

BANQUET PRINCIPALS—H. Roe Bartle, principal speaker at last night's Chamber of Commerce banquet, center, is greeted by Joe Cargile, left, 1961 chamber president, and Gene Dulaney, right, 1960 president. The table decoration featured an appropriate Valentine theme, was at the center of the speaker's table in the cafeteria. (Staff photo by Gerry Burton)

# Progress Begins At Home, Says Bartle

H. Roe Bartle, Kansas City's vibrant mayor, challenged Snyder residents Tuesday night to begin with themselves in working for a strong community and a strong America. Bartle, whose own list of accomplishments is long and varied, was the principal speaker at the annual banquet of the Snyder Chamber of Commerce. He received a standing ovation from some 750 to 800 persons at the conclusion of his address. A strong America will not be built in Washington, D. C., Bartle declared. It must be built in every crossroads, village, county seat and metropolitan center in the land, he said. His talk was filled with humor interspersed with pointed jabs. Dwelling particularly on religion, he suggested that the entire nation would benefit if members of all denominations would work as hard for their own churches as many do against others.

# JFK May Announce Spending Speedup

By MARVIN L. ARROWSMITH WASHINGTON (AP) — President Kennedy is reported planning to announce tonight a speedup in spending of some federal funds in a fresh effort to spur the lagging economy and reduce unemployment. Informed officials said they understood the President intends to make such an announcement at his news conference scheduled for 7 p.m. EST. The conference will be broadcast live on nationwide television and radio. On the international front, Kennedy faces questioning about his views on the crises in the Congo

# Racing Bill Goes To Panel

AUSTIN (AP) — The hotly-argued proposal to restore big time horse racing in Texas by legalizing parimutuel betting at tracks was sent to a subcommittee early today after a marathon hearing. Rep. V. E. (Red) Berry, self-styled retired gambler and author of the proposed constitutional amendment, made no effort to sidetrack the rule that automatically shuts such measures to subcommittee. He and some opponents of the proposal gave the crowd that dwindled after six hours from about 1,500 persons to just a few hundred some laughs and some heated exchanges. But most of the serious argument centered on the question whether legalized gambling would help or hurt Texas and the morals of Texas which outlawed the horse betting machines in 1937.

Bartle said he spoke from experience, as a son of a Presbyterian minister who attended Baptist, Methodist and Jesuit schools, and who had sung in Episcopal and Disciples of Christ choirs. He climaxed his address by suggesting a formula for progress and community strength: "Let everyone pray to God for a better city and a better America, and let it begin with me." Gene Dulaney, retiring Chamber of Commerce president, expressed appreciation for the work of chamber directors and members during the organization's past year of work. He introduced the retiring and holdover members of the board. Joe Cargile, 1961 president, laid out a three-point program and a slogan for the new year, "Together, We Build." During the coming year he said the Chamber of Commerce hopes to bring about a better relationship between the organization and its members, seek new industry, and serve existing industry. Bartle commissioned as honorary citizens of Kansas City the entire group on the banquet program, including Dulaney, Cargile, James Rosser, master of ceremonies; J. Mark McLaughlin, who introduced the speaker; the Rev. R. Charles Spivey, who gave the invocation; the Rev. Edward Chrisman, who pronounced the benediction; Woody Forrester, chamber manager; and Robert Tinsman, Abilene city manager, who is a former assistant city manager of Kansas City. Cargile presented a gift to Dulaney, and Dulaney, in turn, presented Bud England with a plaque for signing up the most Chamber of Commerce members during the past year. England earned similar honors last year. Dinner music in the Snyder High School Cafeteria, where the banquet meal was served, was provided by Jane Womack at the organ. Special entertainment in the school auditorium prior to the formal banquet program featured Steve Birdwell's combo. Outgoing directors of the Chamber of Commerce are Herman Book, Clyde Hall, W. B. Lee, Rex Miller, Harry Reed, Dr. John Blum and Verla Logan, executive director representing the B&P.W. Club. Holdover directors are Hugh Boren Jr., Cargile, Mel Zane Gilbert, Dave Harlin, Charles Musselwhite and William H. Wilson Jr. A retiring president, Delaney will remain on the board as an ex-officio director. New directors are Roy Burgess, England, Herbert Feather, Harold Lackie, McLaughlin, D. D. Shelburne and Mrs. E. L. Jones, the four ex-officio directors from the B&P.W. Club. Kenneth Baker, Jaycee president, also is an ex-officio director. Out-of-town guests at the banquet came from Roscoe, Ruby, Post Colorado City, Sweetwater, Seminole, Big Spring, Odessa, Lubbock, Abilene, Midland and Waxahachie.

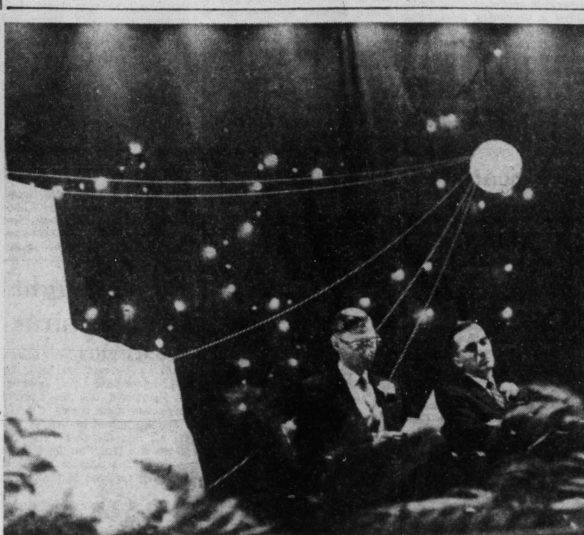

# Wild Disorder Sweeps U. N.

By MAX HARRISON UNITED NATIONS, N.Y. (AP) —Wild disorders broke out in the public gallery of the U.N. Security Council today as U.S. Ambassador Adlai E. Stevenson blasted the Soviet Union for allegedly trying to wreck the United Nations. It was the worst demonstration in the history of the U.N. Council President Sir Patrick Dean of Britain recessed the meeting while guards cleared the gallery. About ten Negro men, wearing hats and overcoats, burst through the back door of the public gallery. They rushed down the aisles shouting "Vive Lumumba." The U.S. delegate urged the U.N. Security Council to rally its strength to turn back what he called efforts to destroy the U.N. operations in the Congo.

# WEATHER

SNYDER TEMPERATURES: High Tuesday, 48 degrees; low 41 degrees; reading 44.5. —SANDY, 42 degrees. North Central Texas: Partly cloudy through Thursday. Scattered showers or thunderstorms this afternoon and tonight mostly east and south. Low tonight 41 to 44. High Thursday 70 to 74. Northeast Texas: Considerable cloudiness this afternoon and tonight. Scattered showers and thunderstorms tonight. Thursday partly cloudy. Low tonight 30 to 38. High Thursday 70 to 74. Northwest Texas: Partly cloudy through Thursday. Low tonight 32 to 38. High Thursday 68 to 72.

# 54 Americans Among 73 Victims Of Plane Crash

IMPRESSIVE BACKDROP—The Rev. R. Charles Spivey, left, and Joe Cargile await their turns on the program at the Chamber of Commerce banquet in front of a giant, unique prop spotlighting Texas and Snyder as significant points on the globe. The huge map of Texas is projected by strings attached to a lighted globe in the background.

# 10 Day Crude Flow Scheduled For March

By ED OVERHOLSER AUSTIN (AP)—The Texas Railroad Commission today jumped the statewide oil allowance for March by 204,952 barrels, setting a permissive flow of 2,980,842 barrels daily. The number of producing days for March will be 10, compared with the eight-day pattern in February. Although a majority of the major oil buying companies recommended a nine-day production pattern, most of them said they would not have much oil to sell if a 10-day pattern were set. Humble, the state's largest purchaser, said it would buy all the crude offered for sale by the companies at the present hearing. The commission then agreed on the 10-day pattern although Chairman William J. Murray advised the oil men to "be alert to call to our attention immediately any cutbacks in refinery runs." "The commission feels that this is a dangerously high level and must be carefully watched in the future," Murray said. Because of inability to purchase the spot oil needed, Charles Shaver, Houston attorney representing Humble, told the commission that Humble "will reduce our stocks virtually to tank bottoms by the end of this month below which no reduction is possible." Humble nominated 44,855 barrels a day which it said could be obtained from its connections from 11 producing days. The only independent producer who testified at the hearing was F. B. Cochran of Corpus Christi. He said producers in that area had met earlier this week and agreed that because of the decline in Texas crude oil stocks and the increase in crude oil received for processing in Texas, he recommended the 10 day pattern. Murray told the oil men that on the 10 day pattern more oil will be produced in Texas in March than in any month since 1948 when the commission permitted 366 oil producing days. Under the commission proration system Texas oil wells will be closed 21 days in March.

# Coast Area Has Showers

By THE ASSOCIATED PRESS Light rains fell Wednesday near the Texas coast and the U.S. Weather Bureau said on-and-off showers could be expected during the week in the eastern half of the state. Except for clear patches in the Panhandle and along the coast, skies over the state were partly cloudy to cloudy with light rains falling at Alice and other South Texas areas. Houston, Beaumont, Galveston, Wink and Wichita Falls had fog. Pre-dawn temperatures ranged from 30 degrees at Dalhart to 68 at Laredo, McAllen, and Brownsville.

# Five Texas Residents Are Among 72 Crash Casualties

By THE ASSOCIATED PRESS Five Texas residents—three airline hostesses on a vacation and two men en route to oil field construction jobs—were among the 72 passengers killed Wednesday as a jet airliner crashed in Belgium. The stewardesses, all employed by Trans-Texas Airways, left Dallas Tuesday en route to spend two weeks in Europe. They were Miss Linda Foster and Miss Daurice Herring, both 24 and originally from Baytown; Tex., and Miss Iris Duke, 27, based at Houston and from Nashville, Tenn. The trio shared an apartment in Dallas, home base for Miss Foster and Miss Herring, with

# U. S. Skating Team Killed

BRUSSELS, Belgium (AP) — Fifty-four Americans, including the entire U.S. figure skating team perished today in the flaming crash of a Sabena Belgian Airlines jet. In all, the crash of the American-bull Boeing 707 brought death to 73 persons. Disaster struck at 10:05 a.m. as the \$5-million plane, its engines suddenly sounding odd, sought a landing in bright sunshine after a flight from New York. The huge plane slammed to earth beside a woods three miles north of Brussels International Airport and went up in flames fed by fuel oil as the tanks exploded one by one. All 61 passengers and the crew of 11 died. A Belgian farmer tilling his cabbage patch was struck and killed. Mrs. Maribel Vinson Owen, 49, of Winchester, Mass., nine times the U.S. figure skating champion, was killed along with two daughters who were members of the current team. The girls were Laurence Owen, 16, and Maribel Owen, 20. Mrs. Owen last weekend had seen Laurence win the North American championships at Philadelphia. Mrs. Owen and Coach Deane McMinn of Lomita, Calif., were accompanying the 18-member U.S. team to world figure skating championships in Prague, Czechoslovakia. The team is the fifth major sports group wiped out by plane crashes in a dozen years, including soccer teams of Italy, Britain and Denmark. Sixteen members of the California Poly football team were killed in the crashup of a chartered plane last Oct. 29 at Toledo, Ohio.

The Boeing crashed in a small pond and started burning almost at once. Fire engines previously alerted because of its erratic behavior screamed toward the scene, but arrived only in time to check the spread of fire. "There were no survivors," a fire officer said. Charred bodies were removed to a temporary morgue at the airport. A Belgian farm laborer lost a leg and was hospitalized. In addition to the two Owen girls, the members of the U.S. skating team were Steffi Westfeldt, Gregory Kelley and Bill and Laurie Hickox, all of Colorado Springs; Geline Beaudry-Lord and Dudley Richards of Boston; Donna Lee Carrier, Diane Sherbom and Roger Campbell of Los Angeles; Rhodie Michelson, Long Beach, Calif.; Douglas Ramsay, Detroit; Ray and Ila Rae Hadley, Seattle; Larry Pierce, Indianapolis; and Bob and Pat Dineen, New York. Debris from the terribly twisted Boeing was scattered for several hundred yards. The nightmare evolved from Sabena's Flight 548 from New York, piloted by Cmdr. Louis Lambrichts. Residents of the seacoast village of Berg figured something might be wrong when the airliner sped over them for its approach to the airport. The engine roar changed oddly and the light pattern looked erratic. The plane circled the field a time or two. It lowered the undercarriage, retracted it, turned again and fell. "Suddenly the plane fell in a series of spins," an airport official said. "It literally disintegrated."

There was a tremendous explosion. On a Liege-Brussels express train skirting the airport many passengers saw the disaster. Said one: "The plane appeared to be making a normal approach to land when, on hearing the ground, it suddenly reared up pointing almost vertically, nose up into the sky. Then it fell back like a giant stone and we heard an explosion." From her home near the crash scene, Mrs. M. Croon said the plane was "making much more noise and was much lower than they usually are." Francois de Klermaeker, a coal merchant, said it dropped "just like in wartime when planes fell after being hit." Viscountess Pierre de Billorey was on her doorstep. "The plane was making an unusual noise," she said. "It was flying extremely low. I saw it balancing in the sky then, as it flew over a small nearby wood, it seemed to recover power and pointed upwards and then it suddenly fell. It looked as if the pilot had made a desperate effort not to hit the houses." An airport officer said clothes were burned off passengers in the forward cabin.

# Milkman's Valentine Reclaimed Quickly

BIRMINGHAM, Ala. (AP) — Like a lot of other people, 8-year-old Becky Givens got the Valentine's Day spirit. As a result, her mother's note to the milkman, decorated with a arrow-pierced heart, read: "2 half gallons, 2 quart chocolate, 1 orange, 1 love you." Mrs. Givens spotted the note in the milk bottle and retrieved it before the milkman arrived Tuesday.

RUSSELL YORGESSEN

# Yorgesen To Seek Council Post Again

Russell Yorgesen, councilman for place No. 1 on the Snyder City Council, filed for re-election Tuesday afternoon with city secretary K. O. Pitter. One of the 15 men who worked for more than a year to draft the city charter adopted in 1952, Yorgesen is completing his first term on the council. Yorgesen, a 45-year-old accountant with the firm of Deffebach and Yorgesen, lives at 2863 Thirty-seventh Street and is the first candidate to throw his hat in the ring for the city election set for April 4. The two other vacancies to occur on the city council are Place No. 3, held by Bill Eiland, and Place No. 5, held by Jim Mixon.

# Space Race Is Still Affected By Military

By ALTON BLAKESLEE  
Associated Press Science Writer  
CAPE CANAVERAL, Fla. (AP)—  
In 40 months, 45 satellites have  
soared up successfully from the  
United States and Soviet Russia.  
The Soviets put up 11, this  
country 34.

The Soviet Union leads in spec-  
tacular, impressive first and  
weights. In quick succession this  
month, she put up a record-  
breaking seven-ton Sputnik, then  
capped this with a huge satellite  
which went into orbit, and then  
launched from space a 1,400-  
pound probe aimed at perhaps  
hitting or going into orbit around  
Venus.

The reach toward Venus opened  
a new, fourth phase of Soviet  
space age efforts. Until now, the  
Soviet Union has been bunched  
bar shots in triple plays, each

concerned with a different aspect  
of space.

He first three Sputniks orbited  
the earth.  
Then in 1959, he reached for  
the moon, hitting it, photograph-  
ing its back side, and sending  
one probe past the moon to be-  
come the first little man-made  
planet of the sun. The United  
States later sent two probes into  
orbit around the sun, one of them  
radiating back space findings over  
a record distance of 22 1/2 million  
miles.

Abruptly, the Soviets dropped  
the moon and last year sent  
two spacechips, weighing up to  
five tons, orbiting near the earth.

In a brilliant feat, the Soviets  
brought back part of their second  
spacechip containing two dogs.  
The time seemed near to launch  
a man, but in December the cap-  
sule of the third ship failed to  
obey command signals and  
burned up. Two dogs, other animals,  
insect and plant life all  
perished.

It was a rare if not the first  
official Soviet admission of any  
 mishap in her space shoots.

Last weekend, the Soviets  
opened the interplanetary phase,  
with the new feat of launching a  
Venus probe from space itself.

She had remained curiously  
silent about the seven-ton Sputnik,  
but then one Soviet space official  
said it had been intended mainly  
to learn whether such a heavy  
satellite could be put and kept  
into a precise orbit.

The Sputnik launching the  
Venus messenger might have  
been another seven-ton affair.

The Soviets have behaved like  
eager explorers pioneering into an  
unknown continent—not waiting to  
settle and cultivate one region be-  
fore roasting out to make first  
contact with another.

Her fifth venture could be man  
into space.

Some Western experts believe  
the Soviets embarked in 1956 or  
earlier on a plan to send man into  
space. This would be at least two  
years ahead of the start of the  
U.S. program.

Sputnik II, carrying the dog  
Laika in November 1957, is taken  
as one sign of such intent.

Limited in weight by smaller  
rockets, but using ingenious mini-  
aturized equipment, the Ameri-  
can program has been more di-  
versified, and more broadly  
based.

The United States clearly leads,  
most experts say, in gleaming new  
scientific knowledge from and  
about space, and in cultivating  
space for valuable practical  
applications.

Three satellites photographing  
clouds and measuring earth tem-  
peratures took the first step to-  
ward looking the eyes in space.  
Samos II, just put up by the Air  
Force, is using cameras which  
could serve as military scouts.

Echo, the shiny balloon, and  
Courier satellites are preparing  
the way for a space network to  
relay civilian telephone calls, TV  
and radio programs, and military  
commands.

Transit satellites augur arti-  
ficial stars supplying exquisitely  
accurate navigational fixes for  
ships and planes.

But even greater benefits could  
come from basic knowledge be-  
ing learned about earth, air,  
space and sun.

U.S. satellites discovered the  
Van Allen radiation belts.

U.S. satellites have explored  
more vigorously and keenly the  
earth's magnetic and gravitation-  
al fields, the great pulses of  
atomic particles hurled at the  
earth by gigantic explosions on  
the sun, the ionosphere, upper  
atmosphere, the pressure exerted  
by sunlight, the shape of the  
globe.

From such studies of the sun's  
effects on earth could come bet-  
ter understandings of what makes

our weather, and perhaps one day  
to control it.

Knowledge is coming like fruit  
falling from a tree, says Dr. Robert  
Jastrow, chief of the theoretical  
division of the National  
Aeronautics and Space Adminis-  
tration.

He feels the Soviets have at-  
tracted fewer scientists with origi-  
nal and imaginative ideas to  
their space program—perhaps be-  
cause such scientists are more  
dearly needed in other fields.

First in developing great boost-  
er rockets, the Soviet Union can  
lift up far heavier payloads, and  
can equip satellites with excellent  
guidance controls.

But mammoth boosters are be-  
ing developed here, too. And the  
U.S. space program calls for a  
variety of exciting feats in this  
year and decade.

## Boy Scouts Hold Shoot

The Canyon Gun Club Range was  
the site Sunday of a Boy Scout  
rifle match, with some 62 boys  
entering the meet.

Only 22 long rifles were used,  
and the match was preceded by a  
one-hour talk on gun safety in-  
struction by John Abernathy.

Participating troops, along with  
their sponsoring organizations, in-  
cluded: 177—Stanfield Elementary  
PTA 212—Knights of Columbus;  
35—Kiwanis Club; 36—Rotary  
Club; 124—Loraine Lions Club;  
33—Borden County School; 27—  
First Methodist Church.

The winners as arrived at in the  
various categories, along with their  
respective troops, follow below.

The first name in each grouping  
represents the 11-12 year age  
group, while the second is the 13-  
year category and the third, boys  
14 years and up.

**Prize**  
Donnie Bowles, 124; Jerry Wood-  
ridge, 36; Joe Kelley, 212.

**Sitting**  
Joe Harrington, 177; Rodney Wil-  
liams, 36; Ronnie Kilgartin, 212.

**Standing**  
John Conley, 177; Willie Everett,  
27; Don Small, 124.

**Best Shot**  
Donnie Bowles, 124; Rodney Wil-  
liams, 36; Kenneth Johnson, 124.

**Guest Of Honor  
Has No Invitation**

LYNN, Mass. (AP)—The Ex-  
change Club, a group of business-  
men, and Police Chief John P.  
Fournier went all out in setting  
up a luncheon honoring patrolman  
George F. Healey as Lynn's po-  
liceman-of-the-year.

But the honored guest didn't  
show up. Reached long after the  
luncheon was over, Healey ex-  
plained, "I would have been de-  
lighted to go if I'd been invited."

## Veep Flies Into Texas In Own Plane

AUSTIN (AP)—Vice President  
Lyndon B. Johnson returned to  
Texas by private plane Tuesday  
night, presumably on the first leg  
of a tour of space installations  
and research centers.

The vice president did not an-  
nounce his tour in advance. The  
Washington airport said he took  
off in his private plane at 4:31  
p.m. (CST) after a flight plan list-  
ing Austin as the destination was  
filed. The Federal Aviation Agen-  
cy in Austin said that the plane  
did not stop here but landed late  
Tuesday night at the strip on the  
vice president's ranch near John-  
son City in Central Texas.

The first notice of Johnson's  
sudden trip came earlier Tuesday  
from a Houston newspaper.

The Houston Post said Johnson  
left Washington unannounced  
on an apparently urgent inspection  
tour of space installations and re-  
search centers, including one in  
Texas. He was to make a brief stop  
at his ranch near Johnson City,  
the paper's Washington bureau  
said.

No announcement of Johnson's  
sudden trip came earlier Tuesday  
from a Houston newspaper.

The Houston Post said Johnson  
left Washington unannounced  
on an apparently urgent inspection  
tour of space installations and re-  
search centers, including one in  
Texas. He was to make a brief stop  
at his ranch near Johnson City,  
the paper's Washington bureau  
said.

The paper said Johnson left after  
an hour-long conference with  
President John F. Kennedy.

The Post said the vice presi-  
dent's first stop was to be at the  
U.S. Air Force School of Aviation  
Medicine at Brooks Air Force  
Base in San Antonio. He also  
plans to go to Cape Canaveral,  
Fla., the story said. Johnson is  
in charge of U.S. space develop-  
ments.

Johnson is expected back in  
Washington no later than Sunday,  
the Post said. He left the White  
House after his talk with the  
President without talking to re-  
porters.

No announcement of the pur-  
pose of his talk with Kennedy,  
or his trip, was made officially.

Pierre Salinger, the White  
House press secretary, discounted  
any connection between Johnson's  
trip and the talk with Kennedy.

## Lumumba's Political Heir Groomed By Communists

BY THE ASSOCIATED PRESS  
Antoine Gizenga, Patrice Lum-  
umba's political heir in the  
northern Congo, is a Communist-  
trained politician described by  
Congolese diplomats as smart and  
ruthless.

Gizenga has made two brief ap-  
pearances at the United Nations,  
speaking with quiet assurance and  
displaying an adroit sense of po-  
litical maneuvering. The tenor of

his remarks are often harshly  
anti-Western.

He was born some 40 years ago,  
a member of the Mutende tribe,  
in the Kwilu area of the lower  
Congo. He was educated at a Ro-  
man Catholic school in Kinzambi  
and later became a teacher at a  
Catholic mission school in Leo-  
poldville.

He turned to politics in June  
1959.

Gizenga attended the January  
1960 roundtable on the Congo's fu-  
ture which Belgium convened in  
Brussels. But he left during the  
parley to attend a short indoctri-  
nation course at the Prague Insti-  
tute for African Affairs. He is re-  
ported to be devoted to the Com-  
munist cause.

Lumumba made Gizenga his  
deputy premier in the first Congo  
government formed after inde-  
pendence was proclaimed last  
June 30.

Gizenga was arrested last Sep-  
tember by Maj. Gen. Joseph Mo-  
se.

## HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS: Jan Kruse, 174  
Wanda Lee, Snyder; Peggy a D  
Dorothy Addison, Snyder; Aubrey  
Baxter, 611 Thirtieth Street; Lola  
Dockery, Eighteenth Street and  
Avenue S; Anna Katherine Dodson,  
2009 Avenue U; Cynthia Lang-  
ford, North Avenue T; Ann Walton,  
Snyder; Janice Hall, 1202 Twenty-  
fourth Street; Sharon Mearse, 316  
Thirty-first Street; A. L. Byrom,  
3065 Galveston; Connie Boston, 911  
Twenty-seventh Street; Opal Boyd,  
2112 O'Neil Street; Bea Jordan,  
1000 West Road; Joe King, 3102  
Crockett; Robert Boyd, 3750 Ave-  
nue V.

DISMISSALS: Katherine Gerac,  
Cary Norris, Sybil Wiley, Alvie  
Barton, Helen Montes and baby,  
Etta Hall, Doris Maines, Julia Stan-  
field, Doris Digby, Mike Coonrod.

## Dog Thought Dead Returns

NIAGARA FALLS, Ont. (AP)—  
Given up for dead a year ago after  
he plummeted into the Niagara  
gorge, has come home.

The dog, owned by Charles Till-  
er, fell into the gorge when he  
leaped at a bird. The family gave  
up hope, and after a period of  
mourning replaced him with Big  
Boy.

A few days ago a bedraggled  
dog arrived at the Tiller home,  
and a veterinarian recognized a  
scar on his leg. Now the trials of  
Tosha have been placed together.

A mystery German shepherd  
was reported ranging the isolated  
gorge during the summer.

Tosha apparently lay uncon-  
scious after his fall, woke to find  
himself alone, and began his solit-  
ary existence.

He lived on small game until  
immigration men began to work  
him back to civilization with ham-  
burger. A case of dog food was  
given to Charles Blair, caretaker  
at the Maid of the Mist docks.  
Gradually he won the dog's con-  
fidence, and the rehabilitated To-  
sha then made his own way home.

## Former Resident Dies In Dallas

Dave Rhodes, former resident of  
Scurry County, died Tuesday in  
Dallas. The brother of Jim Rhodes  
of Snyder, he spent most of his  
boyhood in this area.

Among other survivors is Nora  
Williamson of Snyder, a niece.

## TODAY'S MARKETS

NEW YORK (AP)—Cotton prices at  
noon were unchanged in 70 cents a  
bale higher than the previous close.  
March 24 1/2; May 33 3/8 and July 33 3/8.

and choice 300-600 lb. steers and heifers  
23.00-24.00; good head choice calves,  
23.50-24.50.

## BIRTHS

Mr. and Mrs. Billy Jack Hall,  
1209 Twenty-fourth Street, are the  
parents of a son weighing 8 pounds  
14 ounces born Tuesday at 6:55  
a.m. in Cogdell Memorial Hospital.  
Mr. and Mrs. Marvin Eaton,  
1206 Twenty-eighth Street, are the  
parents of a daughter weighing 7  
pounds 4 ounces, born in Cogdell  
Memorial Hospital Friday at 2:23  
a.m.

state as well as premier.  
Munongo is 39, a former school-  
teacher educated at various mis-  
sion schools in Katanga Province,  
chiefly American Methodist.

## Wake up rarin' to go

## without nagging backache

Now! You can get the fast relief you  
need from nagging backache, headache  
and muscular aches and pains that often  
cause restless nights and miserable  
fired-out feelings. When these discom-  
forts come on with over-exertion or  
stress and strain—you want relief—  
want it fast! Another disturbance may  
be mild bladder irritation following  
wrong food and drink—often setting  
up a restless uncomfortable feeling.

Doan's Pills work fast in 3 separate  
ways: 1. by speedy pain-relieving action  
to ease torment of nagging backache,  
headaches, muscular aches and pains,  
2. by soothing effect on bladder irri-  
tation, 3. by mild diuretic action tending  
to increase output of the 15 miles of  
kidneys.

Enjoy a good night's sleep and the  
same happy relief millions have for  
over 60 years. New, large size save  
money. Get Doan's Pills today!

**Want Ads!**

Here Are The Simple Rules

Our Classified Ads are the busiest, result-getting little power  
houses any times you use them. This offer of Guaranteed Re-  
sults Want Ads is made to induce all of our readers (about  
17,000 of them) to give them a try.

From Feb. 16 until Feb. 28

Between February 16 and February 28, place a 15-word Want  
Ad in the Snyder News for 6 consecutive days. If you  
Want Ad has not produced satisfactory results at the end of  
6 days, The Snyder News will publish it for an additional 6  
consecutive days without any additional charge! You don't  
have to call us at the end of the first 6 days because we  
will automatically continue it for another 6 days unless you  
call to cancel.

You're The Judge

You alone are to be the judge of results and we will accept  
your decision. If the advertisement is cancelled because of re-  
sults before the first 6-day order has expired, you will be  
billed for only the number of days the advertisement appeared  
at the Regular Want Ad Rate.

15-Word Maximum Size

Ad size is limited to 15 words...but you may place as many  
15-word ads as you like.

Everybody Is Eligible

Everyone is eligible for this offer whether an individual or  
business concern. It is not necessary to have a charge ac-  
count with the Snyder News. Just Dial HI 3-5486, give your ad  
to an Ad Writer and say "Charge It." Mail orders accepted.  
Address your ad to The Snyder News Classified Department.

This being the 75th anniversary of the observance the theme of the day will be "Forward Through The Ages." A nursery will be provided.

Coffee and refreshment will start at 9:30 a. m. with the regular services to follow and disbanding at noon. All women of the area are urged to attend.

## Baptist Group Holds Valentine Supper-Party

The Married Young People Training Union enjoyed a Valentine supper and party in fellowship hall of the First Baptist Church recently.

The tables were decorated with hearts. Mrs. M. D. Lambert gave a short devotional on "The Love of God."

After supper games were played with the following present: Mr. and Mrs. Wayne Glass, Mr. and Mrs. Tommy Valentine, Mr. and Mrs. Lawton Taylor, Mr. and Mrs. Harold Brackeen, Mr. and Mrs. Bob Pollard, Mr. and Mrs. Jim Bumgarner, Mr. and Mrs. Gary Hill, Mr. and Mrs. Murray Watkins, Mr. and Mrs. Buddy Ramsey and Mrs. Lambert.

## Dance Club Honor Their Mothers Here

Mrs. Elaine Lambert was hostess to the Modern Dance Club recently. Jan Detrick, president, welcomed the mother, future club members, and special guests of the club.

Mrs. Lambert spoke to the group on the interesting aspects of American, Russian and French ballet, and brought out the advantages of having a ballet club.

Prizes were awarded to the dancers who showed the most improvement in their work the past month, and also to their mothers. Winners were: Cynthia Shiflett, Jan Detrick, Nancy Vaughn, Julie Newsom, Deane Alexander and

Cheryl Rutledge.

Future dancers who will be eligible for the club next year are: Patsy Burney, Shawna Loving, Kaye Stone, Cynthia Bartels, Sophia Haberer and Janet Early.

Refreshments of sandwiches, coffee, punch and cookies were served to 25 members, 17 mothers and seven future members.

**INSTALLED**—Miss Gloria Proctor, 15, daughter of Mr. and Mrs. G. P. Proctor, 325 Thirty-first Street was installed as Worthy Advisor of the Order of Rainbow Girls in special services held recently at the Masonic hall. Out-of-town guests were from Colorado City, Sweetwater, Abilene, Midland and Big Spring.

## KNAPP NEWS

**By MRS. BEN WEATHERS**

Mr. and Mrs. Wayne Crow and sons returned the first part of the week after visiting with Fannin County relatives.

Mr. and Mrs. Fred Rice have been recent visitors of their daughter, Mr. and Mrs. Jerry Test of Abilene.

Mr. and Mrs. Doyle Lovell visited Wednesday in Big Spring.

Misses W. R. Dunlap, Barbara Elliott, Malba Love and Doris Steadman attended the American Cancer Society film strip showing Wednesday night at Gail school. Mrs. Ben Weathers was on the refreshment committee.

Misses T. D. Clawder and Patsy Cary of TCU Ft. Worth, were weekend visitors in the H. H. Cary home and other relatives.

A. L. Poteet formerly of Coleman, is visiting Mr. and Mrs. Cecil James and family.

Jenkins Moreland returned Thursday from visiting with Lamesa relatives the past few days.

Mrs. Cora Weathers and Ben Weathers were visiting in Sweetwater Wednesday.

Mr. and Mrs. H. H. Cary attended the National R. E. A. meeting at Dallas the first part of the week.

Mrs. Lena Bodenman and daughter Elsie of Lubbock were weekend visitors in the J. E. Sorrells' home.

Troy Wylie has been a recent visitor on business at Houston.

Mrs. Wesley Whitman of Andrews visited over the weekend with her sister, Mr. and Mrs. Cecil James.

Rev. and Mrs. O. O. Carruth and were dinner guests in the M. M. Ramin home and visited in the afternoon in the P. McDonald home at Ft. Worth.

Mr. and Mrs. H. O. Phillips were weekend visitors in the F. Phillips home at Midland.

Mrs. Halley Browne and daughters were weekend visitors in the J. B. Cotton home at Seagraves.

The Bruce Murphy's of Belrose, N. M. and Mr. and Mrs. Glyn Ed Murphy and family of Breckenridge were weekend visitors of Mrs. Frieda Murphy.

**SPECIAL COURTESY**—Mrs. Ethel Eiland of 2806 Avenue U is one person in Snyder who appreciates the special courtesies extended by local beauticians. She is pictured above with her beauty operator, Mrs. Thelma Clark who comes to her home to see that she is one of Snyder's women who always has a becoming coiffure as well as other beauty aids. Mrs. Eiland is unable to go to the beauty shop so the beauty shop comes to her. This is just one of the many jobs local beauticians do that is not recognized by local citizens, but this being National Beauty Week we thought it merited recognition.

Per capita consumption of meat in the United States in 1959 averaged 160 pounds, compared to 234 pounds for Australia and Uruguay, and nine pounds for Japan.

Use creamed vegetables for an oven pie. Give them a pasby topping! Delightful to serve at a buffet supper that is starring baked ham as the main course.

30% 42% 15%  
24% 52%

Question: What are these percentage figures?

Answer: Most of our costs of providing your electric service have increased during the past nine years, and these percentage figures represent actual increases during this period in important items of our cost of doing business.

Wages, copper and aluminum wire, transformers, crossarms, natural gas to fire our boiler furnaces, insulators, and nearly everything else we use in our business have increased in price. In the face of these increases, Texas Electric is proud to have been able to hold the price line for our customers.

Because most folks are using more electricity today, many of them don't realize that the average price paid for a kilowatt-hour of electricity by our residential customers is lower now than it was in 1950.

This has been possible because of increased efficiencies in generating and distributing electricity, increased sales of electricity, and because of the skilled men and women who have a part in providing your electric service.

Although these efficiencies are not offsetting today's higher costs of doing business, we are maintaining the high quality of electric service which is essential to the growth and development of the area.

### THE OLD ROCKING CHAIR'S GOT HIM

### Housewife Is Now General 'Handyman'

By HAL BOYLE  
NEW YORK (AP)—Whatever happened to the jack-of-all-trades? In our pioneer past practically every frontier settler had to battle the wilderness almost single-handed. He had to be a man of many talents to survive.

As time passed and our civilization grew more complex, the original pioneer American jack-of-all-trades tended to vanish from the scene. Men learned to specialize in a single craft or art.

But the tradition of the jack-of-all-trades endured and was kept alive by a new fellow on the scene—the general handy man.

Every community had at least one, and usually several.

The handy man wasn't exactly looked up to by his neighbors. He was characteristically a rugged individualist who didn't like the idea of settling down to one job or one boss—or even one wife.

He was a colorful character who prized his own freedom, worked only when he wanted to, and often was strongly addicted to chawin' tobacco and bottled grain.

But whenever he dropped by sober and knocked on the back door, the general handy man was welcome in most households. They needed his skills. For a dollar or so, a meal or two, and maybe an old coat or pair of pants, he would cut the lawn, carry out the ashes, beat the rugs, fix a leaky roof or mend a drain pipe.

Whatever chore had to be done, he could find a way to do it. And he had one unbeatable virtue—it didn't cost much to hire him.

That old-fashioned type of handy man is almost impossible to find nowadays.

The new type of handy man is also difficult to find now—and he is a completely different kind of character. He is usually married, industrious, busy as a bee—and almost as businesslike as a banker. In fact he is a one-man trade account, and we are still essentially a protectionist country.

These are three powerful long-term influences and, if we deal successfully and nonhysterically, wisely, with some of the more temporary factors... the present situation can be easily managed.

Despite the short-term influences that are presently operating against us, the American dollar is still the strongest currency in the world. Our economy is massively powerful.

The worst of all curatives would be to revert to a system of licensing either the exportation of gold or of foreign investments. That would be a return to restrictionism and would mean a constriction in the volume of world trade. It is certain that the Atlantic alliance would be damaged seriously.

"We might make our foreign aid or the amount of it more flexible and relate it to the stability of exchange as well as to the international political situation. That was one of the basic, original purposes when the Marshall Plan was presented by me to Congress.

"We might amend the provisions of the Gold Reserve Act by reducing, if not eliminating, the required 25 per cent gold backing. My one word of advice," concluded this internationally-respected public servant, "is not to be disturbed by temporary phenomena." (Copyright, 1961, by United Feature Syndicate, Inc.)

### Gold Trouble Disturbing, But Dollar Remains Strong

BY INEZ ROBB  
Not even Midas was more disturbed by his gold problem, impossible as it was, than we Americans by our own in recent months. To most of us, the gold reserve is a puzzling factor that moves in wonderful ways its international monetary mysteries to perform.

So I hasten to pass along a thoughtful and optimistic dissection of the American gold situation by a man who, for the past 40 years, has divided his time between public service, banking and a big business. Lewis W. Douglas, who has served his country in a dozen different capacities from Director of the Budget to our Ambassador to Great Britain, in a recent speech before the American Institute for Foreign Trade in Phoenix, Ariz., said, among other things that:

"The dollar is the strongest currency in the world; "our economy is massively powerful;" "we are the greatest creditor nation in the history of the human race;" "America is "Not pricing itself out of the (international) market;" and that massive factors are at work that "over the course of time are more apt to create a weakness of other currencies against the dollar rather than a disturbance of the dollar against other currencies."

"If we will but manage our internal financial affairs wisely and pursue a prudent fiscal policy," Douglas said, "and operate more closely with central banks abroad and do a variety of minor things, the problem about which some people are unnecessarily disturbed will soon evaporate like water under the desert sun. Indeed it may become completely reversed."

Douglas told his audience, in reviewing the history of the gold

"crisis" that "Our country deliberately chose in 1948 to distribute our gold. The choice was made in the belief, in which I then concurred and still do, that our national interest required us to behave as we then behaved. It provided Western Europe, which had been so ravished by war, with an opportunity to recapture political economic and moral stability and confidence.

"Since 1948 we have, as a result, been losing gold, but this was pursuant to our basic policy. As Western Europe recovered, our losses became greater. As the movement of dollars into foreign investments on private account became larger and larger, the outflow of gold was augmented.

"I would remind you, however, that we still have approximately 49 per cent of all the monetary gold in the world, and that, though the liabilities are heavy, they are less heavy than those of any other monetary reserve of which I have any knowledge with the possible exception of the West German Republic.

"If the situation continues, a serious issue might possibly develop, but there is no reason now or in the near future for lack of confidence in the dollar. . . . Despite all the talk that we have recently been hearing about the outflow of gold, there are three massive factors which, over the course of

time, are more apt to create a weakness in other currencies against the dollar rather than a disturbance of the dollar against other currencies.

"We are the greatest creditor in the history of the human race; we have a gargantuan surplus on trade account, and we are still essentially a protectionist country. These are three powerful long-term influences and, if we deal successfully and nonhysterically, wisely, with some of the more temporary factors... the present situation can be easily managed.

Despite the short-term influences that are presently operating against us, the American dollar is still the strongest currency in the world. Our economy is massively powerful.

The worst of all curatives would be to revert to a system of licensing either the exportation of gold or of foreign investments. That would be a return to restrictionism and would mean a constriction in the volume of world trade. It is certain that the Atlantic alliance would be damaged seriously.

"We might make our foreign aid or the amount of it more flexible and relate it to the stability of exchange as well as to the international political situation. That was one of the basic, original purposes when the Marshall Plan was presented by me to Congress.

"We might amend the provisions of the Gold Reserve Act by reducing, if not eliminating, the required 25 per cent gold backing. My one word of advice," concluded this internationally-respected public servant, "is not to be disturbed by temporary phenomena." (Copyright, 1961, by United Feature Syndicate, Inc.)

#### Gets Fast Action

PIKEVILLE, Ky. (AP) — Soda Weddington got fast action when she appeared before city officials to complain the street in front of her house was dirty. They gave her a broom, explaining the street budget was limited.

**JOE PALOOKA**

MR. PALOOKA? GOSH, I NEVER EXPECTED TO MEET YOU!!

YOU CALLED KNOBBY ABOUT PROF. TRILEY SO YOU MUST HAVE HIS BEST INTERESTS AT HEART...WOULD YOU MIND TELLING ME ABOUT IT, MISS JONES?

WELL, YOU SEE HE'S TERRIBLY BRILLIANT... BUT AWAY FROM BOOKS HE'S LIKE A LITTLE BOY... AND THEN HE MET THAT ANGEL FLEUR DE MURE!

**GRANDMA**

YOU'RE KINDA LATE GETTIN' HOME FROM SCHOOL, TED!

YEAH, GRANDMA, TH' TEACHER KEPT ME IN AFTER CLASSES!

HECK, HOW WAS IT? KNOW...

MY PET FROG WOULD JUMP OUT O' MY LUNCH BOX AN' SCARE HER!

**KERRY DRAKE**

HOW ABOUT A LITTLE BUSINESS ARRANGEMENT? YOU PUT ME ON YOUR PAYROLL—SAY FOGS \$100 A WEEK—AND I DON'T TELL THE POLICE ABOUT WHAT'S IN THAT TANK!

SUPPOSE I SAID THERE WAS NOTHING IN IT... BUT WATER, GRAVEL, AND FISH?

THEN I'D HAVE TO SHOW YOU THAT YOU ARE WRONG!

GO AHEAD, MRS. BROGUE! SHOW ME!

**DIXIE DUGAN**

WE GOT A CALL FROM MRS. DUGAN—SHE WAS AFRAID SOMETHING LIKE THIS WOULD HAPPEN—TAKE 'EM AWAY!

WHAT?

**FERDINAND**

PUTTY

**REX MORGAN**

WE'LL TAKE CARE OF DR. NEEDLE IN SPIITE OF HIMSELF, WON'T WE, LILLIE?

ME CERTAINLY WILL, MRS. WILLS! IT'LL BE OUR LITTLE SECRET!

THREE GRAND!

DID THE OLD BAKE CONTRIBUTE TO OUR FOUNDATION, LILLIE?

NO...NO I THOUGHT I'D BE WISE TO WAIT A WHILE!

**MARY WORTH**

NOW, MRS. WORTH... YOU SAY THIS NECKLACE BENT YOURS? SUPPOSE YOU TELL ME HOW YOU HAPPENED TO HAVE IT?

THE MATTER IS... QUITE CONFUSED OFFICER... BUT I SUSPECT THAT A VERY UNFORTUNATE YOUNG WOMAN IS INVOLVED... IF YOU COULD ALLOW ME A WEEK...

SORRY! I THINK WE'D BETTER CLEAR UP A FEW THINGS RIGHT NOW!

VERY WELL! IF YOU WILL CALL MR. K.K. KARLISLE... I HAVE THE NUMBER WRITTEN DOWN...

YOU MEAN... THE K.K. KARLISLE?

**DENNIS THE MENACE**

**BUCKLEY**

DON'T HE EVER HEAR OF PILLS? HOW COME HE'S ALWAYS GOTTA STICK THE MEDICINE IN ME?\*

# Attack By Soviet Threatens Crisis

By JOHN M. HIGHTOWER  
WASHINGTON (AP) — The Soviet Union's attack on the United Nations operating in the Congo threatened today to touch off a new crisis in relations between Washington and Moscow at a time when they have shown hopeful improvement.

Such a crisis seems inevitable if the Soviet government forces to a showdown the threats and demands it has made as a result of the slaying of former Congolese Premier Patrice Lumumba. The futures of both the Congo and the United Nations appeared to be at stake. The Congo now could rapidly become the arena of intensified East-West conflict; the United Nations could be virtually paralyzed as a peacemaking organization.

# Senate Race Beginning To Gain Steam

BY THE ASSOCIATED PRESS  
The Kennedy administration and a Washington newspaper editorial were principal topics this mid-week in the special U.S. Senate race in Texas.

The lone Republican in the April 4 election, John Tower, said at Dallas that the Kennedy administration plans to hamstring business even more.

"I think the real solution to unemployment in depressed areas can be found in removing burdensome controls, taxes and competition imposed on private business by the government," he said.

Support by 22 members of the State Democratic Executive Committee was claimed by U.S. Rep. Jim Wright of Fort Worth. Earlier Ed Connolly of Abilene, committee chairman, announced his support of interim Sen. William A. Blakley.

Blakley, a target of criticism by a Washington Post editorial for his opposition to the confirmation of a Negro to a top housing position, said Tuesday "Texans are capable of deciding for themselves whom they want to represent in the United States Senate."

State Sen. Henry Gonzales was the principal speaker at a dinner of the Mexican Chamber of Commerce in Corpus Christi Tuesday night. He plans to campaign in the Galveston area Friday and in Houston Saturday and Sunday.

Endorsement by the editor of the Alamo Messenger, official Catholic newspaper for the Archdiocese of San Antonio, was announced by Maury Maverick Jr.

# Fasnacht Day Observed In Pennsylvania

LANCASTER, Pa. (AP) — The Pennsylvania Dutch have signaled the start of the Lenten season with their traditional Fasnacht Day observance.

Fasnacht Day, or shrove Tuesday, was observed by the Pennsylvania Dutch as they followed tradition by consuming hundreds of thousands of Fasnachts—square doughnuts without holes made of flour and fried in deep fat. Fasnacht is German for "last night." By old tradition the day before the start of Lent in the Dutchland is a time for all to go on a big eating spree.

In years past, virtually all the Pennsylvania Dutch fasted from certain foods, mainly pastries, during the solemn season of Lent. Housewives, therefore, couldn't use their fats during the Lenten season. So they gathered up all the fat in the house and baked square doughnuts, then feasted. While the Pennsylvania Dutch still observe Fasnacht Day, some of them do not fast during Lent. Those who do not fast go along with the Fasnacht Day observance because of tradition.

Bakeries now produce most of the doughnuts and put powdered sugar on them, which wasn't done in previous years. The bakeries reported their production this year totaled 326,000. One bakery reported making 15,000 dozen. Church and civic groups made thousands more as fund-raising projects.

# \$3½ Million Left By Oilman's Widow

HOUSTON (AP)—Mrs. Lillie C. Cullen, widow of oilman Hugh Roy Cullen, left an estate valued at \$3,500,884 when she died in late 1959.

The estate inventory, filed with probate Judge Clem McLellan, included real estate worth \$2,175,181; \$110,000 in cash; stocks and bonds worth \$1,945,255; and other personal property worth \$178,555.

Cullen and his wife gave more than \$180 million to hospitals and schools before his death in 1955. Mrs. Cullen's will set up trust funds for her four daughters, their 12 children and five grandchildren.

The turbulent situation confronts the Kennedy administration with a crucial test of its diplomatic skill and policy resources when it is still less than a month old. It injects an element of deep uncertainty into the prospects for a meeting some time later this year between President Kennedy and Soviet Premier Khrushchev.

The Soviet leader's interest in a meeting with Kennedy could serve as a restraint against his forcing Congo and U.N. demands to the point of no return. These Soviet threats may be a declaration of bargaining demands, with the Soviets hoping to accomplish somewhat less than they asked.

Officials here were reported hopeful that the situation can be brought under control before its most dangerous potentialities develop much further. To that end, it is understood, they are consulting heavily on dozens of the smaller nations, especially African states, to rally to the defense of the United Nations against Soviet demands.

The White House and State Department withheld any comment although Secretary of State Dean Rusk and other high officials devoted considerable time to studying the problems raised. Kennedy will have an opportunity to express his own views tonight. He has scheduled a televised news conference for 7 p.m. EST.

Indian Ambassador M. C. Chagla said after a conference with Rusk late Tuesday that his government was "very appreciative" about the repercussions that Lumumba's death "might have not only in the Congo but all over the world."

Chagla said India favors strengthening the United Nations, declaring that "it is only as the United Nations is effective that we will prevent civil war."

U.S. officials said privately that Moscow seems intent upon exploiting the worldwide excitement which exploded Monday over the disclosure of Lumumba's death. The Soviets apparently seek two objectives—to destroy the effectiveness of the United Nations as an international agency capable of dealing with crises like that in the Congo, and to open the huge African country itself to Communist conquest.

NEW YORK (AP) — "Kung-ho Shin-tien" Or Happy New Year to you. Have a cup of "Dragon's eye" tea.

But is it the Year of the Ox or the Year of the Cow? The Chinese can't agree. Anyway, it's a great day for the Chinese in Chinatown—the start of the year 659 by the Chinese lunar calendar.

Ox or Cow — the celebration started Tuesday night with dancing lions and costumed parades jamming the narrow streets to the accompaniment of firecrackers. Dragons and unicorns will join the festivities today.

Chinese tradition has 12 animals the believing—the rat, tiger, rabbit, dragon, snake, horse, goat, monkey, cock, dog, pig and cow or ox.

One celebrating group says it is "going all out for the cow." But a spokesman for the Chinese Consolidated Benevolent Association declares it is the year of the Ox.

It doesn't make much difference, says Chinese Consul General K. W. Yu. He says the Chinese have the same character for both sexes. The year of the Horse might also be the year of the Mare, and so on. The general practice, he added, is to use the male of the species to designate the new year.

So—Happy Ox to you.

# Full Coverage Is Scheduled

NEW YORK (AP)—All three major television networks plan live coverage of President Kennedy's news conference tonight. The Columbia Broadcasting System, which earlier had said it would broadcast the 7:30 p.m. EST conference at a later hour, said Tuesday night it had changed its mind.

The network cited "overriding reason" for the change—the situation in the Congo following the death of ex-Premier Lumumba, and the announcement that Kennedy will make a major statement on the nation's economy.

The National and American broadcasting companies announced last week they would carry the half-hour conference on a live basis.

The news conference also will be carried live on NBC and ABC radio, and broadcast by the CBA radio network at 8:15 p.m.

The average star travels 35 miles a second. One hits the fantastic speed of 680 miles a second.

Junior Editors Quiz on BIRDS

QUESTION: How many kinds of eagles live in North America?

ANSWER: The eagle is one of the largest and fiercest of birds. The several species vary widely in size, looks and habits, but all have large, strong bills and powerful claws. Only two eagles—the golden eagle and the bald eagle—make their home in North America.

FOR YOU TO DO: The next time you visit the zoo, make it a point to go to the area where birds are kept and look at the eagles.

(Thomas Kulp of Clark, N.J., wins \$10 for this question. Mail your question to Violet Moore Higgins, A.P. Newsfeatures, in care of this newspaper.)

Jury Rules Children Must Enter School

HOUSTON, Tex. (AP)—Thomas Wilson, 37, an inventor who likes to do things for himself, must send his children to school.

That's what a jury in Justice of the Peace Tom Mares' court said Tuesday in fining Wilson \$5 for not sending one of his six youngsters, Carol, 10, to school.

"I think I can do a better job of teaching my children," Wilson told the jury. "When kids get out of school these days they don't know anything and they can't do anything."

Wilson was fined on one of three charges. He was also accused of keeping Flv, 11, and Dennis, 8, out of school. The jury didn't rule on these cases.

Grace Church Sets Service

Ash Wednesday, the first day of Lent, will be observed by the Grace Lutheran Church at 7:30 p. m., with a Holy Communion Service.

Says JFK Will Become Style-Setter

By JAMES BACON HOLLYWOOD (AP)—Is President Kennedy the best dressed chief executive since George Washington?

Movie stylist Sy Devore not only thinks so but believes the youthful president will revolutionize formal wear.

"No one in our time—save the Duke of Windsor when he was Prince of Wales—will be more of a style setter than Mr. Kennedy," Devore said today.

The President's taste in clothes is conservative but always correct, said Devore, who designs wardrobes for many Hollywood fashion plates.

Devore believes the President's greatest sartorial influence will be where it's "needed most—on the youth."

On The Hill South Of The Park COUNTRY LIVING... CITY STYLE

LIVABILITY is the important thing that we sell... LIVABILITY means good plans with lots of space... LIVABILITY means well equipped houses built of materials that are easy to maintain... LIVABILITY means a successful design because it's really functional from the ground up... LIVABILITY means houses that SERVE the people that live in them...

Our Modern Contemporary Homes are perfect examples of LIVABILITY because they are a combination of the past and the present skilfully blended together to give that functional simplicity of design that offers you maximum space per square foot of material. Large closets in bedrooms provide for a large family and make it unnecessary to line your walls with the bulky wardrobe furniture of yesterday. Thus you take full advantage of your sleeping quarters.

Our Livability Contemporary homes are not modern just for the sake of being modern, but instead are a style born of AMERICAN ingenuity, a sturdy style, with its roots deep in the culture of this country. Decorators suggest either Early American furniture due to its small build or clean-line-modern. The open and uncluttered plan invites relaxation and ease and the large glass areas provide a control center which allows you to watch the children at play from almost any part of the house.

OUR LIVABILITY homes were designed by Mr. Donald H. Hohn who makes it a "habit" of winning first prizes in "Better Homes and Gardens" magazine for best all around design ideas and economy.

YOU CAN AFFORD LIVABILITY Small down payment, up to 30 years of happiness to pay.

### Lenten Rites Set Tonight At St. John's

St. John's Episcopal Church will begin Lent, a penitential season of fasting and prayer in preparation for the great Easter festival, at the Ash Wednesday service at 7:15 p. m. today.

The worship service will begin with the Penitential Office, followed by the sacrament of Holy Communion. The Rev. Curtis Fletcher will be the celebrant.

There will be a Lenten service each Wednesday night at 7:15 at the church during the season of Lent.

The Rev. Curtis Fletcher, vicar of St. John's Church, will begin a 10-week series of adult classes at 8 o'clock tonight. The series is titled "Journey in Faith."

It is designed for several different groups of people: those who wish to clarify their understanding of Christianity as it is interpreted by the Episcopal Church; those who wish to know more about the church without obligation, and for confirmed persons who wish to review and to learn.

Classes will be based on discussion and reading. In discussion groups, questions relative to human life will be raised and discussed. After the discussion, a reading assignment will be made in a series of 10 pamphlets in which basic Christian understandings are set forth.

There will be a registration fee of \$2.50 to help defray cost of the printed materials.

### Total Solar Eclipse Falls On Europe

ROME (AP)—The moon slipped in front of the sun today, producing a spectacular total solar eclipse that was probably watched by more millions than any other in history.

The path of totality—the area directly in the path of the moon's shadow—was in almost complete darkness for more than a minute. Roosters crowed for the second time this morning. Motorists going to work switched on their lights. Stars sparkled.

The 150-mile-wide path of totality fell across southern France, northern Italy, Yugoslavia, Bulgaria and the Soviet Union.

At Florence, in the center of the path, hundreds of thousands of persons stood on hillides surrounding the picturesque city to watch the show.

In Rome, 200 miles from Florence and out of the totality path, a strange half-light led homeowners to switch on lights.

Partisans were more blasé. The eclipse was partial over the French capital but brilliantly apparent through a light morning mist. Along the Champs Elysees a few curious looked up through smoked glasses while hundreds of others walked on to work.

About 60 total eclipses of the sun occur every century, but most are at sea or over remote land areas. Today's came over a heavily populated area, and more millions could see it as a partial eclipse in other areas of Europe, Africa and Asia. A joint television broadcast by European stations carried the show to still more millions.

### AIME Slates Meeting Here Tomorrow

The monthly meeting of the Snyder Chapter of AIME is to be held tomorrow evening at the B & B Steak House on East Highway.

Featured speaker will be W. S. Hilliard of Core Laboratories, Midland, where he is superintendent of West Texas Operations.

His topic is to be "The Effect of Capillary Action on Carbonated Reservoirs."

A social hour from 6:30-7:30 will precede the dinner, which will be served at 7:30.

All members and guests are urged and invited to attend.

### Hearing Delayed For Jackie Coogan

MALIBU, Calif. (AP)—Actor Jack Coogan's preliminary hearing on a narcotics charge will be delayed until March 1 because another case took precedence—a case of the mumps.

The hearing which started last week, was postponed when it was reported that Coogan had the mumps.

Coogan, 46, and Nona Carver, 40, onetime dancer, were arrested Jan. 7. Sheriff's officers said they found marijuana in the actor's Malibu home and in Miss Carver's car parked nearby.

BANQUET PRINCIPALS—H. Roe Bartle, principal speaker at last night's Chamber of Commerce banquet, center, is greeted by Joe Cargile, left, 1961 chamber president, and Gene Dulaney, right, 1960 president. The table decoration featured an appropriate Valentine theme, wcs at the center of the speaker's table in the cafeteria. (Staff photo by Gerry Burton)

# Progress Begins At Home, Says Bartle

H. Roe Bartle, Kansas City's vibrant mayor, challenged Snyder residents Tuesday night to begin with themselves in working for a strong community and a strong America. Bartle, whose own list of accomplishments is long and varied, was the principal speaker at the annual banquet of the Snyder Chamber of Commerce.

Bartle said he spoke from experience, as a son of a Presbyterian minister who attended Baptist, Methodist and Jesuit schools, and who had sung in Episcopal and Disciples of Christ choirs. He climaxed his address by suggesting a formula for progress and community strength: "Let everyone pray to God for a better city and a better America, and let it begin with me."

Gene Dulaney, retiring Chamber of Commerce president, expressed appreciation for the work of chamber directors and members during the organization's past year of work. He introduced the retiring and holdover members of the board. Joe Cargile, 1961 president, laid out a three-point program and a slogan for the new year, "Together, We Build." During the coming year he said the Chamber of Commerce hopes to bring about a better relationship between the organization and its members, seek

# JFK May Announce Spending Speedup

WASHINGTON (AP) — President Kennedy is reported planning to announce tonight a speedup in spending of some federal funds in a fresh effort to spur the lagging economy and reduce unemployment. Informed officials said they understood the President intends to make such an announcement at his news conference scheduled for 7 p.m. EST. The conference will be broadcast live on nationwide television and radio.

On the international front, Kennedy faces questioning about his views on the crises in the Congo and in the United Nations resulting from the assassination of deposed Congo Premier Patrice Lumumba. Heightening the tension are Soviet demands that the matter be dealt with on Soviet terms. The domestic antirecession measure Kennedy is said to have decided upon would not require action by Congress.

There was no immediate word regarding details, but the Kennedy plans are reported to call for issuing new administrative orders to a few federal agencies for spending money faster than planned on some government programs. Ben Jarvis, Tyler, Grainger McIlhenny, Wheeler, and Berry. The hearing climaxed one of the session's longest and most productive days of committee work on numerous other important measures.

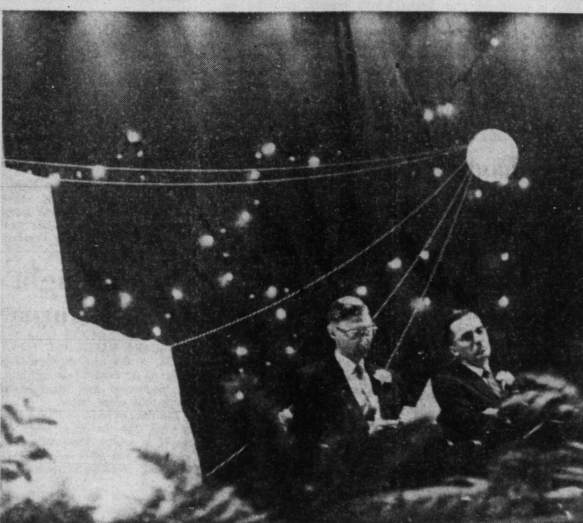

# Racing Bill Goes To Panel

AUSTIN (AP) — The hotly argued proposal to restore big time horse racing in Texas by legalizing parimutuel betting at tracks was sent to a subcommittee early today after a marathon hearing. Rep. V. E. (Red) Berry, self-styled retired gambler and author of the proposed constitutional amendment, made no effort to sidetrack the rule that automatically shuts such measures to subcommittee. He and some opponents of the proposal gave the crowd that defied after six hours from about 1,200 persons to just a few hundred some laughs—and some heated exchanges. But most of the serious argument centered on the question of whether legalized gambling would help or hurt business and the morals of Texas while sidetrack the horse betting issue.

Berry's proposed constitutional amendment would permit local option elections on legalizing parimutuel betting in these counties: Dallas, Tarrant, Harris, Galveston, Bexar, Midland, Hidalgo, Cameron and Webb. To be submitted in the 1962 general election, it would have to win approval by two-thirds of the Legislature. Church and business groups spearheaded a sharp assault on the latest effort to bring back legalized betting on the horses in a state. Backers of the plan had indicated before Tuesday night's hearing that they had some hope for quick action which would send the issue to the floor of the House. Instead it went to the subcommittee headed by Rep. John A. Huebner of Bay City and including Reps. Jerry Butler, Kennedy,

Three water bills, including one proposal to boost the ceiling on loans by the state for building reservoirs, were sent to the Senate calendar by its water and conservation committee and the oil and gas committee. One raises the permitted loans to building subdivisions for dam projects from the present \$5 million to \$15 million. The bill also removes the present restriction limiting state aid to one-third the total cost of the project. This measure, by Sen. George Parkhouse of Dallas is one of Gov. Price Daniel's recommendations for improving the state's water saving program.

# 54 Americans Among 73 Victims Of Plane Crash

IMPRESSIVE BACKDROP—The Rev. R. Charles Spivey, left, and Joe Cargile await their turns on the program at the Chamber of Commerce banquet in front of a giant, unique prop spotlighting Texas and Snyder as significant points on the globe. The huge map of Texas is projected by strings attached to a lighted globe in the background.

# U. S. Skating Team Killed

BRUSSELS, Belgium (AP) — Fifty-four Americans, including the entire U.S. figure skating team perished today in the flaming crash of a Sabena Belgian Airlines jet. In all, the crash of the American-built Boeing 707 brought death to 73 persons. Disaster struck at 10:05 a.m. as the \$5-million plane, its engines suddenly sounding odd, sought a landing in bright sunshine after a flight from New York.

The huge plane slammed to earth beside a woods three miles north of Brussels International Airport and went up in flames fed by fuel oil as the tanks exploded one by one. All 61 passengers and the crew of 11 died. A Belgian farmer tilling his cabbage patch was struck and killed. Mrs. Maribel Vinson Owen, 49, of Winchester, Mass., nine times the U.S. figure skating champion, was killed along with two daughters who were members of the current team. The girls were Laurence Owen, 16, and Maribel Owen, 20. Mrs. Owen last weekend had seen Laurence win the North American championships at Philadelphia.

The Boeing crashed in a small pond and started burning almost at once. Fire engines previously alerted because of its erratic behavior screamed toward the scene, but arrived only in time to check the spread of fire. In addition to the two Owen girls, the members of the U.S. skating team were Steffi Westergaard, Gregory Kelley and Bill and Laurie Hickox, all of Colorado Springs, Colo.; Bradley Lord and Dudley Richards of Boston; Donna Lea Carter, Diane Sherburne and Roger Campbell of Los Angeles; Rhodie Michelson, Long Beach, Calif.; Douglas Ramsay, Detroit; Ray and Ira Rae Hadley, Seattle; Larry Pierce, Indianapolis; and Bob and Pat Dineen, New York.

Residents of the seacoast village of Berry figured something might be wrong when the airliner sped over them for its approach to the airport. The engine roar changed oddly and the flight pattern looked erratic. The plane circled the field a time or two. It lowered the undercarriage, retracted it, turned again and fell. "Suddenly the plane fell in a series of spins," an airport official said. "It literally disintegrated." There was a tremendous explosion. On a Liege-Brussels express train skirting the airport many passengers saw the disaster. Said one: "The plane appeared to be making a normal approach to land when, on nearing the ground, it suddenly reared up pointing almost vertically, nose up into the sky. Then it fell back like a giant stone and we heard an explosion." From her home near the crash scene, Mrs. M. Cronin said the plane was "making much more noise and was much lower than they usually are."

# 10 Day Crude Flow Scheduled For March

By ED OVERHOLSER AUSTIN (AP)—The Texas Railroad Commission today jumped the statewide oil allowable for March by 204,822 barrels a day, setting a permissive flow of 2,980,842 barrels daily. The number of producing days for March will be 10, compared with the eight-day pattern in February.

Because of inability to purchase the spot oil needed, Charles Shaver, Houston attorney representing Humble, told the commission that Humble "will reduce our stocks virtually to tank bottoms by the end of this month below which no reduction is possible."

who testified at the hearing was F. B. Cochran of Corpus Christi. He said producers in that area had met earlier this week and agreed that because of the decline in Texas crude oil stocks and the increase in crude oil received for processing in Texas, he recommended the 10-day pattern. Murray told the oil men that on the 10 day pattern more oil will be produced in Texas in March than in any month since 1948 when the commission permitted 366 oil producing days. Under the commission proration system Texas oil wells will be closed 21 days in March.

# Wild Disorder Sweeps U. N.

BY MAX HARRISON UNITED NATIONS, N.Y. (AP)—Wild disorders broke out in the public gallery of the U.N. Security Council today as U.S. Ambassador Adlai E. Stevenson blasted the Soviet Union for allegedly trying to wreck the United Nations. It was the worst demonstration in the history of the U.N. Council President Sir Patrick Dean of Britain recessed the meeting while guards cleared the gallery.

Stevenson addressed the council in a crisis atmosphere brought on by an unusual intensity by the slaying of deposed Congo Premier Patrice Lumumba. Diplomats acknowledged that not only the fate of the U.N. Congo operation was at stake, but perhaps the fate of the United Nations itself.

# Coast Area Has Showers

BY THE ASSOCIATED PRESS Light rains fell Wednesday near the Texas coast and the U.S. Weather Bureau said on-and-off showers could be expected during the week in the eastern half of the state. Except for clear patches in the Panhandle and along the coast, skies over the state were partly cloudy to cloudy with light rains falling at Alice and other South Texas areas. Houston, Beaumont, Galveston, Wink and Wichita Falls had fog. Pre-dawn temperatures ranged from 30 degrees at Dalhart to 68 at Laredo, McAllen, and Brownsville.

# Milkman's Valentine Reclaimed Quickly

BIRMINGHAM, Ala. (AP)—Like a lot of other people, 8-year-old Becky Givens got the Valentine's Day spirit. As a result, her mother's note to the milkman, decorated with an arrow-pierced heart, read: "2 half gallons, 2 quarts chocolate, 1 orange, I love you."

RUSSELL YORGESSEN

# Five Texas Residents Are Among 72 Crash Casualties

BY THE ASSOCIATED PRESS Five Texas residents—three airline hostesses on a vacation and two men en route to oil field construction jobs—were among the 72 passengers killed Wednesday as a jet airliner crashed in Belgium. The stewardesses, all employed by Trans-Texas Airways, left Dallas Tuesday en route to spend two weeks in Europe. They were Miss Linda Foster and Miss Daurice Herring, both 24 and originally from Baytown, Tex., and Miss Iris Duke, 27, listed as Houston and from Nashville, Tenn. The trio shared an apartment in Dallas, home base for Miss Foster and Miss Herring, with

# Yorgesen To Seek Council Post Again

Russell Yorgesen, councilman for place No. 1 on the Snyder City Council, filed for re-election Tuesday afternoon with city secretary K. O. Finner. One of the 15 men who worked for more than a year to draft the city charter adopted in 1952, Yorgesen is completing his first term on the council. Yorgesen, a 45-year-old accountant with the firm of Deffenbach and Yorgesen, lives at 2903 Thirty-seventh Street and is the first candidate to throw his hat in the ring for the city election set for April 4. The two other vacancies to occur on the city council are Place No. 3, held by Bill Eiland, and Place No. 5, held by Jim Mixon.

### WEATHER.

SNYDER TEMPERATURES: High Tuesday, 65 degree; low, 48 degree; reading 51 at 10:30 a.m. High Thursday 79 to 78. North Central Texas: Fairly cloudy through 7:30 p.m. Scattered showers and thunderstorms tonight Thursday partly cloudy. Low tonight 50 to 58. High Thursday 78 to 76. Northwest Texas: Partly cloudy through Thursday. Low tonight 52, next to 49. High Thursday 65 to 75.

**INITIATION HELD**—The Licensed Vocational Nurses of Cogdell Hospital held a short business meeting and initiation service for incoming officers Monday evening at the hospital. Refreshment for the evening carried out a Valentine motif. Pictured above are those who were installed and the installing officer. From left: Martha Floyd, treasurer; Lydia Davidson, president; Elaine Armstrong, secretary; Ruth Rodgers, second vice president; and not pictured Nelda Bills, first vice president. Gwendolyn Groves, R. N. at extreme right is superintendent of nurses at Cogdell Hospital and was installing officer.

## Friends Gather At West Home

A group of friends gathered at the home of Mrs. Goldie West at Ennis Creek Monday for a lunch-

**INSTALLED**—Miss Gloria Proctor, 15, daughter of Mr. and Mrs. G. P. Proctor, 325 Thirty-first Street was installed as Worthy Advisor of the Order of Rainbow Girls in special services held recently at the Masonic hall. Out-of-town guests were from Colorado City, Sweetwater, Abilene, Midland and Big Spring.

## KNAPP NEWS

By MRS. BEN WEATHERS  
Mr. and Mrs. Wayne Crow and sons returned the first part of the week after visiting with Fannin County relatives.

Mr. and Mrs. Fred Rice have been recent visitors of their daughter, Mr. and Mrs. Jerry Test of Abilene.

Mr. and Mrs. Doyle Lovell visited Wednesday in Big Spring. Misses W. R. Dunlap, Barbara Elliott, Melba Love and Doris Steadman attended the American Cancer Society film strip showing Wednesday night at Gail school. Mrs. Ben Weather's was on the refreshment committee.

Misses T. D. Clawder and Patsy Cary of TCU Ft. Worth, were weekend visitors in the H. H. Cary home and other relatives.

A. L. Potzet formerly of Coleman, is visiting Mr. and Mrs. Cecil James and family.

Jinkins Moreland returned Thursday from visiting with Lamesa relatives the past few days.

Mrs. Cora Weathers and Ben Weathers were visiting in Sweetwater Wednesday.

Mr. and Mrs. H. H. Cary attended the National R. E. A. meeting at Dallas the first part of the week.

Mrs. Lena Bodenman and daughter Elsie of Lubbock were weekend visitors in the J. E. Sorrells' home.

Troy Wylie has been a recent visitor on business at Houston.

Mrs. Wesley Whitman of Andrews visited over the weekend with her sister, Mr. and Mrs. Cecil James.

Rev. and Mrs. O. O. Carruth and were dinner guests in the M. M. Bramble home and visited in the afternoon in the P. McDonald home at Fluvanna.

Mr. and Mrs. H. O. Phillips were weekend visitors in the F. Phillips home at Midland.

Mrs. Halley Browne and daughters were weekend visitors in the J. B. Cotton home at Seagraves.

The Bruce Murphy's of Melrose, N. M. and Mr. and Mrs. Glyn Ed Murphree and family of Breckenridge were weekend visitors of Mrs. Frieda Murphy.

**SPECIAL COURTESY**—Mrs. Ethel Eiland of 2806 Avenue U is one person in Snyder who appreciates the special courtesies extended by local beauticians. She is pictured above with her beauty operator, Mrs. Thelma Clark who comes to her home to see that she is one of Snyder's women who always has a becoming coiffure as well as other beauty aids. Mrs. Eiland is unable to go to the beauty shop so the beauty shop comes to her. This is just one of the many jobs local beauticians do that is not recognized by local citizens, but this being National Beauty Week we thought it merited recognition.

Per capita consumption of meat in the United States in 1959 averaged 160 pounds, compared to 234 pounds for Australia and Uruguay, and nine pounds for Japan.

Use creamed vegetables for an oven pie. Give them a pastry topping! Delightful to serve at a buffet supper that is starring baked ham as the main course.

30% 42% 15%  
24% 52%

Question: What are these percentage figures?

Answer: Most of our costs of providing your electric service have increased during the past nine years, and these percentage figures represent actual increases during this period in important items of our cost of doing business.

Wages, copper and aluminum wire, transformers, crossarms, natural gas to fire our boiler furnaces, insulators, and nearly everything else we use in our business have increased in price. In the face of these increases, Texas Electric is proud to have been able to hold the price line for our customers.

Because most folks are using more electricity today, many of them don't realize that the average price paid for a kilowatt-hour of electricity by our residential customers is lower now than it was in 1950.

This has been possible because of increased efficiencies in generating and distributing electricity, increased sales of electricity, and because of the skilled men and women who have a part in providing your electric service.

Although these efficiencies are not offsetting today's higher costs of doing business, we are maintaining the high quality of electric service which is essential to the growth and development of the area.

### THE OLD ROCKING CHAIR'S GOT HIM

## Gold Trouble Disturbing, But Dollar Remains Strong

BY INEZ ROBB

Not even Midas was more disturbed by his gold problem, impossible as it was, than we Americans by our own in recent months. To most of us, the gold reserve is a puzzling factor that moves in wondrous ways its international monetary mysteries to perform.

So I hasten to pass along a thoughtful and optimistic dissection of the American gold situation by a man who, for the past 40 years, has divided his time between public service, banking and a big business. Lewis W. Douglas, who has served his country in a dozen different capacities from Director of the Budget to our Ambassador to Great Britain, in a recent speech before the American Institute for Foreign Trade in Phoenix, Ariz., said, among other things that:

"The dollar is the strongest currency in the world." "Our economy is massively powerful." "We are the greatest creditor nation in the history of the human race." "America is 'not pricing itself out of the (international) market,' and that massive factors are at work that 'over the course of time are more apt to create a weakness of other currencies against the dollar rather than a disturbance of the dollar against other currencies.' "If we will manage our internal financial affairs wisely and pursue a prudent fiscal policy," Douglas said, "and operate more closely with central banks abroad and do a variety of minor things, the problem about which some people are unnecessarily disturbed will soon evaporate like water under the desert sun. Indeed it may become completely reversed."

Douglas told his audience, in reviewing the history of the gold

"crisis" that "Our country deliberately chose in 1948 to distribute our gold. The choice was made in the belief, in which I then concurred and still do, that our national interest required us to behave as we then behaved. It provided Western Europe, which had been so ravished by war, with an opportunity to recapture political, economic and moral stability and confidence.

"Since 1948 we have, as a result, been losing gold, but this was pursuant to our basic policy. As Western Europe recovered, our losses became greater. As the movement of dollars into foreign investments on private account became larger and larger, the outflow of gold was augmented.

"I would remind you, however, that we still have approximately 49 per cent of all the monetary gold in the world and that, though the liabilities are heavy, they are less heavy than those of any other monetary reserve of which I have any knowledge with the possible exception of the West German Republic.

### Gets Fast Action

PIKEVILLE, Ky. (AP) — Suda Weddington got fast action when she appeared before city officials to complain the street in front of her house was dirty. They gave her a broom, explaining the street budget was limited.

## Housewife Is Now General 'Handyman'

By HAL BOYLE

NEW YORK (AP)—Whatever happened to the jack-of-all-trades? In our pioneer days practically every frontier settler had to battle the wilderness almost single-handed. He had to be a man of many talents to survive.

As time passed and our civilization grew more complex, the original pioneer American jack-of-all-trades tended to vanish from the scene. Men learned to specialize in a single craft or art.

But the tradition of the jack-of-all-trades endured and was kept alive by a new fellow on the scene—the general handy man.

Every community had, at least one, and usually several.

The handy man wasn't exactly looked up to by his neighbors. He was characteristically a rugged individualist who didn't like the idea of settling down to one job or one boss—or even one wife.

He was a colorful character who prized his own freedom, worked only when he wanted to, and often was strongly addicted to the chain's tobacco and bottled grain.

But whenever he dropped by sober and knocked on the back door, the general handy man was welcome in most households. They needed his skills. For a dollar or so, a meal or two, and maybe an old coat or pair of pants, he would cut the lawn, carry out the ashes, beat the rug, fix a leaky roof or mend a drain pipe.

Whatever chore had to be done, he could find a way to do it. And he had one unbeatable virtue—it didn't cost much to hire him.

That old-fashioned type of handy man is almost impossible to find nowadays.

The new type of handy man is also difficult to find now—and he is a completely different kind of character. He is usually married, industrious, busy as a bee—and almost as businesslike as a banker. In fact he is a one-man industry.

The trouble is that when you want him in a hurry, he's often unavailable.

An experienced general handy man can earn from \$150 to \$300 a week or more in some areas—and does.

His high cost and unavailability when needed in an emergency has resulted in the rise of a completely new jack-of-all-trades—the suburban housewife.

Necessity has made her a jill-of-all-trades.

In America's burgeoning suburbs today there are thousands of housewives who can outdo the pioneer mothers of yore in many ways.

They don't make soap or help fight off the Indians.

But many of them can handle minor plumbing jobs, put up wallpaper, paint a house, fix a broken vacuum cleaner, rewire a floor lamp—and do 1,001 other things necessary to keep a home in order.

Smart husbands encourage these new jills-of-all-trades to learn as many skills as possible. And for a very good reason.

**Name Too Long To Go On A Check**  
TAMPA, Fla. (AP) — A man booked into city jail gave his name as Patrick O'Connellonegghaugh.

He was charged with forging the name of "Patrick O'Day" on a check.

One officer remarked, "Heck, maybe he just couldn't get all of his name on the check."

# Attack By Soviet Threatens Crisis

By JOHN M. HIGHTOWER  
WASHINGTON (AP) — The Soviet Union's attack on the United Nations operation in the Congo threatened today to touch off a new crisis in relations between Washington and Moscow at a time when they have shown hopeful improvement.

Such a crisis seems inevitable if the Soviet government forces to a showdown the threats and demands it has made as a result of the slaying of former Congolese Premier Patrice Lumumba. The futures of both the Congo and the United Nations appeared to be at stake. The Congo now could rapidly become the arena of intensified East-West conflict; the United Nations could be virtually paralyzed as a peacemaking organization.

## Senate Race Beginning To Gain Steam

BY THE ASSOCIATED PRESS  
The Kennedy administration and a Washington newspaper editorial were principal topics this mid-week in the special U. S. Senate race in Texas.

The lone Republican in the April 4 election, John Tower, said at Dallas that the Kennedy administration plans to hamstring business even more.

"I think the real solution to unemployment in depressed areas can be found in removing burdensome controls, taxes and competition imposed on private business by the government," he said.

Support by 22 members of the State Democratic Executive Committee was claimed by U.S. Rep. Jim Wright of Fort Worth. Earlier Ed Connolly of Abilene, committee chairman, announced his support of interim Sen. William A. Blakley.

Blakley, a target of criticism by a Washington Post editorial for his opposition to the confirmation of a Negro to a top housing position, said Tuesday "Texans are capable of deciding for themselves whom they want to represent them in the United States Senate."

State Sen. Henry Gonzalez was the principal speaker at a dinner of the Mexican Chamber of Commerce in Corpus Christi Tuesday night. He plans to campaign in the Galveston area Friday and in Houston Saturday and Sunday.

Endorsement by the editor of the Alamo Messenger, official Catholic newspaper for the Archdiocese of San Antonio, was announced by Maury Maverick Jr.

## Fasnacht Day Observed In Pennsylvania

LANCASTER, Pa. (AP) — The Pennsylvania Dutch have signaled the start of the Lenten season with their traditional Fasnacht Day observance.

Fasnacht Day, or shrove Tuesday, was observed by the Pennsylvania Dutch as they followed tradition by consuming hundreds of thousands of Fasnachts—square doughnuts without holes made of flour and fried in deep fat. Fasnacht is German for "fat night."

By old tradition the day before the start of Lent in the Dutchland is a time for all to go on a big eating spree.

In years past, virtually all the Pennsylvania Dutch fasted from certain foods, mainly pastries, during the solemn season of Lent. Housewives, therefore, couldn't use their fats during the Lenten season. So they gathered up all the fat in the house and baked square doughnuts, then feasted.

While the Pennsylvania Dutch still observe Fasnacht Day, some of them do not fast during Lent. Those who do not fast go along with the Fasnacht Day observance because of tradition.

Bakeries now produce most of the doughnuts and put powdered sugar on them, which wasn't done in previous years. The bakeries reported their production this year totaled \$26,000. One bakery reported making 15,000 dozen. Church and civic groups made thousands more as fund-raising projects.

## \$3 1/2 Million Left By Oilman's Widow

HOUSTON (AP)—Mrs. Lillie C. Cullen, widow of oilman Hugh Roy Cullen, left an estate valued at \$3,362,884 when she died in late 1959.

The estate inventory, filed with probate Judge Clem McLelland, included real estate worth \$2,175,181; \$110,000 in cash; stocks and bonds worth \$1,046,238; and other personal property worth \$128,555. Cullen and his wife gave more than \$10 million to hospitals and schools before his death in 1955.

Mrs. Cullen will set up trust funds for her four daughters, their 12 children and five grandchildren.

The turbulent situation confronts the Kennedy administration with a crucial test of its diplomatic skill and policy resources when it is still less than a month old. It injects an element of deep uncertainty into the prospects for a meeting some time later this year between President Kennedy and Soviet Premier Khrushchev.

The Soviet leader's interest in a meeting with Kennedy could serve as a restraint against his forcing Congo and U.N. demands to the point of no return. These Soviet threats may be a declaration of bargaining demands, with the Soviets hoping to accomplish somewhat less than they asked.

Officials here were reported hopeful that the situation can be brought under control before its most dangerous potentialities develop much further. To that end, it is understood, they are counting heavily on closer ties with the smaller nations, especially African states, to rally to the defense of the United Nations against Soviet demands.

The White House and State Department withheld any comment although Secretary of State Dean Rusk and other high officials devoted considerable time to studying the problems raised. Kennedy will have an opportunity to express his own views tonight. He has scheduled a televised news conference for 7 p.m. EST.

Indian Ambassador M. C. Chagla said after a conference with Rusk late Tuesday that his government was "very apprehensive" about the repercussions that Lumumba's death "might have not only in the Congo but all over the world."

Chagla said India favors strengthening the United Nations declaring that "it is only as the United Nations is effective that we will prevent civil war."

U.S. officials said privately that Moscow seems intent upon exploiting the worldwide excitement which exploded Monday over the disclosure of Lumumba's death. The Soviets apparently seek two objectives—to destroy the effectiveness of the United Nations as an international agency capable of dealing with crises like that in the Congo, and to open the huge African country itself to Communist conquest.

## Year 4659 Starts Today For Chinese

NEW YORK (AP) — "Kung-ho Shai-nien." Or Happy New Year to you. Have a cup of "Dragon's eye" tea.

But is it the Year of the Ox or the Year of the Cow? The Chinese can't agree. Anyway, it's a great day today in Chinatown—the start of the year 4659 by the Chinese lunar calendar.

Ox or Cow — the celebration started Tuesday night with dancing lions and costumed paraders jamming the narrow streets to the accompaniment of firecrackers. Dragons and unicorns will join the festivities today.

Chinese tradition has 12 animals the believing—the rat, tiger, rabbit, dragon, snake, horse, goat, monkey, cock, dog, pig and cow or ox.

One celebrating group says it is "going all out for the cow." But a spokesman for the Chinese Consolidated Benevolent Association declares it is the year of the Ox.

It doesn't make much difference, says Chinese Consul General K. W. Yu. He says the Chinese have the same character for both sexes. The year of the Horse might also be the year of the Mare, and so on. The general practice, he added, is to use the male of the species to designate the new year.

## Full Coverage Is Scheduled

NEW YORK (AP)—All three major television networks plan live coverage of President Kennedy's news conference tonight.

The Columbia Broadcasting System, which earlier had said it would rebroadcast the 7:30 p.m. EST conference at a later hour, said Tuesday night it had changed its mind.

The network cited "overriding reason" for the change—the situation in the Congo following the death of ex-Premier Lumumba, and the announcement the Kennedy will make a major statement on the nation's economy.

The National and American broadcasting companies announced last week they would carry the half-hour conference on a live basis.

The news conference also will be carried live on NBC and ABC radio, and rebroadcast by the CBA radio network at 8:15 p.m.

# Tornadoes Trump Tigers In Final Tilt

## Fleming In Stellar Role

LAMESA—Ouch! The Golden Tornadoes from Lamesa High grabbed a Tiger by the tail here last night and gave him an 87-47 "going over" as 1,910 partisan fans roared their obvious approval.

The easy victory, which capped off 3-3A cage play for the regular season, preserved Lamesa's district winning streak over the past two years at a perfect 16. It also dropped the Tigers into a final tie for second with Sweetwater, which kept pace by clobbering Colorado City in other final action of last night by an almost-identical score of 67-45.

Thus, final district standings show Lamesa with an 8-0 record; Snyder and Sweetwater with 5-3; Colorado City with 2-6, and Lake View with 0-8.

Lamesa also won the "B" game between the two schools, dropping the Snyder five to 12-4 for the year with a 53-38 bouncing.

Only in the first quarter did the Bengal boys manage to stay with the eventual winners, as play during that period saw the score being tied on six occasions and the lead changing hands three times.

The Tigers spurred out to advantages of 2-0 (thanks to an early hook shot as recalled by Charlie Gladson), 4-2, and 6-5 before the Tors got their offensive gears meshed. Bengal Fitch Hatter dropped in a 15-foot jumper from the side to knot the count at 12-12 late in the quarter, and that proved to be the final scoring static Tiger-Wise for some time, as the Lamesans began to hit from everywhere, while Snyder couldn't buy a bucket.

Following that at 12-12 deadlock Lamesa went on to post a 49-16 halftime lead, spurred on by a maddening 31-point second stanza which saw the Tigers scoring only 11 points—all charity tosses as lofted by Jimmy Don Robinson. During that decisive second period the Tors managed to sink 12 of 18 field goal attempts to completely obliterate any Snyder hopes of pulling the game out of the fire.

The Tiger dry spell from the field lasted two and a half minutes into the third quarter, too, at which point piston-powered Bolan Fleming drove in for a layup, and meshed a long set shot on the heels of same to snap his mates out of the doldrums.

Fleming, who saw only second half duty, was the bright spot in the flickering Tiger offense, which succeeded in earning six field goals—two of which were from foul, in the neighborhood of 25 feet from the hoop—to lead Snyder scoring with 14 points. Hatter added 15 to the cause, while scoring ace Weldon Ware was semi-throated in being held to 8 for the night.

A total of 12 Tors crawled into the scoring column, with Ken Crouch leading the way with 20. Towering Bruce Ashton followed up with 16, while Gene Westmoreland and Wallace Franklin clipped in 14 and 10, respectively.

In dropping their preliminary game, 53-38, the Tiger Bees experienced a cold night from the slinking, capitalizing on only 13 of 55 shots for a frigid 23.6 per cent average.

In the meantime Lamesa sent up a fever but made good on those lofty hopes by a much greater margin, slinking a torrid 66 per cent for the game.

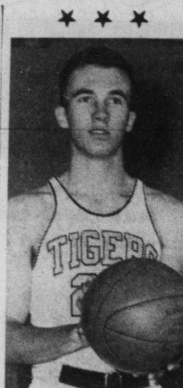

For the first time this season no Tiger "B" teamer managed to break into double figures, although assistant Larry McVair was knocking on the door with his 9. Tim Marcum followed with 6 and Johnny Mitchell with 5.

FLEMING Fans Flickering Flame

## Texas League To Operate Sans Tulsa

TULSA, Okla. (AP) — Tulsa's ball club faced removal to another city today. Tulsa Tulsa will be without Texas League baseball for the first time since 1983.

President Grayle Howlett could not reach an agreement with the Tulsa Fair Board on repair of the ball park—a \$25,000 item—and he said he would have to move the franchise.

He would not hint where it might go but Oklahoma City and Albuquerque are among cities expressing interest in getting the club.

A special committee named by Mayor James L. Maxwell to try to keep baseball alive here held a meeting Tuesday and told Howlett the money could not be raised for the repairs. Thus there was no alternative but to move the franchise.

## Card Wings Clipped, 43-40

WESTBROOK—It's all even up at one epic now, as the Westbrook Wildcats rebounded to thump the Hermleigh Cardinals, 43-40, here last night in the second of a best of three playoff for the District 92-B cage title.

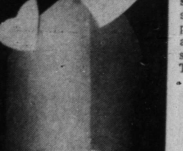

The third and deciding tilt will be unrec'd at Colorado City Friday night at 7:30.

The Cards held a 29-24 pad at halftime, but couldn't hold onto the advantage during the latter stages. Jesse Watson poured in 24 points to lead the way for the Wildcats, while Wallace Wall paced the Card attack with 13. Cardinal Joe Pate also climbed into the twin-figure bracket with 10.

Totals Follow: HERMLEIGH—Wallace Wall 5 3 13; Joe Pate 5 10 1; James Vernon 4 9 8; Ken Bell 1 4 8; J. B. Robertson 1 1 3; Totals 16 8 40.

WESTBROOK—Conaway 3 2 8; Byrd 2 0 4; Bird 2 3 7; Watson 10 4 24; Totals 17 9 43.

Hermleigh 12 17 6 5-40; Westbrook 9 15 13 6-43.

TAYLOR-MAID "QUEEN" For A Day

## Between You And Me

BY JERRY JACKSON

"Beat the teachers!" Not physically, of course, but rather on the basketball playing floor. That was the work which was cut out and accomplished by the crack Travis 9th quint here yesterday in a rough-and-tumble free-for-allish fray in Blue Devil Gym.

Well, at least I THINK they won. It was a little unusual, really, though, and just a teeny bit hard to figure. You see, the score was 24-17 for the students at the half, but when the second half started it was nothin' to nothin' again.

Either the Blue Devils got together and voted to give the teachers a new lease on life ("Sportsmanship, Then Victory" is the motto of our high), or the guy keeping the scoreboard was crooked. Naturally, I'm not at liberty to name the scorer, but his initials are "E. P." And here's another hint—that "P" in his last name is pronounced like an "F."

Anyway, the faculty—given that unusual incentive—was the SECOND half by 12-11. Cries of "fraud!" and "cheaters never win" were heard to echo from the gym's confines, but as yet the faculty cheering section wore bob-cuts, painted freckles, blacked-out teeth, and a pin curl or two. They saw to it that battered returning warriors got their heads b-r-o-w-s mopped, complete with words of encouragement, when they staggered benchward. Also, a bunch of little yellow after-dinner mints (they melt in your mouth—NOT in your mitts—just like M & M's) were at the disposal of the "pills," but they ate the things like they were candy or something.

The number of faculty participants playing at one time varied from the regulation five to as many as ten. The students were not prone to object, however, and being of the mind to split hairs after all, the teachers needed all the reinforcements they could get and then some.

The queen as presented at the rally—bless her!—was dubbed Brigitte Taylor. But in reality it was BYRON Taylor disguised in a wig. I could tell that, and never did even have to get up very close. I've never seen a man get so close to me in his life, and Byron is no exception.

As is customary, a crowning of the "queen" was in order, and was attempted by Ray Courtney. Byron—er, uh... Brigitte—could only smile demurely and cast a becoming downward glance during the ceremony. And when his highness got ready to leave, he almost tripped over his eyes. Well, occupational hazard, and he helped along any by those high heels.

Jim Stewart (assistant principal in real life), who had given it his all during the losing first half, looked fairly puffed as the second half loomed ever closer. "It's pretty rough when you've only got one lung," he mourned in a confidential manner.

He didn't elaborate any further, but I got the message. One congenial and philosophical student gazed out on the jumbled spectacle for a few moments, then peered down at me from row 6 and murmured, "How did we the students' ever learn anything from THEM (the teachers)?"

I could only shrug a wondering shrug. Her question unanswered, she then glanced back out at the game with a look on her face comparable to that which Darwin probably had on surveying his first chimpanzee.

It was quite a ball game, folks. Sam Jones pitched a one-hitter and a pair of two-hit games for the San Francisco Giants last season. He had three three-hitters.

RIDE 'EM, COURTNEY—Roy Courtney of the Travis faculty took first in the saddle bronc division here yesterday during its game against the Blue Devil 9th. Eying the flea-on-a-hot-griddle are Bob Tomack (35), Frank Miller (41), Rex Akir (partially hidden by Courtney), and Roy Rice (24). (Photo by Jackson)

## AGGIES TURN TRICK

### Tech Nipped, 74-71

BY THE ASSOCIATED PRESS Hold up a bit on awarding the Southwest Conference basketball championship to Texas Tech—the Red Raiders all of a sudden are mixed up in a three-way fight for it.

The Raiders were riding high, wide and handsome, boasting a two-game lead and generally considered to be "in" Tuesday night when they tested the belligerent Texas Aggies on the latter's home court. A&M rose up and whipped Tech 74-71 and that tightened up the race.

Now Tech is only a game ahead and the Aggies and Arkansas are in hot pursuit. Arkansas might do something about it right quick, too. The Razorbacks play Texas Tech at Lubbock Saturday night. A victory would throw the Razorbacks into a first place tie with the Raiders.

Arkansas climbed back solidly into the race with a 74-59 thumping of Texas. The loss just about pulled SAU into a tie with Texas for fourth place.

Strange 204 26 points as he broke out of a slump that had cost him the conference scoring lead to a 5-4 record, two games off the pace.

Texas A&M couldn't stop Tech's one-two punch of Harold Hudgens and Ray Del Mounts but Tech couldn't handle Carroll Broussard, Lewis Qualls and the Stanley Lewis-Pat and Don—either.

A&M led practically all the way and was three points to the good with the only 59 seconds left. Tech put on a press but it only led to fouls.

Mounts shaded Broussard in the scoring race. He pitched in 23 to 20 for Broussard. But the latter still was ahead with 412 points to 396 for the Red Raider hotshot. Hudgens outscored them all with 24 points.

Arkansas led all the way in shattering Texas' dreams of a repeat. Jerry Carlson pushed the Razorbacks out front early and Arkansas led 22-5 before Texas went the action down.

Ronnie Garner led the scoring with 21 points. Al Almanza topped Texas with 17.

Steve Strange returned to the firing line with a vim to lead Southern Methodist to a 73-66 triumph over Texas Christian. It

## Aussie Transplant Has Rave Notices

BEAUMONT, Tex. (AP) — The first Texan to clear seven feet in the high jump may be an Australian.

Sounds unusual, to say the least, but it's a fact. He's Colin Ridgway, transplanted from the land of the kangaroos and wallabies to Texas soil only a week ago.

He's a student at Lamar Tech here and will move into competition next month.

The 6-foot-5 thin man from Adelaide, Australia, already has done 6-11 in the high jump and thinks he can hit the seven-foot mark before the season is over. His coach, Tyrus (Ty) Terrell, thinks so, too.

Texas once had an athlete who did seven feet but it was in an exhibition. Walt Davis, the former Texas A&M star, did it. But in competition Davis, who was Olympic champion in 1952, never reached the magic figure.

Ridgway was out jumping as soon as he arrived here. On the second day he cleared 4 feet 7 inches.

He is only 20 years old but appeared in the 1986 Olympic games, tying for seventh in the high jump with 6 feet 8 1/2 inches. He tried out in 1980 and tied for a berth on the Australian team. Chilla Porter, the man who tied with him, got the place.

But Ridgway went to the Olympics anyway. He was there only to watch but decided he'd just work out with the boys. So he leaped 6 feet 11 inches in practice.

Ridgway came to Lamar Tech on recommendation of Ralph Higgins, coach of Oklahoma State who was one of the Olympic coaches. Higgins is a friend of Terrell.

The Aussie also is a sprinter, running the 100 in 9.8, and broad jumps 24 feet.

"I understand that in this part of the country that's not too good," Ridgway commented. But that time and distance will win points in most meets.

Junior Editors Quiz on BIRDS

QUESTION: How many kinds of eagles live in North America?

ANSWER: The eagle is one of the largest and fiercest of birds. The several species vary widely in size, looks and habits, but all have large, strong bills and powerful claws. Only two eagles—the golden eagle and the bald eagle—make their home in North America.

FOR YOU TO DO: The next time you visit the zoo, make it a point to go to the area where birds are kept and look at the eagles.

(Thomas Kulp of Clark, N.J., wins \$10 for this question. Mail your question to Violet Moore Higgins, A. P. Newsfeatures, in care of this newspaper.)

Jury Rules Children Must Enter School Says JFK Will Become Style-Setter

HOUSTON, Tex. (AP)—Thomas Wilson, 37, an inventor who likes to do his own thing, must send his children to school. That's what a jury in Justice of the Peace Tom Mues' court said Tuesday in finding Wilson \$5 for not sending one of his six youngsters, Carl, 12, to school.

Wilson was fined on one of three charges. He was also accused of keeping Floyd, 11, and Dennis, 8, out of school. The jury didn't rule on these charges.

Wilson's lawyer, Homer Cox, said he plans to appeal. Three of Wilson's six children—two of them delivered by him without a doctor's help—were in the courtroom.

C. J. Everitt, assistant principal at the East Houston Elementary School, said he warned Wilson in December to enroll the three older children.

"He told us he preferred to keep them at home and teach them because he could do a better job," Everitt said. Wilson said he was an electrician, electronics technician, brick layer and studied medicine.

"I like to do things by myself and I like to teach my children to do likewise," he said.

Grace Church Sets Service

As Wednesday, the first day of Lent, will be observed by the Grace Lutheran Church at 7:30 p. m. with a Holy Communion Service.

The church holds services in the West Elementary School Auditorium, pending completion of its building in Cogdell Center.

The Rev. Walter Lentz, pastor, will have as his subject for the service tonight, "The Way of Discipline." During the Lenten season, the local church will have mid-week Lenten services every Wednesday at 7:30 p. m.

Contraband Cargo Seized In Mexico

ATIZAPAN, Mexico (AP)—Customs officials seized \$40,000 in contraband cashmere and Japanese silk here but some of the smugglers, believed to be Americans, escaped in a twin-engine plane.

Authorities said Mexican men who watched them unload the cargo. The driver of a truck who attempted to haul the contraband cloth away, told police that he was hired for the job by an American who appeared to be about 35 years old.

He said the pilot of the plane was also an American.

Langtry, Tex., was named for the famed actress Lily Langtry.

BASSRIDGE ADDITION

On The Hill South Of The Park COUNTRY LIVING... CITY STYLE

LIVABILITY It's important that we sell... means good plans with lots of space

LIVABILITY means well equipped houses built of materials that are easy to maintain

LIVABILITY means a successful design because it's really functional from the ground up

In Other Words LIVABILITY means houses that SERVE the people that live in them

Our Modern Contemporary Homes are perfect examples of LIVABILITY because they are a combination of the past and the present skillfully blended together to give that functional simplicity of design that offers you maximum space per square foot of material. Large closets in bedrooms provides more than adequate storage for a large family and makes it unnecessary to line your walls with the bulky wardrobe furniture of yesterday, thus you take full advantage of your sleeping quarters.

Our Livability Contemporary homes are not modern just for the sake of being modern, but instead are a style born of AMERICAN ingenuity, a sturdy style with its roots deep in the culture of this country. Decorates suggest either Early American furniture due to its small build or clean line modern. The open and uncluttered plan invites relaxation and ease and the large glass areas provide a control center which allows you to watch the children at play from almost any part of the house.

YOU CAN AFFORD LIVABILITY Small down payment, up to 30 years of happiness to pay.

### Lenten Rites Set Tonight At St. John's

St. John's Episcopal Church will begin Lent, a penitential season of fasting and prayer in preparation for the great Easter festival, at the Ash Wednesday service at 7:15 p. m. today.

The worship service will begin with the Penitential Office, followed by the sacrament of Holy Communion. The Rev. Custis Fletcher will be the celebrant.

There will be a Lenten service each Wednesday night at 7:15 at the church during the season of Lent.

The Rev. Custis Fletcher, vicar of St. John's Church, will begin a 10-week series of adult classes at 8 o'clock tonight. The series is titled "Journey in Faith."

It is designed for several different groups of people: those who wish to clarify their understanding of Christianity as it is interpreted by the Episcopal Church; those who wish to know more about the church without obligation, and for confirmed persons who wish to review and to learn.

Classes will be based on discussion and reading. In discussion groups, questions relative to human life will be raised and discussed. After the discussion, a reading assignment will be made in a series of 10 pamphlets in which basic Christian understandings are set forth.

There will be a registration fee of \$2.50 to help defray cost of the printed materials.

### Total Solar Eclipse Falls On Europe

ROME (AP)—The moon slipped in front of the sun today, producing a spectacular total solar eclipse that was probably watched by more millions than any other in history.

The path of totality—the area directly in the path of the moon's shadow—was in almost complete darkness for more than a minute.

Roosters crowed for the second time this morning. Motorists going to work switched on their lights. Stars sparkled.

The 150-mile-wide path of totality fell across southern France, northern Italy, Yugoslavia, Bulgaria and the Soviet Union. At Florence, in the center of the path, hundreds of thousands of persons stood on hillside surrounding the picturesque city to watch the show.

In Rome, 200 miles from Florence and out of the totality path, a strange half-light led homeowners to switch on lights.

Parisians were more blasé. The eclipse was partial over the French capital but brilliantly apparent through a light morning mist. Along the Champs Elysees a few curious looked up through smoked glasses while hundreds of others walked on to work.

About 60 total eclipses of the sun occur every century, but most are at sea or over remote land areas. Today's came over a heavily populated area, and more millions could see it as a partial eclipse in other areas of Europe, Africa and Asia. A joint television broadcast by European stations carried the show to still more millions.

### AIME Slates Meeting Here Tomorrow

The monthly meeting of the Snyder Chapter of AIME is to be held tomorrow evening at the B & B Steak House on East Highway. Featured speaker will be W. S. Hilliard of Core Laboratories, Midland, where he is superintendent of West Texas Operations.

His topic is to be "The Effect of Capillary Action on Carbonated Reservoirs."

A special hour from 6:30-7:30 will precede the dinner, which will be served at 7:30.

All members and guests are urged and invited to attend.

### Hearing Delayed For Jackie Coogan

MALIBU, Calif. (AP)—Actor Jack Coogan's preliminary hearing on a narcotics charge will be delayed until March 1 because another case took precedence—a case of the mumps.

The hearing which started last week, was postponed when it was reported that Coogan had the mumps.

Coogan, 46, and Nona Carver, 46, sometime dancer, were arrested Jan. 7. Sheriff's officers said they found marijuana in the actor's Malibu home and in Miss Carver's car parked nearby.

Capt. Joseph W. Kittinger Jr. of the U. S. Air Force holds the world's record for a manned balloon flight. He reached a height of 192,500 feet and then parachuted to earth.
