

76 CAMPERS LEAVE FOR HOMES AFTER WEEK AT CHURCH LODGE

Sixty-five young campers and 11 adults left for home Saturday morning after spending the past week at the Presbyterian Pioneer

Encampment three miles north of Cisco.

This camp, which opened Monday with lunch and ended with breakfast Saturday, August 5, was held for Presbyterian young people of this section of the state who are 13 and 14 years of age.

Rev. Winston Bryant, pastor of the John Knox Presbyterian Church at Fort Worth, was director of the camp. He and his staff set up and supervised the schedule of activities for the campers.

Each day the campers attended Quizzes, which in reality were periods of search for the Christian way of living. These Quizzes included Bible study and worship periods.

Committees of campers and adults functioned to see that the necessary tasks such as dining hall duties, cabin cleanup, and general camp maintenance were done.

The campers also participated in an active program of sports. There were baseball games, ping-pong games, and planned active games as well as swimming in the Lake Cisco Park pool.

Rev. James Garvin, pastor of the First Presbyterian Church of Mineral Wells, was the vesper speaker and spoke to the campers each evening at sunset (vespers). Vespers were held on a hillside which overlooked the fish hatcheries and the hills of Cisco.

As the campers left the camp Saturday morning, many comments were heard about how much the camping program had meant, and many campers were declaring their intention of returning to Cisco for the camp next summer.

The Gay Philosopher

By J. W. S.

WENT OUT TO see the A. V. Clark oil pool at noon Friday. Bankline Oil Company opened the No. 1 Clark well and after some ten minutes, oil started flowing across the slush pit.

Mr. Clark was standing in a nearby field — some 100 yards away — and watched as the oil flowed. His son, Charles, was out and he opened the well.

Mr. Clark and his wife are former residents of Cisco and are well known and loved by one and all. He formerly was a business man here and served on the city commission for several years. They bought the farm and moved there some ten years ago.

RAN INTO MR. Don Choate at the well. The Choate Drilling Company is doing Bankline's drilling. And Don gave us another check for the Gym Fund. It was for \$25 and was from the Matthews Supply Company of Ranger. Don's doing a good job as a one-man committee, and all Cisco appreciates these donations from good friends who live elsewhere.

COMMANDER ROBERT Donovan of the VFW Post, who is a part-time school teacher and a full-time rancher on the side, is postcarding friends from Wyoming where he is vacationing. He said he was keeping his eyes open for some calves to bring home with him.

MET UP WITH Mr. H. B. Snedeker here Saturday. He and wife were visiting the A. R. Westfalls, along with Mrs. Mary McKinney. The visitors are from Fort Worth, and Mr. Snedeker has been with the T&P Railroad there for 53 years. Westfall says you don't say Mr. Snedeker's name — you sneeze it.

IF YOU LOOKED at the calendar Tuesday, you noticed that city schools will begin in one month — Sept. 5. And no doubt all the youngsters are ready. High School footballers will commence workouts on August 15. But rules won't let college players start before September 1.

MR. BILL KENDALL reports that one of the Breckenridge boys here for a softball game Thursday night lost a roll of bills — folding time money. If you found it and desire to see right and justice triumph, contact Bill and he will see that the lad gets his money back.

GOLF COURSE notes: Claude Wilson has regained his old form. He was one under par for 14 holes Friday. Sutton Crofts one-putted four greens in a row for four pars Friday. Mrs. Ralph Glenn and Mrs. Jack Anderson arranged for Pro Bill Dill to commence giving them some lessons. One of the best shooters we've seen among the high school girls is attractive Janet Ferguson. She had par scores on two holes the other afternoon.

B. H. Gray and son are new students of the game. And they like it very much. Ronald Rhodes toured 18 holes in 83 the other day — his best score to date. Gene Abbott hit a tree with his ball from 100 yards away the other day — a very difficult shot, indeed — if you're trying to hit it, that is.

A GOODLY CROWD turned out Friday night to watch Round-up Club members stage a program at the arena. Hear there will be at least six matchless races run at the track here Sunday afternoon. One will be a race between a well known local stallion and one of his speedy daughters.

UNDERSTAND THAT Miss Dorothy Lee Davis is recovering from polio in such a fine manner that she'll be home in a week or so. Her parents are gratified with her response to the treatment.

LAKE CISCO PARK HAS MUCH ACTIVITY FOR THE WEEKEND

Business was booming at Lake Cisco Park Saturday and several family reunions promised to keep up the increased activity during the week-end.

More than 100 FFA boys broke up their annual recreational camp Saturday after two days of fun. The boys arrived

early Friday for a full program of recreation.

As the FFA boys departed, family groups began arriving. Three large family reunions moved in Saturday morning, including the McLaurins, the Fielders and the Baucum families of Jones County. These groups were here for the first time, usually holding their gatherings at Leuders.

Second timers at the Lake Park for this week-end were the Shocks and Smith families of Oklahoma. And the Cox family of Eastland had reservations for a Saturday and Sunday reunion.

Judge Grantham and family of Cisco planned a family gathering at the Park for Sunday.

What is more, the fish were biting. Mrs. Ray Judia of the Lake Courts office said that several good strings of large crappie came out of the lake before noon Saturday. Some of the fish weighed up to a pound and a half.

Teen-Age Girls To Study China Painting Monday

Mrs. J. V. Heyser announced Saturday that china painting, stencil cutting and textile painting would be added to the activities of the Teen-Age Girls Club project at their meeting at 3 p. m. Monday at the high school.

She pointed out that new members were welcome and urged all those who wish to participate to attend the meeting Monday. The group will learn something new each week and those who come in late will be given special instruction on what has been taught in previous meetings.

Mrs. Heyser also stated that the mothers of the girls were welcome and invited them to attend the meeting.

Darlene Parmer Wins Honors At Abilene School

ABILENE, August 4.—McMurry's Vacation Band School was concluded Friday night at 8 p. m. with a public concert in the McMurry Stadium at McMurry College.

Darlene Parmer of Cisco was considered to be one of the best individual twirlers in a class of 65 by visiting band instructors. Miss Parmer was also featured at the Abilene Parks Band concert Thursday night and appeared before the Rotary Club during the two weeks school. She was also chosen as one of the best solo twirlers of the school.

Raymond T. Bynum, professor of band at McMurry, was director of the band school.

Presbyterian Women To Meet Monday

The women of the First Presbyterian Church will hold their regular monthly inspirational session Monday in the Fellowship Hall of the church, it was announced Saturday. The meeting was changed to Monday from the regular Tuesday time.

Mrs. Ted Waters will be in charge of the program and all women of the church, as well as all young people, were invited and urged to attend. Refreshments will be served following the regular program.

Most of License Renewals Are Due On September 1

Austin, August 3.—The Chief Clerk of the Game, Fish and Oyster Commission said today all but eight of the thirty-nine licenses issued by the Commission, including those for hunting and fishing, will be renewable September 1.

The license revenue provides a substantial part of the funds for Commission activities.

The Game Department staff now is busy reading the licenses for distribution. The actual sales are made generally by game wardens, county clerks and licensed deputies mainly in retail stores throughout the state. Only nine of the thirty-nine kinds of licenses are sold at the Austin headquarters.

Considerable Commission revenue comes from the \$1.65 individual fishing license and from the \$2.15 so-called big game hunting license represents only a small part of the collections. This is because the comparatively new big game license covers all kinds of hunting, except antelope which calls for a special \$5. fee.

The Chief Clerk explained that processing the license represents a sizable assignment because they have to be distributed to between 1800 and 2000 agencies.

Oil Show Reported In Wildcat West Of City

Boss Company Gives Employees Increase In Pay

Boss Manufacturing Company, makers of Boss Whopper Gloves at a large plant here, announced Saturday an over-all pay increase of 3% for its more than 100 Cisco employees. Manager Anton White said the raise was effective August 1.

In addition to the pay increases, which will put an additional \$10,000 in local pay envelopes, the company announced that in the future its employees will have six paid holidays per year. This was believed to be a pioneering movement for Boss in the glove manufacturing industry.

The Boss company recently added several employees at the Cisco plant to meet increasing demand for their gloves.

Area oil men were watching developments west of Cisco Saturday where McElroy Ranch Company was running tests in the Caddo line in their No. 1 Hollis McKinney, a wildcat located a mile west of Dothan. According to reports, the Caddo was topped high. Regardless of the results of the test, which were not available, it was understood the hole would be deepened to the Ellenberger.

In the new Briggs Owens pool five miles northeast of Cisco, preparations were being made to run official potential tests on Bankline Oil Company's No. 1 A. V. Clark. Completed Friday, the well cleaned itself out without swabbing after being opened.

Saturday morning, the No. 1 Clark appeared to have settled down to producing some 14 barrels of oil per hour through a 9/64ths of an inch choke. Production was from the Lake sand at about 3,300 feet.

Nearby, Bankline's No. 3 Clark was drilling at 1,360 feet, and one location west, the Crossman and Savage No. 1 B. D. Perdue was at about 2,000 feet and drilling ahead.

Just east of Cisco Chester Ines was still trying to make a well out of his No. 1 B. W. Patterson. Operators were hopeful that the trouble would clear up and permit completion in the flush Ranger lime uncovered recently in the area. Drill stem tests had indicated another good well, but trouble developed in completion work.

North of Cisco, Lone Star Producing Company's No. 4 Elam was nearing the pay horizon. The Gray Drilling Company was sinking this hole, which offsets production.

In Brown County, Gray was drilling near the 2,000 foot mark in the C. W. Phayer No. 1 Ross, a wildcat projected for the Ellenberger.

On the Hittson ranch, north of Cisco, Cooper-Hemphill's No. 1 Hittson was nearing completion. An oil show in the Caddo was passed up for the present to seek the deeper pay. Indications were that the well would be good for at least 50 barrels per day in the Mississippi.

Some 15 miles northwest of Cisco in Callahan County, Herring-McElroy have completed two wells, one a Caddo producer at 3,200 feet. And two offsets were nearing the pay horizons.

INTEREST RUNNING HIGH IN FAIR PLANNED FOR SEPTEMBER 14-16

Interest is running high and plans and preparations are now going forward on the Free Fall Fair to be held in Star September 14, 15, and 16, according to Lee Welch, general superintendent of the fair.

Plans were being made to elect and crown a peanut queen during the fair and particulars of the contest were to be announced later.

On Thursday night, Sept. 14, a square dance will be held, it was announced.

Doss Alexander, Rising Star orchardist, reported that his peach harvest was now in full-swing and the demand was much greater than he could supply.

He was especially happy over a report received from one of his buyers in San Antonio who sent a truck up last Friday for 250 bushels of Elbertas. The peaches bring a premium price of around \$7.50 per bushel on the retail market in San Antonio.

E. O. Kizer, new owner of the Rising Star telephone company, announced this week that installation of a new auxiliary switch board was nearly completed at the local exchange and that he planned in the future to replace all the old style wall phone installations with the new desk and table models of late design.

Funeral services for J. W. Percifield, 80, of the Sipe Springs Community, were held at the Higginbotham Funeral Chapel in Rising Star Sunday afternoon with the Rev. Van O. Martin, pastor of the Baptist Church, in

charge. Burial was in the cemetery in Sipe Springs.

Methodist, principally in the Wichita Falls and Weatherford districts, have made it possible for Rev. Ralph Nance, a former Rising Star man, to ramble around Brazil and preach the gospel to illiterates and natives of that country.

Rev. Ralph Nance is the son of Mr. and Mrs. E. M. Nance and attended high school in Star.

Gym Drive Group Plans to Meet Early This Week

Chairman George Boyd of the committee in charge of accepting contributions toward financing a new gymnasium building Saturday announced that members of the group would meet on Tuesday or Wednesday to complete their work.

He urged committee workers to complete their canvass prior to the meeting.

Cash contributions amounted to \$5,178 Saturday. Pledges had risen to some \$1,750.

WHY HOARD FOOD?

Why hoard food? Even if consumers fail to heed patriotic reasons for not hoarding food, current supplies plus the prospects for bumper crops promise to keep stocks at the same high level of the past two years, reports the U. S. Department of Agriculture.

But what about military buying? Sure, it will be stepped up as the armed forces increase. However, even if the Korean situation becomes worse, food supplies for civilians would not be noticeably affected this year — if normal buying habits are observed.

Here's why. In the first place, food stocks are 38% larger now

break all past production records. Some think the farmer's power to produce has hardly been tapped in this country. These two facts make the major difference between conditions during the early years of World War II and the present.

Also, military buying is likely to be offset by a drop in food exports. During the past few years U. S. food exports reached new highs, but now most of the importing countries can produce almost all their food needs, as they have nearly stopped buying from the United States.

Real impact of the Korean situation on food supplies is expected to come from the increased

buying power of U. S. consumers as a result of full employment due to the defense program.

The guests were greeted at the door by Mrs. Gallagher. Mrs. Barton Philpott, mother of the bride-elect, Mrs. Bill Philpott, sister-in-law and the honoree, Miss Philpott. House party included Joan Scott, Anita Carlin, Bobby Jean Deen, Elova Moad, Betty Sue Wagley, Sally and Betty Gallagher.

The bride-elect's chosen colors of yellow and green were carried out in the decorations. Lime punch and individual cakes were served to the guests who called during the evening.

Y. P. Treasure Hunt Held Thursday Evening

The Young People's Department of the First Baptist Church met Thursday evening at 7:30 at the church to look for a treasure rumored to be hidden in or around Cisco.

They were divided into four groups of six each, and given sealed envelopes containing instructions directing each group to the treasure. The clues were found in various places the town—a drug store, the cemetery, high school, an ice vault, the City Hall, the depot, and many other hard places. If you saw a group running out of the alley next to the First National Bank crying, "We've got it! Start the car! Let's go!" they had not robbed the bank but only found another clue to the hidden treasure. The instructions led at last to 1005 W. 10th Street, the home of Mrs. Otis Strickland. Much time was spent in searching the property there and that of the neighbors. The treasure was almost given up when Miss Carolyn Bell found it under the steps of the garage. The treasure—a box of candy well worth having.

While the peach and vanilla ice cream was being frozen a lively game of "Rhythm" was played. Carolyn Bell and Doug Johnson were the last left in the game.

Refreshments of ice cream and cookies were served to the following thirty-one present: Carolyn Bell, Carole Phippen, Mary Philpott, Earline Steel, LaVeda Cagle, Pearl and Pearlene Far-

ley, Lura Bess Cowan, Nada Wagley, Willie Frank Walker, Jane Houston, Durward Smith, Doug Johnson, Joe Philpott, Jim Ewell, Eddie Jackson, Alton Kite, Don Kent, Jack Kiser, James Ed Agnew, Jackie Leech, L. E. Sublett, Wadell Rains, David Phippen, Mrs. T. H. Carter, Mr. and Mrs. Truman Taylor, Evelyn Suzanne Taylor, Mrs. Otis Strickland, Carley and Charles Strickland.

Mrs. Hugh Greenhaw has enjoyed visits of three sisters in her home the past week. Those visiting with her are Mrs. J. A. Smith and Mrs. Mose McClure of Port Arthur and Mrs. Homer Burch of Meridian.

Miss Ethel Young of Abilene visited here the first of the week in the home of Mrs. A. D. Estes and daughters.

ELEVEN YEARS AGO -

It Was an Error in Judgment

... when the rejected candidate was led to believe that he had his race in the bag because every voter he met told him so. And about as disillusioned is the person who is convinced that an abstract is a lot of extra expense. There's another error in judgment. He stands to lose more, perhaps, than the candidate who lost the election. A winner always insists on an abstract when he buys real estate, and you can't beat that for good judgment.

First of the Fine Cars in Value

Even Wiser than He Seems

PLAINLY, here travels a man wise in the ways of fine motorcars.

You know that, by the four Ventiports and the rich sweep of chrome which mark his car as a ROADMASTER.

You know it, should you trail him on the highway, by the smooth lift of the big Fire-ill

power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflo Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a fine-car owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is easily the most distinguished on the highway.

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflo Drive, foam rubber cushions, windshield washers, electric clock, even non-glare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices; a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?
