

Lone Star Matrimonial Mutual Officials Held For Federal Grand Jury

Attorneys Debate Difference Between Death And Matrimony As A Question Of Chance

FORT WORTH, Texas, Nov. 18 (AP).—Six persons charged in connection with using the mails for the conduct of an alleged marriage lottery today were bound over to await action by the federal grand jury. Their bonds were reduced from \$5,000 each to \$1,000 each.

Chicago Wins First Battle With Enemies

Hoodlum Convicted, Given Sentence of Six Months

CHICAGO, Nov. 18 (AP).—Chicago scored its first victory in its fight to rid the city of "public enemies" by means of an old vagrancy law.

The victory came with the conviction late last night of James (Butt) Sammons, one of the original 25 hoodlums named by the Chicago crime commission as "public enemies." Faced with sentences of six months on the county jail rock pile and a fine of \$100.

Sammons, who, according to prosecutors has a criminal career dating back to 1920, was led away to a cell in the detective bureau to await the next move of his counsel.

A legal effort for a new trial Judge Edgar A. Jones in municipal court, said arguments on their motion would be heard Nov. 23.

Sammons was confronted with another charge, that of burglary and larceny made in connection with the siphoning of whisky from a warehouse several years ago, for which he was held under bonds of \$150,000. In addition he is wanted in Baltimore on a robbery complaint.

The jury deliberated for six hours before returning a verdict of guilty on charges based on the Illinois vagrancy statute of 1874 after a trial that lasted five days.

The state contended Sammons was guilty under three provisions of the law.

That he was habitually neglectful of employment and did not lawfully provide for himself.

That he was known as a thief without lawful means of support.

That he had been convicted of other crimes.

Arguing that Sammons had paid his debt to society for his crimes by his imprisonment, W. W. Smith, one of his attorneys, contended Sammons had learned the trade of an electrician while in Joliet penitentiary, but had been prevented by police harassment from earning an honest living.

Meanwhile the drive on crime was reported to have taken another turn, with the grand jury scheduled to go into the question whether Alfonso Capone has had any influence on the affairs of the Chicago police department. The Herald and Examiner said eight policemen and a lieutenant had been summoned for questioning.

DECISION IN CREW CASE IS BEFORE JUDGE

AUSTIN, Nov. 18 (AP).—Decision in the test case involving validity of an attorney general's opinion that motor propelled trains must carry full crews tested today with District Judge George Catbourn.

Judge Catbourn took the case under advisement after four days of testimony.

He told the contesting lawyers he wanted a few days to study the testimony before rendering his decision. Regardless of the district court rule, the case will be taken to the highest courts for a final decision, attorneys for both sides said.

Railroads protested the interpretation of the law on the contention that motor cars do not need firemen.

CHARGE WIFE AFTER DEATH OF HUSBAND

SAN ANGELO, Texas, Nov. 18 (AP).—Mrs. Avia Mae Henderson is in jail at Fort Stockton charged with the murder of her former husband, Claude James Henderson, on the Phillips lease near Iraan, Texas, early this morning. Three shots took effect in the sleeping man. He died when he had married since securing a divorce from Avia Mae Henderson, was hurt slightly grappling with the armed visitor Avia Mae Henderson drove from Fort Worth to Iraan yesterday, she told officers. She waived examining trial and was held without bail to await action of the grand jury.

Defendants were W. G. Hutson, A. W. Hutson, Miss M. O. Robinson, R. C. Parrish, S. D. Turner and M. D. Gardner, all connected with the Lone Star Matrimonial Mutual Association.

The only witness was T. D. Dawkins, postoffice inspector. He identified an exhibit produced by the government consisting of a policy of the association, application for membership and notice of payment of assessment.

Dawkins testified that officers of the association had informed him that the U. S. mails were being used. He also identified letters that had been mailed in Fort Worth.

The defense did not deny that the mails were used in conduct of the business. The government introduced several bank checks for payment of assessments, which Dawkins also identified. They had been marked insufficient funds.

In his argument for the government, Charles Riley, special assistant to attorney general, outlined the method of operation of the association. Payment on a policy, he said, is contingent on collection through assessments levied on other members of the class. The amount paid to a person getting married, he said, depended on the period of time in which he was married, as specified in the contract. He said the contract set out a maximum amount that could be collected.

"Matrimony is purely a question of chance," he concluded.

The difference between death and marriage as a question of chance was debated at length between Riley and Jesse E. Martin, attorney for the defendants, after the latter had contended that the provisions of the marriage policy contract were identical with provisions of all mutual life insurance companies.

This company insures on the contingency of marriage instead of death," Martin said. "Why is it a violation of the law to insure a man who wants to get married? It is the same, without exception."

"Death is a certainty, whereas marriage is not," interrupted Riley.

"Death also is an uncertainty," contended Martin. "In that while death is inevitable, none knows when it will come." He declared that mutual life insurance contracts also have the period clauses.

Coroner Returns Suicide Verdict In Woman's Death

The coroner's verdict of death by suicide was returned by Justice of the Peace Adam Konitz, Stanton, Monday afternoon in the death of Mrs. Belton T. Hill, 28, mother of four children. The verdict declared Mrs. Hill died of gunshot wounds self-inflicted. She was shot through the heart with a .38 caliber pistol.

Funeral services for the popular Martin county woman, were held at Stanton Monday afternoon. She died at her home shortly after 8 p. m. Sunday, soon after returning from an automobile ride with her husband and children.

She is survived by her four children: Dora Mae, 9, Eddie Lee, 6, Belton David, 5, and Robbie Joe, 3, and her husband. She was the daughter of Mr. and Mrs. J. Q. Self, pioneer residents of Stanton, who are dead.

LEAPS TO DEATH

NEW YORK, Nov. 18 (AP).—A woman identified by police as Anna Goldberg, 50, of Hartford, Conn., leaped to her death from a twelfth floor window of the Hotel Commodore today.

She was identified by her four children: Dora Mae, 9, Eddie Lee, 6, Belton David, 5, and Robbie Joe, 3, and her husband. She was the daughter of Mr. and Mrs. J. Q. Self, pioneer residents of Stanton, who are dead.

City Financial Statement For Seven Months Reveals Budget Under-Run \$2,815.64

A net under-run of the year's budget of the city of \$2,815.64 was revealed today when the financial statement of the city for seven months ending Oct. 31, was released by V. R. Smith, city manager.

Although only three of the eight departments are running under their budget allowance, the total is \$2,815.64, compared with a total over-run of \$2,528.32 for the other five departments.

The budget for the seven months amounts to \$80,589.78. The total expenditures for the period is \$77,774.14.

Detail of expenses in the eight departments follows: Administrative, \$15,102.59; police \$6,774.08; fire, \$6,995.91; health, \$2,429.96; street,

\$10,487.74; water, \$29,740.08; sewer, \$5,490.91; park \$724.77.

Departments running under budget allowances are police, \$231.17; fire, \$2,236.75; health, \$1,674.04. Departments running over the budget are, administrative, \$577.26; street, \$412.41; water \$135.88; sewer, \$1,176; park, \$24.77.

Detail of income for the seven months shows a total of \$111,384.19. The water department receipts were \$77,900.06; sewer service, \$28,605.40, and general income, \$28,878.73.

Assets of the city are listed at \$1,158,450.50, with liabilities being placed at \$715,529.08. The surplus is \$442,921.42.

Eight Banks In Kentucky Close Doors

LOUISVILLE, Ky., Nov. 18 (AP).—Eight Kentucky financial institutions with resources totaling more than \$75,000,000 were closed today. The largest of these was the National Bank of Kentucky at Louisville, which was under control of a receiver, Paul C. Keyes, of the staff of the comptroller of the currency at Washington. Its resources approximate \$60,000,000.

Directors of the National Bank of Kentucky said the suspension yesterday was deemed necessary because of "wild rumors" concerning its condition. Simultaneously with its closing, two affiliated institutions, the Louisville Trust Company and the Security Bank, suspended operations. Their directors said they were solvent and that they were closed as a precautionary measure. The three institutions are affiliated through the Banco-Kentucky, a holding company.

Two small negro banks in Louisville, the American Mutual Savings Bank and the First Standard Bank, which cleared through the Louisville Trust Company, later closed. The Bank of St. Helens, a Louisville suburb, also suspended as a precautionary measure. The two banks outside Louisville, also closed when it was learned the National Bank of Kentucky had suspended. They were the McElwain National Bank and Trust Company at Franklin, Ky., and the First National Bank at Horse Cave, Ky. The National Bank of Kentucky served as correspondent for both.

Officers of other leading Louisville banks issued statements last night, declaring yesterday's deposits were greater than withdrawals, reported new accounts were opened during the day, and reiterated earlier statements that the institutions were solvent.

COMPLETE ACCORD

NASHVILLE, Tenn., Nov. 18 (AP).—Lee Douglas, and Rutledge Smith, co-receivers of the Caldwell and Company, said in a statement today that they were in "complete accord" as to the policies to be pursued and would "work as rapidly as possible to conserve the assets of the corporation for the benefit of all creditors."

ANNOUNCE CLOSE

FRANKFORT, Ky., Nov. 18 (AP).—Temporary closing of the Owensboro Savings Bank of Owensboro and the Peoples Bank of Sulphur because their funds were tied up in the Louisville Trust Company was announced by the state banking commissioner today.

CENTRAL PASSES

CINCINNATI, Ohio, Nov. 18 (AP).—Announcement of the control of the Cincinnati Bank and Trust Company and the Pearl Market Bank and Trust Company here, passed into the hands of the Cincinnati Clearing House was made today.

REOPENING PLANS

LITTLE ROCK, Ark., Nov. 18 (AP).—Plans for reopening some 42 banks which have suspended temporarily or closed were being worked out today by financial experts of the state.

Closing of the American Exchange Trust Company here, largest and one of the oldest banks in the state which suspended for five days was followed by suspension of activities by the 42 other banks; the aggregate deposits of which were more than \$27,000,000.

A. B. Banks, president of the American Exchange and controlling stockholder in 51 of the 42 other banks centered over the state, said he obtained pledges of loyalty from the communities and supporting capital to assure freedom of danger from a run.

The Little Rock Clearing House association in a statement assured the public that local banks are in sound condition.

Hysteria following receivership proceedings against Caldwell and Company, Nashville, Tenn., bank, until recently interested in American Exchange, was attributed by directors of the latter as the cause of steady withdrawals which reached about \$4,000,000.

SCHOLASTIC CENSUS

AUSTIN, Nov. 18 (AP).—The state department of education today announced the scholastic census of Texas showed a total of 1,563,595 students, of whom 1,385,380 were white and 178,215 colored. This was an increase of 136,738 over last year. The total scholastic population was said to be about 26 per cent of the total population of the state.

RICH TULSA MAN KIDNAPED Chamber Open Membership Meeting Tonight

Railway And Creamery to Be Discussed

Open Meeting Opens at 7 P. M. In District Court Room

With two important Howard county projects scheduled for discussion, one of the largest crowds ever to attend an open membership meeting of the Chamber of Commerce, is expected to hear Texas & Pacific Railway and A. & M. college officials speak tonight at a session to be held at the district courtroom at 7 o'clock.

Ollie B. Webb, assistant to the president of the Texas & Pacific, will discuss the proposed Texas & Pacific Northern Railway, and the chances of obtaining permission to construct this line. The interstate commerce commission hearing has been set for December 8th.

Efforts will be made at tonight's session to start organization of a Howard county community creamery. C. M. Evans, agricultural agent of the railway company, Sterling Evans and John Lader, representatives of Texas Agricultural and Mechanical College, will be present to discuss the project.

Between 1,500-1,800 letters urging farmers and merchants to attend the meeting have been mailed.

The meeting is the regular quarterly membership session of the commercial organization.

Injury Results In Damage Suit

In a suit to set aside the award of the Industrial Accident Board filed in district court, R. C. Comer seeks damages in the amount of \$7,840 for injuries received while he was working on the Settles Hotel building.

The suit was filed against the Texas Employers' Insurance Association. Comer alleges he was permanently injured when a piece of heavy timber fell on his back.

He asks the damages be paid him in a lump sum, deducting the usual six per cent for such payment.

OLIVER TRIAL GETS STARTED

SAN ANGELO, Texas, Nov. 18 (AP).—Mrs. Eula Zimmerman continued giving testimony here this afternoon in the trial of W. L. Oliver, charged with the murder of her son, Ray Bailey, at Menard.

On the stand this morning she said her little girl opened the door of the home when Oliver knocked and engaged in a conversation with a roomer. When her son awoke she said Oliver called him "Possibly Face" and said he might as well begin with him.

Sheriff Cecil Walston, sheriff of Menard county, only other witness of the morning, said he received a call at about 9 o'clock the date of the shooting, that he went to the Zimmerman home and found Ray Bailey suffering with a wound.

Bailey said Oliver shot him. The sheriff testified, Watson said he found a .45 caliber single action revolver with four loaded and one empty shells.

It was introduced as the gun with which Bailey was slain. The sheriff said he also found a .38 caliber revolver at the Zimmerman home with one exploded shell and the other shells loaded. It was introduced as the gun used in the wounding of Oliver.

About 30 witnesses are here waiting call to testify.

Texas Gains Three Seats In Congress

California Has Nine More, Michigan Obtains Four

WASHINGTON, Nov. 18 (AP).—The long-awaited conclusions of the census bureau on how representation in the house should be reapportioned among the states, announced today by President Hoover, showed gains of nine seats for California, four for Michigan and three for Texas.

The report will be transmitted to congress in the imminent short session. It was based on a total population of 122,093,435. The total house membership of 435 will not be changed.

Missouri stands to lose three seats, and Georgia, Iowa, Kentucky and Pennsylvania each two.

New Jersey, New York and Ohio each gain two; while Connecticut, Florida, North Carolina and Washington add one representative apiece.

The following states lose one seat each: Alabama, Indiana, Kansas, Maine, Massachusetts, Minnesota, Nebraska, North Dakota, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia and Wisconsin.

A total of twenty-seven seats is affected by the changes.

The census bureau in determining whether a state would gain, lose or keep its present membership in the house used two methods of statistical determination. The result was the same in each case.

The total population used for the figuring excluded the counts made last April in the District of Columbia, Alaska, Hawaii, Guam, Samoa, Panama Canal Zone, Porto Rico and the Virgin Islands, and also excluded Indians not taxed.

The census bureau statement, made public at the White House, was comprised almost entirely of statistics giving each state's population basis of apportionment and the total house representation to which it is entitled.

REPRIEVE IS GIVEN MAPLE

AUSTIN, Texas, Nov. 18 (AP).—Jesse Maple of Houston, convicted slayer of two policemen and sentenced to be executed for the death of one of the officers, late last night was granted a reprieve until November 28.

Governor Moody issued the stay a few hours before Maple was to go to the electric chair in Huntsville prison. The governor announced his decision after a conference with Judge W. C. Morrow, presiding judge of the court of criminal appeals.

E. A. Berry of Houston, attorney for Maple, had filed with the court of criminal appeals a motion for rehearing and a temporary restraining order.

District Judge Whit Boyd of Houston had refused to issue a writ of injunction to stop the execution on an insanity affidavit.

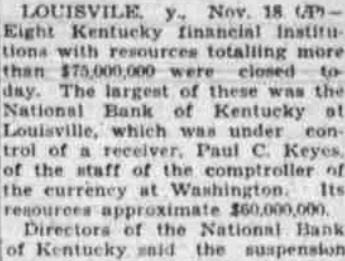

Maple was charged with the slaying of W. B. Phares and Edward Fitzgerald, motorcycle officers, at Houston September 20 after a hold-up of the Touchy Furniture Company. He was convicted of the Fitzgerald murder.

BRECKENRIDGE, Texas, Nov. 18 (AP).—Travis McMurry, 30, oil driller of Breckenridge, was bruised to death this morning when an oil tank exploded, throwing him alive into a pool of fiercely flaming oil. He died almost immediately. The body was brought here this afternoon.

McMurry leaves his wife and two children. The accident occurred on a lease about 15 miles northwest of Palo Pinto.

Ten-Cent Taxi Co. Restrained From Using That Name

An injunction restraining Roy Cozart, local taxi cab owner, from using the name Ten Cent Taxi Company, was granted by Judge Fritz R. Smith today. The injunction is temporary but efforts will be made to have it permanent.

The injunction followed a suit for damages and plea for injunction filed in district court by J. W. Bonner, owner of the Ten Cent Taxi Cab Company. Bonner alleges in his petition that he organized the first company of the kind here, and placed the title of the organization on the assumed name list in county records. He alleges Cozart adopted the name Ten Cent Taxi Company, and was reaping benefits of an advertising campaign waged by the Ten Cent Taxi Cab Company, of which he is owner. He also asks for \$750 damages in the suit.

Mail Order Turkeys And Pecans Responsible For Arrest Breckenridge Man

BRECKENRIDGE, Tex., Nov. 18 (AP).—An extensive advertising campaign for the purchase and sale of West Texas turkeys and pecans, put on from here recently by a man said to be widely-travelled and alleged to have many aliases, has terminated in the promoter's arrest.

Although no charges were filed here, the man was being held by Los Angeles, Calif. police on telegraphic information that he is wanted there on a felony charge.

The man protested he had committed no offense, but police received photographs and records from the New Mexico State penitentiary setting out that he served an 18-month sentence in that state for obtaining goods under false pretenses; that he escaped in April, 1927, was captured in July, 1928 in Los Angeles, finished his term, and was discharged in April, 1929. New Mexico authorities said he had been arrested under various names in Massachusetts, West Virginia, Missouri and New York.

His arrival here several weeks ago was followed by publication in West Texas newspapers of classified advertisements signed by "Texas Turkey Growers' Association of Breckenridge, San Antonio, Waco and San Angelo," offering to buy turkeys at 1 1/2 and 11 cents and pecans at 9 cents. Simultaneously advertisements were running in the newspapers of the north offering turkeys with 10 pounds of pecans.

Sp or tsman Is Removed From Country Home

TULSA, Okla., Nov. 18 (AP).—The Tulsa World said today George H. Hurford, wealthy Tulsa sportsman and one of the most widely known bookmakers of the southwest, was kidnapped from his country estate, near Tulsa, Sunday night by armed gangsters and is believed to be held for ransom.

Mrs. Hurford, a negro maid, and the caretaker of the home were witnesses at dusk Sunday when two armed men forced Hurford into an automobile and spirited him away. Mrs. Hurford said her life was threatened when she pleaded to accompany her husband "on his ride."

No report of the kidnapping was made to officers but the World said it was informed Hurford had been spirited away as the culmination of a plot against the bookmaker formed several months ago.

Mr. and Mrs. Hurford returned to their home in Sunday from a fishing trip. As they entered the living room they faced two men, each armed with a sawed off shotgun.

"We want you to come with us, George," one of the men said, according to Mrs. Hurford last night when she was questioned by Earl Franks, chief of detectives, and George Stewart and M. C. Huff, two of his aides.

"Well, bump you off if you don't keep quiet," the wife said she was told by the leader.

When the men disappeared in a car she ran to the telephone to summon help but found the wires had been cut. J. F. Funk, caretaker, was approaching the house as Hurford and his captors entered the car but said he could not distinguish the license number or any description of the automobile in the darkness.

Late last night Mrs. Hurford said she had received no word from the kidnapers. It was understood that Hurford's personal bodyguard, who in the last two years had been a constant companion, was attempting to establish a necessary "contact" with underworld sources in an effort to obtain his chief's release.

Plans were made last January to kidnap Hurford, according to Nelson J. Moore, night police chief. The alleged extortionists were then believed to have come from St. Louis. The plot reached Hurford's ears when one of his associates was approached with an offer to participate in the plot.

Hurford, who has lived in Tulsa for several years, has the reputation of being a "square gambler." He is president and was one of the organizers of the Magic City Kennel club, considered one of the largest dog racing tracks in the United States.

Uzcudun And Carnera Run From Rioters

BARCELONA, Spain, Nov. 15 (AP)—Paulino Uzcudun, the Basque pugilist, caused a small riot of his own in this strike-ridden city yesterday.

He and Primo Carnera, the Italian heavyweight whom he is to fight next Sunday night here, were walking together on the Rambla, principal boulevard of the city, when the crowd, recognizing the Spanish athletic club, began to cheer.

The applause was intended only as a tribute to the fighters but at that moment labor riots were under way in many localities and police thought that this was the beginning of another. The police charged, firing their pistols into the air. Some of the crowd began shooting back and Carnera and Uzcudun found themselves in the midst of a little battle.

Both fled, and friends say, if their race had been clocked they would have been credited with a very fast sprinting time down the main street.

Railway Men Organize To Remedy Taxes

ABILENE, Texas, Nov. 15 (AP)—protesting against what they term unfair taxation which they say has jeopardized their employment, more than sixty employees of the Texas & Pacific and Abilene & Southern Railroads have formed an organization here in the hopes of remedying conditions.

After electing T. R. Dodson president of the group, designed for state-wide expansion, the members yesterday drew up a memorial to the legislature which asserted unfair competition of bus lines subsidized through taxation methods, has resulted in reduction of railroad forces because of depleted railroad traffic. The memorial asked that competing bus lines be placed on the same plane with railroads with regard to taxation.

Both fled, and friends say, if their race had been clocked they would have been credited with a very fast sprinting time down the main street.

Percentage In Favor Of Frogs
Foresight In Booking Six Conference Tilts To Aid

By GAYLE TALBOT, JR., Associated Press Sports Writer
DALLAS, Nov. 15 (AP)—There must be a new rule in the South west Conference books next fall, stipulating that the seven member schools play the same number of championship engagements, say, five apiece. At present the matter is left entirely to the individual schools, and the result just now is not a happy one.

The Texas Christian Horned Frogs stand a very good chance of winning their second straight tilt, though it is generally conceded they are on the strongest eleven in the circuit this season. It is conceded, at least, by some 18,900 fans who saw the Frogs chased to cover by the Texas Longhorns Saturday at Fort Worth.

As it happens, the Christians had the foresight to book the limit of six conference tilts, while the Longhorns signed only for five. If the Frogs can come back after Saturday's trimming and take both Baylor and Southern Methodist, they will be official conference champions, no matter what the big Texas team does to the Aggies on Thanksgiving day.

It would be rather a hollow honor for the Christians after last year's clean-cut drive to the championship. They would have to listen to much talk about the Longhorns being "unofficial champs."

The fact that the Texas eleven has made a practice of looking very ordinary for a half and then suddenly turning on the heat in the third quarter has given rise to a widespread belief that Coach Littlefield has his boys playing possum. But, take it from Bill James, Longhorn line coach, there's nothing to it. He was quoted by the Fort Worth Star-Telegram:

"Not a chance," or words to that effect. "We would be foolish to send them in there with orders to take it easy against a strong team. There would be too much chance of getting slipped upon."

Ft. Worth Crash Fatal To Youth

FORT WORTH, Texas, Nov. 15 (AP)—A collision between a Northern Traction Company interurban at a crossing between Dallas and Fort Worth last night resulted in the death of Ray Barigisse, 10, and the serious injury of A. J. Callaway, Fort Worth, and Jimmie Dotkins, Bowie. The boy, who was Callaway's grandson, received fatal injuries when the automobile in which the three were riding was hurled 60 feet. He was dead when an ambulance reached a hospital at Fort Worth.

Sherman Riot Trials, Sent To Travis, Will Be Heard In January

AUSTIN, Texas, Nov. 15 (AP)—The Sherman riot cases, transferred here from Dallas, after having been sent from the Grayson county seat to Dallas county, probably will come up for trial shortly after the first of the year.

The 96th district court, over which Judge J. D. Moore presides, will begin a new term on Dec. 1, and the cases will be given a place on the calendar. It is believed they will be set for trial after the new year to enable the Travis county district attorney to familiarize himself with them.

Judge Sharies A. Pippen of Dallas transferred the cases after a large number of venturers said in Dallas criminal court they would not convict the persons accused of participation in riots at Sherman last spring even though the evidence showed they were guilty.

Buy During Slump

by HERBERT N. CASSON
Editor, Efficiency Magazine, London, Eng.

The San Francisco earthquake, if I may use that forbidden word, cured hundreds of cripples. They jumped up and ran for their lives. They weren't as badly crippled as they thought they were. They didn't know that they could run until their houses began to shake.

The Good Book, too, tells the story of a cripple whose weakness was more in his mind than in his legs. The Master said to him: "Rise, take up thy bed and walk." He rose and walked and carried his bed.

So, here is the thought that I would like to send out to the business men of America:

"You are depressed. You think you are crippled. You are afraid of the future. You are full of fears.

"You have half the gold of the world and half of the machinery and most of the automobiles and all the skyscrapers.

"You have the greatest home market in the world and the largest corporations that the world has ever seen.

"You are ruled more by ideas and less by tradition than any other people in the world. You have usually done what you thought you could do.

"How can it be possible that a progressive nation of 120,000,000 people can be wrecked by the speculations of a little handful of fools in Wall Street?

"The prices that were forced too high had to come down. Today all the prices are too low. There is now a golden opportunity for every man who has eyes to see it.

"Dollars are now being sold for fifty cents. Practically every security in the United States is now being sold at less than its value.

"The way to create a fortune is to buy from pessimists. Pay your money and take the risk. "Frick started his career by buying coke ovens in the slump of 1873. Carnegie made \$300,000,000 by buying steel plants in slumps.

"Hundreds of fortunes have been made by buying from pessimists. Ye gods! What a chance there is at the moment!

"In five years from now, most American business men will belong to the 'I-Wish-I-Had-Club'. Then, it will be too late to buy a dollar for fifty.

The opportunities will be gone.

"When a horse balks, the balk is in the head, not in his legs. He moves on when he thinks he will.

"When Fear rules the will, nothing can be done, but when a man casts Fear out of his mind, the world becomes his oyster.

"To lose a bit of money is nothing, but to lose hope—to lose nerve and ambition—that is what makes men cripples."

Entertainment

MRS. EFFIE MEADOR opened the door of her home on Saturday afternoon to the cries of "Happy Birthday" from a group of friends who had planned and carried out a surprise birthday party in her honor.

The members of the Trainmen's auxiliary, of which Mrs. Meador is a member, met at the home of Mrs. S. M. Stinson and went in a body to Mrs. Meador's home.

Mrs. Dorothy Meador and Mrs. Margaret Barnett won prizes in the contests held during the evening. The entertainment included two readings by Mrs. Migonne Crunk.

Consolation

I'm dismayed when I remember,

Once again it is November;

Like a serpent, I can see;

Another birthday threatening me,

I hurry to a looking glass,

To scrutinize myself, alas!

I closely view the woman there;

Her neck, and chin, her cheeks

and hair;

I see a woman fully grown,

A face that tells that years have

flown.

My soul and tears begin to fall;

But I hear a foot-step in the hall;

I dry my eyes, my nose and chin.

My next-door neighbor's drop-

ping in.

Grandma Lacy

Grandma Lacy's ninety-three,

But she says "Years don't bother me!"

A peppy birthday flies in sight,

But never finds a place to light.

They may leave wrinkles on my face,

But I quickly shoo them off

some place.

I never let the mean things start

A hiding place within my heart.

The years may come in flocks like

crowds,

But a sprightly woman knows

The little secret of this part is:

You're only old, dear, as your

heart is.

Don't ever let gray hair disturb

you.

For time's your friend and makes

you wise.

And give a new light to your eyes

Each year you hear new friends

ships greeting.

And feel the strength of love's heart

beating.

When you've drained the dregs

of youth's sweep cup,

You'll find another brimming up.

And sometimes you may not have

guessed.

You'll find the last is much the

best.

the auxiliary, presented the "hon-

"Gentle Zephyr" Croon The Bulldogs About Steer Game

Bulldogs Give No Thought To Tilt

Only "Fight" Can Save Bovines in 1930 Grand Finale

Every day in every way, the Steers are getting luckier and even luckier. Time was when each team the Bovines faced was just a little bit worried as to just what the Steers had up the sleeves of their sweatshirts. The dopesters would warn the team that the Steers "have something this year" and the team would immediately be on the lookout for that "something". After the Longhorns held the Breckenridge tally down to 19 to 6, the wise boys and girls over the district, snorted loudly about the "strong little eleven" that resided in West Texas.

Now, however, things have taken on a different atmosphere. Instead of the warning "em, the dopesters are humping the team," just a sweet little breeze, "Ranger, it seems, is giving little thought to the game which they play Saturday afternoon, on their own gridiron. In fact, it behooves this department to write each of the players a letter to let them all know there really will be a game so that they can be out on the field to play it."

Fame Scampers
Just to prove that fame is fleeting and uneasy is the head that even looks like it would like to wear a crown, before the Cisco tilt the Steers were rated pretty high in this district. They started the tops, and overwhelming tallies just naturally pushed the Longhorns right out of the picture until he realized that they are still in district two. But they are. Records of the Interscholastic League office will show that they have their dues paid up for the year, and are still here, with one more game to play. Just one more Class A conflict and it will be all over but the shouting.

As said back yonder a couple of so lines, the Bulldogs are giving little thought to the fray. Of course they have other frays to think of. For instance there is Breckenridge yet to come, and then a post-season game with the Pampa Harvesters. So Ranger can hardly be expected to think very seriously about the gentle zephyr that will soon breeze into their village in Eastland county. It is better that way. For that makes two teams not giving much thought to the battle. Big Spring is just playing another game, so they say. After a five days layoff, the Bovines resumed training Monday afternoon, starting the daily melees for the coming grid contest.

Can't Compare
There is no way in the world to compare the two clubs. They are as alien as two New York bootblacks. On the one side is a team that is a member of the contending class. On the other, a team that is just two steps out of the cellar. On one side of the ledger is a strong, well trained, well balanced, dangerous, swift and hard hitting aggregation. And on the other, a team that is an "in and out" club, here today and away tomorrow. And being like this, comparative scores mean nothing. If they did, the Bulldogs would crush the Steers under a tally that would be so topheavy the Longhorns never would emerge from it.

So it is merely bringing together two clubs—one strong, one weak, with the weak one hoping the strong one won't be quite so strong Saturday afternoon, and the strong one not especially caring either way.

However, there is one element in football that can't be stopped. And that is fight. And therein lies the only hopes for the Steers this week end. Because Delbert Rogers is playing his last game in the Class A loop as a Big Spring Steer, because certain other players are doing the same thing, because they have been kicked and spanked by every team in the district excepting three, because they are due to stage one fighting from from start to finish—because of all these elements, the Steers may earn a "moral" victory over the Ranger Bulldogs if nothing else.

A look at the scoring records of the two teams is enough to satisfy the average dopest. Big Spring has scored only 46 points all year, while opponents were making 150. Ranger has scored 234, with opponents 28. Big Spring is the only team in the loop to score less than 50 points this year.

There is the Ranger offense and the Big Spring. The Ranger defense and the Big Spring. An uphill fight, inspired and not to be stopped, must be carried into the grand finale Saturday by the Steers. Must be or else.

CLOSE CONSULATES

SAN ANTONIO, Texas, Nov. 18 (AP)—Enrique Santibanez, consul general of Mexico in San Antonio, announced yesterday that consulates at Rio Grande City and Hidalgo would be closed, the one at Beaumont would be placed under an honorary consul, and a new one would be opened at McAllen. The changes, he said, would be effective not later than Dec. 31, in accordance with a decree of the ministry of foreign relations in Mexico.

Chuckaluck Bird Poses For Kodak

This, gentle customer, is none other than Chuckaluck Bird, the big beef and brawn man of the Ranger Bulldogs.

It will be seen by gazing intently at his facial assets, or liabilities, as the case may be, that Chuckaluck Bird, the giant fullback of the Ranger high school football team, is quite a behemoth, at the present rating of behemoths. A behemoth, defined correctly, is two degrees bigger than a dinosaur, four pounds heavier than a mastodon, and two inches wider than an elephant in the elephant's widest portion.

The gridiron history of this fellow of the pigskin is interesting, colorful, and whatnot. He got his start early in life in a little village named Mineral Wells. Before long he became too wide for ordinary clothes, and began dressing in circus tents and such. He made his debut as a Mountaineer, and was a mighty, mighty good man when the Mountaineers were in Class B. When they emerged into the Class A circle, Bird was a mighty, mighty, mighty good man. He was a mighty good man. But he wouldn't train. When it came time to choose between a rocking chair and a practice field, Bird invariably selected the chair. In 1929 he not only was the second string all-district fullback, but captured the all-state rocking chair sitting title in a canter. Came time for the Ranger-Mineral Wells game. Ranger sportsmen say Bird in action. Oh, he is a demon. And seeing him, they wanted him, and wanting him they got him. One day the news broke! Chuckaluck Bird, the man upon whose shoulders the hopes of the 1930 Resorters were pinned, had been enticed to Ranger. Violating all trade territory rules, jumping out of the Class B schools, the Ranger supporters invaded the town of a sister team and removed Bird.

This is the young lad that the Big Spring Steers will go up against Saturday afternoon along about 2:30 p. m. central standard time. This is the fellow, right next to this, that has earned quite a reputation as a defensive plug. This is the man who, when he started training, bulged out like the fellow that swallowed the gas stove by error.

Today he stands in the pink of condition. Rugged, hefty, beefy. They say the boy rolls up a mean fire hose at the Ranger Fire Station.

MR. BIRD, HIMSELF
He used to live at Mineral Wells.

tion, his abode and hearthside. This is just one of a series of young men of this caliber and size who will greet the Bovines when they trek across the Empire State to the City of Flowing Gold. They say they have them a large down there. Bird, of course, should feel at home with the Steers. Last year when he was the pride of the Water City, he hopped and floundered around in Big Spring, a choicest mudhole, getting intimately acquainted with some of the boys that now play on the Steer team. They say he didn't go anywhere here. But they just say it. History shows that whenever Bird runs into a steel structure, the building loses, not Bird.

In this rare photograph of the twin Ranger fullback, Bird is shown at his best. He is giving someone the merry guffaw, if the expression is to be pardoned. In fact he is laughing out loud. It is said this picture was made right after he had been hit by two tackles, one end and a backfield. Regardless, this is the youngster that will be on hand for the "battling" Bovines to stop, somehow, somehow, next Saturday eve at Lillard Field.

This is the first and last of a series of discussions about Ranger football players.

COCHRAN LEADS

NEW YORK, Nov. 18 (AP)—Walker Cochran's spectacular play in the first two blocks of his 3600 point match with Willie Hoppe, for the world's 1st ranking billiards title, found the Hollywood star leading his veteran rival by nearly 350 points.

Cochran won both afternoon and evening blocks yesterday. In the first block a high run of 118 enabled him to win, 300 to 213, while last night his margin was 300 to 42, giving him an advantage of 600 to 255 with ten more blocks to go. Cochran put together a string of 127 in the second block for the best cluster of the match. Hoppe's only really big string was a cluster of 80 in the ninth inning of the first block.

The annual publicity campaign for an all district berth for Scrap Iron Grimes The Great, has been started by Blundy Cross, the San Angelo sports chronicler. In the Monday evening edition of the Standard, two columns and a fraction over are devoted to Grimes' prowess as a tackle. There is no other tackle in the oilbelt. There is no need for another one. Scrap Iron Grimes is tackle enough for each of the ten teams in the loop. It was the opinion of this writer in 1929 that Grimes was the greatest tackle in the district. If not in the state and it was still our opinion that at that time he was not the "overrated athlete" that some of the boys claimed he was. Our opinion still holding sway, we think that the 1930 Grimes isn't of all district caliber, much less all-state. There are several other tackles in the loop that have borge the spotlight more handsomely. His 1929 reputation may carry him over this year, but we doubt it. Doubt it.

Ranger isn't hot and bothered about Big Spring. We can't understand that. We thought surely Ranger, of all teams, would be working strenuously for the bout with the Bovines. But Ranger is just taking it as a passing fancy, accepting it as a game, maybe, and letting it go at that. We have just had the misfortune to view a group picture of the Bulldogs. Such weights! Such heights! Such poundage! The maroon arrayed aggressiveness is a beautiful collection of shoulders and bulging arms and big feet. And a bunch of fighters.

This department is fully convinced it pays to insert advertisements. Only yesterday we advertised for a tank of gasoline and an automobile to put it in, in order to furnish ourselves transportation to Midland for the Midland-Stanton conflict. J. C. Moore, the Richardson Refinery football official, generously donated both, and all that is left is to talk him into buying one pack of cigarettes and lending us his overcoat, in case it is cold.

Bud Sweeney came up from the Pacific Coast and got back to the Oilbelt in time to referee the Sweetwater-Cisco game. He was worried stiff over the eligibility of Watson, Sweetwater tackle, to receive a pass. It was the same formation that whipped the Steers. Watson to end, to the sidelines and across with the ball in his mitts. Incidentally, the Sweetwater passing attack clicked fairly well against Cisco.

They even say Colorado is expecting to beat Big Spring Thanksgiving Day.

OIL OPERATORS HUNDREDS SEE BODY OF KEMP

FORT WORTH, Nov. 18 (AP)—Two statewide meetings of oil operators have been called in Austin to consider proration measures to be presented to the Texas Railroad Commission this week, according to David Donaghy, technical adviser to the statewide proration committee.

The first will be a meeting of the statewide executive committee on Friday morning. The second will be a meeting open to producers from all districts of Texas to be held Friday afternoon. Saturday morning the railroad commission opens its hearing on the extension of the statewide proration order for another term. Nominations by pipe line companies have indicated that all Texas areas will have a smaller outlet for the new term than provided for in the present order.

with each for \$150.

The case came to the attention of L. H. Welch, district attorney here, who telegrams began reaching the Breckenridge chamber of commerce asking if the company were responsible. Investigation revealed that about 200 money orders had been received in the post office for the man, Welch said the man, after being questioned, refused to claim the money orders and they still are being held by the postmaster.

The man said he had made application to the secretary of state for a charter. He said he was organizing a company and had made arrangements with a produce house to handle his turkeys and that only his arrest had prevented him carrying out all his promises.

Had a Pain in Back and Sides

Lady Says She Took Cardui On Her Mother's Advice and It Helped Her.

New Orleans, La.—"About five years ago I was in bad health," writes Mrs. A. C. Lightel, of 2225 Marais Street, this city.

"I suffered with a pain in my back and sides, and I knew that I needed something to stop the pain and build me up.

"My mother had used Cardui for fourteen years and she thought it would do me good, and advised me to take it. I took about three bottles at this time, and it did help me. I did not have any more headaches or pain.

"Later, when I felt I needed something to build me up, I knew how good Cardui was so went back to it again. I took several bottles. I was all right and did not have any more trouble.

"I am glad to recommend Cardui to other young women for it is a splendid tonic."

This medicine contains nothing harmful or injurious and may be safely taken by women of all ages. Get a bottle from your druggist today. Sold everywhere.

Improvements like these pay cash dividends....

● The illustration shows a typical case of an old house converted into a modern home. The old porch has given way to a charming, enclosed sun-room which provides the family with all-year comfort. A concrete driveway replaces the old dirt path. The windows have been redesigned to give more light and air. A garage has been added. And over the old framework an attractive stucco finish has been applied.

● Many old homes need even less to convert them into profit-producing properties. Ask your building material dealer, architect or contractor to help you with suggestions for remodeling. This is a good year to make improvements economically.

Champlin Again Posts New Rate On Crude Price

ENID, Okla., Nov. 18 (AP)—Because it said the price of crude oil is too high compared with that of refined products, the Champlin Refining Company here has posted another reduction of from 10 to 20 cents a barrel.

A cut of 20 cents from the former \$1.07 price was made on oil of 40 degrees gravity and above. The company reduced the price for 30 gravity from \$1.04 to 85 cents; 28 gravity from \$1.01 to 83 cents; 27 gravity from 98 to 81 cents; 26 gravity from 95 cents to 79; 25 gravity from 92 to 77 cents; 24 gravity from 89 to 75; 23 gravity from 85 to 73 and 22 to 32.9 gravity from 80 to 71 cents.

CRUDE DECREASES

TULSA, Okla., Nov. 18 (AP)—Another decrease was registered in the country's crude oil production last week, the daily average output, as estimated by the Oil and Gas Journal, being 2,303,921 barrels or 9,957 under the figure for the week ended November 8.

While most areas showed declines or small gains, Oklahoma production increased sharply, rising 16,835 to reach 505,915 barrels. At that level, however, it still was well below the 545,000 barrel limit set by the state corporation commission.

The Texas Panhandle had the largest loss, its output being 72,000 barrels or 9,290 less than the preceding week. West Texas production was 276,048 barrels, a decrease of 4,243; North Central Texas

showed a decline of 2,398 barrels at 105,922. Heavy oil production in Southwest Texas was down 3,392 at 97,844 barrels.

Kansas production fell off 5,750 barrels to reach 111,510. Eastern production remained unchanged at 113,000 while the Rocky Mountain area showed a gain of 246 barrels at 101,657. California light oil production was 215,300 barrels, an increase of 1,500, and that state's heavy oil output was unchanged at 84,000 barrels.

Of the country's 9,957 barrel decrease, 4,56 was in light gravity oil.

Crack Attack Group Pilot Crash Victim

GALVESTON, Texas, Nov. 18 (AP)—Lieutenant Al N. Booth, crack pilot of the Third Attack group and participant in the Mason-Park trophy race at Cleveland, Ohio, was injured fatally yesterday when his plane fell into the bay. Private Ed Lewis suffered shock.

While rounding a pylon in practice for the same race here Saturday at an altitude of about 20 feet, the plane suddenly plunged into shallow water. Its speed was about 110 miles an hour.

Another Army plane making the turn at the same time quickly landed and its occupants brought the lieutenant and his comrade to the shore. Lieutenant Booth died about 30 minutes later.

Lieutenant Booth, a native of Abbeville, La., was married and the father of a baby born a few days ago.

Earth's Collision With Celestial Fireflies Is Recorded by Astronomers

CHICAGO, Nov. 18 (AP)—The earth's collision with a swarm of celestial fireflies streaked early morning skies today with a brilliant display.

Astronomers said the earth had entered the path of the Leonids, a large group of meteors, and waxed happy over the splendor which they said augured well for November, 1933, when they expect another meteoric display rivaling that of 1833.

The Leonids appear every 33 years. Astronomers found atmospheric conditions last night ideal for observing them and Dr. C. C. Crump, secretary of Yerkes Observatory, Williams Bay, Wis., said that much of the night was spent photographing and counting the fiery particles which result when the meteors hit the earth's protective atmosphere and burn themselves up in the friction producing a harmless glow. They counted 170 meteors each hour, Dr. Crump said.

Medina County Solon Victim Of Deer Hunt

SAN ANTONIO, Texas, Nov. 18 (AP)—Mistaken for a deer, Adolph H. Tondie of Castroville, Medina county commissioner from the Castroville precinct, was shot and fatally wounded by a fellow hunter on a ranch north of Hondo yesterday. He died en route to a San Antonio hospital, and his body was taken to his home at Castroville.

Union Club Refuses To Exhibit Painting

NEW YORK, Nov. 18 (AP)—The New York World said today that the Union League Club had refused to exhibit Antonio Salemme's life-size nude of Paul Robeson, negro singer, after advertising it as the chief attraction of its art exhibition.

The figure, which depicts Robeson with hands and arms uplifted in invocation, was shown in San Francisco for a year, was rejected in Philadelphia and finally was taken in by the Brooklyn Museum. The Union League Club borrowed it for display Sunday and yesterday.

Salemme, the World said, was of the opinion that the club had used his work to exploit its exhibition and then withheld it from view because of the membership's objections to nudity and the racial element.

Dr. George P. Kuntz, chairman of the club's committee on art, was quoted as saying that the exhibition emphasized ecclesiastical and and Icelandic examples and that the Robeson figure would have been inappropriate in that setting.

Payments To Friends Of Artist Withheld

CHICAGO, Nov. 18 (AP)—There may be after all a ray of hope for the 83 friends, relatives and lodge brothers of the late Louis A. Thiel, artist, who journeyed to his grave yesterday, expecting but not receiving remuneration for mourning his passing.

They got from \$5 to \$20 as they stood by his grave last June 17, in accordance with provisions of his will. Yesterday no checks were handed out, due, it was explained, to depreciation in the value of bonds used as a trust fund for the payments.

A. T. Rorer, the paymaster, however, took the names of the mourners and promised to pay out the remainder of the \$2,500 fund, but at reduced figures in line with the present value of the securities.

Another explanation of the failure to pay yesterday was that Milton E. Brown, attorney for the artist's estate, had written to the trustees objecting to what he charged was a "misapplication of the fund" at the June 17 mourning.

The trustees, however, refused to discuss either the failure to make the payments or the attorney's objections.

Levine Denies Charge Against Him at Vienna

VIENNA, Nov. 18 (AP)—Charles A. Levine, being held here on suspicion of intention of forgery, vigorously defended himself before the Vienna police court today.

The police president had said that Levine had given orders to a Vienna engraver for metal discs and matrices to enable him to counterfeit French franc pieces as issued by the French chamber of commerce.

Levine protested that he was badly misunderstood by the engravers, that what he really wanted were dies from which he could cast medals for distinguished citizens.

The engraver maintained that he understood Levine very well, and that his meaning was unmistakable. Levine also asserted that he only wanted the dies for his and his wife's portraits.

Meanwhile the Austrian police have wired the French police to send a commission to Vienna to study the evidence and to investigate further.

Nightwatchman Directs Traffic, Is Arrested

CHICAGO, Nov. 18 (AP)—Five hundred persons, it was estimated, watched Al Johnson directing traffic in much the same manner, police said, as a kitten untangles yarn, which required some sort of explanation as Johnson is but a traffic officer.

Johnson was given his opportunity to explain yesterday when he rained in a police court.

"A night watchman," he said, "leads a lonesome life. I guess I must have wanted a little company."

"All right," said Judge Alfred C. Erickson, as he accepted the statement of the arresting policeman that Johnson was not really a bad fellow, "see how fast you can clear a line out of the court room."

BUSINESS OPPORTUNITY

A real opportunity for a man or group of men to invest any amount they see fit in a proposition that has already made shipments of minerals. This proposition will stand thorough investigation. It is now managed by a reliable corporation chartered under the laws of New Mexico. The president of this corporation will be at the Douglass Hotel after 5 each day until Sunday. Let him explain it to you. Call for—
