School Bond Election Pending

Building Program Set For Westbrook School

Westbrook school board is planning a building program for the school which calls for a new auditorium and an addition of office space and work space to the present building.

The board has been working with Don Hampton of the architectural firm of Hampton and Welch of Sweetwater, on preliminary plans for a general remodeling of the school.

Cost of the new building and remodeling will be about $400,000, said Supt. L. M. Dawson. The board entered into a contract with First Southwest Company of Abilene to serve as financial advisor on a school bond issue election to be held sometime in July.

Dawson said the tentative date for the election is July 20, with the board to meet in special session June 25 for the purpose of calling the school bond election.

Westbrook recently paid off $177,000 in bonds twelve years before the due date of 1986. Dawson said that the new bond issue will not increase the tax rate for the school district, which is presently 35 cents on $100 of valuation, based on 25 per cent of actual value, a total district valuation of $17,000,000.

The proposal calls for $400,000 to be issued in bonds to be paid off over a 9 and one-half year period, with $40,000 to be retired each year. Dawson estimated that the school district would have funds available to retire the bonds at an earlier date, just as the previous bond issue had been handled.

Half of the $400,000 will be used for new construction and half for remodeling.

The new audtiorium will be built as a separate building on the south part of the campus, connected to the present building by a covered walkway on the southwest side. Additional parking space will be built on the west part of the present campus.

The 6,638 square-foot auditorium will have 398 seats, be carpeted, have a stage agea with dressing rooms and restrooms off the stage and have additional public restrooms and a ticket office in the foyer.

An office addition of 1,300 square-feet will be made connected to the south side of the present office space in the school.

Plans call for expansion of teacher workspace, expansion of the superintendent's office with room for board meetings, a secretary's office, storage and room for a tax office in the future.

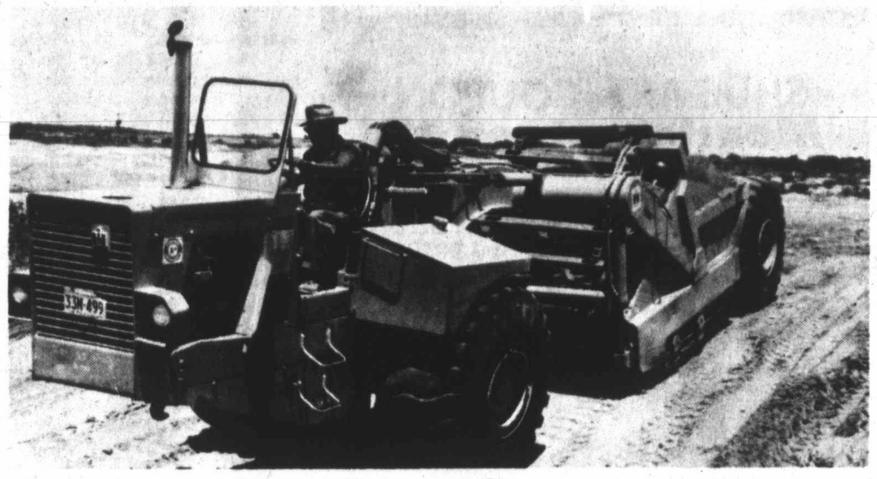
Remodeling plans call for carpeting and classrooms and halls, installing a new air conditioning and heating system and a new ceiling.

Dawson said that restrooms will also be re-worked to meet state guidelines concerning facilities for handicapped persons.

The library will also be reworked to include more shelf space, as materials are now overflowing the present space.

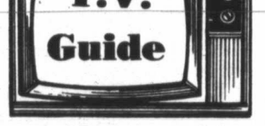
Dawson said that the board is also looking into the possibility of building tennis courts on the east side of the gymnasium and the gym will also have a new ceiling installed.

School board members are E. A. Oden, Rex McKenney, Cleburne Rich, Jerry Webb, James Dorn, T. A. Whitesides and Floyd Ritchey.



City Rents Scraper

Julian Mendosa operates a scraper which was rented by the city of Colorado City for a thirty-day period at a cost of $1,800. Although the rental seems high, city manager J. A. Sadler Jr. pointed out that the city has saved almost 50 per cent of the cost of digging dump pits at the city dump, since the cost for the last pit dug was $3,300 for one. Mendoza has constructed four pits in the 30-day period. Machinery was rented from Plains Machinery of Abilene.



A T. V. Guide for county television viewers, sponsored by Dairy Frost and Dairy Queen, Ramage Appliance, Eddie's Pharmacy and Texas Electric Service Company, can be found on Pages 4 and 5 of this issue of the Record.

The coming week's T. V. schedule, for June 16-22, gives channel and cable programming.

Matlock Builds On I-20 Site

V. W. Matlock, who owns and operates Matlock Butane and Matlock Farm Supply, has announced plans to construct two buildings just off Interstate 20 near Wood's Boots and Fuller's Truck Town.

Wadleigh Construction of Snyder, in charge of putting up the two steel buildings, has already begun operations at the site, laying concrete foundations for the buildings.

Plans call for a 70 by 150-foot main building, to house offices, showroom and shop, and an additional 40 by 60-foot wharehouse.

Matlock has been preparing the 9 acres for the past few months, having already installed a cyclone fence around the area.

He estimated that the building would take about three months and then moving both his operations into the two buildings would take an additional three months, so that he is hoping to be installed for business at the new place before Christmas.

Matlock handles Case, David Brown and New Holland machinery and sells Safemark tires.

Bicycle Safety Rules

Bicycle riders should take care that their bicycles meet new reflector requirements for bicycling safety.

J. C. Britton, owner of Western Auto Store, explained the new requirements, saying that the bicycles should have reflectors that would show up from any angle.

What this means is a white reflector on the front of the bicycle, a red reflector on the back and amber reflectors on both wheels, installed on the spokes in a way that will not interfere with the operation of the bicycle.

Light will reflect off these little discs and give a motorist warning that a bicycle rider is in the line of traffic.

Chief of Police Jesse Browning also advised bicyclists that they should go with the traffic and not against it as was advised several years ago. A bicyclist should also observe all traffic rules and signs that apply to other vehicles, he said.

No One Shows Up At Meeting

Another meeting for the purpose of placing names on November's general election ballot for the office of Justice of the Peace, Precinct #1, will be held this week, advises chairman of the precinct committee, G. D. Foster.

The meeting is set for 7 p.m. Thursday in the Community Room of City National Bank.

A meeting was held last Thursday for the same purpose but Foster said no one showed up.

Foster, who said that three people had talked with him about trying for the office but none had submitted written applications, pointed out that two steps are necessary in making application for the office.

The first step is to write a letter of application and send it to G. D. Foster, 247 Walnut, Colorado City 79512.

Second step is to appear in person before the committee of Foster, Precinct #1 chairman; Truman Bodine, Buford voting box, Precinct #5 chairman, and Tom Rees, chairman of the county Democratic Party.

A person seeking the nomination should also be a resident of Precinct #1, Foster pointed out.

Perry Barber was recently appointed interim Justice of the Peace, Precinct #1, to fill the post left vacant by the resignation of Leonard Henderson, who resigned after winning the Democratic primary election for another term.

A name for the party nominee to the position must appear on the November ballot. There is no Republican candidate for the office.

Home Improvement Contest

Some entries have been made in the Home Improvement Contest sponsored by the Community Development Committee of the Chamber of Commerce.

Persons wishing to enter their home in the contest, which will be judged on the basis of most improved appearance of the home, are asked to contact either of these places: Chamber of Commerce, Sanderson Carpet, Colorado City Record, Adams Chevrolet, Holbert's Appliance or Mary's Flowers.

Prizes will be awarded after the July 1 deadline. Prizes will be $50 for first place and $25 for second.

Entry should be made before improvements are begun so that pictures can be made. Then, after the improvements are finished, pictures will again be taken and judging will follow after the July 1 deadline.

Scouts Aid Paper Pick-up

Boy Scouts and Girl Scouts have been working in the hot sun, aiding Woodland School with a paper drive. Boy Scouts from Troop 20 are shown in the top picture making a round through the downtown area. From left, Kelly Welch, Allan Dockrey and Kelly Dockrey are loaded down with old newspapers. Girl Scouts in the bottom picture, from left, are Nancy Robertson, Patty Goodlett and Mickie Palmer, as they get ready to pick-up more papers for the paper drive. Pick-ups will be made every month or possibly every two months, said Mrs. Marion Bassham, who is a worker with the paper drive for the school.

Housing Survey Needed

Wednesday Meeting With Fort Worth Builder

Representatives of Sabine Valley Real Estate, a Fort Worth building firm, met with members of the Industrial Team, city officials and persons interested in Colorado City's housing situation, in a meeting Wednesday afternoon.

Lee Newman, Texas Electric Service Company representative, accompanied the two Fort Worth men to the Colorado City meeting, which was one of their stops on a tour that included a wide area of West Texas cities and towns.

The result of the meeting was a decision to take a housing survey in Colorado City, which means in the county and area, as a number of people have expressed interest to Industrial Team members in moving to Colorado City if housing were only available.

People who are interested in building a family home or in living in an apartment in Colorado City are asked to turn in their names to either of these places: Root Memorial Hospital, Chamber of Commerce, Colorado City Savings and Loan, City National Bank, Colorado City Record or Radio Station KVMC.

Plans of houses are on display in the City National Bank, Colorado City Savings and Loan and the Chamber of Commerce.

Many people in the city may know of others who are presently trying to find housing within the city and are asked to let any of the above places know names and addresses of such people.

Housing built by Sabine Valley are built on the site, not prefabricated, and can be built to the owner's specifications.

Representatives of various types of financing arrangements also discussed the methods home-builders might choose in paying for their new homes.

For convenience in taking the survey, the Record is publishing the following form to be clipped and mailed.

No committement to buy or rent is implied by filling out the form.

Housing Survey

In order to establish need for housing in Colorado City, both individual family homes and/or apartment housing, members of the Industrial Team, Inc. board of directors are asking that the following form be filled out and sent to P.O. Box 92, Colorado City 79512

Ruth COFFEY'S CONVERSATION CORNER

PEOPLE in this country make much of Mother's Day. It is an acceptable social fact that paying tribute to Mother is an admirable thing and that any people who don't honor Mother need to be taken out at sunrise and shot.

FATHER'S DAY is far less sentimental, less unanimous, though one wonders why. Maybe because it's less expensive, not advertised so long and so well and Father had rather forget the whole thing anyhow.

But good fathers deserve tribute and special expressions of love not just today but every day--whether they're called Father, Daddy, Dad, Papa, Pop or Pa.

* * *

GOD is Father of the world, remember, and one favorite scripture says it all. It goes "As a father pitieth his child."

The Lord's prayer begins "Our Father..."

In this generation gap era, father all too often plays second violin...sits on the substitute bench...while mother stars as head of the house and the children really run the whole show.

Father is the giver. Some of the rest of us are just takers of the billfold.

* * *

SOMETIMES wonder if my own father ever really knew how deeply he was loved, admired and appreciated. Like to think he did.

We always called him Daddy. He wanted it that way.

Daddy was great--but in his own way. There was usually a twinkle in his very blue eyes. He also was fun and funny--in his own way. He loved to read poetry aloud, laugh at the most unexpected things, and sing all the music of Stephen Foster, sing "After the Ball... I Wonder Who's Kissing Her Now"...and doted on parodies he thought up himself.

* * *

HE loved to tease, particularly tease Mother. Once, when she objected to the fact he never called her pet names in public he decided to call her "Queenie" at home for a few days.

He quit it when she threatened to see a lawyer.

* * *

HIS favorite topics were history, books and politics. There was a streak of Will Rogers in him. He never met a man he didn't like--or if he did he kept quiet about it except for the three Republicans in our little town.

He was a push-over for any book salesman and had to build on an extra room lined with shelves to hold the overflow.

He also had to have the garage built over when he drove his first car straight through the back wall and sat there laughing while the kids and Mother screamed like sirens.

* * *

DADDY was very particular about the rearing of his daughters. They were going to act and speak like ladies--or else. All three were required to take and stick with piano lessons, bring home A's on the report card, and go to college. When dating time came half the boys in town were scared to death of him.

The son, Charles, got asked regularly "Son, do you want to grow up to be a ditch digger?" if he got out of line.

Daddy had character. After years and years of cigars he quit smoking in exactly one day.

* * *

HE liked good clothes both for himself and his family...red ties, spotless white shirts, new suits and daily shined shoes, for instance.

He adored holidays with fresh cocoanut cake, ambrosia and fire works. He liked Sunday afternoon rides in the country and the post oak region...vacations at the beach.

One of his favorite people was "Uncle Barry" who kept the vegetable garden, the wide green lawns, the terrace, the fruit trees and the back fences.

Daddy refused to go to prayer meeting but highly favored revival meetings under the stars. He rarely--or almost never prayed in public but his blessings at the table were eloquent if a bit brief.

* * *

NOW might as well face it. Daddy not only had character he WAS a character. He read four different city newspapers...the old Literary Digest.

He traveled a lot in his business and once informed his then small grandson Bill, "GrandDaddy lives in his grip."

He was sweet and dear and almost too generous. Still, he was a very volatile man. His occasional and sudden outbursts of temper were thunderous, inexplicable and not always controlled very well even for benefit of neighbors up and down the block, probably listening in.

* * *

DADDY had a special vocabulary for freezing mornings when his car refused to start. Accidentally overheard it once and ran to the kitchen to ask Mother "What is an S.O.B.?"

"That, Darling, is your father's pet name for the car when there's a blizzard. He swears the thing won't go until he calls it that ugly name," she smiled by way of calm explanation.

* * *

BUT he taught me so many other, so many beautiful things...the names and position of stars...how to spot the big and the little dipper...the bear...the milky way...the names of trees...how big oaks grew from little acorns...names of authors and famous people from all ages...beauty everywhere.

Taught undying love for this country, patriotism if you please. He was the most truly patriotic man ever known personally.

* * *

SO this Father's Day want to pay tribute to Daddy, a marvelous, unusual, brilliant and different man who died suddenly when he was 63.

Hope you will pay tribute to yours, some way, if only in memory. If he still lives in this world pat him on the back, kiss him on his forehead, present him a little gift he will pretend to like. Tell him you love him.

Count yourself blessed. Let him know you appreciate him. Smile.

Fathers deserve it.

Awards To Be Given For Penny Return

One of the most patriotic acts Americans of all ages can perform today is emptying the family piggy bank, according to Peggy Bagwell, Assistant Cashier and Head Teller of the City National Bank.

She said the nation faces a penny shortage that costs taxpayers millions because people are withholding some 30 billion pennies from circulation.

This means that nearly half of the 62 billion pennies the U.S. Mint has produced in the last 15 years are in hiding. The Mint is still producing one-cent coins at a rate of 35 million a day, she added, yet there still aren't enough pennies to go around in many areas of the nation.

She urged that families start gathering those pennies that are hiding in pickle jars, old socks and piggy banks and bring them into the bank so the nation can get Mr. Lincoln back among the people where he belongs.

June has been declared Penny Redemption month by the Mint in an effort to cure this artificial shortage.

"For every $25 worth of pennies cashed in at the bank, the U. S. Treasury is going to award an Exceptional Public Service certificate to the individual or group responsible," Mrs. Bagwell said.

FHA Now Offers Low Interest Loans

The Farmers Home Administration (FmHA) of the U. S. Department of Agriculture (USDA) has initiated a program to further encourage the use of existing housing and provide better homes for low-income rural families through low interest home improvement loans.

The agency can now provide "interest credits" to reduce the effective interest rate on loans made to rehabilitate or repair a dwelling that a borrower already owns, and either lives in or will live in once it is brought up to standard.

Loans of up to $7,000 may be made for repairs that will improve and modernize sub-standard dwellings, so as to provide adequate homes in rural areas. Terms for repayment of the loan may be as long as 25 years.

To be eligible for a FmHA home improvement loan with interest credit, the housing must be located in rural countryside or a rural town of not more than 10,000 people. The loans are designed especially for low-income families.

Under this program, interest credits may reduce the effective interest paid by the borrower to as low as one per cent if the adjusted family income is less than $3,000. If the adjusted family income is more than $3,000 but less than $5,000, the interest rate will be two per cent. If the adjusted family income is between $5,000 and $7,000, interest will be three per cent.

The policy of making interest credit and repair and rehabilitation loans is another method of utilizing the existing supply of housing to improve living conditions for low-income rural people.

Farmers Home Administration is the Department of Agriculture's rural credit agency for family-farm agriculture, town and country housing, community facilities and business enterprise supportive of rural community development. Loans are made through 1,785 county offices throughout the country. Office locations can be found through telephone directory listings under U. S. Government--Agriculture Department. Benefits of programs supported by the agency are made available without regard to race, color, creed or national origion.

Electrical Storm Causes Fires

An electrical storm in the Colorado City area Tuesday night caused a number of electrical fires in the city, which were quickly handled by Volunteer Fire Department workers.

First call was at 10:46 p.m., a fire in an attic air conditioning unit at 879 E. 13th.

A call at 11:55 p.m. brought firemen to some electrical lines across from 543 Vine and while firemen were there, also put out a fire on the roof of a house at 6th and Vine, the outside insulation of an air conditioning duct.

A call at 12:09 took firemen to a pole across from 701 E. 4th where an electrical line was down in the street.

Last call of the night was another roof air conditioner in a house at 19th and Colorado.

Firemen quickly dispatched each of the fires, and Fire Marshall R. L. (Mike) Mikle said that not too much damage was done.

Sound Advice:

A new concept in helping the hard-of-hearing

By DARYL KING

Up until the past few years, a lot of hearing aid dealers sold only one brand of hearing aids. Not that it mattered. The differences between brands were small, the technology was relatively unsophisticated, and the aid you bought was probably as good as any.

Daryl King

Today, this has changed. We are specially trained and qualified hearing aid specialists--not just dealers. We carry a wide variety of hearing aids. From different manufacturers. And more importantly, we don't rest until we fit you with an aid that answers your problem.

If you hear sounds but can't always understand the words--a classic symptom of nerve deafness, you owe it to yourself and those most dear to you to come in for a free hearing test to see if we can help you. I will hold my regular monthly center at: Villa Inn, Colorado City, Thursday, June 20th, 9:30-10:30 A.M.

Perhaps I can help you HEAR YOUNG AGAIN. No obligation whatever.
