

GIANT RADISH — Dee Caylor is shown with one of his prize radishes grown in his garden. The argument was that it was a turnip, but after cutting the 2½ lb., giant, it indeed was a radish and still firm throughout. — (Staff Photo)

Citizens' input is sought for grant

The Post city council will hold a final public meeting for citizen input on what projects should be applied for in a federal community development block grant to HUD.

The hearing is scheduled for the bank community room at 7 p.m. Thursday, Nov. 13.

The council voted in October to make application for the block grant by January and Barbara Ellis has been employed to help prepare the application.

In such block grants, the city can apply for a single purpose grant for a maximum of \$600,000 or up to \$3,225,000 maximum on a three-year comprehensive program covering a variety of projects.

The city pays only the cost of the application with the federal agency provided 100 percent of the funds for use to aid the community's economic disadvantage.

Meeting with the council Monday night, Mrs. Ellis said the council can consider asking for a replacement housing program, a daycare facility, paving, sidewalks, and curb and gutter in low income areas of the city, and funds to hook up homes of the poor to the city sewer system.

She said some cities spend up to \$5,000 per home to improve substandard housing of the poor with no financial requirement of the homeowner.

Slaton has been in the program for over three years and spends more than \$5,000 per home to make such improvements.

The public hearing is required as a part of the application to give the

Snyder man beaten here

Ventura Garcia of Snyder is in Health Science Center Hospital in Lubbock suffering from severe head injuries from a beating suffered here at a Blue Bird Inn fracas last Wednesday night.

Sheriff Jim Pippin reports he may permanently lose his eyesight and has suffered an undetermined amount of brain damage from the beating.

Fredrico Sam Garcia of Slaton, no relation to the beaten man, was arrested and charged with assault, a class A misdemeanor, in connection with the fight. He was released on \$750 bail bond.

Pippin said other charges may be filed in the case depending upon the beaten man's condition.

Autograph party set for Nov. 29

The Garza County Historical Commission will meet for its November meeting at 10 a.m. Tuesday, Nov. 16, in the bank community room to make plans for an autograph party for the second printing of the county's history, "Wagon Wheels."

The party will be held in the county museum Saturday, Nov. 29.

general public the opportunity to voice what it considers to be its most important needs.

Everybody will be welcomed to speak his or her piece next Thursday night, Mrs. Maxine Marks, who is

In only county contest—

Sheriff Pippin wins 2nd term

Sheriff Jim Pippin was reelected Tuesday to a second four-year term in the only county race on the general election ballot.

He defeated G. M. (Max) Chaffin 1,178 to 667.

Chaffin is the first Republican ever to run for sheriff in Garza County. He made the race 10 years ago as an independent.

Pippin carried every one of the voting boxes as well

spearheading the block application for the council, told The Dispatch Tuesday.

Mrs. Ellis said she and Mrs. Marks and Mrs. Sue Shytles had surveyed the city and selected the

(See *Input sought*, Page 14)

Phone firm asks for complaints

Three General Telephone officials told the city council here Monday night that the utility firm has spent \$750,000 on the Post phone

system in the last four years and soon will have a permanent maintenance man stationed in the local telephone exchange building.

The trio appeared before the council to hear any complaints on telephone service.

Through The Dispatch they invited all local phone users to voice any service complaints through channels.

The three were Fred Wright and Charles Orum of Brownfield and Jerry Slaughter of Lamesa.

Wanda Wilkerson, city clerk, reported the city hall phone was somehow hooked into three different conversations in a row when she tried to dial out the other day.

That's when the permanent maintenance man for the phone exchange her was

Sponsored by Post Music Club— City choirs in concert Monday

The Post Music Club's annual Sacred Music Concert will be presented at 7:30 p.m. Monday, Nov. 10, in the First United Methodist Church with Phil Alford as coordinator of the concert.

Seven churches will participate in the program which each year draws a capacity crowd.

Selections by the various choirs for the concert will include:

"In the Upper Room" by the First Christian Church choir under director Larry Farris.

The First Methodist Church Alleluia choir will

sing, "Holly Manna" and the Covenant Ringers will present "Arioso."

"Born Again" will be sung by the Calvary Baptist Youth choir under the direction of Kay Hays.

The First Baptist Church's adult choir will sing "And This is Love."

Sylvia Evans of the Church of the Nazarene will sing a solo, title unannounced.

Also appearing on the program will be the "Sisters in Song", the youth choir of the Pleasant Home Baptist Church and the choir of the Church of God of Prophecy.

Reagan landslide in Garza, Texas, nation

In sweeping to a surprisingly decisive victory in the presidential election Tuesday, Ronald Reagan and George Bush score a lopsided triumph in Garza County.

They won eight out of the nine boxes over the Carter-Mondale ticket as well as the absentee ballots to roll up 922 votes to 467 for their Democratic opponents.

A total of 1,923 Garza voters went to the polls Tuesday, one of the largest turnouts in recent years. That represented 69 percent of the 2,785 eligible voters.

John Anderson was not a factor at all in this county, picking up but 22 votes.

Reagan became only the second Republican presidential nominee to carry this county. Dwight Eisenhower did it the first time in 1956, but only by a four vote margin.

The few state races on the ballot saw the Democratic nominees win both in this county and turnout the state.

Buddy Temple, D, got 832 votes here for railroad commissioner to 615 for Henry C. (Hank) Grover. James E. (Jim) nNugent was a 809 to 725 winner over J.J. (Doc) Blanchard, formerly of Lubbock, for the railroad commissioner, unexpired term.

James P. (Jim) Wallace got 881 votes to 570 for Jim Brady for associate justice, supreme court, place 1. C. L. Ray, Democrat, got 640 votes to 419 for Republican Will Garwood for associate justice supreme court place 4, unexpired.

Those were the only races on the ballot except for the Garza sheriff's race.

Congressman Charles W. Stenholm, unopposed, rolled up 1,110 votes in this county. State Representative W. S. (Bill) Healy, also unopposed got 1050 votes here.

District Attorney Joe Smith had 1,108 votes.

Only two or three of the constitutional amendments were carrying statewide when The Dispatch went to press Wednesday.

Here in Garza County, amendment No. 1, for unmanned teller machines carried 764 to 695.

Amendment No. 2 for state appeal of pre-trial motion went down to defeat 862 to 488; amendment No. 3 for single board of equalization trailed 952 to 440; amendment No. 4 to legalize bingo via local option was beaten 738 to 728.

Amendment No. 5 to give more fiscal control to the governor lost here 985 to 397; amendment No. 6, permitting governor to remove appointed officers, carried easily 1,206 to 573; Amendment No. 7, permitting private road work in counties under 5,000 population carried here 751 to 651; amendment No. 8 on a variety of court changes was beaten in Garza 869 to 447; and Amendment No. 9, permitting spouses to agree on income division arising from separate property, carried here 737 to 674.

Eight of Garza's nine boxes reported complete to the county clerk's office by 9:30 p.m., but the big No. 1 box at the Presbyterian church, which drew 412 voters had some difficulties and didn't finish until 11:40 p.m., hours after President Carter had conceded and gone to bed.

Amendment No. 9, permitting private road work in counties under 5,000 population carried here 751 to 651; amendment No. 8 on a variety of court changes was beaten in Garza 869 to 447; and Amendment No. 9, permitting spouses to agree on income division arising from separate property, carried here 737 to 674.

Eight of Garza's nine boxes reported complete to the county clerk's office by 9:30 p.m., but the big No. 1 box at the Presbyterian church, which drew 412 voters had some difficulties and didn't finish until 11:40 p.m., hours after President Carter had conceded and gone to bed.

That's when the permanent maintenance man for the phone exchange her was

Number 23

City buys IBM computer

The City of Post moved into the "computer age" Monday night with the council's decision to purchase an IBM 5120 computer to handle water billings and general city bookkeeping at city hall.

The new computer will cost \$14,395 plus \$54 transportation charge and is available for immediate delivery from Lubbock.

The software, or programming for the computer, will be purchased from

another firm than IBM as IBM does not handle the computer programming.

Monthly maintenance on the computer will cost another \$134.50 per month.

Of the purchase price \$1,020 is for a year's pay-

ment for the BRADSII system, at \$85 per month, through which the user can tell the computer what else is wanted and the computer will write its own program to solve the problem.

IBM has its 5120 computer installed with the cities of Levelland, Seminole, and Denver City in West Texas and other IBM computer models at Spur and Snyder.

The software for the computer — the programs in other words — will cost an estimated \$5,000 to \$6,000 additional.

IBM conducts training classes every Friday in Lubbock to train personnel in computer usage and this is free to all computer buyers.

An IBM spokesman told the council over 7,000 of the 5120 computers already have been installed throughout the country.

As for servicing, the spokesman promised that a repairman will show up within two hours 85 percent of the time and that computer parts are stored in Lubbock.

A second computer firm, Accounting Systems, offered bids on four other brands of computer, recommending the C1000 model for \$16,950 with software costing \$6,000 and a monthly maintenance contract of \$161 monthly.

In other actions, the council:

Postponed appointment of new airport board members until the next council meeting.

Voted to advertise for bids for 1981 leasing of approximately 61 acres of pastureland, which was part of the former city water field.

Approved the request of Bill Criswell to install butane tanks on his property, but the request still must be approved by the Texas Railroad Commission and adjacent property owners.

Reappointed Don Smith to another three year term as a White River Water District director and named Larry Willard to replace Lewis Herron as a second White River director for

Dispatch Editorials

Page 2 Thursday, Nov. 6, 1980 The Post (Tex.) Dispatch

The big Reagan surprise

Republican Ronald Reagan's smashing victory in Tuesday's presidential election brings us to two conclusions.

One is that the majority of voters the nation over wanted no more of Jimmy Carter's inept leadership. The second is that a strong conservative tide is now sweeping the nation. Not only in the West and Midwest, but across most of the South and even through the East.

Reagan's victory in Garza County was surprising in its size even to his strong supporters. He carried every one of the nine voting boxes but one, and the absentee vote by a big margin.

The only box he lost was the minority box at the Lorenzo Alexander Community Center.

In the Close City box, the farmers voted Reagan over Carter by better than 6 to 1.

Thus Reagan became only the second Republican presidential candidate to carry this traditionally Democratic county. Ike Eisenhower did it first in 1956 by a scant margin of four votes.

Reagan will go into the presidency as the oldest man ever elected to the nation's highest office. But America has no worries there. A "heartbeat away" is George Bush, the most experienced man really in the presidential race.

It will be interesting to see how much the Reagan-Bush team can accomplish in the next four years.

The office of the presidency is really far too big for any single man. So Reagan's ability to attract top caliber men onto his team is all important.

The pollsters weren't wrong, but they

certainly didn't predict the electoral vote landslide which came through for Reagan.

Most of the polls had Reagan a winner in a very tight vote. Actually, the popular vote was a whole lot closer than one would imagine. But it was consistent all across the country. Carter came out ahead in only a very few states.

The big "swing" to Reagan began with the Carter-Reagan televised debate.

The experts didn't see Reagan as such a big winner of the debate at the time. But they have concluded now that it was that 90 minute confrontation with Carter on the tube which started the Reagan landslide rolling.

It was hard to predict what would happen right here in Garza County. One didn't hear any Carter support, but then again one doesn't really hear very much politics around here anymore, though it was apparent Reagan supporters did a lot of work to help bring that victory about.

Reagan's tide ran so strong Tuesday that he was carrying on his coattails enough Republican senatorial candidates to give the GOP the possibility of slim control over the senate. Reagan supporters scored big gains in the house as well, but not enough to take control.

It was virtually conceded before the election that because of his age, Reagan will serve only as a one-term president. That means Texas George Bush, as Reagan's Texas running mate, will get his shot at the White House in 1984.

His chances will depend in large part on how well the Reagan-Bush team performs in the Washington pressure cooker these next four years.

Support United Fund

The 1981 Garza United Fund drive merits your solid support.

Almost all of the \$11,175 goal will stay in Garza County to support worthwhile local projects such as the girl scouts, little league, minor league, Babe Ruth league, teen age league, Post special school, and meals on wheels.

The \$50 which will go to the Garza United Fund will be solely for drive expenses.

The boy scouts, red cross, USO are all worthwhile organizations.

The United Fund's budget committee screens every request which is accepted into the budget to be sure that every dollar raised goes to a worthwhile cause with a true need.

The United Fund goal was raised a thousand dollars this year and could have been hiked a couple of thousand more from

the worthiness of the requests received. But it was felt a larger goal would be out of reach.

The United Fund is organized in its drive to reach the giver at his business or place of work.

But there are many individuals which year after year we do not make contact with. It is to these folks this editorial appeal is addressed.

Volunteer your donation if not contacted by a campaign worker. Put your dollars to work for getting a lot of good done right here in your hometown.

The Dispatch or the bank will be glad to accept any such donations. The need is here. Small towns are surprisingly busy places. So step forward — and do your part.

Happy Birthday

Garza well is completed

One new well completion and two more locations for Garza County this week highlights the oil news.

The new well is American Petrofina Co. of Texas No. 211 Southeast Garza Unit, two miles south of Post,

which produced 59 barrels of oil daily and 105 barrels of water from an interval of 2,831 to 2,987 feet. The well was drilled to 3,202 feet.

The new locations are Sidwell Oil & Gas Inc. No. 1-A Welch and No. 1 Cross,

both located 10 miles north of Post. Each will be drilled to 3,300 feet.

The first known seals were engraved in marble and petrified shells.

Thank You

I would like to thank the hospital staff and Dr. Wilson. Our friends for every prayer, visit, and phone call while I was in the hospital and since I have been home.
Opal Nowell

Thanks for your kind words, thoughts, cards and most of all your prayers while I was in the hospital and for the visits and food since I came home. It will never be forgotten. God Bless you is our prayer.
Zillah Huddleston and Johnnie Ward (My Brother)

Homer Gordon

Bridal shower for Mrs. Abraham

A bridal shower honoring Mrs. Cain Abraham, the former Anita Looney, was held recently in the home of Mrs. Robert Craig.

Yellow and blue corsages were presented to the honoree, her mother, Mrs. Betty Looney and her mother-in-law, Mrs. Abel Abraham.

Amity club studies Sarah

Janie Middleton presented a program entitled "An Inspiring Treasure" for the Amity Study Club when it met Tuesday, Oct. 28 in the Woman's Clubhouse. The presentation was centered around Sarah, an interesting and inspiring character from the Bible. Several accounts of her life were recalled during the meeting.

Janet Peel, president, presided over the meeting with Marion Wheatley and Inez Hartel serving as hostesses for the meeting. Janie Davis gave the meditation and Anne Leake gave the federation report.

Members present were Janie Davis, Mattie Collier, Thelma Clark, Ida Wilks, Joy Dickson, Linda Linn, Carolyn Sawyers, Helen Miller, Judy McAlister, Boo Olsen, Anne Leake, Martha McLendon, Margaret Bull, Joy Pool, Marion Wheatley, Inez Hartel and Janie Middleton.

Hospital Notes

Those admitted to Garza Memorial Hospital since Thursday of last week were Vada Clary, medical; Chester Keeton, medical; Odie Tew, medical; Linda Romero, medical; Ruby Shedd, medical; Douglas Vollmer, medical; Janie Stark, medical; Ralph Heibner, medical; Maria Villa, O.B. and Ruby Woodard, medical.

Those dismissed were Jackie Peavler, Marsha Hart, Mitchell J. Malouf, Mack Warren, Vada Clary, Opal Nowell, Linda Romero, Chester Keeton, Douglas Vollmer, Janie Stark and Maria Villa.

The bride's chosen colors of pastel yellow, blue, and peach were carried out on the serving table, which was laid with a peach lined white tablecloth. Centered on the table was a blue and yellow silk flower arrangement. Peach candles flanked the arrangement and yellow streamers with the names Anita and Cain written on them lay in front.

Punch, coffee, sausage balls and cookies were served from crystal appointments by Mrs. Sherry Pollard and Mrs. Diana Looney.

A hostess gift of a vacuum cleaner was presented to the honoree.

Hostesses for the occasion were Mrs. Sherry Pollard, Mrs. Sammie Pollard, Mrs. Linda Lewis, Mrs. Jane Smith, Mrs. Agnes Welch, Mrs. Marie Davis, Mrs. D'Linda Evans and Mrs. Patsy Craig.

'Sisters' are revealed

Members of Xi Delta Rho revealed Secret Sisters, and drew names for new ones during their recent meeting. The meeting was held in the home of Lois Kennedy.

Also members of the sorority and their husbands enjoyed a Halloween party held Friday night, Oct. 31 in the home of Janice Smith.

Members attending the recent club meeting were Susan Cardinal, Nancy Shaw, Voda Beth Gradine, Joyce Teaff, Margaret Price, Cheryl Blair, Karen Pennell, Lois Kennedy, Bernice Eubanks, Kay Hays, Janice Smith, Johnnie Francis, Christy Morris, Phyllis Bennett and Jenny Francis.

The next meeting of the club will be Monday, Nov. 10 in the home of Nancy Shaw.

ENGAGEMENT ANNOUNCED — Mr. and Mrs. Joe Giddens announce the engagement and approaching marriage of their daughter, Dana, to Rick Mantooth, son of Mr. and Mrs. Ricky Mantooth of New Home. The couple plans a Dec. 28 wedding in the First United Methodist Church in Post.

735 library books checked out here

Post Public Library patrons checked out 735 books in October, Librarian Pee Wee Pierce reports in her monthly summary of library activities.

This brings to 7,867 the number of books checked out in the first 10 months of the year.

Three of the library's new framed art prints also were checked out.

Thirty-five new books were added to library shelves during the month to bring acquisitions for the year to date to 352.

Thirty reference questions were answered during the month and four books borrowed on interlibrary loan for local patrons from other libraries in the Texas Library system.

The library's movie projector was checked out eight times during the month and films shown to 375 persons. Film strips were shown in the library during the month to 34 persons.

Wedding to be Dec. 26

The parents of Nancy Jo McCowen announce the engagement and approaching marriage of their daughter to Dennis L. McDonald, son of Mr. and Mrs. B. R. McDonald.

Nancy is a 1978 graduate of PHS and is now a student at Texas Tech. She is currently employed at Terry's Tire.

Dennis is a 1975 graduate of PHS and is a self-employed farmer in the Graham community.

The wedding is planned for Dec. 26 in the First United Methodist church in Post.

Fines, book sales and donations for October totaled \$91.49, bringing to \$303.57 the miscellaneous income for the year to date.

Brownie scouts give Reagan edge

Brownie Scout troop 235 met Thursday, Oct. 30 for a program that helped them understand what politics is all about.

The program was presented by Dick Tanner, representing the Democrats, and Mary Ann Gordon, representing the Republicans, as they explained some of the issues of the day.

Following the program the Brownies voted with Reagan winning 9 to 8 when the votes were counted.

Nuptials held here Sunday

Pauline Squires of Sweetwater and Albert Howard of Midland exchanged wedding vows Sunday afternoon, Nov. 2 in the home of Mrs. Bessie Howard, mother of the groom.

The Rev. Billie S. Smith of Lubbock performed the double ring ceremony.

Audrey Bishop of Slaton, sister of the groom, was matron of honor with Carl Cederholm, uncle of the groom, serving as best man.

Guests for the occasion were Mrs. Bessie Howard, Mr. and Mrs. Carl Cederholm, Mr. and Mrs. Donald Pennell of Southland, Mrs. Audrey Bishop of Slaton and Mrs. Lena Ferguson.

The couple will be at home in Midland. Howard is employed with Midland Paint and Body Shop. Mrs. Howard is the mother of Paula Smith and Bobbie Parker, both of Sweetwater.

Modeling at Hobby club

The Grassland Hobby club met recently in the community center with the club president, Mrs. Fay Melton, presiding over the meeting.

Each person brought something of a hobby to show or model with a variety of items being brought. These included three-piece suits, blouses, slacks, cross stitched items, hooked pillows, afaghans, beaded tree decorations, Christmas candles, pictures, canned fruits, vegetables and pickles, and last but not least a rocking chair handmade of clothes pins.

The next meeting will be delayed because of election day, and will be held on Thursday afternoon, Nov. 6 at 2:30 p.m. in Tahoka at the home of Mrs. Lena Short.

Grassland area ladies are encouraged to attend and to bring a friend to the regular meetings of the club.

By Elaine Monroe, Fashion Director, Sears, Roebuck and Co.

If you only wear something on your head to keep you warm, you're missing out! A hat can polish off an outfit in a special way, making you look (and feel) terrific.

But don't just plunk any hat on your head; choose it in terms of your outfit.

WHAT'S A-HEAD? Hats and more hats—they're back and looking better than ever. One example is the big beret in corduroy, \$7 in Sears Fall Catalog.

One new topping for fall's skirt and trouser outfits is the oversize corduroy beret shown here. A classic felt beret is also good with sporty clothes; a lacy-knit one is pretty with soft dresses.

To top off the hit menswear look try a newsboy cap, the snappy visored style you pull down at a jaunty angle. More fall headlines are rollers, fedoras and cozy knit caps—this year the caps are worn way down on the forehead and rolled.

Freedom Not To Join
Just as the Constitution guarantees all Americans the right of association—the right of persons to act together for some common purpose without public grant or charter—most Americans agree we all have an equal right not to join private organizations.

MUSHROOM LOVERS' SAUCE FOR PASTA

Mushroom sauces for spaghetti often consist of a few sliced mushrooms in tomato sauce. For a change, here's a sauce with real mushroom character, suggested by the American Mushroom Institute:

MUSHROOM ONION SAUCE FOR SPAGHETTI

- | | |
|--|---|
| 1 pound fresh mushrooms or 2 cans (6 to 8 oz. each) sliced mushrooms | 1/2 teaspoon basil leaves, crushed |
| 1/4 cup butter or margarine | 1/4 teaspoon ground black pepper |
| 1/2 cup chopped onion | 1 pint half and half |
| 2 tablespoons lemon juice | 1 pound spaghetti, cooked, rinsed and drained |
| 3 tablespoons flour | |
| 1-1/4 teaspoons salt | |

Rinse, pat dry and slice fresh mushrooms (makes about 5 cups) or drain canned mushrooms. In a large skillet melt butter. Add mushrooms and onion. Cook over low heat, stirring often, until mushrooms are golden, about 5 minutes. Remove from heat. Stir in lemon juice. Blend in flour, salt, basil and black pepper. Gradually stir in half and half. Cook and stir until sauce bubbles and thickens, about 5 minutes. Spoon over hot spaghetti. Serve immediately. Yield: 6 portions.

NEWS Of Education

Nationwide Scholarship Program For High School Seniors

A nationwide, quarter million dollars, scholarship program for high school seniors graduating with the class of 1979, is being offered this fall by the National Association of Secondary School Principals. Members of the Class of 1979 are encouraged to enter the third annual Century III Leaders Program, which offers 102 students the opportunity to participate in an expense-paid, three-day symposium at historic Williamsburg, Virginia in March.

The grand national winner will receive a \$10,000 scholarship, and 102 state winners will each receive \$1,500 scholarship grants. Two other seniors in each state will each receive \$500 scholarships.

Local winners will be selected on the basis of a knowledge of current events, and an application that reflects their leadership activities. These winners will be required to write a brief projection, outlining what they see as one of America's future challenges and how it should be met.

The 102 state winners invited to participate in the Williamsburg experience, will have demonstrated a grasp of current affairs in social, governmental or international areas, as well as thoughtful concern for solving these problems in the future.

The program is administered by the NASSP and funded by the Shell Oil Company.

Fashion FORECASTS

WHAT TO EXPECT

A Mink In Your Future?

Richly beautiful, timeless elegant—mink is synonymous with magic. So it's no wonder that designers are capitalizing on mink to express the new layered look: vests, shawls, pullovers and jackets. Most of these pieces can be worn in the city or the country, day or evening.

ABLAZE IN A MINK BLAZER designed by Kaspar.

The blazer, an all-time fashion classic, is right up front in mink this year in a slightly longer version with enough roominess to put plenty of layers beneath it.

Other chic accessories include stoles from small to poncho dimensions, cardigan jackets, pullover tunics, poplin reversible minks and lots of jackets and scarves with jaunty mink tails.

When selecting a mink jacket, look for a silhouette that complements everything in your wardrobe. It should look great with pants, skirts and party pajamas since no one reserves furs exclusively for evening wear any more. In addition, a color that illuminates your complexion will be most flattering.

Tigers edge Antelopes, 15-12 in wild 4th

Late pass theft seals defeat

An end zone interception with only 36 seconds on the clock ended the Post Antelopes bid for victory at Wolfthorpe Friday night as the Frenship Tigers pulled out a 15 to 12 district triumph in the wildest fourth quarter of the season.

Early in the final period, the Lopes, down 6 to 7, had marched 64 yards for the go-ahead touchdown, only to see the Tigers take the ensuing kickoff and move 70 yards for their winning six-pointer with 3:05 left in the game.

Then here came the Lopes again. Mark Holly took the kickoff and broke through the Tigers to exactly midfield before the last Frenship tackler brought him down.

Five running plays took the ball to the Frenship 24 for a first with 1:32 on the clock. A nine-yard pass to end Bill Black and a two-yard run by Alonzo Luna gave the Lopes a first on the Frenship 10. Quarterback Drew Kirkpatrick got two outside.

Then he faded and tried to hit to hit Holly running right in the end zone, but Safety Pat Gaston leaped in front of the Lopes end at the last second to make the interception.

Gaston, who also was the senior 147-pound quarterback of the Tigers, was carried off the field after injuring an ankle making the interception.

But he was the Halloween goblin as far as the Lopes were concerned.

Not counting two "sacks" trying to pass, Gaston darted 103 yards on "keepers" for the game's outstanding individual performance, scored one touchdown and pitched to his halfback for the other touchdown and to his fullback on a two-point conversion play.

Frenship scored in the initial period on their first possession, driving 72 yards on the ground with Gaston getting 62 of them, including the touchdown, on seven carries. Fullback Ken Attaway converted from placement and it was 7-0 with 3:54 left in the first period.

The Lopes came right back after Holly had returned the kickoff to the Post 39. In 10 plays, they ran it 56 yards to the Frenship five where Luna fumbled the ball away after making a 14 yard run.

There was just 2:57 on the first half clock when Mario Luna recovered a Frenship fumble on the Tiger 21.

Quarterback Kirkpatrick ran three straight times for a 16 yard total and a first down on the Frenship five. Taking the handoff on the next play, Tailback Luna would not be denied and slammed across the goal line with a great individual effort.

End Gary Lamb then missed his first conversion effort of the season and Frenship led 7-6.

Fullback Barry Wyatt reinjured his knee at the beginning of the second quarter after a fine first period effort and was out the rest of the game with Richard Cisneros moving to fullback.

In the third period, Gary Lamb recovered Frenship's second lost fumble on the Tiger 29, but Post was hit with a 15-yard holding call. Luna got seven, but then Post got another five yard penalty for too much time getting off a play.

Post	Frenship
14	First downs 14
237	Yds Rushing 173
2 of 9	Passes 2 of 4
31	Yds Passing 4
0	Opp. Passes Int by 1
3-45	Punts, Ave. 3-37
4-30	Penalties 0-0
1-1	Fumbles, lost 4-2

On third down Kirkpatrick got loose around right end for 22 yards to the Frenship 23.

With fourth and five, Cisneros got the call on a shot up the middle and got four to turn the ball over to the Tigers.

Late in the third, after forcing a Frenship kick, the Lopes took over on their own 36 and drove 64 yards for the go-ahead score, 12-7, with 8:59 left in the fourth.

Luna, who had 98 yards for the game in 18 carries, broke for 12 yards to the Frenship 1 before being knocked out of bounds. But Post got its fourth flag on the play for "illegal procedure" to move the ball back to the Tiger 18.

Kirkpatrick was stopped for no gain and a Kirkpatrick pass was dropped making it fourth and nine on the 18.

Kirkpatrick then lofted a high toss into the end zone. Holly, sandwiched between two defenders, outjumped them both to pull in the ball for the touchdown.

The Lopes went for a two-point conversion, leading 12-7, but Kirkpatrick's pass was incomplete in the end zone.

The Lopes defense, the strongest part of Post play all season, then sagged as Frenship took the kickoff back to their 30 and then marched 70 yards on 12 running plays for the winning points.

Halfback Johnny Johnson took a pitch from Gaston and circled his left end on an option play for the last 13 yards to score standing up.

Frenship then converted for two points with fullback Attaway taking an option pitch left and running it in. Holly had one of his best games, punting three times for a 45 yard average, scoring the fourth period touchdown, and twice making big kickoff returns.

One of Holly's kicks was for 55 yards, and another occasion he booted one 44 yards dead on the Frenship four-yard-line.

The Lopes had the best of the statistics, outgaining the Tigers on the ground 237 yards to 173, although each team made 14 first downs.

Frenship didn't draw a single penalty. Post had only four for 30 yards but the flags that flew were on crucial offensive plays for the Lopes.

Kirkpatrick had 87 yards on 11 carries, behind Luna's 98, and Cisneros playing fullback for the final three periods had 34 yards in nine carries.

The loss continued the Lopes' unusual 1980 record of losing every game played on the road and winning every one at home.

SERMON TOPICS

Sermon topics for the Sunday worship services at the Post Church of Christ will be "Four Priority Promises" from II Cor. 13:5 for the 10:30 a.m. worship hour and "Start Praying" from John 17:20-24 for the 6 p.m. worship. Jack Sneed is minister of the church.

JVs bow to Frenship 15-6

The Post JVs were handed a 15 to 6 defeat in Antelope Stadium last Thursday night by the Frenship junior varsity.

Post put its points on the board first when the locals scored in a 13-yard run by Wingback Roy Gonzales to cap a 47-yard drive in the opening period. The center snap was fumbled on the conversion points try.

Frenship drove 80 yards for a touchdown late in the first to tie the game at 6-6. They tried a run off a fake kick formation on the conversion and failed.

The visitors then drove 91 yards in the second period and kicked a 20-yard field goal to go in front 9-6.

Frenship got its other touchdown on a 76-yard drive in the third period with the quarterback sneaking over.

Post got the ball to the Frenship 10 on two other occasions but fumbled the pigskin away both times.

Frenship rang up 21 first downs, 300 yards rushing and another 95 passing while holding Post to eight

first downs, 101 yards rushing, and 51 passing on four completions in eight tries.

Tailback Melvin Wynne was Post's leading rusher with 41 yards in 11 carries, his brother Marvin had 22 in

four, Tim Tannehill 21 in eight and Gonzales 13 on his touchdown run.

The JVs will journey to Cooper tonight to meet the cooper junior varsity in the nightcap of a twin bill, starting at 7:30 p.m.

Frenship edges 7th graders 6-0

Frenship scored a 6 to 0 win over Post's seventh grade gridders at Wolfthorpe last Thursday night with Post having a 70-yard td run by Tracy Price called back for clipping.

Post drove 50 yards in the final two minutes of play, reaching Frenship's 20 when time ran out.

Post fumbled the ball away twice deep in its own territory in the first period, but held Frenship and took the ball back on downs on both occasions.

Price led the Post rushers with 77 yards in 10 carries.

Steve Gomez had 11 yards on three carries, Simon Salinas nine on two, Rodney Tidwell seven on one, Keith Hart five on three, and Greg Adams five on three for a total of 114 yards.

Playing well both on offense and defense were Delton Osborn, James Mock, Thomas Basquez, David Shults, Price, and Donny Payne.

Outstanding on offense were Danny Foster, Gomez, Salinas, and Hart with Charo, Adams, R. Tidwell, Mike Bland, Rudy Garza, Russell Graves and Sammy Hardin playing well defensively.

The seventh graders will play Cooper here tonight with a 5:30 p.m. kickoff in Antelope Stadium.

Don Rogers family back for visit

Don Rogers, his wife Phyllis and baby daughter, Su'Lin, of Singapore, are visiting in Post with his mother and family, Mr. and Mrs. Jerald Truelock for several weeks.

While in the US they will visit with other relatives in the Post area as well as brothers, Jay in Killen and Dan in Lubbock.

Looking good on the offensive unit were, Nava Massey, Gill, Storie, Kennedy, Osborn, Rodney Hays, R. Morris, and Rod George.

The Dispatch last week incorrectly reported that Rodney George had made a seven-yard touchdown run in the team's 36-0 victory over Roosevelt. This touchdown was made by Rodney Hays, his first touchdown of the season.

The eighth graders will play Cooper here tonight at 7 p.m. in the final game of a twin bill in Antelope Stadium.

In one minute, the average adult can read 300 words.

Look What the Giant Pumpkin Left!

Happy 16th

14 Lope seniors to play home finale

Fourteen Post seniors will be playing in their last home game in Antelope Stadium when Coach David Thompson's Lopes entertain the Cooper Pirates in the home finale of the 1980 campaign.

The Lopes will be trying to keep their unusual record alive of winning every game played at home this season.

Richard Cisneros will start at fullback for the Lopes as senior Barry Wyatt is definitely out with a knee injury.

Wyatt has suffered either ligament or cartilage damage to the knee. He reinjured it early in the second period at Frenship last Friday night.

Cisneros, a 150-pound sophomore, looked good at fullback in the second half of the Frenship game, ripping off several good gains through the heart of the Tigers' defense.

Playing their last game at home will be David Foster, Drew Kirkpatrick, Alonzo Luna, Russell Fluit, Barry Morris, Benny Kennedy, Chirs Beggs, Kevin Craig, Mike Anthony, Ronnie Bilbo, Ronnie Compton, Mark Holly and Dee Basquez. Wyatt is the 14th senior.

The Pirates, whose only 1980 victory came on a forfeit, run a split back veer offense with Lynn Smith, 155 pound senior quarterback doing the throwing, Glen Buxkemper, 155-pound junior halfback doing most of the running, and 135-pound sophomore John Pevhouse doing most of the pass catching.

Coach Gary Jones employs an unusual defense with all 11 men within five yards of the line of scrimmage and most of them assigned rushing

lanes. After the Cooper game, the Lopes will close against the Slaton Tigers at Slaton Friday night, Nov. 14.

The district title is slated to be decided Friday night at Tahoka when the Bull-

dogs and Slaton Tigers, both unbeaten in league play, clash again.

Tahoka has won the last two or three meetings, but this time the Tigers are ranked in the state's top 10 among AAA teams.

Freshmen in 20-14 win

The Post freshmen pulled out a 20 to 14 victory over the Frenship frosh here last Thursday night with Milton Williams running back the game-opening kickoff 75 yards for their initial score.

Post failed to convert and Frenship bounced back to tie the game at 6-6 with a 13-play touchdown drive with 4:40 still left in the first period.

The visitors then took a 14-6 lead when Frenship took possession on the locals' 36 and scored in two plays and then added the conversion points.

Tailback Williams got Post's second td in the second period on an 18-yard run. Post failed on the conversion run and Frenship still led 14-12.

Post then marched 55 yards in 11 plays for the go-ahead touchdown with Milton again scoring on a 15-yard run.

That was all the scoring until with only 1:30 left in the game defensive end Adam Mendosa sacked the Frenship quarterback in the visitors' end zone for a two-point safety.

A pass interception by Jeff Sharp in the fourth halted a threatening Frenship drive on the Post 20.

Tailback Williams picked up 168 yards rushing in 28 carries. Milton besides his 168 yards rushing had 105 yards in return yardage. Wingback Daniel Gonzales had 42 yards in nine carries.

Post had a total offense, counting returns, of 319 yards for the game.

Quarterback Robbie Williams completed two of nine passes for 14 yards and had two interceptions.

The freshmen will journey to Cooper tonight to play the Cooper freshmen.

Farm income may improve in 1981

COLLEGE STATION — Texas farmers and ranchers will have to "wait till next year" for any improvement in their income.

"Higher farm prices resulting from a sizable drop in crop production this year, smaller meat supplies, and strong export demand all point to an improved agricultural income picture in 1981," believes Dr. Carl Anderson, economist in marketing with the Texas Agricultural Extension Service, Texas A & M University System.

Crop producers will likely fair much better in 1981 because of this year's short crop and a rise in prices. And, with meat supplies expected to slip under year-earlier levels, prospects look somewhat better for livestock producers as well.

Although production expenses will rise again, price increases are not expected to be as sharp as in 1980, says Anderson. During the past 12 months, fertilizer prices jumped 28 percent, fuel and energy prices and interest rates climbed 25 percent, and agricultural chemicals rose 21 percent.

"Texas agriculture suffered considerably from the extended dry, hot weather during late spring and summer. Dryland farmers,

cow-calf operators and poultry producers experienced big setbacks. Irrigated crops were even stunted by the intense and prolonged heat wave," notes Anderson.

Despite the steep drop in crop production, cash receipts for 1980 are estimated by Extension specialists to total only a little less than in 1979. Crop inventories carried over from the bumper 1979 harvest and price increases for many commodities have helped maintain sales close to last year's level.

Livestock sales sagged a little as lower cattle and hog receipts more than offset increased sales of poultry and milk.

While overall agricultural receipts won't be down too much from last year, net income will be off sharply due to surging costs of running a farm or ranch, says Anderson.

And, to make matters worse, the purchasing power of income has been further reduced by this year's double-digit inflation.

"Declining farm income is also hurting businesses serving agricultural producers. As farmers and ranchers tighten their belts, they will be buying fewer production and consumption goods and services," notes the economist.

TO CHANUTE AFB — Airman Pamela S. Taylor, daughter of Geraldine Worley of Post, has been assigned to Chanute Air Force Base, Ill., after completing air force basic training at Lackland AFB in Texas.

Scanning Social Security

By JIM LATIMER

Frequently I am asked, "How much Supplemental Security Income can I draw each month?" Today's column will attempt to answer some of the questions we get about SSI.

The maximum amount of payment from SSI is \$357.00 per month for a couple, and \$238.00 per month for an individual, when there is no countable income.

Minimum payment may be as low as \$1.00 per month, but with any monthly check from SSI the recipient gets Medicaid coverage. Medicaid usually means more to persons with small monthly checks than the check itself.

Many recipients have fairly substantial income from social security, railroad retirement, civil service and other state and federal sources. Most of the time these checks are over the allowable income limit, but some persons can qualify for SSI even though they have some income.

Income is classified as earned or unearned income under SSI laws. Work income is considered earned and interest, rent, lease, royalty income is considered unearned income.

Resources must be minimal in order to qualify for SSI. Resources can be anything a person owns.

Anyone interested in learning more about SSI should call or write the Social Security Office in Lubbock, Texas, at 1205 Texas Avenue, Room 102, or call 806-762-7381. There is a new free pamphlet entitled "SSI for the Aged, Blind and Disabled in Texas". We will send you a free copy just by asking for it.

More Medicaid Flak

Board members of the Texas Department of Human Resources last week hired a private consulting firm to review bids submitted by two insurance companies for a \$2 billion state Medicaid contract.

The \$100,000 consulting agreement with Touche-Ross Co. will apply to bids by Bradford National Corp., which was originally awarded the Medicaid program, and National Heritage Co., owned by Dallas multi-millionaire H. Ross Perot.

Perot has filed suit to prevent a final contract signing for Bradford in an attempt to keep the contract, now administered by National.

SOON, THE ARMY WILL SWITCH TO EARTH-BROWN, ROUGH-LEATHER FOOTWEAR THAT RESEMBLES A HIKING BOOT. UNLIKE ITS SHINY PREDECESSOR, THE DULL SURFACE CAN'T BE DETECTED BY ELECTRONIC SURVEILLANCE GEAR. AND IT NEVER NEEDS SHINING!

Puckett is announced; 765 bales turned out as cotton gins begin gaining ground; Flames destroy 17 bales of cotton here.

Diamonds in South Africa's Orange River delta are mined by dredging the seabed while huge dikes of sand hold the water back.

On September 4, 1639, the General Court of Massachusetts enacted a law forbidding the drinking of toasts.

YOU'RE INVITED

Suppose that once in your life you did something 'silly' and the 'Candid Camera' caught you! We remember Zaccheus because of the tree he climbed, but surely he remembered that day more as the day when the love of the Master came to his house. The PRESBYTERIANS of Post invite you to join them as they worship the God who meets us, even in our silly moments, and abides with us forever. At 11:00 Sunday Ave. S and 10th Street.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—House Speaker Bill Clayton, cleared last week of Brilab charges of influence peddling, has indicated he will run again for Speaker.

Clayton said he will make a formal announcement of his candidacy sometime this week. Already the first person to serve an unprecedented three terms as Speaker, Clayton seeks a fourth term against State Rep. John Bryant, D-Dallas.

A third candidate, Gib Lewis, D-Fort Worth, is a top member of Clayton's conservative team in the Legislature. Lewis held the faction together throughout Clayton's legal woes, and has said he will step down if Clayton runs. Observers are waiting now for Lewis to announce otherwise . . . or withdraw for Clayton.

"I am running. In fact, I have already recontacted enough House members. We already have the election assured," Clayton said last week.

The Lewis Factor

While Clayton struggled with Brilab, his legislative supporters rallied around the candidacy of Lewis, who did a superb job of preventing a splintering into lesser factions. Lewis reportedly maintained some 90-plus votes (76 votes needed to win), and stood stronger than other announced candidates who eventually pledged to him or Bryant.

A fourth candidate, Craig Washington, D-Houston, was named speaker pro tem by Clayton last week. Washington, a black who is generally graded among the ablest lawmakers, is a lawyer who aided Clayton's Brilab defense.

Should Clayton win when the Legislature convenes in January, he will owe much to the pair, particularly Lewis. Lewis will no doubt receive a committee plum for his stewardship, unless he challenges Clayton. The conservative lobby reportedly wanted Lewis to continue his bid, but may now have decided Clayton is not as tainted by Brilab as was expected.

The Bryant Factor

Bryant is generally credited with a solid backing of about 35 votes. An outspoken and gutsy legislator, his hopes may be diminishing. After all, how could he defeat his nemesis Clayton if he could not overcome the surrogate Lewis?

For the first time, serious consideration of a replace-

COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

frost readies cotton

Stud Cotton Causes Concern

The National Cotton Council's Pink Bollworm Action Committee has expressed concern with the potential of stub cotton to seriously aggravate pink bollworm and other pest problems.

At a recent meeting, the committee urged that all data be evaluated and reported as soon as possible to appropriate officials for consideration and action. The committee also recommended continuation of the regulatory and sterile-insect control program in the San Joaquin Valley. The program this year included pheromone applications on small acreages in Fresno, Kern, and Kings counties to combat late-season native moth buildup.

Export Visit Planned

Market development programs and opportunities for U.S. cotton in the Far East will be explored next month by Cotton Council International and Foreign Agricultural Service officials. The group will include CCI President Dan Miller (Marion, Ark., farmer); David

Hull, CCI executive director; John Maguire, CCI Far East director; and Glenn Samson, director, Tobacco, Cotton, and Seeds Division of FAS.

During the visit Nov. 7-30, the officials will review CCI market development programs in Japan, Korea, Taiwan, Hong Kong, and The Philippines. In each country the group will meet with cotton spinner and trader associations to discuss the U.S. cotton situation and to evaluate marketing opportunities.

Ginnings Hit 2.5 Million

As of Oct. 15, ginnings on the current cotton crop totaled 2,571,629 running bales. This compares with 2,105,391 for the same period in 1979 and 2,903,560 in 1978. By regions, 1980 ginnings are Southeast, 260,904 bales; Delta, 2,320,855 bales; Southwest, 821,712 bales; and Far West, 185,296 bales.

Now 200 years old, the Iron Bridge over the Severn River in Shropshire, England, was the first bridge to be constructed entirely of iron.

LUBBOCK — The Texas High Plains cotton crop was killed last Wednesday morning when temperatures plunged into the low 20's.

Two earlier freezes had killed stalks in northern counties, said Mack Bennett, Area Director at USDA's Marketing Services Office in Lubbock. "The High Plains cotton harvest should accelerate sharply in the next ten days", Bennett continued. Some harvest aid chemicals had been used to desiccate plants for harvest prior to the killing freeze.

Lubbock's office classed 61,000 samples during the week ended Oct. 30 as the classing staff increased to 26 from 24 a week earlier. This brought total samples graded at Lubbock for the season to 116,500. About 24,500 samples had been classed by the same date last season.

Predominant grades during the week were grade 42 at 56 percent, grade 52-23 percent and grade 41-61 percent. About five percent were reduced one grade because of bark, according to USDA's Agricultural Marketing Service.

Staple 31 was predominant at 37 percent. Staple 30 was 25 percent followed by staple 32 at 22 percent. Average staple for the week was 31.0, down from 31.1 a week earlier.

Micronaire readings of 35-49 accounted for 76 percent. Three percent miked higher, while 21 percent miked lower. The week's average miked at Lubbock was 40, down from 41 a week earlier.

Average breaking strength was 86,000 pounds per square inch, down from 80,000 one week ago.

Growers sold small mixed lots of mostly grades 42 and 52, staples 30 and 31, base miked around 73.50 cents per pound. Mixed lots of mostly grades 41 and 51, staples 32 and 33, miked 35-49 brought about 80.75.

Gins paid growers \$110 to \$120 per ton for cottonseed mostly \$110 to \$115.

Twin Cedars Nursing Home News

The Presbyterian Church held our Sunday afternoon service with Rev. Tom Pass officiating. He also brought flowers for the home.

Jessie Roberts received a vase of red carnations from her secret FHA grandchild. Irene Wheeler also received a vase of red carnations and a Halloween corsage from her secret grandchild. Jewel White took Irene Wheeler to town last Friday.

Valeta Burks went out for a hamburger last week. Valeta also went to church Sunday morning with Billie Caylor.

The residents really appreciated the bananas and Kleenex that Rosemary Stelzer brought to us. We also are enjoying the Bible that Ray and Maudie Smith gave to the home.

The VFW birthday party was a combination of a birthday and Halloween party. Punch and pumpkin shaped cookies were served to the residents. October birthdays were Hazel Prestidge, Laura Vaughn and Lee Pitman. The VFW women presented Laura and Hazel a swan soap holder and Lee a poodle soap holder. The women that helped with the party were Joella Sparlin, Dink Boren, and Frances Matthews. Mrs. Virgil Stone played the accordion for the party.

We are very fortunate to

have Toni Britnell LVN and our director of nurses. Not only is she a good nurse, but she is also patient and understanding to the residents and the staff.

We are happy to hear that our administrator, Jimmy Thorne's mother is out of the hospital and is doing fine.

The bingo winners last week were Evelyn Roach, Anna Shelnut, and Nora Ferguson.

We would like to welcome two new residents to our home. They are Beulah Ramsey and Pauline Kilpatrick.

Our visitors last week were Willburn and Tommie Dearly, C. A. and Lucille Walker, Roberta Herron, Inez McGrew, Jerri Reed, Leann, Rick and LaRinda Hair, Lott Sanders, Trucia and Scott Metzgar, Jet Puckett, Darrell and Glenn Roberts, Artie Young, Maude Dobbs, Virginia Grigsby, Ray and Angel Reeves, Joyce Bailey, and Mr. and Mrs. F. W. Tew.

Some people believe that apes can talk but don't for fear of being put to work.

Learning center to first floor

By PATTY HALE

The Middle School is enjoying a new learning center which has been recently moved downstairs in the Middle School building. The learning center is where films are shown, books are checked out, and posters and written reports

which require the use of encyclopedias are made.

The area is made comfortable with chairs and couches and areas set apart for magazine reading and other study activities during a student's free time.

New rooms were added where the old learning center was, to offer new space for students and teachers.

In the early days of steam ships, the problem was to carry enough coal for long trips and still have room for passengers and cargo.

What's Happening in Home Economics

By MRS. CHERYL WALKER
County Extension Agent — Home Economics

CONVERTING RECIPES
Keep those "ole' time" favorite recipes for microwave cooking. Many foods adapt easily and taste like they were cooked conventionally. Some guidelines will help in converting recipes to microwave cooking.

Select a similar microwave recipe with approximately the same amount of main ingredients — meat, cheese, vegetables — for comparison. Reduce the amount of liquid by one-fourth. Add more liquid during cooking if necessary. Reduce seasoning slightly, especially strong flavorings such as garlic, oregano or bay leaf. It is much safer to add more later than to have seasonings overpower the flavor. Reduce the amount of fat by one-half.

Use the dish size, covering instructions, microwave techniques and timing recommended in the microwave recipes used for comparison. If not following a microwave recipe for comparison, reduce cooking time to one-fourth of the original recipe. Cook longer if necessary. On the other hand, there are a few not suited to microwave cooking. Do not attempt to deep fry in the microwave — this eliminates the preparation of fried chicken or steak, hash browns or french fries.

Foods that normally form a crust, such as popovers, pancakes, pizza and double crust pies, will not work because they either become soggy on the bottom or simply do not form a crust. Dried beans, rice and pasta need time to absorb moisture and the speed of the microwave cooking does

not allow sufficient time for this to occur.

Yeast bread recipes will not convert from conventional recipes. However, all of these foods will reheat in a microwave oven.

HOME ECONOMICS HINT
Secondhand microwave ovens can be unsafe — mechanical and radiation — leakage tests are not required prior to resale.

PUMPKIN PIE
8 ounces cream cheese.
¼ cup sugar.
½ teaspoon vanilla.
1 egg.
1 9" pastry shell, unbaked.
1½ cups canned pumpkin.
½ cup sugar.
1 teaspoon cinnamon.
¼ teaspoon nutmeg.
¼ teaspoon ginger.
¼ teaspoon salt.
1 cup evaporated milk.
2 eggs.
½ cup pecans, chopped.
Combine cream cheese, ¼ cup sugar, vanilla, and egg until smooth. Spoon into unbaked pastry shell. Mix pumpkin, ½ cup sugar, spices, salt, milk and eggs together and pour over creamed mixture. Sprinkle pecans on top. Bake 1 hour 5 minutes at 350 degrees F.

\$250,000 grant to Tech for fuel study

WASHINGTON, D.C. — Texas Tech University has been given the go-ahead from the Department of Energy for a \$250,000 study of fuel alcohol production. The grant is the culmination of over six months of work by a Texas group of Congressmen, including Congressman Charles W. Stenholm.

Hot weather is disaster

LUBBOCK — The U.S. Small Business Administration (SBA) has amended Disaster Declaration No. 1900 for the State of Texas to include "extreme hot weather" as being cause for disaster loan eligibility.

The SBA makes available disaster recovery loans to farmers, ranchers and agriculture-related businesses suffering hardship due to adverse weather in counties declared a disaster area, as well as in all bordering counties within the state. The loans are low-interest and terms of the loans are based on the borrower's repayment ability. Texas producers who lost crops because of the drought or extreme hot weather may receive program and eligibility information by calling (806) 762-7481.

Physical disaster loan applications filed under declaration No. 1900 must be received by February 12, 1981. The deadline for economic injury disaster loan applications is May 12, 1981.

Student commons area explained

By JACKIE WARTES

Two summers ago several men came to our school. These men were going to remodel Post Middle School.

They began building the new learning center which is a library; a place to see films; an area to look up things in books and make posters; and there are two couches so that we can relax and read.

The construction work made a lot of noise, but it was worth it! They put in a new ceiling, new carpet, a hall, four new classrooms, and two activity rooms with lockers. They put in a new PA system, new lighting, and we even got bathrooms upstairs and a new heating system. Our new learning center is big, and all of the classrooms are very colorful.

One of the new remodeled places in the Post Middle School Junior High students are proud of, is the student commons, a large area that is open for students to use when it is cold outside.

The cafeteria was also remodeled and every room in the Middle school has been repainted.

We like our new school and are very proud to be a part of it.

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS
142 RUSSELL OFFICE BUILDING
WASHINGTON, D.C. 20510

The past year has been a disaster for our nation's vital agriculture industries. Net farm income dropped by almost 25 percent between the first quarter of 1979 and the first quarter of 1980 alone.

These facts would indicate to me that the Administration's farm policies have been a dismal failure. But apparently President Carter disagrees. He gave the Department of Agriculture's chief policy maker a \$20,000 bonus under the new \$3 million "merit system" for government employees.

Howard Hjort, director of economics, policy analysis and budget, is largely responsible for implementing the Administration's agriculture policies. His fine hand can be seen in the crippling grain embargo. When the Carter Administration dragged its heels on increasing loan levels to more realistic levels, Hjort had a hand in the policy making. Under this policy-making guidance, the number of expensive regulations farmers must comply with has multiplied.

So why did the Administration give Hjort his \$20,000 bonus? Because he "successfully made the shift in USDA from producer-oriented to consumer-oriented in policy and budgetary matters," according to President Carter. In other words, Hjort was rewarded for instituting policies that hurt the farmer.

The American farmer is a marvel of efficiency and dedication, despite a constant battle with the whims of nature, and now of government. Thanks to our nation's farmers, our people are the best-fed in the world, and there is enough left over to feed other nations as well.

However, if the farmer can't make enough money to stay in business, he can't produce food. If the government makes doing business impossible through muddled and misguided policy, the farmer can't provide the abundant harvests we have come to expect. Does anybody seriously argue that driving farmers out of business is good for the consumer?

The absurdity of so-called "consumer-oriented" agriculture policy is apparent to anybody who has been in a supermarket recently. While farmers are sinking ever-deeper into debt, the price of groceries has steadily risen.

An economically healthy agriculture industry is essential if consumers ultimately are to have the abundance and quality of food on the shelves at prices they can afford.

To restore the health, the government needs to cut back on the number of unnecessary regulations it imposes on farmers. Then, we must work aggressively to expand markets abroad through serious trade negotiations and more effective use of the Food For Peace Program. If we do that, the farmer can do the rest, and our nation's economy and every consumer will benefit in the process, but as long as our government rewards officials for failed policies, we can't begin to solve our problems.

Births

Mr. and Mrs. Epitacio Villa of Post announce the birth of a baby girl, Teresita, born November 1, at 3:54 p.m. She weighed 7 lbs. 8½ ozs.

DR. FRANK BUTTERFIELD
Optometrist

Office Hours: Thurs. 9:30 a.m. - 5:30 p.m.
206 W. Main Ph. 495-3687

It's True.

"We installed the heat pump in our church over two years ago. The heat pump system has been very economical for us and they are able to keep our facilities much cleaner than we really expected. The statements concerning heat pumps being economical and clean have certainly proven to be true. Another feature that I like is that a heat pump can be used both summer and winter without anything being changed other than a flip of the switch. Because of our experience with the heat pumps in our church facilities, I've installed the heat pump system in my personal home."

Rev. Don Blaylock

The things said about the heat pump are true. Find out more about the heat pump. It can save for you.

Retirement seems a long time away. Unless you're 55. Or 45. Or 35.

Retirement seems a long time away. Unless you're 55. Or 45. Or even 35—and haven't started planning for the day when your income slows down (or stops).

At Sentry Savings we have a series of savings programs designed to build a retirement fund for the future. Whether your need is money to supplement other pension funds or the dollars you will need for support, Sentry can help you save for the future. Savings earn maximum interest—and in many cases, part or all of your savings can be sheltered from income tax to let them grow even faster.

Bring your savings to Sentry. We'll guard them and make them grow.

PUBLIC NOTICE
CITY OF POST
HOUSING AND COMMUNITY DEVELOPMENT PROGRAM

The City of Post is planning to submit a pre-application to the U. S. Department of Housing and Urban Development (HUD) for Community Development Block Grant (CDBG) funds. This pre-application will be submitted on or about January 5, 1981.

The City has scheduled a final public hearing on this proposed CDBG program to give citizens of the City of Post an opportunity to review the activities included in the CDBG program and offer additional comments and suggestions on the City's needs and priorities. Citizens will also be invited to comment on the City's past performance in providing housing and community development programs.

This public hearing will be held at 7:00 p. m. on Thursday, November 13, 1980 in the First National Bank Community Room.

Interested citizens and citizen groups are encouraged to attend this important public hearing and present their views and comments on the City's proposed CDBG program and to assist in evaluating the City's past efforts in housing and community development programs. Written proposals and comments from citizens will be accepted and considered by the City up until the time of this final public hearing.

Handicapped individuals who may have difficulty in attending this public hearing should contact the Post City Hall to arrange for special assistance.

For further information, contact Wanda Wilkerson, City Secretary at 495-2811.

SYD CONNER
Garza Extension Agent

DEVELOPING COW HERDS

To stay on top of beef production in today's fast-moving and complicated cattle industry, a cow-calf producer must maintain a top-notch cow herd.

Actually, he must start with a good cow herd, use proven sires and select high-performing replacement heifers to take the place of poorer producing cows culled from the herd each year, says Dr. Larry Boleman, beef cattle specialist with the Texas Agricultural Extension Service, Texas A & M University System.

A producer can improve and upgrade his breeding herd through selection of heifers and selection of parents to be mated. The goal in beef production is to improve the average performance of the offspring through selection of economic traits such as calving interval, birth and weaning weights, cow mothering ability, feedlot and pasture gain, efficiency of gain, yearling weight (feedlot or pasture), weaning and yearling conformation scores, carcass grade, rib-eye area and outside carcass fat thickness.

To make rapid and accurate improvement, all information to make maximum selection response should be used. Performance pedigree, individual performance data and visual appraisal are generally used in selection of heifers, notes Boleman.

Pedigrees provide family information and generally tell you what an animal should do because of what is known about the parents and their performance. Pedigree information when used alone provides low accuracy in estimating the breeding value, and is of almost no consequence if we go beyond the parents for information, says Boleman.

Individual performance information is a requirement to effectively select beef cattle for generic progress. No single selection plan fits all breeders and producers, but any profitable selection program must be based on the ability of an animal to perform in a given environment.

Properly measured performance is the best estimate of the animal's breeding value. It should include such traits as

growth characteristics, reproductive ability, longevity and the ability to produce acceptable quality meat at a minimal unit cost, points out the livestock specialist.

BRUSH CONTROL

Treating the base of brush plants with liquid herbicides and using pelleted herbicides can be effective during fall and winter months, making brush control a year-round practice.

Kerosene, diesel or a diesel and 2,4,5-T mixture may be poured or sprayed around the base of many brush species on rangeland, points out Dr. Tommy Welch, range brush and weed control specialist with the Texas Agricultural Extension Service, Texas A&M University System. Apply the solution to the trunk from a height of 12 inches to the soil surface. Be sure to apply enough of the herbicide mixture so it runs down the trunk and soaks down around the root crown. This method works best when soil is dry and pulled away from the trunk.

Although basal treatment is a time-consuming method of brush control, it gives excellent results, assures Welch. The method is good for use on thin strands of brush, on small acreages adjacent to cropland, on fencerows and on areas where other methods are not feasible.

In recent years, two pelleted herbicides have been registered for use on rangeland and may be used during the fall months. They are 10 percent picloram pellet (tordon 10K) and the 10 percent and 20 percent tebuthiuron pellet (Graslan 10P and 20P). These herbicides are applied to the soil surface. Moisture is needed to move the herbicide into the soil, and plants pick it up through their root system.

Apply Tordon 10K and Graslan just prior to expected rainfall, advises the specialist. Most of the state normally receives sufficient rainfall during the fall months to move these herbicides into the soil.

Tordon 10K pellets are useful for controlling pricklypear, huisache, redberry juniper, macartney rose, hawthorne, sumac, willow baccharis and whitebrush. The material may be applied to individual plants or broadcast by ground or aerial equipment.

Brownie troop is very busy

Brownie Troop 123 has been involved in several club activities during the past month, and has been very busy. Among activities held were their Oct. 13 Investiture service, cleaning of the Scout House, and decorating sacks to carry on Halloween night.

Sacks for the girls to decorate were donated by United Super Market.

Oct. 28, the troop visited the law enforcement building for a program on Halloween safety. The program was given by Chief Deputy Donny Walker. Following the talk, the girls were taken on a tour of the jail. This was possible because there were no inmates.

The troop has three new members, Wendy Clay, Daphne Chambliss, and Tamra Gerner.

Leaders for the Brownie troop are Diane Poe, Janet Matthews, Trena Woods and Betty Dennis.

Prices for the fruit are: Oranges-small box-\$6.25; large box-\$10. Grapefruit - small box-\$6.25; large box-\$9. Apples-small box-\$8.50. Fruit sales will continue until Nov. 17.

Huntley Nursing Home News

Friday was ghosts and goblins day. We were decorated and ready for the little spooks to visit us. Around the home we had bats and owls flying around guarded by a witch of course. There were skeletons on the door and ghosts on the TV. Plenty of pumpkins completed the scene. We had our Halloween party that afternoon. Punch and cookies were served from a table centered with witches and pumpkins. Mrs. Stone played music for the party. She is always there when we need her. Friday night we treated all the spooks that visited our home with candy. We aren't as young as the little spooks but we still enjoy Halloween.

Another high point at our home was the Fashion Show staged by Jae's Fashion's. Orabeth White was the narrator and fashions were modeled by Exa Fay, Jamie and Amber, Sue Maxey, Jodi and Russ, Jarita Green and Sallie Bush. Some lovely clothes were shown for the cold weather ahead. We particularly enjoyed the little girls and boys that modeled.

We want to thank Corrine Brown for bingo gifts of dusting powder, manicure sets, jumbo index cards and after shave lotion. We want to thank her for the Scrabble game she gave the home.

This week's grand prize winner in bingo was Bonnie McMahon and Henrietta Nichols.

We enjoyed our Sunday Devotional with Brother Glenn Reece and the First Baptist Church. We want to say again that we thank all the churches that participate in this program and make it possible for us to have church at our home.

Welcome to our three new residents, Daisy Arrington of Spur, Texas and Rosa Boucher and Nettie Barrow of Post, Texas. We are happy to have them with us.

We are working on quilt tops in crafts and trying to fill all the Christmas orders we have for other crafts we make. We are still making lap robes for our residents. We invite you to come out and place a Christmas order with us. We have many pretty and useful items that would make nice gifts for Christmas.

Mrs. Channing Champie of Durango, Colo. and Mr. and Mrs. Foy Lee Cogburn visited Mrs. Rosa Boucher and helped her get moved into the Nursing Home. Other visitors were Mr. and Mrs. D. L. Fought of Houston, Texas and Ted

Faught of Enise, Texas. Mr. and Mrs. Jim Henderson of Houston visited with their grandmother, Winnie Henderson. Alice English of San Angelo visited Winnie. She is a sister of Mrs. Billy Hill.

Willie B. Sullivan was happy to see her brother and sister-in-law, Jack and Jewel Harper of Pasco, Washington, her brother, I. W. Harper, from Kenasah, Wisc. and her sister, Edna McDaniel from Houston, Texas.

Visiting Cordelia Stewart was her daughters, Neil Adams of Levelland, and Harvella Mason of New Mexico.

Mr. and Mrs. Burl Nichols of Fort Worth, Texas visited

their aunt, Mrs. Iva Sanders.

Ida Stewart received a visit from her daughter-in-law Lula Jo Stewart, her granddaughter Donna and her great grandson Sasha Mandikian from Lubbock.

Sue Towner, from Roswell, N.M. visited with Mrs. Grace Jobe.

Mrs. Gladys Wood was happy to see her son and daughter-in-law, Mr. and Mrs. Harry Wood from Odessa.

We want to thank the women who donated the lovely roses to our home. They were enjoyed by all.

Farmers who plow over terraces cause erosion

Farmers in the Garza County area who plow up and down the hill over terraces may be losing a lot more topsoil to erosion than they realize.

So says Dwaine Binford, district conservationist for the Soil Conservation Service, U.S. Department of Agriculture, at Post.

"Research indicates that plowing over terraces can double the amount of erosion as compared to farming with the terraces on the contour," Binford said.

The actual amount of gross erosion depends on several factors, including percent slope, length of slope, type of crop grown, amount of crop residue left on the surface, type of soil,

and rainfall.

"All things being equal, there will be more erosion on land where cotton follows cotton than on land where sorghum follows sorghum," Binford said. "That's because sorghum produces more residue which, if left on the surface, reduces erosion."

He gave this specific example of soil loss plowing

2nd term—

(Continued From Page One) County tax assessor-collector Ruth Reno, led in the county races with 1,336 votes. She was unopposed.

County Attorney Preston Poole, also unopposed, piled up 1,267 votes.

County Commissioner T. D. (Buck) Craft won reelection unopposed in precinct 1 with 456 votes; and Mike Cisneros won reelection in precinct 3 unopposed with 262 votes.

Justices of the Peace Zora Robinson in precinct 1 and Pat Kitchens in precinct 4 won reelection, both unopposed, with 460 and 217 votes respectively in their precincts.

up and down the hill over the terraces as compared to farming on the contour with terraces as computed by the Universal Soil Loss Equation. The equation is backed up by many years of research by the USDA Science and Education Administration-Agricultural Research.

"On a Miles Fine Sandy Loam soil with a 10 percent slope growing cotton following cotton up and down the hill over terraces, we could expect about 10 tons of gross erosion per acre per year," Binford said.

But by simply farming on the contour with the terraces, erosion would be only 7 tons per acre.

"That's still too much," Binford said. "But by rotating cotton with sorghum and leaving the sorghum residue on the surface with contour farming you could reduce erosion to about 5 tons per acre."

Binford said one reason some farmers plow over terraces is because their land was terraced several years ago when two-row equipment was standard. These terraces were built as economically as possible and left a lot of point rows. Rows that are difficult to farm with 8, 10, or 12 row equipment.

"One solution to the problem is to replace these old terraces with modern terraces that are built an even number of rows apart," Binford said. "We call these parallel terraces and they're a lot easier to farm."

He said parallel terraces cost more than standard terraces, partly because more cuts and fills are usually needed to make them work properly.

"But they are a lifetime investment," Binford stressed. "And since they are so much easier to farm, few farmers ever plow over them."

"I THOUGHT IN THIS PARTICULAR INSTANCE YOU MIGHT SKIP THE PART ABOUT REFERENCES, DAD."

Citizen input—

(Continued From Page One) residential area east of Broadway as the area in which the block grant projects should be undertaken.

She reported approximately 300 occupied houses in this area, half of which would be classified as sub-standard housing with 23 dilapidated housing units which are occupied but which should be torn down.

Mrs. Ellis told the council she estimated 94 percent of the people living in this area had below moderate incomes with 66 percent of them minorities and 34 percent non-minorities.

She said there are a great

number of unpaved streets in the area.

Mrs. Ellis estimated that with the application submitted in January it would be Oct. 1, 1981, before federal funds could be received if the application was selected for approval.

Mrs. Marks announced the selection of a citizens committee composed of the Rev. Arthur Kelly, Judge Giles Dalby, Robert Cox, Jim Johnson, Zoe Kirkpatrick, Everette Windham and Mrs. Marks to help guide preparation of the block grant application. An eighth member of the committee is to be confirmed.

The council unanimously adopted a resolution directing this citizens advisory committee to conduct all public hearings and to carry out all other responsibilities delineated in the city's citizen participation plan.

In an unusual move to save weeks in preparation of the application, the council by a 4 to 1 vote adopted on first reading a fair housing ordinance on Mrs. Ellis' recommendation with the idea that the council members could study the proposed ordinance before the second reading at the next meeting and make a final decision on it at that time.

The ordinance, as adopted by dozens of Texas communities seeking federal block grants, will give the city 15 points in its application score, it was pointed out to the council.

The ordinance declares as a city policy the opportunity for each person to obtain housing without regard to his race, color, sex, religion or national origin.

The ordinance sets penalties for discriminatory housing practices as a misdemeanor with a fine not to exceed \$200 for each violation.

The seven-page ordinance is quite detailed and should be studied by any individual desiring to know exactly what it sets forth. It is based on current federal housing laws already in effect and simply puts municipal enforcement behind fair housing laws.

Drainage systems not always feasible in coastal areas

COLLEGE STATION — Although better drainage systems may be one solution to protecting coastal property, a Texas A&M University fisheries specialist says residents need to realize that building large drainage systems along the coast may not be feasible.

Of particular concern to Dr. James T. Davis is that a large drainage system would be detrimental to the fishing industry and larger systems would have a negative environmental impact on wildlife living along the coast — two reasons often cited by the U. S. Fish and Wildlife Service for blocking permits which would allow such systems to be built.

"The Fish and Wildlife Service is continually criticized for its efforts in protecting the fish and wildlife interest," said Davis, "but their reasons aside, we all need to consider other factors which make it difficult, if not impossible, to install the kind of system needed for effective runoff."

Read-a-thon—

(Continued From Page One) collecting \$72.50 in pledges from her sponsors. Second place money winner was Megan Bush, daughter of Ricky Bush, who collected \$70.30 and third place winner was Chris Linn, son of Mr. and Mrs. Jerry Linn, collecting \$69.50.

Tyra Hart, daughter of Mr. and Mrs. Jay Hart, was the top reader during the contest, reading 50 books. A three-way tie between Nicole Jones, Jimmy Holleman and Dana Morris left these students who read 40 books each to tie for the runners-up honors.

Identification tags, frisbees, pens and T-shirts were presented to the winners by Ms. Hamrin.

The local Dairy Queen contributed 30 extra prizes, gift coupons, to be given to the children to show their appreciation of their efforts.

The Xi Delta Rho Club has sponsored the Read-A-thon for the past two years, and president Kay Hays commented that she was extremely pleased with the great effort of the students, by surpassing even last year's effort which was a record for that year also.

Not all students who participated could be named, but these students below were presented awards for their efforts.

Those reading at least 10 books and collecting at least \$40.00 were Tammi Bradcock, Mark Tyler, Bobby Gossett, Houston Heidelberg, Junior Arendariz, John Harper, Jimmy Holleman, Megan Bush, John Wayne Bilberry, John Armandariz, Jarett Dickson,

Trevor Thuett, Mark Linn, Angie Peck, Chris Linn, Roger Adams and Bill Rankin.

Those reading at least 8 books and collecting at least \$20.00 were Robbie Francis, Cynthia Johnson, Brent McDonald, Angela Graves, Dana Morris, Rance Sappington, Russell Benham, Sherry Hawley, Brad Byrd, Leigh Ann Sneed, Janell Jones, Lance Bagby, Tracy Daniel and Curtis Williams.

Reading at least 5 books and collecting at least \$10.00 were Kristi Radle, Janille Abraham, Marylou Reyna, Leslie Reyna, Kenda Williams, Shal Sneed, Cindy Garcia, Shandala Bell, Marilyn Bell, Brandon Lewis, Tyra Hart, LaDonna Scott, Mike Bartlett, Denise Huntley, Angela Irene Reeves, and Betsy Ethridge.

Phone firm—

(Continued From Page One) announced.

When the question was raised about phones going out in just about any rainstorm here, it was explained only a few years back the utility had replaced a lot of old cable at considerable expense to try and solve the local problem.

But that happens just about anywhere it rains, one of the three General Telephone officials said.

In answer to a question, one of the utility men said Post has more than five long distance lines out of town. The Dispatch's Posting column last week mentioned the five out of town lines. The exact number of long distance lines, however, was not given at the council meeting.

Plymouth was not the first settlement in New England. A colony was founded in Maine in 1607—13 years earlier—but didn't last.

Applications are now being accepted for Secretary Post Chamber of Commerce
Applicants should apply in person to chamber office, 9 to 12, 1 to 3, Mondays through Fridays.

Chamber—

(Continued From Page One) Franklin, Frances Camp—Texaco Wholesale, and Bryan Williams & Son.

The \$1 breakfast tickets are being sold by Chamber directors and the Chamber office and also will be available at the door Friday morning.

BRING THIS WITH YOU - NO APPOINTMENT NEEDED

Try leaving on a flight of fancy.

It's one thing to sit around and dream of faraway places.

But when you decide to go, you've got to come up with a ticket. Wishing won't make it so. Saving will get you there.

One of the easiest, safest ways to save is to buy U.S. Savings Bonds through the Payroll Savings Plan. A little is taken out of each paycheck automatically. And the Bonds will eventually grow into a first-class ticket to anywhere.

Nothing is too far. Tahiti, London, Paris, Rome. Even a trip around the world. Or just a long vacation on a Caribbean island. Anywhere.

So go ahead, take a flight of fancy. Then start buying Bonds so you can take a fancy flight.

Take stock in America.

When you put part of your savings into U.S. Savings Bonds you're helping to build a brighter future for your country and for yourself.
