WILSON'S REPRESENTATIVE CONFERS WITH CARRANZA

BAYARD HALE AT NOGALES TODAY

MEETS WITH ENTIRE CONSTITUTIONALIST CABINET THERE AT NOON

EXACT STATUS UNKNOWN

Not Much Doubt at Washington, However, That he is Personal Envoy of President

By Associated Press.
Nogales, Sonora, Nov. 12.—William Bayard Hale, President Wilson's representative, went in to conference with General Carranza here just before noon today together with Carranza's entire constitutional cabinet.

CONFERENCES INTERPRETED AS FIRST OPEN MOVE.

By Associated Press.
Washington, Nov. 12.—Conferences between William Bayard Hale and General Carranza at Nogales are interpreted in official circles as the first open move by the United States government to show its interest in the Constitutional movement in Mexico. No one commented today on Mr. Hale's exact status, but on a previous occasion, when he spent three months in Mexico City gathering information, President Wilson let it be known that Mr. Hale was there as his personal friend.

Little doubt exists that while Mr. Hale still retains the character of unofficial envoy, he is furnishing the Washington government with information for official purposes. He will probably report on the personal character of Carranza, whether he has the united support of the Constitutionalists and if successful by arms, whether he would establish a provisional government that would guarantee fair and free elections.

There was no announcement here today as to future steps in the American policy. News of the arrival at Nogales of Mr. Hale gave rise to the suggestion that the Washington government is waiting for more information about the constitutionalists before proceeding.

There is a hope on the part of both the president and Secretary Bryan that a measure so radical as permitting exportation of arms may not be required to solve the problem. Influences are at work which, in the opinion of many officials, may force the early collapse of the Huerta regime. There is a closer understanding, for instance, and more frequent communications between the state department here and foreign governments generally than has been in evidence at any time since the Mexican problem became so widely international.

Not only through the American embassies and legations abroad, but through the diplomatic corps in Washington, Secretary Bryan is giving out detailed information of the American policy as to leave no doubt of what the United States would like to see accomplished. So far as is known, there have been no direct requests for foreign support. But the strong intention of the United States would lead foreign nations to refrain completely from interference in the affairs of the Huerta government are expected to produce tangible results.

That President Wilson might possibly issue a statement in a day or two making a comprehensive explanation of the purpose of the United States was indicated by some of the diplomats who have now been fully informed about the situation. The president, it is said, has not finally determined whether he shall make a pronouncement, but it has been suggested to him that such a declaration might place on record before the world the reasons why the elections conducted by the Huerta government of president, vice president and members of Congress in Mexico could not be recognized by the United States. It is reported that in this connection, too, the president may announce the repudiation in advance of any acts of the new Congress, which Gen. Huerta has said would be convened on Nov. 20.

President Wilson was in communication again through Senator Bacon with members of the Senate foreign relations committee. The president feels that members of the committee, Republicans and Democrats alike, are supporting the policy of the executive and he is giving serious consideration to their views as to the removal of the embargo on arms.

President Makes Report at Annual Convention in New Orleans—Organized in Colorado

By Associated Press.
New Orleans, Nov. 12.—About 4000 members were added to the ranks of the United Daughters of the Confederacy during the last twelve months and soon a new state division, Colorado, is to be brought into the organization, Mrs. Alexander D. White, president of the Daughters, told delegates at the twentieth annual convention here today. More chapters have been dropped than in any year of the organization's history. This Mrs. White attributed to a weeding out of dead timber.

MORE STATISTICS WANTED ON COTTON SEED BUSINESS

Washington, Nov. 12.—Director Harris of the Bureau of the Census, finds that there is great demand for the publication at more frequent intervals of statistics concerning the consumption of cotton seed. It has been the practice of the Bureau of the Census to compile statistics for this important part of the cotton crop only twice during the ginning season. The first report for the crop of 1912 related to the quantity of cotton seed crushed prior to January 1, 1913, with an estimate of the quantity remaining to be crushed from the crop.

The statistics of cotton seed are collected in connection with those for the production of cotton as reported by the ginner. This is necessary because the quantity of linters is constantly increasing and forms a much larger percentage of the total crop than heretofore.

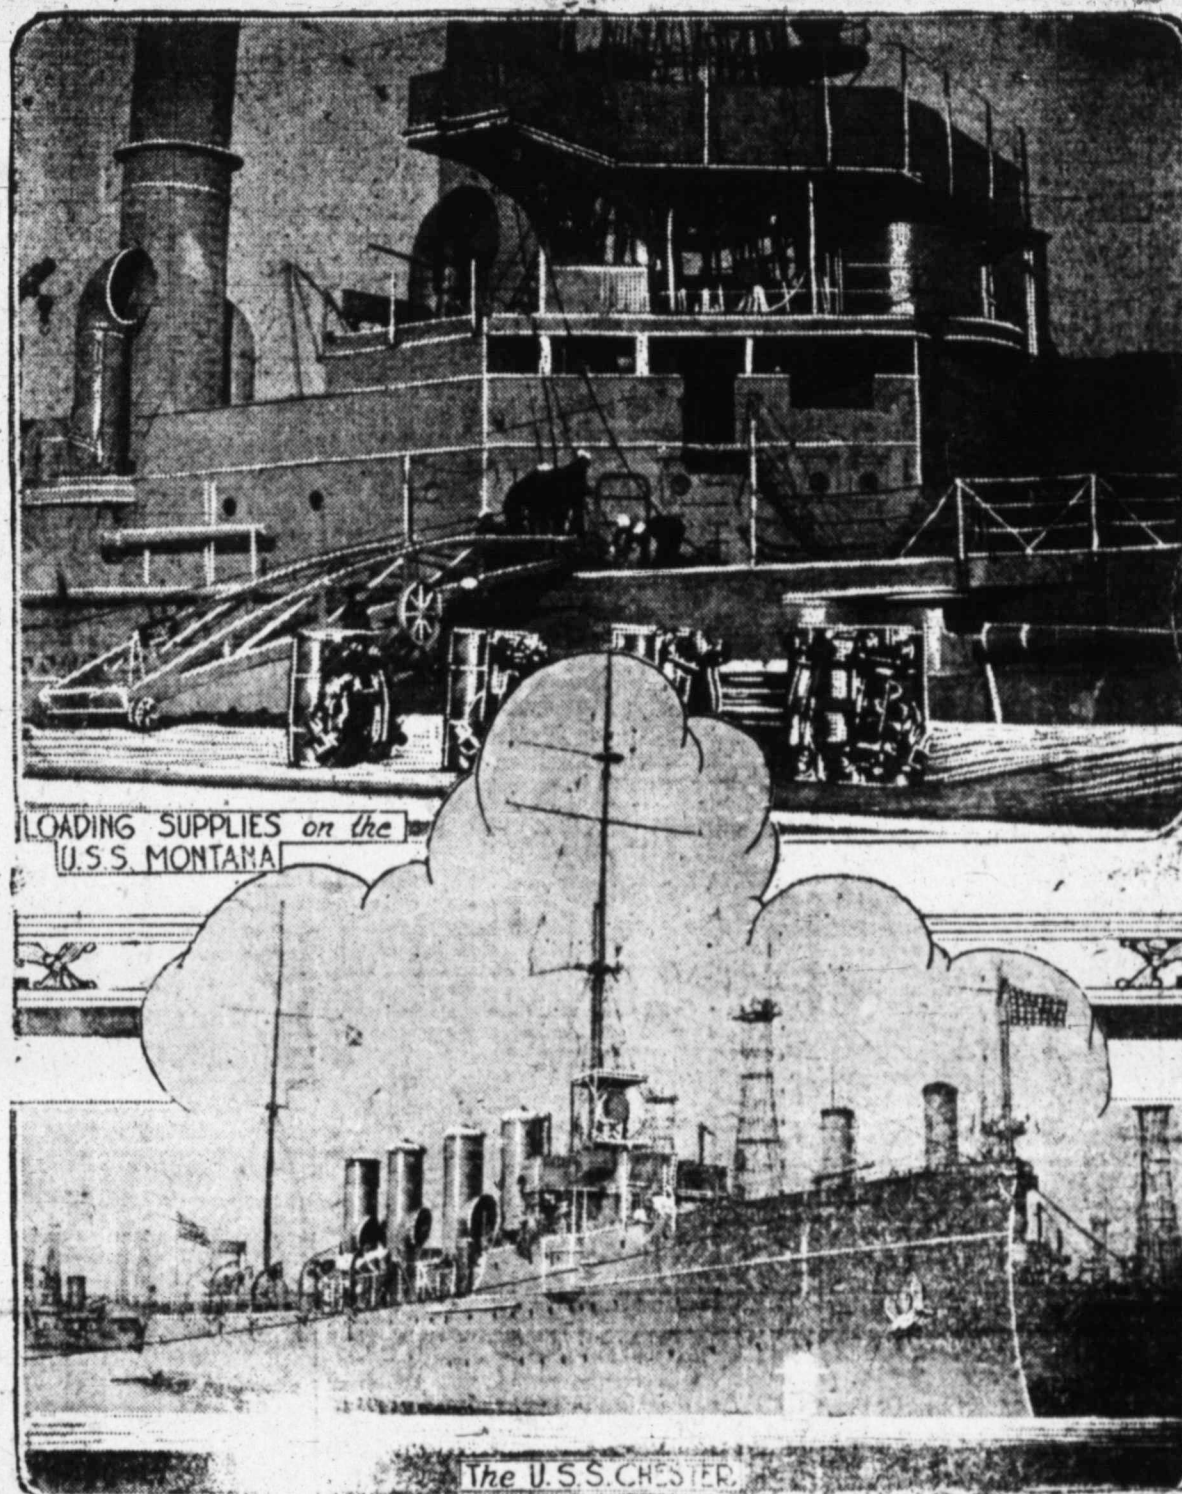

Mr. Harris believes that an additional report showing the quantity of seed and of crushed linters obtained should relate to some date between October 31 and January 1. He is not certain as to the most desirable date, and is accordingly corresponding with the farmers and cottonseed-oil mills in order to establish it. It is hoped that all will agree upon a fixed date, so that the work can be inaugurated during the present season.

This additional report will be of great value to the farmers, as well as to the oil mills and public generally.

LOADING SUPPLIES ON ONE OF NAVY'S STRONG FIGHTERS AT PHILADELPHIA

Philadelphia, Nov. 12.—All is hustle and bustle here at the League Island navy yard. Sailing orders for battle ships have come. The protected cruiser Chester has left for Vera Cruz. Three other ships—Mississippi, Tennessee and Montana—are ready to go. The cruiser Salem received orders to overhaul her turbine engines and be ready for active service.

Service stores, new guns and additional men have been supplied these vessels, and their crews are enthusiastic over the prospect of either a fight or a frolic.

Possibility That Two Boats Sank—Fears Are Expressed For Other Craft Reported Missing

By Associated Press.
Port Huron, Mich., Nov. 12.—Although many marine men are firm in their belief that the steamer which turned turtle in Lake Huron a few miles northeast of here during the big gale is the ill-fated steamer Regina, of the Merchants Transportation Company of Toronto, others are equally sure today that it is not.

It is regarded certain, however, that the Regina went down during the storm. Many believe there was a collision between the unidentified vessel and the Regina, that the vessel went over immediately, while the Regina's crew abandoned her and took to life boats. They believe the Regina's wreck will be found in another place.

The wreck of the Regina was confirmed when ten bodies were found on the beach at the Canadian fishing village of Port Frank.

CONFERENCE ON CURRENCY BILL

SENATE DEMOCRATS AGREE TO RECOMMEND SIX REGIONAL BANKS

COMPROMISE IS REACHED

Reed and O'Gorman Go Into Meeting But Hitchcock Stays Out—Hope To Reach Agreement

By Associated Press.
Washington, Nov. 12.—Senate Democrats in a party conference today took up the currency situation, with the plan of bringing the administration bill out of committee, which have grown up about it in the banking committee and putting the measure on the way to passage in a form acceptable to the president.

Senators O'Gorman and Reed went into the committee meeting, but Senator Hitchcock did not. A compromise was effected between the twelve regional banks of the House bill and the four voted in the majority of the Senate committee, the Democrats agreeing to recommend six.

Bank ownership of stock in regional banks was taken up, but the administration senators refused to yield and it was practically agreed that the House provision on that point should stand.

Marked progress toward an agreement on the bill by six of the members of the Senate banking committee resulted in a request that action by the conference be delayed. Senator O'Gorman said the six Democrats were reaching an agreement by mutual concessions and he asked the conference to leave the question to the committee members in the hope that the bill, in the form provided by the president, might be presented to the Senate, signed by the six democratic members at an early date. The administration senators, Owen, Hollis, Pomeroy and Shafer, will present to the conference their version of what the President will accept in the way of currency legislation. They will report the Administration bill as it passed the House, it is expected, with but a single important amendment. The other changes will be alterations of phraseology calculated to correct evident errors or to make the meaning clear. It is understood that the President is willing to yield one important change, for which there has been widespread demand, the elimination of the words "or lawful money" from the redemption section of the bill, making the proposed new currency bill redeemable only in gold.

The Republican members of the committee decided to await the action of the caucus before taking any affirmative steps, but they are planning a report to the Senate, which will recommend a measure based on the general lines of the Glass bill.

They will include, however, the amendments which the Senate committee adopted, providing for not more than four regional banks, to be publicly owned and controlled by the government as opposed to the Administration plan for bank-owned and bank-controlled regional banks.

BRITISH PAPER GIVES WARNING TO HUERTA

London, Nov. 12.—Significant warning to President Huerta was issued today by the Westminster Gazette, the government newspaper. Commenting on Premier Asquith's gilded hall speech in which he made it plain that no antagonism exists between England and the United States in regard to Mexico, the Gazette said:

"The idea that any valid election in the sense in which democratic or constitutional countries understand the word—can be held in Mexico, is probably a diplomatic fiction, but the electoral test was of General Huerta's choosing and he will to keep him reminded that his failure to conform to its result leaves all governments free to reconsider their act of recognition. Briefly, the limit of British action is that the British government should not put itself in a position of making protests which in default of forcible action, might be flouted and defied. But diplomacy has other resources than more force and Provisional President Huerta may easily find that the attitude of this country is in a variety of ways a matter of great moment to him."

JAPAN INVITES PRESIDENT OF HARVARD AND COL. ROOSEVELT

Tokio, Nov. 12.—The Harvard Club of Japan today voted to invite President A. Lawrence Lowell of Harvard and Col. Theodore Roosevelt to deliver a series of lectures in Japan. The purpose is "to promote mutual understanding and friendship between Japan and the United States."

HEAVY LOSS OF LIFE INDICATED BY WRECKAGE.

By Associated Press.
Goderich, Ont., Nov. 12.—Reports from along the Canadian shore of Lake Huron point to a heavy loss of life and shipping in the recent storm. Seven bodies from the schooner Charles S. Price have come ashore below Grand Bend. Wreckage found here indicates that the Japan Carubers, the largest Canadian freighter on the lakes, has been lost.

COPPER MINING CONCERN WARNED

SECRETARY OF LABOR WILSON ATTACKS MICHIGAN COMPANY AT SEATTLE

PUBLICITY IS PROMISED

Low Wages, but Enormous Profits, he Says—Echo of Mulhall Disclosures is Heard

By Associated Press.
Seattle, Nov. 12.—Secretary of Labor William D. Wilson, addressing the American Federation of Labor today bitterly condemned the attitude of the Michigan Copper Mining Company, and warned them that a new conception of titles of property was in process of formation. He declared he would make public, not only the wages paid to the miners, the hours they worked and the labor conditions, but the enormous profits of the mine owners.

The Federation refused to accept the credentials of Jacob Tazelaar, delegate of the Painters, Paper Hangers and Decorators' Union, and ordered that he be excluded from the floor of the convention hall.

Tazelaar was named by Col. Martin M. Mulhall, former agent of the National Association of Manufacturers as having been employed by Mulhall to work against the election of Representative (now Senator) William Hughes of New Jersey. Mulhall swore before a congressional committee that he paid Tazelaar \$1,800 for his services against Hughes, whom the National Association of Manufacturers was seeking to defeat.

The new method of combating all the annual reports into one and that issued by the executive council is said to have accomplished a saving of two days in the work of the convention. The report of the executive council was divided into several topics and each turned over to its proper committee for action.

Fort Worth, Texas, has asked for the next convention, but it is practically decided not to meet next year and to assemble in San Francisco in 1915.

AMERICAN SAILORS ARE GIVEN WELCOME AT NAPLES.

Naples, Italy, Nov. 12.—The Italian government outdid itself in the reception accorded to Rear Admiral Badger, commander in chief of the division of the Atlantic fleet which is visiting Italian ports. The admiral's flagship, Wyoming, dropped anchor today in the Bay of Naples, following an exchange of salutes. Officers from the royal navy immediately boarded the Wyoming to pay their official respects to Rear Admiral Badger, who soon after returned the call, accompanied by his full staff. Every minute of today was taken up with an elaborate program of entertainments and receptions in honor of the American naval commander in chief and his officers. The crew of the flagship as well as the officers and crews of the American battleships Arkansas and Florida, which have been in port since November 8, were entertained ashore by Italian naval officials and crews. The Wyoming leaves early tomorrow.

SEARCHING FOR SCENE OF SUPPOSED MURDER

Paris, Nov. 12.—For two weeks Paris police have been searching in vain for the scene of a supposed murder. A woman in charge of an apartment house in Passy, answering the ring of a telephone bell a fortnight ago, heard screams for help and the cry that murder was being committed, a policeman was called and he listened to the end of the supposed tragedy. The cries became fainter and fainter and there seemed to come the sound of a falling body.

Meanwhile repeated inquiries, "who are you?" and "where are you?" remained unanswered. Suddenly the connection was cut. All efforts at the telephone exchange to place the call failed.

VESTS

VEST—From the Latin word, "Vestis." There are several kinds of vests, such as "invest," which means when you deal with an honest merchant you invest your earnings in something worth while. Now, another word that is closely affiliated with the opening word is "divest." Now, this word means to take something from you. Now, neither of these have anything to do with the Vestal Virgins who, when they violated their vows were buried alive. When Loeb and Liepold make a vow to please and satisfy their patrons they are willing to have this punishment if they fail in their efforts.

Cottolene

The only "new" features you will find will be economy and more appetizing food.

Use any recipes you like—but remember to use one-third less of Cottolene than you would of butter, lard or any other shortening.

Cottolene not only makes better, lighter and entirely digestible biscuits, pies, cakes and other pastries, but it always "creams-up" beautifully, blending perfectly with the flour or sugar.

You cannot "experiment" with Cottolene. Using it is so simple and so completely satisfactory that you will readily appreciate why the prominent cooking experts give it their preference and recommend so highly.

BALL BROS. BUY BOTTLE FACTORY

WILL INCREASE ITS CAPACITY AND RE-OPEN PLANT AT AN EARLY DATE

ANNOUNCEMENT IS MADE

Will Manufacture Same Lines As Heretofore, With Some Additions

Ball Brothers of Muncie, Indiana, owners of the fruit jar factory here have purchased the plant of the Texas Bottle Manufacturing Company and will re-open the plant as soon as changes that will increase the capacity can be made. These changes will require a month or more.

While it has been known for some time that a deal has been pending public announcement that it had been closed was not made until today. G. A. and W. C. Ball two have been in the city for several days in connection with arrangements for re-opening of the plant left today but will return next week.

Practically the same line of goods will be manufactured with several additional lines. This will be the only bottle plant operated by Ball Brothers in the Southwest.

With their acquisition of the bottle plant Ball Brothers will have all the advantages for their plant here that they have at their home plant at Muncie, Ind., as it is well enabled them to make shipments of full carloads of bottles and jars and thereby get the advantage of the lower freight

rates whereas if they manufactured only the one line they would have to make shipments in less than carload lots in some instances.

The principal stockholders in the Texas Bottle Manufacturing Company are R. H. Miller, J. A. Kemp, Frank Kell, C. J. Coyne, E. Coyne and P. P. Langford.

My Motto: Miller sells it for less.

Tramp on the misty hillside dimly;
I see along the sullen plain
Phantoms of nightfall gather grimly.

But from the gateway of the west
There comes a flood of gold outflowing
That lights the passing sea bird's breast
And glides the hilltops with its glowing.

On rock and tree and grassy glade
Flashes the swift, transfiguring brightness
While lingering rainbow fragments fade
On leader skies that clear to whiteness.

Then comes the closing of the gate—
The flame of glory falls to ashes;
The far and near are desolate
With clouds that wail and rain that lashes.

CONFERENCE ON SAFETY AT SEA IN SESSION

London, Nov. 12.—Lessons from the Titanic and Volturno disasters were drawn today in the opening sessions of the International Conference on Safety at Sea. The United States was represented at the gathering by Representative Joshua W. Alexander of Missouri, chairman of the House committee of merchant marine and fisheries, chairman of the delegation; Eugene T. Chamberlain, commissioner of navigation, secretary; and Captain George D. Cooper, United States navy, treasurer. As had been expected, one of the first matters which came up for consideration today was the recommendation that wireless apparatus be required on all ships in foreign trade that carry fifty or more persons, including passengers and crew. In this connection it was deemed advisable according to a report read at today's session, that the wireless on all ships should be able to transmit messages at least 100 nautical miles and that auxiliary power supply for working the wireless, must be provided, independent of the vessel's main electrical power plant, to send messages at least 100 miles for four hours or more.

On the question of requiring at least two operators, it was expected that some differences of opinion would arise. Such a recommendation, it was thought, would pass in regard to ships maintaining a constant service and carrying 100 or more passengers. It was thought that one first or second grade wireless operator and one cargo operator or watchman would be recommended for cargo boats. All these recommendations were heartily supported by the delegation from the United States. It was expected that some sort of resolution praising Captain Inch of the burned Volturno, would be unanimously agreed upon, to commend him for his gallantry when his ship burned at sea some weeks ago.

The story of the Volturno disaster was expected to be vividly retold in support of recommendations for better fire fighting facilities on all boats.

DELICATE CHILD

Made Strong and Healthy by Vinol.
Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly we guarantee Vinol, our delicious cod liver and iron tonic, will build them up, create a hearty appetite, sound flesh and muscle tissue, pure, healthy blood and make them strong.

Mrs. L. L. Bertrand, New Iberia, La., says: "My little son was weak and run down in health, and was continually taking cold. Different medicines failed to help, but when Vinol was recommended I found it a wonderful help to my child. It broke up the cold, and quickly restored health and strength. Vinol is a most excellent tonic for children."

If Vinol fails to do just what we say, we will give back your money. P. S. For any skin trouble try our Saxo Salve. We guarantee it.

FLORENCE LAWRENCE AT LYDIA MARGARET

Florence Lawrence returns to the screen after a long rest and in a Victor picture worth while at the Lydia Margaret Theatre tonight. Florence Lawrence has come back—not only has she come back, but stronger and better than when she left the screen. Her years' rest from work shows in the opening scenes there is the old time enthusiasm, the snap and the go which are now seen have in the past placed Miss Lawrence in a class to herself. There is no one just like her. If you personally like your women sedate, dignified, you will fall in love with her near-tonboyish ways just the same. The long time screen favorite's fortunate indeed in the story in the interpretation of which she makes her re-entrance to the hearts of picture followers.

Captain Lisle T. Peacock of the universal staff is the author of "The Closed Door." He has written it with a knowledge of the capacity of Miss Lawrence for detecting various emotions. It is a story that thrills at times and goes straight to the hearts. Likewise it is a story for men and women. Throughout the two reels the picture holds. The first one interests and entertains and at times amuses, but the second grips.

SCHOOL BOARD MEMBERS NOT LIABLE FOR DAMAGES
Austin, Texas, Nov. 12.—The department of education was advised by the attorney general's department that members of the school board would not be liable for damages personally or otherwise in an official capacity where the board exercised a proper discretion in the discharge of official duties, even though it should afterward be determined that such discretion was erroneously exercised; that if their conduct was not malicious so damages would lie.

Wichita Falls, Texas, Nov. 12, 1913

It's about time Texas was electing
a man governor who has the ability
to distinguish the office. It has been
the other way long enough.

On November 25th Miss Jessie Wil-
son, daughter of the President, is to
be married to a Mr. Sayre. No doubt
it is to be a most brilliant affair. This
reminds us that our invitation has
not reached us, but the President has
two or three other unmarried daugh-
ters, and it may be there will be as
many more White House weddings
during his administration.

The express companies have suc-
ceeded in persuading the interstate
commerce commission to postpone put-
ting on the new reduced rate schedule
that was to go into effect December
1st until February 1st. Therefore you
may expect to pay the usual rate for
your Christmas packages.

Probably the best way to settle this
Mexican business is to supply Carranza
with all the guns and ammunition he
can use, only requiring that he give
bond not to use them on Americans
that might still be in that country or
who might want to take a trip down
there. It is better that way than
have American soldiers killed, and
there is every evidence that all that
Carranza needs to conquer Huerta is
something like an even break with
him to get guns and ammunition. He
seems to have the men.

Louisville, Kentucky, paid a unique
tribute to one of its most distin-
guished citizens the other day when it
unveiled a statue of General John H.
Castleman. General Castleman par-
ticipated in the ceremonies in spite
of his advanced age. There is some-
thing fine about it all. Why should
municipalities or individuals wait
until after death to pay deserved tribute
to merit? Why not erect statues to the
living, why not smooth their declin-
ing years with the consolation that
they are loved and honored by the
people among whom they have lived so
long and to whom they have given the
best years of their lives? We trust
the example of Louisville will be fol-
lowed all over the land, that sooner or
later we shall see a dozen or more
statues to the living.—Tulsa Daily
World.

Attorney General McReynolds has
ruled that Uncle Sam is not entitled
to retain the five per cent rebate clause
in the new tariff designed for the pro-
tection of American shipping inter-
ests. His ruling in this matter is
based on a clause in the law which
says: "Nothing in this section shall
be so construed as to abrogate or in
any manner impair or affect the pro-
visions of the treaty concluded be-
tween the United States and any for-
eign Nation." England has taken that
position all along, and now that our
Attorney General agrees with it, it
should settle the matter. All the same,
however, it does not seem right or
just that a canal built with American
money cannot be run in the interest
of Americans and American ships. The
trouble seems to be in the making of
the treaty, and that's where Amer-
ica fell down, and England and other for-
eign nations will have the use of the
canal without having paid anything
for its construction.

FREEDOM, BETTER THAN RICHES

President Wilson concluded his ad-
dress at Mobile as follows:
"This is not America because it is
rich. This is not America because it
has set up for a great population great
opportunities of prosperity. America
is a name which sounds in the ears of
men everywhere as a synonym of in-
dividual liberty. I would rather be-
long to a poor nation that was free
than to a rich nation that had ceased
to be in love with liberty. But we shall
not be poor if we love liberty, because
the nation that loves liberty truly sets
every man free to do his best and be
his best, and that means the release
of all the splendid energies of a great
people, who think for themselves.

"A nation of employees cannot be
free any more than a nation of em-
ployers can be. So in emphasizing
the points which must unite us in sym-
pathy and in spiritual interest with
the Latin American people, we are
only emphasizing the points of our
own life, and we should prove our-
selves untrue to our own tradition if
we proved ourselves untrue friends
today.

"Do not think, therefore, gentlemen,
that questions of the day are mere
questions of policy and diplomacy.
They are shot through with the prin-
ciples of life, we dare not turn from
the principle that morality and not ex-
pediency is the thing that must guide
us, and that we will never condone
iniquity because it is most conven-
ient to do so."

"So it seems to me that this is a
day of infinite hope, of confidence in a
future greater than the past has been.
For I am firm to believe that in spite
of all the things that we wish to cor-
rect the nineteenth century that now
lies behind us has brought us a long
stage toward the time when, slowly
ascending the tedious climb that leads
to final uplands, upon which we shall
get the ultimate view of the beauties
of mankind, we nevertheless have
breasted a considerable part of that
climb and shall presently—it may be
in a generation or two—come out upon
those great heights, where there
shines unobstructed the light of the
justice of God."

A NEWSPAPER'S DUTY TO THE PUBLIC

Scarcely a day passes but that the
Times prints some item of news that
gives offense to someone. Often the
news is written knowing that the per-
son or persons connected with it are
not going to feel pleasant about it, yet
duty to the public and to the readers
of the paper demand that the news be
not suppressed. This all comes in a
day's work. The newspaper or the
newspaper man that could please ev-
erybody hasn't been found. The fol-
lowing from the Fourth Estate ex-
presses the newspaper man's view of
the matter:

"In the first place, a newspaper owes
an obligation to its whole circle of
readers to print a fair, comprehensive
report of the day's happenings. It
can not overlook this responsibility
merely to please individuals. That
policy involves an injustice to the
many and favoritism to the few. Who
shall be favored?"

"Much of the news that is printed
unfortunately occasions annoyance and

often heartache to somebody. That is
an unavoidable incident of the news-
paper business. Is there justification
for shielding from such consequences
the man or woman who has influence,
socially or in business, while the many
who lack it must be treated without
such consideration?

"Persons who wish to escape pub-
licity should be careful not to make
news, or should count the cost of ad-
vertisement to the world as part of
the price they must pay for what they
have determined upon doing.

"There are certain easily-defined
zones of publicity. The individual
who steps into any of these may count
upon getting his name into the news-
papers. One is the courts, civil and
criminal. The man who goes to law
invites advertisement. Yet many men
—and sometimes women—appeal to a
newspaper to suppress reports of legal
proceedings in order that they may
be saved annoyance. The time to con-
sider immunity is before resort to law.
Departure from the conventional

ities of life is another means of en-
tering the publicity zone. Conduct
that is off the beaten trail affords
news. Those who defy social obser-
vance or tread upon established insti-
tutions must not expect to escape print
and should not ask to be saved from
such notoriety.

"Further, much injustice may be
done by the suppression of news. The
tongue of gossip, uninformed of the
real facts, can do a hundred times
more injury to the innocent than pub-
lication of the truth will do to those
actually involved. Often a newspaper
is shielding the reputation of a score
from the scandal of suspicion when it
is telling the truth about one, who has
incurred the liability to censure.

"A newspaper, with a sense of re-
sponsibility, will exercise a certain dis-
crimination. There may be times and
circumstances that justify suppression.
Some happenings may in the reporting
of them serve no proper end. Of two
things the responsible newspaper will
be jealously careful—the good name of
a woman and the reputation of a finan-
cial institution.

"Both are of that delicacy to be
easily hurt. The good name of a
woman is a treasure beyond price, and
a bank or trust company may cause loss
to thousands who are dependent upon
its solvency.

"But this lesson the public should
learn—the way to avoid publicity is to
avoid departure from the beaten track;
and let this be added to it—if you have
diverged into the danger zone the way
to obtain considerate treatment is to
assume that you are a subject for
news, and to take the newspapers into
your confidence frankly and fully.

"Such confidence is rarely abused,
and assuredly never by any newspaper
that makes profession of decency or
has regard for ethics."

WILSON'S POLICY IN MEXICO

(Philadelphia Record.)
To the querulous complaints that
the administration at Washington has
no "Mexican policy" the addresses of
President Wilson at Philadelphia and
Mobile gave answer. No policy has
any claim to be called American that
does not conform to American
ideals of liberty and equal justice;
and to those inspired by these ideals
the notion that "any government can
endure which is sustained by blood
or supported by anything except the
consent of the governed" must be
abhorrent. We should like to feel

ticular, is devoted to the same high

HOUSEWIVES MAKE WAR ON HIGH PRICE OF EGGS

New York, Nov. 12.—The National
Housewives' League already claims en-
couraging results in the campaign be-
gun yesterday against the high price
of eggs. Mrs. Julian Heath, president
of the league and eleven other women
spent all yesterday canvassing the city
to learn what effect the league's "ul-
timum" had, and they asserted to-
day that all of the stores had cut off
at least a few cents from the prevail-
ing high prices. In some places the
best storage eggs were selling as low
as 33 per dozen, against 37, the low
figures for Saturday. In some of the
higher price stores, however, fancy
eggs were priced as high as seventy-
five cents per dozen.

WILSON DOESN'T ENJOY SPEECHES

FUSS AND FORMALITY INCIDENT TO WASHINGTON VISIT DISTASTEFUL TO PRESIDENT

STRONG ON HAND SHAKES

Never Feels Really at Home Until He Gets into College Atmosphere and Can Talk Shop

Washington, Nov. 12.—Up to the present time President Wilson hasn't learned to enjoy addressing crowds. Which, in these days of persistent presidential travel and insistent inhabitants, is somewhat amusing. President Wilson, if he followed absolutely his own wishes and desires in the matter—which he doesn't—would very rarely, if ever, give rear platform talks or make campaign speeches. What he'd like to do, would be to tuck his job of being president, and with the exception of a game of golf now and then, let nothing else interfere or draw him away from his desk. He would much prefer to be, as some local newspaper wag here said some days ago, a confidential president; and let his work and results do the talking to the crowd for him.

President Wilson actually quivers when delighted constituency in overalls and coal dust, leans up at him and cries out, "What ho, Woody Old Scott," or "Hoory for Woody." He's ready and willing always to shake hands, particularly with the ladies, for the president probably is the greatest example of courtesy extant today, and many times the chief executive has sent shivers of apprehension "crawling coldly up and down the spines of the secret service guards who accompany him on all trips, by insisting on leaving the platform to wade into a crowd to shake hands with some woman who is waving an index finger in the air and exclaiming that she wants to grasp the president's hand. Crowds and the bonhomie which all presidents must assume bother him. His mind, as he once wrote to Col. House, his friend, is a "single track mind" that loves of grape with great problems, hates to detach itself and come downstairs where airy persiflage holds forth.

Has Varied Experiences.
Once in a while though the president actually enjoys these exchanges of wit that come whenever a chief executive or any great man trifles with the rest of the world. One example of this occurred on the recent trip to Washington from Mobile. At Salisbury, N. C., there was a great crowd waiting for a speech. The president had ordered the train to stop but a minute so he could avoid making it. A man clambered up the brass rail of the observation end and cried out:

"Come on out Mr. President and show yourself, anyhow. We want to look at you." The president, grinning, stepped to the doorway of his car.

"I'm not much to look at," he said. "Well, anyhow, you look darn good to me," yelled the man, waving his hat. "That's why I voted for you, and I'm going to vote again, when I have a chance." On the same trip at Evinston, Va., a way station where the president had the train halted so he could take a little constitutional, some women grabbed him hysterically by the arm.

"Oh, Mr. President," cried one, "Give us a flower," pointing to one of the floral displays with which his enthusiastic admirers had showered him all along the line of route. The president directed that the whole affair, a most elaborate basket of yellow gladioli and carnations, be divided among the women. One of them got the whole affair and started off as fast as she could go. The others got her on the ten yard stretch and there was a mad scramble.

"Mr. President," cried a girl, grabbing him as he was ascending to his car and pulling him clear off the steps. "You said divide—now didn't you—didn't you?" and she literally hugged the chief executive.

"Yes, I did," said the president, blushing and dashing for his car. When the train pulled out Evinston was in the throes of a feud as to one of its feminine inhabitants was to have the basket.

Different Around Colleges.

At college and in college atmospheres, however, the president loses his ordinary austerity and actually beams. At Princeton where he went to earn his vote in the primaries, he wandered about the college, acting as guide to the party and explaining the buildings and the treasures in a loving sort of way. He dragged his feet as he went toward his train and he remained on his car for as long as he could see the college buildings. At Swarthmore College, where he went to deliver an address, he warned his hearers that he would have a hard time keeping away from a regular lecture on discipline and behaviour, and then launched into a discourse on these very subjects.

WIFE CONTENDS THAT HER HUSBAND IS LEGALLY DEAD.

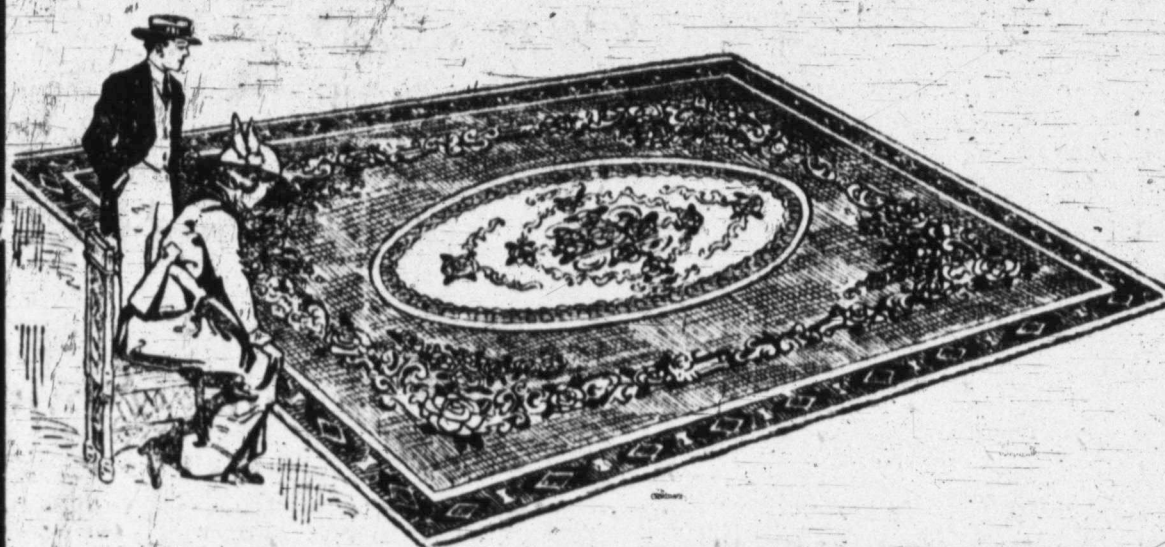

New York, Nov. 12.—Mrs. Mary Gargan, a Brooklyn school teacher, whose husband, John, is serving an indeterminate sentence in Sing Sing for murder, applied for a marriage license today on the ground that her husband was "legally dead."

The license clerk referred the matter to the coronation counsel. He ruled against the woman on the ground that Gargan's sentence being indeterminate, he might subsequently be freed and have his citizenship restored.

Mrs. Gargan's lawyer then carried the case before a supreme court justice. She seeks to marry William Weisheimer, a lithographer.

One can purchase new hair, new teeth, new wooden legs and numerous other more or less useful artificial appendages, appendages, accessories and accessories, but a glass eye is not a thing of beauty nor a joy forever. Conserve your natural eyesight by means of good glasses.

The open eyes of nearly all of us continually maintain an unnatural attitude, figuratively, of standing on their hind legs and pawing the air. Literally, perfect glasses, correctly adjusted, enable those same eyes to "go way back and sit down."

My chief aim is to implant in the minds of the public the firm conviction that at last, thank Heaven, the right place has been found to get good, dependable glasses.

gift givers this year will not be forced to lick their own stamps when they affix the proper postage to their parcels for mailing unless they wish to.

For the postoffice department announced that its postmasters and their assistants would attend to that duty if required. The innovation is put in force in the interest of better service during the holiday rush, and is expected to facilitate the movement of the vast crush of mail.

ter that will tax the resources of the department's many employees.

Orders were issued to postmasters to affix postage when requested on mail matter of the second, third and fourth class, the latter being parcel post matter. The stamps will be pre-cancelled and the plan is expected to prevent the great waste of time experienced by postoffice patrons while waiting in line to buy postage and mail their packages.

THE PLAIN TRUTH IS—

That rugs of this kind are as good as gold. They are seldom reduced. As a matter of fact, the wholesale price is constantly advancing, so when opportunity to secure a rug of this kind at the prices we name is offered it is a duty you owe to yourself to take prompt advantage of this unusual saving that we offer.

THE VALUES—

We have no desire to exaggerate but the fact of the matter is that each of these rugs is a truly remarkable value at the prices we name and assure you a positive saving of from \$5.00 to \$10.00 on any one you buy, and a saving like that on a single rug is certainly worth while.

These rugs are made by one of the very best mills in America—a firm whose reputation for producing fine rugs is known from the Atlantic to the Pacific and we have their assurance that every one of these rugs will give the best of service and satisfaction.

In order to open a great many new accounts this week we offer these high-grade rugs of this season's latest designs and patterns at these low prices, and on terms of only \$1 per week—the easiest terms we have ever offered on rugs of these values.

THE PATTERNS—

The designs and colorings are all new this season and include a varied assortment of floral, medallion and oriental effects. Every pattern is a good one and you can select any in the entire lot with the assurance that it will please you and harmonize with the rest of your furnishings.

ACT PROMPTLY—

We believe we have enough of these rugs on hand to last all week, but the response to this announcement is going to be extraordinary and it would be well to make your selection as early as possible—Wednesday if you possibly can.

DEVELOPERS OIL CO. HAS
NEW WELL AT PETROLIA

Number Eight Has Twenty Feet of
Sand and Looks Promising—
Number Nine Drilling

Stockholders in the Developers' Oil Company were jubilant this morning over the report that the company brought in a new well at Petrolia yesterday which is reported to be the best of its wells. The new well is No. 8. The sand was reached at 1770 feet several weeks ago and drilling was stopped to cement the hole. It was hard enough several days ago for drilling to proceed and the sand was drilled into yesterday. Over twenty feet of sand is reported. The well is the first of a second line of locations and is between Nos. 5 and 7. No. 5 is an oil well and No. 7 a gas well. No. 9 is now drilling one location west of No. 8.

MRS. BAUKNIGHT AGAIN
IN SERIOUS CONDITION

Mrs. Will Bauknight, against whose husband a complaint charging aggravated assault has been filed in connection with a beating he is alleged to have given his wife Sunday, is confined in a local sanitarium. Her condition was such that County Attorney T. R. Boone who called to get a statement from her this morning was denied admittance. Tuesday the woman was able to be up but later in the day her condition grew worse and she was removed to a sanitarium.

J. R. Henson, 119 Indiana avenue, Wichita Falls, Texas, says: "I was in a bad way and could find nothing that would relieve me of the dull, nagging pain across my kidneys. Mornings I felt devoid of energy and after sitting in a chair I could hardly stand erect. Sharp twinges often darted through me when I stooped. These troubles all left after I used Doan's Kidney Pills. I have had no occasion to use a kidney remedy since. You are at liberty to continue publishing my former testimonial."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Preacher who ever, from the pulpit, denounced trills, furbelows and feathers. Taking all the increased duties on toilette accessories and striking an average, women and girls will have to pay from 2 to 5 per cent more than formerly for the following articles:

Perfumery, cologne, toilet water, sachet powder, all applications for the hair (including dyes), tooth washes, tooth pastes, skin preparations, tooth soaps, cosmetics, some face and body powders and many others.

False teeth and bustles, which latter are classed as "attire made of wire" are about the only beautifiers that will come in duty free. Nothing personal is meant by saying that a good many more women than will admit it will be thankful for these. The new law does decrease the tariff on talcum powders and some perfumed soaps and camphor.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can do without eyeglasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Opton; fill a two ounce bottle with water and drop in one Opton tablet. With this harmless liquid solution bathe the eyes two to four times a day and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eyestrain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear healthy strong magnetic eyes through the prescription here given. (Adv.)

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

RENTROP WINS IN STRAIGHT FALLS

GERMAN WRESTLER THROWS HART IN CONTEST AT MOOSE HALL TUESDAY NIGHT

ERNST TO MEET WINNER

He and Rentrop Will Go to Mat Together Friday Night—Good Exhibition Staged Here

Rentrop's superior skill and endurance overcame the greater strength and weight of Hart, in the wrestling match last night at the Moose Hall, and the former won in two straight falls. The first was secured in twenty minutes with a head scissor and the second in six minutes and twenty seconds with a head lock and three quarter nelson.

Hart was fully twenty-five pounds heavier than his German adversary, but the latter overcame this handicap with his knowledge of the finer points of the game; he had much better wind than the Colorado wrestler and the latter soon tired.

Adolf Ernst will meet Rentrop Friday night at the Moose Hall, as announced yesterday, and this match promises some of the best sport this city has yet seen. Rentrop is "rearing" to meet Ernst, he says and when the two Germans come together there ought to be some first class wrestling. Ernst will be remembered by local wrestling fans as the man who threw Kayovrie, the Dallas Greek, here last winter, after a fifty-nine minute battle. He is a clean, skillful wrestler and has been quite successful.

The main bout last night was preceded first by a free boxing exhibition between John Taylor and Ross Halsey of this city. They went three rounds; neither exhibited any great amount of pugilistic skill but some good hearty licks were exchanged and the crowd was well entertained. The first wrestling preliminary was between two local boys, C. M. Vernon and Morris Blanke, the former getting the first and only fall in about three minutes.

Ernst to Meet Rentrop. Referee Leopold, then announced that Adolf Ernst would meet the winner of the night's match next Friday and Rentrop and Hart were then introduced.

Hart seemed inclined to rush things at the start and put Rentrop on the defensive for a few minutes. The German wriggled out of several dangerous holes in the first five minutes and then began to carry the scrap to the other, putting Hart much on the defensive. Time and time again he had the Colorado contestant nearly pinned, only to fall because of the other's greater weight and superior strength. Hart's great strength was demonstrated at the start when he tossed Rentrop around like a child.

Hart's success in eluding any decisive holds frequently won applause from the spectators, he being a favorite with the crowd. As the minutes slid by, however, it was seen that he was getting tired, while the gum-chewing German did not weaken perceptibly. After about seventeen minutes of wrestling, Rentrop secured a head scissor and began forcing Hart's massive shoulders to the mat, but the American had sufficient strength left to wrench himself free. A minute or two later Rentrop secured another scissor and it appeared the fall was close. But the American quiver as he strove to break away, but it was no use. The German had him and slowly forced his shoulders to the mat for the first fall in exactly twenty minutes.

Rentrop became the aggressor as soon as the ten minute rest was over and Hart was too tired to resist as strenuously as he had done before. Twice he broke some bad holds, one of which was a head scissor, and then suddenly became the aggressor for a moment. For a moment it appeared that it would be an even steven proposition, but the German smoothly slid free and a moment later secured the head lock and three quarter nelson that proved Hart's undoing.

After the second fall Hart said that Rentrop was one of the cleanest, best men of his weight he had met, and that he hoped to meet him again when he (Hart) was in better condition. Ernst, he believed, would have a tough time on his hands Friday night. Hart explained his poor condition by saying that cigarette had cut his wind. Rentrop spoke briefly to a decided German accent, announcing his willingness to meet Hart again and declaring his intention of "browning Ernst Friday night."

A. C. McKee of the Moose Lodge said last night that ladies would be especially welcome at future matches and nothing would take place in the Moose Hall, he said, that a lady could not attend. Some of the spectators last night were accompanied by their wives and the latter seemed to enjoy the clever exhibition.

Just pour a few drops in the inhaler and breathe it in—no stomach dosing. The healing, soothing and antiseptic air will reach every nook and crevice of the mucous membrane of the nose and throat; will surely stop crusts in the nose, raising of mucus, hawking and that choked up feeling. It will quickly allay the inflammation and banish the disease or money refunded by Postoffice & Lynch.

A complete Hyomel outfit, including inhaler and bottle of liquid, costs only \$1 and an extra bottle of liquid, if afterwards needed, is but 50 cents. (Advertisement)

GOODROADS MEET AT DUNDEE TODAY

COOPERATION FOR WICHITA FALLS—CONCHO AUTO HIGHWAY IS BEING SOUGHT

AFFECTS THREE COUNTIES

Wichita, Archer and Baylor Are Represented—Homer D. Wade of Stamford in Attendance

To secure the co-operation of the people of Archer and Baylor counties for the "air line" automobile highway from Wichita Falls to Concho county, a good roads meeting is being held today at Dundee, Archer county and representatives of Wichita, Archer and Baylor counties are in attendance.

The new highway, which will be the connecting link between the two highways from Colorado to Texas, passed through Archer and Baylor counties, but as yet little has been done in those counties.

Homer D. Wade of Stamford, secretary of the Commercial Club of that city and one of the prime movers for the new highway, arrived this morning and left early today for Dundee to attend the meeting. D. P. Falley, W. A. Reid and W. C. Gibson also attended from this city. If the counties in question will make some needed improvements on the route as it passes through their borders, it is believed that a considerable amount of travel can be diverted to the highway in question.

Charles Sheppard, a striker, implicated by the five prisoners who confessed yesterday, was arrested at Lovett and brought to Walsenburg early today. Sheppard admitted his complicity in the shooting, according to the military authorities.

LEGLESS MAN DRUNK, HAS TO BE HAULED AWAY

A man unsteady on his legs after drink attracted considerable attention on Ohio avenue late yesterday afternoon. The fellow was a legless individual who loomed on a small platform set on four rollers. He was strapped on this platform when he first attracted attention by means of blocks, one in each hand. At almost every seam in the sidewalk his vehicle came to a stop and after lurching forward, sideways and backward the inebriate generally tumbled over backwards.

Finally the stumps of his legs slipped out of their straps and each time he fell he would roll several feet away from his platform. Finally Policeman Nail started him off toward his rooming house but the poor fellow was unable to make it, and at last it was necessary to charter a dray and load the man, platform, blocks and all in and haul them off to the city hall. A bystander suggested that it might be pertinent to know where the man got his liquor.
