Seven Persons Injured In Head On Collision

A grinding two car collision at 4:05 p. m. 2.4 miles south of the city limits on Hwy. 168 left seven people injured or in state of shock and at least one car demolished, according to Bill Angel, investigating patrolman.

Angel stated that Mrs. Barbara Huckabee of Littlefield was driving south at the wheel of a 1966 Ford. Passengers in the car were her husband, Gary Wayne Huckabee and two small children, Connie Elaine, 36 months, and John Howard, 23 months old.

Traveling north in a 1970 Cadillac was Mrs. Patsy Grimes also of Littlefield. Passengers in her car were Tim, age six, and Mrs. Ann Grimes, 66.

According to the patrolman Mrs. Huckabee pulled out to pass a school bus, neither was traveling at a fast rate of speed, the bus was in motion.

As each driver observed the other, each pulled toward the east side of the road and collided in the ditch.

Hospitalized with a broken ankle was the Huckabee boy. His older sister, Connie, was treated for head injury but released. Huckabee was hospitalized also suffering a broken bone in his right leg or foot, bruises and abrasions. Mrs. Huckabee was treated for bruises and abrasions, and Angel stated that she appeared to be in shock.

Patsy Grimes, 36, suffered broken ribs and cuts. Mrs. Ann Grimes was carried to Methodist Hospital by Parsons Ambulance. Superficial examinations indicated possible chest injury, leg injury and broken facial bones.

At press time the full extent of Mrs. Grimes injuries were not known. Her son, James Grimes speaking from the hospital, stated that he felt "for the type of involvement, we are extremely fortunate that it was not more severe." He also added that his son, Tim, was almost unscratched, asking only for a band-aid for his elbow.

SCENE OF TWO CAR COLLISION -- Gary Huckabee, his wife and two children were passengers in the car pictured in the foreground and Mrs. James Grimes, her son and mother-in-law, Ann were passengers in the other auto. They all suffered injuries in the mishap which occurred south of Olton Wednesday afternoon.

Olton Annual Livestock Sale Receipts Net Exhibitors Higher Prices This Year

Sale wise the 1972 FFA, FFA and 4-H Livestock Show was the best ever - at least for recent years. Smaller in entries by almost 60 animals from the 1971 show, the total sales this year amounted to \$13,049.99.

The 27th annual show was dedicated to Tom McGill, David Howton and Brent Burrow, a former resident now living in Amarillo. Archie May was honored by members of the 4-H organization.

Gale Long swept the big honors in the steer show, exhibiting both the Grand Champion and Reserve Grand Champion. His lightweight Hereford entry was first in the lightweight steer class and went on to become the top steer of the show.

Olton Feedyards purchased the 839 lb. champ steer for 95 cents per pound. The reserve grand was sold to Olton State Bank for 59 cents per pound.

Grand Champion of the swine show was a lightweight cross-bred shown by Marlos May. Steve Kennedy exhibited the Reserve Grand Champion, a heavyweight Duroc.

The swine champion was purchased by Leon's Grocery at \$1.50 per pound, topping last year's record setting \$1.25.

High Plains Seed paid 95 cents for the reserve champion.

May also exhibited the Grand Champion gilt, a Hampshire entry. A Duroc, shown by Steve Kennedy, was named Reserve Champion.

A family tradition was continued when Sharissa Hamby's Hampshire lamb was named Grand Champion in the lamb show. The 4-H exhibitor's parents, Mr. and Mrs. Punk Hamby, won championships in 1956 and 1960, respectively.

Marlos May's heavyweight Hampshire entry took the Reserve Championship. Two dollars per pound was the purchase price Olton State Bank paid for the champion lamb. Don's Super Market bought the reserve champion for \$1.35.

Resale buyer for the steers was Ranchers & Farmers Commission of Lubbock who paid \$37.70; swine, Lamb County Hog & Cattle Market, \$27.70 and sheep, Nafzger and Machen, \$29.90.

Marlos May was named the recipient of the Outstanding Exhibitor award. His trophy was donated by Raymond Lewis.

Showmanship awards were won by Gale Long, steers; Robert Cooper, swine and Chuck Kennedy, sheep.

Clean Pen honors were earned by Bryan Sullivan, steers; Juan Garza, swine and Rodney Smith, sheep.

School Board Of Trustees Call For Election April 1

In a busy session Monday night, the board of trustees of Olton Independent School District approved the school calendar for 1972-73, approved a handbook for elementary and junior high, called an election, heard reports from the superintendent, accepted one resignation and employed a bus foreman.

An election for the selection of three trustees has been called for April 1. The three board members whose terms expire are Uil Gunter, Elmo Bryant and Royce Collins. All three filed for re-election. Final date for filing for the posts is March 1.

Period of absentee voting is from March 12 to March 28. Absentee clerk will be Doris Watt, with assistant clerk being Edna Price. Absentee votes may be cast in the school business office.

Election judge for the April 1 election to be held in the H. P. Webb elementary foyer is Sue Cannon. Alternate is Elmer Moore.

Lloyd Blackwell offered a letter of resignation as bus foreman. He and his wife have moved to Canyon.

Hired to replace Blackwell was Ollie Ross, who has been a mechanic at Gray's Garage for the past seven years. His salary was set at \$600 per month.

Approval of a handbook setting out certain rules and regulations for students in kindergarten through eighth grade was given by the board. The text is similar to the handbook distributed to high school students.

Adoption of the proposed

school calendar was made by the board, with school to begin Aug. 23. Christmas vacation will begin Dec. 22 and students will not return to school until Jan. 8. School will end May 23. Easter holidays will be from April 20-24, with graduation set May 25.

In hearing reports from Superintendent Joe Turner, the board was told that enrollment was down 29 students from last month, for a total of 986.

In order to keep the class AA rating, the system must maintain an average daily attendance of 988. Supt. Turner said that he felt like more students would be moving into the area and that the school would in all probability keep the AA rating.

Reporting on the delinquent taxes which have been turned over to an attorney for collection, Turner stated that a few had been collected and other taxpayers had made arrangements to begin payments on theirs.

In final action, the board appointed Police Chief Ped Hunt as school truant officer. (See story this page.)

City officers, working with Lamb County officers, have recovered some of the stolen property including tool boxes with tools, other assorted tools, clothes, a tape player, tapes, portable radio, heater, floor mats and three rifles.

Parents of youngsters 16 and under are urged to see that their children are enrolled and attending classes. Parents, who fail to observe the law, are subject to arrest and may be fined.

Small Town America

A syndicated news release last week traced the travels of an inquiring couple who journeyed 20,000 miles in a period of four months, seeking the "safest places to live in the United States."

Their report revealed that "small town America" bore up well under their scrutiny and offers the best haven for today's citizens to live, enjoy life and rear children. David and Holly Franke began their selections by looking over FBI crime reports, and checking statistics on the seven categories of felonies - murder, forcible rape, aggravated assault, auto theft, larceny \$50 and over and burglary. They soon eliminated big cities and metropolitan areas from their list.

The Franks concluded that, even in 1972, Americans can live relatively free of fear of crime, and in surroundings where pollution and other latter-day evils are at a minimum... "in small towns across America."

So, here we are, in one of the choice spots in these United States and we left it to a couple of statisticians to point it out to us.

Now that we know it, maybe we ought to safeguard this heritage. Maybe we ought to appreciate each other more, and show it through genuine friendliness up and down our streets.

Maybe we ought to speak a word of encouragement to the City Fathers who manage our town's affairs. Last week's paper reported they are faced with a multitude of PROBLEMS. Maybe we ought even to offer our support and help in some area. Surely for the privilege of living in one of the safest places in today's turmoil, Mr. and Mrs. Olton, we ought, each of us, pledge ourselves to the task of making our small town even better.

A clean-up campaign could be a good beginning. Soon spring will be in the air and so will a multitude of papers and much of the litter now lying on our streets, alleys and vacant lots.

Individual effort could go a long way toward making our small town not only the safest...but the cleanest place to live.

MRS. DORIS WATT

Cook Of The Week

Olton has been home for our Cook of the Week, Doris Watt, for as long as she can remember. Her parents moved here from Burnett when she was a toddler.

Doris is employed as a tax clerk for Olton schools. Before going to work for the school from which she graduated, she worked in the office of the Community Hospital and Clinic.

Mother of two sons, Doris is especially interested in the activities of her two sons, Mark and Tim. Mark is an eighth grader at Olton Junior High; Tim is in the fifth grade. Both boys participate in the summer baseball program and their mother is a faithful supporter.

Doris enjoys sports as both a spectator and a participant. Last summer she and her sons took up tennis for the first time. She confesses they did not become very proficient but thoroughly enjoyed the new interest.

Reading is another of her hobbies but like most working mothers, she doesn't find much time for that pleasure.

A member of the First Baptist Church, Doris works with third grade boys and girls in Sunday School. She finds third graders fun to work with because "they are old enough to learn and young enough to be eagerly interested."

Doris likes to collect recipes, admitting she has many that she'll probably never get around to trying. She says she

gets favorites from relatives, too, and explains that two of the ones she shares are from her twin sister, Mrs. Dorothy James of Wichita Falls.

We're putting our money where your mouth is.

A lot of people have been shooting at the telephone companies these days.

And, in truth, we've had our hands full keeping up with the zooming demand for increased phone service.

But General Telephone and, in all fairness, the other phone companies haven't been sitting around counting times.

For some time now, we've been paying a healthy "phone bill" ourselves trying to make our service do everything you expect of it. And a few things you don't expect.

During the next five years we'll be spending millions of dollars in the areas we serve upgrading and expanding every phase of our phone operation. From laying underground cables (an important, if invisible area) to customer contact service (an equally important, but highly visible area).

But no matter how much we spend on equipment and expansion, it's what we do for you in your home or business that counts.

Ladies and gentlemen, we're working as fast as brains, manpower and money can combine to make our service as efficient as possible.

Science Of Chiropractic

Chiropractic is a philosophy, science and art of things natural. It was discovered some 75 years ago by D. D. Palmer. It was a new concept in the art of healing based on the mechanical and physical approach to a disease. This discovery brought about untold changes in treatment. It has now become the second largest healing profession in the world. The Chiropractor with the use of X-Ray can find and adjust spinal subluxations in order

that those trunk nerves may be free from pressure.

Chiropractic has today over 30 thousand doctors in the field treating approximately 50 million people. The patients with the success of chiropractic itself have definitely established the merits of this profession.

Dr. C. L. Goodpasture is located at 1538 American Blvd. in Muleshoe, phone 272-3967 or 2105 Oxford in Lubbock, phone 799-7683.

Happy days are here for sure when your cotton makes a stand. Seedling rot... damping off... sore shin... Rhizoctonia... Pythium... Fusarium... they're all controlled by Terraclor Super-X soil fungicide. No need to let these killers cloud your rainbow. For even when the weather's wet and cold, Terraclor Super-X gives your seedlings a fighting chance for a profitable stand. Terraclor Super-X is applied in the furrow as you plant. Cotton seed, emerging roots and stems

are protected. Killer fungi are held off to help you get a vigorous, healthy stand.

Terraclor Super-X is available in granular, liquid, or dust forms. Most popular is the granule form impregnated with DiSyston® soil systemic insecticide. Once over as you plant takes care of both the fungi and early season insects.

When does a baby start to think?

Nobody knows, but thoughts come by association. Baby eagerly responds to the sight of a bottle. Experience proves that the bottle offers both satisfaction and comfort.

Because baby does learn by association, it is important that parents expand their children's horizons. A very small child will respond to a simple prayer. And a child of three will enjoy attending Church School geared for youngsters of that age.

Religious instruction and guidance is not only for the mature—it is needed regularly by everyone. The spiritual life of your child needs constant cultivation and the mind needs day by day development.

The poem this week is:

Who Can I Turn to When Nobody Needs Me

Who can I turn to when nobody needs me?

My heart wants to know and so I must go where destiny leads me.

With no star to guide me, and no one beside me,

I'll go on my way and after the day,

The darkness will hide me. And maybe tomorrow I'll find what I'm after

I'll throw off my sorrow, beg, steal or borrow my share of laughter.

With you I could learn to, with you on a new day,

But who can I turn to if you turn away?

Maybe we do live in the super-sonic age, but science still hasn't invented anything that goes faster than a two week vacation off from school.

While his family is away for two weeks, my friend fights loneliness by pretending he isn't alone. Whenever the phone rings, he yells "I'll get it".

One fellow to another - "Watch out, she's the type who kisses hello and shakes hands good night."

One neighbor to another - "My garden is a little jewel-l4 carrots."

Teenage girl to friend - "He's at the awkward age - he likes to park but he doesn't know why."

Motorcycle policeman alongside speeding driver - "I'm only doing 75, how much are you only doing?"

Woman to doctor -- Before I accept your diagnosis, I'd like to consult another patient.

That's it for next week. Everyone be careful, until then be good. Hope every one did ok on all their tests.

TAX NEWS

NEVER FILE A TAX RETURN AGAIN?

Would you like to ignore the April 17th deadline for Federal income tax returns?

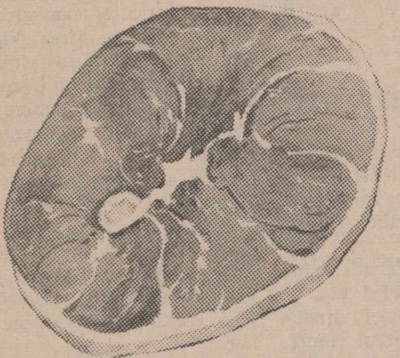

Who wouldn't? And, according to H & R Block, America's Largest Tax Service, many Americans - who in previous years had to worry their way through the last few days of the tax filing season, may no longer be required to file an income tax return.

The reason? The 1969 Tax Reform Act which brought about the most far-reaching changes in our Federal tax laws in recent years, has changed many of the basic requirements for filing a tax return. In prior years, anyone who had \$600 or more gross taxable income (\$1200 if 65 or over) was required to file a tax return, even if it was known that there would be no tax liability.

Under the new law, if you are a single person, you do not have to file a tax return if your gross income is less than \$1700; if you are single and over 65, the amount is \$2300; a married couple filing jointly, \$2300; a married couple with one spouse over 65, \$2900; and a married couple with both over 65, \$3500.

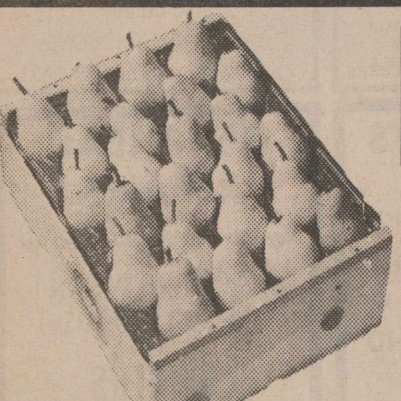

Some of the rules still prevail, however. If you have self-employment income of \$400 or more, you must file a return in order to pay your self-employment (Social Security) tax. If you are a married person filing separately, you must file a return if your gross taxable income exceeds \$600.

H & R Block goes on to point out that even though you may not be required to file a return because of the new filing requirements, you will still want to file in order to get a refund of tax withheld from your pay. If you have any doubts about whether or not to file, you'd be wise to seek professional help.

Annual Banquet Slated In February

The annual Chamber of Commerce and Agriculture banquet has been scheduled for Monday, Feb. 21 at 7:30 p. m. in the school cafeteria, according to Gene Trotter, president.

Tickets are available at the C-CA office for \$3.50 per person. They may also be purchased at the door but everyone is encouraged to purchase

them earlier because of meal preparations.

Guest speaker for the occasion will be Don Newbury of Fort Worth.

Newbury, a professional humorist and after dinner speaker for the past several years, has spent more than a decade in college public relations. Earlier, he was sports director

of a radio station, sports editor of a daily newspaper and a newspaper correspondent during his years of undergraduate study at Howard Payne College.

He was Assistant Director of College Information at Howard Payne for two years following graduation there, and then spent four years as Di-

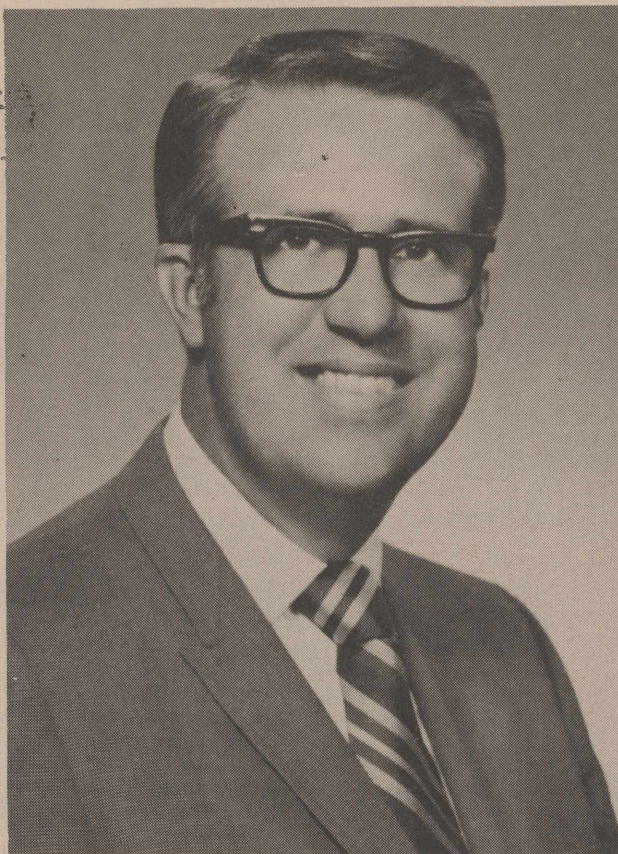

rector of College Information and Instructor of Journalism at Sul Ross State University. During his tenure at HPC and SRSU, he also was publicist for the Lone Star Athletic Conference.

Since 1967, he has been Director of Community Relations at Tarrant County Junior College District in Fort Worth.

Holder of the B. A. Degree from Howard Payne and the Master of Journalism Degree from the University at Texas at Austin, Newbury is now completing course work for the Ph. D. Degree at North Texas State University in Denton.

A member of numerous civic and professional groups, Newbury was a finalist in the Fort Worth Jaycees' "outstanding young man of Fort Worth" honors program in 1968.

He is married to the former Brenda Pack of Alpine. They have one daughter, Julie Anna, born in 1970.

Our Kind Of Town

If you want to live in the kind of a town

Like the kind of a town you like,

You needn't pack your clothes

And start on a long, long hike.

You'll only find what you left behind,

For there's nothing that's really new;

It's a knock at yourself, when you knock the town.

It isn't the town - it's you. Real towns are not made by men afraid

Lest someone else gets ahead;

When everyone works and

nobody shirks,

You can raise a town from the dead;

And if while you make your personal stake,

Your neighbor can make one too.

Your town will be what you want it to be;

It isn't the town - it's you.

My County

"My County is the place where my home is found, where my business is situated and where my vote is cast. It is where my children are educated, where my neighbors dwell, and where my life is chiefly lived. It is the home spot for me.

"My County has the right to my civic loyalty. It supports me and I should support it.

"My County wants my citizenship, not my partisanship;

my friendliness, not my dissension; my sympathy, not my criticism; my intelligence, not my independence.

"My County supplies me with protection, trade, friends, education, schools, churches and the right to free moral citizenship. It has some things that are better than others; the best things I should seek to make better; the worst things I should help to suppress.

"Take it all-in-all, it is My County and it is entitled to the best there is in me."

KEEP TRYING

Be not concerned nor be surprised

If what you do is criticized. There's always folks who usually can

Find some fault with every plan.

Mistakes are made, we cannot deny

But only made by folks who try.
