Hurricane Watch Called For State And Louisiana

SNYDER SPOTLIGHT

By WACIL McNAIR

The small road project which was the object of a hearing before the state highway commission Thursday would serve relatively few Scurry Countians, although most of the road involved is in this county. However, members of the Scurry Commissioners Court and representatives of the Chamber of Commerce are anxious for the road to be finished because it will mean a more convenient entrance to Lake J. B. Thomas for people who live to the south and southwest.

Once they get to the lake, if these people need to "run into town" to buy something, the closest town is Snyder, and there's already a convenient way for them to get to town.

The piece of road in question leads directly south from the Lake Thomas dam to Highway 350. A dirt road already is open, and if it is paved, people from Mitchell County, Big Spring, Midland and Odessa will have a better route to the dam.

• • •

Speaking of roads, County Commissioner T. B. Knight has revived a proposal for an extension of Highway 350 from Snyder northeastward. It would connect Snyder with Aspermont, and in turn would provide a shorter route to the Wichita Falls area, not only for Snyder, but for Big Spring and traffic coming from the west via U. S. 80. Such traffic, of course, would pass through Snyder if the state road should be extended.

At present Highway 350 terminates here and at Big Spring.

Apparently there is considerable local interest in this proposal.

• • •

The elements paid little attention to the calendar during the final week of summer. The "hot" season was scheduled to end Saturday, but some of the most torrid licks of the season were administered as the autumnal equinox approached. Maximum temperatures here during the week ranged from 98 degrees to 103 degrees, and on Wednesday the temperature range was 43 degrees with a high of 103 and a low of 59.

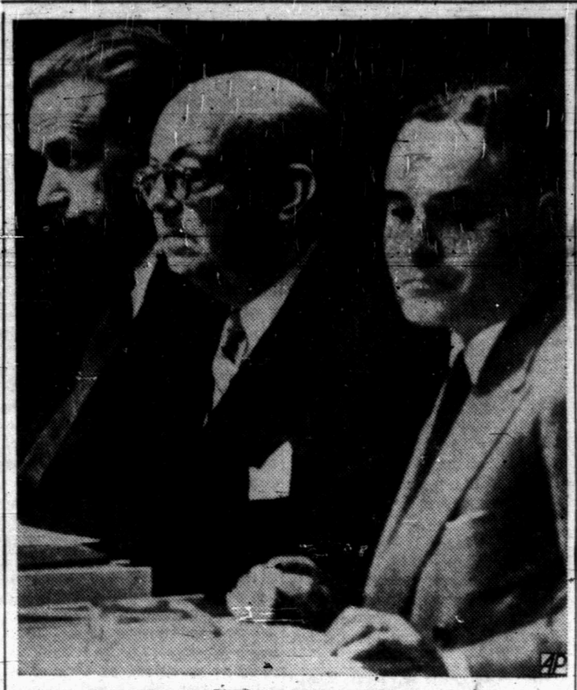
Glover Tunnell of Tyler, president of the Texas Association of Real Estate Boards who was here Friday, said the "easing" of credit by federal agencies will surely have some effect on home building. However, he reminded that the easier credit applies only to homes costing $9,000, or less, and the figures apply to FHA appraisals only at that level.

Real estate men say the public often is confused over the published reports on such matters. There's a lot of "red tape" attached. Also they say that many people apparently are unaware that there is no such thing as a 100 per cent GI home loan commitment anymore. These commitments are 98 per cent now.

However, Tunnell said that anything that relaxes credit and lowers down payments, regardless of the category, usually means that activity will be stimulated. The extent of the stimulation, of course, is uncertain.



ATOM-FOR-PEACE CONFERENCE OPENS—Brazil's Joao Carlo Muniz, center, who was elected president, presides over the first session at the United Nations of an 81-nation group being set up as an international atomic energy agency. Flanking him are Dag Hammarskjold, left, U.N. Secretary General, and Dr. Ralph Bunche, right, U.N. Undersecretary.

Demos, GOP Hurl Charges

By The Associated Press

Adlai E. Stevenson said Saturday night the Eisenhower administration has short-changed farmers, small business men, taxpayers and working men, while Vice President Nixon spoke hopefully of doubling everyone's standard of living within 10 years.

Both rested Sunday in Colorado, Stevenson in Denver and Nixon in Colorado Springs, where they addressed rallies Saturday night.

Stevenson had started a new 11-state campaign tour earlier in the day with a major farm speech at Newton, Iowa. Nixon reached the halfway point of a 32-state swing to cover 15,000 miles in two weeks.

Nixon outlined an "exciting future" which he said is possible "if we have an administration in Washington which does not say 'let the government do it.' " He said the Republican party is best equipped to promote the economic health of the nation.

Based on what he called "projections of the gains we have made in the last four years," Nixon said "we see the time not too far distant when we can have a four-day week" and an eventual time when "poverty will be a forgotten word in the United States."

In his farm speech, meantime, Stevenson had charged the Republicans with "brazen political expediency on farm issues" and said President Eisenhower must bear the responsibility for what he called a "farm depression."

He said Eisenhower went to the farmers in 1952 with "careful, calculated words meant to get farm votes," and the administration has not carried out the campaign pledges. Stevenson said he wasn't attacking Eisenhower's motives, but that the President must bear the responsibility.

Outlining his own farm program, the Democratic presidential nominee led off with a return to price supports of basic crops at 90 per cent of parity—the old Democratic level which Eisenhower replaced with a sliding scale of supports. He proposed also a series of other moves to reduce crop surpluses, protect prices, promote conservation and provide credit to farmers.

Secretary of Agriculture Benson said in a statement Stevenson's speech "was more wind than rain," and offered "little new hope for farmers."

Stevenson's appearance at the National Field Days followed by only 24 hours a similar visit by Eisenhower, who will outline his own thoughts on the farm situation in a speech in Peoria, Ill., Tuesday. Eisenhower's speech then will be carried by radio and television.

Cool Front Hits Texas

By The Associated Press

The Weather Bureau ordered a hurricane watch Saturday night for the upper Texas and Louisiana coasts as tropical storm Flossie grew in intensity.

At 5 p.m. advisory located the sixth tropical storm of the season 450 miles south of New Orleans in the Gulf of Mexico. The advisory said the storm is expected to be a full hurricane by early Sunday.

The advisory by the Weather Bureau at New Orleans said:

"A hurricane watch is advised for upper the Texas and Louisiana coast, and small craft from Corpus Christi to Appalachicola, Fla., should remain in port."

The report said the storm appears to be intensifying. At 5 p.m. it was reported to be moving northwest about 12 miles per hour with winds from 45-55 miles per hour in heavier squalls extending 350 miles to the east and north of the center.

Continued northwest movement at about 12 miles per hour is expected to continue for the next 18 hours, the Weather Bureau said.

Increasing winds and squalls and rising tides are expected from Galveston to the Appalachicola areas Saturday and Sunday, the report said.

A Houston volunteer radio network was standing by Saturday, ready to go into operation the moment a hurricane warning is received.

KPRC of Houston, the control station for the network, will broadcast any official hurricane bulletin from the Weather Bureau. Other stations on the network will pick up the bulletin direct for re-broadcast.

By this means, a station spokesman said, storm information will be available to listeners along the coast on a virtually instantaneous basis.

A cool front, meanwhile, was moving southeasterly in the Texas Panhandle Saturday. The front was reported to extend from Lubbock toward Enis, Okla., and Enid, Okla., and Wichita, Kan., late Saturday.

No large changes in temperature was recorded, however, and drops of only about five degrees were expected. North Portions of the state should be cooled slightly by Sunday night, the Weather Bureau said.

Reds Proclaiming Large Changes In Their Party Line

NEW YORK, Sept. 22 (AP)—American Communist leaders today pledged allegiance to the United States and eschewed violence on the road to political and economic change.

They proclaimed internal democracy for their party—provided dissenters limit themselves to talking—and rejected as "liquidationist" the thought that the party be turned into an educational league.

The leaders' views were set forth in a "draft resolution" to be submitted to the Communists' 16th National Convention schedule for next February.

Prepared in the name of the party's 22-man National Committee, the document was said to be the first such statement since 1950. It concededly contained "far-reaching changes" in the party line.

But these changes did not affect the ultimate Communist goal: "Replacement of the system of profits for the few with a system of production owned by the people and operated for the use of all."

Nor were there any changes among the familiar Communist whipping boys: The "giant trusts," "pro-Fascist reaction," "Wall St. forces," "American imperialism," and the powerful enemies of freedom—the Brownells and Nixons, the Eastlands and McCarthys."

The references were to Atty. Gen. Herbert Brownell, Vice President Richard M. Nixon, Sen. James Eastland (D-Miss) and Sen. Joseph R. McCarthy (R-Wis).

Since 1950 Communists the world over have been shaken by the death and downgrading of Premier Stalin. In the United States, many high-ranking Communists have been jailed as advocates of the forcible overthrow of the U. S. government.

Against this background, the U. S. Communist leaders, oft depicted as agents of a foreign government, declared:

"We are American Communists, patriots. Our allegiance is to our own country, the United States. In representing and advancing the fundamental welfare of the working class, we aim always to serve our country's true national interest."

They described their organization as "an American working class political party" seeking ultimate "Socialist reorganization of society in a peaceful, constitutional manner by the majority choice of the American people."

At a press conference in connection with the release of the "draft resolution," Eugene Dennis, general secretary, said the party has about 20,000 to 25,000 members, down from a reported peak of 75,000 to 100,000.

Trial Rescheduled

CANTON, Sept. 22 (AP)—The murder trial of J. H. Hollis, 48, China Grove farmer has been rescheduled for Oct. 8. Hollis is charged with murder in the shooting of James Bush, 55, a Tyler oil operator. Bush was killed July 10 while visiting his farm near China Grove, 14 miles south of here.

Man Is Killed In Fall To Concrete

DALLAS, Sept. 22 (AP)—James Kermit Howard, 42, died today of head injuries received Thursday in a 12-foot fall from a steel beam to a concrete floor.

Charles Wilson, 44, Denton, was reported in serious condition with a back injury suffered when he and Howard fell off the beam.

Dimes Chairman

DALLAS, Sept. 22 (AP)—Maj. Gen. Kearie Berry of Austin, adjutant general of Texas, will serve as Texas chairman for the 1956-57 March of Dimes campaign.

Hobbs Child Eats Insect Poisoning

A Hobbs community child less than two years old was reported "doing fine" by a Rotan doctor yesterday after having eaten insect poison Thursday.

He was the son of the Rev. and Mrs. W. B. Hatch of Hobbs. The child ate the type roach killer which is burned in the home. His parents discovered the effect when the child had convulsions.

The child was discharged from Callan Hospital at Rotan yesterday.

NAACP Promises Fight To Finish

ST. LOUIS, Sept. 22 (AP)—Southern leaders of the National Assn. for the Advancement of Colored People today pledged a fight to the finish against school segregation in the South.

Roy Wilkins of New York, executive secretary of the NAACP, said a plan "was worked out at the meeting" of 14 state presidents of the association, but he declined to elaborate.

Wilkins also declared the NAACP expects "to contest" in court an order aimed at putting the organization out of bussiness in Texas and said "we will not know what specific action to take until we see the text of the judge's order."

In a prepared statement, Wilkins said:

"Three states—Louisiana, Alabama and Texas—have issued injunctions banning NAACP activities. Virginia, South Carolina and other states have passed laws designed to restrict activities of the association. Mississippi has announced formation of a secret police force.

"x x x mob defiance of the Supreme Court ruling against segregation in public schools was reported by representatives from the states concerned.

"There was unanimous agreement among the conferees that this wave of persecution would not deter them from continuing to carry forward legal and constitutional efforts to secure compliance with the Supreme Court ruling.

"They reported unabated support for the program in their respective states."

Wilkins said the actions in Texas, Louisiana and Alabama rest on the assumption that the campaign for public school desegregation will disappear if the NAACP is put out of business.

"This is erroneous," the NAACP official declared. "Negro parents and their children who were threatened by mobs during the past three weeks proved such action will not frighten them in seeking to enjoy that which the law says they are entitled to.

"In the same way injunctions will not deter us. The issue is not one between Texas and the NAACP but between Texas and the United States Constitution as interpreted by the Supreme Court."

Representatives at the one-day meeting were from Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Oklahoma, Tennessee, Texas, Virginia, West Virginia, Delaware and Missouri.

Marshal Returns

SAN DIEGO, Tex., Sept. 22 (AP)—Daniel de la Rosa was back on the job as San Diego city marshal today after Dist. Judge Woodrow Laughlin held that a city ordinance that abolished the post was void.

France Agrees To Join Other Nations In Suez Users Group

LONDON, Sept. 22 (AP) — The French government agreed today to join the Suez Canal Users' Assn. (SCUA), but with reservations and protests that it lacks teeth.

The French Cabinet, in a communique, said it was joining what it called "the club" in order to preserve British-French unity and that it was reserving "liberty of action" to attain international control of the Suez Canal.

French Premier Guy Mollet told newsmen in Paris that Britain had reservations about SCUA "The same as ours," and that "the British will and the French will have not varied since the month of July."

Mollet referred to his promise to the National Assembly to use "every means" to defeat what he called Egyptian President Nasser's act of force in nationalizing the canal on July 26, and Prime Minister Eden's declaration that Britain never could acquiesce in Nasser's unfettered control of the waterway.

"There is no compromise possible on the principle of international control of the canal," Mollet declared.

In London, however, British Foreign Secretary Selwyn Lloyd officially went along with the tempered version of the users' association,, and in invitations to 17 other nations set Oct. 1 as the date for a third London Suez conference to put the agency to work.

Amid signs that Nasser's Arab neighbors were putting pressure on him to compromise with the West, the Egyptian President flew to Saudi Arabia for a three-power Arab summit meeting with Syrian President Shukri Kuwalty and Saudi Arabian King Saud at Fiyadh.

Some of the Arab states were reported alarmed that a shutdown of the canal or a long-drawn economic struggle with the West might hurt their oil revenues.

Some informants in Cairo hinted that SCUA came close to Nasser's own ideas, and there was intense interest in the forthcoming visit here of India's roving ambassador V. K. Krishna Menon.

Menon, ending a week in Cairo, declared today he was "optimistic" after his talks with Nasser on the Suez crisis, and headed for London where he said he would "contact my friends."

Menon, too, is known to have floated feelers that India would like to see the issue compromised.

SCUA, its cutting edge blunted by promises that the canal-using nations would not shoot their way through and that shipowners can do as they please about paying tolls to Egypt or the international agency, was approved by a majority of the 18 nations at the second Suez conference concluded here yesterday. The same 18 nations met flat rejection from Egypt when, at their mid-August conference, they proposed international operation of the canal.

Action Names Sen. Daniel

AUSTIN, Sept. 22 (AP)—The Constitution Party of Texas filed an action in the Supreme Court today asserting Sen. Price Daniel had been illegally named Democratic nominee for governor.

In a motion for rehearing the party asked reconsideration of the court's order refusing W. Lee O'Daniel a place on the Constitution ticket.

There was no indication when the court would act.

In its original request to Secretary of State Tom Reavley the constitutionalists claimed that O'Daniel was eligible to be their candidate because he was defeated and did not take part in the second primary where Daniel was chosen as the nominee.

The Supreme Court upheld Reavley's refusal to put O'Daniel's name on the ballot and said that he "assumed a high moral obligation to support the nominees of the Democratic party for governor in 1956, regardless of whether a second primary was or was not necessary.

Talks Scheduled

AUSTIN, Sept. 22 (AP)—Dr. John Rees of London, director of the world federation of mental health, will speak in five Texas cities next week under sponsorship of the University of Texas Hogg Foundation for Mental Hygiene. He will speak in Dallas Monday, Fort Worth Tuesday, Waco Wednesday, Austin Thursday and in Houston Friday.

Nicaragua Leader Shot Three Times

GUATEMALA, Sept. 22 (AP) — A gunman tried to kill President Anastasio Somoza of Nicaragua early today at a reception in Leon, second city of Nicaragua, diplomats here reported. They said the 60-year-old strongman was wounded at least three times but survived the assassination attempt. The gunman was beaten to death on the spot.

Nicaragua was placed under a state of siege—a modified form of martial law. Save for official messages all communications with Managua, the country's capital, was cut off.

There was no indication that a revolution was under way.

Nicaraguan embassies in Guatemala and other capitals said calm prevailed in the country, where elections are scheduled in November. Somoza's current 6-year presidential term expires in 1957. He is a candidate for re-election. He has been in power in Nicaragua for the past 20 years.

Somoza was in a hospital in Managua. Reports on his condition varied from "serious" to "recovering." Most reports agreed he agreed he was wounded in the chest, abdomen and leg.

The man who tried to kill Somoza was identified as Rigoberto Lopez Calero, a Nicaraguan. It was the second reported attempt on Somoza's life within the past two years.

Somoza announced in April 1954 that three persons had been killed in an abortive revolutionary attempt. He said revolutionaries sought to slay him as he was leaving a reception in Managua given by the U. S. Embassy in honor of a visiting American general.

Since then Somoza has been in a feud with President Jose Figueres of Costa Rica, who accused Somoza of giving refuge to rebels who tried to overthrow Figueres last year.

This appeared to be the sequence of events in the shooting as assembled from reports received in capitals of Central America and Latin-American republics, as well as Washington:

Somoza and his wife were attending a party at Casa del Obrero, a workers' club in Leon. It is the center of Somoza's Liberal party and the scene of recent meetings at which Somoza's candidacy for re-election was launched.

Some time after midnight the gunman approached Somoza as he was chatting. The President was seated in a chair while others in the party were dancing.

The assailant pulled out his gun and fired. Some reports said he emptied his gun. Others said a lesser number of shots were fired.

Ambassador Guillermo Sevilla-Sacasa said in Washington he was informed from Managua that Somoza was shot at probably four times. One shot broke Somoza's arm, another hit him in the leg and a third pierced his stomach.

Nixon Slates State Talk Tuesday Night

HOUSTON, Sept. 22 (AP)—Vice President Richard Nixon brings his reelection campaign to Houston Tuesday night.

Texas Republicans hope the Nixon visit will be followed by a speech in Houston or Dallas by President Eisenhower.

Nixon speaks at 8:30 p.m. Tuesday in the 4,000 seat Music Hall, just half hour after President Eisenhower completes a nation-wide television speech. Television sets will be in the auditorium for early arrivals.

A large TV screen also will be erected outside the hall so an overflow crowd may see the Vice President. The arrangements committee said thousands will be unable to get in. Nixon will be asked to make a brief speech outside the building before entering the hall.

Republican officials were unable to rent the adjacent 12,000-seat Sam Houston Coliseum which is being prepared for an ice show.

The Veep and Mrs. Nixon will be honored at a Wednesday breakfast prior to their departure for Springfield, Mo.

All Republican county executive committees have been urged to send county delegates to the statewide rally.

A citizens for Eisenhower-Nixon Bandwagon, one of six campaign vehicles touring the nation, will arrive tomorrow.

WEATHER

SNYDER TEMPERATURES: Friday's high was 97; Low 65.

West Texas: Generally fair Sunday and Monday. Cooler South Plains and Upper Pecos Valley Sunday.

Record Enrollments Are Set By Texas Schools This Fall

By ROBERT E. FORD
The Associated Press

Texas colleges and universities, suffering slumps in registration for a time after the World War II GI's graduated, snapped back to record enrollments this fall, a survey by The Associated Press shows.

Many institutions said registrations were at all-time highs. Almost all reported increases over last fall.

The teacher shortage was hurting Texas Western at El Paso, originally estimated an enrollment of 4,199. Some night classes were cancelled because teachers couldn't be found. The estimate now is 3,900, with 2,949 enrolled by the weekend. The 3,900 figure will be above last year's.

An important increase in evening college enrollment at TCU—estimated up 30 per cent—is expected to give the Fort Worth school a record registration of 5,200 to 5,400.

Texas Tech at Lubbock has registered 7,610 and expects 8,000. It is a record. The previous high was 7,156 last fall.

The University of Texas, largest school in the state, expects a record 18,000 compared with 17,500 last year. Registration Friday was 16,967.

Finding classrooms at the Austin school was a problem. The university, in addition to the new students, has 120 new faculty members and 20 new courses—but no new classrooms.

The huge University of Houston Saturday had 13,200 registered and more were due.

At Rice at Houston, 1,802 students had registered, 250 of them in graduate classes.

Some larger colleges were expecting increases in enrollment but no records.

At Baylor, enrollment at the weekend was 5,361, about the same as last year, and no overcrowding was expected at Waco.

SMU at Dallas had close to 5,400 enrolled. It was better than last year's 5,073.

Texas A&M at College Station had a huge Freshman class of 2,007 and Freshmen facilities were slightly crowded. The Frosh class last year was 1,849. Total enroll-

Snyder Man Dies In Auto Accident

Funeral services will be held at 3 p.m. today for Aubrey Charles Blakely, 21, of Snyder, who was killed Friday night in an automobile accident near Austin.

The accident occurred on U. S. Highway 71 about 28 miles southwest of Austin. Blakely and a cousin, George Elwood Blakely, 27, of Odessa and Snyder, were in a car which plunged off a 20-foot embankment. Reports are that Aubrey Blakely was thrown from the car and that the car fell on him.

The two lay at the scene an estimated two hours before they were found. The accident occurred at about 8:30 p.m. Friday.

The other Snyder man was injured and hospitalized in Austin, but his release from the hospital today was probable. He is the son of Mrs. Maudie Blakely, 2506 Avenue N.

Aubrey Blakely, the son of the late Floyd C. Blakely, lived on O'Neil Street was a native of Scurry County and a graduate of Snyder High School. He operated Blakely's Texaco Service Station at 900 Twenty-fifth Street.

The Rev. G. M. Cole, pastor of the First Baptist Church, will officiate in services, to be held there, assisted by the Rev. T. Gerald Cates, pastor of the Calvary Baptist Church. Burial will be in the Snyder Cemetery under direction of Bell Funeral Home.

Survivors include his mother, Mrs. Pearl Blakely of Snyder; one sister, Joyce Blakely of Snyder; two brothers, Kenneth Weldon Blakely of Snyder and Floyd C. Blakely, Jr., of Los Angeles, Cal.

Dam And Acqeduct System Is Urged

WASHINGTON, Sept. 22 (AP)—Rep. Walter Rogers (D-Tex) called on Secretary of Interior Seaton today to seek funds to start the 96-million dollar dam and aqueduct system for the Texas Panhandle.

Rogers wrote the Cabinet member a half million dollars already has been spent on studies and that the time has come for action.

The Interior Department said recently it would look into the proposal following a recent conference between Seaton and Texas GOP Committeeman Jack Porter.

As originally proposed when Congress authorized the Canadian River dam project in 1950, these cities would use its stored waters: Amarillo, Pampa, Borger, Lubbock, Plainview, Brownfield, Littlefield, Slaton, Tahoka, O'Donnell, Lamesa and Levelland.

Claiming the "feasibility of the project has been determined after a complete and thorough investigation," Rogers wrote:

"I feel that further investigation of a project that has been so thoroughly and completely investigated and explored, would be a waste of taxpayers' money. . .

"Since the project has been approved as feasible, and its need is great, I can see no reason for further delay in commencement of construction."

Turning to financing, which eventually would be almost entirely paid by water users, Rogers said:

"Much has been said about a presidential program advocating partnership in water projects. . . The Canadian River project meets fully and goes far beyond every requirement that could be thought of under a partnership theory.

"In fact, more than 90 per cent of the cost of the project is an obligation assumed by the local people."

Rogers quoted a Reclamation Bureau letter to him dated Oct. 20, 1954, outlining a proposed schedule for repayment by water users of their share of the costs over a 50-year period.

Total reimbursable costs to both cities and industrial users, including interest, operation and maintenance costs during construction, would amount to $91,631,000. Figuring 2.6 per cent interest on the unpaid balance, this would call for 50 equal annual installments of $3,296,000 in repayment of the debt.

A Canadian River Authority has been created by the Texas Legislature, to deal with the government or private banking circles in financing construction.

Rogers told Seaton, "No requests have ever come from the Bureau of Reclamation, the Department of Interior or the Bureau of the Budget asking appropriation of funds by the Congress to carry out the purposes" of the Canadian Dam authorization act.

Congress seldom appropriates money for public works unless a formal request for funds has been submitted to it by the Budget Bureau.

Requesting an early answer, Rogers asked Seaton if he will recommend construction funds for the year starting July 1, 1957.

Chaplains To Meet

AUSTIN, Sept. 22 (AP)—Thirty Protestant and Jewish chaplains from Air Force bases throughout the nation will meet here Oct. 1-26 for a training program that will stress marriage and family counseling.

Smuggling By Airplane Is Being Stopped

WASHINGTON, Sept. 22 (AP)—Immigration Commissioner Joseph Swing says a lot of smuggling by plane across the Mexican border has been "pretty well closed down"—and the Mexicans have acquired an air patrol in the process.

Swing gave this testimony in closed session to a House Government Operations subcommittee questioning him about alleged use of government equipment for hunting forays in Mexico. The testimony was made public today.

The House group headed by Rep. Mollohan (D-WVa) later said it thought Swing improperly used the equipment—trailers, jeeps, planes—despite Swing's sworn statement that his hunting was done only incidentally while on official trips.

Swing said during one trip into Mexico last fall—"it was a meeting at which the Mexicans asked me to hunt"—trailers, jeeps, planes putting a halt to air smuggling.

Swing said the U.S. immigration officials knew of a number of small Mexican fields within 75 or 100 miles of the border to which light planes were flying at night, staying until the next night, then flying back to the United States in the darkness when they couldn't be caught.

On the flight to Mexico the smugglers would take luxury items such as women's fancy underwear, Swing said, adding that on the return hop, the illegal cargo might range from aliens to marijuana or parrots.

Swing said the Mexicans then had no planes to catch up with the smugglers at the scattered airstrips.

"So we arranged that when our own people saw planes on the Mexican strips, they would pick up the Mexican customs officer and take him to the strip and land there," Swing said.

"If the plane was there illegally, then the Mexicans would confiscate the plane."

Swing said the Mexicans had seized five planes and are now flying them on their own border patrols.

He said the Americans had caught 11 planes.

Guard Troops Are Removed In Kentucky

STURGIS, Ky., Sept. 23 (AP)—All National Guard troops were withdrawn today from the two western Kentucky mining-farming communities of Clay and Sturgis, scenes of racial friction the past two weeks.

Adj. Gen. J. J. B. Williams announced the withdrawal. He said no troops would be on a stand-by basis.

Williams said his recommendation for the troop withdrawal was approved by Gov. A. B. Chandler.

"Governor Chandler has reviewed the situation and has approved my recommendation that troops be withdrawn from Clay and Sturgis. The National Guard is now on its way home," Williams said.

The two towns settled down to await federal court action over attempts of Negro students to attend the previously all-white Sturgis High School and Clay Consolidated School.

At the height of demonstrations, 950 Guardsmen and 60 state policemen were called to maintain order.

Both schools were boycotted by white students.

Enrollment returned to near normal at the two schools after the boards of education in Union and Webster counties ruled on the basis of an opinion from Atty. Gen. Jo M. Ferguson that the Negro students couldn't attend the white schools.

The world's smallest republic, San Marino, was founded 16 centuries ago.

SETS REPORTED RECORD—Capt. Iven (cq) C. Kinchelie, a Korean jet ace, reportedly flew the Bell X2 rocket plane—world's fastest aircraft—to unprecedent altitude of 126,000 feet (almost 24 miles) at Edwards Air Force Base, Calif., flight test research center.

State Plant Is Planned

LONGVIEW, Tex., Sept. 22 (AP)—Officials of Anvil Products, Inc., wholly owned subsidiary of Pittsburg Pipe Coupling Co. of Aliston Park, Penn., announced today the company will establish a manufacturing plant at Greggton to serve its southwestern and mid-continent markets.

James R. McIlroy, vice-president of the parent company and the Texas subsidiary, said the Greggton site was chosen after several surveys of East Texas.

Dulles Returns To Give Suez Report

WASHINGTON, Sept. 22 (AP)—Secretary of State Dulles returned from London today to report to President Eisenhower that "solid gains" have been made toward a peaceful solution of the Suez Canal crisis.

U. S. officials said chances of Middle East war had receded as a result of agreements reached at an 18-nation meeting in London this week to set up a Suez Canal Users Assn.

Dulles said members of the new group are in favor of referring the dispute to the U. N.

In a statement on arriving at National Airport, Dulles said the London conferees, representing over 90 per cent of Suez Canal shipping had "kept widely open" the door to a "peaceful and fair solution" of the problem.

He said it is up to Egypt to decide whether to "choose that way."

Dulles' plane landed at 3:04 p.m. Two hours later he was in the White House, reporting on his third emergency trip to London in recent weeks. He remained there about 35 minutes and left without comment.

His main purpose, since Egyptian President Nasser nationalized the canal July 26, has been to deter Britain and France from using force to restore international operation of the canal, and to try for a peaceful settlement with Nasser.

A previous London conference produced a proposition for an international authority to run the canal. Nasser rejected that Sept. 10. This week's meeting resulted in the plan to set up a users association.

Dulles is known to hope that all 18 countries will join, with others possibly coming in later. But he understands that Ethiopia, Iran and Pakistan are under various pressures from Egypt not to join, so that initial membership in the association may total 15 countries.

Dulles emphasized four functions for the new organization:

1. It will "help the vessels of members to get through the canal." The plan is for the association to hire experienced canal pilots who have refused to work for Egypt and try to get Nasser to let them take ships through the canal. No one here seems to expect that Nasser will agree to this but he may decide to negotiate about it.

2. The organization will "serve the U. N. in helping to work out a provisional solution." Exactly what Dulles has in mind on this point is not clear. But he reportedly feels the U. N. would be able to do more toward getting a solution from Egypt if all the chief canal users are organized into one group.

3. The association is an instrument for "dealing with the serious economic problems that may arise for some of the member nations" if the canal is blocked. Ethiopia, for example, could be extremely hard hit since most of its supplies are shipped through that waterway. Western Europe could be partially paralyzed by lack of oil unless other sources were opened up speedily.

4. The association "will study alternatives which might reduce dependence on the canal." This is a reference to such possibilities as building supertankers for economical shipment of Middle East oil around Africa, for construction of more pipelines to the Mediterranean shores, and for substituting atomic power for petroleum where possible in Europe.

World consumption of nitrogenous fertilizers, excluding Russia, has risen from 2.4 million metric tons in 1938 to 5.8 million metric tons in the past year.

RECORD

Continued From Page 1

ment was 7,113 through Saturday, well above last year's 6,800 but far below post-World War II totals of 9,000.

North Texas State College was up somewhat at 5,702 through Saturday. Enrollment at Texas State College for Women, also at Denton, also had increased, standing at 2,108.

Midwestern University enrollment is expected to go above last year's 1,440, but still would not be a record. As of Saturday the total at Wichita Falls was 1,407 with registration continuing.

Texas Wesleyan College expects a total of 1,150 students, about the same as last year. There is no overcrowding but the school plans to build new dormitories next fall.

Registration at East Texas Baptist College is expected to exceed last year's 703. Through Saturday, enrollment at the Marshall college was 643. The men's dormitory capacity was exceeded and two old dormitories have been pressed into use for 50 or more men.

Panamerican, only senior college in the Rio Grande Valley, estimates that 1,380 will enroll—about the same as last year. The registrar said there will be some overcrowding.

Abilene Christian College and McMurry College have both set new enrollment records this year. Enrollment at ACC is 2,158 as compared with 2,080 last year.

McMurry lastyear had 786, but this year has registered 844.

Enrollment at Hardin-Simmons College is not yet complete. So far 1,414 have registered. Last year they had 1,483.

The "boiling oil" used in movie scenes of medieval conflict is actually dry ice and water.

GRASS JUDGING TEAM—This group of members of the Snyder chapter of the Future Farmers of America compose the grass judging team which will go to Dallas Oct. 5 for the state grass judging contest, which will be held the next day. Last year, the Snyder team took fourth place in the state contest. The Snyder team took first places in similar contests at Abilene Christian College and Texas Tech last. This year's team, from left to right, includes Steve Nail, Billy Greene, Billy Bob McMullan, instructor, Jerry Springer, and Robert Nail. Robert Nail is the only new member of the team. (Lee Watson photograph)

Hopes For Fall And Winter Crops Are Fading In Texas

COLLEGE STATION (AP) — The Texas Agricultural Extension Service said today hopes of Texas farmers and ranchers for fall and winter crops are fading with hot and dry September weather.

This brought a more acute shortage of hay and feed and more applications by counties for government disaster drought relief, the service reported.

"A lack of moisture now has cut short the period of time needed for growth of many crops before freezing temperatures, and has halted planting and growth in areas where showers earlier furnished moisture," Extension Service Director G. G. Gibson said. "Much more land is being prepared for planting if and when rain does come."

The report from district agents showed livestock marketed in large numbers. A far below normal cotton and grain sorghum harvest continues northward, winding up in North and East Texas and starting in the Edwards Plateau and Plains areas.

As an example of conditions, V. G. Young at San Angelo said, "Taylor County is having its driest year since 1885. Schleicher County reports only 5.94 inches of rain since Jan. 1. Nolan County estimates are for a low 3,000-bale cotton crop. Bandera County has many ranches low on water. Kimble County lambs are going to market much earlier than normal due to drought."

Scattered showers in South Texas will enable farmers in small areas to plant winter pasture, but generally there isn't enough moisture for widescale benefit, Joe Rothe at Weslaco reported. Livestock herds are being reduced as quality of prickly pear and mesquite bean feed is low.

Walter Scott at Nacogdoches and John Surovik at Mt. Pleasant said a late feed crop still can be made if rain falls soon.

Pecos County farmers are harvesting a bale an acre from first picking of irrigated cotton. Early irrigated winter pastures are being planted, added Ray Siegmund at Fort Stockton. The entire West Texas area is extremely dry and livestock is being fed and marketed.

Some of the Central Texas peanut crop is being baled for hay in the drought, R. G. Burwell at Stephenville said.

In South Central Texas, the drought is critical except in isolated spots, Joe Glover at Gonzales added. Heavy feeding and marketing of cattle continues.

The rice harvest in the Gulf coast area is well under way with good yields except in some sections where irrigation water shortages occurred, Silver Whitsett said at Richmond. The outlook for pecans is fair, but the peanut crop is short and some is being baled for hay.

The entire Panhandle is reported very dry by Knox Parr at Amarillo. Grain farmers still are irrigating, and early harvest of grain sorghum has begun with yields lower than expected due to a shortage of water during growing season. Wheat seeding has stopped, and pastures are in very poor condition.

All North Texas still is described as critical by Ted Martin at Denton. Some peanuts are being baled for hay. There is heavy marketing of livestock.

Cattle have decreased to one-fourth or one-half of average in Shackleford and several other counties in the Rolling Plains, and more are being sold daily due to a feed shortage, J. G. Simmons at Vernon said.

Beer Drinking Binge Started In Bavaria

MUNICH, Germany, Sept. 22 (AP) —Bavaria started a 16-day beer-drinking binge at noon today. As a 12-gun salute boomed over the city, they rolled out the beer barrel for Mayor Thomas Wimmer to open and start the traditional welcome to the harvest season. Before the celebration is over, thousands of barrels will be drained.

Five million visitors are expected in the Bavarian capital to drink beer, dance, drink beer, eat bratwurst and drink beer.

New Guinea, with an area of 347,450, is the second largest island in the world. Greenland is the largest.

Payments In Cash Grain Permissible

COLLEGE STATION, — Compensation to farmers for reducing their 1957-crop winter wheat acreage below their wheat allotment, designating such acreage for inclusion in the Soil Bank's Acreage Reserve program, will be in the form of negotiable certificates, R. G. Shrauner, Chairman of the State Agricultural Stabilization and Conservation Committee, has announced.

The certificates are redeemable in cash through regular banking channels, or they may be redeemed in grain by the producer to whom they are issued. The certificates will be issued after the County ASC Committee can determine that the acreage-reduction requirements of the program have been met.

Shrauner explained that the amount of compensation for wheat on the farm will be determined by multiplying the base unit rate per bushel for the county by the smaller of (1) the normal yield for the farm or (2) the normal yield for the land designated in the agreement as the Acreage Reserve; this figure will then be multiplied by the number of acres determined as the acreage for compensation. The base unit rate per bushel varies by counties.

Except that the wheat acreage placed in the Acreage Reserve for a farm may not exceed the wheat allotment, the maximum wheat acreage which may be "reserved" is generally 50 percent of the allotment or 50 acres, whichever is larger. The minimum wheat acreage which may be placed in the Acreage Reserve is 3 acres or the allotment, whichever is smaller.

Land in the Acreage Reserve must not be cropped or grazed during the period of the Soil Bank agreement. If any winter wheat is grown on the farm this fall, Acreage Reserve agreements for the 1957 wheat crop must be signed by September 21, 1956.

Feed Manufacturors Sell Over 4 Million

COLLEGE STATION, — Feed manufacturers doing business in Texas sold 4,053,139 tons of commercial feed during the State fiscal year ending August 31, 1956, according to F. D. Brock, chief of the Feed Control Service.

The fiscal year just closed is the fourth in the 50 years of operations of the Feed Control Service in which annual commercial feed sales have been above 4 million tons.

An all-time high was the sale of 4,405,676 tons in 1951-52. Other record years were 4,117,344 tons in 1952-53 and 4,060,139 tons in 1954-55.

Records of the Feed Control Service show about 1,700 commercial feed firms did business in Texas during 1955-56. About 400 of these firms have their headquarters outside of Texas. Several firms have registrations covering as many as 150 different feed formulations.

Tonnages of feed sales reported to the Feed Control Service do not include the volume fed to livestock and poultry by farmers who process and use the feed they grow. Such feeds are exempt from the provisions of the Texas feed law.

Buildings Destroyed On School's Campus

AUSTIN, Sept. 22 (AP)—Flames fanned by south winds destroyed four buildings on the Travis County vocational school campus in less than one hour late last night.

The fire quickly covered the five-acre Colorado-Riverside plot. It began in the west shop building of the school, firemen said. No injuries were reported.

Thousands jammed traffic on all sides for blocks, hampering firefighter.

Stevenson Says America In Midst Of Farm Depression

By MARVIN L. ARROWSMITH

NEWTON, Iowa, Sept. 22 (AP) — Adlai E. Stevenson, accusing the Republicans of "brazen political expediency in seg votes, said today America is in the midst of a "farm depression" and that President Eisenhower must shoulder responsibility.

"Today we are confronted not with a breakdown of our agriculture, but with a breakdown of imagination and leadership," the Democratic presidential nominee said in firing sharp criticism at both the President and Secretary of Agriculture Benson.

In an address prepared for the National Field Days and Plowing Matches 24 hours after Eisenhower's informal talk here to a huge audience of farmers, Stevenson said:

"There are some chickens, frankly that have been waiting a long time to come home to roost. Here they come."

During the 1952 campaign, Stevenson said, Eisenhower made pledges to the farmers in "careful, calculated words meant to get farm votes." The pledges have not been carried out, he added.

Stevenson said he is sure Eisenhower's motives are "good and sincere" and that he was not attacking them.

"I am even willing," Stevenson said, "to believe that he did not fully understand what he was saying to America's farmer in 1953.

"But the President of the United States must be a responsible man. Secretary Benson was his hired man, and if a farm is mismanaged the farmer is responsible, not the hired man. We know that. And so should the President."

Stevenson flew to Iowa from his national headquarters in Washington to start a new 11-state campaign tour which will end a week from today. For the kick-off he chose this heart of the nation's cropland in a major bid for the important farm states vote.

In his brief talk here yesterday Eisenhower held to his announced plan and spoke only in general and what he called nonpolitical terms. He has a big farm speech coming up Tuesday evening at Peoria, Ill.

After criticizing Eisenhower, Benson and the Republicans generally on farm policy and the administration program, Stevenson outlined his own program with the first step "to stop and reverse the decline in farm prices."

"We propose," he said in setting forth the key provision, "to support basic commodities at 90 per cent of parity."

In setting forth his own program, Stevenson praised the Democratic platform farm plank as the best that any party ever had.

He called it a plank "designed to establish not merely price parity but income parity — a fair share of our national income for farmers."

After calling for return to support of basic commodities at 90 per cent of parity, Stevenson urged:

1. Extension of government protection to perishable produce "through a combination of direct production payments, marketing agreements, and production adjustments."

2. Vigorous administration of the soil bank program aimed at reduction of crop surpluses. He termed the program "a good Democratic idea."

3. Consideration of the idea "of what could be called a 'legume bank' to change the emphasis from reducing cash crop production to increasing acreage of soil-building crops."

AGRICULTURE

Racial Case Will Face Court Test

DALLAS, Sept. 22 (AP)—An anti-segregation maneuver that could put school officials who are against integration on a hot spot goes into a courtroom Thursday.

It could mean this to local Authorities: Integrate your schools or go to jail.

What federal judges will finally rule is speculation. The National Assn. for the Advancement of Colored People is asking a Federal Court to cite two school officials for contempt of court. Contempt citations in other types of cases have resulted in jail terms and fines.

The man who brought the action is directly under the gun in one of the hottest integration trouble areas in the South.

He is Simpson Tate, regional NAACP lawyer. He is calm at most times amid the uproar over seating Negro and white students side-by-side in the same schools.

Developments yesterday on state court level will not affect the federal court hearing, Tate said.

The state district court at Tyler issued a temporary restraining order yesterday in effect putting the NAACP out of business in Texas. A hearing Friday — one day after the contempt hearing — will be held on the order.

The state court action will be handled for the NAACP by W. J. Durham, Texas attorney for the organization.

Atty. Gen. John Ben Shepperd said the restraining order was asked because, he alleged, "The NAACP has exceeded the bounds of propriety and the law."

Tate is acting for Steve Poster, filed a motion seeking to intervene in the Texarkana Junior College segregation case. If he's given permission, his pleading says, he will seek to cite the college president and a trustee for contempt.

At Texarkana, Tex., angry demonstrators blocked Negroes from entering the junior college. Cross burinings and angry outcries by white Citizens Councils are almost a daily occurance in Tate's region.

The intervention plea is in the case of Wilma Whitemore vs. H. W. Stilwell, the college president. This federal case resulted in a ruling that the college cannot bar Negroes.

Tate is acting for Steve Poster, 17, and Jessalyn Gray, 18, the Negroes prevented by demonstrators from attending Texarkana Junior College this fall.

Stilwell says he was "not in contempt of court at any time and did not advocate violence at any time."

"I said the South should resist integration, and I still think it should," he said.

The proposed plea in the segregation suit seeks to cite Stillwell for advocating resistance. Bill Williams, a college trustee, is accused of being a member of the crowd that barred the two Negroes.

Wheather contempt charges will be filed against other school officials in segregation cases, such as Mansfield, has not been determined, Tate says.

But he adds there could be grounds if any school officials took part in any movement to bar Negro school children from attending a school which had been ordered integrated.

In the Mansfield case, he says, "there is a court order...declaring that these (Negro) children have the right to go to that school. I think that anybody who interferes with that right is in contempt of court, whether he is a school official or not."

"Our position is simply this: We are going to use every legal device at our disposal. We are not prepared to say what we will do in any particular case."

Report On Feed Grain

WASHINGTON (AP)—The Agriculture Department said today the expected total feed grain supply for 1956-57 is about equal to the record supply of last year. This is nearly 16 per cent above average.

Production of oats, barley and sorghum grain is expected to be about a fifth smaller than the big output of last year. The corn crop is up nearly 100 million bushels and is second only to the bumper crop of 1948.

The department said the 1956 feed grain production appears sufficient to meet the 1956-57 requirements and leave a larger carryover into 1957-58 than the record stocks of this year.

The 1956-57 corn supply is estimated at more than 4½ billion bushels. This is 6 per cent above the record supply of last year and 17 per cent above the 1949-53 average.

The department said corn prices are expected to decline seasonally as the 1956 crop is harvested but the general level of feed grain prices probably will be a little higher this fall and winter than a year earlier.

In Utah, church ministers and leaders have set up "geiger counter" religious schools to teach the Bible to children of parents who have left their normal homes to prospect for uranium.

Farm Loan Group Meets

Members of the Snyder National Farm Loan Association will hold their annual meeting and free barbecue at 6:30 p. m. Tuesday at the exhibit barn in Towle Memorial Park.

At the meeting, the group will hear the annual report and financial condition of the association, to be made by E. J. Richardson, Jr., manager.

The association will also elect two directors. The term of Martin Murphy is expiring, and Mert Jones resigned his directorship.

Murphy is president of the association. Other directors are Audrey Head, vice-president, C. A. Wade, and Glenn Tate.

The program will be by Bob Clinton, who will show film slides of a trip through the Southwest and to the West Coast.

About 150 persons are expected at the meeting.

New RCA WHIRLPOOL 2-speed washer
FILTERS OUT LINT AS IT WASHES OUT DIRT

Gone is the "snow" on corduroys or sweaters. Gone are the white specks on your husband's dark socks—the grit and soap-scum, too! For this new RCA WHIRLPOOL Imperial washer has a lint filter that works full-time—filters out the fuzz as it washes out your clothes—even when water level is low.

Your RCA WHIRLPOOL also gets clothes cleaner—the safe way. Normal agitator speed for everyday things; slower, swishing action for your Sunday-best.

Matter of fact, this washer has *everything* . . .

- Agitator action—vigorous but gentle
- 7 automatic rinses (yet uses no more water!)
- Built-in sun lamp
- 3 water temperatures
- Any water level—11 to 17 gallons
- 5-Year parts warranty on transmission
- Suds-Miser® (optional)—saves soap, water, money
- All-porcelain white (rustproof inside and out) or smart new Matchmaker colors

For cottons, denims, household linens, dial "Normal". Vigorous agitator action (65 strokes a minute) gets them cleaner than ever. Fast, safe spin-drying (625 RPM).

For nylons, Dacrons, filmy things, dial "Gentle". You'll get a slower, swishing action (42 strokes a minute) which eases out the dirt. Slower spin-drying, too.

RCA Whirlpool

No money down if you have an old washer to trade!

78 weeks to pay on our easy, easy! budget plan

Bible Thought

For thou, O God hast heard my vows: thou hast given me heritage of those that fear thy name. Psalm 61:5.

EDITORIALS

Trust The Truth

President Eisenhower understands well that if a system of government is truly strong it needs not fear the competition of others. That is why he urges that American schools teach the facts about communism democracy's most vigorous rival.

He believes, obviously, that truth is on our side, that a full, fair look at both democracy and communism will lead young Americans unfailingly to the choice of democracy.

More important, he clearly appreciates that their devotion to democracy will be deeply enhanced by their having had opportunity to compare it honestly with communism and other political systems.

This is one of the big points missed by those few among us who feel there is peril in teaching the facts of communism.

The way to win dedicated adherents to democracy is not to behave as if you feared its ability to stand up to other systems in a test of truth. The wise teaching of democracy does not consist of declaring flatly that it is wonderful and all other ways are bad.

The alert, questioning American youngster wants better treatment than that. He has no wish to be a rubber stamp for anybody's views. He likes to believe that he can come to his own sound conclusions after hearing the facts.

As the President says: "Competition for men's minds begins when they are students. This is when they must be taught to discriminate between truth and falsehood."

Surely the average American student is willing to be taught how to make that distinction. But having been taught, he desires to make the actual choices himself, not to accept hand-me-down beliefs fashioned by others.

His right thus to decide for himself is at the very start of democracy's meaning. Anyone who would deny him that privilege seeks to employ undemocratic methods to enforce a false notion of what democracy really is.

Says Mr. Eisehower: "Our teachers are presented with a matchless opportunity to teach the truth freely."

Indeed they are. And by lending his moral leadership to a reaffirmation of that opportunity, the President may have helped to diminish what resistance still remains in this country to the teaching of democracy in the free competitive market of political ideas.

Oil Imports Limit?

The Cabinet Committee on Energy Supplies is due to decide before the end of this month whether oil imports should still be limited on a voluntary basis. Early in October Defense Mobilization Director Arthur S. Flemming will hold public hearings on making the limitation mandatory.

Under the Reciprocal Trade extension act of 1955 the Mobilization Director is to determine whether specific imports threaten the national security (i.e., a vital domestic industry). If he so determines, the President, "after an immediate investigation to determine the facts," may take "such action as he deems necessary."

In other words, the President may impose a quota on imports. Last year oil companies agreed to limit voluntarily their imports — except from Venezuela and Canada — to 10 percent, or not much more, of the domestic production. That was about the ratio in 1954.

On Sept. 6 last Mr. Flemming warned the companies that their voluntary restriction was cutting imports by only about 33,000 barrels a day, instead of the 90,000 under the formula accepted. Republican leaders are believed to have warned the Administration that if it fails to impose a mandatory restriction now, it will lose votes in oil and coal states in November.

The Administration has been relying on the voluntary restriction under its creed of the least possible Government interference with private enterprise. However, more than 30 companies now import oil from the Middle East, Mexico, Colombia, Trinidad. Supporters of mandatory action on oil imports argue that to expect each of so many competitors to abide by an agreement that lowers their profits is unrealistic, if not fantastic.

Political Plowing Contest

Dulles Faces More Problems At Second Suez Conference Than He Did In First

By WALTER LIPPMANN

Mr. Dulles is facing an even more difficult task at the second London conference than he did at the first. For the Western position, that of the Big Three, has deteriorated, and it will require some hard work to restore it.

Great Britain and France, though they have not said so exactly, have encouraged the notion that in order to get international operation of the canal they might reoccupy the canal zone. Then, under pressure from the United States and from world opinion, they have almost but not quite said that they would not use force to impose their solution on Nasser. In the game of power politics, which is what is being played at Suez, it is a mistake to threaten if you are not quite certain that you can carry out the threat, and it is equally a mistake to give your opponent a public assurance that you will not use force. A good diplomat does not talk much about force; he lets the other fellow wonder and worry about it.

Having renounced military force through Mr. Dulles' statement that we would not shoot our way through the canal, the British and French, with the United States dragging its feet behind it, began to talk as if they could bring Nasser to his knees by organizing a boycott of the canal. Mr. Dulles then watered down that press. In this chapter of the story the world was treated to the embarrassing spectacle of Sir Anthony Eden and Secretary Dulles talking differently about a proposal that they were alleged to have agreed upon.

The Western position has been weakened by these threats and backdowns. But most seriously of all, having renounced force to impose a solution which it was known that Nasser would not accept, the Western powers have made it very difficult indeed for themselves to negotiate with Nasser at all. For by taking what is so very nearly an inflexible position on their proposal for operation by an international board, they have left themselves with very little room to maneuver.

• • •

The event has shown, so it seems to me that the sound course would have been to present the Western proposal, not on a take it or leave it basis of international operation or nothing, but with a willingness to modify it by negotiation. The international advice to the Egypt- the direction of the Indian and, I believe, the Spanish proposals for international advice to the Egyptians operating the canal. Our object should have been to create a common front of all the 22 counties at the first London conference, which would have included India and tte Soviet Union, on the fundamental principle of the legal right of all the nations in the use of the canal.

As it is, standing so inflexibly on the demand for international operation, there is no common front. Instead, Nasser has the extremely powerful support of the Soviet Union and of virtually all of Asia. Now, if we negotiate for anything short of international operation we shall be climbing down from the too high horse we mounted so hurriedly.

• • •

The Western terms of settlement, which Mr. Menzies took to Cairo, were a reasonable proposal with which to begin a negotiation. But were they so good as to warrant standing on them to end negotiation?

Suppose Nasser had accepted the principle of an international board to operate the canal. It would have been a board which had among its directors not only Egyptians but also, let us say, a Swiss, a Swede, and Indian, perhaps a Russian, an American, a Briton, and a Frenchman. Whatever the membership of the board it would be operating inside of Egypt, within the military and the police power of Egypt, dependent on Egyptian public utilities and Egyptian administrative services. What reason is there to think that such a board could in some specifically dependable way guarantee the rights of the users if the Egyptian government were determined to violate those rights?

The old Suez Company, which Britain and France found so satisfactory, was unable to enforce the treaty of 1888 against the Egyptian government in the case of the Israeli ships. This leads me to the belief that since the canal is in Egypt and within the military power of Egypt, free and equal use of the canal is not guaranteed by a private operating company nor would it be reliably guaranteed by a public international operating company.

The rights of the users will be only as good as their power and influence, which includes their ability to obtain the support of other nations. For that reason we are, I believe, missing the bus in not getting the Soviet Union and India explicitly and firmly aligned behind a new treaty which defines the rights of the users.

1956 New York Herald Tribune Inc.

LITERARY GUIDEPOST

OFF THE BOOK BEAT — Margaret Boylen's new novel, "The Marble Orchard," has been out some weeks, but since this author has a talent that reviewers call much more than a flash in the pan, it is not too late to tell you that:

She is tall, with wavy black hair cut shoulder length, and with the good looks that helped her in her short stage career. Her husband is a theater lighting designer and engineer, whom she met at Grinnell College.

Her mother was a violinist, her father a professor, and she always wanted to write. She likes facts. "I kept a diary in high school that I have been able to use in my writing, and I have folders of notes and clippings. I particularly like lists of things.

How does she write? "The Marble Orchard" took her two years and she inched her way through it, trying to get every paragraph, every page right before she went on to the next. Now she has started on another novel and another method: "I am writing this faster to keep it going, to be sure first of all of the sweep of it."

She had a first novel published nine years ago, and though she remembers it got "respectful" reviews, she says that if the new one seems a little queer, the first was "a real queer one."

Born in Montana, brought up in Iowa, she has lived in and around New York 15 years. She likes the city, but is thinking of going into a sort of creative retreat to write the bulk of her upcoming book. She spent a month with a friend in Northampton, Mass., to finish the first, and she found it a wonderful place to work. New York has distractions:

"I have a weak will. I jump at the first summons to a party."

W. G. Rogers

One Drawback To Long Friendship

BOWLING GREEN, Ky. (AP) — There's only one drawback to the long standing friendship between Robert Johns and W. L. Bonham. They can't stand each other's cooking.

Johns, 82, and Bonham, 72, camp together each summer at their lodge near here. It's equipped with two fireplace pits. At mealtime, each cooks and eats alone.

BUCKLEY

Like Mankind, Forests Are Plagued By Diseases Which Cut Their Lives Short

By BOLMES ALEXANDER

HARMONY FALLS, WASHINGTON —

"One impulse from the vernal wood
Can teach you more of man,
Of moral evil and of good
Than books and sages can."
—Wordsworth

In the twilight, the snow-clad peak of Mount St. Helens changes her white dress for one of purple. The bright green waters of Spirit Lake turn a somber gray. The stars are golden, but the night on earth is black and impenetrable. In the silence of the dark fir forests, the things you've seen and heard during the day take meaning:

Ideally, life could go on indefinitely, But Nature would not have it so. Some foresters say that the California redwood trees are virtually immortal; but after thousands of years they topple of their own weight. Nature in general abhors senility, and sends its armies of insects and infections to shorten the existence of most trees, like the Douglas firs which thrive in these parts. Dr. Keith Shay, a research physiologist for the Weyerhaeuser Timber Company tole me that disease alone kill's 3 or 4 times as many trees as fire and mishap.

In the forests, as in human life, it takes man and his science to hold back the hand of premature death. The science called forest genetics is attempting to breed disease - resistant trees, and to develop an elite forest. This would do for timber crop what agronomists have done for some of the grains and fruits. The Germans, long threatened with a timber shortage, are far ahead of Americans in raising pedigreed trees.

The forest primeval, which Longfellow glorified, is often like a desert for the animals and humans that attempt to live there. The giant trees form a canopy overhead which closes out the life-giving sunlight, so that vegetative growth is retarded and warmth is diminished. It's the same in a political society, where our natural habitat sometimes gets over-intellectualized with high-brows who keep out the light of heaven.

Like the bark beetle and the budworm, Labor leaders sometimes resist the natural growth of trees. Union bosses have forbidden union members to bring cones into the company camps on the way home (in company trucks, incidentally). The cones would be used for scientific reseeding of the forests which supply workers with wages, companies with profits, people with houses, industry with new supplies of chemicals and householders with dozens of new plywood items and utensils. Good seed years run in cycles, so that the fertile cones must be got when the getting's good. Man outdoes Nature, and private enterprise out-does public agencies in keeping the Northwest green. A commercially-fertilized Douglas fir will yield a 100-fold productivity in seed-cones. The North western States spend about 20 cents an acre per year on fire prevention; the large Northwest lumber companies spend another 80 cents per acre per annum on top of that.

Nature's noblemen of the forest kill only for food and life, never for fun. So it is that the purifying motive of profit seems to make commercial lumbermen much better conservationists than picnickers and casual hunters. The St. Helens Tree Farm last year spent $4000 on wages for special guides and fire-guards to give the tourists safe and sane times in the woods.

Profit-making firms in the Northwest are ahead of Congress and the State Department in the matter of accepting foreign imports which earn their keep on the free market. My notebook shows that the big saws in the woodmills were made from imported Swedish steel; that the machines for plugging knotholes in the plywood were made by Raiman of West Germany; that the Prentice Company of Portland is planning to bring in a belted wood-sander from Japan; that a large lumber concern in Longview, Washington, expects to try out a British-made roto-tiller for scarifying the soil after the giant caterpillar tractors have compacted it.

The Toynbee theory of history—that a vigorous nation responds to challenge and goes on to greater things — is equally true of forest products. The nation's woodlands, badly cut away in the 19th century, are replenishing themselves today far faster than they are being cut. Partly this is due to scientific forestry, but also it is due to the everlastingness of life. When the tall trees fall, letting in sunlight, new trees spring up, often growing out of the stumps of the old, like man's empires which build upon the ruins of the fallen. (Distributed by McNaught Syndicate, Inc.)

Curmudgeons Beware: New Coffee Cure Is Spreading

By INEZ ROBB

Grouches and curmudgeons of America, on guard! The Pollyannas and the Dr. Panglosses are about to do us in. Even as I write this, our dispositions may be subtly improving for the better.

Oh, the enemy is at work, all right. Have you other curmudgeons recently noticed any slight change in the flavor of your morning coffee? Have you associate grouches detected a teensy-weensy hint of vanilla in the matutinal java?

You have, huh? Well, sir, dash that cup to the floor, men, or you will be the life of the party before you know it. You will be a happy, laughing pest by the time you catch the a.m. Commuters' Special instead of after the third luncheon Martini.

Because happiness pills — and the very phrase is offensive to a true curmudgeon — Now come in liquid form, give off a faint aroma and flavor of vanilla and can be slipped into the coffee of the trusting and unsuspecting grouch.

That's what life has come to in this best of all possible worlds — the first bottled soothing syrup for adults, innocent of aged wood or 90-proof.

"Laugh and the world laughs with you," said Ella Wheeler Wilcox, grandma's favorite poet. "Weep, and you weep alone." But not any more. You weep today, and some loving hand at home slips you a coffee mickey that will do as much for you as a rich uncle and rose-colored glasses.

In this new era of sweetness and light, coffee is no more sacred than it was when mama was a child. In those days it could be desecrated by an additive guaranteed either to make a victim give up alcohol or tobacco.

Any home journal worth its salt carried advertisements for both. Loving wives and or mothers were urged to spike the victim's coffee to effect a moral reform guaranteed to delight the one and doubtless astound the other. (And that's how Alcoholics Anonymous was born. Anything, probably, was better than that souped-up coffee.)

However, every age to its own anxieties, and the current anxiety is for peace of mind, come hell, high water or Colonel Nasser. Arthors and preachers get rich on books telling how to live and like it. "Laugh, Clown, Laugh!" is no longer a promise; it's a threat of the full coffee treatment.

Blue Monday has been banished in a flood of happiness pills and Miltowns. (By the way, whatever became of Hadacol?) Good-Time Charlies by prescription are the order of the day. Science is making us all as happy as kings.

There is no longer any hidin' place down here for us grouches and dedicated curmudgeons. It's the coffee cure for us, anonymously administered by those who know best. They'll make us happy if it kills us!

Smile, podner, or reach for the ceiling. It's anti-social to be a sad sack.

WASHINGTON LETTER

Top Demo Wear Is Shoe With Hole In The Sole

By JANE EADS

WASHINGTON — Top women Democratic workers are laying in another large supply of little silver shoes with the hole in the sole to bolster their slogan "Walk with Stevenson." The first batch of several thousands was compeltely sold out during the Chicago convention.

The campaign insignia was designed by Mrs. Stephen Longstreet, wife of the Hollywood movie writer, and Mrs. Goldie Kennedy, vice chairman of the California State Democratic Party.

"They thought of the shoes," a worker at the National Party headquarters here said, "as something the men would wear too. They're not like the usual costume jewelry." The shoes which sell for contributions from a dollar, will also be made of gold.

Mrs. Len Hall, wife of the Republican Committee chairman, has a knitted bedjacket decorated with white elephants with red howdahs on their backs.

• • •

The handsome jewelry worn by Mrs. Charles E. Wilson is especially designed for her by her husband, the Secretary of Defense. It's a hobby in which the cabinet officer has had little time to indulge of late. The last piece he made for his wife was a Christmas present last year. It features a ruby set in rays and circles of round and baguette diamonds.

• • •

Contrary to custom, there were none of the familiar American dishes and drinks one sees at Embassy Row festivities at the Rumanian Legation party here celebrating the 12th National Holiday of the Rumanian Peole's Republic.

Except for the guests, the party was strictly Rumanian with all the exotic food whipped up in the legation kitchen by Rumanian cooks.

Even the liquid refreshments — wines, champagne and liquors, including the Rumanian national plum brandy, the potent "Tvica", had been imported from the homeland.

On hand enjoying the lavish fare were the Russian Ambassador Georgi Zaroublin, the ambassador of Czechslovakia, the ambassadors from Haiti, Indonesia and Poland, Under Secretary of Agriculture True Morse, the Swiss military, naval and air attache; and Egyptian Brig. Gen. Saad Salem and his wife, to mention a few.

25 YEARS AGO

(Taken from the files of the Scurry County Times, Sept. 24, 1931)

A county judge to fill the place made vacant by death last week will be named by the commissioners court today, according to Lee Grant, commissioner of Precinct No. 3 who is serving in the chair until a new official is certified. Mrs. C. R. Buchanan, widow of the strong figure who fell by the wayside last week, was unanimously offered the place. She refused because of the heavy duties connected with the office.

• • •

C. M. Betterton, assistant loan agent of the seed, feed and food division of the U. S. Department of Agriculture, has opened an office in the Colorado courthouse, and will have charge of work in six counties—Mitchell, Scurry, Dawson, Martin, Howard, and Borden.

• • •

Every Snyder barber has fallen in line with the price reduction schedule adopted two weeks ago by all shops except one or two. Four shops, off the square, have operated at reduced prices for some time, but the shops on the square and two off the square had kept the same price level for several months. Haircuts are now 25 cents and shaves are 20 cents. One shine boy, asked when his wages would be cut to a nickel, said, "When Gabriel blows his horn."

The First State Bank & Trust Company closed its doors, at least temporarily, last Friday morning. The Times is informed that the directors voluntarily placed the bank in the hands of the state banking commissioner.

• • •

The first official report of cotton ginnings in Scurry County, compiled by the Fuller Cotton Oil Company, reveals that 2,565 bales had been ginned through Tuesday. Figures for 1930 show that more than 3,000 bales had been ginned at the same date. Picking began later this year, however, and it is expected by practically everyone that the new crop will exceed 1930's by at least 2,000 or 3,000 bales.

• • •

Buck Howell was the hero of the hour in the first at-home game of the Tigers this season. Grabbing one football and a handfull of air in the second quarter, he circled the visiting Slaton squad's left end Friday afternoon, and crossed the last marker, 58 yards away, after wobbling from four vicious tackling attempts. He was the hero of the hour because neither eleven could count again, the score ending right there — 6-0.

Whatever other sorrows Eve suffered, she never was taunted by Adam's reference to his mother's cooking.

Hollywood Today

By BOB THOMAS

HOLLYWOOD (AP) — Her job of selling cars has done wonders for Mary Costa.

Now Mary is no ordinary auto salesgirl, as TV viewers can tell you. She's the blonde beauty who pitches the product on the Climax and Shower-of Stars programs. So successful has her salesmanship been that she's now doing her first leading role in a movie—"The Big Caper" opposite Rory Calhoun.

"No doubt about it," said bright, cheerful Mary. "That TV job has done great things for my career in every phase. It has improved my acting 100 per cent and my singing, as well. One of the most important things is that it has made me get rid of my Southern accent."

Mary is the pride of Knoxville, Tenn., and her career was not exactly flourishing before she became chief door-opener for the Chrysler Corp. She had done a few roles in pictures, but hadn't set the world on fire.

When the TV job came up, she didn't think she wanted to be typed as a commercial girl. But she did a test for it and now figures that her indifference is what got her the job. She didn't try to oversell. Her husband, topflight film director-writer Frank Tashlin, urged her to accept the assignment as a challenge. She did.

"I've never been sorry," she remarked. "The job has taught me so much about acting. I found I had to underplay in commercials; if you try to oversell, the audience sees right through you."

OIL NEWS

No Rationing Of Oil Is Foreseen

WASHINGTON, Sept. 22 (AP)—A government official setting up plans to ship more oil from the United States to West Europe, if Middle East oil supplies are interrupted, foresees no rationing of gasoline or other oil supplies in this country.

The government plans to ship from 500,000 to 1,100,000 more barrels of petroleum or its products daily to Western Europe if Mideast shipments are halted because of the Suez Canal controversy.

Should the plan be put into effect, one official said, it might become necessary for West Europe to ration due to transport problems.

But he added that oil production in this country could be stepped up sharply and domestic transportation facilities including pipelines, tank cars and tankers would be adequate to prevent any shortage or rationing to U. S consumers.

Various groups, including Interior Department oil and gas officials, the Middle East Emergency Committee, the Military Petroleum Advisory Board and the Office of Defense Mobilization are studying the situation.

Dan Jones, assistant general counsel of the Independent Petroleum Assn. of America, told a House Ways and Means subcommittee

"The nationalization and shutdown of oil production in Iran several years ago, and the present threat of interrupted oil supplies resulting from the Suez crisis, demonstrate the danger of dependency on foreign sources and the vital importance of ample oil supplies within the United States.

"If we continue the policy of increasing imports and thereby become dependent upon foreign sources, then in time of war our enemy could render us helpless by instigating another Iranian shutdown or Suez crisis."

Jones said "adverse effects of excessive imports" of oil on the domestic industry already are in evidence and "the outlook is for increasing imports unless action is taken as provided by law."

Germany To Need Large Oil Supply

BONN (AP) — West Germany would require massive quantities of Western Hemisphere oil if Middle East supplies are interrupted by the Suez controversy.

German officials said today that this nation, like Britain and France, now fuels its booming economy largely with oil from the lush Midle East fields.

Of West Germany's million tons a month oil requirements, 640,000 tons now come from the Middle East, they said.

Only 60,000 tons a month are imported from Mexico and Venezuela. German fields produce 300,000 tons.

Thus West Germany—the dominant economic force in Western Europe—would face a slow oil starvation if the Middle East supplies were halted, unless U.S. Exports were quickly and vastly increased.

Of the 640,000 tons of oil imported monthly from the Middle East, 200,000 tons move through Suez in tankers, officials said.

The main threat to the German economy would come if the Middle East pipelines to Mediterranean ports, which handle the rest of the German imports from this area, were cut off.

Officials said 100,000 more tons of American oil a month would suffice if tanker traffic through Suez were halted while the pipe lines still operated.

279 Oil And 33 Gas Wells Are Completed

AUSTIN, Sept. 22 (AP)—The Railroad Commission said today 279 oil and 33 gas wells were completed during the week. A total of 150 dry holes were finished.

Oil well completions for the year totaled 12,071 compared to 10,989 last year. Six oil wildcats and one gas wildcat were completed during the week.

The total average calendar day allowable Sept. 22 was 3,336,876 barrels compared to 3,354,857 on Sept. 15.

Venture Plugged In North Runnels Area

Paul E. Berry plugged No. 1 Carl Parks, North Runnels County, after drilling to 2,630 feet in lime and finding no shows of commercial production.

Drillsite was seven miles southeast of Winters, 2,460 feet from south and 1,510 feet from east lines of section 534, John C. McKean survey.

Dawson Well Finds Show

Seaboard Oil Co. No. 1-A Weaver, West Dawson County wildcat, covered shows of gas and oil on drillstem test of the Canyon reef.

Operator tested the section from 8,963 to 9,983 feet. With tool open two hours, recovery was 270 feet of gas in drillpipe, 90 feet of oil, which was cut 10 per cent basic sediment, plus 90 feet of heavily oil and gas-cut mud.

Another test was scheduled from 8,963 to 9,009 feet. Core from that section showed good vuggy porosity, scattered fractures and slight bleeding of oil and gas in vugs.

Location is 660 feet from north and east lines of labor 27, league 3, Taylor County School Land survey, 2½ miles southeast of Mungerville.

Cosden Buys Out Refinery

ABILENE (AP)—Purchase of the Onyx Refining Co. properties 15 miles north of Abilene was announced by Cosden Petroleum Corp. of Big Spring.

L. B. Simmons of Duncan, Okla., president of Onyx, and R.L. Pollett, president of Cosden, said Cosden would take over the refinery Oct. 1.

Onyx brand products will be sold to Onyx jobbers in West Central Texas. The refinery will be operated as a division of Cosden Petroleum Corp.

Onyx will continue to operate its pipeline company and to buy crude oil from producers in this area. The refinery, built in 1934, has a 7,000 barrel daily capacity.

Slight Shows Found In Test

Plymouth Oil Co. reported slight shows of oil from No. 1 Dickson, Northeast Tom Green County wildcat.

The shows were found on drillstem test of the Strawn lime from 4,363 to 4,415 feet, with test tool open six hours. Recovery was 1,710 feet of gas in drillpipe and 30 feet of gas-cut mud and 35 feet of heavily oil and gas-cut mud.

Another test was scheduled at 4,416 to 4,440 feet.

Location is 330 feet from most southerly north line and 330 feet from most westerly west line of Rafael Garcia survey No. 139½, 10 miles northeast of San Angelo.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

ADMISSIONS: Mrs. John Rigsby, Gen. Del.; Mr. Paul Gutierrez, Ira; and Mr. Rios Garcia, Route 1.

DISMISSALS Mr. W. G. Breedlove, 2910 Avenue S; Bobby Pollard, Dermott; Mr. Clifford James, Knapp; and Mrs. Howard Sims, 2805 Avenue N.

COGDELL MEMORIAL

ADMISSIONS: Carolyn E. Necessary, 2809 Thirty-eighth.

DISMISSALS: Mrs. Mayzell Fenton, 1706 Thirty-seventh; Donald Gober, 1204 Twenty-fifth; Mrs. Onie Reed, 2409 Thirtieth; and Mrs. Jeanne Brown and baby, 32-11 Avenue I.

Oilmen Looking At Atomic Radiation

By MAX B. SKELTON

HOUSTON, Sept. 22 (AP)—Oil men hope atomic radiation can be used to find new and improved petroleum products and processes.

Continental Oil Co. told today of plans to build a $500,000 atomic radiation laboratory at Ponca City, Okla.

Uranium cylinders from the Arco, Idaho, atomic energy plant will be available under plans of the Atomic Energy Commission to release materials for industrial experiments.

L. F. McCollum, Continental president, said the laboratory will use atomic radiation as a source of energy in conducting chemical experiments to help develop new products and improve refining processes and petrochemical manufacturing methods.

Construction will begin within a few weeks. Completion is expected in March.

McCollum said Continental has been supporting an exploratory program in radiation at the University of Michigan for two years but that the use of atomic radiation is one of the latest advancements in oil. He said the new facility will be among the first in the nation to use atomic radiation.

The laboratory will use a closed-circuit television camera, robot-like mechanical hands, and two periscopes. Radiation research will be conducted by remote controls in a "hot cell" within the concrete laboratory. The cell's walls will be five and a half feet thick and will be built of specially prepared concrete.

Safety devices and instruments have been included in the plans of the new building. Water in a 16-foot well will serve as a radiation shield while the fuel elements are not in use. Air in a hot cell will be changed every two minutes through use of a separate ventilation system. Several high-powered flood lights for the television camera and several sodium-vapor lamps will provide lighting.

4 Counties Will Get New Wildcat Tests

Wildcat locations have been staked for immediate drilling in four West Texas counties.

Kelly Bell of Midland will drill No. 1 Lawrence Ruff as a 3,500-foot rotary wildcat in North Menard County, seven miles north of Menard and three miles south of the Concho County Line.

Location is 256 feet from west and 660 feet from north lines of section 30, R. J. Godfrey survey. There is no oil production in the county at the present time.

Humble Oil & Refining Co. and G. W. Strake staked No. 1 Grace T. Harber as a 6,000-foot Ellenburger venture in Central Runnels County.

It is 1,840 feet from west and 2,180 feet from north lines of section 170, ETRR survey and 4.7 miles west of Hatchell. It is two and three-eighths miles west of the Ballinger (multipay field.)

In Southwest Nolan County, C. L. Norsworthy, Jr., of Dallas has spotted location for a 7,600-foot rotary Ellenburger wildcat. It is No. 1-A Allen G. Compton.

Drillsite is 660 feet from north and east lines of section 8, block 1-A, H&TC survey and 13 miles southwest of Maryneal.

The Texas Co. will drill No. 232 P. L. Fuller as a 5,350-foot wildcat in Northeast Scurry County; 18 miles northeast of Snyder.

Location is 467 feet from south and 1,980 feet from east lines of section 707, block 97, H&TC survey and two miles east of the Cogdell field.

Failure Is Plugged

Anderson-Prichard Oil Corp. No. 1 Parks, 8,600-foot Ellenburger failure in Southeast Garza County, has plugged.

Site was 660 feet from north and east lines of section 682, block 97, H&TC survey.

Test Flows In Andrews Area

Shell Oil Co. No. 1-B University, Southeast Andrews County operation to 12,000 feet to test the Ellenburger showed for production in the Pennsylvanian 8,888-9,020 feet.

That zone was tested four hours. Gas surfaced in eight minutes. Recovery was 4,870 feet of 33.6 gravity oil, and nine feet of heavily oil and gas cut drilling mud. An additional 30 feet of oil was recovered below the circulating sub. There were no signs of water.

Flowing pressure was between 275 and 1,350 pounds and 30 minute shutin bottom hole pressure was 3,685 pounds. The project is now bottomed at 9,090 feet in lime and is running another drillstem test.

This well previously flowed oil and recovered salt water in the Wolfcamp at 8,460-8,590 feet.

It is ½ mile southeast of the Northeast Midland Farms (Ellenburger) field and 330 feet from north and west lines of section 22, block 1, University survey.

Show Found In Ector Well

Drillstem test in the Wolfcamp returned oil and gas-cut mud in from Sinclair Oil & Gas Co. No. 42-B Johnson, scheduled Ellenburger wildcat in the Johnson (San Andres field of Central Ector County.

Two-hour test from 8,980 to 9,090 feet recovered 490 feet of oil and gas-cut mud. Coring continued below 9,023 feet in lime.

Location is 660 feet from south and east lines of section 42, block 42, T-1-S, T&P survey, seven miles northwest of Odessa.

Nortex Gets Award For Advertising

Mr. James Wendover, President of Nortex Oil & Gas Corporation, Dallas, received word this week that the Nortex annual report advertising has been nominated for the Financial World "Oscar of Industry" award. This advertisement which ran in newspapers throughout the country earlier in the year, was selected from nearly 5,000 entries from corporations throughout the coutry.

The advertisement was prepared in both one and two colors utilizing an outstanding photo of a drilling oil well. Copy included a short progress report by Mr. James R. Wendover, President, plus a comparative financial summary of the corporation's operations. The ad was designed and produced by Ted Workman Advertising of Dallas, Texas, the agency in charge of the Nortex advertising and public relations program.

Each year Financial World holds this competition which rates as one of the big events of its kind. Awards are presented in different categories for both printed annual and annual report advetising. Nortex received a double win this year as their annual report was accorded a "Merit Award" for excellence in the reports entered from the petroleum industry.

Final judging is now taking place in the advertising section and announcements will be made of the top awards later this month. Eighteen finalists including Nortex are vying for the "Oscars." The awards will be made in New York City Oct. 29, during the annual dinner in the Grand Ballroom of the Hotel Statler.

Andrews Find Flowing Oil

First production tests have been reported from W. E. Bakke No. 1 Grady, multipay discovery in Central Andrews County.

The strike flowed heavily, natural, from the Ellenburger and Devonian.

Eight-hour test in the Ellenburger, through perforations from 12,312 to 12,353 feet, returned 341 barrels of oil, cut five per cent basic sediment and water. The flow was gauged through a ¼-inch choke.

Tubing pressure was 525 pounds, gas-oil ratio 484-1, and gravity 43.2.

From the Devonian, through perforations at 10,536-10,554 feet, the wildcat flowed 654 barrels of 48.7 gravity oil, in 12 hours through a ¼-inch choke. Gas-oil ratio was 732-1, and tubing pressure 1,100 pounds.

Testing continued.

Wellsite is three miles southeast of Andrews, 660 feet from south and west lines of section 22, block A-44, psl survey.

Mitchell Well Plugs

Miami Operating Co. Inc., No. 1-A K. C. Adams, Southwest Mitchell County wildcat, has been plugged and abandoned at 7,428 feet in the Ellenburger.

Location was 1,980 feet from north and 660 feet from east lines of section 56, block 12, H&TC survey, and 10 miles south of Loraine.

Airplane Crash

VICTORIA, Sept. 22 (AP)—Lt. Chas Pelzer of Foster AFB was killed and another officer injured in a private plane crash north of here yesterday. Lt. Norman Warren, also of Foster was injured.

This Beautiful Handpainted Dixie Dogwood DINNERWARE

SET CONSISTS OF
- 9½" DINNER PLATE
- CUP • SAUCER
- DESSERT PLATE
- SALAD PLATE

5 PIECE PLACE SETTING

For only one envelope containing $35.00 worth of SAFEWAY'S CASH-REGISTER TAPES This lovely 5-PIECE PLACE SETTING OF DIXIE DOGWOOD DINNERWARE CAN BE YOURS.

IT'S AMAZING but true; you can get this lovely Dinnerware Set thru Safeway's "Save-a-tape" plan absolutely Free, so start saving for your set today.

Once you see this lovely pattern you'll want not one, but 4 or more complete place settings. This semi-porcelain dinnerware will lend elegance to your table . . . and will give every meal a party air. Our exclusive design is baked under-glaze to retain its beauty permanently.

For only four envelopes containing $35 worth of cash register tapes. An additional completer set consisting of a sugar bowl and cover, a creamer, a meat platter and a vegetable bowl is also available. Also a set of four soup bowls is available for only one envelope containing $35 worth of Safeway's cash register tapes.

Save your cash register tapes in this handy file envelope that is given to you absolutely free.

Fraternal Organizations and Church Groups: Have your members save their tapes and equip your kitchens with this lovely dinnerware.

SMU Mustangs Stun Fighting Irish, 19-13

By HAROLD V. RATLIFF

DALLAS, Sept. 22 (AP)—Green as grass Southern Methodist, led by Charlie Arnold, who collected numerous splinters on the bench last season, knocked down the nation's No. 3 team—Notre Dame—19-13 tonight in one of the major upsets of college football.

It was the first time for Notre Dame to lose an opening game since 1934 and a Southwest Conference team beat the Irish then—Texas.

Arnold faked, passed and ran Notre Dame dizzy while his mates thoroughly outplayed all of the Irish except Paul Hornung, the all-America quarterback.

Hornung engineered a 55-yard pass play and ran 57 yards for a touchdown in the last half to give the Irish a 13-13 tie with less than four minutes to go.

The crowd of 61,000 thought that was the way it was going to end. But with only 1:58 left Arnold flung a mighty pass from the Notre Dame 45 that Lon Slaughter, the smashing SMU back, gathered in on the 14. Then Slaughter, with Arnold faking a run around right end, took a pitchout from the quarterback and circled left end for the touchdown that gave SMU it's second victory over Notre Dame in eight tries.

Southern Methodist, with one of its most experienced teams in history, was a 14-point underdog going into this game.

Notre Dame, apparently jittery as a schoolboy his first day of class, collected harmful penalties in gobs. An assessment for roughing set up the first SMU touchdown. An offside made it easier for the Mustangs to score their second.

But it was a hard-hitting SMU line and a covey of the speediest backs the Methodists have had in a long time, that pulled the upset.

Notre Dame	0	0	7	6—13
Southern Methodist	6	7	0	6—19

Notre Dame scoring — touchdown: Morse 20 pass, 38 (run from Hornung). Conversion: Hornung.

Southern Methodist scoring—touchdown: Waggoner 25 pass, 6 (run from Arnold), Arnold (1 foot, plunge), Slaughter 14, (run). Conversion: Gentry.

Rice Owls Nudge 'Bama Tide' 20-13

BY MAX B. SKELTON

HOUSTON, Sept. 22 (AP)—Frank Ryan and King Hill threw three touchdown passes tonight as the two junior quarterbacks led the young and light Rice Owls to a 20-13 intersectional football victory over Alabama before a crowd of 43,000.

Rice capitalized on a passing attack that gained 124 yards while opening its 1956 campaign with a victory that snapped a seven-game losing streak, Alabama, losing its fourteenth consecutive game, tried only two passes but powered its way for first and third period scores.

Ryan, 183-pounder from Fort Worth, passed 12 yards to Buddy Dial in the first period and then hit the sophomore end with a 17-yard scoring toss in the final quarter. Hill, the 205-pound all-around athlete from Freeport, passed 30 yards to halfback Bobby Williams in the second quarter.

Hill and Fullback Jerry Hall each converted once for Rice but Hill failed on a second attempt. Guard Don Holcomb kicked Alabama's first extra point but missed on the second.

Rice completed eight of 11 passes and had 138 net yards on the ground for a total offense of 262 yards. Alabama had 232 yards rushing but completed neither of its passes.

Ryan completed five of eight passes for 76 yards, while Hill completed three out of three for 43.

G. F. Alsbrook, sophomore halfback from Galveston, was Rice's leading ground gainer with 48 yards in four carries. Fullback Max Kelley led Alabama with 51 yards in eight tries.

Alabama	7	0	6	0—13
Rice	7	7	0	6—20

Alabama scoring—Touchdowns: Walls (1-plunge); Comstock (17-run); conversion: Holcomb.

Rice scoring—Touchdowns: Dial 2 (12 and 17 yard passes from Ryan); Williams (30-yard pass from Hill).

Conversions: Hall, Hill.

Georgia Tech Squeaks Past Kentucky '11'

By BILL HUDSON

LEXINGTON, Ky., Sept. 22 (AP)—Swift George Volkert exploded around his left end for a 54-yard touchdown sprint to seal No. 4 nationally ranked Georgia Tech's 14-6 football victory over Kentucky today.

Volkert's dazzling third - period run behind the protection of tackle Ormond Anderson provided one of the few offensive thrills for a shirt-sleeve crowd of 30,000 and a national television audience this bright, humid afternoon.

Tech, obviously attempting to take advantage of its superior reserve strength, kept reasonable control of the ball the opening half, marking 80 yards in 19 plays for one touchdown and striking suddenly with one of its two last half opportunities.

Kentucky's touchdown was the result of Toppy Vann's fumble in the closing minutes. Kentucky recovering at the Tech 13. After offsetting 15 - yard penalties, Kentucky got a first down at the Tech 2 with quarterback Delmar Hughes sneaked across from the 2 with 26 seconds left.

Washington Huskies Whip Idaho, 53-21

SEATTLE, Sept. 22 (AP)—Brand new and running hot, the University of Washington split-T machine bulldozed a 53-21 Pacific Coast Conference football victory today over the Universiay of Idaho's strapping vandals to brighten the debut of Coach Darrell Royal.

Although they sputtered somewhat on defense, Washington's Huskies had no cause for worry as they ran up 27 points before Idaho hit the scoring column. A crowd of 29,500 was treated to a Washington hit the midway point with a 34-14 advantage.

Braves Muff Chance To Seize Lead

MILWAUKEE, Sept. 22 (AP)—The Milwaukee Braves lost a chance to take over the National League leadership by a full game today when the Chicago Cubs defeated them 5-4 in 10 innings.

Behind 4-0 at the start of the eighth inning, the Braves rallied for four runs and sent the game into overtime on the strength of Johnny Logan's last-of-the-ninth home run.

The winning run was scored by Cubs center fielder Solly Drake, who doubled to start the 10th inning, advanced on an infield out and scored in a close play when Gene Baker lifted a sacrifice fly to short right field.

With the Dodgers losing, 5-1, to Pittsburgh, the National League pennant race maintained the same sizzling situation it had before the start of today's play.

	W	L	Pct.	GB
Brooklyn	88	59	.599	—
Milwaukee	89	60	.597	—

A crowd of 32,716 paid watched the game, putting attendance for the year at County Stadium at 1,-990,317. With tomorrow's finale against the Cubs a sellout, the Braves were assured of passing the two-million mark for the third year in a row.

Snyder B Wallops Lamesans, 34-7

The Snyder 'B' footballers, swinging into action belatedly Saturday night, found the pickings easy as they opened their season with a convincing 34-7 decision over Lamesa 'B'.

The second time they got the ball, the Snyder aggregation racked up a touchdown when Richard Mahan gathered in a Lamesa punt on his own 40 and went 60 yards for the score. Dick Hayes plunged over for the extra point.

Just as the first quarter ended, Kenneth Drake crashed over from the one to end a 50-yard drive and send the Snyder team ahead 13-0. The score mounted to 20-0 in the second quarter when Mahan lofted a pass to Tony Anger on a play that covered 30 yards and wound up in the end zone. Vinson ran over for the point.

Drake took over the scoring chores again in the third period when he galloped 42 yards for another Snyder touchdown. Hayes ran over for the point to make it 27-0.

Lamesa got its only touchdown with only 38 seconds left on the clock in the fourth quarter. Cox plunged over to cap a sustained drive, and Anderson kicked the point.

Although the clock was running out on the ensuing kickoff, the Snyder lads were not finished for then evening. Mahan took the Lamesa kick on his own 15 and raced 85 yards for another touchdown. Hayes ran over for the point.

The Lamesa team plugged away and had 13 first downs compared to six for Snyder, but the visitors were never able to break away for long gains. The Lamesans ran 72 plays from scrimmage, while the Snyder crew had the ball for only 47 plays.

The Saturday night triumph made it nine victories against no losses for Snyder football teams this season. The 'A' team, freshmen, eight and seventh grades hold two victories each in season's play.

GAME IN FIGURES

	Lam.	Sny.
First downs	13	6
Passing yardage	35	30
Rushing yardage	90	202

SC Upsets Duke, 7-0 In Thriller

COLUMBIA, S.C., Sept. 22 (AP)—South Carolina derailed Duke's Orange Bowl football express tonight with a solid 7-0 upset before a shirt sleeved crowd of 25,000.

South Carolina drove 81 yards in the second period to score and held on with a mixture of razzle-dazzle and control ball.

Duke moved 84 yards in the same period and bogged down on the 1 to set up its first loss in the four-year history of the Atlantic Coast Conference.

South Carolina never posed a scoring threat after its second period drive, but it kept Duke well bottled up. Sophomore left half King Dixon plunged from the one for the South Carolina TD and his running mate, right half Alex Hawkins, concerted.

Duke quarterback Sonny Jurgensen broke loose for 20 yards in the third period for a threat at the South Carolina 19 but a fourth down pass failed at that point.

The South Carolina scoring march featured running pitchouts —from Dixon to end Buddy Frick for 14 and from Hawkins to end Julius Derrick on fourth down for 9 yards to the Duke 2. In between quarterback Mackie Prickett nailed Derrick with a 17-yard pass. Dixon and Hawkins carried the ball from scrimmage in between the passes.

Syracuse Rips Terps, 26-12

COLLEGE PARK, Md., Sept. 22 (AP)—Syracuse used Jim Brown to rip along the ground and scored twice on passes and a 71-yard return of a fumble by end Dick Lasse to beat Maryland's mixed-up football team 26-12 in their season's opener today.

Brown, a bruising 212-pounder, caught one touchdown pass from Jim Ridlon, blasted 4 yards around end for another, and zoomed 78 yards to set up a third.

Syracuse, beaten 34-13 last season when Maryland was coached by Jim Tatum, practically gave Maryland its second touchdown just before the game ended with third-stringers playing on both sides.

Maryland started off impressively for the first time under Coach Tommy Mont by taking a 6-0 lead soon after the opening kickoff. But Syracuse marched right back to the tying touchdown and leading extra point by Brown to take charge the rest of the way.

John McVicker, Terp halfback returned a punt 67 yards to put Maryland in its early scoring position. Quarterback John Fritsch plunged for the touchdown and then he dropped the pass from center on the extra-point try which fullback Tom Selep was waiting to kick.

The Maryland subs returned a short Syracuse kickoff 47 yards in the closing minutes with Jack Healy going over just before final gun.

Syracuse	7	6	6	7—26
Maryland	6	0	0	6—12

N. C. State Spoils Tatum's Debut, 26-6

HAPEL HILL, N. ., Sept. 22 (AP)—Quarterbacks Tom Katich and Billy Franklin each threw two touchdown passes as North Carolina State upset North Carolina, 26-6, to spoil the start of the new regime of Coach Jim Tatum. A crowd of 37,000 saw the football season opener for the two Atlantic Coast Conference teams.

It was sweet victory for the surprisingly strong State team which had not beaten the Tar Heels since 1942 when, ironically, Tatum was serving his first hitch a coach at North Carolina, his alma mater.

Pitt Nudges Mountaineers

MORGANTOWN, W. Va., Sept. 22 (AP)—The University of Pittsburgh canverted two costly fumbles by the West Virginia Mountaineers to eke out a 14-13 victory here today in a rip-roaring football game which saw the favored Panthers outplayed.

The sellout crowd of 34,800 watched unhearided West Virginia dominate the game throughout against their arch rivals.

Pitt, trailing by six points going into the third quarter, struck twice in lightning-like succession to win the 49th meeting in the series starting in 1895.

A punt by Pitt fullback Tom Jenkins rolled dead on the WVU 3. On the first play, Mountaineer fullback Larry Krutko fumbled going into the line and Pitt recovered. Two plays later fleet Ray DiPasquale went around left end for the Panthers' first touchdown. Ambrose Bagamery's placement was good for a 7-6 lead.

Southern Cal Downs Steers

By DAVE CHEAVENS

AUSTIN, Sept. 22 (AP)—Fullback C. R. Roberts, a bruising 206-pound speedster, ripped Texas for touchdown gallops of 74, 73 and 50 yards as the University of Southern California swamped Texas, 44-20.

Roberts was a virtual one-man wrecking crew as he chalked up a fantastic 251 yards rushing on 12 plays before 47,000 football fans at Memorial Stadium. He erased an all time Trojan rushing total of 229 yards for a single game set in 1929.

The irrepressible Roberts overshadowed Jon Arnett, USC's fine left half who was a near All-America choice last year. Arnett went 14 yards for a score on the next to last play of the first half and was a constant threat with his speed.

Texas moved ahead in the first period when quarterback Joe Clements shook loose around right end and went 36 yards for a touchdown. But that was it for the Longhorns.

Only when USC Coach Jess Hill cleared his bench did the Longhorns drive for additional scores late in the game. By then it did not matter.

Roberts used almost the identical play to ruin the Longhorns. The Negro back would take the ball, run parallel to the line until he found an opening and then he was off to the races.

USC	0	19	19	6—44
Texas	7	0	6	7—20

USC scoring—touchdowns: Roberts 3 (73, run; 50, run; 74, run); Arnett (14, run); Hall (38, pass-run); Hill (18, pass-run); Gerrell (42, intercepted pass). Conversion: Isaacson, Hall.

Texas scoring—touchdown: Clements (36, run); Bryant (17-pass-run); Fondren (4, run). Conversion: Fondren 2.

Mississippi Rips NTS In Opener, 45-0

By TIM PARKER

UNIVERSITY, Miss., Sept. 22 (AP)—Mississippi swamped North Texas State 45-0 today in a non-conference football game that was little more than a warmup for the Rebels' try for a third Southeastern Conference crown.

Game, but outgunned and with an attack of the flu, North Texas never seriously threatened to score.

Only about 6,000 fans, perspiring in 89-degree heat, saw the opener for both teams.

Mississippi's Cotton Bowl champions showed off a scoring team in the passing of quarterback John Blalack and the ground gaining of Billy Lott Jr., 190-pound right halfback. All-America prospect Paige Cothren's toe paid off in two conversions and one field goal.

North Texas	0	0	0	0—0
Mississippi	3	21	7	12—45

Mississippi scoring-touchdown: Williams (8, pass run from Blalack), Billy Lott (40, run), Reed (22, pass run from Brown), Bowman (35, run), (3, pass run from Gray), Brown (4, run).

Field goal: Cothren (18), conversion: Cothren 2, Brown 3, Gray 1.

Yards penalized	6	85

ACC Topples ETS By 13-6

ABILENE, Tex., Sept. 22 (AP)—A 72-yard punt return by halfback Jimmy Thomas gave the Abilene Christian College Wildcats a 13-6 victory over the East Texas State Lions here tonight before 4,000.

ACC's other touchdown also came as the result of an alert defensive play, end Charles Richardson recovering an East Texas State fumble in the end zone in the second quarter.

East Texas State marched 74 yards on only eight plays to score its touchdown in the second quarter and tie the game at 6 all. A key play was a 47-yard keeper by reserve quarterback Bobby Schattel that put the ball on the ACC 20. Lawrence Ford scored five plays later.

Boys Club In Active Week

Members of the Scurry County Boys Club were very active last week in a number of sports contests, according to Bob Womack, who works with the boys.

Womack reported that two peewee football games were played yesterday morning, with Bill Valentine's team downing the team coached by Bob Beames 26-0 and Guinn's Razorbacks skunking a team coached by N. A. Tate 20-0.

Wayne Key made three touchdowns and Jimmy Wilson one to pace Valentine's team, while Guinn's squad was led offensively by Stuart Long, who made two scores, and Benny Minor, one touchdown.

In billiard tournament play at the Boys Club, Paul Bailey and Wayne Marrs took the doubles win in the bracket for boys 13 and up, while James Newton was first and Butch Niedecken second in singles of that division. In the 10-to-12 year division, Durwood Brunson took the singles win.

In bowling for boys 13 and up, Jimmy Guy led last week with 185, followed by James Newton and Rudy Crabtree.

Detroit Titans Beat Marquette 20 To 7

DETROIT, Sept. 22 (AP) — Billy Dando, a 24-year-old sophomore halfback just out of the Marines, came off the bench to account for versity of Detroit Titans downed Marquette 20-7.

The 185-pound speedster passed for one touchdown and was on the receiving end of a 56-yard pass play for the Titans' second score.

Jarman's handsome straight-tip blucher in glove grain Cordovant leather

When you see and try this shoe you'll know exactly what we mean by "*right* in style and two feet deep in comfort" in Jarman. This is a smart shoe made extra smart by the air-corded tip and the cordovant glove grain leather. And it's an extra comfortable shoe, too, featuring Jarman's famous "friendliness of fit." Drop in soon and give it a try. We know you'll like it!

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

FOOTBALL, OF COURSE, is occupying the sports scene generally but there's an important meeting tomorrow in another sport whose season is several months away.

A mass meeting of Snyder's two Little Leagues will be held tomorrow and it's important for all who plan to work in the program next summer to be on hand.

Officers for 1957 will be elected at the meeting.

The earlier the officers are elected the better it will be. Those who are put in the offices can begin work early in outlining plans for next summer.

Officers Needed To Handle League Matters

Then, too, our leagues can get in their "two-bits" worth on matters that may be handed down by the National Little League headquarters during the winter.

It may be that Snyder will be able to send a representative of two to the National LL convention this winter which, I believe, comes off in December.

There are several advantages for personally attending the National LL convention.

The delegate or delegates can put in a plug for hosting various tournament at the National meeting.

We don't know if that was the result of it or not but Lubbock sent two delegates to the National convention in Chicago last winter and the Hub City came up with three Little League tournaments, last summer, area, district and regional.

New Park Under Construction

Work is already underway on the new Little League Park in Towle Memorial Park and when it is completed, the local LL Park may be one of the finest in West Texas.

With a good park, a city's chances of landing various tournaments are bettered.

We have heard numbers and numbers of comments from outsiders praising our fine Pony League Park here. We have yet to see a kid baseball park that will surpass our Pony park here in beauty and all around quality. In fact, few pro parks under Class AA could match Snyder's Pony park in beauty and quality.

Well, with the County being responsible for the Pony Park's beauty and quality, we believe that the County, too, will have the LL Park ranking in the same class with the Pony Park.

With the addition of the Teen Age League here, there will be a lot of kid baseball played in Snyder next summer.

It's pretty difficult for anyone person to work in two or more of the programs so if you would like to take part in the local LL program next summer, you are urged to attend tomorrow's meeting. The more that show up the merrier.

PLENTY OF BLOCKERS—The Snyder Tigers blocked for their runners well Friday night when they downed Weatherford's Kangaroos 52-6, as evidenced here with Joe Reaves, No. 50, and Wiley Denson, No. 70, leading the Tiger runner, Quarterback Powell Berry. Berry was Snyder's second leading ground gainer in the game and was the leading passer. He passed for two touchdowns.

Tigers, Chiefs, Tornadoes Win Games In Second Week

Lamesa and Lake View of San Angelo joined Snyder's Tigers in the victory column Friday night to give District 2A-3 a 3-2 won-lost mark for the second weekend of the 1956 football season.

Sweetwater and Colorado City wound up in the loss column.

While the Tigers were trouncing Weatherford, 52-6, the Lamesa Tornadoes were pasting Austin of El Paso by 26-12, and Lakeview was nudging Del Rio, 13-12. Sweetwater, victor over Breckenridge's Buckaroos a week earlier, ran into more trouble than it could cope with in defending 4A champion Abilene. Abilene's high-geared aggregation walked off the field with a 39-7 verdict. Colorado City lost its second game in a row, bowing to Ballinger, 39-13.

At El Paso, Halfback John Middleton scored three touchdowns and racked up over 200 yards rushing to lead Lamesa to its 26-12 triumph. Fullback Charles Hatchett scored the other Tornado touchdown, and Quarterback Johnny Jones kicked four extra points.

In the Lake View-Del Rio clash at Del Rio, Quarterback Clifford Bly scored both Lake View touchdowns and Rex Wilson ran over for the lone extra point which meant the difference in the Chiefs' victory.

Colorado City jumped to a 7-0 lead on the first play from scrimmage when Jim Shoemaker ran 75 yards for a touchdown, but Ballinger bounced back by recovering a fumble on the C-City 10 and went on to build up a half-time lead of 19-7 over the Wolves. The Wolves did not hit pay dirt again until midway in the fourth quarter when Bob Caffey passed to Jimmy Richardson on a 40-yard scoring play. By that time it was too late to head the Ballinger team.

Taking advantage of several fumbles, Abilene scored twice in the first and twice in the second quarter to put the damper on Sweetwater's hopes early in their game. The Mustangs got their lone tally in the third quarter when Eddie Scott circled right end and raced 50 yards for the touchdown.

The Snyder Tigers are now on "top" in the non-district action with two victories in as many starts, Sweetwater, Lake View and Lamesa have won one and lost one, while Colorado City has sustained two losses in action to date.

SEASON STANDINGS
District 3A-3

Teams	W	L	Pts.	Opp.	Pct.
SNYDER	2	0	72	7	1.000
Sweetwater	1	1	32	20	.500
Lamesa	1	1	38	32	.500
Lake View	1	1	26	44	.500
Colorado City	0	2	19	78	.000

Friday's results — SNYDER 52, Weatherford 6; Abilene 39, Sweetwater 7; Lamesa 26, Austin El Paso 12; Ballinger 39, Colorado City 13; Lake View 13, Del Rio 12.

This week's schedule — Friday, SNYDER at Big Spring, Gramford at Sweetwater, Kermit at Lamesa, Monahans at Colorado City, LAKE View open.

Mantle Edges Ahead In Race

BOSTON, Sept. 22 (AP) — Mickey Mantle cracked out a double and a game-deciding single to inch ahead of Ted Williams in their American League batting title duel today as the New York Yankees edged the Boston Red Sox 2-1.

Williams, with a chance to maintain his lead, came up with two out and the bases loaded in the ninth inning. Manager Casey Stengel of the Yanks called on southpaw veteran Tommy Byrne to face Ted.

Williams slammed a vicious drive off Byrne's foot which caromed to Bill Skowron near third and the ex-Purdue athlete just nipped the slow-footed Williams at first to end the game.

Mantle now has a .3543 average to Williams' .3526.

LL MEETING SET TOMORROW

A meeting of all persons interested in working with Snyder's Little League summer will be held tomorrow night at the high school shop building.

The meeting has been called for 7:30 p.m.

Officers for 1957 will be elected at tomorrow's meeting, Ed Free, City LL Commissioner, has revealed.

Baylor Wins By One Point

BERKELEY, Calif., Sept. 22 (AP) —Baylor sophomore halfback Arthur (Junior) Beall, playing his first varsity game, today placekicked the conversion that gave the Texans from Waco a 7-6 victory over the University of California.

Beall's extra point came in the second quarter after senior halfback Del Shofner sprinted 10 yards for a touchdown on the first play following Baylor's recovery of a California fumble.

The football season opener before 36,000 fans in Cal's Memorial Stadium watched the Baylor running attack against the passing of the Berkeley Bears in a ragged game marred by frequent penalties and fumbles.

Both touchdowns came as the result of fumbles. California needed 11 plays in the first quarter to score its six points. The drive began on the Baylor 36 after Cal and Ron Wheatcroft recovered a fumble by Baylor's Bobby Peters.

It was a fourth down pass of 11 yards from quarterback Gus Gianulias to end Roger Ramesier that racked up the score.

On the conversion try, halfback Nat Brazill couldn't hold the unsure pass from center. Gianulias retrieved the ball and tried to run but was smeared.

Early in the second quarter, Baylor moved from the California 49 to the 2 where Reuben Saage fumbled and Brazill recovered for Cal. Three plays later, Cal returned the favor as Gianulias bobbled the ball and Baylor end Tony Degrazier pounced on it at the Cal 10.

Quarterback Doyle Taylor on a t-option play pitched out to Shofner who dropped the ball but caught it on the rebound and sprinted into the end zone. Then Beall's placekick proved the margin of victory.

Baylor	0	7	0	0	—7
California	6	0	0	0	—6

Baylor scoring: touchdown-Shofner (10, run). Conversion-Beall (placement). California scoring: touchdown—Ramseier (11, pass into end zone from Gianulias.

GAME IN FIGURES

	Baylor	Calif.
First downs	16	15

Cardinals, Ira, Hobbs Win Friday Grid Tilts

Hermleigh, Ira and Hobbs all racked up victories on their respective home gridirons Friday night.

Displaying both power and speed, the Hermleigh Cardinals romped to a 39-6 decision over the Knox City Greyhounds in a non-district Class B encounter, while the Hobbs Panthers throttled the Weinert Bulldogs, 36-28, and Ira trimmed Knott, 37-12, in six-man games.

The Cardinals broke their game wide open on the third play, when Billie Mac Davidson went wide to his right and cut back to race 55 yards for a touchdown past the surprised Greyhounds.

Shortly thereafter, the Cardinals got a sustained drive going, and Davidson scored again on a 15-yard scamper to give the Cardinals a 13-0 advantage at the end of the first quarter.

In the second quarter, Robbie Robinson broke loose on a 43-yard jaunt to set up another Hermleigh score. Bobinson carried acorss from the eight yard line a moment later, and then early in the third, he scored another touchdown on an eight-yard dash.

Robinson got loose on a 20-yard touchdown run in the fourth quarter, and then Davidson completed the Cardinal Scoring for the evening when he swiped a Greyhound pass and ran it back 65 yards for a touchdown. On the runback of the interception, Davidson headed for the north sideline, picked up a few key blockers and then outdistanced the Knox City secondary to the double stripe.

Knox City got its only touchdown late in the forth on a 45-yard pass play. Joe Watkins pitched to Monty White, who caught the ball on the 25 and barely outran the Hermleigh safety man to the goal line.

Standouts on defense for the Cardinals were Donald Joy May, Donald Calvert, Gus Tolleson, Tom Etheredge, Morris Light and Robbie Robinson. They kept the Greyhound offense at a standstill most of the evening, and were especially tough up the middle.

PANTHERS WIN

Mac Etheredge and Joseph Martinez score 12 points each and Doyle Hayes and Fred Cave made six each as the Hobbs Panthers decisioned the Weinert Bulldogs, 36-28 at Hobbs.

Bob Raynes scored 10 points to lead the Bulldog attack, while Jerry King, Bill Guess and L. Rainey contributed six points each to the losers's scoring.

Bernon Etheredge and George Gantt of Hobbs missed the game because of injuries. Etheredge has a head injury, while Gantt has a bruised shoulder. However, both are expected to be in the lineup when the Panthers entertain Loop next Friday night.

IRA STOMPS KNOTT

The Ira Bulldogs, who had downed Gail the week before, made it two wins in a row Friday night in the 37-12 defeat of Knott. Coach R. C. Taylor praised his entire team, which did little aerial play because of high winds and took most of its yardage on the ground.

Knott's Hillbillies are usually among the most powerful of the area in six-man play.

James Autry scored two touchdowns on runs of 30 and 15 yards, and he ran one extra point across. Another halfback, Tom Echols also ripped off two TDs on one long run of 70 yards and one plunge of four. He kicked three two-point conversions. End Jerry Ford got the other Ira tally on a pass thrown by Tom Echols and play which covered 45 yards.

Ira led the game all the way and was ahead 21-6 at the half. Next Friday, Ira will host Klondik.

Texas Aggies Race By Villanova, 19-0

COLLEGE STATION, Sept. 22 (AP)—A hard hitting and holding Texas A&M football team today blanked the visiting Villanova Wildcats, 19-0, before some 15,000 fans.

In 89 degree temperature, the Aggies were spurred by the sometime-erratic but efficient quarterbacking of Roddy Osborne and slashing fullback Jack Pardee.

Three seconds prior to the games end, some 2,000 A&M freshmen rushed out to carry off both teams, as tradition here dictates. But with the time remaining, John Bauer carried for one more time, stopping short on the Aggie 9-yard line after a one yard gain.

Bauer's 16-yard run a few seconds earlier coupled with Davey Parr's 40-yard end sweep—the longest run of the game for either team—saw Villanova knocking on the Aggies door in its most serious threat.

With 3 minutes 35 seconds to play in the first quarter, A&M's starting quarterback Jimmy Wright hit his roommate, Lloyd Taylor, with a 30-yard pass. Taylor scamoered the final 15 across the double-stripe.

But it was A&M's running attack which spelled the big offense for the cadets. Of the 325 yards gained by the Aggies on the ground, Osborne was the top ball carrier with 78 yards. Pardee was second with 75. A&M gained only 57 in the air. Villanova had 194 on the ground, and 88 passing.

Covering 58 yards in 11 plays, the Aggie machine clicked in the third quarter with halfback John Crow cutting across 7 yards to score.

Taylor missed his second conversion attempt—he missed 2 in 15 tries during last season—but split the uprights in the fourth period after Osborne plunged 2 yards to score. Osborne used only seven plays in directing the Aggies 63 yards for the final touchdown.

Villanova	0	0	0	0	—M
Texas A&M	6	0	6	7	—19

Texas A&M scoring — touchdowns: Taylor (30, pass-run from Wright), Crow (7, run), Osborne (2, plunge). Conversions: Taylor.

Pirates Trim Dodgers, 5-1

PITTSBURGH, Sept. 22 (AP) — Luis Arroyo, a chunky Puerto Rican just back from Hollywood, helped the Pittsburgh "spoilers" land another crippling body blow to Brooklyn's pennant hopes today with an assist from Bob Friend in a 5-1 relief victory.

Dick Groat's three singles and Bob Skinner's 420-foot triple over Duke Snider's head in the first inning aided the Pirate cause but the big news was the 28-year-old lefthander from Ponce who took over when starter Vern Law faltered in the third.

One run was in and there were men on first and third with nobody out when Manager Bobby Bragan called for Arroyo to protect his 3-1 lead. The stocky Senor whiffed a third called strike past spellbound Duke Snider, made Jackie Robinson fly out and struck out pinch-hitter Charlie Neal.

Arroyo breezed past the desparate Dodgers inning after inning, escaping a jam in the eighth when Robinson and Neal singled only to give way to Friend, the Pirate ace, in the ninth.

The two straight defeats left the Dodgers in a serious situation although they have Don Newcombe, their giant-sized, 25-game winner going tomorrow. He will be opposed by Dick Hall, a former first baseman-outfielder, who has a sorry 0- record.

Wake Forest Stuns W & M Indians, 39-0

WILLIAMSBURG, Va., Sept. 22 (AP)—Bill Barnes, a long-legged fullback with amazing ability to elude tacklers, broke loose on three long touchdown runs today as Wake Forest's football team stunned William and Mary 39-0.

A crowd of 8,000 looked on in disbelief as Barnes, striking on the first play from scrimmage, zig-zagged his way 6 yards on a burst over his own right guard and put the visiting Deacons ahead with only 40 seconds gone.

Snyder's Offense Overpowers Kangaroos, 52-6

Six Bengals In Scoring Parade

By BUCK FRANCIS
News Sports Editor

WEATHERFORD, Sept. 22 — The Weatherford Kangaroos proved no match for the Snyder Tigers here Friday night as the Bengals romped to a 52-6 victory over the Kangys in a non-district tilt.

The Tigers scored two touchdowns in each quarter as the Kangaroos couldn't halt the high geared Tiger offensive machine.

Coach John Conley used everyone on hand but it made no difference who was in the game — the Bengals scored almost at will.

Six Tigers got into the scoring act with Tommy Prichard and Milton Ham leading the touchdown parade with two each. Scoring one touchdown were Bobby Joines, Mickey McGrew, Jimmy Allen and Fill Fowler.

Prichard made the longest run of the game, going 85 yards for the third Tiger touchdown late in the second quarter.

The Tigers rolled up 425 yards on land and 139 in the air for a total offense of 564 yards. The Bengals made 20 first downs.

The Tigers were in command all the way after taking a 13-0 first lead. It was 26-0 at halftime and 40-0 after three quarters.

FIRST QUARTER

The Tigers, held in check the first time they had the ball, made good on their second possession to open the scoring for the night.

Halfback Bobby Pollard, just out of the sick bed, set the stage for the Tigers first scoring drive. Pollard intercepted a Weatherford pass on the Tiger 28 and the Bengals went from there for their initial TD.

Prichard struck for two and then Bobby Joines broke off tackle and raced 39 yards before being brought down on the Kangaroo 31.

After a five-yard penalty against the Tigers and a two-yard thrust at the line by Prichard, quarterback Ronnie Smith hit Ham with a jump pass for 13 yards and a first down on the Kangaroo 20.

Prichard then followed with six off tackle, Morgan three through the middle and Prichard again for three to make it a first on Weatherford's 8.

Prichard was stopped on two carries for no gain but found a big hole in the Weatherford line on his third try and he raced over standing up. Joe Reaves kicked perfectly, and it was Snyder 7, Weatherford 0 with 4 minutes left in the first quarter.

The Tigers struck quickly for their second TD. Ham pounced on a Weatherford fumble on the Kangaroo 35 and the Tigers were in business again.

It took the Tigers six plays to cover the distance for TD No. 2. After drawing a 15-yard penalty back to the midfield stripe, Berry broke off tackle and dashed 29 yards to the Weatherford 19 and a first down.

Joines got six up the middle and Berry nine on a quarterback sneak for a first on the Kangaroo 6.

Prichard got two on a line buck and then Berry hit Ham with a jump pass in the end zone for a touchdown. Ham was all alone when he received the pass.

Reaves' kick was wide and it was 13-0 Tigers with 59 seconds left in the first period.

SECOND QUARTER

The score remained at 13-0 until just before the half when the Bengals erupted for two quick touchdowns in the last minutes to make it 26-0 at the intermission.

A 60-yard Weatherford drive died on the Tiger 20 late in the second period and the Tigers, with time running out in the first half, scored in three plays after halting the Kangaroo drive.

An offside penalty pushed the Tigers back to their own 15 from where Prichard took a pitch-out and raced wide around his right end and with some timely downfield blocking went untouched the remaining distance, the play covering 85 yards.

Reaves kicked the extra point three times before it finally counted, the Tigers being offside on the first two attempts and the Tigers went ahead 20-0 with 2:05 left in the second period.

The Tigers weren't through, however, in the first half of play.

Weatherford was held for downs after the kickoff and Bud Morgan returned the Kangaroo punt to the Kangy 47. The Tigers scored on the first play on a Berry-to-Ham pass play, Ham gathering in the aerial at the 25 and raced over standing up. Reaves' kick was wide.

The first half ended on the play with the Tigers out in front 26-0.

THIRD QUARTER

Those two late touchdowns in the first half apparently killed the spirit of the Kangaroos as the Tigers, with all hands seeing action, found scoring easy in the second half.

The Tigers scored on their first offensive play after the intermission, Bobby Joines hitting off tackle and racing 69 yards to paydirt. Reaves' kick was true and it was 33-0 with only 30 seconds having elasped in the third quarter.

Snyder scored again in the third when sophomore Mickey McGrew hit up the middle for 36 yards and a touchdown. Israel Hinojos kicked the point to make it 40-0 with 3:45 minutes left in the third quarter.

FOURTH QUARTER

Weatherford scored its lone touchdown early in the fourth quarter on a short 34 yard drive Joe Kelley diving over from the one for the TD. The kick was wide and the Tiger lead was cut to 40-6 with 6:25 minutes left in the game.

Pollard romped 85 yards on the ensuing kickoff for a touchdown but the Tigers were caught clipping at the Weatherford 40 and penalized back to their own 40.

But the Tigers were not to be denied as they scored in two plays, Gary Vice going 40 yards and Jimmy Allen 10 for the touchdown to boost the Tiger lead to 46-6 with 4:52 minutes left in the game.

Weatherford fumbled the ensuing kickoff and Bill Jennings recovered for the Tigers on the Kangaroo 12. Three plays later Bill Fowler swept end for the final Tiger TD from the 12.

The Tigers were bidding for another touchdown when the game ended as they made a first down on the Kangaroos four at the final gun.

Score by periods:

TIGERS	13	13	14	12-52
WEATHERFORD	0	0	0	6-6

Scoring: Touchdowns — Tigers: Prichard 2, Ham 2, Joines, McGrew, Allen and Fowler, one each. Weatherford — Kelley. PAT — Tigers: Reaves 3, Hinojos 1.

TCU's Horned Frogs Crush Jayhawks In Opener, 32-0

By SKIPPER PATRICK

LAWRENCE, Kan., Sept. 22 (AP)—Halfback Kenneth Wyneburg reeled off three touchdowns, one on an 80-yard run to outshine his more illustrious teammate Jim Swink in leading Texas Christian University's Horned Frog's to a 32-0 victory over the Kansas Jayhawks in a football season opener today.

Wyneburg, 190 - pound senior from Odessa, Tex., climaxed Frog drives of 72 and 71 yards in the first and second quarters with two-yard plunges. His 80-yard run on the first play from scrimmage in the third quarter tied the TCU record scoring distance set by Swink against Kansas last year.

All-America Swink made his presence felt keenly by the game young Jawhawks however, by catching three key passes from quarterback Chuck Curtis in scoring drives.

A crowd of 28,000 sitting in warm and windy weather also witnessed a 15-yard TCU pass play from Curtis to end O'Day Williams in the third quarter and a score from 6 yards out by halfback Buddy Dike in the fourth.

Fullback Vernon Hallbeck converted after TCU's first and last touchdowns.

Wyneburg rushed the ball 13 times and 141 yards and caught three passes for 34 yards.

Kansas, which was unable to complete a one of its ten passes, made its best threat in the third quarter when a drive wilted on the TCU 11-yard line.

Texas Christian	7	6	12	7	—32
Kansas	0	0	0	0	— 0

TCU scoring — touchdowns: Wineburg 3 (2, plunge; 80, run), Williams (18, pass from Curtis), Dike (6, run). Conversions: Hallbeck (2).

Porkers Fight Off HSU Attack, 21-6

By ADREN COOPER

FAYETTEVILLE, Ark., Sept. 22 (AP)—The Arkansas Razorbacks survived a deadly Hardin-Simmons passing attack fashioned by Coach Slingin' Sammy Baugh and put two touchdowns together in the third period to whip the Texans 21-6 in an intersectional football opener today.

Arkansas was never behind but the favored Porkers were in constant danger until they put the two quick TDs on the scoreboard in the third period.

Ronnie Underwood, Arkansas halfback, took a 20-yard pass from quarterback Don Christian to give the Razorbacks a 14-6 third period advantage after a 7-6 lead at halftime. The clincher came a few minutes later on an end run-lateral play engineered by sophomores James Monroe and Donnie Stone.

Arkansas scored first a few seconds after the second period started with Underwood taking a pitch-out for the last seven yards.

Hardin-Simmons matched the touchdown in the same period after missing three chances, on a 58-yard drive. Quarterback Gene Sauer scored on a keeper around right end after the boys set it up on the one foot line with four key pass plays.

Sauer was the individual star of the afternoon although he played for the losers. He completed 11 of 12 passes in the first half and kept the Porkers off balance. Superior line play finally proved the Cowboys' nemesis.

Sauer directed the Hardin-Simmons offense that rolled up 413 yards to 225 for Arkansas.

Hardin-Simmons	0	6	0	0	— 6
Arkansas	0	7	14	0	—21

Hardin-Simmons scoring—Touchdowns: Sauer (one-foot line).

Arkansas scoring—Touchdowns: Underwood 2 (7-yd run; 20-yd pass from Christian); Stone (35 lateral from Monroe). Conversions: Nesbitt (2), Ritschel.

Virginia Back Sets Record In 18-0 Win

CHARLOTTESVILLE, Va., Sept. 22 (AP) — Barreling Jim Bakhtiar canonaded Virginia Military Institute's defenses for 210 yards and an Atlantic Cocast Conference individual rushing record for one game today as Virginia beat down the Keydets 18-0 to make new Coach Ben Martin's coming-out party a smashing success.

The 198 - pound fullback from Abadan, Iran, scored only one of the Cavalier touchdowns, but his explosive sallies through the lines broke VMI's resistance, turning a 6-0 game into a rout in the final period.

Band Puts On Spectacular Show At Half

While the Snyder Tigers were putting on quite a show on the Weatherford grid field Friday night, the Snyder High School band came up with a feat equally as spectacular in its field.

The band, directed by Melvin Montgomery, assisted by Phil Cherry, fielded a home-written comedy production, "The Midway of a County Fair." It will present the same halftime show at Big Spring Friday night.

The story centered around one John Trueheart, who is attempting to impress his sweetheart, Susie Snodgrass. He first knocks down milkbottles to win a Snyder Tiger, and the band played "Lucky Day" to indicate how things were going for him. Next, he tries the shooting gallery, and with the last shot hits himself, with the band, of course, playing "I Didn't Know the Gun Was Loaded."

Susie then tries the weight machine, resulting in the band's playing "She's Too Fat for Me." John ends up by not being able to ring the bell on a strength machine, while a midget does perform the feat, and the band ends the show with "A Good Man Is Hard to Find."

Steve Melton, drum major, directs the band on the field. Narrater for the shows in Tim Dennis. Head twirler is Karen Crooks, and others are Linda Ramsey, Jo Ann Miller, Toni Best, Adaleen Soles, Barbara Taylor, Camilla Roberts, and Jo Ann Hamblen.

The band is slated to play at the Cotton Bowl game next Jan. 1.

OUTDOOR FLASHES

The past week has been good for crappie and yellow catfish at Lake J. B. Thomas, although blustery weather has interfered seriously with fishing.

Luke Underwood and party took a good string of crappie plus two 4¼-pound yellow cats on reds, said H. C. Reid, pal of his.

J. W. Broughton, Big Spring, caught the limit of big crappie ranging from ¼ to 1¼ pounds on Tuesday.

"All you need is a bucket of minnows an a stringer to get a mess of fish now," observed Reid.

From Lake Thomas Lodge came these fishing tidbits:

Ennis Cochran, Big Spring caught a nice string of crappie. Jack W. Cranfill and J. D. Alderson of Lubbock had an aggregate of 80 crappie ranging up to 1¼ pounds.

Mr. and Mrs. C. L. Natch, Sloton, came by with 28 crappie on their string. The largest weighed up to 1¼ pounds.

J. T. Huckabee, Snyder, had eight nice sized channel cat.

Mr. and Mrs. Ray Emmons, Snyder, had one bass tipping the beam at 2¼ pounds, as well as 80 crappie ranging up to 1¼ pounds.

James Garland and Eward Garland, Seminole, had 40 crappie with the top ones hitting around 1¼ pounds.

Paul Oder, Big Spring, reported a catch of 14 crappie up to 1¼ pounds and four bass, with the largest being 2¼ pounds.

Walton Hale and J. A. Arwine, Floydada, had eight pretty white bass which weighed up to 2¼ pounds — most of them approaching that weight. The fish were taken trolling with a 200 series bomber white with a black stripe.

Top Records Going On Line In Class 4A

By The Associated Press

Wichita Falls plays Amarillo, Odessa goes to Port Arthur and Baytown battles Ray at Corpus Christi in headliners this week of the Class AAAA division of Texas schoolboy football.

All three games match unbeaten teams and bring together six of the highest rated outfits in the state.

Champion Abilene isn't likely to be strongly tested. The Eagles go after their 26th straight victory against Lubbock Monterey. The latter took a 31-20 licking from Dallas Highland Park last week.

Wichita Falls crushed Breckenridge 46-0 while Amarillo was tumbling Fort Worth Paschal 36-7.

Odessa tackles Port Arthur, a once-tied team, at Port Arthur. Baytown, twice tied, tests a Ray eleven that looks like it might be the power of the south. Ray licked Houston Austin 20-7.

Port Neches, defending champion of AAA, gets Lufkin at Port Neches. The Indians are undefeated but they were not impressive last week in edging often defeated Orange 14-7.

Last week's warfare cut the number of undefeated, united teams in the two classes to fewer than 50.

Dressen To Manage Washington Again

WASHINGTON, Sept. 22 (AP)—Charley Dressen will manage the Washington Nationals again next year.

Announcing this today, the baseball team's president, Calvin Griffith, said Dressen has "done an outstanding job with a young club" in his two years here.

The club ran last in Dressen's first year, and moved up one step to seventh this season. The team said Dressen has agreed to terms for his new contract but has not yet signed it. No salary figure was announced.

Dressen guided the Brooklyn Dodgers to two pennants, once managed the Cincinnati Reds and played infield positions in his major league playing days.

CAGE OFFICIALS TO MEET MONDAY

The Snyder Basketball Officials Association will meet Monday night at the Scurry County Boys Club, Moon Mullins, secretary, has announced.

Time of meeting will be 8 p.m.

All men who will be interested in calling basketball games next winter are invited to the meeting, Mullins said.

Limit On Leasing Is Being Probed

ALBUQUERQUE, Sept. 22 (AP)—A Washington attorney asserted yesterday the federal limit on acreage leased by oil and gas firms in any one state is not 46,080 acres, but double that.

Neil Stull, who, at times represents Stanolind Oil, said so to a Senate subcommittee.

The hearing is being conducted by Sen. Anderson (D-NM), chairman of the Senate Interior subcommittee.

Sen. Murray (D-Mont) head of the parent group, said federal law limits acreage available on lease to a company in any one state to 46,080 acres and land available to a company on option at 200,000 acres.

Stull denied that as the hearing moved to a weekend close. He maintained the 1954 mineral leasing act applies to original public domain land under an Interior Department ruling, and equal amounts can be held on land which was not part of the public domain but has since been acquired by the government.

I was quite surprised when the department came to the conclusion of what you might call duplicate holdings," Stull commented.

The hearing is to find out whether oil and gas firms are legally or illegally circumventing federal law or the intention of the law on leasing and optioning federal land.

"The purpose of the law is to prevent monopolies," Anderson said, "and to give the independents a chance. If the laws aren't strong enough, we want to write new ones."

After Stull's statement that the maximum limits are double what was believed, Anderson declared: "I would like to know what the top limit really is. Now we're up to 400 and some thousand acres in each state."

The senator asked Stull if there is any other way more lands can be obtained "besides public lands and acquired land, is there any other category of lands?"

"No sir," Stull answered.

Earlier, Stull testified at times he had taken leases for clients in his own name, in his wife's name and sometimes in the name of an employe of his office and in that way it was legal for a firm to avoid acreage limitations.

Anderson observed: "You could file on 40,000 acres. A person in your office could file on 40,000 acres. You could get another person or two to each file on 40,000. In that way you could block out 160,000 quickly and give the options and so get around the acreage limitations, could you not?"

Stull replied: "I have never done that, but I think it would be proper if I were to do so."

Anderson said, "I don't think Congress so understood it. Under that they could have 200,000 acres under option very quickly and thus get around the limitations."

The hearing recessed and resumes Monday. Anderson said he expected it to run to Sept. 28.

Nixon Sees Big Future For America

COLORADO SPRINGS, Colo., Sept. 22 (AP)—Vice President Nixon said tonight the time is "not too far distant" when the working man can have "a four-day week and family life will be even more fully enjoyed by every American."

The curtailed work week was one of the bright spots in a Utopian picture painted here by the GOP's current No. 1 campaigner in what was billed as the first major speech of his initial campaign swing.

In the prepared text of his address, he told of an "exciting future" in which "poverty will be a forgotten word in the United States."

"Our goals are more than mere statistics," he said. "We could say that our hope is to double everyone's standard of living in 10 years. We could promise two automobiles, three television sets, a better house and a dozen other comforts that could mean so much to every American."

"These are not dreams or idle boasts," he said, "they simply are projections of the gains we have made in the last four years."

The more abundant life of the future, Nixon asserted as he reached the first weekend halting point in his current vote-seeking drive, can be accomplished if the proper kind of administration is running the government.

Nixon said "it is quite obvious" the economic policies of Democratic presidential candidate Adlai Stevenson "are being dictated by certain labor leaders, turned politicians, and by the intellectual advisers of his campaign organization, the Americans for Democratic Action."

Negro Takes Lie Detector Test In Probe

FORT WORTH, Sept. 22 (AP)—Clifford Davis, Negro attorney for NAACP, underwent a lie detector test today as Tarrant County grand jury dug deeper into vote fraud charges from the Aug. 25 primary.

Asst. Dist. Atty. Jerry Murad said Davis passed the test satisfactorily.

Davis was an election official in Precinct 120, where 353 fraudulent votes were cast for liberal nomination to office.

Results of the test will be handed grand jurors Tuesday when they resume their double barreled investigation into voting irregularities and racial strife at Mansfield.

The Fort Worth Star-Telegram said Davis told the grand jury he assisted in writing names of voters in election records during balloting at Precinct 120.

The discovery of the alphabetical listing of names in the records led to the grand jury investigation and to three indictments of vote fraud against the election judge, Charlie Mae Allen, 26, Negro woman.

Four Negroes Given Stays

DALLAS, Sept. 22 (AP)—A last minute stay of jail sentences was given yesterday to four Negro church members of a Dallas Congregation charged with violating the peace during services.

Dist. Judge A. R. Stout had ordered Rufs Coleman, Novella Fraizer and Clara Seay to 27 hours in jail. The fourth, Mary George received a 48 hours jail sentences.

The judge's revised order was for the people to make peace by next Friday or definitely go to jail.

Dissension among the members of the Roe Chapel Baptist Church began in July a year ago when one faction alleged that a group was locking the pastor, the Rev. J. W. Hackett, and the congregation out of the church.

Charges against the four members of the church which led to the jail sentences included displaying a pistol during services, singing discordantly in the choir, sitting right in front of the preacher during a sermon, and talking loudly while services were going on.

BIRTHS

Mr. and Mrs. John Rigsby, General Delivery, are the parents of a girl, born at 11:08 a.m. Friday in the Battenfield-Jones Hospital. She weighed nine pounds, and one ounce.

Youths Are Blamed For Grass Fire

DALLAS, Sept. 22 (AP)—Four youths hurling lighted firecrackers in mock trench warfare were blamed by officers today for a 400 acre grass fire at Seagoville that destroyed a frame house and two sheds.

A bridge was partly burned and other homes and buildings threatened when the fire yesterday spread to the southwest city limits of Seagoville. Damage was estimated at $2,000.

The boys, 15 and 14, spent the night in custody of juvenile authorities.

Officers said the boys told them they stayed out of school yesterday and started the mock warfare. They said they hurled the lighted firecrackers at each other from two ditches.

When the grass caught fire, they tried to stamp out the flames but could not cope with it and gave up.

Dallas County Fire Marshal Hal Hood said it was the biggest grass fire of the year in this county. Officers said no disposition had been made of the case.

IS IMPORTANT IN INSURANCE, TOO!

You buy insurance for only one reason—to safeguard your property. That's why it pays to get the best protection possible.

You get the best in protection and service when you insure with us. Insurance is our business, and we are trained to give you expert advice on your protection problems. And of course, we represent only Capital Stock Companies—the "Standard of Protection" wherever insurance is sold.

Be sure when you insure. The best costs less in the long run.

Car-Truck Accident Kills Olton Resident

PLAINVIEW, Sept. 22 (AP)—Lee Cannon, 30, of Olton, Tex., was killed today when his car collided with a truck hauling five head of show cattle on Highway 87 about 3 miles north of Abernathy.

The two occupants of the truck who were carrying the cattle to the South Plains Fair at Lubbock escaped injury. They were Robert Bare, 30, and Douglas Taylor, both of Protection, Kan.

Bare said a prize bull valued at $30,000 was thrown from the truck. Its back was broken. And he said the animal had to be destroyed. The other four animals escaped injury, Bare said.

State Prison Rodeo Marks Anniversary

HUNTSVILLE, Tex., Sept. 22 (AP)—The famous Texas Prison Rodeo, featuring rugged cowpoke prisoners, marks its 25th anniversary this year and officials say they are planning many special attractions to commemorate the anniversary.

The rodeo gets under way Oct. 7 for the first of four Sunday Rodeos during the month. It is held at the prison stadium in Huntsville.

Rodeo director Albert Moore said only the best performers—"inmate and animal—will be put into the arena."

"Riders will be culled from the more than 135 volunteers for this year's show," he said. "Would-be waddies and second-rate riders who do not meet our high standards will be eliminated in a special try-out rodeo," Moore said.

Proceeds of the inmate rodeo go to the prisoners' benefit funds.

Moore said professional specialty acts will be featured "between-event" entertainment. The Angelina County Mounted Quadrille will appear in the arena for the first two shows, Oct. 7-14, and the Longview Mounted Quadrille will take over that spot in the show Oct. 21 and 28.

Wells Pleads Guilty On Check Charge Here

H. O. (Bob) Wells of Snyder entered a plea of guilty in county court yesterday morning to a charge of swindling by worthless check and was fined $48.50 including court costs.

Wells was arrested by the sheriff's office in Nolan County and was returned here by Howard Gibbons, Scurry deputy.

Rites Held For Adams

SAN DIEGO, TEX., Sept. 22 (AP)—Services for Reynaldo L. Adame, 51, former Duval County school superintendent, and a controversial figure in county politics, were held here yesterday. Adame died of a heart attack Thursday.

He resigned as superintendent in January, 1955 after being convicted on a charge of theft by false pretences in connection with his administration of the office.

A new trial ordered by an appeal court resulted in a conviction at Del Rio March 28, 1956 on the same charge. That conviction and the five-year sentence he was given was on appeal.

His wife, Consuelo, was appointed county superintendent following his resignation and was reelected to the post this year.

Fifty three cents of every dollar given for philanthropy in the U.S. goes to religious groups.

Burglaries Are Solved

DALLAS, Sept. 22 (AP)—A pistol-packing youth described 18 burglaries to officers yesterday, he said he suspected his three 16-year-old companions of taking more than their share of some $10,000 in loot.

Patrolmen picked up the 15-year-old, who was carrying a pistol, after residents reported him on suspicious behavior. Detectives said they had recovered about half of the merchandise which included television sets, radios, jewelry and pistols.

Officers said the burglaries occurred within six weeks and included a grocery store, a jewelry store and several homes.

Two other suspects were brought to the police station by their parents. The last was arrested Thursday night.

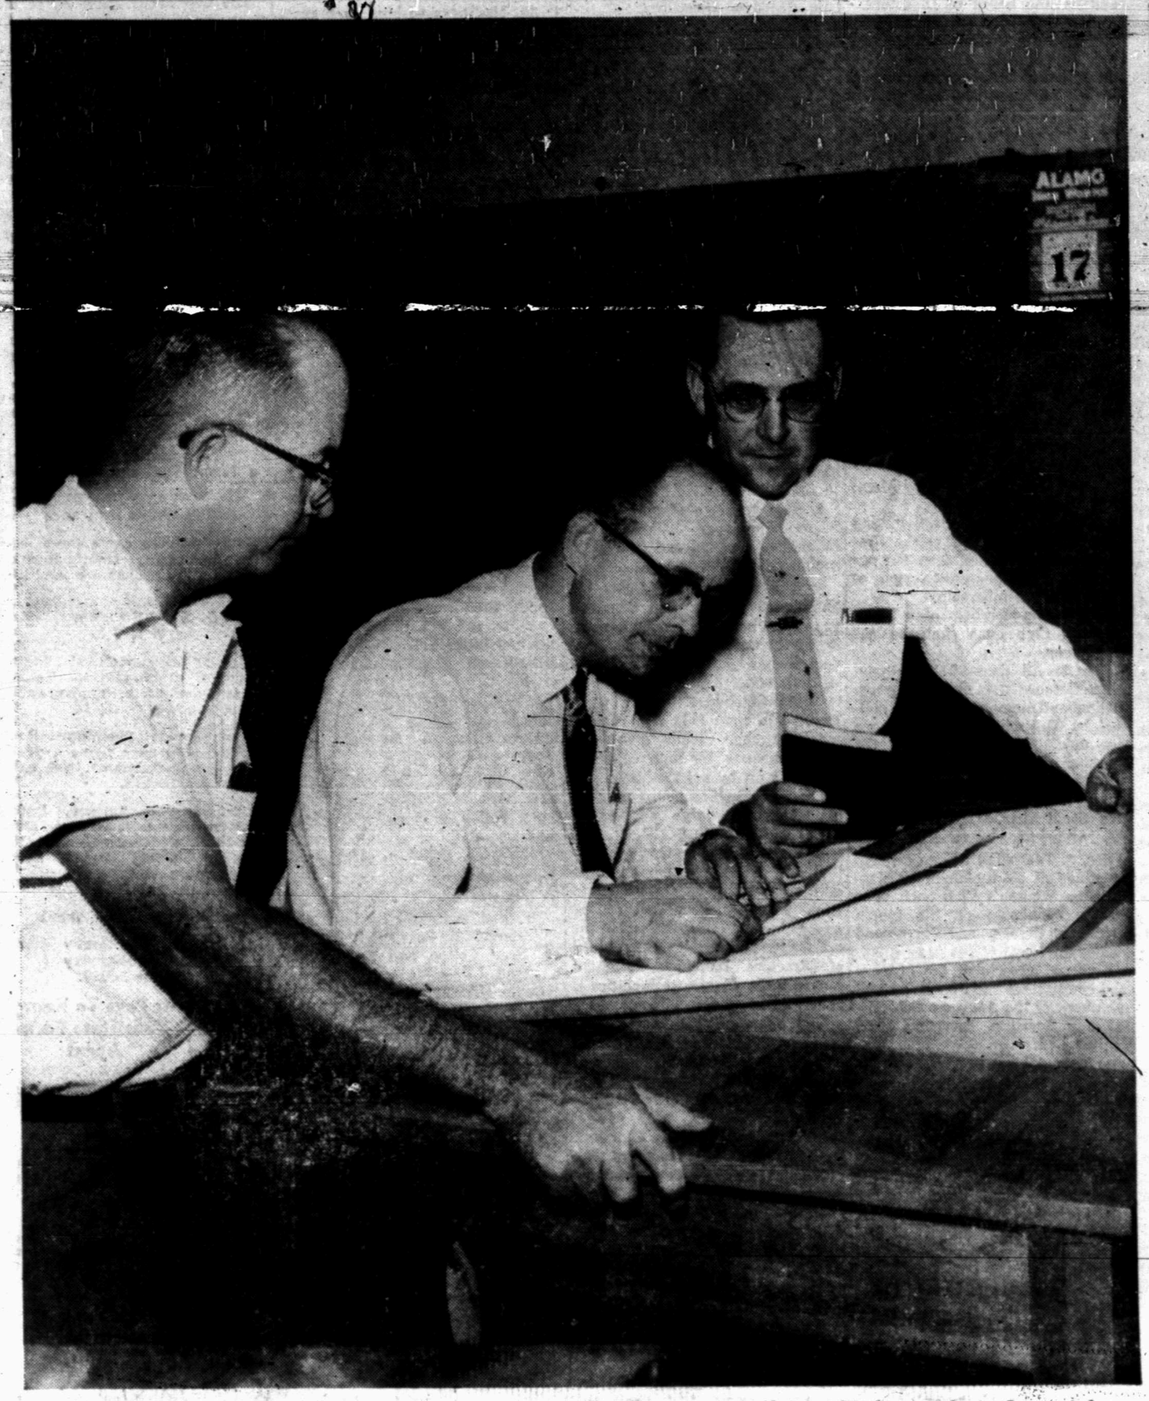
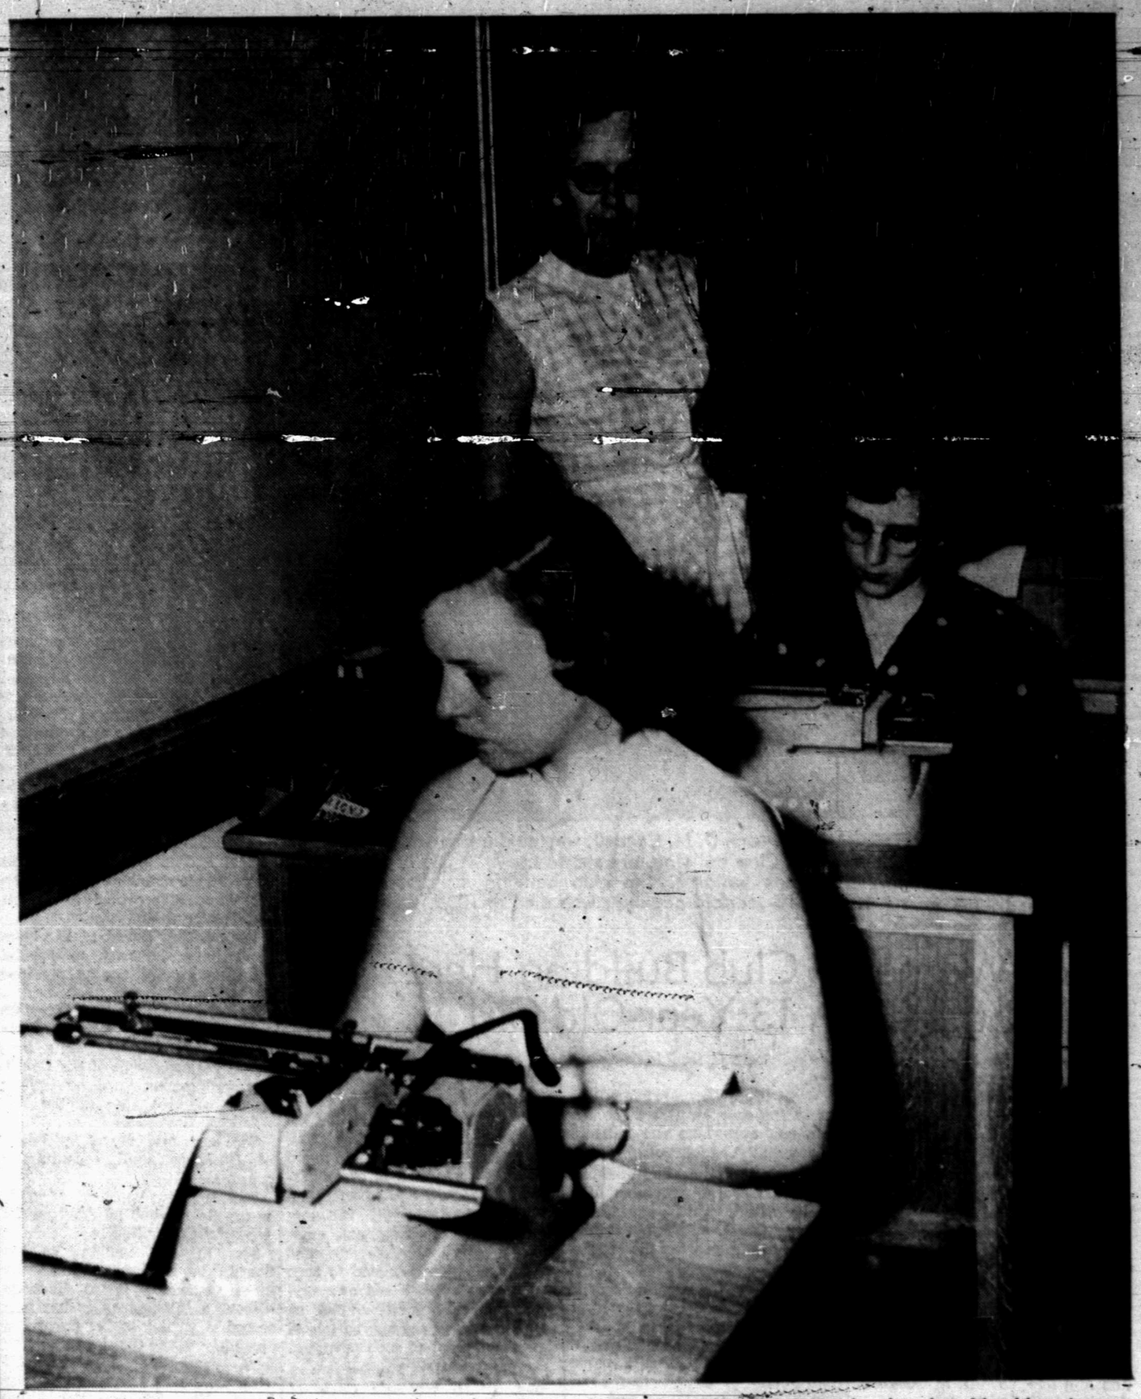
THE SNYDER DAILY NEWS

VOL. 7, NO. 125 SNYDER, TEXAS, SUNDAY, SEPTEMBER 23, 1956 SECTION B

Adult Education Popular Here



Planning a project in the adult shop courses being taught at Snyder High School is the preliminary, and one of the most important phases of the adult courses. Shown above checking the project plans of John Black, center, are two of his classmates, Jack Cross, left, and J. W. DeFore. All three men are employes of the Texas Co. (Lee Watson photographs)



One of the most popular adult courses in the Adult Education Program at Snyder High School being held this fall is typing. Two members of the class of 18 men and women taking typing are shown practicing while the teacher, Thelma Leslie, supervises. Mrs. Wayne Fagan is the typist in front, and Mrs. Marshall Hodges at right. Classes in shorthand and bookkeeping will also be offered if enough persons indicate a desire to enroll. Sixteen persons are required to constitute a class in the courses, and at the present about half that number have indicated they wish to enroll if classes can be organized.

Dan Howard, left, and Bob Melton, are two of many men who are taking the co-ed shop courses in the Adult Education Program at Snyder High School. They are shown above at the electric planes provided to put rough lumber into shape for making professional appearing items of furniture. Many of the persons taking the courses look toward self improvement which will help them in their field of employment, but many others take the courses only to improve themselves in their hobby.

The proper and safe way of sawing lumber into shape for class projects is demonstrated by the adult shop class instructor to three members of the class. From left are: Charlie Busse, Gaylon Cummings, Jiggs Falls, and Jeff Stubblefield. Many members of the adult shop classes make useful and decorative pieces of furniture for their homes. Enrollment is still open in the classes which are held from 7 to 9 o'clock on Monday and Thursday nights.

TRIBUTE TO DAUGHTER—Mr. and Mrs. D. M. Cogdell, who paid all construction costs of the new Martha Ann Women's Club building, are shown above in one of the spacious club meeting rooms in the new building. The club building is named Martha Ann as a tribute to the donnors 13-year-old daughter who died in 1939. (Lee Watson photograph)

New Women's Club Building Here Is Tribute To A 13-Year-Old Girl

One week from today a quarter-million dollar tribute to a 13-year-old girl who died in 1939 will be dedicated to the women of Snyder as a living tribute to the little girl.

It will be dedication of the new Martha Ann Women's Club Build- of Snyder. The Martha Ann Club Building is one of several benevolent gestures made in memory of Martha Ann Cogdell by her parents and trustees of the Martha Ann Trust Foundation.

"Dedication of the new building to the women of Snyder and to the good it can do by providing a place for their activities will make Martha Ann live on," D. M. Cogdell, Martha Ann's father, said.

The new building is one of the most modern and complete women's club buildings in Texas — if not the most modern and complete.

Nothing has been spared either in construction of the building or in furnishing it.

Although the building actually cost only about $150,000 to construct because it was done under the direct supervision of Cogdell, it would have cost at least $250,000 if contracted and retail prices were paid for all materials and a contractors profits were included.

Most of the materials were purchased locally at near wholesale prices, Cogdell said.

The furnishings in the building are ultra modern in concept and along will have cost approximately $40,000 when the kitchen equipment arrives and is installed.

The building was constructed and paid for by the Martha Ann Trust Foundation, but all furnishings have been, or are being paid for by club women of Snyder and Scurry County.

Of the approximately $40,000 in furnishings the women's clubs and women participating in furnishing of the building lack only about $4,750 having the furnishings all paid for.

"The club women who are going to use the building have done a remarkable job in buying and paying for the furnishings in the building, and they merit the highest praise for their work in furnishing the building," Cogdell said.

"Many persons believed that providing furnishings for the building, by the club women, was an almost impossible undertaking, but they have made the hard job look easy by their working together as a team," he added.

Design and architecture of the building as well as the construction techniques used are futuristic departures from even currently modern building ideas.

But many old proven ideas and types of materials have been incorporated as part of the modernly designed building.

Cherry quarry stone from Arkansas was used for the north wall of the fireproof building and for partitions which flank the main lounge inside the building. On the outside of the quarry stone north wall terrazo tile was used as a decoration.

"That one wall cost more than $5,000," Cogdell said.

One controversial aspect of design is the roofless terrace in the center of the building.

Some critics have suggested that the terrace should be roofed, making of it only another room, but Cogdell points out that such terraces have long been a popular part of Southwestern building design.

Why, it provides a private place out in the open air where the women can even take sun baths if they wish," Cogdell added.

The Martha Ann Club Building is one of several structures of a similar nature which have been built by the D. M. Cogdell family through their support of the Martha Ann Trust Foundation.

Donations in the several hundred thousand dollars to construction of Cogdell Memorial Hospital nurses, have been other activities of the foundation, as well as a major contribution to construction of a church building in Waco, and college scholarships for worthy students.

Martha Ann Cogdell was 13 years old when stricken by a fatal illness over which medical science had no control.

Although the new building is called a club building, all club members and even individuals who are not members of the club, are joining the organization which will be permitted use of the building. It will be governed by a committee of trustees named by women's clubs using the building.

Mrs. C. V. (Whit) Thompson, Jr. has been named chairman of the building's board of directors.

Conception of the idea for such a building was not made overnight by Cogdell, or any single person.

Actually the Altrurian Club, of which Mrs. Cogdell is a past president, could probably be given credit for first pointing up the need for such a building here, but other women of clubs also saw the need for a joint club house.

The first consideration given to such a project by the Cogdell family was a tentative offer to donate $10,000 toward construction of a club building, but as the idea grew and importance of having such a building became more clear to the Cogdells they decided to pay for the building if club women would furnish it.

Actual work toward furnishings for the building was started three years ago by the Cosmorama Club, and a Rodeo Queen's fund raising race was held that year to kickoff the furnishings fund with $7,000 raised in the queen contest.

The second year other clubs joined in the queen contest and into the club building furnishings activities. That year $17,000 was profited from the contest.

This year the queen contest netted about $3,000.

Sale of membership user privileges in the new club building, a recent joint activity of all women's clubs, has netted the remainder of what the club women have raised to furnish the building.

"From the spirit the club women have shown, I feel confident that the club women could raise the $4,750 they need to complete paying for the furnishings in three days time—if they had to," Cogdell said.

Bylaws of the Martha Ann Woman's Club are:

ARTICLE I: Name

Sec. 1. The name of this organization shall be

"MARTHA ANN WOMAN'S CLUB".

ARTICLE II: Object

Sec. 1. The object of Martha Ann Woman's Club shall be to promote, maintain and support charitable, literary, and educational undertakings, and shall for such purposes be an organization for women only, and no part of the net earnings or funds of the organization will at any time inure to the benefit of any private member of the organization or any individual thereof, and to such end this organization will maintain and devote its assets and energies to charitable, literary, and educational purposes; and to such end it may acquire and own personal and real property as may be found necessary and appropriate to the carrying out of such purposes.

ARTICLE III: Membership

Sec. 1. All Women's Clubs of Snyder, Tex., whose objects coincide with those of Martha Ann Woman's Club shall be eligible for membership after meeting certain requirements.

Sec. 2. Membership shall be of two classes:

a. Participating Clubs: Clubs shall be admitted to membership in Martha Ann Woman's Club by a majority vote of the Board of Directors upon recommendation of the Membership Committee.

b. Individual Members:

1. Annual: Any woman wishing to become an annual member shall make application to the Membership Committee. Her application shall be endorsed by three active members of Martha Ann Woman's Club.

2. Life: When any woman eligible for membership has made a gift of $250.00, she is considered for Life Membership, and upon election is entitled to all privileges of annual membership without dues, and her name shall be entered on Life Membership Roll.

3. Founder: When any woman eligible for membership has made a gift of $1,000.00, she is considered for Founder Membership, and upon election is entitled to all privileges of annual membership without dues, is an Honorary Member of the Board of Directors, and her name shall be entered on the Founder Membership Roll.

4. Honorary: This Membership may be granted by the Board of Directors to any person who has made unusual or outstanding contribution to the benefit of Martha Ann Woman's Club.

Sec. 3. The Board of Directors may grant memberships for gifts of benefit to Martha Ann Woman's Club which are acceptable to the Board of Directors.

Sec. 4. No memberships shall be transferable.

ARTICLE IV: Officers

The Officers shall be a President, a Vice-president, a Recording Secretary, a Corresponding Secretary, and a Treasurer.

These Officers shall be elected from the personnel of the Board of Directors by the Board at a called meeting following the March meeting of the Advisory Committee and shall take office on June 1.

ARTICLE V:

This Organization shall have as its principal organs a Board of Directors and an Advisory Committee.

ARTICLE VI:

Sec. 1. The Board of Directors shall consist of 13 members elected by the Advisory Committee. To provide for the overlapping terms of office, four members shall be elected each year for two years, five members the third year, and each shall serve a term of three years.

Sec. 2. Any member in a Participating Club or any Individual member in good standing shall be eligible to be elected a member of the Board of Directors.

Sec. 3. The Board of Directors shall have all power and authority over the affairs of this organization except that which is delegated to the Advisory Committee.

Sec. 4. The Board of Directors shall meet monthly at a time and place to be set by the President. Special meetings of the Board of Directors may be called by the President, and must be called upon request of three members of the board.

Sec. 5. The Board of Directors shall admit members by a majority vote as provided in Article III, Section 2, and Section 3.

Sec. 6. The Board of Directors shall have authority to appoint Standing Committees as provided in Article X.

Sec. 7. The Board of Directors shall have authority to purchase or sell real property by a two-thirds majority vote of the Board, and such action must be ratified by a majority vote of the Advisory Committee.

Sec. 8. A majority of the Board of Directors shall constitute a quorum.

Sec. 9. Any vacancy occuring on the Board shall be filled by the Advisory Committee.

Sec. 10. Any member of the Board who shall be absent from three successive Board Meetings without a satisfactory excuse presented in writing to the Recording Secretary within ten days after the third successive absence shall cease to be a member of the Board. The Advisory Committee shall elect another Director to act in her stead.

Sec. 11. The Board of Directors shall have authority to make any Standing Rules which are not inconsistent with the Charter and these Bylaws.

Sec. 12. The Board of Directors shall require the Treasurer to present a financial report at the Annual Meetings in May and October. The Board of Directors shall require the books to be audited at the close of each fiscal year by a certified public accountant, one copy to be filed with the President and one to be kept with the Treasurer's reports. The Treasurer shall pay bills only on an order signed by the President.

Sec. 13. The Board of Directors shall control the use of the Clubhouse by non-member clubs and individuals.

ARTICLE VII: Advisory Committee

Sec. 1. The Advisory Committee shall be composed of the President or an Alternate from each participating club and the Chairmen of Standing Committees of Martha Ann Woman's Club.

Each club shall elect its member not later than March 1. The term of office of the members of the Advisory Committee shall be for one year. A Member of the Board of Directors should not be a Club representative on the Advisory Committee.

Sec. 2. This Committee shall elect its own Chairman, Vice-chairman, and Secretary.

Sec. 3. Regular meetings of the Advisory Committee shall be held in June, September, November, March and May. Special meetings may be called by the Chairman, and upon request of three of its members. It shall be subject to call by the Board of Directors.

Sec. 4. It shall be the duty of the Advisory Committee:

a. To ratify by a majority vote the action of the Board of Directors on the purchase and sale of any and all real property.

b. To receive semi-annual reports of the Board of Directors.

c. To elect the Directors of the Board.

A Nominating Committee of three members selected from and by the Advisory Committee at the November meeting each year shall nominate four or five candidates as needed for the members of the Board of Directors to be elected at the regular meeting in March of each year.

Sec. 5. A majority of the Committee shall constitute a quorum.

ARTICLE VIII: Dues

Sec. 1. Participating Clubs shall pay dues of $100 per year.

Sec. 2. Dues for Individual Members shall be:

a. For members of Participating Clubs dues shall be $20 the first year of membership, then $10 per year for each successive year of continuous membership.

b. For non-members of a Participating Club dues shall be $25 each year.

Sec. 3. All dues shall be payable October 1st of each year. Delinquent members shall be notified by November 1st. If dues are not paid by December 1st, the member or club shall then be dropped from the roll.

Sec. 4. All dues shall be for entire fiscal year.

ARTICLE IX: Meetings

Sec. 1. That shall be two general meetings of all members of Martha Ann Woman's Club each year at the Clubhouse on the fourth Friday in October and the second Friday in May. At the May meeting annual reports of the officers and committees shall be given and members of the Advisory Committee and Board of Directors shall be installed.

ARTICLE X: Standing Committees

Sec. 1. The Board of Directors shall appoint the following standing committees and such other committees as may be found necessary to carry on the work of Martha Ann Woman's Club:

a. Finance Committee.

b. Membership Committee. The Vice-president of theBoard of Directors shall be Chairman of this Committee:

c. Aministrative Detail Committee:

A. House rules and Calendar appointments

B. Food accounting and Kitchen management

C. Supervision of Grounds

D. Maintenance of Clubhouse.

d. Service Committee. This committee shall plan and recommend to the Board the program of charitable, literary and educational work of the club.

e. Activities Committee. This committee shall plan the social affairs given by Martha Ann Woman's Club.

f. Architectural Committee and Decorating Committee. This committee shall plan and recommend improvements in the architectural changes and interior decorations when requested by the Board.

g. Kitchen Equipment.

h. Revisions Committee. All changes in or amendments to the Bylaws shall be made by this committee.

i. Past Presidents Committee: This committee shall consist of all past Presidents of the Board of Directors and will be subject to call of the current Board of Directors for special projects only, and no representation given on the Advisory Committee.

Sec. 2. Chairman of Standing Committees of the Board of Directors shall be appointed each year, and shall be voting members of the Advisory Committee.

Sec. 3. Chairman of Standing Committees shall give a report of the work of their respective committees whenever necessary, at regular meetings of the Board of Directors.

Sec. 4. All recommendations from committees shall be made to the Board of Directors.

ARTICLE XI: Amendment to Bylaws

Sec. 1. The Bylaws of Martha Ann Woman's Club may be amended at any regular meeting of the Board of Directors by a two-thirds vote of the Directors present, provided that the proposed amendment has been read at a previous meeting and has been approved by a majority vote of the Advisory Committee.

ARTICLE XII Parliamentary Authority

Sec. 1. The rules contained in "Roberts Rules of Order Revised" shall govern Martha Ann Woman's Club in all cases to which they are applicable and in which they are not inconsistent with these Bylaws.

STANDING RULES:

1. Membership card shall be shown upon request at the entrance to the Clubhouse.

2. The privilege of entertaining in the Clubhouse shall be given to member clubs and individual members only.

3. The participating Club's belonging to Martha Ann Woman's Club shall have preference in making up the Calendar of Events. Each club should book regular meetings with Calendar Committee not later than October 15th each year. Each club may hold two regular meetings each month, and twice the Clubhouse for entertainment of guests or special meetings. Extra use of the Clubhouse may be granted and charge set by th Board of Directors.

4. Individual members of Martha Ann Woman's Club shall be entitled to entertain four times each year at the Clubhouse as space is available. Charges for extra use shall be set by the Board of Directors. Individual Members may use the Clubhouse facilities if space is available, without reservation being allowed, for a foursome or individually without such use counting as a party. Individual members and guests may use dining facilities available by reservation.

5. Founder and Life Members shall be entitled to use of the Clubhouse as often as desired for entertainment, as space is available, and use of dining facilities with guests by reservation. They shall enjoy all privileges of Individual Members without further payment of dues.

6. All hostesses for any party given at the Clubhouse must be Individual Members of Martha Ann Woman's Club.

7. The membership year of Martha Ann Woman's Club shall end Sept. 30.

8. Life Membership shall be limited to 75. Annual Individual memberships shall be limited to 400. The number of Participating Clubs shall be limited to 40. Founder memberships shall be limited to 15.

9. The Treasurer's position shall be bonded with a fidelity bond in the amount as set by the Board of Directors sufficient to cover current revenues.

10. An Annual Individual member who discontinues membership must apply for membership in the usual way if she wishes to be reinstated, and dues as a new member shall be paid.

11. Fees to be charged for rental of club rooms to non-member organizations or individuals, with all food served under the direction of Food Manager, shall be set by the Board of Directors.

12. No fund raising events (by tickets or donations) except for Charity or for the benefit of Martha Ann Woman's Club may be held in the Clubhouse. The Clubhouse may be used by any Participating Club for these purposes with permission of the Board of Directors and such use shall not be counted in the number of meetings allowed in Standing Rule 3.

13. Individual members may present members of their families in Recital without added fee, exclusive of use allowed in Standing Rule 4, and one rehearsal will be permitted.

14. Members wishing to present names for membership shall write a letter to the Membership Chairman giving three endorsees who are members of Martha Ann Woman's Club. Prospective members will be contacted when membership is available. Do not mail check until contacted by Membership Committee.

15. Any Member listed as hostess will be liable for damages of Clubhouse property.

16. No alcoholic beverages shall be served, and no dancing or gambling shall be allowed in the Clubhouse.

NEWS FROM DUNN

By ELWANDA STEWART

Sturdivant-Bond Wedding

An informal ceremony Wednesday, September 12, united in marriage Lue Carolyn Sturdivant and Herman Bond.

Mr. and Mrs. Clyde M. Sturdivant, 316 Thirty-third Street, are the parents of the bride. The bridegroom's parents are Mr. and Mrs. L. H. Bond, Sr., of the Humble Camp.

The double ring ceremony was held in Carlsbad, N. M., with Rev. S. V. Mattson of the First Christian Church performing the rites.

Mrs. Bond was attired in a navy blue suit, with white accessories.

For a wedding trip the couple spent several days in Mexico. They are now at home at 3300 Avenue Y.

The bride is a 1955 graduate of the Snyder High School, was president of the Gay 20 Club, and is now employed by the Southwest-Angelo Junior College for two years. He is now employed at the West Texas State Bank.

TEEN TALK

By SHELBY SMITH

Engagement Announced At Tea Here

An announcement tea was given Saturday morning at 9:30 o'clock in the home of Mrs. Cullen Toombs, 3607 Avenue U. Mrs. J. M. Glass, announced the engagement and approaching marriage of her daughter Emma Louise, to Mr. Delmont Linker, son of Mr. and Mrs. J. A. Linker, Route 5, Lubbock.

The bride's chosen colors of aqua and bronze was carried out in the decorations, throughout the home.

Musical selections were given by Mrs. Ted Norton and daughter Marjorie.

The refreshment table was laid with a white linen cloth, centered with a large display of bronze mums in an aqua bowl.

Out of town guests included: Mrs. Patt Egger, Lubbock, Mrs. Sam Hunnicutt, Mrs. J. S. Norton, Mrs. Harley Carmichael, Mrs. Buford Browning and Mrs. Don Jones of Fluvanna.

Mrs. Carmichael and Mrs. Hunnicutt poured coffee.

The wedding will be solemnized October 27, in the Broadway Church of Christ Chapel in Lubbock.

Miss Glass is a graduate of the Fluvanna High School, attended Abilene Christian College, and is a graduate of the Lubbock Memorial Hospital School of Nursing. Mr. Linker is a graduate of Frenship High School in Wolfforth, Tex. and Texas Technological College, where he received a BBA degree.

MR. AND MRS. J. M. GLASS, 510 Thirty-third Street, announce the engagement of their daughter, Emma Louise, to Mr. Delmont Linker, son of Mr. and Mrs. J. A. Linker, Route 5, Lubbock.

Fluvanna P-TA Has Meeting

The Fluvanna P-TA held their first meeting of the year Monday evening, Sept. 17th, at the school.

General P-TA assembly was preceded by the excutive committee, with 13 officers meeting with the President, Mrs. C. D. Burrow.

Opening the general assembly, the invocation was given, followed by the reading of the minutes of the previous meeting. During the new business session, it was voted to purchase new warmup suits for the boys and girls basketball teams.

A committee consisting of Mrs. Ray Fulford, Mrs. Dee Pylant, and Mrs. L. M. Dawson was appointed to choose room mothers for the year.

The high school girls presented songs, after which refreshments were served in the lunch room.

Choose small fresh green leaves when you're making a fresh spinach salad. Dress with oil, vinegar, sugar, salt and pepper; garnish with hard-cooked eggs.

BUSINESS WOMEN'S WEEK—Snyder Mayor Harold Bennett is shown above signing a proclamation which will designate next week as National Business Women's Week in Snyder, as it is over the nation. Shown looking on are Eunice Weathersbee, Business & Professional Women's Club member, and Ethyl Roberts, B&PW president in Snyder. (Lee Watson photograph)

B&PW Club To Participate In Special Observance

The Snyder Business and Professional Women's Club has completed plans for participating in National Business Women's Week, beginning today and continuing through Sept. 29. Mayor Harold Bennett has issued an official proclamation setting aside the period here for the observance.

During the week, members will attend a series of coffees. On Saturday and Sunday a delegation of some 12 members of the B&PW Club here will go to Abilene to attend the District conference.

Ethel Roberts is president of the B&PW Club and Mollie Pinkerton is public relations chairman.

At the District conference in Abilene local members will participate in the program.

One of the features will be a mock trial during which several imaginary charges will be made against the B&PW organization. Mary Killam of the Snyder club will be a defense witness, and Martha Donald of Snyder will serve on the jury.

During the "trial" a defense will be presented to the following mock charges brought by a new member:

1. The club does not live up to the expectations of the new member.
2. The members are self-centered.
3. New members are left to themselves.
4. Suggestions offered by new members are not accepted by the old members.
5. Extreme lack of cooperation in carrying out projects.
6. Programs not interesting.

The proclamation by Bennett follows: I, Harold Bennett, Mayor of the City of Snyder, Texas, do hereby proclaim Sept. 23, 1956 through Sept. 29, 1956 to be NATIONAL BUSINESS WOMEN'S WEEK. This annual Week, sponsored throughout the United States by The National Federation of Business and Professional Women's Clubs, is set aside to pay tribute to women in business and the professions, and the contribution they make to the nation.

The schedule of coffees for local B&PW Club members during the week: Monday, Mollie Pinkerton, 707 Twenty-eight Street, hostess, 7 a.m.; Tuesday, Minnie Land, 1312 Seventeenth Street, hostess, 7 a.m.; Wednesday, Florence Leftwich, 2411 Thirty-second Street, hostess, 7 a.m.; Thursday, Billie Parks hostess, Manhattan Coffee Shop, 7 a.m.; Friday, Clarice Huff hostess, Manhattan Coffee Shop, 7 a.m.; Saturday, Martha Donald hostess, Manhattan Coffee Shop, 7 a.m.

Hobbs Eighth Grade Picks Class Officers

The Hobbs Eighth Grade class held their election of officers the past week. The class contains six girls, all of which hold an office.

They are as follows: Catharine Martinez, president; Esther Lee Groves, secretary Janiece Cave, treasurer; Betty Jane Hendrix, reporter and Linda Maule, seargent of arms.

The class colors chosen were white and blue, with Mr. W. C. (Coach) Hodges, as home room teacher. Room mothers include Mrs. E. E. Hendrix and Mrs. Dale Cave.

Presbyterian Women Will Meet Tuesday

The regular meeting of the Presbyterian Women's Organization will be held Tuesday afternoon at 2:30 p.m. at the church.

Mrs. Owen Jones will be hostess and have charge of the devotional. The program will be brought by Mrs. Jay Hendren.

Election of officers will be held for the coming year, and all members are urged to attend.

NEWS FROM UNION

By MRS. J. B. ADAMS

Mr. and Mrs. Johnie Langford had as visitors Tuesday, her uncle, Mr. Davis Barrum of Bluffdale, Tex. and Mrs. R. W. West and Mrs. Robert Langford and children of Snyder.

Billy Jack Wilson, who is attending Draughn's Business College at Lubbock, spent the weekend with home folks, Mrs. and Mrs. J. C. Wilson.

Mrs. Loice Young and Tommy of Big Spring visited over the weekend with Mr. and Mrs. Truman Davis.

Visitors this weekend with Mr. and Mrs. Jim Taylor are her parents, Mr. and Mrs. Harry Bloss, and Mrs. Grover Thomas from Oklahoma City, Okla., Mrs. Toney Reed from Carter, Okla., and Mrs. J. D. Thomas and Johnny, from Big Spring.

Mrs. J. B. Adams went to Fort Worth last week for the funeral of her brother's wife, Mrs. Alvin Watson.

The Union Methodist Church group went to the park Wednesday night for a chicken fry. All reported lots of chicken and a good fellowship.

Mr. and Mrs. Jimmy Don Boyd went to Canyon, Tex. Monday where they entered school.

Mrs. I. T. Huckabee and Mrs. Aaron Mitchell attended the preacher's wife retreat at Big Spring this week.

We welcome into the community Mr. and Mrs. Joe Thompson Jr., and boys, who moved here from Ira.

Mr. and Mrs. John Ward and children visited Sunday with relatives in Odessa.

Dixie Lee Kimmel went to Lubbock Monday where she entered school at Texas Tech.

Stir a half cup of grated cheddar cheese into a package of piecrust mix. Use as pastry for green apple pie.

Be Prepared For Serving Your Meals

Tip's to the New Bride.

Make use of prepared foods, mixes and any other aids available in order to concentrate on one or two dishes until you have a familiar repertory.

To avoid a last-minute rush, serve casserole dishes or hearty soups, stews or chowders, all of which are actually improved by reheating.

FOR GUESTS: Prepare only those dishes which you do most easily, no matter howsimply. Rely on attractive garnishing and service to provide the party look. Simplify the service so that there is no suggestion of strain or hurry. Serve no more than two courses, one of which may be prepared in advance or may be merely fruit or crackers and cheese. If you wish to add a first course, it is pleasant to serve consomme or fruit juice from a tray in the living room so that the dining table may be arranged for the main course.

Clever timing is thoughtful timing. At first, write out a timetable, allowing plenty of time for interruptions. Remember that timing for cooking meat is based on having the meat at room temperature when cooking begins.

Be ready for at least one emergency meal by keeping on hand a supply of canned foods and — or frozen foods sufficient for a complete menu. Even if you do not have a freezer, keep a few packages of frozen foods in the storage compartment of your refrigerator. Among the most satisfactory are minute steaks, ground beef, broilers, and prepared dishes.

J. J. Oulette, sitting before his fireplace in Alberta, Canada during a gale storm, heard unusual noises in the chimney. He investigated. It was a wild duck seeking any port in a storm. Oulette released the duck, warm and well fed, two days after the storm had calmed.

MR. AND MRS. RAY TAYLOR, 3110 Fortieth Street, announce the approaching marriage of their daughter, Patricia Ray, to Arnold Wallace, son of Mr. and Mrs. E. E. Wallace, 2112 Twenty-seventh Street. The wedding will be in the home of the groom's parents, Sept. 28.

Common rats carry about 30 diseases dangerous to man and livestock, and destroy about 2 billion dollars worth of grain each year in the U.S.

Horseradish is a natural for roast beef; serve grated fresh horseradish (in a lettuce cup) if you can get it or use the commercially prepared bottled variety.

FOREIGN AND DOMESTIC LINES—The domestic lines of Actress Dorothy Malone are posed against the lines of a foreign sport car in the above photo. The foreign sport car and Dorothy both figure prominently in Universal-International's forthcoming "Written On The Wind," filmed in Technicolor and also starring Rock Hudson, Lauren Bacall and Robert Stack. Dorothy, born in Chicago and raised in Dallas is claimed as a native daughter by both cities.

'Gone With The Wind' Has Competition As Top Seller

By HUGH A. MULLIGAN

OYSTER BAY, N.Y., Sept. 22 (AP)—Is "Gone With the Wind" or "This is Cinerama" the biggest money making movie of all time?

Hollywood, long scorning the Cinerama process as too expensive, too unwieldy and too futuristic, wishes the question had never come up.

How could "This is Cinerama," playing in only 19 theaters in the United States and Canada in less than four years, ever out-gross "Gone With the Wind," which in 17 years has played double and triple runs in thousands of houses?

Does a three-dimensional roller coaster ride have more box office appeal than the burning of Atlanta in color or Clark Gable telling Vivian Leigh that frankly he doesn't give a damn?

The figures are inconclusive. Over the year, "Gone With the Wind" has grossed 33½ million dollars. Backers of "This is Cinerama," the first Cinerama picture, claim a gross of more than 50 million dollars. But Variety magazine, which guages gross in terms of distributor rentals and fees, has adopted an arbitrary rule for "This is Cinerama," cutting its gross figure to 12½ million dollars. Cinerama owns or leases its own houses, thus eliminating all rentals.

But even under the Variety formula, "This is Cinerama" winds up in fourth place among the top money makers, an amazing record for a picture with no plot, no name actors (unless you count globe-trotter Lowell Thomas) and no hope of every playing neighborhood houses.

For screening a Cinerama picture, a theater owner must rip out one-third to one-half of his seats, making room for three projection booths, a control box, a seven-speaker sound system and a huge curved screen, six times the size of a standard movie screen.

Cinerama, the first and still the most realistic of the new screen processes, achieves its illusion of depth and audience participation by approximating the range of the human eye. A camera with three lenses shoots front, left and right side views of a picture, which is flashed on a curved screen by three separate projectors, each filling in a third of the screen.

Cinerama is at its best when the action is fastest—a careening roller coaster, a run-away train, a zooming airplane.

"Why that Cinerama is nothing more than an old-fashioned travelogue played to a seasick audience," huffed one movie mogul who passed up a chance to buy Cinerama stock at 10 cents a share and soon read it on the big board at $7.

With the grossest of the crossers controversy still raging, "This is Cinerama" next week celebrates the fourth anniversary of its smash Broadway premiere, an event that saw a one-time aerial gunnery device make movie history.

Don't Force Music On Kids--Liberace

HOLLYWOOD (AP) — Liberace warns parents don't force your kids to take music lessons.

The pianist believes that compulsion, instead of intelligent psychology, is making music haters out of potentially fine musicians.

Recently a mother knocked on the door of Liberace's Sherman Oaks home. She had her son in tow.

"What am I going to do with this boy?" she asked. "He would rather play baseball than practice the piano."

Ben Hecht Is Producing At Amazing Rate For Hollywood

By BOB THOMAS

HOLLYWOOD (AP) — Ben Hecht, who claims to have lived "under a shower of spears" in recent years, still manages to escape unspeared and continue his amazing literary output.

His current activities:

1. Writing the script of "A Farewell to Arms" for David O. Selznick.

2. Finishing up a movie script on the life of John Paul Jones.

3. Preparing a play on the life of the late poet Max Bodenhein, which will open in Chicago this fall.

4. Re-cutting his Bob Hope-Katharine Hepburn film, "The Iron Petticoat."

5. Getting ready to write a novel at his Oceanside, Calif., home.

I caught him as he was finishing up the Selznick script and asked an impertinent question: Did he think he might have done better in the literary field if he had spread himself less thin?

"No," he said flatly. "I have produced 22 books, 15 plays, 70 screen plays and 400 short stories. I have done the best I can. I think it's better to keep writing than to labor over every word, trying to make it a gem."

Hecht, whose lethargic manner fails to conceal his brilliant wit, declared that he has been bounced out of Hollywood three or four times. He has been one of the town's sharpest critics, yet producers always hire him back.

Early Arrangements For Cinerama Show

Early arrangements for attending the current Cinerama showing of "Seven Wonders of the World" during the State Fair of Texas, Oct. 6-21, were urged this week by the management of the Melba Theatre.

"It is extremely important that our patrons make early plans to attend the Cinerama showing of their choice during their visit in Dallas for the Fair," said John A. Altermann, Jr., managing director of Texas Cinerama Corp.

For the convenience of its patrons, Cinerama honors all major oil company credit cards, air travel and trip-charge cards.

Reservations may be made by calling Riverside 9101, Dallas, or by writing the Melba Theatre, 1913 Elm Street, Dallas.

Elvis Sends Silvana

HOLLYWOOD (AP) — Elvis Presley is international.

Silvana Mangano, the Italian star, disclosed through ain interpreter that the first thing she tried to find out during her recent visit here was where she could hear Elvis sing.

Loosely translated from the Italian her comment was "Elvis sends me."

TURN TABLE–MODEL TV INTO A FINE CONSOLE

By BILL BAKER

How about turning your table-model TV set into a handsome television console?

CUSTOM-BUILT LOOK

Too expensive, you say? Well, on a do-it-yourself basis you can have a professional-looking unit, well-worth several hundred dollars, for a total investment of only a few hours of effort and a few dollars for materials.

Using my pattern package number 144 even the novice woodworker can bring that custom-built look into his home.

Provincial in flavor, the TV console will fit into any furnishing style. In the utra-modern room, for example, the unit bec2omes a perfect accent item.

Your finished console will hold any table-model TV up to a 24-inch set without the need of electrical work. Just slip the set into the cabinet — that's all.

A drawer at the bottom of the console will hold your phonograph.

I said a novice woodworker can take on this project, and it's true. In my pattern package you'll find easy-to-understand directions complete with step-by-step diagrams of progress. A full material list, assembly hints and finishing suggestions are also included.

Like a woman's dress pattern, my pattern package also includes exact-size duplications of each part of the finished unit. Heavy-weight pattern pieces are tacked, traced and then cutting is made easy. You can't go wrong.

Now here's how you can get your pattern package: send your name and address (very clearly printed), together with only one dollar, ($1) in check, cash or money order, to Bill Baker, (Snyder Daily News), P. O. Box 1111, Los Angeles 53, California. Be sure to ask for pattern package number 144.

(Copyright 1956, Mirror Enterprises Co., Los Angeles, California)

The upland Indians of Peru, Bolivia, and Equador chew stalks of the quinoa plant and coca leaves to reduce hunger and fatugue on journeys.

Report Given On Girl State

The Art Guild Study Club met Sept. 18 at 7:30 p.m. in Mary Lynn's Tea room for their regular meting.

The meeting was conducted by Mrs. Silas Devenport, president. Miss Katherine Northcutt, the program leader, gave an introduction talk on the constitution, state and national.

Mrs. Elmo Crowder, a representative of the American Legion Auxiliary, was innroduced by Miss Northcutt. Mrs. Crowder spoke on the purpose of girl state. Miss Clinta Blackard, who attended the girl state last year, gave a report of what girl state meant to her, both educationally and socially. Keith McCormick, a delegate of the boy state last year, also gave an interesting report.

A dessert plate was erved to the 19 members and guests present.

The declaration of Independence was first read to George Washington in New York in 1776 after being sent by courier from Philadelphia.

Frogs About To Take Over

TAMPA, Fla. (AP) — Several months ago Robert, a generous cat, allowed Oscar, a hungry frog, to share a plate of hamburger.

Robert didn't know what he was getting in for. Oscar continued to come around to the home of William Harrell to take pot luck with Robert.

Now grown fat and sassy on cat food, the frog has brought a crop of young ones.

At mealtime the frogs line up on the back steps until the food appears. And Oscar isn't above dealing Robert a thumping kick with his strong legs if the cat gets in the way.

Italian Earthquake

FOGGIA, Italy, Sept. 22 (AP)—A series of sharp earthquakes rocked southeast Italy early today. No casualties were reported.

LEGAL NOTICE

TO: Marie Boatenhamer

GREETING:

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 29th day of October, A. D., 1956, at or before 10 o'clock A. M. before the Honorable district Court of Scurry County at the Court House in Snyder, Texas.

Said plaintiff's petition was filed on the 3rd day of July, 1956.

The file number of said suit being No. 6986.

The names of the parties in said suit are: J. D. Boatenhamer as Plaintiff, and Marie Boatenhamer as Defendant.

The nature of said suit being substantially as follows, to wit: Divorce.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 11th day of September A. D., 1956.

Given under my hand and seal of said Court, at office in Snyder, Texas, this the 11th day of September A. D., 1956.

TWO OTHER COLORS ON THE OUTSIDE—PAPER IS GOLD CURRENCY.

The Legend of the Rose

Yseult, the little sister of Alrois, a shepherd, was sad because she had no gift to present to the Christ Child.

Disheartened, she decided to leave the multitudes in the village and return to her sheep on the hillside. Yet, before she had gone far, an angel garbed in light stood before her and asked: "Why do you sorrow when all others are glad?" And Yseult answered: "My heart is heavy because I might carry no joy to the Babe of Bethlehem." Then the angel waved a lily over the fields and suddenly they were abloom with Christmas roses. And Yseult, kneeling down joyfully, picked the most beautiful rose and hastened back to the village.

Meanwhile, the train of the Maja kings, with its dromedaries and treasure-chests, its bodyguards and pages, had reached its destination.

Impressive gifts were being showered upon the Christ Child. Melchoir the Nubian brought apples of gold signifying "delections of love" and royal dignity, a token of the sin of Paradise which made His coming necessary.

Caspar of Tarsus offered the precipus "Black Myrrh" of the balsamodernaron tree, symbol of the suffering and death to come.

Ballasar of Godolia presented frankincense, embodying the thought of the sacrifice, the orison or prayer "of the soul right devout" and the divine nature of the Babe, completing the human element typified by the myrrh.

And so the kings paid homage with their rich gifts, more precious still because of their symbolic promise. However, the glance of the Christ Child had strayed to the door, where Yseult the little shepherdess had just entered with the beautiful Christmas rose in her hand. And the Holy One forgot the costly gifts of the Maji, and while the golden apple slipped from his grasp, reached forth his tiny hands for the blossom. He smiled as Yseult placed the rose between his fingers.

CLASSROOM TEACHERS EAT—A fellowship barbecue supper was held by the members of the Classroom Teachers Association in the exhibit building of Towle Memorial Park Thursday night at 7:00 o'clock. The teachers and their guests are shown above starting through the "chow" line. It was the first school-wide activity of the CTA for this school term. (Lee Watson photograph)

CLASS GRADUATION exercises for the Junior Sunday School class at the First Baptist Church were held in conjunction with a banquet last week. The banquet also welcomed the new juniors into the class, Mrs. E. N. Baker, one of the leaders, said. (Lee Watson photograph)

NEWS FROM CANYON

By MRS. MARGARET RILEY

Hylan Blair of Fluvanna ate Sunday dinner with Mr. and Mrs. Leslie Boatman and family.

Mrs. Clint McCowan of Snyder attended services at the Canyon Baptist Church Sunday.

Mr. and Mrs. Don McElmoye and sons of Tulaire, Cal., and Mr. and Mrs. Walter Sumruld of Snyder, visited Mr. and Mrs. Alton Sumruld and sons Wednesday night. Mrs. McElmoye is a niece to Alton Sumruld.

Jim Duran has returned to his home in Temple after visiting several days with Mr. and Mrs. L. F. Stirling.

Sam Martin made a business trip to Abilene last week. While there he visited several of his nieces and nephews; Mr. and Mrs. Leroy Martin and family, Mrs. Z. M. Sumpter and family; Mrs. Eula Morgan and family; and H. Don Rogers and family. He also visited the H. J. Martin family in Merkel.

The Rev. Henry Ridings of San Angelo was a dinner guest in the home of Mrs. J. S. Golden Sunday.

Coal Mine Fire

MARCINELLE, Belgium, Sept. 22 (AP)—A new fire broke out today in the Bois du Cazier coal mine but officials said the few workers underground at the time returned safely to the surface with no one injured. The mine was the site of a catastrophe Aug. 8, when 262 men were killed.

11 Persons Killed

CAIRO, Sept. 22 (AP)—Reports today said 11 persons were killed and 50 injured Thursday night when a truck drove through a big gathering observing a festival at Abu Seri, 50 miles south of Cairo. The crowd threatened to lynch the truck driver but he was rescued.

The word "circus" comes from the Latin word meaning a circular arena.

Grid Player Killed

KILLEEN, Sept. 22 (AP)—Richard James, 18, a football player on the Killeen High School team, was killed early today in a one-car collision about 14 miles south of here. Don Gibbs of Killeen received minor injuries.

The surface of the Dead Sea is 1,286 feet below the level of the Mediterranean Sea.

"Hocus-Pocus"

An incantation used for centuries against many diseases, this expression was supposed to drive illness from the body and restore health.

The human body is the finest machine ever created. There is no hocus-pocus in its function. Proper care and physical examination at least once a year may add years to your life. Let us serve you when medication is needed.
