

COLORADO COUNTRY CLUB is on the verge of completing a number of renovation projects including a complete remodeling of the club house with the addition of a dining room (pictured above), a remodeled kitchen and the offering of meals Friday and Saturday to members and their guests. In addition, the golf course has undergone improvements and two new tennis courts are just about complete (pictured below). David Redwine will be the club tennis pro and in addition a tennis ball throwing machine will be available and the courts will be lighted.

# Vandalism- A Not Very Funny Crime

Vandalism isn't listed as a major crime in the United States but if it is increasing around the country as it is in Colorado City it should be and probably eventually will be according to Colorado City Police Chief Fred McWhorter. McWhorter said that because it isn't considered a major crime, there are no national figures kept on vandalism but from what he has heard and read, it is spiraling all across the nation and Colorado City is no exception.

During the first seven months of 1979, there were 31 incidents of vandalism reported in this city with damages amounting to about \$5,500. When compared to last year, one can see the tremendous increase because through July 31, 1978 there had been 15 vandalisms reported at a cost of about \$1,300.

This means that the number of incidents reported has more than doubled and the dollar amount has increased 423 per cent.

The vandalism figures will show another surge in August because during this month, three youngsters vandalized Kelley Elementary, Hutchinson Elementary and Colorado Middle Schools, doing a large amount of damage.

The damage to these three schools, mainly at Kelley, had earlier been set at about \$14,000, however, Superintendent Charlie Uselton stated Tuesday that the cost to repair the damage wouldn't be

quite as high as previously believed.

The repairs to Kelley are still extensive, however, as about 30 windows have had to be replaced, many of the walls had to be repainted, the carpeting in the offices had to be replaced, several duplicating machines have had to be repaired and an \$800 typewriter which was completely destroyed had to be replaced.

Uselton said the total cost of the damages wouldn't be known for at least a couple more weeks.

A hearing on the three youngsters, ages 7, 10 and 12, who vandalized the schools is still pending, according to Mitchell County Judge Bill Carter.

Although the school incident is the most spectacular, there have been four other vandalisms reported in the city in August amounting to another \$600.

# One Of City's Best Is India Bound

By GARRY PEEBLES

To most residents of Colorado City, the country of India is simply a place they've heard of or read about at some time or other, a place where there are lots of elephants and tigers roaming around in thick, lush jungles.

For a Colorado City man, however, India, along with its people and its traditions, will soon be a reality. In fact he will be on his way there by the time you read this article.

Mark Kimmel was serving as a counselor and staff member at the West Texas Ranch for Christ near Abilene in the summer of 1978 when he came in contact with the man who would influence him to spend a

year in a country on the other side of the world. The man's name was Dr. Masilamani, an Indian evangelist who had come to speak at some of the services at the ranch.

Kimmel stated that he

Mark Kimmel

was very impressed by the man and learned that in India he was an evangelist of almost the same stature as Billy Graham is in this country.

Dr. Masilamani, who is about 60-years-old, conducts services around the country and in addition to this has also taught Greek and served as president of a seminary in India.

Kimmel learned that he was looking for someone from this country who might be interested in serving on his staff.

Kimmel had been thinking about something like this for several years, since before he graduated from Colorado High School in 1975 and entered Wheaton College in Wheaton, Ill.

He said that he chose to go there instead of a closer school because it was fairly small, 2,000 students, and because of its strong Bible Department. He graduated from Wheaton College with a Bachelor of Arts in Biblical Studies this past Spring.

He stated he felt this opportunity to go to India was more than just a coincidence because everything has fallen into place and all the necessary financial help has been provided. The young man said that he looks at this

service, which will last about a year as, "A learning experience and a chance to find out if this is what I really want to do in life."

Kimmel added that even now his knowledge of India is limited, however, did state a few facts about the country. The people of the country are about 80 per cent Hindu, about 16 per cent Moslem and about three per cent Christian.

Kimmel said that from what he had learned of them from Dr. Masilamani, they were very religious.

They are also very poor with an average income per person of about \$200 per year.

Kimmel will be living with the evangelist's See KIMMEL Page 5

# Oldsmobile Slated As Club Prize

Colorado Country Club will sponsor a Summer Ball Sept. 29 (a Saturday) with the highlight to be a drawing to give away as a door prize a 1979 Oldsmobile 98 Regency with a value of \$11,746.15.

Activities will include a golf tournament that afternoon as well as a tennis tournament and bridge for the ladies. Then that evening there will be a catered supper starting about 6:30 p.m., to be followed by a dance.

Tickets for the summer ball are \$100 per couple. Tickets can be purchased at the Country Club or by contacting Joe Weaver, Club president; Ken Godsey or Pete McKinney. Only 250 tickets will be sold.

The car that is being given away will be on display at various locations including Jay Adams Chevrolet-Oldsmobile, City National Bank parking lot and on the parking lot of local supermarkets.

# Price Named Highway Department Foreman

Gaylord Price has been named to replace Paul H. Logsdon, retiring maintenance foreman for the Texas Highway Department in Mitchell County, T. H. D. officials said Monday.

"This has been an enjoyable and challenging job. If I had it to do over I wouldn't change anything. I am very thankful that I have someone as qualified as Gaylord to leave it with," Logsdon commented.

"I would recommend to young people today to take the opportunities offered by the state. In my opinion, if a person is going to work for wages he can't beat the state. I have worked with the best of people

and the benefits are great," Logsdon added.

Logsdon, who has more than 33 years service, is retiring effective August 31.

He has served 19 of those 33 years in Mitchell County. Logsdon began his career as a skilled laborer in Big Spring after serving four and one half years of military service. He was transferred to Borden County where, after a year and a half, he was promoted to foreman.

"We have a dedicated group of employees here, I really appreciate their attitudes," Logsdon stated.

He was one of the first to recognize the need for an on the job

safety program and received his certificate to teach Red Cross First Aid Courses in 1953," officials said.

In his present capacity, Logsdon supervises a force of 18 persons and the fleet of seven dump trucks, two front end loaders, two maintainers, six mowers, one asphalt distributor and one pneumatic roller in maintaining all Federal, State and Farm to Market Roads in Mitchell County.

"We realize we are public servants and try to give the very best service we can," Logsdon said.

"I have seen great changes in my years

with the department. It has advanced from almost total hand labor to machines. Of course, there are still some things that can only be done by hand," he noted.

Logsdon was born in Hopkins County 60 years ago. He attended East See PRICE Page 2

# Farm Tour Friday

Representative Charles Stenholm will be guest speaker during Friday's Farm tour noon-day program.

After registration and coffee, busses will depart from the Civic Center at 8:45 a.m. with the first stop scheduled at the Manford Hardegree farm southwest of Westbrook.

Second stop on the agenda is the Berman Stubblefield stock farm to inspect a new grazing system.

A watermelon break at the County Barn will be the third stop and a visit to the Ronnie Feaster farm to view ten varieties of cotton is listed at the fourth stop.

Richard Gale's farm southeast of Westbrook is next on the agenda with the farm of Lois Briley set as the sixth stop.

Busses will then return to the Civic Center for a bar-b-que luncheon. Tickets are priced at \$4.

"We have tried four different persons for this position and they are no longer here," Root told Board Members. He noted they had not been given the title but were being trained for the position.

"Hopefully we can find someone qualified and who will make his home in Colorado City and stay with it," he commented.

Root indicated due to health reasons he might be required to step down sooner than anticipated.

He indicated the training period for anyone would take an extended period of time, "we need someone as soon as possible who will stay with it."

"What do you consider as necessary qualifications for the position?" Board Member Bobby Lemons asked Root.

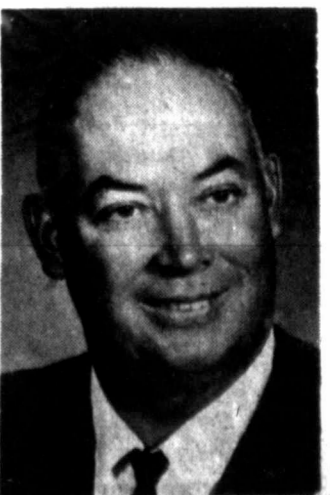

"Someone who would be very good at public relations, personnel management, reading a financial statement and know the hospital down See BOARD Page 6

# Matthews Dies In Accident

The Rev. Caddo P. Matthews, 54, pastor of Plainview Baptist Church in Mitchell County, was killed Sunday night at about 10 p.m. when he apparently lost control of his motorcycle about 10 miles north of Colorado City enroute to see a probationer.

Funeral services were held at 4 p.m. Tuesday at the First Baptist Church with the Rev. B. H. Kendrick, pastor of the Friendship Baptist Church in Austin, officiating. Rev. Fred Smith of Colorado City assisted.

Burial was in the Westbrook Cemetery under the direction of Kiker-Seale Funeral Home. Masonic Graveside Rites were performed by Mitchell Lodge 563. See MATTHEWS Page 3

# School Doors Swing Open

The Colorado Public School System opened its doors for the 1979-80 school year Monday with some 46 fewer students than it started with in 1978.

A total of 1,379 students signed up for classes on the four campuses Monday as compared with 1,425 for the first day last year.

The most significant drop in student enrollment was in Kelley Elementary School kindergarten, first and second grades.

Kelley had 288 students registered on the first day as compared with 361 students last year. The breakdown for the three grades with this year's enrollment See SCHOOL Page 3

# Mitchell County Entomologist Jany Sees Small August Bollworm Egglays

Mitchell County farmers can expect what County Entomologist Bill Jany termed "Nickle and Dime Egg Lays" near the end of August. "However, don't expect to see a large number of eggs laid over a one to three day period," he added. "Rather, expect a few eggs laid every day over several days but never enough each day or two to cause concern," he continued. Depending upon the control of these eggs and larvae by beneficial insects, this small number of eggs might result in two to five larvae maturing on a different plant each day, Jany noted. The net result is while economic threshold is

never exceeded on any given day, the accumulated damage is economically disastrous, he said. Jany cautioned "in these instances you must keep track of the larvae numbers and establish an action level based on these and not on a single days infestation." Jany noted cotton damage due to bollworm feeding is still light throughout the country. Feeding damage will probably increase although beneficial insects are still very numerous. "Economics in the cotton field begin with the value of a boll," Jany commented. Depending on the market value of lint,

number of bolls to a pound of lint, per cent turnout and yield potential, producers can determine the true value, he said. "Early in the season, yield potential is high and we can afford to lose more fruit to weather and insects than we can later in the season," Jany added. "Using 50 cents a pound for cotton and 450 bolls to a pound of lint, 900 bolls are worth \$1," Jany said. "If roughly one boll per 13 row feet (one-one thousandths of an acre) one boll per 50 or so plants is lost to insect damage then \$1 per acre is potentially lost." "This indicates a producer can pay the spray pilot if five to ten bolls

per 13 row feet or one to two bolls per ten plants are saved from insect damage," he said. "This demonstrates a diapause spray program, even at \$3 an acre is one of the cheapest but smartest crop management investments a cotton producer can make," Jany commented. "It doesn't take very many bolls (up to about 3,000 per acre) to pay to have a pest management program," he stated. One bollworm will consume or destroy approximately six to eight squares, one bloom and one boll during its life, Jany added. Jany noted boll weevil traps are being rebaited this week in preparation

for weevil migration out of fields into overwintering sites. Live adult boll weevils will be dissected to determine when weevils have entered diapause. "Boll weevil damage to squares in Mitchell County is increasing while no boll weevil punctures have been observed in scouted fields in Scurry County, perhaps as a result of the Scurry diapause program," Jany stated. "Boll weevil damage is not at economically damaging levels yet. However, by the end of September we may have a large overwintering boll weevil population in both counties," Jany warned.

Texas State College and Howard Junior College. "Among many other honors, Logsdon was commended by the Commissioner's Court of Borden County for excellent maintenance of State and Farm to Market Roads," Department Officials noted. Price, who is replacing Logsdon, is currently a maintenance construction supervisor in Mitchell County. He has served with the department since 1948 and came to this county in 1978. He is a native of Baird and attended Sul Ross in Alpine and Abilene Christian University in Abilene. "We have worked together since 1948 when we were both in Borden County," Logsdon said of Price. "He is leaving a big

pair of shoes to fill, I like to think things will go as smoothly as they have with him here," Price said. "This is not an easy job. He really has his work cut out for him." "You first of all have to be a pretty good bookkeeper with all the paper work involved. It's one of the biggest problems we have. We have to plan at least a year ahead," Logsdon commented. "All our materials are put out for bids. We have to anticipate needs as much as six to eight months in advance," Price stated. "We operate on a zero budget, I mean we are not given x amount of dollars to spend. We are required to justify every dollar spent since there is no way to actually anticipate how much we

really will require," he noted. For instance, with the recent traffic law change we spent \$12,448 putting up yield and right of way signs, he commented. "I would like to take this opportunity to say how much I appreciate the cooperation of the citizens of Mitchell County over the years. Some of the best people in the world live right here. I know they will continue to be as helpful and considerate to Gaylord as they have been to me," Logsdon stated. Price and his wife, Patsy have one daughter, Gaylene. The family resides at 956 Marshall. Logsdon and his wife, Martha, live at 961 East 15.

Included in these incidents is one in which graffiti was painted on the walls of the V. F. W. Hall and Safeway Supermarket and another in which damage was done to a parked pickup.

Godwin's Insurance Agency on 2nd Street also had a window broken out and for the second time this summer, trash was dumped into the swimming pool.

In addition to the inci-

dents actually reported as vandalism through July 31, there was \$1,300 worth of damage done to city property in incidents which were listed as burglaries. This isn't the amount of property taken, it is simply the amount of damage which the intruders did to the property as they were entering and leaving.

Assistant Police Chief Jerry Cowin stated that there are probably many more vandalism

incidents which are never reported to the police and there are many incidents on which no dollar amount of loss can be put.

For instance if someone lets the air out of your automobile tires, that could be considered vandalism.

It is not likely to be reported because there is virtually no chance of finding out who did it. It does cost the victim, however. It will cost him the effort to pump up the tires enough to get to the service station and it will cost him time because it will make him late to wherever he was going, probably his job.

Cowin stated that one thing the public could do to control vandalism is to be aware of what was going on around them on other people's property as well as their own and report any suspicious activities.

He added that really the best deterrent of vandalism was for parents to teach their children from their early childhood to respect other people's property.

★ SCHOOL, From Page 1

ment coming first followed by the 1978 figure is as follows: kindergarten, 82, 92; first grade, 100, 138; second grade, 106, 131.

Colorado School Superintendent Charlie Uselton stated that the declining enrollment in the earlier grades is something which most of the other schools in the area are also experiencing. He specifically mentioned Snyder and Sweetwater as about the same amount of students in grades kindergarten through second. He added that it seemed to be just a part of the times, people are having smaller families for economic and other reasons.

A spokesman at Kelley said they expected probably 10 or 12 more students to enroll there by Labor Day.

Hutchinson Elementary School showed a slight increase in students enrolling the first day as 334 signed up this year as compared with 312 on the first day last year.

★ MATTHEWS, From Page 1

Born Feb. 27, 1925 in Alba, he served in the United States Marine Corps during World War II. While in the service he was the personal body guard to Admiral Chester W. Nimitz and was with the Admiral on the U. S. S. Missouri when the peace treaty with Japan was signed.

After the war, he attended Paris Junior College completing his education at East Texas State University and graduating in 1950. While at ETSU, he was the president of his senior class and was elected to "Who's Who" in American Colleges and Universities.

After college, he began his careers in the ministry and as a coach. His first pastorate was at Hardesty Baptist Church in Hardesty, Okla. His first coaching assignment was at Spearman High School where he was the girls' basketball coach and assistant football coach. He was ordained by the Rev. A. F. Lofton in Spearman. Later he was the pastor of the First

Baptist Church in Felt, Okla. He coached in several West Texas and Panhandle towns.

From 1954 to 1955, he was the head basketball coach for the Wayland Baptist College girls' team called the "Hutcherson Flying Queens." Under his coaching, this team won two consecutive national A. A. U. championships. The following year, he was invited to coach the United States Women's Basketball Team in the Pan American Games in Mexico City. This team won the championship and was undefeated in the entire event.

In 1959, Rev. Matthews came to Colorado City. He was the pastor at Looney Baptist Church for three years and later went to Plainview Baptist Church where he served as pastor until his death. While pastoring these churches, he was the head basketball coach at Colorado High School from 1959 to 1971. During this time, he was also the coach for the Colorado High Junior Varsity football team.

From 1971 until 1974, he was the local representative for the IDS and from 1975 until 1978, he was the Mitchell County School Superintendent. During the 1978-79 school year, he was head basketball coach and assistant football coach at Lorraine High School. Since then, he served as Adult Probation Officer for Mitchell and Nolan Counties.

Rev. Matthews married Martha Anglin on April 5, 1950 in Commerce. He was a member of the Mitchell County Ministerial Alliance, a 32nd Degree Mason in the Mitchell Lodge 563, a member of the Colorado Chapter of the Eastern Star, a Shriner, a member of the Lubbock Scottish Rites and a member of the Texas High School Coaches Association.

He is survived by his wife, Martha; a daughter, Sharon Rose of Colorado City, a student

at Texas Tech University; three sons, John Paul of Houston, James David of Plainview and Joe Thad of the home; his mother, Mrs. Lillie Matthews of Kilgore; one sister, Eva Ann Hardy of Houston; two brothers, Phillip Matthews of Kilgore and R.

A. Matthews of San Diego, Calif. and one granddaughter, Amy Michelle Matthews of Plainview. Pallbearers were Ma- sons and honorary pallbearers were members of the Plainview Baptist Church and Rev. Matthews's fellow clergymen.

On Tuesday, Hutchinson enrolled another 10 students to bring their total enrollment to 344.

The enrollment at Colorado Middle School this year for the first day was 320 as compared with 325 on the first day in 1978.

A spokesman at middle school stated that there would probably be six- or eight more students sign up in the next few days.

The breakdown by grades at middle school after the first day is as follows: sixth grade, 1979-110, 1978-109; seventh grade, 1979-108, 1978-97; eighth grade, 1979-102, 1978-119.

Colorado High School had 437 students sign up the first day. This was 10 more than the 427 who enrolled the initial school day of 1978.

By classes, the enrollment figures for the first day this year are Seniors, 1979-99, 1978-106; Juniors, 1979-105, 1978-105, Sophomores, 1979-110, 1978-107; Freshman, 1979-123; 1978-109.

## Shackelford, Hood Attend 61st Annual Kiwanis Convention In Galveston

Attending the 61st Annual Convention of Kiwanis International for the Texas-Oklahoma District in Galveston recently were Johnny Shackelford president of the local club and Frank Hood, secretary.

The convention was held in Galveston headquartered at Moody Civic Center with 1095 registered delegates. There are 483 clubs in the Texas-Oklahoma district with 17,643 members.

Ed Gunter is the 1979-80 Governor for this district.

For the 1980-81 year, Arthur D. Swanbert will be governor of the district.

John Roberts, Kiwanis International Representative spoke at the convention along with Rev. Mouzon Biggs, and George W. Strake, Jr., Secretary of State.

The 1980-81 convention will be held in Oklahoma City and the 81-82 convention will be in Abilene.

A resolution was submitted and passed on Our Spiritual Commit-

ment. It is as follows: Whereas, Kiwanis International is, "To give primacy to the human and spiritual, rather than to the material values of life," and

Whereas, Kiwanis International recognizes the right of private and public expression of belief in, devotion to, and dependence upon a Supreme Being, and,

A forty-hour Emergency Care Attendant course will be held beginning September 5.

Held under the sponsorship of the Sweetwater Campus of Texas State Technical Institute, the program is the first of a multi-part course of study for persons interested in the emergency care field. The training is also indispensable for persons involved in industry, police and fire departments and even housewives.

Classes will meet from 6-10 p.m. two nights weekly for five weeks. Topics which will be covered include airway management, first aid, treatment of shock, fracture splinting and emergency childbirth.

Further information may be obtained by contacting the Department of Special Projects at TSTI Sweetwater, 235-8441, extension 40.

Whereas, In furtherance of all the Objects of Kiwanis International, is desirable that recognition of belief in a Supreme Being be the policy of all governments at all levels, and of all public departments, bureaus, commissions, agencies, institutions and functions, now

Therefore, Be it resolved that it is the intent of the Texas-Oklahoma District of Kiwanis International to actively and vigorously oppose any attempt on the part of any individual or group to deny in any way, expression of such belief and reliance from public documents, monies, anthems, pledges of allegiance, or oaths, and,

Further, Be it also resolved that all members, clubs, Divisions, and the Texas-Oklahoma District of Kiwanis International strongly urge officials of all levels of government to preserve and strengthen public expression of belief in God.

### Ranne Concert Sunday

Eddie Ranne of Lewisville will present a concert Sunday at 7 p.m. at the Westbrook Baptist Church.

Ranne, son of Mr. and Mrs. Charles Ranne of Westbrook, is a graduate of Westbrook High School. He received his Bachelor's degree in Music Education and Master's degree in Music Education from North Texas State University, Denton.

At NTSU, Ranne sang with the Grand Chorus, Chapel Choir, and A Capella Choir. He toured with the A Capella Choir in Texas. He also performed in many of the School of Music Operas.

Eddie has participated in several historical musical plays presented at the Gallery of the Performing Arts in Lewisville.

Ranne is choral director at Lewisville High School. He is married to the former Rama East of Decatur and they have two daughters, Amy and Natalie.

Rev. Bob Manning, pastor of Westbrook Baptist Church, cordially invites the public to attend. There will be no admission charge.

THIS ERRANT pass was sort of the story last Friday night in a controlled scrimmage against Frenship for the Colorado City Wolves offense as they couldn't get much going. Intended receiver for the Wolves is Russell Noel, No. 84. However, the Wolves defense put on a rousing performance that excited a large group of fans on hand.

## County Clerk Beach Notifies Taxing Entities Of Required Actions, Deadlines

Official notification was given in a meeting Tuesday afternoon by County Clerk Joan Beach to all taxing entities of actions required and deadlines set under tax laws recently passed by the legislature.

Dubbed "Tax Relief", the legislation provides for a single set of property values to be used by all taxing bodies within a county.

The legislation also

provides for a five man board to be elected by the entities. This board will appoint a three man board of equalization to set values for the entire county.

The office of chief tax appraiser is also created by the legislation. This person is directly responsible to and hired by the five man board.

"According to the new law, each entity must submit the names of any

board's nominees to the County Clerk's Office by October 15," Mrs. Beach stated.

She noted these nominations must be made by resolution (entered into the minutes of each entity).

Each entity is given a number of votes according to their share of combined taxes on the rolls.

The county has the option of entering the group now or waiting until a vote is taken next year.

If the county enters, they will have 1.38 vote. The City of Westbrook will have no vote (they can submit names for nominees to the five man board).

Colorado City will have 42 per cent of a vote. Lorraine will have 6 per cent of a vote. Colorado Independent School District will have 3.06 votes. Westbrook Independent School District will have 72 per cent of a vote and Lorraine will have 36 per cent of a vote. This is a combined total of five votes.

Without the county, Westbrook will have no vote. Colorado City will have 54 per cent of a vote. Lorraine will have 6 per cent of a vote. CISD will have 4.06 votes. WISD will have 96 per cent of a vote and LISD will have 48 per cent of a vote.

"The only control over the five man board the taxing entities will have is a budget, prepared by the chief appraiser, to be presented for approval by each entity annually," Judge Bill Carter noted.

Each governing body, entitled to vote, must cast its votes and submit them to the county clerk's office by November 15. The clerk must count the votes and declare the five winners to all candidates and to all taxing bodies within the district by December 1, according to Mrs. Beach.

The directors begin their two-year terms to office on January 1.

"The state is allocating about \$5,000 to implement this new program, Carter stated.

"This will begin to cover the cost and each entity must share the expenses," he said. He noted the Hospital District has no vote but will share in the expenses.

The county will con-

sider and vote on joining the group, now or later, in their next regular meeting", Carter commented.

"What we need to consider now is a place for the board to work, office equipment, telephones and personnel to help them," Carter stated.

"The city has not budgeted anything for this change over," City Manager Ray Mason commented. "How will we go about determining our share?"

"This is a thing the board will have to determine. Hiring a certified tax appraiser, whose salary is on a line with the school superintendent, will be a major expense," County Tax Assessor Mike Burt commented.

family in Hyderabad, India, which is in the southern part of the country. He will be traveling with him from there to his meetings in other parts of the country.

One of the main problems which will be encountered of course is the language barrier. The national language of India is Hindi and although Kimmel knows some of the language, he added that he still has a lot to learn before he will be able to use it effectively.

The young man said that despite whatever problems he would face in India, he was excited about going, and excited about having the opportunity to be exposed to the culture and to see how the people of that country relate to one another.

Kimmel finally stated that he was also happy to have the opportunity to work under Dr. Masilamani because, "he is a very loving type person and I expect to learn a lot from him."

Kimmel left for India yesterday (Wednesday). His journey will ultimately take him to Hyderabad via New York, London and Bombay.

He is the son of Mr. and Mrs. Bobby Kimmel and he has a sister, Janice, 20, who is a student at Baylor; a brother, Stephen, 18 who is a student at Texas Tech and a sister Ann who is seven-years-old.

## Wolves Prepare For Crane

The Colorado City Wolves scrimmage Friday night against Frenship looked better on film than the initial impression that was made, Colorado City Wolves Head Coach Tom Ramsey said Monday.

Frenship was not able to make offensive "marches" against the Wolves' defense and the two touchdowns scored by the Tigers were the result of long plays after defensive breakdowns, he added.

This was caused primarily by a lot of players in new positions as well as playing a new defensive formation, both of which will be overcome by experience.

In addition, three of the Wolves top defensive secondary players, Clay Hammond, J. D. Lewis and Jay Green, were out with injuries. Hammond has been lost for the year, but Green and Lewis are due back with Green possibly seeing action this Friday in the scrimmage against Crane and Lewis may be ready for the season opener against Slaton Sept. 7, Ramsey said.

On offense against Frenship, Ramsey said he didn't want to show motion plays or multiple sets but this is something that is being worked on and in the

scrimmage against Crane, the play will be more wide open.

Some of the problems against Frenship on offense involved timing and assignments and this is something that will be overcome with workouts and experience as players get used to the Houston Veer.

Regarding the scrimmage against Crane Friday, Ramsey said he hopes to see the Wolves move the ball better as well as solve other problems exposed during last week's scrimmage.

The scrimmage against Crane will be held at Wolf Stadium with the junior varsity action getting underway at 6:30 p.m. and varsity seeing action at 8 p.m.

Regarding the performances against Frenship, Ramsey had praise for a number of players including lettermen Britt Chaney, Johnny Lowrance, Russell Noel and Squeaky Hanks.

## SAVE ENERGY.

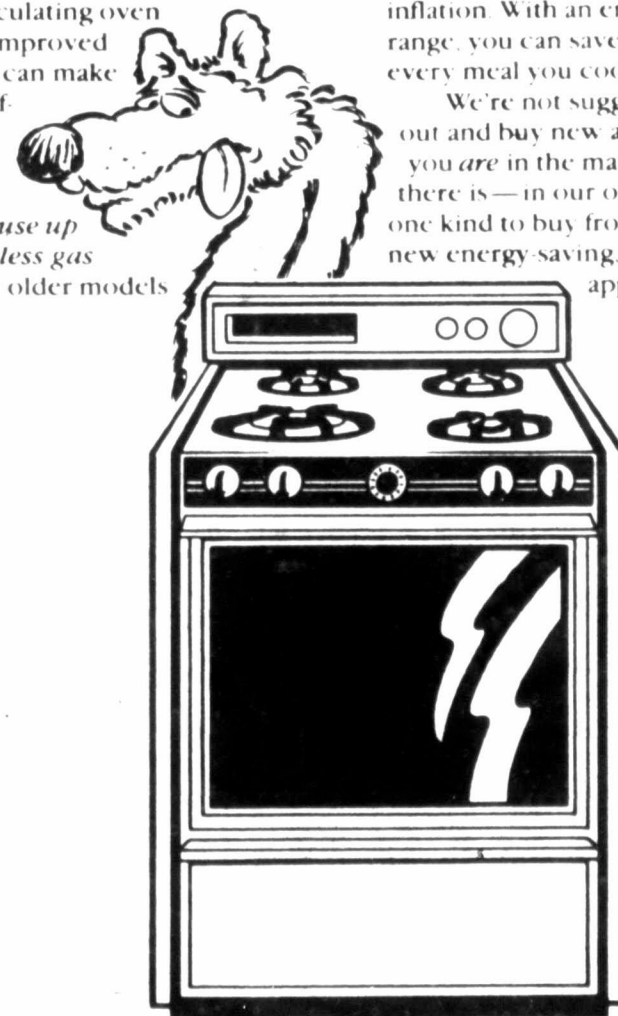

Lone Star wants you to know you can use less gas to cook the same number of meals.

The new energy-efficient gas ranges with such features as automatic pilot less ignition, additional oven insulation, circulating oven air and improved burners can make a nice difference on your gas bill.

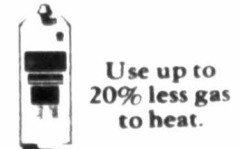

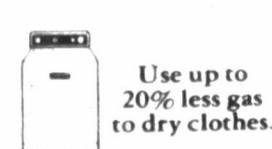

They use up to 30% less gas than the older models.

without these energy-saving features. Spending less for energy by using less is one way you can fight inflation. With an energy-efficient gas range, you can save a little money on every meal you cook.

We're not suggesting you rush out and buy new appliances. But if you are in the market for new ones, there is—in our opinion—only one kind to buy from now on: the new energy-saving, money-saving appliances.

Give the Inflation Wolf a tough time with energy-efficient gas appliances.

The Inflation Wolf is at your door, and it looks as if he's come to stay. You can make him feel less welcome, however, by reducing the bite he'll take from your paychecks. And the new energy-efficient gas appliances can help you hold the line on energy costs without cutting back on the conveniences energy provides.

## Of Value? Brand It!

A hundred years ago when a family had something of value they wanted to identify as theirs, they would apply some type of mark or "brand" that was different from all other marks of identification. The rancher and farmer would brand their livestock with a brand that was not only registered, but was carefully designed so that it would be almost impossible for a thief to change the brand with a "running iron".

If a highwayman or cattle thief was caught committing a misdeed it was oftentimes dealt with on the spot, partly because the magistrate would not be back in the area for another three or four months, and partly because the guilty culprit was deserving of whatever punishment was meted out.

To be sure, penalties for criminal conduct have changed drastically during the past century. In fact, the entire criminal justice system has been so drastically altered that a judge of a hundred years ago would not recognize it. However, one thing remains unchanged. It is still a good idea to mark your property and tattoo or brand your livestock for proper identification.

With all the modern electronic equipment and sophisticated items around the home, it behooves each homeowner to mark or inscribe their driver's license number on their c.b. radio, stereo, lawn mower, chain saw, and other items.

The idea of the mark or brand serves two distinct purposes. First, most thieves would have second thoughts about stealing marked property. Secondly, many times marked property that was stolen will be abandoned because the thief can't fence it. He generally can't sell the item with someone else's driver's license number on it and to file off the number is tell-tell circumstances that arouse suspicion in the mind of law enforcement officers.

Whether your bag is livestock or electronics, the identifying characteristics of ownership remains unchanged. If it's of value, "brand it".

## ★ BOARD, From Page 1

to the nuts and bolts," Root replied.

Lemons, who headed the three man Screening Committee which included Bob Reilly and W. M. Landau, told members Dillard's application was chosen for consideration because of his qualifications and because he is a permanent resident.

Dillard holds a Master's Degree in Education and a Bachelor's of Science in Industrial Arts. He is a paramedic and has taught several emergency medical technician courses.

During an interview with the board Dillard was asked if he had considered public opinion if he, as the son-in-law of the present administrator, should be hired by the board.

"I am very concerned about public opinion, however, I feel I can win them over given time to prove my abilities," Dillard stated.

"I want to be considered by this board on my own merit and ability and not as a relative," he stated.

"We are all here trying to fulfill the best interest of the hospital district," Lemons said.

A contract with Inhalation Therapy Services was considered by the board.

Its representatives from the regional office in Houston presented the board with informa-

tion showing the type of services they offered.

"We provide manpower or work with people here in an inservice training program. We work to upgrade knowledge. We furnish all equipment," the representative stated.

He indicated his company would furnish one machine for each patient on therapy.

A video-tape machine and tapes of all types of medical instruction are offered by the company plus physicians to lecture the staff, he said.

"Our company guarantees the hospital's net revenue will not decrease in this department. We also offer Medicare reimbursement if a claim is denied by Medicare," he said.

Therapy Equipment currently used by the hospital can be stored, used or ITS will purchase it at book price, the representative told the board.

Board members decided to appoint a board to look into the financial ramifications of contracting for therapy services.

Board members approved tentative budget for 1980 which included an estimated increase in expenses of 15 per cent and an increase in average wages of 7.5 per cent.

A public hearing will be held at the next meeting, September 25, for the purpose of setting

the 1980 budget.

Frontier Cable met with the Building and Maintenance Committee on August 20 and proposed to rent the Sun Oil building recently donated to the hospital district.

They proposed to utilize the back part of the building and sub-lease the front part, paying for all repairs and maintenance. The hospital district would receive a portion of the rent from the sub-lease.

The board will meet with the company again to discuss other aspects of the agreement.

The names of four prospective new doctors were presented to the Board by Root.

They agreed to assist Ed Roach of Snyder who is currently attending Texas A & M Medical School. Roach has four years of schooling left before completion.

"He is an outstanding student, I know him personally," Lemons commented.

George Lindsey of San Antonio is one year from completion and has agreed to move to the hospital district with assistance.

In other action the board voted to use the same persons as last year to perform the inventory.

They also agreed to advertise for bids on Workman's Compensation and Liability Insurance.

## Entomology

By Bill Jany

Most years about this time the question usually comes up about the benefit of using parasitic wasps (Trichogramma) for bollworm control. County Entomologist Bill Jany commented.

"I have taken the following information from a report issued by the Trichogramma Research and Development Conference held in December in Atlanta," he stated.

To provide noticeable control, releases of 50,000 to 100,000 wasps per acre are needed, the report states.

Several releases on a 2-5 day schedule are required to control a bollworm infestation. After emerging the adult wasps are effective for 2-3 days in finding bollworm eggs.

The wasps are highly sensitive to insecticides. Other factors that influence the effectiveness of Trichogramma wasps include: density of the pest, species or strain of Trichogramma, vigor of the parasite, method of wasp distribution, growth stage of the crop, and the number of other beneficial insects present, according to the report.

At the present time the states of North Carolina, South Carolina,

Florida, Georgia, Alabama, Tennessee, Arkansas, Louisiana, Texas and Missouri do not recommend the use of Trichogramma for control of the bollworm complex in cotton.

"As you can see there are many problems associated with the effective use of Trichogramma wasps for bollworm control. Hopefully, in the future the technology will improve to a point that these beneficial insects can be economically used in bollworm control," Jany stated.

FOOTBALL is not a game for the faint of heart as evidenced by this picture that might resemble a battle of Roman gladiators with all the bodies strewn on the ground with more bodies flying through the air. The picture was a scene in the action of the controlled scrimmage between Colorado City and Frenship Friday night and on this play the Frenship quarterback picked up good yardage behind good blocking. The Wolves face Crane here in another controlled scrimmage Friday night.

A BULLDOG RUNNER heads around end in scrimmage action against New Home last Friday in Bulldog Stadium. Coach Roddy Clack's squad will scrimmage Mertzion there at 6:30 p.m. Friday and will open the season on Sept. 7 against Dawson in Loraine.

## Casting Completed For Playhouse Comedy

Casting has been completed for the next production at Colorado City Playhouse. The production, a comedy, is entitled, "How The Other Half Loves."

The play, written by Alan Ayckbourn, is being directed by Bill Martin.

Members of the cast will be:

-Fred McWhorter in the role of Frank Foster.

-Paula Chastain will portray Fiona Foster.

-Carl Beery Moore will have the part of Bob Phillips.

-Robin Decker will play Teresa Phillips.

-Susan Samuelson will be in the role of Mary Detweiler.

-David Galvan will fill the part of William Detweiler.

The comedy will go on stage the last weekend in October to coincide with the annual Railroad Arts & Crafts Festival.

## Bulldog Workouts In Third Week

Eddie Lujan remains as the only serious injury the Loraine Bulldogs have had as they rolled through their third week of workouts this week.

Lujan is out with a neck injury and Head Coach Roddy Clack stated that he would be out for at least two weeks.

The Bulldogs now have three-fourths of

ival and the first weekend in November.

It will be presented Wednesday, Thursday and Saturday nights to avoid conflict with varsity football games.

their offensive and defensive formations installed and will travel to Mertzion Friday to scrimmage the high school team there. That action will take place at 6:30 p.m.

Clack said really all he knew about Mertzion was that they line up in a split six defense and a straight T offense and that they were very quick.

## STATE CAPITAL HIGHLIGHTS

By Lyndell Williams  
TEXAS PRESS ASSOCIATION

**AUSTIN**-Texas Attorney General Mark White, after inspecting beaches damaged by the run-away Mexican oil spill Ixtoc I, said last week he hasn't ruled out the possibility of suing Mexico and the company which drilled the well.

Such legal action might pit the state's top lawyer against the governor, if the investigation showed faulty equipment caused the blowout. The drilling company, SEDCO, Inc. of Dallas, is owned by Texas Governor Bill Clements.

"We're not going to hesitate to try to discover the fault in the blowout," White said, but added it could be months before the blame can be pinpointed.

White acknowledged the possible suit is a touchy political issue with state as well as international implications.

The offshore well which blew out on June 3 is the largest in history and has covered thousands of square miles in the Gulf of Mexico with crude oil.

Officials say the well is expected to be capped sometime in mid-September, and that crude oil will continue to wash onto Texas beaches for three months after that.

White's lawsuit is being considered to collect damages that have already inflicted on the Gulf Coast tourist, fishing and shrimping businesses and for cleanup costs, among other things. The oil spill which has covered 130 miles of Texas beaches has cost state taxpayers \$2.2 million so far.

Clayton Launches Inquiry

Speaker of the House Bill Clayton has also begun a legislative inquiry into the damage caused by the spill. The House Environmental Affairs Committee, chaired by Rep. Bennie Bock, D-New Braunfels, held a public hearing Friday at Corpus Christi.

The Speaker visited Port Aransas and Brownsville last week while acting as governor of Texas, the first time in history a House speaker has performed that chore. By a quirk of circumstances all three persons ahead of Clayton in the state's chain-of-command were out of the state: Clements was vacationing in New Mexico, Lt. Gov. Bill Hobby was vacationing in Wyoming and Rep. Bill Braecklin, D-Dallas, senate president pro tem, was in Alaska.

**Veto Costs \$63 Million**

The Legislative Budget Board announced Friday that a veto of new state construction projects could wind up costing the state \$63.4 million in two years.

If the Legislature decides then that the construction projects which Clements vetoed in June are necessary, inflation and other costs will have driven up the price. Inflation will account for an extra \$52.6 million and state fees for office rent will add almost another \$12 million.

The LBB prepared the cost report for Hobby who said, "Most of them (construction projects)

Among those in the delegation are Carroll Chaloupka, president of Texas Farm Bureau; State Sen. Bob Price, R-Pampa; McAllen Mayor Othal Brand; and James H. Clements of Kingsville, president of King Ranch.

The entourage will visit Hungary, Poland, Yugoslavia and Czechoslovakia.

**Boy Can Play**

Attorney General White, in an opinion released last week, ruled that a 16-year-old orphan can play football at Lorena High School near Waco.

The boy lived in an orphanage at Corsicana last year and played high school football there. He was adopted by a Lorena couple and wanted to play football at Lorena, but the University Interscholastic League said no.

White's opinion upheld a law passed in the recent session which exempted foster children from "dual requirements" which had previously denied participation in sports for up to three years.

**Legislative Playwright**

"The Kingfish," a play about the controversial one-man ruler of Louisiana, Huey P. Long, who was assassinated in 1935, opened in Washington, D. C. last week. Co-authors are a couple of Texans, Larry L. King and Ben Z. Grant.

Grant is a 10-year veteran legislator from Marshall. This is his first play. King is the author of the Broadway hit, "The Best Little Whorehouse in Texas."

**Birth**

Steven Shawn, son of Mr. and Mrs. Steven E. Robertson of Snyder was born in Root Memorial Hospital on August 21, weighing 7 lbs. 10 ozs.

# Courses Offered At Texas State Technical Institute Sweetwater Campus

The Sweetwater Campus of Texas State Technical Institute is gearing up for what is expected to be a very good year for enrollment.

School sources indicate that there is a growing demand for training in the more than fifteen different technical and vocational skills offered by TSTI Sweetwater.

"Our young people are discovering that they can learn a skill in 18 months or less that will prepare them to compete in the job market of today," stated TSTI Sweetwater General Manager D. A. "Bill" Pevehouse. He continued by stating that most graduates have an average of three job interviews upon completion of their training.

Other factors enhancing TSTI Sweetwater's projected growth are the addition of four new training programs and the construction of two million dollars' worth of instructional buildings and an additional million dollars in new student housing.

The new programs have been added in response to demands from

industry for qualified people in the fields of aviation, welding, small engine repair and electronics.

Aircraft Pilot Training Technology is an 18 month program that is designed to train pilots as instructors or as commercial pilots. Students receive all of the necessary ratings, as well as an associate of applied science degree.

Welding and electronics, which both heretofore have offered one year programs, are expanding to offer associate degree programs.

The longer training will enable the student to gain a higher degree of proficiency in his or her chosen field, as well as a greater understanding of the theories involved.

Instructional personnel from both fields indicate that they could place three to four times as many students with industry as they usually graduate. The one year programs in both areas will remain in operation, also.

The final new program for the Fall quarter is a nine-month course in small engine repair. Students will be

trained to repair mowers, chainsaws, generators, motorcycles and two cycle outboard motors.

Programs currently offered by TSTI Sweetwater include: Combination Welding; Radio and Television Servicing; Technical Drafting; Refrigeration Mechanics; Air Conditioning and Refrigeration Technology; Solar Energy Mechanic; Building Construction Craftsman; Dental Assisting; Vocational Nursing; Automotive Mechanics; Autobody Repair; Technical Office Training; and a number of courses and programs through the school's Department of Special Projects and Adult Continuing Education.

The Special Projects department of Texas State Technical Institute's Sweetwater Campus has released its Fall Continuing Education Schedule.

Nineteen courses are included in the Fall lineup, offering training in a wide variety of skills. Most of the courses are held during the evening hours, and generally meet one or two nights weekly.

Course offerings include: Typing I-A, a 60-hour course that will meet two evenings weekly; Basic Air Conditioning and Refrigeration

Additional offerings include a 90-hour General Drafting course; a 45-hour Auto Ignitions and Tune Up course; an 80-hour Basic Cabinet-making course and 90-hour courses in both basic and advanced welding skills.

Basic Auto Body and Painting is a course which is still taking applicants. It is 40 hours in length and will meet from 7-10 p.m. every Tuesday and Thursday.

Other courses offered include: Writing for Publications; Defensive Driving; Emergency Care Attendant; Dental X-Ray; Emergency Medical Technician; Activities Director for Convalescent and Nursing Facilities; Real Estate 301 and Medication Aide.

All of the courses are offered at reasonable cost. For further information on these or any other continuing education courses, contact the TSTI Department of Special Projects, 235-8441, extension 40.

Carrie Lozano Receives Scholarship

Carrie Lozano of Colorado City has been named to receive a Presidential Scholarship at McMurry College for the coming school year, according to Dr. Thomas Kim, McMurry president.

To be eligible for a Presidential Scholarship at McMurry, a student must graduate in the top quarter of his high school class. A score of 21 or better on the ACT qualifies a recipient for additional Presidential Scholarship funds.

Ms. Lozano is a 1978 graduate of Colorado High School.

## Malone-Hogan Hospital, Inc.

Norman Knox - Administrator

Big Springers are proud of it, visitors are impressed by it, and nearby municipalities are envious of it.

But perhaps the one adjective that best describes the feeling of those who visit Malone-Hogan Hospital in Big Spring, is surprise.

Surprise at the sophistication of the medical expertise that is available at Malone-Hogan. Surprise at the equipment and technology. And surprise at the brand-spanking new building itself.

How did it happen that all this ended up in Big Spring, Texas? Sources say that it started as a dream. A group of doctors who came to the area in the late Thirties saw the area developing, and grew concerned for the future health needs of the people, who would one day call these vast plains home.

The clinic group became known as one of the finest diagnostic teams in the southwest. Patients come from miles around, and time and time again they added new doctors, installed new equipment, implemented new services, and added still more rooms for patients. But in the Seventies, the need to expand came again.

The 153-bed complex today houses over 200 technical specialists, and includes intensive care and coronary care units, two nurseries, two delivery rooms, five labor rooms, a five room operating suite, 24-hour emergency room, and complete supportive services in physical therapy, laboratory, radiology, EEG/EKG, and respiratory therapy.

Surgical specialties include general and orthopedic, urology, otolaryngology, ophthalmology and oral.

Medical specialties include general internal medicine, family practice, dermatology, nuclear medicine, hematology, rheumatology, obstetrics and gynecology, pathology, pediatrics, radiology, chemotherapy and podiatry.

Malone-Hogan Hospital, Inc., is a refreshing newcomer with a tradition of excellence. Its reputation as a pacesetter in patient care is gaining statewide significance, as its name pops up more and more on the growing list of outstanding hospitals in the Southwest. Do remember the name. It's one you'll hear time and time again. The hospital is located at 1601 West 11th, phone 263-1211.

### G & L Oil Field Service Gary and Larry Simer - Owners

Good oil field hands are hard to find. One of the best sources for qualified manpower to run your well is the G & L Oilfield Service: the "roustabout crew headquarters!"

Located in Ira, phone 573-0771, this well known firm has men available 24 hours a day to help with any problems you may be having at your well sites. From drilling experts to riggers to general workers...there's the men YOU need WHEN you need them. All you have to do is call!

G & L Oilfield Service has complete roustabout crews ready to go on a moment's notice. Make this oil field "employment agency" your headquarters for roustabout crews, and your well will produce a little better with qualified personnel on the job! They also have a vacuum truck for tank cleaning and transporting drilling mud and chemicals.

We, the authors of this 1979 Business Review, are happy to suggest this reliable firm to all of our readers.

### Von Roeder Seed Farms Max Von Roeder, Manager

You will find this popular seed company located 3 miles West of the Square, in Snyder, on Highway 180, phone 573-3341.

No one is better acquainted with cotton seed breeding than the Von Roeder Seed Farms. Their many years of experience in this business have enabled them to offer you seeds that will give you the highest yield for the variety.

They are continually studying the results of planting of various brands, the soils, etc., and are so close that planters in this section may seek their advice and in return keep them posted on the results of their own progress on experiments. The progressive cotton grower recognizes the great value of the contact, and the fact that it is economical to deal with the local cotton gins in Colorado City, where adjustments are more easily made and personal interest is maintained.

David Kattes, who used to be with the extension service serving Mitchell and Scurry Counties, is presently employed by Von Roeder Seed Farms in cotton breeding and cotton insects research, and they are anticipating some new and improved cotton varieties.

We, the compilers, recommend the Von Roeder Seed Farms to all of our readers for anything in cotton seeds in the 1979 Review.

### Rolling Plains Co-op Compress

#### Cooperating Doesn't Cost - It Pays

It is a well known fact that there is no one institution in this community that has done more toward the development and progress of this section than has this reputable cooperative. They operate one of the finest establishments in the area, and it came into existence to fill the need for a place where farmers could go for receiving, storage, compression and shipping for their cotton needs and be sure they were getting the best and the most for their money.

Through their service, many of the farmers in the surrounding communities and rural districts have been supplied with quality service at lower prices and have thus been enabled to operate more efficiently and at greater profit.

The ROLLING PLAINS CO-OP COMPRESS on West Alabama, West of the city limits, is owned and controlled by the members who use its service. Through Democratic processes each gin community meets annually to elect a member to the Board of Directors who in turn meet monthly to form policies for the operation of the company.

In this 1979 Business Review, we, the editors, are glad to call the attention of our readers to their very complete and comprehensive service. Phone 263-6614 for information.

## Loraine Nursing Home

There was much activity around Leisure Lodge in Loraine Thursday. Five area nursing homes were in competition for a first place silver trophy in the Domino Tournament.

Those coming to the lodge were Kristi Lee, Root Valley, Snyder Oaks and Leisure Lodge of Roscoe.

Taking first place was Loraine, second place went to Roscoe and third place was Kristi Lee Manor.

Activity directors bringing residents to play were Jerry Woodell from Root Valley Fair Lodge, Clara Hodges from Snyder Oaks, Doris Clawson from Kristi Lee Manor and Florence Henderson from Leisure Lodge in Roscoe.

Hosting Activity Directors, Darlene Hamrick and Marsha McAdams served punch, coffee, cookies, donuts and peanut butter fudge to guests.

The festivities were enjoyed by everyone and there is much anticipation for the return competition in Roscoe next month.

We wish to thank those who have donated to our bingo, Mrs. R. J. Hale, Lois Phillips and Mrs. Marian Duncan.

Thanks go to Mr. and Mrs. Virgil Eaton, Vicky and Dot Barlow, Stephanie McAdams and Stacy Hamrick for their volunteer work.

The donated bleach bottles, clothes and scraps are being used to make some lovely items and everyone is invited to come and view the crafts.

Our last Sing-a-long with the Mitchell County musicians was well attended and everyone is invited to the next one on Sept. 14.

### Birth

## Givens Host Willing Workers Class

Mrs. J. D. Givens was hostess for the regular monthly meeting of the Willing Workers S. S. Class of First United Methodist Church of Loraine Thursday.

Mrs. Givens brought the devotional from the book entitled "Together We Praise Him", by Florence C. Brillham. Her subject was "Happiness is the best medicine". She read Proverbs 17-22, "A Merry heart doeth good like a medicine: but a broken spirit drieth the bones." Other quotes were "We're about as happy as we make up

our minds to be," by Abe Lincoln.

Mrs. Lily Bennett closed the devotional period with prayer.

Mrs. C. H. Martin, class president, presided over the business session, class dues were paid and a thank you note was read. Mrs. Roy Wells led the closing prayer.

The hostess served home-made ice cream and cake to Mmes. Wells, Martin, Frank Crownover, Mattie Nealey, J. D. Norman, Lily Bennett, Wiley Walker, James Bennett and K. L. Taylor.

## Beights Retires From City Of San Diego

Voyd H. (Shorty) Beights, a 1938 graduate of Colorado High School and brother of two area men, Rex of Colorado City and Ira of Loraine, recently retired as Zoning Administrator of the City of San Diego, Calif.

Shorty, as he was called by all his associates because of his 6'7" stature, had worked for the city 27 years in the Planning and Zoning Departments. He became the Zoning Administrator some 11 years ago.

Several retirement parties have been held in his honor during the past weeks. The largest gathering being on August 3 at Admiral Kidd's Club overlooking the San Diego Bay. Among the 275 who attended were all his past and present associates from secretaries to city dignitaries. He received citations and plaques in appreciation for his many years of service to the city from various Commissions and Boards of the City, including the Builders and Contractors Association, the Coastal Commission and the Architect's Association. Shorty was presented with a number of retirement gifts.

Family members attending the occasion was a sister, Mrs. J. Ivan Bell, of Abilene and an uncle, Roy L. Beights of Los Angeles, Calif.

Shorty was stationed at Point Loma in San Diego as a Signalman in

Shorty Beights

the Navy during World War II. After a short stay in New York state and Stamford where he was a partner in establishing the Jones County Implement Company, he returned to San Diego and started working for the City.

On June 5, 1954, he married a native Californian, Georgia Moffatt. They have three sons and a daughter and reside in La Jolla, Calif.

The formal retirement ceremony for Shorty was held at City Hall in San Diego on his birthday, August 9.

## Now that temperatures and electric bills are up, your air conditioner needs all the help it can get.

Hot summer temperatures make your air conditioner work longer and harder. That's one reason why your electric bill is higher.

But there are some things you can do to help. Change or clean your air conditioner's filter to let air flow freely. And trim grass and weeds from around the outside unit for good air circulation.

Inside, close blinds and drapes to help keep out the heat. And try to

cut down on the number of times you open doors — an open door lets hot air rush in.

Keep your thermostat set at 78° or higher.

To feel cool at this temperature, use a small portable fan to circulate air in the room.

For more ways to cut down high summer electric bills, get Texas Electric's free energy tips booklet. Just call Texas Electric or ask for the booklet on the comment portion of your bill.
