SMART DOGS—
A few weeks ago, Old Hunnert bragged he had the smartest dog in Mills County because it wouldn't get in the car when the 7th was at the wheel, but didn't include Hamilton County. Pin Feathers in the Hamilton Herald-News authors the following:

Speaking of dogs, and I was last week, Jack Moore says Sam Harelik has the prize pup hereabouts. Jack doesn't think the dog does his stuff on his own responsibility, but believes Sam taught him. It seems that Sam's favorite newspaper is the Star-Telegram but he is not a subscriber. His dog goes out and gets a copy off a neighbor's lawn or porch. Not necessarily the same neighbor every time, but always the same paper. He never gets anything but the Star-Telegram although there are copies of other papers, especially the Dallas News, delivered in that neighborhood. Maybe the dog is influenced by Sam's preference, or, again, maybe he knows of the rivalry between Dallas and Ft. Worth and doesn't want to get mixed up in it. Anyway, he's a smart pooch, even if Sam did teach him.

Maybe you remember the young lady, who, when told she looked like Helen Brown, said, "I look even worse in gray."

WEATHER REPORT—
Everybody likes to gripe about the weather, it seems, no matter what kind it is. Take Monday. Old Hunnert figured most people had all the rain they wanted so he pulled out the R buttin on his famous Weather Distributor and punched in the O (for clear) and S buttons for sunshine. How did he know that C stood for colder, and look what the S buttin got—sleet, snow, sime, sloop and slumgullion, not to mention slippy, slippy, and something. Everybody's blaming O. H. for it, but he don't yet figger how he accidentally punched that I over S buttin. Enyway, all this weather adds up to M (moisture), and only three did any P (palm crossin') at all and only for a dime each. Also, O. H. has just found out some meany boys has been changing them rusty wires around on his machine—and when the 7th gives him back his specks, O. H.'ll fix them quick. Also, just as long as something else is falling besides rain, a thermometer, people should gripe so much.

Old Hunnert heard over the radio that one coffee company was advertising their coffee as being good to the last drop—so he wonders what is wrong with that last drop. Another company says their suds'll make clothes whiter than new and wash machine in your wash. Maybe we should buy a box or so and have an airplane take it up and scatter around the clouds to see if it'll bring sunshine back around here again.

And when O. H. asked a friend how come his hair was firey red, Ewes (An) and his brother's hair was black. Ewes said, "Well, you see, I was 12nd; Y. B. after my mother had her hair dyed."

Here's what a mother here told Old O. H. last week: "Why can't some mothers see their children's faults? They have so many; I'm sure that I could see my child's faults, if he had any."

Picture Post Cards For Sale

Before the building of the First Baptist Church was destroyed by fire a colored picture was taken to be used for post cards and to be sold locally. The cards have now arrived and it has been decided that the proceeds from the sale of these cards will be applied to the new building fund.

Leonard Archer, Fields Hines and L. F. Bain are in charge of the distribution of the cards. The method of procedure is as follows: An individual may take as many cards as desired and sign a slip stating that he has taken that number. If he is unable to sell all the cards in his possession then they may be returned with the money collected on those sold. Many friends and relatives living away from Goldthwaite might desire to have a picture of the old building, therefore this method of distribution has been set up.

If an individual would desire only one card for himself then the above named men will have the cards available.

The price of the cards is one dollar per card. It is merely a donation to the new First Baptist Church building and a colored picture is given in exchange.

THE CHURCH . . . SPEAKING

Once, mystically, I stood
The pride of all the neighborhood.
Once, footsteps came from far and near
In memory of all they held dear.
Once, children played at my door
Their laughter echoed o'er and o'er.

Then, in the stillness of the night,
Destruction came with all its might.
Now silence reigns. My charred walls rust.
My body, confined to the dust.

Yes! Again my body shall rise
Heavenward through the deep blue skies.
Here all may join, their praises sing
Glory to The Lord and King.

PASTOR'S PARAGRAPH
"The longer I live the more I am convinced that the most precious gift we can give our children is the knowledge and acceptance of God, a true Christian philosophy of life—as a real source of strength with which to meet the tragedies and disappointments that will surely come. If we give our children all else and neglect to nurture their spiritual resources, then I say we have failed them miserably. And that is exactly what too many American parents are doing today. That is the greatest danger to the youth of our nation. The solution lies in religious influence in the home and a return to church membership and participation."—Governor L. W. Polio Epidemics In 1948 Drained Chapter Resources In 42 States

The great importance of a successful 1949 March of Dimes campaign was stressed this week by W. C. Barnett, Mills County Campaign Funds drive chairman, who pointed out that epidemics during 1948 had made serious inroads on the funds of local chapters as well as on the emergency fund of national headquarters.

"We all know that infantile paralysis is one of the most expensive diseases to fight both in its acute stage and in after-care," Mr. Barnett declared. "Last year, chapter chairmen in 40 counties in 42 states learned this the hard way. Their own funds were exhausted and their appeals to national headquarters drained the emergency fund completely. We must give—and give cheerfully—during the 1949 March of Dimes campaign to fortify our own funds against possible epidemics here during the polio season next summer and to build up the national emergency fund."

"To safeguard our community and the nation against the ravages of infantile paralysis, I strongly urge all to contribute at least 50% more during the 1949 March of Dimes campaign, January 14-31."

Chairman Barnett explained some of the reasons for the high cost of fighting polio. Taking North Carolina as an example, he told how all local chapters of that state had pooled their funds when epidemics broke out in scattered communities.

"Even so, this state pool was insufficient and requests for emergency fund aid were sent to the National Foundation for Infantile Paralysis. That aid came immediately in cash and serv-

ices." Mr. Barnett enumerated some of the aid to North Carolina. The National Foundation recruited 508 nurses and 54 physical therapists—many of the latter trained through Foundation scholarships. Four epidemiologists were sent into the state to explore the cause of the epidemics and 17 resident physicians were provided. An epidemic aid team was recruited from the University of Pittsburgh.

"The National Foundation paid salaries and transportation for these polio fighters," he declared. "Further, the Foundation furnished great quantities of equipment, and material aid comes high today."

Included in this material aid were 6 respirators, 80 hot pack machines, 2,448 lbs. of hot pack material, 475 bedside tables, 14 refrigerators, 141 tables, 390 chairs, and 46 beds and cribs. Also included were large numbers of sterilizers, chart desks, suction machines, oxygen equipment, electric fans, blankets and many other goods. Finally, the National Foundation established two hydrotherapy and physical therapy units and furnished 64 rooms for nurses.

"Exclusive of the funds which local chapters in North Carolina pooled, this service of the National Foundation cost more than \$1,000,000 by the end of the year," Mr. Barnett said. "Remember, this is just the story of one state. Forty-one other states received aid from the emergency fund of national headquarters. North Carolina counted 2,407 victims of infantile paralysis, California had 4,150 and Texas victims numbered 1,611—all up to October 30."

Two People Burned To Death In Butane Truck Fire Here Tuesday

Sue Ann Teague, 3-year-old daughter of Mr. and Mrs. Millard Teague of Brady, perished in the blazing cab of a butane gas transport truck one mile south of Goldthwaite Tuesday afternoon about 5:45. Her mother, Mrs. Millard Teague, 22, was dragged from the cab by her husband, but had been burned so badly she died in a Brownwood hospital Wednesday morning at 5:45, after receiving emergency treatment at Smith-Childress Clinic here and being rushed to Brown-

wood in a Fairman-Wilkins ambulance. Mr. Teague was released from the hospital Wednesday at noon, having received only painful burns around the head and chest and on his hands.

Millard Teague, driver for Jack Gartman Butane Co. of Brady, pulled into the Campbell Butane Co. tanks here about 5 o'clock Tuesday afternoon and was unloading the transport truck gas into the two tanks in the sleet and freezing rain. He See Fire, Continued, Back Page

A REMINDER TO THE EX-SERVICE MEN OF MILLS COUNTY

Having joined the American Legion at the first meeting that I ever attended and the first meeting that was held at Snyder, Texas, in 1919, where I was teaching school at the time, I have had a membership in the Harry F. Edmondson Post of Mills County ever time the Post has been active. Being a Charter member of this post, I believe, enables me to have a working knowledge of the Legion activities. I would be afraid to be without a membership in the American Legion, this year or

any other year, and I feel that a poll tax receipt and a membership receipt in the American Legion are two things that I would not feel right not to have. I refer to this matter of membership personally in order to impress service men of the necessity of a good membership in order to carry out legislation for the benefit of G.I.s and all concerned. There is a possibility that there will be an attempt to better our conditions, in numerous ways both in the State Legislature and the National Con-

HILLSIDE MISSION

By LIDA BYRNE

gress this year, and with a strong service men's organization is the best support that we can have to carry out proposed legislation in our favor.

I am assured the active support of the local doctors in matters of Hospitalization, which in the past has been a great help to our members, and should be better in the future.

One matter that has come to my attention is the recording of discharges. I find that quite a few of the Soldiers and Sailors and probably Marines have not recorded their discharges in the County Clerk's office. This by all means for the safety of each individual service man should be done; these discharges should be filed with the County Clerk, who will record them at his earliest possible convenience—WITHOUT ANY COST TO THE SERVICE MAN.

A membership in the American Legion with the three papers that go with membership, will keep the American service man informed as to the benefits that he is entitled to. It will be remembered that Goldthwaite had one National Commander of the American Legion.

MGM TECHNICOLOR HIT

It's a hilarity high when Wallace Beery does a hip-breaking rumba with the Latin bombshell, Carmen Miranda, in "A Date With Judy," showing Saturday night Prevue, Sunday and Monday at the Melba Theatre.

And that's only one of the many uproarious moments in this delicious Joe Pasternak Technicolor musical, which boasts a bevy of M-G-M top-notchers, among them, thrush-throated Jane Powell, fetching Elizabeth Taylor, Robert Stack, Scotty Beckett and Xavier Cugat and his orchestra, in a romping, song-studded tale of a lucky family and their happy-go-lucky adventures.

Beery, in one of his rare excursions into musicals, plays the benign head of a brood which includes wife Selena Royle, daughter Jane Powell and brat son Jerry Hunter. Scotty Beckett thinks he has romantic claims on Jane; Jane falls in love with handsome Robert Stack; and rival Elizabeth Taylor tries to upset this applecart. To add to her misery, Jane discovers that her father is keeping mysterious trysts with Senatorita Miranda, unaware that their meetings are for the sole purpose of teaching Beery to master the intricacies of the rumba.

But the complications are cheerfully unraveled before the family goes completely to pieces.

LIGHT COMEDY AND HIT
SONGS IN MUSICAL FILM

Youth, love and laughter, spiced by gay, tuneful music are the attractive ingredients of Paramount's comedy, "Isn't It Romantic," which co-stars Veronica Lake, Mona Freeman (the letter-writing kid sister of "Dear Ruth"), Billy De Wolfe and Mary Hatcher (the spice of life "Variety Girl").

Due to arrive next Saturday Matinee and night at the Melba Theatre, "Isn't It Romantic" promises to be the kind of film

entertainment that should find favor with fans of all ages. The story, set in a small Indiana town, centers on the activities of a family composed of three lovely sisters—portrayed by Misses Lake, Freeman and Hatcher—and their colorful but difficult father, played by Roland Culver.

POSITIONS OPEN

The Merit System Council, which serves as a "clearing house" for positions in the State Department of Public Welfare and the Texas Employment Commission, will hold open competitive examinations on February 26, 1949, for a number of positions now open in those agencies, according to Chas. S. Gardiner, Director of the Merit System Council.

There is a continuing need for workers in the State Department of Public Welfare and the Texas Employment Commission. The immediate need for professional workers consists of Field Worker, with the Public Assistance Program; Child Welfare Worker and Senior Child Welfare Worker, with the Child Welfare Program.

Clerical and stenographic needs consist of Clerk-Typist, Senior Clerk, Key Punch Operator, and Junior Stenographer in the State Department of Public Welfare; Stenographer II, and Apprentice Clerk with the Texas Employment Commission. The Commission is making very few appointments at this time, but feels that registers should be established to take care of anticipated vacancies between now and the time of the next examinations.

The Council points out that applications for these examinations must be made out on an official application blank which may be obtained from local agency offices or by writing to the Merit System Council, 808 Tribune Building, Austin, Texas. The closing date for submission of applications is February 9.

JERRY JACKSON RESTING
AFTER RECENT OPERATION

Mrs. H. R. Jackson received a message from the U. S. Naval Hospital in Corpus Christi, that her son, Jerry, who underwent surgery last Thursday was resting nicely. Jerry has been confined to his ward since Christmas with arthritis in his back.

He enjoys the cards and letters very much that he has been receiving. The radio Mr. Earl Fairman gave him is a constant source of entertainment and a big help in his recovery. Jerry has been in the Naval Hospital for seven months. He was resigned recently for six more months of treatment.

The outlook is for surgery in the future.

Board Rescue Carrier 'Rendora'

December 20, 1943, issue of Life Magazine carries an account of the rescue of 33 survivors from the Pa-

-54 carrying a crew of six, 31 ground crewmen to the Wash., after 90 days temporary duty on Okinawa, ended into the sea. The men were tossed about in a lonely expanse of the Pacific for 12 minutes before the plane sank.

The survivors were rescued by two life rafts, emergency equipment and rations. For 39 hours they were tossed about in a lonely expanse of the Pacific between tiny Johnston Atoll and the Hawaiian Islands, 1200 miles west of Hawaii. Four men

The planes flew over the island day and all night. Then, at dawn of the second day, a Navy plane spotted them. A pilot radioed the search position to the search parties and within three hours the carrier, Rendora, was alongside.

Hunt, 34, son of Mr. and Mrs. M. Hunt, of Goldthwaite, was aboard the Rendora, assisted in getting the survivors aboard the ship. Of the pictures in Life Magazine concerning the rescue, Roy is one in a close up, with four other men, on swinging a stretcher over the side of the ship. who are acquainted with him, easily recognize him, picture is quite plain.

Hunt entered the Navy in 1932, age of seventeen, and served in the Navy ever since for a period of six years. He was at Pearl Harbor when it was bombed

December 7, 1941, and again escaped injury on November 24, 1944, when the Lipscomb Bay, a flat top air plane carrier, was bombed by the Japs. Of the 868 men aboard, only 200 were saved, and Roy was one of them. It was the first trip over for the huge carrier, and the last. At the present time, Chief Warrant Bosn. Hunt is in Guam, and doesn't expect to be back in the states until April or May. His wife lives in their home at Long Beach, California.

Mrs. Hern Harris and Mrs. Walter Doggett were leaders for our Worship and Educational Program on "Co-operation in Building a Christian America." This lesson was inspirational as well as educational.

The hostess served refreshments to sixteen members. We missed those who were unable to meet with us. Hope to have a large class next Monday at the Church when Mrs. Hoskinson continues the study on "The Bible and Human Rights." —Reporter.

LINDA'S THANKS

By CONG. O. C. FISHER

TEXAS VISITORS

There were hundreds of Texans in Washington for Inaugural week. Every day a Texas gathering of some kind was held and the old Texas spirit was very much in evidence. A Texas float in the parade, financed by Democratic Committeemen from Texas, Wright Morrow, was proclaimed one of the best in the show.

Among folks from home who called by our office last week were Mr. and Mrs. Sam Behringer and the J. W. Purifoy of Ballinger. Along with them was M. G. Gregory of San Angelo.

Mr. and Mrs. Raymond Sample of Del Rio came up on the Texas special train. From Uvalde came Jack Richardson and his daughter, Jackie. They were accompanied by Mr. and Mrs. Dan G. Lehmberg of Mason. Jackie is a student at the Southern Seminary and Junior College at Buena Vista, Va.

Forrest Kyle, the publisher of Bangs, and Carl Shannon, also of Brown County, were here. Another caller from Bangs last week was William Norman Hall, who is retiring as a Civil Engi-

neer after 28 years of government service. He plans to return to his old home in Brown County and be with his 93-year old mother.

Other callers from the district last week included H. L. Lee, of Mercury, McCulloch County, an employee of the Veterans Administration, and Miss Martha Allen. The latter also works for the Government and calls Lometa her home.

ARMED SERVICES COMMITTEE

Committee assignments for this Congress got final approval of the House last week. I was particularly fortunate to obtain a place on the Armed Services Committee. This was made possible only because Lyndon Johnson, who was on the Committee, went to the Senate and thereby created a vacancy. It is the most sought after Committee in Congress and is considered to be one of the most important. All phases of our preparedness program and national security come under this Committee. Its jurisdiction covers the Army, Navy, and Air Forces, all military installations; strategic and critical materials necessary for the common defense, and scientific research and development in support of the armed services.

BUDGET AND TAXES

In his budget message the President called for \$4 billion in new taxes on incomes. In addition, he called for an additional \$5 billion in payroll or social security taxes, making a total of \$9 billion in taxes above the total collected in 1948.

The budget request for expenditures is, in round figures, \$42 billion—several billion above last year. There was a time only a few years ago, when our total national income was under \$40 billion a year.

The President's suggestion that income taxes be upped, especially on incomes of \$6,000 and above, has caused some comment. It raises the old question of who makes the money in this country and from what source can taxes be collected.

Treasury Department figures reveal that folks earning \$5,000 and over actually get only 10 percent of total wages and salaries, while those earning under \$5,000 a year receive 90 percent. And that people who earn under \$5,000 also receive 70 percent of the income from stock dividends and interest.

Even in the field of rents, statistics show those earning above \$5,000 receive only 17 percent of all incomes from rents, while those earning a less amount collect 83 percent of rentals.

So, while corporate profits are up, and may be taxed further, yet in the final analysis it looks like the burden of taxes, and any increase in taxes will in the final analysis fall most heavily upon those in lower brackets. Yet, those in the lower brackets are already very heavily taxed.

Perhaps the best way to tackle the problem is to start talking about cutting expenses, reducing the federal payroll, and giving more attention to the Hoover Commission's report, to be filed within two months, designed to abolish unnecessary bureaus and streamline the Executive branch of the Government.

CARD OF THANKS

We wish to take this opportunity to express our sincere appreciation for the many kind deeds rendered us during our recent illness. The lovely cards and gifts were deeply appreciated.

Mr. and Mrs. Sam Self.

NEWS from YOUR COUNTY HOME DEMONSTRATION AGENT TEXAS EXTENSION SERVICE

"HOW DO YOU LIKE THEM?"

Whether they are canned, frozen or in the shell, pecans go nicely with cold evenings by the fireside. And, if you intend to store any of this year's big crop of pecans, don't wait too long to get started. Waiting too long before putting them away might give the pecans a chance to get rancid.

Freshly shelled pecans may be packaged in cellophane bags, tin cans, freezer jars, or heavily waxed cartons. Seal the container and store at 0 degrees F. in a home freezer or a commercial locker. No heating is necessary when freezing pecans.

If you're canning pecans, they should be shelled, sorted, and cleaned of all the little bits of shell. Put pecans in a slow oven for a pre-heating treatment, but be sure they don't scorch. When done, pack the pecans to within an inch of hot, dry jars, and drop in a piece of crumpled parchment paper to absorb the moisture.

Semi-seal the jars and put them in the pressure cooker. Adjust the lid and clamp. Leave the pet-cock open for seven minutes, or until you see the steam coming out. Close the cooker lid and raise the pressure to five pounds. Release it immediately to bring out the moisture, and at the same time, create a vacuum inside the jar.

Take the jars out of the pressure cooker and complete the sealing job. Wipe them dry and allow to cool before storing them on the pantry shelf. Now they're ready for eating.

If you'd rather leave the pecans in the shell, better store them below 32 degrees F.—and they will last as long as a year. Whether frozen, canned or stored in the shell, they'll taste mighty good these cold winter evenings or next spring.

At a late hour we bade Mr. and Mrs. skipping good night, wishing them a Merry Christmas and a happy New Year.

Our next club meeting will be with Mrs. Charles Wilber Hill, January 27 in the afternoon.

Those present were: Mrs. V.

Dunlap, Mrs. Chester Evans, Mrs. Leroy Johnson, Miss Martha Dudley, Mrs. Walter Smith, Miss Marlene Hodges, Mrs. James Aldridge, Mrs. Fred Johnson.

Special Session Commissioners' Court To Discuss 3 New F-M Roads

County Judge Lewis Porter called a Special session of the Commissioners Court last Saturday, January 22 to meet with committees on the three proposed new Farm to Market roads which are now being promised Mills County, for the next Highway building contracts. The roads are as follows:

1. From end of F. M. 575 northeast of Goldthwaite Northeast to Caradan, a distance of approximately 4.4 miles.
2. From U. S. Highway 84 approximately 4.5 miles southeast of Mullin north to road intersection, a distance of approximately 3.0 miles, this known as the Bazar road.
3. From end of Farm to

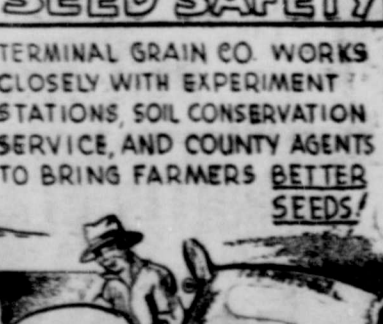

Market 574 west of Goldthwaite west to road intersection, or the Ratler road a distance of approximately 4.6.

The State of Texas has agreed to spend \$104,500.00 on this 13 miles of road and they will be relieving Mills County of this road and two bridges that could be a big expense to the county in maintaining, namely the North Bennett Bridge near Caradan and the Slack bridge across the Pecan Bayou.

The patrons of these communities are to be commended for their splendid co-operation with the Commissioner's Court, in pledging their land and labor to make these roads possible for the County.

B." is a Hereford, and is yet to be shown at Fort Worth, Houston and San Angelo Shows. (Picture courtesy Universal Mills.)

GRAND CHAMPION AT BROWNWOOD—Pictured is Robert Henry Johnson and his 905-pound Angus calf, "Kilroy Returns," which was given Grand Champion honors in judging at the Brownwood Show late last Thursday. This calf also won first in the Angus Class senior calves, and the championship in the Boys' FFA show at Brownwood; and was judged Reserve Champion here. Johnson won state Grand Champion honors at Houston show last January with his calf called "Kilroy." He will also enter in the Fort Worth, Houston and San Angelo shows. MILLS COUNTY CLEANS UP BIG AT BROWNWOOD STOCK SHOW

Mills County livestock raisers took more places last week at the Brownwood Livestock Show than in any other five counties in Texas, topping the show in many entries.

In judging of club calves late Thursday afternoon, Robert Henry Johnson, 17-year-old Goldthwaite High School Senior A boy, showed the Grand Champion Fat Steer. His entry, "Kilroy Returns," also won first in the Angus class senior calves, and the championship in the Boys' FFA show.

Merion Reynolds, Goldthwaite Club boy, took the reserve championship with his steer calf, "Shorty." His entry also won first in its class, and reserve champion of the show.

Mills County's entry took first in the best carload lot of club members' calves. Brown County was second.

Reynolds also won first in the weights fat steers open class, an 11-months old Hereford.

In the boys' hog show, the champion female was exhibited by Floy Woodard, Goldthwaite 4-H boy.

Goldthwaite grass judging FFA boys also won fourth among 28 teams from the Mills Soil Conservation

Service competing Saturday at Brownwood, with 261 points; Priddy FFA boys were fifth with 238; and Mills 4-H Club boys were sixth with 236 points.

In Delaine Sheep judging, Class 124, ewe lambs, Robert Miller of Goldthwaite was placed first, and also showed champion ewe in Class 125. In Class 126, Delaine 2-tooth ram, Billy Rahl of Goldthwaite was first, and in Class 128 he won Champion Delaine ram.

County Agent George Reese and Voc. Ag. Teacher Y. B. Johnson are in Fort Worth today with most of the boys and their livestock where Club Calves were judged yesterday, one day before the opening of the Livestock Exposition. Auction will be today. They will also compete in Houston Feb. 1 to 4, and San Angelo March 3 to 7. Mills County Club Boys have won Grand Champion honors at the Houston show the last two years in succession, with Reserve Champion also last year.

Following are other Mills County winners at Brownwood: **CLUB CALVES** (Walter Lewis, Larned, Kans., Judge).

Fat Steer open class for heavy steers—Robert Miller, 3rd. Lightweight open steer class under 850 pounds—Merion Reynolds, 1st; Allen Poe, 2nd; Leo Reynolds, 3rd. The Merion Reynolds entry was judged the champion of the open class steers.

In Class 80, the senior wet lot calves over 850 pounds, Allan Poe, 4-H Club boy, showed first prize winner, Flat Top; Floy Woodard, Star 4-H Club girl, showed 2nd with a Hereford named "J. B." W. V. Horton, Jr., 4-H, showed 3rd; Merion Reynolds, 6th; Bobby Zane Egger, Star 4-H, 7th; Dana H. Saylor, 4-H, 12th, in a class of 22 calves.

In the junior wet lot division, with 40 calves shown, Merion Reynolds' Shorty won first money; Floy Woodard, 5th; Sammy Owens, 4-H, 6th; Allan Poe, 7th; James Horton, 8th; Dave Nugent, 4-H, 11th; Kenneth Wesson, FFA, 12th; Modene Reynolds, 4-H, 13th; Merion Reynolds, 14th; Wayne Poe, 4-H, 17th; Bobbie Zane Egger, 20th.

Young Reynolds is both a 4-H Club and FFA boy at Goldthwaite. He said his calf, "Shorty," was a 4-H project and the open class champion, "Mischief," was his FFA calf. He plans to exhibit "Shorty" at the Houston Fat Stock Show and "Mischief" at the Dallas show. Reynolds is a Goldthwaite High School freshman student.

Robert Henry Johnson is a senior in the Goldthwaite High School. He will take his calf, "Kilroy Returns," to the Fort Worth show. Last year he took "Kilroy" to Houston, won the grand championship and sold him for \$12,500.

Last year, Merion Reynolds showed the reserve champion at Houston and won the reserve championship with his calf, "Butch," which sold for \$1,500.

Johnson's "Kilroy Returns" weighs 986 pounds and is 11½ months old.

Y. B. Johnson is FFA instructor at Goldthwaite and George G. Reese is Mills county agent.

Mills County 4-H showed the first prize winning carload lot of fat steers, with Brown County 4-H second.

In groups of five fat steers fed under the supervision of one vocational agriculture instructor or county agent, Mills County 4-H ranked first and second, Brown County 4-H third, Goldthwaite FFA fourth, and Mills county 4-H fifth.

Lake County, Ill., Chapter of the National Foundation for Infantile Paralysis aided the Edgar E. Huff family, of Deerfield, Ill., when all six children were stricken with polio last summer. Pictured are one-year Elizabeth with nurse. Others, 1 to r., are Edgar, Jr., 7, John, 4, Joanna, 8, and Patricia, 2. Michael, 5, was still in the hospital.

NEED DESPERATE FOR POLIO FUNDS

The desperate need for a record 1949, March of Dimes campaign was stressed today by W. C. Barnett, Mills County chairman of the March of Dimes drive which now is in full swing throughout the nation. Mr. Barnett pointed out that polio care during the last 11 years has become more complex and expensive.

Before the National Foundation for Infantile Paralysis was organized in 1938, polio patients were treated by a general physician and a nurse. But research has discovered the complexity of this crippling disease. Instead of the old team-of-two, today's victim is aided by a medical group with as many as eight members.

These scientific experts are the pediatrician, orthopedist, doctor of physical medicine, nurse, physical therapist, occupational therapist, medical social worker and psychological consultant.

The scientific know-how behind this polio fighting team has been gained at great cost, and care is expensive, the March of Dimes chairman stated. Few families even those with high earning power, can meet the expense of polio treatment.

It is therefore comforting for all of us to know that our local chapters stand ready to underwrite all or any part of this expense.

Physical therapist Birdie McCutchen of Greenville, S. C., exercises a young patient in the polio unit at Greensboro, N. C., as Carpenter Ralph Overcash saws out a new door in the back of the building. March of Dimes funds were mobilized for polio treatment as well as improving facilities to provide hospital space during North Carolina's 1948 epidemic.

SCRIPTURE: Luke 4:1-13
DEVOTIONAL READING: James 1:1-12

'Yet Without Sin'

Lesson for January 30, 1949

YOU will never feel the current if you never swim upstream. If you are a drifter through life you can hardly know what the word "temptation" means.

And Jesus was no drifter. If ever a powerful purpose, devotion to God, a noble mind and a pure heart could set a man free from all temptations, Jesus would have been that man. But he had his temptations all the same. After the great day of his baptism, when the heavens opened and he felt the Holy Spirit as plainly as a bird from the sky alighting on his shoulder, we are told that he was "full of the Holy Spirit." Surely no temptation could reach him now! Yet the Spirit led him to the wilderness where Satan waited for him.

Dr. Foreman

SATAN is a persistent devil. He never takes No for an answer, he will be back again with the same temptation in another package. It was so with Jesus. We must not think that Jesus was tempted to low and ugly sins. People are tempted on the level where they live.

The Devil Is Smart

After the baptism, if not before, he was fully awake to the fact that he was God's beloved Son, that it was his responsibility to begin the "Kingdom of God;" he knew he had a position and a power that no one else on earth had ever had. The problem was: How should he use this position and this power?

Each of the three temptations in the wilderness had something to do with that problem. Two of the temptations, at least, were not to do anything wrong in itself. Each time Jesus was tempted to choose something less than the best. And choosing less than the best, when the best can be had, is sin.

All Temptation Sounds Good "TURN stones into bread," the tempter said. And why not? People were hungry all around; Jesus grew up in a land where most people were lucky to get one square meal a day, let alone three. Jesus would be the Divine Leader of the Kingdom, the Founder of the New Age. Why not make it the Age of Plenty? Why not abolish hunger from the earth? It could be done; it sounds good.

So does that other temptation — "Throw yourself down, the angels will see that you are not hurt." Perhaps many worshippers at the Temple expected that the Messiah, God's King to be, would fly down out of a cloud.

Then that temptation which seems at first reading so ridiculous — fall down and worship Satan. It was not so ridiculous as it appears. What did Jesus want but to be King of Kings and Lord of Lords? What difference does it make how we attain our ambitions, if we only reach them? All other world-conquerors had achieved their pinnacles of power by "worshipping Satan," that is by using violence and trickery.

But Jesus, being full of the Holy Spirit, knew that not everything that sounds good, is good.

He saw clearly that not even he could bring in the Kingdom of God simply by feeding people, or astonishing them with aerial stunts, and still less by using those ancient methods of the world-conquerors, the tools of Satan, violence and lies.

Defense Weapon JESUS met his great enemy and beat him down with a single weapon. Every time, Jesus comes out with a quotation from the Bible, incidentally always from Deuteronomy, evidently a favorite book with him. We have the same weapon at our disposal today, and more besides.

There is nothing magical in a Scripture quotation. The point is not that Jesus had memorized these verses so that he could quote them; anybody could do that even without believing a word of them.

What Jesus did was to make those truths his own, they were part of his mind, actually his own convictions. Do you really want to rise proof against temptations? Do as Jesus did: make God's ideas your own. The sharpest lie will blunt itself against the keen edge of Truth.

Winter is a tough time of the year to drive, so it's a good idea to take extra precautions at this time of the year. It stays dark longer now, the roads are slippery and rain, snow, fog, ice and frost cause poor visibility. Weather like that means more hazards to driving, so plan to drive carefully. The first month of the year is a good time to begin a farm record account of expenses. Such an account will help you figure the income tax.

MARCH OF DIMES

Infantile paralysis is believed to be older than the Pyramids
of Egypt. An English physician, Dr. M. Underwood, for the
first time in 1789 recognized it as a separate disease which
usually attacked children with paralyzing effect.

POLIO MILESTONES

Establishment of the National Foundation for Infantile
Paralysis in 1938 mobilized an entire nation to fight a single
disease. Today, scientists in scores of the nation's leading re-
search laboratories and medical schools seek a preventive or
cure.

Youth In The Public SchoolREV. LAURISTON J. DU
OIS, General Secretary
Nazarene Young People's
Society

relationship of the church-
to the public schools has
brought into the limelight
the past number of months
the Supreme Court ruling
prohibiting the use of the
school facilities or time
for religious instruction. This
was the result of an appeal
an atheist mother in Ohio
objected to week day re-
ligious instruction on school
because it "segregated"

children and therefore made
public schools "undemo-
cratic."

could well be expected,
decision has had far-reach-
ing effects and has stimulated
discussions. Some groups
interdenominational agen-
have spoken out against
ruling, believing it to be a
step against the church and
Christian religion. However, the
same Court insists that its
ruling was based upon an in-
terpretation in favor of demo-
cratic principles and not

against them. Their point was
that public schools should be
free from anything which would
segregate any of the pupils
(whether they be in the major-
ity or the minority) or which
would teach against the religious
beliefs (or nonreligious beliefs)
of any of the pupils. As such it
was a safeguard to true democ-
racy and to the right of every
one to worship God (or not
worship God) according to the
dictates of the individual con-
science.

Whether or not the decision
accomplishes this purpose re-
mains to be seen. However, we
are to assume that this ruling
applies to those factors in the
public schools which are an-
tagonistic to religious faith as
well as to those factors which
are antagonistic to atheism! It
should take in all of the aspects
of public school activity which
tend to segregate pupils be-
cause of their religious beliefs or
which force pupils to do those
things which are contrary to
the rules or standards of the
church. It is at this point that
we should focus our attention.

Perhaps, after all, this ruling is
the very instrument the Church
has been seeking in its attempt
to build its own youth in the
doctrines and standards which
are particularly hers.

ATHEISM

Atheism, evolution, behavior-
ism, humanism, materialism,
and the various phases of
nonreligious philosophies have
long been taught and advocat-
ed without opposition in our
public schools. This teaching
has gone under the guise of
"open-mindedness," "the scien-
tific spirit," and "pure educa-
tion." Nevertheless, it has had
its evil impact upon a genera-
tion of students.

It has boasted that it oppos-
es the Church, and flaunts its
success in robbing youth of its
faith in God and religion. It has
been dogmatic, uncompromis-
ing, and has "force fed" its
concepts into the plastic minds
of all youth alike. It has threat-
ened the loss of credit for a
failure to swallow its creed.

Such a procedure or such
teaching is far from the prin-
ciple of democratic education
and should be challenged. The
public school has long been the
worst enemy of the Church.
Character, religious faith, or
even a loyalty to true democ-
racy has not been demanded
of instructors. As a result they
have taken opportunity to force
pagan ideas upon Christians
and atheists alike. Not infre-
quently they have openly op-
posed and ridiculed the Church
and all it stands for. Christian
young people have a right to
expect the public school to re-
spect their beliefs. The public
school authorities should sup-
port them in this right.

MOVIES AND DANCING

In the public schools today
the movies are in constant use.
Some of these are of a strictly
educational nature and would
not be objectionable; yet the
pictures for entertainment
brought into the schools or the
insistence that students attend
pictures in the local theater
would be.

Not infrequently, our young
people have had pressure
brought to bear on them, with
the threat of loss of credit in a
particular class, for failure to
attend so-called "historical"

pictures. Also they have had to
face criticism directed as a
church that would take such a
stand against the movies and
have been persuaded that the
church is wrong. Our young
people should not be so "segre-
gated" on the movie issue and
should not have to battle
against these issues in the pub-
lic schools.

A like situation exists with
reference to dancing. Our young
people are constantly placed in
situations where they must take
ballroom dancing as a part of
the physical education program.
While in certain instances if
enough pressure is brought to
bear, they have been given
other activities to substitute, in
not infrequent cases they, too,
have suffered the threat of loss
of credit for failure to comply
with the demands of the in-
structor.

Dances are not uncommon on
school property or sponsored by
school groups and administra-
tion. The argument is usually
brought forth that, because a
"majority" of the students or
parents want dancing, it is all
right. That is not the issue at
all. The issue is that there
should be no public school ac-
tivity which segregates the stu-
dents or teaches them contrary
to their religious beliefs. Some
may say that there is a differ-
ence between such "moral" is-
sues as the movies and dancing
and religious faith or belief.

That may be true with some.
However, it is not true with the
Church of the Nazarene. As one
of the few denominations which
insists upon moral character
for church membership, the
General and Special Rules of
the Manual become a part of
the belief of the church. They
are to be revered by demo-
cratic principles just as much
as the customs and rituals of
the Catholics or the Jews. Our
youth have just as much right
to be protected, and that with-
out embarrassment, as any
other group in the community,
whether they be in the major-
ity or the minority. This is the
principle of democracy support-
ed by the Supreme Court.

CHANGES POSSIBLE

Some school authorities are
taking the Supreme Court ruling
very seriously and have al-
ready within the school year
ordered all religious instruction
on school time to cease, and
have prohibited the use of
school facilities for interde-
nominational groups meeting in
the school but before or after
school hours. We will assume,
however, that they will so read-
ily place a ban on dancing,
movies, semiburlesque dramatic
performances, the teaching of
evolution or atheism, or soror-
ities and fraternities within the
student body. It will be up to
parents and pastors to call
these matters to their atten-
tion.

Certainly we can expect full
consideration for our young
people and perhaps the light
can be made clear enough and
pressure be made apparent
enough to "clean out" some of
these recognized "undemocratic"
activities in our public
schools.

**MEMORIAL STADIUM
AT TARLETON COLLEGE**

Stephenville—Bentley Clem-
ents of Goldthwaite, former stu-
dent of John Tarleton College
who lost his life in World War
II, is one of the 184 ex-student
war dead who will be com-
memorated by the erection of a
Memorial Stadium. He attended
Tarleton in 1935.

Sponsored by the Tarleton Ex-
Students Association, a three-
year fund raising plan, now in
its second year, has raised ap-
proximately \$55,000 toward its
\$100,000 goal. The college re-
cently acquired a 38-acre tract
west of the present campus for
the location of the stadium. A
football field has been leveled
and sodded in the new area and
games will be played there next
fall. Plans for the stadium in-
clude a seating capacity of 8,000
with dressing rooms, showers,
and other facilities located be-
neath the stands. The stadium
is designed to accommodate agri-
cultural fairs, livestock shows,
and for general community use
as well as to provide a place for
athletic contests.

**DUTCH MCKENZIE
HAS OPERATION**

Hugh McKenzie returned from
Temple Sunday night, where he
had been with his brother,
Dutch McKenzie of Edinburg,
who underwent a very serious
operation in the Temple Hospi-
tal Saturday night. He was
doing fine when Hugh came
back.

Big Valley H. D. Club

On January 20, the Big Valley
H. D. Club, met for its first
meeting of the new year, with
Mrs. Ulric Martin.

The agent was to have had
charge of the program but since
she could not come the presi-
dent had charge. She distrib-
uted the year books and dis-
cussed the work outlined in the
books, along with other inter-
esting things. We, as a club,
could accomplish during the
coming year. It is the desire of
the president that we work to-
gether this club year and be
able to be proud at the end of
the year of our year's work. To
do this we must first pledge
ourselves for good attendance.
Those of you who were absent
were missed by those present.

The motion was made and
carried unanimously, that the
club remember our Vice-Presi-
dent, Mrs. Robert Doak, who is
ill in a Brownwood hospital,
with a pot plant, and that we
subscribe to the Messenger, a
club paper.

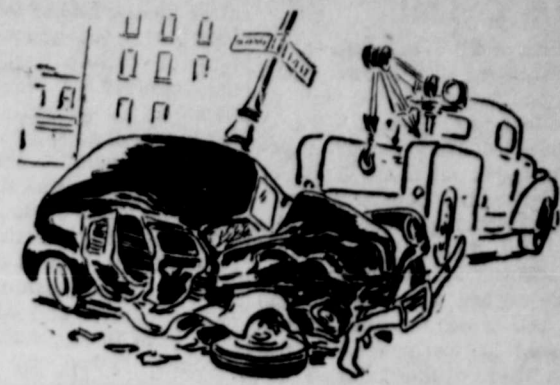

Refreshments were served to
six members and two children,
after which we adjourned to
meet on February 3 with Mrs.
Albert Whitley.

Lets start now to strive for a
near perfect if not perfect at-
tendance.

**IT IS A FAR SIGHT—
A REVERY TO
EAGLE READERS**

The old year died slowly,
waited down with the grief and
cheers of twelve long and
dreary months. Rocking gently
I shake up the memories of
firelight. In the fleeting gleam
I catch the faces of many whom
I know and loved before sor-
row and separation came to re-
place careless and unconscious
youth. Time may well be called
the tomb builder, for in the
cemetaries of distant lands lie
the faces and forms of many I
loved long ago. It brings back
the memory, the lines of the
old familiar ballad:

parties I remembered
"Oh, now where are the merry
long ago,
Sitting by the Christmas fire-
side, brightened by its
ruddy glow,
Or in the fields in balmy even-
ings, in the fields upon
the hay,
All dispersed and wandered, far
