COX FOR NATIONAL WOMAN'S CONGRESS TO SUGGEST LAWS

IDEA IS ADVANCED IN ADDRESS DELIVERED BY NOMINEE AT CLEVELAND.

URGES PARTICIPATION IN NATIONAL AFFAIRS

Champions League As Measure To Protect Women and Children From Horrors Of War.

CLEVELAND, OHIO, Oct. 16.—A national woman's congress to frame a program of social legislation and administration for presentation to the president and congress, was advocated here today by Governor Cox, democratic presidential candidate, in addressing an audience of women.

The candidate's address preceded his political speech here and followed a morning of campaigning in which he spoke at Sandusky and Elyria en route here from Detroit. Governor Cox will remain here over Sunday and tour northern New York on Monday.

Urging larger participation of women in national affairs and citing social legislation enacted during his gubernatorial administration, the governor told his women auditors at a nonpartisan meeting at a local hotel that there was "much to be done for human welfare and social progress." He also championed the League of Nations as a measure to protect women and children from the horrors of war.

Know What to Expect.

"From my experience in Ohio," said the governor, "you may know what to expect when I am elected president. There is much to be done for human welfare and social progress. We must stamp out disease, oppression and ignorance and eliminate neglect. With women only at the threshold of political work in America, I cannot call upon you for congressional action, but we can work in common purpose with common counsel, and it would seem to me perfectly proper and fitting that a national meeting be called of representatives of every woman's organization in America to formulate a program for congress and the executive for social legislation and administration."

Governor Cox pledged his support to reforms contained in the San Francisco platform, including federal co-operation with the state for protecting infants and to remove illiteracy. In this connection he urged establishment of a federal bureau of Americanization to educate aliens.

Bureau of Education.

Regarding the bureau of education, Governor Cox said:

"At present the federal bureau of education is buried with a varied assortment of national business in the department of the interior. My opponent has spoken recently for a new department of public welfare under which to group certain social welfare activities. While I am in hearty accord with the idea of house cleaning our government departments and sorting out the human and the technical problems, I feel that we should look forward to giving education and health equal consideration with labor, instead of lumping all social questions again in another grab bag, ill-defined department."

In the last congress, Governor Cox charged, "a baby's bill," providing for maternity and infant care "waited in vain while reactionary leaders spent their time 'scrapping' the League of Nations.

For Going Into League.

"I am in favor of going into the League," he said, "not alone to keep your children from the terrible experiences of war, but to enrich their lives by turning our national resources from battleships and armaments into school houses, playgrounds, work for health, child hygiene and child happiness.

"Not to have given the right of suffrage to the women of America in this year when the greatest of all issues is before the people would have been little short of a calamity. Their's was the greater suffering in the war and their's the greater understanding of the lesson of the war. If we are to be deprived of world peace as a result of the action of our own country under leadership of a partisan conspiracy, it is woman's right that her voice be heard. If the women of America may express their will, I have no doubt of the result."

BARN BURNS WITH FIFTY BALES OF STORED COTTON

CHILLICOTHE, TEXAS, Oct. 16.—W. W. Cole's barn was burned Friday night with complete loss of contents. Mr. Cole had fifty bales of cotton stored in the barn, which was lost with all his implements.

The origin of the fire is unknown, but it is believed to have been caused by some radical person. Mr. Cole's barn was covered by insurance.

A. B. Cron's wagon and bale of cotton were burned in the field Friday night. With these two fires, citizens are led to believe that the cotton destruction party is spreading its organization. It is understood that one or two of the gins in the county have been notified to cease operations.

MILK PRODUCERS NEAR OKLAHOMA CITY STRIKE

OKLAHOMA CITY, OKLA., Oct. 16.—Farmer milk producers in Oklahoma and nearby counties struck today following refusal of dairymen to grant them an increase of from $1.00 to $1.25 a pound for butter fat.

Local dairymen made their last rounds this morning and it was said that Oklahoma City will feel the first effects of the strike tomorrow.

With both sides standing pat, the strike is expected to continue for weeks.

Farmers declare that they will feed their milk to hogs before shipping at the present price.

SAN SALVADOR, REPUBLIC of Salvador, Oct. 16.—Discovery of petroleum in the eastern part of Salvador is reported by Dr. Echrich, an expert in geology.

OBREGON IS CENTRAL FIGURE AT THE FAIR

President-Elect Of Mexico And Governor Hobby Principal Speakers On Program.

DALLAS, TEXAS, Oct. 16.—Alvaro Obregon, president-elect of Mexico, was the central figure at the state fair of Texas today. It was "International Day" at the fair and the Mexican leader, arriving from El Paso at an early hour, had a busy program before him. He will depart for Mexico City tomorrow, traveling via San Antonio and Laredo.

The main event on General Obregon's social program was an international banquet tonight at which the president-elect and Governor W. P. Hobby of Texas were to be the principal speakers. Others scheduled to deliver addresses were Congressman Hatton W. Sumners, General Jacinto Trevino, minister of commerce and industry in the cabinet of Provisional President de la Huerta, and Roberto V. Pesquiera, Mexican financial agent to the United States.

At 2 o'clock this afternoon President-Elect Obregon was to deliver an address to the local Mexican colony, which has grown from a few score souls to more than 6,000 during the past ten years. He was to tell the Mexican colonists what has occurred in Mexico since their departure from their native land and to outline his program as president. General Obregon also promised to explain to his countrymen their duties to their adopted country.

OBREGON PASSES THROUGH FORT WORTH THIS MORNING

FORT WORTH, Oct. 16.—President-Elect Obregon of Mexico left his private car here this morning at 7:30 and entered an automobile for the last part of his trip to the Dallas fair. A committee of Dallas business men and officials met him here; also several hundred Mexicans were at the depot to greet Obregon but he didn't tarry long enough for any demonstration. Governor Hobby missed Obregon by half an hour.

Action of Senator Reed Is Puzzle to Political Leaders

KANSAS CITY, MO., Oct. 16.—Senator James A. Reed, democrat, has something up his sleeve. This announcement by the senior Missouri solon has puzzled politicians:

"I have rented Convention hall, Kansas City, Mo., for Thursday night, October 21."

"I have paid for the hall myself."

"I intend to hold a meeting under my own auspices."

"There will be no presiding officer, no flowers, no band, no admission charge and no reserved seats."

"I have taken this course in order that I may be perfectly free to discuss in my own way certain phases of the political situation."

"I assume full responsibility and I intend to do all the talking myself."

"All citizens, men and women, who want to come and listen will be welcome."

Bitter Foe of League.

Reed is a bitter foe of the League of Nations. He has also been engaged in backing up Senator Spencer in a controversy with the White House over Wilson's alleged promises to send troops abroad to protect the territorial integrity of Rumania and Serbia.

Reed also was thrown out of the San Francisco democratic national convention because of his fight on the league.

When Reed was refused a place as a delegate to San Francisco by the Joplin state convention, he gave an interview in Washington that such action meant Missouri would go republican. Later in the day he repudiated the interview. Since then, however, Reed acted as "chief prosecutor" for Governor Cox in the senatorial committee hearings on the "slush fund" charges.

Both democratic and republican leaders are anxiously awaiting Reed's speech.

PRACTICALLY ALL OF ESSENTIALS INCLUDED IN THE PRICE DECLINE

CHICAGO, Oct. 16.—Commodities here affected by the price-cutting wave sweeping the country include practically all essentials for eating and wearing, according to merchants today.

Commodities which experienced declines include:

Butter down 6 cents, eggs 1 cent, potatoes 50 cents a bushel, sugar 1 cent a pound, coal 50 cents to $1 a ton at the mine, clothing 20 to 40 per cent, pianos 10 to 25 per cent.

Sol Westerfield, large retail grocer, said he believed prices would go still lower.

"The food problem is clearing and the retailers will soon establish prices in proportion to those existing before the war," he said.

SAYS SATISFACTORY DROP DEPENDS ON WAGE DECLINE

CLEVELAND, Oct. 16.—While some commodities have dropped in price here, business men said today that a genuine "satisfying" drop cannot be expected until there is a decline from the present level of wages.

All kinds of food in restaurants have dropped from 10 to 15 per cent. Soft coal dropped $1 per ton and flour fell $1.50 on the barrel wholesale and 50 cents on the retail price.

MEXICO ANXIOUS TO SETTLE OBLIGATIONS DECLARES PRESIDENT

RECEIVES NO INTIMATION AS TO CONDITIONS REQUIRED FOR RECOGNITION.

SAYS LAWS OF COUNTRY ARE NOT CONFISCATORY

Favors Complete Co-Operation With United States To Avoid Border Disturbances.

MEXICO CITY, Oct. 16.—Mexico is anxious to comply with her international obligations, Provisional President de la Huerta told the correspondent of the Associated Press, and extends hearty welcome to all foreigners. He declared the Mexican government had not received from Washington any intimation as to conditions upon which possible recognition of the new Mexican regime would be based by the United States.

"Our one desire," he said, "is to form part of the concert of civilized nations by respecting all established principles for the development of a free people. Mexican laws are not confiscatory and I formally declare it never has been our intention to give them such an effect. Nothing is more untrue than the assertion that the Mexican government has forcibly deprived foreigners of their property.

Will Pay Just Debts.

"Mexico will pay all it justly owes in conformity with all recognized principles of international law. The outside world will be satisfied with this solemn promise.

"In the remote event that an American note outlining conditions precedent to recognition should be received, the Mexican government would, under no circumstances, accept any condition which would affect her national dignity. I have never expected President Wilson to assume any such attitude toward Mexico."

The provisional president declared he favored complete co-operation with the United States to avoid disturbances along the international frontier, and asserted a similar policy was being observed toward Guatemala on the south.

President Respects Struggles.

"President Wilson," he declared, "has known how to respect our struggles for liberty. He must be convinced the Mexican people are united as never before, are courageously preparing to decide their own future and are confident in the policies upon which the new order of things is based. He has fought nobly against interventionists who, not satisfied with the profits they secured by speculation upon our soil, desire to subjugate our people. Such a man would not dream of imposing conditions as his price for considering us a free people capable of sustaining international relations."

ATLANTA REPORTS THREE GIN AND COTTON FIRES

ATLANTA, GA., Oct. 16.—Three gin and cotton fires in Georgia, one believed to have been incendiary, today marked the fulfillment of terrorist threats to destroy crops if they are prepared for market before the price goes up.

Several bales of cotton stored on the J. D. Daniel farm, west of Franklin, were burned. Daniel said the work was that of terrorists. Another attempted fire was reported in the same neighborhood.

PRESIDENT MINERS ORDERS "VACATION" IN OKLAHOMA ENDED

MUSKOGEE, OKLA., Oct. 16.—John T. Wilkinson, president of District 21, United Mine Workers of America, late last night sent a circular letter to local unions in Oklahoma advising all miners now on "vacation" to return to work in order that their demands for increased wages might be considered by the coal operators. Mr. Wilkinson said he believed the miners would accept his advice, although no general return to work was expected before Monday.

Officials of headquarters at the same time issued a call for a meeting of representatives of the entire district, comprising Oklahoma, Arkansas and Texas, to convene here next Monday to consider the wage demands of the miners in detail.

All-night meetings of local chapters of the mine workers were held in the McAlester field, following refusal of mine operators yesterday to participate in any conference with the miners until they had returned to work.

Early today it was indicated from reports to headquarters that none of the 3,000 miners on "vacation" had returned to work.

SCENES OF WILDEST DISORDER REOCCURS NEAR LONDONDERRY

LONDONDERRY, IRELAND, Oct. 16.—Scenes of wild disorder reoccurred here last night, Carlisle Road was again the theater of fighting, the trouble beginning when a band of youths suddenly appeared and began firing pistols. Soldiers were rushed to that section of the city and cleared the street.

SAN ANTONIO, Oct. 16.—The threatened blowing up of the Central Trust company offices building here yesterday afternoon failed to materialize, although a specific hour had been set.

Guards were posted about the building to thwart any attempts to place a bomb. Officers believe the threatening letter was a hoax.

One of the largest hotels here received a warning last week of impending disaster. Nothing happened.

HARDING IS AIMING ANTI-WILSON FIGHT IN NEW DIRECTION

SWINGING HARD AT FAILURE TO ENTER WORLD WAR AT EARLIER DATE.

CHARGES DELAY WAS FOR POLITICAL REASONS

Appearance At St. Louis Complicated By The Recent Jacob Babler Incident.

By RAYMOND CLAPPER
United Press Staff Correspondent.

WITH SENATOR HARDING EN Route to St. Louis, Oct. 16.—Off on the last leg of his present speaking trip, Senator Harding today faced a heavy day of rear end platform speeches through Indiana and Illinois on his way to St. Louis where he speaks tonight.

Because of the split in the republican organization in Missouri, Harding's schedule was arranged so he arrives in St. Louis shortly after 7:00 o'clock tonight, just in time for his speech. He leaves immediately afterward for Marion.

His appearance in St. Louis is complicated by the fact that it is the home of Jacob Babler, the national committee man for Missouri who figured in the pre-convention financing of the presidential boom for Governor Lowden of Illinois. The national republican committee since Babler did not resign, gave over the active management of the committee in Missouri to State Chairman Hughes.

Harding is now aiming his anti-Wilson bludgeon in a new direction and is swinging hard at the failure of the administration to enter the world war earlier. He deliberately charged in his Indianapolis speech that America was kept out of war for political purposes and for the sake of winning an election thousands of American lives were sacrificed on the battlefields of France.

"Speaking with visible emotion, Harding charged this was a betrayal of American manhood, and before he was through some women in the audience were wiping the tears away.

He got into this phase of the attack after denying the charge made in a recent speech by William G. McAdoo that he favored compulsory military training. Any peace time system of military training in America must be voluntary, Harding said. The statement being used against him now, he said, was made during the war when the administration was refusing, he charged, to permit Theodore Roosevelt to take volunteers to France.

It is expected Harding will shortly discuss the situation in Haiti on the basis of disclosures recently made by General George Barnett, until recently commandant of the marine corps which was in control of Haiti.

BANDITS SUCCEED IN ELUDING OKLAHOMANS AFTER BANK ROBBERY

TULSA, OKLA., Oct. 16.—After a pursuit that extended through the entire night and carried possemen through Oklahoma into Kansas and back again through a wild and broken section of the state, four bank robbers, who late yesterday afternoon held up and robbed the bank of Alluwe, Okla., of $2,000 in silver and currency and $3,000 worth of liberty bonds were successful in eluding their pursuers.

Entering the bank at 3:15 o'clock yesterday afternoon a lone bandit covered the cashier, a woman bookkeeper and a customer with a revolver ordering the cashier to place all the bank's funds in a canvas sack. In front of the bank a heavy touring car stood, engine running and a driver at the wheel.

Obtaining the money the bandit ran to the car throwing the money into the front seat and climbed into the rear seat. Travelling at a terrific rate of speed the bandit car shot forth out of Alluwe toward Kansas.

Posse In Pursuit.

Fifteen minutes after the robbery a posse of fifty men were in pursuit. Three miles north of Alluwe, Frank Beau, six, son of a prominent farmer ran into the middle of the state highway and was killed by the possemen's car.

Trailing the bandits into Edna, Kansas, at midnight the man hunters were led back into Oklahoma, down through Mayes county to the western boundary where broken and hilly country afforded the robbers safe retreat. It was in this very section that the James boys and the Hart gang were able to evade arrest for years.

At daylight this morning the posse, composed of 100 men, gave up the chase. It was announced that the men, evidently familiar with the mountainous country, had fled toward Joplin, Missouri.

Reports last night to the effect that one of the bandits had been killed was denied today by C. F. Gowdy, county attorney of Nowata county and the sheriff of Rogers county. The posse was never in shooting distance of the bandits, it was said.

INDEPENDENT CANDIDATES ARE BARRED FROM TICKET

OKLAHOMA CITY, Oct. 16.—W. C. McAlester, secretary of the state election board, today declared that the names of M. L. Turner of Oklahoma City and Thomas Prat of Enid, independent candidates for United States senator, will not appear on the ballot in the coming election.

The names were omitted, McAlester states, because of failure to file a statement of disbursements expended during the primary campaign.

DECLINE OF TEN DOLLARS A BALE ON NEW ORLEANS COTTON MARKET; A SENSATIONAL DROP IN GOODS

NEW YORK, Oct. 16.—There was a further severe break in the price of cotton on the exchange here this morning with all active deliveries making new low records for the season.

Contracts for December delivery sold off to 19 cents a pound or a full cent below the closing quotations of yesterday, owing to continued pressure of southern offerings and liquidation by recent buyers who had anticipated a rally.

The unsettled British labor situation, including rumors that railway workers there might strike in support of the coal miners, and very unfavorable reports from the goods trade at home and abroad, were among the influences responsible for the decline, but the persistent southern selling was considered the chief cause of weakness.

DECLINE OF TEN DOLLARS A BALE AT NEW ORLEANS

NEW ORLEANS, Oct. 16.—October contracts in the local cotton market today broke $10 a bale under extremely heavy liquidation of long cotton inspired by the British coal strike and fear of its consequences. October, the "spot" month, was the weakest position on the boards and it dropped the full 200 points allowed by the rules of the cotton exchange. The market closed weak at the lowest of the day, at net losses of 105 to 200 points, October closing at 18.10.

SENSATIONAL DECLINE IN COTTON GOODS MARKET

NEW YORK, Oct. 16.—Following the trend of lower prices in other commodities, the cotton goods markets for the last week have registered declines running far beyond anything ever known in the history of the trade. As low as 10 cents was accepted for 38½ inch 64x60's, that sold as high as 26 cents in April.

Today a new price of 20 cents is announced on fruit of the loom bleached muslins, which is 20 cents a yard down from the high price on agents hands during this year. Hope 4-4 muslins were cut to 17½c a yard, the top price having been 34c early in the year.

It now is expected that the large printers of percales and prints will abandon the policy of protection on their goods, and wide open market is predicted when new prices are finally decided on, which may not be until later this month. One line of denims at 22½c, down from 47½c, is not expected to mark the low points, as other manufacturers are to be heard from.

Trading has been very light in finished and unfinished cloths and much curtailment of production has occurred in cloth and yarn mills as well as in knit underwear mills. Jobbers have done little, but reports from retail centers still show a fairly steady business at prices relatively much higher than those prevailing in mill agency circles.

Cotton yard markets have continued dull and weak with prices at the lowest points yet reached this year.

REQUEST A DENIAL OF REPORTED OVERTHROW OF CHINESE GOVERNMENT

PEKING, Oct. 16.—Official request was made by the Chinese government to The Associated Press to refute recent rumors originating in Shanghai that the government had been overthrown.

"There is no truth whatever," said the government, "in reports of a reactionary movement in north China. As far as the authorities know no plot of any kind exists and the situation is without change politically beyond the fact that peace prospects have improved recently."

PLAN FOR CONGRESS TO INVESTIGATE THE KILLINGS IN HAITI

By A. L. BRADFORD
United Press Staff Correspondent.

WASHINGTON, Oct. 16.—The charge by General George Barnett of "indiscriminate killing" of Haitians by American marines will be the subject of a thorough investigation by congress, it was confidently believed here today.

Further disclosures also are expected to develop rapidly into the investigation, which Secretary of the Navy Daniels has ordered into the marine corps occupation of Haiti.

Barnett's charge is expected to be thrown immediately into the presidential campaign. Senator Harding, republican nominee, recently launched vigorous criticism of the marine occupation of Haiti.

A mystery which has developed out of the situation is the disappearance of a report from Colonel Russell, commanding the marines in Haiti, on the investigation ordered by Barnett of the "indiscriminate killings". Russell declared he mailed the report last March. Barnett and Daniels said they never received it.

Although Barnett in his letter to Russell calling for an investigation, said:

"Indiscriminate killings had been going on for some time," Secretary Daniels declared there had only been six or seven cases of illegal executions. Daniels also declared the Barnett report was his first intimation that there had been charge of "indiscriminate killing."

Colonel Russell, in his report on his investigation of the "indiscriminate killing" named Major Clarke H. Wells, former gendarmerie department commander in northern Haiti, as being responsible for the conditions in northern Haiti. Wells was said to be under arrest in Haiti.

MINERS IN ENGLAND RESPOND TO A CALL FOR GENERAL STRIKE

ESTIMATED THAT MORE THAN A MILLION WORKERS ARE AFFECTED.

SOME SULLENLY ADMIT POSSIBILITY OF DEFEAT

Men Maintain That They Are Prepared To Remain Out At Least For Six Weeks.

LONDON, Oct. 16.—Miners responded solidly to the call for a nation-wide coal strike today.

Reports from the coal fields declared the men were swarming out of the mines, many refusing to wait for the change in shifts.

By mid-day it was estimated that more than a million miners and auxiliary workers had been affected.

Only the pumping engineers and maintenance staffs were remaining in the mines as an insurance against flooding or detrioration of the machinery.

Many of the men sullenly admitted that "we are likely to be beaten," but maintained they could stay out for at least six weeks.

No disorders were anticipated, with the possible exception of the more excitable Welshmen, but the stubbornness of the northerners and the Scots was expected to embitter industry for many months.

Iron and Steel Plants Close.

Iron and steel plants in Yorkshire were reported closing down.

Twenty thousand workers in the Teeside district were expected to be idle by Monday.

The executive committee of the railway workers, after discussing the coal strike today, decided that "the situation warrants summoning a special conference of delegates Wednesday."

The committee warned the railway men of the serious consequences that attend defeat of miners, and urged readiness to act immediately upon the results of the decision reached at Wednesday's conference.

Electric signs and inside illumination of shops after they had closed has been ordered discontinued. Families have been instructed to reduce their consumption of coal a hundred weight a week. Industrial concerns have been told to reduce consumption of light and power.

To Curtail Transportation.

The transport ministry has stated officially railway passenger service will not be curtailed until people have been given an opportunity to reach their homes. Then it will be cut down from 10 to 20 per cent. Suburban and city service will be maintained indefinitely. Non-essential freight will be cut down as the shortage is felt.

According to the board of trade, public utilities can be continued three months after production of coal ceases.

Coal exporters are negotiating for purchases from the United States and China to fulfill their contract on the continent.

Winston Churchill, addressing a meeting of liberals, deplored the coal strike as "a dark shadow upon the work of reconstruction."

"The strike is a blow to the prosperity of every industry in the United Kingdom and to every struggling population in Europe," he said.

The stoppage of coal exports, while serious to Great Britain as a whole through cutting off of government profits, is probably even more serious for countries like France, Italy and Belgium struggling against the devastation of war.

MEXICAN REBEL LEADER HAS ARRIVED AT HAVANA

HAVANA, Oct. 16.—General Felix Diaz, Mexican rebel leader, recently exiled from Mexico, arrived yesterday on the French liner Flandre. He was accompanied by Lieutenant-Colonel Cortes, sent to this city with Diaz by the Mexican government. Both men will be held at the Tiscornia quarantine station for six days because of the quarantine regulations against persons proceeding from Vera Cruz.

Diaz expects to join his family in New Orleans, if he is successful in arranging for passports to the United States.

UNABLE TO HANDLE OIL PRODUCTION OF BRECKENRIDGE FIELD

BRECKENRIDGE, TEXAS, Oct. 16.—The Breckenridge oil field is producing so heavily that a plan was under consideration today to bring in no more new wells for at least fifteen days.

A mass meeting last night appointed a committee of seventeen to report measures for relief to the chamber of commerce Tuesday, in view of stopping wastage.

Pipe line facilities are for only 63,000 barrels daily, little storage space is available and the only railroad entering the field cannot furnish enough tank cars. Facilities will be lacking to handle production of the thirty new wells now due to be brought in in the next fifteen days.

We earnestly desire that every church member be present, and that you from now until then pray for the success of this program. At 7:30 p. m. NATIONAL LEAGUE MOGULS WILL HOLD MEETING IN SPITE OF BAN JOHNSON

NEW YORK, Oct. 16.—Decision to force a change in the governing body of baseball has been made by the eight National League clubs, according to President John H. Heydler today. Heydler leaves tonight for Chicago, where the American League magnates have been invited to meet Monday with the National League owners and discuss the abolishment of the national commission.

"Despite the objection of President Ban Johnson, of the American League, we are going through with the meeting," Heydler said.

"All of the National League clubs will be represented at the meeting. I don't know the feeling of the American League, but I can't see how they can refuse to accept the invitation of the National League to discuss the changes that seem necessary to keep the game alive."

ARREST THIRD MAN IN CONNECTION WITH KEMP CITY SHOOTING

Goldy Sebers, commonly known as California Stepper, the third of a trio of alleged hijackers who created much excitement in Kemp City Thursday night, was arrested at 5:00 o'clock Friday afternoon by Sheriff McFall and his deputies.

The arrest was made in a tent in the oil fields about a half mile from Kemp City. He made no resistance when accosted but has been very non-communicative since taken into custody and has made no statements regarding the affair in the oil town a few nights ago.

Sebers was the second man of the two who are alleged to have taken part in the hold-up of Goodfellow's restaurant and who also grappled with Deputy Schust and Proctor at the entrance of the cafe.

Deputy Schust was removed to the hospital Friday but Saturday he stated that he was feeling much better and said he believed that he would return to duty in a few days. Proctor is suffering greatly as the bullet wounds in both legs are more serious than was at first believed. His condition, however, is not regarded as critical.

Amusements

"The Branding Iron."

"The Branding Iron," Goldwyn's latest all-star production which is being featured at the Olympic theatre today, is a picture filled with thrills and dramatic situation from first to last. The scenes of the picture are laid in the mountains of Wyoming and the leading characters are the rugged and daring mountaineers who know no law other with a swiftness and power only to be found in a melo-drama of the highest type.

The scenic beauty of the picture is as much of an attraction as is the plot and acting, so that the two elements combined give an exceptional photoplay.

Bert Lytell at Empress.

Bert Lytell once more proves his worth as a character actor in the feature picture "The Price of Redemption" now being shown at the Empress. The story deals with life of the British military in India and is built around the plot laid by a vengence sworn Rajah to exterminate all the Britians in India. Mr. Lytell has the role of a young English captain who at one time saves the Fort Akbar garrison from destruction but who later leaves the service and after an unhappy marriage in London returns to India and sinks into the sloughs of despair and worthlessness. His characterisation of a drunken and drug-crased human wreck is perfect and stamps him as a star of the first magnitude.

"Humoresque" at Majestic.

Cosmopolitans Paramount production "Humoresque" continues to draw immense crowds to the Majestic, and in spite of the fact that the picture was once shown here it's popularity has in no way been diminished. It has been remarked that all of the great pictures turned out by the movie world have been enacted by a cast which before the advent of the picture had been practically unknown to the world. This is true of "Humoresque," for with the exception of Alma Rubens, none of the stars had been heard from before. But now their fame is assured.

Heavy Demand for Seats.

The seat sale for the Dunbar production of "Robin Hood," which is to play at the Wichita theatre on Monday and Tuesday of next week has been even larger than the management had expected, but in spite of this there are a number of good seats left for the Tuesday night performance. The theatre office was beseiged all day Friday by patrons clamoring for seat reservations and demands continued to pour in Saturday.

Manager Crosbie states, however, that in view of the fact of the two nights stand, he will be able to accommodate everyone who wishes a seat for one of the performances.

MAY BE THAT SOMETHING.

So shrew a political observer as David Lawrence—and Mr. Lawrence's political inclinations are charged with being republican-wise—thinks it possible that the revolt of Herbert Parsons against Senator Harding on the League of Nations issue may be the "something" in the republican prediction that Harding would win in November "unless something happened in October." Mr. Parsons, whose republicanism is not to be questioned and who has taken a prominent part in New York political affairs for a good many years, believes "the issue is not between the League as Wilson brought it and the League with reservations. The situation in the Senate is such that the treaty cannot be ratified in the form in which Wilson brought it. There will be reservations such as will relieve America of obligations, even moral, under Article 10, and will render Congress wholly free to declare war or not, in any given case. The issue to the American voter is between going into the League with reservations and going in at all. Harding said he will be for not going in at all." The effect of Parsons' bolt, says the writer, has been to stimulate the democrats to further effort and to dismay the republicans, "many of whom in their hearts are absolutely in sympathy with Herbert Parsons and disappointed at the Des Moines speech of Senator Harding, where he definitely abandoned the League of Nations, with or without reservations or interpretations or any obligations whatsoever, and declared for a new association."

The California League of Women voters, representing more than 30,000 republican women, also has repudiated Harding on his League abandonment stand. What Parsons and the California organization has uttered is in the mind of countless thousands other republican voters who are anxious to make any movement that will help toward world peace.

REMINDED OF CAPEL.

Honor guest at a banquet before his departure for Federal prison to begin a 20-year term, "Big Bill" Haywood declared in favor of abolition of prisons, declaring there was "not a man alive who ought to be in prison. "Big Bill" is respectfully referred to another prisoner, Lord Arthur Capel, who wrote:

"That which the world miscalls a jail
A private closet is to me,
Wilst a good conscience is my bail,
And innocence by liberty."

The Texas football season now nearing the big games that will decide the real standing of the leading teams, has shown few surprises, so far as results go, this year, but A. & M.'s defeat of S. M. U. by a score of only 3 to 0 indicates either that A. & M. has not the same powerful team it had last year or that S. M. U. has become greatly stronger. S. M. U., able to get only a scoreless tie with Simmons, which is athletically speaking, only in the second flight, loses to A. & M. by the narrow margin of a field goal and was kept from making a similar score itself only by a bit of hard luck. Simmons, then, loses to the North Texas Normal college by a 7-6 score, which would have been larger, Abilene reports say, except for the Teachers' persistent fumbling. Rice beats Baylor 28 to 0, and Texas playing Howard Payne, wins 41 to 7. Things equal to the same thing are equal to each other is an axiom true in mathematics, but not true in athletics. Comparative scores, therefore, so early in the season are not things upon which to found future predictions of athletic results; otherwise, we would have an upheaval in Texas athletics this year, on the showings so far made.

Peace or War.
(New York Times.)

The men and women of the country on November 2 will vote for peace or war, for safeguarded enduring peace, or for certain and frequent wars. The republican candidate has removed all doubt about it, he has thrown off all disguise. In his Des Moines speech he has declared himself to be definitely against the League. The obligations of the Covenant, he said, "are clear enough and specific enough. I oppose the proposed League. . . . I do not want to clarify these obligations. I want to turn my back on them. It is not interpretation but rejection I am seeking. My position is that the proposed League strikes a deadly blow at our constitutional integrity and surrenders to a dangerous extent our independence of action. . . . The issue, therefore, is clear. I understand the position of the democratic candidate; he understands mine. . . . In simple words, it is that he favors going into the Paris League and I favor staying out." To this Governor Cox replies: "Now he is against the League. I am for the League."

There were two immediate and significant responses to Senator Harding's declaration. The first was the announcement that Hiram Johnson of California will now enter the campaign and make speeches for Harding. The second was that Mr. Herbert Parsons, one of the most active and best known republicans in New York, had resigned from the republican county committee, and would support and vote for Cox and Roosevelt. Mr. Parsons was formerly chairman of the county committee of his party; he has also been a member of the republican national committee; he has served two terms as republican congressman from this city. He has always been regarded as a regular republican, a zealous worker for his party. There must be hosts of others like him. It is difficult to see how the shock of this latest declaration of Senator Harding can fail to drive from the republica ranks thousands of men and women, counting themselves republicans, but sincerely believing in and upholding the principles of the League of Nations.

Mr. Harding's unstable mind, after many shiftings, has at last reached a fixed position. He wants no reservations, no interpretations; he wants no League. He is flatly opposed to the acceptance of the Covenant by the United States, to its entry into the League.

It is worse than idle, it is an affront to the intelligence of the nation for Mr. Harding to talk about his association of nations as a substitute for the League. "Can we suppose," asks Mr. Taft, "that the thirty or more nations will consent to abandon the League and begin de novo the formation of something else?" That is the candidate's only remaining disguise. His flat declaration against the League was visibly, undeniably, put forth to gain the support of Hiram Johnson, the bitterest foe of the League. He wins the support of Johnson; it will be made known during the remaining weeks of the campaign how many republican friends of the League he has driven away from his support. It is incredible that they should any longer deceive themselves. They have sought, it seems to us weakly and ineffectually, to justify their support of Harding by their confident belief that when once he became president he would use his official power to put the Treaty and the Covenant into effect, and that the senate would join with him to that end. The thing is impossible. The republicans at Washington will be rent and torn by factional strife if Mr. Harding is elected president. The bitter-enders will fight any attempt on his part to give effect to the League; they will be ruthless, they will threaten to ruin his administration and he will yield as he has now yielded.

He tries to cover his yielding to Johnson and Borah by repeating the often exploited falsehood that Mr. Wilson insisted that the Covenant should be adopted without the crossing of a "t" or the dotting of an "i." Senator Harding was in Washington when Senator Glass said in debate last winter that the president would accept the reservation agreed to by both parties in respect to Article X, declaring that "the United States assumes no obligation to employ its military or naval forces or the economic boycott to preserve the territorial integrity or political independence" of nations members of the League. Mr. Harding knows that thereupon Mr. Lodge definitely rejected this reservation, just as at Chicago he declared he would not accept a plank in the republican platform indorsing the League even with his own reservation. Mr. Lodge, like Borah and Johnson, was determined that the League should be killed. Senator Harding voted against Mr. Hitchcock's reservation, approved by the president, declaring that the military forces of this country "could be used only under the direct authority of congress."

The Covenant is a shield against a recurrence of war, a pledge of the participating nations to avoid the causes of war, to provide means for averting war, to put a stop to war if it is threatened. Objections based upon a pretended invasion of our sovereignty, upon danger to the Monroe doctrine and others based upon equally untenable grounds, have been met and disposed of times without number. It has been made clear to every candid mind in the country that the republican opposition to the league is not to the League itself, but to Mr. Wilson. The attitude of the leaders of the party is ignobly partisan and personal. It remains for intelligent men and women who enjoy the right of suffrage to search their minds and their consciences and determine whether on such motives as these they can justify and vote to keep the United States out of the League of Nations. The League is in existence, but our abstention will endanger its existence. We are now the one nation whose membership is essential to give certain effect to this great safeguard against war. If we stay out, the great nations must continue their enormous expenditures of military establishments, for the old system of international relations will in a large measure be continued, the threat of war will be ever present.

That is the question the voters of the United States have to decide on the second of November. None more momentous was ever presented for their determination. They ought to reach their conclusion not by a mindless assent to the reiterated misrepresentations of the Covenant by supporters of Mr. Harding, but by open-minded deliberation. Men and women of the republican party will be faithless to themselves if they do not candidly ask themselves the question whether it is worth while to put their respect for party ties above their hope for the peace and happiness of the world.

Side Talks

By RUTH CAMERON

Do You Expect Happiness or Unhappiness?

Do you habitually expect happiness? Or are you constantly expecting unhappiness?

A neighbor of mine left her baby in care of a competent nurse and came down to the country to visit me for a few days.

While she was with me a messenger called her to the country store to answer a telephone call. She turned pale and fairly ran out of the house. She came back a few minutes later white and exhausted. It was a hot day and the dash over in the heat had worn her out. (She had come down, by the way, because she was badly in need of a rest.)

She sank into a chair, fanning herself: "It was just the nurse calling up to say that some cousins of mine had arrived unexpectedly and called me up, and she wanted me to be in touch with them. But I was so frightened. I thought Elinor was dead."

"Dead?" I echoed in absolute astonishment. "For goodness sakes, why did you think that?" The child was perfectly well when she left it.

"Well, I had told the nurse not to call me up unless there was something important."

"But you know she would have called you up if Elinor had been taken ill. Why did you think of anything worse?"

"I don't know," she said, "but I just had a feeling she was dead, and all the way over I could see her that way."

What a perfectly dreadful state of mind to be in!

No wonder she needs a rest if that is the habitual attitude of her mind.

Or perhaps I should say that the need of the rest must be pretty bad if she has such a state of mind.

What chance has she for happiness when she evidently has her mind turned toward the worst that could happen?

It is always possible for terrible things to happen so long as the tenure of our happiness depends upon loved ones and their well-being. If one permits oneself to get into the state of mind which apprehends these terrible things without reason, one will certainly have small chance of any happiness.

An unexpected long distance call or telegram, a delayed letter, a tardy arrival of some absent loved one, means something that is wrong once in a very long while. But how many, many times, when we have fretted ourselves most terribly, there has turned out to be some simple, undisturbing explanation. If you can train your mind to expect the normal until the abnormal has come to pass, rather than the other way around, you will save yourself much unhappiness.

In one of our "uplift" magazines there was an article last month advising people to practice feeling happy by thinking of the things they have to be happy about, just as one would practice any other accomplishment. Here is a little extension of that idea—Practice expecting the good, and not the evil, to come your way.

Pirates.

The pirates used to rome the sea
With skull and cross bones flying
Spending haff their time in robbing ships
And the other haff jest trying.

They had red hankerchiffs around their heds
And nives between their teeth
And innocent ships left the ocean top
For the bottom underneeth
And meny a victim wawked the plank
Without a funerel wreeth.

They showed no mercy to enyone espeshilly to children and wimmin
And altho there was water rite there all the time
They never went in swimmin.

Some had mustashes and some had red sashes
And they took the greatest delite
In bording ships full of trezzure trove
And filing the sailers with frite
Wile they say Yo ho and a bottle of rum
And if they hert themselves in the fite
Nobody pitied them hardly at all
Because it certeny served them rite.

HOROSCOPE

The stars incline but do not compel
(Copyright, 1919, by The McClure Newspaper Syndicate.)

Saturday, October 16, 1920.

Neptune and Mercury rule strongly for good today, according to astrology. Saturn is adverse.

During this sway there will be a tendency toward confession of ideas and disturbed mental conditions.

There is a sign that seems to presage a gradual clearing of foggy thoughts. Men and women who are engaged in the learned professions should benefit.

This should be a fortunate rule for advertising. Newspapers will prosper greatly and writers will benefit during the next few weeks.

The seers foretold a tightening of the money market that will not be relieved until the new year has progressed toward spring.

Old ideas will clash with new ones, but there will be a period of apparent apathy concerning public matters that is the calm before the storm.

Again mining interests come under a menacing government of the stars, making for accidents as well as labor troubles.

Saturn is in a place read as foreshadowing a drop in wages that will cause widespread discontent.

Railways will benefit so far as physical conditions are concerned, if astrologers interpret the aspects aright. Construction and development are indicated.

Again earthquake tremors are foretold, the fifth degree, east longitude, being most likely to suffer.

Mars continues in a place that is threatening to the interests of established theatrical managers.

Persons whose birthdate it is should not take any financial risks as the year may bring many problems.

Children born on this day are likely to be large-hearted and generous. They are not usually successful in business, but they may acquire a fine art of living.

RIPPLING RHYMES

Viewing With Alarm.

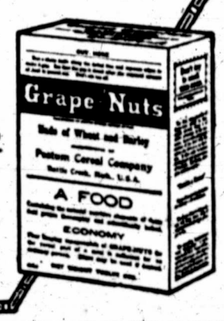

I thought, when nations were at bay, that when the war was ended, we'd all get busy baling hay with diligence quite splendid. I thought we'd lay aside the sword, the shotgun and the sabre, and try to earn our bed and board by sane and useful labor. It never once occurred to me that we would all be dotty, that from the useful tasks we'd flee, for pastimes vain and naughty. And when I saw the country crazed, I ventured to defend it; I said, "By war we have been dazed—a month or two will end it." A month or two then rolled away, and other months soon followed, and still the country was at play, and in its orgies wallowed. The speeding months are making tracks, and into years they're growing, and still we don't get down to tacks, or make a decent showing. One needs a searchlight if he'd find the man who works with ardor, who has declining years in mind, as he digs in the harder. A joyride life the boys would lead, and blow in all their winnings; in vain I rant and preach and plead—the sports must have their innings.

Wherefore, plaintiff prays that defendants be cited to appear and answer this petition, etc. Herein fail not, but have before said court at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same. Given under my hand and the seal of said court at office in Wichita Falls, Texas, this the 24th day of September, A. D. 1920.—W. T. HARRIS, Clerk County Court at Law, Wichita county, Texas. By M. F. New York Stocks, Grain and Provisions, Cotton and Livestock

COTTON MARKET.

New York Cotton.

NEW YORK, Oct. 16.—There was a renewal of Southern hedge selling in the cotton market this morning. Spot prices in the Southwest made new low records yesterday with a larger business reported and much of the hedging came from that section during today's early trading. There was also selling on the continued depression of the goods trade as emphasized by week-end views estimating Fall River sales for the week at only 45,000 pieces, and London advices indicating that the British coal strike would take place as scheduled. First prices were easy at a decline of 20 to 30 points and, while there was a good deal of covering, the market soon worked still lower under the pressure of Southern offerings and liquidation by recent buyers for a reaction. December broke to 18.50c, making a new low record and a net decline of 50 points while January sold off to 19.10c, or 49 points below last night's closing. Rumors that British railway workers were planning to strike in support of the miners were an unsettling factor.

The pressure became still more active late in the morning when there was heavy Wall street selling as well as continued pressure from the South and the break extended to 18.60c for December and 18.35c for March, or 95 to 140 points below Friday's closing quotations. Last prices were at the lowest of the day with the market weak at a net decline of 70 to 140 points.

Cotton closed weak.

New Orleans Cotton.

NEW ORLEANS, Oct. 16.—Lower cables and favorable weather cause a lower opening in the cotton market here today. First prices were 23 to 53 points under the close of yesterday, December trading as low as 15.85c and May as low as 18.37c. All months were made new low levels for the season. Not as much rain as expected fell in the belt and this, together with the unfavorable tone of weekly business reviews, helped to increase offerings.

During the second half of the session selling pressure increased and extremely heavy liquidation of long contracts came on the market. The close brought much excitement, mainly owing to the break of ten dollars a bale in October. Last prices were at net losses for the day of 105 to 200 points, October being the weakest month and dropping to 18.10, the lowest price yet made this season by a spot month.

The cotton market closed weak, 105 to 200 points down net.

NEW YORK, Oct. 16.—Spot cotton quiet; middling, 21c.

GRAIN AND PRODUCE.

CHICAGO, Oct. 16.—Trading in wheat was heavy at the start today, there being heavy and persistent buying by a strong commission house and prices advanced rapidly. After opening 1c to 2½c, the market rose swiftly above yesterday's finish, but when a house that usually acts for a leading New York trader went on the selling side, a break from the high point occurred.

There was a general rush to buy corn at the start, but on the bulge there was free selling. After starting 6c to 1c higher, with December 87½c to 88c and May 83½c to 83½c, a sharp reaction set in and prices descended.

Oats followed other grains, initial quotations being 1c to 1c higher, with December 57½c to 57¾c and May 62c to 62½c.

Wheat continued under pressure, the investigation talk seeming to have been forgotten, and the close was near the lowest point of the day, being 4½ to 6c under yesterday's final figures with December $2.13 to $2.13½ and March $2.07 to $2.07½.

Later the break in corn was checked, the trade devoting its attention to legitimate market influences and the finish was unchanged to 2½c lower, with December 87½c to 87¾c and May 91½c.

STOCK MARKET.

NEW YORK, Oct. 16.—Further buying of the junior coal shares, notably Reading first and second preferred, at additional gains of 4 and 5 points, respectively, were the only noteworthy features at the opening of today's stock market. Textiles and food shares improved on short coverings. Exchange on London hung around yesterday's low quotations.

WRESTLING MATCH ENDS IN BOXING BOUT

KANSAS CITY, Oct. 16.—Following 15 minutes of wrestling last night, the Zbyszko-Pesek match ended in a fight in which the Nebraskan's right fist sent the Pole to the mat and gave the latter the bout on a foul. Pesek got mad, claiming Zbyszko was fouling.

CONTEST BETWEEN TEAMS OF DOWN-TOWN CLASS TO CLOSE AT SUNDAY SERVICE

The contest between the two teams of the down town Sunday school big men's class, the reds and the blues, will close with tomorrow's session. Up to the present time the blues are 103 ahead. In other words the blues have the reds and it is reasonable to infer that the reds therefore have the blues. If, however, the reds can obtain superiority of fire, the reds will officially have the blues and the blues will have to pay for the chicken dinner and the blues will therefore have the blues. The blues and the reds are earnestly urged to come out in force tomorrow and vanquish each other, after which common cause will be made upon the chicken dinner.

POLAND-CHINA HOG WINS HONOR AT DALLAS FAIR

VERNON, TEXAS Oct. 16.—Long Orange, Jr., the 5 year 5 months old Poland-China hog owned by A. H. Courland, living a short distance east of town, which won third place in its class at the Dallas fair, was sired by Long Orange, the hog which was awarded the title of grand champion at the International stock show when only 6 months old. Long Orange is now in the possession of Mr. Alexander of Childress.

PRIZE WINNING BOYS ARE MEMBERS TISDAL'S CLUB

VERNON, TEXAS, Oct. 16.—The four Wilbarger county boys who were awarded six prizes Wednesday at the Dallas fair are all members of Agent Tisdal's Boys' club and have ranked high all year in work done in the interests of this organization. Newman Hughes, one of the prize winners, recently won a fine hog presented by a Childress firm to the Wilbarger county boy ranking highest in the hog rating contest at College Station in August. He also was sent as a delegate from this county on the Texas farm boys' special.

FUNERAL OF VERNON SOLDIER WILL BE CONDUCTED SUNDAY

VERNON, TEXAS, Oct. 16.—The funeral of William B. Mints, 19th company, Camp McArthur, S. A. R. D., who died of pneumonia while in the service in France, will be conducted Sunday afternoon at the Baptist tabernacle. The body was formerly buried in cemetery No. 21, near St. Nazaire, France. Mints will be given a military funeral and the local post of the American Legion will furnish a guard of honor.

SALVATION ARMY DRIVE AT VERNON HAS BEEN COMPLETED

VERNON, TEXAS, Oct. 16.—Intensive campaigning in Wilbarger county in the interests of the Salvation Army drive has been closed and the leaders are awaiting a full report from each district before making a final statement of the amount raised. At noon today the figures for the sum now on hand were $2,623.58, and the full quota for the county of $3,000 is not expected to be reached.

FARMERS ARE FACING A FORFEITURE OF THE BONDS

CORPUS CHRISTI, TEXAS, Oct. 15.—Many farmers in this district of Texas are facing forfeiture of bonds given when employing Mexican contract labor, and other financial loss due to desertion of the Mexicans, according to reports received here. Mexicans have been employed by the hundreds under agreement between Texas farmers and Mexican officials, the latter establishing a Mexican labor bureau at Nuevo Laredo, Mexico. In employing the laborers farmers agreed to return the men to the international boundary at the end of the term of their employment and gave bond for faithful performance of their part of the agreement. In the event the laborer jumped his contract the government agreed to undertake his capture, but all expenses must be borne by the farmer.

TWELVE STORY BUILDING AT SAN ANTONIO IS GUARDED

SAN ANTONIO, Oct. 15.—An armed guard was thrown about the 13-story Central Trust building this evening, watching for possible carrying out of the threat received yesterday morning that the building would be dynamited at 2:05 o'clock. The letter was signed with a blackhand, and was written in crude printed letters.

Officials believed the threat to be the work of a fanatic or a hoax.
