City Hall Will Be Open Daily From 8 to 6

Effective Monday, July 20, the city hall will be open from 8 o'clock in the morning until 6 in the afternoon, every weekday except Saturday, when the office will close at noon. The office will remain open during the noon hour also.

The city council, meeting in regular session, Tuesday night decided that this change in the working hours at the city hall would allow citizens ample time to make their water, sewerage, garbage and tax payments. In the past there has been some complaint that payments could not be made on time due to the short working hours in effect. It is hoped that this action will prove to be a convenience to the public.

A report on the progress being made at the new dumping ground was made. If all goes well, the site should be ready very soon.

Very good progress has been made on the equalization of city property now in progress. As soon as this work is done, a budget will be drawn up for the coming year so that plans for improving some of the problems confronting the city may be made.

The mayor, secretary, attorney, water superintendent and all councilmen were in attendance.

M. W. Cochran Opens Real Estate Office

M. W. Cochran, who last week opened his office on Austin Street near Market, will handle real estate—both sales and rentals—property management, planning, and subdivision layout development.

Mr. Cochran is an engineer. He has had extensive experience in property development and the problems of urban expansion.

Mr. Cochran moved here from Michigan some five years ago. Mrs. Cochran is a native of Corpus Christi, where they met in 1917, during World War I, and were married five years later.

Mr. Cochran believes that Live Oak Peninsula is a perfect residential area. Its fine underground water supply, shade trees and water front are natural resources of great value. Few areas are so fortunate as to have all three of these natural resources in such abundance.

Mr. Cochran from experience thinks you need to plan the future use of your property now, so that it will maintain a sound value and contribute to a progressive community growth.

Lionettes Will Play Colored Team Tonight

The Rockport Lionettes played hostess to the Fulton softball team of young boys Monday night, July 13. The game remained tied up until the last inning when the boys went out ahead and the Lionettes failed to tally in that inning. The final score was 15 to 12 in favor of the Fulton boys team. The boys played a swell game and were fine sports. Winning pitcher was Bobbie Bracht; losing pitcher, Opal Warden. someone should take an interest in these fine young men and form a "little league." There is fine talent among this group.

Last Friday night, the Lionettes were guests of the Ganada team. Final score was 14 to 10 in favor of the Lionettes.

The Lionettes have played exceptionally poor ball these past two games. We've yet to figure out if the reason is over-confidence or the hot weather. Perhaps it could be the team is downhearted from lack of support by the local fans!

The Lionettes are playing a colored team out of Corpus Christi this Thursday night (tonight). The colored team goes under the name of the "Bluejays." This game is one of the many games the Lionettes will play as benefit games for their trip to Lubbock to play in the state championship meet. Season tickets are not honored at these games. In the coming weeks the Lionettes will play the faculty of the school and the Lions Club. The Lions will play ball attired as women so it should be quite a hilarious affair.

Friday night, July 17, the Lionettes play host to the YWCA team from Corpus Christi.

Monday night, July 20, they play a double header with the La Armada team of Corpus Christi. After the game with La Armada, the Lionettes will not play any more games until the weekend of the 24th and 25, when the Zephyr Tournament will be held here in Rockport.

If you have read this you will find that we have included almost two weeks schedule for the Lionette games. Clip this out of the paper and make a date for the softball games. Remember: Game time: 8 o'clock p. m. Thursday night, June 16 (tonight). Lionettes versus colored team of Corpus Christi. . . BE THERE!

Rockport Electric Will Celebrate 'Coffee Time' Friday, July 17

The second of a series of "coffee times" at the Rockport Electric Co. show rooms will be held Friday, July 17 from 9:00 a. m. to 6:30 p. m.

The first "coffee time," Dec. 19, last year, (a demonstration of home work-saving appliances) was enjoyed by over 600 Arnsaas County folk, so Bob Hamblin, owner and manager of the business, decided that another open house would give an opportunity for those who came before to visit again, and to those who missed the first one to come and enjoy the fellowship of "coffee time."

There will be demonstrators from several of the leading manufacturers of home appliances and the Home Service Department of Central Power and Light Co.

To make "coffee time" more interesting, there will be a Westinghouse roaster and a Sunbeam deep fryer given as door prizes. The first 100 to register will be given a timely gift, also.

Coffee and donuts will be served all day and also a snack, from the two big turkeys that will be roasting in the new 30" electric range; or a slice of ham with hot biscuits from the Westinghouse roaster oven.

In addition to the door prize, the 30" jumbo oven range will be sold to the highest bidder. This range will be installed free by Central Power and Light Co.

Everyone is welcome. No one will be urged to buy anything, and it is not necessary to be present at the drawing (6:30 p. m.) to win a prize.

Among those helping to serve will be Mrs. W. B. Allen, Mrs. Carl M. Osborn, Joy Hamblin, Mrs. J. J. Stephens, Jr., Mrs. Ben Thompson, and Mrs. Howard Kinsey.

Mr. and Mrs. Hamblin are planning now for another "coffee time" in the fall, to introduce a complete line of toys and gift items.

Rockport Sets Pattern for Resort Cities

This area has received wide publicity through the efforts of the Corpus Christi News Bureau in a story they have mailed to various publications throughout the state. The story follows:

Rockport, Tex. — The increasing number of Texas cities faced with the ticklish task of reconciling resort attractions with the advance of industry might well take a long glance at this forward-looking coastal community.

Rockport, boasting one of the most popular resort sections along the Texas coast, met and solved that puzzler in simple, common-sense style.

As a rsult, its tourist business is booming bigger every year while its industrial horizon continues to broaden.

The Rockport formula is simple: Keep resort and industrial areas carefully defined.

The Rockport resort area starts near the south edge of town and reaches north along the shore of Aransas Bay almost seven miles. It includes a major part of both Rockport and Fulton Beach.

There, on irregular bluffs and amid clusters of wind-whipped live oaks, are 37 tourist courts capable of accommodating 2,200 persons, eight trailer courts with a capacity of 250 persons, and some of the foremost tourist attractions of the Texas coast.

It's a major recreational resource — Chamber of Commerce leaders make it clear they want to keep it that way.

But the same leaders aren't about to shut the door to industry.

South of Rockport in a ten-mile strip of shoreland which has been unofficially set aside for industrial development — and where, incidentally, industry already has begun to take hold.

Almost in the middle of the strip is the Kosmos plant of the United Carbon Company, which produces about 70,000,000 pounds of carbon black annually.

The plant occupies a 50-acre site and employs 180 persons, most of them from Rockport and nearby Aransas Pass.

The industrial strip is bordered by Texas Highway 35 and by a branch of the Southern Pacific Railroad, and has the additional advantage — as Rockport boosters hurriedly point out — of a sufficient underground water supply for light industry.

The area also has an ample labor supply.

As if that isn't enough to make almost any industrialist take a second look, Chamber of Commerce officials are plumping for the dredging of a channel immediately off the shore of the industrial area that would tie into the Intra-coastal Canal system at Rockport and Aransas Pass.

The channel already has been authorized by Congress. It will be constructed as soon as funds are made available.

This common-sense approach to one of the major problems accompanying Texas' industrial development has paid off in solid community growth for Rockport.

Bank deposits have almost doubled in a space of only four years, increasing from $1,364,423 in 1949 to $2,659,333 in 1953. Similar jumps have been made by retail sales, community income, and other measures of progress and prosperity.

Two Charged With Drunkenness

Deputy Sheriff Mundine arrested O. D. Odem and Jack Southwood on the beach last Sunday and charged them with being drunk and disturbing the peace. According to Mundine, they were panhandling occupants of cars parked at the beach.

They were tried in Judge C. O. Bailey's court Monday morning. The men were found guilty and each paid of fine of $35 and cost.

Tuesday morning Sheriff Shivers arrested James Pete Conner at Haynes Coffee Shop and charged him with being intoxicated.

To the Residents Of Aransas County

For months past there has been a steady flow of new people into Rockport and Aransas County.

As welcome as this trend is and as much as we hope it continues, it does pose added problems for County officials, especially the Sheriff's department, already badly overworked.

In addition to those who become welcome members of the community, there is an element of riffraff who cause continuous trouble for local law enforcement officers.

It may come as a surprise for many, to learn that Aransas County has but one full time deputy sheriff and the City of Rockport itself has no police force at all. This situation is unsatisfactory and dangerous, not only to the public but to the peace officers themselves. Just recently a phone call sent the one deputy out by himself to investigate a disturbance. It resulted in his being jumped upon in the dark and beaten, before he could subdue his drunken assailant. Had there been a team of officers, such a thing could not have happened.

The main obstacle which seems to prohibit having an adequate County police force lies in lack of sufficient funds to pay salaries. Undoubtedly this is true, but there is one very simple and easy way of overcoming the trouble. The following will explain in detail:

For the past half year as Justice of the Peace, I have turned over to the County Treasurer each month, an amount in excess of that needed to pay the salary of a full time deputy sheriff. Of this sum at lease seventy percent was from traffic violations, and of the last named figure, over half resulted from arrest made by the Texas Highway Patrol who will not average more than three hours per week in the entire area. The facts are, that if a full time Aransas County Deputy was appointed and assigned to traffic detail for a few hours each evening, the resulting fines would pay his salary and we would have safer roads, better driving and fewer accidents. In addition the County would have another officer to call upon when needed. I do not mean that the Deputy would be paid directly from fines imposed but merely that there would be additional funds in the County treasury to pay him.

The decision for such an appointment lies with your County Commissioners. To bring about the desired result all the Commissioners have to do is to indicate their approval and the appointment would be made.

Might we then suggest that all residents of Aransas County either contact, phone or write their own Commissioner and express their views on what they believe should or should not be done in the matter.

From where I sit ... by Joe Marsh

An Honest Night's Sleep

Slim Johnson, just back from a business trip, tells about a hotel he stayed at one night.

"I hit town late and went right to the hotel. There was no clerk at the desk, but there was a sign that said: 'Gone to bed. Rooms $3. Take a key. Pay when you leave. Sleep Well.'

"Upstairs, the room was real clean, the bed comfortable, and I slept like a log. Came down in the morning—still no clerk. So I left three dollars at the desk and went on. Can you imagine folks that trustful?"

From where I sit, running a hotel on the honor system shows a real trust in people. And people always appreciate being trusted. Letting your neighbor follow his personal preference is a kind of trust too—trusting in his good judgment. I like a temperate glass of beer occasionally, you may prefer buttermilk, but let's hope neither of us "registers" a complaint against the other.

Ford Master-Guide
the last word in
Power Steering!

Master-Guide applies hydraulic steering power automatically . . . and in varying degrees as required . . . right at the steering linkage, close to the wheels. At the same time the system serves as a hydraulic shock absorber to keep road jars and jolts from your hands. As a result all you do is . . . guide the car . . . Master-Guide supplies the muscles.

It's the newest in a long list of Ford advancements that make this Ford the outstanding car for '53!

No other car near Ford's price has ever offered you so much! Ford was the first in its field to bring you V-8 power. Today, Ford alone of all the low-priced cars offers you the smooth, unsurpassed performance of a V-8 engine. And Ford's Six with Overdrive, won the Sweepstakes in this year's Mobilgas Economy Run.

Ford first brought to the low-price field a completely automatic transmission that combines the smoothness of a torque convertor and the gas-saving "go" of automatic gears. In all, Ford offers 41 "Worth More" features.

And now, in addition, Ford brings you the newest and finest in power steering . . . Master-Guide, a system exclusive in Ford's field! It's no wonder, then, that Ford is the "Worth More" car . . . worth more when you buy it . . . worth more when you sell it.

HELPS YOU OUT OF "TIGHT SPOTS!" The tougher the going the more Master-Guide works for you. For example, if you go off the pavement onto a soft shoulder or a rough, rutted road, Master-Guide provides the muscles to hold a steady course. Master-Guide also absorbs the shock that might otherwise be transmitted to the steering wheel. All handling is easier with Master-Guide and parking requires only one-fourth the normal effort. Should Master-Guide ever lose its power, the standard steering mechanism will operate just as usual. Thus, Master-Guide provides new ease with full security, wherever you drive. Optional on all V-8 models at extra cost.

Test Drive Ford with Master-Guide Power Steering!

"I get good results every time with my electric range!"
Says MRS. J. F. WIESEHAN
North Depot Road
McAllen, Texas

"After using an electric range four or five years, I'm quite happy with the results of electric cookery. You don't have to change your cooking habits to cook electrically. I use the same recipes I've always used.

"Because of the accurate temperature control which is possible with an electric range, I find that foods can be cooked in their natural juices or in a minimum amount of water, thereby retaining the vitamins and minerals in the food.

"We are a family who enjoy broiled steaks and I have had much better results using the electric broiler on my range. In fact, my range makes all my cooking more simple and convenient."

Miss Easter, Sgt. Wood Have Curch Wedding

Miss Sarah Virginia Easter and S/Sgt. Edgar W. Wood were married in a beautiful candle-light ceremony at the Trinity Assembly of God Church in San Antonio, Friday, July 3 at 7:45 p. m.

The bride is the daughter of Mrs. Eunice Easter of Rockport and the groom is the son of Mrs. Evelyn P. Wood of Charleston, South Carolina.

The Rev. J. P. Billings, pastor of the Trinity Church, officiated at the double ring ceremony before an altar banked with white gladioli and fern, lighted on each side with cathedral tapers burning in tall candelabra.

Miss Virginia Scranton of Pearsall, was the maid of honor and her brides maid was Miss Wanda Billingsley of San Antonio. Corp. Dwight D. Stiles, Randolph AFB, was best man and S/Sgt. William Hiddleson, Lackland AFB, ushered.

The bride was given in marriage by her grandfather, D. E. Holleway of Rockport. She wore a floor length dress of white chantilly lace over satin, with fitted bodice, and high neck with Peter Pan collar, the long sleeves came to a point over the hands. The full satin skirt with train had an apron effect of chantilly lace. Her illusion nylon finger tip veil fell from a crown of similated pearls and orange blossoms. She carried a white Bible topped with white carnations and Lillies of the Valley, tied with satin streamers.

The maid of honor wore floor length dress of green nylon net over taffeta and the bridesmaid's dress was yellow nylon net over satin. Both carried bouquets of white carnations. The flower girls wore blue taffeta dresses trimmed in pink for-get-me-nots.

The bride's mother wore an aqua blue taffeta with black accessories and a white carnation corsage. The groom's mother wore black rayon with white accessories and a corsage of white carnations.

Mrs. Hazel Griffith played the wedding music and accompanied the soloist, Mrs. C. D. Frankie, who sang "I Love You Truly" and "Because."

Following the ceremony a reception and shower was held in the church parlor where a white and green color scheme was carried out in the decorations. An arrangement of white carnations and gladioli with fern flanked on each side with silver candleholders with white tapers, formed the centerpiece on the bride's table. The three-tiered wedding cake was embossed with white and pastel green flowers.

Miss Scranton and Miss Billingsley served the cake and punch and Mrs. Arty Hawkins was in charge of the register. Mrs. A. C. Broom of San Antonio, graciously assisted with the decorations.

Mrs. Wood was a graduate of Rockport High School in 1951 and finished Durhams Business College. She has been employed the past year at Frost National Bank as secretary in the personal loan department.

S/Sgt. Wood is a graduate of Chicora High School at Charleston, S. C., and has been stationed at Lackland Air Force Base in San Antonio for six years.

Sgt. and Mrs. Wood are at home at Kelly Air Force Base.

It is better to give than to receive — especially when we give we know the gift could save a life and at the same time prevent a child from being paralyzed by polio. A pint of your blood could do both. Give a pint Aug. 6.
