"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume 46.

Tahoka, Lynn County, Texas, Friday October 7, 1949

Number 1

Man Killed, Two Injured In Wreck Near Tahoka

An Oklahoma City man was fatally injured and Mr. and Mrs. Troy Copelin of the Dixie community were both very seriously hurt when the car driven by the Oklahoma man collided with the pick-up in which the Copelins were coming to Tahoka at about seven o'clock Wednesday evening on the highway about five miles north of Tahoka.

The Oklahoma City man, who was identified as Maury Angus West, 53, a seat-cover salesman, was brought by a Stanley Funeral Home ambulance following the collision from the scene of the accident to the Tahoka Hospital and died about ten minutes after his arrival. His chest had been crushed.

A passing motorist brought the Copelins to the Seale Clinic for treatment. Mr. Copelin, 59, was found to have suffered the fracture of a number of ribs and many bruises and lacerations, together with the loss of several teeth. Mrs. Copelin, 41, sustained severe facial and body lacerations and bruises. Both were seriously hurt but their condition does not seem to be critical.

Mr. and Mrs. Copelin, who live 8 miles north and 2 miles west of Tahoka near the old Dixie school house, were coming south on the Lubbock highway in their 1949 GMC pickup truck. Immediately in front of them and coming in the same direction was one or more heavy trucks. West was traveling north in a 1949 two door Chevrolet coach. According to the best information which Sheriff Roland Clem and Deputy Meldon Leslie could gather, West collided with the Copelin pickup immediately after meeting and passing the truck.

Following his death, West's body was kept at the Stanley Funeral Home until Thursday noon and then taken to Lubbock and shipped by train to Oklahoma City.

Jones Is Building Grain Storage

Construction on a large new grain storage building by V. F. Jones Grain & Seed company is under way near their elevation in the Santa Fe trackage on East Lockwood Street.

The new building will be of frame and iron-clad construction 34 feet wide, 70 feet long, and 36 feet high. The building will have a capacity of 80,000 bushels, bringing the company's total storage capacity to 110,000 bushels. However, completion of the structure is not expected before early November.

Mr. Jones, in conversation with The News, stated that the freight car situation is "very tight," and farmers very quickly will be faced with a serious storage problem, since the elevators in the section can store only a very small percentage of the big grain crop now being harvested.

More cars for shipping grain to concentration points have been promised, but even with this, quite a few farmers will have to store grain at home.

Joe Palmer Makes Silver City Team

Mrs. J. W. Palmer of the Draw community dropped into the News office a few days ago and stated that her son, Joe Palmer, who graduated from O'Donnell high school last year, has entered the State Teachers' College at Silver City, New Mexico, and was already "off to a swell start in football" out there.

The school in its first game was winner by a score of 37 to 19, and Joe had made two of the touchdowns—all of which will be of interest to his young friends in this county.

Mr. and Mrs. T. L. Fortenberry left for their Kerville home Tuesday after having spent a day or two here visiting and looking after their New Home property interests. They called at the News office and ordered the News to keep coming.

The little gent pictured above is Derfins Day Clem, son of Sheriff and Mrs. Roland "Slick" Clem, whose picture was featured on the front cover of the September issue of the Sheriff's Association of Texas Magazine.

1435 Bales Cotton Ginned In City

Cotton has been coming in rapidly the past week. Up to eleven o'clock Thursday morning, 1435 bales had been ginned in Tahoka as compared to 638 bales reported on the same day of last week.

With the exception of one day, the weather has been favorable for the gathering of the crop, but so far not nearly as many Mexicans have come in to engage in that work as usual under similar conditions.

Picking was held up somewhat on Tuesday by local showers which fell in this area, the precipitation in Tahoka amounting to .30 of an inch.

Seed are still selling at \$38.00 per ton.

Two Tahoka Students In Hardin-Simmons

Abilene, Oct. 5. —Two students from Tahoka are among the 1800 students enrolled this fall at Hardin-Simmons university. Persons from 32 states are enrolled in the student body. The Tahoka students are John A. Godfrey and John Lewis To'er.

Godfrey, son of Mrs. Sallie Godfrey, is a sophomore at the university.

Toler, a freshman, is the son of Mr. and Mrs. J. F. Toler. He is a member of the Cowboy Band.

Congratulations:

To Mr. and Mrs. J. R. Dunlap of Route 4, Tahoka, who are the parents of a 9 pound 2 ounce boy, born Wednesday, September 28, in the Tahoka Hospital. He has been named James Theodore.

To Mr. and Mrs. Pat Neff Hensley of Route 2, Tahoka, who are the parents of an 8 pound 2 ounce boy born on Thursday, September 29, in the Tahoka Hospital, whom they have named Kenney Ray.

To Mr. and Mrs. James (Sonny) Roberts who are the parents of a 7 pound and 11 ounce boy, who was born in the Tahoka Hospital Friday, September 30. He bears the name of Christopher James. Mrs. Roberts is the former Dorothy Applewhite.

To Mr. and Mrs. A. C. Fillingim of Route 4, New Home area, who are also the parents of a boy, born in the Tahoka Hospital Saturday, October 1. He weighed seven pounds and has been named Conley Wayne.

Mr. and Mrs. Calvin Edwards on birth of a daughter weighing 7 lbs. 6½ ounces at 11:13 Tuesday at the West Texas Hospital in Lubbock. The little lady is their second child.

Property Is Sold For Taxes Here

Sixteen pieces of property located in Tahoka and O'Donnell were sold at Sheriff's sale here Tuesday afternoon to satisfy taxes due the State, county, city and school districts.

All except in one or two instances the property consisted of vacant lots on which taxes had not been paid in many years. In just a few cases, property owners had possibly neglected to pay taxes, and it is likely that some of this will be redeemed by the owners. The sale brought the tax agencies a total of \$1,321.00.

A few weeks ago, September 6, 63 pieces of property were sold in like manner, which brought a total of \$6,953.70.

It is likely that other property will be sold in the next few months unless long delinquent taxes are cleared up.

Local Lady Is Seriously Burned

Mrs. Urban Brown, who supervises the cafeteria at the school building, was the victim of an accident Tuesday in which she suffered severe burns about the head, face, hands, and possibly other parts of the body.

The injuries resulted from an explosion which occurred when she undertook to light a gas stove. It is thought that some one had turned on the gas and unintentionally left it on before she applied the match.

While the burns were very painful, it is not believed that any permanent scars will result.

She was treated at the Tahoka Hospital.

New School Buses Put Into Service

Tahoka schools recently received three new school buses, purchased through the State Department for use in this district, and there are now eight buses serving the district. The buses are Blue Bird cabs mounted on Chevrolet chassis.

Supt. Vernon Brewer announces that the State has some new rules in regard to operation of school buses which require that no child may be transported to and from school who lives within two miles of the school; and no bus can back-track under three-fourths of a mile in order to pick up or deliver a student or students.

Cotton and cottonseed last year brought in about ½ of the South's total cash income. Lint brought in 1½ billion dollars, and cottonseed another quarter billion.

Bray Chevrolet In New Building

Bray Chevrolet Company is engaged this week in moving to its large new building across from the City Park, 1519 Lockwood Street. The business will be open for business at the new location this morning, according to A. M. Bray, the company owner.

The new building, one of the largest and most substantial in this little city, was built by Douglas Finley for the Chevrolet agency, and occupies space 90 by 120 feet between his tractor building and the Davis & Humphries store. When interior arrangements are completed by Mr. Bray, this will be one of the most commodious and attractive automobile agency buildings to be found in this area.

Mr. Finley plans to remodel the building his business occupies to conform with the new building exterior.

Bulldogs Play In Crosbyton Tonight

Tahoka Bulldogs meet the Crosbyton Chiefs in a non-conference game tonight in the Crosby county city. Crosbyton is in District 3-A, while Tahoka is in District 4-A.

Friday of next week, the Post Antelopes will come here to battle the Bulldogs in defense of their conference title won last year. They are playing O'Donnell tonight.

Crosbyton is reputed to have a strong team that would be a title contender, but Lockney upset them two weeks ago. The Chiefs are a heavy team, probably the heaviest the Bulldogs will meet this season. However, the Bulldogs have been improving on their game the past week and declare they intend to give the Chiefs a big surprise.

Friday night of last week, the Bulldogs lost the District 4A Conference opener to Slaton 26 to 12 before a large crowd on the local field.

Slaton scored three quick touchdowns in the first quarter, and Tahoka outplayed the visitors for the remaining three quarters, during which the visitors scored only one time to Tahoka's twice. In fact, the Bulldogs kept Slaton completely throttled in the second half, when they finally came to life to display better blocking, tackling, and line-play than they have at any other time this season. Halameck, Martin, and Bert Stevens looked good on defense. In fact, the whole team showed the old time Bulldog fighting spirit in the second half.

Except for Fullback Chandler and possibly one or two others, Coach Foust started his B string in the game in an effort to find a com-

(Con'd. On Back Page)

Will Wilson, Dallas District Attorney, will speak here Tuesday.

Dallas Attorney Will Speak Here

Will Wilson, the District Attorney of Dallas County, and one of Texas' most outstanding young attorneys, will speak to the Tahoka Lions Club Tuesday evening, October 11, on the need for modern criminal laws.

Wilson, who is serving his second term as District Attorney, is chairman of a steering committee of the State Bar which has as its task the revision of our penal laws. "Many of our criminal laws," Wilson says, "are still in the horse and buggy days and must be brought up to date in order to enable our law enforcement agencies to more ably cope with the modern streamlined criminal of today."

During the last World War, Wilson earned a distinguished combat record having accepted the surrender of General Yamashita, the infamous butcher of the Philippines. He is a past President of the District and County Attorneys Association of Texas.

Recently, Wilson has caused statewide comment by his relentless prosecution of racketeers and professional gamblers in Dallas County.

New Tenants For Turner Building

The Turner building situated on the West side of the public square is being cut up into offices this week and when the job is finished the offices will be occupied by Caloway Huffaker, lawyer, and H. W. Carter, cotton and insurance man.

Partitions are now being built and will be neatly finished, while the interior walls of the building and the ceiling will also be re-decorated.

It will doubtless be ready for occupancy within the next two or three weeks.

O'Donnell School Will Be Rebuilt

O'Donnell Index-Press, O'Donnell, Texas, Oct. 6.—Monday night, October 3, the School Board of the O'Donnell Consolidated School District met with representatives of construction companies, interested in making bids on the repairing of the recently fire damaged high school building. The contractors will meet again at a later date and contracts will be let for the repairing of the school building.

Estimates made at the recent meeting, of the damages, were set at \$23,000 to \$24,000. The insurance companies made a final adjustment on the fire damages to the building of \$21,371.23 and \$4,160.70 on the contents. School secretary, Tom Vandell said School officials expressed their belief that they received a very satisfactory adjustment.

Rebuilding will start almost immediately upon letting the contract and will be pushed through to a speedy conclusion, Homer Hancock, a Board member, said Monday.

V. F. W. AUXILIARY HAVE REGULAR MEETING

The Tahoka V. F. W. Auxiliary No. 3905 met in regular session Monday night, October 3. The attendance was exceedingly good. The next regular meeting night will be October 17, which will be a joint social meeting with the Veterans organization. All members are urged to be present.

Voters Approve \$300,000 Bonds For Water And Sewer

Water and Sewer bonds in the total sum of \$300,000 were authorized by a vote of virtually two to one at the election held in Tahoka last Saturday.

Two proposals were submitted, one for the authority to issue sewer bonds in the sum of \$75,000, and the other for authority to issue water bonds in the sum of \$225,000.

The vote on the sewer bonds proposal resulted in favor of the bonds as follows: For the bonds, 103; against the bonds, 53.

The vote on the water bonds was: For the bonds, 102; against, 53.

These bonds are to be retired, serially, from revenues to be derived chiefly from the sewer system but in part from the water system. No ad valorem taxes are ever to be levied and collected to pay either the principal or the interest on these bonds.

Funds derived from the sale of these bonds will be used to make improvements and extensions on both the sewer system and the water system. Much of the smaller-sized pipe is to be taken up and larger pipe laid. Pipe that is badly rusted and corroded will also be replaced with larger pipe. Wells north of the City's other wells, which have not yet been connected up with the system, will be connected, we understand, with ten-inch pipe.

It is believed that many residents of Tahoka who have never been able to get a sufficient supply of water the year round, will be able to do so as soon as the proposed improvements and extensions are completed. Likewise, many people will doubtless be able to connect up with the sewer system, who have not heretofore been able to enjoy that convenience.

Time will probably prove that Tahoka took a great step forward at the election polls last Saturday.

Three Are Fined In Liquor Cases

James "Son" Soders entered his plea of guilty in the county court one day last week to a charge of unlawfully selling intoxicating liquor. The court fixed his punishment at a fine of \$250.00 and confinement in the county jail for six months. There were five cases against Soders, who is a negro, but only one of the cases has been called for trial. The other four are being held in abeyance on the docket pending defendant's good behavior from here on out.

On Monday morning of this week a Mexican named Herreras entered his plea of guilty to a charge of having a quantity of beer in his possession for the purpose of sale. He was fined \$100.00 and costs.

Domingo Castaneda, another Mexican, pleaded guilty to a charge of aggravated assault upon a Mexican woman and was fined \$25.00 and costs Monday morning.

Y. T. Nolen Dies In Auto Wreck

Y. T. Nolen, a former resident of Tahoka, but a resident of Bakersfield, California, for the past several years, was killed in a car wreck near this city early Monday morning, according to a message received here a few hours later by his brother Fred Nolen. Fred and his wife left the same morning for Bakersfield.

They had received practically no details as to the accident.

The Nolen brothers are relatives of the late Mr. and Mrs. W. J. Crouch and their daughters, Mrs. Jodie Nevill and Mrs. Alex Riddle of Tahoka.

Lettuce—like many vegetables—loses its flavor and food value if kept too long, even in the refrigerator. Add salad dressing just before serving in order not to wilt the leaves.

DANGER STALKS THE RODEO

Number 77 has a close call as his foot catches in a stirrup when he is thrown during a recent performance of the Texas Prison Rodeo now being held every Sunday in October at Prison Stadium in Huntsville. Proceeds of each performance are deposited in the prisoner's Education and Recreation Fund.

Pythian Sisters Visit Lamesa

Pythian Sisters from Tahoka went to Lamesa Sunday afternoon to practice their Fancy Drill in the Club House in which the convention is to be held. Eighteen members went and they were met at the Club House by Katie Lou Ashley, Grand Protector of Texas, down there.

After the practice was over, a lively reception was given in the home of Mrs. Ashley for the members from Tahoka. About ten or twelve members of the Lamesa Temple were present at the reception. Among these were Marthie Floyd, formerly of Tahoka, Stella Todd, District Deputy, and the Grand Protector, Katie Lou Ashley.

On returning, every one reported a lovely time, and apparently Lynn Temple No. 45 is to be represented in a big way at the District Convention.

NOTICE OF ELECTION

Pursuant to the Election Proclamation issued by the Governor of Texas, notice is hereby given that a SPECIAL ELECTION will be held on—

TUESDAY, THE 8TH DAY OF NOVEMBER, 1949

in all Election Precincts in Lynn County, State of Texas, for the purpose of voting to determine the adoption or rejection of ten proposed Amendments to the Constitution of Texas as submitted by the 51st Legislature of Texas, Regular Session, 1949; and

For the purpose of electing 21 members to the State Board of Education as provided by Acts of the 51st Legislature, Regular Session, 1949.

Tom Garrard, County Judge, Lynn County, Texas. 1-2tc

COLLEGE EMPHASIZES FRIENDLY ATMOSPHERE

Canyon, (WTSC)—"Make the freshmen feel at home away from home," is a motto of the West Texas State College faculty. The instructors have organized a program by which they can help the new students over the rough spots of beginning their stay on the college campus.

All underclassmen are required to attend a series of six lectures delivered by faculty members on such topics as: "Boy-Girl Relationships," "How to Study," "Social Manners" and "How to Take Notes."

Following the democratic tradition at West Texas State, all freshmen students are given the best possible opportunity to get acquainted with the faculty and at the same time get the maximum benefit from the association with the faculty advisors. Each freshman student is assigned to a faculty counselor whose responsibility it is to help the student in any way possible.

Dr. A. Kirk Knott is in charge of all freshman orientation.

THE D. C. DAVISES ATTEND FUNERAL OF A NIECE

Mr. and Mrs. D. C. Davis returned Tuesday from Stephenville, where on Monday afternoon they had attended funeral services for Mrs. Raymond (Mabel) Barham, 36, a niece of Mrs. Davis.

Mrs. Barham died of cancer Sunday morning in a Big Spring hospital. Bert Dollins, son-in-law of Mr. Davis, took them down to Big Spring that morning and they went on in the funeral procession from that place to Stephenville.

Mrs. Barham's home was at No-trees, an oil field near Big Spring, where her husband had been working for the past ten years, but she had been reared, educated, and married in Stephenville, and for that reason the body was taken back there for burial.

Funeral services were conducted in the First Baptist Church there at 3:00 p. m. Monday, and six of Mrs. Barham's cousins were the pall bearers.

Mrs. Barham was the daughter of Mrs. Davis' sister. Besides other relatives, she left her husband and two sons as her survivors.

When laying hens become infected with Newcastle disease, egg production declines rapidly; egg size is markedly reduced and many are odd shaped. The shells are thin and sandy; the albumen is thin and watery in most of the freshly laid eggs and many contain loose, bubbly air cells.

The best time to cut hay to get the most of it is before it is mature and has become coarse and stemmy. For instance, sudan and johnsongrass are most nutritious if cut as soon as the first seed heads begin to form.

OLSEN and JOHNSON'S
FIREBALL FUN-FOR-ALL
every Thursday on Television

"Buick's the Buy"

It's part of every street scene—something you see every day.

Car owners in three different price classes—all happy about the same thing.

One of them drives a new Buick SPECIAL, which you see poking forth its new, bold-look forefront at the left of our picture.

Another will tell you there's nothing like the SUPER's "happy medium" of size and comfort, power and easy handling, style and standing.

And if you're looking for prestige, where is your money going to buy so much as in that handsome 18-footer, the ROADMASTER, with its 150-hp performance and really royal bearing?

But all these good folks get together on this:

There's no ride quite so soft and cushiony as the Buick ride, whatever the size and series. There's no power quite so satisfyingly lively as Buick's high-compression, high-pressure Fireball power.

Above all, there's no "buy" like a Buick—no car that gives you such a rich dollar's worth of smartness, handling, comfort and liveliness for every dollar you pay.

So why not look the whole line over? Your Buick dealer has these grand travel-mates in a baker's dozen of different body types and sizes. Start your shopping in his showroom—and you'll find that even on delivery he has exactly what you want.

BUICK alone has all these features

Silk-smooth DYNAFLOW DRIVE • FULL-VIEW VISION from enlarged glass area • SWING-EASY DOORS and easy access • "LIVING SPACE" INTERIORS with Deep-Cradle cushions • Buoyant-riding QUADRUFLUX COIL SPRINGING • Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS (Dynaflo Models) plus HI-POISED ENGINE MOUNTINGS • Low-pressure tires on SAFETY-RIDE RIMS • Double-Duty VENTIPORTS • DUREX BEARINGS, main and connecting rods • BODY BY FISHER • Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

When better automobiles are built BUICK will build them

Rankin Candidate For School Board

J. M. Rankin is a candidate for election as a member of the state board of education, having had his name submitted to the secretary of state at Austin by a petition of 136 signers consisting of farmers and business men of Crosby county.

He has been a resident of the South Plains 37 years; holds B. A. and M. A. degrees from Texas Technological college and has had 25 years of school administration.

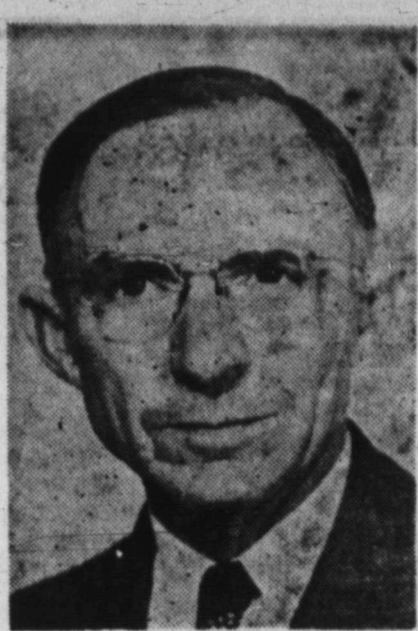

He was editor and publisher of the Slaton Slatonite three years and has been writing for newspapers, including the Ralls Banner, several years. He is now engaged in farming.

Rankin has been active in civic work; is past president of the Ralls Rotary Club, Scouter for 20 years; past commander of American Legion posts in Ralls and Crosbyton and past vice district commander of the 19th district.

He has twin sons, Jean and Joe who are Pre-med seniors in Texas Tech.

Rankin's statement follows:

"I believe that the Gilmer-Aiken Plan as embodied in Senate Bills Nos. 115, 116 and 117 represents the greatest single forward movement in the educational history of any American State. My unreserved approval of the laws is substantiated by public utterances which I made orally and in public press and ex-

J. M. RANKIN

pressly in letters to the Senate Committee members while the plan was being debated in the Legislature.

"I am pleased to hope and believe that these laws will cure many of the shocking inequities of educational opportunity which have contributed to the illiteracy and semi-literacy that now handicap so many Texans who have grown up in the past years, and I hope and believe that the wise administration of these laws will raise the Texas public system from the 'below average' rating assigned it by some educational authorities to a high rank befitting the material wealth and the riches of human values of our state.

"I have never been connected in any way with the extinct State Department of Education, but have had 25 years experience in public school administration. I have served my community, state and nation with sincerity and earnestness and if elected will assume the responsibilities of the office of a member of the State Board of Education with the same zeal to be of service."

A thorough grain bin cleaning is important to keep out the insects. Before storing any grain harvested this year, clean out and spray your grain bin to kill the insects that are already there, and keep the rest out while the grain is in storage.

Lutheran Program Reaches Millions

Lutherans in America opened their seventeenth season of international religious broadcasts Sunday afternoon over radio stations throughout the United States and Canada and in about fifty other nations, reaching, as they claim, many millions of people.

The programs are highly evangelistic and the speakers confine themselves to the proclamation of Christ as the savior of the world and to the singing of great gospel hymns.

The programs are broadcast simultaneously in many different languages, English and German no doubt being the leading nationalities listening in.

Germany is the world's leading Lutheran stronghold, and one can but feel that if Germany had adhered strictly to the type of Christianity which the Lutherans preach, neither Hitler nor other war lords could ever have arisen to power in that country and there never would have been either a World War No. I nor a World War No. II, emanating from Germany. The gospel of Christ which they are preaching so zealously now should make a great contribution to peace and good will among men.

This program is broadcast at 3:00 o'clock each Sunday afternoon over Station KFYO.

Just preceding the Lutheran program is the Baptist Hour, beginning

Boyd Tells More Of His Travels

To The Editor of the Lynn County News:

I do not think I will have much more to say about Leon and Tom, because they are both in the doghouse now. I understand, from reliable sources, that there are, now, two good women that are accompanying their husbands where ever they go.

After we left Niagara we went back to Buffalo, which is a large, typical, eastern city, where you can find almost any class of people that you desire to see. Things are so different that you have to go there to understand the way people carry on in a place like that, as their manners, customs and habits are very different from ours. The most of them live and work according to a routine into which they have been cast and do not have an opportunity to enjoy the open range. You hear a lot about high wages and easy money but they just do not have it, because it takes all they make to buy the actual necessities of life. In one case a waitress told us that she had two children to support and that she had to give her first week's salary to the employment agency for securing the position for her.

I am sure that I saw very little of Buffalo because the buildings were from two to ten stories where we went and I am sure that they are much taller in other parts of the city. The streets were smoked and dirty, the buildings appeared to be at least one hundred years old and black from soot. There were no new or clean structures. An eight-lane highway passes thru town and it is packed and jammed when the laborers are going to and from work.

It was about 1:30 a. m. and we had postponed our meal so long that we did not know whether we were eating supper or breakfast when we went to the cafe. When the waitress came around I thought I saw Leon adjusting his shoes but on the second look I noticed that he was trying to help her adjust her hose.

Wickedness runs rampant everywhere, even the burlesque shows that have been outlawed in Texas have found welcome arms awaiting them there. The night clubs are not quite so bad as they do wear a few clothes there. We went to the last show at the highest class night club in town where you were supposed to be very well dressed before allowed to enter but the doorkeeper must have been drunk or asleep because we got in all right. What we saw and heard after we entered this place was enough to make the cold chills run up and down your spine because their jokes were vulgar, immoral and profane. The more profanity and blasphemy that they heard from the stage the more they cheered. It revealed the condition of their hearts and I began to remember Sodom and Gomorrah because I do not believe they were ever worse than this place. I was actually afraid that God would rain down fire and brimstone upon it before I got out. All of the tables were filled and they were sitting and standing three deep around the bar. It was in the shape of a horseshoe and on the inside there was a platform where the musicians slammed and banged out a lot of nonsensical jazz. When the crowd began to leave we noticed that there were more drunk women than men. Five drunk women staggered out at the door ahead of us and the last we saw of them they were whooping and yelling as they wobbled down the street.

One morning Leon went to breakfast and the waitress never gave him water until he called her and asked if she would do him a favor and she said certainly what will you have and he said, please watch my breakfast until I go down to Lake Erie and get a drink. They do not serve water with meals up there until you ask for it and not always then. She got so mad that someone had to use a fire-extinguisher to put out the blaze.

On another occasion Leon drove up to a red light while a cop was standing on the corner and he said, "Hey Mrs. Copper, do you care if I run this red light?" and with that he took off down the street as hard as he could go.

Do not read the next letter unless you want to laugh.

Yours very truly,
W. G. Boyd.

Rev. and Mrs. W. K. Horn of Anson spent Saturday night here with Mr. and Mrs. J. H. Kuykendall. He filled the pulpit of the Central Baptist Church out east of Tahoka Sunday. He was former pastor there, and later at O'Donnell, Wells, and other places in this county.

Mr. and Mrs. Grady Burkhardt have taken their 12 year old son Jimmy to Dallas for treatment. When they left they thought that his ailment was only a minor trouble but word has come back that he will probably have to remain in the hospital for some three weeks.

"Mother Hubbard" Medicine Cabinet Ill-Prepared for Everyday Emergencies

Wise mothers are never caught with empty medicine chests, because emergencies don't wait for a trip to the corner drugist. Keeping the family medicine cabinet in order and well-stocked is a wise precaution. Recent surveys show that only about one out of three American homes is prepared to handle the emergencies that commonly arise in families. If your cabinet lacks these essentials, you, too, are unprepared for home accidents.

For cuts and bruises: an antiseptic, sterile cotton balls for applying it; individually-wrapped sterile adhesive bandages.

For burns: a burn remedy, sterile gauze pads for covering the burn, roll adhesive tape.

For general illness: a clinical thermometer, ampoules of aromatic spirits of ammonia, witch hazel,

boric acid, bicarbonate of soda and rubbing alcohol.

Scissors, tweezers and an eyecup are handy additions to the medicine chest. And you'll want to keep a hot-water bottle and ice pack nearby, too.

A compact first-aid booklet is an excellent guide to keep handy also. After stocking your cabinet well, check up on your medicine chest manners. You rate an A if:

Every box and bottle is well-labeled.

Bottles are tightly corked.

Poisons have been placed out of reach of children, with pins stuck in the corks or rubber bands wound round the bottles as a reminder of the bottles' contents.

Old prescriptions are discarded promptly when they are no longer needed.

MRS. FRANK GREATHOUSE ATTENDS FUNERAL OF HER GRANDFATHER

Mrs. Frank Greathouse and her sister, Mrs. Jess Benson of Post returned Wednesday night from Sulphur, Oklahoma, where they had been called Sunday by the death of their grandfather, E. E. Owens, 75.

Mr. Owens died early Sunday morning but funeral services were not held until Wednesday morning at 11:00 o'clock, from the First Methodist Church.

Among his survivors are his companion and five children, together with a number of grandchildren and other relatives.

Harry Miller Rated as Best Friend of Dog

A kennel owner in Nova Scotia imported a valuable boxer from England, only to have her die and orphan her litter of pups. The owner began feeding the pups from a bottle, with an emergency formula prescribed by a pediatrician. Unfortunately there is a vast difference between human and canine babies. The pups grew weaker instead of stronger, and one morning one of them was found dead.

The kennel owner sent off a frantic cablegram. By noon he had an answer, suggesting a new formula. The rest of the pups, put on the new diet, picked up like magic and soon were romping around as healthy puppies should.

The cablegram had gone to Harry Miller, an infant, professional man of 47 who runs the Gaines dog research center at 250 Park avenue in New York City. Such urgent requests for help are nothing new to Miller, and he had the information right at his finger tips. It was just another routine victory for the man who has become known as the dog's best friend.

Once Was Hobby

For a long time Harry Miller's self-dedication to the dog was a hobby. But in 1943 he persuaded a manufacturer of prepared dog foods to set up the Gaines dog research center. The center is believed to be the only organization in the world actively collecting, evaluating and passing along to breeders, veterinarians and owners every known worthwhile fact concerning the health and well-being of dogs. It makes no attempt to sell anything except possibly the idea that the dog is superior to any other four-legged animal in the history of mankind.

The arrangement works fine both ways. The more dogs there are and the longer they live, the more dog food will be sold. Meanwhile, Miller can dedicate himself to the dog 24 hours a day and still make a living.

Packed away in Miller's unflinching memory and in the 1,000 books of his library—one of the most extensive on the subject of dogs—are the answers to just about every question a dog owner could ask. And nothing makes Miller happier than to share this knowledge with the world.

Unusual Problem

A schoolteacher sent in an unusual problem—she had taught her dog to wake her in the morning, only to discover that the dog could not be set back like an alarm clock when she wanted to sleep late on week ends. What could she do?

This had Miller stumped for awhile, but he finally came up with a successful solution. "When the dog comes to you on Saturday or Sunday," he wrote, "simply push him away and go back to sleep. Soon he will realize that you aren't in the mood for him and that there are certain days on which you do not wish to be disturbed."

It worked.

Pete Is Only Pelican Having Bill of Bamboo

SAN DIEGO, CALIF.—A rare old bird is the pelican, but the rarest of all pelicans is Pete, the Mexican pelican with the bambo bill.

Pete was just another pelican around the Todos Santos islands in Mexican waters south of San Diego. Then somebody took a shot at the friendly old bird, almost severing his upper bill near the middle.

Poor Pete could no longer dive for fish. His profile was ruined. Lady pelicans shunned him. He grew wan and thin. He was sick.

But along came the tuna clipper Resolute, skippered by Richard Strumpf of San Diego.

For a week Pete came alongside the Resolute every morning to be fed smelt caught for him by members of the crew. Then Strumpf brought Pete aboard. He fashioned a splint from a length of bamboo fishpole, drilled holes in both halves of the bill and wired Pete's profile firmly back in place.

Pete made the return trip to San Diego with the Resolute, but not without being seasick.

Now, however, he is well and chipper, the pride of the San Diego zoo's seabird pool.

HOW MUCH ROAD?

Texas now has in all, 88,443 miles of passable roads of all types.

Most rapid progress has been made in farm to market roads, 14,500 miles of which have been financed by the state highway department in conjunction with federal aid, since V-J Day.

The figures are from a survey taken by the Bureau of Public Roads at the direction of the United States Senate. Texas statistics were compiled by the highway department in cooperation with county road officials.

Farm to market roads are located upon the recommendations of district engineers after conferences with county commissioners. Location is determined by the highway commission on the basis of need as these figures show:

72 per cent of farm to market roads carry school buses; 74 per cent carry mail routes; 24 per cent carry milk routes; and 87 per cent carry one or more of these services.

Other roads built under the farm to market program service oil fields and forest-lumber operations.

When the present program of farm to market road construction is completed, the vast majority of farm dwellings will be within one mile of a paved road.

The state highway system as of August 31, 1949 included 39,096 miles of roads of all types, paved or financed for paving.

The counties have 1,606 miles of good paved roads and 9,226 miles of roads that have some kind of cover, varying from oil mix up to surface treatment. The counties report 388,495 miles of gravel and soil-surface roads.

According to the latest available figures—1947—local road admini-

stration on the county level expended \$45,500,000. No division was shown between construction and maintenance.

Here are more figures turned up by the survey:

Common carrier truck routes in Texas are 23,204 miles long, and they use 22,462 miles of state roads. Common carrier bus routes total 26,436 miles, of which 25,812 miles are state roads.

Mail routes cover 91,936 miles, of which 72,262 miles are local roads not under state control. School buses travel 86,807 miles, of which 63,041 miles are on local roads.

The survey showed that 220 counties in Texas carry on their road construction without the services of engineers.

Seventeen counties operate under the unit system and employ road engineers, whose authority is restricted.

Henderson County, which adopted the unit system in 1947, has now

abandoned it.

The vast majority of counties do their road construction and maintenance under the supervision of the county commissioners.

Those who have observed the unit system say that it has only one chance to operate and survive—and that is when the commissioners court turns the entire matter over to an engineer.

When the court—and the citizens—are strongly in support of the unit system it is successful.

PTA Will Hold First Meeting

The Tahoka P. T. A. will have its first meeting of this school year, on Thursday, October 13, at 3:00 o'clock p. m., in the High School auditorium. It is hoped that every one who is interested in this work will be present.

The program is "Team Work Between Home and School." Superintendent Vernon Brewer and Mrs. Truett Smith will be the principal speakers. One of the classes in Grade school will furnish the music.

We want to urge every Parent to take an active part in this work this year. Let's make this the best P. T. A. year that Tahoka has ever had. By our presence at the meeting, and interest shown in the work, we can encourage both our children and our teachers, thereby making a much better school.

Dues this year are only fifty (50c) cents, twenty five (25c) of it going to the State. So please see the secretary about this at your earliest convenience. —Reporter.

GRASSLAND BOY SCOUTS WIN AT SOUTH PLAINS FAIR

Luther Kenley of Grassland was in town Tuesday walking on air. He

is scoutmaster out at Grassland, and his boys had won first place in the troop division at the Panhandle-South Plains Fair last week, and he thinks he has a bunch of the finest Scouts in the world.

The Grassland troop was organized about five years ago, but Kenley became scoutmaster only last March. He says the boys do everything in the world he asks them to do and they do it enthusiastically and efficiently. He certainly is proud of his boys—and the boys must be proud of him.

MRS. G. B. SHERROD IS HOSTESS TO DIXIE H. D. CLUB

Mrs. J. B. Sherrod was hostess to members of the Dixie Home Demonstration Club at a meeting in her home Wednesday, October 5.

Roll call: Tips on Pressing.

Mrs. Buel Draper served as president in the absence of Mrs. T. D. Lishman.

A council report was given by Mrs. Clifton Hamilton.

Plans are being made for Club members to enter things at the county fair.

Members exchanged gifts with their Sunshine Pals.

Refreshments of punch and cookies were served to Mrs. W. F. Henderson as a new member, Mrs. Ione West as a visitor, and to 14 club members.

The next regular meeting will be held October 19 in the home of Mrs. Elmer Sproles.

Mrs. Stewart's Aunt Dies In Sweetwater

Mrs. G. M. Stewart attended funeral services Monday at the First Methodist Church in Sweetwater for an aunt, Mrs. Elizabeth Hopkins Kyle, 83, who died in that city early Sunday morning.

Mrs. Kyle was a pioneer West Texan, having been a resident of Sweetwater for 59 years. She was a member of a well known family of that city and area, one of the sisters being the late Mrs. T. M. Dobbins of Roscoe, mother of Mrs. Stewart.

As long as the condition of her health permitted, Mrs. Kyle was a regular attendance and a devoted member of the Methodist Church.

BAPTIST PASTOR REPORTS GREAT REVIVAL

Mrs. C. T. Aly announces that her husband, the pastor, will be back in his pulpit at the First Baptist Church here Sunday.

She reports that he is having a great revival at Calvary Baptist Church, Pampa where he went on Tuesday of last week to do the preaching in the meeting. By Tuesday morning of this week there had been 55 additions to the Church, 43 of them being new converts.

The Associate pastor of the Church here, Rev. Sheldon Russell, is leading the song services in a revival at the First Baptist Church in Post this week.

The first service in the new Baptist Mission here was held last Sunday, although the repair work on the building was far from complete. There were 20 present in the Sunday School and 23 in the worship service, it was reported.

Services will be held there again next Sunday, with repairs still incomplete.

CARD OF THANKS

We take this means of expressing our thanks to our many friends for the kindness and sympathy shown us in the loss of our precious husband and father.

The consoling words helped to lift the burden in our grieving hearts. Especially do we thank you for the beautiful floral offerings, and the ladies from O'Donnell for the food.

The precious memories will linger on. May God bless each of you.—Mrs. Callie Brandon, Mrs. R. R. Kaiser, Mrs. T. M. Heard, Mrs. B. G. Cabbiness, Mrs. Jack Thompson, Mrs. Joe Rogers, Mrs. Jack Hoskins, Mrs. Marion Lewis, Mrs. Jean Swearingen, Beacher, Curtis, Houston, and James Brandon.

Junior Football Team Is Winner

Tahoka's Seventh Grade Bullpups decisively defeated the O'Donnell Seventh Grade team 40 to 13 in a football game played at O'Donnell Tuesday night.

The team was playing in their new uniforms, and was backed by the Seventh Grade pep squad.

The Seventh Graders, coached by Coach Wayne Pipes, and the Eighth Grade team, coached by Coach Jim Foust will play a double header here with team from O'Donnell on the night of Tuesday, Oct. 18. They will play Slaton here the night of October 25, and Slaton at Slaton on November 1. It is possible that other games will be matched by the two Tahoka junior footballers.

In the game at O'Donnell, the Bullpups showed some real aggressiveness in running up 15 first downs to two for a prestant but out-classed O'Donnell crew.

A. W. McClellan scored four times for Tahoka and carried the ball four times for successful extra point conversion. He went 1, 15, and 3 yards—respectively for the touch-down. Duane McMillan made two touchdowns, going 30 and 20 yards, and Leslie Paris made the other score on a 10 yard run. The defensive star of the ball game was fleet little Thomas Jolly, an end, whose tackling was deadly, and who on several occasions overtook and hauled down runners from behind.

The Tahoka starting line-up was Jolly and Jones, ends; Anderson and Williams, tackles; Whatley add Huddleston, guards; Miller center; Moore, quarterback; McMillan and McClellan, halfbacks; and Paris, fullback.

The squad, according to Coach Pipes, is composed of the following, nearly all of whom played in the game:

Tackles: Tom Anderson, No. 2, age weight, 118; Don Reid, No. 7, age 12, weight 90; Bob Holcomb, No. 19, age 12, weight 98; Frank Jones, No. 14, age 12, weight 94.

Tackles: Tom Anderson, No. 2, age 13, weight 85; Jimmy Williams, No. 6, age 12, weight 102; Loyd Slone, No. 15, age 12, weight 138; and John Witt, No. 18, age 12, weight 105.

Guards: Chester Whatley, No. 22, age 12, weight 110; Garland Huddleston, No. 5, age 12, weight 115; Melvin Crowell, No. 13, age 12, weight 74; Gaynard McNeely, age 12, weight 95.

Centers: Edward Miller, No. 4, age 15, weight 108; Cecil Owens, No. 17, age 12, weight 90.

Backs: A. W. McClellan, No. 9, age 14, weight 144; Leslie Paris, No. 9, age 14, weight 129; Duane McMillan, No. 10, age 13, weight 155; Billy Moore, No. 11, age 12, weight 105; Joe Autry, No. 21, age 12, weight 96; Vernon Brewer, No. 12, age 12, weight 100; Don Ables, No. 3, age 12, weight 90; Max Morris, No. 16, age 12, weight 82.

A. W. McClellan and Jimmy Williams are co-captains.

Mrs. Robert King of Snyder has been here since Tuesday as the guest of Mrs. G. M. Stewart. The Kings formerly resided here, Mr. King being associated with the old Security State Bank. He is now a ranchman in the Snyder area.

Mr. and Mrs. Tom Dikes of Mineral Wells have been here the past several days on account of the illness of their daughter-in-law, Mrs. Harlan Dikes, who is a patient in the Tahoka Hospital recovering from a major operation.

WHERE'S THE STRETCHER?

Stretcher bearers were ready as this maddened Brahma appeared ready to maul his fallen rider, but it turned out to be just another near casualty of the 18th Annual Prison Rodeo now being held in spacious, new Prison Stadium at Huntsville, Texas each Sunday this month.

Government Papers In WT Library

Canyon, (WTSC)—When the city of Clarendon took over Clarendon College years ago, the library of government documents housed there was moved to West Texas State College. Through the years this collection has grown until at the present time West Texas State is the largest depository of governmental documents in this area aside from Oklahoma City and Dallas.

Lawyers, oilmen, educators and others come to the West Texas State Library everyday to make use of the 200,000 volume collection. The library receives a copy of every official document coming off the Washington press and legal proceedings of each day's Congressional session is catalogued, kept safe and made available to the public.

When the new library building is built this spring on the campus of West Texas State, this huge store of documents will be moved to its new home and will continue to be available to anyone in this area.

CARD OF THANKS

We wish to thank our friends and neighbors for the flowers, cards, and kindnesses shown us while we were in the hospital and since we came home. Thanks to every one, and may God bless each and every one of you is our prayer. —Mr. and Mrs. M. M. Hall.

Texas is a big state but it has shrunk up a lot since some of us were kids. Tuesday morning a couple passing through Tahoka stopped and dropped into the News office for a few minutes. They were husband and wife and each was a third cousin of the senior editor. We were all three kids together, except that the senior editor is somewhat older than the other two, and one of the others, Andrew Goode, is somewhat older than his wife, who in her childhood days was Della Witt. Andrew was raised up in that Stampede Valley we have frequently mentioned and Della was a native of the adjoining Willow Grove community. And she still looks young and beautiful. They now live at Clarksville and were on their way to Roswell to visit relatives. So much for us and our kin folks.

THANK YOU, FELLOWS!

The undersigned wishes to extend deepest appreciation and humble thanks to Bill Woods and Jake Jacobs for their consolation in my recent bereavement. I would leave you with the following thought:

The watchword for 1950 is "Keep your eye on the Crimson Hose." —Dale Williams and the Boston Red Sox.

Legislator Defends Amendment Proposal

An Open Letter To The People Of Texas:

Are you willing to sit idly by and let the lobbyists of the big oil, gas, sulphur, railroad, liquor and other Special Interests dictate to you how to vote? Well, that is exactly what they are trying to do by false propaganda over state-wide radio broadcasts.

These same interests have raised a slush fund of \$50,000.00 and have hired a high-powered publicity agent to poison your minds against a Constitutional Amendment, to be voted on on November 8th, whereby the Legislature shall meet for a short time in the off year to prepare a budget for the following year, and to provide enough pay for the members so that they can be independent of outside influence and represent you, the people, and not the Special Interests who have attempted to run your state business these many years.

You are losing millions of dollars each year simply because your Legislators cannot, with any degree of accuracy, estimate what the re-

quirements of the State will be two years in advance. Ask your County Commissioner, the Mayor of your town or the members of your school board whether or not they could operate on a two-year budget. No, they can't do it, neither can your state government do it.

These lobbyists don't want your Legislators to be independent. They like to pick up their meal checks, or pay a little on their hotel bills, when the time comes for the lobbyists to ask a favor in the way of a vote in the Legislature for or against a measure, the member is hard put to turn him down. A salary of \$3,600.00 per year will just about pay a member's expenses while in Austin and for performing the many duties required of him during the interim.

This amendment was the program of the late Governor Beauford Jester—it is the program of his suc-

passer the new Governor Allan Shivers. These men who are in constant contact with our state finances know best, and I think that the people would be wise to listen to them and adopt this amendment to our Constitution on November 8th.

Respectfully,
John L. Crosthwait,
Dallas County
Representative, Place 1.

Farming and ranching are still the basic industries in Texas, even though manufacturing and the production of oil play a major role in the State's economy. In 1946 Texas produced 760,505,000 barrels of oil, his was 44 percent of the total amount produced in the United States

**"METHODIST HOUR"
BROADCAST BEGINS**

The fourth annual broadcast of "The Methodist Hour" is now being carried by the nation's largest independent religious radio network and is produced in the only inter-denominational owned studios in the country. More than 90 radio stations are now cooperating with the Southern Religious Radio Conference in the distribution of radio broadcasts produced by radio committees of The Presbyterian Church in the U. S., the Protestant Episcopal Church and The Methodist Church.

Beginning October 2nd The Methodist Hour will be produced in the studios of The Protestant Radio Center, which is a corporation chartered under the laws of the State of Georgia. The studios of The Protestant Radio Center will be used for the production of religious radio programs audiovisual materials and in the future television programs. The Center is owned by radio committees of The Methodist Church, the Protestant Episcopal Church, the Presbyterian Church in the U. S., and by three educational institutions: Agnes Scott College, Columbia Theological Seminary, both in Decatur, Ga., and Emory University. Membership in this corporation is also held by the southern office of the Federal Council of Churches and by certain committees from the Lutheran Church and the Christian Church.

Bishop William C. Martin, resident bishop of the Dallas Area of The Methodist Church and chairman of the Advance for Christ and His Church was the speaker on the first broadcast, October 2nd, 1949. Other speakers to be heard in October will be Bishop Marvin A. Franklin, Jackson, Mississippi; Dr. H. Bascom Wats, Tulsa, Okla., and Dr. John Owen Smith, Greenville, S. C. The Methodist Hour, and other programs sponsored by The Southern Religious Radio Conference are heard Sunday mornings at 7:30 over stations KGNC, Amarillo; WFAA, Dallas; KCRS, Midland; WOAI, San Antonio.

Mr. and Mrs. Rollin McCord left Wednesday on a business trip to Detroit, Michigan.

Texas farmers own close to 215,000 tractors. From this number, estimates show that 21 million gallons of gasoline is wasted every year in Texas alone. That means just 100 gallons a tractor.

**WHAT ABOUT THE GIRL
SCOUTS OF TAHOKA?**

Mr. Tahoka, Mrs. Tahoka: What is a Girl Scout?

She is your little girl and my little girl and our neighbor's child who has passed her seventh birthday and who has been encouraged along lines of scouting.

What does she promise?

"On my honor, I will try to do my duty to God and my country, to help other people at all times, to obey the Girl Scout laws."

What are those laws?

1. A girl scout's honor is to be trusted;
2. A girl scout is to be loyal
3. A girl scout's duty is to be useful and to help others;
4. A girl scout is a friend to all and a sister to every other girl scout;
5. A girl scout is courteous;
6. A girl scout is a friend to animals;
7. A girl scout obeys orders;
8. A girl scout is cheerful;
9. A girl scout is thrifty;
10. A girl scout is clean in thought, word, and deed

This promise and these laws are repeated each week and lived each day when the scout is given the guidance and encouragement needed.

Where does Tahoka stand?

Approximately 200 girls need, can afford, and deserve a scout program. Between thirty and forty are getting it. You ask WHY? The fault lies with the adults of our town. As the program stands at present, it is a requirement that at least 19 adults be active Girl Scouts. Less than half that number are struggling under the load. To carry out this year's program the organization must have at least thirty active members and every other adult back of those thirty.

So, you see, you are needed. Sure hope we don't have to draft you.—Contributed.

**BESSIE BRASHEAR S. S.
CLASS HAVE MEETING.**

The Bessie Brashear Sunday School Class met for its regular monthly social in the basement of the Methodist Church Tuesday afternoon. On account of the bad weather, there were only nine present.

Mrs. Godfrey brought the devotional. We still hear many expressions of appreciation for our chairs donated by Mr. H. W. Carter for our new class room. The only cost to us was to install them. After a business and social session refreshments of cookies and coffee were served.

The next regular meeting will be the first Tuesday in November. —Reporter.

TWO MEXICAN BABIES BORN

Seferino and Clotilda Nino are the parents of a little girl weighing 7 pounds and 9 ounces. She was born on Friday, September 30, in the Tahoka Hospital, and bears the name of Maria.

Angelo and Domingo Compos are the proud and happy parents of a little Miss, born Friday in Tahoka Hospital. The lady weighed 6 pounds and 6 ounces. They will call her Esmeralda.

(Cont'd. From Page 1)

bination that would click. Tahoka received the kickoff, failed to gain, and on the first play from scrimmage Slaton's Lewis went 47 yards to score. Taylor's kick for conversion was good. A few plays later, Slaton's German, guard, intercepted a pass and on the next play Lambert went 37 yards to pay dirt, and Taylor again converted. Before the first quarter's end, Tahoka fumbled the ball, and Slaton recovered on the 27 yard line. On the next play, Slaton's Willis went 27 yards to score. The conversion attempt failed. Thus, on three plays from scrimmage, without making a single first down, the Tigers had scored three times. In the same period, Tahoka had made two first downs, one on a pass, Halamick to Gurley, and the other as result of a 11 yard gallop by Farr. Midway of the quarter, Slaton again recovered a Tahoka fumble, and Lambert went 10 yards to score. That was the end of the visitors scoring, and from that time on the Bulldogs were the best team on the field, and ran up four first downs to the visitors two in the second period. The Bulldogs came back scrapping in the second half, worked the ball down to the six, following a completed pass Chandler to Farr good for 36 yards, one to Gurley for 5, and running plays with Chandler and Halamick the ball carriers, and Chandler went the remaining six yards to make the score 26 to 6.

A pass interception by Slaton's Bybee stopped another scoring threat, but in the fourth quarter, Tahoka took over on the 18, and promptly proceeded to score again with only about a minute left in the ball game.

The Bulldogs rolled up 13 first downs to five for the winners, but fumbles and failure to plug up the holes proved costly. The Bulldogs completed 10 passes out of 21 attempts for a total of 120 yards and had two intercepted, while Slaton completed two of seven passes for 25 yards.

This was Slaton's first victory in four starts, and Tahoka's fourth loss.

TAHOKA HOSPITAL NEWS

Mavis Dean Veach, 12 year old daughter of Mr. and Mrs. Oscar Veach of O'Donnell, had her appendix removed last Friday. The appendix had ruptured. She is improving satisfactorily. Dr. E. Nelson of O'Donnell operated.

Mrs. Harla Dikes underwent major surgery on Wednesday of last week. She too is improving satisfactorily. Dr. F. E. Seale, operated. Mrs. F. S. Wallace underwent surgery on Wednesday morning of this week. Her condition Wednesday afternoon was good. Dr. Prohl operated.

Mrs. Urban Brown is a patient in the hospital suffering from first and degree burns on her face and arms. She was burned when her kitchen oven exploded.

O'Donnell Building New City Hall

O'Donnell Index-Press—According to Judge Bill Brown, work will start this week on a new city jail and city office, which will be situated on two lots across north of the Telephone office. It will cost an estimated \$1,500. Lots were purchased from C. H. Doak. It is expected that the construction will be completed in two weeks.

Commissioner John Anderson will be in charge of the arrangement of the structure. The building will be stuccoed on the exterior and plastered on the interior.

The jail section of the building will have a capacity for eight or 10 prisoners, and will be constructed at the rear of the building. The building is to be fire proof.

In the front half of the building, Judge Brown and Deputy Sheriff, Cleve Bairrington will have their offices.

About one half of the County's fines come from O'Donnell and area, it has been estimated.

Mrs. Beecher Sherrod spent the past week end with her parents, Mr. and Mrs. J. V. Randolph, in Moran. Together with other relatives and friends she helped celebrate the 89th birthday of her aunt, Mrs. Jane Snyder of Moran. Judge J. W. Elliott, who is a brother of Mrs. Randolph and Snyder, also went down for the occasion.

Tahoka Children Given Lawn Party

Mrs. W. M. Harris gave a party for Junior Children on Thursday evening of last week, when more than 40 of them gathered on her well-lighted lawn for a romp, from seven o'clock till nine.

Phyllis Ann Fielder and Jo Helen Aly directed the games and about nine adults helped to furnish entertainment for the youngsters. Ice cream cones were served.

Children present were Philip Troy Havens, Barbara Lewis, Sara Smith, Geraldine Tippit, Ruth Curry, David Bray, La Rhea Greathouse, Winona Reid, Nancy Brock, Mary Beth Smith, Jo Ann Curry, Bobby Parks, Laquita Smith, R. L. McCord Jr., Jerry King, Jimmy Wharton, Paula Brock, Lynda Polk;

Betty Lee Howell, Shirley Ann Reid, Geraldine Reid, Marilyn Falls, Neil Nolen, Mary Helen Whitaker,

Nancy Sue Sargent, Terry Stanley, Wayne Huffaker, Glen Fleming, James Smith, Haynes Howell, Jaron Cathcart, Melvin Crowell, Charles Isham, Kenneth Durham, Bobby Bass, Frank Greathouse, Danny Daniels, Alice Carolyn Duckett, and Mack Owens.

Mrs. W. P. Inman Loses An Eye

Mrs. W. P. Inman of Snyder, former resident of Tahoka and mother of Sherman and John Inman and Mrs. Florence Inman Davies and Mrs. Mary Ellen James, all of Lynn county, underwent an operation in West Texas Hospital, Lubbock, early Wednesday morning whereby her left eye was removed.

The operation was reported to be satisfactory, and it is believed no permanent ill effects will result further than the loss of one eye.

New! High Speed OLIVER COTTON HARVESTER

Here's the new 2-row Oliver Cotton Master... a completely modern power-driven, power-lift harvester. It operates efficiently at speeds up to six miles per hour... picks as much as 20 bales a day.

Specially designed stripping teeth, and wide, flared gathering-unit throat openings gather cotton that is high or low on the stalk. The 38-inch spacing of the gathering units will handle all conventional row widths. Adapted to the harvesting of storm-proof varieties, the Oliver Cotton Master does a thorough job of separating the cotton from the stalks, breaking open bolls and knocking out moates, trash and dirt.

See us for full information on this new pull-type Oliver Cotton Master that is quickly attached to any tractor... that speeds up the cotton harvest, and helps you deliver a high-grade product to the gin.

MINISTER OFFERS SERMON FOR PUBLICATION

William L. Douthitt, Minister of the Church of Christ at New Home, left at the News office for publication several days ago a sermon which his father before him had preached and which had been published in some religious journal or possibly a secular newspaper.

We find it impractical to publish in full this excellent discourse but we gladly give our readers an idea as to its nature and contents.

It is in no sense a controversial discourse and is in no way calculated to give offense to any one but it is very interesting nevertheless. It takes the position that the Bible is strictly an up to date book, and that it antedates the scientists in disclosing and stating scientific truths. For example, it proclaimed many centuries ago that the blood is the life of the flesh, whereas the scientists did not even know that the blood circulated throughout the body until a few generations ago.

Many other scientific truths are cited and then the Bible is quoted to show that it antedates the scientists in proclaiming these truths. While some of the Bible references may seem a little obscure or far-fetched, it is all very interesting just the same.

West Texas State Plans Homecoming

Canyon, (WTSC)—Homecoming headquarters at West Texas State College sends out a notice to all ex-students to circle the date of October 22 on the calendar and plan to be in Canyon for the greatest Homecoming West Texas State College has ever presented.

Already hard at work on plans for festivities to please exes and friends of the College, the Homecoming committee has outlined a program of activity. A gigantic parade will move through downtown Canyon late in the morning followed by a free barbecue for all ex-students at the tennis courts. Club and organization reunions will be held throughout the day at 2:30

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS

DUE TO EXCESS ACID
 Free Book Tells of Home Treatment that Must Help or It Will Cost You Nothing

WYNNE COLLIER DRUG 42-8th

the hustling Buffaloes will tangle with Trinity University of San Antonio on Buffalo Field. Immediately preceding the game will be the crowning of the Homecoming Queen.

At night two dances are being planned. One Western dance will be held in Burton Gymnasium with a modern dance held in the beautiful new Cafeteria.

Further plans of activities will be announced in the near future but the important thing now is to plan to be back on the campus in Canyon, Saturday, October 22.

Miss Burkhardt Is On College Faculty

Miss Bland Burkhardt, for the past six years, consultant for kindergarten-primary education in El Paso, Texas, has accepted an appointment at Wheelock College as a supervisor of student teaching. Wheelock, a college which prepares young women for teaching children, from two to nine years of age, reopened October 3 for the fall term.

Miss Burkhardt will be one of five supervisors of some 100 juniors and 80 seniors who observe and teach in the nearby public schools of Newton, Brookline, and Belmont, Mass., and in private schools such as Shady Hill School, Cambridge, and in philanthropic and private nursery schools and kindergartens.

Miss Burkhardt, the daughter of the late Professor and Mr. W. J. Burkhardt of Tahoka, previously was first grade teacher in Ft. Worth, Texas. She has given teacher education course at McMurry College in Abilene, Texas and courses at Texas College of Mines, El Paso.

A graduate of Texas Technological College, Lubbock, Texas, Miss Burkhardt received an M. A. degree from Teachers College, Columbia University, in 1936, and has done additional work there in teacher education. She received her high school education in Springfield, Mo.

While in El Paso, Miss Burkhardt was corresponding secretary of the El Paso County Mental Hygiene Society and secretary-treasurer of the El Paso Elementary Principals and Supervisors Association. Last Spring she was elected president of the El Paso branch of the American Association of University women.

PHEBE K. WARNER CLUB

Mrs. Bill Wood was hostess for the Phebe K. Warner Club on Tuesday, September 27, at 4:00 p. m., at her home in North Tahoka.

The topic for discussion was "Current Trends in Russian Government," Mrs. Truett Smith and Mrs. G. M. Stewart each gave a talk on various phases of this subject. Members answered roll call by quoting some fact about Russia.

Mrs. W. W. Rowland directed a humorous skit on Correct and Incorrect parliamentary procedure.

Refreshments were served to members: Mesdames Bill Wood, H. W. Carter, Emil Prohl, Charles Stewart, Skiles Thomas, A. M. Bray, Charles Nelms, I. M. Draper, R. W. Fenton, S. R. Kemp, Neal Stanley, G. M. Stewart, Paul Pittman, Fred Hegl, Truett Smith, R. L. Richardson, and W. W. Roland. Mrs. W. G. Clark was a guest.

If fat in a frying pan catches on fire, smother it with wet towels. Never pour water on it for water makes the fat spatter and may spread the fire.

Tahoka Youth In Wayland's Choir

Layland McMahan, son of Mrs. Loyce McMahan, and Miss Grace Russell, sister of Associate Pastor Sheldon Russell of the First Baptist Church of Tahoka and a member of the Tahoka Church herself, who are students in Wayland College, have been admitted to membership in the Wayland College International Choir of 32 voices, representing many lands.

The choir is studying music from Mexico, China, Japan, Hawaii, Germany, France, Latvia, and Italy.

The choir was to appear first on Tuesday of this week in Wayland Chapel, in full dress, singing a cappella music. The last half of each program will include music of other lands with the entire choir dressed in colorful national costumes.

Their schedule includes Amarillo, Youth Rally in Snyder, First Baptist Church of Tucumcari, N. M., Santa Fe, N. M., Clovis, N. M., Rotary Club at Olton, Hobbs, N. M., El Paso, Dallas, Levelland and other places.

Miss Grace Russell will sing second alto and Layland will sing bass.

MOVING TO GRANDVIEW

Mr. and Mrs. Lloyd Nowlin have sold their home here to Mr. and Mrs. Paul Pittman and have purchased a home at Grandview in Johnson county and are preparing to move to it in a few days.

Mr. and Mrs. Pittman will occupy the home which they have purchased here as soon as the Nowlins vacate it.

Associate Justice William O. Douglas of the U. S. Supreme Court suffered the fracture of 13 ribs and the puncture of one of his lungs Sunday out in the Cascade Mountains of Washington when his horse fell with him. He was reported Tuesday to be improving. Tuesday's papers brought also the news that on that same day the Supreme Court had opened its session for another nine-months stretch and Tom Clark of Texas had taken his place on the bench for the first time. Another news item stated that at the same hour the Senate Judiciary committee had voted to approve the appointment of Federal Judge Sherman Minton of Indiana to succeed Justice Wiley B. Rutledge who recently died, as a member of the court. Some rapid changes in the Court's personnel are being made.

Republicans are charging that Senator Tom Connolly is becoming ill-tempered and hard to please. Probably he has a lot to try his patience. But one thing that would irk us more than most other things is President Truman's persistence in pressing for so-called "civil rights" legislation and particularly the so-called "fair employment practices" measure, which he knows would be offensive not only to the people of the South but to a majority of the people of the North as well, including his own home state and city. It make us tired.

Odds & Ends

(By E. I. The Elder)
Tonight as we sit down to this typewriter, we hear the humming and the singing of a cotton gin down toward the railway tracks. There may be several of them running, for already there are hundreds of cotton pickers out in the fruitful fields of Lynn county, and the cotton is beginning to pour into our gin district from the rural areas. Say, folks, Eli Whitney started something when he invented the cotton gin.

We'll say he did—he just about revolutionized farming and industry and commerce and a countless number of other things in this country and throughout the world.

There was no cotton industry that could be called an industry anywhere in the world when Whitney invented his machine. A little sea-island, long shopped cotton was raised, but the seed had to be separated from the fiber by hand, and one man could remove about one pound of lint from the seed in one day. That was too slow and too costly for any agriculturist or plantation owner—we don't think they had farmers up to that time—to waste his time with. So, practically no cotton was raised, just a little here and there.

But, here is another brief chain of circumstances that almost constitutes a miracle. There was a young fellow up in Massachusetts who graduated at Yale College in 1792 at the age of 27. Washington was then serving his first term as President. Upon his graduation from Yale, this Massachusetts yankee, needing a job, came down to Georgia to teach school. We do not know whether he had ever known Mrs. Nathaniel Greene or not, who lived on or near the Savannah River but either purposely or providentially he formed the acquaintance of the widow and seems to have lived in her neighborhood, probably on her plantation, while he was teaching the Georgia brats reading, 'ritin', and 'rithmetic.

But here we must back-track for a moment. Mrs. Greene was the widow of General Nathaniel Greene, probably the greatest general of the Revolutionary War next to Washington. He was a native of Rhode Island and still lived in Rhode Island when the Revolution broke out. He was a Quaker and the son of a Quaker preacher, and the Quakers as a rule abstained from war. But in the stormy years that preceded the Revolution, Greene was among those who made active preparation for colonial defense and enlisted in the Kentish Guards and rose to the rank of brigadier-general. When news of the battle of Bunker Hill reached him he took his regiment and went hastily to Boston. After Washington became commander-in-chief and sized Greene up, he promoted Greene to the rank of major general. In 1780, after General Gates had lost just about everything in the South to the British, Washington replaced Gates with General Greene as Commander of the Army of the South. With the brilliant aid of Daniel Morgan and Light-Horse Harry Lee, Greene won one victory after another and finally cleared the whole state of South Carolina of the British. This turned the tide of war and made the victory at Yorktown possible in October of 1781. General Greene died in 1786 and we find his widow living on

Puorrhea Man Follow Neglect

An Absorbent and Antiseptic that must please the user or Druggist return money if first bottle of LENO'S fails to satisfy.

WYNNE COLLIER, Druggist.

the banks of the Savannah in 1792. She had evidently come with her husband from Rhode Island to the South, and Eli Whitney had gravitated from Massachusetts to the same community a few years later. We wonder if there had been a previous acquaintanceship.

Mrs. Greene found Mr. Whitney to be a versatile gentleman. He was particularly apt at inventing things. They raised a little sea-island cotton near Savannah and could have raised a lot of the shorter fleeced varieties if there had been any demand for it; and there would have been a demand for it if there had been any fast method of separating the seed from the lint.

Some of Mrs. Greene's neighbors bemoaned to her the uselessness of raising cotton because of the difficulty of separating the seed and the lint. She asked Eli if there was anything he could do about it and he got busy, bringing forth a successful machine a few months later. He didn't reap much personal benefit from his invention, however, for the reason that thieves stole his tools and his model. Soon several models showed up, and later lawsuits over his invention kept him broke. He got rich, however, manufacturing firearms.

But his invention revolutionized (Con'd. On Back Page)

Can Black-Draught Help That Dull, Dopey Feeling?

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental hardness, bad breath — and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today.
