Tornadoes To Meet San Angelo Here Friday

McCollum Field Is Site Of Final Game Of Season

Bringing Band And Drill Squad To City

The San Angelo High School Bobcats, with their band and drill squad, are to be in Lamesa Friday night to play the Lamesa High School Golden Tornadoes in the last district football game of this season in Lamesa.

The Golden Tornadoes have gathered a few more points in the district race and are now leading the Bobcats by 75 points. Lamesa is fifth in the seven team member district and San Angelo is sixth. The winner of this game will lead in the finals and the Lamesa boys want to continue ahead of both San Angelo and Abilene.

The Golden Tornadoes were pretty badly damaged in the Sweetwater game with minor bruises and exhaustion. They have engaged in practice since Monday afternoon and have shown rapid recovery. They are confronted with a team that held Sweetwater to a single touchdown and whose members are reported to be the heaviest in the district. The San Angelo team is known to be strong on defense and to have a versatile attack which requires quick thinking and strength to stop. San Angelo is decidedly dissatisfied with the standing in district competition this year and is expected to "shoot the works" against the Tornadoes in an effort to attain higher ranking. Their last game was with Abilene on (Continued on Back Page)

Christmas Gift Shopping Start Is Set For Friday

December First Will Officially Open Season

December 8th marks the official opening for the Christmas shopping season in Lamesa. At a recent meeting of the merchants of the city, it was decided that the merchants, if they desired, could decorate their windows for the Christmas season at an earlier date but the official season would open on the 8th with specially decorated windows. It was agreed that the specially decorated windows should be unveiled simultaneously at the city, the fire siren at 7:00 p. m. on December 8th.

The windows will be judged and ribbons awarded to the first, second and third place windows in each of several lines, including the dry goods, grocery, hardware, drug, variety, etc. All merchants are requested to cooperate in this matter. A special Christmas program will be arranged at which time Santa Claus will make his first appearance of the year in this section. It is understood that he will bring special confection gifts for the kiddies.

Enrollment In Schools Goes To History's High

Last week's enrollment figures showed 1613 pupils in the three Lamesa schools. Monday of this week found the enrollment still higher. The Elementary Grades have now enrolled 1011 pupils according to the records of Mr. Roberts. The high school total has reached 572 as indicated by records in Mr. McCollum's office. George Durham of the colored school reports 55 pupils enrolled and in attendance. The totals are now 1636, an increase of 23 over last week.

Warn Motorists On Park Abuse

Complaints have been received by the Highway Department relative to motorists abusing the State Highway Park at the intersection of the two highways two miles southeast of Lamesa. "Shrubs and trees have been damaged by thoughtless motorists running over them," stated J. D. Willson, highway superintendent of this district. "This park was built and laid out for the use of the public and if given a chance will some day become a beauty spot, but if this practice is continued, the trees and shrubs will not have a chance. We solicit the cooperation of the motoring public in the preservation of this park, without having to resort to drastic measures to protect it."

Announcement is made this week by Loo Randals, owner of Randals Lumber Company and Paulk Lumber Company, both of this city, that after Saturday the Paulk yard will be closed and the stock moved to the home yard at the corner of North Second and Dallas Streets.

The site of the Paulk yard at the corner of South First and Dallas was recently sold by Mr. Randals. The announcement stated that all business and accounts of the Paulk Lumber Company would be transferred to the Randals Lumber Company office. Your attention is called to their ad in this issue of the Courier.

Courier Will Publish Day Early Next Week So That Thanksgiving Be Observed

As has been announced before, Lamesa will officially observe Thanksgiving next Thursday, November 30th, with practically all stores of the city remaining closed throughout the day.

In this connection, The Courier asks the cooperation of every advertiser, as well as all contributors of news, in getting their copy in as early as possible, so that the Courier staff may observe the day with the rest of the town.

Present plans call for the printing of the paper Wednesday night and mailing it out Friday morning at the usual time. This will enable the force to take the day off, if the cooperation of all is secured.

It will also be the issue heralding the opening of the Christmas Shopping Season, with stores of Lamesa carrying special Gift Shopping ads. This opening day was decided upon by a merchants meeting held several weeks ago, and it is hoped that every store in the city will be represented with their Christmas Shopping message.

The Courier will endeavor to contact every advertiser, but if you desire an ad, it will be appreciated if you will call 162-M as early as possible and a representative of the paper will see you. It will be a big undertaking to contact every firm and it is possible that due to the short time in which to work that some may be overlooked, but this is no indication that your ad is not wanted or that anyone will be intentionally overlooked.

So please help the Courier organization to observe the day with their families by getting your copy in at the earliest possible moment.

For several years Mr. Morris and Sol Cleveland operated the store under a partnership. They enjoyed a steady growth together. Other interests prompted Cleveland to sell his interest to Morris a year ago, and since that time it has been known as Morris Pharmacy.

They have a large ad in this issue of the Courier wherein they are offering some rare drug values, as well as outstanding bargains in gift merchandise for three days, Friday, Saturday and Sunday.

Look up their ad in this issue and call around and see them during this Anniversary event.

AN ERROR

The Courier made an error in the ad of the Lamesa Drugless Clinic last week. The signature in the ad read "Lamesa Health Clinic" when it should have read Lamesa Drugless Clinic. We are very sorry this occurred and hasten to offer our apologies.

Mrs. Mable Timms made a business trip to Big Spring Monday.

They're Still Subscribing . . .

And still the people of this territory continue to take advantage of the savings offered in the Courier's Big Bargain Days, as scores have either subscribed or renewed their subscriptions during the past few days.

The publishers of the Courier deeply appreciate this compliment, as there is no greater bouquet a newspaper publisher may receive than to have the people of his territory subscribe and renew for his paper.

We sincerely thank each and every one of you who have paid us this compliment and pledge ourselves to continue our efforts to bring to you the kind of a newspaper you want and one that you will continue to subscribe for.

To those of you whose time will expire within the next few months, we urge you to come in and take advantage of this saving, which amounts to exactly one-half, or seventy-five cents per year. Your expiration date will be set ahead one full year for only seventy-five cents if you live in Dawson or adjoining counties. But you are urged to hurry, as these bargain rates will be discontinued shortly.

Below are those who have either subscribed or renewed during the past week:

Mrs. Lambright Buried Sunday

Besides her husband, she is survived by one daughter, Myrtle Fern, her parents, Mr. and Mrs. R. L. Brewer, four brothers, Carroll, Eugene, Howard and Duane, all of Lamesa, and two sisters, Virginia and Oletia.

Services were held at 3 p. m. with Rev. Arnett conducting.

Announcement by A. G. Bearden, revealed this week, that his resignation as manager of the Lamesa Chamber of Commerce, tendered several weeks ago, has been officially accepted by the Board of Directors.

No announcement as to who his successor will be was forthcoming, but it is expected that this information will be released within the next few days.

Mr. Bearden has served as manager of the local organization for the past four years. Prior to that time he was a member of the Lamesa school faculty.

MARRIAGE LICENSES

James Audry Robison and Mabel Ethelene Witt, November 14.
William Blair and Miss Eupha Nell Isaacs, November 20.

W. W. BEEMAN ILL

W. W. Beeman, popular County Commissioner is reported as seriously ill in a local hospital. His many friends wish for him a speedy recovery.

The Bargain Days on the Courier are growing shorter as each week rolls around, and many citizens are hastening to take advantage of this fifty per cent saving in the cost of their home town paper.

While the special rates are in effect, people living in Dawson or adjoining counties may get the paper a full year for only seventy-five cents. After the Bargain days are over, the price will be One Dollar and Fifty Cents per year. If you live outside of this territory the paper is \$2.00 per year.

With the rapid development of the new Cedar Lake Oil Field, the news of which is carried weekly in the Courier, as well as the general news of the city, county and your own individual community, as well important announcements from the governmental agencies in regard to crop control and marketing, you cannot afford not to have the paper every week when it is taken into consideration that each issue represents a cost of less than one and one half pennies.

Besides the news coverage, The Courier each week is filled with bargains from Lamesa stores upon which you can save many times the cost of your subscription each week. Then, too, you are able to keep up with the style trends and new arrivals by shopping the Courier ads each week.

If you are already a subscriber and your time will be out any time within the next several months, it is to your advantage to come in and set your date ahead a full year while these Bargain Rates are still in effect. You are advised, however, not to delay too long, as this offer is for a limited time only.

Cliff Day Due To Visit County On Tuesday Nov. 28

Will Hold Important Meetings Here

Mr. Cliff Day, former president of Texas Agricultural Association, now State Officer in Charge of Educational work in connection with the A. A. A. will be in Dawson County for two meetings on Tuesday, November 28, 1939. At noon of the 28th, Mr. Day will meet with the county and community committeemen for a luncheon to be held at the Somers Hotel. The purpose of this meeting is to have each of the committeemen invite one of his business friends to hear Mr. Day's talk on the relationship of business and agriculture, and to better acquaint the business men of Dawson County with the problems and plans of the farmers in the county.

At 8:00 P. M., Tuesday, November 28, a county wide meeting of farmers and business men are asked to attend a meeting to be held in the district court room in Lamesa. Each farmer is urged to attend.

Attend The Ball Game

Friday night of this week is your last opportunity to see the Lamesa Golden Tornadoes in action this season. They will meet the San Angelo Bobcats here at that time in the final game of their schedule.

Attendance at local games during the season has been rather disappointing to school officials, as there has hardly been enough revenue to defray expenses, and some visiting teams have lost money on their visit here, due to the light crowds.

This final game promises to be one of the hardest fought during

the present season and likely, the most colorful. Lamesa will be endeavoring to take their second conference battle, while Angelo will try to pass the locals in the conference standing.

The visitors are bringing their band, and one of the flashiest drill squads in the district, to parade their wares before Lamesans between halves. If you love color and action you are promised your money's worth.

An effort is being made to have the largest crowd of the season see this game. Make your plans now to attend.

Your attention is called to their large ad in this issue of the Courier containing hundreds of special anniversary savings on grocery items. Look up their ad and visit them during this anniversary event.

Two New Pastors For Methodists Take Up Duties

Revs. Willett And Thompson Move This Week

Both the First Methodist Church of Lamesa and the Circuit charge will be served by new pastors for the coming year, according to announcements released this week at the Church's General Conference held in Lubbock.

Rev. E. D. Landreth, formerly of Ballinger, Texas, will serve the First Methodist Church as pastor, while Rev. A. D. Moore will fill the Lamesa Circuit charge.

Rev. T. C. Willett, who has served the First Methodist Church as pastor for the past two years, will go to Seymour, Texas, and Rev. Jack Thompson, pastor of the Lamesa Circuit has been sent to Booker, Texas.

While the people of the churches regret the loss of Revs. Willett and Thompson, they welcome the new pastors to the town. Both will assume their new pulpits next Sunday.

Rev. O. P. Clark was returned as Superintendent of the Lubbock District. Formerly this position was known as Presiding Elder.

Rev. M. M. Beavers, who formerly pastored the Lamesa First Church, superannuated this year, and will make his home at Hereford.

Warehouse No. 1 Reported In Pay Wednesday Nite

First Offset To Field Discovery Well

It is reliably reported that the Stanolind No. 1 American Warehouse offset, was drilled into the pay today. Although the exact depth was not available, it is understood that it was slightly below 4,650 feet.

This well is located 1320 feet west of the Stanolind No. 1 Jeanette B. Raynor, discovery well, and is located out in the lake.

It is understood that the well will be treated with acid and shot in a similar manner to the discovery well, which tested officially 1279 barrels daily. Until this treatment is given it will not be known just what the well will make. This information will not be available for several days it is said.

Drilling continues on the Stanolind No. 1 Riley, wildcat located three and one half miles northwest of the discovery. Although a definite depth on the Yates sand has not been officially announced, it is understood that it is running slightly lower than the discovery.

The south offset is reported high to the discovery. This well has encountered considerable trouble, due to the strong air or gas pressure which has made drilling very mean. Last Sunday saw numbers of Lamesans visiting the field and many reported that the roar of escaping gas could be heard several hundred feet away.

With the completion of the American Warehouse it is understood that the derrick will be moved south for the third offset to the discovery.

Sale Started On New Townsite In Cedar Lake Area

Location Is Near Discovery Well

Announcement of another new townsite in the vicinity of the new Cedar Lake Oil Field was made this week.

Owners and promoters are Gus and Bill White, well known Lamesa men, a Mr. Edwards, pioneer banker of Slaton, and Mr. Thornton, oil man of Seagraves.

The townsite known as Cedar Lake is located about one and one-half miles northeast of Cedar Lake. They have men on the site both day and night, and already the sale of several lots is reported. They also announce that a water system is in operation.

Courier Gets Some Stack Of Paper

Last week the Courier received the largest shipment of paper ever received in Lamesa, and with very few exceptions, the largest shipment ever received to a weekly paper.

If the paper were all unstacked and placed end to end, it would make a strip of paper three feet wide and more than 121 miles long. There is 1,932,000 square feet of paper in the shipment, or enough to print 1,288,000 pages of the size paper you are now reading.

Weighing more than twenty-three thousand pounds it represents a half carload.

If cut into one inch strips and pasted end to end, there would be 2,356 miles of paper one inch wide, or enough to reach from Lamesa to Los Angeles, Calif., and return. It is some pile of paper.

Here's A Tip!

But it's no secret . . .

at least not to the hundreds of Dawson County housewives, who use our service . . . and that is that Brown's Laundry Service covers every phase of your washing problems . . . whether you have us do the work or use our helpy-selfy service . . . You'll not be disappointed. A TRIAL IS ALL WE ASK!

It's economical to send us your washing . it's cheaper to bring your wash to BROWN'S!

Perhaps you didn't know it, but if you are doing your own washing at home, you're paying for laundry service without getting it. Reducible you say? Well look at these facts! Soap costs in the vicinity of 8c; soap chips, 10c; starch and blueing 2c; water 5c; electricity, gas, or other fuel, 8c; plus weekly cost of machine, boiler, tubs, wash boards, basket, line and pins—total costs represents around 67c, at the least, for a weekly wash of a minimum of 12 pounds, and that price doesn't include your own backbreaking labor!

Hunting Of Antelope Is Expensive

T. A. Harris, local Game Warden, reports the arrest of E. A. Collins of Brownfield last Monday, charged with hunting antelope. Collins pleaded guilty, according to Harris, of hunting the fleet footed animals in northwest Gaines County.

A fine of \$150.00, plus \$11.00 cost was paid by Collins, Harris reports. The killing of these animals carries one of the heaviest penalties imposed by the Stat Game Commission, and the \$161.00 in this case, was a light fine, according to Harris.

Old timers here recall that these animals were rather common in this section many years ago, but the onward push of civilization, plus the desire of hunters to bag one of them, has practically annihilated these native animals. The hunting season on them has been closed for many years. Even with all the protection given them, the antelope is very scarce in this section today.

LOCAL LAYMEN TO PLAINVIEW FOR MEETING

Mrs. C. W. Firestone, Mrs. H. R. Caudle and Rodney D. Glasscock, represented the Lamesa Christian Church at the District Two Convention held in Plainview Wednesday. The local people were privileged to meet deeply interested Christian workers who live in every section of the district and some of our outstanding State leaders.

One of the lasting impressions of the day was made by the splendid association of young and quite mature men of the Ministry. Every indication is given that the high standards of our spiritual ancestry will be adequately supported in the coming leadership of the Church.

The outstanding feature of the meeting was the highly practical nature of every report and of each address. The work of the men of the Abilene church was graphically reported. These Christian laymen have revitalized one large congregation, given the inspiration necessary for the completion of one Church building, opened one closed Church, and brought new activity into more than a dozen indifferent Church bodies. All of this has been accomplished by an active, progressive evangelistic interest—a real Christianity in life.

Dr. and Mrs. West of Lubbock presented slide pictures depicting their sojourn in Palestine. This night session was very real to all in attendance. By this means, the delegates were quite effectively conveyed into the Holy Land by a bit of imagination and a series of splendid colored photographs.

Likely, one would select "Optimism" as the key-note of the day. Everything points to a bright phase of activity during the past year and brilliant opportunities and possibilities for the near future.

Charles M. Ross declared "There was never a day like this—this great day of God." Brother Henry asserted that the Church has never had equally great opportunities in many decades, for at this time, man-built systems are crumbling.

Delta Kappa Gamma Entertained With Breakfast

Mrs. R. F. Nix was guest speaker at a breakfast for the Gamma Lambda Chapter of the Delta Kappa Gamma Society, given at the Somers Hotel, Saturday, November 18. Using for her subject, "Keeping an Objective Perspective of People," Mrs. Nix stressed the need of an unselfish and sympathetic attitude in those who seek to do their best in life. "A self-centered existence," she emphasized, "can bring no satisfaction to an individual, nor can it be of service to the world."

Mrs. L. M. Pratt read a beautiful story of the Thanksgiving season, "The Return of Pilgrim." A huge centerpiece of fruit arranged on a crystal reflector, and flanked by low brass bowls of red roses, accentuated in table decorations the harvest season and the society colors. Tiny hand-painted scrolls served as plate favors and revealed the program and the menu. Cards bearing the Greek symbols of the organization marked places for twenty-two members and guests.

The menu consisted of broiled grapefruit cocktail, Canadian ham with sliced pineapple, scrambled eggs, Manhattan rolls, jelly and coffee.

Following the breakfast the chapter initiated in an impressive ceremony five new members: Miss Stella Beard and Miss Clarice Sherrill of Seagraves; Miss Florence Griffith, Miss Toylee McClintock and Mrs. L. M. Pratt of Lamesa.

Other members present were as follows: Miss Ailene Jones, Mrs. Robbie Burdette, and Mrs. Margaret Hicks of Seagraves; Misses Camille Zell Barnes, Ethel Barron, Pinkie Brack, Eunice McReynolds, Jeanette Townsend, Mesdames Lester Gregg, R. H. Huddleston, Weldon Lindsey, Matt McCall, Jack McLaughlin, Len Sublett, and E. J. Yates of Lamesa.

To Present Play At Lubbock Soon

The Wesley Players are a group of Texas Tech students who have met the special requirements to become members of the club. The cast includes four local Lubbock members and two out of town members. These are as follows: Arvis Hilton, a resident of the Grandview community near Lamesa; Miss Adele Hodges of Crosbyton; Ralph Havis, Miss Louise Sullivan, Jimmy Day, Miss Zoe White, all of Lubbock.

2. A basic full-time staff consists of a physician, a nurse for each county, and a sanitary engineer, all trained in public health, and a clerk.

3. Communicable disease control and investigation to work hand in hand with the physicians of the county in keeping epidemics to a minimum and encouraging immunization against the communicable diseases.

4. Physical examination of school children by physicians, with follow-up by the nurse to urge correction of defects.

6. Tuberculosis case-finding by tuberculin testing of contacts, and urging early cases to be under the care of their family physician, with periodic examination.

7. Venereal disease control to educate the public in the need of early diagnosis, and in obtaining early and adequate treatment. The public should be discouraged from self-treatment.

8. Establishment of venereal disease clinics, aided and approved by the State Health Department and the local county medical society, depending upon available funds. Patients will be admitted to clinics only on proven medical indigency.

9. Maternity Service. The object of maternity care is to get in touch with all prospective mothers as early in pregnancy as possible for adequate nursing and medical supervision throughout the prenatal, natal, and postnatal period.

10. School health program. The primary aim is to secure maximum health for every school child thru his own intelligent cooperation and that of all others who control his environment. The unit to assist in the communicable disease control by the recognition of early symptoms, and by securing immunizations, and to participate in the promotion of hygiene and sanitation of the school.

11. The county health unit to investigate and to assist the rural population in securing pure domestic water supplies. To assist city officials with the public water supply problems, including inspections of public supplies with special attention given to location, construction, and operating features; to assist officials with installation and operation of sewage treatment plants.

All of these services may be had by this county upon the establishment of a district county health unit. These services may be had for a minimum expenditure on the part of this county.

Archaeological Clearing House Is Established

A clearing house for archaeological research in Texas was last week established at The University of Texas.

Dr. J. Gilbert McAllister, chairman of the University's department of anthropology, was named president of a seven-institution council. A. T. Jackson and T. N. Campbell also University staff members, were elected vice-president and secretary.

The council proposed to coordinate archaeological exploration and discoveries by mapping campsites of the state, standardizing terminology, and setting up a central laboratory at The University of Texas for identification and classification of specimens.

Other organizations linking forces in the cooperative work of the council are the Texas Archaeological Society, Sul Ross State Teachers College, Texas Technological College, Panhandle-Plains Historical Society, Witte Memorial Museum and the Central Texas Archaeological Society.

The State Highway Department has made a complete check of its employees and finds that 10.3 per cent are ex-service men, or a little more than the number set out in Senate Bill 190.

HANCOCK School News

The Primary Room put on the "Modern Story of William Tell" in chapel last week. Everyone enjoyed it very much. Then Juanita Coffman and the beginners "sang" several poems that were very good. The primary always gets the laughs and the praise for their programs for they are always original and very well trained.

Some of the posters and scrap books are very good and are causing the room to have daily visitors to see what progress has been made. A contest is being staged in the form of a bulletin board decoration contest. Each pupil is using art material done in class and good pictures depicting the lives of the Pilgrims on the first Thanksgiving. Much interest is being shown by the 3rd, 4th and 5th grades.

Grades 6 and 7 have finished their pitholer projects in wood-work and are well along on their paper weights. Several are doing projects on the outside and are doing some very creditable work. We think that we would like to be able to do some work like this for some very appreciated Christmas gifts.

Norman Houston, Maxine Hamilton and John Paul Hemphill were absent from their school work last week on account of illness.

Mrs. Ranson's parents and a brother visited her over the week end. Mr. and Mrs. D. B. Horn and Clifford. Mr. Clifford Horn is the band director in the Bronte High School.

Mr. Miller has been working out the boys in basketball just a little and plans to begin in earnest as soon as football season is over.

The girls are doing some practicing in basketball but will begin soon in earnest even though their number is small and the players equally small. Both boys and girls will be handicapped by being the smallest they have had for their teams in several years.

This week ends another six weeks period and many are preparing for their tests and others are just taking them.

Court was held last week for the offenders of the school laws. The punishment will be pretty severe according to the officers the next time the offenders are caught. Several cases were carried over from Friday. At next court the cases will be better prepared and will not take as much time and the sentences will be more definite.

Each week the school appreciates more and more the County Library, and the many good sources of new materials it allows us. We feel sure that it will help us more as we become accustomed to it.

DAWSON School News

Senior Class
The Seniors sold popcorn and candy at the football game last Friday. Don Carter furnished the popcorn. It seems that the committee that was appointed to sell these things did a good job of selling them.

The Senior Class, next Monday morning, will have the pleasure of presenting a program to the rest of the school at assembly. Those in the program committee are Louise Hatcher, Okylene Kelly, and Edith Kelly. We feel honored at having the first opportunity to offer entertainment in school.

We are about to get accustomed to heavy assignments by now. In fact we're afraid that the Thanksgiving holidays will have to be spent studying. We sincerely hope not though.

Junior Class
We are still worrying about those English contracts. Mr. Reese insists that they should be turned in before six weeks examinations. Juniors we're going to have to hurry, because those contracts are long. We sincerely hope that Mr. Strasser doesn't lose as much sleep over geometry as the Juniors do. If he does though, he will take our hints and try to sympathize with us concerning our notebooks.

The Revolutionary War in American history is progressing nicely. Mr. Chiles is giving us a very interesting course. However, we have another notebook in this subject also.

The Junior English Class is studying short stories and we are all preparing for our six weeks ex-

aminations. These examinations won't catch us unprepared this time.

We deeply regret losing Margaret Pancher, who is moving to Paducah this week.

The class is missing Billy McIver who was called to Winters, because of the illness of an uncle.

Freshman Class
Our class has worked hard this week. Each teacher classed us as doing "A" work. We are hoping for the same record next month.

On December 11, the Freshman class is to have a program in assembly. We hope to have the best program of all the school.

Charles Dunn is staying out of school in order to help his father. Charles we wish you would hurry and come back to school.

Homemaking Department
The Homemaking girls are making aprons for use in the Foods Laboratory next semester.

The club is to meet Monday November 20. We are to take up embroidery work and elect a new secretary, as Margaret Pancher is moving. We gave Margaret a handkerchief shower Friday.

Football
On Friday, November 10, the Dragons went on the field before a crowd of about three hundred people, who saw them go down in defeat before the Klondike Cougars. At the first half the score was nine to six in favor of the Dragons. At the end of the game the score was 26 to 15 in favor of the Cougars. Both teams showed some excellent playing.

The Junior boys played the Klondike Juniors and won by a score of 26 to 13.

FOOD SALES HERE RETURN \$42,956 IN HIDDEN TAXES

Families in Lamesa pay an estimated \$42,956 in hidden taxes annually through their purchases of food, a National Consumers Tax Commission survey showed today. "Nearly eight per cent of the total food bill represents shifted taxes buried in the price of every purchase," the report stated. "These unseen levies, for example, take 11 per cent of butter costs, 6 1/2 per cent of bread costs, 10 1/2 per cent of sliced bacon and 14 1/2 per cent of the cost of coffee."

The report was made public thru Mrs. Kenneth C. Fraser, of Dallas, Chairman of the Board, who leads NCTC study groups in about 810 Texas communities in the educational crusade against "unnecessary consumer-penalizing taxes." The report added:

"Chief offenders, and those that fall most heavily on lower income families, are hidden taxes. These are levied originally against the producer, manufacturer, shipper and distributor. Unable to absorb the load, each must pass on a share

of its taxes and the consumer ultimately pays them, usually without knowing it."

The commission, in whose non-partisan crusade groups in approximately \$100 communities have launched tax study programs, said the hidden tax figure does not include many other hidden and direct taxes families have to pay. The food tax estimate was computed from NCTC averages based on last available U. S. Bureau of the Census figures which placed 1935 food sales in Lamesa at \$552,000. Government estimates of total sales in the country last year approximate the total in the 1935 study, the NCTC said.

This Perfume Atomizer teaches you

how to SAVE MONEY

on COLD-WEATHER DRIVING

Greatest enemy of economy in winter driving is the choke. When it is used for starting, or while the motor is warming up, your gas tank is being drained 5 to 15 times faster than normal!

The only way to stop this waste of your money, is to use, not higher priced, but HIGHER TEST GASOLINE. This is why: With heavy crude oil in a perfume atomizer, no matter how hard you squeezed the bulb, you probably could not produce a spray.

But Phillips 66 Poly Gas would turn into a fine vapor at the first light pressure on the rubber bulb...

because this amazing gasoline is higher test... more volatile... readier to vaporize quickly and evenly for faster starting and smoother acceleration.

In any weather, it needs the least possible choke, a fact definitely proved by continuous laboratory surveys.

So don't wait. Start getting faster starting tomorrow morning, by getting Phillips 66 Poly Gas this afternoon. You pay nothing extra for its extra high test... at any Orange and Black 66 Shield... because Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

FOOTBALL—

(Continued from Front Page)

November 30th and Lamesa's district season closes with the San Angelo game.

The Bobcats will come to Lamesa with a "stop Vaughn" battle cry. Jackie Vaughn has been named first All-District Halfback by the Odessa sportswriters with Midlands Francis second and Big Spring's Bethel in fourth place. Jackie's backers are anxious to see him shake loose in the game with the Bobcats and show those "giants" his heels.

The game will begin at 8 P. M. on McCollum Field. Blankets, Overcoats, and wraps may be in order this time of the year. Football is a cold weather game in most parts of the country and affords an outdoor entertainment opportunity for hardy Americans and it is hoped that Dawson County fans will not be afraid of night weather for this game.

CLIFF DAY—

(Continued from Front Page)

vite at least one business man to this meeting. Mr. Day will also be the guest speaker at this meeting and will introduce a subject not discussed in a meeting of this kind before. The committee in charge of the meeting plans to give every farmer, business or professional man present an opportunity to express his opinion regarding the present status of agriculture, or business, as well as the outlook for the future. Although this meeting is primarily for farmers and their business associates, the general public is invited to use any available seats in the courtroom. The meeting will begin promptly at 8:00 p. m. Come early to get a seat.

Porcupine Is Captured In This County

A porcupine captured on the Bill Weaver farm in the Munger community, created a great deal of excitement when shown on the streets here Saturday.

George Sustata, who lives on the farm, awakened early Saturday morning to discover the animal perched in a tree. He attempted to dislodge him by shaking the tree, but met with no success. He fired on the animal with a pistol, knocking him from the tree. The shot wounded the porcupine, enabling Sustata to capture him.

So far as is known this is the first animal of this type to be captured in this section and many offered the suggestion that he had possibly escaped from some zoo or circus.

Mr. and Mrs. Henry Stafford of Crane are here visiting with Mrs. R. E. Simpson.

Sweetwater Wins Over Tornadoes In Friday Battle

Vaughn Is Hailed As Outstanding Back

Sweetwater's untamed Mustangs moved a step nearer the district championship last Friday night at Sweetwater with a convincing 46 to 7 victory over Lamesa's Golden Tornadoes.

Sweeping 65 yards on seven plays after the opening kickoff for their first touchdown, the Ponies didn't slow down until the game was welliced away. Hootie Lynn, Pap Headrick and Eddie Freeze struck pay dirt in that order in the first quarter to pile up a 20-0 lead.

Lamesa's only consistent march of the game came early in the second quarter with the Tornadoes sparked by their greco all around back, Jackie Vaughn, parading 63 yards in six plays for the counter. Gus White took a pass from Vaughn and went the last 21 yards for the tally. White booted goal and the Lamesa lads were held scoreless for the rest of the game.

The Mustangs bounced back with a drive to the Lamesa 11 and were down on the Tornado two when the half ended. One touchdown was all the boys from Sweetwater could rack up in the third quarter when an intercepted pass set up the tally. Lamesa's final threat followed the Ponies' fourth touchdown. Starting from their own 35, the Tornadoes ran and passed their way to the Sweetwater ten. After two running plays were stopped cold, a Sweetwater player intercepted a Tornado pass and returned the ball out of danger.

Starting there the Mustangs began to pound on down the field scoring three touchdowns in the final quarter to.

Feature of the Mustang's devastating attack was the even consistent blocking that had the Lamesa's groggy before he final whistle. Equally as sensational was the uncanny passing of Freeze who fired 11 times, scoring 10 bulleyses for 91 yards. Samuel Adrian Baugh, Sweetwater's greatest contribution to football never did better.

For Lamesa Vaughn and White played their usual sterling game, and although the going was rough the entire Lamesa squad never gave up and continued to battle.

The Ponies piled up a total of 437 yards on running plays, 91 on passes and intercepted six Lamesa passes to do just about everything a good football team should do. Lamesa picked up 70 yards on the ground and 77 by air. Sweetwater tabbed 26 first downs, Lamesa 8.

No Luck Reported By Deer Hunters

D. L. Echols, L. B. Vaughn, Boyd Echols, Joe English and R. E. Echols, Sr., returned last week from a hunting trip on the Kokernot Ranch south of Alpine in the Big Bend section.

Although they failed to bag a single buck, they reported a very enjoyable trip. They stated that the country they saw was worth the time and effort of the trip.

L. R. Tidwell, Charley Hunt, Jim Waltrip and Frank Stanley returned last week from a deer hunt in the Big Bend country. They reported a fine trip and much fun, but no deer.

B. W. Fields and son, Bruce, returned Sunday from Kerrville, where Mr. Fields bagged a seven-point buck. This is the third year in a row that he has been successful in his quest for deer, returning with one fourteen and two seven-point bucks.

Several other hunting parties from Lamesa have either gone or are now hunting, but what luck they have had could not be learned.

Mary Adel Carson And Vera Harper Presented In Musical Arts Program Last Thursday

An enthusiastic and appreciative audience heard the opening program of the Musical Arts Series last Thursday evening in the high school auditorium when Mary Adel Carson, soprano, accompanied by Vera Harper, were presented in concert.

These charming young ladies, both Texans, presented a most attractive program. It was well balanced and artistically presented. By special requests from local people, some of the more familiar selections were rendered such as "Songs My Mother Taught Me".

"When I Was Seventeen", "Annie Laurie", "Comin' Though the Rye", and others. They were presented with the same skill and ease as the more classical numbers.

From her first entrance upon the stage, Miss Carson held her audience with her charming smile, winning personality and beauty of voice. Her youthful voice is rich and warm and of a quality that surely spells success for her in her chosen field.

In the more classical renditions, Miss Carson showed perfect skill. Her beautiful lyric voice showed wide range and carrying qualities in "Aria Depuis le Jour" and "Di Polissena" and every tone was flawless in pitch, power and beauty. There was smoothness and beauty in her voice that pleased the ear.

Miss Harper was equally as talented as a pianist. Her accompaniment was perfect in every detail and when she played "Liberstraum" and "Juba Dance", the listeners were unanimous in their opinion that a new star of the keyboard had been discovered. Her ease and fluency on the piano were phenomenal.

Altogether it was a most satisfactory performance.

The Delphian Club met Tuesday evening November 21, in the Woman's Club House. "Is There Nothing New?" was the theme of the evening's program.

Mrs. E. R. Yates gave an interesting travelogue of New York City and the New York World's Fair. Her talk was based largely on the city proper. She cited the many points of interest by an illustrated drawing of "Manhattan Island," that and the descriptive word pictures made her tour seem very real. As a fitting conclusion Mrs. W. J. Beckham sang "Sidewalks of New York."

Mrs. Eldrid Travis gave a vivid description of "Treasure Island," where the San Francisco Fair was held. The high points of her travelogue was the description of the "Palace of Fine and Decorative Art." It was here that many of the world's greatest paintings were assembled. The exhibit in the "Hall of Flowers" was also magnificent, showing that God is the master artist after all.

Mrs. Gladys Sublett reviewed the popular autobiography, "Horse and Buggy Days," by Dr. Arthur E. Hertzler. The book is based on the experiences of a Country Doctor in the early days of Kansas. The medical life of Dr. Hertzler's day is a contrast to modern science, but it shows how the untiring efforts of our early doctors did so much to alleviate disease and suffering, and also promoted the advancements in that field.

FOOTBALL—

(Continued from Front Page)
November 30th and Lamesa's district season closes with the San Angelo game.

The Bobcats will come to Lamesa with a "stop Vaughn" battle cry. Jackie Vaughn has been named first All-District Halfback by the Odessa sportswriters with Midlands Francis second and Big Spring's Bethel in fourth place. Jackie's backers are anxious to see him shake loose in the game with the Bobcats and show those "giants" his heels.

The game will begin at 8 P. M. on McCollum Field. Blankets, Overcoats, and wraps may be in order this time of the year. Football is a cold weather game in most parts of the country and affords an outdoor entertainment opportunity for hardy Americans and it is hoped that Dawson County fans will not be afraid of night weather for this game.

CLIFF DAY—

(Continued from Front Page)
vite at least one business man to this meeting. Mr. Day will also be the guest speaker at this meeting and will introduce a subject not discussed in a meeting of this kind before. The committee in charge of the meeting plans to give every farmer, business or professional man present an opportunity to express his opinion regarding the present status of agriculture, or business, as well as the outlook for the future. Although this meeting is primarily for farmers and their business associates, the general public is invited to use any available seats in the courtroom. The meeting will begin promptly at 8:00 p. m. Come early to get a seat.

Porcupine Is Captured In This County

A porcupine captured on the Bill Weaver farm in the Mungler community, created a great deal of excitement when shown on the streets here Saturday.

George Sustata, who lives on the farm, awakened early Saturday morning to discover the animal perched in a tree. He attempted to dislodge him by shaking the tree, but met with no success. He fired on the animal with a pistol, knocking him from the tree. The shot wounded the porcupine, enabling Sustata to capture him.

So far as is known this is the first animal of this type to be captured in this section and many offered the suggestion that he had possibly escaped from some zoo or circus.

Mr. and Mrs. Henry Stafford of Crane are here visiting with Mrs. R. E. Simpson.

Sweetwater Wins Over Tornadoes In Friday Battle

Vaughn Is Hailed As Outstanding Back

Sweetwater's untamed Mustangs moved a step nearer the district championship last Friday night at Sweetwater with a convincing 45 to 7 victory over Lamesa's Golden Tornadoes.

Sweeping 65 yards on seven plays after the opening kickoff for their first touchdown, the Ponies didn't slow down until the game was well ice away. Hootie Lynn, Pap Headrick and Eddie Freeze struck pay dirt in that order in the first quarter to pile up a 20-0 lead.

Lamesa's only consistent march of the game came early in the second quarter with the Tornadoes sparked by their great all around back, Jackie Vaughn, parading 63 yards in six plays for the counter. Gus White took a pass from Vaughn and went the last 21 yards for the tally. White booted goal and the Lamesa lads were held scoreless for the rest of the game.

The Mustangs bounced back with a drive to the Lamesa 11 and were down on the Tornado two when the half ended. One touchdown was all the boys from Sweetwater could rack up in the third quarter when an intercepted pass set up the tally. Lamesa's final threat followed the Ponies' fourth touchdown. Starting from their own 35, the Tornadoes ran and passed their way to the Sweetwater ten. After two running plays were stopped cold, a Sweetwater player intercepted a Tornado pass and returned the ball out of danger.

Starting there the Mustangs began to pound on down the field scoring three touchdowns in the final quarter to.

Feature of the Mustang's devastating attack was the even consistent blocking that had the Lamesa's groggy before he final whistle. Equally as sensational was the uncanny passing of Freeze who fired 11 times, scoring 10 bulletpoints for 91 yards. Samuel Adrian Baugh, Sweetwater's greatest contribution to football never did better.

For Lamesa Vaughn and White played their usual sterling game, and although the going was rough the entire Lamesa squad never gave up and continued to battle.

The Ponies piled up a total of 437 yards on running plays, 91 on passes and intercepted six Lamesa passes to do just about everything a good football team should do. Lamesa picked up 70 yards on the ground and 77 by air. Sweetwater tabbed 26 first downs, Lamesa 8.

No Luck Reported By Deer Hunters

D. L. Echols, L. B. Vaughn, Boyd Echols, Joe English and R. E. Echols, Sr. returned last week from a hunting trip on the Kokernot Ranch south of Alpine in the Big Bend section.

Although they failed to bag a single buck, they reported a very enjoyable trip. They stated that the country they saw was worth the time and effort of the trip.

L. R. Tidwell, Charley Hunt, Jim Waltrip and Frank Stanley returned last week from a deer hunt in the Big Bend country. They reported a fine trip and much fun, but no deer.

B. W. Fields and son, Bruce, returned Sunday from Kerrville, where Mr. Fields bagged a seven-point buck. This is the third year in a row that he has been successful in his quest for deer, returning with one fourteen and two seven-point bucks.

Several other hunting parties from Lamesa have either gone or are now hunting, but what luck they have had could not be learned.

From her first entrance upon the stage, Miss Carson held her audience with her charming smile, winning personality and beauty of voice. Her youthful voice is rich and warm and of a quality that surely spells success for her in her chosen field.

In the more classical renditions, Miss Carson showed perfect skill. Her beautiful lyric voice showed wide range and carrying qualities in "Aria Depuis le Jour" and "Di Polissena" and every tone was flawless in pitch, power and beauty. There was smoothness and beauty in her voice that pleased the ear.

Miss Harper was equally as talented as a pianist. Her accompaniment was perfect in every detail and when she played "Liberstraum" and "Juba Dance", the listeners were unanimous in their opinion that a new star of the keyboard had been discovered. Her ease and fluency on the piano were phenomenal.

Altogether it was a most satisfactory performance.

The Delphian Club met Tuesday evening November 21, in the Woman's Club House. "Is There Nothing New" was the theme of the evening's program.

Mrs. E. R. Yates gave an interesting travelogue of New York City and the New York World's Fair. Her talk was based largely on the city proper. She cited the many points of interest by an illustrated drawing of "Manhattan Island," that and the descriptive word pictures made her tour seem very real. As a fitting conclusion Mrs. W. J. Beckham sang "Sidewalks of New York."

Mrs. Eldrid Travis gave a vivid description of "Treasure Island," where the San Francisco Fair was held. The high points of her travelogue was the description of the "Palace of Fine and Decorative Art." It was here that many of the world's greatest paintings were assembled. The exhibit in the "Hall of Flowers" was also magnificent, showing that God is the master artist after all.

Mrs. Gladys Sublett reviewed the popular autobiography, "Horse and Buggy Days," by Dr. Arthur E. Hertzler. The book is based on the experiences of a Country Doctor in the early days of Kansas. The medical life of Dr. Hertzler's day is a contrast to modern science, but it shows how the untiring efforts of our early doctors did so much to alleviate disease and suffering, and also promoted the advancements in that field.

PILGRIMS OF 1939

THE STILL CHILL OF A NOVEMBER MORNING 318 YEARS AGO, GAVE NO INDICATION OF MAN'S FEELINGS SILENT MEN, WITH FLINTLOCK SHOULDERED, AND PALE WOMEN, THEIR COWLS DRAWN CLOSE, SLIPPED SILENTLY THROUGH EARLY WINTER'S SNOW. AND THERE WERE SMILES ON THEIR FACES — SMILES OF THANKFULNESS FOR A HAVEN THAT RESPONDED TO THEIR DILIGENT TOIL MUNIFICENTLY.

PERHAPS WE OF THE STREAMLINED TWENTIETH CENTURY COME BY OUR COMFORTS TOO EASILY; PERHAPS WE FAIL, AT TIMES, TO EVALUATE OUR EASE OF SELF-PROVISION. BUT THE "PILGRIMS" OF 1939 ARE LIKENED TO THOSE OF 1621 — ALL CONSUMATELY APPRECIATIVE OF PAST BLESSINGS — ALL SURPRISINGLY CONFIDENT OF THEIR HOPES IN THE FUTURE.
