Knowles Seriously Injured Viet Nam

Robert M. Knowles, son of Mr. and Mrs. David Knowles of Cut-hand, has been seriously injured in Viet Nam. Just six days before September 28 when he was scheduled to leave Viet Nam for the States he was struck by a heavy vehicle within boundary of his camp during blackout conditions. He suffered a skull fracture, broken second and sixth ribs with hemothorax.

The accident occurred Sept. 22. His parents had received three telegrams concerning him up until this week. The first informed them that their son was seriously injured; the second stated he was improving and the third that his condition remained the same.

At last report the injured serviceman was in the 3rd Field Hospital in Viet Nam, with time of evacuation and period of hospitalization undetermined.

Knowles, who has been in Viet Nam with the First Infantry Division for a year, has suffered previous injuries.

Rain Interrupts Cotton Harvest; Floods Deport

A big rain fell in the Deport area Tuesday which sent creeks and streams overflowing banks. The heavy downpour measured 3.92 inches in Deport, according to Jack Nixon, in charge of the government rain gauge.

It was reported approximately 6 or 7 inches of rain fell on Mustang Creek watershed north of town, which sent water into Deport's business district, and into several business houses. The water rose to approximately six inches in Earl Gardner Motors, about an inch deep in the post office and in Community Public Service Co. buildings.

The rain interrupted the cotton harvest, which was in full swing with gins running around the clock. Five area gins have ginned 1994 bales this season.

Water damaged cotton on the gin lots. One trailer load of cotton, belonging to Doug Alsbrook was overturned in the creek and most of the cotton lost. The trailer, which was lodged against the bridge at west end of Main Street, was recovered Wednesday morning. Deport's three gins had weighed in 1416 bales up to 10 o'clock Wednesday morning. Numerous trailers were on gin lots when the rains came. Breakdown figures show Blackland Prairie handling 893 bales, Deport Co-Operative 427 and Home Gin 96.

At Cunningham Gin 435 bales had been processed. Fulbright Gin reported ginning 43 bales with several more bales on the lot. At the opening of the season cotton seed was \$72 a ton, but dropped to \$70 a ton last week.

A daughter was born Sunday, Oct. 3 to Mr. and Mrs. Gerald Ben Morris of Post. She weighed 7 1/2 pounds and was named Jill. Paternal grandmother is Mrs. Opal Morris and paternal great-grandfather is Clyde Holder, both of Talco.

Mr. and Mrs. Edgar Bradshaw and Bill were in Paris Tuesday, where Bill received medical treatment.

Mr. and Mrs. Don Eudy of Arlington, visited here during the week end.

Austin. — Texas Research League unveiled its tentative recommendations for heading off "disaster" in growing urban counties following a statewide study ordered by Gov. John Connally.

Plan contains sweeping and controversial proposals to overhaul local government in 24 major and middle-sized counties. It proposes four statutory changes and two constitutional amendments. Test public hearings have been held in Austin and Dallas-Fort Worth and more discussion meetings will be set over the state.

Basically, the recommendations aim to encourage regional planning and cooperation among units of government in solving common problems and performing services on an area-wide basis and to permit big counties to adopt a modern governmental structure best suited to their needs. State aid to carry out these recommendations would be available under League suggestions.

A cabinet-type agency — The Texas Local Government Agency — is proposed to advise metropolitan areas and to police new municipal incorporations.

Probably the most controversial recommendation is a constitutional amendment to permit — on popular vote — the reorganization of governments in 24 counties, making it optional whether most county administrative officers are to be appointed or remain elective.

Counties directly concerned are Bell, Bexar, Cameron, Dallas, El Paso, Galveston, Gregg, Harris, Hidalgo, Jefferson, Lubbock, McLennan, Midland, Nueces, Orange, Potter, Smith, Tarrant, Taylor, Tom Green, Travis, Webb and Wichita.

ATTY GENERAL SPEAKS — Coordinating Board, Texas College and University System, can purchase life insurance on student borrowers and pay the premium directly to an insurance company from Opportunity Plan Fund. So held Atty. Gen. Waggoner Carr in an official ruling.

Other recent opinions concluded that:

• Petition of Sept. 9, nominating an independent candidate for merged Jim Wells County j. p. precinct, is valid.

• Where a doctor is not available a technician may take blood from drunk-driving suspect, on his consent.

• Texas Aeronautics Commission has no regulatory authority over airline service with origin or destination points outside the state.

• Auto sales tax is due on cars transferred from subsidiary to parent corporation.

Residents Offered Opportunity to ZIP Code Mailing Lists

Residents of Talco area will be offered an opportunity to ZIP Code their mailing lists during October. Postmaster Westbrook announced today.

"No Postage Needed" cards will be distributed to Post Office box holders and by rural carriers, to each patron of the local postoffice beginning October 10. The card will have blanks for addresses used most often, but for which individuals do not know the proper Zip Codes.

In rural areas, as in Talco, only an out of town card will be delivered since all local addresses will have the same Zip Code.

"This is a good time to get the Zip Codes missing from your lists," the Postmaster noted. "This Christmas, Zip Code will be as important as shopping and mailing early for the efficient and on-time delivery of the record-breaking avalanche of mail expected in the pre-holiday weeks."

After filling in the street number, city and state, the cards are to be mailed back to the postmaster. Post Office personnel will add the proper Zip Codes and return the cards to the sender.

President Johnson has proclaimed October 10-15 as "ZIP Code Week" to promote greater usage of Zip Code.

Addresses which cannot be ZIP Coded because of insufficient or improper addresses will be forwarded to the city indicated on the card, if legible, and the codes will be added there.

Only addresses, not names of correspondents, should be listed on the cards, the Postmaster said. ZIP Codes represent delivery areas for the postal service, not individuals.

Fred Stevens, who has been ill several months, is reported improving.

• Appointed lawyers are due a separate fee for each appeal to final conclusion in Court of Criminal Appeals.

TEACHER PAY — Texas State Teachers Association has served notice it will push for a pay raise in 1967, regardless of views of the Governor's Committee on Public School Education.

TSTA blamed a 5,500-teacher shortage mainly on pay scales and renewed its plea for a "national average" wage with built-in escalator clause.

Texas Association of School Administrators joined teachers in urging an interim committee report on the need for better teaching salaries.

Stage may be set for one of the next Legislature's biggest money controversies.

FUSION FUNDS — The University of Texas, putting together a team of physicists and electrical engineers to work on conversion of thermonuclear fusion directly into electricity, has won a \$700,000 research contract from the Texas Atomic Energy Research Foundation. Previously, the contract had been held by a California firm.

Governor Connally hailed the contract's coming back to Texas as marking a big step in his drive for excellence in higher education. The University committed a dozen faculty tenure positions to attract top men in plasma physics to join the UT Center for Plasma Research and Thermonuclear Physics.

SCREW WORM EPIDEMIC — Texas is in the midst of its worst screwworm infestation since the statewide eradication program was initiated in February, 1964.

Two weeks ago, there were 33 confirmed cases. But last week (just through Thursday) 106 cases were confirmed.

Federal, state and private funds are being used to fight the infestation through dropping sterile flies from airplanes and treating infested animals. "But things don't look too good," said Dr. S. B. Walker, executive director for the Texas Animal Health Commission.

SHORT SNORTS

Department of Mental Health and Mental Retardation has outlined priorities for \$58,300,000 worth of construction projects for submission to the next Legislature. Garden Club leaders from over the state reviewed the Governor's Mansion landscaping plans initiated by Mrs. Connally.

An election law study subcommittee has agreed that all voters should have to register, including those over 60 in cities of less than 10,000 that now are exempt.

Rebels Trounce Queen City 30-0

The Rivercrest Rebels dominated play from the first whistle to the last on the home field Friday night as they shutout the Queen City Bulldogs, 30-0.

Although the score was impressive, the defense actually stole the show.

The most spectacular of the defensive plays in the game came midway in the third period when end Larry Hinsley grabbed off a Queen City pass at midfield and raced into the end zone for a touchdown.

The rugged Rebel line, led by tackles Richard Hargrove and Jackie Brown, held the Bulldogs to 1-yard net rushing and put pressure on the Queen City quarterback. The visitors completed three of 20 pass attempts for a mere 28 yards.

The Rebels went 69 yards to score in seven plays the first time they got the ball. Doug Wright and Freddy Savage did most of the gaining and Wright got the score, going over from the 4-yard line in the first period.

The Rebels went 69 yards to start the second half with Gary Duncan going over on a 3-yard keeper for the touchdown.

Wright, Duncan and David Hendricks led the march with a 27-yard gainer by Duncan being the big play.

The third Rebel touchdown came on Hinsley's 52-yard interception return in the third period.

And again in the third quarter D. Wright scored from the one after doing most of the carrying to that point.

Duncan set up the final Rebel scoring chance with a punt which rolled dead at the Queen City 1-yard line. The Rebel defense held and crowded the Bulldog punter on fourth down. The punt reached only the Rivercrest 24. Sophomore back Larry Howard carried over from the 6-yard line on the fifth play of the series, giving the Rebels their 30 points.

This week the Rebels travel to
