined the Yankees, 11-4 and 6-5. The double triumph moved the Sox into the first division ahead of Washington.

Van Mungo Wins

The New York Giants and Chicago Cubs split. After Van Mungo gained his ninth triumph in the opener for the Giants, 7-4, the Cubs won the second game behind Hank Wyse, 4-3.

Dave Ferriss gained his twelfth victory against two defeats in the twin bill between the Boston Red Sox and the St. Louis Browns. The American League champions won the opener 7-3 behind Bob Muncie. In the nightcap, a 5-run rally in the ninth won the Red Sox sensation, 7-4.

Manager Lou Boudreau's ninth-inning homer with one on gave Cleveland a 6-5 nightcap win over Washington, reversing the score of the first game. Dutch Leonard won his eighth in the opener at the expense of veteran Mel Harder, making his 1945 debut with the Indians.

Philadelphia's Phillies surprised Cincinnati's Reds by sweeping a pair 3-2 and 8-6.

Papousek Captures High Bowling Score

Lt. Charles Papousek rolled a 214 last week to capture the men's high score in Midland for bowling while Lt. Dan Markley was not far behind with a 242. Joe Truelove came in third with 237, and Lt. J. W. Cornwell was fourth with 209.

Betty Hendrix was high for the women with a 176, and Juanita Lewis placed second with 175.

Standings

Teams	Won	Lost	Pct.
Brooklyn	41	25	.621
St. Louis	36	29	.554
New York	37	31	.544
Chicago	33	28	.541
Pittsburgh	34	31	.523
Boston	32	31	.503
Cincinnati	28	33	.459
Philadelphia	19	52	.268

Teams	Won	Lost	Pct.
Detroit	41	25	.619
New York	35	27	.563
Boston	33	28	.541
Chicago	34	30	.531
Washington	32	30	.516
St. Louis	27	32	.458
Cleveland	27	34	.443
Philadelphia	20	42	.323

SUNDAY'S RESULTS
American League
Detroit 9-5, Philadelphia 5-3.
Chicago 11-6, New York 4-5.
St. Louis 7-4, Boston 3-7.
Washington 6-5, Cleveland 5-6.

National League
Boston 6-8, St. Louis 3-7.
Pittsburgh 4-2, Brooklyn 3-4.
New York 7-3, Chicago 4-4.
Philadelphia 3-8, Cincinnati 2-6.

Shown Fine Form

Lee Harney, University of Wisconsin co-ed, showed championship form in more ways than one pitching no-hit, no-run, 4-0 victory for the Kenosha, Wis., Comets over the Daisies of Fort Wayne, Ind., in All-American Girls' Pro Ball League, now in its third season.

Nelson Wins Chicago Tourney

CHICAGO —(P)—They'd better batten down the hatches for the national championships of the Professional Golfers' Association of America at Dayton, Ohio, a week from Monday, because Mr. Golf is really on a rampage.

That would be Byron Nelson, who grabbed top money in the \$10,000 Chicago Victory National Open. His surgeon-like precision carved the Calumet Country Club course into a 13-under-par aggregate of 275.

In taking the \$2,000 (War Bond value) first prize which gave him more than \$28,500 for the current year's golfing, Lord Byron did just what everybody expected, finishing seven strokes ahead of a 42-player field.

Nelson Sunday exploded for a six-under-par 138 on the closing 36 holes and left a dazed defending champion, Harold (Jug) McSpaden of Sanford, Me., and hard-trying Ky Laffoon of Chicago, deadlocked for second place with a 282 aggregate.

Getting away from the statistical phase of Nelson's triumph, his seventh straight in major individual competition—it may be recorded as the king of the fairways is eagerly awaiting the P.G.A. fray at Dayton.

"I feel fine and hope to give the boys a run for their money down there," he declared, explaining that a back sprain which he suffered Saturday in a drying contest "healed mighty quick" when he squelched a Chicago Victory Open jinx.

Hugh Mulcahy Will Return To Baseball

EIGHTH ARMY HEADQUARTERS, PHILIPPINES—(P)—Hugh Mulcahy, workhouse pitcher for the Philadelphia Phillies and the first major leaguer to enter the armed services, is on his way back to Baker Field and the big leagues.

The veteran hurler from West Newton, Mass., is a master sergeant in the Eighth Army Special Service Section. Since he enlisted March 9, 1941, he has amassed enough points for his trip home under the Army's discharge program.

And just to do the thing up right, Lt. Gen. Robert L. Eichelberger, Eighth Army commander, pinned a Bronze Star on the big ballplayer just before he left.

AMARILLO LAUNCHED
WILMINGTON, CALIF. —(P)—The 10,500-ton Victory ship Amarillo was launched by the California Shipbuilding Corporation Sunday in the presence of Joe Jenkins, mayor of Amarillo, Texas, and his wife and son.

Wildcat -

(Continued from Page 1)
below 5,860 feet in lime and shale. Unofficial sources indicate the test has likely gone through the Permian, and it is probably in the Simpson, upper Ordovician.

Terry Completion

The first official completion of an oil well in the Alexander area of Northwest Terry County, has been reported.

Texas Pacific Coal & Oil Company No. 1 Nannie Mae Williams, a direct north offset to the discovery well of the region—Fikes & Murchison No. 1 Alexander, which has never reported official potential gauge to the Railroad Commission, after testing for around 100 barrels per day on the pump—made 95.07 barrels of 30.2 gravity oil, plus 19.47 barrels of basic sediment and water, in a full 24-hour pumping test.

The pay section at 5,120-45 feet had been treated with 2,000 gallons and 5,000 gallons of acid. Location is 540 feet from west and 670 feet from south lines of section 13, block K, psl survey.

Applications to drill wildcat tests to the Ellenburger in Irion, Crockett and Concho Counties have been filed in the San Angelo district office of the Railroad Commission.

New Test In Irion

John I. Moore, Midland, is to start at once on No. 1 Elita T. Murphy, in South-Central Irion County. It is to dig to around 8,500 feet for the lower Ordovician.

Location is 690 feet out of north-west corner of section 1227, GC&SF survey. It is one mile west of Noelke Switch on the Santa Fe railway and 11 miles southwest of Mertzon.

It will be 12 miles west and slightly north of Shell Oil Company, Inc., No. 2 Tankersley, now testing shows of oil in the lower Pennsylvania.

Another Prospect

McCre Exploration Company, Midland, No. 3-C Half estate, 515 feet from north and 4,895 feet from east lines of section 69, block 1, L&N survey, in West Crockett County, about seven miles southeast of Iraan is to be a wildcat to around 7,500 feet for a look at the Ellenburger. It will start making hole shortly.

Wildcat In Concho

In Southwest Concho County, Elmer, in Abilene, is to drill No. 1 E. L. Martin, located 330 feet out of northeast corner of section 6, Wm. Hughes survey, to 4,500 feet, or about 300 feet into the Ellenburger.

Rhodes Drilling Company, Abilene, is moving in rotary to do the work. It is at about the center of a 10,400 acre block. The new exploration is approximately three and one-half miles northwest of nearest gas well in the Eden field.

Union Oil Company of California No. 1-C Heiner, North-Central Pecos County Ellenburger exploration, had made hole under 5,119 feet, in lime, and was going ahead. Making "Fill-Up" Test

Continental Oil Company No. 1-D Settles, South Howard County exploration, in section 133, block 29, W&NW survey, was making a test to determine rate of fill-up.

During the 24-hour period of Saturday the well swabbed eight hours and recovered 10 barrels of fluid—cut ten per cent drilling mud—the remainder was oil.

It was shut in Sunday morning for a 24-hour period and operator was in the hole with swab Monday morning to check for top of fluid.

Jones & Ernest No. 1 Mowry, Hudspeth County wildcat, in section 36, block 70, TP survey, T-2-S, had progressed below 2,955 feet in cherty lime, and was going ahead with about 3,500 feet of fresh water in the hole.

Reaming Hole

Frederick Petroleum Company No. 1 Corning, Presidio County exploration in section 102, block 4, H&TC survey, was reported to be bottomed at 4,230 feet in lime, under-reaming 7-inch casing at 4,000 feet. The hole was full of water.

Humble Oil & Refining Company No. 1 Gresham, in section 2, Indian survey, in Central-East Upton County, one mile west of same owner's No. 1 Parrott, an indicator of some sort of production in the lower Permian from above 9,943 feet, was on total depth of 9,550 feet in shale and lime, and was preparing to run 7 1/2-inch casing before drilling further.

Two Pecos County explorations filed applications to plug and abandon as dry.

Two In Pecos D & A

Georges Carpentier Declares Dempsey Had 'Everything'

PARIS —(P)—Georges Carpentier, one of the most famous French sports figures ever to visit America, looked down and slowly clenched the right fist he broke on Jack Dempsey's chin in their famous boxing match 24 years ago Monday.

"I couldn't have beaten him anyway," he said looking sentimentally at the big lump across the back of his hand. Dempsey won by a knockout in the fourth round.

"I hit him with everything I had in that second round. I broke my hand, but you don't make excuses when you're fighting for the championship."

"I couldn't have beaten him anyway. He had everything. He could hit, he could box, and he could take it. Some of your boys say Joe Louis can hit harder. I don't know but Dempsey was the greatest fighter I've ever seen in a ring."

Japanese Lose Richest Oil Fields

MANILA —(P)—Invasion of the Southeast Borneo area of Balikpapan by Australian troops regains from Japanese control the richest oil fields of the East Indies.

It was upon this oil sources that the Japanese had hoped to build their Asiatic conquest, expecting that area to supply the fuel for their war machine.

Estimates of production in the Balikpapan fields vary, but it runs to many millions of barrels of crude oil annually. Gen. Douglas MacArthur said 15,000,000. This oil is so pure it can be used as ship fuel without refining.

In addition, Dutch-built refineries had a daily output of 35,000 barrels of oil and 7,400 barrels of gasoline.

Army Transport Plane Crashes

OLTON, TEX. —(P)—An Army transport plane crashed Sunday about ten miles west of Olton, in Lamb County. There were reports that at least five persons were killed.

DR. HAL P. BYBEE CHECKS UNIVERSITY PROPERTIES
Dr. Hal P. Bybee, of Austin, geologist in charge of the University of Texas Lands, is here for several days of checking with Berie R. Haigh, head of the Midland office of the University, on various properties of the institution in the West Texas region.

INTERNATIONAL ZONE IN TANGIER TO BE RESTORED
WASHINGTON —(P)—Strategic Tangier, seized by Spain in 1940, is going to be restored to its former international status.

When Britain, the United States and France decide how they intend to accomplish this, they will inform Spain.

That is the gist of a State Department announcement Monday bluntly recalled that on June 14, 1940, Spanish military forces "by unilateral decision" occupied Tangier to preserve its "neutrality."

The department repeatedly has stated its dislike for single nation decisions on such matters.

survey, 10 miles northwest of Iraan, was dry of oil, but had a hole full of sulphur water on total depth of 1,514 feet.

Senate Oil Company No. 2 Frank A. Ferry, in west extension of the Yates field, eight miles southwest of Iraan, completed Feb. 24 for a small amount of oil, over total depth of 1,926 feet in lime, has been abandoned after developing water.

Government Slips Reconversion Plan Into High Gear

WASHINGTON —(P)—The government slipped its reconversion program into high gear Monday. Consumers, however, must wait months—at least—before most long-hauling household appliances return in quantity to stores.

The War Production Board released a "free" supply of metal for civilian goods, the amount depending on what is left over from war demands. It also began a gradual scrapping of the next half-year of its priority system for all but munitions items.

Yet electric and gas refrigerators, for instance, will not reach stores until September or October, and then probably "demonstrator" models.

In other words, housewives will be able to see the new machines and enroll their names on dealers' lists of buyers. In most cases, however, the customer will be far down the list—many purchasers already have ordered sight unseen. This is the conclusion from an informal survey of government and trade sources.

Moreover, these officials believe it will be the middle of 1946 before refrigerators are freely available for "walk-in" buyers.

Crippled Destroyer Arrives In Frisco

SAN FRANCISCO —(P)—A great rent gap in her hull, 15 of her enlisted men are dead and 30 wounded, but the destroyer USS Ingraham will split the seas again with her trim nose for another crack at the Japanese.

The 2,200-ton "tin can," now in drydock for repairs at Hunter's Point, San Francisco, survived a direct hit by a Japanese kamikaze plane early in May north of Okinawa and came home under her own power, the 12th naval district announced Monday.

Before receiving this almost mortal wound the Ingraham had taken a heavy toll. She was instrumental in sinking three enemy vessels, and destroyed six of the seven suicide planes which chose her as their target in the flaming fury of a dawn attack by 70 to 80 Japanese aircraft of all types.

The destroyer Morrison was struck and badly damaged.

Conduct Rites For Mrs. Mattie Storey

Funeral services were held Saturday evening in the Ellis Funeral Home Chapel for Mrs. Mattie Storey, 73, with the Rev. A. W. Smith, pastor of the Calvary Baptist Church, officiating. Interment was in the Stanton cemetery.

Mrs. Storey died Friday at the home of a daughter, Mrs. Charles Williams, at Germania.

Surviving are five daughters, Mrs. Williams, Mrs. G. W. Eason of Big Spring, Mrs. B. G. Kischel of San Antonio, Mrs. W. R. Sken of Midland and Mrs. C. A. Boush of San Antonio; a son, Frank Storey of Crystal City; nine grandchildren, and five great-grandchildren.

Pacific -

(Continued on page 6)
days clearing a channel to the invasion beach, and swimmers worked six days clearing out underwater obstacles.

Another Landing Reported
The landing was immediately north of Balikpapan, greatest oil center in the Dutch East Indies. Tokyo said another landing was made 31 miles farther north.

Another unconfirmed enemy report said "about 100 American directed Chinese junks" unsuccessfully attempted to invade the East China port of Amoy last Wednesday. Amoy is west of Formosa, not quite midway between the Chinese-held Wenchow island sector and the south coast island of Weichow seized by Chinese late last week.

Japanese admitted roaring fires were started by Monday's early morning B-29 fire raid. Waves of Superforts, which Tokyo said were over Japan for five hours, rained 4,000 tons of incendiaries on:

Kure, largest naval base and shipyard on the inland sea; Ube, major coal center and Nippon's greatest magnesium producing center; Shimomoseki, rail bottleneck at the western entrance to the inland sea; and Kumamoto, industrial city on Western Kyushu Island.

The Waterfront Is Aflame
Returning airmen said the entire Ube waterfront was aflame. Clouds obscured results in other areas, but Tokyo said great fires raged from five to seven hours in Kure, Shimomoseki and the neighboring industrial city of Moji which was not listed as a target. Some damage to Kure naval facilities, an unusual Japanese admission, was conceded.

Other Superforts were reported busy on mine-laying missions. Allied commanders announced that smaller bombers and fighters sank seven Japanese ships, damaged 19, raked four homeland air bases, crippled the Mako naval base off the China coast, and blew up an oil refinery on Formosa.

Chinese troops reported they had penetrated Indo-China, capturing three towns, one of which was promptly lost to a Japanese counter-attack.

Jap Losses Mount
Only mop-up operations were reported from the Philippines and Okinawa. But in the Philippines, Japanese losses mounted to 419,033, including 9,774 prisoners, some of whom predicted Japan would surrender next month.

By contrast American losses in the Philippine campaign were placed at 11,715 killed and 1,131 missing. Perhaps the most unusual group surrenders of the war were reported from four Japanese-held Marshall Islands. Adm. Chester W. Nimitz announced 313 surrendering Nipponese were taken off Wotje, Maloelap, Mille and Jaluit atolls by U. S. ships while removing 1,500 natives.

Further Proof
Conquest of Okinawa was described by Gen. Joseph W. Stilwell, new commander of the U. S. Tenth Army, as further proof "that the Jap has no chance against Americans."

Aside from mopping up operations, three American armies—the sixth, eighth and tenth—have been freed for further conquests by the official end of the Okinawa and Philippines campaigns. "Mopping up" is an expression for more fighting.
