Officers Held Off As Four Flee Prison

"Singing Bandit" Again Makes Good His Boast To Escape; Sentenced In Rolls Job

(By The Associated Press)

WAXAHACHIE, Sept. 13.—Three men and a woman who held off officers as they fled Ellis county jail yesterday, were still at large today.

The men, D. H. Huddleston, Bill Garrett and Henry Day, all of Dallas, fled for the second time in a few weeks.

Huddleston surprised Assistant Jailer Glenn Miller and obtained the jail keys at pistol point. Then with the two other men and the woman, Mae Kidd, he held off Jailer A. J. Tolleson and Sheriff Joe E. Ray until the escape was made.

Driver Jumps Out

The quartette then commandeered an automobile and forced the driver, John Roberts, to take them a short distance south of the city. Roberts jammed on the brakes, jumped out, and walked back to town, when they refused to let him out.

Officers said Huddleston was under sentence for various offenses, totalling about 220 years, and Garrett about 120. Several cases were pending against Day, they said.

Huddleston, dubbed the Singing Bandit of Greenville," formerly was a grid star of Greenville High school. He was indicted and sentenced for a Ralls theater burglary, and later was tried and convicted on a similar charge at Childress.

Huddleston, brash in the courtroom, openly boasted he would escape any jail in which he were confined. His recent escape was made in company with Garrett, called his "side kick" in crime.

Despite his boastful talk, however he broke down and wept after being sentenced for the Ralls burglary, in which he took some old coins that proved his association with the job.

THEATERS ARE BOMBED

NEW YORK, Sept. 13 (AP) — Warfare between rival labor unions was blamed by police today for the stench bombing of 21 crowded motion picture theaters last night with minor injuries to at least 50.

Assault Branded As Deliberate; Forces Of China Retreat

(By The Associated Press)

HONGKONG, Sept. 13.—P. V. Thomas, head of the American Seventh Day Adventist mission hospital at Waichow, charged Japanese today with the apparently deliberate bombing of the hospital despite the prominent display of American flags.

Thomas, who arrived here today bringing wounded members of his Chinese staff, said Japanese warplanes bombed the hospital for 15 minutes yesterday.

American flags, he declared, were prominently displayed over the mission and the attack was apparently deliberate as there were no military objectives nearby.

Klangwan Sector Is Abandoned By Defenders To Japanese

SHANGHAI, Sept. 13. (AP)—Under heavy fire from Japanese land and sea batteries, the Chinese army abandoned the hotly-fought Klangwan salient north of Shanghai today and withdrew all forces to the powerfully fortified second line defense network of trenches stretching from Shanghai 25 miles to the northwest.

The Chinese retreat was orderly and strategic to prepared positions which they had expected to fall back on as soon as the full force of Japan's mechanized advance surged against them.

Japs Follow Closely

The Japanese followed hard on the heels of the retreating Chinese and quickly occupied the far eastern race course and the now completely ruined Klangwan civic center. The Chinese had held the area for a full month against the fier-

TUMALO LAKE, Ore., Sept. 13 — They may be getting just a wee bit tired of bathing beauties here but they never tire of luscious mountain trout. So, when they got up a contest for the girls it wasn't for beauty of face or figure but for ability to handle a frying pan.

Twenty girls took part — each prepared with a skillet, a trout and a little outdoor campfire.

The winner, Ione Ring of Bend, Ore., could have won even if the contest had been just a conventional beauty parade.

Matador Band Is Kept Busy

With only a few days to prepare for the first of a series of public appearances, the Texas Technological college band is rehearsing three times today and will rehearse Tuesday, Wednesday and Thursday nights.

Seventy-five bandsmen reported this morning and more than 100 are expected before end of the week, said Director D. O. Wiley.

To Play At Game

The band will play at the Texas Tech-Arizona State football game Saturday afternoon and possibly will present formations planned this summer by Wiley.

Plans are being made for a trip to Austin on the special train Sept. 25, when the Tech-University of Texas game will be played.

The band will play in the program inaugurating the Coca-Cola College Night series Sept. 30. The program will be broadcast over the Texas Quality Network and will originate from the Tech gymnasium through Station WFAA in Dallas. Time will be from 6:30 to 7 p. m.

Featured At Festival

Tech bandsmen will be featured Oct. 6 and 7 at the Southern Oklahoma band festival in Altus. They will present two concerts.

The group will be clad in uniforms obtained last spring.

Rehearsals were scheduled today at 10 a. m., 2 p. m., and 7:30 p. m. Other night rehearsals this week also will be conducted at 7:30 o'clock.

Pirate Sub Is Blasted But Crew Alive

France And Great Britain Are Assembling Mighty Fleet To Battle Mysterious Raiders

BY JOSEPH E. SHARKEY
Associated Press Staff Writer

GENEVA, Sept. 13.—The League of Nations rebuffed an attempt to unseat the Spanish government from its assembly today at the outset of a tense, closely guarded session which is to hear a Spanish accusation of Italy as a Mediterranean pirate power.

While the assembly met France and Great Britain assembled a mighty fleet of 60 men of war to drive mysterious raiders from the inland sea. Already there were unconfirmed reports from Spanish Cartagena on the Mediterranean, that a pirate submarine, her crew still alive, lay blasted and crippled under the water.

Rebels Seek Seat

The Spanish insurgent Generalissimo Francisco Franco, in a letter to the league, contended his government was the only one representing the will of the Spanish people.

But the league credentials committee decided credentials of the Valencia delegation were in order and the assembly seated it.

The assembly likewise spiked any Mussolinian hopes that the league would expel Ethiopia—which he has conquered—from membership. No voice was raised against Ethiopia during the session of the credentials committee. Her right to continue membership as an independent nation, although she actually now belongs to Italy, was not questioned.

Expresses His Faith

Neither Italy nor Ethiopia was represented by a delegate but the dethroned emperor, Haile Selassie, sent a letter expressing his continued "faith in the league."

The assembly adjourned until 5 p. m., (11 a. m. Eastern standard time) after China's appeal against Japanese aggression was distributed to delegates.

The appeal, saying Japan had invaded China and was continuing the invasion with all her army, navy and air force, had been filed only a few hourse before the meeting.

In view of the extremely tense international situation developing from the Mediterranean problem, the Sino-Japanese conflict, the Spanish civil war and other troubles, Switzerland took extraordinary precautions to guard the league meeting.

The greatest police force in league history was assembled to guard delegates within and without the hall.

China's appeal asserted the Japanese invasion clearly constituted a situation to be dealt with under article 10 of the league covenant. (This article is intended to protect league members against any external aggression which would impair territorial integrity or political independence.)

The grave situation thus created which also falls within the purview of article 11, therefore is a matter of concern to the whole league," the Chinese appeal said.

(Article 11 provides that any war or threat of war, whether immediately affecting any league members or not, is a matter of concern to the whole league and the league shall take any action deemed wise and effectual to safeguard the peace of nations.)

The appeal added that in view of Japan's non-membership in the league her action in China, the Chinese government holds, without prejudice to continuing the validity and binding effect of all decisions hitherto made by the assembly or

WASHINGTON, Sept. 13 (AP) — A preliminary estimate from the commerce department placed the prospective 1937 national income at $70,000,000,000 today, an increase of 12 per cent over last year.

Article On Dust Bowl Gets Strong Protest

(By The Associated Press)

AMARILLO, Sept. 13 — Stories saying that conditions in the "dust" area of five states are more promising now than at any time since the severe drouth of several years ago were carried today by the Amarillo News in a protest against an article on the "dust bowl," in the current issue of Collier's weekly.

The News published, with permission, the Collier's article on its front page and at the end of each paragraph inserted official information as to conditions.

Statements Are Denied

The article, said the News, contended land was selling at $1.50 an acre, the government spending money uselessly in efforts to reclaim soil in a hundred or more counties, that dust was killing people causing insanity, homicidal fury, and an increase in drug traffic. The News denied the statements.

A survey of the five state section of Texas, Oklahoma, New Mexico, Colorado and Kansas, showed that crops were good in practically every county, livestock was in good condition, business improving, population increasing, and the dust area growing smaller, the paper said.

Production To Be High

A survey showed, the paper said, that cotton production would be triple last year's yield in five of the northwest Texas Panhandle's most prominent cotton counties, Hall, Childress, Collingsworth, Donley and Wheeler.

With ideal weather in most cases hot and dry the five counties would turn in about 150,000 bales the survey said.

Despite summer hail and floods, and recent rains bringing fears of insect infestation in some places, cotton estimates have boomed.

By counties the survey estimated Hall 40,000 to 60,000 bales; Collingsworth 40,000; Childress 30,000 to 40,000; Wheeler 18,000; Donley 13,000 to 18,000; Cottle 35,000; Motley 17,000; Wilbarger 40,000; Gray 4,000 and Hemphill 500.

Building Permit Totals For Lubbock Increased Today

Building permit totals for the month were increased to $35,917 with the issuance of two this morning for improvements to cost a total of $6,300, according to report by D. J. Schlag, city building inspector. Totals for the year were boosted to $864,230.91.

Permits were issued to R. W. Amick owner, and E. R. Little, contractor, for a frame residence and garage costing $4,800 at 2110 Seventeenth street, and to Nislar Bros. owners, and W. S. Moss contractor, to repair the business building at 902-4-6-8 Main street, at a cost of $1,500.

FDR To Talk With Advisers On Serious World Problems

HYDE PARK, N. Y., Sept. 13 (AP) —President Roosevelt will bring to an end tonight his longest stay away from Washington this year when he leaves his family home a day ahead of schedule to consult with capital advisers on what he regards as "serious" world conditions.

After talking with the cabinet, probably some time before the regular Friday meeting, he will decide whether to remain at the capital indefinitely or go ahead with tentative plans to tour the west to gauge sentiment on administration objectives.

Nazis Display Might In Air

(By The Associated Press)

NURNBERG, Germany, Sept. 13 —Squadrons of new fighting planes thundered over the nazi party congress today in a gigantic display of the reich's reestablished military might.

All branches of Germany's armed forces took part in the demonstration marking the last day of the annual congress.

Final convention speeches by Hitler and Rudolf Hess his deputy, wound up the week's strenuous program of marching, talk and party business.

Peace And Colonies

Germany's pressing needs were summed up by Hitler as "peace and colonies."

Those two things would permit Germany to concentrate on the great problem of obtaining food supplies for her millions, the reichsfuehrer told foreign newspapermen in an interview at Burg castle after reviewing 100,000 storm troopers at the nazi party congress yesterday.

Needing peace for many years, Hitler said, Germany has no time for "senseless adventures" while building toward economic self-sufficiency, a task that should occupy her forces for 40 or 50 years.

But to gain that self-sufficiency the reich needs the colonies she lost in the World war and "no more," declared der fuehrer, reiterating Germany's "moral right" to her old possessions.

BEAST INVESTIGATED

CORSICANA, Sept. 13. (AP)—Fire department officials were investigating the cause of an explosion in the freight depot of the Texas Electric Railway company here shortly after 4 o'clock this morning. The blast was followed by fire that resulted in loss estimated by Fire Chief Elmer Keith at $1,500 after a preliminary survey.

Easier Credit Is Predicted For Nation

Treasury's Frozen Gold Hoard To Be Released; Reversal Of Recent Policy Being Seen

(By The Associated Press)

WASHINGTON, Sept. 13.—The government began today a new credit-easing course of action designed to assure continuance of the "easy" money which fiscal authorities have credited with spurring business recovery.

It provides, (1) for expenditure of $300,000,000 of the treasury's "frozen" gold hoard—the first release since the gold "sterilization" program was begun last December; and (2) for open market purchases of short-term government securities.

Rates Being Lowered

This program was agreed upon late yesterday by the federal reserve board. Fiscal experts said it was a logical continuation of the board's recent policy of lowering rediscount rates of reserve banks.

It also marked, they said, a distinct reversal of the policy of tightening money rates initiated with the gold sterilization program. At that time, however, banks held large surplus lendable funds. The policy then was to prevent credit inflation.

The open market purchases of federal securities will be made by

Social Leader At Santone Is Crash Victim

Shootings Are Responsible In Three Deaths; Four Killed In The Plunge Of Airplane

(By The Associated Press)

SAN ANTONIO, Sept. 13.—Miss Louise Carroll, prominent local society girl, and Lieut. William Jackson Hanlon, army officer stationed at Fort Clark, were instantly killed last night in an automobile accident 17 miles west of Uvalde on the Del Rio highway.

Miss Carroll was the daughter of the late Col. B. S. Carroll.

Officers said tire marks on the road showed that the automobile skidded 80 yards before overturning, throwing both Lieut. Hanlon and Miss Carroll through the top of the machine.

Thrown From Car

Lieut. Hanlon's body was found 70 feet from the wreckage of the machine and Miss Carroll's was discovered 81 feet away. Her body had crashed into a small tree, breaking a two-inch limb which was eight or ten feet from the ground.

Frank Kirchgraber, near whose ranch the tragedy occurred, heard the wreck and went to investigate. He was unable to locate anyone around the car and called Uvalde officers who, with state highway patrolmen, went to the scene.

A search of the brush alongside the highway revealed the torn bodies.

Shooting Follows Threat Of Suicide; Two Are Dead

CLEBURNE, Sept. 13 (AP) — A shooting which followed a threat of suicide today had cost the lives of Lon Peterson, 54, and Henry Bush, 44, farm laborers.

Both were slain almost instantly late Saturday at the home of Bush in Hams Creek community where peterson and his 15-year-old daughter were boarding.

Mrs. Bush, who with Peterson's daughter, was one o fthe witnesses, said her husband kissed their sleeping infant "goodbye" and threatened to kill himself. She said when Peterson "who had never interfered in family trouble" told Bush to "cut it out. I am not going to let you act that way in fron of he women folks," her husband fired his shot gun at Peterson, who shot back with a small rifle.

Fingerprints Of 7,500 Students Being Taken

(By The Associated Press)

TEXARKANA, Sept. 13 — A mass experiment in safeguarding identities, the voluntary fingerprinting of nearly 7,500 children, began here today.

The subjects were elementary school tots, just out of the toddling class, and their schoolmates in the Texarkana system, up through a college senior class.

To Gather Big File

The result, school authorities and other sponsors hoped, would be a comprehensive file in a special section promised by the federal bureau of identification in Washington, with records of nature's permanent skin whorls as a reference library of identity for some possible future need.

There was no compulsion. Parents, teachers, business and professional men on both Texas and Arkansas sides of the city, favored the plan, but outspokenly opposed a mandatory measure.

After fingerprints left at the Texas Centennial last year had aided in naming some of the hundreds of children killed in the New London, Tex., school explosion last March the Texarkana Kiwanis club backed a program which had been in embryo for several years.

Materials Furnished

The federal bureau of investigation and identification furnished materials.

Fingerprinting began on the Texas side with Sergeant Dick Runnels of the police department in charge. In Arkansas Officer C. L. Thomison was busy in circuit court, and the program was delayed a week.

Many Benefits

"There are many benefits under such positive means of identification, but they should be offered and not ordered," B. B. Lawson, principal of the Texas senior high school, declared in agreement.

"Nertz!" Is Beauty's Answer To Offers Of Movie Career

(By The Associated Press)

ATLANTIC CITY, N. J., Sept. 13 — A soft-spoken, blue-eyed schoolgirl reigned as America's number one beauty queen today —much to the embarrassment of a steel pier-full of city officials and beauty contest sponsors.

And while the officials, frustrated and weary, declared "she can't do this to us," Miss Bette Cooper, 17-year-old Miss Bertrand Island of Hackettstown and Miss America of 1937, went right on doing it.

"Nertz" being a complete and wholehearted snubbing of the fruits of her victory; a six-week vaudeville contract, a $400 offer for five days on the steel pier, and a flying trip to Hollywood for a screen test included.

"No movies, radio or vaudeville for me!" she said today. "I'm going to stay in bed and get rid of this cold, and then back to school for me."

She skipped from America's playground yesterday a few hours after her crowning, leaving behind a bewildered group of sponsors, officials and contract-padded dignitaries.

Hundreds Of Students Here To Enter Tech

Faculty members were on duty, many hundreds of students had arrived, and final preparations were being made today for registration Tuesday and Wednesday for the fall semester at Texas Technological college.

Entrance examinations are being conducted today for students from unaffiliated schools and some students are calling at the office of Registrar W. P. Clement for admission cards and grade books which are necessary before students will be admitted to the gymnasium for registration.

Hundreds Are Expected

Many hundreds of new students are expected to begin registration Tuesday morning. Freshmen are to register Tuesday morning, sophomores and freshmen Tuesday afternoon, and upperclassmen and stragglers Wednesday. Registration hours will be 8 a. m. to 12 noon and 1:30 to 5 p. m.

Preparations have been made for a greater number of students than in any preceding year. President Bradford Knapp estimated that enrollment for the entire year would exceed the total of 3,010 enrolled last year by 10 per cent. First semester enrollment last year was 2,708.

NeNw students may obtain admission cards by presentation of

Drastic New Developments In X-Ray Surgery Are Revealed

BY STEPHEN J. McDONOUGH
Associated Press Science Writer

CHICAGO, Sept. 13.—X-ray surgery which is entirely painless and harmless and which promises to give everyone a look at a slice of his or her liver—if they are interested—was demonstrated here today before the opening session of the fifth International Congress of Radiology.

This relatively new use of x-rays with a machine which automatically makes them turn corners around bones and photograph a slice of the body at any depth desired was described by Dr. Sherwood Moore, Jean Kieffer and Dr. Wendell G. Scott, of St. Louis, Mo.

Many of the 2,000 experts in x-ray and radium treatment from 30 countries who gathered at the congress described the work of the machine, known as the "laminagraph," as "astounding and almost unbelievable."

Efforts have been made since 1921 to develop an x-ray machine which would focus a beam of rays as a glass lens focusses light rays and carries them to a photographic plate, Dr. Moore

Tom Carter Speaks At Tulia Meeting

At a Veterans of Foreign Wars district meeting held Sunday afternoon at Tulia, Tom Carter of Lubbock, senior department commander of Texas spoke on organization, membership and eligibility.

Others on the program were Arthur D. Dodds of Dallas, department commander, who gave a report on the national encampment of the organization held recently at Buffalo, New York, and W. S. Birge, Amarillo department judge advocate, who talked on the VFW Memorial highway through Texas. The highway, through San Antonio, Abilene, Lubbock, and Amarillo was designated as such at the last session of the Texas legislature.

Approximately 200 members attended the Sunday meeting, and those from Lubbock were Henry P. Gutersloh, Terrell H. St. Clair, Curtis Wilson, J. B. Jones, J. H. Hackfield and Carter. Mrs. W. H. McDonald and Mrs. Hackfield attended the Auxiliary meeting.

A district meeting likely will be held soon in Lubbock for district 7. Tulia is in district 9, and their next meeting will be Dec. 12 in Amarillo.

Burial was in Memorial Park cemetery, with Rix Funeral home in charge.

Carter, a retired Yeso, N. M., farmer and merchant, had been ill several months and had been in the sanitarium five weeks.

Pallbearers were W. B. Atkins, J. F. Hankins, Frank Bowles, W. O. Sheely, C. E. Reeder, C. C. Reed, C. C. Cox, and C. T. Williams.

He was survived by his wife, two daughters, and a son.

Boys Who Attended Camp Rush To Study Scientific Books

TAHOKA, Sept. 13. (Special)—Boys who attended the Tahoka football training camp rushed to scientific books when they returned.

They had seen numerous queer balls of light, resembling soft halos or automobile lights seen through dust, they said.

The non-superstitious declared the lights were caused by gas from decaying vegetation in the damp ground, and were similar to the "will o' the wisp" seen in swamp lands.

The camp was located 13 miles south of Bledsoe in Cochran county.

Final Approval For Plans On Crosby Park Being Asked

CROSBYTON, Sept. 13. (Special)—Plans for the Crosbyton Lions club park, drawn up by the Lubbock NYA and approved by the mayor of Crosbyton as co-sponsor have been sent to Austin for final approval.

The park, located in the eastern part of town, was begun two years ago by the Garden club. It was discontinued, owing to lack of funds. Several hundred trees have been planted, as well as many shrubs and flowers. These have had two years growth.

A community house, 20x40 feet, with wings, 10x30 feet on each side will be built. There will be a small club house for boy scouts and one for girls. Five sets of tables and barbecue pits, a wading pool for children, driveways and walks are planned. It is hoped a swimming pool can be built with the wings of the community house as bath houses.

Prompt approval is expected. Work will begin this fall.

Beautification Program In Tahoka City Park Continues

TAHOKA, Sept. 13. (Special)—The beautification program in city park was continued recently with setting out of Bermuda grass on the north half. Grass seed had been sown several weeks ago on the south half.

The park was surveyed and trees planted 12 or 13 years ago. Dr. Singleton, then mayor, and John Donaldson raised money to purchase trees.

The city council decided about a year ago to have water piped through the park and grass planted.

Spur School Enrollment Said To Be Well Above 750 Mark

SPUR, Sept. 13. (Special)—School enrollment in the Spur system is well above the 750 mark, Supt. C. O. Thomas said.

There were 315 in the high school, 269 in East Ward and 181 in the grade school, a total of 765.

Programs were held at the opening.

Rifle Team To Be Organized

"Long distance" competition will be entered by a rifle team to be organized this fall in the Reserve Officers Training corps at Texas Technological college.

Addition of an indoor rifle range, one of several expansion features in the Tech unit, will make it possible for Tech teams to enter telegraphic competition of ROTC and regular service teams.

Two teams competing fire on their own ranges, then telegraph scores to each other. Any team may seek a match under given conditions with any other team. For example, a team of the United States marine corps at Marine barracks, Philadelphia, Penn., last year requested a match with Tech under the following conditions: "Postal 50 feet, 10 shots at each of the four positions (prone, sitting, kneeling, and standing), NRA (National Rifle association) rules to govern. Eight men to fire. Five high scores to count."

Trophies Are Offered

Randolph Hearst, the Society of American Engineers, and various others offer trophies to winners in telegraphic competition.

Thirty thousand rounds of 22-ammunition are stored at Tech to be used in indoor rifle shooting. The rifle range is situated beneath the ROTC building.

Other expansion in the Tech unit, which was organized only last fall, includes addition of equipment to care for 200 students, more than double equipment of last year. Seventy-two students were enrolled in the unit at close of last year and total during the year was 101. Capt. Frank A. Pettit, commander of the unit estimated that at least 50 of last year's students will return and and additional 150 new students will enter the unit. If the number exceeds 200, additional equipment can be obtained from the war department.

More Equipment Available

Federal equipment in the Tech unit was valued at $13,000 last year and now at nearly $18,000.

The Tech unit's rating with the war department for work of the first year is "excellent," given by Col. E. A. Keyes, cavalry, inspecting officer who visited the unit March 1.

Officers are Captain Pettit, Lt. Herrol J. Skidmore, and Sgt. William B. Richards.

To Add Second Year

The unit last year had only first year basic students and this year will have first and second year basic students.

New war department directions published in the last year will alter instruction slightly.

First year students will study fundamentals of map reading, infantry drill, rifle marksmanship, military history, organization of the army, and general principles of citizenship. Second year students will be given extensive work in aerial photograph reading, map reading, map making, infantry drill and combat training as pertains to weapons and musketry, scouting and patroling, and interior guard duty.

Lambs To Go Under Hammer Of Auctioneer At Elderado

SAN ANGELO, Sept. 13, (Special)—Lambs will go under the auctioneer's hammer to the highest bidder for the first time in West Texas history at Eldorado south of here on September 22 this year. Some 10,000 head have been consigned to the sale which is attracting wide interest among feeders and lamb buyers generally. The sale is being arranged by a group of civic minded Schleicher county citizens for the purpose of simplifying lamb buying procedure.

Heretofore, buyers have had to make individual contacts with growers which involved lots of travelling. Under the auction sale method a large number of lambs will be concentrated at one point so that buyers may have their choice of as many of a type as they wish and can make their bids accordingly. If the move proves popular with buyers and growers it will become an annual feature.

Newsprint used in the United States annually would make a sheet 450 feet wide reaching to the moon.

LITTLEFIELD, Sept. 13, (Special)—Sen. G. H. Nelson of Lubbock will be principal speaker at an entertainment to be sponsored by the Littlefield Farmers Co-Op at 1 o'clock the afternoon of Sept. 18 in the gin yard. "Cooperation" will be his subject.

George Mahon, congressman from Colorado, is to speak.

Persons from over the South Plains are to take part in an amateur contest. The entrant shown by a sound meter to have gained most applause will be the winner.

Prizes of $10, $5 and $3 are being offered to students submitting best essays on "Local Cooperation." The contest, limited to Littlefield trade territory, will close Wednesday at midnight. Entries mailed before that time will be accepted. Length is limited to 500 words.

"IS IT GOOD BUSINESS TO BUY COSTLIER TOBACCOS FOR CAMELS?"—A QUESTION ASKED BY MANY PEOPLE

ANSWER: Camels are the Largest-Selling cigarette in America

"I have taken my share of big fish—marlin and tuna. I know what a rod-and-reel contest with these heavy fighters does to a man's energy. When I've gotten a big fellow safely landed, my next move is to light a Camel. A Camel very quickly gives me an invigorating 'lift.'" (Signed) REX BEACH, famous novelist and sportsman

"Camel's rich, delicate flavor appeals to a woman's taste. I smoke nothing else. So many of the girls in our crowd feel the way I do about Camel's being extra-gentle to the throat." (Signed) JOSELYN LIBBY, private secretary

"I can tell Camels are made from mighty fine tobaccos. There's a sight more goodness in 'em for one thing—real natural flavor that doesn't tire my taste. No sir! Camels come in handy, too, at the table. I like my Camels at mealtimes. They help my digestion keep on an even keel." (Signed) GEORGE BUCKINGHAM, ship's engineer

Think of what this means! The greatest pleasure for the greatest number of smokers ever given by any cigarette

AND this didn't happen by chance. Camels are the largest-selling cigarette in America—and in the world—because people *can* and *do* appreciate costlier tobaccos. Smokers trust those finer tobaccos in Camels to give them more of what they want in smoking. And that makes Camel's policy of spending millions of dollars more for costlier tobaccos "good business."

If you are not a Camel smoker, try them. Millions have given Camels the severest test—smoked them steadily—and have found more pleasure in *Camel's costlier tobaccos.*

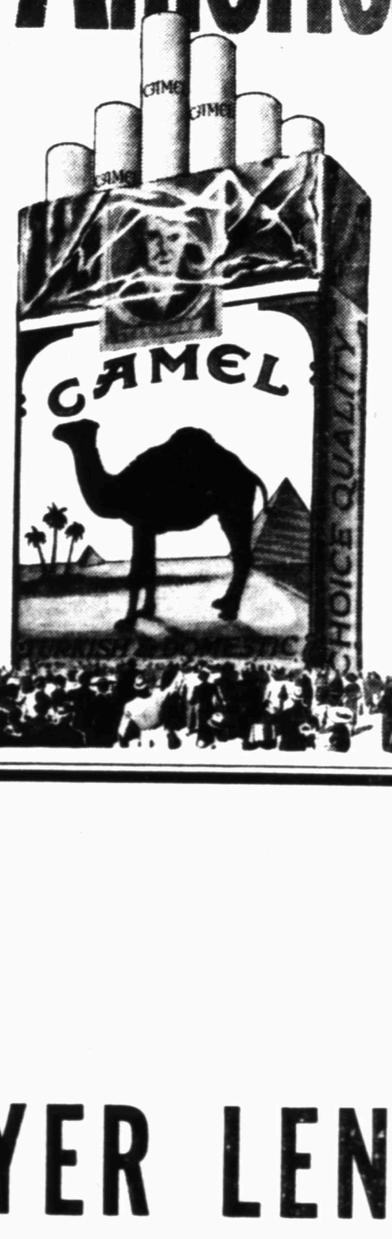

"No wonder so many billiard champions, myself included, prefer Camels. I've smoked Camels for a long time. I say it was a happy day for me when I turned to Camels. For I found I could smoke a lot and never have 'edgy' nerves. I want to compliment Camels on their mildness!" WILLIE HOPPE, famous billiard champ.

"I love the taste of a Camel. They're so mild. Even after steady smoking I notice no 'cigaretty' after-taste." (Signed) MRS. ANTHONY J. DREXEL 3D.

ENJOY BENNY GOODMAN'S *SWING* BAND for a full half-hour!

Tune in Benny's popular swingsters—hear his famous trio and quartette. Tuesdays at 8:30 pm E.S.T. (9:30 pm E.D.S.T.), 7:30 pm C.S.T., 6:30 pm M.S.T., 5:30 pm P.S.T., over WABC-CBS.

"For digestion's sake—smoke Camels!' is a rule with me. Camels help me enjoy my food no matter how tense I may be." (Signed) LENORE KIGHT WINGARD, America's premiere mermaid

"Camels are *different*. They have the mildness I demand. When I say that Camels don't frazzle my nerves, I mean a lot." (Signed) LEE GEHLBACH, famous test pilot

"Camels? I smoke 'em day in and day out. My throat is easily irritated, but Camels, being so mild, never have a harsh effect." (Signed) CHARLES CHASE, locomotive engineer

COSTLIER TOBACCOS IN A MATCHLESS BLEND

Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic. The skillful blending brings out the full, delicate flavor and mildness of these choice tobaccos.

Hubbers Are Soundly Trounced By Borger Club To Tune Of 9 To 1

Local Lineup Is No Match For Visitors

The Lubbock Hubbers, only mildly improved, if at all, at two weak positions, still proved no match for the "professional" ball club of Borger, the Huber Carbons, who thwarted Hubber efforts for revenge and took a second straight victory at the local park, 9 to 1.

Except for one bad inning, Lefty Jerry Blanchard, Hubber chunker, maintained his usual pace of pitching, holding the invaders to five hits and a single tally for the first six innings.

Things Pop In Seventh

But in the seventh things went haywire for the locals, who had strung along with a 1-1 tie after scoring in the second frame. The Carbons batted around, plus one, in the seventh to score six runs off

five hits and a brace of errors. The outburst was featured by triples off the bats of Shortstop Spencer and Second Baseman Summers, each coming with mates aboard. A costly over thrown by Blue Graham, Lubbock shortstop, allowing two bases, started the splurge. Graham handled Keaton's grounder easily, but threw high over Lefty Bettes' head. Blanchard passed Pitcher Lefty Carrithers then, and continued to be upset in mishandling Manager Roy Storey's attempted sacrifice. Instead of throwing Storey out at first, Blanchard heaved to third, which was occupied. The sacks were loaded and nobody out.

Then came Spencer's loud triple to the centerfield fence, cleaning the sacks. Blanchard struck out Hack Wilson, but Ross singled through short to score Spencer. Warren struck out, then Summers tripled, scoring Ross. Catcher Polvogt rapped a single over third and Summers came home. Polvogt tried to reach third on Keaton's single to right, but Manager Jack Thompson recovered the ball and made a beautiful peg to catch the Huber catcher at third, ending the awful inning.

Warren Gets Homer

The eighth was scoreless, but Whitey Warren, after two terrific swings, finally connected in the ninth and the ball soared over Thompson's head and the right field fence as two more tallies came in.

A Hubber rally in the ninth was nipped by a double play after Lingle, pinch hitting for Blanchard, had singled nicely over short. Graham bounded weakly to Carrithers, who wheeled for the throw to second, catching Lingle, and the relay caught Graham at first.

Carrithers, former Atlanta and Albany player, had the game in his hip pocket from the start, as far as controlling the home town hitters. He chunked a masterful game, striking out ten and allowing seven scattered hits. The Hubbers got enough men on bases to win any game, but they usually came after two were out.

Blanchard Whiffs 12

Blanchard whiffed a dozen batters, walked three and advanced men on bases with a couple of wild pitches. He swung futilely at Lefty Carrithers to strike out three times in three trips.

Borger started in the first with Storey's double to center. Spencer struck out, and Wilson singled. Storey reached home when Bettes misplayed the ball at first. Catcher Dick Ratliff recruited from Littlefield, pegged to Breedlove to catch Wilson attempting to steal, and Ross whiffed.

Lubbock tied the count in the second when Crites walked, was forced at second on Presley's grounder. Breedlove was safe when Keaton messed one up at first. Blanchard struck out, and Graham was safe on Ross' error at third. Bettes came through with a single to left, scoring Presley.

From then on it was up and down for the Hubbers and Hubers until the wicked seventh.

Power Is Off Form

Lubbock's batting power, supposed to be strengthened by the addition of four extra hands, was sadly off form. Two of the visitors expected to play, Gib Jackson of Amarillo and Pete Edwards of Tahoka, sat on the bench or in the stands, having been issued no uniforms. Dick Ratliff did a nice job of catching for Lubbock, but was fooled at the plate by Carrithers' slants. Pluss Ballard, another Littlefield player, went the route at third base, got two singles, but was off his fielding form to commit two errors.

Fans were disappointed at failure to use Jackson and Edwards, who no doubt would have lent color to the outfield and power at the plate when it was needed most.

The game yesterday, witnessed by one of the largest crowds of the season, may have been the final one here this year, although efforts are being made to attract one or two All-Star clubs.

MARSHALL, Sept. 13. (AP)—Jacksonville, last night's wild 14-13 victory to the good, was to come here tonight with a 2-1 lead over Marshall in the finals of the East Texas league's Shaughnessy playoff.

Giants Remain Slightly Up Over Cubs

BY SID FEDER
Associated Press Sports Writer

The National league pennant picture, folks, is as clear as a cup of coffee in Hank's hashhouse.

One week the Cubs are going strong and the Giants look no better than pace; the next week the Cubs fall apart and the Giants look like a sure thing straight from the feedbox.

Then both get hot—and now anything can happen.

In Final Three Weeks

The pennant races went into their final and deciding three weeks today, and although the Giants are a game and a half in front, the thing is no nearer being decided than it was last April. Here's the way the top three teams shape up:

Team	W	L	Games Behind	Games To Play
Giants	79	51	—	24
Cubs	79	54	1 1-2	21
Pirates	71	62	9 1-2	21

Over in the American league, meantime the Yankees, despite their hitting slump, look as certain as death and taxes, sporting a ten-game lead and with no one doing much about overtaking them. They are enjoying this layout:

Team	W	L	Games Behind	Games To Play
Yankees	88	43	—	23
Tigers	79	54	10	21
White Sox	76	59	14	19

Picture Changes Little

The picture changed little yesterday as the Giants and Cubs each split, although the Yanks lost a half game of their lead by gaining only an even break with the Senators, while the Tigers were taking the White Sox apart, 4-0, behind Tommy Bridges' three-hit hurling in a single game.

The Giants had the unpleasant prospect of tangling with the Bees' two "old man" rookie sensations, but they got by Lou Fette, 3-1, in the opener. Jim Turner then set them down, 6-4, handing them their third setback in their last nine starts.

The comebacking Cubs' pitchers turned in a pair of fair-enough jobs in breaking even with the Pittsburgh Pirates. Larry French tossed a four-hit shut-out for a 5-0 decision in the opener and then Bill Lee dropped a 4-2 affair in the nightcap, although his pitching was good enough to take a lot of ball games.

Best Elbowing Of Day

By far the best elbowing of the day was turned loose (believe it or not) at Yankee stadium. Young Ken Chase, with a seven-hitter, hooked up with Red Ruffing, with a five-hitter, in the opener, and Ken won, 2-1. Lefty Gomez fanned eight and allowed just five safeties to take the nightcap, 2-1, from Ray Phebus with the help of Joe DiMaggio's 42nd homer.

Bob Weiland's five-hit, 2-0, win in the nightcap enabled the Cardinals to break even with Cincinnati, after the Reds took the first game, 10-7. The Phillies and Dodgers split, Brooklyn taking the second game, 9-5, on a homer with bases loaded by Eddie Wilson, after the Phils outlasted them for a 4-3 ten-inning win in the opener.

An eight-run ninth inning gave the Red Sox a 13-6 edge over the Athletics. The "always-good-at-home" Cleveland Indians showed the home folks a pair of winning performances over the Browns, 6-3, and 6-1, the latter giving Johnny Allen his 11th straight win, with a four-hitter.

Bradshaw Is Victor Sunday In Meadowbrook Invitation Play

Shooting seven under regulation figures, J. K. Bradshaw, the medalist, Sunday posted a 133 to cop Meadowbrook Golf course's annual South Plains invitation.

Alfred Holton, defending champ, played 18 holes in two over par — and withdrew, to give some idea of the blistering pace.

Bradshaw fired rounds of 68 and 65.

W. F. Hinson of Brownfield carded 77-72—149 to win the first flight of the medal tourney. O. Rockey of Muleshoe 88-85—173 to take the honor in the second flight and C. W. Goodgion of Lubbock 96-83—179 to win the third flight.

Prizes were awarded: A pair of golf shoes to the winner of the championship flight, a Hagen driver to winner of the first flight, a Spaulding 5-iron to winner of the second flight, two golf balls to the winner of the third flight, two golf balls to the medalist, one ball to the oldest person to qualify, Goodgion, and one ball to the youngest to qualify, Billy Martin, 14.

Scores of those who completed the 36-hole play (several golfers played only the first 18):

Gus Freeland, 74-79—153; Bill Freeland, 89-90—179; N. L. Ball, 79-83—162; Doc Jones, 84-79—163; W. C. Edwards, 79-85—164; P. H. Polk, 82-84—165; R. Marshall, 91-82—173; Jim Shaw, 74-78—152; H. M. Chick, 86-93—179; O. C. Moore, 86-93—179; Red Doherty, 67-71—138; Bob Hale, 63-71—134; Jack Goodgion, 95-91—192; W. A. Moller of Muleshoe, 88-86—174; C. G. Wallard, 76-83—159; M. Hughett, 74-77—151; J. B. Powers, 74-77—151; Manson Allen, 68-71—139; H. Hughes, 95-94—189; John Bell, 75-73—148; H. Hunt, 84-82—166; Fred Hinson of Brownfield, 72-77—149; Vic Webber, 84-102—186; P. I. McCune, 91-90—181; J. D. Hinson, 76-76—152; R. V. Sandlin, 76-75—151; F. G. Sandlin, 96-100—96; Allen Seale, 86-95—181; S. Carter of Crosbyton, 76-81—157; C. W. Goodgion, 83-96—179; A. A. Marchant, 93-89—182; W. T. Rogers, 83-77—160; Billy Martin, 89-80—169; A. L. Pace, 82-80—162.

Texas League Clubs Ready For Payoff

(By The Associated Press)

The Oklahoma City Indians, fresh from a season's happy hunting party which ended with the hundred and first scalp taken, 3-2, from the Fort Worth Cats yesterday, today nominated Chief Ashley Hillin for a major share of hostilities against the San Antonio Missions in the Shaughnessy series which opens in the Texas city tomorrow night.

Manager Jim Keesey of the league leaders, expressing confidence his team would come through, but no overconfidence as to the opposition, was depending on Hillin, whose 31 wins for the season set a modern league record, to bolster the crippled Indians through the play off and into the Dixie series.

May Use Brillheart

There was a chance Hillin would not pitch the first night, with Keesey throwing Jack Brillheart, the Missions' jinx, into the struggle.

Meanwhile the third place Fort Worth Cats, considering a surprising prediction from champion batsman and Manager Homer Peel that they would play the Missions in the finals prepared to go north to Tulsa for a series opener with the second place Oilers.

Manager Bruce Connaster of Tulsa declaring "we're going out to play the other club in a hustling manner and let the result take care of itself," tentatively named Max Thomas to start.

Trounce Dallas Steers

The Oilers trounced the limping and last place Dallas Steers yesterday, 10-2.

Peel's prediction that the Missions, who lost the season's ender to Houston 4-3 would come through against the Indians, was based on a deduction that San Antonio would prove "too hot" for the Oklahomans, who have, he said, "been coasting too long."

Fort Worth should beat San Antonio, he said, on superior mound work. He said he was counting on Selway to give the Cats the jump on Tulsa.

Other games yesterday saw Beaumont win from Galveston 8-1 and 6-0.

High Schools To Swing Into Action In State

BY HAROLD V. RATLIFF
Associated Press Sports Writer

DALLAS, Sept. 13.—Schoolboy football teams from Panhandle to Gulf swing into action this week, with district championship games scheduled in mid-September for the first time in the eighteen-year history of the Interscholastic league.

The campaign opens on practically every front after eight teams jumped the gun last week. More than 50 contests are carded, over half of them inter-district affairs, and three of them of inter-sectional nature.

Austin high, one of the El Paso district favorites, starts the conference campaign with Pabens, and the always turbulent oil belt matches Brownwood with Eastland.

The intersectional tilts bring Clovis, New Mexico, to Amarillo to put the 1936 champions on parade and show whether the gloom of Sandie backers is justified, pit Durant, Okla., against Denison at Denison and match Fair Park of Shreveport a Louisiana power, with Kilgore.

Inter-district games test the power of six defending district champions with the El Paso high clash at North Side, Fort Worth, probably the feature. El Paso won in district 4 and North Side went to the semi-finals of the state race.

Other Attractive Tilts

In other attractive tilts North Dallas, champion of district 8, plays at Longview, champion of district 9, and Hillsboro, winner in district 11, meets Gainesville of district 5. Hillsboro engaged another district champion last week, but after a flurry in the first few minutes of play melted before the onslaught of Tom Dennis' Port Arthur Yellow Jackets of district 14 by a score of 19-7.

The list of inter-district contests between class A teams also includes: Masonic Home of Fort Worth at Wichita Falls, Plainview at Quanah, Thomas Jefferson of San Antonio at San Angelo, Paschal of Fort Worth at Breckenridge, Dallas Tech at Greenville, Corsicana vs Highland Park at Dallas, Vernon at Fort Worth Poly, Cleburne vs Forest at Dallas, Beaumont vs Adamson at Dallas, Kerrville at Temple, Mexia at Waco Harlingen at San Antonio Tech, Woodrow Wilson of Dallas at Brackenridge (San Antonio), Stephen F. Austin of Houston at Galveston, Beaumont at Orange, Sunset of Dallas at South Park (Beaumont), Harlandale of San Antonio at Corpus Christi.

Greenville Beats Denison

Greenville's 13-6 victory over Denison featured last week's play. The Lions had not been rated strong contenders in the district 6 race and Denison had been hailed as the team to beat in the district 5 drive. The result of the game caused the favored McKinney and Highland Park teams to cast wary glances toward Dan Stallworth's aggregation, building back from several seasons of reverses after galloping off with the state title.

In other games Electra downed class B Chillicothe 39-0, Quanah blasted class B Nocona 40-0 and Bryan defeated class B Caldwell 24-0.

EXPECTS COTTON CROP

BLEDSOE (Special) — F. O. Maston's 6,000 acres in cotton this year is expected to yield from a quarter to a half bale per acre. He will have around 2,000 bales. It is believed. Some estimate 2,500 bales or more. Maston farms with tractors. He has a total of 9,000 acres in crop.

Stadium Stuff

by Collier Parris

THE COLLEGE FOOTBALL bug gets in its first bite of the season here tonight, in case you are not immune, when Pete Cawthon and Dutchy Smith present the "Red Raiders on Parade."

Tonight's show, free to the population, is designed primarily for the benefit of the downtown business men who help pay the freight for Tech athletes and athletics. If there be skeptics among them, they are invited out to see for themselves evidence that their good faith and dollars are doing some good.

Then, it's the regular Touchdown Club session, too. All members of that organization, whether dues paying members or not, are invited to see the Raiders go through a regular workout. But it isn't a closed meeting at that. The dear public, male and female, will be welcomed, the idea being that if you once see the red-clad Raiders in action, even in routine workout and scrimmage, free for nothing, you'll be happy to purchase tickets to see them in actual combat.

The time is eight o'clock. The glimmers will be turned up for the first time this autumn upon Tech's prospects for the winter. To Pete and Dutchy, it looks like a long, tough winter, but it always does. The varsity squad is smaller than usual, but it lists some fine looking boys who possess a spirit that's dear to a coach's heart.

Free customers tonight are expected to be cash patrons next Saturday afternoon, although you incur no obligation by turning out this evening. The Techs open the Border conference campaign next Saturday against the Arizonans of Flagstaff.

HUBBERS END REGULAR YEAR WITH DULL THUD

It takes professionals to go up against professionals, if a good showing is to be the result, and the Lubbock Hubbers are still among the unsullied amateurs.

The fans, however, may have obtained enough wham out of seeing a classy team in action to offset the weak home town opposition. That Borger bunch is a baseball team on anybody's diamond, and it's no disgrace to lose to 'em. It is sort of disconcerting to keep bowing to the stronger clubs of the section, and it is hoped that Sam Rosenthal, or whoever operates the local club next season, will lend an ear to the public request for something approaching a professional ball club.

This is not set down in a disparaging attitude. The boys who make up the Hubber team are good, honest old boys who do their best. They have been faithful and on time, playing ball for love of the game more than for financial remuneration. They're due a big cheer from the house for staying with Owner Sam and playing ball to the best of their abilities.

But the time has come for Lubbock to put a better team on the field, a team capable of attracting, and beating, the good

Ball-Carriers Two And Three Deep At Texas But Line May Give Coach Bible Trouble

BY FELIX R. McKNIGHT
Associated Press Sports Writer

AUSTIN, Sept. 13—Ball-carriers as hard to catch as a waiter's eye are two and three deep at every backfield post at the University of Texas—but that's only half the story.

Said scholary D. X. Bible, on the first of a ten-year contract at $15,000 per annum, relates the other half—trouble in the line.

"My halfbacks please me," said Bible, showing great self-restraint. "I could talk about them a long time. Why, seven of them are far above the average backs on any team in the country. They kick, pass, run with speed and block well. Great boys those backs—but let's get on to the line."

Analysis of the Longhorn line showed one weakness, lack of speed. Coach Bible admitted he couldn't ask for much more, defensively, from the linemen, but he feared slowness might cause his fast-stepping backs to climb right over them on the offense.

End positions have been "unexpectedly strengthened" since spring practice, when neither quantity nor quality was present.

Bible talked optimistically, explaining some of the candidates did a turn on the track squad and picked up needed speed.

Currently, Joe Roach, 200-pound squadman, and John Peterson, rangy lone letterman, stand out for starting berths. However, Lewis Ford, 205-pound soph, and Harry Rosenthal, another freshman star of last season, rate as contenders, as well as Buck Neeley, McDonald and Bleymaier.

No team in this section of the land will have finer material at the left halfback—or tailback—position than Texas. Any one of three men, Jud Atchison, B. P. (Beefus) Bryan and Charlie Haas, are available.

That trio will run at tailback on all but double wingback formations and will handle safety work.

Over at right half Bible has Henry Mittermayer, clever letterman, who most likely will call signals. Sharing the field general duties will be Hugh Wolfe, 195-pound two-year letterman whose work last season, especially against Minnesota, labelled him one of the nation's speediest and hardest-driving big backs. Mittermayer and Wolfe will alternate between right half and quarterback.

Without competition for the fullback slot is Lewis (Bullet) Gray, still another sophomore, who Coach Bible passed over by tagging him "head and shoulders above anything else on the field." He has all the requisites—drive, defensive ability

SORRY OR SAFE?

THERE'S ONLY ONE WAY TO GET GOLDEN PLY BLOW-OUT PROTECTION
... Ride on Goodrich Silvertowns!

● At today's higher driving speeds, even the most careful drivers run the risk of tragic blow-out accidents because of unsafe tires. And that does not mean that tires have to be badly worn or have broken casings for a blow-out to occur.

The truth of the matter is that many blow-out accidents are caused by the intense heat generated inside all tires at forty, fifty or sixty miles an hour. This heat may cause rubber and fabric to separate. A tiny, invisible blister may form and grow bigger and BIGGER until sooner or later, BANG! It's a blow-out.

When thousands are killed or injured every year in blow-out accidents, it's better to be safe than sorry. That's why safety experts advise motorists to ride on Goodrich Silvertowns, the only tires with Golden Ply Blow-out Protection.

This Life-Saver Golden Ply is a special layer of rubber and full-floating cords, scientifically treated to resist dangerous *internal* tire heat. By resisting heat inside the tire the Golden Ply protects you against these dangerous high-speed blow-outs.

And here's real good news—in spite of the added safety of the Golden Ply, these long-wearing, extra-rugged Goodrich Silvertowns actually cost even less than other super-quality tires. Come in today and ask to see this life-saving tire.

ANNIE OAKLEY of modern days in shooting ability is Miss Frances Lister of Washington, D. C., a contender in the national rifle matches at Camp Perry, Ohio. Although only 17, the young lady is an experienced marksman. She does not fear competition with men and hopes to make a good showing at the matches.

He has been a topnotch player in the National League for a number of years.

NATURE'S SECRETS. This is Grace, the Swan, who seems willing to confide in everyone that she used to be an Ugly Duckling, indulging in some hoarse whispers with Mr. Hard Shell, the tortoise, who can't seem to forget that once he outraced a rabbit. The gladsome meeting occurred at Taronga zoo, Sydney, Australia.

A HERO DEPARTS with a kiss for his Russian chief. Sigismund Levanevsky, Soviet ace of flying, is shown as he gave a farewell gesture to G. Alkanio, leader of the Red army air force, just before taking off in a giant four-motored plane across the roof of the world. But disaster overtook the craft between the north pole and and Alaska and it was forced down.

A BUSY MAN is Nelson Johnson, United States ambassador to China. He is concerned with safety of Americans living in that war-stricken nation. A crisis such as this is nothing new to Johnson, who has spent half his life in the Far East.

RED KISSES. Such comradely affection must be deserved. It was. In appreciation for the heroic flight to establish a North Pole weather base, Soviet Leader Stalin plants a kiss firmly on the cheek of I. T. Spirin, the expedition's chief navigator.

BEFORE THE WAR Germany regularly sent her tennis stars to America to vie for United States trophies, but until the current arrival of Heinrich Henkel (left) and Baron Gottfried von Cramm, no Teuton net ace had set foot here for more than 10 years.

DEATH TAKES A HOLIDAY in England's aerial war games as these fliers were forced to delay maneuvers because of unfavorable flying weather. So they whiled away the time with a bridge game, fighting with aces of cardboard instead of imaginary foreign air aces.

WHITE VS. RED. "White" Russians, or members of the Russian National Revolutionary party which seeks the overthrow of the Stalin regime, are shown at a meeting at Thompson, Conn., on the estate of its president, Anastase A. Vonsiatsky (in riding breeches, hand on hip), president and co-founder of the party.

That Girl on Broadway says when it comes to repartee, it's better never than late!

* * *

A Lubbock family was picnicking down at Buffalo Springs yesterday and a kid of seven ran up to his mother.

"Mama," he begged, "can I go in swimming?"

"No, son," she replied. "The water is too deep."

"But," the youngster went on, "Daddy is swimming."

"Uh huh, I know," the mother replied as she shoved the kid's feet out of a pie, "but his life's insured!"

* * *

DRIVING to town the other evening The Plainsman picked up a Tech kid at Broadway and College. In the conversation which ensued between there and town it developed that the young man was here early for his second year at the college and was charting his course toward a diploma in textile engineering.

"Why textile engineering?" The Plainsman asked, more to make talk than for any other reason.

"I'll tell you why," the student explained, "it's because the field isn't crowded there are not many schools teaching the subject and when you finish there's a job for you. And that is as much as anybody could ask, isn't it?"

* * *

As little as most of us—college students and their parents included—think about it, that's about as good a reason for taking up a line of study there is.

If more of our students—those in Tech and in every other college as well—considered their education in the light of what they could expect from it, instead of in the light of what they think they'd like to do in future life, they'd be better off and so would the country.

Literally speaking, there is no sense in crowding some fields while others are slighted, especially in this day and time when a college education is as much the rule as eating and breathing.

* * *

DURING the balance of the conversation The Plainsman learned what to him was a startling thing. That was that even in these days of rising prices it costs less than $400 per year for an out-of-town student to attend Texas Technological college.

"I can get by nicely," our passenger told us "on $350 a year. That covers clothes, books, board and room, enrollment fees and everything. I'd be tickled to death if I knew I'd have $350 a year for four years. My troubles would be over. Of course I only get two meals a day, and I don't have anything to spend for fun. But I can make it all right on that."

There has been a lot said for the boys and girls who work their way through college, and that's all right. It takes nerve to work one's way to an education and all credit to those who do.

But there's a lot to say for a kid who is tickled to death to get by on $350 per year and who mentions getting along on two meals a day as casually as he might say "it looks like rain."

As long as this nation has kids like that, it's going right ahead, just as it always has—onward and upward.

* * *

BEFORE getting off of the subject of Tech kids The Plainsman wants to try to find a job for a certain young man.

This column realizes full well that there are hundreds of kids—most of them good kids, too—looking for part time jobs so they can go to school, but this particular youngster is different. He's different in that he is a home town boy, born and raised in this county and whose folks for two generations have been upstanding citizens of Lubbock and an adjoining county.

As everyone knows, the lion's share of the jobs open to college boys go to the out-of-towners.

The Plainsman has no fault to find with that. For all we know, or care, that may be as it should be.

But it occurs to us that here and there we should be able to extend a hand to a home town boy so that he, too, may go to college.

* * *

This young fellow in question is 19 years old, a last year's graduate of Lubbock High school and he isn't afraid to work.

He has done farm and ranch work in summer times and has had experience in a grocery store. But he's not choosey and he's willing to work at any honorable job he can get hold of.

This column will personally recommend him. We know him and we believe he'll make good if someone will give him a chance.

Anyone having a part time job for a Tech student can get in touch with the young fellow in question by calling The Plainsman at The Journal, phone number 13. If The Plainsman isn't in, please leave your name or phone number with the girl who answers the phone. You'll get a good boy for your job.

(You oughta know where we're at, Senator. You've helped put us there!)

* * *

WHO do you think is back in Lubbock—and to stay? It's nobody but T. E. "Chief" May, who less than eight months ago was trying to convince The Plainsman that the Rio Grande Valley is the finest country in the world.

"Don't tell me 'I told you so,'" Bro. May told your humble servant in no uncertain terms the other day. "I found out for myself there's no place like the Plains and I'm home again, for good!"

There's no sour grapes in it, either, as far as "Chief" is concerned. He didn't lose any money in the Valley. As a matter of fact, he made some.

He decided to come home simply because he found that this country is better than that country—and because the people here are, at least in his view, superior as friends and neighbors.

The Plainsman isn't surprised.

He's got nothing against the Valley. As a matter of fact, he hopes that section at last has hit a steady growth, is on Progress boulevard and will not again—as has been the case several times in the past—blow up higher than the proverbial kite.

But—b-u-t, but—if the Valley was what it's cracked up to be by the boys who have real estate for sale, why is it "up" one day and "down" the next?

Like "Chief" May, who went and saw and came back home, we'll string along with the "baldies" and the adjacent country!

AS we see it, the loss of a battle flag would be nothing to an ingenious Japanese, as he could make another right quick with a square of bandage and a bottle of mercurochrome!

Yesterday The mystery about Dick is cleared up; he is involved with counterfeiters. He flees the country and Joy is relieved at the turn of events. But what of Roger?

CHAPTER XII

Tuesday "Morning, girls," Cal said when he came into the kitchen this morning, and I knew by the deliberate way he started to shove tobacco into his mouth, that he had news for us.

Guess everyone will be happy now around the lake . . . the Township Committee announces that Serene Shores will be closed . . . Seth Bradshaw found out that there was some crooked work over the deal, and he's got his property back; but he's giving it to the Township for the benefit of all his old neighbors and friends."

"Too bad I won't live here after I'm married," said Tess. "I sure would enjoy sitting on the porch looking at the lake. Any other news, Cal?"

"Yep. Miss Pegler's closing her house today."

How fast news travels, was what I thought as I waited for his next pronouncement. It was about Dick and the mess he'd got into. Told me I was lucky to find out what sort of a fellow he was before I tied up with him. . . . I didn't need to answer for Cal had still more news for us.

Clearing his throat, he said, "Had lots of excitement last night."

"Yes, you went to the movies, didn't you, Cal," Tess said.

"I did, but it was when I was going home that I was almost scared out of a year's growth."

"Gosh, Cal, what happened?" Tess demanded.

* * *

"Well, I was coming past Serene Shores . . . saw a couple of cars in front of the clubhouse . . . it was late for I stopped in to see some folk after the show and we got talking . . . saw the clubhouse door open and that young fellow—his picture was in one of the magazines."

"You mean that famous designer, Roger Brough," Tess said.

"Yes, that's the fellow I mean. Well, he came out with another man—a heavy-set short fellow, and that pretty girl folks say he's going to marry. He opened the door of a swell limousine, and helped the girl in . . . she didn't want to go though and hung around his neck, but the heavy-set fellow said, "Cut that out," then, turning to Roger, whispered something to him.

"After they got in the car, the girl looks out and says, 'Join us in Boston, Roger . . . I've got the tickets.' But the man speaks real angry-like, "You can't do that . . . you've got to stall them off . . . we got a poor enough start as it is'."

"Gee, Cal, that sounds like a movie thriller . . . what was it all about, do you think?"

"Couldn't say, I'm sure . . . maybe there'll be something in the papers about it."

I wondered, but had to hustle and arrange the flowers, then I decided if I was ever going to do anything about Jigger the sooner the better . . . started out towards the haunted house . . . passing the cabin, I noticed that Tad and Peter were in their lookout tower . . . Peter seemed terribly excited.

"Look out," I called "or you'll fall."

"Oh, Joy, want to see something?" he cried, craning his neck in the direction of the haunted house.

"Haven't time," I answered, as I hurried along.

A moment later Peter was at my side. . . . "Are you going to the haunted house . . . let me come with you . . . please!"

"No, no, Peter . . . you know you promished—" Suddenly echoes of rifle fire shattered the stillness of the woods.

"That's just what I thought. . . . I was sure it was Eb Tuttle and some other men who were at the haunted house . . . Tad and I saw them go . . . come on back to the cabin . . . you can see everything from the tower . . ."

I knew it wouldn't stand for my weight; but I knew that when the sound of firing reached Cal's ears he would be along instantly I might as well go back. It was Tad who got into the tower first. . . . "They've got 'em," he cried excitedly . . . "The policemen have their guns on them . . . one man's on the ground . . . they're bringing stuff out of the house . . . oh, there's a huge dog like a wolf . . . he's leaping on one of the policemen . . . now he's slinking away . . . standing beside Jigger."

Not knowing what would happen next, I took the boys back with me to the teahouse. Cal was down in the thick of things for Eb had tipped him off about the raid. It wasn't till nearly lunch time that Cal appeared with full details . . . the police had arrested all the men, though Jigger had been shot and wounded in the attack.

"Well," he finished, "that clears up a gang of counterfeiters and I guess I had something to do with their capture . . . remember that bill I told you about, Miss Joy? Well, after we got that warning about counterfeit money, I took a look at it . . . showed it to Eb . . . he figured it was bad, and turned it over to Mr. West at the Bank."

"You did, Cal?"

"Sure and it wasn't worth a nickel, but I got even with that fellow Jigger for paying me with counterfeit money, for that gave Eb the tip he needed, or rather the Secret Service men needed . . . yes, Miss Joy, I was right about them too . . . they were the fellows I saw one day with Eb, but he had to pretend to me afterwards they were just tourists till they could be sure they were on the right track. They say there's some connection between them and the folks who were running Serene Shores . . . Eb figures maybe that artist fellow was the one who made the plates for them, and the packages at the depot were meant for him . . . guess they'll be after him right now if they haven't picked him up already."

* * *

Calling to Tess to keep an eye on Peter, for I refused to let him go back to his fortress, I raced along the path to Serene Shores. As I flew along the ground I was dovetailing all sorts of incidents into each other . . . Peter, excited as we hastened towards his haunted house, forgot what he'd promised Dick and told me that he had seen Dick with Jigger, and heard Jigger demanding money from him. Dick had surprised the youngster and threatened him, then compromised with a big box of candy.

Oh, things were beginning to grow plainer to me with every step I took . . . but in spite of everything I felt the least I could do was warn Roger.

The place looked deserted . . . I pounded furiously on the door; at last it was opened . . . Roger stood before me. "Get out of here," I cried, "quick before the police and Secret Service men get here . . . they'll be along any minute . . . come . . . I'll show you a short cut through the woods." I put my hand on his arm.

Roger smiled. "No fear of that," he said, as he drew me into the hall.

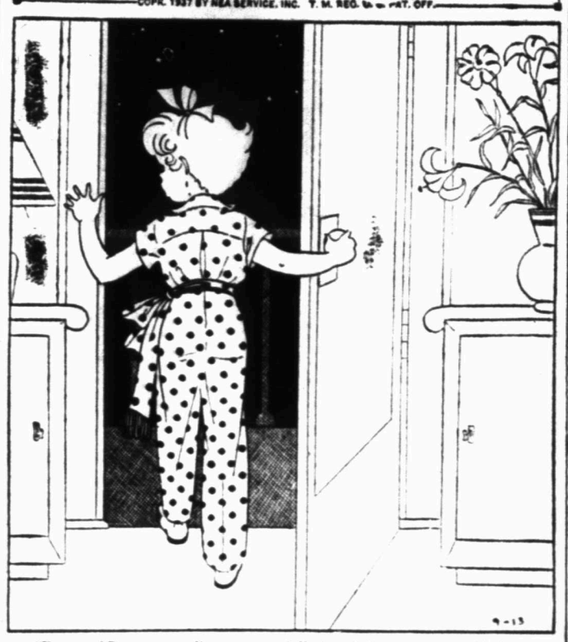

I couldn't understand at first what he was trying to tell me . . . then the light dawned . . . oh, I should have known that there was never anything between him and Angela . . . nor had he ever had anything to do with Rocco's shady deals . . . it was just a coincidence that he came to that resort. He wanted to get away from New York to think things out . . . he never knew till Angela arrived that Rocco, hiding behind one of his henchmen, was the real owner of the resort.

Wednesday: I'm going to quit keeping a diary . . . too many wonderful things are happening . . . all misunderstanding have been cleared away between Roger and me . . . I'm wearing his ring again . . . we'll have a fall wedding. Peter's thrilled at the thought of going to boarding school . . . "I always told you, Sis, Roger's a grand guy!" Such language . . still he means all right . . . that's exactly how I feel about the man I love!

THE NEW BROWNFIELD POSTOFFICE

Brownfield is to get a federal building within the near future, if reports from Washington by way of Congressman George Mahon's office and the office of Senator Tom Connally may be taken as correct. One report might be questioned, but with both the senator and the congressman agreeing, hopes are bright for early construction.

The Terry county capital is to be congratulated on its dream coming true. If one may believe even a portion of the reports of oil scouts and others, that town is going to need the building, pronto. Brownfield is growing rapidly and substantially and a federal building will add greatly to its prestige.

Construction will keep many of its local artisans busy and will afford work for others. The postoffice, along with other buildings going up will give plenty of work for residents there and from other towns.

Not to be forgotten is the fact that Brownfield has a hustling, bustling young postmaster, James Harley Dallas, a Tech boy by the way, who from the first day he took office, has put honest-to-goodness business service into the Brownfield office.

The Journal hopes soon to see reports where other South Plains communities are to get new postoffices. Littlefield, especially, is working hard to that end and we hope to see her efforts, too, crowned with success.

A Thought . .

Hollywood Chit-Chat

BY PAUL HARRISON
Journal Hollywood Correspondent

HOLLYWOOD, Sept. 13 — There are two annual occasions on which the employes of any great movie studio, from the greenest prop boy to the vice president-in-charge-of-production, are supposed to be all one big, happy family. One is Christmas Eve; the other is the studio picnic.

There is a pleasant idea behind the institution of the studio picnic: Millionaire executives play baseball with mechanics from the transportation department.

Prodigy Bartholomew gratefully shares the shoe-box lunch of deviled eggs and fried chicken brought by Tim Milliken, who is a studio messenger boy. Mrs. James Keogh, whose son Fred is a welder in the machine shop, and Mrs. S. A. Brugh, whose boy is an actor called Robert Taylor, discover that they both lived in Beatrice, Neb., and so spend a delightfully gossipy afternoon.

A seamstress from the wardrobe department says: "Oh—ah—Miss Crawford, would you — could you —just please hold my baby for a second? I—ah—I gotta get some more pants outa this darned bag. . . ."

* * *

Stars In Eclipse

All this is a good idea because the movie players seldom have a chance to mingle with regular people without the danger of being torn to shreds. However—

At this writing I have just returned from a couple of hot, dusty hours at the M-G-M studio picnic. There were at least 10,000 picnickers — Metro employes with wives, husbands, girl friends and boy friends — and that is no press agent's estimate. Among them I did not see one star or featured player.

Not one! I stood beside a young man and his girl at a hot dog stand. She was saying: ". . . seems kind of mean, not showing up as if they couldn't be bothered. Maybe they are regular fellas, like you keep saying. But if they are — where are they? Of course, it isn't as if I never saw a star before, but . . ."

There were two big dining tents, numerous refreshment stands, a busy softball diamond, a packed swimming pool, a free merry-go-round for kids. A public address system broadcasts calls for the parents of lost children. In the clubhouse (of a rented country club) a mob of people were by way of having a time for themselves. The long bar was lined 10 deep. Upstairs a swing band blared the rhythm for several hundred dancers.

So this was Hollywood! But for the predominance of blond young women wearing pants you could have placed the scene anywhere from a New England roadhouse to a Texas county fair.

While the musicians paused for breath somebody shouted, "Here comes Gable and Crawford!" There was a headlong stampede for balcony and windows. But it was just a joke.

* * *

Really "Shattered Dreams"

Some studio executives were lamenting the dearth of screen material, speculating on the new Broadway theatrical season, and criticizing movies made from past plays.

One of them said he always thought it was strange that nobody had made a film version of "Shattered Dreams." (Call it that, anyway.) It was a fairly good show, and one which wouldn't trouble the Hays office.

After a few minutes of discussion everybody agreed that "Shattered Dreams" would make a terrific picture.

A wire was composed and sent to the New York producer of the play in 1934. The sum of $50,000 was mentioned for the screen rights.

The producer replied that $50,000 sounded like a very generous sum, but that there was one serious hitch in the proposition. Trouble was that in 1935 this same studio had bought the rights to "Shattered Dreams" for $25,000. Also it had filmed and released the picture under a different title.

Uncle Sam Is Nation's No. 1 Employer With Federal Jobholders At Peacetime High

EDITOR'S NOTE: This is the first of five articles on the rapidly growing "big business" of the federal government. These special columns are to substitute for Rodney Dutcher's column while Dutcher is on vacation.

BY WILLIS THORNTON
NEA Service Correspondent

WASHINGTON, Sept. 13.—The federal government today is by far the biggest single employer of labor in the country. The total number of civil employes in the executive branch is 850,000. The monthly payroll is $128,000,000.

That figure excludes the military and naval services (another 280,000) and the temporary employes on CCC, WPA, and similar projects (another 2,000,000). It includes only the employes of the "business organization" of the government, the regular and emergency bureaus, in and out of Washington.

How far the government ought to go into "business," that is, into the production of goods and services that might be produced under private enterprise, is one of the basic problems that divides thought in the capital today. Every country in the world is fumbling with that problem. Even a completely socialist state like Russia has made some remarkable changes of front in attacking this problem.

The purpose of this and succeeding stories is not to try to draw that fine line between government and private activities. It is simply to show some of the ways in which the government is already "in business," to such an extent as to make the federal government actually the biggest "big business" in the country today.

* * *

Near All-Time High

The rise of the federal government rolls to 850,000 is significant. The figure is rapidly nearing the all-time high set in November, 1918, when it hit 917,760. That was, of course, due to the huge staff that was carrying on the civilian end of the World war.

Today's figure is a peacetime high, and there is no sign of any decrease. It indicates, not necessarily inefficiency or "gold-brick" jobs, but primarily an increase in the functions taken over by the federal government.

We think of vast privately owned networks like American Telephone and Telegraph as "big business." So they are. Yet A. T. and T. had 262,000 employes at last report. The government's roll is almost four times as great. Such an industrial giant as General Electric employs 230,000; U. S. Steel, 222,000. The government employment list is almost six times as large as General Motors' 150,000.

* * *

Becomes Giant Industry

The government payroll is almost equal to the million employed by all the railroad systems in the country or the 1,140,000 in the whole iron and steel industry. It is almost equal to all the employes of the paper and printing industries (880,000).

Thus the "big business" that is government is not only far bigger than any individual company, but is rapidly becoming itself one of the biggest among the giant industries. It is no wonder that there are three unions now attempting to organize this vast body of employes, for the working conditions of this near-million men and women, scattered throughout the country, have a measurable effect on the working conditions of everyone.

And the government payroll climbs for the same reasons that private payrolls climb: expanding activities, shorter hours, higher pay rates. The introduction of the 40-hour week in the government service made it necessary to hire many more employes, especially in such agencies as the postoffice.

* * *

Will Be Million Soon

Of course, as business in general expands, there is need for more mail carriers, more income tax collectors, more government printed matter, more of everything. Which means more employes working for Uncle Sam, and more added to that monthly payroll.

Everyone conversant with government matters expects that the day of the permanent government establishment of a million employes, drawing down a monthly payroll of $150,000,000, is not far away.

So when you think of the relationship between government and business, it is well to remember that the government is already in business, and in it so deeply that it is itself the biggest business enterprise in the country, with the most employes and the biggest payroll.

NEXT: The biggest communications business in the country, the U. S. postoffice, a government-guaranteed monopoly on the business of carrying letters and mail.

THIS CURIOUS WORLD By William Ferguson

ALL fires, no matter how small, discharge quantities of dust into the atmosphere. Reports came from the Azores 40 days after the Chicago fire that the cinders had reached that place. Most of the so-called "dark days" occasionally reported in the United States are due to forest fires.

YESTERDAY'S STARS

By The Associated Press

Ernie Lombardi, Reds, and Bob Weiland, Cardinals—Lombardi hit homer, drove in two runs in 10-7 opener win; Weiland pitched five-hit shutout for 2-0 nightcap decision.

Tommy Bridges, Tigers—Blanked White Sox 4-0 with three hits, fanning six.

Larry French, Cubs, and Tom Padden and Jim Tobin, Pirates—French shut out Bucs 5-0 with four hits in opener; Padden hit four-for-four and Tobin pitched seven-hitter for 4-2 nightcap win.

Hal Trosky and Johnny Allen, Indians—Trosky hit homer, double, driving in three runs in 6-3 opener victory over Browns; Allen won nightcap 6-1, allowing four hits and fanning five.

Cliff Melton, Giants, and Milt Shoffner, Bees—Melton handcuffed Bees with five hits for 3-1 opener win; Shoffner stopped Giants with one hit in 1 1-3 inning relief trick to save 6-4 nightcap.

Ken Chase, Senators, and Lefty Gomez and Joe DiMaggio, Yankees—Chase fanned seven and pitched seven hitter to beat Yanks 2-1 in opener; Gomez allowed five hits, fanned eight for 2-1 nightcap win, with DiMaggio hitting homer and single.

Johnny Moore and Lefty Lamaster, Phillies, and Eddie Wilson and Luke Hamlin, Dodgers—Moore's single in tenth drove in winning run for 4-3 opener win, as Lamaster allowed eight hits and fanned nine; Wilson hit homer with bases loaded and Hamlin allowed one hit in four inning relief trick for 9-5 win.

Colonel Mills, Red Sox—Hit triple, two singles, driving in two runs in 13-6 win over Athletics.

Easier Credit

(Continued From Page One)

the reserve board's open market committee. The effect of both this operation and the release of gold from the treasury's inactive account will be to swell banks' supplies of excess reserves or lendable money.

Adequate At Present

These reserves, which form the basis for credit expansion, now total about $750,000,000. Although the reserve board was said to consider this sum presently adequate to provide an abundance of credit at low interest rates, officials cited that fall and Christmas currency and credit demands customarily reduce excess reserves by $400,000,000 to $600,000,000.

In releasing $300,000,000 of its $1,270,000,000 "sterilized" gold holdings, the treasury will issue that sum of gold certificates to federal reserve banks, which will credit the treasury with a $300,000,000 deposit.

The treasury then can draw on this deposit for day-to-day spending and the money will flow into commercial banks, increasing their lendable funds.

RECEPTION IS SCHEDULED

OLTON, Sept. 2 (Special)—Annual reception for members of the faculty for public schools here will be held at the home of Mr. and Mrs. Roy Granberry at 8 o'clock Friday afternoon with the Parent-Teachers' association as host.

Cotton Market

NEW YORK REPORT

NEW YORK, Sept. 13 (AP)—Cotton futures opened steady, 1 to 4 lower on in different Liverpool cables and under active hedge selling. Oct. 8.92; Dec. 8.89; Jan. 8.93; March 9.02; May 9.09; July 9.18.

Although the southern offerings were rather general, they were quite well taken in the early trading.

However, hedge selling persisted and Dec. sold off from 8.90 to 8.85, leaving quotations 3 to 6 points net lower shortly after the first half hour.

The New York cotton exchange service estimated August domestic cotton consumption at 620,000 bales and a trade source of 580,000, against 583,000 in July and 574,000 in August last year.

NEW ORLEANS REPORT

NEW ORLEANS, Sept. 13 (AP)—Hedge selling, slightly lower Liverpool cables than due and private reports of favorable weather in the belt brought opening declines of 5 to 8 points in the cotton market here today.

Oct. and Dec. traded below the 9-cent line and all positions sold off to new low levels for the season.

Oct. opened at 8.90, Dec. 8.93, Jan. 9.00, March 9.05, May 9.15 and July 9.25.

Some new buying orders were executed and Dec. and March rallied 1 to 2 points towards the end of the first half hour. Other positions remained at their opening figures.

X-Ray

(Continued From Page One)

said in explaining his scientific exhibit. Only within the past year has a dependable machine been perfected and applied to the diagnosis of human diseases.

It consists of an x-ray tube mounted over the ordinary treatment table and linked with a photographic film under the table. The tube and film in motion move in opposite directions, producing the focussing effect. With a patient lying or sitting on the table the machine can be adjusted to pick out the image of a slice of tissue at any depth. When the film is developed it will show that slice in greater detail than has ever before been obtainable with x-ray machines, Dr. Moore declared.

It is also possible, Kieffer added, to use the machine in the x-ray treatment of diseases. Thus a person with a tumor or cancer lying deep inside the body, those growths which have been almost impossible to treat before, may in the future receive the correct dosage of x-rays directly on the growth without mass irradiation of all the tissues above and below it.

teams of the country. This must be the next step if we are to enjoy the national pastime as it should be enjoyed in a city the size of Lubbock.

With a first class lighting system installed at the park next year, making it possible to play five or six games per week, the "take" should be sufficient to finance a fairly good ball club, or at least to help finance it. A certain element of business men, we know for certain, would be willing to share its generosity with baseball, help find "jobs" for all players as well as gridders. It is nothing short of shameful to refuse to see the civic benefits to be derived from a good baseball club.

Making the grade

GROWING children with an abundance of energy usually do make the grade . . . and with ease.

Every thoughtful mother recognizes this fact . . . mothers know too that children need help to build and maintain blood strength.

Particularly is this true with those who have suffered some illness or who look pale . . . tire easily . . . are underweight or have lost their zest for food.

S.S.S. Tonic is especially designed to build-up children's health through the red-blood-cells, thus putting them in better condition to enjoy the food they eat and to regain lost weight . . . all which make for strength and vitality.

Help your child to "make the grade" by starting him or her on a course of S.S.S. Tonic now. There is no substitute for this time-tested remedy and no ethical druggist will suggest something "just as good." © S.S.S. Co.

WIN $100,000.00 FIRST PRIZE

THIS IS A SAMPLE CARTOON

(It is used only for the purpose of explaining how you can enter and win in this contest. Read the explanation below.)

YOU SUPPLY THE REPLY FOR THE EMPTY BALLOON

HERE is what you do to win in this contest. Just study the conversation in the cartoon, and then YOU SUPPLY THE REPLY FOR THE EMPTY BALLOON.

For instance, in the SAMPLE cartoon above, Mary is being asked for advice.

Mary's reply might be:
"Old Golds. They hold their ash better, Nobody'll burn your tablecloth."

Or, Mary might say:
"Old Golds! Smokers seldom drop ashes when they smoke Old Golds."

Mary might say:
"Get Old Golds. They're always fresh. They'll please everybody."

There are so many things that Mary could reply that it seems almost needless to give any more examples. For instance, Mary might very well make any of the following three replies:

"My choice is Old Golds. They're always fresh, always Double-Mellow."

"Get Old Golds. Their double Cellophane package keeps them wonderfully fresh."

"Either buy several brands or get Old Golds. Old Golds please everybody."

There is nothing hard about this contest. Almost anybody can think of dozens of things that Mary would reply. And it's the same with all of the Official Cartoons in this contest. Just study the picture and the conversation and supply your own, original reply for the blank balloon. That's all there is to it.

Under each of the Official Cartoons you will find suggestions to help you write the missing conversation for the empty balloon.

Do not use more than 25 words for each answer

No Research! No Study! No Brain Twisters!

HERE is the contest that EVERYBODY has been waiting for! That YOU have been waiting for! No poring over dictionaries or encyclopedias! No research or study or brain twisting! This latest and greatest Old Gold friend-winning contest is a game of ideas—YOUR ideas. The ideas that flash through your mind as you glance at some amusing cartoons. All you have to do is write these ideas down in your own everyday language!

It's simple! It's easy! And it can bring you a fortune of $100,000.00 IN CASH!

HERE'S HOW YOU WIN!

The sample cartoon printed at the left will give you the idea of this contest. It will show you what to do to win.

Look at the SAMPLE cartoon at the left. Like all the official cartoons of the contest, it has one of the conversation balloons left blank. (By a balloon, we mean the oval in which conversation is customarily printed.)

You'll note that the girl at the left in the cartoon is saying, *"Say, Mary, I wonder what kind of cigarettes I should serve at my bridge party?"* Then you'll notice that the balloon for the other girl's reply is blank.

The idea of the contest is for you to supply the reply, or remark; in other words, the missing conversation for the balloon that is blank.

Anybody can think of an appropriate reply that Mary might make. If you'll read the explanation below the Sample Cartoon you'll find several different kinds of replies.

SEND IN YOUR ANSWERS EACH WEEK

Answers are to be submitted weekly in this contest. Each week for 15 weeks you send in your missing conversations for 3 cartoons. Fill in the missing conversations on the Answer Form. DO NOT SEND IN THE CARTOONS THEMSELVES.

The 3 cartoons of each week are known as a Series. Mail your answers to this First Series any time between now and midnight of this coming Saturday night.

Just remember, submit your answers WEEKLY in this contest, sending in the Answer Form each week throughout the contest. This procedure is the same as in Old Gold's previous contest.

No tricks! No catches! NEATNESS DOES NOT COUNT IN THIS CONTEST! Before you enter this contest, read the rules and find out exactly what you are to do. Then, when you clearly understand the rules, submit your answers in accordance with them.
