

OCHILTREE COUNTY HERALD

Section A—6 Pages

PERRYTON, OCHILTREE COUNTY, TEXAS, THURSDAY, APRIL 18, 1957

Three Sections—18 Pages

NUMBER 16

Tripartite Road Improved

County commissioners voted Wednesday to build the industrial road at the east edge of Perryton toward making it a through-market or loop road.

Commissioners approved a 100-ft. right of way between FM 377, and to the specifications for roadbed and paving about half way to two highways.

They would approve building SH 15 to a point about south at the present cost of the project earned until after the survey.

Proposed by the committee of the Chamber of Commerce, will give a tremendous impetus to the industrial development of the site being built at the edge of town. When this will give an area of road at the front and back at the rear of deep.

At least five industrial plants have indicated a desire to build in this area.

At the meeting were H. R. Slaughter and Herman Hargrove, John King and George for the motion to road.

Sorghum Planting Set for April 26

Members of the Perryton area were invited to attend the sorghum meeting in court room on Friday.

Delbert Timmons of the meeting which will be held at 2 p. m. that day.

Members of the Amarillo Extension will tell of the fertilizer plots in the Panhandle area, now at the Harlan near Farnsworth.

Timmons, also of the Amarillo Extension Station, will discuss with special grain sorghums.

By well known sorghum grower, the Chullichothe Extension, has been asked to have the varieties and crosses of hybrids.

Information regarding varieties of hybrid grain will be discussed by the experts.

Registration of Traders Required

The school board this week adopted a regulation which is mandatory for a beginning to have immunization at least three days before the school term.

Registration will require, beginning 1957-58 school term, traders have a certificate that they have been vaccinated against smallpox, diphtheria and whooping cough.

It also strongly recommends immunization. The regulation was strongly recommended by both the county and city officers and conforms with the law passed by the state several years ago.

Editor Is President of Panhandle Press Association

Hudson, Herald editor, was elected president of the Panhandle Press Association at the annual convention in Amarillo Saturday. He succeeds C. Haley of the Canyon.

The Panhandle Press Association is a regional press group of the United States, is composed of newspapers in Texas, Kansas and New Mexico.

It has about 300 individual members during the past year. Hudson, publisher of the Herald, was elected president of the association and served as secretary for five years.

Hudson, publisher of the Globe-Times, was elected president and G. W. Estlack, publisher of the Donley County Leader at Clarendon, was named secretary. Directors are Donald Crocker, Tulsa Herald; Sam Williams, Lamb County Leader; Littlefield; E. Roy Smith, Pampa News; Wayne Lanham, Borger News-Herald; Tom Rambo, Hale Center American; Arthur C. Haley, Canyon News; W. H. Graham, Jr., State Line Tribune, Farwell.

TWIRLING CHAMPIONS—These four twirlers of the Ranger Band won the team championship of the Southwest AAU Twirling Contest at Dallas Saturday, competing with 169 top high school twirlers in the state. All four placed high in individual contests and won the top team trophy over second place Lubbock. Left to right are Sydney Slack, Dixie Conley, Kathy Hurter and Donna Hoots. They are holding their first place trophy.

Emergency Feed Program Extended

The emergency drought feed program has been extended through May 15, Rep. Walter Rogers has informed the Herald. Under this designation, farmers and ranchers of Hansford, Lipscomb, Ochiltree and Roberts counties may file applications through April 29 to provide feed grain for basic livestock herds through May 15, 1957. Applications may be filed with Robert J. Holloway, county FHA supervisor, in the courthouse annex.

City Bond Bids To Be Accepted On April 30

Bids will be taken on the city water and sewer bonds at 2 p. m. Tuesday, April 30, city manager J. B. Whigham announced this week.

The city is asking for bids on \$200,000 in bonds and also for an alternate bid on \$400,000 the total bond issue. The two programs will be compared and the city will accept the one most advantageous, Whigham said.

If the interest rate is favorable for the \$400,000 issue, the city may be able to sell the entire amount then re-invest the \$200,000 until needed.

The immediate plans call for an expenditure of about \$200,000 in order to get the city water supply in shape by next summer. The \$200,000 will provide for the drilling of two new water wells, laying of the transmission line into town, for ground storage capacity, chlorination system, and the revamping of two booster stations.

Bids will be taken on May 7 for the drilling of the two new water wells.

Construction of this initial phase is to be completed before the summer of 1958. The other improvements outlined in the \$400,000 bond issue will follow as the need arises.

Lions Club 'Rastus Sings' to Be Presented On Friday Night

An old-time Mississippi River showboat will be docked in the Perryton school auditorium Friday night with an all-star cast to put on one of the best local entertainments of the year.

"Rastus Sings", the fourth annual production of the Lions Club, will get under way at 7:30 p. m. Friday night and there will be a beauty contest to select the Lions Club Queen before the actual "Rastus" production gets under way.

Eleven young ladies will contend for the Queen title. There are scores of valuable prizes to be awarded that night to those who get lucky numbers in crackerjack boxes. These prizes have been contributed by Perryton merchants.

The show this year includes a cast of 100 people, with Bob Irby and Cloys Webb as directors. Featured in the production's opening scene is the Dixie Land Band which leads the cast off the showboat into a small Mississippi town where they put on a free performance in the barber shop, general store and the jail.

Featured here are Bob Irby, Cloys Webb, Troy Bolerjack and Paul Tucker as a barbershop quartet, plus Mike Ballew and his guitar.

Kent Apple and Zack Miller provide an entertaining duet at the jail.

PTA Rummage Sale Saturday

The Perryton Parent-Teachers Association will hold a rummage sale in the Kelley Drug building on Saturday, April 27, with all proceeds going toward PTA projects.

The organization needs additional funds right now to provide for the annual college scholarship program which is given annually to Perryton high school graduates.

Persons with items they will donate for this rummage sale are asked to bring these to the building Friday afternoon or Saturday morning.

The second half of the show is an old-fashioned Negro minstrel with the high school chorus and Lions Club members for the background. Specialties will be by Leonard Barlow and Carl Allen on the mandolin and guitar, a Lions Quartet, the Lions Tamborine Act, the Dancing Girls (Nancy Wright, Linda Spence, Ruth Ann Smith, Sydney Slack, Ellen Erickson and Linda Rogers), the Melody Maids (Kay Witt, Pat Hayward and Shirley Simpson), the Three Notes (Nanjan Boxwell, Marion Riley and Anita Slaughter), plus other acts.

Bill Lance is the interlocutor for the minstrel. End men are Elliott Lee, Harold Hudson, Giltner La-Master, Virgil Castle, Vance Apple, and Delbert Timmons.

The tickets are \$1 for adults and 50 cents for children. All proceeds go for the Lions Club youth activities program.

Pet Owners Have Few Days for Getting Tags

Pet owners are reminded by Police Chief Bob Doffer that the city will begin a drive to reduce the stray dog and cat population, beginning Monday, April 22.

All animals without a current license tag on that date will be picked up and taken to the city pound where they will be destroyed after the usual waiting period.

City residents bothered by the packs of stray dogs are asked to pen these up, if possible, in order that the dog catchers may pick the animals up next week.

The city ordinance regulating pets provides that each animal must be vaccinated yearly and must be registered at the city hall. The fine for failure to comply with the ordinance is a fine of \$100 to \$200.

Dr. Martin Duke, veterinarian, See No. 4 Page 6

Easter Sunrise Service Sunday

A special sunrise service, sponsored by the Perryton Ministerial Alliance, will be held Sunday morning at 6:30 a. m. in the First Methodist church. Joe Frederick, minister of the First Christian church, will deliver the sermon. Special music will be presented by the 73-voice Perryton high school choir under the direction of Cloys Webb. Everyone in the Perryton area is invited to attend these services.

REA Meeting Set for Monday

Members from the area served by the North Plains Electric Cooperative will meet in Perryton Monday afternoon, April 22, at the Veterans Memorial Building for the annual event.

Financial and operating reports of the cooperative will be given by president Ira Harbour of Spearman and other officers will report on various phases of the operation.

Manager Earl Waide will give a resume of the year's work, and the principal speech will be made by Merrill Riggen, operations field officer for REA. Three directors will be elected.

Doffer Named Police Chief

Bob Doffer, who has been acting Police Chief in Perryton since January, was appointed Police Chief by the city council at the Tuesday night meeting.

Doffer has been a member of the Perryton police department for three years. He is a graduate of the Texas A&M Police Training School and has attended several other police schools in the area.

He is chief of a four man department which is in the process of expanding its facilities to take care of the growing need for police protection.

District Court Opens Tuesday

The April term of district court opened Tuesday morning and both the civil and criminal docket has been set for the term.

Judge Jack Allen will try non-jury cases during the remainder of this week and next week.

During the week of May 6 he will return to Hansford county and will come back to Perryton on May 13 to try three civil jury cases.

The only criminal jury case on the docket thus far has been set for May 22. This is the case of the State vs. James E. Rohner, charged with rape. E. T. "Dusty" Miller of Amarillo is the attorney for the defendant.

There are 40 civil cases and 15 criminal cases to be tried.

Hulsey Named Court Judge

The city council appointed Hardy Hulsey as Corporation Court judge at the Tuesday night meeting and plans are being made to organize the court with sessions in the county courtroom.

The council passed Ordinance No. 203, which provides that court costs in Corporation Court will be the same as in JP Court.

City manager J. B. Whigham has been acting as Corporation Court judge, with hearings in the city hall.

Commissioners Make Plans for Constructing Ochiltree County Jail

Hire Architect To Draw Plans For Structure

First step in solving a long-standing community problem was taken by the Ochiltree county commissioners Wednesday afternoon when they employed an architect to draw plans and specifications for a new county jail.

The Amarillo firm of William C. Townes and Associates was hired and directed to proceed at once with the preliminary plans for the structure.

It is expected that a bond issue for the construction of a new jail will be placed before the citizens of the county once the plans have been approved by the commissioners.

The commissioners have made a study of the needs and have made their suggestions to the architect. What is planned will be a two-story structure with living quarters for the sheriff downstairs and a cell block upstairs.

It is planned to construct cells to accommodate 24 male prisoners, four women and four juvenile prisoners at a time. The downstairs living quarters would have three bedrooms, living room, kitchen and bath.

Also downstairs is planned the sheriff's office, a private office, storage rooms, filing space, darkroom, a holdover cell, plus a garage.

The cost of such a structure is expected to be more than \$100,000, judging from the cost of similar structures in Hereford and other cities.

The present jail has long ago been outgrown, although it is used by both city and county officers. There are no facilities for women prisoners, there are no provisions for a jailer to be in attendance, and the quarters are inadequate for the need.

Several Ochiltree county grand juries have visited the present jail and have passed resolutions strongly recommending that something be done about the situation.

New Traffic Laws Go Into Effect With Ordinance

The city adopted the Uniform Traffic Code for Perryton at the Tuesday night council meeting, putting into effect the traffic laws passed by the 50th Legislature in 1952, and amended since then.

Most of the provisions in the traffic code are already in effect in Perryton, but the Uniform Traffic Code has the effect of putting all traffic laws together, according to city manager J. B. Whigham.

The city council, at their Tuesday night meeting, also passed Ordinance No. 206 which provides for the State Highway Department to install and maintain a new signal light at the intersection of Main Street and 4th avenue.

A recent traffic count revealed that in a 12-hour period there were 9,756 vehicles and pedestrians entering this 4th and Main intersection.

The council also passed an ordinance relinquishing to the State Highway Department maintenance of the portions of U. S. 83, SH 15 and FM 377 highways which lie within the city limits.

B&PW Banquet To Be Tonight

The Perryton Business and Professional Womens Club and guests will hear Bob Wear, minister of the Central Church of Christ in Canyon as principal speaker of the annual banquet tonight.

The event is to be held in the Harvester Room of the Hotel Coffee Shop and representatives will be present from all civic organizations in Perryton.

Mr. Wear is a well-known after-dinner speaker and writes a daily column, "The Abundant Life," in the Amarillo Daily News.

WINS SUPERIOR RATING—Pat Hayward, member of the Perryton high school chorus, won a Superior rating for vocal solo for the fourth consecutive year in the Region XI music contests at Canyon last week. She is shown here with her latest medal.

Perryton Sweepstakes Choir Plan Annual Concert May 7

Perryton's Sweepstakes choir, fresh from their triumphs at the Region XI music festival in Canyon last week, are making plans for their annual concert on May 7. This is the annual event when the home folks have a chance to hear their contest winners.

A Choir Queen coronation will be one of the highlights of the concert and several awards will be made to one of the outstanding choir members.

Both the high school and junior high A Cappella choirs brought home Sweepstakes trophies from Canyon and Pat Hayward won a superior rating in solo work.

For the 73-voice high school group, it was the second Sweepstakes trophy in as many years. To win this honor, groups must receive a superior rating both in concert and sight reading performance. Out of the 2,200 students

Million Dollar Payment Here For Soil Bank

Total payments in Ochiltree county for land placed in the Soil Bank are well past the million dollar mark, according to reports from Elliott Lee, county ASC secretary.

A report finished Monday reveals that there are 33 contracts covering 5,594 acres in the long range Conservation Reserve, where land is put back to grass for 5-10 year periods. These payments are \$10 per acre and \$12 per acre for grass seeding. Total payments under this program are \$117,365.00.

In the Acreage Reserve, which affects cropland only, there are 407 contracts covering 77,356 acres for a total of \$1,070,194.14 to county farmers.

Ochiltree county has 365,000 acres of cropland and has a current wheat allotment of 248,252 acres. However, due to other factors, it is estimated that only 150,000 acres of land in the county are actually seeded to wheat now.

The 83,950 acres in the two Soil Bank plans represent about one-fourth of the cropland in Ochiltree county.

Freeze Has Small Damage

While the spring freeze last week end caused millions of dollars of damage to wheat crops downstate and in Oklahoma, the damage was negligible in the Perryton area, according to county agent Delbert Timmons.

The county agent pointed out that some irrigated wheat possibly suffered some damage from the spring freeze, which sent the temperature down to 24 degrees and which coated the trees, highlines, fences and roads with ice on Friday and early Saturday.

Due to the dry fall and winter, however, plus the differences in altitude and climate, the wheat crop in this area is several weeks behind what would be considered normal, and practically none of the dryland wheat has jointed.

Chamber to Mail Trade Survey Sheets In Area

The Chamber of Commerce trade survey questionnaires are being prepared and will be mailed out to about 3,000 residents of the Perryton trade territory in about a week, reports John Mayfield, manager of the Chamber of Commerce.

This is a project of the retail merchants committee of the Chamber.

There are 28 questions in the survey sheet, which is sent with a postage-paid envelope to expedite the returns.

The questions range from requests of opinions about the schools and city administration to a detailed list of questions about conditions in Perryton's retail stores.

See No. 3 Page 6

PANHANDLE PRESS OFFICERS—Harold Hudson, left, Herald editor, was elected president of the Panhandle Press Association at the annual convention in Amarillo Saturday. In the center is S. B. Whittenburg, publisher of the Amarillo Globe-News, vice-president; and at the right is G. W. Estlack, publisher of the Donley County Leader at Clarendon, secretary. The PPA has approximately 300 members in Texas, Oklahoma, Kansas and New Mexico.

See No. 1 Page 6

Snow Was Deeper In Good Old Days Pioneer Reports On Blizzard

The March 28 issue of the Herald which contained many pictures and the story of the record spring blizzard which was the worst in the memory of most residents in this area brought back memories to a pioneer of this country.

James H. Whippo, or Jim Whippo as he is better known, now lives in California but has many memories of Ochiltree county in the early days when he was a county official, musician, stockman and what-have-you.

Jim reports that the recent blizzard wasn't the toughest, by a long shot. The biggest snow and the toughest one of all was in 1903, or thereabouts.

Snow stood 42 inches on the level following that one.

The coyotes liquidated the antelope.

Range horses ate manes and tails off to the bone and later ate the wooden 2x6 boards off the county windmill and cornice of the Ochiltree county courthouse.

Hugh King, a county court clerk

at the courthouse during the storm. He sojourned with a friend for a week, then built a sled, borrowed a tarp, hoisted sail and sailed 10 miles home across the frozen snow.

Black eyed peas were crowned "the staff of life."

With this snow, the subsoil moisture penetrated 6 feet, Jim declared.

With his letter, Uncle Jim enclosed a photograph of Ochiltree, showing the sod Post Office and William Stevens Blacksmith Shop, with the Post Office building nearby covered with snow, and the blacksmith shop is completely covered.

Due to the faded condition of the photograph, the Herald was unable to get a satisfactory engraving made of it.

Commenting further on the 1903 storm, Uncle Jim said, "There was a girl passed away up in Beaver county. She was a sister of John Lovett, son-in-law of T. S. McLarty.

"We, George M. Perry and I had secured title to lots in a block in the old town of Ochiltree for use as a graveyard. Deeded same to the trustees of the M. E. church South, who in turn saw fit to make the county clerk the secretary and general manager.

"That was me, as I was supposed to always be around.

"The sheriff at that time was Mr. George Horn. Horn and Whippo fell heir to the grave digging and burial ceremony by being all-ways present.

"So in digging the grave for Miss Lovett, we spaded full six feet through moist soil when this big snow went off."

GOES TO STATE— Jo Morrill, editor of El Sombrero, Perryton high school newspaper, is one of two Perryton high school students who qualified for the State Inter-scholastic League meet by winning first at the regional meet. She was first in the journalism contest, competing in five divisions of that contest. The state meet is the first week in May.

No Extension Of Grazing Wheat Land

In spite of telegrams, letters and telephone calls from various individuals in this area to Congressmen, the Department of Agriculture held firm on the date of April 15 as the deadline for grazing wheat land in the Soil Bank.

The requests for an extension of the grazing date pointed out that the wheat crop is behind schedule, that the plants are just now becoming available for grazing, and that another month of grazing would save farmers and stockmen a lot of money for feed.

Harold Hudson, Ochiltree County Democratic Chairman, and Charley Hobbs, Republican County Chairman, both sent wires to Congress and to Secretary of the Agriculture.

Senator Lyndon Johnson wired "Have submitted your request and others to Department and urged consideration of conditions you emphasized. However, Department feels program should end in all the states at the same time, that to extend would mean grazing the new crop and not the old. Regret unfavorable outcome."

Rep. Walter Rogers wired Hudson "Department of Agriculture refuses to change expiration date for grazing of soil bank crops from April 15 to May 15 in storm ridden area. Numerous requests to Department based upon argument that this same area has undergone six years of drought plus the recent blizzard has failed to alter their position. They did advise that the emergency grain program has been extended."

Under Soil Bank Program," will be led by Ed Jacobson, Oldham county farmer.

The meeting begins at 9 a. m. and ends at 5 p. m.

Galveston, Texas, terminus of the Canada-to-Gulf highway, was named in 1782 for Bernardo de Galve, then governor of Louisiana.

Plan to Attend Weed Meeting

Several farmers and ranchers of the Perryton area are planning to attend the Tenth Annual Texas Weed Control meeting at the Amarillo Experiment Station on Thursday, April 25, according to county agent Delbert Timmons.

Of greatest interest to those of this area will be the reports and discussions on bindweed control.

There will be many exhibits of weed control equipment and there is a tour of weed control research plots.

Ralph Thomas, Gray county agent, will report on results of seven years of bindweed control program and a panel discussion.

"Bindweed control program and a panel discussion, "Bindweed Control Opportunities and Obligations

TEST WATER-SAVING CHEMICAL—Dr. Buell Beadle, chairman of Southwest Research Institute Department of Chemistry Engineering, San Antonio, checks water level on one of the 14 units used to test the effect of the chemical hexadecanol in preventing evaporation of water. Experiments are being conducted on lakes and reservoirs to determine how the chemical reacts in open areas. (U.P. Wirephoto)

Tractor Driving Contest Is Set

The county 4-H Club tractor driving contest will be held at the county fairgrounds on Saturday, April 27, county agent Delbert Timmons has announced.

There will be 12 boys partici-

pate in the contest and the winner will compete in the district contest, Timmons said.

The contest consists of driving a tractor through an obstacle course, backing up with implements attached, and performing other feats of driving skill.

The Fiji Islands in the South Pacific number about 320. Only 106 are inhabited.

Delegates to Lion Convention Named Soon

Delegates from the Perryton Lions Club to the District 2T-1 and 2T-2 convention in Lubbock on May 2-4 will be named soon, president Irvin Herget said this week. The Perryton delegation will be headed by incoming president Elliott Lee.

This bi-district convention, held every five years, is one of the largest in the state. It will draw delegates from 65 counties with 155 clubs and 7,633 members.

Featured speakers on the program will be Joe Childress of Abilene, International Director of Lions International, and Edgar M. Eibert of Maywood, Ill., past president of Lions International.

The convention visitors will be entertained by a talent contest sponsored by District 2T-1 and a Queen Contest sponsored by 2T-2. Both events will be in the Municipal Coliseum, which seats 7,500 spectators.

Ted Weems and his orchestra will supply music Friday night for the Governor's Ball, in the ballroom of the Caprock Hotel.

Ever add almost extract to canned sliced peaches? Nice for a flavor change.

through the usual hundreds of measures requiring study, debate and some sort of agreement. Many are still backed up in discouraging stacks.

TEACHER RAISE—One of the biggest issues still gathering steam in the Legislature is the teacher pay raise. Despite strong backing, the drive has been beset with stumbling blocks.

Public school teachers want a \$399-a-year boost. Total cost for the biennium is variously estimated from \$45,000,000 to \$70,000,000.

Then the attorney general ruled the teachers' bill was not an appropriation bill. This seemingly opened the door to quicker action.

But budget-watchers intervened. They said passage of the teacher bill first would leave the treasury \$20,000,000 short of enough to cover the general appropriation bill.

NEW INSURANCE COMMISSIONER—Gov. Price Daniel chatted with his newly appointed Insurance Commissioner Joe P. Gibbs, left, of Seguin in Austin, Gibbs was appointed to the commission on April 5th and had formerly served on the board from 1941 to 1952.

This focused attention on Rep. Tom Joseph's "just in case it's needed" tax bill. It would tax dedicated natural gas reserves, produce an estimated \$35,000,000 in two years.

AUTO REGISTRATION TAX—State car taxing system would be overhauled under a measure which won preliminary House approval.

Meanwhile, Texas Research League released a study suggesting further revision of the registration laws. License fees based on weight result in inequities, said the League.

FARM BILL SHELVED—A bill to replace Commissioner of Agriculture John White's office with a 21-member board went to House sub-committee.

White declared the bill was dead. Hearing brought prolonged and heated testimony. Proponents of the measure contended lack of state-federal cooperation has re-

Bass Ambush Pore Little Texas Fish

AUSTIN — Gangland tactics of feeding black bass and immunity of fish to noise at shallow depths are reported by Texas Game and Fish aquatic divers in their studies to familiarize anglers with secrets of the deep and to improve fishing luck.

The Chief Aquatic Biologist for the Commission said the noise observations particularly concern the increasing popularity of motorboats, "may provoke some adjusted attitudes toward surface disturbances and their effect on fishing."

He suggested for "more entertaining reading" the reports made by Aquatic Biologist John E. Tilton, assistant project chief, on observations in Lake Travis of the Highland Lakes chain about one kind of fish preying on another.

Tilton wrote that black bass seemed to use organized gangster tactics in rounding up some elusive perch. He stated: "Two small black bass were seen feeding on a school of Rio Grande fry. Five or six of the fry became separated from the main school and sought cover in a small patch of vegetation approximately one foot in diameter. The two bass took stations on opposite sides of the vegetation patch and waited. As the perch fry left the cover, to rejoin

the main group, they were instantly captured by one or another of the bass."

The diving technicians, who penetrate to depths of as much as one hundred feet, noted "It appears strange to see the predator and prey species sometimes existing so harmoniously together until some spark sets off a feeding splurge when many of the prey species are devoured." They added: "Other instances have shown small black bass slicing viciously through schools of Rio Grande perch fry, taking one or two with each dash. While the bass are actively feeding, the young are frantically seeking cover in moss or crevices. Suddenly, when the bass becomes gluttoned or stop feeding, the perch fry leave cover, congregate again into a compact group and move on, often side by side with the bass which had been feeding on the school."

Concerning surface noises, Tilton's crew wrote: "A ten-horse power outboard motor is used frequently in the diving areas while observations are in progress. No difference in numbers of fish seen or general activity can be seen during periods of extensive use of the motor and periods when the motor is not in use. On one occasion the boat was run at full speed back and forth over a test area. The fish in the area completely ignored the motor noise and continued normal activities . . . other surface sounds are believed to have little effect on fish activity. The fish observed completely ignored common surface sounds such as movement in the boat, talking by helpers on the surface, and even low flying jet aircraft."

Below surface noises actually attracted fish, noted the divers, who reported, "It was noticed that certain fish could be enticed within inches of the diving team by tap-

ping two small rocks together . . . Although most species appear curious only, the longear sunfish seems to be infuriated by the tapping sound and would often viciously and repeatedly attack the rocks. . . ."

"In addition to the rocks, a small metal can containing steel bolts was sealed and used as a noise producer. By shaking the can, a drum-like noise was produced which could be heard distinctly at a range of 100 feet . . . Obvious interest was shown by bass, sunfish, and Rio Grande perch."

Record? SNYDER, Okla. (P)—Mrs. E. G. Davis must have set some kind of a sewing record during 1956. She made 29 double-bed quilts and one baby quilt. She did all of the piecing and quilting herself.

Siberia Milder? WHITEHORSE, Y. T. (P)—When five Hungarian refugees arrived in this Yukon Territory outpost, it was 20 below zero.

The Whitehorse weekly editor quipped: "Presumably when they fled from Hungary, they anticipated they were escaping Siberia. I'm not so sure."

Quick Punishment HUNTINGTON, W. Va. (P)—A Huntington man, with bruises and cuts on his head, complained to police that he had been attacked by someone with a blunt instrument. The investigation developed that he had been in a poker game and was caught cheating.

The Atlantic and Pacific oceans are on the same level. But the Pacific has a tide variation of 20 feet, and the Atlantic varies only 2 feet.

Snow Was Deeper In Good Old Days Pioneer Reports On Blizzard

The March 28 issue of the Herald which contained many pictures and the story of the record spring blizzard which was the worst in the memory of most residents in this area brought back memories to a pioneer of this country.

James H. Whippo, or Jim Whippo as he is better known, now lives in California but has many memories of Ochiltree county in the early days when he was a county official, musician, stockman and what-have-you.

Jim reports that the recent blizzard wasn't the toughest, by a long shot. The biggest snow and the toughest one of all was in 1903, or thereabouts.

Snow stood 42 inches on the level following that one.

The coyotes liquided the antelope.

Range horses ate manes and tails off to the bone and later ate the wooden 2x4 boards off the county windmill and cornice of the Ochiltree county courthouse.

Hugh King, a settler, was caught

at the courthouse during the storm. He sojourned with a friend for a week, then built a sled, borrowed a tarp, hoisted sail and sailed 10 miles home across the frozen snow.

Black eyed peas were crowned "the staff of life."

With this snow, the subsoil moisture penetrated 6 feet, Jim declared.

With his letter, Uncle Jim enclosed a photograph of Ochiltree, showing the sod Post Office and William Stevens Blacksmith Shop, with the Post Office building nearby covered with snow, and the blacksmith shop is completely covered.

Due to the faded condition of the photograph, the Herald was unable to get a satisfactory engraving made of it.

Commenting further on the 1903 storm, Uncle Jim said, "There was a girl passed away up in Beaver county. She was a sister of John Lovett, son-in-law of T. S. McLarty."

"We, George M. Perry and I had secured title to lots in a block in the old town of Ochiltree for use as a graveyard. Decided same to the trustees of the M. E. church South, who in turn saw fit to make the county clerk the secretary and general manager."

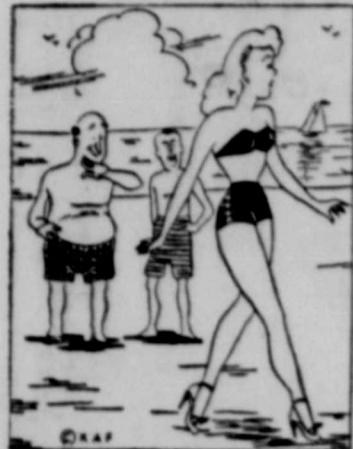

"That was me, as I was supposed to always be around."

"The sheriff at that time was Mr. George Horn, Horn and Whippo fell heir to the grave digging and burial ceremony by being always present."

"So in digging the grave for Miss Lovett, we spaded full six feet through moist soil when this big snow went off."

GOES TO STATE— Jo Morris, editor of El Sombrero, Perryton high school newspaper, is one of two Perryton high school students who qualified for the State Inter-scholastic League meet by winning first at the regional meet. She was first in the journalism contest, competing in five divisions of that contest. The state meet is the first week in May.

Plan to Attend Weed Meeting

Several farmers and ranchers of the Perryton area are planning to attend the Tenth Annual Texas Weed Control meeting at the Amarillo Experiment Station on Thursday, April 25, according to county agent Delbert Timmons.

Of greatest interest to those of this area will be the reports and discussions on bindweed control.

There will be many exhibits of weed control equipment and there is a tour of weed control research plots.

Ralph Thomas, Gray county agent, will report on results of seven years of bindweed control program and a panel discussion. "Bindweed control program and a panel discussion," "Bindweed Control Opportunities and Obligations

Age Limit

DAALAS, Tex. (AP)—Some women aren't shy about their age.

Mrs. J. Mabry Thomas was honored with a luncheon on her 79th birthday and the invitations read, "No one under 70 allowed."

There were 10 women guests.

No Extension Of Grazing Wheat Land

In spite of telegrams, letters and telephone calls from various individuals in this area to Congressmen, the Department of Agriculture held firm on the date of April 15 as the deadline for grazing wheat land in the Soil Bank.

The requests for an extension of the grazing date pointed out that the wheat crop is behind schedule, that the plants are just now becoming available for grazing, and that another month of grazing would save farmers and stockmen a lot of money for feed.

Harold Hudson, Ochiltree County Democratic Chairman, and Charley Hobbs, Republican County Chairman, both sent wires to Congress and to Secretary of the Agriculture.

Senator Lyndon Johnson wired "Have submitted your request and others to Department and urged consideration of conditions you emphasized. However, Department feels program should end in all the states at the same time, that to extend would mean grazing the new crop and not the old. Regret unfavorable outcome."

Rep. Walter Rogers wired Hudson "Department of Agriculture refuses to change expiration date for grazing of soil bank crops from April 15 to May 15 in storm ridden area. Numerous requests to Department based upon argument that this same area has undergone six years of drought plus the recent blizzard has failed to alter their position. They did advise that the emergency grain program has been extended."

Under Soil Bank Program," will be led by Ed Jacobson, Oldham county farmer.

The meeting begins at 9 a. m. and ends at 5 p. m.

Galveston, Texas, terminus of the Canada-to-Gulf highway, was named in 1782 for Bernardo de Galvez, then governor of Louisiana.

TEST WATER-SAVING CHEMICAL—Dr. Buell Beadle, chairman of Southwest Research Institute Department of Chemistry Engineering, San Antonio, checks water level on one of the 14 units used to test the effect of the chemical hexadecanol in preventing evaporation of water. Experiments are being conducted on lakes and reservoirs to determine how the chemical reacts in open areas. (AP Wirephoto)

Tractor Driving Contest Is Set

The county 4-H Club tractor driving contest will be held at the county fairgrounds on Saturday, April 27, county agent Delbert Timmons has announced.

There will be 12 boys partici-

pate in the contest and the winner will compete in the district contest, Timmons said.

The contest consists of driving a tractor through an obstacle course, backing up with implements attached, and performing other feats of driving skill.

The Fiji Islands in the South Pacific number about 320. Only 106 are inhabited.

Delegates to Lion Convention Named Soon

Delegates from the Perryton Lions Club to the District 21-1 and 2T-2 convention in Lubbock on May 2-4 will be named soon, president Irvin Hergert said this week. The Perryton delegation will be headed by incoming president Elliott Lee.

This bi-district convention, held every five years, is one of the largest in the state. It will draw delegates from 65 counties with 155 clubs and 7,633 members.

Featured speakers on the program will be Joe Childress of Abilene, International Director of Lions International, and Edgar M. Elbert of Maywood, Ill., past president of Lions International.

The convention visitors will be entertained by a talent contest sponsored by District 2T-2 and a Queen Contest sponsored by 2T-1. Both events will be in the Municipal Coliseum, which seats 7,500 spectators.

Ted Weems and his orchestra will supply music Friday night for the Governor's Ball, in the ballroom of the Caprock Hotel.

Ever add almost extract to canned sliced peaches? Nice for a flavor change.

Blights and Sidelights FROM YOUR CAPITOL

ERN SANFORD

... "Sine die" is the phrase around the Capitol... the phrase translated to the final address agreed on by both Legislatures.

... weeks remain of the session in the Congress. After that makers' pay stops.

... appears strong for a resolution set on or very deadline. It's been a... say many members.

... bribery charges, and threat of more nerves, provoked hot rifts.

... it harder to plough

through the usual hundreds of measures requiring study, debate and some sort of agreement. Many are still backed up in discouraging stacks.

Even so, say members, they hope to shove through the "musts" and go home on time. But likely differences of opinion on what constitutes "musts" promise even more tension and temper for the final weeks.

TEACHER RAISE—One of the biggest issues still gathering steam in the Legislature is the teacher pay raise. Despite strong backing, the drive has been beset with stumbling blocks.

Public school teachers want a \$399-a-year boost. Total cost for the biennium is variously estimated from \$45,900,000 to \$70,000,000.

Sponsors have become increasingly impatient of delays. Bill was stymied by House rule which prohibits consideration of any other spending bill until the general appropriations bill is finally approved. This is in conference committee.

Then the attorney general ruled the teachers' bill was not an appropriation bill. This seemingly opened the door to quicker action. But budget-watchers intervened. They said passage of the teacher bill first would leave the treasury \$20,000,000 short of enough to cover the general appropriation bill.

NEW INSURANCE COMMISSIONER—Gov. Price Daniel chatted with his newly appointed Insurance Commissioner Joe P. Gibbs, left, of Seguin in Austin, Gibbs was appointed to the commission on April 5th and had formerly served on the board from 1941 to 1952. At the time of his appointment he was chairman of the board of directors of the Nolte National Bank of Seguin. He replaces Morris Brownlee who resigned. (P) Wirephoto

the main group, they were instantly captured by one or another of the bass."

The diving technicians, who penetrate to depths of as much as one hundred feet, noted "It appears strange to see the predator and prey species sometimes existing so harmoniously together until some spark sets off a feeding spurge when many of the prey species are devoured." They added: "Other instances have shown small black bass slicing viciously through schools of Rio Grande perch fry, taking one or two with each dash. While the bass are actively feeding, the young are frantically seeking cover in moss or crevices. Suddenly, when the bass becomes gluttoned or stop feeding, the perch fry leave cover, congregate again into a compact group and move on, often side by side with the bass which had been feeding on the school."

Concerning surface noises, Til-

ton's crew wrote: "A ten-horse power outboard motor is used frequently in the diving areas while observations are in progress. No difference in numbers of fish seen or general activity can be seen during periods of extensive use of the motor and periods when the motor is not in use. On one occasion the boat was run at full speed back and forth over a test area. The fish in the area completely ignored the motor noise and continued normal activities... other surface sounds are believed to have little effect on fish activity. The fish observed completely ignored common surface sounds such as movement in the boat, talking by helpers on the surface, and even low flying jet aircraft."

Below surface noises actually attracted fish, noted the divers, who reported, "It was noticed that certain fish could be enticed within inches of the diving team by tap-

ping two small rocks together... Although most species appear curious only, the longear sunfish seems to be infuriated by the tapping sound and would often viciously and repeatedly attack the rocks... "In addition to the rocks, a small metal can containing steel bolts was sealed and used as a noise producer. By shaking the can, a drum-like noise was produced which could be heard distinctly at a range of 100 feet... Obvious interest was shown by bass, sunfish, and Rio Grande perch."

Record?

SNYDER, Okla. —Mrs. E. G. Davis must have set some kind of a sewing record during 1956. She made 29 double-bed quilts and one baby quilt. She did all of the piecing and quilting herself.

Bass Ambush Pore Little Texas Fish

AUSTIN — Gangland tactics of feeding black bass and immunity of fish to noise at shallow depths are reported by Texas Game and Fish aquatic divers in their studies to familiarize anglers with secrets of the deep and to improve fishing luck.

The Chief Aquatic Biologist for the Commission said the noise observations particularly as concerns the increasing popularity of motorboats, "may provoke some adjusted attitudes toward surface disturbances and their effect on fishing."

He suggested for "more entertaining reading" the reports made by Aquatic Biologist John E. Tilton, assistant project chief, on observations in Lake Travis of the Highland Lakes chain about one kind of fish preying on another.

Tilton wrote that black bass seemed to use organized gangster tactics in rounding up some elusive perch. He stated: "Two small black bass were seen feeding on a school of Rio Grande fry. Five or six of the fry became separated from the main school and sought cover in a small patch of vegetation approximately one foot in diameter. The two bass took stations on opposite sides of the vegetation patch and waited. As the perch fry left the cover, to rejoin-

This focused attention on Rep. Tom Joseph's "just in case it's needed" tax bill. It would tax dedicated natural gas reserves, produce an estimated \$35,000,000 in two years. Gov. Price Daniel had recommended a levy of this sort should more revenue be needed.

But this one, by some slip, was introduced without an enacting clause. Joseph sought the necessary two-thirds House vote to permit a correction. Vote was 68-to-66 against.

AUTO REGISTRATION TAX—State car taxing system would be overhauled under a measure which won preliminary House approval.

If passed, the constitutional amendment would abolish the property tax on motor vehicles. Legislature would be given authority to increase registration fees by one-third. Revenue would be divided between school districts and city or county.

Meanwhile, Texas Research League released a study suggesting further revision of the registration laws. License fees based on weight result in inequities, said the League. It proposed a flat fee for all size cars.

FARM BILL SHELVED—A bill to replace Commissioner of Agriculture John White's office with a 21-member board went to House sub-committee.

White declared the bill was dead. Hearing brought prolonged and heated testimony. Proponents of the measure contended lack of state-federal cooperation has re-

sulted in inadequate crop inspection.

Opponents declared the 21-member board would be unwieldy and cost the state more in travel expense.

SEGREGATION BILL OKAYED—A bill regarded as the cornerstone of a program to maintain school segregation won its second-round House vote.

It would allow local boards to assign pupils to schools on basis of "qualifications, aptitudes," etc. An amendment also gives the boards authority to exempt a child from compulsory attendance at an integrated school.

Balanced Design Means Less Wear, Longer Life, Easier Handling

Use a Big-Capacity JOHN DEERE NO. 55 COMBINE

Line and grain tank are centered on the John Deere No. 55 Self-Propelled combine. This means the No. 55 is balanced, even when the grain tank is full. Good flotation and flexibility for soft fields.

Balanced design also means that your crop is evenly distributed over all of the units. There's no overloading to cause grain losses or undue wear.

Come in and let us give you all the details on the 12 or 14 ft. John Deere No. 55 Combine... the balanced combine that saves more grain or seed at lower cost.

Mr. and Mrs. Earl Sweigart and David of Gray, were Sunday dinner guests with his parents, Mr. and Mrs. Milton Sweigart.

Mrs. Robert Barlow called on Mrs. Leo Wilson Thursday after-

noon.

Mrs. E. C. Dodson and Mrs. George Dietrich called on Mrs. Fred Huston Monday afternoon.

Mr. and Mrs. Julius Pshigoda visited her parents, Mr. and Mrs. H. Kellin and his mother, Mrs. W. M. Pshigoda of Shattuck, Okla., on Monday night and Tuesday.

The Junior Miss 4-H Girls met with Leona Barlow on Monday after school.

The Lone Tree Home Demonstration club will meet on Wednesday, April 24, with Mrs. Lake Patton.

Century's Worst

RUTHVILLE, Va. (AP)—Old Charles City courthouse, which stood through attacks of British soldiers in 1780 and Yankees in 1864, almost fell when it was besieged by skunks.

Mrs. Emma Styll, county nurse, and Mrs. Louise Roach, health department clerk, beat a hasty retreat upon opening the door. County Clerk J. H. Binn, Sr., counter attacked with chemicals furnished by a pest control firm. Personnel gradually returned but no one was happy and visitors were brief. Complete relief was not obtained until chemical warfare was taken beneath the floor boards.

News from the County Agent

In a recent survey of weeds in Texas it was found that 25,000 farms were infested with 300,000 acres of bindweed. In the Panhandle of Texas 4,235 farms had 121,227 acres of farmland infested with bindweed. Ochiltree County has its share.

It has been difficult to control bindweed during the drought, but if we continue to get some rain control measures should work much better. In general, bindweed is controlled by three methods or combination of methods: (1) Control by tillage methods, (2) Soil sterilants, (3) Spray chemicals such as 2-4D. Heavy stands of bindweed on large acreages can be reduced by tillage every 10 to 14 days during favorable growing conditions and less often under unfavorable. During the 2nd year cultivation must be supplemented with other methods to eradicate the scattered plants. A combination of cultivation and spraying can be used.

Use of 2-4D spray and cropping has been used successfully to control bindweed. Small grain seems to be the best crop but sorghums also can be used. By spraying bindweed in the fall and spring they can be controlled and a small grain crop produced. This followed by cultivation through the summer will reduce the stand of bindweed and they can be eliminated over a period of years if they are not allowed to grow long enough to replenish their food supply in the roots. The success of using 2-4D depends on the timely application

of the correct amount of the chemical. When the plant is growing vigorously, you will get better control.

Soil sterilants can be used to eliminate small patches of bindweed. Usually not over 1/2 acre in size. Soil sterilants also need moisture to carry them into the roots to get the desired effect and kill the plants. Concentrated barasuc and sodium chlorate are the two most commonly used. Barasuc at 16 pounds per square rod or 2500 lbs. per acre. Sodium Chlorate at 5 lb. per sq. rod or 800 lb. per acre. ACP assistance is available for the soil sterilants.

Each year the Texas Weed Control Association has its annual meeting at the Southwestern Great Plains Field station at Bushland, Texas. Here the latest developments in weed control is discussed. You may observe plots of the different control measures used and equipment for application. This is always a very good meeting and everyone with weed problems are urged to attend.

Gets Inside Knowledge

OKLAHOMA CITY (AP)—J. Wiley Richardson accepted co-chairmanship of the special gift division of the St. Anthony Hospital expansion fund, and he got some first hand facts.

Richardson broke a knee and had to be hospitalized for a long period in traction. He had a special phone installed and used his time soliciting over the phone.

Cool a cooked filling before adding it to a pie shell; this little trick may help you to avoid a soggy crust.

Natural Gas Co. Will Increase Daily Output

The Natural Gas Pipeline Co. of America, with a booster station at Gray, has asked the Federal Power Commission in Washington for permission to increase its daily deliverability to its current major expansion program.

Total cost of the projects is estimated at \$210,000,000.

The company, which delivers natural gas to utilities in six states, is seeking approval to increase facilities in order to provide 185,000,000 cubic feet per day. Hearings in the firm's earlier request for 155,000,000 increase are now nearing completion.

The combined effect of these separate expansion plans will be to increase by 670,000,000 cubic feet the present deliverability capacity of 510,000,000 cubic feet.

The boosting capacity of the Gray plant was increased with new equipment in 1956.

St. Bernard dogs are named for St. Bernard de Menthon, who founded a shelter in the 11th Century for travelers in the Alpine snows.

Post Office Back On Normal Schedule

After one Saturday on "short rations," the Perryton Post Office along with all others in the nation, will be open for business as usual this week. City deliveries and downtown deliveries will be made as in the past and the office will be open until noon. The curtailment of services in the post offices across the nation brought about the restoration of about \$47 million to the department after a much publicized Congressional hearing with Postmaster General Arthur W. Summerfield.

Shamrock Texan, Best Special Edition. The convention was highlighted by a speech by Gen. Archie Old, commander of the Western Command, Strategic Air Command, at the Friday night banquet.

Attending the convention this year from the Herald were Mrs. Van W. Stewart, publisher, Mr. and Mrs. O. W. Dunkle, Mr. and Mrs. Bert Neelley, Mr. and Mrs. Raymond Overbey and Jerry, Mr. and Mrs. J. W. Payne, Mrs. B. C. Jones, Mrs. Anna Lee McLanahan, Bob Lewis and Donald Payne.

Gray Community Plans Special Easter Service

Services will be conducted this week at the Gray Community church in Gray in celebration of the Easter Season. These services will begin with a Good Friday Service at 7:30 p. m., another service at Saturday evening and another on Sunday evening at 7:30 p. m.

Highlights of the services each evening will be the presentation of the Easter Passion Story, Dr. A. T. Robertson will present a harmony of the Four Gospels and Rev. John Whipple will present the sermon on the combined theme.

The Passion Story will be shown in full color and sound in a motion picture following the sermon.

The Friday services will include songs by the choir, special singing illustrated in felt paintings. The Saturday evening subject is "Jesus Before the High Priest," "The Trial Before Pilate," "The Crucifixion." The Sunday services begin at

10 a. m. with Sunday School and the preaching service at 11 a. m. A basket dinner will be served at noon and the evening services will begin at 7:30 p. m.

Everyone in the Perryton area is welcome to attend any of these services.

No. 2 Continued from Front Page

high school choir has won many Division 1 ratings in the past, this year's group is the first to win Sweepstakes honors. Other junior high school mixed groups to win top honors were Sam Houston and Stephen F. Austin of Amarillo and Pampa junior high.

Miss Haywood, daughter of Mr. and Mrs. Paul Haywood, brought home her fourth superior rating in solo work. An outstanding music student, Pat was also named to last year's All State Choir.

Judges for this year's regional competition were from Waco high school, Colorado University, North Texas State College, Kansas State and Texas Tech.

Peterson Gets Pool Contract

James H. "Pete" Peterson, the Perryton high school coach, was awarded the season contract for operating the Perryton Swimming Pool at the Tuesday night meeting of the city council.

Peterson has operated the pool every summer since 1952, his first summer as Ranger coach.

Terms of the swimming pool contract are the same as before, with receipts split 60-40 per cent, and Peterson to pay for all expenses except the cost of the water used to fill the pool.

The pool will open next month, with the exact date yet to be set, Peterson said.

Colorado Man Sent Home After Phony Audition

A 22-year-old Las Animas, Colo. man was sent home by Perryton officers last Friday after being picked up and questioned regarding a phony "talent scout" contest he was attempting to organize in the local school.

No charges were filed against the man as he had taken no money from any of the students he contacted.

He appeared at the high school and represented himself as a talent scout, looking for students to appear in summer shows to entertain military installations. He said he represented the University of Miami (Fla.) School of Music and that those with talent could obtain a college scholarship at Miami.

Finally, suspicions were aroused and Police Chief Bob Doffer was asked to check on the man's story. A telephone call to Miami disclosed that the man was unknown by the university.

Sheriff Ray Phagan called the man's home in Las Animas and his parents requested that he be sent home at once.

Six Highway Accidents in Area in March

Six traffic accidents were reported by State Highway Patrolmen Bob Loving and Kenneth Harrison in the Perryton Sub-Station area during March.

All six accidents involved property damage, but no injuries were reported.

Total property damage was estimated at \$1,795.00.

During the first three months of the year, there were 17 auto accidents with two persons injured. Total damage was estimated at \$5,395.00.

During March, the patrolmen handed out 34 warning tickets and filed charges in 25 cases for various traffic violations.

In the Amarillo District during March there were 6 persons killed, 46 persons injured and the estimated property damage was \$64,458.00.

During the same month a year ago there were 5 killed, 44 injured and the property damage was estimated at \$34,995.00.

Hippos Rule

MILWAUKEE (AP)—The state of Wisconsin has postponed indefinitely its plan to recharge a deep well, because of two hippopotamus.

Plans were going ahead to pump water into the well at Washington Park near the city zoo when zoo officials realized this would mean the well would have to be shut down. The zoo would have to use city water for a while, and this is something Tony and Cleo, the hippopotamuses, could stand. City water is too cold.

So the state decided to call off its experiment.

Well-Seasoned

AUSTIN, Minn. (AP)—When someone asks Mrs. Allen Oxley to pass the salt and pepper shakers, she'd better be ready to duck. Mrs. Oxley has 1,700 of them, collected over a period of 38 years.

"I can't stop collecting now," she says, "it's like a disease. I'd have to get more cabinets."

Wrong Number

STUEBENVILLE, Ohio (AP)—Although its staff is anxious to keep people healthy, Gill Memorial Hospital personnel didn't feel they had

a right to tell all those people who called whether or not to go skating.

Then they found out why ice skaters were phoning. The Herald-Star blushing admitted printing

the hospital's phone creation department's

Montana was admitted United States on Nov. 4

Heavy Damage To Automobiles In Monday Wreck

Heavy damage was sustained by both automobiles involved in a sideswipe collision Monday afternoon about 19 miles south of Perryton.

The accident, which occurred at about 3:55 p. m., involved a 1951 Oldsmobile driven toward Perryton by Dan Simpson of Perryton and a 1957 Oldsmobile driven south on SH 70 by Roy Earnest Arey of Perryton.

State highway patrolman Bob Loving, who investigated the wreck said that the Simpson car crossed the center stripe when the driver dozed at the wheel. Arey swerved to his left to avoid the oncoming car, and that Simpson pulled his car back to the right as he looked up and saw the approaching collision.

The two vehicles sideswiped and the damage was estimated at \$700 on the 1957 Olds driven by Arey. Damage was estimated at \$300 to the 1951 Olds driven by Simpson. No injuries were received by either party.

Bad Business

CHICAGO (AP)—Bank robbers had tough luck robbing banks in Illinois during 1956.

There were 11 bank robberies and 3 attempted robberies, says Thomas Etcheson, executive vice president of the Illinois Bankers Assn. Of the total of 30 robbers involved, 17 were captured. Of the \$77,890 loot, \$24,433 was recovered.

EQUITY

GOOD?—Paon Roti et Pare de son Plumage was the piece de resistance, when the Green Junior Gormets Club held its third annual cooking contest in Dallas. The dish is really stuff and the top of the bird from its bright blue head to its fantastic tail covers the dish. Mollie was the cook. Charles Eschenfelder, 18, center, watch Henri Piller judge, record his findings. (AP Wirephoto)

When Henry Ford died at the age of 83 in 1947, he left an estate valued at more than \$300 million dollars.

Johnson Has Dog Partner

Van Johnson shares starring honors with two ladies and a dog in his new picture, "Kelly and Me," which comes to the Ellis Theatre on Sunday and Monday.

Piper Laurie and Martha Hyer are the two beauties who take second billing to the pooch. The story is about a vaudevilian and his performing dog in which the animal becomes the main factor in his master becoming a Hollywood movie star and then exhibits his literally dog-like devotion when it seems his master has rejected him.

In addition to Johnson and the Misses Laurie and Hyer, the cast numbers such other topnotch performers as Onslow Stevens, Herbert Anderson, Frank Wilcox, Gregory Gay and Douglas Fowley.

Congress provided a half billion dollars for relief in the U. S. drought of 1934.

John Wayne Is Relentless As 'The Searcher'

"The Searchers," starring John Wayne, comes to the Ellis Theatre on Tuesday-Thursday, April 23-25, in a picture directed by John Ford.

Always among the foremost stars in boxoffice appeal, Wayne portrays an embittered Civil War veteran who returns to his Texas home only to find his family has been killed and his nieces held captive.

Ford, who won Academy Awards for "Stagecoach" returns to the screen for this latest effort. A group of talented newcomers are seen on the screen with Wayne in the film. Jeffrey Hunter, Vera Miles and Natalie Wood round out the cast, along with veteran Ward Bond.

'Shrinking Man' Unusual Tale In Science Fiction

A novel and awesome tale in the field of science fiction comes to the Ellis Theatre on Friday and Saturday when "The Incredible Shrinking Man" is presented, starring Grant Williams and Randy Stuart.

This is one movie title that tells the customer what the picture is about. The story is about a strange, relentless malady which reverses a man's growth processes and literally shrinks him from his normal six-foot stature to less than an inch in height.

One of the most hair raising sequences is achieved when the man fights a house cat who is many times the man's size.

The unusual tale, told many years ago with Tom Thumb as the hero in children's books, has been refined and re-worked by Richard Matheson until it actually appears new.

The U. S. National Guard was named in 1824 for the Garde National that Lafayette commanded in France. Lafayette was then visiting a regiment of the New York State Militia.

The official language of Israel is Hebrew, but street signs are in Hebrew, English and Arabic.

Sound Planning Is Needed for Well Rounded Pasture and Forage Program

COLLEGE STATION—Pastures will take no more abuses than any other farm crop, says Extension Pasture Specialist E. M. Trew. High producing pastures can be unprofitable, he adds, if utilized improperly or given poor grazing management.

A sound forage program that will meet all needs for grazing, hay and silage requires considerable planning. Trew says the number one consideration is the use of plants adapted to local soil, climatic and livestock conditions. While the best quality forage is always more desirable for any livestock and especially dairy cows, hogs, or poultry; Trew points out that some types of animals can get along on lower quality forage much better than others.

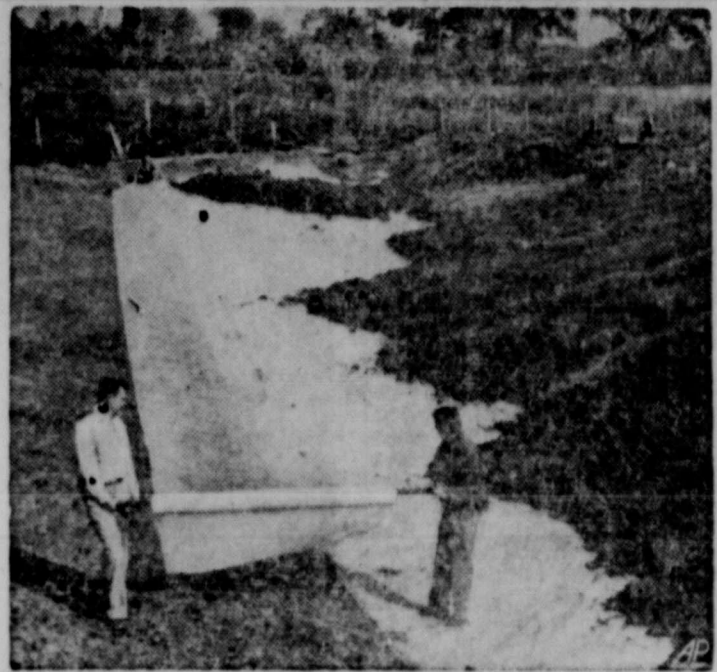

Proper pasture establishment gets a strong initial boost when good quality seed are used to insure better stands. Planting the right amount of seed at the right time on a well-prepared seedbed will put the finishing touches on this phase, Trew asserts. Recommendations call for planting in a

band above a fertilizer band placed 2 to 3 inches below and to one side of the seed. Soil may be firm- ed with a press wheel at or after seeding.

Don't start grazing until plants are well established, Trew warns, and always stop grazing at the right time. Overgrazing reduces production! Practice rotation grazing, he urges. It means the use of a high percentage of available grazing; rest for plants between grazings; use of plants when palatable and nutritious; and the use of growth not needed for grazing as hay or silage.

Properly grazing and fertilizing adapted plants is the best means of weed control, Trew says, and vigorous pasture plants will greatly reduce this problem. Weed control becomes unprofitable in cultivated pastures not containing good stands of adapted desirable plants.

Other tips in a good forage program include planned seasonal grazing; proper fertilization; proper irrigation; and the use of pastures in cropping systems. See your county agent for assistance in making your plans, suggests Trew.

FOR RESERVOIR—Workmen lay plastic in the bottom of what will be a farm pond while a bulldozer moves dirt to cover it and hold it down. The idea developed from a plastic covering for greenhouses. The plastic, which prevents seepage, is expected to last 20 years.

S. V. Whitehorn

Where is a good place to go fishing, Bob Addington was asked the other day and it didn't take him and Frank Addington but a few seconds to state that Lake Childress is one of the hottest places in the country at this time, that it was for the first few days until cold weather hit. Bob said that the lake is a bit smaller than lake McClellan and located some six miles west of Childress he also stated that boats and bait are available. Most all of the fishermen including children caught their limits the opening with practically all of the bass and channel cat being about the same size which was 2 to 2 1/2 lbs. The catfish were all about 18 inches in length.

Lake Childress was re-built a few years back and after it caught enough water it was stocked by the Texas Game and Fish Commission with 35,000 bass and 17,500 channel cat plus a good amount of crappie. Addington also said that trotlines, dough and stink bait are not permissible and that the fishing hours close at 11 p. m. Evidently the lake is city owned and the rules where they don't conflict with State laws, are set by the city of Childress.

"MRS. TEXAS" WINNER—Mrs. Louis F. Hale, right, of Kilgore was crowned "Mrs. Texas" in Dallas by retiring "Mrs. Texas" Mrs. Edwin C. Campbell of LaGrange, Secretary of State Zollie Steakley, who represented Gov. Daniel, center, smiles his approval. Mrs. Hale the mother of four children, including twins, is the wife of a rancher who owns and operates a truck line. Mrs. Hale will compete in "Mrs. America" national finals to be held in Ft. Lauderdale, Fla., May 11-12. (P. Wirephoto)

ACC Glee Club Sings Monday In Auditorium

The Men's Glee Club from Abilene Christian College will present a concert at 11:20 a. m. Monday, April 22 in the Perryton school auditorium.

The chorus includes 28 men from 10 states and is under the direction of Richard C. Palm, assistant professor of music at Abilene Christian College.

This appearance will be the second on a seven-stop tour which will extend to points in Oklahoma, Nebraska and Kansas. The singers' next stop will be in Dodge City, Kansas.

The Men's Glee Club became an official organization of ACC in 1952. The group has toured the Southwest extensively, traveling to points as far as Memphis, Tenn. In addition to touring, the chorus records, hymns and choral compositions which are used by radio stations throughout the United States and Canada.

Delayed Recovery

PHILADELPHIA (AP)—A Central High student named Bill Labkoff stopped by the school office and was handed a mechanical drawing case by secretary Anita Tobias. "I found this here," Mrs. Tobias said. "It must be yours." It has your name on it."

Bill examined it and said: "No it's my father's." Inside the set was printed—"L. Labkoff, Sept. 1925."

The elder Labkoff, (Leon J.) said he lost the set that year when he was a student at Central. The school has moved since then but obviously the drawing set went with it.

Mr. and Mrs. Roy Leatherman, Merrill and Rhonda, and Mrs. D. C. Wilson spent the week end visiting in the home of Mrs. Wilson's mother, Mrs. Isabelle Clark, Alva, Oklahoma.

stations which are used by radio stations throughout the United States and Canada.

CITATION BY PUBLICATION

THE STATE OF TEXAS To G. B. Presson, defendant in the hereinafter styled and numbered cause:

You are hereby commanded to appear before the District Court of Ochiltree County, Texas, to be held at the Courthouse of said county in Perryton, Texas, by filing a written answer, at or before 10 o'clock, a. m. of the first Monday after 43 days from date of issuance hereof, being Monday, May 27, 1957, and answer the petition of plaintiff in Cause No. 1963, styled, Kayleen Presson vs. G. B. Presson, which petition was filed on April 10, 1957, being suit for divorce by plaintiff against defendant, alleging plaintiff and defendant were married March 17, 1951 and separated January 31, 1957; that two daughters were born of said marriage; that defendant has been guilty of unkind and harsh treatment toward plaintiff; and that such conduct was of such a nature as to render their further living together insupportable, premises considered, plaintiff prays for decree of divorce, for child support, other and further relief, all as more fully shown in plaintiff's

petition on file in said court within 90 days after date of this citation, which shall be returned upon the return of the citation to the District Court, Ochiltree County, Texas.

Given under my hand and issued at office of the District Court, Ochiltree County, Texas, April 10, 1957. ((SEAL))

Pakistan Sends Added Bird Stock
From far away across the rolling blue waters of the Atlantic ocean there arrived a shipment of See See partridges which were recently released in the Palo Duro canyon, southeast of Amarillo. The Director of Wildlife Restoration of the Texas Game and Fish Commission stated that there were 120 of these birds recently released and there is another shipment on the way.

These game birds, which come from the drier parts of West Pakistan, are being tested in the rugged areas of the Palo Duro Canyon. The original shipment of sixty-eight See Sees was turned loose last spring.

The assistant director said that

few reports have been received about the first release but said project personnel were unable to locate the birds. (A. S. Jackson, who stated that shortly after the first release the grounds were checked and that a few birds were heard calling. After the bird made the call the bird investigators would make a hasty walk in the general direction only to see the bird fly into the air a few feet, like a dog in high oaks getting up to where he could see out, then the bird would disappear only to reappear some two or three hundred yards away in the same manner.)

The Assistant Director also stated that the "birds have been swallowed up by the wild country and we won't worry about survival until the additional numbers have been released and had their chance to set up housekeeping and begin trying to raise their families."

He did say that more than ordinary attention would be given the Palo Duro Canyon country hereafter since the SeeSees will be on one side of the wilderness and the recently released Anadiah sheep will be on the other side.

The SeeSees described as a hair smaller than a quail, were obtained from Pakistan thru the U. S. Fish and Wildlife Service which coordinated the requisition thru the U. S. state dept.

The director stated that the sturdiness of the fleet game bird was "pretty well tested" in the transfer from their Pakistan habitat to Texas. They were in Far East quarantine three weeks and in New York Customs quarantine three weeks. Only two days were required for the actual flight from Pakistan to New York.

A. S. Jackson, Chief Biologist for the Panhandle, stated that "he is hopeful that some of the transplanted game will take hold" as a means of supplementing native species which have been so hard hit by recent drought and growing shortage of natural habitat."

He said, "there is some optimism for the future of another imported upland game species—the red-leg partridge, a larger bird, released in Cotulla and Spicewood counties. However, additional time is needed before the success or failure of the transplant can be determined."

Jackson said at least some red-legs survived the first sharp winter weather test. He flushed three of them in Lipscomb county after the recent blizzard.

Recent conversation with veteran trapper, Lou Hulse, Paul Odus, Mr. Woodson and Tom Record revealed that the blue and bay-white quail in the Sneed ranch country and Dumas area made out quite differently. On one particular ranch many of the birds would be

found frozen while on the other the birds showed up in as great numbers as ever. Investigation revealed that there will be ample seed stock in the area north of the river from Stinnett to Dumas.

Mr. and Mrs. John Mayfield announce the birth of a daughter on April 14, at Sanford hospital, and have named her Peggy Ruth. Mr. and Mrs. B. H. Peckenpaugh of Farnsworth are maternal grandparents and Mr. and Mrs. C. O. Mayfield of Buckholts, Texas are paternal grandparents.

Santa Fe

the river that flows on wheels

More petroleum moves over Santa Fe than over any other railroad in the country

The 2,384,000,000 gallons of petroleum that Santa Fe moves every year is the river that flows on wheels.

It's so large that it makes Santa Fe the No. 1 petroleum railroad in the country.

This flood tide of oil gives heat and power to farms, factories, military installations and homes all over the nation.

The tremendous demand for petroleum, in all its forms, poses special problems for Santa Fe. For it requires speed and service to keep that river flowing full force. Here are a few of the ways we get the job done.

We move empty tankers just as fast as full ones, so no vehicle will stand idle.

As new oil fields are opened up, we stand ready to serve them. And when new developments take place within the industry, we adapt ourselves to take care of them.

As an example, take liquefied petroleum gas. The demand for it has skyrocketed in the last 10 years, because with this "bottled gas" rural families can cook and heat with gas just like city people. And the railroads have made it possible for them to get it.

Santa Fe runs special LPG trains when the demand for this product requires it. In a year, these trains carry enough LPG to heat over 500,000 homes from November through April.

This is just a part of the story of the dependable transportation service Santa Fe is providing to essential industries that contribute so much to the welfare of our country.

Legislation Not the Answer

The Texas Legislature is considering again a version of the Fair Trade Act which would affect all wholesale and retail business in Texas.
Briefly, this law, supported by the Texas Retail Grocers Association, is aimed at curbing competition by eliminating "loss leaders," customarily used in advertising.
The law would prohibit a merchant from limiting the number of items offered at a certain price. It sets the price a merchant may charge by a complicated method of arriving at cost-plus, defining cost as the invoice price plus freight plus a standard markup.
This in effect would put all retailers on the same basis and go a long way toward eliminating competition.
While the grocers had in mind a weapon to fight the chain stores with this law, its implications have spread rapidly until now there are independent furniture store men, dry goods men, etc., who have appeared before the legislative committee complaining that the law would work a hardship on their merchandising program.
The food market has become highly competitive, with stores carrying on an intensive campaign with lower prices, "give-aways" and other gimmicks to lure the customer into their stores.
This law would stop all that and put every food merchant on an equal basis.
This, we think, is contrary to the principles of free enterprise upon which this country was built.
We think a man has the right to sell his merchandise at any price and at any terms he desires, even to the extent of giving it away. There should be no law restricting it.
What this country has too much of now is restriction by law.

Who Owes What To Whom?

Back in the depression days, when the New Deal was pumping money into public works in an effort to create jobs and lift the country into some sort of economic life, the mounting federal deficits were excused on the claim that they represented money "we owe to ourselves."
It is interesting to note that 20 years later the taxpayers are putting up more than \$7 billions a year for interest payments on this money they owe to themselves.
This \$7 billion is about twice what the federal government was collecting and spending for all purposes in 1930.
It's more than the government is spending on the farm program and more than the veterans program is costing.
We don't care if "we owe it to ourselves." Somehow, it doesn't ease the sting of the tax collector's bite a bit.
Most of the tax money that is carrying the \$275 billion debt is coming from wage and salary earners in the middle and lower income bracket.
That takes in most of the Herald readers, as well as the Herald staff. We are the ones who are stuck with most of the interest charge on this money that "we owe to ourselves."

Useful Strings

DENVER, Colo. (AP)—Mrs. Ricarda Mooney, a violinist with the Denver Symphony Orchestra, had to play her way out of jail. "A friend and I were arrested for speeding," Mrs. Mooney explains, "and the policeman made me play 'My Wild Irish Rose' before he would let us leave the station. We didn't have to pay a fine."
Pat parsley dry in a towel after you've washed it, then store in a tightly covered container in the refrigerator.

From the SIDELINE with HAROLD HUDSON

We certainly appreciate all the nice words and letters of congratulation upon our election to the office of president of the Panhandle Press Association. We consider the office a high honor and appreciate the confidence of the newspaper people of the Panhandle who put us in. Although the Friday morning ice on the highways cut into the registration and attendance of the convention, this year's gathering was quite up to the high standards of former years.

The Herald won a second and a third in the newspaper contests. In fact, the Herald won a second place in the editorials contest for the third consecutive year. Maybe next year will be the time we win first. This column won a third place in the contests this year.

It's always refreshing to go to the press convention and swap yarns with fellow editors and publishers. We suppose all conventions are the same, at least the conventions of those in the same trade or profession. There is something comforting in exchanging problems with another and finding out that your problem is exactly the same as the other fellow has. Sometimes he has already worked out a solution.

We got to visit Friday night with Major General Archer Olds, commander of the Western Division, Strategic Air Command, and we were quite impressed. Not only with the general, who seems to be one of those birds who has "gone everywhere and seen everything," but with the SAC operations which cover the globe.

Of course, we saw the movie "Strategic Air Command" with Jimmy Stewart a couple of years ago but we thought this was Air Force propaganda. The general convinced us otherwise. He had recently returned from leading this non-stop trip around the world which took 45 hours, 19 minutes. He spoke of going to Bermuda and Japan like we talk of going to the golf course or the coffee shop.

And he scared us when he said that the next war is likely to be ended in a matter of weeks or days instead of years. The U. S. is operating on the theory of "massive retaliation" in its defense preparations and with nuclear weapons we have indeed the tools for such retaliation. In fact, General Olds pointed out that a single airplane with a hydrogen bomb load, can drop more explosive power than resulted from all the bombs dropped in World War II. This is hard to grasp, but we're sure it's true.

The general talks with enthusiasm and gives the impression that SAC is on the alert, at the peak of combat preparedness, as it were, and we're glad they're on our side.

Drilling activity has slowed down everywhere, not only in the Perryton area and the Panhandle and the only reason is the marketing situation which is supposed to be more or less temporary. The oil industry has crude oil and refined products running out of its ears, so to speak, and the spur toward further production has been blunted.

"YOU'VE GOT TO REDUCE!"

Wolf Creek Philosopher Great Idea In Post Office Deal

(Ed. note: The Wolf Creek Philosopher has heard about the postoffice controversy, his letter this week indicates.)
Dear editor:
I have always figured that two of the fundamental rights of every American was to occasionally get mad at the post office and the home town newspaper, and what brings this to mind is not anything that the Herald or Postmaster Hergert have done lately, but the controversy brought on by Postmaster General Summerfield over the need for more money to keep the post office department functioning up to standard.
As I understand it, the Postmaster General is closing all the post offices on Saturdays, including rural free delivery, and cutting out some other post office functions if Congress doesn't give the department 47 million dollars more money.
Mr. Summerfield said the post office was going in the red and the only choice was to get more money from Congress or curtail some of its services.
Now this is a new idea in government, and while I would hate to see the mail carrier fail to show up at my neighbor's mail box on Saturday's I'd like to say it has great possibilities.
For example, take foreign aid. Everybody knows it's costing us tax payers a lot of money to keep the rest of the world happy, and if Sec. Dulles could come over to Postmaster General Summerfield's way of thinking, he could threaten to cut down on this aid unless

Mr. Summerfield said the post office was going in the red and the only choice was to get more money from Congress or curtail some of its services.
Now this is a new idea in government, and while I would hate to see the mail carrier fail to show up at my neighbor's mail box on Saturday's I'd like to say it has great possibilities.
For example, take foreign aid. Everybody knows it's costing us tax payers a lot of money to keep the rest of the world happy, and if Sec. Dulles could come over to Postmaster General Summerfield's way of thinking, he could threaten to cut down on this aid unless

Gasoline stocks are said to be at an all-time high in the United States, but the prices at the retail pumps are, too. The oil industry found out long ago, however, that the price of gasoline has little effect on the total sales. In other words, reducing the price to 15 cents would result in only a slight increase in retail price. Gasoline is about like cigarettes, the consumption remains in about the same ratio as consuming units (cars or people) regardless of price.
Of course, we wouldn't care if cigarettes went up to 50 cents a package. We would merely save more money.
The people that economists used to say were underprivileged are now described as overfinanced.
The Supreme Court surprised no one when it announced last week that the government owns all the mineral rights on the land deeded to the railroads for right-of-way back in 1862. This is the same Supreme Court, packed with politicians, which has consistently upheld federal ownership as opposed to states rights, individual rights or what have you.
Several have asked why the Herald discontinued "Down Memory Lane" and we can report that it will be back in about next week. Actually, we have found that this was one of the best read features, and we do intend to resume it.
There's nothing like a good, old-fashioned, home-cooked meal — not in most homes, at least.

Employers Liable For 'Hot Checks'

AUSTIN—An amendment to the Texas "hot check" law that makes employers liable for paying their employees with checks that "bounce" has been signed into law by Gov. Price Daniel.
Charles T. Lux, executive vice-president of the Retail Merchants Association of Texas, said the new amendment closes a loophole in the "hot check" law. "Until this amendment was signed, a retail business on any other place of business that accepted worthless checks presented in good faith by workers had practically no legal recourse to recover its loss," Lux said.
"Now under the new amendment employers who give checks that prove to be 'hot' are subject to criminal prosecution and may be fined up to \$2,000 and sent to jail for 30 days if the amount involved is less than \$50. If the amount of the worthless check is more than \$50, then the penalty is from two to ten years in prison and a fine up to \$10,000."
Lux said there were several hundred cases in Texas last year where employers paid off their workers with worthless checks causing the places that cashed these checks to lose many thousands of dollars.
Prosecution of these cases under the Texas "hot check" law was difficult because provisions did not cover checks given as wages or salaries for services.

Congress gave him more money. This might not make the rest of the world happy, but think what it would do to you and me.
Or take any other department of the government. Any time it got in the red, all it'd have to do is cut down on some of its operations, even to the point of letting some men off. I'll admit this is contrary to our way of life, that any time a country or a family is living beyond its income the thing to do isn't to cut down on spending but to borrow more and drag out the time payments longer, but it's something to try with.
However, it could be carried too far. Take farming, it wouldn't work there. When a farmer finds he isn't making enough, he doesn't cut down on his services. He plows longer and tries to multiply em.
Maybe the post office department can cut down on its services when it's going in the hole, but you apply that to a farmer and the grocery shelves in town would soon be bare.
Yours faithfully,
J. A.

GEARED TO SOUTHWESTERN LIVING
"You'll like it even better when you drive it!"
Neighbor: Say, your new Olds sure looks like a lot of car!
Olds Owner: That's nothing, wait'll you take a ride.
(A few minutes later):
Neighbor: Man-oh-man, where'd all that power come from? I've never felt anything like that before!
Olds Owner: That's Oldsmobile's new J-2 Rocket Engine!
Neighbor: What's that? Tell me how it works.
Olds Owner: When you're driving under ordinary conditions, it uses only one carburetor. That means economy with a capital E. But when you need a sudden burst of power, for safety's sake, you just press the accelerator three-quarters of the way down—and two additional carburetors cut in!
Neighbor: In other words, with J-2, you can have economy when you want it and power when you need it. That's for me!
Olds Owner: Better see your Olds dealer. He's expecting you!

REV. PAUL H. HOLDEMAN
 Pastor, Mennonite Church
 Birch and 4th Ave. Perryton, Texas

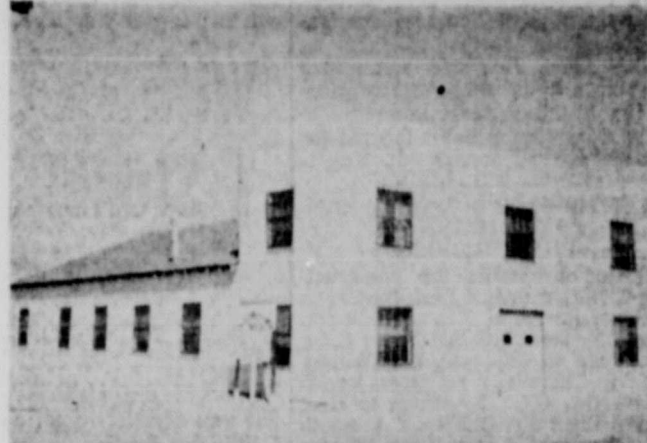

Rev. Paul Holdeman brings a special message this week pertaining to the Easter Sermon. This is the latest in a series of meditations prepared by ministers of the Perryton area, their commentaries published weekly on this page. Rev. Holdeman's message follows:

One day last summer one of my neighbor's boys brought me a worm and asked me to identify it. Well, I have not mingled too much with worms and I didn't know just what kind of worm it was so I told him to leave it with me and I would try to find out what it was. We placed the worm in a paper cup and set it on my desk until I might find a bit more time to do research. I forgot about the worm until the next day and since I have a bit of sympathy even for a starving worm, I decided to do something about it. But, to my dismay, the worm had disappeared. I had all but given up my search for this elusive creature when I discovered a chrysalid hanging from a tiny ledge on the desk. Now I was certain what had happened to my worm. Rather than suffer without purpose, he must have decided to become a butterfly. I watched this unresponsive chrysalid for several days and then one day as I opened the office door, out flew a beautiful butterfly and after inspecting the remains of the chrysalid, I realized the unresponsive pupae had become a lively and beautiful creature that was no longer confined to his tiny coffin nor to the earth where he used to crawl but was now free to live on an entirely new plane of life.

It is always true that there must be the death experience before there can be a resurrection experience. This is why we need not shrink from our experiences of suffering. Indeed, we can actually rejoice in suffering because in suffering we learn to die to our old ego-centric, narrow, ineffective lives and in dying we find that we have risen to an entirely new plane of living. Isn't this what Jesus meant when He said, "Except a corn of wheat fall into the ground and die, it abideth alone; but if it die, it bringeth forth much fruit."

For those who have really come to know the significance of Jesus' death and resurrection, Easter can never be celebrated in terms of an egg-laying rabbit.

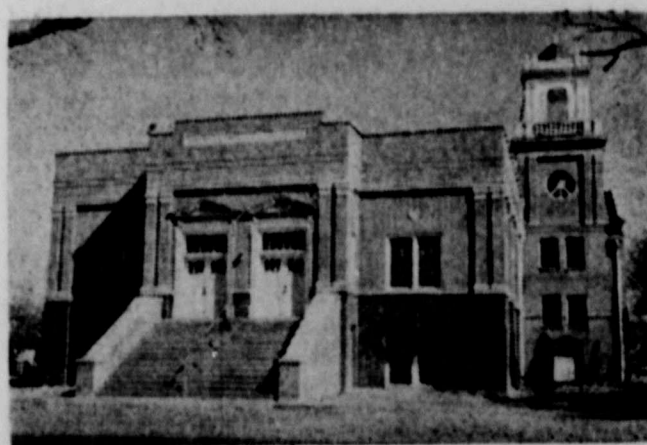

Neither will Easter be celebrated as an event in history. Easter, when it is really understood, will be celebrated as an ever-present event that is constantly unfolding within us as we learn day by day to permit the resurrection of Christ to take place in us.

Mrs. Hinds Is Shower Honoree

A baby gift shower was given April 10, in the home of Mrs. Robert Mitchell, 1521 south Colgate, to honor Mrs. Jerry Hinds.

Co-hostesses for the courtesy were Mrs. Clair Larkey, Mrs. Richard Littleton, Mrs. Roy Hinds and Mrs. James Sheahan.

The serving table was decorated with a large stork and flowers with candies on either side. Plate favors were miniature diapers.

Mrs. Sheahan registered the guests.

Mrs. Roy Hinds served at the punch bowl.

Approximately 35 guests called or sent gifts during the afternoon.

Teams Honored With Banquet

The Christian church honored the members of their girls and boys basket ball teams with a banquet, Friday night, April 12, in the Fellowship Hall.

The tables were decorated with colored balloons and seasonal flowers. Miniature pipe cleaner men carrying banners which read "Keep God Your Goal," stood on the tables.

The Invocation was given by Rev. Joe Frederick.

Marion Riley and Nanjean Boxwell sang two selections.

Donald Ellis was Master of Ceremony.

Each team presented their coach with a gift of appreciation.

Eddy Williams was the speaker for the evening.

Approximately 130 members were present.

Regular Meeting Held April 10 In Harvester Room

Members of the Jennie June Club held their regular meeting Wednesday, April 10, in the Harvester Room of the Hotel Coffee shop.

Hostesses for the occasion were Mrs. Sammy Phelps and Mrs. Woodrow Brillhart.

Mrs. Warren Cudd, president, conducted the business meeting.

Mrs. Harold Hudson reported that \$249.00 was made on the rummage sale.

Mrs. Gale Rogers gave a report on the Texas Federation of Women's Clubs Convention held in Amarillo March 14-15. The club received the following awards: first place in Community Service, third place in City Beautiful, third place in Forest and Recreation, second place on reports and first place in Community Participation.

Plans were made for a family picnic to be held in the City Park on April 27.

Following the business meeting the group attended District Court at Spearman.

The study course for the year is "Lighting up the Darkness." The visit to Court was the legal way.

Those present were Mesdames Bill Allen, Jack M. Allen, Warren Brillhart, Gene Cudd, Warren Cudd, John C. Daniel, Harold Hudson, Dean Monroe, Charles Price, Edward Puls, Gale Rogers, G. K. Rupprecht, Cecil Tevis, Bill Tregeilas, J. B. Whigham, Jimmy Dunlavy and the hostesses.

Mrs. Bennett Is Hostess To Lamp-Liter Club

Mrs. Elmo Bennett, 1515 South Colgate, was hostess to the Lamp-Liter bridge club, April 11.

The bridge tables were laid with white cloths and the Easter theme was carried out with yellow spring flowers for the dessert course served preceding play.

Guests for the evening were Mrs. T. D. Nichols and Mrs. Jack Pitzer.

Members present were Mrs. Frank Shaffer, Mrs. Wayne Kisker, Mrs. Bill Walker, Mrs. Chris Keim, Mrs. Cliff Phelps, Mrs. Edwin Garland and the hostess.

Mrs. Nichols held high score in bridge play and Mrs. Shaffer held second high.

Mrs. Hargrove Is Bridge Hostess

Mrs. Herman Hargrove of Farnsworth was hostess for a desert-bridge Thursday, April 11. A dessert was served preceding bridge play.

Mrs. Harlan Hawk was a guest for the afternoon.

Members present were Mrs. O. C. Rogers, Mrs. Ben Peckenpaugh, Mrs. Merton Smith, Mrs. Ray Chase, Mrs. John King, Mrs. John Luthi and the hostess.

Mrs. King held high score for the afternoon and Mrs. Peckenpaugh held second high.

Church Circle Has Bible Study

The Business Women's Circle of the Baptist Women's Missionary Union held their regular Bible study Monday evening in the church parlor.

Hostesses for the occasion were Mrs. Carl Blackmore, Mrs. I. H. Sharpe and Miss Sarah Riggs.

Mrs. J. R. Gunter led the opening prayer, and Mrs. Leo Shuler, read the minutes of the previous meeting.

Mrs. J. S. Slaughter presided for the business meeting and gave the committee reports.

Mrs. I. R. Buchanan taught the lesson. Her subjects were "The Prayer Our Lord Taught His Disciples" and two prayers, "Give Me" and "Make Me."

Mrs. A. K. Wooten gave the closing prayer.

Refreshments were served at the close of the evening.

Refreshments were served at the close of the evening.

Mrs. Carroll B. Ray was a guest for the evening. Others present were Mesdames I. R. Buchanan, Tom Carver, T. R. Shirley, A. K. Wooten, Paul Bowen, D. W. Hart, J. R. Gunter, Esther Kelley, Leo Shuler, Val McAnahan, R. R. Ward, Henry Pshigoda, Ray Robinson, J. S. Slaughter and the hostesses.

Supper Club Held In Daley Home

Mr. and Mrs. Garland Daley, 1410 south Drake, entertained their supper club Tuesday night.

The Easter theme was carried out in the centerpieces on the serving and quartet tables.

Places were laid for Mr. and Mrs. Bruce Baumann, Mr. and Mrs. Lloyd Morgan, Mr. and Mrs. Jim Dunlavy and the host and hostess.

Games of canasta were played following supper.

HD Club Meeting In Enfield Home

Mrs. Roy Enfield, 614 south Grinnell, was hostess to the Missouri Avenue Club last Friday, afternoon.

Mrs. Lou Ella Patterson, agent, gave the program on "Adjusting Patterns." The methods of stay stitching was demonstrated by Mrs. J. W. Chase.

The members voted to change the meeting time from 2:30 to 3:00 o'clock.

Refreshments were served at the close of the meeting.

Those present were Mrs. J. W. Chase, Mrs. H. C. Brown, Mrs. Arthur Henry, Mrs. E. W. Thompson, Mrs. P. W. Wermse, Mrs. E. W. Hearn, Mrs. Alva Drake, Mrs. J. J. Keim, the hostess and two visitors, Mrs. Wayne Lovett and Mrs. Billy Drake.

4-H Club Meets In Merrick Home

The Junior Miss 4-H Club met recently in the home of Pat Merrick, Carolyn Lollis was co-hostess for the afternoon.

The meeting was called to order by Carolyn Lollis, president.

Pat Merrick, clothing demonstrator, demonstrated the correct method of putting a zipper in a garment.

Refreshments were served to the following members: Diana Cudd, Jeanette Felix, Sandra Hawk, Judith Reimer, Janice Schwalk, and the hostesses Pat Merrick and Carolyn Lollis.

Adults present were Mrs. Kenneth Cudd, Mrs. Lester Schwalk and Mrs. James Lollis.

Class Meeting Held Tuesday

The Dorcas Sunday school class of the First Baptist church held their regular monthly meeting, Tuesday, April 16, in the home of Mrs. Nellie Day, with Mrs. J. D. Copeland and Mrs. Bill Holdeman as co-hostesses.

The meeting opened with a prayer by Mrs. T. R. Shirley.

The following program was given: Miss Trula McGarraugh and Kenneth Wooster gave a musical number. Mrs. J. D. Copeland read a poem. The devotional was given by Mrs. Carroll Ray.

Refreshments were served at the close of the meeting.

Those present were Kenneth Wooster and Trula McGarraugh guests of the class also Mrs. R. E. Walton, Mrs. Tuelma Carver, Mrs. R. H. Holland, Mrs. Etta Waggoner, Mrs. T. R. Shirley, Mrs. Carroll Ray, Mrs. A. D. Brillhart, Mrs. Beulah Stark, Mrs. Paul Bowen, Mrs. Rupert Allen, Mrs. Effie Kulow and the hostesses.

DESIGNER AT WORK . . . Claire Schaffel, Swiss designer, gives final inspection to a new summer dance dress in which bands of cobwebby black lace are superimposed on pale silk. Butterfly bow at back and graceful skirt are flattering touches.

Mrs. Sims Hostess To Bridge Club

Mrs. J. C. Sims was hostess to the Wednesday bridge club, April 10.

The tables were decorated with seasonal flowers for the dessert course served preceding bridge play.

Mrs. Clifton Bell held high score for the afternoon and Mrs. Dean McCutcheon received the traveling prize.

Others present were Mrs. Gilt-

ner LaMaster, Mrs. Roy Sanford, Mrs. Gordon Shackelford, Mrs. Alton Boxwell, Mrs. Drew Ellis and the hostess.

Miss LaVerne Burger returned to Castanar, Puerto Rico, April 12, after a two weeks visit with her parents, Mr. and Mrs. G. A. Burger and other relatives and friends.

She is secretary to the Director of the Brethren Service Project in Castanar and plans to spend the next 18 months there.

Always refrigerate cakes that are frosted with whipped cream or filled with a custard mixture.

Leona Barlow Is 4-H Hostess

The Junior Miss 4-H Club met with Leona Barlow, Monday, April 15, in her home southeast of Perryton.

Carolyn Lollis, president, presided over the business meeting. Pat Merrick led the group in a song, and Leona Barlow was in charge of recreation.

Miss Lou Ella Patterson, Home Demonstration Agent, gave a demonstration on the correct method of putting a zipper in a garment.

Mrs. Kenneth Cudd, adult leader, discussed the 4-H records. She stressed that the records must be complete by April 25th and brought into the County Home Demonstration Agents office with the finished garment. The garments will be judged Saturday, April 26th in Miss Patterson's office.

Members present were Diana Malaney, Pat Merrick, Judith Reimer, Janice Schwaik, and the hostess Leona Barlow.

Adults present were Mrs. Marvin Felix, Mrs. Kenneth Cudd, Mrs. James Lollis, and Miss Lou Ella Patterson, and Mrs. Leonard Barlow.

The next meeting will be on April 29th.

Mrs. Yearly's Club Hostess

Mrs. Grady Yearly was hostess to the Farnsworth bridge club last Tuesday afternoon.

Mrs. John Doores held high score for the afternoon and Mrs. Ferd Koehn held second high.

Others present were Mrs. Wendell Peckenpaugh, Mrs. Merl Cudd, Mrs. H. C. Brown, Mrs. George Brown, Mrs. Vern Conner, Mrs. John Tillerson and the hostess.

TO STATE MEET—James Ray Lollis, member of the Perryton Ranger track team, will go to the state meet in May to represent the region. He won second place in the pole vault in the regional contests at Lubbock, vaulting 11 feet.

Home Dem. Club Meets Tuesday In Herndon Home

The Notia Home Demonstration club met in the home of Mrs. Billy Herndon, southeast of Perryton, Tuesday April 16.

Mrs. Etta Waggoner, president, called the meeting to order and Mrs. Ed Savage led the recreation.

Roll call was answered with "Pattern Adjustment I Need."

Mrs. B. L. Hance demonstrated adjusting patterns to fit. She also demonstrated the correct way to make darts and seams.

Refreshments were served to Mrs. Sam Handly and Mrs. Hotch Schroeder guests of the club, also Mrs. Ralph Hale, Mrs. Nathan Jines, Mrs. J. W. Daniels, Mrs. J. H. Calliham, Mrs. George Yates,

Mrs. Fred Hale, Mrs. Bessie Hance, Mrs. George Jackson, Mrs. Arnold Good, Mrs. Ed Savage, Mrs. B. L. Hance, Mrs. Etta Waggoner and the hostess.

The next meeting will be in the home of Mrs. J. H. Calliham on May 7.

Marine Recruiter Here Friday

Sgt. Donald L. Goretzas, Marine Corps recruiter, will be in Perryton Friday, April 19, to interview interested young men in the Marine Corps.

Sgt. Goretzas said the Amarillo recruiting office may accept only eight men during the month of April.

The leatherneck will be located in the sheriff's office in the courthouse from 8 a. m. to 5 p. m.

NOTICE TO BIDDERS

Sealed proposals for the construction of two water supply wells will be received by the City of Perryton, Texas, at the office of the City Manager, City Hall, Perryton, Texas until 2:30 p. m. May 7, 1957 and then publicly opened and read.

Bidders must submit a bond of five per cent (5%) of the total amount of the bid as a guarantee that the bidder will enter into the contract under the conditions set forth within ten (10) days after notice of award of contract. The minimum wages which shall apply on this work are the established rates for this area. The City reserves the right to reject any or all bids, to waive informalities and to accept the bid deemed to be the most advantageous to the City.

Specifications may be inspected or obtained at the City Hall, Perryton, Texas or at the office of McMorries & Associates, Consulting Engineers, 527 Amarillo Building, Amarillo, Texas upon a deposit of Ten (\$10.00) which will be refunded to the bona-fide bidder upon receipt of Specifications. Proposals are to be made without charge. CITY OF PERRYTON, TEXAS By Drew Ellis, Mayor

Plane Builders Now Copy Germany's Autos

Constructed in Stuttgart, the Zwerg has a plastic body, Sachs motor, and reportedly reaches 60 mph.

By HANNS NEUERBOURG
Germany AP—With all the midget cars appearing in Germany, driving a big American automobile makes you feel like a Gulliver.
The midget cars, high insurance fees and expensive gas (66¢ a gallon) are largely responsible for the thriving new market in four-wheeled babies on the road.
The Zwerg slogan claims the new cars "cost less taxes than a car."

The Zwerg is a small car—below 700cc cylindrical contents—registered at a cost of \$426 and \$714. Some of these glass-domed midgets are only three feet high. But they make up in size what they lack in size. One reportedly will travel 100 miles on a gallon of gasoline.
The Zwerg is a car that you can think of cockpits. In fact, three of the midget cars are former Luftwaffe aircraft designers.
Messerschmitt, whose plants turned out the dreaded ME-109 in World War II, manufactures a three-wheeled model called the "Midget." Messerschmitt claims his midget cars are faster than the Zwerg.

The Zwerg, whose bombers helped blitz London, has hit the market as a four-wheeled Kabiner and Claude Dornier, designer of light reconnaissance planes, has come out with a trapezoid propeller four-wheeled Delta.
The Zwerg is a car popular in Germany are the BMW-Isetta, built under license, the Goggomobil and the Klein-schnitter, which looks like a toy and the 200-pound Zwerg (dwarf), which is less than 3 feet tall.

The Zwerg is a car popular in Germany are the BMW-Isetta, built under license, the Goggomobil and the Klein-schnitter, which looks like a toy and the 200-pound Zwerg (dwarf), which is less than 3 feet tall.

News from ANTHONY

Mrs. Ralph Bobbitt

The community was saddened to hear about the death of Bob Wilson's wife the last of the week. She was the daughter-in-law of Mr. and Mrs. Billy Wilson and resided in the Anthony community until her health required her to seek care elsewhere. Her obituary follows:

Clara Lou (known to all as C. L. Wilson, daughter of Joe J. and Jewell Jackson, was born July 22, 1926, at Elgin, Texas. She departed this life at the M. D. Anderson hospital, Houston, Texas, April 10, 1957 at the age of 30 years, 3 months and 18 days.

She was united in marriage to Bobby Dea Wilson on October 1, 1947 and to this union two children were born, Joyce Ann and Billy Dale.

When health permitted, she attended the Methodist Church. However, for the past five years she suffered serious illness which finally resulted in her death.

Surviving, besides her husband and two children, are her parents, Mr. and Mrs. Jackson, one sister, Mrs. Virginia Holzman, San Antonio, Texas; and five brothers, I. J. Jackson and Billy Joe Jackson, Dallas, Texas; Robert L. Jackson, Refugio, Texas; Wm. A. Jackson, Murfreesboro, Tennessee and Gene Jackson in service and stationed in California.

Her funeral was conducted in Beaver at the First Christian church with E. Dean Barr, minister of that church officiating. Interment was in Beaver cemetery Saturday afternoon.

The Anthony neighborhood should be very proud of their 4-H Club members who participated in the County Achievement Contest held in Beaver Friday. The following girls received blue ribbons on their sewing: Judy Pierce First year; Joyce Bobbitt, Karen Sue Davis, and Janell Pierce Fourth year; Ann Myers and Judy Morris with Judy as the Champion of her group of fifth year girls; Kaye Myers was the champion of the

(Herald Staff Photo Engraving)

OVER THE BAR—Benny Conley, representing Perryton seventh grade, is shown clearing the high jump bar in the invitational track meet here Tuesday afternoon. Perryton won the meet for fifth, sixth and seventh graders. Other schools participating were Booker and Spearman.

seventh year group and also the over all champion and will compete in the State Contest in Stillwater later on. Patricia Trimmel received a red ribbon for her second year work.

In the Junior Boys Dress Revue the following placed: Fred Whittet Champion in the School wear for Everyday wear with Neil Myers and Jack Morris receiving red ribbons. Fred Whittet and Jack Morris were given blue ribbons for the Sportswear for School and Neil Myers received the red ribbon in that division. Jack Morris was the Champion in the Sportswear Group.

In the Senior Division the following placed: Lynn Bobbitt received the blue ribbon with Jimmie and Ronnie Pierce receiving the red ribbons. In the Sportswear for School Duane Ratzlaff won the Blue and Ronnie Pierce won the red ribbon. Sportswear, Ronnie

Pierce placed in the Blue division with Luane Ratzlaff taking the Championship in that group as well as the over all champion. He will compete in the state contest to be held in Stillwater the last of May.

In the Junior Boys Demonstrations Fred Whittet and Jack Morris won red ribbons; Junior Boys Timely Speeches, Neil Myers received a red ribbon and Fred Whittet a blue ribbon.

In the Junior Girls Demonstration Patricia Trimmel and Judy Pierce were in the blue ribbon group.

In the Senior Girls Timely Speeches Judy Morris, Ann Myers and Kaye Myers were in the red ribbon group. In the Senior Mays Demonstration Lynn Bobbitt received a blue ribbon with his demonstration on electrical heat brooder and Jimmie Pierce and David Trimmel were in the red group with their team demonstration.

Ann Myers and Judy Morris were in the blue ribbon group with their demonstration on the electric skillet. Myrtle and Janet Bobbitt were in the blue ribbon group with their team demonstration. Kaye Myers had an individual demonstration on making a felt hat and placed in the blue ribbon group. Duane Ratzlaff placed in the red ribbon group with his timely speech.

Mr. and Mrs. Lem Van Deburgh and daughters, Judy and Nina

Seven Persons Died Each Day On Texas Highways In 1956

The annual statistical breakdown of Texas motor vehicle traffic accidents for 1956 was replaced in booklet form today by Col. Homer Garrison, Jr., director of the Texas Department of Public Safety.

The report, entitled "7 A DAY," got its name from the fact that an average of 7.13 persons per day were killed during the year 1956. In regard to this Col. Garrison took stock of the fact that the statistical picture probably will look no better during the current year.

Today seven persons were killed; tomorrow seven more persons will die in traffic accidents and so on throughout the year until we reach the end of 1957 when our 1956 death count of 2,611 will be exceeded.

The report, compiled by Chief N. K. Woerner of the department's Statistical Division, shows that in addition to an average of seven persons being sent to their graves daily in Texas 305 persons suffered injuries in 625 daily accidents. And in what is termed a conservative estimate, the report states that the average dollar loss per day during 1956 was just short of two-thirds of a million dollars.

Even though 64 more persons were killed in Texas motor vehicle traffic accidents in 1956 than in 1955 the statistical information does suggest a chance for improvement in the future. There were five deathless days in 1956, as compared with three of those days fell together on June 5 and 6.

In rural fatal accidents the effects of better highways evidenced in the fact that head-on collisions were reduced from 27.8 per cent in 1950 to 20.9 per cent in 1956. Woerner said this decrease was due primarily to an increase in the number of rural miles of divided highways.

A reduction in the number of sharp curves on rural highways has helped in reducing the "run-off-roadway" accidents from 28.8 per cent in 1950 to 22.2 per cent in 1956.

Younger drivers and newer vehicles were involved in more than their share of accidents. Of all drivers involved in rural accidents, 44.8 per cent were under 30 years of age—this group represents 31.2 per cent of the licensed drivers in

and other points east and south spent a few days in their home in this community over the week end. They plan to leave Monday for Houston and spent a few days

Texas. One third of the vehicles involved in rural accidents were one year old or less. This is emphasized by the fact that 50 per cent of rural fatal accidents involved only one vehicle. On this point Woerner concluded that possibly drivers are placing too much confidence in their newer cars.

November 24 was the black day in Texas last year with 29 persons killed—the greatest number of any day in 1956. This number, with an additional 9 killed November 25, made that week-end the deadliest on Texas Highways for the year with 38 persons killed in 24 accidents.

In reviewing the traffic accident information in "7 A DAY" the state police director said speed continues to be the leading causa-

tive factor in traffic accidents. "In 87 per cent of the rural accidents last year, one or more traffic law violations was a causative factor. At the top of the list driving too fast for conditions resulted in more accidents than any other violation."

Client Surplus

COLORADO SPRINGS, Colo. (AP)—Attorney John H. Gately found himself in a "most unusual situation" in a court case here. He had one client too many.

Gately was representing Luther Alto Robbins. He found he had the case, too, of Jerome H. Duchon Jr. Cars belonging to Robbins and Duchon were involved in a highway accident.

Gately, a bit red faced, told Justice of the Peace H. C. McShane he didn't realize his clients were on opposite sides of the same accident. The judge permitted Gately to withdraw.

Easter Play at Local Church

The Gospel Workers Group of the Full Gospel Church will present an Easter play, "Peace At Bethany," Friday evening at 8 o'clock. The all-woman cast includes Mrs. Wick Brown, Mrs. Frank Holdeman, Mrs. Joe Crum, Mrs. Irvin Delk, Mrs. Ancil McClung, Mrs. Billy Johnson, Mrs. Wesley Spencer, Mrs. Arthur Townsend, and Mrs. Floyd LaMunyon.

Evangelist A. B. Stanberry, who is conducting a revival in the church, will preach following the play. The public is invited.

President Eisenhower and General Alfred Gruenther, former NATO commander, are skilled bridge players. Former President Harry Truman likes to play poker.

Grass Planting Promoted by Beaver Soil Conservation District

The Beaver County Soil Conservation District is placing special emphasis on planting of native grasses on farms and ranches over the entire county.

The program of planting native grasses was started in late February but rains and snows have slowed the program to a standstill at various times. The program is now in full force and the District Supervisors have seven planters in the fields and rolling at full speed. The grasses are being planted on acres that have been put in the Soil Bank Program but other acres are ready to be planted and the District Supervisors are planning to fill all plantings requests received through the ASC program as well as those requests that have been

received on Soil Bank Acres.

Lester Conner is directing the grass planting program, and he is moving the planters from one planting location to another. The farmers and ranchers are pulling the planters with their own tractors and the planting program is going along at top speed.

Grass such as Little Blue Stem, Switch grass, Side Oats Grama, Blue Grama, and Sand Lovegrass are the grasses being planted. These grasses are best adapted to this area and are the grasses that will stand the long droughts. Buffalo grass is also fine for Beaver county but the seeds are not available because of a short harvest in 1956.

The Beaver County ASC Com-

mittee has made it possible for farmers to receive cost sharing help on these grass seedings and the weatherman has been kind enough to place the needed moisture into the soils, so its up to the individual farmer to make this grass planting needs known at the District Soil Conservation office and Lester Conner will help them get the grass planting job completed.

Several farmers and ranchers of the district have completed their grass plantings. These are: Ralph Ridgeway, Logan Gregg, Harold Pugh, Dean Calhoun, Ray Anderson, Clarence Stephenson, Orville Standley, Ralph Freeman, A. L. VanDeburgh, C. W. Robertson, Floyd Sheppard, Jay Bennett, J. C. Carson, Ledru Woodbury, Earl Patykowsky and Clarence Law. Several other farmers are ready to plant and the planters will be on their farms in a short time if the weather will permit. These are:

Lyle Wheeler, W. E. Nickerson, Lewis Duerson, Floyd Meyers, Allen Adams, Austin Williams, Clifford Lloyd, Chris Howard, Jim Ford, Kenneth Dixon, W. R. Haach, George Knight, George Leopp, F. O. Nichols, and Jake Schwab. As of this date the district does not have all their grass seed obligated and others who apply for grass planting will be serviced as soon as possible.

Mr. and Mrs. C. O. Mayfield of Buckhaults, Texas visited last week end with their son and family. Mr. and Mrs. John Mayfield and children and made the acquaintance of their new granddaughter, Peggy Ruth. Their grandchildren, Johnell and Gale Mayfield accompanied them home for a visit.

Some of the larger transatlantic liners carry a "permanent population" of 1,200 workers.

Rug Tells History

MAQUOKETA, Iowa — The hooked rug runners which cover the stairway risers in the farm home of Oscar Skott near here are made up of pictures which show highlights of the farm's history.

Skott's sister, Mrs. Margaret Siders of Maquoketa, made the pictorial rug and the story it tells begins with settlement on the farm by her parents, Mr. and Mrs. Hans Skott, in 1866.

Other pictures show the original farmhouse, its successor, the rock garden begun in 1871, the first team of mules purchased in 1890, the building of the first silo in 1903 and the coming of electricity to the farm in 1922.

The U. S. aircraft carrier Saratoga has enough horsepower to supply electricity for a city of 1,500,000 people.

BEFORE GRAND JURY—Rep. Wade Spilman, left, of Missouri and Attorney General of the House bribery committee and Les Procter, right, attorney of Travis county enter the Grand Jury room in Austin. Grand Jury took over the probe of alleged bribes, in the wirephoto.

Mr. and Mrs. Billy Joe Beck and

School Nurse To Be Employed

The Perryton schools will have the services of a full time nurse next year.

Mrs. Charley Pyles, R. N., has been employed by the school board as the first full-time nurse the school system has had.

Her duties will include keeping a health record on every child, visiting in the homes of children, and generally promoting the health of the school students, as well as taking care of the minor cuts and bruises that occur during school hours.

Pain Real

MILWAUKEE (AP)—The person who first made the remark, "He gives me a pain in the neck," was quite right, according to an authority on emotional causes of diseases.

Dr. John Schindler, addressing a convention meeting, said you can get such an ache through annoyance toward another person. This causes the pituitary gland to shoot a hormone through the body that will cause the neck muscles to tighten until they hurt, he said. Schindler is a Monroe, Wis., physician.

family visited relatives in Spearman Sunday.

Sunday dinner guests of Mr. and Mrs. Levi Blosser and Garry were Mr. and Mrs. A. C. Partridge and Mr. and Mrs. Wendell Ferguson and family.

Mr. and Mrs. E. M. Padget and E. G. Pribble were Sunday dinner guests of Mr. and Mrs. Carl Pribble and family.

Mr. and Mrs. Wendell Ferguson and family called on Mr. and Mrs. Kenneth Beckwith and family Sunday evening.

Mr. and Mrs. Carl Morris and Thomas called on Mr. and Mrs. W. A. Long Sunday afternoon.

County Wide Soil Survey Speeded Up

T. M. Tucker, Soil Conservation Service

A crew of four full time soil scientists and three part time soil scientists have recently been shifted to Spearman. They are Bill Brooks and Louis Jacquot, Supervisory Soil Scientists; Tony Kelker, Party Chief; and Soil Scientists Millard Turner, Paul Mohle, Duane Moss, and Harry McEwen.

These men are to finish the soil survey of the Hansford Soil Conservation District and to get it ready for publication on a county basis. This survey is a cooperative program by all agencies of the Department of Agriculture with the work being a responsibility of the Soil Conservation Service.

The entire district now has a soil survey on every acre, but some are twenty or more years old. These must be converted to a new type of survey that will show everything we know about these soils to this date.

The finished report will have two parts. One will be a map showing the kinds of soil in this county. The other part will be a written report giving all the available information known about each one of these soils.

Because of the amount of work involved it will be at least a year before this can be completed. Two of the pickup trucks assigned have power equipment to permit the extraction of an undisturbed core of soil sample from a depth of five feet. Not all samples have to be taken at this depth. The most useful tool of the soil scientist is his sharpshooter, and his best means of getting over the ground is walking. However, so much time can be saved by driving and by using the power equipment that he will drive where it is permissible to do so.

Where not possible, he will obtain permission to map the soil and will stay on the field roads.

DISTRICT DEPUTY—Cleve Hudson of Perryton has been appointed Deputy District Grand Master, IOOF, by Raymond Gage, Grand Master of the Odd Fellows. Hudson has jurisdiction over seven Panhandle Odd Fellow Lodges in Pampa, Borger, Panhandle, Shamrock and Skellytown and his appointment as District Deputy is for one year. He has been Noble Grand of the Perryton lodge and has held other local and district offices.

Soothing the Beasts

MILWAUKEE (AP)—Music is going to the dogs—and the cats—and any other animal at the Wisconsin Humane Society Shelter.

A hi-fi system, paid for and installed by society people, has been put into operation "to help quiet the animals and give them a more relaxed, homey atmosphere."

"Of course," a spokesman added, "it also will help relax visitors and employees."

Beaver County Aid Available

J. R. Stout, manager of the Beaver county ASC office, said

this week that the Beaver office is still offering financial assistance under the ACP program to farmers for the purpose of purchasing grass seed, as they have for the past several years. A total of \$18,967.56 was paid to

Beaver county farmers for grass during 1956 on ACP. The Beaver ASC office requests for grass seed for April 30 unless funds are used before that date. Stout
