20 Lives Lost In North Sea Gale Accident

Gaping Hole Ripped In Britain's New Atomic-Age Craft

(By The United Press)

ROSYTH, Scotland, Oct. 18 — A heavily-laden coastal freighter tore a gaping hole in Britain's new atomic age aircraft carrier Albion in a North Sea collision early today and sank almost immediately with a loss of 20 and perhaps 21 lives.

Three of the 24 crewmen aboard the 2,025-ton British freighter Maystone were rescued by the Albion, which was under tow when hit. A radio message from a vessel said a fourth survivor also had been picked up, but coast guards said this could not be confirmed.

Launched In May

The collision opened a deep gash in the stern of the Albion and the carrier, so new she was not yet in commission, was reported in danger of sinking.

Some seven hours after the accident the Albion radioed that she was sipping water through the hole in her stern and might need further assistance.

Three tugs, which were towing the warship to Rosyth from the River Tyne in northeast England, began moving the damaged carrier into shallow water in St. Abbs bay in southern Scotland.

The Albion, rumored to be one of Britain's hush-hush atomic age carriers, was laid down in 1944 and launched only last May by Mrs. Clement Attlee, wife of the prime minister.

Gale Blowing

The Maystone, a 2,025-ton freighter loaded with 2,600 tons of coal from Scotland, was steaming for London with a crew of 24 aboard.

A brief message from the Albion indicated the Maystone sank immediately after colliding with the Albion on the port (left) side near the propellors.

The collision occurred at 5 a. m. during a southerly gale five miles north of Longstone light on Farne island off the Northumberland coast.

At the time of the crash the Albion was manned by a civilian crew whose main duties were to tend the towlines.

Although launched only last May, the Albion was completed in 1947. The long delay led to reports that the carrier was being redesigned to incorporate the lessons of the Bikini atom bomb experiments.

The Albion was designed to car-

Snow Blankets Mountain Area

(By The Associated Press)

A swirling white preview of winter banked five-foot snow drifts in Montana today and dipped temperatures in the Rocky mountain area as low as 12 degrees.

The windy snowfall was in contrast to the pleasant autumn weather which prevailed over most of the eastern half of the country.

North winds, recorded at 55-mile speed in top gusts, piled the snow which fell mainly on the eastern slopes of the northern Rockies and in the northwest plains area adjacent. The actual fall ranged from six inches at Cut Bank, Mont., and five inches in Yellowstone National park to approximately one inch in most of the area.

Snow Area Spreading

No emergency conditions were caused by the storm, authorities said. The early morning minimum

Navy Attacks Branded False

COMMUNITY CHEST DRIVE OPENS TODAY —Several hundred Lubbock men and women civic workers started out this morning in the annual task of soliciting funds for the Lubbock Community Chest. A goal of 98,850 has been set for campaign, which will provide funds for the operation of the city's eight affiliated charity, welfare and recreation agencies during the coming year. Campaign leaders hope to have the bulk of the money raised by the end of the week. The drive lumps all financial campaigns into one, thereby saving time for workers. In the top picture the men's sales division teams are pictured as they emerged from the Lubbock Boys' club to start the "kick-off" of the campaign. In the lower photo, several of the women workers are pictured looking at placards which publicize the campaign over the city. Left to right, the women are: Mrs. Floyd Lebow, Mrs. R. S. Williams, Mrs. J. B. McCauley, Mrs. J. R. Eagan and Mrs. C. R. Horschler. (Staff Photos.)

CAMPAIGN GOAL OF $98,850 SET

Community Chest's Drive Opens Here

Armed with name lists, working kits and a battle cry of "Everybody Benefits—Everybody Gives" more than 200 Lubbock civic workers, men and women, launched the 1950 Community Chest financial campaign this morning.

Goal of the campaign is $98,850 and leaders hope that the total amount can be raised or pledged at the close of a week's solicitation.

An effort is being made this year to "broaden the base of support" of the Community Chest so that many persons who have not heretofore contributed will be given an opportunity, Hugh Anderson, colonel of the men's sales division, pointed out in the "kick-off" meeting at the Lubbock Boys' club this morning.

Wiggins Makes Talk

"The Community Chest idea of citizens accepting wholeheartedly the responsibilities of the community is the basic mud-sill of the American way of life," Dr. D. M. Wiggins, president of Texas Technological college, declared in a talk at the "kick-off" meeting launching the drive.

Approximately 100 men attended the meeting, at which working kits were assigned and the Chest campaign outlined.

Following the men's meeting, the women's sales division, headed by Mrs. Wm. G. Dingus gathered at the Boys' club for a similar meeting and every hour during the today until 3:30 o'clock this afternoon other groups left the Boys' club to start solicitations for funds.

Eight affiliated charity, welfare and recreation agencies are covered in operation of the Community Chest. They are: Lubbock Boys Club, Salvation Army, Junior Optimist Club, Carver Heights Nursery, Milam Home, Boy Scouts, Girl Scouts and Lubbock Service Organization.

Two of the agencies, the Carver Heights Nursery, for negro children; and the L. S. O., recreational agency for soldiers at Lubbock Air Force Base, were added to this year's campaign.

Addition of these two agencies only caused an increase of only $1,350 in the Chest total over the 1949 figure. The 1949 goal was $97,500.

J. Ray Dickey, Lubbock automobile dealer, is general chairman of the Chest drive.

AGED WOMAN DIES

BONHAM, Oct. 18 (AP)—Mrs. J. C. Biggers, 81, died today. She lived in Fannin county 74 years. Ten children and 24 grandchildren survive.

Plans Made To Lower Price Guarantees

Drop In Egg Prices In 1950 Possible If Support Halted

(By The Associated Press)

WASHINGTON, Oct. 18 — Consumers may get their 1950 supply of eggs at prices averaging around 10 cents a dozen cheaper than this year.

Such a price reduction would be possible if the Agriculture department decides to carry out tentative plans to lower price guarantees to poultrymen. Top-quality eggs are selling for as much as 80 cents a dozen retail in some areas, officials said.

The department is required by law to support producer prices at 90 per cent of parity until Jan. 1. Parity is a price standard set by law designed to be equally fair to farmers and those who buy his products.

But the department may lower the support to 75 per cent of parity after the first of the year.

Poultrymen have been producing about five per cent more eggs than consumers will buy at the 90 per cent support guarantee. The extra supply is being bought by the gov-

At least five other vessels, in addition to the stricken French ship were caught in the storm which developed overnight in major shipping lanes in the Atlantic.

Ship Is Damaged

The United States Weather bureau said the storm was made up of low-pressure areas dotting the ocean from the British Isles to the Atlantic coast.

At Southhampton, England, the Cunard White Star liner Caronia was dashed against a quay wall by a 50-mile-an-hour gale while maneuvering to dock on arrival from New York. The ship docked safely but its hull was damaged.

The Weather bureau said the

Air Secretary Raps Admirals For Open Row

Flying Arms For Both Marines And Navy Supported

(By The Associated Press)

WASHINGTON, Oct. 18.—Air Secretary Symington hit navy criticism of the air force today as old, "false" tales, and said it would be a good idea to increase the air force now that Russia has the A-bomb.

Symington was before the House armed services committee, defending the flying service against the barrage of charges the navy has hurled in 10 days of hearings.

First off, he rapped the admirals for ever bringing the interservice row over military policies into the open. He said it has resulted in letting possible enemies know "how this country would be defended."

Charges Untrue

In a statement and in a question and answer session with ommittee members, he made these main points:

1. It is "not true," as the navy charges, that the air force "favors mass atomic bombing of citizens."

2. It is "equally false" that the air force is over-emphasizing the A-bomb arrying B-36 longe-... bomber and neglecting oth... of air craft.

3. He is not oppo... carriers and beli... ma... corps ... ow... air ar...

4. The ... has bee... attac... ag... p...

...he navy has ...present policy ...ress on the air ...bomber and cuts ...avy.

...ter admiral has tak-...d to belittle the poss-...the bomber. Their ...ention has been that ...he could not get through an ...'s defenses and would ac-...lish little if it did.

Symington said the B-36 still "the best long-range bomber known."

He added:

"The ability to fight f... our own shores at the start of any war should not be looked on with contempt."

Wallgren Named To Power Group Post

WASHINGTON, Oct. 18 (AP) — President Truman today named former Gov. Mon C. Wallgren of Washington as a member of the Federal Power commission.

The President, at the same time, nominated James M. Mead, former Democratic senator from New York, to be a member of the Federal Trade commisson.

Wallgren was appointed to succeed Leland S. Olds, whose nomination for a third term on the power commission was rejected by the Senate in one of its major rebuffs to the President. The term expires June 22, 1954.

Wallgren's own nomination to the post of chairman of the national security resources board was shelved last March by the Senate armed services committee in another setback for Mr. Truman.

Houston Traffic Is Slowed By Dense Fog

HOUSTON, Oct. 18 (U.P.) — A dense fog, the first of the season, spread over the ship channel and most of Houston today, obscuring the city's skyline and slowing traffic.

A slight lift was noted around 8 a. m., but the weatherman said it was the beginning of murky weather that would probably be intermittent until next May.

At the municipal airport, planes were landing and taking off by instrument.

Chief weatherman E. F. Farrell blamed the fog on heavy layers of moist air hanging over the city with no winds to blow it away.

Houston Chemical Plant Involved In Dispute

State Militia May Be Asked If Strike Violence Continues

(By The United Press)

HOUSTON, Oct. 18 — Gov. Allan Shivers may be asked to call out the state militia if strike violence at the Mathieson Chemical corporation plant persists, the foreman of the Harris county grand jury said today.

David C. Bintliff, the jury foreman, made the statement following the disclosure that violence at the struck plant would be investigated by the grand jury.

"We believe the deputy sheriffs can keep order there," he said. "But if they can't, we will ask that the militia be called out."

Violence has flared intermittently at the struck plant for several days. I. D. Maedgen, 43, a plant worker, was injured in an affray Saturday, and the company posted a

School Men Ponder Food Plan Problem

Personnel And Warehouse Needed To Participate In Federal Surplus Program

Seven and one-half carloads of food—all free—have been received in Lubbock this fall and many more carloads are due to be received during the winter, and therein lies a problem for which a solution will be sought in a meeting of representatives from 119 schools in 30 counties.

A meeting of superintendents or their representatives from 119 schools participating in the federal surplus food program is to be conducted at 10:30 o'clock Saturday morning in the district courtroom in Lubbock county courthouse.

Under the surplus food program, the food is sent to Lubbock by the Production and Marketing administration for distribution to school cafeterias in the 30 counties.

The program has grown to such extent that a method of financing employment of two persons and renting of a warehouse will be discussed, Roy Boyd, Lubbock county superintendent of schools and also distributing agent in the surplus food program in the 30 areas, said today.

Items Received

Four carloads of pears, one and one-half carloads of honey and two carloads of Irish potatoes already have been received this fall. Due to be received are three carloads of cheese, three and one-half carloads of canned peaches, two carloads of canned tomatoes, one carload of peanut butter, and possibly one carload of butter.

On the present market, the but-

EVENTS START ON WEDNESDAY

Parade Will Open Harvest Festival

(Special To The Journal)

...WNFIELD, Oct. 18—Resi... of Brownfield are all set ...e grand opening of the third ...al Rotary club Harvest festi... and Merchant's Jubilee Wed...sday at 10:40 a.m.

The initial kick-off will come with the appearance of four jet-propelled aircraft over the city. The aircraft, from the Albuquerque, N. M., base will stage a 20-minute demonstration of aerial tactics.

Parade To Be Held

At 11 a. m. a parade led by the Texas Tech band and bands from nine high schools in the area will march along flag and bunting draped streets. Some 10,000 persons are expected to be on hand to witness the spectacle.

An address of welcome will be delivered by Mayor C. C. Primm at 11:30 from a specially constructed festival platform at the southeast corner of the courthouse square. The invocation will be spoken by Rev. H. L. Thruston, Methodist pastor. James G. Allen, dean of men at Texas Tech will speak briefly. Lt. Gov. Joseph M. Montoya of New Mexico is also scheduled to appear on the program.

To Present Awards

After lunch the program will resume with a concert by the Brownfield high school band. C. K. Kendrick, president of the Rotary club, will present awards to the prize winning bands.

Harley Sadler, Abilene, well-known West Texas showman and former legislator will give the principal address of the day at 2 p.m., according to James H. Dallas, program chairman. Elmo

City Extension Plan Delayed

A special meeting of the city commission this morning to consider 12 recommended extensions of the city limits was postponed unexpectedly because of the illness of Commissioner E. K. Hufstedler.

Others on the commission said they prefer to postpone consideration of and action on the annexation propoals until all members are present.

No Date Is Given

There was no immediate indication as to when this might be. Commissioner Hufstedler has been advised against the use of the telephone during the remainder of the week and City Manager Steve Matthews plans to spend most of next week attending the Galveston convention of the League of Texas Municipalities, of which he is vice president.

The city manager said he would discuss with other members of the commission the advisability of meeting without Hufstedler later this week. The other members are Mayor W. H. Rodgers and Commissioners Clarence Whiteside, W. B. Price and John Spikes.

Outspoken Supporter

Hufstedler has been the most outspoken supporter of the 12 extensions, which were recommended by a special committee of the chamber of commerce last week after several months of study. Whiteside also is regarded as favorable to the annexations. None of the others is on record

More Than 300 Die In Guatemala Storm

GUATEMALA CITY, Guatemala, Oct. 18 (U.P.)—National police headquarters reported last night that more than 300 persons were killed in a two-day storm in Guatemala late last week.

Heavy rains and wind also caused great damage to property and crops, the police said.

An official statement said 29 persons were killed in the village of Quiche when a big rock undermined by rain crashed down a hillside and wrecked several houses.

Most of the other victims were swept away by floods.

Authorities said the storm was the worst in Guatemala in 15 years.

Slaying Of Prohibition Agent May Be Solved

Man Gives Up At San Antonio In 20-Year-Old Death Case

(By The United Press)

SAN ANTONIO, Oct. 18 —Twenty years ago last month U. S. prohibition agent Charles Stevens was shot to death on the outskirts of San Antonio to set off what veteran peace officers described as "one of the greatest manhunts" of its time.

The slain man was a popular widely-known officer, having served as a constable, police captain, a deputy sheriff and as a captain in the colorful Texas rangers before taking the job of running down the men who dealt in illegal liquor.

The manhunt faded into history, although on October, 1929, a Bexar county grand jury returned a murder indictment in connection with the death against 31-year-old Lynn Stephens, an acquaintance of the agent. Stephens was never found.

But, the memory of the case lingered in the mind of Owen W. Kilday, then San Antonio chief of police but now sheriff of Bexar county.

Some six months ago, Kilday

Steel Walkout To Prove Blow For Industry

New Models To Be Delayed If Plants Forced To Close

(By The Associated Press)

The nation's steel strike—if there is no quick settlement—appeared headed to land a staggering blow to the country's automobile industry.

Many of the car and truck makers, their steel supplies dwindling because of the 18-day-old strike, apparently are faced with early shutdowns of three weeks or more.

Many To Be Idle

The shutdowns, which an industry source said may start early next month if steel shipments are not resumed by next Monday, will make idle several hundred thousand auto workers.

The nation's strike idle now is about 1,000,000.

The steel walkout already has made idle some 450,000 workers. The country's second major labor dispute has put 400,000 soft coal workers on the strike lines. The walkout of 16,000 to 20,000 CIO United Steelworkers in nine plants of the Aluminum company of America started yesterday.

Strike Is Spreading

The steel strike started by workers in the basic plants Oct. 1 in the dispute over free pensions is spreading to the fabricating companies. Hundreds of fabricators which deal with the CIO-USW face strikes when their strike deadlines expire between now and Dec. 15. About 20 fabricators have signed new agreements with the union. The number of fabricators struck was not determined.

In Detroit, a top auto industry executive, who asked anonymity, said . . . "if we keep going and use up all the steel we have on hand it will take three or four weeks to store up enough more to permit resumption of car and truck output. Shutdowns of three weeks or more are inevitable for many of the car companies if steel does not start to come through again by next Monday."

Delay New Models

The sutdowns would delaw new model changeovers by the General Motors, Chrysler and possibly Ford. Ford produces some of its own steel.

Government labor officials, however, moved to effect settlements in both the steel and the coal strikes. If they do not succeed, it was indicated, President Truman will be given the job of trying to

Agreement On Bill Reached

WASHINGTON, Oct. 18 (AP)—A Senate-House conference committee today reached "complete agreement" on a farm price support bill.

Chairman Elmer Thomas (D-Okla) of the Senate conferees, announced the compromise and said it calls for 90 per cent of parity supports next year for cotton, corn, wheat, rice and peanuts.

Tobacco previously had been assured supports at this level because both the Senate and House passed bills providing it.

Promise To Sign

Thomas said that all of the conferees, except Senator Thye (R-Minn) who was away, had promised "to sign the conference report."

The agreement still is subject to approval by both the Senate and House but the compromise—which had threatened to delay adjournment—is expected to be accepted.

Hope for an agreement before adjournment had waned as conferees deadlocked time after time.

House Had Yielded

Yesterday the Senate conferees had voted 5 to 2 to quit attempts at a compromise with the House group. Thomas and Senator Young (R-ND) opposed this.

Thomas said that when the session ended last night the House had yielded on several points.

The plan last night was for the

Former Lubbock Man Ranch Deal Partner

ADA, Okla., Oct. 18 (AP) — R. Glenn Spears and Phillip E. Spears, brothers, have bought the Lazy D ranch near Ada from J. D. Craft.

The ranch was purchased last year by Craft from W. A. (Gus) Delaney.

Glenn Spears lives at Colorado Springs, Colo. He was in the furniture business at Lubbock, Tex., many years.

His brother lives at Ardmore, Okla.

There are no cattle on the ranch at present but the brothers intend to stock it with grade cattle, turning most of the farming land on the 4,000 acres to pasture.

American Progress In Music Praised By Noted Swiss Conductor Walter Ducloux

NEW YORK, Oct. 18 (U.P.) — Walter Ducloux, who has been around, claims that America has done more for music in its comparatively short history than any other country.

Ducloux is a 36-year-old Swiss conductor. He had the honor of conducting the National Broadcasting Company Symphony in the first two concerts of its fall series this year.

He also is the music authority on the State Department's "Voice of America" programs, helping select American music to be heard on the other side of the Iron Curtain.

"In America, music is everybody's treasure," Ducloux said. "When I was in the American Army in Europe and told young music students that this country was one of the world's leading musical centers, they asked if America had produced a Beethoven or a Brahms or a Chopin or a Liszt.

Industry Aids

"I told them no, but America had 20,000 high school bands. And that factories, such as those in Fort Wayne, Ind., give musicians easy jobs so they can afford to continue to play in local orchestras and give the public fine music."

Ducloux was born in Switzerland in 1913, and came to the United States in 1939. He was drafted into the U. S. Army in 1943 and went overseas in 1944 in Military Intelligence.

But he took his world of music with him. He revived the Nancy, France, symphony. He was the first American to conduct the Czechoslovakian Philharmonic, and that was at the invitation of the Russian, British and American commanders.

Typically American

"We use all types of songs on the Voice of America programs, because all types of music are familiar in America. The music that is strictly American is the Indian tribal songs, contemporary hit tunes, cowboy songs and Hollywood film music, which is the most highly developed technically of any music ever written. America has all kinds of music. The leading bagpipe school is in the United States.

"We know that be-bop and other rhythm music is liked by young people in othe rcountries. They like its novelty, which is what youngsters in this country like, and they grow tired of it just as quickly.

"Music plays an important part in the lives of Americans. That is why when we are describing the life of a particular state, we include the music of that state," Ducloux said.

Murder And Suicide Ruled In Two Deaths

CARBON, Oct. 18 (AP)—Justice of the Peace A. N. Turner said in an inquest verdict that C. J. Williams shot his wife to death, then killed himself.

The bodies of Williams, about 55, and his wife, about 47, were found Sunday on the floor of their living room. A 410-gauge shotgun lay between them.

Scottish Ship Lasts Through 109 Years

HONG KONG, Oct. 18 (U.P.)—A tribute to the skill of Scottish shipbuilders is the 481-ton ship Hsin Tai, which still is plying North China waters although more than 109 years old. She is said to be in reasonably good condition and looks as though she might last another 20 years.

The oldest ship in Lloyd's Register, the 168-foot craft was built in 1840 by Scottish engineers at the Nevsky Dockyards in St. Petersburg as a yacht for one of the Russian grand dukes.

Little is known of her early history except that at one time she was named Tungus. After the Russian revolution she was sold to a Vladivostok firm and in the early 1920's passed into Chinese hands, assuming her present name. She was seized by the Japanese in 1937 and operated throughout the war.

After the war the Hsin Tai passed into the hands of Chinese Communists and shuttled back and forth between Chefoo and Dairen. In September, 1947, she returned to Tientsin, where she became the property of the Tung Shun Steamship Co.

MARK WARNOW DIES

NEW YORK, Oct. 18 (AP) — Mark Warnow, 47, orchestra conductor of the Lucky Strike Hit Parade radio show for many years, died yesterday of a heart ailment.

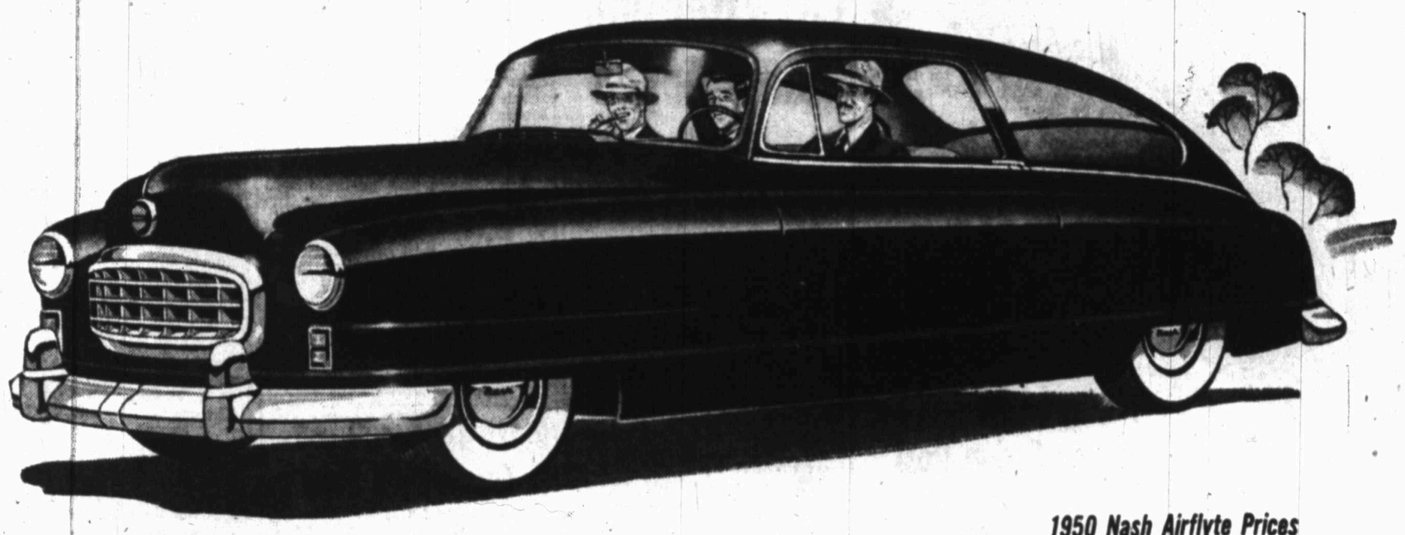

Ancient Indian rulers in Mexico used to carry rare orchids in their hands, as a mark of rank, when they appeared in public.

Truman Successor If Several Officials Killed Is Considered

WASHINGTON, Oct. 18. (AP)—The hazards of being president in an atomic age may be investigated by a congressional committee. The Senate has approved the idea and checked it up to the House.

The Senate action came yesterday, without a dissenting vote. The proposal, by Senator Green (D-RI) is to set up a 10-member Senate-House committee to look into the question of abolishing the electoral college system of picking presidents.

Ation Is Urged

The committee also would study the possibility of naming some individuals to take the presidential powers if all the officers now eligible to succeed him should die.

Senator Myers (D-Pa), who sponsored passage of the bill in Green's absence, told a reporter this was aimed at setting up machinery to keep the government functioning if an atomic attack should wipe out all of Washington's high officials.

In approving the bill, the Senate rules committee said some action ought to be taken "so that this nation will not be faced with a calamitous situation imperiling the succession of the presidency without a legally established solution on which to rely."

Other Questions Considered

Myers said he thinks that if the House agrees to the inqury, the joint committee also should look into the question of financing political campaigns from the national treasury.

This suggestion has been made by those who contend that political parties should have equal amounts to pay campaign costs.

Senator Lodge (R-Mass) told the Senate the Green inquiry resolution should not affect congressional action on his proposed constitutional amendment to revise the electoral college vote.

At present, candidates for president usually receive, the full electoral vote of each state in which they obtain a majority of the popular vote. The amendment would split the electoral vote among candidates according to their percentage of the popular vote.

Lodge said he hopes the Senate will take up that proposal early next year. Myers said that so far as he is concerned, the Green resolution won't hamper action on the Lodge amendment.

Melbourne, Austrlia, soon will have silent, rubber-tired street cars.

Relieve Stuffy Nose FAST!

Quick. Put a few Vicks Va-tro-nol Nose Drops in each nostril. Va-tro-nol works *right where trouble is.* Relieves head cold stuffiness almost *instantly!*

"Ahhh!—I can breathe again!"

STEER OPEN CLASS WINNER—W. L. Stangel, dean of agriculture at Texas Tech and general superintendent of the livestock division of the State Fair of Texas at Dallas presents an award to H. A. Fitzsimmons, jr., of Llano, (right), after Fitzsimmons' 16-month-old Hereford-Angus cross, above, own the grand championship of the open class steer division at the fair. Fitzsimmons is a senior at Southern Methodist university. He and his father have been experimenting with the cross for some time seeking an animal best suited for the Llano region. (AP Photo).

Two-Month-Old Baby Of Esther Williams Is Swimming Already

By BOB THOMAS
Associated Press Sports Writer

HOLLYWOOD, Oct. 18. —Esther Williams admits this may not be believed, but her two-month-old son is swimming already.

"It sounds fantastic, I know," says the swim star. "But Benjie actually swims in his bath. All I do is keep his chin above water and he paddles right along on the surface. In fact, he has nearly kicked a hole in his bathinette." The child's nurse confirms this feat of heredity.

Does this mean Benjie will challenge other Hollywood tots, such as the James Masons' Portland, who paddled about the family pool at six months?

Gonzales was indicted by a lieve in tossing babies into pools and letting them swim under water. I don't know what the water might do to their sinuses and other respiratory areas."

Two of the most famous works of the late Theodore Dreiser are in the movie mill. Montgomery Clift and Elizabeth Taylor are making "An American Tragedy" (now called "A Place In The Sun") for George Stevens. And Stevens' partner, William Wyler, will start "Sister Carrie" this winter.

Watch out, Frankie and Perry! Robert Mitchum is invading your field. When he finishes "Carriage Entrance," he'll make an album of popular songs with his sister Carol, who is singing at a local cafe. Mitchum has already made an album of folk songs.

Maurice Chevalier may finally return to the American screen. Producer Arthur Freed is readying "An American In Paris" and will submit the script to the French star.

Empty Hole Found In Bakery Floor Where Convict Hid $20,000

LONG BEACH, Calif., Oct. 18 (AP)—Only an empty hole in a bakery floor was found by police searching for $20,000 loot a bedridden mother said her convict son hid there.

A penciled letter from a Mrs. H. C. Bartlett of Kansas City, Kans., was addressed to Edward Towne, former owner of a bakery near the ocean here. On a crude map of the bakery kitchen, Mrs. Bartlett marked a spot where she said her son cached the money, stolen in a 1944 Los Angeles robbery.

Following the directions, police found a hole in the ground, four inches in diameter and 18 inches deep. It contained only a few bits of metal, presumably parts of a can or pipe.

Dept. Capt. L. Q. Martin believes the money, if there was any, was decomposed in the dampness.

Mrs. Bartlett referred to her son only as "sonny" and said he was serving a life term for murder.

She wrote that "we need the money now" and asked that $15,000 be sent her and "you keep $5,000." The bakery now is owned by William C. Rade. Mrs. Bartlett said her son worked there in 1944.

ARRESTING MASK

CHICAGO (U.P.)—Hallowe'en, then said, was too far off, so policemen arrested Charles Berndt, 16, for wearing a skin-tight rubber mask and a wig made from an old mop. The boy said he wore them to scare children.

Tech To Offer More Studies

Offering of the doctors degree in various fields at Texas Technological college will "improve the standards of undergraduate studies," Dr. E. N. Jones, vice president, said Monday in outlining plans for such studies to begin next fall.

Under standards set up by the Southern Conference of Graduate Schools, any institution offering the doctor's degree must have at least seven faculty members in that department with such a degree.

Since the English and history departments will have the required number next fall is one reason they were chosen to start the program, Dr. Jones said. Geology and chemistry will be added in 1951 and other fields will follow, he declared.

Only the doctor of philosophy degree is to be conferred at the present time, with students being accepted next September in English and history. Any phase of those subjects for which faculty personnel is trained can be studied for the degree.

The history of the South Plains and adjoining territory will be one of the things stressed in that department, Jones said. The West Texas museum located on the campus will provide a convenient means for research, he pointed out.

Other than the addition of more better-trained teachers, the inauguration of the doctorate program will also make necessary the addition of journals and publications in the subject matter field to the library. With the addition of science later to the doctorate program, more and larger scientific equipment will be needed.

Emphasis in the graduate work will be laid on quality, with training "thoroughly standard," Dr. Jones emphasized. If necessary, he said, the number of students accepted for such studies will be limited to the number which can be most efficiently handled by trained professors.

All work toward the doctor's degree will be under the supervision of Dr. W. C. Holden, dean of graduate studies, and the graduate council. Dean Holden will present the college's plans to the Southern Conference of Graduate schools at a meeting in New Orleans Nov. 14 and 15.

Carrier "Sunk" By Mock Sub Attacks On Invasion Fleet

ABOARD USS ELDORADO, Oct. 18 (AP)—An "enemy" submarine torpedoed and sank the aircraft carrier Valley Forge today in a mock attack on the Miki maneuvers invasion force.

Maneuver umpires determined that the underwater killer scored three hits on the big flattop about 650 miles west of San Diego. Under the rules, however, the sunk ship was out of action only an hour.

With the carrier Boxer, the Valley Forge formed the air power spearhead for Rear Admiral B. J. Rodgers' task force on its way to recapture Hawaii from the mythical enemy. Warships are convoying the 2nd Army Infantry division from Fort Lewis, Wash., for an amphibious assault on the white beaches of Oahu.

Submarine Sunk

Earlier, the task force lost the destroyer John A. Bole in its steady duel with harassing aggressor submarines. The submarine Ronquil claimed the successful attack yesterday on the Bole, steaming alone for a rendezvous with the other fleet units.

Anti-submarine planes reported destruction—by the war games rules—of the third enemy sub in three days. This time it was the Segundo, knocked out by a Martin torpedo bomber 80 miles ahead of this force.

Do We Have to Die?

Thirty-eight years ago in forbidden Tibet, behind the highest mountains in the world, a young Englishman named Edwin J. Dingle found the answer to this question. A great mystic opened his eyes. A great change came over him. He realized the strange power that knowledge gives.

That Power, he says, can transform the life of anyone. Questions, whatever they are, can be answered. The problems of health, death, poverty and wrong, can be solved.

In his own case, he was brought back to splendid health. He acquired wealth too, as well as world-wide professional recognition. Thirty-eight years ago, he was sick as a man could be and live. Once his coffin was bought. Years of almost continuous tropical fevers, broken bones, near blindness, privation and danger had made a human wreck of him, physically and mentally.

He was about to be sent back to England to die, when a strange message came—"They are waiting for you in Tibet." He wants to tell the whole world what he learned there, under the guidance of the greatest mystic he ever encountered during his 21 years in the Far East. He wants everyone to experience the greater health and the Power which there came to him.

Within ten years, he was able to retire to this country with a fortune. He had been honored by fellowships in the world's leading geographical societies, for his work as a geographer. And today, 38 years later, he is still so athletic, capable of so much work, so young in appearance, it is hard to believe he has lived so long.

As a first step in their progress toward the Power that Knowledge gives, Mr. Dingle wants to send to readers of this paper a 9,000-word treatise. He says the time is here for it to be released to the Western World, and offers to send it, free of cost or obligation, to sincere readers of this notice. For your free copy, address The Institute of Mentalphysics, 213 South Hobart Blvd., Dept. L-285, Los Angeles 4, Calif. Readers are urged to write promptly as only a limited number of the free books have been printed. Adv.

Church Women Hold Lesson, Social Hours

The regular Monday meetings of women's church organizations were held yesterday at churches and in homes. Lessons and programs were presented, social meetings were held, and three missionaries met with one group.

BOOK REVIEW TEA IS ATTENDED BL COUNCIL

First Christian Fellowship hall was scene of a Monday afternoon book review and tea given for the Women's council, with 60 members and 10 guests attending. Mrs. W. P. Jennings discussed the book, "Roots Out of Dry Ground," (Briggs).

Two vocal numbers were presented by Mrs. Frank C. Goodwin, accompanied by Mrs. John C. Oldham.

Table decorations were in the autumn theme and featured a cornucopia filled with fruits and vegetables. An ecru lace cloth was used. A pumpkin coach, filled with fruits and vegetables and drawn by two turkeys, decorated the piano. Mrs. Grady West served guests and Mrs. Fred Childress played piano numbers during the tea hour.

Mrs. Lewis B. Cooper, assisted by Mrs. Jimmy Yates and Mrs. Wayne McMurry, made arrangements for the event.

MISS LILLIE HUNDLEY SPEAKS FOR WMS

Miss Lillie Hundley, a missionary to China, discussed her work there when she met with Calvary Baptist Women's Missionary society Monday at the church. She and the other two missionaries attending the meeting, Rev. Blonnye Foreman of Brazil and Rev. J. O. Wells of China, are on furlough.

Forty-eight members were present for the talk. Thirteen Sunbeams had a meeting at the church also.

STUDY ON JAPAN IS CONTINUED

The fourth and fifth chapters of the book, "Japan Begins Again," were presented by the study leader, Mrs. Mary Houston, assisted by Mrs. J. E. Crawford and Mrs. Paul Brenneman, for the Afternoon circle of Forrest Heights Methodist WSCS Monday. Mrs. Grace Holden was hostess.

Rev. Burgin Watkins, a visitor of the circle, led the opening prayer and Mrs. O. A. Baker gave a devotion. The benediction was by Mrs. Crawford.

DISTRICT SECRETARY SPEAKS AT LUNCH

Mrs. B. E. Young, Methodist district secretary of missionary education, spoke on "Home Missions" at a luncheon meeting of St. John's Methodist Woman's Society of Christian Service Monday afternoon at the church.

Mrs. G. E. Crosby and Mrs. Hubert Bratcher sang a duet.

Fourteen women attended.

JAPANESE ARTICLES SHOWN BY GUEST

Mrs. A. L. Hewitt, a guest of Asbury Methodist Woman's Society of Christian Service Monday afternoon, spoke on "Japan Today." She also displayed Japanese articles which she brought home with her after living in that country for some time after the war.

The fourth lesson of the study "Japan Begins Again," was taught by Mrs. Russell Denison. Mrs. Elmo Collins brought a devotion and Mrs. E. C. Price offered special music. The meeting was conducted in the church parlor.

BIBLE LESSON TAUGHT FOR WMS

Meeting of First Baptist WMS circles Monday were attended by 202 persons. The circles, hostesses and Bible teachers are as follows:

Rosalee Mills Appleby, six present, Mrs. E. G. Pharr, hostess, Mrs. Dick Heath, teacher; Annie Armstrong, 12 present, Mrs. J. R. Weiss, hostess, Mrs. Fred Litton, teacher; Leta Rue Bryan, four present, Mrs. R. C. Johnson hostess, Mrs. Paul Mason, teacher; Elouise Cauthen, 13 present, Mrs. B. H. Bird, hostess, Mrs. C. N. Hallmark, teacher; Ola Culpepper, seven present, Mrs. O. C. Madden, hostess, Mrs. Tom Arnett, teacher; Maudie Fielder, 18 present, Mrs. Roy West, hostess, Mrs. W. M. Peticolas, teacher; Dorcas Fowler, eight present, Mrs. C. C. Worrell, hostess, Mrs. Frank Cheek, teacher; Blanche Groves, 14 present, Mrs. L. T. Stone, hostess, Mrs. Russell Ray, teacher; Lillie Hundley, eight present, Mrs. Earl Hobbs, hostess, Mrs. Vester Wolber, teacher; Lena Lair, 12 present, Mrs. J. C. Gryder, hostess, Mrs. W. L. Pattillo, teacher.

Also, Lottie Moon, eight present, Mrs. J. T. Meek, hostess and teacher; Ann Pettit, 14 present, Mrs. R. B. Torrance, hostess, Mrs. W. H. Trice, teacher; Lucille Reagan, six present, Mrs. J. A. Goodwin, hostess, Mrs. E. J. Cowan, teacher, Annie Jenkins Sallee, nine present, Mrs. W. R. Campbell hostess, Mrs. J. K. Miller, teacher; Hattie Stallings, 14 present, Mrs. L. A. Ellis, hostess, Mrs. N. L. Ball, teacher; Louise Stapp, 13 present, Mrs. W. B. Yeager, hostess, Mrs. R. D. Bumpass, teacher; Alice Stover, 14 present, Mrs. Daulton Blevins, hostess, Mrs. C. H. Browning, co-hostess, Mrs. Roy Bass, teacher; Blanche Rose Walker, 13 present, Mrs. E. F. Harmon, hostess, Mrs. Russell Ray, teacher; Miriam Willis, nine present, Mrs. L. O. Neill, hostess, Mrs. W. H. Trice, teacher.

METHODIST CIRCLES AT MONDAY MEETINGS

Regular third Monday meetings of First Methodist WSCS circles were held as follows:

Young Mothers, 15 present, Mrs. Eugene Alderson, hostess, Mrs. Royal Furgeson, teacher; Cuba, 15 present, Mrs. Lee C. O'Neil, hostess, Mrs. C. C. Chambers, teacher; Chile, seven present, Mrs. J. B. Edwards, hostess, Mrs. Harvey Austin, teacher; China, 17 members, one new member and one guest, Mrs. Charles A. Ross hostess and teacher; Poland, 12 present, Mrs. O. L. Byrd, hostess, Mrs. R. T. Campbell, teacher; Peru, four present, Mrs. P. T. Findley, hostess, Mrs. T. A. Rogers, teacher; Africa, 12 present, Mrs. N. L. Eddins and Mrs. Reginald Rushing, hostesses, Mrs. Cecil Matthews, teacher.

Also, Korea, 18 members, one new member and one guest, Mrs. Floyd Beall, hostess, Mrs. Rufus Rush, teacher; India, 15 members, one new member and one guest, Mrs. W. M. King, hostess, Mrs. Fred Adkins, teacher; Bolivia, 11 present, Mrs. W. E. Humphries, hostess, Mrs. Jack Stone, teacher; Panama, 13 present, Mrs. Clara Abney, hostess, Mrs. Jack Stone, teacher; Brides circle, eight members, one new member and two guests, Mrs. Carl Casey, hostess, Mrs. G. C. Beard, teacher.

Mary Haworth's Mail

Woman, Unhappily Married Once, Asks Advisability of Marrying Younger Man

DEAR MARY HAWORTH: I am very anxious to hear from you, for my decision shall be according to your advice. I am 31 years old and I am going with a man who is four years younger. Although we are very much in love and get along wonderfully, the difference in ages weighs heavily on my mind.

I have always heard it said that a woman ages much faster than a man; and I wouldn't ever want Dan to be ashamed of me, or to have his family or friends say that I look too old for him. This line of thought keeps me very worried, but still I hate to think of giving up Dan because of it.

I was unhappily married once and so was Dan; and if we marry again we want it to last and be successful, and do you think that is possible if we marry each other? I have a daughter six years old and Dan gets along very nicely with her. Whatever you advise, that I will do; and I thank you for a prompt reply.

(Signed) L. V.

ATTITUDE POINTS TO CHRONIC FEAR

DEAR L. V.: Your insistence upon wanting to put me in a position of leading you by the nose at this crossroad suggests that you are a childish dependent personality and tremendously anxious about everything—and that your defensive concern about your looks, as compared to Dan's in years to come, is merely one symptom of a chronic anxiety neurosis that always expects the worst.

Perhaps life has been for you a pretty cheerless experience thus far, without much if any warm affection or social help or economic security forthcoming from your family. And it may be that unconsciously you expect failure to crown any attempts on your part to establish a "tender and true" relationship with another human being—and this habit of inner discouragement may have become more fixated since your marriage turned out badly.

Psychologists observe that persons who worry intensively about their looks as age begins to show, on the theory that signs of age will blight their love-life or hopes of same, are persons who weren't sufficiently loved in their earliest years, but were made to feel on sufferance, not cherished for their own sake; and who never imbibed directly from a significant relationship the conviction that intrinsically they are loveworthy.

ANXIETY NEUROSIS WEIGHS HER DOWN

AS for your hearsay notion that women age faster than men, I asked a spokesman for an insurance company what figures might be found to sustain or disprove the idea. He replied that gradually since 1900, at least in America, women are living longer than men; and that on the average at the present time, they outlast men by about five years.

In other words, it is men who age faster nowadays; tht is, if they are trying to hold their own or advance a bit in the typically American scramble for prosperity. The insurance man said it is the stress, strain, tension and pressure of business competition and desire for "success," which allows the average man's nervous system no real rest, that is shortening his life (as compared to women's lengthening span) in our turbulent century.

Out of respect for your urgent appeal I have done my best to make some sense of your sketchy letter and to shed some light on the uneasiness which drove you to write it; and I hope I have turned your attention to the perennial problem, namely your anxiety neurosis, which stands in the way of solid happiness, whether you marry Dan or someone else. For advice; to get this problem out of the way, you need firsthand counsel to dig with you into personal history not told here. And until that is done, there's no telling how you would fare in second marriage on a risk basis.

M. H.

Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of The Lubbock Evening Journal.

Organist-Minister Banquet Staged

Guild Is To Sponsor Choir School Here In November

The Lubbock chapter of American Guild of Organists will sponsor a choir school in Lubbock Nov. 21-22. Cecil L. Lopo, minister of music at Wichita Falls First Methodist church, will conduct the school, which will be held at First Christian church.

All organists, choir members and other interested persons are invited to attend. The second night of the school will be open to the public.

This announcement was made Monday night at a traditional organist-minister banquet sponsored by the Guild at 7 o'clock at St. John's Methodist church. Mrs. Carl Scoggin served as toast master in the absence of Mrs. Travis White, dean of the guild.

There were chapter representatives from Lubbock, Lamesa, Posey, Wilson and Levelland.

Rev. Hubert Bratcher, pastor of St. John's Methodist church, asked invocation and the main talk, "When The Choir Died," was given by Dr. H. I. Robinson, pastor of First Methodist church.

Lists Choir's Services

In his remarks Dr. Robinson pointed out," it is as impossible to separate the value of the choir and the minister as to separate the use of salt and sugar in a well balanced meal. We are among the top people whose wrong behavior makes headlines."

Dr. Robinson listed three services a good choir renders: (1) it leads the hymns, (2) directs attention to the speaker and (3) creates a religious atmosphere in the sanctuary.

Miss Margaret Huff, who played the organ at First Presbyterian church for many years, said she discovered during her half century of playing that the organist is the backlog of the choir.

"No one thinks about who is playing the organ until something goes wrong," she suggested. "Then the organist gets the blame. As with the good fireplace, everything goes nicely as long as the back log keeps in place. When it falls, see what happens to the fire."

A musical program followed. Numbers were: "Poeme" (Boellmann), Miss Anna V. Moren, organist at St. John's Methodist church; "Come, Ye Blessed" (Scott), Miss Rosalynd Lawrence, accompanied by Miss Iris Ferren; "At Prelude in Olden Style" (Greenfield), Mrs. Ernest Wilpitz, organist at First Christian church; Air from "Messiah" (Handel) Mrs. Stuart Shafter, accompanied by Mrs. Robert V. Law; "Chorale in B" (Bach), Miss Imogene Webster, organist at First Baptist church; "Behold, the Master Passeth By" (Hammond), Elton Plowman, director of choir at St. Paul's Episcopal church, accompanied by Miss Lawrence.

Introductory Tea Given

An introducory tea given as a courtesy to pledges of Sans Souci social club of Texas Technological college in Hilton hotel Navajo room Sunday afternoon was attended by approximately 300 persons. Members of the Tech faculty and campus clubs were invited to call.

The refreshment table centerpiece of gladioli and daisies carried out a color scheme of gold and white, club colors. Miss Betty Hudson and Mrs. Rosalyn Sasser, new sponsor of the club, presided at the table.

Miss Hudson and Miss Tommie Campbell were in charge of arrangements for the event.

Pledges introduced were Fannie Beth Allen, Helen Ann Ayers, Joan Bethel, Sue Carleton, Edith Elkins, Norma Everett, Jan Fergeson, Willouise Huckabay, Emily Keys, Mary Allen Jones, Celeste McAdams, Ann Malone, Pauline Millspaugh, Erin Nevitt, Martha Pace, Nancy Paden and Ann Tidball.

Dinner Hour Set For School Principals

A dinner meeting has been planned by principals of Lubbock Public schools for 7:30 o'clock tonight in the Yaqui room of the Hilton hotel.

Administrators of the schools will be special guests. Dr. James Russell of West Texas State college, Canyon, will deliver the main address.

Officers of the host organization are: Alfred Smith, principal of Central Ward school, president; Mrs. Ivy Savage, principal of Roscoe Wilson school, vice president, and Howard T. Day, principal of Chris Harwell school, secretary.

Business Circle Talk Is On Life Of Peter

Mrs. Ance English talked on the life of Simon Peter at the regular third Monday night meeting of the Business and Professional Women's circle of First Christian church in the home of Mrs. Elois Elliott, 2303 Thirteenth, with Mrs. Jim Little as co-hostess.

Mrs. Jimmy Yates gave a devotion on "Knowledge Past Undestanding."

Mrs. L. D. Campbell was received as a member and Mrs. Vera Salmon was a guest. There were 18 others present.

Piano Pupils Will Be Presented In Recital

Mrs. T. W. Womack, 2112 Fifth, will present the following pupils in piano recital tonight at 7 o'clock:

Ray West, Sarah Alice Whitacre, Lynn Morgan, Marilyn Goodwin, Carolyn West, Betsy Goodwin, Marian Golden, Keith Morgan and Ed Golden.

Christian Circle Has Afternoon Meeting

When Circle 2 of Lubbock View Christian Woman's council met Monday afternoon with Mrs. E. M. Johnson, Mrs. C. M. Neel presided for a business session.

Mrs. Floyd Neel led a devotion.

Mrs. F. E. Pinnell was a guest and 13 members attended.

CLUB TO MEET

1948 Friendship club will meet at 2 p. m. Wednesday with Mrs. Kenneth Bozeman, Idalou highway.

Homecoming Services Planned By Society

Plans for homecoming services and dinner at Central Baptist church Sunday were made when the Women's Missionary society met at the church Monday afternoon.

Other business matters considered were: Providing clothing for two orphans at the church home in Waxahachie and a rummage sale, to be held late in October. Women are asked to bring rummage articles to the church this week.

Mrs. D. L. Woods asked a benediction.

Twenty-six were present.

Guest Talks To Sorority

"Charm is being, knowing and doing the proper thing at the proper time," Mrs. Regina Moss, representing the School of Charm, said in a talk before Texas Alpha Gamme chapter of Epsilon Sigma Alpha Monday night at Lubbock Women's club house.

"Pretense is death to charm," she added.

Every person should avoid calling attention to her defects and should "polish up her good points," the speaker said.

Although it has been said that the key to charm and good breeding is to "be natural," that key is not effective always, she said. "Some natural mannerisms are obnoxious." Being natural may mean doing what has become easy through habit.

The speaker was introduced by Mrs. J. Floyd Smith, program chairman. Miss Mary Paul Long, president, presided for a business session.

Following the program, Miss Ina Bacon and Mrs. Leon Davidson were hostesses for a social hour.

Those attending were Mesdames R. L. Edwards, Weldon George, Leon Davidson, Layde Ann Harrell, Gerald Jarvis, Bill Linn, Allan Marcus, J. Floyd Smith, David Weaver, James P. Williams, and Opal Dixon, Misses Ina Bacon, Marguerite Harris, Mary Paul Long, Mary Katherine Rice, Norma Skinner, members, and Misses Jane Hiatt, Dorothy Willett, Elizabeth Howard, Elizabeth McLarty, Mrs. Barbara Ann Nislar, Mrs. Merlin L. Cooper and Mrs. John King, pledges.

A formal initiation dinner is to be conducted Nov. 7 at Hilton hotel.

Mr. and Mrs. R. L. Goad, 716 Ave. K. have returned from a trip to Dallas and Greenville.

Robert Mason Caller For Square Dancing Club Monday Night

Buttons and Bows Square Dance club attended a dance at the Party house in Mackenzie State park Monday night. Hosts were Mr. and Mrs. Dale Allen and Mr. and Mrs. Woodrow Sherrill. Robert Mason was caller for the dance.

Guests were Mr. and Mrs. H. D. Phillips and Mr. and Mrs. Sam Strong.

Members present were Messrs. and Mesdames Gravis Hill, Wayne Pharr, O. L. Ely, jr., Larry Lott, Ralph Gossett, Bill Bell, Walter Crowell and C. J. Wheat.

Dean Walker To Speak At Child Study Unit

Mrs. Margarette W. Walker, dean of women at Texas Tech college, will be guest speaker at a meeting of AAUW Child Study Unit 1 in the home of Mrs. Newton Walton, 2627 Twenty-fifth, at 3 o'clock Friday afternoon. She will discuss "Music Knows No boundaries."

Mesdames Hop Halsey and Gordon Treadaway will be co-hostesses.

Cottage School P-TA To Meet Thursday

Mrs. O. L. Caskey, instructor of child development at Texas Tech college, will discuss "Teamwork Between Parents" when Cottage School Parent-Teacher association meets at 3:40 o'clock Thursday afternoon at the school.

Hampton Anderson will direct the children's program.

VEL* keeps stockings sheerer-looking ...lovelier than finest soap flakes!
No soap scum...No soap fading!

WASHING stockings regularly with Vel is just about the *surest* way to keep them looking beautiful longer. Because Vel is not a soap... can leave no soap scum. And it's soap scum, you know, left clinging to the threads, that makes stockings look coarser and drabber... after just a few soap launderings. Use Vel for your fine washables, too! Actual tests prove that delicate washable colors stay bright and fresh up to *ten times* as long with Vel as with even *finest* soap flakes!
Milder to hands
than any leading product made for washing dishes and fine fabrics!
Actual skin tests made by an independent laboratory—name on request—prove that Vel is milder to hands than any leading product made for washing dishes and fine fabrics!

Vel cuts dishwashing time in half!
DISHES, GLASSWARE GLEAM WITHOUT WIPING
Just wash with Vel... then rinse. Even glassware dries sparkling clear *without wiping!* For Vel leaves no soap scum or streaky film to polish away! What's more, pots and pans get shiny clean without hard scouring—Vel removes grease so much faster and more completely than soap. No dishpan ring with Vel! Vel cleans dishes cleaner than soap... saves up to half your dishwashing time!

MarVELous for DISHES · STOCKINGS LINGERIE · WOOLENS!
Instant SUDS in hardest, coldest water!

Accused Killer Says Slaying Of His Friend Was Accident

(By The United Press)

DALHART, Oct. 18 — Leonard (Lucky) Hawkins said today that the death of a friend he is accused of slaying was accidental, and waived extradition to Jerseyville, Ill.

Hawkins was captured 20 miles southeast of here last night after a 10-year-old boy recognized him as the object of an intensive manhunt in the Panhandle.

Offered No Resistance

Hawkins, a former bush league baseball player, offered no resistance as he emerged from a clump of trees, but authorities found a revolver tucked in the waistband of his trousers.

He said he eluded officers and search planes for two days by hiding in a maize field and then walked 20 miles to Middlewater in high-heeled boots Sunday night.

Hawkins was wanted for questioning in the slaying of Alfred Clark, 23, a Clayton, N. M. cafe cook. Clark's body was found in a Jerseyville farm field several days ago.

Dead Several Days

Police said he had been dead about five days and had been robbed.

A few days before the body was discovered, Hawkins was reported driving his friend's automobile in the Texas Panhandle.

He was seen last Saturday morning when he chased his former fiance through a Dalhart restaurant where she worked as a waitress.

Hawkins and Clark left Clayton to see the World Series, it was reported.

After Hawkins chased the waitress, Juanita Groves, 19, through the cafe, road blocks were set up throughout the vicinity.

Hawkins stopped yesterday in the yard of Mrs. W. F. Smith on the outskirts of Middlewater and asked her son, John, 10, for some matches.

Looked Like Picture

The boy left his playmates and told his mother, "I think he is the man the law's looking for."

Mrs. Smith gave John matches to take to Hawkins, who walked into the thicket as she watched him.

"He looked just like his picture in the paper," she said. "So I called the sheriff at Dalhart. The law came about 20 minutes later."

District Attorney Floyd Richards said Hawkins admitted robbing Odas Benson of $25 near Dumas, Tex., Oct. 8. Benson was Miss Groves' escort at a dance.

Miss Groves told officers last week that Hawkins had pistol whipped Benson and forced her to go to a tourist camp with him.

She said she escaped after hitting him on the head with a fire extinguisher.

Miss Groves has been under guard since last Saturday.

Tooth Drilling Without Drills May Be Achieved Within Year, Dentists Told

SAN FRANCISCO, Oct. 18 (AP)—You soon may have "painless" dentistry that really doesn't hurt—tooth drilling without drills.

The millenium for tender-toothed dental patients may be reached within a year the American Dental association convention learned here yesterday.

The new method involves a machine invented by Dr. R. B. Black, Corpus Christi, Tex., and perfected by the S. S. White Dental Manufacturing company of Philadelphia.

Instead of drilling, it uses a blast of carbon dioxide gas, shot at 75 pounds a square inch pressure through a nozzle only 18 thousandths of an inch in diameter. A finely ground abrasive, aluminum oxide is carried against the tooth to be drilled by the high pressure gas and does the cutting finely and precisely. The benefits are lack of vibration, heat or bone-conducted sound, all of which combine to produce the "hurt" in tooth drilling.

The new machines now are being used by various dental schools and by the navy dental center.

58-Group Air Force Gets Okay As Senate Passes Money Bill

(By The Associated Press)

WASHINGTON, Oct. 18.—Final Senate agreement to give the air force enough money for 58 combat groups shook loose a $15,585,863,498 appropriation for the armed services today.

In this and two other bills, the lawmakers mirrored their deep distrust of Communist Russia by planning to spend more than $17,000,000,000 for military defenses at home and across the seas.

Agreement Is Reached

Senate and House committees reached agreement late yesterday to pour these billions into the greatest peacetime military spending program this nation ever has undertaken in a single year.

Included in the total is $1,314,010,000 for nations lined up with the United States in the cold war against Russia—The bulk of it to western Europe.

Also, $157,611,700 is earmarked for military construction in Alaska and on the Pacific island of Okinawa.

A $50,000,000 item provides for the start of construction on a radar screen to guard the United States from enemy air attack.

Vote Is Formality

The votes which will send the money bills to the White House are expected to be a mere formality.

The size 58 air force calls for ten more groups than President Truman had requested.

This was a victory for the House over the Senate which had fought for a 48-group force. The Senate conferees finally capitulated in conference last night to the unbudging House demands for the expanded air force. The makeup of a group varies, from 30 big bombers to 75 fighters. About 400 combat planes of all types could be added with the extra money provided.

No Fight Seen

Senator Lucas of Illinois, Democratic floor leader, said there will be no organized fight against the military appropriations bill when it reaches the Senate.

Some Senators have said that since Mr. Truman doesn't want the 58-group air force he may withhold the money for the extra ten groups.

Luas told reporters he thought the President would spend the money. Senator Hayden (D-Ariz), one of the conferees, said the same.

New Anti-Noise Law Studied At Baytown

HOUSTON, Oct. 18 (UP)—Sleepless residents of Baytown co-- up for consideration by the city council again tonight for the third time this year.

The council will mull over a proposed anti-noise ordinance, earlier editions of which have been tabbed "too unreasonable" by council members.

City Attorney David Donoghue said the first such ordinance could have sent a man to jail for whistling. Donoghue said the whole idea was caused by the odd sleeping hours of some 7,000 employes of the big Humble refinery here.

PASTOR RESIGNS

SAN ANTONIO, Oct. 18 (AP) — Dr. John Angus MacMillan, pastor of Presbyterian churches at Alpine and Brady, Tex., has resigned as pastor of the Los Angeles Heights Presbyterian church here because of ill health.

New Drinking Service Given

OKLAHOMA CITY, Oct. 18 (U.P.)—For those who drink too freely of the bootleg whisky which finds its way into dry Oklahoma, Oklahoma City police offer a new service.

Citizens jailed for drunkenness will be told, sway by sway, just what happened in the dark hours before the morning after. The report also will be made to the judge in police court.

Police Inspector Roy Bergman explains, "it's a new program conducted along with the police department's drunkometer. We call it the alcohol influence and conduct report."

Attitude Recorded

The report, not made public, will show how the defendant looked and conducted himself, where he was going when arrested and where he started from. "Unusual actions," manner of walking, his coherence and his use of english will be noted.

In addition, the defendant will be asked to walk a white line and pick up a coin dropped on the floor. These performances also will be scored.

Bergman says, "it is important to show the judge the man's attitude after he was arrested. It fortifies him with additional evidence in addition to the drunkometer test. After the judge has looked at the report, it goes into the defendant's jacket as a permanent record."

TO BOOST RATES

OKLAHOMA CITY, Oct. 18 (AP)—The Southwestern Bell Telephone Co. will put a permanent rate increase of $5,750,000, granted by the Oklahoma Corporation Commission, in effect at its next billing date.

The commission's approval came yesterday.

T. E. Flake to J. V. Pipps and wife, lot 9, block 6, Flake addition, $1,500.

Cool Weather Due For Area

The all-important South Plains cotton harvest was being resumed today after light rains, mist and sprinkles interrupted it over the entire area Monday.

Little moisture resulted from the day of intermittent showers on the Plains. The weather man at the U. S. Weather station at Municipal airport predicted occasional light showers this morning, followed by clearing conditions.

Heaviest rainfall reports Monday came from Slaton, Post and Lamesa, with shower and sprinkle reports in all directions on the South Plains.

Showers Reported

At Lamesa, a series of afternoon showers totaling .27 inch drove cotton snappers from the fields.

Post and Slaton had intermittent sprinkles totaling .25 inch at both places. At the weather station in Lubbock the total measurement was .06.

Levelland had sprinkles during the day, with total less than .10 inch. Muleshoe had no rain, but the surrounding area received light sprinkles. Morton and Plainview, Idalou and Dickens reported light showers.

Denver City received an estimated .10 from the day's showers.

A cold front is expected to arrive sometime Wednesday from the west, bringing dry conditions and a temperature drop of five to 10 degrees.

Minimum temperature this morning was 53 degrees following a maximum Monday of 64 degrees. Today's mid-afternoon maximum was expected to be near 70 degrees.

Oil Company Stock Purchase Revealed

LOS ANGELES, Oct. 18. (AP)—The Union Oil company has announced that it is paying $22,400,000 in cash and 600,000 shares of common stock for the outstanding capital stock of the Los Nietos Co.

The Los Nietos Co., has productive properties in West Texas, California, and Canada.

ATTEND BARBECUE

Senior High pupils in room 131, of which Miss Edith Caviness is guidance director, attended a backyard party and barbecue Monday night at the home of Carolyn Taylor, 2424 Twenty-eighth.

Thirty-five attended.

Long Island, New York, produces most of the Brussels sprouts grown in America.

Inspiring Experience Related By Members

"My Most Inspiring Experience" was related at roll call when Past Matrons, OES, met with Mrs. Roxie Crausbay, 2113 Twentieth, Monday night.

Mrs. G. V. Pardue was co-hostess.

Mrs. T. K. Martin presided for a business session.

NAME SELECTED

Lottie Moon was chosen as name for the Young Woman's auxiliary of Trinity Baptist church Monday night at a meeting at the church. Mary Lou Burleson was appointed community mission chairman and Juanita Alford music committee chairman.

Duties of officers and chairmen were discussed.

Bleach with Hi-lex for Snowy White Clothes

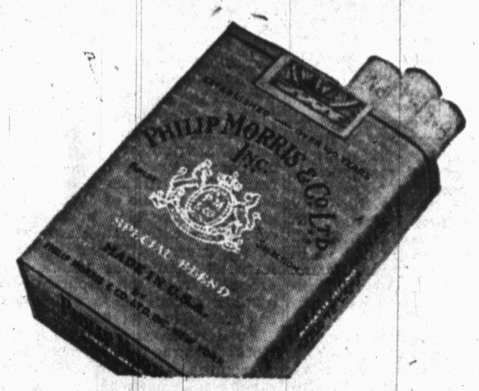

Only Hi-lex has Ingredient X
BLEACH DISINFECTANT DEODORANT

Have you tried NEW, AMAZING
Borden's REDDI-WIP
made with pure pasteurized cream
It gives you rich fluffy cream at the flick of a finger!

What a wonderful time-saver! Reddi-Wip comes out of the container rich-fluffy and light ready to serve . . . with sugar and vanilla added. You add taste and eye appeal to your desserts and salads in a jiffy! Use only the amount you need and keep the rest for another taste treat. It's quick . . . easy . . . economical. Try Reddi-Wip NOW.

Not a drop wasted
Use as Much or as Little as You Want
Keep Reddi-Wip handy in your refrigerator to use often . . . No need to wait for a special occasion to have fancy . . . delicious "party-style" dishes . . . Kids love it . . . it's nutritious and good for them.
Saves Time . . . Saves Dishes . . . Saves Money
Reddi-Wip needs no whipping . . . no extra dishes, beaters or bowls to wash. Reddi-Wip gives you one-third more than you get from ordinary cream . . . when whipped. It's handy, easy to use, rich tasting.
Keeps for days in your refrigerator
You'll be amazed at how long Reddi-Wip lasts . . . and how far it goes. You'll use it every day.
At Your Grocer's or From Your Borden Milkman

PROVE TO YOURSELF
NO CIGARETTE HANGOVER
when you smoke PHILIP MORRIS!
HERE'S ALL YOU DO!
In just a few seconds you can prove
PHILIP MORRIS
IS DEFINITELY LESS IRRITATING
than the brand you're now smoking!

1 . . . light up a PHILIP MORRIS
THEN, just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? And NOW . . .
2 . . . light up your present brand
Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!
NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but only ONE cigarette has really done something about it.
That cigarette is PHILIP MORRIS!
Remember: *less* irritation means *more* pleasure.
And PHILIP MORRIS is the ONE cigarette proved definitely *less* irritating, definitely *milder*, than any other leading brand.
NO OTHER CIGARETTE CAN MAKE THAT STATEMENT.
YOU'LL BE GLAD TOMORROW—
YOU SMOKED PHILIP MORRIS TODAY!

AGRICULTURE TOO EXTENSIVE

Small Rainfall In West Texas Called Blessing In Disguise

AUSTIN, Oct. 18 (AP)—West Texas' slight rainfall was described here today as "a blessing in disguise."

Dr. Harold Vaborg of San Antonio president of the Southwest Research institute, told delegates to the fifth annual meeting of the Texas Water Conservation association that the few inches of rain annually in West Texas has saved fertile soils from washing away.

"A few drops of water now can convert West Texas into a veritable Eden," he said.

The trouble with Texas agriculture, he said, is that it has been too extensive instead of intensive. He predicted the laying aside of old doctrines for new.

More Grass Predicted

He predicted restoration of grasses so cattle could fatten at home and greater strides in the cattle industry in the next 10 years than in the past 25.

For the Gulf of Mexico, which he described as "one of the most unusual bodies of water in the world," he foresaw fish farming with important developments through cross breeding. The gulf's warm and shallow waters were described as distinct advantages for such development.

In closing session, the water association recommended transfer from Galveston of the Corps of Engineers district office to a more central location.

Federal Tactics Rapped

The recommendation was contained in one of 22 resolutions which also hammered at the federal government's tactics in handling the tate's water problems, condemned the attempted federal grab of Texas tidelands, and urged the interim legislative water code committee to seriously conider a plan for state assistance in construction of water conservation projects.

The first meeting of the interim water code committee was scheduled here this afternoon after the association's fifth annual meeting closed. Many association members were expected to attend the meeting of the committee which was set up by the last legislature to study and recommand changes in the state's water laws.

Austin was suggested as a possible site for the Corps of Engineers' district office.

Lobby Probe Urged

Changing conditions in Texas during the last decade requiring a quickened development of water and soil resources were cited as reasons for the recommended change. The resolution said that increasing responsibilities of the corps require closer contacts with other governmental agencies, both state and federal, which are concentrated in Austin. The district office has been at Galveston for some 70 years.

Criticism of federal handling of state water problems was directed particularly against the bureau of reclamation.

One of the resolutions called for Congress, if and when it sets up a committee to investigate lobbying, to check into the activities of "certain government officials who have been active in the promotion of federal valley authorities in various parts of the country."

The association reaffirmed its opposition to any further federal valley or regional authorities, charging they would "jeopardize every water right within their reach and destroy the sovereignty of the states in matters vital to the preservation of our form of government."

State Aid Asked

State aid for water development was recommended in a resolution which particularly cited a proposal submitted to the last legislature for setting up a $200,000,000 revolving fund financed by bonds to assist in construction of water projects. Senator John Bell of Cuero sponsored the plan before and said yesterday he would resubmit it to the next legislature.

Another resolution urged the secretary of agriculture to take more care in monthly condition reports. It charged that the condition of Texas ranges had been reported by the bureau of economics as "good to excellent" when they are actually, the resolution said, "only fair to poor."

Yesterday the association renamed Guy C. Jackson of Anahuac its president and re-elected J. C. Sturrock as general manager.

Four new members were elected to the executive board. They are J. C. Wilson, Pecos; E. B. Neiswanger, Corpus Christi; M. C. Giesecke, San Antonio; and W. F. Weed, beaumont. Alfred Tamm, Harlingen; E. E. McAdams, Austin, and Neiswanger were elected vice presidents.

Added to te board of directors were James A. Cotton, Dallas; A. A. Meredith, Borger; John W. Simmons, Orange; and J. C. Wilson, Pecos.

Ship Sinking

(Continued from Page One)

ry more than 50 warplanes at a speed of about 30 knots. Her original design listed her as an 18,300-ton ship but one report said this had been increased during construction to 24,900 tons.

Mrs. J. F. Morris Is Claimed Here

Mrs. J. F. Morris, 82, mother of Mrs. Christine Hall of 1627 Tenth and Harry Morris of 2009 Sixteenth, died at 3:40 a. m. today after a long illness.

She lived with Mrs. Hall. A native of Mason county, she came to Lubbock in 1918 from Big Spring.

Survivors also include four grand children and five great-grandchildren.

Services will be conducted at 2 p. m. Wednesday at Sanders Funeral home chapel. Burial will take place in Tech Memorial park.

Congratulations to:

Mr. and Mrs. Jimmy Allredge of Lubbock route 6 on birth of a daughter weighing 6 pounds 7 ounces at 7:19 p. m. Monday in West Texas hospital. The father is employed by the C. C. Smith drilling company.

Mr. and Mrs. O. T. McCall of 2508 North Third on birth of a son weighing 8 pounds at 10:33 p. m. Monday in Lubbock Memorial hospital. The father is employed by Atmour and company.

Mr. and Mrs. A. E. Hindman of 3103 Ruby on birth of a son weighing 8 pounds 13 ounces at 8:35 p. m. Monday in Lubbock Memorial hospital. The father is a Tech student.

Mr. and Mrs. Otsen Amonett of 3310 Marple on birth of a daughter weighing 7 pounds 10 1/4 ounces at 7:58 p.m. Monday in Lubbock Memorial hospital. The father is employed by the El Paso Natural Gas company.

Mr. and Mrs. L. R. McCormick of Tahoka on birth of a daughter weighing 6 pounds 13½ ounces at 1:52 a. m. today at Lubbock Memorial hospital. The father is a farmer.

Mr. and Mrs. K. F. Moore of 1620 Broadway on birth of a son weighing 7 pounds 10 ounces at 1:45 a. m. today at West Texas hospital. The father is employed by the El Paso Natural Gas company.

Egg Prices

(Continued from Page One)

ernment in the form of dried eggs. The government has had little luck in attempts to dispose of the dried eggs abroad.

Officials figure that if the support price were dropped to 75 per cent of parity, consumers would buy more—perhaps all that farmers would produce. In such an event, the government would not have to go into the market to remove a part of the supply.

This belief that consumers would buy what now constitutes a surplus is based on studies which show, officials said, that the demand for eggs is elastic. That is, the lower the price, the more consumers as a whole will buy, and vice versa.

A reduction in the price support also could be expected to have an adverse effect on production. There would be less incentive for some farmers — particularly those with high production costs—to stay in the business.

The government expects to take an eventual loss of perhaps $85,000,000 on stocks of dried eggs acquired last year and this in carrying out support programs. Such a loss would reflect sale of the eggs abroad at prices below what the government paid.

Food Program

(Continued from Page One)

ter probably would have a value of approximately $15,000, Boyd estimated. Under requirements of the program, the butter must be delivered to the school participating in the 30 counties within five hours after it reaches Lubbock.

The schools pay nothing for the food, Boyd said. They pay cost of shipping it from Lubbock by motor freight. In addition, approximately 90 of the 119 schools participate in the reimbursement phase of the federal program, receiving seven cents reimbursement for each lunch served with milk and five cents for those served without milk.

Food Cost Reduced

The free food and the reimbursement makes it possible for cafeterias to serve food approximately 25 cents per plate less than it would cost each child otherwise, said Boyd. The money paid by the children is used to buy food in addition to that received free or paid through reimbursement and also to pay cost of cafeteria supplies and utilities and other costs.

Lubbock city schools participate in the surplus food phase but, along with approximately 30 other schools in the area, do not take part in the reimbursement phase.

The reimbursement portion of the program is handled in Texas by Frank Thurmond, who is employed by the Production and Marketing administration and has headquarters in Austin.

No Pay Received

The distribution of surplus food is directed by John J. Slaughter of Dallas, distributing agent for New Mexico, Colorado, Kansas, Oklahoma, Texas, Arkansas and Louisiana. Boyd is one of 17 distributing agents working in Texas in connection with Slaughter's phase of the program. There originally were 42 agents. As agents have dropped from the program, the number of counties in which each has served has increased.

Boyd received no pay for that work. His area has increased from 10 counties to 30 counties in the seven years since he became distributing agent. In addition to requiring many of his services, the program also requires aid of the secretary in the county superintendent's office.

Texas Not In Step

If the program is to continue, a method must be worked out for financing paid personnel and a warehouse, he said today. He has employed Walter Freeman, former principal at Roosevelt school, to work in the program, subject to action of the group in working out a method of financing. A secretary also is needed, said Boyd.

Heretofore, the food has not been sent directly to the schools from the railway cars.

More commodities now are being received, however, and storage space is needed for non-perishable commodities, it was started.

Texas is the only state that has not appropriated money for distribution of the surplus food.

From the West Indies, 254 colored immigrants arrived recently in Britain—224 from Jamaica and 30 from Trinidad — of whom 61 were women.

Daily MARKET Report

Stock Market

RADIO, TV LEAD STOCKS

NEW YORK, Oct. 18 (AP) — Aircraft and radio & television stocks took over leadership of a rising stock market today.

Trading ended on a quite note and in a few cases the day's best prices were shaded. By and large, however, the market finished at the top.

Numerous issues established new highs for the year on gainns running from fractions to more than a point.

Turnover hit a rate of around 1,100,000 shares.

The rally was a fast rebound from yesterday's decline, the largest in around a month.

Douglas Aircraft jumped more than 3 points at one time and Lockheed added over a point. Fractional ahead were Boeing and United Aircraft.

Several radio and television stocks were marked down early today but came back for a strong finish. Higher prices were paid for Admiral Corp., Emerson Radio, Philco, Radio Corp. American Broadcasting, Zenith, and Magnavox.

Also up were U. S. Steel, Bethlehem Steel, General Motors, Chrysler, Studebaker, Montgomery Ward, American Telephone, Phelps Dodge, Dupont, Allied Chemical (up 4), General Electric, International Paper, Santa Fe, Standard Oil (NJ), Gulf Oil and Johns-Manville.

Livestock

Oct.	27.00	27.67	26.87	27.56

NEW YORK REPORT

NEW YORK, Oct. 18 (AP) — Cotton futures rallied sharply in later dealings today on news that the Senate-House conferees have reached an agreement on a compromise farm bill. Price supports would be on a sliding scale, but in the first year loans would be at 90 per cent of parity and the support price would be based on the old or modernize parity formula whichever would give the farmer higher price supports. Gains extended to better than $2 a bale.

In initial dealings prices declined moderately under the previous close on liquidation, but the trend was soon reversed on aggressive mill buying and short covering.

Grain Market

CHICAGO REPORT

CHICAGO, Oct. 18 (AP) — General buying hit the pits at the board of trade today after announcement that the Senate-House conferees had agreed on a farm support bill. The advance in wheat was sharp after an up and down day, as traders tried to follow Washington news.

Basing trading on belief that the support price will be 90 per cent of parity for 1950 broad buying developed.

At the finish wheat was ⅝ to 1¼ higher than yesterday's close, December $2.12¾-13. Corn was unchanged to ¾ higher, December $1.15⅛-¾. Oats were unchanged to 1 cent higher, December 68½-⅝. Rye was ½ to ¾ higher, December $1.46-45¾. Soybeans were unchanged to ¼ higher. November $2.28¼-27¾ and lard was unchanged to 13 cents a hundred weight higher, October $11.60.

FORT WORTH REPORT

FORT WORTH, Oct. 18 (AP) — Wheat No. 1 hard 2.32¾-38¾.
Oats No. 2 white 86-87.
Corn No. 2, white, 1.51½-55½.
Sorghums No. 2 yellow milo, per 100 lbs. 2.18-23.

Markets At A Glance

NEW YORK, Oct. 18 (AP)

STOCKS—Higher; aircrafts strong.

BONDS — Quiet; changes narrow.

COTTON—Higher; on compromise farm bill.

CHICAGO:

WHEAT—Closed firm; advanced on Senate-House conferees agreement on farm bill.

CORN—Firm; advance with wheat.

Oats—Steady to strong; up with other grains.

Hogs—Mostly 25 cents higher; top $18.40.

CATTLE — Steady to 50 cents higher; steer top $37.00.

Indian Aid Measure Vetoed By President

WASHINGTON, Oct. 18 (U.P.) — President Truman has vetoed "with reluctuance" a bill which would have established a 10-year, $88,570,000 program of rehabilitation among the Navajo and Hopi Indian tribes.

He said in a message to the Senate late yesterday that the Navajo tribal council, that tribe's governing body, had urged him to reject the measure because one section raised "serious threats" to their basic rights.

The disrupted section would have extended civil and criminal laws and court jurisdiction to the Navajo-Hopi reservations, which now are under federal and tribal laws and courts.

Mexico City's health authorities have been pouring rat poison down the city's sewers as part of an intensive rat killing campaign.

Theft Of Car Investigated

Theft of an automobile from an unidentified Slaton owner had been reported to law enforcement officials here overnight.

It was described as a 1939 maroon Ford coach, license AR 2592.

Suffers Minor Wound

A St. Louis negro, Bartamus 1800 block Ave. A, was treated for a minor cut on the lower left chest about 7 p. m. Monday.

He told officers he had been stabbed by a white man with whom he had been riding in a car. Hicks was unable to identify him.

Andrew Phillips of Idalou said two batteries were taken from irrigation well houses of that section.

A 1940 green Chevrolet coach, license AM 312 was reported stolen from George C. Yardley of Lorenzo.

Mrs. Ray Crenshaw, of 2406 Main, told officers her purse had been stolen from the counter of a downtown department store about 5:15 p. m.

She said she had placed the purse, valued with contents at $50. on the counter briefly, and turned later to find it gone.

Foglights Stolen

A pair of foglights were stolen from a car at 313 Ave. W., owner of the vehicle, M. W. Foster, complained.

J. W. Duke, 45, a negro of 2822 East Ave. K, was arrested by Deps. Sheriff Frank Mitchell and Tom Cannon on a warrant charging liquor law violation. He later posted $500 bond.

Liquor Control board inspectors and city police had raided Duke's premises earlier and seized 336 12-ounce containers of beer, 15 four-fifths quarts of wine and 36 half-pints of whisky, said Fred Prestage, deputy supervisor of the liquor board and commanding officer of the Lubbock board district.

Duke told sheriff's deputies he was pulling bolls and "somebody just put that stuff in my house."

Liquor Charge Filed

County Attorney Waggoner Carr said a charge of liquor law violation also had been filed against Melvin Steen but that the complaint will be changed to make Milus Steen the defendant.

Melvin Steen is a negro business man and was erroneously named in the charge. He has never been implicated in any such case.

Sheriff's deputies and the liquor control board seized 960 12-ounce containers of beer, five four-fifths quarts of wine, eight half-pints of whisky, and eight half-pints of gin in connection with the case.

In 99th district court of Judge G. V. Pardue, forfeiture to the state of 2,328 containers of beer seized Oct. 8 from Fred Albidrez was ordered.

Justice C. E. Lynn placed Trinidad Flores, 26, of Lubbock under $250 peace bond after a hearing Monday afternoon of an affidavit charge of Flores' former wife that he had threatened her life.

Festival

(Continued From Page One)

Wasson, Big Spring, district governor of Rotary, will be introduced.

Motion picture star Rod Cameron with Henry Lester and his Rhyht Boys will appear at 2:30 p.m. The first division of the fiddler's contest will also get under way at this time. This division is for fiddler's up to the age 45.

Square Dance Slated

The second division of the fiddler's contest (for those over 45) will begn at 3:30 p.m. the same time a square dance exhibition will take place. Another square dance exhibition is set for 4:30 p.m.

The Community Men's Glee Club and quartet of Brownfield will present a program at 5 p.m. under the direction of Richard Young.

At 7 p.m. a Mexican hour will be held at the festival platform. At 8 p.m. Rod Cameron will preside over the coronation of the 1949 Harvest Queen. The three candidates for Queen and their sponsors are: Ann Snedeker, Brownfield Lions club; Elizabeth Jo Anthony, Howard-Henson Post No. 269, American Legion; and Margaret Goza, Beta Theta chapter of Epsilon Sigma Alpha.

Beginning at 9 p.m. a dance will be held at the Veteran's Hall and finals in the square dance contest will conclude the day's program. Current Plans are to have radio station KTFY, Brownfield's new radio station, broadcast a large part of the Harvest Festival activities.

Cheaper Prices For Turkeys Predicted

DALLAS, Oct. 18 (AP)—You'll be able to buy lots of turkey for Thanksgiving and Christmas at about 20 cents a pound less than last year.

That's what A. L. Myrick of Fort Worth says. He's the new president of the Texas Poultry and Egg association.

Myrick estimated 2,000,000 toms and hens would hit the Texas market between Nov. 1 and 15. Another million will come to market Dec. 1 and 15, he said.

Ready for the oven prices, he predicted, would be 52 to 55 cents per pound for tims and 62 to 65 cents for hens.

Chinese Keep New Dollars In Manila

MANILA, Oct. 18 (AP) — Fifteen million shiny new silver dollars minted in Mexico for Nationalist China have been diverted to Manila for safekeeping.

The Chinese-directed Philippine bank of communication said today it had received instructions from the central bank of China to held the silver bullion here temporarily.

Jerusalem, Palestine, and Amman, Jordan, now are linked by tri-weekly air service.

Flagpole Sitting For Chest Drive Starts

TEXARKANA, Oct. 18 (U.P.) —Texarkana has its "Rudolph" just as Cleveland had its Charley Lupica.

Lupica set a new flagpole-sitting record while waiting for the Cleveland Indians to move to the top of the American league. They did not, and Lupica spent his summer aloft.

A man identified as "Just Rudolph" climbed to the top of a derrick-like structure in front of Texarkana's union station today and said he wouldn't come down until Community Chest teams raised the city's total budget of $82,827.18.

Burglary Charge On Trial In 99th Court

State evidence was being given this afternoon in a 99th district court burglary trial of J. A. Avery, jr., 20, of Lubbock.

The defendant was represented by E. A. Blair and S. P. Boling. E. G. Pharr and A. W. Salyars, assistants district attorney, represented the state.

Judge G. V. Pardue presided.

The jury is composed of Raymond Allen, George Birdwell, J. K. Knight, Frank Brown, R. O. Kershner, G. T. Hammett, Sam H. Hood, W. W .White, J. F. Tapp, Paul Buxkemper, Earl Stalnaker, and Fred Spikes.

Judge Pardue allowed probation of four sentences totaling 17 years Monday, sentencing one other defendant to six years in the penitentiary.

Other cases are on the calendar for Wednesday and Friday.

City Limits

(Continued From Page One)

as opposing them. But they have insisted upon a detailed study of each of the 12 recommended extensions before acting upon them.

Mayor Rodgers also has favored such studies for the purpose of ascertaining whether the expenses involved in supplying them with municipal services are within the financial capacity of the city.

"I am in favor of the annexations, but not if they are going to bankrupt the city," he commented.

Add Large Area

The recommended annexations would add approximately nine square miles to the city's area, which now is about 10 square miles, and about 15,000 to the Lubbock population. They must be completed before Jan. 1 if the population is credited to the city when the federal census is taken next year.

City Manager Matthews said minimum of 50 days is required to comply with the legal technicalities involved in an annexation. This would allow action on those proposed by the commission as late as Nov. 10, he added.

Commissioner Hufstedler's illness was described as not serious, but as making a thorough check-up advisable and a general "slow down' from his many civic and business interests as necessary to hold his blood pressure down to normal. He is remaining at home where he has been advised against receiving visitors or talking on the telephone.

Farm Bill

(Continued From Page One)

Senate conferees to report back to the Senate that they were unable to reach agreement with the House.

The House members of the group, however, refused to vote a disagreement. Rep. Pace (D-Ga) told reporters he was hopeful the senators would change their minds and agree to further conferences session.

Under the bill passed by the Senate after a stormy debate, price supports for major crops would range from 75 to 90 per cent of parity. Parity is a computed price intended to assure farmers a fair return on their crops.

Price Drops Seen

The bill passed by the House would continue for another year the 90 per cent supports first voted during the war to spur crop production.

If no new farm bill is approved before Congress adjourns, the Aiken law passed by Congress last year will go into effect next Jan. 1. It provides for a sliding scale of price supports ranging from 60 to 90 per cent of parity.

Under it, price props would be geared to supplies but the secretary of agriculture would have discretion in fixing the actual support level, up to 90 per cent of parity.

Snow Drifts

(Continued From Page One)

of 12 degrees above zero was reported at Cut Bank. The mercury was under the freezing mark at most Montana points.

Rain fell on the fringes of the snow area—in northwestern Utah and southern Wyoming.

A heavy pall of fog and smoke develops early today over the Chicago area, causing a number of accidents.

The morning fog was widespread in the midwest, the heaviest blanket running from the Mississippi river eastward across Chicago and the lower tip of Lake Michigan into southern Michigan.

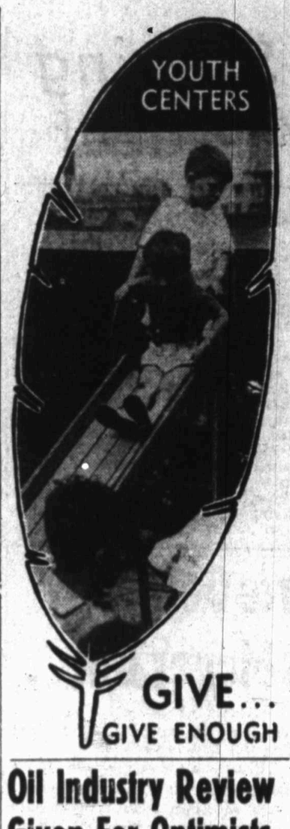

The western snow area was spreading southeastward, with rain in its van turning to snow.

Snow also fell in parts of North Dakota, Wyoming and Idaho and rain mixed with snow was forecast for Nebraska and Kansas.

Storm Lashes

(Continued From Page One)

storm about 800 to 1,000 miles east-southeast of New York was the remnant of a hurricane that moved up from Berumda.

Oil Industry Review Given For Optimists

S. E. Sayers of the Stanolind Pipe Line company today traced the history of the oil industry in observance of Oil Progress Week at an Optimist club luncheon meeting in Hotel Lubbock.

He said that since the first well was drilled in 1859, an estimated 1,250,000 wells have been drilled with 428,000 wells in current production.

The industry has grown to 34,000 different companies in the United States and is the third largest industry in the country.

Growing with the oil industry, according to Sayers, has been the automobile industry. "There were 8,000 automobiles registered in 1900," he said, "and today there are 43 million."

Sayers said Stanolind's West Texas division operates 1,150 miles of the company's 11,000 miles of pipe line.

Billy Davis was program chairman. G. C. Stewart presided. Paul Yancy gave the invocation.

Bill Mitchell, a newcomer to Lubbok, was a guest.

Strike Blows

(Continued From Page One)

bring peace between the disputants.

Cyrus S. Ching, federal mediation chief, planned to meet with officials of the U. S. Steel corporation tomorrow.

In the month-old coal strike, John L. Lewis' United Mine Workers union and coal operators were scheduled to resume negotiations this afternoon at White Sulphur Springs and Bluefield, W. Va. Ching also is watching the coal negotiations and plans to step in to urge early settlement of the dispute over the pension-welfare fund and a shorter work-week.

More Cheering News

Developments in some other labor disputes were more cheerful.

An early settlement of the 40-day strike of the Missouri Pacific railroad appeared likely. Guy A. Thompson, the railroad's trustee, said only four or five cases remained from 282 overtime pay claims which led to the strike by 5,000 operating employes.

At Buffalo, N. Y., a state board of inquiry announced tentative settlement of the four-month-old Bell Aircraft Corp. strike. The board did not disclose terms pending ratification by local 501, CIO United Auto Workers. Wages and pensions were the chief issues. The union represents 1,700 prodution workers at the Bell plant near Niagara Falls. The strike was marked by frequent violence and scores of arrests.

Old Slaying

(Continued from Page One)

learned that Stephens was alive and somewhere in South Texas, so he started quietly to negotiate through a third party to get the accused man to surrender.

Kilday learned that Stephens had been going under the name of C. B. (Charley Boy) Williams and only recently had been under treatment in a hospital at Alice, some 150 miles south of here.

Last night, Kilday received a phone call from Pleasanton, a suburb of San Antonio.

It was Stephens, who wanted to surrender.

A short time later, Williams walked into the sheriff's office.

Kilday greeted him: "Lynn, where the ---- have you been?"

"It's a long story," replied Stephens.

Kilday locked up the ailing 51-year-old repentent and planned to hear the "story" today.

British Husbands Cheat, Woman Says

LONDON, Oct. 18. (U.P.)—Lady Helen Nutting claimed today that many British husbands cheat the law by beating their wives with sticks larger than their little finger.

Lady Nutting, chairman of the British Married Women's association, admitted that the ancient British marriage laws permit a man to beat his wife provided the "weapon" is no larger than his little finger.

But, she charged, many husbands beat their wives with sticks "much bigger."

"They get away with it, too, unless the wife can show bruises in court to prove it," she said.

Operations Of Stanolind Firm Explained At Lions Luncheon

Hospital Bulletin

Firemen made a run to the Watson Furniture company, 1109 Thirteenth, this afternoon at 2 o'clock where an electric motor in a freight elevator caused an alarm. Damage was confined to the motor.

James Hamilton, prepresentative of the Amicable Life Insurance Co., has been appointed secretary of the Lubbock Life Underwriters association, James A. Bowron, president, announced today. Hamilton succeeds Max Rutledge, resigned.

A regular meeting of the Knights of Pythias lodge will be held at the lodge hall, 1107½ Ave. K, at 7:30 o'clock tonight, it was announced by Frank French, chancellor commander.

J. A. Pressley of 1812 Fourteenth has returned to his home after more than a week's stay in West Texas hospital. He is reported to be recovering satisfactorly.

Dr. James L. Russell, dean of graduate students at West Texas State college, will speak at 7:30 p. m. today at a meeting of Lubbock public school principals and administrators, their families and guests at the Hilton hotel.

Mrs. C. A. Bickley, wife of the minister of Asbury Methodist church, left Monday night for Fort Worth to speak at the Methodist Advance mass meeting program there today. The meeting in Fort Worth is similar to that to be conducted in Lubbock Thursday and Friday, when Methodists from throughout Northwest Texas conference will attend a meeting at First Methodist church as part of the "Advance for Christ and His Church" four-year program of the Methodist church.

Police said this afternoon they arrested a man, about 38, for drunkenness after he had been disarmed at a cafe in 1700-block Ave. H. They said the proprietor of the cafe told them, the man criticized the quality of the soup, and when invited to leave, did so only to return with a rifle. Police said they would investigate the feasibility of filing another charge against him.

Theft of fender skirts from a Cadillac automobile was reported today by C. C. Leftwich of 907 College. Value was placed at $50.

Police said Walter Fowler, 45, of 1400-block Eighth had posted $200 appearance bond in connection with a plea of innocent of a charge of disturbance by window peeping. A woman in 1400-block Eighth was complaining witness, corporation court officials said.

Police said they were informed today by Eustico Gutierrez of Abernathy route 1 that eight Mexican boys assaulted him Saturday midnight here and took his billfold. He said it contained "only a draft card." He made no identification, and there was no explanation on official reports for the belated report.

Strike Violence

(Continued From Page One)

$500 reward for information leading to the arrest of his assailant.

Hurled stones and mud balls greeted some workers crossing ing the picket line yesterday.

The plant was struck Aug. 2 because of a disagreement between the firm and the Oil Workers International union, local 227.

Rites For Lubbock Man Set Wednesday

Funeral services for Kenneth M. Hancock, 62, who died at 5:15 o'clock this morning in Lubbock Memorial hospital, will be conducted at 11 a. m. Wednesday at Broadway Church of Christ. The body will be sent to Higginsville, Mo., for burial Thursday.

Hancock, an independent oil operator ,whose residence was at 2405 Thirty-second, had made his home in Lubbock for seven years. He was a member of the Broadway Church of Christ.

Survivors are his wife; one son, Kenneth M. Hancock, jr.; two brothers, E. P. of Higginsville and H. D. Hancock of Scarsdale, N. Y.

Pallbearers will be Sam L. Adams, Bob Cobb, O. B. Ratliff, June Roberts, Mayor W. H. Rodgers and Lt. Col. R. P. Riordan. Sanders Funeral home is in charge of arrangements.

Negro War Vet Shot To Death By Police

HOUSTON, Oct. 18 (U.P.)—Officers shot a 32-year-old negro war veteran to death last night after he threatened them with an ax.

Dead was Floyd Andrew, who had been taking psychiatric treatments at the veterans hospital here.

Patrolman L. V. Dawson and auxiliary Patrolman E. J. Tubbe said Andrew advanced on them when they sought to question him near his home.

Andrew was shot in the chest. The officers were not charged.

Stanolind Pipe Line Company pipeline from this area carries 160,000 barrels of oil daily from the Permian Basin oil field to refineries throughout the Midwest, C. L. Moon, engineer for the company here, said in a talk at the Lubbock Lions club luncheon today noon at the Hilton hotel.

Moon's talk was in observance of "Oil Progress Week," being celebrated the nation over.

History Is Reviewed

Reviewing briefly the history of the oil industry from medicinal uses in 1859 until today when it furnishes most of the nation's energy and transportation power, moon told of new developments in the industry.

"Scientists are developing new things every day to utilize the virtues of oil," Moon said.

He told them of the progress in oil transportation and how pipe lines now handle 75 per cent of oil moved by land. A pipe line can do this at about one-fourth the cost of any other form of land land transportation, he said.

Operations Are Explained

Explaining his company's operations, Moon said Stanoline Pipe Line company operates 11,300 miles of truck lines in addition to other thousands of miles of gathering pipe lines. The main trunk 475-000 barrels of oil per day.

The company maintains its own communications system and operates patrol planes to watch for leaks in the ten states in which the pipe line operates.

The company maintains one of the largest gathering systems in the country for its line extending from the South Plains area, Moon said. He said the line between Monroe and Childres is capable of carrying 222,000 barels of oil moving at the rate of 160,000 barrels a day.

At the close of his talk, Moon invited Lion's to attend the company's open house at the Monroe pumping station.

Dr. Charles Finley and Morris Zukov were introduced an new members. Dr. F. A. Greene, Crosbyton; and Dave Talley, Tyler, were out-of-town guests at the luncheon.

School Girl Claims Man Threatened Her

An 11-year-old sixth grade student who lives in northwest Lubbock told Homer Harrison and J. C. Smith, police investigators, that a man had threatened her with a knife when she was enroute to school this morning.

A person answering general description of the man described by the girl has made two reported attempts recently to have younger girls, about 7, to go with him into alleys.

Each previous time he had offered money to them, police were told.

The latest description listed the man as about 30, tall and plump, and wearing a blue, yellow, green and white plaid shirt, and blue jeans.

The last incident was said to have happened at Thirteenth and Ave. V, at 8:30 a. m.

The man had the smell of liquor on his breath, the girl said.

Quartet Entertains Hub City Kiwanis

Odis Echols and his Melody Boys entertained the Hub City Kiwanis club at their regular noon luncheon at the Lubbock hotel today.

The group, consisting of Echols, his son Odis, jr., Jack Burgess, Bob Elmore, and Virgil Cobia, presented several group numbers, most impressive of which was a melody of spirituals arranged by the group.

Burgess, at the piano, played a selection, and Cobia, the bass in the quartet, gave a solo rendition of "Asleep in the Deep." Elmore sang tenor, Echols, sr., second or lead tenor, and Echols, jr., baritone.

Dude Buster was in charge of the program. Pres. Jason O. Gordon presided. The Rev. Claude E. Canterbury, rector of St. Paul's Episcopal church, gave the invovation. John B. Malouf introduced visitors.

APPLICATIONS RECEIVED

WASHINGTON, Oct. 18 (AP) — The Communications commission today received applications for new television stations from Lubbock Television Co., Lubbock, Texas, and Amarillo Television Co., Amarillo, Texas. Identified with both companies were Glenn Terry, Watt W. Winn, Warren Massey and Dave C. Edwards.

Egyptian canners will buy their tin plate from Britain instead of the United States, in the future, because of dollar exchange shortages, Cairo reports.

Appeals Court

AMARILLO REPORT

AMARILLO, Oct. 18 (AP) — Proceedings, 7th Court of Civil Appeals.

DOCTORS REPORT NEW TECHNIQUE

Surgery On Heart By Use Of Single Finger Is Described

BY FRANK CAREY
Associated Press Staff Writer

CHICAGO, Oct. 18 — Single-fingered surgery within the human heart—with the surgeon using a knife secured to his index finger and working by touch alone—was described today.

The American College of Surgeons was told the new technique still is on trial but so far is encouraging in the fight on a frequent disorder of the heart.

It is designed to combat a kind of log-jamming process involving the heart valve, most vulnerable to the after-effects of rheumatic fever.

Wears Two Gloves

In the operaetion, the surgeon's finger explores and guides the knife through a single quadrant of the heart—an organ whose total size is about that of your doubled-up fist.

And the surgery itself is limited to the close quarters of the valvular gateway—the funnel-shaped "mitral valve"—linking the two chambers of the heart on the left side.

The operator inserts his knife-bearing finger through an incision in the wall of the heart—an opening only large enough to admit the finger. The opening is pre-equipped with a "purse string" stitch—ready for quick closure when the surgeon withdraws his finger from the heart.

The surgeon wears two rubber gloves on his operating hand. An opening is made in the outer glove at the base of the index finger on the palm side of the hand; another opening is made at the tip. Then the knife blade is inserted between the gloves so that in effect, it is lashed to the index finger.

When the surgeon gets his finger inside the heart, he explores to determine diseased structures of the involved valve that need cutting. Then, by a turn of his hand, he makes the necessary cuts.

The mitral valve is located between the two chambers of the heart that receive the blood after it has been sent to the lungs to pick up oxygen. The valve controls transfer of the blood from the upper chamber to the lower, whence it is pumped through the body. When the valve is constricted by disease, so that it can't open and close properly—like a well-regulated locks system—trouble develops.

The report on the new technique was made to the clinical congress of the surgeons by Doctors Robert P. Glover, Thomas J. E. O'Neill and Charles Bailey of the Episcopal hospital and the Hahnemann Medical college and hospital, Philadelphia.

They said they had used the technique in eight cases—four of them resulting in "very saetisfactory results" in re-establishing improved valve function. There was one "fair" result and three deaths.

Special gloves figured in another report to the surgeons.

Sir James Learmonth of Edinburgh, Scotland, said that he and his associates had found that "eletctrically-heated gloves" were good bets for patients who need to keep their blood vessels opened up well to insure a good blood supply in the face of some circulatory trouble.

WE CAN SUPPLY YOUR *Glass needs*

LUBBOCK GLASS & MIRROR CO.
701 23rd St. Dial 2-1811

HEADQUARTERS FOR GLASS

No matter what your glass need may be—we have it or can get it for you. We are Glass Headquarters for Libbey-Owens-Ford products.

Outstanding Russian General Is Claimed

MOSCOW, Oct. 18 (AP)—Marshal Feodor I. Tolbukhin, who led Russian armies against the Germans in Bulgaria, Hungary and Austria in World War II, died yesterday at the age of 65.

His death was announced today in Moscow newspapers and radio broadcasts. The official account said Tolbukhin had been seriously ill for a long time but did not give the cause of death.

Tolbukhin, born a peasant, fought as a private in the first world war. He joined the Red army during the revolution and was a high ranking officer at the outbreak of World War II.

He distinguished himself in the battle of Stalingrad and in 1944 commanded the Fourth Ukrainian army that recaptured Sevastopol in the Crimea.

He shared credit with Marshal Rodio Y. Malinovsky for driving the Germans out of Budapest and Vienna in 1945 and was one of the signers of the armistice with Bulgaria.

At the time of his death, the announcement said, Tolbuqhin was commander of Soviet troops in the Transcaucasus military region.

Blackbordered photograprs of the Marshal appeared in the frontpages of Moscow newspapers. He will be buried in Red square.

THERE OUGHTA BE A LAW! BY FAGALY and SHORTEN

Lubbock Man Plans Return To Germany Following Visit Here

Hudson Powell, who during three years in Germany has acquired an intimate acquaintanceship with the German people, will leave Wednesday to return to his post after nearly a month spent visiting in this country.

Powell, a graduate of Lubbock High school in 1936 and a former Texas Technological college student, has been visiting his mother, Mrs. Pearl McWhorter of 2314 Main street.

Army Depot Managed

For three years he has been with the U. S. engineers in Germany. For two years he ran an engineers depot in Schleissheim, Bavaria, near the famous concentration camp of Dachau.

More recently he has been an inspector for the chief engineer, travelling all over Germany and in other countries, inspecting projects and depots and doing contracting and procurement work.

Although his headquarters is in Heidelberg, he lives in Murnau, in the corner where Germany, Austria and Heidelberg join.

Speaking of his personal observations during three years in Germany, Powell says that the Germans don't enjoy being occupied any more than any other country. He finds that most of the Germans are anti-communist, and don't want the Americans to pull out right now.

"There is a normal amount of griping and criticism from individual Germans," Powell says, emphasizing that he speaks as an individual and not as an official.

"The Germans have had freedom of press and freedom of movement for some time, and the police duties have been increasingly turned over to German police."

The displaced person problem seems to be resolving itself, Powell believes. Many European DP's are moving to South America, Australia, the United States and Jerusalem.

"Germany was probably the most totally defeated country in the history of the world," Powell said. "But in the last 12 months the Germans have made great strides. The stores in Germany now are almost as full as those in this country.

"The German people are industrious and are working day and night to rebuild that country. By that I don't mean that Germany is back to normal economically, but it is making progress."

In response to a question he said there had been some evidence of anti-Semitism in Germany recently, especially in Munich where a recent disturbance occurred.

Powell will leave Lubbock Wednesday for St. Louis. He will stop there briefly, then go on to New York, where he will sail for Germany Saturday night, Oct. 22. Before leaving he plans to purchase a new automobile to replace the French-made convertible he has been driving recently.

TEN ARE KILLED

CHILPANCINGO, Mexico, Oct. 18 (AP)—A bus ran off a 300 foot cliff yesterday, killing ten passengers and injuring four others seriously. There were 30 aboard, all were Mexicans.

New Officials Named By Cemeteries Group

SAN ANTONIO, Oct. 18 (AP)—Roy Gifford of Port Arthur was elected president of the Texas Cemeteries association.

Other officers named as the group's meeting opened yesterday included Albert Bruce, Amarillo, vice president; Frank W. Meyers, jr., Abilene, secretary-treasurer.

Five Killed In Crash Of Plane

PROVINCETOWN, Mass., Oct. 18 (AP)—A small chartered plane plunged into the sea off this town at the tip of Cape Cod yesterday taking the lives of three adults and probably two babies.

The dead were identified as pilot Daniel Lacey, 26, of Westwood, Mrs. Harold Keppel, about 30, wife of a New York Times photo-engraver, and Mrs. Edward S. Davis, about 40, of Provincetown.

Mrs. Keppel's two children, Paul, 2½, and Bruce, about one year, were listed as missing.

Search Planned

The bodies were recovered by the Coast Guard cutter Acushnet about four miles off Race Point. The Coast Guard resumed search for the babies early today—but doubted they would be found alive.

The plane—a piper clipper, was flying the 45-mile over-water route from Boston to Provincetown when the pilot radioed he was in trouble.

The craft was about 10 minutes from its destination at the time.

Planes of the Cape Cod flying service, operators of the clipper, spotted survivors in the sea shortly after the pilot sent a message indicating he was going into the water.

The single-engined craft apparently sank upon hitting the water. Searchers reported they found no wreckage.

Mrs. Kepel, a former army nurse, served in the Pacific.

Boxing Card Slated Tonight

Henderson To Meet Ortega

Bill Henderson makes another bid for added fistic recognition tonight when he tangles with Manny Ortega, classy El Paso featherweight, in the main event of the 32-round VFW boxing program at Chapman fieldhouse.

Tonight's card will open at 8:30 o'clock, with a fair turnout expected. Ticket sales boomed mildly Monday, after a slow start, and a further increase in interest was expected today as fight-time neared.

Tickets still are available in all price categories, sponsoring VFW officials said Monday.

Henderson and Ortega stepped through impressive final tuneups Monday at City Club gym, each working the equivalent of four three-minute rounds on punching bags and shadow boxing.

Henderson Heavier

Ortega, one-time national Golden Gloves champ, said he expected to hit 126 pounds at today's weigh-in ceremony.

Henderson was mildly concerned about making the 130-pound limit to which he agreed for this bout. He scaled exactly 130 after his Monday workout, however, and shouldn't have much difficulty reaching that figure again today.

With Henderson and Ortega pronouncing themselves in top physical form, a slam-bang battle is in the offing. Both are known as aggressive hitters who like to slug it out, and both pack a KO wallop. Ortega, particularly, is a hard puncher, while Henderson perhaps is a shade more durable when it comes to taking punishment. Henderson's youth advantage of several years is expected to offset Ortega's greater experience, so it shapes up as a virtual tossup affair.

James Meets Brown

Gene James, undefeated Lubbock heavyweight, tangles with Dickie Brown, Amarillo, in the eight-round semifinal. Brown dropped a fairly close decision to James here several weeks ago, and since that time has campaigned successfully in the Midwest.

A six-round special bout matches Leonard Duncan, Hale Center middleweight, with Dick Smith, ex-Golden Gloves ace from Oklahoma City.

Charley Forbes, a newcomer to the pro ranks from Brownfield, will meet Billy Cornelius, Oklahoma City, in another middleweight scrap.

The four-round curtain raiser will pit Charley Neff, Petersburg, against an opponent yet to be named.

LaVern Roach, former world's middleweight title contender, will referee the bouts.

Tickets for the show will be on sale today at the Hilton hotel, Hub clothiers and City Club gym, all in Lubbock, and at Talley's Barber shop, Levelland. Prices are $3.50 ringside, $2.50 reserved, and $1.50 general admission. Profits from the program will be shared by the local Goodfellows fund and Girlstown, U. S. A., near Whiteface.

Frank Saucier Tops League With .446

DALLAS, Oct. 18 (AP)—Frank Saucier, Wichita Falls catcher, was batting champion of the Big State league with an average of .446—one of the highest marks in baseball.

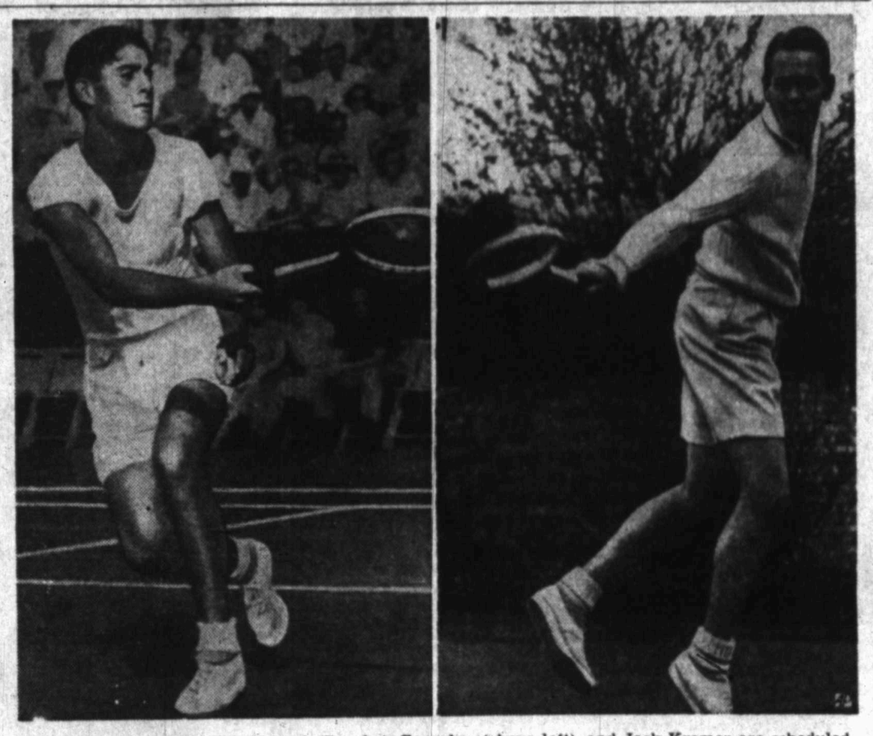

Official averages released today by the Howe News bureau of Chicago, show Saucier got 141 hits in 316 times at bat to win the circuit's batting title by 60 points.

Frank Carswell of Texarkana was second with .386 made on 229 hits in 594 times at bat.

Carswell led the league in hits, total bases with 348 and runs batted in with 145. Al McDarty of Wichita Falls led in runs with 132, doubles with 48 and struck out the most times—118. Conk Meriwether of Greenville topped in home runs with 27, Wade Tate of Austin led in stolen bases with 34, Carl Powis of Wichita Falls in triples with 11 and Eugene Main of Temple in bases on balls with 127.

John Whitehead of Sherman-Denison was the top pitcher in earned runs with an average of 2.73 per nine innings. Ray Machado of Texarkana had the best won-lost average—14-5 for a percentage of .737.

Elwood Moore and George Estock of Austin and Sid Peterson of Wichita Falls shared honors in the most games won with 20 each. Bill Pierro of Waco led in strikeouts with 275.

READY FOR MATCHES—Richard (Pancho) Gonzales, (above left), and Jack Kramer are scheduled to open their professional tennis tour of the nation next week with an initial match at New York's Madison Square Garden. Kramer has reigned as king of the professional netters for the last two years, chalking up top-heavy triumphs over Bobby Riggs, while Gonzales has dominated the amateur net meets during the last year. Gonzales recently signed for the pro tour after defeating arch rival Ted Schroeder in two major tournaments.

Pattison Predicts Close, Hard Battle

Lubbock Mentor Says "Jinx" Will Not Determine Winner

Coach C. R. Pattison of Lubbock High school doesn't expect to get beaten by Amarillo this Friday night, but if the Westerners do go down, it will be because a better team has won, he explained to the Quarterback club last night in the Lubbock hotel.

More succinctly, Coach Pattison said: "No jinx, no pressure, is going to be the cause if we get beaten by Amarillo Friday. We're going up to Amarillo Friday with one thought in mind—to beat Amarillo. Of course, we know that Amarillo is going to have only one thought on their minds—to beat Lubbock. I look for a good, hard game."

The Lubbock coach joined Tech Coach Dell Morgan, President W. M. Wiggins and Harley Carpenter, Tech alumnus in addressing the club. Damon Hill, Dunbar High school coach, was not present.

Weaknesses Pointed Out

The Westerner mentor pointed out weaknesses in the Lubbock victory over Pampa, explaining that the line had looked bad for much of the game. At the same time, he declared that it was the best line the Westerners had faced all year and that the Harvesters were outcharging Lubbock.

Pampa also was thinking one jump ahead of the Westerners all through the game and Coach Pattison thought that after the first Lubbock score, his team, intent on avenging last year's defeat, became too eager.

"The only difference Friday and in other games," Coach Pattison declared, "was that we made the same mistakes in the line we've made before; only this time we were playing a better team and the mistakes showed up more fully."

Pattison praised Jack Newby of Amarillo, saying that it was unbelievable that a back could improve so much in one year. He said that Newby virtually had averaged three touchdowns a game this year and that he could do anything.

Coach Morgan commented that Texas Tech had played a good game against Baylor and that he thought the team had played well. He said that their own mistakes helped to beat them, the same mistakes the players had been making all year, along with fumbles. He paid tribute to the fine passing of Adrian Burk and the receiving of J. D. Ison, the Bears' great end.

Dr. Wiggins told the crowd that he liked to be with a winner, but that he liked competitive athletics, for all the things for which it stood, even more. He said that it was competitive business just as members of the audience were engaged in competitive business.

He drew a fine parallel between business and athletics by pointing out that "When you become interested only in making money, then you have lost a tremendous thrill, the thrill of competitive business."

Dr. Wiggins also commented that he was in a pivotal position. He said that he was in one of three categories, all unpopular; coaches, referees and college presidents. He first had been a coach, then a referee and now a college president.

"As a college president, I find myself still in a pivotal position," Dr. Wiggins asserted. "There are those who think football and winning is all important. There are others who think that the arts, music, science and culture are all important. And there are a few old fogies left, like myself, who think that the part a college plays is to prepare an individual with an all-around education so that he can take his place in society."

The Tech president also pointed out that students from a Double A high school were far better equipped for college than were those from smaller schools. He also drew the parallel between football players from big schools and those from little ones.

"It takes them much longer to learn and to assume their positions," Dr. Wiggins stated. "They are working under handicaps and some never develop fully. They make mistakes. But, after all, as in business, it's the mistakes that make life interesting. If you didn't make mistakes, if your staffs didn't make them, how uninteresting life would be—and how easy."

Bowling Results

Three teams made clean sweeps of their games last night in the Commercial Bowling league, including the leading Aztec Inn five, but Cadenhead Butane, tied for fifth, stole all the thunder from the others.

The Cadenhead team had the remarkable total of 1,148 in the first frame, 1,141 in the second and 1,032 in the third for a grand total of 3,322. The team total was a new all-time high in Lubbock and will receive recognition from the American Bowling Congress, the national bowling organization.

Dayle Vannoy paced the winning Cadenhead team with a 277 single, high for the night in the league, and a 701 series, also the night's high. George Tate and Jay O'Keefe both had three frames of over 200 in each frame.

Cadenhead took three from West Texas Gas, Aztec Inn won three from No-Name, Lester's Jewelers won three from Hackney's Dental Lab and S & Q Clothiers took two of three from All-State Auto Insurance.

The complete team scores

Cadenhead (3)—George Tate, 235-240-209—684; T. L. Brown, 224-181-203—608; Dayle Vannoy, 243-277-181—701; Jay O'Keefe, 213-248-205—666; Ben Brown, 233-195-235—663. Totals—3,332. West Texas Gas (0)—Earl Roberts, 153-149-144—446; Charles Bell, 137-175-120—432; Boyd Herring, 178-169-173—521; Hank Rogers, 157-189-167—513; Charles Begey, 167-173-156—496. Total—2,758.

Aztec Inn (3)—Lowell Caddell, 525; G. L. Young, 530; Bill Bledsoe, 518; Tubby Reed, 551; Bill Nelms, 525. Total—2,44. No-Name (0)—Jack Seibel, 412, 412; A. D. Kennedy, 453; Bob Brock, 379; Bill McCasland, 388; Jack Spangler, 414. Total—2,327.

Lester's Jewelers (3)—Jack Goodgion, 511; Roy Hooten, 579; E. Blackburn, 480; Eddie Sawyer, 530; Average, 540. Total—2,660. Hackney's (0)—A. Perry, 375; P. Austin, 442; R. Olson, 427; J. Gill, 436; Hackney, 380. Total—2,519.

S & Q (2)—Cotton Panning, 473; Delbert Hilton, 451; Jerry Henderson, 521; Ed Moore, 533; average, 473. Total—2,749. All-State (1)—Bill Greneer, 526; Smokey Seigler (Two frames), 258; Roy McCallum (one frame), 196; D. F. Payne, 541; Guy Barkle, 519; A. E. Christensen, 561. Total

Schoolboy Leaders Retain Poll Spots

DALLAS, Oct. 18 (U.P.) — Port Arthur, Wichita Falls, Lubbock and Marshall held to their top four spots in the Dallas News weekly poll of schoolboy football rankings today, but there was a general shuffle among the other six spots.

Highland Park climbed from seventh to fifth; Corsicana held to sixth; Abilene surged up from nowhere (after stomping Odessa) to gain a seventh and eighth-place tie with Grand Prairie, which had been in the second 10, moved up to a tie for ninth and 10th.

The rankings, with number of points (first place votes in parenthesis):

1—Port Arthur 180 (10).
2—Wichita Falls 161 (6).
3—Lubbock 142 (3).
4—Marshall 101.
5—Highland Park 94.
6—Corsicana 67.
7 and 8—Abilene and Grand Prairie 58 each.
9 and 10 — Baytown and Ysleta 32 each.

Arizona Preps For Tech Game

TUCSON, Ariz., Oct. 18—(Special)—Arizona university's 35-man football squad, starting a two-game road trip away from home, will leave here early Friday morning by train for Lubbock and a Saturday afternoon date with Texas Tech.

The wildcats will be opening the first of three games to be played in the daylight, after consecutive night games. After the Red Raiders have been met, Arizona will travel to Denver, Colo., for a game with Denver university and then return for an afternoon game at home against New Mexico.

Fourth Loop Game

This also will be Arizona's fourth Border Conference game of the year. It will be the second for Texas Tech, defending conference champions.

Enroute to Lubbock, the Arizona team will stop over in El Paso for a Friday morning workout in the Texas Western stadium. The Wildcats will arrive in Lubbock at 8:35 a. m. and leave early Saturday evening, returning to Tucson at 7:35 p. m. Sunday.

The game at Lubbock will be the 11th meeting of Texas Tech and Arizona on the gridiron. Of the previous games, Arizona has won only one, with the Red Raiders coming out on top eight times, and one game, in 1936, ending in a 7-7 tie. Arizona's lone victory was scored by a 7-6 margin in 1935. Of the eight defeats administered by Texas Tech, five have been by shutout scores, including last year's 31-0 Red Raider victory in Arizona Stadium.

For Texas Tech, the game will be the second Border Conference contest of the 1949 season. The Raiders, who this past weekend met a strong Baylor team, defeated West Texas 35-19 in their first conference game. In other games, Tech has lost to Texas University and Texas A&M and defeated Tulsa and Abilene Christian.

Arizona will be playing its third consecutive game against the three top rated conference teams. The Cats lost to Texas Western in Arizona Stadium last weekend 28-0 and the previous Saturday dropped a 35-0 game to Hardin-Simmons at Abilene. The Wildcats' performance against Hardin-Simmons marked a sharp reversal of form following their 12-12 tie with a highly rated Utah University team in a game which easily could have gone to the Cats had passes not gone astray on several scoring drives. Arizona opened its season with a 40-7 victory over New Mexico A&M.

Arizona's offensive standouts have been fullback Charley Hall, whose three-game record sho 159 yards on 26 plays, and lef halfback Eddie Wolgast, who has handled the ball 38 times for 177 yards. Because of a broken nose, suffered in the Hardin-Simmons game, Wolgast is a doubtful starter against Tech.

A long scrimmage featured Monday's workout and only two players failed to appear. They were Halfback Oscar Carillo and Quarterback John Fowler.

Carillo suffered bruised ribs Saturday and Fowler has a finger bruise. But to take their places, Halfback Ed Wolgast and End Tom Woodburn were in uniform.

SWC Mentors See Defeats

(By The Associated Press)

"Woe is me," is the indicated feeling of Southwest conference football coaches.

Woeful words and woeful reports drifted out of practice sessions yesterday as the seven schools took stock of injuries from last Saturday's games and started work for games this Saturday.

Most dire prediction of things to come came from Southern Methodist Coach Matty Bell.

"Southern Methodist might as well take the week off," he observed. "There's no use practicing if you're going against something unbeatable."

No Serious Injuries

But Bell reported he had no serious injuries from last week's 27-41 licking by Rice and that his squad should be in good shape for its game with Kentucky.

Down at Rice, assistant Coach Joe Davis said the University of Texas has been undersold this season.

"That's a good club, a mighty good club," he said. "And big."

Texas, which defeated Arkansas last week, tuned up for Saturday's game with Rice with a light workout.

Two defensive regulars for Texas Christian, Clarence Marable and End Wayne Rigers, will probably miss the Frog's game with Mississippi.

Both received knee injuries and in last week's victory over Texas A. and M. And Marable was still on crutches as the Frogs went through a routine workout.

Texas A. and M. players heard a scouting report that, in brief, said: Adrian Burk is the sharpest passer Baylor has had since Bill Patterson, one of the best all-around backs in the Southwest conference, and as long as he is around, the Bears will make trouble for any team they play.

The Aggies worked long and hard on pass defense.

Irish Top Grid Team

Army Retains Second Place

NEW YORK, Oct. 18 (AP)—Notre Dame's super performance against a highly rated Tulane team last Saturday apparently has convinced most of the nation's football experts that the Irish belong in a class by themselves.

In contrast to last week, when Notre Dame barely won the No. 1 spot from Army, the country's sports editors and sportscasters voted the Irish a solid first choice today in the third weekly Associated Press poll.

Irish Gain Votes

A week ago the Irish nosed out the Cadets by 30 points. Today, Notre Dame received nearly 200 points more than the West Pointers. Of the 179 voting experts, 146 named the South Bend eleven first on their ballots.

It's been many years since a team has dominated an AP poll so completely. In all, the undefeated Irish attracted 1,745 points by their devastating 46-7 rout of the Green Wave of New Orleans.

Army, which received 58 first place votes a week ago, got only 10 this time despite its handy 54-14 romp over Harvard. Those ballots, however, together with numerous seconds, thirds and fourths, gave the Cadets 1,552 points to rank right behind Notre Dame and well in front of third place Minnesota.

Bernie Bierman's Gophers enhanced their Rose bowl chances by handing tough Ohio State a 27-0 trimming. This one-sided triumph brought them eight first place votes and a total of 1,370 points, to boost them one notch from fourth to third.

Others in the first ten with their votes included: Oklahoma, fourth, 1,171; California, fifth, 875; North Carolina, sixth, 856; Kentucky, seventh, 798; Cornell, eighth, 345; Rice, ninth, 166 and Texas, tenth, 136.

Clovis Boxers Beat Group From Lubbock

CLOVIS, N. M., Oct. 18 (Special) Clovis boxers won five of ten fights from a group of boxers from Lubbock here last night before a packed house.

The visitors picked up only four decisions, with one ending in a draw.

Ray Thornton, 117, and Richard Guana, Clovis, fought to a draw in their battle, but Red Lindsay, 125, decisioned Fred Guana, Clovis. Lyle Shelton, 135, Brownfield, decisioned Ben Martinez and Sonny Utley, 175, decisioned Robert Williams, Clovis.

In the top fight of the night, Dan Williams of Lubbock knocked out Robert Wolford of Clovis in the third round. It was a spectacular fight, with Williams getting the best of it.

Other Hub City boxers on the card, all bosers by decision, were Travis Fly, George Melot, Rooster Crossnoe, Pat McCarty and Bill Lewis of Clovis, a Texas Tech student.

LUBBOCK EVENING JOURNAL
SPORTS

WESTERNERS LAST WON IN 1939

Sandies Seek 10th Win Over Lubbock

After Friday night the people now wondering just what kind of team the Westerners have this year should have the answer. For that night Lubbock goes on the road to Amarillo.

Although having lost one game this year, to Odessa, the Golden Sandies are still rated as one of the powers in the state. Lubbock is another top team, with a record of five victories and no defeats or ties.

The Westerners will be trying to break the string of nine defeats heaped upon them by the Sandies since 1939, when Lubbock last won, and Coach Pat Pattison is confident that this year's squad has the ability necessary to do just that.

Rivalry Still Strong

This year the game will have no significance in district competition, the Westerners being in District 3-AA. But the strong rivalry between the schools still exists where athletics is concerned, and a bruising battle is expected.

Westerner practice this week will probably be no different than preceding weeks, but the defensive angle may come in for more attention because of the caliber of the Sandie offensive which has run up an average of 29.4 points per game, including the contest lost.

Last week the Pampa Harvesters surprised Lubbock with a smashing ground game and a fair passing attack which came near to turning the tables on the Westerners. The none-too-spectacular passing set up one Pampa touchdown and accounted for another, with the latter finding the receiver completely in the open. Mistakes such as this could easily mean the difference in a close game.

Routine Drills Held

Monday afternoon a routine practice was held, with offensive and defensive maneuvers coming in for attention. The different teams alternated so that all could participate in the drills.

The Bronc-Busters came out of the Pampa game in good shape, and today's workout may see a full-fledged scrimmage.

Yesterday's drills were run at three-quarter speed so that mistakes could be pointed out easily.

Sale Of Grid Ducats Slated

An additional 600 tickets for the Amarillo Sandie and Lubbock Westerner grid battle were expected to arrive in the athletic office at Lubbock High school this morning, but the supply was not expected to last but a short time.

Yesterday's 2,652 adult ducats were sold before noon, and E. J. Lowrey contacted Amarillo officials for a new supply, with the end zone tickets being sent. The student allotment was 1,000 tickets.

Packed Stadium Seen

The local demand indicates that people here are solidly behind the Westerners and are going to Amarillo in force, with 4,252 ducats made possible for Lubbock fans. Amarillo reports all tickets sold there.

From the Santa Fe railroad office comes word that a special football train will be run Friday, leaving here at 4 p. m. and arriving in Amarillo at 6:30 o'clock. The return trip to Lubbock will require two hours and 30 minutes, with departure from Amarillo scheduled 45 minutes after the game.

Round trip fare will be $6.33, including tax, with children under 12 being taken for half fare.

Persons wanting passage on the special should call 4472 or 4862 at the earliest opportunity or go to the Santa Fe depot here and pick up tickets so that the proper number of coaches may be provided.

The Amarillo Bus company will have busses operating at frequent intervals between downtown and the stadium at the fair grounds. Busses from the stadium will leave the north entrance and pass within one block of the depot at the corner of Third and Grant streets.

P. F. Brown Drubs Dupre Team, 35-0

One quarter of the Lubbock schoolboy football conference was ended yesterday afternoon when P. F. Brown school handed the Dupre Dogies a 35-0 licking, the fifth straight victory for the winners and their third in conference play.

It was the last conference game for Brown, which is in one of two quadrants in the south half of the Conference. Brown will now meet the winner of the other south quadrant, which will be either Hunt, Bean, or Chris Harwell. The winner meets the winner of the playoff between the two northern quadrant winners.

Brown won its way to the championship by beating Dupre, Wilson and Overton schools.

Only three favorites out of the last 15 have emerged as football champions of the Southwest Conference.

Between the Lines by Joe Kelly

The Class A football wars continue and little by little it's possible to pick out some teams that appear well on their way toward the top. It's particularly true in District 4-A South, where Post is the class of the conference. The Antelopes gradually are working their way farther and farther into the lead and currently appear to have a safe margin behind them. They've won three games without loss and anyone with intelligence will always bet on the defending champion. Coach Francis Bingham is bringing along his squad in good shape, despite losses from last year's championship club and the Antelopes will bear watching the rest of the way.

• • •

Barring accidents or miracles, Post will play either Sudan or Littlefield in the district playoffs. Both the Hornets and the Wildcats have good teams in District 4-A North and currently are tied for leadership, each with a pair of victories without loss. Coach Francis Smith is respected as a coach who gets the most out of his material and no team coached by him will be sold short. But Coach Jay Fikes at Littlefield also is a canny tutor and that's another case of forewarned being forearmed. The district race should steam along without too much excitement until Nov. 4, when these two powers meet. From the way Littlefield recovered from its early season beating, the Wildcats will be overwhelming favorites to win. But you can't tell in football, especially high school, what will happen.

• • •

Lockney's surprising loss to Spur in District 3-A just about winds up the Longhorn superiority in that conference and paves the way for a new champion. Who it will be is hard to say at this time. Three teams are tied for the lead and any one of them could win. Crosbyton put itself in the driver's seat with its victory over Abernathy, but Spur stands as a threat to both of them. It's a dog eat dog race, just as close observers of the district said it would be, and anything can happen yet.

• • •

You didn't know it, but Lubbock fighters allegedly got a raw deal at Carlsbad, N. M., last week. Babe Ritchie, manager of Bill Henderson, Gene James and Leonard Duncan, took Henderson and Duncan to Carlsbad for what he said he was told was to be an exhibition. An exhibition calls for "pillow," at least 12-ounce gloves and no decision. Instead, once the Hub City fighters arrived, they found out that they were to wear regulation gloves and that there were judges. Duncan allegedly drew a bad decision in his bout and when Henderson went into the ring for his fight, the brother of his opponent was the referee. When the fighter began to work on Henderson in a way that definitely wasn't under exhibition terms, Babe told Bill to get him out of there. He did, but it almost provoked a riot.

• • •

Just after Bill had knocked out his opponent, Babe shouted up to the man's brother to raise Bill's hand in victory. The referee took exception and started toward Babe, along with the second, and both swung. Babe dodged both blows easily, but by that time James, Henderson and other sympathizers were ready to go to work. Babe shut them up and calmed down the bunch, along with some other help. Babe felt badly about the whole thing because the show was billed as a benefit under the auspices of the VFW. In fact, Babe was quick to point out that the VFW knew nothing of the Carlsbad promoter telling the Lubbock fighters that it was an exhibition and the VFW sold the fight to the public honestly believing that everything was on the level.

• • •

J. L. Gulley, who played some great ball at end for Tech, was back for Homecoming, looking fit as a fiddle. We're glad to see J. L. around again. He met the Raider squad in San Angelo when they were on their way to San Antonio and said at that time that he might make the Houston trip. J. L. was a sick man last summer. He came down with polio and was in a San Angelo hospital. Attempts we made to verify the rumor failed. Neither the hospitals would tell us, nor were San Angelo friends able to penetrate the hospital secrecy. But J. L. said that for nine days he didn't know much about what was going on. Only his strong physique and good care brought him through successfully. He's entirely recovered now and has a good position as a geo-physicist with a San Angelo oil firm.

• • •

Seemed funny, yet natural, to be sitting at Rosenthal Field again Sunday afternoon watching a reasonable facsimile of the Hubbers in action. And the slim crowd, at least half of which came from Denver City, got its money's worth. It was a pretty fair game, considering the fact that the players haven't been playing for over a month now and that the baseball park has rundown rapidly since the season closed. The infield grass has crept out toward the outfield and the outfield grass has crept in toward the infield. Moreover, the grass hasn't felt a lawnmower's sharp blades since the season ended and the basepaths were pretty hard, as was the other ground. It's not surprising. In this lush country, it doesn't take long for grass to grow and overrun everything. At the same time, the playing field still was in pretty good shape, all things considered.

• • •

You may wonder what the players are doing during the winter. Nelson Davis is working for the Lubbock Parts company. Frank McAlexander and Floyd Walker are working at a cotton compress here. Don Moore is working at a gin with his brother Wilcy near Muleshoe. Charley Willis, Mike Dooley and Jackie Sullivan are working at M. L. Wilkison's radiator shop and garage. Bob Clodfelter is busy painting Rosenthal Field. Royce Mills is working at a local auto company's lot. Walker said that he would report back to Greenville in the spring, while McAlexander probably will be back with Corpus Christi, although he also might go to Greenville. Moore doesn't know what his future is, while Wilcy, as already chronicled, reports to a Chicago Cub farm club.

New Braunfels Is Impressive

(By The Associated Press)

What's the best Class A high school football team in Texas?

New Braunfels can point to an impressive record and put in a strong bid for this honor.

The Unicorns last week kayoed undefeated, untied Luling, 54-7, to chalk up another District 24 victory and run its scoring total for five games to 236 points to 40 for the opposition.

This week New Braunfels takes on another undefeated, untied team—Lockhart—in a district contest.

The Unicorns, who lost to Monahans, 14-0, in the state championship game last year, are heavy favorites to reach the playoff again this season.

Torrid Battle Staged

In the Panhandle and the high plains, there's a torrid battle going on for district honors.

In District One, Phillips, Dalhart and Hereford sport undefeated, untied records. Last week Dalhart crushed Sundown, 45-0, and Hereford walloped Silverton, 75-13. The 13 points Silverton scored were the first against Hereford this season.

Lefors, District Two's perfect club, blanked Shamrock, 20-0, in a district tilt. McLain had an easy time with Wellington and currently shares the lead with Lefors.

The big game in the Panhandle this week matches Dalhart and Phillips.

District Three is a jumbled affair. Crosbyton upset Abernathy, 20-6, to leave three teams tied for first with 3-1 records—Crosbyton, Abernathy and Spur. Floydada is only a step behind with a 2-1 record.

Crosbyton Meets Spur

This week, Crosbyton meets Spur and Abernathy tackles Paducah.

Littlefield smashed Muleshoe, 47-0, to continue its wild spree in the north half of District Four.

Post looks like the class of the south zone and its most crucial tilt will probably come Armistice day against Slaton.

Andrews tied powerful Kermit, 12-12, last week, but the Yellowjackets are still firmly aton the standings in District Five. Wink, victor over Seminole, 33-0, last week, is right at Kermit's heels.

Reports of other districts over the state are incomplete, but in 19-A, La Vega and West are the top title contenders; it's Mexia in 20-A; Cameron in 21-A, and Lampasas in 22-A.

Mt. Vernon has another powerhouse in East Texas.

Spotlight On Clash At Amarillo Friday

(By The United Press)

The top games of this week's Class AA and City conference schoolboy football will be inter-district battles, even though more than three-fifths of the schedule will be comprised of conference games.

In the spotlight will be Wichita Falls and Highland Park—two of the 11 undefeated, untied teams remaining as the race turns into the last half of the season as they clash at Wichita Falls.

Next in line for the limelight will be the Lubbock-Amarillo renewal of an old rivalry at Amarillo. Lubbock is one of the select perfect record group, while Amarillo is only once-removed.

Another Panhandle-South Plains inter-district scrap of wide interest involves unbeaten, untied Lamesa and a stout Pampa team that has forced Wichita Falls and Lubbock to the limits before going down in defeat. The game is scheduled at Pampa.

Five other undefeated, untied teams will be in action, two of them in conference play, while Port Arthur and Corsicana remain idle.

Ysleta meets oft-beaten Borger, Grand Prairie goes to Mineral Wells and Marshall entertains Beaumont South Park in the inter-district tilts.

Also in action will be the state's two unbeaten but tied teams. Baytown meets Texas City in a 12-AA engagement, and Houston Reagin plays Brownsville in another outside game.

CURL GETS TKO

SAN ANTONIO, Oct. 18 (AP) — Jimmy Curl, state middleweight boxing champion, scored a technical knockout over Felipe Aguilar of Monterrey, Mexico, at 2:47 of the second round last night.

Tech Reserves Get Hard Drill Monday

Although Coach Dell Morgan called an unexpected holiday for the majority of varsity players yesterday, there was a strong suspicion that the holiday would come to an abrupt halt this afternoon.

Players who saw the most action against Baylor Saturday suited up for light wind sprints and running, then went to early showers. That left the practice field to the remainder of the varsity and the freshmen, who held a practice game.

Everything but the kickoff was in the game, with one team taking the ball on the 40-yard line and starting off. There was no punting, either, but most of the time one team or the other had driven deep into enemy territory.

The varsity squad had its hands full trying to cope with the freshmen, although the Raiders won, three touchdowns to one. The varsity opened the scoring, only to see W. H. Barker even the count on a long run.

Coach Morgan was in a quietly observing mood, not saying much, but not missing anything. He occasionally talked plays over with Bill Lyman, quarterback and he corrected errors that linemen made. Otherwise he merely made mental notes on the ability of the various players to follow assignments and to make blocks.

The freshmen made it rough on the varsity. They opened holes consistently and only in their passing game did they fall down badly. It probably was the best showing of the year so far by the freshmen.

Few Injuries Sustained

Tech came through the Baylor game with minor injuries to several men, including Ends Dick Pirtle and Jack Davis, Tackle Jerrell Price and Guard Bill Stallings. None of the injuries are serious and all are expected to be ready for action in the Arizona game Saturday.

Pirtle and Stallings both have minor ankle sprains, but took light workouts. Davis re-injured his left arm, although it is not serious. And Price worked out without pads, although he saw no action.

Arizona will bring a team here that is entirely different from the one Tech beat 31-0 last year. Under a new head coach, Bob Windslow, and with a newly installed T formation, the Wildcats are capable of making it unpleasant for Tech.

Foe's Record Fair

So far the Wildcats have little on the record, with a 12-12 tie against Utah, a lopsided win over New Mexico Aggies and two losses to Border Conference teams, Hardin - Simmons and Texas Western.

But the Wildcat attack still is capable of being potent and in Charley Hall they have one of the top fullbacks in the conference. Hall gained 718 yards on 158 plays last year to rank second on the Wildcat team. He stands six feet, one inch and weighs 190 pounds and is a senior this year. In his Sophomore year, Hall gained All-American mention and his work last year showed him as a top star on the Arizona eleven.

PRAIRIE VIEW WINS

DALLAS, Oct. 18 (AP)—Prairie View defeated Wiley, 28-6, last night in a negro college football game at the Cotton bowl.

When Yale and Harvard meet in the Yale Bowl on Nov. 19, it will be the 66th game between the rivals.

Gophers Boast Strong Attack

MINNEAPOLIS, Oct. 18—(AP)—Some people have said that football teams coached by Bernie Bierman are dull and uninteresting.

Some people have said that Bierman's University of Minnesota teams could win only if they had so much brawn they could just wear out their foes. They have said his theory was to hit 'em in the middle, and then hit 'em in the middle again.

Passes Are Used

Those people saying those things aren't the players and coaches of Ohio State, Northwestern, Nebraska and Washington, however.

Those people have had a chance to look at the offensive weapons of the Golden Gophers this season. They have seen the Gophers uncork forward passes, lateral passes, reverses, and what have you.

And, too they've seen a couple of Gopher left halfbacks take off and run like scared deer.

For the first time in years, Bierman has the necessary human equipment to develop a strong, constant and impressive offensive attack.

Bye Leads Attack

Left Halfback Billy Bye provides powered deception in his running. His alternate, Dick Gregory, is churning at top speed within a few steps. Opponents' secondary defenses usually move back when Bye carries the ball so as to catch him as he squirts through some unexpected hole. It moves up when Gregory carries, trying to trap him before he gets out of low gear.

Burk-Ison Passing Combination Tops

DALLAS, Oct. 18—(AP)—The Baylor passing combination of Adrian Burk to J. D. Ison is the hottest thing in the Southwest conference football these days.

Look at the record: Baylor has the highest passing average in the circuit—46 out of 77 for a percentage of .597. Burk has thrown 68 of those passes and completed 45 for 489 yards and an average of .662. And he has passed for seven touchdowns. The catcher? Well Ison has taken 22 of those completed for 235 yards and three touchdowns. It is not unusual for Ison to catch six or seven in a row.

Burk has moved into third place in conference passing as regards yards gained but is the leader in the average of completions.

Top man in pitching the pigskin is Lindy Berry of Texas Christian with 62 out of 114 for 825 yards and five touchdowns. Second is Paul Campbell of Texas with 45 out of 81 for 747 and four touchdowns. Campbell ate up an amazing 259 yards last week against Arkansas.

Tobin Rote of Rice is fourth with 412 yards on 29 connections in 60 throws. He made 181 yards on Southern Methodist last week. He has passed five touchdowns.

Leon Campbell of Arkansas has surged back into first place in ballcarrying with 384 yards on 45 carries. Bob Smith of Texas A. & M. is second with 345 on 75 runs and Gordon Wyatt of Rice is third with 321 on 49.

Berry continues as the leader in total offense with 912 yards on 172 plays. Campbell of Texas is second with 661 yards on 95 plays.

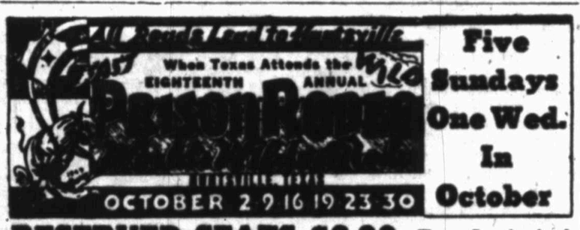

Texas tops in team offense with an average of 418 yards per game. Rice is second with 380 and Southern Methodist third with 351.

BUDDY GARCIA WINS

GALVESTON, Oct. 18 (AP) — Buddy Garcia, 140½, Galveston, punched out a unanimous decision over Choforo Martinez, 146½, Mexico City, in a ten-round fight here last night.

Safe-Crackers Are Sought In Denver

DENVER, Oct. 18. (INS)—The safe-blowing yegg is beginning to make headlines again.

In Denver today, hard-working yeggs battered their way into four safes in a downtown building by what detectives described as "sloppy but professional" methods.

The midnight Jimmy Valentines opped $1,122 in cash and jewelry, and just to make certain they had enough for coffee after the job was over, they broke open a piggy bank which netted them the staggering sum of $5 in change.

In their hurry, the yeggs overlooked several thousand dollars tucked away in an envelope.

Southwest Loop Cage Teams Open Practice

(By The Associated Press)

Southwest conference basketball teams started warming up for the 1949-50 season yesterday.

Don Suman, new coach at Rice, had four lettermen on hand for the first workout.

Only two lettermen were among 13 players reporting to Coach Buster Brannon at Texas Christian.

Coach Bill Henderson of Baylor had six lettermen veterans; Coach Jack Gray at Texas three, and Coach Marty Karow of Texas A. and M. four.

Each school reported a fair crop of newcomers.

Lack of a million dollars in foreign exchange is keeping Chile's national transport authorities from providing needed trolley buses for Valparaiso.

11-Year-Old Girl Is Believed To Be Youngest National Magazine Publisher In The Nation

★ ★ ★

By BERT GOLDRATH
NEA Staff Writer

KALAMAZOO, Mich., Oct. 14—When Printer Francis Edgecombe gave his young daughter, Barbara, a printing press and a box of type a few years ago, his only idea was that it might help her learn to spell.

Instead, the press has turned Barbara, now 11, into probably the youngest national magazine publisher in the country.

The basement of the Edgecombe home in Kalamazoo is the editorial office and printing plant of her brainchild, the "American Children's Magazine," issued once a month, a nickel per copy.

Publisher Barbara says her five-by-seven, eight-page magazine has a top circulation of 400 and a monthly income of as much as $25. She's also advertising salesman, circulation manager (and sometimes delivery boy), printer, pressman, artist and proofreader.

Has Safety Editor

And janitor, too; Barbara has to battle her father for more space in the family workshop, and just the other day had to suspend publication while she helped unravel the turmoil caused when the family furnace was switched to gas.

"It makes me furious," said Barbara. "I'll bet other national magazines never have this problem."

Almost everything in the magazine—recipes, poems, cartoons, stories and articles—is turned out by Barbara. Sometimes there's a stray contribution from one of the neighborhood children, and Barbara Gallup, 14, has joined the staff as safety editor.

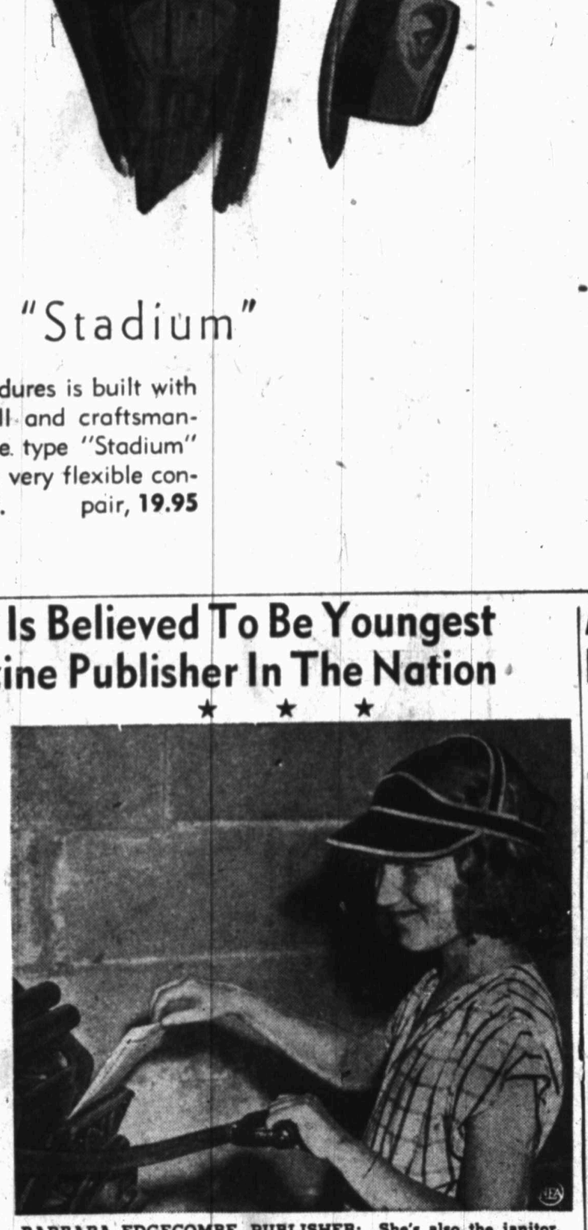

Organized in January, Barbara Edgecombe started out with two other girls as her staff. After several issues, chicken pox, homework and summer vacations took their toll. Barbara continued single-handed until the safety editor signed up.

Deadlines Elastic

The blonde boby-soxer is an expert at the disappearing art of setting type by hand, but she keeps her deadlines pretty elastic; the ads have to be sold first. Revenue from that source runs as much as $3 an issue, but the big income comes from circulation.

Labor costs are just written off. "We don't count our hours," Barbara explained, "because it's so much fun."

Hot off the press—which Publisher Barbara runs by hand—the magazine is sent out to readers in Kalamazoo, other nearby Michigan cities, and a dozen other states.

BARBARA EDGECOMBE, PUBLISHER: She's also the janitor.

MAY BE CANDIDATE

OKLAHOMA CITY, Ot. 18. (AP)—Frank P. Douglass, chairman of the National Labor Mediation board, may run for governor of Oklahoma next year.

Douglass said yesterday he was nearing a decision.

Export of Indian coffee dwindled to nothing last year from an average of 12,000 tons a year, a few years ago.

Composer Of "Big Spring Cantata" Seeks Pardon From Tennessee Life Prison Term

NASHVILLE, Tenn., Oct. 18 (AP)—A quixotic, mild-mannered man who combined petty crime with composing, has asked the state of Tennessee to free him from a life in prison.

Frank Grandstaff, the man who scribbled the notes to a 75-page cantata on his cell wall while serving a life sentence under Tennessee's habitual criminal act, has asked for a pardon. He petitioned the pardons and parole board yesterday.

He said he had tried to improve his "thinking and outlook" while in prison and that "opportunities in Texas and elsewhere for employment will redeem and put me on a plane of high endeavor."

Earlier, this month, Grandstaff flew to Big Spring, Texas, as guest of honor, to hear for the first time his 75-page choral work which depicts the history of the Texas town. The cantata was performed as the highlight of the Big Spring centennial. Tennessee's Gov. Gordon Browning allowed Grandstaff to attend the centennial in the custody of a Texas Ranger.

Wanted In Michigan

On returning to prison here, Grandstaff said his brief "taste of freedom" had made him hunger for life outside of prison walls. But he admitted the possibility of a pardon was slim.

He was convicted almost nine years ago in Memphis after a career of petty crime which included 20 conviction and penitentiary sentences in three states. Under the habitual criminal act he can not be paroled, only pardoned.

Pardon officials had no comment on Grandstaff's petition. They did say, however, that even if he is freed, the state of Michigan wants him for violation of parole.

The hearing on Grandstaff's pardon plea was set for Nov. 3.

Aerial Rangers Spot Big Game Chiselers

FLAGSTAFF, Ariz., Oct. 18 (U.P.)—The Arizona Game and Fish Department has taken to the air in a campaign against violators of the state's big game laws.

O. N. (Pop) Arrington, big game commissioner, termed the department's new "aerial ranger" setup a success following its initial operation during the antelope hunt on Anderson Mesa near here.

A state-operated plane flew low over the hunting area and radioed ground rangers when a violator was sighted. The ground party moved in then and tagged the offender.

Fines were levied against a number of hunters who we caught chasing antelope in cars. The "aerial ranger" spotted a hunter who was tracking game from another plane. He notified the ground detail, which was waiting when the hunter lahded.

Vernon Washington Named Top Hitter

LONGVIEW, Oct. 18 (AP)—Vernon (George) Washington of Gladewater was batting champion of the East Texas league with an average of .387, official averages announced today by Cecil E. Burdick, league statistician, show.

Washington got 198 hits in 512 times at bat.

John Stone of Henderson was second with .371 on 199 hits in 537 trips to the plate.

Fairbridge Memorial College at Induna, Southern Rhodesia, now has a Boy Scout troop.

Tot's Broken Heart Mended As Teddy Bear Lost On Vacation Is Recovered

DETROIT, Oct. 18 (AP)—The Robert W. Wolfe family arose refreshed this morning after the first good night's sleep in weeks.

Six-year-old Judy, with her teddy bear back, had stopped crying.

Judy lost "Jimmie" the bear while the family was vacationing in the west. Since she was one year old, Jimmie had been her constant and beloved companion.

Each night the parents had lain awake listening as the little girl sobbed herself to sleep. Then her father wrote pleadingly to the Automobile Club of Michigan.

Could they find a 10-inch, frayed teddy bear lost somewhere in the west?

Auto club agents sprang to the search and retraced the route taken by the Wolfes. At Denver they found Jimmie, cuddled in the arms of another little girl.

Last night Judy went to sleep contentedly. Jimmie was in his accustomed place as a pillow under her head.

The lights in the Wolfe home blinked out early.

POTENTIAL OF 214 BARRELS

New Discovery In Scurry Completed

Sunray Oil Corporation No. 1 Sentell has been officially completed as a discovery from the Strawn lime of the Pennsylvanian in central-north Scurry county, with a calculated 24-hour potential of 214 barrels of 43 gravity oil.

The daily potential was calculated from an actual flow of 107 barrels of pipe lime oil in 12 hours through a 15/64th inch tubing choke. Flowing tubing pressure was 125 pounds and flowing casing pressure was 875 pounds.

Production Natural

The production is natural, and is without any signs of formation water from open hole in the Strawn at 7,487-7,508 feet.

On a subsequent 24-hour test, following the potential gauge the well flowed through a 10/64th inch tubing choke and made 171 barrels of oil, and no water. Gas-oil ratio is about 200-1.

Flowing tubing pressure on the latest test reported was 300 pounds and flowing casing pressure was 1,000 pounds. The new discovery is now on production.

Location is 467 feet from north and west lines of tract 2, Dallas Trust & Saving Bank sub-division of the Grimes Ranch in block 1, J. P. Smith survey.

PRODUCTION TESTS WILL BE STARTED

C. L. Norsworthy, jr., and associates, No. 1 Feldman, possible discovery from the Ellenburger in central-east Scurry county, ten miles east of the town of Snyder, and 660 feet from north and east lines of section 64, block 3, H&TC survey, is bottomed at 7,362 feet and had cemented a string of 5½-inch casing at 7,310 feet, the top of the Ellenburger.

Operators will drill the plug and start production tests about the middle of the week.

This exploration had a recovery of 150 feet of very heavily oil and gas cut drilling mud and 4,492 feet of 46 gravity oil during a one-hour drillstem test at 7,315-62 feet.

Most of the fluid unloaded from the drill pipe while it was being pulled. Gas volume during the test was at the rate of 320,000 cubic feet per day. No formation water has been developed. Surface elevation is 2,251 feet. This venture was barren of petroleum in the Pennsylvanian.

REPORTS ON WELL APPEAR IN ERROR

Reports that the Olson, Glasco, Chambers and Zonne No. 1 Green, north-central Scurry county wildcat, two miles north of the town of Snyer and about two and one-half miles southeast of the nearest producers from the Canyon reef lime on the southeast side of the North Snyder field had entered the reef at 6,506 feet on an elevation of 2,447 feet, appear to

CO-ED BEAUTY — Shirley Hughes, who represented New Mexico in the Miss America contest in Atlantic City, is a freshman student at Baylor university this fall. As Miss New Mexico of 1949, Shirley won the talent award in the national contest. The brown-eyed blonde from Carlsbad, N. M., said she enrolled in Baylor to study art under Professor Edmund Kinzinger. (AP Photo.)

Youth Charged With Stabbing

WARREN, Pa., Oct. 18 (AP) — A 19-year-old boy is held without bail today on charges he stabbed his younger brother to death with a butcher knife during an argument.

Police Chief George Haehn said Richard Fowler admitted he stabbed his brother, David, 18, with a butcher knife Sunday night as they argued over some dirty clothes while unpacking a suitcase.

The police chief said Richard told him he went to the kitchen of their home, got the knife and lashed out at his brother. The younger boy lived only a few moments.

"Richard is very broken up by the death of his brother," said Haehn. "He told me "I didn't know what I was doing'."

Richard pleaded innocent to a second degree murder charge yesterday and was held without bail for the next term of court.

Lubbock Is Below Average In Chest Drives

City Is 25th In Goal Total

Lubbock's contributions to the Community Chest have been lagging for below the national average for cities of similar size the nation over.

Although eleventh in population in a group of cities of similar size ranging from 55,000 to 65,000 persons, Lubbock is 25th in its Community Chest goal total among the cities, 27th in the amount raised in the last Chest drive and 26th in per capita contributions.

Averaged Only $1.39

Lubbock's per capita contributions in the 1949 campaign average only $1.39 as compared with Jackson, Miss., and its average of $3.47 per capital. The average for the 34 cities of similar size over the U. S. was $1.88.

Lubbok's 1950 goal of $98,850 is negligible as compared to Amarillo's goal of $157,338.

Since founding of Lubbock's Community Chest back in 1946, there have been many benefits accrue from operation of the various agencies through the Chest drive.

Costs Are Low

Through 1947, 1948 and the first half of 1949, the Lubbock's Boys' Club fund has provided healthy, supervised activities for some 1,800 boys between 9 and 17 years of age. A total or gross attendance during that time of 407,500 was experienced with the cost to the community being approximately ten cents per boy each time in attendane.

The Boy Souts during the same period have reached 1,000 boys at a cost to the community of approximately $1.43 per boy per month.

The Girl Scouts have provided for some 950 girls at a cost of approximately 80 cents per girl per month.

Milam Home has provided care for an average of 25 children per day (this includes food, clothing and all other expenses of a normal life) or a gross of 11,825 child days at a cost of $1.23 per day per child, approximately $36.90 per month.

Salvation Army Busy

The Salvation Army during the same period has received $32,-969.50 which has been used to carry on regular religious services for the underprivileged, maintained a youth program for the underprivileged children and in addition has provided family welfare services to 1,104 local families who received as assistance groceries, fuel, rent and 35,854 articles of clothing. A total of 1,566 transient families were furnished lodging for 2,108 nights, 3,720 meals and were furnished 2,820 articles of clothing.

The Community Chest operates a Confidential Exchange, where records of all welfare and charity cases handled by the various agencies in Lubbock are maintained by family name and address. Suf-

WHERE'S MY MAMA?—The missing persons bureau at the State Fair of Texas in Dallas did a rushing business as the kids of the city took over the big show for their special day. Shown is a portion of the crowded facilities of the bureau as the youngsters wait for relatives or friends to "find" them. AP Photo.)

COUPLE IN COLLEGE PRAYING FOR LIFE OF SON

Baylor U. Students Chip In To Pay Hospital Expenses Of Baby Near Death From Cancer

WACO, Oct. 18. (U.P.)—Baylor university students chipped in nickles and dimes today to pay hospital expenses for the baby son of Mr. and Mrs. Wayne Franks, both war veterans attending school under the G. I. bill of rights.

The baby, 15-months-old Eddie Wayne Franks, was near death in an oxygen tent, the victim of abdominal cancer.

"His case is completely out of our hands," said his mother, Anna Ruth Franks. "It will truly be an act of God if he gets well."

Merchants Assist

The parents' fellow students at Baylor were determined that the boy should have every possible means of treatment.

They threw small change and, when they could afford it, dollar bills into a fund to pay medical expenses for Eddie.

Already the fund had swelled to $200.

Waco merchants joined the scheme. They fostered a downtown campaign to raise additional money for the family.

An ice cream company planned to donate 20 per cent of one day's receipts to the fund.

Doctors said the type of cancer that struck Eddie was highly-malignant and rare in a child of his age group. They have already operated on him for the ailment, they said, and he is responding "well" to x-ray treatments.

Faith In Waco Doctors

Baylor students suggested that their fund be used to send the boy to a nationally-famous medical center specializing in child cancer but the parents said "we have complete faith in the Waco doctors."

Eddie was stricken three months ago. His brunette coed-mother said she thought at first that he wouldn't eat "because he was cutting teeth."

When the ailment persisted, doctors diagnosed the swelling of his abdomen as a tumor. The operation later revealed the malignant growth.

Mrs. Frank said she and her husband were praying for their son.

"We can't give up hope," she said. "I heard of a case like this in Boston where the child recovered and is now 13 years old. I believe

JOAN PROUTY

THE QUESTION

What experiences have you had in trying to find a house in Lubbock?

(All answering this quesetion are stationed at the air base)

THE ANSWERS

LELAND HICKS, Army base, Senior civilian mechanic: "This is the third week I've been looking for a house. I have to have something with at least two bedrooms, because I have two school children. I've looked Lubbock over from one end to the other and even in Levelland and I can't find a thing. Everything so far has been too high."

LT. COLONEL J. N. JONES, Air base, Inspector General: "I just haven't been able to find a house. The suitable houses have been too high and the rest are too small, or don't meet our requirements."

TECHNICAL SGT. G. E. LAWRENCE, air base, airplane crew chief: "I've looked both in Lubbock and Levelland and can't find a house at all. The price range is just too high. When you start having to pay over two-thirds of your base pay for house rent, then something is wrong."

TECHNICAL SGT. HENRY J. MAY, Air base, assistant crew chief: "I have been looking for a house for my family, but I haven't been able to find a thing. I can't find one large enough for the price that I can afford to pay."

M/SGT. LEO GREGGS, Air base, worker in housing office: "I have a friend who was paying $87.50 per month for rent and his landlady voluntarily lowered it to $50 per month. As soon as I get her name, I'm going to send it to Breakfast in Hollywood for the the good neighbor orchid."

MAJOR WAYNE MIDDLETON, 2022 Thirty-Ninth, Co. 3501 maintenance division: "We have 16 men that have to date been unable to find houses within their means. Most of them have children and need a larger house but the prices are just too high for them."

Chile recently has sold over $1,000,000 worth of railroad ties to foreign nations.

Baptist Men Plan Meet Here Tonight

Dr. A. D. Foreman, sr., Baptist layman of Abilene, will be the principal speaker and the Hardin-Simmons university male quartet will sing at a meeting of men of the First Baptist church tonight in the main auditorium of the church.

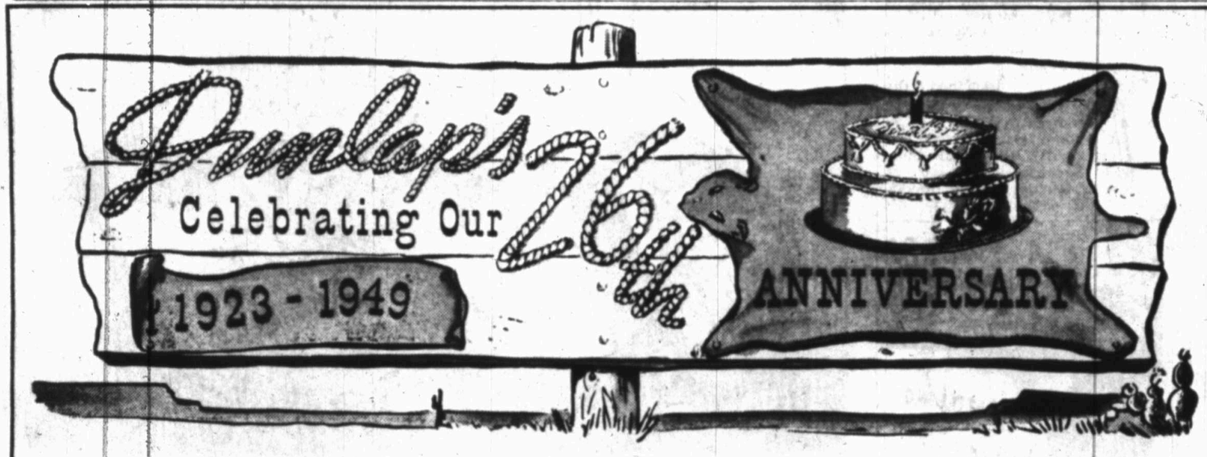

A free barbecue will be served at 6:45 p.m., preceding the meeting in the auditorium, on the lawn west of the educational building. In event of inclement weather, the barbecue will be served in the Sunday school annex.

George McCleskey, president of the Baptist Brotherhood, will be master of ceremonies.

Following the barbecue, the program will include: 7:30 p.m., singing by quartet; 7:45 p.m., welcome from the deacons, Irving Jones, chairman; 7:50 p.m., report from the building committee, Dr. F. B. Malone, chairman; 8:05 p.m., singing by quartet; 8:20 p.m., address, Dr. Foreman; 9 p.m., benediction, Dr. J. Ralph Grant, pastor.

WINTER STARTS EARLY

LONDON, Oct. 18 (AP) — Winter has started early in Russia beyond the Ural mountains, Moscow radio reported today. It said snow has fallen throughout the region of Kurgan.

One group of blouses in assorted colors and styles. These fine blouses are values up to 6.95.

New Discovery Well In Scurry Completed; Others Are Staked

(Continued From Page One)

have been in error.

The project did encounter a lime streak at 6,506 feet, and drilled to 6,514 feet. The measurement was corrected to make 6,514 feet equal 6,497 feet.

Operator then cored from 6,497 feet to 6,508 feet on the corrected measurement. Recovery was nine feet of shale.

The core hole has been reamed out and operators are preparing to drill deeper.

Apparently the lime section which was penetrated was a lime stringer above the Canyon reef.

This exploration is 660 feet out of the northwest corner of the northwest quarter of section 157, block 3, H&GN survey.

ROTARY EXPLORATION IS BEING PLANNED

Sunray Oil Corporation No. 1 J. W. Newton is to be a 7,000-foot rotary exploration on the southeast side of the North Snyder field of north-central Scurry county to test the Canyon lime reef.

Slated to begin operations immediately, No. 1 Newton will be located 507 feet from north and 517 feet from east lines of the southwest quarter of section 160, block 3, H&GN survey, and five miles north of Snyder.

OPERATIONS ARE TO BE STARTED SOON

Newman Brothers Drilling Company, Alaska Steamship Company, and Calvert Corporatoin, are due to start operations soon at heir No. 1 Hugh Boren, scheduled 7,000-foot wildcat one and three-quarter miles west of the nearest producers from the Canyon reef lime on the north side of the Kelly field in Central Scurry county.

This prospector will be located 467 feet from south and east lines of the northeast quarter of section 247, block 97, H&TC survey and five miles west of Snyder.

Rotary tools will be used.

LOCATIONS FOR FIVE STEPOUTS STAKED

Pan-American Production Company of Houston, has staked locations for five stepouts to production from the Canyon reef in the Kelly field of Central Scurry county, all of which are to drill to around 7,000 feet to test the Canyon reef.

The company's No. 1 J. T. Biggs will be located 660 feet from north and 330 feet from west lines of the northeast quarter of section 205, block 97, H&TC survey.

No. 2 J. T. Biggs will be 330 feet from west and 467 feet from south lines of the northeast quarter of section 205, block 97, H&TC survey.

Pan-American No. 3 Biggs is to be 330 feet from south and 660 feet from east lines of the southwest quarter of section 210, block 97, H&TC survey.

No. 4 J. T. Biggs will be 330 feet from south and 467 feet from west lines of section 210, block 97, H&TC survey.

Location for the fifth stepout, Pan-American No. Effie Ramsey, will be 467 feet from north and west lines of the southeast quarter of section 205, block 97, H&TC survey.

All of the projects are about six miles west of Snyder and are to be drilled with rotary tools.

LOCATION FOR NEW TEST NOW STAKED

Lion Oil Company has staked location for its No. 1 Thurston on the east side of the Diamond-M field of Southwest Scurry county.

The drillsite will be at the center of the northwest quarter of the northeast quarter of section 183, block 97, H&TC survey. It is an east offset to the company's No. 4 Gertie, now in the process of completion from the Canyon lime.

Contracted depth is to 7,000 feet to explore the Canyon lime. Drilling is due to be started immediately, using rotary tools.

firmly that our prayers will help."

Their fellow students were praying with the parents.

Franks, whose home is at Bryan, Tex., is 25 and a senior in the Baylor school of business and holds a letter for baseball. Mrs. Franks, 24, is a sophomore from Newcastle, Pa. She served with the women's marine corps during the war.

Paraplegic Students Do Not Ask Favors

LOS ANGELES, Oct. 18 (AP) — UCLA's 59 paraplegic students ask no favors, and get none. They do all right without help. Paralyzed below the waist, they navigate in wheel chairs. But to the rest of the campus they are just fellow students—and good ones.

In four years, wheel chair students at UCLA have increased from two to the present 59. Forty-eight are veterans. Four of the non-vets are women. They registered for classes this year just like the rest of the scholars. They sit in the same classes, get the same assignments as anybody else. They major in such varied subjects as physics, psychology, law, business administration, economics and music. Last year three of them received straight "A's."

The University's office of veterans affairs, which looks after the rolling brigade, recently disclosed that the group has a higher grade average than the 4,000 veterans on campus. The vets, in turn, are better students than the other undergraduates.

The present Library of Congress building, Washington, represents an investment of between eight and nine million dollars.

"HAPPY BIRTHDAY, BOO HOO"—These six solid citizens were born within 15 minutes of each other in a Cleveland, O., hospital a year ago. Their mothers thought a first birthday party would be just grand, but somehow the kiddies didn't take to it. Though all the mamas were hovering nearby, none could determine the issue that reduced all the babes to tears, some to tantrums, and made the party a howling success.

Beirut University Gives Students Aid

BEIRUT, Lebanon, Oct. 18 (AP) —The American University of Beruit has set up a "little Marshall plan" for students among Arab Palestine refugees. The head of this oldest U. S. educational institution in the Middle East started an education program last year based on the principle governing the European Recovery Plan—help people to help themselves.

Applicants—who were to receive free education plus allowances for sustenance—were carefully screened, since the funds were limited. Priority was given to students closest to graduation when the war started.

During the 1948-49 school year, the University extended assistance to 234 Palestinian refugee students. University heads are hopeful that their appeals for the program during the coming year will raise enough money to cover expenses and expand the number of students receiving help.

Woman And Children Are Found In Park

BIRMINGHAM, Eng., Oct. 18 (AP)—For almost seven months 41-year-old Mrs. Mary Smith and her three small children lived like rabbits in Birmingham parks. They slept under bushes and in tool sheds, tidied themselves in the wash rooms, ate when something came their way.

A magistrate could hardly believe the evidence and police said they couldn't understand how they managed it so long without detection. Mrs. Smith, deserted by her husband and homeless, was told last March to place the children in an institution. She couldn't bear to part with them, and took to the parks. Said Police Sergant John McCabe: "Stranger still, the children were clean, well dressed and well nourished."

It ended as Mrs. Smith had feared. Homes will be found for the children and the mother was placed on probation for "exposing the children to unnecessary suffering."

Hair-Eating Answer To Child's Problem

SOUTH BEND, Ind., Oct. 18 (U.P) —Roberta McCay, nine, is putting on weight again, but there was a time when eating was a chore for the youngster.

Her life was just one unhappy round of visits to the doctor's office, vitamin pills and cod liver oil.

The doctors didn't know what was wrong and neither did her parents—Mr. and Mrs. Robert J. McCay. Until one night Mrs. McCay, who had noticed little bald spots on her daughter's head, decided to keep vigil by her bedside for a clue.

Patiently, Mrs. McCay watched, while the child slept.

Suddenly, Roberta stirred. She touched her head slowly, curled a few strands of hair about her thumb, put it into her mouth and swallowed.

The next day the doctor X-rayed and found a ball of hair in Roberta's stomach.

After the operation, an unusual one for humans, Roberta gained five pounds in less than a month.

She now wears a pair of canvas mittens and a hairnet to bed.

JAR OF 3,000 B. C. — Mrs. Anna Wong views an earthenware jar of about 3,000 B. C., oldest piece in exhibition of rare Chinese art at St. Mary's Chinese Mission, San Francisco.

Nehru Says India To Take No Sides In East-West Cold War

NEW YORK, Oct. 18 (AP)—Prime Minister Nehru of India declared last night his country intends to take no sides in the cold war.

But India, he emphasized, will "not be neutral" in situations where "man's liberty or peace is in danger." Neutrality then, he said, would be "a betrayal of what we have fought for and stood for."

The Indian statesman voiced his statement of policy in a speech accepting an honorary doctor of laws degree bestowed on him by Columbia university.

Nehru declared that "the very progress of marshalling the world into two hostile camps precipitates the conflict which it is sought to avoid."

He recalled the teachings of the late Mohandas K. Gandhi, India's beloved champion of freedom, who preached brotherly love.

Indian foreign policy, Nehru said, has these "main objectives":

Hits Race Inequality

"The pursuit of peace, not through alignment with any major power or group of powers, but through an independent approach to each controversial or disputed issue; the liberation of subject peoples; the maintenance of freedom, both national and individual; the elimination of racial discrimination; and the elimination of want, disease and ignorance which afflict the greater part of the world's population."

"Political subjection, racial inequality, economic inequality and misery—these are the evils which we have to remove if we would ensure peace," the prime minister declared.

Contending "racial superiority has been most widely and most insolently exhibited" by westerners toward Asia and Africa, he called racial discrimination "one of the great danger points of our modern world."

"Out of this evil may come a conflagration of which no man can see the range of consequence," he warned.

Russian Language Is Popular In College

MARIETTA, Ohio, Oct. 18. (U.P) Marietta is probably the only college in the nation where more students last summer studied Russian than all other foreign languages combined.

The language professor teaching the course said sincere desire to understand modern Russia accounts for its popularity and not Communist dogma.

The professor described the present day land of the Soviets as "under the Bolshevik regime, an ancient Asiatic tyranny terrorizing a potentially wonderful country with the new modern horrors of atheism, secularism and mechanism."

High Bond Set For Suspect

WHITEFACE, Oct. 18 (Special) Bond of $20,000 was set here Monday by Justice of the Peace H. B. Robbins for Leo Nichols, 37, charged with assault with intent to murder in the Friday night shooting of his wife.

Nichol's only comment when the amount of bail was announced was "that's a pretty high bond, isn't it?"

The suspect has been held in the Morton jail since shortly after the shooting following his arrest by officers summoned by his nine-year-old son, Bobby Jack.

Mrs. Nichols, meanwhile, remained near death in Phillips-Dupre hospital at Levelland, a bullet which entered her chest and severed the spinal cord still is lodged in her body. Her condition has remained unchanged since she was brought to the hospital a short time after the shooting.

Mrs. Nichols earlier told Sheriff Charlie Bullock of Hockley county that her husband came home drinking, got the gun and fired the one shot that hit her. There was no argument, the woman said.

Cochran County Sheriff H. D. Crockett said Nichols had made no attempt to post bond late tonight.

White fur coats with the luxury appeal of ermine, but the pocketbook appeal of muskrat, may be what the fashionable woman will wear some years in the future. They will come from the backs of a new kind of muskrat found in the swampy lands of Maryland.

Toastmasters Group Has Varied Program

Members of the Toastmasters club heard a varied program in their regular meeting in the Hilton hotel Monday night.

Winston Robertson spoke to the group concerning women jurists, Dr. Marshall Harvey gave a humorous talk; Larry Copenhaver spoke of a pheasant hunting trip in North Dakota, and Dr. M. H. Benson spoke to the group of the Community chest drive.

Guests of the club were LAFB officers, Maj. S. W. Newman, personnel officer; Maj. William S. Hale, assistant adjutant; Maj. Dale A. Shaver, adjutant and Maj. Dean B. Brown, military personnel officer. Dr. Nelson Nichols, D.D.S., was guest of Dr. J. M. Reynolds.

STOPS LAXATIVES—FEELS BETTER!

"Have been eating KELLOGG'S ALL-BRAN 3 years and it's wonderful! Now I don't ever need a laxative, feel so much better. I've told plenty of others too!" Mrs. Jerry Russell, Route 8, Maryville, Tenn. *Many other grateful ALL-BRAN users write the same.* You may be helped, too, if constipated due to lack of bulk in the diet; start eating an ounce of crisp, toasty ALL-BRAN daily, drink plenty of water. If not satisfied after 10 days, send empty box to Kellogg's, Battle Creek, Mich. DOUBLE YOUR MONEY BACK!

at Furr's

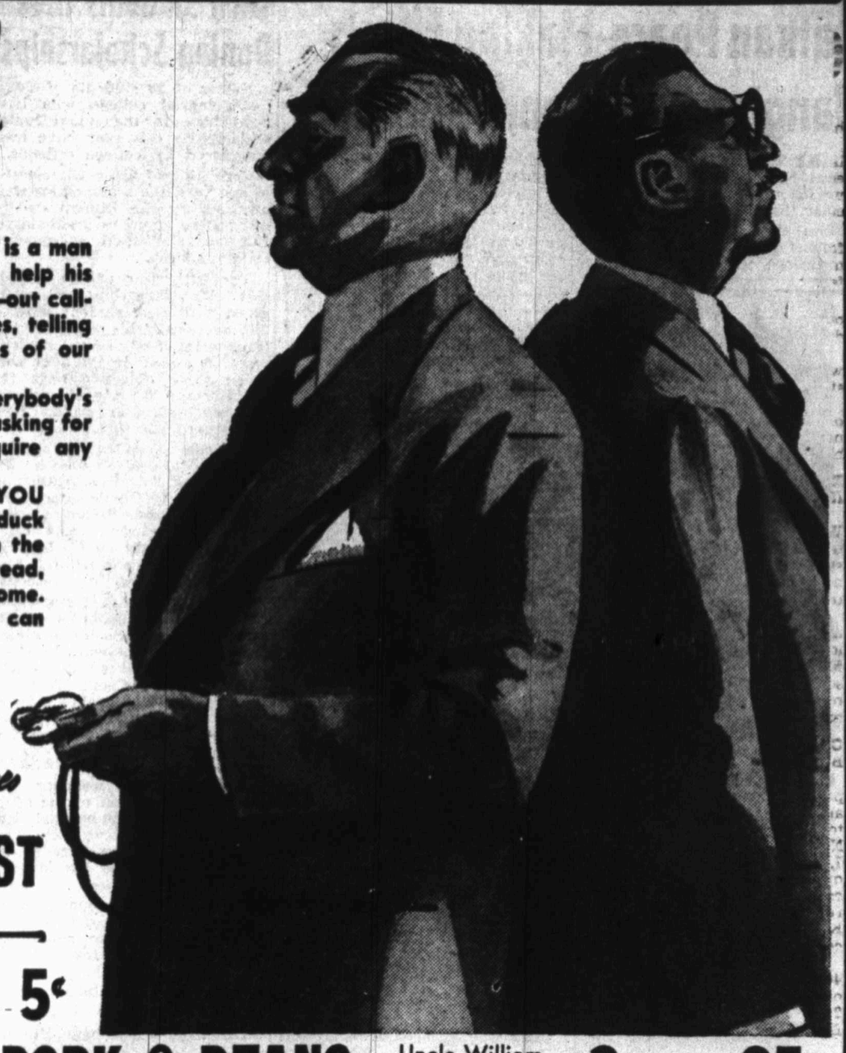

Again Furr's will be an active participant in Lubbock's great Community Chest campaign. In all such worthy community projects, Furr's personnel is not only sympathetic through giving but shares in the actual operation of the task.

And one of them is you. The other one is a man who is giving a lot of his own time to help his neighbors. He's giving his energy, too—out calling on people at their homes and offices, telling people about the Red Feather services of our Community Chest.

It really isn't his job alone. It's everybody's job. But he is a Red Feather volunteer, asking for money for a cause that shouldn't require any begging or groveling.

Where do YOU come in Why, YOU are the man who doesn't flinch or duck or hide behind a lame excuse when the first chap says "Red Feather." Instead, you smile and make him feel welcome. Then you dig down deep for all you can afford to give.

That brings your size up to his!

Everybody benefits... Everybody gives

Balkan Peace-Making Efforts Hanging By A Slender Thread

LAKE SUCCESS, Oct. 18—(AP)—United Nations peace-making efforts for the Balkans hung by a slender thread today.

More than two weeks of attempte to find a path to peace for Greece and her communist neighbors apparently found little accomplished.

Assembly president Carlos Romulo, head of the special conciliation committee, prepared to go before the assembly's political committee and report what luck the group had—if any.

He had little encouragement when the conferees broke up last night, still waiting for Yugoslavia and Bulgaria to transmit the answers of their governments, and uncertain that Albania would modify her undisclosed stand.

Hopes Prove Vain

There was little hope that Albania—accused of aiding the communist-led guerrillas in the Greek civil war—would adopt a more conciliatory stand.

The big powers—the United States, Britain and Russia—were called into the peace-making efforts this year for the first time, and it was on Russia's answers that the conciliation group pinned most of its hopes. Those apparently proved vain.

Draft agreements to be signed by Greece, Albania, Bulgaria and Yugoslavia were at the hard core of the Romulo peace-making program, however.

If Russia calls off her support of Greek rebels—a defeated guerrilla army that failed to unseat the Athens governments and yesterday it was halting the fighting temporarily—then one of the big sources of irritation in the Balkans is removed.

New Threat Seen

But if guerrillas are being moved from Greece, from Albania, and from Bulgaria to lessen pressure on Greece only to multiply pressure on Russia's most open enemy, Yugoslavia, a new Balkan train of events is being set into motion.

Russia also occupied two other important spots today.

The security council meets this afternoon to weigh again proposals for a census of all arms, including atomic weapons, and to force verification of the count. There was no doubt that Russia was prepared to veto verification as an invasion of her sovereignty, as she had done in the past.

On the security council agenda also was Egypt's demand that the council take up demilitarization of the area around Jerusalem.

Soviet Foreign Minister Andrei Vishinsky prepared a rival attraction for a half hour after the security council scheduled its meeting. He is holding his first news conference since he became Russia's foreign minister last winter.

Tech Students Given Dunlap Scholarships

Names of 20 students of Texas Technological college who have been chosen for the annual Dunlap scholarships this year have been announced by college officials.

Consisting of $50 each semester of one year, the scholarships were awarded by the Dunlap department store chain to graduates of Lubbock and eight surrounding county schools.

The fifth year of the awards, this fall's scholarships will not be given until each student shows a 2.00 average on his semester's college work. Sixty-seven students from 38 schools in the area were given three objective tests this summer and the winners selected by specialists who graded them, college officials said.

Students accepting the scholarships included Joan Slover, Tahoka; Olga Ansinec, Whitharral; Hubert Gentry, Shallowater; Glyndon A. Dawson, Slaton; Herbert S. Hicks, Meadow; June Covy, New Deal; Mary Jo Gaston, Sudan; James Francis Gilbert, Sundown; Mary Helen Bruce, Cooper; Jack L. Ross, Levelland; James Dent, Plainview; Leola Faye Dunn, O'Donnell; Patsy Scales, Wellman; Lura Coleen Baldwin, Lubbock; James H. Wells, Frenship; Shirley Schmidt, Post; Cecilia Winningham, Lorenzo; Gerald Wayne White, Olton; Mildred Carr, Abernathy; and John M. Starnes, Cotton Center.

VIRGINIA-GROWN — All set for the Tobacco Bowl Festival in Richmond, Va., is pretty Mary Buckmeyer, above. Mary's leafy costume is all tobacco. Anybody got a light?

Lubbock Rotary Club To Hear Official Of Purdue University

Dr. George E. Davis, director of student affairs at Purdue university and widely known authority on the life of James Whitcomb Riley will address over 100 members of the Rotary club and their wives or dates at a Ladies' night program at 7 p. m. today at the Lubbock Country club.

Dr. Davis is expected to recite a number of the famous Riley poems for his audience. He is considered one of the best informed on the life of the Hoosier bard other than those who knew Riley intimately.

The Purdue educator is a native of Ohio, graduating from the University of Iowa and later receiving his master's degree there after serving with the Army of Occupation in Germany after World War I. He completed his work for the doctors degree at Iowa in 1937 and immediately joined the Purdue faculty in charge of teacher placement.

A former high school superintendent at Keokuk, Iowa, Dr. Davis was advanced to his present position in 1944, in charge of all matters pertaining to student life and activity on the campus.

He has spoken many times in Indiana communities, usually including readings of several Riley poems. He is said to interpret the writings better through his knowledge of the bard's life.

Reserve tickets for the ladies' night program may be purchased until noon today, according to Roy Furr, chairman of the ladies' night committee.

A dance will be held following Davis' talk. Music will be furnished by Burl Hubbard and his orchestra.

YELL LASTED

COLUMBUS, Ga. (U.P.)—City hospital reported treating an overexuberant football fan whose mouth stuck wide open when he yelled, "Yea, Georgia Bulldogs."

TANKS UP

GREENVILLE, S. C. (U.P.)—Police said a 340-pound negro arrested after emptying a half-gallon jar of whisky claimed he was "just feeling good."

To make a quick relish-dish for a platter of cold cuts mix cold cooked snap beans with French dressing and cooked beets cut shoestring-style with sour cream and seasoning.

QUESTIONS AND ANSWERS

On Lubbock Community Chest

EDITOR'S NOTE: Lubbock's Community Chest campaign opens today and already leaders in the campaign are answering questions about the Chest organization from workers who do not fully understand all the facts about the drive. In order that Avalanche-Journal readers may know all about the Community Chest the following question and answer article has been prepared by A. B. Watkins, publicity chairman of the Chest drive.

* * *

Question: Why a Community Chest?

Answer: A Community Chest saves time and money. By relieving the executives of the various member agencies from the necessity of preparing for individual campaigns it permits them to spend full time on the job for which they are employed. Campaign costs are approximately the same whether the goal is for $10,000 or $100,000. So if each of the eight agencies conducted separate campaigns the campaign costs would be multiplied by that amount. Eight separate campaigns would require the volunteer workers to spend eight times as long working to raise the funds needed by these member agencies.

Question: Who benefits?

Answer: Everybody. Surveys show that one family out of each three in Lubbock benefit directly by having a son or daughter who participates in the program of one or more of the agencies. All families benefit indirectly through the wholesome influence these services have on the youth of the Community.

Question: Who Gives?

Answer: Everybody. Every citizen has an obligation to help support these worthwhile programs.

Question: Where does the money go?

Answer: The money raised in your Community Chest drives go to the member agencies to support their work. The goal of the Community Chest campaign is set by obtaining the total of the approved agency budgets.

Question: Who decides how much each agency will receive?

Answer: The board of directors of the Community Chest makes the final decision after receiving the recommendation of the budget committee who have made detailed studies of the needs of the agencies.

Question: Who are the member agencies of the Chest?

Answer: The Boy Scouts, The Lubbock Boys Club, The Girl Scouts, The Jr. Optimist Boys Club, Milam Home, Carver Heights Nursery, The Lubbock Service Organization, and the Salvation Army.

Question: Is all the money accounted for?

Answer: Yes. All receipts are audited by licensed accountants immediately after the campaign is over.

Question: What is my fair share?

Answer: Your fair share must of course be determined by you. What would you give to each of the member agencies if they each asked you separately? The accepted standard of giving is one (1) day's pay. The volunteers who call on you are giving more than that, plus their time working on the Campaign.

Question: What do business men think of the Chest?

Answer: That can best be answered by listing the names of the men who give their time throughout the year as members of the Board of Directors:

Roy Riddel, V. Pres., First Nat'l Bank, president; Raymond Burford, Mgr. Baldridge Bakery, vice president; A. B. Watkins, Dunlap's, vice president; Charles E. Maedgen, jr., V. Pres. Lubbock Nat'l Bank, Treasurer; and Charles Bacon, Investments; R. F. Bayless, retired; B. H. Bird, St. Francis Hotel; K. N. Clapp, Cotton; D. O. Dawkins, Luther Transfer & Storage; J. Ray Dickey, Scoggin-Dickey Buick Co.; P. T. Glazer, Davis & Humphries; J. D. Hassell, jr., Hemphill-Wells; Wyatt Hester, Hester's Office Supply; Irving L. Jones, Investments; Retha Martin, Dunlap's; E. T. Pope, Hanna-Pope Co.; Garnet Reeves, Garnet Reeves Ins. Agency; J. C. Sanders, Lubbock Tailoring Co.; Newton Walton, Walton's Men's Store; C. A. White, Cornell & Co. Auditors; Neil Wright, Jr., Oldham-Wright Ins. Co., directors.

Question: What does Labor think of the Chest Movement?

Answer: Nationally the Community Chest campaigns' have been endorsed by Mr. W. P. Kennedy, Brotherhood of Railroad Trainmen; Wm. Green, A. F. of L.; John L. Lewis, U. M. W. and Phillip Murray, A. A. W. U.

Question: Why don't the agencies pay their own way?

Answer: Their services are free to all who need them.

Question: What do I get out of it?

Answer: A better community in which to live. The satisfaction of doing your share to lighten the burden of the under-privileged, and worthwhile recreational facilities for your children.

Question: Can I give through the Chest to some of the agencies but not all?

Answer: Yes. You can make your check payable to the agency you wish to receive it.

Question: Do I have to pay all cash now if I give?

Answer: No. The Chest doesn't need all cash at once. You can pledge an amount you wish to give and pay anytime during the next year, at whatever time you wish.

BEN MOORE, sr., the O'Donnell naturalist, read with interest our comment here the other day about whether the condition of the moon at branding time has anything to do with brand scars' growing with the animal, or not growing with them.

According to Mr. Moore, his father once purchased, on the open range, a young cow bearing the "HV" brand of William Hitzfield. The "HV" practically covered the young cow's side.

That was many, many years ago, but Mr. Moore recalls that oldtimers then referred to the cow's having been branded "during the increase of the moon," hence the scar grew with the animal.

Has anybody else any testimony to offer?

★ ★ ★

"Hey, Pop," hollered the 12-year-old, "what's 'humility'?"

"'Humility,'" answered the Old Man, from behind the Sports page, "is what a man shows—until he gets the upper hand!"

★ ★ ★

TEXAS Tech Homecomings are becoming more and more of a bang-up feature each year and the observance last week-end was a double-honey. The weather was perfect; a lot of exes were on hand; the parade was the best in history and no tragedies—even minor ones—marred the day, except for the game loss to Baylor. Even that wasn't so bad as most anticipated.

But before the 1949 Homecoming is lost in the limbo of time, we've got a couple of suggestions to those who lay the plans for Homecomings of the future.

The first suggestion is that some way be worked out under which the floats can be driven about the stadium's oval just before the game begins, or at half-time.

The second is that the schedulers put Homecoming on a day when Texas Tech meets a football team it has a chance to beat.

These two innovations would prove a big boon to Homecomings.

★ ★ ★

To be sure, parading the floats at the game would necessitate persons taking part in the parade remaining in costume for several hours longer than is necessary under present conditions.

To be sure, they'd have to leave their seats at the game—if the procession were held at half-time—a few minutes early in order to take their places. But even so, the results would justify the trouble and there's no reason why arrangements couldn't be made for persons taking part in the parade to have their seats together, at a spot in the stadium where they'd have easy and quick ingress and egress.

A lot of planning and a lot of work goes into those floats. It's a shame that they are used only in the parade, which many persons at the game do not have a chance to see. Floats in the future are likely to be bigger and better than ever, due to the competition certain to increase because of the big, new Thomas cup now being offered winners.

And a parade of floats at the game would be a fine added feature to the festivities—especially since the crowd would get a first-hand view of the prize-winners after their announcement.

★ ★ ★

AS FOR the football angle, per se, we can't see any good argument in making the Homecoming game one whose outcome is practically a foregone conclusion, as was the case this year and last year.

It's pretty tough on the exes, as well as everyone else, to squeeze the last ounce of happiness and satisfaction out of a Homecoming in which their team takes a shellacking—especially a shellacking everybody knows is coming.

We don't mean that the Homecoming game should be a "set-up." We think it should be a good game in which participants have as equal a chance as is possible to assure a year ahead.

But it would be a great deal better all around— as we see it—for Tech to play Arizona, New Mexico, Hardin-Simmons, or any other team more in its own class, than to go against some Southwest conference eleven which comes to town merely to go through the motions of a ball game.

★ ★ ★

It isn't a matter of dollars and cents, always of first importance to college football these days.

A SWC team can always draw a big crowd in Lubbock. It doesn't have to be here on a Homecoming day to fill the stands. On the other hand, Homecoming always draws a big crowd,too. So a change in the scheduling policy more than likely would aid a season's total gate, rather than hurt it.

★ ★ ★

THERE'S another angle, too. If Tech played Hardin-Simmons, Arizona, New Mexico, or even Texas Western (formerly Texas Mines) on Homecoming, the chances are those teams would be accompanied by their bands and a student rooting section. They could help make a better show at half-time, and throughout the game.

As was the case this year and last year, the SWC teams come out for their cut of the gate—sans band or half-time show—and that's all. To the visitors it's just another job of work, a breather in Mid-season.

The Tech Homecoming is getting to be a very fine thing. It will continue to be bigger and finer as the college grows older, has more traditions and more alumni.

The feature should be better promoted and better encouraged; it should be given more thought, so it can be just as big and just as fine as possible.

BY DREW PEARSON: STEEL BOXES SELF SO IT CAN'T SETTLE WITH LEWIS OR MURRAY

Louis Johnson Parries Questions On Yugoslavia

WASHINGTON.—John L. Lewis is now about as sore at U. S. steel as his once friend, now rival CIO chief Phil Murray. This was behind John L.'s sudden walkout from the conference with northern operators at White Sulphur Springs, Va., and here is the inside story of what happened.

PEARSON

Lewis had put out a "feeler" to northern owners that they settle the strike by increasing the 20-cent welfare fund payments to 30 cents a ton. Also, Lewis suggested a small, straight wage increase, plus a seven-hour day at the same wages the miners now receive for eight hours work.

All this was not a take-it-or-leave-it demand, but a suggested basis for negotiation. The miner boss made it clear that he was chiefly interested in a boost in welfare-fund payments.

The very fact that Lewis had made an "offer"—even through the feeler method—was big news, since up till then both sides had shied away from making the first overture.

However, U. S. steel, which controls the coal strike talks almost as tightly as it controls the position of management in the steel strike, wasn't impressed. When the coal operators discussed Big John's secret proposal, Harry Moses, president of the U. S. Steel's H. C. Frick Coal company, would have no part of it.

George Love, of the Pittsburgh Consolidation Coal company, who works hand-in-glove with U. S. steel, also objected—which meant that Lewis's "feeler" was a dead duck.

Reason for U. S. steel's opposition: it can't give Lewis more than it gives Phil Murray.

In fact, U. S. steel already has many industrial leaders sore because two years ago it gave Lewis a welfare fund with no contribution from the union. Despite this, U. S. steel has now turned round and is demanding that the steelworkers themselves contribute something to their proposed welfare fund.

Therefore, if U. S. steel's captive coal company now increases Lewis's welfare fund without any payments from labor, Phil Murray would make a fresh set of demands on behalf of the United steelworkers.

When Lewis learned that his "feeler" had been rejected, he was fit to be tied. Insiders expected him to barge into the next meeting, spewing fire and verbal brimstone at the northern operators. Instead, he walked in without saying a word, sat for five minutes scowling at the window. Then, as contemptuous as when he entered, he walked out.

Figuring that Lewis had gone to the men's room, the northern operators waited and waited. Finally they learned that John was already on his way to Bluefield, W. Va., to confer with southern operators.

Johnson Worries Over Tito

Shooting from the hip, Secretary of Defense Johnson brought U. S. foreign policy up to date the other day for the men who must vote the money to finance it.

Johnson was the star witness at a closed-door session of the Senate appropriations committee. The state department was also represented by Undersecretary of State James Webb, but he faltered and fumbled under the senators' withering cross-examination. With two exceptions, however, Johnson snapped back the answers without hesitation. These two involved Yugoslavia.

The secretary of defense readily admitted that Yugoslavia was the most explosive spot on the globe, and warned:

"Anything can happen there any day, any moment."

But he wouldn't say whether the United States is committed to rush arms to Tito, or what the U. S. plans to do in case of a clash. Those were the only questions the secretary of defense ducked.

Johnson was more optimistic about Greece, predicted that the United States will be able to walk out and leave Greece standing on her own two feet in eight to 12 months. Only two pockets of communist guerrillas are left, he said. All that remains for the Greek government is to wipe out these pockets and guard the borders against communist outsiders.

Senator Burnet Maybank, South Carolina Democrat, asked the undersecretary of state about Spain.

"Are our relations with Spain improving?" he inquired.

"Very definitely," replied Undersecretary of State Webb.

"Is that just a Columbus Day declaration, or are relations actually improving?" broke in Senator Styles Bridges, New Hampshire Republican.

"Our relations with Spain are actually improving," reiterated Webb.

THE NEXT hot subject brought up was China. Groping a bit for words, Webb explained that Secretary of State Acheson had assigned three groups to study China, then had invited 20 prominent citizens last week to consult on the question.

Bridges promptly asked for the names of the 20 citizens, but Webb could think of only two—former secretary of state George Marshall and former Republican presidential candidate Harold Stassen. Bridges then demanded that the committee be furnished the other 18.

Another consistent critic of our China policy, Senator Knowland, California Republican, asked about the $75,000,000 President Truman had asked as a blank check to aid China.

"Will this $75,000,000 be used if it is authorized?" asked Knowland.

Webb hesitated, but Johnson spoke up bluntly.

"As far as the Defense department is concerned," he declared, "it wouldn't be asked for unless we intended to use it."

• • •

$ For Atlantic Pact

Senators Ken Wherry of Nebraska and Homer Ferguson of Michigan, also Republicans, asked about the defense plans of the Atlantic pact nations. They pointed out that, under the law, arms for Europe could not be sent until an integrated defense plan was worked out.

"How," asked Ferguson, "can you ask for appropriations for arms implementation if no defense plan has been submitted?"

Johnson replied that the Atlantic pact nations have been working on a defense plan since Oct. 5. Although no formal plan has been agreed upon, the tentative plan is in such shape that defense officials felt they could go ahead. A comprehensive strategy would be ready by January, but the President wanted the appropriations also to be available so he could act without delay, Johnson added.

The senators went away from the meeting impressed, if not always satisfied, with Johnson's answers. They liked the secretary of defense's "refreshing frankness."

A period of prosperity is one in which our so-called economic experts go around saying there will never be another depression

Their Harvest Moon

BY RUTH MILLETT: TO THE LADIES

The Feminine Viewpoint

NOTE to young parents:

I've had quite a few letters lately from fed-up Grandmas who claim they can't lead their own lives because they're asked to do so much baby-sitting with their grandchildren.

Just because a woman is a grandmother it doesn't necessarily follow that she wants to be cast in the role of unpaid baby-sitter.

MILLETT

Says one weary Grandma: "Just about the time my husband and I start looking through the evening paper to see if there's a good movie on, the telephone rings and one or the other of my daughters-in-law announces cheerfully that they've had a chance to go out and how about their stopping by to leave the baby with us.

"For years I was tied down by my own children. And now I'm tied down with my grandchildren," she complains.

Another, this one a working Grandma, says she has to go out of town if she wants to get a restful weekend. She has three married children living in the same town and all three use her as an unpaid baby-sitter.

• • •

GRANDMA WANTS A BREAK

AND still another writes: "I'm deeply fond of my daughter's three children. But I'm not as young as I used to be—and an evening of entertaining them and getting them fed and ready for bed leaves me exhausted. Yet my daughter doesn't hesitate to ask me to baby-sit three or four evenings a week. I don't want her to think I don't love the children or that I don't want to help her out—so I've never said anything. But I do think I've earned a rest from taking care of children—after looking after six of my own."

So here is today's plea. Don't make a baby-sitter out of Grandma, just because she happens to be handy.

Let her enjoy the "free years" she has already earned and you are looking forward to.

She says she can't tell you—so I'm just passing the word along.

Today's Thought

Likewise greet the church that is in their house. Salute my well-beloved Epaenetus, who is the firstfruits of Achaia unto Christ.—Romans 16:5.

• • •

When once thy foot enters
the church beware—
God is more there than thou:
for thou art there
Only by His permission.
Then beware,
And make thyself all reverence
and fear.
—Herbert.

"The Supreme Court in the last three years has voted 5 to 4 on 86 occasions."—Press report. If four-ninths of the Supreme Court often don't know what the law is, how the heck is the common citizen supposed to know enough about law to keep out of jail?

Laff-A-Day

"What evidence have you that there is an elephant under your bed?"

By Bennett Cerf

"Try And Stop Me"

THE late George Kittredge, one of the greatest professors in Harvard's history, was lecturing a class on the day preceding the annual football game with Yale. Knowledge that the class was not exactly concentrating upon his dissertation impelled the professor to pace up and down the platform even more energetically than was his usual wont. Suddenly he made one step too many and fell off the platform onto his face.

He was up again before a student could help him, shaken and bruised, but still composed enough to observe, "Gentlemen, I believe this is the first time I ever have descended to the level of my audience."

• • •

KAY WISTER has a five-year-old friend whose parents set forth in their most elegant finery to attend a wedding. Impressed and excited, the youngster exclaimed, "What fun, mommy! Come home and tell me who won!"

FIRST PILGRIM

BOSTON (U.P.)—Oldest thing in Boston is a burying ground on lower Tremont Street. The ancient graveyard was first established and used in 1630. It contains, among other bones, those of Mary Chilton—the girl who some claim was the first Pilgrim to step ashore on Plymouth Rock.

BY ROBERT C. RUARK

Failure Of Former Solon To Escape Prison Is Surprise

NEW YORK, Oct. 18—My children faith in the relationship of crime to punishment, somewhat impaired in past, raises a battered head again since the Supreme court's action on old Andy May, the conniving congressman.

RUARK

Handy Andy, once chairman of the House military affairs committee during the recent scuffle with Hitler, got a little greedy and was caught with his thumb in the jam. He and a couple of sweet crooks named Garsson, Henry and Murray, got together on some government munitions contracts. Andy was found guilty of accepting $56,634 in palm oil, in return for his influence as ring master of the war committee. He was convicted of using that influence to grab off government business for the Garssons.

That was in 1947. Since then old Andrew has contemplated his sins from his home in Presetonburg, Ky., nursing the ill-health that seems to go automatically with convictions for crookedness. He had appealed his sentence all the way up top, and last Monday the Supreme court refused to review the verdict. This gives the government the go-ahead sign to clap ex-Rep. May in the calabozo, together with his cute conspirators.

• • •

Gets Light Sentence

It ain't much of a sentence, as a matter of fact, considering the size of the crime—only eight months to two years. In the space May has spent appealing, under a flimsy bond of $2,000, he could have served his time in stir and might now be free. What surprises me is that, in an administration heavily tinctured by the odor of the old Pendergast regime, that Andy and his buddies were convicted at all, or even brought to trial.

What is even more surprising is that the court, now also laden with Truman politicos, didn't review the case. The report is that Chief Justice Fred Vinson and Justice Tom Clark took no part in the action on the May request for review of sentence. This seems a little odd, but I am never the man to question the processes of the law.

May is old (74) and possibly infirm and he served 16 years in the congress and he got off with a slap on the wrist. I wax less indignant as time has dulled his doings, but at the moment of his trial I was for stringing him up or at least handing him a life rap.

• • •

IT SEEMS to me that for the honored head of the potent House military affairs committee to be taking it under the table from a couple of crooks with devious pasts, in the middle of a war, is an indescribably loathsome crime. It is rendered doubly and in the limitless opportunity so in terms of betrayal of trust for a man in May's position to accept even more sinister advances. I do not say he could lose you prolong one at vast expense in a war; but he could certainly money and lives.

I also seem to remember that Cousin Andrew's committee got a couple of special dispensations for my favorite pin-up, Serge Rubinstein, the draft-dodger and financial hocus-pocuser, when Serge was dodging behind doors have no way of knowing what to beat the selective service. I other favors, if any, Mr. Rubinstein was able to wheedle, but Serge walked high and haughty in Washington during those bitter days of global conflict when mama's boy was off bleeding for his right to boo the Dodgers.

• • •

"Gang Spirit" Hit

The action of a man like May makes the petty speculations of some of the Missouri gang look mighty mild and meek. I mean you cannot compare the venality of May with the two-bit maneuverings in commodities and the dastardly deepfreeze doings of some of the White House gang, in peacetime path-smoothing as practiced by that demon warrior, Harry Vaughn. May's was a basic betrayal of his country at war, amounting almost to treachery. The other stuff, to date, has been shown only to be the penny-ante apple snitching of little men.

But in the present atmosphere of Washington, where gang spirit rules from the bull goose down, I was really surprised to see the Hon. Andrew fail to beat his rap. We put such a high price on personal loyalty down there now, that it's difficult for a man to do wrong, and even more so to make him pay for his sins.

Journal Jabs

A PHYSICIST says the atomic bomb is highly overrated. Maybe so, but in our opinion rating the atomic bomb is like making love to a widow—mighty hard to overdo.

Today's Journal Editorial

AN INTELLIGENT CAMPAIGN

Pamphlets are being distributed to 1,500,000 school pupils in Texas and the South which focus striking attention to an obvious fact in a way that probably has not occurred to most people.

It is a presentation of the idea, under the sponsorship of the International Paper company of Mobile, Ala., that money actually does grow on trees. The evidence is that Southern trees are the basis of a paper industry which employes 119,000 people who are paid $200,000,000 a year. And this is only a small part of the wealth trees produce.

The object of the distribution is to encourage the conservation, protection and planting of trees.

It should be a contribution toward progress toward those objectives because the most casual thought confirms that trees do mean cash along with the many uses and pleasures they afford.

½ cup Pet Milk
1 envelope unflavored gelatin
½ cup cold water
½ cup canned peach juice
2 tablespoons sugar
¼ teaspoon salt
1 teaspoon grated lemon rind
16 marshmallows, halved
1 slightly beaten egg
2 tablespoons lemon juice
1½ cups canned, sliced cling peaches, drained

Try This!

Chill milk until ice cold. Soften gelatin in cold water. Mix peach juice, sugar, salt and lemon rind. Add marshmallows. Cook and stir over very low heat until marshmallows are just melted, about 3 min. Stir in softened gelatin. Then stir into beaten egg. Add 1 tablesp. lemon juice and 1 cup peaches. Chill until slightly thicker than unbeaten egg whites. Whip chilled milk with cold rotary beater, or electric beater at high speed until fluffy. Add remaining 1 tablesp. lemon juice; whip stiff. Fold into peach mixture. Put into cold 9-in. baked pastry shell. Garnish with rest of peach slices. Chill until firm.

SENATOR'S SCHEDULE REVEALED

Congressmen Face Busy Slate As Campaign Date Draws Near

By HARMAN W. NICHOLS
United Press Staff Writer

WASHINGTON, Oct. 18.—A candidate for office has to put up with a lot. Baby-kissing, hand-cranking and all that.

Take Sen. Claude Pepper, D., of Florida. The other day a lady wrote him anw asked for his best recipe for hot biscuits. The senator looked in a cook book and wrote right back about two cups of flour, three tablespoons of baking powder, some salt, a little shortening, milk and the rest.

All that goes into campaigning.

The Congress is about to break camp and go campaigning. One-third of the Senate seeks re-election, and every member of the House is on the pan.

Plans Are Revealed

Since Florida has a one-party system, this may not be a fair comparison—but here's the way Pepper plans to do it.

But let's back up a few months. The senator gets anywhere from 300 to 1,000 letters a day and answers every one of them. No politician will admit that isn't good business. Many of the letters come from out of the state.

He's like most other senators and has a full schedule of committees. Pepper is on three important committees—and in addition is a member of the Democratic steering committee of the Senate.

He is in great demand for speaking engagements in his home state. He's got to make room for all this in between sessions on the floor and committee meetings.

Shedule Is Given

Take his schedule for this weekend:

Things being normal on Capitol Hill, he'll leave on Thursday for Jacksonville. He and Vice President Alben W. Barkley will participate in opening the community chest drive there. On Friday, the two will go to Gainesville, Fla., for homecoming day at the University of Florida.

From there on it will be touch and go for Pepper—and Barkley will be on his own.

Pepper's aides said that from then until the Florida primary on May 5 he won't have a spare minute. It's breakfast, luncheon, dinner, and with talks in between. Other senators have similar schedules.

"Sometimes we average 400 miles a day by car and make a dozen speeches while doing it," an aide to one of the senators said.

Not Jumping Gun

That's the way it goes.

Pepper wanted to make it clear that he wasn't popping the gun ahead of the opening of the political season in Florida. All of the commitments he has were made many months ago.

Most of the boys on Capitol Hill would like to go home and fish and hunt and rest awhile—but most of them won't have time.

They have been in almost continuous session for 300 days and there are fences—political, that is—to patch at home, after the longest peacetime session in history.

I don't know how the boys stand it—making half a dozen speeches a day, keeping up with the mail, alling the little woman every night. All for $12,500, plus $2,500 tax free expense account.

Woman Burglar Is Sought By Police

HOUSTON, Oct. 18 (U.P.)—Police today sought to unravel the mystery of the lightfooted blonde.

Mrs. Roy Garrison awoke in the middle of the night and saw a slender blonde rifling her husband's billfold, she told police.

Mrs. Garrison screamed and the lady bprglar slipped out of the apartment and sped away in a sedan parked nearby.

She took $40 from Garrison's billfold and about $20 from occupants of three other apartments, investigation showed.

Attendance High At Community Center

The Community center at Sixth and Ave. B, supervised by the City Recreation department, has reported a total attendance of 572 persons during the first three days of operation for the fall season.

The center reopened Thursday after having been closed during the summer.

Highlight of the opening week was a meeting of the girls' Polly Pig Tails club. A number of games were played. Yvonne Seymour won a prize for having made the best sailor hat.

Regular Meeting Held

The club is under direction of Mrs. Elizabeth Martin. Membership is open to all girls between the ages of six and 12 years. Meetings are held at the center each Friday afternoon from 4:30 until 6 o'clock.

Horseshoes, washers, and rope-jumping were the special activities for the week, with preparations currently being made for the tournaments in each of these activities which are to be held Thursday.

Men and boys may enter the horseshoe and washers tournaments. All who are interested in competing in these events should register with the directors at the Community center this afternoon.

Boys and girls are eligible to enter the rope jumping tournament. However, they must qualify by this afternoon in order to be eligible.

The library at the Community center will be opened later this week. A librarian is to be provided by the Church Women's federation.

Mrs. Martin and Bill Selke, directors of the Community center, have announced the following hours of operation of the recreation center:

Tuesdays, 4 p. m. to 9:30 p. m.; Wednesdays and Thursdays, 4 p. m. to 7 p. m.; Fridays and Saturdays, 4 p. m. to 9:30 p. m.

Tech Artist Program To Present Pianist

Jacques Abram, internationally known pianist, will appear in concert at 8 o'clock tonight at the Lubbock High school auditorium as the first of eight Texas Tech artist course productions this year.

Admission to the concert will be $1.80 for adults and $1.50 for children. Season tickets to the productions are $7.50, R. A. Mills, head of the artist course, said.

Abram is a native Texan, born in Lufkin and later living in Houston. He was the winner in 1938 of the coveted National Federation of Music award, appearing for the first time in Carnegie hall that year.

He served in the Army during the war and has since made tours of the United States, Europe, Canada, Mexico and South America. He has also played with both the National and American broadcasting company Symphony orchestras.

MEET THE MANAGER—Robert M. Wiser, manager of Mid-Central Fish company, 432 Ave. Q, was born Nov. 11, 1919, at Lathrop, Mo. His family moved to Kansas City and he was reared there and at St. Joseph, Mo., where he was graduated from high school in 1938. He went to work for Mid-Central Fish company there until he joined the Navy as a radar operator in 1942. He was released in 1945 and went to Fayetteville, Ark., to go into business for himself in the tire recapping and vulcanizing business. He spent a year there, then went back with Mid-Central in Kansas City, but was transferred to Lubbock immediately, as manager of the Lubbock branch which had been established seven and a half years before. He is a member of Lubbock View Christian church, American Business club and is a master Mason. Mr. and Mrs. Wiser and two daughters, Merle Jean, 3, and Judy Kay, 5, live at 2214 Thirty-second. His hobbies are football and hunting. (Staff Photo.)

Services Pending For Levelland Man

LEVELLAND, Oct. 18 (Spl.)—J. B. Shofner, 88, died at his home three miles north of here Sunday at 7:10 p. m.

Living with him at the time of his death were his daughter, Mrs. W. C. Huffacker, and her husband.

Shofner had been a resident of Levelland since moving here in 1926 from Bangs. He had been retired for several years.

Funeral services will be held in the First Methodist church, where he had been a member, with the Price Funeral home in charge of arrangements. Time for the funeral has not been set.

He is survived by nine sons, H. M. Shofner of Muleshoe, Ralph, Horace, Earnest and Homer Shofner of Harlingen, W. W. Shofner of New Orleans, John H. and J. P. Shofner of Levelland and O. F. Shofner of Lamesa; five daughters, Mrs. K. K. Keyser of Prestone, Calif., Mrs. K. W. Vardeman of Richland Springs, Mrs. Earnest Allison of Harlingen, Mrs. W. C. Vardeman of Lubbock and Mrs. Huffaoker; 50 grandchildren; 88 great grandchildren and 3 great great grandchildren.

He Followed Wrong Route For Shave

SANTA MONICA, Calif., Oct. 18. (AP)—Orville Grim, 51, saved a man and a baby sea lion from a couple of close shaves, but couldn't get one himself.

En route to buy razor blades, Grim plunged into the ocean and rescued a struggling swimmer 80 feet offshore. A little later he plunged in again, this time to rescue a little sea lion being battered on rocks.

Gasped the dripping Grim: "There must be an easier way to get a shave."

Bergman's Estranged Husband Has Trouble With Public, Too

HOLLYWOOD, Oct. 18 (AP)—Dr. Peter Lindstrom, estranged husband of Ingrid Bergman, "just can't go out in public," a friend says, without people trying to concoct a romance.

The friend, Dr. Lee Siegel, told of an evening of night clubbing with Dr. Lindstrom. Sunday night the actress' husband went out with Dr. Siegel and Mrs. Siegel, who is actress Noreen Nash.

At one spot they met dress designer Marusia Radunska, who recently divorced radio announcer Don Wilson. Marusia told a newsman that her heel caught in the hem of her dress and she stumbled. She said Dr. Lindstrom galantly caught her and carried her over a doorsill. The Siegels had gone home.

After a dance or so, Marusia left with her friends and Dr. Lindstrom drove away alone. Dr. Siegel said the physician and Marusia never had met before.

"We thought it would do Dr. Lindstrom good to go out for an evening," Dr. Siegel explained, "but right away people are trying to make a romance out of a casual meeting."

Miss Bergman, in Rome, has announced her intention to divorce Dr. Lindstrom. Friends say she plans eventually to wed director Roberto Rossellini. Her representative said she and Rossellini soon will start on a film on the life of Saint Francis Assisi.

Entries In Contest Urged By Official

BRYAN, Oct. 18 (U.P.)—Aspirants to the "maid of cotton" queenship were urged today to file photographs and applications with the National Cotton council for the 1950 contest.

George G. Chance, Bryan, chairman of the Texas unit of the council, pointed out that only one Texan has been title-winner in the 11-year-history of the cotton contest.

"The 1950 maid of cotton should be a Texas girl," Chance said.

LUBBOCK EVENING JOURNAL

Lubbock, Texas, Tuesday, October 18, 1949

Permian Group Holds Session

Members of the Texas Tech student chapter of the American Institute of Mining and Metallurgical Engineers joined members of the Permian Basin petroleum section of the organization for a dinner meeting Monday night in Hilton hotel.

Approximately 200 persons attended.

Discussion was held on the possibility of organizing a Lubbock chapter of the society. More detailed plans will be presented at a meeting to be held soon.

Midland Man Speaks

A talk on "The Egineer as a Supervisor" was made by Tom Frick of Midland, chairman of the Permian Basin section of the A. I. M. E., who is supervisor of the Atlantic Refining Co. in the Midland area.

Frick's talk concerned the importance of proper and careful handling of problems which confront a supervising engineer, particularly problems in human relations and personnel management.

His talk was illustrated with motion picture slides.

Following, E. D. McMurray, representative of the Garrett Oil Tool Co., of Houston, spoke on the use of gas lift equipment as a means of lifting fluids from well bores. He demonstrated equipment manufactured by his firm for this work.

Riley V. Carlton, president of the Tech chapter of A.I.M.E., who presided at the dinner, welcomed members of the Permian Basin section of the society and other guests.

Guests Are Introduced

Carlton introduced guests, among whom were the following: Joe Alford, Dallas, editor of the Petroleum Technology magazine; Paul Johnston, member of the Tech petroleum engineering faculty; Jack Moore, secretary-treasurer of the Permian Basin section of A. I. M. E.; W. N. Little, vice chairman and program chairman of the Permian Basin section; W. L. Ducker, head of the Tech petroleum engineering department; Phil Johnson; Frick; and C. V. Millican, chief engineer of the American Petroleum Co. in Tulsa.

Officers of the Tech chapter of A.I.M.E. also were introduced. They are: Carlton, president; Ward Killingsworth, vice president; Bill Koy, secretary; Johnny McClellan, treasurer; Lloyd Dowd, corresponding secretary; Dan Beem, reporter; and Truitt Enlow, parliamentarian.

Members and guests who attended last night were from Midland, Odessa, Brownfield, Levelland, Sundown and Lubbock, and adjacent areas.

VIDO TUBES SMALLER

NEW YORK, Oct. 18 (AP) — To meet some of the problems of television transmission on the higher frequencies, vacuum tubes are becoming smaller and smaller. One of the latest is only an inch in diameter, an inch and a quarter high and weighs but two ounces.

To Continue Separate Careers Of Stage And Painting

Sarah Churchill To Marry Antony Beauchamp Today In Ceremony At Georgia Resort Town

SEA ISLAND, Ga., Oct. 18 (AP)—A slender English actress with a long ancestry, Sarah Churchill, will be married here today to Anthong Beauchamp, British photographer.

The 34-year-old daughter of Britain's wartime prime minister, Winston Churchill, and Beauchamp made their announcement yesterday.

They stood gajly amid the ruins of a monument to England's past glories, old Fort Frederica, and told newsmen that this was the climax to a week-long secret engagement.

Both said their parents had been informed and approved.

In fact, added Beauchamp, a specialist in portraits, he called on his prospective father-in-law before coming to America three weeks ago and received his permission to propose.

For the couple it was a question of union now while on vacation since both said they planned to pursue their separate careers.

Plans Fall Tour

Miss Churchill has made plans to appear in "The Philadelphia Story" on a west coast tour this fall. Beauchamp has a portrait show scheduled to open in New York next month.

In any case, the marriage will bring together the children of two artists, one very active, the other retired.

Statesman Churchill long ago became famous for the diligence with which he pursued his hobby of landscape painting, armed with brush and oils and armored in a smock and broad-brimmed hat.

Beauchamp's father, Ernest Entwistle is retired. His mother, said Beauchamp, was a miniature artist until she took up portrait photography two years after he did.

Somewhat wryly, Beauchamp observed that his mother is now his "chief competitor."

For an engagement pledge, Beauchamp presented Miss Churchill a ring of 18th century French design set with a large heart-shaped diamond and surrounded by nine smaller ones.

Became Fast Friends

They planned to marry at 5:30 p. m. at the home of Alfred Jones, board chairman of the Sea Island Co., which runs this resort land of warm breezes, rolling surf and moss-hung oaks.

Miss Churchill and the 32-year-old Beauchamp both knew each other before the war but became fast friends only 18 months ago when she sat for a portrait.

Both declared they "fell in love" with old Fort Frederica and asked that their first pictures together be taken there.

Miss Churchill couldn't have picked a better spot. Her presence in the sun-lit but still dank old fortress drummed up the ghosts of England's past.

Here Gen. Edward Oglethorpe beat off in 1742 the last Spanish effort to reconquer America.

And that was just 38 years after her famed ancestor, John Churchill, first Duke of Marlborough, had with Spanish aid defeated the armies of the French monarch, Louis IV at Blenheim in Bavaria.

Her Second Marriage

Miss Churchill was in a gay mood. Fall residents here said she had been in such a gala mood for a week, happily climbing the old oaks which at one time England used for her men of war.

The trim little actress, who weighs only about 105 pounds, made her American debut last June. Since then she has toured the eastern United States as the lead in "The Philadelphia Story."

She closed her summer performances at the penthouse theater in Atlanta two weeks ago. Before the closing, she was joined by Beauchamp.

Beauchamp served during World War II with a photographic unit of the British Indian army in Burma and Italy.

Miss Churchill is the granddaughter of Lord Randolph Churchill, third son of the seventh Duke of Marlborough, and American born Jennie Jerome, daughter of a New York banker.

Forr Miss Churchill this will be a second marriage. She was married to Vic Oliver in December, 1936. They were divorced Oct. 15, 1945.

Poached fish fillets are improved if mixed pickling spices are used in the cooking water—about one tablespoon of the spice for about two pounds of fillets. Tie the mixed spices into a small cheese cloth bag for easy removel.

IF YOU CAN'T GAIN WEIGHT

• If you are skinny, thin, underweight, due to no organic cause, read these facts.

To help you gain weight—nature usually requires two things. One—a good hearty appetite. Second—better digestion to change food into flesh. Thousands who recognize these medical facts have tried a great medicine—developed by a doctor—often with amazing results.

It's Dr. Pierce's Golden Medical Discovery. Instantly, it starts its wonderful tonic action. First, makes you really want to eat. Second, helps you get more good out of food . . . turns it into pounds of added flesh. So if you are underweight this way, get Dr. Pierce's Golden Medical Discovery at your drugstore today. Tablets only 50¢, liquid $1.00.

Teacher's Pet Is A Little Expensive

TROUT RIVER, N. Y., Oct. 18. (AP)—Six-year-old Carolyn White is the "teacher's pet," but to the 50 taxpayers of this Canadian border town she is a "little expensive."

Carolyn, a first grader, is the only pupil in the town's one-room school and is costing taxpayers about $2,400 a year. That averages $48 per taxpayer.

The school had 13 pupils last year. The others have transferred to schools in nearby towns or have moved away.

The school's expenses are $2,000 for the teacher's salary and $400 for books, paper and wood for the stove. James Dibble, school trustee, figures that is a "little expensive" for one little girl.

Carolyn likes being the teacher's "pet pupil."

She says the only thing she misses is "someone to sit on the other end of the teeter-totter during recess."

For a rice stuffing for poultry, mix cooked rice with a little onion lightly sauteed in butter or margarine, salt and pepper to taste, a few teaspoons of chopped parsley, and an egg beaten until foamy.

"And the next question is, 'Did you give to the Community Chest this year?'"

Malayan Rubber Is Purchased By Reds

SINGAPORE, Oct. 18 (AP) — Russia and Soviet satellite nations received directly or indirectly during August more rubber from Malaya than did the United States. This is a situation that has been developing gradually over the past three months and some merchants say it will become more marked as time advances.

Due almost entirely to the big Russian buying, Malayan rubber exports were high in the last six months. Shipments to the United States, meanwhile, hae fallen steadily during the same half-year period.

Most of the Soviet-bound rubber goes to Odessa and Batum while Gdynia in Poland gets the bulk of the satellite cargoes.

Suva, capital of Fiji, had almost five feet of rain in May and 133 inches in the first five months of this year.

Beware Coughs From Common Colds That HANG ON

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Two Men Killed As Truck Overturned

GLADEWATER, Oct. 18 (U.P.)—Two men were killed when a milk truck overturned and burned on the Sabine river bridge a mile west of here about midnight last night.

The dead were Max Logan, about 30, and James C. Groce, about 34. They were brothers-in-law and lived in the James community 15 miles east of Gilmer.

The men were riding in a Cabell Milk company truck operating out of Dallas. Their bodies were badly charred.

The Strange Secret of the One-Way Door

There is a famous painting called "The Light of the World." It shows Christ knocking at the door of a humble dwelling.

When the artist, Holman Hunt, completed it, a critic turned to him and said: "There is an error in your painting. You have forgotten to put a latch on the door."

"There should be no latch on that door," said the artist. "It is the door to the human heart. *It can be opened only from within.*"

* * *

Sometime, during the next few days, there will be a knock on your door.

It will be a neighbor soliciting for your Community Chest and its Red Feather services. When he calls, we hope your door will open wide for him. We hope, too, you will open your heart and give generously.

It means so much to so many.

Everybody gives . . . Everybody benefits

REDS DEMAND NEW ELECTIONS

Former Premier Is Urged To Form New French Government

PARIS, Oct. 18 (U.P.)—President Vincent Auriol appealed to former Premier Henri Queuille today to give up his plans to go into semi-retirement and try to form a new centrist coalition government.

Queuille, who resigned 12 days ago after setting a 13-months post-war record for survival among premiers, was scheduled to reply today.

Queuille is a Radical Socialist.

Rene Mayer, former finance minister and member of Queuille's party, said he had promised Auriol to use his influence with Queuille to accept the job as premier.

May Tackle Job

Mayer said that if he failed he would consider tackling the troublesome post himself.

Auriol turned to the Radical Socialists when Socialist Premier Jules Moch quit in disgust and the Popular Republicans refused a presidential bid to set up a new government.

Informed sources said that unless the major middle-of-the-road parties got together soon Auriol might have to call for the new elections demanded by the Communists and the right wing supporters of Gen. Charles De Gaulle.

The Popular Republican refusal to form a government was given by the party's parliamentary leader, Francois De Menthon, who was summoned to a conference by Auriol after Socialist Jules Moch resigned as premier last night.

Move Is Assailed

"Monsieur Auriol asked me if I or one of my MRP (Popular Republican) friends could strive to resolve the crisis this morning," De Menthon said. "I told him that in the present state of affairs that seemed impossible."

Socialist newspapers described the MRP move as a "dirty trick."

The Communist press again demanded Communist participation in the government. The right wing papers called for new elections.

De Menthon visited Auriol early today.

Moch, Communist-busting former minister of interior, gave up trying to form a government last night because of persistent political wrangling which extended into the ranks of his own Socialist party.

The move left France without a government for the second time in 11 days.

List Is Written

Moch already had written a list of his prospective cabinet members and was within minutes of presenting it to the president when the various parties slated to make up the coalition government started arguing over relative trivialties, such as the post of minister of public information.

Moch fought to resolve the differences. But when his own Socialists got deeply embroiled in the disputes he hustled over to Elysee palace where he presented his resignation to the president, who accepted it.

The final blow to Moch's hopes came when Jean Le Tourneau of the MRP, slated to be minister of finance, informed Moch it would be impossible for him to handle the job because of the continued party wrangling.

Levelland Observing Oil Progress Events

LEVELLAND, Oct. 18 (Special)—Oil progress week began here Monday when a crowd of about 3,000 people stood through a chilling downpour to witness a parade through the downtown district, led by high school bands from Levelland and Sundown. The Whiteface band was scheduled to appear but the weather prevented its arrival.

The week, Oct. 16 to 22, is being sponsored by local oil companies and the Lions, Rotary and Jaycee organizations here.

The parade featured floats depicting the various phases of the oil industry; discovery, production, transportation, refining, wholesale and retail. Murray C. McNichol was chairman of the parade committee. Tommy McSpadden, L. L. Cox and Sam Billingsley were committee members. George C. Price was parade marshal.

Activities during the week will include an open house at the Stanolind gas plant near Sundown Tuesday and Wednesday. Tuesday night the Lions, Rotarians and Jaycees join in sponsoring an Oil Progress banquet.

Idalou Lions Will Sponsor Grandstand

IDALOU, Oct. 18 (Special) — Members of the Idalou Lions club held their weekly dinner meeting in the City clubhouse here Monday night, followed by a talk on newspaper production by Tom Davis, staff member of the Lubbock Avalanche-Journal.

In a business session following the program, Lions followed up action of last week by voting to sponsor installation of a 500-seat, steel frame grandstand at the high school football field at an approximate cost of $3,500.

In his talk, Davis outlined methods and problems of news gathering, and explained some of the editorial and mechanical processes involved in the production of a newspaper. A question and answer period followed the talk.

Lion President Floyd Whitney presided at the meeting, attended by 25 members and guests.

Invocation was by the Rev. Charles Gates, club member. Foy Hudson, Idalou mayor, led group singing.

Miss Georgia Faye Cochran, club sweetheart, played a piano solo.

LEATHER WASTE

CHICAGO (U.P.)—Only 20 pounds of a 60-pound cured hide is good for leather-making, according to the Leather and Shoes magazine. The other 40 pounds consist of salt, water, fat, trimmings and fleshings.

Poppy Sale Plans Made By Auxiliary

Members of the local American Legion Auxiliary held their weekly meeting Monday night in the Legion hall. Mrs. O. G. Drake, president of the organization, presided.

Howard Davison spoke on the Memorial Poppy, stressing poppy sales which are to be held Nov. 5.

Officials of the auxiliary stressed that money collected from sale of poppies will go toward rehabilitation and child welfare projects sponsored locally by the auxiliary.

A report given at last night's meeting showed that the auxiliary this past year has spent a total of $495 on rehabilitation projects and $349 on child welfare.

Final plans were made for members of the auxiliary to help today in the Community Chest drive.

Plans also were discussed for a "Welcome to Lubbock" party which will be held in cooperation with the Legion at LAFB on Tuesday, Oct. 25.

The auxiliary also will join the Legion in a covered dish supper and Hallowe'en party on the night of Oct. 31.

Approximately 20 members attended. Refreshments were served by Mrs. Lois Harwell and Mrs. Floyd Lebow.

Homecoming Is Slated By WTS

CANYON, Oct. 18 (WTNS) — West Texas State college is getting set to welcome over 5,000 ex-students back to the campus next Friday and Saturday, Oct. 21 and 22, when the annual homecoming celebration will be held.

Plans for the gigantic festival are nearing completion and according to the Homecoming committee it is expected that this will be one of the greatest celebrations in the history of the college.

Western week will start on the campus Wednesday, Oct. 19 and students and townspeople alike are expected to don cowboy regalia in order to avoid the horse-tank set up near the Administration building.

Pep Rally Planned

A giant-sized pep rally with the traditional bonfire will take place Friday night at 7 o'clock north of Conner hall. Immediately following the bonfire will be the presentation of the homecoming play, a three-act comedy entitled "The Tightwad." This will be presented in the Administration auditorium. In an invitation from William A. Moore, director, he says, "Come on in the way you are. If you have cowboy clothes on or evening attire, you will be welcomed and will feel right at home."

A three-mile long parade will start winding its way through downtown Canyon at 10 o'clock Saturday morning. Over 10 bands, dozens of floats, comedy entries, horses, the football queen and countless other selections are planned for the parade. Ted Reid, veterans co-ordinator, is chairman of the procession which will be led by the famed Buffalo Band.

Feeding of the barbecue to ex-students and friends will commence immediately following the parade. Buff Morris is in charge. All feeding will take place at the tennis courts just north of the English building.

Just prior to the West Texas State-Trinity university football game at Buffalo stadium at 2:30 o'clock, the football queen will be crowned. The queen will be elected next week by the T-club.

After the ballgame, ex-students will have time to visit with friends, stroll over the present campus and gather at club and organization reunions.

At 8 o'clock Saturday night two big dances will begin the evening's entertainment. Playing for modern dancing in the new cafeteria will be the Collegians, college band. A western dance will be held in Burton gymnasium with a string band furnishing the music. Admission to the dances is $1 for the men with all ladies admitted free of charge.

Dancing will close when the exes get tired enough to call it a day and head for home.

Texas Tech Faculty Group Tours Schools

Four members of the Texas Technological college science faculty are touring Texas colleges and universities this week gathering data for use in construction of a proposed science building on the Tech campus it was revealed Monday.

Preliminary plans for the building are expected to be discussed in a meeting of the Board of directors not later than Dec. 10, Frank Junell, assistant to the president, said.

The faculty members making the inspection tour are visiting Southern Methodist, Baylor, Texas A. & M., and several other campuses over the state. Object of the tour is to find the most practicable way of constructing a science building.

Making the tour are Professors C. C. Schmidt of the physics department, R. A. Studhalter, botany; J. Q. Sealy, biology; and Ralph Bond, geology.

New York Sanitation Department Workers Call End To Walkout

NEW YORK, Oct. 18 (AP)—Some 1,200 CIO city sanitation department workers have voted themselves back in good health after reporting sick during a novel work stoppage yesterday.

They decided last night that their health would permit a return to work.

They demonstrated before city hall yesterday in a demand for a shorter work week, crying "five days and 40 hours" as they marched.

Earlier, they had reported "sick" and unable to work.

A state law forbids a strike of public employes.

A sanitation department official threatened disciplinary action against workmen who could not prove they actually were ill.

Demand Shorter Hours

A spokesman for local 333, CIO United Public Workers, replied that disciplinary action would bring a walkout of the entire union membership of garbage handlers and street cleaners. The union claims a membership of from 6,000 to 7,000 among the department's 9,800 workers.

The union is demanding a 40-hour week instead of the present 48-hour week with no overtime.

Mayor William O'Dwyer, running for reelection, called the pickets "Communist controlled, advised and directed."

Sanitation Commissioner William J. Powell accused the demonstrators of trying to embarrass O'Dwyer's administration politically.

The union said the demonstration was spontaneous.

Spontaneous or not, said Powell, it would cost the demonstrators a day's pay—$9.87 for loaders and $10.38 for drivers.

Dr. Jones Named To Citizen's Committee

Dr. E. N. Jones, vice president of Texas Technological college, has accepted membership on a statewide Citizen's committee to explain a proposed amendment to the state constitution regarding the mentally ill, it was announced Monday.

Appointed by the governor, it will be the committee's job to inform the public before the Nov. 8 constitutional balloting of the amendment's meaning, Dr. Jones said.

The proposed amendment would permit the mentally ill to be committed voluntarily by their family to state hospitals without the necessity for jury trial, the vice president said.

Such action would permit the avoidance of lunacy trials, which have been proved medically unsound, Dr. Jones said. Texas is the last remaining state to have a law requiring trials in all cases, he declared.

Bullet Fired By Accident Caused Death

Boy's Mercy Shot Into Head Of Brother Said Unnecessary

LOS ANGELES, Oct. 18 (AP)—A coroner's autopsy report added tragic irony to a teen-ager's story to police that he fired a "mercy bullet" into the head of his ten-year-old brother who lay moaning in agony from an accidental shot suffered but a few minutes before.

Dr. Frederick Newbarr, county autopsy surgeon, disclosed yesterday that the first shot destroyed half the brain of Robert James Elliott, 10, and that he would have died in a few moments.

Richard Manning Elliott, 15, told police Sunday night that he could not bear to see his brother suffering so fired a second bullet into his head "to put him out of his misery."

Dr. Newbarr's report said the second slug, in itself, could not have caused death.

Father Defends Son

The boys, sons of a physician, were home alone watching a western movie on television when the older boy told his brother that he wanted to show him "a gun like they used in the old west."

In showing the .32 caliber revolver, Richard told detectives that it went off accidentally with the bullet piercing Robert's head.

Dr. Harold M. Elliott, former city health officer and father of the boys, said:

"I'm convinced both bullets were fired accidentally. Richard is a good boy who loved his brother. In his hysteria, Richard must have said he fired the second one deliberately."

Richard, held on suspicion of murder by juvenile authorities, will be chief witness tomorrow at a inquest.

Richard purchased the revolver for $6 from a school chum and had hid it in his room for a week.

ROBERT JAMES ELLIOTT

PLACE IS IMPORTANT

CHAPEL HILL, N. C. (U.P.)—Even though he pleaded guilty, James B. Baldwin, a negro farmer, was asquitted in recorder's court here. Judge Manning looked at the evidence and said Baldwin was not guilty of the charge of public drunkenness. He had been on private property all the time.

THERE WAS A CATCH

WAYZATA, Minn. (U.P.) — State highway patrolman Fred Steege was demonstrating to two women the use of a safety catch on a gun. He reached in his holster for his revolver and accidentally shot himself in the leg.

12. Legal Notices

LEGAL NOTICE
of
Proposed Amendments to Zoning Ordinance of the City of Lubbock, Texas.

NOTICE is hereby given that the Planning and Zoning Commission has recommended to the City Commission that Zoning Ordinance No. 661 be amended so that:

The North one-half (N½) of the East one-half (E½) of Tract 40, Arnett and Benson Addition, be changed from a "B" Zoning District to an "F" District;

Lots 1 through 8, Block 2, Wayside Addition be changed from an "E" Zoning District to an "F" District.

The City Commission will hold a public hearing on Nov. 10 1949 at 2:30 o'clock P.M., in the City Commission room on the second floor of the City Hall in Lubbock, to consider the recommendations of the Zoning and Planning Commission to determine the advisability of adopting its proposal, and at which time and place all interested persons will be given an opportunity to protest against the proposed amendments or make recommendations in support thereof.

After said hearing the City Commission will determine whether the Zoning Ordinance will be amended in accordance with such recommendation.

W. H. RODGERS
Mayor of the City of Lubbock, Texas.
Attest:
LAVENIA LOWE
City Secretary
(SEAL)

SHERIFF'S SALE

THE STATE OF TEXAS
COUNTY OF LUBBOCK

NOTICE IS HEREBY GIVEN That by virtue of a certain execution issued out of the Honorable 99th District Court of Lubbock County, on the 22nd day of September, 1949, by Royal Furgeson, Clerk of said 99th District Court for the sum of Six Hundred Forty-three and 91/100 ($643.91) Dollars and costs of suit, under a judgment, in favor of U. S. Airconditioning Corp. vs. E. H. Edwards and J. M. Edwards, placed in my hands for service, I, Grady Harrist as Sheriff of Lubbock County, Texas, did, on the 23rd day of September, 1949, levy on certain Real Estate, situated in Lubbock County, Texas, described as follows, to-wit: The South one-half (S½) of Lot Seven (7) and all of Lot Eight (8), Block 200, Original Town of Lubbock, Lubbock County, Texas, and levied upon as the property of E. H. Edwards and that on the first Tuesday in November, 1949, the same being the 1st day of said month, at the Court House door of Lubbock County, in the City of Lubbock, Texas, between the hours of 10 A.M. and 4 P.M., by virtue of said levy and said execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said E. H. Edwards.

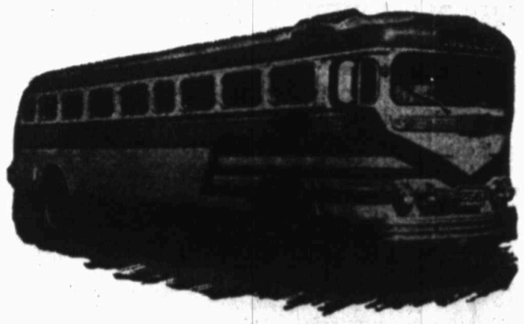

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Avalanche-Journal, a newspaper published in Lubbock County.

Witness my hand, this 4th day of October, 1949.

Strayed Kittens Are Wildcats, Doc Says

PALM SPRINGS, Calif., Oct. 18 (AP)—A few days ago three pretty cats wandered into the hillside yard of E. R. Burchiel. The family fed and housed the homeless strays.

Yesterday Burchell leaned down to pet one of them. He was clawed severely. A physician, summoned to treat the scratches, saw the animals and remarked:

"Heck, those aren't kittens. They're wildcats."

NATIONALISTS ADMIT LOSSES

Fall Of Amoy Gives Chinese Reds Coast North Of Canton

CHUNGKING, Oct. 18. (AP)—Communist amphibious troops completed Red control of the China coastline from Canton north today by seizing the old treaty port of Amoy.

(Chinese communist newspapers in Hong Kong reported the Reds also had taken Swatow, another big port about 115 miles south of Amoy).

In gloomy Chungking, the new nationalist capital, acting President Li Tsung-Jen called desperately for political reforms to spark new life in the dying government.

Amoy Loss Confirmed

"We can still turn the tide against the communists," he said, "if we renovate the government and renovate it without delay.

"If we don't, our position will be hopeless."

Li, speaking at a civic reception in his honor, blamed past setbacks on failure to reform the government. He charged anew that the Reds, under Soviet direction and leadership, intended to turn China into a Russian vassal state.

Loss of Amoy, after a long siege, was confirmed by southwest military headquarters on Formosa. The island city—just three miles off the red-held mainland—is 636 miles south of Shanghai and 293 miles north of Hong Kong.

The military spokesman said the nationalist garrison retreated to nearby Kinmen island. Only yesterday government sources declared the Red invaders were being "wiped out" after establishing a beachhead. Later, however, evacuation of the defense force was announced.

Pessimism Increasing

Here in the capital 600 miles northwest of fallen Canton there was increasing pessimism over the government's ability to resist the communists.

A responsible official told this reporter:

"We'll never get anywhere if we don't stand up and fight somewhere. We can't just go on retreating.

"Personally, I am tired of moving. First I had to leave Mukden, then Peiping, then Shanghai and, only a few days ago, Canton."

Some quarters believe the Reds might invade Kweichow province—between Chungking and Canton—and try to take its capital of Kweiyang. If successful, this would effectively split nationalist China in two.

A few others look for the communists to attempt to land on Formosa before trying to capture Chungking. This idea, however, doesn't find much support.

Rumors have cropped up already that Generalissimo Chiang Kai-Shek and Ating President Lo disagree on the strategy for the defense of Chungking's Szechwan province—just as they did on south China.

Beery's Heir Asking Allowance Of $3,000

LOS ANGELES, Oct. 18 (AP)—Carol Ann Beery, 18-year-old daughter of the late Wallace Beery, wants $3,000 a month to study dramatics in New York.

The award was approved last month, but was set aside at the request of the $2,000,000 estate's executors, Noah Beery, jr., the actor's nephew, and Phil Berg, his manager. Yesterday they told the court an allowance of $833.33 monthly should be sufficient.

The court took the matter under submission.

Reykjavik, Iceland, now has five movie theatres and a sixth under construction.

Around Lubbock

Willie J. Halloway, fireman, USN, of Route 1, Lubbock, recently visited the French Riviera on a ten-day leave when the destroyer USS W. L. Lind, of which he is a crew member, put in to Golfe Guan, France. Leave parties to Paris and other points of interest in France have been arranged for the crew.

Offices of the City Recreation department, which are housed in City hall, have been connected to the City hall telephone switchboard, it was announced Monday afternoon. Henceforth, the department may be reached by telephone by calling No. 9371 and asking for the City Recreation extension.

Dr. D. M. Wiggins, president of Texas Technological college, will speak at a Rotary club dinner in Memphis Wednesday, it was announced Monday.

Text of Dr. Wiggins' address was not revealed.

Firemen said only minor damage was caused by a small blaze at 1:45 p.m. Monday in an air conditioner at the Chambers Lumber company located about two blocks east of Ave. A on the Slaton highway. The department listed as a false alarm a 2:05 p.m. call to 302 Uvalde.

Jack Waldrop, about 50, a Santa Fe Railway mechanic, was taken to West Texas hospital about 9:30 p.m. Monday after he had lost consciousness while working in the unused fire box of an engine in the railroad yards. Attendants listed Waldrop's condition as good, but said he would be held until sometime today for observation. It was believed he was overcome by heat in the closed compartment.

An eight-head string of Texas Holsteins exhibited under the care of Glenn Hackney of Lubbock took the $300 premium for the best state herd at the four-state regional Holstein-Friesian show Monday at the State Fair of Texas, according to an Associated Press dispatch last night from Dallas.

"HOW'R-R-ROAR YOU?" — Two-year-old Virginia Severn of London seeks the protecting arm of friend Bill Kitchen as she meets the new mascot of the Wembley Lions Club at the London Zoo. It was a christening party for the cub, who's now known around the zoo as the Wembley Lion.

Kent Wildcat To Be Sought

Drilling & Exploration Company, Inc., of Abilene, has filed an application with the Railroad Commission of Texa requesting a permit to drill an 8,000-foot wildcat in extreme southwest Kent county, two miles southeast of Polar.

It is contracted to test the Pennsylvanian lime, using rotary tools.

The drillsite will be 660 feet from north and east lines of section 19, block 5, H&GN survey.

This project was previously reported through unofficial sources as a possibility.

SALT WATER FOUND IN TERRY WILDCAT

Tide Water Associated Oil company and associates No. 1 Nystel, southeast Terry county wildcat to go to 12,000 feet to test the Ellenburger developed salt water in the Pennsylvanian lime in a drillstem test at 9,370-9,415 feet in a Pennsylvanian lime reef.

The tool was open two hours. Recovery was 2,550 feet of salt water. There was no drilling mud in the fluid recovered. The project is making hole below 9,456 feet in lime.

This project topped the reef at 9,352 feet, on an elevation of 3,171 feet. The section at 9,350-75 feet had a recovery of 970 feet of clean oil and 270 feet of heavily oil and gas cut drilling mud during a two hour drillstem test.

DRILLSTEM TEST RUN ON WELL IN GARZA

Seaboard Oil Company of Delaware and Republic Natural Gas Company No. 1 OS Ranch, (Connell), slated 8,250 foot wildcat in south-central Garza county, 15 miles south of Post and at the center of the southeast quarter of the southwest quarter of section 2, block 5, H&GN survey, ran a one hour drillstem test in a Pennsylvanian lime at 7,503-7,622 feet. Recovery was 2,100 feet of oil and gas cut mud and 5,000 feet of salty, sulphur water. The venture is now drilling ahead past 7,760 feet in lime.

The "gun" in a television tube shoots no bullets, but rather "fires" a stream of electrons upon a self-contained screen.

JOB PROBLEM?
Steady demand for graduates with big concerns. Streamlined courses prepare quickly for prompt placement. Day, night.
