CROSS PLAINS, CALLAHAN COUNTY, TEXAS, THURSDAY, APRIL 21, 1960

NUMBER THREE

This is the seventh of a series of aerial photographs published in The Review of farm homes in the Cross Plains area. Several people have reported to the publishers that they were able to recognize all of the places thus far without reading the identification lines. Look back at this photograph and see if you recognize the place.

The house and premises pictured here have been viewed by most readers of this newspaper, however, things appear different when pictured from the air and this photo, like several of the previous ones, may require some thought.

The home shown is that of

Mrs. R. C. Brown and her son, Dickie. It is located just over the Eastland County line on the old road from Cross Plains to Pioneer.

Original prints of all places pictured in The Review are available for the owners or occupants if they will call by the newspaper office and pick them up.

100 Boys To Participate Here In Model Little League Set-Up

Probably no Texas city the size of Cross Plains will enter the approaching baseball season with a better organized Little League program than will be offered to approximately 100 boys here.

With physical properties valued in excess of \$10,000, a sodded diamond, lighted to league specifications, uniforms for every participant, seating facilities for spectators, modern rest-rooms and concession facilities, the Cross Plains plant organization structure is regarded as a model set-up.

The recreational program this summer will include scheduled play for boys of Peanut League age, Little League and Pony League age groups, covering the span from 6- through 15-year-olds.

The Peanut and Pony Leaguers will start slightly later than will Little Leaguers, who will hold exhibition practice Friday afternoon. Managers will meet that night and bid for replacement players for the four local Little League teams. Managers this year will be: Buffs, D. C. Jones and Doug Dallas;

Cats, Gene Rhodes and Lloyd Boyle; Pillrollers, Bob Latson and an assistant yet to be named; Truckers, Clay Kinnard and an assistant yet to be selected. Sponsors of the clubs are: the Quarterback Club, Higginbotham's and the Citizens State Bank, City Pharmacy, and Dan Johnston Truck & Supply.

Managers and sponsors for Peanut and Pony leaguers will be announced within a week or two, The Review was told.

Registrations thus far for the Little League program include:

Coleman Man Buys Howell's Grocery

Cary Roberts of Coleman, veteran groceryman, has purchased the Howell Supermarket on South Main Street and is currently remodeling and restocking, prior to opening the business again soon.

Mr. Roberts told The Review that he would move his wife and three children—a girl 12 and sons 4 and 14—to Cross Plains as soon as the present school term ends in Coleman.

Roland G. Howell, former owner and operator of the store, disposed of the business to devote full time to the Cross Plains High School Band and teaching duties in the local school system, to which position he has been re-elected for next year.

They changed planes at Albuquerque and flew to Las Vegas, Nev., where they are to headquarter for an all-expense paid vacation in Nevada.

The Johnstons will arrive back in Cross Plains Monday.

The Nevada vacation was awarded Johnston for having out-sold all other International truck dealers in his district.

Bonham Funeral For Local Man's Father

Clarence Eugene Bayless, Sr., 82, father of L. D. Bayless of Cross Plains, died Monday morning at 2:30 in the Cox Memorial Hospital at Abilene, following an illness of several weeks.

The body was taken overland to Bonham in a Higginbotham Funeral Home hearse Monday, and funeral service was held from the Wise Funeral Home there Tuesday afternoon at 3:30. Burial was in a Bonham cemetery.

Mr. Bayless was born Jan. 1, 1878, at Bonham. He married Miss Naomi Hendrix in that city in 1898, and the couple celebrated their golden wedding anniversary in 1948. She preceded him in death, however, and it was beside her grave that he was laid to rest Tuesday.

In regular meeting Tuesday night Cross Plains City Council decided to retire \$4,000 worth of existing bonded indebtedness on the municipality. When this payment is made the total bonded debt of the city will be \$50,000, Mayor Ted Souder informed The Review yesterday.

L. A. Warren of Abilene was a business visitor here Tuesday.

Striping Of Main Street Scheduled

Parking in the middle of Main Street, which has been illegal for several years, will be more rigidly prohibited in the future, The Review was told Tuesday afternoon.

Mayor Theodore Souder conferred with representatives of the State Highway Department this week and arranged to have the street striped down the middle. The stripe is intended to call attention to the no parking regulation and also to channel north-bound traffic on one side and south-bound on the other. Crossing the stripe will henceforth be illegal.

There have been no changes made in Main Street parking and none are foreseen, Souder said.

Paul Brashear Outlines His Views

(Continued from page one)

Helen Ray of the Scranton Community. They have two daughters — Ann Etta, who is married and lives in Abilene, and Sarah, who attends the Cisco Schools. Mr. and Mrs. Brashear have one granddaughter and one grandson.

Representative Brashear, in private life an insurance man and farmer, has an extensive knowledge of farm and soil conservation activities. Currently owner of a farm in Callahan County, he began farming as a boy and has owned and operated farms in Eastland and Callahan Counties all of his life. In addition, Mr. Brashear served for several years with the U. S. Department of Agriculture soil conservation service units in Eastland and adjoining counties.

Mr. Brashear is a veteran of U. S. Army duty in World War II and is an active member of the American Legion. He has served as chairman of the American Legion's Legislative Committee, a statewide body.

As an assistant Sergeant-at-Arms of the Texas Senate and as secretary in the House of Representatives prior to his election as a State representative, Mr. Brashear gained valuable experience in legislative procedure. He also was manager of the Cisco Chamber of Commerce for three years, a post he resigned in order to devote more time to his legislative duties and to enter the insurance business.

Mr. Brashear's education includes graduation from high school at Cross Plains, attended Cisco Junior College and a business college in Austin. He is a Mason, a Legionnaire and a Baptist.

In reviewing some of the major programs of State government, Mr. Brashear said: "I have supported measures for better state employee salaries, realistic benefits for the aged, improved water programs, better education and teacher pay, equitable treatment for veterans and farm groups and other legislation beneficial to my district and in the best interest of the state as a whole. I always have and always will work to provide for the people of Texas an honest and efficient system of state government."

"During my service in the State Legislature I have been aware of the needs of our system of public free education and am deeply interested in seeing that system strengthened in every possible way. An education program of the finest quality is essential to this State and to the nation and I will not refuse to accept my responsibility as a member of the Legislature in financing any reasonable program dedicated to this end."

"Any intelligent discussion of a large spending program, no matter how strong I personally might feel concerning its merit, necessarily must involve consideration of the source of money to pay for the program. I propose to do everything possible to assure our State's continued progress and prosperity without additional tax burdens, but I assure you I will not shirk my responsibility in seeking a solution to the financial aspects of our State."

"As an insurance man specializing in casualty insurance, I am well aware of the impact upon the insurance-buying public of the merit rating plan recently adopted by the Texas Insurance Commission. As a legislator, I want to assure you that this plan was not conceived nor enacted by the Legislature of Texas. Article 5.01 of the Texas Insurance Code provides that the Board of Insurance Commissioners shall have the sole and exclusive power and authority, and it shall be its duty, to fix premium rates and to promulgate rating plans designed to encourage the prevention of accidents. If the plan conceived by the Board of Insurance Commissioners is unfair to the people of my district and to the people of Texas, I feel that the Legislature of Texas should devote maximum effort toward seeking a solution to the problem."

"As in the past, each vote that I am called upon to cast for the people of my district shall be made only after due consideration of the welfare of my constituents. I shall continue to measure legislation by sound business principles in order to effect financially stable government for our people."

"My record of service as your representative for three terms appears in the journals of the Legislature. I have always done my best to represent the people

of the 76th District to the fullest extent of my ability and feel that the experience I have gained will enable me to continue working in the best interest of my district. Any constituent has a most cordial invitation to discuss any part of my legislative record with me at any time.

"I will be very grateful to each of you for your consideration in the May 7th election, and I sincerely appreciate the confidence placed in me by your votes in the past three elections."

Mr. and Mrs. David Dallas and little daughter of Dallas spent the week end with his parents and brother, Mr. and Mrs. J. D. Dallas and Doug in Cross Plains.

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

Practically flat floor... real foot room for the man in the middle. **Fold-down rear seat** gives 17.6 cu. ft. of extra storage space. **Four-wheel independent suspension** for a smoother, flatter ride. **Rear-engine traction**... that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobil-

gas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

8 Buffs Journey To Denton Track Meet

Eight Buffalo cindersmen will leave early Saturday for Denton to participate in the regional track and field meet to be held in that city.

The eight Buffs to compete in six events are: John Baird, Paul Whitton, Jr., Alvin Hutchins, Grady Scott, L. V. Falkner, Dwayne Clark, James Harris and J. L. Cearley.

Six of the regional bound lads participated in an eight-way track meet at Baird last Thursday. Cross Plains settled for fifth place with 44 points. Baird captured first place with 99 points followed by Rising Star with 87. Albany was third with 78. Lueders had 53. Cross Plains with 44. Clyde had 28. Merkel 26 and Putnam six. The meet was limited to tracksters who had qualified for the regional meets.

Cross Plains' mile relay team of Whitton, Clark, Harris and Hutchins, turned in their best time of the season, a 3:38.6, but had to settle for second place behind Baird. The Bears raced the quarters in a fine 3:35.5.

Whitton captured another second place in the 440 with a 50.1 time, and Hutchins was third in the same event. Scott took third place in the low hurdles, and John Baird was fourth in the 880-yard race.

The lightly-clads will be trying to qualify for a berth in the State Meet at the regional fracas Saturday.

Mrs. Lee Roy Brigner has entered Medical Arts Hospital at Lamesa where she will undergo surgery.

PHILOSOPHER READS NEWSPAPERS AND LEARNS FACTS DURING WORK HOURS

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou takes a look at the international situation this week, probably from a highly provincial viewpoint.

Dear editor:

I couldn't be expected to know anything reliable about international affairs, -half the time I don't even know what my neighbors out here are doing, but I have come to the conclusion that the biggest or wealthiest nations are not necessarily the brainiest ones.

For example, I read in a newspaper yesterday morning—some people think a farmer shouldn't read a newspaper in the day time, only at night when it's too dark to work or maybe during the noon hour, but what people think never has bothered me, I don't even let what I think bother me—that some of the smaller nations, judged to be hard up by the United States, have been borrowing money from us at 3 per cent interest, then investing some of that money in U. S. government bonds paying 4½ per cent, making a net profit of 1½ per cent on our own money.

These small countries may not have any satellites circling the globe, but you'll have to admit they ain't so dumb.

Or take England. England's not nearly as big as it used to be since sailing ships no longer are a measure of a country's power, she doesn't have any satellites up and as far as I know doesn't have any plans to, but I noticed in the same newspaper I was reading yesterday morning that England still has some brains left.

For example, she has given up plans to build her own rockets. The Defense Minister over there announced England was abandoning her two-billion-dollar rocket program, because it was too expensive and besides she had made a deal to buy the things from the United States. Under the new arrangement, England will buy the rockets from us, after we iron out all the kinks, then attach a nuclear warhead in the ends and be set up in defense business, at about a tenth of the regular cost. I don't know where Eng-

land will get the money to buy these rockets, but some Englishman will think of something. By George, he'll say, I've got it, how about a loan from Washington to buy U. S. rockets with?

Meanwhile, England is sending Princess Margaret to her wedding in a buggy built in 1886.

In these days of inflation and high living expenses, a nation, like a man, has got to tighten down and think ahead, cut corners where he can.

Yours faithfully,
J. A.
