## Women Await The News' New Motion Picture Cooking School

**"Star In My Kitchen" To Be Shown  
At Pastime Theatre June 13, 14, 15**

**PRIZES WILL BE  
AWARDED WOMEN**

**LATEST METHOD IN PREPARING  
DISHES WILL BE  
SHOWN AND EXPLAINED**

It's the talk of the town! Women throughout the community are planning to attend the friendly class for home-makers, the Motion Picture Cooking School scheduled to open at the Pastime Theatre, June 13.

A welcome invitation to the wise is sufficient, and the only invitation needed for this novel cooking school is that extended to every woman by The Clarendon News. There is no charge to see any of the showings of "Star in My Kitchen."

Because this newspaper stands ready to sponsor all progressive developments, particularly when they effect the homes of the community, it is presenting this motion picture romance of home-making entirely free.

"If I could only see exactly how she mixes and handles that pie crust."

That comment has been heard from beginners and from more experienced cooks at many cooking schools. Craning of necks and anxious eyes, trained on the stage from all sides and back of the demonstration hall, have failed to catch all of the important steps in pastry-making and other culinary arts. Only the early birds in the very front row have had a close-up of the stage of the past and even they couldn't peer directly into the mixing bowl.

Now the wizardry of the camera has solved the problem, making it possible for every person in the Pastime Theatre to share each fascinating stage of the planning, measuring, blending, and baking in practical, up-to-the-minute kitchens.

Keeping pace with the baking, roasting and frying, a series of salads and frozen delicacies will parade in and out of the adaptable electric refrigerator, which will reveal its host of possibilities for simplifying labor and marketing, and contributing to good health and good food.

What to do with left-overs? how to take the gloom out of laundry day? How to save time, energy, and temper in meal preparation? How to be attractive in spite of the daily rush? How to make piecrust that men love to eat? How to give first aid to fallen cakes?

It won't be necessary to ask the questions, for expert home specialists have anticipated these very problems. They know what bothers many an experienced housekeeper,

because it is their job to know and to counsel helpfully.

Fun and novelty entertainment are joined throughout the feature picture, for it is always fair weather when neighborly cooks get together. Home-making has a universal appeal, and every woman is eager to learn the newest news of her craft.

Cooking, romance, modern kitchens, and clever actors and actresses do not tell the complete story of this 1938 model cooking school. The picture is a whole laboratory of modern ideas and wise counsel, touching on latest developments in home equipment and accessories, including laundry methods, ways to prepare left-overs, beauty secrets, hints on saving time and labor, and fresh suggestions on how to entertain guests, as well as how to be thrifty.

It won't be necessary to carry pad and pencil and try to scribble measurements in the darkened theatre, because free recipe sheets with complete formulas for many of the delicious dishes prepared in this Motion Picture Cooking School will be distributed daily.

Surprises in store for readers of The Clarendon News will not be limited to free entertainment and instruction, since there will be daily gifts, many of which will bring renewed pleasure and renewed appreciation of "school days" long after the final graduation on the closing day.

Join the parade of home-makers June 13, 14, 15 in the Pastime Theatre.

### MORE RAIN FALLS HERE THIS WEEK

**CORN PLANTING GETS UNDERWAY; RANGE LAND IN GOOD CONDITION**

Eight-tenths inch of rainfall was added to Donley county moisture by two rains, one Saturday night and one Sunday afternoon, according to reports.

Rainfall for Saturday night measured two-tenths inch while the rain Sunday afternoon measured six-tenths inch. Some hail fell Sunday but not enough to inflict damage.

This makes a total of 3.50 in. of rain during the past two weeks, and is of untold benefit to Donley county farms and ranches.

Range grass is in fine condition cattlemen say. Farmers report that a good seasoning is in the ground as corn planting gets underway. Some cotton is being planted this week.

Clyde I Price and Harold D. Bugbee were business visitors in Amarillo Monday.

### 12,000-ACRE OIL BLOCK COMPLETED

**ACREAGE TAKES IN LOCATION OF OLD INMAN NO. 1; 3RD BLOCK IN COUNTY**

Further oil interest in Donley county was stimulated by the announcement this week that work had been finished on assembling a 12,000-acre block in the immediate vicinity of Lelia Lake, being north and east of that city.

Those interested in the project are A. B. Bynum, Mrs. Kate Johnson and G. Leathers.

The spokesman for the group said that a contract had not yet been let for drilling although several oil men had manifest interest in the potential layout.

Lease work was started on recommendation of three different geologists who viewed the work of pulling the casing from the old Inman No. 1 on the Mrs. Kate Johnson farm last August. The well was abandoned in 1920 but when the casing was pulled gas blew from the hole.

The Johnson place, located one-half mile due north of Lelia Lake is within the 12,000-acre tract.

The Lelia Lake block is the third block to be worked on this year. A drilling contract has been let for the block south of Hedley and assembling of the Goldston block is going forward.

### 5th Monthly Auction Sale Closes Series

Attention is being focused on the final Monthly Auction Sale, Tuesday, June 7, sponsored by 27 Clarendon business firms, and interest is increasing as the day draws near.

The sale, the final of a new series held in Clarendon, will be conducted at the Fontayne Elmore trade lots and will be under the direction of M. L. Putnam, auctioneer.

Auction fees have been eliminated in the new series of sales and has provided an extra market for farm tools, livestock and miscellaneous items of Donley farmers and traders.

Everyone is invited to and urged to attend the final sale and bring to the lots anything he wishes to sell. There are no obligations and the auctioneering is free.

### Saturday Is Poppy Day In Clarendon

Mrs. Ralph Andis, chairman of the Poppy Day committee of the Aubyn E. Clark post American Legion Auxiliary said "a flower in your buttonhole will mean health and happiness for some child, buy a Poppy next Saturday," in making a second announcement of National Poppy Day, Saturday, May 28.

Mrs. Andis, and Mrs. G. G. Reeves, unit president, urges that every citizen buy a poppy and join the ranks of those who have contributed to the welfare and happiness of many children.

### LOCAL GOLFERS IN GREEN BELT

**PAUL GREENE, CITY TOURNAMENT RUNNER-UP, IN SEMI-FINALS**

Two youths, Frank Mitcham, Jr. of Shamrock, and Grover Austin of Pampa, blazed over the Cole Creek Golf course to storm into the finals of the 13th annual Green Belt Golf Association tournament being held this week at Shamrock.

Several golfers from Clarendon participated in the matches. P. B. Gentry, the only Clarendon participant to place in the championship flight, was defeated by J. D. Mitchie of Childress 5-4. Gentry qualified with a 74.

First circuit scores resulted in the following standing for the locals:

Second Flight: Johnny Austin, Shamrock, beat M. P. Gentry, default; Ira Merchant won from W. H. Cooke, Jr., default; Billy Cooke beat Bob Holt, Shamrock, 1-up; and Paul Greene beat Jack Turner, Childress, by default.

Greene went into the quarter-final by defeating Carl Harrison of Memphis, 2 and 1, but was defeated by Askins of Sayre in the semi-final.

### HIGHWAY COVER CONTRACT LET

Bids for highway construction in Armstrong and Donley counties were let by the state highway commission at the Monday session in Austin.

Public Road Construction Co., Denton, submitted a successful bid of \$68,703 for 27.4 miles of cut-back asphaltic concrete pavement on Highway 5, U. S. No. 370, from Claude to Donley county and from Hedley to the Hall county line.

This work is for the third asphalt covering in this stretch as set out in the original specifications.

### CITY JOINS IN HOPPER FIGHT

The City Commission has joined in the fight against the grasshopper, according to an announcement made Wednesday.

The commission has arranged with County Agent H. M. Breedlove for a supply of poisoned bran to be distributed on the property of anyone in the city limits, who desires to poison grasshoppers.

In performing this service for the citizens the commission is doing so without liability in any way for any damage that may possibly accrue by virtue of the distribution.

### INTENSE CAMPAIGN ON GRASSHOPPERS IS DONLEY PLAN

**INFESTATION IS WORST IN YEARS; RESERVES DEPARTMENT COOPERATES**

According to announcements made by H. M. Breedlove, county agent, it is now time to start the fight against grasshoppers for this year. Breedlove is urging all farmers who have noticed any grasshoppers around the turn rows or in the pastures to start poisoning at once. At the present time the hoppers are small and it is easy to poison them, but after they become large and are able to fly the poison is not so effective, he said. It is now time to start and all farmers are urged to take every care to see that the heppers are poisoned on the farms.

At the present time Donley County has received six car loads of bran and 48 drums of poison. This makes a total of 2,200 sacks of bran available for use of poisoning hoppers in the county. This bran is stored in the government warehouse in Clarendon and will be distributed to the two poisoning plants in the county as needed.

"Now is the time to strike in this fight against grasshoppers. With the cooperation of all farmers in the county, let's make these next few weeks one of the greatest fights ever witnessed against hoppers. We had better start early and get complete control of the situation before it is too late. Remember, every man's needs as to the amount of poison he wishes, will be granted him so any person whose crop is damaged by hoppers must remember that poison is available and we are urging that the fight be declared in full swing," Breedlove said.

The State Highway Department is cooperating with the farmers in Donley county by poisoning hoppers along the highway in the county. A definite date for farmers to poison hoppers the same day the highway crew is working will be announced later by Breedlove, who said that intense cooperation by every Donley county farmer is needed to eradicate the hopper menace this year.

As has been previously announced there are two grasshopper poisoning plants, one being located at Hedley and one at Clarendon. Syrup is available at the stations and also cotton seed hulls if the farmer does not bring ground bundles with him. There is no limit as to the amount of poison allowed each farmer. He can have any amount that he feels is needed to kill the hoppers on his farm.

It is absolutely necessary that the poison be broadcast and not placed in piles or rows. If the poison is broadcast as is instructed, there is no danger whatever in poisoning livestock, Breedlove concluded.

### BAND TO CONTINUE SUMMER PRACTICE

**RECORDED BAND WILL BE ORGANIZED FOR YOUNG CHILDREN JUNE 1**

Even though schools in Clarendon have dismissed for the summer, students in band music will continue their studies and practices during the summer vacation, Ray Robbins, band director, said.

Several band trips have been planned for the summer, including participation in the parade at the Pampa Top O' Texas Fiesta, June 9.

In order to prepare for the summer work, Robbins has asked that all small children meet with him at 1:00 p. m., June 1, to start the recorder band.

New and old members of the regular band will meet with Robbins at 2:00 p. m., June 1.

Both meetings will be held on Monday and Wednesday nights at 8:00 p. m. at the Junior High building during the summer months.

### School Conditions Reported To Lions

A most interesting and informative talk on the condition of the local school by Superintendent H. T. Burton was the principal part of the weekly program of the Clarendon Lions Club Tuesday.

Mr. Burton's talk led to an informal discussion and further remarks by several of the club members.

J. R. Gillham, chairman of the Boys Work Committee, in reporting on the committee recommended an appropriation of \$45.00 with which to purchase two registered male hogs for the F. F. A. boys.

S. W. Lowe was appointed a member of the public park committee, as a representative of the club. The Les Beaux Arts Club requested club representation on the committee.

Transfer of Bill Riney from the Panhandle club was accepted by the Clarendon club.

### Air Mail Dispatch Is One Of Heaviest

Clarendon was one of the leading cities of the Panhandle and south plains in dispatch of air mail last Thursday when 64 towns dispatched air mail on special feeder planes during celebration of National Air Mail Week, according to figures compiled by Postmaster W. D. DeGrassi of Amarillo, home port of the planes.

Clarendon was in the five high towns for pounds of mail dispatched. Lubbock lead with 76 pounds, Dalhart had 26, Childress 19, Portales, N. M., 14 and Clarendon 13. Sunray had three pounds, the lowest.

DeGrassi said a grand total of 1,092 pounds, or 65,520 letters, originated from the 64 towns and were dispatched on east and west-bound commercial mail planes.

### BRONC SCHEDULE FOR 1938 IS SET

**THREE CONFERENCE GAMES WILL BE PLAYED DURING FALL SEASON**

Coach Emil Hutto of the Clarendon Broncho Squad announced the completion this week of the Broncho schedule, with the exception of one date.

Three conference games will be held this fall, with Lakeview, here, Sept. 23; Memphis, there, Oct. 14; and Wellington, here, Oct. 21.

The balance of the schedule is as follows: Sept. 16, Lefors, here. Sept. 30, open date. Oct. 7, Mobeetie, there. Oct. 28, Canadian, there. Nov. 4, Groom, here. Nov. 11, McLean, there.

### LEGIONNAIRES ATTEND PAMPA DISTRICT MEET

Mr. and Mrs. L. E. Thompson and B. C. Antrobus were in Pampa Sunday to attend the final sessions of the American Legion 18th District Convention.

C. J. Maisel of Pampa was elected district commander and Borger was chosen as the site for the autumn meeting.

### 180,000 BUSHELS WHEAT LIKELY

**ASSOCIATION ESTIMATES 20-300,000 FOR PANHANDLE; CONNALLY ON BOARD**

If estimates made by Panhandle grainmen at a meeting of the Panhandle Grain and Feed Dealers Association at Amarillo Tuesday are correct Donley county wheat farmers will harvest 180,000 bushels of wheat this year.

The association, meeting for their 25th annual convention, estimated 20,000,000 for the entire Panhandle and South Plains, despite no more than an estimated recovery of seed in Dallam, Hartley, Moore, Parmer, Bailey and Lamb counties.

At their closing session J. D. Weeks of Claude was elected president of the association. Tom F. Connally of this city was named to the board of directors which also includes Blake Hankins, Lubbock; R. L. McClennan, Spearman; Byron Gist, Amarillo; and Bob Stone, Clovis N. M.

### Clarendon Float To Be In Pampa Fiesta

Clarendon will enter a float in Top O' Texas Fiesta celebration parade to be held June 9 and 10, according to J. R. Gillham, secretary of the Clarendon Chamber of Commerce.

The float is being constructed by Pampa free of charge for the local chamber of commerce and will be centered around the theme of Clarendon as a school town.

Local high school and college students will be on the float when it joins the parade through the Pampa business district.

### WHEAT INSURABLE WITH GOVERNMENT

**THREE-FOURTHS OF AN AVERAGE WHEAT CROP IS MAXIMUM UNDER PLAN.**

According to H. M. Breedlove, county agent, crop insurance which will guarantee insured wheat growers of Donley county three-fourths of an average wheat crop in 1939 will cost farmers of Donley county an average of 1.5 bushels per acre, was announced at the State wheat meeting recently held at Amarillo.

For insurance that guarantees one-half of an average crop, the rate will average .7 bushels per acre in Donley county.

The county rates reflect the average per acre loss in this county during the 10 years, 1926-36. The premium that an individual wheat grower will have to pay for the insurance will depend half upon this county rate and half upon the crop losses on his own farm. The rates for each farm will be computed in the branch office of the Federal Crop Insurance Corporation.

The cost of insurance is not based on the average amount of yield, but on the year-to-year variation in yield. "Two farmers with the same average yield for the 10 year period would not necessarily pay the same premium for the same percentage," E. N. Holmgren, administrative officer, of the Texas AAA office at Texas A. & M. College, who attended the meeting, pointed out. The farmer who suffered but little crop loss would pay less than the farmer who suffered frequent and heavy losses even though their yields were the same."

The wheat insurance representative in Donley County is Ernest Lamb of Jericho, Texas.

### Home Ec Students Visit Texas Tech

Six girls of the Clarendon Home Economics department made a trip to Lubbock this week to inspect the textile engineering department of Texas Tech.

On the inspection tour the eligible girls of the Clarendon class saw spinning and weaving of cloth operations and went through the college home economics department.

Emogene Mayo, Edna Talley, Pauline Riley, Billie Lou Gilbert, Frances Morris and Dorothy Kerbow made the trip. They were accompanied by Mrs. Ben Hill, Miss Margaret Cope, and Miss Maurice Berry Sponsor.

### FINAL GRADUATING EXERCISES HELD

**STUDENTS RELIEVED OF SCHOOLROOM STUDIES FOR THREE MONTHS**

Graduates of Clarendon Junior High, Clarendon High School and Clarendon Junior College completed their final activities this week and will be free of class rooms for the summer vacation.

Joint Baccalaureate services were held Sunday evening at the First Methodist Church. Rev. Robt. S. McKee, pastor of the First Presbyterian Church delivered the sermon, "Stewardship of Life."

Commencement program for the 17 graduates of Clarendon Junior College was held at the College Auditorium Monday evening. Judge A. J. Polley, associate justice of the Amarillo Court of Civil Appeals, was the principal speaker. Dean R. E. Drennan awarded the diplomas.

Superintendent Burton awarded diplomas to 49 members of the high school senior class in commencement exercises held Tuesday evening at the First Methodist Church. The senior class this year did not have a principal speaker, choosing instead to follow a new method of directing their program by seven three-minute speeches by graduates on subjects relating to school work.

Final exercises for the junior high were held Tuesday morning. Dean R. E. Drennan addressed the class of 54. Superintendent Burton made presentation of penmanship awards and Principal McHenry Lane made the presentation of awards and certificates.

Mrs. Ben Hill presented winning students with American Legion Auxiliary citizenship awards and Dr. B. L. Jenkins made the presentation of the Jenkins award.

### Family Anxious For Daughter's Safety

Grave fear was felt for the safety of Mrs. Howard McCarley daughter of Mr. and Mrs. W. J. Whitt, early this week by the family when they failed to get word of her expected arrival at Mathis, near Corpus Christi. She left Clarendon by car Saturday noon.

An investigation was instituted by the State Department of Public Safety and messages flashed over the state on the department teletype system.

Tuesday morning when the family was beginning to be greatly worried about their daughter's safety a letter was received from her stating that she had arrived safely after being held up at Mason by high water and motor trouble.

### CLUB BOYS WILL GET BREEDING PIGS

**ASSISTANCE GIVEN CLUBS IS PROJECT OF CLARENDON LIONS CLUB**

Improvement of hog herds owned by F. F. A. and 4-H boys of Donley county will be made as the result of a decision of the Clarendon Lions Club this week to purchase two registered males for the use of the two boy's clubs.

The Lions Club has been very active in sponsoring boys work throughout the year, each member sponsoring the work of an F. F. A. boy during the past year.

The new project was recommended by the boys committee composed of C. B. Morris, J. R. Bain, Chas. Lowry and J. R. Gillham, and was unanimously adopted by the organization.

A Poland-China will be bought from James Harley Ginter of Claude, who showed the grand champion pig at the 1937 Tri-State Fair. The pig is a full brother to the grand champion pig but out of a later litter. He will be placed with Ray Isham on the Odos Caraway farm a mile east of the Chamberlain school.

A duroc Jersey will be purchased from the Texas A. & M. Extension Service Farm, E. G. Regenbrecht, extension swine husbandman, who judged both the local and Amarillo shows this spring will select the pig which will be placed with Joe Williams, who showed the grand champion pig at the 1938 Donley County Fat Stock Show.

**SPECIAL AWARDS FOR CLARENDON STUDENTS**

Awards given honor students and for special achievements during graduating exercises this week are as follows:

- Best all around girl in senior high school, Wanda Nell Smith.
- Best all around boy in senior high school, Billy Patman.
- Best all around boy in junior high school, Jenkins award, Jack Miller.
- Best all around girl in junior high school, Jenkins award, Maxine Robinson.
- American Legion, best all around boy, Claude McGowen.
- American Legion, best all around girl, Inetha Collier.
- Pathfinder Club English award, Maxine Ellis.
- Pathfinder English award, Mrs. B. L. Jenkins, Jack Gardenhire.
- American Legion Auxiliary award to south ward pupils, Harold Green and Edith Marie Moss.
- Scholarship awards—freshman, Maxine Robinson; sophomore, Junior Speer; Junior, Billy Patman; Senior, Maxine Ellis.
- Award to valedictorian, Maxine Ellis; Salutatorian, Jane Kerbow.
- Honor Students—college, Allen Patman, 96 for two years; Margaret Nell Hillman, 91 for two years; high school, Maxine Ellis, 96 for four years; Jane Kerbow, 93 for four years; Jack Gardenhire, 91 for four years; junior high school, Maxine Robinson, 96.6 for one year; May Fern Rowden, 91 for one year.

## THE PENALTY OF LEADERSHIP

In every field of humal endeavor, he that is first must perpetually live in the white light of publicity. Whether the leadership be vested in a man or in a manufactured product, emulation and envy are ever at work.

In art, in literature, in music, in industry, the reward and the punishment are always the same.

The reward is widespread recognition; the punishment, fierce denial and detraction.

When a man's work becomes a standard for the whole world, it also becomes a target for the shafts of the envious few.

If his work be merely mediocre, he will be left severely alone—if he achieve a masterpiece, it will set a million tongues a-wagging.

Jealously does not protrude its forked tongue at the artist who produces a commonplace painting.

Whatever you write, or paint or play, or sing, or build, no one will strive to surpass or to slander you, unless your work be stamped with the seal of a genius.

Long, long after a great work or a good work has been done, those who are disappointed or envious continue to cry out that it cannot be done.

Spiteful little voices in the domain of art were raised against our own Whistler as a mountebank, long after the big world had acclaimed his its greatest artistic genius. Multitudes flocked to Bayreuth to worship the musical shrine of Wagner, while the little group of those whom he had dethroned and displaced argued angrily that he was no musician at all.

The little world continued to protest that Fulton could never build a steamboat, while the big world flocked to the river banks to watch his boat steam by.

The leader is assailed because he is a leader, and the effort to equal him is merely added proof of that leadership. Failing to equal or excell, the follower seeks to depreciate and to destroy—but only confirms once more the superiority of that which he strives to supplant.

There is nothing new in this.

It is as old as the world and as old as the human passions—envy, fear, greed, ambition, and the desire to surpass.

And it all avail nothing. If the leader truly leads, he remains—the leader.

Master-Poet, master-painter, master-workman, each in his turn is assailed, and each holds his laurels through the ages.

That which is good or great makes itself known, no matter how loud the clamour of denial.

That which deserves to live—lives.—The Micrometer.

## VOTER'S NEED OF DISCIPLINE

It takes more self-discipline than most people possess to realize that the right to vote does not belong to the person, but to the general welfare. The franchise is not personal property for sale for personal favor; it is public property, the use of which should be conscientiously restricted by the highest moral and ethical principles. —Ravenswood News, Chicago.

Why is it the average person can distinctly hear the clock tick across the room, yet can't hear the radio unless it's turned up to hog-calling volume?—Washington Post.

## THE REBUILT BLUE EAGLE

## JUST HUMANS

By GENE CARR

"What Is Your Trouble?"  
"The Fellers Are Always Callin' Me Cupid!"

## A MODERN FABLE BASED ON FACT

Says the San Antonio Light: Once upon a time there was a farmer who sold two chickens. With the proceeds he bought two shirts. So the farmer had two shirts and the city man had two chickens.

Then came along the new deal, and told the farmer he should get more money for his chickens by making them scarcer. . . . He must not raise so many and then he would get more income.

The new deal also told the working man in the city that he must work fewer hours and get more money for making fewer shirts. That, of course, caused shirts to cost more.

Then the farmer brought one chicken to market. He got twice as much money for it as he had previously gotten for a chicken. He felt fine. He wanted to buy some shirts, but he found that shirts had also doubled in price. So he got one shirt.

Now the farmer had one shirt, and the city man had one chicken, whereas without the new deal, the farmer could have had two shirts and the city man two chickens. This, boys and girls, is called "the more abundant life."

## HOW SHALL WE MEASURE PROSPERITY?

Shall we measure prosperity by what we make, or by what and how we spend what we have?

Statistics show that the income of the American people for 1937 exceeded 1932 by more than 50 per cent.

But the sad part of the showing is in the further figures which would make a Christian weak. Forty-one per cent more was spent for theatres, forty-eight per cent more for cigarettes, three hundred seventeen more for beer, thirty per cent less for the church, twenty-nine per cent less to colleges.

How long can America last at this rate?—Kingsville Baptist.

## NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN—Whenever the State of Texas has won a court victory in one of the innumerable lawsuits which have grown out of the regulatory authority exercised by the Railroad Commission, there has been a rush to claim the credit for the victory. The Commission, whose most active member is Ernest O. Thompson, originates the regulatory orders. The legal defense of the orders falls under the jurisdiction of Attorney General Bill McCraw. Both Thompson and McCraw have been more or less openly running for Governor for the past two years. The state has won a lot of lawsuits during that time, and there has been a considerable variety of claims and counter claims for the credit for these victories.

But this week, when the Supreme court of the U. S. handed down a decision reversing the court of civil appeals at Austin, which had upheld a Commission order reducing the gate rate charged by the Lone Star Gas Co. by 20 per cent in 275 Texas cities and towns, and directly affecting the pocketbooks of well over a million Texans, there was an impressive silence in official quarters at Austin.

The Supreme Court opinion, as quoted in Washington press dispatches, apparently upheld the procedure followed by Thompson and the Railroad Commission in the long and drawn out valuation proceedings held at Fort Worth, and ruled that McCraw and his staff had erred in the subsequent court procedure, when they urged and the Texas appeals court accepted "in response to the State's pressure," anod "untenable standard of proof" in the attack upon the Commission's order.

## WHAT HAPPENS NOW?

But regardless of who gets credit for the legal defeat, chief interest in towns whose gas bills are affected, centered upon what the next step in the five-year fight will be. Some lawyers have believed that the Supreme Court ruling would send the fight back into the District Court at Austin, others that it might have to back track no further than the Austin Court of Civil Appeals. The Supreme Court decision, following well established legalistic precedent, used five words where one would have sufficed. So that it will doubtless take several weeks study by attorneys to determine and translate into English that a newspaper reader can understand, just what the court did decide. Meanwhile, State officials were so busy campaigning for votes that they had not had time, at the week-end, to give the opinion study and to outline a future course of action.

## PROBATION IS ISSUE

Economists throughout the nation have been mazed at the manner in which Texas had consistently maintained its status as a

"white spot" on the business map throughout the business recession which has put millions in the industrial East and Middle West back on relief rolls. The answer, of course, is the uninterrupted flow of about \$1,500,000 daily of new money into Texas from the production and sale of crude oil. Oil is produced in 150 counties, but this flow of new money permeates into every hamlet and village of the state.

For five months, now, there has been produced in the United States a great deal more oil than a recession-hit nation has been able to consume. Stocks of crude oil, gasoline and by-products have risen to staggering totals. The Railroad commission, carrying out the law which says it shall prevent physical waste of oil, has reduced allowables to the minimum, then put into effect Sunday shutdowns, and finally, Saturday shutdowns, as well, in an effort to prevent chaos in the industry.

At the largest-attended protraction hearing held in two years here this week, oil operators solidly backed the Commission's policy of curtailment, and howled down John Schroeder, of Longview, a dissenter who wants the Federal government to take over control of the oil industry. The forthcoming order of the commission is expected to maintain Sunday shutdowns, and possibly extend also the Saturday shutdowns. Operators here frankly declared to open the wells will cut the price. They feel it is better to sell less oil at a high-price, leaving the remainder in the ground, than to run more oil and get less for it, without increasing their total income appreciably.

One painful result of the curtailment program was an order reducing by 5 per cent pay of 335 employees of the Commission's oil and Gas Division, which gets its operating money from a special tax on crude produced. Curtailment of oil run has cut the monthly income of the Commis-

sion from this source by about \$18,000 a month.

## POLITICS WARMS UP

A week or vigorous campaigning by most candidate. For major state offices apparently had infused some life into a campaign which has been abnormally slow to start this year. . . . Urging relief for farmers and hitting at the waste involved in maintenance of over 100 special funds in the State Treasury, Ernest O. Thompson sought votes in half dozen widely scattered communities. . . . Bill McCraw, voicing his opposition to a sales tax, and pleading for no "mud-slinging" in the campaign, took his drive for ballots into deep Southeast Texas. . . . Lt. Gov. Walter Woolul, opening formally for Attorney General at Greenville, pledged himself against vacancy racketeers, while fully protecting the interests of the State's school funds in public lands. . . . Land Commissioner Bill McDonald, who vigorously opposed a bill providing for a land leasing board in January a year ago, came out with an endorsement for such a board in a speech at San Marcos. . . . Fifty years ago this week, Texas' new granite capitol building was dedicated with Gov. Sul Ross presiding. The land traded by the State for the building today is worth from sixty to 100 million dollars. . . . and the capitol is now pitifully inadequate to house the State departments, many of which occupy other state buildings, or rent quarters in Austin from private owners.

## CORRECTION

News of Interest to Donley Farmers

Prepared by Extension Service Texas A. & M. College

RATS COST TEXAS 20 MILLION A YEAR

COLLEGE STATION — Rats cost Texas people about 20 million dollars a year, according to J. M. Hill, Jr., of the Rodent Control Service of the U. S. Bureau of Biological Survey, who added that farmers alone suffered an annual loss of over 2 million bushels of corn through this source.

Courts and civic and farm organizations. County agricultural councils sponsored the campaign in several cases. In Caldwell county, the farm organization leadership resulted in the use of 1,350 pounds of bait, while a similar campaign in Harris county brought about the use of 2,100 pounds.

Figures of the Rodent Control Service show that a pound of poison bait will kill an average of 14 rats. Red Squill, the type of poison used, is not harmful to humans or animals.

Rats can be controlled, Hill said by systematic, community-wide poisoning campaigns which should be launched at least twice a year or as often as the infestation warrants.

Loss can be minimized by rat-proofing all new buildings and old ones where possible. Infestations will be held at low levels if food and feed is kept in rat-proof containers and if garbage and other waste is promptly removed.

Trapping is effective after the rat infestation has been reduced by poisoning or by other means. A careful and systematic use of traps will keep the premises free from the rodents.

"The Rodent Control Service of the Bureau of Biological Survey is ready to assist communities and counties in fighting the rat menace," Hill declared.

**CLASS WILL**  
By Frances Grady

The Senior Class of 1938 of Clarendon High School in the City of Clarendon and the State of Texas, being of sound and disposing mind and realizing that this is the last meeting of our class, do make and declare this our last will and testament:

To Clarendon High School we give our praise, our thanks and undying loyalty throughout the years to come, a large portion of the credit for whatever our achievements may be in life ahead of us.

To the Principal, Mr. R. E. Drennan, we leave our regrets for the many mistakes and failures we have made, some poor excuses for many shortcomings, thanks for the many favors granted, a great appreciation for the many hours he has spent in the interest of the members of the Senior Class of 1938, a high personal regard for the man and the fine example he has set before us.

To the juniors we leave the vacant seats in the Senior classrooms which it now becomes your privilege and responsibility to fill. We leave the wish that as the next graduating class of our school you will occupy these seats with honor to yourselves and with credit to the school, and with due appreciation of the efforts of teachers, the interest shown by the community in providing this school for us.

To the underclassmen, the Sophomores and the Freshmen, we leave a feeling of sympathy, for we know you will get none from those in the class ahead of you, we leave a promise that your day will come and it will be a great day in accordance with how well you do your work leading up to it.

To our parents we leave the pleasant memory of many happy school days we have had were made happier by your interest and assistance in what we have been doing. We leave thanks to you for enriching our lives by providing a good high school where we have been taught a basic education upon which to build our lives.

Mary Charlotte Word leaves her ability to sew to Emily Davis. J. D. Swift leaves his good grades to Billy Patman. Max Rumpy bequeathes all of his height to Billy Heardick.

The ability to declaim that has carried Ethelyn Drennan so far in Interscholastic work each year through this will become the sole property of Lella Ruth Buchanan. Dorthea Riley leaves only one and seven-eighths pounds of her weight to Lois Marie Taylor.

Miss Jane Hillman bequeathes only one scant foot of her excessive height as the property of Jessie Tomlinson. Bob Kyle leaves his art of dancing to Jack Simmons.

The watch that forgets to keep time owned by Dorothy Kerbow is hereby turned over to Glennie Deal. Phebe Ann Buntin leaves her graceful walk to Ruth McDonald. Reba Higgins leaves her meekness to Rue Zell Ryan.

Miss Wanda Nell Smith leaves her platinum hair to Helena Poovey. Miss Edith Shelton leaves her tennis skill to Mary E. Zigler. Mrs. Jeanice Weatherly leaves her ability to get her man to Miss Ruth Whitsell.

Ray Palmer leaves the football captaincy to Freddie Chamberlain. Miss Kathleen Ryan leaves her place on the Basketball team to Bertha Houdashell.

The very effective vocabulary of Miss Christine Knox shall now be the property of Mable Johnson. Miss Jane Kerbow leaves Truett Holtzclaw to Wilda Faye Gibbs. Miss C. Speed leaves his poetic genius to Beryl Logan. Gail Adams leaves his diligence in typing to James Blackman. Lottie Rolls leaves her quietness to Dorothy Wisdom.

Truett Holtzclaw bequeathes his laziness to Joe Williams. That popularity with the women unequalled and unexcelled, once belonging to James Welch is hereby given to Ben Hill—be careful Ben.

Jack Reeves leaves his debating ability, acquired in 1938 while debating against terrific odds, to Neel Thompson. Mildred Atteberry leaves her charming personality and smile to Cora Lee Jordan.

Rayburn Smith leaves his tendency to fuss to Ray Isham. Jimmy Watters leaves all of his dates to John Blackman provided he excludes Mildred Atteberry. Jelly McGowen bequeathes his loud mouth to J. B. Martin. Jack Gardenhire has graciously willed the honors of stubbornness and his wide scope of understand-

A Beauty Bath that Insures Daintiness

Naturally, the place to turn to for a tip on the perfect beauty bath is Hollywood. Contrary to what some people think, screen stars work very hard, and they must look their best all the time. For their beauty baths, they use a soap with ACTIVE lather that's most refreshing—and has the added advantage of insuring daintiness.

Fill your tub full of warm water (body temperature is the ideal). Get into it and relax for a minute or two. Then reach over for a nice fresh cake of the screen stars' soap. Cover yourself all over with its rich, ACTIVE lather. This ACTIVE lather rids the pores of stale perspiration, every trace of dust and dirt. Wring out your washcloth in cool water and pat it on yourself—especially your chest and back. A good brisk rub with a Turkish towel, and you'll feel alive and refreshed—even after a hard day's work.

This beauty bath is a wonderful substitute for a beauty nap—what's more, it makes you sure you're dainty—leaves a delicate, clinging fragrance you'll love.

Dorothy Lamour, whom you see below as she looks in her own bathroom, tells you: "Daintiness is a charm that always wins. Don't risk offending against it. Lux Toilet Soap's ACTIVE lather leaves skin really sweet—delicately fragrant. It's the best way I know to insure daintiness."

**The Screen Stars' Complexion Care**  
Like 9 out of 10 other lovely screen stars, Dorothy Lamour guards against Cosmetic Skin with this inexpensive soap. Its ACTIVE lather prevents pore choking from dust, dirt and stale cosmetics. Pores choked in this way cause the dullness, tiny blemishes, enlarged pores that mean Cosmetic Skin. Screen stars use Lux Toilet Soap because they know they can't afford to risk this modern complexion trouble. And neither can any other woman who wants to be admired.

Will be explained at the News' Motion Picture Cooking School, June 13, 14, 15 at the Pastime Theatre.

ing to Raymond Hay. Max Wilson leaves his ability to follow Betty Jo Caraway to Elmer Jo Hayes.

Royce Lummus leaves his height to Forrest Helton. Ralph Grady leaves his history grades to Margaret Hill—hoping she passes.

Troy Rumpy wills his place on the judging team to Horace Green. Letha Warren leaves her desk in English IV class to Arthula Cobb.

Dolly Hall wills her arithmetic ability to Pauline Riley. Inetha Collier wills her humorous personality to Billy Latson. Kermit Sloan leaves his wit to Hulon Bagwell.

Juanita Estes leaves her superstition to Frances Hott. Mildred Barker wills her dark eyes to Billie Horton. Marie Morris leaves her familiar nick-name "Pat" to Darrel Bailey.

Mary Katherine Hardin wills her versatility to Ray Robertson. Lucille Nidever leaves her Remington typewriter No. 22 to Ave Marie Guffin.

Mr. and Mrs. Clifford Davis of Amarillo visited relatives and friends here over the week-end.

**THE AWFUL PRICE YOU PAY FOR BEING NERVOUS**

Quivering nerves can make you old and haggard looking, cranky and hard to live with—can keep you awake nights and rob you of good health, good times and jobs.

What you should try is a particularly good woman's tonic—and could you ask for anything whose benefits are better proved than that world-famous Lydia E. Pinkham's Vegetable Compound? It's its wholesome herbs and roots help Nature calm your shrieking nerves, tone up your system, give more energy and make life worth living again.

More than a million women have reported benefit—why not let Pinkham's Compound help you, too, to go "smiling thru" trying times like it has other grateful women for the past 3 generations? IT MUST BE GOOD!

SIDELIGHTS

By MARVIN JONES

The new works relief bill is now pending before Congress.

When it was under consideration in the House of Representatives a few days ago, I was fortunate in securing the passage of an amendment which will allow farmers to participate on works projects.

The language of the amendment is as follows: "Farmers in actual need of work but who are not on relief rolls shall have the same eligibility for employment on projects in rural areas as persons on such rolls."

There are many farmers whose property is heavily mortgaged and who have suffered several crop failures because of the drought. They are in need of actual work, but in the past they have not been able to qualify for employment on various projects under the regulations of the administrative officials. In many instances they have teams and equipment that can be used on the projects. There have also been instances of projects in rural areas which have been greatly needed but the population has not been large enough to draw sufficient workers who can qualify under the regulations.

I am very glad that the new provision has been accepted by the House and I hope it will be retained by the Senate.

I believe it is important to encourage those farmers who are trying to carry on. A small amount of work may enable them to do so. If they are permitted to sink, especially in the drought and flood areas, it will complicate the problem in the towns and cities. The agricultural program has been of great assistance. An opportunity to work on the various projects will also be of substantial aid.

**Interest Rates**  
The Committee on Agriculture, with which I am connected, recently reported a measure to extend for two more years the existing interest rates on Federal Land Bank and Commissioner's loans. This measure has now been passed by the House of Representatives.

The interest rate on Federal Land Bank loans is to be continued at 3½ percent and the rate on Commissioner's loans at 4 percent.

Last year when Congress passed legislation to continue these rates, the President vetoed the measure. It was then passed over his veto. I led the fight in the House for approval over the veto, as I felt that conditions justified a continuation of the emergency rates.

I hope the President will sign the new measure so these rates may be continued, as I believe that such action is very desirable.

As the result of a measure reported by the Committee on Agriculture and passed some time ago, the Farm Credit Administration now has the authority to refinance Commissioner's loans in worthy cases over a period of the same length of time as that allowed on Land Bank loans.

These are the lowest farm interest rates that have ever prevailed in this country and are lower than those which prevail in any other country. The Farm Credit Administration is the first institution of its kind that has furnished a method of credit suitable to the needs of agriculture and separate from the commercial credit structure of the country.

I am anxious that the work be continued at the lowest rates that can possibly be obtained.

Brazil destroyed 5,000,000 more bags of coffee than it exported during 1937. Coffee shipments totaled 12,119,000 bags while 17,196,000 were destroyed.

**Sales Pads at The News.**

**Sentinels of Health**  
Don't Neglect Them!  
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbances.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed by the country over. Insist on Doan's. Sold at all drug stores.

W. H. Sontag of Frisco spent Wednesday night with his sister, Mrs. Max Payne, and Mr. Payne.

Mr. and Mrs. Simmons Powell were in Amarillo Monday. Mr. Powell was in a class of 46 who were initiated into the mystic rites of the Shrine.

George Pierce, state highway patrolman, who has been coming to Clarendon on Tuesday afternoons for the past several months on license work, has been temporarily transferred to Abilene so that he might be near his father who is seriously ill.

## Political ANNOUNCEMENTS

The Clarendon News is authorized to present the following candidacies to the voters of Donley County, subject to the Democratic primaries in 1938:

For Representative, Dist. 122: EUGENE WORLEY

For District Attorney, 100th Judicial District: C. C. BROUGHTON JOHN DEAVER

For County Judge: S. W. LOWE, R. Y. KING A. H. BAKER

For County Clerk: W. G. WORD, R. W. MOORE PAUL SHELTON

For County Tax Assessor and Collector: WILL CHAMBERLAIN J. W. (JESS) ADAMSON JOE BOWNDS

For County Treasurer: Mrs. Margaret V. Thompson.

For Sheriff, Donley County: GUY PIERCE W. C. (BILL) JOHNSON M. W. MOSLEY C. HUFFMAN

For District Clerk: WALKER LANE

For Commissioner, Precinct No. 1: J. H. HERMESMEYER J. D. WOOD

Commissioner, Precinct. No. 2: G. G. REEVES V. V. JOHNSTON

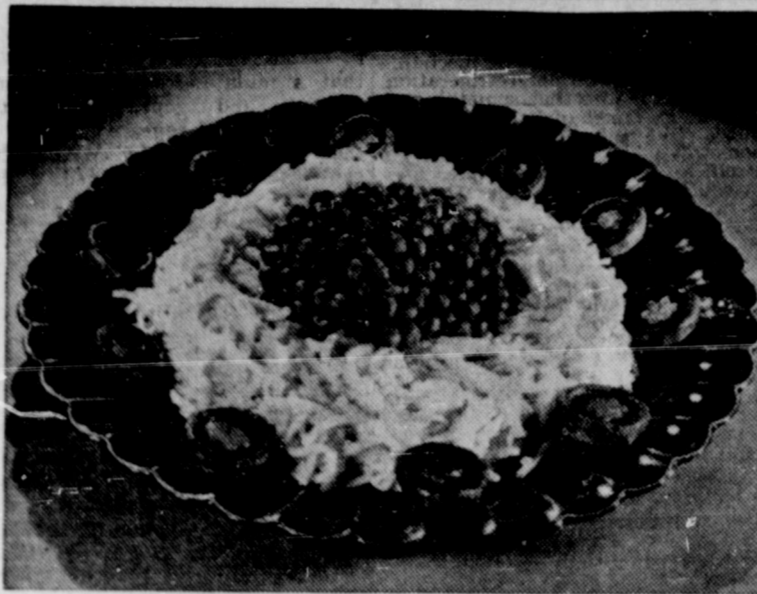

For Commissioner, Precinct No. 4: T. W. (TOMMY) BAIN A. O. HEFNER MARVIN HALL

Mrs. L. S. Bagby left Sunday for South Carolina for a visit of six weeks with relatives and friends.

Mr. and Mrs. Alfred Estack, Mr. and Mrs. Willard Skelton, Mr. and Mrs. C. C. Gregory and Mr. and Mrs. Price Whitlock enjoyed a picnic Sunday afternoon on Kelley Creek.

Mr. and Mrs. J. H. Miller visited relatives in Quannah Tuesday afternoon. Mr. Miller went on to Vernon to attend a meeting of Wm. Cameron & Co. yard managers Tuesday night.

## Springtime Luncheon with Kraft Dinner

An attractive springtime luncheon, suitable for party or family supper is made by combining Kraft Dinner, with peas and broiled mushrooms. This whole-meal-in-itself is as economical as it is attractive—and requires only a few moments in the

making. Kraft Dinner is prepared in nine minutes, placed on a platter, and the peas and mushrooms added just before serving. In spite of its festive appearance, this party dish is surprisingly economical to serve—just right for luncheon or evening occasions.

Will be explained at the News' Motion Picture Cooking School, June 13, 14, 15 at the Pastime Theatre.

### REA PLANS MAY BE DEFEATED BY PRAIRIE KINDS

By Herman Gastrell Seely  
Once more science and engineering are making a laughing stock of the economic planners. This time the Rural Electrification Administration is the victim.

Backed by Senator Norris of Nebraska, ardent foe of the power "trust," the REA appropriation of \$410,000,000 was passed by Congress in May, 1936. Since then the work of extending co-operative power lines into rural territory has gone on at a merry pace. Thousands of farm homes have been brought in touch with electricity—a distinct advantage from many viewpoints.

The cost figures, however, are most interesting. Reports are not available here as to the number of families served by all projects for which allotments have been made by the REA. In the case of 48,158 families covered by a few of the Washington reports, however, the total federal funds allotted was \$13,679,000. This is at a cost of a trifle less than \$284 a family.

This average of \$285 per family doesn't tell the whole picture, for in many cases these rural power lines are hooked up with a PWA power plant project. For purposes of comparison, however, it will do.

While the economic planners at Washington have been pushing their dream of a co-operative electrical empire, hard-headed commercial engineering has been working along vastly different lines. The rural power plant makes possible electricity for the average farm family at an estimated average yearly operating cost—initial outlay and depreciation excluded—of 50 cents a year!

This individual rural power plant consists of a wind driven electric generator with a capacity sufficient to furnish all the 32-volt direct current electricity needed by the average rural family. The cost of the generator, tower, and adequate storage batteries comes to no more than the average outlay per family by the REA. Indeed, if the REA chose to purchase these units in wholesale lots it could probably "lend" one to each farm in the sparsely settled areas and the tax payers of the United States would be many millions of dollars ahead.

There are certain advantages apparent also in this type of installation for there are no long transmission lines to be repaired after sleet storms. The wind is free and therefore costs less than the coal used for steam driven generators. The initial outlay for equipment for a large number of families is considerably less than that for a hydro-electric power plant.

However, human nature being what it is, the REA will probably go ahead with its elaborate program—and private initiative will furnish farmers with an excellent alternative at lower cost.

The three banks of Clarendon will be closed Monday in observance of Memorial Day.

### Mental Disorders Blamed On Alcohol

AUSTIN—Mental disorders today represent a real problem and it is estimated that more than fifty per cent of all hospital beds are filled by persons suffering from mental or nervous diseases, declared Geo. W. Cox, State Health Officer.

It thus appears that modern civilization is exacting a terrific toll. High speed living, with its cruel exactions upon nature, is responsible for a large part of the trouble, but improper personal conduct must also shoulder much of the blame. The fact that nearly fifty per cent of the patients entering hospitals for mental diseases are there because of organic or toxic causes.

For example, general paralysis is the direct cause of one-fifth of the mental troubles in males entering hospitals and one-tenth of the disorders of all groups. This condition is an organic disease of the brain due to the germ responsible for syphilis. It is a preventable disease. Early and effective treatment of acquired syphilis will keep the end results of general paralysis in the insane.

The excessive use of alcohol is responsible for a number of mental disorders at least in males. Alcohol and syphilis combined are responsible for approximately one-fifth of the hospitalized insanities. Nevertheless, improper living habits continue to impair many brains. Insufficient sleep, neglect of bodily care and a consistent over-exercising of nervous energy are the pitfalls to avoid in this connection.

Nature demands that her fundamental laws be at least reasonably observed. A constant outraging of the physiological economy takes its toll not only in bodies but in minds also. Insanities and lesser nervous disorders could be spectacularly reduced if this fact was more generally respected. Training for mental health must be started in childhood as that is the time when corrections can be made to the best advantage.

Mr. and Mrs. L. T. Burton returned Sunday from a week's visit in South Texas points, including a meeting of embalmers in San Antonio and a visit in Corpus Christi.

The number of bathtubs in the United States is 18,500,000—ninety-five per cent of all those in the world.

Road hogs do not live to get to the packing house.

Texas has 254 counties, the largest is five times bigger than the area of the state of Rhode Island.

A plant costing \$10,000 for refining "fullers earth" clay, used by oil companies in refining oil and gas products, also for other purposes, has been established at Silvertown, where this uncommon clay was recently discovered.

### The Low Down FROM HICKORY GROVE

Writing about dogs, it is dangerous business, and you're on thin ice. Some folks who have dogs, they will not like what you say, and other folks who do not care for dogs, maybe they won't like—but the dogs will.

Dogs in the country, they need no spokesman—so I campaign only for the city dogs.

A dog in the city, he is mostly on a rope—or locked up—and is as happy as a person in jail or on a chain gang—and as useless. And people in the city who have a dog, they are not shootin' square with him. But in the country, you can not have too many dogs—one dog per acre, it is not too much—and they are useful there, and your best friend. One acre, one dog—that's my slogan.

And the old saying—he leads a dog's life—it did not get started by any country dog. It got started by the feller in the city who has to lead a dog for the Mrs.—and I feel sorry for the feller—also the dog.

Yours, with the low down, JO SERRA

### FRIED SNAKE IS SERVED TO MATADOR QUARTET

Four Matador men had rattlesnake and chicken-hawk—chicken fried style—for supper recently. L. B. Bob Robertson, J. D. Craven, Gus Bird and Alvin Stearns returned from the Pease river breaks with about 15 large rattlers and a chicken-hawk which had been killed on the expedition. They selected a "tender-looking" snake from the assortment, killed and dressed it together with the chicken hawk and had both cooked chicken fried style at Bob's Cook Shack. "The snake was fine and tasted like fish," the declared.

Mr. Robertson, who has a private menagerie at his Oil Well filling station located at the intersection of highways 18 and 28, has placed a number of the largest rattlers from Sunday's catch, on display. Many declare them to be some of the largest ever captured in this section. Some of the snakes measure as much as six feet, weigh 25 pounds and have 15 rattlers. Mr. Robertson's menagerie contains four wild cats, a monkey, a bald eagle, two foxes and the assortment of rattlesnakes. The collection attracts the attention of tourists each season. For the past two years he has killed his snakes when cold weather starts and secures a new assortment in the spring.

Mr. Robertson and his associates declare that capturing rattlesnakes is fascinating sport after the tenderfoot passes the ordeal of the first hunt. A number of old-time cowboys of this section who have always looked upon the rattler as a deadly enemy, will accept their statements without trying the experience. —Matador Tribune

Mr. and Mrs. M. P. Gentry have returned from a visit of several days with friends at Lubbock and Wicket.

### THOMPSON HARDWARE CO. ANNOUNCES REFRIGERATOR CONTEST; ENDS JULY 1ST.

Emphasizing the demand for up-to-date household refrigeration existing not only in this community but throughout the nation, L. E. Thompson, sales manager of Thompson Bros. Co. announced today that the company is collaborating in a nation-wide competition in which 300 modern refrigerators will be awarded to the same number of winners. The period of the contest is from May 20 to July 1.

"The current increased interest among the people of this community in up-to-date refrigeration will be heightened through this competition and our company therefore takes pleasure in announcing its cooperation in the contest," Mr. Thompson stated. "For this reason we are inviting all interested persons to call at our salesrooms where free entry blanks

will be available, and where complete information regarding the contest can be obtained.

"The contest is conducted by Proctor and Gamble, the well-known soap manufacturing concern, in collaboration with Servel, Inc., makers of Servel Electroflux refrigerators operating on gas and kerosene.

Mr. and Mrs. George Chamberlain of Austin spent the forepart of the week with his parents, Mr. and Mrs. F. E. Chamberlain.

Rev. and Mrs. H. L. Hunkel of Slaton are visiting in the home of their daughter, Mrs. J. Frank Heath.

Mrs. B. P. Brents left Wednesday night for a visit with her parents, Mr. and Mrs. T. E. Wright at Leonardi and to attend the wedding of her sister, Miss Naomi Wright to Stapp Maxwell which will take place May 29.

## Garden Club Meets Friday Afternoon

The Garden Club met Monday afternoon, May 23, with Mrs. Joe Goldston as hostess.

Mrs. Goldston received her guests on the lawn where they enjoyed seeing the numerous beauty spots of artistic corners that can not be seen from the street.

After the pilgrimage the guests entered the living room which was charmingly decorated with bowls of cut flowers and a gorgeous pot plant.

The program consisted of the roll call, answered by state flowers, a description of some of the past and present "Famous Gardens of Old Mexico" given by Mrs. U. J. Boston, and an informal talk on "Back Yard Landscaping," by Mrs. Cap Morris.

A delicious refreshment course was served to Mesdames Walter Taylor, Lon Rundell, Tom Goldston, Cap Morris, Jim Patman, A. L. Chase, Lee Bell, Ben Prewitt, Cliff McDowell, Harry Brumley, J. Perry King, Bill Ray, J. H. Howze and the hostess, Mrs. Joe Goldston.

## Mrs. Dyer Hostess To 1912 Club

Mrs. Minnie E. Dyer was hostess to the 1912 Needle Club at the home of her daughter, Mrs. T. H. Ellis last Thursday afternoon.

An attractive arrangement of Spring flowers added a note of loveliness to the rooms throughout the Ellis home.

A delightful afternoon was spent in various kinds of needle work and conversation after which a lovely refreshment course was served to Mrs. J. B. McCalland, Mrs. Newton C. Smith, Mrs. F. H. Rhoades, Mrs. Attebury of Amarillo, Miss Kate Goss of Dallas, Miss Nettie Sims, Mrs. Geo. Ryan and Mrs. Sam Dyer, guests; and Mrs. L. S. Bagby, Mrs. R. A. Chamberlain, Mrs. A. L. Chase, Mrs. Edd Dishman, Mrs. J. W. Evans, Mrs. Sella Gentry, Mrs. B. L. Jenkins, Mrs. A. R. Letts, Mrs. A. A. Mayes, Mrs. John Sims, Mrs. J. T. Patman, Mrs. Crockett Taylor and the hostess Mrs. Dyer, members.

## HOME EC GETS CREDIT ON THIRD YEAR COURSE

Clarendon school officials were advised that credit has been granted the third year home economics study.

This is the first year for the local school to teach the third year course. The class has 14 students, which was quite a large group. It is larger than most schools in this area.

Mrs. Carroll Knorpp and daughter, Doris, left today to spend the summer in California.

## C. H. D. Club Enjoys All Day Meeting

The Clarendon Home Demonstration Club met in an all day meeting in the home of Mrs. W. A. Davis, Friday, May 20 with fourteen members and two visitors present.

Each lady brought a covered dish and a delicious luncheon was served at the noon hour. The vice president, Mrs. McDowell, presided over the business meeting and the members answered the roll call, naming the states and their capitals.

The ladies quilted a quilt for the hostess and it being her birthday, presented her with a shower of gifts.

The club adjourned to meet with Mrs. M. A. Hahn at the club room, June 3, 1938.

Guests for the day were Mrs. Couch and Mrs. McWhorter. Members present were Mesdames G. A. Anderson, John Black, A. L. Chase, H. J. Eddinton, M. A. Hahn, C. D. McDowell, A. W. Simpson, W. D. Van Eaton, Mattie Hudson, G. W. Antrobus, Elmer Hayes, Misses Etta and Ida Harned and the hostess.

## Mrs. Hayter Hostess To Ashtola Club

The members of the Ashtola Needle Club met with Mrs. W. T. Hayter in her Clarendon home, Thursday afternoon, May 19.

The roll call was answered by the members with favorite poems.

During the business session definite plans were made for a Mother-Daughter banquet to be held in the Ashtola school building on June 3.

Delicious refreshments were served to Mrs. C. C. Barker, Mrs. J. R. Brandon, Mrs. C. G. Cobb, Mrs. J. L. Graham, Mrs. W. P. Holley, Mrs. Van Knox, Mrs. W. A. Poovey, Mrs. Loyd Reid, Mrs. H. A. Rhodes, Mrs. Loyd Shelton, Mrs. W. P. Shelton, Mrs. M. S. Swinburn, Mrs. D. M. Tolinson, Mrs. T. M. Watson, Mrs. G. G. Henson, Miss Ruby Lee, the hostess, Mrs. Hayter, and her mother Mrs. Longan.

## Mr. and Mrs. Ayers Hosts To 1937 Club

Mr. and Mrs. G. G. Ayers were genial hosts to the members of the 1937 Bridge Club at their home Monday evening.

Games of bridge provided entertainment throughout the evening at conclusion of which Price Whitlock was awarded high score for men and Mrs. U. Z. Patterson high for ladies. Low score prize was claimed by L. L. Wallace.

Lovely refreshments were served to Mr. and Mrs. Price Whitlock, Mr. and Mrs. Roy Blackman, Mr. and Mrs. U. Z. Patterson, and Mr. and Mrs. Verna Lusk, guests, and to the following members, Mr. and Mrs. George Wayne Estlack, Mr. and Mrs. Alfred Estlack, Mr. and Mrs. Willard Skelton, Mr. and Mrs. L. L. Wallace, and Mr. and Mrs. Elmer Palmer and the host and hostess, Mr. and Mrs. Ayers.

## Pupils In Spring Recital

Mrs. Allen J. Bryan presented her pupils in a Spring recital at the College Auditorium, last Thursday evening, May 19, at eight o'clock.

Pupils who appeared on the program were Miss Ethelyn Drennan, Miss Nelda Sue Burton, Misses Betty Jo and Marilyn Bartlett, Miss Margaret Ann Jenkins, Billie Cooke, Miss Dorothy Ann Kennedy, Billy Thornberry, Miss Frankie Hommel, Miss Margaret Faye Wadsworth, Miss Guida Myrl Miller, Miss Naomi Morris, and Miss Margaret Jean Leathers.

## Garden Glances

Presented weekly by the Garden Club

"America the beautiful lies in the hands of the gardeners"

The recent rains have so enhanced the beauty of all the lawns that a mere glance in passing them will be a feast to the flower lovers.

The back yard fences over run with masses of roses are noticeable at dozens of homes, and hedges of roses are to be seen on various lawns, so that it is hardly possible to enumerate them. In fact, it seems there are so many more than usual that we can almost forget the discouraging winds of the past.

The gorgeous clumps of coreopsis are two feet high in places, and such huge blossoms! These and the blue delphiniums are to be seen frequently together, and the annual baby breath with pink delphiniums. Then many of the flower borders consist of verbenas and annual phlox just now.

The lily pools can not be clearly seen from the street, but many of the Clarendon people have studied the arranging of their pools, to fit in beautifully with their landscaping. Some of the most beautiful lily blossoms are noticeable in the pool at the Bill Green home.

The lawns are such a delight to the observer at present, that ones time cannot be wasted by viewing them.

## Mamie Barker Is Honored

Miss Mamie Barker was honored with a lovely birthday party, Saturday afternoon, May 21, at 2:00 o'clock, given by her sister, Mrs. Doyce Graham. Thirteen of her friends brought gifts to celebrate her thirteenth birthday.

As the children gathered they wrote wishes in the birthday book which was presided over by Miss Jane Wilson. The afternoon was spent in playing delightful relay games.

Dainty refreshments were served to the following guests, Charline and Billy Jean Knox, Imogene and Jane Wilson, Wilma Henson, Nova Lee Barker, Billy Ray Graham, Clovis Cheatwood, Earl Barker, Russell Morris, Bobby Marshall, Redelle Henson, the honoree, Miss Barker, and the hostess, Mrs. Graham.

## Lelia Lake Seniors Are Entertained

On Friday evening, May 20, the Lelia Lake Senior class, their sponsors and faculty members were given a lovely three-course dinner party in the Jim Christal home by Misses Lois Johnson, Marjorie Harlan and Geraldine Pratt.

The color scheme of green and orange was carried out in the decorations and the menu.

Place cards, after dinner games, and the prizes awarded carried out the senior theme.

Those present were Marie Bain, Alvis Darnell, Thelma LaFon, Lloyd Hefner, Melvin Skinner, J. R. Naylor, Wallace Riffe, Mr. and Mrs. Raymond Wilson, Mrs. Nilla Cook, Buren Carr, and the hostesses.

A delightful dinner was given the seniors, their sponsors, and Mr. and Mrs. Raymond Wilson, in the Lloyd Hefner home Sunday.

The delicious dinner was served cafeteria style.

Those who enjoyed the festive occasion were Aline Morton, Alvis Darnell, Wallace Riffe, J. R. Naylor, Marie Bain, Thelma LaFon, Melvin Skinner, Buren Carr, Mr. and Mrs. Raymond Wilson, Mr. and Mrs. Verna Lusk, and son, Bobby Gene; Mr. and Mrs. A. O. Hefner and the hosts.

## Mrs. Teel Entertains Friendship Club

The home of Mrs. G. J. Teel was artistically decorated with lovely bouquets of Spring blossoms and pot plants when she entertained the members of the Friendship Club at her home Tuesday afternoon, May 24.

The meeting was opened by the president, Mrs. C. R. Skinner after which the scripture lesson in Psalms was read and the group was lead in prayer.

The afternoon was delightfully spent in conversation and work was continued on the quilt that the club members are making for Mrs. Newton C. Smith.

A refreshing ice course was served to one guest, Miss Idell Du-rrett of Amarillo, Mrs. L. Ballew, Mrs. Glen Williams, Miss Katie Meaders, Mrs. Alene Skinner, Mrs. Newton C. Smith, Mrs. J. A. Meader, Mrs. C. R. Skinner, Mrs. J. E. Mongole, Mrs. H. Tyree, Mrs. C. E. Lindsey, Mrs. M. E. Thornton, Mrs. J. D. Stocking, and the hostess, Mrs. Teel.

The next meeting of the Friendship club will be held in the home of Mrs. H. Tyree, Tuesday afternoon, June 14.

W. R. Nunn of Norman, Okla., visited Mrs. Mollie E. Gray and Mrs. J. R. Tucker here Tuesday.

## FREEZER MUST BE COLDER THAN ICE TO MAKE ICE CUBES

The expression "cold as ice" is taking on a new significance now that the general public is becoming acquainted with more of the mechanical facts of electrical refrigeration. They now realize that something as cold as ice won't itself freeze ice cubes. To freeze cubes requires something that is colder than ice itself, according to the local representatives of Frigidaire, the General Motors electrical refrigerator.

In an effort to clarify further the fact that some refrigerators can make ice cubes more rapidly than others, and just why this is so, Frigidaire has supplied its various dealers with an instrument known as a thermo-gauge. This device, which is a regular part of what the company terms a proof display, shows exactly, in figures understandable to the layman, the temperature of the freezing unit that makes the ice cubes in Frigidaire.

"Of course, it is known that, technically speaking," stated a Frigidaire representative, "anything that is colder than 32 degrees, will, in time, freeze water. But where such time is a factor, and ice must be had quickly, the colder the source of freezing power, the sooner the cubes will be ready. However, when temperatures reach the freezing point and below, the human hand is a poor instrument for judging the degree of cold in a freezer. The real proof of Frigidaire's fast freezing ability is given to the public by means of the thermo-gauge, an accurate instrument, which shows to the fraction of a degree, the exact temperature prevailing in the freezing trays.

Thus it can be easily understood that when temperatures are as low as 15 degrees or 10 degrees or 5 degrees above zero, the freezing will be much more rapid than the usual temperatures of 20 to 25 degrees above. The thermo-gauge proves Frigidaire can provide the lower temperatures whenever needed.

"Of course these thermo-gauges do not accompany the Frigidaire units of homes of purchasers, because there each Frigidaire tells its own story by reason of its own performance. But by making use of the thermo-gauge it no longer is necessary for anyone to take for granted before purchasing, the fast freezing ability of any Frigidaire. The thermo-gauge gives the proof in a simple, understandable way."

Will be explained at the News' Motion Picture Cooking School, June 13, 14, 15 at the Pastime Theatre.

## Mrs. Stricklin Hostess To Bluebonnets

Beautiful spring flowers artistically arranged throughout the house made a lovely setting for the Bluebonnet Club when Mrs. C. G. Stricklin entertained at her home last Thursday afternoon.

Lovely awards went to Mrs. John Blocker who played high for club members, Mrs. John Knorpp who was high for guests and Mrs. Homer Glascoe received the consolation cut.

At the conclusion of the afternoon the hostess served delightful luncheon plate to Mesdames Ruth Kennedy, James Trent, T. H. Ellis, Sam Dyer, L. S. Bagby, Carrol Knorpp, H. F. Harter, Phillips Gentry, John Knorpp and Homer Glascoe, guests and Mesdames George Ryan, John Blocker, A. R. Letts, R. L. Bigger, Charles McMurtry, W. H. Patrick and Fred Chamberlain, members.

FIRST PRESBYTERIAN CHURCH Robt. S. McKee, pastor.

Sunday: 10:30 a. m., The Morning Worship, to be conducted by lay members.

11:00 a. m., The Church School. The pastor will be away preaching the Baccalaureate sermon at the Quail School, There will be no sermon.

7:30 p. m., The Evening Service. Sermon by pastor, "Mountains."

Mrs. A. A. Mayes left Sunday morning for Nashville, Tenn., and Birmingham, Ala., for a visit with relatives and friends.

## FLOWERS

The liveliest Thought of All...

Words cannot express the sentiments that are conveyed by a glowing bouquet of flowers. Whatever the occasion be, contact our local representative and immediate service will be given you by the Panhandle's leading florist.

Cunningham Floral Co. Amarillo Represented by Douglas-Goldston Drug Company.

## AT THE FIRST BAPTIST CHURCH

There Is Always Worship Fellowship—Service

The soul of all improvement is the improvement of the soul, and it is only a keen sense of need that stimulates the soul to continuous and repeated efforts. Continuous and repeated efforts is the only method by which the soul will be improved. The christian calling is a high calling. The direction is up hill. One cannot be self-satisfied and grow in grace and in the knowledge of the Lord. A constant continuous effort is not irksome if improvement is being made. It is delightful. It brings joy and constitutes a challenge. Therefore, people should be constant and continuous and persistent in their church relationship. The influence of a Christian who is not happy is worse than the influence if one that is not a christian. Christian people ought to be happy, and the only way to be happy and keep happy is to be continually at work for the improvement of the soul and the advancement of Christ's kingdom in the hearts of mankind. Let nothing but a providential hindrance keep you from your church services.

Regular services at The Baptist Church Sunday. It always delights our souls when you come.

J. Perry King, Pastor.

EIGHT DONLEY STUDENTS WEST TEXAS GRADUATES

Virginia Williams, Gladys Salmon, Mary Francis Powell, Ardis Patman, Lorene Hayes, Beatrice Hardin and Arthur Chase of Clarendon and Zona Adamson of Hedley are the Donley County members of the senior class of West Texas State Teachers College at Canyon.

### T. C. U. Commencement Figures

Dr. Edgar DeWitt Jones, minister of the Central Woodward Christian Church of Detroit, Mich., will deliver the commencement address for the class of 1938 at Texas Christian University. The exercises will be held in the open air on the campus at 8 p. m., Monday, May 30. Baccalaureate services will be held Sunday morning, May 29, with Dr. M. E. Sadler, pastor of the First Christian Church, Austin, Texas, as the speaker. Charles Mosshart, Ennis, is president of the T. C. U. class of '38.

### MIDWAY

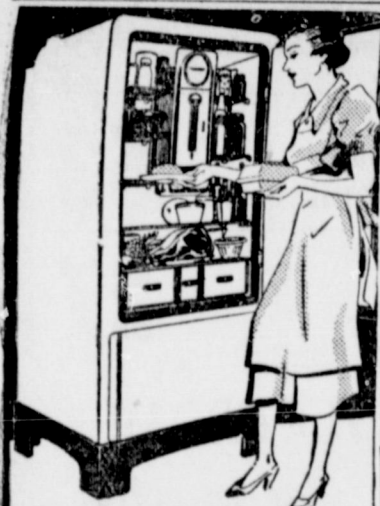

(By Mrs. P. H. Longan)

We are having more rain than we know what to do with at present. There was quite a little hail in some places.

Calvin Holland is laid up with a broken arm again, having broken the same arm that he broke about two months ago.

Mr. and Mrs. A. O. Hefner entertained the Lelia Lake Senior class with a dinner Sunday. There were 17 present including Mr. and Mrs. Wilson and Mr. Carr, teachers.

Mr. and Mrs. Gene Chamberlain and baby and Mrs. R. A. Chamberlain and Mrs. T. L. Taylor were guests of Mr. and Mrs. John

**A FEW CENTS A DAY** brings you all the joys of modern city **REFRIGERATION** **SERVEL ELECTROLUX** Runs on kerosene, needs no water or daily attention

- PLENTY OF ICE CUBES
- PERFECT FOOD PROTECTION
- COOLING DRINKS AND FROZEN DESSERTS

OPERATES ON KEROSENE GAS OR BOTTLE GAS  
**THOMPSON BROS. CO.**

Chamberlain Sunday.

Mr. and Mrs. J. T. Lamberson and son of Vernon, and Jack Lamberson visited in the Pat Longan home Sunday afternoon.

George and Tom Eanes of Clarendon were guests of Mr. and Mrs. Edwin Eanes Sunday.

Mr. Claude Bain and Mr. Ferris visited Mr. Pickering Friday afternoon.

Mr. and Mrs. Nelse Robinson spent Thursday and Friday with Mr. and Mrs. Homer Beach.

Mrs. Pat Longan spent the fore part of last week with Mr. and Mrs. Gaither in Amarillo.

Mr. and Mrs. Stephenson and Jannette, spent Sunday with Mr. and Mrs. W. D. Higgins.

Mr. and Mrs. Clifford Davis and Billie spent the week end with Mr. and Mrs. W. K. Davis. They are leaving for California Thursday on their vacation and will visit Miss Josie Davis and Leroy Davis in Los Angeles.

Miss Beatrice Hardin spent the week end with the home folks. She has accepted a position in the Bovina High School for the next term.

Mr. and Mrs. A. J. Garland and son spent Sunday with Mr. and Mrs. Leonard Putman.

Mrs. T. K. Stone visited Mrs. John Goldston Monday afternoon.

Mr. and Mrs. Frank Hardin and Warren and William and Misses, Beatrice and Gladys Hardin spent Sunday in the Pat Longan home.

Mr. and Mrs. Bulman visited in the Moreland home Sunday afternoon. Miss Robbie Zoe Moreland spent Saturday night with them and they brought her home.

Gone and Junior Bulman spent Saturday night with Billie Moreland.

Mr. and Mrs. A. J. Garland and baby spent Monday with Mrs. Reed at Ashtola.

Mrs. Koontz and Misses Oleta and Oltha Koontz visited Mrs. Riley and Miss Dorothy Sunday afternoon.

Mr. and Mrs. A. W. Seaton and family visited Mrs. T. K. Stone Saturday night.

Pat Longan and his boys and dogs killed 122 rats Monday morning. The rats had become such a menace, he had to take up some cement floors to get them.

Mr. and Mrs. Clarence Reynolds and baby and his mother spent Monday with Mrs. W. A. Koontz. Misses Oleta and Itha Koontz spent Saturday night with Mrs.

Reynolds at Goldston. Ray Koontz of Quail spent several days last week with his mother.

The Quilting Club met Thursday with Mrs. A. W. Seaton with 16 members present. The club presented Miss Reba Higgins with a locket for a graduation present. The next meeting will be with Mrs. Clyde Butler in Clarendon.

### HEDLEY

(Pauline Stone)

Dr. and Mrs. J. C. Coffee of Benjamin visited friends here last Tuesday.

Mrs. Fannie Franklin of Saint Jo is visiting in the home of her son, W. D. Franklin.

S. C. Bell and family were called to Temple last Wednesday in response to a message that his brother had passed away.

Mrs. J. G. McDougall has been brought home from the Odum Hospital and is doing nicely.

The Baptist Worker's Conference met Tuesday with the church at Parnell.

School closed Friday, May 20, a very successful year.

James Stone spent Saturday night with Charles Seets in the D. B. Koen home at Lelia Lake. Mr. and Mrs. A. B. Harris and

James Stone and Mr. and Mrs. D. B. Koen and Charles Seets of Lelia Lake spent Sunday with C. L. Harris at Quail.

Mr. and Mrs. Raymond Cantrell and daughter, Nelda, of Conway spent Monday night with the lady's parents, Mr. and Mrs. Fletcher Randall.

Horace Armstrong of Borger was a Hedley visitor Saturday. Mrs. L. P. Trimble is visiting in Fort Worth this week.

Miss Pauline Stone spent Saturday night and Sunday with Mr. and Mrs. Leonard Baggett.

Mr. and Mrs. Harrison of Wellington is visiting their son, Mr. and Mrs. Dave Harrison and family.

Mr. and Mrs. P. C. Johnson were entertained Monday night, May 16, at the C. R. Hunsucker home with a birthday party for Mr. Johnson's 67th birthday.

Everyone is busy planting since the rain we received Sunday.

One musical firm in Germany produces 20,000,000 mouth organs and approximately 1,000,000 accordions annually.

The saltiness of our tears is attributed to the fact that common salt is the most abundant salt in the blood stream.

Subscribe for The Clarendon News.

"Caught in the act!" Dedee Abot baked this beautiful birthday cake as a surprise for Mike Anders in "Star in My Kitchen," but Mike walked in unexpectedly and spoiled the surprise. There are many delightful surprises in store for the women of this community when they see the cooking school picture.

### BRICE

(Mrs. D. T. Smallwood)

#### Miscellaneous Shower

Mrs. John Lemons, who before her marriage was Miss Margaret Shepherd, was honored with a miscellaneous shower Monday afternoon with Mrs. George Dickson as hostess.

At 3:00 o'clock, the gifts were presented to the bride and were opened and admired by the group.

Dainty refreshments were served to Mesdames Milton Evans, Starr Johnson, Bill Wood, George Dickson, Edwin Murff, Jess Wood, F. E. Gibson, Will Tate, Charlie Murff, Slick Wilson, Joe Wood, J. C. Johnson, A. Hightower, N. L. Murff, W. E. Shepherd, D. T. Smallwood, M. L. Pittman, Elmer Cheek, Zack Salmon, Cal Holland, Hilburn Gattis, M. A. McCrary, Adell McBrayer, and Walter Wood. Misses Mayme Smallwood, Mildred Pittman and Clyde Shepherd.

Those who were unable to be present sent gifts.

#### Locals

Rev. Mason was at the Baptist Church Sunday night and gave a chalk-talk.

Mrs. Henry Youngblood is visiting at Dimmit with her daughter, Mrs. Meade Haile.

Mr. and Mrs. Tommie Ringwald of Clarendon spent Saturday night with his sister, Mrs. Fred McAnear.

Billie Salmon spent Saturday with Peggy Gene Rumpy at Chamberlain.

#### Quilting

The Brice Quilting Club met Thursday, May 19 at the school auditorium for an all day quilting.

Twenty four members were present and three quilts were in frames. The day was spent quilting and visiting.

The club will meet again Thursday, June 2.

Scientists estimate that nearly 50 per cent of this country's oil reserves lie under Texas soil. Over 68,000 Texas oil wells supplied about 40 per cent of the petroleum produced in the nation in 1936, at a total value of \$410,000,000. Oil is, indeed, Texas' greatest source of income.

As a certain amount of crying each day helps to develop a tiny baby's lungs, the normal crying of an infant should not occasion worry.

Crying at tear-provoking motion pictures, except in the case of chronic weepers, is evidence of imagination—an important phase of intelligence.

"Star in My Kitchen" was produced in one of the major motion picture studios in Hollywood and has a large cast of well-known actors and actresses. It combines in a feature-length picture the romance and glamour of Hollywood with the everyday problems of home-making. You will laugh at and with Auntie Bella, the large, jolly, colored maid, and be thrilled by the love scenes between Mike (the movie star) and Dedee, the lovely heroine. And, most important of all, you will see in complete detail demonstrations of many recipes developed by several of America's leading home economists.

**STAR BLADES**  
FOR GEM AND EVER-READY RAZORS

Dedee Abot and Mike Anders have lunch on the beach in one of the many entertaining scenes in "Star in My Kitchen," the interesting and instructive picture that every woman in this community should see.

**Texas Has Wide Variety Of Grasses Suitable For Pasture Development**

In Texas are more than half of the 1,100 known species of grasses in the United States used in developing permanent pastures on farms. R. L. Hensel, agronomist for the Texas Agricultural experiment station, College Station, points out.

This wide variety is very important in the current drive to build back pastures on farms that have been denuded by overgrazing or ruined by erosion.

Experiments are being made by Hensel and his staff at Sonora in West Texas and Angleton on the Gulf coast region to determine best varieties that will establish or re-establish pastures.

None of the tame grasses such as timothy, Kentucky blue grass, orchard grass or brome grass are adapted to Texas.

So far this one specie that has the greatest range possibilities is buffalo grass. It is found in the

Great plains from Northern Mexico to Canada and has been found as far east as Louisiana. Hensel says, it produces abundant forage that is highly palatable, is drought and cold resistant and adapted to a variety of soils.

Its one drawback, Hensel has found is the short length of seed stalks. Seeds are borne close to the ground and are difficult to gather. Seed are produced in abundance and show a germination percentage of 80 or higher.

Buffalo seed from seven different sections of Texas has been collected by the experiment station scientists to find out the best of each region. So far, seed from the Temple area are more robust, larger-leaved, more rapid growth and hardier in winter. Some 300 plants from Chillicothe under care at College Station were winter dormant Jan. 10, but those from Temple were still green and growing.

Development of permanent pasture, while important for every region in Texas capable of having pastures, is particularly important for those North and East Texas counties showing interest in dairying. The milk processing plants which have provided a good market for farmer's milk in these regions will continue to be a good source of extra income for farmers. That income will be increased by better pastures, good water supply and development of shade trees and persistent improvement in the type of milk cows.

**1937 Cotton Bounty Soon To Be Received**

Earley payment of the 1937 cotton bounty of two cents per pound has been approved by the Senate in adopting the amendment of Senator Tom Connally of Texas to the agricultural appropriation bill. When the bill is finally enacted into law the de-

partment will start immediate preparations to make payment upon proper proof of compliance. Senator Connally has been advised. The benefit payments to cotton farmers are made possible by the Connally-Jones amendment to the agricultural adjustment act of 1935. This amendment, which was sponsored in the Senate by Senator Tom Connally, provided that a percentage of the revenues from customs duties should be used by the Secretary of Agriculture to pay bounties to farmers and otherwise aid in the increase of agricultural exports.

Last August Senator Connally made provision for benefit payments to cotton farmers on their 1937 crop under the terms of the Connally-Jones plan. It was finally put into effect but provided that payments should go only to farmers who cooperated in the 1938 program. The Comptroller General ruled that such payments could not be made until the end of the 1938 crop year and officials of the Department of Agriculture said it would be December before farmers would get their checks. Senator Connally then introduced his amendment providing that the payments should be made just as soon as a farmer shows he is complying with the 1938 program. Approximately \$130,000,000 will go to cotton farmers as benefit payments under the provisions of this amendment.

Cotton is the most valuable crop grown in Texas. The 1936 crop was valued at \$217,018,000. The average Texas cotton crop covers about 12,000,000 acres, the greatest single crop grown in any one state and provides a livelihood for more people than any other Texas industry.

Mrs. Ralph Andis and son Bill by Ralph and Mrs. B. P. Brents were in Amarillo Saturday.

**LIBRARY NOTES**  
(By Mrs. C. A. Burton)

A contribution to the library which we appreciate was made recently by Mr. S. M. Braswell. The Daily Christian Advocate—the complete daily records of the General Conference of the Southern Methodist Church which was held in Birmingham, Ala., this month and to which Mr. Braswell was a delegate. This conference was the most significant since the division of the Methodist Church in 1844 because at this conference the two great divisions were again united. The complete file of the proceedings bound in a folder, will increase in value with the passing years because of its historic value to the eight million adherents of the united church.

Mrs. Barcus gave us two travel books of interest—"Brazilian Adventure" by Peter Fleming and "Voodoo Five in Haiti" by Richard A. Loederer. And besides these we have the following new books for our readers to enjoy with the coming of Summer:

"Younger Sister," Kathleen Norris; "Satin Straps," Maysie Greig; "True by the Sun," Lida Larimore; "The Captains Curio," Eden Philpotts; "Life, Love and Jeanette," Louise P. Hauck; "The Trail to Yesterday," Seltzer; "Ships of Youth," Maude Diver; "New Ground," Katherine Haviland-Taylor; "Three Roads from Paradise," Larry Barretts; "In the Bridges Mirror," Margaret Turnbull; "The Great Impersonation," E. Phillips Oppenheim; "For Forest," Frances Brett Young; "All About Jane," Pamela Wynne; "The Lone Wolf," Louis Joseph Vance; "The Hurricane," Nordhoff and Hall; "Amy," Priscilla Wayne; "After Five O'clock," Elizabeth Corbett; "The Hairy Arm," Edgar Wallace; "Heavy Weather," P. G. Wodehouse; "South of Rio Grande," Max Brand; "Spring Dust," Olive Wadswley; "Surgical Call," Margaret E. Sangster; "Happy Jack," Max Brand; "The Doctor of Lonesome River," Edison Marshall; "Tremaine of Texas," W. D. Hoffman; "The Cutters," Bess Streeter Aldritch; "April and Sally June," Margaret Piper Chalmers; "Trouble Trail," Max Brand.

Klaus and Erika Cann, son and daughter of Thomas Mann, the self exiled German writer are writing a book entitled "Escape to Life," due for fall publication. It will discuss the emigration of prominent Germans from their native land since the rise of Hitler and will deal with the general question of freedom of thought and expression in Fascist and democratic countries.

"My Austria," former Chancellor Dr. Kurt Schuschnigg's only book will be published in this country this month. The publishers report that forty thousand copies were sold in Austria in four months and that five thousand were actually sold in Germany itself, in spite of measures taken against it. The book was not reviewed by the press and no German newspaper would accept advertising for it.

Edgar A. Guest has a new volume of poems off the press—his first since 1933. The last was entitled "Life's Highway" and this is "All in a Lifetime." Edgar A. Guest has a popular appeal because his poems are the mirror of every-day life.

The American Library Association will hold its sixtieth annual conference at Kansas City, June 13-18. One of the very important questions to be considered by the convention is to urge passage of the bill which is now before Congress to carry into effect the recommendations of the President's Advisory Committee on Education which advocate that federal grants of \$30,000,000 be made for rural library service during the next six years, beginning in 1939.

Among the speakers who accepted invitations for the program are Lady Tweedsmuir, wife of the Governor-General of Canada, who will broadcast from London a talk on her "prairie libraries." Lord Tweedsmuir, who is John Buchan, the author, has long been concerned with libraries as a contributor. His wife is now equally and most successfully concerned as a distributor. Charles Finger, who won the Newberry award for the most distinguished contribution to children's literature in 1925, will be another speaker and M. M. Harris of the San Antonio Express who is said to be the "editor doing more to promote library progress than any single editor in the United States" will also appear on the program. Besides the Newberry medal to the American author of the most distinguished book for children, the new Caldecott medal will be awarded to the artist creating the most distinguished American picture book for children.

Grace Noll Crowell of Dallas, Poet Laureate of Texas was recently chosen "The American Mother of 1938" by the Golden Rule Foundation in a nation-wide round of nominations. This custom was started in 1934, and Mrs. Crowell is the fourth woman to be chosen. She is the mother of three grown sons.

WHITE, CLEAN—Cotton Rags wanted at the News Office.

**Putting Extra Acres on Legs**

By T. C. RICHARDSON, Secretary  
Texas Breeder-Feeder Association

Under the farm law of 1938 every farm is divided, like Gaul, into three parts. They are, briefly, the soil depleting, neutral and soil conserving acreage, and proportion allotted to each division varies from county to county and farm to farm. The principal cash crops classified as "soil depleting" are governed by specific terms of the law and the regulations thereunder, and are eligible for benefit payments. The "soil conserving" crops also designated by law and regulation, may be grazed or fed to the normal number of livestock on the farm without penalty, and when turned under for soil improvement also earn benefit payments. This takes care of the family milk cows and work stock already on the farm.

The "neutral" or "general crop" acreage is subject to no restrictions of use whatever. It can be planted in any crop desired except those on which the farm has a definite allotment, such as cotton, wheat, rice or peanuts. It is this acreage that offers the greatest potentialities for increase and stabilized farm income if properly used. Some of this—a very limited amount on the whole—will go into truck or other intensive crops for sale. Good judgement of course will dictate the use of liberal production of food crops to be used at home.

Most of this acreage, however, will have to go into feed crops of one kind or another. In the cotton belt this can easily result in such a large feed crop that the cash markets will be swamped and the producer will scarcely get harvesting costs, much less pay for his labor and the use of the land in production. We have all seen milo sell at \$2 to \$5 a ton of heads, oats at 20 cents a bushel or less, corn at 35 cents, which does not represent day wages for harvesting and hauling to town. Since all feed crops must in the end go into livestock or poultry, it stands to reason that the consuming animals and fowls should not be brought to the feed instead of shipping the feed to them elsewhere. A truck or railroad ride does not increase the meat or milk-making capacity of a ton of hay or a bushel of grain. The farmer who grows the feed can therefore produce animal products on the farm at a lower cost, and whatever the price of eggs, meat, milk or wool, sells his feed to a better advantage in concentrated form than as a raw material.

Farms already set up with the livestock and poultry to consume their feed crops, and the facilities for handling them, will follow their usual practices with no interference from the law. Those not so circumstanced may be temporarily embarrassed in making the necessary readjustments to utilize this acreage to the best advantage. Fencing and water supplies must be provided when livestock are introduced, and the live-stock must be procured. When the feed is grown and properly stored financing can usually be found, either through private banks or the Production Credit Associations, for the purchase of livestock.

The final effect of the readjustments of cropping practices under the new law will be a better balanced farming system, the spreading of risks, more days of profitable employment in the farming year, the conservation and improvement of the soil, higher acre yields of the cash crops as a result of rotations and manuring, and a better standard of rural life in the South. Wise farmers are making the most of the opportunity to get away from the one-crop system with government benefits to help in making the change.

**Specialist Sees Calves and Dams**

George W. Barnes, Beef Cattle Specialist of State Extension Service of College Station was in Donley county, Wednesday looking over calves being put on feed by 4-H Club boys in the county and offering suggestions along this line.

A tour was also made of several dams which were constructed under the range program in 1937. Mr. Barnes was very much pleased over the work done by the ranchers on range land during the past year and said he would be back in Donley county in August to make another tour of the county as to the work done on the range program.

For more than 10 years, Rutland, one of England's smallest countries, has had no civil cases or prisoners for trial at her assets.

Alfalfa introduced into California during the gold rush, now pays farmers of the state \$30,000,000 annually.

**MRS. R. B. McFALL**

1742 South Twelfth Street, Abilene

**"I Made a Meter Test of Electric Cookery and it ACTUALLY SAVED \$1.14 A MONTH on Fuel and Electric Bills Over a Three-Month Period"**

**..Proof that Electric Cookery Costs Less**

Interview with Mrs. McFall:

- Q. First of all, Mrs. McFall, are you pleased with your electric range?
- A. Indeed, I am!
- Q. Would you recommend it to other women as the coolest, fastest, cleanest and most economical method of cookery you've ever used?
- A. Yes. During the 14 years I've been keeping house I've used most of the other types. After making this test, I know that electric cookery is cheaper as well as cooler, faster and cleaner.
- Q. With five in your family, how many kilowatt-hours did the meter show your range used on a monthly average during the test period?
- A. 109 kilowatt-hours per month.
- Q. You get a special low electric cookery rate on this current, don't you?
- A. Yes. All over 50 kilowatt-hours cost only 2 1/2¢ each. Since this same low rate applied to lights and refrigeration, too, we actually reduced our average previous fuel and electric bills by \$1.14 a month.
- Q. You mean, then, that by using electric cookery, with its lower rate, and by reducing your consumption of other fuel, you had a cooler, cleaner kitchen by far and it actually cost less money?
- A. Believe it or not, that is true!
- Q. Were there any other savings you noted?
- A. Well, during the test period my records showed an average-per-month saving of \$3.83 in groceries and incidentals connected with cooking. I give the electric range credit for that, too.
- Q. Then your savings totaled \$4.97 per month—practically enough to make the monthly payments on an electric range?
- A. Yes. But I am prouder of the fact that cooking has been made easier for me and that my kitchen is so cool and clean!

**"I Recommend ..."**

—Says MRS. McFALL

Comment on Speed:

"Fastest cooking I ever saw. Gives me more time for other household duties."

Exhibits Added To Donley Museum

Exhibits added to the Donley County Museum recently include the following, preceded by the name of the donor: J. H. Hurn, Indian metate found on his farm in Wheeler county. A stone used by Indians for dressing hiles. A muzzle shot gun in his possession for over sixty years. A hand ball used in celebration in New York at Wilson's election in 1912. Mrs. J. C. Estlack, a pocketbook gourd. T. J. Brown, his grandmother's wedding shoes. Mrs. Wm. Patman, a copy of

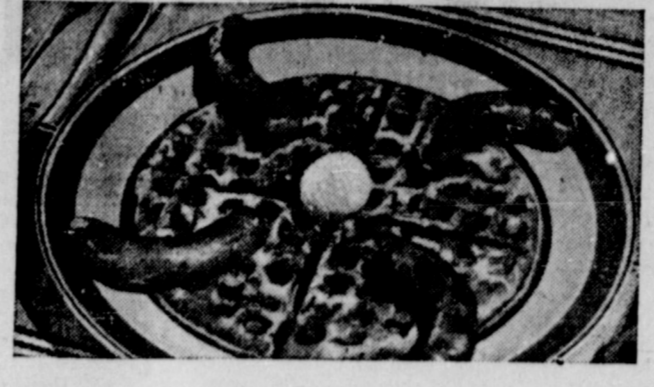

the Clarendon News printed in Old Clarendon, Feb. 24, 1882, belonged to the late W. H. Taylor. A copy copy of a Bible published in 1854, property of Mrs. W. H. Taylor's grandfather; a little dress worn by Mrs. Patman when five years of age; a hat and chawl worn by a negro servant in the Taylor family forty-five years. Mrs. J. T. Patman, a dagguerrototype of an uncle in the Taylor family; a jet-beaded jacket of Mrs. Patman's sister, Florence, a saddle once owned by Jim Owens, a former guide in Grand Canyon. This saddle has been used by Will Rogers, Theodore Roosevelt, Rex Beach and Zane Grey. Mrs. W. H. Patrick, an old

Spanish sword found by W. W. Taylor, when a boy, on Salt Fork, presumably a sword of a Spanish company massacred by Indians. Rev. Newton C. Smith, an old book that has been in his family for 100 years. Mrs. Ella McCrary, a washstand to be used in the pioneer room setting. Mrs. C. C. Powell, a rag rug for the room, and Mrs. A. T. Cole donated a bolster for the bed. During June the museum will be open Friday afternoons from four until six o'clock. The public is cordially invited to view the exhibits.

Negro Caught In Theft Act Sunday

Herman Langston, about 28, Clarendon negro, drew a fine of \$1.00 and costs before Justice of the Peace W. A. Davis on a charge of attempted theft. Inability to pay the fine resulted in his being remanded to jail. Langston was caught in the act of pilfering the cash register at the Cold Storage Power Co., by James Trent during the Sunday noon hour. Trent seized the negro but after a scuffle had only the negro's hat. The negro fled but was later found "hid out" in negro town by Sheriff Guy Pierce. Mr. Trent, owner of the plant, said he did not know if the negro obtained any cash in the pilfering. Mr. and Mrs. Allen Bryan and sons Manly and Gene spent Tuesday and Wednesday in Amarillo visiting Mr. Bryan's parents, Mr. and Mrs. E. F. Bryan.

Grocers Feature New Waffle Menu

During this month grocers throughout the town are featuring the ingredients of an array of sparkling new Magic Menus. Among these is a delicious waffle menu that will make any festive occasion a real success. It consists of: Chilled Orange Juice Aunt Jemima Toasted Coconut Waffles Pork Sausages Syrup or Honey Butter Coffee With Coconut Waffles the heart of the meal, it is important to know how to make them just right. However, the following instructions make this a simple matter. 1. Measure 2 cups Aunt Jemima Ready-Mix for pancakes into mixing bowl. In another bowl beat 1 egg and combine with 2 cups milk or water. Pour liquid and 2 tablespoons melted butter or shortening into flour. Beat smooth. (This makes 6 waffles.) Before baking, sprinkle on each waffle 1/4 cup of shredded coconut. 2. Have waffle iron hot enough to bake a waffle perfectly in three minutes. 3. Grease iron slightly. 4. Serve waffles as soon as done. Don't stack them. Stacking spoils crispness.

College Exes Have Reunion At McLean

A delightful little "get-together" of old Clarendon College exes took place in McLean last Wednesday during the district Methodist conference held there. One of the students of old Clarendon College noted the fact that Rev. G. S. Hardy, former president of the college, was in attendance at the conference. She asked that a room be reserved at the lunch hour and all who were in the college during Rev. Hardy's presidency to lunch together. The result was an occasion to be cherished as one of the very pleasant memories of the passing years by those who were fortunate enough to be there. Speech making and reminiscing was the order of the day. Rev. Hardy spoke of his pleasure in the work of these long-past years and his joy in again meeting so many of the former students, everyone of whom were making good in life and reflecting honor on the school. Rev. Hardy was followed by Mrs. Gable Betts Burton, who was a teacher in the school through those years. She, too, expressed her joy in the fact that old Clarendon College continued to live in the splendid useful lives of those who had gone out from its halls. Rev. D. D. Doak came next with words of earnest appreciation for what the school had meant in his life and in the lives of others. In rapid succession others followed, all expressing their appreciation of the school and its wholesome influence on their lives and their pleasure in this little meeting. Those present were Rev. G. S. Hardy, Mrs. Gable Betts Burton, Mrs. Mary Hardy Allensworth, Clarendon; Rev. and Mrs. D. B. Doak, Elk City, Okla.; Mrs. C. E. Raney, Wheeler; Judge L. E. Gribble and John Forbis, Wellington; and Mrs. Willie Thompson Boyett, McLean. Mrs. Doak will be remembered as Clare Teague and Mrs. Raney as Ethel Teague. —One Who Was There

Mr. and Mrs. W. B. Haile returned Tuesday after spending a week in Rogers, Ark. Rains in the Arkansas belt prevented him from fishing in the famous White River and shooting squirrels, Mr. Haile said.

GRASSHOPPER NOTICE

It has come to the attention of the City Commission that a great many grasshoppers are appearing this spring and in order to do everything we can to eliminate this pest, the City Commission will endeavor to have grasshopper poison distributed on the property of anyone in the city limits of Clarendon, who desires to poison grasshoppers. H. M. Breedlove, County Agent, has been good enough to offer to furnish the poisoned bran for this purpose and the City Commission will endeavor, without cost to the property owner, to have the poison distributed without liability in any way for any damage that may possibly accrue by virtue of the distribution. Application for this service should be made to City Secretary. Phone 432. The City Commission

Will be explained at the News' Motion Picture Cooking School, June 13, 14, 15 at the Pastime Theatre.

Club Boy's Hog Program Grows

Interest in the F. F. A. "Improved Hog Program" has more than doubled during the past year according to J. R. Gillham, F. F. A. advisor. The Hampshire is proving to be the most popular breed among the boys, with a large number of Poland-Chinas. A total of 47 bred gilts and sows and Duroc Jerseys being used, are now owned by the local vocational agriculture boys on a total of 40 farms. The gilts and sows are bred to farrow fall pigs. All of the gilts and sows are either registered or subject to register. A number of club boys are buying weaning size gilts to raise for brood sows as a result of the scarcity of bred gilts. Sows for pig production and pigs for pork production showed a greater per cent profit than any other projects during the past year and a large number of boys are planning to feed more hogs during the coming year.

Jane Hillman Gets Pathfinder Award

Jane Hillman, the smallest member of the 1938 graduating class of Clarendon High School, and the daughter of Mrs. J. R. Hillman, received the award of the Pathfinder Club at the graduation exercises Tuesday evening. When the difficulties and hardships under which this little girl and her ambitious mother have labored so diligently are taken into consideration it makes this award deserve more than passing notice. For nine years this child has ridden thirteen miles to school with transportation from her school district, Windy Valley, furnished only one of the nine years. Jane is a popular girl among the faculty and student body.

Locals Grandson Is Awarded Scholarship

Mr. and Mrs. D. W. Clampitt were in Amarillo Monday night to attend the graduating exercises of Amarillo College. Their grandson, Billy Martin, was signally honored at the exercises by being awarded a scholarship by the University of Southern California. Martin is one of ten college graduates in the United States to receive this honor. The scholarship was awarded upon the basis of his work in Amarillo College—there was no examination. He is a student in the engineering department. He is a graduate of Amarillo High School, class of 1936. Martin, a former resident of Clarendon, is the son of Mr. and Mrs. W. N. Martin of Amarillo.

8 Million Is Seen In Tourist Trade

Up in Denver a motor travel bureau that checks up on its customers say that 336,000 of those customers will visit Texas during 1938 and will spend about \$37,000,000 while here. This is the Conoco Travel Bureau, maintained by the Continental Oil Company and directed by Joe H. Thompson, who bases his predictions on last year's records and on the tourist trend in the early months of this year. Says Thompson, "The figures on Texas support the belief that this state is becoming more popular. According to present indications the number of visiting cars and motorists in 1938 will compare favorably with any earlier year. "We estimate that motor tourists routed by our bureau will spend about \$9,000,000 in retail stores, \$8,000,000 in restaurants and other eating places, \$7,500,000 for gasoline, oil and other transportation costs and a similar amount for hotel accommodations and lodgings. About \$3,000,000 will go for amusements and \$2,000,000 for souvenirs and incidentals."

Capt. Berry Sent To Wichita Falls

Capt. M. L. Berry of the Texas Highway Patrol, who has directed patrol activities in the Amarillo district since April, 1936, will be transferred to command of the Wichita Falls district June 1, it was announced in Austin Saturday. He will be succeeded by Sgt. Jim Line, now of Dallas, who will become Captain. Capt. Berry is well known in Clarendon having been here on several occasions on business and has spoken on the subject of safe driving before the Clarendon Lions Club and at school chapel programs. He succeeds Capt. John Draper at Wichita Falls. Capt. Draper will be transferred to Dallas to take the place of Capt. Lee Miller, recently made a member of the Texas Ranger force. At present Capt. Berry is an instructor in the state police school at Austin in which 100 additional state police are being groomed for active duty.

Perryton Boys Buy Donley County Hogs

C. H. Williams, vocational agriculture instructor of the Perryton High School, and a number of his students were in Donley county Saturday buying registered gilts and pigs for their project work for the coming year. The group bought three registered bred gilts and four registered gilt pigs from the Hampshire herd of Elba Ballew. Williams expressed himself as being unusually pleased with the quality of the animals. The gilts will furnish the foundation for an improved hog program by the Perryton F. F. A. In the past year the quality of Donley county hogs has been publicized to a new high point, hog men here say. Claude, White Deer, McLean, Samnorwood, Lakeview, Silverton and Perryton students have all bought foundation stock from local F. F. A. members and breeders.

HOME FROM LIONS MEET

Mr. and Mrs. Sam M. Braswell returned here yesterday afternoon from San Antonio, where they attended the State Lions Convention, in which the former was one of the delegates from this district, and a candidate for endorsement of Texas for the 3rd Vice Presidency of the International organization. George R. Jordan of Dallas was given the endorsement by unanimous vote when the Clarendon man withdrew his name shortly before the vote was taken Tuesday afternoon. The 1939 State Lions convention goes to Waco, and S. A. Stewart of Dallas was re-elected secretary.
