New HD Agent Well Qualified For Her Duties

When Miss Leila Petty takes over duties as Home Demonstration Agent for Cochran County, March 15, the County will not only have a new HD Agent, but will have one well qualified by previous experience.

Miss Petty comes to Morton from Floyd County, and held the position of HD Agent there since 1946. She had come there from Castro County where she served three years as HD Agent.

In addition Miss Petty was last year given special recognition at the national meeting of Home Demonstration Agents in Chicago, an honor accorded only about four Texas H. D. Agents each year.

A graduate of Texas State College for Women at Denton, Miss Petty majored in Home Economics and taught school before becoming an H. D. Agent.

In Floyd County she has been very active in the following organizations: the Methodist church, the 1954 Study Club and is an honorary member of the Floydada Garden Club. In addition she is a member of the Lockner Business and Professional Women's Club and the Knife and Fork club in Plainview.

According to Aubrey Russell, District Agent, Miss Petty will take over duties here March 15. No doubt, among her first major duties will be the appointment to head women's planning for the first annual 1955 Cochran County Fair.

Pierce Services Held Here Friday

Funeral services were held in the First Baptist Church of Morton, Friday afternoon at 3 p.m., for S. L. Pierce, long time Morton resident who died Wednesday noon at the home of a son here.

Jesse Brookshire conducted the services and the body remained in Morton overnight and was taken to Aspermont, Saturday, for burial there.

Pierce had been in the abstracting business in Morton as early as 1929. He'd sold the business her last year and was retired. He was 75 years old.

Stricklands Again Cleaning Clothes

Mr. and Mrs. R. C. Strickland resumed active management of Strickland's Cleaners, Tuesday of this week after eight months during which time the shop was leased to Mr. and Mrs. M. B. McElroy.

The Stricklands took over management and will retain such. Strickland told a Tribune reporter this week, though someone will probably be secured to help operate the shop.

McElroy will remain in Strickland's employ as cleaner for a time.

Strickland had purchased and began to work a 167-acre farm during his lay-off. He'll continue to farm the land, though probably hiring some of the farming done as well as some of the cleaning.

Two Arrested For Bum Checks

Two men were being held in the local jail early this week both charged with not checking. Glen Thornton of Plainview was apprehended after about six months since a warrant was issued. His bond was set at \$200 and had not been posted, Tuesday noon.

Clarence Newell, formerly of Morton, now of Whiteface, was picked up Monday afternoon and his bond was also set at \$200.

Both men entered not guilty pleas to passing bad checks to Morton merchants.

Pleads Guilty To Drunk Driving

A Lubbock man pleaded guilty this week in County Court to a charge of DWI and received a fine of \$50 and costs, a three day jail sentence and a suspension of his driver's license for six months.

Alvin Lloyd Carroll was apprehended Saturday night by officers after a chase from near Bledsoe to a point halfway between Lehman and Whiteface.

PORTALES (SPL.) — Sweetheart of the Portales battery of the New Mexico National Guard is congratulated by Capt. Billy George. Chosen by the Eastern New Mexico University student body, she is Miss Gail Blocker of Hobbs. Runners-up in the election were (left to right) Judy Phillips, Portales; Bobbie Scranton, Hobbs; Carol Jane Roberts, Roswell; and Velda Baldrige, Morton, Texas.

Local Women Golfers Will Battle Levelland; SPLGA Meet Is Slated

Morton women golfers will travel to Levelland March 9th to battle for the intra-city trophy, according to Blackie Reynolds, local delegate to the South Plains Ladies Golfers Association.

The meet March 9th, is simply an intra-club meet.

On April 6th, all Morton ladies who desire to compete again this year as members of the Levelland team in the SPLGA, will meet in Levelland as the Hockley County Seat city hosts the first association tourney of the year.

Mrs. Reynolds emphasized that all ladies who desire to compete must see her and pay up their \$3 association dues.

Last year 17 Morton ladies played with the Levelland club in the association. The SPLGA accepts no more membership from 9-hole clubs thus Morton must compete with Levelland if they desire to play in the association.

The tourney next week with Levelland will get underway at 10 a.m. All who are going to play should make arrangements to be on time for the tee off.

Funeral Services Held Last Saturday For Mrs. Marlar

Funeral services were held in Crosbyton, Saturday at 2 p.m. for Mrs. Allie K. Marlar, mother of L. W. Marlar of Route One, Morton.

The 75-year-old Crosbyton woman died Thursday morning Feb. 24 at 11:25 a.m. at the home of a daughter, Mrs. Carl Nickson, in Crosbyton.

Rev. Fred Smith conducted the services assisted by Rev. George Turrentine. Burial followed at Crosbyton. Mrs. Marlar had been ill for about five years.

Mrs. Marlar is survived by four sons and a daughter, of Santa Rosa, California, Mrs. Nickson; L. W. Aubrey and Horace of Crosbyton. Other survivors include eight grandchildren, two great-grandchildren, five sisters and one brother.

The sisters and brother are Mrs. Wirtie Herridge of Emory, Texas; Mrs. Lula Wood of Sulphur Springs; Mrs. Jim Griffith of Ridgeway; Mrs. George Nordin of Sulphur Springs; Ephram Page of Sulphur Springs and Mrs. Carrie Taylor of Dallas.

Also attending the funeral from here were J. C. Miller, Ross Shaw, Mr. and Mrs. J. N. Burnett, Mr. and Mrs. L. L. Taylor, Mrs. Ollie Smith, Mr. and Mrs. Walter Nichols, all of Morton and Mrs. Ray Carter and Tommy, Rev. and Mrs. Rufus Kitchens and Mrs. Clyde Mote, all of Whiteface.

Work Progress On City Building

Work is progressing rapidly on the constructing of the cement block building for the City of Morton. To be used as a meter repair shop storage garage. The building could be completed late this week or the first few days of next week, according to City Manager Van Greene. Burleson is contractor for the job.

CHAMBER TONIGHT
Chamber of Commerce directors meet tonight, Thursday, at the East Side cafe at 7:30 p.m. for their first regular meeting of the 1955 Board of Directors. All directors are urged to be there.

Jaycees Name Representative To Cotton Meet

Cemetery development, fund raising, Red Cross, and more cotton acreage for Cochran County were topics of discussion at Monday noon's regular meeting of the Morton Jaycees at the East Side Cafe.

The cemetery discussion was led by J. T. Holloman, chairman of that committee. He briefly outlined developments, to date, including meetings with the Commissioners Court, members of the Cemetery Association Board of trustees and representatives of the 1936 Study Club.

It was announced that a Red Cross drive meeting is scheduled for March 10, Thursday. Details to be announced later.

Special guest at the meeting was Gene Benham, member of the county Agricultural Stabilization and Conservation committee. He told of the need for additional cotton acreage for new lands being developed in the county this year.

By unanimous vote the club named J. E. (Tubby) Holloman as its representative to the State cotton allotment meeting which was scheduled Wednesday at College Station.

Posse Rejects Invitation to Ride At Odessa

The Cochran County Sheriff Posse, turned down an invitation to ride in the parade and grand entry at Odessa next week due to a conflict with a previously booked appearance.

The posse is to ride at Seagraves next Friday, March 11, in conjunction with the Fat Stock Show and Rodeo. They will ship their horses at 9:30 a.m. at the Rodeo Grounds here. At Seagraves, they will meet to help form the parade at 2:30 p.m. The parade gets underway at 3 p.m.

The Odessa invitation was approved by many of the members but many of them couldn't have made the ride anyway. Odessa is planning a big blowout beginning Tuesday and ending Saturday night to help dedicate their new million dollar coliseum. The local posse would have received a plaque at Odessa.

The posse also planned to practice Sunday riding with flags. The posse will carry flags for each rider in their competition this year. Other projects discussed were the coming Posse Convention at Lubbock, in mid-March; and the need for increased membership. Dues were collected from the large attendance.

The posse tabled an invitation from Earth to ride at their rodeo sometime in July.

THEATRE MANAGER
TO ATTEND WORKSHOP
T. J. Simpson, local Wallace Theatre manager, will be among 9 members of the Blankenship Theatre chain who will leave Tuesday for a three day trip to Dallas to attend a Metro-Goldwyn Mayer workshop.

Public Invited To Visit School This Week

The Morton Public Schools will observe Texas Public School Week as proclaimed by Gov. Allan Shivers. A special invitation to visit the Morton Public School during this week of March 6th through March 12th has been issued by Supt. H. A. Owens. There will be no special visiting hours. You are invited to visit any time between 9 a.m. and 3:45 p.m. Classes and supervised study will be carried on in the usual way during this week.

Friday, March 11th the schools will be closed for the District Teachers Meeting in Lubbock. This is a meeting of District IV of the Texas State Teachers Association. Mrs. Harvey Hammonds will represent Cochran County in the House of Delegates during this meeting.

MOTHER IS ILL
Mrs. D. S. Arnold of Carey, mother of Mrs. Joe Cook of Morton, suffered a stroke two weeks ago and has been unable to talk or eat since last reported.

Mrs. Arnold is past 80 years of age. Mrs. Cook is in Childress at her mother's bedside.

MOTHER IS ILL
George Ingle was called to the bedside of his mother Mrs. Alvin Ingle, at Estancia, N. M. Tuesday of this week. Mrs. Ingle was stricken suddenly. Her husband passed away only a little over a week ago.

Board Deeds Land To City For Future Water Improvement

In a special called meeting of the Morton School Board, the last before the election of new trustees, the local Board made an agreement with the City of Morton to deed to them a parcel of land on which the city will erect water storage tanks and a possible overhead tank.

In return, the City will furnish the school free water for the maintenance of the football stadium and certain other school grounds.

Actually, the city has been providing this service heretofore.

The special meeting was called because Supt. Owens will be out of town at the time the regular meeting is supposed to be held, next week. He will be attending a national administrators convention.

The next regular meeting will be held April 11th, the Monday following the election of two trustees, and at that time, the important business of re-election of teachers will probably be taken up.

In other business conducted at Tuesday's meeting, an election board was set up for the April 2nd trustee election. Trustees also made a date to examine work by a prospective contractor who would repair the roof of the old elementary building. The work must be done soon, the Assessor-Collector said.

The important repairs for the newest buildings, the primary buildings, has been completed, according to Rupert McCasland. The repairs to the roof and the lights were accomplished as part of the original contract at no extra expense to the school, McCasland said.

Cochran Unit of TSTA Met Here

The Cochran County Teachers Unit of the Texas State Teachers Association met in the County Auditorium, Feb. 24. The Morton Colored School under the direction of Mrs. Blandford and Miss Horn furnished the program.

Mr. Sam Culpepper, Field Representative of the Texas State Teachers Association was the speaker of the evening. He spoke on present Legislation and Teacher Retirement that is up for consideration in the Texas Legislature.

Supt. H. A. Owens was elected to represent Cochran County in the State Convention of the House of Delegates during the Texas State Teachers Association next November.

Death Closes DWI Case Here

One DWI case was wiped off the books in Cochran County this week with the announcement that the man charged had died after a long illness. The case had been continued at the last term of court due to the illness of the defendant.

OUT OF HOSPITAL
Nath Crockett, long-time Morton resident was reported in very good condition this week following his release from the Cochran County Hospital where he had been a patient for the past week.

Mr. Crockett is still confined to his bed at home.

FOUR NAMES HAVE BEEN FILED SCHOOL TRUSTEE ELECTION

Although the actual law is confusing on the exact date which names must be filed to be placed on the school election ballots County Judge Fred Stockdale advised this week that 10 days prior to the election will be the final date on which he'll accept names on the County ballots.

The school election, both county and district, will be held April 2nd, the first Saturday of the month of April.

To date, no names have been filed at the office of the County Judge Ex-officio Superintendent for the positions of Precinct Trustees and County trustee-at-large. Morton and Whiteface, Precinct One and Two, will vote only on the trustee-at-large. Precincts Three and Four, Bledsoe and Neely Ward, will vote on a Precinct Trustee and a trustee-at-large. Anyone desiring to serve or any group or faction desiring to have a certain party serve, should have the petition, signed by five qualified voters, in the office of County Judge by March 23rd.

As for the Morton District, the election has been called. In a special meeting held here Tuesday night, and attended by six trustees, Paul Goodman was named election judge and Mrs. Lloyd Hiner, Mrs. Pat Hatcher and J. R. Ward will serve as clerks.

Two local trustees' positions will be up for contest. Both men, B. H. Tucker and J. D. Hawthorne, have been placed as candidates for re-

election in petitions now in the hands of the School Assessor-Collector. The names of Willard Cox, who went off the Board last year and Hadley Kern have also been filed on petitions.

No definite deadline has been established for filing in that election but it is believed to be 20 days prior to the election.

Just to be sure, all names should be filed with the local Assessor-Collector by March 12th. As is the case in the other election, a petition must be signed by five qualified voters.

Five of the seven present Board members will remain on the Board for one or two more years. Other Board members are Raymond Hoffman, Elmer Gardener, Truman Doss, J. E. Holloman and Willard Henry.

Bond Election May Be Called By Council

The City Commission has discussed strongly the possibilities of calling a \$100,000 revenue bond election to improve waterworks and sewage disposal and to extend it to needed areas.

The Commission may call the election at their next regular meeting. They have already checked terms that can be arranged with several bonding companies. A complete rundown on the proposal, what can be accomplished, etc., will be related as soon as an election is called.

The Council has called a special meeting for Friday night at 7:30. The council is also again calling for bids on the purchase of a new garbage truck. Complete specifications may be obtained at the office of City Secretary.

Lamb County Farmer Will Show You What 3-inch Wells Can Produce

They're getting irrigation wells where no irrigation wells have ever been before, and although some of them don't pump much more water than a windmill, they are putting enough water in the rows to grow the cotton, and the farmers are proud of them.

It's something new in the dryland part of Lamb County, and the farmers with the tiny little wells are learning a lot about short cuts and costs.

Estimates as to the number of the little two and a half and three inch wells vary but most observers say there are about 120 marginal wells in the dry part of the county.

A full pipe on most of the wells means anywhere from 40 to 60 gallons per minute, compared to 1500 gallons per minute from an average 10 inch well in the irrigated sections.

But a little water running long enough gets the ground just as wet as a big well running fewer hours, and the moisture in the rows is what counts at harvest time.

A typical example of the new small well plan can be found southwest of Littlefield on the Glenn Young farm and that of his neighbor, Don Brewster.

Dale Ward is farming the Young place, where four wells have been put into operation recently. Ward is planning to irrigate 120 acres this spring with four wells ranging from 2 1/2 to 3 inches and pumping 40 to 60 gallons of water per minute.

Three of the wells were put in in October of the previous year. Brewster is using open ditch irrigation, while Ward uses aluminum pipe. He waters two rows at a time, running the water from one of the wells for a distance of nearly half a mile at its farthest point.

Two wells are situated so that as the distance from the well to the far row decreases on one well he can remove the pipe a joint at a time and attach to the other well and thus cover one side of the acreage with the two wells and one set of pipe.

Using the aluminum tubing, Ward is able to irrigate 480 yards rows two at a time in six hours of flow, ranging to eight hours at the ends farthest from the wells.

Three horsepower electric motors are used on three of the wells and a small gas irrigation engine on the other one.

Ward feels that the small wells, while fairly expensive to put in and operate, nevertheless are a worthwhile investment, particularly on a farm where it hasn't rained since 1949.

Red Cross Drive Begins March 10

Since no one will volunteer as fund drive chairman, and in order to maintain the local Red Cross chapter, the 1955 Red Cross fund drive will be kicked off Thursday, March 10, it was announced this week.

Announcement of the drive came from Jim Watson, area representative for the Red Cross.

A local chapter is needed, it was pointed out, to maintain an emergency contact for servicemen and women, to act in case of disaster, and to care for destitute persons.

The next regular meeting will be held April 11th, the Monday following the election of two trustees, and at that time, the important business of re-election of teachers will probably be taken up.

In other business conducted at Tuesday's meeting, an election board was set up for the April 2nd trustee election. Trustees also made a date to examine work by a prospective contractor who would repair the roof of the old elementary building. The work must be done soon, the Assessor-Collector said.

The important repairs for the newest buildings, the primary buildings, has been completed, according to Rupert McCasland. The repairs to the roof and the lights were accomplished as part of the original contract at no extra expense to the school, McCasland said.

Bula Is Upset; Bledsoe Girls Still Going In State Tourney

The Last Frontier area lost all but one of its strong representatives in the state basketball competition this week as strong Bula was upset by Roosevelt and Whiteface was trounced by New Deal in the girls competition and Whiteface and Three Way fell by the wayside in boys competition.

Only the strong little Bledsoe team remains to defend the area's honors in state competition. Bledsoe's girls pounded Flower Grove to remain in the thick of the fight and very conceivably could go all the way.

The Bula girls defeat was the biggest upset, and yet, it was one that was feared by the Bula coach, Roosevelt, the team that beat them Monday, 68-65 had fallen to the Bula girls four times this season, the bi-regional championship.

ENMU Band Will Appear In Morton This Morning

The Eastern New Mexico band, under the direction of Floren Thompson, and with one Morton student as a member will present a band concert here this morning at about 11 a.m. in the auditorium.

The concert is one of 26 to be presented at various cities in the area in a whirlwind tour. Freddy Stockdale, son of Mr. and Mrs. Fred Stockdale, is a member of the band.

LITTLE FIRE DAMAGE
A small grass fire that ignited a fence at the Tip Windmill home, Wednesday afternoon at about 1:30 p.m. sent volunteer firemen rushing to the scene but the blaze was controlled quickly.

CLASS PLAY FRIDAY
The Three Way Junior Class will present their Class Play, "Stranger In The Night", at the Three Way gym, 7:30 p.m., tomorrow (Friday) night. The play is a 3-act mystery comedy with a cast of 12 persons.

edlines..

By Eddie Irwin

SOMETHING IS going to be done about our cemetery problem. That is almost a certainty. At this writing, it remains to be seen just what will happen.

but already . . .

LAST WEEK, the situation was mentioned in at least four meetings that we know of and two meetings were held strictly for the purpose of discussing the cemetery.

what is . . .

THE QUESTION? Is it possible you have lived in Morton and length of time to speak of and

don't know what needs to be done. Not only is the cemetery badly in need of a sprinkler system to cultivate some vegetation but it needs to be separated from the dump grounds by at least a barrier of vegetation. It also needs beautifying, and it needs to be planned with some purposes in mind for the future.

just whose . . .

JOB IT WAS to get all this done, was the problem being talked this week. Nearly everyone is interested, to some extent. The city, the county, the clubs and organizations, the churches and the residents of the community.

with all . . .

THE TALKING that is being done, we feel pretty sure that some thing will be done to make the Morton Cemetery a more beautiful burial ground and to make those who have relatives and friends buried there, rest a little easier.

once again . . .

DOLLAR DAY has rolled around in Morton. Monday's bargains will be featured in many, many Morton stores . . . a lot more than were featuring them this time last year. And your key to the list, as has been the case for more than two years, will be that free copy of the Dollar Day Special you'll receive in the mails. Saturday, Sunday or Monday.

listen . . .

IF YOU WILL, to the ever-ready town knocker who will tell you what you can do in this town, or that, or still another, but remember this fact — On the majority of items sold in Morton, you'll find one or more local merchants who not only beat, meet or come within a few pennies of the best price you can get in any neighboring town; but who also provide a guarantee of their reputation on the product. These same men are trying to help build your town.

we don't . . .

SAY GIVE THEM anything, except a chance to show you how they'll do business with you. Weigh all the facts, and you won't be shopping out of town next Dollar Day.

congratulations . . .

TO A PUBLIC OFFICIAL, an appointed one, who last week did just exactly what the Good Book says to do in a very unpleasant situation. He was publicly insulted by his immediate elected boss, and he turned the other cheek.

congratulations . . .

ALSO TO ANOTHER man who bragged what he was going to do to both of these officials and others who stood in his way, and made his boast come true.

the city . . .

HAS CALLED for a \$100,000 bond issue to finance water and sewer extensions. Morton is now in need of a large share of this work will go into the new area recently acquired by the city. But don't start the rumor that they won't fix some of the area that has needed sewers here, for many years.

that spot . . .

IS NUMBER one on the list. Difficulties in the lay of the land will be corrected by lift pumps, where needed.

haven't heard . . .

MUCH ABOUT the audit that was called for. Actually, we didn't expect to hear much about it. We've always thought when there was something of importance to be said of what the county is doing, it was their place to volunteer the information.

though some . . .

WILL ALWAYS stand ready to accuse a newspaper of picking around in someone else's business and trying to dig up sensational news just to hurt someone, very few are involved in any business of that kind.

however . . .

WE HAVE ALSO always known that pursuing a waiting policy, just doesn't get much information. Maybe the officials haven't anything to hide, they'd just rather as little talk was done as possible about any project they carry on. But

they always forget one small trait in human nature. The less that is said about how county money is being spent and what is being done, the more suspicious people get.

well at least . . .

A FEW PEOPLE around here are trying to do something about furthering Cochran County. Of course, everyone does do something, it seems like there are a dozen standing by to point out he's not doing it for the benefit of mankind but that he stands to make a fat profit out of it.

even that . . .

BEATS THE heck out of doing nothing at all. We can't always dictate who will make the most out of a more progressive city. We must first make it possible for more business. Then, the man who is on his toes will profit.

the recent . . .

BREAKUP of a ranch holding into 10 farms will help a great deal. Further efforts to secure more cotton acreage for our county, will also help. We may not get the additional acreage but at least a few of the top men will know we know we've not been given a fair deal.

in fact . . .

NO MATTER how small the effort, anybody's efforts to promote bigger and better business, homes, more and better farming, fairs, stock shows, or anything to keep Morton and Cochran County busy, should be appreciated.

just learned . . .

RECENTLY, OF a large oil lease secured very close to Morton. That doesn't mean it'll be drilled out immediately, but it does mean that some test drilling will be coming someday. Who knows, we may yet find plenty of producing wells in the area of the county that heretofore hasn't produced much.

however . . .

AS SEVERAL have pointed out, in this stage of the game, we'd rather have some good irrigation wells coming in daily, than a few scattered oil wells. In actual overall benefit, the water wells will go a lot further toward snapping us out of the drouth lethargy we've been encased in for nearly five years.

we had . . .

A COMPLAINT the other day about the fact that we hadn't covered the local basketball games very well this past season. The complaint is a legitimate one, and we're certainly sorry. However, there are so many problems involved it's nearly impossible to rectify.

during the . . .

FOOTBALL SEASON, local mer-

chanis seldom plan any event of any kind on Fridays. We know, well in advance who the team will play and where.

such has never . . .

BEEN THE CASE in basketball. It's next to impossible to obtain a true and accurate schedule. Games are being planned every week, rather than in advance. Many times we never know there is to be a game until it is too late. The same goes for the organizations, they don't know when basketball games are being played and they continue to hold their meetings.

you should . . .

TRY COVERING council meetings twice a month, school board meetings, all the athletic activities and school events, Jaycee, Lions, Chamber of Commerce meetings, special called meetings, and any picture assignments that might come up. You soon see, regardless of what you want to do, every week there will come up a few conflicts.

as for the . . .

BASKETBALL GAMES, they are actually one of our very favorite activities. But to do them justice, you must cover them all and keep some sort of running record. Since we cannot have to simply hope the coaches will oblige and obviously they are too busy to do it, so it just doesn't get done.

we have . . .

RECEIVED AND USED more publicity this year from Whiteface, Bula and Three Way, than from Morton, but all of it has been brought in by coaches, teachers and superintendents who cared enough to get it in.

only in a . . .

VERY FEW INSTANCES have Morton teachers brought in in-

formation, and it is useless to point out where, because they know who they are. We appreciate their efforts very much, and we fully expect to do better for them in the future.

there definitely . . .

NEVER HAS BEEN, and never will be a concerted effort to keep anyone's activities from being printed. For instance, there are a few women's organizations who have articles printed every week. Ask those club members and you'll find out that they have appointed a woman as reporter who faithfully does the job. We appreciate their efforts too.

we always . . .

HAVE TIME, on Thursday, Friday, Saturday and Sunday to get stories of any nature set up. But those who insist on waiting until Tuesday and Wednesday, sometimes are not in time.

Morton Drug MONTHLY NEWS

A message from
Charles Jones
"Your Pharmacist"

CONTRARY TO THE
GENERAL BELIEF,
the prescriptions that you

think are the easiest to compound, the kind we "just take out of a bottle", are often difficult to fill.

THERE ARE ONLY 26 LETTERS IN THE ALPHABET, and we have literally thousands of prescription drugs and preparations. Digitalis, Digoxin, Digitoxin, Digitorin, Digalen, etc., are just a few of many drugs beginning with Dig.

OFTEN MANY DRUGS have names so similar to others, that we have to contact your Physician to make certain that we are reading the name correctly, because dispensing an error is unthinkable.

SO IF WE READ YOUR PRESCRIPTIONS very slowly at times, or do not make delivery with our usual promptness, be patient with us please. We are just being very careful because we want to compound your prescriptions exactly as your Physician specifies.

except for immigration cases. The jurors urged more attention to the subject and better enforcement.

Narcotics Crime Ring

Former United States District Attorney Charles F. Herring of Austin sent a report which was even stronger. He said that "a deadly, multi-million dollar narcotic business flourishes in the United States as the largest criminal operation in the world." Congressman Homer Thornberry of Austin introduced a resolution in the House calling for a special investigation, and I have offered a similar resolution in the Senate. It appears now that either a House or Senate committee will be authorized to study the problem so as to devise means for better enforcement of present narcotics laws and to recommend improvements and changes in existing laws and procedures.

Texas Women Are Leaders

This column has previously reported on the places of leadership that two sons of Texas hold in both houses of Congress. This week we hasten to add that a Texas woman has been chosen to preside over the organization composed of the wives of members and former members of Congress.

Mrs. Omar Burleson, wife of the Congressman from Anson, is this year's president of the Congressional Club. It sponsors some of the outstanding events in Washington each year, including the annual reception for the President and First Lady.

Newsman Women

Liz Carpenter of Austin, who with her husband, Les, corresponds for various Texas and Arkansas newspapers, is president of the Women's National Press Club. This husband and wife team is very popular in Washington, but the

wife took the honors this year with her leadership of the 365 newspaper women who report the news from Washington.

Other Texas newspaper women who cover the Capital scene are Sarah McClendon of Tyler, correspondent for 8 Texas newspapers; Ruth Schumm of Dallas, on the staff of the Dallas News; and Martha Cole of Temple, who is with the Associated Press.

Texas Independence Day

Texans in Washington celebrated Texas Independence Day by meeting for dinner at the National Press Club. The event was sponsored by the University of Texas Ex-Students Association. Congressman Homer Thornberry is president of the organization. The entertainment was supplied by students at the University who came especially for the occasion. Miss Barbara Booz of Port Arthur, Sweetheart of the University, was here, and there was folk singing by Miss Marilyn Bronson of Austin, piano numbers by Ben Richard Di Tosti of San Marcos, and juggling by Fred Whitaker of Carthage.

University of Texas Ex-Students

As in many other cities in the United States and throughout the world, the University of Texas has a strong ex-students group in Washington. There are about 500 members here. Thus, the Texas traditions are preserved by the folks who have to be away from home on our holidays. Your senator is a Baylor graduate, but Mrs. Daniel is a University of Texas "ex." That is how the writer gets in on these meetings.

Cotton Allotments

The bill to provide extra cotton acreage for hardship cases, which we mentioned last week, has passed the House of Representatives. This gives hope that final action may be had in time to help during the present planting season. Senator Johnson and I are continuing to press for prompt action by the Senate Committee and it is believed that some type of relief will be enacted to help those whose cuts have been so drastic. In the meantime, every farmer who will not use his allotment should turn it in to the county committee both to protect himself for future years and to help some one who needs it this year.

A SIMPLE PLEA

By way of review, it was the purpose and intention of Luther to reform Catholicism, but he found it impossible. The aim of Wesley was to reform Episcopalianism and that was a failure. Alexander Campbell and those who believed and taught as he did, never started out to reform anything. Their aim was to restore that which once existed on the earth. They endeavored to dig down beneath Catholicism and denominationalism and plant again in the hearts of men the simple seed of the kingdom which is the word of God. (Lk. 8:11) There were two principals upon which they reasoned that made such a thing possible.

First, a crop is produced according to the seed planted, and second, according to the soil. They said, "if we have the same seed on earth now as Peter had on Pentecost, and if we have the same soil as they had back there, is it possible to reproduce a crop exactly like theirs?" Question: Is that sound reasoning? Is that possible?

They believed they had the same seed of the kingdom as Peter planted. (The Bible.) They believed that the ground or soil was the same. (Hearts of men.) Thus they said, "to cut loose from humanism, and from things of a worldly nature, and put into the hearts of men and women the pure, simple unadulterated word of God, that it would spring up and make nothing on earth but Christians. And if those Christians thus formed, will blend themselves together, they will constitute a church like unto that which we read about in the Bible."

Briefly, we have seen to you, what the world called Campbellism, which was a pure and simple effort to restore that which was lost in the city of Jerusalem in A.D. 33, from which early disciples departed, going after the fancies of men.

Friends, if you are interested in helping to bring about the advent of the apostles for unky and the prayer of Christ that believers in Him might be one (Jno. 17:21) then we ask you to clasp hands with us over an open Bible and let's see what each believes that is not according to Holy Writ. Let's unite on God's word.

Many object to such a plea by saying, "You want us to do all the giving up and come to your platform of unity." Friend, what you are overlooking is that we have already done the "giving up". We have given up unscriptural names, creeds, sprinkling, voting people into the church, unscriptural forms of church government, etc. If there are other things that ought to be given up, which are not in harmony with New Testament teaching or practice, then we will give them up, too.

We ask no more than the New Testament asks, nor dare we ask any less.

We are simply attempting to reproduce the Church of the Lord, which He "bath purchased with His own blood." (Acts 20:28 A.R.V.) This shows ownership by right of head, king, builder, purchaser, and Savior.

If all were guided by the Bible only, it would be as absurd to say "What church?" as it would be to say "What Christ?"

SOMETHING IS going to be done about our cemetery problem. That is almost a certainty. At this writing, it remains to be seen just what will happen.

but already . . .

LAST WEEK, the situation was mentioned in at least four meetings that we know of and two meetings were held strictly for the purpose of discussing the cemetery.

what is . . .

THE QUESTION? Is it possible you have lived in Morton any length of time to speak of and

HOW TO RELIEVE SKIN ITCH IN 15 MINUTES.

MORTON, TEXAS PHONE 2621

don't know what needs to be done. Not only is the cemetery badly in need of a sprinkler system to cultivate some vegetation but it needs to be separated from the dump grounds by at least a barrier of vegetation. It also needs beautifying, and it needs to be planned with some purposes in mind for the future.

just whose . . .

JOB IT WAS to get all this done, was the problem being talked this week. Nearly everyone is interested, to some extent. The city, the county, the clubs and organizations, the churches and the residents of the community.

with all . . .

THE TALKING that is being done, we feel pretty sure that something will be done to make the Morton Cemetery a more beautiful burial ground and to make those who have relatives and friends buried there, rest a little easier.

once again . . .

DOLLAR DAY has rolled around in Morton. Monday's bargains will be featured in many, many Morton stores . . . a lot more than were featuring them this time last year. And your key to the list, as has been the case for more than two years, will be that free copy of the Dollar Day Special you'll receive in the mails, Saturday, Sunday or Monday.

listen . . .

IF YOU WILL, to the ever-ready town knocker who will tell you what you can do in this town, or that, or still another, but remember this fact — On the majority of items sold in Morton, you'll find one or more local merchants who not only beat, meet or come within a few pennies of the best price you can get in any neighboring town; but who also provide a guarantee of their reputation on the product. These same men are trying to help build your town.

we don't . . .

SAY GIVE THEM anything, except a chance to show you how they'll do business with you. Weigh all the facts, and you won't be shopping out of town next Dollar Day.

congratulations . . .

TO A PUBLIC OFFICIAL, an appointed one, who last week did just exactly what the Good Book says to do in a very unpleasant situation. He was publicly insulted by his immediate elected boss, and he turned the other cheek.

congratulations . . .

ALSO TO ANOTHER man who bragged what he was going to do to both of these officials and others who stood in his way, and made his boast come true.

the city . . .

HAS CALLED for a \$100,000 bond issue to finance water and sewer extensions. Morton is now in need of. A large share of this work will go into the new area recently acquired by the city. But don't start the rumor that they won't fix some of the area that has needed sewers here, for many years.

that spot . . .

IS NUMBER one on the list. Difficulties in the lay of the land will be corrected by lift pumps, where needed.

haven't heard . . .

MUCH ABOUT the audit that was called for. Actually, we didn't expect to hear much about it. We've always thought when there was something of importance to be said of what the county is doing, it was their place to volunteer the information.

though some . . .

WILL ALWAYS stand ready to accuse a newspaper of picking around in someone else's business and trying to dig up sensational news just to hurt someone, very few are involved in any business of that kind.

however . . .

WE HAVE ALSO, always known that pursuing a waiting policy, just doesn't get much information. Maybe the officials haven't anything to hide, they'd just rather as little talk was done as possible about any project they carry on. But

they always forget one small trait in human nature. The less that is said about how county money is being spent and what is being done, the more suspicious people get.

well at least . . .

A FEW PEOPLE around here are trying to do something about furthering Cochran County. Of course, everytime anyone does something, it seems like there are a dozen standing by to point out he's not doing it for the benefit of mankind but that he stands to make a fat profit out of it.

even that . . .

BEATS THE heck out of doing nothing at all. We can't always dictate who will make the most out of a more progressive city. We must first make it possible for more business. Then, the man who is on his toes will profit.

the recent . . .

BREAKUP of a ranch holding into 10 farms will help a great deal. Further efforts to secure more cotton acreage for our county, will also help. We may not get the additional acreage but at least a few of the top men will know we know we've not been given a fair deal.

in fact . . .

NO MATTER how small the effort, anybody's efforts to promote bigger and better business, homes, more and better farming, fairs, stock shows, or anything to keep Morton and Cochran County busy, should be appreciated.

just learned . . .

RECENTLY, OF a large oil lease secured very close to Morton. That doesn't mean it'll be drilled out immediately, but it does mean that some test drilling will be coming someday. Who knows, we may find plenty of producing wells in the area of the county that heretofore hasn't produced much.

however . . .

AS SEVERAL have pointed out, in this stage of the game, we'd rather have some good irrigation wells coming in daily, than a few scattered oil wells. In actual overall benefit, the water wells will go a lot further toward snapping us out of the drouth lethargy we've been encased in for nearly five years.

we had . . .

A COMPLAINT the other day about the fact that we hadn't covered the local basketball games very well this past season. The complaint is a legitimate one, and we're certainly sorry. However, there are so many problems involved it's nearly impossible to rectify.

during the . . .

FOOTBALL SEASON, local mer-

chants seldom plan any event of any kind on Fridays. We know, well in advance who the team will play and where.

such has never . . .

BEEN THE CASE in basketball. It's next to impossible to obtain a true and accurate schedule. Games are being planned every week, rather than in advance. Many times we never know there is to be a game until it is too late. The same goes for the organizations, they don't know when basketball games are being played and they continue to hold their meetings.

you should . . .

TRY COVERING council meetings twice a month, school board meetings, all the athletic activities and school events, Jaycee, Lions, Chamber of Commerce meetings, special called meetings, and any picture assignments that might come up. You soon see, regardless of what you want to do, every week there will come up a few conflicts.

as for the . . .

BASKETBALL GAMES, they are actually one of our very favorite activities. But to do them justice, you must cover them all and keep some sort of running record. Since we cannot we have to simply hope the coaches will oblige and obviously they are too busy to do it, so it just doesn't get done.

we have . . .

RECEIVED AND USED more publicity this year from Whiteface, Bula and Three Way, than from Morton, but all of it has been brought in by coaches, teachers and superintendents who cared enough to get it in.

only in a . . .

VERY FEW INSTANCES have Morton teachers brought in in-

formation, and it is useless to point out where, because they know who they are. We appreciate their efforts very much, and we fully expect to do better for them in the future.

there definitely . . .

NEVER HAS BEEN, and never will be a concerted effort to keep anyone's activities from being printed. For instance, there are a few women's organizations who have articles printed every week. Ask those club members and you'll find out that they have appointed a woman as reporter who faithfully does the job. We appreciate their efforts too.

we always . . .

HAVE TIME, on Thursday, Friday, Saturday and Sunday to get stories of any nature set up. But those who insist on waiting until Tuesday and Wednesday, sometimes are not in time.

except for immigration cases. The jurors urged more attention to the subject and better enforcement.

Narcotics Crime Ring
Former United States District Attorney Charles F. Herring of Austin sent a report which was even stronger. He said that "a deadly, multi-million dollar narcotic business flourishes in the United States as the largest criminal operation in the world." Congressman Homer Thornberry of Austin introduced a resolution in the House calling for a special investigation, and I have offered a similar resolution in the Senate. It appears now that either a House or Senate committee will be authorized to study the problem so as to devise means for better enforcement of present narcotics laws and to recommend improvements and changes in existing laws and procedures.

Texas Women Are Leaders
This column has previously reported on the places of leadership that two sons of Texas hold in both houses of Congress. This week we hasten to add that a Texas woman has been chosen to preside over the organization composed of the wives of members and former members of Congress.

Mrs. Omar Burleson, wife of the Congressman from Anson, is this year's president of the Congressional Club. It sponsors some of the outstanding events in Washington each year, including the annual reception for the President and First Lady.

Newspaper Women
Liz Carpenter of Austin, who with her husband, Les, corresponds for various Texas and Arkansas newspapers, is president of the Women's National Press Club. This husband and wife team is very popular in Washington, but the

wife took the honors this year with her leadership of the 365 newspaper women who report the news from Washington.

Other Texas newspaper women who cover the Capital scene are Sarah McClendon of Tyler, correspondent for 8 Texas newspapers; Ruth Schumm of Dallas, on the staff of the Dallas News; and Martha Cole of Temple, who is with the Associated Press.

Texas Independence Day
Texans in Washington celebrated Texas Independence Day by meeting for dinner at the National Press Club. The event was sponsored by the University of Texas Ex-Students Association. Congressman Homer Thornberry is president of the organization. The entertainment was supplied by students at the University who came especially for the occasion. Miss Barbara Booz of Port Arthur, Sweetheart of the University, was here, and there was folk singing by Miss Marilyn Bronson of Austin, piano numbers by Ben Richard Di Tosti of San Marcos, and juggling by Fred Whitaker of Carthage.

University of Texas Ex-Students
As in many other cities in the United States and throughout the world, the University of Texas has a strong ex-students group in Washington. There are about 500 members here. Thus, the Texas traditions are preserved by the folks who have to be away from home on our holidays. Your senator is a Baylor graduate, but Mrs. Daniel is a University of Texas "ex." That is how the writer gets in on these meetings.

Cotton Allotments
The bill to provide extra cotton acreage for hardship cases, which we mentioned last week, has passed the House of Representatives. This gives hope that final action may be had in time to help during the present planting season. Senator Johnson and I are continuing to press for prompt action by the Senate Committee and it is working on the subject now. It is believed that some type of relief will be enacted to help those whose cuts have been so drastic. In the meantime, every farmer who will not use his allotment should turn it in to the county committee both to protect himself for future years and to help some one who needs it this year.

A SIMPLE PLEA

By way of review, it was the purpose and intention of Luther to reform Catholicism, but he found it impossible. The aim of Wesley was to reform Episcopalianism and that was a failure. Alexander Campbell and those who believed and taught as he did, never started out to reform anything. Their aim was to restore that which once existed on the earth. They endeavored to dig down beneath Catholicism and denationalism and plant again in the hearts of men the simple seed of the kingdom which is the word of God. (Lk. 8:11) There were two principals upon which they reasoned that made such a thing possible.

First, a crop is produced according to the seed planted, and second, according to the soil. They said, "if we have the same seed on earth now as Peter had on Pentecost, and if we have the same soil as they had back there, is it possible to reproduce a crop exactly like theirs?" Question: Is that sound reasoning? Is that possible?

They believed they had the same seed of the kingdom as Peter planted. (The Bible). They believed that the ground or soil was the same. (Hearts of men). Thus they said, "to cut loose from humanism, and from things of a worldly nature, and put into the hearts of men and women the pure, simple unadulterated word of God, that it would spring up and make nothing on earth but Christians. And if these Christians thus formed, will blend themselves together, they will constitute a church like unto that which we read about in the Bible.

Briefly, we have seen to you, what the world called Campbellism, which was a pure and simple effort to restore that which was begun in the city of Jerusalem in A.D. 33, from which early disciples departed, going after the fancies of men.

Friends, you are interested in helping to bring about the advent of the apostles for unity and the prayer of Christ that all believers in Him might be one. (Jno. 17:21) then we ask you to clasp hands with us over an open Bible and let's see what each believes that is not according to Holy Writ. Let's unite on God's word.

Many object to such a plea by saying, "You want us to do all the giving up and come to your platform of unity." Friend, what you are overlooking is that we have already done the "giving up". We have given up unscriptural names, creeds, sprinkling, voting people into the church, unscriptural forms of church government, etc. If there are other things that ought to be given up, which are not in harmony with New Testament teaching or practice, then we will give them up, too.

We ask no more than the New Testament asks, nor dare we ask any less.

We are simply attempting to reproduce the Church of the Lord, which He "bath purchased with His own blood." (Acts 20:28 A.R.V.) This shows ownership by right of head, king, builder, purchaser, and Savior.

If all were guided by the Bible only, it would be as absurd to say "What church?" as it would be to say "What Christ?"

Stock Show Entries Are Due Next Wednesday

LUBBOCK, Texas (Sp.) — All 4-H Clubs and FFA Chapters planning to enter contestants in the third annual Princess Contest of the South Plains Junior Fat Stock Show must return the entry blanks for their contestants on or before Wednesday, March 9, show officials said this week.

Each 4-H Club or FFA Chapter in West Texas and Eastern New Mexico with at least one member entering livestock in the show is eligible to enter a young lady as a Princess contestant. The girls must be at least 14 years old.

The selection of a 4-H Princess and an FFA Princess will be held at 10 a.m. Saturday, March 12, in the Lubbock Chamber of Commerce Building. Judging will be on the basis of beauty and appearance alone.

The two Princesses will be outfitted in Western clothes and then will serve as official hostesses during the Stock Show. The show will be staged at the Panhandle South Plains Fair grounds from March 14 through 16.

Final plans for the 22nd annual affair have been completed, John Key, general chairman, has announced.

Judges for the three show divisions will be Dean W. L. Stangel, fat steers; Stanley Anderson, fat barrows; and Dr. Robert H. Black, fat lambs. All men are on the Texas Tech faculty.

Deadline for entry of livestock was Thursday March 3.

The show is sponsored annually by the Lubbock Chamber of Commerce and the Panhandle South Plains Fair Association.

Wahanka C'fires Elect Officers

The Wahanka Campfire group met Tuesday and elected officers. Those present were Mary Ledbetter, Winona Brookshire, Katrina Hardberger, Martha Doty, Patsy Amyx, Maka Kennedy and Sherry Grantham.

Mary Lee Ledbetter was selected as president. Winona Brookshire will serve as vice-president; Katrina Hardberger, sec. - reporter; and Patsy Amyx, treasurer.

LEGAL NOTICE

LEGAL NO. 56 THE STATE OF TEXAS

To any Sheriff or any Constable within the State of Texas, Greeting: Comes now John H. Phillips, Administrator de bonis non of the Estate of Lewis E. Phillips, deceased having filed in our County Court his Final Account of the condition of the Estate of said Lewis E. Phillips, deceased numbered 153 on the Probate Docket of Cochran County, together with an application to be discharged from said Administrator de bonis non.

YOU ARE HEREBY COMMANDED, That publication of this (Write not less than ten days before the return day hereof in a Newspaper printed in the County of Cochran) you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same by filing opposition thereto in writing, if they see proper so to do, on Monday, the 14 day of March 1955 at the Court House of said County, in Morton, Texas, when said Account and Application will be acted upon by said Court.

Give under my hand and seal of said Court, at my office in the Courthouse of Cochran County, Texas this 17th day of February A.D. 1955

Mrs. Lee Taylor, Clerk County Court, Cochran County. A TRUE COPY, I CERTIFY. Hazel Hancock, Sheriff Cochran Co. 51-3 tc

LEGAL NO. 58 NOTICE TO ADDRESSES

Notice is hereby given that the City Commission, of the City of Morton, Texas, will receive sealed bids at the City Hall, for the purchase of two (2) new garbage trucks. Specifications may be received at the City Hall.

Max M. Bowers, Mayor City of Morton 52-1 tc

Legal No. 57 STATE OF TEXAS COUNTY OF COCHRAN NOTICE OF EXECUTION SALE

By virtue of an Order of Sale issued out of the District Court of Deaf Smith County, Texas, on judgment entered in said court on the 20th day of December, 1954, in favor of the Hoffman and against Joe Hodge, H. D. Tarleton and Ara Tarleton, the case of Joe Hoffman vs. Joe Hodge, et al., Number 377, in such Court, and I did on the 1st day of March, 1955, at 10:15 o'clock a.m. levy upon and seize the following described tract and parcel of land situated in the County of Cochran, State of Texas, as the property of Joe Hodge, H. D. Tarleton and Ara Tarleton, to-wit: The South 40 acres of Labor No. 5, League Number 103 of the Jeff Davis County School Land, Cochran County, Texas and on the 5th day of April, 1955, being the first Tuesday of said month between the hours of 10:00 o'clock a.m. and 4:00 o'clock p.m. on said day at the courthouse door of said County, I will offer for sale, and sell, at public auction, for cash, all the right, title and interest of the said Joe Hodge, H. D. Tarleton and Ara Tarleton, in and to said property.

Dated this 1st day of March, 1955. Hazel Hancock, Sheriff of Cochran County, Texas 52-3 tc

COMING \$A DAY - WALLIS FOOD STORE

Radiation Effect of Human Mind Is Subject Of Texas Tech Study

LUBBOCK — What effect does radiation have on the human mind? Once their intelligences are determined, the monkeys will be sub- now launching a three-year research program to help establish an answer for that increasingly important question.

The study, to cost approximately \$45,000, is being financed by the United States Public Health Institute of Neurological Diseases and blindness.

"We're principally interested in determining whether radiation will impair the individual's ability to learn and to remember," Dr. Sylvan J. Kaplan, Tech psychology department head, explained.

Twelve Macacus Rhesus monkeys arrived on the campus this week to serve as subjects for the experiments which will be conducted by Dr. Kaplan and Dr. Kenneth McCutchan, co-director of the project.

The Macacus Rhesus, an Indian species, has a sufficiently high intellectual level to permit comparisons with humans. In addition, previous research has provided a wealth of knowledge about his anatomy and physiology.

During the first year of research, Drs. Kaplan and McCutchan will establish the I. Q. of the dozen subjects through a series of learning and memorizing problems.

Since arriving on the Tech campus early last fall, Dr. McCutchan has been engaged in constructing a complicated network of passages, freedom from which will depend on the monkeys' ability to learn certain key colors and shapes.

Past experience leads the Tech psychologists to believe a curve of intelligence will be established for the monkeys not unlike that of an

average classroom of humans. Their intelligences are determined, the monkeys will be subjected to radiation and then be re-run periodically through the mazes so that "before" and "after" measurements of their intellectual ability can be obtained.

"We feel that a study of the effects of radiation on the monkeys' ability to perform complex intellectual tasks will give us some insight into what to expect from irradiated humans," Dr. Kaplan said.

A request has already been received from Brig. Gen. Elbert D. Coursey, director of the Armed Forces Institute of Pathology, asking that findings in the study be transmitted to Washington.

Dr. Kaplan has specialized for the past five years in radiation work and has written more than 25 articles on the subject. Prior to coming here he was director of the Primate Laboratory at the U. S. Air Force School of Aviation Medicine at the University of Texas. He worked extensively with Macacus Rhesus monkeys during his four years with the Primate Laboratory.

Dr. Kaplan was one of 25 radiation experts in the country invited to attend a United States Public Health Service conference on that subject in Bethesda Md. early last month.

Dr. McCutchan is a specialist in animal learning boasting more than 10 years of experimental work with animals. Prior to coming here, he taught at the Woman's College of the University of North Carolina. He has also served on the psychology faculties of the Universities of Texas, Florida and Oklahoma.

Seasonal, Part Time Workers In Agriculture, Need Soc. Sec. Card

(Editor's Note: This another in a series of articles prepared for farm families by the Lubbock, Texas, District Office of the Social Security Administration.)

Are you a seasonal or part time worker in agriculture? If you are, you should have a social security card because your employer is required to report your agricultural wages if you receive cash pay of as much as \$100 in a calendar year. No longer do you have to worry about "qualifying" and working on a certain number of days in a quarter.

Effective January 1, 1955, the only qualification is that your cash pay from farm work is at least \$100 in a year from the same employer. If you earn \$90 in a year from one employer and \$90 from a second employer, these wages would not count toward social security. Neither would it count if you were paid part of a crop amounting to several hundred dollars. But — if you earn \$100 from one employer and \$125 from another, then both employers will report your earnings for social security.

Whenever you pay from any farm employer is less than \$100 in

a year, he should return to you any amount he took out of your pay for social security for that year. Since at the time you start to work for a farmer, neither he nor you know exactly how much you will earn, it is best to defer deductions until \$100 is reached; then if it turns out that you do not earn as much as \$100 in a calendar year, there is not the problem of returning erroneous deductions.

If you are a harvest hand, or a cotton picker, your wages count just the same as if you were a regular hand. You must have cash wages of at least \$100 before your employer is obligated to report you. If you are a harvest hand, you may be employed, supervised and paid by a contract harvester who may be your employer instead of the owner of the farm. But you still must show your social security card to your employer so he can make the proper reports. Your eligibility at age 65 or the eligibility of your survivors, in event of your death, may rest on credits for part time farm work so be sure to fulfill your obligations in this cooperative insurance plan for your benefit.

USE OUR FINANCE PLAN
MORTON, TEXAS

His hero...do you really deserve it?

OF COURSE you deserve to be your son's hero. Haven't you worked extra hard to provide for his physical needs, strained your memory for facts to feed his enormous curiosity, passed on to him the timeless spiritual truths treasured from your own childhood?

Still, you wonder at times if you can ever be equal to the image you see reflected in his eyes. You wonder if you can ever build enough security to justify the unqualified faith that lights his face now.

Eight million Americans just like yourself have discovered a plan that's helping them work toward goals like this, a plan that can provide financial security for your family and education for your children. It's the Payroll Savings Plan of investment in U. S. Savings Bonds—the Bonds that now pay an average 3% annual interest for as long as 19 years and 8 months.

Here's how it works. Just tell the people in your pay office how much you want to save. They'll put that amount aside for you each payday. When enough accumulates, they'll buy and turn over to you a Series E Bond which then adds its interest to your total. This way \$3.75 a week, for example, becomes \$1,025 in just 5 years.

The Payroll Savings Plan works even for people who have never been able to save before. It will work for you. Why not sign up today?

If you want your interest as current income, ask your banker about 3% Series H Bonds which pay interest semiannually by Treasury check.

Choose your own savings goal

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save.....	\$8.80	\$18.75	\$45.00
Each week for 19 years and 8 months, save.....	\$2.75	\$7.50	\$18.75

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. Remember, you can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!

EDITORIALS

Never has there been a time in Cochran County history when the law enforcement officers were more in need of support from the people.

The public has a right to place whatever respect they feel on their law enforcement agency. If they have little respect, the time and place to show it is at the polls during election time. Or, if necessary, through a complaint filed with the proper authorities.

But when the public overwhelms the Sheriff Department and its efforts, by electing the Sheriff by a large margin to another term of office, it should bear out that respect by upholding the officers in court.

This does not mean nor does it even hint that innocent men should be convicted. When evidence is not conclusive, the jury not only has a right, it has a duty to turn the defendant loose.

But when a decision depends upon the word of a defendant or of an ambitious lawyer, versus the word of a group of officers who made the arrest, it seems rather foolish to publicly slap the officers in the face by indicating they are lying.

Last week a local jury heard a man admit to having been drinking, admit to having suggested to a companion that he'd better throw beer and whiskey out of the car because law officers were following him. He asserted a local law officer stuck a gun in his stomach and that another swore at him. Not only is neither one substantiated but the man who reportedly swore at him is known not to use that

kind of language even in the most trying moments. That can be substantiated by those who do business with him.

It was clearly an effort at mud slinging and it paid off. The man was freed.

This isn't the only experience of this kind. Local officers have had trouble in making the merest traffic violations stick. The officer writes a ticket for speeding and all the defendant has to do is say "I'm not guilty." If the officer can't produce a dozen bonified witnesses who say the man was speeding, they turn him loose.

The matter is relatively unimportant to most persons. They maintain it really makes no difference. But here's where the difference comes in.

The officer soon tires of being publicly insulted and he stops writing tickets or arresting drunk drivers. The law enforcement department soon becomes worthless to us, the tax-paying citizens. Nothing results until someone is killed or maimed through a violation. THEN, is too late to start thinking about law enforcement or safety regulations.

It's time we made a decision. The people who sat on that jury last week were good citizens. They just evidently didn't believe in their officers enough, to bring a guilty verdict.

The next two steps are up to the people. The first step should belong to the City Commission and the Mayor of Morton, who was foreman of that jury.

If they have no confidence in the present Marshall they'd better get another. We'd hate to see him go and so would the Sheriff's Office. That sort of cooperation is badly needed. There is no point in the City and the County law enforcement having to operate separately. Together, they can accomplish a lot more.

Nevertheless, step one, if the Commission doesn't have confidence in the Marshall, they'd better get another.

Step two, is up to you. If you're not satisfied with the Sheriff's office. The present Marshall has then get a new one when election time comes. But if you continue to vote for the present officers, it's about time you supported them.

Highlights and Sidelights FROM Your State CAPITOL

AUSTIN, Texas — Insurance bills 000,000 a year, repeal the present have lagged. Water conservation four-cent gas sales tax, and head measures are embroiled in dispute. And virtually no start has been made on a taxing program in the legislature.

As a result, lawmakers are eyeing a possible special session.

Theoretical date for such a session is May 11. On that date the legislators' pay for the regular session stops.

It has been suggested that Governor Shivers may have foreseen a bog-down in the regular session, and therefore has not pushed his administration program. During a special session, he would have full control of subject matter which may be introduced.

Tax Bill
Rep. Jerry Sadler of Porella introduced the biggest tax bill of all. Promising a lot of controversy, the bill would levy a one-cent per gallon processing tax on all gasoline and distillates produced in Texas. It would: Raise an estimated \$160-

million off the administration's two-cent gasoline tax increase.

Sadler said its effect would be to reduce the price of gasoline to Texas three cents a gallon. Sixty per cent of the gasoline is exported, tax-free, he said.

Meantime, Rep. Charles Murphy explained he hadn't yet asked for committee hearing on the administration's two-cent gas tax bill, wanting sentiment to jell.

Some Fare Better
Passed by the House were bills outlawing sale of lewd and depraved comic books; permitting women to serve on juries; and regulating leasing for uranium and hard metals.

Amendments to the women's jury service bill narrowed considerably, the list of those who may be called to serve.

Furiously debated, the uranium bill was attacked as a "give away." Rep. Walling of Wichita Falls

added two amendments. One will limit each lease to 80 acres to prevent one minor development from freezing exploration on large tracts. Another limits the primary term of leases to five years.

Interest was heightened by reports of a real uranium ore strike in Karnes County.

Rep. Maury Maverick's bill to prohibit cross filing of candidates by two political parties won a favorable report to the House.

Also favorably reported was Rep. Tom Joseph's bill to bring trust companies under supervision of the State Banking Department.

Not Faring So Well
Stymied in a House committee was a bill to increase the filing fee of candidates for the Legislature to \$300.

Killed by a Senate committee was Sen. Crawford C. Martin's omnibus water conservation bill. It embraced nine subjects carried in the series of administration bills offered by Chairman D. B. Hardeman of the water resources committee.

Martin warned that unless the Senate reconsidered and kept his subject to being knocked out on a constitutional point of order.

Grand Juries Take Over
Meanwhile, three Grand Juries

have stepped in on the veterans' land investigations.

Bexar County's grand jury was quickest on the draw, with two felony indictments. Then the DeWitt Co. grand jury at Cleburne fired a double-barrel broadside of 195 indictments against six persons. DeWitt County Attorney Wiley Cheatham started the whole land inquiry.

Travis County grand jury, with venue in every veterans' land transaction, had piles of ammunition and District Attorney Les Proctor had his thumb on the hammer.

Grand Juries in 10 other counties have had some contact with the question.

Work by the Senate investigating committee had dribbled down to a schedule of sessions only every other Thursday.

In intensive hearings each week-end, the House committee approached the question of administration and operations in the Land Office and Veterans Land Board. Attorney General Shepperd predicted there will be "hundreds of indictments," and indicated more civil suits were in prospect.

Education
UT President Logan Wilson told the legislative finance and appropriations committee the university must have more money, or face the

problem of halting its growth or lowering standards.

Requested, for two years for its main establishment, was \$3,700,000. The governor's budget recommendation cut this by \$2,400,000.

University and college students were to gather in protest of a bill by Senator Otis Lock. Hearing was set for March 2. The bill would authorize a compulsory \$20 per semester student activities fee.

Fair and Calmer
Austin's weather bureau has been in a tizzy answering the many telephone calls from weather-wary Austinites. To calm the atmosphere in the tower at Municipal Airport, a mechanical telephone answering device has been installed.

Callers now are told, "Your call is being answered automatically because the forecaster is busy." A complete weather report follows.

New Highway Maps
Issued by the Highway Department are 500,000 state highway maps for 1955, with a new and simpler fold.

D. C. Greer, State Highway Engineer, pointed out that the old wheeze about needing another map as a guide for refolding an opened gravel map, is no longer true.

Auto license purchasers can obtain a special card for use in requesting a copy of the new map.

Know Your Government . . .

By Rep. J. O. Gillham

The Legislature is getting down to real serious business the past two weeks, although progress has been slow. Actually, when important legislation is being considered, it is not a bad thing for the Legislature to proceed with great caution, for it would be very bad indeed for us to pass some bad legislation. We do pass, I am sure, some bills that should not be passed, so I think it is important that we have full debate and careful consideration of all matters coming before us. We passed about three rather important bills during the last two weeks. One of the bills would regulate the sale of securities. The bill which was passed is modeled after the Securities Act passed by the Congress several years ago. I think it is a very good bill and should give the Insurance Commission authority to control

the sale of insurance securities which have flooded the state during the last several years and on which a great many of the people of Texas have suffered severe financial loss.

Another bill which was passed by the House this week and which is of great interest to all of our citizens is a bill concerning women on juries. You will remember that at the General Election last Fall, the people authorized women to serve on juries. This constitutional amendment was passed, even though I am still of the opinion that a majority of the fine women of Texas do not desire to serve on juries. The bill which was passed by the House this week eliminated a great many of our women, especially those who are mothers, as it exempts from jury service all mothers who have children under the age of 16 years. I voted for this bill because I firmly believe that mothers who have dependent children do not want to serve on our juries and much prefer to take care of their children ahead of anything else. After all the home is the cornerstone of our great American tradition and I believe that if the mothers are forced to serve on juries we will be going along the way toward destroying the American home. When we weaken the American home, we weaken the whole foundation of our country. Someone has said that God could not be everywhere, so He gave us Mothers, where I still believe that a Mother's first responsibility is to her children and her home. This bill, as finally passed, does not destroy the rights of our fine women who want to serve on juries, but simply provides that Mothers with children under 16 years of age will not be forced to leave those children during this critical period in their lives to serve on a jury which might be locked up for weeks.

Another bill of considerable importance which was passed by the House this week was what has generally been referred to in the newspapers as the Uranium Bill. The State of Texas at one time owned millions of acres of land and during the last 100 years has sold a lot of this land, but still owns a considerable amount. The land which the State owns or has owned is classified as agricultural land, most of which has been sold many years ago. This land was owned originally by the permanent school fund, and though most of it has been paid for, the State still holds mortgages on a great deal of it throughout Texas. Much land in our country still has a small school land debt on it and the State still collects 3% interest each year on these mortgages. Some of the many millions of acres of land which the State once owned was classified as grazing land. A lot of this land has also been sold, but the State still owns a considerable amount of this grazing land. Some of this grazing land is classified also as mineral lands and the State, for many years, has retained one-sixteenth of the oil and gas on these lands, and has retained all of the other mineral rights. Now, with the mad hunt for Uranium, many of the people of Texas who have bought and paid for this mineral classified land, find themselves in serious difficulty

Trucks Are For The Birds

REGISTERED HOMING PIGEONS, like typical flock heading for landing at cote (below), nowadays ride to races in style not enjoyed by their feathered ancestors. Trucks specially equipped to provide birds all comforts of home lofts transport superbly conditioned racers to liberation points up to 1,000 miles away.

FANCIERS ATTACH small band to birds' feet, put creatures in wicker baskets. Convoys drive sealed cargo to distant racing station for start of flight.

AIR'S DENSE with beating wings as fast-flying birds, kept at competitive peak on highway journey, are released from coops stacked beside international trucks. Because uncanny birds take so well to mobile surroundings, pre-race travel weariness—old havoc—has disappeared. Flights of 500 miles a day at mile-a-minute speed have resulted.

Uranium hunters are moving in on their ranches, tearing down their fences, leaving the gate open, destroying what little grass there is on a lot of the land. The poor fellow who has bought the land and paid for it, finds himself being overrun by prospectors from all parts of the United States, and with no rights whatever as far as surface minerals are concerned, he is finding out that even though he has bought and paid for the surface of the land, he is powerless to protect his investment. This bill simply gives the land owner one-half interest in the surface minerals and further provides that he cannot sell any of those minerals without the consent of the State and that he must not sell those minerals for a less amount than the amount he may have received for other land which he may own in the same county or adjacent to the land which he bought from the State. Some opponents of the bill argued that the permanent school funds were being robbed by the provisions of this bill, but most of us believe that the permanent school fund will be benefited as we believe greater development of these minerals will take place under private ownership. Furthermore, we think that with owners of the land being interested, that there is a lot less likelihood of graft and collusion creeping into easing transactions. As you know, there have been some evidences of graft uncovered recently at our General Land Office. You don't have to be here long before you find out that politics comes ahead of the general good of the State with a good many of the members of our Legislature. Many of them will fight you in Committee and on the floor of the House on a bill which affects one person at home, especially if that one person has considerable influence with the voters, or if they think he does. I have run into this sort of thinking recently in connection with my bill to abolish the office of County Superintendent of Schools, even though privately these gentlemen will admit that the office has outlived its days of usefulness to the State. It was very evident about two weeks ago when a hearing was held on this bill before the Education Committee, that it was going to be a difficult task for me to get this bill out of committee without considerable compromise. I may have to amend it to include a provision that each will have the right, by a vote of the people, to eliminate this office if they have no need for it. I think this sort of a bill will pass, and I intend to amend

Gwen Jennings, Curtis Snitker Exchange Vows

Miss Gwen Jennings exchanged vows with Curtis Snitker in a double ring ceremony held Feb. 14 in the First Baptist church in Enoch. Rev. Ike Harris read the vows.

The bride is the daughter of Mr. and Mrs. Bert L. Jennings of Morton and the bridegroom is the son of Mr. and Mrs. C. C. Snitker of Enoch.

Mrs. M. L. Jennings served her sister-in-law as bridesmaid and Bennie Hall was best man.

The bride was dressed in an off-white fall street length dress with Navy accessories. She wore rhinestone earrings as "something borrowed." Her dress as "something new" and her accessories were "blue." The Matron of honor wore a blue suit with navy and white accessories.

The bride is a graduate of Morton High and the bridegroom graduate from Bula High.

The couple are making their home in Enoch after a wedding trip to Oklahoma.

Mrs. Markham Is Club Hostess

The Busy Fingers club meeting was called to order by the president, Mrs. Henry Bedwell, at the home of Mrs. C. B. Markham, last week.

Mrs. Markham served a chili plate, coffee, cakes and pecan fudge to the following: Mesdames Joyce Roddy, Roy Allsup, B. C. Butler, R. J. Merritt, Prof. Angley, Mark Kennedy, Sammie Williams, Rolly Hill, Bud Young, Bedwell, Willie Taylor, L. W. Barrett, Mrs. J. S. Boydston, Mrs. C. W. Webb was a visitor.

The next meeting will be held Thursday (today), March 3, at 2:30 p.m. at the home of Mrs. B. C. Butler.

Mattie Lou Crockett Weds W. Coffey

The Methodist parsonage in Morton was the scene, Feb. 18, at 9:45 a.m., of the wedding of Miss Mattie Lou Crockett, daughter of Mr. and Mrs. Nath Crockett of Morton and Wayne Coffey, son of Mr. and Mrs. Curtis Coffey also of Morton.

Rev. S. Frank married the couple as only a handful of relatives attended. Mr. and Mrs. Nath Crockett, Mrs. R. P. McCall and Carolyn Sue McCall, attended.

The couple left immediately on a short honeymoon trip to San Angelo and then returned home within a few days and are making their home in Morton.

Janelle Zuber Was Bridal Tea Honoree

The B. W. Bolton home was the scene of a bridal tea, from three to five p.m., as Janelle Zuber, bride-elect of Bobby Smith was honored.

Approximately 35 guests called and many friends sent gifts. Hostesses for the occasion were Mesdames Leon Patterson, Maurice Lewellen, W. B. Lackey, Alton Lamb, Jack Wallace, Dock Long, Pat Lightfoot, E. C. Roddy, Loma Richards, Roy Allsup, Jim Henderson, C. C. Benham, E. R. Stovall, Hubert Cadenhead and Gattis.

New Study Set For Local WSCS

The Methodist WSCS will begin a new study on next Tuesday afternoon at 2:30 at the church.

The theme is "That They Have Life." The study is a symposium concerning biblical teachings regarding wealth, and Christian vocations of management and labor. Mrs. W. W. Smith, secretary of missionary education, will be study leader.

MUNICH—Radio Free Europe in action. On the lighter side of Radio Free Europe's broadcasts to the captive people behind the Iron Curtain is "Polish Tea Party," a satire on the housewife's chaotic existence in Warsaw under the rule of bungling communist stooges. Here, giving the Kremlin the needles are Mrs. Horodyska and Mrs. Kozlowska as quarrelling housewives. Programs like this, supported by American "Truth Dollars" in the Crusade for Freedom help to keep alive Polish hopes and resistance.

Mrs. Cochran Is WSCS Hostess

The Woman's Society of Christian Service of the Methodist church met in the home of Mrs. L. A. Cochran on Tuesday afternoon for the regular monthly business meeting.

Plans for the World Day of Prayer were completed and committees were appointed to carry out arrangements. Twelve officers made out reports to be mailed in this quarter.

Refreshments were served by the hostess to Mesdames W. W. Smith, J. W. McDermott, John Crowder, C. H. Silvers, Hume Russell, Merna Briley, J. D. Hawthorne, Ed Neiman, H. S. Hawkins, S. Frank Weir, F. E. Baldrige, and L. A. Cochran.

CARLSBAD VISITORS

Mr. and Mrs. W. M. Butler spent Sunday visiting in Roswell and Carlsbad, N. M.

Anthony Steel faces African jungle peril in "West of Zanzibar," a J. Arthur Rank Technicolor presentation released by Universal-International. Sheila Sim is co-starred.

Mrs. Snitker Is Shower Honoree

Mrs. Curtis Snitker, nee Gwen Jennings was honoree at a bridal shower in the home of Mrs. Lee Taylor Thursday evening.

Mrs. Snitker was presented with a coffee maker.

Guests attending were Mesdames Earl Sybert, Mike Waldon, Hessie Earl Spotts, Lew Ray, S. J. Bills, Pat Smith, W. M. Butler, Eddie Irwin, M. L. Jennings and Miss Marie Scott.

Lenora Mae Gray, J. L. Grove Wed

In a single ring service Miss Lenora Mae Gray became the bride of Mr. J. L. Grove at 8 o'clock Wednesday night Feb. 23. The ceremony was read in the First Baptist Church in Clovis, N. M. by Rev. Underwood.

Parents of the couple are Mr. and Mrs. Homer T. Gray of Route 2, Littlefield and Mr. and Mrs. F. E. Grove, Mead, Okla.

Mrs. Freida Jones was matron

of honor and Mr. Freddie Davis served as best man. The couple will make their home in Littlefield where the bridegroom is employed with White Concrete Pipe Co.
