Council Workshop Set On City Hall

By Pat Blair

Rockport city council members will discuss plans for a proposed new City Hall in a workshop at 3 p.m. today, March 12.

And a proposed ordinance to ban carrying of loaded weapons inside Rockport city limits itself came under heavy fire from persons attending the council session Monday, March 10.

Consideration of the proposed new city hall and community building were on Monday night's agenda for discussion rather than action.

The item as stated on the agenda was to discuss "loan application for a new city hall

Fulton Candidates Draw For Order Of Names

Candidates for city council met in the Fulton City Hall Monday night, March 11, and drew for their places on the ballot.

Six persons will be running for the five council seats. All the incumbents are seeking office, as is Antoinette Lamonte, a retired social worker who spent 25 years with the Texas Department of Human Resources.

The election, to be held April 5, will have the names in this order on the ballot: Dominga Benavidez, Lucia "Pat" Loflin, Ray H. Patterson, James F. Metzger, Antoinette J. Lamonte and Katherine McLester.

Absentee voting will begin on March 17; the last day to cast an absentee ballot will be April 1. This voting will take place at the Harbor Light Cottages office with Billie Dodd in charge. The office will be

Shrimp Landings Up For Rockport Area

Shrimp landings during January, 1980, for the Rockport-Fulton-Aransas Pass area were up from the landings reported in January, 1979 — a trend shared by Texas in general.

Area shrimpers brought in 491,000 pounds of shrimp during the first month of 1980, a few thousand pounds more than the 488,100 landed during the same period a year ago.

This area led the state in shrimp landings for the first month, even ahead of the Brownsville-Port Isabel area — where the 456,900 pounds of shrimp was a sizeable decrease from the 553,800 pounds brought in during January, last year.

The Port Mansfield area also reported a decrease from last year's catches. January, 1979, brought in 13,400 pounds of shrimp. No shrimp were landed in Port Mansfield this year.

Other areas of the state reported more shrimp landed in January, 1980, than in January of last year. In Port Arthur-Sabine, 155,600 pounds were brought in this year, a whopping increase over last year's 30,800 pounds.

The Galveston Bay ports landed 131,000 pounds this year, and Freeport landed 259,000 pounds. The Matagorda-San Antonio-Lavaca Bay ports brought in 49,000 pounds.

Total shrimp landed were 1.5 million, valued at $6 million for the month, a 16 per cent increase over January, 1979, landings.

The National Marine Fisheries Service that maintains reports and records reported that, overall, trawlers working brown and white shrimp made poor catches despite the increase in landings over

Rockport Candidates Draw For Positions On Ballot

Candidates for Rockport's April 5 city council election drew for the positions in which their names will appear on election ballots Friday morning, March 7, at Rockport City Hall.

Walter S. Falk, Jr., running unopposed for re-election as Rockport's mayor, did not have to be present at the drawing.

In the election for Ward 1, the name of incumbent E.D. (Dan) Ward, Jr., will appear on the ballot first, followed by the name of his opponent, Peter W. Lazidis.

In the Ward 2 alderman election, the name of Jerry Martin Shaw, also the incumbent, will appear first, followed by opponent Henry Bent.

In the absence of her husband, Mrs. Ward drew for his ballot position shortly after 10 a.m. Friday.

Absentee balloting in the city election will begin March 17 and continue through April 1. Ballots may be cast by mail or in person between 8 a.m. and 5 p.m. at City Hall.

Polls will open at 7 a.m. April 5 for the regular city election and will remain open until 7 p.m.

Leonard, Beck Seek Re-election

Cam Leonard and Richard Beck have filed for re-election to their seats on the Aransas County Conservation and Reclamation District board of directors.

The election is set for April 5 in the north lobby of the Aransas County Courthouse. Polls will open at 7 a.m. and remain open until 7 p.m.

Leonard and Beck are unopposed in their bids for re-election to six-year terms on the county water board. Deadline for filing was Friday, March 7.

Absentee voting will begin on March 17 and continue through April 1 in the County Clerk's office, Aransas County Courthouse.

Absentee balloting may be either by mail or in person at the clerk's office which will be open from 8 a.m. until noon and from 1 p.m. until 5 p.m. Mondays through Fridays.

Grass Fires Very Real Threat This Time Of Year

By Eddie Bradley

"With March winds and a lot of dry grass, there is great potential for brush fires."

With these words, Deputy Fire Marshal L.D. Crawford pointed out the very real danger our area faces at this time of year. The various county departments have already battled several grass fires during the past month and they worry that the situation could get worse before getting better.

"The main thing we can do," Crawford says, "is ask people to be careful with their burning. There should be no burning in the city limits."

Anyone outside the city who wishes to burn brush should contact the Sheriff's Office. Fire officials will then get back with the people and tell them what they can and cannot do and also suggest ways to go about it safely.

Mr. Crawford said also that the public should be aware that if they burn anything, even on their own property, and the fire gets away and destroys someone else's property, they are still legally responsible. Permission to burn doesn't remove responsibility.

If you, for whatever reason, deliberately start a grass fire and are caught, misdemeanor charges can be filed on you. But if the fire gets out of hand and does extensive damage or causes loss of life, you could face very serious felony charges, Crawford said.

He also offered encouragement to those who might be unsure whether or not to call the fire department. "Don't be afraid to call," he says, "we would rather turn around and go back rather than have serious damage occur." He stressed that you definitely should call the fire department even if you only suspect a fire.

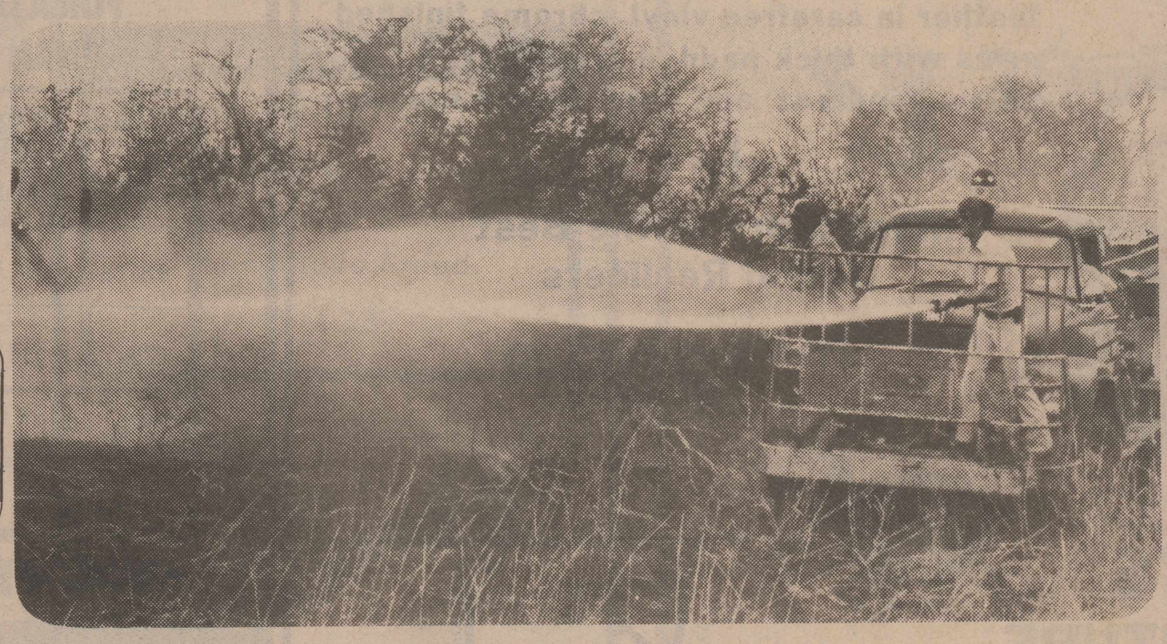

This brings up another problem, however, and that is deliberate false alarms. Last Friday night many of the firemen were at a social function and someone turned in a false alarm, apparently as a joke.

But with the heavy fog that had set in, it wasn't a funny situation at all. How would the jokester have felt if a volunteer fireman had been hurt or killed while responding under emergency conditions in the fog?

"False alarms are more than just a prank," said Crawford, "they are very, very dangerous."

Barnes Opens Headquarters

Judge Bob Barnes, candidate for U.S. Congress, will open his campaign headquarters with an open house from 5 p.m. until 7 p.m. at 807 North Shoreline, Corpus Christi.

ANOTHER GRASS FIRE

Tom McNutt, left, and L.D. Crawford spray a grass fire that broke out west of Pine Street near Oak Terrace last Friday, March 7, at about 4 p.m. Ricky McLester drove the truck as the fire crew quickly responded and did their job, before the blaze spread very far.

Area Educators Endorse Bill Patman For Congress

State senator Bill Patman of Ganado, a candidate for Congress in the May 3 Democratic primary, won the endorsement March 8 of leaders representing teacher groups throughout the 14th Congressional District.

The endorsement, requiring a two-thirds vote, came after the group interviewed six of the seven candidates (four Democrats, three Republicans) for the Congressional post now held by Joe Wyatt, Jr., of Bloomington. Wyatt is not seeking re-election.

B.J. Howard of Flour Bluff in Nueces County chaired the meeting, as the area teachers' representative on the Board of Trustees of the Texas State Teachers' Association.

In announcing the group's endorsement of Patman, Howard said, "We considered, first and foremost, Patman's voting record in the Texas Senate.

"He has consistently supported education during 19 years of service. In addition, we took into account Patman's electability, especially the tremendous support he enjoys in the northern part of the Congressional District.

"Bill Patman has been a good friend to good education, and we look forward to working for his election," Howard said.

Failure To Pay Tax Can Draw Penalties

AUSTIN — Articles on illegal tax protesters have appeared recently in newspapers in different parts of the country.

Proponents of illegal tax protest have been going around the country making speeches and conducting seminars telling taxpayers how to evade paying taxes.

To clarify some of the misconceptions these illegal tax protesters present as fact, the Internal Revenue Service has prepared the following questions and answers:

Q. I was at a meeting recently, and the speaker told us IRS laws violate my rights against self-incrimination under the Fifth Amendment of the Constitution, and so I don't have to pay or file income tax. Is that true?

A. No. Federal tax laws are in harmony with the Constitution. As early as 1927, and in many cases since then, the Courts have consistently ruled that no one may refuse to file a Federal income tax return because of Fifth Amendment rights against self-incrimination.

Q. What can happen to a person who refuses to file a Federal tax return?

A. If a person is required to file a Federal tax return, but knowingly and willingly refuses to do so, that person, if convicted, can be fined up to $10,000, be imprisoned up to one year, or both.

Q. Are there any other penalties for failure to file a Federal tax return?

A. In addition to criminal penalties for willful failure to file a tax return or pay income taxes, a taxpayer may be subject to penalties of up to 25 percent of the underpayment for failure to file or for filing after the due date, or a penalty of 50 percent of the underpayment where civil fraud is involved.

Q. What can the IRS do to collect taxes a person refuses to pay?

A. Congress has given the IRS the legal authority to enforce collection. If no mutually agreeable payment plan between the IRS and the taxpayer can be achieved, enforcement action may include attaching salaries or wages and the seizure of property.

Government To Issue Diet Guidelines

Is America finally on the way to an effective nutrition policy? The Government has now taken the first step down that road by issuing landmark guidelines on nutrition and health.

These guidelines closely follow the recommendations made by the Senate Select Committee on Human Nutrition which cogently pointed out the relationship of the killer diseases to poor nutrition.

Issued jointly by the Department of Agriculture and Department of Health, Education and Welfare, the guidelines have been hailed by Jean Stevens, Area Director of Weight Watchers in Corpus Christi, who termed the recommendations "a major step forward in efforts to enlighten the American public as to what constitutes a proper diet.

"We are told," said Jean Stevens, "that these guidelines are only the first step of a national campaign to create a nutrition policy that could eventually reshape the way Americans eat. We heartily applaud the recommendations that Americans should avoid too much fat, cholesterol, sugar, salt and alcohol.

"Naturally, the suggestion for the maintenance of ideal weight falls right into step with what Weight Watchers has been advocating for almost 17 years. The guidelines advocacy of gradual weight loss at the rate of one to two pounds per week should be carefully noted by people with a weight problem."

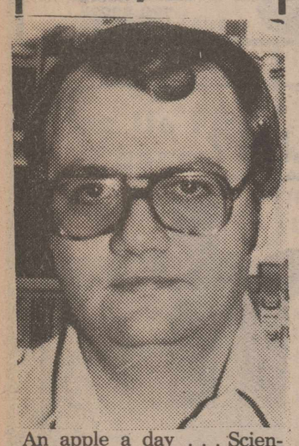

It has been pointed out in recent years that proper nutrition during weight reduction represents only one part of a comprehensive program that should also address some altering of the individual's lifestyle. Behavior modification that will teach Americans how to eat properly and a program of moderate exercise are considered vital to success.

The three elements are widely acknowledged to be the tools that will help people reach their ideal weight and to stay there.

In its freshly published pamphlet, "Nutrition and Your Health," issued by the departments of HEW and Agriculture, along with proper diet, behavior modification and an exercise program of walking and stairclimbing are briefly noted.

"The Government," Jean Stevens said, "can truly effect a change in America's eating patterns by educating the public to the availability of existing programs, conducted over many years in the private sector, that stress behavior modification techniques and exercise, along with a sensible diet. "Our experience has demonstrated one point: changing lifelong eating habits can be a difficult task, but not an insurmountable one," Jean Stevens said. "Therefore, the Government, now that it has published data about good nutrition, should urge the public to take advantage of proven behavior modification techniques and planned exercise programs that provide the best opportunity for the greatest possible success," Jean Stevens added.

Pet Talks

By Dr. Hap Lutz

DOC, SHOULD I GET A CAT?

That's a question I have often been asked.

Some people are born in cat-loving families, and some have cats thrust upon them. If you have not had the privilege of owning a cat, it won't take long to appreciate the admirable qualities of the species.

Cats require very little care, but they do require the minimum. If you are not prepared to give the cat a small part of your time and effort, you'd do better to get a stuffed doll or some other inanimate object to share your home with you.

If you have a baby, don't hesitate to get a cat. You'll make a baby and a cat happy.

"Should I get a male or female?" is another question often asked. There is no substantial difference between male and female in temperament or any other important quality. Both should be neutered before they're a year old unless you want to breed them.

The chances are you'll want to keep the cat in your home, and usually an adult male simply cannot be kept in the house unless it is castrated. The odor is not to be endured.

A female, on the other hand, will prove difficult only when she is in heat, and this can be corrected by an operation.

Many people have trouble distinguishing between a male and female cat. The visible "plumbing" of a cat is not as readily identifiable as it is on a dog. You must lift the cat's tail to find out the sex. The male kitten's undeveloped sex organs look like a colon. The female's look like an inverted exclamation mark.

"Should I get a kitten or grown cat?" This question, of course, will not concern you if you've adopted -- or been adopted by -- a stray.

Generally you'll be better off with a kitten. A kitten is at a more malleable stage of life. It will grow up with the habits you let it acquire. It will adjust to your way of life.

Regardless of whether you choose a kitten or an adult cat, I'm sure your choice will be the right one for you.

If you have any questions concerning the health or care of your pet, send them to Dr. Lutz in care of the Rockport Pilot, 1002 Wharf Street, Rockport, Texas 78382. He will answer your questions in his "Pet Talks" column in the Pilot Weekender.

The Heat Pump:
the most efficient system for heating and cooling.

HOW THE HEAT PUMP WORKS
In winter . . . the heat that is in the air is brought inside
In summer . . . the heat that is in the house is taken outside

If you are thinking about a new home or a new heating/cooling system in your present home, you need to know that you can save money on energy costs with an electric heat pump.

A heat pump makes use of the heat that is always present in air even when the weather is cold and cloudy. During the winter it removes heat from the outside air and pumps it into your house. In the summer it reverses the process and becomes an air conditioner, moving heat from the inside to the outside. You get the desired temperature indoors throughout the year.

Research shows that in the South Texas area served by Central Power and Light Company, the heat pump delivers about 2½ units of heat for every unit of electrical energy required to run it.

Be sure to consider the heat pump if you are in the market for a new heating/air conditioning system. It's an important device for using energy efficiently and economically.

COUNCIL

(Continued from page one)

and community building through Coastal Energy Impact Program."

City Secretary Herman Johnson told council members that the council, in order to apply for such a loan, must already have plans made and a site selected for the proposed building.

The State of Texas, through which application would be made for the loan, hasn't opened the application filing period yet, Johnson said.

He added that filing will open in about a month and a half, and to be ready by that time, "we (the city) have to move."

Councilman Jerry Shaw observed, "We have three sets of plans. It's time for the council to hold a workshop and look at those plans."

Mayor Walter Falk brought up the possibility — discussed in other council meetings but not acted upon — of leasing the Wee Putt Golf site land from the Navigation District as a city hall location.

Falk pointed out that no action could be taken on this without a letter of intent to the Navigation District and a public hearing. He later observed, "It's imperative that we have community support if we want to put it (the new city hall) on Navigation District property."

This prompted a statement from Gary Deason that "As long as me, Pat Mullins and Vick Dullye are alive, you'll never put City Hall on Navigation District property — it isn't going on Navigation District property without the biggest fight there's ever been."

Asked by Falk why he took this position, Deason said the city has land in the city that was purchased for a city hall.

Later Season clarified his remark, saying, "I'm not opposed to a new city hall. I'm just opposed to putting it on Navigation District Property."

Dr. Shaw made the suggestion to hold the workshop on the plans for the new building. He originally suggested 2 p.m. but this was changed to 3 p.m. at the request of Councilman Burt Mills and the council agreed on the later time.

Earlier, an ordinance that would prohibit carrying loaded rifles or shotguns inside Rockport city limits, or discharging such weapons, was tabled for the second time.

The ordinance would make it unlawful to carry a loaded rifle or shotgun on the street or in a vehicle.

The ordinance also excludes carrying or discharging of loaded "water pistols" or air guns, defined in the ordinance as being a weapon that uses a compressed spring, air "or fluid discharge" to fire a pellet.

City Attorney C. Allen Lee pointed out that the ordinance does not prohibit the toy water pistol carried by children but refers to a weapon that uses water — or some other liquid — to fire a pellet.

Deason, speaking as a "life member of the National Rifle Association," told the council that this proposed ordinance is "a gross infringement of my rights" under the State and National constitutions.

He told the council he was "philosophically opposed to making 'super-people' of police officers" — who are exempted from this ordinance, and added he has gone after prowlers with a loaded shotgun.

"I would like it so my neighbors could help me," he said. "As this ordinance is wirtten, they would all be subject to fine and arrest."

Lee said that "self-defense is always an exception" to the law.

He added the proposed law is "primarily designed" to prevent people carrying loaded shotguns or rifles onto the premises of a bar of club.

Police Chief James Craigmile told the council the ordinance "is not unusual. It has been adopted by most of the major cities in Texas. I just feel like we don't need loaded weapons in the city."

"We are not disarming the people," Falk said at one point. "We are taking the bullet out of the chamber. There are a lot of characters around town with weapons, and there are a lot of these characters I would like to see without loaded weapons."

At one point, he asked Deason, "What do you have to have a loaded weapon for?"

"What if I have to take money to the bank?" Deason asked in reply.

Council member Charlie Garrett at one point observed that "years ago, before they (weapons) got automatic, you'd see a fellow walking down the street with a shotgun — he had to have it broke where you could see no shells were in it."

Following discussion, the council referred to the ordinance back to Lee for additional clarification.

In further school board business, the board announced the Competitive Food Requirements set by the Government. Effective July 1, 1980, the following items may not be sold after the noon lunch break: Carbonated drinks, gum, flavored ice, (such as snow cones), certain hard candies, jelly and marshmallow candies, and candy coated popcorn.

The students will be able to have: Ice cream and milk based products, certain drinks, potato chips, chocolate candy with nuts, peanut butter and milk base fillings.

Superintendent Joe Randow announced that Public School week was a huge success.

"We were very pleased with the response." he said. "Last year we had 846 visitors to the schools, and this year we had 1,316. And that's not counting the Open House."

A breakdown of last year and this year's visitors are:

At the High School, last year 18 visitors attended the school, this year 106 visited.

The Junior High had 94 visitors last year, and 204 this year.

103 visited Fulton Elementary last year, and 108 this year.

Rockport Elementary had 406 last year, and 528 this year, and Live Oak Elementary had 225 last year, and 370 this year.

In past years, the Drivers Education class has been equipped with five cars, and this year they have only been able to obtain three.

Also in previous years, the cars have been used without charge to the school, but there is a charge of $1.50 each day, per car this year.

Drivers Education will begin the Monday after school is out, and the cars will be driven drom 7 a.m. to 7 p.m.

Two of the cars are from Bradford Pontiac in Aransas Pass, and the other one from George Clark Chevrolet in Aransas Pass.

last year.

The Service says the poor shrimp crop remaining from the 1979 season will not sustain many vessels through the late winter-early summer period of 1980.

The relatively mild winter has allowed a "minimal population" of brown and white shrimp to enter the offshore fishery through the winter, the Service reports, but this small group only fortifies an existing population. It is not the basis for one.

Two new large vessels entered he fishery in January, 1980. One was lost at sea.

Lady Pirates Finish High

The Lady Pirates did well at the Flour Bluff meet this past weekend. There were 16 4-A and 3-A schools there, including all Corpus Christi schools and all but one of the schools from our district; the local girls took sixth place overall.

Darlene Dilworth was second in the triple jump (35 feet, eight inches) and Belinda Cross was sixth. Belinda was second in the 880-yard dash (2:29.1 minutes).

Dilworth was busy most of the day, as she finished fourth in the long jump (16 feet, two inches) and ran in the 440-yard and mile relays.

Danielle Adams placed sixth in the long jump and ran on the sixth-place 440-yard relay team.

Julie Huff was third in the shot put (33 feet, 11 inches) and was also on the 440 relay team.

Melissa Pruitt finished sixth in the discus (97 feet); Alma Dickerson joined Adams, Huff and Dilworth on the 440-yard relay team.

In addition to Dilworth on the fifth place mile relay team were Lee Elsey, Tammy Walker and Cross.

The JV was paced by Lory Broadhurst, who won the mile run (6:03.51 minutes).

Rene Wagner took second in the discus (89 feet, seven inches); she also ran on the 880-yard relay team. Other members of this team, which finished sixth, were Kim Foitik, Patti Bechtol and Pam Willett.

Pirate Errors Lead To Loss

By Bob Crawford

Rockport - Fulton lost a heart-breaker in the opening round of the Flour Bluff Baseball Tournament by a 4-3 score to Tuloso-Midway. A throwing error opened the way for an unearned run in the seventh that threw the game into extra innings, and then a walk with the bases loaded in the tenth gave Tuloso the game.

Chris Butler pitched a masterpiece until the last half of the tenth inning. Butler was the victim of some hard luck in the seventh. The Pirates had taken a 1-0 lead in the third after Eric Commander led off the Pirate half of the inning with a walk, and then stole second base.

Butler aided his own cause with a double to left field, scoring Commander. The Pirates failed to get another run in, but they did lead 1-0.

Butler pitched shutout ball until the last of the seventh. With two men out in the Tuloso half of the inning, a dropped third strike allowed the Warriors life and a Pirate throwing error let in the tying run from second base. Tuloso had scored a run without the benefit of a base hit.

In the tenth, the Pirates jumped ahead by two runs on singles by Jim Eaton and Wayne Childers, making the score 3-1.

Things fell apart in the bottom of the tenth when Tuloso put a couple of hits together with three walks to score three runs and win the game.

In Friday's action, the Pirates were dealt another tough break as Taft scored four unearned runs in the first inning, and added another in the second to take a 5-0 decision over the Pirates.

Mark McDonald was the victim of the poor support. The Pirates collected only three hits. The Pirates fall to a record of 0-4 with the loss.

The Pirate JV currently holds a record of 1-2, and could easily be 2-1. "We should have won against Taft," said Coach Sam Aldrich. "We out hit them; out pitched them; but we didn't out-score them." Rockport lost a 6-5 game Friday to Taft in extra innings.

The JV Pirates opened the season with an 8-0 loss to Refugio in Refugio. Mac Schmidt collected the only hit for the Pirates in that game.

When the Bobcats came to Rockport, the tide turned, and the Pirates gave the Cats a 5-3 whipping. Tim Redden picked up the win in relief of Adam Harden.

Harden was the big stick for the Pirates with two hits and a trio of runs driven in. Fred Mullins also added two hits and a run driven in to the attack.

Against Taft, Harden had three hits in three tries. Rudy Zavala and Robert Flores picked up a pair of hits each. In that game, the Pirates pitchers only allowed one earned run of the six Taft scored.

BOOTH GETS THE STRING

Peter Booth of the Pirate JV won both the 800 and 1600 meter events in the Toast of the Coast Track Meet. He is shown here breaking the string at the finish line.

Junior High Girls Place In Sinton

The junior high girls took part in the Sinton Meet this past weekend and represented themselves well.

In the eighth grade, Debbie Pina finished second in the discus.

The mile relay team of Lee Anna Cassel, Mona Cowen, Elsa Ramirez and Lyticha Zepeda finished third.

The 880-relay team of Cassel, Gina Stephens, Ramirez and Zepeda ended up sixth.

In seventh-grade action, Cindy Barrera, Sylvia Ayala and Missy Guy finished second, third and fourth in the shot put.

Missy Guy was also fifth in the discus. Other fifth finishers were the 440-yard relay team of Ayala, Barrera, Susan Kiker and Loretta Kelly. This same crew ran the 880-yard dash and finished fifth.

Boys Fourth In Toast Of Coast

The Varsity boys didn't get any first place finishes in their Toast of the Coast Track Meet this past weekend, but they used several lower places to pile up points for an overall finish of fourth out of the ten schools involved.

Bubba Scott took second in both the shot put (52 feet, three inches) and the discus (145 feet, three inches).

David Corpus was second in the 800-meter run (2:01.28 minutes).

Kroy DeForest in the shot put (49 feet, 3/4 inch) and Raul Castro in the 1600 meter run (4:37.44 minutes) both took third places.

The 400-meter relay team of Mike Simmons, DeForest, David Kelly and Ernest Gonzales finished fifth, as did Esequiel Hernandez in the 800-meter run.

Several Pirates finished sixth: Mike Contreras in the 800-meter run, Kelly in the 200-meter dash, Hernandez in the 1600 meter run and Mike Arthur in the discus.

Peter Booth led the JV by finishing first in both the 800-meter run (2:05.94 minutes) and the 1600 meter run (4:46.11).

Richard Blair, Booth, Eddie Naro and Robert Garcia took sixth in the 1600-meter relay.

LOREN BORN

Film star Sophia Loren was born on Sept. 20, 1934.

Tennis Team Second At G-P

The Pirate tennis team went to Gregory-Portland over the weekend and brought home second-place honors out of 14 area 4-A, 3-A and 2-A schools.

Tony Aleman won first place in Senior Division boys' singles. Donny Estes played well also and made it to the semifinals. Had he won that match, it would have been an all-Pirate championship.

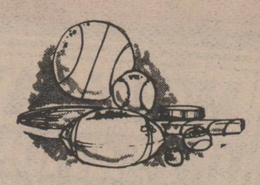

Meredith Montague took second in the Senior Division girls' singles.

In the Junior Division, Holly Garrison made the semifinals in girls' singles.

The next tournament for the team is at Tuloso-Midway the last weekend in March.

The district tourney is also in Tuloso-Midway on April 9-10.

Bardwell and Marshall Reel 'Em In

Thursday, March 6, was a big day for some area fishermen—and Bill Bardwell, Ross Marshall and Mr. Bardwell's grandson, Denzel Roy Bardwell, have the fish stories to prove it!

Around 2 p.m. on Thursday, the men were fishing with live perch for bait, around five or six miles down the Guadalupe River off Highway 35, when the fish started biting.

Mr. Bardwell caught a 50 pound blue catfish, an eight pound yellow catfish, and a two and one-half pound blue catfish. It took both Mr. Bardwell and Mr. Marshall, who were fishing in one boat, to land the 50 pounder.

Meanwhile, in another boat, Denzel Bardwell caught a yellow catfish, weighing in at 25 pounds.

The men were using 80 pound test filament line.

Bill, Ross and Denzel don't have to worry about the ones that got away; they're just happy with the ones that didn't!

Buc Boys Compete At Sinton

Tommy Barnard also got a second place in the shot put.

Fifth-place finishers included Robert Dominguez in the mile run; the mile relay team of Raymond Romero, Tom Weaver, Steve Arkell and Jeffrey Dickerson and the 440-yard relay team of Romero, Charles Solis, Weaver and Arkell.

For the younger boys, Tim Arthur took first place in the shot put and was sixth in discus. Lee Lytle was fourth in the same competition.

The 440-yard relay team of Arthur, Tai Nguyen, Bill Mott and Trinille Walls finished third.

Eddie Benavidez was fourth in the 440-yard dash and T. Walls was fifth in the 100-yard dash.

There were 14 teams in the older division and 11 in the younger category.

The Bucs will be hosts for their own meet on Saturday, March 29. Competing teams will be Tuloso-Midway, Sinton, Flour Bluff, Incarnate Word Academy, Calallen and Rockport-Fulton.

The Junior High Bucs competed in Sinton last Saturday; the eighth graders finished in sixth place and the seventh graders took a fifth.

In the older division, Eddie Bechtol finished second in the 70-yard high hurdles. He qualified for the finals in two other races, but was unable to compete due to a twisted ankle.

Little-Known Tea Facts

Tea outsold coffee in the U.S. throughout most of the 19th century.

Few people realize that the plant family of regular teas contain about 200 species or that there is a large variety of herb teas.

The three basic kinds of regular tea we buy today—black, green and oolong—do not correspond to botanical varieties of the tea plant but are "created" by processing methods used on tea leaves—leaves usually picked from the tips of the branch.

These leaves contain a number of enzymes that cause them to ferment when they are crushed and exposed to air. The amount of fermentation and exposure to the air that is allowed then determines the kind of tea that's produced.

Kinds of herb teas, on the other hand, depend on the plants, flowers, aromatics and spices used to make them. Sweet Orange Spice, for instance, a blend from Magic Mountain Herb Tea Co., is made from wood betony, an herb; sweet orange peel, an aromatic; dandelion, an herb; and clove, a spice.

Whatever the blend, herb teas offer the triple advantages of being caffeine free and are relatively inexpensive, which in addition to the fact that they offer an alternative to coffee and the regular brands of tea, partially accounts for their growing popularity.

Pancakes Taste Different At Night

SAUSAGE-IN-A-BLANKET

1 cup Log Cabin buttermilk pancake and waffle mix
1 egg, slightly beaten
1 cup milk
1 tablespoon liquid shortening
1 cup Post raisin bran, crushed
12 cooked sausage links
Cranberry-Pineapple Syrup

Prepare pancake mix with egg, milk and shortening as directed on package, adding cereal to batter after beating. Bake as directed. Roll warm pancakes around sausages and serve at once or keep warm. Serve with Cranberry-Pineapple Syrup. Makes 12 pancakes or 6 servings.

Cranberry-Pineapple Syrup. Combine 1 cup Log Cabin syrup and 1/4 cup ground cranberries in a saucepan. Bring to a boil and simmer 2 minutes. Add one 8-oz. can crushed pineapple and a dash of salt. Serve warm.

SHOULD PACKAGING BE DURABLE OR DEGRADABLE?

A popular concept in some circles is that anything which biodegrades is good for the environment and anything which does not is bad.

The flaw in the concept, aimed mostly at items littered, is that nothing which degrades actually "goes away," not in weeks or ever. Natural food products, for example, merely revert to some other form in the ecological cycle. If beverage containers, for example, were made to degrade, they would only break down into smaller pieces over a period of time. But no cans or bottles ever return to their original raw material state. The number of pieces to be picked up would simply multiply.

Beverages, of course, represent only a small percentage of all packaging. The same packaging materials are used to make containers for both short and long shelf-life products. Therefore, it would be difficult, if not impossible, to set a particular time for a given container to begin to "fall apart."

A degradable container would have limited recycling potential because of the problem of arresting the degradation process. Recycling of plastic beverage bottles, for example, is growing as the bottle's popularity increases, according to The Plastic Bottle Institute.

Packages are made durable to protect perishable goods. It doesn't make sense for the package to be perishable, too. Contamination of ground water from landfill decay is caused by perishable materials. This is a problem in many areas of the country, according to the U.S. Environmental Protection Agency. And 60 percent of U.S. drinking water today comes from ground water. Materials like glass, plastic, rocks and chunks of concrete are inert; they do not decay.

Doesn't it make more sense to package foods and beverages safely and healthfully, and to stamp out littering?

Some repairs deemed unnecessary

A recent survey was conducted by the Department of Transportation on 5,000 cars which were diagnosed before and after repairs were made.

Twenty-five percent of the car repairs made on these vehicles were determined to be unnecessary. — CNS

Lemon Honey Mustard Sauce for Carrots

2 tbsps. butter or margarine, softened
2 tsps. prepared mustard
1 tbsps. honey
½ tsp. fresh grated lemon peel
2 tsps. fresh squeezed lemon juice
1 lb. (about 6 medium) carrots, cooked, sliced or whole
Chopped parsley

In saucepan, blend butter and mustard. Stir in honey, lemon peel and juice; heat. Pour over cooked carrots. Sprinkle with parsley. Makes 6 servings.

PUBLIC NOTICE

NOTICE OF PUBLIC MEETING

The Coastal Bend Council of Governments is preparing its second year work program for the ongoing Corpus Christi Areawide Waste Treatment Management Program. This program is being conducted in conformance with the requirements of the Clean Water Act, Public Law 95-217. The first year work program began in July 1979 and studies in nonpoint sources of pollution (caused by rainfall runoff) are being made in Nueces and San Patricio Counties. The second year work program, to begin in July 1980, will address potential nonpoint source problems in Aransas County. The designated study area for the Corpus Christi Areawide Waste Treatment Management Program includes the more populated portions of Aransas, San Patricio, and Nueces Counties.

Citizen participation is encouraged in the review and formulation of the second year work program. In this respect and in conformance with requirements of Part 25, Public Participation Regulations appearing in the Federal Register on February 16, 1979, a public meeting will be conducted on April 15, 1980 at 7:00 p.m. in the City Council Chambers, Rockport, Texas, 319 North Broadway. This public meeting will be conducted to receive public comment on the second year work program which is recommended by the U.S. Environmental Protection Agency to include a study of nutrient absorption capacity of a drainage ditch in and around the City of Rockport. This project was also included in an approved Five-Year Strategy for the Corpus Christi Areawide Waste Treatment Management Program. Any comments received by the public will be taken into consideration before the final application is prepared or submission to the U.S. Environmental Protection Agency for funding consideration. Individuals or organizations desiring to comment at the hearing, either in written or verbal form, are asked to contact the Council of Governments, 2910 Leopard Street, Corpus Christi, Texas 78408, or telephone (512) 883-5743.

Copies of the proposed second year work program are available for review at the Coastal Bend Council of Governments' offices during normal business hours and at the following libraries which indicated they would be a depository for water quality management information. Bell Public Library, 8th and Austin Streets, Portland, Texas; Ingleside Public Library, Ingleside, Texas; La Retama Public Library, 505 Mesquite, Corpus Christi, Texas; Aransas Pass Public Library, 110 North Lamont, Aransas Pass, Texas; Gregory Public Library, Gregory, Texas; Odem Public Library, Odem, Texas; Sinton Public Library, 212 East Sinton, Sinton, Texas; Taft Public Library, Taft, Texas; and Aransas County Library, Aransas County Courthouse, Rockport, Texas.

Wyatt Co-Sponsors Bill To Protect Social Security

U.S. Representative Joe Wyatt has co-sponsored a bill which would prohibit the Internal Revenue Service from taxing a person's Social Security benefits.

The Congressman's move is in response to a recommendation of an Advisory Council of the Social Security Administration that 50 percent of a person's cash benefits be subject to income tax.

"This is an unprecedented recommendation by such a council," said Wyatt. "Unfortunately, there is no law now prohibiting such a move and I think to protect our elderly and those who have contributed to social security for so long, we need one."

The only obstacle to such a tax is an Internal Revenue Service ruling which the IRS can overturn itself.

"It is ridiculous to make someone pay a tax for 20, 30 or 40 years with the understanding that they will then be provided for when they retire, then turn around and once again tax them on that money to which they are entitled.

"Most of the people who would be hurt the hardest are those elderly who rely on Social Security for a major part of their small income. The fact that someone is receiving Social Security is proof that they have been a productive member of society for a long time. To now say that they have not given the government enough is just too much," said Wyatt.

The bill numbered H.R. 6012, sponsored by Congressman Don Albosta of Michigan, is currently before the Ways and Means Committee of the House.

Rockport Woman Elected To Baptist Student Council

Sherri Longino, daughter of Mr. and Mrs. Ray Longino, 906 West Terrace, Rockport, has been elected to the 21-member Texas Baptist Student Union (BSU) Council.

Miss Longino, a student of East Texas Baptist College, was elected to the post by BSU representatives from 110 colleges and universities across the state.

As a member of the Council, she will assist with state meetings sponsored by the Baptist General Convention of Texas Division of Student Work, and will act as liaison between the state BSUs and the division.

Council members also elect the state Summer Missions Committee that selects student missionaries for summer work.

The BSU is part of the Division of Student Work of the Baptist General Convention of Texas.

No Deaths Reported In Aransas County

Seven traffic accidents in Aransas County in January injured two persons, but no fatalities were reported for the month, according to a report released by the Texas Highway Patrol.

According to Charles Gunn, captain of the THP, Region III, 13 counties in the Corpus Christi District reported no fatal accidents during January.

In the remaining eight counties in the District, 10 fatal accidents claimed 11 lives. The number of deaths was a decrease from the fatalities reported in January, 1979, when 16 persons were killed.

The Texas Highway Patrol investigated a total of 324 traffic accidents during January.

Other counties in the Corpus Christi District reporting no fatal accidents during the month were Kenedy, Kleberg, Goliad, Lavaca, Calhoun, Jackson, Cameron, Willacy, Zapata, Brooks, Jim Hogg and Jim Wells.

In neighboring counties, fatal accidents claimed one life each in San Patricio, Refugio and Nueces.

Other counties in the Corpus Christi District reporting one fatality were Dewitt, Hidalgo and Duval.

In Victoria County, two fatal accidents took three lives and two fatal accidents in Starr County resulted in two deaths.

Stanick In 1-1A Race

Grace Stanick, a resident of Rockport for the past 16 years, has filed in the County Commissioners race of Precinct 1-1A.

Mrs. Stanick, who has been in Real Estate for several years in that precinct, says she knows the drainage problems, and has "traveled all the roads of Precinct 1-1A."

Born and raised in Abilene, Mrs. Stanick was formerly in the motel business for 20 years.

More Miles To The Gallon

Regular maintenance may increase mileage by up to 14 percent—that might mean 40 to 50 extra miles per tank!

If you want to slow down your fuel costs, step up your personal conservative program. These tips, suggested by the Colonial Penn Insurance Company, can help you get more miles from each gallon of gas.

Sudden movements of the gas pedal increase gasoline consumption. Anticipate situations that might require you to reduce speed so you can slow down gently. Maintaining speeds just under the speed limit helps stretch your time between fill-ups, and you'll hardly notice the increase in travel time.

Regular car maintenance enhances gas mileage. Keep your engine tuned; replace worn-out plugs regularly. Correct ignition tuning is essential—rapid idling wastes gas.

Clean or replace your oil and air filters at recommended intervals to keep the engine operating at peak efficiency. Check your tires—even slight underinflation can cost you a lot of miles from each tankful of gas.

DeForest Rites Held

Charles Robert DeForest, age 70, died Sunday, March 9 in Houston.

He was born in Rockport and was currently living in Houston. He was a member of the Baptist Church and Masonic Lodge.

Survivors include his wife, Loma DeForest of Houston; one daughter, Alene Mundine of Fulton; one son, Jackie Lynn DeForest of Alta-Loma; one step-son, John Mackey of Nederland; one brother, J.E. DeForest of Seadrift; two sisters, Genevieve McAlister of Houston and Murl Wilkinson of Baytown; one half-brother, Johnny James of Carlsbad, New Mexico; one half-sister, Briancey Brumley of Corpus Christi and seven grandchildren.

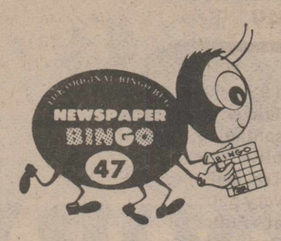

Funeral services were scheduled for Wednesday, March 12 at the Marshall Funeral Home Chapel with burial to follow in the Fulton Cemetery.

Marshall Funeral Home of Rockport handled the arrangements.

FOREIGN AID BILL

President Truman signed a bill on Apr. 3, 1948, authorizing $6,098 million in foreign aid, including $5,300 million for the European Recovery program.

FULTON ACADEMY VISITS PILOT

Ten first and second grade students from Fulton Christian Academy are shown during a visit to the Rockport Pilot to find out how their newspaper gets "put together." Shown are, front row from left, Kelli Livingston, Angela Reed, Courtney Messinger, Holly Logan and Brittney Dick; and second row, from left, David Force, Craig Holcom, Charlie DeLaRosa, Josh Greagrey and Loren Greagrey. Also shown are their teachers, Mrs. Margaret Harris and Mrs. Kathy Greagrey. The students paid their visit Friday morning, March 7. [Pilot Photo by Pat Blair]

Texas Teachers Plan Centennial Birthday

AUSTIN—The Texas State Teachers Association, now approaching its 100th anniversary, will have a "birthday party" for several thousand guests at its 1980 state convention March 20-22 in Fort Worth.

The association dates its origin from June 29, 1880, when about 40 Texas educators began a three-day meeting at the Presbyterian Church in Mexia.

That was the beginning, and this year's meeting in Fort Worth will be the 101st annual state convention.

There will be a birthday celebration and program depicting a "Century of Progress" for the association.

TSTA President Cecile Russell of Amarillo will preside at a state executive committee meeting March 20 and four sessions of the 1,500-member house of delegates, the official governing body which meets only at the annual conventions.

Registration will begin at 1:30 p.m. Thursday, March 20.

Official delegates representing more than 500 TSTA local associations throughout the state will vote on proposed resolutions, constitutional amendments, and other business before the house of delegates.

Department and section affiliates will hold separate meetings for their members in special interest groups such as reading, physical education, art, and social studies.

Critical issues discussions are scheduled on such topics as teacher stress, testing and licensure, and combating the new right.

Commerical exhibits will provide displays of school books, materials, equipment and new ideas for Texas schools and teachers.

DPS To Enforce 55 MPH Speed Limit On Highways

In 1974, the first year of the national 55 m.p.h. speed limit, we had widespread voluntary compliance with the law which resulted in a 17.5 percent reduction in traffic deaths in Texas.

Since that year compliance has decreased and speeds in Texas have increased to the point that it is estimated the final death count for 1979 in Texas will be 4,233, an all-time high.

Research has conclusively demonstrated that driving at 55 m.p.h. effects a substantial reduction (approximately 20 percent) in gasoline consumption when compared to driving at 70 m.p.h.

On February 13, Col. Jim Adams, director of the Texas Department of Public Safety, announced an all-out effort through aggressive enforcement action to reduce speeding in Texas.

Col. Adams said field commanders would have greater flexibility in determining the best techniques to apprehend violators.

Today, Captain Charles Gunn, commander of the Corpus Christi District of The Texas Highway Patrol, said an all-out aggressive enforcement program has begun on the highways of South Texas.

This program will have supervisors, who drive unmarked cars, doing more enforcement work, troopers working radar out of unmarked cars which will be concealed, task force operations at certain times and locations.

Captain Gunn said, "We think we have some very good techniques to use against the deliberate and determined law violators who seek to defeat our enforcement efforts by using radar detectors, police scanners and citizen band radios."

Captain Gunn also said all methods and techniques which will be used are legal, and "we will use any method or technique that is legal and safe to effect compliance."

Conductors live longer

It seems symphony conductors live longer than the average American male.

In a recent study, conductors were found to live an average of 73.4 years as compared to the average lifetime of 68.5 years for the American male. — CNS
