Along The Waterfront

Vernon Kleypas, Sea Gun marina manager, announced S. J. Cramer of Dallas as current winner of Sea Gun's second annual fishing contest. Cramer fishing from a Sea Gun skiff brought back a 14½ pound drum.

Fishing the past week was rather poor due to the strong winds.

Captain Brown of the "Whooping Crane" reports 28 of the whooping cranes were seen on last Sunday's cruise to the refuge.

The last of the cranes usually leave the Aransas National Wildlife Refuge by April 15. The cruise is made each Wednesday, Friday, Saturday and Sunday afternoon at 1:30 p.m. during the time the cranes are on the refuge.

Student Biologists To Study Marine Life In This Area

Eight student biologists from Southern Methodist University will leave Dallas on March 18 for the Texas Gulf coast to study marine life.

Supervised by Dr. E. P. Cheatum, professor of biology, the SMU Biology Club will travel by bus and will carry out their studies in the lagoons and mudflats around Rockport.

Studying ecology—the relationship of a species to its environment—the SMU group will make field trips to Port Aransas and the surrounding beaches and mudflats.

A trawler will be supplied the group by the Texas Parks and Wildlife Marine Biological Laboratories.

"We will have access to areas the beginner does not normally have the opportunity to visit," Dr. Cheatum said.

The trip will allow students to pick up specimens and will afford the young biologists a chance to see how marine organisms live in several localities.

Toast of The Coast Saturday

The eleventh annual Toast of the Coast Relays will be presented here Saturday, Mar. 11.

Entries for the meet are: Industrial, Flour Bluff, Yorktown, St. Joseph (Victoria), Agua Dulce, Taft, Woodsboro, Corpus Christi Academy, Refugio, Bishop, Gregory-Portland, Kennedy, Mathis, Poth, and George West.

Strong competition for first place should result in an interesting meet. Heading the field will be Gregory-Portland, Refugio, Taft, and Aransas County.

The Pirate track team could prove to be a surprise since it has greatly improved in the past week, and it placed second in the last meet.

The main strength of the team lies within the abilities of Domingo Pulido and Eddie Pena in the mile, Eric Henderson and Tom Lewis in the discus and shot, Butch Warden in the 220 yard dash, and the mile and sprint relays.

The mile relay consists of Rudy Walls, Bart Rozzell, Mark Meador, and Butch Warden. The sprint relay members are Charlie Roe, Ruford Huff, Butch Warden, and Bart Rozzell.

TOM LEWIS MAKES ALL-DISTRICT TEAM

Tom Lewis, star center on the Aransas County High School basketball team, won a unanimous choice for the District 28-2A all district team selected by coaches of the district.

SEVEN INJURED IN THREE CRASHES

Six persons were injured, one seriously, in two auto accidents on Highway 35 last Saturday night just north of the city limits.

One crash involved cars driven by W. H. Kane and Rachel Luddington and took place about two miles north of the edge of town.

Miss Luddington and four passengers were injured. Most seriously hurt was Anne Smith who suffered multiple lacerations and had a number of teeth knocked out. She was taken to Memorial Medical Center in Corpus Christi.

Miss Luddington, Wade Thomas, Annette Smith and Connie Smith were treated for cuts and bruises at Ewing Memorial Hospital in Sinton and released.

Kane was charged by state highway patrolmen with driving while intoxicated.

In another crash about a mile north of town, cars operated by Celia Catalani of San Antonio and Nelda Scheu were involved. Miss Scheu was treated for shock at Lyman-Roberts Clinic in Aransas Pass. She also received a ticket for failure to control speed to avoid an accident.

Miss Catalani escaped injury, as did four passengers in her car, Rodney, Deb, Sandy and Karen Lewis.

In the third accident Saturday, James Karow of Corpus Christi sustained rib fractures when driving in the fog, he ran off Highway 35, broke a telephone pole and rammed into the fence which surrounds the city water storage area. He was taken to Lyman-Roberts Hospital.

Aransas County Places Second

The Aransas County High School track team brought home the second place trophy from the annual Greyhound Relays at Taft.

Refugio won the meet with a total of 69 points with A.C. placing a close second with 66 points.

Scoring points for the Pirates were Domingo Pulido, first in the mile run with a record breaking time of 4:35.4; Tom Lewis first in the discus and shot put; Butch Warden, third in the 220 yard dash; Eric Henderson, third in the discus; and Edward Pena, fourth in the mile run.

The mile relay placed third and the sprint relay received a fourth.

Tom Lewis also set a new record in the shot with a toss of 55' 5¼".

Old Copano Causeway Made Fishing Pier

The Texas Highway Commission has turned over to the Texas Parks and Wildlife Department portions of the old Copano Causeway on Texas 35 in Aransas County for use as a fishing pier.

A new causeway across the bay was completed in November. Transfer of the old structure, built in 1931, was authorized by the Legislature.

One section extends 2,504 feet from the southwest end of the causeway northeastward into the bay. The other section extends 6,191 feet into the bay from the northeast end of the causeway.

The Parks and Wildlife Department will assume jurisdiction, control and maintenance responsibilities for the fishing pier. Title and right of way will remain under control of the Highway Department.

GOOD WEATHER IN FEBRUARY

On 23 of the 28 days in February the barometer reading was 30 or higher. Paul C. Sorenson, Weather Observer, reports that, generally speaking, a reading of 30 or above denotes good weather.

Total precipitation during the month was 2.84 inches. Light fog was recorded on five days, and heavy fog on one day.

The temperature reached 80 degrees on Feb. 11, high, for February. The low reading was 30 degrees, on Feb. 9.

Sen. Wm. Patman Will Be Governor Tuesday, Mar. 28

Senator William Patman will take the oath of office as Acting Governor of Texas Tuesday, March 28, at 9 a.m., beginning a day of festivity in Austin for the people of the 14 counties of the 18th District.

Senator Patman, President Pro Tem of the Texas Senate, will become Acting Governor of the state in the absence of the Governor and the Lieutenant Governor from Texas.

Thousands of persons from the 18th District will come to Austin for the inaugural festivities, which will include an all-day reception in the Governor's office, special tours of the Governor's Mansion and Capitol Complex. The Acting Governor will make a series of proclamations and honorary appointments, and sign bills.

Three More File For City Aldermen

Three more candidates have filed for the aldermanic election which will be held April 4. They filed on March 4, final day for filing.

They are Homer Faber, who is associated with Security Real Estate, Inc., H. C. Mullinax, employed by United Carbon Co.; and Ed Barnard, owner of Duck Inn.

Faber will oppose N. F. Jackson who is running for reelection to a two-year term from Ward 2.

Mullinax and Barnard will compete against Mrs. J. W. "Tony" Harden, accountant for Laguna Construction Co. and Sandollar Motel, in the race for the one-year unexpired term of Earnest Harnist, who resigned his Ward 2 post because he is moving outside the city limits.

Charley Garrett is unopposed for re-election to a two-year term from Ward 1.

Mrs. Stuart to Head Cancer Society Drive

The 1967 educational and fund raising crusade of the American Cancer Society in Aransas County will be led again this year by Mrs. Vic Stuart.

Rev. Ben Bohmfalk, president of the unit, said Mrs. Stuart accepted the designation as chairman of the 1967 Crusade which begins April 1 because of "her deep concern with the urgency of the cancer problem."

In accepting the chairmanship, Mrs. Stuart said, "There is a hard tedious job ahead that holds out promise of eventual complete control of cancer."

She pointed out that if present rates continue, "and if Aransas County is typical, one out of four of us now alive will develop cancer. Of those who develop cancer, two out of three at present rates, will die of the disease."

However, she said, "there is a great potential for saving lives now through earlier cancer detection and even prevention than ever before."

Mrs. Stuart issued a call for special gifts, business and house-to-house volunteers to join with her in the crusade against cancer, declaring that "many people are needed if the job that needs doing is to be done." She urged all persons interested in joining the fight against cancer as volunteers to get in touch with her at 1854 Bay Shore, Key Allegro.

MRS. HERRING DIES

Mrs. Laura Olivia Herring, pioneer resident, died at the home of her daughter, Mrs. J. C. Sorenson at the age of 84 years.

Editorial

FATHERS HAVE FAILED

Fathers, most of us have been led to believe, should be "pals" with their sons. Not much has been said, through the years, about relations with daughters. Generally, the fooling has been it is mother's task to be palsy-walsy with the daughters.

Now fathers are getting blamed for so many delinquent daughters. Dr. Tadeusz Grygier, director of research for the Canadian department of reform institutions, and also a member of the University of Toronto School of Social Work, has been looking in to the backgrounds of 105 girls at the Ontario Training School. He said his findings indicate fathers have been more negligent in fulfilling parental obligations with daughters than their mothers.

That's logical. Little girls have a way of looking up to father and perhaps it is wise for dad to take notice of the findings. Fathers also have a way of spoiling daughters—and that may not be good. But it's going to be rough on the old man, after being a real pal to a son, to come home and play dolls with Susie.

We spend about \$10 million a year for pills, salves, soaps, etc., to alleviate the miseries of nervousness and then vote politicians into office to cause a relapse.

If there's anything that travels faster in the digestive system than an aspirin, as advertised on TV, it's a \$1.50 steak in a high class restaurant.

sas county clerk for 42 years.

SCHOOL GROUP ENJOYS OUTING

EDITOR'S VIEWPOINTS

MAN WITH A FUTURE

That runnin' Jim Ryun is the talk of the track world with his 3:51.3 miles in California. Imagine breaking a world record of this importance at 19 years of age, with three years of college competition to go. A man with a future as well as a glowing present, we'd say. American youth gone soft? The greatest American miler ever, and holder of the first mile record since Glenn Cunningham 32 years ago, has an admiring nation cheering for him. It's enough to make one confident the country too is going to come out all right in the long run.—Chattanooga Times.

HOLIDAYS FOR HOUSEWIVES

One aim of a welfare state is to give everyone a sense of security, but even the power of the state can't provide for all contingencies. Consider Norway, where the government has gone so far as to guarantee a four-week annual holiday for housewives. When a housewife gets fed up with her lot, she calls the local branch of Housewives Relief which sends over an "acceptable" substitute to fill in for her.

We're all for easing housewives' chores, one way or another, but in this case something seems to have been overlooked. Namely, what happens to the housewife's sense of security if hubby finds the substitute is not just acceptable but superior?—Wall Street Journal.

DANCING WITH DETERGENT

A week after she began using a new soap, she became engaged. Right after switching to a new mouthwash, he landed a big contract—and The Girl. These are some unsophisticated examples of television commercial appealing to fantasies and unfulfilled desires. Some are subtler and some are far more prurient.

Dr. Albert A. Messer, an Emory University psychiatrist said advertising is not the only way the "sexual motor" is kept running at high level. But it reaches a wide audience, and it is bad for emotional stability. If people race their emotional motors over minor phases of life, what will be their response to more emotion-laden situations? "If a woman becomes ecstatic dancing with a box of detergent, what is left for her husband," he asked.

Dr. Messer believes the day will come when many people begin to recognize the untruths of advertising, and that when they do, they will "descend on the advertisers in such fury to make the plagues that afflicted Pharoah seem like child's play." — Atlanta Constitution.

ANTI-POVERTY WOES

There are a variety of reasons why the drive against poverty has not been better supported. In many communities City Hall was bypassed, and the projects turned over to amateurs. In others, such as Chicago, New York and Los Angeles, the anti-poverty money was like a bone being fought over by the political dogs. And, finally, to many cities too much of the money was spent on administration or peripheral projects, and not enough on a meat-and-potatoes program for getting people to work on decent jobs as the first and basic step upward.—Hartford Courant.

AGE MAKES THE DIFFERENCE

A 41-year-old man recently kept the Port of Monaco entertained by walking a half-mile tightrope stretched across the port. He now plans to attempt the same feat at Niagara Falls. The important feature in this bit of news is that the fact was accomplished by a man 42 years of age. Had he been 21 or younger the whole thing would have been condemned as the senseless folly of youth. Performed by a mature citizen of 42, it is obviously an adult scientific accomplishment of note.—Windsor (Ont.) Star.

Highway Construction to Cost Half Billion Yearly By 1985

Texas will need to invest more than one-half billion dollars a year in new highway construction by 1985 to keep pace with the growth of the state, a new study panel released today by the Texas Highway Department predicted.

The forecast was contained in a brochure entitled, "The Great Challenge . . . Texas Highway Needs." The report

is based on projections made by planners in the Department.

By comparison construction expenditures in Texas in 1966 were \$348 million.

A highway system to meet the challenge of the future requires active, alert public support, the brochure said. It also requires sound, adequate financing.

"The public should be alert to any attempts to divert or disperse any current high revenues," the report warned. It added.

"The failure—even by one day—to fulfill the obligation to build better, safer highways will be costly in human life and suffering. The economic loss is irrecoverable."

The report pointed out: "A vibrant economy produces its own problems. Population growth, the rapid urbanization of Texas, the increasing number of motor vehicles and the complexities of modern society compel a constant vigilance."

By 1985, the brochure noted, Texans will drive a total of more than 77 billion vehicle miles each year, compared with 52 billion vehicle miles rolled up in the state in 1965.

Vehicle registration will more than double—from 6.2 million to about 14 million in the next two decades.

To keep pace, the State-maintained highway system is expected to grow to a total of 79 thousand miles. Presently, 66.5 thousand miles of highways are under State maintenance.

More significant, Highway Department planners said more miles of high type highways will be needed to carry ever-increasing burdens of traffic. In the next two decades, 17 thousand construction miles of new freeways should be built, including traffic arteries on new locations and conversion of older, conventional roads to freeways.

In general, all existing highways will require one reconstruction and two resurfacings before 1985. All bridges built prior to World War II will require replacement.

The report notes the role of the highway system in the unprecedented growth and development of the state during recent years.

The Texas Highway Commission presented the report to Gov. John B. Connally as an aid to consideration of Texas.

SIPE REAL ESTATE INSTALLS NEON SIGN

A neon sign 3 feet wide by 13 feet high, reading "Sipe, Inc.," was installed this week on the corner of Highway 35 and Market Street where Sipe Real Estate offices are located.

This sign is one of Burl Wagley's "trophies" from a recent auction. He also bought at auction a sign which will later be installed at the Wagley Lumber Co. Being a more complicated sign, this one is taking longer to convert the lettering.

CONGRATULATIONS

Mr. and Mrs. Jackie Smith of Ganado are proud parents of an eight pound boy born Feb. 22. He has been named Todd Lloyd.

Maternal grandparents are Mr. and Mrs. Meruen Reed, Renton, Wash. Paternal grandparents are Mr. and Mrs. Lloyd Smith of Rockport. Mrs. Smith returned home Monday from Ganado where she had been taking care of the grandson.

When the driller got off the offshore rig, the first thing he did was head for a nearby gambling joint. At the dice table, he laid a \$100 bet. He shook the dice, but as he threw them a third cube fell from his sleeve.

The stickman was unruffled. He handled back two of the dice and pocketed the third, saying, "O.K., roll again. Your point is 15".—Warren Gas Line.

C OF C BANQUET—
(continued from page 1)

Aalbert Heine, director of the Corpus Christi Museum, told the audience of 200 that "80 per cent of what is known today was not known 10 years ago."

He discussed some of the scientific developments that have taken place and pointed out that advances are coming so fast that even experts in various fields are unable to keep posted on the latest happenings in their own line of endeavor.

The major part of his talk was a humorous dissertation on superstitions and ignorance which account for many people "being afraid" of a 13th floor and believing in astrologists' ability to foretell the future.

Dr. Heine was introduced by John R. Kinsey, manager of the Chamber of Commerce.

The retiring president, John E. Ross, received a certificate of appreciation for his service, and then gave a report on some of the Chamber's accomplishments in 1966.

He cited plans for improvement of the downtown area including a new lighting system; promotion of the Rockport area by means of color photos and written material in the Texas Tropical Coast magazine; bus tours of this area; setting up an employment bureau at Chamber headquarters;

The causeway dedication, purchasing new office equipment; greeting the Texas Air Tour Club whose members were so pleased that they will return this year for a longer stay; moving the huge crab sign to the Navigation District park just south of the Woman's Club building;

Chartering a special bus for the state basketball tournament; increasing number of members; reactivating the United Fund; increasing the Chamber's treasury; providing trophies for Toast of the Coast relays; and sponsoring the community Christmas tree on Rockport Beach and the Christmas decorations contest for homes and business establishments.

Ed Harper, the new president, outlined some of the Chamber's objectives for 1967, including:

Making the Rockport area a haven for the retired; keeping visitors here an extra day or more; considering a civic center; bringing more light industry here; producing attractive promotion brochures; working with the city, county and navigation district;

Holding hospitality clinics for the service station employees store clerks and others who meet the public to be sure that good public relations techniques are used.

PRESBYTERIAN WOMEN HOLD MEETING

The general meeting of the Presbyterian Women of the Church was held March 2 at the church.

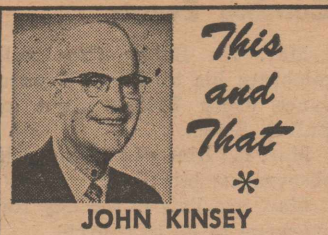

President pro-tem, Mrs. Byron Bushart, called the meeting to order. The opening prayer was given by Mrs. Ed. Godde. The minutes of the last meeting were read by the secretary and approved. The treasurer's report was read and approved.

Mrs. Hugh Morrison moder-

ated the program on "Evangelism." She was assisted by Mrs. Fred Brundrett, Mrs. Donald Meek, Mrs. J. S. Tennant, Mrs. W. P. Pettitt, and Mrs. C. G. Melton.

The meeting was closed with a prayer given by Mrs. C. G. Melton.

Mr. and Mrs. Bruce Davis, Bart and Cathy of Houston spent the weekend with their parents, Mr. and Mrs. S. F. Jackson and Mr. and Mrs. A. L. Davis.

JOHN KINSEY

Seems like everyone has the same problem—not enough time to do everything you'd like to do.

Pondering this, I got to thinking about some of the things I'd like to do but just don't get around to doing.

Some of these things are: Reading more books, playing more golf to get in better physical condition, writing more letters to relatives and friends, having the time to dig up and write more feature stories.

These stories include one about a blind man who is a travel trailer enthusiast, who fishes, works on his car and trailer, and always has a smile and a friendly greeting. He and his wife are among the happiest couples I know.

Another article would (or will) concern a gentleman who was an orthodox Jew as a youngster, became an atheist at 17, and later was in a German concentration camp where he accepted Christ. Still later he became a Baptist minister.

So many people said so many nice things about the Chamber of Commerce banquet that everyone who had anything to do with planning the event was pleased and grateful.

After Dr. Heine's humorous talk, Mrs. Charles Roe, Sr., went up to him and said, "You don't know me but I want you to know that I think you missed your calling. Instead of being a museum director, I think you should be on network television bringing your humor to the entire country. I think you are much more humorous than most of the big-name humorists on TV."

And there were many complimentary remarks about the talks given by Johnny Ross and Ed Harper and the fine job R. L. Eckman did as master of ceremonies.

Of course, everyone was delighted that Mrs. Connie Hagar was the recipient of the "Outstanding Citizen of the Year" award. And she swears that she didn't have even the faintest idea that this honor would be bestowed on her.

She thought the only honor coming her way was the official announcement that the Texas House of Representatives had passed the bill changing the name of Rockport Wildlife Sanctuary to the Connie Hagar Wildlife Sanctuary.

Other folks commented about the excellent food, the beauty of the banquet room, the unique and attractive floral decorations featuring a nautical theme.

A wonderful round of applause came when Mary Juergens was awarded a certificate of appreciation and a gift on the eve of her retirement as secretary of the Chamber of Commerce. Mary has given 16 years as "Mrs. Chamber of Commerce" and she will be greatly missed by not only by Chamber directors and members but by the entire Rockport area.

Letter to the Editor

POETRY SOCIETY OF
TEXAS

March 3, 1967

Messrs. R. Roy Woods and Roy V. Rogero, Editors
The Rockport Pilot
Rockport, Texas 78382
Gentlemen:

From time to time, Mr. James D. Donaldson, a local Councilor for the Poetry Society of Texas has sent me clippings covering his Councilor activities in Rockport in the interest of poetry.

The Executive Committee of the Society wishes to thank you for your splendid cooperation in helping to expand and enhance the image of poetry as a cultural medium in Texas. There are uncounted benefits which have been derived from reading and memorizing the subtle philosophies of good poetry. I recall many enduring effects which poetry made on my life, learned in childhood, and my mother used Scriptures and good short verses to discipline us. They always seemed to tell us more than a hard scold or a whipping which we always resented. She backed up what she wanted to say by joining the famous poets to relay her message.

Mr. Donaldson is a good poet as his many winnings of contests have demonstrated. He is thoroughly competent to counsel other poets on form, thought and subject matter. I hope he will soon be able to establish a local chapter of Poetry Society of Texas in Rockport — that romantic area of the State. The Headquarters staff join Mr. Donaldson in appreciation of the fine publicity you have been giving to poetry.

Sincerely,

Mabel May Chancellor
Supervisor of Councilors
P.S. Incidentally, I congratulate you on the fine make-up of your paper. I think it very well organized, indeed. MMC.
