## NORODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin—With Karl Crowley of Washington, solicitor of the Post-office Department, definitely entered as a candidate for Governor, and Bill McCraw and Ernest Thompson at work on platforms which they expect to make public within ten days, the week-end saw the Governor's race in Texas pretty well shaped up. Only the action Jim Ferguson planned to take remained a doubtful factor. The Ferguson enthusiasts insistently circulated reports here that Mrs. Ferguson will enter the race, and will make her announcement "in a few days", but this is the same story they have been telling in the Austin Hotel lobbies for weeks. Some newspaper speculation that "Farmer Jim" might support Crowley was heavily discounted here, because Crowley's announcement, if it reflects what he believes in, is diametrically opposed to most of the things that Ferguson stands for. Of late years, Ferguson has advocated the sales tax, almost to the exclusion of every other issue. There was nothing in Crowley's announcement to indicate he embraces the Fergusonian school of political thought. As a lone wolf, the experts here do not concede Crowley a place as a leading candidate, unless he surprises the folks and turns out to be a super-campaigner. His slashing attacks upon utilities and natural resources developers are not calculated to enlist the interest which contribute most liberally, as a rule, to campaign funds, and even the candidate himself did not appear to be very hopeful of his success. His talk of \$2,000,000 campaign funds for Thompson and McCraw drew a laugh, and McCraw, talking off the record, remarked: "If he'll show me where there is a \$2,000,000 campaign fund, I'll give him half of it, and get out of the race."

### MCCRAW OFF TO FLORIDA

The Attorney General was scheduled to leave the state for several weeks about April 11, to appear in a hearing on the Green estate tax case at Miami, Fla. He was planning to announce his platform before he leaves, and resume active campaigning soon after his return.

Thompson, preparing also to announce a platform, was busy making arrangements for the opening of his campaign at Waco, April 12, where supporters from many Central Texas counties will gather to hear him fire his opening gun. Crowley has returned to Washington, to wind up his affairs and resign from his Federal job, since Federal regulations require such action when employees enter an elective political race.

### PHARES IS OUSTED

Capt. L. G. Phares, organizer and chief of the State Highway Patrol, fell victim to the political storm which has broken about his head several times in recent years this week, and was removed from the Highway Patrol job by the Public Safety Commission. He will be assigned some inferior post in the department, members of the commission said. Capt. Homer Garrison, who has been Phares' aide, was named to succeed him. The Commission reported he was removed for "incompatibility and a lack of cooperation with other units of the Department." The action is an aftermath of the bitter political rivalry that has existed between the Highway Patrol and the Rangers, ever since they were combined under one directing head. Phares was named first director of the department of public safety, but only after a bitter fight made by Rangers and their friends, and he finally succumbed to this pressure and resigned after a short service returning to the Highway patrol job. Phares, ill at his home, has asked the Commission for a full explanation of his removal.

### COOL HOUSE PASSES

Simple burial rites of the Episcopal church with burial at Houston for Col. Edward M. House removed from the Texas

## Two New Trustees Elected Saturday

Two new trustees, Wiley Walker and August Hackfeld, were elected Saturday along with T. J. Riden who was re-elected. T. J. Riden received 135 votes, Wiley Walker 79, and August Hackfeld 112. Jess Gross received 57, Wade Preston 56, and Wilbur Coffee 21. The latter two were not on the ticket. A total of 163 votes were cast.

### APRIL SNOW FALL HEAVIEST IN YEARS

The heaviest April snowfall in this section for years came Wednesday night. Probably two inches covered the ground early this morning. The snow was accompanied by a strong north wind with freezing temperatures. The grain and fruit crops are in danger.

political scene one of its most influential figures, following his death in New York. Col. House, a mysterious figure who dislikes publicity, was the "maker" of three Texas governors, and rose to be the closest friends and adviser of Woodrow Wilson, in whose cabinet he placed three distinct guished Texans. President and Mrs. Franklin Roosevelt, and many high ranking foreign officials, sent floral offerings for the final rites of the soft-spoken Texan who wielded a powerful influence in national and international affairs after graduating from his political apprenticeship in Texas.

### NAMES AND NEWS

The Court of Criminal Appeals sidestepped passing upon the eligibility of Judge Harry N. Graves, when it ruled the contest of Graves' eligibility brought by Waxahachi attorneys, contending he couldn't sit on the court because he was a member of the Legislature that raised the pay of the judges, was without standing. Lawyers here say the only way Graves' eligibility could be attacked would be a quo warranto proceeding by the Attorney General, and few believe such an action will be brought. The Federal Bureau of Public Roads has approved highway projects in Texas costing \$15,900,000, on which the U. S. matches the State funds, for the 1939 program starting July 1. The Highway Department is several months ahead of last year in preparing its road plans for the new 1939 program. Rail Commissioner Ernest Thompson, who offered to go to jail in a contempt case brought in a Dallas District court in connection with litigation by the Lone Star Gas Co. to keep the Rail Commission from aiding El Paso and other cities in a gas rate battle, won't have to go to jail, after all. The Fifth Court of Appeals held the Dallas court had no jurisdiction, and the litigation will have to be brought in Travis County courts, upholding the contention of the Railroad Commission. Karl Hoblitzelle, theatre magnate and civil leader of Dallas, has undertaken to head up the movement to raise \$500,000 by public subscription, with which to finance Texas' participation in the San Francisco and New York world fairs. Seizure of foreign oil properties in Mexico will do little to relieve the surplus oil situation in Texas, officials here believe, since only about 9,000,000 barrels of Mexican oil were sent to the U. S. last year—equal to a week's run of Texas oil. The prospect now is that the Sunday shutdown policy will have to be continued at least another month, as surplus production continues to pile up in this country. Seeking to make the unicameral legislature plan an issue in the Lt. Governor's race, Sen. G. H. Nelson, of Tahoka opened his campaign this week at Atlanta, in East Texas. The Lieutenant Governor couldn't do much about the unicameral legislature, since it would require a vote by the people on a constitutional amendment to try it in Texas.

G. K. Baker was a business visitor in Abilene Monday.

## Architect Employed Workers Conference Meets Here Tuesday

The Castle Company, firm of architects in Abilene, was employed by the board of trustees Tuesday night to draw the plans and specifications for the proposed gymnasium - auditorium. The firm is to present the project to WPA for approval, and is also to ask for a PWA grant. Actual work on the project cannot begin until it is approved by WPA.

The two new trustees, August Hackfeld and Wiley Walker, were sworn in at the meeting Tuesday night and the board organized. Thomas Riden was re-elected president, and J. B. Mahon, secretary.

### ATTEMPT MADE TO BLOW LUMBER YARD SAFE

An attempt was made some time Wednesday night to blow the safe at Higginbotham-Bartlett Lumber Company. For some reason the burglar left without getting into it. Entrance was gained through a rear door by cutting a panel with a knife. Most of the tools used were gathered up in the lumber yard and were left by the safe. Finger print expert Homer Bradford of the Sweetwater police came to Loraine Thursday morning to get prints of the culprit.

Ammons aged 72 years 6 months 14 days; Pedro Arenos aged 2 years 15 days.

## Workers Conference Meets Here Tuesday

Workers Conference of the Mitchell-Scurry Baptist Association will meet with the Loraine church Tuesday, April 12, in an all day meeting starting at ten o'clock.

Special music by Hardin-Simmons University and a Missionary sermon by Dr. N. A. Moore of Hardin-Simmons are high lights of the program. The program follows:

10 A. M., Song Service led by Mr. Burgess.  
10:15, Our Mission Fields—Rev. T. A. Patterson  
10:45, The Blessings that come to our churches from an active Mission Program—Rev. Ira Harrison  
11:15, Special Music—Hardin-Simmons University. Missionary Sermon—Dr. N. A. Moore, HSU.  
12:00 Noon—Lunch  
1:15 P. M., Board Meeting and W. M. U.  
2:00, Musical Program—HSU.  
2:15, Evangelistic Program—Rev. J. J. Strickland.  
2:45, Back to the old path—Rev. M. F. Richardson.  
3:00, Altar Fires—W. A. Strickland.  
3:15, Adjournment.

### W. H. GARRETT OF COLORADO DIED SUNDAY

Funeral services were held at 4 o'clock Monday afternoon at The First Methodist Church in Colorado for W. H. Garrett, 65, well-known Colorado lawyer and former Mitchell county attorney who died unexpectedly Sunday.

Garrett was found dead on a couch in the living room of his home at 11 o'clock Sunday morning. He had complained of being ill during the night, but was apparently improved Sunday morning and had dressed for the day. A son, J. C. Garrett, discovered his death.

Born near Montgomery, Ala., on Nov. 8, 1872, Mr. Garrett came to Texas as a young man, living in and near Stephenville. He married Sallie Morton of Stephenville in 1898. They lived in Stephenville for several years, and moved to Santa Anna in 1913. They came to Colorado in 1920.

In addition to serving as Mitchell county attorney for five years, Garrett was also city attorney for a time.

Survivors in addition to Mrs. Garrett and three sons, Ted of Breckenridge, J. C. and Charles of Colorado; a daughter, Nelda Garrett of Winters; a brother, J. T. Garrett of Santa Anna; and a sister, Mrs. Allie Raney of Colorado Springs, Colo.

### Happenings at the Baptist Church

Thank God for a most glorious day last Sunday. Great crowds attended the services and we had seven to join with us to help do the work of the Lord. We are very happy. I have always thought, I still believe, that the Lord will come to church if we will just let him, but we must let Him have first place in our hearts and in our church. God says "Try Me and see if I will not open the windows of Heaven and pour you out a blessing." Lets try Him by having faith. Study His Word. Pray Be faithful.

Our B. T. U. is starting off in a great way. 83 were present last Sunday with 67 right on time. Lets keep it going for Him.

We had fifty in our choir last Sunday morning and about that many Sunday night. It does our heart good to see this large choir and hear them sing for the glory of the Lord.

Sunday School was well attended and on time. The offering was good, but how about you and your part in all this. Get on board brother, sister, the ship is moving out. Get on, I say, attend all the services next Sunday, be on time and bring an offering.

M. H. Godfrey, pastor.

Mr. and Mrs. N. J. Brians and family visited Mr. and Mrs. Dee Fagan Brians in Sweetwater Sunday.

Mr. and Mrs. Henry Neill visited in Coahoma Sunday afternoon.

## Dr. Bruce Johnson To Start Work On Clinic Monday

### TWO COUNCILMEN ARE RE-ELECTED

Two members of the city council were re-elected in the city election held Tuesday. One new member was elected. Claude Spikes and O. I. Griffin were re-elected and G. A. Hutchins is the new member.

Three other names were on the ballot. The vote was as follows: Claude Spikes 48, O. I. Griffin 35, G. A. Hutchins 34, Wade Preston 27, Woodrow Pratt 23, and C. F. Glass 21. Only 66 votes were cast.

### CHANEY-DRAPER

In an afternoon ceremony read Sunday in Abilene at the home of the officiating minister, the Reverend Hamblen, Miss Irene Chaney became the bride of Mr. Joe Tom Draper of Loraine.

The couple was attended by Misses Adalou Ford, Iona Chaney of Tuscola, and Messrs. Isom Cranfil of Loraine, and John Chaney of Tuscola.

Mrs. Draper is the daughter of Mrs. Maud Chaney of Tuscola. She is a graduate of the Tuscola high school and studied four years at San Marcus State Normal and McMurry College. Her bridal attire was navy blue sheer with blue and white accessories.

Mr. Draper, the son of Mr. and Mrs. J. T. Draper of Loraine, is a graduate of the National Business College in Abilene. He is farming near Loraine where they will make their home after a short wedding trip.

Their many friends and acquaintances wish for them a happy and prosperous wedded life.

### MRS. J. M. PATE BURIED LAST FRIDAY

Funeral services for Mrs. J. M. Pate, 78, were held at her home Friday afternoon at two o'clock with W. R. Woods officiating. Burial was in the Loraine cemetery under direction of G. W. Hendrick.

Mrs. Pate died Thursday night at eight o'clock following an illness of several weeks. She had been suffering with a broken leg since last June.

Besides her husband, J. M. Pate, she is survived by two daughters, Mrs. J. D. Yarbrough and Mrs. J. T. Riggs, and W. A. Arpe who was reared by her. Sixteen grandchildren also survive.

Six grandsons, Frank, D. S., Curtis, and Alfred Riggs, and Foy and J. C. Yarbrough, were pallbearers.

### CLEANUP CAMPAIGN IS BADLY NEEDED

No date has been set as yet for the annual cleanup campaign in Loraine. This week has been almost universally used over Texas but Loraine's mayor has not seen fit to issue a proclamation on the subject.

If there is any town anywhere that needs a genuine clean-up, paint-up campaign Loraine is it, and we see no reason why one should not be conducted in the near future.

When and if the mayor does set the date and the city promises to haul away unburnable refuse let every citizen clean his premises thoroughly and if possible apply a coat or two of paint to homes.

Last year the city council promised to provide trucks to haul away rubbish but after the citizens had cleaned their premises the trucks failed to come and haul it away. It is doubly necessary this year that trash be hauled away because some of it placed in the alleys last year is still there.

A clean city is a healthy city.

### FIRST NEON SIGN INSTALLED AT MARTIN'S

The first neon electric sign to be placed in Loraine has been installed this week at The Martin Drug Store. The sign is advertising Frigidaire Meter Miser. The Martin Drug Store has the agency for all of Mitchell County for Frigidaire.

Dr. Bruce Johnson expects to start work next Monday morning on a native stone structure to be used as a clinic. The site for the building will be the center of the block on the George Howell property just west of the lumber yard. Dr. Johnson recently closed a deal for the property. Tearing down of the old hotel, a Loraine landmark, will be started this week if it can be vacated.

Present plans call for eleven rooms built in an L shape with a large hall through it. Five of the rooms will be used as bedrooms to care for medical patients. Only minor surgery will be practiced at the clinic at present. Later Dr. Johnson expects to add rooms for major surgery.

### RUTLEDGE-GREEN

Charles Rutledge of Loraine and Miss Mary Green of Nashville, Arkansas, were united in marriage in Arkansas last Thursday and arrived in Loraine Sunday.

Mr. Rutledge was accompanied to Arkansas by C. E. Green who is a cousin to the bride.

Charles is the son of J. F. Rutledge, pioneer residents of this community. The bride is the daughter of Mr. and Mrs. P. A. Green of Nashville, Arkansas.

The couple will make their home on the C. E. Green farm south of Loraine where Mr. Rutledge is farming.

### BAPTIST W. M. U.

The ladies of the W. M. U. met Monday afternoon in their monthly missionary program in the home of Mrs. R. E. Bennett and Mrs. Earl Jackson, with Mrs. Sheppard, Mrs. Oren Coon, and Mrs. Ray McBride as joint hostesses.

The program: First Sheaves of Golden Harvest and Mission Work Among the Negro. The song, Help Somebody Today, was led by Mrs. Hubert Thomas. The devotional was given by Mrs. Thornhill who read a portion of 4th to 26th chapters of Matthew. Prayer was led by Mrs. McCollum.

The program was carried out very beautifully. There were sheaves of brown and gold on the table and as each one rendered her part the gold sheaf was turned. This was to show that when each of God's children do their best the world can see and will be blessed. There were 11 on the program and we are so glad to say that everyone was present.

After the program the president, Mrs. J. C. Hall, opened the business session. All monthly reports were read and all were very good, especially the personal service report which follows: 10 trays, 59 sick visits, 10 visits to shut-ins, 7 visits to strangers, 22 other visits. Garments given away were valued at \$10. We made all plans for the junior-senior banquet which is to be held the 15th of this month. After the business session Mrs. H. W. Bennett dismissed with prayer.

During the social hour delicious refreshments of meat salad, pickles, toasted crackers, fresh apple pie with whip cream and coffee were served to 45 members and 5 visitors. The visitors were Mrs. H. W. Bennett, Mrs. Munns, Mrs. Edwards of Maryneal, Mrs. E. P. Kuck, and Mrs. Wilcox. We were glad to have these ladies with us, we always appreciate visitors and invite you to come and be with us any time.

Mrs. Thomas Riden and Mrs. John Johnson have had charge of these programs for the past three months and we appreciate the splendid service they have rendered. Mrs. Godfrey and Mrs. Pratt will have charge of the programs for the next three months.

Regular Bible study will be held at the church next Monday afternoon. We had such a wonderful meeting last Monday, lets all determine to be present each Monday and do our part for our Lord and see how He will bless us in our work. Remember, He asks from everyone their best.

APRIL 7 1938

## WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

**NEW YORK.**—Leslie Hore-Belisha, British secretary of war, made himself somewhat of a national hero several months ago when he shook up the army command, upped the youngsters and sent the oldsters back to their club chairs. The report of his ultimatum demanding a change of foreign policy is a stand-out in the current news.

There was something like consternation among British conservatives early in 1937, when Prime Minister Chamberlain named the incidentally Jewish Mr. Hore-Belisha for the war post. There was no hint of anti-Semitism in their attitude, but just then certain optimists among them were trying to tool Britain into the German orbit, and there were alarmed predictions that Hitler would be enraged and seek quick vengeance.

That didn't come off, and the new war secretary started a whirlwind army clean-up and all-around reconditioning campaign, to the satisfaction of all hands. Seventy-nine-year-old Sir Ian Hamilton, who had been in command at the Dardanelles, said, "Thank God we are under a proper soldier and will not be shot sitting down."

He has spent a lot of time badgering his elders, and still has many of them to work on, as he is only forty-three. When a brash young Oxonian, he ran for parliament, his opponent tagged him as "the nonentity of the college bench." He nailed this on his mast-head, spoofed the opposition cleverly, and romped in.

He was a dispatch carrier in the war, then a major, a reporter on a London newspaper, with convenient underground pipelines to the front page and the headlines.

He became financial secretary of the treasury in 1932 and later minister of transportation. He is a demon for detail and has swarmed all over England, inspecting equipment, barracks and army kitchens.

He is of medium stature, round-headed, with roached, graying hair, unmarried and given to night forays, checking this or that detail of the military establishment.

AT LEAST six times in the past 150 years, the Rothschilds have been counted out, and they have always come back—like John Barclay and Old King Cotton. Now the arrest of Baron Louis von Rothschild is reported from Vienna. The era which founded their dynasty was disquietingly like this one. The Romanoffs, and the Hapsburgs, Maternich and Disraeli and all the other kings, conquerors and statesmen came to terms with them.

Baron Louis is the head of the house. The catastrophic fall of the Creditanstalt bank of Vienna in 1931 was supposed to have wrecked them.

A few weeks later, they were shoveling money into American securities, and, it was reported, snagging a stray million here and there by a fast overseas play on francs, an old family custom.

Louis and his brother, Alphonse, were living in regal splendor when the Creditanstalt failed. They had great estates and magnificent art galleries, shooting lodges, a huge Franz Lehar chorus of retainers, deer parks and a brace of medieval castles. Much of these holdings slipped away, as Louis, with somewhat less than the usual family zest and acumen in financial affairs, turned to a study of philosophy and the arts.

It is 132 years since Napoleon, after Austerlitz, made mince-meat of the Holy Roman empire and even more ruthlessly dismembered Austria. Nathan, James and Solomon von Rothschild, sons of Mayer Anselm, founder of the line, not only saved their holdings, but extended their dominions to the remotest corner of Europe.

These vast ramifications of their fortune, one of the largest in the history of the world, were in land, steel, coal, manufactures and munitions, and, in later decades, in oil and hydroelectric power.

Libraries have been written about them, one notable record being Zola's "L'Argent." Their continental money matrix has been a stabilizer at times. It is possible that the Vienna jail door clangs the end of a dynasty and an epoch—but not quite certain. History will tell.

## News Review of Current Events

### "REFORM" BILL PASSED

Measure Giving President Vast Powers Squeezes Through Senate . . . Mussolini Ready for War

Senator Pat Harrison of Mississippi, chairman of the senate finance committee, is here seen telling members of the press what his committee had done and proposed to do to the revenue measure so that it would be less objectionable to business and to the country in general. It already had made radical changes in the bill as it was passed by the house.

### Edward W. Pickard SUMMARIZES THE WORLD'S WEEK

#### Wide Powers for President

PRESIDENT ROOSEVELT'S reorganization bill squeezed through the senate by the close vote of 49 to 42, after a fierce fight. A motion to recommit, which would have virtually killed the measure, was defeated by a vote of 48 to 43.

Opponents of this bill are convinced that it paves the way for a dictatorship in the United States. Mr. Roosevelt made public a letter to a friend in which he disclaimed any intention to become a dictator under the powers granted him by the bill. He said he was firmly opposed to an American dictatorship and that he has none of the qualifications which would make him a successful dictator.

The special reorganization committee of the house reported a new bill as a substitute for the senate measure but differing from it only slightly. Its speedy passage was predicted by Majority Leader Rayburn.

The bill, as it was passed by the senate, authorizes the President, by executive order, to transfer, re-group, co-ordinate, consolidate, segregate the whole or any part of or abolish any of the 135 bureaus, agencies, and divisions of government.

Excepted from this section, however, are the federal reserve board, the corps of engineers of the United States army and the independent, quasi-judicial and regulatory establishments, such as the board of tax appeals, the communications commission, the federal trade commission, the interstate commerce commission, and the national labor relations board.

It abolishes the civil service commission as now constituted, and the general accounting office. It creates a new "department of welfare," and it authorizes six more \$10,000 a year assistants to the President.

#### Senators Are Angered

COMMENTING to the press on the senate's action on the reorganization bill, the President made the remarkable statement that it proved the senate could not be purchased by organized telegrams based on direct misrepresentations.

Sen. Johnson

This led to an outburst of indignation in the senate. Hiram Johnson of California started a hot debate with the assertion: "I don't know just what was meant by this remark, but I do know full well the implications which arise from it. Did the President mean that the senate could be purchased only by promises of projects in particular states, or by marshals or other officials in particular localities?"

Senator Wheeler of Montana said that it was a "coincidence" that Senator James P. Pope, Democrat of Idaho, had voted for the reorganization bill about the same time that he had been able to get for his state an appropriation of close to \$1,000,000 to start a dam project. When Pope and his friends indignantly protested, Wheeler said he was satisfied there was no connection between the two matters.

The citizens who sent between 75,000 and 100,000 telegrams asking senators to vote against the reorganization measure are still to be heard from concerning the President's comment.

#### Adjournment Prospects

CONGRESS wants to adjourn by the first of May, but leaders foresee three possible obstacles to this plan—the wage-hour bill, the

Hungarian debt settlement proposal and railroad legislation.

Democratic Leader Barkley said he hoped the senate could dispose of the tax revision bill, the \$1,100,000,000 naval expansion program, and the proposed \$1,000,000,000 relief measure in April. This would clear the senate calendar, he said, unless consideration of Hungary's debt program should result in a lengthy senate debate on the entire war debt question.

Representative Rayburn, house floor leader, said he thought that chamber could complete its present program by May 1. But other members said that if efforts to revive the wage-hour bill are successful, the picture may change.

#### Ten Men to Probe TVA

FIVE senators and five representatives will do the investigating of the Tennessee Valley authority, for the resolution for a joint committee inquiry was adopted by the senate without a dissenting vote, and was approved unanimously by the house.

The resolution was introduced by Sen. Alben W. Barkley of Kentucky, majority leader. It calls for investigation of charges of malfeasance and dishonesty made by the ousted chairman, A. E. Morgan, and includes eight of the twenty-three charges originally made by Senators Bridges and King in their first resolution for a congressional inquiry. It also calls for a "fishing expedition" into the activities of private utility companies and their injunction suits against the TVA.

Sen. H. Styles Bridges, the New Hampshire Republican, in a radio debate declared the administration was trying to obscure the charges of scandal within the TVA by forcing the inquiry to cover the private utility angle. "The administration's strategy has been to cover up TVA dirt by a phony counter-attack," he said.

He was answered vigorously by Sen. Lister B. Hill of Alabama. "Italy Ready for War"

BENITO MUSSOLINI put a chip on his shoulder and dared anyone to knock it off. In a speech before the Italian senate which was broadcast to the world, Il Duce said: "Italy's land, sea and air forces are tuned for rapid and implacable war." He warned Europe, and especially France, of his readiness and willingness to fight, and said he subscribed to the theory that "the best defense is offense."

He called the Italian submarine fleet the largest in the world, said the nation's air fleet was one of the best in existence, and asserted that, if necessary, he can put an army of 9,000,000 men in the field.

"I will be in supreme command," Mussolini cried, thrusting out his chest.

"Military problems are fundamental ones," continued Mussolini. "I dedicate the greatest part of my day to them. Anyone who dares to attack the rights and interests of our fatherland will find in the land, sea and air the immediate, resolute and proudest answer from the Italian people's arms."

France was warned also by Nazi Propaganda Minister Goebbels in a sensational speech in Vienna. Proclaiming the might of the new Germany, Goebbels shouted: "Germany is now strong enough to resist any attack from France. There can no longer be any question of a promenade from Paris to Berlin. Paris is no longer the heart of European politics. The heart is now Berlin."

## SEEN and HEARD around the NATIONAL CAPITAL

By Carter Field

Washington.—In considering the new naval appropriations it must be remembered that this billion-dollar program, as it is called, is in addition to the regular 1939 program, which had already been provided. Besides, it is in addition to new building now going on but authorized previously.

For instance two battleships, totaling 70,000 tons, are now under construction. Two more of 35,000 tons each, are in the so-called regular 1939 program. But three more, with 105,000 tons additional tonnage, are in the so-called billion-dollar program. This makes the total additional tonnage to be eventually added to the present United States navy 245,000 tons!

Incidentally even this may be boosted. The navy has been figuring on still bigger ships, and may get an amendment in before the keels are laid, which would make the tonnage of each of the three battleships provided in the new billion-dollar program as much as 43,000 tons. Which, if it happens, as it probably will, would make the boost, in battleships alone, 269,000 tons.

No new aircraft carriers were provided for in the regular 1939 program. But there are two now building, with a total tonnage of 34,000. In the billion-dollar program two more, with 30,000 total tonnage, are added, making four new carriers and a total of 64,000 tons to be added to the navy.

Eight cruisers are now under construction, totaling 80,000 tons. The regular 1939 program added two, totaling 10,000 tons, but the billion-dollar program adds nine more, with 68,754 tons additional. Thirty-six destroyers are under way, with a total of 56,200 tons. The regular 1939 program added eight more, with a total of 12,000 additional tons. Along comes the billion-dollar program with 23 more, adding 38,000 tons.

#### Needs New Destroyers

So no less than 67 destroyers are to be added to the navy!

This is not so surprising when one considers the history of destroyers in the American navy. At the time of the World war this was one type of vessel which could be rushed to completion with some hope that they would be finished before the war ended. Moreover, the destroyer was considered one of the most effective agencies with which to fight submarines, at the time the chief danger to the allies.

So America rushed out destroyers. The end of the war found the navy with more destroyers than it knew what to do with. Most of them were tied up, their parts greased, and kept in storage, so to speak. As a result there was not much destroyer building, especially as the armament limitation conference came along in 1922.

But naturally these have all grown obsolete together. So the navy really needs a new fleet of destroyers.

Now under construction also is one destroyer tender, of 9,450 tons. The billion-dollar program adds five more, with a total of 45,000 tons. It also adds four seaplane tenders, with a total of 33,200 tons to the one authorized previously, at 8,800 tons.

In the regular 1939 program the navy got an oiler of 8,000 tons, a mine sweeper of 600 tons, and a fleet tug of 1,150 tons. To these will be added three repair ships, totaling 28,500 tons, in the billion-dollar program.

#### Chinese Get a Hunch

A Chinese commerce raider, aimed at accomplishing against Japanese commerce what the famous Confederate privateer Alabama did to United States shipping during the war between the states, is under serious consideration. Officially this will be denied, of course, but several factors in the Alabama situation are being studied by those interested.

The Alabama, it will be recalled, was fitted out in England, and had a very long and effective adventure in destruction before she was finally sunk by the U. S. S. Kearsarge off Cherbourg.

The present idea is said to have originated due to publicity for the grievance of American fishermen and the salmon industry generally in the Pacific Northwest and Alaska. In fact, the germ of the idea is said to have been sprouted when an indignant union leader wanted to know why the United States couldn't have an "accident" similar to the sinking of the Panay by Japanese, and then be very, very "sorry" in a note to Japan.

"It," he added grimly, "Japan ever heard about it."

A shrewd Chinese official is said to have read this, and then remembered the Alabama episode.

soned, "why could not the United States fit out a warship—just a little gunboat or an obsolete destroyer maybe—for the Chinese?"

Vigorously denying that anything of the kind would be tolerated, an official pointed out the rigidity of the neutrality laws, and the President's proclamation so recently restated by Secretary of State Cordell Hull, and then slyly added:

#### That's Different

"Of course, if the Chinese should succeed in doing anything of the sort from any other country's ports, it would be none of our business. Virtually we have recognized a state of belligerency, and even if Japan should argue that the commerce raider was in truth a pirate, it seems to me we have been bothered, in the very recent past, with so called pirate submarines in the Mediterranean."

"I don't think such a thing would annoy the Russians any," another official commented slyly. "It just might be that they would lend a little help."

This last, so far as is known here, is not in the picture at all, though use of adventuresome young Americans is said to be distinctly a part of it. For the scheme, the Chinese would need men experienced in handling small naval guns, though they need not be anything like as expert in their line as the American aviators already aiding the Chinese.

The idea of a submarine, it is said, has been considered but reluctantly abandoned. Unless the Russians would actually supply an experienced crew, it was considered impossible, it is understood, to obtain men capable of operating such a craft, even assuming the Chinese could get possession of an undersea boat.

But even a little gunboat, it is contended, could cause Japanese commerce a lot of grief before it was finally run down.

#### Reorganization

President Roosevelt has succeeded better than any but the most optimistic of his advisers had dreamed, a couple of months back, in his drive for reorganization of the government. It is due to one of those strange political factors, and is directly connected with the President's technical defeat on the Supreme court enlargement battle.

Unfortunately for those who disagree with the President on his reorganization proposals—and privately the measure has very few friends even among the most loyal administration Democrats on Capitol hill—the men who took the leadership in the fight to hamstring it were the same men who led the fight against packing the Supreme court.

At first blush this might appear an advantage. They were the victors in that more spectacular battle. Victory should be like a snowball, growing as it rolls. As with Napoleon up until Russia. As with Hitler up until heaven knows when.

But this is politics, not war, and while there are some similarities, there are some sharp differences. Any fight on Capitol Hill can be won only with the aid of a very large number of Democrats, men who are elected by the Democratic organizations back in their states. It so happens that the Democrats have almost unprecedented majorities in both house and senate.

Now a Democratic senator, figuring both on his reorganization and re-election fight, has to walk carefully.

#### Watch Their Step

A great many of the senators who made the victory of the anti-court packing leaders possible were not so spectacular as Sen. Burton K. Wheeler in that fight. Now they are unwilling to side with Wheeler again, lest to them be attributed all the hostility to the administration that is connected with Senator Wheeler's motives.

In short, if there had been no court fight, the President would have less strength in his present fight to win more power for the chief executive in the conduct of the government.

Beyond the shadow of a doubt, had there been no court fight, Senator Wheeler's amendment, which would have required the approval of congress to any change in the government the President might make, would have carried instead of losing by a vote so close that the change of three senators would have reversed it.

Had there been no court fight, the amendment of Sen. David I. Walsh of Massachusetts, to exempt the civil service commission from the President's dictatorial powers would have prevailed instead of being defeated. But Walsh, too, had some prominence in the anti-court packing fight. The Bay State senator is not afraid of being branded. He knows his state pretty well, and has never been accused of political stupidity. But others, lacking his grip on their states, also lack his courage, however they may agree with him on this issue down in their hearts.

#### We Need Salt

It has been stated that the average person needs about 30 grains of salt, but takes 90 to 150 grains per day. Perhaps 100 grains per day is a fair average. There are approximately 7,000 grains to 1 pound avoirdupois weight of salt, so the average would be some 5 or 6 pounds a year.

## DORIS DENE'S COLUMN

Don't Believe Parents 'Narrow Minded' Until You Know Them.

DEAR DORIS DENE: I am a girl of seventeen and am kept very much at home by an over-strict mother and father. They are kind to me in some ways and will allow my friends to come to the house but they have ridiculous ideas about going out. I do not go out very often and resent it very much. Mother seems to think I am safer at home. As she has no idea of what young people are like, it seems to me that it is unfair of her to interfere. She talks about the boys I know as if they are men she'd known all her life—when really she hasn't the faintest idea what boys are all about. Mothers and fathers might be expected to keep out of what they don't understand.—I. S.

ANSWER—Sometimes it's the fault of the mothers and fathers that they seem to be such utterly fleshless and bloodless individuals. In their desire to bring up the young as they think they should they present a picture of their sterling virtue which would cause many children to regard them as less than human.

Actually though, mothers and fathers are not so short on memory as they seem. If they could be persuaded to take off the mantle of ultra respectability and virtue, and show themselves for the human beings they really are, many a son and daughter would be amazed at how much the old folks know about life and love.

Just because mother doesn't run around town with gigolos doesn't mean that she was always a settled-down humdrum sort of person. She remembers what it felt like to be in love—and she knows how near she came to making a fool of herself over the town's bad boy, and she can recapture even now the thrill of stolen joys and dangerous pleasures.

When she discusses her daughter's boy friends with assurance, she is remembering her own suitors of the past, and how much time she wasted herself in the wrong company. And she tries to steer her daughter away from the mistakes and the follies she herself committed.

Father may have turned out to be a monument of respectability but when he gives his son advice, he's speaking from real experience. He's remembering the scrapes he got into which gave him nothing but pain and humiliation. He's reliving the moments when he found that his best girl was just a weak little liar who made love to everybody—he's tasting again the bitter gall of disillusionment, and he's trying to persuade his boy to keep clear of bad entanglements.

DEAR MISS DENE: I have a dear friend, a man of forty-five, who is being very kind to me, and taking me about a good deal. My mother and father disapprove of him and I cannot get their consent to my friendship with him. They do not appreciate his intelligence or his experience. I take his advice on a great many problems because I know that he is old and wise enough to give me good advice. This makes my parents furious, although they might be glad, it seems to me, that I have such a wise friend to help me.—Jeanette.

ANSWER—How can anyone explain off-hand why Jeanette's mother and father, probably aged fifty at the outside, should be so utterly incompetent to understand and appreciate a man of nearly their own age? And why should their intelligence and experience be so useless—while the new friend is of such inestimable value?

The very fact that poor old mother and father have always been around, makes some children regard their parents as useful household equipment, rather than as real human beings.

Foolish boys and girls will submit to discipline from outsiders which they wouldn't dream of accepting from their parents. They will hang on the words of an older man or woman who flatters them—and flout the opinion of their parents who have lived and suffered and understood a good deal more than the youngsters ever dreamed of.

Mary will shrug her shoulders lightly over her mother's admonition not to run around with the Brown boy—but she will go next door to Mrs. C.—a pretty widow lady, who has a talent for attracting men—and agree meekly to this lady's dictum that the Brown boy is no fit companion for any girl.

John will tell his father in so many words that he's a back-number and doesn't know what he's talking about when he advises against drinking. But when John meets the golf champion out at the club who tells him solemnly to cut out liquor there's a big reformation in the making.

As I say, it is often the fault of mothers and fathers that their children can't take them seriously as human beings. But it is just as often the fault of the children who assume blandly that parents aren't people at all.

Taking it all in all, most men and women want their children to be happy. That's what they're aiming at. And any boy or girl is safer in taking the advice of someone who is working for his or her best interests—than in trying to work out their own salvation along lines approved of by indifferent outsiders.

WILLIAM MACLEOD RAINE'S

# To Ride the River With

COPYRIGHT WILLIAM MACLEOD RAINE—WNU SERVICE

## SYNOPSIS

Ruth Chiswick of L C ranch, obsessed by fear of danger to her outposts and bull-headed father, Lee, from a band of lawless rustlers headed by Sperm Howard, decides to save him by eloping with young Lou Howard, Sperm's son, and comes to the town of Tall Holt to meet him. While in Yell Sanger's store, a crook-nosed stranger enters, sizes up the situation, and when a drunken cowboy, Jim Pender, rides in and starts shooting, protects Ruth, while Lou Howard hides. Disgusted with Lou's cowardice, Ruth calls off the element, and sends the stranger for her father at the gambling house across the street. There the stranger, calling himself Jeff Gray, meets Morgan Norris, a killer, Curly Connor, Kansas, Mile High, Sid Hunt, and other rustlers, and Sperm Howard. Lee Chiswick enters with his foreman, Dan Brand, and tells Sperm Howard of his orders to shoot rustlers at sight. Jeff Gray returns to Ruth and coldly reassures her of her father's safety.

## CHAPTER II—Continued

"I'm grateful to you for your advice, sir, and I'm sure Father will be," she said, the sting of a small whiplash singing in her voice.

He disregarded her jeer. Apparently he was as oblivious of her annoyance as he was of the pristine glamor of her vital youth.

"Bull-headed was the word you used," he went on evenly. "It suits Lee Chiswick fine. When Pender busted into the Golden Nugget, yore father was reading the riot act to a dozen scalawags waiting for the signal to cut loose at him."

"Whose signal?" she asked, the blood driven from her face.

"Seemed to be Sperm Howard's say-so. Get me right, I'm playing my own hand, and I don't give a cuss whether you smile or snap. I'll tell the old man his dear daughter is here, and you can feed him any story you've a mind to, at any time. If he goes back across the road and gets rubbed out, it is none of my business."

She had lorded it over boys with a high hand. That she could not break through his callousness irritated her. Surprisingly, she felt young and immature, was moved by an impulse to defend herself.

"I'm not ashamed of what I've done," she said, bridling.

"That's nice. Tell him you came to town to buy a paper of pins."

"You're impudent."

"Am I?"

He faced her anger with a long look of amused scorn, then turned away, insolently indifferent. The girl wanted to call him back, to lash out at him with pelting words that would sting, but she was aware that nothing she could say would penetrate his impassivity. His opinion of her had not been swayed by any personal pique.

Gray walked back into the gambling hall.

Sanger had the floor. "Who did this, Curly?" he asked.

Curly pushed a hand through his black hair. "Couldn't tell you for sure, Yell. Half a dozen of us took a crack at him. He rode in asking for trouble and got it. Blazed away with his rifle and handed in his checks pronto. Maybe you better make yore verdict read, committed suicide while temporarily insane."

Norris volunteered information, slanting a sneer at Chiswick. "No objections anywhere, I reckon. We can be bullied just so far."

"No objections from me," Sanger agreed.

Pender came in on my horse Black Diamond, so if you want to make the killing more legal you can claim he was a horse-thief," Curly suggested humorously.

"Or self-defense," Sanger amended seriously.

"Who cares how legal it was?" Norris said. "No four-flusher can come in here and hurrah me."

Dan Brand recognized this as a personal challenge flung at his employer. "Only a crazy fool would try, Morg," he answered amiably.

"You don't need to be carrying a chip on yore shoulder, Morg," Howard said, with a warning glance. "If there is rustling going on, we all want to back up Lee."

"Did you say 'if' there was any rustling?" Chiswick inquired, harsh irony in his voice.

Howard laughed without mirth. "You're hard to please, Chiswick. I don't pick my words like a professor. If you're not on the prod, as Brand claims, you sure have a funny way of being pleasant."

"Did I say I was aiming to be pleasant?" The cattleman let his hard gaze shift from Norris to Howard. "Someone ran off a bunch of 50 of my cows last night. If you expect me to grin and say, 'Help yourselves, boys,' you can have another guess. I'm going to fight."

"When a bull gets to pawing the ground he most generally gets accommodated," Norris insisted, not shifting his narrowed gaze from the owner of the LC.

"Shut up, Morg," interposed Curly affably. "Can't expect a man to sit quiet while he is being stole blind. Tell you what, boys. Some of us will be heading into the hills soon. We'll keep our eyes skinned. Like as not some of us will spot this bunch of L C stuff."

"I wouldn't wonder if some of you did," Chiswick said bluntly.

The cattleman turned to leave the saloon.

Gray stopped him with a gesture. "Just a moment, Mr. Chiswick."

"What you want?" the ranchman asked.

Gray lowered his voice. "There's a young lady over at Sanger's who says she is yore daughter. She would like to see you right off."

"My daughter? What's she doing here?"

"Better ask her."

The red-headed man had nothing more to say. He turned to the bar and ordered a schooner of beer. Chiswick and his foreman walked out of the place.

Out of the corner of his mouth Mile High said to his chief, "That's the guy I was telling you about."

Howard nodded. He observed that Curly was sauntering to the bar. So was Norris.

The big black-haired man gave an order to the bartender. "A Curly special."

Selecting a bottle, the man in the white apron pushed it across the top of the bar. Curly poured a drink and tossed it down his throat.

"Hot enough to melt the tallow

him to town because she was afraid he would get into trouble with the rustler group."

"I know, but—you're so bull-headed, Father."

"Nothing of the kind," he protested hotly. "You wouldn't expect me to let these dirty thieves drive off a bunch of 50 cows at one crack without a squawk, would you?"

She shrugged. "When all those guns roared—"

"They weren't shooting at me, honey." His mind harked back to the reproach she needed. "You had no business coming to town—not to Tail Holt. We stay away from this place. You know that."

"You didn't."

"Dad gum it, girl, I'm your father. You don't have to tell me what-all I can and can't do." He slammed his fist down into the palm of the other hand. "You act like you rule the roost. Well, you don't. Not by a jugful. Understand?"

"Yes," she said, with more humility than was customary, since her mind was still full of the crazy thing she had done.

Ruth was still thinking of her escapade with Lou Howard. She could not understand how it had ever gone so far. She knew now she did not love him, never had.

That she had not seen through his shallow weakness earlier hurt her pride.

Later she knew she would flog herself with her own scorn. She was a lying little cheat for not telling her father the truth. But she dared not confess without preparing his mind first. It would be like Lee Chiswick to walk across to the Golden Nugget to have it out with Sperm Howard.

"We'll go over to Charley Wong's restaurant for supper," Lee Chiswick said. "Dan is waiting for us over there."

Back of the restaurant they found a bucket of water, a tin pan, a thin piece of dirty soap, and a roller-towel much the worse for use.

The cattleman called Wong. "This towel has half of Arizona on it, Charley. Bring a new one—and another piece of soap."

The Chinaman grinned. "Velly good," he said.

Inside the restaurant Dan Brand was waiting at a table in a corner. Across the aisle from him sat Gray.

Ruth touched the cattleman on the arm by way of calling his attention. "This is Mr. Gray, Father. When that drunk man came shooting into Sanger's store he looked after me."

"Looked after you—how?" asked Chiswick.

"Pushed me back of some sacks of potatoes and stood in front of me."

Chiswick offered his hand. "Glad to meet you, Mr. Gray. I reckon my daughter has thanked you, but I'll do it again."

"Nothing worth mentioning what I did, but she thanked me proper," the crook-nosed man said dryly.

"Since you haven't eaten yet, won't you join us?" the cattleman invited.

Gray moved to the other table.

"My foreman, Dan Brand," Chiswick introduced. "Dan, this is Mr. Gray."

The two men shook hands, estimating one another with their eyes. Chiswick motioned Gray to the vacant chair beside his daughter.

They fell at first into casual talk of cows, grass, markets.

"Looks like a country of small ranches," Gray said presently.

"Yes," Chiswick confirmed. "Plenty rough in these hills. Cut up by gulches and canyons where nesters have settled."

"Your ranch is lower down?"

"Yes. Runs up from the Sweet Spring valley into the hills."

"From what I heard at the Golden Nugget I gather the L C is a big outfit."

"My brand is on a lot of stock—or was," the cattleman said grimly.

Gray moved to the other table.

"My foreman, Dan Brand," Chiswick introduced. "Dan, this is Mr. Gray."

The two men shook hands, estimating one another with their eyes. Chiswick motioned Gray to the vacant chair beside his daughter.

They fell at first into casual talk of cows, grass, markets.

## Smart Daytime Fashions

A CHARMING basque frock for growing girls, and a house-dress for large figures, both smart and becoming, both easy to make. Even if you've done very little sewing, these patterns are easy to follow. Each one is accompanied by a complete and detailed sew chart. And a tour

round the house in, this dress is sufficiently tailored so that you can go shopping in it, too. Make it up in percale, gingham, broadcloth or tub silk.

## The Patterns.

1491 is designed for sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2½ yards of 39-inch material, plus 1¼ yards of bias fold to finish the neckline and sleeves.

1395 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 3½ yards of 39-inch material. For contrasting collar, ¾ yard, cut bias.

## Spring-Summer Pattern Book.

Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately

J. H. BALLARD  
(Re-election)

For Representative of the 117th  
District:  
MARSHALL H. PIOR  
TEMPLE DICKSON

**COTTON LONG WAY  
FROM PARITY PRICE**

College Station—"When a  
Texas farmer spent the money he  
received for a bale of cotton sold  
during February of this year, he  
came out of the store with just  
half the goods he would have gotten  
back in February of 1909-1914  
from the sale of a like bale,"  
Geo. Slaughter, Wharton, chair-  
man of the Texas Agricultural  
Conservation Committee, pointed  
out in the course of a recent ses-  
sion of the committee at Texas  
A. and M. College.

"If cotton were selling at 16.2  
cents a pound now, a bale of cot-  
ton would buy just about what it  
would have back in 1909-1914,"  
Slaughter said. "This is what is  
meant by parity price. The spot  
price of cotton in February was  
around 8.1 cents a pound."

Parity cotton payments, or cot-  
ton price adjustment payments  
of 3 cents a pound, which farm-  
ers who cooperate with the AAA  
program will receive on their  
1937 crop, will narrow the spread  
between the price they actually  
sold their cotton for and the par-  
ity price of 16.2 cents.

In February of 1937, the money  
for a bale of cotton brought three-  
fourths the amount of goods  
from a store that a like bale sold

**WHEAT MARKETING  
QUOTA HELPS  
STABILIZE MARKETING**

College Station—Wheat mark-  
eting quotas under the new farm  
act will be proclaimed only when  
the supplies for any year are  
estimated at more than 950 mil-  
lion bushels, according to Geo.  
Slaughter, chairman of the Texas  
Agricultural Conservation Com-  
mittee. The act states that there  
will be no wheat quota for 1938

in 1909 to 1914 bought. The huge  
cotton crop of 1937 quickly re-  
duced the things that a bale of  
cotton would buy at the present  
price level.

The new farm act continues the  
provisions for parity payments to  
narrow the gap between what a  
farmer should be able to buy  
when he sells a bale of cotton  
and what he can buy, Slaughter  
said. That provision, however,  
depends upon the funds to be pro-  
vided by Congress. Whether this  
money will be provided through  
processing taxes on manufactur-  
ed cotton goods or otherwise is  
being discussed at present by  
congressional committees.

**WEEKLY HEALTH LETTER**

Austin, Texas, April 1.—The  
definite increase in the number of  
persons dying from cancer makes  
the subject of tumors a timely  
one. A tumor is a mass of new  
tissue which is of no use what-  
ever to the body. If tumors of  
their manifestations were more  
generally appreciated, much of  
the misery and many deaths could  
be eliminated, stated Dr. Geo. W.  
Cox, State Health Officer.

The malignant tumor known as  
cancer may consist, as in the  
case of benign tumors, of any  
bodily structures such as fat, bone  
connective tissue, superficial lay-  
er of the skin, mucous membrane  
and bodily organs. They grow  
rapidly and may establish second-  
ary growths far from the site of  
the parent tumor by means of de-  
tached cells traveling in the  
blood or invading the sympath-  
etics.

Where benign tumors are con-  
cerned, surgical removal usual-  
ly results in permanent cure.  
surgery or irradiation (X-ray  
and radium) or a combination of  
the two, to be effective depends  
upon early diagnosis and prompt  
professional action.

While a number of cancerous  
growths unfortunately do not  
present early symptoms, many of  
the more common ones do. It is  
the deliberate or ignorant disre-  
gard of such early symptoms that  
has so decidedly occasioned the  
increase in cancer deaths.

The outstanding signals which  
justify a suspicion that cancer  
may be present, though not neces-  
sarily so, are: any lump; any un-  
usual bleeding from any bodily  
opening; a persistent sore; and  
chronic indigestion.

To disregard these signs, which  
may mean cancer in an early and  
therefore curable stage, is to  
flirt with death. Most certainly  
it does not pay to take any chance  
with any kind of a tumor or  
manifestations that indicate the  
possibility of its existence.

**R. E. GREGORY  
IN RACE FOR SHERIFF**

R. E. (Dick) Gregory author-  
ized The News this week to an-  
nounce to the voters of Mitchell  
County that he is a candidate for  
re-election to the office of sheriff,  
subject to the action of the Demo-  
cratic primary July 23.

Mr. Gregory has been serving  
in this capacity for some years  
and needs no introduction to the  
voters. Mr. Gregory stated: "If  
the voters see fit to re-elect me to  
the office I will do my best, as  
always, to serve with fairness and  
justice to all. I hope to see each  
voter before the primary but the  
duties of the office may prevent  
me from doing so. If I should fail  
to see you please accept this as a  
personal solicitation for your  
vote and influence."

unless parity payments are made  
available.

The quota plan for wheat will  
be used only when the total sup-  
ply is so large that prices threat-  
en to fall to very low levels, as  
they did from 1928 to 1934, and  
then only when two-thirds of the  
wheat farmers voting in a refer-  
endum approve of the plan. The  
Secretary of Agriculture is direct-  
ed by the act to announce the  
necessity for quotas on May 15.

**SOUTH CHAMPION**

Charley Rutledge surprised his  
friends by bringing a wife back  
from Arkansas, where he visited  
last week. She was Miss Mary  
Green before her marriage. His  
many friends wish for them a  
long and happy married life.

Miss Esta Banks has returned  
from San Angelo where she has  
been visiting relatives.

Health seems to be improving  
in our community and farmers  
are getting busy again. However,  
the cold snap on the first of  
April has made them a little care-  
ful about planting. Reporter.

**CARD OF THANKS**

We wish to extend our heart-  
felt thanks to our friends and  
neighbors who were so kind and  
sympathetic toward us at the  
death of our wife and mother.

Please accept these fine novels  
...WITH OUR COMPLIMENTS

EVERY year this newspaper  
brings you at least three—  
sometimes more—of the finest  
stories in American fiction, in  
the form of serials which ap-  
pear from week to week. Were  
you to buy these novels, from  
the pens of the highest paid  
writers of fiction in the world,  
they would cost you at least \$2  
apiece in book form. Thus you  
get at least \$6 worth of top-  
notch fiction every year as only

one of the many features in-  
cluded in the low cost of your  
subscription.

Follow these entertaining  
serials starting today. If you  
don't, you will be missing some  
of the best literature being pro-  
duced in America and some of  
the pleasantest hours you ever  
spent. And remember, this is  
only one of the many reasons  
for making this YOUR news-  
paper.

## SENIOR NEWS

The Senior class has ordered the books for the Senior play which is to be given sometime in the near future. The name of the play is "Look Who's Here". It is a very entertaining comedy which you can't afford to miss. Watch For The Date!

## SENIOR PICNIC

In case you wondered what was happening Thursday when the Senior boys were buying out the markets and Senior girls were rushing in and out of stores, chatting and laughing. We were preparing for a picnic. Everyone met at Ronel Thomas from there we journeyed to the Pecan Grove. After a short exploration trip we built a bonfire over which we roasted our weiners and marshmallows. Several bets were made and we wonder if Turk has collected them yet. We really think Miss Hoskinson should get half. After singing songs, and enjoying outdoor games, we returned to town—tired but happy.

## SOPHOMORE NEWS

The Sophomores are getting prepared for the last six weeks exams. Then we will look forward to the finals which follow in May. We hope we can live through them and I suppose some of them will be pretty tough. Let's all study enough to pass them because if we don't it will be worse than ever for next year.

## THIRD GRADE NEWS

We are beginning a new unit. The unit is about Texas, our own state. Texas is the largest, the grandest state in the Union. Texas is larger than any country in Europe, except Russia.

We have learned that Texas is important because she ranks first in cotton, spinach, and pecans. She ranks second in rice. She produces quite a bit of oil and sulphur.

When we learn more about Texas, we will tell you in the paper.

Roy G. Edwards: "I have a most wonderful family tree."  
Blossom Lee Green: "Really, and what are you, the sap?"

## JUNIOR NEWS

It is rumored that a certain Junior girl was seen with a Colorado boy last Saturday night. We wonder who?

There seemed to be three of our Jr. boys out kodaking Sunday afternoon.

Poor Roy G. is very lonesome this week as he has sold his cow.

Iona has been very sad this week because her cat died.

We hope that the Juniors will all pass the exams.

## CLASS OF '35

Oscar Allbright is married to Pauline Robertson and is working at Odessa.  
Loyce and Lloyd Beaty, the twins, are living on a farm near Loraine.  
Helen Bennett is residing at Loraine and is visiting at Big Spring at the present.

Inez Briens is now Mrs. T. A. Alderson.  
Lula Mae Brazil is living near Highland.  
Marie Barron is working in a cafe in De Leon.

W. Y. Burns is now in Rotan.  
Margaret Ruth Edwards is attending Tyler Commercial College.

Joyce Furlow is working at Corpus Christi.  
Vernon Wilson is going to McMurry College.

Emma Louise Zellner is attending Abilene Christian College.  
Lela June Harrell now is Mrs. Loyd and is living at Lubbock.  
Wyona Hardin is attending A. C. C. and Draughan's at Abilene.  
James Jarratt is living on a farm near Loraine.

Lola Mearse is Mrs. Ottis Hardin and is living near Loraine.  
Arnold Marshall lives in Loraine.  
Elmer Martin lives on a farm near Loraine.

Ray Preston is working at Thornhill's Dry Goods in Loraine.  
Winnadel Rowland is now Mrs. Charels Spikes.

Helen Ruth Richey is now Mrs. Garland Cary and is living on a farm south of Loraine.  
Wylene Stevenson is attending College at Denton.

Annie Mae Smith is now Mrs. Berdette Lee.  
Douglas Taylor is working at the First State Bank at Loraine.  
Mrs. Boyd House, formerly Jessie Scott Thomas is living at Big Springs.

Do you ever stop to consider what it really means to live? Life is defined as "animate existence." Are we loving a life or are we just living to obtain fame?

It makes no difference whether we are pupils or teachers or trustees of a school or a patron of a school, our life should be that it will bring happiness to us and our fellow workers. The happiness should be the lasting type and not a changing one. We should not go into anything with the idea of gaining fame. Our work should be the type that we enjoy. Should work because we enjoy it and not to see how much praise we can get from others. Fame won is something everyone enjoys, but is given to someone else, and we are forgotten. When we do our favorite task and gain fame, then we have something to be proud of. If a boy or girl goes out for a sport because he likes it, he is happy while he is playing; and the happiness will remain long after the game is completed. We soon forget dashes and points in games, but remember the game for the sport that is in it.

Movie stars, fighters, baseball players, and presidents win fame and honor, but are soon forgotten. Do we want to be famous and forgotten, or do we want to be happy in the work set before us?

To the seniors, and all who will not be in school any more: Select the things that you will be happy while doing. We can't be members of the same crew, but we can choose the occupation we desire. Give a serious thought to life before you finish school. There are many people, who go out into life not knowing what they want to do to make a living.

Temple Dickson  
For Legislature

R. Temple Dickson, prominent Sweetwater attorney and well known throughout West Texas, Thursday announced his candidacy for state representative for the 117th district, subject to action in the Democratic primaries in July. The district is composed of Nolan, Fisher and Mitchell counties.

Repeal and simplification of several existing state laws, and elimination and consolidation of state bureaus for purposes of economy are among the planks in his platform.

Mr. Dickson has been practicing law in Sweetwater for about six years and has figured prominently in many notable court cases throughout West Texas. He was special prosecutor here last year when the Ringer brothers were given a maximum 4-year penitentiary sentence on charges of theft of sheep. Although a young man, he has had extensive practice in both state and federal courts, and has an enviable record for the number of cases won. His experience has given him a deep insight into the legal needs of the state, both in the civil and criminal statutes. He is a forceful speaker.

Mr. Dickson is a member of a noted family of attorneys. His father, Jo A. P. Dickson, has served for the past 13 years as district judge at Seymour, and previous to that was district attorney of the same district for eight years. A brother is a former district attorney at Seymour.

He was admitted to the bar at the age of 20, and at one time was the youngest lawyer and court reporter in the state. He practically grew up in a court room.

Mr. Dickson is 29 years old, is married and has one son. He has farm and ranch interests in Nolan county and is well acquainted with the needs and problems of the rural sections of the district.

In making formal announcement of his candidacy, Mr. Dickson issued the following statement:

"Should I be elected I would advocate the repeal of many of our existing state laws that have grown obsolete. I would favor abolishment of several state departments, organized for the primary purpose of furthering the political interests of some of our state officials. I am against lobbyists and would favor the enactment of a law requiring all lobbyists to reveal the names of their employers before they would be permitted to appear before either house, senate or any committee of either.

"I am for changing our present Workmen's Compensation Law so that injured employees can have their claims acted on by the Industrial Accident Board with the least possible delay.

"The interests of stockmen who have been plagued by thefts should be protected by amending our present theft statutes.

"Unreliable life insurance companies that exist under our present statutes—companies that are exacting millions from our old should be driven from the state.

"It is unbelievable to me that a state with the natural resources

of Texas should have a general fund deficit of approximately \$13,000,000.00; and that our state, the largest and one of the wealthiest should be compelled to issue checks that cannot be cashed and are dishonored at every bank in the state unless they are discounted.

"It will be impossible for me to see all of the voters in this district. Cases I have pending in the courts of West Texas will take much of my time between now and the primary. If elected to this important office I can assure you all that I will fairly and conscientiously discharge the duties incumbent upon me without fear or favor."

Filet Crochet for  
All to Admire

"Such lovely lace!" your friends will exclaim and they'll never guess how little it cost! You'll want to gather up crochet hook and some string and begin at once on this charming chair or buffet set and pillow to match. Quickly and easily done in filet crochet, the peacocks and roses are prettily "set off" by an open mesh. Practical—lasting—exquisite, the chairback may be repeated and used as scarf ends. They all make splendid gifts. In pattern 5975 you will find complete instructions and charts for making the set and pillow top shown; illustrations of all stitches used; material requirements.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, 259 W. 14th St., New York City.

ARE YOU  
ONLY A 3/4 WIFE?

Men can never understand a three-quarter wife—a wife who is lovable for three weeks of the month—but a hell-cat the fourth. No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tune up the system, thus lessening the discomforts from the functional disorders which women must endure. Make a note NOW to get a bottle of Pinkham's today WITHOUT FAIL from your druggist—more than a million women have written in letters reporting benefit. Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

Rarer Yet  
"As rare as is true love, true friendship is rarer."—LaFontaine.

## MOROLINE FOR CUTS

## Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste  
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Lesson for April 10

FINDING OURSELVES  
IN SERVICE

LESSON TEXT—Mark 8:27-33.  
GOLDEN TEXT—"What shall it profit a man, if he shall gain the whole world, and lose his own soul?"—Mark 8:36.  
PRIMARY TOPIC—What Peter Found Out.  
JUNIOR TOPIC—Peter's Right Answer.  
INTERMEDIATE AND SENIOR TOPIC—Making Life Count Through Service.  
YOUNG PEOPLE AND ADULT TOPIC—Finding the Richest Life Through Service.

"Finding ourselves" seems like a singular, almost self-contradictory expression, but it refers to a sound principle recognized by psychologists as well as spiritual leaders. As a matter of fact, modern psychology has begun to recognize and use spiritual laws and principles which alone bring about human happiness and efficiency.

A word of warning—let no one who studies this lesson fall into the serious error of thinking that some formal religious service will bring redemption and favor with God. We are saved by grace through faith in the Lord Jesus Christ—"not of works, lest any man should boast." It is then by the birth that we are "created in Christ Jesus unto good works which God hath before ordained that we should walk in them" (Eph. 2:8-10).

It is the Christian who needs to "find himself in service." Only as he thus yields to Christ does he really find the life worth living. The words of Jesus in verse 35 are solemnly and gloriously true.

I. Clear Confession (vv. 27-30).

Even those who deny to our Christ the recognition of His deity, and the devotion of life which is His just due, must, if they are at all intelligent, admit that no man ever lived who has made such an impact on human history. Even in the days of his life on earth those who did not accept Him as Christ regarded Him as the resurrected form of one of the nation's greatest leaders. Now unbelieving men speak of Him as the great founder of Christianity, a mighty leader, a wonderful example, or an unequalled teacher.

It is not enough that we stand with the mass of humanity who may thus admire Him, but who do not count Him as Saviour and Lord. The question comes to us as it did to the disciples, "Whom say ye that I am?" "Thou art the Christ"—this alone suffices as the foundation for Christian testimony and conduct.

II. Corrected Error (vv. 31-33).

Although Jesus was not yet ready to have His Messiahship proclaimed to the public, He was prepared to teach His disciples concerning not only that important truth, but of His rejection and death. "He began to teach them that the Son of man must suffer . . . be rejected . . . killed and . . . rise again."

Note the divine "must." While it is true that wicked men showed their hostility toward our God and His Christ by hanging Him on Calvary's cross, yet it was to die for our sins that He came into the world. The cross has rightly come to represent God's love to the world rather than man's hostility to God.

Error now asserts itself, and strangely enough it is the very one who had the clearest grasp of the truth regarding the Messiahship of Christ and boldly expressed it who now objects to the revelation of the coming death and resurrection of Christ, and lends his voice to rebuke the Master for speaking of it.

Satan hates the cross and the open grave. Jesus won the victory over him there. He did not want to hear of it before it took place and used impulsive Peter for a mouthpiece to object. He doesn't want to hear about it now and uses many a skillful and gifted preacher to speak against it. "The offense of the cross" (Gal. 5:11) has never ceased.

III. Consecrated Life and Service (vv. 34-38).

"Let him deny himself" (v. 34). That command we have construed to mean that we should perform little acts of self-denial, foregoing some comfort or pleasure, possibly for a few weeks. It does not mean that at all—but does mean, and a complete yielding to God's will. Likewise, to take up one's cross does not mean to bear some of life's little disagreeable experiences; it means again to die to self and to live for Christ.

Careful attention should be given to the solemn questions asked and statements made in verses 35-37. These are not the reasonings of a man—they fall from the lips of the Son of God. What, He asks, will you give in exchange for your soul?

### Payment

How little we pay our way in life! Although we have our purses continually in our hand, the better part of service goes still unrewarded.

### Discussion

The more discussion the better, if passion and personalities be eschewed.

### Pain

Pain is in itself a sharp discipline and hard to bear.

## Speaking of Sports

### Lively vs. Dead Ball Is Riddle of 1938 Season

By GEORGE A. BARCLAY

DID the National league put itself out on a limb when it adopted the deader ball for the 1938 season—while the American league voted to continue the lively one?

That question will come in for plenty of attention from now until the end of the world series next October. It has already had a good deal of newspaper space. But no one is really certain there is a radical difference between the dead and so-called lively ball.

Government scientists have taken samples of each, shot them out of catapult-like machines and recorded their findings. Sluggers from both major leagues have tried their bats on both dead and lively balls. The results are still a question mark.

The real answer should be written in the world series. If the National league wins the event and reverses the trend that has given it only three world's championships in the past ten years, credit will be given to President Ford Frick for his owl-like wisdom. If the American league wins, there can't be much said in the way of alibis and most people will then concede that it is the league and not the ball that is responsible.

Some critics have insisted that in voting for a change last December, the National league clubs had come to the conclusion that the ball the Yankees were pounding was too dangerous to continue in use. In fairness to Mr. Frick it should be assumed that the National league was trying to improve the game.

If you are a devotee of strategic baseball, there isn't much argument about the ball being too lively. Strategic baseball—the sacrifice, base stealing, moving the infield in to cut off a run at the plate, the squeeze play, etc.—hasn't been

Ford Frick

played seriously since Babe Ruth made the fans home run conscious some years ago. In the American league, particularly, the game has been a hitter's market. Teams play for the big inning and a rally that will win. When a man gets on first base he doesn't try to steal. He waits for his mates to drive him home with their bats.

### Harridge Doubts

Mr. Will Harridge, president of the American league, has some honest doubts about what happens when you begin tinkering with baseballs.

"When you change the ball it's hard to tell what results you'll get," he says. "For instance, we had three experts appear at a meeting of the board of directors of the league to explain how they might deaden the ball a trifle. One said the only way to do it was to cut down the size of the cork center. The second said it would have to be done with the wool, the yarn winding. The third said the only way to get any change was to use a different cover."

"If the experts who make the ball differ like that, how could we know what the results of changing the ball would be? It's an experiment and there won't be an answer until a full season's trial has been made."

The consensus of opinion among baseball men is that if there is any vast amount of difference between the dead and lively ball, the former won't bother the players who have the eyes and the power to knock one over the wall.

If the dead ball assists the pitchers in improving their performances, the only fellows who will really be hurt are those who really aren't first class batsmen. The bargain home run is something that should not belong in major league baseball.

The difficulty in distinguishing the difference between the dead and lively ball was illustrated by what happened at the Chicago Cubs' training camp this spring. In the early days of the camp, left-over balls of the 1937 vintage were used first. Then the 1938 models were brought out. Somehow the two vintages became mixed. All the oldtime players, coaches and newspaper men went into a huddle. But they couldn't tell one ball from the other either by sight or touch.

## Baseball Miracle?

TAKE it from Joe Cronin who is something of a baseball student and in this instance sits in a neutral corner, the Chicago White Sox have actually accomplished a baseball miracle in their swap-of-first-basemen—Zeke Bonura for Joe Kuhel. They consummated a trade in which both sides win.

It might appear at first glance that Clark Griffith, the "old fox" of the Senators, had handed Jimmy Dykes of the Sox a cold deck, when he lured him into handing over a .345 hitter for

Zeke Bonura

Joe Cronin

one whose 1927 average was only .283. But Cronin, son-in-law of Griffith and manager of the Boston Red Sox, says no. Here's how he explains it:

"Kuhel will bat better than .300 for the Sox. He should drive in a lot of runs and be the best fielding first baseman seen around Comiskey park for a decade. Here's why. Kuhel will escape from many of the left-handed pitchers who have been handcuffing him at the plate."

"He is a left-handed hitter, like five other Washington regulars, who has had to face as many southpaws as the opposition could muster. With the White Sox, Kuhel joins a team that has six right-handed hitters. So he will do most of his hitting against right-handed pitchers."

"Bonura's case is exactly opposite. Zeke, a power-house right-hander, will be among a flock of left-handed hitters with Washington. He'll go to bat frequently against southpaw pitchers, which should help him, too. All things considered, it's one of the smartest inside baseball deals in years."

## Olympic Problems

UNCLE SAM'S monopoly of leadership in the track and field events of the Olympic games seems definitely menaced so far as the 1940 Olympiad is concerned. By booking the games in far-off Japan and on dates when our best athletes will be unable to compete, the rest of the world has found a way to beat us.

Not since the games were revived many years ago has the United States been defeated in track and field sections. But by scheduling such events in October, when college athletes obviously should be attending classes, the Olympic managing committee is in effect offering the track and field championships to some other country.

The United States has two alternatives—first, not to send a team to the 1940 Olympics; second to induce the universities of this country to release star athletes long enough for them to compete in Japan and let them make up their lost studies later. Since Britain and several other countries have stated they will not send teams to Japan, the first alternative would be relatively easy. Fulfillment of the second would be tougher. Academic schedules are sacred cows in American universities. They could not easily be disturbed in order to head Germany, Italy and Japan off from winning track and field events. Moreover, many of the crack college athletes are wanted for football service by coaches.

## Tee and Fairway—

FRANCIS QUIMET, veteran captain of the United States Walker Cup team, is worried lest the members who will make the British trip won't be in form. He fears that be-

Francis Quimet

cause the team sails so early a number of the players, idle during the winter months won't be at peak form when they land at St. Andrews, Scotland. He isn't taking any chances on too long a sea voyage to take the edge off. Instead of taking a slow boat to Glasgow and spending ten to twelve days on the sea, the players have booked passage on a four-day boat on May 10.

# WHAT to EAT and WHY

C. Houston Goudiss Noted Food Authority

Relates the Miracle of VITAMINS and Explains Why YOU MUST EAT THEM or DIE

By C. HOUSTON GOUDISS

6 East 39th St., New York.

WE LIVE in the most inspiring age the world has ever known. Chemists grow plants without soil. Doctors snatch men from death with insulin. Surgeons perform incredibly delicate brain operations. And thanks to the amazing discoveries of nutritional scientists, children enter the world with far better chances for long and happy lives, while men and women of seventy are more active and useful than their grandparents were at fifty.

Much of the hard-won knowledge of how to eat so as to increase efficiency, curb disease, and improve the chances for longevity is due to the discovery of vitamins.

## VITAMINS DISCOVERED

Twenty-six years ago, a now-famous scientist walked nervously around his laboratory, back and forth—back and forth. He was conducting a nutrition experiment of vast importance. He didn't quite know what he was going to find, but he believed that he was on the verge of a revolutionary food discovery.

The scientist was my friend, Casimir Funk, a brilliant Polish bio-chemist. He had been working on the problem for many years. At last, in the year 1912, his experiments were positive and conclusive. Then he announced to the scientific world that he had discovered a vital force. "This force," said Funk, "I have called vitamin, because it is necessary to life."

Thus, the word "vitamin" came into being, along with the first knowledge of these minute but powerful factors which exert such a tremendous influence on human health and happiness.

## SPARK PLUGS OF NUTRITION

Other bio-chemists throughout the world—including Sir Frederick Gowland Hopkins in England, and Hart, Humphrey, Babcock, Steenbock and McCollum in the United States—had been working on the same problem that Funk had partially solved. They knew that the first step was to find out how vitamins affected the human body, and that the second step was to discover what foods contained these vital substances.

And so there began a long series of experiments in the laboratories of great universities all over the world, which demonstrated what happens when a diet is deficient in any of the vitamins, and proved that if laboratory animals are wholly deprived of vitamins for a short time they will die.

These experiments are of the utmost significance to every homemaker, because the same thing happens to human beings as to experimental animals. Today our knowledge of vitamins has progressed to such a degree that it is possible to state the exact requirement for most of the vitamins and to designate the foods from which adequate quantities can be obtained.

## RESISTANCE AND VITAMIN A

To date, six vitamins have been identified. Vitamin A promotes growth and builds resistance to disease. It is necessary for the health of the mucous membranes of the body and helps to guard against infections of the respiratory and alimentary tracts. It influences the health of the hair and skin, is necessary to prevent a serious eye disorder known as night blindness, and is essential for the formation of healthy teeth.

Vitamin A is found in milk, butter, margarine that has been reinforced with vitamin A concentrate, egg yolk, cod-liver oil, thin

green leaves and yellow fruits and vegetables such as carrots, sweet potatoes, apricots and bananas.

## APPETITE AND VITAMIN B

Vitamin B promotes appetite, aids digestion, prevents a serious nerve disorder. It is essential to the maintenance of a good digestion, which is vitally important if the body is to obtain full benefit from the food consumed. This vitamin is closely related to the energy metabolism, and the requirement increases with the rate of growth and with increased energy expenditure, so that growing children and working men and women should receive very generous amounts.

Vitamin B is found in yeast, whole wheat cereals, oatmeal, milk, fresh and dried peas and beans, spinach, cabbage and other greens, egg yolk and liver.

## VITAMIN C FOR TEETH, GUMS

Vitamin C plays an important part in regulating body processes, and prevents the dread disease of scurvy. A lack of this essential vitamin results in profound changes in the structure of the teeth and gums, may be responsible for hemorrhages occurring anywhere in the body, and for the degeneration of muscle fibers generally.

Vitamin C is most abundant in succulent fresh green leaves, such as green cabbage. It is also found in onions, potatoes, oranges, tomatoes, green peppers, bananas and strawberries. In most foods, it is easily destroyed by heat—that is why it is so important to include some fresh raw foods in the diet daily.

## VITAMIN D AND RICKETS

Vitamin D is sometimes called the sunshine vitamin because it can be manufactured in the body through the action of direct sunlight on the skin. This is the vitamin that is necessary for the proper utilization of calcium and phosphorus in building bones and teeth. When it is lacking in the diet of infants, there develops that horrible disease known as rickets, in which the bones become soft and twisted, resulting in pitiful deformities—knock knees, bow legs, pigeon breast.

In foods, vitamin D is only found in appreciable amounts in fish-liver oils and egg yolk. That is why every homemaker should be so grateful to the scientists who labored to discover how to concentrate this precious vitamin from fish-liver oils and add it to foods, or to increase the vitamin D content of foods through irradiation.

## ANTI-STERILITY VITAMIN E

Vitamin E comes in for less discussion than the others, because its significance to nutrition has not

# TIPS to Gardeners

## Picking for Taste

AVOID the common mistake of letting vegetables grow too long before picking. Younger vegetables are more tender, more nourishing, and more palatable. Root crops—radish, carrot, beet—are at their best when half-half grown.

Pick peas just before pods fill out completely. Pick corn just at the "milk" stage, that is, when the kernel, gouged with the finger nail, yields a milky juice. Use summer squash when small, soon after the blossom has dropped off.

Other vegetables, of course, should be allowed to mature more completely before using. Tomatoes should be ripened well on the vine as should winter squash. Cantaloupe are at their best when they need not be pulled from the stem, but roll off the vine at a touch.

There are, of course, exceptions to these rules. For instance, some may wish to use green tomatoes for special dishes or for canning; or they may wish to allow beans to grow to the dry stage.

## Building, Maintaining Family Health

IN THE C. Houston Goudiss articles that have appeared weekly in this newspaper previous to this one, the nationally known food authority has described FOOD, as it provides the key to mental and physical power; PROTEINS, the foods you cannot live without; CARBOHYDRATES and FATS, foods that provide motive power for the body machinery; and MINERAL SALTS, that you must have in order to build strong bones, healthy nerves and rich, red blood.

These subjects have been treated in an interesting and understandable manner, free of scientific terms, principally offering advice to the housewife that will aid her in the problem of feeding the members of her family such foods as will build and maintain their health.

Every one of these articles has a definite place in your scrapbook for future reference. If you have missed any of these discussions, the publisher of this newspaper will supply them upon your request. If you have not already done so, start a department of these informative articles in your scrapbook at once!

been fully determined. It does, however, appear to be necessary for successful reproduction and is found especially in wheat germ and lettuce.

## VITAMIN G PROLONGS YOUTH

Vitamin G is necessary for growth and for the maintenance of health and vigor at all ages. It helps to ward off old age by prolonging the vigorous middle years. It is essential to the health of the skin, and recent experiments demonstrate that cataracts in the eyes may be due to a deficiency of this vitamin, which is found in yeast, and in liver, kidneys, egg yolk, milk, cheese and green leafy vegetables.

One authority claims that chronic disorders of the throat, stomach, lungs, colon, heart and kidneys may be traced to vitamin and mineral deficiencies.

Certainly enough has been learned of vitamin chemistry to make clear that the homemaker fails in her duty who does not provide vitamins in abundance for every member of her family. Both children and adults depend upon you for their food supply. It lies within your power to help them to health and happiness or condemn them to weakness, illness and sorrow. Do not fail them. See to it that every member of your household—your children, the wage earners, the middle aged and the elderly—get enough vitamins to afford them the health that science has placed within their grasp.

© WNU—C. Houston Goudiss—1938.

## What Is the Cause of "Spider-Web Check"?

If not properly "fed" with a good oil polish, furniture in time develops what is known as "spider-web check!" This appears on the finish, like wrinkles on the human face—fine lines, spreading here and there in a spider-web pattern. This crazing, this light cracking, is known in furniture language as "checking" and "spider-web checking" better describes the condition. This is the danger-signal, on finish! It's the indication of "starving" wood! A warning to the housewife, that if the finish is not cared for immediately and properly, the furniture will develop cracks, ridges and splits. "Spider-web check" is generally the result of either one of these two causes: Polish-neglect—or the use of a poor, cheap polish—without the essential fine, light-oil base. When the furniture is periodically "massaged" with a reputable oil polish (the best is non-greasy), the pores of the wood are "fed" and the piece is preserved. Then "spider-web check" will not appear! The use of a quality oil polish is the best preventive formula for this ugly, detrimental check!

## MORE WOMEN USE O-CEDAR POLISH THAN ANY OTHER KIND!

...because O-Cedar not only cleans as it polishes, but preserves your furniture—feeds the finish, prevents drying-out, cracking. Insist upon O-Cedar Polish for furniture, woodwork and floors (with the famous O-Cedar Mop).

O-Cedar POLISH MOPS • WAX

## LOCALS

Duane Bruce of McMurry College visited home folks here over the week end.

Mrs. George Leggett spent the week end with her parents, Mr. and Mrs. O. A. Freeze, at Olney.

Rev. and Mrs. M. H. Godfrey attended a reunion service at Union Church near Snyder Saturday.

Mrs. G. W. Wimpkin of Hermleigh visited her sister, Mrs. Emma Leggett, Thursday afternoon.

Miss Ruby Lee visited her mother and sister, Mrs. Sallie Lee and Mrs. Ora Curry, in Olden over the week end.

Mr. and Mrs. T. R. Bennett attended a birthday supper for Mrs. Bennett at the home of Mr. and Mrs. Bill Thompson south of Colorado last Friday night. Others who attended were Mr. and Mrs. Floyd Griffin and family, Mr. and Mrs. K. L. Taylor, Mrs. Cora Hall, Mrs. Tommie Long and son of Roscoe, Mr. and Mrs. C. C. Thompson of Colorado, Mr. and Mrs. Harold Bennett of Colorado, and Mr. and Mrs. Clifton Gage of Colorado.

Call 108 for city delivery on ice, J. C. Meek, Ice, Fuel and Grinding.

Mr. and Mrs. Joe Roberts Jr. of Coahoma visited Mr. and Mrs. T. R. Bennett Sunday afternoon.

Mrs. Tommie Long and son of Roscoe spent Friday and Saturday with her mother, Mrs. Cora Hall.

Mr. and Mrs. J. D. Norman and C. B. Reeder of Abernathy visited in Loraine Sunday.

Mr. and Mrs. Arlie Kidd and family, and Mr. and Mrs. Jack Tillison and family spent Sunday with Mrs. Kidd's and Mrs. Tillison's parents, Mr. and Mrs. H. E. Patterson, near Tahoka.

It pays to have your feed ground. We grind any day the weather permits. J. C. Meek, Ice, Fuel and Grinding.

Jiggs Allbright of Odessa visited his brother Will here Sunday.

T. J. Green was a business visitor in Snyder Monday afternoon.

Miss Nell Meshaw of Abilene spent Sunday with her aunt, Mrs. John Johnson and family.

Mr. and Mrs. Gayland Hardin moved to Loraine Friday. They have rooms with Mrs. C. F. Reeder.

When you need laundry work call 72. B. F. Trott.

Mr. and Mrs. Marshall Bruce and children, and Mr. and Mrs. H. B. Wilson visited Mr. and Mrs. Edison Wilson at Colorado Sunday and attended services at the Methodist Church.

GOOD CLEANING  
That's Us

Marvin J. Martin  
MENS WEAR  
AND CLEANER

In Ohlenbusch Building

Mr. and Mrs. G. W. Whitten and daughter Florence are reported on the sick list this week.

Mr. and Mrs. Durwood Mahon and daughter of Dallas spent the week end here visiting his father, J. K. Mahon, and other relatives.

Mr. and Mrs. G. B. Tartt and Mrs. V. E. Page visited Mr. and Mrs. T. W. Tartt and family at Abilene Sunday.

Miss Josephine Palmer of Abilene is visiting her parents, Mr. and Mrs. C. W. Palmer, for a few days this week.

Eldon Mahon of Abilene spent a few days this week with his parents, Mr. and Mrs. J. B. Mahon.

Mrs. Hampton, Mrs. Pool and Mrs. Harbor of Abilene spent the week end here with Mrs. G. A. Hutchins and family.

Paul Jones of Stanton, and Miss Allen of Odessa visited Mr. and Mrs. G. A. Hutchins Sunday.

Mrs. Nancy Jones of Stanton, who has been visiting her daughter, Mrs. G. A. Hutchins, for the past ten days, returned to her home Sunday.

C. V. Cox, vocational agriculture teacher in the Westbrook school, was in Loraine the first of the week and while here purchased a Norge Refrigerator from Hutchins and Hall.

H. W. Hallmark, J. H. Carlock, Ottis Muns, and L. B. Walker are attending the ginners convention in Dallas this week.

Born to Mr. and Mrs. J. W. Coffee Monday a fine young son. Mother and child are both doing nicely.

Miss Faye Johnson, who is attending college at Denton, is spending a few days here this week with her parents, Mr. and Mrs. John Johnson.

R. E. Gracey and Will Gordon of Roscoe were Loraine visitors Wednesday morning.

Mr. and Mrs. Arnton West of Big Spring visited Mr. and Mrs. W. S. Thomas and family Saturday and Sunday.

Mrs. W. H. Tartt, Wilmon, Julia and Howard Tartt visited in Abilene last Thursday.

Boyd House, who is working in Big Spring, visited his wife and baby here Sunday.

Miss Pearl Gann visited home folks in Brownwood over the week end.

Mr. and Mrs. L. J. Taylor and family of Colorado visited Mr. and Mrs. Ben Smith and Mrs. Taylor Sunday.

Vernon Wilson of McMurry College is spending a few days this week with his parents, Mr. and Mrs. T. C. Wilson.

F. Hart and son of Midland visited W. B. Davis and family last week.

Miss Wylene Stevenson, who is attending school at Denton, spent the week end here with her parents, Mr. and Mrs. W. H. Riden.

Preston Morris and children visited Mr. and Mrs. Richard Phillips and family Friday.

Mr. and Mrs. Carl Bartlett and family of Longworth visited his aunt, Mrs. J. G. Bruce, Sunday.

Mr. and Mrs. Horace Newton of Midland visited their parents, Mr. and Mrs. T. J. Newton, and Mrs. J. S. Muns, Sunday.
