Oklahoma Granted Oil Royalties

Maybe So

* * *

Two in the Butter—
Frisco Is Frisky—
Doug's Poker Party—
About Two Marys—

* * *

THE WEST TEXAS A. & M. seems sure. Quite often the house at Austin passes a measure calling for the expenditure of money only to have the senate or the governor kill it.

But every report from Austin is to the effect that the A. & M. bill is the surest of passage of anything in the house hopper.

Senator Bledsoe of Lubbock will grease it through the senate like Arthur's morning chef handling "two in the butter."

* * *

The Frisco, after a long sleep as far as expansion is concerned, reaches out for five Texas short lines, including the Quanah, Acme and Pacific. Citizens of Quanah should rush wires to Austin urging the legislature to let Frisco have the Question Almost and Perhaps Streak of Rust before the directors of the Frisco inspect the railroad and change their minds.

* * *

At least two of the five members of the General hospital board to be selected soon should come from outside Wichita Falls. Burk and Electra send enough hospital cases into Wichita for each one to be entitled to representation.

Since the county health officer comes from Iowa Park, the remaining two should come from Wichita. Big Sis should get the extra gumdrop.

* * *

Will Hays generally comes a-smilin' through any rough road they put him over. But with Doug after him, and naturally Wife Mary it looks as if the movie censor had better put on his chains if he doesn't want to skid.

You all know Fairbanks showed himself some tough guy in "The Three Musketeers," and that the Hoosier movie czar only weighs about 125.

The Fairbanks' dope is that he expects to have Charlie Chaplin (remember him), and Pola Negri and Mary and Harold Lloyd out to his house for a poker party and that after the little game, McAdoo (the one who marred Wison's daughter, not the young one), will step in to tell the big five that Hays is the limburger.

* * *

Chances are the whole party won't amount to not a thing, as Bert Williams would say.

While Mac is waving his arms, Charlie will sneak Pola into the parlor for a love scene; Mary will go ahead with her knitting and Harold will slip away to gather in the big purse playing doctor.

But both Mac and Doug like to talk so we're probably in for some good readin' anyway.

* * *

Mary Miles Minter announces retirement from the screen, plans for a nabob home in exclusive Westchester, N. Y.; the study of music and ultimate return to the stage. There is also hinted a marriage to come with Louis Sherwin, playwright, as soon as Sherwin gets rid of a wife and three children.

We must be terribly old-fashioned here in Wichita. A girl, even as sweet a young thing as Mary, couldn't get away with this premature vamp stuff around here. It's all right to be a vamp, but ahead-of-the-divorce conversation sounds messy.

* * *

Some day we will hear of the details of the scenario staged when Famous Players and Miss Minter decided not to play together any more.

* * *

Hollywood is a tempestuous place. Oh, very well, it's quiet around Westchester.

* * *

The other Mary gets away with a splendid picture in "Tess of the Storm Country." She must be about 40 without being the least fat. Doug evidently has made her happy as she hasn't a worry wrinkle and jumps around as convincingly as the saucy 17 she is supposed to be.

* * *

Goodnight.

FRENCH PLACE EMBARGO ON ALL CUSTOMS

Plan to Put Foch In Charge of Work At Essen

By Associated Press.

LONDON, Jan. 26. — The railway workers in Duesseldorf this afternoon tore up the railway lines, isolating Ruhr main line traffic, says a Reuter dispatch from Duesseldorf.

ESSEN, Jan. 26.—The customs barrier with which the French are threatening to encircle the occupied Ruhr region is expected to become effective at midnight tonight.

The occupation authorities decline to reveal their proposed plan, or to indicate the methods they will take for enforcement. "Ask Marshal Foch," was the uniform reply to the newspaper correspondents today when they asked for information.

This is interpeted as indicating that Marshal Foch will have headquarters in Essen and be in charge of the customs embargo, which it is presumed, will permit of exports and imports to and from occupied Germany only with the consent of the French authorities.

The post and telegraph authorities have issued an ultimatum to the French demanding the evacuation of telephone, postal and telegraph quarters, abolition of mail censorship, removal of military patrols from governmental premises and non-interference with the government administration.

No mail has been sent out of Essen for two days.

FRENCH TROOPS POLICE OCCUPIED TOWNS

DUSSELDORF, Jan. 26.—What practically amounts to martial law has been declared in the occupied territory.

All cafes, hotels, theatres and cabarets were closed at 10 o'clock tonight, German time, which is 9 o'clock French time.

The French tonight were continuing to make arrests in connection with Thursday's rioting.

About 20 nationalist leaders were imprisoned during the evening.

More arrests are likely tomorrow if the Germans carry out their decision to refuse to obey the French. This decision was reached today at a meeting of all the burgomasters, the chief of police, permanent state officials and the directors of the reichbank in the Rhine province. The meeting was presided over by Dr. Gruetzner, president of the province of Rhenish Prussia, who later was taken into custody, but afterwards released after a conference with General Simon, who informed him that he would be re-arrested if he remained recalcitrant.

Pharaoh's Body Found; X-Ray To Be Made of Him

By Associated Press.

LUXOR, Egypt, Jan. 26.—Pharaoh Tutenkhamun, the mighiest king in the world 3,000 years ago, whose tomb was recently discovered in Egypt, is to be X-rayed if his mummy still lies in the tomb.

When the archaeologists now at work on the tomb open the Alabaster coffin, take off the thin cover of gold and carry the shrouded form into the sunlight, it will be photographed from every angle. The hundreds of yards of bandage will be unwound and for the first time in history a film of the weird sight will be made.

It has been decided that the mummy is to be X-rayed before the bandages are removed as it is expected that this will throw an important light on the ritual of embalming as practiced by the ancients.

Klan Warned

By Associated Press.

NEW YORK, Jan. 26.—A warning to members of the ku klux klan that they must give up their allegiance to the "Invisible Empire," or get out of Brooklyn, was issued today by District Attorney Dodd of King's county and Magistrate Dale.

State Banks Are In Good Health Reports Show

By Associated Press.

AUSTIN, Jan. 26.—A healthy condition of Texas state banks was shown in the report of financial conditions issued by the state banking department today. The report shows that bank deposis on December 20, had increased more than twelve million dollars over the previous bank call. Bills payable and rediscounts showed a reduction of approximately eleven million dollars; cash increased $2,500,000; loans decreased $3,000,000, and resources showed a total increase of $1,600,000. Banks reporting numbers 970.

COMPROMISE IS NOT POSSIBLE

French Will Not Talk Of Moratorium

By Associated Press.

PARIS, Jan. 26.—The possibility of the reparations commission becoming a medium for compromise on the present difficulties between France and Germany virtually ended this afternoon, so far as the immediate future is concerned.

By deciding that it would be futile to discuss the question of a moratorium with conditions as they are in the Ruhr, declaring Germany in general default of all her reparation obligations to France and Belgium, the commission placed itself outside of the problem for some time to come.

The decision has the effect of providing for future defaults by Germany in reparation deliveries, either in cash or kind, and saves the commission the trouble of declaring a new fault every time one occurs.

Roland W. Boyden, the American unofficial representative, attended today's session, but did not address the meeting and the chairman did not request him, as he has done on previous occasions, to make known his views.

Third Week Of Legislature Sees Much Work Done

By Associated Press.

AUSTIN, Jan. 26.—The third week of the thirty-eighth legislature which closed tonight proved to be a busy one. More than five hundred bills have been introduced during the session. In the house, 340 measures have been introduced, and in the senate, 215.

Probably the most important work of the week was the passage by the house of the Rountree reclamation bill and the passage of the Pope bill on the state text books. Adoption by the house of the Laird resolutin calling fr an investigatin f the textbook awards and the ection of the house and senate committees in reporting against repeal of the open port law also are considered important.

The next week should see enactment of a number of important measures. The senate will have the Rountree bill up for final passage, as well as the prposal to establish a state technology school in west Texas. Some of the most important measures scheduled for consideration during the session should be disposed of next week.

Thomason Named On Pecos Project

By Associated Press.

AUSTIN, Jan. 26.—Governor Neff tonight appointed R. E. Thomason, of El Paso, as Texas delegate to the proposed conference between Representatives of Texas, New Mexico and the federal government to consider plans for handling waters of the Pecos river as provided for in the joint resolution passed by the legislature. Representatives of New Mexico and the government will be appointed immediately and arrangements made for the conference, it was stated.

KEITH HEADS T-O FAIR IN 1923 WORK

All of Officials Are Re-Elected By Directors

George D. Keith was re-elected president of the Texas-Oklahoma Fair association and G. Clint Wood, C. H. Verschoyle and W. E. Norton were re-elected vice-president, secretary, and treasurer respectively, for 1923, at a meeting of the fair association directors Friday night. Virtually the same board of directors as served in 1922 was re-elected by stockholders in a session immediately preceding the election of officers.

Keith Given Cup.

Before returning him to office for another year the stockholders presented Mr. Keith a handsome silver loving cup as a token of appreciation for work in directing the successful exposition last year. The cup, appropriately inscribed, was presented by G. Clint Wood who on behalf of the stockholders, heartily thanked Mr. Keith for the tremendous amount of time and energy he had expended in making the Texas-Oklahoma fair a decided success in its first year.

Mr. Keith responded with a few words and declared that if he deserved such a token all the other individuals associated with him were entitled to cups "three feet higher."

Details Disposed Of.

The new board of directors disposed of a number of details following the election, all of which indicated that the 1923 fair is to far surpass that held last year. Chief among the important decisions made was that to erect a permanent grandstand and construct a race track at the fair grounds sometime this summer. No details concerning the construction were gone into last night, but it was stipulated that the stands should have a seating capacity of at least 6,000. The manner of financing was not considered to any extent but it was the concensus of opinion that a stand and track were absolute necessities and that the financial problems could be worked out later.

Amusements Considered.

Considerable attention was given the matter of amusement attractions. Belief was expressed that fully as much as was expended last year should be spent again in bringing carnival, vaudeville and other special features to Wichita Falls. It developed that between $9,000 and $10,000 was expended last year. Secretary Verschoyle explained that many of the selections must be deiayed until February when he plans attending a national conference in Chicago that will systemitize schedules of many road attractions available for use at state and district fairs. Many of last year's attractions were obtained at a similar convention, Mr. Verschoyle stated, and with a knowledge of how much he may expend it will be possible to contract for the same or better features for 1923.

A deal is now pending with the Morris-Cassell shows, successor to the Wortham shows, No. 1, which exhibited at the 1923 fair, whereby the new company is expected to be brought here. Some arrangements are yet to be made, however.

The board of directors of the fair announced after the Friday night elections is as follows: W. W. Anderson, W. D. Cline, Wm. Daniel, E. S. Goodnet, J. T. Harrell, Jos. Huckins III, J. A. Kemp, Frank Kell, Geo. D. Keith, Wm. Moore, W. E. Norton, T. B. Noble, P. A. Rogers, W. M. Priddy, M. D. Rowe, C. H. Verschoyle, Fred Weeks, Bob Waggoner, G. Clint Wood, R. O. Harvey, J. C. Hunt, J. L. MacMahon, R. H. Hunt of Burkburnett, Frank Boyd, of Iowa Park, J. M. Wise of Electra, W. C. Young of Archer City and J. S. Dickey of Henrietta.

Harding Says England Will Fund Its Debt

By Associated Press.

WASHINGTON, Jan. 26.—President Harding has every confidence that there will be an agreement with the British government for the refunding of its huge war debt to the United States, it was stated today at the white house. Should the settlement be delayed beyond the present session of congress which ends March 3, there will, however, be no extra session of the new congress to consider the matter.

The president and the American debt commissioners were declared to believe that the counter proposition presented by the Americans after the British mission had outlined terms on behalf of its government was sound and one that might have been acceptable to congress.

THE WEATHER

WICHITA FALLS, TEXAS
JANUARY 27, 1923

West Texas: Saturday fair, colder; Sunday, fair.

Oklahoma: Saturday, unsettled; Sunday, generally fair.

East Texas: Saturday, unsettled, somewhat colder; Sunday, generally fair.

Minimum Temperature: 60 degrees at 6 p. m.

Maximum Temperature: 70 degrees at 7 p. m.

Germany In Default on Payments; French Patrol Dusseldorf Streets

By Associated Press.

Germany now is in absolute default on all her reparations obligations and will be afforded no assistance in the nature of a moratorium to gain her financial feet, according to a decision of the reparations commission. Also at the end of the present month the German government is to be called upon forthwith to pay to the allies the sum of a half billion gold marks on her delayed reparation account.

Inside occupied area of Germany comparative tranquility prevailed Friday so far as untoward demonstrations were concerned; but nevertheless the feeling of bitterness against the French was as apparent as on previous days. Numerous arrests of persons concerned in Thursday's disorders were made, and others are likely to follow today because of the recalcitrancy of various German officials in carrying out orders given them by the occupation officials.

Duesseldorff bears somewhat of the aspect of a besieged city, with French troops patrolling the streets in place of the German police who have left their posts. Cafes, hotels and places of amusement were closed at 10 o'clock last night by order of the French officials.

Throughout the entire Ruhr region the number of men on strike in the coal mines and other industries is slowly, but surely, augmenting. The railroads are virtually idle, and traffic on the river has all but ceased, the only boats plying being manned by the French.

Large contingents of French troops are being brought into the Ruhr for the purpose of meeting any eventuality that may arise.

Near East Parley Doomed To Failure Says Turk Delegate

TIME NOT RIPE FOR U. S. TO AID

Effort to Conciliate Europe Futile

By Associated Press.

WASHINGTON, Jan. 26.—Administration officials have seen no sign in European advices to the government that the time has yet come when the United States could be helpful in the reparations crisis. Both at the White House and the state department emphasis was laid today on the tenseness of the situation in the Ruhr.

It was pointed out by authorized spokesmen for the government that while the French purpose to proceed by forcible means in the Ruhr remained unchanged on the one hand, and the German resolve not to discuss the situation in any way with France while the forces of occupation remained in German territory was unshaken on the other, outside proposals of any sort were futile.

President Harding and his advisers take the view that if it had been possible for any conference project to relieve the reparations crisis the league of nations long ago would have been invoked to that end. But the first requirement of league action, it was pointed out, is unanimous agreement to take up a subject and there has been no hope of obtaining French agreement as France is committed to her own course of action.

Evans Says Ku Klux Take Oath To Aid Officers

By Associated Press.

CHICAGO, Jan. 26. — Ku klux klansmen have no right to take the law into their own hands, Hiram Wesley Evans, imperial wizard of the organization, declared here today. In an earlier statement he charged Governor Parker of Louisiana with political or other motives in instigating the Mer Rouge investigation of the deaths of Watt Daniel and T. F. Richard.

Asked if the klan would defend any men who may be arrested or indicted in connection with the Louisiana case, Evans said:

"It would depend entirely upon condition of the klansman. If he was unabe to provide defense for himself we would most certainly see that his rights as a klansman were looked after, and that he got justice. We would not use any effort anywhere to prevent a man from paying the just penalty for a crime committed.

"Every klansman specifically takes the following oath, which has never been published before: 'I furthermore promise to swear that I will always, at all times and in all places, help, aid and assist the duly constituted officers of the law in the proper performance of their legal duties.'"

Commissioners To Be Named March 1

AUSTIN, Jan. 26.—Announcement that he will not appoint the new members of the state railroad commission to succeed the late Allison Mayfield and Earle B. Mayfield when he resigns, until about March 1, was made by Governor Neff tonight. The governor said he has practically decided upon the appointetes and that no further applications will be received. The chief executive said he has more than 150 names before him for the position.

Farmer Held

TEXARKANA, Jan. 26.—Mansfield Smith, farmer, is in jail at Boston, cahrged with murder for his alleged connection with the fatal shooting of J. A. Thom, also farmer, near New Boston late this afternoon.

Riza Nur Pessimistic Over Outcome; Ismet Calls on Child But Both Silent on Meet

By Associated Press.

LONDON, Jan. 26.—A Constantinople message to the Exchange Telegraph, reports that the Angora government has recalled Ferid Bey, its representative at Paris, on account of the turn of affairs at Lausanne.

LAUSANNE, Jan. 26.—Failure of the Near Eastern conference is certain, according to a statement made to the Associated Press tonight by Riza Nur, one of the members of the Turkish delegation.

Notwithstanding this pessimistic view of Riza Nur, who is the most radical of the Turkish plenipotentiaries, hope is expressed in other responsible conference quarters that things may arrange themselves at the last moment.

Ismet Pasha, chief of the Turkish delegation, called on Richard Washburn Child, the American observer, this afternoon and discussed with Mr. Child the existing delicate situation in all its aspects. Mr. Child termed it a private conversation but in American delegation circles the impression pervailed that the Turks will seek a settlement at Lausanne, if one is possible.

Ismet followed up his talk with Ambassador Child by inviting Rear Admiral Bristol, also of the American delegation, to take tea with him. The deadlock in the conference again was discussed over the teacups.

God, Alone, Knows Outcome

Asked if war would follow the breakdown of the conference, Riza Nur said tonight:

"God only knows. I am furious that our months of hard work here should all be for nothing."

The Russian delegation issued a statement tonight to the effect that Russia would not sign the straits treaty. The Bulgarians threw a bomb into Balkan circles, and incidentally into the allied ranks, by officially informing all the powers that Bulgaria flatly refuses to accept the outlet to the Aegean sea as arranged by the allies.

Dr. McKoin Will Resume Studies

By Associated Press.

MONROE, La., Jan. 26.—Dr. B. M. McKoin, former mayor of Mer Rouge, whose name was prominently mentioned in the Bastrop open hearing into masked mob activities in More house parish, expected to leave within a few days for Beltimore to resume his studies at Johns Hopkins university, it was learned here today.

Frisco Asks To Purchase Texas Rail Property

By Associated Press.

FORT WORTH, Jan. 26.—Application will be made to the Texas legislature by the board of directors of the St. Louis, San Francisco and Texas railway company to purchase, own and operate the International Great Northern railroad company, Fort Worth and Rio Grande railway company, Paris and Great Northern railroad company, the Brownwood north and south railway company and the Quanah, Acme and Pacific railway company, it was decided at a meeting of the board this morning, held in Fort Worth.

If the consolidation is made the Frisco will have an aggregate mileage of 1,656 miles of operating track. It also would allow for expansion into west Texas and would give direct connections between St. Louis, Mexico and the Gulf.

"Too Vicious To Be Killed," Bull Is Freed After Injuring Four In Ring

By Associated Press.

BROWNSVILLE, Jan. 26.—The verdict "too vicious to be killed," gained freedom for a bull which made a gallant fight at the Plaza de Toros, in Matamoros. After it had injured one matador, two picadors and a banderillo, it was permitted to leave the ring without being sacrificed. This is the first time in a decade that a bull has entered the arena at Matamoras and lived.

Several thousand spectators were at the fight. As the bull entered the arena with the red flapping around its horns he appeared the reincarnation of fury. Without stopping his headlong charge, he killed the horse of the first picador, trampled the man, but the latter escaped without serious injury. Wheeling quickly he attacked the second picador who managed to escape with his life.

The bull showed no signs of tiring and after a few minutes of baiting by banderillos and capadors, the matador was knocked down, trampled on and narrowly escaped goring. The animal then created consternation among the audience by jumping the six foot stockade around the arena. It was driven back, and finally driven to the pen. It will be returned to the ranch from which it came. The edict was that the bull had earned its right to live.

Americans among the spectators nearly precipitated a riot during the excitement when they cheered for the bull but officers in the bull ring quieted the crowd before any serious disturbance took place.

'Rally For All Nations' Called; To Oppose Klan

By Associated Press.

CHICAGO, Jan. 26.—An "All Nations" rally to form the basis of a national organization to oppose the Ku Klux Klan and kindred organizations, will be held at the coliseum here beginning Feb. 25, and continuing for one week, Patrick H. O'Donnell, chairman of the American Unity league, announced tonight.

Governor John M. Parker of Louisiana has accepted an invitation to make the opening address at the rally on Feb. 26, and Governor Al Smith, of New York, is expected to speak, Mr. O'Donnell announced.

"This is expected to mark the beginning of a national movement," Mr. O'Donnell said.

TWO SHOT IN PISTOL DUEL

Oklahoma Fight May Prove Fatal

Special to The Record News.

FREDERICK, Okla., Jan. 26.—Harry Laubach, aged 21, is in the Frederick hospital suffering with bullet wounds that may prove fatal and Cleo Akes, aged 23, is in a sanitarium at Manitou, Okla., a few miles from here, as the result of a pistol duel between the two on the streets of Manitou Thursday night. Akes' wounds are also declared by physicians to be of a serious nature.

The shooting took place in front of a theatre after insulting remarks are alleged to have been addressed to Laubach and his mother by Akes. Laubach was shot four times with a .38 calibre army special revolver while Akes was shot through the chest with an automatic pistol.

According to Sheriff E. J. Mays of Frederick who visited the scene of the shooting, trouble between the two men had been brewing for some time.

Haynes Knows Nothing of Dry Agent Shake-Up

By Associated Press.

SAN ANTONIO, Jan. 26.—Roy A. Haynes, United States commissioner of prohibition, on his arrival in San Antonio tonight, stated that he had not heard and knew nothing about the report sent out from his Washington office that charges had been preferred against several Texas prohibition officials. He also stated that he had not as yet selected a man to become head of the Texas prohibition forces and would not select a man until he had completed his trip through Texas and had made a complete survey of the situation.

The commissioner announced that E. C. Knitsell, who had temporary charge of the Texas prohibition forces, has been transferred to Pittsburgh, Pa., and that David Smith, who has been stationed at El Paso, had been transferred to Dallas and would have charge of both Texas and New Mexico and Arizona districts.

Standard Boosts Louisiana Crude

By Associated Press.

SHREVEPORT, Jan. 26.—A second advance of ten cents per barrel on all grades of north Louisiana and South Dakota crude oil was posted here today by the Standard Oil company of Louisiana. It was met immediately by the Gulf Refining company, the Texas company and independent purchasers. The advance restores top grade oil of the Caddo, Haynesville, Homer and El Dorado pools to $2 a barrel. Bellevue and Smackover advanced to 95 cents and Smackover heavy to fifty cents.

Senate Acts On Secret Order Bill

By Associated Press.

AUSTIN, Jan. 26.—The Burkett bill which would require all secret organizations to file membership lists annually with the county clerk of each county, was unanimously reported favorably by the senate committee on civil jurisprudence late today. The measure is directed particularly against the ku klux klan, according to Burkett.

House Reports Out Bill On Oil Tax

By Associated Press.

AUSTIN, Jan. 26.—A gross production oil tax of three per cent, as a substitute for the present one and one half per cent was reported favorably by a majority of the house committee on revenue and taxation Friday night. Notices of minority report by members favoring a higher gross production tax were given. Governor Neff in recent speeches and his message to the legislature suggested a five per cent maximum tax on oil.

STATE TO GET 37 1-2 PERCENT OFF RIVER BED

Senate Committee Favors Placer Claims

BY B. N. TIMMONS
Washington Correspondent.

WASHINGTON, Jan. 26.—While Texas gained considerable land along the disputed state boundary line under the recent order of the United States supreme court defining the boundary, Oklahoma seems to be in a position to get considerably more out of the river bed oil wells than Texas.

Secretary of the Interior Fall reported today to the senate committee on public lands that under the general leasing act of 1920 Oklahoma will be entitled to 37 1-2 per cent of all receipts of bonus, royalty, etc., on oil leases made by the United States in the south half of the Red river bed, this having been held by the supreme court to be public domain.

Watson Bill Reported.

At the same time this committee reported out the bill introduced by Senator Watson validating the claims of those who put down wells under the provisions of the placer mining laws which have since been held by the supreme court to be inapplicable to the Red river bed. Speedy passage of the bill was recommended, the report stating that those who first went upon the lands in good faith and expended their money and labor should enjoy the fruits of their discovery.

"Any other policy of congress would seem to violate every sense of justice," said the report.

The house committee seems to be disposed to recognize these claims under the old placer mining laws and even Oklahoma has intimated it will not oppose the giving of priority leasing rights to those operating under them.

It is estimated that if the placer claimants are given leases the funds already impounded will be sufficient to give Oklahoma $500,000 for school or road funds while it will continue to draw its percentage of all royalties on oil hereafter produced on this public domain.

In Washington Yesterday

Acting on the Robinson resolution which would authorize American representation on the reparations commission was indefinitely postponed by the senate foreign relations committee.

President Harding was declared at the white house to have every confidence that there would be an agreement with the British government for funding its war debt to the United States.

Acceptances of Mrs. John B. Henderson's offer to the government of a $500,000 residence for use as home for the vice president, was proposed in a bill introduced by Chairman Warren of the senate appropriations committee.

Bernard M. Baruch, war time chairman of the war industries board, in a report to the American Farm Bureau federation, advised acceptanee by the government of Henry Ford's offer for Muscle Shoals, provided no better proposition is received and Ford agrees to produce at least 40,000 tons of nitrogen for fertilizer annually.

Habeas Carpus Hearing Waived By Waco Judge

By Associated Press.

WACO, Jan. 26.—Next chapter in the story of the tragic death of Grady Skipworth, killed at Lover's Leap and his body tossed over the high cliff to fall almost into the waters of the Bosque, is due to be unfolded next Wednesday, when his alleged girl companion of the fatal night, Miss Naomi Boucher, and her two brothers, Horace and Bernard Boucher, are to face examining trial.

This became certain Friday, when hearing on a habeas corpus writ before Judge J. P. Alexander was waived and the case reverted to the court of Justice of the Peace James R. Jenkins.

WILL HAYS THE MOVIE CZAR

says things don't "just happen" in this world—"they are brought about." Mr. Hays is absolutely correct.

A growing business doesn't "just happen"—not by a long shot. There's some brains and energy and effort behind it all.

Record News classified ads aid materially in bringing about a greater business or in protecting what you already have. But you must use them.

BILL FOR TECH IS ENGROSSED

Measure Would Give College to West

By Associated Press.

AUSTIN, Jan. 26.—Final passage of the Sweet bill licensing, bonding and regulating private employment agents and passage to engrossment of the amended Chitwood bill creating a "Texas Technological college" to be located in West Texas were the only definite accomplishments of the house today.

The Sweet bill, the most voluminous yet passed by the house, carries the following general provisions: Limits the fees charged by employment agents; provides for cancellation of their licenses under certain conditions; prescribes the duties of the commissioner of labor statistics with reference to enforcement of the act; provides for recoveries on agents bonds; fixes penalties for violation of the act; creates a fund for enforcement of the act; and repeals certain laws in conflict therewith. The vote on final passage was 92 to 17, after which the bill was sent to the senate.

The Bill Engrossed

The bill to establish the technological college was passed after debate which consumed most of the morning sessions. The vote was 100 to 20.

The bill provides that a locating board shall be appointed to select a tract of 2,000 acres north of the 29th parallel and west of the 98th meridian as a site for the college. The school will teach all subjects necessary for the men and women attending it to obtain bachelors degrees of science, art, literature or technology and will give special instruction along lines of manufacturing cotton, wool, leather and other Texas raw materials.

Home Credits Fails

The house took up for second reading the Bryant joint resolution amending the constitution so as to empower the legislature to lend the credit of the state for improvement of homes, but it failed of passage, 91 to 59 after several amendments had been favorably acted on.

The house adjourned this afternoon until Monday morning in order to give its committees time to catch up with their work.

Russians Trade Coal for Tools

Special to The Record News.

NEW YORK, Jan. 21.—Eight hundred carloads of coal are en route from the Don Basin, the principal coal fields of Russia, to the Ukranian regions, according to a cable dispatch received by the Russian committee of the American Jewish joint distribution committee from its Moscow representative.

This coal will provide warmth for 90,000 thousand children in institutions and 10,000 destitute people in Kiev, Odessa, Kharkov Ekaterinoslaw, Podolia, Volhynia, Nikolaiev and Khersonl.

By a special arrangement with the soviet government this purchase is to be paid for with American mining machinery, which will aid n the reduction of the fuel shortage as many rich coal fields in Russia remain unexploited, due to lack of proper mining machinery.

CONVICT LABOR PROVES EXPENSIVE

By Associated Press.

EL PASO.—After experimenting with convict labor for six months, El Paso county has abandoned it. County commissioners say that convict labor, because of the overhead expense incurred in guarding the prisoners, is too expensive. Work is accomplished faster, cheaper and better with "free" labor, they said.

COLLEGE TEACHES HOW TO HOLD HUBBY

By Associated Press.

ARLINGTON.—Women of Texas will be given an opportunity to learn how to create "livable" homes, select wall paper, draperies, rugs and furniture; how to adorn themselves in "dressy" dresses of simple texture and how to revive "hubby's" good humor with a properly baked potato, in a special course announced by Arlington college to begin Jan. 29.

Two Sermons At Central Presbyterian

Rev. F. C. Laslette, pastor of the Central Presbyterian church, corner of Eleventh and Bluff streets, states that he will preach two special sermons Sunday. In the morning he will answer the question asked by a local citizen on "Why do the Godly suffer and the ungodly have an easy time?"

At the evening service he will speak on "By-Products on Life's Highway," or a "Prominent Business Man's Conversion to Christ"

Sunday school begins at 9:45 a. m. with E. S. Goodner, superintendent.

Estes To Consider I. & G. N. Shop Case

By Associated Press.

HOUSTON, Jan. 26.—Judge W. L. Estes of Texarkana in federal court here today, took under consideration for future decision the motion to dismiss the Palestine shop removal case instituted by the International-Great Northern railroad bond holders.

The motion to dismiss the case, claiming federal courts have no jurisdiction, was urged by Nelson Phillips, formerly chief justice of the state supreme court. H. M. Garwood and S. B. Dabney, both of Houston, arguing for the bondholders, asserted that the new case was ancillary to the old International-Great Northern receivership cases and that therefore the federal court here had jurisdiction.

Judge Estes instructed both sides to file briefs on the question of whether this is an ancillary case, giving them three weeks in which to file.

Oil Suit Filed In Vernon Court

Special to The Record News.

VERNON, Jan. 27.—Suit was filed in the district court of Wilbarger county Friday by Alexander Stewart of Denver, Colo., for $8,000.00 against the Noble Oil and Development company, a corporation, and A. P. Peck and J. C. Hickernell. The suit is on a note executed by the company to Mr. Stewart and a foreclosure of a mortgage executed by the compay against Messrs. Peck and Hickernell to cancel a lien they claim against the oil well supplies by reason of an attachment they have on the property covered by Mr. Stewart's mortgage. Service was had on Roderick Stewart, local agent of the Noble Oil and Development company, who is in Vernon at this time.

The tools and drilling outfit are located on the Judd farm, about six miles southeast of Vernon, and have been in use there drilling a well for oil. The well has been abandoned and the casing pulled and stacked on the lease.

MESCAL FOUND IN PIG SKIN BOTTLE

By Associated Press.

BROWNSVILLE — A Mexican "water bottle"—as the pig skin water containers used by the Mexicans are called—was seized by Customs Officer R. D. Browns and found to contain three gallons of mescal which had been smuggled across the Rio Grande. This was the first time in several years that smugglers have been known to utilize the water bottles, which are commonly used in the interior of Mexico.

BUFFALOES GET AIR

By Associated Press.

EL PASO.—El Paso's herd of seven buffaloes has been moved to a pen containing 10 times as much space as the former inclosure. Veterinarians said the animals were threatened with tuberculosis and suggested that they be moved.

PRIVATE BANKS ARE PROHIBITED

Under Holbrook Bill Passed By Senate

By Associated Press.

AUSTIN, Jan. 26.—The senate late today passed finally the Witt anti-technicality court bill and passed to engrossment the Bledsoe bill providing for the establishment in west Texas, of a state college of technology. The bill was passed by a vote of 14 to 6, with three pairs.

The Witt measure prohibits reversal o fcourt decisions on mere technicalities. The proposal was debated at length, involving amendments defining what a technicality ssall be and minor changes. The bill was submitted in an attempt to prevent clogging of the courts by numerous reversals, according to Witt.

The Bledsoe bill is the same as was engrossed in the house this morning and was subtituted in place of the propoal to establish a west Texas state college.

Banking Bill Passed

The upper branch also passed the Holbrook banking bill which would prohibit the establishment of any more private banks in the state and provides regulations for those now existing.

The Teer resolution from the house, which proposes a joint committee investigation of the state penitentiary system, and proposed re-location sites, was referred to the committee on penitentiaries after a heated debate. Senator Fairchild led the debate in favor of the resolution and Senator Bowers spoke at length in opposition.

The senate committee on civil jurisprudence tonight reported favorably Senator Burkett's bill to prohibit railroad companies and other interested parties in controversies from paying for special rangers and deputies. The measure was a companion bill to the proposal to repeal the open port law, which was reported unfavorably.

Ferguson Proposal Up

The Ferguson proposal to lease the state penitentiary apparently won a victory in the senate this morning when that body voted to refer the proposition to the penitentiary committee and give it consideration. It was indicated however, that the plan will not be adopted. The proposal was debated rather sharply between members, Senator Bledsoe strongly opposing any consideration of a leasing plan. Senator Fairchild expressed himself as in favor of considering the former governor's proposal.

The senate today passed to engrossment the Baugh bill prohibiting the carrying of firearms and prescribed a strict penalty. Under an adopted amendment, officers taking part in masked parades are not exempt from the penalty.

The senate adjourned until Monday morning.

Insurance Case In Court Is Dismissed

A case against a white insurance agent, charged with affray following a row with a negro customer, was dismissed yesterday morning by Judge John Martin in the city police court. The trouble grew out of an argument over a small debt which the agent claimed was owed him by the negro woman.

According to the woman, the man called at her home and asked that she pay $1.40. She refused, telling him that she would pay 70 cents the amount she claimed just. The argument ended with the white man wielding a brick and as a result they landed in the city court.

Home Town Stuff

It Interests Everybody

A few smouldering rags in a house at 1310 Thirteenth street caused a run for the fire department late Friday morning. No damage was done and what little fire was found was easily extinguished with chemicals.

The small son of Mr. and Mrs. N. M. Clifofrd, who has been in a serious condition following a delicate operation early in the week, was reported Friday to be considerably improved.

RAIL OFFICIALS OPPOSE PARLEY

State Would Settle Shopmen's Strike

By Associated Press.

AUSTIN, Jan. 26.—The new plan of conciliation for a settlement of the shopmen's strike in Texas, which, it became known today, has been proposed by state officials, is meeting with little approval among railroad officials, it was stated by officials here tonight. The preliminary conference, which had been set to be held here next Wednesday, has been postponed.

The attempt to bring about a strike settlement will be continued, however, it was stated, and the conference may be scheduled for a later date. It was found necessary to postpone the conference from next Wednesday when several of the railroads invited refused to join in the meeting, it was stated. Union representatives have accepted the plan, according to officials.

The invitation to hold the conference was sent out by Governor Neff, in conjunction with Lieutenant Governor Devidson, R. E. Seagler, the speaker of the house of representatives and Joseph S. Myers, state labor commissioner. Lines invited to the meeting were: Texas Pacific, Southern Pacific, St. Louis and San Francisco, M. K. & T., Santa Fe, Cotton Belt, Fort Worth and Denver, and Rock Island. Several national labor union officials also have been invited.

McClure Resigns

By Associated Press.

HOUSTON, Jan. 26.—Elmer McClure, who was reported as ordered suspended today as a federal prohibition officer, resigned from the service yesterday, his associates said here today. He was said to have gone to Austin to confer with prohibition officials.

A Page of Society and Household News for the Woman Reader

Your Heart and Home Problems Solved By Elizabeth Thompsun

Dear Mrs. Thompsun: I see in your column letters from girls asking you if they should disregard their parents' wishes and marry the one they feel they can't live without and can't forget.

Perhaps my advice won't do them any more good than others did me, however, I will have the satisfaction of telling my experience.

I, too, thought myself hopelessly in love at the age of 17 and disregarded my parents' wishes that I finish my last year of school and graduate. I eloped with a fellow 10 years my senior. I can see now it was only infatuation. I was in love with love, not with the fellow. His lovemaking swept me off my feet. I thought it very romantic to elope, but I have changed my viewpoint and now think it very tragic.

After four years' marriage I am so unhappy. I find I have really never had a girlhood with all those innocent pleasures which most girls enjoy—sledding parties, skating and automobile excursions. I was promised I wouldn't miss any of the good times if I would only marry. We would still accept invitations to the club dances and I should still have a good time. But now it is very different. He won't go anywhere with me, not even to church or a movie. You know a woman is more or less talked about if she goes without her husband.

I admit a married woman should expect to give up some pleasures when she enters into matrimony, but she needn't live the secluded life of a nun. The best and only good thing coming of my marriage is a dear little girl, now two years old. She is the dearest thing!

Nothing ever pleases my husband. Everyone says I am a good cook and I know I am a good housekeeper, but everything is always wrong. Last but not least he has taken a great liking for people's "best cellars" since prohibition went into effect.

Girls, know your mind and the fellow thoroughly before you leap.

EXPERIENCED PUPIL.

Thank you for sending your experience in hope of saving other girls from a life like yours. Indeed, it is a rare exception when such a marriage proves happy.

I should think you could find a neighbor who would like to attend theatres with you. It is certainly not fair that you should be kept away from everything. Of course your hardest years will be while your child is too young to share your pleasures. She is a great comfort to you now and she will become more and more so. Her companionship will do much to compensate for your lonely married life.

* * *

Dear Mrs. Thompsun: I am a girl of 15. Do you think I am too young to go with boys? I have been places with a boy who is very handsome. Many girls like him, but he does not seem to care for any one. Sometimes he sees me and will not speak. What should I do, for I love him very much?

Is it wrong to speak to boys you do not know if they speak first?

DOT.

Yes, you are too young to go with boys. Stop thinking so much about them and spend more time on your studies and girl friends. When the boy does not speak to you he is cutting you and does not deserve to be recognized by you again.

It is not correct to speak to a stranger even if he speaks first.

* * *

Dear Mrs. Thompsun: Will you please tell me how to grow taler? I am also too heavy.

How can I become popular among the boys? I am considered good-looking. Iam seventeen years old.

A BRUNETTE.

Gymnasium work might help you to grow taller. Exercise daily, lifting your arms as high as you can above your head and rising on your toes. As you raise your arms and rise on your toes take a deep breath, letting it out as you lower your arms and body.

There is no recipe for becoming popular. Dress neatly and as attractively as you can, be thoughtful of other people, and inform yourself so that you will be an interesting talker.

Regarding your weight, avoid rich foods, fat meats, deserts and candy. In fact eat less of everything. Too much eating makes fat. Perhaps you will feel that you don't eat as much as other people who are thin, but that makes no difference because it is evident that you are eating more than is good for you. Some people can't stand as much as others without getting too heavy.

Somebody's Birthday

Yours is an enigmatical character if today is the onniversary of your birth, for you might develop into any one of a number of extremes. All that is absoltely certain is that whatever it is it will be extreme.

You are energetic, ambitious and imaginative. If you are thwarted in one way your development in another will be just that much fuller. If you are permitted to fulfill only one of your numerous ambitions you will become almost a maniac in that one.

For you the end justifies the means, because the end is your end and to yourself you are the be-all and end-all of existence.

You are sensitive, appreciative and imaginative. You experience things physically, emotionally and intellectually. Your taste in matters of art, literature and music is beyond reproach, and you are so talented that there is none of these arts you could not create if only you could master the necessary technique.

You are inventive and resourceful, and also unscrupulous. Herein lies the grave fault of your character. You lack the tenacity of firm conviction. You will always do a thing by the most expedient method regardless of distant consequences. You believe in fate, but you confuse it with your own desires. Thus you argue that if you want to do a thing it is fate's decree that you have it, because fate willed you to want it.

Whatever your life is to be it is fairly certain that you will some day hold a trump card, but you will play it at the wrong time.

Today is one of positively perilous omen for all travelers and voyagers and for all projects in any way concerned with transportation.

The next year of your life will see you through grave dangers to health and fortune. But, be of good cheer, you will win through your indominable resolution.

A child born today will be active, energetic and nervous and wholly ungovernable in disposition.

Famous Persons Born This Day

Senator Favors Accepting Gift

By Associated Press.

WASHINGTON, Jan. 26.—A bill authorizing acceptance by the government of the $500,000 marble residence on Sixteenth street offered by Mrs. John B. Henderson as a home for vice presidents, was introduced today by Senator Warren, republican, Wyoming. The bill provides that the residence shall be accepted as a memorial to John B. Henderson, once a senator from Missouri, and his son, John B. Henderson II., a former regent of the Smithsonian institution. Free and unconditional title by the government is stipulated.

Senate To Act On Ferguson's Plan

By Associated Press.

AUSTIN, Jan. 26.—An attempt to return to former Governor James E. Ferguson his proposal to take over and lease the state penitentiary system was voted down in the senate this morning and the proposal referred to the committee on penitentiaries. Final vote on motino to return the proposition stood tied, 14 to 14, and Lieutenant Governor Davidson cast the deciding vote against the motion.

W-R Spark Plugs reduce oil pumping.—Adv.

Klan and Harvard Attacked By Jews

By Associated Press.

NEW YORK, Jan. 26.—Resolutions attacking the Ku Klux Klan and protesting against alleged anti-Jewish discrimination at Harvard university, were adopted tonight at the closing session of the Golden Jubilee convention of the Union of American Hebrew congregations. It was decided to hold the union's next convention in St. Louis in 1925.

The executive board was instructed by a resolution to take steps to check alleged abuses in the use of Jewish sacramental wines. All measures calling for segregation of aliens or leading to discrimination against foreigners were condemned.

Other resolutions urged adoption of uniform marriage, divorce and desertion laws, and repeal of the monthly quota clause of the present immigration laws.

New Fairview School District Opposed

On account of the opposition in this county, it is understood that the proposed plan to form a new independent school district near Fairview has not been sanctioned by local representatives in Austin. The plan is seemingly stopped by the opposition of the representatives from here. However, several men have gone to Austin in the interest of the proposal and it is possible that new action will be taken.

MOTHER OF LARGE FAMILY

Recommends Lydia E. Pinkham's Vegetable Compound to Other Mothers

Windom, Minn.—"I was so run-down that I was just good for nothing. I was to become the mother of my ninth child, and I thought I did not have the strength to go through with it. I took Lydia E. Pinkham's Vegetable Compound, and it has surely done all I could ask it to do and I am telling all my friends about it. I have a nice big baby girl and am feeling fine. You may use this letter to help other sick mothers."—Mrs. C. A. MOEDE, Box 634, Windom, Minn.

My First Child

Glen Allen, Ala.—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicines without much benefit. It has relieved my pains and gives me strength. I recommend it and give you permission to use my testimonial letter."—Mrs. IDA RYE, Glen Allen, Alabama.

TODAY'S RECIPES

Mexican Beef Stew — Cut into small pieces enough suet to fill a small tea cup, put into kettle and render. Into this put a three-pound piece of beef, keep turning until nicely browned, then cover with boiling water, adding more when necessary. Add three mangoes, three medium sized onions, salt and pepper to taste. When partly done add one can tomatoes. When meat is done remove and strain liquid back into kettle and add meat, required amount to potatoes, which have been pared and halved. Cook until done—let brown. Place meat on platter, arrange potatoes around, garnish with parsley.

Luncheon Salad—Shred half head cabbage, dice heart of celery, add one cup of alphabet noodles, cooked and cooled, one-half cup of raisins washed and dried, small cucumber diced.

Prepare package of lemon juice gelatine and when cool, just before ready to set, add the above mixture and place in a cold place to set. When ready to serve, place crisp lettuce leaf on plate, slice salad gelatine, placing slice on lettuce leaf, chopped nuts over it, and a spoonful of salad dressing at side.

Emergency Cake—Heat one-half cup of sweet milk with one tablespoon butter. While the milk and butter are heating, beat two eggs thoroughly, and add to them one cup of granulated sugar, stirring well. Sift one and one-quarter cups of either bread or pastry flour with two rounding teaspoons of baking powder. Add part of this sifted powder, and flour to the egg and sugar, beating briskly. Add part of the heated milk and butter, and beat thoroughly. Add the balance of the flour and powder, beat well, and add the remaining milk and butter. Beat the batter for one minute, add one teaspoon of flavoring extract or two teaspoons fresh lemon or orange juice, beat a few seconds more, and pour into a well oiled baking pan.

If convenient, place the cake in a cool oven, turning the fire high for three minutes, then turning it down to a moderate degree for the remainder of the baking time. You will not need to look at this cake for at least 20 minutes after you have turned the blaze down. If frosting is desired, a delicious one may be made by blending confectioner's sugar with cocoa, and adding hot water till the mixture becomes soft and smooth. Or the sugar may be flavored with hot lemon, orange or pineapple juice.

HELPFUL HINTS

Make your glasses sparkle—If you wash your glassware in warm water to which a generous pinch of washing soda has been added, instead of using soon, even the ordinary glassware will sparkle.

Match Boxes for Seeds—The empty pasteboard match boxes of the everyday parlor match variety make neat and compact receptacles for garden seeds and are easily labeled.

Society Personals

Mrs. Alma Y. Miller left Friday afternoon for Fort Worth, where she was called by the illness of her daughter, Virginia, who suffered a sudden attack of acute appendicitis while at U. I. A., Denton, where she is a student. She was taken to All Saints hospital in Fort Worth for an operation.

W. H. Costley, 110 Monroe, is convalescing after an attack of influenza.

'Cap' Skipwith Refuses To Talk

MONROE, La., Jan. 26.—Captain J. K. Skipwith, exalted cyclops of the Morehouse parish Ku Klux Klan, when asked today to confirm statements attributed to him that he had said that Thomas F. Richard had betrayed Watt Daniel and was still alive, said that he had nothing to say.

"I do not care to be quoted in any way," he said. "My statements have been misquoted repeatedly and I do not care to give any more."

Warrent Issued For Alex Howat

COLUMBUS, Kan., Jan. 26.—Judge F. W. Boss in the Cherokee county district court, today issued a bench warrant for the return of Alexander Howat to the county jail here to serve the remaining 56 days of a six-months sentence for violating the industrial court law. The sheriff was instructed to hold the warrant until next Tuesday when Howat is to surrender himself, his attorney promised.

Ship Loaded With Refugees Wrecked

MANILLA, Jan. 26.—One ship of the divided fleet of Russian ships, carrying anti-bolshevik refugees from Vladivostok, has been wrecked off the coast of Formosa, according to an unverfied report received here.

Billy Whiskers

By Francis Montgomery.

Just after Sarah discovered the boys calling on Bobbie they heard someone under the window say:

"I would like to know who put this ladder here! Fine place for a ladder, right up against the side of the house, under a window! A regular invitation for burglars to climb up. I'll just take it back to the barn," and off Mike—for it was he—walked with the ladder.

"Gracious goodness. Now you boys are caught like rats in a trap! How will you ever get out without Mrs. Banks seeing you?" asked Sarah, all excitement.

"I know! I've got a rope ladder in my closet we used when we played we were burglars, and they can go down that," said Bobbie.

"Sarah! Sarah!" Where are you?" called Mrs. Banks.

"For the love of Moses! There is your mother lookin' for me! Whatever will I tell her took me upstairs?"

"Say you have a toothache. Here, let me wrap this towel round your face!" and Bobbie tied a towel round her face.

"Sarah! Sarah!" came the voice again up the back stairs.

"Yes, 'um! Yes, 'um! I'm comin'," called back Sarah in a muffled voice, owing to the towel, for Bobbie had tied it so tight round her head she could not open her mouth

When the boys heard Sarah at the bottom of the stairs, Bobbie said:

"Shoo! Wait until I hear what she tells mother!" and the three boys listened at the head of the sairs.

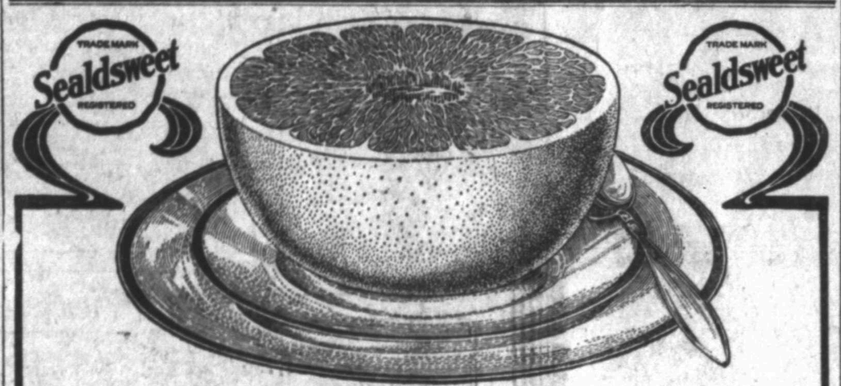

"I heard ye callin', Mrs. Banks, and I answered, but you could not hear me with my mouth all tied up. I have such a toothache I had to go to my room and put some medicine on it!"

Here all the little rascals laughed and held their sides.

"I am very sorry you have such a toothache. You had better go to the dentist this afternoon and have it looked after before it gets worse. A toothache is something awful to stand," said Mrs. Banks. "I could not enjoy my dinner at all, thinking of how Bobbie loves chicken and ice cream, and that I had to punish him by not allowing him to have any. Every time I punish him, I think I suffer more than he does. Have you taken up his bread and milk yet? When you do, you might slip on just a small wee bit of chicken, for the child is probably nearly starved by this time."

MARRIAGE LICENSES

Only one marriage license was issued yesterday in the county clerk's office. It was to S. D. Parchman and Miss Leona Bryant, both of this city.

RUSSIA IS COMING BACK

Officials of Soviet Russia made a purchase of 58,000 bales of American cotton in the city of New York last week, and this was the first purchase since the downfall of the Romanoffs. Terms upon which the sales were said to have been made, were 75 per cent cash and 25 per cent in six months.

ARKANSAS THE FIRST VICTIM

Arkansas is to lose federal aid on state highways. Recommendations and stipulations fulfillment of which probably will require action by the Arkansas legislature were laid down by Secretary Henry C. Wallace of the department of agriculture, who declared that they are to be met before the state receives any additional federal aid on any project and before agreements will be entered into between the federal government and the state of Arkansas.

This is as it should be.

There are many federal aid roads in Arkansas. Arkansas lawmakers fail to provide a maintenace fund for the upkeep of these post roads. Now the Arkansas lawmakers are privileged to enact a necessary legislation or else permit their state to go back to the dirt roads of yesteryear.

MOVE WITH THE PROCESSION.

Newspaper reporters and press correspondents are warned by the Arkansas vigilance committees not to interview high court judges or other officials in the territory controlled by the vigilance committee.

These sons of the fourth estate should have adopted the Dr. Robert Barker plan. He had fought the prohibitionists for many years. Prohibition won. Then Dr. Barker gave this advice to his friends and followers, "If you can't beat 'em, join 'em," and this many of the foremost anti-prohibitionists of Texas proceeded to do.

They appeared as delegates at Waco in the convention that nominated Will P. Hobby, as nation-wide prohibitionist, nation-wide equal suffragists, and world-wide reformers.

Swift travelers always move with the procession.

AN OPTIMISTIC LEATHER MAN

President Frank R. Briggs of the National Boot and Shoe Manufacturers association of the United States says that the outlook for 1923 is excellent for business as a whole, and that his industry is well over both the inflation and the depression and only an unusual event will check its present general progress. It was announced there was a growth in demand for American shoes and boots in foreign markets even under normal conditions and now the demand is greater than ever. Regardless of the pessimist, ever the trend of business is upward.

A TROUBLE SEEKER

Senator Smith Brookhart of Iowa is a persistent seeker of trouble. He's fighting to make stock dividends taxable. He has a resolution pending, calling upon Secretary Mellon to transmit to the senate the names of all corporations which may have evaded the payment of taxes through the release by the stock dividend plan of surplus funds.

Brookhart says that 328 companies declared in 1922 stock dividends amounting to more than $2,149,000,000; in some instances the dividends being more than 1,000 per cent, and in one instance 2,300 per cent.

For instance, the Atlantic Refining company declared a dividend of 900 per cent on $45,000,000; the Gulf Oil Corporation 200 per cent for $80,000,000; while the Standard Oil company and its subsidiaries declared more than $700,000,000 worth of stock dividends with a percentage as high as 400 per cent.

Senator Brookhart demands that Secretary Mellon shall answer the question whether or not the secretary has called upon any of these companies to show cause why they should not be cited for additional taxes under the provisions of the revenue act of 1921. Brookhart is a disturber.

"LET THE PEOPLE RULE"

Five Christians reported hanged in Symra, London cable-gram. Why make a noise about it? Four were hanged in Arkansas in one day, and five hundred were run out of the country. Let the people rule.

Texas lawmakers have reported favorably a bill backed by the Texas hotel keepers association which provides that a hotel shall post its rates and that the room clerk shall hand a rate card to a guest. This appears to be going all the way. If the guest doesn't like the rate, he has the privilege of moving on to the next stopping place.

BROOKS VS. LOONEY

Dr. Samuel Palmer Brooks, president of Baylor university, says he is unalterably opposed to teaching the Bible in the public schools of the state. He was invited by Senator B. H. Baugh to announce his attitude and the president of Baylor responded, taking decided stand against the bill pending in the legislature. Former Attorney General R. F. Looney is for the bill, he is responsible for the bill, and he insists that the bill should pass.

UNCOMMON SENSE

By JOHN BLAKE

BENEATH THE SURFACE

An ice-floe, rising ten feet above the surface of the ocean, doesn't look very dangerous.

The passenger on the deck of the gigantic liner could easily imagine the vessel tearing into it, and leaving it neatly split into in the wake.

But the skipper on the bridge knows that this ice-floe extends down, deep down below under water, many feet more than the ten above.

He knows that it would tear away the bottom of the vessel as a mass of steel would if the vessel collided with it.

And when ice-floes are numerous in a vincinity, he takes his ship elsewhere as rapidly as he can.

The sky-scrapers in great cities appear to sit flat and solidly on the ground.

Only those who have explored them know that they may be built on a rock a hundred or two hundred feet down.

Looking belo wthe surface, which is necessary to all understanding, whether of people or things, is a matter of special training.

There is more in everything than meets the eye.

The ship-captain knows about icebergs, because he has either been often among them, or has been taught about their over-water and under-water proportions while he was training for his job.

The city resident knows about sky-scrapers, because he has seen them in the building.

The men and women appearance is valuable, but it is only valuable as advertising is valuable—to attract attention.

And, as advertising soon becomes useless if the goods advertised are worthless, so are appearances of no account if they are found to be only on the surface.

Many an imposing man impresses people as long as he keeps quiet. The instant he begins to talk, he shows what is beneath the surface of his kind, and is rated at a far lower value.

Looking below the surface, which quires experience, and thoughtfulness. But it must be done if one is to know the world and life.

And not much is to be had in the way of happiness or reward by a person who does not know both fairly well.

(Copyright, 1923, by John Blake)

Representative T. K. Irwin of Dallas county has a bill in the lower house prohibiting the driving of an automobile by a person under the influence of liquor. All drivers of automobiles should be licensed. A drunken driver of an automobile should be given a jail term and his license cancelled.

So Far As We Are Concerned

The Mistakes of the Kaiser

By RENE VIVIANI

Premier of France When the War Broke Out

Copyright, 1923, by The McClure Newspaper Syndicate.

July 24th: Secret announcement to Metz of covering instructions (installing of machine guns at various railway stations.)

July 25th: Mobilization of the garrison of Metz (signing of victualing contracts by the authorities of Zabern); arming of frontier posts.

July 26th: Recall of the German fleet in Norway. (Yellow Book, 58.)

July 26th: Notice to four classes of reservists in Lorraine. (Yellow Book, 59.)

July 26th: Cutting down of trees, placing of guns, strengthening of barbed wire entanglements, construction of battery emplacements.

July 27th: Recall of German officers in Switzerland. (Yellow Book, 60.)

The above were only part of the preparations instituted from July 21st onward by Germany.

Let us turn now to the mobilization measures:

1. July 28th: Austria, whose army had been taking part in grand manoeuvres during July, mobilizes partially the 28th. She declares war on Serbia.

2. July 29 (evening): Council at Potsdam, at which war is decided upon.

3. July 29: The German government sends, through its representative in Brussels, an ultimatum to Belgium, drawn up July 26, with orders not to open it except after special instructions (German documents, Nos. 375 and 376.) This was the ultimatum delivered to Belgium on August 2.

4. July 30 (see dispatch quoted above): Austrian general mobilization begins in the evening upon orders from Germany.

5. July 31, at 1:30 p. m.: Germany decrees the existence of a state of danger of war, which is equivalent to general mobilisation, since each reservist is told what post he is to occupy.

6. On July 31, despite Russian general mobilization, the Austrian government instructs its ambassador at St. Petersburg to continue negotiating with M. Sazonoff, and the Russian ambassador at Vienna discusses with the minister of foreign affairs.

7. August 1: France mobilizes. At 1:15 I countersigned the decree of mobilization, which was posted publicly at 4 o'clock. Thus, French mobilization came more than one day after the German declaration of the existence of the danger of war, which, in the eyes of all honest men, is the same as actual mobilization in Germany.

8. August 1: Declaration of war against Russia.

9. August 3: Declaration of war against France, based on the pretext that aviators had flown over Nuremberg. On the same day the municipality of Nuremberg protested against this false report, on which the declaration of war against France was based.

There, then, is a summary which is self-sufficing, and which, as may be noted, has been divided, so that it may be easy to read into sections arranged according to the date of the various happenings.

America Enters.

At last, however, destiny takes unto herself the lineaments of justice. At last it seems as if the whole earth were rising up in revolt against such tyranny and injustice. All the nations not under the yoke fall in behind the soldiers of liberty who, encouraged by the generous enthusiasm of America, are finally on the way to securing the welfare of the world.

Already the emperor of Austria, the serf and the king of Bulgaria, the valet, have thoughts of scuttling to cover at the very first premonitory sign of catastrophe. The iron hand of Germany, which drove the old emperor of Austria to war, does not loosen its grip on the young Austrian monarch—he who has since died.

But the ominous crumbling sounds announce to the German emperor the weakness of his throne. Already he has sounded the good will of the Holy See in a ridiculous interview, which he narrates himself in his memoirs. Already he has turned to America and, after giving evasive answers to President Wilson, when the latter asked in January, 1917, that the belligerents declare their war aims, he has been reduced to countering the honest replies of the entente with a miserable and flat statement. He did not realize that, in so doing, he disconcerted the chief magistrate of America and the entire American people, lovers of frankness, who had remained unmoved by, and deaf to, the fantastic lures of Ambassador Bernstorff. Stupid German pride, as always, under-estimation of human worth, ignorance of what an untrammeled human will can do!

Can America cross the seas and defy the submarines, whose exploits the kaiser, gloating over so many massacres, dares extol in his memoirs? Can Wilson cause men to spring up; can the pouring torrents of man-power be fed from such distant affluents? After all, Wilson must be merely striking an attitude, making a gesture! That is what the kaiser said to himself in 1917. Well, it was a gesture that Wilson's hand made, but—in that hand there was a sword!

The main motive which brought America into the war was democracy—democracy, a living thing in England, a symbol of which France is the incarnation; democracy which means respect for civic rights; which is the basis of the Italian constitution; democracy, that noble goal which all of us seek when we stand up in defense of our rights. All this was revealed clearly to Americans of all parties, republicans as well as democrats. Economic castastrophe, growing every day more menacing, was advancing upon the world. There was no power on earth which could answer for the solidarity of humanity. And, moreover, in that deadly duel in which blood was flowing in the holy cause in which Lafayette, De-Grasse and Rochambeau had risen to greatness, who could be absent without turning a deaf ear to the voice of the world's conscience?

"Thank British and French Honor!"

From the moment that America realized that the world's conscience was affected, that it might be struck down, that autocracy might stride forward to triumph, it was a foregone conclusion that she would rush into the battle. She understood, she rose, so that soon the vast ocean seemed no more than a river. "Tell the German ambassador to thank British honor and French honor when he has left our territorial waters." That was the farewell of Mr. Wilson to the German ambassador, conveyed to the latter by Robert Lansing, when he turned over to the ambassador his passport.

Democracy Bound to Win.

A war into which an entire nation rushed with all its courage aflame, fighting disinterestedly because its conscience so willed, was bound to change in its aspect. At last fate had been mastered! Well had they stood their ground, those first soldiers of 1914 and 1915, those soldiers who fought in mud and snow, who did not despair, who lent courage to all the world! To them should the thought of the survivors be consecrated!

More Truth Than Poetry

—By James J. Montague—

PERFORMING A DUTY

We always mean, when May is here
And blossoms drift along the breeze;
When orioles pipe loud and clear
And blithely hum the honey bees;
When glisten drops of diamond dew
Upon the robin's spreading wing;
To write a poem, maybe two,
On Spring.

We mean to take our fountain pen
And scribble notes upon our cuff
In some moss-matted sunlit glen,
Of nice, inspiring nature stuff.
But when there dawns a perfect day
When themes of poetry abound,
We hasten to the links to play
A round.

And there, endeavoring to smite,
The way it should be smote, the ball,
We do not mark the robin's flight
Or hear the oriole at all.
In fact, if we can make the sphere
Straight out across the fairway whiss,
We do not know what time of year
It is.

And so no limpid lays of ours
Have ever praised the purling streams
Or bid a welcome to the flowers
When they awakened from their dreams.
But as we do not want to miss
A chance to do our bard-like bit,
We'll write that poem now—and this
Is it.

THEY WERE A LONG WAY FROM HOME

One reason why the boys didn't want to come back from Coblenz was that they thought this country had gone dry.

THE ONLY WAY

The Germans didn't come across, so the French had to.

HE KNOWS HIS BUSINESS

If Goethals, the new New York fuel administrator, can make 'em dig in Pennsylvania the way he did in Panama the coal shortage will soon be over.

(Copyright, 1923, by the Bell Syndicate, Inc.)

And St. Louis Is Cattle Center, Too

By Associated Press.

ST. LOUIS, Jan. 2.—Following suggestions that a cow and a pig be placed in the municipal zoo because many St. Louis children have never seen either, Superintendent of Instructions Maddox instituted a poll of six grade schools and today announced the following results:

"Of 5,376 children questioned, 40% never saw a sheep, 17% never saw a pig, 14% never saw a mule and 12% never saw a cow."

Japs Peaceful

By Associated Press.

TOKIO, Jan. 2.—There is no necessity for anxiety that competition is being started between the United States and Japan in the construction of auxiliary warships, Premier Kato today told the upper house of the diet in replying to an interpellation.

Both powers, he added, would always respect the spirit of the Washington conference.

W-K Spark Plugs fire when others fail.—Adv.

WHO'S WHO

ROLAND WILLIAM BOYDEN

The man who was sent quietly without much attention from the press, to sit as America's unofficial observer at the session of the allied reparations commission, now looms as the cause of a possible political explosion in that august body — the U. S. senate. According to reports from the capital the irreconcilables and "splendid isolationists" will demand the recall by Secretary of State Hughes of that unofficial "eye," Roland William Boyden as their next move in cutting America's ties with the European situation. Little has been heard of Boyden up to the time he was chosen for his present duty.

R. W. BOYDEN

Boyden was born in Beverly, Mass., in 1868. He was graduated from Harvard in 1885 and took his degree in 1888. He was admitted to the bar the same year and he was a member of the firm Ropes, Gray, Boyden and Perkins. He is also president of the Beverly Savings bank and director in several other banks and has interests in other enterprises. He is a member of the board of directors of the Boston chamber of commerce and of the bar association of the city of Boston. Boyden is married and has his home in Beverly.

He was practicing law when called in by the state department.

Caraway Says Daugherty Gets 'Whitewashing'

By Associated Press.

WASHINGTON, Jan. 26.—"Whitewash" was the term applied in the senate today by Senator Caraway, democrat, Arkansas, to the house action yesterday in giving a clean bill of health to Attorney General Daugherty in impeachment proceedings filed recently by Representative Keller, republican, Minnesota.

"It will stay on about as long as it does on our farms down our way," the Arkansas senator remarked, adding that Representative Keller was re-elected last November, while his critics, Representatives Volstead, republican, Minnesota, and Campbell, republican, Kansas, were defeated.

Hardings Will Go to Florida

By Associated Press.

WASHINGTON, Jan. 26—Definite announcement that the president and Mrs. Harding expect to go to Florida after congress adjourns was made today at the white house.

For some time it has been known that because of the recent serious illness of Mrs. Harding and the attack of the grippe which Mr. Harding suffered coupled with the strain of constant attention to official business for months under which he labored that such a rest was desired. It was not indicated what place in Florida Mr. and Mrs. Harding contemplate visiting.

Burchfield Guilty

By Associated Press.

BLOUNTSVILLE, Tenn., Jan. 26.—The jury hearing the evidence in the case of Ben Burchfield, charged with burning his home and killing five persons in Bristol on November 25, found him guilty today of murder in the first degree. Sentence was deferred.

Self-Mastery Through Auto-Suggestion

By DR. EMILE COUE.

Dr. Coue In His Study.

Neurasthenia, so common nowadays, generally yields (as I said earlier in this chronicle) to suggestion constantly practiced in the way I have indicated. I have had the happiness of contributing to the cure of a large number of neurasthenics with whom every other treatment had failed.

One of them had even spent a month in a special establishment at Luxemburg without obtaining any improvement. In six weks he was completely cured, and he is now the happiest man one would wish to find, after having thought himself the most miserable.

Neither is he ever likely to fall ill again in the same way, for I showed him how to make use of conscious autosuggestion and does it marvelously well.

But if suggestion is useful in treating moral complaints and physical ailments, may it not render still greater services to society, in turning into honest folks the wretched children who people our reformatories and who only leave them to enter the army of crimes?

Let no one tell me it is impossible! The remedy exists and I can prove it.

I will quote some cases which are very characteristic, first inserting here a metaphor which makes it easier to render clear my point, a few remarks in parenthesis.

To make you understand the way in which suggestion acts in the treatment of moral taints I will use the following comparison. Suppose our brain is a plank in which are driven nails that represent the ideas, habits and instincts which determine our actions.

If we finl that there exists in a subject a bad idea, a bad habit, a bad instinct—as it were, a bad nail—we take another, which is the good idea, habit or instinct, place it on top of the bad one and give a tap with a hammer.

In other words we make a suggestion. The new nail will be driven in, perhaps a fraction of an inch, while the old one wil come out to the same extent.

At each fresh blow with the hammer—that is to say, at each fresh suggestion—the one will be driven in a fraction further and the other will be driven out the same amount, until, after a certain number of blows, the old nail or evil idea, will come out completely and be replaced by the new one.

When this substitution has been made, the individual obeys it.

Let us return to our examples: Little M——, a child of 11 living at Troyes, was subject night and day to unpleasant accidents. He was also a kleptomaniac and, of course, untruthful into the bargain. At his mother's request I treated him by suggestion.

After the first visit which he and his mother paid me the accidents ceased by day though they continued at night. But "little by little" they became less frequent until finally, a few months afterward, the child was completely cured.

In the same period his thieving propensities lessened and in six months they had entirely ceased.

The Boy Who Hated His Brother.

This child's brother, aged 18, had conceived a violent hatred against another of his brothers. Every time that he had taken a little too much wine, he felt impelled to draw a knife and stab his brother.

He felt that one day or other he would end by doing so, and he knew at the same time that, having done so, he would be inconsolable.

I treated him also by suggestion and the result was marvelous. After the first treatment he was cured!

His hatred for his brother had disappeared and they have since become good friends and get on capitally together.

I followed the case for a long time and the cure was permanent.

Since such results are to be obtained by suggestion, would it not be beneficial—I might even say indispensable—to take up this method and introduce it into our reformatories?

I am absolutely convinced that if suggestion were daily applied to vicious children, more than 50 per cent could be reclaimed.

Would it not be an immense service to render society, to bring back to it sane and well members of it who were formerly corroded by moral decay?

To show that the field in similar cases is not limited to youths, let me cite the following. Please note the length of time that has elapsed since the subject was first treated and cured and please note, too, the economic advantage of such a cure.

Case No. 7.

M. A. G., living at Troyes, has long suffered from enteritis, for which different treatments have been tried in vain.

He is also in a very bad state mentally, being depressed, gloomy, unsociable and obsessed by thoughts of suicide.

Preliminary experiments easy, followed by suggestion, which produces an appreciable result from the very day.

For three months, daily suggestions to begin with, then at increasingly longer intervals. At the end of this time the cure is complete, the enteritis has disappeared, and his morals have become excellent.

As the cure dates back 12 years without the shadow of a relapse, it may be considered as permanent.

M. G. is a striking example of the effects that can be produced by suggestion, or rather by auotsuggestion. At the same time as I made suggestions to him from the physical point of view, I also did so from the mental, and he accepted both suggestions equally well.

Every day! his confidence in himself increased and, as he was an excellent workman, in order to earn more, he looked out for a machine which would enable him to work at home for his employer. A little later a factory owner, having seen with his own eyes what good workman he was, entrusted him with the very machine he desired.

Thanks to his skill he was able to turn out much more than an ordinary workman, and his employer, delighted with the result, gave him another and yet another machine, until M. G. who, but for suggestion, would have remained an ordinary workman, is now in charge of six machines which bring him a very handsome profit!

Surely the state ought to utilise this tremendous force. Think of the thousands and thousands of citizens, now perhaps even burdens on the community, who might be restored to their communal usefulness by its application!

(Copyright, 1923, by the American Library Service.)

Something on the moral aspects of autosuggestion will be discussed in Dr. Coue's next article.

Timely Views on World Topics

"FRANCE'S AUTION MAY WRECK CIVILIZATION," SAYS SIR ROBERT HORNE

A collapse of European civilization such as the world has never known may be the result of France's action in the Ruhr, says Sir Robert Horne, former Chancellor of the British Exchequer, and now visiting in the United States.

RT. HON. SIR ROBERT HORNE

Expressing his personal view of the present situation in a recent address Sir Robert pointed out that what was necessary was to "make German capitalists believe Germany was a country safe for them. No confidence in Germany could be created, he said, "if you begin to seize by force any of the material upon which Germany depends to carry on her trade."

"Now that is my point of view," he continued "and I am glad to say that point of view is shared in this great country of practical people. We may both be wrong. I hope we are wrong. But if we are right you are going to see very soon in Europe a collapse of the organization of civilized society on that continent such as the world has never known."

"Perhaps on this side of the water you do not realize so pointedly as we do what the condition of Europe at the present time is. The devastation of war still lies like a blight over enormous tracts of fair and fertile country and the spirit of war still is alive through multitudes of people who today seem to have no idea except of putting everything to the test of force.

"Great countries which are factions in human progress and, indeed the necessities of human existence have ceased to perform any function at all. Russia, which used to provide Europe with a large part of its food supply, Russia, we have seen a shambles now we know it only as a desert. Austria, the great empire, today is bankrupt and broken. Small countries surrounding her, exhausted by war, are entirely unable to provide themselves with the ordinary means of subsistence.

"Incidentally England, as a result in the failure of the purchasing power of her customers, is today carrying almost an intolerable burden of unemployment, a burden which strains her resources to the utmost and almost breaks the back of the state and now we know that France and Germany are in clutches again and the end of this operation no man can foretell. There are some of us who, while we are ardent optimists of what is going on at the present time in the way of a solution, are greatly fearful that the results will be worse than even the condition which previously existed.

"One of the great complaints made against Germany was that she was sending her capital out of Germany and avoiding her obligations. Undoubtedly that was true.

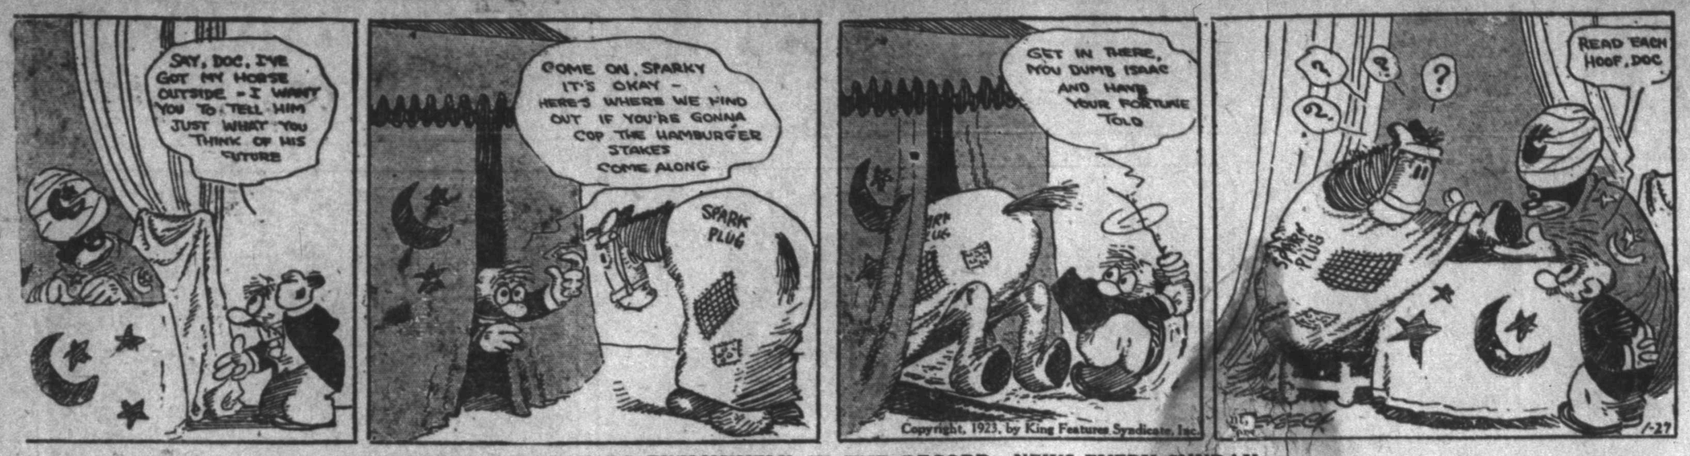

"The only way you can keep capital in Germany is by making the German capitalists believe that Germany is a country safe for the capitalist to live in, and in order to do that you must create confidence in Germany. You can create no confidence whatsoever, but only disquiet and apprehension, if you begin to seize by force any of the material upon which Germany depends to carry on her trade."

Coyotes Triumph Over Southern Oklahoma Champions

DEVOL LOSES IN WELL PLAYED CONTEST

Return of Coffey To Game Strengthens Red and Black

Displaying a powerful offense such as they have not shown in any previous game this season and a defense that would make the proverbial stone wall appear full of holes, Coach Jones' Coyotes buried the highly touted Devol high school five under an avalanche of scores at the American Legion hall last night, winning by a count of 38 to 18.

The Devol cagers showed the stuff that has enabled them to triumph in every game this year with one exception and to annex the interscholastic title in Southern Oklahoma. They played a fast game but the outcome was not in doubt but a short time after the starting whistle had been blown. The Oklahoma representatives were kept on the defense during practically the entire game and were frightfully mangled beneath the wheels of the Coyote machine.

The monotonous goal shooting of Dummy Deems, Perkins Ray and Leo Baldwin, coupled with the great guarding of Coffey and Tyson, was entirely too much for the Oklahomans. Captain Coffey, playing his first game in several weeks because of an injured hand, not only played a brilliant game at one of the guard positions, but his return seemed to have a good effect on other members of the team.

Deems was high point man of the game with six goals to his credit, followed by Mackechney and Baldwin, who tossed four and three goals respectively. McCoy at center showed up well for the visitors. Lineup and summary:

Devol		Wichita Falls
Johnson	Forward	Deems
Stewart	Forward	Ray
McCoy	Center	Baldwin
Hall	Guard	Coffey
Landis	Guard	Tyson

Substitutions: Miller for Johnson, Wright for Stewart, Johnson for Miller, Stewart for Wright, West for Deems, Mackechney for Ray, Gordon for Mackechney, Ray for Gordon, Crites for Baldwin, Baldwin for Crites, Powell for Tyson, Tyson for Coffey, Cameron for Powell. Field goals: Johnson 2, McCoy 3, Hall 1, Deems 6, Ray 4, Mackechney 1, Gordon 1, Baldwin 3, Tyson 1, Powell 2. Personal fouls: Johnson 1, Wright 3, Hall 2, Deems 2, West 1, Baldwin 2, Crites 1, Tyson 1. Referee, Ferguson.

Cornell Defeats Princeton Quint

By Associated Press.

ITHACA, N. Y., Jan. 26.—Cornell defeated Princeton in an inter-collegiate league basket ball game here tonight 26 to 18.

Looking 'Em Over

By "Pat" Patison

Anyway, Dr. Coue furnished a cue for some snappy advertising slogans on the order of "Day by day in every way, Paine's Painless Pain eradicator keeps you from feeling worser and worser."

The chairman of the New York boxing commission doesn't exactly doubt Jess Willard's ability. He merely thinks that the big Kansan hasn't any ability to doubt.

Arabs in Tunisia, northern Africa, are playing baseball and making fair progress, writes a missionary in a report to his church. Wonder it Judge Landis knows of this.

What Would Yo Do?

Supposing you went into a store to buy a suit of clothes and a clerk whose hair gave off an odor like a barber shop and whose cigarettes gave off an odor like a Turkish Atrocity confronted you and asked: "Is there something for you?" And then supposing you had told him your simple wants and then he tried to sell you a suit with Rudolph Valentino pants. What would you do?

If you want to stay on good terms with "Red" Dillard, don't let him hear you refer to the Bowie field trials as a "houn' race."

If either Milt Romney or Clyde Littlefield are to succeed Berry Whitaker as coach of the Longhorn football team, Littlefield is unanimously elected, according to Romney. The former Chicago university star announces he is headed east at the close of the present school term.

It has been announced that Ban Johnson and Ty Cobb will be guests of honor at a banquet in Philadelphia next month. Ban is expected to talk on the subject of "How I score 'em in Chicago while Ty hits 'em in New York." Cobb may respond with "The most timely pinch hit I ever received." Then to the tune of a popular song:

"Oh, Mister Cobb, Oh Mister Cobb
Don't you think I did a most artistic job,
With your own three-ninety-nine
And that extra hit of mine"
"Thank you Mister Johnson."
"You're welcome Mister Cobb"

The baseball tourists who have been barnstorming Japan report they have found a wonderful herb that will make youngsters out of old-timers. Joe Bush is said to have taken a drop and pitched like he did for Connie Mack, Casey Stengel touched his tongue to the cork and frisked around the outfield like an aspiring rookie. Waite Hoyt laid off of it as he feared it would make him like a twelve-year-old kid.

Si Meridith announced yesterday morning that he had seen some duck tracks in the soft mud at the edge of Lake Wichita. He immediately organized a posse and went hunting, but failed to even find the tracks again.

Dempsey Delays It

Tommy Gibbons is too little for Dempsey, Jess Willard is too old, Harry Willis is too black and others are too anxious, according to the chairman of the New York boxing commission. This statement has been echoed by sport writers all over the country in defending Dempsey for not defending his title, but like Rube Goldbergs Boobs, it doesn't mean anything.

New York is said to be a pretty good town and is spoken well of by nearly everyone. Nevertheless, it would be as easy matter for some promoter to stage a heavyweight scrap for the world's title outside of New York were it not for the fact that Dempsey wants everything from a sum resembling the Russian national debt, to the Brooklyn bridge for defending his title.

The chairman of the New York boxing commission was not asked to approve the title bouts at Reno, Havana, or Toledo. Neither was it necessary for him to sanction the fight between Dempsey and Carpentier, which was held in Jersey City and was outside of Muldoon's bailiwick. There are plenty of places for a championship fight outside of New York and plenty of money for the fight outside of the Bank of England. But no promoter is going to guarantee Dempsey a sum in excess of a half million for going up against any of the assortment that now compose the field of candidates for the title.

TRADES FEW IN MAJOR LEAGUES

Newcomers Attract Most Attention

NEW YORK, Jan. 26. — Four months ago the stove league season of 1922-23 promised to be the liveliest in baseball history because of multitudinous trades and other player deals looking toward remodeling of major league teams.

In just a few weeks the southern pilgrimage will start with the fewest changes ever made over winter.

Up to date five players who may be classed as "regulars" have been traded from one major league club to another during the season. Three are pitchers—Howard Ehmke and Rip Collins. One infielder, Del Pratt, and an outfielder, Frank Brower, complete the list of transferred athletes who did regular duty for their clubs in the last pennant race. The other players who have figured in trades were substitutes, who did more work on the bench than in the field.

With no big deals making a marked change on major league teams, as in other recent years, most of the interest of the fans next spring will concern the highly advertised stars who are coming up to win places on big league clubs. In this class will be Jack Bentley and Jimmy O'Connell who will be with the Giants; Glenn Myatt and Lutzke, with the Indians; George Boehler with the Giants; Willie Kamm, with the White Sox, Henry Sand, with the Phillies; Sammy Hale, with the Athletics; Hollis Thurston, with the Browns.

Lee Is Winner

NEW YORK, Jan. 26. — Danny Lee of New York got the judges' decision over Danny Edwards of California, in a 12-round bout here tonight. The weights were: Lee 122; Edwards 120.

BILL MEHLHORN LEADS FIELD IN TOURNEY

Stars Fail to Shine With Accustomed Brilliance

SAN ANTONIO, Jan. 26.—Bill Mehlhorn of Shreveport, La., with his 137 strokes for the first 36 holes of the Texas open tourney, led today one of the fastest fields of golfers ever assembled for an open turney. Mehlhorn's excellent golf in both the morning and afternoon was witnessed by approximately 2,000 spectators. Throughout the match his long drives and perfect putts brought volleys of applause from the gallery.

A triple tie for second honors after the first day of play lies between Joe Kirkwood, Australian champion, and expert trick shot, Joe Lally, San Antonio country club pro, and Jack Burke of St. Paul. All of these golfers finished the first 36 holes in 142 strokes which is five strokes down the golf shot by Mahlhorn.

Walter Hagen, British open champion, and Jim Barnes, former national open king, were tied with a 143 stroke. This was the second time that Hagen had been over the course and his afternoon round brought in an even 70. Barnes had a 69 round in the afternoon which brought down the 74 he had in the morning. In the morning he had a number of difficult shots to make, a number of which were from behind trees which accounted for three of the extra scores.

Jack Tarrant, local amateur champion, came in with a 144. His 71 in the morning helped to keep his score low. Bob Peebles, Kentucky's champion putter, was next with 145 swings.

The tournament will be completed tomorrow afternoon.

The following players whose scores in today's matches are given are expected to have a chance in the Texas open championship tomorrow:

Name	Home	Score
Bill Mehlhorn,	Shreveport	137
Joe Kirkwood,	Australia	142
Jack Burke,	St. Paul	142
Joe Lally,	San Antonio	142
Walter Hagen,	New York	143
Jim Barnes,	Pelham, N. Y.	143
Jack Tarrant,	San Antonio	144

Texas golfers also expected to be in the running today included:

Ban Kenney,	Tyler	149
Bill Mackenzie,	Dallas	151
Jim McKenzie,	Dallas	151
Charles Manning,	Texarkana	152
John Bredemus,	Corpus Christi	152
Clarence Mangham,	San Antonio	152

American League Prexy Announces Schedule Meeting

CHICAGO, Jan. 26.—The spring schedule meeting of the American league will be held in Philadelphia, February 19, President Johnson announced tonight.

The principal question to be considered at the meeting will be the adoption or rejection of a plan to cut down the epidemic of home runs.

The plan is to restrict home run territory to anything beyond 315 feet from the home plate. While the plan may appear to be radical, President Johnson said, it would not be a handicap on the real home run hitters, such as Ken Williams and Babe Ruth.

Babe Adams Applies For Release From Pittsburgh Management

ST. JOSEPH, Mo., Jan. 26.—Charles B. (Babe) Adams, veteran pitcher of the Pittsburgh National League club, announces from his home at Bethany, Mo., that he will not appear in a Pittsburgh uniform this season and will retire permanently from organized baseball if he can obtain his release. Adams says he expects to engage in independent baseball at Kenosha, Wis.

He has made application to the Pittsburgh management for his release.

Adams has been pitching in organized ball ever since 1904, having started at Parsons Kan. Subsequently he played with the Denver Western League club, the St. Louis Cardinals, the Louisville American Association club and the Pittsburgh Nationals, joining them in 1909. In the world series that year he defeated Detroit in three games, winning almost single handed. Six years ago he decided to retire from big league ball, and played a season with the St. Joseph Western League cub, then went to the Kansas City Association club and back to the Pirates where he has been since. He is forty years old.

PITTSBURGH, Pa., Jan. 26.—Babe Adams can play ball with the Pittsburgh Pirates until he is ready to quit the game forever, according to Barney Dreyfuss, president of the Pittsburgh National League baseball club.

"I hate to see a good fellow like Babe Adams get out of the game," said Mr. Dreyfuss, referring to the report from St. Joseph, Mo., that the veteran pitcher had announced his retirement from organized baseball.

"Although he has played a good many years," continued Mr. Dreyfuss, "there is a whole lot of first class baseball left in him yet and it was our intention to continue him as one of our regulars.

"I hope this report is untrue. Babe has not said a word to me about it."

LONGHORNS WIN EASILY OVER BAYLOR

Rice Owls Defeated By Farmers In First Game

By Associated Press.

COLLEGE STATION, Texas, Jan. 26.—The Texas Aggies defeated the Rice Owls, 33 to 24, in the first game of their basket ball series here tonight.

By Associated Press.

AUSTIN, Jan. 26.—The Longhorn basket ball team tonight defeated the Baylor Bears 35 to 18, showing brilliant defense throughout the game. Baylor was able to score only five points during the first half, Texas keeping the ball out of Bear hands virtually all the time. The teams will play here again Saturday night.

The Texas A. and M. Farmers appear to be headed straight for their fourth basketball championship in the Southwestern conference and their victory over the Rice Owls last night was decisive enough to show that only Milt Romney's Longhorns must stop them if they are to be stopped.

While the showing of the Longhorns during the early part of the season was off-color, they have demonstrated a form of late that makes them formidable contenders for the title. The recent victory of the S. M. U. Mustangs over the Farmers, showed that Bible's five can be beaten and this together with the Longhorn's defeat of the Baylor Bears last night indicates that the real battles for the title will be fought when the Farmers and Longhorns meet.

At the present time the Aggies are far ahead in the conference race, having won five of the six conference games played. Romney's aggregation took second rank by their victory last night which gives them two wins and one loss. The Mustangs have broken even on four games played, Rice has won but one of three starts and Oklahoma A. and M. has won two and lost three.

Boasting of the best conference center in Teddy Lyons, the showing of the Baylor Bears has been pitiful since the start of the season. In every game, the opposition has put their best man on Lyons and have succeeded in checking the goal throwing tendency of that young man, with the result that the Bears have won but one game of the five played.

The Arkansas Razorbacks and the T. C. U. Horned Frogs, the latter team now playing its first season in the conference, have not appeared against a rival team in the organization this year. However, the Mustangs meet the Horned Frogs in five games this season and unless the T. C. U. five shows considerable class, the Mustangs may win enough of the five games to put them on even terms or ahead of either the Longhorns or Farmers.

Coyote Game With Electra Cancelled

Although the local high school basket ball team is badly crippled because on the "flu" and other complaints, the Electra high school five is in a much worse condition. As a result, the basket ball game which was scheduled between these two teams to have been played at Electra tonight, has been cancelled.

Coach Jones was informed by officials at Electra that only two regulars on the team there were in shape to play and the statement was made that it would be impossible to take on the Coyotes this week. Mr. Jones attempted to schedule a game with an Oklahoma team for tonight but the negotiations fell through and the Coyotes will have a Saturday night all to themselves as a result.

Young Stribling Batters Marullo

By Associated Press.

NEW ORLEANS, La., Jan. 26.—Young Stribling of Macon, Ga., so completely outclassed and battered up Young Marullo of New Orleans here tonight that their scheduled 15-round bout was stopped in the ninth round and Stribling declared the winner. Stribling weighed 159 pounds; Marullo 162.

MUCH EXPECTED OF LOCAL DOG AT BOWIE

Tom Hall, Owned By Bass and Dillard, Ranked High

When the elite of the nation's dogdom are gathered at Bowie next month for the second annual Bowie field trials, among the brilliant field will be a favorite son of Wichita Falls—the black and white pointer, Tom Hall, owned by Bass and Dillard.

One of the best known pointers in America, Tom Hall's showing in the field trials held last year at Bowie and his showing in other similar events in recent years, make him one of the favored entries in the big show at Bowie this year, which will start Feb. 22.

In competition with the best bird dogs in America, Tom Hall has won high honors on six different occasions. He was second in the chicken championship of the all-America Field Trial association in 1921. The same year he won first place in the amateur all-age event of the Southwestern Field Trial club.

Tom Hall's showing in 1922 eclipsed that of the previus year and placed him in a class with only a select few dogs of the country. In the oil belt field trials last year, he placed first in the amateur all-age event and continued his winning ways by winning first honors in the chicken championship event of the All-American Field Trial association. He placed first in the open all-age stakes of the Southwestern Field Trial club and concluded a brilliant year by placing third in the open all-age event of the Georgia Field Trial club.

Tom Hall is just under six years of age, having been whelped in April, 1917. He was used as a shooting dog in east Texas until the fall of 1921, when he was turned over to Chet Harris, who handled him down the big circuit that year and again during the season of 1922.

TRADING LAGS AS RUHR ROWS

Market Is Upset Over Foreign Crisis

By Associated Press.

NEW YORK, Jan. 26.—Unfavorable news developments abroad continued to curtail trading in today's stock market, in which a number of industrials were pushed up on reports of large current earnings, while others yielded to week-end profit taking, giving the market a somewhat spotty appearance at the close. Movements in the market are still dominated by domestic business conditions activity centering largely in shares of companies likely to resume or increase dividends.

The Europe financial community's reaction to the latest developments in the Ruhr was reflected in lower foreign exchange rates, demand sterling dropping from 4.65 3-8 to 4.64 1-2; French francs from 6.48 1-2 cents to 6.38 and Belgian francs from 5.96 1-2 to 5.76 1-2. German marks were quoted at only a small fraction above their extreme low record, which was .0042 cents.

Consolidated gas was again the most active stock on the "Big Board" touching 69 3-8, or nearly a point above yesterday's best price, and then reacting to 67 3-4 for a net loss of 3-4. Studebaker, which was the next most active stock, was unchanged, while Baldwin closed half higher at 134.

Independent steels were strong during the early part of the session, but early gains were cancelled or materially reduced later. Bethlehem and Republic closed at fractional losses and Crucible and Gulf states moved to slightly higher ground, while United States steel common was unchanged.

Fisher Body jumped 11 points to 186 on publication of an offer of W. C. Durant, automobile manufacturer, to buy the entire outstanding stock at $200 a share, despite the financial community's belief that the offer would not be accepted.

Rail shares were inclined to ease, Baltimore and Ohio was in good demand, closing nearly a point higher on speculative expectation of a good December earnings report. Southern railway also was active, closing at 30, a net decline of 3-8.

Call money held at 4 1-2 per cent throughout the day. There was a lessening of activity in the time money market, brokers bidding 4 12 per cent for all dates, but being obliged to pay 4 3-4 for the longer maturities. Little business was transacted in the shorter maturities. Commercial paper is moving in fair volume, the bulk of prime names commanding 4 1-2 per cent for four and six months maturities.

German Plight Causes Weakness In Wheat Market

By Associated Press.

CHICAGO, Jan. 26.—To a large extent the course of the wheat market today reflected developments touching Germany's ability to obtain funds for the importation of food stuffs. Prices were weak most of the time, but were rallying at the last. The close was unsettled at 1-4c net decline to a like advance with May 1.17 1-8 to 1.17 1-4 and July 1.11 5-8 to 1.11 3-4. Corn gained 1-8 to 1-4c, oats finished a shade off to 1-4c up, and provisions unchanged to 12c lower.

Corn and oats rallied with wheat. Packers selling weakened the provision market despite higher quotations on hogs.

	Open	High	Low	Close

BUSINESS NEWS

NEW YORK—Directors of the Standard Oil company of New Jersey today notified joint conferences of employes at Bayonne, Bayway and Eagle Works, Jersey City, that they would not consider favorably petitions for an increase in wages at the three refineries.

HAVANA—A contract for a $50,000,000 exterior Cuban loan was signed today by President Alfredo Zayas for the government of Cuba, and Elliott C. Bacon, a member of the firm of J. P. Morgan and company of New York, heading the banking syndicate which floated the loan.

WASHINGTON—Final figures announced today by the bureau of labor statistics show that in the country as a whole the cost of living in December 1922, was 69.5 per cent higher than for the same month in 1913, the last year before the world war; 2.8 per cent lower than in December 1921, and 1.9 per cent higher than in September 1922.

WASHINGTON—The interest rate which the government pays on deposits in its postal savings banks would be increased from two per cent to 3 per cent under a bill reported today to the house by the postoffice committee. Also the maximum amount which any individual depositor could have to his credit would be increased from the present $2,500 to $3,000.

AUSTIN—Opposition to union of the state markets and agricultural departments and also to abolition of the state livestock sanitary commission, was expressed in the legislative program of the Texas farm bureau federation, farmers' union, Texas and southwest cattle raisers association and sheep and goat raisers association, announced here today. Appropriations which would enable greater preventative means against the cotton boll weevil and pink boll worm and establishment of a west Texas college were other measures favored.

SPOKANNE—Endorsement of the present tariff law, the administration of President Harding and his veto of the soldiers' bonus bill and recommendations for legislation to prevent strikes and permit state tax reforms are included in the report of the resolutions committee prepared for submission this afternoon at the closing session of the National Wool Growers' association' 58th annual convention.

By Associated Press.

NEW ORLEANS, Jan. 26.—Liquidation of the long interest cost the price of cotton just about $5 a bale today, the market opening lower, remaining depressed throughout the session and closing at the lowest at net losses of 91 to 100 pints. March fell to 27.30, and October to 24.76 cents a pound.

The market acted overbought but in the late trading considerable selling was stimulated by private reports from Washington describing the foreign situation as tense. New crops months were weaker than the old because of talk of considerable increase in the western half of the belt.

Reports to brokers here from points both in Louisiana and Texas indicated many localities would plant for a larger cotton crop than was grown last season. Early losses amounted to about 30 points from which there were small upturns but toward midday selling increased.

In the afternoon the selling became more general. On the close the tone officially was calle deasy.

January Good Business Month Duns' Reports

By Associated Press.

NEW YORK, Jan. 26.—Dun's tomorrow will say:

As was expected, January has been a good month for business. After a holiday lull that was less evident than usual, activities broadened in different quarters and many orders have been placed at enhanced prices. Following a 16 per cent advance last year, the general wholesale price level has risen further and the wide margin of increases in Dun's list again is a feature this week. The larger demand for goods obviously is a factor in the upward price movement but there is the contributing element of restricted supplies in some instances and production costs are maintained on a high basis.

While labor troubles do not now interfere with operations, a shortage of workers has become a handicap in some indnstries and the question of making deliveries as specified enters more sharply into manufacturers' calculations. Inability to give assurance of early shipments tends to prevent the disposition of some orders and reports of the withholding of additional offerings or the limiting of commitments by producers are being heard more frequently.

Weekly bank clearings $6,775,155,000.

Now That's Rather Odd

NEW YORK—Vincent H. Olsen, Brooklyn coal salesman, was arrested today on a charge of selling 100 tons of crushed rock, dyed black, as coal. The charge was preferred by Benino Brothers, coal dealers, who declared they paid him $1400 for the consignment of black rock.

PHILADELPHIA—Reading aloud of the New Testament in 15-minute relays to show that it can be read in a day was being carried out in Siloam Methodist Episcopal church today. The reading began at 3 a. m. and will be concluded tonight, it was planned.

OKLAHOMA CITY—Radium valued at $6,100 was stolen from the automobile of Dr. Robert S. Love while he was attending a banquet at a hotel here last night. The thief cut his way through a glass in the sedan and made off with the valuable mineral while hundreds of pedestrians in the down-town district passed within a few feet of him.

HARRISBURG, Pa.—Mrs. Gifford Pinchot, wife of the governor of Pennsylvania, announced today that an educational experiment under which the children would be permitted to talk as much as they cared while in school would be started soon in the executive mansion. The school will open with 12 pupils, among them her 12-year-old son, Gifford.

MONTGOMERY, Ala.—By a vote of 62 to 37 the Alabama house of representatives removed from the adverse calendar a bill providing for the popular election of county superintendent of education. A hot fight on the question preceded the vote, it being charged in fiery debate that white teachers "had been crowded into rooms with negro girls" to stand teachers' examinations.

CHARLOTTE, N. C.—The curtailment of power program put into effect Wednesday by the Southern Power company here, affecting big users of electrical energy, was suspended today and service resumed as normal. The curtailment request, caused by lack of rainfall over the great watersheds in this section, was ordered revoked last night when it was found that the recent sleet and snow storms had remedied the condition by swelling the streams that feed the hydro-electric plants of the company.

News of Texas Briefly Told

ABILENE—An office building to cost $50,000 is to be erected by the West Texas Utilities company. The company has electric light and power stations in about thirty west Texas cities.

VERNON—Extensive plant improvements are being made here by the Vernon Electric and Ice company. New engines are being installed and the entire plant brought up to the minute.

McALLEN—The Valley Electric and Ice company has been organized to take over the electric light and power plants of McAllen, San Juan, Alamo, Donna and Mercedes. R. R. Morrison of San Antonio is president of the company.

DALLAS—An injunction against the city of Dallas granting permission to the Texas Interurban Railway to lay tracks on Fairmont street has delayed beginning of construction of the Denton-Dallas interurban lines and may jeopardize construction at the line, in the opinion of city officials.

SAN ANTONIO—John Granera, prominent member of the local Italian colony, shot and slightly wounded Louis Spiller, a friend and fellow countryman, at the former's home at 11:35 o'clock last night, following intense excitement caused by the receipt of a "black hand" letter. Spiller, who had volunteered to assist in guarding the Grancio home, was mistaken for a member of the "black hand" by Grancio and received a rifle bullet in his left shoulder before his identity was discovered.

FORT WORTH—Police, who have been searching for Mr. and Mrs. G. W. Cook, who disappeared from their home in Dallas Tuesday and started toward Fort Worth, fear the aged couple is either lost or dead in the river bottoms between the two cities.

FORT WORTH—B. T. Gilmore, juror whose arrest on a charge of perjury suddenly stopped the Tom Ben Archer murder trial Wednesday afternoon, made bond today and was released after spending two days in jail. The charge was filed in connection with testimony while being examined as a venireman.

DALLAS—Annullment of the marriage of Margaret Fears, daughter of E. P. Fears of Dallas, to Thomas Wharton, son of Mrs. Electra Waggoner Wharton Bailey, wealthy resident of west Texas, is sought in papers filed here. The youth of the contracting parties, both said to be 19 years old, was given as the reason for the requested annullment. The couple were married January 10, in Dallas.

AUSTIN—Governor Neff and other state officials have joined in calling a conference to be held here in the near future of railroad officials and representatives of striking shop craft unions in Texas to consider plans for a settlement of the strike, which has been in progress since last July, it became known today. It is understood representatives of the unions from outside the state also have been invited and the conference may result in an extension of plans for a settlement in other states.

THE STATE OF TEXAS
And County of Wichita

To Mrs. Mattie Lue Parsons and C. W. Parsons.

All persons owning or having or claiming any interest in the land or lots hereinafter described, the same being delinquent to the state of Texas and county of Wichita for taxes, and the same lying and being situated in the county of Wichita, and state of Texas, to-wit:

Lot No. 11 in block No. 15 of Floral Heights addition to the city of Wichita Falls, as shown by the map or plat of said addition now on record in the deed records of Wichita county, Texas, which said property is delinquent to the state of Texas, and county of Wichita for taxes for the years 1919, 1920 and 1921, aggregating the sum of $165.45, including interest, penalties and costs, said taxes having been legally levied, assessed and rendered against said land and lots, and the same being a lawful charge and constituting a prior lien against the same in favor of the state of Texas and county of Wichita to secure the payment thereof;

And you are hereby commanded to be and appear before the Honorable 78th District court of Wichita county, Texas, at the next regular term thereof, to be held at the courthouse of said county, in the city of Wichita Falls, on the first Monday in March, A. D. 1923, the same being the 5th day of March, A. D. 1923, then and there to show cause why judgment should not be rendered against you and the said land and lots sold under foreclosure of said lien to satisfy said taxes, interest, penalties and costs, and all court costs; all of which, together with other and further relief, general and special, being fully set out and prayed for in the plaintiff's first amended original petition filed in said court on the 24th day of January, and appearing on the docket thereof as suit No. 10026-B, wherein the state of Texas is plaintiff and Mrs. Mattie Lue Parsons, C. W. Parsons and J. J. Lory and all persons owning or having or claiming any interest in said land or lots, defendants.

Give under my hand and seal of said court, at office in the city of Wichita Falls, in the county of Wichita, this 24th day of January, A. D., 1924.
A. F. KERR,
Clerk District court, Wichita county, Texas.
By Effie Holland, deputy.

Citation by Publication.
THE STATE OF TEXAS
To the Sheriff or any Constable of Wichita County Greeting:

You are hereby commanded to summon Fred Campbell Oil company, a corporation, by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the 78th district court of Wichita county, to be holden at the court house thereof in Wichita Falls, on the first Monday in March A. D. 1923 the same being the 5th day of March A. D. 1923, then and there to answer a petition filed in said court on the 22nd day of January A. D. 1923 in a suit, numbered on the docket of said court No. 13023-B wherein, Mollie Evans is plaintiff and Fred Campbell Oil company, a corporation, is defendant and said petition alleging, a suit in tresspass to try the title, for rentals, damages and costs of suit and for the cancellation of a certain oil and gas lease made and entered into by and between J. B. Evans, now deceased, Mollie Evans as lessors and W. C. Meyers and A. J. Schulz, lessee, on March 27th, 1917; on the grounds that the defendant, being the assignee of said lease has failed and refused to comply with the terms and conditions of said lease and that the same is now null and void and of no force and effect; said land being described as follows: Being the west 20 acres of the north 40 acres of the south 80 acres of the L. B. Taliferro survey, patent 384, Vol. 85, said north 40 acres being described as follows: Beginning at an interior point 324 varas east and 972.5 varas south of the southeast corner of the J. E. Ellis survey, a stake; Thence south 190.7 varas: Thence east 1311 varas: Thence north 190.7 varas: Thence west 1311 varas to the place of beginning.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same.

Given under my hand and the seal of said court, at office in Wichita Falls, Texas, this the 22nd day of January A. D. 1923.
A. F. Kerr, Clerk.
78th District Court, Wichita County, Texas.

THE STATE OF TEXAS
To the sheriff or constable of Wichita county, Greeting:

You are hereby commanded to summon E. T. Morrison by making publication of this citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the 78th District court of Wichita county, to be holden at the courthouse thereof in Wichita Falls, on the first Monday in March, A. D. 1923, the same being the 5th day of March A. D. 1923. Then and there to answer a petition filed in said court on the 22nd day of January, A. D. 1923, in a suit numbered on the docket of said court No. 13022-B wherein S. B. Daniel is plaintiff, and E. T. Morrison and J. C. Boyd are defendants, and said petition alleging,

Being a suit on a promissory vendor's lien note, dated Jan. 3, 1921, for the sum of $1520, interest, attorney's fees and costs of suit, said note being past due and unpaid; said note having been executed by E. T. Morrison to J. C. Boyd on Jan. 3, 1921, in part payment of the hereinafter described land and premises and sold, transferred and conveyed to plaintiff and payment guaranteed by the defendant, J. C. Boyd. And that the said J. C. Boyd is claiming some interest in and to said property by virtue of being a second lien holder. Prays for judgment against the defendants, E. T. Morrison and J. C. Boyd for the sum of $1828.05, with all costs and for foreclosure of vendor's lien on the south forty-five (45) feet by one hundred (100) feet of lots Nos. thirty-five (35) and thirty-six (36) in Boyd's sub-division of lot No. two (2), block seven (7), Bellevue addition to the city of Wichita Falls, Texas. Said lot fronting 45 feet on Denver street.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Wichita Falls, Texas, this the 22nd day of January, A. D. 1923.
A. F. KERR,
Clerk 78th District court, Wichita county, Texas.

JIMMIE AND DAD RADIO STORIES

LI. Harry Has Regular C. W. (Can't Work) Radio Set.
By Broad Caster)

"Hello. Is this Clifton 2423? Is Harry Alden there. Let me speak to him, please. Hello Harry. Dad says I can come over tonight. I'll be right over."

"Now be a good boy, Jimmie."

"Al-l-r-i-g-h-t, mother."

"Hi! Jimmie, you ol' teacher's pet! Say, how do you get that way, making a speech before the whole school room on radio just as if you were Thomas A. Edison of Mister Marconi? What did you pay her to let you make that speech? I was 'sorta' interested myself, but I just had to laugh. Teacher made me go up to the principal's office and apologize. Believe me, that principal told me a few things and I was afraid she might tell my dad, so I just said 'uh-huh' all the time. This made her peeved, and she said, 'Young man, why don't you say "Yes mam?" Then I said 'yes mam,' and she finally got tired talking to me."

"You better watch your step with that principal, Harry."

"What do you say that we start this CW set of mine? I would like to talk to some of the fellows tonight."

"Start it! Have you got it working at last?"

"Nope, not yet. It's still a regular C. W.—can't work—set."

"Let's start working on it and see if we can't get it to work. Let me see your CW oscillator. You know, Harry, you must have an oscillator that will send out the continuus wave in the antenna circuit. Since the vacuum tube is only a direct current operating device it shocks the antenna only half the time and the only way you can get an alternating current to flow in the antenna from a direct current cource is to have an oscillator set that will oscillate and make an alternating current flow in the antenna. This is done by having three different parts of the tube circuit balance each other. First there must be the plate coil which feeds energy from the output of the tube to the antenna coil. Then you must have a grid coil which gets chocks from the plate and antenna coils to make a pulsating current flow in the tube plat coil. When these three coils are adjusted properly then you will get an oscillating circuit and the antenna circuit and the antenna ammeter will move up to about half an ampere on two five-watt tubes."

"That is exactly what the book says, Jimmie, but so far I haven't had any luck."

"How about your grid leaks? They are the most important part of all, for if the grid gets too many negative electrons on it the tube will block and not oscillate. You must leak these off just as fast as you can."

"Is that so? I haven't any grid leak at all. What will I do for a grid leak? I have an idea: the radio store may be open. Let's hurry down and get a grid leak. What do you say? It won't take long."

"All right, Harry, let's beat it. May be you will need some other stuff, too. Let's look it over. Where is your plate condenser, Harry? You should have a variable condenser across the plate coil and another in series with the antenna."

"Is that so? I have one variable and we will get another one, Jimmie, and charge it to father. Let's go now."

"All right, we're off for the radio store."

Grid Leaks are Important on C. W. Sets.

Family Refuses To Believe Man Dead

By Associated Press.

PHOENIX, Jan. 26.—The body of George Stevenson, declared dead by eight persons but asserted to be in a state of suspended animation by members of his family, is in an undertaking establishment here today in accordance with an order issued by Coroner Fred C. Bolen last night.

The order, which was issued over protests by the family and friends of Stevenson, provides that the body will remain undisturbed in the undertaking establishment for several days and that members of the family will be permitted to watch over it.

Members of the family declared that Stevenson, who once was a practicing physician, has made a study of the disease with which he was afflicted and had predicted that it would produce a state of suspended animation.

39 Die In Wreck

By Associated Press.

LONDON, Jan. 26.—Thirty-nine persons are reported killed in a railway accident in northern Ceylon, says a Central News dispatch from Colombo this evening. Many others were injured. The accident was due to a storm with floods which washed away a section of the track.

STATE RESTS IN BELL TRIAL

Special Night Session Held Friday

At 9 o'clock Friday night after introducing statements of the defendants and the man she is charged with slaying, District Attorney Schneck announced that the state would rest in the case of Mrs. Ida Bell on trial in the 30th district court for the murder of J. A. DeMoss.

Selection of a jury was completed at five o'clock yesterday afternoon after 225 special veniremen had been examined. Presentation of testimony began at 7 o'clock in a special night session.

The statement of G. A. DeMoss, introduced by the state and admitted as the sworn statement of the man made on the day of his death was read by Wayne Summerville, who said he received it in the line of his duty as an officer in the county. In it DeMoss stated that he was aware of impending death and wished to make a statement before he died.

"Never Wronged Her."

"I never wronged the woman," the statement read, "and I never wished to be friendly with her." DeMoss said that he evaded advances of Mrs. Bell and repeatedly refused to folow her suggestions as to more intimate relationship. The statement credited DeMoss with saying that he went with Mrs. Bell only once and that time to a picture show in Electra. He stated that he had attended to business matters for her on one occasion and never quarreled with her.

"She shot me because she was jealous," the statement read.

In a statement read by County Attorney E. L. Fulton and signed by Mrs. Bell, she admitted the killing of DeMoss, giving anger as her reason. She said that she learned on the day of the killing that love letters written by her had been shown by DeMoss to a maid in the Electra hotel.

Shot Him Twice.

"I saw a pistol in the room of a friend and decided to kill him," the statement read. "It was then between 4 and 5 o'clock and I went to the porch and waited for him. He came in about 6 and I shot him twice."

J. T. Wofford, manager of the Electra hotel on the porch of which DeMoss was slain, was the first witness to describe the killing. He was, he said, sitting on the front porch and near Mrs. Bell at the time. According to his statement, DeMoss crossed the porch and started to enter the hotel. As he did so Mrs. Bell arose and shot him twice, one bullet entering his breast and the other the abdomen. Wofford said that DeMoss fell but that he was still conscious. He asked for a doctor and Mrs. Bell approached and told him to call an officer to take her into custody.

Physician Testifies.

Dr. Ralph E. Weller, who attended DeMoss, substantiated the statement of Wofford as to the wounds, telling the court that the wound in the breast eventually caused death.

B. D. Cavaden, a roomer in the hotel and third on the stand, said that the pistol used appeared to be the one owned by him. It was a 32 calibre Colt automatic. He said that he missed the gun on the night of the killing.

Testimony will be continued today in the case, the defense having a number of witnesses to present. Argument will probably begin this afternoon.

Pleads Guilty To Assault Charge

M. H. Rowland pleaded guilty to a charge of aggravated assault in the county court at law Friday afternoon, and was fined $25 plus court costs. The total was $47.10. He admitted that he had had some trouble with a negro woman.

The trouble followed an attempt made by Rowland to collect a debt of $3, that he said was due him on an insurance policy. The negress refused to pay the amount, contending that the actual amount due was 70 cents. According to the statement of the man, he was chased from the home of the negress, who displayed a gun. Later he met her on the street and the fight followed. She appeared in court to testify. No charges were preferred against her.

New Hospital Board To Be Chosen Soon

A meeting of the county commissioners and the city council will be called in the near future at which time a new hospital board will be chosen. This board should have been selected in November, according to Judge Sartin, but, because of other matters was not chosen then.

Law provides for five members, and in all probability they will be chosen from separate sections of the county. Two will probably be Wichitans, while Dr. Joe Frank Clark, county health officer, will probably be on the board. Other members will probably be from Electra and Burbarnett, it was announced.

Clouds Cover

Clouds hung low over the city all day Friday with occasional showers falling throughout the day. The temperature varied very little, only ten points difference between the highest and lowest points being registered. The atmosphere was heavy and full of moisture. The wind continued to be from the south.

Irrigation Questions Asked And Answered Through The Record News

Through arrangements with A. M. McPherson, consulting engineer of this city who has had wide experience in irrigation work, The Record News is enabled to answer questions of all interest pertaining to irrigation work. Mail your questions to the Irrigation Editor, of The Record News.

Will the soil survey of the project be of any benefit to the land-

What are some good books on irrigation farming and where can I get them?

A very large number of books, pamphlets and bulletins have been published on the subject of irrigation. The best single book we know is B. A. Etcheverry's "Use of Irrigation Water and Irrigation Practice," published by the McGraw-Hill Book company, Inc., 239 W. 39th street, New York City. Another good book is "Irrigation and Drainage" by F. H. King, published by the McMillan Book company, New York.

The A. & M. college should be able to supply you with some bulletins on irrigation in Texas. The department of agriculture publishes many bulletins on irrigation. They can be secured by writing for a list of the publications, and then asking United States senator to see that you are supplied with the publications you need. The bulletins of the experiment stations and agricultural colleges of the western states are perhaps the best source of information about practical irrigation.

The trouble with all books and publications is that they are written for the man who already knows something of the subject of irrigation.

When is the contract of the Callahan Construction company due to be completed?

According to the Irrigation District office, Dec. 31, 1923, is the date set for completion.

Has Lake Wichita ever been frozen over?

We have made inquiry concerning this among the old residents of the city of Wichita Falls and no one has ever seen the lake completely frozen over, although some of the bays where the water is quiet has been frozen over.

How wide is the big dam at the bottom?

According to the Irrigation District office, the greatest bottom width is 573 feet.

Small Crowd Sees "Mutt and Jeff" In Palace Showing

A disappointingly small crowd, but one that lent generous applause, was on hand at the Palace theatre Friday night when "Mutt and Jeff on Their Honeymoon," a musical comedy based on the two world famous comic characters created by Bud Fisher, opened a two day stand. The production will be given at the Palace this afternoon and again tonight.

As presented Friday the play depicts the trials of Mutt and Jeff themselves after they fall into the toils of designing women. The two principal characters, portrayed by Cole Carroll as Mutt and Jerry D. Sullivan as Jeff, were responsible for the larger part of the action. Both ran through their parts in style and aided by some true-to-life make-up gave a very satisfactory impression of Mutt and Jeff as Fisher has created them on the comic pages.

The musical numbers and comedy parts scattered throughout the play aided greatly in keeping the action going at a lively pace.

Funeral Services For Mrs. Anna Burk

The remains of Mrs. Anna Burk, age 77, who died Thursday afternoon at the home of her daughter, Mrs. G. W. Lowe, on the Iowa Park road, were sent to Hinton, Ill. immediately after the funeral services held yesterday afternoon at the residence. Rev. Lambreth Hancock of the First Christian church officiated.

Mrs. Burk came to Texas from her home in Illinois in December to spend the holidays with her daughter and while here was taken ill.

Smallpox Case Walks Into Police Station

A man walked into the police station Friday morning and passing the time of day with a few loungers approached the sergeant's desk. An officer standing nearby took one good look and gasped.

"Say, boy, haven't you got the smallpox?" he gurgled. "That's what I want to find out," the new visitor replied. And then Lenly Humphris broke all records in putting a solid wall between himself and the stranger.

It developed that the man was really suffering with smallpox and he was promptly turned over to the health authorities, who bundled him away to the county farm.

Girls Sell Tickets For "Broken Chains"

Miss Juanita Kinsey, sponsor of the high school Girls' club, announced yesterday that because of the success the girls enjoyed in selling tickets to "Silas Marner," shown at the Strand theatre the first of the week, the management of the show was allowing the girls to sell tickets to "Broken Chains," which is to be shown at the same theatre, the last of the week. The girls cleared $21 through the sale of tickets for "Silas Marner" on a percentage basis and several of the girls assert they are going to do better on the next sale of tickets. The money that is being raised will be used to help defray the expenses of the Y. W. C. A. Conference that is to be held in this city the second week in February.

W-K Spark Plugs reduce carbon.—Adv.

Real Desks Now For City Clerk

"We're going to move the kitchen tables out of the city clerk's office and get some real desks, was the gist of comment Friday by W. E. McBroom when questioned as to the portent of considerable activity on the lower floor of the city hall.

The office has had to struggle along with improvised furnishings for the past year or two but now some real desks are to be provided. Incidentally, liberal coats of paint over some of the front windows, relics antedating the period three years ago when the police department used the present clerk's office, are to be cleaned away.

Two Cases Tried In Friday Court

Only two cases were tried in the police court Friday morning, netting a total of $25 to the city in fines. One man charged with reckless driving was fined $15. It was brought out in the trial that he backed from the curb without giving warning, colliding with a Ford coupe and damaging it. He denied the charge.

A double decking case, in which Judge John Martin found a young man guilty, added $10 to the city treasury.

Miss Roberson To Join Summer Staff

Word was received here yesterday that Miss Jennie Roberson, supervisor of art in the local schools, had been appointed instructor in the public school department in the university of Texas Summer Normal school. This will be the second summer that Miss Roberson has held this position. She has been connected with the public schools in this city for several years.

M. E. South to Have Business Session

At the First Methodist Episcopal church, South, Tenth and Lamar, the pastor, Dr. C. M. Simpson, will speak Sunday morning on a theme of hope and courage and leading to those who carry the world's load. A special feature of the evening service will be the Kaufman Orchestra for the first fifteen minutes of the service. Their work is fine and always delights the public. The pastor will speak on "Waiting for the Touch of Power," an appeal to every life that wants to get on in the world.

On Wednesday night, the regular church night program will be followed as usual up to 7:45, when, instead of the regular inspirational service, the business session of the first Quarterly Conference will be held.

ANNOUNCEMENT

Dr. R. L. Hargraves announces the removal of his offices to 607-610 City National Bank Building, where he will be associated with Drs. Patillo, Collard and Hall, in the practice of medicine and surgery. Telephone 5760 and 5222.—Adv.

COUNCIL SPLIT ON MEDIC BILL

Debate Is Feature Of Session Friday

A spirited debate that brought out arguments both for and against the measure livened the business council luncheon Friday noon, when endorsement was asked of proposed changes in the state medical laws. The council finally voted to endorse the matter, but only after several members had voiced open opposition.

The bill in question is now pending before the legislature and is designed to regulate the practice of medicane in Texas by establishing more stringent requirements for obtaining a practitioner's license and also for providing more severe penalties for violation of the laws.

The motion asking the council to endorse the measure was offered by Rev. J. W. Loving and he, together with several physicians, spoke in its favor. They were opposed by others of the council, who declared that the provisions of the bill were unfair. Quite a few members refused to express opinions either way on grounds that they were unfamiliar with the measure.

W. B. Lanham, assistant director of A. & M. college extension department, made a brief address which dealt mainly with the work of his department.

STALEY WELL IS GOOD PRODUCER

Several Tests Show Much Promise

The well of J. I. Staley in the extreme northwest ten acres of block 2 of the W. P. Ferguson land in Archer county, which was brought in Thursday, shows promise of being one of the best completions in the Archer field during the past several months.

The sand was picked up at 1582 feet and after a slight penetration the well responded by flowing at the rate of 375 barrels. This completion draws considerable interest to this vicinity as the well is located only about 500 feet northwest of the old Alberta test which was drilled during the boom days. As the Alberta was abandoned as a dry hole, drilling operations were suddenly checked in that territory.

Another shallow well has been completed in the Freeman-Hampton pool, it being announced yesterday that the well of Dee Brothers and J. M. Senter was brought in on block 21 of the Mangold ranch. The sand was encountered at 650 feet several days ago but further work on the well was delayed by several difficulties. A production of 40 barrels is estimated.

The No. 1 well of Dr. Wallace in Archer county has set casing on the top of a promising sand at 1720 feet and is attracting considerable attention. The Gulf Production company has set casing and cemented on a sand at 1700 feet in their No. 1 test in Archer county, located about a half mile southwest of the Feathestone wells.

The Texhoma company will set a string of 3 5-16 casing with a packer at their No. 1 test on the Zane Cetli tract, which has experienced water difficulty after encountering a promising sand at 1780 feet, in an effort to complete the well.

The W. T. Knight No. 1 Jackson which is attracting attention chiefly because of the showing of the Texas Coal and Oil company's showing at 1600 feet a mile west, is nearing that level, drilling at around 1500 feet at present.

Wichita District Production Gains

Although the average daily gross crude production of the North Texas field showed a decrease of 1,150 barrels for the week ending Jan. 20, the Wichita Falls district showed an increase in runs of 1,345 barrels for the period. An average of 50,075 barrels daily was maintained.

The runs for the Burkburnett district showed a gain of 975 barrels over those of the previous week. Daily runs in Archer county increased about 250 barrels. Both Iowa Park and Electra fell off slightly. Runs for the week of the various pools in the district are:

Electra, 24,100; Burkburnett, 25,200; Iowa Park, 2,100; Archer county, 5,275; Petrolia, 300.

Ten Missing After Burning of Tanker

By Associated Press.

TAMPICO, Mexico, Jan. 26.—Ten members of the crew of the Mexican Eagle Oil company's tank steamer San Leonardo are missing and nineteen others are suffering from burns as a consequence of a fire which partly destroyed the tanker and burned the company's wharf on the lower Panuco river last night. The vessel which changed from the British to the Mexican flag last September, is listing badly.

Twenty-five thousand barrels of the thirty thousand barrels of oil cargo were saved. The refineries and tanks of the Mexican Eagle and Royal Dutch shell companies are close to the wharf and for a time it appeared as if they might be set on fire.

The San Leonardo carried a crew of 46, all Mexicans.

NUMEROUS NEW TESTS PLANNED

Archer and Wichita Counties Favored

The announcement of the many new tests that have been or are about to be started in the north Texas oil fields, indicates that drilling operations at present exceed those of any time during the present year. Wichita and Archer counties will see at least 13 new tests begun within a short time.

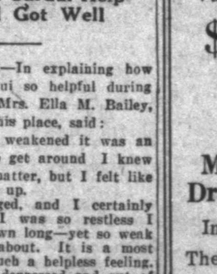

The Republic Petroleum company has started drilling on their No. 1 test on the Cliff tract about ten miles east in Archer county, marking the entry of another big producing company in the Wichita Falls district. J. I. Staley and Jerome S. Stone have purchased 60 acres in the Kemp and Kempner tract of the Wichita valley land for a consideration of $30,000 and will put down a test within the next few weeks.

In Archer county, the Gulf Production company plans a test to be known as D-5 on the Ferguson tract of the S. P. railroad survey. Lanning and Monniger have announced they will drill two tests on the Wilson tract in Archer county, to be known as No. 3 and No. 4, Freeman-Hampton are to drill two tests on the Ferguson land in Archer, which will be known as No. B-5 and B-6.

Among the tests which have just been started or are expected to be started in Wichita county within a short time are: No. 1 on land of Kelly et al, S. P. survey by Martin, Davis and McLaugh; No. 14 on Burnett land by J. A. Perkins; No. 1 on Roller tract by Cauble Amis Oil company; No. 16 on Waggoner tract by John and Jeff Oil company and No. 1 on the Roller tract by J. A. Fisher.

Oklahoma Oil

W. B. Pipe has a well producing 60 barrels daily in 12 feet of sand found at 2-465 feet in the southwest of the northwest of 3-11-11.

Gypsy Oil company has completed a 50-barrel well in the southeast of northwest of the northeast of 2-10-9 in sand found at 3,609 feet.

At Tonkawa, the Comar Oil company's well on the Koffen brink farm in the southwest corner of 36-25-1w which is a half mile east of production is showing oil with sand just at 1,828 feet.

The Cosden and Marland No. 1 school land in the southeast corner of the northeast of 35-25-1w which extends Tonkawa a half mile westward is making 1,448 barrels from the upper Hoover sand.

In the main Tonkawa field, Comar Oil company's No. 1 Endicott, in the soutseast corner of the northeast of the southeast of 34-25-1w, is making 120 barrels per hour from 2,421 and 60 feet.

Theft Case Dismissed

Joe Rhinefeldt, charged with petty theft, was found not guilty in the county court at law before Judge Guy Rogers yesterday afternoon. It was charged that the man removed some oil field tools, but in his defense Rhinefeldt proved that he borrowed the articles in the presence of the night watchman.

JUST DRAGGED SO WEAKENED

Florida Lady Was in a Miserable Condition, But Says She Found Cardui Helpful and Got Well

ALTHA, Fla.—In explaining how she found Cardui so helpful during change of life, Mrs. Ella M. Bailey, of R. F. D. 2, this place, said:

"I became so weakened it was an effort for me to get around I knew what was the matter, but I felt like I couldn't give up.

"I just dragged, and I certainly was nervous. I was so restless I could not sit down long—yet so weak I couldn't get about. It is a most miserable and such a helpless feeling.

"I would get depressed and out of heart.

"I began to feel, after a while, there was no use to try to get well. This is all wrong, for it makes a person worse.

"I had heard of Cardui, and thought it might strengthen me. A neighbor had used it with good results.

"I took one bottle (of Cardui), then I saw I wasn't so nervous, so kept it up.

"Gradually the nervousness left me. I began to eat and sleep better Was soon well, and all right.

"Cardui did wonders for me, and I certainly do recommend it."

Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others.

Cardui has stood the test of extensive use, for more than forty years, in the treatment of troubles common to women.

Good druggists, everywhere, sell Cardui, the woman's tonic. Try it. —adv.

Blackheaded Pimples Quit With S. S. S.

Why? Pimple-Poison Goes When Red-Blood-Cells Increase! S. S. S. Builds These Red-Blood Cells.

You can be sure of this, nature has no substitute for red-blood-cells. Pimple-poison can't live in the red rivers of your blood as long as there are enough rich red-blood-cells in it. More red-

blood-cells! That is what you need when you see pimples staring at you in the mirror. Blackheaded pimples are worse! Eczema is worse yet! You can try everything under the sun,—you'll find only one answer, more cell-power in your blood! The tremendous results produced by an increase in red-blood-cells is one of the A. B. C's of medical science. Red-cells mean clear-pure rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatism impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S. S. S. will build them for you. S. S. S. has been known since 1826, as one of the greatest blood-builders, blood-cleansers and system strengtheners ever produced. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

Many Rigs Erected In Kaw Reservation

KAW CITY, Jan. 26.—A scramble is on among a number of the big companies which own acreage to build rigs and drill new wells in the Kaw reservation.

Since the bringing in of the discovery well by a Sapulpa company in 15-27-5e, near the eastern line of Kay county, a score of locations have been made and 19 new rigs are being built. Six of these rigs are reported to have been erected in the western edge of the Osage offsetting the discovery well The Gypsy Oil company owns a large block in the Kaw country and it is reported has let a contract for the building of 25 rigs.

A new oil town, called Tomsonville, is being built. Seventy-five wagon loads of lumber were hauled to the townsite recently from Webb City in the Osage. The new railroad is being extended from Shidler to Webb City, and it is thought will enter Tomsonville. A number of oil well supply houses are now waiting for the railroad to build into Tomsonville.
