RUMORS OF REVOLT

Serious Disaffections Are Reported From Southern Republic

SAN ANTONIO, Tex., Nov. 11. (AP)—Rumblings of serious disaffections in Mexico reached San Antonio Thursday and reports of disturbances have given credence in authoritative Mexican sources. A number of persons prominent in launching the Madera revolution from San Antonio on November 10, 1914, said Thursday that General Juan Gallo, who recently resigned from the Calles army to now actively engaged in leading a military uprising in the border state of Guajarquato. Juan C. Helden, San Antonio attorney who was personal attorney for President Francisco Madera, and has long been closely identified with local Mexican interests said Thursday that General Gallo's activities no doubt had direct connection with former President Alvarez Obregon.

AUSTIN OUTPLAYS WACO HIGH SCHOOL BUT LOSES

WACO, Nov. 11. (AP)—The Austin school Maroons defeated by the Waco high Tigers 6 to 0 here this evening after the Maroons had outplayed the Tigers and stopped the much-heralded running attack of the Waco backfield. Mason hoist two field goals early in the game to account for their six points.

BROWNWOOD 6; COMANCHE 0

BROWNWOOD, Texas, Nov. 11. (AP)—For the first time in four years, Brownwood high defeated Comanche high 6 to 0 here today. Fanning played through the "injury" line in the first period for the night.

CUTS ARM ON RAZOR

BLADE STUCK IN WALL

E. T. H. Oxford, 1815 Thirteenth street, an employee of the St. Clair Oil company, received a severe eye across his forehead Wednesday night about eight o'clock at his home, while running his arm across the wall looking for an electric light switch, striking his arm against a safety razor blade that was stuck in the wall with the sharp edge exposed.

LOSES THREE FINGERS AFTER GIN ACCIDENT

Mr. D'Arce was brought to a local hospital where examination showed he was necessary to amputate three fingers of the right hand. It is reported that the right hand is reported resting easy.

Two Hundred "Orphan Indians" of Texas Get Attention of Club Women, Who Demand Money to Buy Them Land

DALLAS, Tex., Nov. 11. (AP)—The "orphan" Indians of Texas received the attention here today of the Texas Federation of Women's Clubs in their annual convention, while gasoline-filling stations, corner grocery stores and clothing establishments which invade residential districts were closed. The tribe of 200 Alabama Indians in Polk county near Livingston said to have been almost neglected by the state and federal governments, was the subject of a resolution here. The passage of a bill by congress in appropriation \$125,000 for the purchase of land and agricultural equipment for the red men. A resolution advocating sending the Texas cities to prevent "the invasion" of residential districts by gasoline-filling stations, corner grocery stores, meat markets, garages, clothing establishments and factories, was unanimously adopted.

A resolution by Mrs. Ben H. Pugh of Austin and Mrs. L. A. White of Amarillo, petitioning the next legislature to accept title to 32 state parks aggregating 20,000 acres, was passed. The parks sites have been located by the state and are now held in trust by the state park board. The resolution also named the legislature to give "unimpaired" attention to the further acquisition of such desirable park acreage as Palo Verde canyon, Davis mountain and Caddo Lake.

Mr. and Mrs. C. N. Baker of Leavenworth were visiting in Lubbock yesterday.

Dr. and Mrs. McNeely of Memphis, Texas, were visiting their son, Holmes McNeely, who is a student in Tech, Thursday.

Make Cooking a Pleasure Expert Urges Mrs. Ida Chittwood to Show Lubbock How

Have you ever been taught to make cooking a pleasure? Have you ever been taught to make the art of cooking as intriguing as other arts become to those who master them? A musician reaches the heights of joy or creation when he plays well a beautiful piece of music. Have you ever reached such heights from a well made cake? Has the baking of a delicious pie, the art of fashioning or decorating a cake ever given you sheer joy? Do you thrill with pride over this?

If you have missed all this, don't do it any longer. Attend the free cooking school to be staged here from Monday, November 15 to Friday, November 19, inclusive, under the auspices of the *Avalanche-Journal* for your particular benefit and learn to make pies and pastries with the same amount of joy that poets compose poems.

The *Avalanche-Journal* has engaged Mrs. Ida Chittwood, culinary artist of national renown to conduct a week cooking school here. Mrs. Chittwood who is a national authority on cooking and baking, will give lectures and demonstrations each afternoon from two to four. Mrs. Chittwood will doubtless amaze the women of this vicinity with the contributions she is able to make in one short week, to that greatest of all institutions—the home. The problems that Mrs. Chittwood will discuss will be those that are daily encountered in the home.

Her solutions are practical and based upon economy and sanity. The saving that the housewife will be able to accomplish by attendance at the school and receiving the scientific and modern ideas, will more than repay her for the time spent there. How to use left-overs to the best advantage and how to purchase will be shown by Mrs. Chittwood.

The lectures will cover the entire range of domestic economy applicable to the kitchen and dining room, home economics, table preparations, the arrangement of menus, the actual economy, food values, how to buy economically with regard to quality, etc. After each short lecture, Mrs. Chittwood will give practical demonstrations and each woman in attendance will be given the opportunity of taking notes of recipes and process of preparation. New suggestions, new recipes, new dishes and many new ideas on the kitchen and home will be presented. Here the young housewife will be taught many valuable things and the experienced housewife will also find a store of knowledge awaiting her. No longer need she tire of cooking "the same old thing."

Mrs. Chittwood became widely known in the South during the war through her connection with the food administration. She is a graduate of the Domestic Science Department of several eastern colleges and has taken post graduate work at the famous Boston school of cookery. She has made a specialty of household economics and has a wealth of knowledge calculated to aid the housewife in the efficient management of her home budget, the work of the kitchen and the protection of the health of the members of her family by provision of properly planned diet.

A model kitchen will be installed for the use of Mrs. Chittwood where the preparation of meals will be demonstrated. Mrs. Chittwood will preside over the kitchen, presenting her subjects to the women most graphically and interestingly and in a manner that will be easily understood.

Women are requested to bring pencil and notebooks.

D. H. McCurdy of Crosbyton, was a visitor here yesterday for the Armistice Day celebrations.

Herman A. Lyle, cashier of the First National bank of Sudan, was a visitor here yesterday and attended the American Legion meeting.

J. M. Whitman of Haskell, was a business visitor in Lubbock Thursday.

Miss Madeline Simpson, student of A. C. C. visited with her parents here yesterday, Mr. and Mrs. L. H. Simpson, 1302 Avenue M.

WORLD TO

NEW YORK
World has fallen \$210,000,000 of its exports international for the world's accountants' foreign trade.

Due to the war, which has caused the trade of the world's exports to a 1913 basis, the 1913 value of the figure was 1913 buying power to \$19,950,000.

The amount would have been war was received from 1900 to 1913 per cent. To meet the war, it is said, created its own years the advanced ten per cent rate, however, years to make lost.

Even this cost almost 22 per cent since 1913 and gain of all nations acquired, is still 900 behind the have had if the uninterrupted.

The accounts shake up in 19 power among the Europe now of the world's a pre-war 52 per cent as an ash speaking N on by forty per America and the cent and South cent.

Asia's increase 1.2 per cent. Its exports by 4 rics by 16 per

WORLD JUST GOT BACK LAST YEAR TO EXPORT TRADE BASIS OF 1913 GREAT WAR DISRUPTED COMMERCE

NEW YORK, Nov. 11 (AP)—The world has fallen short by more than \$210,000,000 of the total of merchandise exports it would have added to international trade if it had not been for the world war, according to estimates contained in an "Armistice day accounting" issued by the national foreign trade council.

Due to the "economic dislocation" caused by the war, says the accounting, which is based on the foreign trade of seventy nations which do more than ninety per cent of the world's export trade, the world only succeeded last year in getting back to a 1913 basis for the first time since the war.

The nation had an export trade in 1913 valued at \$19,420,000,000 last year the figure was \$28,970,000,000, but at 1913 buying power this amounts only to \$19,950,000,000.

The amount of world trade there would have been if there had been no war was reversed by the rate of advance from 1900 to 1913 which amounted to 6 1-2 per cent annually.

To meet the set back caused by the war, it is said, world trade has accelerated its pace and for the past three years the advance has been more than ten per cent annually. Even at this rate, however, it will take thirty years to make up for what has been lost.

Even this country which has gained almost 22 per cent in real exports since 1913 and has made the greatest gain of all nations in volume of trade acquired, is still more than \$2,000,000,000 behind the pre-war gain it would have had if the pre-war gain had been uninterrupted.

The accounting records a distinct shake up in 1913 alignments of trade power among the seventy nations.

Europe now holds but 49 per cent of the world's export trade as against a pre-war 62 per cent. As Europe has shrunk as an export continent English speaking North America has risen by forty per cent; Latin North America and the West Indies by 52 per cent and South America by 5 per cent.

Asia's increase is greatest of all, 52 1-2 per cent. Australia has expanded its exports by 45 1-2 per cent and Africa by 16 per cent.

BARBERS PLAN TO BOOST SHAVING

"LOOK-YOUR-BEST WEEK" PLAN OF TONSORIAL EXPERTS OF NATION

DES MOINES, Ia., Nov. 11 (AP)—A "look your best week" is to be the vehicle through which the master barbers of America hope to impress men with the thought that proper grooming pays big dividends.

During this week, to be designated later by officers of the associated master barbers of America, every man will be required to get a hair cut, massage and shampoo. Free service will be dispensed for those who lack means but have the "look well" spirit.

Anthony Panasi is chairman of the committee that will decide which season is best suited for this drive against shaggy locks and what the standards of the well groomed man should be. The master barbers also have officially frowned upon the tipping practice, but left the first step toward elimination of honorariums to the journeymen since they profit most as individuals.

The barbers re-elected all present officers and chose Detroit as their 1927 convention city.

SLATON HAS COP TO CATCH SPEEDERS

NEW PAVING BRINGS TRAFFIC TROUBLE WITH IT, CITY COMMISSION FINDS

(Special to The Avalanche)

SLATON, Tex., Nov. 11 (AP)—Since the completion of several blocks of street paving in the business section of the city traffic problems have increased multitudinously over night. Speeding has become prevalent and wrong turns and wrong parking have added to the problems facing the city government in enforcing traffic regulations.

To meet the new situation the city commission has employed a motorcycle officer, J. B. Rickles, who will patrol the streets regularly to see that motorists who disregard the regulations are officially and forcefully reminded of their violations.

Slaton's rapid growth, coupled with the fact that we now have several blocks of newly finished paving, has brought us face to face with the question of handling an entirely new set of traffic problems, said Mayor W. H. McKinnon. "It is not our intention to be unreasonable, but on the other hand, to encourage the exercise of reason on the part of the car drivers, and use every possible means of making the streets safe for vehicles and pedestrians alike," he added.

Kansas Beats Sooners 10 to 9

LAWRENCE, Kans., Nov. 11 (AP)—The University of Kansas football team turned back from the path in its travels in Missouri valley affairs with this season and scored a surprise by defeating the Oklahoma Sooners 10 to 9 in the game at Stadium field here this evening.

The game was getting to be a matter of minutes when a 40 yard pass from Hill to Starr carried the ball to Oklahoma's 29 yard line and Starr's plunge added seven yards more. Then tackle went in for Thornhill and kicked from placement the three points that dashed Oklahoma's hopes and gave Kansas a surprise victory.

OUR BOARDING HOUSE

By Ahern

TOTAL CROP PRODUCTION FOR YEAR IS NEARLY THREE PERCENT GREATER THAN LAST YEAR; ABOVE AVERAGE

WASHINGTON, Nov. 11 (AP)—With the harvest practically all made, the department of agriculture, summarizing up the season's results today in its November crop report, announced that total production of all crops appears to be 2.5 per cent greater than last year, and 2.3 per cent above the average production during the last five years.

For the country as a whole, October weather was favorable for late crops, and as a result corn, cotton, apples, potatoes and tobacco are all running somewhat above the earlier expectations. Corn gained 14,000,000 bushels during the month and a crop of 2,692,530,000 bushels was announced as the preliminary estimate.

That was 211,000,000 bushels or 7 per cent less than last year. The total farm supply of corn, including both the 1928 crop and the 181,000,000 bushels carryover from last year's crop was approximately 3 per cent less than a year ago. The quality of this year's crop was low, only 72.6 per cent being merchantable quality. This was ascribed to too much rain in some states, drought in the western portion of the belt and some frost damage.

Production of potatoes was somewhat above indications of a month ago but the crop was small one with 280,727,000 bushels, due chiefly to the smaller acreage in twenty years, with the single exception of last season.

Apples also improved during October and a crop of 246,542,000 bushels was announced. That is the second largest production on record, being exceeded only by that of 1914.

Alexander K. Gies, Detroit's assistant prosecutor, believes the hub cap of a wrecked automobile which serves as ash tray on his desk has a good psychological effect on accident witnesses whom he questions.

Our Ideals Of Service

This Texas Utilities Company of ours, is a public Service Institution—Country-wide—Plains wide—in its operations and doing business on "Higher Principles."

It shouldn't be difficult to define such an organization's Ideals of Service to the Public. Serve as you would be served—would seem to express it—wouldn't it?

The important things about Ideals, however, is not stating them, but actually applying them. This is done, in the conducting of our business every day, and every hour of the day.

The buying public, combined with the service public of the South Plains, has been exceedingly kind—and they will continue to be just as long, and only as long, as we give the kind of service, and offer merchandise that deserves such consideration.

TWO PHONOGRAPH SALE AT FRIDAY DAY RIX'S & SAT.

Look over this list, pick out the one you want and bring us a dollar. Phonograph and TEN RECORDS will be delivered immediately. We can arrange weekly or monthly terms on the balance.

fathers are even more negligent. Almost as much damage has been done by over-exertion of parental control in the past, as is being done today by lack of control. The parent who assumes the responsibility for controlling the actions of a child must needs be an exceedingly wise person. A child with a willful, narrow-minded parent is to be pitied. Yet such parents frequently are obeyed more readily than the more liberal type, because they begin at babyhood to make obedience second-nature with the child.

INCOMES AND TAXES

Those who depend upon this journal to inform them of such matters will take notice that seventy-five persons in the United States reported net incomes of more than \$1,000,000 for the calendar year 1924.

Three men, two in Michigan and one in New York, enjoyed incomes over \$5,000,000. These are believed to have been Henry Ford, Edsel Ford and John De Rockefeller, Jr. The other seventy-two were distributed as follows:

Four Million to Five Million—One in New Jersey; one in New York; one in Pennsylvania. Three Million to Four Million—One in California; two in New York; one in Pennsylvania. Two Million to Three Million—Two in Illinois; one in Michigan, nine in New York; one in Ohio; one in Pennsylvania and one in Wisconsin.

One Million Five Hundred Thousand to Two Million—One in California; two in Massachusetts; one in Michigan; five in New York; one in Ohio, three in Pennsylvania.

One Million to One Million Five Hundred Thousand—One in California; five in Illinois; one in Maryland; two in New Jersey; 21 in New York; five in Ohio; one in Rhode Island.

The total income reported by this small group of men was \$155,974,475 and the tax paid was \$47,207,203. Large as these figures are they represent only .61 and 6.70 per cent, respectively, of the total in the United States. In other words, these seventy-five persons, representing .001 per cent of the income tax payers enjoyed .61 per cent of the total income and paid 6.70 per cent of the government's collection.

Considering the average citizen those enjoying incomes from one to five thousand dollars, we find that they numbered 6,327,774, reporting incomes of \$15,668,000,000 and paying taxes to the total of \$47,505,065. In other words, 85.86 per cent of the income tax payers reported 67.07 per cent of the total income and paid only 6.74 per cent of the total tax. In fact, these 6,327,774 persons paid to the government only \$300,000 more than the seventy-five persons who enjoyed incomes over \$1,000,000.

MAKING TAXATION LESS PAINFUL

The Bureau of Internal Revenue now has on hand more than 100,000 unadjusted personal income and corporation tax returns which date back four years or more. During the fiscal year 1925 more than \$150,000,000 which had been collected from taxpayers of the country had to be refunded because it was not legally due. During the same year the Government paid out some \$31,000,000 in interest on taxes which had been collected and later refunded. The entire administrative expenses of collecting internal revenue taxes in 1925 were approximately \$37,000,000. In other words, during the year in question the interest charges on deferred adjustments cost the Government almost as much as the total cost of collection. All this illustrates the intricacies and idiosyncracies of our present Federal internal revenue system and the consequent loss at both ends. The taxpayer is put to annoyance and expense and his taxes are increased because the Government must pay interest on the taxes which it has legally collected from him.

BLAMING THE PARENTS

Parents are coming in for huge amount of criticism these days. They are being held responsible on every hand for the so-called errant ways of modern youth. Lady Astor, member of the English parliament arrived in the United States recently and said among other things that when children are wild their parents are to blame. At about the same time the Associated Press was obtaining an interview from Dr. Smiley Clanton, director of the Minneapolis child guidance clinic, to the effect that fathers and mothers are always responsible for the cantankerous disposition of their youngsters. Lady Astor hinted that if she caught her daughter drinking a cocktail, as she says some American girls do, she would subject the young woman to some old-fashioned method of discipline. Her idea is that the mothers should make their daughters behave. Dr. Blanton, being a physician instead of a politician, taken a more technical view. He thinks that parents drill certain characteristics into the personalities of their children because they do not rear them according to scientific methods. He is a Basaxorist, apparently, and believes that the habits and tendencies of a person are the result of environment. His idea would be that punishment always comes too late. One thing is certain, if a parent intends to control child he must begin early and cause obedience to become a habit. Lady Astor probably did this. Most American mothers of today allow their children to do as they please and

OUT OUR WAY

By Williams

LAUGHS

Know This Woman? "Yes, she sailed on a much better boat than we did."

Would Shrink to Meet Him This morning on my way to the office I met Janie with her two-year-old brother toddling along beside her. Brother had on a pair of new blue coveralls fully two sizes too large for him.

No Use For Tonsils Billy Dick had been having trouble with his tonsils, and daddy, who is a surgeon, said that they must be removed.

Remembered Wife-You think so much of your old golf, you don't even remember when we were married I do. It was the day after I sank the 30-foot putt-New Bernier.

The Truth of the Matter "I wouldn't marry him if he were the last man in the world."

Small Sister-"He isn't old at all. He's a year's model."-Christian Register.

Spick-and-Span Visitor-"And how old is your baby, dear?"

SO THINK WE

We think a man with a strong determination is worth more to himself and the community than the strong man.

We think lift is a burden more to those who have nothing to carry than those who really have much to bear.

We think there is a great difference between being tired and lazy, and most people we believe are lazy more often than they are tired.

We think there is one thing certain, as long as the grand jury stays in session, the town will be free from a certain number of men with a guilty conscience.

We think that while Lubbock has no gun man in the alley, there is a terrible lot of trash and good places for fires to start.

We think there are many people who are always going to set the world on fire usually get no further than lighting cigarettes.

We think there is possibly one thing about education, and that is that it comes higher than it used to.

We think that when a fellow marries his stenographer, that he also forfeits his right to dictate to her.

We think that the wife who tries to get even with her husband by becoming familiar with other men, is not getting as far as she may think.

We think that an industrial survey of the city of Lubbock should be made and put into print so that the people of this community might know more about Lubbock. Two per cent of the people of this city do not know how many wholesale houses we have, or how many retail establishments are in the city.

We think there is great need for the down town alleys. Some of them look like a cotton yard, and this creates a fire hazard, and should not be allowed.

We think that Lubbock should put on a great campaign for marketing. What we mean by this is that we should provide a good market for every product that is grown in this section or can be grown in marketable quantities.

Let the folks know that there is a market here for all they can raise and see if it will not increase the production almost instantly.

We think in buying land, one should always know how the land lies, and sometimes you will find out how the agent lies, too.

We think the fellow who sleeps during the play or the picture may be no official critic, but he is one of the best in the house, and silently expresses his opinion.

We think the reason they were called matrimonial matches is because so many of the merely flare up and go out.

IT IS REPORTED

It is reported that the three hundred wildcats that came from Abilene yesterday to attend the Tech-Wildcat game was a live bunch, and showed lots of pep while the game was in progress.

It is reported that someone has been criticizing this column. Well, that is fine. Had this not happened we possibly would have put something else in this paragraph that would have been less interesting than this.

It is reported that in some places people are talking of a one way highway. That will be fine for the ground hog, but we imagine he will not get near as much kick out of it as he would if he was taking up all of the

THE BLACK SHEEP RETURNS

road and keeping some other fellow from passing him.

It is reported that the average husband usually keeps his mouth shut. For the average wife does most of the talking anyway.

It is reported that some folks think ill of a bank when they will not loan money on security that they would not be willing to risk themselves.

It is reported that the Red Cross Roll call will begin next Tuesday. This is a cause that deserves support, and you should kick in liberally.

It is reported that the Plainsville Bulldogs will be here Saturday with revenge written all over their faces and will try to whip the Westerners for a tilt with the Sand Storms of Amarillo.

It is reported that Lubbock celebrated Armistice day in a greater way yesterday than ever before since the day that the news of Armistice was announced.

It is reported that the strut of the Thanksgiving turkey is none the less an account of the near approaching date of his execution. They possibly feel that some of them will get a star of execution until Christmas at least.

It is reported that consistent buying at home is the best way on earth to build a town.

It is reported that a desk telephone has 291 parts. This does not include the parts of speech that are used when one gets the wrong number or can get no number at all.

SOUTH PLAINS PRESS

PROPOSED PACKING HOUSE FOR LUBBOCK

Seagraves Signal Effort is being put forth by the citizens of Lubbock and the south plains to procure a packing house at that place. This is a movement of which we have been wanting to hear for many years, and we anticipated it too. The large territory which could be served by such an industry constitutes both an invitation and a challenge to some good company of funds and get the point indicated.

In 1923-24 Seagraves alone shipped more cattle than any other point in the United States. Two thousand carloads of cattle were shipped from this place during these two years. A great industry could be conserved to the country and built up if we had a market that was close to us. Climatic conditions are favorable for feeding grounds. The land itself offers great inducements for that purpose in that it could be utilized without any heavy expense. If the people of Ohio and Indiana could move our land, they would give \$2,500 per acre for it, for feeding purposes. Up there they have to go to great expense to provide concrete feeding ground, because of the mud which is a factor to reckon with in that country. We would not be put to that and other expenses. So our conditions here are ideal for feeding purposes. As it is, however, we are so far from market that there would be a distinct loss in the shrinkage were we to undertake to fatten live stock. With a packing-house in Lubbock, our problems in that line would be solved. It is hoped that every town in the south plains will get behind this movement and support Lubbock in this worthy undertaking.

Lubbock already has in operation a splendid little packing plant that is proving one of the great benefits to this city and to this part of the country. It is putting out some of the very nicest meats, and it is furnishing the local markets. It is also making a market for good beef and pork, and uses mutton also. Lubbock has in its number of good institutions that will no doubt become one of the most important plants in this city within the next few years. The thing that is necessary to patronize this plant, and also to prepare to furnish nice fat products right off the farm, which this concern will no doubt be in line for at all times.

He 'Bags' 120,000 Birds, But Wouldn't 'Kill' Chicken!

By ROY J. GIBBONS

CHICAGO, Nov. 11.—The world's greatest hunter is a thin-haired, studious little old man of 62 who wouldn't kill a chicken for a friend's Sunday dinner if he were asked.

Yet in the interest of Science, his one great passion, George K. Cherrie, assistant curator of the Field Museum of Natural History here, has bagged approximately 120,000 birds and hundreds of mammals ranging in size from a peccary to an elephant.

His travels have taken him on 46 expeditions into remote corners of the world. He has crossed and recrossed every state of South America, penetrating the deepest jungles and wading poisonous swamps.

A native of Iowa, he originally fitted himself to become a mechanical engineer, but his hobby, which was ornithology, proved stronger than the guiding ambition of his talents and he forsook the world of bridges to become one of the most widely known naturalists and hunters in the world.

In the absence of the great marble collars and store rooms of the museum here, where the ghosts of rare birds and strange birds from this and prehistoric generations seem to wander, Cherrie has his happiest rendezvous.

Those small hands of his, though gripped with hardened muscles of steel and those kindly blue eyes, which smile with such cultured and quiet manner at the world, scarcely put one in mind of a magnificent hunter whose weapons have claimed 120,000 birds as a giant bag, and countless other specimens.

But he utters that Aether Cherrie nor his colleagues ever "kill." They "bag" and "collect," and only in the name and interest of science. Those who know him say of Cherrie that he is the kindest of men, with warm heart and quick sympathies.

He joined the Museum staff in 1882 and has just returned from another expedition, which he led into Brazil. On this one Mrs. Marshall Field III was a member. Some magnificent specimens were procured, including a fine black jaguar which Mrs. Field shot down at 40 paces just as the animal was recovering to spring.

During 1913 and 1914 Cherrie was the naturalist with the President Theodore Roosevelt expedition into South America and was the first to reveal that Roosevelt did not discover the famous "River of Doubt," as was commonly believed.

The white women with straight hair and the kinky and curly kind and the negro with kinky hair wants the straight kind possessed by many of the white women.

Fat women want to be thin and most thin women want to be fatter. Now it may be also said in passing that men themselves are not entirely satisfied but there complaint is heard from the feminine side, especially when it comes to looks.

There is no harm in wanting to be different but there is great danger in using the wrong methods to get other than you really are. This is especially true of the reducing methods of surplus flesh by artificial means.

The ideal figure is not the result of braces, but of proper living. Under-exercise and over-eating are its enemies. Very active people are seldom corpulent. It is the lazy or those who lead sedentary lives. The auto tends to make us weigh too much, for we ride when we should walk.

It is dangerous to reduce too quickly, but the normal person can reduce and attain an ideal figure, if she persistently lives with that in view—but it is some IP.

To reduce one must cut down on calories, fattening foods. But one needs vitamins, mineral salts and roughage in order to keep healthy. The right way to reduce is to eat plentifully of ripe fruits and vegetables, with bran generously sprinkled in the diet.

JUST FOLKS

By EDGAR A. GUEST

TULIPS

I never plant a tulip in the fall To brave the winter's frost and ice and snow. And come at last resplendent through it all, But what its secret I should like to know.

Where in this broken dead thing does beauty hide? What is this spark of life which none can see? Here leaf and stalk and petals red abide. Awaiting spring to come and set them free.

Only know this miracle occurs And in that faith I planted bulbs to-day. Certain when April's gentle sunshine stirs, The fire of life my garden will be gay.

If tulip bulbs so dead in early fall Can come to blossom under gentle rains, Should we who grove have any doubt at all, That our lost loved ones into sleep, do rise?

BULLFIGHTERS RUN WILD TO BEAT A. C. C.

MATADORS UNLEASH THEIR FIRST REAL OFFENSIVE TO SMASH WILDCATS DOWN BY A SCORE OF 20 TO 6

Uncorking a smashing offense, the first of its class they have ever shown on the Picador gridiron, the Texas Tech Matadors defeated Abilene Christian College Wildcats yesterday afternoon on their home field by a score of 29 to 6. The Freeland machine skirted the ends, crashed through the line and then took to the air to completely bewilder the invading Christians from the opening kickoff to the closing gun. With the exception of a few moments in the first quarter, when the count stood knotted 6 to 6, the huskies clad in the Scarlet and Black stood out as easy winners.

Rockne had his "Four Horsemen," Zupke has his "Four Mules" but Ewing Freeland showed yesterday that he has two sets of backs who can slash a brawny defense to ribbons if they will. The Bullfighters, seemingly undismayed by a stubborn defense on the part of the feline eleven, sprang into action early in the tilt and behind steady, and at times brilliant calculating by Quarterback Floyd Woolridge piled up four touchdowns, a field goal and two boots for extra points to bring home final victory.

Volney "Satch" Hill, "Handsome" Basome, Walker, Roy Stevens, Woolridge, Duke Lassiter, Capplemann, Archibald, "Windy" Niehaus and the Hamilton boys, "Red" and "Iron Head" hearing the brunt of the offense, plowed the forward wall of the scratching Wildcat defense, and around the ends and then smothered, with a rapid fire passing assault the football aspirations of the Abilene team, which on but rare occasions, had to depend solely on the ability of Theo. Powell, star quarterback, for anything like an efficient display.

Scarlet and Black Make Four Touchdowns

The Picador eleven counted four touchdowns and one field goal on the visiting Christians during the fracas. The first count made by the flaming Scarlet and Black crew was early in the initial quarter after the Matadors had kicked off to A. C. C. and Powell's punt went straight up and came back three yards in the arms of "Red" Smith who placed the ball on the Wildcat 27 yard line. Walker and Hill tore through the Purple line for 12 yards which placed the ball on the Feline 15 yard line; with two plunges, shared by Hill and Walker, together with an off-side penalty on the Cats the ball was advanced to visiting grid crew's four yard line—a penalty was handed to the Picadors at this point and the ball was back to the Cat nine yard line; with three attempts at line plays the Matadors failed to crumple the Morris line for a touchdown. Powell then punted out of danger for 33 yards, but on the second play, a pass, Walker to Woolridge, crossed the Feline line for a touchdown. Made credible in due "Satch" Jennings on this play for it was his excellent blocking that kept the charging Purple backs out of the trail of a counter. Hill's kick for goal was wide.

Cats Count in Second Period

Several good runs were made by Powell and his mates in the few plays following the Matador's touchdown, but without further scoring. Powell, carried to the back of the Cats, skirted the Scarlet ends several times for good yardage; one one play the flashy Purple back crashed through the mighty Freeland defense for 17 yards. After a series of punts the quarter ended with the ball in the hands of the Marstonians on their 45 yard line. Powell kicked for 41 yards to Stevens who fumbled on the return with B. Rogers recovering for the Felinos on the Tech 15 yard line. Powell then fumbled on a double pass play, with "Teacher" Calloway recovering for Tech on the Matador 21 yard line. Walker skinned the ball for 12 yards to Powell, who returned for three yards, placing the ball on the A. C. C. 23 yard line. Another kick by Powell, which was for 42 yards, backed the "bull fighters" to their 26 yard line and it was then that Woolridge fumbled on his twenty yard line with Kenley recovering for A. C. C. that the Felinos counted. Powell, on almost successive runs through the Matador wall, bucked it over for a touchdown. Powell's toe went wild and the kick was low and wide.

Triple Pass Scores for Tech

The same play, routed via the Woolridge to White to Walker way, counted on the Wildcats that was used against the T. C. U. Tycos a few weeks ago, scored the Matador's second touchdown. After exchanging punts down the field, Carpenter snatched a Wildcat pass, which had been blocked, and changed the direction of the ball's progress. On the 45 yard line, Woolridge elected to use the triple pass, Woolridge to Hill to Walker, which second, Walker stepped through the secondary Morris defense easily and scored another counter for Tech. Hill's kick was good. The remainder of the first half was played in mid-field and at the end of this session it was Tech's ball on their own 46 yard line.

The Reserve of Matadors Felt

On the beginning of the second half the strong reserve force gathered in on the Cats, a strength that later aided greatly in piling up the Matador counters; a strength that is used by Ewing V. Freeland in most of his contests, and a reserve strength that is equalled by few of the West Texas colleges. The fresh "bull fighters" that were sent in for action were "Chubby" DWYER and "Doc" Harris for Smith and Reed at guards; Abledge at tackle for Westerfelt; Blighbotham chose to use the same backfield that came out of the initial half, Woolridge, Walker, Hamilton and Hill.

Only changes that needed to be made for the Feline strength was that made by Morris during the half, (Capplemann substituted for Hill, who only stayed out of the game for a few minutes; and Owens for Brown, were the changes made by "Duke" Morris. After the kick-off the Wildcats, taking on a new attack, advanced the ball to Tech's 34 yard line and a counter by fumble snuffed the forward march of the Cats. Walker recovered the defense of the Wildcats and repudied off 19 yards, taking the ball to his 45 yard line; Hill followed up with an

Strolling Down Sport Lane With James R. Dow

Exceptional good game yesterday afternoon, didn't you think? I enjoyed it. It's good to know that the Matadors do have an offense when they get going. The offense operations of the Scarlet and Black came out in big letters yesterday against the Felinos.

Walker, the stepping halfback, and unusual dashing ability on the local classes walked down the grid with trailing ends after him for 44 yards in a triple pass, which went to Woolridge, White and Walker route.

Powell, the South Plains' pride of grid functions, was the only Cat that was able to penetrate a backfield on the Matadors' defense. His return of punts was an outstanding feature of the game. Repeatedly, he rushed the kicks back for good distances.

No doubt the blonde half of the Morris crew will be mentioned for the All-Texas A. A. quarter. He punted, passed and carried the ball in the game yesterday with the Matadors.

Robinson, the short and stubby half-back of the Feline eleven, occasionally gave the Matador defense a hard time. Robinson got through and wormed for long gains at intervals of the clash yesterday.

Thirteen first downs were made by the Matadors yesterday, while the most they have made in any previous game of this season. They were chalked up by the Cats.

On running plays, passes and return of kicks the Wildcats outplayed the Matadors by 29 yards. A. C. C. netted 307 yards, while the Picadors counted 26.

Southwestern conference title is at stake Saturday when the S. M. U. Baylor game gets under way. Neither of the two clubs have lost a conference game this season.

The Missouri Valley conference is getting into a middle—Oklahoma U. Sooners, after defeating the strong holders of the conference, Missouri U. they lost to the Kansas University by a score of 19 to 2.

Slaton Tigers continue to pile up their big counts. The Slaton crew went thru the Spur eleven at 10:00 yesterday afternoon and defeated them by a count of 58 to 6. Gus Miller's eleven has been the champions of the South Plains class B conference so long that they are becoming habitual with winning combinations.

Had the agreement that was contemplated by Coach Hayes in the meeting of the coaches at Kress early this week been agreed upon by the group, the game between Lubbock and Plainview would have settled the Panhandle title tomorrow. But as it is the Slatons are still in the running and have been defeated by two class A schools, Plainview and Vevion.

"Duckie" Allen, mentor of the Bulldogs, is coming with an injury tale for the fans to brew over. Allen is a shrewd coach in high school circles. He will have the best he has on his string in full uniform when the initial whistle is blown Saturday afternoon on the Matador grid.

A. C. C.		TECH	
Mitchell	Left end	Jennings	Right end
Hollock	Left tackle	Westerfelt	Right tackle
Sanders	Left guard	Reed	Right guard
Hill (c)	Center	Calloway	Quarterback
Darnton	Right guard	Smith	Fullback
B. Rogers	Right tackle	Carpenter (c)	Halfback
Hendricks	Quarterback	White	Halfback
Powell	Left half	Woolridge	Right half
Kenley	Right half	Stevens	Fullback
Robinson	Fullback	Walker	Quarterback
Owens	Substitutions—A. C. C.: Brown for Owens; Cottleman for Hill; Hill for Cottleman; Owens for Brown; Hawkins for Kenley; Richards for Mitchell; Tech: Hamilton for Stevens; Abledge for Westerfelt; Harris for Smith; De Witt for Reed; Capplemann for Hamilton; Archibald for Walker; Lassiter for Woolridge; Niehaus for Hill; McWilliams for Carpenter; Corley for Calloway; Vinzant for White; Martoot for Jennings; "Iron head" Hamilton for Hamilton.		

Officials—McMillan (Texas A. and M.) referee; Herrin (Swansea) umpire; Von Tanceln (Okla. U.) headlinesman; and Mowery (Texas A. and M.) field judge.

Score by quarters: Tech 13-29; A. C. C. 6-6-6-6.

Summary of the Game
Yards gained on running plays, passes, return on kicks by A. C. C.: Tech 268; First downs: Tech 13; A. C. C. 9; Passes: A. C. C. 5 attempted 3 completed for 48 yards; Tech 19 attempted, five completed for 112 yards. Points—A. C. C. kicked nine times for 36 yards, average of 22 yards; Tech kicked six times for an average of 47 yards. Penalties—Tech 4 for 26 yards; A. C. C. 4 for 19 yards. Touchdowns—Tech 4 (Hill, Walker, Woolridge and Capplemann); A. C. C. 1 (Powell). Field goals—Tech 1 (Hill).

AGGIE FISH VICTORIOUS
BRYAN, Nov. 11 (AP)—The A. and M. college Freshmen won their annual game from Allen academy here 27 to 3 this afternoon. The younger and lighter academy team played the college boys to a 2 to 2 tie in the first half. Conover and Abalbrook starred for the Aggies.

Clarendon Romps on Wayland Rabbits

(Special to The Avalanche)

PLAINVIEW, Tex., Nov. 11.—The Wayland college Jack Rabbits were outplayed by the Clarendon college Bulldogs and defeated by a score of twelve to nothing at Plainview today. The Bulldogs offensive was effective either through the line or by the aerial route. The Jackrabbits were out-weighted and were doped to lose by a much greater score. Occasionally Jackrabbits entered Clarendon's territory, but were unable to get within scoring distance at any time of the game.

The Bulldogs scored late in the second quarter when White completed a pass for twenty-five yards which enabled Lewis, giant fullback to go five yards through the line for a touchdown. Crain, Wayland captain, blocked a perfect try for point. The ball was kept in mid field for the greater part of this period even though Clarendon made more first downs; several fumbles by the visitors proved very costly. The first half ended with the ball in Wayland's possession on Clarendon's thirty yard line.

The Bulldogs scored again late in the game when Corben completed a pass for forty-five yards and touch down but failed at the try for point. Wilbanks, left tackle, of the Wayland was without a doubt the star of the game while Johnson, right half did stellar work with the visitors. An unlimited amount of praise goes to coach E. E. Anderson of Wayland who developed a bunch of inexperienced boys with the exception of two men into one of the hard-fought successions seen on a Panhandle field this season.

Hill Billies Whip St. Edwards 10 to 0

BROWNWOOD, Texas, Nov. 11 (AP)—Daniel Baker's Hill Billies continued their climb toward a T. I. A. A. pennant here this afternoon by defeating St. Edwards university, 10 to 0. The Billies outlasted the Saints throughout with the exception of the first quarter, when the visitors twice reached Daniel Baker's ten yard line, only to lose the ball on downs.

Early in the second period the Billies, with a 25 yard pass and a series of line plunges, worked within ten yards of the Saints' goal and Stevens hit the line for touchdown. Head kicking for the extra point. Head added three points more in the third quarter with a place kick from the 13 yard line.

The line-up: Daniel Baker—Trammell and Montgomery, ends; Melnius and Alvis, Taylor, tackles; Head and McMiller, guards; Moore, center; Villa, quarter; Flack and McWilliams, halves; Stevens, full.

Edwards—Heilly and Durkenberger, ends; Kraus and Vogt, tackles; Mooney and Herbenberger, guards; Estes, center; Solomon, quarter; Quota and Esparmer, halves; and O'Shaughnessy, full.

First Downs—Daniel Baker 11; St. Edwards 5. Officials: Fullinger (Washington) referee; Hart (Texas), umpire; Whitaker (Indiana), headlinesman.

Fresh from the original vacuum pack—easily opened with a key.

"Yes, that's Hills Bros Coffee

... See the Arab on the can?"

There need be no doubt in your mind when you buy Hills Bros. Coffee. For every can contains the utmost in aroma and flavor. No other coffee can approach it because of our patented process . . . Controlled Roasting. Only a few pounds at a time . . . even temperature . . . constant ventilation—that's the secret of Hills Bros. excellence!

But, to be sure that you get Hills Bros. every time, look for the Arab on the can. That's the identifying mark. And when you break the vacuum seal and breathe that exhilarating aroma . . . when you taste a cup freshly brewed, you'll be glad you insisted on Hills Bros.

Hills Bros. grew up with the coffee-loving West and is growing with it. It is the coffee with the flavor you can't forget . . . or match. Back East they say, "That wonderful western coffee!"

Let us send you a free copy of our booklet, "The Art of Entertaining." Just mail the coupon—that's all you have to do.

GANDER RAISED AND TAGGED BY CASTRO COUNTY RANCHER KILLED BY ALBERTA CANADA MAN, AS HE LED HIS FLOCK

(Special to The Avalanche)
 DIMMITT, Nov. 11.—Castro county is receiving some national publicity, as a result of the experiments which Edwin Ramey has been carrying on for the past fifteen years with Canadian Ring Neck Wild geese. Mr. Ramey has just received a letter from J. H. Dowell, president of the Penn. Mines limited, of Edmonton, Alberta, Canada, stating that he had just killed the leader of a flock of geese near Lake Manitowish, and that the geese were a tag bearing Mr. Ramey's address. The geese had formerly been on the Ramey ranch near Dimmitt, Texas, and had left there months ago with some of his wild mates for the Canadian country, and had evidently assumed the leadership of a large flock of Canadian Ring Neck wild geese.

Mr. Ramey is known far and wide as a successful goose hunter, and every goose that is wounded is brought to the Ramey ranch, and a study of its habits is made. Mr. Ramey successfully mated a wild gander with a tame goose, and a tame gander with a wild goose during the season just past. The tame gander and wild gander mating produced six young ones, but the wild gander was kicked by a calf and the grief-stricken mother was not able to raise any of the young after the death of her husband. The two hybrids produced from the mating of the wild gander and tame gander will be carefully studied during the coming season and developments will be watched with intense interest.

This is not the first time that Mr. Ramey has raised a hybrid from such a mating. In 1923 he was successful in raising a hybrid gander from such mating, but in the spring of 1924, the youngster mated with a wild goose and in April of that year, he left with his wild mate for parts unknown. In August of 1924, Mr. and Mrs. Ramey made a trip to Canada to see if they could locate the prodigal geese, but they failed to find him. The Rameys had an exciting time, however, hunting Moose in the northland. Mr. Ramey says he might have to make a second trip to the Canadian country as a result of the letter he received from Mr. Dowell.

According to Mr. Ramey, the Canadian ring-neck wild geese started migrating to the Panhandle about 1912, to winter on the huge grain sorghum crops and the green wheat fields so common in the Panhandle. Tourists come from the various parts of the United States and Canada each year to hunt wild geese, and it has become one of the major sports of the Plains country. Sportsmen from nearly every

state in the union have been entertained at the Ramey ranch within the last few years.

POSTPONE PART OF SLATON PAVING

RESIDENCE STREETS WILL BE LEFT TILL SPRING FOR COMPLETION

(Special to The Avalanche)
 SLATON, Tex., Nov. 11.—On account of the approach of winter weather, the city commission and the street paving contractor, L. H. Howard, have decided to postpone the paving to the streets on which paving is to be bid in the residential section of the city, until spring. The work will be resumed about March 15, it is officially announced.

The dangers involved in pouring concrete when sudden freezes might bring considerable losses, together with the inconvenience of having the streets torn up during the bad weather, are the main reasons given for the decision to postpone the work. Within another month, practically the present paving program in the business part of the city will be completed, it is believed, and when it is finished, there will be approximately 20 blocks of paving laid. This includes paving all around the city square all the way down Texas avenue to the Santa Fe railway station, one block each way out from the square and two blocks between Ninth and Texas avenue on Lynn street.

When construction is resumed in the spring, West Garza and south Tenth streets in the residence area will be a total of almost 20 blocks. This will bring the grand total to almost 40 blocks of street paving in Slaton.

LAMESA 27; ODESSA 6

LAMESA, Nov. 11.—In a hard-fought game here today, Lamesa nosed out on the Odessa squad in a score of 27 to 6. Lamesa scored her points in the first quarter. Odessa scored in the fourth and outplayed the Tornados in three of the four quarters. Lamesa had a better offensive than did Odessa, but Odessa formed a strong defensive and in most plays stopped Lamesa. There were many fumbles in the game. The outstanding player of today was Hill, quarterback for Lamesa. Lamesa plays Stanton here next Friday and Big Spring on Thanksgiving.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with **Cremulsion**, an emulsified creosote that is pleasant to take. **Cremulsion** is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. **Cremulsion** contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. **Cremulsion** is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

A PRODUCTIVE THOUGHT

The conversation ran something like this: Cotton prices are very much lower than usual, and I wonder how conditions will be next year. The railroads are not doing as much business as they were at this time last year. These someone mentioned the fact that their "rooms were vacant," some had "apartments," others "houses" some had "furniture" to sell. They were wondering what they could do to overcome these conditions, when a friend dropped in and suggested using the Advance-Journal classified ads. They are real business getters. He knew, because he had used them. They filled his vacant rooms, apartments, houses, sold his old furniture. You may use the classified ads, and obtain the required results. Ads taken over the phone until 9 p. m. every night.

24. Situations Wanted NEW YORK, Nov. 11 (AP)—The raw sugar market was easier today, under increased offerings, and only a slight demand. Prices declined 1-3/4 of a cent to the basis of 4.55 for Cuban duty paid. The only sale reported was 7,000 bags of Cuban, from store to a local refiner at the 4.5 level.

The easier London market had an unsettling effect in the raw sugar futures markets. Final prices were not unchanged, with the exception of May, which was 1 point lower. December closed 2.77; January 2.82; March 2.81; May 2.89; July 2.87.

The refined sugar market was unchanged at 5.65 to 5.70 for fine granulated, with trading light.

WALL STREET NEW YORK, Nov. 11 (AP)—James C. Auchincloss, a governor of the New York stock exchange, has been elected president of the national better business bureau, the announcement stating that the organization "plans to broaden and intensify its work against fraud, swindling and misrepresentation."

NEW YORK, Nov. 11 (AP)—The cotton market was quiet and steady again today. Evidently traders found nothing in the news to inspire fresh sentiment. Prices fluctuated within a range of 4 or 5 points, January selling up from 12.39 to 12.44 and closing at 12.43. The general market closed steadily at net advances of 1 to 4 points.

The opening was steady at an advance of 3 points in response to relatively steady Liverpool cables, and reports of low temperatures generally over the south, extending into the southwest.

Some trade buying also was reported, but business became very quiet after the initial selling orders had been absorbed, and the market showed little change or feature the balance of the day. December sold up from 12.27 to 12.32 and March from 12.62 to 12.67. Closing prices were within a point or two of the best.

Cable advices were regarded as pointing to a settlement of the British coal strike almost immediately, and there was considerable bullish comment of the possibility of an easing in the ocean freight situation.

Private cables from Liverpool said there had been trade calling with local and London buying in the Liverpool market. They also reported an export trade inquiry from India, but that a majority of the offers were unworkable.

Port receipts 76,878. U. S. port stocks 2,827,588. Exports today 25,143 making 2,852,556 so far this season.

COTTON SEED OIL NEW YORK, Nov. 11 (AP)—After breaking the new low ground for the year under liquidation, prompted by easier crude prices, the cotton seed oil market rallied partially today on covering and closed at 7 to 25 points net lower. Sales for the day were 20,600 barrels. Prime crude 6.50; prime yellow spot, November, December and January closed 8.60; March 9.02; May 8.15.

COTTON GOODS NEW YORK, Nov. 11 (AP)—Cotton goods markets ruled quieter today than a week ago, but the dry goods districts were liquidation, prompted by easier crude prices, the cotton seed oil market rallied partially today on covering and closed at 7 to 25 points net lower. Sales for the day were 20,600 barrels. Prime crude 6.50; prime yellow spot, November, December and January closed 8.60; March 9.02; May 8.15.

NEW YORK, Nov. 11 (AP)—A further advance at the opening of the market for coffee futures today seemed to meet considerable realizing and after selling up to 15.45, March eased off to 15.25, closing at that figure. The general market opened 15 points higher to 1 point lower and closed at a net decline of 10 to 17 points. Estimated sales 55,000 bags. Closing quotations: December 15.78; January 15.83; March 15.25; May 14.71; July 14.88; September 13.75.

Spot coffee steady. Rio 7 1/2 14 1-2 to 16 5-8; Santos 48 20 3-4 to 21. Cost and freight offers included part Bourbon 3c and 2c at 18 25 to 20 10.

GANDER RAISED AND TAGGED BY CASTRO COUNTY RANCHER KILLED BY ALBERTA CANADA MAN, AS HE LED HIS FLOCK

(Special to The Avalanche)
 DIMMITT, Nov. 11.—Castro county is receiving some national publicity, as a result of the experiments which Edwin Ramey has been carrying on for the past fifteen years with Canadian Ring Neck Wild geese. Mr. Ramey has just received a letter from J. H. Duvell, president of the Pean. Mines limited, of Edmonton, Alberta, Canada, stating that he had just killed the leader of a flock of geese near Lake Manitow, and that the geese were a tag bearing Mr. Ramey's address. The geese had formerly been a pet on the Ramey ranch near Dimmitt, Texas, and had left three months ago with some of his wild mates for the Canadian country, and had evidently assumed the leadership of a large flock of Canadian Ring Neck wild geese.

Mr. Ramey is known far and wide as a successful goose hunter, and every goose that is found is brought to the Ramey ranch, and a study of its habits is made. Mr. Ramey successfully mated a wild gander with a tame goose, and a tame gander with a wild goose during the season just past. The tame goose and wild gander mating produced six young ones, but the wild gander was kicked by the calf and the grief-stricken mother was not able to raise any of the young after the death of her husband. The two hybrids produced from the mating of the wild goose and tame gander will be carefully studied during the coming season and developments will be watched with intense interest.

This is not the first time that Mr. Ramey has raised a hybrid from such a mating. In 1923 he was successful in raising a hybrid gander from such mating, but in the spring of 1924, the youngster mated with a wild goose and in April of that year, he left with his wild mate for parts unknown. In August of 1924 Mr. and Mrs. Ramey made a trip to Canada to see if they could locate the prodigious geese, but they failed to find him. The Rameys had an exciting time, however, hunting Moose in the northlands. Mr. Ramey says he might have to make a second trip to the Canadian country as a result of the letter he received from Mr. Duvell.

According to Mr. Ramey, the Canadian time needs wild geese started migrating to the Panhandle about 1912, to winter on the huge grain sorghum crops and the green wheat fields so common in the Panhandle. Tourists come from the various parts of the United States and Canada each year to hunt wild geese, and it has become one of the major sports of the Plains country. Sportsmen from nearly ev-

ery state in the union have been entertained at the Ramey ranch within the last few years.

POSTPONE PART OF SLATON PAVING

RESIDUAL STREETS WILL BE LEFT TILL SPRING FOR COMPLETION

(Special to The Avalanche)
 SLATON, Tex., Nov. 11.—On account of the approach of winter weather, the city commission and the street paving contractor, L. H. Howard, have decided to postpone the paving to the streets on which paving is to be held in the residential section of the city, until spring. The work will be resumed about March 15, it is officially announced.

The delays involved in pouring concrete when sudden freezes might bring considerable losses, together with the inconvenience of having the streets torn up during the bad weather, are the main reasons given for the decision to postpone the work. Within another month, practically the present paving program in the business part of the city will be completed, it is believed, and when it is finished, there will be approximately 20 blocks of paving laid. This includes paving all around the city square all the way down Texas avenue to the Santa Fe railway station, one block each way out from the square and two blocks between Ninth and Texas avenue on Lynn street.

When construction is resumed in the spring, West Garza and south Tenth streets in the residence area will be a total of almost 20 blocks. This will bring the grand total to almost 40 blocks of street paving in Slaton.

LAMESA 27; ODESSA 6

LAMESA, Nov. 11.—In a hard-fought game here today, Lamesa nosed out on the Odessa squad in a score of 27 to 6. Lamesa scored her points in the first quarter. Odessa scored in the fourth and outplayed the Tar-ragons in three of the four quarters. Lamesa had a better offensive than did Odessa, but Odessa formed a strong defensive and in most plays stopped Lamesa. There were many fumbles in the game. The outstanding player of today was Hill, quarterback for Lamesa. Lamesa plays Stanton here next Friday and Big Spring on Thanksgiving.

LOCAL BRIEFS

C. C. Webb of Fort Worth, was a business visitor in Lubbock yesterday.

D. N. Ehrlick was here from Amarillo yesterday attending to business.

T. B. Behne of Wichita Falls, was visiting in Lubbock yesterday.

R. F. Wiggins of Amarillo, was a business visitor in Lubbock yesterday.

M. B. Stevens was in Lubbock yesterday from Post, transacting business.

C. H. Orian of Abilene, was in Lubbock yesterday on business.

Miss Nellie Dameron of Abilene, was visiting in Lubbock Thursday.

J. B. Post, cashier of the Farmers State bank of Haskell, was attending to business in Lubbock Thursday.

J. M. Whitman of Haskell, passed through Lubbock yesterday on his way to his farm in Lamb county.

C. S. Smith of Abilene, was a visitor in Lubbock yesterday.

M. R. Young of Slaton, was transacting business in Lubbock Thursday.

Miss Ruby Brown of Ralls was visiting in Lubbock yesterday.

Mrs. C. E. Melton of Sweetwater, was visiting in Lubbock yesterday.

E. J. one of Abernathy, was a business visitor in Lubbock Thursday.

Mrs. R. E. Parchman was visiting in Lubbock Armistice Day for Lorenzo.

Mrs. G. E. Emory of Abernathy, was a business visitor in Lubbock yesterday.

L. R. Porter was a business visitor in Lubbock yesterday from Littlefield.

Roy Todd of Tahoka, was a business visitor in Lubbock Thursday.

J. C. Hammond, living twenty miles from Lubbock in the southwest corner of Lubbock county, was a business visitor in Lubbock Thursday. Mr. Hammond said he was gathering his cotton crop with his immediate family, because it was not profitable to hire pickers. He also stated that four of his family were ill with influenza at this time, which was slowing his cotton gathering considerably.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creosolium, an emulsified creosote that is pleasant to take. Creosolium is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creosolium contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creosolium is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

A PRODUCTIVE THOUGHT

The conversation ran something like this: Cotton prices are very much lower than usual, and a wonder how conditions will be next year. The railroads are not doing as much business as they were at this time last year. Then someone mentioned the fact that their "rooms were vacant," some had "apartments," others "houses" some had "furniture" to sell. They were wondering what they could do to overcome these conditions, when a friend dropped in, and suggested using the Avalanche-Journal classified ads. They are real business getters. He knew, because he had used them. They filled his vacant rooms, apartments, houses, sold his old furniture. You may use the classified ads, and obtain the required results. Ads taken over the phone until 9 p. m. every night.

DAILY MARKET

NEW YORK COTTON

NEW YORK, Nov. 11 (AP)—The cotton market was quiet and steady again today. Evidently traders found nothing in the news to inspire fresh sentiment. Prices fluctuated within a range of 8 or 7 points, January selling up from 12.35 to 12.44 and closing at 12.43. The general market closed steady at net advance of 1 to 4 points.

The opening was steady at an advance of 3 points in response to relatively steady Liverpool cables, and reports of low temperatures generally over the south, extending into the southwest.

Some trade buying also was reported, but business became very quiet after the initial selling orders had been absorbed, and the market showed little change or feature the balance of the day. December sold up from 12.27 to 12.33 and March from 12.62 to 12.67. Closing prices were within a point or two of the best.

Cable advices were regarded as pointing to a settlement of the British coal strike almost immediately, and there was considerable bullish comment of the possibility of an easing on the ocean freight situation.

Private cables from Liverpool said there had been trade calling with local and London buying in the Liverpool market. They also reported an extensive cloth inquiry from India, but that a majority of the offers were unworkable.

Port receipts 76,858. U. S. port stocks 2,627,595. Exports today 25,145 making 1,591,528 so far this season.

COTTON SEED OIL

NEW YORK, Nov. 11 (AP)—After breaking into new low ground for the year under liquidation, prompted by easier crude prices, the cotton seed oil market rallied partially today on covering and closed at 7 to 25 points net lower. Sales for the day were 20,000 barrels. Prime crude 6.50; prime yellow spot, November, December and January closed 8.60; March 8.60; May 8.15.

COTTON GOODS

NEW YORK, Nov. 11 (AP)—Cotton goods markets ruled quieter today than a week ago on the dry goods division. The wide sheeting markets have been stabilized by recent raising of prices. Many new lines of port wool and all wool blankets were being prepared for the new season of fall 1927 to replace all cotton blankets. Yarns were quiet and barely steady. Knit goods advance sales were reported as showing improvement. Raw silk was easier and silk goods remained quiet. Burtons were unchanged to easier. No changes were reported in the wool goods markets, many mills being well employed.

FORT WORTH LIVESTOCK

FORT WORTH, Tex., Nov. 11 (AP)—Armistice day found the livestock market here quiet. The cattle division was steady, hogs suffered a decline of 25c and sheep trading was nominal. The count called for 3,900 green cattle, 900 hogs and 400 sheep.

CHICAGO LIVESTOCK

CHICAGO, Nov. 11 (AP)—Cattle, 12,000; steers and yearlings steady to 25c higher; top yearlings 12.25; steers 10c to 15c higher; bulls and vealers 25c up. Yearlings 11.00 to 12.50. Hogs, 40,000, 10c to 15c lower; top 12.10; hulk 11.50 to 11.75; pigs 11.50 to 11.70; sows 10.00 to 11.00; estimated hold over 10,000.

Sheep, 15,000; lambs steady to 25c lower; top 14.00; fat lambs 12.25 to 13.50; feeding lambs 12.00 to 13.00; sheep unloading; wools 5.50 to 6.75.

COFFEE

NEW YORK, Nov. 11 (AP)—A further advance at the opening of the market for coffee futures today seemed to meet considerable realizing and after selling up to 15.48, March eased off to 15.25, closing at that figure. The general market opened 15 points higher to 1 point lower and closed at a net decline of 10 to 17 points. Estimated sales 55,000 bags. Closing quotations: December 15.75; January 15.65; March 15.25; May 14.71; July 14.25; September 14.75.

Spot coffee steady, Rio 24 to 14 1-2 to 14 5-8; Santos 45 to 34 1-2 to 21. Cost and freight offers included port hours, but 2 and 18 at 18.25 to 18.18.

SUGAR

NEW YORK, Nov. 11 (AP)—The raw sugar market was easier today, under increased offerings and only a slight demand, prices declined 1-2 of a cent to the basis of 4.33 for Cuban, duty paid. The only sale reported was 7,000 bags of Cuban, from store to a local refiner at the 4.3 level.

The sister London market had an unsettling effect in the raw sugar futures markets. Final prices were not unchanged, with the exception of May, which was 1 point lower, December closed 2.77; January 2.83; March 2.81; May 2.89; July 2.82.

The refined sugar market was unchanged at 5.65 to 5.66 for fine granulated, with trading light.

WALL STREET

NEW YORK, Nov. 11 (AP)—James C. Auchincloss, a governor of the New York stock exchange, has been elected president of the national better business bureau, the announcement stating that the organization plans to broaden and intensify its work against fraud, swindling and misrepresentation.

presentation in financial manufacturing and merchandising fields. It has 42 local bureaus throughout the country. Mr. Auchincloss has been one of the chief directing influences in the New York bureau since 1922.

WOOL

BOSTON, Nov. 11 (AP)—Private cables in local concerns report stronger Australian market. England is reported more active. Increased buying in Australia by Bradford is the subject of much local comment. Selection today consists of staple better adapted to American use than recent offerings and the Americans are buying. Stronger prices in Australia are being members of this trade course. Dealers are inclined to be a little firmer although trading is very slow.

ARMISTICE DAY

(Continued from Page 1)

Fisher, to fit the souls of men out of the deep. Mullican said in closing: "The diamond parade was formed at 11:30 o'clock, passed through the downtown district of the city, to the Texas Technological college athletic field. The air was crisp enough to stir celebrators into activity.

It was the largest and the best parade ever held in this city. The formation began at the city hall and moved south on Avenue 1 to the Texas Technological college. It was approximately 14 blocks in length.

The Tech band headed the parade, followed by the United States formation closely behind. Then came the athletic squad, the home economics department, engineering department, a band of the "worn out Lizzie gang," liberal arts class, the students of high school boys, boy scouts and camp fire girls came next and the bitter-organization made a wonderful showing.

The bicycle brigade attracted considerable attention and forty boys took part, with wheels appropriately decorated. The little fellows proved conclusively that their patriotism and enthusiasm was not surpassed by elders.

Two fire trucks followed immediately behind the boys, then came the floats, cars and trucks decorated by various business firms of the city. Firms taking part in the parade included grocery company, Moreman's, Hicks Rubber company, Campbell Bakery, Miami Oil company, Piggly Wiggly stores, Texoma Oil company, International Harvester company, Overland Motor company, Seiberling Tire company, Texas Oil company, Barrier Brothers, Union Bus terminal and Sherrod Hardware company.

An airplane fell in line just above the marchers after they left the business section, and "pulled stunts" for the benefit of the onlookers. The pilot spent a long period in actual service overseas.

Paraders wended their way to the Tech athletic field where an impressive ceremony was held. Following the band numbers of "The Star-Spangled Banner," and "America," Dean J. M. Gordon delivered a short address, which Senator W. H. Hodson introduced. Col. Clark M. Mullican, as speaker of the day.

The Colonel spoke of the trials and tribulations of those who saw foreign service and praised them. "Let us hope that those over there in those cities of the dead, will enjoy ceremonies today as we who are here. It is fitting that we can celebrate on this day and commemorate the day when universal peace was again given to the world."

He spoke briefly of the nation's defense and the units composing the organization. He insisted that America should ever be prepared to protect herself against outside enemies and explained that he was sure that the same spirit that had guided our forefathers in their demands for freedom, would remain with us for generations to come.

Longhorns Win In Listless Game

AUSTIN, Texas, Nov. 11 (AP)—In a listless game marred by fumbles the Texas university Longhorns Thursday defeated Southwestern university 27-4.

An 84-yard run from kick off to a touchdown by Jimmy Boyles of Houston, featured.

Coach "Doc" Stewart used a second string backfield the first half, and this combination showed as much drive as did the first string backs used in the second half.

Young scored Southwestern's touchdown when he seeped up Joe King's fumble and ran 22 yards. Young also turned in a number of long gains from scrimmage.

The Longhorn's first touchdown came early in the first quarter when Joe King cut back off tackle for 34 yards and raced across the goal line. Boyles' long run accounted for the second counter in the same period. In the second quarter a pass, Joe King to Oile, was good for eight yards and a touchdown.

The line up:

Texas	Position	Southwestern
Ibabe	Bellev
Moore	Duncan
Tience	Reynolds
Rundell	Newman
Wray	Terry
Mobley	Hawkins
Oile	Holmes
King	Allen
Boyles	Blackburn
Hutches	Brannon
Alford	Young

Score by period:

Texas	12	6	0	0	18
Southwestern	0	0	4	0	4

Texas scoring: Touchdowns, J. King, R. King sub for Allen; Boyles, Oile. Points after touchdowns, gloves. 71, 99 pass from R. King; Shove tackled Blackburn for safety.

Southwestern scoring: Touchdown Young.

(Continued from Page 1)

this part of the state. Dr. Wells, presiding elder of the St. Louis district was introduced to the conference and spoke of the work of the superannate endowment fund. It developed during the discussion that the Northwest Texas conference was more than a hundred thousand dollars behind on the collection of this fund.

The two sessions of the conference, McMurry and Clarendon, are to have right of way in the conference during the early months of the year.

The choosing of a place for the meeting of the next conference will come up tomorrow. A number of cities are ready to bid.

NEGRO KILLING

(Continued from Page 1)

done in order to destroy their finger prints. One of the axe heads, covered with blood, apparently was used to hack Evans' head.

Word of the triple killing did not reach authorities until Thursday when a frightened negro crept out of the woods and told a country store keeper a few miles away. The store keeper telephoned Bassett Blakeley at Houston.

Mr. Blakeley had just returned to his office from a conference with Sheriff Binford about the killing of Wallace Crowder a few days previously. Wallace Crowder was shot to death in a quarrel with Sally Brown and her husband, both of whom were burned in the Wednesday night raid.

Will Ivins, negro employee of the Blakeleys, is in the Harris county jail charged with the murder of Wallace Crowder. He told officers he shot the white man after Crowder fired on him with a pistol.

Although the killing took place in

Re-Adjustment Sale

Initiative is the ability to do the right thing without being told. Business initiative is "efficiency"—the power of leading, of quickly realizing conditions and making speedy readjustments.

We have kept in close touch with our customers and their needs. Owing to the prevailing cheap price of Cotton we realize that a great percentage of our customers will not have as much money to spend for dry goods as they would have had. We have anticipated this and acted. We have planned this big event for your benefit for weeks in advance.

Anticipate your needs for the winter and buy early from our large and complete assortments.

Beautiful Luncheon and Bridge Sets Hand Embroidered of Finest Quality Pure Linen

\$4.95

(Each Set consists of 35" Cover and Four Napkins)

What a good looking foundation for a delicious luncheon a cherry, hand-embroidered Linen Set makes! The ones on display are of fine quality Pure Linen, exquisitely embroidered in Guaranteed Washable Cottons and lustrous Rayon (Art-silk)—some with Punch Work Embroidery and some with novel Cross Stitch Designs. Charming in design—excellent in quality—in every wanted pattern,—for there are small designs—bouquets—flower motifs baskets and teapots—all so colorful and pleasing that they are just the gift one wants to give. These beautiful Luncheon Sets make such graceful gifts—and if you are wise you'll buy several of these sets for future use, for the prices and gay charm of the designs will meet with every taste and purse.

EACH SET ATTRACTIVELY PUT UP IN FANCY BOXES, IDEAL FOR GIFT-GIVING
