## CITY NEWS BRIEFLY TOLD

**THE TEXAS TECH BASKETBALL** team will take the court the first time in history tonight when Coach Higginbotham's charges pit their skill against the Daniel Baker Hill Billy quintet from Brownwood. The game, which is the first of a two-game series here, will get under way promptly at eight o'clock. Every lover of real sport is urged to attend as the money will be used to pay off deficits which face the athletic department of the college. Members of the Kiwanis and Rotary clubs recently balloted to support the team at all home games. The tilt will be played in the stock judging pavilion at the college.

**MISS BLANCHE BEAN, DAUGHTER** of Judge and Mrs. George R. Bean, has returned to Lubbock as society editor of the Daily Journal. Miss Bean comes to the Journal from a similar post on the Denton Record-Chronicle.

**FRED HINES, DAILY JOURNAL** pressman, who dropped a 125 pound page form on his foot early Sunday morning, is convalescing nicely although the injured member gives him no little pain. The page he happened to drop was the editorial page, and while "Hines" says he never thought so before, he now believes that the editorial page is the heaviest one of the lot. He doesn't say whether it is the quality of material or the amount of type which makes it so heavy.

**R. C. FAIRBISH, OF THIS CITY,** who has been sojourning in Dallas for the past several months, has returned to his home here.

**MISS FRANCES TATUM, FORMERLY** of Dallas, who for the past several months has been the house guest of her aunt and uncle, Mr. and Mrs. Neil Wright, will return to Dallas tomorrow. Miss Tatum has been the recipient of numerous social honors since coming to Lubbock.

**MISS ANNA BUCKNER, LUBBOCK** county health nurse, is holding a baby conference in Slaton today.

**W. J. BLACK, OF CHICAGO, J. F. ANTON,** of Slaton, and Tom Gallagher, of Amarillo, officials of the Santa Fe railway company, were Lubbock visitors today.

**E. A. AMBROSE, LUBBOCK'S NEW** motor cop, was seen doing his stuff on his motorcycle today. Officer Ambrose comes here from the Dallas force and will be first lieutenant to Paul Hardy, who has been enforcing traffic laws here for over a year.

**MR. AND MRS. J. M. HARTLEY,** of Pasadena, Calif., are expected to arrive in Lubbock Tuesday for a week's visit at the homes of Mr. and Mrs. G. C. Woffarth. Mr. and Mrs. Frank Wheeler, Mr. and Mrs. Warren Bacon and other relatives. Mr. and Mrs. Hartley have been visiting in the Northern and Eastern United States and in Canada for several months and are now on their way home.

**DR. AND MRS. J. C. GRANBERY,** Miss Ruth Horn and Mrs. E. E. White returned Saturday afternoon from a trip to Dallas.

**MISS NINA TRIGG OF TEXARKANA** is to remain indefinitely at the home of her brother, J. T. Trigg.

**MRS. W. C. HARP, OF OKLAHOMA** City, Okla., is visiting her daughter, Mrs. Price Hooks.

## HOUSE WITHHOLDS FUND FOR BIG AIRSHIP

WASHINGTON, Jan. 25. (AP)—The House today amended the naval appropriation bill to withhold for six months a fund of \$200,000 for contracting for an all-metal airship.

The aircraft development corporation, backed by Ford interests, was to have had the contract which now will be postponed pending investigation of the whole subject by the House naval affairs committee.

WASHINGTON, Jan. 25. (AP)—The House naval committee today asked the navy department for all its correspondence with the aircraft development corporation, backed by the Ford interests, concerning the building of an all-metal dirigible.

The committee acted after Assistant Secretary Robinson, of the navy, had declared \$200,000 carried in the naval appropriation bill for such a craft had not been requested by the navy department and that he personally saw no need for entering into a contract for such a ship.

## The Weather

WEST TEXAS: Tonight fair, not so cold; Tuesday fair.  
EAST TEXAS: Tonight fair, not so cold; freezing nearly to the coast, heavy frost on the coast. Tuesday fair, slowly rising temperature.  
LOUISIANA: Tonight partly cloudy to cloudy, continued cold, freezing to the coast. Tuesday fair, not so cold.  
OKLAHOMA: Tonight and Tuesday partly cloudy.

## Chiropractor Confesses Cutting Up Body

### POLICE BELIEVE DEATH OF WOMAN WILL BE SOLVED

**PHILADELPHIA MAN SAYS  
WOMAN TOOK POISON;  
TELLS HIS STORY**

(By Associated Press)  
PHILADELPHIA, Jan. 25.—David L. Marshall, a chiropractor, confessed early today that he had dismembered the body of Anna Mae Dietrich, Sobbing and unwept, Marshall denied that he had murdered the 35-year-old Norwood milliner, declaring she had taken poison in his Philadelphia office because she had been jilted by a wealthy New York man.

A brief half hour before he broke down and confessed, Marshall had bent over and looked straight into the disfigured face of the woman in the media morgue and said: "I wish she could speak; she would tell you that I am guilty."

The confession, made in the office of District Attorney William Taylor in Media, came in tumbling, torrential words, after the chiropractor had been cross-examined for four hours. He was taken to Media from his home which overlooks the ravine, where the young woman's head was found wedged under a railroad trestle Saturday, and where yesterday searchers came upon remains of the clothing she had bought last Tuesday to wear to a dance the following night.

Marshall had glibly answered a multitude of questions in the district attorney's office, in his own home, in his Philadelphia office, and in the presence of the mutilated body at the morgue. He had been left alone with District Attorney Taylor.

"Mr. Taylor," he began suddenly, after a tense silence of five minutes, "I want you to promise me one thing—that you will take care of my wife and child." Then there was another pause.

## MOODY'S REQUEST ON ROAD SUIT IS GRANTED

WASHINGTON, Jan. 25. (AP)—Attorney General Moody, of Texas, was today granted permission by the supreme court to ask a review of its recent decision in the Archer county bond district case, and the mandate was stayed, until action is taken in the petition.

The court recently held invalid the state law under which the road district was organized.

Attorney General Moody said permanent free school funds of the state totaling \$294,000 had been invested in such road district bonds and that \$5,000,000 had been invested in them by people throughout the United States.

AUSTIN, Jan. 25. (AP)—When informed by the Associated Press that Attorney General Dan Moody had been granted leave to file motion for rehearing in the Archer county bond case in the United States supreme court, the attorney general said the motion would be filed within a few days.

**Snowfall Benefits  
All Texas Reports  
Issued Today Show**

DALLAS, Jan. 25. (AP)—Snowfall during the past two days that broke records of 25 years in the interior of the state and which extended over nearly every section of Texas is regarded as greatly benefiting all major crops and range conditions. In the area that suffered from a winter drought last year the precipitation ranged from two to six inches, providing excellent season in five groups.

Through south and southwest Texas, as the snow was particularly heavy. Fair and slightly rising temperatures was the general forecast for the state tonight and tomorrow though freezing weather was expected to reach nearly to the coast tonight.

**Petition For Case  
Rehearing Refused**

WASHINGTON, Jan. 25. (AP)—The supreme court today refused the petition of the Pacific American Fisheries for a rehearing of the case in which the court recently sustained acts of the Alaska legislature taxing the salmon fisheries.

MISS JOSEPHINE McBRIDE OF Crosbyton, student at the Technology college, has returned to Lubbock after spending the week end at her home.

## Polygamy—Under the American Flag!

They still practice polygamy in the southern Philippines, despite the fact that the American flag flies over the land. This photo shows a Moro chieftain named Manua, and his ten wives. He likes em young.

## BUTLER'S DEATH PUZZLES POLICE

**No Reason Can Be Found For  
Slaying Of Servant Near  
Rockefeller Home**

(By Associated Press)  
NEW YORK, Jan. 25.—The murder of an English butler in the doorway of the home of James R. Deering, just off Fifth Avenue, was puzzling police today.

The butler, Herbert Bramall, who had served in several well-known families, was found in full livery last night in the vestibule a moment after he had answered the doorbell. He was shot and instantly killed. His slayer had disappeared, slamming a heavy plate-glass door with such violence that it was cracked.

Mr. Deering, an attorney, lives on West Fifty-Fourth street.

**Near Rockefeller Home**  
The pistol shot that killed Bramall was within hearing of a half a dozen well-known residences. John D. Rockefeller, Sr. and Jr., live across the street. Chauncey M. Depew's residence is a few doors away.

One theory is that a crank, with no particular motive, committed the crime. Another theory is that an enemy of Mr. Deering sought to invade the house and shot the butler. Police are seeking to learn more about several arrests made in a futile effort to find the purloiners of \$10,000 in bonds from the attorney's office safe in July.

## Search For Bride Thought Kidnapped By White Slavers

SAN ANTONIO, Jan. 25. (AP)—Believed that 16-year-old Catherine Lawson, a Galveston bride, had been spirited away from the city by a white slavery ring or gem thieves was expressed by police today after 72 hours of continuous searching failed to disclose any trace of her in San Antonio.

Search was instigated Friday night at the request of her father, Jack Diamond, of Galveston, who notified police that he had not heard from his daughter, who was deserted by her husband during their honeymoon here.

**Baltimore Man Dies  
In Residential Fire**

BALTIMORE, Jan. 25. (AP)—Robert Ramsey, 65, president of the Ramsey Steamship company, steamship agents, lost his life in a fire of heated origin which virtually destroyed his home at Roland Park, a suburb, last night. Mr. Ramsey's wife, who was ill, his daughter, Dorothy, and a nurse who had retired, succeeded in escaping from the burning house. Mr. Ramsey is believed to have been overcome by smoke as he was making his way to the front door. His body, badly burned, was found within ten feet of the door.

## Road Appropriation Asked By Panhandle

AUSTIN, Jan. 25. (AP)—Highway aid and designations were asked by delegations from the Texas Panhandle at a semi-monthly meeting of the state highway commission today. Carson, Hereford, Ochiltree, Hopkins, were among those present. All applications were taken under advisement.

## Three Negroes Are Electrocuted Today

BELLEFONTAINE, Penn., Jan. 25. (AP)—Three negroes, convicted of slaying Jonathan Klopp, a rural storekeeper, near Rotolesia, Penn., were electrocuted at the Rockview penitentiary today. Klopp was shot during the robbery of the store.

## Mitchell's Court Martial Facts In Coolidge's Hands

WASHINGTON, Jan. 25. (AP)—The court martial record of Colonel William Mitchell has been forwarded to President Coolidge for final action.

War department officials who transmitted the papers to the White House, declined today to intimate what instructions they had made.

The court's trial record was approved early last week by the war department's board of review, and it now rests solely with the President to decide whether to make effective the five year suspension to which the air officer was sentenced for his public attacks on government aviation policies.

## Flashes Of Life By Associated Press

STETTIN, Germany.—They're hunting in the Baltic sea for a jolly Roger. The Swedish schooner Rapid, missing for several months after a storm, has become a pirate craft.

GENEVA.—The two guns of American movie cowboy heroes are being blotted with ink on cinema posters in Switzerland lest the imagination of the young be excited unduly.

LONDON.—And now it develops that the late Arthur de Courcy Bower, "the man who broke the bank at Monte Carlo," was really a press agent for the Casino. The nearest he came to breaking the bank was when the Casino presented him with an expense account.

MOSCOW.—The first performance of the drama, "Catherine the Great," has ended in real death. The hero shot and killed the villain in the play—the pistol being loaded.

NICE.—For wet days shoes of crocodile, alligator and snake skins are quite the thing. All the girls wore them in the cold and rain at the running of the Grand Prix.

LA PALMAS.—The "jackal" is trying to fly to Argentina in the "Plus Ultra" without the negative. The name of Commander Franco's plane means in a positive way better than anything else.

LONDON.—Speculation on the recall of Prince Ribesoro as Romanian ambassador to Washington the papers point out that the Princess, the daughter of Margo Asquith, inherited her mother's biting wit.

NEW YORK.—Simon Sincer, 76, who has 27 grandchildren, is to marry Mrs. Fannie Ehrenfeld, 72. It will be the fourth marriage for each. Simon expects to live to be 102.

WASHINGTON.—Sol Bloom, of New York, would take the war out of the war department. He has introduced a bill in the House to make it a department of the army.

NEW YORK.—In an effort to cure baldness and other ills of the hair, Charles Nessler, president of the American Master Hairdressers' association, has given \$5,000 toward the establishment of a college on hair research.

## TODAY IN WASHINGTON

House disposes of naval appropriation measure.

Senate votes on petition for closure in world court debate.

## RESIGNED ROAD BOSSES CALLED

**Joe Burkett and Lanham Will  
Appear In Hoffman Trial  
For The Defense**

(By The Associated Press)  
AUSTIN, Jan. 25.—Subpoenas were issued today for Frank Lanham and Joe Burkett, former highway commissioners, to appear as witnesses for defense in the state's suit against the Hoffman Construction company. Lanham and Burkett awarded the contract to the company.

Leo Ehlinger, who voluntarily retired as state highway maintenance engineer March 1, 1925, testified today in the trial he knew of no need nor plans for asphalt surfacing of roads when he retired. He declared engineers considered "inadequate treatment" such as was given to state highways by the defendant companies. "Life" of such a treatment he estimated at about twelve months, stating a surfacing broke up badly under treatment.

Road Is Satisfactory  
Ehlinger said an asphaltic road in Hays county and one between Caldwell and Lockhart, such as the Hoffman company constructed in west Texas, had proven entirely satisfactory.

On cross-examination Ehlinger said he felt that the sort of treatment given to roads by the Hoffman company was worthless, "you might as well place wall paper on this floor and expect the paper to increase its strength of the floor."

The price of \$77,000 the state contracted to pay the Hoffman company for maintenance of Bexar county roads for a year was "about \$30,000 too high," Ehlinger, who is Bexar County maintenance engineer, said.

AUSTIN, Jan. 25. (AP)—Despite a

## Officers Have No Clues In Robbery Of Texas Village

DALLAS, Jan. 25. (AP)—Officers investigating the wholesale robbery of business houses and the postoffice at Mesquite, Dallas County, early Sunday were without a clue except for the finding of a cotton glove that might have been left by the highwaymen. After blowing open safes, knocking the knobs and levers and forcing night watchman W. A. Hall to aid them in their plundering the four robbers escaped with about \$1,000.

## New Indictment Is Ordered In Indian Murder Ring Cases

OKLAHOMA CITY, Jan. 25. (AP)—Demurrers to the indictments charging W. K. Hale, wealthy ranchman, and John Ramsey, a farmer, with the murder of Henry Roan, Osage Indian, were sustained today by Judge John H. Cotteral, in United States district court. Judge Cotteral held the indictment was insufficient. At the same time he sustained the jurisdiction of the federal government in prosecuting the case on the ground that the alleged murder occurred on restricted Indian land.

This means that a new indictment must be drawn.

Hale and Ramsey were ordered held for further consideration by a federal grand jury, which will reconvene at Guthrie February 12. Judge Cotteral upheld the demurrers on the ground that while the indictments set out that the land on which Roan was killed was restricted, it did not specify the manner in which the restrictions had been imposed.

He held that the indictment did not definitely state, also, that the allotment of Rose Little Star, where Roan died, were Indian land. Counsel for Hale and Ramsey declared the decision a victory.

## W. J. BLACK, CHICAGO EXECUTIVE AND AMARILLO DIVISION HEADS, INSPECT PROPERTY IN LUBBOCK

**PASSENGER TRAFFIC MANAGER SAYS TRIP IS BUT REGULAR VISIT BUT RUMORS SAY SANTA FE PLANS ADDITIONAL PLAINS SERVICE**

The Santa Fe Railway system has its eyes on West Texas, and now has under advisement a construction program that is in keeping with the almost unbelievable development that is now underway in this section of the state, according to W. J. Black, Passenger Traffic Manager of the Santa Fe, who was here Monday from Chicago on a tour of the southwest.

No official statement, however, would be made by Mr. Black in connection with plans of the railroad company, except that work is now proceeding on the third survey from the Plains to Fort Worth and that this survey will probably be completed some time during this month. The survey on which the company is now working goes east out of Crosbyton through a strip of territory that has never had railroad facilities. The two that have been completed go out from Post and Snyder. All of them lead to Fort Worth.

**Refuses To Give Plans.**  
While Mr. Black would say nothing in regard to his visit, except that it was his regular annual tour, it is known that it is not customary for such a tour to be made at this time of year, and it is therefore presumed that his visit has something to do with proposed extensions of the Santa Fe on the Plains. Close followers of the railroad situation here expressed belief that official announcements in connection with the proposals will be made soon after Mr. Black returns to his headquarters in Chicago.

Work was begun on the survey out of Crosbyton in the early part of December, and is now nearing completion. With three possible routes under advisement, the official would make no statement as to which possibly would be chosen.

**Other Officials Here.**  
Mr. Black was accompanied on the trip here by his wife, T. B. Gallagher, general passenger agent, with headquarters at Amarillo; F. L. Myers, assistant general manager of the Amarillo office; and J. F. Anton, superintendent of the Slaton division. The party was taken for an inspection.

CONTINUED ON PAGE 3, COL. 1

## YANCEY STORY IS BEFORE COURT TODAY

DALLAS, Jan. 25. (AP)—Trial of Yancey Stoggs, for robbery with firearms in connection with the hold up of the Krum bank last year, got under way here today with overruling the defendant's motion for continuance. Selection of the jury was begun this morning.

Defense attorneys refused to announce ready unless given assurance that Mrs. W. E. Cox, and Mrs. Oils Smith, witnesses summoned by both the state and defense, would appear. Judge C. A. Pippen declined to accept a provisional answer whereupon a motion for continuance was prepared.

Albert Hooper, Denton county attorney, promised that the two would appear today when Judge Pippen indicated that he would have to rule favorably on the motion, unless the assurance was given.

**Opposition Is Heard  
On New Cotton Bill**

WASHINGTON, Jan. 25. (AP)—Opposition to the Caraway bill, which would prohibit trading in cotton and grain futures, was heard today by the Senate agriculture committee.

Charles de Claiborne, vice president of the Whitney Central bank of New Orleans, said enactment of the measure would compel banks of withdrawal credits from the cotton trade as cotton would become an unsound security and that the commodity would drop from four to five cents a pound within less than a month.

W. J. Neal, a Waco, Texas, spot cotton dealer, declared the bill would materially contract the breadth of cotton trading which would react to the harm of the farmers.

TURN TO PAGE 6 COL. 1 PLEASE

## Stephenville Court Hears More Evidence Today Against Snow

STEPHENVILLE, Texas, Jan. 25. (AP)—More evidence connected with the two slayings for which the defendant is under indictment but not on trial was permitted by the court to be introduced today in the trial of E. M. Snow, for the killing of his stepson, Thelma Connally. The exhibit of bones, which the state announced on Saturday it would introduce today as those of Snow's wife and mother-in-law, may be withheld, however, for fear their introduction would constitute a reversible affair.

**Good Evenin'—**

A Mah-Jongg factory was recently sold under the hammer for a price of ten cents on the dollar. Reports have it, however, that there is still plenty of smoke rolling out of the chimney of the old dice factory.

## IN SOCIETY

Blanche Dean, Editor, Phone 884.

### NOTICE

Today Miss Blanche E. Dean, daughter of Judge and Mrs. George R. Dean, becomes society and woman's editor of the Daily Journal. Mrs. Dean has been so capably held the position having been forced to give all of her time to her home duties. Miss Dean, who is a graduate of the College of Industrial Arts and a native of Lubbock, comes to the Daily Journal from the staff of the Denton Record-Chronicle, where she has held a similar position for the past year. She will appreciate all society items being phoned to her at the Journal office, number 884. In addition to her society and women's interest articles she will also specialize on local feature stories in the Daily Journal.

### New Silks Shown in Paris Appear in Los Angeles Immediately

ESCONDIDO, Cal., Jan. 25. (AP)—Twenty-four hours after a new model of silk has made its appearance in Paris, Los Angeles femininity can purchase the same design woven from a fabric grown and manufactured in California.

The pattern of the Parisian cloth that Mulhady can obtain locally over the counter of her favorite department store will have been transmitted by cable. The mulberry tree-to-fabric operation, of course, takes weeks. After the raw silk has been manufactured, it is ready here to be woven into the latest Parisian design on short notice.

Since 1915 when the first mulberry tree was planted in Southern California and a silk worm placed on its branches, a total of 220,000 trees have been put out and millions of silk worms set to work building cocoons.

Many discouragements attended the establishment of the industry in the United States but these were surmounted and the output has increased until this year it was found necessary to construct a new \$300,000 raw silk manufacturing plant to care for the Escondido Valley's output the coming season.

With a growing period for mulberry leaves two months longer than in the Far East, a greater amount of silk is produced in California. In China and Japan 400 and 600 yards of recoverable filament are obtained from a single cocoon, while in California from 1,000 to 1,500 yards are unwound.

### Florida Wonders If Millicent Is Going To Answer Petition

(By Associated Press.)

NEW YORK, Jan. 25. (AP)—Court action brought by Count Ludwig Salm Von Hoogstatten to compel his wife, the former Millicent Rogers, to produce their infant son, Peter, in New York county for baptism in the Roman Catholic church today was postponed until Thursday. The countess evidently forestalled the necessity for the action, the child having been baptized at St. Anne's Catholic church, West Palm Beach, December 1, 1925.

WEST PALM BEACH, Fla., Jan. 25.—Just what action the Countess Millicent von Moogstraeten was going to take in a petition served on her Saturday, commanding her to appear today in New York courts with her baby, was speculation here today.

The countess caused a tiny open Saturday afternoon in the line of guards who keeps to secure herself and little Peter the strictly privacy, and allowed Sheriff Baker, of Palm Beach county, to serve the papers. It then closed again and no further word has come from the retiring heiress.

Since her sojourn here she has steadfastly refused to respond to the legal advances by her husband, the count, in trying to gain custody of their baby son. She also has turned a deaf ear to scores of newspaper reporters who would have her comment upon the count's efforts. Private detectives have seen that she has been disturbed by neither.

The subpoena served Saturday commanded her to produce the child in New York for baptism in the Roman Catholic church and so the count could see him. However, inquiry at St. Anne's Catholic church at West Palm Beach revealed that the baby had been received into the church on December 1, 1925, by Father L. P. White.

### Women's Clubs Back Of Move To Protect Famous Waterfall

CUMBERLAND FALLS, Ky., Jan. 25. (AP)—Nine states are joining Governor Field's protest to save Cumberland Falls, Kentucky's largest waterfall, from impairment by commercial development.

Mrs. W. L. Atkinson of Arizona, New Mexico, calls the Falls in Whitely and McCree counties, "a gift of God," in a wild and picturesque region where the Cumberland River comes down from Pine and Cumberland mountains flanked by forested hills and plunges in falls below, a narrow, tortuous gorge.

Wyoming, Kansas and West Virginia, through their State Federations of Women's Clubs, have sent copies of their protests to the Federal Power Commission at Washington. Chairmen of the conservation departments of the Federation of Women's Clubs in the other states have filed protests to the Kentucky State Park Commission against the application of hydro-electric power companies for permit to operate a power project in this region.

Acknowledging the letters of protest, O. C. Merrill, executive secretary of the federal power commission, comprising the secretaries of war, interior and agriculture at Washington, said that careful consideration will be given to the "possible effect the construction of this project would have on the scenic beauty of Cumberland Falls."

The main objection is to the power dams that would be built.

### Program At First Methodist Church Is Pleasing Variety Of Compositions Of The Director, Professor W. R. Wagborne

The evening service at the First Methodist Church consisted of a musical program of vocal, violin and piano numbers, all compositions of Professor W. R. Wagborne, head of the department of music at the Texas Technological College. The choir of the church gave the program under the direction of Wagborne, choir director.

A short address on "Music" was given by the pastor of the church, Rev. E. E. White, during the evening. He said that the Lord may be praised with musical instruments as much as with the voice and quoted Bible passages from the Psalms and other books in which the singers and poets had praised God with music. He urged the people to sing their religion and enjoy the singing at the church as part of the real worship of the evening.

Professor Wagborne explained the various musical numbers which were given and told of the circumstances surrounding their composition.

The choir of the First Methodist Church was the first organization to sing one of the selections, "Lo, 'Tis Night," he announced. The song was composed just before Wagborne came to Lubbock and the Methodist choir sang it shortly after he came here and before the music had been sold to other organizations. Mrs. Wilda Stewart sang the solo part of this selection.

The program was a versatile one ranging from heavy anthems to the lighter solo numbers for women's voices. A number of the Psalms were sung during the evening. "The Lord Is My Shepherd," a trio, was sung by Misses Edith Carter and Frances Hoffman and Mrs. E. A. Harvey. Another Psalm, "Blessed Be," was given as a solo by Mrs. Carl Scoggin.

The organ prelude and a canonette, given as an offertory, were both played by Mrs. Mamie I. Neal, organist of the church. These, too, were compositions of Professor Wagborne.

"Romance" for violin and orchestra, was played by Miss Annie Owens, violinist, with Professor Wagborne at the organ. Wagborne accompanied several of the numbers. "Jesus, Tender Shepherd" was one of the most pleasing numbers given during the evening. Edgar Immon and Edgar Shelton each sang solo parts in "Thou Oh God, Art Praised" H. W. Richardson, assistant pastor of the church, sang the solo stanzas.

As effective conclusion to the program was brought about by following the benediction with "Nunc Dimittis" sung softly by the choir while the audience remained standing with bowed heads.

### "Pum-keen Pie Gude" Says Swedish Star

HOLLYWOOD, Jan. 25. (AP)—The best thing Greta Garbo, Swedish screen star, has found about America "is what you call pum-keen pie."

The actress has been in this country several weeks, having been engaged by the Metro-Goldwyn Company to appear in pictures. But it was only when asked the usual question about her impressions of America that she was revealed as an advocate of the pumpkin.

"In Sweden," she said, "we teenk pumkeens are good only for to feed cows. But here I ett pum-keen pie and I teenk maybe dat de cows dey know much better than us about eet good."

### Lubbock Art League Forms Constitution

Constitution was formed and read and posters were made advertising the Lubbock Art Students league at the first regular meeting of the association at 2:30 o'clock Sunday afternoon at the Business college. The league organized Friday night with 20 members.

Classes are to be organized soon and instruction in art will be given under K. W. Mack, a graduate of the Edinburg College of Arts and the Teachers Training college in Edinburg, Scotland. Anyone who is interested may join the league, which is a cooperative club, according to those in charge. Only temporary officers have been elected and Ferman Martin has been made president. The league is to meet two or three times weekly, according to present plans. The next meeting is to be Tuesday evening at the Business college. There were 24 present Sunday afternoon.

### Plainview Pastor Is Meeting With Group At Methodist Church

Rev. W. H. Terry, North West Texas conference superintendent of the Methodist Church, is in Lubbock this afternoon from his home in Plainview conferring with a committee from the First Methodist Church about detailed plans for a six-day's training school at the church.

The school is to open March 7 and teachers of the Sunday school or others who desire to receive teachers' certificate will take the course. The school will be conducted under the direction of Rev. Terry and Dr. Paul W. Horn, president of the Technological college probably will be one of the instructors.

Members of the committee who are conferring with Rev. Terry are L. S. Hurley, chairman, J. L. Dow, Dr. A. W. Evans, Mrs. C. E. Maedgen, Miss Mary Fetter, Garland Woodward and Allen Hill.

### Menus for the Family

By SISTER MARY  
Breakfast—Grapefruit, cereal cooked with dates, thin cream, bread crumbs, pancakes, syrup, crisp bran toast, milk, coffee.

Luncheon—Egg and vegetable salad, rye bread, squash pudding, milk, tea. Dinner—Veal timbales, twice baked potatoes, creamed carrots, molded spinach salad, prune whip with custard sauce, whole wheat bread, apple jelly, milk, coffee.

The veal timbales use up bits of veal left from the roast suggested for the dinner just preceding. The egg and vegetable salad is somewhat out of the ordinary but very much worth while.

Egg and Vegetable Salad.  
Five hard cooked eggs, 1 small green pepper, 1/2 cup finely chopped celery, 4 tablespoons tomato catsup, 1 tablespoon lemon juice, 2 tablespoons olive oil, mayonnaise, 1/2 teaspoon salt, 1/2 teaspoon paprika, 2 cups shredded cabbage, 1 rule French dressing.  
Cut eggs in halves crosswise. Remove yolks and mash. Remove pith

## News and Views of the World of Sport

### Billy Evans Says

FIDEL LA BARBA DOESN'T MIND NAME "FIDDLE" AS LONG AS RECEIPTS ARE GOOD

A champion in any sport with an unusual name is always the subject of much comment. Take the case of Fidel La Barba, holder of the fly-weight title.

When he is announced as one of the performers of the evening in the main bout, his first name is given as if spelled Fiddle, common for violin.

For boxing purposes La Barba will probably always be known as Fiddle. However, the correct way to pronounce the champion's front handle is "Fi-dell."

La Barba admits he is far more particular about the size of the gate than the pronunciation of his name.

It must be rather disconcerting to Americans light heavier to note the fact that is being made over Georges Carpentier.

I believe I am conservative in venturing the opinion that there are at least a half dozen fighters of Carpentier's weight who could take him. Despite this, American promoters are falling all over themselves in an effort to induce Carpentier to sign a fight contract at a fancy figure.

The popularity of Carpentier with promoters as well as fight fans can be attributed to color. In sport, color means the fellow who is different.

Battling Siki had color, literally and otherwise. Color in sport can assert itself in many ways.

Carpentier was the Gorgeous George, the mainline idol, the Orchid Man. He broke into the society columns as often as the sport page, constantly doing something ridiculous, but nevertheless breaking into print as often as Carpentier.

It seems the curious public is often more interested in the mannerisms and habits of a fighter than in his real ability in that direction.

### GOLF STYLES

Perhaps in no sport is dress quite so essential as golf.

The football player when he dons his uniform has the thought of protection uppermost in making the selection of his outfit.

The ball player gives some consideration to protection, but the big idea in the baseball uniform is a light

and seeds from pepper and mince flesh. Combine celery, pepper and egg yolks with vinegar, oil, salt, paprika and lemon juice. Mix well and add enough mayonnaise to make moist. Fill the whites of the eggs with this mixture and arrange on a platter. Serve eggs on the bed of cabbage. "Threads" of pimento through the cabbage add much to the attractiveness of the salad.

### Protector

Red Habel, captain of the Wofford College basketball team, is troubled with weak eyes but it doesn't affect his playing a particle. For "Red," as you'll note, has a specially devised mask which he wears to protect his "specs." The protector is the work of "Bip" Major, Wofford coach.

flannel that will absorb perspiration and at the same time look passably well.

The boxer and swimmer wear the lightest possible uniform so as not to handicap their efforts.

It is the same with practically every sport except golf with reference to the uniform. The golf player dresses largely for the matter of looks.

The latest plus fours, some of the knickers look like "Big Sixes," with hose and sweater of many colors to match, topped off by a snappy cap, get a big play with most golfers.

However we have noted that the best dressed golfers are usually the poorest players. Walter Hagen, excepted, of course.

### 59 SHUTOUTS ARE HUNG UP DURING A. L. SEASON

CHICAGO, Jan. 25. (AP)—There were fifty-nine games in the American League last year in which the losing team was set down without a score. Three of the season's shutouts went into extra innings and one was a six-inning contest halted because of darkness.

The White Sox pitching staff led in this respect holding their opponents scoreless twelve times. Eddie Collins' crew was blanked only four times, one of them the game forfeited to Cleveland where the field could not be cleared of the crowd.

New York proved the easiest outfit to shut out. They were blanked an even dozen times. Yet it was a Yankee pitcher—Herb Pennock—who pitched the years' most notable shut-out game, a fifteen inning battle in which he relied the Athletics, 1-0.

The Red Sox failed to score nine times and the Champion Senators, the Tigers and the Indians fell victims on six occasions. The Athletics and the Browns kept off the score board in eight games.

The White Sox chalked up the heaviest total against a shutout team. In a game on Sept. 13, the Chicago team scored seventeen times against the scoreless Senators.

August was the shutout month. League records reveal. There were nineteen such games. August 7 was the banner day for shutout pitchers, when three games resulted in no scores for the losing teams.

### Murchison Equals 100 Meter World Record

NEW YORK, Jan. 25. (AP)—Loren Murchison, running under the tri-color of the Illinois A. C., equaled the world's record for the 100 meter dash at Brooklyn College games here Saturday when he negotiated the distance in 11 seconds flat. The record was established by Bob McAllister, the "flying cop," at the same games two years ago.

### New Relay Record Set by Holy Cross

NEW YORK, Jan. 25. (AP)—The Holy Cross College relay quarter, established a new world's record of 3:24 in the 1,600 meter intercollegiate relay at the Brooklyn College games here Saturday. In shattering the former mark the team defeated the Georgetown University team, who were heavy favorites by three yards.

### Will Seek To Hold Cage Entries To 40 High Schools

CHICAGO, Jan. 25. (AP)—Sponsors of the annual national intercollegiate basketball tournament of the University of Chicago hope to limit entrants to 40 teams this year. It was announced tonight. The tournament will be held March 30, 31 and April 1, 2 and 3.

H. O. "Fritz" Crier, who will be in charge of the event, plans to arrange for competition among the leading basketball teams of the various states. In addition to the major tournament there will again be consolation play-off with a full set of prizes for each.

Previous winners in the tournament are: 1917, Evanston Academy; 1920, Wingate, Ind.; 1921, Cedar Rapids, Iowa; 1922, Lexington, Ky.; 1923, Kansas City, Kansas; 1924, Windsor, Colo.; 1925, Wichita, Kansas. First: El Reno, Okla., second: Westport High, Kansas; third: Ma, Ind.; Wheeling, Miss., fourth.

### Helen Wills Wins Over French Star

CANNES, France, Jan. 25. (AP)—Helen Wills won the final round of the Metropole tournament today, defeating Mlle. Vlasto, France's second ranking woman player, 6-5, 7-5.

## Lubbock's Continuous Growth

One of the contributing factors to the continuous growth of this city is its low light and power rate—made possible by the operation of a plant by the citizenship.

Lubbock's reputation for having in use more electric stoves than any other city in Texas was brought about largely by this same low cost of current.

And as long as the people co-operate in the maintaining and operation of the plant just so long will she enjoy the benefits of that co-operation.

## City Light & Power Plant

Owned by the People

## A Short Cut to Long Distance on Station-to-Station Calls

WHEN the local operator asks "Number, please?" give her the name of the distant town or city and the number of the desired telephone. She will see that the connection is made as quickly as possible: You can place a station-to-station call to any point in the nation in this manner, provided you know the telephone number. For example just say, "Houston, Preston 2000"

Person-to-person calls and all calls on which you do not give the distant telephone number must be given to the Long Distance operator in the usual way.

SOUTHWESTERN BELL TELEPHONE COMPANY

## RESIGNED ROAD BOSSSES CALLED

(Continued From First Page)

1925 budget allowance of only \$6,100 allotted by the 1924 highway commission for all types of asphalt surfacing, certain counties Frank Lanham and Joe Burkett shortly after assuming office, let a surfacing contract in those counties worth \$2,000,000 to the Hoffman Construction company.

This declaration was met today by Attorney General Dan Moody in prosecuting the \$421,000 highway suit against the Hoffman Construction company.

Over strenuous objections, Judge George Calhoun ruled the state could offer to the jury oral deposition testimony of Ray Starnes, stockholder of the defendant company, that he gave several hundred dollars to Burkett to make trips last summer to California and New York.

## W. J. BLACK IS IN CITY ON TOUR OF SECTION

(Continued From Page 1)

tion trip through the city and the Tech college by members of the local Chamber of Commerce, and expressed great surprise at the magnitude of work that is under way, especially at the college.

Mr. Black especially expressed great surprise at development along all lines both here and over the South Plains, saying that this is one of the most prosperous portions he has visited on his trip. The permanency of improvements and the stability of business along general lines was commented upon very favorably by the visitor.

Impressed By Tech.

He emphasized the statement that has often been made here to the effect that the people of Texas, and especially Lubbock and the South Plains, do not realize the meaning to them of the Texas Technological college. The institution, he said, is one of the biggest things ever attempted in the southwest, and he predicted that within a short time, it will hold its place as one of the most important cog in the educational machinery of the entire southwest.

The department of weaving and spinning in the college is one that should be of special interest to the South, Mr. Black stated, for here the art of manufacturing raw cotton that is so extensively grown here, is taught. It is peculiar, why the people of the South will raise practically the entire world's supply of cotton and ship it to the North for manufacture then have it returned in the finished product, paying the haul both ways, when they can just as handily manufacture it at home, he remarked in passing to another department of the institution.

## MERCIER LEFT A WILL TO ARCH BISHOP

MUCH INTEREST IS SEEN  
IN CONTENTS OF LAST  
WORD OF PRIMATE

(By Associated Press)

MALINES, Belgium, Jan. 25.—Much interest was aroused today by the revelation that Cardinal Mercier had left a religious will, addressed to the Archbishop of Canterbury.

The details of this document have not yet been made public, but as it was written shortly after the visit to the dying cardinal by Lord Halifax, president of the Anglican Church Union, it is believed it has reference to the question of union of the Roman and Anglican churches, for which the cardinal long had been working. The will was written in the cardinal's own hand. So great has been the desire of the people to show their love for Cardinal Mercier that last night several hundred persons, believing that the doors of the Archbishop's residence would be closed before they had time to pass by the bier, rushed past the attendants and gained entry into the vestibule. The police made several arrests and the cardinal's secretary threatened to close the palace until after the funeral if further untoward incidents occurred.

Many of the persons who came to pay tribute to the Prince of the Church brought with them medals and other holy objects with which they touched the cardinal's body, believing that thereafter they would carry with them the attributes of blessing.

The cardinal will be entombed Thursday in a crypt in the Cathedral of St. Rombout, beside the bodies of former primates of Belgium: King Albert, the Crown Prince, members of the cabinet, and other high state and ecclesiastical officers will be present.

## Woman Wounded in Shooting Scrape Is To Die, Is Believed

CORPUS CHRISTI, Texas, Jan. 25.—(AP)—Little hope is held for the recovery of Mrs. Nathan R. Reid, of Sinton, who was wounded Friday night during a triple shooting at the home of her father, W. L. Barker, at Sinton. Barker and Mrs. Reid's husband were killed almost instantly by shots believed to have been fired by the latter.

Mrs. Reid has made no statement, although she has been conscious most of the day.

HOLLYWOOD.—Elsie Hammerstein's face is badly bruised as the result of a toboggan crash at a mountain resort which knocked her unconscious.

## DENMARK MEN OF SCIENCE HEAR YOUTH

COPENHAGEN, Jan. 25. (AP)—Scientists in Denmark are amazed at the attainments of 16-year-old Bengt Stromgreen, son of Professor Ellis Stromgreen, director of Copenhagen's Astronomical Observatory. This budding astronomer has constructed an electrical apparatus which automatically registers the movements of the stars, thus saving astronomers long and patient watching through the telescope. By the invention the human eye is replaced by a photo-electric equipped with a photographic receiver, which measures the time of transit of the stars through the meridian. Young Stromgreen, who only recently left school, is now studying mathematics and astronomy at Copenhagen university. For the last two years his instructors have confessed themselves unable to teach the young genius anything more. His father, however, has insisted on his continuing his studies for the sake of companionship of boys of his own age and to prevent the too-rapid development of his son's mighty brain powers. When only 14 years old, Bengt astonished the International Astronomical world by writing a highly technical article on an astronomical problem.

Members of the Berean Sunday School class of the First Christian church will be entertained by the men of the class at 7:30 o'clock Tuesday evening in the church parlors. All members and friends of the class are invited.

## TEXAS TOWN NOW HOME OF RUBBER INDUSTRY

MARATHON, Texas, Jan. 25. (AP)—In this little southwest Texas town domestic rubber is manufactured from the guayule plant, which grows wild all over this section. A factory, under the spur of high rubber prices, has reached an output of a ton a day. The guayule is a shrub, three to five feet high, and resembles sage brush. Beneath its outer bark is a sap, known as latex, from which the rubber is made. The shrub is put up in bales like hay and the sap is pressed out in a machine called a pebble mill. About 30,000 gallons of water, supplied by wells, is required to produce a ton of rubber. The plant is gathered, root and all, and brings about \$6 a ton at the factory here. The finished product comes from the presses in sheets about three inches thick, 30 inches long and 15 inches wide.

## A VILLAGE SPRINGS UP AT MINING FIELDS

LEADVILLE, Cal., Jan. 25. (AP)—Out of the desert, next door to famous Death valley, the newest mining camp in California has sprouted here during the past few days. The leadstone which is drawing prospectors, investors and speculators is that friend of the plumber, prosaic lead. Leadville, now a tent village of more

than 200 population, lies in a California valley 18 miles by a newly completed road from Beatty, Nev. An automobile highway is also under construction pointed through Death Valley itself towards Leadville.

Half a dozen mining companies already are developing properties in the baby camp, while claim location stakes clutter the landscape for a radius of eighteen miles. This lead deposit in the grapevine hills, which some engineers declare the largest surface lead discovery if fifty years, was located in March 1924 by Ben Chambers and Frank Metts. In July, 1925, the first step towards development was taken when the Western Lead Mine company, a closed corporation, was organized by John Halsberry, Nevada mining man, Jake Berger, Alaska and Nevada mine operator, and W. E. Staunton, of San Francisco. Other large operators have come into the field and owners are claiming assays that show a range of returns of from \$40 to \$60 per ton.

NEW YORK.—In deference to a visitor from India, the hymn, "From Greenland's Icy Mountains" has been censured at a Lutheran conference. The stanza referring to the spicy breezes o'er Ceylon's isle, "where only man is vile," was omitted.

## WORLD COURT CLOTURE VOTED BY U. S. SENATE

(Continued From First Page)

**Johnson Replies.**  
Senator Johnson replied briefly to the speech of the democratic leader but Senator Reed said he did not want to reply, "because there has been nothing for me to reply to."

The cloture petition as filed, Senator Johnson said, proposed to limit debate on the original Swanson resolution of adherence and not on the substitute offered last Saturday.

"Why was it not presented before?" he asked.  
"Because I thought we could get an agreement," Senator Swanson replied. "I forecast all of the changes in my opening speech."

Senator Harrison, democrat, Mississippi, offered an unanimous consent agreement to limit debate after February 15, but Senator Borah, republican, Idaho, objected.

**Second Trial From Cloture.**  
This is the second time cloture rule has been invoked since its adoption in

March, 1917, after a group of twelve Senators had conducted a successful fight against President Wilson's armed ship measure.

"The first time the rule was used on November 15, 1919, to limit debate on the treaty of Versailles. The vote then was 78 to 16 and a vote on the treaty followed four days later.  
Soon after the Senate had today to invoke the rule and expedite its discussion of the world court Senator Reed, of Missouri, made a motion to adjourn. A quorum call intervened and when a quorum was established Senator Reed said he would not insist on his motion.

**Senate Proceeds.**  
"The Senate is here now," he said, "and it can proceed with its business. When I made the motion there were only about six senators in the chamber and since it already had adjourned, I thought we might as well do it formally."

Senator Lenroot, republican, Wisconsin, in charge of the fight for ratification, then asked for the reading of the protocol and statute by the clerk. As it started, Senators began to file out again most of them bound for the restaurant for belated lunches, and Senator Reed again suggested the absence of a quorum. He was determined, he said, to keep Senators "on the job."

**Opponents Confer.**  
WASHINGTON, Jan. 25. (AP)—Opponents of the world court in conference today decided to propose that

limitation of debate on the world court issue begin on March 1. This is wholly unacceptable to proponents and a vote on cloture at 1 p. m. was regarded as inevitable.

(By Associated Press.)  
WASHINGTON, Jan. 25.—The Senate world court fight neared the showdown stage today.  
Cloture rule limiting debate to one hour for each Senator or a mutual agreement to restrict discussion on their own account was the proposition facing leaders of the opposition to proposed American adherence to the tribunal.

The opposition was given the first hour of today's session to continue negotiations for unanimous agreement with the certainty that failure of

the negotiations would be followed immediately by a vote on the question of cloture. Advocates of the rule were confident of its adoption with more than the needed two-thirds majority.

**Vets Is Expected.**  
The friends of the court expected the vote on cloture to indicate also how the chamber will line up when it gets a chance to decide whether this country will sit in the court at Geneva. They believe the substitute resolution of adherence presented by Senator Swanson, democrat, Virginia, embracing reservations more restrictive than the present ones, has secured several doubtful Senators to the pro-court forces, leaving only sixteen senators identified definitely with the opposition.

These opponents were listed as: Republicans—Borah, Idaho; Brookhart, Iowa; Fernald, Maine; Frazier and Nye, North Dakota; Harrell and Pine, Oklahoma; Johnson, California; La Follette, Wisconsin; Moses, New Hampshire; Schall, Minnesota, and Williams, Missouri.

Democrats—Reed, Missouri; Dill, Washington; Hesse, South Carolina; and former labor shipstead, Minnesota.

**Tax Bill Coming Up.**

No matter how the cloture question is settled, the Senate this week will begin consideration of the tax reduction bill. One possibility was that agreement between the two factions would include provision that the tax bill be given the right-of-way, except when a senator chooses to discuss the court issue. With cloture, a vote on the adherence resolution likely would be out of the way before the end of the week, giving taxes an uninterrupted course.

The House, meanwhile, will discuss the naval appropriation bill and then turn to the Hansen bill proposing establishment of a division of cooperative marketing in the department of agriculture. The department's appropriation next will be taken up. The House committees will consider phases of agriculture along with railroad labor legislation while Senate inquiries will continue into atomium and proposed railroad consolidation.

**MR. AND MRS. E. TOWNSEND.**  
who have recently moved here from Kansas City, have gone to Pasadena, Calif., for about two months. In addition to looking after business interests, they will visit his parents in Pasadena. Mr. and Mrs. Townsend went as far as El Paso in a car and will continue the journey from there by rail.

### DEATH TOLL MOUNTS

ALLENTOWN, Penn., Jan. 25. (AP)—With the death of Edward Ritchey, of Scranton, today the toll of lives lost in the Lafayette hotel fire Saturday reached thirteen.

## POLICE BELIEVE DEATH OF WOMAN WILL BE SOLVED

CONTINUED FROM FIRST PAGE

"I did it," he cried suddenly. "I don't know why I did it—I was frantic with love."

Then he began the brief story of the woman's death and the dismemberment and disposition of her body. "I met the girl Tuesday night outside my office on 17th Street in Philadelphia," he began. "She said she did not feel very well. I proposed that she go up to my office—I told her the door was unlocked—and to lie down. I said I was going to get something to eat."

"It was gone about an hour. When I came back I went to my office, but I did not see Miss Dietrich. She was in the bathroom."

"I sat down and read for ten or fifteen minutes. Then I knocked on the door of the bathroom and when she did not answer I pushed in the door, which was fastened with a catch."

**Found Her Unconscious.**  
"I found Miss Dietrich on the floor in a heap, unconscious. I picked her up and carried her to the operating table in my office. I tried to revive her, but could not. I worked on her until she died."

"Then I became frightened and panicky. I did not know what to do. I have a wife and a child and I feared I would be blamed for her death."

"I kept the body all that night in my office. Early next morning I came back then I cut off the head and legs with a hacksaw and a knife."

**Disembodied Body.**  
"On Wednesday night I distributed the body. I found the head, having left it in my office. I took away the body and legs. I remembered it Thursday morning and I took a paper that bore the date of September 11, 1924, and wrapped it up and then took it and threw it under the trestle. "I burned the rest Friday afternoon. I took the rug and the articles that belonged to Miss Dietrich and disposed of them, burning these things Friday."

District Attorney Taylor asked if Miss Dietrich had any reason to end her life.

**Woman Took Poison.**  
"She told me she had taken poison," said Marshall. "She had a love affair with one of the big fellows in New York and being a poor girl, who went to work every day, he threw her down. That broke her heart."  
Marshall was said by Alexander Schuhl, and his wife, brother-in-law and sister of Miss Dietrich, to have been a frequent caller upon the young woman and to have treated her professionally. They declared he was known to them as a bachelor.

## LUMBER FIRM WINS IN THE NEW HOPE SCHOOL CASE

The Cicero Smith Lumber company, plaintiff in a suit seeking collection of an amount alleged to be due them for material used in the construction of the New Hope school near here, was awarded judgment of \$1,370.60 by a jury in district court here Monday closing a case that has been on the docket since 1923.

The jury also found that the plaintiff had not been instrumental in inducing the contractors Vaught and Vaught for the work to sign surety bond with the U. S. Fidelity and plaintiff was favored on every issue except a minor detail between the contractor and the defendant company that has very little bearing on the case so far as the lumber company is concerned.

No notice of appeal has been filed in connection, but it was announced immediately following the verdict that the defendant company probably would Guaranty company, defendant. The take an appeal to at least certain phases of the case.
