

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, August, 16, 1928

Number 18

Off to Austin in Interest of Road to Noxville

Judge J. B. Randolph, accompanied by Judge Coke R. Stevenson, departed for Austin Wednesday. Judge Randolph made the trip in the interest of the Roosevelt School District, and in order to expedite the approval and sale of the school bonds so the bond money would be available in time to construct a building for the Roosevelt District to be used the coming term.

Judge Stevenson will go to the State Highway Engineer in an effort to interest them in the construction of a road from Harper to Segovia, instead of over the survey recently made by the Highway Department.

We do not wish to be premature in offering suggestions, but fail to realize the purpose of making a survey over the route the engineers have surveyed to date, without also making a survey from Harper via Noxville and Segovia. The criticism seems to be that a road east of the Segovia school house or in that neighborhood would parallel Highway 27. As a matter of fact we feel sure a survey would disclose that such is not the case.

To begin with, the people of the Noxville community voted a bond issue for the purpose of constructing a road to their

county seat on the nearest and most practical route. The road actually surveyed by the Highway Engineers would serve but very few of the people effected, and certainly would be unfair to perhaps 80% of the tax payers of that district. These people have offered their money to the State Highway Commission in order that it may be utilized for the benefit, for not only their own community, but to any traveler from Houston to the Hill Country or from El Paso to the State Capitol. The people of the Noxville community and any and all the travelers who may be going from the coast to the hills or from El Paso to the State Capitol would not be interested in traveling around an elbow Southeast from Segovia of the surveyed route, instead of going the most direct route to Harper from Segovia via Noxville.

We believe when the Highway Commission properly understands the situation they will construct the road where all the people want it, as they have always responded in this manner in the past.

Both Judge Stevenson and Judge Randolph are interesting themselves in this matter while in Austin.

W. T. C. OF C. MOTORCADE VISITS JUNCTION

Last Sunday afternoon, August 12, at about 4 o'clock, the van of the West Texas Chamber of Commerce Motorcade hove in sight. They were met by members of the local Chamber of Commerce, and directed to Grande Courts where they camped until their departure Tuesday morning for Fredericksburg.

On Monday the local Chamber of Commerce entertained them with an old fashioned barbecued dinner, which consisted of barbecued chevon, "Son of a Gun," bread, pickles, coffee and tea and a dessert of ice cream.

Before the lunch hour several interesting speeches were made by officials of the W. T. C. and by members of the local Chamber of Commerce. In all of these talks more emphases were placed on co-operation and better acquaintanceship in order that each might more thoroughly understand the problems of the other.

After the barbecue dinner the motorcade, accompanied by E. A. Loeffler as guide, visited the famous 700 Springs, and expressed themselves as being agreeably surprised at the beautiful scenery which they saw along the South Llano River.

At 8 p. m. Monday night the Simmons Cow Boy Band which accompanied the Motorcade, put on a rare and wonderful musical exhibition on the Court House lawn, which is more thoroughly described in another article in this issue of this paper.

We are certainly very glad to have had this party of great West Texas Boosters to visit our town. We should spare no pains to give them our most hearty co-operation in every way possible in their efforts to put West Texas (as it rightly deserves) among the foremost sections of the United States for home-seekers, vacationists and tourists. We appreciate their visit and sincerely hope that each and every one of them will come again.

Mr. J. J. Delaune of Beaumont spent the first of the week at McWright's tourist park, on his return from a trip through Wyoming. Mr. Delaune was formerly manager of the Baker Dairy here.

SIMMONS COW BOY BAND IS WELL RECEIVED HERE

Monday evening at eight o'clock the Simmons Cow Boy Band, the official band of the West Texas Chamber of Commerce, and was accompanying that organization in a motorcade trip through this section, gave one of the most enjoyable concerts which it has been the pleasure of Junction people to hear in many days.

The concert was enjoyed by an immense crowd who had gathered early around the Court House lawn for the purpose.

The entire membership of this wonderful Cow Boy Band is of the highest type musician, and showed plainly the careful attention which had been given it by the instructor.

There boys hold the distinction of being the official band for the West Texas Chamber of Commerce, Texas Cattleman's Association, United Confederate Veterans, and for the inauguration of Governor Dan Moody. They have thoroughly advertised Simmons University by their appearance last year in various places, both in this State, New Mexico and Arkansas, receiving highest honors at Fort Worth among some fifty other bands from various sections.

Following the concert, a number of addresses were delivered, among them being a short talk by Mr. A. M. Bourland, president of the West Texas Chamber of Commerce; Honorable Homer D. Wade, manager of the same organization; Mr. Whitaker, of A. & M. College and others, who expressed themselves well pleased with this country, and appreciative of the courtesy and attention accorded them by the local Chamber of Commerce.

It is a safe prediction that Junction and the Llanos will receive some wide-spread and valuable publicity from the visit of the motorcade and the Cow Boy Band.

Collectively and individually, this bunch of fine fellows will always receive a warm welcome at the hands of the people of Kimble County at any time they care to visit here.

BRIDGE PARTY

A delightful affair was enjoyed by the members of the Ladies Afternoon Club and a number of friends Thursday afternoon when Mrs. R. H. Spiller entertained, in her hospitable way, in honor of her house guest, Mrs. Hurley.

iced fruit punch and candies were served during the bridge games. When the scores were added, Mrs. Pearl Chadwell was the holder of high club score, a handsome luncheon set was reward. A similar trophy went to the honoree, Mrs. Hurley.

The guest prize, a pair of linen towels embroidered with cut work, went to Mrs. P. Joseph, while the booby went to Mrs. Rowland Martin.

At the close of the afternoon chicken salad on lettuce leaves, saltine wafers, olives, potato chips, ice cream, cake and iced tea were served.

BIRTHDAY PARTY

Little James Edgar Smith invited a number of friends to his home last Thursday afternoon to a birthday party.

The celebration was a merry one for the wee folks, who played games and had a happy time. The young host was the recipient of a number of gifts, which were opened and admired.

A pretty birthday cake surmounted with three tiny candles was cut and served with ice cream.

Mesdames E. O. Lowgren and Terry Jetton assisted Mrs. B. L. Smith in entertaining the small guests.

Miss Ray Munn returned Sunday from Burnet, where she was the guest of Mr. and Mrs. S. E. Guthrie, and in Austin where she visited Mr. and Mrs. George Christian.

EIGHT POLO GAMES TO DECIDE CHAMPIONSHIP

Eight polo games have been announced, playing the semi-finals for championship of the West Texas Polo Association to be decided August 22nd, 23rd, 24th and 25th.

Four teams composed of Menard Whites, Copperas, Menard Blues and Edwards Plateau, will clash at Menard in a double header at 3:30 p. m., Wednesday, August 22nd. Then four teams composed of Watson Divide, Treadwell, Crooked Hollow, and Murr will provide thrills at Junction in a similar double header at 3:00 p. m., Thursday, August 23rd.

Friday, the scene of action will swing back to Menard, when winners of Wednesday's game will play winners, and losers play losers, at 2:30 p. m., August 24th. Saturday, back to Junction, when winners of Thursday's game play winners, and losers play losers, August 25th, 3:00 p. m.

The winners of these two tournaments will play at the San Angelo Fair in September, together with two other teams, selected by similar semi-final tournaments by San Angelo, Coleman, Wichita Falls, Abilene and other towns in that direction. The results there will determine this year's championship of the entire association.

There is much interest being taken in the sport in this section, and the fans may expect some brilliant and thrilling plays in witnessing the coming eight games.

AT THE TEXAN THEATRE

The Texan Theatre has an exceptionally good program for the coming week as will be evidenced by the following:

Thursday and Friday, August 17 and 18, Beery and Hatton in "Wife Savers;" Saturday, beginning at 3:30 and continuing until 10, will be shown one of the best Western shows that has been screened this season. Hoot Gibson in "Painted Ponies." Then Monday and Tuesday, August 20 and 21, George Bancroft in "The Show Down." And on Wednesday night, August 22, Anna Q. Nilson and Francis X. Bushman in "The 13th Juror." This is an extremely good picture and should be witnessed by a large crowd.

THE METHODIST CHURCH

The revival at Copperas church will be postponed a week and begin Sunday, August 26.

All the regular services will be held Sunday School begins at 10 a. m., morning service at 11, evening service at 8 p. m., and midweek service, Wednesday at 8 p. m.

Visitors cordially invited.

Mr. and Mrs. Carroll Pickett and family of Bisbee, Arizona, are visiting their sisters, Mrs. Cleve Steven and Mrs. Roscoe Stevenson.

Mrs. Beatrice Wright and son, Carleton, who have been spending the summer with relatives in South and East Texas, returned home Saturday.

Mr. R. B. Sutton and family of Houston arrived Tuesday for a few days visit with his mother and sister, Mrs. Lizzie Sutton and Miss Bernice Sutton.

Last week John R. Leavell and daughter, Miss Ruth, and Miss Josephine Fawcett, all of Kerrville, were the guests of Mr. and Mrs. John Phillips and Miss Elizabeth Summers.

Mrs. J. C. Livingstone of Gadsden, Arizona, and Mrs. Dan Bihl and children of Fort Stockton, are the guests of relatives here, during the illness of their mother, Mrs. Julia Stevan.

Mr. and Mrs. Wm. Secrest and daughters, Misses Pat and Clara, and son, Glenn, of Hamilton, are the guests of their son, Mr. Clay Secrest, and family.

Proposed Pipe Line Go Through Kimble County

Hon. Joe Montague, attorney for the Transcontinental Oil Company and Mr. Harris of the Land Department for the Ford Construction Company of New York City were in Junction this week preparatory to their work in obtaining easement privileges for the laying of a 10 inch pipe line from the Yates Pool to Galveston, which traverses Kimble County.

This pipe line, when constructed will have more than fifty-five miles of its length within the boundaries of this county, and will add to the taxable valuations about Four Hundred and Fifty Thousand Dollars. It is the intention of the company, according to Mr. Harris, to get this pipe line in through all of the sheep and goat raising sections before the lambing and kidding season in order that this construction work will interfere as little with the ranchman's business, as possible. Mr. Harris himself is a practical ranchman from northern Oklahoma, and knows how to arrange these matters

so that the land owners will be interfered with to the least extent.

There will probably be two pumping stations located in Kimble County, one of which will be near the city of Junction. The laying of this pipe line will lend interest to exploration for oil and gas in the county due to the fact that, should oil and gas be produced there will be an available outlet for its market. Pipe lines are common carriers and are compelled to transport any production near their location.

Joe Montague, the attorney, is a Bandera boy, who recently resigned as District Attorney of the Judicial District west of us, and can be relied upon in any matter which is entrusted to his care. Both Joe and Mr. Harris state that every land owner along the route will receive careful consideration and will be paid adequate damage for his property, when any damage is sustained.

BUCKNER ORPHAN'S HOME PARTY

Dear Women-folks of Kimble County:

You are invited to Schreiner Park Tuesday afternoon, August 28th, to a gathering of a unique character, where every woman member of the entire Baptist church will actually be hostess and celebrate her own birthday for 1928, by this combined anniversary entertainment.

We promise you a good time, and our invitation includes every woman tourist and visitor in our community. Watch for further particulars next week.

The hostesses want no birthday remembrances, but ask that you bring gifts instead for the 700 fatherless children at Buckner Orphan's Home, Dallas. Worthy of the King who says "Inasmuch as ye did it unto one of the least of these, ye did it unto Me."

Baptist W. M. U.

Mr. and Mrs. Charles S. Potts and family of Dallas are spending their vacation at the V-H Ranch. Mr. Potts is dean and professor of law at the Southern Methodist University, Dallas.

Mr. and Mrs. A. M. Bourland of Vernon, Texas, were the guests of Mr. and Mrs. B. L. Smith and family Sunday. Mr. Bourland is president of the West Texas Chamber of Commerce and he and his wife were here with the motorcade.

Mr. and Mrs. Chris Schraub and children returned last Thursday from a ten days visit with relatives and friends in San Antonio and Seguin. On their return they came through San Marcos, Austin and New Braunfels, and Mr. Schraub states that conditions through that section is extremely good.

Mr. and Mrs. Hal Holland and children have just returned from a ten days' visit in Alpine. While there they were the guests of Mrs. Eloise Emery, who is attending the Sul Ross State Teachers' College. They report wonderful visits to points of interest in the Davis Mountains and Guadalupe Mountains, including a trip through the Carlsbad Caverns.

Mr. and Mrs. W. T. Bishop and son, Philip, with Mr. and Mrs. Allen Bishop and Mrs. Bishop's sister, Miss Ruby Baylor, returned last Monday after having visited two weeks with Allen and W. T.'s parents, Mr. and Mrs. J. M. Bishop and sister, Mrs. A. L. Reynolds, and family in Hot Springs, New Mexico. They also spent a few days in the Gila National Forest.

RANCHMEN'S ROUNDUP WORTH WHILE AFFAIR

Mr. Bierschwale, the vocational agriculture teacher, took five of the Junction boys over to the Annual Ranchmen's Roundup, near Sonora, to take part in the sheep and goat judging contest. The following named boys took part in the contest: Jake Beasley, Virgil Savage, Lemuel Jones, Clayton McKay and Columbus Allsup.

The following is Mr. Bierschwale's report:

The Ranchmen's Roundup is an annual affair held at substation No. 14, a branch of the A. & M. College. I feel that more of our ranchmen and our boys, who are to be our future ranchmen, should attend this Roundup, as the program rendered is very educational. They had two full days program, conducted by such men as W. H. Dameron, Supt. of Ranch Experiment Station, T. A. Kincaid, president of Sheep and Goat Raisers' Association, R. M. Kleberg, president of Texas and Southwestern Cattle Raisers' Association, J. M. Jones, chief division of Range Animal Husbandry, Texas Agr. Exp. Sta., George W. Barnes, Beef Cattle Specialist, O. E. Martin, director Extension Service A. & M. College, and many other noted men of Texas. Every man and boy who goes to these meetings and keeps his ears open is bound to learn some things that will be of value to him.

The Junction boys state that they had a good time, learned a lot, and would not take \$50 for their trip. They did as well as could be expected in their judging work, considering the small amount of training they have had.

Quite a number of Junction people were there and I hope many of you will attend next year.

BAPTIST NEWS

Sunday School at 10 a. m. Preaching at 11 a. m. and at 8:15 p. m. B. Y. P. U. at 7:15 p. m. W. M. U. will meet Tuesday at 2:30 p. m., at the church. Prayer service Wednesday at 8:15 p. m.

Everyone cordially invited to attend any or all of these services.

Mr. and Mrs. C. W. Atchison and little son, Wilbur, motored to Kerrville Sunday where they met Mrs. W. W. Cox and two children of New York City. Mrs. Cox is a sister-in-law of Mrs. Atchison, and will probably spend the remainder of the summer here.

REPORT OF GRAND JURY

THE STATE OF TEXAS,
County of Kimble.
In the District Court of Kimble
County, Texas, August term,
A. D., 1928.

To the Honorable J. H. McLean,
Judge of said Court:

We, the Grand Jury, for the
above term of the District Court
of Kimble County, beg to leave
the following report, of our
labors in line with the valuable
instruction given to us in charge
by Your Honor:

We find that the conditions
generally in the county are
satisfactory. Most of the com-
plaints and bills of our county
have been with transient people.
We find that the officers of our
county have done their duty and
assisted us in every way possi-
ble.

Our District Attorney, Hon.
F. H. Hammond, and County
Attorney, Hon. J. B. Stevenson,
in their support to the Grand
Jury has been unlimited.

Having completed our labors,
we respectfully request that we
be excused from further labors
at this term of the court.

C. T. Holkamp, Secretary.
W. C. Jones, Foreman.

THINGS WORTH KNOWING

Cotton in Manufacture
To most of the mill men in
the textile field cotton is a fiber
first, last and always. To the
chemist cotton is but one form
of cellulose. Cellulose is not
simply another name for cotton.
Cellulose, as the chemist views
it, is an alcohol insoluble in
water and possessing a very
considerable complexity.

The point of view entertained
by the chemist has resulted in
developing a wide series of new
industries based on cellulose.

These include the manufac-
ture of the now widely used
pyroxylin lacquers which were
first introduced as Duco. It in-
cludes the industry which offers
thousands of articles made of
the plastic known as pyralin,
celluloid and other names. It
includes the great rayon indus-
try and it includes the enormous
production of lacquered fabrics
which amounts to more than
40,000,000 yards per year.

In order to produce these
industries, chemists use cellu-
lose—whether of cotton or wood
—and treat it with various acids
making any kind of substances
which, in turn, can be treated
to the most diverse uses.

"INSIDE" INFORMATION

A mint flavored gelatin is
appetizing with cold lamb. Sliced
cucumbers may be placed in the
bottom of the mold.

Use the pressure canner for
all non-acid vegetables. Send
for Farmers' Bulletin 1471-F
before beginning to do any can-
ning.

Each child's costume should
have at least one pocket. If
pockets on the dress spoil the
design or if they cannot be used
because of plaids or some other
feature, make one in the bloom-
ers.

Make both bloomers and dres-
ses for little girls large enough
to allow for wide tucks and
hems to be let down when the
material shrinks and the child
grows. A tuck in the bloomers
on a level with the lower end
of the plackets will not show.
nor will a wide tuck in the
underwaist of a two-piece dress.
Instead of stitching these allow-
ance tucks just once, stitch
them every half inch of their
width with a moderately long
loose stitch. Each time a stitch-
ing is ripped out one inch is
added to the length.

Watch your posture while at
various household tasks. Keep
your back straight and hene
from the hips. Do not slouch
in a chair while sitting at work.
Sit well back in your chair.
If your tables, sink, tubs, and
other surfaces where you work
a great deal are not the right
height and cause you to stoop
over, see whether they could
not be raised. It pays even
to have plumbing fixtures raised
when necessary to save fa-
tigue.

LET WELL ENOUGH ALONE

There is an old saying that
ought to be looked into closely.
It is the following: "Let Well
Enough Alone."

It seems to us that this
adage is not particularly wise,
for almost everyone in the
world who has done things

worth doing has done them
through a desire to improve
things that might have been
considered "well enough."

Lindbergh did not leave "well
enough" alone, nor Lincoln, nor
Galileo. All the worth-while
achievements have been accom-
plished by men who wanted to
make "well enough" better.

So do not be one of those
who let the sentiment in a four-
word sentence stand in their
way.

INTERNATIONAL RELATION

Ships that unload their pas-
sengers from Bermuda show
that women travelers are still
buying doekin cloth that has
been famous in those islands
for many years. Incidentally
it is a British product and when
brought in as baggage it pays
no customs duty. With it is
worn jackets of beautiful Amer-
ican transparent velvet. Thus
harmony and style, as well as
harmony in international rela-
tions, is being satisfied by the
new hookup.

NOTICE

Those who donated to the
Cemetery Society food sale will
find their plates or food con-
tainers at Bessant's Furniture
Store. We also take this meth-
od of thanking all donors and
patrons of sale.

Mrs. John, Munn.

FOUR GAMES of POLO

Crooked Hollow, Murr, Treadwell and
Watson Divide
in JUNCTION

THURSDAY and SATURDAY

August 23rd and 25th

Edwards Plateau (Cardwell), Copperas,
Menard Whites and Menard Blues
in MENARD

WEDNESDAY and FRIDAY

August 22nd and 24th

These are official games and the
champions for Districts Two and Three
will be determined by this series of
games.

NOTICE

On September 1st, 1928, at
2 o'clock p. m., at the Court
House in the town of Junction.
I shall sell to the highest bid-
der for cash, what is known as
the Copperas school house. Re-
serving the right to reject any
and all bids.

PROPOSED CONSTITUTIONAL AMEND-
MENT—AUTHORIZING LEGISLATURE
TO EXEMPT FROM TAXATION PAR-
SONAGES AND CERTAIN PROPERTY
ASSOCIATIONS FOR RELIGIOUS,
EDUCATIONAL AND PHYSICAL
DEVELOPMENT

(H. J. R. No. 261)

HOUSE JOINT RESOLUTION
Proposing an amendment to Section 2, Article
v of the Constitution of the State, so as
to authorize the Legislature to exempt
from taxation any property owned by a
church or by a strictly religious society
for the exclusive use as a dwelling place
for the ministry of such church or reli-
gious society, and which yields no revenue
whatsoever to the State, and which is ex-
clusively and permanently used for reli-
gious, educational and physical develop-
ment of the people, and which is owned
and operated under a State or National
organization of like character, and making
an appropriation therefor.

Be it resolved by the Legislature of the
State of Texas: That Section 2, Article 8 of
the Constitution be so changed as to read
hereafter as follows:

All occupation taxes shall be equal and
uniform upon the same class of subjects
within the limits of the authority having
the tax; but the legislature may, by
general law, exempt from taxation public
property used for public purposes; actual
places of religious worship, also any prop-
erty owned by a church or by a strictly
religious society for the exclusive use as
a dwelling place for the ministry of such
church or religious society, and which yields
no revenue whatever to such church or
religious society; provided that such ex-
emption shall not extend to more property
than is reasonably necessary for a dwelling
place and in no event more than one
acre of land; places of burial not held for
private or corporate profit; all buildings
used exclusively and owned by persons or
associations of persons for school purposes
and the necessary furniture of all schools
and property used exclusively and reason-
ably necessary in conducting any association
engaged in promoting the religious, edu-
cational and physical development of boys,
girls, young men or young women operat-
ing under a State or National organization
of like character; also the endowment funds
of such institutions of learning and religion
not used with a view to profit; and when
the same are invested in bonds or mort-
gages, or in land or other property which
has been and shall hereafter be bought
in by such institutions under foreclosure
sales made to satisfy or protect such bonds
or mortgages, that such exemption of such
land and property shall continue only for
two years after the purchase of the same
at such sale by such institutions, and no
longer, and institutions of purely public
charity, and all laws exempting property
from taxation other than the property above
mentioned shall be null and void.

Section 2. The foregoing Constitutional
Amendment shall be submitted to the qual-
ified electors of the State at an election
to be held throughout the State on the
first Tuesday after the first Monday in
November, 1928, at which election all
voters favoring such amendment shall
write or have printed on their ballots
the words: "For the Amendment to the
Constitution of the State of Texas, exempt-
ing from taxes property owned by churches
or strictly religious societies for the exclu-
sive use as a dwelling place for the min-
istry of such church or religious society, and
which yields no revenue whatever to such
church or religious society."

use as dwellings for the ministry," and all
those appearing shall write or have printed
on their ballots the words "Against the
Amendment to the Constitution of the State
of Texas, exempting from taxes property
owned by churches or strictly religious
societies for the exclusive use as dwellings
for the ministry."

Section 3. The Governor of the State
is hereby directed to have the necessary
proclamation for said election and have
same published as required by the Con-
stitution and existing laws of the State.

Section 4. The sum of Two Thousand
Dollars (\$2000.00) so much thereof as
may be necessary, is hereby appropriated
out of any funds in the Treasury of the
State not otherwise appropriated to pay
the expenses of said publication and election.

10 Big Reasons
why Chevrolet is -

First Choice of the Nation
for 1928!

With over 750,000 new Chevrolets on
the road since January 1st, today's
Chevrolet is first choice of the Nation
for 1928. Come in and see how com-
pletely this sensational automobile
provides the ten great factors which
automobile buyers everywhere are
now demanding.

The COACH

\$585

McDonald
Chevrolet
Company

- DESIGN**
Today's Chevrolet is modern to the
minute in every detail of design.
- APPEARANCE**
Today's Chevrolet provides the
sensational beauty of design and
proportion for which the Public Buys
are everywhere famous.
- FEATURES**
Today's Chevrolet features typi-
cal of the finest cars, today's
Chevrolet is everywhere regarded
as the world's most luxurious im-
proved model.
- PERFORMANCE**
Chevrolet's amazing performance
is the result of a valve-in-head
motor whose power is a matter of
worldwide fame and whose speed
and smoothness are second to
none. Inter-axle pistons, large
valves with automatic type top
piston and accurately ground bal-
anced reciprocating parts.
- COMFORT**
The bigger and better Chevrolet
is built on a 107" wheelbase,
equipped with low long wheel-
base springs set parallel to the
frame and with new cushions pro-
vided with deep, resilient springs.
- HANDLING EASE**
For ease of control Chevrolet de-
sign incorporates a full ball bearing
steering gear, smooth shifting
transmission, light pedal action
clutch and big non-locking four-
wheel brakes.
- ECONOMY**
Chevrolet owners enjoy the great-
est economy of operation.
- MAINTENANCE**
Chevrolet enjoys a worldwide rep-
utation for low maintenance costs.
- RESALE VALUE**
Chevrolet's resale value is un-
usually high because Chevrolet's
model comes with many of the
features of miles of dependable
transportation.
- PRICE**

QUALITY AT LOW COST

President Dodge Brothers' Corporation
Division of Chrysler Corporation

DR. FRANK CRANE SAYS:

The Spring
I do not know that I ever heard of any heathen people worship a spring. Why, I do not know. I have read of nymphs and such things haunting springs, but I do not recall any case where a spring was worshipped.

Just why I cannot tell. It seems to me that if I were a heathen man and hunting for something to worship, I should consider a spring very favorably as a good candidate.

To be sure, there is the sun, which is the source of all power, and the mountain which stands for great strength, and other objects of nature that are apparently symbols of the divine, to say nothing of an egg, as it contains the secret of growth.

But the spring is so manifestly other worldly. It just comes out of the ground where it has no business and everything about it comes to life.

You see a spring on the hillside gush forth from a fissure in the rock. Weeds and lilies grow in the rivulet that is formed, and even trees spring up about it. Men and animals come to refresh themselves of its waters, it is so manifestly a source of life.

Some folks are like springs. When they enter the circle everybody picks up. They are life bringers, conversation makers and thought producers. They stimulate all our nerve ganglia. Why, I do not know. They may not be particularly pretty or shapely or intellectual. They just have something about them that sets people going.

Most of us are dead ones lying around like old slabs of dead earth. One of these spring people comes along and grass and flowers immediately appear, and the desert blooms like a rose.

What is it?
I suppose these people are imbued with a surplus of life.

What we all want is life. It may take a thousand forms and ways of expression, but, substantially, it is all the same. "Gnaw my withers, rack my bones, Life, mere life, for all atones."

ABOUT YOUR HEALTH

(By John Joseph Gaines, M. D.)

Theories
Enough of theory will, in time, queer the most sturdy mind. Facts have almost been uprooted by theories which are never fact. The world that subsists on theories wholly, is a mighty uncertain proposition. There are enough "theories" about human digestion, to sink a dozen Leviathans! Theories—until we hardly find a man or woman who does not dread to line up for daily meals, for fear of transgressing the law founded on the latest theory. A wonderful thing about "calories," "vitamins," "hormones," and such. We ascribe the origin of the human being to an All-wise Creator; to know all about these personages of ours, is to be as wise as their Creator—which is manifestly impossible.

If you over-eat, it's a condition, and not a theory you have to deal with. The same is true of rapid eating, imperfect mastication, gormandizing, and filling the stomach with food at the close of day. In my daily paper yesterday, the column of deaths was interesting. Some fifteen; none of them over sixty-five, nor under fifty; nearly all of them ascribed to "heart disease."

It isn't a theory that tells us that food must be masticated; that time must be taken in eating; that evening meals must be the lightest of the day; that over-eating is America's chief crime, atoned for in shortened life. It's law—law of right living. Yet, who doesn't violate it daily, without regard to consequences? These four or five simple requirements, studiously obeyed, will cut the fatalities from "heart disease" in half. Isn't it worth a tryout? What shall it profit a man if he gobble up all that is in sight—at table—and lose his life?

HINTS FOR THE HOME

(By Nancy Hart)

In almost every home there is an old treasure or two, proud as we are of these possessions, they do not always have a place of honor in the home.

Bookshelves always welcome bits of colorful old glass or pottery among the books. On the sideboard or console a piece

of old silver gives a suggestion of luxury that is subtly convincing. Old prints either side of the secretary; old pewter plates for the mantel shelf—such well-chosen ornaments often give more atmosphere and individuality to a room than many dollars spent on new furnishings.

Fresh Peach Mousse

Two cups whipping cream, 1 cup puree of fresh peaches, 1 tablespoon gelatin dissolved in 2 tablespoons cold water, 2 tablespoons lemon juice, 1 cup sugar (beet or cane). Add dissolved gelatin to hot fruit juice and when cool and about to set, fold in stiffly whipped cream. Pack in mold, cover with ice and salt for 3 hours or more.

An Appetizer for Summer Meals

Eggs in aspic make a very tempting and substantial appetizer for summer meals. Cut hard-boiled eggs in half, peel the yolks and return them to whites, put a half egg in each individual mold, fill with aspic or a lemon-flavored gelatin and put in ice box to set.

Two Good Vegetarian Menus

Cream of lima bean soup, corn fritters, escaloped toma-

toes, cream slaw, baked peach dumplings, non-stimulating drink. Cream of potato soup, vegetable patty, egg salad, banana shortcake, non-stimulating drink.

Remember This When Preserving

In choosing fruit for preserving, remember that slightly under-ripe fruit is usually best because it contains more pectin or jellyfying substance than fully ripe fruit. If modern short process preserving rules are followed, however, this point can be disregarded, as these recipes secure uniform jelly texture through the use of liquid pectin.

To Iron Soft Collars

Iron men's soft collars on a Turkish towel folded four times and the collar will besmoother and shine like new when finished.

LIGHTNING SHOCKS THREE PEOPLE

Thursday afternoon during a heavy rainstorm lightning struck a light wire of the West Texas Utilities in the west part of town, shocking three people. Mrs. H. L. Taylor had arisen from her chair to go into another room when she was

knocked down, Miss Ora Merck, living near, was in the act of closing her front door when the shock threw her backward and another woman living in a tent also received a shock. None of the three were injured; the one in the tent felt the effects most due to the fact that her feet were on the ground which produced a better conductor of electricity. For an hour or so one could smell the smoke in the rooms. Telephones were burned out as well as light wires.—Devil's River News.

Friends and Fellow Citizens

Now that the Big Fight is over—and Heeny has admitted that Tunney is "a better man than I am, GunghaDin"—I feel that I can get back to my Presidential Campaign.

"However, after seeing the fracas, and noting the tremendous crowds cramming and jamming the gates—the lack of parking space for automobiles—I have decided to add another plank to my platform.

"WHEN I AM ELECTED the men, women and children will not have to cram and jam when they seek their pleasures! They will not have to walk to their destination! They will not be discomforted in the least.

"My new plank is More Room! Breathing Space. No Cramming and Jamming. I have come to the conclusion that my stores have the right idea. Plenty of Parking Space for everyone—that you may shop in comfort.

"There's lots of parking space—and there always will be—at every Handy-Andy Store. Isn't that worth your vote?"

HOW ABOUT BUSINESS?

The summing up of business for June and July by the Federal Reserve Board in Washington shows a small falling off in production and distribution of commodities during the past few weeks, but the banks themselves are doing more business now than they were last spring. It all seems to indicate that aside from a natural letting up due to hot weather that the business conditions of the country remain prosperous. Contracts for new buildings indicate that construction work is not falling off.

Breakage of milk bottles in the United States runs into a loss of about \$30,000,000 annually, and studies are being carried on by dairy specialists of the Department of Agriculture to find means of reducing this breakage, especially in milk plants.

First Showing FALL FROCKS

That Answers Fashion's Call

NEW SELECTION OF FALL EVENING DRESSES AND DANCE FROCKS

The frocks you'll want for fall wear await you here in wide assortment of style—for every occasion. For street, for afternoon, for sports, for dinner and evening—each interprets the leading features in ways best suited to its particular type. Exquisite Autumn hues replace the pastel shades of Summer. Trimmings are new and charming, a deft manipulation of flares, pleats, godets—infinite variety in necklines, and sleeves.

Whatever you purchase here, you may be sure is the latest thing in style and is of good material and workmanship.

Special offerings in coats and dresses are being made that will attract the discriminating buyer.

Whatever you need—be it a sports dress or a dinner gown—you will find it here in the color you prefer.

Whatever your type—there are dresses here that will become you.

Whatever your purse—these dresses are within your means!

LACE ON SMART GOWNS FOR FALL

Because it is so soft and flattering, lace has always been a symbol of feminine charm. This shop presents a collection of new satin and sheer velvet gowns—different than ever before since they are trimmed with lace. Cobwebby alencon, quaint renaissance, beautiful hand-embroidered batiste with point d'espirit used in a rich cream or ecru tint—as quaint berthas, jabots, or deep becoming yokes.

"VELVET"

"Whatever the continental smart set gathers, one finds velvet in generous evidence"—thus reads a radio style report from Paris.

We have just received a superb collection of unusual velvet models which capture much of the trimness and distinction emanating from Paris in Autumn showings. Now on display.

Silk Hosiery

Full Fashioned - - Pointed Heels

Just received a new shipment of perfect, full fashioned silk hosiery, and immediately they go on sale! The sheer, smooth fitting kind that emphasize the trim ankle. In the newest shades for Fall.

Shoes in all the very latest Styles and Colors and Color Combinations

PHILIP JOSEPH

If you know HOW, you can do business anywhere. Sears-Roebuck, under its new slogan, General Wood, plans stores all over this country and in foreign countries, with constant expansion.

The Woolworth stores, growing amazingly, now have eighty-eight stores in Germany, called 25 and 50 pfennig stores, the equivalent of 5 and 10 cents.

American business understands its business. And when it deals in foreign countries, it buys its goods in the foreign countries, thus keeping everybody happy profits.

On Saturday the executive committee of the American Federation of Labor will meet at Atlantic City and decide, probably, not to take sides in the national campaign.

Both national candidates are all right, says Labor.

That is sensible. Labor, race and religion should be kept out of politics. Besides, organized labor cannot deliver its men, and does not help itself by a declaration with no result. Mr. Green, head of the federation, is a wise American.

Miss Katharine Locke, of Youngstown, Ohio, travelled miles and miles over the sand of Sahara thinking the sun would bring back her voice that she last. IT DID.

She visited the Ghouls of Marakesh, if you know who he is, in a dwelling 3,000 years old in the Atlas Mountains. The Ghouls probably know as little about us as we know about him.

More interesting to many Americans, Miss Locke saw at Timbuktu, pens where American slavers once bought slaves from native chiefs.

Young men, playing jazz in night clubs now, would be amazed to see these pens where their ancestors once stopped on the way to America. They would bless the slave traders that brought the ancestors here. We never know what is for our good.

John Henry Mears and Charles B. D. Collyer have beaten the "Around the world record" by several days.

They finished their journey at Miller Field, Staten Island, in twenty-three days. When Jules Verne wrote his "Around the World in Eighty Days," men said it was an interesting story, but could never be done. Now it IS done, in twenty-three days. And, in years to come, it will be done in twenty-four hours.

Man is a very able creature, a real credit to his Maker. What he can IMAGINE, he can DO.

Ellen Terry after eighty years of happy, successful life, told her friends they must not put on mourning, but wear gay colors, and rejoice in her long life, with rest at the end.

She was a sensible woman, but mourning is more than honor paid to the dead. It affords relief to those that survive. The widow of India, if permitted, would be burned alive with her husband's body.

Savage widows cut and otherwise mutilate themselves to express grief. To many civilized women, a long black veil makes sorrow easier to bear.

Mr. Hoover, kindly, but firmly, says "I shall kiss no baby for publication." That is wise, and kind to the babies.

No intelligent mother allows ANYBODY to kiss her baby. All adults carry in their mouths disease germs, harmless to the carriers, but dangerous to an infant in whom the protecting white corpuscles are undeveloped.

Mr. Hoover did, however, hold the baby while its older brother took a photograph. He likes babies.

CHILDREN SHOULD KNOW

Doctor Alexis Carrel, who won the Nobel Prize for his remarkable work in behalf of human health a few years ago, says that the life cells, and many tissues, are potentially immortal.

tal. This may be a sensational conclusion, but Carrel has kept the cells of a chicken embryo's heart alive for 16 years by washing out the poisons generated and by furnishing ideal nutrition. The experiments in Carrel's laboratory show how life itself can be lengthened—and he thinks almost indefinitely.

In the sixteenth century the expectation of life at birth, was figured by the scientists in Geneva at 21 years. It lengthened to 34 years in the eighteenth century. Massachusetts figures in 1889 showed an expectancy of 35 years. In 1897 in the same State it was 45 years. Now people throughout the United States have an average expectancy of life of 58 years.

Many scientists look forward to a life of 100 years—all due to the fact that people are learning more and more how they should live.

Professor Hornell Hart of Bryn Mawr College, says that babies will be born in the year 2000 who will be destined to live 200 years.

Simple health methods have reduced the death rate from tuberculosis 69 per cent in Massachusetts in seven years.

Typhoid fever has nearly been wiped out in the same State. And so it has been with other diseases.

There is a thing in life called hygiene. The word is in the dictionary, and the practice of it is in your every-day life—it is in the food you eat; in the cleanliness of your body and your mind. It is the simple science of preserving your health. Your mother can tell you about it; your father knows how to watch the danger spots, and your doctor is a specialist about it. Social hygiene comes mostly within the orbit of ordinary common sense. The child that starts to acquire all the common sense that he, or she, can find in life, and keeps on studying common sense, is apt to enjoy a ripe old age.

Children, learn how to live.

CURFEW BELLS STILL RING

It would be interesting to know how many English places still keep the ancient custom of the curfew bell. Hailsham, in Sussex, is one, for it has just been announced that a fund is being raised to pay for the ringers.

The Devon town of Okehampton is another, and not so very long ago Ludlaw rang, maybe still does ring, both evening curfew and the morning rising bell, while a well-known instance occurs at Oxford, where Great Tom booms out each night at 9 o'clock to announce the closing of the college gates.

It is generally supposed that curfew was introduced into England by William the Conqueror, but, although the point is not absolutely decided, many competent authorities believe that William only tightened up an existing regulation that perhaps dated from the time of Alfred the Great.—Vancouver Province.

GETTING ELECTRICITY TO THE FARMERS

A new development in electric-power transmission which, it is said, will make possible the extensive electrification of America's farms, was announced in Schenectady by a General Electric Co. engineer whose name is Thomas A. Edison Belt. The development consists of a refinement in distribution which, by adapting to power-transmission lines the principle of tuning, familiar to all radio listeners, overcomes many of the technical limitations of alternating-current transmission.

The new principle applies not only to the high-voltage, long-distance super-power line, but to the low-voltage rural electric line upon which depends the broad electrification of farmstead.

Transmission lines which heretofore have limited as to length, especially in rural districts, because of economic laws arising from electrical conditions, can now be extended to perhaps double the distance. As an alternate, the original line can transmit more current, thus permitting the use of a larger number of consuming devices with only a nominal increase in investment.

Babies must be protected from flies. Besides their torment and torture, flies transmit over thirty different diseases. Anyone of which may prove fatal. Every fly you see must be killed. INSIST upon and get the scientific product developed at Mellon Institute of Industrial Research by Rex Fellowship. It is fragrant and harmless to mankind but sure death to all household insects. Just follow instructions on blue label of bottle. Insist on FLY-TOX from your retailer.

Salesmanship is the art of taking "No" as a polite invitation to keep on talking.

PROPOSED CONSTITUTIONAL AMENDMENT PROVIDING FOR A STATE BOARD OF EDUCATION AND RELATING TO TERMS OF SCHOOLS OFFICERS

(H. J. R. No. 14) The Constitution of the State of Texas, as amended by adding Article 7 to the Constitution of the State of Texas, be amended by adding thereto Section 16 as follows: "The Legislature shall fix by law the terms of all officers of the public school system, including State institutions of higher education, may be fixed not to exceed six years; providing to amend Section 7 of said Constitution, authorizing the appointment or election of a State Board of Education, to serve not to exceed six years; requiring said amendments to be submitted to the people for adoption and making appropriations therefor. Be it resolved by the Legislature of the State of Texas: Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Section 16 as follows: "The Legislature shall fix by law the terms of all officers of the public school system and of the State institutions of higher education, inclusive, and the terms of members of the respective boards, not to exceed six years."

Section 2. That Section 8 of Article 7 of the Constitution be amended so as to hereafter read as follows: "The Legislature shall provide by law for a State Board of Education, whose members shall be appointed or elected in such manner as may be provided by law, and shall serve for such terms as the Legislature shall provide, not to exceed six years. The said board shall perform such duties as may be prescribed by law."

Section 3. The foregoing constitutional amendments shall be submitted to a vote of the qualified electors of this State, on election to be held on the first Tuesday after the first Monday in November, A. D. 1937, at which time they shall have been proposed by the Legislature.

PROGRAM OF GILLESPIE COUNTY FOR TO OPEN

With the opening day of the Gillespie County Fair, August 24th, hardly more than a week off, fair officials at Fredericksburg are about to announce ready for the opening of the gates to what they believe will prove to be a record breaking attendance for the three days. The visitors, according to the officials will be presented with one of the best combined entertainment and educational programs ever offered by a County Fair in this section.

The program for the three days has been announced as follows: 1st day, August 24, 9:30 a. m., parade with all Gillespie County school children taking part. Reception of organized delegations. Music. Fredericksburg Concert and visiting bands. Ball game, Pennant Oilers vs. Wimberly. 11:30, opening address by the Hon. Dan Moody, Governor of Texas. Afternoon, 1:30, polo, Fredericksburg vs. West Texas Utilities Company of Abilene. 3:00 p. m., races, 1st 1/2 mile; 2nd 3/4 mile; 3rd 1/4 mile. Ball game, Fredericksburg Giants vs. San Antonio or Austin team.

August 25th, morning, music. Ball game, Pennant Oilers vs. Johnson City. Afternoon, 1:30, races, 1st 1/2 mile; 2nd 1/2 mile; 3rd 3/4 mile; 4th 1 mile. Ball game, Fredericksburg Giants vs. Comfort.

August 26th, morning, music. Ball game, Pennant Oilers vs. Wimberly. Afternoon, 1:30, races, 1st 1/2 mile; 2nd 1 mile; 3rd 3/4 mile. Ball game, Fredericksburg Giants vs. Boerne White Sox. Polo, Fredericksburg vs. West Texas Utilities Company.

The Donald McGreagor shows with other free attractions will be on the grounds all three days. This amusement company is said to be the best its size traveling in Texas this year. The agricultural and livestock exhibits promise to be superior to those ever shown here, many pens having already been reserved in the cattle, sheep, goat and hog exhibitions. County exhibits from Kerr, Blanco and Mason will be shown together with many individual and three county community exhibits. The ladies department also promises to have an unusually large number of entries this year. These exhibits will be housed in the new 60x150 exhibition hall which has just been completed at a cost of \$8,500.00.

Fredericksburg citizens are looking forward to a large crowd every day of the fair and are making preparations to have accommodations to make everybody comfortable. A large tourist park for those who wish to camp, and four excellent hotels offer every convenience.

FOUR DAYS OF POLO HAVE BEEN ARRANGED

There will be four days of polo on August 22nd, 23rd, 24th and 25th. Two days of the playing will be in Menard and two in Junction. Four teams will get together at each place and the playing will be on alternate days allowing the horses to rest a day between games.

The games to be played in Menard will be played on Wednesday, August 22nd and Friday, August 24th. On August 23rd and 25th, Thursday and Saturday, the games will be played in Junction.

Edwards Plateau (Cardwell) and Copperas will come to Menard to play the two teams here. Watson Divide, Treadwell, Murr, and Crooked Hollow will go to Junction.

A double header will be played on each of the days mentioned and the champion teams of Districts Two and Three will be decided by the series.

The series of games to be played here will be the first to be played on the new field of the Menard Live Stock Association.—Menard Messenger.

WOMEN'S SPORT CLOTHES

Be bold, madame, and let who will be modest—at least in your sports attire for the autumn season. For by emulating the lowly violet you may miss your proper quota of attention in a world brilliantly arrayed engrossed in games brilliantly played. No matter how great is your delight in vivid colors; no matter how strong is your "gypsy" instinct you can give it full play among the new fall fabrics—wool and rayon mixtures that bid fair to put to shame Nature in her gayest mood.

There is a whisper that there are great doings in the fabric world. The "doings" in question is a beautifully and uniquely woven fabric of wool, angora and rayon which flaunts in addition to most gorgeous color combination a stunning modernistic border which will give the clever dressmaker new impetus to try her skill at unusual patternings and skillful manipulations.

FOR SALE or Trade—Improved plains land near Plainview, Texas. 5-21tp

John F. DuBose, Plainview, Texas.

August 4th, 1928

Mr. T. H. Walton, London, Texas.

Dear Sir: I have just received your letter asking me for some information with reference to a conversation I had with Mr. Dee Gibbs in his office during the last term of Court about Lem Gibbs. I can give you only what happened outside of the Grand Jury room.

On the morning that we met as a body, Dee Gibbs called me into his office and told me before I even knew that Lem Gibbs was under suspicion or in trouble in regards to bootleg whiskey, that he, Dee Gibbs, expected Lem Gibbs to be brought before us, the Grand Jury, for investigation in regards to selling bootleg whiskey. He also told me to dig thoroughly to the bottom of this case and not to slight it in the least on account of Lem being his brother; he also told me that blood and brother relationship ceased at the beginning of a bootleggers career, and that he did not expect anything less than the full duty of us as grand jurors, regardless of whose brother Lem was, and furthermore, I will say this, as I have been on Grand Juries in other than Kimble County, I have never had better and more efficient service rendered from the Sheriff's office than we have had under Dee Gibbs.

Yours truly,
W. M. KEEN,
Foreman of the Grand Jury
February term, 1928.

A SMALL BOY'S LAMENT

Dear God, I need You awful bad; I don't know what to do. My papa's cross, my mama's sick, I got no friend but You. Them careless angels went and brung,

'Stid of the boy I ast, A weenhy, teenchy baby girl; I don't see how they dast! And God, I wish't you'd take her back;

She's just as good as new; 'Twas one kug she's second-hand!

But 'ceptin' me and You. An' pick a boy, dear God, Yourself,

The nicest in Your fold, But please don't choose him quite so young;

I'd like him five years old.

NEED GLASSES?

PROPOSED CONSTITUTIONAL AMENDMENT—AUTHORIZING LEGISLATURE TO GRANT CONFEDERATE PENSIONERS REGARDLESS OF DATE PENSIONER CAME TO TEXAS. WHEN HE WAS BORN

HOUSE JOINT RESOLUTION. Proposition an amendment to Section 51, Article 2, of the Constitution of the State of Texas, authorizing a tax levy for Confederate soldiers and sailors and their widows, and providing for submission of same to the qualified electors of the State at any election to be held on the first Tuesday after the first Monday in November, A. D. 1928, and provided the necessary proclamation and appropriation to defray expenses of proclamation, publication and election.

Section 1. That Section 51, of Article 2, of the Constitution of the State of Texas be amended so as to read as follows: "The Legislature shall have no power to make any grant of public moneys to any individual, association of individuals, municipality or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors under such regulations and limitations as may be deemed by the Legislature as expedient, and to their widows in indigent circumstances under such regulations and limitations as may be deemed by the Legislature as expedient; to indigent and disabled soldiers who are in indigent circumstances, and who are or may be eligible to receive aid under such regulations and limitations as may be deemed by the Legislature as expedient; and also grant for the establishment and maintenance of a home for said soldiers and sailors, their widows and women who aided in the Confederacy, under such regulations and limitations as may be provided for by law; provided the Legislature may provide for husband and wife to remain together." There is hereby levied in addition to all other taxes herebefore permitted by the Constitution of Texas, a State ad valorem tax on property of seven (87) cents on the one hundred (\$100) dollars valuation for the purpose

Wouldn't you prefer a car built in the
World's Most Modern Automobile Plant?

Today you demand infinitely more in your automobile than you did five years ago. In order to satisfy you, Oakland now builds the All-American Six and the Pontiac Six with greater care than ever before.

Oakland and Pontiac Sixes are built in factories constructed almost entirely within the past two years.

Oakland is constantly discarding and replacing equipment, content to use only the very newest, most accurate designs. Oakland inspection standards are second to none.

Wouldn't you prefer a car built in the world's most modern automobile plant with standards of precision such as Oakland employs? Drive an All-American Six or a Pontiac Six, and you'll find the answer in superior performance, stamina and reliability.

Oakland All-American Six, \$1045 to \$1265. Pontiac Six, \$745 to \$875. All prices at factory. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Junction Trade Notes

Kimble County will produce about a half crop pecans this year, in the opinion of Mr. Fought of Lampasas, who was here during the week contracting nuts on the trees. The crop in Lampasas is practically a failure, he said, while the best production he has found is on the lower Nueces.

Shearing goats in Kimble County will be fully under way within a week or so, while on some ranches shearing is now under way. Early in the week 160,000 pounds of wool was sold by Horners of Uvalde at 39c for 12-months fleeces and 37c for 8-months.

Many people prefer Peaberry coffee on account of the flavor peculiarly its own, and all Peaberry is not choice. Santos Peaberry is recognized as standard. Fresh shipment this week, ground to your order. Gann Grocery Company.

Mrs. Chas. McCarroll and two sons, recently of San Angelo, arrived in Junction Monday to join Mr. McCarroll in their new home. They are temporarily living at the home of Mrs. Sandherr and will later build their own home in the Riley-Ragland Addition. The McCarroll Lumber Company recently acquired the lumber yard here, which is now under management of Chas. McCarroll.

Mr. Roberts and Mr. Winan of the Rio Grande Valley, with their families, are again enjoying their summer vacation on the Llanos. Mr. Winan, who lives at San Benito, says the cotton crop of the Valley is less by 50% than they expected earlier in the season, due to the ravages of insects.

Crops around London in Kimble County are better than any on the route from Junction to Cisco, said V. L. Millsap, who returned Monday from a visit to Cisco.

Full line of feed, oats, corn, hay, bran, shorts, mixed cow-feed, cottonseed meal and cake; chicken feed, laying mash, maize, etc. Gann Grocery Company.

Mr. and Mrs. E. T. Brown of London community were buying and selling in Junction Monday. Butter from Mrs. Brown's farm dairy is always in demand at Gann Grocery Company. Mr. Brown stated he had leased 320 acres of his land to an Oklahoma concern at one-dollar-a-acre annual rental. The same company has blocked 6000 acres southwest of London.

Junction was impressed by the visit of the Motorcade of West Texas Chamber of Commerce, and the visitors (approximately 60 in number) were enraptured by the scenic grandeur of the Llanos. Mr. Bourland, president of W. T. C. C., declared that Junction and the magic Llanos were a revelation to him and other members of the party. Both Kimble County and all West Texas should profit by the friendly visit.

"Everybody's Store"

LONDON LOCALS

Bro. Edgar Furr has just handed us a hand bill announcing that he will begin a revival meeting at Camp Wood August 17. We wish for Edgar much success in winning souls to Christ.

Born on August 8 to Mr. and Mrs. Tarlton Miller, a fine boy baby. All doing well except Grandpa Miller.

Gone forever is Bob Cannon, and in his stead is Mr. Robt. F. Cannon, who rides a new Dodge Six. Fine, Robert. Glad to see you drive a good car.

Judge D. M. Slaytor and Mr. Francis Harris of Llano are spending a few days at the ranch, and incidentally call in to see us occasionally.

The Boy Scouts now have a bugle and you can hear its call at almost any hour. Good. Blow it long and loud, boys; it

doesn't bother me. Anciently I was just a boy myself, but now with the opportunities you have, opportunities the boys of my age never even dreamed of, you should make more useful men than we, and, to be plain with you, boys, we expect it of you.

Born on August 9 to Mr. and Mrs. Walton Kothmann, a fine boy. Walton says his son has good strong lungs.

Mr. J. M. Hunter and daughter of Bandera, father and sister of the editor of the Graphic, spent the week-end with their son and brother.

Mr. and Mrs. Howard Horn

and Miss Virginia Jones visited friends at Fredonia Saturday, returning Sunday. They report a very pleasant time.

Mr. H. H. Winn and daughter, Miss Gladys, went to Rock-springs Monday. Miss Gladys said she would possibly remain there until the school starts at London.

Mr. and Mrs. D. G. Adams and Master Von, went to Johnson City Friday to visit relatives and to bring their daughter, Miss Selma, home. While there Mr. Adams received a wire message summoning him to the bedside of his son, Clarence,

at Gouldsburg. Clarence was suffering from ptomaine poison. He is up and about now.

Mr. G. T. May and the young Amaon brothers, George M. and Pat, left the 13th for Blanco County to visit relatives there.

The Christian meeting is in progress. Good crowds and a good interest. A number of neighboring towns were represented at the services Sunday. Up to date, the 14th, there have been four professions of faith and four baptisms. Quite a number reclaimed.

We estimate that the London gin will wrap over one thousand bales of cotton this fall. Mr. Horn is now ready to begin separating the lint from the seed and says he will be glad to begin. This good crop means prosperity for the farmer. The farmers' prosperity means prosperity for all classes of business, hence this is evidence that we are dependent one upon another and we should realize this fact and work together more harmoniously. Stand as one man for the progress and development of our county in general and for our London section in particular.
