Merchants Set Holidays

Retail Merchants committee of the Colorado City Chamber of Commerce met Tuesday night in the Chamber conference room to decide the question of local holidays for the rest of 1964.

Both Memorial Day, May 30, and National Independence Day, July 4, fall on Saturday this year.

Members of the Retail Merchants Committee, with Raymond Fuller as chairman, voted to observe Saturday July 4 as an all-town holiday. Stores in the downtown area will remain open Saturday May, Memorial Day, the committee decided.

Labor Day, Monday Sept. 7, Thanksgiving Day, Thursday, Nov. 26, and Christmas Day, Friday, Dec. 25, will be observed as holidays. Other all-town holidays accepted by vote of the committee and designated as holidays here, with stores closed in observation of those dates in 1964.

DELEGATES PLEDGED

County Demos Strong For Connally, Johnson

Mitchell County Democrats in county convention at 10:30 here Saturday morning enthusiastically endorsed President Lyndon B. Johnson and his program.

Stories in area daily newspapers and broadcasts reporting that "The convention (Mitchell County) endorsed President Johnson but not his program," were in error and without basis in fact, Democratic leaders here said.

Mitchell County Democrats adopted without dissenting vote resolutions strongly supporting both President Johnson and his program and Governor John B. Connally and his program, according to convention delegates present.

They also pledged themselves to their "wholehearted support for President Lyndon B. Johnson by sending to National Democratic Convention under leadership of Governor Connally a delegation united in enthusiastic support for his leadership."

There was, John M. Worrell, secretary of the convention, told the Record, one expression from a delegate who said he found himself reluctant "to go along with all phases of the public accommodations part of the Civil Rights Bill."

No motion to that effect was made. There was no discussion of the delegate's informal expression of opinion. There

was no opposition on the floor to the resolutions instructing delegates to work as a unit under leadership of Governor Connally to "stand united behind the leadership of our President . . . to secure the enthusiastic nomination of Lyndon B. Johnson as the nominee of the Democratic Party for the Presidency of the United States."

Democratic Party local leaders agreed after the published report saying Mitchell Demos endorsed President Johnson but not his program, that the assumption was not true. Con-

vention in session, all Democrats questioned said, was one of harmony and unanimous adoption of the formal resolution firmly backing Mr. Johnson and the Governor of Texas, Connally.

Democrats also passed the resolution already endorsed by precincts 1 and 3 mourning the late President John F. Kennedy as "symbol of our nation's dream for freedom for all mankind."

Delegates, pledged to vote as a unit and to support the President, the President's program, the Governor of Texas, and his program, are: Otto F. Jones, Dr. H. Jene Steakley, John M. Worrell, Jack Hale,

District Judge Austin McCloud, County Judge Elmer Martin, Mrs. R. H. Ratliff Jr. and Thompson.

Alternates elected at county convention were Mrs. Thompson, Dick Gregory Jr., G. D. Foster, Mrs. Joe Bell, Mrs. McCloud, the Rev. C. C. Beck, Mrs. C. P. Gary, Mrs. Martin

many in as many public buildings as possible.

All nominees of the Texas Republican Primary in 1964 were given "unqualified support without exception or reservation."

Fifth resolution was a challenge to local Democrat leadership. It urged Republicans here to "strive to see that the past practice of inviting only Democrat office holders or candidates to be speakers at civic and public functions be discontinued and that such selection of speakers be on a nonpartisan and nonpolitical basis without preference being given to any proposed speakers because of affiliation with either major political party."

Sixth resolution reads: "Although the other political party may feel that the pledge on their primary ballot is necessary to maintain its strength in the general election, the Republican Party feels that such pledge is unnecessary and should be eliminated from the ballot of both political parties as support for the nominees of either party in general election should be strictly on the basis of principle." (See Republicans, Page 3)

Local Republicans also endorsed unanimously a total of six resolutions. Topping resolutions was one endorsing candidacy of Senator Barry Goldwater of Arizona and giving him "unqualified support of the Republican Party of Mitchell County" for nomination as the party's Presidential candidate.

Jack Cox was endorsed for the U. S. Senate but local Republicans pledged support to the winner of the runoff race between Cox and George Bush.

Convention, held Saturday morning in Baker Hotel lobby, passed a resolution in favor of more polling places for the county Republican Primary . . . and "further, that the Republican Party of Mitchell County should hold its Pri-

mary in as many public buildings as possible.

BETA SIGMA PHI 4-H CLUB WIN

Garden Club Float Takes First Prize

Garden Club members of Colorado City were awarded the \$75 cash prize for the float they decorated and entered in the Tumbleweed Festival Parade here.

Second Prize of \$50 went to Beta Sigma Phi and the float decorated by Mitchell County 4-H Club members won third prize of \$25.

Out-of-town judge Don Brooks, of the Big Spring TV station news staff, had high praise for all the Tumbleweed Festival Parade entries.

Among other favorites with the parade crowds were the Do-Si-Do float featuring square dancers, fiddling and a caller in action; the Western Riding Club float with a mock-hanging of a small boy mounted on hobbyhorse; Volunteer Fire Department Auxiliary float with firemen in action.

Garden Club's entry was a float bearing hundreds of blossoms, greenery, a garden setting, Tossing flowers from the float to the crowds was the Club's beauty contestant, Pam Roberts, wearing a bright red and bouffant formal dress.

Beta Sigma Phi, National Sorority chapter here, featured their flower, the yellow rose, and their beauty contestant for the Miss Mitchell County pageant, Riding in the opened petals of a giant hand-fashioned rose cup was Miss Brenda Phillips. Her formal gown was of yellow.

Mitchell 4-H float bore a small pen of animals—baby calf, lamb and pig, being tended by Larry Don Watlington, Kirk Stubblefield, David Stubblefield, Judy Oyler and Calvin Grant.

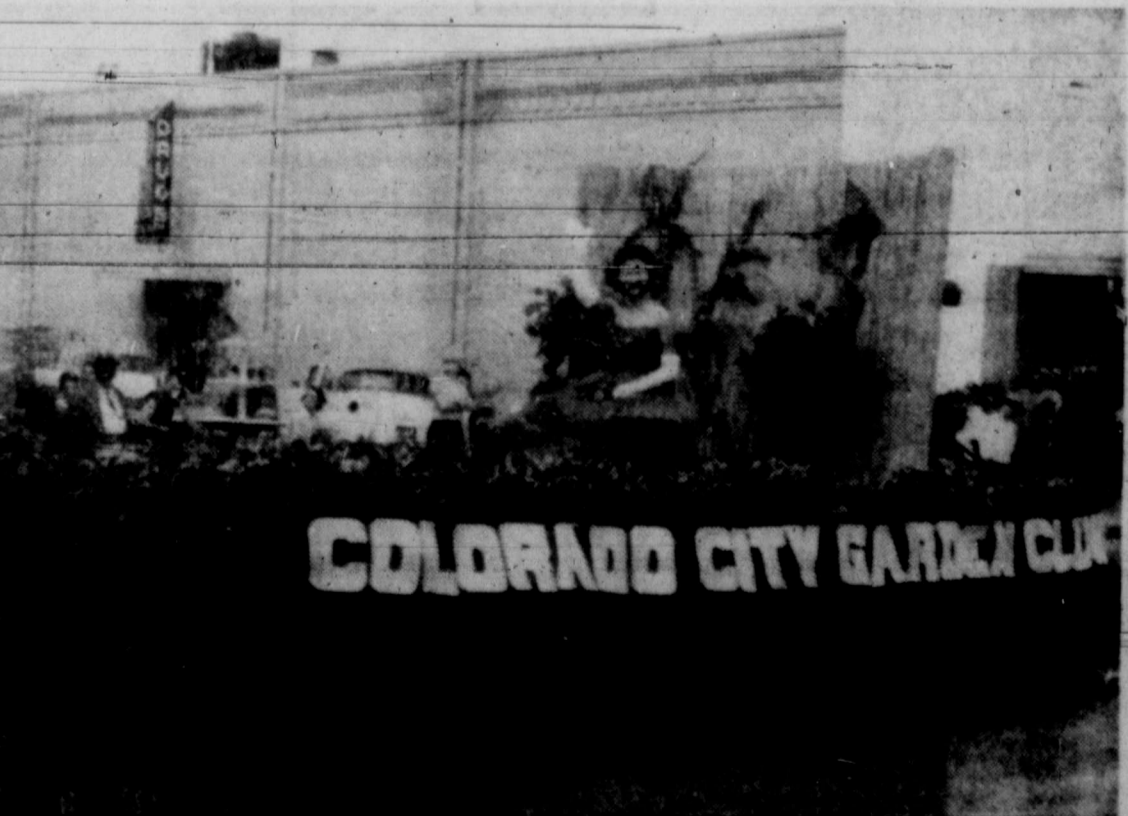

Parade for the '64 celebrat-

ion exceeded all hopes of Festival planners in grandeur, originality, color and beauty. Delay in gathering tumbleweeds at the proper season made some changes in theme necessary.

Only three "professional" floats were decorated for the parade this year. Those were decorated by Porter-Richardson and workers by courtesy of City National Bank, Texas Electric Service Co. and Root Enterprises. Those three were not competing for cash prizes.

All other floats, "skirted" with colorfully dyed tumbleweeds, were in the parade through courtesy of various business firms and merchants who paid \$25 for the skirted-flatbeds to be completed by clubs and organizations.

Attractive floats were entered by Jaycees, B&PW Club, (See Prize Float, Page 3)

Prize Winning Festival Float

Garden Club of Colorado City won the top prize offered for decorated floats in Saturday's Tumbleweed Festival parade. Members of Garden Club used flowers of every color to decorate their old-fashioned garden scene theme. They also featured a beauty, Miss Pam Roberts, in scarlet formal gown. Miss Roberts was the Miss Mitchell County beauty contestant sponsored by Garden Club.

Shrinks Hemorrhoids Without Surgery
Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Di-lyte®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.

John Tiller and Robert Cooper, second place in senior beef cattle business team demonstration; John Hill and Ronnie Smith, fourth place in senior civil defense team demonstration; Dolores Holman, seventh place in senior clothing educational activity demonstration; Charles R. Watlington, Benny Marriele, Allen Smith, Tommy Mize, eighth place in senior livestock judging team.

Adults accompanying the young people were Mr. and Mrs. Warren Anderson, Mr. and Mrs. Harry Dockery, Mrs. Tommy Marriele, Mrs. Charles Holman, Mrs. Wright Hock, Buddy Longdon, county agent, and Miss Idalia Wood, Home demonstration agent.

WRIGHT AIR COOLERS

Evaporation of water, coupled with moving air, causes a cooling effect we can feel. For maximum cooling efficiency, an evaporative air cooler must have all cooling pads equally saturated. Uneven water distribution, dry pads, or dry areas on pads, will greatly reduce cooling efficiency and comfort. That's why these features of Wright's exclusive Equi-Flow Water System are so important, and why a Wright air cooler gives you better cooling and more comfort...

You'll have all the hot water your family needs—worry-free—with a flameless quick recovery electric water heater. See the new models now on display at your dealer's.

Luncheon**

Members of Senior Girl Scout Troop No. 123 served at the Dignitaries Luncheon of the annual Tumbleweed Festival in Civic House Friday noon.

Attired in official scout uniforms of dark green, complete with jaunty caps, were Lynn Gray, Helen May, Lynda Bodine, Lenann Moore, Judy Wood, Cathy Hill, Theresa Lee and Goldie Samples. Leaders for the troop are Mrs. Austin McCloud, Mrs. Lynn Halbert and Mrs. Earline Selliers.

Decorations for the luncheon were handwork of members of the Business and Professional Women's Club. Low arrangements of roses, larkspur and other spring flowers in white vases were placed at intervals along the length of each table. Alternating with the flower arrangements were varicolored globes of tumbleweed supporting miniature American flags.

Speakers' table featured three large arrangements of spring flowers. Base of the containers was encircled in colored wreaths of tumbleweed.

Public address system used at the luncheon was supplied by the Texas Electric Service Company and operated by Tesco employes.

**USDA Survey
Cards for
Rural Routes**

Postmaster Arlene Morris reminds rural patrons of the Colorado City Post Office to be on the lookout for Jun Livestock Survey cards. Next week, mail carriers will leave survey cards in a sample of boxes along their routes.

"USDA bases livestock and poultry estimates on replies to this survey," Morris said. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carriers assisting with the survey are: Bob Motley, Route 1; Eddie Mooser, Route 2; Tom Goss, Route 3.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information for this survey will guide livestock and poultry producers in making important business decisions," Morris added.

**Navy Recruiting

Ruth Coffey's

CONVERSATION CORNER

As a lifelong believing Baptist... a disputin' and debatin' Democrat... used to take delight in standing up for a principle, no matter how unpopular, or how outnumbered by Methodists, Presbyterians, Republicans or even Democrats any gathering proved to be.

That, of course, was when we were much, much younger, more determined, less given to peeping over the fences dividing creeds, convictions and constitutions. That last word is spelled with a deliberate little letter, because the word constitution is being applied, hereth to our own constitution and to those of otherwise fine friends.

It has no kinship with the Constitution of the United States or of the State of Texas. It simply means fitness for fightin'.

NO country editor worth his piddling paycheck ever used to go to press without standing for something.

Noticed with mild interest an editorial from another West Texas newspaper the other day saying "What has happened... to country editors who used to stand firm and strong for what they believed... regardless of consequences?"

Well, what has? plenty. In the first place, let it go without argument there comes a time even for country editors when sitting for what they believe is more comfortable. It's probably lazier but it's lots handier.

IT ISN'T that us sitting for principle editors have given up convictions or faith or pride in the Party.

Maybe it's just that maturity has mellowed. Or circumstances have calmed. Or history has finished the rush of heated words. It's more likely that years have wearied a bit... lowered the boiling point.

And time has tired the tip-toes once so eager for tripping headlong into battle.

SITTING or standing this country editor is still a Democrat. Has been since the age of six.

It was a summer evening and Daddy was giving the Republicans what for at the supper table. When his little girl asked him what the difference was he gave full details.

With the audacity only a six-year-old knows she said, then, "Well, I may decide to be a Republican when I get big."

It was the last time she ever gave the G. O. P. a plug, verbal or otherwise. The result was too disastrous. As a Republican defender she went hungry. Got sent to bed without supper.

THAT'S as good a reason as anybody needs to stay a Democrat. People definitely eat better under Democratic leadership. Decided it again during the Depression.

Only reason we didn't stand on the corner selling apples

during that period was that our children ate the apples before anybody else could realize profit.

They also learned the taste of oelo and apple butter on bread during the Republican administration when they were tots. And are as staunch Democrats as you'd care to meet, to this good day.

THAT preamble is by way of saying that we, personally, have lived long enough to have earned the right to sit for principle instead of standing up for it so long and loud.

So long as you don't sit on the fence, you're doing all right, we always say.

SHOULD like, however, this once, to take a short stand again. It is a stand concerning the opposing party's dapper Presidential candidate from Arizona and his stand concerning the settling of things in Cuba. By force, if necessary, immediately, if not sooner, P. D. Q.

How come the opposing party hollers so loud about something they kept so quiet about so long... all the time the last Republican administration was dumping it on the Democrat Administration doorstep?

Better think twice... or twenty times... all you parents of sons of fighting age.

HEAR TELL department: Ababel Kelley, wife of the late Frank H. Kelley who was chairman of the Texas Good Neighbor Commission is in Mexico City for the International Good Neighbor celebration. She left Sunday with Philip and Minna Berman who visited Mexico and the celebration with Hy and Alice Berman and the Kelleys in 1963.

Hear, too, that up at the Austin McCloud household Debbie Weatherley, 9, of Clayton Ga., is guest of Melinda and Sharon, Austin and Mary Anne, for two weeks. She's enrolled in school here during the period while her father George Weatherley trains with Officers, reserve in San Antonio. Debbie's mother is a longtime friend and once taught school with our Mary Anne.

SEEN LATELY this time include Bob Carver with fine new figures in the Cancer Crusade... Frank W. Wilson with Colorado High School commencement plans... Mrs. John Brown... Bob May... Mae Dunn (Mrs. Glenn).

Also Mrs. J. W. Hill... Marian Craddock (Mrs. Jay) that attractiv red-head, arms full of graduation gifts... Mae Fuller... Mary Post with news of the wedding in Italy of her smart-looking blonde daughter Martha Jo, who married an Italian lawyer.

Saw Mrs. Stewart Cooper at Parade time, Saturday.

BRIEF ENCOUNTERS: most fun of all was greeting the local law enforcement officers and the visiting highway patrolmen who helped direct traffic for Tumbleweed Festival Parade, all late-lunching at the Villa.

Saw our genial Police Chief Leon Yeager and our nice Sheriff Lewis Claxton... Buddy Hertenberger, Texas Highway Patrolman stationed in C City... Seima Dickson... Inez Hodges... Gloria Lee Crowder (daughter of the late Dr. Lee and Hester Lee) dispatchers for Colorado City Police Station... Deputy Roy Richards... and a dozen starvart highway patrolmen.

Couldn't decide whether it would be a good time to run out and stick up a bank... or just behave. Did feel mighty proud of the looks of those people who keep the peace in our town and on our highways.

OTHER PLACES, other faces have been those of Warren Costin... Eddie Kissinger... The Albert Jankes.

Met for the first time Bennie Rogers, wife of Rev. Neil Rogers, and their two sons Gary and Mark, going to the Parade.

Those attractive hostesses for Tumbleweed Dignitary luncheon, by the way, were Mrs. John Denton, Mrs. Ben Sparks, Mrs. Bob Berman, Mrs. Don Butler, Mrs. Rosella Ball and Geogrene Redman.

Mr. and Mrs. Altis Clemmer visited his mother, Mrs. Elbert Clemmer, in Cisco, and her parents, Mr. and Mrs. T. L. Ramsey, in Clyde, last weekend.

THE PAYOFF...

Colorado High baseball team is battling for District 3-AAA championship. Freddie Fox is the No. 1 broad jumper for Texas AAA schools, and Steve Hillhouse at Texas A&M is the outstanding sophomore pitcher in Southwest Conference.

Incidentally, Fox's winning 23.5 foot broad jump at the state meet would have tied for third in the Southwest Conference track meet at TexasTech last weekend.

Our idea, though, for mentioning these athletes was to bring into focus the real payoff. Hillhouse is at A&M on athletic scholarship grant. Bill McGuire, the football lineman, has accepted a similar award from University of Texas. Fox is certain to receive the same from a college or university.

And for the three, these athletic scholarship grants with board, room, etc. will count up to more than \$35,000 in four years, pretty good payoff, don't you think, for our high school athletic program.

events, such as horse races, golf tournaments, tennis matches, sket and trap shooting is illegal according to Atty. Gen. Waggoner Carr. He says the Calcutta Pool system constitutes a lottery.
Carr also held a district court may not commute (shorten) the sentence of a parolee, since state law vests the power to grant reprieves and commutations in the governor.

In another opinion, Carr gave the state insurance board a go-ahead to prevent insurance firms from offering credit as a customer come-on.

FARM-TO-MARKET— State Highway Commission announced "a sweeping program" to build more than 1,000 miles of new farm-to-market roads in 166 Texas counties.

With 37,143 miles of FM roads now in the state, the estimated \$23,000,000 project would bring the total to more than 38,075 miles.

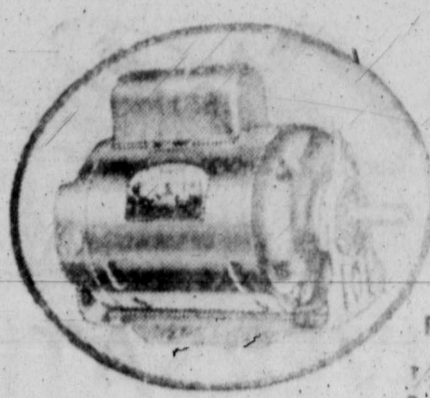

The sprawling Farm-to-Market system began with a 6-mile stretch built in 1963 between Mount Enterprise and Shiloh in Rusk County. Commission's goal is 50,000 miles of FM roads.

George Mahon Vital To Our Nation

Distance is far between the sandy lands around Lorraine and the capitol dome in Washington, D. C.

Even farther, relatively speaking, are the steps separating Mitchell County Courthouse and the vital national post as No. 1 Congressional watchdog over every dollar our U. S. government spends.

George Mahon has traveled both distances with the respect of his constituents, and those who work with him in the halls of Congress.

This statesman, whose dignity is accentuated by a youthful frankness beguiling of his three score and plus years, stepped into this top Congressional position Tuesday with the death of Rep. Clarence Cannon, 85, of Missouri.

Mahon immediately became chairman of the House of Representatives Appropriations Committee, the position Cannon had held for years.

The step up into the committee chairmanship came because of dual reason—Mahon's seniority among majority Democrats on the Appropriations Committee and because of distinguished service as chairman of the committee's Sub-Committee on Military Appropriations.

Congressmen and Washington leaders from the ranks of Democrats and Republicans joined President Lyndon Johnson in recognizing Mahon's importance to our national government and for his expert capability and service. And the Congressman from Colorado City served notice that he intended to keep tight supervision over U. S. purse strings by

revealing that he would continue as chairman of the Military Appropriations Sub-Committee as well as chairman of the overall House Appropriations Committee.

No doubt, the average citizen has difficulty in realizing just how prime and complex is the Congressional job of Mahon. The longest personal budget is infinitesimal to that of our government.

As Defense Appropriations Sub-Committee chairman, Mahon has become our nation's foremost authority on the gigantic defense spending. The billions of spending he mapped and guided each year for our national safety—and, all the while, earning a reputation for prudence and economy wherever realistically possible—totaled more than half of our nation's entire spending.

Now, not only the defense spending—but the entire lump of Congressional appropriations for our nation comes under his chairmanship.

This is a tremendous Responsibility that George Mahon assumes. It also is an honor—personally as well as nationally.

At the same time, it is a credit to the folks here at home in Mitchell County and throughout the 19th Congressional District for their ability to send a statesman of this caliber and devotion to the U. S. Congress.

And we are sure that through the years the spending dollars of our government will be in the wise and prudent hands of a man who will be fearless for the best interests of his country.

Political Sacrifices For Tomorrow

It's about time someone gave credit where credit is due with Mitchell County Republicans.

They conducted their own primary election this month in the interest of government and their own brand of politics.

So what?

Well, to be factual about the matter, they struck a blow for a healthy two-party system within our county and state. And in doing so, they sacrificed the right to vote their primary election choices for precinct and county offices here at home.

Republicans are building their party machinery throughout the state and in areas like this, where organization is relatively new, the list of GOP candi-

ates usually is confined to state and national offices. Home area campaigns—county commissioners, courthouse and precinct officials, state legislators and district judges—still are almost exclusively with Democrats.

So, it is true party integrity and interest when Republicans vote in their own primary and automatically give up their opportunity to have a voice in selecting those officials to run their local government affairs.

In the years to come, this kind of party loyalty will build the kind of Republican politics that will supply strong candidates for every office—through precinct, county and district.

It's a sacrifice, all right. But only for the time being.

IT'S AMAZING!

STATE CAPITAL HIGHLIGHTS

Legislature To Keep Same Political Tone

BY VERN SANFORD
Texas Press Association

Conservative tone of the Texas Legislature was little changed by May 2 primary results.

Thirteen members of the Senate and 101 Representatives won re-nomination.

There will be two new Senators. Former Rep. Jack Hightower of Vernon will replace veteran Sen. George Moffett of Chillicothe who is retiring. Successor to Sen. Frank Owen III of El Paso, who did not seek re-election, will be decided in the runoff between Rep. George Cook of Odessa and former Rep. Pete Snelson of Midland. Winner still must face Republican opposition on November 3.

Democratic incumbents in State offices polished off their primary opponents and turned to the job of running against their Republican opponents in the November general election.

The two primaries resulted in two runoffs, to be held on June 6.

Republicans George Bush and Jack Cox, both of Houston, will vie for the right to face Sen. Ralph Yarborough in November for the U. S. Senate seat Yarborough now holds.

Democratic Congressman-at-large Joe Pool of Dallas

will be in a runoff with Robert W. Baker of Houston for nomination to that state office.

Outside the U. S. Senate race, all Republican primary candidates for state office were unopposed.

TRIAL COVERAGE — A State Bar Subcommittee will meet here on June 12 with the state's major news associations to discuss coverage of court trials.

Representatives of United Press International, Managing Editors, Associated Press Managing Editor, Texas Daily Newspaper Association and Texas Press Association have been invited to the first of three conferences. Radio and television broadcasters and law enforcement officials will be invited to confer with the Bar's Subcommittee on "Trial News Coverage" in subsequent meetings.

The subcommittee has instructions to study and make recommendations concerning proposed standards of conduct or statements of principles governing parties involved in news stories related to prescriptive or penal litigation, civil and criminal.

HIGHER EDUCATION — The Committee of Governing Boards of State Colleges and Universities called for a "giant step" to upgrade higher education in Texas next year.

In a new brochure, the voluntary group of regents from different institutions terms 1965 a "year of destiny" for education.

Meanwhile, Gov. John Connally's Committee on Education Beyond the High School got together to edit its preliminary draft of a report on how to achieve that "giant step" necessary to make Texas colleges and universities best in the U. S.

TEXTBOOK COMMITTEE — The new State Textbook Committee was sworn in on May 8.

Group, which will read and evaluate 250,000 school textbooks before making recommendations to the State Board of Education, is made up of:

Edsell F. Bittick, Texas City; Mrs. Edna B. Boor, Austin; Henry Bennett Cooksey, Lohndow; Durward Grubb, Abilene; Mrs. Steve Ross Harris, Denton; Mrs. Ruth Hicks, North East San Antonio; Fred W. Hunter, Beaumont; Mrs. Evelyn Kidwell, Mt. Vernon; Smith Markham Richardson; James W. Martin, Arlington; Bruce E. Oberholzer, Mexie; Mrs. Fay Richey, Bonham; Manuel Salinas Jr., Fallurries; Mrs. Hester Still, Amarillo; and Keens C. Van Orden, San Angelo.

JUDGE APPOINTED — Governor Connally named James E. Parker Sr. of Beaumont associate justice of the Ninth Court of Civil Appeals to fill the unexpired term of W. T. McNeill, deceased. Connally also appointed Charles L. Reynolds, Childers County attorney, judge of the 100th District to fill the unexpired term of judge

Luther Gribble, deceased.

Both appointees are Democratic nominees for the judicial post. Connally said earlier he would appoint winners of the party primaries to the unexpired terms.

SCABIES EASED — California has eased a dipping order for Texas cattle, reports Animal Health Commission Director Dr. R. G. Garrett.

Only cattle shipped to California from the counties of Childers, Cottle, Garza, Kent, King, Taylor, Stone, Wall, Terry, and Yeakum need to be dipped under the new regulation, Dr. Garrett said. All cattle still need a permit for California and a inspection certificate certifying freedom from scabies.

AMENDMENT PLACES

Three constitutional amendments to be voted on November 3 will appear in this order on the ballot:

No. 1: Amendment to remove authority for transfer of state funds from the permanent school fund to the available school fund.

No. 2: Requiring advance publication of bills to create, amend, or repeal a district or amend financial powers and boundaries of existing districts.

No. 3: Authorizing Legislature to provide for vendor payments for medical care for citizens 65 and over who are not on old-age assistance and are unable to pay for medical services (and including glasses in medical services provided).

Place of the proposals on the ballot was determined by drawing numbers in the office of Secretary of State Crawford Martin.

New Processes Good for Cotton

BY JOHN C. WHITE
Agriculture Commissioner

Cotton that has been treated with a "locking" process can now be processed with a "locked-in" shape.

With competition growing each year from synthetic, any new development in cotton is good news for Texas farmers. The radically new developments in recent years show promise of giving cotton producers a much needed shot in the arm.

The process being used to hit the market will, in some cases, be used to deal with the cotton bolls. Ladies should be aware of the types of shapes which can be snapped back into shape with the process.

Now comes a process which permits the bolls in a cotton field to be treated with a multiple number of treatments using the process.

Each time a process is used, the bolls should be able to stand and cut costs of production.

Oddly enough, the development of this process has contributed directly to the health of the permanent cotton crop.

Chemists are working with more than 100 different

by a process called slack-mercerization. Since these fabrics are fitted contours well, the chemists reasoned that if they were treated properly, they could be stretched "back to shape" and molded to a permanent shape.

The mending process would not involve treating the fabric with a solution of sodium hydroxide, which gives stretch by making the fibers and yarns, twist and shrink. Next, the cloth is wet with a solution of the type used in the wash-wear cotton. It is stretched over a heated mold of a desired shape. The heat of the mold sets the fabric and causes the chemicals to "lock" into shape.

The chemists see several advantages for mending cotton and more bound to be discovered as the process is used. For example, mending the pointed toes of shoes made of fabric would eliminate the folds and make the shoes look better and fit better. Furniture manufacturers would find mending fabrics particularly helpful in simplifying the thus speeding production of sofas, chairs, and other upholstered items.

There seems to be no limit in the future of King Cotton despite the growing competition.

ACCENT ON HEALTH

Medical Care for Expectant Mother

BY J. E. PERRY, M.D.
Commissioner of Health

One of the first things an expectant mother should tell her doctor is that she should be his physician.

Every woman who suspects that she may be pregnant should see a doctor promptly to obtain the benefits of modern medical guidance.

The need for medical care throughout pregnancy and following birth cannot be overemphasized for keeping babies and mother's health and peace of mind.

What ways does a doctor help the expectant mother during pregnancy? The doctor gives an expectant mother a careful physical examination to determine her general condition. He answers questions she may have about pregnancy and birth.

To hear the unborn baby's heartbeat and follow his growth and progress. In the final month the doctor will see the expectant mother about once a week.

He tells her how to prepare for the baby's birth and her stay at the hospital. A preview visit to the hospital is a good idea so that when the time comes she will know where to go and what to do to be admitted. The doctor makes the hospital arrangements so that everything will be ready when she arrives.

With early and continuous medical care and advice, the big day should be as rewarding as anticipated for mother, father and baby.

OPINIONS — The "Calcutta Pool," a betting system used in some sporting events, is being investigated by the state.

Usually there need be little if any change at this time her customary daily life. Any fears she may have can be talked over, and explained.

During the first six months she visits the doctor but once a month. This enables him to keep check on her general condition, blood pressure, pulse and weight as well as to make any appropriate laboratory tests.

The doctor also treats possible discomforts such as constipation or morning sickness. He tells her what to watch for and answers questions that may be troubling her. The doctor is trained and willing to talk over any emotional problems, worries that may arise.

About halfway through pregnancy, the doctor is able

SENATORIAL REPORT

Testimony Urges Imports' Cutback

RALPH YARBOROUGH
U. S. SENATOR

On my return to Washington this week, I testified before the U. S. Tariff Commission, a fact-finding body, to strongly urge a cutback on imports of foreign-produced beef, and to show the Tariff Commission how heavy imports of beef are hurting our domestic livestock industry.

The Tariff Commission will reach a decision on the extent of meat imports damage to the livestock industry in the United States, and will make its recommendation to the Senate Finance Committee as to whether or not imports should be curbed.

I strongly support the position of the cattlemen in Texas and other meat-producing states, that the 11 per cent rate of imports is far too high and must be reduced.

The situation in Texas, which I reported to the Tariff Commission and which

exists in other western and southwestern states, should be convincing. Texas livestock producers have lost more than \$22 million in value in beef on the hoof in the past two years alone, based on the estimate of Secretary of Agriculture Freeman that American farmers lost \$370 million due to the 1962-63 drop in beef prices.

I am co-author of S. 2525, a bill to sharply reduce foreign beef imports.

In 1962 and 1963, Texas farmers marketed 3.6 million head of beef cattle, 13 per cent of the nation's total. There are 180,000 farms and ranches with cattle in Texas, and much of this land is good only for grazing.

It is up to the Tariff Commission to recommend to the Senate Finance Committee that a reasonable import quota be established, giving full consideration to the massive losses already inflicted on our domestic industry.

See Testimony Pg. 2
