

Death Joins Party

LOS ANGELES, July 28 (AP)—Death came to the reconciliation dinner party which Glenn Elmore, 32, Long Beach auto repair shop operator, had hoped to win back his wife.

As the dinner broke up unhappily, Sheriff's Deputy Herbert Jones said, Elmore shot and killed Mrs. Irene Elmore, 28, and then was captured in an automobile chase before he could make good his threat to kill himself.

The slaying occurred in the home of Mrs. E. L. Sherwood, who had helped arrange the meeting of the estranged couple, married two years.

Robert Lee Johnson, of Wilmington, step-father of Mrs. Elmore, told deputies her husband shouted "You can't run away from me" as he fired at her twice in a rear bedroom.

Johnson said Elmore flung away his pistol and ran out the door crying, "Don't stop me. I am going to kill myself." He was taken into custody a few minutes later.

FLOOD RELIEF AID IS SOUGHT FROM PAMPANS

Citizens of Pampa and vicinity are being asked to donate to the Red Cross emergency fund for disaster relief in Texas counties recently affected by floods. Persons desiring to help may leave their donations with Alex Schneider, chairman of the local Red Cross chapter.

The chapter is headed by Mrs. W. H. Davis, secretary of the local chapter with offices in the basement of the city hall, or at the Pampa Daily News.

Pampa Quota \$120

Pampa's quota has been set at \$120 by the Red Cross according to a telegram received this morning by Mr. Schneider from Red Cross headquarters in St. Louis. The telegram read:

"Reports received from Red Cross representatives confirmed major disaster in San Saba, McCulloch, Menard, and other counties along the Colorado River and tributaries. Incomplete surveys show 970 families now affected; 127 families destroyed; 650 families damaged. Minimum relief fund \$100,000 required to meet need reported to date. Am issuing appeal to all Texas chapters. Your chapter should make immediate and vigorous appeal with full publicity to secure quota of \$120."

William M. Baxter, Jr., chairman of the American Red Cross.

FOUR CANADIANS DIE IN MINE CASE FALL

BOURLAMAQUE, Quebec, July 28 (AP) (Canadian Press)—Four engineers were killed instantly and another was injured critically today when a cave dropped 700 feet down a shaft at the Lamont mine, company's \$7,000,000 gold mine.

The men were crushed in the steel car as it crumpled against a mass of masonry about one-third of the way down the 2,000-foot shaft.

The dead: Peter Downey, 24, Gleichen, Alberta, and James J. Crockett, 23, Toronto, both graduates of the University of Toronto; Harry Field, 32, Bourlamaque and Arthur M. Hewat, 32, Halifax.

W. Clarke Hubler, 23, of Toronto was the only survivor. Hospital officials described him as dying.

Mine officials said they did not know the cause of the accident. A new cable had been installed for the shaft only yesterday.

I HEARD ---

That time of the swimming and diving contests between Amarillo and Pampa swimmers tonight has been advanced to 6 o'clock. Bob Clark is bringing a strong team from Amarillo.

Coach Odus Mitchell pulling a King Kong this morning as he sat on downtown curb and mumbled "worry, worry, worry." When asked the cause of his worry, the coach remarked that he hadn't been able to find a suitable place for fall football training, which is only three weeks away.

TWO MEN STILL ON CANYON LEDGE

Civic Leaders Urge Approval Of Water Bonds

Dame Rumor Hath It ---

Sally Clark sister of Mrs. John Roosevelt, whom she attended as bridesmaid when the Roosevelts were married at Nahant, Mass., in June, is expected to announce her engagement to George McClanahan. They are pictured above at the Ritz Carlton Hotel Roof Boston, where Miss Clark currently is appearing as a professional singer and dancer.

Water Bonds To Be Paid From Revenue, Not Thru Taxation

Facts and figures on Pampa's water revenue bond election next Tuesday when city voters will decide whether or not bonds in the amount of \$165,000 shall be approved to give Pampa an adequate water system, were presented at the weekly luncheon of the Rotary Club yesterday by City Attorney Walter Rogers and others.

FORTY AND EIGHT TO SHOW LEGION MOVIES

Motion pictures of the American Legion national convention in New York in 1937 will be exhibited tonight at the meeting of the Pampa Legion, which is being held at the American Legion hall.

The picture is being presented here by C. C. Walker, Hiram Walker salesman.

At the meeting tonight, the local voters will nominate and elect officers. Delegates and alternates to the grand promenade, to be held on the first day of the state American Legion convention in Austin, August 27, 28, 29 and 30, will also be named at tonight's meeting.

COMMUNIST INVOLVED IN UAW MEN'S TRIAL

DETROIT, July 28 (AP)—A woman identified by Homer Martin as a former communist party member entered the trial of four suspended officers of the United Automobile Workers today to relate a reported "deal" to give communists control of the Wayne county unit of labor's non-partisan league.

Martin, UAW international president, said the woman heard a report at a communist meeting on terms of a "deal with Dick Frankenstein to gain control" of the local chapter of the league which has been used for political activity by the Committee for Industrial Organization.

CITY CANNOT GROW WITHOUT WATER SUPPLY

Need of Improvement
Forcefully Cited
By Mayor

A campaign to enlighten Pampans concerning the need of an improved water system for Pampa, in connection with the \$165,000 water revenue bond election to be held next Tuesday, was started at 10 o'clock this morning at the city hall when members of the copy and speakers committee met to co-ordinate their plans.

Both committees were appointed by Reno Simpson, president of the Pampa Board of City Development.

Three public meetings for the purpose of acquainting Pampans with the full details of Pampa's water situation were scheduled at a meeting of the speakers and copy committees this morning in the BCD committee room in the city hall building.

Speakers at each of the three meetings will be Walter E. Rogers, city attorney, and W. T. Williamson, city manager.

First of the three meetings will be held at 8 o'clock tomorrow night at the B. M. Baker school. The other meetings will be held, at 7:45 p. m. Monday at Woodrow Wilson school, and at 8:30 o'clock the same night at Horace Mann.

At a meeting of BCD and Junior Chamber of Commerce representatives held last night at the BCD committee room in the city hall building.

As outlined at last night's meeting, newspaper, radio and direct mail, will be the mediums used by the copy committee to present the water situation to the citizens, while

See NO. 2, Page 5

FOUR CHILDREN DIE IN CAVE-IN

CLEVELAND, July 28 (AP)—The suffocation of three boys and a girl beneath tons of earth was laid today to a childish urge to make a cave "to hide in if it rains."

Trapped as they burrowed into a sandy hillside yesterday, the four victims were:

William Malzan, 13, Agnes Majkrzak, 8, Edwin Kruczek, 9, and Leonard Jarzenbak, 10.

Ten-year-old Ruth Malzan, sister of William, who barely escaped the same fate, saved the life of Eugene Kuchnicki, 9, by digging frantically with her hands until the boy's face was uncovered.

The tragedy occurred in a steep, 25-foot embankment near a rapid transit line right of way on the city's southeast side.

"We found the rain had formed a gully," Ruth explained. "One of the boys suggested digging into the hillside and making a cave. I helped with a piece of iron I found."

"All of a sudden, the dirt began to slide. I was near the entrance to the cave and the falling dirt pushed me outside. I started digging with all my might and when I got down a few inches I had taken the dirt off Eugene's head so he could breathe."

"I tried to dig some more, but I couldn't."

'Water Bundle' Makes Heap Too Much Rain

WASHINGTON, July 28 (AP)—The rainmaking "thunderbird bundle" of the Gros Ventre Indians of North Dakota has worked so well that one Indian wishes the white man would take it back.

Foolish Bear and Drags Wolf, representing the Water Buster clan of the Gros Ventres, asked Indian Commissioner John Collier last January to help them get back the long lost "sacred bundle," which legend

Motorists Stepping on The Brakes

CHICAGO, July 28 (AP)—The nation's motorists are beginning to step on the brakes in time to save lives.

The National Safety Council reported today traffic fatalities for the first six months of 1938 were fewer by 22 per cent than during the same period last year.

By heeding the plea to drive more carefully, American motorists saved 3,670 lives during the first half of 1938, the council said.

The steady decline in fatalities was registered despite a two per cent increase in highway traffic during the first five months, the council said.

The decrease for the first six months in Texas was 14 per cent.

WET-DRY VOTE TO BE HELD IN PRECINCT 3

Voters in precinct 3, the southwestern portion of the county, will hold an election August 12 to determine whether or not alcoholic beverages may be sold in that precinct, which is now dry.

The county commissioners at their regular meeting yesterday accepted a petition signed by 250 persons asking for their approval. A previous petition asking for an election had been refused on account of faulty signatures.

Other business transacted at the meeting of the commissioners yesterday included acceptance of the bid of Sam Leal, Jr., of Fort Worth, for laying a double asphalt surface on 7,800 feet of the Bowers City road. Leal's bid was \$5,521.75.

Only one other bid was submitted, that of S. F. Sullenberger of Amarillo, for \$5,690.25.

Bids on the job had been called for at a commissioner's meeting a month ago, but none were submitted at that time.

Regular monthly bills were approved for payment at the meeting yesterday, and an order was passed appropriating \$300 for the county health department.

HEPBURN PLANE TURNS BACK BECAUSE OF FOG

WASHINGTON, July 28 (AP)—The army signal corps received a message from Skagway, Alaska, today that the overdue plane of Premier Mitchell Hephburn of Ontario turned back last night from Skagway to Carcross because of fog.

Signal corps officials said they understood Hephburn and his party passed the night at Carcross.

Carcross is between Skagway and Whitehorse, Yukon territory.

40 KILLED IN RIOTS AT RANGOON, BURMA

RANGOON, Burma, July 28 (AP)—Rioting between Burmese Buddhists and Indian Moslems caused 40 deaths today. Two hundred and fifty persons were injured.

Street fighting broke out in the morning, subsided and then flared again toward midnight.

Married 3 Miles Up

This is probably the nearest to heaven any marriage ceremony was ever performed. Edward I. Von Glantz and Miss Jane Webster are pictured as they were married 16,000 feet above Los Angeles by Capt. Richard Bowman, veteran airlines pilot. The idea, the couple said, was to prove that a marriage ceremony performed by a captain three miles above the earth is just as legal as one performed three miles at sea. Pilot Bowman brought down a sealed barograph to prove the altitude.

Nine Men Fined In Gambling Case Ask For Another Trial

Fines amounting to \$157.50 were assessed today by City Judge W. M. Craven against nine men charged with gambling. The men were tried Tuesday but the judge reserved his decision until today.

Immediately following the verdict Aaron Surcove, attorney for the defense, filed a motion for a new trial. If it is denied the attorney said he might appeal to county court.

PUMP INSTALLED AT NEW CITY WATER WELL

Developing of the city's new water well began yesterday when the pump was installed. It will require between one and two weeks of pumping to develop the well before water is turned into storage.

Casing was set, the screen attached and the pump installed last week and the gravel placed around the screen. Water was pumped by hydraulic pressure this week.

When completed the well will be capable of pumping 750 gallons of water a minute. D. L. McDonald of Amarillo is the contractor.

Legion Chief

I. J. "Fenchy" Huval, above, is the new commander of the Pampa Keweenaw American Legion post. He succeeds Howard Buckingham as commander. Huval has been an active worker in the post since its organization and plans an active year for the members.

SOLDIERS PUT IN FIFTH DAY, AWAIT RESCUE

Rescuers Hope to Let
Boat Down When
River Recedes

MARFA, July 28 (AP)—Two marooned soldiers, survivors of an ill-fated inner tube journey through flooded Santa Helena canyon, remained today on a rock ledge just above the roaring Rio Grande.

It was the fifth day on the ledge for Sergeant Clyde Ryberg and Private Clarence Hansen, who, with Private Harry Buckman, attempted the dangerous nine-mile trip with the aid of automobile inner tubes Saturday.

Supplies lowered on ropes. Supplies were being lowered to the stranded soldiers by ropes as rescuers awaited a drop in the river before attempting to remove them by boat.

Meanwhile, plans were made to use army planes from San Antonio to search for the body of Private Buckman, who lost his life in the raging stream.

Col. R. H. Lewis, commander of Fort D. A. Russell, from which the men were on leave of absence, went to Lajitas today to take charge of the rescue.

Plans included lowering a boat by cable to the stranded men so they might continue on through the canyon in a few days after the Rio Grande recedes.

See NO. 3, Page 5

U. S. MARINES SET UP GUARD AGAINST JAPS

SHANGHAI, July 28 (AP)—United States marines today reestablished traffic patrols along the sector of the international settlement here which is under their guard.

Colonel Charles F. B. Price, commander, said that "there have been persistent and increasing violations" of an agreement reached three months ago with the Japanese army, that armed Japanese and military vehicles would be kept away.

Apparently, Colonel Price said, the Japanese staff was "unable to secure compliance with the agreement by their subordinates."

SEES HUGE WPA EXPENDITURE

Secretary Ickes said today that with the help of RFC's millions the public works program might be expanded to provide another \$250,000,000 worth of construction.

I SAW ---

Gray county's "forum," the benches on the first floor of the courthouse beginning to be filled again with those who will continue the debate on pensions, politics, ships, shoes, and sealing wax. For the past two weeks the benches have been little used, but today the "convention" was going strong.

City Manager W. T. Williamson hospitably passed out cigars to all comers at the city commission meeting Tuesday night and at another gathering last night.

SHADES OF CAPTAIN KIDD

Fourteen men on a dead man's chest, Yo Ho and a bottle of rum. Daring pirates sailing the high seas in search of buried treasure, ruthlessly plundering and capturing every obstacle in their path! Those were romantic days... days full of excitement and colorful history making episodes. You too, can go in search of hidden treasures... furniture piled high in the attic and never used. MRS. SANDERS COMPLIMENTED WITH SHOWER

Honoring Mrs. B. L. Sanders, Mrs. Ed Webber, W. C. Connor and R. R. Rhodes, entertained with a shower in the home of Mrs. Rhodes on Tuesday afternoon.

Miss Jessie Marie Gilbert was awarded prizes in the contests which she presented to the honoree. A check wagon loaded with gifts and inscribed, "Sanders or Bust," and "Baby Special," was drawn in by a small cowboy and presented to Mrs. Sanders.

A color scheme of pink and white was carried out in the refreshments and in the miniature plate favors.

Guests were Meses J. R. McKinley, John Platt, L. Rosenfeld, Tim Dooley, Clyde Jackson, C. J. McNaughton, E. C. Buba, Clyde Ives, Billie Barrett, Jimmy Barrett, E. Savage, Tracey Cary, Ed Webber, W. C. Connor, R. R. Rhodes; Meses Patsy Rhodes, Odessa Kunkel, Jessie Marie Gilbert, Patsy Ann Barrett, Eleanor Lynn Cary, and Dixie Sue Rhodes.

Gifts were sent by Meses J. P. Arlington, R. L. Hufnagle, Billie Green, A. D. Ellis, Walton E. Hoard, Emma Olson, Lois Kirk, and Mr. Billie McCormick.

RAILWAY CAGEY IN PICKING MEN FOR ROOSEVELT TRAIN

Pueblo, Colo. (P)—When President Roosevelt visited Colorado recently, the Denver and Rio Grande Western railroad made sure that every member of the train crew was a Democrat.

Frank L. Engle, secretary of the Pueblo county Democratic central committee, a locomotive engineer, plotted the presidential special through the winding Royal Gorge west of Pueblo.

The engineer on the train that preceded the special through the gorge—to see that the line was clear—was Thomas E. Martin, a brother of John E. Martin Colorado congressman.

There is no record of an airplane accident being caused by lightning.

Giraffes, when fighting among themselves, use their long necks like sledge hammers.

IN RECITAL

Bonnie Nell McBea, daughter of Mr. and Mrs. Horace McBea, will be presented on the intermediate program to be given Friday evening at 8 o'clock at the summer recital of Mrs. Madeline Karpely Rowner. The music will be given in the city club rooms.

The Social CALENDAR

THURSDAY
A popular meeting of the Red-Back Club will be held at 8 o'clock in the I. O. O. F. hall.

FRIDAY
Mrs. Virgil Howland, 905 East Francis Street, will be hostess to the Busy Dancers Social Club at 8 o'clock.

The Delphian Society will have the last summer picnic meeting for low members at 9 o'clock in the city club rooms.

SATURDAY
Gray County Home Demonstration Council will meet at 2 o'clock in the office of Mrs. Julia E. Kelley in the court house.

Cleanliness Taught In 4-H Club Classes

That little country girl is going places!

No longer content with merely learning how to sew, bake, put up preserves, and raise sheep or corn or potatoes, she is setting about energetically to achieve poise, grace and charm.

Recognizing the importance of good grooming in building for the future, leaders of 4-H clubs in many rural communities have included in their programs a "good looks study" plan of which personal cleanliness is a major division.

Each year thousands of progressive young girls assemble in various club headquarters to attend the classes, which include practical demonstrations on the proper care of the skin, hair and hands.

As 4-H club members always apply themselves with zest to whatever they undertake, city girls are given friendly warning to look to their beauty laurels before it is too late.

HAD FOUR WINGS
SUPERIOR WIS. (P)—A duckling with four legs, four wings, two tails and one head was discovered here by Mrs. Theresa Kinkel. The struggle of cracking open its egg was too much for the freak, and it died before completing its exit.

KINGSMILL CLUB HAS REPORT ON SHORT COURSE

Better dressed children with economical material was the study lesson of the Kingsmill Home Demonstration club Tuesday in the home of Mrs. O. G. Smith.

Materials were discussed by Mrs. N. B. Cude who stated that the best material is the closely-woven stuff that is washfast and saniferized. Mrs. C. M. Moot talked on the style and comfort in clothes for the child and Mrs. O. G. Smith spoke on trimming for the child's clothes.

Mrs. C. F. Bastion, who has just returned from a trip to the A. and M. short course, gave an outline of the work and the trip to the club members.

The hostess served iced tea, sandwiches, and cakes to 13 members and one visitor, Miss Jane Kuntz.

Glorifying Yourself

By ALICIA HART.

The girl whose hips and thighs are none too slender ought to supplement the active sports she's enjoying these days with a few special exercises designed to streamline her figure. If she'll keep on with golf or swimming or whatever sport she finds time for, then do exercises for ten minutes every day. She'll find herself at the end of summer with practically no figure defects.

The active sports will make every fatty muscle in her body firm and youthful again. The exercises will eliminate lumps on thighs and hips or a waistline roll.

For the hips, the old but still popular scissors routine cannot be beaten. Simply lie on your right side on the floor with head resting on upstretched right arm, left hand on the floor in front of your chest. Raise both legs off the floor, keep knees straight. Now swing legs back and forth in opposite directions—right forward when left is back and so on. Repeat twenty times, then lie on left side and repeat twenty more times.

Afterwards, "ride the bicycle" twenty to thirty times, depending on how tired you get. (It is a mistake to do any set of exercises until you are practically exhausted.) For this one, lie on your back, lifting legs as high as possible, and place hands underneath hips.

Now make believe that your feet are on the pedals of a bicycle and that you are riding that bicycle up a steep hill. Bring right leg down and back until knee almost touches your stomach, at the same time stretching left leg upward. Bring left knee down and back, stretching right leg. Do this fairly slowly, deliberately, methodically, feeling muscles stretch and pull.

To eliminate thickness through the waistline, try bending and stretching routines. Standing with feet about ten inches apart, stretch hands toward the ceiling and, keeping knees stiff, bend forward from the waistline, then backward, to the left, to the right. Repeat ten times the first day, fifteen the second, twenty the third and so on.

BGK ENTERTAINS WITH SWIMMING ON WEDNESDAY

Members of the BGK club were entertained last evening with a swimming party at the local pool. After the swim refreshments were served at the Crystal Palace for the entire group of club members and guests.

Attending were Meses Bernice Lyons, Dorothy Brumley, Martha Jones, Gloria Posey, Virginia Posey, Lucille Cole, Dorothy Harris, and Freda Barrett, guests of the club. Club members included Meses Olive Daugherty, Pauline Gregory, Janice Purviance, Alberteen Schulkey, Leona Hurst, Ruth Wagon, Isabelle Wagon, and Clara Marie Hartell.

Central Baptist To Fete Members At Picnic Friday

Members of the Central Baptist church will meet Friday night for an all church picnic.

All members are urged to be at the church promptly at 6:30 o'clock and go to the Texas company picnic grounds about three miles east of LeFors. Transportation will be provided for those who do not have cars. Each will bring a basket dinner.

The occasion is to honor Mr. and Mrs. F. E. Hicks and family, who are leaving soon to spend several months in Missouri. Mr. and Mrs. Hicks are high school teachers in the Sunday school and active in other phases of the church. They will be greatly missed by all.

Special attention is called to the change of place from the Danciger picnic grounds, as was first announced, to the Texas company grounds east of LeFors.

Modern Menus

By MRS. GAYNOR MADDOX

Ever stuff fillet of sole with crab-meat fresh from the summer sea? It's a gay thing today.

Fillet of Sole with Crabmeat (Serves 6)
Six small fillets of sole or flounder, 1 1/2 cups fresh crabmeat, seasoning, 1 egg yolk, 2 tablespoons milk, bread crumbs, 1 canned crabmeat may be used.

Wash fillets carefully and dust with salt and pepper. Pick over crabmeat. Place a mound of crabmeat in center of each fillet, sprinkle with lemon juice, then roll up and tie with heavy thread. Place the six fillet bundles in a steamer and steam until done.

Remove, dry, then roll in egg yolk beaten with milk. Next roll in very fine bread crumbs. Sauté gently in butter until delicately brown. Remove threads. Serve piping hot with this unusual sauce.

Cucumber Tomato Sauce
One cucumber, 1 can condensed tomato soup, pinch dry mustard. Peel cucumber and chop fine. Place in skillet. Turn in tomato soup. Add mustard. Simmer for 10 minutes stirring regularly.

Stuffed Fillets of Flounder (Serves 6)
Six small fillets of flounder, 2 tablespoons butter, 1-3 small white onion peeled and chopped, 1 1/2 cups freshly grated bread crumbs, 1 tablespoon chopped parsley, 1-2 tablespoon chopped celery, 1 teaspoon salt, 1-8 teaspoon black pepper.

Wipe the fish with a wet cloth and let stand in salted water to cover for 3 minutes. Drain and dry. Melt the butter, add the onion and cook for 5 minutes without browning. Mix with the bread crumbs, parsley and seasoning.

Mound on the end of each fillet, roll, and fasten with a toothpick. Arrange in a buttered baking dish and generously with butter and bake in hot oven (425 degrees F.) for 25 minutes, basting twice. Remove toothpicks and serve with cucumber tomato sauce.

GOVT TALKS IN BILLIONS BUT MAKES MOSTLY PENNIES

WASHINGTON (P)—The federal government may talk in billions but it does its biggest coin business in pennies.

Three out of every five American coins minted in the fiscal year just ended were pennies. The federal money factory turned out 368,876,920 coppers compared with 11,868,338 half-dollars, 25,864,873 quarters, 73,890,050 dimes, 61,744,005 nickels.

Coin was manufactured at cost for Honduras, Nicaragua, Colombia and China.

the waistline, try bending and stretching routines. Standing with feet about ten inches apart, stretch hands toward the ceiling and, keeping knees stiff, bend forward from the waistline, then backward, to the left, to the right. Repeat ten times the first day, fifteen the second, twenty the third and so on.

J. E. Bowen of Amarillo was in Pampa today.

Major E. A. Simpson of Amarillo was in Pampa yesterday.

J. J. Plingnot, Jr. and Don Wilkinson, of the Texas Highway patrol, Shamrock, were in Pampa today conducting the regular weekly drivers license examinations. Wilkinson succeeds Norwell Redwine who has been transferred to Amarillo. Redwine formerly accompanied Plingnot to Pampa, and helped give the examinations here.

George A. Linder, supervisor of the division of operations, WPA district 16, with headquarters in Amarillo, was in Pampa yesterday.

Divorces were granted in the following judgments filed today in 31st district court: **Treasure Short vs. Samuel Thomas Short**, **Louis DeRoy vs. Hans DeRoy**, **E. O. Clark vs. Pauline Clark**, and **Mary Sears Roberts vs. Floyd A. Roberts**.

In a judgment granted Wednesday in 31st district court, plaintiff in the case of **E. C. and R. C. Sidwell vs. Allsteel Products Co.** is to recover \$1,261 with interest at 6 per cent. Defendant gave notice of appeal to the Court of Civil Appeals at Amarillo.

Motion for a new trial in the case of **J. J. Enler vs. Fort Worth & Denver City Railway company** was overruled in a judgment filed today in 31st district court.

T. A. Crayen of Waco, former Pampa, is here visiting his aunt and uncle, Mr. and Mrs. W. M. Crayen.

Mr. and Mrs. R. B. Fisher and son of Corpus Christi arrived in Pampa last night for a visit with friends. Mr. Fisher was formerly superintendent of schools here. He left in February to become superintendent of schools at Corpus Christi.

J. M. Daugherty, member of the Pampa Independent School district, Roy McMillen, business manager, and J. W. Shelton, superintendent of drivers, left yesterday for Lima, Ohio, where they will receive two large GMC-Superior school buses purchased by the board last month. They will arrive in Pampa with the buses next week.

J. M. McKenzie has moved back from LeFors and has opened a dairy east of the city.

W. E. Green of McLean was dismissed from Pampa-Jarrett hospital today.

Mrs. J. C. Cole was taken to her home in LeFors from Pampa-Jarrett hospital today.

Condition of Carl Leuders, critically ill in Worley hospital, has improved today, attendants report.

J. E. Biggs of Memphis was a business visitor in Pampa Tuesday and yesterday.

Mr. and Mrs. Elmo Harris, who were recently married, were complimented Wednesday morning with a sunrise breakfast in the home of Mr. and Mrs. T. P. Harris by a group of friends.

THEY DIDN'T FIGURE ON THE LIGHTNING

OKLAHOMA CITY, Okla. (P)—For seven years agricultural officials carefully selected Oklahoma seeds that resisted drought, pests and disease.

Finally they had strains which they believed would grow exceptionally well in dry weather and would escape diseases. They stored between \$10,000 and \$30,000 worth in an Oklahoma warehouse, near Woodward.

Torrential rains swept the region, lightning struck the warehouse. The carefully chosen seeds were destroyed. Now some of the experiments will have to be started all over again.

FLAPPER FANNY

By Sylvia

"Pretty slow reading, isn't it?"
"Oh, no. It'll average one marriage, one divorce and one murder to the pound."

4-H Club News

4-H club junior leaders are attending training camps as reward for outstanding accomplishments in 4-H work.

The purpose is to train young men and women in leadership so that they may pass to younger members the knowledge they have gained in project work.

Topics include: developing poise, learning what you like to do, making the best use of your mind, conversing intelligently, cultivating a pleasing personality, and developing an emotionally healthy mind.

LAUDS 4-H TRAINING

All patriotic citizens should lend encouragement to the 4-H club movement, a prominent educator says in praising the leadership and citizenship being given rural youth who are members.

Dr. D. W. Daniel, Glenison College, said, "The 4-H club boy is preparing to triumph over difficulties, rise superior to disappointment, rout adversity and grow into independent, purposeful, successful and serviceable manhood."

PRIZES OFFERED

4-H club members are striving to excel in meat animal project contests in various states. Victors will share 1,000 prizes which will be distributed next fall.

Awards will include scholarships, free trips to the National Congress in Chicago as reward for their achievement in home arts, canning, home demonstrations, and all-around accomplishments.

They are also competing for college scholarships.

MAKE OWN CLOTHES

Future home makers will be well qualified to do the family sewing, judging by the popularity of sewing projects among 4-H girls.

Most of the girls engage in the project to learn how to make their own clothes, but many devote their efforts to sewing dresses and other garments for mothers, sisters and even small brothers.

YOUTH SHOWS WAY

Farmers who have been raising sheep for years are astonished by the skill displayed by 4-H club members in selecting and feeding lambs at demonstrations.

They say the lambs exhibited would be a credit to the experienced sheep raisers and that the animals are of better grade than is usually sent to the market from the average farm.

WILKINS WILL JOIN IN ANTARCTIC EXPEDITION

SALT LAKE CITY, July 28. (P)—Sir Hubert Wilkins, noted explorer, revealed today he would join the projected Lincoln Ellsworth expedition to the antarctic.

"The strength expedition will be about the last of the general reconnaissance trips," said the bearded adventurer.

"Future expeditions will be more detailed. The place we are going is a huge triangle about 2,000 miles in circumference and 1,200 miles long. Nothing except a general outline of the coast is known. It is the eastern half of the antarctic. The western half has been explored many times."

Ellsworth sailed from New York yesterday for South America.

Good Advice About Constipation!

A doctor would tell you that the best thing to do with any ailment is to get at its cause. If you're constipated, don't fiddle with makeshift remedies. Find out what's giving you the trouble! Chances are you won't have to look very far, if you eat just the things most people do. Most likely, you don't get enough "bulk." And "bulk" doesn't mean just a lot of food. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement.

If this what you lack, your ticket is crisp crunchy Kellogg's All-Bran for breakfast. It contains the "bulk" you need plus the intestinal tonic, vitamin B. Eat it every day, drink plenty of water, and join the "regulars"! All-Bran is made by Kellogg in Battle Creek.

GRAY COUNTY COUNCIL WILL HAVE MEETING

A meeting of the Gray County Home Demonstration Council will be held Saturday afternoon at 2 o'clock in the court house.

Delegates to the A. and M. Short Course will be present and reports on the various programs which they attended will be given.

All club members and visitors are invited to attend this meeting.

EPISCOPAL CHURCH TO HAVE VACATION SCHOOL

St. Matthew's church Episcopal will conduct a Vacation school from Monday, August 1, through Friday, August 12, which will be open to boys and girls of three years of age and over.

The younger children's program will be led by Mrs. L. L. Rice and will consist of a worship period with appropriate songs, a recreational period, and a handwork period.

Mrs. Rice is an experienced teacher with this age children.

There will be two older classes, one for boys and girls from eight through 10 years of age on "Heroes of the Church," which will be led by the Rev. R. J. Snell, and the other for boys and girls of 11 years and over on the "Life of Christ," to be led by Mrs. Hol Wagner.

In addition there will be carpentry work for the boys and sewing for the girls, under the direction of Mr. Snell and Mrs. R. C. Taylor.

Closing exercises will be held on Friday night, August 12, at which time several of the parables will be dramatized and handwork displayed. In addition there will be an ice cream social on the church lawn.

DON'T BE SHOT ACCIDENTALLY—WEAR A SOMBRERO

MEXICO, D. F. (P)—The Mexican sombrero is an institution here, but it may be a joke as well. If cartoonists desire to make a man look ridiculous, they put a big sombrero on him.

Yet the sombrero, or hat, may sometimes cost as much as \$300. Some are made of finest felt, adorned with gold, silver and copper, and a few with precious stones. The big hat has practical advantages since it provides plenty of protection from the sun, spares the eyes from glare, and prevents burning accidents.

In the United States a hunter might mistake a moving object in the woods for a deer, but the Mexican sombrero never has been taken for anything—but a sombrero.

FARMERS PUSH CLAIM FLOOD WAS 'MAN MADE'

LAGRANGE, July 28. (AP)—Bottomland farmers, their crops ruined by the vast sweep of the flooded Colorado river, planned to get in their licks at Columbus tonight against a Colorado valley authority which stoutly denied their claim the flood was "man made."

Crux of the matter was the operation of Buchanan dam, a protest wired to President Roosevelt and Texas representatives in the national Congress said Lake Buchanan was filled to capacity when the rains came and could not be utilized to check the rampant San Saba river, tributary of the Colorado.

Water released from Buchanan lake caused the flood waters to reach higher stages "and gave up less time to bring cattle and feed crops to safety," the Fayette county Agricultural Association's telegram said.

Fritz Engelhard, chairman of the CVA, insisted, however, "the flood was just one of those things."

He said: "When a flood comes along people feel they have to blame somebody."

Engelhard said, "It simply was a case of having more water than the dam could take, even if it had been empty. Engineers, experts and all informed people estimate the flood was several times as much as the dam would hold."

County Judge E. A. Arnim, Jr., of Le Grange, who estimated the Fayette county crop damage alone was \$2,000,000, said county judges and other prominent citizens in counties affected probably would go to Austin to confer with state officials on the Buchanan dam situation.

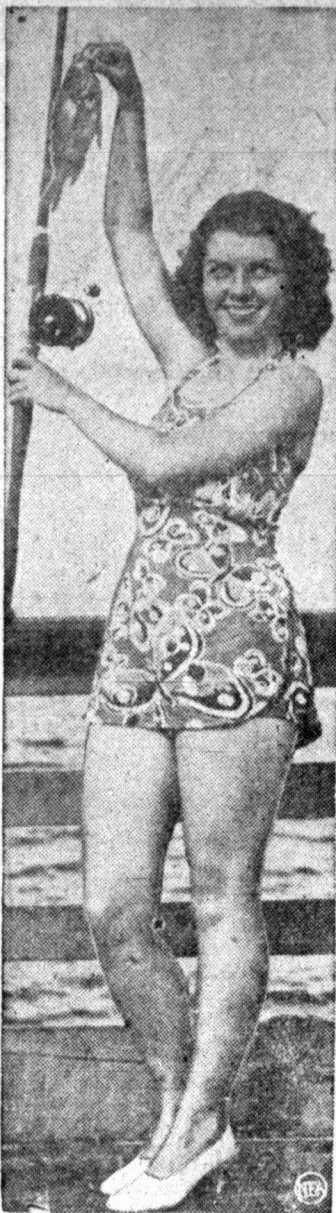

SIDNEY, Mont. (AP)—When millions of young grasshoppers sprout-ed wings near here recently and took to flight, residents reported the swarm was so dense it partially darkened the sky for more than an hour.

'GOLD' FISH

Fishing fans may boast about the one that got away while apologetically exhibiting their small fry, but pretty Barbara Bradford, 17, of San Diego, Cal., is proud of the little one she caught. Barbara took part in a contest in which a gold prize was offered to the person pulling the smallest fish. In the photo above, she exhibits the smallest prize-winning fish, an eight-ounce rock cod.

MAN ACQUITTED FOR 'WATER HOSE' DEATH

DALLAS, July 28 (AP)—A jury which deliberated less than an hour late yesterday acquitted J. I. Williams, Jr., 24-year-old Garland Democrat, on a charge in connection with the alleged "water-hose" death of Rex Downey, 21, last Nov. 1.

The defendant insisted he had no intention of killing Downey, his brother-in-law, when he administered a "water-hose" treatment in an effort to sober Downey up.

DAM INJECTS LIFE INTO NEW BOOM TOWN

BOOMTOWN, Calif., July 28 (AP)—Hope and excitement reached a high tempo in this newest of California's cities today as word spread that work on the huge Shasta dam—key structure in the \$170,000,000 Central Valley project—would begin in a few days.

Tens and small homes sprang up overnight. Real estate men talked incessantly. Lots sold from \$150 to \$2,500 at Boomtown and nearby Buckeye and Summit City.

Store fronts reminiscent of the old west popped up. Soft drinks and beer sales rocketed under a merciless sun.

There was much talk of incorporation to permit the sale of hard liquor. Estimated at \$80,000,000, including the \$35,000,000 dam for which the contract already had been let, and a \$20,000,000 37-mile rail recruiting job. Between 5,000 and 7,000 men probably will be employed.

MAN POSTS BOND FOR APPEARANCE IN COURT

Indicted by the 31st district court grand jury on a charge of operating a motor vehicle while intoxicated upon a public highway in the county, W. E. Rowe of Skellytown yesterday posted \$1,500 bond with county officers. The indictment gives the date of the offense as July 20. Sheriff's officers said the offense occurred on the Pampa-Berger road.

Rowe's indictment was one of two made this week by the grand jury, which adjourned Tuesday. The other indictment was in connection with a ferry charge. Return on the latter indictment had not been made today.

JEW'S ORGANIZE GROUP TO DEAL WITH NAZIS

BERLIN, July 28 (AP)—Formation of Jews in Germany which will constitute their official representation in dealings with the Nazi government, was announced today in the weekly Centralverein Zeitung, organ of German Jewry.

The organization united all Jewish societies under one head. Rabbi Leo Baeck, chief rabbi of Berlin, was named president.

The development comes at a time when an international effort is being made to aid emigration of Jews from this country.

SPECULATE ON CROWLEY WASHINGTON, July 28 (AP)—Political observers here speculated today on whether Karl A. Crowley, unsuccessful gubernatorial candidate in the Texas Democratic primary, would be reappointed solicitor of the postoffice department. Crowley resigned the \$9,000-a-year position several months ago to enter the Texas race. The vacancy has not been filled.

PRINCIPALS IN COURT MARTIAL

A general court martial at Governor's Island, N. Y., today reprimanded Lieut. Col. Stewart S. Griffin, right, and ordered him reduced 100 files or places on the army promotion list. Colonel Griffin was tried on charges of conduct unbecoming an officer and gentleman. The charges were preferred by Mrs. James Smith, left, and her husband who is a reserve officer.

SPAIN SENDS NOTE A note to Britain accepting in the main the non intervention committee's plan for the withdrawal of foreign volunteers from the Spanish war.

COUNTY DELEGATION TO ATTEND ROAD HEARINGS

Garnet Reeves, BOD manager, Reno Stinson, BOD president, and Mrs. Stinson and daughter left today for Austin where Mr. Reeves and Mr. Stinson will appear before the Texas Highway Commission seeking road improvements in Gray County.

Tomorrow, County Judge Sherman White, County Commissioner Arlie Carpenter, and M. A. Graham will leave for Austin to join Mr. Reeves and Mr. Stinson at other hearings before the commission. The docket of the commission for Saturday includes a hearing concerning the Stinson-Dumas road.

On Monday, a meeting of members of the 88-18 North-South Highway Association will be held in San Antonio. J. M. Collins is the representative of the association in Gray County.

ABA DISAPPROVES OF BLACK RESOLUTION

CLEVELAND, July 28 (AP)—The American Bar Association's resolutions committee refused today to approve a resolution which would have the association ask the U. S. Supreme Court for information on "eligibility" of Associate Justice Hugo L. Black.

Also unfavorably reported to the convention's assembly was a proposed resolution sharply attacking Nazi Germany for "discrimination" against "law abiding citizens solely because of their race, religion or political opinions" which action has "shocked the conscience of mankind."

The sex of bullfrogs can be determined by their ears; the male's ears are larger.

Sandusky, O., prohibits profanity in cemeteries and fines offenders \$50.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys
If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.
The kidneys are Nature's chief way of taking excess acids and poisons out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.
Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.
If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of appetite and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.
Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

TO THE VOTERS OF GRAY COUNTY

I sincerely appreciate the support the voters of Gray County rendered me in the Primary Election.

BOY SCOUTS RECEIVE AWARDS AT COURT OF HONOR LAST NIGHT

Eleven Boy Scouts were advanced in rank and 15 boys received 29 merit badges at the regular Court of Honor Tuesday night in the district courtroom. L. L. McCollum presided.

Each rank, highest in scouting, was awarded Harold Smith of Troop 16. Jack Crout of troop 80 was honored with a gold palm and W. Postma, scoutmaster of Troop 16, with a bronze palm. Earl Walker, troop 21, was made a life Scout, George Edwards, troop 18, star, and Max Grossman of troop 20, a first class Scout.

Advanced to second class rank were Dale Harrell and Charles Erickson, troop 80; George Neef and Elmo Hall, troop 20; Belton Beardon, troop 16; Davis Stennis, troop 14.

Merit badges were awarded as follows: Ross Buzzard, troop 16, Business, Handicraft, Camping; Bobby Gilchrist, troop 14, bird study, bookbinding; Ben Horn, troop 16, marksmanship; Bob Smith, troop 16, lifesaving; W. Postma, troop 16, marksmanship, reptile study; Neil McCullough, troop 14, cooking; Joe Cargle, troop 14, gardening.

Earl Walker, troop 21, lifesaving, surveying, public health; Grover Foster, troop 20, chemistry, photography; Richard Casey, troop 21, bookbinding, fireman's ship; Bill Grossman, troop 20, fireman's ship, wood carving; Buddy Wilson, troop 16, cycling, civics, hiking; J. S. Butler, troop 16, safety, carpentry, first aid to Hamilton; Billy Erwin, troop 16, first aid to animals.

Legion Lure

from lovely Evelyn Keyes of from lovely Evelyn Keyes of the movies? American Legion officials figured most people would. That's why they selected Miss Keyes to make an air tour of the nation and invite the secretary and undersecretary of war and governors and mayors of large cities to the national convention in Los Angeles in September. Miss Keyes is pictured above holding an invitation.

NO. 1--

In answer, he said he believed that the increase in consumption because of the water being available at all times and the additional users would care for the difference. He also predicted that the rate could be cut after a couple of years.

The program calls for the drilling of two additional wells, in south Pampa, laying of lines to points not now connected, enlarging of lines to points not adequately served, more fire plugs and more storage.

WAKE UP YOUR LIVER BILE--

Without Calomel--And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out two pounds of fluid bile into your bowels daily. If the bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A sure bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. It can't. Stubbornly refuse anything else.

since 1930 and that no additional production has been added.

Production Figures Given.

Declaring he was for the issue if it could be shown that a water shortage existed in Pampa, Tom E. Rose asked for figures. Mr. Williamson explained that during recent hot days consumption exceeded production more than 250,000 gallons daily.

Mr. Rose said he didn't know there was a water shortage to which A. H. Doucette replied that Mr. Rose "lived nearly under a storage tank and that pressure at that point would remain the same most of the time but that in outlying districts the difference could be seen."

C. P. Buckler reported a critical water shortage at the cemetery, declaring that much new grass set out might die for lack of water. He also explained that if a new school is erected north of the city that a water shortage there might exist.

Otis Humphrey was introduced as a new member.

NO. 2--

the speakers committee will arrange for a series of public meetings at various places over the city.

Committees Named

Members of the copy committee are Frank Dial, chairman; W. B. Weathered, and E. J. Dunigan, Jr. John Roby is chairman of the speakers committee. The other members are Walter E. Rogers, T. F. Smalling, and Charles Burton.

The election to be held next Tuesday is for the purpose of determining whether or not the city shall issue \$165,000 in water revenue bonds, with which to finance the city's part in proposed PWA project designed to give Pampa a \$241,889 waterworks system.

Brown-Crummer of Wichita, Kas., have already agreed to purchase the bonds at a premium.

The system would give Pampa two new water wells, making a total of six, more feeder lines, better fire protection, more mains, and an improved water service generally.

Mayor Cites Need

Full import of the water situation in Pampa was forcibly told those attending the meeting held last night by Mayor E. E. Carr.

"Pampa has reached the limit of its expansion unless we get more water," the mayor said. "We have got to have more water and we have to have it now. Why, the water supply is so low that if one of the city's three wells goes out now we wouldn't have enough water to put out a bonfire 36 hours later."

"If we were to get a chance to get a new industry here we couldn't offer them enough water to fire a single boiler."

With a bit of humorous exaggeration the mayor declared "if a stranger comes to town we don't have enough water to offer him a drink."

Those attending the meeting last night were Reno Stinson, BCD president, Garnet Reeves, BCD manager, Mayor E. E. Carr, City Manager W. T. Williamson, John Roby, Walter Rogers, city attorney, C. P. Buckler, Frank Dial, O. L. Boyington, T. F. Smalling, W. B. Weathered, Clarence Kennedy, J. T. Johnson, E. J. Dunigan, Jr., and Tex DeWeese.

FDR WISES MAYOR WINSHIP

SAN JUAN, Puerto Rico, July 28. (AP)—Major General Blanton Winship, governor of Puerto Rico, today received a message from President Roosevelt, congratulating him on his escape Monday, in Ponce, from an attempt on his life.

GIANTS LOSE CHIOZZA

NEW YORK, July 28. (AP)—The injury ridden New York Giants have lost the services of Utility Player Lou Chiozza, possibly for six weeks. Chiozza suffered a separation of his right shoulder joint in lunging for a grounder during yesterday's game with the St. Louis Cardinals.

Market Briefs

NEW YORK, July 28. (AP)—Climbing motor shares imported quiet, rallying power to the 2,000 market today and leading retrieved fractions to more than 2 points of Wednesday's reversal.

It was one of the slowest sessions of the past several weeks, however, with the ticker tape barely moving at times. Transfers approximated less than 1,000,000 shares.

The market found buying fuel in the better than anticipated earnings statements of General Motors and Chrysler, released after yesterday's close, in addition to other business indicators that generally pointed in the direction recovery.

prolonged an attempt will be made to lift the men from the ledge by ropes. This would necessitate a 500-foot climb.

Two Rivers on Rampage.

Two of Texas' mightiest rivers, the Rio Grande and the Colorado, rampaged along their lower reaches today to inundate hundreds of acres of lowlands and to cause grave apprehension in south Texas and Rio Grande valley towns.

The Colorado, its headwaters originating in West Texas where downpours sent its tributaries to unprecedented heights, continued today to spread out over much fertile farm land in South Texas as the crest neared the Gulf of Mexico.

At La Grange, where the Colorado did much damage yesterday after rising to 46 feet, the situation was improved as the stream dropped two feet. Further downstream at Wharton the river was flowing into low places in the Negro section. A crest of 38 feet was expected there late today.

At Brownsville, on the Rio Grande, the situation was ominous. Much depended on the vast flood control systems of levees on both the American and Mexican sides of the stream.

Many residents in lowlands around Brownsville moved to higher ground as the stream rose rapidly. It already was running through its levee channel several feet above the level of Brownsville streets.

Crews of WPA workers labored to reinforce levees at Port Brown in an effort to keep the military reservation dry.

The crest was reported to have passed Roma, about 100 miles upstream from Brownsville, this morning. The peak there was 24 feet. It was expected to reach Brownsville tomorrow.

Meanwhile, farmers along the lower Colorado planned to meet in Columbus tonight to protest the handling of floodwaters through Buchanan dam above Austin. They

contended the Colorado river authority could have prevented much of the widespread damage. An authority spokesman, however, said the flood was just too great for the dam to handle.

FLOODS RAGE ON.

HOUSTON, July 28. (AP)—New acres of farm land were inundated Thursday as the crest of the Colorado flood moved down the river toward Wharton, due to receive the burden of waters late tonight and Friday.

At LaGrange the river was down two feet from a crest of 46 feet reached Thursday night. The bridge on highway 71 apparently had been damaged by the floodwaters. One of the piers was believed to have been undermined by the swirling waters, throwing the span out of line.

The levee went out at Eldridge, 10 miles from Eagle Lake toward Wharton, submerging more than 5,000 acres.

CALL APPLICANTS UNRELY

DALLAS, July 28. (AP)—North Texas investigators for the old-age assistance commission reported today applicants for pensions were "downright untruthful" when told they would have to undergo the usual investigations under commission rules. Investigators reported some as saying: "We did away with all that monkey business Saturday when we voted for O'Daniel."

Property Tax Rate Continued

AUSTIN, July 28. (AP)—Continuation for another year of the present state property tax rate of 49 cents on the \$100 valuation was voted today by the Automatic Tax Board.

EXCAVATION UNDER WAY ON CITY STREET PAVING

Excavation of streets to be paved in the city's 12-block paving program in north Pampa is under way and laying of the caliche base will follow.

The county has loaned the city its large excavating machine and dirt is being removed at the rate of 200 yards an hour. Nearly four blocks of dirt has been excavated since Tuesday afternoon.

DEMPSTER TILLING, DAMMING and DEEP FURROW SEEDING MACHINE

DOES EVERYTHING BUT HARVEST THE CROP!

COME in and see this tested and proved machine that is turning misfortune into fortune for wheat farmers through the new system of farming that greatly decreases the weather gamble.

SAVE MONEY by buying this one machine instead of several. Save time, labor and fuel by doing several jobs in one operation. Go right into the stubble field immediately after harvest with the DEMPSTER as shown above—cultivate, form furrows and dam in one operation, leaving ground in perfect condition to catch and hold moisture in subsoil. (Note No. 1 below). Later you level & disc and prepare an excellent seed bed, leaving layer of trash on top to prevent soil-blowing. (Note No. 2 below). Then, with machine as shown below you deposit seed on a wide 6-in. moist seed bed covering seed uniformly with a layer of moist soil. (Note No. 3 below).

Ideal for summer fallow, seeding row crops, for spring wheat planting, for contour farming.

COME IN and see this all-purpose machine. (38-D-15)

Your Money's Worth At Your Hotel

Hilton Hotel guests usually pay less than guests of other first-class hotels. You are never charged extra merely because the hotel is first class.

When you pay two dollars for a Hilton room, for instance, or 50 cents for a meal—you know you are not paying for anything you will not get.

The sense of well-being that goes with staying at the Hiltons—that costs you nothing.

This thing of minimum cost for maximum quality and service is a fairly new idea—introduced to Texas by the Hilton Hotels.

U. S. SETS OUT TO MAKE REAL GOOD NEIGHBOR

(Editor's Note: The common problems of American republics have been of special concern to the United States since the Monroe Doctrine was promulgated. What is the current status of Latin American relations? The situation is outlined in two stories, of which the following is the first.)

WASHINGTON, July 28 (AP)—Good Neighbor Uncle Sam is out in earnest today to improve his relations with the folks on the south side of the street.

Inaugurating a division of cultural relations, the State Department began to execute its many proposals to make firmer friends of the Latin American republics.

The new division, headed by Dr. Ben M. Cherrington of the University of Denver, was designed primarily to increase cultural exchange and improve contacts between the other republics of the western hemisphere and the United States. This is in the face of determined efforts by Germany, Italy and Japan to win sympathy and support—economic and political—in Latin America.

Outline of Program
The administration's program ranges from better shipping lines to South America and trade assistance from the export-import bank to exchanges of students, professors, and books with our friends to the south.

Next month a flight of six army bombers will be made to Bogota, Colombia, to participate in the inaugural ceremonies of the new president. A similar flight to Buenos Aires for the inauguration of President Ortiz recently brought a wave of good-will toward this country. State Department officials regarded it as unfortunate that the problem should start at the time when the United States and her nearest Latin American neighbor, Mexico, are engaged

Prettiest Murphy

Sure, they picked the loveliest Irish rose out of all the people who went to the party at the ranch of Justice Charles S. Murphy near Paxton, Mass.—and, indeed, it just had to be a Miss Murphy! For it was the annual reunion of the clan Murphy and judges in the beauty contest decided that Miss Dorothy Murphy, above, of East Providence, R. I., was the prettiest girl among the 10,000 Murphys present.

in a squabble over the confiscation of American property.

But they consider the moment propitious in that Bolivia and Paraguay have signed a treaty of peace to end their boundary war, partly through the mediation of the United States.

The Mexican incident has demonstrated the need of a comprehensive good relationship with the Latin American states. They reason that American investments are heavy in most of the republics. The land seizure example of Mexico is naturally tempting to all. Good relationships, officials say, are necessary to prevent it from spreading without justification.

At the same time a determined but straight-forward policy toward Mexico is to be adopted, at least with regard to seized American farm lands, so that other Latin American nations will not get the idea the good neighbor has become a goody, goody neighbor.

PHOTO CLUB TO HOLD MEET MONDAY NIGHT

Meeting time of the Pampa Photo club was changed recently from Thursday night to Monday evening at 8 o'clock, the next one to be August 8, at which time an illustrated lecture, "Photographic Pictorialism," put out by a large photographic supply house will be put before the club.

The lecture will be given by a local man, illustrated by 60 lantern slides, part of them in full color, of such subjects as Prague, Czechoslovakia; a Chinese village, fireworks, character studies, sketches showing good and bad composition, seaside pictures, and showing work of famous photographers of the day. Pictures of the Purists, or f-64 group of which Edward Weston, winner of a Guggenheim Foundation award, is the leading exponent, and other classes of work are to be discussed including such photographers as Margaret Bourke-White, Steichen, Fred P. Peck, etc. The lecture was prepared by Dr. E. P. Wrightmann, Fellow of the Royal Photographic Society of Great Britain.

Interest is mounting rapidly in the club, and a large attendance is expected for the lecture. Everyone interested in photography whether a member of the club or not is invited.

Let anyone think that the meeting is tonight, the club at the last meeting decided to meet the second and fourth Mondays in each month, instead of every Thursday.

NEGRO CONVICT WILL PAY PENALTY FRIDAY

HUNTSVILLE, July 28 (AP)—Foble says, a Negro convict, will go to the electric chair early tomorrow with knowledge his death house statement saved another, at least temporarily, from the same fate.

Governor James V. Allred, on recommendation of the board of pardons and paroles, granted a reprieve until August 26, to Sam Cash, also sentenced to die tomorrow, convicted in the robbery-slaying of Paul Henig, Glenflore merchant.

Board members said Cash was absolved from any part in the slaying by a death house statement made by Grays, and they recommended a stay of Cash's execution for 30 days to completely investigate the statement.

DENISON PAPER MARKS FIFTIETH ANNIVERSARY

DENISON, July 28 (AP)—The Denison Herald marked a half century of continuous publication yesterday by publishing a four-section, 44-page golden jubilee edition.

Congratulatory messages were received by Publisher J. L. Greer from President Roosevelt, Vice-President Clegg, and prominent business and professional leaders.

The paper was founded when Denison was only a small village.

LATEST VERSION OF 'THE WORM TURNS'

DE KALB, Ill. (AP)—For a long time Clarence Bale's shepherd dog picked on the pet rabbit. But instead of scampering away the other day the rabbit turned on the dog, leaped upon his back, sunk its teeth into his shoulder and would not let go. Bale had to shoot the rabbit to pry it loose.

PRISON HEADS PROBE SLAYING OF CONVICT

HUNTSVILLE, July 28 (AP)—Authorities at Eastham prison farm investigated today the fatal stabbing of convict Robert Massey, 37.

Capt. J. P. Hamilton, in charge of the farm, reported to Huntsville officials that Massey was stabbed twice in the abdomen, yesterday. Serving life as an habitual criminal, last convicted from Harris, Navarro, and Limestone counties, Massey was held in the south wing of the farm dormitory where about 30 incorrigible convicts are kept. His official record showed punishment administered numerous times for such things as attempted

escape, cursing a guard, rioting and fighting. His home was listed variously as Houston and Galveston.

HIS COWS NOW GET MORE CUDS PER ACRE

ZENEA, Kans. (AP)—Clarence Beat, farmer, thinks he has discovered a way his cattle can "eat their cake and have it too."

The way, he said, is to contour furrow the range land. He plows deep ditches at intervals across the range on a level line, so that rain and snow water catch there and penetrate the soil instead of running off.

"After constructing furrows on a 78-acre pasture, the height of the grass increased even though more cattle used it for grazing," Beat said.

'BOSSISM' BOBS UP AS ISSUE IN MISSOURI

ST. LOUIS, July 28 (AP)—A battle between "the boss," T. J. Pendergast of Kansas City, and lean, firm-jawed Governor Lloyd C. Stark has overshadowed United States Senator Bennett Champ Clark's campaign for Democratic renomination in Missouri's primary next Tuesday. The prize in the Pendergast-Stark

fight—a Democratic intra-party struggle with no quarter asked or given—is a Supreme Court judgeship, but the office is just a convenient bone of bitter contention. The issues are far greater than the job.

Who will be the most potent force in Missouri's Democratic politics—Stark or Pendergast? Can Pendergast punish the governor, whom he helped elect to a 4-year term in 1936, or can Stark break Pendergast's political dominance?

The governor, stumping the state for Supreme Court Judge James M. Douglas, has demanded the party "purge itself of bossism."

In a "trifling statement," before he announced he would support Circuit Judge James V. Billings of Kennett for the Supreme Court, Pendergast accused Stark of politi-

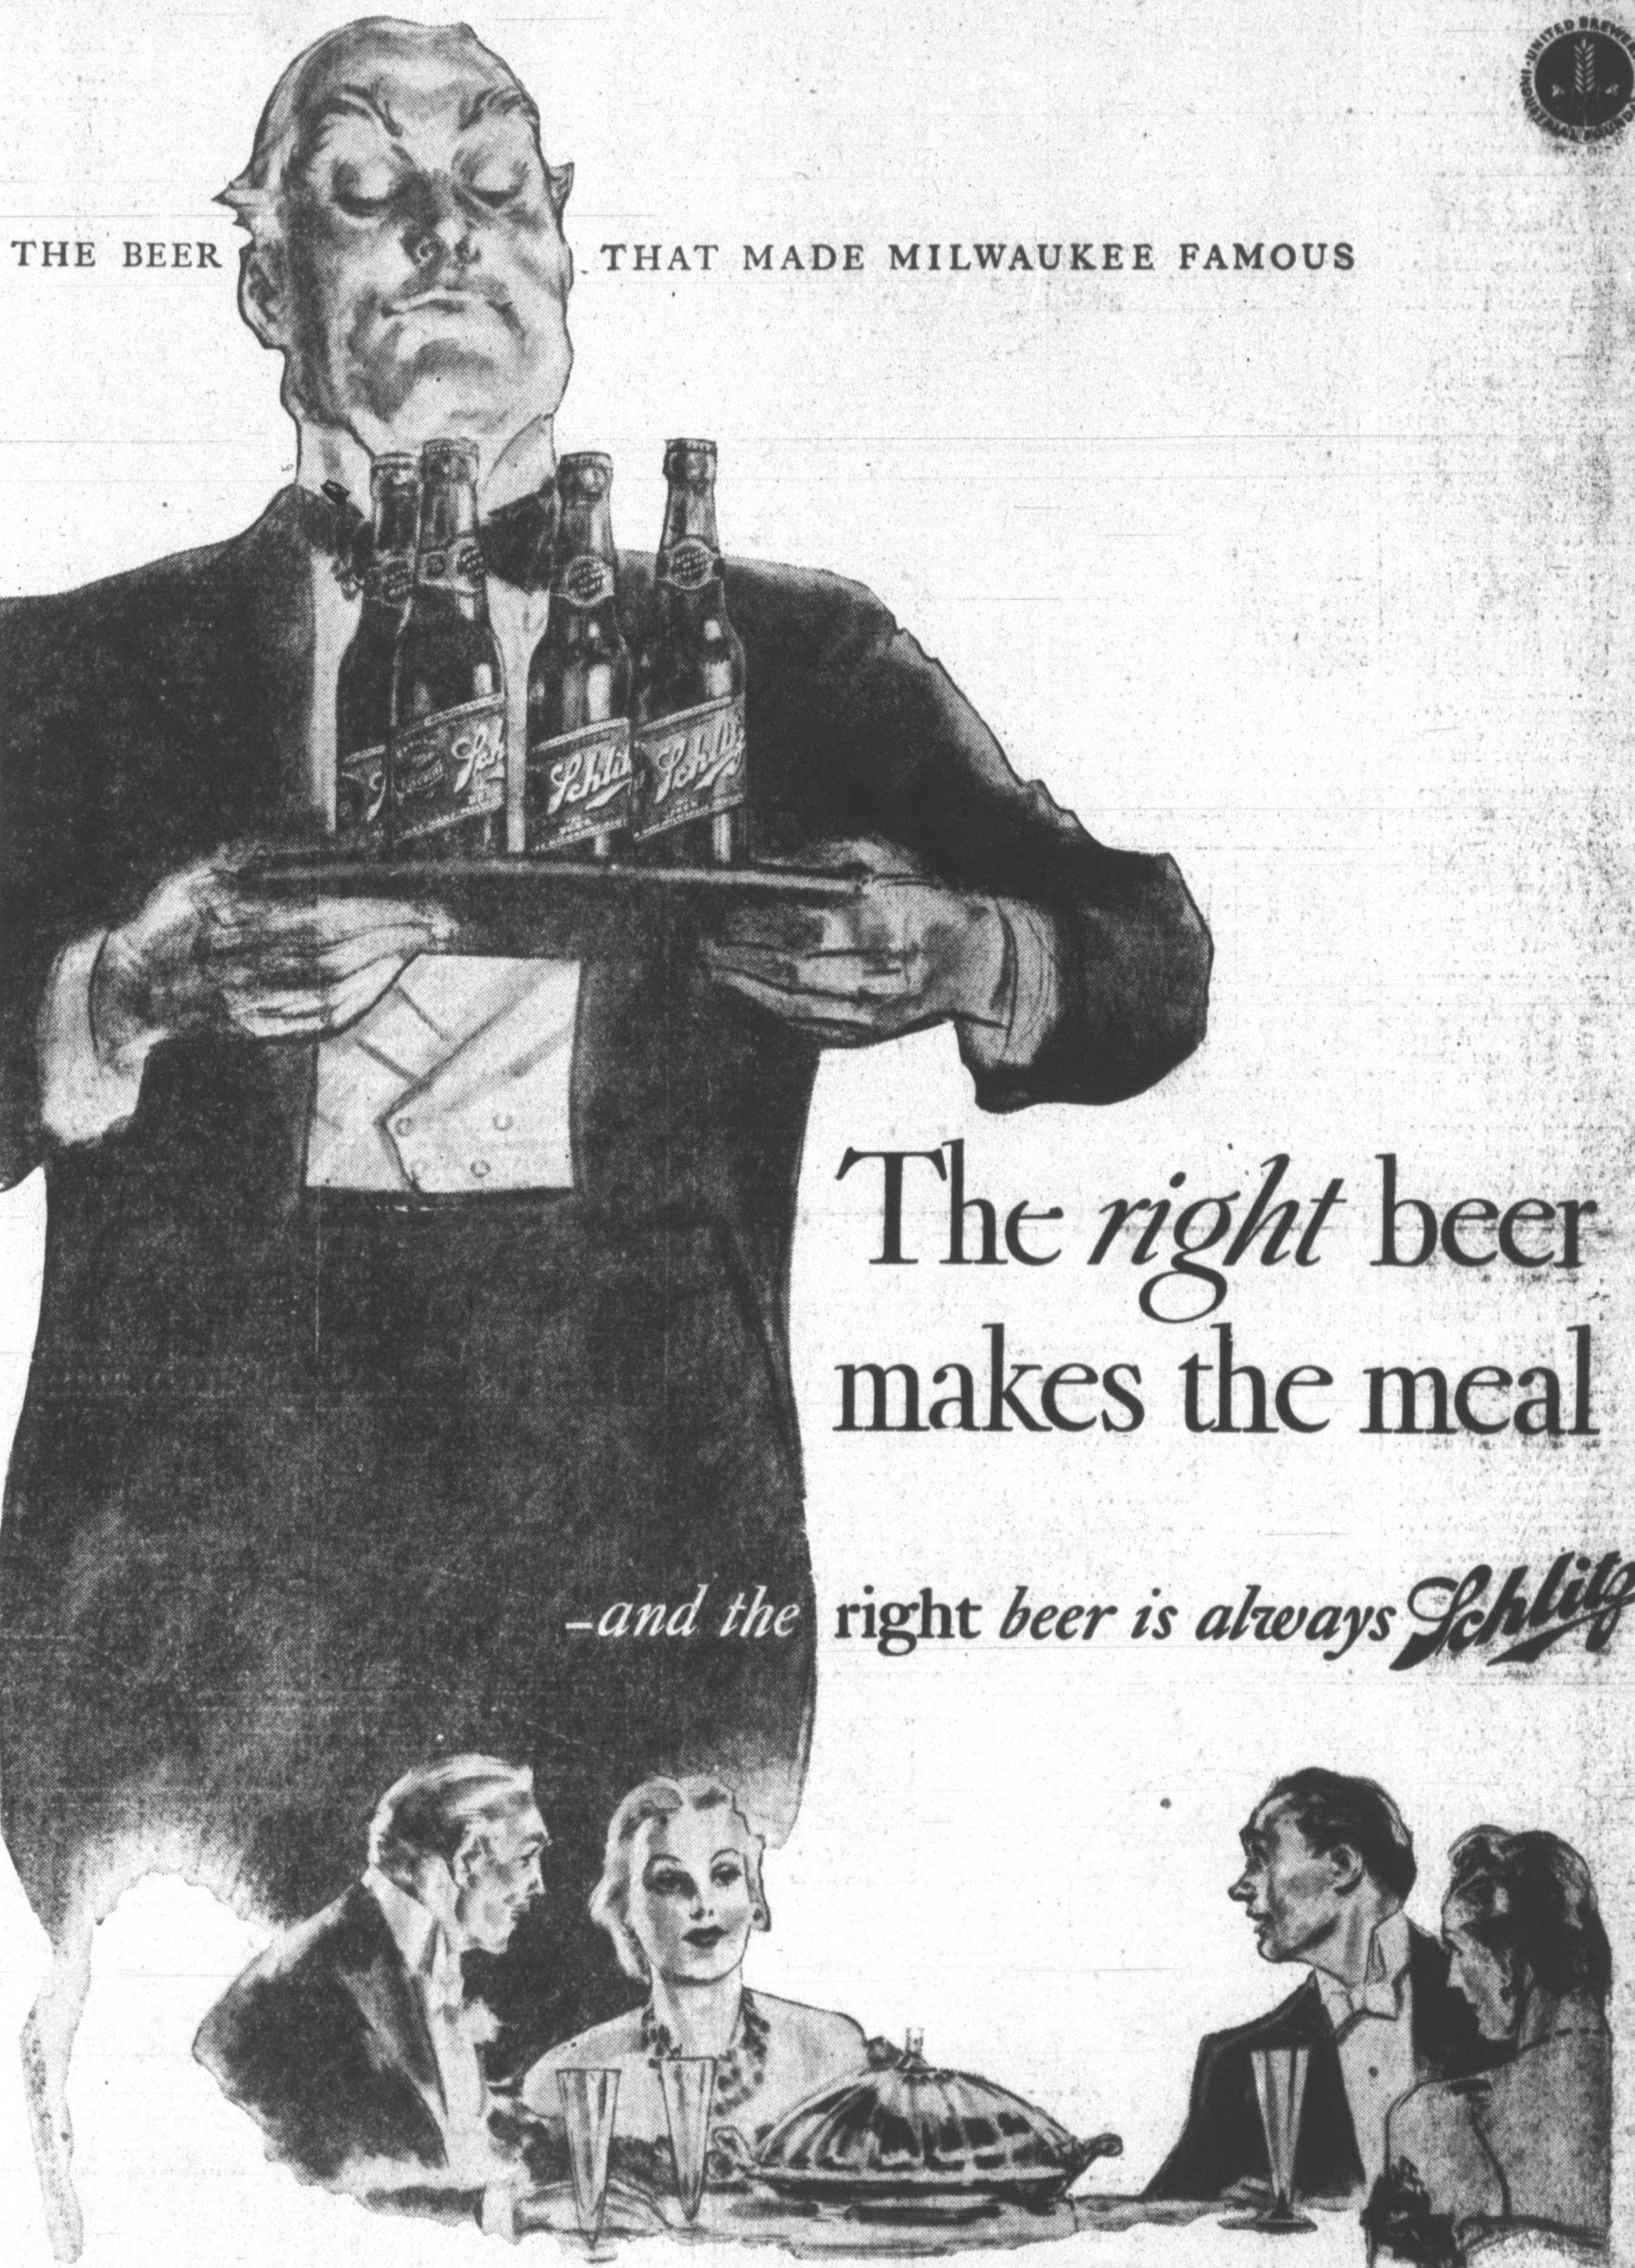

cal ingratitude in the matter of appointments. "If his conscience is clear, so is mine," Pendergast declared. "Let the river take its course."

Since then, Missouri's Democrats have been clinging to the boat in a wild ride on a flood of oratory. There have been as many as 100 campaign speeches a week.

Meanwhile, Senator Clark, leader of the fight against the President's court plan and the government reorganization bill, has waged a vigorous drive for renomination against three candidates, two of them avowed "100 per cent New Dealers."

In Nebraska, it is against the law to allow tumbleweeds, which blow around spreading seeds, to grow on a farm.

DANCIGER - KING, BARBERS AND JEWELERS SCHEDULED

GULF-COOPER, SKELLY OILERS LEAVE TOURNEY

Two of the best softball games of the city playoff were played at Recreation Park last night when Gray County Creamery eliminated the league leading Gulf-Cooper of Skellytown 6 to 3 from the City League division and Cities Service sent Skelly home with a 7 to 5 loss in an Industrial League fixture.

Tonight undefeated teams will clash when Danciger and King cross bats at 8:15 o'clock and Diamond Shop and Mack & Paul meet in the nightcap. Admission will be 10 cents for women and children and 15 cents for men. Plenty of seats are available for fans and cars will be allowed around the playing field.

Patrick and Dewey are scheduled to meet in a mound duel when the old rivals, King and Danciger, meet. The Diamond Shop is liable to send a new hurler to the mound against the Barber's Burleson or Prock.

Gray County Creamery was unable to break into the scoring until the fourth inning when they slipped four runs across. They added two more in the sixth to clinch matters. Gray and Boyington helped the cause with home runs.

The Gulf-Cooper boys scored one in the second and added two in the fifth.

Cary and Barfield divided hurling assignment for the Creamerymen with Stansell the losing hurler.

Score by innings:
Gulf-Cooper 001 020 0-3 5 4
Gray Co. Creamery 000 040 x-6 9 2
Batteries: Creamery, Barfield, Cary and Dickinson; Gulf-Cooper, Stansell and Jordan.

Staying off a last inning rally during which Wapp hit for the circuit with two men on base, Cities Service clung to their lead to send Skelly home. The game was well played after the first inning when Cities Service sent four runs across the plate.

Campbell went the distance for the Gassers opposed by Mayo, Morgan, Gasser catcher, hit a triple.

Both teams played ball better than against respective opposition the previous night.

Score by innings:
Cities Service 410 020 0-7 13 3
Skelly 010 001 3-5 8 3
Batteries: Cities Service, Campbell and Morgan; Skelly, Mayo and Johnson.

Semi-final games will be staged tomorrow night when Gray County Creamery meets the loser of the Diamond Shop-Mack & Paul game of tonight at 8:15 o'clock. Cities Service will battle the losers of the Danciger-King game of tonight at 9:30 o'clock tomorrow night. The final game before the inter-league playoff which starts Tuesday night will be played off Monday night, no games being scheduled for Saturday night.

BEAUMONT AND ROWE DEFEAT OKLAHOMA CITY

(By The Associated Press)

Lynwood (Schoolboy) Rowe and his Beaumont Exporter teammates, as hot as Texas' midsummer weather, slashed their way to further security at the top of the Texas League yesterday with a 5-1 victory over Oklahoma City's Indians in a series opener.

For the schoolboy the full nine innings during which he kept nine hits well scattered, issued only one pass, and struck out two, shows a happy absence of the ailment which shunted him from his place with Detroit's Tigers to the minors.

He bore down mightily with men on base and his inspired mates slapped the Indians' ace, Ash Hillin, and Wilkey Moore, who succeeded him, for an even dozen blows, effectively bunched, to take the tenth victory in their last eleven starts.

It was the first game in which Rowe had gone the route since he came to the Texas League.

San Antonio's Missions added the Exporter cause with a 5-1 decision last night over Tulsa in which the Missions' Bill Trotter won his sixteenth victory of the season at the expense of Max Thomas.

Nor were pitching laurels confined to Rowe and Trotter. Morton Cooper of Houston turned in his third consecutive shut-out as he blanked the Fort Worth Cats 6-0 in a series opener.

Fourteen Cat batters went down swinging as the Buffs' righthander ran his total of strikeouts for the season to 176, well ahead of other league hurlers.

The Shreveport Sports edged out the Dallas Steers 9-8.

Where they play today:
Oklahoma City at Beaumont (day).
Dallas at Shreveport.
Fort Worth at Houston.
Tulsa at San Antonio.

Nippon's Niftiest Netter Warms Up

Jiro Yamagishi polishes up his backhand at the West Side Tennis Club, Forest Hills, L. I., in preparation for Japan's North American zone Davis Cup matches with Canada in Montreal, Aug. 29-31. Yamagishi has been singles champion of Nippon for three years.

CEMENTERS AND HUBER MEET IN DENVER TOURNEY TONIGHT

Baptists Down Legion Juniors

The Knights of Columbus junior softball team continued its undefeated march with a 19 to 6 win over the V. F. W. juniors in their last league game while the Baptists chalked up a 27 to 9 win over the American Legion juniors.

The Knights, however, became overconfident in an exhibition game last night and let the Pampa Sluggers, girls team, beat them.

Stone and Cooper hurled the Knights to their win with Redman behind the plate. Nelson and Cox was the losing battery.

Fletcher hurled the Baptists to victory with Ward behind the plate. Quam and Dunham was the losing battery.

St. Paul Open To Draw Sneed

ST. PAUL, July 28 (AP)—Slammin' Sam Sneed, the season's top blue ship golfer, will be out to fatten his bank roll Friday when about 250 of the nation's leading club swingers start after the St. Paul open prize money.

The 72-hole medal event lists \$7,500 prizes, with \$1,600 for first place. Sneed, defending champion of the tournament and the year's leading money winner, appeared the man to beat, although no one is overlooking Harry Cooper of Chicago, who has won the meet three of the eight times it has been held, to take a total of \$8,347.

Tigers Continue To Lead League

(By The Associated Press)
Marshall's Tigers increased their leadership of the East Texas league over Texarkana's Liners to three games last night while their right handed curve ball ace, Jack Van Orsdol, tucked his 16th straight victory of the season under his belt by shutting out the Liners 4-0.

Late rallies which netted eight runs brought a 12-9 win for Henderson over Kilgore. Tyler's clash with Longview was a mound duel, won by big Harry Boyles as Tyler emerged on top 2-1.

Jacksonville made hits count in the pinches to down Palestine 3-1. All games were series openers.

Where they play today:
Dallas at Shreveport.
Fort Worth at Houston.
Tulsa at San Antonio.

THAT "GENERAL FEELING" AGAIN

The recent improvement in security values, after many months of disheartening declines, has been received with mixed sentiment. Under normal conditions, the gains wouldn't be regarded as the start of an upward cycle. But under the abnormal conditions prevailing today, there is a strong and well-grounded fear that the gains will be merely temporary, and that they constitute only a flurry of no real significance.

In other words, what the country lacks today is confidence. That "general feeling" of uncertainty and worry is just as strong as it ever was, and perhaps stronger. Millions of people act much as if they were living above a volcano that might erupt at any moment. There is no stability. And to say that this sentiment is unjustified, as some of the politicians do, is claptrap.

The tax problem has barely been touched. The national debt, in spite of past promises to reduce it, soars to a new record after new record. More labor troubles are imminent. The government, instead of encouraging productive private business, has continued with its inimical policies, and it threatens to go further into business on its own hook, at the expense of existing private investments. The chaotic political situation is a thorn in the side of industry and investment.

No one expects such problems as these to be solved at once. But if an honest start were made to deal with them, there would be an amazing restoration of confidence. If government actually cooperated with business; if government put into effect a plan for gradually reducing the debt; if government gave the investor assurance his savings would not be destroyed by government itself, we would be on the way to stability. And then improvement in security values or in industrial production or in other economic matters, would be greeted with faith and optimism, investment of capital and "real" jobs.

COUNTRY PRESS CONDEMNNS

The National Editorial Association, meeting in convention at White Sulphur Springs, West Virginia, adopted a resolution of nation-wide importance concerning punitive legislation affecting business. The resolution reads:

"Whereas, there has been a tendency both at Washington and at the capitals of many states for legislative measures to be introduced and sponsored which are discriminatory and punitive in their application, and

"Whereas, there is considerable fear and hesitation among business men because of the uncertainties arising from such a tendency, and

"Whereas, we believe it the duty of the Congress of the United States and our state legislatures, in view of unemployment, and other distressed conditions and uncertainty among business leaders, to encourage, aid and assist business rather than take any action through discriminatory and punitive taxes which, in our opinion, would further retard commerce and would tend to increase living costs, therefore, be it

"Resolved that the National Editorial Association goes on record as opposing such legislative enactments, and

"We further recommend that the board of directors be requested to dispatch a copy of the above action duly signed by its officers to the members of any legislative committee at Washington or at any state capital at such time when united action by the non-metropolitan weekly and daily papers of America is deemed, in the board's judgment, to be prudent."

That resolution, coming from the country press of America, is highly encouraging. These newspapers have become more and more concerned with legislation and taxation which unfairly penalizes business. And the majority of editors have come to the sound conclusion that all such laws and class taxes are indefensible in a democratic country.

Behind the Scenes in Washington

By RODNEY DUTCHER

Pampa Daily News Washington Correspondent

WASHINGTON, July 28.—The political primary season gets started in a big way during the first week of August and thereafter the withered aspirations of New Deal and anti-New Deal candidates will be found dotting the landscape from coast to coast.

Kansas, Missouri, Virginia, and West Virginia nominate congressional and other party candidates August 2. Tennessee Democrats pick equivalent-to-election candidates for senator and governor August 4. The week ends August with the great Democratic classic in Kentucky between the New Deal's "Dear Alben" Barkley and Governor "Happy" Chandler. Here are the high spots: Senator Clark

Sure Shot

Missouri: Senator Bennett Champ Clark, sturdy New Deal foe, and 1940 presidential possibility, has been conceded Democratic renomination and election for many weeks. Roosevelt left this one alone.

Former Speaker Willis Meredith of the Missouri house, "praised by a Roosevelt rubber stamp," and Joe Davis, St. Louis lawyer, may pop a big pro-Roosevelt protest vote against Clark.

But Clark has all the organized political support in the state, including that of the Pendergast machine. He profits from friendship of Jim Farley, who made public appearances with Clark when the latter stumped the state after leading the anti-Court plan fight in the senate last year. New Dealers could find no candidate to take

Clark's measure after popular Charlie Hay, railroad labor lawyer and one of his 1932 opponents, refused to run.

Branded by opponents as a "renegade Democrat," Clark tells voters he won't be bossed but approves most New Deal policies.

Republicans, many of whom will vote for Clark both August and November, are nominating former Governor Henry Caulfield. Meanwhile, Democratic Governor Stark and Boss Tom Pendergast fight for control of the state in a contest over a Supreme Court judgeship with Stark charging WPA is taking the tar out of the Pendergast machine. William Dodd, Jr., seeks office

Virginia: Congressman Howard Smith of the Eighth district, adjacent to Washington, is first of three members of the House Rules committee which tried to bury the anti-New Deal bill—marked for defeat by New Dealers and labor leaders.

His opponent is young William E. Dodd, Jr., son of the former ambassador to Germany, running on a 100 per cent Roosevelt platform and accusing Smith of opposing a Roosevelt rubber stamp.

Kansas: Senator George McGill, loyal New Dealer, and Democratic Governor W. A. Huxman will be renominated. Big fight is for Republican senatorial nomination between former Governor Clyde Reed, a progressive at odds with the London-

Texas Topics

They really have me behind the eight-ball for a couple of weeks here at the office. . . I never realize until I take over his work and add it onto mine (if any) just how much of a picnic the city editor has on his job. . . That happens two weeks out of the year when he goes on vacation. . . That's where he is, now. . . Down in Mexico hunting for Leon Trotsky. . . Here's hoping he finds him and hurries home. . . Before he left the city editor promised to send us an interview with Trotsky, which puts him behind the eight-ball, too.

Nobody likes everybody. . . Because the city editor is away, we can say out loud, now, that we get complaints that his Roving Reporter stories grow irksome at times. . . And, then there are those who have phoned in to say that they miss his R. R. stories while he's gone. . . Likewise they miss "People You Know." . . Now, I couldn't begin to fill his shoes writing that column, so I just lay off. . . I am sure he wouldn't wish me to mess it up for him during his absence. . . I can mess up enough other things without getting into poetic prose.

People who live in glass houses should not throw stones, they say. . . By the same token, girls who wear knee-top dresses should not stand on windy comets, according to One-Round Haircut, our White Deer correspondent. . . Well, well, everything comes to the fellow who waits, providing he waits long enough. . . On the telephone just now was none other than Dr. V. E. von Brunow with news that he is sending by messenger this very minute a big trout, snatched from a mountain stream up around Eagle Nest, N. M. . . It reminds me of the good old days last winter when the good folk were keeping me in buffalo, deer and bear meat. . . My, my how I do love trout, done right.

There hasn't been a good spy revelation for weeks now. Do you suppose the rascals have taken to working under cover? . . . Aerial Playboy Jimmy Molison announces he is going back to taking flying seriously. Never mind, Corrigan, he's probably just trying to be different. . . A west coast woman who lost her voice a year ago suddenly recovered it the other day. A cynic guessed that her first words were: "Now where was I . . . ?"

Describing the process involved in making the new Jefferson nickel, a mint official explains it takes about three weeks to make a master die. But his ideals, he should have added, live forever.

Yesteryear in Pampa

TEN YEARS AGO TODAY
Pampa's new flash system telephone exchange was "cut over" and five seconds later a member of the Daily News staff "got central" by raising the receiver.

Probable election of Ivy E. Duncan for county judge was a high point in the Democratic primary returns for Gray county when 1,150 votes out of nearly 2,000 cast in Pampa had been counted.

FIVE YEARS AGO TODAY
Byre Sanders, manager of the Piggy Wiggly store, had completed the remodeling of the entire store.

Fathers of tennis players in the city and surrounding oil fields and players themselves were to meet to complete arrangements for the city tennis tournament.

Other Editors Say:

150-YEAR SPANS

(From the Des Moines Tribune)

Most readers will recall that we have just recently passed the sesquicentennial celebration of the Constitution. Perhaps it is that event which started the prophesying in 150-year periods.

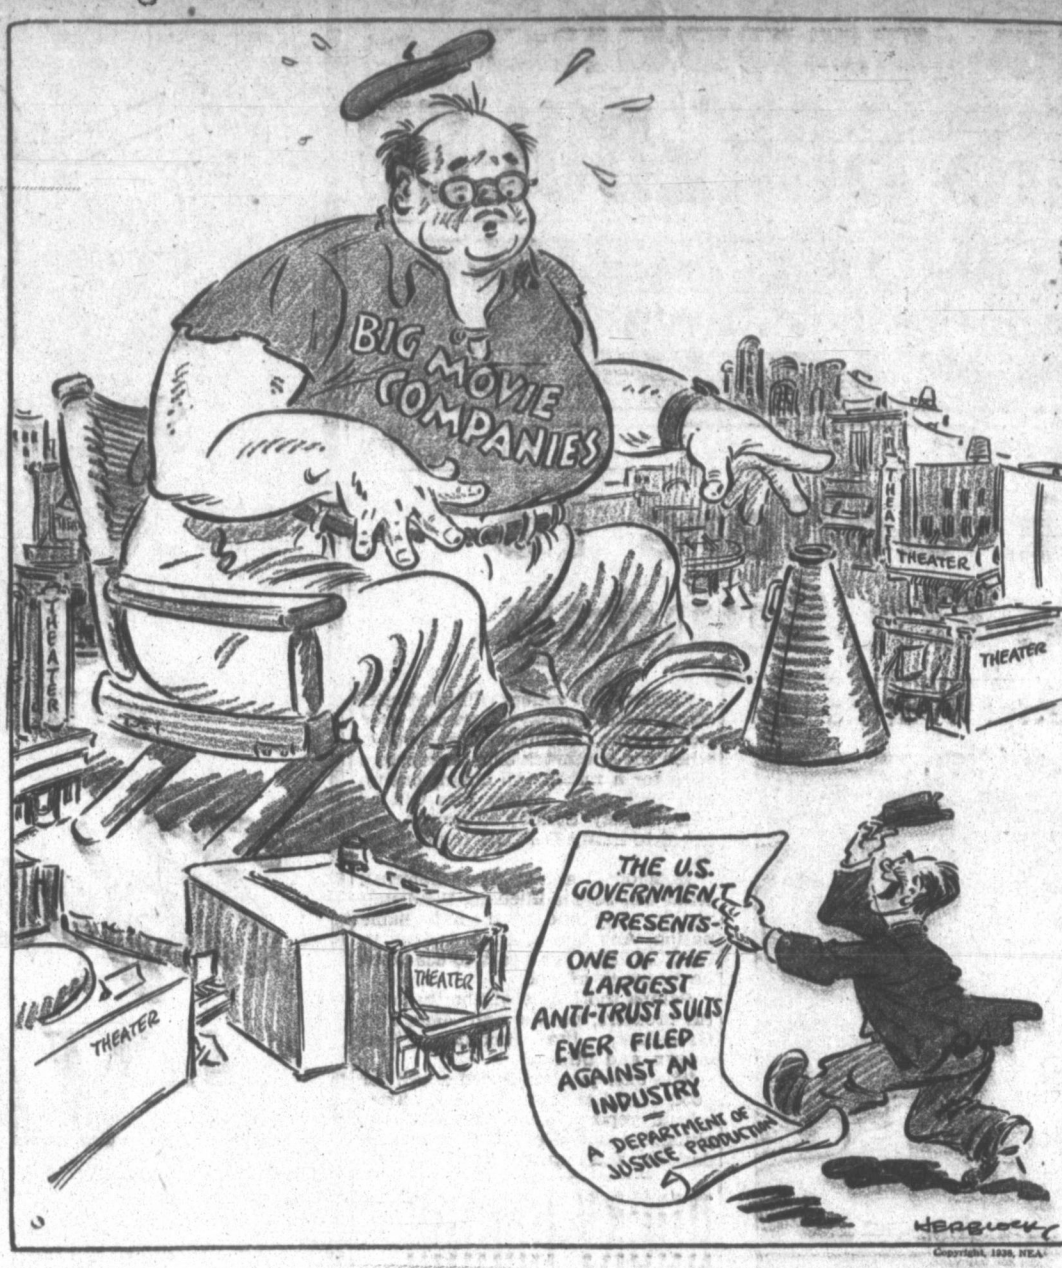

A critic of the Supreme Court speaking in Philadelphia finds it is inconceivable that in 150 years "judges will be prattling the myths which judges genuflect to now."

And in New York City, a leading neurologist says that the seat of the emotions is in the hypothalamus or mid-brain, and that in 150 years physicians "may be able to pull the switch."

None of us will be here 150 years from now to see love and hate released by throwing a switch, or Supreme Court judges genuflecting.

But if all the 150-year-old prophecies and enterprises of today do as well as the job started a little more than 150 years ago in Philadelphia by the drafters of the Constitution, they may be congratulated in advance.

Silence! Lights! Camera!

Around Hollywood

(Carey Wilson, Metro-Goldwyn-Mayer writer, today pens a column for Robin Coons, who is on vacation.)

By CAREY WILSON

HOLLYWOOD.—They call Hollywood "The City of Make-believe" and I admit that most of the phantasmagoric figures that flash across your silver screens are conceived in imagination and born of metaphoric parents. But there is a celluloid fable—or rather a series of fables—concocted entirely out of reality.

The Judge Hardy series of pictures is tailored to a single and iron-clad premise: "If it hasn't happened to you or someone you know, we can't use it in the Hardy Series!"

If, as audiences seem to be saying throughout the world, a Judge Hardy picture is true to life, the public dictum has arisen out of this studio law. If it hasn't happened to you, or someone you know, we can't use it!

Aurania Rouverol, playwright-author of "Skidding" which, as "A Family Affair," started all this Hardy business, freely admits that her characters were dramatic paraphrases of her own family. Kay Van Riper, Agnes Christine Johnson, Bill Ludwig—all contributors to Hardy scenarios—will not deny that they use their memories rather than their imaginations in their Hardy efforts. And not a few of the amazing adventures of young Mickey Rooney as Andy Hardy bring now-humorous but then-bitter memories of a small boy named Carey Wilson in the town of Rutherford, New Jersey.

So it is that the Hardy stories are never written—they "just grow." Like the immortal Topsy. Anybody on the Metro-Goldwyn-Mayer lot may pop up at any time with a valuable suggestion. And it's never put in the form of a suggestion like "I just thought up a swell idea for the Hardy Pictures." No, it's inevitably something like "I remember that happened to my kid brother back in Kansas." And a surprising number of these impromptu suggestions are immediately seized on as appropriate and valuable.

There must be a dozen prototypes in the studio organization for each member of the Hardy family—mothers who have growing daughters like Marian Hardy, and fathers who have adolescent sons like Andy; boys just out of their teens, to whom come readily the recent occasions of the schoolboy adventures and romances; and many a father who like Judge Hardy himself, has both young son and a daughter. Like me.

Thus it is that through the walls enclosing a Hardy story conference, are liable to leak phrases indeed for movie conferences: "Listen! When my dad first caught me smoking a cigarette, he whaled me a lot of times; my 18-year-old daughter has never gone out with a boy yet!"

But these disagreements are only a matter of degree. For we found that in the long run what happens to a 16-year-old boy in Rutherford, New Jersey, is pretty much the same as what happened to his prototype in Winona, Wisconsin.

LEAVES OUT THE KNOTS
CLEMSON COLLEGE, S. C. (AP)—It takes no longer to grow a pine tree free of knots in its trunk than it does one filled with knot holes. Therefore, D. R. Brewster, extension forester, is advising timbermen to prune their pine trees and produce clear lumber which sells for about twice as much as the knotty kind.

What the contributors, and those who proclaim that competition would lower wages, forget, is that competition for work among employers raises wages when wages get low enough that there is a reasonable chance of profit in hiring labor.

It is a bit ironic that an intellectual exile from Nazi Germany should point the way to a re-examination and appreciation of the American dream, but that is just what Thomas Mann has done in "The Coming Victory of Democracy" (Knopf). And a more brilliant essay you will not find in a long time than this reprint of the lecture he delivered recently in the United States.

Mann holds implicit faith in the ultimate triumph of democracy over fascism because of its unlimited powers of self-renewal, and, more important, because it is a form of government which is inspired with the feeling and the consciousness of the dignity of man. Fascism, he is emphatic, is thoroughly false. But it does command action and novelty. Hence its attraction.

So we must not disillusion ourselves about the future of our American democracy, Mann warns. For if we want its ultimate victory, we must keep it working. And to keep democracy working we must adjust it to reforms of the times. We can no longer preserve freedom by merely talking about it.

Mann means social reform, of course, for only in this way, he

Sharing the Comforts Of Life . . .

By R. C. HOILES

COMPETITIVE WAGES RAISE WAGES

A contributor writes "If we should repeal all labor laws, scrap the labor unions and stop all relief spending of the government and reestablish the rule of 'dog eat dog' i.e., unrestricted competition, it would not be six months until common labor again would be reduced to a dollar a day and skilled labor to two dollars a day."

The writer believes the great majority of people believe the above statement to be correct. The writer, however, does not believe it would work out that way, especially if taxes were taken off income resulting from production.

The reason why it should not work out that way is that if we return to the competitive system and with the use of modern machinery, labor can now produce so much more than one or two dollars in a day that there would be so much profit in hiring labor that there would be great competition among employers to secure the laborers. This bidding between employers would run the price up. And if all labor went to work producing the comforts of life things would become so plentiful that labor could then live as they never lived or ever will live when things are restricted by monopolistic wages and prices.

When the contributor worked for eleven cents an hour there was not then the modern equipment that there is now to enable the laborer to produce an hour's work as he is now able to produce.

It must be remembered that labor unions or labor laws never produced a single bit of wealth but they have prevented billions of dollars worth of wealth from being produced. This thus retards the accumulation of tools and compels the workers to receive less for their work than they would receive if production were not retarded by union labor laws and things were produced more abundantly.

What the contributors, and those who proclaim that competition would lower wages, forget, is that competition for work among employers raises wages when wages get low enough that there is a reasonable chance of profit in hiring labor.

Thus it is that through the walls enclosing a Hardy story conference, are liable to leak phrases indeed for movie conferences: "Listen! When my dad first caught me smoking a cigarette, he whaled me a lot of times; my 18-year-old daughter has never gone out with a boy yet!"

How's Your Health?

By IAGO GALDSTON, M. D.

II—HAY FEVER'S TREATMENT

The sufferer from hay fever may benefit by observing the following precautions. Avoid exposure to dusts of every kind, to pollens in general, and to the pollens responsible for the hay fever, in particular.

The pollens which cause hay fever are air-borne. Anything that accelerates the flow of air currents about the hay fever individual increases his exposure to pollen. Hence, the hay fever victim should "move" slowly. Walking is better than riding and slow riding is better than speeding.

Do not overheat or chill the body. Exercise moderately. Avoid excitement and all forms of emotional disturbances.

Be extremely cautious in the use of remedies not prescribed especially for you by your physician. Many of the so-called treatments for the relief of hay fever contain adrenalin and other blood vessel

to remark, "Aw, rats, Herman, you just quit when you get near the finish."

The athletic training, as explained by institute officials, is one of the most important parts of the curriculum. As one put it:

"Blind children, sheltered and possibly pampered by sympathetic parents, sometimes are not permitted to develop properly physically. They do not get the exercise necessary to every normal, growing child. Thus, when they come here, they are occasionally in poor physical condition."

Carefully administered doses of exercise soon strengthen their weakened bodies and competitive play, in which they use all their muscles, does wonders for them.

In addition, sports give them a brightened outlook on life and permit them to participate normally, as other children do, among competitors who are similarly handicapped.

For an interesting sidelight on adult standards of morality in this country, consider the case of Robert Greenless Pearson, who last month was graduated from the University of Kansas.

Pearson is a crack student, but he failed election to Phi Beta Kappa, the honorary high-scholarship fraternity, because he wrote a magazine article admitting that he had been ghost-writing for lazy or unbrilliant students who couldn't pass their exams without help.

In his magazine article, Pearson told how he furnished papers for a large number of students, some of them at other colleges. He did a good job of it, too, guaranteeing his clients that no work bought from him would receive lower than a "B" grade.

"The moral and ethical standing of my occupation has not yet been carefully worked out," he wrote "mainly because my occupation is not supposed to exist. I am one of a widespread and increasing body of campus ghost-writers, students making money for themselves by pounding out papers for those who are willing to pay for them."

All of this may look like a problem in campus morality, not adult morality. But the adult world is seldom original, in matters like this, and it must be pointed out that the ghost-writer was invented and made a prominent part of our

American scheme of things by full-grown men, not by college boys.

The practice apparently began harmlessly enough, some years ago, when professional athletes were persuaded to indite their memoirs or their comments on the passing scene for newspaper and magazine readers. Not one champion in a dozen could do much more than write his own name, but skilled writers were furnished to do the work; and before long the ghost-writer was a familiar part of the world of professional sport.

Then the practice was picked up by loftier people.

Politicians discovered that it was simpler to hire some bright young man to write a speech than to write it one's self. Even Presidents have been known to hire ghostwriters. Captains of industry did likewise. Explorers fell into line; movie stars went for the gag. And so, presently, the ghost writer became an essential figure in American life.

Which brings us back at last to our colleague.

If what he did was wrong, the whole business of ghost-writing has a flaw in it somewhere. He merely copied his elders, and lived in the kind of life they were living in the actual world. As if any stones are to be cast at him, the flinging ought to be done by people who are themselves reasonably free from the kind of sin.

YOU AND YOUR Nation's Affairs Are Church Gifts Tax-Exempt?

By HARLEY L. LUTZ
Professor of Public Finance, Princeton University

The Revenue Act of 1934 introduced a significant limitation on the exemption from income tax or estate tax, respectively, on account of contributions to non-profit, organizations serving charitable, religious, educational or other well-defined public purposes. The amendment of 1934 denied exemption in the case of a gift to any such organization, if a substantial part of its activities consisted of "carrying on propaganda, or otherwise attempting, to influence legislation."

The authors of the statutory change were presumably seeking to curb lobbying, and the implication of the language used in both the income and the estate tax laws is that churches, colleges, endowed hospitals, community chests and the like have entered the lobbying field. While a distinction is implied between propaganda and other ways of attempting to influence legislation, no use is made of this implicit distinction to define a tax procedure which might apply to improper, but not to proper, methods of influencing legislation.

From one point of view, the introduction of such a provision in the tax laws is a confession of the weakness of the flesh. Congressmen have a recognized susceptibility to suggestion, influence, and even to education; and their attitude toward legislative proposals has frequently been molded by persuasion. The law does not forbid educational and other contacts between the citizens and their representatives in Congress. It aims at discouraging such contacts by denying the educational and other contacts their money to institutions that engage too actively in educating, and otherwise influencing, the lawmakers.

It is superficial, though pertinent, to suggest that the purity of the legislative process might be more certainly assured by a nationwide endeavor to elect to Congress persons with a demonstrably higher resistance to the lure of these external influences. The real issue involved is more fundamental. It is the question of when and under what circumstances an effort to influence legislation becomes so improper as to transform entirely the character and purpose of a religious or charitable organization, and thus to justify the refusal of exemption for contributions made to such undertakings.

For example, much of the activity of any religious body is directed to influence legislation. Many of the organizations are actively engaged in promoting laws to prevent gambling, vice, drunkenness, and other practices which the deem immoral. They do this openly, by preaching, by missionary activity, by exhorting members to send telegrams and letters to Congressmen. Under any fair interpretation of the language used in this tax law, it would be difficult to exonerate any religious group from the charge of attempting to influence legislation. Hence, would be difficult to justify the exemption of gifts to the churches.

Actually, however, no question has been raised on this point. The key to the interpretation of this part of the law is set by a different test: It is the test of whether or not the organization involved is for or against the particular legislation of the past five years. Thus, if an educational organization should criticize the tax laws, it will lose its status as an educational and civic corporation. If it should defend these same tax laws, nothing happens, although on attitude is as clear a case of influencing legislation as the other. The moral is that if individuals desire to obtain tax exemption of contributions under either the income or the estate tax, they must be careful to select, as a beneficiary, an organization which will defend, and not attack, the New Deal.

From one point of view, the introduction of such a provision in the tax laws is a confession of the weakness of the flesh. Congressmen have a recognized susceptibility to suggestion, influence, and even to education; and their attitude toward legislative proposals has frequently been molded by persuasion. The law does not forbid educational and other contacts between the citizens and their representatives in Congress. SERIAL STORY MYSTERY AT THE LAZY R BY CLARKE NEWLON

COPYRIGHT, 1938
NEA SERVICE, INC.

CAST OF CHARACTERS
Nikki Jerome, heroine, is a blonde, popular, engaged to a fellow student.
Steve Mallory, hero, who is a blonde, is a fellow student.
Nikki's aunt and uncle on a Wyoming dude ranch. Nikki's father, Mr. Jerome, is a wealthy New York Jew merchant.

Yesterday, Nikki and her uncle and Steve are to take a mountain trip and Steve, Bancroft and Fiske decide to go too!

CHAPTER VII

They took the trail just as the sun broke in dawn and sent its first warming rays into the mist that formed a soft, white cloak over the hills toward which they rode in pairs, conversing and adjusting their bodies to the gaits of the fast-walking animals.

Nikki rode with Steve and realized, in the grandeur of the breaking dawn, that she loved this man very much and that she was being distinctly unfair to him. Anything might happen on this trip, she thought, and decided to tell Steve about Bancroft and the money at the first opportunity. In the meantime she rode beside him in silence and told him with her eyes that she loved him greatly.

Long before they stopped to eat the sandwiches that had been prepared and to boil coffee over a tiny fire, the trail started upward and became more and more rocky. Once they crossed a dry river bed that was a tremendous trail of boulders walled in on either side by cliffs along which the seams and formations traced irregular patterns.

Their pause for lunch was brief for Uncle Jim wanted to reach the cabin before dark and the worst of the trail lay yet ahead. As they started out again he arranged them in single file and warned each rider against trying to pass another as of getting too close on the trail.

Rance led the way, followed by Nikki, Uncle Jim, Fiske, Sarto, Steve, Bancroft, and Woody, who brought up the rear to keep any of the little party from straggling too far back.

The tip appeared to be a hard-ship for Sarto alone. He was distinctly not an outdoor man and nature to him meant taking a taxi through Central Park—when it was the shortest route to his destination. He clung to his saddle as the trail narrowed and hunched disconsolately in his seat, scowling silently. The pack trip was obviously not of his choosing.

The trail wound along the side of a cliff, tortuous and rocky.

On the inside rose the sheer walls of stone, washed clean by centuries of mountain storms, marked with the oddly colored lines of capricious reds and blacks against the brown. On the other side, along most of the slender path, the mountain sloped off steeply but not dangerously. A daring horseman could have ridden down the side had he chosen. It was dotted with clumps of low-growing bushes and trees that clustered courageously in the soil around the boulders.

But in spots the violent torrents of the spring thaws had burst over the trail and rushed down the mountain side in foaming white cascades, stripping the slope of its bushes, stunted trees, and boulders, transforming the decline into a sudden, breath-taking drop that might be 50 or might be 200 feet straight down before the break ended in a rough bed of granite.

They had been on that upward trail several hours when it happened. Nikki was watching her horse stepping carefully at the heels of Rance's mount. Behind her Uncle Jim hummed a monotonous little song and paid small attention to a trail that was long familiar to him.

Behind her uncle came Fiske, quiet and observant, and back of him rode the glowering Sarto. They were passing one of the sections of the trail narrowed by the snow-laden torrents and the path hung precipitously over awesome nothingness on the right. There wasn't over 20 feet of danger and then the trail widened and fell off into gradual sloping ground again.

Nikki heard a sudden frightened yell and turned to see Sarto's horse plunging forward, hugging the inner wall. Sarto clung to the pommel, his head ducked forward into the steed's mane.

The quick lunge carried Sarto's horse crowding between the wall and the mare ridden by Fiske. The mare fought desperately for balance. Her iron-shod hoofs struck sparks as she slipped on the edge of the trail.

"Throw yourself off," shouted Uncle Jim, twisting in his saddle, helpless to aid.

There was only an instant as the mare hung on the brink. Fiske leaned desperately to throw his weight inward. Sarto's horse surged forward again in frightened leaps and broke through. Steve, riding directly behind Sarto, reined in his horse abruptly at Sarto's unexpected lunge. He could see the quick, deadly drop off the trail, the narrow path upon which two horses could not stand

side by side. He could see just ahead the safety of the sloping mountain with its dotting shrubs and small trees.

That safety lay a bare seven feet ahead of Fiske.

The final plunge of Sarto's horse thrust Fiske's mare far out on the edge. One hind foot slipped over and pawed into the thin air. She fought and lost the battle for balance.

Then Steve moved. With the sudden skill of years of polo playing, he turned his horse to the outside of the trail. He leaned forward and brought his flat hand down brutally hard on his mount's rump.

His horse bounded forward and struck Fiske's mare almost as she slipped off the trail. The momentum of the blow carried the mare forward and in. She was safe. So was Fiske. But the motor, three Steve's horse to the outer edge, fighting for footing on the last few feet of the trail which overhung the precipice.

STEVE lost his balance and plunged over his mount's shoulder, but the force of the fall carried him past the precipice. He grabbed a clump of bushes as he slipped downward and clung on desperately. His horse scrambled forward, lost its footing, rolled over twice and finally stopped against a tree, got up and shook itself vigorously.

Uncle Jim was off his horse by that time with a rope in his hand. He tossed the noose down to Steve, snubbed the other end around his saddle horn.

"Slip it over your arms," he shouted, and Steve managed to find footing long enough to get the noose over his head and shoulders. Rance and Uncle Jim hauled him back up.

Sarto still sat his horse sullenly. Fiske was leaning against the wall. He came over to give Steve the final helping hand back up on the trail.

"Thanks," he said, and his voice meant it.

"That was mighty quick thinking," said Uncle Jim.

"Mighty quick acting, too," said Rance.

Nikki was standing back, her face white, and she couldn't get over the feeling that her knees weren't going to support her much longer. Steve came over and she clung to him.

"I'm all right, honey," he told her and laughed gently.

"I know you are now," she said, "but you weren't a minute ago and you might have been killed. Oh, Steve."

MINISTER'S CAT THOUGHT SHE SMELLED RAT

SPRINGFIELD, Ill. (AP) — The Rev. Harry Lothian chose passages from one of Robert Burns' poems as the text for his sermon.

The passage depicted a man plowing up a nest of field mice.

His congregation listened, then stirred, tuttered and finally broke out laughing.

The minister's pet cat had slipped into the church and was "walking around" around the pulpit.

Finally, after Rev. Lothian's repeated references to "mice" the cat arched its back, sprang squarely upon the pulpit and began sniffing the pastor's notes.

"Well," said the minister, "the cat must have smelled mice."

Giants Drop Fifth in Row to Cards 7 to 0

By SID FEDER
Associated Press Sports Writer

They say it can't happen here. They said that no matter how bad those Giants looked with bats in their hands, their defense would always hold up. They said that strictly on pitching and fielding alone, those Giants would always get along.

But, after listening to all that for years, you can take a look at the latest developments in the National League race, and (shades of John McGraw!) there's the very thing they said couldn't happen, happening all over the place.

The great pitching, except for King Carl Hubbell who's carrying the entire burden again, is about as useful as a hot water bottle at the equator. The air-tight fielding is up around the stratosphere. And the terrible Terry Terriers of '36 and '37 are wallowing around a half game ahead of third place, five games back of the Pittsburgh Pirates, and looking more like the Phillies than the Phillies do themselves.

They've lost five games in a row, the latest a 7-0 four-hit whitewash applied by long Lon Warneke and the Cardinals yesterday. They've dropped eight of their last ten, and in their last 68 games—since their early season streak of 18 victories and three setbacks, in fact—they've played under 500 hits.

They're only holding second place today because the revived Chicago Cubs developed a case of butterfly fingers last night and let the Dodgers score three times in the ninth inning for a 3-2 Brooklyn win.

Bill Terry is frantically switching his lineup trying to get a winning combination, but nothing seems to be working. The Cards did all their scoring in one inning yesterday because the defense came apart at the seams.

Since Pep Young had himself a big day, driving in four runs to pace the Pirates to a 4-2 win over the Phillies, the Bucs were left five games out in front. Deacon Danny MacFadden and Lou Pette tossed a pair of five-hitners and the Boston Bees belted the Cincinnati Reds twice, 1-0 and 5-1.

Over in the American League, the Yankees held their game-and-a-half edge on the Cleveland Indians, but the spotlight focussed on Hankus-Pankus Greenberg, Detroit

dynamiter, who belted a pair of homers for the second straight day to lead the Tigers to a 9-4 win over the Senators and boost the Detroit back into fifth place.

The two round-trippers were Hank's thirty-second and thirty-third of the year and put him seven games up, for this date, on Babe Ruth's record 1927 campaign.

Rookie relief hurler Steve Sundra pitched 3 2-3 innings of hitless ball, hit a homer and a run-producing single and gave the Yanks a 7-5 decision over the St. Louis Browns.

The second game of what was to have been a double bill was rained out. The Indians nipped the Athletics, 12-11, in a fancy slugfest. The Red Sox-White Sox twin bill was washed out.

Stuhldreher In Lead For Coach

CHICAGO, July 28 (AP)—Harry Stuhldreher of Wisconsin led today in first returns of a national poll to select the coach of an all-star collegiate football team which is scheduled to play the national professional league champion Washington Redskins August 31.

Stuhldreher had a total of 167,829 points and held a lead of more than 33,000 points over Alvin N. (Bo) McMillen of Indiana who was second in the race.

MOVIES GET MOST OF VILLAGERS' DIMES

WASHINGTON (AP)—Movies draw more family dimes in U. S. villages and small towns than any other form of amusement.

The U. S. Bureau of Home Economics finds that non-relief families spend thirty cents out of every amusement dollar for moving picture shows in typical villages throughout the country. In the Southeast it's even higher — 36 cents out of the dollar.

HE LEANED TOO HARD

HUNTINGTON, Ind., (AP)—When Frank Keefer leaned against a street light pole as he talked to a friend the pole fell into the street.

SENATE SENDS INVESTIGATORS ON VOTE PROBE

WASHINGTON, July 28 (AP)—The Senate campaign expenditures committee dispatched investigators to the nation's political hotbeds today after condemning tactics in Tennessee's Democratic senatorial race.

Evidence in the five-man Tennessee campaign, the committee announced, "points sharply toward an election contest in the United States Senate regardless of which group's candidate wins."

It added in a formal statement about the primary battle, which will be decided next Tuesday:

"Apparently every scheme and questionable device that can be used in a political contest to raise funds to influence votes and control the election result is in full swing."

The committee, set up as a guardian over the Senate's political morals, also took a hand in the South Dakota senatorial campaign. It asked Postmaster General Farley to investigate use by the farm security administration of its free mailing privilege to distribute a "political circular" in that state.

The Tennessee situation aroused so much concern among committee-men that Chairman Sheppard, Democrat, Texas, said he hoped to send at least six investigators there at once.

The candidates for the Democratic nomination in Tennessee are Senator George L. Berry, Tom Stewart, Representative J. Ridley Mitchell, Dr. John R. Neal, and C. L. Powell.

The committee said the evidence before it related to assessment of federal employees by one group participating in the primary and assessment of state employees by another group.

Side Glances By George Clark

"Now, please, lady, it wasn't altogether his fault."

FRENCH COWBOY HERE STUDYING WEST LIFE

CHEYENNE, Wyo., July 28 (AP)—Paul Coze, the man who brought riding and roping of the west to Paris with a loud yippee, looks forward to the day when Parisians master the technique of the western cowboys.

As the young Frenchman sat on a chute in the frontier days rodeo arena today, he spoke enthusiastically of the Club du Lasso he founded, devoted to the mastery of the lariat and the saddle.

In his early thirties, Coze is studying western life and Indians as a representative of the French Museum of Natural History. He also is collecting photographs and will do painting of frontier days scenes for the Madison Square Garden rodeo of New York.

"We hope some day to approach the American cowboy's proficiency," he said.

It is estimated that sleeping-car porters, 7000 of whom are employed in the United States, receive about \$7,000,000 in tips during a year.

O'DANIEL WILL FISH FOR FIRST TIME IN YEARS

GALVESTON, July 28 (AP)—W. Lee O'Daniel, who more than half a million Texas Democrats voted their nominee for governor, planned to go fishing today—for the first time since he was a boy.

The idea, he explained, here on a vacation with his family, was "to get all the fishing out of my system before I take office. After that, I expect to work."

With Mrs. O'Daniel, his daughter, Molly, and sons, Pat and Mike, the Fort Worth flour man came here to visit friends and rest after the campaign which ended with his smashing victory in the election Saturday. They planned to stay about a week.

O'Daniel answered a question on whether he would recommend that the legislature submit a constitu-

AMARILLO SWIMMING TEAMS COMING HERE FOR CONTEST

A dual swimming meet between local aquatic stars and representatives of the Amarillo Country Club swimming pool will be staged free of charge at the local pool tonight at 6 o'clock.

Bob Clark, well known athletic director, swimmer and magician, will bring the Amarillo team to Pampa. His stars will also present exhibitions.

Events for junior boys and girls, 15 years and under, and for senior boys—Howard Buckingham, Lorna McCormick, Marquerite Waggoner, Ed Parcells, Bert Roberts, W. A. Robertson, Norma Jo Robertson. Pampa entrants will be selected from:

Diving divisions:
Senior girls—Virginia Posey.
Senior boys—Howard Buckingham, Mage Keyser, Orvil Goddard.
Junior boys—Bill Arthur, Doyle Lard, Doug Keyser, Cyril Meyers.
Swimming divisions:
Senior girls—Virginia Posey.
Senior boys—Bill McBride, Don Hughes, Howard Buckingham, Nevin Johnson, Mage Keyser, Jim Brown.
Junior girls—Ann Buckler, Jackie Hurst, Anna Bell Lard.
Junior boys—Bill Arthur, James Foran, Floyd Ferguson, Bobby Edson.

Creating a Masterpiece

A great masterpiece requires the knowledge, skill and experience of a great genius inspired by both his subject and his ideals.

A work of art, to be truly appreciated, must be placed in an appropriate setting, under conditions which permit fullest enjoyment.

Coors — a masterpiece in perfect brewing of premium ingredients — is always enjoyed, especially in an atmosphere befitting its excellence; it gives most pleasure when approached with the same attitude of appreciation which characterizes the connoisseur of fine paintings.

Penney's

Sports Roundup By EDDIE BRIETZ

NEW YORK, July 28 (AP)—Bill Terry (with his jinks hitting the skids like everything) is feuding with the newspaper guys again . . . The advertising club of Newark has joined the race to raise a national fund to buy a plane for poor Doug Corrigan who had to go out and fly the Atlantic in a crate . . . Ray Fabiani, the fiddling wrestling promoter, has slapped a \$25,000 suit on the 20th Century Sporting club because he says Promoter Mike Jacobs wouldn't install a cooling system . . . St. Paul has upped the cut on its golf open from \$2,500 to \$7,500 and are the pros happy . . . Events start tomorrow.

Burgess Whitehead has changed his tune and his mind again . . . Interviewed by Mary Hopkins, smart reporter of the Elizabeth City (N. C.) Advance, Burgess now says he'll lay off hard work the rest of the season and make a fresh start next year . . . At that, he's doing a pretty good job with a semi-pro team a couple of times a week and polo grounders wish he'd hurry back . . . Don't laugh this off, for Jimmy Braddeck may try that long reported comeback . . . Business over at the "store" isn't what it ought to be and besides Mike Jacobs needs heavies like nobody's business. Here is another fight tip: Lou Ambers is looking better than he ever did in his life.

Moody Loves Her Game of Tennis

By BILL BONI
NEW YORK, July 28 (AP)—After 18 years of competitive tennis, and within a few months of her 33rd birthday, Helen Wills Moody still is completely absorbed by the game that has made her one of the world's outstanding sports figures.

Her enthusiasm and a woman's typical curiosity to see just how well she could play were the chief factors that drove her out of comparative retirement.

"When you really love a game as I do, you don't ever lose interest in it," she admitted today, as she paused briefly in the round of appointments which she calls resting.

"I hadn't really retired in the last few years, even though 1933 was the last time I played at Forest Hills and 1935 was my last trip to Wimbledon. Although I hadn't played singles in a tournament in three years, I was in good physical condition, so there seemed no reason why I shouldn't come back."

"Actually I was setting myself a problem—just how well could I play?—and it's always interesting to have a problem, even if it's only in a game."

It was a considerable problem. It meant returning, after a long absence, to a scene she had dominated for years. It meant risking considerable damage to a record and reputation that needed no enhancing.

So far, the risk has been passed without harm, for at Wimbledon Helen won her eighth singles crown. The next danger point will be the nationals at Forest Hills Sept. 8-17, when she will seek to bring her number of U. S. triumphs to the same total.
